FEDERAL POWER COMMISSION.

[Docket No. IT-5714]

IN THE MATTER OF THE CALIFORNIA OREGON
POWER COMPANYORDER TO SHOW CAUSE AND FIXING DATE OF
HEARING

JULY 15, 1941.

It appearing to the Commission that:

(a) On or about December 29, 1939,
The California Oregon Power Company,

hereinafter referred to as "Company," submitted proposed reclassification and original cost studies required by Electric Plant Accounts Instruction 2-D of the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees, effective January 1, 1937, and the Commission's order of May 11, 1937;

(b) An examination made by the Commission staff revealed that the Company had not fully complied with the Commission's order of May 11, 1937, and revealed, also, certain deficiencies in the Company's study;

(c) By letter of March 2, 1940, the Company was apprised of its failure to comply fully with the Commission's order of May 11, 1937, and of the deficiencies in its studies, and, in said letter, the Company was requested to submit revised proposed reclassification and original cost studies;

(d) Thereafter, on or about March 21, 1941, the Company submitted revised proposed reclassification and original cost studies;

(e) On May 26, 1941, there was submitted to the Commission a joint report entitled "The California Oregon Power Company, Medford, Oregon, Report on the Reclassification and Original Cost Studies of Electric Plant, as at January 1, 1937," which covered the results of a field study made jointly by the Commission's staff and the staffs of the Public Utilities Commissioner of Oregon and the Railroad Commission of the State of California of the proposed reclassification and original cost studies submitted by the Company;

(f) The Joint report referred to in paragraph (e) above was transmitted to the Company on June 14, 1941, with a request that the accounting adjustments indicated in the report be made, copies of the adjusting journal entries be submitted, and a plan be submitted for disposing of the amounts shown in such report as established in Account 100.5, Electric Plant Acquisition Adjustments, and Account 107, Electric Plant Adjustments;

(g) The Company has failed to conform with the recommendations made by the staffs of this Commission, the Public Utilities Commissioner of Oregon, and the Railroad Commission of the State of California in the joint report referred to in paragraph (e) hereof, and has failed to submit a plan for disposing of the amounts shown in such report as established in Account 100.5, Electric Plant Acquisition Adjustments, and Account 107, Electric Plant Adjustments;

The Commission finds that:

(1) The California Oregon Power Company's proposed reclassification and original cost studies and the information contained therein do not justify or explain the Company's failure to (a) adjust its accounts in complete accordance with the adjustments recommended in the joint report referred to in paragraph (e) hereof; (b) submit a plan for the disposition of the amounts, in such report, established in Account 100.5,

Electric Plant Acquisition Adjustments; and (c) submit a plan for the disposition of the amounts, in such report, established in Account 107, Electric Plant Adjustments;

(2) It is advisable, necessary and proper in the public interest that a public hearing be held for the purpose of requiring The California Oregon Power Company to show cause, if any there be, why this Commission should not order (a) adjustment of the Company's accounts in conformity with the recommendations made in the joint report referred to in paragraph (e) hereof; and (b) the disposition of the amounts established in Account 100.5, Electric Plant Acquisition Adjustments, and Account 107, Electric Plant Adjustments in accordance with the evidence adduced at said public hearing;

(3) It is necessary and desirable to carry out the purposes of said hearing that witnesses and relevant records be available to the staff of the Commission and such records be before the Trial Examiner for introduction as evidence at said hearing;

(4) The following are relevant and material to the proceeding: All minute books; general and subsidiary books of account, including ledgers; journals and vouchers; and all other records, reports, correspondence, memoranda, data and information of whatsoever nature pertaining to the original cost of construction of the properties of California Oregon Power Company;

The Commission orders that:

(A) A public hearing be held commencing on August 11, 1941, at 9:45 a. m. in the offices of the Railroad Commission of the State of California, Civic Center, San Francisco, California, and at such hearing The California Oregon Power Company show cause, if any there be, why the Commission should not by order determine that:

(i) Adjusting entries be made to bring the Company's accounts in conformity with the recommendations made by the Commission's staff and the staffs of the public Utilities Commissioner of Oregon and the Railroad Commission of the State of California in the joint report referred to in paragraph (e) hereof;

(ii) Disposition be made of the amounts established in Account 100.5, Electric Plant Acquisition Adjustments, and Account 107, Electric Plant Adjustments, in accordance with the evidence adduced at the hearing heretofore referred to;

(B) The Trial Examiner designated to preside at said hearing be and he hereby is empowered to subpoena witnesses, compel their attendance and require the production of any books, papers, correspondence, memoranda, reports or records described in finding (4) hereof.

(C) The Public Utilities Commissioner of Oregon and the Railroad Commission of the State of California may participate in the hearing as provided in Part

39, § 39.4 of this Commission's Rules of Practice and Regulations prescribed pursuant to the provisions of the Federal Power Act.

IN THE MATTER OF NEW YORK STATE ELECTRIC & GAS CORPORATION

ORDER DISMISSING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 17th day of July, A. D. 1941.

Upon application of New York State Electric & Gas Corporation for exemption under section 6 (b) of the Public Utility Holding Company Act of 1935 with respect to the issuance and sale to the United States of America (Rural Electrification Administration) for a cash consideration at face value of a 2.46% Serial Note of the face value of \$500,000, to be secured as and when required by a pledge of not in excess of \$600,000 principal amount of applicant's First Mortgage Bonds, 3¾% series due 1964, of which \$119,000 principal amount are now held in the treasury of the company and the remaining \$481,000 principal amount to be issued in conformity with the mortgage indenture securing said series of bonds;

It appearing upon the face of the application that the applicant is a subsidiary of a registered holding company; that the applicant proposes to issue its own securities to the Rural Electrification Administration; and that the total amount of such securities issued by the applicant to said Rural Electrification Administration during the current calendar year, including the proposed issue, does not exceed 2% of the aggregate of the outstanding funded indebtedness plus the capital and surplus accounts of the issuer as of the end of the prior calendar year;

The Commission therefore finds that the issuance and sale of the proposed securities are expressly exempted under Rule U-47, and that the filing of the pending application was unnecessary; the only requirement imposed by said Rule being that, within ten days after the issue and sale of such securities, the issuer shall file with the Commission a certificate of notification on Form U-6B-2 containing the information prescribed by that form.

Wherefore it is ordered, That said application be and the same is hereby dismissed.

By the Commission.
