EXECUTIVE ORDER 9266

ESTABLISHING BUZZARDS BAY AND VINEYARD SOUND DEFENSIVE SEA AREA

By virtue of the authority vested in me by section 44 of the Criminal Code, as amended (U.S.C., title 18, sec. 967), the following-described area is hereby established and reserved, for purposes of national defense, as a defensive sea area, to be known as “Buzzards Bay and Vineyard Sound Defensive Sea Area”:

All United States territorial waters of Buzzards Bay, Vineyard Sound, and their seaward approaches and tributaries from the contour line of extreme high water on the shores of these waters as shown on the latest U.S.C.&G.S. Chart 312:

A line running from the southermost tip of Sakonnet Point;
then southeasterly to Buzzards Point;
then southeasterly to the southeastern tip of Scituate Light;
then southeasterly to the southeastern tip of Sakonnet Point on Martha's Vineyard;
then southeasterly along the western and northern shore line of Martha's Vineyard to West Chop Light;
then across the Vineyard Sound to a point at the mainland in approximate Latitude 41° 26' 00" North, Longitude 70° 36' 00" West.

No vessel not proceeding under United States Naval or other United States authority shall enter or navigate the waters of the said Defensive Sea Area, except during daylight when good visibility conditions prevail, and only after specific permission has been obtained. Such permission for entry into or navigation through or within the said Area must be obtained in advance of entry, preferably by application at United States Naval District Headquarters prior to leaving port of origin of voyage, or by radio or visual communication on approaching the seaward limits of the Area. If radio telegraphy is used, a call sign “USCG” shall be made on a frequency of 500 kcs, and permission to enter the port requested. The name of the vessel, purpose of entry, and name of the master shall be given in the request which shall be directed to the Commandant of the Naval District or his local representative as may be designated and published in local regulations issued by the United States authority. If visual communications are used, the procedure shall be essentially the same.

A vessel entering or navigating the waters of the Buzzards Bay and Vineyard Sound Defensive Sea Area does so at its own risk.

Even though permission has been obtained, it is incumbent upon a vessel entering the Buzzards Bay and Vineyard Sound Defensive Sea Area to obey any further instructions received from the United States Navy, or other United States authority.

The movements of vessels within the Buzzards Bay and Vineyard Sound Defensive Sea Area shall be subject to supervision, either through surface craft or aircraft. Such controlling surface craft or aircraft shall be identified by a prominent display of the Union Jack.

In the event that a United States Maritime Control Area is established adjacent to or shutting off the above-estab­lished defensive sea area, permission to enter, and other instructions issued by proper authority, shall apply to any one continuous passage through or within both areas.

Any master of a vessel or other person within the Buzzards Bay and Vineyard Sound Defensive Sea Area who disregards these regulations, or fails to obey an order of United States Naval authority to stop or heave to, or performs any act threatening the efficiency of mine or other defenses, or the safety of naviga­tion, or takes any action inimical to the interests of the United States, may be detained therein by force of arms and shall be liable to attack by United States armed forces, and liable to prosecution as provided for in section 44 of the Criminal Code as amended (U.S.C., title 18, sec. 967).

All United States Government authorities shall place at the disposal of the Naval authorities their facilities for aid­ing in the enforcement of these regulations.

The Governor of the State of Massachusetts, the local municipal au­thorities, and the local civilian defense agencies are called upon to render the local Naval authorities all possible as­sistance in the enforcement of these regulations.

These regulations are subject to am­plification by the local United States Naval authority as necessary to meet local circumstances and conditions.

The Secretary of the Navy is charged with the publication and enforcement of these regulations.

15 of such marketing year, and marketing quotas shall be in effect during the period of such marketing year with respect to the marketing of cotton. Cotton produced in the calendar year in which such marketing year begins shall be subject to marketing quotas in effect for such marketing year notwithstanding that it may be marketed prior to August 1.

Sec. 343. (a) Not later than November 15 of each year the Secretary shall find and proclaim the national allotment of cotton for the succeeding calendar year in terms of standard bales of five hundred pounds gross weight. The national allotment consists of the number of bales of cotton adequate, together with the estimated carry-over as of August 1 of such succeeding calendar year, to make available a supply of cotton, for the marketing year beginning on such August 1, equal to the normal supply.

(b) The national allotment for any year (after 1939) shall not be less than ten million bales.

(c) Notwithstanding the foregoing provisions of this section, the national allotment for any year shall be increased by a number of bales equal to the production of the acres diverted under section 344 (e) for such year.

Sec. 344. (a) The national allotment for cotton for each year shall be increased by the number of acres of the national allotment provided for in section 343 (c) shall be apportioned by the Secretary among the several States on the basis of the average, for the five years preceding the year in which the national allotment is determined, of the normal production of cotton in each State. The normal production of a State for a year shall be (1) the quantity produced therein plus (2) the normal yield of the acres diverted in any county in any year shall be the average yield per acre of the planted acres in such county in such year times the number of acres diverted in such county in such year.

(b) The Secretary shall ascertain, on the basis of the average yield per acre of the planted acres in such county in such year, the number of acres plus the number of acres diverted in each county in the State under the previous agricultural adjustment or conservation programs. The normal yield of the acres diverted in any county in any year shall be the average yield per acre of the planted acres in such county in such year times the number of acres diverted in such county in such year.

(c) (1) The State acreage allotment (less the amount required for apportionment under paragraph (2) shall be apportioned annually by the Secretary to the counties in such State, a number of acres in such State which will produce a number of bales equal to the allotment made to the State under subsection (a) plus the sum of the number of acres diverted in each county in the State under the previous agricultural adjustment or conservation programs. The number of acres diverted in any county in any year shall be the average yield per acre of the planted acres in such county in such year times the number of acres diverted in such county in such year.

(c) (2) The Secretary shall ascertain, on the basis of the average yield per acre of the planted acres in each county in such State for the years used in computing the allotment to the State, and the average, for the same period, of the acres planted and the acres diverted in the State.

(d) (1) For 1938, 1939, and any subsequent year, the Secretary shall allot to the several counties, to which an apportionment is made under subsection (c), a number of acres required to provide a total acreage for allotment under the terms of section 344 (e) of said Act, equal to the number of acres less not less than 60 per centum of the sum of (1) the acreage planted to cotton in such counties in 1937, plus (2) the acreage diverted in such counties in 1937 under the agricultural adjustment and conservation program. The acreage so diverted shall be determined by subtracting the number of acres not available at the time of making such allotment.

(2) The Secretary shall allot to each State to which an allotment is made under subsection (b), and in which at least three counties, to which an apportionment is made in any of the five years immediately preceding the year for which the allotment is made, a number of acres sufficient to provide a total State acreage allotment for such State of not less than five thousand acres.

Whereas said Act contains, in section 301 (b), the following definitions of terms pertinent herein:

"Carry-over" of cotton for any marketing year shall be the quantity of cotton on hand either within or without the United States at the beginning of such marketing year, which was produced in the United States prior to the beginning of the calendar year then current.

"Marketing year" means, in the case of the following commodities, the period beginning on the first and ending with the second date specified below:

- Cotton, August 1—July 31
- "Normal supply" in the case of cotton: shall be a normal year's domestic consumption and exports of the commodity, plus 40 per centum in any year of the normal year's domestic consumption and exports, as an allowance for a normal carry-over.

- "Normal year's domestic consumption", in the case of cotton, shall be the yearly average quantity of the commodity produced in the United States that was consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined. Adjustments for current trends in such consumption.

- "Normal year's exports" in the case of cotton, shall be the average quantity of the commodity produced in the United States that was exported from the United States during the ten marketing years immediately preceding the marketing year in which such exports are determined adjusted for current trends in such consumption.

- "Total supply" of cotton, for any marketing year shall be the carry-over of the commodity, plus the estimated production of the commodity in the United States during the calendar year in which such marketing year begins.

Whereas said Act provides, in section 301 (c), that "The latest available statistics of the Federal Government shall be used by the Secretary of Agriculture in making the determination required to be made by the Secretary under this Act"; and

Whereas said Act provides, in section 350, that the provisions of Part IV (Marketing Quotas; Cotton) of sub-bute B of Title III thereof "shall not apply to cotton the staple of which is 1 1/2 inches or more in length";

(b) Eligibility for abandonment and deficiency payments. That any farm located in a mill area in which the actual yields of commercially recoverable sugar per acre for farms comprising 10%, or more, of the total acreage of sugarcane for the extraction of sugar were 80% or less, of the normal yields therefor, because of drought, flood, storm, freeze, disease, or insects, shall be eligible for abandonment and deficiency payments. Such persons shall register annually with the Commissioner, keep such books and records as may be necessary to establish the fact that distilled spirits purchased by him and fully tax-paid were used in the manufacture or production of medicines, medicinal preparations, food products, flavors, or flavoring extracts which were unfit for beverage purposes and are sold or otherwise transferred for use for other than beverage purposes, and shall be subject to such rules and regulations in relation thereto as the Commissioner, with the approval of the Secretary, shall prescribe to secure the Treasury of the United States against frauds.

(4) Investigative powers of Commissioner. The Commissioner, for the purpose of ascertaining the correctness of any claim filed under this subsection is authorized, by any oath, affirmation, or deposition, to administer an oath or to examine any books, papers, records, or memoranda bearing upon the matters required to be alleged in the claim, and may require the attendance of the persons filing the claim or of any officer or employee of such person, or the attendance of any other person having knowledge concerning the persons filing the claim and may take his testimony with reference to any matter covered by the claim, with power to administer oaths to such person or persons.

A drawback at the rate of $3.75 on each proof gallon of fully taxpaid distilled spirits used on and after November 1, 1942, in the manufacture or production of medicines, medicinal preparations, food products, flavors, or flavoring extracts which are unfit for beverage purposes and are sold or otherwise transferred for use for other than beverage purposes. (Sec. 3250 (1), I.R.C.)
§ 197.2 Domestic distilled spirits only. The drawback is applicable only to distilled spirits produced in domestic distilleries, including rural distilleries, or industrial alcohol plants. (Sec. 3250 (1), I.R.C.)

§ 197.3 Definition of term “fully taxpaid.” The term “fully taxpaid,” as used herein, means that the internal revenue tax imposed and levied on distilled spirits must have been paid according to the rates existing on and after November 1, 1942. (Sec. 3250 (1), I.R.C.)

§ 197.4 Definition of term “nonbeverage products.” The term “nonbeverage products,” as used herein, refers to medicines, medicinal preparations, food products, flavors, or flavoring extracts, in the manufacture or production of which fully taxpaid distilled spirits are used, and which are unfit for use for beverage purposes. (Sec. 3250 (1), I.R.C.)

SPECIAL TAX

§ 197.5 Payment of special tax required. Each person, partnership, or corporation that uses fully taxpaid distilled spirits, produced in a domestic registered distillery or industrial alcohol plant, in the manufacture or production of medicines, medicinal preparations, food products, flavors, or flavoring extracts which are unfit for beverage purposes and are sold or otherwise transferred for use for other than beverage purposes, in order to be eligible to claim and receive the drawback of the special tax upon which the claim is filed, the full annual drawback for which the special tax was paid, the claimant must pay special tax at the rate of $25 per annum for total annual withdrawals not exceeding 25 proof gallons of distilled spirits; $50 per annum for total annual withdrawals not exceeding 50 proof gallons; or $100 per annum for total annual withdrawals of more than 50 proof gallons. The year means the period from July 1 of each year to June 30 following. (Secs. 3250 (1), 3270, and 4041 (a), I.R.C.)

§ 197.6 Special tax for each place. A separate special tax must be paid for each place at which fully taxpaid distilled spirits are used in the manufacture or production of nonbeverage products if a claim is filed for drawback of tax at the rate of $3.75 a proof gallon on distilled spirits so used in each such place. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.7 Date special tax due. The special tax must be paid prior to the filing of the first claim for drawback during any fiscal year commencing July 1 and ending June 30, following the month in which the claim is filed, the full annual special tax of $25, $50, or $100, as the case may be, must be paid. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.8 Rates of special tax. The rates of special tax per annum (June 1 of each year to June 20 following) are (a) $25 for total annual withdrawals not exceeding 25 proof gallons; (b) $50 for total annual withdrawals not exceeding 50 proof gallons; and (c) $100 for total annual withdrawals of more than 50 proof gallons. The term “total annual withdrawals” means the total quantity of fully taxpaid distilled spirits used in the manufacture and production of nonbeverage products during the fiscal year for which the special tax was paid. Special tax based upon estimated withdrawals, may be paid in advance of actual withdrawals. Where a claim is presented in any fiscal year other than the year in which the special tax was paid, and special tax has not been paid for such latter year, it must be paid in at least the minimum amount at the time of filing the claim. Adjustments of the special tax where improperly paid will be made in accordance with § 197.17. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.9 Filing of return and payment of special tax. Persons intending to file claims for drawback of tax must file return on Form 11, “Special Tax Return,” with remittances, with the Collector of Internal Revenue for the district in which the place of manufacture is located. The return must be in the form of cash, United States Post Office Money Order, or certified check. Uncertified checks will not be accepted by the Collector. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.10 Execution of Form 11, “Special Tax Return.” (a) General. Special tax returns, Form 11, may be procured from any Collector or deputy collector, and shall disclose, in the space provided, the following: (1) The true name of the taxpayer, which may be followed by the words “trading as” and any trade name under which the business is conducted. (2) The exact location of the place of business, as by name and number of building or street, and where these do not exist, by some particularization in addition to the address. (3) The kind of business carried on. (4) Except in the case of a corporation, the true names of all persons having a proprietary interest in the business. While it is not necessary that the names of all persons having a proprietary interest in the business appear on the special tax stamp, the names must be disclosed on the return, Form 11.

(b) Signature. The return of an individual proprietor shall be signed by the proprietor; the return of a partnership shall be signed by a member of the firm; and the return of a corporation shall be signed by an officer thereof. In each case, the person signing the return shall designate his capacity, as “individual owner,” “member of firm,” or, in the case of corporation, the title of the officer. Receivers, trustees, assignees, executors, administrators, and other legal representatives who continue the business of a bankrupt, insolvent, deceased person, etc., will indicate the fiduciary capacity in which they act. Returns signed and sworn to by persons as agents will not be accepted unless they file with the return of the corporation, firm, or other legal representative an affidavit of attorney authorizing them so to act.

(c) Oaths. Special tax returns shall be made under oath, and sworn to before a deputy collector, notary public, or other person legally qualified to administer oaths. Deputy collectors and other internal revenue officers will make no charge for this service. (Secs. 3250 (1), 3270, and 4041 (a), I.R.C.)

