### Authority of Special Field Representative of the Farm Credit Administration in the Territory of Hawaii

**December 11, 1941.**

Title 6, Code of Federal Regulations, is amended by adding the following new section:

§ 3.71-50 Authority of special field representative of the Farm Credit Administration in the Territory of Hawaii

I hereby delegate to Chester Arthur Woolard, Special Field Representative of the Farm Credit Administration in the Territory of Hawaii, such of the powers granted to me under the Federal Credit Union Act, as amended (Title 12 U.S.C. 1751 et seq.), as may be necessary to safeguard properly the interests of Federal credit unions in the Territory of Hawaii, and the interests of their members as such, and to supervise properly such Federal credit unions in the best interests of the United States of America.

The powers so delegated shall continue in effect for the duration of the present war emergency or until revoked.

The provisions hereinafter set forth shall not operate to limit or restrict the Governor of the Farm Credit Administration in the execution and performance (in Washington or elsewhere) of any functions, powers, authority, or duties vested in him. (Sec. 16, 48 Stat. 1221; 12 U.S.C. 1766)

A. G. Black, Governor.

[F.R. Doc. 41-6071; Filed, December 12, 1941; 11:47 a.m.]
Published daily, except Sundays, Mondays, and days following legal holidays by the Division of the Federal Register, The National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500), under regulations prescribed by the Administrative Committee, approved by the President.

The Administrative Committee consists of the Archivist or Acting Archivist, an officer of the Department of Justice designated by the Attorney General, and the Public Printer or Acting Public Printer.

The daily issue of the Federal Register will be furnished by mail to subscribers, free of postage, for $1.25 per month or $12.50 per year; single copies 10 cents each; payable in advance. Remit money order payable to the Superintendent of Documents directly to the Government Printing Office, Washington, D.C.

Agricultural Adjustment Administration in charge of the administration of sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act (49 Stat. 1148), as amended (hereinafter referred to as the Soil Conservation and Domestic Allotment Act), in the region.

(5) Southern Region. The area included in the States of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Oklahoma, South Carolina, and Texas.

(6) East Central Region. The area included in the States of Delaware, Kentucky, Maryland, North Carolina, Tennessee, Virginia, and West Virginia.

(7) Western Region. The area included in the States of Arizona, California, Colorado, Idaho, Kansas, Montana, Nevada, New Mexico, North Dakota, Oregon, Utah, Washington, and Wyoming.

(8) North Central Region. The area included in the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota, and Wisconsin.

(9) State committees. The group of persons designated within any State to assist in the administration of the Soil Conservation and Domestic Allotment Act.

(10) Committee. A committee, within and for a county or community, utilized under the Soil Conservation and Domestic Allotment Act. "County committee," "community committee," or "local committee" shall have corresponding meanings in the connection in which they are used.

(11) Review committee. The review committee appointed by the Secretary of Agriculture as provided in section 383 of the act.

(12) Person. An individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity, or State or agency thereof. The term "person" shall include two or more persons having a joint or common interest.

(13) Owner or landlord. A person who owns farm land and rents such land to another person or who operates such land.

(14) Cash tenant, standing-rent tenant, fixed-rent tenant. A person who rents land from another for a fixed amount of cash or a commodity to be paid as rent.

(15) Share tenant. A person other than a sharecropper who rents land from another person and pays as rent a share of the crops or the proceeds thereof.

(16) Sharecropper. A person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of the crops produced thereon or the proceeds thereof.

(17) Operator. A person who is a landlord or cash tenant or standing or
fixed-rent tenant is operating a farm or who as a share tenant is operating a whole farm.

(14) Producer or farmer. A person who is entitled to a proportionate share of the cotton crop, or the proceeds thereof, produced on the farm in 1942, as owner, landlord, cash tenant, standing-rent tenant, fixed-rent tenant, share tenant, or sharecropper. The term "producer" or "farmer" also includes a wage hand (or cropper) who as a laborer on a farm instead of receiving daily or other cash wages for his labor receives either all the cotton produced by him or another on an agreed or specified acreage or all the cotton produced on an agreed or specified portion of the acreage cultivated by him or another.

(15) Buyer. A person who buys cotton from any person.

(16) Transferee. A person who receives cotton from a producer by barter or exchange or gift inter vivos.

(18) Treasurer of the county committee. The treasurer of the county agricultural conservation association or the treasurer of the county committee, as the case may be.

(19) Farm. All adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(i) Any other adjacent or nearby farm or range land which the county committee, in accordance with instructions issued by the Agricultural Adjustment Administration, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(ii) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area, as the case may be, in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county or administrative area, as the case may be, in which the major portion of the farm is located.

(20) Farm marketing quota. A cotton marketing quota established for a farm under section 346 (a) of the act.

(21) Producer marketing quota. A producer's share of a farm marketing quota.

(22) Farm acreage allotment. A cotton acreage allotment established for a farm under § 722.415 or § 722.416.

(23) Normal yield. The average yield of pounds of lint cotton established as the normal yield per acre for the farm in accordance with § 722.417.

(24) Actual production. The actual yield per acre of lint cotton for the farm for 1942 times any number of acres.

(25) Normal production. The normal yield per acre of lint cotton for the farm times any number of acres.

(26) Cotton. Any cotton other than long staple cotton.

(27) Long staple cotton. Cotton the staple of which is 1½ inches or more in length.

(28) Lint cotton. The fiber taken from seed cotton by ginning.

(29) Seed cotton. The harvested fruit of the cotton plant before it is ginned.

(30) Ginning. Separating lint cotton from the seed.

(31) Market. To dispose of cotton in raw or processed form, by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos.

(32) The term "sale" means any transfer of title to cotton by a producer to another by any means other than barter or exchange or gift inter vivos.

(33) The terms "barter" and "exchange" mean transfer of title to cotton by a producer to another in return for cotton or another commodity, service, or property in cases where the value of the cotton or such other commodity, service, or property is not considered in terms of money, or the transfer of title to cotton by a producer to another in payment of a fixed rental or other charge for land.

(34) The term "gift inter vivos" means any transfer of title to cotton by a producer to another by any means other than barter or exchange or gift inter vivos.

(35) "Marketed", "marketing", and "for market" shall have corresponding meanings to the term "market" in the connection in which they are used.

(36) Marketing year. The period beginning on August 1, 1942, and ending with July 31, 1943, both dates inclusive.

(37) Penalty. The penalty provided in section 346 of the act.

(38) State and county code number. The applicable number assigned by the Agricultural Adjustment Administration to each county for the purpose of identification.

(39) Serial number of the farm or farm serial number. The serial number assigned to each farm.

(40) Gin bale number or mark. The number on the bale tag or any other mark made or used by the ginner to identify a bale of cotton.

(41) Underplanted farm. A farm on which the acreage planted to cotton in 1942 is not in excess of the farm acreage allotment established therefor.

(42) Overplanted farm. A farm on which the acreage planted to cotton in 1942 is in excess of the farm acreage allotment established therefor.

(43) Carry-over penalty cotton. The amount of unmarketed cotton from any previous crop which the producer thereof has on hand which, if marketed during the 1941-1942 marketing year, would have been subject to the penalty.

(44) Carry-over free cotton. The amount of unmarketed cotton from any previous crop which the producer thereof has on hand which, if marketed during the 1941-1942 marketing year, would not have been subject to the penalty. [Sec. 375, 52 Stat. 66]

§ 722.412 National baleage allotment. The national allotment of cotton for the calendar year beginning January 1, 1942, is 10,000,000 standard bales of 500 pounds gross weight, increased by that number of standard bales of 500 pounds gross weight equal to the production in 1942 of that number of acres required to be allotted for 1942 as set forth in § 722.413 (c), relating to minimum State acreage allotments, and in § 722.414 (a), relating to minimum county acreage allotments. The production in 1942 of the acreage allotment referred to in § 722.413 (e), relating to a specified amount of acreage consisting of four percent of the State acreage allotment, and in § 722.413 (f), relating to minimum farm acreage allotments, shall be in addition to such national allotments. [Sec. 343 (a), (b), and (c), 52 Stat. 66, as amended by 53 Stat. 1125]

§ 722.413 State baleage allotments and State acreage allotments. (a) State baleage allotment. Ten million standard bales of the national baleage allotment of cotton for the calendar year 1942 shall be apportioned among the several States on the basis of the average of the normal production of cotton in each State for the five years 1936 to 1940. The normal production of a State for each such year shall be (1) the quantity of cotton produced therein in such year plus (2) the normal production of the acres diverted from the production of cotton in all counties in the State under the agricultural adjustment or conservation program in such year. The normal production of the acres diverted from the production of cotton in any county in any year shall be the average yield per acre of the acres planted to cotton in such county in such year times the number of acres so diverted in such county in such year. [Sec. 344 (a), 52 Stat. 57]

(b) State acreage allotment. A State acreage allotment shall be established for each State to which an allotment is made under paragraph (a). The State acreage allotment shall be that number of acres equal to the result obtained by dividing the number of standard bales allotted to the State under paragraph (a) by the average yield per acre for the State expressed in standard bales. The average yield per acre for any State shall be determined on the basis of the average of the normal production for the State for the five years 1936 to 1940 and the average, for the same period, of the acres diverted from the production...
of cotton in the State under the agricultural adjustment or conservation programs and the acres planted to cotton. [Sec. 344 (b), 52 Stat. 57]

(c) Minimum State acreage allotment. Notwithstanding the foregoing provisions of this section, the State acreage allotment for any State which is less than 5,000 acres shall be increased to 5,000 acres if at least 3,500 bales of cotton were produced in such State in any of the five years 1937 to 1941. [Sec. 344 (e) (2), 52 Stat. 58]

(d) State acreage reserve for new farms. The State reserve shall be apportioned among farms in the State on which cotton was not planted in any one of the three years 1939, 1940, and 1941. [Sec. 344 (c) (2), 52 Stat. 57]

(e) Special State acreage allotment of four percent of State acreage allotment. In addition to the State acreage allotment, a special State acreage allotment (hereinafter referred to in the "special four percent State reserve") equal to four percent of the State acreage allotment shall be established for each State for apportionment among farms in the State on which cotton was not planted in any one of the three years 1937 to 1941. [Sec. 344 (e) (2), 52 Stat. 58]

(f) Increases to provide for minimum farm acreage allotments. There shall be available in each State for allotment to farms that number of acres equal to the total amount by which farm acreage allotments in the State are increased as set forth in Sec. 722.415 (b), relating to certain minimum and maximum farm acreage allotments. This increase shall be in addition to the State acreage allotment and the four-percent State reserve. [Sec. 344 (h), 52 Stat. 293]

(g) Regular county acreage allotments. The State acreage allotment (less that part set aside under Sec. 722.413 (d) for apportionment to new farms) shall be apportioned among the counties in the State on the basis of the sum of (1) the acreage therein planted to cotton during the five years 1896 to 1940 and (2), in the applicable years, the acreage therein diverted from the production of cotton under agricultural adjustment and conservation programs, with adjustments for abnormal weather conditions and trends in acreage during such five-year period. The acreage allotment for each county to which an allotment is so apportioned shall be increased by the number of acres, if any, required to provide an acreage allotment for each such county of not less than 60 percent of the sum of (1) the acreage therein planted to cotton in 1937 and (2) the acreage therein diverted from the production of cotton in 1937 under the agricultural conservation program. [Sec. 344 (c) (1), Sec. 344 (e) (1), 52 Stat. 57 and 58]

(h) Administrative areas. If in any county there are one or more areas which, because of difference in types, kinds, and productivity of the soil or other conditions, should be treated separately in order to prevent discrimination, each such area shall, in accordance with applicable instructions, be designated by the county committee as an administrative area, and the county acreage allotment shall be apportioned among such areas. [Sec. 344 (d) (3), 52 Stat. 58]

(i) Increases as a result of making initial farm acreage allotments. The term "planted plus diverted cotton acreage", as used in this section, shall be taken to mean the sum of the cotton acreage planted and the acreage diverted from cotton production under agricultural adjustment or conservation programs. [Sec. 344 (d) (4), 52 Stat. 58, 203, and 586]

(j) Initial farm acreage allotments. The regular county acreage allotment for the making of such initial allotments shall be supplied by the use of the four-percent State reserve insofar as such reserve will permit for the county. [Sec. 344 (d) (1), Sec. 344 (g) (1), 52 Stat. 58 and 203]

(k) Reserve for small farms. In the event that the regular county acreage allotment is more than sufficient to make the initial allotment, there shall be set aside for increase of allotments to small farms, as set forth in paragraph (g) of this section, an amount of not more than three percent of that amount of the regular county acreage allotment which remains after making the initial allotments. [Sec. 344 (d) (2) 52 Stat. 58]

(l) Apportionment on the basis of tilled land. The remainder of the regular county acreage allotment, plus the additional allotments made to the farm in the county from the four-percent State Reserve pursuant to paragraph (a) of this section, shall be apportioned among all farms on which the highest planted plus diverted cotton acreage in any one of the three years 1939 to 1941 was more than five acres. The acreage thus to be apportioned to each such farm shall, together with the initial allotment made to the farm, be a percentage (which shall be the same percentage for all the farm or administrative area within the county) of the acreage of the farm in 1941 which was tilled or was in regular rotation, excluding therefrom the acreage devoted to the production of sugarcane for sugar, allotment land, or of wheat or rice for feeding to livestock for market. [Sec. 344 (d) (3), 52 Stat. 58]

(m) Increases as a result of making initial farm acreage allotments. If, as a result of the making of initial allotments, the farm acreage allotments for farms made in accordance with para-
40 percent of the acreage on the farm which in 1941 was in the cotton crop-production rotation. The acreage allotments required to effect this minimum provision shall be in addition to all acreage allotments represented by the regular county acreage allotment and by the four-percent State reserve for new farms. 

(1) Reapportionment of unused farm acreage allotments. After making the allotments under this section, any part of the acreage allotted to individual farms which it is determined, in accordance with applicable instructions, will not be planted to cotton in 1942 shall be deducted from the allotments to such farms and may be apportioned in accordance with applicable instructions, preference being given to farms in the same county receiving allotments which are inadequate and not representative in view of the past production of cotton on each farm. Notwithstanding the foregoing provisions of this paragraph, the acreage shall be apportioned to those farms designated by the county committee. In designating the farms to which the apportionment is to be made, the county committee shall give consideration to the character and adaptability of the soil and other physical facilities affecting the production of cotton and the need of the operator of such farm for an additional allotment to meet the requirements of the family engaged in the production of cotton in 1942 on the farm. Any transfer of allotments for 1942 as set forth in this paragraph shall not affect apportionment for any subsequent year. 

