#### PART 734—CONSERVATION MATERIALS AND SERVICES PROGRAMS

##### FIXING OF FAIR PRICES

The regulations governing the fixing of fair prices for conservation materials and services acquired under purchase orders (8 F.R. 17255), § 734.1, issued by the Assistant War Food Administrator on December 22, 1943, are hereby completely revised to read as follows:

§ 734.1 *Regulations governing the fixing of fair prices for conservation materials and services acquired under purchase orders*—(a) *Delegation to the Chief of the Agricultural Adjustment Agency.* The Chief of the Agricultural Adjustment Agency shall designate the conservation materials and services which may be furnished under purchase orders in connection with the agricultural conservation program, the persons who shall determine the fair prices, and the method of making such determination: *Provided, however,* That any such determination shall be made in accordance with the provisions of paragraphs (b), (c), (d), and (e), hereof.

(b) *Materials.* A fair price shall be the price at which vendors in an area should be able to supply a material for local delivery under purchase orders, taking the following into consideration, to the extent they can be ascertained:

(1) The prices which farmers are currently paying for the material through local supply channels,

(2) The prices at which farmers could obtain the same material through other than local channels, and

(3) The actual or estimated cost to the vendor and a reasonable margin for handling and profit.

(c) *Services.* A fair price shall be the price at which a vendor equipped to perform a service agrees to furnish it at a given time and under a given set of con-

ditions, providing it is not excessive in relation to:

(1) The prices which farmers are currently paying for the same or a similar service under the same or similar conditions, and

(2) The actual or estimated cost to the vendor and a reasonable margin for profit.

(d) *Ceiling prices.* Notwithstanding the provisions of paragraphs (b) and (c) hereof, no fair price may be set which is higher than the highest ceiling price at which any vendor in the area covered is authorized to sell a material or service under the General Maximum Price Regulation or other applicable regulations issued by the Office of Price Administration.

(e) *Defective material.* A material shall be deemed not to have been furnished at a fair price if it is determined that the material does not meet quality specifications. At the option of the Agricultural Adjustment Agency such material shall be rejected, or accepted subject to a deduction equal to three times the difference between the value of the material of the quality specified and the material of the quality furnished.

The field is of signal green upon which is imposed a white circle 2 feet 11 inches in diameter whose center is approximately 2 feet 11½ inches from the hoist and 2 feet from the top and bottom of the flag. Superimposed upon that circle is a signal red letter "M" whose posts are 1 foot 8½ inches high and 5 inches wide. The blade of that letter comes to a point on the base line of the posts.

(b) *Funnel mark.* The funnel mark consists of a black band at the top of the funnel from 4 to 6 feet deep, depending upon the shape of the funnel. Immediately below that black band there is a signal green band 6 feet deep. Below those bands the funnel is buff. In or forward of the center of each side of

Chapter I—Bureau of Internal Revenue  
Subchapter A—Income and Excess Profits Taxes  
[T. D. 5423]

## PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

## INVENTORIES OF LIVESTOCK RAISERS AND OTHER FARMERS

Regulations 111 (26 CFR, Cum. Supp., Part 29) are amended as follows:

PARAGRAPH 1. Section 29.22 (c)-2 is amended by striking the first sentence of the fourth paragraph and inserting in lieu thereof the following:

In respect of normal goods, whichever basis is adopted must be applied with reasonable consistency to the entire inventory except as to those goods inventoried under the elective method authorized by section 22 (d) or to animals inventoried under the elective "unit-livestock-price method" authorized by § 29.22 (c)-6.

PAR. 2. Section 29.22 (c)-6 is amended by striking the fourth paragraph and inserting in lieu thereof the following:

Because of the difficulty of ascertaining actual cost of livestock and other farm products, farmers who render their returns upon an inventory basis may value their inventories according to the "farm-price method," and farmers raising livestock may value their inventories of animals according to either the "farm-price method" or the "unit-livestock-price method."

The "farm-price method" provides for the valuation of inventories at market price less direct cost of disposition. If this method of valuing inventories is used, it must be applied to the entire inventory except as to livestock inventoried, at the taxpayer's election, under the "unit-livestock-price method." If the use of the "farm-price method" of valuing inventories for any taxable year involves a change in method of valuing inventories from that employed in prior years, permission for such change shall first be secured from the Commissioner as provided in § 29.41-2.

The "unit-livestock-price method" provides for the valuation of the different classes of animals in the inventory at a standard unit price for each animal within a class. A livestock raiser electing this method of valuing his animals must adopt a reasonable classification of the animals in his inventory with respect to the age and kind included so that the unit prices assigned to the several classes will reasonably account for the normal costs incurred in producing the animals within such classes. Thus, if a cattle raiser determines that it costs approximately \$15 to produce a calf, and \$7.50 each year to raise the calf to maturity, his classifications and unit prices would be as follows: calves, \$15; yearlings, \$22.50; two-year olds, \$30; mature animals, \$37.50. The classification selected by the livestock raiser, and the unit

prices assigned to the several classes, are subject to approval by the Commissioner upon examination of the taxpayer's return.

A taxpayer who elects to use the "unit-livestock price method" must apply it to all livestock raised, whether for sale or for breeding, draft, or dairy purposes. Once established, the unit prices and classifications selected by the taxpayer must be consistently applied in all subsequent years in the valuation of livestock inventories. No changes in the classification of animals or unit prices will be made without the approval of the Commissioner.

A livestock raiser who uses the "unit-livestock price method" must include in his inventory at cost any livestock purchased, except that animals purchased for breeding, dairy, or draft purposes can, at the election of the livestock raiser, be included in inventory or be treated as capital assets subject to depreciation after maturity. If the animals purchased are not mature at the time of purchase, the cost should be increased at the end of each accounting year in accordance with the established unit prices, except that no increase is to be made in the year of purchase if the animal is acquired during the last six months of that year. If the records maintained permit identification of a purchased animal, the cost of such animal will be eliminated from the closing inventory in the event of its sale or loss. Otherwise, the first-in first-out method of valuing inventories must be applied.

If a taxpayer using the "farm-price method" desires to adopt the "unit-livestock-price method" in valuing his inventories of livestock, permission for the change shall first be secured from the Commissioner as provided in § 29.41-2. However, a taxpayer who has filed returns on the basis of inventories at cost, or cost or market whichever is lower, may adopt the "unit-livestock-price method" for valuing his inventories of livestock for taxable years beginning after December 31, 1943 without formal application for permission, but the classifications and unit prices selected are subject to approval by the Commissioner upon examination of the taxpayer's return. A livestock raiser who has, for taxable years beginning prior to January 1, 1944, adopted a constant unit price method of valuing livestock inventories and filed returns on that basis will be considered as having elected the "unit-livestock-price method."

Section 602.517 (b) is amended to read as follows:

(b) *Restrictions on receipts by industrial consumers of coal produced in Districts 9, 10 and 11 (Group A).* (1) If you are an industrial consumer having 90 or less days' supply of bituminous coal, you are prohibited from receiving during any calendar month beginning with January 1945 coal produced in Districts 9, 10 and 11 (Group A), or any such districts, in an amount greater than 100 per cent of your monthly consumption requirements.

(2) If you are an industrial consumer having 91 to 120 days' supply of bituminous coal, you are prohibited from receiving during any calendar month beginning with January 1945 coal produced in Districts 9, 10 and 11 (Group A), or any such districts, in an amount greater than 80 per cent of your monthly consumption requirements, except that you are not required to maintain less than a 90 days' supply of coal.

(3) If you are an industrial consumer having in excess of 120 days' supply of bituminous coal, you are prohibited from receiving during any calendar month beginning with January 1945 coal produced in Districts 9, 10 and 11 (Group A), or any such districts, in an amount greater than 60 per cent of your monthly consumption requirements, except that you are not required to maintain less than a 90 days' supply of coal.

This amendment shall become effective immediately.

TITLE 32—NATIONAL DEFENSE  
Chapter VI—Selective Service System  
[Amdt. 270]

PART 622—CLASSIFICATION  
LENGTH OF DEFERMENTS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 622.22-2 by adding paragraphs (c), (d), (e), (f), and (g) to read as follows:

§ 622.22-2 *Length of deferments in Class II-A and Class II-B.* \* \* \*

(c) When a registrant in Class II-A or Class II-B (including a registrant identified with the letter "(F)" or the letter "(L)") voluntarily leaves the employment for which he was deferred, he shall be reclassified into Class I-A, Class I-A-O or Class IV-E, unless before leaving such employment he requests a determination and a determination is made (1) that it is in the best interest of the war effort for him to leave such employment for other work, or (2) that there are adequate reasons involving the registrant or his immediate family which justify the registrant in leaving such employment.

(d) If the registrant leaves the employment for which he was deferred without first requesting the local board to make the determination provided for in paragraph (c) of this section, the local board may nevertheless determine (1) that it was in the best interest of the war effort for the registrant to have left such employment for other work, or (2) that there were adequate reasons involving the registrant or his immediate family which justified the registrant in leaving such employment; *Provided*, That the local board finds that the registrant's failure to request such determination was due to unusual or compelling circumstances, in which case the registrant shall not be placed in Class I-A, Class I-A-O, or Class IV-E under this section.

(e) Any registrant in Class II-A or Class II-B (including a registrant identified with the letter "(F)" or the letter "(L)") may file with his local board a written request for a determination under paragraph (c) or (d) of this section. When the registrant's local board has made a determination upon such request, it shall advise him thereof in writing.

(f) The provisions of paragraphs (c), (d), and (e) of this section shall not apply to any registrant who has been separated from the land or naval forces on or after September 16, 1940, under conditions other than dishonorable.

