Chapter VII—War Food Administration (Agricultural Adjustment)

§ 734.1 Regulations governing the fixing of fair prices for conservation materials and services acquired under purchase orders

The regulations governing the fixing of fair prices for conservation materials and services acquired under purchase orders (8 F.R. 17633), § 734.1, issued by the Assistant War Food Administrator on December 22, 1943, are hereby completely revised to read as follows:

(a) Delegation to the Chief of the Agricultural Adjustment Agency. The Chief of the Agricultural Adjustment Agency shall designate the conservation materials and services which may be furnished under purchase orders in connection with the agricultural conservation program, the persons who shall determine the fair prices, and the method of making such determination: Provided, however, That any such determination shall be made in accordance with the provisions of paragraphs (b), (c), (d), and (e), hereof.

(b) Materials. A fair price shall be the price at which vendors in an area should be able to supply a material for local delivery under purchase orders, taking the following into consideration, to the extent they can be ascertained:

(1) The prices which farmers are currently paying for the same or a similar service under the same or similar conditions, and

(2) The actual or estimated cost to the vendor and a reasonable margin for handling and profit.

(c) Services. A fair price shall be the price at which a vendor equipped to perform a service agrees to furnish it at a given time and under a given set of conditions, providing it is not excessive in relation to:

(1) The prices which farmers are currently paying for the same or a similar service under the same or similar conditions, and

(2) The actual or estimated cost to the vendor and a reasonable margin for profit.

(d) Ceiling prices. Notwithstanding the provisions of paragraphs (b) and (c) hereof, no fair price may be set which is higher than the highest ceiling price at which any vendor in the area covered is authorized to sell a material or service under the General Maximum Price Regulation or other applicable regulations issued by the Office of Price Administration.

(e) Defective material. A material shall be deemed not to have been furnished at a fair price if it is determined that the material does not meet quality specifications. At the option of the Agricultural Adjustment Agency such material shall be rejected, or accepted subject to a deduction equal to three times the difference between the value of the material of the quality specified and the material of the quality furnished.

Issued this 15th day of December 1944.

The Commissioner of Customs, by virtue of the authority vested in him by section 7 of the act of May 28, 1910 (U. S. C. Title 46, sec. 49), as modified by Executive Order No. 9083 (7 F.R. 1609), and in accordance with § 3.81 (a) of the Customs Regulations of 1943 (9 F.R. 4679), has registered the house flag and funnel mark of Moore-McCormack Lines, Inc., described below:

The field is of signal green upon which is imposed a white circle 2 feet 11 inches in diameter whose center is approximately 2 feet 11½ inches from the hoist and 2 feet from the top and bottom of the flag. Superimposed upon that circle is a signal red letter "M" whose posts are 1 foot 8½ inches high and 5 inches wide. The blade of that letter comes to a point approximately 7 inches above the base line of the posts. A colored scale replica drawing of the house flag and of the funnel mark described above have been filed with the Division of the Federal Register.

TITLE 22—FOREIGN RELATIONS

Chapter III—Proclaimed List of Certain Blocked Nationals

ADMINISTRATIVE ORDER

By virtue of the authority vested in the Secretary of State, acting in conjunction with the Secretary of the Treasury, the Attorney General, the Secretary of Commerce, the Administrator of Foreign Economic Administration, and the Coordinator of Inter-American Affairs, by Proclamation 2497 of the President of July 17, 1941 (6 F.R. 3555), Cumulative Supplement 4 containing certain additions to, amendments to, and deletions from The Proclaimed List of Certain Blocked Nationals, Revision VIII of September 15, 1944 (9 F.R. 11389), is hereby promulgated.

By direction of the President:

E. R. STEETLING, Jr., Secretary of State.
HERBERT E. GASTON, Acting Secretary of the Treasury.
FRANCIS BIDDLE, Attorney General.
JESSE H. JONES, Secretary of Commerce.
LEO T. CROWLEY, Administrator, Foreign Economic Administration.
NELSON A. ROCKEFELLER, Coordinator of Inter-American Affairs.

DECEMBER 15, 1944.