(2) Increase in view of past production. After allotments have been made from the four-percent State reserve as provided in paragraphs (b) and (e) of this section, one-half of the remainder, if any, of such reserve, less the additional allotment, if any, made to all counties in the State from the four-percent State reserve pursuant to paragraph (a) of this section, shall be apportioned to families engaged in the production of cotton and the acreage otherwise determined is less than 50 percent of the planted plus diverted cotton acreage on the farm in 1937, and the other one-half of the remainder, if any, of such reserve shall be available for increasing the allotments for any farms which are determined, in accordance with applicable instructions, to be inadequate and not representative in view of past production on the farm: Provided, That the acreage cotton allotment for any farm shall not be increased under this paragraph (f) above 40 percent of the acreage on such farm in 1941 which was tilled or was in regular rotation. 

(g) Distribution of reserve for small farms. Any farm acreage allotment made as aforesaid of more than five acres, but not exceeding 15 acres, may be increased from the reserve of not more than the maximum distribution of the county allotment mentioned in paragraph (c) of this section. In making such increase due consideration shall be given to, and such allotments shall be made on the basis of the land, labor, and equipment available for the production of cotton, crop-rotation practices, and the soil and other physical facilities affecting the production of cotton. 

(h) Certain minimum and maximum farm acreage allotments. Notwithstanding the foregoing provisions of this section, (1) the farm acreage allotment made to any farm shall not exceed the highest planted plus diverted cotton acreage in any one of the three years 1939 to 1941, and (2) any farm acreage allotment which after but not before the making of initial allotments, as provided in the foregoing paragraphs, would have been made from the four-percent State reserve in 1937 shall be increased to such amount, provided that such increase shall not be so made as to raise the farm acreage allotment above to 50 percent of the county percentage of the farm. The county allotment pursuant to (d) of this section, times the tilled acreage in the farm used in determining the cotton acreage allotment, except that (a) for any such farm with respect to which the county committee's recommendation of an allotment is less than three acres, such recommendation shall be the cotton acreage allotment for the farm if the State reserve for new farms is sufficient therefor, or for any such farm with respect to which the county committee's recommendation of an allotment is less than three acres, such recommendation shall be the cotton acreage allotment for the farm if the State reserve for new farms is sufficient therefor, taking into consideration also the local committee's recommendation, and (b) for a farm on which the producer has in the previous year operated another farm located in an area in which several contiguous farms were purchased by a State or Federal agency to be retired from crop production the county cotton factor times the tilled acreage for the farm may be regarded as the basic index for the farm's capacity for cotton production. 

(i) Reapportionment of unused farm acreage allotments. After making the allotments under this section, any part of the acreage allotted to individual farms which it is determined, in accordance with applicable instructions, will not be planted to cotton in 1942 shall be deducted from the allotments to such farms and may be apportioned in accordance with applicable instructions, preference being given to farms in the same county receiving allotments which are inadequate and not representative in view of the past production of cotton on each farm. Notwithstanding the foregoing provisions of this paragraph, the acreage shall be apportioned to those farms designated by the county committee. In designating the farms to which the apportionment is to be made, the county committee shall give consideration to the character and adaptability of the soil and other physical facilities affecting the production of cotton and the need of the operator of such farm for an additional allotment to meet the requirements of the family engaged in the production of cotton in 1942 on the farm. Any transfer of allotments for 1942 as set forth in this paragraph shall not affect apportionment for any subsequent year. 

(j) Appraised yields. If for any year of the five-year period 1936 to 1940 (1) records of the actual average yield are not available, or (2) there was no actual yield because cotton was not planted in any one of the three years 1939 to 1941 and on which cotton was not planted in any one of the three years 1939 to 1941 and on which cotton will be planted in 1942 the distributive part, applicable to the county, of acreage allotments which constitute a reserve of not more than one percent of the State acreage allotment. The basis of the apportionment shall be the land, labor, and equipment available for the production of cotton, crop-rotation practices, and the soil and other physical facilities affecting the production of cotton thereon, taking into consideration the applicant's intention to plant cotton in 1942 on the farm. As a reflection of the several factors to be taken into consideration, the acreage on the farm which will be tilled in 1942, or was tilled in 1941 will be the basic index of the farm's capacity for cotton production: Provided, That the allotment shall not exceed an acreage equal to 50 percent of the county percentage of the farm. The county allotment pursuant to (d) of this section, times the tilled acreage in the farm used in determining the cotton acreage allotment, except that (a) for any such farm with respect to which the county committee's recommendation of an allotment is less than three acres, such recommendation shall be the cotton acreage allotment for the farm if the State reserve for new farms is sufficient therefor, or for any such farm with respect to which the county committee's recommendation of an allotment is less than three acres, such recommendation shall be the cotton acreage allotment for the farm if the State reserve for new farms is sufficient therefor, taking into consideration also the local committee's recommendation, and (b) for a farm on which the producer has in the previous year operated another farm located in an area in which several contiguous farms were purchased by a State or Federal agency to be retired from crop production the county cotton factor times the tilled acreage for the farm may be regarded as the basic index for the farm's capacity for cotton production. 

(k) Normal yields. Normal yields of lint cotton shall be established. The county committee, with the assistance of the other local committees established in the county, shall determine the normal yield of lint cotton for each farm for which a farm acreage allotment is established. 

(l) Reapportionment of unused farm acreage allotments. After making the allotments under this section, any part of the acreage allotted to individual farms which it is determined, in accordance with applicable instructions, will not be planted to cotton in 1942 shall be deducted from the allotments to such farms and may be apportioned in accordance with applicable instructions, preference being given to farms in the same county receiving allotments which are inadequate and not representative in view of the past production of cotton on each farm. Notwithstanding the foregoing provisions of this paragraph, the acreage shall be apportioned to those farms designated by the county committee. In designating the farms to which the apportionment is to be made, the county committee shall give consideration to the character and adaptability of the soil and other physical facilities affecting the production of cotton and the need of the operator of such farm for an additional allotment to meet the requirements of the family engaged in the production of cotton in 1942 on the farm. Any transfer of allotments for 1942 as set forth in this paragraph shall not affect apportionment for any subsequent year. 

(m) Appraised yields. If for any year of the five-year period 1936 to 1940 (1) records of the actual average yield are not available, or (2) there was no actual yield because cotton was not planted in any one of the three years 1939 to 1941 and on which cotton was not planted in any one of the three years 1939 to 1941 and on which cotton will be planted in 1942 the distributive part, applicable to the county, of acreage allotments which constitute a reserve of not more than one percent of the State acreage allotment. The basis of the apportionment shall be the land, labor, and equipment available for the production of cotton, crop-rotation practices, and the soil and other physical facilities affecting the production of cotton thereon, taking into consideration the applicant's intention to plant cotton in 1942 on the farm. As a reflection of the several factors to be taken into consideration, the acreage on the farm which will be tilled in 1942, or was tilled in 1941 will be the basic index of the farm's capacity for cotton production: Provided, That the allotment shall not exceed an acreage equal.
yields per acre of lint cotton established for 1942 by the Secretary of Agriculture. [Sec. 301 (b) (13) (B) and (E), 52 Stat. 38, 39]  
§ 722.418 Applicability of detailed instructions. The provisions of §§ 722.411–722.420, including the definitions and other details, are applicable in accordance with the provisions of Part I, "Instructions for Determining 1942 Farm Cotton Acreage Allotments and Normal Yields", of the following instructions applicable to the regions indicated below:  
(a) Southern Region. Cotton 608–SR, "Instructions Pertaining to Cotton Marketing Quotas for 1942".  
(b) East Central Region. Cotton 608–ECR, "Instructions Pertaining to Cotton Marketing Quotas for 1942".  
(c) Western Region. Cotton 608–WR, "Instructions Pertaining to Cotton Marketing Quotas for 1942".  
(d) North Central Region. Cotton 608–NCR, "Instructions Pertaining to Cotton Marketing Quotas for 1942".  

MARKETING QUOTAS  
§ 722.419 Farm marketing quotas—(a) Amount of farm marketing quota. The farm marketing quota for any farm for the 1942–1943 marketing year shall be the normal production of lint cotton subject to the rate of penalty applicable to cotton of the 1942 crop and by taking as carryover penalty free cotton the remainder of such unmarketed cotton.  
§ 722.420 Notice of farm marketing quotas. Immediately upon the establishment of farm acreage allotments and the determination of normal yields per acre in lint cotton for farms in a county or other local administrative area, the county committee shall mail or deliver directly to the operator of each farm a written notice of the farm marketing quota for the farm. The notice shall contain at or near the top thereof the following statement: "To all persons who as operator, landlord, tenant, or sharecropper are interested in the farm for which this quota is established". Notice so given shall constitute notice to all such persons. The notice shall contain the amount of the farm acreage allotment and normal yield for the farm, together with a brief statement of the manner in which the amount of the marketing quota shall, to the same extent as his predecessor, be entitled to all the rights and privileges incident to such marketing quota and be subject to the restrictions on the marketing of cotton. [Secs. 739, 375, 52 Stat. 50]  
§ 722.421 Publication of farm acreage allotments, normal yields, and farm marketing quotas. One copy of each notice of farm marketing quota for farms in a county shall be placed in inclosed envelopes or folders and posted in the office of the county committee in a manner that will make the copies of the notices freely available for public inspection for a period of not less than thirty calendar days. At the end of such period the copies of the notices shall be filed in the office of the county committee and remain readily available for further public inspection. [Secs. 362, 52 Stat. 62]  
§ 722.422 Marketing quotas in effect. Marketing quotas shall be in effect during the 1942–1943 marketing year with respect to the marketing of cotton. Cotton produced in the calendar year 1942 shall be subject to the quotas for the year 1942–1943, notwithstanding that it may be marketed prior to August 1, 1942. [Secs. 348 and 347, 52 Stat. 58 and 59]  
§ 722.423 Successors-in-interest. Any person who succeeds to the interest of a farm, in whole or in part, in cotton for which a farm marketing quota was established, shall to the same extent as his predecessor, be entitled to all the rights and privileges incident to such marketing quota and be subject to the restrictions on the marketing of cotton. [Secs. 362, 52 Stat. 62]  
§ 722.424 Marketing quotas not transferable. A farm marketing quota is established for a farm and may not be assigned or otherwise transferred in whole or in part to any other farm. [Secs. 375 (b), 52 Stat. 66]  
§ 722.425 Review of quotas—(a) Review committees. Any producer who is dissatisfied with the farm marketing quota established for his farm, or, in the case of a new cotton farm, with the action in refusing to establish a farm marketing quota for such farm, may, by making application within 15 days after the mailing or delivery directly to him of the notice provided for in § 722.420, have such quota or determination reviewed by a local review committee composed of three farmers appointed by the Secretary of Agriculture. The review committee shall, upon proper application, review the action in refusing to establish a farm marketing quota for such farm, or, in the case of a new cotton farm, the action in refusing to establish a farm marketing quota for such farm. The review committee in determining any farm marketing quota shall, to the same extent as the county committee, be limited to the establishment of a farm marketing quota in an amount which, under the law and regulations, should have been established. Unless such application is made within 15 days the original determination of the farm marketing quota shall be final. All applications for review shall be made in accordance with the Review Board Rules (38–AAA–2, Revised) issued by the Secretary of Agriculture. [Secs. 363 and 364, 52 Stat. 63]
(b) Court review. If the producer is dissatisfied with the determination of the review committee, he may, within 15 days after the notice is mailed to him by registered mail, institute proceedings against the review committee to have the determination of the review committee reviewed by a court in accordance with section 365 of the act. [Secs. 365 and 366, 52 Stat. 63]

Done at Washington, D. C., this 11th day of December 1941. Witness my hand and the seal of the Department of Agriculture.

CLAUDE R. WICKARD,
Secretary of Agriculture.

[41-Tob-57—Supplement 1]

PART 724—BURLEY TOBACCO
1941-42 MARKETING YEAR

Supplement 1 to Marketing Quota Regulations

Marketing Quota Regulations, Burley Tobacco—1941-42 Marketing Year, are hereby amended as follows:

Section 724.334. Amount of farm marketing quota, is amended by adding at the end thereof the following:

"The marketing quota for any farm having tobacco carried over from a crop produced prior to the calendar year 1941, shall be whichever of the following is applicable:

1. If the harvested acreage of tobacco in the year in which the carry-over tobacco was produced is not greater than the acreage allotment for such year, the acreage of tobacco harvested on the farm in 1941 is not greater than the acreage allotment for such year, the marketing quota shall be the actual production of tobacco on the farm acreage allotment for 1941 plus the amount of the within quota carry-over tobacco.

2. If the acreage of tobacco harvested on the farm in the year in which the carry-over tobacco was produced is greater than the acreage allotment for such year and the acreage of tobacco harvested on the farm in 1941 is less than the acreage for such year, the acreage allotment for 1941 by as much as the number of acres obtained by dividing into the carry-over excess tobacco the normal yield for the farm, the farm marketing quota shall be the actual production of tobacco on the farm in 1941 plus an amount of tobacco equal to the 1941 normal yield for the farm times the number of acres by which the 1941 farm acreage allotment exceeds the acreage of tobacco harvested on the farm in 1941.

3. If the acreage of tobacco harvested on the farm in the year in which the carry-over tobacco was produced is greater than the acreage allotment for such year and the acreage of tobacco harvested on the farm in 1941 does not exceed the 1941 acreage allotment but is not less than such acreage allotment by as much as the number of acres obtained by dividing into the total pounds of carry-over excess tobacco the normal yield for the farm, the farm marketing quota shall be the actual production of tobacco on the farm in 1941 plus an amount of tobacco equal to the 1941 normal yield for the farm times the number of acres by which the 1941 farm acreage allotment exceeds the acreage of tobacco harvested on the farm in 1941.

4. If the harvested acreage of tobacco in the year in which the carry-over tobacco was produced is greater than the acreage allotment for such year and the acreage of tobacco harvested on the farm in 1941 is less than the acreage allotment for such year, the marketing quota shall be the actual production of tobacco on the farm acreage allotment for 1941 plus the amount of the within quota carry-over tobacco.

5. If the harvested acreage of tobacco in the year in which the carry-over tobacco was produced is not greater than the acreage allotment for such year but the acreage of tobacco harvested on the farm in 1941 is greater than the acreage allotment for such year the marketing quota shall be the actual production of tobacco on the farm acreage allotment for 1941, plus the entire amount of carry-over tobacco.

