## Chapter X—War Food Administration (Production Orders)

[FPO 14, Supp. Order 1, Amdt. 1]

## PART 1202—FARM MACHINERY AND EQUIPMENT

## NEW FARM MACHINERY AND EQUIPMENT

Supplementary Order No. 1,<sup>1</sup> issued under Food Production Order No. 14,<sup>2</sup> is hereby amended as follows:

<sup>1</sup> 8 F.R. 13221, 13966.

<sup>2</sup> 8 F.R. 13217, 13283.

Paragraph (b) of § 1202.304 is amended to read:

(b) On or before November 5, 1943, each manufacturer shall make a written report, in the form set forth in Exhibit C attached hereto, to the State USDA War Board for each State with respect to the units of Schedule I equipment reported by him to the Director for distribution in such State pursuant to paragraph (a) of this section. Such report shall show the manufacturer's proposed distribution of such equipment by counties. This report is sometimes hereinafter referred to as the "county distribution plan." The State USDA War Board may, on or before December 10, 1943, change a county distribution plan by not more than 10 percent of the units of each type of equipment, but changes affecting more than 10 percent of any type of equipment may be made with the consent of the manufacturer. (This authority to change a county distribution plan shall not be construed to permit an increase in the total number of units of any type of equipment to be transferred in any State under such plan.) On or before December 10, 1943, the State USDA War Board shall notify the manufacturer of any change in his county distribution plan or that it will make no such change. (Other changes in a county distribution plan may be made under the provisions of paragraph (c) (2) of § 1202.305.)

Paragraph (d) of § 1202.304 is amended to read:

(d) On or before November 26, 1943, each State USDA War Board shall authorize each county farm rationing committee within the State to issue, beginning December 1, 1943, a specified number of purchase certificates for each type of Schedule I equipment. This authorization, however, shall not be more than the total number of units of such equipment which the State USDA War Board determines will probably be available for such county according to the county distribution plans. On or before December 15, 1943, each State USDA War Board shall notify each county farm rationing committee within the State of the number of units of each type of Schedule I equipment expected to be available for such county according to the county distribution plans. After receiving such notification no county farm rationing committee shall issue any purchase certificates (including purchase certificates issued on and after December 1, 1943) for such type of Schedule I equipment in excess of such number unless expressly permitted to do so by its State USDA War Board. The State USDA War Boards are hereby authorized to grant such permission.

A corporation going into liquidation during any taxable year may, upon the completion of such liquidation, prepare a return for that year covering its income for the part of the year during which it was engaged in business and may immediately file such return with the collector. See also section 148 (d) and (e).

For provisions relating to certain cases in which the time for filing income tax returns is postponed by reason of a member (whether or not the taxpayer) of the military or naval forces of the United States serving on sea duty or outside the continental United States, by reason of any other individual (whether or not the taxpayer) being outside the Americas, or by reason of a locality being an area of enemy action or control, see Treasury Decision 5279, set forth in paragraph 111a of the Appendix to these regulations. See such Treasury decision also for the circumstances under which the time for filing income tax returns of the spouses of such members or of such other individuals is in certain cases postponed. **PART 944—REGULATIONS APPLICABLE TO THE  
 OPERATION OF THE PRIORITIES SYSTEM**

[Interpretation 8 of Priorities Reg. 1]

**EFFECT OF INVENTORY AND SMALL ORDER PRO-  
 VISIONS ON SEPARATE OPERATING UNITS OF  
 THE SAME COMPANY**

The following interpretation is issued  
 with respect to Priorities Regulation 1.

(a) If an individual plant, branch store,  
 division or other operating unit normally  
 keeps separate inventory from the rest of  
 the corporation or firm, inventory restric-  
 tions in WPB orders and regulations apply  
 to it separately. Thus, although another  
 unit may have exceeded an inventory limit,  
 this does not prevent a unit which has not  
 exceeded it from acquiring additional inven-  
 tory within the limit.

(b) Likewise, if an order of the War Pro-  
 duction Board provides an exemption for  
 small purchases, an operating unit which  
 normally buys separately need not consider  
 purchases made by other units in determin-  
 ing whether it comes within the exemption.

(c) It may happen that the same operating  
 unit will be treated separately for purposes  
 of inventory restrictions but not for purposes  
 of small order exemptions. For example, if a  
 distributor purchases centrally for direct  
 shipment to several outlets which keep sep-  
 arate inventories, the outlets are treated sep-  
 arately for purposes of inventory restrictions  
 but the central purchasing agency must in-  
 clude all its purchases in determining  
 whether a transaction comes within a small  
 order exemption.

(d) This interpretation applies only in  
 cases where a contrary rule is not expressly  
 stated in the applicable War Production  
 Board order or regulation. Also it only ap-  
 plies where the regular business practice of  
 the unit in question is to keep a separate  
 inventory or to buy separately. It does not  
 apply if the regular practice has been changed  
 just for the purpose of coming within this  
 interpretation.

**PART 1226—GENERAL INDUSTRIAL  
 EQUIPMENT**

[General Limitation Order L-292 as Amended  
 Nov. 22, 1943]

**FOOD PROCESSING MACHINERY**

The fulfillment of the requirements  
 for the defense of the United States has  
 created a shortage in the supply of ma-  
 terials used in the production of food  
 processing machinery, for defense, for  
 private account and for export; and the  
 following order is deemed necessary and  
 appropriate in the public interest and  
 to promote the national defense.

§ 1226.77 *General Limitation Order  
 L-292*—(a) *Definitions*. For the pur-  
 pose of this order:

(1) "Person" means any individual,  
 partnership, association, business trust,  
 corporation, or organized group of per-  
 sons, whether incorporated or not, in-  
 cluding any governmental agency or  
 corporation.

(2) "Processor" means any person to  
 the extent that he is engaged in the  
 business of preparing, processing, can-  
 ning, packing or packaging human or  
 animal foods or tobacco for distribution  
 (except food for consumption on the  
 premises). A person shall not be  
 deemed to be a processor to the extent  
 that he is engaged in the production of  
 food or tobacco, but an operator of a  
 processing plant located on a farm and  
 engaged in the business of preparing,  
 processing, canning, packing or packag-  
 ing human and animal food for distri-  
 bution shall be deemed a processor. The  
 term "processor" does not include gov-  
 ernmental agencies processing food for  
 governmental use, charitable institu-  
 tions processing food for their own use,  
 or educational institutions.

(3) "Food processing machinery"  
 means new, used, reconditioned and re-  
 built machinery and equipment, of the  
 kinds specified in Schedule A hereto,  
 with a sales value of \$50 or more for any  
 single new machine or piece of equip-  
 ment or \$300 for any single used, rebuilt  
 or reconditioned machine or piece of  
 equipment; excluding (i) refrigerating  
 machinery and equipment as defined in  
 Limitation Order L-38, (ii) machinery  
 and equipment used on a farm or a fish-

ing vessel for production and handling  
 of food or tobacco prior to delivery to a  
 processor, (iii) scales and balances as  
 defined in Limitation Order L-190, (iv)  
 conveying machinery as defined in Limi-  
 tation Order L-193, (v) machinery and  
 equipment used for packaging, filling or  
 labeling containers, except as otherwise  
 indicated in Schedule A, and (vi) oil  
 processing machinery and equipment  
 used in processing, or in connection with  
 processing, animal, fish and vegetable  
 fats, oils and greases.

(4) "Manufacturer" means any person  
 engaged in the fabrication, assembly,  
 reconditioning or rebuilding of food  
 processing machinery; and includes sub-  
 sidiaries and affiliates of any such  
 person.

(5) "Dealer" means any person en-  
 gaged in the business of acquiring food  
 processing machinery for resale; but the  
 term shall not include any manufac-  
 turer.

(6) "Approved order" means any order  
 of the following kinds:

(i) An order for any food processing  
 machinery bearing a preference rating of  
 AA-5 or higher assigned on Form WPB-  
 617 formerly PD-200.

(ii) An order for canning machinery  
 or equipment as described in Schedule A  
 to be delivered to a processor located  
 within the territorial limits of the United  
 States and Canada, bearing a preference  
 rating of AA-5 or higher assigned on  
 Form WPB-576 formerly PD-285.

(iii) An order for dairy, egg, or poul-  
 try processing machinery or equipment  
 as described in Schedule A to be deliv-  
 ered to a processor located within the  
 territorial limits of the United States and  
 Canada, bearing a preference rating of  
 AA-5 or higher assigned on Form WPB-  
 748 formerly PD-414.

(iv) An order for food processing ma-  
 chinery approved by the War Production  
 Board pursuant to subparagraph (b) (2)  
 hereof; or

(v) Any order for food processing ma-  
 chinery (except canning, machinery or  
 equipment or dairy, egg or poultry  
 processing machinery or equipment or  
 meat canning, meat packing and meat  
 processing machinery or equipment, to  
 be delivered to a processor located within  
 the territorial limits of the United States  
 and Canada) bearing a preference rating  
 of AA-5 or higher assigned on Form  
 WPB-541 (formerly PD-1A).

(vi) An order for meat canning, meat  
 packing, and meat processing machinery  
 and equipment, as described in Schedule  
 A, to be delivered to a processor located  
 within the territorial limits of the United  
 States and Canada bearing a preference  
 rating of AA-5 or higher assigned on  
 Form WPB-3155.

(7) "Order" means any commitment  
 or other arrangement for the delivery of  
 food processing machinery, whether by  
 sale, lease, consignment, or otherwise.

(b) *Restrictions on orders and deliv-  
 eries*. (1) On and after June 15, 1943, no  
 manufacturer, dealer, or processor shall  
 accept any order for food processing ma-

chinery unless the order is an approved order. On and after June 30, 1943, no manufacturer, dealer, or processor shall deliver any food processing machinery and no person shall accept delivery of food processing machinery from any manufacturer, dealer, or processor, except pursuant to an approved order. However, these restrictions on the sale, delivery and acceptance of delivery of food processing machinery shall not prohibit any person from obtaining any complete piece of food processing machinery in accordance with CMP Regulation 5 or 5A if it is for replacement of an existing piece of machinery and if it does not cost over \$250 in the case of CMP Regulation 5 or \$100 in the case of CMP Regulation 5A. Any person applying or extending a preference rating under CMP Regulation 5 or 5A for replacement may add to the certificate applying or extending the rating a statement substantially as follows: "This order is for replacement of existing machinery." Any person receiving an order bearing a certification and rating with this statement shall be entitled to rely on the representation of the certification unless he knows or has reason to believe it to be false.

(2) A manufacturer or dealer may apply for approval of orders received by him prior to June 5, 1943, to be delivered on or after June 30, 1943, by filing in triplicate a list of such orders together with the following information with respect to each:

Name and address of customer and date of order.  
Description of food processing machinery ordered.  
Expected delivery date.  
Rating and source thereof (i. e., Form PD-1A, PD-285, etc.) if known.  
Percentage of completion of order and amount of additional material necessary.  
Use to be made of machine.

(3) Any person applying or extending a preference rating assigned to an "approved order" may add to the certificate applying or extending the rating a statement of the source of the rating substantially as follows: "This rating has been assigned on Form \_\_\_\_\_ as provided in Limitation Order L-292." (The appropriate form number should be inserted in the blank space by the purchaser.) Any person receiving an order bearing a certification and rating with this statement shall be entitled to rely on the representation of the certification unless he knows or has reason to believe it to be false.

(c) *Restrictions on manufacture.* On and after June 30, 1943, no manufacturer shall fabricate or assemble any new machinery or equipment of the kinds listed on Schedule B hereto, or any parts therefor. The provisions of this paragraph apply to all kinds of food processing machinery and equipment listed on Schedule B regardless of whether the sales value of any item is less than \$50. The limitations and restrictions of this paragraph shall not apply to (1) the completion of any food processing machine or piece of equipment for which parts weighing, in the aggregate, not less than 75% of the weight of the finished

machine or piece of equipment were fabricated prior to June 5, 1943 to the extent that they could not be used either as maintenance or repair parts for other kinds of food processing machinery or in the assembly of food processing machinery not subject to the restrictions of this paragraph; or (2) the fabrication or assembly of maintenance and repair parts or parts used in the reconditioning or rebuilding of used food processing machinery. As used in this paragraph "maintenance" shall mean the upkeep of food processing machinery in sound working condition; and "repair" shall mean the restoration, without change of design, of any portion of food processing machinery to sound working condition, when such portion has been rendered inoperative or unsafe or unfit for service by wear and tear, damage, destruction or failure of parts, or other similar causes.

(d) *Simplification and standardization.* (1) On and after June 30, 1943, no manufacturer of dairy, egg, or poultry processing machinery or equipment shall fabricate or assemble any machinery or equipment of the kinds listed in Schedule C except in the size, style, or model therein prescribed.

(2) On and after June 30, 1943, no manufacturer of canning machinery or equipment shall fabricate or assemble any type or kind of machinery or equipment in more than one model for any one operation on any food or food product; except that a second model may be fabricated and assembled if it will provide at least 50% greater food processing capacity than that of the smaller model produced by the same manufacturer and performing the same operation on the same food or food product. In any event no manufacturer shall fabricate or assemble more than two models of any type or kind of machine. The provisions of this subparagraph shall not be construed to limit or restrict the number of sizes in any model which may be produced.

(3) Prior to June 30, 1943, each manufacturer of canning machinery and equipment shall file with the War Production Board on Form WPB-1902, formerly PD-754, a list of the models, and of the sizes thereof, which he proposes to manufacture in accordance with the restrictions of subparagraph (d) (2); and thereafter, unless otherwise directed by the War Production Board such manufacturer shall be permitted to produce only the models so reported.

(4) Notwithstanding any other provision of this paragraph (d) no manufacturer shall be prohibited from completing any machine or piece of equipment for which parts weighing in the aggregate not less than 75% of the weight of the finished machine were fabricated prior to June 5, 1943, to the extent that they could not be used either as maintenance or repair parts for other kinds of food processing machinery or in the assembly of food processing machinery in compliance with the restrictions of this paragraph (d).

(e) *Conservation of critical materials.* On and after June 30, 1943, no manufacturer shall fabricate or assemble any food processing machinery or equipment

of the kinds listed in Schedule D, or repair parts therefor, otherwise than in accordance with the restrictions on the use of materials contained in that schedule. The restrictions of this paragraph (e) apply to all items listed in Schedule D and repair parts for them, regardless of whether the sales value of any of those items is less than \$50. However, the provisions of this paragraph shall not prohibit:

(1) The assembly of any machinery or equipment from parts fabricated prior to June 5, 1943, or

(2) The fabrication of repair parts for food processing machinery which was fabricated prior to June 30, 1943, if and to the extent that parts fabricated in accordance with the restrictions of Schedule D would not be interchangeable with the parts to be repaired or replaced because of a change in materials used.

(f) *Exemptions.* (1) The limitations and restrictions of subparagraph (b) (1) shall not apply to:

(i) Orders from or deliveries to a manufacturer or dealer to enable him to fill approved orders which he has actually received, or to replace machinery delivered by him to fill approved orders;

(ii) The seizure or transfer of food processing machinery upon distraint or levy, or upon default in the terms of a conditional sales agreement, chattel mortgage, pledge, or other security agreement;

(iii) The transfer of food processing machinery at judicial or sheriff's auction or sale, tax sale, or other similar transaction conducted by a judicial or other legal officer;

(iv) The transfer of food processing machinery by will or intestacy, or by operation of law to a trustee, receiver, or assignee for the benefit of creditors, in bankruptcy, insolvency, or receivership, proceedings or pursuant to any assignment for the benefit of creditors;

(v) The transfer of food processing machinery as part of a merger, consolidation, sale and purchase of assets, sale and purchase of stock, or lease of plant, involving all or substantially all the assets of a business, where no liquidation or dismemberment of assets is involved or contemplated;

(vi) The transfer of food processing machinery within a plant or from one plant or branch to another under common control, but not the transfer from a plant manufacturing the machinery to a plant which will use it;

(vii) The transfer of food processing machinery as a trade-in for other food processing machinery where the latter is delivered pursuant to an approved order;

(viii) The transfer of food processing machinery to be scrapped for its material content;

(ix) The transfer of any interest in a written instrument evidencing a lien upon or claim against food processing machinery: *Provided however,* That nothing in this subdivision (ix) shall be construed to permit the physical delivery of the food processing machinery involved;

(x) The return of any leased food processing machinery by the lessee to the lessor upon the expiration, termination or cancellation of the lease; or to

(xi) An order for or delivery of food processing machinery to be used directly by the Army, or Navy, Maritime Commission, or War Shipping Administration.

(xii) The transfer of food processing machinery from a processor to a manufacturer or dealer;

(xiii) Any order placed by a manufacturer for food processing machinery to be incorporated into other food processing machinery.

(2) The limitations and restrictions of paragraphs (c) and (d) shall not apply prior to September 3, 1943, to any order for or delivery of food processing machinery to be used directly by the Army, Navy, Maritime Commission or War Shipping Administration.

(g) *Production quotas.* (1) The War Production Board may at any time, by amendment to this order, adopt schedules prescribing the number of units of food processing machinery of any kind which may be fabricated and assembled by any manufacturer. On and after the date of issuance of any such schedules (or such other date as shall be specified in the schedule), no manufacturer shall fabricate or assemble more units of any kind of food processing machinery than the number thereof specified in such schedule.

(2) Unless and until the War Production Board shall otherwise provide by schedules adopted in accordance with the provisions of paragraph (g) (1) above:

(i) During the period from January 1, 1943, to September 30, 1943, no manufacturer shall fabricate or assemble any kind of food processing machinery in excess of the number of units of such kind fabricated and assembled by him during the similar period in 1942. However, a manufacturer may fabricate or assemble the quantity of meat canning, meat packing and meat processing machinery and equipment which will require a gross tonnage of controlled materials not exceeding the gross tonnage of the kinds of such materials used by him for this purpose during the first nine months of 1942. In any case where the restrictions of this subparagraph would prevent a manufacturer from filling any orders which he received prior to June 5, 1943, rated AA-3 or higher, he may fabricate and assemble the necessary number of additional units to enable him to fill such orders.

(ii) During the year beginning October 1, 1943, and ending September 30, 1944, no manufacturer shall fabricate or assemble any kind of food processing machinery in excess of 50% of the annual average number of units of such kind of machinery which he fabricated and assembled during the calendar years 1939, 1940 and 1941. However, a manufacturer may fabricate or assemble the quantity of meat canning, meat packing and meat processing machinery and equipment which will require a gross tonnage of controlled materials not exceeding 50% of the annual average gross tonnage of the kinds of such materials used by him for this purpose during the calendar years 1939, 1940 and 1941.

(3) The quota provisions of paragraph (g) (2) do not apply to the fabri-

cation or assembly of food processing machinery to fill specific orders actually received by a manufacturer for food processing machinery to be used directly by the Army, Navy, Maritime Commission or War Shipping Administration, or for export outside the territorial limits of the United States and Canada.

(4) The War Production Board may at any time prescribe a production schedule for any manufacturer in respect to any kinds or styles of food processing machinery, regulating the time in which such items shall be produced and the number of units of a model to be produced in any one size. From and after the receipt of any such schedule, the manufacturer may carry on production only in accordance with the schedule. The provisions of this subparagraph shall not be construed to affect the other provisions of this order regulating the aggregate number and kinds of machines or pieces of equipment which may be produced by any manufacturer.

(h) *Miscellaneous provisions—(1) Reports.* On or before the 20th day of June and of each succeeding calendar month, each manufacturer shall file a report on Form WPB-2721.

(2) *Other limitation orders.* Nothing in this order shall be construed to permit any person to sell, deliver, or otherwise transfer, or any manufacturer to purchase, receive delivery of or otherwise acquire any raw materials, semi-processed parts, or finished products in contravention of the terms of any L or M order, or amendments or supplements thereto, or other regulation of the War Production Board effective at the date of any such sale, delivery, or other transfer. Where the limitations imposed by any other L or M order are applicable to the subject matter of this order, the most restrictive limitation shall apply, unless otherwise specifically provided herein.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

(4) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(5) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, General Industrial Equipment Division, Washington 25, D. C. Ref.: L-292.

NOTE: The reporting requirement of paragraph (b) (2) has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 22d day of November 1943.

WAR PRODUCTION BOARD,  
By J. JOSEPH WHELAN,  
Recording Secretary.

#### PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 5A as Amended Nov. 22, 1943]

##### MAINTENANCE, REPAIR AND OPERATING SUPPLIES FOR GOVERNMENTAL AGENCIES AND INSTITUTIONS

###### § 3175.5a CMP Regulation 5A—(a)

**Purpose and scope.** (1) The purpose of this regulation is to provide for governmental agencies and for institutions a uniform procedure for obtaining maintenance, repair and operating supplies, both in the case of controlled materials obtained by use of allotment symbols under the Controlled Materials Plan and in the case of materials or products obtained by preference ratings. Any agency or institution affected by this regulation requiring maintenance, repair and operating supplies, in any form, in such quantities as are available from warehouses or distributors under CMP Regulation No. 4 or at retail without preference ratings or allotments, may obtain the same without using the procedure provided in this regulation, but subject to all applicable limitations in War Production Board regulations and orders.

(2) The provisions of this regulation shall not apply to any governmental agency or to any institution to the extent that it is engaged in the following services or industries: gas, light, power, water, central heating, or the operation of a sanitary sewerage system or a storm sewerage system combined with a sanitary sewerage system for general use by the public, or to communications (in so far only as communications are provided for in Orders U-3 and U-4).

(3) **Governmental agencies and institutions in the Dominion of Canada.** The provisions of this regulation shall be available to those governmental agencies and institutions in the Dominion of Canada which may on application by the Department of Munitions and Supply, Ottawa, Canada, be authorized by the War Production Board to operate under it subject to such conditions as may be set out in the authorization. Any such agency or institution in Canada receiving such authority shall use the following certification instead of any certification prescribed in this regulation, and shall not use the alternative form of certification prescribed in CMP Regulation No. 7:

The undersigned purchaser certifies, subject to the penalties of section 15 of the

Canadian Wartime Industries Control Board Regulations, to the seller, to the Canadian Priorities Officer, and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized, under applicable Canadian orders, and under applicable War Production Board regulations or orders, to place this delivery order, to receive the item(s) ordered for the purpose for which ordered, and to use any preference rating or allotment number or symbol which the undersigned has placed on this order.

Subject to the quantity restrictions contained in paragraph (f) of this regulation, any governmental agency or any institution engaged in any activity or rendering any service listed in Schedule I or Schedule II attached to this regulation, requiring de-

livery after March 31, 1943, of any controlled material (as defined in CMP Regulation No. 1) except aluminum, for maintenance, repair or operating supplies in the conduct of such activity or service, may obtain the same by placing on or accompanying its delivery order with substantially the following certificate (or the alternative form of certification provided in CMP Regulation No. 7) signed manually or as provided in Priorities Regulation No. 7:

CMP allotment symbol MRO 5A—The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the controlled materials covered by this order are required for essential maintenance, repair or operating supplies, to be used for a purpose listed in Schedule I or Schedule II of CMP Regulation No. 5A and that delivery thereof will not result in a violation of the quantity restrictions contained in paragraph (f) of said regulation.

An order bearing such certification shall constitute an authorized controlled material order.

(2) *Aluminum*. Any governmental agency or any institution engaged in any activity, or rendering any service listed in Schedule I or II, requiring aluminum in any of the forms or shapes constituting a controlled material, for essential maintenance, repair or operating supplies, where the use of other materials for the purpose is impracticable, may obtain the same from a controlled materials producer or from a distributor specifically authorized by the War Production Board to engage in the business of receiving aluminum for sale or resale, in an amount of not to exceed 500 pounds from all sources during any one calendar quarter: *Provided*, That any order placed pursuant to this paragraph (c) (2) shall be endorsed with or accompanied by substantially the following certificate (or the alternative form of certification provided in CMP Regulation No. 7) signed manually or as provided in Priorities Regulation No. 7:

CMP allotment symbol MRO-5A—The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the materials covered by this order are required for essential maintenance, repair or operating supplies to be used for a purpose listed in Schedule I or Schedule II of CMP Regulation No. 5A; that the use of other materials for such purpose is impracticable; and that the amount of aluminum covered by this order, together with all other amounts received by, or on order for delivery to, the undersigned, from all sources, for such purpose during the same quarter, will not exceed 500 pounds.

Any producer or warehouse receiving an order bearing such certificate shall be entitled to rely thereon and may fill the order, unless he knows or has reason to believe the certificate to be false. An order bearing such certification shall constitute an authorized controlled material order.

(3) Any governmental agency or any institution engaged in any activity or rendering any service listed on Schedule I or II, which needs aluminum in any of the forms or shapes constituting a controlled material in amounts aggre-

gating more than 500 pounds from all sources during any one calendar quarter for use as essential maintenance, repair or operating supplies where the use of other material for such purpose is impracticable, may apply for an allotment of the amount thereof in excess of 500 pounds during any one calendar quarter by letter addressed to the Aluminum and Magnesium Division, War Production Board, Washington, D. C., Ref: MRO. The letter should contain substantially the information called for by paragraphs (d) (1) to (6) of Supplementary Order M-1-i, as amended March 10, 1943. If the application is granted, the applicant will receive an allotment number or symbol, and may place an authorized controlled material order by endorsing an order with such allotment number or symbol and the certification prescribed in paragraph (s) (3) of CMP Regulation No. 1 or in CMP Regulation No. 7, executed as provided in such regulations.

(d) *Preference ratings for maintenance, repair and operating supplies*.

(1) Subject to the quantity restrictions contained in paragraph (f) of this regulation, orders by any governmental agency or institution calling for delivery after March 31, 1943, of maintenance, repair or operating supplies other than controlled materials (regardless of whether such supplies be Class A products, Class B products, or other products or materials) are hereby assigned preference ratings as follows:

(i) AA-1 for maintenance or repair of facilities required for any activity or service listed in Schedule I or for necessary operating supplies for such activity or service;

(ii) AA-2 for maintenance or repair of facilities required for any activity or service listed in Schedule II or for necessary operating supplies for such activity or service;

(iii) AA-5 for necessary maintenance or repair of facilities required for any activity or service not listed in Schedule I or Schedule II or for necessary operating supplies for any such purpose.

(iv) For maintenance, repair and operating supplies for any building devoted primarily to any service or activity listed in Schedule I or Schedule II, the rating assigned to that service is hereby assigned.

(2) Any agency or any institution which maintains a central stores system where it is impracticable to charge purchases for inventory against a particular service or activity, may establish a scale of percentages for each rating, for each class of items, based upon withdrawals from the central stores system during the calendar year 1942 (or its fiscal year ending nearest to December 31, 1942) by the various agencies and institutions (and departments thereof) and may apply the appropriate percentage of each rating to its purchases for the central stores system. In the alternative, any such agency or institution may apply to the War Production Board, pursuant to the provisions of paragraph (k) for the as-

assignment of ratings for such stores system.

(3) A preference rating assigned under this paragraph (d) shall be applied only by use of the following certification (or the alternative form of certification provided in CMP Regulation No. 7) signed manually or as provided in Priorities Regulation No. 7:

Preference rating ----- (specify rating):  
MRO 5A. The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the items covered by this order are required for essential maintenance, repair or operating supplies; that this order is rated and placed in compliance with CMP Regulation No. 5A and that the delivery requested will not result in a violation of the quantity restrictions contained in paragraph (f) of said regulation.

(4) A person with whom a delivery order is placed bearing a preference rating assigned by this regulation may, subject to the limitations contained in CMP Regulations Nos. 1 and 2, extend the rating in the manner provided in CMP Regulation No. 3 (using the endorsement therein specified or the alternative form of certification provided in CMP Regulation No. 7).

(e) *Departments engaged in several activities.* If any governmental agency or unit thereof, or any department or unit thereof, is engaged in several activities which are not assigned the same preference rating and if it is impracticable to apportion maintenance, repair and operating supplies between such activities, the principal activity alone shall be considered for the purpose of determining whether controlled materials may be obtained under paragraph (c) of this regulation, and also for determining which preference ratings may be applied under paragraph (d).

(f) *Quantity restrictions.* (1) No governmental agency and no institution which uses the allotment symbol of preference ratings assigned by this regulation to obtain any maintenance, repair and operating supplies shall order for delivery during any calendar quarter maintenance, repair or operating supplies in an aggregate amount exceeding 30 percent of its aggregate expenditures for maintenance, repair and operating supplies during the calendar year 1942 (or its fiscal year ending nearest to December 31, 1942), except that any governmental agency or any institution engaged in an activity which normally requires a greater amount of maintenance, repair or operating supplies during certain seasons than others may use such allotment symbol or preference ratings to order for delivery during any calendar quarter up to, but not in excess of, its aggregate expenditures for maintenance, repair and operating supplies during the corresponding quarter of 1942 (or of such fiscal year). In neither case, however, shall any governmental agency or any institution use such allotment symbol or preference ratings to obtain maintenance, repair and operating supplies during the 12 months ending March 31, 1944, in an amount exceeding its aggregate expenditures for maintenance, repair and operating supplies during the calendar

year 1942 (or such fiscal year). In determining the dollar amount of expenditures for maintenance, repair and operating supplies permitted under this paragraph (f) there shall be included not only expenditures for supplies obtained by use of the allotment symbol or preference ratings hereby assigned, but also expenditures for supplies which are obtained without the use of such symbol or ratings plus amounts expended in acquiring minor capital additions under paragraph (b) (6) of this regulation. Expenditures during the base period shall be computed in the same way except that amounts expended in acquiring minor capital additions during the base period shall not be included.

