PART 1010—SUSPENSION ORDERS

[Suspension Order S-642]

CHARLES GAULTNEY

Charles Gaultney, 3637 Globe Avenue, Los Angeles, California, is a general building contractor. On or about July 26, 1943, he began construction consisting of remodeling and rebuilding two old service station structures for conversion into a combination dwelling and nursery, at an estimated cost of \$425; the actual cost proved to be \$1,800. On or about September 20, 1943, he began construction consisting of remodeling and renovating a four-tenant store building, estimated at \$300; the actual cost proved to be \$1,360. On or about September 21, 1943, he began construction of a barn,

the cost of which proved to be over \$1,400. On or about September 28, 1943, he began construction of an addition to an industrial plant (with a productive floor area of less than 10,000 feet), the cost of which proved to be \$566. On or about October 11, 1943, he began construction of an addition to an industrial plant (with a productive area of less than 10,000 feet), at an estimated cost of between \$1,200 and \$1,300; the actual cost proved to be \$1,800. The first, second, fourth and fifth jobs exceeded the \$200 limit provided by Conservation Order L-41 for such construction, and the third job (the barn) exceeded the \$1,000 limit provided by Conservation Order L-41 for such construction, without authorization from the War Production Board. Mr. Gaultney was aware of WPB restrictions on construction and carrying on this construction without authorization constituted grossly negligent violations of Order L-41.

These violations have diverted critical materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.642 *Suspension Order No. S-642.*
(a) Deliveries of material to Charles Gaultney shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation, including allotments, shall be made to Charles Gaultney of any material or product, the supply or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) No authorization to commence construction under the provisions of Order L-41, shall be granted to Charles Gaultney, unless hereafter specifically authorized in writing by the War Production Board.

(d) The restrictions and prohibitions contained herein shall apply to Charles Gaultney, his successors and assigns or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(e) Nothing contained in this order shall be deemed to relieve Charles Gaultney, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(f) This order shall take effect on October 24, 1944, and shall expire on January 24, 1945.

Issued this 14th day of October 1944.

PART 3293—CHEMICALS

[General Allocation Order M-300, Schedule 59]

PHTHALIC ALKYD RESINS

(a) *Definition.* "Alkyd resins" means those synthetic resins known as phthalic alkyd resins which are the reaction product in solid, liquid, or solution form of polyhydric alcohols with phthalic acid, phthalic anhydride or both, whether or not modified by any drying or non-drying oil such as tung, oiticica, castor, linseed, fish or other oils. The term includes all alkyd resins modified with phenolic reactant (as that term is defined in the War Production Board Order M-246) to the extent of ten per cent (10%) or less by weight of the resin on a solvent free basis.

(b) *General restrictions.* Alkyd resins are subject to allocation under General Allocation Order M-300 as an Appendix A material. The initial allocation date for alkyd resins as defined in Order M-139 (revoked) is January 1, 1943, when alkyd resins as so defined were first put under allocation. The initial allocation date of additional material covered in the enlarged definition of alkyd resins in paragraph (a) of this Schedule is November 1, 1944. The allocation period is the calendar month and the small order exemption is 50 pounds (solvent free basis) per person per month for experimental purposes only, and 10 pounds (solvent free basis) per person per month for any purpose.

(c) *Special provisions for shift from M-139.* Prior to November 1, 1944, alkyd resins may be delivered, accepted or used in accordance with authorizations issued under Order M-139 (revoked). The forms of application under this Schedule are substantially the same as under M-139, except for reference to "M-300-59".

(d) *Stocks affected.* All stocks of alkyd resins are subject to this Schedule, notwithstanding the "consumers' stocks" exemption of Order M-300.

(e) *Cancelled deliveries of alkyd resins.* If a supplier is unable to make any delivery authorized by War Production Board because of receipt of notice of cancellation of the purchase order or otherwise, the supplier must notify the War Production Board of this fact by letter within 10 days thereafter, and shall not thereafter deliver those alkyd resins to anyone else or use those alkyd resins for any purpose until he receives further

authorization from the War Production Board.

(f) *Restrictions on phthalic anhydride content of alkyd resins.* Except as otherwise authorized by War Production Board (under paragraph (w) of Order M-300) pursuant to application made by letter, no person shall use alkyd resins for the production of protective coatings conforming to the specifications appearing at the end of this paragraph (f) which shall result in a coating which shall contain a greater phthalic anhydride content than is indicated opposite those specifications.

Permitted phthalic anhydride content of protective coatings conforming to the specifications, listed below:

Specifications

Anticipated orders. In Column 2 specify a lump sum for each primary product listed in Column 3 to be delivered on anticipated indirect military orders for List A end uses. In Column 4 specify "anticipated orders".

GROUP 2—DIRECT MILITARY ORDERS FOR ALL END USES

Orders on hand only. In Column 2 specify exact poundage (solvent free basis) for each primary product listed in Column 3 for each separate end use described in Column 4. In addition, contract and specification numbers must be stated in Column 4 for each separate end use. War Production Board will not entertain applications for allocations of alkyd resins to fill anticipated direct military orders.

GROUP 3—INDIRECT MILITARY ORDERS FOR END USES OTHER THAN LIST A END USES, AND CIVILIAN ORDERS FOR ALL END USES

Orders on hand only. In Column 2 specify exact poundage (solvent free basis) for each primary product listed in Column 3 for each end use described in Column 4. In addition, contract and specification numbers must be stated in Column 4 opposite each primary product to be delivered on an indirect military order. War Production Board will not entertain applications for allocation of alkyd resins for anticipated indirect military orders for end uses other than those appearing in List A, or for anticipated civilian orders.

GROUP 4—EXPORT

Orders on hand only. In column 2 specify exact poundage (solvent free basis) for each primary product listed in Column 3 which is to be exported. Opposite in Column 4, specify the name of each individual, company, or governmental agency to whom or for whose account the alkyd resins or products containing alkyd resins will be exported, and the country of destination. If shipment is for Lend-Lease, specify Lend-Lease, contract or serial number. If the shipment is not for Lend-Lease or not destined for Canada, Form WPB-2945 must first be sent to Foreign Economic Administration together with an application for an export license. If the export license is granted, Foreign Economic Administration will then affix the export license number to Form WPB-2945 and forward it to War Production Board. War Production Board will not entertain applications for allocations of alkyd resins for anticipated export orders.