"Excess tobacco in the case of farms having tobacco carried over from the calendar year 1941 shall be all tobacco available for marketing from the farm in excess of the farm marketing quota determined as provided under paragraphs 3, 4 and 5 above."

Section 724.335. Issuance of marketing card, is amended by adding at the end thereof the following:

"(e) Issuance of marketing cards for farms having carry-over tobacco. (1) For any farm on which the marketing quota is that amount determined pursuant to paragraph 1 or 2 of §724.334 above, there shall be issued a within quota marketing card, unless the farm is operated by a person who also operates another farm on which there is tobacco available for marketing in excess of the farm marketing quota, in which event there shall be issued an excess marketing card.

(2) For any farm on which the farm marketing quota is that amount determined pursuant to paragraph 3, 4, or 5 of §724.334 above, there shall be issued an excess marketing card.

(3) The percent excess for any farm for which paragraphs 3 and 4 of §724.334 are applicable shall be computed as follows: (i) A number of acres shall be determined by dividing into the carry-over excess tobacco the 1941 normal yield per acre for the farm; (ii) the number of acres determined under (i) shall be added to the 1941 harvested acreage; (iii) there shall be subtracted from the result obtained under (ii) the 1941 acreage allotment; and (iv) the result obtained under (iii) shall be divided by the acreage determined under (ii).

(4) The percent excess for any farm for which paragraph 5 of §724.334 is applicable shall be computed as follows: (i) A number of acres shall be determined by dividing into the carry-over tobacco the 1941 normal yield per acre for the farm; (ii) the number of acres determined under (i) shall be added to the 1941 harvested acreage; (iii) the number of acres determined under (i) shall be added to the 1941 acreage allotment; (iv) there shall be subtracted from the acreage determined under (i) the acreage determined under (iii) above; (v) the result obtained under (iv) shall be added to the acreage determined under (ii)."

Section 724.339. Rights of producers in marketing card, is amended by adding at the end thereof the following:

"The rights of producers in the marketing card for a farm having tobacco carried over from a crop produced prior to 1941 shall be determined in accordance with the provisions of this section, except that the burden of any penalty with respect to any such carry-over tobacco shall be borne by those persons having an interest in such tobacco.

By virtue of the authority vested in the Secretary of Agriculture under Title III of the Agricultural Adjustment Act of 1938 (Public Law No. 430, 75th Congress, approved February 16, 1938) as amended, he does make, prescribe, and publish the foregoing amendments to the Marketing Quota Regulations—Burley Tobacco—1941-42 Marketing Year, designated 41-Tob-57, issued by the Secretary on October 27, 1941, which regulations, as so amended, shall be in full force and effect until amended or superseded by regulations hereafter made by the Secretary of Agriculture.

Done at Washington, D. C., this 11th day of December 1941. Witness my hand and the seal of the Department of Agriculture.

CLAUDE R. WICKARD,
Secretary of Agriculture.

[F. R. Doc. 41-6978; Filed, December 12, 1941; 11:49 a. m.]

CHAPTER IX—SURPLUS MARKETING ADMINISTRATION

[O-12, as amended]

PART 912—MILK IN THE DUPUQUE, IOWA, MARKETING AREA

Sec.
912.0 Findings.
912.1 Definitions.
912.2 Market administrator.
912.3 Classification of milk.
912.4 Minimum prices.
912.5 Reports of handlers.
912.6 Application of provisions.
912.7 Determination of uniform prices to producers.
912.8 Payments for milk.
912.9 Ease of administration.
912.10 Marketing services.
912.11 Effective time, suspension, or termination of order, as amended.

H. A. Wallace, Secretary of Agriculture of the United States of America, issued, effective June 16, 1939, Order No. [Signature]
§ 912.0 Findings. (a) That the reduction in the marketing area, as provided by this order, as amended, is necessary, proper, and reasonable in view of the change in the conditions which previously existed;
(b) That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to §§ 2 and 86, 50 Stat. 246; 7 U.S.C. 602, 608e are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk and that the minimum prices set forth in this order, as amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;
(c) That the order, as amended, regulates the handling of milk in the same manner as a marketing agreement upon which a hearing has been held; and
(d) That the issuance of this order, as amended, and all of its terms and conditions, tends to effectuate the declared policy of the act.

§ 912.1 Definitions—(a) Terms. The following terms shall have the following meanings:
(1) The term "Dubuque, Iowa, marketing area," hereinafter called the "marketing area," means the territory within the corporate limits of the city of Dubuque, Iowa, the township of Dubuque, Iowa, sections 1, 2, 3, 11, and 12 of the township of Table Mound, and sections 5 and 6 of the township of Mosalem, all in the county of Dubuque in the State of Iowa.
(2) The term "person" means any individual, partnership, corporation, association, or any other business unit.
(3) The term "producer" means any person, irrespective of whether such person is also a handler, who produces milk which is received at the plant of a handler from which milk is disposed of in the marketing area, or which is caused to be delivered by a handler from such a plant to a plant from which no milk is disposed of in the marketing area.
(4) The term "producer-handler" means any person, irrespective of whether such person is a producer or a cooperative association, wherever located or operating, who engages in such handling of milk, which is disposed of as milk or cream in the marketing area, as is in the current of interstate commerce or which directly burdens, obstructs, or affects interstate commerce in milk and its products.
This definition shall be deemed to include any cooperative association with respect to milk caused to be delivered from a producer to a handler for the account of such cooperative association and for which such cooperative association collects payment, and any cooperative association or other handler with respect to the milk of any producer which it causes to be delivered to a plant from which no milk is disposed of in the marketing area, for the account of such cooperative association or handler and for which such cooperative association or handler collects payment.
(5) The term "producer-handler" means any person who is both a producer and a handler and who receives no milk from other producers: Provided, That (i) the maintenance, care, and management of the dairy animals and other re­sources which are necessary to produce the milk is the personal enterprise of and at the personal risk of such person in his capacity as a producer, and (ii) the processing, packaging, and distribution of the milk is the personal enterprise of and at the personal risk of such person in his capacity as a handler.
(6) The term "market administrator" means the person designated pursuant to § 912.3 as the agency for the administration hereof.

§ 912.2 Market Administrator—(a) Designation. The agency for the administration hereof shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.
(b) Powers. The market administrator shall:
(1) Administer the terms and provisions hereof; and
(2) Report to the Secretary complaints of violation of the provisions hereof.

§ 912.3 Duties. The market administrator shall:
(1) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary.
(2) Pay out of the funds provided by § 912.9 the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office.
(3) Keep such books and records as will clearly reflect the transactions provided for herein and surrender the same.
§ 912.8 Reports of handlers — (a) Periodic reports. On or before the 5th day after the end of each delivery period each handler, with respect to milk or cream which was, during such delivery period (a) received from producers, (b) received from handlers, (c) received from such handler's own production, (d) received from any other source, or (e) caused to be delivered to a plant from which no milk is disposed of in the marketing area, shall report to the market administrator, in the detail and form prescribed by the market administrator, as follows:

(1) The receipts at each plant from producers who are not handlers;

(2) The receipts at each plant from any other handler, including any handler who is also a producer;

(3) The receipts at each plant from such handler's own production;

(4) The receipts at each plant from any other source; and

(5) The respective quantities of milk which were disposed of for the purpose of classification pursuant to § 912.3.

(b) Reports as to producers. Each handler shall report to the market administrator as follows:

(1) Within 10 days after the market administrator's request, with respect to any producer and with respect to a period of time designated by the market administrator, (i) the name and address, (ii) the total pounds of milk received, (iii) the average butterfat test of milk received, (iv) the number of days upon which milk was received; and (v) within 5 days after the receipt of milk from any producer (i) the name and address of such producer, (ii) the date upon which such milk was first received, and (iii) the plant at which the milk of such producer was received.

(c) Reports of payments to producers. On or before the 20th day after the end of each delivery period each handler shall submit to the market administrator his producer pay roll for such delivery period which shall show for each producer (a) the net amount of such producer's payment with the prices, deductions, and charges involved, and (b) the total delivery of milk with the average butterfat test thereof.

(d) Verification of reports. Each handler shall verify each report with the market administrator or his agent (a) those records which are necessary for the verification of the information contained in the reports submitted in accordance with this section, and (b) those facilities which are necessary for the sampling, weighing, and testing of the milk of each producer.

§ 912.4 Minimum prices — (a) Class prices. Each handler shall pay at the time and in the manner set forth in § 912.8 not less than the prices set forth in this paragraph per hundredweight of milk received during each delivery period at such handler's plant or caused by such handler to be delivered to a plant from which no milk is disposed of in the marketing area, on the basis of milk of 3.5 percent butterfat content:

(1) For Class I milk the price shall be the price for Class III milk for such delivery period plus 70 cents per hundredweight.

(2) For Class II milk the price shall be the price for Class III milk plus 23 cents per hundredweight.

(3) For Class III milk the price shall be the price for Class III milk for such delivery period plus 25 cents per hundredweight.

(4) For Class IV milk the price shall be the price for Class III milk for such delivery period plus 23 cents per hundredweight.

§ 912.3 Classification of milk — (a) Milk to be classified. Milk of a producer which a handler causes to be delivered to a plant from which no milk is disposed of in the marketing area, and all milk received by each handler, including milk produced by him, if any, shall be classified by the market administrator in the classes set forth in paragraphs (b), (c) and (d) of this section.

(b) Classes of utilization. The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk disposed of in the form of milk and all milk not accounted for as Class II milk, Class III milk, or Class IV milk.

(2) Class II milk shall be all milk used to produce any product which is disposed for consumption or use as cream.

(3) Class III milk shall be all milk specifically accounted for as used to produce a milk product other than those specifically accounted for in Class II and Class IV milk.

(4) Class IV milk shall be all milk specifically accounted for as used to produce butter or cheese, except cottage cheese, and all milk accounted for as actual plant shrinkage but not to exceed 3 percent of the total receipts of milk from producers.

(c) Interhandler and nonhandler sales. Milk disposed of by a handler to another handler and milk disposed of by a handler to a person who is not a handler but who distributes milk or manufactures milk products shall be classified, subject to paragraph (d) of this section, as Class I milk: Provided, That if the selling handler on or before the 5th day after the end of each delivery period furnishes to the market administrator a statement which is signed by the buyer and seller that such milk was disposed of as Class II milk, Class III milk, or Class IV milk, such milk shall be classified accordingly, subject to verification by the market administrator.

(d) Sales of a cooperative association to any other handler. Milk caused to be delivered from a producer to such handler by a cooperative association which is a handler shall be ratably apportioned among the receiving handler's total Class I, Class II, Class III, and Class IV milk.

§ 912.8 Reports of handlers — (a) Periodic reports. On or before the 5th day after the end of each delivery period each handler, with respect to milk or cream which was, during such delivery period (a) received from producers, (b) received from handlers, (c) received from such handler's own production, (d) received from any other source, or (e) caused to be delivered to a plant from which no milk is disposed of in the marketing area, shall report to the market administrator, in the detail and form prescribed by the market administrator, as follows:

(1) The receipts at each plant from producers who are not handlers;

(2) The receipts at each plant from any other handler, including any handler who is also a producer;

(3) The receipts at each plant from such handler's own production;

(4) The receipts at each plant from any other source; and

(5) The respective quantities of milk which were disposed of for the purpose of classification pursuant to § 912.3.

(b) Reports as to producers. Each handler shall report to the market administrator as follows:

(1) Within 10 days after the market administrator's request, with respect to any producer and with respect to a period of time designated by the market administrator, (i) the name and address, (ii) the total pounds of milk received, (iii) the average butterfat test of milk received, (iv) the number of days upon which milk was received; and (v) within 5 days after the receipt of milk from any producer (i) the name and address of such producer, (ii) the date upon which such milk was first received, and (iii) the plant at which the milk of such producer was received.

(c) Reports of payments to producers. On or before the 20th day after the end of each delivery period each handler shall submit to the market administrator his producer pay roll for such delivery period which shall show for each producer (a) the net amount of such producer's payment with the prices, deductions, and charges involved, and (b) the total delivery of milk with the average butterfat test thereof.

(d) Verification of reports. Each handler shall verify each report with the market administrator or his agent (a) those records which are necessary for the verification of the information contained in the reports submitted in accordance with this section, and (b) those facilities which are necessary for the sampling, weighing, and testing of the milk of each producer.

§ 912.4 Minimum prices — (a) Class prices. Each handler shall pay at the time and in the manner set forth in § 912.8 not less than the prices set forth in this paragraph per hundredweight of milk received during each delivery period at such handler's plant or caused by such handler to be delivered to a plant from which no milk is disposed of in the marketing area, on the basis of milk of 3.5 percent butterfat content:

(1) For Class I milk the price shall be the price for Class III milk for such delivery period plus 70 cents per hundredweight.

(2) For Class II milk the price shall be the price for Class III milk plus 23 cents per hundredweight.

(3) For Class III milk the price shall be the price for Class III milk for such delivery period plus 25 cents per hundredweight.

(4) For Class IV milk the price shall be the price for Class III milk for such delivery period plus 23 cents per hundredweight.

§ 912.3 Classification of milk — (a) Milk to be classified. Milk of a producer which a handler causes to be delivered to a plant from which no milk is disposed of in the marketing area, and all milk received by each handler, including milk produced by him, if any, shall be classified by the market administrator in the classes set forth in paragraph (b) of this section, subject to the provisions of paragraphs (c) and (d) of this section.

(b) Classes of utilization. The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk disposed of in the form of milk and all milk not accounted for as Class II milk, Class III milk, or Class IV milk.

(2) Class II milk shall be all milk used to produce any product which is disposed for consumption or use as cream.

(3) Class III milk shall be all milk specifically accounted for as used to produce a milk product other than those specifically accounted for in Class II and Class IV milk.

(4) Class IV milk shall be all milk specifically accounted for as used to produce butter or cheese, except cottage cheese, and all milk accounted for as actual plant shrinkage but not to exceed 3 percent of the total receipts of milk from producers.

(c) Interhandler and nonhandler sales. Milk disposed of by a handler to another handler and milk disposed of by a handler to a person who is not a handler but who distributes milk or manufactures milk products shall be classified, subject to paragraph (d) of this section, as Class I milk: Provided, That if the selling handler on or before the 5th day after the end of each delivery period furnishes to the market administrator a statement which is signed by the buyer and seller that such milk was disposed of as Class II milk, Class III milk, or Class IV milk, such milk shall be classified accordingly, subject to verification by the market administrator.

(d) Sales of a cooperative association to any other handler. Milk caused to be delivered from a producer to such handler by a cooperative association which is a handler shall be ratably apportioned among the receiving handler's total Class I, Class II, Class III, and Class IV milk.