(2) A governmental agency or institution which has several departments, branches or units which maintain separate records of maintenance, repair and operating supplies, shall treat each of them separately for purposes of complying with the provisions of subparagraph (1) of this paragraph (f).

(3) In the case of a governmental agency or an institution or any department thereof which was not in operation during the base period specified in subparagraph (1) of this paragraph (f), such agency, institution or department may take, as a base, its expenditures for maintenance, repair and operating supplies during the first quarter of 1943, or during the portion thereof when such agency, institution or department was in operation, reasonably adjusted for seasonal or other variable factors: *Provided*, That it first notifies the War Production Board in writing of the base which it is taking, the reasons therefor, and the nature of any adjustments made. In the case of a governmental agency, or institution or department thereof starting operations after February 28, 1943, maintenance, repair and operating supplies may be acquired pursuant to this regulation in the minimum amounts necessary for operation, without other restrictions, up to \$500 per quarter. If more than this amount is required, application shall be made to the War Production Board for a specific quota. In any case where the base provided in subparagraph (1) or by this subparagraph (3) is deemed too low for necessary operations, application may be made for modification thereof by filing a letter in triplicate with the Government Division, War Production Board, Washington 25, D. C., stating the relevant facts.

(4) The restrictions contained in this paragraph (f) shall apply in addition to any quantitative restrictions contained in any order in the "P" series, unless the particular P order expressly provides that the restrictions of this regulation shall be inapplicable.

(5) The quantity restrictions in this paragraph (f) shall not apply to any governmental agency or any institution which during the calendar year 1942 (or fiscal year ending closest to December 31, 1942) used for maintenance, repair and operating supplies, materials of the aggregate value of not exceeding \$1,000 and whose estimated requirements for material to be used for maintenance, repair and operating supplies during any calendar

year (or corresponding fiscal year) does not exceed \$1,000 provided that a practical working minimum inventory is not exceeded. If the actual requirements for maintenance and repair and operating supplies for such year should prove to be in excess of \$1,000 such agency or institution shall not, during such year, accept any deliveries of material to be used for maintenance, repair or operating supplies if such deliveries when taken together with other deliveries within such year would in the aggregate exceed \$1,000. In such case such agency or institution may apply for a specific quota pursuant to the provisions of paragraph (k) of this order.

(6) The War Production Board may, by further regulations or orders, require specified persons or classes of persons, to file applications or reports regarding their requirements of maintenance, repair and operating supplies and may prescribe specific quantitative limits for the same either larger or smaller than the limits provided in this paragraph (f).

(g) *Form WPB-837 (PD-408) discontinued.* Form WPB-837 (PD-408) has been discontinued as of September 30, 1943. Orders placed before that date to which the ratings or MRO symbol assigned on that form were applied may nevertheless be filled.

(h) *Special provisions relating to use of MRO symbol and preference ratings.*

(1) Any person (such as the operator of a toll bridge or a contract garbage collector) who, pursuant to franchise from, or contract with, any governmental agency, performs any service for such agency may use the same allotment symbol and preference rating to obtain maintenance, repair and operating supplies required for such service, which such governmental agency would be entitled to use if it performed such service itself. In computing quantity restrictions under paragraph (f) hereof such service shall be treated as if it were performed by a single department of such governmental agency.

(2) Any person (such as a service repair shop) engaged in the business of doing maintenance or repair work for any governmental agency or any institution may use the same allotment symbol and preference rating to obtain materials needed in the performance of the work which such governmental agency or institution would be entitled to use if it did the work itself. The cost of materials used in the performance of maintenance or repair work shall be treated as expenditures of such agency or institution for the purpose of computing its quantity restrictions under paragraph (f). A person engaged in such business may, instead, request an allotment of controlled materials and a preference rating by applying to the War Production Board, on Form CMP 4-B, but if he does so he must use that method exclusively and may not use such customer's rating or symbol.

(3) Any governmental agency or any institution or any department, branch or unit thereof which is engaged in producing any product or conducting any business listed in Schedule I or Schedule II of CMP Regulation No. 5 may, to the ex-

tent, but only to the extent, that it is so engaged use the applicable rating assigned by CMP Regulation No. 5 and the symbol MRO-5A to obtain maintenance, repair and operating supplies required in conducting such business, but in so doing such agency or institution shall be deemed to operate under this regulation and shall be subject to all of the terms and provisions hereof.

(4) When any building is leased to a governmental agency or institution the landlord may use the same allotment symbol and preference rating to obtain maintenance, repair and operating supplies required for such building, which such governmental agency or institution would be entitled to use if it owned and maintained such building itself; but if the building is occupied by several tenants and the supplies are not for the benefit of a single tenant, the landlord may use a tenants' rating and symbol only if 75 per cent or more of the leased property is used in activities or services on Schedule I or II of this regulation, and in such case, unless all of such activities and services are listed in Schedule I, only the AA-2 rating may be used. In computing quantity restrictions under paragraph (f) hereof, such building shall be treated as if it were maintained by a single department of a governmental agency or institution.

(i) *Penalties for misrepresentation or diversion.* (1) The placing of any order bearing a certification or symbol as provided by this regulation shall constitute a representation, subject to the criminal penalties of section 35 (A) of the United States Criminal Code (18 U. S. C. 80), that the person placing the order is entitled, under the terms of this regulation to the use of the symbol or preference rating indicated thereon.

(2) No person shall use for any purpose other than essential maintenance, repair or operations, any supplies obtained pursuant to this regulation, or use any supplies obtained under a preference rating assigned by this regulation for a purpose to which a lower rating, or no rating, is assigned. Any such use shall constitute a crime punishable by fine or imprisonment or both. Physical segregation of inventories is not required, provided the restrictions applicable to any specific lot of material or product are observed with respect to an equivalent amount of the same material or product.

(j) *Inventory restrictions.* Nothing in this regulation shall be deemed to authorize any governmental agency or any institution to receive any delivery of maintenance, repair or operating supplies if acceptance thereof would increase its inventory above a practicable working minimum as provided in § 944.14 of Priorities Regulation No. 1, or would exceed the inventory limitations prescribed for such person by CMP Regulation No. 2 or by any other applicable regulation or order of the War Production Board.

(k) *Additional assistance in individual cases.* Any governmental agency or any institution requiring maintenance, repair or operating supplies which is unable to obtain them with the rating as-

signed to it by this regulation, and any such agency or institution requiring any controlled material, except aluminum, for maintenance, repair or operating supplies which is not listed in Schedule I or II and which is unable to obtain it from a warehouse or distributor under CMP Regulation No. 4 may apply to the War Production Board on Form PD-1A for a higher rating, or the right to use the MRO symbol to obtain controlled materials, other than aluminum. Such form shall bear a notation to the effect that the material applied for is required for maintenance, repair or operating supplies and that applicant is operating under CMP Regulation 5A. Application for an increase in the quantity of expenditures for maintenance, repair and operating supplies permitted by paragraph (f) of this regulation, shall, however, be made by filing a letter in triplicate with the Government Division, War Production Board, Washington, D. C., Ref: CMP Regulation 5A, stating the relevant facts.

(l) *Effect on other orders and procedures.* (1) The preference ratings assigned by this regulation shall supersede the preference ratings assigned by all orders in the "P" series for maintenance, repair and operating supplies with respect to materials or products to be delivered after March 31, 1943, except as may be otherwise provided by amendments of such orders specifically providing to the contrary.

(2) Subject to paragraph (l) (1) of this regulation, all of the terms, provisions and restrictions contained in all orders in the "P" series, including definitions, requirements for making applications and filing reports and other restrictions, except as otherwise provided in paragraph (f) (4) of this regulation shall, subject to the inventory restrictions of CMP Regulation No. 2, remain in full force and effect until modified or revoked, except that this regulation shall be wholly inapplicable to any activity or service covered by any "P" order if such "P" order specifically so provides.

(3) In addition, each governmental agency or institution which, in accordance with existing priorities procedures not covered by "P" orders, is required to file applications or reports with respect to its requirements for, or use of, maintenance, repair or operating supplies, or is limited in the amount of such supplies, which it is permitted to acquire or use, shall continue to comply with such procedures until the same are modified or revoked.

(4) When an order in the "E," "L" or "M" series assigns a specific preference rating to deliveries of any particular material to be used by a particular industry or for a specific purpose, such preference rating shall control and the preference ratings hereby assigned may not be applied. For example, Order M-41 assigns a rating of A-10 to deliveries of chlorinated hydrocarbon solvents for use in the fumigation of stored products, including grain. A person who needs a chlorinated hydrocarbon solvent for such purpose may apply a rating of A-10 to its delivery and must not apply a rating assigned by this regulation.

(5) Nothing in this regulation shall be construed to relieve any governmental agency or institution from complying with any applicable priorities regulation or order of the War Production Board (including orders in the "E," "L" and "M" series) or with any order of any other competent authority.

(m) *Reclassification of activities.* Any governmental agency or any institution which is of the opinion that any activity in which it is engaged should be listed in Schedule I, if it is listed in Schedule II, or should be listed in either Schedule I or Schedule II, if it is not listed in either of such schedules, may apply to have such activity so listed by filing a letter, in triplicate, with the Government Division, War Production Board, Washington 25, D. C., Ref: CMP Regulation 5A setting forth the relevant facts and the reasons why it considers such request should be granted. The War Production Board may cause such activity to be listed in one of the schedules attached to this regulation or, in special cases, may permit the applicant to operate under this regulation to the same extent as though its activity were included in one of such schedules.

(n) *Records.* Each governmental agency and institution or other person acquiring maintenance, repair or operating supplies pursuant to this regulation, shall keep and preserve for a period of not less than two years, accurate and complete records of all such supplies so acquired, and used, which shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(o) *Communications.* All communications concerning this regulation should be addressed to: Government Division, War Production Board, Washington 25, D. C., Ref: CMP Regulation No. 5A.

(p) *Restrictions on use of ratings.* The preference ratings assigned by this regulation shall not be used to get any of the items shown on List A or B of Priorities Regulation No. 3.

Issued this 22d day of November 1943.

#### INTERPRETATION 1

Interpretations of the various provisions of CMP Regulation No. 5 are equally applicable to the corresponding provisions of CMP Regulation No. 5A. In most cases, the provisions of the two regulations are similar although there are several important differences and, therefore, care should be exercised to ascertain that the provision of CMP Regulation No. 5 covered by a particular interpretation corresponds in substance to the provision of CMP Regulation No. 5A to which it is sought to be applied. (Issued April 20, 1943.)

#### INTERPRETATION 2

An association or corporation, operated not for profit, organized for the purpose of fighting and controlling forest fires, and which, through its employees, is actually engaged in the activity of fighting and preventing forest fires, may use the rating assigned by CMP Regulation 5A to the activity of "fire protection" to obtain maintenance, repair and operating supplies required for such activity, but excluding all items on List A of said regulation. ### PART 3286—MISCELLANEOUS MINERALS<sup>1</sup>

[General Conservation Order M-162, as Amended Nov. 22, 1943]

#### PLATINUM

The fulfillment of requirements for the defense of the United States has made it necessary that any possible shortage in the supply of platinum for defense, for private account and for export be avoided; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3286.41<sup>1</sup> *General Conservation Order M-162*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* As used in this order:

(1) "Platinum means the metal platinum, and platinum salts, compounds, alloys, or mixtures, containing more than two per cent platinum by weight, in any form, including crude ores, matte, residues, sponge, bar, sheet, wire, semi-fabricated forms and partially fabricated products. It also includes scrap and secondary materials, the platinum content of which is more than two per cent by weight. It does not include finished parts, articles, or equipment, regardless of platinum content.

(2) "Jewelry" means rings, bracelets, pins, brooches, pendants, chains, earrings, combs, head or hair ornaments, buckles, buttons, cuff links, studs, badges, insignia, medals, medallions, and all other articles of personal adornment. The term also means tableware, flatware, hollow ware, cigarette cases, watch cases, candlesticks, pencils, pens (except penpoint tips), toilet sets, picture frames, and musical instruments.

(3) "Consumer" means a person who purchases, accepts delivery of, or owns finished parts, articles, or equipment containing platinum, other than jewelry, for use for any purpose other than resale or investment.

(4) "Processor" means a person who uses platinum by incorporating it physically in the parts, articles, or products which he manufactures, and includes a person who produces dental alloys.

(5) "Dealer" means a person who makes a regular business at an established address in continental United States of buying and selling platinum.

(6) "Distributor" means a person who makes a regular business at an established address in continental United States of acting as buying or selling agent for dealers or processors of platinum.

(7) "Refiner" means a person regularly engaged in the business of refining and separating platinum group metals.

(8) "Supplier" means any person who imports, smelts, alloys, melts, or refines platinum or who sells platinum to processors.

(9) "Process" means cut, draw, machine, stamp, melt, alloy, cast, forge, roll, turn, spin, or otherwise shape. It also means assemble. The term does not include buffing, or polishing an assembled article.

(10) "Put into process" means the first change by the processor in the form of material from that form in which it is received by him.

(11) The term "assemble" shall not be deemed to include the putting together

of an article after delivery to a sales outlet or consumer in knockdown form pursuant to an established custom. The term "assemble" shall also not be deemed to include adding stones or finished parts to an otherwise finished article when the placing of one or more stones or finished parts, or the size or type of one or more stones or finished parts, is determined by the choice of the ultimate consumer or the use to which the ultimate consumer is to put the article.

(12) The terms "deliver" and "receive" shall be deemed to include deliveries and receipts under toll agreement.

(13) "Finished parts, articles, or equipment" means products which are finished to the extent that they are ready for their final end use without further processing or are ready for attachment to equipment or parts of equipment which are not platinum.

(14) "Scrap" means all materials or objects which are the waste or by-product of industrial fabrication, or which have been discarded on account of wear, failure, obsolescence, or other reason.

(c) *Restrictions on sale, purchase, delivery, receipt, and manufacture.* (1) After May 30, 1942, no person shall sell, transfer, or otherwise deliver platinum except to a person known by the seller or transferor to be a refiner, a dealer, a distributor, a processor, or a consumer of platinum. No person, after May 30, 1942, shall purchase or accept delivery of platinum unless he is a refiner, a dealer, a distributor, a processor, or a consumer of platinum.

(2) On and after October 31, 1942, no supplier shall sell or deliver platinum to any processor for use in the manufacture of jewelry.

(3) On and after October 31, 1942, no processor shall purchase or receive platinum for use in the manufacture of jewelry.

(4) On and after October 31, 1942, no processor shall put into process any platinum in the manufacture of jewelry.

(5) On and after October 31, 1942, a processor in the manufacture of jewelry may continue the processing of any platinum which had already been put into process on such date, provided the processing thereof will be completed by January 1, 1943. On and after January 1, 1943, no processor shall process in any way any platinum in the manufacture of jewelry.

(6) The restrictions of paragraphs (c) (2) and (c) (3) shall not be deemed to prohibit the sale, delivery, purchase, or receipt of jewelry or parts thereof which are finished and complete except for adding stones or other finished parts and polishing.

(d) *Scrap restrictions.* (1) No processor shall purchase or accept delivery of any platinum if he owns or has in his possession more than a thirty days' accumulation of scrap, exclusive of sweepings, unless such accumulation aggre-

<sup>1</sup> Formerly Part 1256, § 1256.1.

gates less than 25 ounces, platinum content, or unless it is in the process of being refined.

(2) No person shall sell or deliver scrap except to a distributor, a dealer, or a refiner: *Provided*, That dental alloy scrap may be sold to a person who produces dental alloys.

(e) *Inventory restrictions.* No processor or consumer shall purchase or accept delivery of platinum in the form of raw materials, semi-processed materials, sub-assemblies, finished parts, or finished products, nor shall he put into process any raw material in quantities which in either case shall result in an inventory of raw, semi-processed, or finished material or products in excess of a minimum practicable working inventory. As applied to a processor, the foregoing provision means that in no event shall the platinum content of his total inventory in all forms exceed the amount of platinum contained in the final products required to meet delivery demands for a period of sixty days. The platinum content of scrap in the process of being refined need not be considered as in inventory for the purpose of this paragraph.

(f) *Reports.* (1) Each processor and each consumer who purchases in any calendar month 100 ounces or more (platinum content) of platinum or of finished products, exclusive of jewelry, containing platinum, or who has in any calendar month an inventory of 200 ounces or more (platinum content) of platinum or of finished products, exclusive of jewelry, containing platinum, shall file Form WPB 3330 with the War Production Board on or before the 20th day of the following month.

(2) Every person affected by this order shall file with the War Production Board such other reports and questionnaires as the War Production Board shall from time to time prescribe, subject to the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.

(3) The reporting requirements of this order have received the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.

(g) [Revoked Nov. 22, 1943]

(h) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of materials conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board by

letter or other written communication, in duplicate, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The War Production Board may thereupon take such action as it deems appropriate.

(i) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Miscellaneous Minerals Division, Washington, D. C., Ref.: M-162.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 22d day of November 1943.

WAR PRODUCTION BOARD,  
By J. JOSEPH WHELAN,  
Recording Secretary.

#### INTERPRETATION 1

##### MEANING OF THE TERM "PROCESS"

The sizing of already completed jewelry, other than rings, for the ultimate consumer does not constitute processing where such sizing involves only the removal and not the addition of platinum. In the case of completed rings, such sizing does not constitute processing where the sizing requires either the removal or the addition of platinum for the purpose of sizing alone.

The repair of already completed platinum jewelry for the ultimate consumer does not constitute processing, provided no additional platinum is added. Repair means only restoration to usable condition in original form, shape, or design; it does not include any alteration or change in such original form, shape, or design. (Issued Dec. 19, 1943.)

#### INTERPRETATION 2

##### MEANING OF THE TERM "ASSEMBLE"

Subparagraph (b) (11) of General Conservation Order M-162 states: "The term 'assemble' shall not be deemed to include the putting together of an article after delivery to a sales outlet or consumer in knock-down form pursuant to an established custom \* \* \*." Some question has arisen as to whether or not this exception permits a processor after January 1, 1943, to assemble findings which he has purchased from other processors. It has been the custom of the trade for findings manufacturers to deliver to manufacturers of completed jewelry findings which will then be assembled from time to time, as the need arises, by the manufacturer of the completed jewelry.

The assembly of findings in the case described comes within the meaning of the term "assemble" as such term is used in the order and is prohibited after January 1, 1943. The quoted exception applies only to a case where an article of completed jewelry, for convenience in packing and shipment, is customarily delivered to a sales outlet in knockdown or unassembled form. The distinguishing points of the exception are that the various parts being shipped together are all designed for assembly into a single completed article, that convenience in packing

and shipping requires shipment of the article in unassembled form, and that shipment of the particular article in such unassembled form is an established custom in the trade. (Issued Jan. 4, 1943.)

#### PART 3288—PLUMBING AND HEATING EQUIPMENT

[Interpretation 2 of General Limitation Order L-199<sup>1</sup>]

##### PLUMBING AND HEATING TANKS

The following interpretation is issued with respect to General Limitation Order L-199.

The definition of "tank" in paragraph (a) (1) includes tanks produced for underfired storage water heaters, and consequently the restrictions in the text of the order apply to such tanks, but none of the schedules attached to the order apply to them.

#### PART 3302—SERVICE EQUIPMENT

[Limitation Order L-325]

##### 35 MM MOTION PICTURE PROJECTION EQUIPMENT AND ACCESSORIES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials used to produce 35 mm motion picture projection equipment and accessories, for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3302.31 *Limitation Order L-325*—  
(a) *What this order does.* This order regulates the production and distribution of new 35 mm motion picture projection equipment and 35 mm motion picture projection accessories.

(b) *What "35 mm motion picture projection equipment" means.* "35 mm motion picture projection equipment" means complete projectors, projector mechanisms, pedestals, bases, complete sound systems, sound heads, amplifiers, loud speakers, projection arc lamp houses, complete projection arc current converting devices, and complete portable projectors, for use in exhibiting 35 mm film.

(c) *What "new equipment" means.* "New equipment" means any 35 mm motion picture projection equipment which has never been used or which has been used only for demonstration, trial loans, repair loans, and the like.

<sup>1</sup> Interpretation #1, issued January 26, 1943, is superseded, as it relates to a previous version of the order which was completely rewritten as of September 22, 1943.

(d) What "35 mm motion picture projection accessories" means. "35 mm motion picture projection accessories" means take-up reels, change-over devices, automatic enclosed rewinders, hand rewinders, nitrate film storage cabinets, steel fireproof booth tables, and film splicers, for use in exhibiting 35 mm film.

(e) What "repair units" means. "Repair units" means any parts or assemblies specially designed for use in the 35 mm motion picture projection equipment and accessories listed above, and used to fix them when they have been broken down or are about to break down.

(f) Restrictions on production of 35 mm motion picture projection equipment. A manufacturer may produce 35 mm motion picture projection equipment only under the following circumstances. He may manufacture new equipment for stock to the extent permitted by written instructions from the War Production Board. In general the War Production Board in giving such permission will take into consideration Critical Labor Market Areas. In addition, he may produce as much new equipment as the War Production Board gives him written permission to sell or lend, except in those cases in which the War Production Board tells him the equipment must be shipped from stock and may not be replaced.

(g) How to ask for permission to produce new equipment for stock. If a manufacturer feels that his stock of new equipment is too small for proper operation of his business, he may ask for permission to produce new equipment for stock by sending a letter in triplicate to the War Production Board, Service Equipment Division, Washington 25, D. C., Ref: L-325. In this letter he should state the number of units of each type of new equipment which he shipped in 1941, and the number of units of each type of new equipment which he has in his current stock. He should also state what would be his minimum economical production run. If the War Production Board agrees that the manufacturer's stock is too small for proper handling of the volume of business which that manufacturer may reasonably expect, it will give him written instructions permitting him to produce a limited amount of new equipment for stock.

(h) How much new equipment the War Production Board will permit manufacturers to sell or lend. The War Production Board will give written permission to manufacturers to sell or lend new equipment only to the extent necessary to carry out an authorized program of the War Production Board. Within the limits of this program the War Production Board expects to permit each manufacturer to sell or lend to the United States Army, the United States Navy, the United States Maritime Commission and the War Shipping Administration as much new equipment as is necessary to meet their requirements for his brand of equipment. No manufacturer will be given permission to sell or lend new equipment to anyone other than those agencies if it will interfere with deliveries

to those agencies on their required delivery dates. Moreover, no manufacturer producing equipment for those agencies will be given permission to sell or lend additional new equipment to them if the production of this additional equipment by the required delivery date will interfere with punctual delivery of the equipment already being produced by that manufacturer for those agencies.

(i) Restrictions on sale and lending of new equipment. Commencing December 6, 1943, a person may sell or lend new equipment only when he has written permission from the War Production Board, with the following exception. A person does not need written permission from the War Production Board to lend new equipment to a theatre in an emergency for a period of not more than sixteen weeks, while the theatre's equipment is being repaired or replaced. At the end of the sixteen weeks the equipment must be returned by the theatre unless the War Production Board has given written permission to continue the lending of the equipment. An emergency exists when a theatre's equipment has broken down or is about to break down.

(j) How to ask for permission to sell or lend new equipment. Under ordinary circumstances a person who wants to ask for permission to sell or lend new equipment must use Form WPB-3253 for that purpose. A person who wants to ask for permission to sell or lend new equipment to the Army of the United States, the Navy of the United States, the United States Maritime Commission, the War Shipping Administration, or to persons buying or borrowing equipment pursuant to the Lend-Lease Act, must use Form WPB-3254. Copies of these forms may be secured through the Service Equipment Division of the War Production Board, Washington 25, D. C., Ref: L-325. All requests for permission to sell or lend new equipment should be sent to the foregoing address only. In emergencies of the type described in paragraph (i) a person may telephone or telegraph for permission to sell new equipment, but he may not sell the equipment until he receives written permission to do so.

(k) Effect of permission to sell or lend electronic equipment. Some 35 mm motion picture projection equipment is electronic equipment within the meaning of Order L-265. When the War Production Board gives permission in writing to sell or lend new equipment, the order of the person receiving the equipment is to be considered as rated A-1-a for purposes of Order L-265.

(l) Restrictions on production of 35 mm motion picture projection accessories. No manufacturer may produce any 35 mm motion picture projection accessories except to fill rated orders, and to maintain a minimum practicable working inventory of finished accessories ready for shipment on rated orders.

(m) Distributors' purchases from manufacturers restricted to WPB-547 ratings. Notwithstanding Priorities Regulation No. 3, a person buying 35 mm motion picture projection accessories

from a manufacturer for resale from stock may not extend to the manufacturer a rating received from one of his customers. He may use only the ratings assigned to him by the War Production Board on Form WPB-547 (formerly PD-1X).

(n) Effect of this order on the production and distribution of repair units. This order does not restrict either the production or distribution of repair units. Theatres and distributors will continue to secure repair units in the same way as they secured them prior to the issuance of this order. For example, component parts of electronic equipment are to be secured as provided in Order L-265.

(o) Bureau of the Budget approval. The various requests for authorization contemplated by this order and the reporting requirement in paragraph (g) have the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(p) Appeals. An appeal from the provisions of this order may be made by filing Form WPB-1477 (formerly PD-500) in triplicate with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(q) Violations. Any person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 22d day of November 1943.

PART 3302—SERVICE EQUIPMENT  
[Preference Rating Order P-148]

MATERIALS FOR RURAL WATER WELLS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials used by water well drillers and others for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3302.36 Preference Rating Order P-148—(a) What this order does. This order assigns the CMP allotment number S-4, and the preference rating, AA-3, to purchases of materials by water well drillers for use in drilling and repairing the wells which supply water for rural homes, rural schools, farms, and other rural and suburban purposes.

(b) *Well drillers may get materials only for certain kinds of wells.* Water well drillers may use the allotment number and preference rating assigned by this order only to get materials, including operating supplies, for drilling, casing and repairing water wells which supply water for agricultural, domestic, or other use in rural and suburban areas. In no case may a water well driller use the allotment number or the preference rating assigned by this order to get materials for drilling, casing or repairing any well which supplies water to a business establishment in an incorporated city or town, to an industrial plant, to a municipal water system, to a water system operated by a public utility, or to a transportation facility, such as a railroad.

(c) *What drilling and casing a water well means.* Drilling and casing a water well means the drilling of the well and the insertion of pipe into the earth to enable water to reach the earth's surface. Also, when a pump is used, drilling and casing includes the laying of pipe on the surface of the earth to enable the water from the well to reach the pump. Any other use of pipe to conduct water on the surface is not considered drilling or casing. Hence, a water well driller may not get pipe under this order for such use. Also, drilling and casing a water well does not include installation of a pump. Hence, a water well driller may not get pumps or pump parts under this order.

(d) *How a water well driller may get materials.* A water well driller may use the CMP allotment number, S-4, and the preference rating, AA-3, by placing a certification on his purchase order in substantially the following form:

..... The undersigned certifies, subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code, that he is a water well driller entitled to make this purchase under Order P-148.

If he is buying steel in the forms listed at the end of CMP Regulation No. 1, he should put the words, "CMP Allotment Number S-4" in the blank space at the beginning of the certification. If he is ordering other materials, he should put the words, "Preference Rating AA-3; S-4," in the blank space. He should then sign the certification himself, or in the way explained in Priorities Regulation No. 7. An order bearing this signed certification with the allotment number added is an authorized controlled material order under all CMP regulations.

A water well driller may not use the CMP Allotment Number, S-4, to buy either copper or aluminum in the forms listed at the end of CMP Regulation No. 1. If a water well driller needs either of those materials for rural water wells, he should submit Form CMP-4B to the War Production Board, Washington 25, D. C., with a full explanation of the reasons why such materials are required.

If a water well driller needs a preference rating higher than AA-3 to get a particular kind of materials, he should apply on Form WPB-541 (Form PD-1A)

to a local field office of the War Production Board.

(e) *Inventory restriction.* A water well driller may not use the allotment number or the preference rating assigned by this order to get a larger inventory of any kind of materials than he will need for doing business in the usual way during the sixty days after the materials are delivered to him.

(f) *This order does not provide for maintenance and repair of drillers' equipment.* Water well drillers may not use the preference rating and CMP allotment number assigned by this order to make minor capital additions to their outfits, or to get materials for maintenance and repair of their rigs and other equipment. Some materials for this purpose may be obtained under CMP Regulation No. 5. Additional information about maintenance, repair, and capital additions may be obtained from the nearest War Production Board field office.

(g) *Water well drillers may not get rationed equipment under this order.* Water well drillers may not use the preference rating and CMP allotment number assigned by this order to get irrigation or drainage pumps, wind mills, deep or shallow well domestic water systems, power pumps, or water well casing not fabricated by pipe mills.

(h) *Effect of other orders and regulations.* (1) No item appearing on List A or List B of Priorities Regulation No. 3 may be bought by a water well driller by using the CMP allotment number or the preference rating assigned by this order.

(2) Certain orders of the War Production Board require special applications for some materials and parts. A water well driller will not be able to buy these materials and parts by using the CMP allotment number or the preference rating assigned by this order. Generally his supplier or the local field office of the War Production Board can tell him whether a special application is needed.

(3) Water well drillers buying and using materials bought under this order are subject to all applicable provisions of the other orders and regulations of the War Production Board as amended from time to time. Information concerning these orders may be secured from any local field office of the War Production Board.

(i) *Information.* Further information concerning this order may be obtained from any local field office of the War Production Board or by writing to the War Production Board, Washington 25, D. C., Ref.: P-148.

