TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Administration

[O-65]

PART 965—MILK IN THE CINCINNATI, OHIO, MARKETING AREA

ORDER REGULATING THE HANDLING OF MILK IN THE CINCINNATI, OHIO, MARKETING AREA

It is provided in Public Act No. 10, 73d Congress (May 12, 1933), as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), that the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") shall, subject to the provisions of the act, issue orders regulating such handling of certain agricultural commodities (including milk and its products) as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodities.

- Sec.
- 965.1 Findings.
 - 965.2 Order relative to handling.
 - 965.3 Definitions.
 - 965.4 Market administrator.
 - 965.5 Reports of handlers.
 - 965.6 Classification of milk.
 - 965.7 Class prices.
 - 965.8 Computation and announcement of uniform prices.
 - 965.9 Payment for milk.
 - 965.10 Payments from producer-settlement fund.
 - 965.11 Expenses of administration.
 - 965.12 Marketing services.
 - 965.13 Effective time, suspension, or termination of order.

AUTHORITY: §§ 965.1 to 965.13 inclusive, issued under 48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U.S.C. 601 et seq.

§ 965.1 *Findings and determinations*—(a) *Findings upon the basis of hearing record.* Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR 900.1 to 900.17; 6 F.R. 6570; 7 F.R. 3350), a public hearing was held upon

a proposed marketing agreement and order regulating the handling of milk in the Cincinnati, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The issuance of this order and all of the terms and conditions hereof will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the Cincinnati, Ohio, marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to sections 2 and 8 (e) of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices set forth in this order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) All milk sold or disposed of by handlers under this order is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk or its products; and

(4) This order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* (1) It is hereby found and proclaimed that, in connection with the execution of a marketing agreement and the issuance of an order regulating the handling of milk in the Cincinnati, Ohio, marketing area, the purchasing power of such milk during the pre-war period, August 1909–July 1914, cannot be satisfactorily determined from available statistics of the Department of Agriculture, but that the purchasing power of such milk can be satisfactorily determined from available statistics of the Department of Agriculture for the post-war period, August 1919–July 1929; and the post-war period, August 1919–July 1929, is the base period to be used in connection with any such marketing agreement and this order in determining the purchasing power of such milk.

(2) It is hereby found that the necessary expenses of the market administrator, during any 12-month period of time, for the maintenance and functioning of such agency, will amount to approximately \$45,000; and the prorata share of such expenses to be paid by each handler is hereby approved in the maximum amount of 2 cents per hundredweight on all milk received from producers, or an association of producers, or produced by them during each delivery period.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order) of at least 50 percent of the volume of milk covered by this order, which is marketed within the Cincinnati, Ohio, marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the Cincinnati, Ohio, marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the Cincinnati, Ohio, marketing area; and

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of the approval of the order and who, during the determined representative period, were engaged in the production of milk for sale in the said marketing area.

§ 965.2 *Order relative to handling.* From and after the effective date hereof, the handling of milk in the Cincinnati, Ohio, marketing area shall be in con-

formity to and in compliance with the terms and conditions of this order.

§ 965.3 *Definitions—(a) Terms.* The following terms shall have the following meanings:

(1) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the powers and to perform the duties of the Secretary of Agriculture of the United States.

(2) "Cincinnati, Ohio, marketing area," hereinafter called the "marketing area," means the city of Cincinnati, Ohio, and the territory included within the boundary lines of Hamilton County, Ohio.

(3) "Person" means any individual, partnership, corporation, association, or any other business unit.

(4) "Producer" means any person who produces milk which is received at a plant from which, under approval of the proper health authorities, milk is disposed of as milk in the marketing area, or milk handled by a cooperative association under the conditions set forth in (5) of this paragraph: *Provided*, That if such producer did not regularly sell milk on his own distribution routes or through other persons during a period of 30 days next preceding the effective date hereof for consumption in the marketing area, but begins the regular delivery of milk to a handler, he shall be known as a "new producer" for a period beginning with the date of his first regular delivery of milk and continuing until the end of 2 full calendar months of regular delivery following the first day of the next succeeding calendar month, after which he shall be known as a producer.

(5) "Handler" means any person, irrespective of whether such person is a producer or a cooperative association, who engages in such handling of milk, all or a portion of which is disposed of as milk in the marketing area, as is in the current of interstate commerce, or which directly burdens, obstructs, or affects interstate commerce in milk and its products. "Such handling of milk" as used in this definition, shall include the milk of any producer or new producer, whose milk has been received previously at a plant described in (4) of this paragraph, which milk has been caused to be delivered by a cooperative association, during the delivery periods of April, May, and June to a plant from which no milk is disposed of in the marketing area, if payment therefor has been collected by such cooperative association; and such milk shall be deemed to have been received from producers by such cooperative association. "Handler" shall not include any person from whom emergency milk is received or any person who handles only milk of his own production.

(6) "Delivery period" means any calendar month, except that the first delivery period shall mean the period from the effective date hereof and until the end of the calendar month in which such effective date occurs.

(7) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246 (1937), 7 U.S.C. 1940 ed. 601 et seq.), as amended.

(8) "Market administrator" means the agency which is described in § 965.4 for the administration hereof.

(9) "Emergency milk" means milk or skim milk received by a handler from sources other than producers or new producers under a permit to receive such milk which has been issued to him by the proper health authorities: *Provided*, That the total quantity of milk and skim milk so received shall be in excess of the total quantity of milk diverted on the same day by a cooperative association under the conditions set forth in (5) of this paragraph.

§ 965.4 *Market administrator*—(a) *Designation*. The agency for the administration hereof shall be a market administrator, who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers*. The market administrator shall:

(1) Administer the terms and provisions hereof; and

(2) Report to the Secretary complaints of violations of the provisions hereof.

(c) *Duties*. The market administrator, in addition to the duties hereinafter described, shall:

(1) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(2) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(3) Pay, out of the funds provided by § 965.11, the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(4) Keep such books and records as will clearly reflect the transactions provided for herein, and surrender the same to his successor or to such other person as the Secretary may designate;

(5) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 2 days after the date upon which he is required to perform such acts, has not made reports pursuant to § 965.5 or has not made payments pursuant to §§ 965.9 and 965.11;

(6) Promptly verify the information contained in the reports submitted by handlers; and

(7) Furnish such information and verified reports as the Secretary may request, and submit his books and records

to examination by the Secretary at any and all times.

§ 965.5 *Reports*—(a) *Reports of handlers to market administrator*. Each handler, under his own signature or under that of a person certified by such handler to the market administrator as being authorized to sign the reports required by this section, shall report to the market administrator, in the detail and on forms prescribed by him, as follows:

(1) On or before the 10th day after the end of each delivery period, each handler who receives milk from producers or new producers shall report with respect to all milk, skim milk, and cream received by him during the delivery period:

(i) The receipts of milk at each plant from producers, from new producers, from his own production, and from other handlers;

(ii) The receipts of emergency milk, the date or dates upon which such milk was received during the delivery period, the plant from which such milk was shipped, the price per hundredweight paid or to be paid for such milk, and the utilization of such milk;

(iii) The milk, skim milk, and cream, with its butterfat content, received from any other source;

(iv) The utilization of all receipts of milk, skim milk, and cream during the delivery period;

(v) The name and address of each new producer; and

(vi) His producer pay roll, which shall show for each producer and new producer the total receipts of milk with the average butterfat test thereof, the amount of the advance payment to such producer or new producer made pursuant to § 965.9 (a), and the deductions and charges made by the handler;

(2) On or before the 5th day after the end of each delivery period, each handler who receives milk from producers or new producers shall report, with respect to Class I milk disposed of outside the marketing area during the delivery period, the amount and the utilization of such milk, the butterfat test thereof, the date and place of such sale or disposition, and the plant from which such milk was shipped;

(3) On or before the day each handler who receives milk from producers or new producers receives emergency milk, he shall report his intention to receive such emergency milk;

(4) On or before the 10th day after each delivery period, a cooperative association causing delivery of milk under the conditions set forth in § 965.3 (a) (5) shall report the amount of such milk, the date or dates of such delivery during the delivery period, the plant to which such milk was delivered, and the utilization of such milk;

(5) Within 10 days after the market administrator's request each handler who receives milk from producers or new producers shall report, with respect to each of his producers or new producers for whom such information is not in the files of the market administrator and with respect to a period or periods of time designated by the market adminis-

trator, the name and address, the total pounds of milk received, the average butterfat test of milk received, and the number of days upon which milk was received; and

(6) Each handler who receives no milk from producers or new producers shall make reports to the market administrator at such time and in such manner as the market administrator may request.