§ 912.4 Minimum prices — (a) Class prices. Each handler shall pay at the
§ 912.6 Application of provisions—(a) Handlers who are also producers and who purchase or receive milk from other producers. In the case of a handler who is also a producer and who purchases or receives milk from other producers, the resulting values of each class shall be computed by the market administrator pursuant to § 912.7 (a) as follows: the quantity of such milk shall be ratably apportioned among such handler's total Class I, Class II, Class III, and Class IV milk (after excluding purchases or receipts from other handlers) multiplied by the price applicable pursuant to § 912.5, and who made the payments to the market administrator prescribed by § 912.8 (d); and

(b) Subtract the total amount to be paid pursuant to § 912.8 (a) (2); and

(c) Add the amount of cash balance in the producer-settlement fund less the value of milk computed pursuant to § 912.8 (g).

§ 912.7 Determination of uniform prices to producers—(a) Computation of the value of milk for each handler. For each delivery period the market administrator shall compute and announce the uniform price per hundredweight of milk as follows:

(1) Combine into one total the respective values of milk computed pursuant to paragraph (a) of this section for each handler who made the reports to the market administrator prescribed by § 912.3, and who made the payments to the market administrator prescribed by § 912.8 (d); and

(2) Subtract the total amount to be paid pursuant to § 912.8 (a) (2); and

(a) Producer-settlement fund. The market administrator shall establish and maintain a separate fund, known as "the producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to paragraphs (d), (e), and (g) of this section and out of which he shall make all payments to handlers pursuant to paragraphs (f) and (g) of this section.

(b) Payments to the producer-settlement fund. On or before the 12th day after the end of each delivery period, each handler shall pay, subject to the provisions of paragraph (e) of this section, to the market administrator for payment to producers through the producer-settlement fund, the amount by which the total utilization value of the milk of producers received by such handler or caused by such handler to be delivered to a plant from which no milk is disposed of in the marketing area during the delivery period is greater than the sum obtained by multiplying the hundredweight of such milk by the appropriate prices required to be paid producers by handlers pursuant to subparagraphs (1) and (2) of paragraph (a) of this section, and adding together the resulting amounts.

(c) Payments made through a cooperative association. On or before the 12th day after the end of each delivery period, each handler shall make payment to producers for each one-tenth of 1 percent of average butterfat content in milk below 3.5 percent not more than, an amount which is one-thirty-fifth of the price per hundredweight for Class IV milk.
Effective time. The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to paragraph (b) of this section.

(b) Suspension or termination. The Secretary may suspend or terminate this order, as amended, or any provision hereof, whenever he finds that this order, as amended, or any provision hereof, obstructs, or does not tend to effectuate the declared policy of the act. This order, as amended, shall terminate in any event, whenever the provisions of the act authorizing it cease to be in effect.

(c) Continuing power and duty of the market administrator. If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: Provided, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person as the Secretary may designate.

(1) The market administrator, or such other person as the Secretary may designate, shall (i) continue in such capacity until removed by the Secretary, (ii) from time to time account for all receipts and disbursements, and, when so directed by the Secretary, deliver all funds or property on hand, together with the books and records of the market administrator, or such other person, to such person as the Secretary may direct, and (iii) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims wherever located, as the Secretary shall liquidate, if so directed by the Secretary, the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person as the Secretary may designate, shall be distributed to the contributing handlers and producers in an equitable manner.
on and after the 15th day of December 1941. Witness my hand and the official seal of the Department of Agriculture.

[SEAL]

CLAIRE R. WICKARD,
Secretary of Agriculture.

[FR Doc. 41-9668; Filed, December 12, 1941; 11:43 a.m.]

[O 44-1]

PART 944—MILK IN THE QUAD CITIES MARKETING AREA

§ 944.0 Findings.

§ 944.1 Definitions.

1. The term "handler" means any person, irrespective of whether such person is also a producer, who produces milk which is received at a plant from which milk is disposed of in the marketing area: Provided, That such person did not regularly distribute milk in the marketing area or dispose of milk to a handler or to persons within the marketing area during a period of 30 days prior to the effective date hereof, but thereafter begins the regular delivery of milk to a handler, he shall be known as a "new handler" for a period beginning with the date of such first delivery to a handler and including the first 2 full calendar months of regular delivery following first delivery to a handler, after which he shall be known as a "producer." This definition of producer and new producer shall be deemed to include any person who produces milk which is a cooperative association causes to be diverted from a plant from which milk is disposed of in the marketing area and to a plant from which milk is disposed of in the marketing area.

(4) The term "handler" means any person, except as provided in § 944.8 (c), who, on his own behalf or on behalf of others, purchases or receives milk from producers, associations of producers, or other handlers, all or a portion, of which milk is disposed of as milk in the marketing area; and who, on his own behalf or on behalf of others, engages in such handling of milk as is in the current of interstate commerce or which directly burdens, obstructs, or affects interstate commerce in milk and its products. This definition shall be deemed to include a cooperative association with respect to the milk of any producer which it causes to be delivered to a handler or to be delivered to a plant from which no milk is disposed of in the marketing area, for the account of such cooperative association, and for which such cooperative association collects payment.

(5) The term "producer-handler" means any person who is both a producer and a handler and who receives no milk from other producers: Provided, That (1) the maintenance, care, and management of a dairy and other resources necessary to produce the milk is the personal enterprise of and at the personal risk of such person in his capacity as a producer, and (ii) the processing, packaging, and distribution of the milk is the personal enterprise of and at the personal risk of such person in his capacity as a handler.

(6) The term "delivery period" means the period from the effective date hereof to and including the last day of the month. Subsequent to that month the term "delivery period" means the period from the first to the last day of each month, both inclusive.

(7) The term "base" means the quantity of milk calculated for each producer pursuant to § 944.8 (e).

(8) The term "act" means Public Act No. 10, 73d Congress, as amended, as reenacted and amended by the Agricultural Marketing Agreement Act of 1937.

(9) The term "Secretary" means the Secretary of Agriculture of the United States.

(10) The term "market administrator" means the agency which is described in § 944.2 for the administration of the section.
§ 944.2 Market administrator.—(a) Designation. The agency for the ad­
neministration of the market administrator shall be a market admin­
istrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) Powers. The market administra­
tor shall:
(1) Administer the terms and provi­sions hereof.
(2) Investigate and report to the Sec­
retary complaints of violation of the provi­sions hereof.
(3) Make rules and regulations to ef­
fectuate the terms and provisions hereof.
(c) Duties. The market administrator shall:
(1) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful per­formance of his duties, in an amount and with surety therein satisfactory to the Secretary.
(2) Keep such books and records as will clearly reflect the transactions pro­vided for herein, and surrender the same to his successor or to such other person as the Secretary may designate.
(3) Submit his books and records to examination by the Secretary at any and all times.
(4) Furnish such information and such verified reports as the Secretary may request.
(5) Obtain a bond with reasonable security thereon covering each employee who handles funds entrusted to the market administrator.
(6) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 15 days after the date upon which he is required to perform such acts, has not (a) made reports pursuant to § 944.5 or (b) made payments pursuant to § 944.8.

§ 944.3 Classification of milk.—(a) Milk to be classified. Milk of a producer or manufacturer which a cooperative as­sociation causes to be delivered to a plant from which no milk is disposed of in the marketing area, for the account of such cooperative association and for which it collects payment, and all milk received by each handler, including milk produced by him, if any, shall be classified by the market administrator in the classes set forth in paragraph (b) of this section, subject to the provisions of paragraphs (c) and (d) of this section.

(b) Classes of utilization. The classes of utilization of milk shall be as follows:
(1) Class I milk shall be all milk disposed of as Class I milk and all milk not specifically accounted for as Class II milk, Class III milk, or Class IV milk.
(2) Class II milk shall be all milk dis­posed of as cream (for consumption or use as cream) and all milk disposed of as chocolate milk, or as any flavored milk drink.
(3) Class III milk shall be all milk specifi­cally accounted for as used to pro­duce evaporated milk, condensed milk, ice cream mix, unsalted butter, or any milk product, other than those specified in Class II milk and Class IV milk.
(4) Class IV milk shall be all milk used to produce butter and American type Cheddar cheese and all milk accounted for as actual plant shrinkage: Provided, That such plant shrinkage shall not ex­ceed 3 percent of the total receipts of milk from producers and new producers.

c) Interhandler and nonhandler sales. Milk disposed of by a handler to another handler or to a person not a handler but who distributes milk or manufactures milk products shall be classified, subject to paragraph (d) of this section, as Class I milk: Provided, That if the selling handler, on or before the date fixed for filing reports pursuant to § 944.5, furnishes to the market ad­ministrator a statement signed by the buyer and the seller that such milk was disposed of other than as Class I milk, such milk shall be classified accordingly, subject to verification by the market administrator.

(d) Sales of a cooperative association to any other handler. Milk caused to be delivered to a member producer by any other handler by a cooperative association which is a handler shall be ratably ap­portioned among the receiving handler’s total Class I milk, Class II milk, Class III milk, and Class IV milk.

§ 944.4 Minimum prices.—(a) Class prices. Each handler shall pay, at the time and in the manner set forth in § 944.8, per hundredweight of milk not less than the prices set forth in this paragraph.

(1) For Class I milk in the case of milk which complies with the Grade A milk quality requirements of the Milk Ordinance of the City of Davenport, Iowa, or of the Grade A Milk and Grade A Milk Products Law of the State of Illinois, and the minimum requirements adopted by the Director of the Illinois Department of Public Health for the interpretation and enforcement of said act, and is disposed of as Class I milk, the price shall be the price for Class III milk for such delivery period plus 45 cents per hundredweight.

(2) For Class II milk in the case of milk which does not comply with the Grade A milk quality requirements of the Milk Ordinance of the City of Davenport, Iowa, or of the Grade A Milk and Grade A Milk Products Law of the State of Illinois, and the minimum requirements adopted by the Director of the Illinois Department of Public Health for the interpretation and enforcement of said act, and is disposed of as Class I milk, the price shall be the price for Class III milk for such delivery period plus 45 cents per hundredweight.

(3) For Class II milk in the case of milk which complies with the Grade A milk quality requirements of the Milk Ordinance of the City of Davenport, Iowa, or of the Grade A Milk and Grade A Milk Products Law of the State of Illinois, and the minimum requirements adopted by the Director of the Illinois Department of Public Health for the interpretation and enforcement of said act, and is disposed of as Class I milk, the price shall be the price for Class III milk for such delivery period plus 45 cents per hundredweight.

(4) For Class II milk in the case of milk which complies with the Grade A milk quality requirements of the Milk Ordinance of the City of Davenport, Iowa, or of the Grade A Milk and Grade A Milk Products Law of the State of Illinois, and the minimum requirements adopted by the Director of the Illinois Department of Public Health for the interpretation and enforcement of said act, and is disposed of as Class I milk, the price shall be the price for Class III milk for such delivery period plus 45 cents per hundredweight.

(5) For Class III milk the price shall be the result of the following computations by the market administrator, de­termine the average of the basic or field prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received during the period beginning with the 16th day of the previous month and ending with the 15th day of the then current month at the plants listed in this subparagraph: Provided, That if the price so determined is less than the price that the market administrator in accordance with the following formula, such formula price shall be the price for Class III milk for such delivery period: multiply by 0.4 the average weekly prevailing price per
pound of “Twins” during said delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin (in the absence of such prices the prevailing prices of “Twins” at Chicago as reported by the United States Department of Agriculture shall be used), add the average wholesale price per pound of 92-score butter at Chicago for said delivery period as reported by the United States Department of Agriculture, and multiply such result by 3.9: Provided further, That for that portion of Class III milk specifically accounted for as used by the handler to produce ice cream or ice cream products disposed of at wholesale in a frozen state to another person for resale by the purchaser, the price shall be the price as computed above for the remainder of the Class III milk minus 15 cents per hundredweight.

Concern and location of plants
Dean Milk Company, Belvidere, Illinois.
Borden Company, Dixon, Illinois.
Carnation Milk Company, Oregon, Illinois.
Dean Milk Company, Pearl City, Illinois.
Dean Milk Company, Pecatonica, Illinois.
Borden Company, Sterling, Illinois.
Pet Milk Company, Schullsburg, Wisconsin.

(b) Reports as to producers. Each handler shall report to the market administrator:

(1) Within 10 days after the market administrator’s request with respect to any producer or new producer and with respect to a period of time designated by the market administrator, the name and address, (1) the total pounds of milk received, (2) the average butterfat test of milk received, and (4) the number of days upon which milk was received.

(2) Within 5 days after first receiving milk from any producer, (1) the name and address of such producer, (ii) the date upon which such milk was first received, (iii) the plant at which the milk of such producer was received, and (iv) whether such producer is a new producer.

(c) Reports of payments. On or before the 20th day after the end of each delivery period, each handler shall report for such delivery period to the market administrator, in the manner prescribed by the market administrator, with respect to each producer and new producer, (1) his name, (2) his total deliveries of base milk and total deliveries of milk in excess of base milk, respectively, (3) the average butterfat content of his milk, (4) the total payment made to such producer or new producer showing the prices, deductions, and charges involved, and (5) such other information as the market administrator may request.

(d) Verification of reports. Each handler shall make available to the market administrator or his agent (1) those records which are necessary for the verification of the information contained in the reports and in accordance with this section, and (2) those facilities which are necessary for the sampling, weighing, and testing of milk and for determining the utilization of milk by the handler.

§ 944.6 Application of provisions—(a) Handlers who are also producers and who purchase or receive milk from other producers. In the case of a handler who is also a producer and who purchases or receives milk from other producers the value of such milk purchased or received from other producers shall be computed by the market administrator pursuant to § 944.7 (a) as follows: the quantity of such milk shall be ratably apportioned among such handler’s total Class I, Class II, Class III, and Class IV milk prices (excluding purchases or receipts from other handlers) and multiplied by the Class I, Class II, Class III, and Class IV prices, respectively.

Producer-handlers. (1) The provisions hereof, except as set forth in § 944.5, shall not apply to the handling of milk by handlers who are also producer-handlers pursuant to § 944.1 (a) (5), as verified by the market administrator in the manner provided in subparagraph (2) of this paragraph.

(2) Handlers shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence of their qualifications as producer-handlers pursuant to § 944.1 (a) (5), as verified as of the effective date of the provisions hereof, and they shall furnish evidence of subsequent changes made in the manner of producing or distributing their milk that affects their qualifications as producer-handlers; such verification by the market administrator shall be made within 15 days of the date of receipt of the evidence, and shall be effective retroactively to the effective date of the provisions hereof in cases verified within 45 days of such effective date and shall be effective retroactively to the first day of the delivery period during which verification is made in subsequent cases.

