The President

PROCLAMING THE NEUTRALITY OF THE UNITED STATES IN THE WAR BETWEEN GERMANY, ON THE ONE HAND, AND CANADA, ON THE OTHER HAND

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS a state of war unhappily exists between Germany, on the one hand, and Canada, on the other hand; NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, in order to preserve the neutrality of the United States and of its citizens and of persons within its territory and jurisdiction, and to enforce its laws and treaties, and in order that all persons, being warned of the general tenor of the laws and treaties of the United States in this behalf, and of the law of nations, may thus be prevented from any violation of the same, do hereby declare and proclaim that all of the provisions of my proclamation of September 5, 1939, proclaiming the neutrality of the United States in war between Germany and France; Poland; and the United Kingdom, India, Australia and New Zealand apply equally in respect to Canada.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the city of Washington this 10th day of September, in the year of our Lord nineteen hundred and thirty-nine, and of the Independence of the United States of America the one hundred and sixty-fourth.

FRANKLIN D. ROOSEVELT

WORLD'S FAIR, NEW YORK CITY

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS there is now in progress at New York City a World's Fair for the purpose of celebrating the one hundred and fiftieth anniversary of the inauguration of the first President of the United States of America and of the establishment of the national government in the city of New York; and
WHEREAS it has been made evident that through the medium of the World's Fair at New York peaceful intercourse between nations is promoted, and the exchange of ideas, experience, and technical knowledge between many parts of the earth has been encouraged; and
WHEREAS, especially at the present time, it is fitting and proper that the ideal of peaceful intercourse be furthered as offered by the only ultimate hope towards progress and peace; and
WHEREAS a Joint Resolution of Congress, approved June 15, 1936, reads in part as follows:
Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States be, and he is hereby, authorized and respectfully requested by proclamation, or in such manner as he may deem proper, to invite foreign countries and nations to such proposed world's fair with a request that they participate therein.

AND WHEREAS by proclamation dated the sixteenth day of November, 1936, in compliance with the aforesaid Joint Resolution, I invited the participation of the nations in this World's Fair, and many nations are presently participating therein;
NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, in compliance with the aforesaid Joint Resolution of Congress, do invite the nations presently participating in the said World's Fair to continue their participation therein during the calendar year 1940, or such part thereof as may seem appropriate.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States of America to be affixed.

MAKING FUNDS AVAILABLE FOR THE PROTECTION OF AMERICAN CITIZENS IN FOREIGN COUNTRIES DURING THE EXISTING EMERGENCY.

WHEREAS the Department of State Appropriation Act, 1940 (53 Stat. 890), provides, in part, as follows:

"Emergency arising in the Diplomatic and Consular Service: To enable the President to meet unforeseen emergencies arising in the Diplomatic and Consular Service, and to extend the commercial and other interests of the United States and to meet the necessary expenses attendant upon the execution of the Neutrality Act, to be expended pursuant to the requirement of section 391 of the Revised Statutes (31 U.S.C. 107),
NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and by Revised Statutes, section 3667, as amended (U.S.C. title 31, sec. 665), it is hereby ordered as follows:

1. The Attorney General shall increase the personnel of the Federal Bureau of Investigation, Department of Justice, in such number, not exceeding 150, as he shall find necessary for the proper performance of the additional duties imposed upon the Department of Justice in connection with the national emergency.

2. To the extent made necessary by this order the Department of Justice is hereby authorized to waive or modify the monthly or other apportionments of its appropriations for contingent expenses or other general purposes for the fiscal year ending June 30, 1940.

EXECUTIVE ORDER

ESTABLISHING THE DIVISIONS OF THE EXECUTIVE OFFICE OF THE PRESIDENT AND DEFINING THEIR FUNCTIONS AND DUTIES

By virtue of the authority vested in me by the Constitution and Statutes, and in order to effectuate the purposes of the Reorganization Act of 1939, Public No. 19, Seventy-sixth Congress, approved April 3, 1939, and of Reorganisation Plans Nos. I and II submitted to the Congress by the President and made effective as of July 1, 1939 by Public Resolution No. 2, Seventy-sixth Congress, approved June 7, 1939, by organizing the Executive Office of the President with functions and duties so prescribed and responsibilities so fixed that the President will have adequate machinery for the administrative management of the Executive branch of the Government, it is hereby ordered as follows:

I

There shall be within the Executive Office of the President the following principal divisions, namely: (1) The White House Office, (2) the Bureau of the Budget, (3) the National Resources Planning Board, (4) the Liaison Office for Personnel of the Federal Government, (5) the Office of Government Reports, and (6) in the event of a national emergency, or threat of a national emergency, such office for emergency management as the President shall determine.

II

The functions and duties of the divisions of the Executive Office of the President are hereby defined as follows:

1. The White House Office. In general, to serve the President in an intimate capacity in the performance of the many detailed activities incident to his immediate office. To that end, The White House Office shall be composed of the following principal subdivisions, with particular functions and duties as indicated:

(a) The Secretaries to the President. To facilitate and maintain quick and easy communication with the Congress, the individual members of the Congress, the heads of executive departments and agencies, the press, the radio, and the general public.

(b) The Executive Clerk. To provide for the orderly handling of documents and correspondence within The White House Office, and to organize and supervise all clerical services and procedures relating thereto.

(c) The Administrative Assistants to the President. To assist the President in such matters as he may direct, and at the specific request of the President, to get information and to condense and summarize it for his use. These Administrative Assistants shall be personal aides to the President and shall have no authority over anyone in any department or agency, including the Executive Office of the President, other than the personnel assigned to their immediate offices. In no event shall the Administrative Assistants be interposed between the President and the head of any department or agency, or between the President and any one of the divisions in the Executive Office of the President.

2. The Bureau of the Budget. (a) To assist the President in the preparation of the Budget and the formulation of the fiscal program of the Government.

(b) To supervise and control the administration of the Budget.

(c) To conduct research in the development of improved plans of administrative management, and to advise the executive departments and agencies of the Government with respect to improved administrative organization and practice.

(d) To aid the President to bring about more efficient and economical conduct of Government service.

(e) To assist the President by clearing and coordinating departmental advice on proposed legislation and by making recommendations as to Presidential action on legislative enactments, in accordance with past practice.

(f) To assist in the consideration and clearance and, where necessary, in the preparation of proposed Executive orders and proclamations, in accordance with the provisions of Executive Order No. 7298 of February 18, 1936.

(g) To plan and promote the improvement, development and coordination of Federal and other statistical services.

(h) To keep the President informed of the progress of activities by agencies of the Government with respect to work proposed, work actually initiated, and work in process, together with the relative timing of work between the several agencies of the Government; all to the end that the work programs of the serv-
of the Executive branch of the Government may be expedited in the most economical manner possible with the least possible overlapping and duplication of effort.

3. The National Resources Planning Board. (a) To survey, collect data on, and analyze problems pertaining to national resources, both natural and human, and to recommend to the President and the Congress long-time plans and programs for the wise use and fullest development of such resources.

(b) To consult with Federal, regional, state, local, and private agencies in developing orderly programs of public works and to list for the President and the Congress all proposed public works in the order of their relative importance with respect to (1) the greatest good to the greatest number of people, (2) the emergency necessities of the Nation, and (3) the social, economic, and cultural advancement of the people of the United States.

(c) To inform the President of the general trend of economic conditions and to recommend measures leading to their improved stabilization.

(d) To act as a clearing house and means of coordination for planning activities throughout various levels and fields of planning.

4. The Liaison Office for Personnel Management. In accordance with the statement of purpose made in the Messages to Congress of April 25, 1939, accompanying Reorganization Plan No. I, one of the Administrative Assistants to the President, authorized in the Reorganization Act of 1939, shall be designated by the President as Liaison Officer for Personnel Management and shall be in charge of the Liaison Office for Personnel Management. The functions of this office shall be:

(a) To assist the President in the better execution of the duties imposed upon him by the Provisions of the Constitution with respect to personnel management, especially the Civil Service Act of 1883, as amended, and the rules promulgated by the President under authority of that Act.

(b) To assist the President in maintaining closer contact with all agencies dealing with personnel matters insofar as they affect or tend to determine the personnel management policies of the Executive branch of the Government.

5. The Office of Government Reports. (a) To provide a central clearing house through which individual citizens, organizations of citizens, state or local governmental bodies, and, where appropriate, agencies of the Federal Government, may transmit inquiries and complaints and receive advice and information.

(b) To assist the President in dealing with special problems requiring the clearance of information between the Federal Government and state and local governmental and private institutions.

(e) To collect and distribute information concerning the purposes and activities of executive departments and agencies for the use of the Congress, administrative officials, and the public.

(d) To keep the President currently informed of the opinions, desires, and complaints of citizens and groups of citizens and of state and local governments with respect to the work of Federal agencies.

(e) To report to the President on the basis of the information it has obtained possible ways and means for reducing the cost of the operation of the Government.

III

The Bureau of the Budget, the National Resources Planning Board, and the Liaison Office for Personnel Management shall constitute the three principal divisions of the Office of the Executive branch of the Government for the (1) preparation and administration of the Budget and improvement of administrative management and organization, (2) planning for conservation and utilization of the resources of the Nation, and (3) personnel management, none of which belongs in any department but which are necessary for the over-all management of the Executive branch of the Government, so that the President will be enabled the better to carry out his Constitutional duties of informing the Congress with respect to the state of the Union, of recommending appropriate and expedient measures, and of seeing that the laws are faithfully executed.

IV

To facilitate the orderly transaction of business within each of the five divisions herein defined and to clarify the relations of these divisions with each other and with the President, I direct that the Bureau of the Budget, the National Resources Planning Board, the Liaison Office for Personnel Management, and the Office of Government Reports shall each prepare regulations for the governance of their internal organizations and procedures. Such regulations shall be in effect when approved by the President and shall remain in force until changed by new regulations approved by him. The President will prescribe regulations governing the conduct of the business of the division of The White House Office.

V

The Director of the Bureau of the Budget shall prepare a consolidated budget for the Executive Office of the President for submission by the President to the Congress. Annually, pursuant to the regular request issued by the Bureau of the Budget, each division of the Executive Office of the President shall prepare and submit to the Bureau estimates of proposed appropriations for the succeeding fiscal year. The form of the estimates and the manner of their consideration for incorporation in the Budget shall be the same as prescribed for other Executive departments and agencies.

The Bureau of the Budget shall likewise perform with respect to the several divisions of the Executive Office of the President such functions and duties relating to supplemental estimates, appropriations, and budget administration as are exercised by it for other agencies of the Federal Government.

VI

Space already has been assigned in the State, War and Navy Building, adjacent to The White House, sufficient to accommodate the Bureau of the Budget with its various divisions (including the Central Statistical Board), the central office of the National Resources Planning Board, the Liaison Office for Personnel Management, and the Administrative Assistants to the President, and although for the time being, a considerable portion of the work of the National Resources Planning Board and all of that of the Office of Government Reports will have to be conducted in other quarters, if and when the Congress makes provision for the housing of the Department of State in a building appropriate to its function and dignity and provision is made for the other agencies now accommodated in the State, War and Navy Building, it then will be possible to bring into this building, close to The White House, all of the personnel of the Executive Office of the President except The White House Office.

This Order shall take effect on September 11th 1939.

TITLE 7—AGRICULTURE

BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

[DEP.Q.-Q. 59]

MODIFICATIONS OF PINK BOLLWORM QUARANTINE REGULATIONS

REVISION OF REGULATIONS 2, 3, AND 4, EFFECTIVE SEPTEMBER 15, 1939

Introductory Note

Owing to the recent discovery of the pink bollworm in okra, these regulations are amended to add okra to the list of articles the interstate movement of which is restricted from regulated areas. This amendment also adds the Texas counties of Duval, Jim Hogg, La Salle, Maverick, Webb, and Zapata to the reg-
AMENDMENT NO. 1 TO THE REVISED REGULATIONS SUPPLEMENTAL TO NOTICE OF QUARANTINE NO. 52

[Approved September 11, 1939; effective September 15, 1939]

Under authority conferred by the Plant Quarantine Act of August 20, 1912 (37 Stat. 315), as amended by the Act of Congress approved March 4, 1917 (39 Stat. 1134, 1165), it is ordered that regulations 2, 3, and 4 (Secs. 301.52-2, 3, and 4) of the revised regulations supplemental to Notice of Quarantine No. 52 (Sec. 301.52) on account of the pink bollworm, which were promulgated March 7, 1939, are hereby amended to read as follows:

Regulation 2

§ 301.52-2 Regulated areas. The following areas are hereby designated as regulated areas within the meaning of these regulations and are further classed as heavily or lightly infested:

Heavily infested areas—Texas. Counties of Brewster, Culberson, Jeff Davis, Presidio, and Terrell, and all of Hudspeth County, except that part of the northwest corner of said county lying north and west of a ridge of desert land extending from the banks of the Rio Grande northeasterly through the desert immediately west of the town of McNary, such ridge being an extension of the northwest boundary line of section 11, block 65 1/2.