(j) *Penalties for violating this order.* Any person who wilfully violates any provisions of this order or falsifies the certificate prescribed in paragraph (d), or who conceals any material information or furnishes false information to any department or agency of the United States is guilty of a crime. If convicted, he may be punished by fine or imprisonment. He may also be deprived of any or all priorities assistance. For example, he may be prohibited from getting, delivering, processing, or using anything

which is subject to priority control by the War Production Board.

The fulfillment of requirements for the defense of the United States has created shortages in the supplies for the war effort, for private account and for export, of materials entering into the production of safety equipment; and the following order is deemed necessary and appropriate in the public interest and to promote the war effort:

§ 3296.31<sup>1</sup> *General Limitation Order L-114—(a) Definitions.* For the purposes of this order:

(1) "Safety equipment" means equipment and devices designed primarily to promote safety or to prevent or reduce accidents, injuries, occupational hazards or diseases, including but not by way of limitation, the following articles: guards, goggles, shields, safety cans, oily waste cans, harnesses, headgear, belts, shoes, safety clothing, masks, respirators, inhalators, resuscitating apparatus, hazard measuring devices, protective creams, treads, and warning signs. The term shall not include any automotive or traffic equipment or devices.

(2) "Hazard measuring devices" means devices or instruments designed to detect, indicate, measure or record the presence of poisonous or combustible gases or other harmful substances in the atmosphere for the purpose of promoting safety or preventing or reducing occupational accidents, diseases and hazards of all types. (h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may

be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(i) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(j) *Communications.* All reports required to be filed hereunder and all other communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Safety and Technical Equipment Division, Washington 25, D. C., Ref.: L-114.

Subchapter C—Director, Office of War Utilities

#### PART 4501—COMMUNICATIONS

[Utilities Order U-2 as Amended Nov. 20, 1943]

##### GENERAL CONSERVATION ORDER FOR TELEPHONE INDUSTRY

§ 4501.1 *Utilities Order U-2*—(a) *Definitions.* (1) "Operator" means any individual, partnership, association, business trust, corporation, receiver, or any form of enterprise whatsoever, whether incorporated or not, the United States, the District of Columbia, any state or territory of the United States, any political, corporate, administrative or other division or agency thereof, to the extent engaged in rendering telephone communication service within, to, or from the United States, its territories or possessions.

(2) "Exchange line plant" means all that portion of an operator's local wire or cable distribution system which extends from the central office main frame, exclusive of poles, crossarms, insulators, and non-metallic conduit, and associated hardware and guys, and exclusive of drop and block wires.

(3) Without regard to accounting practices:

(i) "Maintenance" means the minimum upkeep necessary to continue a facility in sound working condition.

(ii) "Repair" means the restoration of a facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like.

(iii) Neither maintenance nor repair shall include the improvement of any plant, facility or equipment, by replacing material which is still usable with material of a better kind, quality, or design.

(4) "Drop and block wire" means the portion of a customer's circuit (whether aerial or underground) extending from the inside wire (usually at the station protector or connecting block), or from the station equipment when no inside wire is involved, to the point of connection with the general overhead or underground system. This includes such circuit, carried by means of wire or small cables, extending to the cable terminal in cases where connection is made with a general cable system, or to the point of connection with the aerial wire plant in cases where connection is made with a general wire system, and also includes

brackets, bridle rings, insulators, knobs, span clamps, screws, sleeves, strand, tubes, and other material used in the installation of drop and block wires; and the pipes or other protective covering for underground service connections.

(5) "Station installations" means the wires (or small cables) from the station apparatus to the point near the entrance to the building where the drop or block wire or cable terminates, or to the junction boxes where the house cable or other cable terminates; the wires (or small cables) used to connect station apparatus in the same building, such as main stations with extension stations, and stations of intercommunicating systems; the wires (or small cables) used to connect private branch exchange switchboards or their distributing frames with terminal stations located in the same building; and the clamps, cleats, connecting blocks, ground wire, ground rods, nails, station protectors, screws, and other material used in the installation of station apparatus and inside wires. The cables referred to above are the small cables used in station installations instead of wires, such as those run from wall outlets or floor terminals to the station apparatus. Inside wires (or small cables) installed specifically to serve as trunk, battery, or generator circuits from a private branch exchange to the point of connection with the permanent house or outside cables or wires shall be considered as a part of the station installation. The term "station installations" does not include the telephone instrument or other "station apparatus."

(6) "Schedule A service" means service to the extent required for the proper discharge of duties in the direct defense, public health, welfare and security categories listed on Schedule A attached.

(7) "Interim service" includes all service installed or reconnected on and after April 15, 1943 which requires an allocation or assignment of exchange central office station terminal equipment or exchange line plant. It also includes any service installed prior to that date according to a contract specifying that the service was on an interim basis.

(b) *Conservation.* (1) Operators shall conserve scarce and critical materials by the employment of all practical methods.

(2) Operators shall discontinue the placing of open copper wire in exchange line plant.

(3) Operators shall discontinue the further installation of dial P. B. X. systems and dial private intercommunicating systems. This provision does not prevent the installation of systems of less than 100 lines where the equipment is already in the stock of the operator or can be obtained from the stock of another operator. Nor does it bar additions to dial systems. Nor does it bar

moves for the same business service within the same exchange area, or to a contiguous exchange area of the same operator, so long as no addition to exchange central office equipment or exchange line plant is made except for a Schedule A business service.

(c) *Availability of facilities for essential uses.* (1) Exchange line plant, exchange central office equipment, or telephone sets made available through normal disconnections shall be used to take care of current applications for Schedule A service and service essential to producers of substantial quantities of food, before other applications for service are cared for.

(2) Idle facilities may be reserved to the extent operators find necessary to meet promptly the known or fairly anticipated requirements for Schedule A service and to provide for essential public pay station service.

(3) To the extent necessary to meet minimum needs for Schedule A service and for essential public pay station service, operators shall make available additional exchange central office equipment or exchange line plant by regrading any service or disconnecting "interim service" under the following provisions:

(i) "Interim service" shall not be subject to disconnection so long as it continues to meet the requirements of Schedule A service, essential public pay station service, or service essential to the producers of substantial quantities of food.

(ii) Regrading is to be done only when current installations of central office equipment permit. Regrading of Schedule A service and of business service is to be done only if regraded service meets minimum service needs.

(iii) In so far as practical these steps shall be taken in the following order. Regrading shall precede disconnection. Residence service shall be regraded or disconnected before business service. Any regrading or disconnection shall be in the reverse order of the dates of connection at the existing locations, that is, the most recent shall be regraded or disconnected first.

(d) *Limitations on additional telephones.* (1) Main stations. Operators shall limit the number of main telephone stations, including P. B. X. trunks, connected to any central office to 105% of the number the central office was designed to serve under pre-war engineering and operating practices. This provision has the following exclusions and exceptions:

(i) Main stations do not include extensions or P. B. X. stations.

(ii) If the number of main stations connected to a central office on March 25, 1943 exceeded the 105% limit, the number need not be reduced so long as service is satisfactory.

(iii) The 105% limitation need not be applied to a single-office exchange which is designed to serve less than 1,000 main stations.

(iv) The War Production Board may approve a percentage other than 105% for any central office.

(2) *Residence extension service.* Operators shall not install or reconnect residence extension telephones, residence extension bells or residence P. B. X. telephones, nor as a substitute provide additional main lines or stations on party lines, nor install jacks and plugs for residence service. This provision has the following exclusions and exceptions.

(i) Jacks already in place may be reconnected provided that no more than one telephone and one bell shall be furnished with the telephone line with which the jacks are associated.

(ii) Temporary installations of one residence extension may be made when the operator finds it essential in cases of serious illness.

(iii) For practicing physicians and surgeons, the following services may be provided, but the operator shall supply the minimum which will meet professional requirements. The operator may install two jacks and make the main station telephone a portable telephone, or, as an alternative, install one extension telephone or, as an alternative, install two jacks for use with a single portable extension telephone. The operator may also provide a connection with an answering bureau.

(iv) The installation and reconnection in residence quarters of telephones connected to private branch exchanges serving hotels, apartment houses, etc., may be made to the extent that no more than one such telephone may be provided in any residence quarters.

(e) *Limitation on drop and block wire.* Except when necessary to meet the needs for Schedule A business service or for essential public pay station service, operators shall limit the further installation of drop and block wire to the following lengths. In exchanges serving more than 1,000 main stations, aerial drop and block wire shall not exceed one pole-to-pole span along any pole line from the point of connection with existing plant. If this span is less than 75 feet, two pole-to-pole spans are permitted. In exchanges serving 1,000 main stations or less, drop and block wire shall not exceed two pole-to-pole spans. However, the drop wire may be extended beyond the limits specified to a messenger strand attachment in the next adjacent span and to a single pole outside the line, when this is necessary to provide clearance over a street or to clear a tree or other obstacle. An underground drop and block wire shall not exceed 500 feet.

(f) *Limitation on replacements.* Operators shall not make replacements of equipment and facilities (other than poles, crossarms, insulators and non-metallic conduit, associated hardware and guys and station installations) unless essential for one of the following reasons:

(1) To maintain or protect existing service.

(2) To provide a permanent installation in lieu of one temporarily made to meet an exigency.

(3) To provide for decreased service demands or for the regrading provided for in paragraph (c).

(4) To make necessary replacements for supplying the residence extension service which is permitted for practicing physicians and surgeons in paragraph (d) (2) (iii) and for reconnecting jacks in paragraph (d) (2) (i).

(5) To effect a change in the "class" or "grade" of service, provided the change is not otherwise prohibited by this order. The "classes" of service involved are business, residence, semi-public, residence coin; the "grades" of service involved are individual, two-party, four-party, multi-party.

(6) To provide station wiring plan key arrangements which conserve one or more telephones.

(g) *Limitation on additions.* Operators shall not add exchange central office equipment or exchange line plant unless essential for one of the following reasons:

(1) To maintain or protect existing service.

(2) To meet the known or fairly anticipated needs of Schedule A business service or to provide essential public pay station service where facilities cannot be made available through regrading or disconnection as provided in paragraph (c) above.

(3) To provide cable terminals required in existing exchange line plant to make available for immediate use facilities not otherwise usable for known demands. But additional terminals shall only be supplied where warranted by sound engineering practices.

(h) *Non-applicability to certain replacements and additions.* (1) The terms of this order shall not prohibit wire communications projects approved by the War Production Board on Forms WPB-617 (PD-200), WPB-2774 (UF-30), WPB-1696 (PD-685) or other appropriate form.

(2) Nor do they prohibit the completion of a project the physical installation of which was started at a time when the project was permitted by Order L-50 or an earlier issue of Order U-2.

(i) *Producers of substantial quantities of food.* Notwithstanding other provisions of this order, additions to the

exchange open wire line plant and drop wire plant to provide service which is essential to the operations of a producer of substantial quantities of food may be made to the following extent. The addition must be limited to two spans of insulated paired wire, including the pole-to-house span, and 100 pounds of steel or iron wire in the case of a grounded circuit or 200 pounds in the case of a metallic circuit for each qualified subscriber connected. The portions of the steel or iron wire classed as "exchange line plant" and "drop and block wire" shall not affect these limits. The addition may include poles, crossarms, hardware and other material used in the installation of open line wire and drop wire. An addition for a group of subscribers as a single project may be made under the terms of this paragraph if the aggregate amount of steel or iron wire required for the entire project divided by the number of qualified subscribers does not exceed the limit specified.

(j) *Exemption of armed forces.* The restrictions of paragraphs (b) (2), (b) (3) and (f) shall not apply to facilities for the official use of the armed forces.

(k) *Engineering and planning.* Except in respect to poles, crossarms, insulators and non-metallic conduit, and associated hardware and guys, all operators shall:

(1) Engineer all replacements or additions to exchange plant so as to limit the margins for expected growth of requirements of Schedule A business service and essential public pay station service, to one-half the period for which provision would be normally made, but in no event to exceed three years.

(2) Engineer all replacements or additions to toll plant so as to limit the margins for expected growth of service requirements to a period not in excess of one-half the period for which provision would be normally made, but in no event to exceed a period of three years: *Provided, however,* That this requirement shall not require the limitation of the margins of such growth to a period less than one year, *and provided, further,* that conductors in cables designed or suitable for use with carrier current systems may be provided (but not equipped) in such numbers that, when fully utilized by present or immediately contemplated carrier current system technique, they will provide for margins for expected growth of one-half the normal provision for such growth, even though such provision exceeds a three-year period.

(l) *Reports.* All operators affected by this order shall execute and file with the Office of War Utilities such reports as the Director, Office of War Utilities, shall from time to time require; subject to the approval of the Bureau of the Budget

pursuant to the Federal Reports Act of 1942.

(m) *Records.* Each operator affected by this order shall keep and preserve for not less than two years accurate and complete records concerning his use of steel or iron wire and number of main telephone stations connected under the provisions of paragraph (i) subject to the inspection of the duly authorized representatives of the War Production Board.

(n) *Appeals.* Any appeal from the provisions of this order shall be made by filing Form WPB-2117 (PD-761), giving all information required by said form.

(o) *Violations.* Any person who wilfully violates any provision of the order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance.

(p) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: Communications Division, Office of War Utilities, War Production Board, Washington 25, D. C., Ref.: U-2.

Chapter XI—Office of Price Administration  
PART 1312—LUMBER AND LUMBER PRODUCTS  
[MPR 348' Amdt. 14]

LOGS AND BOLTS

A statement of the considerations involved in the issuance of the amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.\*

Maximum Price Regulation No. 348 is amended by the addition of Appendix C, Table 1.

APPENDIX C—SOUTHERN AREA

TABLE 1

Area: Alabama, the counties of Baldwin, Choctaw, Clarke, Conecuh, Marengo, Mobile, Monroe, Washington and Wilcox; Mississippi, the counties of Clarke, George, Greene and Wayne.

The area is divided by zones as follows:

Zone 1: Alabama—Baldwin and Mobile counties and those portions of Washington, Clarke and Monroe counties south of Township line between Township 5 North and 6 North; Mississippi—All of George and Greene counties.

Zone 2: All of Conecuh county, the remainder of Washington, Clarke and Monroe counties north of Township line between Townships 5 North and 6 North, and that portion of Choctaw county which is south of the Township line between Township 11 North and Township 12 North; Mississippi—All of Wayne county.

Zone 3: Alabama—that part of Choctaw county which is north of the Township line between Township 11 North and Township 12 North, and the entire counties of Marengo and Wilcox; Mississippi—All of Clarke county.

Species covered: All commercial trees of the following species—Cypress (*Taxodium distichum*), Poplar (*Liriodendron tulipifera*), Sweet Gum (*Liquidambar styraciflua*), Black Gum (*Nyssa sylvatica*), Tupelo Gum (*Nyssa aquatica*), Beech (*Fagus grandifolia*), Sycamore (*Platanus occidentalis*), Hackberry (*Celtis occidentalis*), Shortleaf Pine (*Pinus echinata*), Longleaf Pine (*Pinus palustris*), Slash Pine (*Pinus caribaea*), Loblolly Pine (*Pinus taeda*), and all other southern pine species of the Genus *Pinus*. Also all commercial species of the following genera: Oak (*Quercus*), Magnolia (*Magnolia*), Cottonwood (*Populus*), Maple (*Acer*), Basswood (*Tilia*), Willow (*Salix*), Elm (*Ulmus*), Hickory and Pecan (*Hicoria*), Ash (*Fraxinus*) and any other commercial hardwood species found in the area.

Scaling and grading rules: All logs are to be scaled according to the Doyle Log rule, measured at the small end of the log. All pine logs are to be measured in the narrow way from inside of one bark to outside of the other bark, with all fractions of an inch counted back to the next lower figure. Hardwood logs are to be measured the narrow way inside of the bark with all fractions of an inch being counted back to the next lower figure.

All logs 24 feet and over in length shall be computed as if cut into separate logs 16 feet long, beginning at large end; diameter at small end of each such supposed log shall be determined by caliper, with 1/2 inch and fractions thereof deducted for bark in the case of pine logs and 1 inch and all fractions deducted in the case of hardwood logs. If fraction at small end remaining after successive 16-foot measurements is less than 8 feet,

it shall be treated as part of the adjoining 16-foot log and the entire log measured as based on diameter at small end; each such fraction 8 feet and over shall be measured as a separate log.

All logs are to be cut to even lengths (i. e., 10, 12, 14, 16, ft., etc.) unless otherwise specified by the buyer, plus at least 4 inches over length to allow for trimming. Any logs not meeting this requirement shall be measured as of the next lower even length. Not more than 10% of a given lot of logs may be shorter than 12 feet in length and at least 50% must be from 14 to 16 feet long. If more than 10% of the logs are below 12 feet, the excess must be priced as cull logs.

The minimum diameter limit for each species is indicated in the price tables listed below. Woods run grade includes the entire product of the forest of the specified species or group of species with all culls excluded.

A cull is considered as a hardwood log which contains less than a one-half section with two-thirds or more cuttings of clear (free of all defects) wood and cuttings 2 feet and longer and extending around the respective half of the log. Also, a cull log is any log which has to be reduced in scale as pro-

vided under "deductions for measurements" to where its net measurement is less than 60 per cent of its total measurement, provided its net measurement is less than 100 board feet, log scale.

Deduction from measurement: All unsound and unusable wood must be deducted by allowance in measurement. The defects for which full allowance must be made in measurement includes hollows or large holes, rot, dot, windshake, large or excessive worm holes, damage in felling by drawn splinters and crooks. Also, all rotten, damaged or wormy sap must be measured off.

Maximum Prices

The prices herein established will prevail for the purchase of logs produced in the zones described. The base price depends upon the area from which the logs originate and not where they are delivered. The maximum prices will prevail for all buying plants purchasing logs in those zones whether or not the buying plants are located in the zone.

Zone 1: The maximum prices for each species and size shall be \$1.00 per M higher than the maximum prices established for Zone 2.

Zone 2: Maximum prices per thousand feet, log scale.

Dense Shortleaf, Logs 15' and larger which measure 30 feet and longer \$30.00.  
Longleaf, Logs 15' and larger which measure 16 to 20 feet long \$28.00.  
Longleaf, Logs 15' and larger which measure 22 feet and longer \$30.00.

Zone 3: The maximum prices for each species and size shall be \$1.00 lower than the maximum prices established for Zone 2.

General provisions: 1. The above prices will prevail either delivered to a railroad landing or on the bank adjacent to navigable waters placed in good condition for loading or delivered to a buying plant by truck or wagon.

2. The base price applies for logs delivered to the nearest shipping point or mill closest to the source of supply. If delivered to any mill or shipping point greater than 4 air miles beyond nearest mill or shipping point, an additional \$1.00 per M may be paid, except that this shall not apply from any point where there is located a mill which is buying the respective kind and species of log.

3. The buyer may furnish the wire used in loading gunboats or rafting.

4. Duplicate invoice covering every purchase of logs amounting to over 5,000 board feet log scale shall be mailed promptly to the Regional OPA office at Atlanta, Georgia. This invoice should contain sufficiently detailed information pertaining to species of logs purchased, volumes by size classes, transportation allowances, location of logging operation, and location of site where delivery is made. Upon notification by Administrator any lot of logs shall be held at its current location for inspection or measurement. The buyer is not obligated to hold logs longer than 2 weeks if damage to logs would occur thereby.

5. Logs may be sold and purchased throughout the area on the basis of any grouping or classification which is listed above; however, the basis of sales must be

agreed on before the logs can be scaled or computed, and logs may not be sold or purchased under an agreement that the most advantageous basis will be determined after the logs are scaled and computed. Similarly logs can not be scaled as woodsrun all size classes, if any previous selection has been made.

6. If logs are sold loaded on cars or on gun boats or rafted, an addition not to exceed \$2.00 per thousand board feet may be paid. If bought delivered to buying plant by water an addition of \$2.00 plus the actual cost of towing may be paid.

7. In the event that logs are scaled by an independent scaler, not affiliated with buyer or seller, the buyer may pay for the scaling.

8. If the buyer takes delivery at some place other than on a river bank, railroad siding or at his plant, the maximum prices must be reduced by the lower of the following:

1. The cost to the buyer of trucking logs to the closest rail siding or barge landing.
2. The cost to the buyer of trucking logs to his plant.

9. The above prices for ash and hickory will prevail for ash and hickory logs purchased in conjunction with other species and not on an individual selected basis.

10. For Gum logs selected for the cutting of commercial veneer, the buyer may add \$5.00 per thousand board feet log scale to the above prices for tupelo gum and \$2.50 per thousand for other Gums.

PART 1312—LUMBER AND LUMBER PRODUCTS  
[MPR 348, Amdt. 15]

LOGS AND BOLTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.\*

Maximum Price Regulation No. 348 is amended by the addition of Appendix C, Table 2, to read as follows:

TABLE 2

Area: The State of Florida.<sup>2</sup>

Species: All merchantable species of timber found in Florida including: Cypress (*Taxodium distichum*); Poplar (*Liriodendron tulipifera*); Sweet Gum (*Liquidambar styraciflua*); Black Gum (*Nyssa sylvatica*); Tupelo Gum (*Nyssa aquatica*); Shortleaf Pine (*Pinus echinata*); Longleaf Pine (*Pinus palustris*); Loblolly Pine (*Pinus taeda*); Slash Pine (*Pinus caribaea*); all other pines of the genus *Pinus*; all Ash species of the genus *Fraxinus*; all Magnolia species of the genus *Magnolia*; all Maple species of the genus *Acer*.

Scaling Rules

1. Logs shall be scaled with the Doyle Rule with the diameter measured at the small end of the log inside the bark at the smallest diameter.

2. Logs between 24 and 30 feet in length are to be scaled as two logs in that one-half of the log is to be measured at the small end, and the other one-half is to be calipered in the center of the whole log with one inch deducted for bark. On logs longer than 30 feet, the log shall be treated as containing a series of segments of not less than 12 feet each starting from the small end; each segment shall be calipered at the small end with deduction for bark as stated above.

3. On diameter measurements, fractions of an inch below 1/2 inch shall be counted back to the next lower diameter inch, while fractions of an inch above 1/2 inch shall be raised to the next higher inch. (Thus a log 14.4 inch is considered 14" and 14.6 inches would be 15"). If the fraction is exactly 1/2 inch, it shall be counted as of the nearest even inch. (Thus 13 1/2" shall be counted as 14" and 14 1/2" should also be counted as 14").

\*Copies may be obtained from the Office of Price Administration.

<sup>2</sup> 8 F.R. 3670, 5163, 5565, 6356, 8751, 9515, 10023, 11214.

<sup>3</sup> The prices herein established cover all logs and veneer and sawmill blocks produced in Florida. Any other type of wood under this Regulation and produced in Florida is subject to maximum prices at the September-October 1942 level as set forth in section 3.

4. Logs are to be scaled in standard foot lengths, plus at least 4" overlength to allow for trim on logs 8 feet and longer and at least 2" overlength to allow for trim on lengths below 8 feet. If the trim allowance is not included in the length of the log, it shall be scaled at the next lower standard length.

5. All unsound and usable wood must be deducted by allowance in measurement. The defects for which full allowance must be made in measurement includes hollows or large holes, rot, dote, windshake, large or excessive worm holes, damage in felling by drawn splinters, and crook.

Grading Rules

The grade specifications for the No. 1 grade are the minimum requirements for that grade. All logs better than the No. 1 grade definition are included in that grade with the exception of those logs covered by Maximum Price Regulation 313.

No. 1 Grade: Minimum diameter 12 inches, minimum length 10 feet. Logs 12 inches to 15 inches in diameter must be clear of all visible defects.

Logs 16 inches to 23 inches in diameter must have at least 3 clear faces or have at least 75 percent of the length clear in one continuous section.

Logs 24 inches and over in diameter must have at least 2 clear faces or have at least 50 percent of the length clear in one continuous section.

NOTE: Sound sucker knots less than 2 inches in diameter will not be considered as a defect. A "sucker knot" shall be considered as a knot originating from the bark and which does not enter into the main cutting cylinder of the log; also known as "pin knots" and "water sprouts". A rot or dote in the center of the log up to 4 inches in diameter is permitted for logs over 24 inches in diameter, up to 3 inches in diameter for logs over 16 inches to 23 inches, and up to 2 inches diameter for logs 12 inches to 15 inches will not degrade the log, but full deduction for the defect must be made when scaling the log.

No. 2 grade: Minimum diameter 8 inches, minimum length 10 feet. This grade shall include all sound logs above the specified diameter limits that are better than a cull and that do not grade as a No. 1 log.

A cull log shall be considered as any log where the net board foot scale after deductions have been made for defects, is less than 50 percent of the gross board foot scale.

Woods run grade shall consist of the entire product of the forest exclusive of culls. This grade is to contain the full amount of good logs which the standing timber will produce, from which no large or high grade logs have been separated.

If any selection of high quality logs has been made the purchase price shall be either on a grading basis or for the price established for a No. 2 grade of log.

No. 1 veneer blocks: Minimum diameter 12 inches, minimum length to be specified by buyer.

Veneer blocks 12 inches to 15 inches in diameter must be sound and clear of all visible defects.

Veneer blocks 16 inches to 23 inches in diameter must be sound and can have not more than one sound knot 3 inches or less in diameter.

Veneer blocks over 24 inches in diameter must be sound and can have not more than 2 sound knots 3 inches and under in diameter.

Sawmill blocks: To be measured on the basis of a cord of 128 cubic feet; minimum diameter 6 inches; minimum length of block 48 inches.

For example, if the unit sold is larger than that priced, the maximum stated may be increased proportionately, but where the unit sold is smaller, the maximum must be reduced accordingly.

The following table indicates the appropriate percentage adjustments which must be made; any additions or subtractions specified in the particular table shall likewise be adjusted to reflect the correct proportion.

These prices are to prevail for logs f. o. b. railroad cars and for logs delivered to the mill by truck.

Logs may be sold or purchased throughout the area on the basis of any grouping or classification which is listed above. However the basis of the sale must be agreed on before the logs can be scaled or computed, and logs must not be sold or purchased under an agreement that the most advantageous basis will be determined after the logs are scaled and computed.

Any undersized log either in respect to diameter or length, not specifically covered above can be paid for at two-thirds of the No. 2 grade price, by paying only for the net usable contents.

The prices herein proposed will pertain for the purchase of logs produced in the area described above and will prevail for all buying plants purchasing logs in these areas whether or not the buying plants are located in the area.

This amendment shall become effective November 26, 1943.

PART 1404—RATIONING OF FOOTWEAR

[RO 17, Incl. Amdt. 46]

SHOES

The preamble, sections 1.2 (a), 1.5 (b), 2.3 (a), (b), 2.4, 2.5 (b), 2.6, 2.7 (a), (b), 2.8, 2.11 (a) (2) (vii), (f) (1), (2), (3), 2.13 (b) (6), 2.16, 2.18, 3.9, 3.13 are amended; sections 2.7 (d), 2.8 (b), 2.11 (a) (8) to (a) (16), 2.11 (f) (8), 2.18 (d) are added; sections 2.11 (e), 3.4 (b) (3), (4) are deleted by Amendment 46, effective November 24, 1943, so that Ration Order 17 shall read as follows:

**Preamble:** Reliable reports show that more shoes were made in the United States in 1941 than ever before. As a result, our shoe supply was somewhat larger than normal up to the middle of 1942. Since that time, however, shoe stocks have gradually been declining and the supply and demand factors are such that a serious shortage is expected unless the market is controlled.

Production and sales reports for the second half of 1942 show a sharp decline in production of civilian shoes and an increase in retail sales, with the result that retail stocks declined substantially during the year. The trend toward a shortage of shoes is thus shown.

The 1943 production of shoes for civilian use is expected to be smaller than in 1942 for several reasons. Shortages of leather (and other materials) and of skilled manpower are the principal causes of this decline. Furthermore, as our armed forces grow, a larger share of the shoes made must be set aside for them, so the civilian supply is further reduced. Because of these factors, the 1943 production of civilian shoes is expected to be at least 25% less than in 1942.

The Government, through restriction orders issued by the War Production Board, is attempting to make supplies of leather go as far as possible. For example, the number of styles a shoe manufacturer may make has been reduced so as to make it unnecessary for shoe stores to keep in stock many different styles of shoes. However, much of the leather in hides is thin or of poor quality and since it is impossible to stretch the quantity or to improve the quality of sole leather the total number of shoes that can be made is limited.

If consumer buying of shoes were not controlled, it is reasonable to expect that the number of pairs bought in 1943 would

be at least as large as in 1942. In fact, many factors indicate that 1943 sales would be larger. Among these factors are the following: (1) People can afford to buy more shoes because they have more money to spend altogether and are unable to spend it for automobiles or other durable goods; (2) as the better grades of leather are used for shoes for the armed forces, many civilian shoes, being of poorer quality, will wear out sooner and require earlier replacement; (3) with gasoline rationing, together with greater employment, more people will be walking to work or on the job and will normally wear out their shoes faster; (4) as shoe stocks decline, consumers tend to stock up and to buy more shoes than they need, thereby increasing the shortage.

Even though 1943 sales should not increase above 1942, but should remain the same, the more conservative estimates indicate that sales would exceed production by over 100 million pairs. This excess would have to come out of current stocks, resulting in a decrease of stocks of approximately 50%.

As a shortage developed, it may be expected that shoes usable for work or street wear would sell faster than luxury shoes and would virtually disappear from stores. Furthermore, shoe store stocks would become unbalanced as to sizes so that many customers could not be fitted.

