TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

PART 602—GENERAL ORDERS AND DIRECTIVES

[Reg. 17, Amdt. 1]

CONSUMER DECLARATION WITH RESPECT TO CERTAIN SOLID FUELS

Since the issuance of SFAW Regulation No. 17 (9 F.R. 3193), it has become necessary to except reclaimed beehive and run-of-oven beehive coke from the provisions of the regulation applicable to eastern coke; to place additional restrictions upon the use of anthracite or eastern coke for industrial purposes and to clarify other provisions of the regulation. Accordingly, SFAW Regulation No. 17 is hereby amended in the following respects:

1. Paragraphs (c), (i) and (j) (1) of § 602.301 are amended and a new paragraph (o) is added as follows:

(c) "Eastern coke" means all coke except reclaimed beehive and run-of-oven beehive coke delivered by retail dealers to consumers in the District of Columbia and the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Maryland, Virginia, and that portion of Pennsylvania which is east of a straight line drawn from the southern to the northern boundary of Pennsylvania through the western boundary of Gettysburg, in Adams County, and Lock Haven, in Clinton County.

(i) "Industrial process or the production of power" includes without limitation any manufacturing or commercial processing, the generation of electrical energy for resale or otherwise, the ordinary operations of a commercial bakery or laundry. Industrial process or the production of power does not include the ordinary operations of the following, among others: apartment houses, hotels (exclusive of functions as restaurant), schools and office buildings.

(j) (1) the number of tons of solid fuels burned at the premises of a consumer during the period April 1, 1942 to March 31, 1943, inclusive. In the event solid fuels were not burned as the principal fuel in such premises during such period, the number of tons of solid fuels which were burned in other premises similar thereto in the same locality during the same period; or

(o) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or organized group of persons.

2. Section 602.302 (c) is amended to read as follows:

(c) A retail dealer may deliver and a consumer may receive anthracite or eastern coke without the filing of the Consumer Declaration if the consumer receives, and has customarily received, anthracite or eastern coke in less than a ¼-ton lot, exclusively in bags containing one hundred pounds or less of such solid fuels.

3. Paragraphs (a), (c) and (e) of § 602.304 are amended and a new paragraph (f) is added to said section as follows:

(a) Subject to the provisions of paragraphs (d) and (e) of this section, during the period April 1, 1944 to October 1, 1944, inclusive, no retail dealer may deliver, and no consumer may receive from all sources combined, anthracite or eastern coke or both, in an amount which when added to (1) the consumer's inventory of anthracite and eastern coke as of April 1, 1944, and (2) the tonnage of anthracite and eastern coke received by the consumer after April 1, 1944, exceeds 50 per cent of the consumer's annual requirements for solid fuels. The provisions of this paragraph shall not apply to a consumer who certifies on the Consumer Declaration that his entire annual requirements of solid fuels for the premises covered by said Consumer Declaration will be consumed during the period May 1 to October 1, 1944, or to a consumer whose annual requirements amount to only one railroad car and who customarily receives anthracite or eastern coke in a railroad carlot.

(c) If a consumer uses any other solid fuel in conjunction with or in addition to anthracite or eastern coke, a retail dealer may, subject to other applicable regulations, deliver to the consumer and the consumer may receive during the period April 1, 1944 to March 31, 1945, inclusive, up to but not more than 100 percent of the consumer's annual solid fuels requirements, after deducting the consumer's inventory as of April 1, 1944; *Provided, however,* That the deliveries and receipts of anthracite or eastern coke, or both, do not exceed the limitations upon deliveries and receipts of anthracite or eastern coke, or both, as set forth in paragraphs (a) and (b) of this section; *And provided further,* That deliveries of the "Scarcer kinds of solid fuels" shall not exceed the limitations placed upon deliveries of such fuels by SFAW Regulation No. 21, as amended from time to time.

(e) In the practical application of paragraphs (a) and (b) of this section, a retail dealer may deliver to a consumer whose annual requirements are five tons or less, and such consumer may receive, one load or three tons, whichever is less, of anthracite or eastern coke, if it

is necessary to do so in order to assure maximum effective utilization of transportation facilities available to the retail dealer; *Provided, however,* That the tonnage so delivered shall not, when added to (1) the consumer's inventory of solid fuels as of April 1, 1944, and (2) the tonnage of solid fuels received by the consumer after April 1, 1944, exceed the consumer's annual requirements for solid fuels.

(f) No retail dealer may deliver and no consumer may accept the delivery of anthracite where the following two circumstances co-exist: (1) The consumer has burning equipment which reasonably permits the use of high volatile bituminous coal and (2) the consumer uses anthracite in any part of the United States except the District of Columbia, the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, New Jersey, Delaware, Maryland or Virginia.

4. A new paragraph is added to § 602.305 to read as follows:

(d) In the event that a retail dealer is unable to supply or arrange for another retail dealer to supply solid fuels pursuant to the provisions of paragraphs (b) and (c) of this section, to a consumer who has filed a Consumer Declaration with him, such retail dealer shall communicate immediately with the nearest representative or committee designated in § 602.308 of this regulation and such person or committee shall arrange with another retail dealer for the delivery of solid fuel to such consumer.

5. Section 602.306 is amended to read as follows:

§ 602.306 *General restrictions upon retail dealer deliveries of anthracite for industrial use or production of power.* During the period April 1, 1944 to March 31, 1945, inclusive, no retail dealer may deliver to any person and no person may acquire, from all sources combined, anthracite for use in an industrial process or for the production of power or for space heating which is incidental thereto in an amount which when added to the anthracite in the possession of or under the control of such person exceeds the consumption requirements of such person for such purpose for a period of 90 days from the date of such delivery.

6. Section 602.307 is amended to read as follows:

§ 602.307 *Limitations upon applicability of this regulation.* Except for the provisions of §§ 602.306, 602.309, 602.310, 602.311, 602.312, 603.314 and 602.315, this regulation does not apply to deliveries of anthracite, eastern coke or other solid fuels when used in conjunction with or in addition to anthracite or eastern coke, or to the acquisition of such solid fuels by:

(a) The United States Army, Navy, Marine Corps, Coast Guard, the Maritime Commission or the War Shipping Administration;

(b) Any governmental agency or other person that acquires such solid fuels for export to and use in any foreign country;

(c) Commercial fishing vessels or water-borne vessels engaged in the commercial transportation of cargo or passengers;

(d) Operators of poultry brooders or hatcheries;

(e) Consumers on local sales in the producing regions;

(f) Mine employees;

(g) Any person to the extent that he acquires such solid fuels for use in an industrial process or for the production of power or for space heating which is incidental thereto; or

(h) Any person to the extent that he acquires such solid fuels for use in the ordinary operations of a hospital or for the cooking or the heating of water necessary to the ordinary operation of a commercial restaurant. Anthracite, for uses specified in paragraph (h) of § 602.307, shall be supplied by the retail dealer from the available tonnage shipped to the retail dealer pursuant to SFAW Regulation No. 18.

This amendment shall become effective 12:01 a. m., June 1, 1944.

(E.O. 9332, 8 F.R. 5355; E.O. 9125, 7 F.R. 2719; WPB Directive No. 33, 9 F.R. 64; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176)

Issued this 18th day of May 1944.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-553]

REMINGTON RAND, INC.

Remington Rand, Inc., in its General Shaver Division, located at Bridgeport, Connecticut, is in the business of manufacturing electric dry shavers. In April and May, 1942, it produced electric dry shavers having an approximate factory sales value of \$286,697.49 in excess of its maximum permitted production for that period, in violation of Limitation Order L-65. In the period from June 1 through July 17, 1942, it produced electric dry shavers having an approximate factory sales value of \$286,355.72 in excess of its maximum permitted production for the period, in violation of Order L-65. After June 7, 1943, it produced a substantial number of new electric dry shavers, in violation of the order. In the period from June 17, 1943, to December 1, 1943, it produced approximately 68,000 heads for electric dry shavers other than for repair or replacement parts, in violation of the order, and from August through November, 1943, its production resulted in an inventory averaging approximately 90,000 each month in excess of the amount permitted by the order. The company was

familiar with the order, and the violations were wilful.

These violations of Order L-65 have diverted critical material to uses not authorized by the War Production Board, and have hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.553 *Suspension Order No. S-553.* (a) Remington Rand, Inc., its successors and assigns, shall not, unless hereafter specifically authorized in writing by the War Production Board, produce any heads, motors or cases (for electric dry shavers), or assemble them into new electric dry shavers or rebuilt electric dry shavers (other than in repair or exchange service for individual consumers) so long as the number of such heads (including oversized heads), motors and cases, respectively, in its inventory exceeds the number of heads, motors, and cases which it sold during the preceding four calendar months, at the expiration of which time it may produce such heads, motors or cases and assemble the same only upon application to the War Production Board and allowance of such application.

(b) Nothing contained in this order shall be deemed to relieve Remington Rand, Inc., its successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on May 18, 1944.

Issued this 16th day of May 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3175—REGULATIONS APPLICABLE TO
THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Direction 41, as Amended May
19, 1944]

ALLOTMENT PROCEDURE FOR SHIP REPAIR AND
CONVERSION

Direction 41 to CMP Regulation No. 1 is amended to read as follows:

(a) *What this direction does.* This direction explains the procedure for obtaining allotments and a preference rating for ship repair and conversion in private repair yards, dockside repair, and Army and Navy repair yards and other Naval repair establishments. This direction applies to the repair and conversion of all types of vessels and applies regardless of whether the repair is capitalized or not. The direction does not cover facilities or equipment which are a part of the yard where the repairs and conversion are made, as distinct from products and materials which will be incorporated in the ship. Manufacturers of Class B products other than those included in the Bureau of Ships Special Navy Product List are not affected by this direction.