Lightly infested areas—Arizona. Counties of Cochise, Graham, Greenlee, Maricopa, Pinal, and Santa Cruz, and all of Pima County except that part lying west of the western boundary line of range 8 east.

Texas. Counties of Andrews, Brooks, Cameron, Cochran, Crane, Dawson, Duval, Ector, El Paso, Gaines, Glasscock, Hidalgo, Hockley, Howard, Jim Wells, Karnes, Kleberg, La Salle, Loving, Martin, Maverick, Midland, Nueces, Pecos, Reeves, Starr, Terry, Upton, Ward, Webb, Willacy, Winkler, Yoakum, and Zapata; that part of Bailey County lying south of the following-described boundary line: Beginning on the east line of said county where the county line intersects the northern boundary line of league 207; thence west following the northern boundary line of leagues 205, 203, 191, 188, 175, and 171 to the northeast corner of league 171; thence south on the western line of league 171 to the northeast corner of the W. H. L. survey; thence west along the northern boundary of the W. H. L. survey and the northern boundary of sections 63, 66, 65, 64, 63, 62, 61, and 60 of block A of the M. B. & B. survey to the western boundary of said county; that part of Lamb County lying south of the following-described boundary line: Beginning on the east line of said county where the county line intersects the northern boundary line of section 9 of the R. M. Thomson survey; thence west following the northern boundary line of sections 9 and 10 of the R. M. Thomson survey and the northern boundary line of sections 6, 5, 4, 3, 2, and 1 of the T. A. Thompson survey and the northern boundary line of leagues 637, 636, and 635 to the southwest corner of league 233; thence north on the eastern boundary line of league 239 to the northeast corner of said league; thence west on the northern boundary line of leagues 239, 238, 233, 222, 218, and 207 to the western boundary line of said county; and that part of the northwest corner of Hudspeth County lying north and west of a ridge of desert land extending from the banks of the Rio Grande northeasterly through the desert immediately west of the town of McNary, such ridge being an extension of the northwest boundary line of section 11, block 65 1/2.

Regulation 3

§ 301.52-3 Articles the interstate movement of which is restricted or prohibited—(a) Articles prohibited movement. The interstate movement from lightly infested areas into contiguous regulated areas for the purpose of ginning for which movement no permit is required.

Certificates may be issued for the interstate movement of cottonseed produced in a regulated area when it has been ginned in an approved gin and has been sterilized under the supervision of an inspector: Provided, That cottonseed, cotton lint, and cotton linters, either baled or unbaled, cottonseed, cottonseed hulls, cottonseed meal, and cake may be moved inter­state from regulated areas as prescribed herein.

(b) Articles authorized interstate movement. Seed cotton, cotton lint, and linters, either baled or unbaled, cottonseed, cottonseed hulls, cottonseed meal and cake, and okra may be moved inter­state from regulated areas as prescribed herein.

Regulation 4

§ 301.52-4 Conditions governing the issuance of certificates—(a) Cotton lint and linters. A certificate may be issued for the interstate movement of cotton lint or cotton linters, either baled or unbaled, originating in a regulated area when they have been ginned in an approved gin and have been passed in bale form between heavy steel rollers set not more than 1/64 inch apart, or have been given standard or high density compression in lieu of either rolling or fumigation: Provided further, That certificates may be issued for the interstate movement of linters produced from sterilized seed originating in a lightly infested area when produced in an authorized oil mill.

(b) Cottonseed hulls, cake, and meal. Certificates may be issued for the interstate movement of cottonseed produced in a regulated area when sterilized seed originating in a regulated area, after September 15, 1939, have been processed in an authorized oil mill.

(c) Seed cotton. The interstate movement of seed cotton will be allowed only from a lightly infested area to contiguous regulated areas for the purpose of ginning for which movement no permit is required.

(d) Okra. Certificates may be issued for the interstate movement of okra only under the following conditions: (1) When inspected by an inspector and found to be free from infestation; (2) when produced under such conditions as to render it free from infestation; (3) when processed or treated in accordance with methods which may be determined and approved by the Chief of the Bureau of Entomology and Plate Quarantine.

(f) Movement to contiguous infested areas. No certificates are required for the interstate movement of restricted articles from a lightly infested area to a contiguous, lightly or heavily infested area, or from a heavily infested area to a contiguous, heavily infested area.

This amendment shall be effective on and after September 15, 1939.

Done at the city of Washington this 11th day of September 1939.

Witness my hand and the seal of the United States Department of Agriculture.

Payments and grants of aid will be made for participation in the 1940 Agricultural Conservation Program (hereinafter referred to as the 1940 program) in accordance with the provisions of this bulletin and such modifications thereof as may hereafter be made.

§ 701.101 Allotments, yields, productivity indexes, payments, and deductions—(a) Corn—(1) National Goal. The 1940 national goal for corn is _______ acres.

(2) National and State acreage allotments. The national and State corn acreage allotments will be established by the Secretary.

(3) County acreage allotments. County acreage allotments of corn for counties in the commercial corn area shall be established by the Agricultural Adjustment Administration with the assistance of the State committee by distributing the corn acreage allotment established for the commercial corn area within the State among such counties in such State program proportion to the basis of the acreage seeded for the production of corn plus the acreage diverted from corn under the agricultural adjustment and conservation programs in such counties during the ten years 1929 to 1938, with adjustments for abnormal weather conditions and trends in acreage in accordance with a procedure approved by the Secretary.

(4) Farm acreage allotments. Acreage allotments of corn shall be determined by the county committee, with the assistance of other local committees in the county, in accordance with instructions issued by the Agricultural Adjustment Administration, for farms in the commercial corn area on the basis of tillable acres, average yield, type of soil, and topography. The allotment for any farm shall be determined for the production of corn plus the acreage diverted from corn under the agricultural adjustment and conservation programs in such counties during the ten years 1929 to 1938, with adjustments for abnormal weather conditions and trends in acreage in accordance with a procedure approved by the Secretary.

(5) Non-corn-allotment farm means a farm in the commercial corn area (a) for which no corn acreage allotment is determined, or (b) for which a corn acreage allotment of ten acres or less is determined.

(6) Acreage planted to corn means the acreage of land seeded to field corn, sweet corn, or popcorn, except (1) any acreage of sweet corn contracted to be sold for canning, (2) any acreage of sweet corn sold or to be sold for canning or freezing, (3) any acreage of sweet corn sold or to be sold or used as seed, (4) any acreage of popcorn sold or to be sold or used as seed, (5) any acreage of popcorn sold or to be sold or used as seed, (6) any acreage of popcorn sold or to be sold or used as seed.

(7) Usual acreage of corn for grain. Usual acreages of corn for grain shall be determined for all farms in Area C for which a payment is computed with respect to popcorn, tobacco, or wheat acreage allotments and on which the usual
acreage of corn for grain is more than 10 acres. The usual acreage of corn for grain shall be determined on the basis of the averages for use in making decisions in the county a acres of corn harvested for grain or diverted therefrom during the years 1937, 1938, and 1939, with appropriate adjustments for crop rotation practices. The sum of the usual acreage of corn for grain deter-

minded for such farms in the county shall not exceed the sum of the average annual acreages of corn harvested for grain or diverted therefrom on such farms during the years 1937, 1938, and 1939.

Payment: ______ cents per bushel of the normal yield of corn for the farm for each acre in the corn acreage allotment.

Deduction: (1) Farms in the commercial corn area (except non-commercial allotment farms) _______ cents per bushel of the normal yield for the farm for each acre planted to corn in excess of the corn acreage allotment.

County allotment farms in the commercial corn area _______ cents per bushel of the normal yield for the farm for each acre planted to corn in excess of 10 acres.

Cotton: (1) National goal. The 1940 national goal for cotton is _______ acres.

(2) National and State acreage allotments. The national and State cotton acreage allotments will be established by the commercial corn area, except non-commercial allotment farms ______ cents per bushel of the normal yield for the farm for each acre planted to corn in excess of 10 acres.

(3) County acreage allotments. (1) County cotton acreage allotments shall be determined by the Agricultural Adjustment Administration as follows: The State acreage allotment of cotton (less 2 percent for use in making adjustments to farms on which cotton will be planted in 1940 but on which cotton was not planted in any of the years 1937, 1938, and 1939) shall be prorated among the counties in the State on the basis of the acreage planted to cotton plus the acreage diverted from cotton under the 1937 acreage allotment for the farm shall be such highest number of acres if the county cotton acreage allotment is sufficient therefor;

(b) For any such farm with respect to which the highest number of acres required to provide an acreage allotment in such county of not less than 60 percent of the acreage planted to cotton in such county in 1937 plus 60 percent of the acreage diverted from cotton in the county under the 1937 Agricultural Conservation Program (hereinafter referred to as the 1937 program) and such increases shall not be such as to increase the allotment to any farm above 15 acres. In no event shall the allotment for any farm under this subdivision exceed the larger of the number of acres planted to cotton and diverted from cotton under the 1937 program in any one of the three years 1937, 1938, and 1939.

(ii) In case the county allotment is inadequate and not representative in view of their past production of cotton and their tilled land, there shall be apportioned to such farms such part of the 4-percent reserve as is necessary to give such farms allotments in conformity with subdivision (i) which are as nearly adequate and representative as such 4-percent reserve will permit. Such additional allotment shall be used first to increase allotments to farms under items (a) and (b) of subdivision (1).

(iii) If the cotton acreage allotments for any farms are substantially smaller than the acreage allotments which would have been made without regard to the provisions of items (a) and (b) of subdivision (1) above, the cotton acreage allotments for such farms shall be increased to the acreage which would have resulted in the absence of such provisions insofar as the remaining portion of the 4-percent Reserve will permit after making allotments under subdivision (ii) above.

(v) After allotments have been made from the 4-percent Reserve as provided in subdivisions (ii) and (iii) above, one-half of any remainder of the 4-percent Reserve shall be apportioned to farms for which the acreage allotment otherwise determined is less than the larger of the number of acres planted to cotton in 1937 and the acreage diverted from cotton production in 1937 under the 1937 program, and the other one-half of any remainder of the 4-percent Reserve shall be apportioned to farms for any farms which are determined to be inadequate and not representative in view.

of the administrative areas in any county should be treated separately in order to prevent discrimination, the county acreage allotment shall be apportioned pro rata among such administrative areas on the basis of the acreage planted to cotton in 1937 plus the acreage diverted from cotton under the 1937 program, or, if the Agricultural Adjustment Administration determines that circumstances are such affecting the acreage planted to cotton were not reasonably uniform throughout the county in 1937, then on the basis of the cotton base acreages determined under the 1937 Cotton Price Adjustment Plan. Allotments to the farms within each such administrative area shall be made in the manner provided in subparagraph (4) of this paragraph (b) for the apportionment of county cotton acreage allotments.

Farm acreage allotments. Farm acreage allotments for cotton shall be determined by the county committee, with the assistance of other local committees, in accordance with instructions issued by the Agricultural Adjustment Administration and the following provisions:

(i) County cotton acreage allotments shall be apportioned among the farms in the county on which cotton was planted in any one of the years 1937, 1938, and 1939 in a manner that will result in a cotton acreage allotment for each such farm which is a percentage (which shall be the same percentage for all farms in the county or administrative area) of the land in this farm in 1939 which was tilled annually or in regular rotation exclusive of the acres of such land normally devoted to the production of sugarcane for sugar, wheat, tobacco, or rice for feeding to livestock for market, except that:

(a) For any such farm with respect to which the highest acreage planted to cotton and diverted from cotton under the 1937 program, or if the county cotton acreage allotment is insufficient therefor;

(b) For any such farm with respect to which the highest number of acres required to provide an acreage allotment in such county of not less than 60 percent of the acreage planted to cotton in such county in 1937 plus 60 percent of the acreage diverted from cotton in the county under the 1937 Agricultural Conservation Program (hereinafter referred to as the 1937 program) and such increases shall not be such as to increase the allotment to any farm above 15 acres. In no event shall the allotment for any farm under this subdivision exceed the larger of the number of acres planted to cotton and diverted from cotton under the 1937 program in any one of the three years 1937, 1938, and 1939.

(ii) In case the county allotment is inadequate and not representative in view of their past production of cotton and their tilled land, there shall be apportioned to such farms such part of the 4-percent reserve as is necessary to give such farms allotments in conformity with subdivision (i) which are as nearly adequate and representative as such 4-percent reserve will permit. Such additional allotment shall be used first to increase allotments to farms under items (a) and (b) of subdivision (1).

