[O-13-3]

PART 913—MILK IN THE GREATER KANSAS CITY MARKETING AREA

AMENDMENT NO. 1 TO THE ORDER, AS AMENDED,¹ REGULATING THE HANDLING OF MILK IN THE GREATER KANSAS CITY MARKETING AREA²

The Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, issued on October 1, 1941, effective as of October 2, 1941, the order, as amended, regulating the handling of milk in the Greater Kansas City marketing area.

There being reason to believe that amendment of said order, as amended, would tend to effectuate the declared policy of the act, a notice was given on the 7th day of January 1942 of a hearing which was held on January 14 at Kansas City, Missouri, at which time and place all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended.

The requirements of section 8c (9) of the act have been complied with.

It is found, upon the evidence intro-

duced at said hearing on proposed amendments, said findings being in addition to the findings made upon the evidence introduced at all prior hearings on said order and amendments thereto (which findings are hereby ratified and affirmed, save only as such findings are in conflict with findings hereinafter set forth):

§ 913.0 *Findings.*

(e) That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to sections 2 and 8 (e) of said act, 50 Stat. 246; 7 U.S.C. 602, 608e, are not reasonable in view of the available supplies of feeds, the prices of feeds, and other economic conditions which affect the supply of and demand for such milk, and that the minimum prices set forth in this amendment to said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(f) That the order, as amended by this amendment, regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

(g) That the issuance of this amendment to the order, as amended, and all of the terms and conditions of the order, as so amended, tend to effectuate the declared policy of the act.

It is hereby ordered that the order, as amended, regulating the handling of milk in the Greater Kansas City marketing area, shall be, and it is hereby amended as follows:

(2) All cream sold or disposed of by a handler who purchases or receives milk from producers, to another handler or to a person who distributes milk or manufactures milk products, shall be classified as Class II milk: *Provided*, That if such cream, except for cream disposed of by such handler to another handler who purchases or receives no milk from producers, is reported as having been utilized as Class III milk by the person who received it or by the disposing handler, such cream shall be classified accordingly, subject to verification by the market administrator.

2. Add as subparagraph (3) to § 913.3 (c) the following:

(3) All milk or cream purchased or received in bulk from a handler who purchases or receives no milk from producers by a handler who purchases or receives milk from producers shall be classified as Class III milk. If such receiving handler sells or disposes of such milk or cream for other than Class III

purposes, the market administrator shall add to the total value computed pursuant to § 913.7 the difference between (i) the value according to its actual usage and (ii) the value of such milk or cream at the Class III price.

3. Delete § 913.4 and substitute therefor the following:

§ 913.4 *Minimum prices*—(a) *Class prices.* Each handler shall pay producers, at the time and in the manner set forth in § 913.9, for milk purchased or received from them not less than the following prices:

(1) *Class I milk.* The price per hundredweight of Class I milk during each delivery period shall be the price determined pursuant to subparagraph (4) of this paragraph, plus 70 cents: *Provided*, That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price shall be the price determined pursuant to subparagraph (4) of this paragraph, plus 25 cents.

(2) *Class II milk.* The price per hundredweight of Class II milk during each delivery period shall be the price determined pursuant to subparagraph (4) of this paragraph, plus 45 cents.

If the remaining Class III milk is less than 10 percent of the sum of the remaining Class I, Class II, and Class III milk, exclude the milk received from his own production pro rata from the remaining Class I, Class II, and Class III milk, or if the remaining Class III milk is more than 10 percent of the sum of the remaining Class I, Class II, and Class III milk, exclude 90 percent of the milk received from his own production pro rata from the remaining Class I and Class II milk and exclude the balance of the milk received from his own production from the remaining Class III milk.

If such determination is made on or before the 15th day of a delivery period, the uniform price for all milk received from producers shall be so computed for the current delivery period; if made subsequent to the 15th day of a delivery period, the uniform price shall be so computed for the next succeeding delivery period.

7. Insert in paragraph (a) of § 913.7 preceding the words "§ 913.6" the words "§ 913.3 and".

(1) To producers, subject to subparagraph (2) of this paragraph, at the uniform price per hundredweight computed pursuant to § 913.7 (b) (2), for that quantity of milk received from producers, not in excess of their respective bases; and to producers at the Class III price for that quantity of milk received from such producers in excess of their respective bases.

(2) To producers at the uniform price per hundredweight computed pursuant to § 913.7 (b) (1); for the total quantity of milk received from such producers, whenever the determination of the market administrator is effective in accordance with the provision of § 913.7 (b) (3).

§ 223.1 *Authority.* The regulations in this part are based upon and issued pursuant to the Executive Order of the President, No. 9112, dated March 26,

¹ 79.18 is amended.
² In §§ 223.1 to 223.9, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in Regulation V, Board of Governors of the Federal Reserve System, effective April 6, 1942.

1942² (hereinafter referred to as the Executive Order), and various provisions of the Federal Reserve Act, and has been issued after consultation with the Secretary of War, the Secretary of the Navy, and the United States Maritime Commission (hereinafter referred to as Maritime Commission), or their authorized representatives.

§ 223.2 *Objective of the Federal Reserve System.* The objective of the Federal Reserve System in carrying out the purposes of the Executive Order is to facilitate and expedite war production, including the obtaining or conversion of facilities therefor, by arranging for the financing of contractors, subcontractors and others engaged in businesses or operations deemed by the War Department, Navy Department or Maritime Commission to be necessary, appropriate or convenient for the prosecution of the war.