Columns 11 through 16. Fill in all columns showing a total quantity in pounds for all grades on a solvent free basis.

Columns 17 through 25. Leave blank.

tary orders, broken down according to each purchase order, applicants may lump their requested allocations to fill indirect military orders for the end uses in List A appearing at the end of these instructions. This is the first group. Requested allocations to fill purchase orders in the remaining three groups must be broken down in greater detail. For the purposes of these instructions, the following definitions are applicable: (i) "Direct military order" means any purchase order for alkyd resins, or a product containing alkyd resins, to be delivered to the United States Army, Navy, Marine Corps, or Coast Guard; (ii) "Indirect military order" means any purchase order for a product containing alkyd resins to be used on, or incorporated in material or equipment delivered, or to be delivered to, the United States Army, Navy, Marine Corps, Coast Guard, Maritime Commission or War Shipping Administration; (iii) "civilian order" means any purchase order for alkyd resins, or a product containing alkyd resins, which is not a "direct military order" or an "indirect military order".

Information called for in Columns 2, 3 and 4 should be separated into these four groups and set forth on Form WPB-2945 in the order indicated below. Each group should be preceded by the heading describing the group. Primary product and end use information for other than List A End Uses should be described in accordance with WPB I-217.

GROUP 1—INDIRECT MILITARY ORDERS FOR LIST A END USES

Orders on hand. In Column 2 specify a lump sum (solvent free basis) for each primary product listed in Column 3 covered by indirect military orders on hand for List A end uses. In Column 4 specify "orders on hand".

Application Form WPB-3732,
Filing date: November 8, 1944.
These items are required to be produced
during December 1944 and January and Feb-
ruary 1945.
Priorities assistance will be given only for
materials specified above with respect to
each item.
Applicants should base their estimated
production on their present labor and ma-
chinery.
The items must be produced for sale by
the applicant at or below the lower of the
following two prices: The applicant's OPA

ceiling price for the item; or the highest
price per dozen listed above for the item.

Each applicant whose application is grant-
ed is required to produce the items in ac-
cordance with the following minimum stand-
ards and specifications:

1. *Yardage limitations.* The minimum
linear yardage per dozen garments for 35''
to 36'' finished goods shall be as specified in
the column headed "minimum yardage",
based on the size assortment specified in the
column headed "size distribution per doz-
en". Other size assortments are permissible
but pro rata yardage shall apply.

2. *Seams, stitching, and construction.* All
structural seams shall be made with not less
than 10 stitches per inch, except overlock
stitch which shall be made with not less than
8 stitches per inch. No raw edges of fabric
will be permitted in seams, and all seams
must be so constructed as to minimize ravel-
ling. For all fabrics, except flannellette, a
seam overlap allowance of not less than 3/8''
from the edge of the cut material to the inner
stitch shall be provided. The inner stitch is
defined as the first line of stitching joining
two pieces of fabric. Seams shall be finished
at least by pinking. When pinked, a fabric
allowance of not less than 3/8'' clear after
pinking shall be provided. For flannellette,
the minimum construction shall be over-
lock seam, with 1/2'' allowance; plain pinked
seams shall not be permitted in flannellette.

3. *Workmanship.* These garments shall be
made in accordance with the manufacturer's
standards previously established for the sim-
ilar or nearest higher price range of cotton
garment manufactured during the six month
period between July 1, 1943 and December
31, 1943. Such standards shall apply to work-
manship, inspection, pressing, folding, and
other operations involved from the receipt of
the goods to the preparations of the com-
pleted garments for marketing.

*Additional rules applicable to granting
assistance*

1. Applications of any person able to pro-
duce a particular item within the price range
permitted in this Program, will be enter-
tained.

2. If the applications exceed the quantity
of production of a particular item required,
grants of priority assistance will be made on
the basis of the percentage of each applica-
tion needed to fill the requirements.

3. Paragraphs (d) (1) and (d) (2) of Con-
servation Order M-328B do not apply to this
Program.

4. Applications that are not completely
and accurately filled out may be denied.

5. Each applicant is required to state in his
application with respect to each item for
which he applies, the quantity of the par-
ticular construction of fabrics he has in in-
ventory at the time of making the applica-
tion.

PART 3305—PAPERBOARD

[Conservation Order M-378 as Amended
Oct. 25, 1944]

PAPERBOARD

The fulfillment of requirements for the
defense of the United States has created
shortages in the supply of paperboard
and of materials entering into the pro-
duction of paperboard for defense, for

private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3305.1 *Conservation Order M-378—*

(a) *What this order does.* This order deals with the production and use of paperboard. It requires producers of paperboard to set aside a reserve production, subject to direction by the War Production Board and provides for credits against that reserve production. It limits the inventories of users of paperboard.

(b) *Definition.* For the purpose of this order "paperboard" means the types and grades of paperboard classified under caption numbers 221,000 through 269,000, except 224,001 through 224,005 (solid sulphite and sulphate pulp boards), 224,008 (milk bottle plug cap board), 241,000 through 249,000 (nonbending cardboards), 253,000 (pressboard), 261,100 (homogeneous wallboard), 261,200 (hard pressed wallboard), and 262,000 (insulating building board), in Form WPB-514, as currently revised, in sheet or roll form and whether or not lined, pasted or specially treated. It does not include containerboard as defined in Order M-290.

(c) *Reserve production.* Each manufacturer of paper or paperboard shall reserve for the month of June, 1944, and for each succeeding month thereafter, time and supplies sufficient to produce within each month the amount of paperboard designated by the War Production Board as his reserve production. The amount so designated for June, 1944, and for each month thereafter, until the War Production Board determines otherwise, is forty percent of the average monthly finished production of paperboard which each manufacturer reported to the War Production Board on Form WPB-514 for the most recent three calendar quarters.

(d) *Direction of reserve production.* On or before the 15th day of any month, the War Production Board may direct any manufacturer to employ his reserve, subject to the provisions of paragraph (e), to produce any grades of paperboard which the manufacturer is able to produce and in any quantity not exceeding the tonnage of his reserve production. The War Production Board may require a manufacturer to sell and deliver his reserve production to any person. Any order taken by a manufacturer at the direction of the War Production Board shall reduce his reserve production by the amount of finished production represented by that order. If a manufacturer is not directed by the War Production Board as to the disposition of part or all of his reserve production on or before the 15th day of the month in which such production is reserved, he may employ the production for which no directions have been received in any way he wishes that is consistent with the

provisions of this and other orders of the War Production Board.