SPECIAL TAX STAMPS

§ 197.11 Issuance of stamps. Upon receipt of a return on Form 11, properly executed, together with proper remittance, the Collector will issue a special tax stamp designated “Manufacturer of Nonbeverage Products” and, upon payment of the special tax, return the special tax stamp “to the Collector for endorsement,” setting forth the proper name and address. The Collector, on receipt of such stamp and statement, will compare the data with that on Form 11, and if an error on the part of the Collector has been made, he will make the necessary correction and return the stamp to the taxpayer. If the form 11 agrees with the data on the stamp, the Collector will require the taxpayer to file a new Form 11, designated “Amended Return,” disclosing the proper name and address, and, on receipt of the amended Form 11, will amend his return record accordingly. When in the amended Form 11 to the original Form 11, make the proper correction on the stamp, and return it to the taxpayer. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.12 Posting of stamps. A special taxpayer shall conspicuously display his special tax stamp in the place of business for which the special tax was paid. If stock of stamp is lost or destroyed, the taxpayer should immediately notify the Collector from whom the stamp was purchased, who will issue to the taxpayer a certificate, Form 785, in lieu thereof, which will in every manner be the same as the stamp. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.13 Corrections of errors on stamps. On receipt of a special tax stamp, the taxpayer will examine it to insure that the name and address are correctly stated thereon. If an error has been made, the stamp should be returned to the Collector, with a statement showing the nature of the error and setting forth the proper name or address. The Collector, on receipt of such stamp and statement, will compare the data with that on Form 11, and if an error on the part of the Collector has been made, he will make the necessary correction and return the stamp to the taxpayer. If the Form 11 agrees with the data on the stamp, the Collector will require the taxpayer to file a new Form 11, designated “Amended Return,” disclosing the proper name and address, and, on receipt of the amended Form 11, will amend his return record accordingly. When in the amended Form 11 to the original Form 11, make the proper correction on the stamp, and return it to the taxpayer. (Secs. 3250 (1) and 4041 (a), I.R.C.)

§ 197.14 Change in location.—(a) General. A special taxpayer who, during the fiscal year for which special tax was paid, removes his place of manufacture to a place other than that specified in his special tax stamp, must register the new place with the Collector from whom the special tax stamp was purchased, within 90 days after he moves into the new premises, by executing a new return on Form 11, designated as “Amended Return,” disclosing the new premises and place to which such removal was made, and shall surrender the special tax stamp to the Collector for endorsement of the change in location as to place. (Secs. 3250 (1) and 4041 (a), I.R.C.)

(b) Removal in same collection district. When a special taxpayer removes his place of manufacture to another address within the same collection district, the
Collector will enter on his Record 10 the new address and the date of removal into the new premises, and will note the change on the face of the special tax stamp, stating clearly thereon the new location, and will return the special tax stamp to the taxpayer.

(c) Removal to another collection district. When a taxpayer removes his place of manufacture to a location within a collection district other than that in which the special tax stamp was issued, the Collector who issued the special tax stamp shall enter on his Record 10 the new address and date of removal into the new premises, stating clearly the new location where the business is to be carried on, and will transmit the stamp to the Collector in charge of the district to which the taxpayer removed. The Collector of that district will make entry on his Record 10, as in the case of a new registrant, and note the taxpayer's new address and the Collector's name, title, and district, and the date of removal on the special tax stamp, which shall be returned to the taxpayer.

§ 197.16 Change in name or style—(a) General. A special taxpayer does not incur liability to additional special tax by reason of a mere change in the trade name or style under which such business is conducted, nor by reason of a change in management which involves no change in the proprietorship of the business.

(b) Change in capital stock. Additional special tax is not required by reason of a change of name or increase in capital stock, and where such change is made during the fiscal year, the laws of the state of incorporation provide for such changes without creating a new corporation.

(c) Sale of stock. No additional special tax is required by reason of the sale or transfer of all or a controlling interest in the capital stock of a corporation.

§ 197.17 Change to higher or lower rate of special tax—(a) General. A special taxpayer who pays special tax of $25 per annum, and who has filed a claim for drawback during the fiscal year for which the special tax was paid, may withdraw from his stocks and uses more than 50 proof gallons of distilled spirits in the manufacture of nonbeverage products which were unfit for beverage purposes and which were sold or otherwise transferred during any one quarter of the fiscal year, and only one claim may be filed for each quarter.

(b) Persons eligible. Under the conditions indicated above, persons such as those listed below have the right of succession:

Death: The widow or child, or executor, administrator, or other legal representative of the taxpayer.

Husband and wife: A husband or wife succeeding to the business of his or her spouse (living).

Insolvency: A receiver or trustee in bankruptcy, or an assignee for benefit of creditors, if such control a return on Form 11, showing the basis of the succession.

Failure to register. A person who removes his place of manufacture and fails to register such removal with the Collector, as required by paragraph (a), must pay a new special tax for the new location if a claim for drawback is filed by him during the fiscal year for which the original special tax was paid.

Form 785. The provisions of this section shall apply to certificates on Form 785 issued in lieu of lost or destroyed special tax stamps.

§ 197.18 Refund of special tax. A special taxpayer is not entitled to a refund of the special tax paid, unless it is established that he has not filed a claim for drawback during the period for which the stamp was issued.

§ 197.19 Claims for refund of special tax—(a) General. Claims for refund of the special tax alleged to have been erroneously or improperly paid shall be filed on Form 843, in duplicate, with the Collector to whom the special tax was paid. The claim shall set forth in detail and under oath each ground upon which it is made, and facts sufficient to apprise the Commissioner of the exact basis thereof. The special tax stamp shall be attached to the claim.

(b) Limitation. No claim for refund of special tax shall be allowed unless presented within four years next after the payment of such tax.

§ 197.20 Drawback. Drawback at the rate of $3.75 on each proof gallon of fully taxpaid distilled spirits used in the manufacture of medicines, medicinal preparations, food products, flavors, or flavoring extracts which are unfit for use for beverage purposes and which were sold or otherwise transferred for use for other than beverage purposes will be allowed to any person who has become eligible for such drawback by payment of the special tax at the rates prescribed in § 197.20, and upon the filing of a claim therefor as hereinafter provided.

§ 197.21 Claims. The claim must be filed within the three months next succeeding the quarter in which the nonbeverage products covered by the claim were sold or otherwise transferred. No claim will be allowed unless filed within the time so stated.

§ 197.22 Date of filing claim. The claim must set forth, under oath, the following:

(a) That the distilled spirits used in the manufacture of the nonbeverage products on which drawback is claimed were fully taxpaid and were produced in a domestic registered distillery or an industrial alcohol plant.

(b) That the distilled spirits on which the drawback is claimed were used in the manufacture or production of nonbeverage products which were unfit for use for beverage purposes.

(c) That the products produced were sold or otherwise transferred for use for other than beverage purposes in the quarter next preceding the quarter in which the claim is filed, and that (except as provided by § 197.21) the names and addresses of the persons to whom such products were sold or otherwise transferred are on file and are available for examination at the place covered by the special tax stamp.

(d) That the special tax has been paid.

§ 197.23 Preparation of claim. Each claim shall be accompanied by the following data in support of the request for drawback:

(a) The names and addresses of the persons to whom such products were sold or otherwise transferred.

(b) Information regarding the place of manufacture or production of the nonbeverage products which were unfit for use for beverage purposes.

(c) That the products produced were sold or otherwise transferred for use for other than beverage purposes in the quarter next preceding the quarter in which the claim is filed, and that (except as provided by § 197.21) the names and addresses of the persons to whom such products were sold or otherwise transferred are on file and are available for examination at the place covered by the special tax stamp.

(d) That the special tax has been paid.

§ 197.24 Supporting data. Each claim will be accompanied by the following data in support of the request for drawback:

The statements of supporting data shall be made in triplicate and one copy attached to each copy of the claim.
(a) Data with respect to taxpayment of the distilled spirits on which the drawback is claimed. (1) If the distilled spirits were received in tank cars, the claimant will furnish the serial number of the certificate of taxpayment (Form 1595), the date of issuance of the certificate, the name and address of the vendor, and the kind and proof of the spirits.

(2) If the distilled spirits were received in containers, such as barrels, drums, cans, or cases, bearing taxpaid stamps, the claimant will furnish the serial number of the taxpaid stamp affixed to the container, the date of taxpayment appearing on the stamp, serial number of the container, if any, the name and address of the vendor, and the kind and proof of the spirits. (When the package is emptied, the stamp shall be scraped and attached to the next claim filed for drawback on the spirits which were in such package. The scraped stamp will be retained by the District Supervisor with the claims record of the claimant.)

(3) If the distilled spirits were received in bottles, the claimant will furnish the name and address of the bottler, and the kind and proof of the spirits as shown on the label, the serial number of the strip of the taxpaid stamp affixed over the mouth and neck of the bottle, and the name and address of the vendor.

(b) Data with respect to use in and sale or transfer of nonbeverage products.

(1) Name and description of the product manufactured in which the distilled spirits were used, and the alcoholic content by volume of such product.

(2) If the product is a medicinal preparation, tincture or fluid extract, manufactured in accordance with a formula prescribed by the United States Pharmacopoeia, the National Formulary, or the American Institute of Homeopathy, or if the product is a flavoring extract, manufactured in accordance with the advisory standards for flavoring extracts of the United States Food and Drug Administration, Federal Security Agency, and (iii) the products identified in the claim in the manner stated in paragraph (b) (2) of this section.

(2) Each formula will be given a serial number by the claimant beginning with number 1. Subsequent claims for drawback covering the same product need not be accompanied by the quantitative formula, unless there has been a modification or revision thereof. Where there has been no change, the claimant will refer to the serial number given the formula.

(3) In the case of food products, such as preserved fruits, cakes, buns, soups, etc., it will be sufficient to show the quantity of proof gallons of distilled spirits used in the production of a given quantity of finished product. (Sec. 3250 (1), I.R.C.)

§ 197.25 Handling of claims. The Collector will date-stamp each copy of the claim, and after recording, will forward the original and duplicate copies to the District Supervisor, Alcohol Tax Unit, and retain the triplicate copy for his files. The District Supervisor will examine the claim for the purpose of determining whether it is properly executed and that all supporting data have been submitted. He will return to the claimant any claim requiring amendment with appropriate instructions as to proper execution or amendment. (Sec. 4041 (a), I.R.C.)

§ 197.26 Verification by District Supervisor. The District Supervisor will conduct such inquiries and investigations as may be necessary to verify that drawback is allowable on the distilled spirits involved in the claim. After completion of such verification, he will forward the original copies of the claim and supporting data, and a copy of the report of investigation, with his recommendation as to the merit of the claim, to the Commissioner. (Sec. 4041 (a), I.R.C.)

§ 197.27 When drawback not allowable. Drawback is not allowable on distilled spirits lost by causes such as spillage, leakage, breakage, etc., prior to or during the process of manufacture of nonbeverage products, or on distilled spirits used in the manufacture of nonbeverage products if such products are lost or destroyed prior to sale or transfer. (Sec. 3250 (1), I.R.C.)

FORMULAS AND SAMPLES

§ 197.28 Statement of process. The Commissioner, at his discretion, may at any time require any person claiming drawback under these regulations to file the statement of process used in the manufacture or production of a nonbeverage product, and such other data as he may deem necessary for use in connection with the consideration of such person's claim for drawback. The statement of process should be submitted in triplicate with copies of the commercial labels used on the finished products. (Sec. 3250 (1), I.R.C.)

§ 197.29 Samples. The Commissioner, at his discretion, may also at any time require any person claiming drawback under these regulations to submit a sample of each nonbeverage product for examination. Where the applicant proposes to use a mixture of oil or other ingredients, the composition of which is unknown to him, a one-ounce sample should be submitted with the sample of the finished product when so required by the Commissioner. (Sec. 3250 (1), I.R.C.)

The manufacturer need not keep the records required by paragraphs (b), (i), and (j) of § 197.30 where the nonbeverage product contains less than 3 per cent of distilled spirits by volume, nor shall such records be required where nonbeverage products are sold by the producer direct to the consumer in retail quantities. The payment to employees, whose wage or salary increases are subject to the jurisdiction of the National War Labor Board, of a bonus, fee, gift, commission or other form of compensation customarily paid to such employees in the past may be continued without the approval of the National War Labor Board, provided, That:

(2) If computed on a percentage, incentive or other similar basis, the rate and the method of computation are not changed in the current bonus year so as to yield a greater amount than that in the preceding bonus year, but a greater amount when resulting from the same rate and method of computation may be paid.

PART 1010—Suspension Orders

E. E. ANDERSON LUMBER CO.

E. E. Anderson Lumber Company, Detroit, Michigan, is a Michigan corporation engaged in the wholesale distribution of lumber and mill work. From May 13, 1942, to June 25, 1942, the company accepted delivery of substantial quantities of construction lumber from producers, the delivery of which had not been authorized by the War Production Board or the Director General for Operations, without having furnished said producers with the endorsements as to uses necessary under Limitation Order L-121.

The acceptance of these deliveries as aforesaid constituted a willful violation of Limitation Order L-121.

The foregoing violations of War Production Board orders have impeded and hampered the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board.

It is hereby ordered:

§ 1010.138 Suspension order S-138. (a) E. E. Anderson Lumber Company, its successors or assigns, shall not purchase or accept delivery from any source of any metal, including scrap, regardless of the form or condition thereof, specified in the Metals List of Priorities Regulation No. 1, unless specifically authorized by the Director General for Operations.

(b) E. E. Anderson Lumber Company, Morris Pashelinsky, Bernard Pashelinsky, David T. Pash, Rose Pashelinsky Blau, individually, or doing business as M. Pashelinsky & Sons, Morris Pashelinsky, Bernard Pashelinsky, David T. Pash, Rose Pashelinsky Blau, individually, or doing business as M. Pashelinsky & Sons, shall not purchase or accept delivery from any source of any metal, including scrap, regardless of the form or condition thereof, specified in the Metals List of Priorities Regulation No. 1, unless specifically authorized by the Director General for Operations.

M. PASHELINSKY & SONS

M. Pashelinsky & Sons, Jersey City, New Jersey, is a partnership engaged in the business of buying and selling scrap metals. This concern was familiar with the restrictions contained in Supplementary Order M-1-c and of Priorities Regulation No. 1, falsely described in its records and invoices such aluminum scrap as brass, copper, and white metal scrap, and in two instances falsely invoiced the aluminum scrap and entered records of such transactions in the firm's books in the individual name of Meyer Pashelinsky, rather than in the firm's name.

These violations of Supplementary Order M-1-c and of Priorities Regulation No. 1 have impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing facts, it is hereby ordered:

§ 1010.138 Suspension Order S-138. (a) Meyer Pashelinsky, Morris Pashelinsky, Bernard Pashelinsky, David T. Pash, Rose Pashelinsky Blau, individually, or doing business as M. Pashelinsky & Sons, or as successors or assigns of M. Pashelinsky & Sons, shall not purchase or accept delivery from any source of any metal, including scrap, regardless of the form or condition thereof, specified in the Metals List of Priorities Regulation No. 1, unless specifically authorized by the Director General for Operations.
No. 11, except as specifically authorized by the Director General for Operations.