§ 223.3 *Board of Governors.* The Board of Governors of the Federal Reserve System will cooperate and assist in every way possible in carrying out the provisions of the Executive Order. It will exercise general supervision and direction of the operations of the Federal Reserve Banks under authority of the Executive Order and will prescribe from time to time, after consultation with the Secretary of War, the Secretary of the Navy or the Maritime Commission, or their authorized representatives, such further direction of the Federal Reserve Banks as may be necessary to accomplish the purposes of the Executive Order. All facilities of the Board and of the Federal Reserve Banks will be made available for the purpose of facilitating the financing of business enterprises, including smaller businesses, in order that they may participate more fully in speeding up war production.

§ 223.4 *Federal Reserve Banks as fiscal agents.* Federal Reserve Banks, having been designated as fiscal agents of the United States by the Secretary of the Treasury pursuant to the terms of the Executive Order, will cooperate to the fullest extent possible in carrying out expeditiously and effectively the purposes of the Executive Order in accordance with the provisions of this part and the instructions of the War Department, Navy Department or Maritime Commission. To this end the Federal Reserve Banks will arrange guarantees and loans in accordance with the provisions of the Executive Order and of the instructions of the War Department, Navy Department or Maritime Commission, respectively, wherever it is believed that they will contribute to the obtaining of maximum war production expeditiously. While the Federal Reserve Banks will make reasonable efforts to afford the War Department, Navy Department and Maritime Commission the best available protection against possible financial loss consistent with this objective, such guarantees or loans should not be denied or substantially delayed when they can be provided in accordance with the instructions of the War Department, Navy Department or Maritime Commission.

Each Federal Reserve Bank should arrange such financing, where practicable, without any guarantee or loan or participation therein by the War Department, the Navy Department or the Maritime Commission, through commercial banks whether or not members of the Federal Reserve System or other financing institutions, or through the Federal Reserve Bank under the provisions of section 13b of the Federal Reserve Act. Where this is not feasible, guarantees by the War Department, Navy Department or Maritime Commission of loans made by such banks or financing institutions to the extent necessary should be used in preference to loans or participations therein by any of these agencies.

§ 223.5 *Instructions of War Department, Navy Department, and Maritime Commission.* The War Department, Navy Department, and Maritime Commission, after consultation with the Board of Governors of the Federal Reserve System, will issue general instructions with respect to the operations of the Federal Reserve Banks under the Executive Order, including provisions regarding the relationships of the Federal Reserve Banks with liaison officers or other field representatives of such agencies. The operations of the Federal Reserve Banks under the Executive Order shall be conducted in accordance with such instructions.

§ 223.6 *Rates.* Rates of interest, fees and other charges on loans made or guaranteed in whole or in part by the War Department, Navy Department or Maritime Commission through the agency of any Federal Reserve Bank will from time to time be prescribed, either specifically or by maximum limits or otherwise, by the Board of Governors of the Federal Reserve System after consultation with the War Department, Navy Department or Maritime Commission, and with the Federal Reserve Banks.

§ 223.7 *Maturities.* With respect to financing of production, except as may be otherwise authorized specifically or by general instructions by the War Department, Navy Department, or Maritime Commission, the maturity of any loan made or guaranteed in whole or in part by a Federal Reserve Bank on behalf of any such agency shall be consistent with the needs of the borrower for the fulfillment of the contracts or orders for which the financing is provided. With respect to financing of facilities, the maturity of any loan made or guaranteed in whole or in part by a Federal Reserve Bank on behalf of any such agency shall be as may be agreed upon between the parties concerned but in no case shall such maturity be in excess of five years.

§ 223.8 *Reports.* Each Federal Reserve Bank shall make such reports as the Board of Governors of the Federal Reserve System shall require with respect to its operations pursuant to the terms of the Executive Order and of this part.

§ 223.9 *General.* The term "loan", as used in this part, shall be construed as referring to a loan, discount or advance, including a participation therein,

and shall include a commitment to make or purchase such a loan, discount or advance unless otherwise indicated by the context; but such term shall not be construed to include any advance payments made by the War Department, Navy Department or Maritime Commission on a specific contract or on specific contracts.

The term "guarantee" as used in this part shall be construed as including a commitment to make such a guarantee unless otherwise indicated by the context.

The above Regulation was adopted by the Board of Governors of the Federal Reserve System on April 6, 1942, to become effective immediately.

GENERAL NOTES: (1) The Proclaimed List is divided into two parts: part I relates to listings in the American republics; part II relates to listings outside the American republics.

(2) In part I titles are listed in their letter-address form, word for word as written in that form, with the following exceptions:

If the title includes a full personal name, that is, a given name or initial and the surname, the title is listed under the surname.

Personal name prefixes such as de, la, von, etc., are considered as part of the surname and are the basis for listing.

The listing is made under the next word of the title when the initial word or phrase, or abbreviation thereof, is one of the following Spanish forms or similar equivalent forms in other languages:

Compañía; Cia.; Comp.
Compañía Anónima; C. A.; Comp. Anón.
Sociedad; Soc.
Sociedad Anónima; S. A.; Soc. Anón.

(3) The indication of an address for a name on the list is not intended to exclude other addresses of the same firm or individual. A listed name refers to all branches of the business in the country.

PART 976—MOTOR TRUCKS, TRUCK TRAILERS AND PASSENGER CARRIERS

SUPPLEMENTARY GENERAL LIMITATION ORDER L-1-E

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of rubber, steel and other materials for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 976.15 *Supplementary General Limitation Order L-1-E*—(a) *Prohibition of production of trucks and off-the-highway motor vehicles.* Except to the extent that operations are permitted under paragraphs (b) and (c) of this section, after the effective date of this Order, no producer of medium and/or heavy motor trucks and/or off-the-highway motor vehicles shall manufacture any such vehicles, irrespective of any Orders heretofore issued by the Director of Priorities or the Director of Industry Operations, and regardless of any contracts or other commitments heretofore entered into by such Producers.