(c) Milk received by a handler from a producer-handler. The market administrator, in computing the value of milk for any handler pursuant to § 944.7 (a), shall consider as Class IV milk any milk or cream received by handler from producer-handler. If such receiving handler disposes of such milk or cream for other than Class IV purposes, the market administrator shall add to the total value computed pursuant to § 944.7 (a) the difference between the value of such milk or cream according to its actual usage, and (2) the value at the Class IV prices.*

§ 944.7 Determination and notification of uniform prices to producers—(a) Computation of the value of milk for each handler. For each delivery period the market administrator shall compute, subject to the provisions of § 944.6 and § 944.8 (c), the value of milk of producers and new producers disposed of by each handler by (1) multiplying the quantity of such milk in each class by the price applicable pursuant to § 944.4, and (2) adding together the resulting values of each class.

§ 944.8 Computation and announcement of the uniform price. For each delivery period the market administrator shall compute and announce the uniform price per hundredweight of milk as follows:

(1) Combine into one total the respective values of milk computed pursu-
Payments for milk—(a) Time and method of payment. On or before the 15th day after the end of each delivery period each handler shall make payment for milk received from producers as determined by § 944.8 and who made the payments prescribed by § 944.8 (a) (5); (2) Compute the total quantity of milk which represents the delivered bases of producers (excluding new producers) and which is included in the computations made pursuant to paragraph (a) of this section; (3) Compute the total value of the milk (including all milk received from new producers) which is in excess of the delivered bases of producers determined pursuant to subparagraph (2) of this paragraph and which is included in the computations pursuant to paragraph (a) of this section, by multiplying such quantity of milk by the Class IV price; (4) Compute the total value of the milk represented by the delivered bases of producers by subtracting the value obtained in subparagraph (3) of this paragraph from the value obtained in subparagraph (1) of this paragraph; (5) Subtract from the value computed pursuant to subparagraph (4) of this paragraph an amount computed as follows: multiply by .0030 the total hundredweight of milk of producers who are qualified to receive payments pursuant to § 944.8 (a) (2) which was disposed of as Class I milk and Class II milk; (6) Add to the value computed pursuant to subparagraph (5) of this paragraph an amount which will secure a cash balance available from previous delivery periods pursuant to subparagraph (8) of this paragraph; (7) Divide the value obtained in subparagraph (6) of this paragraph by the quantity of milk represented by the delivered bases of producers as determined in subparagraph (2) of this paragraph; (8) Subtract from the figure obtained in subparagraph (7) of this paragraph not less than one-tenth of 5 cents per hundredweight of milk for the purpose of retaining a cash balance to provide against errors in reports and payments, or delinquencies in payments by handlers. This result shall be known as the uniform price per hundredweight for such delivery period for base milk of producers containing 3.5 percent butterfat; and (9) On or before the 10th day after the end of each delivery period notify all handlers and make public announcement of these computations, of the uniform price per hundredweight of base milk computed pursuant to this paragraph, of the Class I, Class II, Class III, and Class IV price and of the differentials computed pursuant to subparagraph (2) of paragraph (a) and paragraph (d) of § 944.8.*

§ 944.8 Payments for milk—(a) Time and method of payment. On or before the 15th day after the end of each delivery period each handler shall make payment for milk received from producers as determined by § 944.8 and who made the payments prescribed by § 944.8 (a) (5); (2) Compute the total quantity of milk which represents the delivered bases of producers (excluding new producers) and which is included in the computations made pursuant to paragraph (a) of this section; (3) Compute the total value of the milk (including all milk received from new producers) which is in excess of the delivered bases of producers determined pursuant to subparagraph (2) of this paragraph and which is included in the computations pursuant to paragraph (a) of this section, by multiplying such quantity of milk by the Class IV price; (4) Compute the total value of the milk represented by the delivered bases of producers by subtracting the value obtained in subparagraph (3) of this paragraph from the value obtained in subparagraph (1) of this paragraph; (5) Subtract from the value computed pursuant to subparagraph (4) of this paragraph an amount computed as follows: multiply by .0030 the total hundredweight of milk of producers who are qualified to receive payments pursuant to § 944.8 (a) (2) which was disposed of as Class I milk and Class II milk; (6) Add to the value computed pursuant to subparagraph (5) of this paragraph an amount which will secure a cash balance available from previous delivery periods pursuant to subparagraph (8) of this paragraph; (7) Divide the value obtained in subparagraph (6) of this paragraph by the quantity of milk represented by the delivered bases of producers as determined in subparagraph (2) of this paragraph; (8) Subtract from the figure obtained in subparagraph (7) of this paragraph not less than one-tenth of 5 cents per hundredweight of milk for the purpose of retaining a cash balance to provide against errors in reports and payments, or delinquencies in payments by handlers. This result shall be known as the uniform price per hundredweight for such delivery period for base milk of producers containing 3.5 percent butterfat; and (9) On or before the 10th day after the end of each delivery period notify all handlers and make public announcement of these computations, of the uniform price per hundredweight of base milk computed pursuant to this paragraph, of the Class I, Class II, Class III, and Class IV price and of the differentials computed pursuant to subparagraph (2) of paragraph (a) and paragraph (d) of § 944.8.*

Determination of base. (1) For each delivery period the base of each producer shall be a quantity of milk calculated in the following manner: (i) multiply the applicable figure, computed pursuant to subparagraph (ii) of this paragraph, by the number of days on which milk was received from such producer during such delivery period. (2) Effective January 1, 1940, and each subsequent year thereafter, the daily base of each handler for the ensuing year shall be determined by the market administrator from reports filed by handlers pursuant to § 944.5 in the following manner: (i) Determine for each production that milk month during the preceding calendar year when the daily average deliveries of milk were the lowest. Determine the 3 months of the preceding calendar year when the daily average deliveries of milk of all producers were the lowest; (ii) Determine for each handler his total deliveries of milk during each of the
4 months of the previous calendar year described in subdivision (i) of this subparagraph and add together the resulting amounts;

(iii) Divide the sum obtained for each producer in subdivision (ii) of this subparagraph by the number of days of such 4 calendar months;

(iv) Add together in one sum all the daily average amounts, computed in accordance with subdivision (iii) of this subparagraph.

(v) Determine the daily average utilization of Class I milk and Class II milk during the month of the preceding year when such utilization was greatest, and add to such daily average an amount not to exceed 10 percent thereof;

(vi) Divide the amount determined pursuant to subdivision (v) of this subparagraph by the sum determined pursuant to subdivision (iv) of this subparagraph; and

(vii) Multiply the daily average amount payment producer determined in subdivision (iii) of this subparagraph by the percentage figure computed pursuant to subdivision (vi) of this subparagraph.

This result shall be known as the producer's allotted daily base.

(3) Base rules. The following rules shall be observed by the market administrator with respect to the administration of the base plan:

(i) Bases allotted to producers pursuant to subparagraph (2) of this paragraph shall not be transferable: Provided, That bases allotted under a tenant and landlord relationship shall be combined and may be divided only if such relationship is terminated: And provided further, That any member of the producer's family may be named as the person to whom such base is to be allotted, but in no case shall a base be allotted to more than one member of such producer's family on the same farm;

(ii) As soon as bases are allotted to producers pursuant to subparagraph (2) of this paragraph, the market administrator shall notify each handler of the allotment of bases to producers from whom such handler received milk;

(iii) Any producer who ceases to market milk to a handler for a period of more than 45 consecutive days shall forfeit his base. In the event that he thereafter commences to market milk to a handler he shall receive a base computed in the manner provided in subdivision (x) of this subparagraph for the allotment of bases to producers who have been new producers, and shall be treated for the purposes of this section as if he had been a new producer;

(iv) In the event a producer delivers an average quantity of milk less than 85 percent of his allotted daily base for each of 3 consecutive calendar months, such producer shall be reallocated a base equal to his daily average deliveries of milk of his own production for the 3 consecutive months involved;

(v) A producer, whether landlord or tenant of a farm, may retain his base when moving his entire herd of cows from one farm to another farm: Provided, That at the beginning of a tenant and landlord relationship the allotted base of the tenant and landlord shall be a combined base;

(vi) A landlord who rents on shares shall be entitled to the entire base to the exclusion of the tenant, if the landlord owns the entire herd. Likewise, the tenant who rents on shares shall be entitled to the entire base to the exclusion of the landlord, if the tenant owns the entire herd. If the cattle are jointly owned by tenant and landlord, the base shall be divided between the joint owners according to the ownership of the cattle, if and when such joint owners terminate the tenant and landlord relationship;

(vii) The base of any producer shall be automatically canceled at the beginning of any delivery period during which such producer reports milk not produced by him as being milk of his own production for the purpose of maintaining or increasing his allotted base. Such producer shall be computed in the manner provided in subdivision (v) of this subparagraph for the allotment of bases to producers who have been new producers, and shall be treated for the purposes of this section as if he had been a new producer;

(viii) Any producer, upon giving notice to the market administrator, may relinquish his base at the beginning of the delivery period following that during which notice is given. To the extent the producer thereafter requests the market administrator to allot him a base, he shall be allotted a base in the manner provided in subdivision (x) of this subparagraph for the allotment of bases to producers who have been new producers, and shall be treated for the purpose of this section as if he had been a new producer;

(ix) If a producer, who has notified the market administrator within 5 days prior to his participation, enters into a program of disease eradication supervised by either county, State, or Federal authorities, the market administrator, in making his determination of that month of the preceding year when such producer's daily average deliveries of milk were the lowest, pursuant to subdivision (i) of subparagraph (2) of this paragraph, shall disregard any month in which such disease eradication program was being performed;

(x) In the event of allotment of a base to a producer who has shipped milk as a new producer, the market administrator shall determine the daily average deliveries of milk by such producer for the first 2 full calendar months immediately preceding the time when such producer became a producer. Such daily average deliveries of milk shall be multiplied by the percentage that base deliveries were to total deliveries of milk to the market during such 2 calendar months by all base-holding producers on the market during that period; and

(xi) In the case of a producer who distributes the milk he produces and who distributes all or part of his delivery routes to a handler, the market administrator shall determine a figure representing the average daily Class I milk and Class II milk produced, and disposed of during the previous 3 months on the delivery route of such producer, and such producer and such handler jointly report as involved in the transaction, subject to verification by the market administrator. Any base so determined shall be effective from its determination until the end of the then current calendar year and thereafter shall be superceded by a figure determined pursuant to subparagraph (2) of this paragraph.

(4) Errors in payments. Whenever verification by the market administrator of the payment by any producer or new producer disclosed payment to such producer or new producer of less than is required by this section, the handler shall make up such payment to the producer or new producer not later than the time of making the next payment to producers and new producers next following such disclosure.

§ 944.9 Marketing services—(a) Deductions for marketing services. Except as set forth in paragraph (b) of this section, each handler shall deduct an amount not exceeding 4 cents per hundredweight (the exact amount to be determined by the market administrator, subject to review by the Secretary) from the payments made to producers and new producers pursuant to § 944.8 with respect to all milk received by such handler during each delivery period from producers and new producers, and shall pay such deductions to the market administrator on or before the day next following the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received by handlers from producers and new producers during the delivery period and to provide such producers and new producers with market information, such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) Producers' cooperative association. In the case of producers and new producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall apply the deductions specified in paragraph (a) of this section, such deductions from the payments to be made to such producers and new producers as may be authorized
by such producers and new producers and (ii) on or before the 15th day after the end of each delivery period, pay over such deductions to the cooperative association for the market administrative association to a plant from which no milk is received during such delivery period from producers and new producers and produced by such handler, the exact sum to be determined by the market administrator subject to review by the Secretary: Provided, That each handler which is a distributing handler and producers in an equitable manner.

TITLE 19—CUSTOMS DUTIES
CHAPTER I—BUREAU OF CUSTOMS

PART 27—REGULATIONS UNDER TRADING WITH THE ENEMY ACT

COMMUNICATIONS OUTSIDE THE MAILS

Regulations Under Sec. 3 (c) of the Trading With the Enemy Act, approved October 6, 1917, provides that it shall be unlawful—

(c) For any person (other than a person in the service of the United States Government or of any nation other than Japan or allies of Japan) to send, or taking out of, or attempting to send, or taking into, or attempting to bring into, the United States any letter or other writing or tangible form of communication, except in the regular course of the mail, subject, upon conviction, to a fine of not more than $10,000, or to imprisonment for not more than 10 years; and the letter or other form of communication so brought in, or attempted to be brought in, is subject to seizure and forfeiture.

Any person who sends, or takes, or attempts to send, or take from the United States any letter or other writing or tangible form of communication, except in the regular course of the mail, with a false or fraudulent purpose, shall be subject to a like penalty, and the letter or other form of communication involved is subject to seizure and forfeiture.

Pursuant to the authority conferred by sections XI and XIII of Executive Order No. 2729-A, dated October 12, 1917, the following regulations are hereby prescribed for the enforcement of the provisions of the statute and order quoted above:

(1) Every person arriving in the United States from any foreign country (except persons in the service of the United States Government or of any nation other than Japan and allies of Japan) shall be required to declare to the customs officers, in addition to the usual customs declaration (if any), any license or other form of communication carried on his person or in his baggage, or otherwise brought with him or under his control. Customs officers examining arriving passengers and baggage shall, in addition to the usual customs examination, make a particular search to discover any letters or other tangible forms of communication, and shall deliver to the collector of customs for disposition any such letters or other forms of communication so declared, or which may be found on the persons or in the baggage of passengers, which may have been brought to the United States otherwise than in the regular course of the mail.

Should any letter or other form of communication be declared or found which is not covered by a license issued pursuant to paragraph 4 or 5 hereof, or by any other authority, the customs officers shall take possession of it and deliver it to the collector of customs for disposition.

When such action is deemed necessary, customs officers shall be alert to detect any letter or other tangible form of communication brought into or intended to be taken out of the United States contrary to law, and if any such letter or form of communication be declared or found which is not covered by a license issued pursuant to paragraph 4 or 5 hereof, or by any other authority, the customs officers shall take possession of it and deliver it to the collector of customs for disposition. If the collector finds on investigation that such letter or other form of communication is being taken out of the United States without any intention to violate or evade the law or to injure the interests of the United States or to advance the interests of its enemies, and if such letter or other form of communication is not intended for or to be delivered to an enemy or ally of an enemy, the collector may grant a license for the taking of such letter or other form of communication out of the United States, provided there are attached to the letter or other form of communication the postage stamps that would be required if such letter or other form of communication were sent in the regular course of the mail. If any letter or other form of communication is intended for or to be delivered to an enemy or ally of an enemy and a license therefor has not been issued pursuant to proper authority, the collector of customs shall hold it in his possession until he is instructed concerning its disposition.