(d-1) *Only ground for refusal to fulfil directions of the War Production Board.* All directions to produce and deliver reserve production must be fulfilled by a manufacturer unless the person to whom the manufacturer is directed to sell is unwilling or unable to meet regularly established prices and terms of sale or payment as provided in paragraph (e) (1) of § 944.2 of Priorities Regulation 1; but there shall be no discrimination against such person in establishing such prices or terms.

(e) *Production for federal agencies—*
(1) *Certifying as to orders received.* Any manufacturer who has accepted an order for paperboard, directly or through another person, to be produced for the account of any of the agencies or uses listed in paragraph (e) (3), shall immediately certify such acceptance in triplicate on Form WPB-3270, including the other information called for therein. Thereafter any change in the certified order which involves cancellation or an alteration in the quantity or month of manufacture shall be certified immediately by the manufacturer to the War Production Board on Form WPB-3270. If expressly requested by the War Production Board, a manufacturer shall identify the tonnage of paperboard already certified on Form WPB-3270 by giving the government department order numbers, or if certain tonnage cannot be identified directly with a government order number, then the CMP allotment symbol and the name of the purchaser of the paperboard may be given.

(2) *Credit against reserve production.* If a manufacturer accepts an order from one of the seventeen agencies or uses listed in paragraph (e) (3) and properly certifies that fact to the War Production Board on Form WPB-3270, the War Production Board will credit the tonnage in his order against any unused portion of his reserve production for the month in which the tonnage is to be produced, and will notify him. The manufacturer shall produce such orders according to his schedule as so reported to the War Production Board.

(3) *List of agencies or uses.* The agencies or uses referred to in paragraph (e) (1) are:

1. United States Army.
2. United States Army Map Service.
3. United States Army Air Forces.
4. United States Navy.
5. The United States Marine Corps.
6. The United States Coast Guard.
7. The United States Maritime Commission and War Shipping Administration.
8. Lend-Lease Administration—Foreign Economic Administration.
9. Panama Canal.
10. Bureau of Public Debt.

14. Office of Economic Warfare—Foreign Economic Administration (orders with an O. E. W. or F. E. A. approved export license).
15. United States Post Office.
16. Rubber Reserve Company.
17. Producers of products or parts thereof for any of the 16 procurement activities listed above to the extent that the paperboard is to be used exclusively as a component part of the product or part thereof, or is to be used exclusively for the necessary packaging of the product or part thereof, to be delivered on a contract or purchase order issued by such activity.

Miscellaneous

NOTE: Paragraphs (f) through (n), inclusive, formerly paragraphs (i), (j), (k), (l), (m), (o), (p), (q) and (r), redesignated Oct. 25, 1944. Former paragraphs (f), (g), (h) and (n) deleted.

(f) *Inventory restrictions.* No person shall knowingly deliver to any person, and no person shall accept delivery of, any quantity of paperboard, if the total inventory in the hands of the person accepting delivery is, or by virtue of the acceptance will become, either (a) in excess of 60 tons, or (b) in excess of his reasonably anticipated requirements for the next sixty days, whichever is greater. No person shall order any quantity of paperboard for delivery to him, or for his account, on any future date, if receipt thereof on that date would increase his inventory of such paperboard to more than the amount permitted in the first sentence of this paragraph.

The restrictions of this paragraph apply equally to paperboard of foreign and domestic origin, and to intra-company deliveries as defined in § 944.12 of Priorities Regulation 1.

(g) *Delivery of waste.* No person shall require any customer to deliver waste in return for paperboard shipped on any order.

(h) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(i) *Audit and inspection.* All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(j) *Reports.* The reporting requirement of paragraph (e) of this order has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942. All persons affected by this order shall execute and file with the War Production Board such other reports and questionnaires as may be required, subject to the approval of the Bureau of the Budget.

(k) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or fur-

nishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of or from processing or using materials under priority control and may be deprived of priorities assistance.

(l) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable War Production Board regulations, as amended from time to time.

(m) *Appeals.* An appeal from the provisions of this order may be made by a letter stating informally, but completely, the particular provision appealed from, the precise relief desired, the reasons why denial of the appeal would result in undue and excessive hardship, and such other statistical and narrative information as may be pertinent.

(n) *Communications to War Production Board.* All reports required to be filed hereunder, all appeals and all other communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Paperboard Division, Washington 25, D. C., Ref: M-378.

PART 1381—SOFTWOOD LUMBER

[2d Rev. MPR 19; Amdt. 5]

SOUTHERN PINE LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Second Revised Maximum Price Regulation 19 is hereby amended in the following respects:

1. In section 5, a new paragraph (g) is added to read as follows:

(g) *Pallet stock sold on Government contracts and subcontracts.* Under this paragraph, and regardless of maximum prices established in the tables of this regulation for short lengths, the lumber branch may authorize maximum prices for pallet stock sold on Government contracts and subcontracts only, based on cost of remanufacture from longer stock. Specific maximum prices for pallet stock will be authorized by letter or telegram; and no person may charge for pallet stock prices higher than the regular f. o. b. mill prices established in this regulation for short lengths, unless and until he has received such authority from the Lumber Branch.

2. Section 6 (c) is amended to read as follows:

(c) *New distributors.* Any person who cannot meet the requirements of a "direct-mill distributor", as defined in paragraph (b) (1) (i) of this section 6, may make special application to the Lumber Branch, Office of Price Administration, Washington 25, D. C. He may be given permission to qualify as a "direct-mill distributor", if he meets the following tests: He must provide evidence from banks or others, showing adequate financial responsibility. He must also fill orders totalling at least 1,000,000 board feet, to be delivered within six months from date of issuance of temporary "escrow" registration by the Lumber Branch, on allocations from the Central Procuring Agency or on sales to persons holding prime contracts with government agencies for which CPA previously purchased lumber. (Persons who were given permission by the Lumber Branch to qualify as new distributors and assigned escrow authorization numbers after April 15, 1944 and prior to October 30, 1944 may have an additional three months in which to complete delivery of 1,000,000 feet of lumber as provided in this section.) Final authorization will not be granted until the entire 1,000,000 feet of lumber has been successfully de-

*9 F.R. 11486.

livered within the designated period. Until final authorization is granted, the 6 percent or 4 percent addition to the maximum price, as the case may be, must be held in escrow by a bank or other third party, on all sales of lumber made by the distributor, and if the quantity is not successfully delivered within the designated period, the 6 percent or 4 percent addition must be returned to the buyers.