(iii) If the cotton acreage allotments for any farms are substantially smaller than the acreage allotments which would have been made without regard to the provisions of items (a) and (b) of subdivision (1) above, the cotton acreage allotments for such farms shall be increased to the acreage which would have resulted in the absence of such provisions insofar as the remaining portion of the 4-percent Reserve will permit after making allotments under subdivision (ii) above.

(v) After allotments have been made from the 4-percent Reserve as provided in subdivisions (ii) and (iii) above, one-half of any remainder of the 4-percent Reserve shall be apportioned to farms for which the acreage allotment otherwise determined is less than the larger of the number of acres planted to cotton in 1937 and the acreage diverted from cotton production in 1937 under the 1937 program, and the other one-half of any remainder of the 4-percent Reserve shall be apportioned to farms for any farms which are determined to be inadequate and not representative in view.
of past production on the farm: Provided, That the cotton acreage allotment for any farm shall not be increased under this subdivision (iv) above the highest number of acres planted to cotton and diverted from cotton under agricultural conservation programs in any one of the three years 1937, 1938, and 1939: Provided further, That the cotton acreage allotment for any farm shall not be increased under this subdivision (iv) above 40 percent of the acreage on such farm which is tilled annually or in regular rotation, except, in States where the total acreage available for such adjustment is less than 5,000 acres, in irrigated areas where the Agricultural Adjustment Administration determines that the application of this limitation would prevent the determination of allotments which are adequate and representative in view of past production on the farms.

(v) Notwithstanding the provisions of subdivisions (i), (ii), (iii), and (iv) above, the cotton acreage allotment for any farm shall be increased by such amount as may be necessary to provide an additional increment of 50 percent of the average of the yields on the farm for the five years 1935 to 1939, or the period of which such yields are available, to be taken into consideration. Provided, That the cotton acreage allotment for any farm shall not be increased under this subdivision to more than 40 percent of the acreage on such farm which is tilled annually or in regular rotation.

(vi) If for any year of such five-year period records of the actual average yield of cotton per acre for the five years 1938 to 1939 are presented by the farmer or are available to the county committee, the normal yield for the farm shall be the average of such yields adjusted for abnormal weather conditions.

(vii) The yields determined under subdivision (ii) of this paragraph (2) shall be adjusted so that the average of the normal yields determined for all farms in the counties, or administrative area (weighted by the cotton acreage allotments determined for such farms) shall conform to the normal yield which the Secretary determines to be the yield which was or could reasonably have been expected on the farm for such five-year period; and

(viii) That portion of the State acreage allotment not apportioned among the counties under section 701.101 (b)

(3) Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a cotton acreage allotment is determined or a deduction is computed a normal yield for cotton in accordance with instructions issued by the Agricultural Adjustment Administration and the following provisions:

(1) Where reliable records of the actual average yield of cotton per acre for the five years 1938 to 1939 are presented by the farmer or are available to the county committee, the normal yield for the farm shall be the average of such yields adjusted for abnormal weather conditions.

(2) If for any year of such five-year period records of the actual average yield of cotton per acre are not available or there was no actual yield because cotton was not produced on the farm in such year, the normal yield for the farm shall be the yield which is equal to the average of the yields on farms similar with respect to land, labor, and equipment available for the production of cotton, crop rotation practices, and the soil and other physical facilities affecting the production of cotton. The acreage on the farm which will be tilled in 1940 or was tilled in 1939 shall, as a reflection of the several factors to be taken into consideration, be regarded as the basic index of the farm's capacity for cotton production. The county committee shall report, through the State committee, to the Agricultural Adjustment Administration the acreage required for the allotments to such farms in the county together with such substantiating data as may be required by the Agricultural Adjustment Administration, and the Agricultural Adjustment Administration shall allot to the county the proportion of that part of the State acreage allotment reserved for this purpose which it finds reasonable on the basis of the data so reported.

(3) Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a peanut acreage allotment is determined or a deduction is computed a normal yield for peanuts in accordance with instructions issued by the Agricultural adjustment Administration and the following provisions:

(1) Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a peanut acreage allotment is determined or a deduction is computed a normal yield for peanuts in accordance with instructions issued by the Agricultural adjustment Administration and the following provisions:

(2) Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a peanut acreage allotment is determined or a deduction is computed a normal yield for peanuts in accordance with instructions issued by the Agricultural adjustment Administration and the following provisions:

(3) Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a peanut acreage allotment is determined or a deduction is computed a normal yield for peanuts in accordance with instructions issued by the Agricultural adjustment Administration and the following provisions:

(4) Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a peanut acreage allotment is determined or a deduction is computed a normal yield for peanuts in accordance with instructions issued by the Agricultural adjustment Administration and the following provisions:

(5) Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a peanut acreage allotment is determined or a deduction is computed a normal yield for peanuts in accordance with instructions issued by the Agricultural adjustment Administration and the following provisions:

(6) Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a peanut acreage allotment is determined or a deduction is computed a normal yield for peanuts in accordance with instructions issued by the Agricultural adjustment Administration and the following provisions:

(7) Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a peanut acreage allotment is determined or a deduction is computed a normal yield for peanuts in accordance with instructions issued by the Agricultural adjustment Administration and the following provisions:

(8) Deduction: ______ cents per pound of the normal yield of peanuts for the farm for each acre planted to cotton in excess of its cotton acreage allotment.

(9) Deduction: ______ cents per pound of the normal yield of peanuts for the farm for each acre planted to cotton in excess of its cotton acreage allotment.

(10) Deduction: ______ cents per pound of the normal yield of peanuts for the farm for each acre planted to cotton in excess of its cotton acreage allotment.

(11) Deduction: ______ cents per pound of the normal yield of peanuts for the farm for each acre planted to cotton in excess of its cotton acreage allotment.

(12) Deduction: ______ cents per pound of the normal yield of peanuts for the farm for each acre planted to cotton in excess of its cotton acreage allotment.

(13) Deduction: ______ cents per pound of the normal yield of peanuts for the farm for each acre planted to cotton in excess of its cotton acreage allotment.

(14) Deduction: ______ cents per pound of the normal yield of peanuts for the farm for each acre planted to cotton in excess of its cotton acreage allotment.

(15) Deduction: ______ cents per pound of the normal yield of peanuts for the farm for each acre planted to cotton in excess of its cotton acreage allotment.

(16) Deduction: ______ cents per pound of the normal yield of peanuts for the farm for each acre planted to cotton in excess of its cotton acreage allotment.
approval by the Agricultural Adjustment Administration.

(7) Peanuts for market means all peanuts harvested for nuts on a farm on which crops are the main source of income, the vines by mechanical means and from which the major portion of the production is sold to persons not living on the farm.

(8) Payment: ______ dollars per ton of the normal yield of peanuts for the farm for each acre in its peanut acreage allotment.

(9) Deduction: (For farms in commercial peanut area) ______ dollars per ton of the normal yield of peanuts for the farm for each acre in its peanut acreage allotment.

(a) Potatoes—(1) National goal. The 1940 national goal for potatoes is ______ to ______ acres.

(2) National and State acreage allotments. The national and State potato acreage allotments will be established by the Secretary.

(3) County acreage allotments. County acreage allotments of potatoes for counties in the commercial potato area shall be determined by the Agricultural Adjustment Administration, with the assistance of the State committee, by distributing the State acreage allotment of potatoes among such counties in such State on the basis of the acreage allotments determined under the 1939 program, or, if counties are included for which acreage allotments were not determined under the 1939 program, on the basis of the average acreage devoted to potatoes in such counties during the years 1935 to 1939, taking into consideration trends in acreage on commercial potato farms and the acreage of potatoes on noncommercial potato farms.

(4) Farm acreage allotments. In counties included in the commercial potato area, a potato acreage allotment shall be determined by the county committee, with the assistance of other local committees in the county, in accordance with instructions issued by the Agricultural Adjustment Administration, for each farm for which the normal acreage of potatoes is determined to be three acres or more. Provided, That in areas designated by the Agricultural Adjustment Administration where more than three acres of potatoes are grown for home use on a substantial number of farms, for each acre planted to potatoes on a farm in excess of three acres.

(5) Payment: ______ cents per bushel of the normal yield of potatoes for the farm for each acre in its potato allotment.

(6) Deduction: (Farms in the commercial potato area) ______ cents per bushel of the normal yield for the farm for each acre planted to potatoes in excess of the larger of its potato acreage allotment or three acres, or, on farms for which no allotment is determined, in areas designated by the Agricultural Adjustment Administration where more than three acres of potatoes are grown for home use on a substantial number of farms, for each acre planted to potatoes for market in excess of three acres.

(a) Rice—(1) National goal. The 1940 national goal for rice is ______ to ______ acres.

(2) National and State acreage allotments. The national and State rice acreage allotments will be established by the Secretary.

(3) Farm acreage allotments. A rice acreage allotment shall be determined by the State and county committees, with the assistance of other local committees in the county, in accordance with instructions issued by the Agricultural Adjustment Administration, for each producer who is participating in the production of rice in 1940.

(1) The acreage allotment for a producer who participated in the production of rice in one or more of the five years 1935 to 1939 shall be determined on the basis of the past production of rice adjusted to the acreage adapted to the production of rice, taking into consideration crop rotation practices, soil fertility, the acreage diverted under previous agricultural adjustment or conservation programs and other physical factors affecting the production of rice, including the labor and equipment available for the production of rice on the farm.

(2) National goal. The 1939 national goal for Burley tobacco is ______ to ______ acres;
National and State acreage allotments. The national and State acreage allotments for each kind of tobacco will be established by the Secretary.

Farm acreage allotments. The acreage allotment for each kind of tobacco for any farm on which tobacco was grown in one or more of the five years 1935-1939 shall be determined by the county committee, with the assistance of other local committees in the county, in accordance with instructions issued by the Agricultural Adjustment Administration, on the basis of the past production of tobacco harvested and diverted with due allowance for drought, floods, and other abnormal weather conditions; plant-bed and other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the yield of tobacco. Special consideration shall be given to farms for which acreage allotments are small.

The allotment for any farm on which tobacco is produced in 1940 for the first time since 1934 shall be determined by the county committee, with the assistance of other local committees in the county, in accordance with instructions issued by the Agricultural Adjustment Administration, on the basis of the tobacco-producing experience of the farm operator, land, labor, and equipment available for the production of tobacco, crop rotation practices, and the soil and other physical factors affecting the production of tobacco.

Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a tobacco acreage allotment is determined or a deduction is computed the normal yield for tobacco in accordance with instructions issued by the Agricultural Adjustment Administration and the following provisions:

(i) The normal yield for any farm on which tobacco was produced in one or more of the five years 1935-1939 shall be determined on the basis of the yields of tobacco grown on the farm in such five-year period, taking into consideration the soil and other physical factors affecting production of tobacco on the farm, and the yields obtained on other farms in the locality which are similar with respect to such factors.

(ii) The normal yield for any farm on which tobacco is produced in 1940 for the first time since 1934 shall be that yield per acre which the local committee determines to be fair and reasonable in the locality as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

(iii) The weighted average of the normal yields for all farms in each county shall not exceed the yield established for the county by the Secretary.

Payment: The following numbers of cents per pound of the normal yield per acre for tobacco for each acre in its tobacco acreage allotment for each of the following kinds of tobacco:

1. Burley, _______ cent.
2. Flue-cured, _______ cent.
3. Fire-cured and dark air-cured, _______ cent.
4. Cigar filler and binder (except Type 45), _______ cent.
5. Georgia-Florida Type 62, _______ cent.

Commercial vegetables. (1) Farm acreage allotments. In counties included in the commercial vegetable area a commercial vegetable acreage allotment will be determined by the county committee, with the assistance of other local committees in the county, in accordance with instructions issued by the Agricultural Adjustment Administration, for each farm on which such average acreage is one acre or more. The commercial vegetable acreage allotment shall be determined on the basis of the average acreage for 1936 and 1937, multiplied by the average of a pound of the normal yield for commercial vegetables in three acres or more, or in areas designated by the Agricultural Adjustment Administration, on the basis of recommendations by the State committee, for each farm on which such average acreage is one acre or more. The commercial vegetable acreage allotment shall be established by the Secretary and the distribution of commercial vegetables shall be made to persons living on the farm.

(2) National and State acreage allotments. The national and State acreage allotment for each kind of tobacco will be determined by the Secretary.

Deduction: (1) National goal. The 1940 national goal for wheat is 60 million to 65 million acres.

(2) National and State acreage allotments. The national and State wheat acreage allotments will be determined by the Secretary.