(b) *Private repair yards.* Private repair yards will apply to the Coordinator of Ship Repair and Conversion for allotments they require for controlled materials and Class A products they will use in ship repair and

conversion of all vessels in their yard or at dockside. There are four exceptions explained in paragraph (e). Manufacturers of Class A products sold to private repair yards for ship repair and conversion will obtain allotments from the ship repair yard, except as explained in paragraph (e) below.

(c) *Dockside repair (by ship's crew or operators).* Controlled materials and A and B products required for repair of ships at dockside by ship's crew or operators will be obtained by the use of the MRO symbol and rating by the ship operator under CMP Regulation No. 5 and Direction 6 to that regulation. This does not apply to private yards doing repair or conversion at dockside as this procedure is explained in paragraph (b). Allotments required for Class A products for ship repair at dockside will be obtained by the manufacturer of the Class A product from the War Production Board by filing form CMP-4B, as explained in paragraph (k-1) of CMP Regulation No. 1.

(d) *Army and Navy repair yards.* Army and Navy repair yards and all other Naval establishments will allot for all Class A products which they require for ship repair and conversion, except for the special cases explained in paragraph (e) below.

(e) *Exceptions.* There are four exceptions to the rules stated in paragraphs (b) and (d) where a manufacturer of a Class A product will not obtain an allotment for it from a repair yard:

(1) *Bureau of Ships Special Navy Products.* In all cases where a manufacturer of a Bureau of Ships Special Navy Product is making that product for ship repair or conversion he will obtain the allotment he requires by filing form CMP-4A with the Bureau of Ships, Navy Department, Washington, D. C.

(2) *Sales through distributors.* Where a Class A product for use in ship repair or conversion is sold through a distributor, the manufacturer will obtain his allotment from the War Production Board as explained in paragraph (k-1) (1) of CMP Regulation No. 1.

(3) *Standard MRO parts.* Where a manufacturer makes a Class A product which is sold for maintenance and repair for a number of other uses than ship repair and conversion, and for which he normally filed Form CMP-4B with the War Production Board as provided by paragraph (k-1) (2) of CMP Regulation No. 1, he must include his requirements for Class A products sold for ship repair in the CMP-4B application filed with the War Production Board, instead of getting an allotment from the ship repair yard.

(4) *Repair shops.* A repairman may get materials in one of two alternate ways, but he may not use both.

(i) He may file a Form CMP-4B for an allotment for all his repair work with the War Production Board, or,

(ii) He may get allotments from repair yards under this direction for the work he does for them, get material for repair for other customers by using their allotment symbol and rating under paragraph (g-1) of CMP Regulation No. 5, and also get material under CMP Regulation No. 9A. If a repairman has already gotten an allotment by filing Form CMP-4B, and wishes to get materials by the second way, he may return his allotment to the War Production Board.

(f) *Conversion.* As used in this direction, the word conversion refers to such work only when performed in a ship repair yard. Any conversion in other private yards will be handled as new construction.

(g) *Information about Bureau of Ships' Special Products List.* Information concerning the classification of specific products as Bureau of Ships' Special Navy Products may be obtained from the Bureau of Ships (CMP), Washington, D. C.

(h) *Addresses.* Applications filed with the Navy under this direction should be addressed to the Bureau of Ships (CMP) Navy Department, Washington, D. C. or, in the case of U. S. Coast Guard contracts, to Headquarters, U. S. Coast Guard, Washington, D. C.; those filed with the Navy or Army Repair Yard should be addressed to the Navy or Army Yard involved; those filed with the War Production Board should be addressed to the War Production Board, Washington 25, D. C., or to a local Field Office of the War Production Board, if the person has been notified to do so; those filed with the Coordinator should be addressed to the Coordinator of Ship Repair and Conversion. Private repair yards in the Great Lake and North Atlantic area down to and including Savannah, Georgia, send applications to Coordinator of Ship Repair and Conversion, 11 Broadway, New York City; in the South Atlantic and Gulf area to Coordinator of Ship Repair and Conversion, Richards Building, New Orleans, Louisiana; and in the Pacific Coast area to Coordinator of Ship Repair and Conversion, 155 Sansone Street, San Francisco, California.

(i) *Return of allotments.* Any manufacturer who obtained material for the manufacture of Class A products for ship repair directly from the War Production Board or a Claimant Agency under the provisions of this direction as issued December 29, 1943, and who would now obtain material for such products from a repair yard, should treat the allotment as though it were a special allotment under Direction 22 to CMP Regulation No. 1. If he received the allotment from a Claimant Agency, return as provided by Direction 22 should be made to that Claimant Agency.

(j) *Additional allotments.* If a subcontractor or Class A product manufacturer has delivered Class A products to any repair yard since April 1, 1944 and he has not applied to the War Production Board for an allotment of material required to produce the A product or already received an allotment from the yard in lieu of applying to the War Production Board for an allotment, he may apply to the repair yard to which the product was delivered, and the repair yard will make an allotment necessary to replace the inventory which the manufacturer used to make the product.

Issued this 19th day of May 1944.

Recording Secretary.

CONSERVATION OF PAPER AND PAPERBOARD

§ 3281.64 *General Conservation Order M-241-a—(a) Definitions.* For the purpose of this order:

(1) A "converted product" means any article or type of converted paper resulting from the processing of pulp, paper, or paperboard which alters the original form or characteristics of the pulp, paper, or paperboard. The term includes all articles on any of the lists to this order, but shall not include:

(i) Paper or paperboard manufactured in the first instance by a paper or paperboard mill.

(ii) A "newspaper" as defined in General Limitation Order L-240.

- (iii) "Wall paper" as defined in General Limitation Order L-177.
- (iv) A "box" as defined in General Limitation Order L-239.
- (v) A "magazine" as defined in General Limitation Order L-244.
- (vi) A "book" as defined in General Limitation Order L-245.
- (vii) A "greeting card" as defined in General Limitation Order L-289.
- (viii) A "book match" as defined in General Limitation Order L-263.
- (ix) A "paper shipping sack" as defined in General Limitation Order L-279.
- (x) Fibre shipping containers, cans, drums, tubs, barrels, dividers, partitions and separators.
- (xi) Cups, pails and nested food containers.
- (xii) A "display" as defined in General Limitation Order L-294.
- (xiii) A "grocery", "variety" and "notion bag" as defined in General Limitation Order L-261.
- (xiv) Looseleaf binders.
- (xv) Specialty bags.
- (xvi) A "flashlight" as defined in General Limitation Order L-71.

(2) A "converter" is any person who, regardless of the identity or nature of his business, manufactures or assembles any converted product.

(b) *Computation of quotas for a portion of a calendar quarter.* Each converter whose quota provisions for a current calendar quarter are affected by this or any subsequent amendment to this order shall compute his permitted quota on a pro rata basis from the effective date of the order for the balance of the current calendar quarter.

(c) *Unrestricted consumption of pulp, paper and paperboard in the manufacture of certain converted products.* Any converter may consume any quantity of pulp, paper and paperboard in the manufacture and assembly of any converted product shown on List A of this order.

(d) *Restriction on consumption of pulp, paper and paperboard in the manufacture of certain named converted products.* (1) No converter shall consume in the manufacture or assembly of any converted product on List B, List C or List D of this order any quantity, in tons, of pulp, paper and paperboard greater than the quantity ascertained:

For the final quarter of 1943, and for each calendar quarter thereafter, by applying the entire percentage figure for each such converted product, as shown in paragraph (d) (2) of this order, to the quantity, in tons, of pulp, paper and paperboard consumed by such person in the manufacture or assembly of such product during the corresponding calendar quarter of 1942.

(2) The following percentage figures shall be used for the calculations described in the preceding paragraph (d) (1):

	Percent
(i) List B products.....	110
(ii) List C products.....	100
(iii) List D products.....	80

(3) [Deleted Oct. 5, 1943]

(e) *Restrictions on consumption of pulp, paper and paperboard in the manufacture of converted products not specifically listed.*

(1) No converter shall during the final calendar quarter of 1943 or during any calendar quarter thereafter consume in the manufacture or assembly of any converted product not named on List A, List B, List C or List D of this order, any quantity, in tons, of pulp, paper and paperboard greater than 65 percent of the tonnage consumed in the manufacture or assembly of such converted product during the corresponding calendar quarter of 1942.

(2) In the instance of any converted products not named on any of the lists of this order, the following processes and operations shall not be considered as processing:

- (i) Cutting, trimming or rewinding to a different size when such is performed as part of any established finishing room procedure and provided the paper or paperboard so processed is not intended for a use which serves to defeat the purpose of the order. (*Example:* the cutting of plain paper to a given size for use as a tray cover, the manufacture of which is curtailed by this order).
- (ii) Punching or corner cutting.
- (iii) Super-calendering.
- (iv) Laminating.
- (v) Coating, friction calendering, flint glazing, plating and embossing.
- (vi) Collating and binding.
- (vii) Printing, when such contributes to the functional value of the product to such a degree that the product would be incapable of performing the use intended if not printed. (*Examples:* advertising streamers, posters, menus, programs, timetables, sheet music, patterns, decalomania transfers, checks), or when such printing is an intermediate process in the manufacture of an article or type of converted paper.
- (viii) Printing wrappers (excluding gift wrappings) when printing is the only conversion operation other than cutting or trimming.

(ix) Embossing, corrugating, creping and crinkling for industrial and non-decorative uses.

(f) *Alternate method of calculating quotas.* As an alternate method of calculating quarterly quotas for any converted product, any person may, after the filing of a notice in writing with the War Production Board, elect to apply the percentages established by paragraphs (d) and (e) (1) of this order to one fourth of his total yearly consumption of pulp, paper and paperboard in such product during 1942. When such election has been made and the required notice in writing has been given to the War Production Board, the method of determining quotas may not thereafter be changed.