(c) Nothing contained in this order shall be deemed to relieve Meyer Pashelinsky, Morris Pashelinsky and Bernard Pashelinsky, David T. Pash, Rose Pashelinsky Blau, individually, or doing business as M. Pashelinsky & Sons, or as successors or assigns of M. Pashelinsky & Sons from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on November 9, 1942, and shall remain in effect until revoked.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 399; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 3037—ELECTRONIC EQUIPMENT

[Intepretation 1 of General Limitation Order L-183]

The following official interpretation is hereby issued by the Director General for Operations with respect to §3037.1, General Limitation Order L-183.

A "manufacturer" as defined in paragraph (a) (1) does not include one who merely distributes or maintains and repairs electronic equipment.

A "manufacturer" does, however, include one who converts or modifies electronic equipment so as to change the use of such equipment, or so as to change its mode of operation.

A person, corporation, or other legal entity may be a manufacturer; and also may be engaged in the business of maintaining and repairing electronic equipment, and supplying parts for the maintenance and repair thereof. Where such is the case, and two distinct enterprises are in good faith conducted by the same person or entity, that person or entity as a manufacturer, and as concerns its manufacturing branch is subject to the limitations of L-183; but such person or entity, as a servicing agent performing the services of maintenance and repair and supplying parts therefor, and as concerns that branch of its business, is not subject to the limitations of L-183 with respect to such servicing activities nor with respect to distribution and transfers effected in the normal course of its functions of servicing electronic equipment and supplying parts for maintenance and repair.

Issued this 7th day of November 1942.

ERNST KANDLER,
Director General for Operations.

PART 3007—GLYCERINE RECOVERY

[Conservation Order M-168]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of glycerine for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3007.1 Conservation Order No. M-192—(a) Definitions.

(1) "Fats and oils" means all of the raw, crude and refined fats and fatty oils and greases.

(2) "Domestic glycerides" means all fats and oils which are normally produced in the continental United States.

(3) "Neutral fats or oils content" means that saponifiable portion of fats or oils at point of saponification or hydrolysis obtained from the total weight of such fats and oils the sum of the following: free fatty acids, moisture, insoluble impurities, and unsaponifiables. Free fatty acids, moisture, insoluble impurities, and unsaponifiables shall be determined by the official methods of the American Oil Chemists Society.

(4) "Pair average quality crude glycerine" means soap lye crude glycerine and saponification crude glycerine meeting the following specifications:

Soap lye crude glycerine:
Glycerol content— not less than 90%, Ash— not more than 10%.
Organic Residue— not more than 2%.
Saponification crude glycerine:
Glycerol content— not less than 68%, Ash— not more than 2%.
Organic Residue— not more than 1.5%.

Glycerol content, ash and organic residue shall be determined by the official methods of the American Oil Chemists Society.

(b) Required recovery of crude glycerine.

(1) Except as provided in paragraphs (b) (2), (b) (3) and (b) (4) hereof, no person shall saponify or hydrolyze any fat or oil in any process in which glycerine is produced unless:

(i) The amount of glycerol (either free or combined) remaining in the finished product shall be one percent (1.0%) or less, calculated on an anhydrous soap basis, and

(ii) Not less than 92% of the glycerol content of the spent lyes (where the product is boiled settled soap) shall be recovered as crude glycerine (100% glycerol basis). The glycerol content of such spent lyes shall be considered to be the glycerol theoretically contained in the neutral fats or oils content of the stock originally used less the maximum amount of glycerol permitted in the soap.

(iii) Where the glycerine is produced by the hydrolysis of fats or oils (fat splitting), the split shall not be less than 95% complete, except that where split fats or oils are to be used in soaps under paragraph (b) (2), the permitted glycerol—
ine in the finished product, on an anhydrous soap basis, shall be the limiting factor on the percentage of split. Not less than 94% of the glycerol content of the glycerin sweet water resulting from such splitting shall be recovered as crude glycerin (100% glycerol basis). The glycerol content of such sweet water shall be considered to be the glycerol theoretically contained in the neutral fat or oil content of the stock originally made or half-boiled soap, provided that the use of such glycerides or fatty acids in any calendar quarter does not exceed 90% of his average quarterly fatty acids in such month, whether or not he is exempted under paragraphs (d) (i) and (b) (2) hereof, any person who saponifies or hydrolyzes more than 3500 lbs. of oils, fats or fatty acids in any month in a process in which glycerin is recovered (not including any operation referred to in paragraph (d) (3) hereof) shall file with the War Production Board, Chemicals Branch, Washington, D. C., Ref: M-193, not later than the 15th day of the succeeding month, commencing December 15, 1942. Such Form PD-712 shall be filed by each person who saponifies or hydrolyzes more than such 3500 lbs. of oils, fats and fatty acids in such month, whether or not he is exempted under paragraphs (d) (1), (d) (2) or (d) (4) hereof.

(2) Where a person is both a manufacturer and refiner he shall file a separate form for each capacity.

(3) Each person affected by this order shall file such other reports at such times in such forms and with respect to such matters as the War Production Board may from time to time direct.

(4) Effect on other orders. Where different standards of recovery are imposed by this order and any other order or orders, the provisions of the order requiring the highest glycerine recovery shall control.

(g) Miscellaneous provisions.—(1) Applicability of priorities regulations. This order and any order issued hereinunder or subject to all applicable provisions of War Production Board Priorities Regulations, as amended from time to time.

(2) Communications to War Production Board. All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C., Ref: M-193.

(3) Violations. Any person who wilfully violates any provisions of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of perjury and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using under priority control and may be deprived of priorities assistance.

This order shall take effect December 1, 1942.

(9) Where diffusion and any other order or orders, the provisions of the order requiring the highest glycerine recovery shall control.

(g) Miscellaneous provisions.—(1) Applicability of priorities regulations. This order and any order issued hereinunder or subject to all applicable provisions of War Production Board Priorities Regulations, as amended from time to time.

(2) Communications to War Production Board. All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C., Ref: M-193.

(3) Violations. Any person who wilfully violates any provisions of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of perjury and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using under priority control and may be deprived of priorities assistance.

Eviction Regulation No. 10 (§ 1347.12 (c) (3)) has been added and item (3) of "Retailer" means anyone not a manufacturer or wholesaler who sells to an ultimate consumer.

§ 1347.25 Effective dates of amendments.

(1) Amendment No. 10 (§ 1347.12 (c) (1) and (3)) to Maximum Price Regulation 128 shall become effective November 6, 1942.

§ 1347.22 Definitions.

(1) Housing accommodations other than hotels and rooming houses in a portion of the Nebraska Defense-Rental area

The Emergency Price Control Act of 1942 provides that whenever in the judgment of the Administrator such action is necessary or proper in order to effectuate the purposes of the Act, the Administrator may, by regulation or order, regulate or prohibit speculative or manipulative practices or renting or leasing practices (including practices relating to recovery of the possession) in connection with any Defense-Area housing accommodations, which in his judgment are equivalent to or likely to result in rent increases inconsistent with the purposes of the Act.

By a designation and rent declaration issued by the Administrator on October 5, 1942, the Administrator designated as Defense-Rental Area certain localities including the Nebraska Defense-Rental Area, consisting of that portion of the State of Nebraska not therefore designated by the Administrator as part of any Defense-Rental Area. Since the issuance of said designation and declaration, the number of removals of tenants from possession, by means of evictions, actions to evict, and notices to quit or vacate has sharply increased in the portion of said Nebraska Defense-Rental Area set out in § 1388.531 of this eviction regulation. The purpose and effect of such removals of tenants from possession is to increase the rents of the housing accommodations involved.

In the judgment of the Administrator such increased removals of tenants from possession constitute speculative or manipulative practices or renting or leasing practices which are equivalent to or likely to result in rent increases inconsistent with the purposes of said Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act this Eviction Regulation No. 1 is hereby issued.

PART 1388—DEFENSE-RENTAL AREAS

[Eviction Regulation 1]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES IN A PORTION OF THE NEBRASKA DEFENSE-RENTAL AREA

§ 1388.531 Scope of regulation.

(a) This Eviction Regulation No. 1 applies to all housing accommodations within that portion of the Nebraska Defense-Rental Area consisting of the Counties of Adams and Clay, said area having been designated in the designation and rent declaration (§ § 1388.1341 to 1388.1345, inclusive) issued by the Administrator on October 5, 1942, except as provided in paragraph (b) of this section.

(b) This eviction regulation does not apply to the following:

(1) Housing accommodations situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;
(2) Dwelling space occupied by domestic servants, caretakers, managers, or other persons who are provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the dwelling space is a part shall remain in force pursuant to the terms thereof, except as otherwise provided in this eviction regulation.

(3) Rooms or other housing accommodations within hotels or rooming houses: Provided, That this eviction regulation does not apply to hotels or rooming houses.

(b) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except as otherwise provided in this eviction regulation.

(d) An agreement by the tenant to vacate the premises of any rental accommodation, the landlord seeks in good faith to recover possession for the immediate purpose of demolishing the housing accommodations or of substantial alteration or remodeling have been approved by the Administrator, if such approval is required by local law; or

(e) The tenant has unreasonably refused or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed and consistent with the purposes of the Act or this eviction regulation and would not be likely to result in the circumvention or evasion thereof.

(2) Removal or eviction of a tenant for occupancy by a purchaser who has acquired his rights in the housing accommodations on or after the effective date of this eviction regulation, is inconsistent with the purposes of the Act and this eviction regulation and would be likely to result in the circumvention or evasion thereof, unless (1) the payment or payments of principal made by the purchaser, excluding any payments made from funds borrowed for the purpose of making such principal payments aggregate 33 1/3% or more of the purchase price, and (2) a period of three months has elapsed after the issuance of a certificate by the Administrator as hereinafter provided. For the purposes of this paragraph (b) (2), the payments of principal may be made by the purchaser conditionally or in escrow to the end that they shall be returned to the purchaser in the event the Administrator denies a petition for a certificate. If the Administrator finds that the required payments of principal have been made, he shall, on petition of either the vendor or purchaser, issue a certificate authorizing the landlord to pursue his remedies for removal or eviction of the tenant in accordance with the requirements of the local law at the expiration of three months after the date of issuance of such certificate. The Administrator shall issue a certificate for occupancy by a purchaser who has acquired his rights in the housing accommodations on or after the effective date of this eviction regulation, unless he finds that the vendor has or had a substantial necessity requiring the sale and the reasonable sale or disposition of the accommodations could not be made without removal or eviction of the tenant, or unless he finds that other special hardship would result; under such circumstances the payment by the purchaser of 33 1/3% of the purchase price shall not be a condition to the issuance of a certificate, and the certificate shall authorize the vendor or purchaser to pursue his remedies for removal or eviction of the tenant in accordance with the requirements of the local law.

(c) The provisions of this section do not apply to a subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

The provisions of this section shall not apply to housing accommodations rented for the exclusive use of or to vendors or purchasers of the War and Navy Departments, for which the rent is fixed by the national rent schedule of the War or Navy Department.

(c) No tenant shall be removed or evicted from housing accommodations by court process or otherwise, unless, at least ten days prior to the time specified for surrender of possession and to the commencement of any action for removal or eviction, the landlord has given written notice to the tenant of the ground upon which the landlord seeks to remove or evict the tenant. A written copy of such notice shall be given to the Area Rent Office within 24 hours after the notice is given to the tenant.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Ration Order 5C]

MILEAGE RATIONING: CARBURETOR REGULATIONS

Preamble. The Office of Price Administration has been directed by the Rubber Director to carry out the recommendations contained in the report of the President's Special Committee to Study the Rubber Situation.

The Committee recommended: "We are faced with certainties as to demands: with grave insecurity as to supply. Therefore, this Committee conceives its first duty to be the maintenance of a rubber reserve which will keep our armed forces fighting and our essential civilian wheels turning. This can best be done by 'bulldozing through' the present synthetic program and by sacrificing jealousy every ounce of rubber in the country.'"

The recommendations of the Committee include:

1. Immediate institution of a tire replacement and recap program with the allocation of reclaimed rubber to that purpose.

- 2. Nation-wide gasoline rationing to hold the average annual mileage to 5,000 miles.

- 3. Prompt and strict enforcement of a Nation-wide speed limit not exceeding thirty-five miles an hour.

This Ration Order No. 5C has been adopted pursuant to the direction of the Rubber Director to complement the mileage rationing: Tire Regulations (Ration Order No. 1A). Wear and destruction of tires now in use must be reduced by curtailing the national average automobile mileage to a maximum of 5,000 miles per year. To accomplish this purpose, the Committee recommended:

That a new rationing system of gasoline be devised, based on this 5,000 miles a year base, and that the restrictions as to gasoline and mileage be national in their application.

The Committee said:

Gas rationing is the only way of saving rubber. Every way of avoiding this method was explored but it was found to be inescapable. This must be kept in mind: the limitation in the use of gasoline is not due to shortage of that commodity but is wholly and solely the result of rubber saving. That is why the restriction is to be Nation-wide. Any localized measure would be unfair and futile.

The mileage rationing: Gasoline Regulations (Ration Order No. 5C) control purchase and acquisition of gasoline as a means to conserve rubber and to maintain our transportation system. To safeguard against violation of the fundamental scheme, control is extended to gasoline generally, whether or not for motor vehicles.

Control over commercial motor vehicle mileage is shared jointly by the Office of Defense Transportation and the Office of Price Administration. The mileage to be driven by, and accordingly the amount of wear of tires used on, trucks, buses, taxis, and other like vehicles used for transporting property or available for hire or rental will be determined by the Office of Defense Transportation, and evidenced by Certificates of War Necessity. Henceforth, the resultant mileage and gasoline gallonage allowed for the vehicles operated. On the basis of such certificates, local War Price and Rationing boards will issue short rations, filling the requirements of such vehicles up to the maximum fixed by the certificate.

The Office of Price Administration, through its local War Price and Rationing Boards, will regulate the use and allowable mileage of passenger automobiles. All passenger automobiles, with certain exceptions, will receive a small, basic, mileage allowance, in order, primarily, to prevent casting all persons normally using such facilities on to public transportation systems not equipped to handle tremendously increased loads.

The private passenger automobile is, in this sense, an integral and indispensable part of the Nation's system of transportation.

Above this basic ration, mileage will be allowed for occupational uses of the vehicle. But this supplemental allowance is strictly tailored in accordance with need. Moreover, certitude as to the program of the Committee that essential driving be given first place, a maximum allowance of 470 miles per month is placed upon the occupational use of vehicles. The list of those users who may be allowed mileage above this maximum is limited to those who use their vehicles for purposes essential to the war effort or to the civilian economy.

Certain exceptional, non-occupational, necessary motor vehicle uses, such as the procuring of food and supplies, or medical treatment or recognition of civilian ration certificates are allowed for such purposes. Further, since the desire for conservation of gasoline is not the chief factor motivating these regulations, gasoline rations for purposes not involving rubber tires are given virtually without restriction, to meet the demonstrated requirements of the user.

However, passenger car rations are not issued unless the applicant has disposed of all idle tires which he owns, so that they may be available to meet the present needs of others. No one should be
permitted to withhold an idle tire from use when that tire may be necessary to avoid deprivation of another's transportation. There should be no tires which are not either in use, immediately available for use, or in process of being made usable.

