(2) Authorizations or directions with respect to deliveries and use in each month will, so far as practicable, be issued by the Director prior to the commencement of such month, but the Director may, at any time at his discretion and notwithstanding the provisions of paragraph (c) hereof, issue directions with respect to deliveries to be made or accepted or with respect to the use or uses which may or may not be made of glycerine to be delivered or then on hand. He may also at any time issue directions to a producer or refiner with respect to grades of glycerine to be produced or refined.

(3) Each person who is specifically authorized to accept delivery of glycerine shall use such glycerine for the purpose authorized, and only for such purpose, except as otherwise specifically directed by the Director or as provided in paragraph (b) (4) hereof.

(4) Glycerine allocated for inventory or which has reverted to inventory under the terms of this order shall not be used except as further specifically authorized or directed by the Director. Any glycerine allocated by the Director for use in a particular month shall revert to inventory if it is not used during such month.

(c) *Exceptions to requirement for specific authorization.* Notwithstanding the provisions of paragraph (b) (1) hereof, specific authorization of the Director shall not be required for:

(1) Acceptance of delivery, or use, by any person in any calendar month of 50 pounds or less of glycerine in the aggregate. For the purposes of this paragraph (c) (1) each unit of an organization shall be considered as a separate person when such unit makes separate purchases of glycerine from other persons as a part of its usual operations.

(2) Acceptance of delivery, or use, by any person, in any calendar month of not more than 1150 pounds of glycerine in the aggregate (but not more than 50 pounds); *Provided, however,* That the quantity of which delivery may be accepted, or use made, in any calendar month shall be subject to the following additional restrictions:

(iii) Where acceptance of delivery is for (or use is) the manufacture of other

medicinal or veterinary preparations: a further restriction to one hundred percent of  $\frac{1}{12}$  of the quantity of glycerine used in such manufacture in the base period;

	-----
	Name of purchaser
By	-----
	Name of authorized official
-----	-----
Date	Title

Such certificate shall be signed by an authorized official of the purchaser. The receipt of such certificate shall not authorize the delivery of glycerine by a producer or distributor when he knows or has reason to believe the same to be false, but in the absence of such knowledge or belief, he may rely on the certificate. Such certificate must be retained by the supplier for at least two years, as a part of his records. No certificate shall be required where the amount delivered to any person does not exceed one gallon.

(4) The delivery of crude glycerine to, or acceptance of delivery of crude glycerine by, a refiner for refining or the refining of crude glycerine.

(d) *Shipping overages.* Where the amount of glycerine which a person may accept delivery of under paragraphs (b) (1) or (c) (2) hereof does not represent a practical shipping unit or multiple thereof, the restrictions of such paragraphs shall not prevent the delivery and acceptance of delivery of an amount approximating such permitted quantity: *Provided, however,* That where delivery is by drum, the excess over the permitted quantity shall in no event exceed more than one small drum (approximately 550 pounds), and where delivery is by tank car, the excess over the permitted quantity shall not exceed 5% of the permitted quantity. If the name of such an alien is not included in a required crew list visa, his case shall be submitted to the Central Office for consideration of obtaining a waiver of the documentary requirements for entry. (Secs. 4 (b) and 13, 43 Stat. 155, 161; 8 U.S.C. 204 (b), 213)

Section 120.21 (second Supp. G. O. No. C-31 of March 22, 1943, 8 F.R. 4282) is amended to read as follows:

§ 120.21 *Alien seamen seeking entry in pursuit of calling; when ordered detained; waiver of crew list visa.* (a) Any alien who upon arrival establishes that he is a bona fide seaman as defined in § 120.2, is admissible as a nonimmigrant under section 3 (5) of the Immigration Act of 1924 and is not inadmissible under the other provisions of this part and of part 175, may be temporarily admitted for such period of time as the examining immigrant inspector shall designate, not to exceed, however, the time the vessel on which the alien arrives remains in the United States and in no event to exceed 29 days, if:

(c) The period of temporary admission of any seaman admitted for the period of time the vessel on which he arrives remains in the United States shall be deemed to be terminated if such vessel fails to depart to a foreign port or place within 29 days after its arrival at the port where the seaman was admitted, unless an extension of the alien's period of admission beyond 29 days from the date of the arrival of the vessel has been granted.

(d) An alien seaman whose name is not included in the visa of an alien crew list, or who is not in possession of an acceptable passport or document in lieu thereof, may nevertheless be admitted temporarily if otherwise entitled to such admission, if permission of the Secretary of State is obtained.

(e) Where the immigration officer is not satisfied that an alien applying for temporary admission as a bona fide alien seaman is entitled thereto, the immigration officer shall order the owner, charterer, agent, consignee, or master of the vessel on which such seaman arrived to detain him on board and deport him in the manner provided by law. (Sec. 33, 39 Stat. 896, 8 U.S.C. 168; secs. 3 (5), 14, 15, 20, 43 Stat. 154, 162, 162, 164, 47 Stat. 524, 607, 54 Stat. 711, 711, 8 U.S.C. 203, 214, 215, 167; secs. 32 (c), 37 (a), 54 Stat. 674, 675, 8 U.S.C. 453, 458)

ally. If such an alien seaman is found eligible to temporary admission under § 120.21, he may, if the vessel on which he arrived has departed, be granted a period not exceeding 29 days within which to reship. Extensions of such admission may be granted in the same manner as granted to other alien seamen. If such an alien seaman is found not entitled to admission, he shall be detained and his departure enforced at the expense of the vessel on which he arrived. (41 Stat. 1082; 8 U.S.C. 170)

Sections 120.38, 120.39, 120.40, and 120.41 are repealed and the following new sections are added:

§ 120.38 *Seamen returned to the United States by American consuls—(a) Applicable regulations.* Certain aliens employed as seamen on vessels of American registry are entitled under the navigation laws and American consular regulations to various privileges, including being returned to the United States when discharged in a foreign port on account of injury or illness or when they become destitute under certain circumstances in foreign countries. The cases of such seamen, whether returned to the United States as members of the crew or as passengers or workaways, shall be handled in accordance with the provisions of this section, part 175, and any applicable Executive Order prescribing the conditions for admission of alien seamen to the United States.

(b) *Evidence required.* In every instance of a vessel arriving from a foreign port having on board American seamen (aliens) who are returned by the United States consular officials, the master, purser, or other responsible officer of the vessel, or such seamen, shall present to the immigration officials documentary or other satisfactory evidence indicating that they are bona fide American seamen (aliens) returned under American consular regulations.

(c) *Admission of returned seamen.* Aliens returned to the United States under American consular regulations who arrive as members of the crew shall be treated in the same manner as any other arriving seamen, except as specified in paragraphs (d) and (e) of this section. Aliens so returned, whose occupational status as seamen is found to be bona fide and who seek to enter the United States solely in pursuit of their calling as seamen but who arrive as passengers or workaways, may be admitted for a period not to exceed 29 days for the same purposes and under the same conditions with regard to maintenance of status as if they were arriving as alien seamen. Any extension of the original period of admission of such an alien shall be granted in the same manner as if the alien had arrived and been admitted as an alien seaman. Any such returned seaman who arrives as a passenger or workaway and who seeks entry as a returning legal resident or for any purpose other than to continue in pursuit of his calling as a seaman shall be treated as any other arriving alien passenger, except as specified in paragraphs (d) and (e) of this section.

Upon his discharge from the hospital, he shall be examined and his case disposed of in accordance with paragraph (c) of this section.

(e) *When vessel exempted from liability; immigration appropriation not available for hospital treatment.* Under the navigation laws all masters of vessels of American registry bound to a port of the United States are required to take destitute American seamen (aliens) on board their vessels when so requested by American consular officials and to transport them to the United States port to which the vessel is bound, and every such master who refuses to receive and transport such seamen on the request or order of the American consular official is liable to the United States in a penalty of \$100 for each such seamen so refused. Moreover, masters of vessels of foreign registry accept such seamen as an act of courtesy extended to American consuls. Vessels transporting such seamen shall be exempted from the payment of head tax, hospital, and maintenance expenses, and liability for the penalties prescribed by the immigration laws, provided the transportation lines furnish satisfactory proof that the seamen were accepted at the request of American consuls. Under no circumstances shall hospital bills incurred on account of American seamen (aliens) returned under consular regulations be paid from the immigration appropriations. However, maintenance expenses incurred pending final determination of the status of such aliens may be paid from said appropriations.

§ 120.39 *Shipwrecked or castaway seamen*—(a) *Admission as seamen.* Aliens whose occupational status as seamen is found to be bona fide, who, as shipwrecked or castaway seamen, are rescued by or transferred at sea to a vessel bound directly for the United States, may be admitted for a period not to exceed 29 days for the same purposes and under the same conditions with regard to maintenance of status as if they were arriving as alien seamen. Any extension of the original period of admission of such an alien shall be granted in the same manner as if the alien had arrived and been admitted as an alien seaman.

(b) *Admission other than as seamen.* Any such returning seaman who seeks entry as a returning legal resident or for any purpose other than to continue in pursuit of his calling as a seaman, shall be treated as any other arriving alien passenger, except as specified in paragraph (d).

(c) *Payment of expenses.* If expenses are incurred in connection with the de-

tention and deportation of such seamen, they shall be collected from the appropriate foreign consuls or from the owners, agents, or consignees of the wrecked vessel, if practicable. If this cannot be done, then such expenses shall be paid from the appropriation for the enforcement of the immigration acts.

(d) *Procedure when afflicted.* If any such seaman shall be found to be afflicted with any of the disabilities enumerated in section 35 of the Immigration Act of 1917, and is found to be entitled to treatment in a marine hospital at the expense of the appropriation for the maintenance of such hospitals, he shall be delivered into the custody of the United States Public Health Service authorities for care and treatment in such a hospital. Any such afflicted seaman who is found not to be entitled to such treatment may be granted treatment at the expense of the wrecked vessel if the appropriate foreign consul or other responsible person satisfactorily guarantees the expenses thereof. If this cannot be arranged, the alien may be hospitalized at the expense of the immigration appropriation if his condition is such as to require emergency treatment.

(e) *Final inspection.* The final inspection of any hospitalized seaman shall be deferred until his discharge from the hospital, when his admission shall be determined in accordance with the provisions of this section, part 175, and any applicable Executive Order prescribing the conditions for admission of alien seamen to the United States.

§ 120.40 *Alien seamen who were members of the crew of an American vessel which has been sold or delivered abroad who are being returned to the United States as passengers or workaways in accordance with the terms of the contract of employment of the outbound voyage or the laws of the United States.* (a) Aliens of this class whose occupational status as seamen is found to be bona fide and who seek to enter the United States solely in pursuit of their calling as seamen, may be admitted for a period not to exceed 29 days for the same purposes and under the same conditions with regard to maintenance of status as if they were arriving as alien seamen. Any extension of the original period of admission of such an alien shall be granted in the same manner as if the alien had arrived and been admitted as an alien seaman. Any such alien who seeks entry as a returning legal resident or for any purpose other than to continue in pursuit of his calling as a seaman, shall be treated as any other arriving alien passenger except as specified in paragraph (b).

(b) Any such arriving alien who is found to be afflicted with any of the disabilities enumerated in section 35 of the Immigration Act of 1917 and who is found to be entitled to treatment in a marine hospital at the expense of the appropriation for the maintenance of such hospitals, shall be delivered into the custody of the authorities of the United States Public Health Service for such treatment. Aliens so afflicted who are not entitled to such treatment at Govern-

ment expense, may be hospitalized if the expenses incident to such hospitalization are satisfactorily guaranteed.

(c) The final inspection of any hospitalized seaman of this class shall be deferred until his discharge from the hospital when his admission shall be determined in accordance with the provisions of this section, part 175, and any applicable Executive Order prescribing the conditions for admission of alien seamen to the United States.

#### Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

#### PART 933—COPPER

[Interpretation 5 of Conservation Order M-9-c]

#### USE OF COPPER IN THE MANUFACTURE OF CERTAIN DRAINS AND STRAINERS

The following interpretation is issued with respect to Conservation Order M-9-c:

Copper Conservation Order M-9-c, as amended December 10, 1941, specifically prohibited any person from using after March 31, 1942, any copper or copper base alloy in the manufacture of gutters, leaders or downspouts, or accessories thereto, and of all roofing items, to go on private buildings. These provisions have remained in the order without interruption.

In addition, since May 7, 1942, paragraph (d) (1) of Order M-9-c (relettered as paragraph (c) (1) when the order was amended on October 4, 1943), has provided that no manufacturer may continue to manufacture from copper or copper base alloy, any article the manufacture of which, with copper or copper base alloy, is not specifically prohibited by the order, if it is practicable to use any material less scarce than copper, brass or bronze to make the article.

For some time, many manufacturers have been making floor, roof, cesspool and shower drains and strainers out of galvanized steel or iron; and it has been demonstrated that the use for such purposes of this type of material instead of copper or copper base alloy is practicable for all uses to which these articles are put except their use in places where explosives are handled or stored

or where explosive vapors may be present. Furthermore, the types of iron and steel used as well as zinc, are less scarce materials than copper or copper base alloy.

Accordingly, manufacturers are prohibited by Copper Conservation Order M-9-c from using brass or other copper and copper base alloy materials to make all roof, floor, cesspool and shower drains or strainers, even if the drains or strainers are not accessories to gutters, leaders or downspouts, or roofing items. An exception to the foregoing arises in the case of drains or strainers for floors in places where explosives are handled or stored or where explosive vapors may be present.

Issued this 19th day of October 1943.

PART 1041—PRODUCTION, TRANSPORTATION,  
REFINING AND MARKETING OF PETROLEUM

[Preference Rating Order P-98-b, as  
Amended October 19, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1041.2 *Preference Rating Order P-98-b.*

*Purpose, Definitions and Special Priorities Provisions*

(a) *Purpose.* This order tells how persons engaged in the petroleum industry may obtain priorities assistance to secure material for their operations.

This order will not be used by foreign operators who will continue to use Priorities Regulation No. 9 and forms provided for in that regulation. Nor will the order be used to secure material to be used in the Territory of Hawaii. Such material may be obtained through the procedure established by the War Production Board Regional Office for Region X rather than through this order. All other operators, including Canadian operators, must use the procedures of this order.

In general, this order provides priorities assistance to obtain material for three different purposes, and a separate procedure will be followed for each. They are as follows:

(1) Material for maintenance and repair purposes, operating supplies and laboratory equipment is secured under the MRO procedure, set out in the second major portion of this order (paragraphs (d), (e) and (f)). Preference ratings and an allotment symbol for controlled material are indicated and may be used in accordance with the procedure specified in that section.