(g) *Converter's responsibility in determining coverage of this order.* It shall be the duty of each converter to determine in the first instance which of his products are included among the converted products referred to in this order. In case of doubt he may apply to the War Production Board in writing describing the product in question, for a specific ruling determining whether or not the same is so included. The War

Production Board may of its own motion in any case, by telegram or letter, issue a specific ruling determining whether or not a particular product of a particular converter is so included.

(h) *Inventory restrictions.* (1) [Deleted Apr. 8, 1944]

(2) No person shall knowingly deliver to any converter and no converter shall accept delivery of, any quantity of pulp, paper or paperboard if the inventory of pulp, paper and paperboard in the hands of the converter accepting delivery is, or will by virtue of such acceptance become, either:

- (i) In excess of two carloads, or
- (ii) If in excess of two carloads, greater than 30 days' supply, on the basis of either his average rate of consuming pulp, paper or paperboard for the preceding quarter or his average rate of consuming such pulp, paper or paperboard as projected for the then current quarter.

(i) *Allocations.* The War Production Board may from time to time direct the production and delivery of specific quantities of any converted product included in this order. Such directions will be made to insure the satisfaction of war requirements both direct and indirect and essential civilian requirements and shall take precedence over any preference rating to the extent indicated by the War Production Board.

(j) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(k) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(l) *Violations.* Any person who willfully violates any provisions of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(m) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Paper Division, Washington 25, D. C. Ref: M-241-a.

Issued this 19th day of May 1944.

LIST E [Deleted Oct. 5, 1943]

INTERPRETATION 1

WAXED PAPER CONVERSION

"Waxed and oiled paper, all types and grades other than household packages, excluding waxed paper wrappings for direct war use as provided in List A," as that caption appears in List B of General Conservation Order M-241-a, applies to all the kinds of paper so described regardless of whether produced as a result of a separate converting operation, as is commonly the case, or produced as a result of having been oiled or waxed on the paper machine. For the purpose of this order control has been placed on the end product. The method employed in consuming paper in the manufacture of the end product is not a factor of consideration in determining the applicability of the order. (Issued Feb. 15, 1944.)

INTERPRETATION 2

RETAIL UNITS

This interpretation of General Conservation Order M-241-a applies to the consumption of paper in the manufacture of retail units of wrapping and other papers as dispensed through the variety chain stores, the department stores, the stationery stores and all other retail outlets. These retail units are regarded as within the definition of a "converted product" in Order M-241-a and therefore subject to the restrictions contained in paragraphs (d) or (e) of the order.

All grades and kinds of paper, plain or printed, when converted into retail units for wrapping purposes are subject to the order, although the percentage restriction on consumption need not be separately applied to each of the grades and kinds of paper consumed during the base period. It is permitted to calculate an aggregate quota and to consume any grade or kind of paper, plain or printed, within the quota without regard to the maintenance of the same relationship of grade and kind that prevailed during the base period.

Any person who did not consume paper during the base period of the order in the conversion of such retail units of wrapping and other papers has no basis from which to calculate a quota and, therefore, cannot become a converter.

There is a distinction in the instance of printed wrapping paper as follows:

1. When printed wrapping paper is delivered by the printer in bulk form (not packaged) for further sale or further distribution the printer is the "converter" as defined in the order, and, therefore, subject to the restrictions of paragraph (e); but,

2. If the printer delivers the printed wrapping paper to a person for subsequent conversion into retail units, the final converter is the one subject to the restrictions of paragraph (e) and not the printer.

Since retail units are regarded as a separate and distinct type of "converted product," it is obvious that tonnage from other products cannot be included when calculating a quota for retail units.

Plain wrapping tissue purchased in quires, or flat, when subsequently folded and labeled or otherwise packaged, is deemed to be a retail unit and therefore restricted by paragraph (e).

Quota tonnage which has not been consumed at the end of a calendar quarter may not be carried over to the succeeding calendar quarter. (Issued Feb. 15, 1944.)

Administration

PART 1305—ADMINISTRATION

[Gen. RO 11, Amdt. 15]

REPLACEMENT OF RATIONED FOODS USED IN
PRODUCTS ACQUIRED BY DESIGNATED AGEN-
CIES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

General Ration Order 11 is amended in the following respects:

1. Section 1.2 (a) is amended to read as follows:

(a) The designated agencies are the Army, Navy, Marine Corps, or Coast Guard of the United States; Army Exchanges; Army Exchange Service; Post Exchanges of the Marine Corps; Ships' Service Activities of the Navy or Coast Guard; other activities designated by the Army, Navy, Marine Corps or Coast Guard; Office of Distribution of War Food Administration; the Training Organization, and Ships' Service Stores of the Training Organization, of the War Shipping Administration; the Immigration and Naturalization Service of the Department of Justice, with respect to its acquisitions of food for consumption at Alien Enemy Internment Camps; the American National Red Cross, with respect to its acquisitions of food for consumption by members of the armed forces of the United States outside the United States and with respect to its acquisitions of medical supplies for use by allied prisoners of war; and the United Service Organizations, Inc., with respect to its acquisitions of food for consumption by members of the armed forces of the United States outside the United States.

2. Section 2.3 (b) is amended by changing the period at the end of (2) and (3) to a semicolon, and adding (4) to read as follows:

(4) A statement that the rationed foods used in the products were not obtained and are not obtainable as a provisional allowance.

3. Section 2.4 (a) is amended by changing the period at the end of (7) to a semicolon and adding (8) to read as follows:

(8) A statement that the rationed foods used in the products by the applicant and by any other industrial user were not obtained and are not obtainable as a provisional allowance. The statement as to other industrial users shall be based on the certification received by the applicant from the user of the rationed foods.

4. Section 3.2 (b) is amended by changing the period at the end of (3) to a semicolon and adding (4) to read as follows:

(4) A statement that the rationed foods to be used by him in those products

will not be obtained and are not obtainable as a provisional allowance.

5. Section 3.3 (a) is amended by changing the period at the end of (8) to a semicolon and adding (9) to read as follows:

(9) A statement that the rationed foods to be used in those products by the applicant and by any other industrial user will not be obtained and are not obtainable as a provisional allowance.

6. Section 4.1 (a) (3) is amended by changing the comma after the word "true" to a semicolon and adding the word "and" after the semicolon.

7. Section 4.1 (a) (4) is added (to be inserted between the words "are true; and" and the words "it may in its discretion") to read as follows:

(4) That the rationed foods used in the products were not obtained and are not obtainable as a provisional allowance, or that the rationed foods to be used in the products will not be obtained and are not obtainable as a provisional allowance.

This amendment shall become effective May 22, 1944.

[RMFR 20, Amdt. 2]

COPPER SCRAP AND COPPER ALLOY SCRAP

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 20 is amended in the following respects:

1. Section 16 (c) (1) (ii) is amended as read as follows:

(ii) To the maximum base price for any grade of copper scrap, a special use premium of 1.25 cents per pound may be added: *Provided*, That the scrap has been prepared to meet the consumer's specifications and is suitable for his direct use without further preparation. However, no special use premium may

be added on the sale or delivery of any such copper scrap to a copper refiner, a brass and bronze ingot manufacturer, a ferrous or nonferrous foundry, or a brass mill.

(a) Any consumer qualified to pay the special use premium provided by this paragraph who is unable to obtain any grade of copper scrap by payment of the stated premium of 1.25 cents per pound because of unusual specification requirements may apply to the Office of Price Administration for the establishment of a price that he may pay for such material. The price so established shall be a price in line with the general level of prices established by this Revised Maximum Price Regulation No. 20, taking into account the applicant's special requirements and the additional costs to the seller involved in preparing material to meet these requirements.

Such application shall be in writing and filed with the Non-Ferrous Metals Branch of the Office of Price Administration at Washington, D. C., and shall state:

(1) The name and address of the applicant.

(2) The nature of applicant's business.

(3) The purpose for which the applicant will use the material which he desires to purchase.

(4) The name and address of the proposed seller or sellers.

(5) A detailed statement of applicant's specifications for the material.

(6) A description of the manner in which the material is to be prepared.

(7) To the extent possible, a statement by the applicant setting forth the reasons why he cannot obtain the required material by payment of the special use premium established by this regulation, and

(8) The proposed price, f. o. b. point of shipment.

When a maximum price is submitted for approval in this manner, it shall be deemed to be approved unless the Administrator specifically disapproves such price within fifteen days from the date on which receipt of the request for approval is acknowledged. The maximum price for such scrap when once approved shall be the maximum price for all subsequent purchases of such scrap by the buyer to whom such approval is given, unless such approval is specifically withdrawn.

This amendment shall become effective May 23, 1944.

BITUMINOUS COAL DELIVERED FROM MINE OR PREPARATION PLANT

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.*

In § 1340.213, new paragraph (d) is added; in §§ 1340.214; 1340.218; 1340.219, new paragraph (c) is added; § 1340.220 (b) (3) is amended and the first undesignated paragraph in § 1340.224 (b) (7) is amended; each paragraph is to read as follows:

A producer who was rendering the service of supplying a chemical or oil treatment in the period October 1-15, 1941 and was making a charge for the service may continue to make the same charge as provided in § 1340.210 (a) (10). A producer, who was not rendering the service of supplying a chemical or oil treatment in the period October 1-15, 1941 and is now prepared to do so or a producer who was performing the service but was not charging for it, may charge an amount not in excess of 10 cents per net ton for such service where: First, the purchaser of the coal requires it; Second, the producer is equipped with adequate facilities for the treatment of coal; Third, the treatment is performed in an adequate

and thorough manner; Fourth, the charge for the service is separately stated on the producer's invoice or other memorandum of sale; and Fifth, the producer has filed a report with the Solid Fuels Branch, Office of Price Administration, Washington 25, D. C., designating the service he expects to perform and describing the facilities and materials he will use in performing the services. In the event there appears to be an inadequate basis for making the charge, the Office of Price Administration may at any time deny permission to make the charge as to future transactions by notice to the producer in writing.