Finally, in order more effectively to serve the end desired, the allowance of gasoline for motor vehicle use is made dependent, as is the issuance of tires, upon use of the vehicle in a manner best calculated to conserve its tires. Thus, periodic tire inspections, observance of a 35 mile per hour maximum speed limit, and avoidance of abuse and neglect of tires, are made prerequisite to continuance of any ration issued.

By these means and through control of the motive power of rubber-using vehicles, the vital rubber supply of this country will be utilized for purposes most essential to the public welfare, and will be made to last, if possible, beyond the period of critical shortage. There is, of course, no assurance that the rubber supply situation in the future will not require further curtailment and enforce conservation of tire use. To a great extent, this will depend upon whether the driving public will alter and restrict its driving habits, and conserve to the utmost extent the tires now in use. The Committee said:

Let there be no doubt that only actual needs not fancied wants, can, or should, be satisfied. To dissipate our stocks of rubber is to destroy one of our chief weapons of war. We have the choice! Discomfort or defeat. There is no middle course.

Accordingly, pursuant to the authority vested in me by War Production Board Directive No. 1, issued January 24, 1942, and by Supplementary Directive No. 1 q issued November 6, 1942, It is hereby ordered, That:

(b) When issued as a supplemental ration, Class B books shall contain sixteen (16) coupons, and Class C and D books shall contain a number of coupons, specified in the tables set forth in § 1394.7705, necessary to provide the mileage allowed by the Board. Coupons contained in such books shall authorize the transfer of gasoline to a consumer only during the valid period of such books noted thereon by the Board. Class B ration and supplemental books shall be valid only for the period ascertained pursuant to § 1394.7705. Class C and Supplemental Class D ration books shall be valid for a period of three months commencing on November 22, 1942, or on the date of issuance, whichever is later.

(c) Applicants for supplemental rations must be entitled to the use of a registered passenger automobile or registered motorcycle for which no basic ration has been issued and to use the Board for occupational mileage or by the Board in allowing occupational mileage, since a deduction of 150 miles from the total mileage allowed by the Board is automatically made when the Board applies the tables set forth in § 1394.7705 pursuant to which supplemental rations are to be issued.

§ 1394.7702 Passenger automobiles or motorcycles for which supplemental rations may be issued are deemed to have available 150 miles per month of occupational driving by using the basic ration 1 which they are entitled; and supplemental rations may be issued to provide only occupational mileage allowed by a Board in excess of 150 miles per month. However, no deduction for such 150 miles shall be made by the applicant in stating his required occupational mileage or by the Board in allowing occupational mileage, since a deduction of 150 miles from the total mileage allowed by the Board is automatically made when the Board applies the tables set forth in § 1394.7705.

principal occupation of the applicant or principal user of the vehicle;
(2) Driving in the course of such principal occupation;
(3) Driving to and from or in the course of any other occupation or occupations for which the vehicle is used.

(c) In the event that two or more passenger automobiles for which supplemental rations are desired, are owned by persons living in the same household and are driven by other than by blood, marriage, or adoption, all applications for supplemental rations for such vehicles shall, except for good cause shown, be submitted at the same time to the same Board. Where two or more vehicles are used in a ride-sharing arrangement of the type described in paragraph (a) of §1394.7704, a separate application for a supplemental ration shall be made for each such vehicle. Each such application shall include only the mileage driven in the vehicle for which it is made and, if such vehicle is driven by another than by blood, marriage or adoption, all such applications must be submitted to it at the same time. If such vehicles are within the jurisdiction of different Boards, each application shall be accompanied by duplicate copies of the applications for other vehicles in such ride-sharing arrangement, and such duplicate copies shall show, if possible, the action taken by the respective Boards on the originals thereof.

§1394.7704 Allowance of mileage. (a) Except as provided in paragraph (c) of this section occupational mileage shall be allowed by a Board for a purpose specified in paragraph (b) of §1394.7703 if the applicant establishes, in connection with the use of the vehicle for that purpose, either:

(2) That no such ride-sharing arrangement could reasonably be made but that the vehicle carries as many persons as could reasonably be expected in the light of the circumstances in which and the purpose for which it is used; that transportation is needed for such purpose; and that no alternative means of transportation are available which would be reasonably adequate for such purpose.

(d) An applicant may establish that four or more persons cannot regularly be carried in the vehicle for which application is made; however, the limited capacity of the vehicle; the necessity of traveling at unusual or irregular hours; the necessity of traveling over rough or other roads which might be dangerous; or such other reasons as the Board may find sufficient.

If the applicant has requested that bulk coupons be issued to him, the Board shall issue such bulk coupons in lieu of coupons in books, in accordance with the procedure set forth in paragraphs (a) and (b) of § 1394.8006.

(c) For the purposes of paragraph (a) of this section, a passenger automobile is conclusively presumed to operate 15 miles, and a motorcycle 40 miles, per gallon of gasoline.

(d) No fleet ration shall be issued by a Board unless the registered owner of the vehicle or vehicles for which such ration is sought or his responsible agent, has certified in the application that no pas­senger-type tires (excluding motorcycle tires but including scrap tires) are available which would be reasonably adequate for the purpose for which the tire is claimed.

(b) Subject to the provisions of paragraph (a) of this section, the Board shall allow the total average occupational mileage per month determined by it to be required for driving within the Con­tinental United States, during the three­month period specified in § 1394.7753 and shall issue a ration in accordance with the provisions of § 1394.7753 to pro­vide such mileage: Provided, That the Board may not allow an average of more than 470 miles per month for any vehicle nor an average of more than 470 miles per month per vehicle for any group of vehicles, for any occupational mileage other than that described as mileage as defined in § 1394.7706.

§ 1394.7755 Interchangeable official or fleet ration books. An applicant for one of official or a fleet ration books may request the Board to note on the ration books issued, the name or other identification of the official vehicles or the fleet, in lieu of the registration number of a par­ticular vehicle. The Board may grant such request with respect to any official or fleet vehicles which are used inter-
used, interchangeably, for all official or fleet vehicles bearing such identification.

§1394.7757 Issuance of rations for use with vehicles operated on dealer plates. (a) Notwithstanding any other provision of Ration Order No. 5C a ration may be issued to a Board to provide solely for the occupational mileage (other than for demonstration purposes) to be driven in an unregistered automobile or motorcycle regularly operated on dealer or other interchangeable license plates if the operation of such vehicle on such plates is permissible under the law of the state issuing the plates.

(b) Such ration shall be issued in the same manner as fleet ration under the conditions provided in §§ 1394.7764 and 1394.7755 (a), (b), (c) and (d) and application for such ration shall be made to a Board on Form OPA R-536. Provided, That the certification therein contained as to ownership of tires by the registered owner of the vehicle shall be reduced to a certificate as to tires owned by the owner of the vehicle. The applicant shall annex to the application a written statement showing the Federal Use Tax Stamp number and the stamp number of such vehicle.

(c) If the Board finds the facts stated on the application to be true, it shall determine the allowed mileage for such vehicle in accordance with the provisions of §1394.7754, and shall issue a ration in accordance with §1394.7755 (a), (b) and (c). The Board issuing the ration book shall, at the time of issuance, make a clear notation of the Use Tax Stamp number on the cover of such book and, in the space provided for the license number, shall insert the engine number of the vehicle in accordance with the provisions of §1394.7754. The Board shall note on the cover of the book the name and address of the person to whom the book is issued and shall note on the book and on the application a certificate of the date on which the certificate becomes valid and the date on which it expires.

(a) Subject to the provisions of §1394.7802, transport rations shall be issued by a Board to permit the acquisition of gasoline required for the propulsion of registered and unregistered commercial motor vehicles and motor vehicles owned or leased by the military or naval forces of the United States or State military forces organized pursuant to section 61 of the National Defense Act, as amended. Every transport ration shall state the maximum number of gallons of gasoline required for the operation of such vehicle during quarterly periods for which the ration is to be used, during which the ration is to be used, as set forth in such certificate. The owner or the person entitled to the use of a motor vehicle having been issued by the military or naval forces of the United States or the State military forces organized pursuant to section 61 of the National Defense Act, as amended, may obtain a transport ration for use after the acquisition of the number of gallons of gasoline required for the operation of such vehicle during the quarterly period for which the ration is to be used.

§ 1394.7803 Transport ration books. (a) Class T-1 and Class T-2 coupon books and, in the case of motorcycles owned or leased by the armed forces, Class D books marked "Transport," shall be issued as transport rations. Coupons in Class T-1 and T-2 books shall each have a value of one unit.

(b) Coupons contained in a transport ration book authorize the transfer of gasoline to a consumer only during the period noted thereon by the Board.

§ 1394.7804 Application for transport rations. (a) Application for a transport ration may be made to a Board, on and after November 9, 1943, on Form OPA R-538. Application may be made by the owner or person entitled to the use of the vehicle, or by the authorized agent of either of them. A single application may be made for each vehicle or for each group of fleet vehicles for which the applicant seeks a transport ration. A separate application must be used for each vehicle which is not a part of a fleet.

(b) In the event application is made for a transport ration for use with a commercial motor vehicle for which a Certificate of War Necessity has been issued, the application shall be accompanied by the single unit certificate issued for the vehicle or, in the case of a fleet of commercial motor vehicles, the fleet certificate issued for such fleet. If the applicant, during the period, less than the maximum number of gallons of gasoline allowed by such certificate for the vehicles covered by the application, the applicant shall state the amount of gasoline required by him.

(c) In the event application is made for a transport ration for use with a motor vehicle owned or leased by the military or naval forces of the United States or State military forces organized pursuant to section 61 of the National Defense Act, as amended, the Board shall not require the presentation of a Certificate of War Necessity and shall issue Class T-1 or T-2 books or, in the case of motorcycles, D books marked "Transport" containing coupons in sufficient number to provide the number of gallons of gasoline allowed by the certificate for the quarterly period during which the ration is to be used.

(d) The Board shall, when issuing Class T-1, T-2 or D books as transport rations, remove and cancel all coupons in excess of the number required to supply the gallonage allowed. The Board shall note on the face of the books the date of issuance or November 22, 1942, whichever is later, and the date of ex-
the ration books issued, a clearly discernible name or other identification of the person issuing such books. In the case of a fleet certificate, the Board shall insert on the reverse side thereof the same information and shall also note the total gallonage for which coupons are issued, and the number and address of the issuing Board. If the applicant has requested that bulk coupons be issued to him, and if the applicant meets the requirements of paragraph (a) of § 1394.8006, the Board shall issue bulk coupons to the extent of the gallonage allowed by it for which bulk coupons are requested.

§ 1394.7806 Transport ration for equipment mounted on commercial motor vehicles. Notwithstanding any other provisions of the Order No. 33, the applicant for a ration for use with a commercial motor vehicle upon which is mounted permanently attached machinery or equipment which is operated by gasoline supplied from a fuel tank other than the fuel supply tank of the motor vehicle may set forth in his application for a transport ration for such vehicle the amount of gasoline needed for such purpose during such period and shall include in the transport ration issued for such vehicle a sufficient number of coupons to provide gasoline to operate such machinery or equipment during such period.

§ 1394.7807 Interchangeable transport ration books. An applicant for a transport ration for use with fleet vehicles may request the Board to note on the ration book issued, a clearly discernible name or other identification of the fleet or, if the vehicles bear no clearly discernible name or identification, the serial number of the fleet certificate issued for such vehicles, in lieu of the registration number of a particular vehicle. The Board may grant such a request with respect to any vehicles for which a fleet certificate has been issued. Any book on which a fleet identification or fleet certificate number is noted may be used interchangeably for all vehicles in the fleet bearing such identification or covered by such fleet certificate.

§ 1394.7808 Temporary transport rations. (a) Any person requiring gasoline for the operation of a commercial motor vehicle which has made application for a Certificate of War Necessity but which the Certificate of War Necessity thereon may apply between November 15, 1942, and December 31, 1942, inclusive, for a temporary transport ration pursuant to the provisions of paragraph (b) of this section, and no Certificate of War Necessity shall be required to be presented in connection therewith.

(b) An application for a temporary transport ration may be made, in duplicate, to any Board during the period from November 15, 1942, to December 31, 1942, inclusive. Such application shall be made on Form OPA R-538, and may be signed only by an agent. The applicant shall state the mileage and gallonage required for the operation of such motor vehicle from the date the ration is required to the expiration date, and shall specify the address of the Local Allocation Office of the Office of Defense Transportation with which the application for a Certificate of War Necessity has been filed, the date on which the application was filed, and the address of the Board with which his application pursuant to § 1394.7804 is to be filed. The applicant shall also state that no ration pursuant to § 1394.7804 is required for the vehicle for which such ration is sought. The word "temporary" shall be clearly noted on the application.

(c) The Board shall determine the number of gallons of gasoline required during such period for the operation of such machinery or equipment during the period for which the transport ration is sought. The Board shall ascertain and allow the amount of gasoline needed for such purpose during such period and shall include in the transport ration issued for such vehicle a sufficient number of coupons to provide gasoline to operate such machinery or equipment during such period.

§ 1394.7809 Special rations. (a) The owner or person entitled to the use of a motor vehicle, or of a boat or outboard motor who finds that transportation in such vehicle, or boat, is necessary for one or more of the purposes specified in paragraph (b) of this section, and who finds that a ration issued for such vehicle or boat is not sufficient to permit its necessary use for such purpose, may apply to a Board for a special ration. Application for a special ration on behalf of an individual may not be signed by an agent. A special ration may be issued for any period up to six months from the date of application.

(b) Special rations shall be issued in order to permit the acquisition of gasoline for one or more of the following purposes:

(c) Every licensed distributor who operates a place of business at which functions corresponding to those of a dealer or intermediate distributor of gasoline are performed, and which, under the terms of § 1394.7551 (a) (17), is deemed to be a part of his facilities as a licensed distributor, and every employer who receives gasoline from a licensed distributor on consignment for purposes of sale, shall register each such place of business (on Form OPA R-545) on November 23 and 24, 1942, with the Board having jurisdiction of the area in which each such place of business is located: Provided, That neither the inventory of gasoline on hand nor the gasoline storage capacity shall be registered, but only the name of the licensed distributor or consignee operating such place of business, a statement that the place of business is operated by a licensed distributor or by a consignee, and a certification as to the truth of this information.

(d) Notwithstanding the provisions of paragraph (a), (b) and (c) of this section, no dealer or distributor whose place of business has been registered with a Board pursuant to the provisions of paragraph (a), (b) and (c) of this section, is required to register gasoline in transit which, under the terms of § 1394.7551 (a) (17), are deemed for purposes of Ration Order No. 5C to be a part of his facilities as a licensed distributor, and received inventory coupons representing the unfilled gasoline storage capacity of such facilities, shall reregister such place of business: Provided, That any licensed distributor who registered, pursuant to the provisions of Ration Order No. 5A, facilities which, under the terms of § 1394.7551 (a) (17), are deemed for purposes of Ration Order No. 5C to be a part of his facilities as a licensed distributor, and received inventory coupons representing the unfilled gasoline storage capacity of such facilities, shall reregister such facilities on November 23 or 24, 1942, as licensed distributor facilities, and surrender to the Board for cancellation inventory coupons or other evidences equal in gallonage value to the coupons originally issued to represent his unfilled gasoline storage capacity.