(g) Nothing in this section shall be construed to require the local board to retain in Class II-A or Class II-B any registrant when the reason for his occupational classification has ceased to exist.

The foregoing amendment to the Selective Service regulations shall be effective within the continental United States as of December 12, 1944, and shall

be effective outside the continental limits of the United States on January 11, 1945.

PART 608—EXPENDITURES OTHER THAN FOR  
PERSONAL SERVICES  
EMERGENCY MEDICAL CARE, HOSPITALIZATION,  
AND TRANSPORTATION AND BURIAL OF RE-  
MAINS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend the regulations by adding a new section to be known as § 608.51 to read as follows:

§ 608.51 *Claims.* (a) Funds appropriated for the operation and maintenance of the Selective Service System are available for payment of actual and reasonable expenses of (1) emergency medical care, including hospitalization, (2) transportation of the remains, and (3) burial of the remains, in a sum not to exceed \$150 in any one case, including preparation of the body, of registrants who, on or after April 1, 1944 suffer illness, injury, or death while acting under orders issued under the selective service law.

(b) The term "emergency medical care, including hospitalization" as used in this section shall be construed to mean

that normally such medical care or hospitalization must be rendered promptly after occurrence of the illness or injury as a result of which it is required, and that discharge by a physician or facility subsequent to such medical care or hospitalization shall prima facie terminate the period of emergency.

(c) The death of a registrant shall be deemed to have occurred while acting under orders issued under the selective service law if it results directly from an illness or injury suffered by the registrant while so acting and occurs prior to the completion of any emergency medical care, including hospitalization, occasioned by such illness or injury.

(d) Claims for payment of expenses incurred for the purposes set forth in paragraph (a) of this section shall be presented to the State Director of Selective Service of the State in which the expenses were incurred, who shall determine whether the claim shall be allowed or disallowed, in whole or in part, and such determination shall be final as to the claimant.

(e) Payment of such claims when allowed shall be made only (1) directly to the person or facility with which the expenses were incurred, or (2) by reimbursement to the registrant, a relative of the registrant, or the legal representative of the registrant's estate, for original payment of such expenses.

(f) No such claim shall be paid unless presented within the period of one year from the date on which the expenses were incurred, except that claims for expenses incurred by reason of illness, injury, or death occurring on or after April 1, 1944 and prior to December 31, 1944 may be presented within one year from the latter date.

The foregoing amendment to the Selective Service regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

PART 1293—HAND TOOLS SIMPLIFICATION  
[Limitation Order L-157, Schedule V as  
Amended Dec. 16, 1944]

HAND FORKS, HAND HOOKS, HAND RAKES,  
HAND HOES, HAND EYE HOES AND HAND  
CULTIVATORS

Section 1293.6 *Schedule V to Limitation Order L-157*, is amended to read as

follows, and Appendix A to that order is amended in the respects below indicated:

§ 1293.6 *Schedule V to Limitation Order L-157—(a) Definitions.* For the purpose of this schedule:

(1) "Producer" means any person who manufactures, stamps, forges or otherwise fabricates hand forks, hand hooks, hand rakes, hand hoes, hand eye hoes, or hand cultivators.

(2) "Hand cultivator" means a tined hoe or cultivator designed for manual operation. Hand cultivator shall not include a hand wheel cultivator.

(3) "Lend-lease Government" means the government of any foreign country pursuant to the act of March 11, 1941, entitled "An Act to Promote the Defense of the United States." (Lend-Lease Act.)

(b) *Simplified practices.* No producer shall put into process any steel for the purpose of manufacturing, stamping, forging or otherwise fabricating hand forks, hand hooks, hand rakes, hand hoes, hand eye hoes, or hand cultivators other than the kinds named in Tables 1 through 6 of Appendix A and in conformity with the grades, styles, sizes, weights, finishes and other specifications set forth in Appendix A.

(c) *Exceptions to the restrictions of paragraph (b) of this Schedule V.* The restrictions of paragraph (b) shall not apply to: (1) Hand eye hoes for export under a license issued by the Foreign Economic Administration, (2) hand eye hoes to fill an order for a Lend-Lease government, (3) hand eye hoes to fill orders for the possessions of the United States, (4) hand forks, hand hooks, hand rakes and hand hoes made especially for the sea-food industry, (5) hand broom rakes, (6) hand cultivators, when the handle length is under 18 inches.

(d) *Restrictions on production and delivery of general purpose rakes.* During the period from July 1, 1944 to July 1, 1945, no producer shall manufacture or deliver more general purpose rakes than 60 per cent by weight of the general purpose rakes which he produced in either the calendar year 1940 or the calendar year 1941, whichever was greater. Orders by or for the account of the Army, Navy, Maritime Commission or Veterans' Administration shall not be charged against this quota.

(e) *The War Production Board may assign base rates of production for general purpose rakes to persons who have none.* Any person who does not have a base rate of production for making general purpose rakes and who wants to make them, may apply for a base rate of production by filing a letter with the War Production Board, Washington 25, D. C., Ref: L-157 Schedule V. This letter should state what facilities he has for this purpose. A base rate of production will be assigned on an equitable basis in view of the base rates of production of other persons in the industry, thus allowing the person to establish his quota under the terms of paragraph (d) of this schedule.

Materials will be allocated to the extent available, with the view of permitting

production where this will not require materials, facilities or labor needed for war purposes and will not otherwise adversely affect or interfere with production for war purposes.

(f) *Records.* Each producer of hand forks, hand hooks, hand rakes, hand hoes, hand eye hoes, or hand cultivators shall execute and file with the War Production Board such reports and questionnaires as the Board shall from time to time require, subject to the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.

Issued this 16th day of December 1944.

WAR PRODUCTION BOARD,  
By J. JOSEPH WHELAN,  
Recording Secretary.

APPENDIX A—EXPLANATIONS AND LIMITATIONS

NOTE: In Table 1, item "Alfalfa" and footnote g added Dec. 16, 1944.

(1) *Grades.* A, B, and C designate qualities of complete tools; A designating the best

quality. Limitations applying to quality are given separately at the foot of each table. Handle grades A, B, and C are defined in Simplified Practice Recommendation R76-40, Ash Handles, issued by the National Bureau of Standards, United States Department of Commerce. Handle grade requirements shall not be construed as prohibiting the substitution for ash of other suitable species of wood having characteristics as nearly comparable as possible to the respective grades of ash for which they are substituted, provided all handles other than ash be marked with the name of the species of wood of which they were made.

(2) *Finishes.* Except where otherwise stated, blades and tines shall be natural finish, i. e., dipped in their natural state (except that they may be wire brushed to remove scale or rust) in paint, enamel, lacquer, or other protective coating. Wood handles shall be finished so that the grain of the wood is plainly visible.

(3) [Deleted Mar. 10, 1944]

(4) *Tolerances.* Dimensions and weights given herein are subject to commercial tolerances.

\* Grade A forks shall have grade A handles; grade B forks, grade B handles; and grade C forks, grade C handles.  
 † All handles shall be of the bent type, except those of hay forks, which may be either straight or bent type. Those identified by the initials DT shall be D-top handles. The longest handle length listed is the maximum for the fork to which it applies. Where a range is given it indicates the commercial practice of furnishing long handles in 6-inch increments, including the shortest and longest listed, e. g., 4-5 1/2 ft. means 4, 4 1/2, 5, and 5 1/2-foot handles. Handles are not required to conform to the listed sizes, but shall not exceed the maximum length listed.  
 ‡ The approximate weight per dozen is given for the highest grade listed. It is intended only to fix within reasonable limits the weight of the fork proper.  
 § With 4 1/2-foot handles.  
 ¶ Including bails and braces.  
 †† Grade B spading forks to have tines half polished on face, tumbled back.  
 ‡‡ A producer may manufacture either the header fork or the alfalfa fork, but not both of them.

Grade A hoes shall have grade A handles; grade B, grade B handles; and grade C, grade C handles. The blades of grade A and grade B hoes shall be polished front and back; the blades of grade C hoes shall be polished front and back for the first third of their height. Scuffles and mattock hoes shall be made only in natural finish.  
 \* The dimensions given are the diameters of the shanks in inches. "X" means no dimension is specified.  
 "None" means no hoe to be made in such construction type.  
 \* Weight per dozen is that for highest grade listed, with handle of length listed.  
 \* Blade may be attached to shank by riveting or any other satisfactory method.  
 \* Maximum.  
 \* Plain blade; perforated blade approximately one pound lighter per dozen.

This provision does not apply to the Armed Forces, including post exchanges and ship's service stores.

(e) *Maintenance of production of hot drink cups and flat-bottom cold drink cups.* To meet the requirements of in-plant feeding operations, manufacturers of hot drink cups and flat-bottom cold drink cups shall maintain during each calendar quarter a production of these items equivalent to the highest quarterly production attained during any calendar quarter beginning on or after October 1, 1943, to the extent permitted by paragraph (i) and subject to contingencies beyond his control.