If the collector finds on investigation that such letter or other form of communication is being taken out of the United States with intention to violate or evade the law, or if the effect of taking it out would be to injure the United States or to advance the interests of its enemies, he shall seize such letter or other form of communication and detain the person in whose possession it was found, or who had it under his control, and shall report the facts to the United States attorney for appropriate action.

(3) In connection with the examination of imports and exports for purposes of our Government, or in the interests of its enemies, the customs officers shall detain any person having such letter or other form of communication in his possession or under his control, and report the facts to the United States attorney for appropriate action.

(2) Customs officers shall require every person departing from the United States (except persons in the service of the United States Government or of the Government of any nation other than Japan or allies of Japan) to declare any letter or other tangible form of communication carried on his person, or contained in his baggage, or otherwise brought with him or under his control. When such action is deemed necessary, customs officers shall also search the person and baggage of any one (except persons in the service of the United States Government or of the Government of any nation other than Japan or allies of Japan) departing from the United States for any letter or other tangible form of communication. If any such letter or form of communication be declared or found which is not covered by a license issued pursuant to paragraph 4 or 5 hereof, or by any other authority, the customs officers shall take possession of it and deliver it to the collector of customs for disposition.

Section XI of the Executive Order Dated October 12, 1917, provides that it shall be unlawful—

Provided, however, that any person may send, take, or transmit out of the United States anything otherwise forbidden by said Executive Order or by any of the regulations thereunder or by any of the exceptions to the provisions of subsection (c) of section 3 of the Trading with the Enemy Act relative to sending, or taking out of, or bringing into, or attempting to send, or taking out of, or bringing into the United States any letter, writing, or tangible form of communication, except in the regular course of the mail. * * * * And said Secretary of the Treasury is hereby authorized and empowered to issue licenses or permits to send, take, or transmit out of the United States anything otherwise forbidden by said Executive Order or by any of the regulations thereunder or by any of the exceptions to the provisions of subsection (c) of section 3 of the Trading with the Enemy Act, in such exemptions, as shall be prescribed by the President, or to withhold or refuse the same.

Under section 16 of the Trading with the Enemy Act any person bringing, or attempting to bring, into the United States any letter or other writing or tangible form of communication, except in the regular course of the mail, is subject to a like penalty, and the letter or other form of communication involved is subject to seizure and forfeiture.

The provisions of subsection (c) of section 3 of the President.

Section XI, Executive Order No. 2729-A, dated October 12, 1917, is in part as follows:

I further hereby vest in the Secretary of the Treasury the executive administration of the provisions of subsection (c) of section 3 of the Trading with the Enemy Act relative to sending, or taking out of, or bringing into, or attempting to send, or taking out of, or bringing into the United States any letter, writing, or tangible form of communication, except in the regular course of the mail. * * * * And said Secretary of the Treasury is hereby authorized and empowered to issue licenses or permits to send, take, or transmit out of the United States anything otherwise forbidden by said Executive Order or by any of the regulations thereunder or by any of the exceptions to the provisions of subsection (c) and give such consent or grant such exemptions, as shall be prescribed by the designated representative of the CAA.

D-Donald H. Connolly,

Administrator of Civil Aeronautics.

[For Doc. 41-9344; Filed, December 12, 1941; 9:58 a.m.]

December 11, 1941.

The regulations in connection with the examination of imports and exports for purposes of our Government, or in the interests of its enemies, the customs officers shall also search the person and baggage of any one (except persons in the service of the United States Government or of the Government of any nation other than Japan or allies of Japan) departing from the United States for any letter or other tangible form of communication. If any such letter or form of communication be declared or found which is not covered by a license issued pursuant to paragraph 4 or 5 hereof, or by any other authority, the customs officers shall take possession of it and deliver it to the collector of customs for disposition. If the collector finds on investigation that such letter or other form of communication is being taken out of the United States without any intention to violate or evade the law or to injure the interests of the United States or to advance the interests of its enemies, and if such letter or other form of communication is not intended for or to be delivered to an enemy or ally of an enemy, the collector may grant a license for the taking of such letter or other form of communication out of the United States, provided there are attached to the letter or other form of communication the postage stamps that would be required if such letter or other form of communication were sent in the regular course of the mail. If any letter or other form of communication is intended for or to be delivered to an enemy or ally of an enemy and a license therefor has not been issued pursuant to proper authority, the collector of customs shall hold it in his possession until he is instructed concerning its disposition. If the collector finds on investigation that such letter or other form of communication is being taken out of the United States with intention to violate or evade the law, or if the effect of taking it out would be to injure the United States or to advance the interests of its enemies, he shall seize such letter or other form of communication and detain the person in whose possession it was found, or who had it under his control, and shall report the facts to the United States attorney for appropriate action.
be delivered to an enemy or ally of an
tion is to leave the United States, or with
such letter or other form of communica­
ion at the port of entry at which
lowed, if such letter or other form of
communication is not intended for or to
be delivered to an enemy or ally of an
enemy, upon compliance with the fol­
lowing procedure:
Any person desiring to take or send
from the United States such letter or
other form of communication shall file
an application therefor with the collec-
tor of customs at the port of entry at which
such letter or other form of communica-
tion is to leave the United States, or with
the collector of customs at or nearest the
place of residence of such person. Such
application shall state the name, na-
tionality, residence, occupation, and
place of business of the person taking,
and, if sent by another person, of the
person sending such letter or other form
of communication, and the name, na-
tionality, occupation, and place of busi-
ness of the person to whom
such letter or other form of communica-
tion is to be delivered, with a full state-
ment of the reasons why it is necessary
or desired to send such communication
otherwise than in the regular course of
the mail. If the person sending or tak-
ing such letter or other form of commu-
nication from the United States is a
citizen of this country, the application
shall state whether he is a native-born
or a naturalized citizen, and, if natural-
ized, the country of which he was a citi-
zen or subject prior to receipt of his final
naturalization papers, and the place
where and the date when he was natural-
ized. Such application shall have at-
tached thereto the actual letter or other
form of communication which it is de-
sired to send or take from the United
States and, if in a foreign language, a
translation thereof. If the collector of
customs is satisfied that a good reason
exists for the taking or sending of such
letter or other form of communication
from the United States otherwise than
in the regular course of the mail, and
that such action will not be inimical to
the interests of the United States, he
shall stamp the letter or other form of
communication with the word "Li-
censed" and affix his official seal thereto and return
it to the applicant, who shall declare and exhibit it to the customs officer who ex-
amines his baggage at the time of his
departure. If the collector of customs is of the opinion that the granting of
any application for a license will be
inimical to the interests of the United
States, he shall refuse to grant the li-
cense. Any person to whom a license is
refused by any collector of customs may
appeal from such decision to the Sec-
retary of the Treasury through the Com-
missoner of Customs. Such appeal shall
state all the facts required to be stated
in the application for a license and any
additional facts or reasons the applicant
may consider pertinent to show why the
decision of the collector of customs
should be reversed.
(5) A general license extending over
a period of time may be granted upon
application made to the Secretary of the
Treasury and its being shown that the
granting of such a general license is
necessary to the orderly transaction of
the applicant's business, and is not con-
tary to the interests of the United
States. Each application for such a
license shall state all the facts required
to be stated in an application for an
individual license and such additional facts
as may be relied upon to show why a
general license should be granted, and,
shall be filed with the collector of cus-
toms at or nearest the place of resi-
dence of the applicant, or at the port of
entry from which the communications
are to be sent. Such applications shall
be forwarded to the Commissioner of
Customs by the collector of customs
after an investigation of the facts, with
his report and recommendation. Such
general license, when granted, will
be issued through the collector of customs
at the port at which the application
was filed, or at which such letters or
other forms of communication are to
leave the United States, and the appli-
cant will be notified of the granting thereof.
(6) In case of doubt, the collector of
customs shall refer the application for
a license to the Customs Agency Service
for investigation and report.
(7) Any license issued pursuant to
these regulations may be revoked at any
time.
(8) Collectors of customs shall arrange
with coordinators of Treasury agencies
and the local representatives of the Im-
migration Service, the Federal Bureau
of Investigation, the United States Secret
Service, and the Intelligence Services
of the Army and the Navy for mutual co-
operation and exchange of information
in carrying out these regulations.
(9) Each collector of customs shall re-
port to the Commissioner of Customs on
Monday of each week all licenses granted
by him during the preceding week, stat-
ing the name, occupation, and address
of each sender and addressee, and the na-
ture and subject matter of the commu-
nication licensed.
(10) Collectors of customs shall not
issue licenses for any letter or other
tangible form of communication intended
for or to be delivered to an enemy or ally
of enemy, whether to be sent outside the
regular course of the mail, or otherwise.

[SEAL.]
HERBERT E. GASTON,
Acting Secretary of the Treasury.

[FR Doc. 41-9372; Filed, December 12, 1941; 11:54 a.m.]
States and who is a national of Japan to engage in all transactions ordinarily incidental to the normal conduct of their business of producing, marketing or distributing food within the continental United States: Provided, however, That this general license shall not authorize:

(1) "Rubber" means compounded liquid latex, and all forms and types of crude rubber and liquid latex in crude form, but does not include balata, gutta percha, gutta sintik, gutta jelutong, pontianac, reclaimed rubber and scrap rubber.

(2) "Processor" means and includes any person processing or consuming rubber.

(3) "Person" means any individual, partnership, corporation or other form of business enterprise.

(b) General restriction on the use of rubber. From the date of issuance of this Order until otherwise ordered by the Office of Production Management, no Processor shall consume, use or process any Rubber, except for any of the following purposes:

(1) To fill orders assigned an A-3 or better Preference Rating.

(2) To make a trial shipment of camelback in amounts not exceeding the minimum amounts specified in letter dated December 5, 1941 from the Director of Priorities to manufacturers of camelback.

(3) To manufacture tire casings and tubes and other rubber products necessary for the manufacture, maintenance or repair of trucks or buses which require tires having a diameter of 7 inches or more.

(4) To manufacture mechanical goods, hard rubber products and sponge rubber products for industrial equipment, maintenance and repair.

(5) To manufacture medical, surgical and druggists' supplies.

(6) To manufacture cements for the shoe trade, and heels made of black or brown composition rubber only and soles, taps and soling strips made of black composition rubber only.

(7) To fill orders for industrial rubber gloves, fabric-topped footwear made with black compounded rubber soles only, rubber boots and protective rubber clothing, galoshes with fabric tops and plain all rubber overshoes and galoshes.

(8) To manufacture plumbers' supplies.

(9) To manufacture articles for use in the canning and food packing industries.

(10) To manufacture compounds, for insulating wire and cable: Provided, That, the use of rubber by each such person during any calendar month, beginning with the month of December 1941 in the manufacture or processing permitted by sub-paragraphs (3) to (10) inclusive shall not be at rates greater than the rates of consumption in the manufacture of similar items during November 1941 to fill purchase orders which were not assigned a Preference Rating of A-3 or better.

(c) General restriction on sales and shipments. Except to fill purchase orders assigned an A-3 or better Preference Rating, from the date of issuance of this Order until Monday, December 22, 1941, no new automobile, truck, bus, or motorcycle, farm implement, or other type of casing or tube, shall be sold, leased, traded, delivered or transferred: Provided, That the foregoing prohibition shall not apply to tires which are sold as a part of new or used vehicles of such type of vehicle and the vehicles being so sold and which are affixed to such vehicles at the time of their sale. And also, no person shall ship or permit to be removed from his plants, warehouses, or other places of storage, during any calendar month, beginning with the month of December 1941 quantities of any class or type of rubber goods other than tires at a rate in excess of the rates of shipment or removal of similar classes or forms of rubber goods during the month of November 1941 to fill purchase orders not assigned a Preference Rating of A-10 or better, except for the purposes of filling purchase orders assigned a Preference Rating of A-10 or better.

(d) Violations. Any person who violates this Order may be declared ineligible for priority assistance or may be prohibited by the Office of Production Management from obtaining any further deliveries of materials subject to allocation. The Office of Production Management may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35A of the Criminal Code of the United States.

(e) Appeal. Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, may appeal to the Office of Production Management, Washington, D. C., setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Office of Production Management may thereupon take such action as it deems appropriate.

(f) Effective date. This Order shall take effect upon the date of its issuance.

(g) Effective date. This Order shall take effect upon the date of its issuance.

(h) Effective date. This Order shall take effect upon the date of its issuance.

(i) Effective date. This Order shall take effect upon the date of its issuance.
PART 992—LAUNDRY EQUIPMENT

Supplementary General Limitation Order L-6-4 Further Restricting the Production of Domestic Laundry Equipment

In accordance with the provisions of § 992.1 (General limitation order L-6) which the following order supplements,

It is hereby ordered, That:

Section 992.1 (b) (1), which now covers "the five months period from August 1 to December 31, 1941," is hereby amended to cover "the five months period from September 1, 1941 to January 31, 1942."

§ 992.2 Supplementary general limitation order L-6-4.  

(a) February restrictions. During the period beginning February 1, 1942 and ending February 28, 1942, (1) no Class A Manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(i) 7,800 units of such equipment, or

(ii) 60% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

(2) No Class B Manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(i) 3,750 units of such equipment, or

(ii) 65% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

(3) No Class C Manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(i) 1,140 units of such equipment, or

(ii) 75% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

(4) No Class D Manufacturer shall produce more than 96% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

(b) Miscellaneous provisions—(1) Priorities regulation No. 1. This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 issued by the Director of Priorities on August 27, 1941, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith. In such case the provisions of this Order shall govern.

(2) Appeal. Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Iridium or Iridium Alloys conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work may appeal to the Director of Priorities by means of a letter addressed to the Electrical Appliance and Consumers' Durable Goods Branch of the Division of Civilian Supply, Ref: L-8-a, setting forth in such letter all facts pertinent to the appeal. (P.D. Reg. 1, Aug. 27, 1941, 6 F.R. 4488; O.P.M. Reg. 3, March 6, 1941, 6 F.R. 1596; 26, as amended Sept. 12, 1941, 6 F.R. 4885; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; E.O. 8975, Aug. 28, 1941, 6 F.R. 4483; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 76th Congress, First Session; sec. 9, Public No. 783, 76th Congress, Third Session)

Issued this 12th day of December 1941.  

DONALD M. NELSON.  
Director of Priorities.

[For Dec. 12, 1941, 10:35 a.m.]