This amendment shall become effective May 23, 1944.

PART 1384—HARDWOOD LUMBER PRODUCTS

[MPR 176,¹ Incl. Amdts. 1-9]

SOUTHERN ROTARY CUT BOX GRADE VENEER²

This compilation of Maximum Price Regulation 176 included Amendment 9, effective May 18, 1944. The word "Illinois" is added in § 1384.8 (a) (3) (ii) and the table in § 1384.12 (a) is amended by Amendment 9.

In the judgment of the Price Administrator, the prices of southern rotary cut box grade veneer have risen in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of southern rotary cut box grade veneer prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.³

Such specifications and standards as are used in this regulation were prior to such use, in general use in the trade or industry affected.

[Above sentence added by Supplementary Order No. 61, 8 F.R. 12552, effective 9-11-43]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,⁴ issued by the Office of Price Ad-

AUTHORITY: §§ 1384.1 to 1384.13, inclusive, issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681.

§ 1384.1 *Maximum prices for southern rotary cut box grade veneer*—(a) *Application of Maximum Price Regulation No. 176.* (1) The provisions of Maximum Price Regulation No. 176 shall apply to the following sales or deliveries of southern rotary cut box grade veneer:

(i) All sales or deliveries of southern rotary cut box grade veneer, either in prime sizes or cut to box-part finished sizes, where such southern rotary cut box grade veneer is shipped from an operation which after October 1, 1941, sold any prime sizes of southern rotary cut box grade veneer.

(ii) All sales or deliveries of southern rotary cut box grade veneer, either in prime sizes or cut to box-part finished sizes, where such southern rotary cut box grade veneer is shipped from an operation which after October 1, 1941, priced and sold any portion of its southern rotary cut box grade veneer on the basis of board foot or surface foot measure.

(2) Notwithstanding subdivision (1) above, the provisions of Maximum Price Regulation No. 176 shall not apply to the following sales or deliveries of southern rotary cut box grade veneer:

(i) Sales or deliveries of southern rotary cut box grade veneer where shipment is from an operation which after October 1, 1941, did not sell any prime sizes of such southern rotary cut box grade veneer or which after October 1, 1941, did not price and sell any such southern rotary cut box grade veneer on the basis of board foot or surface foot measure.

(ii) Sales or deliveries of southern rotary cut box grade veneer which have been unitized into box parts by stitching or nailing.

(iii) Sales or deliveries of southern rotary cut box grade veneer which is included with sawed lumber in complete (full) box shock package units, each of which is ready to be assembled.

(iv) Shipments pursuant to an order of less than 5,000 board feet of southern rotary cut box grade veneer.

(v) Sales or deliveries of southern rotary cut box grade veneer to a purchaser if prior to July 6, 1942, such lumber had been received by a carrier other than a carrier owned or controlled by the seller for shipment to such purchaser.

(b) *Prohibition against sales of southern rotary cut box grade veneer at higher than maximum prices.* On and after July 11, 1942, regardless of any contract or agreement, no person shall sell or deliver any southern rotary cut box grade veneer and no person shall buy or receive in the course of business any southern rotary cut box grade veneer at prices higher than the maximum prices established in this Maximum Price Regulation No. 176; and no person subject to this Maximum Price Regulation No. 176 shall agree, offer, solicit, or attempt to do any of the foregoing.

[§ 1384.1 amended by Am. 1, 7 F.R. 7243, effective 9-17-42 and Am. 7, 9 F.R. 1727, effective 2-19-44]

§ 1384.2 *Less than maximum prices.* Lower prices than those set forth in Appendix A, § 1384.12, may be charged, demanded, paid, or offered.

§ 1384.3 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

[§ 1384.3 added by Am. 4, 8 F.R. 4720, effective 4-14-43; amended by Supplementary Order No. 50, 8 F.R. 10568, 14310, effective 7-27-43. Former § 1384.3 revoked by Am. 4]

§ 1384.4 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 176 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to southern rotary cut box grade veneer, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

[Above paragraph amended by Am. 7, 9 F.R. 1727, effective 2-19-44]

It is unlawful for any person to charge, receive or pay a commission for the serv-

ice of procuring, buying, selling or locating box grade veneer, or for any related service (such as "expediting") which does not involve actual physical handling of box grade veneer, if the commission plus the purchase price results in a total payment by the buyer of box grade veneer which is higher than the maximum price of the box grade veneer. For the purposes of this regulation a commission is any compensation, however designated, which is paid for the procurement of box grade veneer. This prohibition has no application to the case of a bona fide employer-employee relationship where the employee serves only one employer, insofar as box grade veneer procurement is concerned, and where the compensation paid by the employer is a fixed salary and is not based directly or indirectly on the quantity, price or value of the box grade veneer in connection with which the service is rendered.

[Above paragraph added by Am. 2, 8 F.R. 2993, effective 3-15-43 and amended by Am. 7]

§ 1384.5 *Records and reports.* (a) Every seller and purchaser subject to this Maximum Price Regulation No. 176 making sales or deliveries or purchases of southern rotary cut box grade veneer to the value of \$500.00 or more in any one month after July 10, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than two years a complete and accurate record of each sale or delivery or purchase of southern rotary cut box grade veneer, showing the date of purchase or sale, the name and address of the buyer and seller, the quantities and sizes of such lumber purchased or sold, and the price paid or received.

(b) Every manufacturer of southern rotary cut box grade veneer required by paragraph (a) of this section to keep records of sales shall preserve for inspection by the Office of Price Administration for a period of not less than two years all records available on July 11, 1942, of sales of southern rotary cut box grade veneer made by the manufacturer during October 1941. The records should include the thickness and length of southern rotary cut box grade veneer sold, and, in the case of southern rotary cut box grade veneer which was cut into a box-part finished size by means of a saw or comparable cutting device, the dimension specifications. In the event that a manufacturer does not have such records available on July 11, 1942, the manufacturer should notify the Office of Price Administration on or before August 1, 1942.

(c) Every person required by paragraph (a) of this section to keep records shall keep such other records in addition to or in place of the records required in paragraphs (a) and (b) of this section and shall submit such reports to the Office of Price Administration as that Office may from time to time require or permit.

[§ 1384.5 amended by Am. 7, 9 F.R. 1727, effective 2-19-44]

§ 1384.6 *Enforcement.* (a) Persons violating any provision of this Maximum

Price Regulation No. 176 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 176 or any price schedule, regulation or order issued by the Office of Price Administration or any acts or practices which constitute such a violation are urged to communicate with the nearest Field, State or Regional Office of the Office of Price Administration or its principal office in Washington, D. C.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that war procurement agencies and governments whose defense is vital to the defense of the United States shall be relieved of liability, civil or criminal, imposed by price regulations issued by the Office of Price Administration.]

§ 1384.6a *Licensing.* The provisions of Licensing Order No. 1,⁵ licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[§ 1384.6a added by Supplementary Order No. 72, 8 F.R. 13244, effective 10-1-43]

§ 1384.7 *Petitions for amendment and applications for adjustment.* (a) Any person seeking an amendment of any provision of this Maximum Price Regulation No. 176 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

(b) In treating with petitions for amendment or adjustment, consideration will not be given to log and bolt costs which are higher than the applicable maximum purchase price for logs and bolts established in Maximum Price Regulations 313 (Prime Grade Hardwood Logs)⁶ or 348 (Logs and Bolts),⁷ or any revision or amendment of these regulations. This rule shall be followed regardless of whether the petitioner gets logs and bolts by purchasing them, logging his own standing timber, contracting for the logging of his own standing timber, or any other means. All petitions in any way based on the cost of logs or bolts must show the actual cost to the petitioner of logs and bolts received at his plant during the three months immediately prior to filing the petition, and the cost which would have been incurred by the petitioner if all of these logs and bolts had been purchased by him at ceiling prices. To figure these ceiling prices the petitioner should refer to the regulation which fixes the maximum prices for purchases and sales of the kinds of logs and bolts received at his plant.

(c) *Applications for adjustment by operators under Conservation Order M-343.* Any person subject to the pro-

visions of Conservation Order M-343,* issued by War Production Board on August 19, 1943, who believes that the maximum prices in this regulation are causing or threaten to cause him to sustain a loss by complying with the requirements of that order, may file an application for adjustment of his maximum prices in accordance with Revised Procedural Regulation No. 1. In such cases the application must include the following data:

(1) Profit and loss statements covering over-all company operations for (a) the most recent accounting period of not less than six months immediately preceding August 1943 and (b) the applicable six months base quota period as described in the Conservation Order. These statements must show a detailed breakdown of all manufacturing costs, and of administrative and selling expenses.

(2) Tabulations of total production, stated in terms of board feet and dollars sales value and classified as to all items of veneer and other products manufactured by the applicant. These tabulations should cover the same periods as the profit and loss statements referred to in (1) above.

[§ 1384.7 amended by Am. 3, 8 F.R. 4720, effective 4-14-43 and Am. 6, 8 F.R. 13250, effective 10-2-43]

(d) Applications for adjustment under government contracts. See Procedural Regulation No. 6^o for adjustment provisions on certain government contracts or subcontracts.

[Paragraph (d) added by Am. 8, 9 F.R. 2032, effective 2-26-44]

§ 1384.8 Definitions. (a) When used in Maximum Price Regulation No. 176 the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized groups of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions, or any agency of the foregoing.

(2) "Cottonwood" means the botanical species included in the genera of Populus.