(f) *Distribution of production between military and civilian requirements.* (1) Regardless of preference ratings on other orders, each manufacturer of paper cups must set aside the following percentages of his production of paper cups in each month beginning with October, 1944, for delivery to the Army and the Navy (excluding domestic post exchanges and ship's service stores, but including those located outside of continental United States) in the sizes ordered by them: 35 per cent of his monthly production of 6 to 9 ounce hot drink cups inclusive (not more than 60 per cent of the total production of any one size to be produced need be included in the set-aside); 70 per cent of his monthly production of 6 to 9 ounce flat-bottom cold drink cups inclusive; 100 per cent of his monthly production of 10 to 24-ounce flat-bottom cold drink cups inclusive. For the month of January, and each succeeding month, he must make this set-aside in the following proportion to the Army and the Navy: Seventy per cent of each of the above specified three classes of cups to be set-aside shall be reserved exclusively to fill Army orders received on or before the 15th day of the preceding month, and the remaining thirty per cent shall be similarly reserved for the Navy. Any unorderd portion of the Army set-aside shall be further reserved exclusively to fill Navy orders received on or before the 22nd day of the preceding month, and any unorderd portion of the Navy set-aside shall be similarly reserved for the Army. In the event that on the 23rd day of any preceding month, any portion of either the Army's or the Navy's set-aside remains unorderd, such portion must be sold as provided in paragraph (f) (2). Set-asides under this paragraph shall be computed on the basis of number of cups.

The production and delivery of any of the above types of cups prior to October 14, 1944, in compliance with paragraph (g) of Order L-336 as amended August

29, 1944, shall not constitute a violation of this paragraph.

(2) The balance of each manufacturer's production of hot drink cups and flat-bottom cold drink cups shall be used exclusively to fill orders other than Army and Navy orders (excluding domestic post exchanges and ship's service stores, but including those located outside the continental United States) in accordance with Priorities Regulation 1 and the provisions of this order.

(3) Any distributor who delivers hot drink cups or flat-bottom cold drink cups to the Army and Navy, including post exchanges and ship's service stores outside continental United States, shall notify the manufacturer who supplied him with the cups, giving the contract or purchase number, and the cups so sold shall be deducted from the set-aside for the following calendar month by the manufacturer. No manufacturer shall make any deduction from the set-aside because of deliveries made by a distributor, unless he has received the above information from the distributor.

(g) *Use of MRO preference ratings.* (1) Subject to the other provisions of this order, any person may use the blanket MRO rating assigned to him by any regulation of the War Production Board including CMP Regulation 5, CMP Regulation 5A, and orders in the P or U series to buy paper cups for in-plant feeding. Also, a caterer or concessionaire may use his customer's blanket MRO rating to buy paper cups for use in providing in-plant feeding to employees of the customer. Furthermore, persons whose employees are being fed may distribute paper cups obtained by them to the person who is engaged in in-plant feeding of their employees.

(2) Except as permitted above for caterers and concessionaires for in-plant feeding, blanket MRO ratings may not be used to get paper cups for commercially packaging food or other products for shipment or delivery. Also, persons engaged in in-plant feeding operations may not use their blanket MRO ratings to buy paper cups which are to be sent to a commercial food packer to be filled and returned to the plant for in-plant feeding.

(h) *Certification.* No person shall sell or deliver any hot drink cups after October 26, 1944, unless he has received from the purchaser a certification signed manually or as provided in Priorities Regulation 7. This certification shall be in substantially the following form and, once filed by a purchaser with a supplier, covers all future deliveries from the supplier to that purchaser:

The undersigned purchaser certifies, subject to criminal penalties for misrepresentation, that he is familiar with Order L-336 of the War Production Board, and that all purchases from you of items regulated by that order, and the use of the same by the undersigned will be in compliance with the order, as amended from time to time.

#### GENERAL RESTRICTIONS

(i) *Restrictions on tonnage of sanitary food container stock to be processed.* No manufacturer of sanitary food con-

tainers shall accept delivery of any sanitary food container stock except as authorized by the War Production Board pursuant to Appendix B in Order M-241. A manufacturer may use the stock allocated to him only for the purpose for which it was allocated.

(j) *Inventory.* No person shall accept, have set aside or held for his account, any quantity of sanitary food containers which will increase his inventory for such containers to more than his reasonably anticipated requirements for the next 45 days, except that, whenever his inventory is less than a 45-days' supply, he may accept the minimum delivery required by his supplier under a published price list or sales policy in effect on October 29, 1943. No person shall order any quantity of sanitary food containers for delivery to him or for his account on any date, if receipt thereof on that date would increase his inventory of such containers to more than the amount permitted in the first sentence of this paragraph. This provision does not apply to the Armed Forces, Post Exchanges and Ship's Service Stores.

(k) *Appeals.* Appeals from Order L-336 shall be filed by addressing a letter to the appropriate field office of the War Production Board.

The letter of appeal need not follow any particular form. It should state informally, but completely, the particular provisions appealed from, the precise relief desired, the reasons why denial of the appeal would result in undue and excessive hardship, and such other statistical and narrative information as may be pertinent.

(l) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) *Reports.* Any person affected by this order shall file such reports and questionnaires as the War Production Board may request from time to time subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(n) *Communications.* All inquiries relating to this order other than requests for authorization or appeals shall be addressed to the War Production Board, Containers Division, Washington 25, D. C., reference Order L-336.

Issued this 15th day of December 1944.

endar quarter deliver to any one person more than 25 pounds of any Class A dyestuffs and no one person shall in any calendar quarter accept a total of more than 25 pounds of any Class A dyestuffs for use in the United States or Canada, except for export within the limitations prescribed in paragraph (c) *Restrictions on export* and except as provided in paragraph (d) *General exceptions*. However, in any quarter any person may deliver or accept delivery of Class A dyestuffs in an amount not in excess of 25% of his quota of Class B dyestuffs, pro-

vided, however, that his total deliveries or acceptances of deliveries of Class A and Class B dyestuffs shall not exceed the amount of his Class B quota.

(2) *Class B, C and D quotas*. Except as provided in paragraph (d) (*General exceptions*) and in paragraph (b) (3), no person shall in any calendar quarter, deliver any Class B, C, or D dyestuffs for use in the United States or Canada or accept delivery of any Class B, C, or D dyestuffs for use in the United States, in excess of the quantities specified in the following schedule:

May deliver	May accept delivery
Class B. 20% of combined amount of Class A and B dyestuffs delivered to all persons in 1941 for such use plus 250 pounds.	20% of combined amount of Class A and B dyestuffs received from all sources in 1941, plus 250 pounds.

Class C. 15% of value of Class C dyestuffs delivered to all persons in 1941 for such use plus \$250 value.	15% of value of Class C dyestuffs received from all sources in 1941, plus \$250 value.
Class D. 17½% of value of Class D dyestuffs delivered to all persons in 1941 for such use plus \$250 value.	17½% of value of Class D dyestuffs received from all sources in 1941, plus \$250 value.

(For the purpose of Class D quota, in determining the value of dry and wet dispersions of organic pigments, only the organic pigment content for such dispersions shall be considered and it shall be based on the value of a comparable dry pigment.)

(3) *Acceptance of delivery of dyestuffs for redyeing used apparel and household furnishings*. Except as provided in paragraph (d) no person shall in any calendar quarter accept delivery of any Class B, C or D dyestuffs for redyeing used apparel and household furnishings in the United States in excess of the quantities specified in the following schedule:

Class B. 25% of combined amount of Class A and B dyestuffs received from all sources in 1941, plus 250 pounds.

(For the purpose of Class B quota, calculate in pounds of equivalent single strength Anthraquinone vat dyes. The poundage may be increased to equal 25 or a multiple thereof.)

Class C. 25% of value of Class C dyestuffs received from all sources in 1941, plus \$250 value.

Class D. 25% of value of Class D dyestuffs, received from all sources in 1941, plus \$250 value.

The seller may rely upon a signed statement by the buyer that he is authorized to accept delivery under this subparagraph (3). If he has knowledge of this fact, he may waive the signed statement.

(4) *Quota adjustments*. For the purpose of the Class B, C and D quotas, referred to in the above schedule:

(i) *Use by producer*. Amounts of dyestuffs which are or have been used by a producer in any calendar quarter or in 1941, shall be considered as having been delivered to such person in such quarter or in 1941, as the case may be.

(ii) *Credit for returned dyestuffs*. Amounts of dyestuffs returned to a vendor prior to the 22nd day after the end of the calendar quarter in which they were delivered, shall not be charged as delivered or accepted.

(iii) *Carry-over of undelivered quota*. Amounts of dyestuffs which a person

may deliver or accept which have not been delivered or accepted in any calendar quarter, may be delivered or accepted prior to the 22nd day after the end of such quarter.

(c) *Restrictions on exports*—(1) *General restrictions*. No producer shall export or deliver for export from the United States to any place other than Canada any dyestuffs produced by him, except either upon orders accompanied by individual export licenses issued by the Foreign Economic Administration (the applications for which show thereon the corresponding current domestic sales price of such dyestuffs) or upon orders from an agency of the United States for delivery pursuant to the Act of March 11, 1941, as amended, entitled "An Act to promote the Defense of the United States" (Lend-Lease Act). The total value, exclusive of the exceptions provided in paragraph (d), of dyestuffs so exported or delivered in any quarter shall not exceed:

(i) ¾ of 1% of the total value of all dyestuffs delivered by him in 1941 plus  
(ii) 17% of the total value of dyestuffs exported or delivered for export by him from the United States to all places other than Canada in 1941.

(2) *Further restrictions on Class A, B and C*. The amount of dyestuffs, exclusive of the exceptions provided in paragraph (d), produced by him which a producer may export or deliver for export from the United States to all places other than Canada in any calendar quarter, shall not exceed:

(i) As to Class A dyestuffs, ½ of 1% of the total value of all Class A dyestuffs delivered by him in 1941.

(ii) As to Class B dyestuffs, 2% of the total of all Class B dyestuffs delivered by him in 1941.

(iii) As to Class C dyestuffs, 2¼% of the total value of all Class C dyestuffs delivered by him in 1941.