(2) Material for most production activities, which include exploratory work and well drilling, is secured through the procedure described in the third major portion of this order headed, "Material for Use in Production" (paragraphs (g), (h), (i) and (j)). The preference rating to be used is indicated in paragraph (h). For controlled materials, however, an allotment number must be applied for. In either case, the preference rating and allotment number may be used only in accordance with the specified delivery order filing procedure, similar to that of the MRO provisions.

(3) A fourth major portion of this order (paragraphs (k), (l), (m) and (n)), describes how materials are secured for use in certain special production operations, natural gasoline recovery, transportation, refining and marketing. Here, application must be made for both a preference rating covering specific materials and an allotment of controlled materials. Any rating and allotment number assigned pursuant to such an application may be used without submitting delivery orders to either the Petroleum Administration for War or the Office of Oil Controller.

The materials which are obtained under this order may be used only in accordance with the provisions of certain applicable Petroleum Administrative orders. A general description of the scope of these orders is given in the appropriate sections of this order.

(b) *Definitions.* (1) "Operator" means any person to the extent that he is engaged in the petroleum industry. If he has been assigned a serial number under this order and is located in the Dominion of Canada, he will be referred to as a Canadian Operator.

(2) "Petroleum" means crude oil, petroleum products and associated hydrocarbons, including but not limited to natural gas.

(3) "Petroleum industry" includes any of the following activities and any operation directly incident to these activities:

(i) The discovery, development or depletion of petroleum pools (production);

(ii) The extraction or recovery of natural gasoline and associated hydrocarbons (natural gasoline recovery);

(iii) The transportation, movement, loading or unloading of petroleum other than natural gas (transportation);

(iv) The processing, reprocessing or alteration of petroleum, including but not limited to compounding or blending (refining);

(v) The distribution or dispensing of petroleum products (other than natural gas) and the storing of petroleum products incident thereto (marketing);

and shall include for each of the above listed branches of the industry, to the extent applicable, the control of, or the investigation into more effective methods of conducting, petroleum industry operations by means of research, technical or control laboratories.

(4) "Maintenance and repair" means (without regard to accounting practice):

(i) The upkeep of any structure, equipment, or material in a sound working condition or the restoration or fixing of any structure, equipment, or material which has broken down or is worn out, damaged or destroyed;

(ii) Any other use of material not exceeding in material cost \$500 for any one complete operation which has not been subdivided for the purpose of coming within this definition.

Maintenance and repair does not include (a) the deepening, redrilling, or plugging back of any well or the initial installation on any well of pumping or other artificial lifting equipment, or (b) any use of material in connection with a service station or retail outlet other than for upkeep or restoration purposes, or (c) the installation or replacement in marketing of any "equipment" defined as such in Petroleum Administrative Order No. 12.

(5) "Operating supplies" means any material other than material used for maintenance and repair which is essential to and consumed in the petroleum industry and which is normally carried by an operator as operating supplies or which is normally chargeable to operating expense.

(6) "Laboratory equipment" means material or equipment used exclusively for the purpose of controlling, or investigating more effective methods of conducting, petroleum industry operations by means of research, technical or control laboratories. This material or equipment shall not, however, include material for use in the construction of laboratory buildings or other structures.

(7) "Controlled material," "Class A product" and "Class B product" shall have the same meanings respectively, as in CMP Regulation No. 1 of the War Production Board.

(8) "Delivery order" means any purchase order, contract, release or shipping instruction which constitutes a definite and complete instruction from a purchaser to a seller calling for delivery of any material or product. The term does not include any contract, purchase order, or other arrangement which, although specifying the total amount to be delivered, contemplates that further instructions are to be given before delivery is made.

(9) "Authorized controlled material order" means any delivery order for any controlled material as such (as distinct from a product containing controlled material) which is placed pursuant to an allotment as provided in this order or which is specifically designated to be such by any regulation or order of the Petroleum Administration for War or the War Production Board.

*(c) Priorities assistance for repair services and particular materials.*

(1) An MRO rating assigned by this order may be used to obtain the use of any facilities or services for the repair of an operator's plant, machinery, or equipment, except facilities or services used for ordinary plumbing, heating, electrical, automotive or refrigeration repairs. By the terms of Priorities Regulation No. 3 repair services for which a rating may be used do not include periodic inspection, cleaning, painting, lubricating, or similar jobs. In the event that a rating is desired for services of this character, the operator should request such a rating by a letter filed with the Petroleum Administration for War, Washington 25, D. C., specifying the work required and the facilities with which it will be done.

(2) An MRO rating assigned pursuant to this order may also be used to obtain any item on List B of Priorities Regulation No. 3 for which a rating is required. However, to use an MRO rating for such an item an operator must submit his delivery order in accordance with Schedule A, Part 3, of this order and may place the rated delivery order with a supplier only after approval is received.

(3) Priorities assistance for the materials listed on Schedule B of this order may also be obtained under this order but only by filing the forms specified on that schedule in accordance with the instructions contained in that schedule.

(4) Priorities assistance may not be obtained under this order for material or equipment to be used by consumer accounts for or in the storage or dispensing of petroleum, including liquefied petroleum gas. Maintenance and repair for this type of equipment is covered under Preference Rating Order P-98-e.

(5) Priorities assistance may not be obtained under this order for tank trucks and trailers, railroad rolling stock, marine equipment or parts for any of these, unless the priorities assistance is used to secure the following:

(i) Material to be actually attached to a tank truck or trailer and necessary for containing, dispensing, measuring the movement of, or distributing petroleum;

(ii) Parts for railroad rolling stock, which rolling stock is owned or leased by the operator, is used on his premises and in the petroleum industry, and is not under the jurisdiction of the Interstate Commerce Commission;

(iii) Parts for marine equipment, which marine equipment is used or chartered by the operator, is used on or in the vicinity of his premises and in the petroleum industry, and for which no other method of securing priorities assistance exists.

Special methods for securing priorities assistance for the above equipment or equipment parts which may not be obtained under this order have been established by the Office of Defense Transportation, the Maritime Commission, and the War Production Board.

(6) Priorities assistance may not be obtained under this order for "residential construction" or "multiple residential construction", as defined in Order L-41

where the construction is in connection with natural gasoline recovery, transportation, refining or marketing. Order L-41 establishes methods for securing needed priorities assistance.

*MRO Material—Maintenance and Repair, Operating Supplies, and Laboratory Equipment*

(d) *Allotment symbol and rating.* To secure material for maintenance and repair, operating supplies or laboratory equipment (all known as MRO material), an operator may use allotment symbol MRO-P-3 and preference rating AA-1, except that only a rating of AA-5 may be used to buy MRO material for use in retail marketing.

(e) *How to use allotment symbol and rating.* To use the MRO allotment symbol and rating, an operator must:

(1) Place the allotment symbol on delivery orders for controlled materials and the allotment symbol and preference rating on delivery orders for other MRO materials, certifying each delivery order in accordance with paragraph (r).

(2) Endorse on each delivery order of \$100 or more (or accompany it by) a statement telling the specific use to which the material is to be put, the branch of the petroleum industry and the PAW District in which it is to be used, the price, quantity and description of the material (including weight if it is a controlled material).

(3) Prior to placing each delivery order with a supplier, submit copies of the order as follows:

(i) If the delivery order is for less than \$100, no copy need be submitted.

(ii) If the total amount of the order is for \$100 or more, but less than \$1,000 and no item on the order costs more than \$500, one copy must be submitted for information purposes.

(iii) If the total amount of the order is \$1,000 or more and no item on the order costs more than \$500, two copies must be submitted.

(iv) If any item on the order costs more than \$500, two copies must be submitted.

All orders for MRO material for use in production must be submitted to the District Office of the Petroleum Administration for War for the District in which the material is to be used.

Other MRO orders must, if they fall within groups (ii) and (iii) above be submitted to the District Office for the District in which the material is to be used, or at the operator's election, where his purchasing office is located; if they fall within group (iv) above, be submitted to the Washington Office. Canadian orders must be submitted to the Office of Oil Controller, Dominion of Canada.

An operator may not place a delivery order in groups (iii) or (iv) with a supplier until there has been returned to him one approved copy of such order.

In the case of delivery orders for the special materials listed on Schedule A, the filing instructions set out in that schedule apply.

(4) An operator requiring aluminum as a controlled material need only certify his delivery order in accordance with paragraph (r) if the quantity required is 500 pounds or less from all sources during a calendar quarter. If the quantity required is more than 500 pounds, he must apply by letter for permission to purchase the excess amount (furnishing the applicable information called for by paragraph (d) of Supplementary Order M-1-1) to the Aluminum and Magnesium Division, War Production Board, Ref: M-1-1. If approved the operator must certify his delivery order in accordance with paragraph (r) before submitting it to a supplier. Copies of aluminum delivery orders need not be submitted to the Petroleum Administration for War unless required by Schedule A.

*(f) Emergency MRO materials.*

Where there has been an actual breakdown or suspension of operations, and where the methods specified above will not get the material on the date and in the quantity required, an operator may request authority to secure emergency MRO material by letter, telegram or telephone to the District Office (in the case of production), or to the Washington Office (in all other cases), Ref: P-98-b, supplying the following information:

(1) Date of actual breakdown or suspension of operations and exact explanation as to what extent operations are affected.

(2) Description of equipment to be repaired and its function in maintaining continuous operation.

(3) Price, quantity and detailed description of necessary material (including weight if a controlled material) and number and date of delivery order(s) thereof.

If information is supplied by telephone, it must be confirmed within three days by letter or telegram. No delivery order for emergency MRO material need be submitted to the Petroleum Administration for War but an operator shall not place a delivery order with a supplier for the emergency MRO material until approval has been received and the delivery order has been certified in accordance with paragraph (r).

*Material for Use in Production*

(g) *Scope of paragraphs (g), (h), (i), (j).* The following paragraphs under this general heading of "Material for Use in Production" set forth the methods to be used by a production operator in securing and using priorities assistance to get the material he will need for most of his operations. However, these paragraphs do not cover methods for obtaining priorities assistance for MRO material or material for use in the following special production operations:

Gas cycling operations for condensate recovery (including gathering and injection lines in connection therewith),  
Gas desulphurization operations,  
Gas dehydration operations,  
Pressure maintenance operations, or

Gas lift compression plants or gas booster plants having a rated capacity in excess of 500 h. p.

Methods for securing MRO material have been set forth in paragraphs (d), (e) and (f) above, while methods for securing material for special production operations are set forth in paragraphs (k), (l) and (m) which follow:

References made in paragraphs (h), (i) and (j) immediately below, to production allotment numbers and ratings or to materials for use in production, apply only to the acquisition and use of material for the production operations covered by these paragraphs. Such references do not apply to MRO material or to material for use in the special production operations listed above.

(h) *Allotment number and rating.*

(1) To secure controlled materials for use in production, an operator must secure an allotment and an allotment number by filing four copies of PAW Form 35 with the District Office of the Petroleum Administration for War, for the District in which the operations are to be conducted (a Canadian operator files such forms with the Office of Oil Controller, Dominion of Canada) in accordance with the following:

(i) If he has drilled, or there has been drilled, for his operations, 40,000 feet of hole or more in 1942, the application must be filed at least three months prior to the beginning of the calendar quarter in which the controlled materials are to be delivered.

(ii) If he has drilled, or there has been drilled, for his operations, less than 40,000 feet of hole in 1942, the application must be filed not less than one month prior to the proposed delivery date of the controlled materials. If he is able to plan his operations, an applicant in this class (ii) should file his application three months prior to the beginning of the calendar quarter in which the controlled materials are to be delivered, or as far ahead of the commencement of such quarter as possible.

(iii) In addition, interim assistance may be requested at any time by filing PAW Form 35.

(2) To secure materials, other than controlled materials, for use in production, an operator may use preference rating AA-2X.

(i) *How to use allotment number and rating.* To use his production allotment number and rating, an operator must:

(1) Place the allotment number on delivery orders for controlled materials and the allotment number (if an allotment number has been assigned) and preference rating on delivery orders for other materials, certifying each delivery order in accordance with paragraph (r).

(2) Endorse on each delivery order of \$100 or more (or accompany it by) a statement telling the specific use to which the material is to be put, the branch of the petroleum industry and the PAW District in which it is to be used, and the price, quantity and description of the material (including weight and PAW Form 35 application

serial number if it is a controlled material).

(3) Prior to placing each delivery order with a supplier, submit copies of the order to the District Office of the Petroleum Administration for War for the District in which the material is to be used (or to the Office of Oil Controller if he is a Canadian operator) as follows:

(i) If the delivery order is for less than \$100, no copy need be submitted.

(ii) If the total amount of the order is for \$100 or more, but less than \$1,000 and no item on the order costs more than \$500, one copy must be submitted for information purposes.

(iii) If any item on the order costs more than \$500, or if the total amount of the order is \$1,000 or more, two copies must be submitted.

An operator may not place a delivery order in group (iii) with a supplier until there has been returned to him one approved copy of such order.

In the case of delivery orders for the asterisked special materials listed on Schedule A, the filing instructions set out in that schedule apply.

(j) *How to obtain authority to use materials.* Use of material in production is controlled by Petroleum Administrative Order No. 11, as amended and supplemented from time to time. Unless authority is granted by PAO-11 or an amendment or supplement to that order, to use material in the particular production operation, the operator must obtain an exception under PAO-11.

*Material for Use in Special Production Operations, Natural Gasoline Recovery, Transportation, Refining and Marketing.*

(k) *Scope of paragraphs (k), (l), (m), (n).* The following paragraphs under this general heading of "Material for Use in Special Production Operations, Natural Gasoline Recovery, Transportation, Refining, and Marketing" set forth the methods to be used by an operator engaged in any one of those industry branches or operations in securing and using priorities assistance to get the material he will need for his operations. The special production operations for which priorities assistance is made available by this major section are:

Gas cycling operations for condensate recovery (including gathering and injection lines in connection therewith),  
Gas desulphurization operations,  
Gas dehydration operations,  
Pressure maintenance operations, or  
Gas lift compression plants or gas booster plants having a rated capacity in excess of 500 h. p.

Methods for securing MRO material have been set forth in paragraphs (d), (e) and (f) above. References made in paragraphs (l), (m) and (n) immediately below to allotment numbers and ratings and to the use of material, apply only to the acquisition and use of material for the operations covered by these paragraphs. Such references do not apply to MRO material.

(l) *Allotment number and rating.* To secure equipment or material requiring an allotment number or preference rating for use in any special production operations, natural gasoline recovery, transportation, refining or marketing, an operator must file PAW Form 30 in accordance with the instructions set out on that form. Form WPB-541 (PD-1A) may be used instead of this form to obtain any single item of machinery or equipment, regardless of cost, if that single item of machinery or equipment can be installed with the use of no more than \$500 worth of additional material. The additional material (no more than \$500 worth) may be purchased through the MRO procedure of this order. A Canadian Operator must file these forms with the Office of Oil Controller, Dominion of Canada.