The authorization will not be granted if it appears that the purpose of the application is to evade the regulation by interposing an unnecessary middleman in the distribution of lumber, who will not in fact render the services characteristically rendered by the type of distributor in question.

3. Article IV, Appendix A, Table 10 is hereby amended by adding a sub-footnote to the column, Grade No. 1, as follows:

¹ Grade No. 1 fence lath may contain up to 20% of Grade No. 2.

This amendment shall become effective October 30, 1944.

Issued this 25th day of October 1944.

Chapter XIII—Petroleum Administration for War

[Petroleum Dir. 78]

PART 1577—PETROLEUM INDUSTRY—DISTRICT THREE

SUPPLY PROGRAM IN DISTRICT THREE

The fulfillment of the requirements for the defense of the United States has created a shortage of facilities for the transportation of petroleum and shortages in the supply of petroleum and petroleum products, and the following directive is deemed necessary for the prosecution of the war.

§ 1577.1 *Petroleum Directive 78*—(a) *Committees.* (1) Wherever reference is made herein to the General Committee or to any other committee, the reference is to a committee in District Three appointed in connection with the activities of the Petroleum Administration for War, unless otherwise specified.

(2) Wherever reference is made herein to any committee, the reference shall include any new committee which may take over the functions of the committee so mentioned.

(3) A statistical subcommittee shall be appointed by the Petroleum Administration for War which, unless otherwise specified by the Petroleum Administration for War, shall be composed of seven persons, five nominated by the chairmen of the functional committees (one nominee by each chairman) and two nominated by the general committee. The general committee shall also nominate, and the Petroleum Administration for War shall appoint, one of the seven to be chairman of such subcommittee. Until

the appointments have been made, the statistical subcommittee created under Recommendation No. 33, § 1500.22, and Plan 15, shall continue to function. The duties of the statistical subcommittee shall be to obtain, analyze, and keep current all pertinent facts, figures, and other data desired by the Petroleum Administration for War, the general committee, and other committees.

(4) The functions hereby assigned to various committees shall be performed by them in collaboration with a staff representative of the Petroleum Administration for War designated for the purpose.

(b) *Supply program*—(1) *Preliminary supply program*. The appropriate division of the Petroleum Administration for War will prepare each month (or at such other intervals as it sees fit) a preliminary supply program, setting forth a statement of operating objectives for the ensuing month or such other period as the division deems proper. The objectives may be expressed in a preliminary statistical program of supply, demand, and shipments, or by a statement of desired changes in the order of their importance. Copies of the preliminary supply program will be sent to the appropriate committees for the purposes hereinafter indicated.

(2) *Revised supply program*. On a day specified by the appropriate division of the Petroleum Administration for War, representatives and officials of the Petroleum Administration for War will meet with representatives of the general committee and other appropriate committees, as well as with representatives of committees from other Districts. The purpose of the meeting will be to discuss the prospective program and desirable or necessary changes therein. Thereafter, the appropriate division of the Petroleum Administration for War will prepare and issue a Petroleum Supply Program for the ensuing period.

(3) *Statement of availability of products for transportation out of District Three*. Based upon such Petroleum Supply Program, forecast data shall be assembled in the following manner: The Refining Committee shall prepare a monthly statement (or a statement covering any other period, as requested by the Petroleum Administration for War) showing for each refinery in District Three its anticipated input and its anticipated output of critical war products and other products. The Supply and Transportation Committee shall prepare a monthly statement (or a statement covering any other period, as requested by the Petroleum Administration for War) showing for each refinery in District Three the estimated quantity of products available for shipment and the contemplated disposition of such available products.

These statements shall be prepared in such form and detail as may be specified by the Petroleum Administration for War from time to time. All refiners operating in District Three are requested to cooperate with the committee in furnishing such information as is necessary or desirable for the preparation of

the above statements in the required form.

Copies of all of the above reports shall be sent to the Director in Charge of District Three, the appropriate division of the Petroleum Administration for War in Washington, D. C., the Directors in Charge of Districts One and Two, and the General Committee, District Three.

(c) *Refinery operations*. Whenever the Petroleum Administration for War decides that it is necessary to regulate the throughput of refineries in District Three, it may instruct the Refining Committee to prepare recommendations as to the standards to be used in effecting the regulation. The Petroleum Administration for War may instruct the Refining Committee to prepare for and submit to the Petroleum Administration for War schedules of operations for refineries in District Three in accordance with the standards which will be prescribed, from time to time, by the Petroleum Administration for War. The schedules prepared by the Refining Committee shall be submitted to the Petroleum Administration for War, which shall make such changes, if any, as it sees fit. No schedule shall become effective until the Petroleum Administration for War directs that it be effective.

(d) *Distribution of transportation facilities*. In the event that the Petroleum Administration for War shall determine that it is necessary to regulate or schedule the movement of petroleum or petroleum products from District Three, it may instruct the Supply and Transportation Committee to prepare recommendations in the form of schedules for the use of the available transportation facilities. The schedules shall be prepared to assign available transportation facilities in the following order:

(1) To move all available war products,
 (2) To move non-war products to the extent necessary to prevent interference with production and transportation of war products, and

(3) To allocate upon an equitable basis, so far as practicable, the balance of available facilities to move the balance of non-war products.

The schedules shall be submitted to the Petroleum Administration for War, which shall make such changes, if any, as it sees fit. No schedule shall become effective until the Petroleum Administration for War directs that it be effective.

(e) *Crude petroleum, natural gas, and special petroleum liquids*. Whenever so instructed by the Petroleum Administration for War, the Refining Committee shall prepare a statement of estimates of the requirements of all District Three refineries for crude petroleum, natural gas, and natural gasoline, setting forth special needs for crudes of particular grades or origins, as well as needs for the products of cycling, and of casinghead and natural gasoline plants. These statements shall be submitted to the Petroleum Administration for War, with copies to the Chairmen of the Production Committee and the Natural Gas and Natural Gasoline Committee. Upon the

basis of the information in the statements of the Refining Committee, the Production Committee and the Natural Gas and Natural Gasoline Committee shall, if so instructed by the Petroleum Administration for War, submit estimates to the Petroleum Administration for War as to the ability of District Three to supply such requirements, stating the location, quantity, and grade of materials available, together with other appropriate data.