(3) *Carry-over of undelivered portion of export quota*. Amounts of dyestuffs which a producer may export or deliver for export from the United States to all places other than Canada in any calendar quarter and which have not been exported or delivered for export in such quarter, may be exported or delivered for export in the following quarter in addition to the quota for that quarter. For the purposes of this subparagraph (3), all dyestuffs, other than Class A, B or C, shall be considered one class.

(d) *General exceptions*. The restrictions in subparagraphs (1), (2) and (3) of paragraph (b) (*Restrictions on delivery*) and the restrictions in paragraph (c) (*Restrictions on export*) shall not apply to the delivery or acceptance of delivery of dyestuffs.

(1) To or by the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the United States Post Office, the Government Printing Office, the Bureau of Engraving and Printing or the Government of Canada;

(2) For ultimate delivery to any of the agencies mentioned in subparagraph (1) of this paragraph (d), or for use, to the extent specified in the prime contract, in the manufacture of any item which is being produced for any of said agencies;

(3) For use in the manufacture of materials for uniforms as described in subdivisions (i) to (ix), inclusive, of paragraph (e) (1) of General Limitation Order L-224 (Clothing for Men and Boys) and in paragraph (d) (10) of General Limitation Order L-85 (Apparel for Feminine Wear);

(4) Between or among producers and exclusive sales agents of producers;

(5) For coloring gasoline and tractor fuels;

(6) For chemical indicators or bacteriological stains;

(7) For medicinal, therapeutic or diagnostic uses;

(8) For ultimate delivery to or by a retailer (who for this purpose means one who sells dyestuffs and other merchandise directly to the general public for its consumption, e. g., a general store, a drug store, etc.) of dyestuffs in containers not exceeding 8 ounces in content; or

(9) To replace in inventory amounts which, although not acquired for any of the uses referred to in any of the subparagraphs of this paragraph (d), were nevertheless used for one or more of such purposes.

(10) For purposes other than coloring (e. g. rubber chemicals).

*Provided*, That all deliveries of dyestuffs exempted from the restrictions of said paragraphs (b) and (c) by subparagraphs (2), (3), (4), (5), (6), (7), or (9) of this paragraph (d) shall be made only upon the receipt by the vendor from the purchaser of a certificate signed by such purchaser, or by a per-

son authorized to sign in his behalf, in substantially the following form:

The undersigned hereby certifies to his vendor and to the War Production Board that the dyestuffs to be delivered on the annexed purchase order will be used for one or more of the purposes specified in paragraph (d) of Conservation Order M-103, or will replace inventory so used.

(e) The War Production Board may authorize the delivery and acceptance of delivery, export of and delivery for export of additional quantities of Classes A, B, C and D dyestuffs to be used as specifically directed. Such authority will be issued either in the form of individual letters or by published Directions supplemental to this order. Applications by letter for authorizations under this paragraph may be filed by producers of dyestuffs or commercial dyestuff users. Authorizations for the delivery and acceptance of delivery of additional quantities of Classes A, B, C, or D dyestuffs for domestic use (excluding dyestuffs to be used domestically in dyeing apparel for export) may be granted to the extent that it is necessary for the user to obtain additional dyestuffs to carry out a War Production Board order, direction, or approved program. Additional dyestuffs shall be deemed necessary when the user has insufficient supply of dyestuffs to carry out such orders, directions, or approved programs provided he is not using any of his regular quota to dye or print any material a deeper shade than a standard consistent with available supplies of dyestuffs and the need for the particular shades in carrying out War Production Board orders, directions, and approved programs. The granting of authorizations among dyestuff users participating in the same approved program or direction shall, insofar as practicable, be based on their proportionate participation in such program or direction. Authorizations for dyestuffs to be used in dyeing apparel for export may be granted when the dyestuffs will be used to fill contracts or subcontracts of a government agency or for other essential export uses. Authorization which in the aggregate would require more than a total of 2 per cent of the domestic dyestuff production for export as dyestuffs, or for use in dyeing apparel for export, will be granted only upon program determinations.

Any person who did not deliver or accept deliveries of dyestuffs covered by this order during 1941 may, nevertheless, on application to the War Production Board be granted quotas on an equitable basis in view of the quotas of other persons in the industry. This application should be made by letter stating the products the applicant proposes to manufacture which will require dye intermediates or dyestuffs; and what his present facilities are for the manufacture or processing of these products. Quotas for delivery or acceptance of deliveries of dyestuffs will be granted where this will not require materials, facilities or labor needed for war purposes and will not otherwise ad-

versely affect or interfere with production for war purposes.

(f) *Treatment of mixtures.* In the case of physical mixtures of different classes of dyestuffs containing a component or components of one class to the extent of at least 90% of the value of such mixture, such mixtures shall be considered as belonging to the class to which said component or components belong. In the case of all other physical mixtures of dyestuffs, the classes of components shall be considered separately.

(g) *Restrictions on use of specific dyestuffs.* No person shall use any:

(1) [Deleted Oct. 23, 1943.]  
 (2) Anthraquinone in any physical form in discharging (including color and white discharge), stripping or destroying naphthol (azoic), vat or other dyes already present on textile fibers. This provision shall not prohibit the use of Anthraquinone in the manufacture of dyestuffs.

(3) Annato or annato extracts for coloring any materials other than food products.

(h) *Restrictions on inventory.* In addition to the restrictions on inventory contained in Priorities Regulation No. 1 (§ 944.14), no person shall accept delivery of any Class A dyestuffs which will increase his inventory thereof beyond an amount which, to the best of his knowledge and belief, will be used by him in the next 45 days.

(i) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(j) *General prohibitions.* No person shall deliver or accept delivery of any dyestuffs, if he knows, or has reason to believe, such material is to be used or is to be delivered or accepted in violation of the terms of this order.

(k) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(l) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(m) *Communications to the War Production Board.* All communications concerning this order, shall, unless otherwise directed in writing, be addressed to: War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Reference: M-103.

Issued this 16th day of December 1944.

## PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M-317, Direction 6 as Amended Dec. 15, 1944]

## PRIORITIES ASSISTANCE FOR CLASS A AND CLASS B SHEETINGS FOR GOVERNMENTAL AGENCIES AND INSTITUTIONS

The following amended direction is issued pursuant to General Conservation Order M-317:

(a) Governmental agencies and institutions (including hospitals, schools and orphanages), as defined in CMP Regulation 5A, may apply on Form WPB-2842 for pri-

ortities assistance to obtain Class A and Class B sheetings to be used for their own use only and not for resale, as follows:

Mental hospitals: For inmates' sewing, underwear and dresses for manufacture in the hospital, bed linens, surgical gowns and other uniforms, orthopedic equipment, airplane splint covers, and cover cloth for laundry presses.

General hospitals: For surgical gowns and other uniforms, orthopedic equipment, airplane splint covers, and cover cloth for laundry presses.

Schools, orphanages, colleges and other institutions: For laundry pressing covers, and garments for food handlers.

Federal, State and local governmental agencies: For shroud cloth, orderlies' clothing, orthopedic equipment, airplane splint covers, surgical gowns and uniforms, folding cots, cover cloth for laundry presses, fire protection, equipment for forest rangers, survey parties, and for protective use in construction work.

(b) Applications must be filed on a quarterly basis with Government Bureau, Office of Civilian Requirements, War Production Board, Washington 25, D. C., not later than 15 days prior to the beginning of each calendar quarter. However, applications for priorities assistance for the first calendar quarter of 1945 may be filed not later than January 1, 1945.

(c) The total amount of Class A and Class B sheetings for which priorities assistance will be granted under this program in each calendar quarter is limited. Within the available supply applications will generally be granted on a pro rata basis, based on the actual consumption of the materials by the applicant in the quarter preceding the date of the filing of the application, taking into account the applicant's inventory on hand at the end of that quarter. New institutions and institutions and agencies whose consumption of these materials for the above listed uses during the preceding quarter was below their average quarterly consumption during the preceding year may, nevertheless, apply for their needs, and their applications will be processed on an equitable basis.

(d) No person may accept delivery of materials obtained with this priorities assistance that will result in his having on hand in excess of a 45 days' supply of the materials: *Provided, however*, That this shall not prevent the acceptance of deliveries of minimum procurable quantities.

(e) The preference rating assigned under this direction may be used by the applicant only to buy Class A or Class B sheetings. However, he may make arrangements with manufacturers of the finished items for the incorporation of the sheetings into the finished items to be actually delivered to the applicant.

PART 921—ALUMINUM AND MAGNESIUM  
[Supplementary Order M-1-J as Amended Dec.  
18, 1944]

ALUMINUM DISTRIBUTORS

The fulfillment of requirements for the defense of the United States has created a shortage of aluminum for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 921.12 *Supplementary Order M-1-j—(a) Definitions.* For the purpose of this order:

(1) "Aluminum" means aluminum in any of the forms and shapes constituting controlled material as defined in CMP Regulation No. 1.

(2) "Distributor" means any person who has received or proposes to receive physical delivery of aluminum into his stock for sale or resale in the same form, or after performing such operations as cutting to length, shearing to size, sorting and grading.

(3) "Producer" means any person who manufactures aluminum.

(4) "Delivery" includes deliveries received on consignment.

(b) *Acquisition of aluminum.* A distributor may obtain delivery of aluminum in any of the following ways:

(1) *Purchase of idle or excess inventories.* A distributor may obtain delivery of aluminum from a holder of idle or excess inventories by a "special sale" under Priorities Regulation No. 13. He no longer needs authorization of the War Production Board to make such a purchase, but the aluminum, once acquired, may only be disposed of as provided in CMP Regulation No. 4 dealing with distributors.