(m) *How to use allotment number and rating.* To use the allotment number and rating granted through a PAW Form 30 application or obtained on Form WPB-541, an operator must place the allotment number on delivery orders for controlled materials and the allotment number (if an allotment number has been assigned) and preference rating on orders for other materials, certifying each delivery order in accordance with paragraph (r). An operator may place authorized controlled materials orders only for the controlled materials specified for use in the operations designated on the PAW Form 30 application and may apply or extend the preference rating only to secure material requiring a rating and approved in connection with the PAW Form 30 application.

(n) *How to obtain authority to use material.* (1) Use of material in transportation or refining, is governed by Petroleum Administrative Order No. 15. Use of material in special production operations described above and in natural gasoline recovery is governed by Petroleum Administrative Order No. 11. Since either PAW Form 30 or Form WPB-541, when filed as an application to secure material for use in connection with special production operations, natural gasoline recovery, transportation or refining, is also considered an application to use materials in connection with such operations, the authorization obtained by an operator by either of these forms shall be considered authority to use the materials specified on the forms in accordance with the provisions of such orders.

(2) Use of material (other than liquefied petroleum gas equipment) in marketing is governed by Petroleum Administrative Order No. 12, as amended and supplemented. If use of the material (other than liquefied petroleum gas equipment) is not authorized by PAO-12, the operator must secure an exception under that order.

(3) Installation of liquefied petroleum gas equipment is governed by Order L-86. If the material to be used in marketing is liquefied petroleum gas equipment and installation of such is not permitted by Order L-86, the operator must secure an exception under that order.

(4) Exceptions under PAO-12 or L-86 do not afford priorities assistance to secure material. Such priorities assistance should be applied for under paragraph (1). MRO material will, of course, be obtained through the MRO procedures of this order, or, where applicable, through Preference Rating Order P-98-e.

#### General Provisions

(o) *Allotments by operators.* An operator who has obtained an allotment of controlled materials may require the manufacture and installation of certain Class A products or may undertake the operation through a construction contractor. In either case it may be necessary for the operator to allot a portion of his allotment to the Class A product manufacturer or to the contractor (each of whom then becomes a "secondary consumer" under CMP Regulations) for reallocation or the placement of authorized controlled material orders. Any operator making such an allotment must follow the procedures in CMP Regulation No. 1, except as modified by this order.

(p) *Placement of delivery orders.* (1) In preparing or placing a delivery order an operator shall not alter the customary designation of any item or items for the purpose of making it appear that an item costs \$500 or less or that the total cost of all items on the delivery order is less than \$100 or \$1,000, as the case may be.

(2) Any delivery order for controlled materials placed pursuant to this order and bearing the certification provided for in this order is an authorized controlled material order if the delivery order is in sufficient detail to permit entry on mill schedules and is received by the controlled materials producer at such time in advance as is specified in Schedule III of CMP Regulation No. 1, or at such later time as the controlled materials producer may find it practicable to accept the same. Attention is called to paragraph (t) of CMP Regulation No. 1 relating to rejection of orders by a controlled materials producer, including instances where less than minimum mill quantities, as specified in Schedule IV of the regulation, are requested by an operator.

(3) The allotment number endorsed upon any delivery order bearing the certification provided for in this order shall be an abbreviated allotment number consisting of a major program identification and the quarterly identification. The allotment symbol MRO-P-3, authorized in connection with MRO material, shall constitute an allotment symbol for the purpose of all CMP regulations. In using this symbol no reference to a program or quarterly identification need be made.

(q) *Use, cancellation and reduction of allotments.* (1) An operator who receives an allotment of controlled materials on PAW Form 35 in advance of the calendar quarter in which such materials are to be acquired, must reallocate the same or place delivery orders for such materials within thirty days after the beginning of the quarter. An operator who receives an allotment of controlled materials on PAW Form 35

during the quarter in which the same are to be acquired, must reallocate the same or place delivery orders for such materials within thirty days after the allotment is received. If such an allotment is not used in placing controlled material orders or in making reallocations within such periods, an operator must promptly notify the District Office for the District in which the material was to be used (or the Office of Oil Controller, Toronto, Canada) of the extent to which the allotment has not been reallocated, or orders have not been placed.

(2) An operator who receives an allotment of controlled materials pursuant to application on PAW Form 30 or Form WPB-541 must use it only for the purpose for which it was made. If such an allotment is not used in placing controlled material orders or in making reallocations, the operator must promptly notify the Washington Office (or its Office of Oil Controller, Toronto, Canada) of such facts.

(3) An operator who has made an allotment may cancel or reduce the same by notice in writing to the person to whom it was made. Where an allotment received by an operator is cancelled, he must cancel all allotments which he has placed on the basis of the allotment. Where an allotment received by an operator is reduced, he must cancel or reduce allotments which he has made, or authorized controlled material orders which he has placed, to the extent that the same exceeds his allotment as reduced. In the event this course of action is impracticable, the operator shall immediately request instructions of the Petroleum Administration for War or the Office of Oil Controller.

(r) *Certification.* An operator may use an allotment number or symbol or preference rating authorized pursuant to this order by endorsing upon his delivery order a certification in substantially the following form:

The undersigned purchaser certifies, subject to the penalties of section 35A of the United States Criminal Code, to the seller and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order, to receive the item(s) ordered for the purpose for which ordered, and to use any preference rating or allotment number or symbol which the undersigned has placed on this order.

This certification may be used as provided in Priorities Regulation No. 7. It may also be used instead of any other certification required by any regulation or order of the War Production Board, to the extent permitted by Priorities Regulation No. 7. The certification must be signed manually or by the use of a facsimile signature as provided in that Regulation.

(s) *Restoration of inventories.* An operator may use an allotment number or symbol or preference rating authorized under this order to restore his inventory to a practicable working minimum. However, an operator may not secure

replacements which would result in surplus material as defined in Preference Rating Order P-98-c as amended.

(t) *Restrictions.* An operator may not use the allotment number or symbol or the preference ratings authorized under this order to obtain material:

(1) For any purpose other than a purpose authorized under this order or in greater amounts or on earlier dates than required for any authorized purpose.

(2) Which can be secured without the use of an allotment number or symbol or preference rating.

(3) The use of which could be eliminated without serious loss of efficiency by substitution of less scarce material, or by change of design.

(4) In such amounts or on such dates that receipt of such amounts on the requested dates would result in surplus material as defined in Preference Rating Order P-98-c, as amended.

(5) Unless such operator is a participant in the PAW Materials Redistribution Program No. 2, if participation by the operator in this program is required.

(u) *Applicability of other orders and regulations.* (1) This order and all transactions affected hereby, except as herein otherwise provided, are subject to all orders and regulations of the War Production Board, as amended from time to time.

(2) None of the provisions of CMP Regulation Nos. 2, 5, or 6 (or the limitations incorporated in any CMP Regulation which otherwise would subject an operator to the provisions of CMP Regulation Nos. 2, 5, or 6) shall apply to an operator and no operator shall obtain any material under or be limited by the provisions of such regulations or limitations. The provisions of paragraphs (i), (s), (s-1) and (u) of CMP Regulation No. 1 shall not apply to an operator who secures material in accordance with the provisions of this order. Other than as set forth in paragraph (c) (6) hereof, the provisions of Limitation Order L-41, as amended from time to time, shall not apply to an operator as such operator is limited by the provisions of that order.

(3) Any preference rating, other than a rating for MRO material, assigned pursuant to the provisions of this order is assigned in lieu of a preference rating under an order in the P-19 series. Any reference in any order of the War Production Board to an order in the P-19 series shall constitute a reference to a preference rating assigned pursuant to this order.

(v) *Further limitations on use of priorities assistance.* The Petroleum Administration for War may issue in its own name further restrictions or limitations on the use of priorities assistance by operators in the petroleum industry.

(w) *Communications.* All reports required to be filed hereunder and all communications concerning this order should, unless other directions are given, be addressed:

(1) If in connection with production, to the appropriate District Office as set forth in Schedule C, or

(2) If in connection with other than production, to the Petroleum Administration for War, Interior Building, Washington 25, D. C., Ref: P-98-b.

(3) If by a Canadian operator, to: Office of Oil Controller, Dominion of Canada, Toronto, Canada, Ref: P-98-b.

(x) *Violations.* Any person who willfully violates any provision of this order or who wilfully furnishes false information to the Petroleum Administration for War or the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

The reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 19th day of October 1943.

WAR PRODUCTION BOARD,  
By J. JOSEPH WHELAN,  
Recording Secretary.

#### SCHEDULE A

*Part 1.* One copy of any delivery order for the following items (if the total cost of all items on the order is more than \$100) must be submitted for information purposes only to the District Office (or the Office of Oil Controller) where the material is to be used:

- (a) Aluminum (in forms and shapes constituting a controlled material).  
(b) Rotary bits.

*Part 2.* Two copies of any delivery order (regardless of amount) must be submitted for the following items:

- (a) \*Cast iron valves over 12 inches.  
(b) \*Industrial instruments, control valves, and safety and relief valves.  
(c) \*Steel valves.

Submit delivery orders (a) in connection with production to the District Office for the District in which the material is to be used; (b) in connection with other than production where no item on the order costs more than \$500, to the District Office for the District in which material is to be used, or at the operator's election in which his purchasing office is located; (c) in connection with other than production where any item on the order costs more than \$500, to the Washington Office; or (d) if by a Canadian operator, to the Office of Oil Controller. An operator may not place a delivery order with a supplier covering items listed in Part 2 of this schedule until there has been returned to him one approved copy of such order.

*Part 3.* Two copies of any delivery order (regardless of amount) must be submitted to the Washington Office to obtain priorities assistance for items on List B of Priorities Regulation No. 3. An operator may not place a delivery order with a supplier covering these items until there has been returned to him one approved copy of such order.

This general rule, however, does not apply to two particular types of materials set forth on list B of Priorities Regulation No. 3:

(a) Containers and other special items listed on Schedule B of this order. These may be obtained only by following the instructions of Schedule B.

(b) Laboratory instruments and equipment. These may be obtained under the general MRO procedure of this order, and the filing instructions generally applicable for MRO material should be used instead of the special instructions of this Schedule A.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[Direction 34, as Amended Oct. 19, 1943, to CMP Regulation 1]

CLASS A FACILITIES NOT RELATED TO CONSTRUCTION

The following direction is issued pursuant to CMP Regulation 1.

(a) This direction tells how you may apply for priorities assistance to buy a Class A facility from the manufacturer of the facility where an allotment of controlled material is needed and where you cannot apply for pri-

orities assistance under CMP Regulation No. 6—"Construction and Facilities".

(b) The term "facility" means any machinery or equipment which is generally carried as a capital item. Your local WPB office will tell you whether the facility you wish to buy is a Class A product and you should check with it if you have any doubt as to whether you should follow this procedure.

(c) This direction does not deal with the case where a Class A facility is to be bought from a distributor, or as a minor capital addition under paragraph (b) (3) of CMP Regulation No. 5 (or under similar provisions of other regulations or orders), or where the facility is a Class B product, since the purchaser does not take any part in getting allotments of controlled materials in these cases.

(d) If you want to buy a Class A facility under this direction and an allotment of controlled materials is needed for its manufacture, you should file an application for priorities assistance with your local WPB office. In most cases the application should be made on Form WPB-541 (formerly PD-1A), but there are special forms for special products which your local WPB office will explain. Before filing your application you should have the manufacturer from whom you intend to buy the facility fill out and sign a Form CMP-4A application for an allotment of the controlled materials needed to make the facility. In preparing the form only items 3, 4, 5, 6 and 7 and section B need be filled in. This form, together with one copy, should be filed along with your application.

(e) If your application is approved, the War Production Board will assign a rating for the purchase of the facility and will make an allotment on CMPL-150 of the controlled materials needed to make the facility. You will use the rating in placing your order for the Class A facility and will make an allotment on CMPL-150A to the manufacturer of the facility. The manufacturer may use the allotment and preference rating assigned for the production of the facility to buy controlled materials, Class A products, Class B products and other products and material needed as production material to make the facility. The manufacturer may not use the allotment or rating for any other purpose. The manufacturer must accept and fill your order, or reject it, as required by paragraph (p) of CMP Regulation No. 1 relating to the protection of production schedules for Class A products. If the manufacturer is compelled to reject the order under paragraph (p), you may place your order with any manufacturer whom you may select, and if he is in a position to accept the order under paragraph (p) you may, without further action by the War Production Board, make the allotment to him.

(f) If you need an allotment of controlled materials for a Class A facility which you will make for yourself and which you cannot apply for under CMP Regulation No. 6, you may follow the procedure outlined in this Direction just as though you were going to buy the facility from a manufacturer. In such a case you may use the allotment and preference rating assigned for the production of the facility to buy controlled materials, Class A products, Class B products and other products and material needed as production material to make the facility.

## PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[Inventory Direction 13 Under CMP Reg. 2]

## SEGMENT OR EXPANDER STEEL

§ 3175.113 *Inventory Direction No. 13.* Pursuant to paragraph (b) (2) of CMP Regulation 2, it is hereby ordered, that:

In the case of any person who uses in the production of piston rings special heat treated, tempered, polished and colored high carbon steel known as segment or expander steel the provisions of paragraph (b) (1) of CMP Regulation 2 shall not apply. In lieu thereof, no user of controlled material shall accept delivery of any item of such segment or expander steel for use in the production of piston rings if his inventory of such item is or will by virtue of such acceptance become greater than the quantity of such item he will be required to put into use during the succeeding 90 day period in order to carry out his authorized operations.

## PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 4, as Amended Oct. 19, 1943]

## SALES OF CONTROLLED MATERIALS BY WAREHOUSES AND DISTRIBUTORS

§ 3175.4 *CMP Regulation 4—(a) Purpose and scope.* This regulation describes the procedure to be followed by warehouses and distributors in delivering controlled materials from stock (including consigned stock) except that in the case of steel, deliveries from one distributor to another are governed by Orders M-21-b-1 and M-21-b-2.

*Steel*

(b) *Definitions with respect to steel.* The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP regulation unless otherwise indicated:

(1) "Steel" means carbon steel, alloy steel, and wrought iron, in the forms and shapes listed in Schedule I of CMP Regulation No. 1.

(2) "Distributor" means any person (including a warehouse, jobber, dealer or retailer) who is engaged in the business of receiving steel for sale or resale in the form received or after performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, pipe threading, or corrugating or otherwise forming sheets for roofing and siding; but a person who, in connection with any sale, bends, punches or performs any fabricating operation designed to prepare steel for final use or assembly shall not be deemed a distributor with respect to such sale.