County acreage allotments. County acreage allotments of wheat shall be established by the Agricultural Adjustment Administration, with the assistance of the State committee, by distributing the State acreage allotment of wheat among the counties in such State pro rata on the basis of the acreage seeded for the production of wheat plus the acreage diverted under agricultural adjustment or conservation programs in such counties during the ten years 1929 to 1938, with appropriate adjustments for abnormalities of weather conditions and trends in acreage.

(3) Farm acreage allotments. The average acreage of wheat shall be determined by the county committee, with the assistance of other local committees in the county, in accordance with instructions issued by the Agricultural Adjustment Administration, for farms on which wheat has been planted for harvest in one or more of the years 1937,
1938, and 1939, on the basis of tillable acreage and crop rotation practices as reflected in the usual acreage of wheat on the farm, or the ratio of wheat acreage to cropland in the community or in the region where the farm is located or the type of soil and topography. Not more than 3 percent of the county wheat acreage allotment shall be apportioned to farms in such county on which wheat will be planted for harvest in 1948 but on which wheat was not planted for harvest in any one of the three years 1937, 1938, and 1939, on the basis of tillable acreage, crop rotation practices, type of soil, and topography. The wheat acreage allotment for any farm shall compare with the wheat acreage allotments determined for other farms in the same community which are similar with respect to such factors. For any farm for which a wheat acreage allotment is determined if the persons having an interest in the farm planted on the farm so elect, such farm shall be considered for the purposes of the 1940 program as a non-wheat-allotment farm. The wheat acreage allotments determined for farms in a county shall not exceed their proportionate share of the county wheat acreage allotment.

5) Usual acreage of wheat. Usual acreage of wheat shall be determined for all non-wheat-allotment farms in Area B and in Area C on which the normal acreage of wheat harvested as grain, or for any other purpose, after reaching maturity, is more than ten acres. The usual acreage of wheat shall be determined on the basis of the past acreage with due allowance for the effects of abnormal weather conditions, tillable acreage, crop rotation practices, type of soil, and topography. The sum of the usual wheat acreages determined for such farms in a county shall not exceed the sum of the 1937-1938 average acreages of wheat harvested for grain, or for any other purpose after reaching maturity, on such farms, except upon approval by the Agricultural Adjustment Administration, to have such farms considered for the purposes of the 1940 program as a non-wheat-allotment farm.

6) Normal yields. The county committee, with the assistance of other local committees in the county, shall determine for each farm for which a wheat acreage allotment is determined a deduction computed a normal yield for wheat in accordance with instructions issued by the Agricultural Adjustment Administration and the following provisions:

(i) Where reliable records of the actual average yields per acre of wheat for the ten years 1929 to 1938 are presented by the farmer or are available to the committee, the normal yield for the farm shall be the average of such yields adjusted for trends and abnormal weather conditions.

(ii) If for any year of such ten-year period reliable records of the actual average yield are not available or there was no actual yield because wheat was not produced on the farm in such year, the normal yield shall be the yield which, on the basis of all available facts, including the yield customarily made on the farm, weather conditions, type of soil, drainage, production practices, and crop rotation practices, and soil and topography, the county committee determines to be the yield which was or could reasonably have been expected on the farm for such ten-year period.

(iii) For any farm for which a wheat acreage allotment is determined or a farm in which the normal yield is not adjusted for trends in acreage of soil-depleting crops, changes in area designations and crop classifications, the acreage of food and feed crops needed for home consumption in the county, and the relationship of the special crop acreage allotments established for 1939 to the special crop acreage allotments established for 1940.

9) Payment: Wheat allotment farms. The national and State soil-depleting acreage allotments initiated for each acre planted to wheat in excess of its wheat acreage allotment.

(ii) Non-wheat-allotment farms. The national goal for total soil-depleting crops is to 3.0 acres.

The national and State total soil-depleting acreage allotments will be established by the Secretary.

3) County acreage allotments. County acreage allotments of total soil-depleting crops shall be determined by the Agricultural Adjustment Administration, with the assistance of the State committees, by distributing the State acreage allotment of total soil-depleting crops among the counties in the State on the basis of the total soil-depleting acreage allotments determined in connection with the 1939 Agricultural Conservation Program (hereinafter referred to as the 1939 program), with due allowance for trends in acreage of soil-depleting crops, changes in area designations and crop classifications, the acreage of food and feed crops needed for home consumption in the county, and the relationship of the special crop acreage allotments established for 1939 to the special crop acreage allotments established for 1940.

4) Farm acreage allotments. The total soil-depleting acreage allotment for any farm shall be determined by the methods set out in the regulations and other rules and regulations of the Agricultural Adjustment Administration.
Regions, and farms in Area B in the Southern Region on which general crops or livestock are produced for market and for which a special crop acreage allotment (other than a commercial vegetable crop or general crops) is determined by the Agricultural Adjustment Administration.

(5) Productivity indexes. The Secretary will establish for each county or portion of a county in Area A a county productivity index or per-acre rates of payment and deduction, which will vary among the counties as the productivity of the cropland in the county devoted to the production of general soil-depleting crops varies as compared with the productivity of cropland in the United States devoted to the production of such crops.

A productivity index or per-acre rate shall be determined for each farm in Area A, in accordance with instructions issued by the Agricultural Adjustment Administration, by the county committee with the assistance of the local committees in the county. Such productivity index or per-acre rate shall be based upon the normal yield per acre for the farm of the major soil-depleting crop in the county as compared with the normal yield per acre for such crop in the county. Where the yield of the major soil-depleting crop in the county does not accurately reflect the productivity of a farm, the yield of any crop that does accurately reflect the productivity of the farm may be used, provided that the productivity index or per-acre rate for such farm shall be adjusted, if necessary, so as to be fair and equitable as compared with the productivity indexes or per-acre rates for other farms in the county having similar soils or productive capacity, and as contrasted with other farms in the county having different soils or productive capacity.

The average productivity index or per-acre rate for all farms for which productivity indexes or per-acre rates are determined in the county shall not exceed 190 or the county per-acre rate, or, in the North Central Region, the county per-acre rate will be 25 cents per acre, respectively, unless it is determined that farms for which such indexes or per-acre rates are determined are not representative of all farms in the county and a variation is approved by the Agricultural Adjustment Administration.

(6) Non-general-allotment farm means a farm in Area A for which a total soil-depleting acreage allotment (excluding the cotton acreage allotment) of 20 acres or less is determined in any case where the person having an interest in the general soil-depleting crops planted on the farm elect to have such farm considered for the purposes of the 1940 program as a non-general-allotment farm.

(7) General soil-depleting crops or general crops means all crops and land listed in the definition of soil-depleting acreage, except (1) corn, wheat, cotton, rice, tobacco, potatoes, peanuts, commercial vegetables, if a separate payment or deduction is computed for the farm with respect to such crop, and (2) sugar beets and sugar cane for sugar: Provided, That corn on a non-corn-allotment farm and wheat on a non-wheat-allotment farm shall always be regarded as general crops for the purpose of determining the division of the net deduction computed with respect to general crops.

(8) Payment: (Farms in Area A, except non-general-allotment farms) ________ dollars per acre, adjusted for the productivity of the farm, for each acre in the total soil-depleting acreage allotment determined for the farm in excess of the sum of (1) the special crop acreage allotments determined for the farm and (ii) the acreage of sugar beets planted for harvest in 1940 for the extraction of sugar.

(9) Deductions: (i) (Farms in Area A, except non-general-allotment farms) ________ dollars per acre, adjusted for the productivity of the farm, for each acre of the major soil-depleting crop in excess of the sum of (1) 20 acres, (2) the acreage of sugar beets planted for harvest in 1940, and (3) the acresages with respect to which deductions are computed under paragraphs (a) to (h), inclusive, of this section 701.101. (ii) (Non-general-allotment farms in Area A) ________ dollars per acre, adjusted for the productivity of the farm, for each acre of the total soil-depleting acreage in excess of the sum of (1) 20 acres, (2) the cotton acreage determined for the farm, and (3) the acreages with respect to which deductions are computed under paragraphs (a) to (h), inclusive, of this section 701.101. (iii) (Parms in Area B for which a total soil-depleting acreage allotment is determined) ________ dollars for each acre classified as soil-depleting in excess of the larger of (1) the total soil-depleting acreage allotment determined for the farm plus the acreages with respect to which deductions are computed under paragraphs (a) to (h), inclusive, of this section 701.101, or (2) 20 acres plus the acreages on which cotton is planted or tobacco is grown.

(9) (j) Restoration land—(1) Farm restoration land. Restoration land shall be designated by the county committee, with the assistance of other local committees in the county, in accordance with instructions issued by the Agricultural Adjustment Administration, on the basis of the land in the farm which was designated as restoration land under the 1939 or 1938 program and any additional land in the farm which has been cropped at least once since January 1, 1930, and which in the opinion of the county committee as a good farming practice for the purpose other than tillage practices to protect the land from wind erosion or tillage operations in connection with the seedling of an approved non-depleting cover crop or permanent grass mixture.

(c) Miscellaneous—(1) Deduction for failure to prevent wind or water erosion. $1.00 for each acre of land (other than restoration land) in an area designated by the Agricultural Adjustment Administration as subject to serious wind or water erosion hazards, with respect to which there are not adopted in 1940 methods recommended by the county committee and approved by the State committee for the prevention of wind or water erosion or both: Provided, That in counties designated by the Agricultural Adjustment Administration upon recommendation of the State committee the deduction for each time wind-erosion-control methods recommended by the county committee are not carried out in 1940 by the date specified by the committee.

(2) Deduction for breaking out native sod; $3.00 for each acre of native sod or any other land on which a permanent vegetative cover has been established, broken out in any area designated by the Agricultural Adjustment Administration as an area subject to serious wind erosion or as an area containing large acreages unsuited to continued production of cultivated crops, during the period November 1, 1939, to October 31, 1940, inclusive, less the deduction for each time wind-erosion-control methods recommended by the county committee are not carried out in 1940 by the date specified by the committee.

§ 701.102 Soil-building goals, payments, and practices—(a) National goal. The national goal is the conservation of the public lands and lands in the United States devoted to the production of general soil-depleting crops. For the purpose of determining the division of the net deduction computed with respect to general crops.
the cropland not required in 1940 for the growing of soil-depleting crops, the restoration, insofar as is practicable, of permanent vegetative cover on land subject to the continued production of soil-depleting crops, and the carrying-out of soil-building practices that will conserve and improve soil fertility and prevent wind and water erosion.

(b) County goals. Insofar as practicable, county goals shall be established for particular soil-building practices which are not routine farming practices in the county and which are most needed in the county in order to conserve and improve soil fertility and to prevent wind and water erosion.

(c) Farm goals. The soil-building goal for any farm shall be one unit of soil-building practices for each $1.50 of the payment computed for the farm under paragraph (d) of this section 701.102: Provided, That for any farm, in any area designated by the Agricultural Adjustment Administration as an area subject to serious erosion, which is owned or leased by a conservation district, an association determined by the State committee to have been organized for conservation purposes, or a State agency authorized by law to own or lease land for conservation or erosion-control purposes, the soil-building goal shall not be less than one unit for each $2.00 of the total payment computed for the farm and the total payment computed for such a farm shall be considered as a payment in connection with soil-building practices.

Insofar as practicable, the county committee shall determine for individual farms practices to be followed in meeting the goal which are not routine farming practices on the farm, but which are needed on the farm in order to conserve and improve soil fertility and prevent wind and water erosion and which will tend to accomplish the goals, if any, established by the committee with respect to particular soil-building practices.