(2) *Purchase from a producer.* A distributor may obtain delivery of aluminum from a producer only after receiving the specific authorization in writing of the War Production Board to do so. The specific authorization of the War Production Board will include written authorization to the distributor to use on his purchase orders for aluminum placed with producers or other distribu-

tors an AM symbol in either the 9500 or 9600 series. Assignments of AM numbers made prior to the issuance of this order shall remain in effect and constitute authorization to obtain delivery of aluminum from a producer to the extent provided below. The use of these AM numbers is subject to any conditions imposed by the War Production Board.

Orders on a producer bearing the symbol AM and a number in the 9500 series must, within the limit specified in the CMP Regulation No. 1, paragraph (t) and Direction 23 to that regulation, be accepted and filled by the producer as if they were authorized controlled material orders. Orders on a producer bearing the symbol AM and a number in the 9600 series may, but need not, be accepted by a producer; but any part of the order which is accepted must be filled as if it were an authorized controlled material order.<sup>1</sup>

Applications for authorization to place orders for aluminum on a producer and other distributors shall be made by letter in duplicate setting forth the relevant facts.

(3) *Purchase from another distributor.* A distributor who has been issued an AM number in either the 9500 or 9600 series may place an order for aluminum with another distributor. The other distributor may, but need not, fill any such order.

(c) *Reports.* Each distributor shall file monthly Form WPB-2685 dealing with shipments and unfilled past-due orders, and any other reports that may be required from time to time by the War Production Board, subject to the approval of the Bureau of the Budget under the Federal Reports Act of 1942.

(d) *General Provisions—(1) Communications to War Production Board.* All communications concerning this order should be addressed to the Warehouse Section, Aluminum and Magnesium Division, War Production Board, Washington 25, D. C., Reference M-1-j.

(2) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Special instructions.* The War Production Board may from time to time issue instructions to distributors with respect to making, withholding, accepting or refusing deliveries.

(4) *Applicability of regulations.* This order and all transactions affected there-

<sup>1</sup> It is the intention of the War Production Board to issue AM numbers in the 9500 series only to a distributor who was authorized to order aluminum from producers prior to April 1, 1944.

by are subject to all applicable regulations of the War Production Board as amended from time to time.

#### PART 1029—FARM MACHINERY

[Limitation Order L-257, Direction 5]

##### PRODUCTION DIRECTIVE FOR HAMES

The following direction is issued pursuant to Limitation Order L-257:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of hames and of materials and facilities used in the production of hames for defense, for private account, and for export. It is deemed necessary and appropriate in the public interest and to promote the national defense to assign priority to orders for hames and to allocate materials and facilities available for the production of hames on the conditions and in the manner and to the extent set forth in the following direction to Order L-257:

(a) *Required production of hames.* Each producer of hames shall manufacture for sale in the United States, and accept and fill orders for, hames as follows: At least 40% by weight of his uncompleted annual quota of hames (as of December 16, 1944) under Schedule B of Order L-257, Item 298, by March 31, 1945, and at least 80% by June 30, 1945. Manufacture of hames under this direction shall take precedence over all other production in the hame producer's plant except for orders rated higher than AA-2. This direction does not permit any producer to make more than his quota of hames under Schedule B of Order L-257, but each hame producer is required to produce at least 80% of his uncompleted quota of hames in the manner specified above.

(b) *Appeals.* Any appeal from the provisions of this direction shall be made by filing a letter in triplicate with the War Production Board, Farm Machinery and Equipment Division, Washington 25, D. C., Ref: L-257, Direction 5, referring to the particular provision appealed from and stating fully the grounds of the appeal. An appeal for suspension of this direction may be made by any producer on the ground that compliance with it will result in production at a loss, provided that an application for price relief on that ground is first filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy is filed with the WPB appeal. If the WPB appeal is granted, requirements of this direction for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

Application for such authorization and for a preference rating must be made by filing the required number of copies of Form WPB-1319 with the War Production Board regional office in the region in which the purchaser desires to use the track-laying tractor, in accordance with the current instructions for the form. [CMP Reg. 1, Direction 49, as Amended Dec. 18, 1944]

#### ACCEPTANCE OF ORDERS AND SHIPMENT OF ALUMINUM INGOT (INCLUDING PIG, BILLETS, SLABS AND SIMILAR RAW FORMS)

The following amended direction is issued pursuant to CMP Reg. 1:

(a) This direction explains the conditions under which aluminum ingot producers and smelters may accept orders for and make shipment of aluminum ingot, and the method of reporting such shipments on Form WPB-2593 (formerly CMP-23). The term "ingot", as used in this direction includes pig, slabs, billets, shot and similar other raw forms. It does not include powder, flake, paste or pigment.

(b) Aluminum ingot may be delivered only to fill authorized controlled material orders and "AM" orders as follows:

(1) *Authorized Controlled Material Orders.* (i) Placed by the War Department only and bearing the symbol "W" or "O". The War Department will order ingot only for use in their own establishments.

(ii) For export under a program of the Foreign Economic Administration. These orders for aluminum ingot will bear allotment numbers in the "E" or "L" series and may be placed by the United States Treasury Department, or by another person on the basis of an export license.

(iii) Bearing CMP allotment numbers of which the first four digits follow in the series S-2950 through S-2975. Allotments are made in this series only for destructive or similar direct use of aluminum. Applica-

tion for allotments for these purposes should be made on Form WPB-2360 to the War Production Board, Washington 25, D. C.

(iv) Bearing the CMP allotment symbols "MRO-P-43" or "V-9". These symbols are used by persons purchasing aluminum ingot for experimental and research work under Order P-43.

(v) For use in casting patterns by foundries which do not have AM authorization numbers. Such orders should be designated "MRO patterns".

No other CMP allotment symbols are acceptable as authority for shipment of aluminum ingot. In any instance, in which the consumer wishes to purchase aluminum ingot under the MRO symbol, except for those uses permitted under paragraphs (b) (1) (iv) and (b) (1) (v), above, he should be referred to the Ingot Section of the Aluminum and Magnesium Division.

(2) "AM" orders bearing a number in the series listed below:

AM-0100 through AM-0499 usable by producers and smelters of aluminum ingot.

AM-0500 through AM-0599 usable by aluminum powder manufacturers.

AM-1000 through AM-1099 usable by producers of aluminum rolled rod and bar.

AM-1100 through AM-1199 usable by producers of aluminum rolled structural shapes.

AM-3000 through AM-3999 usable by aluminum forge shops.

AM-4000 through AM-4099 usable by producers of aluminum extruded products.

AM-6000 through AM-6099 usable by producers of aluminum sheet, strip and plate.

AM-7000 through AM-9499 usable by aluminum foundries and die casting plants.

AM-9500 through AM-9699 usable by aluminum warehouses under the provisions of Order M-1-J.

No other "AM" authorization numbers are acceptable for the shipment of aluminum ingot. An "AM" order placed with an ingot producer as provided above must be accepted and filed as though it were an authorized controlled material order.

(c) In reporting shipments of ingot on Form WPB-2593, show the full CMP allotment number if it falls in the S-2950 to S-2975 series. Only the abbreviated CMP allotment number (Claimant Agency letter and first program number) need be shown for shipments on allotment numbers in the "E", "L", "O", or "W" series. For shipments on "AM" numbers show the full "AM" authorization number.

(d) Any questions concerning authorization for the movement of aluminum ingot should be addressed to the attention of the Ingot Section, Aluminum and Magnesium Division, War Production Board, Washington 25, D. C.

(e) This direction supersedes aluminum directive P-8, dated October 1, 1943, and any previous instructions or directives relative to the acceptance of orders for shipment of aluminum ingot, and paragraph (t) (3) (1) of CMP Regulation No. 1. Aluminum Directive No. P-3, dated July 15, 1943, to "ap-

Direction 6 to Order L-335 is amended to read as follows:

(a) *What sawmills are covered by this direction.* This direction applies only to sawmills located in the United States which produce hardwood lumber.

The provisions of this direction are not to be construed as prohibiting sales, transfers or deliveries of lumber between sawmills nor does it restrict the transfer of white ash to ash specialists under Direction 11 of L-335. However, white ash specialists in selling, transferring or delivering white ash to consumers and distributors must comply with the above provisions of this direction.

(d) *Sawmills producing less than 5,000 board feet not getting certified orders may ship on uncertified orders.* Any sawmill defined in paragraph (a) which is smaller than the type of sawmill included in paragraph (b) must accept certified orders (whether military or not) of consumers and distributors offered it in accordance with paragraphs (x) (1) and (x) (2) of Order L-335 but if such a sawmill has not been offered certified orders for all of its lumber it may ship the balance to lumber distributors or consumers on uncertified and unrated orders. A shipment of lumber on an uncertified and un-

In computing your maximum price for a particular sale, you may apply a mark-up factor in excess of 130% of your net delivered cost for the type of tobacco being priced if, (but only if) the total of your selling prices for the sale and for all your previous sales of that type of tobacco does not exceed 130% of your net delivered cost for all such tobacco, plus applicable packing costs.

This provision shall not apply to types of filler and binder tobaccos of the 1943 and prior crops.