(c) *Rejection of orders.* (1) A distributor must reject all orders except those which he is required or permitted to fill under paragraph (d).

(2) A distributor must reject any order calling for delivery to any one person, at any one destination, at any one time or at the convenience of the distributor, of 56,000 pounds or more of rails or of 40,000 pounds or more of all other steel products except:

(i) Where acceptance of the order is specifically authorized by the War Production Board at the request of the buyer or seller, or

(ii) Where the order covers only oil country tubing, oil country casing, or oil country drill pipe, or

(iii) Where the order includes 10 or more individual items and each item differs from each other item in specified quality or cross section and no item weighs more than 8,000 pounds.

No person shall subdivide an order for the purpose of avoiding any of the requirements of this paragraph (c) (2).

(3) A distributor must not deliver any steel on an authorized controlled material order bearing a specific allotment number except in the period for which the allotment was made or within 15 days before or 30 days after such period. For example, a distributor receiving an order bearing the allotment number N-1-4Q43 may fill the order at any time during the period September 15, 1943, through January 31, 1944. Orders bearing symbols such as MRO which do not have to bear any quarterly identification are not subject to this provision.

(4) A distributor may reject any order for steel on which the customer does not specify immediate delivery. Even if he elects to accept an authorized controlled material order calling for future delivery, he is not allowed to set aside the steel covered by such order. He must deliver it on any order calling for immediate delivery that he is required to fill under paragraphs (d) (1), (2) or (3), and may deliver it on any order calling for immediate delivery that he is permitted to fill under paragraph (d) (4).

(5) A distributor may reject any order calling for the delivery of steel which he does not have in stock or which he does not know is in transit to his stock.

(6) A distributor may reject all or any part of an order which the War Production Board specifically authorizes him to reject. If a delivery would deplete his stock to a point where his function in the distribution of steel would be seriously impaired, he may apply to the War Production Board for authority to reject the order and may delay filling the order until his application is acted upon.

(d) *Orders which must be filled.* A distributor must fill the following kinds of orders unless he is required or permitted to reject them under paragraph (c):

(1) A distributor must fill all authorized controlled material orders.

(2) A distributor must fill orders for delivery to farmers as required by Priorities Regulation No. 19.

(3) A distributor must fill orders bearing preference ratings of AAA.

(4) A distributor may fill other orders as follows, but is not required to do so regardless of whether rated or not:

(i) Orders in amounts of \$10 or less. No endorsement is required on such orders.

(ii) Orders calling for delivery to one customer during any calendar quarter of not more than 10 tons of carbon steel, 1,000 pounds of stainless steel and 2 tons of other alloy steel, providing such deliveries of any one product group and type to one customer do not exceed the amounts shown below:

[NOTE: Table amended Oct. 19, 1943.]

	Quantities in pounds per quarter unless otherwise stated		
	Carbon (including wrought iron)	Stainless	Alloy (Other than stainless)
Tool steel, including drill rod.....	300	.....	300
Tool steel bits.....	.....	.....	5
Mechanical tubing.....	1,000*	100*	300*
Wire rope and strand.....	300*	.....	.....
Music Wire.....	300	.....	.....
All other steel products.....	20,000	1,000	4,000

\*Feet per quarter.

Each order placed under this paragraph (d) (4) (ii) must be accompanied by or endorsed with a certificate signed manually or as provided in Priorities Regulation No. 7 in substantially the following form:

The undersigned hereby certifies to the distributor with whom this order is placed and to the War Production Board, subject to the criminal penalties provided in Section 35 (A) of the United States Criminal Code, that receipt of the steel covered by this order, together with all other steel received by, or on order for delivery to, the undersigned, from all sources, during the same quarter, will not exceed the limits specified in paragraph (d) (4) of CMP Regulation No. 4.

A distributor shall be entitled to rely on such certificate unless he knows or has reason to believe it to be false.

The purpose of this paragraph (d) (4) (ii) is to permit persons using small quantities of steel to obtain their requirements without the use of allotments; it is not to allow users of large quantities to obtain steel in addition to their purchases on authorized controlled material orders. Therefore, a person who buys any steel under this paragraph (d) (4) (ii) cannot receive steel in any quarter in excess of the amounts shown in the above table, whether the steel comes from producers, distributors, or other sources and whether it is received on authorized controlled material orders or otherwise.

*Copper*

(e) *Definitions with respect to copper.* The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP regulation unless otherwise indicated:

(1) "Brass mill product" means sheet, wire, rod or tube made from copper or copper base alloy.

(2) "Wire mill product" means bare or insulated wire or cable for electrical conduction made from copper or copper base alloy.

(3) "Warehouse" means any industrial supplier, mill supplier, plumbing supply house, electrical wholesaler or other person engaged in the business of distributing brass mill products or wire mill products to industry or trade otherwise than as a controlled materials producer and includes warehouses owned by mills.

(4) "Item of brass mill product" means sheet, wire, rod or tube made from copper or copper base alloy, which is different from all other items of that form, by reason of one or more differences of its specifications, such as size, shape, gauge, thickness or alloy. Differences in temper or length do not differentiate items.

(5) "Item of wire mill product" means any wire or cable made from copper or copper base alloy for electrical conduction which is different from all other items of that form by reason of one or more differences of its specifications, such as size, alloy or insulation. Differences in temper or length do not differentiate items.

(6) "Warehouse stock" means brass mill or wire mill products physically located in warehouse inventories, whether owned or held on consignment by the warehouse.

(f) *Delivery of brass mill or wire mill products*—(1) *Delivery from warehouse stock.* (i) A warehouse shall fill authorized controlled material orders for brass mill or wire mill products, in accordance with this regulation, if it can fill the orders from its stock. In addition, until October 1, 1943, a warehouse shall fill from its stock orders for brass mill or wire mill products bearing preference ratings of AA-5 or higher, in accordance with this regulation, except that the total quantity of brass mill and wire mill products shipped on rated orders during the period commencing July 1, 1943, and ending September 30, 1943, must not exceed 2 percent of the total quantity of brass mill or wire mill products, respectively, shipped by the warehouse during the period commencing April 1, 1943, and ending June 30, 1943. In no case, however, may a warehouse fill an order for brass mill or wire mill products unless the purchaser has the right to accept delivery under paragraphs (f) (1) (ii) and (f) (1) (iii), which limit the amount of brass mill and wire mill products which a purchaser may get from a warehouse. A warehouse is entitled to rely on a certificate furnished by any of its customers under paragraph (f) (1) (iv) unless it knows or has reason to believe it to be false. A warehouse shall not fill any order for brass mill or wire mill products except those which it is required to fill by this paragraph (f) (1) (i).

(ii) No person shall order from warehouse stocks any item of brass mill product for delivery to any one destination,

on any one day, which aggregates more than 500 pounds gross weight, or for delivery during any one calendar month, which aggregates more than 2,000 pounds gross weight, and no person shall accept any such delivery. However, the 500 pound limitation does not apply to a single straight length of rod, tube, pipe, sheet, or strip and neither the 500 pound nor the 2,000 pound limitation applies to condenser tubes.

(iii) No person shall order from warehouse stock any item of wire mill product for delivery to any one destination, during any one calendar month, which aggregates more than 3,000 pounds copper content and no person shall accept any such delivery.

(iv) No person shall place an order under this paragraph and no warehouse shall accept an order unless it is accompanied by, or endorsed with, a certificate in the form provided in CMP Regulation No. 7, signed manually or as provided in Priorities Regulation No. 7.

(2) *Other deliveries.* A warehouse receiving an authorized controlled material order from a customer and wishing to arrange for direct shipment to such customer by the producer or other supplier thereof, shall, in placing such order, specify direct delivery and shall show on its own purchase order the name of the customer and the allotment number or symbol appearing on the customer's order. A purchase order specifying direct delivery and giving such information shall be deemed an authorized controlled material order. A warehouse placing such an order shall not consider the delivery as made from its stock, and it may not request replacement.

(3) *Delivery after September 30, 1943.* No warehouse shall make a delivery after September 30, 1943, of any brass mill or wire mill product except to fill an authorized controlled material order.

#### Aluminum

(g) *Definitions with respect to aluminum.* The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP Regulation unless otherwise indicated:

(1) "Aluminum" means aluminum in any of the forms and shapes constituting controlled material as defined in CMP Regulation No. 1.

(2) "Distributor" means any person who is specifically authorized by the War Production Board to engage in the business of receiving aluminum for sale or resale.

(h) *Deliveries of aluminum by distributors on authorized controlled material orders.* (1) Each distributor shall, to the extent of his available stocks, fill authorized controlled material orders, except that a distributor shall reject any authorized controlled material order calling for delivery at any one time, to any one person, at any one destination, of more than 500 pounds of any gage, alloy and size of aluminum sheet, or more than 300 pounds of any alloy, shape and size of aluminum wire, rod or bar, or more than 200 pounds of any alloy, size and shape of aluminum tubing, extrusions or structural shapes: *Provided, however,*

That any distributor shall be entitled to fill an authorized controlled material order calling for delivery at any one time, to any one person, at any one destination, of 2,000 pounds or less of any gage, alloy and size of aluminum sheet, 1,000 pounds or less of any gage, alloy and size of aluminum wire, rod or bar, or 500 pounds or less of any alloy, size and shape of aluminum tubing, extrusions or structural shapes, if such distributor shall first have requested the mill supplying him to fill such order and such mill shall have advised such distributor to fill the same from his stock. Such request and advice may be made verbally but shall be confirmed in writing.

(2) No distributor shall deliver any aluminum except to fill an authorized controlled material order or pursuant to a specific direction of the War Production Board.

#### General Provisions Applicable to Steel, Brass Mill Products, Wire Mill Products and Aluminum

(i) *Directions to distributors and warehouses.* Each distributor and warehouse shall comply with such directions as may be issued from time to time by the War Production Board with respect to making or withholding deliveries of steel, brass mill products, wire mill products or aluminum, and with respect to the ear-marking of stocks of such material.

(j) *Placement of authorized controlled material orders.* A delivery order for steel, brass mill products, wire mill products or aluminum, shall be deemed an authorized controlled material order, if but only if,

(1) It is specifically designated as an authorized controlled material order by any regulation or order of the War Production Board; or

(2) It is endorsed with the appropriate allotment number as required by paragraph (s) (3) of CMP Regulation No. 1.

(k) *Verbal delivery orders.* Any delivery order requiring shipment within seven days may be placed verbally or by telephone by stating to the distributor or warehouse the substance of the information required by this regulation, *Provided,* That the person placing the order furnishes to the distributor or warehouse, within fifteen days after placing the same, written confirmation of the order complying with the requirements of this regulation. In case of failure to receive written confirmation within fifteen days, the distributor or warehouse shall not accept any other order from, or deliver any additional material of any kind to, the purchaser until such written confirmation is furnished. On or before the twentieth day of each month any distributor or warehouse who has received in the prior month a delivery order by telephone, shall notify the appropriate Regional Compliance Office of the War Production Board, of any case in which a purchaser has failed to furnish to him the written confirmation when due.

(l) *Special provisions with respect to AAA orders.* Notwithstanding the foregoing provisions of this regulation, an

authorized controlled material order placed with a distributor or warehouse bearing a rating of AAA shall be filled in preference to any other authorized controlled material orders regardless of time of receipt.

(m) *Communications.* All communications concerning this regulation should be addressed to the War Production Board, Washington 25, D. C., Ref: CMP Regulation No. 4 (specify whether steel, copper or aluminum).

Issued this 19th day of October 1943.

WAR PRODUCTION BOARD,  
By J. JOSEPH WHELAN,  
Recording Secretary.

#### INTERPRETATION 1

The definitions of "distributor" and "warehouse" appearing in paragraphs (b) (2) and (e) (3) of CMP Regulation No. 4 are not deemed to include persons engaged solely in the business of distributing automotive replacement parts. Consequently, such persons may sell, for use as automotive replacement parts, such items as bulk or spooled primary and spark plug wire battery cables and magnet wire, without reference to the terms of CMP Regulation No. 4, but subject to the provisions of General Limitation Order L-158 and other applicable regulations or orders. SECTION 1. *War Ration Book Four.* (a) War Ration Book Four (OPA Form R-145) may be used to get rationed commodities designated by the Office of Price Administration. SEC. 2. *Who may get War Ration Book Four.* (a) Every person residing in the United States for a period of 60 days or more may get War Ration Book Four except the following:

(1) Persons confined in a prison, asylum, or similar institution of involuntary confinement, whether public or private; and

(2) Members of the armed forces of the United States or a United Nation who are subsisted or authorized to be subsisted in kind, or who are members of a mess where the rationed foods used are acquired by the use of ration checks issued by the Army, Navy, Marine Corps or Coast Guard (or by an officer authorized to issue such checks) or who, although not subsisted in kind and not members of such a mess, eat at least 14 meals a week at a mess of that type.

(b) No person shall apply for or have more than one War Ration Book Four for his own use.

SEC. 3. *Application from October 10 to October 31, 1943.* (a) A person who has War Ration Book No. 3 may apply for War Ration Book Four on the dates (not earlier than October 10 or later than October 31, 1943) designated by the Regional Administrator for the area in which the applicant resides.

SEC. 4. *Where to apply.* Application for War Ration Book Four shall be made on OPA Form R-146 at the War Price and Rationing Board for the place where the applicant lives, or at any other place

SEC. 5. *How to apply.*—(a) *Family application.* One adult member shall apply in person for all members of a family unit (a group of persons who are related by blood, marriage or adoption and who regularly live in the same household) who are eligible to receive War Ration Book Four. A person who is temporarily away from home, for a period of sixty days or less, such as a student, traveler or hospital patient must be included in the family unit application. If there is no adult member of a family unit, application for the members of the family unit shall be made by the oldest member or by a responsible adult.

(b) *Other applications.* All other applications must be made in person, but if any person is unable to appear, an adult agent may apply for him.

(c) *War Ration Book No. 3 must be submitted.* The War Ration Book No. 3 of each person for whom the application is made must be submitted with the application.

(d) *Signature deemed certification.* The signature on the application shall be deemed to be a certification to the Office of Price Administration that the applicant has authority to sign for the persons named in the application and that all statements made in it are true.

After this has been done, each War Ration Book No. 3 received from the applicant shall be returned to him.

(b) War Ration Book Four shall not be issued for any person if the above notation appears on his War Ration Book No. 3, except that replacement books may be issued in accordance with the provisions of Procedural Regulation 12.

SEC. 7. *Issuance of War Ration Book Four.* The person issuing a War Ration Book Four shall fill in the name and address of the person for whom it is issued on the front cover. The person for whom the book is issued (or if he cannot write, his agent) shall sign on the front cover. No War Ration Book Four shall be valid for use until the requirements of this section have been met.