§ 1394.8204 Issuance of registration certificates. A one-hundred gallon inventory coupon or a quantity of Class A coupons may at any time after expiration of the area in which the place of business changes at any Board by a dealer or intermediate distributor for an equivalent amount of one-gallon inventory coupons. (b) In any case in which the total inventory of gasoline on hand exceeds the total gasoline storage capacity of the registrant's place of business, the Board shall require the registrant to surrender for cancellation, and the registrant shall so surrender, at the earliest possible moment thereafter, consumer coupons or other evidences equal in gallonage value to the amount of gasoline by which his inventory of gasoline on hand as of 12:01 a.m., November 22, 1942 exceeds his total gasoline storage capacity.

§ 1394.8206 Restriction on use of inventory coupons. (a) Every dealer and intermediate distributor shall retain all inventory coupons issued to him at the place of business from which they may have been issued, and shall not exchange his inventory coupons except to the extent that any delivery exceeds the amount of consumer coupons or other evidences available for exchange: Provided, however, That one-gallon inventory coupons may be used to make up the difference between the number of gallons in any delivery and the number of gallons represented by the nearest composite sum of the values of consumer coupons or other evidences. (b) Every dealer and intermediate distributor shall clearly write in ink on the reverse side of each inventory coupon issued to him, the name and address of his establishment as shown on his certificate of registration, and no inventory coupon shall be used in exchange for gasoline, and such gasoline may be transferred in exchange for inventory coupons, unless such notations appear on such coupons.

§ 1394.8208 Same: Other applicable provisions. Nothing in Ration Order No. 5C shall be construed to authorize any transfer or such transfer in advance, mail or deliver in advance to a dealer or intermediate distributor for redelivery to the transferee: Provided, however, That transfers of gasoline may be made only in exchange for coupons bearing the notations required by paragraphs (d) and (e) of § 1394.8004 and paragraph (b) of § 1394.8206.

§ 1394.8209 Absentee deliveries: Third party deliveries. Where a distributor elects to make delivery of gasoline during hours when the transfer is not open for business, the transferee shall, where the exact amount of delivery is known in advance, mail or deliver in advance to the distributor, or, at the discretion of the distributor, within twenty-four (24) hours of delivery, coupons or other evidences equal in gallonage value to the amount, or adjusted amount, of the delivery. Where delivery of gasoline to a dealer or intermediate distributor is made by common or contract carrier or by pipe line, or where the billing for gasoline is made by the transferee at the same time as or prior to receipt of the transfer by him, the transferee shall, where the exact amount of the delivery is known in advance, mail or deliver in advance to the distributor coupons or other evidences equal in gallonage value to the amount, or adjusted amount, of the delivery, or may, at the discretion of the transferor, forward to the transferor within five (5) days after receipt of such delivery an amount of coupons or other evidences equal in gallonage value to the number, or adjusted number, of gallons so delivered.

§ 1394.8210 Upstream transfers. (a) Any distributor who receives a transfer of gasoline from a dealer or intermediate distributor, other than in connection with a transfer to him of the place of business of such dealer or intermediate distributor, shall immediately deliver to such dealer or intermediate distributor a quantity of coupons or other evidences equal in gallonage value to the amount of gasoline so transferred or returned.

The Board shall retain the original of such statement in its files, and shall forward the duplicate thereof, through the State Director, to the Board having jurisdiction over the area in which such consumer is located, as shown on such statement. Any consumer who transfers or returns gasoline to a dealer or distributor may, if the gasoline so transferred or returned represents all or part of a ration issued to such consumer, apply, on the appropriate form, to the Board for reissuance of such ration or part thereof. Such application shall contain a statement of the nature and quantity of the ration originally issued, the name and address of the dealer or distributor to whom gasoline was transferred or returned, the quantity of gasoline so transferred or returned, and a certification as to the truth of such statements. If the Board finds that the consumer transferred or returned to a dealer or distributor gasoline originally issued to the consumer as a ration, that such ration has not yet expired, and that the consumer still requires such ration, it shall issue to the consumer either a coupon or coupons of the same type as the ration originally issued equal in gallonage value to the quantity of gasoline so transferred or returned. The ration shall be canceled in the same manner as before and, in addition to such other notations as may be required, note on the face of the coupon books issued, and on the application, the ration number on which shall be the same expiration date as that applicable to the ration originally issued.

The original of this summary shall be delivered to the transferor attached to the coupons and other evidences. The copy shall be retained by him at his place of business for a period of not less than one year. All such summaries received by a distributor upon his delivery of gasoline to a dealer or intermediate distributor shall be recapitulated in his own summary, one such summary equaling the total gallonage represented by all coupons and other evidences (less the gallonage represented by exchange certificates, except as provided in § 1394.8214) forwarded by him. Summaries received by a distributor from dealers or intermediate distributors shall be included with and other evidences attached thereto when forwarded by him.

§ 1394.8214 Exchange of coupons for certificates. A distributor may at any time deliver to a Board coupons or other evidences exchanged for certificates and obtain in return an exchange certificate or certificates equal to the gallonage value of the valid coupons or other evidences remitted. The remitter shall attach a copy of the exchange certificate to a Summary of Coupons and Other Evidences on Form OPA R-541, on which such evidences shall be listed by type and value, in addition to the summaries already attached thereto by the dealer or distributor from which such coupons or other evidences were received. In any case of such exchanges, the dealer or distributor shall execute a State motor fuel tax report in the manner required of licensed distributors, and shall attach thereto all coupons or other evidences acquired from consumers in such gasoline transactions. Any person failing to file such report shall not be entitled to receive such exchange certificates.

§ 1394.8215 Transfer and surrender of expired coupons. (a) No dealer shall accept from a consumer in exchange for a transfer of gasoline any Class S ration coupons pursuant to Ration Order No. 5A, or any Class A coupon the period of validity of which, as shown on the face thereof, has expired, and no such coupon shall be received as evidence of any gallonage value, except on coupon sheets to which it has been attached prior, in the case of Class S coupons, to November 22, 1942, or in the case of Class A coupons, to the expiration of its period of validity.

The certification of shortage shall be submitted to the Board on Form OPA R-549, in the form in which such dealer or intermediate distributor has the place of business to which the shortage is to be attributed, showing the nature and quantity of such shortage with a full explanation of reasons therefor. If, on consideration of the certification presented and of such other facts as it may require of the applicant, the Board finds that the applicant has incurred the shortages claimed, that such shortages were not incurred as a result of any acts performed in violation of Ration Order No. 5A or 5C, and that any claimed shortage of gasoline is reasonable, the Board shall file the certification and issue to the applicant a quantity of inventory coupons equal to the amount of shortage. A copy of the certification may be retained by the dealer or intermediate distributor for his records.

(b) Any person who wilfully performs any act prohibited, or willfully fails to perform any act required, by any provision of Ration Order No. 5C may upon conviction be fined not more than $10,000 or imprisoned for not more than one year, or both, and shall be subject to such other penalties or action as may be prescribed by law.
In order to maintain our essential passenger-car mileage and to prevent a collapse of the transportation system, idle tires must be put to use. To protect that system, none may hoard. Tires must be spread among all who need them. To accomplish this every idle tire must be made available for use. The Government has undertaken a purchase plan designed to bring into the market and make available for use every idle tire. A second means of using to the greatest advantage our existing supply of tires, is to preserve and restore those tire carcasses that are in need of recapping. These tires if recapped in time can continue to be used for essential purposes; if not recapped in time they become useless scrap. As said by the Committee, "The nation is now driving on rubber borrowed from a happier past. Without recaps and replacements the majority of civilian cars would be forced off the road by irreplaceable tire failures."

Conservation measures to protect our present stock of rubber even now on running wheels, both of commercial motor vehicles and passenger automobiles have been stressed by the Committee. As such a measure the Mileage Ratining: Tire Regulations institute a system of compulsory periodic tire inspection. The equipment and tires of each car will be checked periodically to make sure that the tires are being used as efficiently as possible and to insure that they will not be used beyond the stage where they can be recapped. The War Price and Rationing Boards are empowered to treat driving over 35 miles per hour as evidence of tire abuse.

Each car owner should limit the use of his car to the most essential purposes. There is no assurance that the rubber supply will be sufficient to cover even the most essential needs, and further restrictions may be necessary in the future. This will depend in large part upon whether or not the American public rigidly restricts its driving habits, and uses the utmost care to prevent any abuse or neglect of its tires. In the words of the Committee's report, "we have the choice: discomfort or defeat. There is no middle course."

Accordingly, pursuant to the authority vested in me by War Production Board Directive No. 1, issued January 24, 1942, and by Supplementary Directive No. 1Q, issued November 6, 1942, it is hereby ordered, That:

The Board shall at all times serve the objectives sought to be accomplished by the tire rationing program and allot certificates for the most vital civilian uses and for uses essential to the war program.

(d) Passenger automobile spare tires. No Board shall issue a certificate for a spare tire (other than for recapping service only) to an applicant for a passenger automobile who has not been issued only a basic ration currently valid under Ration Order No. 5C, unless the mileage driven in such vehicle is necessary for carrying out one or more of the purposes described in § 1394.7706 of Ration Order No. 5C, except between the twenty-fifth and the last day of a month, and then only if there are no pending applications for tires because of alteration, or which have the number of tires permitted for the vehicle by the Office of Price Administration; or

§ 1315.503 Eligibility of passenger automobile—(a) Reconsideration of gasoline ration—When application is made for a tire, tube, or recapping service for a passenger automobile, the Board shall reconsider the applicant's gasoline ration before passing upon his application. Such reconsideration shall be made as follows:

If such application is not available at the Board, the applicant shall provide such information upon OPA Form R-535 as to his occupation and mileage requirements as the Board may require.

(3) Fleet and official ration. When application is made for a tire, tube, or recapping service for a fleet passenger automobile, or a passenger automobile owned by or leased to a federal, state, local, or foreign government or governmental agency, the Board shall reconsider the application for the current Fleet or official ration, if available at the Board. § 1315.509 Redetermination of supplemental fleet or official gasoline ration. If upon reconsideration of the gasoline ration as provided in paragraphs (a) and (b) of this section, the Board finds that the applicant has been granted either a larger or a smaller gasoline ration than he is entitled to under Ration Order No. 5C, or a ration of a class other than that to which he is entitled under Ration Order No. 5C, it shall recall excess gasoline coupons or issue an additional or a different gasoline ration for the corrected mileage: Provided, however, That no gasoline ration, other than a Basic, Fleet, or dealer's ration under Ration Order No. 5C, shall be issued for making necessary repairs to a tire, tube, or recapping service for a fleet or official passenger automobile using an interchangeable gasoline ration book, but such mileage redetermination shall be used as a basis for determining whether the applicant is entitled to a Grade I, Grade II, or a Grade III tire.

(c) Eligibility determined on basis of adjusted gasoline ration. When the Board has adjusted an applicant's mileage requirements pursuant to paragraphs (a) and (b) of this section, it shall determine the applicant's eligibility for a tire, tube, or recapping service on the basis of such adjusted mileage, and not on the basis of his former allowed gasoline mileage, in accordance with the following table:

<table>
<thead>
<tr>
<th>Total gasoline mileage</th>
<th>Kind of tire or recapping service</th>
<th>Kind of tube</th>
</tr>
</thead>
<tbody>
<tr>

(3) An applicant who applies for an "obsolete type" tire or a tire to be mounted on a motorcycle to replace a tire which cannot be recapped, either because of its physical condition or the lack of adequate recapping facilities, shall be entitled to a certificate for a new tire of an "obsolete type," or a new motorcycle tire, but only if a currently valid supplemental gasoline ration is outstanding for the vehicle for which such tire is sought or, in the absence of a currently valid supplemental gasoline ration for such vehicle, if the mileage driven in such vehicle is necessary for carrying out one or more of the purposes described in paragraphs (a) through (c) of Ration Order No. 5C. [MPR 271]

CERTAIN PERISHABLE FOOD COMMODITIES, SALES EXCEPT AT RETAIL

In the judgment of the Price Administrator and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, that maximum prices be established for the sale of certain perishable food commodities, f. o. b. country shipping point, and at wholesale. The following regulation supersedes Temporary Maximum Price Regulation No. 22 and establishes maximum prices in a manner calculated to promote equitable distribution of these important food commodities through normal channels of trade.

The maximum prices established by this regulation are, in the judgment of the Price Administrator, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith with the Division of the Federal Register. * Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 271 is hereby issued.

Sec. 1351.1001 Applicability of this Maximum Price Regulation No. 271.

1351.1002 How a country shipper establishes his maximum price for perishable food commodity, as set forth in Appendix A. (a) The maximum price, at the country shipping point, on board car or any other common carrier, shall be established by the country shipper as follows:

(1) For each hundred pounds of each variety of U. S. No. 1 grade of white potatoes, in bags, on board car or any other common carrier, the maximum price shall be the amount set forth for the month of sale and the area in which the white potatoes were produced, listed in Appendix A heretofore. Differentials above or below the maximum price are listed in paragraph (b) of this section.

(2) For each fifty pounds of each variety of dry onions, graded and in sacks, on board car or any other common carrier, the maximum price shall be the amount set forth as the maximum price for the month of sale and the area in which the dry onions were produced, listed in Appendix A heretofore. Differentials above or below the maximum price are listed in paragraph (b) of this section.

(b) The following differentials for certain grades and certain types of ships shall be applicable to country shippers:

(1) All white potatoes used for human consumption, produced in the calendar year 1942.

(2) All dry onions used for human consumption, produced in the calendar year 1942.

(b) To what types of sellers this regulation applies. This regulation applies to country shippers and all intermediate sellers, as defined herein, of the commodities listed in paragraph (a) of this section, but does not apply to retailers.

Purposes of this regulation. (1) Appendix A sets forth maximum prices and repeats the applicable differentials set forth in § 1351.1002 (b) for the country shipper, at the country shipping point, on board car or any other common carrier, for each variety and grade, in the month of sale and area in which the commodities were produced.

(2) Appendix B sets forth the figures which different classes of intermediate sellers must use in calculating maximum prices.

Prohibition against sales above maximum prices. On and after November 9, 1942, regardless of any contract or other obligation, no person is permitted to sell or deliver perishable food commodities, at prices higher than the maximum prices herein established. Lower prices may be charged and paid.

§ 1351.1002 How a country shipper establishes his maximum price for a perishable food commodity, as set forth in Appendix A. (a) The maximum price, at the country shipping point, on board car or any other common carrier, shall be established by the country shipper as follows:

(1) For each hundred pounds of each variety of U. S. No. 1 grade of white potatoes, in bags, on board car or any other common carrier, the maximum price shall be the amount set forth for the month of sale and the area in which the white potatoes were produced, listed in Appendix A heretofore. Differentials above or below the maximum price are listed in paragraph (b) of this section.