(b) *February and March quotas.* Nothing in this Order shall prevent any producer from completing production of vehicles authorized under quotas established for February, 1942 by Amendment No. 2 to Limitation Order L-1-a, and established for March, 1942 by Amendment No. 3 to Limitation Order L-1-a, as such production has been modified or otherwise affected by the following:

(i) *As to February quotas:*

Telegram dated February 21, 1942 from Director of Industry Operations, authorizing the completion by March 31, 1942 of quotas for medium and heavy motor trucks established for February by Amendment No. 2 to Supplementary General Limitation Order L-1-a.

Telegram dated February 23, 1942 from Director of Industry Operations, supplementing telegram of February 21, 1942, permitting equipment with tires, casings and tubes, of medium and heavy motor trucks authorized for February quotas,

on which production was continued into March by authority of the telegram of February 21, 1942, referred to above.

Supplementary Limitation Order L-1-f, extending time for completion of February quotas to April 30, 1942.

(ii) *As to March quotas:*

Telegram dated March 18, 1942 from Director of Industry Operations, authorizing producers to equip with tires, casings and tubes, off-the-highway motor vehicles of 24,000 pounds, gross vehicle weight, and over, as reported in balanced units as on hand February 28, 1942, produced under March quotas and specially designed to transport materials, property or equipment on mining, construction, logging or petroleum development projects.

Amendment No. 4 to Limitation Order L-1-a, prohibiting production under March quotas for motor trucks with a gross vehicle weight of less than 16,000 pounds; and limiting production of March quotas for trucks over 16,000 pounds gross vehicle weight to those produced from semi-fabricated and fabricated materials reported as on hand February 28, 1942.

Amendment No. 6 to Limitation Order L-1-a, authorizing production of medium and heavy motor trucks, in either knock-down or built-up form, from materials assembled for the production of March quotas, in semi-fabricated or fabricated condition, for vehicles under 16,000 but not less than 9,000 pounds gross vehicle weight, as reported as on hand February 28, 1942; but only to fill contracts and orders for delivery to or for the account of the Army, Navy and certain agencies (and export) which must supply tires, casings, and tubes.

Supplementary Limitation Order L-1-f, extending time for completion of March quotas to May 31, 1942.

(c) *War orders not affected.* The prohibition on production imposed by this order shall not apply to any medium and/or heavy motor truck or off-the-highway motor vehicles produced under contracts or orders for delivery to or for the account of:

(i) The Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, the Offices of Scientific Research and Development;

(ii) The government of any of the following countries: the United Kingdom, Canada, and other Dominions, Crown Colonies and Protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia and Yugoslavia;

(iii) Any agency of the United States Government, for material or equipment to be delivered to, or for the account of, the government of any country listed above, or any other country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to promote the defense of the United States." (Lend-Lease Act)

(P.D. Reg. 1, as amended 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 1002—IRON AND STEEL PRODUCTION—
MAINTENANCE, REPAIR, AND SUPPLIES

AMENDMENT NO. 3 OF PREFERENCE RATING
ORDER P-68¹

Preference Rating Order P-68 (§ 1002.1) is hereby amended as follows:

1. Paragraph (b) is amended to read as follows:

(b) *Assignment of preference ratings.* Subject to the terms of this Order the following preference ratings are hereby assigned, but nothing herein contained shall prevent the use of any other or higher rating to which any person may be entitled by reason of any other preference rating, certificate, or order.

(1) *As to deliveries to a producer.* (i) A-1-a to deliveries of material for repair of property or equipment used in and essential to the production of any one or more of the materials or products listed in Schedule A hereto, when and only when there has been an actual breakdown or suspension of operations because of damage, wear and tear, destruction or failure of parts or the like and the essential material is not otherwise available.

(ii) A-1-c to deliveries of material described in paragraph (b) (1) (i) up to the minimum required to make reasonable advance provision to avert an actual breakdown or suspension of existing facilities.

(iii) A-1-c and A-3 to deliveries of material for other repairs to, for maintenance of, and for operating supplies for property and equipment used in and essential to the production of any one or more of the materials or products listed in Schedule A hereto. The A-1-c rating assigned by this paragraph (b) (1) (iii) shall not be applied in any calendar quarter to more than 30 percent of the dollar value of such material ordered by the Producer in such quarter.

(iv) A-10 to deliveries of material for all other repairs, maintenance, and operating supplies.

(2) *As to deliveries to a supplier.* Deliveries of material which will be delivered (or physically incorporated into material which will be delivered) to a producer under any preference rating assigned by paragraph (b) (1) are assigned the same preference rating as that assigned to the delivery to the producer.

2. Paragraph (d) is amended to read as follows:

(d) *Application of preference rating.* (1) No producer shall apply any preference rating assigned by paragraph (b) until:

(i) It shall have filed with the Iron and Steel Branch, War Production Board, a statement in the form prescribed by the Director of Industry Operations, setting forth amounts of material used for repair, maintenance and operating supplies for the preceding calendar half-year and inventories of such material at the beginning and end of such period and further stating that it accepts the terms and conditions of this Order.

(ii) It shall have received from the Iron and Steel Branch, War Production Board, a serial number which shall thereafter be endorsed on all purchase orders or contracts for material by it or for its account which are rated pursuant to this Order.

(2) A producer, in order to apply the A-1-a preference rating assigned by paragraph (b) (1) (i) or the A-1-c preference rating assigned by paragraph (b) (1) (ii) of this section must communicate with the Iron and Steel Branch, War Production Board, describing the material needed for emergency repair and the nature of the emergency, or the reasons why advance provision is necessary to avert break-down or suspension. The Director of Industry Operations will notify such producer whether, and to what extent, its application is approved, and a copy of such notification shall be furnished by the producer to its supplier to evidence the A-1-a or A-1-c rating.