SEC. 8. *Application after October 31, 1943.*—(a) *Late applications.* Any person who did not apply for War Ration Book Four before November 1, 1943 may apply for it on or after that date at the board for the place where he lives.

If his War Ration Book No. 3 is being wrongfully

**Sec. 10. War Ration Book Four for law enforcement or investigatory government agencies.** (a) On and after November 1, 1943, War Ration Book Four may be issued by the Office of Price Administration, on such terms and conditions as it finds proper, to any law enforcement or investigatory agency of the United States, or of any state or local government, for the use of such agencies, and for distribution to and use by their officers, agents or employees in the performance of official duties.

(d) Any person who has surrendered his War Ration Book Four to a Board, pursuant to paragraph (c) of this section, may apply for reissuance of the book in accordance with the procedure prescribed by section 8 if his status changes so that the conditions which required the surrender of the book no longer exist.

APPENDIX J—EXCELSIOR WOOD

**NOTE:** The tables in this appendix establish maximum prices based on the cubical content of a unit or cord of the size most usually purchased. In those cases where units of a different size are purchased, the maximum prices must be adjusted by the ratio which the unit sold bears to that actually priced in the tables. For example, if the unit sold is larger than that priced, the maximum stated may be increased proportionately, but where the unit sold is smaller, the maximum must be reduced accordingly.

The following table indicates the appropriate percentage adjustments which must be made; any additions or subtractions specified in the particular table shall likewise be adjusted to reflect the correct proportion.

If the size of unit priced in table is (cubic feet)	If unit sold contains following cubic footage, adjust prices by percentage shown below

(vii) All pertinent provisions in this Maximum Price Regulation No. 348 are strictly complied with.

(3) Persons who have not qualified as dealers, but who intend to do so, shall state their intention so to do in writing to the Lumber Branch of the Office of Price Administration, Washington, D. C. Nothing contained herein shall be construed to prohibit payment of a dealer's allowance in escrow to a bank or bank and trust company to be paid to such dealer if and when it shall have been determined by the Lumber Branch of the Office of Price Administration that such dealer has qualified so as to be entitled to receive such commission, but otherwise to be repaid by such fiduciary to the consumer at the end of the calendar year.

**Dealers** (1) In the event that a dealer in cordwood, as defined above, shall within a year from the effective date of this regulation deliver to consumer or consumers 1,000 cords of wood, such consumer or consumers may pay such dealer with respect to wood purchased by such dealer, but not operated by him, a dealer's allowance (in addition to the producer's maximum price hereinbefore provided) not in excess of \$1.00 per cord. Any one consumer who is asked to pay a commission on less than 1,000 cords sold by a dealer may rely in making such payments on letters from other consumers to the dealer indicating that, at the time the commission is paid, the dealer has met the requirements of this paragraph.

(2) The maximum prices established under Table 4 of Appendix J can in no case be augmented by more than one dealer's allowance for each cord. In no event shall a person receive a dealer's allowance or the proceeds of a dealer's allowance on cordwood cut by him or by his own operations. In no event shall a person receive a dealer's allowance on the cut of another person pursuant to any

contract, agreement or understanding of any sort whatsoever between the two, whereby each is to sell, and charge an allowance on the wood cut by the other. (1) Keep copies of all contracts in which a dealer's allowance is charged.

(2) The sale is made by the dealer to the consumer.

(3) The cordwood sold by the dealer to the consumer has been completely prepared for delivery by a person other than the dealer.

(4) The dealer guarantees the merchantable quality of the cordwood.

(5) The dealer's allowance in such transaction is shown as a separate item on the invoice. This invoice must contain a statement that the dealer has had no part in the preparation of the cordwood covered prior to its delivery to the consumer, and that the charges are not in excess of those established in this Maximum Price Regulation No. 348.

(6) The dealer's allowance is not split or divided with any other person.

(7) All pertinent provisions in this Maximum Price Regulation No. 348 are strictly complied with.

APPENDIX K—INSULATION AND FELT SHORT LOGS AND CORDWOOD

(NOTE: The tables in this appendix establish maximum prices based on the cubical content of a unit cord or of the size most usually purchased. In those cases where units of a different size are purchased, the maximum prices must be adjusted by the ratio which the unit sold bears to that actually priced in the tables. For example, if the unit sold is larger than that priced, the maximum stated may be increased proportionately, but where the unit sold is smaller, the maximum must be reduced accordingly.)

The following table indicates the appropriate percentage adjustments which must be made; any additions or subtractions specified in the particular table shall likewise be adjusted to reflect the correct proportion.)

**Definitions.** "Dealer" means any person who sells to consumers cordwood (pulpwood, excelsior bolts, box bolts and insulation short logs) not cut or prepared by such person, but purchased by such persons in the condition in which it is to be delivered to the consumer and who sold and delivered not less than 8,000 cords of cordwood to consumers in the 1942-1943 operating season, or who shall sell and deliver not less than 8,000 cords of cordwood to consumers in any subsequent operating season. "Operating season" means the period between the first day of May in one year and the last of April in the next succeeding year; "Trader" means any person who has not or cannot qualify as a dealer, but who purchases and sells wood not cut or prepared by such person, and who purchases wood in the same condition in which the wood is to be delivered to a consumer, and

(3) Deliveries may be made at points other than those mentioned in subparagraphs (1) and (2) above. In all such cases the actual costs per cord for transportation to and for loading on the railway cars, vessel or stream by which the wood is to be delivered to the mill, or, in the case of wood to be trucked to the mill at the buyer's expense, the costs per cord of such trucking, shall be deducted from the appropriate maximum price set forth above.

(4) The prices established herein are for sound wood of top quality. All trade practices and customs with respect to allowances for culls, for firekills, or for defective wood of any kind must be observed.

(5) *Mixed shipments.* If a shipment contains a mixture of species, the maximum price per cord shall be ascertained by determining the number of cords of each species in the shipment and then applying the maximum price for each species.

(6) *Dealers and traders.* (a) If a consumer of cordwood buys insulation short logs through a dealer as defined above, such consumer may pay such dealer, in addition to the maximum price provided in Appendix A, a commission not to exceed \$1.00 a cord. If any person buys insulation short logs through a trader, as defined above, such person may pay such trader, in addition to the maximum price provided, a commission not to exceed 50 per cord: *Provided,* That in no case shall the aggregate amount of commissions, on any cord of insulation short logs exceed \$1.00.

(b) In no event shall a person receive a dealer's or trader's commission, or the proceeds of any such commission on insulation short logs cut by him or by his own operations. In no event shall a person receive a dealer's or trader's commission on the cut of another person pursuant to any contract, agreement, or understanding of any sort whatsoever between the two, whereby each is to sell, and charge a commission on the wood cut by the other. In no event shall the dealer's or trader's commission be split or divided with any other person, except that a dealer may pay a trader a trader's commission out of the dealer's commission. In addition to the price paid by the consumer a dealer may receive a dealer's commission only from a consumer and only if the dealer fulfills all of the following requirements (1) through (vii) inclusive pertinent to him with respect to the transaction.

In addition to the price paid by his vendee, a trader may receive a trader's commission only if the trader fulfills all of the following requirements pertinent to him (which means all the requirements pertinent to traders, and accordingly does not include (ii) with respect to the transactions:

(1) Copies are kept of all contracts or settlement sheets in which a dealer's or trader's commission is charged;

(ii) The deliveries are made by the dealer to the consumer;

(iii) The short logs sold by the dealer to the consumer or sold by the trader to his vendee have been completely prepared for delivery by a person other than the dealer or trader;

(iv) The dealer or trader guarantees the merchantable quality of the short logs and that they are free from all liens and encumbrances;

(v) The dealer's or trader's commission in such transactions is shown as a separate item on the settlement sheet. This settlement sheet must contain a statement that the dealer or trader has had no part in the preparation or delivery of the short logs, and that the charges are not in excess of Maximum Price Regulation No. 348.

(vi) The dealer's allowance is not split or divided with any other person except as hereinbefore provided, or that the trader's allowance has not been split or divided with any person whatsoever;

(vii) All pertinent provisions in this Maximum Price Regulation No. 348 are strictly complied with.

(c) Any person not meeting the requirements set forth in the definition of a dealer given above, but who intends to do so, may make application for such status to the Lumber Branch, Office of Price Administration, Washington, D. C., which Branch may grant the application either absolutely or conditionally, or deny it, by letter or telegram.

**PART 1448—EATING AND DRINKING ESTABLISHMENTS**

[Restaurant MPR 5-10]

**FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION IN THE STATE OF ARKANSAS**

In the judgment of the Arkansas District Director the prices of food and beverages sold for immediate consumption in the State of Arkansas have risen and are threatening further to rise to an extent and in a manner inconsistent with the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

In the judgment of the Arkansas District Director, the maximum prices established by this regulation are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Act. So far as practicable, the Arkansas District Director gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation.

A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith.

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living," 77th Congress, second session, and under the authority of Executive Order 9250, Executive Order 9328, and the Emergency Price Control Act of 1942, the Arkansas District Director hereby issues this Restaurant Maximum Price Regulation No. 5-10, establishing as maximum prices for food and drink sold for immediate consumption in the State of Arkansas the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943.

§ 1448.410 *Maximum prices for food and drink sold for immediate consumption.* Under the authority vested in the Arkansas District Director by the Emergency Price Control Act of 1942, as amended, Executive Order 9250, Executive Order 9328, and General Order No. 50 issued by the Office of Price Administration, and Region 5 Order of Delegation

<sup>1</sup> 8 F.R. 11447.

under Revised General Order No. 32 and other authority, Restaurant Maximum Price Regulation No. 5-10, (Food and Drink Sold for Immediate Consumption) which is annexed hereto and made a part hereof, is issued.

**SECTION 1. Sales at higher than ceiling prices prohibited.** If you own or operate a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking place, you must not offer or sell any "food item" (including any beverage, except those domestic malt beverages covered by Order No. G-1 under General Order No. 50) or "meal" at a price higher than the ceiling price which you figure according to the directions in the next two sections (sections 2 and 3). You may, of course, sell at lower than ceiling prices.

**SEC. 2. How you figure ceiling prices for food items and meals you offered in the seven-day period from April 4, 1943, to April 10, 1943.** Your ceiling price for any food item or meal which you offered in the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943, is the highest price at which you offered the same food item or meal in that seven-day period.

**SEC. 3. How you figure ceiling prices for food items and meals you did not offer in the seven-day period.** You must figure your ceiling price for a food item or meal which you did not offer during the seven-day period as follows:

(a) If you offered the same food item or meal at any time during the four weeks from March 7 to April 3, 1943, inclusive, and if you have adequate records of the

prices you then charged, take as your ceiling price the highest price at which you offered that food item or meal during that four-week period.

(b) If you did not offer the food item or meal during the five-week period from March 7 to April 10, 1943, inclusive, or if you do not have adequate records of prices charged prior to the seven-day period you must proceed as follows:

(1) Determine the cost of the raw food which you use in preparing the new food item or meal.

(2) From the food items and meals for which you have already established ceiling prices, choose a food item or meal which currently has a raw food cost equal to or less than the raw food cost of the new food item or meal.

(3) Take as your ceiling price for the new food item or meal your ceiling price for the food item or meal chosen for comparison. The food item or meal chosen for such comparison should be of the same class as the new food item or meal. If, however, you can find no food item or meal of the same class, you may use for comparison the most similar food item or meal of another class having a food cost equal to or less than your food cost for the new food item or meal. "Currently" as used herein means current on the day you figure your price.

(c) Once your ceiling price for a food item or meal has been fixed, it may not be changed except as provided in section 4.

**Sec. 4. How you figure your prices for seasonal items.** First, determine your ceiling price for a "seasonal food item" (defined in section 20 (e)) in accordance with the appropriate rule of sections 2 and 3 of this regulation. Thereafter, this price must be varied in proportion to any seasonal change in the raw food cost of the item: *Provided*, That in no event shall the price be higher than the ceiling price as originally determined. If in the past it has been your practice to maintain one price throughout the season, you need not vary your ceiling price according to this rule provided the ceiling price is based upon estimated average raw food cost of the item for the entire season.

**Sec. 5. No ceiling price for any food item or meal to be higher than the highest ceiling price for a food item or meal of the same class in the base period.** Under no circumstances are you permitted to charge a higher price for a food item or a meal than:

(a) Your highest ceiling price for food items or meals of the same class offered in the seven-day period; or

(b) The last price at which you sold the same food item or meal prior to April 4, 1943, provided you first file with the appropriate War Price and Rationing Board a menu or certified copy of a record showing the last price charged.

The provisions of this section shall not apply to seasonal dessert specialties specified in section 21 (a), Class 24a.

*Example 1.* If your highest ceiling price for any soup offered by you during the seven-day period is 10 cents, you may not offer any other soup at a higher price than 10 cents.

*Example 2.* You served sirloin steak in March at \$1.00. You did not serve sirloin steak during the base period. The highest price at which you can now serve sirloin steak is \$1.00.

**Sec. 6. Substitution of food items in meals.** If you have already determined your ceiling price for a meal you may substitute for any food item other than the entree (or main dish) in that meal any other food item of the same class without refiguring your ceiling price, provided the new food item costs you approximately as much and offers customers about the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customers lower value than the food item which it replaces, and you must therefore determine its ceiling price in accordance with the rules established by section 3.

**Sec. 7. Prohibition against manipulation of meal offerings.** You must not manipulate your meal offerings in a manner which will force your customers to pay more than they did during the seven-day period. Among other things you must not

(a) Reduce the number of meals offered at prices equal to or below your "middle price" for meals of the same class without making a corresponding reduction in the number of meals offered at prices above that middle price. By "middle price" is meant the price most nearly at the mid-point of your price range for meals of the same class.

(b) Cease to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day you select in the seven-day period, as you did on that day.

*Example.* If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners, of which two were priced at 35¢, and one each at 50¢, 75¢, 90¢ and \$1.00, you must continue to offer two week-day dinners at 35¢. Note that Sunday meals and week-day meals are meals of a different class.

**Sec. 8. Evasion.** (a) You must not evade or avoid the provisions of this regulation by any scheme or devise whatsoever. Some, but not all, practices which will be regarded as evasive are:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price so as to maintain the raw food cost ratio at least equal to such ratio prior to the deterioration or reduction;

(2) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal;

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking or other special charges, or making such charges when they were not in effect in the seven-day period except that a cover or minimum charge in effect during the base period may be increased in accordance with customary practice, where it was the practice to vary the charge

in accordance with the type of entertainment offered and the increase does not cause the charge to go above the highest charge made during the last twelve month period;

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals when such condition was not in effect during the base period, except that you may refuse to sell coffee unless a customer also purchases another food item;

(5) Reducing the selection of meals offered at table d'hote prices when the food items which you customarily offered in such meals are being offered at a la carte prices which when added together total more than the table d'hote price for the complete meal or give your customers less value for their money.