(2) *Grades not listed.* If you are a packer of Type 51 (Connecticut Broadleaf) or Type 52 (Connecticut Havana Seed) domestic binder tobacco, your maximum price per pound, selling weight, of a particular grade not listed in Table IV shall be:

(i) The highest price per pound, selling weight, you charged a purchaser of the same class for the same grade of the 1942 crop of the type of tobacco being priced; or

(ii) If your maximum price cannot be determined under (i), your maximum price shall be the highest price per pound, selling weight, charged by a seller of the same class to a purchaser of the same class for the same grade of the 1942 crop of the type of tobacco being priced; or

(iii) If your maximum price cannot be determined under (i) or (ii), your maximum price shall be the highest price

per pound, selling weight, you charged a purchaser of the same class for the most closely comparable grade of the 1942 crop of the type of tobacco being priced; or

(iv) If your maximum price cannot be determined under (i), (ii), or (iii), your maximum price shall be the highest price per pound, selling weight, charged by a seller of the same class to a purchaser of the same class for the most closely comparable grade of the 1942 crop of the tobacco being priced.

SEC. 5. *Maximum prices for sales of domestic cigar filler and binder tobaccos by dealers and jobbers.* (a) If you are a dealer or jobber, your maximum price per pound, selling weight, for a type and grade of domestic cigar filler or binder tobacco shall be determined as follows:

(1) Ascertain your weighted average cost per pound of the type and grade of tobacco being priced of the 1939, 1940 and 1941 crops by dividing your total net delivered cost for all such tobacco by the weight thereof.

(2) Ascertain your weighted average selling price per pound for your sales of the type and grade of tobacco being priced of the 1939, 1940 and 1941 crops by dividing your total selling price therefor by the number of pounds sold.

(3) Ascertain your markup factor by dividing the result obtained in (2) by the result obtained in (1).

(4) Multiply your net delivered cost per pound of the tobacco being priced by the percentage obtained in (3). The resulting figure is your maximum price per pound, selling weight.

(b) If your maximum price cannot be determined under (a), your maximum price shall be that of your most closely competitive dealer or jobber to a purchaser of the same class for the same type and grade of domestic cigar filler or binder tobacco.

SEC. 6. *Maximum prices for sales of domestic cigar filler and binder tobacco by manufacturers.* If you are a manufacturer, your maximum prices for sales of domestic binder and filler tobacco packed by you shall be determined in the manner provided in section 4 as if you were a packer. If you resell in packed form binder or filler tobacco purchased by you in packed form, your maximum price shall be your net delivered cost per pound for the tobacco.

SEC. 7. *Maximum prices for seller unable to price under sections 4, 5 or 6.* If you are required to price under sections 4, 5 or 6, but cannot determine your maximum price for a sale of a type and grade of domestic cigar filler and binder tobacco to a purchaser, you shall apply by letter to the Office of Price Administration, Washington, D. C., requesting that a maximum price be established for the sale. The application should state (a) the name and address of the purchaser; (b) a description of the tobacco sufficient to identify it for pricing purposes; and (c) the reasons for your inability to determine a maximum price under sections 4, 5 or 6.

After receipt of the application, the Office of Price Administration will, by order, establish a maximum price, or

prescribe a method of determining it. Until a maximum price is established or a method of determining it prescribed, you may deliver the tobacco, but you may not receive payment.

SEC. 8. *Customary discounts and allowances.* If you are a seller, you shall continue to grant your customary discounts and allowances with respect to sales of the 1942 crop to the particular purchaser. If you made no sales of the 1942 crop to that purchaser, you shall continue to grant your customary discounts and allowances on sales by you of the 1942 crop to purchasers of the same class. If you made no sales of the 1942 crop, you shall grant the discounts and allowances customarily allowed on sales of the 1942 crop by a seller of the same class to purchasers of the same class.

SEC. 9. *Adjustable pricing.* You may agree to sell this tobacco at a price which can be increased up to the maximum price in effect at the time of delivery, but you may not, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by it after delivery. Such authorization may be given when a request to establish a maximum price or for a change in a maximum price is pending, but only if the authorization is necessary to promote distribution and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to establish the price or to act upon the pending request for a change in price. The authority above will be given by order except that it may be given by letter or telegram when the contemplated action will be the granting of an individual application for establishment of a maximum price.

(c) *Penalties for violation.* If you violate any provisions of this regulation, you are subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(d) *Licensing.* The provisions of Licensing Order No. 1, licensing persons who make sales under price control, apply to sellers subject to this regulation, but no such license is required of or granted to a farmer as a condition of selling an agricultural commodity produced by him.

SEC. 14. *Petitions for amendment.* If you seek a general modification of this regulation, you may file a petition for amendment as provided in Revised Procedural Regulation No. 1,<sup>8</sup> issued by the Office of Price Administration.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 16, Amdt. 28]

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.\*

Revised Ration Order 16 is amended in the following respects:

1. Section 15.10 is added to read as follows:

SEC. 15.10 *Independent collectors may apply for allowable inventory adjustments—(a) How to apply.* An independent collector who finds that his allowable inventory is inadequate may apply for an increase. He must apply on OPA Form R-315 to the district office with which he is registered. The application must give the following information:

(1) The amount of his allowable inventory;

(2) The number of pounds of household salvage fats he acquired for sale or transfer during the calendar month preceding the month in which the application is made, or the number of pounds of such fats he estimates he will acquire for sale or transfer during the calendar month following the month in which the application is made;

(3) The reasons he claims his allowable inventory is inadequate;

(4) The amount of the increase which he needs;

(5) The number of points he has on hand and in his household salvage fats ration bank account;

(6) The number of pounds of household salvage fats he has on hand;

(7) The number of points he owes for household salvage fats he acquired; and

(8) The number of points owed to him for household salvage fats he transferred.

(b) *Action on application.* If the district office finds that an independent collector's allowable inventory is inadequate, it may grant him an adjustment. His adjusted allowable inventory shall be computed by multiplying by two the number of pounds of household salvage fats he acquired during the calendar month preceding the month in which the application is made or the number of pounds of such fats which the district office estimates he will acquire during the following calendar month. The district office will issue to him a check in this amount, less the number of points owed to him for household salvage fats he transferred, the number of points he has on hand and in his ration bank account, and the number of pounds of such fats, multiplied by two, which he has on hand on the date of his application. However, if he owes points for such fats acquired by him, the amount of any check issued under this paragraph shall be increased by the number of points owed. If the applicant requests a greater adjustment

\*Copies may be obtained from the Office of Price Administration.

19 F.R. 6731, 7060, 7081, 7082, 7167, 7203, 7256, 7262, 7344, 7438, 7578, 7774, 8182, 8793, 9954, 9955, 10049, 10087, 10590, 10876, 11543, 12036, 12037, 12649, 12971, 13993.

in his allowable inventory than the district office is authorized to grant to him, the district office may grant the adjustment to the extent authorized, and forward the entire file to the Washington Office, for decision, or take such other action as the Washington Office may authorize or direct with respect to the balance of the adjustment requested.

2. The last sentence of section 26.3 (c) is deleted and the following substituted therefor:

He will receive for each allotment period a check for the amount of his allotment less the number of points he has on hand and in his ration bank account. If he owes points for household salvage fats acquired by him, the amount of any check issued under this paragraph shall be increased by the number of points owed. However, if the number of points he has on hand and in his ration bank account, less the points he owes for household salvage fats acquired, exceeds the amount of his allotment, he must give up to the Office of Price Administration, for cancellation, points equal to the difference. The points are to be given up in the form of a check drawn on his ration bank account, payable to the Office of Price Administration. That check must be attached to and forwarded with his report on OPA Form R-1620 for the last month of an allotment period.

3. Section 26.5a is added to read as follows:

SEC. 26.5a *New rendering establishments may be opened—(a) Registration.* A person who wishes to open a rendering establishment must register his establishment on OPA Form R-315 in the way described in section 26.2 (a). As part of his registration, he must attach a statement showing the number of pounds of household salvage fats he expects to acquire between the date of his registration and the end of the next calendar month. This statement must show:

(1) The name and address of each independent collector, if any, from whom he expects to acquire household salvage fats, and the number of pounds he expects to acquire from each during that period;

(2) The number of pounds of household salvage fats he expects to acquire from all other sources during that period;

(3) The total number of pounds of household salvage fats he expects to acquire during that period; and

(4) The number of points he owes for household salvage fats he acquired.

If he has more than one rendering establishment, and registers them together, he must attach a separate statement for each.

(b) *Allotments.* (1) His first allotment is determined by multiplying by two the number of pounds of household salvage fats which the district office estimates he will acquire between the date of his registration and the end of the next calendar month.

(2) His second allotment is determined by multiplying by two the number of pounds of household salvage fats he acquired during his first full calendar month of operation. The result is mul-

multiplied by the number of months remaining in the allotment period for which the allotment is made.

(3) For each succeeding allotment period his allotment is determined in the way described in section 26.3 (c).

He will receive for each allotment a check for an amount determined in the way described in section 26.3 (c).

4. Section 26.7 (c) is added to read as follows:

(c) *Other independent collectors.* An independent collector who did not acquire any household salvage fats for sale or transfer during October 1943, or a person who wishes to open a new independent collector establishment may register on OPA Form R-315, for an allowable inventory to acquire household salvage fats, in the way described in paragraph (a). His registration must show:

(1) The number of pounds of household salvage fats he acquired for sale or transfer in the calendar month preceding the month in which the application is made, or, if he was not in operation during that month (or if he was in operation during only part of that month), the number of pounds of such fats he estimates he will acquire for sale or transfer during the calendar month following the month in which the application is made;

(2) A description of his collecting facilities;

(3) A statement of his expected sources of supply;

(4) The names and addresses of the renderers to whom household salvage fats have been and will be sold;

(5) The number of pounds of household salvage fats he has on hand;

(6) The number of points he owes for household salvage fats he acquired;

(7) The number of points owed to him for household salvage fats he transferred; and

(8) The number of points he has on hand and in his ration bank account.