These factors make it essential that the market be controlled and that the control be exercised before a serious shortage develops. By doing so while stocks are relatively large, stores can be allowed a large enough inventory to serve their customers in a normal way and each person can be allowed enough shoes to take care of his needs.

Under the plan used to ration shoes, consumers will buy shoes in almost the same way as they now buy sugar. At the outset, Stamp No. 17 in War Ration Book One will be used for shoes until June 15, 1943. The Office of Price Administration will announce what stamps are good for later periods. Ordinarily, the customer must tear the stamp from his book and give it to the person making the sale or delivery when the shoes are ordered or delivered. However, in case of a "mail order" the stamp may be sent in by mail when the order is given. Members of a family may use each other's stamps, but in all other cases a stamp may be used to get shoes only for the person to whom the War Ration Book was issued.

The normal needs of everyone will be met by the use of the war ration stamps. To take care of unusual cases where a person needs extra shoes to wear on his job or to protect his health he is permitted to get a special shoe stamp for this purpose by applying to his board.

Employers who furnish special shoes to employees who need them on their job, and institutions which furnish shoes for residents (including athletic shoes for students) are permitted to get a supply for that purpose by applying to a district office of the Office of Price Administration.

To have an effective rationing program, all sales of shoes must be controlled and dealers' inventories must be limited to what they need under rationing. Therefore, everyone dealing in shoes is required to register and file an inventory. In most cases, registration will take place by opening a "shoe ration bank account" at a bank, since the ration banking program will be used by the trade. At the time of registration each distributor will be given a credit of ration currency which he may use, in addition to the ration currency received from customers, to buy shoes. Members of the trade who have ration bank accounts may replace their inventory to the extent of sales, by depositing the stamps and other ration currency received from customers and drawing ration checks to their suppliers.

## ARTICLE I—HOW CONSUMERS BUY SHOES

(This part tells all one must know to get shoes for use)

SECTION 1.1 *Buyer must give up evidence of his right to buy shoes.* A person who wants to buy or otherwise acquire shoes for use may do so if he first gives the seller or other person making the transfer valid shoe ration currency. The ration currency used by a consumer may be a "war ration shoe stamp," a "special shoe stamp," or a "certificate". Ration currency may be used only to get shoes for the person for whom it was issued, except that a war ration stamp issued to a member of a family may be used to get shoes for any member of his family. Ration currency may be used during the time and in the way this order permits but not otherwise. A stamp or certificate sent by a consumer to an establishment with a mail order is considered to be used within its valid period, if the envelope in which it is enclosed is post-marked within the

time it is valid for consumer use. (Some words are used in this order with a special meaning. Examples are "acquire", "transfer", "person", "family", and "stamp". These terms are fully explained in section 3.13.)

[Section 1.1 as amended by Am. 21, 8 F.R. 8064, effective 6-11-43]

SEC. 1.2 *How war ration stamp is used.*

(a) Everyone who has a valid war ration book may use each shoe stamp in it to get one pair of shoes. Section 1.16 tells what war ration stamps are for shoes and when they may be used. The stamp must be torn out of the war ration book in the presence of the supplier or his employee or a person making the delivery for him either when the shoes are ordered or when they are delivered. If the war ration stamp is removed in any other manner or at any other time it is void. However, when a consumer orders shoes by mail and he or his agent does not personally select or receive the shoes at his supplier's place of business, the consumer may tear out the stamp and send it by mail with his order but the supplier may not deliver the shoes until he has received the stamp.

[Paragraph (a) amended by Am. 31, 8 F.R. 11445, effective 8-16-43, Am. 37, 8 F.R. 12548, effective 9-15-43, and Am. 46, effective 11-24-43]

(b) Any consumer who has inadvertently detached a shoe stamp from his War Ration Book or who did so without knowing this action rendered the stamp void for over-the-counter transfers, may surrender it to the Board during the time it is valid for shoes and the Board may issue him a special shoe stamp in exchange. The Board shall write on the stamp the serial number of the War Ration Book from which the stamp has been detached. It shall not fill in the date of issue or date of expiration but shall write on it the number of the war ration shoe stamp being surrendered. A stamp so issued shall be valid for the same period of time as the stamp whose number is written on it.

[Paragraph (b) added by Am. 37, 8 F.R. 12548, effective 9-15-43 and amended by Am. 44, 8 F.R. 15181, effective 11-9-43]

SEC. 1.3 *War ration book turned over to boarding house may be returned to get shoes.* A person who has turned his war ration book over to a boarding house, hospital, or a similar institution when required by Rationing Order No. 3<sup>a</sup> (Sugar) or General Ration Order 5<sup>a</sup> may get it back to use it to get shoes if the institution does not furnish his shoes. However, he must return it promptly.

[Sec. 1.3 as amended by Am. 37, 8 F.R. 12548, effective 9-15-43]

SEC. 1.4 *Consumers may get special ration in certain cases.* (a) *Consumers not eligible for War Ration Books may get special shoe stamps.* (1) Any individual consumer who is in the United

States and who does not have and is not eligible for a War Ration Book 3, and who is not eligible for shoe rations under the next paragraph or under section 1.14 may obtain a special shoe stamp, on written application to a District Office or to a Board designated by the District Office. However, a resident of an institution of involuntary confinement may not apply if shoes are furnished him by the institution, and no consumer may apply if he has made a previous application, or has obtained a special shoe stamp, since the last war ration shoe stamp became valid. The applicant shall appear in person and a separate application shall be made for each applicant, except that an application may be made by an agent for any or all eligible consumers who are confined in an institution of involuntary confinement within the United States. The application need not be in any prescribed form, but shall contain all information needed to establish the eligibility of each applicant.

(2) In issuing a stamp under this paragraph, the District Office or Board shall write on it the words "No Book". If the stamp is issued to a resident of the United States, the District Office or Board shall not fill in either an issue date or a date of expiration but shall write on the stamp the number of the war ration stamp which last became valid for shoes. A stamp so issued shall be valid for the same period of time as the war ration shoe stamp whose number is written on it. However, if the stamp is issued to a non-resident it is valid for only 30 days from the date it is issued. When a District Office or Board issues a stamp under this paragraph to a non-resident, it shall write on it the date of issue if OPA Form R-1708 is used, or the date of expiration if OPA Form R-1708A is used.

(b) *Mexican border residents may get special shoe stamps.* (1) Any person who resides in Baja California, Mexico, within ninety kilometers of the border between Mexico and the United States, or in any other part of Mexico, within twenty kilometers of that border, may apply for special shoe stamps to enable him to acquire shoes in the United States at the rate of one pair for each period for which a war ration stamp is valid, as specified in section 1.16. The application must be made in person, on OPA Form R-183, to the Board whose office is nearest his customary point of entry into the United States or, if the applicant is unable to apply to the Board because of inadequacy of transportation, to the Customs Officer in charge of his customary point of entry. A single application must be made by the applicant for himself and for all members of his family who wish to acquire shoes. An application may be made by a person under 18 years of age only if he is the head of a household or is not a member of a family. However, anyone who can complete the application may sign or present it as agent for an applicant who is unable to appear.

<sup>a</sup> 8 F.R. 14820.

<sup>b</sup> 8 F.R. 10002, 11676, 11480, 11479, 12483, 12557, 12403.

(2) The application must contain or be accompanied by all information needed to establish the eligibility of all the persons for whom the application is made, and any other information called for by the form or requested by the Board or the Customs Officer. In all cases the applicant must present with his application his Non-Resident Alien's Border Crossing Identification, or passport, issued for use by the applicant, bearing a visa for entry into the United States or a notation showing that such a visa has been issued and the identification cards or passports issued for use by any of the members of his family included in the application. He must also indicate the serial number of each of them on his application.

(3) The Board, or the Customs Officer, may issue to the applicant, for each period, one special shoe stamp for each eligible person for whom the application is made, and shall insert on each stamp issued the symbol "M", the words "No Book", and the date of the commencement of the period for which the stamp is issued. Stamps so issued are valid for use by the consumer at any time until the next war ration shoe stamp becomes valid.

(c) *Special shoe stamps may be issued for prisoners of war and internees outside the United States.* (1) The nearest relative or other agent of a United States citizen or member of the armed services of the United States who is interned in a foreign country, or held as a prisoner of war by an enemy nation, may obtain a special shoe stamp from his Board to permit him to buy shoes to send to the internee, or prisoner of war.

(2) The stamp may be obtained on written application to the Board, accompanied by a document showing that the person for whom the application is made is interned or held as a prisoner of war by a foreign country. If a stamp is issued on the application, the Board shall so indicate on the document supporting the application unless it is retained with the application.

(3) The Board shall write on each stamp issued the words "No Book". Stamps issued under this paragraph shall be valid for thirty days after the date of issue. If OPA Form R-1708 is used the Board shall write on it the date of issue. If OPA Form R-1708A is used it shall write on it the date of its expiration.

[Sec. 1.4 amended by Am. 1, 8 F.R. 2040, effective 2-13-43; Am. 37, 8 F.R. 12548, effective 9-15-43 and Am. 44, 8 F.R. 15181, effective 11-9-43]

#### Sec. 1.4c [Revoked].

[Sec. 1.4c added by Am. 26, 8 F.R. 9422, effective 7-8-43 and revoked by Am. 44, 8 F.R. 15181, effective 11-9-43]

Sec. 1.5 *How to get extra shoes for one's own use.* (a) Any person residing in the United States for a period of sixty days or more, or who is in the United States in connection with work related to the war, who needs extra shoes may get a special shoe stamp to permit him to get the extra shoes he needs. He should apply to the War Price and Rationing Board serving the area in which he lives, on OPA Form R-1703. If it is impracticable for him to apply at the proper Board, any Board may, in its discretion, accept and act on his application. He may mail or bring his application to the Board or may have someone else do so for him. In most cases, the applicant must sign the application himself, but if he is a minor, is legally incompetent, or is physically unable to sign it himself someone else may sign it as his agent. The Board may require the applicant to appear before it to give more information before acting on the application and may deny an application of a person who has acquired or transferred shoes in violation of this order.

[Paragraph (a) amended by Am. 37, 8 F.R. 12548, effective 9-15-43 and Am. 44, 8 F.R. 15181, effective 11-9-43]

(b) Except for some special reason, everyone will be given the right to buy all the shoes he needs for ordinary wear by using the stamps in his war ration book. Therefore, a person does not have "need" for extra shoes: (1) if the kind of shoes he wants are furnished him by his employer or by an institution; or (2) if he has two or more pairs of wearable (or repairable) shoes of the kind wanted or which he could use for the same purpose; or (3) if he wants them simply for recreational or non-professional gymnasium use, sportswear or to maintain his personal appearance; or (4) if he already has valid shoe ration currency, or he can obtain a war ration stamp from a member of his family, which he could use to get the shoes he wants. The Board may also find that "need" does not exist if it would not be a hardship for the applicant to wait until his next shoe stamp is valid to get the shoes he wants or if he can get a certificate under section 1.14. However, an applicant applying for safety shoes required to protect his health or safety because of the conditions under which he works, may be found to have "need" for them even though a member of his family has a War Ration Shoe Stamp which the applicant could use.

[Paragraph (b) amended by Am. 5, 8 F.R. 3371, effective 3-24-43, and Am. 46, effective 11-24-43]

(c) If the applicant's occupation requires him to be away from home for a long period of time, in a locality where he has no access to establishments selling shoes, or in a foreign country, the Board may issue him special shoe stamps to permit him to buy the number of pairs

he will need during such time. The Board will take into account any stamps he has but not those of other members of his family.

[Paragraph (c) added and former (c) redesignated (d) by Am. 44]

(d) If a special shoe stamp is issued, the Board will write on it the serial number of the applicant's War Ration Book 3 or, if he has none, the words "No book." If the application is for a stamp to secure safety shoes the words "Safety shoes" shall be written on the stamp. If OPA Form R-1708 is used, the Board shall write on it the date of its issue. If OPA Form R-1708A is used it shall write on it the date of its expiration for consumer use, which is 30 days after the date it is issued.

[Paragraph (d), formerly (c) amended by Am. 36, 8 F.R. 12547, effective 9-15-43 and Am. 44, 8 F.R. 15181, effective 11-9-43]

Sec. 1.6 *How special shoe stamp is used.* A consumer who gets a special shoe stamp in a way permitted by this order may use it within its valid period to get one pair of shoes, but where the use to which the stamp may be put is specified on the stamp, it is not valid for any other use. Before using the stamp the consumer must write on it the serial number of his War Ration Book 3 or, if he has none, the words "No Book" unless the serial number of a War Ration Book or the words "No Book" are already written on the stamp. If a serial number is written on a stamp the consumer must show the War Ration Book having the same serial number to the person to whom he gives the stamp, except when he sends it with a mail order.

[Sec. 1.6 amended by Am. 36, 8 F.R. 12547, effective 9-15-43 and Am. 44, 8 F.R. 15181, effective 11-9-43]

Sec. 1.7 *Employers, institutions, and recreational facilities.* (a) *Employers and institutions may get shoes.* (1) Any employer who furnishes his employees with special shoes necessary for the performance of their jobs; any educational institution that furnishes its students with shoes of a special type required for athletic activities (including physical training); or any correctional or charitable institution that furnishes shoes to its residents may get certificates or special shoe stamps to acquire the number of pairs of shoes it needs for that purpose. To get the certificates or special shoe stamps, the employer or institution should apply (on OPA Form R-1702) to the District Office for the area where the institution, or the employer's principal business office is located. In emergencies, however, any District Office may accept and act on the application. Furthermore, a department of a state government may apply to the District Office for the area where the state capital is located for all shoe stamps or certificates needed to acquire shoes to be furnished to residents of any eligible institution under the supervision of the department. Separate applications shall be made for each institution. If application is made for an

Institution in this manner, it shall not make application to any other District Office. The applicant shall furnish all the information called for by the form prescribed or needed to establish the eligibility and need for the number of pairs applied for. If a special shoe stamp is issued, the District Office will write on it the words "No Book". If OPA Form R-1708 is used the District Office shall write on it the date of its issue. If the establishment was in business on April 10, 1943, the inventory shall be taken and filed as of that date, on OPA Form R-1701. New establishments must file their original inventory as of the date and in the form required by the Office of Price Administration.

If rationed shoes were omitted from the original inventory, the District Office shall issue to the establishment a certificate for the difference between the shoe purchase allowance received and the amount to which it was entitled. If the number of pairs of shoes in the corrected inventory is less than that in the original inventory, the establishment shall surrender to the District Office ration currency in an amount equal to the difference between the shoe purchase allowance it received and the amount to which it was entitled.

bank. No other establishment may open a shoe ration account except that:

(1) An establishment owned by a government agency may open a shoe ration account even though it does not have a dollar checking account;

(2) A person owning one establishment having a dollar checking account in any bank may open shoe ration accounts for other establishments owned by him even though he does not maintain a separate checking account for each establishment;

(b) A person owning two or more establishments located in the same city or community may open a joint account for them, if separate inventories are filed for each such establishment. If he has opened separate accounts for them he may close them and open a new joint account for them with the approval of the District Office.

[Sec. 2.4 amended by Am. 9, 8 F.R. 4716, effective 4-8-43, and Am. 46, effective 11-24-43]

**Sec. 2.5 How to open a shoe ration bank account.** (a) A separate account must be opened for each establishment even though two or more are owned by the same person except as otherwise permitted by the above section. There may be two or more establishments at the same location if separate records and inventories are kept.

[Paragraph (a) as amended by Am. 9, 8 F.R. 4716, effective 4-8-43]

(b) An establishment which is not eligible for a shoe ration bank account may obtain a registration number from its District Office upon complying with the provisions of this order with respect to filing inventory. (An establishment which does not have an account may acquire shoes only if it has a registration number.)

[Sec. 2.6 amended by Am. 9, 8 F.R. 4716, effective 4-8-43 and Am. 46, effective 11-24-43]

<sup>4</sup> 8 F.R. 1130, 1449, 1963, 3520, 4627, 5843, 11669.

*ration currency.* An establishment may transfer shoes to a consumer or to another establishment if it first gets ration currency from him. However, shoes may be transferred between establishments for which a joint account is opened as provided in section 2.4, without the surrender of ration currency. Shoes may be returned by an establishment to the establishment from which they were acquired without the surrendering of ration currency in advance, if a proper ration credit is given to the establishment returning them. Where the use to which a special shoe stamp may be put is specified on the stamp, it shall not be valid for any other use by the consumer. Only ration checks drawn on the account of the purchaser may be used as ration currency for transfers between establishments except as permitted under section 2.8.

[Paragraph (a) amended by Am. 9, 8 F.R. 4716, effective 4-8-43; Am. 11, 8 F.R. 5678, effective 5-5-43; Am. 18, 8 F.R. 7198, effective 6-2-43; Am. 36, 8 F.R. 12547, effective 9-15-43 and Am. 46, effective 11-24-43]

(b) *Ration currency debts must be paid.* Any establishment which owes ration currency to a supplier for rationed shoes acquired during the credit period from February 7 to May 5, 1943, must pay the ration debts. It may not give ration currency to suppliers for other shoes until it has done so.

[Paragraph (b) amended by Am. 9, 8 F.R. 4716, effective 4-8-43, Am. 14, 8 F.R. 5756, effective 5-1-43 and Am. 46, effective 11-24-43]

(c) *Sign prohibiting acceptance of loose stamps must be displayed.* On and after September 1, 1943, every establishment selling shoes at retail in over-the-counter transactions must keep a notice posted in a conspicuous manner at each place where shoes are sold directly to consumers, containing substantially the following statement: "Rationing regulations prohibit this store from accepting loose war ration stamps for shoes selected or delivered at the store."

[Paragraph (c) added by Am. 31, 8 F.R. 11445, effective 8-16-43]

(d) *Layaways, special orders, and will calls.* Shoes for which ration currency must be collected may be placed or held on special order, will call, or layaway only if ration currency will be received for them within 30 days after the shoes are available for delivery to the consumer. In any case the currency must be received before the shoes are delivered.

[Paragraph (d) added by Am. 46, effective 11-24-43]

**Sec. 2.8 Distributors having no ration bank account use ration currency.** (a) Any distributor who has received a registration number from the District Office shall use stamps and certificates which he has received (including ration currency received as an initial allowance) to repay his supplier for shoes shipped to him on credit before April 26, 1943. After all ration "debts" have been repaid, he may replenish his stock by sending to his supplier his registra-

tion number together with ration currency for the number of pairs of shoes ordered. He may present ration currency received by him to the District Office and receive in exchange certificates in such denominations as he desires equal in total to the ration currency surrendered. Ration currency may be forwarded to a supplier only within 20 days after its expiration for consumer use or to the District Office within the time it is valid for deposit as provided in the next section. An establishment forwarding a certificate to a supplier or to the District Office must endorse its name on the reverse side.

(b) *No establishment may transfer rationed shoes to an establishment which does not have an account unless the transferee has furnished its registration number with its order.*

[Sec. 2.8 amended by Am. 9, 8 F.R. 4716, effective 4-8-43 and Am. 46, effective 11-24-43]

**Sec. 2.9 How to deposit ration currency.** (a) *Time for depositing is limited.* A stamp or certificate may not be deposited to an establishment's account later than 30 days after its expiration for consumer use. A ration check may be deposited at any time. A certificate is valid for consumer use for 30 days after the date of issue. A special shoe stamp is valid for consumer use as follows:

(1) If the stamp shows a time of issue or expiration only by describing a war ration shoe stamp it is valid until the expiration of that war ration stamp;

(2) If the stamp contains an expiration date, it is valid through the stated expiration date;

(3) If the stamp contains an issue date, it is valid for 30 days thereafter or, if issued to a Mexican border resident under section 1.4 (b), until the next war ration shoe stamp becomes valid.

[Paragraph (a) amended by Am. 9, 8 F.R. 4716, effective 4-8-43; Am. 13, 8 F.R. 5567, effective 4-26-43; Am. 37, 8 F.R. 12548, effective 9-15-43; and Am. 44, 8 F.R. 15181, effective 11-9-43]

(b) *Endorsement.* Before depositing a ration check or certificate the establishment should endorse it.

(c) [Revoked].

[Paragraph (c) revoked by Am. 44, 8 F.R. 15181, effective 11-9-43]

**Sec. 2.10 Refunds to consumers and to other establishments.** (a) An establishment that is unable to fill a consumer's order for which it has received valid ration currency, and an establishment making a refund for returned shoes as permitted by section 1.10 (a), must return to the consumer a special shoe stamp as a refund for the currency or shoes received. War ration shoe stamps may not be used for refund purposes. Where an establishment is able to fill a consumer's order, but does not do so, it may return a special shoe stamp to the consumer if it has received valid ration currency for the order. In issuing a stamp under this section the establishment shall not fill in either an issue date or a date of expiration but shall write on the stamp, the number of the

war ration stamp which last became valid for shoes. A stamp so issued shall be valid for the same period of time as the war ration shoe stamp whose number is written on it. The establishment may get special shoe stamps for this purpose from its Board, in exchange for a certified ration check drawn to the account of the Office of Price Administration or in exchange for valid shoe stamps or certificates received from customers.

[Paragraph (a) amended by Am. 6, 8 F.R. 3853, effective 4-2-43; Am. 35, 8 F.R. 12180, effective 9-7-43; Am. 36, 8 F.R. 12547, effective 9-15-43; Am. 37, 8 F.R. 12548, effective 9-15-43; and Am. 44, 8 F.R. 15181, effective 11-9-43]

(b) An establishment that does not fill an order from another establishment for which it has received valid ration currency, may return as a refund a ration check drawn on its own account for the amount of such ration currency received in excess of the number of pairs of rationed shoes, if any, which it has transferred against such ration currency. If the establishment making the refund does not have an account it may return any valid ration currency in lieu of a ration check.

[Paragraph (b) added by Am. 35, 8 F.R. 12180, effective 9-7-43]

Sec. 2.11 *Establishments may be allowed to mark shoes "non-rationed."*

(c) Any person or establishment entitled to transfer shoes which have been damaged by fire, water, steam, or a similar accidental cause to the extent that they cannot reasonably be sold for ration currency may be authorized by the District Office to mark them non-rationed. Application for the authority shall be made by letter, giving all facts available to show the time, place, manner, and extent of the damage. If the applicant is an establishment, the application shall be made to the District Office for the area where the establishment is located; otherwise, to the District Office for the area where the damaged shoes are located. The applicant shall be required to furnish two copies of a list of the shoes to be marked non-rationed prepared as directed by the District Office. The approval of the application shall be

When the official sticker (OPA Form R-1711) is available it shall be used and the mark shall be made on it.

[Paragraph (d) added by Am. 4, 8 F.R. 3315, effective 3-18-43 and amended by Am. 22, 8 F.R. 8357, effective 6-22-43]

(e) [Revoked].

[Paragraph (e) added by Am. 27, 8 F.R. 9567, effective 7-19-43; revoked by Am. 46, effective 11-4-43]

(f) Any establishment whose sales of shoes to consumers for ration currency during the period from February 7, 1943 to April 10, 1943, inclusive, were less than its other transfers of rationed shoes during that period, or were principally by mail order, may transfer shoes as non-rationed pursuant to the following provisions:

(1) Application shall be made in writing to the District Office for permission to mark shoes non-rationed. Only one application may be made for an establishment, and no application may be filed after November 30, 1943.

(2) The application need not be in any prescribed form but the applicant shall furnish a copy of its inventory Form R-1701 as of April 10, 1943; a statement of the number of pairs of shoes in each class which it desires to transfer as non-rationed under this paragraph; and all other information needed to establish its eligibility.

(3) Such transfers, in any of the following classes, shall not exceed the applicable stated percentage of the number of pairs of shoes within the same class which the establishment had in its inventory on April 10, 1943 (as reported on OPA Form R-1701) reduced by the number of pairs of shoes within that class which the establishment had in its inventory as rationed shoes at the close of business on July 6, 1943 and which were released from rationing on July 7, 1943 by section 2.11 (a) (3) or as baseball, track, or football shoes, riding boots, or gold or silver evening slippers:

	Percent
Class I—Men's dress shoes, men's work shoes, youths' and boys' shoes.....	1
Class II—Women's shoes.....	4
Class III—Misses', children's and infants' shoes.....	2
Class IV—All other rationed footwear....	2

[Paragraphs (f), (1), (2) and (3) amended by Am. 46, effective 11-24-43]

(4) The District Office, if satisfied that the establishment is eligible, shall issue to it the number of non-rationed stickers, Form R-1711, requested, but not more than the maximum number of pairs of shoes within each class permitted to be transferred by the applicant as non-rationed. If Form R-1711 is not available, Form R-123 may be used with the words "non-rationed shoes" printed, stamped, or written on it. The District Office (or the applicant if required by the District Office) shall write on each sticker the class number for which the sticker may be used, the letters "O. L.", and a code number assigned by the District Office. Such stickers shall be affixed to one shoe of each pair before the shoes are offered for sale or transferred as non-rationed shoes. A sticker may be affixed only to a shoe of the same class as that designated on the sticker.

[Subparagraph (4) as amended by Am. 29, 8 F.R. 10269, effective 7-19-43]

(5) Shoes marked in accordance with this paragraph may be transferred as non-rationed by and to any person at any time on or after July 19, 1943.

(6) The price at which such shoes may be sold to any buyer by the establishment securing the permission to mark them non-rationed may not exceed the price paid for the shoes by the owner of the establishment or, if such price cannot be ascertained or the shoes were made by the owner of the establishment, a price twenty-five percent below the establishment's regular selling price for the shoes on July 1, 1943 to a buyer of the same class. If such non-rationed shoes are transferred directly or indirectly to another establishment owned by the same person, the sale price of the shoes by the establishment acquiring them as non-rationed shall not exceed ten percent mark-up on the sale price permitted to be charged by the establishment marking the shoes as non-rationed.

(7) When such shoes are offered for sale in any notice or advertisement, they shall be referred to as "OPA Odd Lot Release."

(8) The owner of an establishment securing non-rationed stickers under this paragraph may use them on shoes located at another establishment owned by him. This may be done without physical delivery of the shoes if all provisions of this order are complied with in the same manner as if the shoes were first delivered to the establishments securing the stickers.

[Subparagraph (8) added by Am. 46, effective 11-24-43]

[Paragraph (f) added by Am. 27, 8 F.R. 9567, effective 7-19-43]

(g) Any establishment or person having single shoes that cannot be mated, or obsolete shoes which cannot reasonably be sold for ration currency, may be authorized by the District Office to transfer them as non-rationed, in accordance with the following provisions:

(1) For the purpose of this section, "obsolete shoes" include only shoes which (i) have deteriorated substantially in

quality, or have become discolored, as a result of age or exposure; or (ii) are of an outmoded last or design.

(2) Application to transfer the shoes as non-rationed shall be made to the District Office for the area where the establishment is located or, in the case of a person other than an establishment, to the District Office where the shoes are located. Only one application may be made unless the District Office, in its discretion, otherwise permits. The application need not be made on any prescribed form but shall contain, or be accompanied by, the following:

(i) Two copies of a list of the shoes proposed to be transferred as non-rationed, with detailed information concerning the style, sizes, color, materials, age, and condition, and any additional pertinent facts which the District Office may require;

(ii) If the applicant is an establishment, a copy of its inventory form (OPA Form R-1701) filed as of April 10, 1943;

(iii) With respect to single shoes, a statement that they cannot be mated.

(3) The District Office, if it approves the application in whole or in part shall indicate its approval in writing and shall attach thereto a copy of the list of shoes submitted by the applicant, on which it shall indicate the specific shoes authorized to be transferred as non-rationed. The District Office shall issue to the applicant official Non-Rationed Stickers (OPA Form R-1711) equal to the number of pairs, plus the number of single shoes, permitted to be transferred as non-rationed. If Form R-1711 is not available, OPA Form R-123 may be used, with the words "Non-Rationed Shoes" printed on it. The District Office (or the applicant if required by the District Office) shall write or print on each such sticker the word "Obsolete" or, in the case of single shoes, the word "mismatch" and a code number assigned by the District Office. However, if the shoes are to be transferred for salvage purposes to a specified person engaged in the business of repairing or making shoes, or to a shoe findings distributor or a dealer in scrap material, the District Office may authorize the transfer of the shoes as non-rationed without requiring them to be marked.

(4) Before any of such shoes may be transferred or offered for sale as non-rationed, except for salvage purposes pursuant to written authorization of the District Office, the applicant shall attach to one shoe of each pair and, in the case of single shoes that cannot be mated, to each single shoe, an official non-rationed sticker supplied by the District Office. Such sticker may be affixed only to shoes specifically permitted by the District Office to be transferred as non-rationed.

(5) These shoes are non-rationed only if sold at a price not in excess of \$1.00 a pair (or 50 cents for a single shoe). If the shoes are sold by any establishment or person at a price in excess of \$1.00 a pair (or 50 cents for a single shoe) he must collect ration currency and turn in the currency to the District Office within 5 days after the transfer.

(6) Shoes acquired by a person for salvage purposes, pursuant to a specific authorization of a District Office, may

not be transferred thereafter as complete shoes, but the parts of the shoes may be used for the repair of or manufacture of other shoes or may be transferred to other persons for such purpose.

[Paragraph (g), formerly Sec. 2.11a added by Am. 34, 8 F.R. 12137, effective 9-6-43 and redesignated paragraph (g) of Sec. 2.11 and amended by Am. 43, 8 F.R. 15194, effective 11-8-43]

**Sec. 2.12 Shoes may be used for wear-testing or as samples.** (a) A manufacturer may use shoes for wear-testing them and for this purpose may let its employees or others use them without getting ration currency.