*Example 1.* If you customarily offered fish on table d'hote dinners at 75¢, you may not now offer fish a la carte and refuse to offer it on a table d'hote dinner priced at 75¢.

*Example 2.* If you offered table d'hote dinners during the base period at 85¢ to \$1.05 which included dessert and beverage, you may now offer the same food item excluding dessert and beverage at 45¢ to 85¢, providing you also offer dessert and beverage to be served with the meals at prices which do not total more than 20¢.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of these things during the seven-day period:

(1) You may limit your customers to one cup of coffee per meal.

(2) You may limit your customers to one pat of butter per meal.

(3) You may reduce the quantity, or eliminate altogether, condiments (such as catchup, chili sauce, etc.) which you may have customarily placed at the disposal of your customers and which now are, or may hereafter be, subject to any rationing order or rationing regulation of the Office of Price Administration.

(4) You may reduce the amount of sugar served with each cup of coffee or tea, or each bowl of cereal, fruit, or other similar food items with which sugar is served, to, but not less than, one teaspoonful, except that less may be given if required by your available supply.

You may not, however, make the curtailment authorized in the foregoing subparagraphs and furnish these curtailed items at an additional charge. For example, if during the seven-day period you furnished catchup, you may not now discontinue furnishing this item free, and at the same time offer to furnish it for an additional charge.

**Sec. 9. Rules for new proprietors.** (a) If you acquire another's business subsequent to the effective date of this regulation and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor. Prior to acquiring another's business, however, you may apply to the District Office of Price Administration for permission to price under paragraph (b) of this section. If such permission is granted it may be subject to such conditions as the Office of Price Administration deems necessary.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the price of food or drink, the District Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 12 and the posting requirements of section 13 immediately upon the opening of your place.

**SEC. 10. Seasonal eating and drinking places—(a) Exempt places.** If you are the proprietor of a seasonal eating or drinking place that

(1) Was not open during the base period from April 4 to 10, 1943;

(2) Receives 90 per cent or more of its total annual revenue during four calendar months of the year;

(3) Is located in an area for which no maximum rent regulation has been issued;

the prices for food items and meals offered by you in that place are exempt from control.

You must not regard this exemption as relieving you from the obligations imposed upon you by General Order No. 50, and you are still subject to the provisions of section 22 of this regulation. Pursuant to this latter section the administrator will by special order establish maximum prices for any seasonal eating or drinking place which takes undue advantage of the exemption.

(b) *Non-exempt places.* If you are the proprietor of a seasonal eating or drinking place which is not exempt under the terms of paragraph (a), you must figure your ceiling prices as follows:

(1) If the place was in operation during the base period from April 4 to April 10, 1943, use the rules set forth in sections 2, 3 and 4.

(2) If the place was not in operation during the base period from April 4 to April 10, 1943, but another place of the same type and within a reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the terms of section 9 (b).

(3) If you cannot price under subparagraphs (1) or (2) above, you must apply for a price to the OPA District Office for the area in which your place is located. Your application must be filed ten days prior to the date you plan to commence operations and present the following information:

(i) Your name and address.

(ii) A brief description of your business and the manner of operation.

(iii) A list showing the prices you charged during the previous season as well as the prices you propose to charge during the coming season.

(iv) The date when you plan to commence operations.

(v) The names of two establishments similar to yours.

You may charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date

specified for the commencement of operations. That Office may at any time, after proper investigation and hearing, establish such maximum prices for your business as it deems proper.

**SEC. 11. Taxes.** If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number or price of items or meals.

**SEC. 12. Records.** (a) You must observe all the record keeping and filing requirements of General Order No. 50 which are hereby made a part of this regulation by reference.

(b) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(c) *Records of the seven-day period.* You must make available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period. If you did not use menus, you must make available for such examination a list of the highest prices you charged in the seven-day period.

(d) *Filing by new proprietors.* The proprietor of an eating or drinking place which was not open during the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a), (of General Order 50) except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

(e) *Future records.* Beginning with the effective date of this regulation, you must keep, for examination by the Office of Price Administration, two each of the menus used by you each day. If you do not use menus you must prepare in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same item or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for those places at a central office or the principal place of business within the city.

**SEC. 13. Posting.** (a) Beginning July 8, 1943, in Pulaski County and beginning October 18, 1943, in the remainder of the State of Arkansas, each menu must have clearly written on or attached to it the following statement:

"All prices listed are our ceiling prices or below. By Office of Price Administration regulation, our ceiling prices are based on our highest prices from April 4, 1943, to April 10, 1943. Records of these prices are available for your inspection."

(b) If you made menus available in the seven-day period, you shall continue to make them available.

(c) Cafeterias must post the selling prices for all items at or near the place where the item is offered for sale.

(d) In addition to the requirements in (a), (b) and (c), you must post in a conspicuous place, preferably at or near the cash register, a sign or poster when furnished by the Office of Price Administration. You must enter after each meal or food item on this list your ceiling price for such meal or food item.

**SEC. 14. Operation of several places.** If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

**SEC. 15. Relation to other maximum price regulations.** The provisions of this regulation shall supersede other regulations, including Restaurant Maximum Price Regulation 5-1 and the General Maximum Price Regulation, now or hereafter issued by the Office of Price Administration, in so far as they establish maximum prices for meals and food items sold by eating and drinking places. However, a price charged during the base period of this regulation shall not become a maximum price under this regulation to the extent that it exceeded the maximum price established by another regulation applicable at that time nor to the extent it exceeded a price established by Order No. G-1 under General Order No. 50 (Dollars and Cents Ceiling Prices on Domestic Malt Beverages).

**SEC. 16. Geographical application.** This Restaurant Maximum Price Regulation No. 5-10 applies to all of the State of Arkansas.

**SEC. 17. Enforcement.** Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

**SEC. 18. Exempt sales.** Sales by the following eating or drinking places are specifically exempt from the provisions of this regulation:

(a) Eating and drinking places located on church premises and operated in connection with special church, Sunday school and other religious occasions.

(b) Hospitals, except for food items and meals served to persons other than the patients when a separate charge is made for such food items and meals.

(c) Eating and drinking places located on board common carriers (when operated as such), including railroad dining cars, club, bar and buffet cars, and peddlers aboard railroad cars traveling from station to station.

(d) Eating and drinking places operated by any school, college or university which is a non-profit institution (that is, where no part of the net earnings inures to the benefit of any private shareholder or individual), which sells food items or meals on a nonprofit or cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to students, faculty members and em-

employees of such institution. For purposes of this paragraph, persons receiving instruction on the premises of such institution by arrangement with the War Department or Department of the Navy or any other part of the Armed Forces of the United States shall be considered students.

(e) Eating cooperatives formed by Officers in the Armed Forces (as for example, Officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual), which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to persons who are members of the cooperative.

(f) Bona fide private clubs which file with the appropriate OPA District Office a statement setting forth that:

(1) The club is a non-profit organization and is recognized as such by the Bureau of Internal Revenue;

(2) It sells food items and meals only to members and bona fide guests of members;

(3) Its members pay dues of more than a merely nominal amount and are elected to membership by a governing board, membership committee or other body; and

(4) It is otherwise operated as a club. Five days after filing such information, or earlier if so notified by the District Director, a private club may consider itself exempt unless and until it is otherwise notified by the District Director.

SEC. 19. *Adjustments.* (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment will be forced to discontinue operations unless it is granted an adjustment of the maximum prices established by this regulation.

(2) Such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating establishment which satisfied the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to the Arkansas District Office of the Office of Price Administration a statement setting forth:

(1) Your name and address.  
(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch and dinner), number of persons served per day during the

most recent thirty-day period,<sup>1</sup> and such other information that may be useful in classifying your establishment.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and your requested, adjusted prices.

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

Applications for adjustment under this section will be acted upon by the Arkansas District Office.

UNWASHED AND WASHED WIPING CLOTHS

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for unwashed and washed wiping cloths by a specific maximum price regulation.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.\*

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be gen-

erally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328. So far as practicable, the Price Administrator has advised and consulted with members of the industry which will be affected by this regulation. Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, or insofar as their use was not lawfully required by another Government agency, the Administrator has determined, with respect to such standardization, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

§ 1347.803 *Maximum prices for unwashed and washed wiping cloths.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328, Maximum Price Regulation No. 484 (Unwashed and Washed Wiping Cloths), which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1347.803 issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

(a) No person shall sell or deliver any unwashed or washed wiping cloths at higher prices than those set forth in Appendices A and B respectively, of this regulation.

(b) No person shall buy or receive unwashed or washed wiping cloths in the course of trade or business at prices higher than those set forth in Appendices A and B respectively, of this regulation.

(c) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

SEC. 2. *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid or offered.

SEC. 3. *Geographical applicability.* The provisions of this regulation shall be applicable to the forty-eight states of the United States and to the District of Columbia.

SEC. 4. *To what transactions, commodities and persons this regulation applies and the relation to other regulations.* (a)

The provisions of this regulation supersede the provisions of the General Maximum Price Regulation<sup>1</sup> with respect to sales and deliveries for which maximum prices are established by this regulation.

(b) This regulation applies to sales of unwashed and of washed wiping cloths at all levels of distribution.

SEC. 5. *Federal and state taxes.* Any tax upon, or incident to, the sale, delivery, processing or use of unwashed or washed wiping cloths imposed by any statute of the United States or statute or ordinance of any state or any subdivision thereof, shall be treated as follows in determining the seller's maximum price for such unwashed or washed wiping cloths and in preparing the records of such seller with respect thereto:

If, at the time the seller determines his maximum price the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this regulation.

SEC. 8. *Evasion.* (a) The price limitations set forth in this regulation shall not be evaded whether by direct or indirect methods, in connection with an offer, solicitation, agreement, delivery, purchase, or receipt of or relating to unwashed or washed wiping cloths alone or in connection with any other commodity, or by way of commission, service, transportation, or other charge or discount, premium, or other privilege, or by tying agreement, or other trade understanding, or otherwise.

<sup>2</sup> 8 F.R. 4132, 5987, 7662, 9998.

if used as a means of evading the price limitations imposed by this regulation: modifying, discontinuing or altering any customary trade practice of the seller, or deteriorating the quality or changing the identity of any grade.

**Sec. 9. Enforcement.** Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of license as provided by the Emergency Price Control Act of 1942, as amended.

**Sec. 10. Licensing.** The provisions of Licensing Order No. 1,<sup>3</sup> licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

**Sec. 11. Records and reports.** (a) Every person making sales or purchases of unwashed or washed wiping cloths shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, complete and accurate records of each such sale or purchase, showing the following:

(b) Persons required to keep records by paragraph (a) of this section shall keep such other records and shall submit such reports as the Office of Price Administration may from time to time require subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

**Sec. 13. Adjustable pricing.** Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted up-

ward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

**Sec. 14. Definitions.** (a) When used in this regulation, the term:

No person may receive brokerage on the pack of another person pursuant to any contract, agreement or understanding of any sort whatsoever between the two whereby each is to sell, and charge brokerage, upon the pack of the other. In no event may brokerage be charged unless the following requirements are met:

(1) The broker must keep a record, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, of the name or names of his supplier or suppliers of the unwashed wiping cloths, the quantity thereof purchased by him, the prices paid by him, the name of his purchaser, the method of shipment to the purchaser, and the price paid by the purchaser.

If the delivery is within the city, town, or municipality from which seller makes the delivery, there may not be added any additional amount to the maximum prices stated above. If the delivery is to a point outside that city, town, or municipality, there may be added to the maximum price the actual costs of delivery incurred by seller, not in excess, however, of an amount equal to the lowest established transportation rate for full carload shipment of unwashed wiping cloths to the delivery point.

When delivery of the unwashed wiping cloths is made out of seller's warehouse, the invoice shall accompany the delivery or be mailed to manufacturer before the end of the business day following the day upon which the wiping cloths are shipped. flavors and texture, as well as their food values. Like other fresh dairy products, soft uncured cheeses are highly perishable since they are not hermetically packaged and sterilized and are good media for the growth of microorganisms. Their desirable characteristics are materially impaired by the development of microorganisms they contain. In their commercial production and distribution constant care must be taken to protect them from contamination and to provide adequate refrigeration to retard the development of such organisms. Consumers expect soft uncured cheeses to be reasonably fresh when purchased. (12 R. 69-71, 246, 404-407a, 410-417, 427, 454-456, 459, 476, 498-499, 507, 521, 665, 759, 871; 12 and 29 R. 1502-1508, 1590-1596, 1600, 1734-1736, 1943-1945, 1967-1969, 1978, 2111-2112, 2712.)

2. Soft uncured cheeses begin to deteriorate as soon as they are made due to the action of microorganisms and to other causes. Deterioration progresses gradually until the characteristics of freshness are lost. Soon thereafter the products become spoiled and unacceptable to consumers. The rate of deterioration depends primarily upon the number and kinds of microorganisms present, the manner of packaging and the temperature under which the products are held. (12 R. 69, 411-412, 417-418, 507, 665, 710, 758, 759; 12 and 29 R. 1596-1600, 2838; 29 (a) R. 2366, 2838, 2915-2916, 3245-3247, 3255-3256, 3337-3338, 3381, 3931-3933, 3935-3938, 4009, 4040-4041, 4158-4159, 4201. Government exhibits 71, 72, 73, 74 and 75.)

3. Types of organisms causing spoilage in such cheeses are yeasts, bacteria, molds and certain organisms (Oospora) generally classified as molds and sometimes considered as intermediate between yeasts and molds. The number and types of viable organisms remaining in the finished product depend on the microbial flora of the starting mix, the efficacy of the pasteurizing processes to which it is subjected, the character of subsequent heat treatment and the degree of care taken to prevent contamination during manufacture and packaging. The number of viable organisms resulting from such contamination depends largely on the degree of cleanliness and sanitation maintained in the plants where the products are made and packaged. (12 R. 412-414, 476, 508, 511-512, 667; 12 and 29 R. 1590-1591, 2146-2148, 2155-2157, 2183, 2828, 2833, 2844; 29 (a) R. 2452-2453, 2459-2460, 3067, 3835-3837, 3895-3896, 3969-3970, 4171-4172.)