(3) A producer or a supplier, in order to apply any preference rating assigned by paragraph (b) of this section must endorse the following statement on the original and all copies of the purchase order or contract for such material, signed by a responsible official duly designated for such purpose by such Producer or Supplier:

Material for Repair, Maintenance, or Operating Supplies of an Iron, Steel, Blast Furnace Coke, or Ferroalloys Plant, Rating A-..... under Preference Rating Order P-68, Serial No. and in compliance therewith.

(Name of producer or supplier)
By -----
(Authorized signature)

Such purchase order or contract so endorsed shall be delivered to the seller of such material. Such endorsement shall constitute a certification to the War Production Board that the terms of the Preference Rating Order are accepted and that such material is required for the purposes stated therein. Such purchase order or contract must be in writing and shall be restricted to material the delivery of which is rated in accordance herewith. With respect to any purchase order or contract for such material placed before October 31, 1941, such preference rating may be applied by delivering to the seller a duplicate copy of such purchase order or contract so endorsed.

¹ 7 F.R. 1592.

(4) A producer or supplier placing any such rated purchase order or contract and the seller of the material covered thereby must each retain endorsed copies of all such purchase orders or contracts segregated from all other purchase orders or contracts for a period of two years from the date thereof, for inspection by authorized representatives of the War Production Board.

3. Paragraph (j) is amended to read as follows:

(j) *Records, audits, and reports.* Each producer and each supplier shall keep and preserve for a period of not less than two years accurate and complete records of all transactions affected by this Order and shall submit from time to time to audit and inspection by duly authorized representatives of the War Production Board. Each producer and each supplier shall execute and file with the War Production Board or other designated agency such reports and in such form as the War Production Board shall from time to time require. Until further direction, on March 31, 1942, and semi-annually thereafter, each producer shall file on Form PD-228 a report for the preceding calendar half-year, and each Producer shall file on May 15, 1942, and monthly thereafter, a report of orders placed during the preceding month using the A-1-c rating assigned by paragraph (b) (1) (iii) of this section. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

This amendment shall take effect immediately.

Issued this 11th day of April 1942.

PART 1010—SUSPENSION ORDERS

SUSPENSION ORDER NO. S-33

Talon, Inc.

Talon, Inc., located at Meadville, Pennsylvania, is a manufacturer of slide fasteners and uses an alloy containing a high percentage of copper and some zinc. In the summer of 1941, Talon, Inc. was informed by its suppliers of alloy that they could no longer obtain copper for such alloy without preference ratings. Thereafter, Talon made known to the Office of Production Management its copper requirements and was advised that, if it made applications for preference ratings, an effort would be made by the Office of Production Management to obtain sufficient copper to keep the industry alive.

On September 23, 1941, Talon applied for preference ratings on 350,000 pounds of "Nugild (rich low brass—87½% copper—12½% zinc)". These applications were made for the sole purpose of enabling Talon's suppliers to obtain allocations of domestic copper from the Office

of Production Management and stated that, unless Talon could obtain the metal called for in the applications, it would be required to lay off additional employees and that no amounts of the metal had been promised for future delivery. On the basis of these applications, certificates were issued by the Director of Priorities assigning preference ratings of A-9 to deliveries to Talon of 350,000 pounds of alloy. Talon, Inc. served these certificates on its suppliers who, in turn, made applications to the Office of Production Management for sufficient copper to fill the rated orders.

On October 16, 1941, Talon, Inc. again made applications for preference ratings on 350,000 pounds of Nugild. These applications were made for the same purpose and contained the same statements.

Prior to the filing of the applications referred to above, Talon, Inc. had purchased 3,000,000 pounds of import copper. This copper was not subject to the restrictions placed on domestic copper by the Office of Production Management and Talon could have obtained its total requirements by furnishing this copper to its suppliers for processing into Nugild. Talon, Inc. failed to disclose the existence of this available supply of copper in any of its applications for preference ratings.

Talon's failure to disclose its supply of import copper constituted a wilful concealment of a material fact from the Director of Priorities. Talon's statements in its applications regarding threatened unemployment amounted to misrepresentations of its requirements. In view of the foregoing facts, It is hereby ordered:

§ 1010.33 *Suspension Order S-33.* (a) Talon, Inc., shall not use any steel, zinc, or zinc base alloys in the manufacture or production of slide fasteners or their component parts in excess of 40% of the average quarterly poundage of metals used in the aggregate by Talon, Inc. for similar purposes during the year ending June 30, 1941.

(b) Deliveries of material to Talon, Inc., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries to Talon, Inc. by means of Preference Rating Certificates, Preference Rating Orders, General Preference Orders or any other orders or regulations of the Director of Industry Operations except as specifically authorized by the Director of Industry Operations.

(c) No allocation shall be made to Talon, Inc., its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations except as specifically authorized by the Director of Industry Operations.

(d) Nothing contained in this Order shall be deemed to relieve Talon, Inc., from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations. This Order shall take effect immediately and shall expire on July 1, 1942, at which time the restrictions contained in this Order shall be of no further

effect. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 11th day of April 1942.

PART 1010—SUSPENSION ORDERS

SUSPENSION ORDER NO. S-37

Mills Novelty Co.

Mills Novelty Company of Chicago, Illinois, is a manufacturer of coin-operated phonographs, and amusement and gaming machines. Principal among these is the Panoram, a coin-operated machine which produces music and pictures simultaneously.

During the period between December 22, 1941, and February 7, 1942, Mills Novelty Company used aluminum in the manufacture of Panorams, and produced Panorams and gaming machines in excess of the quota restrictions established by Limitation Order L-21.

These wilful violations of Limitation Order L-21 have resulted in the diversion of substantial amounts of aluminum, copper, steel and other scarce materials from the war program.