(b) An establishment may use shoes as samples and for this purpose may furnish single shoes (not a pair) to salesmen or to other establishments, without getting ration currency.

(c) An establishment furnishing new shoes to another under this section must keep title to the shoes unless ration currency is received for them or they are permitted to be sold as "non-rationed" shoes under the above section. They may not be considered to be "used" shoes. Separate records must be kept of all shoes used or transferred under this section.

**Sec. 2.13 Establishments must keep records.** (a) Every establishment shall furnish an invoice to each person (other than an individual consumer) to whom it makes a transfer of shoes. The invoice must contain the date of transfer, the number of pairs transferred, the price per pair and in total, and the name and address of the person (or establishment) to whom the transfer is made. Separate invoices shall be furnished for rationed shoes and non-rationed footwear. Each invoice shall be plainly marked with the word "rationed" or "non-rationed." In the case of a transfer of rationed shoes permitted by sections 3.5 or 3.6, for which ration currency is not received, the word "exempt" shall be written on the invoice.

[Paragraph (a) as amended by Am. 20, 8 F.R. 8061, effective 6-16-43]

(b) Each establishment shall keep the following records for at least two years:

(1) All invoices received for shoes acquired;

(2) Copies of all invoices furnished by it pursuant to the above paragraph;

(3) Records of any new shoes acquired for which invoices were not received containing the same information as is called for by the above paragraph;

(4) The number of pairs of new shoes transferred to consumers, to other establishments, and to any person from whom ration currency is not required and, a record of the shoes marked and transferred as non-rationed pursuant to section 2.11 (e) or 2.11 (f) or 2.11 (g) showing, for each pair, the name and address of the buyer, the date of transfer, the type, style number, and selling price;

[Subparagraph (4) amended by Am. 27, 8 F.R. 9567, effective 7-19-43 and Am. 43]

(5) A copy of each inventory of its stock of shoes required by this order;

[Subparagraph (5) amended by Am. 11, 8 F.R. 5678, effective 5-5-43 and Am. 38, 8 F.R. 12515, effective 9-10-43]

(6) The number of pairs of shoes manufactured, by types as listed on OPA Form R-1701;

(7) Copies of any reports of shoe production or transfers made to the Office of Price Administration or any other Government agency;

(8) Records, which shall be attached to its inventory (OPA Form R-1701) within five days after the event, showing the date and amount of each increase or decrease of its inventory resulting from an adjustment of its inventory, or a loan, or advance of ration currency granted by the District Office, or from the repayment of a loan or advance, pursuant to section 2.17;

(9) Records, which shall be attached to its inventory (OPA Form R-1701) within five days after the event showing:

(i) In the case of a release of shoes from rationing by order of the Office of Price Administration, a list of the type and number of pairs so released which the establishment had in inventory; or in transit to it, or in storage for it at a place other than an establishment, at the time of such release.

[Subparagraphs (8) and (9) added by Am. 25, 8 F.R. 9062, effective 7-7-43]

(c) All records required to be kept shall be made available for inspection by an authorized representative of the Office of Price Administration.

**Sec. 2.14 Manufacturers report shoes shipped.** Each manufacturer shall make such reports concerning production and transfers of shoes as the Office of Price Administration may require. Copies of the form on which the report is to be made, together with instructions, will be furnished by the Office of Price Administration.

**Sec. 2.15 Replacement certificates may be issued to distributors.** (a) Any registered distributing establishment whose ration currency has been destroyed, damaged, lost or stolen, or whose shoes have been (1) taken from him by judicial process, or the enforcement of a security interest, (2) exported to a foreign country or to a territory or possession of the United States (other than the District of Columbia) or delivered as slop-chest supplies, ships' stores, or to Ships' Service Stores Afloat, pursuant to section 3.5, or transferred to or for the account of an exempt person or agency designated in section 3.6, without getting ration currency, (3) damaged, destroyed, lost or stolen, or (4) released from rationing under section 2.11 (a) (7), may get a certificate to replace the ration currency or shoes, as the case may be. Application for the replacement certificate should be made to the District Office (on OPA Form R-1704) and should show the facts necessary to establish the eligibility for the replacement certificate, including all information required by the form prescribed.

[Paragraph (a) amended by Am. 26, 8 F.R. 9422, effective 7-8-43 and Am. 42, 8 F.R. 15194, effective 11-8-43]

(b) If an establishment should recover shoes or ration currency for which a replacement certificate has been issued under this section it shall within five days deliver to the District Office ra-

tion currency of a kind prescribed by the Office of Price Administration for the number of pairs of shoes, or the amount of the ration currency, so recovered.

**Sec. 2.16 New businesses may get inventory allowance.** Any new establishment, opened in good faith after the time set for filing inventories, may get a shoe purchase allowance in the form of a certificate for the number of pairs of shoes it needs to service its expected customers. (Except for some unusual reason, the establishment will not be allowed an inventory of more than its expected sales for six months.) Application should be made (on OPA Form R-1704) to the District Office serving the area in which the establishment is or will be located and should contain all information required by the form or necessary to establish the number of pairs of shoes it needs. The District Office may issue a certificate to the applicant on such terms as it may prescribe and permit him to open an account. The District Office may require the applicant to make subsequent reports to it of his actual sales and may adjust his inventory accordingly by giving him a certificate for additional shoes or requiring him to surrender ration currency for any stock above his needs.

[Sec. 2.16 as amended by Am. 46, effective 11-24-43]

**Sec. 2.17 Establishments may get increased inventory.** (a) Any establishment may apply for an adjustment of its inventory allowance. However, an establishment may not make a second application within six months except with the approval of the District Office. Application should be made (on OPA Form R-1704) to the District Office serving the area in which the establishment is located and should contain all facts necessary to establish its need for extra shoes. In all cases the applicant shall submit with its application a copy of its original inventory (Form R-1701) and a statement showing the number of pairs of rationed shoes, if any, transferred by it to other establishments owned by the same person during the period from February 7 to April 10, 1943.

(b) The District Office may issue certificates to a distributing establishment for the extra shoes it needs if (1) it is unable to service its customers because its stock of shoes was greatly below normal when it filed its inventory, (2) the volume of its normal sales to other persons during the period since April 10, 1943, has increased to the extent that it cannot service its normal share of the customer demand in its area, or (3) its supply of ration currency is not sufficient to allow it to continue its normal business.

(c) In addition to or in lieu of an adjustment granted under the above paragraph, an establishment may be granted a temporary loan of ration currency when needed to enable it to pay ration debts incurred for shoes acquired during the period from February 7 to April 10, 1943, or to acquire a necessary working inventory where a substantial part of its inventory of rationed shoes consists of

slow-moving merchandise, or in other cases authorized by the National Office. Also, an establishment may be granted an advance of ration currency to enable it to acquire shoes for export or transfer to an exempt person or agency, or to replenish a supply of shoes segregated for export or transfer to an exempt person or agency. Any ration currency issued pursuant to this paragraph shall be repaid to the District Office within the period specified by the District Office and in any event within six months from the date the currency is issued. The establishment may not deliver ration currency to any supplier after such period until it has repaid the ration currency loaned or advanced to it by the District Office. In the case of an advance granted to enable an establishment to acquire shoes for lawful export or for lawful transfer to an exempt person or agency, for which ration currency is not received, the amount of the advance shall be deemed to be repaid to the extent of the number of pairs so exported or transferred upon the making of a full report thereof to the District Office and the approval of the report.

(d) The District Office may require any establishment receiving ration currency under this section to make subsequent reports to it concerning its transfers, receipts, or inventory of shoes and may adjust the applicant's inventory by requiring him to surrender ration currency for any supply of shoes or ration currency above his needs.

(e) The District Office may deny any application by a person who has violated any provision of this order. The granting of any application under this section shall not be deemed to condone any violation of this order nor to waive the right to impose sanctions for such a violation.

[Sec. 2.17 as amended by Am. 23, 8 F.R. 8601, effective 6-21-43]

Sec. 2.18 *Establishments must mark certain shoes.* (a) Manufacturers shall mark on one shoe of each pair of the types specified in section 2.11 (a) (2) which is completed, packaged, or shipped from the factory after April 15, 1943, and on one shoe of each pair of the types specified in section 2.11 (a) (3) which is completed, packaged, or shipped from the factory after August 15, 1943, the month and year in which the shoe is packaged. The mark may be on either the right or the left shoe but the marking in this respect must be uniform. The mark shall be embossed or indented in the shank of the outer-sole or written or marked by indelible contrasting colors on the inside of the quarter before the shoe is packaged.

[Paragraph (a) amended by Am. 11, 8 F.R. 5678, effective 5-5-43, Am. 25, 8 F.R. 9062, effective 7-7-43 and Am. 46, effective 11-24-43]

(b) Any establishment importing huaraches released by the Collector of Customs after May 31, 1943 shall, before transfer and within ten days of their receipt by the establishment, plainly

mark on each shoe by indelible contrasting color, the month and year in which it was released by the Collector of Customs.

(c) Shoes marked in the manner required by this section shall be deemed to be rationed shoes, regardless of the date on which they were imported, packaged, or shipped.

(d) This section does not apply to shoes which are non-rationed under provisions of section 2.11 other than section 2.11 (a) (1), (2) or (3).

[Paragraph (d) added by Am. 46, effective 11-24-43]

[Sec. 2.18 added by Am. 2, 8 F.R. 2487, effective 2-25-43]

SEC. 2.19 *Shoes may be acquired for testing.* Any person who requires shoes for testing may apply to the Office of Price Administration, Washington, D. C., for the number of pairs of shoes needed. In a proper case, certificates or special shoe stamps may be issued to acquire shoes for this purpose, upon such conditions as the Office of Price Administration may prescribe.

[Sec. 2.19 added by Am. 3, 8 F.R. 2943, effective 3-13-43]

#### SEC. 2.20 [Revoked].

[Sec. 2.20 added by Am. 4, 8 F.R. 3315, effective 3-18-43 and revoked by Am. 45, effective 11-23-43]

#### ARTICLE III—GENERAL PROVISIONS

(This part should be referred to when special problems arise)

##### *Other Transfers Permitted*

SEC. 3.1 *Transfers to carriers, warehouses, and repair shops permitted.* Shoes may be transferred to or from a carrier or a public warehouse in connection with their shipment or storage, and to or from a shoe repair shop in connection with their repair, without the giving up of ration currency. (This does not permit a transfer of title to the shoes in violation of other provisions of this order.)

SEC. 3.2 *Transfer of damaged, lost, or stolen shoes permitted.* (a) Shoes that have been substantially destroyed so as to be no longer usable as shoes may be transferred to anyone without getting ration currency.

(b) A person whose shoes have been lost or stolen may get them back without giving up ration currency. If a distributor has received replacement certificates for them, he must send ration currency (of a type to be prescribed by the Office of Price Administration) to the District Office for the number of pairs of shoes returned.

(c) Shoes that have been damaged but which are still usable as shoes and undamaged shoes mingled therewith, shoes that were stolen, and shoes in imminent danger of being damaged or stolen may be acquired without the surrender of ration currency, for the purpose of transfer only, by: (1) Persons lawfully engaging in the insurance business and common or contract carriers in connec-

tion with the right of subrogation or by virtue of the payment by them of a claim for damage to or loss of the shoes; and (2) persons performing public fire or safety functions, warehousemen, or persons engaged primarily in the business of adjusting losses and selling or reconditioning and selling damaged commodities, who take possession of or receive them on the occurrence or imminence of casualties.

(d) A transfer of the shoes by any person included in paragraph (c) of this section may be made without the surrender of ration currency to another person so included, or to the owner, or to the person from whose lawful custody the shoes were taken. All other transfers of the shoes (if new) must be made in exchange for ration currency, except as otherwise permitted under section 2.11 for non-rationed shoes. Any ration currency so received must be surrendered to a District Office within five days.

[Paragraph (d) as amended by Am. 4, 8 F.R. 3315, effective 3-18-43]

SEC. 3.3 *Transfer by operation of law or for security purposes permitted.* (a) Any person may acquire shoes or a lien thereon, without giving up ration currency, for permissible transfer only, if the shoes are acquired or the lien is created through judicial process, operation of law, or through an order issued by a court of competent jurisdiction. (A State or the United States or any agency of a State or the United States may do so through the enforcement of statutory rights against the shoes.)

(b) A lien may be created on shoes for security purposes, without the surrender of ration currency, in favor of: (1) A State or the United States or any agency or political subdivision of a State or the United States; (2) any person licensed by a State or the United States to engage in the business of making loans upon collateral; and (3) any person if the lien is or is to be on all or substantially all of the shoes owned by an establishment or on all or substantially all of the business assets of an employer-consumer.

(c) Shoes or any interest in shoes acquired pursuant to this section may be returned to the person from whom acquired, or a lien on shoes may be released, without the surrender of ration currency. (If a distributor has received replacement certificates for them, he must send ration currency (of a type prescribed by the Office of Price Administration) to the District Office for the number of pairs of shoes returned.)

(d) Any person holding a lien on shoes or a security interest in shoes permitted by this section or created before this order became effective may enforce the security interest or lien in the manner provided by applicable laws.

(e) New shoes acquired by a person under this section (except when returned to a person who had owned them for use) may not be used by him and may be transferred only in exchange for ration currency. Any ration currency so received must be surrendered to a District Office within five days.

**SEC. 3.4 Shoes may be imported.** (a) New shoes may be brought into the continental United States (the forty-eight States and the District of Columbia) from an outside point if they are delivered to the Collector of Customs at the point of entry. They may be delivered to him without getting ration currency.

(b) The Collector may release the shoes without getting ration currency if the shoes (1) were imported by one of the exempt agencies referred to in section 3.6; (2) were imported as a part of the personal effects of a consumer who had not been in the continental United States during the previous 30 days; [(3) and (4) revoked] or (5) were imported by representatives of foreign governments who are within the classes of persons specified in Article 432 (a) or Article 433 (c), Customs Regulations of 1937; (6) were imported by or consigned or addressed to members of the armed services of the United Nations, other than those of the United States, who are on duty within the United States if the shoes are intended for their personal or official use; or (7) are consigned or addressed to enemy prisoners of war or civilian internees or detainees in the United States for their personal use.

[Paragraph (b) amended by Am. 2, 8 F.R. 2487, effective 2-25-43, Am. 12, 8 F.R. 5679, effective 5-5-43; subparagraphs (3) and (4) revoked by Am. 46, effective 11-24-43]

(c) In all other cases the Collector may return or otherwise transfer the shoes if he first gets valid ration currency for the number of pairs of new shoes so transferred. A shoe distributor who desires to get new shoes from the Collector under this paragraph must give him a certificate or a certified ration check drawn to the account of the Office of Price Administration. (A certificate may be secured for this purpose from the District Office on such terms as it may provide as to the giving up of other ration currency.)

(d) Ration currency received by the Collector of Customs shall be delivered, at least once each calendar month, to the District Office for the area in which the ration currency is received.

**SEC. 3.5 How shoes may be exported.** (a) Any person may export shoes without receiving ration currency in the following cases, and in accordance with the following provisions:

(1) Shoes may be shipped to a territory, possession, or dependency of the United States (other than the District of Columbia) or transferred to Ships' Service Stores Afloat, or to any person as stowage supplies or ships' stores for use of crew members aboard any ocean-going vessel operating in foreign, coastwise, or intercoastal trade, without prior consent from any person or agency.

(2) Shoes having a declared value of \$25.00 or over may be exported to any foreign country other than Canada under an individual or program license issued by the Office of Economic Warfare.

[Subparagraph (2) as amended by Am. 37, 8 F.R. 12548, effective 9-15-43]

(3) Shoes may be exported to Canada under a purchase order approved by the Canadian Administrator of Wholesale Trade.

(4) Shoes having a declared value of less than \$25.00 may be exported by a registered establishment without prior approval to any foreign country, except to an address in Baja California, Mexico, within 90 kilometers of the border between Mexico and the United States or in any other part of Mexico within 20 kilometers of such border, if the shoes are exported by mail, parcel post, express, or other common carrier.

(b) Shoes having a declared value of less than \$25.00 for which ration currency has been obtained and surrendered by an individual consumer or by an agent for him in a manner authorized by this order, and any shoes acquired by an exempt person or agency in a way permitted by section 3.6, may be exported without further approval.

(c) Nothing in this section shall be deemed to authorize any export of shoes to be made in violation of any other applicable law or regulation.

[Sec. 3.5 amended by Am. 11, 8 F.R. 5678, effective 5-5-43 and Am. 26, 8 F.R. 9422, effective 7-8-43]

**SEC. 3.6 Shoes may be transferred to exempt persons.** (a) Any person may transfer shoes to any of the exempt agencies or persons or for the account of any of the government agencies listed in the next paragraph, without getting ration currency.

(b) The exempt agencies and persons to which this section applies are:

(1) The Army and Navy of the United States;

(2) U. S. Maritime Commission;

(3) The Panama Canal;

(4) The Coast and Geodetic Survey;

(6) National Advisory Commission for Aeronautics;

(7) The Office of Scientific Research and Development;

(8) The Office of Lend Lease Administration;

(9) The War Shipping Administration;

(10) Any agency of the United States to the extent it acquires shoes for export to and use in a foreign country or a Territory, Possession, or Dependency of the United States (other than the District of Columbia); and

(11) Any person, other than an establishment, acquiring shoes for export to and use in any foreign country other than Canada under an individual or program license issued by the Office of Economic Warfare, or for export to and use in Canada under a purchase order approved by the Canadian Administrator of Wholesale Trade.

[Subparagraph (11) amended by Am. 11, 8 F.R. 5678, effective 5-5-43; Am. 26, 8 F.R. 9422, effective 7-8-43; and Am. 37, 8 F.R. 12548, effective 9-15-43]

(c) A person who acquires shoes under this section "for the account of" one of the above exempt government agencies

without giving up ration currency (for example, a contractor who has a war contract with an exempt government agency) must give his supplier a written signed statement that the shoes to be acquired will become the property of the exempt government agency and that it will keep title to them, and a copy of his war contract or other proof to support the statement.

**SEC. 3.7 Closing and transfer of businesses and institutions—**(a) *Closing of establishments.* Whenever an establishment is closed, the owner or his representative shall report that fact to the District Office within five days and furnish a statement of the amount of ration currency, if any, owed to or by the establishment, with the name and address of each person or establishment to or from whom the ration currency is due. He shall also surrender to the District Office, with the report, all ration currency on hand, including a certified ration check drawn to the account of the Office of Price Administration for the net balance of its shoe ration bank account. Any ration currency owed to the establishment by another shall thereafter be deemed to be owed to the District Office. However, the District Office may require the owner of the establishment to collect all ration currency owed to it and pay all ration currency it owes to other persons or establishments.

(b) *Transfer of establishments.* When substantially all the stock of shoes of an establishment is to be transferred to another person or establishment (other than by operation of law or judicial process) the parties shall notify the District Office, in advance, of the details of the proposed transfer; and the person or establishment acquiring the shoes must pay ration currency to the District Office for all rationed shoes to be acquired. (Sections 2.16 and 2.17 permit a new or existing establishment to get ration currency to acquire a stock of shoes.) However, if the shoes are acquired by a person who will operate the business, or liquidate it, at the same location, the District Office may waive the payment of ration currency, and may also permit him to get the establishment's ration currency, instead of issuing him a shoe purchase allowance as a new establishment under section 2.16. In such a case the new owner shall file an inventory for the business as a new establishment and open an account, or obtain a registration number if he is not eligible for an account. A person making a transfer under this paragraph and ceasing to deal in rationed shoes at the same location shall comply with the provisions of the preceding paragraph.

(c) *Moving of establishment.* If a person moves his establishment to a new location, that moving is treated as a transfer subject to the previous paragraph, except where both the old and the new locations are in the same District Office area and the establishment is not merged or consolidated with another establishment. In the latter case the owner of the establishment must notify

the District Office of the new address, within five days after the establishment is moved.

(d) *Transfer of institutions and businesses.* Any person who buys (or otherwise acquires) substantially all the assets of an institution or business, other than an establishment, may acquire any shoes included among the assets without giving up ration currency. He may furnish the shoes to the students or residents of the institution, or to the employees of the business, as the case may be, if he keeps title to them. If any rationed shoes so acquired are transferred in any other manner, ration currency must first be obtained, and such ration currency must be surrendered to the District Office within five days.

(e) *Closing of institutions or businesses.* If an institution or business, other than an establishment, is closed it may transfer ration-free any shoes which have been worn. It may transfer new shoes if it gets ration currency.

The currency received must be surrendered to the District Office within five days.

**PART 1418—TERRITORIES AND POSSESSIONS**  
[MPR 373, Amtd. 24]

**USED LUMBER IN THE TERRITORY OF HAWAII**

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.\*

Section 54 is added to read as follows:

Sec. 54. *Maximum prices for all sales of second hand or used lumber at wholesale and retail—(a) What products are covered.* This section covers all sales of second hand or used lumber. Second hand or used lumber for the purpose of this section is all used lumber that has been recovered as salvage from any source whatsoever. For example, some of the specific sources of such material are demolished buildings, dunnage, crating, scrap from construction projects, and odds and ends purchased from distributors of new lumber which because of the condition of the material can no longer be considered new lumber.

(b) *What persons are covered.* All persons selling second hand lumber either wholesale or retail, regardless of whether or not they maintain distribution yards or sell direct from the original source of the supply.

(c) *Classifications of second hand or used lumber.* For the purpose of this section, second hand lumber shall be divided into the following grades or classifications; firewood, salvage, reclaimed and refined. The following description of the grades is general and not all inclusive. The use intended must be considered in all grades. Recoverable lumber means lumber which is sound and free from any structural defects that will prevent its use for ordinary construction.

(1) "Firewood" is second hand lumber which contains less than 50% recoverable lumber or is the waste resulting from the refining of second hand lumber.

\*Copies may be obtained from the Office of Price Administration.

18 F.R. 5388, 6359, 6849, 7200, 7457, 8064, 8550, 10270, 10666, 10984, 11247, 11437, 11849, 12299, 12703, 13023, 13342, 13500, 14139.

(2) "Salvage" is second hand lumber which is in its original salvaged condition. It will, however, show more than 50% recoverable lumber in one foot multiple lengths longer than three feet when cleaned of cement, barnacles or other foreign matter, will be free from nails or bolts, and trimmed or ripped to eliminate broken ends, splits, rot or other defects.

(3) "Reclaimed" is second hand lumber from which all the nails, bolts, or other foreign matter has been removed and trimmed if necessary. Although it may be stained, weathered and worn from use, it must be sound and 100% usable for the purpose intended.

(4) "Common refined" is second hand lumber, remanufactured from larger material to a standard uniform size, saw-sized or surfaced and trimmed to standard lengths. The lumber must be sound strong lumber, well manufactured of firm grain and suitable for good substantial construction purposes, free from loose or rotten knots, knot holes, shakes, rot and defects which materially impair the strength of the piece. Size of the knots, nail or bolt holes shall be considered in connection with the size of the piece and in combination must not impair the strength of the lumber. This classification may also include lumber which due to only temporary use has the appearance of new lumber and will meet the above requirements without further remanufacture.

(5) "Clear refined" is second hand lumber remanufactured from larger material to a standard uniform size, saw-sized or surfaced and trimmed to standard lengths. Defects based on 8" widths 12' long are to be considered in connection with the size of the piece and its general quality. It will allow three of the following defects for each 8 board feet including corresponding half of the edges: sap 1/4" width and 3/4" thickness, pitch pockets narrow, each not over 4", knots sound, if not in clusters 1/2" and less in 1" stock varying according to thickness up to 1 1/2" and 5" and thicker, seasoning checks slight, split or check not over width of the piece or equivalent in both ends. Occasional nail holes may be substituted for allowable defects if they do not impair the use of the lumber for the purpose intended. The grade must contain an average of six or more annual rings per inch at either one end or the other of the piece. In general this grade must be suitable for interior finish, furniture manufacture, or other similar uses for which a clear type of lumber with limited defects is needed.

(d) *Maximum prices for second hand lumber.*

Firewood, per cord 4' x 4' x 8'		F. o. b. distribution yard, per MMB			
F. o. b. salvage point	F. o. b. distribution yard	Salvage	Reclaimed	Common refined	Clear refined
\$4.00	\$5.00	\$40.00	\$50.00	\$65.00	\$55.00

(1) Firewood "as is" at original salvage source—\$2.00 per cord. Salvage "as is"

at original salvage source—\$15.00 per MBM. Salvage FOB trucks at original salvage source—\$20.00 per MBM. For sales totaling less than \$7.50, 10% may be added to the maximum price of Reclaimed, Common Refined, and Clear Refined.

(e) *Delivery charges.* (1) Where the delivery is made by common or contract carrier, an amount equal to the charge made by the carrier to the seller for such delivery.

(2) Where the delivery is made with equipment owned or operated by the seller, an amount not in excess of a maximum charge for such delivery which has been authorized by the Office of Price Administration. In order to obtain authorization for such charges, the seller should file with the Office of Price Administration, Honolulu, T. H., a list of proposed maximum charges for such de-

liveries. If such proposed charges are not in excess of those currently made by common or contract carriers whose services are available in the area served by the seller, such charges will be authorized and the seller notified that such authorization has been made. Such authorization shall be subject to revocation by the Office of Price Administration.

(3) Any charge made for delivery must be separately stated and shown on the invoice, bill of sale, or such sales memorandum as may be used in connection with the sale.

(f) *Maximum milling charges.* (1) The following additions per 1,000 feet B. M. may be made to the maximum prices when the following workings are required to be performed by a seller and are actually performed:

	6 x 6 and under	Over 6 x 6	4/4, 5/4, 6/4	4/4, 5/4, 6/4 x 6" & 8"	4/4, 5/4, 6/4 x 10" & 12"	All sizes	All sizes

 More than 500' BM, 1st cut \$4.50; Additional cuts \$1.50 per MBM.  
 Mouldings, \$0.005 per lineal foot.  
 Permitted minimum milling charge \$0.50.

(2) The above charges for ripping or resawing may be added only to the "reclaimed" or lower grades, and then only upon the specific request of the buyer.

(3) When the work required cannot be performed by the seller making the sale because he does not have the necessary facilities, he may add to the maximum prices the milling charges set forth in subparagraphs (f) (1) and (2) having the work performed at a custom establishment. In adding the working charges permitted by this section, the seller may not make any extra charge for hauling or trucking that may be required in getting the stock to or from the custom establishment.

(4) When any of the above charges for workings at the yard or custom establishment are made, the invoice, bill of sale or other billings must clearly state that the work was done at the distribution yard or at the custom establishment, and the amount must be separately shown.

(g) *What the invoice must contain.* All invoices must contain a sufficiently complete description of the lumber to show whether the price is proper or not; i. e., grade, quantity, size, type of dressing, pattern or any other extras of specifications which affect the maximum prices.

(h) *Prohibited practices.* In addition to the practices prohibited by section 6

of this MPR 373 the following specific practices are prohibited:

(1) Getting the effect of a higher price by changing credit practices on cash discounts from what they were October 1941 or any subsequent date of the establishment of the concern. This includes reducing the cash discount period, increasing credit periods, or making greater charges for extension of credit. For purposes of this paragraph, no discount over 2% is considered a cash discount.

(2) Grading lumber into any other grades than permitted by this regulation; or wrongly grading or invoicing lumber in any other way.

(3) Refusing to sell on an f. o. b. yard basis, and insisting on selling on a delivered basis.

(4) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(5) Failing to invoice properly and in accordance with the requirements of this regulation.

(i) *Special specifications, workings, or extras.* For special workings, specifications, services or extras not specifically priced under any provision of this regulation, the seller should apply to the Office of Price Administration, Honolulu, T. H. for instructions. In the application the seller must set forth the amount

customarily charged (not to exceed the maximum price fixed by the regulation previously controlling such as the General Maximum Price Regulation<sup>3</sup>), for the special working, specifications, service or extra, or in the absence of a customary charge, the amount which in his opinion represents a fair and reasonable charge, together with a statement of how it was arrived at. Instructions will be furnished by letter or telegram. After writing for instructions the seller may quote and deliver at the requested price, but must not accept final payment until the instructions have been received. In the event that they are not received within 30 days after application has been made, the price for which approval is requested shall be deemed to have been approved and may be used by the seller. Instructions issued pursuant to this paragraph apply only to the particular seller who has applied for them.

(j) *Posting of price and delivery charges.* (1) On and after the effective date of this regulation every person offering to sell second hand lumber shall post the maximum prices for second hand lumber in a manner plainly visible to and understandable by the purchasing public, in his place of business.

(2) Upon authorization pursuant to paragraph (e) of this section by the Office of Price Administration of maximum delivery charges which may be made by the seller of second hand lumber, such seller shall immediately post a list of such charges at the place in the establishment where second hand lumber is sold.

This amendment shall be effective as of November 15, 1943.

PART 1432—RATIONING OF CONSUMERS' DURABLE GOODS

[RO 9B]

NEW COOKING STOVES FOR THE TERRITORY OF HAWAII

**Preamble.** This ration order is being issued in accordance with a direction from the War Production Board that new cooking stoves be rationed in the Territory of Hawaii in order to effect a fair distribution of the limited supply available for civilian use. War conditions have created a shortage of stoves throughout the United States. This shortage is accentuated in the Territory of Hawaii by the uncertainty of available shipping facilities to transport stoves from the mainland. Consumers, except the Army, Navy, and other exempt agencies, will be required to obtain a certificate from their local board in order to purchase a new cooking stove. In this manner those consumers who most need new cooking stoves will have access to the available supply.