(b) *Verification of handler reports*. Each handler shall make available to the market administrator or to his agent, or to such other person as the Secretary may designate, those records which are necessary for the verification of the information contained in the reports submitted pursuant to this section, and those facilities which are necessary for the sampling, weighing, and testing of the milk of each producer and new producer.

(c) *Reports of market administrator to cooperative associations*. On or before the 13th day after the end of each delivery period, the market administrator shall report to each cooperative association the amount and class utilization of milk caused to be delivered by such association, either directly or from producers or new producers who have authorized such association to receive payments for them under § 965.10 (b), to each handler to whom the cooperative sells milk. For the purpose of this report the milk so received shall be prorated to each class in the proportions that the total receipts of milk from producers and new producers by such handler were used in each class.

§ 965.6 *Classification of milk*—(a) *Basis of classification*. Milk received by each handler, including milk produced by him, shall be classified by the market administrator in the classes set forth in (b) of this section, subject to the provisions of (c), (d), and (e) of this section.

(b) *Classes of utilization*. The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk disposed of in the form of milk and milk drinks, whether plain or flavored, and all milk not accounted for as Class II milk or Class III milk.

(2) Class II milk shall be all milk used to produce cream (for consumption as cream), creamed buttermilk, and creamed cottage cheese.

(3) Class III milk shall be all milk accounted for (i) as actual plant shrinkage but not to exceed 2½ percent of total receipts of milk from producers and new producers (including the handler's own production) and (ii) as used to produce a milk product other than those specified in Class II milk.

(c) *Interhandler and nonhandler sales*. Milk or skim milk disposed of by a handler to another handler or to a person who is not a handler, but who distributes milk or manufactures milk products, shall be Class I milk; and cream so disposed of shall be Class II milk: *Provided*, That if the selling handler on or before the 10th day after the end of the delivery period furnishes to the market adminis-

trator a statement, which is signed by the buyer and the seller, that such milk, skim milk, or cream was used as Class III milk, such milk, skim milk, or cream shall be classified accordingly, subject to verification by the market administrator.

(d) *Computation of milk in each class.* For each delivery period, the market administrator shall compute for each handler the amount of his milk in each class, as defined in (b) of this section, as follows:

(1) Determine the total pounds of milk received (i) from producers and new producers, including milk of the handler's own production, (ii) from other handlers, (iii) as emergency milk, (iv) from any other source (including cream converted to 4.0 percent milk equivalent), and (v) add together the resulting amounts.

(2) Determine the total pounds of butterfat received, as follows: (i) multiply the weight of milk received from producers and new producers, including the handler's own production, by its average butterfat test; (ii) multiply the weight of milk received from other handlers by its average butterfat test; (iii) multiply the weight of emergency milk by its average butterfat test; (iv) multiply the weight of milk and cream received from any other source by its average butterfat test; and (v) add together the resulting amounts.

(3) Determine the total pounds of milk in Class I, as follows: (i) convert to half pints the quantity of milk disposed of in the form of milk and milk drinks, whether plain or flavored, and multiply by 0.5375; (ii) multiply the result by the average butterfat test of such milk; and (iii) if the quantity of butterfat so computed, when added to the pounds of butterfat in Class II milk and Class III milk computed pursuant to (4) (ii) and (5) (iv) of this paragraph, is less than the total pounds of butterfat computed in accordance with (2) of this paragraph, an amount equal to the difference shall be divided by 4.0 percent and the resulting amount shall be added to the quantity of milk determined pursuant to (i) of this subparagraph.

(4) Determine the total pounds of milk in Class II, as follows: (i) multiply the actual weight of each of the several products of Class II milk by its respective average butterfat test; (ii) add together the resulting amounts; and (iii) divide such sum by 4.0 percent.

(5) Determine the total pounds of milk in Class III, as follows: (i) multiply the actual weight of each of the several products of Class III milk by its average butterfat test; (ii) add together the resulting amounts; (iii) subtract the total pounds of butterfat in Class I milk and Class II milk, computed pursuant to (3) (ii) and (4) (ii) of this paragraph, and the total pounds of butterfat computed pursuant to (ii) of this subparagraph from the total pounds of butterfat computed pursuant to (2) of this paragraph, which resulting quantity shall be allowed as plant shrinkage for the purposes of this paragraph (but in no event shall such plant shrinkage allowance exceed 2½ percent of the total receipts of but-

terfat by the handler from producers and new producers, including that of the handler's own production); (iv) add together the results obtained in (ii) and (iii) of this subparagraph; and (v) divide the sum obtained in (iv) of this subparagraph by 4.0 percent.

(6) Determine the classification of milk of producers and new producers, as follows: (i) subtract from the total pounds of milk in each class the total pounds of milk received from other handlers and used in such class; (ii) subtract pro rata out of the remaining milk in each class the total pounds of emergency milk; (iii) subtract from the remaining milk in each class the total pounds of milk (and milk equivalent of cream converted to 4.0 percent milk), except emergency milk, received from sources other than producers, new producers, or handlers and used in such class.

(e) *Reconciliation of utilization of milk by classes with receipts of milk from producers.* (1) If the total utilization of milk in the various classes for any handler, as computed pursuant to (d) of this section, is less than the quantity of milk received from producers and new producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the quantity of milk received from producers and new producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to (d) of this section, is greater than the quantity of milk received from producers and new producers, the market administrator shall decrease the total pounds of milk in Class III for such handler by an amount equal to the difference between the quantity of milk received from producers and new producers and the total utilization of milk by classes for such handler.

§ 965.7 *Prices*—(a) *Class prices.* Except as set forth in (b), (c), and (d) of this paragraph, each handler shall pay, at the time and in the manner set forth in § 965.9, not less than the following prices per hundredweight, on the basis of milk of 4.0 percent butterfat content, for the respective quantities of milk in each class computed pursuant to § 965.6 (d) and (e):

(1) *Class I milk.* \$3.55.

(2) *Class II milk.* \$2.65.

(3) *Class III milk.* The price resulting from the following computation by the market administrator: Determine the arithmetical average of the basic, or field, prices per hundredweight ascertained to have been paid, without deductions for hauling or other charges to be paid by the farm shipper, for milk of 4.0 percent butterfat content received during the delivery period at the following plants:

Concern	Location of plants
M. & R. Dietetic Laboratories, Inc.	Chillicothe, Ohio.
Carnation Milk Company.	Hillsboro, Ohio.
Nestle's Milk Products, Inc.	Greenville, Ohio.
Osgood Milk Company.	Osgood, Ind.
Carnation Milk Company.	Maysville, Ky.