It is hereby ordered:

§ 1010.37 *Suspension Order S-37.* (a) Mills Novelty Company, its successors and assigns, shall not sell, deliver, or cause to be delivered the following machines now in inventory, which were produced in violation of the restrictions in Limitation Order No. L-21.

Type:	Quantity
Panoram.....	360
Bell.....	1,200
Four Bell.....	332
Jumbo Payout.....	73
Jumbo Combination.....	26
Junior Bell.....	341

(b) Mills Novelty Company, its successors and assigns, shall not during the months of March and April 1942, produce automatic phonographs, or weighing or amusement machines in an amount greater than three times 20% of the monthly average of its production of such automatic phonographs, or weighing or amusement machines during the twelve months ending June 30, 1941.

(c) Deliveries of material or equipment to Mills Novelty Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be applied or assigned to such deliveries by any Preference Rating Certificate, Preference Rating Order, General Preference Order, or any other order or regulation of the Director of Industry Operations, except as the Director of Industry Operations may specifically direct.

(d) No allocation to Mills Novelty Company, its successors and assigns, shall be made of any material of which the supply or distribution is governed by any order of the Director of Industry

Operations, except as specifically authorized by the Director of Industry Operations.

PART 1021—FURNACES

LIMITATION ORDER NO. L-22

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1021.1 *General Limitation Order L-22*—(a) *Definitions*. For the purpose of this Order:

(1) "Furnace" means any direct-fired, central plant, warm air heating unit which is designed for the purpose of heating the interior of a building; *Provided*, That "furnace" does not include any air heating device commonly known as a space heater or floor furnace (whether portable or fixed).

(2) "Class A manufacturer" means any manufacturer or assembler of furnaces who manufactured and/or assembled 8,000 furnaces or more, during the calendar year 1940.

(3) "Class B manufacturer" means any manufacturer or assembler of furnaces who manufactured and/or assembled less than 8,000 furnaces during the calendar year 1940.

(b) *General restrictions*. (1) During the calendar year 1942, no Class A manufacturer shall incorporate into furnaces any iron and/or steel in excess of fifty percent (50%) of the total weight of iron and steel incorporated by him into furnaces during the calendar year 1940.

(2) During the calendar year 1942, no Class B manufacturer shall incorporate into furnaces any iron and/or steel in excess of ninety percent (90%) of the total weight of iron and steel incorporated by him into furnaces during the calendar year 1940.

(c) *Avoidance of excessive inventories*. No person shall accumulate inventories of any material, whether raw, semi-processed, or processed, for manufacture into furnaces, in excess of the mini-

mum amount necessary to maintain production of furnaces to the extent permitted by this Order.

(d) *Records*. All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection*. All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports*. Each person to whom this Order applies shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(g) *Provisions for companies under common ownership*. For the purposes of this Order, a manufacturer's classification into Class "A" or "B" shall depend upon the total number of furnaces manufactured and/or assembled by that manufacturer including all furnaces manufactured and/or assembled by subsidiaries, affiliates, or other companies or enterprises under common ownership or control.

(h) *Violations or false statements*. Any person who wilfully violates any provision of this Order or who wilfully furnishes false information to the Director of Industry Operations in connection with this Order is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries or from processing or using material under priority control and may be deprived of priorities assistance by the Director of Industry Operations.

(i) *Appeals*. Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(j) *Applicability of Priorities Regulation No. 1*. This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Applicability of other Orders*. Insofar as any other Order issued by the Director of Industry Operations, or to be issued by him hereafter, limits the use of any material to a greater extent than the limits imposed by this Order, the restrictions of such other Order shall govern, unless otherwise specified therein.

(l) *Routing of correspondence*. Reports to be filed, appeals, and other communications concerning this Order shall

be addressed to the War Production Board, Washington, D. C., Ref.: L-22.

(m) *Effective date*. This Order shall take effect upon the date of the issuance thereof and shall continue in effect until revoked by the Director of Industry Operations, subject to any such amendments and supplements thereto as may be issued from time to time by the Director of Industry Operations. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of rotenone for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1189.1 *Conservation Order M-133—*
(a) *Definitions.* (1) "Rotenone" means the chemical compound of that name derived from timbo, barbasco, cube or deris root, whether in the form of powder, dust or liquid extract.

(2) "Dealer" means any person, including an importer, manufacturer and farmer's cooperative, selling rotenone or offering rotenone for sale.

(b) *Restrictions on use.* Except as specifically authorized by the Director of Industry Operations, no person shall hereafter use rotenone or any product containing rotenone except for one or more of the following purposes:

(1) Use by the Army or the Navy as a delousing agent, or the manufacture of any preparation for such use by the Army or the Navy;

(2) Use in the protection of food crops other than cotton, tobacco, cranberries,

¹ 7 F.R. 2389.

eggplant, cucurbits, onions, peppers and sweet corn, or the manufacture of any preparation for such use;

(c) *Restrictions on delivery.* No person shall sell or deliver rotenone or any product containing rotenone if he knows or has reason to believe that it is to be used for a use not permitted by paragraph (b) hereof.

(d) *Restrictions on processing.* No person using rotenone in the manufacture of any spray, dust, powder or other preparation intended for a use permitted by this Order shall put in process or use rotenone in such manufacture at a rate greater than is necessary to permit him to meet required deliveries of his finished products and to maintain a practicable minimum working inventory of such finished products.

(e) *Miscellaneous provisions.* (1) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director of Industry Operations.

(3) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of materials conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director of Industry Operations. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: M-133.