§ 1432.70 *New cooking stoves for the Territory of Hawaii.* Under the authority vested in the Office of Price Administration and the Price Administrator by Executive Order No. 9125 issued by the President on April 7, 1942, by Directive No. 1, Supplementary Directive No. 1-S, and Supplementary Directive No. 1-V of the War Production Board, issued on January 24, 1942, May 8, 1943 and August 11, 1943, respectively, and under the authority vested in me by General Order No. 48, issued by the Price Administrator on March 5, 1943, this ration order (New Cooking Stoves for the Territory of Hawaii), which is annexed hereto and made a part hereof, is hereby issued.

**AUTHORITY:** § 1432.70 issued under Pub. Law 671, 76th Cong., as amended by Pub. Laws 89, 421, 507 and 729, 77th Cong.; E.O. 9125, 7 F.R. 2719; WPB Dir. 1, 7 F.R. 562; Supp. Dir. 1-S, 8 F.R. 6018; Supp. Dir. 1-V, 8 F.R. 11201; Gen. Order 48, 8 F.R. 2638.

(c) The date of each sale of new cooking stoves, manufactured in the United States, made by them on or after 12:01 a. m. on December 1, 1943; the name and address of the person to whom such cooking stove sold, and the serial number of the certificate received for each cooking stove, if sold to a consumer.

(d) All certificates received for cooking stoves transferred.

(3) Any person where the security interest arises or is transferred, with respect to all or substantially all the assets of a business enterprise;

(c) A new cooking stove, or any interest therein or lien thereon, acquired pursuant to paragraph (a) or (b) of this section, may be returned to the person from whom it was acquired, or may be released without the surrender of a certificate.

(d) Any person who has acquired a new cooking stove for security purposes, or in whose favor a lien thereon has been created, as permitted by this section, or who holds a lien on or security interest in a new cooking stove, created on or before May 8, 1943, may enforce the security, lien, or other interest in the manner provided by applicable law. A new cooking stove so acquired by a person, unless by inheritance, may not be used by him,

and may be transferred only to a person expressly authorized by this ration order to acquire a new cooking stove.

**SEC. 1.7 Violators may lose right to rationed products.** Any person who violates this ration order may be prohibited from receiving or using a cooking stove, or any other rationed products or facilities, or from selling or disposing of them. The prohibition will be in the form of an administrative suspension order, which may be issued for such period of time as in the judgment of the Territorial Director is necessary or proper to promote the public welfare and national requirements. In addition, there are prohibitions in General Ration Order 8<sup>1</sup> applicable to all ration orders.

**SEC. 1.8 Appeals.** Any applicant for a certificate or authorization, whose application has been denied in whole or in part, may appeal from such action to the Territorial Director in accordance with the provisions of Procedural Regulation 9.<sup>2</sup>

**SEC. 1.9 Definitions.** The words used in this ration order shall have their common or usual meanings in the extent to which they are used. government or government agency, and any other organized group or enterprise. **Effective date.** This ration order shall become effective November 22, 1943.

Issued this 16th day of November 1943.

PART 1448—EATING AND DRINKING ESTABLISHMENTS

[Restaurant MPR 1-3, Amdt. 2]

FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION IN CONNECTICUT

For the reasons set forth in the statement of considerations, issued simultaneously herewith,\* Restaurant Maximum Price Regulation No. 1-3 is hereby amended in the following respects:

1. A new section to be known as section 3a is added to read as follows:

**SEC. 3a. How you figure your prices for seasonal items.** First, determine your ceiling price for a "seasonal food item" (defined in section 17 (g)) in accordance with the appropriate rule of sections 2 and 3 of this regulation. Thereafter, this price must be varied in proportion to any seasonal change in the raw food cost of the item, provided that in no event shall the price be higher than the ceiling price as originally determined. If in the past it has been your practice to maintain one price throughout the season, you need not vary your ceiling price according to this rule provided the ceiling price was based upon estimated average raw food cost of the item for the entire season.

2. Section 4 is amended by adding the following class of food items:

(23a) *Seasonal desserts.* Seasonal dessert specialties such as watermelon, cantaloupe and strawberry shortcake.

3. Section 5 is amended by adding the following paragraph:

The provisions of this section shall not apply to seasonal dessert specialties included in section 4 (a), Class (23A).

4. Section 8 is deleted, and the following section 8 substituted for it:

**SEC. 8. Rules for new proprietors.** (a) If you acquire another's business subsequent to the effective date of this regulation and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor. Prior to acquiring another's business, however, you may apply to the Office of Price Administration for permission to price under paragraph (b) of this section. If such permission is granted, it may be subject to such con-

<sup>2</sup> 7 F. R. 8766.

\*Copies may be obtained from the Office of Price Administration.

ditions as the Office of Price Administration deems necessary.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the price of food and drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 10 and the posting requirements of section 11 immediately upon the opening of your place.

5. Section 13 of the regulation is deleted, and the following section 13 is substituted for it:

Sec. 13. *Relation to other maximum price regulations.* The provisions of this regulation shall supersede other regulations, including the General Maximum Price Regulation, now or hereafter issued by the Office of Price Administration, insofar as they establish maximum prices for meals and food items sold by eating and drinking places. However, a price charged during the base period of this regulation shall not become a maximum price under this regulation to the extent that it exceeded the maximum price established by another regulation applicable at that time.

6. Section 17 is amended by adding the following paragraph:

(g) "Seasonal food item" means a food item (including beverage) not generally offered for sale throughout the year and normally available in quantity only during certain seasonal production periods of each year. Examples are: certain shell-fish such as oysters; certain fresh fish such as salmon, trout and shad; certain vegetables such as summer squash; and certain fruits such as berries and melons.

7. Section 18 is amended by adding the following paragraph:

(e) Eating and drinking places operated by any school, college or university which is a non-profit institution, or by any non-profit agency for any such school, college or university which is a non-profit institution which sell food items or meals on a non-profit or cost basis or as near thereto as reasonable accounting methods will permit, and substantially all sales of which are made to students, faculty members and employees of such institutions. For the purpose of this section, persons receiving instruction on the premises of such institution by arrangement with the War Department or Department of the Navy shall be considered as students. A non-profit institution or agency is one where no part of the net earnings inures to the benefit of any private individual.

8. A new section, to be known as section 22, is added to read as follows:

Sec. 22. *Seasonal eating and drinking places.* (a) If you are the proprietor of a seasonal eating or drinking place, you

must figure your ceiling prices as follows:

(1) If the place was in operation during the base period from April 4 to 10, 1943, use the rules set forth in sections 2, 3 and 3A.

(2) If the place was not in operation during the base period from April 4 to 10, 1943, but another place of the same type and within a reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the terms of section 8 (b).

(3) If you cannot price under subparagraphs (1) or (2) above, you must apply for prices to the Office of Price Administration, Connecticut District Office, 55 Allyn Street, Hartford, Connecticut. Your application must be filed ten days prior to the date you plan to commence operations and must present the following information:

- (i) Your name and address.
- (ii) A brief description of your business and the manner of operation.
- (iii) A list showing the prices you charged during the previous season as well as the prices you propose to charge during the coming season.
- (iv) The date when you plan to commence operations.
- (v) The names of two establishments similar to yours.

You may charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date specified for the commencement of operations. That Office may at any time, after proper investigation and hearing, establish such maximum prices for your business as it deems proper.

This Amendment No. 2 to Restaurant Maximum Price Regulation No. 1-3 shall become effective November 8, 1943.

For the reasons set forth in the statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, and under the authority vested in the Director of the Shreveport, Louisiana, District Office of the Office of Price Administration by the Emergency Price Control Act of 1942, as amended, Executive Order 9250, Executive Order 9328, and General Order 50, issued by the Office of Price Administration, Restaurant Maximum Price Regulation No. 5-11 (Food and Drink Sold for Immediate Consumption) is amended in the following respects:

1. Subparagraph (1) of section 8 (a) is amended to read as follows:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price.

2. The following paragraphs are added to section 18:

(e) Eating and drinking places owned and operated by charitable, religious or cultural organizations such as the United Service Organization, Red Cross or similar organizations selling food items or meals on a non-profit basis primarily to members of the Armed Forces.

(f) Bona fide fraternity or sorority houses located at a recognized school, college or university insofar as such houses sell only to members and bona fide guests of members. If such houses sell to persons other than members or bona fide guests of members, such houses shall be considered for all sales an eating or drinking place within the meaning of this regulation. No such house shall be considered to be exempt within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and it otherwise is operated as a fraternity or sorority house.

(g) Eating and drinking places operated by any school, college or university which is a non-profit institution (that is, where no part of the net earnings inures to the benefit of any private shareholder or individual), which sells food items or meals on a non-profit or cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to students, faculty members and employees of such institution. For purposes of this subparagraph, persons receiving instruction on the premises of such institution by arrangement with the War Department or Department of the Navy shall be considered students.

(h) Eating and drinking places operated on a non-profit basis by the school department of any parish, city or town, and like places operated on a non-profit basis by any private or religious organization, and serving food items or meals exclusively to pupils and teachers.

(i) Eating cooperatives formed by officers in the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual), which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to officers who are members of the cooperative.

(j) Bona fide private clubs insofar as such clubs sell only to members and bona fide guests of members. If such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking place within the meaning of this regulation. No club shall be considered to be exempt as a pri-

private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and it otherwise is operated as a private club. No club organized after the effective date of this amendment shall be exempt unless and until it has filed a request for exemption with the Shreveport, Louisiana, District Office of the Office of Price Administration, furnishing such information as may be required, and has received communication from such office authorizing exemption as a private club.

3. Paragraph (b) of section 19 is amended by adding subparagraph (7), to read as follows:

(7) Such other information as the District Director may desire.

4. The last unnumbered paragraph of section 19 is amended to read as follows:

In the judgment of the Fort Worth, Texas, District Director, the prices of food and beverages sold for immediate consumption in the following counties in Texas:

A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith.\*

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living", 77th Congress, Second Session, and under the authority of Executive Order 9250, Executive Order 9328, and the Emergency Price Control Act of 1942, the District Director of the Fort Worth, Texas, District hereby issued this Restaurant Maximum Price Regulation No. 5-12, establishing as maximum prices for food and drink sold for immediate consumption in the counties mentioned above the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943.

SECTION 1. *Sales at higher than ceiling prices prohibited.* If you own or operate a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking place, you must not offer or sell any "food item" (including any beverage) or "meal" at a price higher than the ceiling price which you figure according to the direction in the next four sections (sections 2 to 5, inclusive). You may, of course, sell at lower than ceiling prices. However, a price charged during the period April 4, 1943, to April 10, 1943, as provided under section 2 hereof, or a price charged during the period March 7, 1943, to April 3, 1943, inclusive, as provided under section 3 hereof, shall not become a maximum price under this regulation if it exceeded the maximum price established by another regulation applicable at that time. In such case, the lawful maximum price applicable at that time shall be the maximum price hereunder.

SEC. 2. *How you figure ceiling prices for food items and meals you offered in the seven-day period from April 4, 1943, to April 10, 1943.* Your ceiling price for any "food item" or "meal" is the highest price at which you offered the same "food item" or the "same meal" in the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943. (There are thirteen classes of "meals" provided for in section 21 (b) of this regulation.)

*Example.* If you charged during the seven-day period 75 cents for a dinner on week days and \$1.00 for the identical dinner on Sunday, the most you can charge for the dinner on week days is 75 cents because section 21 (b) provides that week-day dinners are dinners of a different class from Sunday dinners.

SEC. 3. *How you figure ceiling prices for food items and meals which you cannot price under section 2.* If you cannot figure your ceiling price for a "food item" or "meal" under section 2, and if you have adequate records of the prices you charged during the four-week period from March 7 to April 3, 1943, inclusive, you must take, as your ceiling price for such "food item" or "meal," the highest price at which you offered the same "food item" or the "same meal" during that four-week period. (See section 21 (b) for classes of meals.)

SEC. 4. *How you figure ceiling prices which you cannot determine under sections 2 or 3.* If you cannot determine your ceiling price for a "food item" or "meal" under sections 2 or 3, you must proceed as follows:

(a) Determine the cost of the raw food which you use in preparing the new "food item" or "meal."

(b) From the "food items" and "meals" for which you have already established ceiling prices, choose a "food item" or "meal" which currently has raw food cost equal to or less than the raw food cost of the new "food item" or "meal."

*Example.* You desire to determine your ceiling price for a broiled trout dinner to be served on week days and you did not serve such a dinner on week days during the period from March 7 to April 10, 1943, inclusive. You find that the raw food cost of this meal is 50 cents. You select from the meals for which you have already established ceiling prices a week-day dinner which has a raw food cost equal to or less than 50 cents. Since you may not select a meal which has a greater food cost than the raw food cost of the meal you are pricing, the meal you select in this instance must not have a raw food cost of more than 50 cents.

(c) Take as your ceiling price for the new "food item" or "meal" your ceiling price for the "food item" or "meal" chosen for comparison. The "food item" or "meal" offered for such comparison should be of the same class as the new "food item" or "meal" (the different classes of "meals" and "food items" are set out in section 21 (b)). If, however, you can find no "food item" or "meal" of the same class, you may use for comparison the most similar "food item" or "meal" of another class having a food cost equal to or less than your food cost for the new "food item" or "meal". "Currently" as used herein means current on the day you figure your price.

(d) Under no circumstances are you permitted to use a raw food cost which exceeds the current maximum price fixed under any applicable maximum price regulation or order of the Office of Price Administration.

(e) Under no circumstances are you permitted to charge a price for any "food item" or "meal" determined under this section which is higher than either of the following prices:

(1) Your highest ceiling price for "food items" or "meals" of the same class offered in the seven-day period; or

(2) The last price at which you sold the same "food item" or the same "meal" prior to March 7, 1943, provided you first file with the appropriate War Price and Rationing Board a menu or certified copy of the record showing the last price charged. The limitations under this section 4, paragraph (e) shall not apply to seasonal dessert specialties specified in section 21 (a), Class 25A.

*Example 1.* If you did not serve split pea soup during the five-week period and you determine the price in accordance with section 4, arriving at a price of 25 cents for split pea soup, and the highest price you charged for any soup during the seven-day period was 15 cents, you may not now charge more than 15 cents for split pea soup, unless you find that the last time you served the soup prior to March 7, 1943, you offered it at a price of more than 15 cents, in which event you may take as your price either the 25 cents arrived at under section 4 or the highest price charged by you for split pea soup prior to March 7, 1943, whichever is the lower.

*Example 2.* If you did not serve a chicken dinner on a week day during the five-week

period and now wish to do so, you must calculate your maximum price under section 4. Suppose that your calculated price is \$1.25 and the highest priced week-day dinner you served during the seven-day period from April 4, 1943, to April 10, 1943, inclusive, was \$1.00, you may not now charge more than \$1.00 for this week-day dinner, unless the last time you served a week-day chicken dinner prior to March 7, 1943, you served it at a higher price than \$1.00. In such case, you may use the last price charged, or your price calculated under section 4, whichever is lower. Observe the requirement that a supporting menu or certified copy of a record showing the maximum price charged must be first filed with your War Price and Rationing Board.

(f) Except for ceiling prices which are to be varied in accordance with section 5, all of your ceiling prices for food items or meals once fixed or determined may not be changed by you.

**Sec. 5. How you figure your prices for seasonal items.** (a) First you determine your ceiling price for a "seasonal food item" (defined in section 20 (e)) in accordance with the first applicable pricing provision contained in sections 2, 3 and 4 of this regulation. Thereafter, this price must be varied in proportion to any seasonal change in the raw food cost of the item: *Provided*, That in no event shall the price be higher than the ceiling price as originally determined. If in the past it has been your practice to maintain one price throughout the season, you need not vary your ceiling price according to this rule provided the ceiling price was based upon estimated average raw food cost of the item for the entire season.

*Example.* Suppose when you first determine your maximum price for a serving of strawberries and cream it is 25 cents per serving and the raw food cost of this item is 12½ cents. Later, your raw food cost on this item is reduced to 10 cents, then the maximum price you may charge for a serving of strawberries at such time is 20 cents.

(b) In reducing your price of a "seasonal food item", you may ignore any reduction in the raw food cost which would reduce the price of the item less than 5 cents. If the reduction is more than 5 cents and you customarily express your prices in multiples of 5 cents, you may adjust your price to the nearest figure which will be a multiple of 5 cents.

**Sec. 6. Substitution of food items in meals.** If you have already determined your ceiling price for a meal, you may substitute for any food item other than the entree (or main dish) in that meal any other food item of the same class without refiguring your ceiling price, provided the new food item costs you approximately as much and offers customers about the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customers lower value than the food item which it replaces, and you must therefore determine its ceiling price in accordance with the rules established by section 4.

**Sec. 7. Prohibition against manipulation of meal offerings.** You must not manipulate your meal offerings in a

manner which will force your customers to pay more than they did during the seven-day period. Among other things you must not:

(a) Reduce the number of meals offered at prices equal to or below your "middle price" for meals of the same class without making a corresponding reduction in the number of meals offered at prices above that middle price. By "middle price" is meant the price most nearly at the mid-point of your price range for meals of the same class. To determine the mid-point, add the price of your highest priced meal to the price of your lowest priced meal of the same class and divide by two.

(b) Cease to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day you select in the seven-day period, as you did on that day.

*Example 1.* You have always offered five meals on week days at \$1.50, \$1.25, \$1.00, 85¢ and 65¢. The mid-point is \$1.07½. Your middle price is \$1.00. You may not eliminate your 85¢ meal without eliminating either your \$1.25 or your \$1.50 meal.

*Example 2.* If you select Friday April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners, of which two were priced at 85¢, and one each at 90¢, \$1.00, \$1.10, and \$1.50, you must continue to offer two week-day dinners at 85¢. Note that Sunday meals and week-day meals are meals of a different class.

**Sec. 8. Evasion.** (a) You must not evade or avoid the provisions of this regulation by any scheme or device whatsoever. Some, but not all, practices which will be regarded as evasive are:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price.

(2) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal.

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, checkroom, parking or any other special charges, or making such charges when they were not in effect in the seven-day period, except that a cover or minimum charge in effect during the base period may be increased in accordance with customary practice, where it was the practice to vary the charge in accordance with the type of entertainment offered and the increase does not cause the charge to go above the highest charge made during the last twelve-month period.

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals when such condition was not in effect during the base period.

(5) Reducing the selection of meals offered at table d'hote prices when the food items which you customarily offered in such meals are being offered at a la carte prices which, when added together, total more than the table d'hote price for the complete meal or give your customers less value for their money.

(6) Shortening the period of time in each day during which table d'hôte meals are offered unless there is a corresponding reduction in the period of time in which a la carte meals are served.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of these things during the seven-day period:

(1) You may limit your customers to one cup of coffee per meal.

(2) You may limit your customers to one pat of butter per meal.

(3) You may reduce the quantity, or eliminate altogether, condiments (such as catchup, chili sauce, etc.) which you may have customarily placed at the disposal of your customers and which now are, or may hereafter be, subject to any rationing order or rationing regulation of the Office of Price Administration.

(4) You may reduce the amount of sugar served with each cup of coffee or tea, or each bowl of cereal, fruit, or other similar food items with which sugar is served, to, but not less than, one teaspoonful, except that less than that may be given if required by your available supply.

You may not, however, make the curtailment authorized in the foregoing subparagraphs and furnish these curtailed items at an additional charge. For example, if during the seven-day period you furnished catchup, you may not now discontinue furnishing this item free, and at the same time offer to furnish it for an additional charge.

**Sec. 9. Rules for new proprietors.** (a) If you acquired or acquire another's business subsequent to the seven-day period beginning April 4, 1943, and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor. However, if you acquired another's business between April 10, 1943, and the effective date hereof, you may apply to the District Director not later than December 31, 1943, for permission to fix your prices under paragraph (b) of this section, whereupon the District Director may establish your prices as in his judgment seems equitable.

(b) If you open an eating or drinking place after the seven-day period you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the price of food or drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 12 and the posting requirements of section 13 immediately upon the opening of your place.

**Sec. 10. Seasonal eating and drinking places—(a) Exempt places.** If you are the proprietor of a seasonal eating or drinking place that meets all of the following requirements:

(1) Was not open during the base period from April 4 to 10, 1943;

(2) Receives 90 per cent or more of its total annual revenue during four calendar months of the year; and

(3) Is located in an area for which no maximum rent regulation has been issued;

the prices for food items and meals offered by you in that place are exempt from control.

You must not regard this exemption as relieving you from the obligations imposed upon you by General Order 50, and you are still subject to the provisions of section 22 of this regulation. Pursuant to this latter section, the Administrator will, by special order, establish maximum prices for any seasonal eating or drinking place which takes undue advantage of the exemption.

(b) *Non-exempt places.* If you are the proprietor of a seasonal eating or drinking place which is not exempt under the terms of paragraph (a), you must figure your ceiling prices as follows:

(1) If the place was in operation during the base period from April 4 to April 10, 1943, use the rules set forth in sections 2, 3, 4 and 5.

(2) If the place was not in operation during the base period from April 4 to April 10, 1943, but another place of the same type and within a reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the terms of section 9 (b).

(3) If you cannot price under subparagraphs (1) or (2) above, you must apply for a price to the OPA District Office for the area in which your place is located. Your application must be filed ten days prior to the date you plan to commence operations and present the following information:

- (i) Your name and address;
- (ii) A brief description of your business and the manner of operation;
- (iii) A list showing the prices you charged during the previous season as well as the prices you propose to charge during the coming season;
- (iv) The date when you plan to commence operations;
- (v) The names of two establishments similar to yours.

You may charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date specified for the commencement of operations. That Office may at any time, after proper investigation and hearing, establish such maximum prices for your business as it deems proper.

**Sec. 11. Taxes.** If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number or price of items or meals.

**Sec. 12. Records.** (a) You must observe all the record keeping and filing requirements of General Order No. 50

which are hereby made a part of this regulation by reference.

(b) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(c) *Records of the seven-day period.* You must make readily available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period. If you did not use menus, you must make readily available for such examinations a list of the highest prices you charged in the seven-day period.

(d) *Filing by new proprietors.* The proprietor of an eating or drinking place which was not open during the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a) of General Order 50, except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

(e) *Future records.* Beginning with the effective date of this regulation, you must keep, for examination by the Office of Price Administration, two each of the menus used by you each day. If you do not use menus, you must prepare in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same items or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for these places at a central office or the central office of the principal place of business within the city.

**Sec. 13. Posting.** (a) Beginning November 1, 1943, each menu must have clearly written on or attached to it the following statement:

All prices listed are our ceiling prices or below. By Office of Price Administration Regulation, our ceiling prices are based on our highest prices from April 4, 1943, to April 10, 1943. Records of these prices are available for your inspection.

(b) If you made menus available in the seven-day period, you shall continue to make them available.

(c) In addition to the requirements in (a) and (b), you must post in a conspicuous place, preferably at or near the cash register, a sign or poster when furnished by the Office of Price Administration. You must enter after each meal or food item on this list your ceiling price for such meal or food item.

**Sec. 14. Operation of several places.** If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

**Sec. 15. Relation to other maximum price regulations.** The provisions of this regulation shall not be applicable to the

sale of those food items and beverages which are now, or may hereafter be, covered by specific regulations or the General Maximum Price Regulation; for example, such items as (but not limited to) bottled soft drinks, fluid sweet milk, malt beverages, candy, chewing gum, cigarettes, cigars, chewing tobacco, smoking tobacco, etc.

**SEC. 16. Geographical application.** This Restaurant Maximum Price Regulation No. 5-12 applies to the following counties:

Archer, Baylor, Bell, Bosque, Brown, Callahan, Clay, Coke, Coleman, Comanche, Concho, Cooke, Coryell, Denton, Eastland, Erath, Falls, Fisher, Foard, Hamilton, Hardemann, Haskell, Hill, Hood, Jack, Johnson, Jones, Knox, Lampasas, McCulloch, McLennan, Mills, Montague, Nolan, Palo Pinto, Parker, Runnels, San Saba, Shackelford, Somervell, Stephens, Tarrant, Taylor, Throckmorton, Tom Green, Wichita, Wilbarger, Wise and Young.

**SEC. 17. Enforcement.** Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

**SEC. 18. Exempt sales.** Sales by the following eating or drinking places are specifically exempt from the provisions of this regulation:

(a) Eating and drinking places located on church premises and also any sales of food and beverages by churches, Sunday schools, and other religious organizations unless such sales are made as a regular business.

(b) Hospitals, except for food items and meals served to persons other than patients when a separate charge is made for such food items and meals.

(c) Eating and drinking places located on board common carriers (when operated as such) including railroad dining cars, club, bar and buffet cars, and peddlers aboard railroad cars traveling from station to station.

(d) Eating and drinking places operated by any school, college or university which is a non-profit institution (that is, where no part of the net earnings inures to the benefit of any private shareholder or individual), which sells food items or meals on a non-profit or cost basis or as near thereto as reasonable accounting methods will permit, and substantially all sales of which are made to students, faculty members and employees of such institution. For purposes of this paragraph, persons receiving instruction on the premises of such institution by arrangement with the War Department or Department of the Navy shall be considered students.

(e) Bona fide private clubs insofar as such clubs sell only to members and bona fide guests of members. If such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking place within the meaning of this regulation. No club shall be considered to be exempt as a private club within the meaning of this paragraph unless its members pay dues (more than merely nominal in amount),

are elected to membership by a governing board, membership committee or other body, and it otherwise is operated as a private club.

No club organized after the effective date of this regulation shall be exempt unless and until it has filed a request for exemption with the nearest State or District Office of the Office of Price Administration, furnishing such information as may be required, and has received communications from such office authorizing exemption as a private club.

**SEC. 19. Adjustments.** (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment will be forced to discontinue operations unless it is granted an adjustment of the maximum prices established by this regulation.

(2) Such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to your OPA District Office a statement setting forth:

(1) Your name and address.

(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch and dinner), number of persons served per day during the most recent thirty-day period, and such other information that may be useful in classifying your establishment.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and your requested adjusted prices.

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

(7) Together with such other and further information as the District Director may deem necessary.

**SEC. 20. Definitions and explanations.**

(a) "Person" means individual, corporation, partnership, association or other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, any other Government, any of its political sub-

divisions, and any agencies of any of the foregoing.

Examples are: certain shell-fish such as oysters; certain fresh fish such as salmon; certain fresh vegetables such as summer squash; certain fresh fruits such as berries and melons. Canned and quick-frozen foods are not seasonal items, nor are meats derived from domestic animals and fowl.

(f) "Beverages" mean all beverages not excepted by the terms of section 15 hereof.

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.\*

Maximum Price Regulation No. 457 is amended in the following respects:

1. In the table in section 2 (b), the phrase "For package weights \* \* \*" in the first square of the left-hand column is amended to read as follows:

2. Section 2 (c) is re-designated section 2 (j).

\*Copies may be obtained from the Office of Price Administration.

3. A new section 2 (c) is added to read as follows:

(c) *Maximum prices applicable in cases where persons sell to wholesalers, primary distributors or retailers at or below ceiling prices provided in paragraphs (a) and (b).* When a person who packs potato chips sells to a wholesaler or primary distributor at or less than a figure listed in Column 2 of the following table (but in excess of the price listed immediately above that figure) or sells to a retailer at or less than a figure listed in Column 3 (but in excess of the price listed immediately above that figure), he shall mark on the individual retail package or label attached to it the consumer price listed in Column 1 opposite the greater of the two listed figures.

When a person who packs potato chips has marked on the individual retail package a consumer price listed in Column 1 of the following table, no person may charge a consumer more than that price, no person may charge a wholesaler or primary distributor more than the figure listed on the same line of Column 2, and no person may charge a retailer more than the figure listed on the same line of Column 3.

These maximum prices shall prevail regardless of the actual weight of the package; however, in any case, the actual weight of the package must not be lower than the weight specified in paragraph (a) or (b) for the particular maximum price named therein or to be figured thereunder. No person shall increase the consumer price marked on the package after it has been sold by the person who packed it, but any person selling to a consumer may reduce that price.

SEC. 5. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending; but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization. The authorization will be given by order.

Section 56 is added to read as follows:

SEC. 56. *Maximum prices for distribution yard sales of softwood*—(a) *What products are covered.* This section covers sales out of distribution yard stock of any lumber or shingles for which "direct mill" maximum prices are fixed in the following maximum price regulations as amended or revised:

Douglas Fir and other West Coast Lumber—Rev. MPR 26.<sup>2</sup>  
Western Pine and Associated Species of Lumber—MPR 94.<sup>3</sup>  
Red Cedar Shingles—MPR 64.<sup>4</sup>  
Redwood Lumber—MPR 253.<sup>5</sup>  
Sitka Spruce—MPR 290.<sup>6</sup>  
Western Red Cedar—MPR 402.<sup>7</sup>

This section sets maximum prices which are based upon the price definitions contained in the above "direct mill" regulations. Every dealer affected by this section should, therefore, secure copies of the above regulations for use in connection with this section.

(b) *What a distribution yard is.* A "distribution yard" is a wholesale or retail yard which gets lumber from mills or other yards; unloads, sorts, stores and resells or redistributes it; which regularly maintains a varied stock of lumber from different regions; which is equipped to make quick deliveries of different items of lumber and which has been located at its particular site in order to be near a lumber consuming area.