Provided, That if the price so determined is less than the price computed by the market administrator in accordance with the following formula, such formula price shall be the price for Class III milk for the delivery period: multiply by 4 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, add 20 percent thereof, and add or subtract 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption is above or below, respectively, 5½ cents per pound. The price per pound of dry skim milk to be used in this subparagraph shall be the arithmetical average of the carlot prices for both spray and roller process dry skim milk for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture for the Chicago area during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such dry skim milk for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, the arithmetical average of the carlot prices for both spray and roller process dry skim milk for human consumption, delivered at Chicago, shall be used, and the figure "7½" shall be substituted for "5½" in the formula set forth above in this proviso.

(b) *Price of Class I milk disposed of outside the marketing area.* (1) The price to be paid by each handler for Class I milk disposed of outside the marketing area, in lieu of the price otherwise applicable pursuant to this section and except as provided in (2) of this paragraph, shall be, as ascertained by the market administrator, such price as is being paid to farmers for milk of equivalent use in the market where such milk is disposed of, subject to a reasonable adjustment on account of transportation with respect to Class I milk moved from the handler's plant in the marketing area to the plant outside the marketing area where such milk was loaded on wholesale and retail routes: *Provided,* That such Class I price minus the adjustment for transportation shall not be lower than the price for Class I milk set forth pursuant to (a) (1) of this section, less 35 cents.

(2) The price to be paid by such handler for Class I milk disposed of outside the marketing area for which no price can be ascertained on the basis provided for in (1) of this paragraph, including Class I milk disposed of to Government institutions and establishments, shall be the price for Class I milk set forth pursuant to (a) (1) of this section.

(c) *Price of Class I milk disposed of for relief distribution.* The price to be paid by such handler for Class I milk disposed of through a recognized relief agency or under a program approved by the Secre-

tary for the sale or disposition of milk to low-income consumers, including persons on relief, shall be the price for Class I milk determined under (a) (1) of this section, less 65 cents.

(d) *Butterfat differential to handlers.* If the weighted average butterfat content of milk received by a handler from producers and new producers is other than 4 percent, there shall be added to or subtracted from, as the case may be, the class prices set forth in this section, for each one-tenth of 1 percent of average butterfat content above or below 4 percent, an amount computed as follows: to the average price per pound of 92-score butter in the Chicago wholesale market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, add 20 percent thereof, and divide the result by 10.

(e) *Computation of value of milk for each handler.* (1) For each delivery period the market administrator shall compute the value of milk for each handler, as follows:

(i) For each handler who receives milk from producers or new producers, multiply the hundredweight of milk in each class, computed in accordance with §§ 965.6 (d) and 965.6 (e), by the respective class prices for 4 percent milk, subject to the butterfat differential provided by (d) of this section: *Provided*, That if any such handler has received milk or cream, except emergency milk, from sources other than producers, new producers, or handlers, as referred to in § 965.6 (d) (6) (iii), and has disposed of such milk or cream other than as Class III milk, there shall be added to the value of milk thus far determined an additional amount computed as follows: multiply the hundredweight of such milk or milk equivalent of cream by the difference between the Class III price and the price applicable to the class in which it was disposed.

(ii) For the hundredweight of milk involved in any adjustment made pursuant to § 965.6 (e) the handler shall be debited or credited, as the case may be, at the Class III price.

(iii) For each handler who receives no milk from producers or new producers but who individually disposes of milk or cream, except emergency milk, in the marketing area other than as Class III milk, multiply the hundredweight of such milk, or milk equivalent of cream, by the difference between the Class III price and the price applicable to the class in which it was disposed.

(iv) Add together the resulting amounts.

(v) If, in the verification of reports submitted by a handler, the market administrator discovers errors in such reports which result in payments due the producer-settlement fund or the handler for any previous delivery period, there shall be added or subtracted, as the case may be, the amount necessary to correct such errors.

(f) *Notification to each handler of the value of his milk.* On or before the 13th day after the end of each delivery period, the market administrator shall bill each handler for the value of milk computed

for him in accordance with (e) of this section.

§ 965.8 *Computation and announcement of uniform price—(a) Computation of uniform price.* For each delivery period, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from producers, as follows:

(1) Add together the values of milk as computed in § 965.7 (e) for handlers who made the payments to the producer-settlement fund as required by § 965.9 (b);

(2) Subtract the amounts computed pursuant to § 965.10 (a) (2);

(3) Subtract, if the weighted average butterfat test of all milk received from producers by handlers whose milk is represented in the sum computed under (1) of the paragraph, is greater than 4.0 percent, or add, if the weighted average butterfat test of such milk is less than 4.0 percent, an amount computed as follows: multiply the hundredweight of such milk by the variance of its weighted average butterfat test from 4.0 percent, and multiply the resulting amount by 50 cents if the average price of butter sold at wholesale in the Chicago market during the delivery period, as reported by the United States Department of Agriculture, was more than 40 cents; or by 40 cents if such average price of butter was more than 30 cents but not more than 40 cents; or by 30 cents if such average price of butter was 30 cents or less;

(4) Add the cash balance in the producer-settlement fund;

(5) Divide by the total hundredweight of milk of producers represented in the sum computed pursuant to (1) of this paragraph; and

(6) Subtract from the figure obtained in (5) of this paragraph not less than 4 cents nor more than 5 cents per hundredweight for the purpose of retaining a cash balance to provide against errors in reports and in payments by handlers. The result shall be known as the uniform price per hundredweight for such delivery period for milk of producers which contains 4.0 percent of butterfat.

(b) *Announcement of prices and transportation rates.* On or before the first day of the following delivery period, the market administrator shall notify each handler of the uniform price for milk and of the price for Class III milk, and shall make public announcement of the uniform price computation. From time to time, the market administrator shall also publicly announce the amounts per hundredweight deducted by each handler from the payments made to producers and new producers pursuant to § 965.10, and the amounts actually paid to haulers for the transportation of milk from the farms of producers and new producers to such handler's plant or plants, as ascertained from reports submitted pursuant to § 965.5 (a).

§ 965.9 *Payment for milk—(a) Payment to producers and new producers.* On or before the 5th day after the end of each delivery period, each handler shall pay, with respect to all milk received during the delivery period, \$1.00 per hundredweight of milk to each pro-

ducer and \$0.50 per hundredweight of milk to each new producer: *Provided*, That in the event the total amount of the deductions and charges authorized by any producer or new producer against payments due such producer or new producer for the delivery period next preceding is greater than the payment computed for such producer or new producer pursuant to § 965.10 (a) with respect to the milk received from such producer or new producer during such preceding delivery period, the handler may deduct from the payment required by this paragraph a sum equal to the difference between such amounts.

(b) *Payment to producer-settlement fund.* On or before the 17th day after the end of each delivery period, each handler shall pay to the market administrator the amount of money which represents the value of milk billed to him for such delivery period, pursuant to § 965.7 (f), less the amount paid out to each producer and new producer in accordance with (a) of this section, and less the amount of the deductions and charges authorized by such producer or new producer which are itemized on the handler's producer pay roll: *Provided*, That in the calculation of the total amount of such deductions and charges to be subtracted, the deductions and charges to be considered with respect to each individual producer or new producer shall not be greater than an amount which, when added to the payment made to such producer or new producer in accordance with (a) of this section (inclusive of the deductions and charges authorized by (a) of this section), will not exceed the total value of the milk received from such producer or new producer. The market administrator shall maintain a separate fund, known as the producer-settlement fund, in which he shall deposit all payments of handlers received pursuant to this paragraph.