(f) *Transfers of products*—(1) *Definitions as used in this paragraph (f)*. (i) "Major non-war products" means kerosene, gas and distillate oil, fuel oils, and civilian motor gasoline, excluding aviation gasoline.

(ii) "Base period" means such period as may be designated by the Petroleum Administration for War.

(2) *Scope of application*. The terms of this paragraph (f) shall be applied initially only to refineries located in what is designated by the United States Bureau of Mines as the Texas Gulf Coast and the Louisiana Gulf Coast, but its provisions shall be extended to include other refineries in District Three upon direction of the Petroleum Administration for War.

(3) *Right to transfer*. Where compliance with any one or more recommendations, directives, instructions, or orders of the Petroleum Administration for War, rather than voluntary changes in yields made by an operator for his own convenience, causes any refinery to lose percentage participation in the output of major non-war products in relation to the base period, and other refineries to gain in relation to the base period, each refinery which has lost percentage participation may secure products in the manner hereinafter set forth:

(i) *Loss of aggregate production*. If any refinery's crude runs have been reduced as a result of compliance with instructions of the Petroleum Administration for War so that its aggregate production of all four major non-war products has been reduced to such an extent that its percentage participation in such output for the refineries covered is less than three-fourths of its percentage in the base period, then the refinery shall have the option to buy, from refineries whose percentage participation has improved compared with the base period, a volume sufficient to raise its percentage participation to three-fourths of the base period. The volume shall be distributed between the four major non-war products in the ratio determined by the current average yields (as calculated by the Refining Committee) of the refineries which have improved their percentage participation in relation to the base period. Subject to approval by the District Director in Charge before any action is consummated, the Refining Committee shall arrange to make such products available from refineries which have improved their percentage participation in relation to the base period, and the amount to be supplied by each plant shall be allocated on a practical and equitable basis.

Example. Aggregate production of non-war products at refineries covered was 500,000 b/d in the base period. Refinery "A" had 20,000 b/d or 4% of the aggregate production in the base period. Aggregate production currently is 400,000 b/d, but Refinery "A" is producing 8,000 b/d or 2% of the aggregate. Refinery "A" is entitled to purchase 4,000 b/d required to raise its percentage participation to 3%, which is three-fourths of its base period percentage participation. The 4,000 b/d is to be divided among the four major non-war products on the basis of the current average yields of the sellers. The selling companies will be those whose percentage participation in output of their non-war products is greater now than in the base period.

In the event of purchases of products under this provision, the Petroleum Administration for War shall establish appropriate specifications, and may request that the Refining Committee for District Three make recommendations with respect to these specifications. The terms of any purchase and sale made pursuant to this paragraph (f) (3) (i) shall be negotiated between the parties thereto. If the parties cannot agree upon a price, it shall be determined by the Petroleum Administration for War. In determining such prices, the Petroleum Administration for War shall take into account the following factors:

(a) The delivered cost of crude at the plants required to sell under this directive.

(b) A total manufacturing cost not to exceed the average for the plants entitled to purchase the products, and

(c) Refinery losses.

The Petroleum Administration for War may request the Refining Committee to compile and submit data with respect to the above factors. Such prices shall not exceed the prices fixed in any applicable schedule or regulation of the Price Administrator.

(ii) *Loss of production of one product.*

In the event that a plant has had its operations so changed as a result of compliance with the actions of the Petroleum Administration for War that the ratio of its production of any one or more of the four major nonwar products to the total quantity of such product manufactured by the refineries covered is less than 75% of such ratio in the base period, the Refining Committee (subject to approval by the District Director in Charge before any action is consummated) shall undertake to make available quantities of such product from refineries producing such product currently at rates in excess of the average in relation to the base period.

Prices at which the above purchases are to be made shall be the applicable ceiling prices under the schedules and regulations of the Price Administrator, unless the purchaser and seller shall agree upon lower prices.

(g) *Sales, exchanges, and loans of petroleum and petroleum products, and joint use of facilities.* Subject to the approval of the Director in Charge of District Three, obtained prior to the consummation of any arrangement for the sale, exchange, or loan of crude petroleum, natural gasoline, or petroleum

products, or for the joint use of facilities as provided for herein, the appropriate functional committee or subcommittee shall arrange for sales, exchanges, or loans of any crude petroleum, natural gasoline, or petroleum products, and for the joint use of facilities among those engaged in the petroleum industry in District Three in all cases which, within available supplies and capacities, will:

(1) Assure adequate supplies of crude petroleum and petroleum products for shipment outside District Three to meet military and essential civilian requirements in accordance with the supply program of the Petroleum Administration for War; or

(2) Assure a supply of crude petroleum, other charging stock, or petroleum products for the required operation of special refinery equipment used in the manufacture of war products; or

(3) Assure a supply of petroleum products required for blending with other petroleum products into finished war products; or

(4) Assure a suitable supply of non-war products to persons within the petroleum industry whose normal supply is reduced by supplying war products, or by operations under this directive; or

(5) Assure the use of available facilities to any person within the petroleum industry whose normal facilities or methods of handling supplies are affected by war demands or operations under this directive; or

(6) Assure the most efficient use of storage and transportation facilities.

(h) *Terms of sales, exchanges, and loans of petroleum and petroleum products, and joint use of facilities.* The terms of any such agreement authorized under and made pursuant to paragraph (g) of this directive shall be determined by negotiation between the parties thereto: *Provided:*

(1) That no rate agreed upon shall exceed the rate authorized by any applicable tariff approved by any governmental agency having jurisdiction of such rate; and

(2) That no price agreed upon shall exceed the price fixed in any applicable schedule or regulation of the Price Administrator.

(i) *Application for exception.* Any person affected by this directive or by any schedule or action of the Petroleum Administration for War provided for hereunder, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, may make application for an exception to the Petroleum Administrator for War.

(j) *Effective date.* This directive shall take effect on the date of issuance.

(E.O. 9276, 7 F.R. 10091; E.O. 9319, 8 F.R. 3687)

Issued this 14th day of October 1944.

Administrator for War.

Chapter XIV—War Contracts Price Adjustment Board

RENEGOTIATION REGULATIONS

The changes and additions to Parts 1601, 1602, 1603, 1605, 1606, 1607, and 1608 of this chapter set forth below are also contained in Revision 11 of the Renegotiation Regulations, dated October 6, 1944.