(3) "Southern rotary cut box grade veneer" means veneer of any species,

(i) Cut on a rotary cutting machine (lathe);

(ii) Cut at a mill located in Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Oklahoma, Arkansas, Missouri, Illinois, Tennessee, or Kentucky;

[Subparagraph (ii) amended by Am. 9, effective 5-18-44]

(iii) Conforming to the grading rules set forth in § 1384.13, Appendix B, hereof, except that cut backs and cut downs in excess of the proportion set forth in paragraph (e) (1) of § 1384.13, Appendix B, shall be considered southern rotary cut box grade veneer; and

(iv) Which either has or has not been cut into box-part finished sizes by means of a saw or comparable cutting device.

[Subparagraph (3) amended by Am. 7, 9 F.R. 1727, effective 2-19-44; and as otherwise noted]

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1384.9 Applicability of General Maximum Price Regulation. The provisions of the General Maximum Price Regulation¹⁰ shall not, on and after July 11, 1942, apply to sales and deliveries of southern rotary cut box grade veneer which are subject to this Maximum Price Regulation No. 176.

§ 1384.10 Export sales. The maximum price at which a seller may make an export sale of southern rotary cut box grade veneer shall be determined in accordance with the provisions of the Maximum Export Price Regulation¹¹ issued by the Office of Price Administration.

tary cut egg case veneer, which is cut on a saw or comparable cutting device into standard egg case finished sizes (for cases with a capacity of 30 dozen eggs), and which is shipped to a purchaser direct from the producing mill, shall be the maximum price established in this paragraph (a) of this section plus \$8.00. The maximum prices established in this paragraph shall not be applicable to rotary cut egg case veneer where shipment to the purchaser originates from a place other than the producing mill; however, the maximum price shall apply to rotary cut egg case veneer which is shipped to the purchaser direct from the producing mill regardless of whether the seller is the mill operator or another person and regardless of whether the shipment is temporarily halted in transit in order to load the carrier with additional products.

(d) The maximum f. o. b. mill price for 1,000 board feet of southern rotary cut box grade veneer, other than lumber in standard egg case finished sizes (for cases with a capacity of 30 dozen eggs), which is cut into a particular box-part finished size by means of a saw or comparable cutting device shall be the price established in paragraph (a) of this section for southern rotary cut box grade veneer in the length and thickness ordered by the purchaser, plus a differential consisting of the difference between the price charged by the producing mill during the period October 1 to 15, 1941 (1) for southern rotary cut box grade veneer in that length and thickness not cut into box-part finished sizes by means of a saw or comparable cutting device, and (2) for southern rotary cut box grade veneer of the same length and thickness cut by means of a saw or comparable cutting device into box-parts of the particular finished dimensions for which a maximum price is being computed. In case the producing mill cannot compute such a differential, the mill should determine and apply the corresponding differential recognized during October 1 to 15, 1941 by the most closely competitive seller of the same class. The maximum price established by this paragraph for southern rotary cut box grade veneer cut at a particular mill to box-part finished sizes by means of a saw or comparable cutting device shall apply to such lumber produced at that mill regardless of whether the lumber is sold by the mill operator or another person.

(e) A delivered price in excess of the maximum f. o. b. mill prices established in paragraphs (a), (b), (c) and (d) of this section may be charged, consisting of such maximum price plus actual transportation costs paid or incurred by the seller in delivering southern rotary cut box grade veneer to the purchaser; such actual transportation costs must be shown as a separate item in the invoice or billing.

[Paragraphs (c), (d) and (e) amended by Am. 7, 9 F.R. 1727, effective 2-19-44]

(f) The maximum prices established in this section shall not be increased by

any charges for the extension of credit or by any decrease in the time customarily allowed for payment, and shall be decreased for prompt payment to the same extent that the sale price would have been decreased on October 1, 1941.

§ 1384.13 *Appendix B: Grading rules for southern rotary cut box grade veneer.* (a) All stock shall be sound (corky tupelo considered unsound), free from rot, or dote. A reasonable amount of pin wormholes, sound tight knots not exceeding three inches in diameter measuring the small way, shall be no defect. A reasonable discoloration or stain shall be no defect.

[Section heading amended by Am. 7]

(b) All stock shall be machine cut to the specified thickness ordered, standard gears as furnished by the lathe manufacturer to be used.

(c) All stock shall be cut tight, and when shipped shall not contain more than 15% moisture content. Said percentage is to be arrived at by test of an equal number of sap and heart pieces. Stock shall be sufficiently flat to straighten under machines, without splitting.

(d) A trimming allowance of 1/2" in width and 1" in length, shall be allowed on all lengths 30" and over, one-half inch in length, and one-half inch in width on stock less than 30" long. Cut downs, whether sized before or after drying, shall carry 1/2" allowance in width.

(e) (1) Only those cutdowns and cutbacks that actually accumulate in working out defects in the logs and rounding the logs used in filling a particular order may be shipped against that order. Such cutdowns and cutbacks shall have the same maximum price as prime size stock in the same length and thickness as the cutdowns and cutbacks.

(2) Standard cutdowns in widths shall run in multiples of 2", the narrowest width to be 4".

(3) Standard cutbacks in lengths shall be 54"-48"-42"-36"-32" and 27".

[Paragraph (e) amended by Am. 1, 7 F.R. 7243, effective 9-17-42]

(f) Checks or splits not longer than one-fourth the length of the piece are not considered defects provided the checks or splits are reasonably straight, do not diverge more than 1" per foot, and do not run over 1/4" in width and in all widths.

(g) Specifications on all sizes, both width and length, shall not be specified in fractions of less than 1/2", except by special arrangement between the seller and the buyer.

(h) Each size is to be bundled separately and to be marked. Each bundle is to contain a uniform number of pieces. Twenty-five pieces of 1/4" or 7/32", 30 pieces of 3/16", 35 pieces of 1/8", 40 pieces of 1/4", and 50 pieces of 1/8" are to be the standard number of pieces to each bundle.

NOTE: All record keeping and reporting requirements of this regulation have been

approved by the Bureau of the Budget, in accordance with Federal Reports Act of 1942.

Issued this 18th day of May 1944.

POTATOES AND ONIONS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 271 is amended in the following respects:

1. In section 9, the text preceding the example is amended by adding the words, "and section 25."

2. In section 24, Table V is added to read as follows:

TABLE V—1944 CROP WHITE FLESH POTATOES

(The following prices apply to all varieties of U. S. No. 1 grade white potatoes of the 1944 crop, harvested and sold during the 1944 marketing season, sacked and loaded on carrier, except those actually sold before May 22, 1944, and except those shipped from the country shipping point, whether sold or unsold, before May 18, 1944. The differentials set forth in section 25 are to be used in determining maximum prices for other grades, special sizes and special packs or packages.)

PART 1404—RATIONING OF FOOTWEAR

[RO 6A, Amdt. 10]

MEN'S RUBBER BOOTS AND RUBBER WORK SHOES

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 6A is amended in the following respects:

1. Section 2.10 (c) is amended to read as follows:

(c) When certificates are exchanged, the District Office shall send to the retailer or distributor a statement recording the exchange of certificates and showing the number of pairs of rubber footwear of each type called for by the newly-issued certificates, and the number of pairs of rubber footwear of each type called for by the certificates given up. The retailer or distributor shall attach this statement to his copy of the inventory form.

2. Section 2.11 (d) is amended to read as follows:

(d) When certificates are issued to allow a retailer or distributor to add to his stock of rubber footwear, the District Office shall send to the retailer or distributor a statement recording the increase in inventory and showing the number of pairs of rubber footwear of each type called for by the certificates issued. The retailer or distributor shall attach this statement to his copy of the inventory form.

3. Section 2.13 is amended by changing the headnote to read as follows: "Rubber footwear may be used for testing or as samples", and by adding section 2.13 (c) to read as follows:

(c) An establishment may use rubber footwear as samples and for this purpose may furnish half-pairs of rubber footwear to salesmen or to other establishments without getting certificates, if the establishment furnishing the rubber footwear keeps title to it. Separate records must be kept of all rubber footwear used or transferred under this paragraph.

This amendment shall become effective May 23, 1944.

NOTE: The reporting and record keeping requirements of this amendment have been approved by the Bureau of Budget in accordance with the Federal Reports Act of 1942.

§ 7005.2 *Persons eligible to file claims.* Any person who receives crude shipped to such person from any point of origin in District Two, District Three or District Four, specified in Schedules A, B, C, or D, attached hereto, to any point of destination in District Two, specified in such schedules, and who refines such crude at a refinery operated by such person, may file a claim for extra costs covered by this regulation, *Provided:*

(a) Such shipment is made pursuant to a shipping schedule approved by the Petroleum Administration for War, or is otherwise specifically approved by the Petroleum Administration for War and the volume of crude for which a claim is made does not exceed the quantity specified in the schedule or other approval of the Petroleum Administration for War;

(b) Such shipment was not normally made by such person between the same two points shown on such schedules by the same methods of transportation during the twelve months period immediately preceding September 4, 1941; and

(c) If made under Schedule A:

(1) Such shipment is made solely by tank car directly from such point of

origin to such point of destination shown on such schedule;

(2) Such shipment is commenced from such point of origin shown on such schedule on or after December 4, 1943;

(3) The freight on such shipment is paid direct to the railroad carrier by such person; or

(d) If made under Schedule B:

(1) Such shipment is made through the Stanolind Pipe Line Company's pipe line to Cushing, Oklahoma, and is made solely by tank car directly from Cushing, Oklahoma, to point of destination shown on such schedule;

(2) Such shipment is commenced from Cushing, Oklahoma, on or after April 10, 1944;

(3) The freight on such shipment is paid direct to the railroad carrier by such person; or

(e) If made under Schedule C:

(1) Such shipment is made solely by tank car directly from such point of origin to such point of destination shown on such schedule;

(2) Such shipment is commenced from such point of origin shown on such schedule on or after April 10, 1944;

(3) The freight on such shipment is paid direct to the railroad carrier by such person; or

(f) If made under Schedule D:

(1) Except where pipe lines are used to transport crude to barge loading points in District Three, such shipment is made solely by barge from such point of origin to such point of destination shown on such schedule;

(2) Such shipment is commenced from such point of origin shown on such schedule on or after April 10, 1944;

(3) Except where crude is transported in such person's barges, the freight on such shipment is paid direct to the barge carrier by such person.