§ 965.10 *Payments from producer-settlement fund—(a) Calculation of payments for each producer and new producer.* For each delivery period, the market administrator shall calculate the payment due each producer and new producer from whom milk was received during such delivery period by a handler who paid into the producer-settlement fund in accordance with § 965.9, as follows:

(1) Multiply the hundredweight of milk received from each producer by the uniform price computed in accordance with § 965.8 (a): *Provided*, That if the milk of such producer was of a weighted average butterfat content other than 4.0 percent, there shall be added or subtracted for each one-tenth of 1 percent variance above or below 4 percent, 5 cents if the average price of butter described in § 965.8 (a) (3) was more than 40 cents; 4 cents if such average price of butter was more than 30 cents but not more than 40 cents; or 3 cents if such average price of butter was 30 cents or less.

(2) Multiply the hundredweight of milk received from each new producer by the price for Class III milk: *Provided*,

That if such milk was of a weighted average butterfat content other than 4.0 percent, there shall be added or subtracted for each one-tenth of 1 percent of variance in butterfat content above or below 4 percent, an amount equal to $\frac{1}{40}$ of such price for Class III milk.

(3) Subtract in each case, the amount of the payment made pursuant to § 965.9 (a), and the charges and the deductions, if any, which are made pursuant to § 965.9 (b).

(b) *Payments.* (1) On or before the 20th day after the end of each delivery period, the market administrator shall pay, subject to the provisions of § 965.12, to each cooperative association authorized to receive payments due producers or new producers who market their milk through such cooperative association, the aggregate of payments calculated pursuant to (a) of this section, for all producers and new producers certified to the market administrator by such cooperative association as having authorized such cooperative association to receive such payments.

(2) On or before the 20th day after the end of each delivery period, the market administrator shall pay, subject to the provisions of § 965.12, direct to each producer and new producer who has not authorized a cooperative association to receive payments for such producer or new producer the amount of the payment calculated for such producer or new producer pursuant to (a) of this section.

§ 965.11 *Expense of administration—*
(a) *Payment by handler.* As his prorata share of the expenses which will be necessarily incurred in the maintenance and functioning of the office of the market administrator and in the performance of the duties of the market administrator, each handler, with respect to all milk received from producers, new producers, and produced by him during the delivery period, shall pay to the market administrator, on or before the 17th day after the end of each delivery period, that amount per hundredweight, not to exceed 2 cents, which is announced by the market administrator on or before the 13th day after the end of the delivery period: *Provided,* That any cooperative association which has handled milk during the delivery period under the conditions set forth in § 965.3 (a) (5) shall pay such prorata share of expense of administration on only that quantity of milk so handled.

§ 965.12 *Marketing services—*(a) *Deductions.* The market administrator shall deduct an amount not exceeding 4 cents per hundredweight (the exact amount to be determined by the market administrator) from the payments made pursuant to § 965.10 (b), with respect to the milk of those producers and new producers for whom the marketing services set forth in (b) of this section are not being performed by a cooperative association which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," for the purpose of performing the services set forth in (b) of this section.

(b) *Marketing services to be rendered.* The moneys received by the market administrator pursuant to (a) of this section shall be expended by the market administrator for market information to, and for the verification of weights, samples, and tests of milk of, producers for whom a cooperative association, as described in (a) of this section, is not performing the same services on a comparable basis, as determined by the market administrator, subject to the review of the Secretary.

§ 965.13 *Effective time, suspension, or termination—*(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

(b) *Suspension or termination.* Any or all provisions hereof, or amendments hereto, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall terminate in any event, whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(1) The market administrator, or such other person as the Secretary may designate, shall (i) continue in such capacity until removed by the Secretary; (ii) account from time to time for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such other person to such person as the Secretary shall direct; and (iii) execute, if so directed by the Secretary, such assignments or other instruments necessary or appropriate to vest in such person full title of all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the mar-

ket administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 965.14 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

Issued at Washington, D. C., this 14th day of November 1942, to be effective on and after the 23d day of November 1942. Witness my hand and the official seal of the Department of Agriculture.

TITLE 22—FOREIGN RELATIONS
Chapter III—Proclaimed List of Certain
Blocked Nationals

REVISION IV, NOVEMBER 12, 1942

ADMINISTRATIVE ORDER

By virtue of the authority vested in the Secretary of State, acting in conjunction with the Secretary of the Treasury, the Attorney General, the Secretary of Commerce, the Board of Economic Warfare, and the Coordinator of Inter-American Affairs, by Proclamation 2497 of the President of July 17, 1941 (6 F.R. 3555), The Proclaimed List of Certain Blocked Nationals, Revision III of August 10, 1942 and Supplements 1, 2, 3, and 4 thereto (7 F.R. 6282, 6847, 7422, 8165, 8845), are superseded by the following Revision IV of the List, which is hereby promulgated.

By direction of the President:

CORDELL HULL,
Secretary of State.
H. MORGENTHAU, JR.,
Secretary of the Treasury.
FRANCIS BIDDLE,
Attorney General.
JESSE H. JONES,
Secretary of Commerce.
MILO PERKINS,
Executive Director,
Board of Economic Warfare.
NELSON A. ROCKEFELLER,
Coordinator of Inter-
American Affairs.

NOVEMBER 12, 1942.

GENERAL NOTES: (1) The Proclaimed List is divided into two parts; Part I relates to listings in the American republics; Part II relates to listings outside the American republics. The List as herein consolidated and revised supersedes Revision III and Supplements 1, 2, 3, and 4 thereto.

(2) No additions or deletions are made in this revision; however, changes of address, minor changes in spelling of names listed, alternative listings for names previously included, etc., are made and are indicated by footnotes.

(3) In Part I titles are listed in their letter-address form, word for word as written in that form, with the following exceptions:

If the title includes a full personal name, that is, a given name or initial and surname, the title is listed under the *surname*.

Personal-name prefixes such as *de*, *la*, *von*, etc., are considered as part of the surname and are the basis for listing.

The listing is made under the next word of the title when the initial word or phrase, or abbreviation thereof, is one of the following Spanish forms or similar equivalent forms in any other language:

Compañía; Cia.; Comp.
Compañía Anónima; C. A.; Comp Anón.
Sociedad; Soc.
Sociedad Anónima; S. A.; Soc. Anón.

(4) Addresses appearing after names on the List are not intended to exclude other addresses of the same firms or individuals. A listed name refers to all branches of the business in the country.

(5) Subsequent supplements will contain additions, deletions, and amendments. Following this revision, supplements will be cumulative. Each supplement will contain all additions, deletions, and amendments which have been made since the previous revision. Thus, to determine the status of a given name, it will be necessary to consult only two issues of the List: namely, the previous revision and the current supplement.

(6) For the convenience of users, symbols are placed after each name on the List to indicate, by reference to the table below, the dates of the supplements or revisions in which the name first appeared or was amended. It has not been found practicable, however, to indicate here the dates of listings made between July 17, 1941, the date of the original list, and Revision I, dated February 7, 1942. Accordingly, names appearing previous to Revision I, and retained in that revision, are followed only by the symbol "I". Roman numerals refer to revisions, arabic numerals to supplements.

PART 976—MOTOR TRUCKS, TRUCK TRAILERS AND PASSENGER CARRIERS

[Limitation Order L-1-h as Amended Nov. 19, 1942]

The fulfillment of requirements for the defense of the United States having created a shortage in the supply of heavy motor trucks for defense, for private account and for export, the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 976.18 *Supplementary Limitation Order L-1-h—(a) Applicability of priorities regulations.* This order and all transactions affected thereby are subject to the provisions of applicable priorities regulations, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(1) *Protection of production schedules.* Producers under the terms of this order may, notwithstanding the provisions of Priorities Regulation No. 1 (Part 944), schedule production of heavy trucks (including off-the-highway motor vehicles when produced under this order) without regard to purchase orders or contracts placed with them for other materials on ratings lower than AA-4.