(c) *Maximum prices.* (1) The maximum price for sales out of distribution yard stock is the sum, less the amount of any cash discount up to 2% allowed by the seller during October, 1941, of the following:

(i) "Landed cost" as determined under paragraph (d) hereof, plus

(ii) \$5.00 per MBM "handling charge" (or 30¢ per square for shingles and 60¢ per M pieces of lath), plus

(iii) The following percentage mark-ups to be applied to the sum of (i) and (ii) above.

(a) Quantities of over MBM—45%.

(b) Quantities of MBM, or less—50%.

(iv) The amount of any charges permitted under paragraphs (e), (g), (h), and (n) hereof.

(2) The maximum price for sales of softwood ordered for the buyer by a distribution yard and delivered to him at the dock in the port of entry in the Territory of Hawaii shall be the sum of the following:

(i) "Landed cost" as determined under paragraph (d) hereof, plus

(ii) 10% of the f. o. b. mill maximum price.

\*Copies may be obtained from the Office of Price Administration.

<sup>6</sup> 8 F.R. 19, 2270, 6959.

<sup>7</sup> 8 F.R. 7662.

(d) *Landed cost.* (1) For lumber imported directly from the mainland of the United States landed cost shall be the sum of the following amounts:

(i) F. o. b. mill maximum price, in the mill regulation for the particular species, regardless of the amount actually paid to the mill.

(ii) An amount equal to the transportation charges, if any, actually incurred by the dealer for transportation from the mainland point at which the dealer received delivery to the mainland port of ocean shipment, including Federal transportation taxes and terminal charges.

(iii) An amount equal to any charges incurred on the mainland of the United States for wharfage, demurrage, handling, and/or spraying of lumber for the purpose of camouflaging.

(iv) An amount equal to mainland storage charges and insurance in connection with such storage, actually incurred by the dealer. Charges for storage and insurance in connection therewith in excess of three months shall not be included.

(v) An amount equal to cartage charges actually incurred by the dealer for cartage from the storage yard to the dock in port of ocean shipment.

(vi) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the dealer, including Territorial tolls and tonnage tax shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rate charged by the War Shipping Administration shall not be included.

(vii) An amount not in excess of \$1.50 per MBM where cartage from the dock to the yard in the port of entry in the Territory of Hawaii is at the expense of the distribution yard. Where such cartage is for longer hauls than those normally made prior to December 7, 1941, such amount may be equal to the actual costs incurred for such cartage in the following cases only:

(a) Where the customary port of entry has, due to war conditions, been closed to commercial shipping.

(b) Where a yard is now located farther from its customary port of discharge due to war conditions.

(2) For lumber received from or via another island in the Territory of Hawaii, landed cost shall be the sum of the following amounts:

(i) An amount equal to the maximum price in the island from which the lumber was shipped, as determined under paragraph (d) (1) above:

(ii) An amount equal to cartage charges for cartage from the yard to dock in the island from which the lumber was shipped, but shall not exceed the rate permitted in paragraph (d) (1) (vii) above:

(iii) An amount equal to ocean freight, war risk and marine insurance actually incurred by the dealer for shipment between the islands, including Territorial tolls and tonnage tax shown on the bill of lading. However, the amount by which any cost of war risk insurance ex-

ceeds the rate charged by the War Shipping Administration shall not be included.

(iv) An amount equal to cartage charges from dock to yard in the island on which the dealer is located, but shall not exceed the rate permitted in paragraph (d) (1) (vii) above.

(3) If an identical item on hand in the distribution yard has two or more different landed costs then the landed cost for the item may be determined by calculating a weighted average landed cost for the entire inventory of that item on hand. Weighted average landed cost shall be calculated as follows:

(i) Each different landed cost shall be multiplied by the number of units having such landed cost. The products of such multiplication shall be added and the sum thereof divided by the total number of units for which the weighted average landed cost is desired. The quotient or result of such division is the weighted average landed cost. This provision is permissible and is not mandatory. The distribution yard need not average the different landed costs for the identical item but may establish the maximum price for each of the items on the basis of its appropriate landed cost.

(e) *Delivery charges.* (1) No charges for deliveries may be made for deliveries within a radius of five miles of the distribution yard.

(2) For deliveries to points more than five miles from the distribution yard, the following delivery charges may be made:

(i) Where the delivery is made by common or contract carrier, an amount equal to the charge made by the carrier to the distribution yard for such delivery.

(ii) Where the delivery is made with equipment owned or operated by the distribution yard, an amount not in excess of a maximum charge for such delivery which has been authorized by the Office of Price Administration. In order to obtain authorization for such charges, the distribution yard should file with the Office of Price Administration, Honolulu, T. H., a list of proposed maximum charges for such deliveries. If such proposed charges are not in excess of those currently made by common or contract carriers whose services are available in the area served by the distribution yard, such charges will be authorized and the distribution yard notified that such authorization has been made. Such authorization shall be subject to revocation by the Office of Price Administration.

(3) Any charge made for delivery must be separately stated and shown on the invoice, bill of sale, or such sales memorandum as may be used in connection with the sale.

(f) *Prices must be evened out.* In all sales under this section the maximum prices shall be evened out to the nearest 25¢ per MBM on all sales involving a quantity over 1 MBM (or to the nearest 5¢ per square for shingles, or thousand pieces of lath). Where the quantity is 1 MBM or less, the maximum price may be established as per foot or lineal foot, in which event it must be evened out to the nearest quarter of a cent per foot.

(g) *Maximum milling charges.* (1) The following additions per 1000 ft. BM may be made to the maximum prices when the following workings are required to be performed by a distribution yard and are actually performed by it. These charges are to apply to the total

quantity involved in one order where the milling does not involve a change in the machine set-up. These are to be added to the maximum price as determined under paragraph (c) hereof; that is, no percentage mark-up may be applied to the amount of the working charge.

(2) Where the required working cannot be performed by the distribution yard making the sale because it does not have the necessary facilities, the yard may add to the maximum prices the milling charges set forth in subparagraph (1) above for having this work performed at a custom establishment. In adding the working charges permitted by this regulation, the distribution yard may not make any extra charge for hauling or trucking that may be required in getting the stock to or from the custom establishment.

(3) When any of the above charges for workings at the yard or at a custom establishment are made, the invoice, bill of sale or other billings must clearly state that the working was done at the distribution yard or at the custom establishment, and the amount must be separately shown.

(4) When lumber is normally ordered rough, due to shipping and climatic conditions an addition for surfacing when required may be added. However, when lumber is ordered surfaced or run to pattern at the mill, no addition over the mill ceiling prices may be added. The additions for ripping, resawing and cross cutting to standard sizes may only be added when it is impossible to procure through normal channels the desired size. In no case may the final cost including milling charges, saw-kerf and waste exceed the most economical final cost of producing the required size. The addition of unnecessary milling charges as a means of increasing the maximum selling price is a violation of this regulation.

(5) When remanufacturing boards, dimension, plank or small timbers from

heavier lumber at the yard, a listing of the original sizes as well as a copy of the invoice covering the transaction must be kept on file for inspection by the Office of Price Administration.

(h) *Seasoned lumber.* An addition of \$4.00 per MBM may be added for lumber seasoned in the Territorial distribution yards. For the purpose of this regulation seasoned lumber means lumber which has been properly stuck for drying, protected from the elements and which has been on sticks not less than 180 days. This addition is to be added after the percentage mark-up has been added; that is, no percentage mark-up may be applied to the amount of the seasoning charges.

(i) *Lumber in transit.* A sale by a distribution yard may be considered a sale out of distribution yard stock even if the sale was made while the lumber was in transit to the yard.

(j) *What the invoice must contain.* All invoices must contain a sufficiently complete description of the lumber to show whether the price is proper or not: i. e., grade, quantity, size, condition of dressing, pattern, species, and any other extra, or specification which affects the maximum prices. The amount added for each specification or extra does not have to be separately shown except in those cases where the provision permitting the addition expressly requires it. Where the invoice does not specify the amount of each grade shipped or delivered the maximum price of the lowest grade in the shipment shall apply to the whole order.

(k) *Prohibited practices.* In addition to the practices prohibited by section 6 of this MPR 373, the following specific practices are prohibited:

(1) Getting the effect of a higher price by changing credit practices or cash discounts from what they were in October, 1941. This includes reducing the cash discount period, decreasing credit periods, or making greater charges for extension of credit. For purposes of this paragraph, no discount over 2 percent is considered a cash discount.

(2) Selling as specified lengths a shipment of lumber which is substantially equivalent to standard or random lengths.

(3) Grading as a special grade lumber which can be graded as a standard grade; or wrongly grading or invoicing lumber in any other way.

(4) Refusing to sell on an f. o. b. yard basis, and insisting on selling on a delivered basis, except in the case of sales whose price includes free delivery; or refusing to make delivery within the free delivery zone, unless it has not been the practice of the seller to make delivery in the particular circumstances.

(5) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(6) Breaking up an order which would normally be a single order into a series of smaller orders in order to evade the maximum price limitations in this regulation.

(7) Failing to invoice properly and in accordance with requirements of this regulation.

(l) *Combination grades.* Lumber sold on combination grades may not be sold above the maximum price for the lowest priced grade actually named in the combination. For example, the maximum price for lumber sold as No. 2 Common and better is the maximum price fixed for No. 2 Common lumber. But it is permissible to quote a grade with specified percentages of higher grade: *Provided*, That when the lumber is shipped, lumber of each grade is tallied on a board foot basis and invoiced separately at prices not in excess of ceiling prices for the respective grades.

(m) *Determination of quantities.* Quantity is in every instance to be determined by the total amount ordered without regard to the number of kinds or species or grades of lumber included. Furthermore, the amount delivered at a particular time does not determine the quantity. The test is the total amount involved in the transaction. For example, if buyer and seller at the time the sale is negotiated know that the quantity to be bought for a particular job will run to 20,000 feet, the sale is one for 20,000 feet even though it may be split into five orders of 4,000 each, or requisitioned in quantities of 4,000 feet, and this is true regardless of whether five different deliveries in loads of 4,000 feet each are made on different days. In determining the size of sale of shingles or lath, a conversion ratio of 10,000 shingles to 1,000 board feet of lumber and 6,000 lath to 1,000 board feet of lumber shall be used.

(n) *Special specifications, workings or extras.* For special workings, specifica-

tions, services or extras not specifically priced under any provision of this regulation, the seller should apply to the Office of Price Administration, Honolulu, T. H. for instructions. In the application the seller must set forth the amount customarily charged (not to exceed the maximum price fixed by the regulation previously controlling such as the General Maximum Price Regulation), for the special working, specifications, service or extra, or in the absence of a customary charge, the amount which in his opinion represents a fair and reasonable charge, together with a statement of how it was arrived at. Instructions will be furnished by letter or telegram. After writing for instructions the seller may quote and deliver at the requested price, but must not accept final payment until the instructions have been received. In the event that they are not received within 30 days after application has been made, the price for which approval is requested shall be deemed to have been approved and may be used by the seller. Instructions issued pursuant to this paragraph apply only to the particular seller who has applied for them.

(o) *Effect of changes in mill ceilings.*  
 (1) All changes in the f. o. b. mill ceiling prices (on which the prices established herein are built) apply to all sales made under this regulation as of their effective date. For example, if the ceiling price of No. 1 Common 2 x 4—16' Douglas fir, which is priced at \$29.50 per MBM under RMPR 26, should be reduced to \$28.50 per MBM, effective December 1, 1943, in establishing the maximum price under this regulation for that item after December 1, 1943, the reduced price, i. e., \$28.50 per MBM, shall be used in building up the distribution yard maximum ceiling price regardless of whether or not the seller had stocks on hand at the time which had been purchased at the higher price. The same rule applies to ceiling increases.

(2) Where an amendment to, or a revision of, a mill schedule deletes a specific price for an item theretofore priced, a distribution yard having stocks of the item in inventory or actually in transit on the effective date of the amendment or revision shall have 90 days from the effective date thereof within which to sell these stocks on the basis of ceiling prices in effect before the deletion. Thereafter, it may not use the additions previously established in computing its selling price.

(3) Where producer establishes a specific price for an item under a special pricing provision of a mill schedule, and distribution yard selling that item may use the price so established in figuring its selling price under this regulation, provided it first obtains from the producer written assurances that an authorization has been issued to him, and provided further, that the distribution yard files a copy of its purchase invoice with the Office of Price Administration, Honolulu, T. H.

(p) *Issuance and posting of dollar and cents prices and delivery charges.* (1) On or before November 30, 1943, every distribution yard offering to sell any lumber covered by this section shall prepare a dollar and cents price schedule covering all standard items of lumber. Standard items means the items which have heretofore normally been included in the price lists issued by the distribution yard. A copy of such price schedule must be posted at the place in the establishment where lumber is sold. A copy of such price schedule must also be filed with the Office of Price Administration, Honolulu, T. H.

(2) Upon authorization pursuant to paragraph (e) (2) (ii) by the Office of Price Administration of maximum delivery charges which may be made by a distribution yard, such distribution yard shall immediately post a list of such charges at the place in the establishment where lumber is sold.

This amendment shall become effective as of November 15, 1943.

2. Section 28 is added to read as follows:

SEC. 28. *Maximum retail prices for toys and games.* The maximum retail prices for toys and games sold or delivered in the Virgin Islands of the United States shall be computed as follows:

(a) On imported toys and games the direct cost to the importer as defined in section 12 (a) (5) may be multiplied by 1.75 on all mechanical toys and games and toys made of glass; and by 1.50 for all other toys and games.

3. Section 29 is added to read as follows:

SEC. 29. *Maximum retail prices for sanitary napkins and tampons—(a) Definitions.* When used in this section 29, the term:

(1) "Sanitary napkins" includes all absorbent dressings sold for use by women during the menstrual period, the wadding of which is composed of wood cellulose in any proportion.

(2) "Tampons" are specially constructed wads of cotton and/or cellulose, non-medicated, with or without applicator, designed for internal menstrual sanitary protection.

(b) *Pricing method.* The maximum retail prices for sanitary napkins and tampons shall be the sum of the following costs multiplied by 1.30:

- (1) The landed cost,
- (2) Local trucking charges,
- (3) If sold in the island of St. Thomas or the island of St. John, the applicable trade tax imposed by the municipality.

## Chapter XIII—Petroleum Administration for War

[PDO 19]

## PART 1532—MARKETING PETROLEUM WAX RESTRICTION ON MICRO-CRYSTALLINE WAX

The fulfillment of the requirements of the defense of the United States has created a shortage in the supply of micro-crystalline wax for defense, for private account and for export; and the following order is deemed necessary in the public interest to promote the national defense and provide adequate supplies of micro-crystalline wax for military and other essential uses.

§ 1532.1 *Petroleum Distribution Order No. 19*—(a) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Wax" means micro-crystalline wax or any blend or mixture of such wax with paraffin wax.

(3) "Micro-crystalline wax", commonly known as amorphous wax or petrolatum wax, means a solid hydrocarbon mixture, of molecular weight averaging higher than paraffin wax, possessing plastic properties, separated entirely from that part of crude petroleum commonly designated as heavy lubricating and cylinder oil stocks, and having a minimum kinematic viscosity of 5.75 centistokes at 210 degrees Fahrenheit and a maximum penetration of 60 at 77 degrees Fahrenheit, determined by A. S. T. M. method D5-25.

(4) "Supplier" means any person who produces or refines micro-crystalline wax, or who blends or mixes the micro-crystalline wax that he produces or refines with paraffin wax.

(5) "Use" means the consumption of wax in the manufacture of any article or product made from wax, or the blending of one kind of wax with a different

kind of wax or any other material; provided the term "use" shall not include the refining or production of wax.

(6) "Director" means Director of Marketing, Petroleum Administration for War, Interior Building, Washington 25, D. C.)

(b) *Limitation on delivery, acceptance of delivery and use of wax.* Except as authorized by the Director:

(1) No supplier shall deliver in any calendar quarter more than 2½% of such supplier's total production of wax during such period; and

(2) No person or supplier shall accept delivery of or use in any calendar quarter more than 3,000 pounds of wax.

(c) *Spacing deliveries.* No person or supplier shall accept delivery in any calendar month of more than ½ of the quantity of wax such person or supplier is entitled to receive under paragraph (b) or is authorized to receive by the Director, unless the delivery represents a delivery that such person or supplier was entitled to receive under paragraph (b) or was authorized to receive by the Director during a preceding month, but which was not delivered during such month, or unless the delivery is specifically exempted from this provision by the Director. Should the quantity of wax which such person or supplier is entitled to receive under paragraph (b) or is authorized to receive by the Director be insufficient to fill the container or tank car that would ordinarily be used to deliver such quantities of wax, such person or supplier may accept such additional quantities of wax as will enable his supplier to fill such container or tank car. Such excess quantities so received shall be deducted from the quantities such person or supplier is entitled to receive under paragraph (b) or is authorized to receive by the Director during the following calendar month or calendar quarter.

(d) *Application for allocations.* If any person or supplier desires to apply for authorization to accept delivery of or use any quantity of wax other than that specified in paragraph (b), such person or supplier shall file, in the manner prescribed in the appendix to this order, Form WPB PD-2945 with the Director.

(e) *Reports.* On or before the 15th day of the month preceding each calendar quarter, each supplier shall furnish the Director the following information:

(1) Estimates of the quantities (in short tons) of each grade of wax in inventory as of the first day of the following calendar quarter; and

(2) Estimates of the quantities (in short tons) of each grade of wax such supplier expects to produce or refine during the following calendar quarter.

Should such estimates be revised, such revisions shall be forwarded to the Director as promptly as possible.

(f) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional or unreasonable hardship upon him may appeal. Such appeal shall be in duplicate and shall be addressed to the Director.

(g) *Violations.* Any person who willfully violates any provision of this order,

or who, by any act or omission, falsifies records kept or information furnished in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. Any person who wilfully violates any provision of this order may be prohibited from delivering or receiving any material under priority control, or such other action may be taken as is deemed appropriate.

(h) *Status of completed or pending matters.* Every order, allocation, exception or other act or thing done under or by virtue of Allocation Order M-195 shall remain valid until such order, allocation, exception or other act or thing expires by its terms or is duly amended or revoked, and any person affected by any order, allocation or exception issued under Allocation Order M-195 may carry out any transactions in accordance therewith.

All pending matters and proceedings under Allocation Order M-195 shall not be terminated hereby, but may be carried into completion by the War Production Board or the Petroleum Administration for War.

Issued this 15th day of November 1943.

Petroleum Administrator for War.

APPENDIX—INSTRUCTIONS FOR PREPARING AND SUBMITTING FORM WPB-2945

*General Instructions.* (1) Each applicant shall prepare 4 copies of WPB Form WPB-2945 (obtainable at local office of War Production Board or Petroleum Administration for War) for each supplier and delivery destination involved, and shall forward 3 copies of such form to the Director on or before the first day of the month preceding the calendar quarter for which the application is made.

(d) Fill in Table III as indicated.

(4) Leave Tables IV and V blank.

Accordingly, I order and direct that the possession by the Government of the mines of the mining companies listed in Appendix A, attached hereto and made a part hereof, including any and all real and personal property, franchises, rights, facilities, funds, and other assets used in connection with the operation of such mines be, and it is hereby, terminated and that there be conspicuously displayed at those mining properties copies of a poster to be supplied by the Coal Mines Administration and reading as follows:

NOTICE. Government possession and control of the coal mines of this mining company have been terminated by order of the Secretary of the Interior.

Provided, however, That nothing contained herein shall be deemed to preclude the Government from requiring the submission of information relating to operations during the period of Government possession and control as provided in section 40 of the Regulations for the Operation of Coal Mines under Government Control, as amended (8 F.R. 6655, 10712, 11344), for the purpose of ascertaining the existence and amount of any claims against the United States so that the administration of the provisions of Executive Order No. 9393 (8 F.R. 14877) may be concluded in an orderly manner; and: Provided further, That except as otherwise ordered, the appointments of the Operating Managers for the mines of the companies listed in Appendix A shall continue in effect.

Pursuant to the order of the Secretary of the Interior dated June 15, 1943, and entitled "Wage Fixing Procedures, Field Employees, Grazing Service, Department of the Interior," the Grazing Service Wage Board has determined prevailing wage rates for field employees of the Grazing Service who are not allocated to grade under the Classification Act of 1923, as amended, and who are engaged in construction in Region 10 of the State of Wyoming. The Board has considered rates currently being paid by private employers, predeterminations by the Secretary of Labor under the Davis-Bacon Act, rates paid by other Government agencies, and rates established by collective agreement.

Refer to forty-hour week Act (Sec. 23, Act of March 28, 1934; 48 Stat. 522).

The Wage Board recommends that all field employees of the Grazing Service in Region 10 not allocated to grade and

engaged in construction be classified or reclassified in accordance with the foregoing schedule, effective as of the beginning of business on May 1, 1943. The Board further recommends that all positions not allocated to grade and for which job titles are not listed above be abolished.

The Wage Board further recommends that no person employed by the Grazing Service on or after May 1, 1943, shall receive a reduction in basic wage rate due to promulgation of the recommended rates listed above.

#### Office of the Secretary.

[Order 1903]

#### COMMISSIONER OF RECLAMATION DELEGATION OF AUTHORITY

Pursuant to the provisions of the Act of December 19, 1941 (55 Stat. 842), it is hereby ordered as follows:

1. With respect to powers and authorities vested in the Secretary of the Interior or the Department of the Interior by the Act of June 17, 1902 (32 Stat. 388), and acts amendatory thereof or supplemental thereto (herein called the Federal Reclamation Laws), the Commissioner of Reclamation, and in cases of designation by the Commissioner as provided in section 2 hereof, an Assistant Commissioner, or the officer in charge of any office, division, district, or project, of the Bureau of Reclamation, subject to the limitations herein set out, shall have the following powers and authority:

(a) To appoint appraisers or appraisal boards to make appraisals or reappraisals of lands or interests therein in connection with acquisitions under the Federal Reclamation Laws; to make or approve appraisals in all cases where the amounts involved do not exceed \$50,000 for a property in one ownership; and to contract for and effect the purchase or exchange of lands or interests therein at appraised values, but any exchange involving withdrawn public lands shall be effected only with the concurrence of the Commissioner of the General Land Office. In the event the authority under this subsection is exercised by other than the Commissioner of the General Land Office, exchange contracts shall be first approved by the Commissioner.

(b) To contract for the relocation of properties pursuant to the authority of section 14 of the Reclamation Project Act of 1939 (53 Stat. 1187, 1197) in any case

where the expenditure of funds by the United States is estimated not to exceed \$50,000, and in connection therewith to execute, in the name of the Secretary, all necessary grants or conveyances, but any grant or conveyance involving withdrawn public lands shall be executed only with the concurrence of the Commissioner of the General Land Office. In the event the authority under this subsection is exercised other than by the Commissioner, all such grants or conveyances shall be on forms approved by the Commissioner.

(c) To contract, under the authority of the Federal Reclamation Laws, for performance of investigations, surveys and studies by the Bureau independently or in cooperation with other agencies or parties and for the performance with contributed funds of construction work or development work incident thereto, in any case where the total expenditure of funds under the contract is estimated not to exceed \$50,000. Any such contract for investigations, surveys or studies involving the electric power production aspects of authorized projects, or of proposed projects found or believed by the Bureau to embrace power sites capable of economic development, shall be made only after consultation with the Division of Power.

(d) To lease or license for grazing or agricultural uses, or other uses within the scope of the Federal Reclamation Laws, excluding the development or transmission of electric power and energy, public lands under reclamation withdrawal and lands acquired for reclamation purposes, to consent to subleases or sublicenses thereunder, and to modify, consent to assignment of, terminate or cancel such leases and licenses; and to grant permits for the removal of sand, gravel, or building materials from public lands under reclamation withdrawal or lands acquired for reclamation purposes, and to modify, consent to assignment of, terminate or cancel such permits. All leases, licenses or permits made pursuant to this subsection shall be on terms and conditions that are deemed by the executing officer to be adequate to protect the interests of the United States and the project for which the particular lands are being administered and to be compatible with the purposes for which the lands were withdrawn or acquired; and all such leases, licenses or permits of more than five years' duration shall be first approved by the Commissioner.

(e) To effect the sale of acquired lands or interests therein where permitted under the Federal Reclamation Laws and, in connection therewith, to execute in the name of the Secretary, on forms approved by the Commissioner, the requisite deeds of conveyance; and, with the concurrence of the Commissioner of the General Land Office, to authorize the sale of public lands under reclamation withdrawal where permitted under the Federal Reclamation Laws, all such sales of such withdrawn public lands to be under the jurisdiction of the Commissioner of the General Land Office. The sale of any lands acquired

or withdrawn as a site or part of a site for the development of electric power and energy may be made, however, only after consultation with the Division of Power, but no lands withdrawn, reserved, or classified for power purposes may be sold under authority of this order.

(f) To appoint appraisers or appraisal boards to make appraisals of lands or interests therein where permitted or required in connection with contracts, concerning excess lands or the control of speculation in lands, made or to be made pursuant to the Federal Reclamation Laws; and to approve such appraisals.

(g) To issue public notices and other notices to water users and water users' organizations under the Federal Reclamation Laws and repayment contracts made thereunder covering annual water rental charges, annual operation and maintenance charges and other annual rates and charges, and covering various annual credits to which the water users or water users' organizations are entitled.

(h) To approve, whenever the repayment obligation of an irrigation district or other water users' organization will not be impaired thereby, the inclusion of lands within or the exclusion of lands from the boundaries of such irrigation district or from the control of such water users' organization.

(i) To approve the reclassification of lands under the provisions of the Act of May 25, 1926 (44 Stat. 636, 647), as amended; and to determine the justification for the classification or reclassification of lands pursuant to the provisions of section 8 of the Reclamation Project Act of 1939.

(j) To approve all amendments to farm unit plats.

2. The foregoing powers and authorities shall be exercised under the supervision and direction of the Secretary and subject to such regulations as he deems proper. The exercise of any of these powers and authorities by an officer of the Bureau of Reclamation, other than the Commissioner, is contingent upon the promulgation of an order or orders by the Commissioner designating the powers and authorities so to be exercised. In connection with any such order the Commissioner may prescribe such rules and regulations to govern the exercise of the powers and authorities so indicated as he deems appropriate and as are consistent with this order. The Commissioner shall keep the Secretary currently advised of any orders promulgated and all rules and regulations prescribed under this section.

3. There shall be legal review of all matters handled pursuant to this order that involve legal phases, and such review shall be the responsibility of the Chief Counsel of the Bureau of Reclamation, subject to the supervisory jurisdiction of the Solicitor. With the approval of the Solicitor, the Chief Counsel may delegate the responsibility for legal review of matters involving the exercise of powers and authorities covered by this order to Bureau District Counsel or to the ranking attorney re-

responsible for legal matters of the office of the officer exercising the power or authority.

4. This order shall be effective on November 15, 1943, but all matters then pending before the Department will be cleared as heretofore. All existing orders, rules or regulations in conflict herewith are hereby superseded to the extent of such conflict. Such conflicting orders, rules or regulations shall be brought to the attention of the Secretary within a reasonable time to the end that he may effect whatever formal revisions or revocations are desirable to bring them into conformity with this order.

HAROLD L. ICKES,  
Secretary of the Interior.

#### DETERMINATION OF MINIMUM WAGE IN MEN'S HAT AND CAP INDUSTRY

##### NOTICE OF OPPORTUNITY TO SHOW CAUSE

Whereas, the prevailing minimum wage determination for the men's hat and cap industry, issued by the Secretary of Labor on July 28, 1937, pursuant to the provisions of section 1 (b) of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. Supp. III, sec. 35), as amended January 24, 1938 and June 12, 1942, provides that the minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of that Act, for the manufacture or supply of men's hats and caps, including men's white sailor and other stitched cloth hats, men's fur-felt hats, men's uniform caps, and women's hats and caps of similar design and construction, shall be 67½ cents an hour or \$27 per week of 40 hours, arrived at either upon a time or piece-work basis, and that there shall be a tolerance of not more than 20 percent of the employees in any one factory, whose activities at any given time are subject to the provisions of the Act, for auxiliary workers: *Provided*, That such auxiliary workers be paid not less than 37½ cents per hour or \$15 per week of 40 hours, arrived at either upon a time or piece-work basis: *And provided further*, That the term "auxiliary worker" when used in connection with employees in the uniform cap and in the stitched hat branches of the industry shall not be interpreted to include cutters or workers in the cutting room, machine workers, or workers on any kind of machine, blockers, pressers, and hand sewers; and

Whereas, the minimum wage required to be paid by the manufacturers of such men's hats and caps subject to the provisions of the Fair Labor Standards Act of 1938 is not less than 40 cents an hour pursuant to the wage orders for the Hat Industry and for the caps and cloth hats division of the Apparel Industry issued

by the Administrator of the Wage and Hour Division and effective July 1, 1940 and July 15, 1940, respectively; and

Whereas, it appears that substantially all employees subject to the Men's Hat and Cap Wage Determination of the Secretary are engaged in commerce or in the production of goods for commerce, as that term is defined in the Fair Labor Standards Act of 1938, and that, consequently, the aforementioned wage orders of the Administrator have had the effect of establishing not less than 40 cents per hour as the prevailing minimum wage for auxiliary workers in the Men's Hat and Cap Industry; and

Whereas, the Men's Headwear Manufacturers Group, Incorporated, and the St. Louis Association of Hat and Cap Manufacturers submitted to the Administrator of the Wage and Hour and Public Contracts Divisions petitions requesting that the meaning of the words "machine workers, or workers on any kind of machine" be defined, that the term "auxiliary worker" be clarified, and that the 20-percent tolerance for auxiliary workers be increased; and

Whereas, on July 17, 1942 and July 23, 1942, preliminary conferences were held for the purpose of providing an opportunity to all interested parties representing the manufacturers' associations in the Men's Hat and Cap Industry and to the trade union representing employees in that industry to participate in a discussion and analysis of the requests for relief presented by the petitioners; and

Whereas, further surveys were made and conferences held following receipt of objections pursuant to opportunity extended by a similar show-cause notice dated December 10, 1942; and

Whereas, it appeared that changing conditions of production and employment in the uniform cap and stitched hat branches of the industry require that the allowance for auxiliary workers be increased; and

Whereas, it appears advisable to amend the Men's Hat and Cap Wage Determination by

1. Providing that the prevailing minimum wage for auxiliary workers shall be not less than 40 cents per hour;
2. Permitting the employment of auxiliary workers in the uniform cap and stitched hat branches of the industry without limitation as to number; and
3. Clarifying the definition of the terms (a) "auxiliary workers," (b) "machine workers, or workers on any kind of machine," and (c) "cutters or workers in the cutting room," as applied to the uniform cap and stitched hat branches of the industry.

