PART 623—CLASSIFICATION PROCEDURE

[Amdt. 197]

Pursuant to the authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are amended in the following respect:

1. Amend § 623.2 to read as follows:

§ 623.2 *Information considered for classification.* The registrant's classification shall be made solely on the basis of the Selective Service Questionnaire (Form 40), Affidavit of Dependent Over 18 Years of Age (Form 40A), Affidavit—Occupational Classification (Form 42), or Affidavit—Occupational Classification (Form 42A), and such other written information as may be contained in his file: *Provided, however,* When a registrant has failed or hereafter fails to return his Selective Service Questionnaire (Form 40) within the time allowed by § 621.2 or when he has failed or hereafter fails to provide the local board with any other information concerning his status which he is requested or required to furnish, the local board shall proceed with his classification without such information. Oral information should not be considered unless it is summarized in writing and the summary placed in the registrant's file. Under no circumstances should the local board rely upon information received by a member personally unless such information is reduced to writing and placed in the registrant's file.

2. Amend § 623.11 to read as follows:

§ 623.11 *Registrants transferred for classification.* (a) After returning the Selective Service Questionnaire (Form 40) and before the local board of origin has undertaken the classification of a registrant, he may be transferred to another local board for classification if he is so far from his local board as to make complying with notices a hardship.

(b) After returning the Selective Service Questionnaire (Form 40), a registrant may be transferred to another local board for classification, at any time, when a majority of the members of the local board cannot act on his case because of disqualification under the provisions of § 603.55 or when a majority of the members of the local board, because of any conflicting interest, bias, or other reason, withdraw from consideration of the registrant's classification.

3. Amend § 623.21 to read as follows:

§ 623.21 *Order in which classes are to be considered.* (a) Upon undertaking to classify any registrant, consideration

shall be given to the following classes in the order listed and the registrant shall be classified in the first class for which grounds are established:

Class I-C.	Class II-C.
Class IV-A.	Class II-B.
Class IV-D.	Class II-A.
Class IV-B.	Class III-D.
Class III-C.	

(b) If the registrant is not classified in one of the classes set forth in paragraph (a) of this section, consideration shall next be given to his classification in Class IV-C. If the only reason for considering the classification of a registrant in Class IV-C is that he may not be acceptable to the armed forces due to the fact that he is a citizen or subject of a certain country or because of his ancestry, his acceptability shall be determined and he shall be placed in Class IV-C only if it is determined that he "is not" acceptable to the armed forces.

(c) If the registrant is not classified in one of the classes set forth in paragraph (a) or paragraph (b) of this section, it shall be determined whether the registrant should be classified in Class IV-F (moral) because of being disqualified for service under the moral standards of the armed forces. If, under such moral standards, the registrant is disqualified for service in the armed forces and he does not meet the requirements permitting application for waiver of such moral disqualification, he shall be placed in Class IV-F. If, under such moral standards, the registrant is disqualified for service in the armed forces but he does meet the requirements permitting application for waiver of such moral disqualification, application for such waiver shall be made and the registrant placed in Class IV-F only if the armed forces decline to grant such waiver. If, under such moral standards, the registrant cannot qualify for service in the armed forces unless an order suspending civil custody is secured, the proper civil authority shall be requested to issue an order suspending such civil custody for the period of time that the registrant is in the armed forces and the registrant shall be placed in Class IV-F only if the proper civil authority declines to issue such an order.

(d) If the registrant is not classified in one of the classes set forth in paragraphs (a), (b), or (c) of this section, he shall be classified in Class I-A: *Provided*, If he claims to be a conscientious objector, the claim shall be determined; and, if he is found to be a conscientious objector to combatant military service only, he shall be classified in Class I-A-O or, if he is found to be a conscientious objector to both combatant and non-combatant military service, he shall be classified in Class IV-E.

4. Amend § 623.31 to read as follows:

§ 623.31 *Manner in which registrants are to be examined.* (a) Physical examination of registrants classified in Class I-A, Class I-A-O, or Class IV-E, except those forwarded for induction prior to February 1, 1944, will be accomplished under the provisions of Part 629.

(b) Registrants forwarded for induction or for pre-induction physical examination during the month of January, 1944, shall, whenever possible, be given a serological test and the results of such test shall be sent with the registrant when he is forwarded for induction or for pre-induction physical examination. It shall be the duty of the registrant to present himself for and submit to serological tests at the times and places designated by the local board.

5. Amend the regulations by deleting § 623.32 in its entirety.

6. Amend the regulations by deleting § 623.33 in its entirety.

7. Amend the regulations by deleting § 623.34 in its entirety.

8. Amend the regulations by deleting § 623.35 in its entirety.

9. Amend the regulations by deleting § 623.41 in its entirety.

9a. Amend the centerhead preceding § 623.51 to read as follows: "Classification after physical examination".

10. Amend § 623.51 to read as follows:

§ 623.51 *Registrant disqualified for service.* If, under the provisions of Part 629, the registrant is found to be disqualified for service, the local board shall reopen his classification and classify him in Class IV-F.

11. Amend the regulations by deleting § 623.52 in its entirety.

12. Amend the regulations by deleting § 623.53 in its entirety.

13. Amend the regulations by deleting § 623.54 in its entirety.

14. Amend paragraphs (a) and (c) of § 623.61 to read as follows:

§ 623.61 *Classification and change of classification.* (a) As soon as practicable after the local board has classified or changed the classification of a registrant, it shall mail a notice thereof on a Notice of Classification (Form 57) to the registrant. (The date on which the deferment of the registrant terminates will be shown if he is classified in Class II-A or Class II-B.) At the same time, it shall mail a Classification Advice (Form 59) to the following:

(1) Every person whose signed Affidavit—Occupational Classification (Form 42) or Affidavit—Occupational Classification (Form 42A) is on file in the registrant's Cover Sheet (Form 53);

(2) Every person whose signed Affidavit of Dependent Over 18 Years of Age (Form 40A) is on file in the registrant's Cover Sheet (Form 53); and

(3) Any other person authorized to request the reopening of the registrant's classification under the provisions of § 626.2 and whose request that the registrant's classification be reopened is on file in the registrant's Cover Sheet (Form 53).

(c) When the local board classifies or changes the classification of a registrant, it shall record such classification on the Selective Service Questionnaire (Form 40) and the Classification Record (Form 100).

14a. Amend the centerhead preceding § 623.71 to read as follows: "Determination of acceptability of certain aliens".

15. Amend paragraph (a) of § 623.71 to read as follows:

§ 623.71 *Steps to be taken by registrant and local board.* (a) The Director of Selective Service will advise local boards that certain registrants' acceptability for service in the armed forces must be determined because they are citizens or subjects of certain countries. When, under the provisions of paragraph (b) of § 623.21, the local board is considering whether such registrant should be placed in Class IV-C, an Alien's Personal History and Statement (Form 304) shall be forwarded to such registrant.

16. Amend § 623.72 to read as follows:

§ 623.72 *Steps to be taken by State Director of Selective Service before action by armed forces.* The State Director of Selective Service, when he receives from a local board an original and three copies of an Alien's Personal History and Statement (Form 304), shall (1) enter an acknowledgement thereof upon the receipt attached to the State Headquarters Alien Record (Form 306), (2) mail such receipt to the local board, (3) enter the date of receipt thereof on the State Headquarters Alien Record (Form 306), (4) transmit the original and all three copies thereof to the Commanding General of the Service Command, (5) enter the date of such transmittal upon the State Headquarters Alien Record (Form 306) and (6) file the State Headquarters Alien Record (Form 306) in an alphabetical file of pending alien cases.

17. Amend § 623.73 to read as follows:

§ 623.73 *Steps to be taken by armed forces.* The Commanding General of the Service Command will endorse on the original and all three copies of the Alien's Personal History and Statement (Form 304) that such registrant either "is, if otherwise qualified," acceptable to the armed forces or "is not" acceptable to the armed forces. If such endorsement indicates that the registrant "is, if otherwise qualified," acceptable to the armed forces, the Commanding General of the Service Command will retain one copy of the Alien's Personal History and Statement (Form 304) and forward the original and two copies to the State Director of Selective Service from whom they were originally received. If such endorsement indicates the registrant "is not" acceptable to the armed forces, the Commanding General of the Service Command will retain the original and one copy of the Alien's Personal History and Statement (Form 304) and forward two copies thereof to the State Director of Selective Service from whom they were originally received.

18. Amend paragraphs (a) and (b) of § 623.74 to read as follows:

§ 623.74 *Steps to be taken by State Director of Selective Service after action by armed forces.* (a) The State Director of Selective Service shall carefully check the Alien's Personal History and Statement (Form 304) received by him from the Commanding General of the Service Command to make certain that the endorsement thereon shows whether the registrant "is, if otherwise qualified,"

or "is not" acceptable to the armed forces.

(b) The State Director of Selective Service shall then enter upon the State Headquarters Alien Record (Form 306) the date upon which the Alien's Personal History and Statement (Form 304) was received from the Commanding General of the Service Command and shall also enter thereon whether such registrant was found to be acceptable, if otherwise qualified, or not acceptable to the armed forces.

19. Amend § 623.75 to read as follows:

§ 623.75 *Steps to be taken by local board after action by armed forces.* (a) When the local board receives from the State Director of Selective Service the original and one copy of the Alien's Personal History and Statement (Form 304) which bears the endorsement of the armed forces showing the registrant "is, if otherwise qualified," acceptable to the armed forces, or one copy of the Alien's Personal History and Statement (Form 304) which bears the endorsement of the armed forces showing the registrant "is not" acceptable to the armed forces, it shall take the following action:

(1) Change the registrant's classification to Class IV-C, if the registrant "is not" acceptable to the armed forces; or
(2) Complete the registrant's classification in the same manner as in the case of any other registrant, if the registrant "is, if otherwise qualified," acceptable to the armed forces.

(b) The local board shall also:

(1) If the registrant has been found to be acceptable, if otherwise qualified, forward the original of the Alien's Personal History and Statement (Form 304) to the examination station at the time the registrant is forwarded for pre-induction physical examination and to the induction station at the time the registrant is forwarded for induction and file the remaining copy in the registrant's Cover Sheet (Form 53);

DUTIES OF REGISTRANT UPON RECEIVING ORDER TO REPORT FOR PHYSICAL EXAMINATION

§ 629.1 *Who will be examined.* (a) Every registrant, before he is ordered to report for induction, shall be given a pre-induction physical examination under the provisions of this part unless (1) he signs a Request for Immediate Induction (Form 219) or (2) he is a delinquent.

(b) The armed forces will not accept the results of a pre-induction physical examination after 90 days. Therefore, when a registrant's induction will shortly occur and it appears that the date fixed for his induction will be more than 90 days after the date of his pre-induction physical examination, he will be given a new pre-induction physical examination before he is ordered to report for induction unless the Director of Selective Service or the State Director of Selective Service directs otherwise.

§ 629.2 *Order to report pre-induction physical examination.* (a) In accordance with instructions of the Director of Selective Service, the State Director of Selective Service will issue to each local board Call Pre-Induction Physical Examination (Form 224) specifying thereon

the number of registrants to be delivered for pre-induction physical examination and the time and place fixed for such delivery.

(b) The local board shall mail an Order to Report Pre-Induction Physical Examination (Form 215) to a sufficient number of registrants who have been classified in Class I-A or Class I-A-O under the provisions of § 623.21 to fill each Call Pre-Induction Physical Examination (Form 224) which it receives. In filling such calls, the local board, as far as practicable, shall first select volunteers, then nonfathers, and finally fathers, and within each group shall make such selections in sequence of order numbers without regard to whether the registrant has requested or will request a personal appearance before the local board and without regard to whether an appeal has been or will be taken.