(b) *Definitions.* For the purposes of this order:

(1) "Heavy truck" means a complete motor truck or truck-tractor with a gross vehicle weight rating of 16,000 pounds or more, as authorized by the manufacturer thereof, or the chassis thereof, including off-the-highway motor vehicles.

(2) "Off-the-highway motor vehicle" means a motor truck, truck-tractor and/or trailer, operating off the public highway, normally on rubber tires and specially designed to transport materials, property or equipment on mining, con-

struction, logging or petroleum development projects.

(3) "Producer" means any individual, partnership, association, corporation or other form of business enterprise engaged in the manufacture of heavy trucks and off-the-highway motor vehicles.

(4) "G. V. W. group" means gross vehicle weight classification, as authorized by the producer.

(c) *Production of 4,000 heavy trucks authorized.* Irrespective of the terms of Supplementary General Limitation Or-

der L-1-e, issued April 11, 1942, and in order to replace four thousand (4,000) heavy trucks heretofore or hereafter withdrawn for use by the Army, Navy and Lend-Lease Administration since June 1, 1942, from stocks intended for rationing to civilians under General Conservation Order M-100, the producers named below are hereby authorized to produce during the period from August 1, 1942, to March 31, 1943, an aggregate of four thousand (4,000) heavy trucks according to the following schedules:

(i) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this order would disrupt or impair a program of conversion from nondefense work, may apply for relief by addressing a letter to the War Production Board, setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. PART 3062—CONSERVATION OF NEW AUTOMOTIVE VEHICLES SUBJECT TO RATIONING BY FEDERAL AGENCIES

[Conservation Order M-216 as Amended Nov. 19, 1942]

§ 3062.1 *Conservation Order M-216—(a) Findings of fact with respect to reserve vehicles.* Approximately 393,000 new passenger automobiles and 130,000

new commercial motor vehicles are in the possession of or under the control of producers, distributors, dealers, sales agencies and finance agencies throughout the United States. These vehicles, hereinafter referred to as "reserve vehicles," are now held for ultimate use in the prosecution of the war through rationing procedures, established as to passenger automobiles by General Conservation Order M-130, effective June 8, 1942, and by Office of Price Administration New Passenger Automobile Rationing Regulations, Order No. 2A, effective March 2, 1942, and as to new commercial motor vehicles by General Conservation Order M-100, effective March 9, 1942. In view of the discontinuance of production, the stock of reserve vehicles herein referred to constitutes the total available supply of such vehicles in the United States. They are urgently needed for war purposes and for the maintenance of the industrial economy of the nation. The maintenance of these vehicles in prime mechanical condition is indispensable to their full utilization for the war purposes for which they are being reserved. These reserve vehicles can be maintained in prime mechanical condition provided conservation operations are performed upon them as set out in the Standards for Maintenance of New Automotive Vehicles, incorporated herein as Schedule 1.

(b) *Statement of policy with respect to requisitioning reserve vehicles.* The standards for maintenance of new automotive vehicles set out as Schedule 1 to this order and made part thereof, are hereby adopted for the maintenance of reserve vehicles in storage in the possession of or under the control of producers, distributors, dealers, sales agencies and finance agencies. It is declared to be the policy of the War Production Board to require that all reserve vehicles be maintained in accordance with the said standards for maintenance. In order to effectuate this policy and to render all reserve vehicles available for war purposes and for the maintenance of the essential industrial economy, it is further declared to be the policy of the War Production Board to exercise its powers of requisition under existing law, and to seize reserve vehicles in the possession of producers, distributors, dealers, sales agencies and finance agencies, whenever it is found by the War Production Board or any federal agency acting in its behalf, that the mechanical condition of such vehicles has been impaired, or is threatened with impairment, due to failure on the part of the person in possession or control to comply with the Standards for Maintenance.

(c) *Reports on reserve vehicles required.* Every person in possession of reserve vehicles shall file with the Automotive Branch, War Production Board, Washington, D. C., Ref: Order M-216, a report of the condition of such vehicles on Form PD-641. The initial report shall be as of November 1, 1942, and shall be filed not later than November 10, 1942. Subsequent reports shall be filed thereafter at intervals of six months.

(d) *Definitions.* For the purposes of this order:

(1) "Reserve vehicle" means any of the following vehicles which have not been

sold or otherwise disposed of under the rationing procedures of the War Production Board or the Office of Price Administration referred to in paragraph (a) above, and which are in storage in the possession of or under the control of producers, distributors, dealers, sales agencies and finance agencies throughout the United States:

(i) Any 1942 model passenger automobile, built upon a standard or lengthened passenger car chassis, having a seating capacity of not more than ten (10) persons, irrespective of the number of miles it has been driven, or any other such passenger automobile of an earlier model which has been driven less than 1,000 miles, including taxis, but not including ambulances, hearses and station wagons.

(ii) Any new commercial motor vehicle, including any light, medium or heavy motor truck, truck tractor or trailer, or the chassis therefor, or any chassis on which a bus body is to be mounted, and which was manufactured subsequently to July 31, 1941; was designed to be propelled or drawn by mechanical power for use on or off the highways for transportation of property, or persons; was manufactured otherwise than under specifications of the United States Army or Navy; has not been transferred to any person other than a sales agency for the purpose of resale; including vehicles of the following types: trucks, truck chassis, truck tractors, off-the-highway motor vehicles, full-trailers, semi-trailers, dollies, attachment third axles, ambulances, hearses, bus chassis, station wagons, carry-all suburbans, sedan deliveries, utility sedans, coupes fitted with pickup boxes, and cab pickups, but not including taxicabs and integral type buses.

(2) "Producer" means any person who manufactures, or has in the past manufactured, any reserve vehicles and now or hereafter has any such reserve vehicles in his possession or under his control.

SCHEDULE I¹

Standards for Maintenance of New Automobile Vehicles

The following standards for maintenance are established for the preservation and care of new passenger automobiles and new commercial motor vehicles while in storage in the possession of or under the control of producers, distributors, dealers, sales agencies, and finance agencies. These vehicles, as defined below, are termed for convenience "reserve vehicles." While set up primarily for the servicing of reserve vehicles, the standards for maintenance are equally appropriate for the preservation of similar vehicles whenever the same are to be kept in storage.

Vehicles to Which Standards Are Applicable

The reserve vehicles to which these standards for maintenance apply are those new passenger automobiles and new commercial motor vehicles held subject to rationing under orders of the War Production Board and the Office of Price Administration, as to passenger automobiles by General Conservation Order M-130, effective June 8, 1942, and by Office of Price Administration New Passenger Automobile Rationing Regulations, Order No. 2A, effective March 2, 1942, and as to new commercial motor vehicles by General Conservation Order M-100, effective March 9, 1942, while in storage, in the possession of or under the control of producers, distributors, dealers, sales agencies or finance agencies. They are defined as follows:

1. Any 1942 model passenger automobile, built upon a standard or lengthened passenger car chassis having a seating capacity of not more than ten (10) persons, irrespective of the number of miles it has been driven, or any other such passenger automobile of earlier model which has been driven less than 1,000 miles,

including taxis, but not including ambulances, hearses and station-wagons.