[Docket No. A-1189]

PETITION OF DISTRICT BOARD NO. 11 FOR THE ESTABLISHMENT OF TEMPORARY PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NO. 22, IN DISTRICT NO. 11, FOR RAIL SHIPMENTS ORIGINATING AT THE TIPPLE OF MINE INDEX NO. 54 IN DISTRICT NO. 11

ORDER AMENDING ORDER GRANTING TEMPORARY RELIEF

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was duly filed with this Division by the above-named party, alleging that the washing plant and tippie

of the Clinton Mine, Mine Index No. 22, over which the coals of that mine had customarily been prepared and loaded, had been destroyed by fire; that a new washing plant and tippie were being constructed to replace the facilities which were destroyed; that it was estimated that such construction would require approximately sixty (60) days; and that during the pendency of such construction it desired to prepare and load the coals of Mine Index No. 22 over the nearby facilities of Mine Index No. 54. The petition requested the establishment of temporary price classifications and minimum prices for the coals of Mine Index No. 22 in District No. 11 for rail shipments originating at the tippie of Mine Index No. 54 in District No. 11. By an Order dated January 8, 1942, temporary relief was granted as set forth in that Order.

Thereafter on March 26, 1942, District Board No. 11 filed a motion for the extension of the temporary relief granted by the Order dated January 8, 1942, on the ground that Ayrshire Patoka Collieries Corporation, the operator of Mine Index No. 22, had experienced delay and difficulty by reason of priorities regulations in securing the necessary equipment for the reconstruction of the new washing plant and tippie. The motion further alleges that by reason of priorities regulations the corporation is of the opinion that it will be unable to secure the necessary equipment prior to the 1942 Fall burning season. The motion requests therefore that the temporary relief heretofore granted in this proceeding be extended for a period of one hundred eighty (180) days from April 8, 1942.

It appears that a reasonable showing of necessity has been made for the extension of the temporary relief heretofore granted in this proceeding in the manner hereinafter set forth.

No petitions of intervention have been filed with the Division in the above-entitled matter.

The following action is deemed necessary in order to effectuate the purposes of the Act.

Now, therefore, it is ordered, That the fifth paragraph of the Order dated January 8, 1942, granting temporary relief in the above-entitled matter is amended to read as follows: "Commencing forthwith the price classifications and minimum prices for the coals of Ayrshire Patoka Collieries Corporation, Clinton Mine, Mine Index No. 22, as presently set forth in the Schedule of Effective Minimum Prices for District No. 11, for All Shipments Except Truck, shall apply f.o.b. transportation facilities at the Lone Eagle Mine, Mine Index No. 54: *Provided*, That such price classifications and minimum prices shall be subject to the same adjustments in f.o.b. mine prices as are required or permitted in said Schedule in the case of coals produced at the Lone Eagle Mine, Mine Index No. 54; *And provided further*, That the relief granted herein shall terminate upon completion of the construction of a new tippie and washing plant at the Clinton Mine, Mine Index No. 22, and in any event not later than two hundred seventy (270) days

from January 8, 1942, and that upon completion of the aforementioned new facilities at Mine Index No. 22 the petitioner herein shall promptly file a verified statement to that effect indicating the date of the completion thereof and the date when shipments were resumed from transportation facilities f.o.b. Mine Index No. 22."

It is further ordered, That pleadings in opposition to the original petition and to the motion of the petitioner filed on March 26, 1942, in the above-entitled matter, and applications to stay, terminate or modify the temporary relief granted by the order in the above-entitled matter dated January 8, 1942, as amended herein may be filed with the Division pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated April 9, 1942.

[Docket No. C-7]

APPLICATION OF FORD MOTOR COMPANY REGARDING COAL PRODUCED AT MINE INDEX NOS. 183, 325, AND 449, IN DISTRICT NO. 8

DETERMINATION OF INTERIM EXEMPTION

Ford Motor Company has filed an application, pursuant to the second paragraph of section 4-A of the Bituminous Coal Act of 1937, for a determination of

the status of the coal produced at Mine Index Nos. 183, 325 and 449, in District No. 8, and consumed by the said company. The said application alleges, among other matters, that since 1937, the applicant has engaged in the commerce for which exemption is sought, and requests a determination that the applicant is entitled to an interim exemption pursuant to the second paragraph of section 4-A of the Act on the ground that the application was filed in good faith.

The second paragraph of section 4-A of the Act states, among other matters, that any producer believing that any commerce in coal is not subject to the provisions of section 4 or the first paragraph of section 4-A may file an application for exemption, and that the filing of such application in good faith shall exempt the applicant from any obligation, duty or liability imposed by section 4 in respect to the commerce covered by the application until such time as action shall be taken upon the application. By Order of the Director dated October 17, 1939, in General Docket No. 17, the following rule was established:

All applications seeking exemption, pursuant to the second paragraph of section 4-A, should be filed within the following periods of time:

(1) If the commerce covered by the application exists upon the effective date of this rule, not more than thirty (30) days after such date * * *

Any application which is filed after the periods herein specified will be presumed not to have been filed in good faith.

Contemporaneously with its application, applicant filed an affidavit of H. L. Moekle, Assistant Secretary of Ford Motor Company, which recites the facts upon which applicant relies to rebut the presumption established by the above-mentioned rule.

Thereafter, on February 17, 1942, an order was issued in the above-entitled proceeding setting forth the allegations of the application with respect to the good faith of the applicant in filing the application and the recitals contained in the aforesaid affidavit. The order granted all persons entitled to participate as parties in this proceeding, thirty (30) days from the date of said order in which to file motions in support of or opposition to the applicant's contention that its application was filed in good faith.

More than thirty (30) days have elapsed from the date of said order, and no motions have been filed as permitted thereby.

It appears that the allegations of the application and recitals contained in the said affidavit rebut the presumption of bad faith established by the Order of the Director dated October 17, 1939, in General Docket No. 17.

Now, therefore, it is determined, That, in accordance with the provisions of the second paragraph of section 4-A of the Bituminous Coal Act of 1937, Ford Motor Company has been and is exempt, beginning with the third day following the filing of the said application, from any obligation, duty, or liability imposed by section 4 of the Act, with respect to

the commerce covered by the said application, until such time as the Division may make a final determination of the merits of the said application.