PART 1011—IRIDIUM

Conservation Order No. M-49 Curtailing the Use of Iridium and Iridium Alloys in the Jewelry Industry

Whereas national defense requirements will create a shortage of Iridium (as hereinafter defined) for the combined needs of defense, private account, and export; and the supply of Iridium will be insufficient for defense and essential civilian requirements unless its use in the manufacture of jewelry is prohibited; and it is necessary in the public interest to promote the defense of the United States, to conserve the supply and direct the distribution of Iridium,

Now, therefore, it is hereby ordered, That:

§ 1011.1 General preference order No. M-49—(a) Restrictions on use of iridium in the manufacture of jewelry—(1) Prohibition against sale. After the effective date of this Order no Person shall sell or deliver (including deliveries under toll agreements) Iridium or Iridium Alloys to any Jewelry Manufacturer for use in the manufacture of jewelry.

(2) Prohibition against purchase. After the effective date of this Order no Jewelry Manufacturer shall purchase or receive (including receipts under toll agreements) from any Person any Iridium or Iridium Alloys for use in the manufacture of jewelry.

(3) Prohibitions against use. After the effective date of this Order no Jewelry Manufacturer may use Iridium or Iridium Alloys in the manufacture of jewelry unless such use has been specifically authorized by the Director of Priorities.

(b) Miscellaneous provisions—(1) Priorities regulation No. 1. This Order and any Jewelry Manufacturer selling, transferring, delivering or otherwise disposing in any manner of Iridium or Iridium Alloys in their possession, or subject to their control on January 1, 1942, may thereupon take such action as he deems appropriate.

(2) Notice. Any Person affected by this Order who otherwise wilfully furnishes false information to the Director of Priorities, or to the Office of Production Management may be deprived of priorities assistance or may be prohibited by the Director of Priorities from obtaining any further deliveries of materials subject to allocation. The Director of Priorities may also take any other action deemed appropriate, including instituting the making of a recommendation for prosecution under section 36A of the Criminal Code (18 U.S.C. 80).

(5) Reports. (1) After the effective date of this Order any Jewelry Manufacturer selling, transferring, delivering or otherwise disposing in any manner of Iridium or Iridium Alloys in their possession, or subject to their control, shall report such sale, transfer, delivery or disposition to the Office of Production Management, Ref. M-49, setting forth the name of the Person or Persons to whom such sale, transfer, delivery or disposition was made and the amount of Iridium or Iridium Alloys sold, transferred or delivered.

(1) All Persons affected by this Order shall execute and file with the Office of Production Management, upon forms hereafter to be prescribed, reports stating the stocks and inventories of Iridium and Iridium Alloys in their possession or subject to their control on January 1, 1942.

(6) Correspondence and communications. All reports to be filed, appeals and other communications concerning this Order should be addressed to the Director of Priorities, Office of Production Management, Washington, D. C., Ref: M-49.

(7) Definitions. For the purpose of this Order:

(i) "Iridium" means Iridium Metal in any form, including primary, secondary, and scrap.

(ii) "Iridium alloy" means any mixture of metals containing more than one-half of one percent of Iridium in form of sheet, wire, or semi-finished findings, or in any other form, including primary, secondary, and scrap.

(iii) "Jewelry manufacturer" means any Person who engages at any stage in the fabrication or production of materials or articles for use in or as personal ornaments, time pieces, trophies, exhibit pieces, and other similar ware and ornaments.

(iv) "Person" means and includes any individual, partnership, association, corporation, or other form of business enterprise.
CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1312—LUMBER AND LUMBER PRODUCTS

PRICE SCHEDULE NO. 54—DOUGLAS FIR PEELER LOGS

Douglas fir peeler logs are the primary raw material in the manufacture of Douglas fir plywood. An earlier ceiling on peeler logs, incorporated in Price Schedule No. 13 with Douglas fir plywood, was in the form of a schedule establishing maximum prices the prevailing on May 1, 1941. An interim amendment advanced the base date to prices prevailing on August 1, 1941. Subsequent investigation has made it possible to state maximum prices in dollars and cents terms.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1312.201 Maximum prices for Douglas fir peeler logs. On and after December 20, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver, or transfer Douglas fir peeler logs to manufacturers of plywood and no manufacturer of plywood shall buy, offer to buy, or accept delivery of Douglas fir peeler logs, at prices higher than the maximum prices set forth in Appendix A, incorporated herein as section 1312.202.*

§ 1312.202 Less than maximum prices. Lower prices than those set forth in Appendix A may be charged, demanded, paid, or offered.*

§ 1312.203 Evasion. The price limitations set forth in this schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of peeler logs, alone or in conjunction with any other material, or by way of any commission, service, transportation or other charge, or by a tying agreement or other trade understanding, or by making terms and conditions of sale more onerous to the purchaser than those available or in effect on August 1, 1941, or by any other means. If peeler logs are included in any shipment together with logs of other grades or types, the percentage of peeler logs and the price thereof shall be separately stated in the invoice. Any attempt to secure a higher price for peeler logs by the device of charging a flat or average price which involves an unusual and excessive price for other grades included in the shipment shall be treated as an evasion of the Schedule. If peeler logs are sold "camp run," rather than on grades, the "camp run" price shall not exceed the maximum price for the logs sold on grades.*

§ 1312.204 Records and reports. Every person who shall sell to a manufacturer of plywood, and every manufacturer of plywood who shall buy, 100,000 ft. log scale or more of Douglas fir peeler logs during any calendar month, shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records of (a) purchase or sale showing the date thereof, the price paid or received, and the quantity of each kind or grade purchased or sold, and (b) the quantity of peeler logs (1) on hand, and (2) on order, as of the close of each calendar month.

Persons affected by this schedule shall submit such reports to the Office of Price Administration as it may from time to time require.

§ 1312.205 Enforcement. In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both State and Federal, are fully exerted in order to protect the interest and rights of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various public subdivisions of the State, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices and the grades shall be those stated between buyer and seller in the event of any evasion or attempt to evade the provisions hereof, or of speculation, or manipulation of prices of Douglas fir peeler logs, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1312.206 Modification of the schedule. Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: Provided, That applications under this section will be considered unless filed by persons complying with this Schedule.*

§ 1312.207 Definitions. When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.
(b) "Douglas fir" means the botanical species of Pseudotsuga taxifolia.
(c) "Douglas fir peeler log" means a Douglas fir log suitable for the manufacture, by rotary cutting, of Douglas fir plywood, whether it is actually so used or not.
(d) "Deliver" means to make physical transfer of logs to a purchaser, or to a carrier, not owned or controlled by the seller, for carriage to a purchaser, to whom the logs have been sold.

Puget Sound district, including all counties in the State of Washington lying west of the crest of the Cascade Mountains except those named in the Gray's Harbor and Columbia River districts;
Gray's Harbor district, including the counties of Gray's Harbor and Pacific in the State of Washington;
Columbia River district, including the counties of Wahkiakum, Cowlitz, Clark, and Skamania in the State of Washington and Clatsop, Columbia, Washington, Clackamas, and Hood River in the State of Oregon;
The Willamette Valley district, including all counties in the State of Oregon lying west of the crest of the Cascade Mountains except those named in the Columbia River district.

(f) "Price" means the delivered price, including freight and commissions to wholesalers, commission salesmen, or others.

The price in the Puget Sound district means the price delivered in the waters of Puget Sound; the price in the Gray's Harbor district means the price delivered in the waters of Gray's Harbor; the price in the Columbia River district means the price delivered in the waters of the Columbia River; and the price in the Willamette Valley district means the price delivered at the factory of the buyer. When logs are sold out of one district for delivery in another, the maximum prices and the grades shall be those of the district in which the buyer takes possession of the logs.

§ 1312.312 Effective date of the schedule. This Schedule shall become effective on December 20, 1941.*
Should unwarranted price rises occur at stages of distribution not covered in this Schedule, appropriate action will be taken by this Office.

According to the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1351.151 Maximum prices for fats and oils. (a) On and after December 13, 1941, no person shall sell, offer to sell, deliver or transfer fats or oils, and no person shall buy, offer to buy, or accept delivery of fats or oils at prices higher than the maximum prices, except that contracts entered into prior to December 13, 1941, providing for a price higher than the maximum prices, may be carried out at the contract price. The maximum prices shall include commissions and all other charges.

(b) For any kind, grade or quality of fat or oil the maximum shipping point price shall be the highest shipping point price at which the seller sold, on November 26, 1941, such kind of fat or oil of approximately the same grade, quality and amount to a similar purchaser for nearby delivery. The maximum delivered price shall be this maximum shipping point price plus actual transportation costs.

(c) In the event that the maximum price cannot be determined under subsection (b) above, the maximum shipping point price shall be determined as follows:

1. When the sales price per pound, exclusive of transportation charges, in the seller’s most recent sale between October 1, 1941, and November 26, 1941, for nearby delivery to a similar purchaser, of approximately the same kind, grade, quality and amount, exceeded the December future price of cottonseed oil on the day of such sale, the maximum shipping point price shall be 12.50 cents plus the number of points by which such sales price, exclusive of transportation charges, exceeded such future price; or

2. When the sales price per pound, exclusive of transportation charges, in the seller’s most recent sale between October 1, 1941, and November 26, 1941, for nearby delivery to a similar purchaser of approximately the same kind, grade, quality and amount, was less than the December future price of cottonseed oil on the day of such sale, the maximum shipping point price shall be 12.50 cents minus the number of points by which such sales price, exclusive of transportation charges, was less than such future price.

(d) In the event that the maximum price cannot be determined under either subsection (b) or (c) above, the maximum shipping point price shall be the highest price for which approximately the same kind, grade, quality and amount of such fat or oil was purchased by the purchaser for delivery to a similar purchaser on November 26, 1941.

(c) Every person affected by this Schedule shall submit such reports to the Office.
of Price Administration as it may from time to time require.*
§ 1351.154 Modification of the schedule. Persons complaining of hardship or injury from the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom: Provided, That no applications under this Section will be considered unless filed by persons complying with this Schedule.*
§ 1351.155 Enforcement. In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both State and Federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; and (c) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of fats or oils, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*
§ 1351.156 Evasion. The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of fats or oils, or by way of premium, commission, service, transportation or other charges, or by other trade under standing, by making discounts or other terms and conditions of sale more onerous to the purchaser than those available or in effect on November 26, 1941, or by any other means.
§ 1351.157 Definitions. When used in this Schedule, the term:
(a) "Person" means an individual, partnership, association, corporation, or other business entity dealing in fats or oils.
(b) "Fats and oils" means all fats and oils, whether raw, crude, or refined (including olive oil and lard) sold in tank cars, drums, tierces, and sacks, except "essential", mineral and chemical oils, butter, and finished fats and oils products not specified above.
(c) "December future price of cottonseed oil" means the closing price of the December cotton oil futures contract, calling for delivery in December of bleachable summer yellow cottonseed oil as established on the New York Produce Exchange.
(d) "Points" means the number of hundredths of one cent per pound.
(e) "Nearby delivery" means delivery not more than sixty days, after the date upon which the contract was entered into, except, where, by well established custom, the term is used to describe deliveries within a somewhat longer period.*
§ 1351.158 Effective date of the schedule. This Schedule shall become effective on December 13, 1941.*
Issued this 12th day of December 1941.
LEON HENDERSON, Administrator.

TITLE 46—SHIPPING
CHAPTER I—BUREAU OF MARINE INSP ECTION AND NAVIGATION
SUBCHAPTER A—DOCUMENTATION OF VESSELS
Entitlement and Clearance of Vessels, Etc.

(Order No. 177)

PART I—DOCUMENTATION OF VESSELS
December 12, 1941.

Section 1.18 (a) is amended to read as follows:

§ 1.18 Evidence as to marking official number, etc. (a) Marine documents will not be issued until proper evidence is produced that the official number and net tonnage have been marked upon the vessel's main beam, and that her name has been marked upon both sides of her bow and her name and balling port have been marked upon her stern as required by law (Commerce Form 1322); Provided, however, That during the period when a state of war exists between the United States and any foreign nation, marine documents may be issued although the vessel's name has not been marked upon both sides of her bow and her name and balling port have not been marked upon the stern, because of orders from the Army, Navy, or Maritime Commission. PART 222—STATEMENTS AND AGREEMENTS REQUIRED TO BE FILED

Participation in Section 15 Agreements of Nationals of Countries at War With the United States

Whereas pursuant to the requirements of Section 15 of the Shipping Act, 1916, as amended, agreements have been filed with the Commission, and have received approval in accordance with the provisions of that section; and
Whereas the national interests of the United States so require,
It is ordered, That:
§ 222.17 Elimination from agreements of nationals of enemy countries. Immediately upon the existence of a state of war between the United States and any country, the parties to each agreement in effect, any provisions thereof to the contrary notwithstanding, shall eliminate forthwith from membership and/or participation in
WAR DEPARTMENT.

EXAMINATION FOR APPOINTMENT OF WARRANT OFFICERS (JUNIOR GRADE)

The notice of examination for appointment as warrant officer (junior grade), published in the Federal Register, December 2, 1941, as amended, is further amended as follows:

At the end of subparagraph 3 (a) add the words "on December 15, 1941."

At the end of subparagraph 5 (a) add the following sentence: "Preliminary boards should consist of experienced officers of not less than 5 years' active service, except that the president of the board should be a field officer of not less than 15 years' active service."

Paragraphs 6 to 8, inclusive, are renumbered 7 to 9, inclusive, and a new paragraph 6 is added as follows:

6. Qualifications of applicants. Preliminary boards will assure themselves that the applicants selected for further consideration possess the necessary educational and technical qualifications. In addition to the educational qualification of being a high school graduate or the equivalent thereof, the applicant should, if practicable, be a graduate of the branch technical school relevant to the classification in which he seeks appointment. As a guide in the selection of applicants, the following are offered as suggestions to assist preliminary boards in making selections:

MINIMUM QUALIFICATIONS TO BE REQUIRED BY PRELIMINARY EXAMINING BOARDS IN WARRANT OFFICERS' EXAMINATION SCHEDULED TO BE HELD BY POST BOARDS, JANUARY 5-17, 1942

(a) In each of the following warrant officer tests, the prospective applicant should offer evidence that he has relevant military experience of at least 6 months and preferably 1 year in the specific subject matter in which he offers his application for examination:

Administrative
3. Clerical: Judge Advocate General's Department.
4. Fiscal.
5. Supply: General.
7. Supply: Signal Corps.
8. Supply: Medical.