2. Any new commercial motor vehicle, including any light, medium or heavy motor truck, truck tractor or trailer, or the chassis therefor, or any chassis on which a bus body is to be mounted, and which was manufactured subsequently to July 31, 1941; was designed to be propelled or drawn by mechanical power for use on or off the highways for transportation of property, or persons; was manufactured otherwise than under specifications of the United States Army or Navy; has not been transferred to any person other than a sales agency for the purpose of resale; including vehicles of the following types:

Trucks, truck chassis, truck tractors, off-the-highway motor vehicles, full-trailers, semi-trailers, dollies, attachment third axles, ambulances, hearses, bus chassis, station wagons, carry-all suburbans, sedan deliveries, utility sedans, coupes fitted with pickup boxes, and cab pickups, but not including taxicabs and integral type buses.

Standards for Maintenance New Passenger Automobiles and Commercial Motor Vehicles

(These standards for maintenance correspond with those of the Revised Price Schedule #85 issued by the Office of Price Administration.)

General Instructions

1. All reserve vehicles, other than full-trailers and semi-trailers, must be stored indoors. Select a clean, dry building suitable for the storage of new passenger automobiles and commercial vehicles. Cover all openings through which animals and birds may enter storage space. Prevent water leakage. Remove loose dirt and whitewash lime.

2. Allow sufficient space between vehicles for accessibility to perform all specified maintenance operations.

3. The operations specified under the heading "Maintenance Operations" are of two categories: "Initial" operations, which if not already performed, are to be performed, and "Repeat" operations, which must be performed at intervals of six months, or when necessary, as indicated below.

No.	When to be done	Item	Maintenance operations
#1	Initial and whenever necessary.	Vehicle.....	(a) Thoroughly wash vehicle; remove all foreign substances, mud, dirt, grease spots, oil, tar. (b) Check paint, touch up all exposed metal surfaces to prevent rust. Remove blades; store in glove compartment.
*2	Initial.....	Windshield wiper.....	(a) Clean and moth-proof all upholstery, including seat cushions, seat backs, side walls, headlinings, floor mats and carpets. (b) After moth-proofing upholstery, protect it from direct sunlight, except when on display in customary display room, by one of the following methods: (1) Cover all openings through which light may enter storage space. (2) Cover the inside of all car windows and windshields with paper, using masking tape. (3) Cover the car with a paper or cloth cover. (4) Completely cover all upholstery with paper, using masking tape.
*3	Initial and every six months. Initial.....	Upholstery and floor coverings.....	(c) Place floor mats in their normal position on floor, not rolled up.
#4	Initial and whenever necessary.	Chrome plated surfaces.....	Thoroughly wash and clean all chrome plated surfaces with clear water; when dry, apply a coating of light oil, liquid wax, or special preparations; wipe off until no excess oil or wax appears on the surface of the chrome.
5	Initial.....	Convertible tops.....	With respect to convertibles, see that the tops are up and leave the shipping cover over the top, or cover it with paper, using masking tape.
*6	Initial.....	Engine.....	(a) Drain engine oil and refill crank case with at least 1/2 charge of rust-inhibiting oil. (b) Run engine for 5 minutes at idle speed or about 1,000 R. P. M. Leave this oil in engine.
*7	Initial.....	Fuel system and carburetor.....	(a) Drain gasoline tank completely and replace filler cap to exclude dust. (b) Run engine until all gasoline is consumed.
*8	Initial.....	Spark plugs.....	Remove spark plugs. Inject 2 ounces of rust-inhibiting oil into each cylinder when piston is on the power stroke. Slowly turn engine over a few revolutions with starter. Replace spark plugs.
*9	Initial.....	Valve compartment (overhead valve engines).....	Remove cover. Spray rust-preventive compound or S. A. E. 10-W on mechanism and inside cover, or pack with oil soaked rags. Replace cover.
*10	Initial.....	Seal engine.....	Seal the engine. This can be done in the following manner: Remove engine oil filler tube cover and crank case breather cover, if there is one, and seal the openings. Also seal the air cleaner, tail pipe, and any other openings into the engine. Tubes or pipes can be sealed satisfactorily by covering with a small piece of oiled or waxed paper, gathering the edges of the paper around the tube and tying them with a cord. The air cleaner can be sealed conveniently by covering with a paper bag and tying a cord around it at the solid part on the engine side of the air intake openings. Sealing the engine to a large extent prevents air moisture from entering the engine.
*11	Initial.....	Battery removal.....	NOTE.—Since no provision has been made for turning the engine over at regular intervals, it is absolutely essential that the recommended procedure for conserving the engine be followed carefully. (a) Remove the battery and store it in a cool place near recharging equipment, to facilitate servicing. Clean battery connections and wipe with light grease.

NOTE: (1) All maintenance operations and storage requirements are applicable to new passenger automobiles. (2) Symbol (*) indicates maintenance operations applicable to new commercial motor vehicles except trailers, third axles and dollies. (3) Symbol (#) indicates maintenance operations applicable to trailers, third axles and dollies.

¹ Items 4, 16, 17, and 18 of the table are amended.

No.	When to be done	Item	Maintenance operations
*11	Initial.....	Battery removal.....	(b) If dealer has portable battery charging equipment, he may elect to leave battery in car. In either case battery must be maintained as per Item 12 below.
*12	Initial and as specified under Maintenance operations.	Battery maintenance....	(a) Check the specific gravity at regular intervals of six weeks, except in extremely hot weather when inspection periods should be cut to three weeks. (b) Check and correct water level at each inspection and recharge batteries as necessary to bring gravity reading to 1.280 or above. In no case should the specific gravity be allowed to fall below 1.220. These specific gravity readings are given for batteries at 60° F. air temperature.
*13	Initial.....	Cooling system.....	Completely drain cooling system including radiator, cylinder block, pump, heater, hose and all water connections. Leave system dry. NOTE: If coolant contains anti-freeze and rust-inhibiting solution, it may be left in the cooling system.
*14	Initial.....	Brakes.....	Leave all brakes in released position.
*15	Initial.....	Clutch.....	Block the pedal of dry clutches in partially disengaged position. It is not necessary to disengage other type clutches.
*16	Initial and as specified under maintenance operations.	Tires.....	(a) <i>Indoor storage.</i> Jack up vehicle in storage location taking weight off the tires. Maintain the air in tires between 3/8 and 3/4 operating pressure so that vehicles can be pushed or towed out quickly if necessary in an emergency. Tension in cords will be relieved by lowered pressure. (b) <i>Outdoor storage in the case of trailers.</i> Jack up vehicles in storage space. Remove tires from wheels. Leave wheels mounted on axle spindles. Lower weight of trailer to rest upon wheels. Store tires in a dark cool place protected from direct sunlight, in a horizontal position, with separators. Lubricate with light oil all latches, hinges, brake connections, vertical supporting mechanisms, and fifth wheels.
*17	Initial and, if necessary, every six months where applicable.	Latches, hinges, brake connections, vertical supporting mechanisms, and fifth wheels.	Lubricate with light oil all latches, hinges, brake connections, vertical supporting mechanisms, and fifth wheels.
*18	Initial where applicable..	Doors, windows, and vents.	(a) Close all doors, windows, and vents tightly. (b) Close all vent-panels. (c) Leave cowl ventilator open (if screened).

NOTE.—Materials called for in the performance of these maintenance operations such as oils, wax and rust inhibitor, should be of a grade recommended by the vehicle manufacturer.

PART 3093—GOLD MINING

[Limitation Order L-208 as Amended Nov. 19, 1942]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials for defense, for private account and for export which are used in the maintenance and operation of gold mines; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3093.1 *Limitation Order L-208—(a) Definitions.* For the purposes of this order

(1) "Nonessential mine" means any mining enterprise in which gold is produced, whether lode or placer, located in the United States, its territories or possessions, unless the operator of such mining enterprise is the holder of a serial number for such enterprise which has been issued under Preference Rating Order P-56.