ALBERT J. BROWNING,
Brigadier General,
General Staff Corps,
Chairman.

PART 1601—AUTHORITY AND ORGANIZATION FOR RENEGOTIATION

SUBPART B—PRELIMINARY MATERIAL

Section 1601.128 is amended to read as follows:

§ 1601.128 *Copies of Renegotiation Regulations.* The Renegotiation Regulations, along with current supplements embodying additions and amendments thereto as published in the FEDERAL REGISTER, are available in loose leaf form for a subscription price of \$2.00 from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. [RR 128]

PART 1602—PROCEDURE FOR RENEGOTIATION

SUBPART A—ASSIGNMENTS FOR RENEGOTIATION AND CANCELLATIONS

In § 1602.205 the fourth sentence of paragraph (a) is amended, and a sentence is added at the end of paragraph (b), as follows:

§ 1602.205 *Reassignment of cases—*
(a) *When cases reassigned.* The War Contracts Board will reassign a case to another Department or Service if it appears that efficiency of renegotiation procedure will be promoted thereby. Such reassignments may be based upon inter-company affiliations or transactions, substantial predominance of interest or the principle of assignment by product classification. Reassignments may be suggested by the Departments, Services, or other Agencies. The use of the form set forth at § 1607.703 (c) is recommended for this purpose, and all requests for reassignment shall contain a statement of the name and address of the office at which the file for the fiscal year under review may be obtained. Reassignments may also be initiated by the War Contracts Board or by the Assignments and Statistics Branch of its own motion. A case will not be withdrawn from any Department without that Department's approval except by express direction of the War Contracts Board, nor will a reassignment become effective if objection to such reassignment is filed in writing by a Department with the Assignments and Statistics Branch within 10 days following receipt of such reassignment unless such objection is overruled by action of the War Contracts Board. The Assignments and Statistics Branch may withdraw an assignment from a War Department Service without its approval. [RR 205.1]

(b) *Transfer of information on reassignments.* Upon notice that a case has been reassigned, there will be transmitted directly to the Department or Service holding the reassignment all information obtained from the contractor relating to the fiscal period subject to renegotiation. Upon request, the file will be transmitted directly to the field or section office to which the reassignment is made. [RR 205.2]

PART 1603—DETERMINATION OF RENEGOTIABLE BUSINESS AND COSTS

SUBPART C—CONTRACTS AND SUBCONTRACTS WITHIN THE SCOPE OF THE 1943 ACT

1. In § 1603.332, paragraph (f) is amended and paragraph (j) is added, as follows:

§ 1603.332 *Contracts with the Department.* * * *

(f) *Army Post Exchange and Army Exchange Service contracts.* Contracts with Army Post Exchanges or with the Army Exchange Service are not subject to statutory renegotiations. Contracts entered into by the Quartermaster Corps are War Department contracts and are subject to renegotiation even though some or all of the articles contracted for are intended to be and are assigned to or resold to an Army Post Exchange or the Army Exchange Service. [RR 332.6]

(j) *Contracts involving named departments and Departments or agencies other than named Departments.* In connection with centralized government procurement, certain of the named Departments and other governmental agencies execute contracts pursuant to which the articles contracted for may be delivered to and paid for by other departments or agencies. As a general rule, the renegotiability of such contracts depends upon whether the contract is with a named Department and not upon whether a named Department receives delivery of, or pays for, the articles purchased. The following situations are illustrative of the foregoing principle:

(1) The War Department purchases articles under contracts which state that the contract is for general utilization by all arms, services and bureaus, and that deliveries and payments will be made in accordance with instructions to be issued subsequently. The War Department then authorizes the other interested agencies or departments to issue instructions to certain designated contractors for a specified quantity of the articles, and notifies the contractor of such authorizations. The War Department retains the right to rescind or change the allocation made to the other agencies or departments. Such contracts are subject to renegotiation unless the War Department contract is clearly replaced by a contract with an agency other than a named Department.

(2) Food Distribution Administration manages centralized procurement of certain foods. Food Distribution Administration executes the contracts, allocates the available supply to other

interested departments or agencies (including certain of the named Departments) and is reimbursed by such interested departments or agencies. Since Food Distribution Administration is not a named Department, such contracts are not subject to renegotiation. [RR 332.10]

2. In § 1603.333 (d), a sentence is added at the end of subparagraph (1), as follows:

§ 1603.333 *General interpretation of subcontracts.* * * *

(d) *General effect of interpretation.*

(1) In general it is intended to include as subject to statutory renegotiation the sale of all machinery, equipment, materials and other articles which contribute directly to the actual production of an end item or an article incorporated therein, in connection with the physical handling of the item from the time of entry of the component materials to departure of the item from the plant in question and to include all machinery which similarly contributed directly to the actual production of other machinery so used. Packaging materials and containers are regarded as a component part of the end product when they are used to package or contain the end product and are delivered with the end product to a Department; on the other hand, sales of packaging materials and containers which are not ultimately delivered to a Department are excluded from statutory renegotiation. (See §§ 1603.333 (c) (1), 1603.344 (e), and 1603.347 (b) (1) and (3).)

3. In § 1603.335 (b), subparagraph (6) is amended to read as follows:

§ 1603.335 *Contracts and subcontracts involving real property.* * * *

(b) *Agreements for fixtures, construction and improvements on real property.* * * *

(6) Attention is directed to the mandatory and discretionary exemption of contracts or subcontracts for the construction of buildings, structures, improvements or other similar facilities and the regulations relating thereto. (See §§ 1603.346, 1603.347, 1603.355 (c) and 1603.356.) [RR 335.2]

SUBPART D—MANDATORY EXEMPTIONS AND EXCLUSIONS FROM RENEGOTIATION

1. Paragraph (e) is added to § 1603.344 as follows:

§ 1603.344 *Contracts and subcontracts for certain raw materials and agricultural commodities.* * * *

(e) *Packaging materials and containers.* If there are delivered to a Department end products, contracts for which are exempted from renegotiation under subsections (i) (1) (B) or (C) of the 1943 Act relating to certain raw materials or agricultural commodities, the exemption of the end products extends to and includes the packages or containers in which the end products are delivered to the Department. (See § 1603.333 (c) (1) and (d) (1), and § 1603.347 (b) (1) and (3).) [RR 344.5]

2. In § 1603.346 (b) subparagraphs (1) (ii) and (2) are amended to read as follows:

§ 1603.346 *Construction contracts awarded as a result of competitive bidding.* * * *

(b) *Interpretation and application of exemption.* (1) * * *

(ii) The contract is for the construction of a building, structure, improvement or similar facility. A contract will be deemed to be for the construction of a building, structure, improvement or similar facility if the subject matter of the contract is the construction or installation of the whole or any integral part of building, structure, improvement or similar facility. The exemption has, however, no applicability to contracts for the furnishing of materials or supplies, as such, even if such materials or supplies are to be used in the construction of a building, structure, improvement or similar facility; nor has the exemption any applicability to contracts for the furnishing of machinery or equipment which has or may have a productive function in connection with processing.