(c) The local board shall also mail an Order to Report Pre-Induction Physical Examination (Form 215) to each registrant classified in Class IV-E when his order number is reached (without regard to whether he has requested or will request a personal appearance before the local board and without regard to whether an appeal has been or will be taken) in the process of ordering Class I-A and Class I-A-O registrants to report for pre-induction physical examination under the provisions of paragraph (b) of this section.

(d) The local board may also mail an Order to Report Pre-Induction Physical Examination (Form 215) to any registrant (1) who is classified in a class other than Class I-A, Class I-A-O, or Class IV-E, if it determines that his induction will shortly occur, or (2) when directed to do so by the Director of Selective Service or the State Director of Selective Service.

§ 629.3 *Preparing records for a group ordered to report for pre-induction physical examination.* (a) As soon as the local board has mailed Orders to Report Pre-Induction Physical Examination (Forms 215) to all registrants who are directed to appear for such pre-induction physical examination at a particular time and place, it shall:

(1) Prepare in quadruplicate a Physical Examination List (Form 217), entering thereon the name and order number of each such registrant and indicating in column 3 thereof whether such registrant is a nonfather or a father.

(2) Prepare the original, the first copy, and the second copy of the Report of Physical Examination and Induction (Form 221) for each such registrant, and complete section I thereof.

(3) Prepare the original and copy of Certificate of Fitness (Form 218) for each such registrant, placing thereon the local board stamp, and the registrant's name and order number.

(4) Assemble and attach to the registrant's Report of Physical Examination and Induction (Form 221) the prepared original and copy of the Certificate of Fitness (Form 218); any waiver of disqualification, order terminating civil custody, Alien's Personal History and Statement (Form 304) or Statement of United States Citizen of Japanese Ancestry (Form 304A) bearing the armed

forces endorsement of acceptability for military service; all records available bearing upon the medical, social, and educational history of such registrant; and all other information that should be considered by the armed forces in determining the fitness of the registrant for military service.

(b) Whenever a registrant referred to in paragraph (a) is transferred to another local board for pre-induction physical examination, a notation of such transfer shall be made in column 3 of the Physical Examination List (Form 217) and all of the other records of such registrant prepared under paragraph (a) shall be transmitted to the local board to which such registrant is transferred for pre-induction physical examination in the manner and at the time provided in § 629.11.

§ 629.4 *Local board physical examination authorized for registrants who request it.* (a) When a registrant believes that he has a disqualifying defect which is manifest, as listed in List of Defects (Form 220), he may present himself for examination at the office of the local board on or before the date specified in the "Important Notice to Registrants" portion of his Order to Report Pre-Induction Physical Examination (Form 215). If the registrant claims that he has a disqualifying defect which is manifest, as listed in List of Defects (Form 220), the member or clerk of the local board to whom such registrant presents himself shall, from the information received from the registrant, complete (a) and (b) of Item 18 of section II of the registrant's Report of Physical Examination and Induction (Form 221) and the registrant shall certify to the correctness of such entries in (c) and (d) of Item 18. The member or clerk of the local board shall then refer the registrant to the local board examining physician for examination and it shall be the duty of the registrant to present himself to the local board examining physician at the time and place designated by the member or clerk of the local board and to submit to such examination as the local board examining physician shall direct.

(b) When, because of a physical defect, a registrant is unable to personally present himself for examination, a reputable physician may file an affidavit, or an authorized representative of a Federal or State agency may file an official statement with the local board stating (1) the character of the defect, (2) that the physician has personal professional knowledge thereof, or that the representative has official knowledge thereof, and (3) that the registrant is unable to personally present himself for examination due to the character of the defect. The local board shall refer any affidavit or official statement which it receives under the provisions of this paragraph to the local board examining physician for review.

(c) The local board examining physician shall (1) examine each registrant who presents himself for examination pursuant to the direction of a member or clerk of the local board and (2) review each affidavit of a reputable physi-

cian or official statement of a representative of a Federal or State agency referred to him by the local board. From such examination or review, the local board examining physician shall determine whether the registrant has one of the defects listed in the List of Defects (Form 220) and will record his findings in Item 19 of the Report of Physical Examination and Induction (Form 221).

(d) When no local board examining physician is available, the local board, to the extent that it is capable of doing so, shall make the examination, review, and finding provided for in paragraph (c) of this section.

(e) If the local board determines that the registrant has a defect which disqualifies him for military service, it shall:

(1) Classify or reclassify him in Class IV-F and immediately mail him a Notice of Classification (Form 57), and

(2) Note the fact that he has been found disqualified for service and classified in Class IV-F in column 3 of the Physical Examination List (Form 217).

TRANSFER FOR PRE-INDUCTION PHYSICAL EXAMINATION

§ 629.11 *Certain registrants may request transfer.* (a) Any registrant who has received an Order to Report Pre-Induction Physical Examination (Form 215) and who is so far from his own local board that reporting to his own local board would be a hardship may be transferred for pre-induction physical examination (including local board physical examination under § 629.4 when applicable) to the local board having jurisdiction of the area in which he is at that time located.

(b) Any such registrant desiring to be so transferred shall immediately report to the local board having jurisdiction of the area in which he is at that time located; present his Order to Report Pre-Induction Physical Examination (Form 215); and complete, in quadruplicate, the request portion of Transfer Pre-Induction Physical Examination (Form 216).

(c) The local board with which such registrant files such request shall investigate the circumstances of the registrant's absence from his own local board area. If it finds that he does not have a good reason for his absence, it shall endorse its disapproval upon his request; mail the original thereof to the registrant's own local board; mail a copy to the registrant; and file the remaining copies. Such registrant will then be required to report in accordance with instructions contained in the Order to Report Pre-Induction Physical Examination (Form 215) which he received from his own local board.

(d) If the local board with which the registrant files such request finds that he has a good reason for his absence from his own local board area and that he is so far from his own local board area that it would be a hardship for him to return to his own local board area for his pre-induction physical examination, it shall endorse its approval upon his request; mail the original and one copy by airmail (unless ordinary mail is as

expeditious), to the registrant's own local board; mail a copy to the registrant; and file the remaining copy.

(e) Immediately upon receiving the approved Transfer Pre-Induction Physical Examination (Form 216), the registrant's own local board shall endorse on the original thereof the order transferring the registrant for pre-induction physical examination. It shall then mail the original of the Transfer Pre-Induction Physical Examination (Form 216) to the local board to which the registrant is being transferred for pre-induction physical examination and shall file the copy in the registrant's Cover Sheet (Form 53). It shall also mail to the local board to which the registrant is being transferred for pre-induction physical examination, the original and all copies of the Report of Physical Examination and Induction (Form 221) and all other records referred to in subparagraph 4 of paragraph (a) of § 629.3.

(f) The local board to which such registrant is transferred for pre-induction physical examination, when it receives the papers from the registrant's own local board as provided in paragraph (e) of this section, shall prepare and mail to the registrant a new Order to Report Pre-Induction Physical Examination (Form 215) and shall add the name of the registrant to its Physical Examination List (Form 217) indicating in the Remarks column that the registrant is a transfer from another local board.

(g) When the transferred registrant's examination has been completed or if he fails to report for such examination, the local board to which such registrant was transferred for pre-induction physical examination shall forward all the papers with reference to such registrant to his own local board.

§ 629.12 *Director of Selective Service may direct transfer.* (a) The Director of Selective Service may direct that a particular registrant or a registrant who comes within a described group of registrants be transferred for pre-induction physical examination to such local board or local boards as he shall designate.

(b) In each such case, the registrant's own local board shall complete Transfer Pre-Induction Physical Examination (Form 216) by writing on the face of the request "By direction of the Director of Selective Service" and by endorsing the order transferring the registrant to the designated local board in the manner directed by the Director of Selective Service. Thereafter, the procedure described in paragraphs (e), (f), and (g) of § 629.11 shall be followed.

PRE-INDUCTION PHYSICAL EXAMINATION

§ 629.21 *Duty of registrant to report for and submit to pre-induction physical examination.* When the local board mails to a registrant an Order to Report Pre-Induction Physical Examination (Form 215), it shall be the duty of the registrant to report for such examination at the time and place fixed in such order unless, after the date the Order to Report Pre-Induction Physical Examination (Form 215) is mailed and prior to

the time fixed therein for the registrant to report for his pre-induction physical examination, he has received from the local board a Notice of Classification (Form 57) advising him that he has been placed in Class IV-F. It shall also be the duty of each such registrant upon reporting for pre-induction physical examination (1) to follow the instructions of a member or clerk of the local board as to the manner in which he will be transported to the location where his pre-induction physical examination will take place, (2) to obey the instructions of the leader or assistant leaders appointed for the group being forwarded for pre-induction physical examination, (3) to appear for and submit to such examination as the commanding officer of the induction station shall direct, and (4) to follow the instructions of a member or clerk of the local board as to the manner in which he will be transported on his return trip from the place where his pre-induction physical examination takes place.

§ 629.22 *Forwarding registrants for pre-induction physical examination.* When the registrants who are to be forwarded for pre-induction physical examination have assembled, the local board shall proceed as follows:

(a) The roll shall be called, using the previously prepared Physical Examination List (Form 217) and any absences shall be recorded in the Remarks column.

(b) As each registrant's name is called he shall be observed by a member, or clerk, of the local board. If the member or clerk of the local board knows or sees a registrant who he believes may be disqualified for military service because of a manifestly disqualifying defect listed in the List of Defects (Form 220) the registrant shall not be forwarded for pre-induction physical examination on that day but shall be given a local board physical examination as provided in § 629.4 and if not disqualified shall then be forward for a pre-induction physical examination.

(c) A leader and assistant leaders shall be appointed and furnished with proper credentials.

(d) The leader shall be given the following:

(1) The original and all copies of the Physical Examination List (Form 217).

(2) For each registrant being forwarded, the original and both copies of the Report of Physical Examination and Induction (Form 221) and the original and copy of the Certificate of Fitness (Form 218) and other records referred to in subparagraph (4) of paragraph (a) of § 629.3.

(3) Transportation and meal and lodging requests for the group, both for the trip to the induction station and for the return trip.

The leader shall be instructed to deliver the original and copies of the Physical Examination List (Form 217), all Reports of Physical Examination and Induction (Form 221), all Certificates of Fitness (Form 218), and other information to the commanding officer of the induction station or his representative. He shall be instructed to return any unused portions of the transportation re-

quests or any unused meal and lodging requests to the local board.

(e) The local board shall instruct all registrants in the group that it is their duty to obey the instructions of the leader or assistant leaders during the time they are going to and returning from the induction station; that they will be met by proper representatives of the armed forces when they arrive at the induction station; that while they are at the induction station, they will be subject to and must obey the orders of the representatives of the armed forces; that they must present themselves for and submit to such examination as the commanding officer of the induction station shall direct; that they will be returned to the local board when the examination is completed.

§ 629.23 *Request for immediate induction.* (a) Any registrant may sign a Request for Immediate Induction (Form 219) before he leaves the local board for the induction station for the purpose of taking his pre-induction physical examination. If he does so, he will be forwarded to the induction station for immediate induction, and will be listed on a Delivery List (Form 151) and crossed off of any Physical Examination List (Form 217) upon which he appears.

(b) Any registrant may sign a Request for Immediate Induction (Form 219) after he arrives at the induction station for the purpose of taking his pre-induction physical examination. If he does so and he is found to be acceptable for military service, he will be immediately inducted. Each registrant inducted under the provisions of this paragraph will be listed on the Delivery List (Form 151) prepared for registrants delivered to fill the next call of the branch of service into which he was inducted and the fact that he was previously inducted, together with the date of such induction, will be noted in column 3 of such Delivery List (Form 151).