[F. R. Doc. 44-19109; Filed, Dec. 16, 1944; 3:19 p. m.]
The animals in his inventory with respect must adopt a reasonable classification of approximately $15 to produce a calf, and $7.50 his classifications and unit prices would raider determines that it costs approx­ mately the taxpayer's election, under toried, at the taxpayer's election, under the elective "unit-live­ stock price method." "Farm price method" provides for the valuation of the differ­ ent classes of animals in the inventory at a standard unit price for each animal within a class. A livestock raiser elec­ ting this method of valuing his animals must adopt a reasonable classification of the animals in his inventory with respect to the age and kind included so that the unit prices assigned to the several classes will reasonably account for the normal costs incurred in producing the animals within such classes. Thus, if a cattle raiser determines that it costs approxi­ mately $15 to produce a calf, and $7.50 each year to raise the calf to maturity, his classifications and unit prices would be as follows: calves, $15; yearlings, $22.50; two-year olds, $30; mature ani­ mals, $37.50. The classification selected by the livestock raiser, and the unit prices assigned to the several classes, are subject to approval by the Commissioner upon examination of the taxpayer's re­ turn. A taxpayer who elects to use the "unit-livestock price method" must apply it to all livestock raised, whether for sale or for breeding, dairy or draft purposes. Once established, the unit prices and classifications selected by the taxpayer must be consistently applied in all subse­ quent years in the valuation of livestock inventories. No changes in the classi­ fication of animals or unit prices will be made without the approval of the Commissioner.

A livestock raiser who uses the "unit­ livestock price method" must include in his inventory at cost any livestock pur­ chased, except that animals purchased for breeding, dairy, or draft purposes can, at the election of the livestock raiser, be included in inventory or be treated as capital assets subject to depreciation after maturity. If the animals pur­ chased are not ready for sale at the time of purchase, the cost should be increased at the end of each accounting year in accordance with the established unit prices, except that that increase is to be made in the year of purchase if the ani­ mal is acquired during the last six months of that year. If the records maintained permit identification of a purchased animal, the cost of such ani­ mal will be eliminated from the closing inventory in the event of its sale or loss. Otherwise, the first-in-first-out method of valuing inventories must be applied. If a taxpayer using the "farm-price method" desires to adopt the "unit-livestock-price method" in valuing his in­ ventories of livestock, permission for the change shall first be secured from the Commissioner as provided in §29.22 (c)–6. However, a taxpayer who has filed re­ turns on the basis of inventories at cost, or cost or market whichever is lower, may adopt the "unit-livestock-price method" for valuing his inventories of livestock for taxable years beginning after December 31, 1943 without formal application for permission, but the classifications and unit prices selected are subject to ap­ proval by the Commissioner upon exam­ ination of the taxpayer's return. A live­ stock raiser who has, for taxable years beginning prior to January 1, 1944, adopted a constant unit price method of valuing livestock inventories and filed re­ turns on that basis will be considered as having elected the "unit-livestock-price method."

Because of changes in the supply of and requirements for bituminous coal produced in Districts 9, 10 and 11, it is deemed necessary and appropriate in the public interest to amend SFAR Regulations No. 29 as follows:

Section 602.517 (b) is amended to read as follows:

§ 602.517 Restrictions on receipts by industrial consumers of coal other than by-product and special purpose coal, and other than coal moving via the Great Lakes or ex-lake dock. * * *

(b) Restrictions on receipts by indus­ trial consumers of coal produced in Dis­ tricts 9, 10 and 11 (Group A). (1) If you are an industrial consumer having 90 or less days' supply of bituminous coal, you are prohibited from receiving dur­ ing any calendar month beginning with January 1945 coal produced in Districts 9, 10 and 11 (Group A), or any such dis­ tricts, in an amount greater than 100 per cent of your monthly consumption re­ quirements.

(2) If you are an industrial consumer having 91 to 120 days' supply of bitu­ minous coal, you are prohibited from receiving during any calendar month beginning with January 1945 coal produced in Districts 9, 10 and 11 (Group A), or any such dis­ tricts, in an amount greater than 80 per cent of your monthly consumption requirements, except that you are not required to maintain less than a 90 days' supply of coal.

(3) If you are an industrial consumer having in excess of 120 days' supply of bituminous coal, you are prohibited from receiving during any calendar month beginning with January 1945 coal produced in Districts 9, 10 and 11 (Group A), or any such districts, in an amount greater than 60 per cent of your monthly consumption requirements, except that you are not required to maintain less than a 90 days' supply of coal.

This amendment shall become effec­ tive immediately. (E.O. 9322, 8 F.R. 5835; E.O. 9125, 7 F.R. 2719; sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 238 and 56 Stat. 176)
be effective outside the continental limits of the United States on January 11, 1945.

LEWIS B. HERSHEY, 
Director.