(d) Payments. The payments in connection with soil-building practices shall be the sum of the following: Provided, That for any farm with respect to which the sum of the maximum payments computed under sections 701.101 and 701.102 is less than $20.00 the amount determined under this paragraph (d) shall be increased by the amount of the difference:

1. ______ cents per acre of cropland in the farm in excess of the total soil-depleting acreage allotment for the farm (applicable only to farms in Area A);

2. ______ per acre of commercial orchards and perennial vegetables on the farm January 1, 1940, except that in the Southern Region (where the commercial orchard and perennial vegetable acreage is not included in the acreage of cropland) the rate shall be ______ per acre;

3. (i) 2 cents per acre of noncrop open pasture land in the farm, plus $1.00 for each animal unit of grazing capacity (on a 12-month basis) of such pasture, in the North Central Region, the Northeast Region, New England, Montana, and Texas: Provided, That for any county or group of counties where the grazing capacity of the noncrop open pasture land is reasonably uniform such payment may, upon approval of the Agricultural Adjustment Administration, be computed at a flat rate per acre of noncrop open pasture land, such rate to be not greater than the average amount of payment per acre of noncrop pasture land determined for such county or group of counties on the basis of the foregoing rate: Provided further, That the amounts computed under this subdivision shall not be less than 10 cents times the number of such acres or 640 acres, whichever is smaller; provided that in states or areas where the range conservation program is applicable and is not combined with the Agricultural Conservation Program all non-crop open pasture land determined as range land upon recommendation of the State committee and approval of the Agricultural Adjustment Administration;

(ii) 3 cents per acre of noncrop open pasture land in excess of 100 acres (on a 12-month basis) of such pasture, in North Dakota, Montana, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada, Idaho, Oregon, and Washington: Provided, That for any county or group of counties where the grazing capacity of the noncrop open pasture land is reasonably uniform such payment may, upon approval of the Agricultural Adjustment Administration, be computed at a flat rate per acre of noncrop open pasture land, such rate to be not greater than the average amount of payment per acre of noncrop pasture land determined for such county or group of counties on the basis of the foregoing rate: Provided further, That the amounts computed under this subdivision shall not be less than 10 cents times the number of such acres or 640 acres, whichever is smaller; provided that in states or areas where the range conservation program is applicable and is not combined with the Agricultural Conservation Program all non-crop open pasture land shall be classified as range land upon recommendation of the State committee and approval of the Agricultural Adjustment Administration;

(iii) 25 cents per acre of fenced noncrop open pasture land in excess of one-half of the number of acres of cropland in the farm which is capable of maintaining during the normal pasture season at least one animal unit for each five acres of such pasture land, in the Northeast Region, or 10 cents times the number of such acres or 640 acres, whichever is smaller; provided that in states or areas where the range conservation program is applicable and is not combined with the Agricultural Conservation Program all non-crop open pasture land shall be classified as range land upon recommendation of the State committee and approval of the Agricultural Adjustment Administration;

(iv) 40 cents per acre of fenced noncrop open pasture land in excess of one-half of the number of acres of cropland in the farm, which is capable of maintaining during the normal pasture season at least one animal unit for each five acres of such pasture land, in the East Central Region and in States in the Southern Region other than Texas and Oklahoma.

(e) Hurricane damaged woodland. Payment will be made at the rate of $4.00 per acre of woodland on the farm, which constitutes a serious fire hazard as a result of hurricane damage in September, 1938, for eliminating such hazard, improving the remaining stand of trees, and providing for the restoration of a full stand, provided such work is done with the prior approval of the county committee and approval of the Agricultural Adjustment Administration. Woodland on which payment is made shall not be eligible for credit for soil-building practice 39 and payment hereunder shall not exceed $60.00 per acre. This practice is applicable only to farms in New Hampshire, Massachusetts (except Barnstable and Berkshire Counties), Rhode Island, Connecticut (except Fairfield and Litchfield Counties), Nassau and Suffolk Counties of New York, Cumberland, Oxford, and York Counties of Maine, and in addition, Essex, Franklin, Lamoille, Orange, Orleans, Washington, Windham, and Windsor Counties of Vermont.

(f) Deductions. $1.50 for each unit by which the soil-building goal is not reached; Provided, That for any farm, in any area designated by the Agricultural Adjustment Administration as an area subject to serious erosion, which is owned or leased by a conservation district, an association determined by the State committee to have been organized for conservation purposes, or a State agency authorized by law to own or lease land for conservation purposes, or a State agency authorized by law to own or lease
land for conservation or erosion-control purposes, the rate shall be $2.00.

(g) Soil-building practices. Such of the soil-building practices listed in the following schedule as the Agricultural Adjustment Administration determines to be adapted to any region and should be encouraged in such region shall count toward the achievement of the soil-building goal to the extent indicated therein when such practices are carried out under the provisions of the 1940 program during a period of not more than 12 months ending between August 31 and December 31, 1940, inclusive, in areas designated by the Agricultural Adjustment Administration and in accordance with specifications issued by the regional director or by the State committee with the approval of the regional director. The areas designated for any soil-building practice shall be areas in which such practice is desirable and necessary as a conservation measure.

The specifications issued shall be such as to assure that the soil-building practice will be performed in workmanlike manner in accordance with good farming practice for the locality.

Practices carried out with labor, seed, trees, and other materials furnished entirely by any State or Federal agency other than the Agricultural Adjustment Administration shall not be counted toward the achievement of the soil-building goal. If a portion of the labor, seed, trees, or other materials used in carrying out any practice is furnished by a State or Federal agency other than the Agricultural Adjustment Administration and such portion represents one-half or more of the total cost of carrying out such practice, such practice shall not be counted toward the achievement of the soil-building goal; if such portion represents less than half of the total cost of carrying out such practice, one-half of such practice shall be counted toward the achievement of the soil-building goal: Provided that the specifications issued shall be such as to assure that the soil-building practice will be performed in workmanlike manner in accordance with good farming practice for the locality.

The unit credits listed below are the maximum units allowable, and the credit for any practice included may, for any State or area within a State, be adjusted downward by the State committee with the approval of the Agricultural Adjustment Administration in order to reflect relatively lower costs or relative desirability of the practice.

SCHEDULE OF SOIL-BUILDING PRACTICES

Application of Materials

(1) Application of the following materials or in connection with the seeding of perennial or biennial legumes, perennial grasses, winter legumes, lespedezas, crotalaria, annual ryegrass, Natai grass, or perennial pasture, and in connection with green manure crops in orchards. If these materials are applied to or in connection with green manure crops in orchards, these materials shall be applied at the rate of 1,000 lb. per acre.

(2) Application of 300 pounds of gypsum containing not less than 18 percent sulphur (or its sulphur equivalent)—1 unit.

(3) Application of 1,000 lbs. air-dry weight, of straw or equivalent mulching material (excluding barnyard and stable manure), in commercial orchards or on commercial vegetable land in any area designated by the Agricultural Adjustment Administration as an area in which straw normally costs more than $5.00 per ton—1 unit.

(4) Application of two short tons, air-dry weight, of straw or equivalent mulching materials (excluding barnyard and stable manure), in orchards or on commercial vegetable land—1 unit.

(5) Application of the following quantities of ground limestone (or its equivalent) in any area designated by the Agricultural Adjustment Administration as an area in which the average cost of ground limestone to farmers is:

(i) Not more than $2.00 per ton, 3,000 lb.—equal 1 unit.

(ii) More than $2.00 but not more than $3.00 per ton, 1,500 lb.—equal 1 unit.

(iii) More than $3.00 but not more than $5.00 per ton, 1,000 lb.—equal 1 unit.

(iv) More than $5.00 per ton, 600 lb.—equal 1 unit.

Seedings

(6) Seeding alfalfa—2 units per acre.

(7) Seeding permanent grasses or permanent pasture mixtures containing a full seeding of legumes or grasses, or both, other than timothy and redtop soil-building practices only to varieties and areas designated by the Agricultural Adjustment Administration with respect to which the cost of establishing improved pastures is exceptionally high and their increase is important)—2 units per acre.

(8) Seeding biennial legumes, perennial legumes, perennial grasses (other than timothy or redtop), or mixtures (other than a mixture consisting solely of timothy and redtop containing biennial legumes, perennial legumes, or perennial grasses) (except any of such crops qualifying at a higher rate of credit under any other practice listed in this paragraph (g) )—1 unit per acre.

(9) Seeding winter legumes, annual ryegrass, perennial ryegrass, (or its equivalent)—1 unit per acre.

(10) Establishment of a permanent vegetative cover by planting sod pieces of perennial grasses—3 units per acre.

(11) Establishment of a permanent vegetative cover by planting crowns of kudzu—4 units per acre.

(12) Seeding timothy or redtop or a mixture consisting solely of timothy and redtop—½ unit per acre.

Pasture Improvement

(13) Reseeding depleted pastures or restoration land with good seed of adapted pasture grasses or legumes—10 pounds of seed—1 unit.

(14) Natural reseeding of noncrop open pasture by nongrazing during the normal pasture season on an acreage equal to one-half of the number of acres of such pasture required to carry one animal unit for a 12-month period—1 unit.

(15) With prior approval of the county committee, development of springs or seeps by excavation at the source, 5 cubic feet of soil or gravel or 3 cubic feet of rock formation excavated: Provided,
That the source is protected from trampling, and at least 20 cubic feet of available water storage is provided; and Provided further, That the minimum credit shall be 13 units and the maximum credit shall be 67 units for this practice (applicable only in arid or semi-arid areas) per unit.

(16) Construction of reservoirs and dams. 10 cubic yards of material moved in making the fill or excavation or 7 cubic feet of concrete or rubble masonry—1 unit.

Green Manure Crops and Cover Crops

(17) Green manure crops of which a good stand and good growth is plowed or disc ed under on land not subject to erosion or if subject to erosion such crop is followed by a winter cover crop. Cover crops of which a good stand and good growth is left on land subject to erosion or on commercial vegetable or potato land or on such other land as is designated by the Agricultural Adjustment Administration, and (4) such other crops as may be determined by the Agricultural Adjustment Administration—1 unit per acre.

Erosion Control

(19) Contour ridging or terracing of noncrop open pasture land. 750 linear feet of ridge or terrace—1 unit.

(20) Construction of 200 linear feet of ditches with a depth of one foot and a top width of four feet, or the cubic equivalent thereof, for the diversion and spreading of flood water or well water on restoration land, cropland, pasture land, or hay land (applicable only in arid and semi-arid areas)—7 cubic feet of concrete or rubble masonry—1 unit.

(22) Construction of 200 linear feet of ditching with a depth of one foot and a top width of four feet, or the cubic equivalent thereof, for the diversion and spreading of flood water or well water on restoration land, cropland, pasture land, or hay land (applicable only in arid and semi-arid areas)—1 unit.

(23) Construction of one cubic yard of rip-rap of rock along active streams for the control of erosion of farm land—1 unit.

(24) Leveling of hummocks created by wind erosion, where such practice has the prior approval of the county committee (applicable only on a farm, in an area designated by the Agricultural Adjustment Administration as an area subject to serious erosion, which is owned or leased by a conservation district, an association determined by the State committee to have been organized for conservation purposes, or the State agency authorized by law to own or lease land for conservation or erosion-control purposes—1 unit per acre.

(25) Protecting muck land subject to serious wind erosion by establishing or maintaining approved shrub wind breaks—1/2 unit per acre.

(26) Contour listing of small-grain stubble of crops harvested in 1940—1/2 unit per acre.

(27) Leaving on the land as a protection against wind erosion (only in wind-erosion areas designated by the Agricultural Adjustment Administration) the stalks of sorghums (including broomcorn) or Sudan grass, where it is determined that such cover is necessary as a protection against wind erosion and the operator’s farming plan provides that such cover will be left on the land until the spring of 1941—1/2 unit per acre.

(28) Protecting land, which was properly designated as restoration land in 1938 and fallowed in 1939 and fallowed in 1938 where it is determined by the county committee that such cover is necessary as a protection against wind erosion (applicable only in summer-fallow areas designated by the Agricultural Adjustment Administration upon recommendation of the State committee) per acre.

(29) Maintenance of a protective vegetation cover on cropland cropped in 1936 and fallowed in 1938 where it is determined by the county committee that such cover is necessary as a protection against wind erosion (applicable only in summer-fallow areas designated by the Agricultural Adjustment Administration) per acre.

(30) Strip cropping, including protection of summer fallow by means of strip fallowing—1/2 unit per acre.

(31) Protecting summer-fallowed acreage or as a part of contour seeding of small-grain crops—1/2 unit per acre.

(32) Contour seeding of small-grain stubble of crops harvested in 1940—1/2 unit per acre.

(33) Contour seeding of small-grain stubble of crops harvested in 1940—1/2 unit per acre.

(34) Cultivating, protecting, and maintaining approved shrub wind breaks—1/2 unit per acre.

(35) Contour seeding of small-grain stubble of crops harvested in 1940—1/2 unit per acre.

(36) Natural vegetative cover or small-grain stubble of crops harvested in 1940—1/2 unit per acre.

(37) Contour cultivation with a shallow furrowing or shovel-type implement following a small-grain crop harvested in 1940, furrows being not more than 20 inches apart—1/2 unit per acre.

Forestry

(38) Cultivating, protecting, and maintaining, by replanting if necessary, a good stand of forest trees, or an approved stand of forest trees and shrubs, suitable for wildlife and planted between July 1, 1936, and July 1, 1940—2 units per acre.

(39) With prior approval of the county committee, improving a stand of forest trees under such approved system of farm woodland and wildlife management as is specified by the Agricultural Adjustment Administration—2 units per acre.

(40) Planting forest trees (including shrubs beneficial to wildlife or in protective plantings) provided such trees are protected from fire and grazing and cultivated in accordance with good tree culture and wildlife management practices—5 units per acre.