(c) When a registrant is inducted under the provisions of this section, he shall be immediately classified in Class I-C and shall be counted towards filling the next call of the branch of service into which he was inducted.

ACTION TAKEN AFTER PRE-INDUCTION.
PHYSICAL EXAMINATION

§ 629.31 *Records completed at induction station.* (a) After pre-induction physical examination, the armed forces will:

(1) Complete sections III and IV, Items 69 and 70 of section V, and, if the registrant is rejected, Item 71 of section V of the original, the first copy, and the second copy of the Report of Physical Examination and Induction (Form 221). The armed forces will stamp at the top of page 1 of the original, the first copy, and the second copy of the Report of Physical Examination and Induction (Form 221) either "Army—General Service," "Army—Limited Service," or "Navy" except when the registrant is rejected or his status is not finally determined because of incomplete records or serology which is not satisfactory.

(2) Complete the original and copy of Certificate of Fitness (Form 218) for each

registrant who is accepted or rejected. When the serology of an accepted registrant is positive, Item 8 of the Certificate of Fitness (Form 218) will also be completed.

(3) Complete Item 6 of the Certificate of Fitness (Form 218) for each registrant whose status is not determined because his serology is not satisfactory.

(4) Complete Item 7 of the Certificate of Fitness (Form 218) for each registrant whose status is not determined because of incomplete records.

(5) Complete entries in column 4 of Physical Examination List (Form 217).

(b) After completing the records in the manner provided in paragraph (a) of this section, the induction station will return all records to the local board except (1) for registrants inducted, it will retain the original of the Report of Physical Examination and Induction (Form 221), and (2) it will retain one copy of the Physical Examination List (Form 217); forward one copy of such list to the Director of Selective Service, 10th Floor, Gimbel Building, 35 S. 9th Street, Philadelphia, Pennsylvania; and forward one copy of such list to the State Director of Selective Service.

§ 629.32 *Mailing Certificate of Fitness to registrant accepted or rejected.* When a Certificate of Fitness (Form 218) indicates that a registrant has been accepted for the Army or the Navy or that a registrant has been rejected, the local board shall immediately mail the original of such certificate to the registrant.

§ 629.33 *Action when further serology requested for accepted registrant.* When it is indicated in Item 8 on a registrant's Certificate of Fitness (Form 218) that his serology is "Positive" and it is requested that the registrant be given further serological tests, the local board shall direct the registrant to submit to such further serological tests as may be necessary to determine whether his serology is "Definitely Positive" or "Definitely Negative" and it shall be the duty of the registrant to present himself for and submit to such serological tests at the time and place fixed by the local board. The results of such serological tests shall be attached to the Original of the registrant's Report of Physical Examination and Induction (Form 221) and shall be forwarded with the registrant when he is forwarded for induction.

§ 629.34 *Action when registrant's status not determined.* (a) If the induction station returns the records of a registrant without determining his status:

(1) If it is indicated in Item 6 of the Certificate of Fitness (Form 218) of such registrant that his status has not been determined because his serology is not satisfactory and it is requested that the registrant be given further serological tests, the local board shall direct the registrant to submit to such further serological tests as may be necessary to determine whether his serology is "Definitely Positive" or "Definitely Negative" and it shall be the duty of such registrant to present himself for and submit to such serological tests at the time and place fixed by the local board.

(2) If it is indicated in Item 7 of the Certificate of Fitness (Form 218) of such registrant that his status has not been determined because his records were incomplete, the local board shall secure the required records.

(b) The results of further serological tests and spinal fluid survey, if given, or the required records secured under the provisions of paragraph (a) of this section shall be mailed to the induction station together with the registrant's Report of Physical Examination and Induction (Form 221) and all other records which were transmitted to the induction station at the time the registrant was forwarded for pre-induction physical examination.

(c) The induction station will then determine the acceptability and will complete the Certificate of Fitness (Form 218) of the registrant. If the induction station is unable to determine whether such registrant is acceptable to the Army or to the Navy or should be rejected, it will request that the registrant be again forwarded to the induction station for further pre-induction examination. Upon receiving such a request from the induction station, the local board will again mail to the registrant an Order to Report Pre-Induction Physical Examination (Form 215), note his special status in the Remarks column of the Physical Examination List (Form 217), and again forward him to the induction station for completion of his pre-induction physical examination.

§ 629.35 *Action when it is found that the registrant is disqualified for service.* If, in carrying out the provisions of § 629.33 or § 629.34, it is determined, as a result of a spinal fluid survey, that a registrant has cerebrospinal syphilis or, as a result of other examinations, that a registrant has cardiovascular or visceral syphilis and, in either case, a statement to that effect is filed with the local board by a Public Health Officer, State Medical Officer, or a local board examining physician or if, for any other reason the registrant is found to be completely disqualified for service, his classification shall be reopened and he shall be placed in Class IV-F and neither he nor his records shall be forwarded for further consideration by the armed forces.

SPECIAL CASES

§ 629.41 *Director to determine.* Notwithstanding any of the provisions of this part, the Director of Selective Service under such procedures as he prescribes and based upon such information concerning the registrant's physical and mental fitness as he specifies, may direct a local board to classify a registrant in Class IV-F or as available for service. When he does so, the local board shall classify the registrant as directed.

2. The foregoing amendment to Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

PART 627—APPEAL TO BOARD OF APPEAL

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are amended in the following respect:

1. Amend § 627.13 by deleting paragraph (d) thereof in its entirety.

2. Amend the regulations by adding a new section to be known as § 627.14 to read as follows:

§ 627.14 *Time when record to be forwarded on appeal.* (a) When an appeal is taken from the classification of a registrant in Class I-A, Class I-A-O, or Class IV-E the file of the registrant shall be held by the local board and shall not be forwarded to the board of appeal or the State Director of Selective Service, as the case may be, until (1) the registrant has been ordered to report for his pre-induction physical examination in the usual manner when his order number is reached and (2) the results of the pre-induction physical examination have been received by the local board or the registrant has failed to appear for his pre-induction physical examination at the time he is ordered to do so. If as a result of the pre-induction physical examination such registrant is found to be disqualified for service his classification shall be reopened and he shall be classified in Class IV-F. In such cases the appeal will not be forwarded.

(b) When an appeal is taken from the classification of a registrant in a class other than Class I-A, Class I-A-O, or Class IV-E, the registrant's file shall be forwarded to the board of appeal or the State Director of Selective Service, as the case may be, immediately after the local board has complied with the provisions of § 627.13.

(2) Every registrant who is a cadet of the United States Military Academy, a midshipman of the United States Naval Academy, or a cadet of the United States Coast Guard Academy; or

(3) Every registrant who has been separated from the land or naval forces by death at any time; or

(4) Every registrant who has been separated from the land or naval forces by honorable discharge based on physical or mental disability; provided, the classification of such registrant may be reopened and he may be placed in a class immediately available for service under the provisions of Part 623.

2. Amend § 622.32 to read as follows:

§ 622.32 *Class III-D: Man deferred by reason of extreme hardship and privation to wife, child, or parent.* (a) In Class III-D shall be placed any registrant not otherwise deferred if (1) it is determined that his induction into the land or naval forces would result in extreme hardship and privation to a wife, child, or parent with whom he maintains a bona fide family relationship in their home regardless of the date on which such bona fide family relationship in their home was established, and (2) by reason of such determination, it is considered advisable that he be deferred.

(b) The term "child" as used in paragraph (a) of this section means a legitimate or illegitimate child from the date of its conception, a child legally adopted, a stepchild, a foster child, and a person who is supported in good faith by the registrant in a relationship similar to that of parent and child but shall not include any person 18 years of age or over unless he is physically or mentally handicapped.

3. Amend paragraph (a) of § 622.33 to read as follows:

§ 622.33 *Certain relatives defined.* (a) The term "child" as used in these regulations, except in § 622.32, means a legitimate child born prior to September 15, 1942, a stepchild, adopted child, foster child, or a person who is in the relationship of child to the registrant, who became such prior to December 8, 1941, who is less than eighteen years of age, or who by reason of mental or physical defects is incapable of self-support, who is unmarried, and with whom the registrant has maintained a bona fide family relationship in their home since December 7, 1941, or since the date of birth if such date is later than December 7, 1941.

4. Amend § 622.41 to read as follows:

§ 622.41 *Class IV-A: Man deferred by reason of age.* In Class IV-A shall be placed every registrant liable for train-

ing and service who has attained the forty-fifth anniversary of the day of his birth and (1) who has not been inducted into the land or naval forces, or (2) who after being inducted into the land or naval forces has been separated therefrom under circumstances which require his reclassification under the provisions of paragraph (c) of § 623.54: *Provided*, That if and when the Director of Selective Service advises the local board that such a registrant is acceptable to the land or naval forces, such registrant may file with his local board a written request that he be inducted in which case he shall be classified without reference to his age, and if he is not placed in a deferred classification he may be inducted.

5. Amend paragraph (a) of § 622.43 to read as follows:

§ 622.43 *Class IV-C: Registrants not acceptable for training and service because of nationality or ancestry, neutral aliens requesting relief from training and service, registrants not acceptable to the armed forces or to the Director of Selective Service, and aliens who have departed and are not residing in the United States.* (a) In Class IV-C shall be placed any registrant:

(1) Who is an alien and because of his nationality or ancestry, is within a class of persons not acceptable under any circumstances to the land or naval forces for training and service or to the Director of Selective Service for work of national importance under civilian direction. The Director of Selective Service will advise local boards which classes of registrants are not acceptable under any circumstances.

(2) Who is an alien and who is a citizen or subject of a neutral country (see § 601.2) and who, at any time prior to (i) his induction into the land or naval forces of the United States, or (ii) his assignment to work or national importance under civilian direction, files with his local board an Application for Alien for Relief from Military Service (Form 301) executed in duplicate. The local board shall forward the original of such form to the Director of Selective Service through the State Director of Selective Service and shall retain the duplicate in the registrant's Cover Sheet (Form 53).

(3) Who because he is an alien or because of his ancestry is, under procedure prescribed by the Director of Selective Service, found by the land or naval forces to be unacceptable for training and service or by the Director of Selective Service to be unacceptable for work of national importance under civilian direction.

(4) Who is an alien and has departed from and is no longer residing in the United States. Such alien shall be classified in Class IV-C even though he is a delinquent, but this classification shall in no way relieve him from liability for prosecution for violation of the selective service law. If any registrant so classified under this paragraph returns to the United States to reside therein, his classification shall be reopened and he shall be classified anew.

6. Amend § 622.62 to read as follows:

§ 622.62 *Class IV-F: Physically or mentally unfit.* In Class IV-F shall be placed any registrant who is found to be physically or mentally unfit for service, unless such a registrant is entitled to be placed in Class I-C because he has been separated from the land or naval forces based on physical or mental disability, provided that the classification of a registrant placed in Class IV-F may be reopened and he may be placed in a class immediately available for service under the provisions of Part 623.

7. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

PART 623—CLASSIFICATION PROCEDURE

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are amended in the following respect:

1. Amend the center head preceding § 623.51 to read as follows: "Classification After Physical Examination, Delivery for Induction, or Separation From Service".

1a. Amend § 623.51 to read as follows:

§ 623.51 *Registrant qualified for service.* When a registrant has been found acceptable for service under the provisions of Part 629 prior to his reclassification into Class I-A, Class I-A-O, or Class IV-E, he shall, if not continued in a deferred class, be reclassified into Class I-A, Class I-A-O, or Class IV-E when his order number is reached in the normal process of classification.

2. Add § 623.52 to read as follows:

§ 623.52 *Registrants inducted into the land or naval forces.* Upon receiving notice that a registrant has been inducted into the land or naval forces, the local board shall reopen the classification of the registrant and classify him in Class I-C.