§ 7005.3 *Filing claims for compensation—(a) Place of filing.* Claims shall be filed with Price, Waterhouse & Co., 33 North LaSalle Street, Chicago 2, Illinois.

(b) *Time of filing.* No claim may be made with respect to any shipment until such shipment is received at destination. Claims with respect to shipments received at destination during any calendar month shall be accumulated until the end of such month and shall be filed on or before the last day of the second calendar month following the month in which the shipments covered by such claims are received at destination.

(c) *Form of claim.* A separate claim shall be filed for each calendar month in which shall be included all shipments received at destination during such month. All claims shall be filed in quadruplicate on forms approved by Defense Supplies Corporation and shall be accompanied by:

(1) The bill of lading covering each shipment included therein showing the applicant as the consignee of such shipment, except as otherwise provided in paragraph (c) (4);

(2) Receipted freight bill or such other evidence as may be satisfactory to Defense Supplies Corporation showing that the applicant paid to the carrier the rail-

road or barge freight on such shipment, except as otherwise provided in paragraph (c) (4);

(3) Copy of Petroleum Administration for War shipping schedule or other approval;

(4) Copy of inspection certificate issued by a qualified disinterested person acceptable to Defense Supplies Corporation showing the number of barrels loaded at point of origin, the number of barrels unloaded at the applicant's refinery, the gravity of the crude, and the identifying names and numbers of barges; in those cases where crude is transported in applicant's barges;

(5) Evidence satisfactory to Defense Supplies Corporation as to the field of origin of the crude shipped; and

(6) Supporting documents provided for in the form of claim except that information required in a claim need not be restated after such information has once been included in a previous claim filed pursuant to this regulation, provided reference is made to such previous claim.

§ 7005.4 Inspection and payment of claims. (a) If the Defense Supplies Corporation determines that a valid claim has been filed within the provisions of this regulation, then Defense Supplies Corporation will pay to the applicant the amount thereof. Defense Supplies Corporation may at any time make or cause to be made an examination or audit of any books, records and other supporting data as it may deem necessary to verify further the validity and correctness of any claim filed hereunder. If any claim which has theretofore been paid is found incorrect upon such examination or audit, then the amount of such payment shall be due and payable to Defense Supplies Corporation and shall be returned to it upon demand and without limitation of any other rights accruing to Defense Supplies Corporation. No further advances or payments shall be made to such applicant until such deficiency has been returned.

(b) Should any claim be rejected in whole or in part or should any applicant desire an interpretation of this regulation, the applicant may request Defense Supplies Corporation to reconsider its action or issue an interpretation. If the request is in connection with a rejected claim, it must be filed within thirty (30) days after such claim is rejected. Such request shall be addressed to Defense Supplies Corporation, 811 Vermont Avenue NW., Washington 25, D. C., and shall state clearly and concisely the questions involved and the applicant's views thereon. Upon the announcement of any decision or interpretation issued hereunder any applicant may within thirty (30) days apply to Defense Supplies Corporation for the right to modify or revise any claims theretofore filed which are affected by such decision or interpretation and which accrued within the period of ninety (90) days immediately preceding the first of the month following date when the decision or interpretation was announced. If Defense Supplies Corporation finds justification for reopening the claim it shall so notify the applicant and the latter may there-

upon submit a new claim which shall be processed in the same manner as though submitted within the required time.

§ 7005.5 Amount of compensatory adjustments. The claim with respect to any shipment shall be in the amount per barrel specified in the schedules attached hereto, subject, however, to changes in rates or adjustments as provided therein. The number of barrels upon which freight is paid or actually transported to destination, if no freight is paid, shall be the quantity with respect to which claim may be made on any shipment.

§ 7005.6 Effective date. This Regulation No. 5, as amended, shall become effective as of December 4, 1943.

This Regulation No. 5, as amended, may be further amended, revised or revoked at any time by Defense Supplies Corporation.

Issued this 20th day of April 1944.

[SEAL] DEFENSE SUPPLIES CORPORATION,
By GEORGE H. HILL, Jr.,
Executive Vice President.

The above barge rates have been computed on an API 20° gravity basis. The following conversion factors are to be used in arriving at the barge rate per barrel of the gravity of crude transported. The barge rate shown on the schedule, multiplied by the applicable conversion factor for the gravity of the crude shipped, will give the barge rate for that gravity crude; the difference between this rate and the barge rate shown on the schedule should be deducted from the compensation shown on the schedule and the resulting figure will be the amount of compensation to be paid.

The barge rates shown on this schedule have been computed from the following basing points: Corpus Christi, Houston and Port Arthur, Texas, and Lake Charles, New Orleans and Baton Rouge, Louisiana. Where more than one basing point is designated for a crude producing area, applicant shall use the basing point nearest point of origin of the shipment for the purpose of comput-

ing his claim, except in those cases where crude is moved through a more distant basing point because of limited terminal facilities. If the mileage from the actual loading point on the Gulf Intra-Coastal Canal or lower Mississippi River to destination is less than the mileage from the basing point to destination, applicant shall reduce the barge rate by such difference in mileage. If the shipment is not loaded on Gulf Intra-Coastal Canal or at lower Mississippi River points, mileage shall be computed from the point shipment reaches the Canal or River. All mileage deductions for shipments originating on the Gulf Intra-Coastal Canal shall be computed at 4.25 mills per ton mile. All mileage deductions for shipments originating on the Mississippi River shall be computed at 3.75 mills per ton mile.

NOTE: The rates contained in this schedule are based upon barge tariff rates between the points listed which were in effect on April 10, 1944. In the event of any change in such tariff rates, Defense Supplies Corporation reserves the right to make corresponding adjustment in the rates listed above, effective from the date of the tariff change.

READY-MIXED CONCRETE, CONCRETE PRODUCTS AND PRECAST STONE PRODUCTS

MODIFICATION OF MAXIMUM PRICES

Amendment No. 36 to Order No. A-1 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Modification of maximum prices for ready-mixed concrete, concrete products and precast stone products.

An opinion accompanying Amendment No. 36 to Order No. A-1 has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Order No. A-1 is amended by adding a new paragraph (a) (29) to read as follows:

(29) *Modification of maximum prices for ready-mixed concrete, concrete products, and precast stone products.* On and after May 19, 1944, any manufacturer producing a type or kind of ready-mixed concrete, a size or variety of concrete product, or a precast stone product, which was not sold or offered for sale during March 1942, and for which a maximum price has not been established, shall determine his maximum price for such product or products in accordance with the first applicable method set forth below rather than §§ 1499.155 to 1499.158, inclusive, of Maximum Price Regulation No. 188.

(i) *Manufacturer operating a plant producing ready-mixed concrete, concrete products, or precast stone products during the month of March 1942, or prior thereto.* The maximum price for ready-mixed concrete, concrete products, and precast stone products sold by a manufacturer operating a plant producing such products during the month of March 1942, or prior thereto, but not selling or offering the particular type or kind of product for sale during that month, whether the sale is to be made f. o. b. the manufacturer's plant or delivered to a destination designated by the purchaser, shall be such that the cost to the purchaser, at the destination designated, is not in excess of what it would have been to such purchaser under normal conditions of sale during the month of March 1942. Such price shall be calculated upon the basis of the price, pricing practices, freight rates, transportation practices, trade practices, terms of sale and allowances, and customary differentials most favorable to purchasers, in effect, published, listed, or quoted by the seller during the month of March 1942.

(ii) *Maximum prices for sales by a manufacturer producing new ready-mixed concrete, concrete products, or precast stone products for the first time, or when such products are sold by a new manufacturer—(a) At a permanent plant.* The maximum price for a manu-

facturer's sales out of a permanent plant, whether as a new manufacturer or an established manufacturer producing any particular type of ready-mixed concrete, or new concrete products or new precast stone products for the first time, shall not exceed:

The maximum price of his closest competitor based on the following factors:

- (1) Comparable kind, grade, and quality of the commodity being priced;
- (2) Class of purchaser;
- (3) Class of seller;

The maximum price arrived at under the above paragraph shall be reported to the Office of Price Administration together with a statement giving the name and address of the most closely competitive seller used to establish the maximum price or prices. If, within 20 days after the report is mailed, the Office of Price Administration has not mailed an approval or disapproval of the reported maximum price, the seller may treat the reported price as his ceiling price. The seller may be advised of the approval or disapproval by telephone or telegram before the expiration of 20 days.

If a maximum price cannot be established by a manufacturer under the conditions stated above because of the lack of a competitive seller or a comparable type of sale, or because fixing a price under those conditions will result in hardship to the seller, the maximum price must be fixed under subdivision (c) below. A reported price, which is out of line with the general level of prices under Maximum Price Regulation No. 188, will be disapproved and the maximum price must be established under subdivision (c) below.

(b) *At a temporary plant.* The maximum price for a manufacturer's sales out of a temporary plant shall not exceed:

The maximum price of his closest competitor based on the following factors:

- (1) Comparable kind, grade, and quality of the commodity being priced;
- (2) Class of purchaser;
- (3) Class of seller;

If a maximum price cannot be fixed by a manufacturer under the paragraph above, the maximum price shall be the same as the manufacturer's maximum price for the same product under similar conditions of sale at his own permanent plant but adjusted so as to reflect the actual difference in unit direct labor and materials cost at the site of the temporary plant, plus an allowance to cover the actual or estimated cost of transporting the temporary plant to the site of its operations, the cost of erection and dismantling, and the cost of returning such plant to the manufacturer's permanent storage yard. Such added costs must be spread over the reasonable estimated volume of production at the temporary plant. The reasonableness of all actual or estimated costs included in the proposed price must be clearly established.