PART 629—HAND TOOLS SIMPLIFICATION

Chapter IX—War Production Board

PART 1293—HAND TOOLS SIMPLIFICATION

[Limitation Order L–157, Schedule V as Amended Dec. 16, 1944]

HARD FORKS, HAND HOOKS, HAND RAKES, HAND PICKERS, HAND EYE HOES AND HAND CULTIVATORS

Section 1293.8 Schedule V to Limitation Order L–157, is amended to read as that normally such medical care or hospitalization must be rendered promptly after occurrence of injury or death, except that claims for expense incurred as a result of which it is required, and that discharge by a physician or facility subsequent to such medical care or hospitalization shall prima facie terminate the period of emergency for the registrant.

(c) The death of a registrant shall be deemed to have occurred while acting under orders issued under the selective service law if it results directly from an illness or injury suffered by the registrant while so acting and occurs prior to the completion of any emergency medical care, including hospitalization, occasioned by such illness or injury.

(d) Claims for payment of expenses incurred for the purposes set forth in paragraph (a) of this section shall be presented to the State Director of Selective Service of the State in which the expenses were incurred, who shall determine whether the claim shall be allowed or disallowed. In whole or in part, and such determination shall be final as to the claimant.

(e) Payment of such claims when allowed shall be made only (1) directly to the person or facility with which the expenses were incurred, or (2) by reimbursement to the registrant, a relative of the registrant, or the legal representative of the registrant's estate, for original payment of such expenses.

(f) No such claim shall be paid unless presented within the period of one year from the date on which the expenses were incurred, or (2) by reimbursement to the registrant, the date the registrant died, or death occurring on or after April 1, 1944 and prior to December 31, 1944.

The foregoing amendment to the Selective Service regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on December 31, 1944 and prior to December 31, 1944.
follows, and Appendix A to that order is amended in the respects below indicated:

§ 1293.8 Schedule V to Limitation Order L-157—(a) Definitions. For the purposes of Schedule V:

(1) "Producer" means any person who manufactures, stamps, forges or otherwise fabricates hand forks, hand hoes, hand rakes, hand hoes, hand eye hoes, or hand cultivators.

(2) "Hand cultivator" means a tined hoe or cultivator designed for manual operation. Hand cultivator shall not include a hand wheel cultivator.

(3) "Lend-Lease Government" means the government of any foreign country pursuant to the act of March 11, 1941, entitled "An Act to Promote the Defense of the United States." (Lend-Lease Act.)

(b) Simplified practices. No producer shall put into process any steel for the purpose of manufacturing, stamping, forging or otherwise fabricating hand forks, hand hoes, hand rakes, hand hoes, hand eye hoes, or hand cultivators other than the kinds named in Tables 1 through 6 of Appendix A and in conformity with the grades, sizes, finishes, weights, finishes and other specifications set forth in Appendix A.

(c) Exceptions to the restrictions of paragraph (b) shall not apply to: (1) Hand eye hoes for export under a license issued by the Foreign Economic Administration, (2) hand eye hoes to fill an order for a Lend-Lease government, (3) hand eye hoes to fill orders for the possessions of the United States, (4) hand forks, hand hoes, hand rakes and hand hoes made especially for the sea-food industry, (5) hand broom rakes, (6) hand cultivators, when the handle length is under 18 inches.

(d) Restrictions on production and delivery of general purpose rakes. During the period from July 1, 1944 to July 1, 1945, no producer shall manufacture or deliver more general purpose rakes than 60 percent by weight of the general purpose rakes which he produced in either the calendar year 1940 or the calendar year 1941, whichever was greater. Orders made or for the account of the Army, Navy, Maritime Commission or Veterans' Administration shall not be charged against this quota.

(e) The War Production Board may assign base rates of production for general purpose rakes to persons who have none. Any person who does not have a base rate of production for making general purpose rakes and who wants to make them, may apply for a base rate of production by filing a letter with the War Production Board, Washington 25, D. C., Ref: L-157 Schedule V. This letter shall state what facilities he has for this purpose. A base rate of production will be assigned on an equitable basis in view of the base rates of production of other persons in the industry, thus to allow for equitable allocation of his quota under the terms of paragraph (d) of this schedule.

Materials will be allocated to the extent available, with the view of permitting production where this will not require materials, facilities or labor needed for war purposes and will not otherwise affect or interfere with production for war purposes.

(1) Records. Each producer of hand forks, hand hoes, hand rakes, hand hoes, hand eye hoes, or hand cultivators shall execute and file with the War Production Board such reports and questionnaires as the Board shall from time to time require, subject to the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.

Issued this 16th day of December 1944.

WAR PRODUCTION BOARD,

BY J. JOSEPH WHELAN,

Recording Secretary.

APPENDIX A—EXPLANATIONS AND LIMITATIONS

Note: In Table 1, item "Alfalfa" and footnotes a and b added Dec. 16, 1944.