3. Add § 623.53 to read as follows:

§ 623.53 *Registrant disqualified for service.* If, under the provisions of Parts 629 or 633, the registrant is found to be disqualified for service, the local board shall reopen his classification and classify him in Class IV-F unless he is a man who has been separated from the land or naval forces by honorable discharge based on physical or mental disability, in which case the local board shall place him in Class I-C.

4. Add § 623.54 to read as follows:

§ 623.54 *Man separated from the land or naval forces.* (a) The local board shall not change the classification of a

registrant separated from the land or naval forces by death but shall note the facts in the Classification Record (Form 100), on the Registrant's Cover Sheet (Form 53), and on his Registration Card (Form 1).

(b) When a man has been separated from the land or naval forces by honorable discharge based on physical or mental disability, the local board shall, if the man is a registrant, retain him in Class I-C, or, if the man was not a registrant at the time of his separation but thereafter registers, classify him in Class I-C.

(c) When a man has been separated from the land or naval forces for any causes other than those stated in paragraphs (a) or (b) of this section, the local board shall, if the man is a registrant, reopen his classification and classify him anew, or, if the man was not a registrant at the time of his separation but thereafter registers, classify him in the usual manner. If, in classifying a registrant under the provisions of this paragraph, it is determined that he should be placed in a class available for service, the local board shall comply with instructions issued by the Director of Selective Service pertaining to such registrants before such registrant is so classified.

5. Add § 623.55 to read as follows:

§ 623.55 *Reclassification of separated or disqualified men.* (a) The classification of a registrant who has been placed in Class IV-F or Class I-C because he has been separated from the land or naval forces or because he is disqualified for service may be reopened only after the local board has complied with the provisions of this section.

(b) If the local board, upon review of the reasons for such registrant's separation from the land or naval forces or disqualification for service, is of the opinion that he may presently be acceptable for service, it will first determine whether or not the registrant is qualified for a deferred classification. If the local board determines that the registrant is qualified for a deferred classification, it shall reopen the registrant's classification and place him in such deferred classification unless he is a man who has been separated from the land or naval forces by honorable discharge based on physical disability, in which case the local board should place or retain him in Class I-C. If the local board determines that the registrant is not qualified for a deferred classification, the local board shall, without reopening the classification of the registrant, comply with the instructions of the Director of Selective Service pertaining to such registrants including, when applicable, examination of the registrant by a member or members of a medical advisory board or under Part 629.

(c) If, after complying with the instructions of the Director of Selective Service, the local board is of the opinion that the registrant is still disqualified for service, no further consideration should be given to his case. If the local board believes that the registrant is qualified

for service, it may reopen his classification and classify him accordingly.

(d) It shall be the duty of the registrant (1) to comply with any directions given by the local board in carrying out the instructions of the Director of Selective Service, (2) to report to and be examined by a member or members of the medical advisory board or under Part 629 when directed to do so by the local board, and (3) to comply with such directions and to submit to such examination as the member or members of the Medical Advisory Board, local board examining physician or representatives of the armed forces, shall deem necessary to make a complete determination of the registrant's physical condition.

6. The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

Director.

1. Amend § 624.5 to read as follows:

§ 624.5 *Duty of volunteer.* (a) A volunteer who is placed in Class I-A or Class I-A-O will be selected for pre-induction physical examination (Part 629) and for induction (Part 632) in the same manner as other registrants except that his status as a father or non-father and his order number will be disregarded and he will be selected before all other registrants who have not volunteered.

(b) If a volunteer desires to be immediately inducted, he should, in addition to signing and filing an Application for Voluntary Induction (Form 165), sign and file a Request for Immediate Induction (Form 219) with his local board.

2. The foregoing amendment to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

(b) Men selected under the provisions of § 632.2 to fill a call of the Navy (including the Marine Corps and the Coast Guard) will be delivered to the Navy Recruiting Station.

(c) Men who sign a Request for Immediate Induction (Form 219) and delinquents ordered to report for induction under the provisions of Part 642 will be delivered to the armed forces induction station.

(d) Men who are outside the United States whose order numbers have been reached in the process of filling a call shall be ordered to report for induction and shall be inducted at such place as the Director of Selective Service shall designate.

§ 633.2 *Order to Report for Induction (Form 150).* (a) Immediately upon determining which men are to report for induction, the local board shall prepare for each man an Order to Report for Induction (Form 150) in duplicate. The date specified for reporting for induction shall be at least 10 days after the date on which the Order to Report for Induction (Form 150) is mailed. The local board shall mail the original of the Order to Report for Induction (Form 150) to the registrant and shall file the copy in his Cover Sheet (Form 53).

(b) In case of death or extreme emergency to a person in the registrant's immediate family, serious illness of registrant, or other extreme emergency beyond the registrant's control, the local

board may, after the Order to Report for Induction (Form 150) has been issued, postpone the time when such registrant shall so report for a period not to exceed 60 days from the date of such postponement, subject, however, in cases of imperative necessity, to one further postponement for a period not to exceed 60 days; and provided also that the Director of Selective Service or any State Director of Selective Service (as to registrants within his State) may, for good cause, at any time prior to the issuance of an Order to Report for Induction (Form 150), order a local board to postpone the issuance of such order until such time as he may deem advisable, or the Director of Selective Service or any State Director of Selective Service (as to registrants within his State) may, for good cause, at any time after the issuance of an Order to Report for Induction (Form 150), order a local board to postpone the induction of a registrant until such time as he may deem advisable, and no registrant shall be inducted into the land or naval forces during the period of any such postponements.

(c) The date of issuance and the date of expiration of any period of postponement authorized in paragraph (b) above shall be noted in the "Remarks" column of the Classification Record (Form 100).

(d) Any period of postponement may be terminated before the date of expiration when the issuing authority so directs.

(b) Whenever a registrant referred to in paragraph (a) is transferred to another local board for induction, a notation of such transfer and the identity of the local board to which he is transferred shall be made in column 3 of the Delivery List (Form 151). All of the records of such registrant prepared under

subparagraph (2) of paragraph (a) of this section shall be transmitted to the local board to which such registrant is transferred for induction in the manner and at the time provided in § 633.11.

TRANSFER FOR INDUCTION

§ 633.11 *Certain registrants may request transfer for induction.* (a) Any registrant who is so far from his own local board that reporting to his own local board for induction would be a hardship may be transferred for induction to the local board having jurisdiction of the area in which he is at that time located. Application for transfer may be made either at the time the registrant receives his Order to Report—Pre-Induction Physical Examination (Form 215) or at the time he receives his Order to Report for Induction (Form 150).

(b) Any such registrant desiring to be so transferred shall immediately report to the local board having jurisdiction of the area in which he is at that time located; present his Order to Report—Pre-Induction Physical Examination (Form 215) or his Order to Report for Induction (Form 150); and complete, in quadruplicate, the request portion of Request for Transfer for Delivery (Form 154).

(c) The local board with which such registrant files such request shall investigate the circumstances of the registrant's absence from his own local board area. If it finds that he does not have a good reason for his absence, it shall endorse its disapproval upon his request; mail the original thereof to the registrant's own local board; mail a copy to the registrant; and file the remaining copies. Such registrant will then be required to report in accordance with instructions contained in the Order to Report for Induction (Form 150) of his own local board.

(d) If the local board with which the registrant files such request finds that he has a good reason for his absence from his own local board area and that he is so far from his own local board area that it would be a hardship for him to return to his own local board area for induction, it shall endorse its approval upon his request; mail the original and one copy by air mail (unless ordinary mail is as expeditious), to the registrant's own local board; mail a copy to the registrant; and file the remaining copy.

(e) When the registrant's own local board receives the approved Request for Transfer for Delivery (Form 154) and it has already mailed an Order to Report for Induction (Form 150) to the registrant, it shall:

(1) Immediately endorse on the original of the Request for Transfer for Delivery (Form 154) the order transferring the registrant for induction;

(2) Mail the original of the Request for Transfer for Delivery (Form 154) to the local board to which the registrant is being transferred for induction, together with the original and all copies of the Report of Physical Examination and Induction (Form 221) and all other records referred to in subparagraph (2) of paragraph (a) of § 633.3; and

(3) File the copy of the Request for Transfer for Delivery (Form 154) in the registrant's Cover Sheet (Form 53).

(f) When the registrant's own local board receives the approved Request for Transfer for Delivery (Form 154) and it has not yet issued to the registrant an Order to Report for Induction (Form 150), it shall:

(1) Immediately endorse on the original of the Request for Transfer for Delivery (Form 154) the order transferring the registrant for induction and place such Request for Transfer for Delivery (Form 154) in the registrant's Cover Sheet (Form 53) until such time as it selects the registrant to fill a call;

(2) When it selects the registrant to fill a call, prepare an Order to Report for Induction (Form 150) for the registrant in the usual manner, but instead of mailing the original of such Order to Report for Induction (Form 150) to the registrant, attach it to the original of the Request for Transfer for Delivery (Form 154), mail such original Request for Transfer for Delivery (Form 154) with the original Order to Report for Induction (Form 150) attached thereto, together with the original and all copies of the Report of Physical Examination and Induction (Form 221) and all other records referred to in subparagraph (2) of paragraph (a) of § 633.3, to the local board to which the registrant is transferred for induction.

(3) File the copy of the Request for Transfer for Delivery (Form 154) and a copy of the Order to Report for Induction (Form 150) in the registrant's Cover Sheet (Form 53).

(g) When the local board to which such registrant is transferred for induction receives the papers from the registrant's own local board, as provided in paragraph (e) or paragraph (f) of this section, it shall proceed to deliver him for induction as soon as practicable after the date fixed for him to report for induction in the Order to Report for Induction (Form 150) issued by his own local board. If possible, the transferred registrant shall be delivered with the next call on the local board to which he has been transferred, but if there is to be no such call at an early date, it shall deliver such transferred registrant specially whenever the Army Reception Center the Navy Recruiting station, or the induction station, whichever is appropriate, is receiving men. The local board to which such registrant has been transferred for induction shall prepare its own Order to Report for Induction (Form 150) in duplicate in the same manner as though such transferred registrant were one of its own registrants, mail the original to the transferred registrant, and file the copy. The local board to which such registrant has been transferred for induction shall add the name of the registrant to its Delivery List (Form 151) and shall make a notation of such transfer and the identity of the local board from which he is transferred in column 3 of the Delivery List (Form 151).

(h) The local board to which such registrant has been transferred for induction shall not substitute the trans-

ferred registrant for one of its selected men but shall deliver the transferred registrant in addition to any deliveries it otherwise would make to fill its own call.

(i) When the transferred registrant has been inducted or rejected or if he fails to report for induction, the local board to which such registrant was transferred for induction shall forward all papers with reference to such registrant, with the exception of the Delivery List (Form 151), to his own local board.

(j) The transferred registrant, if inducted, shall not be credited to the local board to which he was transferred for delivery, but shall be credited to his own local board.

§ 633.12 *Director of Selective Service may direct transfer for induction.* (a) The Director of Selective Service may direct that a particular registrant or a registrant who comes within a described group of registrants be transferred for induction to such local board or local boards as he shall designate.

(b) In each such case, the registrant's own local board shall complete Request for Transfer for Delivery (Form 154) by writing on the face of the request "By direction of the Director of Selective Service" and by endorsing the order transferring the registrant to the designated local board in the manner directed by the Director of Selective Service. Thereafter, the procedure described in paragraphs (e) or (f) and paragraphs (g) through (j) of § 633.11 shall be followed.