(b) For each fifty pounds of each variety of dry onions, graded and in sacks, on board car or any other common carrier, the maximum price shall be the amount set forth as the maximum price for the month of sale and the area in which the dry onions were produced, listed in Appendix A heretofore. Differentials above or below the maximum price are listed in paragraph (b) of this section.

(b) The following differentials for certain grades and certain types of ships shall be applicable to country shippers:

(1) White potatoes: (I) For white potatoes which grade below U. S. No. 1, packed in 100 pound bags, the country shipper shall subtract 30 cents per cwt. from the maximum prices for U. S. No. 1 grade listed in Appendix A.

(ii) For white potatoes, U. S. Extra No. 1, or U. S. No. 1, packed in 100 pound bags, the country shipper may add 20 cents per cwt. to the

...
maximum prices for U. S. No. 1 grade listed in Appendix A.

(iii) For Russet Burbank potatoes, U. S. No. 1, 6 ounce minimum, packed in 100 pound bags, the country shipper may add 35 cents per cwt. to the maximum prices for U. S. No. 1 grade listed in Appendix A.

(iv) For Russet Burbank potatoes, U. S. No. 1, 6 ounce minimum to 14 ounce maximum, packed in 100 pound bags, the country shipper may add 35 cents per cwt. to the maximum prices for U. S. No. 1 grade listed in Appendix A.

(v) For white potatoes, graded and packed in sacks of 25 pounds or less, the country shipper may add 20 cents per cwt. to the maximum price established for each grade.

(vi) For white potatoes, shipped in bulk, graded but unsacked, the country shipper shall subtract from the maximum price established for each grade.

(vii) For white potatoes, shipped in bulk, ungraded and unsacked, the country shipper shall subtract 5 cents per cwt. from the maximum price established for U. S. No. 1 grade.

(viii) For Russet Burbank potatoes, fancy, large, hand-graded and individually wrapped in boxes of not over 60 pounds to the maximum price listed in Appendix A.

(ix) For Russet Burbank potatoes, and packed in 100 pound bags, the country shipper shall subtract 10 cents per cwt. from the maximum price established for U. S. No. 1 grade.

(x) For dry onions, U. S. Grade No. 1, 3 inches and larger in 50 pound sacks, the country shipper may add 20 cents per 50 pounds to the maximum price listed in Appendix A.

(xi) For white onions, U. S. Grade No. 1, 50 pound sacks, the country shipper shall subtract 15 cents per 50 pounds from the maximum price listed in Appendix A.

(xii) For dry onions, ungraded and packed in 100 pound bags, the country shipper shall subtract 40 cents per cwt. from the maximum price for U. S. No. 1 grade.

(xiii) For dry onions, ungraded and packed in 100 pound bags, the country shipper shall subtract 25 cents per cwt. from the maximum price for any sacked price 20 cents per cwt.

(xiv) For dry onions, ungraded and unsacked, the country shipper may add 30 cents per 50 pounds to the maximum price listed in Appendix A.

(xv) For white onions, graded and packed in 50 pound sacks, the country shipper may add 15 cents per 50 pounds to the maximum price listed in Appendix A.

(xvi) For white boiler and pickler onions, graded and packed in 50 pound sacks, the country shipper may add $1.00 per 50 pounds to the maximum price listed in Appendix A.

(xvii) For dry onions, ungraded and unsacked, the country shipper shall subtract 50 cents per 50 pounds from the maximum price listed in Appendix A.

(xix) If the purchaser furnishes bags, the country shipper shall subtract from any sacked price 25 cents per cwt.

(x) The intermediate seller shall then determine his "net cost" of his "largest single purchase" as defined above, of the food commodity being priced. "Net cost" means the amount he paid for the food commodity delivered to his customer receiving point less all discounts allowed him except the discount for prompt payment, in excess of charge or cost for local unloading or local trucking.

Separate maximum prices must be calculated for each variety and grade handled and sold by the intermediate seller.

**Example:** (a) A terminal market wholesaler wishes to set a maximum price for the week beginning Monday, November 16. During the preceding week he bought his largest quantity of U. S. Grade No. 1 white potatoes from a wholesaler in Maine. He received a car of these potatoes directly from a country shipping point on Friday, November 15. Looking at his cost, as set forth by the country shipper's invoice, he finds his "net cost" for these potatoes to be $1.68 per cwt., for the month of November or $8.00 for a car of 400 bags. To this "net cost," which represents his largest single purchase made during the week preceding November 16, he adds the actual freight of $1.26 per bag, thereby establishing the sum of $9.26. He divides the sum of his "net cost" and freight ($9.26) by the number of bags in the (400) single purchase made during the week preceding Monday of each week. Therefore, he takes the mark-up of 1.095 established for Class 2 wholesalers as shown above.

(b) A secondary wholesale receiver or jobber in the terminal market, who may extend credit but who customarily does not deliver, wishes to set a maximum price for the week beginning Monday, November 16. During the preceding week he bought his largest quantity of U. S. Grade No. 1 white potatoes from the wholesaler described in Example (a). He customarily buys his largest supplies of white potatoes from this wholesaler. He paid $1.68 per bag for these. This jobber customarily sells to retail stores. Therefore, he takes the mark-up of 1.095 established for Class 2 wholesalers as shown above, and multiplies this by his cost to arrive at his ceiling price of $2.34, established as indicated in column 3.

(c) A secondary wholesale receiver or jobber in this terminal market wishes to set a maximum price for the week beginning Monday, November 23. On Monday of each week, he buys 50 bags of potatoes from the wholesaler described in Example (a). He customarily buys his largest supplies of white potatoes from this wholesaler. He paid $1.68 per bag for these. This jobber customarily sells to retail stores. Therefore, he takes the mark-up of 1.095 established for Class 2 wholesalers as shown above, and multiplies this by his cost to arrive at his ceiling price of $1.75.

The table in § 1351.619 is amended and a new subparagraph c is added to paragraph 2 of § 1351.619; all to read as set forth below:

*Copies may be obtained from the Office of Price Administration.

Authority: §§ 1351.111 to 1351.1116, inclusive, issued under Public Laws 421 and 729, 77th Cong., E.O. 9250, 7 F.R. 7871.

§ 1351.1101 Applicability of this Maximum Price Regulation No. 238—(a) What commodities must be priced under this regulation. This regulation applies only to the food commodities listed in Appendix A (§ 1351.1115) of this regulation.

(b) To what types of sellers this regulation applies. This regulation applies only to sellers at retail (hereinafter referred to as retailers) which for the purpose of this regulation are divided into the following five classes:

(1) Class 1. Independent retail outlets with an annual gross sales volume of less than $20,000.

(2) Class 2. Independent retail outlets with an annual gross sales volume of $20,000 to $50,000.

(3) Class 3. Independent retail outlets with an annual gross sales volume of $50,000 to $250,000.

(4) Class 4. Chain and independent retail outlets with an annual gross sales volume of less than $250,000.

(5) Class 5. Chain and independent retail outlets with an annual gross sales volume of $250,000 or more.

(c) Purposes of this regulation. This regulation provides new maximum prices for the particular food commodities listed in Appendix A. These maximum prices are to be the only maximum prices for all sales at retail of such food commodities after the effective date of this regulation and are to be used instead of the maximum prices previously established by any other applicable price regulation or order issued by the Office of Price Administration.

(d) Prohibition. On and after November 12, 1942, the date this regulation takes effect, regardless of any contract or other obligation, no person is permitted to sell or deliver at retail any of the food commodities listed in Appendix A at a price which is higher than the maximum price fixed by this regulation, and no person is permitted to buy or receive any of these food commodities at a price higher than that maximum price. Lower prices than the maximum prices may be charged and paid.

§ 1351.1102 When a retailer must calculate maximum prices for the food commodities listed in Appendix A. A retailer must calculate maximum prices for the food commodities covered by this regulation once every week. This calculation shall be made on the day set forth opposite the week set forth for the food commodity in Appendix A and before any sales of such commodity are made on
that day. All maximum prices shall be calculated and stated in the unit of sale designated for the commodity in Appendix A (for example, maximum prices for potatoes will be calculated and stated for 5 lbs.)

§ 1351.1103 How a retailer calculates his maximum prices for the food commodities listed in Appendix A. The retailer shall calculate his maximum price for the designated unit of sale of each item (that is, for each grade and variety) of food commodities listed in Appendix A as follows:

(1) The retailer shall first find in §§ 1351.1106 and 1351.1107 of this regulation in what class of retailers he falls as set forth in paragraph (b) of § 1351-1101 hereof.

(2) The retailer will then find his net cost of the item he is pricing.

(i) "Net cost" shall in a case be based on the unit of sale of the retailer's largest single purchase during the preceding week of each grade and variety from his customary type of supplier. "Largest single purchase" means the purchase of the greatest quantity which was received by the retailer at his customary receiving point during the 7 days before the day of the week on which the maximum price must be calculated. (For example, if a retailer during the preceding week purchased 25 bags of 100 lbs. each of white round, U.S. No. 1 potatoes at 85.10 per bag, and also purchased 15 bags of the same grade and variety of potatoes at 82.25 per bag, then the purchase of 25 bags at 82.10 per bag is the "largest single purchase" of that grade and variety of potatoes made during that week, and the unit of purchase is the 100 lb. bag.)

(ii) Where the item being priced is purchased by the retailer from another than an intermediate seller such as, but not limited to, a grower, primary seller, country shipper, processor or the like, "net cost" in this regulation means the amount paid by the retailer for the unit of purchase of his "largest single purchase" delivered at his customary receiving point, less all discounts allowed to the retailer except the discount for prompt payment; however, no charge or cost for local trucking or local unloading shall be included.

(iii) Where the item being priced is purchased by the retailer from an intermediate seller such as, but not limited to, wholesalers, carlot receivers, branch warehouses or jobbers, but not another retailer, "net cost" in this regulation means the amount paid by the retailer for the unit of purchase of his "largest single purchase" as shown on the intermediate seller's invoice (sales ticket, cash receipt, or other written evidence of sale), less all discounts allowed to the retailer except the discount for prompt payment. When transportation charges, other freight charges, are paid by the retailer and are not shown on the intermediate seller's invoice, they may be added to the invoice in calculating "net cost.

(3) The retailer shall then multiply his "net cost" of the unit of purchase by the figure in Appendix A which applies to a retailer of his class for the food commodity being priced.

(4) The retailer shall then divide this amount by the number of designated units of sale in his unit of purchase. (For example, if his unit of purchase is a 100 lb. bag and the designated unit of sale is 5 lbs. by 20. The resulting figure will be the retailer's maximum price for the designated unit of sale for the item being priced and shall be his maximum price until such time as the "net cost" of his "largest single purchase" changes.

(b) Before making any sales of such item at this maximum price, the retailer must post his maximum price as set forth in § 1351.1105 of this regulation.

(c) In calculating the first maximum price after the effective date of this regulation, a retailer who made no purchases during the 7 days before the effective date of this regulation, shall use as his "largest single purchase" in determining "net cost" his most recent purchase.

§ 1351.1104 How a retailer calculates the sales price of amounts other than the designated units of sale. If a retailer sells an amount other than the designated unit of sale, he shall multiply his maximum price for the designated unit of sale by the number of times the designated unit of sale is divisible into the quantity being sold. (For example, if the retailer sells 15 lbs. of potatoes and has a maximum price of 15¢ for 5 lbs. of the designated unit of sale), he multiplies 15¢ by 3 and gets 45¢. If he sells one lb. he multiplies 15¢ by ½ and gets 3¢.

§ 1351.1105 How a retailer must post his maximum prices. A retailer must post his maximum prices for each grade and variety calculated under § 1351.1103 in clear and legible printing or writing at the opening of business on the day set forth opposite the food commodity in Appendix A, at the place in the store or in the office of the retailer for the food commodity is offered for sale, stating in addition to the maximum prices, the grade and variety of each item.

§ 1351.1106 How a retailer determines whether he is an independent outlet or a member of a chain. For the purposes of this regulation, a retailer shall be considered an independent outlet or a member of a chain as follows:

(a) A retail outlet shall be an independent outlet if it is not a unit of four or more retail outlets under one ownership.

(b) A retail outlet shall be a member of a chain if it is a part of four or more retail outlets under one ownership.

§ 1351.1107 How a retailer determines his annual gross volume. (a) For the purposes of this regulation, a retailer shall determine his annual gross sales volume, for the taxable year 1941, as shown on his records, by the number of weeks in operation during 1942, as shown on his records, by the number of weeks in operation during 1942 and multiplying the result by 52.

(b) If the retailer did not file a Federal income tax return for the taxable year 1941, which return covered a period of less than 52 weeks, then his annual gross sales volume shall be determined by dividing the total gross sales as shown in such tax return by the number of weeks covered by such return and multiplying the result by 52.

(c) If a retailer makes sales through more than one retail outlet or is a department store in which the sales of food commodities are made in a separate department, then each retail outlet or department shall be considered a separate retailer for the purpose of determining annual gross sales volume. If the retailer in such a case did not file a separate Federal income tax return for the taxable year 1941 for each outlet or department, then the annual gross sales volume for the particular outlet or department, as shown on the retailer's records for the same period covered by the retailer's Federal income tax return for the taxable year 1941, shall be the annual gross sales volume of that outlet or food department.

(d) If a retailer sells food commodities in a retail outlet in which the sales of food commodities are made by more than one retailer, and in which no more than one retailer sells the same food commodity, then each retailer shall use as his annual gross sales volume for the purpose of determining in what class of retailers he falls, the combined annual gross sales volume of all the retailers in that retail outlet.

(e) Fractions of cents.

§ 1351.1108 Fractions of cents. Any calculation of a maximum price for a designated unit of sale or for another sale as provided in § 1351.1104 which results in a fraction of a cent shall be rounded off to the nearest one-half cent and shall be increased to the nearest higher
cent if the fraction is one-half cent or more.

§ 1351.1109 Records. Every retailer of food commodities covered by this regulation shall keep all records upon which he calculated any maximum price, "net cost" or "largest single purchase" under this regulation, whether in effect or not, which records shall be kept for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

§ 1351.1110 Relationship between this regulation, Temporary Maximum Price Regulation No. 22 and the General Maximum Price Regulation. (a) This regulation supersedes the provisions of Temporary Maximum Price Regulation No. 22 and the provisions concerning the General Maximum Price Regulation No. 268, as amended, remain in effect as sales by retailers of food commodities covered by this regulation are concerned.

(b) The following provisions of the General Maximum Price Regulation, as well as any amendments thereto, shall continue to be applicable to every retailer selling the food commodities covered by this regulation:

1. Determination of maximum prices by sellers at retail operating more than one retail establishment (§ 1499.4a).

2. Transfers of business or stock in trade (§ 1499.5).

3. Sales for export (§ 1499.6).

6. Separate price must be computed for each grade and variety. The retailer's supplier must show the grade and variety on the invoice.