Agricultural Marketing Administration.

DETERMINATION, APPROVED BY THE PRESIDENT OF THE UNITED STATES, WITH RESPECT TO THE ISSUANCE OF AMENDMENT NO. 1 TO THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE GREATER KANSAS CITY MARKETING AREA¹

Pursuant to the powers conferred upon the Secretary of Agriculture of the United States by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 et. seq.), there was issued on October 1, 1941, effective October 2, 1941, Order No. 13, as amended, regulating the handling of milk in the Greater Kansas City marketing area.

A marketing agreement, as amended, regulating the handling of milk in the greater Kansas City marketing area was tentatively approved on September 12, 1941.

¹ See Title 7, Chapter IX, *supra*.

There being reason to believe that the issuance of an amendment to said tentatively approved marketing agreement, as amended, and to said order, as amended, would tend to effectuate the declared policy of the act, notice was given of a hearing which was held in Kansas City, Missouri, on January 14, 1942, on proposals to amend the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the Greater Kansas City Marketing area, at which time and place all interested parties were afforded an opportunity to be heard upon such proposals.

After such hearing, and after the tentative approval, on March 26, 1942, of a marketing agreement, as amended, regulating the handling of milk in the Greater Kansas City marketing area, handlers of more than 50 percent of the volume of milk covered by said order, as amended, which is marketed within the Greater Kansas City marketing area, refused or failed to sign such tentatively approved marketing agreement, as amended, relating to milk.

Pursuant to the powers conferred upon the Secretary of Agriculture by the above-mentioned act, it is hereby determined:

(1) That the refusal or failure of said handlers to sign such tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

(2) That the issuance of the proposed amendment No. 1 to said Order No. 13, as amended, is the only practical means, pursuant to such policy, of advancing the interests of the producers of milk which is produced for sale in said area; and

(3) That the issuance of the proposed amendment No. 1 to said Order No. 13, as amended, is approved or favored by over two-thirds of the producers who participated in a referendum conducted by the Secretary, and who, during the month of December 1941, said month having been determined to be a representative period, were engaged in the production of milk for sale in said area.

Issued at Washington, D. C., on this 9th day of April 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

ORDER DISMISSING PROCEEDING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 9th day of April, A. D. 1942

The Commission having on August 22, 1941 issued an Order to Show Cause directed to International Utilities Corporation, Dominion Gas and Electric Company, General Water Gas & Electric Company and Securities Corporation General, ordering that a hearing be held on September 16, 1941, at which hearing the said corporations should show cause why the Commission should not enter an order pursuant to the provisions of sections 12 (f) and 13 (e) of the Public Utility Holding Company Act of 1935, prohibiting the aforesaid corporations from making any payment, directly or indirectly, to or on account of P. M. Chandler, F. W. Seymour or W. B. Yeager for or on account of certain salary contracts, or otherwise; and to refrain from entering into any other contracts for the payment of any salaries or emoluments to or on account of any affiliate of any such corporation except pursuant to the further order of this Commission; and

The Commission having on September 16, 1941, dismissed the proceeding insofar as it related to F. W. Seymour and Dominion Gas and Electric Company, since it appeared that F. W. Seymour died on September 10, 1941; and

The hearing aforesaid having been duly convened pursuant to said order on September 16, 1941 and having been continued from time to time, the last hearing having been convened on March 19, 1942, on which date said hearing was continued subject to the call of the trial examiner; no definite date having been set for reconvening such hearing; and

The Commission having been advised that on March 20, 1942, P. M. Chandler resigned his position as Chairman and Director of General Water Gas & Electric Company and now holds no official position with said company and that there are presently no contracts in force and effect whereby P. M. Chandler is to

receive any salary from International Utilities Corporation or General Water Gas & Electric Company; and

The Commission having been further advised that certain changes have occurred in the membership of the Board of Directors of International Utilities Corporation and that the annual meeting of stockholders of International Utilities Corporation has been scheduled for May 6, 1942, at which time the term of office to which W. B. Yeager was originally elected will expire; and

It appearing to the Commission that circumstances have materially altered since the time of the original issue of the Order to Show Cause in this matter so as to make it unnecessary to proceed further at the present time;

It is hereby ordered, That the proceeding herein be, and the same hereby is, dismissed.

By the Commission.

IN THE MATTER OF THE COMMONWEALTH & SOUTHERN CORPORATION, RESPONDENT

ORDER DIRECTING SIMPLIFICATION OF CORPORATE STRUCTURE AND CONSOLIDATING PROCEEDINGS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 9th day of April, A. D. 1942.

The Commission having instituted proceedings pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935 by its notice of and order for hearing dated April 8, 1941, to determine whether or not the corporate structure of The Commonwealth & Southern Corporation, respondent, conforms with the requirements of section 11 (b) (2), and if not, what steps are necessary to ensure that such corporate structure shall not, within the meaning of said section, unduly or unnecessarily complicate the structure, or unfairly or inequitably distribute voting power among security holders, of the holding-company system of which respondent is a part; and the Commission having, in said order, directed that respondent show cause why its corporate structure should not be reduced to a single class of stock, which shall be common stock;

Notice having been duly given to all interested persons, and all such persons having been given an opportunity to be heard with respect to matters pertaining to the issue raised by said notice of and order for hearing as to whether The Commonwealth & Southern Corporation should be required to reduce its corporate structure to a single class of stock, such stock to be common stock; hearings having been held, briefs exchanged and filed, and argument thereon heard; and the Commission having this day issued and filed its findings and opinion herein; now therefore,

It is hereby ordered, Pursuant to section 11 (b) (2) of the Public Utility Hold-

ing Company Act of 1935 and in accordance with said findings and opinion, that The Commonwealth & Southern Corporation shall change its present capitalization to one class of stock, namely, common stock, in an appropriate manner, not in contravention of the applicable provisions of said Act or the rules, regulations and orders promulgated thereunder: *Provided*, That its present funded debt may be liquidated according to its terms without acceleration other than such acceleration as may be found practicable from time to time and as shall not be in contravention of the applicable provisions of the Act or the Commission's rules, regulations and orders promulgated thereunder;

It is further ordered, In accordance with sub-paragraph (c) of section 11 of said Act, that respondent shall comply with the preceding paragraph of this order within one year from the date hereof, without prejudice to its right to apply for additional time for compliance with such order as provided in such section.