(2) In distinguishing a contract for the construction of a building, structure, improvement or similar facility from a contract for the furnishing of machinery or equipment as described in subparagraph (1) (ii) of this paragraph, regard is to be had to the subject matter of the contract. To the extent that the subject matter of the contract involves the furnishing or the furnishing and installation of machinery or equipment which has or may have use in processing, within the principles stated in § 1603.333 (c), the contract will not be deemed to be a contract for the construction of a building, structure, improvement or similar facility, but will be regarded as a contract for the furnishing of machinery or equipment, in accordance with the principles set forth in § 1603.335 (b) (2) and (5). In a case where the construction or installation of the whole or any integral part of a building, structure, improvement or similar facility and the furnishing of machinery or equipment are embraced within a single contract, the undertaking for the construction or installation of the building, structure, improvement or similar facility may be severed from the undertaking to furnish the machinery or equipment and an appropriate finding made as to that portion of the entire contract which may properly be deemed exempt.

3. In § 1603.347 (b), subparagraph (3) is added as follows:

§ 1603.347 *Subcontracts under exempt contracts and subcontracts.* * * *

(b) *Interpretation and application of exemption.* * * *

(3) Subcontracts for the furnishing of packaging materials and containers in which there are delivered materials or products which are exempt from renegotiation under the provisions of subsec-

tions (i) (1) (B) or (C) of the 1943 Act relating to certain raw materials or agricultural commodities or which are otherwise exempt under paragraph (i) (1) of the 1943 Act (see §§ 1603.333 (c) (1) and (d) (1), 1603.344 (e), and 1603.347 (b) (1)) constitute subcontracts under exempt prime contracts and are exempt from renegotiation under the provisions of subsection (i) (1) (F) of the 1943 Act. [RR 347.2]

SUBPART E—PERMISSIVE EXEMPTIONS FROM RENEGOTIATION

1. In § 1603.352 (b) a sentence is added at the end of subparagraph (3), as follows:

§ 1603.352 *Contracts and subcontracts where profits determinable when price established.* * * *

(b) *Exemptions.* * * *

(3) For an exemption relating to certain contracts and subcontracts involving electric power, gas, transportation and communications and subcontracts thereunder, see § 1608.842. For an exemption relating to perishable foods, see § 1608.843. [RR 352.2]

2. In § 1603.355 (c), a sentence is added at the end of subparagraph (1) and subparagraph (1) (i) is amended, so that subparagraph (1) reads as follows:

§ 1603.355 *Contracts and subcontracts when effective competition is likely to exist.* * * *

(c) *Application of exemption to construction contracts and subcontracts.* (1) The War Contracts Board has found that competitive conditions affecting the making of construction contracts and subcontracts entered into subsequent to June 30, 1943, were such as to result in effective competition with respect to the contract or subcontract price where all of the following conditions exist:

(i) The contract or subcontract is for the construction of a building, structure, improvement or similar facility. A contract or subcontract will be deemed to be for the construction of a building, structure, improvement or similar facility if the subject matter thereof is the construction or installation of the whole or any integral part of a building, structure, improvement or similar facility. The exemption has, however, no applicability to contracts or subcontracts for the furnishing of materials or supplies, as such, even if such materials or supplies are to be used in the construction of a building, structure, improvement or similar facility; nor has the exemption any applicability to contracts or subcontracts for the furnishing of machinery or equipment which has or may have a productive function in connection with processing;

(ii) The contract or subcontract did not constitute a substitute for or a revision or extension of an existing contract or subcontract entered into on or before June 30, 1943;

(iii) The work covered by the contract was substantially the same as the work for which the bids were requested;

(iv) Bids were received from two or more independent, responsible and qualified bidders in actual competition with each other; and

(v) The contract or subcontract was let to the lowest qualified bidder, at a price not in excess of the low bid;

or where the subcontract is a construction contract which (a) meets the conditions prescribed in subdivision (i) above, and (b) is a subcontract under a contract or subcontract exempt from renegotiation under the foregoing provisions of this § 1603.355 (c). Accordingly, the War Contracts Price Adjustment Board, in accordance with subsection (i) (4) of the Renegotiation Act, has exempted such contracts and subcontracts from all of the provisions of the act.

SUBPART H—COSTS ALLOCABLE AND ALLOWABLE AGAINST RENEGOTIABLE BUSINESS

In § 1603.382 (c) subparagraph (2) is amended to read as follows:

§ 1603.382 *Salaries, wages and other compensation.* * * *

(c) *Wage and salary stabilization.* * * *

(2) The Director of Economic Stabilization has issued regulations effective October 27, 1942 and amended regulations effective August 28, 1943.

PART 1605—AGREEMENTS AND STATEMENTS

SUBPART A—AGREEMENTS AND CLEARANCES

In § 1605.502, the third sentence of paragraph (e) (3) is amended, and a sentence is added at the end of paragraph (f), as follows:

§ 1605.502 *Standard form of agreement.* * * *

(e) *Article 4: Terms of payment.* * * *

(3) Responsibility for the collection of, and for the maintenance of records concerning, any amounts due the RFC Price Adjustment Board under renegotiation agreements, shall rest with the RFC Price Adjustment Board, and any such agreements providing for refunds to the RFC under the 1943 Act shall be referred to the RFC Price Adjustment Board for the collection of that portion of the refund payable to that Board. The Department conducting the renegotiation will retain responsibility for the collection of only that portion of the refund which is payable into the Treasury of the United States. In such cases, an authenticated copy of the renegotiation agreement and tax credit computation letter shall be forwarded to the RFC Price Adjustment Board. The Assignments and Statistics Branch should be promptly notified of any default in the collection of any installment due under such agreements and the enforcement of the obligations under the agreement properly coordinated under the supervision of the War Contracts Price Adjustment Board.