(b) (1) Example of how to compute new maximum retail price for potatoes and onions. A retailer must secure a new maximum price for round white potatoes to be used during the period November 12 (Thursday) to November 18 (Wednesday), inclusive. He customarily buys most of his potatoes from a jobber who delivers. His largest single purchase of white potatoes from his customary supplier during the seven days preceding November 12 (November 5 to November 11, inclusive) was 1500 pounds of white potatoes. This independent retailer had an annual volume of $13,000 in 1941.

Example:

<table>
<thead>
<tr>

<th>Independent retailer with annual volume of $20,000</th>

Therefore, he takes the applicable figure for potatoes as shown in the table for retailers in Class I (independent retailers with annual volume under $20,000), which in this case is 1.59, and multiplies it by the cost per hundred-pound bag. He next divides the number of pounds in the bag (which in this case is 100) by the designated number of pounds in the unit of sale, 5 lbs. for white potatoes, and this new figure (20) is then divided into the $3.6575 which he obtained by multiplying his cost by the multiplier for his class. The resulting figure of $18 (rounding off to the nearest cent) is his ceiling price for 5 pounds of white potatoes.

The price ($1.18) is the retailer's new ceiling on white potatoes in 5-lb. quantities—the designated unit of sale.

If this retailer wishes to sell 3-lb. quantities, he must reduce the ceiling price calculated above, as follows:
He takes the ceiling price calculated for the designated unit of sale. 8.18 for 5 pounds, multiplies it by the number of pounds in the unit he wishes to sell (which in this case is 3). This new figure is then divided by the number of pounds in the designated unit of sale (5), and the figure arrived at is his new ceiling price for white potatoes to be sold by him in units of 3 pounds.

8.18 x 3 = 8.54

8.54 x 3.16

(5.11 is maximum price)

(2) Additional instructions. (a) A maximum price must be calculated before making a sale of any grade of the food commodities included in this appendix after the effective date of this regulation.

(b) A new maximum price must be calculated on the first Thursday following a change, either up or down, in “net cost” as defined in this regulation. If “net cost” does not change, no new maximum price need be calculated.

(c) The maximum price shall be based on the amount paid for the purchase of the retailer’s largest single purchase from his customary type of supplier. “Largest single purchase” means the purchase of the greatest quantity which was made during the seven days before the day of week on which the maximum price must be calculated.

(d) Definitions. (1) “Potatoes” means all white potatoes used for human consumption not including seed potatoes.

(2) “Onions” means all dry onions used for human consumption produced in the calendar year 1942.

(3) “Turkeys” means all turkeys sold for human consumption except baby poults and turkeys sold only for breeding purposes.

Issued this 7th day of November 1942.

Administrator.

PART 1346—BUILDING MATERIALS

[MPR 261]

CONTRACT SALES OF FINISHING BUILDERS’ HARDWARE

In the judgment of the Price Administrator it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 to replace those provisions of Revised Price Schedule No. 40 and the General Price Regulation, affecting the distribution of finishing builders’ hardware by contract sales, with a separate regulation establishing uniform maximum prices for all contract sales of finishing builders’ hardware.

So far as practicable, the Price Administrator has consulted with representatives of the trade and industry and in the judgment of the Price Administrator, the maximum prices established by this Regulation are generally fair and equitable and in conformity with the general level of maximum prices prevailing during the period October 1, 1941 to March 31, 1942. A statement of the considerations involved in the issuance of this Regulation, together with a statement of the action already taken to make the Regulations effective, has been filed with the Division of the Federal Register.

Accordingly, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250 and in accordance with Revised Procedural Regulation No. 1 issued by the Office of Price Administration, Maximum Price Regulation No. 261 is hereby issued.

In an appropriate situation, the tax is measured by gross proceeds or units of sale, if, but only if; (a) such statute or ordinance requires the vendor to state the tax separately from the purchase price paid by the purchaser, consumer, or user, on the bill, sales check, or evidence of sale, at the time of the transaction; or (b) such statute or ordinance requires such tax to be separately paid by the purchaser, consumer, or user, with the bill, sales check, or evidence of sale, at the time of delivery.

§ 1351.1203a. Maximum prices which primary jobbers may charge for dry edible beans. (a) Any primary jobber (the one who purchases dry edible beans by receiving shipment of them from such warehouse for resale customarily by wholesaler) shall calculate his maximum price for any item of dry edible beans by adding a 2% markup to his net cost for the item. PART 1392—PHONOGRAPH RECORDS AND RECORD SCRAP

[MPR 269]

NEW PHONOGRAPH RECORDS AND RECORD SCRAP

In the judgment of the Price Administrator, the prices of new phonograph records and of record scrap are threatening to rise to an extent, and in a manner, inconsistent with the purposes of the Emergency Price Control Act of 1942. In the judgment of the Price Administrator, the maximum prices established by this Maximum Price Regulation No. 263 are necessary to check inflation and to effectuate the purposes of the Act.

In the judgment of the Price Administrator, the maximum prices established by this Maximum Price Regulation No. 263 are necessary to check inflation and to effectuate the purposes of the Act.

A statement of the considerations involved in the issuance of this Maximum Price Regulation No. 263 has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with Revised Procedural Regulation No. 1,* issued by the Office of Price Administration, Maximum Price Regulation No. 263 is hereby issued.

$1392.51 Prohibition against sales and purchases of new records in excess of maximum price. On and after November 12, 1942, no person shall sell or purchase any new phonograph record at a price higher than the maximum price.

(a) Maximum prices for new records. The maximum price for a new record shall not be set forth in this paragraph (a), subject to the controls and allowances prescribed in § 1392.54:

(1) For a record in the manufacturer's catalogue during March, 1942, the highest price therein set forth, less any portion thereof attributed to federal excise tax.

(2) For a record (except a limited edition) not in the manufacturer's catalogue in March, 1942, the highest price (less any portion thereof attributed to federal excise tax) regularly established in the manufacturer's catalogue in effect during March, 1942, for a record of the same label, series, size and classification.

For the purposes of this subparagraph (2), a label shall not cease to be the same label if shortage or prohibitive cost of ink of a particular color requires the printing of the label with ink of a different color.

(3) For a record issued in a limited edition, a price approved by the Office of Price Administration, which approval shall be obtained before any such record is sold or offered for sale:

Provided, That sales of records for which no maximum price is authorized by this Maximum Price Regulation No. 263 shall be subject to the General Maximum Price Regulation.

(b) Allowances for record scrap. If the seller of new records requires the buyer to furnish record scrap in order to purchase new records, he shall make an allowance to the purchaser for such record scrap at the following rates:

(1) In the case of a sale by a dealer, not less than:

(i) 2 cents for each 10-inch solid-stock scrap record;
(ii) 3 cents for each 12-inch solid-stock scrap record;

(iii) 1 cent for each 10-inch laminated scrap record;

(ii) 4 cents for each 12-inch scrap record;

(iii) 6 cents per pound for record scrap in bulk.

The foregoing allowances when made by a distributor or manufacturer may be increased by an amount not exceeding the sum of all transportation charges actually incurred in forwarding the scrap from a dealer to a manufacturer or from a distributor to a manufacturer.

$1392.52 Prohibition against sales and purchases of record scrap in excess of maximum price. On and after November 12, 1942, no person shall, in the regular course of trade, sell or purchase...
record scrap at a price higher than 6 cents per pound, f. o. b. point of shipment.

§ 1392.54 Discounts and allowances. (a) Every manufacturer and every distributor shall endeavor to establish discounts for records and allowances for scrap, and shall make the reductions of any discount, premium and allowances for quantity purchases not less favorable to the purchaser than those regularly granted by him during March 1942.

(b) Every dealer selling new records shall continue to grant discounts and allowances for quantity purchases not less favorable to the purchaser than those regularly granted by him during March 1942.

§ 1392.55 Taxes—(a) Taxes in effect during March, 1942. If such taxes are added, the seller shall state and collect them as an item separate from the price of the records.

(b) Taxes which were first imposed after March, 1942. Any federal, state or local taxes or tax increases on sales of records, which were first imposed after March, 1942, may be added to the maximum prices hereunder, but shall not be added directly or indirectly in connection with any sale or delivery of records or record scrap, alone or in conjunction with any other commodity, by way of any service, transportation, or other charge, or by the reduction of any discount, premium or privilege, or by tying agreement, trade understanding, or otherwise.

§ 1392.56 Evacuation. The price limitations set forth in this Maximum Price Regulation shall not be applied directly or indirectly in connection with any sale or delivery of records or record scrap, alone or in conjunction with any other commodity, by way of any service, transportation, or other charge, or by the reduction of any discount, premium or privilege, or by tying agreement, trade understanding, or otherwise.

§ 1429.1 Prohibition against selling poultry and eggs at prices above the maximum. On and after November 9, 1942, regardless of any contract, agreement, or other obligation, no person shall sell or deliver poultry or eggs specified in this regulation, and no person in the course of trade or business shall buy or receive such poultry or eggs at a price higher than the maximum prices permitted by this Maximum Price Regulation No. 269; and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of poultr...
try or eggs to a purchaser, if, prior to November 9, 1942, such poultry or eggs have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1429.2 Maximum prices for live and dressed turkeys listed in Appendix A. [1429.2]

(a) The maximum prices for all sales and deliveries of the live or dressed turkeys listed in Appendix A, § 1429.19 by all persons selling to the "first wholesaler" at any particular place in the United States shall be calculated as follows:

The "first wholesaler" means the wholesaler or any other distributor making the first purchase at the particular place for which the price is to be determined, including but not limited to wholesalers, jobbers, processors, packers, processors or packer-wholesalers and other distributors who purchase for resale with or without processing. It shall also include commercial, governmental, and institutional users, except when making primarily for purposes of poultry and eggs from "first wholesalers" and "secondary wholesalers" as defined in § 1429.3 (a).

(1) The seller or buyer must first find his basing point city. Fire basing point cities are listed in Appendix A. The seller will select as his basing point city that one of the five cities which is closest freightwise to the place where the seller intends to sell his turkeys. A basing point city is "closest freightwise" when the railroad freight rate from the place of sale to that city is lower than that to any of the other basing point cities.

Example. City X is 100 miles nearer to New York City than it is to Los Angeles. However, the freight rate to Los Angeles is $1 per pound lower than it is to New York. Los Angeles is the basing point city because it is closer freightwise.

(2) If the seller's closest basing point city is the City of New York, New York, and his place of sale is located at any point east, northeast, or southeast of the City of Chicago, Illinois, the seller's maximum price for each turkey item delivered to that city is calculated as follows:

(i) First, the seller or buyer shall subtract the railroad freight rate from the City of Chicago, Illinois, to the place of sale. The total freight rate from the City of Chicago, Illinois, to the place of sale shall be determined in accordance with § 1429.4 Less than maximum prices.

(ii) "A secondary wholesaler" is any person who purchases any of the live or dressed turkeys listed in Appendix A, § 1429.19 from a "first wholesaler" for the purpose of resale other than at retail.

Example. The XYZ Co. is a poultry wholesale house in Chicago, Illinois. It purchased 25 boxes of dressed turkeys from the ABC Co., another wholesaler, and sold these 25 boxes to a retail store. Later, it purchased a carload of dressed turkeys purchased from the ABC Co., the XYZ Co. is a "secondary wholesaler".

(3) In all cases other than the shipment of live turkeys the seller shall com-

The provisions of this Maximum Price Regulation No. 269 shall be applicable only to the 48 states of the United States and to the District of Columbia.

§ 1429.10 Transfers of business or stock in trade. If the business, assets, or stock in trade of any seller are sold or otherwise transferred on or after November 8, 1942, and the transferee carries on the business, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no transfer had taken place, and his obligation to keep records sufficient to verify those prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee, all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions contained in this regulation.

§ 1429.11 Petitions for amendment. Persons seeking a modification of this Maximum Price Regulation No. 269 may file a petition therefor in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1429.12 Federal and state taxes. Any tax upon, or incident to, the sale or delivery of poultry or egg items imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity and in preparing the records of such seller with respect thereto:

(a) As to a tax in effect prior to the effective date of this Maximum Price Regulation No. 269 may be charged, demanded, paid, or offered.

§ 1429.5 Customary discounts. Every seller shall continue his discounts, allowances, and other price differentials customarily given in connection with the sale and delivery of the poultry and egg items covered by this Maximum Price Regulation No. 269.

§ 1429.7 Exempt sales. The following sales are exempt from the provisions of this Maximum Price Regulation No. 269, in addition to those exempted by the application of certain provisions of the General Maximum Price Regulation as provided in § 1429.17 hereof:

(a) All sales at retail.

(b) All sales of live turkey breeding stock when sold for breeding purposes.

(c) All sales of baby turkey poult when sold for purposes other than for present human consumption.

§ 1429.8 Applicability. The provisions of this Maximum Price Regulation No. 269 supersede the provisions of Temporary Maximum Price Regulation No. 22 with respect to sales and deliveries of poultry and egg items for which maximum prices are established by this regulation.

§ 1429.9 Geographical applicability. The provisions of this Maximum Price Regulation No. 269 shall be applicable only to the 48 states of the United States and to the District of Columbia.

In view of the fact that the Secretary of Agriculture of the United States on November 6, 1942, determined and proclaimed, pursuant to the provisions of section 345 of the Act of Congress known as the Agricultural Adjustment Act of 1938, that the total supply of cotton for the marketing year beginning August 1, 1942, exceeds by more than 7 percent the normal supply thereof for such marketing year, a referendum, by secret ballot, of farmers who were engaged in the production of cotton in 1942, will be held on December 12, 1942, pursuant to section 347 of said Act and in accordance with the referendum regulations prescribed by the Secretary of Agriculture, to determine whether they favor or oppose cotton marketing quotas on the 1943 cotton crop.

If two-thirds or more of the cotton farmers voting in the referendum favor cotton marketing quotas, the cotton marketing quota system established pursuant to the provisions of said Act will be in effect for the 1943 cotton crop. If more than one-third of the cotton farmers voting in the referendum oppose the cotton marketing quotas, the quotas will not be in effect in 1943.

Eligibility to Vote

1. Farmers who were engaged in the production of cotton in 1942 as owner-operator, cash tenant, standing-rent or fixed-rent tenant, or landlord of a share tenant, or as share tenant or sharecropper are eligible to vote (except as provided in paragraph 2 below).

2. Since the Act provides that marketing quotas are not applicable to cotton the staple of which is 1 1/2 inches or more in length, a person who was engaged in the production of such cotton in 1942 shall not be eligible to vote unless he was also engaged in the production of cotton the staple of which was less than 1 1/2 inches in length.

3. No cotton farmer (whether an individual, partnership, corporation, firm, association, or other legal entity) shall be entitled to more than one vote in the referendum, even though he may have been engaged in 1942 in the production of cotton on two or more farms or in two or more counties, or States.

4. In case several persons, such as husband, wife, and children, participated in the production of cotton in 1942, under the same rental or cropping agreement or lease, only the person or persons who signed or entered into the rental or cropping agreement or lease shall be entitled to vote.