His allowable inventory is determined by multiplying by two the number of pounds of household salvage fats he acquired in the calendar month preceding the month in which the application is made, or if he was not in operation during that month (or if he was in operation during only part of that month), the number of pounds of such fats which the district office estimates he will acquire in the following calendar month. The district office will issue to him a check for an amount determined in the way described in paragraph (b).

This amendment shall become effective December 22, 1944.

PART 1439—UNPROCESSED AGRICULTURAL COMMODITIES

[MPR 426; Amdt. 75]

FRESH FRUITS AND VEGETABLES FOR TABLE USE, SALES EXCEPT AT RETAIL

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.\*

Maximum Price Regulation 426 is amended in the following respects:

1. Section 5 is amended to read as follows:

SEC. 5. *Exempt sales.* This regulation does not apply to the following sales:

- (a) Sales at retail;
- (b) Sales of fruits specifically exempted by the provisions of any appendix to this regulation;
- (c) Those sales of gift packages of fruit, and fruit to be used in gift packages, specified in section 5a of this regulation.

2. A new section 5a is added to read as follows:

SEC. 5a. *Special provisions for sales of gift packages of fruit and sales of fruit to be used in gift packages—*(a) *Definitions.* When used in this section the term

(1) "Standard container" includes "standard" or "legal" container as defined elsewhere in this regulation, and also includes single units or component parts of standard containers, such as a half-strap box, a one-half box bag, etc.

(2) "Gift package of fruit" means either (i) a container, other than a standard container, which is specially

made, wrapped or otherwise particularly adapted for use as a gift, and which contains either one or several kinds of fresh fruit specially packed in the container, or (ii) any container, not larger than a standard container, which contains more than one kind of fresh fruit, specially packed in the container; whether or not, in either case, the fresh fruit is mixed with other food items such as nuts, jams, preserves, glazed fruits, etc.

(3) "Ultimate consumer" means a person who buys the particular gift package of fruit for use as a gift, or for direct consumption, and not for re-sale or for commercial or industrial use.

(b) *Exempt sales of gift packages of fruit.* Sales and deliveries of gift packages of fruit are exempt from the regulation if all of the following conditions are satisfied:

(1) The sale is made by the packer of the particular gift package to an ultimate consumer;

(2) The order is taken directly from the buyer by the seller and not through any agent except a regularly paid employee, and delivery is made directly by the seller and not through any agent except a regularly paid employee or a carrier;

(3) The sale provides for delivery of not more than 5 packages in one lot to the buyer or to any one person designated by him.

(c) *Exempt sales of fruit to be used in gift packages of fruit.* Sales of fruit by growers, country shippers or primary sellers to packers of gift packages of fruit are exempt from this regulation if the fruit sold is to be used and resold in gift packages.

(d) *Reports to be filed by packers of gift packages of fruit.* Every packer of gift packages of fruit who purchases fruit that is exempt under paragraph (c) of this section shall, within 5 days after each such purchase, file an affidavit with the Regional Office of the Office of Price Administration for the region in which he is located showing his name and address, the name and address of the person from whom he purchased the fruit, the date of the purchase, the quantity and a description of the fruit purchased and containing a statement that the fruit was purchased or received for sale in gift packages of fruit.

(e) *Maximum prices for all other sales of gift packages of fruit.*—For all sales of gift packages of fruit not specifically exempted by this section, the seller, unless the sale is covered by Maximum Price Regulation 421, 422 or 423, figures his maximum price in each case as follows:

- (1) He determines his maximum price under this regulation for the quantity of each fruit contained in the package and adds these to his maximum prices, if any, for the other items in the package. If the fruit was produced by him, he uses the per-pound maximum price for bulk sales, or for bulk graded sales if such a price is named for the particular fruit. If he bought the particular fruit, he uses the per-pound maximum price for the type and style of pack in which he bought it.

\* 8 F.R. 16409, 16294, 16519, 16423, 17372; 9 F.R. 790, 902, 1581, 2008, 2023, 2091, 2493, 4030, 4086, 4088, 4434, 4786, 4787, 4877, 5926, 5929, 6104, 6108, 6420, 6711, 7259, 7268, 7434, 7425, 7580, 7583, 7759, 7774, 7834, 8148, 9066, 9090, 9289, 9356, 9509, 9512, 9549, 9785, 9896, 9897, 10192, 10192, 10499, 10877, 10777, 10878, 11350, 11534, 11546, 12038, 12208, 12340, 12341, 12263, 12412, 12537, 12643, 12968, 12973, 13067, 13138, 13205, 13761, 13934.

(2) He adds the actual cost to him (not to exceed the legal cost) of any item in the package that is not covered by this regulation, or for which he cannot determine a maximum price, and of all packaging materials, including the container.

(3) He multiplies the total by 1.05. The result is his maximum price for the particular gift package of fruit.

If any particular fruit or other item in the package has no maximum price under this or any other maximum price regulation, the seller uses his actual cost of that item. However, he may not use the actual cost of any fruit which he purchased under paragraph (c) of this section. For such fruit he must use his maximum price figured under (1) above.

This amendment shall become effective December 18, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 16th day of December 1944.

Administrator.

No. 252—4

PART 36—REGULATIONS UNDER SERVICE-  
MEN'S READJUSTMENT ACT OF 1944

PAYMENTS TO APPROVED INSTITUTIONS FOR  
EDUCATION OR TRAINING

Sections 36.207, 36.208 and 36.209 are amended to read as follows:

Sec.  
36.207 Authority of manager to pay institutions.  
36.208 Definition of "ordinary school year".  
36.209 Deduction of amount of scholarship award.

AUTHORITY: §§ 36.207 to 36.209, inclusive, issued under 58 Stat. 284.

§ 36.207 *Authority of manager to pay institutions.* When a veteran entitled to the benefits provided under Part VIII, Veterans Regulation Numbered 1 (a), as amended, elects his course of training and chooses the approved educational or training institution where he wishes to pursue his course of training and is accepted by and enrolled in a full-time or a part-time course in such approved institution, the manager of the regional office is authorized to pay to such institution for the veteran's tuition, laboratory, library, health, infirmary and other similar fees, and for books, supplies, equipment and other necessary expenses, exclusive of board, lodging, other living expenses and travel, as are generally required for the successful pursuit and completion of the course by other students in the institution:

(a) *Charges for tuition, laboratory, library, health, infirmary and other similar fees.* Pursuant to the authority contained in the Servicemen's Readjustment Act of 1944, the Administrator hereby determines that the charges established in accordance therewith, and pursuant to the limitations thereof, the following provisions are fair and reasonable for the purpose of enabling the institutions to give the services required by said act and are within the intent and authority of paragraph 5, section 400 (b) Title II, of said act.

(1) The charges for tuition, laboratory, library, health, infirmary and other similar fees customarily made and in effect prior to June 22, 1944, or as may be established after said date if applicable to all classes of students at the approved institution for any student who pursues the particular course of training, except that the charge for the tuition fee of a full-time veteran trainee shall be not less than \$15.00 per month (\$45.00 per quarter or \$60.00 per semester), said rates shall be effective, as to those heretofore enrolled, from the beginning of the first term beginning after December 7, 1944, and as to those hereafter enrolled, from the date of enrollment: *Provided*, That the proper official certifies to the manager of the regional office the charges customarily made to any student pursuing the particular course.

(2) In the case of State and municipal schools, colleges, or universities, and other approved institutions which have non-resident tuition fees, the charges for such tuition, laboratory, library, health, infirmary and other similar fees which were in effect prior to June 22, 1944, or as may be established after said date if applicable to all classes of students are determined as the customary charges for all veteran trainees except that the charge for the tuition fee of a full-time veteran trainee shall be not less than \$15.00 per month (\$45.00 per quarter or \$60.00 per semester): *Provided*, That the charges are not in conflict with existing laws or other legal requirements.

(3) Arrangements pursuant to subparagraphs (1) and (2) do not require a formal contract with institutions and payments will be made at the end of each term, semester, or quarter prorated in the cases of veteran trainees who withdraw during the term on the same basis as for nonveteran students.

(4) If the instructional costs, which are hereby defined as actual costs of teaching personnel and supplies for instruction, are in excess of the tuition charge herein authorized in subparagraphs (1) and (2), the facts may be certified to the Veterans Administration and the Administrator may by contract establish the rates to be paid.

(b) *Charges for books, supplies, equipment and other necessary expenses.* The charges for books, supplies, equipment and other necessary expenses customarily incurred for or by any student who pursues the particular course of training shall be estimated and included in the statement required of the institution under the established procedure of the Veterans Administration. Payments will be made at the end of each term, semester, or quarter on submission of a voucher by the institution to the manager of the regional office certifying to the actual cost of such books, supplies, equipment and other expenses for each veteran and also certifying that the material has been delivered to the trainee and that the institution has evidence of such delivery and of such expenditures on hand and available for the inspection of the Veterans Administration.

(c) All provisions for payment stated in this section are subject to the provision of the law that such payments may not be paid in excess of \$500 for an ordinary school year in respect to any person.

§ 36.208 *Definition of "ordinary school year".* The "ordinary school year" is defined as a period of two semesters or three quarters—not less than thirty nor more than thirty-eight weeks in total length. Under this definition an institution may be paid as much as \$500 for each "ordinary school year" which is completed, regardless of the time required for such completion. Thus \$500 may be paid for each of four "ordinary

school years" which are completed within three twelve-month periods. For short, intensive, or special courses, payment will be computed upon the basis of weeks required to complete such course in relation to an ordinary school year of thirty weeks.