4. In making cold pack cream and neufchatel cheeses, the coagulated mix is usually heated to a point where a substantial proportion of the organisms is killed, although the heating is not sufficient to destroy all organisms. When the hot pack method is employed the curd is given an additional heating which reduces the number of viable organisms to a point much below that of the cold pack. The efficacy of the treatment depends on the temperature and time of heating. In making cottage cheese and creamed cottage cheese, the heat treatment of the coagulated mix is not sufficient to effect a material reduction in the number of viable organisms present and these cheeses contain large

numbers of viable bacteria, mostly lactic acid forming organisms from the starter used. (12 R. 508-512; 12 and 29 R. 1355, 1621, 1636, 2146-2148, 2157, 2167, 2190-2191; 29 (a) R. 2380, 2381, 2452, 3245-3247, 3276-3277, 3309-3310, 3452-3453, 3766, 3835-3837, 3892, 3989, 4002, 4040, 4071-4073, 4171, 4172.)

5. Microorganisms which contaminate and spoil soft uncured cheeses come from many sources. Some survive pasteurization of the starting mix. Starter organisms may survive the manufacturing processes and cause spoilage, particularly in cottage cheese and creamed cottage cheese. Some spoilage organisms, especially yeasts and Oospora come from dirty and improperly maintained equipment with which the cheeses come in contact. Air borne organisms, particularly mold spores, may fall on the cheeses or on the surface of the equipment. Oospora is seldom, if ever, air borne. (12 R. 407a, 413-415, 428-429, 436-437, 500-502, 507-512; 12 and 29 R. 2190-2192; 29 (a) R. 2350-2361, 3245, 3276-3277, 3767, 3772, 3889, 3892-3895, 4096, 4171-4172. O. P. exhibits 64, 65, 66.)

6. A supply of air is necessary for the growth of mold and Oospora. Space in loosely packaged soft uncured cheeses may supply sufficient air to promote growth. Air is not necessary for the growth of most bacteria and yeasts and these organisms develop continuously in the cheeses. Yeasts are usually the cause of spoilage of cream and neufchatel cheeses and bacteria of cottage and creamed cottage cheeses. Visible mold or Oospora seldom develop in such cheeses until spoilage from yeasts or bacteria has occurred if they are produced under sanitary conditions and properly packaged and refrigerated, although hot pack cream and neufchatel cheeses in which the final heating has destroyed spoilage organisms may spoil from mold growth alone if the cheese is recontaminated during or after packaging. (12 R. 407a-412, 498, 514-521, 666-668, 684-685, 699, 710, 758-759; 12 and 29 R. 1590, 1600-1602, 2102-2103, 2828-2829; 29 (a) R. 2366, 2378-2383, 2448-2449, 2891-2892, 3099, 3189-3190, 3246, 3389, 3398-3399, 3540, 4009, 4040-4041, 4098, 4158-4159. Government exhibits 54, 58, 59, 60, 61, 62, 63, 64, 65, 71, 72, 73, 74, 75.)

7. Traffic in soft uncured cheeses is characterized by rapid turnover of stocks. Manufacturers hold and ship them under refrigeration, package them tightly and make frequent deliveries to distributors. The air in well conducted and well maintained cheese plants carries but few molds and fewer yeasts. There is no need in the manufacturing and packaging processes for exposure of such cheeses to air for lengths of time which result in a material degree of contamination. The care taken to maintain cleanliness and otherwise to avoid contamination varies widely in different plants making soft uncured cheeses. A recent investigation of 12 representative cream cheese plants showed that two were definitely unclean. Manufacturers are familiar with or can discover sources of abnormal contamination and can eliminate them by applying accepted methods of sanitation. (12 R. 30, 189,

416, 500-501, 507, 711-712, 714, 758-759, 862-863, 1035; 12 and 29 R. 2187-2189, 2829; 29 (a) R. 2350-2361, 2454-2455, 2462-2465, 3061, 3090, 3330-3332, 3376-3388, 3394-3395, 3405-3407, 3747-3749, 3797-3798, 3834, 4028, 4057, 4067-4069, 4150-4151. O. P. exhibits 64, 65 and 66.)

8. Distributors know that soft uncured cheeses are perishable foods and handle them as such. Retailers receive frequent deliveries, limit their orders to quantities they expect to sell between deliveries, keep such cheeses refrigerated and hold them ordinarily two or three days and seldom more than a week. Under such conditions, spoilage seldom occurs. Retailers usually keep such cheeses covered and handle them carefully. When portions of large packages are sold, contamination may occur but not to a significant extent when sanitary procedures are observed. (12 R. 411; 29 (a) R. 2367-2369, 2378-2379, 2387-2389, 2431-2432, 3067-3068, 3070-3072, 3273, 3391-3396, 3758.)

9. Consumers know that soft uncured cheeses are perishable. Ordinarily, they buy such cheeses in small quantities and do not expect to keep them more than a few days. While such cheeses are kept in the home they are usually refrigerated. When consumers open packages of such cheeses, further contamination is likely to occur. (12 R. 457-459, 862-863; 12 and 29 R. 2829; 29 (a) R. 3393-3396, 3593-3594. O. P. exhibit 62.)

10. Soft uncured cheeses held under refrigeration seldom develop visible mold in less than about two weeks, even with surface exposed to air and with heavier mold contamination than is usually found in such cheeses. Spoilage from mold or Oospora alone is not an important problem to manufacturers who operate under clean and sanitary conditions and package and refrigerate their products properly. The average life of cold pack cream and neufchatel cheeses manufactured and handled under reasonably good sanitary conditions is about two to three weeks; that of hot pack cream and neufchatel cheeses is somewhat longer, and that of cottage and creamed cottage cheeses is considerably less. (12 R. 407a, 665-669, 685, 689, 710-711, 794, 795, 830, 862; 12 and 29 R. 1590-1596, 1600, 1735, 1943-1944; 29 (a) R. 2338-2349, 2361, 2367-2428, 2431-2432, 2446-2448, 2806-2807, 3067-3068, 3095-3111, 3245-3247, 3398-3399, 3754-3755. Government exhibits 52, 53, 54, 54a, 54b, 54c, 54d, 58, 59, 60, 61, 62, 63, 64, 65, 70, 71, 72, 73, 74, 75.)

11. In 1938 a manufacturer of chemicals began marketing sodium and calcium propionates, produced by a method of chemical synthesis, for use in soft uncured cheeses to retard the development of mold. Prior to 1938 no preservative was used in soft uncured cheeses made in the United States. Since that time several manufacturers have used propionates, although most of the cream and neufchatel cheeses are made without propionates and only a small proportion of cottage and creamed cottage cheeses are made with propionates. (12 R. 438, 457, 459, 450-461, 490, 521-522, 532, 538-540, 553-555; 29 (a) R. 3578-3579, 3602, 3604, 4085-4086.)

12. The quantity of propionates recommended by the manufacturer of

these chemicals is 0.15 percent for cream and neufchatel cheeses and 0.2 percent for cottage and creamed cottage cheeses. However, some producers of such cheeses use much lower concentrations. When used in concentrations of 0.05 percent propionates are much less effective against molds and yeasts than when used in the recommended amounts. (12 R. 455, 532, 542; 12 and 29 R. 2826, 29 (a) R. 2446-2448, 3168, 3631, 3639. Government exhibits 52, 53, 58, 59, 60, 61, 62, 63, 64, 65, 69.)

13. The extent to which propionates retard the growth of various spoilage organisms in soft uncured cheeses has not been fully determined. In the concentrations recommended by the manufacturer, propionates retard the development of most, if not all, types of mold found in soft uncured cheeses. In such concentrations propionates also retard the development of some types of yeasts which are capable of spoiling such cheeses. Some types of yeast are not materially affected but the evidence does not show whether these types are capable of spoiling such cheeses. Propionates in such concentrations have little effect on lactic acid forming bacteria in such cheeses. The growth of some types of bacteria is retarded but the evidence does not show whether these types are capable of spoiling such cheeses. Propionates in the recommended concentrations have little, if any, effect on Oospora. The retarding effect of propionates in such concentrations on the development of molds and yeasts in such cheeses is substantial irrespective of whether the number of such organisms present is about the average of what ordinarily occurs or is many times greater than the average. (12 R. 369, 420-421, 427, 430, 431, 442a, 444-446, 463-464, 527, 542, 547, 559, 1107-1103; 12 and 29 R. 2824; 29 (a) R. 2338-2349, 2389-2438, 2446-2449, 2460, 2754-2785, 2838-2863, 3086-3087, 3097-3111, 3210, 3217-3218, 3802-3803, 3820, 3830, 3865, 3901-3906, 4011-4017, 4047-4048, 4073-4082, 4098-4102, 4199. Government exhibits 52, 53, 54a, 54b, 58, 59, 60, 61, 62, 63, 64, 65, 69, 73, 74, 75.)

14. Sodium or calcium propionates in the concentrations recommended by the manufacturer for use in soft uncured cheeses impart an undesirable flavor to such cheeses and have been found at times to affect adversely the texture or body of hot pack cheeses. (12 R. 442-443, 548, 584, 650-651, 662-663, 795-797; 29 (a) R. 2437-2438, 2440-2442, 2445, 2558, 2950, 3003-3007, 3382, 3384, 3604-3609, 3617, 3887, 3909, 3912-3913, 3915, 3979, 4240, 4241.)

15. Soft uncured cheeses commonly spoil from other causes before visible mold appears and when visible mold precedes actual spoilage it is only by a very short period of time. Consumers regard visible mold as an indication of inferiority or lack of freshness. Under conditions prevailing in the marketing of such products consumers have no other means of determining the age of such cheeses or the degree of deterioration due to the development of spoilage organisms, or how long they can be expected to keep in the home. (12 R. 410-412, 498, 502, 505, 506, 507, 521, 665-669, 685, 699, 710, 794-795; 29 (a) R.

2378, 2754-2785, 2838-2863, 3067-3068, 3095-3111, 3398-3399, 3536-3537, 3936-3939, 3941-3944, 3984-3985, 4227-4228. Government exhibits 54, 54a, 54b, 54c, 54d, 70, 71, 72, 73, 74, 75.)

16. Of the twelve cream cheese plants mentioned in Finding 7 the two unclean plants and three others were using propionates. One of the three others was using heavily contaminated drain racks; in another, prolonged exposure to air occurred during hand packaging; in the third the mold count of the cheeses was substantially higher than is usual, although the source of the contamination was not found in the single visit made to the plant. (29 (a) R. 2338, 2348-2349, 2353-2357, 2439-2440, 2551-2555, 2569-2571, 3065, 3139, 3260, 3378-3380, 3385-3388. Government exhibits 52 and 53.)

17. Soft uncured cheeses can be and are manufactured and distributed under conditions in which there is no need for or advantage in the use of calcium and sodium propionates. Under present conditions of production and distribution, such cheeses can and do reach consumers in a reasonably fresh state. (12 R. 410, 650-651, 710-711; 29 (a) R. 2367-2369, 2378-2379, 2389, 2431-2437, 2947, 2950, 3067-3068, 3383-3384, 3387, 3399.)

18. The evidence fails to disclose to what extent loss is suffered by consumers because of development of yeasts or visible mold in soft uncured cheeses, nor does it show that the use of propionates increases the time such cheeses remain unspoiled after consumer purchase. (12 R. 302-303, 319, 360, 364-365, 382, 466, 488-489, 1035, 1044; 12 and 29 R. 2817-2819; 29 (a) R. 2459-2460, 2638, 2640, 2645, 2654, 2719, 2720, 3585, 3593, 3601-3602, 3756-3762, 3895-3896, 3914, 3915, 3945-3948, 3970, 3981. O. P. exhibits 20, 61, 62, 67.)

19. After the use of chemical preservatives in food began legislative and administrative policy has been to prohibit or regulate their use because, among other reasons, such use tends to encourage careless, lax and insanitary methods of production, distribution and marketing, and the cloaking or masking of inferiority. Sodium and calcium propionates are chemical preservatives, the use of which delays the appearance of the results of improper and insanitary methods of production, distribution and marketing of soft uncured cheeses, and cloaks or masks inferiority in such cheeses. (12 R. 438, 533; 29 (a) R. 2439-2440, 2551-2555, 2569-2571, 3065, 3260, 3376-3388, 4267-4271, 4273-4276, 4278-4281, 4285-4286, 4290-4291, 4326-4327.)

#### Conclusions

On the basis of the foregoing findings of fact, it is concluded that:

(a) By retarding the development of visible mold on soft uncured cheeses, the use of propionates tends to result in the relaxation of precautions against contamination and spoilage during manufacture, packaging and distribution.

(b) The flavors of such cheeses are important elements of their identity and such flavors are adversely affected by adding to such cheeses propionates in the recommended concentrations.

(c) By retarding the development of visible mold on such cheeses the use of propionates destroys an index of inferiority or lack of freshness or keeping

qualities, and tends to promote the sale of older cheeses and cheeses about to spoil.

(d) The record does not show that the use of propionates in such cheeses results in any advantage to consumers.

## WAR SHIPPING ADMINISTRATION.

### REVISED PROGRAM OF SHIP REQUISITION, CHARTER AND OPERATION

#### NOTICE TO ALL OWNERS OF VESSELS CHARTERED TO WAR SHIPPING ADMINISTRATION

In order to simplify administration, increase efficiency and minimize problems arising out of the existing uncertainties concerning applicable standards for charter rates and total loss valuation, the War Shipping Administration has adopted a revised program of ship requisition, charter and operation, in accordance with the following:

(a) *Preliminary.* (1) Pursuant to section 902 of the Merchant Marine Act, 1936, as amended, the Administrator will requisition the use of all freighters, tankers, passenger ships and other self-propelled vessels referred to below. The requisition will be on a bareboat basis but the owners may elect to operate

under a modified time form of charter under the terms of which the owner will man, operate, equip, supply, victual, repair and maintain the vessel, but under which the charterer will assume certain insurance risks as herein explained. The revised forms of bareboat and time charters for freighters and tankers will be published promptly. The revised form of charter for passenger vessels has heretofore been issued. The purpose of this notice is to advise owners of this change in policy which will be effected by selective telegraphic communications to such owners and shall apply only to vessels named therein. Vessels of 1,000 gross tons and under will not be included in such requisition except in special cases. This communication also constitutes notice to all owners of the termination of all such existing charters as of date of delivery under requisition made pursuant to this notice as hereinafter provided, and unless the Administrator otherwise directs, no delivery shall be made prior to 15 days after the publication of applicable charter forms and rates. The Administrator contemplates requesting a redetermination of the rates of charter hire set forth in all existing time charters. Due notice of any such request will be given in accordance with the terms of such charters.

(2) The rates to be tendered under the revised form of charters referred to above will be published promptly as General Order No. 37 of the War Shipping Administration. Except as to vessels subject to section 802 of the Merchant Marine Act, 1936, as amended, no values will be embodied in such charters but with respect to risks assumed by the Administrator such assumption will be in the amount of "just compensation."