5. In the event two or more persons engaged in producing cotton in 1942 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person is entitled to vote.

6. There shall be no voting by proxy, or agent, or in any manner except the eligible voter personally depositing his ballot marked by him in the ballot box, but a duly authorized officer of a corporation, firm, association, or other legal entity, or duly authorized member of a partnership, may cast its vote. There shall be no voting by mail except that any eligible farmer who will not be present in the county in which he was engaged in the production of cotton in 1942 on the day of the referendum may obtain a ballot in the county in which he is located and cast his ballot by mailing it to the county office of the county in which he was a cotton producer in 1942 in time to reach that office before the polls are closed.

DEPARTMENT OF LABOR

Wage and Hour Division.

HANDLING OF EGGS IN CERTAIN STATES OPPORTUNITY TO PETITION FOR REVIEW OF DETERMINATION

Notice of opportunity to petition for review of the determination denying the application for exemption of the procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota from the maximum hours provisions of the Fair Labor Standards Act of 1938 as an industry of a seasonal nature.

Whereas, an application was filed by sundry parties for exemption of the procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota from the maximum hours provisions of the Fair Labor Standards Act of 1938 pursuant to section 7 (b) (3) of the Act and Part 526, as amended, of the regulations issued thereunder; and

Whereas, the Administrator of the Wage and Hour Division gave notice of a public hearing to be held at Hotel Nicollet, Minneapolis, Minnesota, on February 10, 1942 before Mr. Marshall S. Spaulding, a duly authorized representative of the Administrator, who was authorized to take testimony, hear argument, and determine:

Whether the procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota is not an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Act and Part 526 as amended of the regulations issued thereunder and, if so the appropriate limits of that branch of the industry; and

Whereas, following such hearing the said representative of the Administrator duly made his findings of fact and determined as follows:

Although the comprehensive data are not available, it appears that many establishments engaged in procuring, hauling, handling, cooling, candling, grading, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota receive for packing 50 percent or more of their total annual receipts of eggs during a period of 14 weeks each year.

For the country as a whole, establishments engaged in the procuring, handling, cooling, candling, grading, packing, and shipping of eggs receive less than 50 percent of their total annual receipts of eggs during the peak 14 weeks of the year.

3. Egg handling establishments, wherever located, carry on the same or similar operations and compete for the same markets in various parts of the country.

4. A large proportion of the establishments which engage in these egg handling operations also handle poultry or dairy products and in other operations. Any one or more of these activities are carried on substantially throughout the year; the peak activity in egg handling occurring in the spring and the peak activity in the handling of poultry occurring in the summer and fall. With very few exceptions, the same employees are used to carry on all these operations.

5. The procuring, handling, cooling, candling, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota does not constitute a separable branch of the egg handling industry within the meaning of section 7 (b) (3) of the Fair Labor Standards Act and Part 526 of the regulations issued thereunder.

6. The procuring, handling, cooling, candling, packing, and shipping of eggs in the States of Iowa, Minnesota, North Dakota, and South Dakota is not an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Act and Part 526 of the regulations.
The application is denied; and
Whereas, said findings and determination were duly filed with the Administrator on October 29, 1942, as the Notice of the Wage and Hour Division, 165 West 46th Street, New York, New York, and are available for examination by all interested parties.
Now, therefore, pursuant to the provisions of § 526.7 of the aforesaid regulations notice is hereby given that any person aggrieved by the said determination may within fifteen days after the date this notice appears in the Federal Register file a petition with the Administrator at the National Office of the Wage and Hour Division requesting that he review the action of the said representative upon the record of the hearing. Such petition shall set forth the grounds upon which the petition for review is based.
Signed at New York, New York, this 4th day of November, 1942.

L. MÉTCALEFE WALLING, 
Administrator.

**OFFICE OF PRICE ADMINISTRATION.**

**Suspension Order 154**

**WILLIAM M. BLODGETT**

ORDER RESTRICTING TRANSACTIONS

WILLIAM M. BLODGETT, Pitwilliam, New Hampshire, hereinafter called respondent, was duly served with a notice of specific charges. Violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice, a hearing upon the charges was held on September 25, 1942, in Concord, New Hampshire. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator, it is hereby determined that:

(a) Respondent is a dealer in gasoline within the meaning of Ration Order No. 5A, Gasoline Rationing Regulations.

(b) Respondent has violated § 1394.1503 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 17, 1942, and on at least one other occasion between July 22 and August 17, 1942, in Pitwilliam, New Hampshire, respondent transferred five gallons of gasoline to a private consumer and into the fuel tank of a private automobile without requiring the presentation of a gasoline ration coupon book and on which indication respondent received in exchange for the transfer a gasoline ration coupon Class S.

Because of the great scarcity and critical importance of gasoline in the New Hampshire area, violations of Ration Order No. 5A, Gasoline Rationing Regulations, by respondent have necessarily resulted in the diversion of gasoline from military and essential civilian uses into nonessential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator that further violations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(c) During the period in which this Suspension Order shall be in effect, (1) Respondent shall not sell, transfer or deliver any gasoline to any person.

(2) Respondent shall not accept any deliveries or transfer any gasoline in any manner directly or indirectly receive from any source any gasoline.

(3) No person, firm or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to respondent.

(d) Any terms used in this Suspension Order No. 154 that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(e) This Suspension Order shall become effective 12:01 A. M. November 9, 1942, and unless sooner terminated, shall expire 12:01 A. M. December 9, 1942.

Issued this 6th day of November, 1942.

PAUL M. O'LEARY,

Deputy Administrator,

In Charge of Rationing.
ORDER REQUIRING PAYMENT OF DAMAGES

The respondent was duly served with a notice of specific charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing on the charges was held on October 2, 1942, in Newark, New Jersey. There appeared a representative of the Office of Price Administration. Respondent did not appear either in person or by attorney. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been considered by the Deputy Administrator in Charge of Rationing, it is hereby determined that:

(a) Respondent has violated § 1394-1102 of Regulation No. 5A, Gasoline Rationing Regulations, in that on August 17, 1942, in Demarest, New Jersey, respondent purchased and received the transfer of six A-1 gasoline ration coupons and on the 18th and 21st days of August, 1942, in Cresskill, New Jersey, respondent purchased and received delivery of gasoline and gave in exchange therefor certain of the gasoline ration coupons so purchased by him. Because of the great scarcity and critical importance of gasoline in the New Jersey area, violations of Ration Order No. 5A, Gasoline Rationing Regulations, by respondent have resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator in Charge of Rationing that further violations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(b) That the gasoline ration heretofore issued to respondent by the Office of Price Administration is hereby revoked. (c) Respondent shall forthwith surrender for cancellation to the War Price and Rationing Board which issued the same, all gasoline ration coupon books and coupons in his possession.

(d) Any terms used in this Order that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

Issued and effective this 6th day of November, 1942.

PAUL M. O'LEARY,
Deputy Administrator,
in Charge of Rationing.

WAR MANPOWER COMMISSION.

[Directive XIV]

EMPLOYMENT STABILIZATION ON DAIRY, LIVESTOCK, AND POULTRY FARMS

By virtue of the authority vested in me as Chairman of the War Manpower Commission by Executive Order No. 9139, establishing the War Manpower Commission, and having found after consultation with the members of the War Manpower Commission that production and marketing of dairy products essential to the war effort is being seriously impaired by labor shortages attributable in large part to migration of qualified farm workers to other industries, to induction and voluntary enlistment of such workers in the armed forces, and to ineffective utilization of such workers, that a coordinated program, involving employment and wage stabilization measures and measures for the protection of existing herds and flocks, is necessary to assure the fulfillment of agricultural production requirements for our armed forces, our Lease-Lend Program and necessary civilian consumption; that the Secretary of Agriculture will take all necessary or appropriate steps, in cooperation with the War Production Board, to safeguard herds of dairy cattle and flocks of poultry on farms through sale for slaughter, and will make appropriate investigations and take appropriate action to effect required adjustment in the hours of work of dairy and poultry farm workers, and having further found that the measures herein referred to are necessary or appropriate, it is hereby directed:

I. The Director of Selective Service shall take all lawful and proper steps, through appropriate instructions to local and appeal boards of the Selective Service System and otherwise, to the end that:

(a) All persons subject to training and service under the Selective Training and Service Act of 1940 as amended, while engaged as dairy, livestock or poultry farm workers or operators, as defined in paragraph V hereof, are deferred under that Act on grounds of dependency, as classified in Class III-B; (b) Each person subject to training and service under the Selective Training and Service Act of 1940, as amended, while engaged as dairy, livestock, and poultry farm workers and operators who are not deferred under that Act on grounds of dependency or on other than occupational grounds, and for whom replacements would be required and are not available, as determined in the light of the factors set forth in paragraph VII of this directive, are deferred on occupational grounds;

(b) Each person subject to training and service under the Selective Training and Service Act of 1940, as amended, who is not a dairy, livestock or poultry farm worker, who is skilled in dairy, livestock or poultry farm work and who is not deferrable on occupational grounds, is, as his order number is called or as his classification is reviewed, referred to the United States Employment Service for placement on an essential, dairy, livestock or poultry farm, in accordance with such provisions of local Selective Service Board Release No. 149 as are consistent herewith;

(c) Each farm owner, operator or tenant subject to training and service under the Selective Training and Service Act of 1940, as amended, who is skilled in dairy, livestock or poultry farm work and who is not deferrable on occupational or other grounds, is, as his order number is called or as his classification is reviewed, referred to such agency of the Department of Agriculture as the Secretary of Agriculture may designate, for placement on an essential dairy, livestock or poultry farm, in accordance with such provisions of local Selective Service Board Release No. 149 as are consistent herewith.

II. The Department of Agriculture shall take such action as may be necessary or appropriate to:

(a) Cooperate with the United States Employment Service in the War Manpower Commission, in its development and conduct of vigorous campaigns to recruit dairy, livestock, and poultry farm workers and operators, and to place them on farms in which a surplus of such workers or operators exists, for placement on essential dairy, livestock, and poultry farms requiring such workers or operators, and upon request of the Farm Placement Service of the United States Employment Service, make available to it qualified personnel of the Department of Agriculture on a part-time basis to assist in such recruitment and placement campaigns, and particularly to assist in the recruitment and placement of dairy, livestock, and poultry farm operators;

(b) Provide transportation for individuals to dairy, livestock, and poultry farms on which they have agreed to work and to which they have been referred by the United States Employment Service;

(c) Develop training courses and establish training centers, in cooperation with the United States Office of Education in the Federal Security Agency, for dairy, livestock, and poultry farm workers and operators;

(d) Provide reasonable subsistence for individuals transported or trained pursuant to subparagraph (a) above, during any period of this paragraph, during their transportation and training periods;

(e) Furnish such detailed information and standards to the Selective Service System and the United States Employment Service as they may require under this directive, in order to classify dairy, livestock, and poultry farm workers and operators for purposes of the Selective Training and Service Act, as amended, and effectively to carry out recruitment and placement campaigns with respect to such workers and operators;

(f) Conduct an unemployment program to encourage dairy, livestock, and poultry farm operators to secure replacements of required workers through the United States Employment Service, and to accept qualified individuals referred to them by the United States Employment Service;

(g) Develop and promote active programs to encourage dairy, livestock, and poultry farmers and operators, and the personnel of the Department of Agriculture, to utilize dairy, livestock, and poultry farms, and for providing additional animal units to essential small farms on which dairy, live-
stock or poultry farm operators or workers are not fully employed; 

(b) Develop and promote an active program of training for farm workers, and tenants who are skilled in dairy, poultry or livestock production but whose farms do not constitute dairy, livestock or poultry farms as defined in paragraph V (c) of this directive, to bring their farms within the purview of this directive by assisting such farm owners, operators, and tenants to secure the necessary equipment, facilities, or land.

III. The United States Office of Education shall cooperate with the Department of Agriculture and the United States Employment Service in the training of dairy, livestock, and poultry farm workers and tenants as provided in paragraph II (c) of this directive, and in providing instructors for that purpose.

IV. In order to effectuate the purposes of this directive, it is essential that:

(a) The Army and the Navy refrain from recruiting or accepting for voluntary enlistment any man who does not meet the qualifications prescribed by the selective service local board that he is not in Class II-A, II-B or III-B or is not entitled to such classification by reason of being an essential dairy, livestock or poultry farm worker or operator; and

(b) The Secretary of Agriculture take such action with respect to wage rates on dairy, livestock, and poultry farms as is necessary to assist such farms in securing and maintaining an adequate supply of dairy, livestock, and poultry workers; and

(i) Take all necessary or appropriate steps in cooperation with such other departments of the Government as he deems proper, to safeguard herds of dairy cattle and calves from undue depletion through sale for slaughter;

(ii) The production of dairy, livestock or poultry farm products as an incident to ordinary farming operations.

The term "farm" shall include all members of the family or household of a dairy, livestock or poultry farm worker or operator, provided such members otherwise are included within the above definition. The term "farm" means an individual (other than a dairy, livestock or poultry operator) who, on or after the date of this directive, performed services on a dairy, livestock or poultry farm on a year-around basis and who devoted substantially full-time services to either or both:

(i) The care of dairy cows, livestock, and poultry on such a farm;

(ii) The production of dairy, livestock or poultry products as an incident to ordinary farming operations.

In determining whether a replacement for a particular dairy, livestock or poultry farm worker or operator would be required and is not available, consideration shall be given to the following factors, as determined by the Secretary of Agriculture for the purposes of this directive, or for the purposes of any other provision of this directive, consideration shall be given to the following factors, as determined in each case by the United States Employment Service:

(a) The labor required for the farm, as evidenced by conversion tables prepared by the United States Department of Agriculture indicating the number of animal units a single person is reasonably able to handle when (1) the required feed for dairy cows, livestock, and poultry is produced on the farm, and (2) the required feed for livestock or poultry is produced on the farm;

(b) The workers available on the farm, and for this purpose each person devoting substantially full-time service to dairy, livestock, or poultry production on the farm shall be considered an available worker, with suitable allowance for reduced physical capacity, if any, of children, women, and handicapped persons;

(c) The importance and skill of the particular individual under consideration and the possibility of recruiting a replacement of sufficient skill, experi-
ence, and training to carry on the work
of such individual without impairment
of production.

VIII. Each department and agency of
the Federal Government is hereby di-
rected to utilize its facilities and serv-
ces, and take all lawful and appropriate
steps under authority vested in it by law
to achieve or promote compliance with
the provisions of this directive. Each
procurement agency of the Federal Gov-
ernment is hereby directed to instruct
its contractors to refrain from hiring or
soliciting for the purpose of hiring, any
dairy, livestock or poultry farm worker
or operator for other than dairy, live-
stock or poultry farm work, unless such
worker or operator has been referred to
him by the United States Employment
Service.

"Directive to Promote Employment Sta-
bilization on Dairy, Livestock, and Poul-
try Farms."