(f) *Article 5: Article requiring elimination of additional excessive profits.* The provision set forth in § 1607.741 (a) of these regulations is designed to protect the interest of the Government if by reason of reduction of certain costs shown as paid or incurred, in the financial data submitted by the contractor, the profits of the contractor for the period covered by the renegotiation from

contracts or subcontracts subject to the Renegotiation Act of 1943 are increased. This article should be omitted if the amount of excessive profits to be refunded is limited by the provisions of § 1603.348 (c) and the renegotiation agreement contains the paragraph set forth in the footnote to Article 1 in the Standard Form of Agreement set forth in § 1607.741 (a). Pursuant to authority duly delegated by the War Contracts Price Adjustment Board, a renegotiation proceeding was duly commenced with _____ (hereinafter called the "Contractor") with respect to the aggregate of the amounts received or accrued by the Contractor under contracts with the Departments and subcontracts as defined in the Renegotiation Act (such contracts and subcontracts being hereinafter collectively referred to as "said contracts") for the Contractor's fiscal year ended _____ (hereinafter called "said fiscal year").

In connection with such renegotiation proceeding, a conference was held with the Contractor at or in connection with which there were submitted by the Contractor and obtained from governmental or other reliable sources, certain financial, operating and other data relating to the Contractor's business and the Contractor's profits derived from said contracts with the Departments and such contracts during said fiscal year. At and in connection with such conference the Contractor has been afforded full opportunity to submit such additional information and to present such contentions as the Contractor deemed material to a determination of excessive profits within the meaning of the Renegotiation Act.

In determining the excessive profits hereinafter determined, due consideration has been given to all such financial, operating and other data and information so furnished or obtained, to each of the contentions so presented, and to all of the factors referred to in subsection (a) (4) (A) of the Renegotiation Act.

As a result of such renegotiation it is hereby determined that _____ Dollars (\$_____) represents the portion of the Contractor's profits derived from said contracts with the Departments and subcontracts for said fiscal year, which is excessive within the meaning of the Renegotiation Act. After proper adjustment on account of taxes, other than Federal taxes, measured by income which are attributable to that portion of the Contractor's profits derived from said contracts with the Departments and subcontracts for said fiscal year which is not excessive, it is hereby determined that the amount of excessive profits of the Contractor for said fiscal year which should be eliminated is _____ Dollars (\$_____).

This order will be deemed the determination of the War Contracts Price Adjustment Board upon the conditions prescribed in subsection (d) (5) of the Renegotiation Act. and the Director of Economic Stabilization being advised that substantial portion of the crop of Blue Rose, Southern Pearl, Zenith, Early Prolific, and Lady Wright varieties of rough rice have moved to market, that the War Food Administration agrees to the proposed changes in the maximum prices for the Edith, Fortuna, Nira, Rexoro, and Texas Patna varieties of rough rice, and that the proposed changes in maximum prices for the latter varieties will result in prices which are fair and equitable to producers and (in view of the present maximum prices for milled rice) to millers;

It is hereby found that adoption of those changes in the maximum prices for the Edith, Fortuna, Nira, Rexoro, and Texas Patna varieties produced in the southern states is necessary to effectuate the policy of Executive Orders 9250 and 9328.

Therefore, the Office of Price Administration is authorized and directed to establish maximum prices for the following varieties of rough rice produced in the southern states as follows:

Name:	Price (per barrel)
Rexoro and Texas Patna.....	\$7.30
Nira.....	7.00
Fortuna.....	6.40
Edith.....	6.40

and to make no changes either in maximum prices for milled rice or in maximum prices for other varieties of rough rice.

Issued this 24th day of October 1944.

Chapter XXI—Office of War Mobilization

TERMINATION OF WAR CONTRACTS

PROCESSING OF UNCOMPLETED ITEMS; RETENTION OF WORK-IN-PROCESS BY CONTRACTOR; TAKING OVER OF CONTRACTS BY OTHER AGENCIES OR GOVERNMENTS

By virtue of the authority vested in me by section 101 (c) (2) and pursuant to section 202 of the War Mobilization and Reconversion Act of 1944, I hereby prescribe the following regulations relating to the termination of war contracts:

1. Production under war contracts should not be continued for items or quantities beyond military needs, and processing will be stopped immediately upon notification of termination covering the items concerned, regardless of the state of completion thereof, except where it is considered that additional processing is required for reasons of safety, to clear or avoid damage to production equipment, or to avoid immediate complete spoilage of work-in-process having a definite commercial value. Such additional processing should be carried out to the first practical stop-work stage: *Provided*, That no new materials will be introduced into the process for the purpose of producing a completed article, except to the extent required by the above. Contracting agen-

cies should agree, to the greatest extent practicable, with contractors in advance of termination or specify in the notice of termination, the points or stages at which work under a terminated war contract is to be stopped.

2. Where, in advance of termination, the contractor agrees to retain work-in-process for the purpose of continuing production for his own account, work will be halted as necessary and the inventory checked at such points or stages of production agreed to in accordance with paragraph (1) above. The agreed retention values of the work-in-process to be retained by the contractor shall be an amount which, in the opinion of the contracting officer from available data, is greater than the net proceeds that could reasonably be expected to be obtained if the work-in-process were offered for general sale and would result in a savings in the amount which would otherwise have been payable by the Government as fair compensation for the termination of the contract. Where a contractor and the contracting agency are unable to agree upon a reasonable retention value, contracting agencies are authorized to continue production to prevent an undue loss to the Government on the production to date: *Provided*, That in the opinion of the contracting agency from available data, the realizable values of the work-in-process if work were halted immediately, plus the cost of additional processing to get a usable end product or component, would be less than the amount obtainable at such stage at which there is a reasonable ascertainable use or opportunity to dispose of the item.

3. Where the end item is desired for use by any responsible governmental agency other than the contracting agency or by responsible civilian agencies for use in civil relief for liberated and occupied countries, work-in-process should be completed to the extent desired by such agencies. Such completion should be authorized, however, only when advance arrangements have been made with these governmental or civilian agencies to take over specific contracts at the contract price.

JAMES F. BYRNES,
*Director of War Mobilization
and Reconversion.*