(3) The President has, by Executive Order, created the Advisory Board on just compensation, which will establish fair and equitable standards of general applicability for the guidance of the Administrator in determining the just compensation to be paid for all vessels requisitioned, purchased, chartered or insured by the Administrator. Upon the conclusion of the deliberations of this Board, fixed values will be tendered to the owners, which tender shall be pursuant to section 902, of the Merchant Marine Act, as amended.

(b) *Vessels Chartered to the Administration.*—(1) *Executed time charters.* Except as herein otherwise provided, owners are hereby advised that the possession and use of vessels now operating under executed time charters will be requisitioned on a bareboat charter basis pursuant to section 902 of the Merchant Marine Act, 1936, as amended. However, the owner shall have the option, to be exercised on or before the date of delivery of the first of the owner's vessels hereunder, to accept the modified form of time charter above referred to in lieu of bareboat charters: *Provided however,* That (i) the election must cover all freighters and tankers owned by the company except freighters and tankers now under bareboat charter or requisitioned on that basis, or otherwise excepted by the Administrator, (ii)

such election will be deemed an agreement to terminate the prior time charters as of the time of delivery under the new time charters, and (iii) such election shall constitute an acceptance of the terms and conditions of the appropriate form of time charter agreement except for provisions as to rate of hire and valuations, all in accordance with the terms of the charters to be tendered.

The notice of election shall be in substantially the following telegraphic or written form:

Manager, Charter and Agencies Section  
War Shipping Administration  
Washington, D. C.

Referring to notice dated October 15, 1943, we hereby elect to accept the time charter option offered in paragraph (b) (1) thereof, and agree to all the conditions of such election stated in said paragraph.

(2) *Unexecuted time charters.* Possession and use of such vessels will be requisitioned upon the same conditions and with the same option set forth in paragraph (b) (1) above.

(3) *Executed bareboat charters.* Unless the Administrator otherwise directs, owners are hereby advised that the possession and use of vessels now operating under executed bareboat charters with fixed rates of hire will be requisitioned on a bareboat charter basis pursuant to section 902 of the Merchant Marine Act, 1936, as amended. Such owners will be tendered the form of bareboat charter hereinabove referred to.

(4) *Unexecuted bareboat charters.* (i) Owners of vessels now operating on a bareboat basis who have been tendered charters pursuant to section 902 (c) of the Merchant Marine Act, 1936, as amended, and have not accepted the same, are advised that their cases will be treated under paragraph (3) above.

(ii) In all other cases where the vessel has already been requisitioned on a bareboat basis and charters have not been tendered, owners are advised that bareboat charters will be tendered pursuant to this notice as of the time of delivery under outstanding delivery receipt unless otherwise directed by the Administrator.

(5) *Charters of foreign flag vessels.* American parent companies of foreign subsidiary companies which are the owners of foreign flag vessels together with their subsidiaries will be notified that such charters will be terminated at the earliest permissible termination date therein provided and that bareboat charters substantially in the form referred to above will be tendered with the same option referred to in paragraph (b) (1) to the extent applicable. Other foreign flag vessels will be handled separately.

(c) *Delivery dates of vessels.* Unless otherwise directed by the Administrator, delivery of vessels covered by requisition telegrams will be taken in the following manner: *Provided, however,* That if it becomes impracticable in particular cases to take deliveries in the manner indicated, the Administrator may advance or postpone the dates of such deliveries:

(1) Delivery of vessels which, on December 1, 1943, are in continental ports of the United States, excluding Alaska, will, if practicable, be taken on that date.

(2) Delivery of vessels which are in the above mentioned ports on December 1, 1943, but on which a substantial amount of outbound cargo has been loaded, will be taken on termination of the next inward voyage at a continental United States port.

(3) Delivery of vessels regularly trading between or immobilized in foreign ports will be taken at such time and under terms as the Administrator may hereafter indicate.

(4) Delivery of other vessels will be taken as soon as practicable upon completion of discharge in continental United States ports on current homebound voyages, after December 1, 1943.

(d) *Arrangements upon delivery.* (1) Upon the Administration taking delivery of the vessels covered hereby, owners will be given appropriate receipts therefor. Effective from the date and time specified in such receipt, the vessel shall be deemed delivered under the appropriate charter.

(2) As soon as practicable after delivery of the vessel the owner shall furnish, in the manner to be set forth in insurance instructions hereafter referred to, a statement of all unrepaid damage known to the owner existing at the time of delivery, together with a report of all known casualties which may have given rise to damage subsequent to the last drydocking in U. S. continental port. Upon the request of the charterer, the owner shall also furnish such additional information as the Administrator may require pursuant to the provisions of the applicable form of charter.

(3) Unless the time of survey and drydocking is postponed by the Administrator, the vessel, before delivery and acceptance hereunder, shall be surveyed jointly by representatives of the Administrator and the owner, or by a surveyor satisfactory to both, to determine the condition of the vessel. Such survey shall include drydocking to determine the condition of the underwater parts, which survey and drydocking shall be at the expense of the Administrator, except to the extent that such expenses would be recoverable under the standard American hull form of marine insurance policy by reason of an occurrence prior to delivery of the vessel to the Administration under the charter tendered. In the event of a survey by a surveyor satisfactory to both parties, the results of his survey shall be conclusive upon both parties.

(4) (i) If the vessel has been operating for the Administrator under a prior existing bareboat charter, inventories and surveys upon delivery pursuant to this notice may be waived where appropriate, and in lieu thereof the Administration will adopt the surveys and inventories of the vessel which were taken upon her delivery under the prior charter with the Administration.

(ii) If the vessel has been operating under a prior existing time charter and the owner has not elected to exercise the

option as set forth in paragraph (b) (1) the usual inventories of the equipment, provisions and stores on board the vessel or ashore shall be taken, except, however, that no inventories need be taken of fuel and fresh water since they are the property of the Administrator. If the vessel has been operating under a prior existing time charter and the owner has elected the time charter option as set forth in paragraph (b) (1), no inventories need be taken. With respect to vessels which have never been operated under any prior existing charter with the Administrator, the usual inventories shall be taken in accordance with the terms of the applicable time or bareboat charter.

The foregoing provisions respecting inventories shall not be deemed to limit or restrict the provisions contained herein with respect to the making of surveys.

(5) If the owner does not elect the time charter form of operation, the vessels, upon delivery, shall be deemed to have been withdrawn from present Time Charter Agency Agreements and assigned back to the present Agent under applicable General Agency Agreement, if such Agent is a qualified General Agent, otherwise the vessels will be assigned to such other General Agent as the Administrator shall determine. If the owner does elect time charter form of operation, the vessel shall remain under present TCA agreement unless the Administrator shall determine otherwise.

(e) *Insurance provisions.* (1) Immediately upon delivery, under either form of charter, owners of vessels now under time charter shall cancel all forms of commercial insurance covering each vessel, effective as of the time of such delivery. The Administrator has already approached leading underwriters in order to ensure that no obstacles will be raised as to such cancellations. Complete insurance instructions have been prepared and will be circulated promptly after this notice of requisition outlining the steps of an insurance nature to be taken by owners and agents.

(2) Under the terms of the new bareboat charter form the Administrator will assume insurance on the vessel against war, marine and all other risks or liabilities of whatsoever kind or nature.

(3) Under the terms of the revised time charter form the Administrator will assume insurance on the vessel under the terms and conditions of the full form of a standard marine hull policy with customary franchise and war risk hull policies as prescribed by the Administrator which shall include malicious damage, strikes, riots and civil commotions. The Administrator will also assume the insurance liabilities of the owner to crew members incurred by reason of the Decisions of the Maritime War Emergency Board, and War Risk P. and I insurance, and will provide certain other marine and war risk insurances as set forth in the charter party.

(4) The War Shipping Administration has made arrangements with respect to vessels formerly under time charter and with respect to certain vessels formerly under bareboat charter whereby cer-

tain of the liabilities so assumed by it will be insured by commercial underwriters under master contracts, but this insurance will not in any way affect the direct liability of the Administrator to the owner for insurance losses as provided in the appropriate form of charter.

(5) Under the terms of both the revised bareboat charter party and the revised time charter party, provided the charter is executed and delivered by the owner, owners of vessels other than passenger vessels will be given the option of insuring the vessel for their own account against marine risks in such amount as they may negotiate with underwriters. Such insurance must in the first instance be placed with the American Marine Insurance Syndicate but excess amounts may be placed by the owner with such underwriters as they may designate, all subject to the provisions of the appropriate charter.

(6) The option of the owner to insure his vessel for his own account as aforesaid shall be known as Insurance Option II.

(7) To the extent required by the terms of the revised time charter, the owner shall procure marine protection and indemnity insurance in the name of the owner and the War Shipping Administration, and its agents and sub-agents. The War Shipping Administration will reimburse the owner for premium cost of insurance so procured.

(8) Full assumption of insurance risks by the Administrator as set forth in subparagraphs (2) and (3) of this paragraph (e) shall be known as Insurance Option I.

(9) Telegraphic advices with respect to the election between Option II and Option I should be addressed to "Director, War Insurance, War Shipping Administration, Washington, D. C." not later than date of delivering of the vessel under the charter. In the absence of such notice Option I shall apply.

(f) *Newly constructed vessels.* (1) Owners of all newly constructed freighters and tankers which are delivered to them by shipyards on and after October 15, 1943, are hereby notified that the possession and use of such vessels shall be considered as having been requisitioned on bareboat basis effective upon delivery to War Shipping Administration, upon the terms and conditions and with the same option as set forth in paragraph (b) (1) hereinabove. Deliveries prior to October 15, 1943, may be handled on the same basis by mutual consent.

(2) Any written notices to such owners of the Administration's intention to requisition such vessels on time charter basis as of the time of delivery by the shipyards, are hereby modified ab initio to reflect the new program.

(g) *Status of outstanding freight commitments.* The foregoing action shall not constitute or be deemed to constitute a frustration of existing voyage charters, bills of lading, booking contracts or similar contracts or affreightment entered into on behalf of the vessel.

(h) *Bills of lading.* Effective with the commencement of operation under the new charter forms, the agents will be

permitted to issue bills of lading in the name of WSA as carrier, and General Order No. 16 will be amended accordingly.

(i) *Modification.* The Administrator reserves the right to make such exceptions or modifications to the above program as he may deem appropriate.

Whereas section 3 (b) of the Act approved March 24, 1943, (Public Law 17, 78th Congress, 1st session), provides in part as follows:

(b) The Administrator, War Shipping Administration, may determine at any time prior to the payment in full or deposit in full with the Treasurer of the United States, or the payment or deposit of 75 per centum, or just compensation therefor, that the ownership of any vessel (the title to which has been requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended, or the Act of June 6, 1941, (Public Law 101, Seventy-Seventh Congress)), is not required by the United States, and after such determination has been made and notice thereof has been published in the FEDERAL REGISTER, the use rather than the title to such vessel shall be deemed to have been requisitioned for all purposes as of the date of the original taking; *Provided however,* That no such determination shall be made with respect to any vessel after the date of delivery of such vessel pursuant to title requisition except with the consent of the owner.

and

Whereas just compensation for the said vessel has not been determined by the Administrator, War Shipping Administration, and no part thereof has been paid or deposited with the Treasurer of the United States; and

Whereas, by mutual agreement between the Administrator, War Shipping Administration, and Cletus Drouillard of 4061 West Jefferson Avenue, Ecorse, Michigan, the former owner of said vessel, the former owner has consented to the determination by the Administrator that the use rather than the title to the said vessel, its spare parts and appurtenances, shall be deemed to have been requisitioned as of the date of the original taking thereof, namely June 24, 1942; and the parties have also mutually agreed that such requisition for use shall be terminated and the said vessel redelivered to the former owner effective as of August 4, 1943;

Now, therefore, I, Emory S. Land, Administrator, War Shipping Administration, acting pursuant to the above-quoted provision of law, do determine that the ownership of said vessel, its spare parts and appurtenances, is not required by the United States, and that the requisition of the above-mentioned vessel, its spare parts and appurtenances, on June 24, 1942, shall, from and after the date of publication hereof in the FEDERAL REGISTER, be deemed to have been, for all purposes, a requisition of the use rather than of the title of said vessel, its spare parts and appurtenances, as of the date of the original taking thereof, namely June 24, 1942; and

It is further determined that the requisition of the use of said vessel be terminated effective as of August 4, 1943, and that the said vessel be redelivered to the former owner, namely Cletus Drouillard of 4061 West Jefferson Avenue, Ecorse, Michigan, effective as of August 4, 1943.

Whereas section 3 (b) of the Act approved March 24, 1943, (Public Law 17, 78th Congress, 1st session), provides in part as follows:

(b) The Administrator, War Shipping Administration, may determine at any time prior to the payment in full or deposit in full with the Treasurer of the United States, or the payment or deposit of 75 per centum,

or just compensation therefor, that the ownership of any vessel (the title to which has been requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended, or the Act of June 6, 1941 (Public Law 101, Seventy-Seventh Congress)), is not required by the United States, and after such determination has been made and notice thereof has been published in the FEDERAL REGISTER, the use rather than the title to such vessel shall be deemed to have been requisitioned for all purposes as of the date of the original taking; *Provided, however*, That no such determination shall be made with respect to any vessel after the expiration of a period of two months after the date of delivery of such vessel pursuant to title requisition except with the consent of the owners.

and

Whereas just compensation for the said vessel has not been determined by the Administrator, War Shipping Administration; and no part thereof has been paid or deposited with the Treasurer of the United States; and

Whereas the ownership of the said vessel, its spare parts and appurtenances, is not required by the United States; and

Whereas, by mutual agreement between the Administrator, War Shipping Administration, and the Port of Astoria, Astoria, Oregon, the former owner of said vessel, the former owner has consented to the determination by the Administrator that the use rather than the title of the said vessel, its spare parts and appurtenances, shall be deemed to have been requisitioned as of the date of the original taking thereof, namely June 19, 1942, and the parties have also mutually agreed that such requisition for use shall be terminated and the said vessel redelivered to the former owner, effective as of July 15, 1943.

Now, therefore, I, Emory S. Land, Administrator, War Shipping Administration, acting pursuant to the above-quoted provision of law, do determine that the ownership of said vessel, its

spare parts and appurtenances, is not required by the United States, and that the requisition of the above-mentioned vessel, its spare parts and appurtenances, on June 19, 1942, shall, from and after the date of publication hereof in the FEDERAL REGISTER, be deemed to have been, for all purposes, a requisition of the use rather than of the title of said vessel, its spare parts and appurtenances, as of the date of the original taking thereof, namely, June 19, 1942; and

It is further determined that the requisition of the use of said vessel be terminated effective as of 1:30 p. m. P. w. t., July 15, 1943, and that the said vessel be redelivered to the former owner, namely the Port of Astoria, Astoria, Oregon, effective as of said July 15, 1943.

E. S. LAND,  
Administrator.