(41) Restoration of farm woodlots, normally overgrazed, by nongrazing during the entire year 1940 (credit will not be allowed for more than two acres of woodland for each animal unit normally grazed on such woodland)—1/2 unit per acre.

Other Practices

(42) Growing a home garden for a landlord, tenant, or sharecropper family on a farm in accordance with specifications issued by the State committee with the approval of the regional director (applicable only in areas designated by the Agricultural Adjustment Administration upon recommendation of the State committee as areas where home gardens generally are not kept or are inadequately kept) per acre.

(43) Erdification or control of seriously infested plots of perennial noxious weeds, designated by the Agricultural Adjustment Administration upon recommendation of the State committee as areas where home gardens generally are not kept or are inadequately kept per acre.

(44) Applying sand free from stone or loam to a depth of at least one inch on fruiting cranberry bogs—5 units per acre.

(k) Annual truck and vegetable crops planted for any purpose (except when grown in a home garden for use on the farm). (l) Commercial bulbs and flowers, commercial mustard, cultivated sunflow­ ers, safflower, or hemp, harvested for any purpose. (m) Field beans planted for any purpose (except when grown in a home gar­ den for use on the farm or when incorpo­ rated into the soil as green manure). (n) Peas planted for canning, freez­ ing, or dried peas (except when grown in a home garden for use on the farm or when incorporated into the soil as green manure) (o) Soybeans harvested for seed for crushing. (p) Flax planted for any purpose (except when used as a nurse crop for biennial or perennial legumes or perennial grasses which are seeded in a workmanlike manner or, in areas desig­ nated by the Agricultural Adjustment Administration as areas where it is not practicable to use flax as a nurse crop, when such acre is for acre by biennial or perennial legumes or perennial grasses seeded alone in a workmanlike manner). (q) Wheat planted (or regarded as planted) for any purpose on a wheat­ alloting farm. (r) Wheat (on a non-wheat-allotment farm), oats, barley, rye, emmer, speltz, or mixtures of these crops, harvested for green manure (s) Wheat on a non-wheat-allotment farm, oats, barley, rye, emmer, speltz, or mixtures of these crops (including designated mixtures containing wheat on any farm), harvested for hay (except (1) when such crops are used as nurse crops for legumes or perennial grasses which are seeded in a workmanlike manner and the nurse crop is cut green for hay, or (2) when such crops are grown in a mixture containing at least 25 percent by weight of winter legumes). (t) Buckwheat, Sudan grass, or millet harvested for grain or seed. (u) Sweet sorghums, when harvested for any purpose in the East Central Region, in the North Central Region except South Dakota and Nebraska, or in Area B in the Southern Region; when harvested for grain, seed, or sirup in the Western Region, in Area A in the Southern Region, or in Nebraska and South Dakota; and when harvested for silage in the commercial corn area in the States of Kansas, Nebraska, and South Dakota. (v) Land summer-fallowed in the States of Washington, Oregon, Idaho, and Utah as to which land is seeded in 1940 to a nondepleting crop approved by the Agricultural Adjustment Administration or is irrigated land which is cultivated periodically to control noxious weeds. (w) Land summer-fallowed in any area not protected from wind and water erosion by methods approved by the State committee. (x) Such other similar crops and uses as may be specified by the Agricultural Adjustment Administration. 701.104 Division of payments and deductions.—(a) Payments and deduc­ tions in connection with general soil-deple­ ting crops, crops for which special acreage allotments are determined, and restoration land. (1) The net pay­ ment or net deduction computed for any farm with respect to general soil-deplet­ ting crops, or any crop for which a speci­ al acreage allotment is established, shall be divided among the landlords, tenants, and sharecroppers in the same manner (as indicated by their acreage shares expressed in terms of either acre­ ages or percentages) that such persons are entitled, as of the time of harvest, to share in the proceeds (other than a fixed commodity payment) of such crop grown on the farm in 1940; Provided, That if any such crop is not grown on the farm in 1940 or the acreage of such crop is substantially reduced by flood, hail, drought, insects, or plant-bed dis­ eases, the net payment or net deduction computed for such crop shall be divided among the landlords, tenants, and sharecroppers in the proportion that the county committee determines such persons would have been entitled to share in the proceeds of such crop if the entire acreage in the acreage allotment for such crop had been planted and harvested in 1940: Provided further, That if for any reason the total acreage of cotton on the farm in 1940 is less than 80 percent of the cotton allotment computed for the farm and the acreage of cotton which is or would have been grown thereon by any tenant or sharecropper in 1940 is not substantially proportionate to the acreage of cotton which a tenant or sharecropper would normally grow thereon, and all the persons who are or would have been entitled to receive a share of the proceeds of cotton grown, as shown by their signatures on the application for payment or a separate statement, the net payment or net deduc­tion computed for cotton for the farm shall be divided among the landlords, tenants, and sharecroppers in proportion that the county committee determines such persons would have been entitled to share in the proceeds of the cotton crop if the entire acreage in the cotton acreage allotment had been planted and harvested in 1940, but in no event shall the net payment or net deduction determined for any person be less than such person's acreage share of the acre­ age planted to cotton on the farm in 1940; And provided further, That, in cases where two or more separately­ owned tracts of land comprise a farm in any area designated by the Agricultural Adjustment Administration as an area in which a substantial proportion of the farms comprise two or more sepa­ rately owned tracts of land, upon writ­ ten agreement of all persons who are en­ titled to receive a share of the proceeds of any such crop the share of each such person in the net payment or net deduc­tion computed with respect to such crop on such farm shall be that share which fairly reflects the contribution of each such person to performance with respect to such crop and also results substi­ tutionally in a division of such payment or deduction among landlords, tenants, and sharecroppers as classes as each such class shares in the crop, or proceeds.
(2) The payment computed with respect to restoration land under paragraph (1) of section 701.101 shall be made to the person who is the owner of the land as of June 30, 1940, unless the land is rented for cash, in which case the payment shall be made to the cash tenant as of such date.

(3) In computing such net payments and such contributions with respect to general crops, soil-building allotments and general crops, the deduction with respect to (1) corn for grain in Area C, (2) total soil-depleting crops in Area B, (3) failure to plant restoration land, (4) breaking-out of native sod, or (5) any net deduction computed with respect to the soil-building goal for the farm shall be regarded as a deduction with respect to general crops in Area A and shall be regarded as a proration deduction with respect to the acres to which such deduction is applicable.

(b) Payments in connection with soil-building practices. The amount of net payment earned in connection with the soil-building goal for the farm shall be paid to the landlord, tenant, or sharecropper who carried out the soil-building practices. If the county committee determines that more than one such person contributed to the carrying-out of soil-building practices on the farm in the 1940 program, such payment shall be divided in the proportion that the units contributed by each such person to such practices bears to the total units of such practices carried out on the farm in such program. All persons contributing to the carrying-out of any soil-building practice on a particularacreage shall be deemed to have contributed equally to the units of such practice even though it is established to the satisfaction of the county committee that their respective contributions thereto were not in equal proportion, in which event such units shall be divided in the proportion which the county committee determines each such person contributed thereto.

(c) Proration of net deductions. If the sum of the net payments computed for all persons on a farm exceeds the sum of the net deductions computed for all persons on such farm, the sum of the net deductions computed for all persons on such farm shall be prorated among the persons on such farm for whom a net payment is computed, on the basis of such computed net payments. If the amount of the net deductions computed for all persons on a farm equals or exceeds the sum of the net payments computed for all persons on such farm, no payment will be made with respect to such farm.

§ 701.105 Increase in small payments. The total payment computed under Sec. 701.101 to 701.104, for any person with respect to any farm shall be increased as follows:

(a) Increase to $200.00.

No increase.

§ 701.106 Payments limited to $10,000. The total of all payments made in connection with section 8 of the Soil Conservation and Domestic Allotment Act to any individual, partnership, or estate with respect to farms, ranching units, and turpentine places located within a single State, territory, or possession shall not exceed the sum of $10,000, prior to deduction for association expenses in the county or counties with respect to which the particular payment is made. All payments made in connection with such programs to any person other than an individual, partnership, or estate with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, and Puerto Rico) shall not exceed the sum of $10,000, prior to deduction for association expenses in the county or counties with respect to which the particular payment is made.

$701.107 Deductions incurred on other farms.—(a) Other farms in the same county. If the deductions computed under Sec. 701.101 and 701.102 with respect to any farm in a county exceed $10,000, prior to deduction for association expenses in such county, such amount by which such deduction exceeds such payments shall be deducted from such landlord's or tenant's share of the amount by which such deduction exceeds such payments shall be deducted from such landlord's or tenant's share of such payments which has been or otherwise would be made to any person under the 1940 program may be withheld or required to be returned if he has adopted or participated in adopting any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, which was designed to evade, or would have the effect of evading, the provisions of this section.

(b) Other farms in the State. If the deductions computed under Sec. 701.101 and 701.102 for a landlord or tenant on other farms in such county, the amount of such excess deductions shall be prorated among the persons contributing to the program on the other farm or farms in such county.

§ 701.108 Deduction for association expenses. There shall be deducted pro rata from the payments with respect to any farm all or such part as the Secretary may prescribe of the estimated administrative expenses incurred or to be incurred by the county agricultural conservation association in the county in which the farm is located.

§ 701.109 Materials furnished as grants of aid. Wherever it is found practicable, limestone, superphosphate, trees, seeds, and other farming materials, upon request of the producer, may be furnished by the Agricultural Adjustment Administration as grants of aid to
be used in carrying out approved soil-building practices which shall be counted toward meeting the soil-building goal for the farm. Wherever such material is furnished, a deduction from the payment for the farm shall be made in the amount of the approximate average cost of such material to the Agricultural Adjustment Administration in the county, State, or other area. Such deduction shall be applied first to the payment computed for the person to whom such material was furnished, and the balance, if any, of such deduction shall be prorated among the payments to other persons sharing in the payment with respect to the farm for which such material was obtained or on which it was used. Materials shall only be furnished pursuant to a producer’s request and agreement upon a form prescribed by the Agricultural Adjustment Administration. Such agreement shall provide that (1) the event the amount of deduction for materials exceeds the amount of the payment with respect to the farm the amount of such difference shall be paid by the producer; (2) if the producer uses any such material in a manner which is not in substantial accord with the purposes for which such material was furnished, the deduction with respect to the material so misused shall be twice the regular rate of deduction in order to compensate the Government for damages because of such misuse; and (3) the finding of the county committee that the material has been used in a manner which is not in substantial accord with the purposes for which it was furnished and as to the amount of the material so misused, shall be final when approved by the State committee, subject to the right of appeal under the provisions of Sec. 701.112.

Notwithstanding any other provisions herein, in areas designated by the Agricultural Adjustment Administration, for any farm on which no performance is required under the 1940 program except the carrying-out of approved soil-building practices through the use of materials furnished by the Agricultural Adjustment Administration, the furnishing of such materials shall be in lieu of any payment which otherwise might be computed for the farm.

701.110 General provisions relating to payments—(a) Payment restricted to effectuation of purposes of the program.

(1) All or any part of any payment which otherwise would be made to any person under the program may be withheld or required to be returned (a) if the person who makes application for payment or who adopts or has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1940 or previous agricultural conservation programs, (b) if, by means of any contract, partnership, estate, trust, or any other device, or in any manner whatsoever, he has offset, or has participated in offsetting in whole or in part, the performance for which the payment is otherwise authorized, or (c) if, with respect to forest land or woodland owned or controlled by him, he adopts or has adopted any practice which the Agricultural Adjustment Administration finds is contrary to sound conservation practices.

(2) Payments other than payments in connection with restoration land and in connection with approved practices, all of which shall be made only with respect to farms which are being operated in 1940.

(3) In areas designated by the Agricultural Adjustment Administration as areas affected by wind erosion, if on any farm in 1940 no payment will be made to any person with respect to any farm which such person owns or operates in a county if the county committee finds that such person has been negligent and careless in his farming operations by failing to carry out approved wind-erosion-control measures on land under his control to the extent that any part of such land has become a wind-erosion hazard in 1940 to other land in the community in which such farm is located.

(b) Payment computed and made without regard to claims. Any payment or share of payment shall be computed and made without regard to questions of title under any contract without deduction of claims for damages except as provided in paragraph (d) of this section and indebtedness to the United States subject to set-off under orders issued by the Secretary, and without regard to any claim or lien thereon crop, or proceeds thereof, in favor of the owner or any other creditor.