§ 36.209 *Deduction of amount of scholarship award.* The amount of any scholarship award to a veteran trainee shall be deducted from the charge for tuition and other fees ordinarily payable by the Veterans Administration, except (a) when the award is to make up any balance of tuition and other fees in excess of the \$500 limit of payment for such charges by the Veterans Administration and (b) when the award is paid in cash to the trainee.

PETROLEUM SPECIALTY CO.

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and in accordance with § 1412.13 (j) of Maximum Price Regulation No. 170, it is hereby ordered:

(a) *Definition.* As used in this order the term "glycerine base anti-freeze" refers to an anti-freeze manufactured by the Petroleum Specialty Company of Omaha, Nebraska, containing at least 60 per cent of chemically pure glycerine by volume (at least 63.9 per cent by volume of 95 per cent (by weight) C. P. glycerine).

(b) *Maximum prices for sales of glycerine base anti-freeze.* (1) The maximum price for sales of glycerine base anti-freeze to sellers at retail shall be \$1.35 per gallon delivered in gallon glass jugs.

(2) The maximum prices for sales of glycerine base anti-freeze at retail shall

be \$2.00 per gallon or \$0.50 per quart. This price includes installation in automobile cooling system where buyer so requests and where anti-freeze was customarily so installed without charge during the six-month period ending March 31, 1942, by the seller or, if the seller did not sell anti-freeze during such period, by like sellers.

(c) *Containers.* No extra charge may be made for containers.

(d) *Marking and posting.*—(1) *By the Petroleum Specialty Company.* The Petroleum Specialty Company shall clearly and conspicuously mark on the outside of each container of glycerine base anti-freeze sold by it the following information:

(i) "A glycerine base anti-freeze."  
(ii) The applicable maximum retail price designated as follows: "OPA Retail Ceiling Price \$2.00 per gallon."

(iii) The strength of the anti-freeze contained therein. Such strength may be designated as follows: "-----gallon(s) of this anti-freeze added to one gallon of water will reduce the freezing point of the mixture to 10 degrees below zero Fahrenheit." Or, as an alternative, it may be designated by a complete anti-freeze protection table from which the above information may be obtained: *Provided,* That where any anti-freeze is packaged which when added to water in the proportion of  $\frac{3}{4}$  of a gallon or less of such anti-freeze to one gallon of water reduces the freezing point of the resulting mixture to 10 degrees below zero Fahrenheit or lower, the terms "standard," "standard strength," or "full strength" may be used instead of the above statement or protection table.

FABRICATED MEAT CUTS IN SACRAMENTO, CALIF., AREA

The above entitled order incorrectly states the finding of the Regional Administrator and the conditions upon which it was based. Therefore, the statement of condition designated number (2) is corrected by adding the fol-

lowing clause at the end thereof: "or the dealers who sell fabricated cuts in that area lack adequate facilities;"

Said order is further corrected by changing the third sentence in the finding of the Regional Administrator to read as follows: "The purchase of ration quotas of meat has been made by purveyors of meals from retail markets, for wholesalers or hotel supply houses in the area who fabricate meat locally, lacking facilities, are failing to sell their full quotas."

Issued this 30th day of November 1944.

FABRICATED MEAT CUTS IN SAN JOAQUIN VALLEY, CALIF., AREA

By virtue of the authority vested in me by the provisions of section 5 (c) of Maximum Price Regulation No. 336, section 5 (c) of Maximum Price Regulation No. 355 and section 5 (c) of Maximum Price Regulation No. 394, I am

empowered to declare specific areas in the region under my jurisdiction to be deficient in supplies of fabricated meat cuts where I find that the following conditions exist therein:

(1) That purveyors of meals are unable to purchase fabricated meat cuts in volume sufficient to supply their requirements;

(2) That the deficiency in supplies of fabricated meat cuts is caused by the fact that there are no sellers of fabricated meat cuts located in the area, or the dealers in the area selling fabricated meat cuts lack adequate facilities or quotas to supply the requirements of purveyors of meals.

(3) That purveyors of meals located in the area customarily have relied upon, and must continue to rely upon retail sellers for their necessary supplies of meat.

I have investigated the situation existing in the San Joaquin Valley Area consisting of the California Counties of Kern, Tulare, Kings, Fresno, Merced, and Stanislaus, and as a result of that investigation I find:

(1) That purveyors of meals located in the area are unable to obtain supplies of fabricated meat cuts adequate to fill their needs. This conclusion is based upon the fact that purveyors of meals within the area are unable to obtain fabricated meat cuts in sufficient volume to supply their requirements. The purchase of ration quotas of meat has been made by purveyors of meals from retail markets because dealers in this area selling fabricated cuts do not have adequate facilities or quotas to supply purveyors of meals in that area. Purveyors of meals have customarily relied upon retail dealers, and they must continue to rely upon retail sellers for supplies of meat sufficient to meet their requirements.

This declaration shall be effective as of December 6, 1944.

COLUMBIA GAS & ELECTRIC CORP.  
NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Penn-

sylvania, on the 13th day of December 1944.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, by Columbia Gas & Electric Corporation ("Columbia Gas"), a registered holding company and a subsidiary of The United Corporation, also a registered holding company.

Notice is further given that any interested person may, not later than December 22, 1944 at 5:30 p. m., e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, said declaration or application, as filed, or as amended, may be granted or become effective, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Columbia Gas requests an extension to December 31, 1945, of the date, heretofore extended by orders of this Commission from December 31, 1942 to December 31, 1943, and subsequently to December 31, 1944 (Holding Company Act Releases Nos. 4036 and 4795), on which the balances remaining in its accounts designated "Special Capital Surplus" and "Surplus Prior to January 1, 1938" must be restored to the common capital stock account of the corporation.

The initial findings, opinion and order of this Commission (dated January 25, 1939) issued in respect of the above matter permitted Columbia Gas to reduce the capital represented by the shares of its common stock from \$194,349,005.62 to \$12,304,282 so as to make provisions for adjustments in its investment accounts, and provided for the manner of treating surplus created thereby, as well as existing surpluses; and contained, among other things, a condition that balances remaining in "Special Capital Surplus" and "Surplus Prior to January 1, 1938" on December 31, 1942, shall be restored to common capital stock account as of the date last mentioned, "unless the time be extended by application to this Commission and order thereon" (Holding Company Act Release No. 1417).

Columbia Gas represents that (1) it has made various adjustments and deductions to the surplus accounts, and that as of October 31, 1944 the balance remaining in Special Capital Surplus is \$89,145,175.30 and no amount remains in its Surplus Prior to January 31, 1938; (2) original cost studies covering approximately 65% of the total recorded property of its subsidiaries have been com-

pleted and filed with regulatory commissions which have made determinations with respect to the disposition of the larger part of the remaining original cost adjustments of the Columbia system; and (3) it proposes to file a plan with respect to the disposition of certain of its investments, changes in its capital structure, and other matters related thereto which will necessitate a determination of the amount of Special Capital Surplus that is to be returned to the common capital stock account.

Accordingly, Columbia Gas requests the one-year extension mentioned above.

By the Commission.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Central New York Power Corporation ("Central New York"), a subsidiary of Niagara Hudson Power Corporation, in turn a subsidiary of The United Corporation, a registered holding company.

All interested persons are referred to said declaration, which is on file in the offices of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Central New York proposes to reduce the stated value of its outstanding 1,331,358 shares of no par value common stock from \$33,283,950 to \$15,244,049.10 without reducing the number of shares, and to credit the amount of the reduction (\$18,039,900.90) to a new account to be designated "Unearned Surplus—Special" which will be available for adjustment of book cost and depreciation of utility plant. The proposed transaction is for the stated purpose of enabling Central New York to comply with the latter of alternative conditions contained in an order of the Public Service Commission of the State of New York, dated November 15, 1944, authorizing the issuance and sale of \$48,000,000 principal amount of General Mortgage Bonds, said alternative conditions being (1) that so long as any of the bonds remain outstanding the company, beginning February 1945, set aside each month from income before payment of dividends not less than \$65,000 to be applied to debt retirement, additions to utility plant or acquisition of outstanding bonds; or (2) that, in the alternative, the company reduce the stated value of its outstanding common stock by at least \$18,000,000 and credit the amount of the reduction to an account designated "Unearned Surplus—

Special" which will be available for adjustment of book cost and depreciation of utility plant, any charges or credits to said account being subject to prior approval of the New York Public Service Commission, and that so long as any portion of the \$18,000,000 remains in the account, no common stock dividends be declared or paid out of earned surplus which will reduce the amount of earned surplus below \$4,000,000 unless first approved by the said Commission.

It appearing to the Commission that it is appropriate in the public interest and the interests of investors and consumers that a hearing be held with respect to said matter, and that said declaration shall not be permitted to become effective except pursuant to further order of this Commission;

It is ordered, That a hearing on such matter, under the applicable provisions of said act and the rules promulgated thereunder, be held on December 27, 1944, at 11:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as the hearing room clerk in Room 318 will at that time designate. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by the said declaration, particular attention will be directed at the hearing to the following matters and questions:

(1) Generally, whether the proposed transactions comply with the applicable provisions of the Public Utility Holding Company Act of 1935 and all rules and regulations promulgated thereunder and particularly whether the proposed reduction of stated capital with respect to the presently outstanding common stock is detrimental to the public interest or the interests of investors or consumers, or will result in an unfair or inequitable distribution of voting power among holders of the securities of Central New York.

(2) What terms and conditions, if any, are necessary or appropriate in the public interest or the interests of investors or consumers to ensure compliance with the requirements of the Holding Company Act or any rules, regulations or order promulgated thereunder.

By the Commission.