The maximum price arrived at under either of the two preceding paragraphs shall be reported to the Office of Price

Administration with a statement showing the method by which the price was determined, a description of the commodity produced, the expected volume of sales, the purchaser or class of purchasers to whom the commodity is expected to be sold, the date when production is expected to begin and end. If the maximum price is not determined on a competitive basis, the manufacturer must also report the cost of labor and materials at the permanent plant and the actual or estimated increase or decrease in cost for these items at the temporary location, plus allowances to cover the actual or estimated cost of transporting and erecting the temporary plant at the site of its operations and the cost of dismantling and returning such plant to the manufacturer's permanent storage yard. These allowances must be prorated over the reasonable estimated volume of production at the temporary plant. If within 20 days after the report is mailed, the Office of Price Administration has not mailed an approval or disapproval of the reported maximum price, the manufacturer may treat the reported price as his ceiling price. A reported price, which is out of line with the general level of prices under Maximum Price Regulation No. 188, will be disapproved and the maximum price must be established under subdivision (c) below. The manufacturer may be advised of the approval or disapproval by telephone or telegram before the expiration of 20 days.

If a maximum price cannot be established under the conditions stated above because of the lack of a competitive seller or a comparable type of sale, or because fixing a price under those conditions will result in hardship to the seller, the maximum price must be fixed under subdivision (c) below.

(c) *Maximum prices which cannot be determined by a manufacturer under subdivisions (a) and (b) must be determined under this subdivision.* In the case of any product the maximum price for which cannot be determined by a manufacturer under subdivisions (a) and (b) hereof, the manufacturer shall file with the Office of Price Administration, Building Materials Price Branch, Washington 25, D. C., an application for approval of a proposed maximum price for the particular product showing the information requested below.

Maximum prices to be established for products produced at a permanent plant. The proposed maximum price, the method by which it was determined, a description of the kind, grade and quality of the product, the volume expected to be produced, the purchaser or class of purchasers to whom the commodities are expected to be sold, and:

(1) Detailed actual or estimated breakdown of plant cost into material, labor, and other production costs.

(2) Selling and administrative expenses. The basis used in charging these expenses to cost must be explained.

(3) Mark-up used and the basis of its determination.

(4) Maximum selling price requested.

*Copies may be obtained from the Office of Price Administration.

(5) An estimate of the total production upon which these costs are based.

(6) Such other facts may be submitted as will make clear the basis for the requested maximum price.

Maximum prices to be established for products produced at a temporary plant. The proposed maximum price, the manner in which it was determined, a description of the product, the expected volume of sales, the purchaser or class of purchaser to whom the commodity is expected to be sold, the date when production is expected to begin and end, and:

(1) Detailed actual or estimated breakdown of plant cost into material, labor, and other production costs.

(2) Selling and administrative expenses. The basis used in charging these expenses to cost must be explained.

(3) Mark-up used and the basis of its determination.

(4) As an addition to items (1), (2), and (3), the actual or estimated cost of transporting and erecting the temporary plant at the site of operations and the actual or estimated cost of dismantling and returning the temporary plant to the manufacturer's permanent storage yard. These expenses must be prorated over the reasonably estimated volume of production at the temporary plant.

(5) Maximum selling price requested.

(6) Estimate of the total production upon which costs are based.

(7) Such other facts may be submitted as will make clear the basis for the requested maximum price.

(d) *Reporting and waiting requirements.* No report need be filed for prices fixed under subdivision (i).

It is required that reports for maximum prices fixed under subdivision (ii) be filed with the Office of Price Administration, Building Materials Price Branch, Washington 25, D. C. An authorized maximum price will not be in effect under subdivisions (ii) (a) and (b) until the manufacturer has been notified of the approval or unless the maximum price is automatically approved by the expiration of the 20 day period. Under subdivision (ii) (c) an authorized maximum price will not be in effect until the Office of Price Administration issues an order to that effect.

However, under subdivision (ii), (a), (b), and (c), above, the manufacturer may offer to sell, sell, deliver, and tentatively collect the maximum price reported to the Office of Price Administration: *Provided*, That he informs the buyer that the reported price is subject to approval by the Office of Price Administration and he agrees to refund to the purchaser any amount collected which is in excess of the amount which is finally approved by the Office of Price Administration. In the case of offers, sales, or deliveries before an authorized maximum price is in effect, every invoice to the buyer must contain the following statement:

The price billed is subject to approval by OPA and any amount collected above the approved price will be refunded.

All reports of maximum prices must be mailed to the Office of Price Administration, Building Materials Price Branch, Washington 25, D. C.

This Amendment No. 36 shall become effective May 19, 1944.

NOTE: All reporting and record keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

LANDEN PUTTY WORKS

ESTABLISHMENT OF MAXIMUM PRICES

Order No. 30 under paragraph (a) (13) of Order No. A-2 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Maximum prices for putty manufactured by Lan-

den Putty Works, Malden, Massachusetts, and sold outside of New England.

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to paragraph (a) (13) of Order No. A-2 under § 1499.159b, it is ordered:

(a) Sales by Landen Putty Works. The maximum prices for sales of putty outside of New England by Landen Putty Works, Malden, Massachusetts, shall be: (1) Maximum prices.

	Net price per 100 pounds f. o. b. Boston, Mass.			
	85 lb. steel drums	12½ lb. cans	5 lb. cans	1 lb. cans
Glaziers (commercial).....	\$2.45	\$3.10	\$3.45	\$4.95

Factory steel sash (for interior glazing).....	3.50	4.15	4.50	
Master plumbers (same as commercial).....	2.45	3.10	3.45	4.95

(2) Containers. No extra charge may be made for containers.

(b) Sales by resellers other than resellers at retail. At his option, a reseller (other than a reseller at retail) of putty manufactured by Landen Putty Works, Malden, Massachusetts, acquired by virtue of this Order No. 30 at a cost higher than that of like putty manufactured by Landen Putty Works and acquired prior to May 19, 1944, may establish a maximum price for a sale of this putty according to the following method, in place of the maximum price which would be established for such a sale under the General Maximum Price Regulation:

(1) Determine from the invoice furnished to him, as required by paragraph (c) below, the increase under this order in the price to him per hundred pounds of the putty being sold over his supplier's maximum price for sales to him of like putty prior to May 19, 1944.

(2) Add this increase (in dollars and cents) per 100 pounds of putty being sold to his maximum price per 100 pounds for like putty established under the General Maximum Price Regulation prior to May 19, 1944. The resulting figure is such reseller's optional maximum price under this paragraph (b).

(3) Show the increase per 100 pounds separately on his invoice, as required by paragraph (c) below.

(c) Invoices. The manufacturer or reseller (other than a reseller at retail) shall show as separate items on all invoices for such putty:

(1) The maximum price established prior to May 19, 1944, for a like sale of putty under Maximum Price Regulation No. 188, in the case of the manufacturer, or under the General Maximum Price Regulation, in the case of such a reseller, and

(2) The adjusted selling price (not in excess of the maximum price under this Order No. 30).

(d) Notice. On or with the first invoice referred to in paragraph (c) above sent to a purchaser for the first delivery of putty at a price adjusted under this order, or prior thereto, the manufacturer or reseller (other than a reseller at retail) shall furnish such purchaser the following notice:

NOTICE

Unless you are reselling at retail you may on your resale of putty manufactured by Landen Putty Works and listed on the invoice furnished by your supplier, add the increase in your acquisition cost indicated on the invoice to your maximum price established under the General Maximum Price Regulation prior to May 19, 1944 for a like sale of putty manufactured by Landen Putty Works. However, you may do so only if, as required by the Office of Price Administration, you (1) show on all your invoices covering such resales the increase in your maximum price in the same manner as shown on the invoice furnished by your supplier, and (2) include on or with the first such invoice a notice identical to this notice. In no event may a retailer selling putty manufactured by Landen Putty Works increase his maximum price established under the General Maximum Price Regulation.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective May 19, 1944.

RETRAINING AND REEMPLOYMENT ADMINISTRATION.

[Order 1]

ORGANIZATION AND OPERATION OF VETERANS' INFORMATION SERVICE CENTERS

As men and women are discharged from the armed services and as war production is cut back, many persons will experience serious difficulty in readjusting from war

to peace activity. To give the most appropriate assistance to the individual in making this readjustment, it is necessary that information be easily accessible in every community as to services and benefits available.

To accomplish this, the President of the United States, on February 24, 1944, prescribed in Executive Order 9427:

* * * There is hereby established in the Office of War Mobilization a Retraining and Reemployment Administration (hereinafter referred to as the Administration), the functions of which, subject to the general supervision of the Director of War Mobilization, shall be exercised by a Retraining and Reemployment Administrator (hereinafter referred to as the Administrator) to be appointed by the Director of War Mobilization.

With the assistance of a Retraining and Reemployment Policy Board, composed of a representative of the Department of Labor, the Federal Security Agency, the War Manpower Commission, the Selective Service System, the Veterans Administration, the Civil Service Commission, the War Department, the Navy Department, and the War Production Board, it shall be the function of the Administration:

To have general supervision and direction of the activities of all Government agencies relating to the retraining and reemployment of persons discharged or released from the armed services or other war work, including all work directly affected by the cessation of hostilities or the reduction of the war programs; to issue necessary regulations and directions in connection therewith; and to advise with the appropriate committees of the Congress as to the steps taken or to be taken with respect thereto.