INDUCTION

§ 633.21 *Duty of registrant to report for and submit to induction.* (a) When the local board mails to a registrant an Order to Report for Induction (Form 150), it shall be the duty of the registrant to report for induction at the time and place fixed in such order. If the time when the registrant is ordered to report for induction is postponed, it shall be the continuous duty of the registrant to report for induction upon the termination of such postponement and he shall report for induction at such time and place as may be fixed by the local board. Regardless of the time when or the circumstances under which a registrant fails to report for induction when it is his duty to do so, it shall thereafter be his continuous duty from day to day to report for induction to his local board and to each local board whose area he enters or in whose area he remains.

(b) Upon reporting for induction, it shall be the duty of the registrant: (1) to follow the instructions of a member or clerk of a local board as to the manner in which he shall be transported to the location where his induction will be accomplished, (2) to obey the instructions of the leader or assistant leaders appointed for the group being forwarded for induction, (3) to appear at the place where his induction will be accomplished, (4) to obey the orders of the representatives of the armed forces while at the place where his induction will be accomplished, (5) to submit to induction, and (6) if he is not accepted by the

armed forces, to follow the instructions of the representatives of the armed forces as to the manner in which he will be transported on his return trip to the local board.

§ 633.22 *Forwarding registrants for induction.* When the registrants who are to be forwarded for induction have assembled, the local board shall proceed as follows:

(A) The roll shall be called using the previously prepared Delivery List (Form 151) and noting any absences thereon in column 3 under Remarks. If any registrant fails to report for delivery, fails to report at the place of induction, is transferred to another local board for delivery, or is rejected, the local board shall not furnish a replacement for such registrant.

(2) A leader and assistant leaders shall be appointed and furnished with proper credentials. Leaders and assistant leaders shall have such authority as is necessary to deliver the group to the place of induction.

(3) The leader shall be given the following:

(A) The original and all copies of the Delivery List (Form 151).

(B) For each registrant being forwarded, the original and both copies of the Report of Physical Examination and Induction (Form 221); the copy of the Certificate of Fitness (Form 218); and other records referred to in subparagraph (2) of paragraph (a) of § 633.3.

(C) When it is necessary, transportation and meal and lodging requests for the group, covering their trip to the place of induction.

The leader shall be instructed to deliver the original and all copies of the Delivery List (Form 151), the originals and all copies of all Reports of Physical Examination and Induction (Form 221), all copies of Certificates of Fitness (Form 218), and all other information concerning the registrants in the group to the Commanding Officer of the Army Reception Center, the Navy Recruiting Station, or the induction station, as the case may be, or to his representative.

(4) The local board shall instruct all registrants in the group that it is their duty to obey the instructions of the leader or assistant leaders during the time they are going to the place of induction; that they will be met by proper representatives of the armed forces at the place of induction; that while they are at the place of induction, they will be subject to and must obey the orders of the representatives of the armed forces; that they must present themselves for and submit to induction; that if they are rejected, the representatives of the armed forces will, to the extent prescribed by the regulations of the armed forces, provide transportation and subsistence for their return trip.

§ 633.23 *Induction procedures for registrants requesting immediate induction and for delinquents.* (a) The records to be forwarded to the induction station with registrants who have signed a Request for Immediate Induction (Form 219) and the records to be forwarded to the induction station with delinquents

who have been ordered to report for induction under Part 642 shall be the same as for registrants forwarded for induction to an Army Reception Center or to a Navy Recruiting Station under §§ 633.3 and 633.22 except that such registrants will not ordinarily have been given a pre-induction physical examination.

(b) When such registrants are forwarded to the induction station, they will be given a complete physical examination and, if found to be acceptable for service in the armed forces, will be immediately inducted into the Army or the Navy (or the Marine Corps or Coast Guard). The local board will be advised as to which registrants are inducted into the Army and which registrants are inducted into the Navy (or the Marine Corps or Coast Guard) in column 4 under Disposition on the Delivery List (Form 151) forwarded by the local board to the induction station with such registrants when they are forwarded for induction and returned to the local board by the induction station after such registrants have been inducted.

§ 633.24 *Registrants inducted because of request for immediate induction, or delinquency, or outside United States to be listed on Delivery List (Form 151).* (a) When the local board receives a Delivery List (Form 151) from the induction station under the provisions of § 633.23 showing that a registrant who has signed a Request for Immediate Induction (Form 219) or showing that a delinquent who has been ordered to report for induction under Part 642 has been inducted into the Army at such induction station or when the local board receives a Delivery List (Form 151) or other information showing that a registrant has enlisted or has been inducted into the Army outside the United States, it shall (1) list such registrant on the Delivery List (Form 151) for the next group selected to report for induction at the Army Reception Center to fill a call for the Army, (2) opposite the name of each such registrant under Remarks in column 3, enter the fact that such registrant has been inducted at the induction station or has enlisted or has been inducted outside the United States, the date of such induction or enlistment, and the fact that such induction resulted from the registrant signing a Request for Immediate Induction (Form 219), from the registrant being a delinquent, or from the registrant enlisting or being inducted outside the United States, and (3) count such registrant toward filling such call for the Army.

(b) When the local board receives a Delivery List (Form 151) from the induction station under the provisions of § 633.23 showing that a registrant who has signed a Request for Immediate Induction (Form 219) or showing that a delinquent who has been ordered to report for induction under Part 642 has been inducted into the Navy (or Marine Corps or Coast Guard) at such induction station or when the local board receives a Delivery List (Form 151) or other information showing that a registrant has been enlisted or has been inducted into the Navy (or Marine Corps or Coast Guard) outside the United

States, it shall (1) list such registrant on the Delivery List (Form 151) for the next group selected to report for induction at a Navy Recruiting Station to fill a call for the Navy, (2) opposite the name of each such registrant under Remarks in column 3, enter the fact that such registrant has been inducted at the induction station or has enlisted or been inducted outside the United States, the date of such induction or enlistment, and the fact that such induction resulted from the registrant signing a Request for Immediate Induction (Form 219), from the registrant being a delinquent, or from the registrant enlisting or being inducted outside the United States, and (3) count such registrant toward filling such call for the Navy.

§ 633.25 *Induction.* At the Army Reception Center, the Navy Recruiting Station, or the induction station, as the case may be, the selected men who have been forwarded for induction and found acceptable will be inducted into the land or naval forces.

DISPOSITION OF RECORDS

§ 633.31 *Records returned to local board.* (a) The Commanding Officer of the Army Reception Center, the Navy Recruiting Station, or the induction station will return to the local board the following documents concerning registrants forwarded for induction:

(1) The original Delivery List (Form 151) indicating under column 4 the disposition of each registrant forwarded for induction.

(2) For each registrant inducted, the first copy and the second copy of Report of Physical Examination and Induction (Form 221).

(3) For registrants not inducted, the original, the first copy, and the second copy of Report of Physical Examination and Induction (Form 221).

(b) Upon receipt of the documents described in paragraph (a) above, the local board shall take the following action:

(1) File the original Delivery List (Form 151).

(2) When the registrant is placed in Class I-C or Class IV-F, transmit the first copy of the Report of Physical Examination and Induction (Form 221) for such registrant to the State Director of Selective Service for review and transmission to the Surgeon General's Office, War Department, Washington 25, D. C., using Transmission of Reports of Physical Examination and Induction (Form 205) as a covering memorandum.

(3) File the second copy of Report of Physical Examination and Induction (Form 221) in the Cover Sheet (Form 53) for each registrant inducted.

(4) File the original and the second copy of Report of Physical Examination and Induction (Form 221) in the Cover Sheet (Form 53) for each registrant rejected.

§ 633.32 *Disposition of other records by armed forces.* The Commanding Officer of the Army Reception Center, the Navy Recruiting Station, or the induction station will dispose of the documents described below as follows concerning registrants forwarded for induction:

(1) For registrants inducted, retain the original of the Report of Physical Examination and Induction (Form 221);

(2) Retain one copy of the Delivery List (Form 151);

(3) Forward one copy of the Delivery List (Form 151) to the Director of Selective Service, 10th Floor, Gimbel Building, 35 South Ninth Street, Philadelphia 7, Pennsylvania, and forward one copy of such list to the State Director of Selective Service.

RECLASSIFICATION

§ 633.41 *Classification of registrants inducted or rejected.* Upon receiving notice from the Army Reception Center, the Navy Recruiting Station, or the induction station, as the case may be, that a selected man who has been forwarded for induction has been inducted or rejected, the local board shall reopen his classification and classify him anew under Part 623.

COBELLIGERANT ALIENS

§ 633.91 *Induction and subsequent classification of cobelligerent aliens.* (a) At any time prior to his induction into the land or naval forces of the United States, a registrant who is not a citizen of the United States and who has not declared his intention to become a citizen of the United States but who is a citizen or subject of a cobelligerent nation may request and be permitted to be inducted into the armed forces of such cobelligerent nation, provided an agreement has been entered into between the United States Government and the government of such cobelligerent nation, the terms of which permit such induction and give to citizens or subjects of the United States residing in such cobelligerent nation a reciprocal right to serve in the land or naval forces of the United States.

(b) The manner in which, the time when, and the place where a request may be made by such registrant and the procedure to be followed in order for such registrant to be inducted into the armed forces of the cobelligerent nation of which he is a citizen or subject shall be prescribed by the Director of Selective Service.

(c) When such registrant files a request for induction into the armed forces of the cobelligerent nation of which he is a citizen or subject and falls to report for or to be inducted into the armed forces of such cobelligerent nation, he shall, if acceptable, be inducted into the armed forces of the United States when his order number is reached.

(d) When it has been determined that any registrant has been inducted into the armed forces of a cobelligerent nation in the manner in this section provided, his classification shall be reopened and he shall be placed in Class II-B.

2. The foregoing amendment to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register, provided the present provisions of Part 633 shall continue in effect as to all registrants who have been mailed or who are hereafter mailed an Order to Report for Induction (Form 150) when the date fixed in such order

for induction is on or before January 31, 1944.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Direction 43, as Amended Jan. 10, 1944]

ELIMINATION OF 1943 ORDERS FOR ALUMINUM

The following direction is issued pursuant to CMP Regulation 1:

(a) Notwithstanding Direction 23 to CMP Regulation No. 1 and paragraph (t) (4) of CMP Regulation No. 1, Producers of Aluminum in controlled material form, are hereby directed to remove from their production schedules by February 1, 1944, all authorized controlled material orders bearing a 1943 CMP allotment number which are not in production by January 31, 1944. This does not apply to authorized controlled material orders accepted for delivery in the months of November and December, 1943, which have not been produced or entered into production because of inability of the producer to meet his production schedules. If the customer still wants delivery of the orders removed under this direction, they may only be restored to the schedule and produced under the conditions applicable to a new authorized controlled material order placed at the time the new allotment and new certification is furnished.

(b) An order taken out of a producer's production schedule because it has a 1943 allotment number on it, should not be reported as an unfilled order to the Aluminum and Magnesium Division on any report.

§ 1071.5 Schedule III to Limitation Order L-126—(a) Definitions. For the purpose of the schedule:

(1) "Producer" means any person who produces, manufactures, processes, fabricates or assembles any coil or tube as-

semblies for refrigeration condensers or coolers.

(2) A "coil or tube assembly for condensers" means an assembly used in a refrigerating or air conditioning "system" as defined in paragraph (a) (1) of Limitation Order No. L-126 consisting of any arrangement of pipes, tubing, pressure vessels, or plates by means of which heat is removed from the vaporized refrigerant.

(3) A "coil or tube assembly for coolers" means an assembly used in a refrigerating or air conditioning "system" as defined in paragraph (a) (1) of Limitation Order No. L-126 consisting of any arrangement of pipes, tubing, pressure vessels, or plates by means of which heat is absorbed by either a volatile refrigerant or a non-volatile medium such as water.

(4) "Protective coating" means a surface coating applied to any or all parts of a "coil or tube assembly for condensers or coolers" for the purpose of retarding or preventing corrosion.