Now, therefore, notice is hereby given to all interested parties of the opportunity to show cause on or before December 14, 1943 why the Secretary of Labor should not amend the Men's Hat and Cap Wage Determination pursuant to the provisions of section 1 (b) of the Walsh-Healey Public Contracts Act so that the amended determination will read as follows:

(1) That the minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of the

Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. Supp. III, sec. 35) for the manufacture or supply of men's hats and caps, including men's white sailor and other stitched cloth hats, men's fur-felt hats, men's uniform caps, and women's hats and caps of similar design and construction, shall be 67½ cents an hour or \$27 per week of 40 hours, arrived at either upon a time or piece-work basis;

(2) That a tolerance of not more than 20 percent of the employees in any one factory, whose activities at any given time are subject to the provisions of the Walsh-Healey Public Contracts Act be granted for auxiliary workers in the Men's Hat and Cap Industry except that there shall be no limitation on the number or proportion of auxiliary workers employed in the uniform cap and stitched hat branches of the industry: *Provided*, That any auxiliary workers in the industry shall be paid not less than 40 cents an hour or \$16 per week of 40 hours, arrived at either upon a time or piece-work basis;

(3) The term "auxiliary workers" as applied to the employees in the uniform cap and stitched hat branches of the industry shall include only those employees engaged in auxiliary occupations enumerated and defined as follows:

*Shipping and receiving.* The operation of unloading and checking stock and preparing containers for shipment.

*Waste material sorting.* The operation of separating paper from the rags whether performed in the cutting room or elsewhere.

*Hand stapling.* The operation by hand pressure of a wire stapling machine to join together parts of the article, to attach labels, bows or cloth to the article or part of the article, or to join ends of a cardboard strip to form a packing ring.

*Drawstring pulling.* The operation of slipping a cord or drawstring through part of a cap, hood or helmet.

*Basting pulling.* The operation of pulling out basting threads.

*Porter.* The operation of cleaning floors or carrying boxes.

*Band and braid fitting.* The operation of placing by hand but not sewing on a cap a prepared band or braid.

*Wire stiffener inserting.* The operation of slipping a wire ring into the cap.

*Hand buckling.* The operation of slipping a buckle on a strap.

*Visor inserting.* The operation of inserting a canvas stiffener into a cloth pocket before the visor is attached.

*Pasting.* The operation of attaching a label or ticket to a part of hat with paste or glue.

*Hand button inserting.* The operation of inserting, by hand, into a prepared hole a button and bending over clips to hold the button in place, or inserting a button with a

threaded neck, and screwing a nut on neck to hold button firm.

**Hand hole punching.** The operation of punching a hole into material by use of an ice pick or similar pointed hand instrument.

**Wire cutting and ring forming.** The operation of cutting a wire to length and joining the ends to form a stiffener ring.

**Hand eyeletting.** The operation by hand pressure of a machine to attach an eyelet to the article.

**Hand snap fastening.** The operation by hand pressure of a machine to attach a snap fastener to the article.

All objections, protests, or any statements in opposition to or in support of the proposed amendments should be addressed to the Administrator of the Wage and Hour and Public Contracts Divisions, Department of Labor, Washington 25, D. C., and should be filed with the Administrator not later than December 14, 1943. An original and four copies should be filed.

Signed at New York, New York, this 11th day of November.

HOPE NATURAL GAS COMPANY

NOTICE OF APPLICATION

NOVEMBER 22, 1943.

Notice is hereby given that on November 15, 1943, Hope Natural Gas Company (hereinafter sometimes referred to as "Applicant"), a West Virginia Corporation with principal place of business located at 445 West Main Street, Clarksburg, West Virginia, filed with the Federal Power Commission an application for a certificate of public convenience and necessity under Section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of the following described facilities:

(a) 18 miles of 12 3/4-inch natural gas transmission pipeline extending from Applicant's existing Hastings Compressor Station in Wetzel County, West Virginia, to the West Virginia-Pennsylvania boundary near Hundred, Wetzel County, West Virginia.

(b) Two additional steam-engine-driven natural-gas compressors at Applicant's Hastings Compressor Station aggregating 4,000 horsepower, with additional boiler and auxiliary equipment.

In the application of November 15, 1943, Applicant states that the proposed transmission pipe line will connect with a proposed transmission pipe line of the New York State Natural Gas Corporation for which an application has also been filed.<sup>1</sup>

Applicant represents in such application that through the proposed facilities it will deliver out of its general sources of supply all of the natural gas which New York State Natural Gas Corporation will require to meet its present and future market demands, over and above the quantities of gas which that company may produce and purchase in northern Pennsylvania and western New York. It is expected, Applicant states, that in order to supply its present and future market demands, New York State Natural Gas Corporation will call upon Applicant for daily quantities of gas up to 50,000 M. c. f. per day; that this gas will be taken at a high load factor; and that annual volumes will approximate 12,000,000 M. c. f. per year.

Any person desiring to be heard or to make any protest in reference to said application should, on or before the 9th day of December, 1943, file with the Federal Power Commission a petition or protest in accordance with the Commission's Rules of Practice and Regulations.

In re: Real property in Andover Township, New Jersey, formerly owned by German American Bund Auxiliary, but now held in the name of Mathias Kohler and others.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that the German American Bund Auxiliary, a corporation organized under the laws of the State of New Jersey, was the owner of the property described in paragraph 10 hereof until June 2, 1941;

2. Finding that the Germany American Bund Auxiliary was a subsidiary of the German American Bund;

3. Finding that the property described in paragraph 10 hereof was used by the German American Bund and the German American Bund Auxiliary as a camp and as a place of assemblage where the subversive activities of the said organizations were furthered;

4. Finding that on June 2, 1941, the German American Bund Auxiliary conveyed the property described in paragraph 10 hereof to the persons named in Exhibit B, attached hereof and by reference made a part hereof;

5. Finding that at the time of the said conveyance the vast majority of the persons described in Exhibit B were members of the German American Bund as well as holders of certificates of indebtedness of the German American Bund Auxiliary;

6. Finding that the said transfer of the property described in paragraph 10 hereof was made for the purpose of circumventing the effect of legislation then pending to dissolve the German American Bund Auxiliary and terminate its activities;

7. Finding that the person named in Exhibit B, shortly after the transfer of the property described in paragraph 10 hereof to them, formed a voluntary unincorporated association known as the Nordland Home Owners Association in order to continue the use of the said property in the same manner as it had theretofore been used by the German American Bund Auxiliary;

8. Finding that the transfer of the property described in paragraph 10 hereof and the formation of the voluntary unincorporated association were the means employed by the persons named in Exhibit B in an attempt to continue the use of the said property in furtherance of the activities of the German American Bund and its subsidiary, the German American Bund Auxiliary;

9. Finding that the persons named in Exhibit B, attached hereto and by reference made a part hereof, are acting or purporting to act, directly or indirectly, for the benefit or on behalf of a national of a designated enemy country (Germany);

10. Finding that the property described as follows:

a. Real property situated in Sussex County, New Jersey, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements, and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property, and

b. Real property situated in Sussex County, New Jersey, particularly described in Exhibit C, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements, and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

is property within the United States owned or controlled by nationals of a designated enemy country (Germany);

11. Determining that, to the extent they are the owners of record of the property described in paragraph 10 hereof, the persons named in Exhibit B are controlled by and are acting for and on behalf of or as a cloak for a designated enemy country (Germany) or a person within such country and therefore are nationals of a designated enemy country (Germany);

12. Determining that to the extent that such nationals are persons not within a designated enemy country and to the extent that they are the owners of record of the property described in paragraph 10 hereof, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action, after appropriate consultation and certification required by law, and deeming it necessary in the national interest,

Hereby vests in the Alien Property Custodian the property described in paragraph 10 hereof, subject to recorded liens, encumbrances, and other rights of record held by or for persons who are not nationals of designated enemy countries, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest, and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account, or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Regional and District Office Orders.

[Region IV Order G-4 Under MPR 329]

FLUID MILK IN ATLANTA REGION

Order No. G-4 under Maximum Price Regulation No. 329. Purchases from producers for resale as fluid milk. Modification of certain prices in Region IV.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Atlanta Regional Office of the Office of Price Administration by § 1351.408 (b) and (c) of Maximum Price Regulation No. 329, as amended, it is hereby ordered:

(A) On and after November 15, 1943, regardless of any contract, agreement or other obligation, no purchaser, in the course of trade or business, shall buy or receive "milk" from any producer located in the states of Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee and Virginia at a price higher than the maximum price permitted by this order. No person shall offer, solicit or attempt to do any of the foregoing. Lower prices may be paid or offered.

(B) The maximum price which a purchaser may pay for "milk" to a producer located in the states of Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee and Virginia shall be the higher of the following:

(1) The maximum price established by the purchaser with respect to the particular producer for purchases of "milk" under the provisions of Maximum Price Regulation No. 329, or any supplementary or adjustment order of the Office of Price Administration in effect as of the effective date of this order or hereafter issued, or

(2) The maximum price determined as follows (subject to the provisions and limitations of section (C)):

Butterfat test basis

(i) Where the purchaser's maximum price to the producer under subsection (B) (1) is one established on the basis of butterfat test, then

(a) If the purchaser has an established retail home delivered price for approved fluid milk in quart glass containers which is specifically set out in the table in section (C), such purchaser may pay the maximum price set forth in the table opposite such specifically stated quart glass container price adjusted as provided in said subsection; or

(b) If the purchaser has himself no established retail home delivered maximum price for approved fluid milk in quart glass containers but the processing plant of the purchaser which buys the particular "milk" is located in a county (or in a municipality, if the maximum prices in such municipality differ from those in the county in which such municipality is included) where the quart glass container maximum retail price established by, and common to, the numerical majority of purchasers (who have such established prices) is a price

specifically set out in the table in section (C), such purchaser may pay the maximum price set forth in the table opposite such specifically stated quart glass container price adjusted as provided in said subsection; or

(c) If the purchaser cannot determine a maximum price under either (a) or (b) above because his established retail home delivered maximum price for approved fluid milk in quart glass containers, or that of the numerical majority of purchasers in the county (or in a municipality, if the maximum prices in such municipality differ from those in the county in which such municipality is included) where his processing plant is located, is not specifically set forth in the table in section (C), such purchaser may, in determining his maximum price under this subsection (B) (2), apply the butterfat content adjustment provisions of subsection (C) (2) to his maximum price for "milk" of 4% butterfat content established under subsection (B) (1).

(d) *Provided*, That any purchaser whose maximum price to the producer under subsection (B) (1) is one established on the basis of butterfat test and who has, with respect to that producer, a maximum basic test price established for "milk" of a higher basic test than 4%, may treat such maximum price as his maximum price for 4% "milk" and apply the butterfat content adjustment provision of subsection (C) (2) to such maximum base price.

*Example:* A purchaser who, under subsection (B) (1) has an established maximum price, for example, for 4.2% "milk" of \$3.75 per cwt, and who customarily used 4.2% as his basic test with an established differential, for illustrative purposes, of 3¢ above or below this price for each one-tenth of one percent butterfat variation in test has the option of adopting this price of \$3.75 as his maximum price for 4% basic test "milk" and may apply thereto the differential for each one-tenth of one percent of variation in butterfat test above or below that figure, as provided in subsection (C) (2).

#### Flat Basis

(ii) Where the purchaser's maximum price to the producer under subsection (B) (1) is one established without regard to butterfat test, that is, on a "flat" basis, then

(a) If the purchaser has an established retail home delivered price for approved fluid milk in quart glass containers which is specifically set out in the table in section (C), such purchaser may pay the maximum price set forth in the table opposite such specifically stated quart glass container price, treating the "milk" purchased as if it tested 4% butterfat, or

(b) If the purchaser has himself no established retail home delivered maximum price for approved fluid milk in quart glass containers but the processing plant of the purchaser which buys the particular "milk" is located in a county (or in a municipality, if the maximum prices in such municipality differ from those in the county in which such municipality is included) where the quart glass container maximum retail price es-

tablished by, and common to, the numerical majority of purchasers (who have such established prices) is a price specifically set out in the table in section (C), such purchaser may pay the maximum price set forth opposite such specifically stated quart glass container price, treating the milk purchased as if it tested 4% butterfat.

(c) *Provided*, That any purchaser whose maximum price to the producer under subsection (B) (1) is one established without regard to butterfat test, that is, on a "flat" basis, who wishes to buy on the basis of butterfat test may, in determining his maximum price under this subsection (B) (2), apply the butterfat content adjustment provisions of subsection (C) (2) to his maximum flat basis price established under subsection (B) (1) or under this subsection (B) (2), treating such maximum flat basis price as if it were one established for "milk" of 4% butterfat content.

(iii) *Provided*, That: (a) No purchaser may establish a maximum price under this subsection (B) (2) which results in that purchaser paying a producer from whom he did not purchase "milk" during January 1943, a higher price than the maximum price permitted under this order to a purchaser of the same or most similar class who did purchase "milk" from such purchaser during January 1943.

(b) No purchaser may establish a maximum price under this subsection (B) (2) with respect to purchases from a producer who did not sell "milk" (for resale as fluid milk) during January 1943. The maximum price in any such case shall be determined by the Atlanta Regional Office of the Office of Price Administration, upon application by the purchaser.

(c) This subsection (B) (2) shall not be applicable to any purchaser who, during the month of September 1943, sold 40% or more of his "milk" at wholesale in bulk, that is, in other than glass or paper containers to buyers other than stores, hotels, restaurants and institutions.

(C) Alternative price table (1):

1	2	3	4
Retail home delivered maximum price in quart glass containers (cents)	Maximum price per cwt. 4% milk	Maximum price per gallon 4% milk	Maximum price per pound butterfat
18	\$4.75	\$0.408	\$1.11
17½	4.58	.394	1.07
17	4.40	.378	1.03
16½	4.22	.363	.99
16	4.05	.348	.95½
15½	3.88	.334	.92
15	3.70	.318	.88
14½	3.52	.303	.84
14	3.35	.288	.80

(2) Where milk is purchased on a butterfat test basis and the butterfat test of the milk actually purchased is less than 4%, the maximum cwt and per gallon price set forth above shall be reduced by 5¢ per cwt and forty-three hundredths of one cent (\$.0043) per gallon respectively for each one-tenth of one

percent that such butterfat test is less than 4%, and where the butterfat test of the milk actually purchased is higher than 4%, the maximum cwt and per gallon price set forth above shall be increased by 5¢ per cwt and forty-three hundredths of one cent (\$.0043) per gallon respectively for each one-tenth of one percent that such butterfat test is higher than 4%.

(3) All prices set forth in the above table are delivered prices and can be paid only if delivery is made to the particular processing plant of the purchaser for which the milk was purchased. If delivery is made at a point other than such plant, a reduction in price shall be made equivalent to the actual cost of handling and transportation from point of delivery to such plant.

(4) Any purchaser in determining an established retail home delivered maximum price for quart glass containers under Column 1 of the above table shall take as the proper price for purposes of calculation that price which is one-half cent below the actual determined price in any case where the purchaser's processing plant is located in a county wherein the established retail home delivered maximum price is higher than the established retail out-of-store maximum price.

(5) No purchaser may calculate his maximum price to a producer on a basis per pound of butterfat as set out in Column 4 of the above table unless during September, 1943, he paid such producer on a butterfat weight basis. A purchaser who did, during September, 1943, pay producers on a butterfat weight basis may, in calculating his prices under this section (C) establish same, with respect to any or all of those producers from whom he purchases, on a cwt or gallonage basis.

(6) "Purchaser", in addition to the definition set forth in Maximum Price Regulation No. 329, when applied to persons selling approved fluid milk from more than one processing plant, shall mean the particular plant for which the "milk" of the producer is purchased. In determining an established retail home delivered price for approved fluid milk in quart glass containers, each purchaser shall use that price applicable to sales in the county (or municipality, if the maximum prices in such municipality differ from those of the county in which such municipality is included) wherein the processing plant is located for which the "milk" of the producer is purchased.

(D) Nothing in this order shall be construed to adjust any maximum price of any purchaser below the required minimum fixed in any locality by any order, agreement or license issued pursuant to the provisions of the Agricultural Marketing Agreement Act as of 1937, as amended.

(E) Unless the context otherwise requires, all transactions subject to this order remain subject to all provisions of Maximum Price Regulation No. 329 together with all amendments, Supplementary Regulations and Orders which may

have been heretofore or may be hereafter issued.

(F) This order may be revoked, amended or corrected at any time.

(G) This order shall become effective November 15, 1943.

(H) General Orders Nos. 1, 2 and 3 under Maximum Price Regulation No. 329, issued April 20, 1943, June 10, 1943 and July 27, 1943 by the Atlanta Regional Office of the Office of Price Administration, and effective April 24, 1943, June 15, 1943 and July 31, 1943, respectively, are hereby revoked and superseded by the provisions of this Order No. G-4.

(vi) Using any tying agreement whereby the buyer is required or persuaded to purchase anything other than the fuel requested by him; or

(vii) Using any other device by which a price higher than your maximum price is obtained either directly or indirectly.

(j) *An increase in your supplier's prices does not authorize you to increase your prices.* You must not increase the specific maximum prices established for you by this order to reflect in whole or in part any subsequent increase to you in your supplier's maximum prices for the fuel covered by this order. These specific maximum prices established for you by this order reflect all of the increases in the maximum prices of your supplier to the date hereof. If increase in your supplier's maximum prices shall occur after the effective date of this order, you may bring that fact to the attention of the Regional Administrator whereupon he will take such appropriate action in the premises as the then existing facts and circumstances justify.

(k) *Adjustable pricing.* You may not make a price adjustable to a maximum price which becomes effective at some time after you have made delivery of the coal; but you may agree to sell at whatever maximum price is in effect at the time of delivery.

(l) *Petition for amendment.* If you desire an amendment of any provisions of this order, you may file a petition therefor in accordance with the provisions of Revised Procedural Regulation No. 1 except that it shall be filed with the Regional Administrator and acted upon by him.

(m) *Right to revoke or amend.* This order may be revoked, modified or amended at any time by the Price Administrator or the Regional Administrator.

(n) *Definitions.* (1) "Carry" or "wheel-in" means to transport coal from the vehicle in which delivery is made or from the nearest accessible point of dumping or unloading and place the same in the buyer's bin or storage space when the physical condition of the premises are such as to prevent dumping or unloading directly into such bin or storage space.

(2) "Pull-back" or "trimming" means to arrange and place coal in the buyer's bin by re-handling the same for the pur-

pose of filling the bin and the service charge for such pull-back or trimming shall apply only to the amount of coal so re-handled.

(3) "Carrying up or down stairs" means generally the labor involved in carrying coal up or down stairs for depositing in customer's bin or storage space.

(4) "Delivery" means delivery to the buyer's bin or storage space by dumping, chuting, or shovelling directly from the seller's truck or vehicle, or where such delivery to the buyer's bin or storage space is physically impossible, by discharging at the point nearest and most accessible to the buyer's bin or storage space and at which the coal can be discharged directly from the seller's truck.

(5) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the seller's coal yard or stock pile.

(6) "Dealer" means any person selling solid fuels of any kind or size for which a maximum price is established by this order for sales and deliveries made in the area covered herein and does not include transactions whereby a producer or distributor makes a sale at or from a mine or preparation plant operated as an adjunct of a mine.

(7) "Bituminous coal" means coal produced in Districts 17 and 18 and any sub-districts thereof as set forth in the Minimum Price Schedules of the Bituminous Coal Division of the Department of the Interior and in effect as of midnight August 23, 1943.

(8) *Area descriptions.* (i) The maximum prices set forth in Table I hereof shall apply to the area contained within the municipal boundaries of the city of Albuquerque, New Mexico and extending seven miles beyond at all points from the center of the city. The above described area is referred to herein as the Albuquerque trade area.

(ii) The maximum prices set forth in Table II hereof shall apply to the area contained within the municipal boundaries of the city of Las Vegas, New Mexico and extending beyond one mile at all points. The above described area is referred to herein as the Las Vegas trade area.

(9) *Additional charge for delivering beyond area.* For a delivery made to a place beyond any one of the several areas as defined in paragraph (n) (8) hereof you may make an additional charge not in excess of any such additional delivery charge you regularly made in December 1941. If you are a dealer who was not in business in December 1941, or if you were in business but made no such deliveries, you may take for your additional delivery charge the charge of your nearest competitor who was established in business and did make such charge in December 1941.

(o) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may

not, during the period of suspension, make any sale for which his license has been suspended.

*Effective date.* This order shall become effective November 23, 1943.

**AMERICAN POWER AND LIGHT CO., ET AL.**

**NOTICE OF FILING AND ORDER FOR HEARING AND CONSOLIDATION**

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 18th day of November, A. D. 1943.

In the matter of American Power & Light Company, File No. 70-815; Electric Bond and Share Company, American Power & Light Company, Pacific Power & Light Company, Electric Power & Light Corporation, Utah Power & Light Company, National Power & Light Company, Ebasco Services Incorporated; Respondents, File No. 59-12.

Notice is hereby given that an application or declaration (or both) has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("the Act"), by American Power & Light Company ("American"), a subsidiary of Electric Bond and Share Company ("Bond and Share"), both registered holding companies. American seeks approval, pursuant to sections 6 (a) and 7 of the Act, of transactions designed to convert the presently outstanding preferred and common stocks into a single class of common stock, all as more particularly described below.

American is a Maine corporation and its business is exclusively that of a holding company. The capitalization and surplus of American per balance sheet as of August 31, 1943 are as follows:

	Amount outstanding	Principal amount or stated value
Long-term debt:		
Gold debenture bonds, American 6% series, due 2016.....	\$38,990,800	38,990,800

Total long-term debt.....		42,756,200
Preferred stock:		
Preferred (\$6) cumulative, no par.....	Shares 1,793,581 1/10	79,300,926
Preferred (\$5) cumulative, no par.....	978,444	97,844,400

Common stock and surplus:		
Common, no par.....	1,308,511 2/10	37,434,351
Capital surplus.....		36,026
Earned surplus.....		14,785,391
Total common stock and surplus.....		52,255,768
Total capitalization and surplus.....		272,157,294

<sup>1</sup> Including 24 3/10 shares of scrip.  
<sup>2</sup> Including 1,816 2/10 shares of scrip.

The foregoing statement of capitalization and surplus does not reflect undecleared cumulative dividends in arrears as of that date amounting to \$23,469,448 on the \$6 preferred stock (\$29.57 1/2 per share) and \$24,114,568 on the \$5 preferred stock (\$24.64 1/2 per share).

Of the securities of American outstanding, Bond and Share owns 51,840 shares (5.3%) of the \$5 preferred stock and 937,221 shares (31.2%) of the common stock. The foregoing securities held by Bond and Share represent 20.7% of the total voting power represented by all securities of American.

On August 22, 1942 an order of this Commission, directing the termination of the existence of American and directing its dissolution, was entered (Holding Company Act Release No. 3750). American filed a petition for review of said order in the United States Circuit Court of Appeals which as yet has rendered no decision. It is stated in the present filing that the proposed reclassification would, as a practical matter, be a necessary step in order to permit any distribution in kind to American's stockholders of securities in its portfolio.

The transactions proposed herein may be summarized as follows:

(1) American proposes to amend its Certificate of Organization to authorize a capitalization of 3,000,000 shares of common stock with or without par value of which a maximum amount of 2,145,269.37 shares will be issued in exchange for and in cancellation of the outstanding shares (including scrip) of American and all accrued and unpaid dividends thereon as follows:

(a) For each share of \$6 preferred stock, cumulative, no par value, carrying a claim on liquidation of \$100 per share plus dividend arrearages as at December 31, 1942 of \$25.57½ a share, the holder will receive one and one-fifth (1½) shares of common stock.

(b) For each share of \$5 preferred stock, cumulative, no par value, carrying a claim on liquidation of \$100 per share plus dividend arrearages as at December 31, 1942 of \$21.31¼ a share, the holder will receive one (1) share of common stock.

(c) For each share of common stock, no par value, the holder will receive .071307 of a share of common stock.

(2) No certificates for fractional shares will be issued but in lieu thereof non-voting and non-dividend bearing scrip certificates representing rights to such fractional shares will be issued, such certificates to be exchangeable for full shares within a limited period, when accompanied by other certificates so that all so presented aggregate one or more whole shares, and, if not exchanged within such limited period, such new scrip certificates (as well as old scrip certificates now outstanding) will be void.

(3) The present common stock reacquired and held by American totaling 5,301 shares will not be eligible for exchange into new common stock and will be cancelled.

(4) Each share of the new common stock will be entitled to one vote on all matters submitted to stockholders.

On the basis stated above 952,297.44 shares (or 44.39%) of the common stock will be outstanding in place of the present \$6 preferred stock; 978,444 shares (or 45.61%) in place of the present \$5 preferred stock; and a maximum of 214,-

527.93 (or 10%) in place of the present common stock.

The filing states that upon approval by this Commission it is proposed that the reclassification shall be submitted to such vote of American's stockholders as is required under American's by-laws and the laws of the State of Maine.

It appearing to the Commission that it is appropriate in the public interest and the interests of investors and consumers that a hearing be held with respect to said matters and that said declaration shall not become effective nor said application be granted except pursuant to further order of this Commission; and

The Commission deeming it appropriate that at the said hearing the issues with respect to the allocation of new common stock among the present preferred and common stockholders should be considered in relation to such plan for compliance with the provisions of section 11 (b) of the Act as may be hereafter proposed by the company or, by any other qualified person or the Commission itself under section 11 (d) of the Act for the purpose of effectuating the order of the Commission of August 22, 1942 directing the termination of the existence of the company and directing its dissolution;

*It is ordered*, That the proceeding with respect to the said application or declaration be, and the same hereby is, consolidated with the proceedings designated File No. 59-12 under section 11 (b) (2) of the Act and that the scope of said consolidated proceedings shall include the issues hereinafter set forth.

*It is further ordered*, That a hearing in the consolidated proceedings on such matters under the applicable provisions of said Act and Rules of the Commission thereunder be held on December 14, 1943 at 10:00 o'clock a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why such declaration and application shall become effective or shall be granted.

*It is further ordered*, That any person desiring to be heard or otherwise wishing to participate herein shall notify the Commission to that effect in the manner provided in Rule XVII of the Commission's Rules of Practice on or before December 12, 1943.

*It is further ordered*, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearings in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the Act, and to a trial examiner under the Commission's Rules of Practice.

*It is further ordered*, That without limiting the scope of the issues presented by said declaration and application otherwise to be considered in this proceeding, particular attention will be di-

rected at the hearing to the following matters and questions:

1. Whether the proposed allocation of common stock of American to its stockholders as an allocation of the entire equity in the company junior to its outstanding debt claims is fair and equitable to the persons affected thereby and particularly whether the said proposed allocation is fair and equitable as between the holders of the \$5 and \$6 preferred stocks, as between such preferred stockholders and the holders of common stock, and as between Bond and Share and the public stockholders.

2. Whether in the event that the Commission shall find the allocation provided in the said application or declaration to be fair and equitable to the persons affected thereby, or shall find that said allocation must be modified to be found to be fair and equitable to said persons, the Commission shall approve such appropriate plan for compliance with the provisions of section 11 (b), embodying the allocation found by the Commission to be fair and equitable, as may hereafter in the course of said proceeding be proposed by the company or, in accordance with the provisions of section 11 (d), proposed by any other person qualified to propose such a plan or by the Commission itself for the purpose of effectuating the order of the Commission of August 22, 1942 directing the termination of the existence of the company and directing its dissolution.

3. Whether the fees and expenses to be paid in connection with the proposed reclassification and all transactions incident thereto are for necessary services and are reasonable in amount.

4. Generally whether in any respect the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to circumvent any provisions of the Act or the rules, regulations, or orders promulgated thereunder.

5. Whether, if the transactions proposed are authorized by the Commission, it is appropriate in the public interest and in the interest of investors and consumers that any terms or conditions be imposed in connection with such authorization, and if so, what such terms and conditions should be.

*It is further ordered*, That notice of this hearing be given to American, Bond and Share and to all other persons; said notice to be given to American and Bond and Share by registered mail and to all other persons by publication in the FEDERAL REGISTER; and

*It is further ordered*, That American shall give notice of this hearing to all its stockholders, both common and preferred (in so far as the identity of such security holders is known or available to American), by mailing to each of said persons a copy of this Notice and Order for Hearing at his last-known address at least fifteen days prior to the date of this hearing.