(c) Changes in leasing and cropping agreements, reduction in number of tenants, and other devices. If on any farm in 1940 any change of the arrangement which existed on the farm in 1939 is made between the landlord or operator and the tenants or sharecroppers and such change would cause a greater proportion of the payments to be made to the landlord or operator under the 1940 program than would have been made to the landlord or operator for performance on the farm under the 1939 program, payments to the landlord or operator under the 1940 program with respect to the farm shall not be greater than the amount that would have been paid to the landlord or operator if the arrangements which existed on the farm in 1939 had been continued in 1940, if the county committee certifies against the change is not justified and disapproves such change.

If on any farm the number of sharecroppers or share tenants in 1940 is less than the average number on the farm during the three years 1936 to 1939 and such reduction would increase the payments that would otherwise be made to the landlord or operator, such payments to the landlord or operator shall not be greater than the amount that otherwise would be made, if the county committee certifies that the reduction is not justified and disapproves such reduction.

If the State committee finds that any person who files an application for payment pursuant to the provisions of the 1940 program has employed any other scheme or device, (including coercion, fraud, or misrepresentation) in the conduct of which would be or has been to deprive any other person of any payment under any agricultural conservation program to which such person would normally be entitled, the Secretary may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require such person to refund, in whole or in part, the amount which has been or would otherwise be made to him in connection with the 1940 program.

(d) Assignments. Any person who may be entitled to any payment in connection with the 1940 program may assign his interest in acreage. Any person who makes application for payment with respect to any farm located in a county in which cotton is planted in 1940 shall file with such application a certificate in writing that he has not knowingly planted cotton or caused cotton to be planted, during 1940, on land in any farm in which he has an interest, in excess of the cotton acreage allotment for the farm for 1940, and that cotton was not planted in excess of such allotment by his authority or with his consent.

Any person who knowingly plants cotton, or causes cotton to be planted on his farm in 1940 on acreage in excess of the cotton acreage allotment for the farm for 1940 shall not be eligible for any payment whatever, on that farm or any other farm under the provisions of the 1940 program. Any person having an interest in the cotton crop on a farm on which cotton is planted in 1940 on an acreage in excess of the cotton acreage allotment for the farm for 1940 shall be presumed to have knowingly planted cotton on his farm on acreage in excess of such farm cotton acreage allotment if notice of the farm allotment is mailed to him prior to the completion of the planting of cotton on the farm, unless the farmer establishes the fact that the excess acreage was planted to
cotton due to his lack of knowledge of the number of acres in the tract(s) planted or as a result of notice mailed to the operator of the farm, shall be deemed to be notice to all persons sharing in the production of cotton on the farm in 1940.

(1) Use of soil-conserving crops for market. Payment will not be made with respect to any farm unless on such farm in 1940 an acreage of cropland or restoration land, not devoted to soil-depleting crops, is withheld from the production of soil-conserving crops for market, equal to the acreage by which the normal acreage of soil-depleting crops on such farm exceeds the larger of (1) the total soil-depleting acreage allotment for the farm or (2) the acreage devoted to soil-depleting crops on the farm in 1940. Provided, That payments shall not be denied any farmer for using such soil-conserving crops for market (1) if in the county in which the farm is located the number of cows kept for the production of milk or products thereof for market does not exceed the normal number of such cows; (2) if on such farm the number of cows kept for the production of milk or the products thereof for market does not exceed the normal number of such cows; or (3) if the Agricultural Adjustment Administration determines either (a) that the farmer has substantially complied with the provisions of this paragraph or (b) that the county, as a whole, is in substantial compliance with such provisions. Any farmer shall be deemed to have substantially complied with the provisions of this paragraph either (1) if the increase above normal in the number of dairy cows on his farm does not exceed two cows or (2) if none of the soil-conserving crops to which such provisions are applicable is used for market other than through the disposition of dairy livestock for slaughter or through the production of milk or the products thereof for market does not exceed ten percent of the normal number of such cows; (2) if on such farm the number of cows kept for the production of milk or the products thereof for market does not exceed the normal number of such cows; or (3) if the Agricultural Adjustment Administration determines either (a) that the farmer has substantially complied with the provisions of this paragraph or (b) that the county, as a whole, is in substantial compliance with such provisions.

§ 701.111 Application for payment—(a) Persons eligible to file applications. An application for payment with respect to a farm may be made by any person for whom, under the provisions of Sec. 701.104, a share in the payment will be made with respect to the crops or proceeds thereof, and (1) who at the time of its harvest is entitled to share in any of the crops or proceeds thereof, or which he roots to another for cash. As used in this paragraph (f), the term "soil-conserving crops" means grasses and legumes grown on cropland except those listed in the definition of soil-depleting acreage in Sec. 701.103.

§ 701.112 Appeals. Any person may, within 15 days after notice thereof is forwarded to or made available to him, request the county committee in writing to reconsider its recommendation or determination in any of the following matters respecting any farm in the operation of which he has an interest as landlord, tenant, or sharecropper: (a) eligibility to file an application for payment; (b) failure to make an application for payment with respect to one of such farms, such person must make application for payment with respect to all such farms which he operates or rents to others. Upon request by the State committee any person shall file a written request for reconsideration or appeal as it may request regarding any other farm in the State with respect to which he has the right to receive all or a portion of the crops or proceeds thereof or which he leases to another for cash.

§ 701.113 State and regional bulletins, instructions, and forms. The Agricultural Adjustment Administration is hereby authorized to make determinations and to prepare and issue such State and regional bulletins, instructions, and forms as may be required in administering the 1940 program pursuant to the provisions hereof.
§ 701.114 Definitions. For the purposes of the 1940 program, unless the context otherwise requires:

(a) Officials—(1) Secretary means the Secretary of Agriculture of the United States.

(2) Regional director means the director of the division of the Agricultural Adjustment Administration in charge of the agricultural conservation programs in the region.

(3) State committee or State agricultural conservation committee means the group of persons designated within any State to assist in the administration of the agricultural conservation programs in such State.

(4) County committee or county agricultural conservation committee means the group of persons elected within any county to assist in the administration of the agricultural conservation programs in such county.

(b) Areas—(1) Northeast Region means the area included in the States of Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont.

(2) East Central Region means the area included in the States of Delaware, Kentucky, Maryland, North Carolina, Tennessee, Virginia, and West Virginia.

(3) Southern Region means the area included in the States of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Oklahoma, South Carolina, and Texas.

(4) North Central Region means the area included in the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota, and Wisconsin.

(5) Western Region means the area included in the States of Arizona, California, Colorado, Idaho, Kansas, Montana, Nevada, New Mexico, North Dakota, Oregon, Utah, Washington, and Wyoming.

(6) Area A means the North Central Region, North Dakota, Kansas, and such counties or administrative areas in Arkansas, Oklahoma, Texas, New Mexico, Colorado, Wyoming, Montana, and California as may be designated by the Agricultural Adjustment Administration as counties or areas normally producing a surplus of general soil-depleting crops.

(7) Area B means the East Central Region and those portions of the Southern and Western Regions not included in Area A.

(8) Area C means the Northeast Region.

(c) Farms. Farm means all adjacent or nearby farm land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm land which the county committee, in accordance with instructions issued by the Agricultural Adjustment Administration, determines is operated by the same person as part of the same unit with respect to the rotation of crops and with work-stock, farm machinery, and labor substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area, as the case may be, in which the majority of the farm is located.

(d) Cropland. (1) Cropland means farm land which in 1939 was tilled or was in regular rotation, excluding restoration land and any land which constitutes, or will constitute if such tillage is continued, a wind-eroded unit of the community, and excluding also, except in the Southern Region, any land in commercial orchards or perennial vegetables.

(2) Landlord or owner means a person who owns land and rents such land to another person or operates such land.

(3) Sharecropper means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of a crop produced thereon or of the proceeds thereof.

(4) Tenant means a person other than a sharecropper who rents land from another person (for cash, a fixed commodity payment, or a share of the proceeds of the crops) and is entitled under a written or oral lease or agreement to receive all or a share of the proceeds of the crops produced thereon, and in the case of a sharecropper, furnishing water for a share of the rice.

(5) Commercial orchards and perennial vegetables means the acreage in planted or cultivated fruit trees, nut trees, vines, vegetables, hops, bush fruits, or perennial vegetables (excluding artichokes for use other than as vegetables) on the farm on January 1, 1940 (excluding non-bearing orchards and vineyards), from which the major portion of the production is normally sold.

(6) Noncrop open pasture land means pasture land (other than rotation pasture land and range land) on which the predominant growth is forage suitable for grazing and on which the number or grouping of any trees or shrubs is such that the land could not fairly be considered as woodland.

(7) Special crop acreage allotment means a corn, cotton, wheat, tobacco, rice, peanut, potato, or commercial vegetable acreage allotment.

(8) Animal unit means one cow, one horse, five sheep, or five goats, two calves, or two cots, or the equivalent thereof.

§ 701.115 Authority, availability of funds, and applicability—(a) Authority. This program is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act (49 Stat. 1148), as amended, and in connection with the provisions of the purposes of section 7 (a) of said Act in 1940 the payments and grants of aid provided for herein will be made for participation in the 1940 program.

(b) Availability of funds. The provisions of the 1940 program are necessarily subject to such legislation affecting said program as the Congress of the United States may hereafter enact; the making of the payments and grants of aid herein provided are contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such payments and grants of aid will necessarily be within the limits finally determined by such appropriation, the apportionment of such appropriation under the provisions of the Soil Conservation and Domestic Allotment Act, as amended, and the extent of national participation. As an adjustment for participation in the Range Conservation Program the rates of payment and deduction with respect to any commodity or item of payment may be increased or decreased from the rates set forth herein by as much as 10 percent.

(c) Applicability. The provisions of the 1940 program contained herein, except Sec. 701.106, are not applicable to:

(1) Hawaii, Puerto Rico, and Alaska;

(2) counties for which special agricultural conservation programs under said Act are approved for 1940 by the Secretary; and

(3) public domain of the United States, including land owned by the United States and administered under the Taylor Grazing Act or by the Forest Service of the United States Department of Agriculture, and other lands in which the beneficial ownership is in the United States.

(d) Combination with range program. The Range Conservation Program may be combined with the Agricultural Conservation Program for 1940 in any State or area upon recommendation of the State committee and the approval of the Agricultural Adjustment Administration, in which case range land shall be treated as non-crop pasture and the range-building practices shall be treated as incorporated in the agricultural conservation program.

Act of 1938, approved February 16, 1938 (Public Law No. 430, 75th Congress, 3rd Session; 52 Stat. 677), as amended by Section 12 of Public Law No. 470, 75th Congress, approved April 7, 1938 (52 Stat. 202), and by the next to the last proviso to the item entitled "Conservation and Use of Agricultural Land Resources, Department of Agriculture" contained in the Department of Agriculture Appropriation Act—1939, approved June 16, 1938 (Public Law No. 544, 75th Congress, 3rd Session; 52 Stat. 744). I, H. A. Wallace, Secretary of Agriculture, do make prescribe, publish, and give public notice that subsection D 3 of Section 41 of the Regulations Pertaining to 1937 Cotton Price Adjustment Payment Plan (CAP-105), as amended, is hereby further amended to read as follows:

3. If there is no surviving spouse, to the sons and daughters in equal shares. If any child is a minor, payment of his share shall be made to his legal guardian, but if no legal guardian has been appointed payment shall be made to his natural guardian or custodian for his benefit, unless the minor's share of the payment exceeds $500, in which event payment shall be made only to his legal guardian. Children of a deceased son or daughter of a deceased producer shall be entitled to their ancestor's share of the payment, share and share alike;

ENFORCEMENT OF NEUTRALITY—COMMUNICATIONS RESPONSIBILITY FOR THE ENFORCEMENT OF THE OBSERVANCE OF NEUTRALITY IN RADIO COMMUNICATION BY MERCHANT VESSELS OF BELLIGERENTS

September 8, 1939, to the Commandant, United States Coast Guard, the Commissioner of Customs, and Others Concerned:

1. Pursuant to the Proclamation of the President dated September 5, 1939,1 numbered 2346, concerning the general neutrality of the United States and the Executive Order of the President of the same date,2 numbered 2323, in which certain functions to enforce said proclamation were allocated to the Treasury Department, the United States Coast Guard is hereby charged, under the general direction of the Commandant, with the enforcement of neutrality in radio communication by merchant vessels of belligerents.

2. The United States Customs Service shall cooperate generally with the Coast Guard in the enforcement of neutrality in radio communication by merchant vessels of belligerents. At places where no representative of the Coast Guard is detailed to carry into effect such instructions as may be issued by the Commandant to district commanders of the Coast Guard, the duties therein prescribed shall, upon request, be performed by such customs officers or officers as may be designated by the appropriate collector of customs.

3. The provisions of paragraph (i), Article 178, Customs Regulations of 1937,3 are hereby suspended until further notice.