(5) "Integral fin tubing" means finned tubing, the fins and tubes of which are formed from the same piece of metal by extrusion or by any machine operation.

(6) "Metallic fin bond" means a tie between tubing and fins obtained through the use of a metallic base substance usually applied with heat. The fin surface of integral fin tubing shall be considered as having a metallic fin bond.

(7) "Mechanical fin bond" means a tie obtained between tubing and fins by physical contact and without the use of a metallic base substance.

(8) "Fin height" means the distance from the outside of a pipe or tube to the nearest outside edge of the fin.

(9) "Return bend" means a semi-circular section of tubing or pipe used to join parallel runs of tubing or pipe.

(10) "Lend-lease country" means the government of any foreign country receiving aid pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(b) Required specifications. Pursuant to Limitation Order No. L-126, the following required specifications are hereby established for coil or tube assemblies for condensers or coolers:

(1) In the manufacture of any coil or tube assembly for condensers or of any coil or tube assembly for coolers, no producer shall, except for use aboard ship,

(i) Use any non-ferrous metals, except

(a) For soldering or brazing materials, or

(b) For protective coatings, or

(c) For any coil or tube assembly for water cooled condensers as referred to in paragraph (b) (3) of this schedule, or

(d) For coolers which come in direct contact with dairy or egg products (whether or not the coolers have a protective coating).

(e) For coil or tube assemblies for coolers of the finned type only, or

(f) For coil or tube assemblies to be used in farm milk coolers of the immersion type, or

(g) For pipe or tubing to be used in water or brine coolers of the shell and tube type.

(ii) Use any seamless steel tubing, except

(a) To form integral fin tubing, or

(b) That which has been made into return bends but only if the radius thereof is less than 1½ times the outside diameter of such tubing and the straight extensions thereof are not longer than 2 times the outside diameter of such tubing; or

(iii) Use any steel tubing (other than integral fin tubing) of wall thickness greater than the following:

	Wall thickness maximum inch
(a) Up to & including 3/8"	0.028
(b) Over 3/8" up to & including 1/2"	.035
(c) Over 1/2" up to & including 3/4"	.049
(d) Over 3/4" up to & including 1"	.065

(g) Over 2" up to & including 2 1/2"	.120

Provided, That where external refrigerant working pressures exceed 400 lbs. per sq. in. gauge, a producer may use a wall thickness in excess of the foregoing but not to exceed the thickness being used by him on September 2, 1942.

(2) In the manufacture of any coil or tube assembly for air-cooled condensers no producer shall

(i) Except for use aboard ship, use finned tubing (other than integral fin tubing) having an average fin thickness to the nearest U. S. standard gauge in excess of 4% of the fin height, or a maximum of 0.023", whichever is smaller;

(ii) Except for use aboard ship, use a metallic protective coating (other than paint) where a mechanical fin bond is employed;

(iii) Use a protective coating containing more than 7% tin where a metallic fin bond is employed;

(3) In the manufacture of any coil or tube assembly for water-cooled condensers, no producer shall, except for use aboard ship

(i) Use more than 7 lbs. of non-ferrous metals per condensing unit nominal horse power for all self-contained refrigeration condensing units; Provided, however, That where, for the purpose of simplification, one condenser is designed to be used with either of two or more self-contained condensing units, not more than 9.0 lbs. of non-ferrous metals per condensing unit nominal horse power of the smaller unit may be used.

(ii) Use more non-ferrous metals per ton of refrigeration, for other than self-contained condensing unit condenser assemblies, than the following:

7 lbs. per ton of refrigeration for systems having saturated refrigerant vapor suction temperatures above 30° F.

8 lbs. per ton of refrigeration for systems having saturated refrigerant vapor suction temperatures from 0° to 30° F., inclusive.

9 lbs. per ton of refrigeration for systems having saturated refrigerant vapor suction temperatures below 0° F.

"Ton of refrigeration", as here used, means the removal of heat, at the low side, at the rate of 12,000 B. T. U. per hour; total tons to be based on the design operating load of the low side connected to the condensing unit or units with which the condenser is used.

(4) In the manufacture of any coil or tube assembly for evaporatively cooled condensers, no producer shall:

(i) Use finned tubing (other than integral fin tubing) having an average fin thickness to the nearest U. S. standard gauge in excess of 4% of the fin height, or a maximum of 0.023", whichever is smaller; or

(ii) Use a combination protective coating and metallic fin bond containing more than 7% tin.

(5) In the manufacture of any cooler coil or tube assembly for air-cooling, no producer shall:

(i) Use a metallic protective coating containing more than 7% tin, except that when the coil is used in food storage and the air passing over the coil is in direct contact with the food a hot-dipped galvanized coating or a coating containing not more than 35% tin may be used, and except also that for use aboard ship in connection with food storage the use of protective metallic coatings is not restricted by this paragraph; or

(ii) [Deleted Jan. 11, 1944]

(c) Applicability of order. (1) The required specifications established by paragraph (b) (1) to (5) inclusive, shall not prohibit:

(i) The production, fabrication, delivery, acceptance, or installation of coil or tube assemblies, the plans of which had on September 2, 1942, been drawn and accepted by or for the account of the Army or Navy of the United States, the Maritime Commission, the War Shipping Administration, or Lend-Lease countries, or

(ii) The use (in the production or fabrication of, or the delivery, acceptance, or installation of coil or tube assemblies for condensers or coolers) of any of the following materials in a producer's possession or control or in transit to a producer on September 2, 1942:

(a) Steel tubing.

(b) Coil or tube assemblies which on said date were in finished form or the parts for which had on said date been cast, machined or otherwise processed in such manner that the manufacture of such assemblies in conformance with this Schedule III would be impractical.

(iii) The use (in coil or tube assemblies for condensers or coolers) of non-ferrous metals where the assembly is to replace an existing assembly of like metal.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Limitation Order L-292, Quota Schedule III, as Amended Jan. 11, 1944]

PRODUCTION QUOTAS FOR CANNING MACHINERY AND EQUIPMENT

§ 1226.80 Production quotas for canning machinery and equipment—(a) Purpose of the schedule. The pur-

pose of this schedule is to fix production quotas for canning machinery and equipment for the year beginning October 1, 1943, and ending September 30, 1944. These quotas shall take the place of the quota provisions of paragraph (g) (2) (ii) of Order L-292 with respect to canning machinery and equipment.

(b) Definition. "Controlled material" means controlled material as defined in CMP Regulation 1.

(c) Production quotas. During the year beginning October 1, 1943, and ending September 30, 1944, no manufacturer shall use in the fabrication or assembly of canning machinery and equipment (except dehydrators), more controlled materials than 110% of the annual average gross tonnage of controlled materials used by him for this purpose during the calendar years 1939, 1940 and 1941. During the period beginning January 11, 1944, and ending September 30, 1944, each manufacturer may fabricate or assemble dehydrators only to fill rated orders actually received in accordance with Order L-292.

(d) Exceptions. The quota provisions of paragraph (c) above do not restrict the fabrication or assembly of canning machinery or equipment to fill specific orders actually received by a manufacturer for export outside the territorial limits of the United States and Canada, or for direct use by the Army, Navy, Maritime Commission or War Shipping Administration.

(e) Increase, decrease and transfer of quotas. The War Production Board may by specific written directions issued to any manufacturer or class of manufacturers, increase or decrease any quota established by this schedule and may transfer any portions of a quota between manufacturers, taking into consideration the amount of materials to be used, the need for particular items at the time required, the labor and transportation situation in the manufacturing areas involved, the inability of any manufacturer to manufacture his quota, and such other factors as may be relevant.

(f) Applicability of Limitation Order L-292. Except as otherwise indicated herein, this schedule is subject to all applicable provisions of Limitation Order L-292 as amended from time to time.

and all other hardwood species.

Scaling and grading rules. All logs are to be scaled according to the Doyle Log Rule. The diameter will be measured at the small end of the log at the smallest diameter with all fractions of an inch counted back to the next lower full inch. The diameter shall be measured inside of the bark for hardwood and cypress, and from the inside of one bark to the outside of the other bark for Pine.

All unsound and unusable wood must be eliminated from the scale by deduction in measurement. The defects for which full allowance must be made in measurement include hollows or large holes, rot, dote, windshake, large or excessive worm holes, splinter pulls and crook.

Logs shall be cut in standard even lengths unless otherwise specified by the buyer. An allowance of at least 4 inches for trim shall be made. Logs that do not meet the specified minimum allowance for trim shall be reduced in scale to the next lower standard length. The prices quoted below are for logs 10 feet and longer in length. Logs less than 10 feet in length can be purchased subject to conditions given below.

Grade specifications. Woods run grade shall consist of hardwood and cypress logs 12" and up in diameter, and pine logs 8" and up in diameter as produced from the forest that are better than culls and from which no selection of large-sized or high-quality logs has been made. If any large-sized or high-quality logs have been removed from the run of logs, the remaining logs must be sold at prices no higher than the #2 grade prices if ungraded, or at the applicable grade prices if graded. When any small sized or low quality logs have been removed from the run of logs, the remaining logs may still be sold at the woods run price.

A cull log shall be considered as one where the net board foot scale after deductions have been made for defects is less than 50 percent of the gross scale.

*Copies may be obtained from the Office of Price Administration.

Clear Grade—minimum diameter, 24". All logs 24" or over in diameter that are clear of all visible defects.

Select Grade—minimum diameter, 16". Logs 16"-23" in diameter shall be clear of all visible defects. Logs 24" and over in diameter must have at least 3 clear faces or have 75 percent of the length clear in one continuous section.

No. 1 Grade—minimum diameter, 12". Logs 12"-15" in diameter shall be clear of all visible defects. Logs 16"-23" in diameter shall have at least 3 clear faces or have 75 percent of the length clear in one continuous section.

Logs 24" and over in diameter shall have at least 2 clear faces or have 50 percent of the length clear in one continuous section.

Note: In the Clear, Select and No. 1 grades, sound sap knots 1" in diameter or less will not be considered as a defect. A center rot or dote 4" in diameter or less will be per-

mitted in logs over 24" in diameter, 3" in diameter or less in logs 16"-23" in diameter, and 2" in diameter or less in logs 12"-15" in diameter. This defect will not degrade the log, although deduction for the defect must be made in scaling.

No. 2 Grade—This grade shall include all sound logs that are better than a cull and that do not grade as a No. 1 log. The minimum diameter shall be 12" for hardwoods and cypress and 8" for pine.

Shiptimber Grade—must be of White Oak species, minimum diameter 16"; minimum length of log 22 feet. Logs must be straight, sound to the center. These logs will permit one standard sound knot or its equivalent for every five feet in length. A standard sound knot can be no larger than 4" in diameter.

A summary of grades by diameters and clearness is given below:

Scaling and grading rules: All logs are to be scaled with the Doyle Log Rule. The diameter shall be measured inside the bark at the small end of the log and at the smallest diameter with all fractions of an inch counted back to the next lower full inch.

All unsound and unusable wood must be eliminated from the scale by deduction measurement. The defects for which full allowance must be made in measurement include hollows or large holes, rot, dot, windshake, large or excessive worm holes, damage in felling by drawn splinters, rotten and wormy sap, and crooks.

Logs are to be cut in even lengths unless otherwise specified by the buyer, with a minimum length acceptable of 10 feet. All logs must be cut 4" over length to allow for trim. Logs that are not at least 4" over the specified length will be scaled as of the next lower even length. Logs that are less than 10' in length may be purchased subject to conditions given below.

Grade specifications: 1. Clear Grade—Minimum diameter 24"—All logs 24" and over in diameter that are clear of all visible defects. Sound sap knots 1" and less in diameter will not be considered as a defect in this grade. A rot or dot 4" in diameter or less, located in the center of the log will not degrade the log, but deduction for the defect must be made in scaling the log.