(2) With respect to any nonessential mine, "effective date" means October 8, 1942, or the date of cancellation by the Director General for Operations of the serial number for such mining enterprise, whichever is the later.

(b) *Restrictions upon production.* (1) On and after the effective date, each operator of a nonessential mine shall immediately take all such steps as may be necessary to close down, and shall close

down, in the shortest possible time, the operations of such mine.

(2) In no event on or after seven days from the effective date shall any operator of a nonessential mine acquire, consume, or use any material, facility, or equipment to break any new ore or to proceed with any development work or any new operations in or about such mine.

(3) In no event on or after sixty days from the effective date shall any operator of a nonessential mine acquire, consume, or use any material, facility, or equipment to remove any ore or waste from such mine, either above or below ground, or to conduct any other operations in or about such mine, except to the minimum amount necessary to maintain its buildings, machinery, and equipment in repair and its access and development workings safe and accessible.

(4) The provisions of this order shall not apply to any lode mine which produced 1200 tons or less of commercial ore in the year 1941, provided the rate of production of such mine, after the effective date, shall not exceed 100 tons per month, nor to any placer mine which treated less than 1000 cubic yards of material in the year 1941, provided that the rate of treatment of such placer mine,

after the effective date, shall not exceed 100 cubic yards per month.

(5) Nothing contained in this order shall limit or prohibit the use or operation of the mill, machine shop, or other facilities of a nonessential mine in the manufacture of articles to be delivered pursuant to orders bearing a preference rating of A-1-k or higher, or in milling ores for the holder of a serial number under Preference Rating Order P-56.

(6) Nothing contained in this order shall prohibit any owner of a mining claim from performing not more than the minimum assessment work required by the provisions of section 2324 of the Revised Statutes of the United States and by Public No. 542, 77th Congress, 2d Session.

(c) *Restrictions on application of preference ratings.* No person shall apply any preference rating, whether heretofore or hereafter assigned, to acquire any material or equipment for consumption or use in the operation, maintenance, or repair of a nonessential mine, except with the express permission of the Director General for Operations issued after application made to the Mining Branch, War Production Board.

(d) *Assignment of preference ratings.* The Director General for Operations, upon receiving an application in accordance with paragraph (c) above, may assign such preference ratings as may be required to obtain the minimum amount of material necessary to maintain such nonessential mine on the basis set forth in paragraph (b) (3) above.

(e) *Restrictions on disposition of machinery and equipment.* No person shall sell or otherwise dispose of any machinery or equipment of the types listed in Schedule A to Preference Rating Order P-56, which has been used in a nonessential mine, and no person shall accept delivery thereof, except with specific permission of the Director General for Operations. On or before November 19, 1942, or within sixty days after the effective date, whichever is later, each operator of a nonessential mine shall file with the War Production Board, Washington, D. C., Reference: L-208, an itemized list of such machinery and equipment, signed by such operator or an authorized official, indicating each item available for sale or rental. Upon receipt of such itemized list, the War Production Board will furnish to the operator appropriate forms to be filled out for each item which the operator desires to dispose of.

(f) *Records and reports.* All persons affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning inventory, acquisition, consumption, and

use of materials, and production of ore, and shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe.

(g) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Communications.* All reports to be filed, appeals, and other communications concerning this order should be addressed to: War Production Board, Mining Branch, Washington, D. C., Ref.: L-208.

(i) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by a fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board, by letter, in triplicate, setting forth the pertinent facts and the reason he considers he is entitled to relief. PART 1305—ADMINISTRATION

[Supplementary Order 28]

APPLICATIONS FOR ADJUSTMENT AND PETITIONS FOR AMENDMENT BASED ON A WAGE OR SALARY INCREASE REQUIRING THE APPROVAL OF THE NATIONAL WAR LABOR BOARD

A statement of the reasons involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.* *It is hereby ordered:*

§ 1305.33 *Applications for adjustment and petitions for amendment based on a wage or salary increase requiring the approval of the National War Labor Board.*—(a) *Purpose of this supplementary order.* Executive Order No. 9250, issued by the President on October 3, 1942, provides that no wage increase requiring the approval of the National War Labor Board shall become effective without also being approved by the Economic Stabilization Director in any case in which the Price Administrator "shall have reason to believe that the proposed wage increase will require a change in the price ceiling of the commodity or service involved." To enable the Price Administrator to determine whether a proposed wage or salary increase will require a change in the price ceiling of any commodity or service, and in order to expedite proceedings before the National War Labor Board for wage or salary increases, this supplementary order makes provision for the filing of applications for adjustment or petitions for amendment before the wage or salary increase becomes effective.

(b) *Request for price increase may be filed before wage increase becomes effective.* Any employer may file an application for adjustment of his maximum prices or a petition for amendment of the price regulation establishing those prices based on a wage or salary increase requiring the approval of the National

War Labor Board before any such increase becomes effective, in accordance with the provisions of this supplementary order.

(c) *Requirement for filing request for price increase before wage increase becomes effective.* The office of Price Administration will not consider any request for a change in the employer's prices which is based on a wage or salary increase requiring the approval of the National War Labor Board, unless, before the wage or salary increase becomes effective, the employer files with the Office of Price Administration an application for adjustment of his maximum prices or a petition for amendment of the regulation establishing those prices. The fact that an employer has not filed such an application or petition will not preclude recognition by the Office of Price Administration of the increased cost resulting from the wage or salary increase in considering any later application for adjustment or petition for amendment based on subsequent changes in circumstances.

(d) *Time within which request for price increase must be filed.* An application for adjustment or petition for amendment which is filed by authority of this supplementary order should be filed within fifteen (15) days after an application for a wage or salary adjustment has been filed with the National War Labor Board, or, in a disputed wage proceeding within fifteen (15) days after the employer receives notification that the National War Labor Board has taken jurisdiction of the dispute. Any request filed after that time will be considered by the Office of Price Administration only if good reasons are shown for the delay. If a request for a change in the employer's prices is based on an application for wage or salary adjustment filed with the Wage Adjustment Board for the Building Construction Industry, an application for adjustment or petition for amendment should be filed within fifteen (15) days after the application has been filed with the Wage Adjustment Board and if filed after that time will be considered by the Office of Price Administration only if good reasons are shown for the delay.

(e) *Procedure for filing request for price increases.* (1) An application for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1² except that in cases of Government contracts or sub-contracts for certain war commodities or services specified in Procedural Regulation No. 6² an application for adjustment shall be filed in accordance with that procedural regulation. An application for adjustment will be granted only if the regulation to which the employer is subject contains a specific provision for the granting of an adjustment and if the employer is eligible for an adjustment under that provision. In the absence of such an adjustment provision under which he can qualify for an adjustment, the employer's only recourse is to file a petition for amendment.

*Copies may be obtained from the Office of Price Administration.

¹ 7 F.R. 8961.

² 7 F.R. 5087, 5664.

(2) A petition for amendment shall be filed in accordance with Revised Procedural Regulation No. 1. A petition for amendment is required to propose a definite change of general applicability in the terms of the applicable price regulation. A petition for amendment should propose either a specific change in the maximum prices established for an entire industry or substantial portion of it, or the addition of an adjustment provision to the price regulation. The maximum prices established by a price regulation will generally not be changed unless such change is required for an entire industry or substantial portion of it. An adjustment provision will generally not be included in a price regulation unless such a provision will further the prosecution of the war or is essential to a standard of living consistent with the prosecution of the war.