To facilitate these processes, the Army and Navy will, at the time of discharge, advise persons who are leaving the services and will provide them with printed information as to their rights and benefits.

The Administrator with the concurrence of the Policy Board, as constituted in the Executive order, directs that all field offices of the United States Employment Service of the War Manpower Commission, the Selective Service System, and the Veterans Administration shall provide full information as to their own programs and as to other existing programs for veterans.

Under the authority of the Administrator of Retraining and Reemployment, there shall be established in each State a Veterans' Service Committee representing the Selective Service System, the War Manpower Commission, and the Veterans Administration. This committee will act as the representative of the Federal government in the State in connection with information to veterans. Each committee will select its own chairman and will add to its membership, or will represent the Federal government on State committees of the same nature, as the situation requires.

This committee will have the following responsibilities:

Each member of the committee shall designate a representative of his agency as a member of the Veterans' Service Committee in each community of the State in which the agency maintains facilities.

Render such assistance as may be required by the Veterans' Service Committee in establishing Veterans' Information

Centers in the committees where the need for such centers has been determined.

Act as a central point for and mobilize the efforts of volunteer or other groups in the State in relation to veterans' information activities.

Be the contact point in the State for the Administrator of Retraining and Reemployment in connection with this program.

In order to promote an integrated and balanced program in the community, the Administrator directs that there shall be a Veterans' Service Committee with the following membership: a representative of the Selective Service System, the United States Employment Service, and the Veterans Administration insofar as any one or all of these agencies have representatives available in the community. These representatives shall constitute the Veterans' Service Committee. The committee will elect its own chairman.

A Veterans' Service Committee may enlarge its membership to include representation from local organizations, or they may represent the Federal government on community committees of the same nature. The Federal officials designated by the Administrator shall retain their function and responsibility as the point of contact for the Administration through the State committee with the Federal programs in the community.

The responsibilities of this committee shall be:

To determine the need for a single information service center over and above those existing in the individual agencies of the community.

To act as a central point for and to mobilize the efforts of volunteer or other groups in the community in relation to veterans' information activities.

To be the contact point in that community for the State Veterans' Service Committee in connection with the particular subject matter of this program.

The committee shall, in consultation with the cooperating agencies, determine: First, whether a single information center is necessary; second, whether there is available an appropriate location and necessary facilities in the community.

The function of an information center shall be primarily one of advice and reference. Actual determination of eligibility for benefits or special services must be the function of the appropriate agencies.

Local cooperation is important, since local organizations may render service outside of the scope of the Federal programs and may effectively provide volunteer service and facilities for the center.

If a center establishes services acceptable to veterans, with sound advice as to their problems, the variety and complexity of applications for assistance will be great. Federal programs will by no means meet all of these demands. Advice will be sought as to housing, family programs, special assistance, business or farm problems, and many other matters. Such varied services will demand the assistance of all pertinent community organizations and leaders.

Thus the centers should have available the most skillful interviewers and should have access to the advice of the most influential citizens in the community.

There is no single pattern for the operation of a center which will fit communities of all types and sizes. The organization should be adapted to the volume and nature of applications anticipated and the facilities available in the community. Changes in structure should be effected by the committee as experience indicates.

The committee responsible for the operation of a center may elect an executive secretary who shall be generally responsible for the operation of the center and may, when sufficient staff is available, delegate functions to other appointees. General functions to be performed are procurement of space and supplies, organization of staff, instruction of staff, arrangement of office hours, maintenance of records and the development of working relationships with cooperating organizations.

The space for handling any considerable volume of applicants should include, where possible, a general waiting room with a reference desk and interview facilities which will afford the maximum of privacy.

Efficient operation will require that two types of staff members be available:

1. Specialized staff as designated by the operating agencies.

2. Generalized staff from community organizations or as volunteer workers.

Both types of staff members may need instruction as to methods, procedures and content of the services available to veterans. The objective of all persons on duty should be to acquire the ability to analyze the problems of the applicant in a tactful manner and refer him to the proper agency for securing service. Specialized personnel should be instructed by the supervisory staffs of the organization in which they are employed. Generalized and volunteer personnel should be instructed through means of discussion groups in which informed persons will explain the areas of responsibilities of each pertinent organization or agency. Such personnel should study and employ for reference the literature concerning Federal and other programs.

In referring applicants to operating agencies for service, interviewers should, if possible, make definite appointments with the person to be seen and provide the applicants with notations of such appointments in writing and ascertain in advance what papers the applicant will need in determining his eligibility or status in order that these may be presented to the service agency.

Basic records of numbers and types of requests, places of reference, and other dispositions, shall be maintained under the supervision of the executive secretary and shall make such reports as may be prescribed by the Administrator and the State committee.

No Federal funds have been appropriated or requested for the establishment or operation of information cen-

ters. No person is authorized to make any financial commitment or incur any financial obligation on behalf of the United States in connection with any of the activities provided for in this directive.

FRANK T. HINES,
Administrator.

MILWAUKEE ELECTRIC RAILWAY & TRANSPORT CO. AND WISCONSIN ELECTRIC POWER CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its

office in the City of Philadelphia, Pa., on the 17th day of May 1944.

Notice is hereby given that a joint declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The Milwaukee Electric Railway & Transport Company, a wholly-owned subsidiary of Wisconsin Electric Power Company, and by Wisconsin Electric Power Company, a subsidiary of The North American Company, a registered holding company; and

Notice is further given that any interested person may not later than May 29, 1944, at 5:30 p. m., e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, said joint declaration or application, as filed or as amended, may be granted, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said joint declaration or application, which is on file in the office of the said Commission, for a statement of the transactions therein proposed, which are summarized below:

The Milwaukee Electric Railway & Transport Company proposes (a) to redeem on June 15, 1944, at par plus accrued interest \$100,000 principal amount of its First Mortgage 4% Bonds owned by Wisconsin Electric Power Company and pledged as collateral to the latter company's Mortgage and Deed of Trust dated October 28, 1938, and (b) to purchase for cash at par for retirement 9,000 shares of its capital stock of the aggregate par value of \$900,000 from Wisconsin Electric Power Company. Wisconsin Electric Power Company seeks authorization to surrender the bonds and the stock on the basis described.

AMERICAN UTILITIES SERVICE CORP., ET AL. ORDER GRANTING EXTENSION OF TIME AND MODIFYING TERMS OF PURCHASE PRICE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 18th day of May 1944.

In the matter of American Utilities Service Corporation, File No. 54-57; American Utilities Service Corporation and its subsidiary companies, respondents, File No. 59-57; in the matter of

Fred D. Ellis and Edmund J. Haugh, File No. 70-860.

American Utilities Service Corporation, a registered holding company, having filed an application and declaration on January 17, 1944, and an amendment thereto on January 31, 1944, pursuant to sections 11 (e) and 12 (d) of the Public Utility Holding Company Act of 1935 with respect to the sale of all the securities of its subsidiary, Northwestern Illinois Utilities, an electric and gas utility company, such securities consisting of 95,000 shares of common stock, par value \$5 per share, and an unsecured note dated November 1, 1938, and due November 1, 1964, in the principal amount of \$375,000, the consideration being \$840,000 in cash with interest at the rate of 6% per annum from January 1, 1944 to closing date; and

Fred D. Ellis and Edmund J. Haugh having filed an application pursuant to sections 9 (a) (2) and 10 of the act with respect to the acquisition of such securities of Northwestern Illinois Utilities; and

The Commission having by order dated March 15, 1944, granted the applications and permitted the declarations to become effective subject to the terms and conditions prescribed in Rule U-24; and

The above-named applicants and declarants having requested that the time within which, pursuant to Rule U-24, the transactions as set forth in the applications and declarations may be consummated, be extended to May 24, 1944; and

The above-named applicants and declarants also having requested that in lieu of payment of six per cent interest on purchase price of \$840,000 from January 1, 1944, to date of closing, American Utilities Service Corporation be permitted to receive common stock dividends from Northwestern Illinois Utilities prior to closing in the amount of \$20,000; and

The Commission having considered such requests and deeming it appropriate that they be granted;

It is ordered, That the conditions contained in the order of March 15, 1944, be and hereby are modified to the extent necessary to extend the time within which such transactions may be consummated to May 24, 1944;

It is further ordered, That American Utilities Service Corporation be and hereby is permitted to receive common stock dividends from Northwestern Illinois Utilities prior to closing in the amount of \$20,000 in lieu of payment of six per cent interest on purchase price of \$840,000 from January 1, 1944, to closing date;

It is further ordered, That in all other respects the said order of March 15, 1944 be, and remain in full force and effect.

ASSOCIATED ELECTRIC CO.

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 17th day of May 1944.

Associated Electric Company, a registered holding company, having filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935, and particularly sections 9 (a), 10 and 12 (d) thereof and Rule U-44 promulgated thereunder, regarding the proposed sale to William E. Vogelback, a non-affiliate, for the base price of \$750,000, of all the outstanding securities and indebtedness of a subsidiary, Union Gas & Electric Company; and

The Commission having, on February 22, 1944, after notice and hearing, made and filed its findings and opinion and issued its order herein (Holding Company Act Release No. 4904) granting the application and permitting the declaration to become effective; and

The applicant-declarant having, on May 16, 1944, filed a request that, because of the inability of the parties to consummate the transaction forming the subject of the said application-declaration within the time prescribed by the Commission's order of February 22, the time for effecting the said transaction embraced in the application-declaration be extended to and including May 22, 1944; and

It appearing to the Commission that it is appropriate in the public interest and the interest of investors that such extension of time be granted:

It is ordered, That the period of time within which the said transaction shall be completed, in accordance with the requirement of Rule U-24 (c) (1) of the general rules and regulations, be, and hereby is, extended to and including May 22, 1944.