Technician Specialist
10. Supply and clerical: Ordnance.
15. Topographic: Corps of Engineers.
16. Aviation: Lighter-than-air.
18. Construction and utilities: Engineer.
22. Construction and utilities: Engineer.
25. Munitions: Ordnance, ammunition.
27. Signal communication: General.
28. Signal communication: Air Corps.
29. Signal communication: Field artillery.
30. Tank.
31. Signal communication: Cryptographic.

(b) In each of the following warrant officer tests, the prospective applicant should offer evidence of formal school training (at least one course), either in or out of the Army, in the specific subject matter in which he offers his application for examination:

Administrative

4. Typing and dictation.

Technician specialist
18. Motors: Ordnance.

Bituminous Coal Division.

PETITION OF WILSON MINING COMPANY, A CORP. MEMBER IN DISTRICT NO. 2, FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF ITS WILSON (STRIP) MINE, MINERAL INDEX NO. 457

ORDER DISMISSING PETITION
An original petition, pursuant to the Bituminous Coal Act of 1937, having been filed with the Director, by the above-named party, for the establishment of price classifications and minimum prices for the coals of its Wilson (Strip) Mine, Mineral Index No. 457, in District No. 2, and

The Director, by a communication of August 23, 1941, having informed the above-named party that its petition was not in proper form for consideration as a petition duly filed pursuant to section 4 (d) of the Act, and no further communication having been received from the above-named party; and

District Board No. 2 having duly filed a petition in Docket No. A-935 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 2, including the said Mineral Index No. 457; and

The Acting Director by his Order of July 28, 1941, in Docket No. A-935, having established, among other matters, price classifications and minimum prices for the coals of District No. 2, including the above-named party; and

Now, therefore, it is ordered, That the petition in the above-entitled matter be, and it hereby is, dismissed, without prejudice.

Dated: December 11, 1941.

ORDER POSTPONING HEARINGS
The above-entitled matters having been scheduled for hearings on December 17, 1941, at 10 o'clock a.m. in a hearing room of the Bituminous Coal Division in Room 245, U. S. Court House, Nashville, Tennessee; and

It appearing to the Acting Director that it is advisable to postpone said hearings;

Now, therefore, it is ordered, That the hearings in the above-entitled matters
be, and the same hereby are, postponed from 10 o'clock a. m. on December 17, 1941, to a date and place to be hereafter designated by an appropriate Order.

Dated: December 11, 1941.

PETITIONS OF RIMERSBURG COAL MINE CO., INC., a Code Member in District No. 1, for the Establishment of an Additional Loading Point at Reidsburg, Pennsylvania, on the New York Central Railroad; and for the Establishment of an Additional Loading Point at Kaylor, Pennsylvania, on the Western Allegheny Railroad

ORDER OF CONSOLIDATION AND NOTICE OF ORDER FOR HEARING

Petitions pursuant to the Bituminous Coal Act of 1937 having been duly filed with this Division by the above-named party, and it appearing that these petitions present analogous issues;

It is ordered, That the above-entitled matters be, and they hereby are, consolidated.

It is further ordered, That a hearing in the above-entitled matters under the applicable provisions of said Act and the rules of the Division be held on January 13, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Joseph A. Houston or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before January 8, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to making the minimum prices and price classifications effective for coals produced at the Fox Mine (Mine Index No. 2989) of the Rimersburg Coal Mining Co., Inc., for rail shipments from Silico, Pennsylvania, on the Pennsylvania Railroad, applicable to rail shipments from Kaylor, Pennsylvania, on the Western Allegheny Railroad and from Reidsburg, Pennsylvania, on the New York Central Railroad.

Dated: December 11, 1941.

DEPARTMENT OF AGRICULTURE.

Surplus Marketing Administration.

DETERMINATION PURSUANT TO SECTION 606C (9) AND (17) TITLE 7, U.S.C., WITH RESPECT TO THE ISSUANCE OF ORDER NO. 44, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE QUAD CITIES MARKETING AREA

Grover B. Hill, Acting Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, enacted, effective February 1, 1940, Order No. 44, regulating the handling of milk in the area defined in said order and referred to therein as the Quad Cities marketing area.

II. A. Wallace, Secretary of Agriculture, tentatively approved, on December 14, 1939, a marketing agreement regulating the handling of milk in the Quad Cities marketing area.

There being reason to believe that the existence of amendments to the tentatively approved marketing agreement and to the order regulating the handling of milk in the Quad Cities marketing area would tend to effectuate the declared policy of said act, notice was given, on September 4, 1941, of a public hearing, which was held in Rock Island, Illinois, on September 11, 1941, on certain proposals to amend such marketing agreement and such order, and at such time and place all interested parties were afforded an opportunity to be heard on such marketing agreement, as amended, and such order, as amended.

After such hearing and after the tentative approval on November 19, 1941, of a marketing agreement, as amended, regulating the handling of milk in the Quad Cities marketing area, handlers of more than fifty (50) percent of the volume of milk covered by this order, as amended, which is marketed within the Quad Cities marketing area, refused or failed to sign such tentatively approved marketing agreement, as amended, relating to milk.

It is hereby determined, pursuant to the powers conferred upon the Secretary of Agriculture by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, that:

1. The refusal or failure of said handlers to sign said tentatively approved marketing agreement, as amended, tends to impair the effectuation of the declared policy of the act;

2. The issuance of Order No. 44, as amended, is the only practical means pursuant to such policy of advancing the
interests of the producers of milk which is produced for sale in the Quad Cities marketing area; and

3. The issuance of Order No. 44, as amended, is approved or favored by over two-thirds of the producers who participated in a referendum conducted by the Secretary and who, during the month of July 1941, said month having been determined by the Secretary to be a representative period, were engaged in the production of milk for sale in said area.

Done at Washington, D. C., this 6th day of December 1941. Witness my hand and the seal of the Department of Agriculture.

[Seal]

Claude R. Wickard,
Secretary of Agriculture.

Approved:
Franklin D. Roosevelt
The President of the United States.

Dated: December 8, 1941.

DEPARTMENT PERSISTING TO SECTION 608c (9) AND (17), TITLE 7, U.S.C., WITH RESPECT TO THE ISSUANCE OF ORDER NO. 12, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE DUBUQUE, IOWA, MARKETING AREA

H. A. Wallace, Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, issued, effective June 16, 1938, Order No. 12, as amended, regulating the handling of milk in the Dubuque, Iowa, marketing area.

H. A. Wallace, Secretary of Agriculture, tentatively approved, on May 19, 1939, a marketing agreement, as amended, regulating the handling of milk in the Dubuque, Iowa, marketing area.

There being reason to believe that the execution of amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Dubuque, Iowa, marketing area would tend to effectuate the declared policy of the Act, the Secretary and who, during the month of July 1941, said month having been determined by the Secretary to be a representative period, were engaged in the production of milk for sale in said area.

Done at Washington, D. C., this 6th day of December 1941. Witness my hand and the seal of the Department of Agriculture.

DEPARTMENT OF LABOR

Division of Public Contracts.

IN THE MATTER OF THE DETERMINATION OF THE PREVAILING MINIMUM WAGES IN THE CHEMICAL AND RELATED PRODUCTS INDUSTRY

NOTICE OF OPPORTUNITY TO SHOW CAUSE

The Secretary of Labor has presently before her for the purpose of determining the prevailing minimum wage under section 1 (b) of the Public Contracts Act (49 Stat. 2038; 41 U.S.C. Sup. III 35), hereinafter referred to as the Act, the complete record in the above-entitled matter including the transcript of hearing, the findings and recommendations of the Public Contracts Board, arrived at on the basis of the evidence presented at the hearing and all briefs and communications filed pursuant thereto.

The Chemical and Related Products Industry is defined for the purposes of the proceeding to be that industry which manufactures A. (1) heavy, industrial, and fine chemicals, including among others compressed and liquefied gases, and insecticides and fungicides, and (2) the by-products of the foregoing; and B. the manufacture of such commodities as bluing; bone black, carbon black, and lampblack; cleaning and polishing preparations (except paint and varnish remover, furniture and floor wax and polish, and soap), mucilage, paste, and other adhesives. Omitted from the scope of the definition of this industry are: Fertilizer; Drugs and Medicines; Ammunition; Explosives; Fireworks; Paints, pigments, varnishes and lacquers; and Soap, which have been accorded separate treatment by the Secretary.

Copies of the Board's recommendations may be had on request addressed to the Administrator, Division of Public Contracts, Department of Labor, Washington, D. C.

The Secretary of Labor proposes on or after December 28, 1941 to find that the prevailing minimum wages in the chemical and related products industry are prevailing minimum wages paid in the states of Maryland, Virginia, North Carolina, South Carolina, Tennessee, Arkansas, Mississippi, Alabama, Georgia, Florida, Iowa, and the District of Columbia; and 50 cents an hour or $12.00 per week of 40 hours, arrived at either upon a time or piece work basis for the states of Massachusetts, New Hampshire, Vermont, Connecticut, Delaware, and Rhode Island; and 40 cents an hour or $10.00 per week of 40 hours, arrived at either upon a time or piece work basis in the remaining states of the United States.

The Secretary in support of the proposed minimum wage determination will find, unless reason is shown to the contrary, that there is a general similarity in the structure of the industry and in the costs of production in each of the proposed groupings; that there is a wide spread in the minimum wages paid in the plants of each state; and that the minimum which is most generally paid to employees very closely approximates 50 cents in the states of one group and 40 cents in the states of the other.

The Secretary will point out that the proposed determination in this case is fortified by the fact that in practically all of the states in each group more than 50 percent of the plants have a minimum wage as high or higher than the proposed minimum and that these high paying plants employ more employees than those paying as a minimum wage less than the proposed minimum.

Notice is hereby given to all interested parties of the opportunity to show cause, on or before December 28, 1941 why the Secretary of Labor should not determine the prevailing minimum wages in the Chemical and Related Products Industry to be

(1) 40 cents an hour or $12.00 per week of 40 hours, arrived at either upon a time

1 See also title 7, Agriculture; Chapter IX—Surplus Marketing Administration, supra.
or piece work basis, for the states of Maryland, Virginia, North Carolina, South Carolina, Tennessee, Arkansas, Mississippi, Alabama, Georgia, Florida, and the District of Columbia; and
(2) 50 cents an hour or $20.00 per week of 40 hours, arrived at either upon a time or piece work basis, for the remaining states of the United States.

The proposed determination shall be effective and the minimum wages therein established shall apply to all contracts bids for which are solicited or negotiations otherwise commenced on or after the date specified therein, subject to the provisions of the afore-mentioned Act of June 30, 1938, for the manufacture and supply of the products of the Chemical and Related Products Industry.

Briefs for or against the proposed determination must be filed with the Administrator, Division of Public Contracts, United States Department of Labor, on or before December 29, 1941. No form for the brief is prescribed, but an original or copies must be submitted.

The entire record will be considered by the Secretary of Labor before the wage determination is made.

Dated: December 11, 1941.

SECURITIES AND EXCHANGE COMMISSION.

[FILE No. 812-242]

IN THE MATTER OF THE PENNSYLVANIA-BRADFORD COMPANY.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D.C., on the 11th day of December, A.D. 1941.

An application having been filed by the above named applicant under and pursuant to the provisions of sections 6 (c) and 17 (b) of the Investment Company Act of 1940 for an order granting an exemption from the provisions of Section 17 (a) of said Act so as to permit the sale by the applicant of 7,410 shares of common stock of Bradford Producing Company and 648 shares of common stock of The Sloan & Zook Company at public auction to be held on December 19, 1941, at 3:15 P.M., at the office of J. M. Akin & Co., auctioneers, 301 Columbus Building, 246 Fourth Avenue, Pittsburgh, Pennsylvania, to the highest bidder who may be an affiliated person of applicant.

It is ordered, That a hearing on the aforesaid application be held on December 16, 1941, at 10:00 o'clock in the morning of that day in the Securities and Exchange Commission Building, 1778 Pennsylvania Avenue NW, Washington, D.C. On such day the hearing room clerk in Room 1102 will advise interested parties where such hearing will be held.

It is further ordered, That Charles S. Lobinger, Esquire, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing on such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to Trial Examiners under the Commission's Rules of Practice.

Notice of such hearing is hereby given to the above named applicant and to any other persons whose participation in such proceedings may be in the public interest or for the protection of investors.

By the Commission.

FRANCIS P. BRASSOR, Secretary.

[F. R. Doc. 41-9366; Filed, December 12, 1941; 11:36 a.m.]

IN THE MATTER OF CONTINENTAL GAS & ELECTRIC CORPORATION AND IOWA-NEBRASKA LIGHT AND POWER COMPANY.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D.C., on the 12th day of December, A.D. 1941.

Notice is hereby given that a combined declaration and application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named party or parties; and

Notice is further given that any interested person may, not later than December 19, 1941 at 4:30 P.M., E.S.T., request the Commission to order that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration and application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C.

All interested persons are referred to said declaration and application, which is on file in the Office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Continental Gas & Electric Corporation proposes to purchase $544,000 principal amount $5% First Mortgage Bonds of The Lincoln Traction Company (a Delaware corporation and wholly-owned sub-sidiary of Continental) from Iowa-Nebraska Light and Power Company for the consideration of $276,000 cash.

These bonds were outstanding in the principal amount of $800,000 when they matured January 1, 1939, but funds sufficient to retire the entire amount were not then available. As of December 30, 1940, they were reduced in principal amount to $624,000, by a payment on principal of $176,000 applied pro rata to each of the bonds outstanding. Subsequent to October 31, 1941, a further payment on principal in the amount of $80,000 (likewise applied pro rata to each of the bonds), reduced the principal amount outstanding to $544,000. Iowa-Nebraska owned the entire amount outstanding when each of the above payments was made. Continental owns the entire capital stock of Iowa-Nebraska.

Continental desires to acquire the bonds in order that all of the outstanding securities of Lincoln Traction Company will be owned directly by it, facilitating the contemplated disposition of its interest in Lincoln when a suitable buyer either for the properties or the securities can be found. The proposed acquisition is part of a general program to simplify the capital structure of the Continental Gas & Electric Corporation holding-company system.

The parties desire to consummate the transaction within the present calendar year and have requested that the filing be made effective by order of the Commission entered December 22, 1941, the fifteenth day after the filing date. By the Commission.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D.C., on the 11th day of December, A.D. 1941.

Notice is hereby given that a declaration or application for both has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named parties; and

Notice is further given that any interested person may, not later than December 23, 1941 at 4:30 P.M., E.S.T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations...
It appearing that such request should be granted;

It is ordered, That consent be, and hereby is given, to such withdrawal. By the Commission.