(f) *Place of filing request for price increase.* (1) An application for adjustment may be filed with a District, State or Regional Office of the Office of Price Administration or with the Office of Price Administration, Washington, D. C. If the office with which the application is filed is not authorized to consider such an application it will forward it to the authorized office and notify the employer of such forwarding. If an adjustment provision in a price regulation indicates which office of the Office of Price Administration is authorized to consider applications for adjustment, action on an application will be expedited if it is filed with the nearest office authorized to consider it.

(2) A petition for amendment shall be filed with the Secretary, Office of Price Administration, Washington, D. C.

(g) *Additional information required in request for price increase.* An application for adjustment or petition, for amendment which is filed by authority of this supplementary order shall set forth the following information, in addition to such information as is required by the applicable price and procedural regulations issued by the Office of Price Administration: (1) Whether the proceeding before the National War Labor Board is a proceeding for a voluntary wage or salary increase or is a disputed wage or salary case (if the proceeding is before the Wage Adjustment Board for the Building Construction Industry, that fact should be indicated); (2) if it is a proceeding for a voluntary wage or salary increase when and where the application for approval of the wage or salary increase was filed; (3) if it is a disputed wage or salary case, when the National War Labor Board assumed jurisdiction of the dispute; (4) in the case of an application for adjustment, a clear and concise statement of the facts upon which the employer relies to qualify him for an adjustment under an applicable adjustment provision, including (i) a copy of the employer's latest balance sheet, (ii) a copy of his profit and loss statement for the last quarterly period, or the most recent period for which figures are available, (iii) a statement for the same period for which figures are submitted under (ii) limited to the commodities or services affected by the wage

and salary increase, showing total sales and detailed costs, specifying particularly the wage and the salary costs, and (iv) a statement for the same period for which figures are submitted under (ii), showing the amount of the wages and the salaries paid by the employer to the employees to be affected by the wage or the salary increase and the amount of the increase in such wages and salaries on which the application for adjustment is based, and (5) in the case of a petition for amendment, a specific statement of the particular amendment desired and the facts which make that amendment necessary or appropriate.

(h) *Protest of denial of request for price increase.* (1) If a wage increase is approved by the National War Labor Board and an order is issued denying in whole or in part an application for adjustment filed by authority of this supplementary order, the employer may, after the wage increase becomes effective, file a protest against such order in accordance with Revised Procedural Regulation No. 1. Such a protest may not be based upon grounds not raised in the application for adjustment. A protest will not be considered if the wage increase is not approved by the National War Labor Board.

(2) The denial of a petition for amendment is not subject to protest.

(i) *Definitions.* "Price regulation," as used in this supplementary order means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation issued by the Office of Price Administration, or any amendment or supplement thereto or order issued thereunder.

(j) *Effective dates.* This Supplementary Order No. 28 (§ 1305.33) shall become effective November 18, 1942.

PART 1420—BREWERY AND DISTILLERY PRODUCTS

[MPR 259, Amendment 1]

DOMESTIC MALT BEVERAGES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

In § 1420.59 the term "§ 1420.66 (f)" is amended to read "§ 1420.66 (h)," in § 1420.66 (c) (1) the term "34 ounce bottles" is amended to read "32 ounce bottles", and in § 1420.66 (c) (2) the term "10 cents" in the last line is amended to read "9 cents", and paragraph (a), paragraph (b) (1) and paragraph (f) of § 1420.66 are amended and a new § 1420.65a is added, as set forth below:

§ 1420.66 Appendix A—(a) For manufacturers and wholesalers. The maximum price which a manufacturer may charge for a domestic malt beverage, except in 32 ounce containers (See § 1420.66 (f)) and the maximum price which a wholesaler may charge for a domestic malt beverage shall be the highest price charged by him for such domestic malt beverage during the period October 1 to 15, 1941 inclusive, plus the "permitted increase" set forth in the

¹ 7 F.R. 8950.

schedule of permitted increases in paragraph (c) (1) of this section, or the maximum price now established by such manufacturer or wholesaler under the pricing provisions of the General Maximum Price Regulation, plus the "permitted increase" for excise taxes only as specified in paragraph (c) (2) of this section.

(b) For retailers. (1) The maximum price which a retailer may charge for any domestic malt beverage, except "to be sold on draught", shall be the highest price charged by him for such domestic malt beverage during the period October 1 to 15, 1941 inclusive, plus the "permitted increase" set forth in the schedule of permitted increases in paragraph (c) (1) of this section, or the maximum price now established by such retailer under the pricing provisions of the General Maximum Price Regulation plus the "permitted increase" for excise taxes only as specified in paragraph (c) (2) of this section.

(f) Method of determining manufacturer's maximum price for domestic malt beverages in 32 ounce containers.

The manufacturer's maximum price per case for domestic malt beverages in 32 ounce containers shall be

(1) The highest price per case charged by him for 12 ounce containers (after deducting any States taxes) during the period October 1 to 15, 1941, inclusive, multiplied by 1.22; Provided, That if, in accordance with (i) the pricing provisions of the General Maximum Price Regulation or (ii) any order heretofore issued by the Office of Price Administration, the percentage spread between the seller's maximum price per case for 32 ounce containers and the seller's maximum price per case for 12 ounce containers (determined by dividing the 32 ounce maximum price per case by the 12 ounce maximum price per case, after deducting any State taxes from both prices) is more or less than 1.22, the manufacturer's maximum price per case for 32 ounce containers shall be the maximum price per case for 12 ounce containers (after deducting any State taxes) during the period October 1 to October 15, 1941, inclusive, multiplied by such percentage spread instead of by 1.22. If the seller did not sell 12 ounce bottles, he shall use the nearest smaller size of container for the purposes of this subparagraph. The permitted increase specified in paragraph (c) (1) of this section and any State taxes may then be added to the result obtained; or

(2) The manufacturer's maximum price per case for 32 ounce containers established under the pricing provisions of the General Maximum Price Regulation plus the permitted increase specified in paragraph (c) (2) of this section.

§ 1420.65a Effective dates of amendments. (a) Amendment No. 1 (§ 1420.59, § 1420.66 (a), (b), (c) and (f) and § 1420.65a) of Maximum Price Regulation No. 259 shall become effective November 25, 1942.

1. On October 16, 1942, a specification of charges against you, setting forth a violation of the regulations issued pursuant to the Federal Explosives Act (55 Stat. 863) of which you were accused, was mailed to you at the above named, your last known, address, giving you notice to mail an answer within 15 days if you wished to be heard on the charge against you.

2. More than 25 days have elapsed since the giving of said notice. The length of time required for mail to be delivered to the office of the Bureau of Mines, Washington, D. C., from Greenville, California, does not exceed 6 days. You have failed to answer the charge against you.

3. The charge against you is true.

Now, therefore, by virtue of the authority vested in me by sections 8 and 18 of the Federal Explosives Act (55 Stat. 863) and § 301.22 of the regulations thereunder (7 F.R. 5901):

It is hereby ordered, That the vendor's license heretofore issued to you under the Federal Explosives Act (55 Stat. 863), be and it is hereby revoked;

And it is further ordered, That you shall immediately surrender said license and all certified or photostatic copies thereof, if any, by delivering or mailing the same to the Director of the Bureau of Mines, Interior Department, Washington, D. C.

This order is effective on and after its date, except that you will be allowed 10 days thereafter within which to sell or otherwise dispose of explosives or ingredients thereof now on hand to persons

licensed under the Federal Explosives Act and in accordance with the provisions of the act and the regulations thereunder. This exception does not authorize you to use explosives or ingredients thereof on hand, nor does it authorize you to purchase or otherwise acquire explosives or ingredients thereof.

Failure to comply with any of the provisions of this order will constitute a violation of the Federal Explosives Act, punishable by a fine of not more than \$5,000 or by imprisonment for not more than one year, or by both such fine and imprisonment.