2. Select Grade—Minimum diameter 16". Logs 16" to 23" in diameter must be clear of all defects. Logs 24" and over in diameter must have at least 3 clear faces or 75 percent of the length clear in one continuous section. Logs 16" to 23" in diameter must have at least 3 clear faces or 75 percent of the length clear in one continuous section. Logs 24" and over in diameter must have at least 2 clear faces or have at least 50 percent of the length clear in one continuous section. Sound sap knots 1" or less in diameter will not be considered as a defect in this grade. A rot or dot in the center of the log up to 4" in diameter for logs over 24", up to 3" in diameter for logs 16" to 23", and up to 2" in diameter for logs between 12"-15" in diameter, will not degrade the log, but full deduction must be made for the defect when scaling the log.

No. 2 Grade—Minimum diameter 12", all sound logs above the specified diameter limits that are better than a cull and that do not grade as a No. 1 log.

A Cull log shall be considered as one where the net board foot scale after deductions have been made for defects, is less than 50 percent of the gross board foot scale.

Woods Run Grade shall consist of hardwood and Cypress logs 12" and up in diameter as produced from the forest that are better than culls and from which no selection of large-sized or high-quality logs has been made. If any large-sized or high-quality logs have been removed from the run of logs, the remaining logs must be sold at prices no higher than the No. 2 grade prices if ungraded, or at the applicable grade prices if graded. When any small-sized or low-quality logs have been removed from the run of logs, the remaining logs may still be sold at the woods run price.

A summary of clear face requirements of the various grades is as follows:

[MPR 504]

COTTON HOOKED RUG MATERIALS

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for cotton hooked rug materials by a specific maximum price regulation.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order 9250 and 9328. So far as practicable, the Price Administrator has advised and consulted with members of the industry which will be affected by this regulation. Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, or insofar as their use was not lawfully required by another Government agency, the Administrator has determined, with respect to such standardization, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

§ 1347.805 *Maximum prices for cotton hooked rug materials.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328, Maximum Price Regulation No. 504, Cotton Hooked Rug Materials, which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1347.805 issued under 56 Stat. 23,765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. Prohibition against dealing in cotton hooked rug materials at prices above the maximum. On and after January 15, 1944, regardless of any contract or other obligation:

(a) No person shall sell or deliver any cotton hooked rug materials at higher prices than those set forth in Appendix A of this regulation.

(b) No person shall buy or receive cotton hooked rug materials in the course of trade or business at prices higher than those set forth in Appendix A of this regulation.

(c) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

SEC. 2. Less than maximum prices. Lower prices than those established by this regulation may be charged, demanded, paid or offered.

SEC. 3. Geographical applicability. The provisions of this regulation shall be applicable to the forty-eight states and to the District of Columbia.

SEC. 4. The relation of this regulation to other regulations. The provisions of this regulation supersede the provisions of the General Maximum Price Regulation¹ and of Maximum Price Regulation No. 344.² New Cotton, Linen and Underwear Cuttings, with respect to sales and deliveries for which maximum prices are established by this regulation. Since the term "cotton hooked rug materials," as defined in section 14 (a) (2), does not include any material used for any purpose other than the making of cotton hooked rugs, Maximum Price Regulation No. 344 continues to apply to sales of any of the materials listed in Appendix A of this regulation when sold for such other purposes.

SEC. 5. Federal and state taxes. Any tax upon, or incident to, the sale, delivery, processing or use of cotton hooked rug materials imposed by any statute of the United States or statute or ordinance of any state or any subdivision thereof, shall be treated as follows in determining the seller's maximum price for such cotton hooked rug materials and in preparing the records of such seller with respect thereto:

If, at the time the seller determines his maximum price the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this regulation.

SEC. 6. Export sales. The maximum price at which a seller may export cotton hooked rug materials or may sell cotton hooked rug materials for export shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation³ issued by the Office of Price Administration.

SEC. 7. Imports. No person importing cotton hooked rug materials shall pay a total price for such materials including United States custom duties, paid directly or indirectly by him, which exceeds the maximum price applicable to a domestic sale established under this regulation.

SEC. 8. Evasion. (a) The price limitations set forth in this regulation shall not be evaded whether by direct or indirect methods, in connection with an offer, solicitation, agreement, delivery, purchase, or receipt of or relating to cotton hooked rug materials alone or in connection with any other commodity, or by way of commission, service, transportation, or other charge or discount, premium, or other privilege, or by tying agreement, or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited if used as a means of evading the price limitations imposed by this regulation: modifying, discontinuing or altering any customary trade practice of the seller, or deteriorating the quality or changing the identity of any grade.

SEC. 9. Enforcement. Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of license as provided by the Emergency Price Control Act of 1942, as amended.

SEC. 10. Licensing. The provisions of Licensing Order No. 1,⁴ licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 11. Records and reports. (a) Every person making sales or purchases of 10 tons of cotton hooked rug materials per month, or more, shall keep for inspection by the Office of Price Administration for so long as the Emergency

Price Control Act of 1942, as amended, shall remain in effect, complete and accurate records of each such sale or purchase, showing the following:

- (1) Date of purchase or sale.
- (2) Name and address of the buyer or seller.
- (3) Grade of cotton hooked rug materials purchased or sold.
- (4) Quantity of each grade purchased or sold.
- (5) Prices paid or received.
- (6) Warranties, if any, given or received.

Such records shall set forth separately the f. o. b. point of shipment price, the origin and destination of the shipment, the means of transportation used, the amount of the transportation charge, and any other amounts paid or received in connection with such sale. Such records may be in the form of the invoice or a copy thereof furnished in connection with each such sale or purchase, providing the invoice contains the information specified above.

(b) Persons required to keep records by paragraph (a) of this section shall keep such other records and shall submit such reports as the Office of Price Administration may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

SEC. 12. Petitions for amendment. Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.⁵

SEC. 13. Adjustable pricing. Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

SEC. 14. Definitions. (a) When used in this regulation, the term:

(1) "Person" means an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representatives of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

FIBER INSULATION BOARD PRODUCTS

MODIFICATION OF MAXIMUM PRICES

Amendment No. 25 to Order No. A-1 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Modification of maxi-

mum prices on sales between manufacturers of fiber insulation board products.

An opinion accompanying Amendment No. 25 to Order A-1 has been issued simultaneously herewith and filed with the Division of the Federal Register.

Order No. A-1 is amended by adding a new paragraph (a) (22) to read as follows:

(22) *Modification of maximum prices on sales between manufacturers of fiber insulation board products.* Any manufacturer of fiber insulation board products, as defined herein, may, subject to the filing provisions of subdivision (iv) below, offer to sell, sell, and deliver any such products to any other manufacturer, as defined herein, at a price agreed upon by the selling and buying manufacturers, when the price so agreed upon is in excess of the maximum price for the seller under Maximum Price Regulation No. 188, under the following conditions:

(i) Both the seller and the buyer must be "Manufacturers" as that term is defined herein;

(ii) The buying manufacturer must resell the commodity in the same form as purchased from the selling manufacturer; and

(iii) Any increase in price resulting from the agreement under this subparagraph (22) must be absorbed by the buying manufacturer and may not be reflected, directly or indirectly, in the resale price nor may such increase be used as a basis for a request for an increase in price by way of an application for adjustment or petition for amendment under Maximum Price Regulation No. 188.

(iv) Before any sale or delivery may be made upon the basis of the price arrived at pursuant to this subparagraph (22), the buying manufacturer must submit a statement to the Office of Price Administration, Building Materials Price Branch, Washington, D. C., showing:

(a) The specific fiber insulation board products involved in the sale;

(b) The names of the selling and buying manufacturers;

(c) A specific statement from the buyer that the increase in price will not be passed on in the resale of the commodity and that such increase resulting from the agreement will not be made the basis for an application for adjustment or petition for amendment under Maximum Price Regulation No. 188.

(v) As used in this subparagraph (22), the term:

"Manufacturer" means any person who produces, by manufacture, any fiber insulation board product subject to this subparagraph (22) and includes any person who purchases, rather than produces, such commodity or commodities from a producer for resale in the same form and without further processing, usually under his own name or trade brand, to the same trade classifications through which original producers usually distribute such commodities. The designation also includes commission salesmen, manufacturers' representatives, and any other manufacturers' agents.

"Fiber insulation board products" means "insulation board" and "roof in-

ulation" and shall have the meaning and shall be subject to the same specifications and standards as those set forth in "Commercial Standard CS42-43, Structural Fiber Insulating Board," issued by the Department of Commerce, July 24, 1943, and effective August 25, 1943.

Such standards and specifications as are used in this subparagraph have previously been promulgated and their use lawfully required by another Government agency.

This Amendment No. 25 shall become effective January 12, 1944.

The Uniform Termination Article for Government fixed price war supply contracts and the Statement of Principles on the Determinations,¹ adopted by the Joint Contract Termination Board and approved by the War and Post War Adjustment Unit of the Office of War Mobilization, are hereby made effective.

The Termination Article shall be used to the fullest extent practicable in all new war contracts and contractors shall

be given the earliest practical opportunity to have the Article included in existing contracts.

Situations in which it is deemed impracticable to use the Termination Article should be promptly reported to this Office for further instructions.

JAMES F. BYRNES,
Director.

JANUARY 8, 1944.

UNIFORM TERMINATION ARTICLE FOR FIXED PRICE SUPPLY CONTRACTS

ARTICLE. Termination at the option of the Government. (a) The performance of work under this contract may be terminated by the Government in accordance with this Article in whole, or from time to time in part, whenever the contracting officer shall determine any such termination is for the best interests of the Government. Termination of work hereunder shall be effected by delivery to the contractor of a Notice of Termination specifying the extent to which performance of work under the contract shall be terminated, and the date upon which such termination shall become effective. If termination of work under this contract is simultaneous with, a part of, or in connection with, a general termination (1) of all or substantially all of a group or class of contracts made by the Department for the same product or for closely related products, or (2) of war contracts at, about the time of, or following, the cessation of the present hostilities, or any major part thereof, such termination shall only be made in accordance with the provisions of this Article, unless the contracting officer finds that the contractor is then in gross or wilful default under this contract.

(b) After receipt of a Notice of Termination and except as otherwise directed by the contracting officer, the contractor shall (1) terminate work under the contract on the date and to the extent specified in the Notice of Termination; (2) place no further orders or subcontracts for materials, services or facilities except as may be necessary for completion of such portions of the work under the contract as may not be terminated; (3) terminate all orders and subcontracts to the extent that they relate to the performance of any work terminated by the Notice of Termination; (4) assign to the Government, in the manner and to the extent directed by the contracting officer, all of the right, title and interest of the contractor under the orders or subcontracts so terminated; (5) settle all claims arising out of such termination of orders and subcontracts with the approval or ratification of the contracting officer to the extent that he may require, which approval or ratification shall be final for all the purposes of this Article; (6) transfer title and deliver to the Government in the manner, to the extent and at the times directed by the contracting officer (i) the fabricated or unfabricated parts, work in process, completed work, supplies and other material produced as a part of, or acquired in respect of the performance of, the work terminated in the Notice of Termination, and (ii) the plans, drawings, information

and other property which, if the contract had been completed, would be required to be furnished to the Government; (7) use his best efforts to sell in the manner, to the extent, at the time, and at the price or prices directed or authorized by the contracting officer, any property of the types referred to in subdivision (6) of this paragraph: *Provided, however,* That the contractor (i) shall not be required to extend credit to any purchaser and (ii) may retain any such property at a price or prices approved by the contracting officer; (8) complete performance of such part of the work as shall not have been terminated by the Notice of Termination; and (9) take such action as may be necessary or as the contracting officer may direct for protection and preservation of the property, which is in the possession of the contractor and in which the Government has or may acquire an interest.