4. This Treasury Decision is prescribed pursuant to section 161, Revised Statutes (U.S.C. title 5, sec. 22), and section 1, Act of June 22, 1936 (U.S.C., Supp. IV, title 14, sec. 45).

TITLE 36—PARKS AND FORESTS
FOREST SERVICE

PIGSAG NATIONAL FOREST, NORTH CAROLINA
DEER HUNTING ON PISGAH NATIONAL GAME PRESERVE

I have considered the information and evidence adduced by the officers of the Forest Service relative to the conditions of the land and deer herd on the Pisgah National Game Preserve in the Pisgah National Forest in North Carolina, established by proclamation of the President issued October 17, 1916, 39 Stat. 1811, and I hereby find and determine that the number of deer within the Pisgah National Game Preserve is so great that they have caused and are causing serious damage and injury to the land and forest within the Pisgah National Game Preserve and I further find and determine that unless the deer herd is reduced the damage and injury to the land and forest will continue and grow progressively worse and will result in further reducing the forage capacity of the Pisgah National Game Preserve for deer.

Now, therefore, I, Henry A. Wallace, Secretary of Agriculture, pursuant to the authority vested in me by the acts of March 1, 1911, c. 186, 36 Stat. 961; February 1, 1905, c. 288, 33 Stat. 628, amended by the acts of the 4th, 5th, 26 Stat. 30; August 11, 1916, c. 313, 39 Stat. 476; to effectuate the purpose of those acts do hereby authorize:

I hereby amend to read as follows:

In the Philippine Islands. In addition to the officers designated elsewhere in this paragraph, the United States High Commissioner, his Administrative Assistant, and the Chief Clerk in his office, under the High Commissioner’s seal; Provincial and Municipal Treasurers, and City Treasurers in Manila and Baguio, under their respective seals; Philippine postmasters under the seal of their office; and, in Manila, Post Office Inspectors assigned in Manila, under the seal of the Bureau of Posts: Provided, however, That the request for payment witnessed and certified to by these officials shall be supported by the fingerprints of the veterans in the place provided therefor on the back of the bonds, and that the bonds be then forwarded to the Treasury of the Philippine Islands or to the Treasurer of the United States for payment.

2. This amendment shall be effective September 15, 1939, and the Secretary of the Treasury may at any time, or from time to time, withdraw or amend any or all of the provisions thereof.

FEDERAL COMMUNICATIONS COMMISSION

IN THE MATTER OF RESTRICTION OF TELEGRAPH RATES TO INDIVIDUALS BY THE WESTERN UNION TELEGRAPH COMPANY

NOTICE OF HEARING

At a session of the Federal Communications Commission, held at its office in Washington, D. C., on the 6th day of September, A. D. 1939.

It appearing that there have been filed with the Federal Communications Commission tariffs containing schedules stating new charges and new classifications, regulations and practices affecting such charges to become effective on the 10th day of September, 1939, designated as follows:

THE WESTERN UNION TELEGRAPH COMPANY SUPPLEMENT NO. 3 to F. C. C. NO. 144

It is ordered, That the Commission, on its own motion, without formal pleading enter upon a hearing concerning the lawfulness of the charges, and of the regulations, classifications, and practices stated in the said schedules contained in said tariffs; viz., all provisions shown in connection with the listings of the following places:

Clearwater Beach, Bocca Grande, Florida; Big and Little Biscayne Islands, Florida; Lake County, Illinois; Lake Geneva, Wisconsin; Madison, Wisconsin; Milwaukee, Wisconsin; Moline, Illinois; McLeansboro, Illinois; McLean County, Illinois; Manhattan, Kansas; Johnstown, New York; New York, New York; Paterson, New Jersey; Poughkeepsie, New York; Pulaski, Wisconsin; Racine, Wisconsin; Rockford, Illinois; Shreveport, Louisiana; Springfield, Illinois; State College, Pennsylvania; St. Louis, Missouri; St. Paul, Minnesota; Toledo, Ohio; Westfield, New York; Wheeling, West Virginia; Woonsocket, Rhode Island; Yakima, Washington.

It further appearing, that said schedules make certain changes in rates for "Domestic Telegraph Service" in interstate and foreign commerce, and the rights and interests of the public appearing to be injuriously affected thereby, and it being the opinion of the Commission that the effective date of the said schedules contained in said tariffs should be postponed pending said hearing and decision thereon;

It is further ordered, That the operation of the said schedules contained in said tariffs be suspended, and that the use of the rates, charges, classifications, regulations, and practices therein stated be deferred until the 10th day of December, 1939, unless otherwise ordered by the Commission, and no change shall be made in such charges, classifications, regulations, and practices during the said period of suspension, unless authorized by special permission of the Commission.

It is further ordered, That the charges and the classifications, regulations, and practices thereby sought to be altered shall not be changed by any subsequent tariff or schedule, until this investigation and suspension proceeding has been disposed of or until the period of suspension has expired, unless authorized by special permission of the Commission.

It is further ordered, That a copy of this order be filed with said schedules in the office of the Federal Communications Commission, and that copies heretofore filed with such carriers be, and they are hereby, made respondent to this proceeding; and

It is further ordered, That this proceeding be, and the same is hereby assigned for hearing at 10:00 A. M., on the 9th day of October, 1939, at the office of the Federal Communications Commission, in Washington, D. C.

By the Commission.

ORDER FIXING DATE OF HEARING

September 6, 1939.

It appearing to the Commission that:

(a) Section 8 (a) of the Natural Gas Act authorizes the Commission to prescribe a system of accounts to be kept by natural-gas companies and to classify such natural-gas companies and prescribe a system of accounts for each class;

(b) A tentative draft, dated May 15, 1939, of a uniform system of accounts to be prescribed for natural-gas companies subject to the provisions of the Natural Gas Act, has been prepared;

(c) On June 20, 1939, copies of said tentative draft were sent by the Commission to State commissions, natural-gas companies and other interested persons and organizations and comments and suggestions with respect thereto were requested to be filed with the Commission on or before July 10, 1939;

(d) The Commission has received comments and suggestions with respect to said tentative draft from certain State commissions, natural-gas companies and others;

(e) It is appropriate in the public interest that a public hearing be held with respect to the adoption of said proposed system of accounts in order to provide an opportunity for natural-gas companies, State commissions, and persons, corporations or organizations having an interest in the matter to appear and be heard with respect to the adoption of said system of accounts;

The Commission orders that:

(a) A public hearing be held on September 27, 1939, at 10 o’clock a. m. in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue, N.W., Washington, D. company, having filed a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the reduction of the par value of its 40,000 shares of common stock from $100 per share to $50 per share.

Said Columbia Gas & Electric Corporation having filed an application pursuant to Instruction 8C to the Uniform System of Accounts for Public Utility Holding Companies, promulgated under Section 15A of the Public Utility Holding Company Act of 1935, the Commission, having found that the proposed entries to record the transfer to Columbia Gas & Electric Corporation of the stocks of Huntington Development and Gas Company, and other assets of the former Huntington Gas Company, which last named company is now dissolved;

A joint public hearing on said declaration and application having been held after appropriate notice; the said declarant and applicant, prior to the filing of the Commission’s findings, opinion and order herein, having waived a Trial Examiner’s report, the right to submit findings of fact to the Commission, and to have submitted to them proposed findings of fact by the Commission’s staff, has been granted the right to file briefs and have oral argument before the Commission; the Commission having considered the record in these matters and having filed its findings and opinion herein;

It is ordered, That the declaration of Huntington Development and Gas Company be and become effective subject to the following terms and conditions:

(1) No charge (other than the charge proposed to be made to eliminate the deficit in declarant’s earned surplus account) shall be made to Special Capital Surplus unless (a) such charge has previously been authorized by appropriate resolution of declarant’s board of directors and (b) subsequent to such resolution of the board of directors, thirty days’ prior notice of the making of such charge be given to this Commission. The Commission reserves jurisdiction, on receipt of such notice, in and as part of the proceedings herein, after notice given within such thirty days and opportunity for hearing, to disapprove such charge on the basis of the record herein and any additional evidence that may be adduced by any interested party; and in the event that the Commission shall notify applicant to show cause why such charge should not be disapproved, the charge in question shall not be made until expressly authorized by order of this Commission.

(2) No charge to this reserve (other than the charges presently proposed to be made) shall be made unless (a) such charge has previously been authorized by appropriate resolution of applicant’s board of directors, thirty days’ prior notice of the making of such charge be given to this Commission. The Commission reserves jurisdiction, on receipt of such notice, in and as part of the proceedings herein, after notice given within such thirty days and opportunity for hearing, to disapprove such charge on the basis of the record herein and any additional evidence that may be adduced by any interested party; and in the event that the Commission shall notify applicant to show cause why such charge should not be disapproved, the charge in question shall not be made until expressly authorized by order of this Commission.

(3) This Commission reserves the right to require additional charges, on account of items in Columbia Gas & Electric Company’s investment in Huntington Development and Gas Company, reserved to this Commission’s reserve, other than those now proposed by applicant.

File No. 45-70

Order Relative to acquisition of Bonds

The Commission having by order on May 20, 1939 (Holding Company Act Release No. 1548) authorized the Utilities Power & Light Corporation Limited, a wholly-owned subsidiary of Utilities Power & Light Corporation, a registered holding company (presently in reorganization proceedings under Section 77B of the Bankruptcy Act, proceedings in which are pending in the District Court of the United States for the Northern District of Illinois, Eastern Division) and the Trustee of the estate of the debtor as intervening applicant, to acquire the outstanding Twenty Year 6% First Mortgage Sinking Fund Gold Bonds of Utilities Elkhorn Coal Company, due June 1, 1948, with January 1, 1938 and subsequent coupons attached, at a price of 70% of the principal amount thereof subject to certain terms and conditions therein set forth including the condition that the offer of purchase shall expire thirty days from the date of mailing of the literature in which the offer to purchase and the solicitation of acceptances thereto were made;

The applicant and the intervening applicant having on July 30, 1939, filed a further amendment in this matter setting forth that as a result of these proceedings, the application having by order of this Commission and the United States District Court for the Northern District of Illinois, Eastern Division, $803,000 principal amount of said bonds; that a balance of $210,000 principal amount of said bonds remained outstanding in the hands of the public; that under the order of this Commission the right to solicit the purchase of these bonds terminated July 13, 1939; that the applicant and intervening applicant believed that after an additional thirty days time following the receipt of said application the intervening applicant for the purpose of soliciting the acceptance of the offer to purchase such bonds from the remaining bondholders, all or substantially all of said remaining bonds could have been acquired; and therefore requesting that this Commission extend the applicant’s right to solicit acceptances of its offer to purchase Elkhorn bonds at a price of 70% of the principal amount subject to all of the terms and conditions of the previous order of this Commission herebefore mentioned; and this Commission having by order dated July 13, 1939 (Holding Company Act Release No. 1628) granted said extension to August 12, 1939;

The applicant and the intervening applicant having on September 8, 1939 filed a further amendment in this matter setting forth that at the close of business on August 12, 1939 the applicant and the intervening applicant had acquired 10,700 of the Gold Bonds above mentioned, and requesting that this Commission extend to and including November 30, 1939 the applicant’s right to solicit acceptances of its offer to purchase said Bonds subject to the terms and conditions of the previous orders of this Commission;

It appearing to the Commission that it is in the public interest and in the interest of investors or consumers to grant an extension of time during which the applicant and intervening applicant may purchase said bonds; and the Commission having in its orders, heretofore mentioned, reserved jurisdiction for the purpose, among others, of passing upon any question that might arise in connection with the purchase offer and solicitations of acceptances thereto;

It is ordered, That the authority of the applicant to acquire the Twenty Year 6% First Mortgage Sinking Fund Gold Bonds of Utilities Elkhorn Coal Company, due June 1, 1948, with January 1, 1938 and subsequent coupons attached, shall be and it hereby is extended to November 30, 1939, inclusive, subject in all other respects to the same
terms and conditions of the original order of May 20, 1939.
By the Commission.

[File No. 44-44]

IN THE MATTER OF MIDDLE WEST UTILITIES COMPANY OF CANADA, LIMITED

NOTICE OF AND ORDER FOR HEARING

An application pursuant to Rule U-12C-1 of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

It is ordered, That a hearing on such matter be held on September 28, 1939, at 9:45 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Charles S. Moore or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time. Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before September 23, 1939.

The matter concerned herewith is in regard to the acquisition for retirement by applicant of 7,400 shares of its outstanding $7 Cumulative Preference Stock, par value $100, for cash at $80 per share. Such shares are to be acquired from The Middle West Corporation, a registered holding company, which owns all of applicant's outstanding securities, including 14,000 shares of $7 Cumulative Preference Stock presently outstanding.

By the Commission.