And the respondent having filed a plan in this proceeding and in a collateral proceeding (File No. 59-8) pending under section 11 (b) (1) of said Act concerning the respondent and its subsidiary companies, and having requested the Commission to consider and determine whether or not the provisions of said plan are in conformity with the requirements of sections 11 (b) (1) and 11 (b) (2); and the Commission deeming that it would be appropriate in the public interest and for the protection of investors and consumers to consolidate this proceeding with the collateral proceeding (File No. 59-8) for the purpose of holding hearings on said plan and any other plan or plans that may be filed in either of said proceedings by any duly qualified person or persons;

It is further ordered, In accordance with the findings and opinion this day issued and filed herein, that this proceeding be and it hereby is consolidated with the proceeding (File No. 59-8) now pending under section 11 (b) (1) of said Act concerning respondent and its subsidiary companies, for the purpose of holding further hearings in said proceedings and taking evidence with respect to the plan filed therein by respondent, and any other plan or plans that may be filed in either of said proceedings by any duly qualified person or persons.

By the Commission.

quisition by Florida Power Corporation of all of the assets, consisting of a tug boat, of Florida West Coast Towing Company, a wholly owned subsidiary of Florida Power Corporation, in consideration of the return to Florida West Coast Towing Company of all of the outstanding securities, consisting of 175 shares of common stock with a stated aggregate value of \$17,500 and outstanding indebtedness to Florida Power Corporation which as at December 31, 1941 was in the face amount of \$6,432.08. IN THE MATTER OF RUSSELL VAN HORN AND DONALD M. STERN, AS A PROTECTIVE COMMITTEE FOR THE FIRST AND COLLATERAL 5% BONDS ISSUED BY YORK RAILWAYS COMPANY

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 11th day of April, A. D. 1942.

Notice is hereby given that a declaration on Form U-R-1 has been filed by Russell Van Horn and Donald M. Stern, pursuant to Rule U-62, promulgated under the Public Utility Holding Company Act of 1935. All interested persons are

referred to said document, on file in the offices of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Declarants, as members of a protective committee, propose to solicit authorization from the holders of the First and Collateral 5% Bonds of York Railways Company. York Railways Company is a subsidiary of NY PA NJ Utilities Company, a registered holding company, and is at the present time the subject of reorganization proceedings under section 77B of the Bankruptcy Act pending in the United States District Court for the Eastern District of Pennsylvania.

Said declaration indicates that members of the proposed committee do not own any bonds or other securities of York Railways Company. Said declaration states that the committee proposes to employ as legal advisers the law firm of Wolf, Block, Schorr & Solis-Cohen, of Philadelphia, Pennsylvania, and that said law firm will be assisted by Harold P. Seligson of New York City. The proposed letter of solicitation contained in said declaration states that said committee is the only committee representing bonds of York Railway Company.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said declaration, and that said declaration shall not become effective except pursuant to further order of this Commission:

It is ordered. That a hearing on such declaration shall be held on April 15, 1942, at 2 o'clock p. m. at the offices of the Securities and Exchange Commission, located at 18th and Locust Streets, Philadelphia, Pennsylvania. On said day the hearing-room clerk in room 318 will advise as to the room where such hearing will be held.

It is further ordered. That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered. That, without limiting the scope of issues presented by said declaration, particular attention will be directed at such hearing to the following matters and questions:

1. Whether the said declaration and the proposed solicitation material contain adequate disclosure with respect to the interests of the members of the committee, with respect to the organization of the committee, and concerning the person or persons at whose request and on whose behalf members of the committee are acting.

2. More specifically, whether the initial letter proposed to be sent by said committee to bondholders should state at the outset thereof that members of the proposed committee are not themselves the holders or owners of any bonds.

3. Whether the solicitation material proposed to be sent to bondholders should

state that another committee of bondholders has filed a declaration with this Commission with respect to solicitation of bondholders of York Railways Company.

4. Whether a modification should be made in the name of the committee, for the purpose of avoiding confusion with the other committee for holders of bonds of York Railway Company which has filed a declaration with this Commission.

5. Whether the letter of solicitation proposed to be sent to bondholders should include all or any part of the information set forth in the so-called "proxy statement" proposed to be enclosed in said letter.

6. Whether a more complete disclosure should be made with respect to the relationships between the law firm of Wolf, Block, Schorr & Solis-Cohen and Harold P. Seligson, and whether a disclosure should be made with respect to the manner and amounts in which said lawyers propose to request compensation.

7. Whether it is necessary or appropriate in the public interest or for the protection of investors or consumers under all the circumstances of this case for said committee to solicit authorizations if it proposes to employ more than one legal counsel, and whether, if such employment of counsel be permitted, terms and conditions should be imposed with respect to the manner of compensation of such counsel and with respect to the maximum fees to be paid to them.

8. Generally, whether the proposed solicitation is consistent with the applicable standards of the Act and the rules thereunder, and whether, if such solicitation be permitted, the interests of the public or of the investors or consumers require imposition of terms and conditions with respect thereto.

By the Commission.