(c) The contractor and the contracting officer may agree upon the whole or any part of the amount or amounts to be paid to the contractor by reason of the total or partial termination of work pursuant to this Article, which amount or amounts may include a reasonable allowance for profit, and the Government shall pay the agreed amount or amounts. Nothing in paragraph (d) of this Article prescribing the amount to be paid to the contractor in the event of failure of the contractor and the contracting officer to agree upon the whole amount to be paid to the contractor by reason of the termination of work pursuant to this Article shall be deemed to limit, restrict or otherwise determine or affect the amount or amounts which may be agreed upon to be paid to the contractor pursuant to this paragraph (c).

(d) In the event of the failure of the contractor and contracting officer to agree as provided in paragraph (c) upon the whole amount to be paid to the contractor by reason of the termination of work pursuant to this Article, the Government, but without duplication of any amounts agreed upon in accordance with paragraph (c), shall pay to the contractor the following amounts:

(1) For completed articles delivered to and accepted by the Government (or sold or retained as provided in paragraph (b) (7) above) and not theretofore paid for, forthwith a sum equivalent to the aggregate price for such articles computed in accordance with the price or prices specified in the contract;

(2) In respect of the contract work terminated as permitted by this Article, the total (without duplication of any items) of (i) the cost of such work exclusive of any cost attributable to articles paid or to be paid for under paragraph (d) (1) hereof; (ii) the cost of settling and paying claims arising out of the termination of work under subcontracts or orders as provided in paragraph (b) (5) above, exclusive of the amounts paid or payable on account of supplies or materials delivered or services furnished by the subcontractor prior to the effective date of the notice of termination of work under this contract, which amounts shall be included in the cost on account of which payment is

made under subdivision (i) above; and (iii) a sum equal to ----- %¹ of the part of the amount determined under subdivision (i) which represents the cost of articles or materials not processed by the contractor, plus a sum equal to ----- %² of the remainder of such amount, but the aggregate of such sums shall not exceed 6% of the whole of the amount determined under subdivision (i), which for the purpose of this subdivision (iii) shall exclude any charges for interest on borrowings:

(3) The reasonable cost of the preservation and protection of property incurred pursuant to paragraph (b) (9) hereof; and any other reasonable cost incidental to termination of work under this contract, including expense incidental to the determination of the amount due to the contractor as the result of the termination of work under this contract.

The total sum to be paid to the contractor under subdivisions (1) and (2) of this paragraph (d) shall not exceed the total contract price reduced by the amount of payments otherwise made and by the Contract price or work not terminated. Except for normal spoilage, and to the extent that the Government shall have otherwise expressly assumed the risk of loss, there shall be excluded from the amounts payable to the contractor as provided in paragraph (d) (1) and paragraph (d) (2) (i), all amounts allocable to or payable in respect of property, which is destroyed, lost, stolen or damaged so as to become undeliverable prior to the transfer of title to the Government or to a buyer pursuant to paragraph (b) (7) or prior to the 60th day after delivery to the Government of an inventory covering such property, whichever shall first occur.

(e) The obligation of the Government to make any payments under this article: (1) shall be subject to deductions in respect of (i) all unliquidated partial or progress payments, payments on account theretofore made to the contractor and unliquidated advance payments, (ii) any claim which the Government may have against the contractor in connection with this contract, and (iii) the price agreed upon or the proceeds of sale of any materials, supplies or other things retained by the contractor or sold, and not otherwise recovered by or credited to the Government, and (2) in the discretion of the contracting officer shall be subject to deduction in respect of the amount of any claim of any subcontractor or supplier whose subcontract or order shall have been terminated as provided in paragraph (b) (3) except to the extent that such claim covers (i) property or materials delivered to the contractor or (ii) services furnished to the contractor in connection with the production of completed articles under this contract.

(f) In the event that, prior to the determination of the final amount to be paid to the contractor as in this article

provided, the contractor shall file with the contracting officer a request in writing that an equitable adjustment should be made in the price or prices specified in the contract for the work not terminated by the Notice of Termination, the appropriate fair and reasonable adjustment shall be made in such price or prices.

(g) The Government shall make partial payments and payments on account, from time to time, of the amounts to which the contractor shall be entitled under this Article, whether determined by agreement or otherwise, whenever in the opinion of the contracting officer the aggregate of such payments shall be within the amount to which the contractor will be entitled hereunder.

(h) For the purposes of paragraphs (d) (2) and (d) (3) hereof, the amounts of the payments to be made by the Government to the contractor shall be determined in accordance with the Statement of Principles for Determination of Costs upon Termination of Government Fixed Price Supply Contracts approved by the Joint Contract Termination Board, December 31, 1943. The contractor for a period of three years after final settlement under the contract shall make available to the Government at all reasonable times at the office of the contractor all of its books, records, documents, and other evidence bearing on the costs and expenses of the contractor under the contract and in respect of the termination of work thereunder.

STATEMENT OF PRINCIPLES FOR DETERMINATION OF COSTS UPON TERMINATION OF GOVERNMENT FIXED PRICE SUPPLY CONTRACTS

The following is the "Statement of Principles for Determination of Costs upon Termination of Government Fixed Price Supply Contracts approved by the Joint Contract Termination Board, December 31, 1943" referred to in paragraph (h) of the Uniform Termination Article applicable to the termination of fixed price supply contracts at the option of the Government.

1. *General principles.* The costs contemplated by this Statement of Principles are those sanctioned by recognized commercial accounting practices and are intended to include the direct and indirect manufacturing, selling and distribution, administrative and other costs incurred which are reasonably necessary for the performance of the contract, and are properly allocable or apportionable, under such practices, to the contract (or the part thereof under consideration). The general principles set out in this Statement are subject to the application of any special provisions of the contract. Certain costs are specifically described below because of their particular significance, and, as in the case of other costs, should be included to the extent that they are allocable to or should be apportioned to the contract or the part thereof under consideration.

(a) *Common inventory.* The costs of items of inventory which are common to the contract and to other work of the contractor.

(b) *Common claims of subcontractors.* The claims of subcontractors which are common to the contract and to other work of the contractor.

(c) *Depreciation.* An allowance for depreciation at appropriate rates on buildings, machinery and equipment and other facilities including such amounts for obsolescence due to progress in the arts and other factors as are ordinarily given consideration in determining depreciation rates. Depreciation as defined herein shall not include loss of useful value of the type covered by subparagraph (f).

(d) *Experimental and research expense.* General experimental and research expense to the extent consistent with an established pre-war program, or to the extent related to war purposes.

(e) *Engineering and development and special tooling.* Costs of engineering and development and of special tooling: *Provided,* That the contractor protects any interests of the Government by transfer of title or by other means deemed appropriate by the Government.

(f) *Loss on facilities; conditions on allowance.* In the case of any special facility acquired by the contractor solely for the performance of the contract, or the contract and other war production contracts, if upon termination of the contract such facility is not reasonably capable of use in the other business of the contractor having regard to the then condition and location of such facility, an amount which bears the same proportion to the loss of useful value as the deliveries not made under the contract bear to the total of the deliveries which have been made and would have been made had the contract and the other contracts been completed: *Provided,* That the amount to be allowed under this paragraph shall not exceed the adjusted basis of the facility for Federal income tax purposes immediately prior to the date of the termination of the contract: *And provided further,* That no amount shall be allowed under this paragraph unless upon termination of the contract title to the facility is transferred to the Government, except where the Government elects to take other appropriate means to protect its interests.

(g) *Special leases.* (1) Rentals under leases clearly shown to have been made for the performance of the contract, or the contract and other war production contracts, covering the period necessary for complete performance of the contract and such further period as may have been reasonably necessary; (2) costs of reasonable alteration of such leased property made for the same purpose; and (3) costs of restoring the premises, to the extent required by reasonable provisions of the lease; less (4) the residual value of the lease: *Provided,* That the contractor shall have made reasonable efforts to terminate, assign, or settle such leases or otherwise reduce the cost thereof.

(h) *Advertising.* Advertising expense to the extent consistent with a pre-war program or to the extent reasonable under the circumstances.

(i) *Limitation on costs described in subparagraphs (d), (e), (f), (g), and (h).*

¹ Not to exceed 2%.

² To be established at a figure which is fair and reasonable under the circumstances.

In no event shall the aggregate of the amounts allowed under subparagraphs (d), (e), (f), (g), and (h) exceed the amount which would have been available from the contract price to cover these items, if the contract had been completed, after considering all other costs which would have been required to complete it.

(j) *Interest.* Interest on borrowings.

(k) *Settlement expenses.* Reasonable accounting, legal, clerical and other expenses necessary in connection with the termination and settlement of the contract and subcontracts and purchase orders thereunder, including expenses incurred for the purpose of obtaining payment from the Government only to the extent reasonably necessary for the preparation and presentation of settlement proposals and cost evidence in connection therewith.

(l) *Protection and disposition of property.* Storage, transportation and other costs incurred for the protection of property acquired or produced for the contract or in connection with the disposition of such property.

2. *Initial costs.* Costs of a non-recurring nature which arise from unfamiliarity with the product in the initial stages of production should be appropriately apportioned between the completed and the terminated portions of the contract. In this category would be included high direct labor and overhead costs, including training, costs of excessive rejections and similar items.

3. *Excluded costs.* Without affecting the generality of the foregoing provisions in other respects, amounts representing the following should not be included as elements of cost:

(a) Losses on other contracts, or from sales or exchanges of capital assets; fees and other expenses in connection with reorganization or recapitalization, anti-trust or federal income-tax litigation, or prosecution of federal income tax claims or other claims against the Government (except as provided in paragraph 1 (k)); losses on investments; provisions for contingencies; and premiums on life insurance where the contractor is the beneficiary.

(b) The expense of conversion of the contractor's facilities to uses other than the performance of the contract.

(c) Expenses due to the negligence or wilful failure of the contractor to discontinue with reasonable promptness the incurring of expenses after the effective date of the termination notice.

(d) Costs incurred in respect to facilities, materials or services purchased or work done in excess of the reasonable quantitative requirements of the entire contract.

(e) Costs which, as evidenced by accounting statements submitted in renegotiation under Section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended, were charged off during a period covered by a previous renegotiation, may not be subsequently included in the termination settlement if a refund was made for such period, or to the extent that such charging off is shown to have avoided such refund.

4. To the extent that they conform to recognized commercial accounting practices and the foregoing Statement of Principles, the established accounting practices of the contractor as indicated by his books of account and financial reports will be given due consideration in the preparation of statements of cost for the purposes of this article.

5. The failure specifically to mention in this statement any item of cost is not intended to imply that it should be included or excluded.

Approved January 8, 1944.

CONSENT ORDER

The Semagraph Company, doing business as Charlotte Engraving Company, Charlotte, North Carolina, is engaged in the engraving business, including the manufacturing of zinc and copper plate engravings, which it uses in its work. The company is charged by the War Production Board by letter dated February 15, 1943, with having consumed copper in excess of its quota during the first, second, and third quarters of 1942, with having successive inventories of copper in December, 1941, and December, 1942, in violation of Priorities Regulation No. 1; with having an excessive inventory of zinc from December 31, 1941, to December 31, 1942, and with having failed to maintain adequate records to show the consumption of copper and zinc during the fourth quarter 1942, in violation of Priorities Regulation No. 1. The company admits the violation as to its consumption of copper, as charged, and while not admitting the other violations charged, it does not desire to contest the same, and has consented to the issuance of this order.

(b) Nothing contained in this order shall be deemed to relieve the Semagraph Company, doing business as Charlotte Engraving Company, or otherwise, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect upon issuance and shall expire on December 31, 1944.