1. Grades. A, B, and C designate qualities of complete tools, A designating the best quality. Limitations applying to quality are given separately at the foot of each table. Handle grades A, B, and C are defined in simplified practice Recommendation RP6-40, Ash Handles, issued by the National Bureau of Standards, United States Department of Commerce. Handle grade definitions given shall not be construed as prohibiting the substitution for ash of other suitable species of wood having characteristics nearly comparable as possible to the respective grades of ash for which they are substituted, provided all handles other than ash be marked with the name of the species of wood of which they were made.

2. Finishes. Except where otherwise stated, handles and tines shall be natural finish, i. e., dipped in their natural state (except that they may be wire brushed to remove scale or rust) in paint, enamel, lacquer, or other protective coating. Wood handles shall be finished so that the grain of the wood is plainly visible.

Handles are not required to conform to the listed sizes, but shall not exceed the maximum length listed.

* The approximate weight per dozen is given for the highest grade listed. It is intended only to fix within reasonable limits the weight of the fork proper.

* With 4-foothandles.

* Including ball and braces.

* Grade B spading forks to have tines half polished on face, tumbled back.

* A producer may manufacture either the header fork or the alfalfa fork, but not both of them.

Additional dyestuffs shall be deemed necessary when the user has insufficient supply of dyestuffs to carry out such orders, directions, or approved programs provided he is not using any of his regular quota to dye or print any material a deeper shade than a standard consistent with available supplies of dyestuffs and the need for the particular shades in carrying out War Production Board orders, directions, and approved programs. The granting of authorizations among dyestuff users participating in the same approved program or direction shall, insofar as practicable, be based on their proportionate participation in such program or direction. Authorizations for dyestuffs to be used in dyeing apparel for export may be granted which would not be used in contracts or subcontracts of a government agency or for other essential export uses. Authorizations which in the aggregate would require more than a total of 2 per cent of the domestic dyestuff production for export as dyestuffs, or for use in re-dyeing apparel for export, will be granted only upon program determinations.

Any person who did not deliver or accept deliveries of dyestuffs covered by this order during 1941 may, nevertheless, on application to the War Production Board be granted quotas on an equitable basis in view of the quotas of other persons in the aggregate. This application should be made by letter stating the products the applicant proposes to manufacture which will require dye intermediates or dyestuffs; and what his present facilities are for the manufacture or processing of these products. Quotas for delivery or acceptance of deliveries of dyestuffs will be granted where this will not require materials, facilities or labor needed for war purposes and will not otherwise adversely affect or interfere with production for war purposes.

"(1) Treatment of mixtures. In the case of physical mixtures of different classes of dyestuffs containing a component or components of one class to the extent of at least 90% of the value of such mixture, such mixtures shall be considered as belonging to the class to which said component or components belong.

"In the case of all other physical mixtures of dyestuffs, the classes of the components shall be considered separately.

"(2) Restrictions on use of specific dyestuffs. No person shall use any:

1. [Deleted Oct. 33, 1943.]

2. Anthraquinone in any physical form in discharging (including color and white discharge), stripping or destroying naphthol (azoic), vat or other dyes already present on textile fibers. This provision shall not prohibit the use of Anthraquinone in the manufacture of dyestuffs.

3. Annato or annato extracts for coloring any materials other than food products.

4. In the restrictions on inventory contained in Priorities Regulation No. 1 (81 FR 359, Oct. 29, 1943), shall accept delivery of any Class A dyestuffs which will increase his inventory thereof beyond an amount which, to the best of his knowledge and belief, will be used by him in the next 45 days.

5. Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

6. General prohibitions. No person shall deliver or accept delivery of any dyestuffs, if he knows, or has reason to believe, such material is to be used or is to be delivered or accepted in violation of the terms of this order.

7. Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

8. Applicability of regulations. This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

9. Communications to the War Production Board. All communications concerning this order, shall, unless otherwise ordered in writing, be addressed to War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Reference: M-108.

(2) Grades not listed. If you are a packer of Type 51 (Connecticut Broadleaf) or Type 52 (Connecticut Havana Seed) domestic binder tobacco, your maximum price per pound, selling weight, of a particular grade not listed in Table IV shall be:

(i) The highest price per pound, selling weight, you charged a purchaser of the same class for the same grade of the 1942 crop of the type of tobacco being priced for;

(ii) If your maximum price cannot be determined under (i), your maximum price shall be the highest price per pound, selling weight, charged by a seller of the same class to a purchaser of the same grade of the 1942 crop of the type of tobacco being priced for;

(iii) If your maximum price cannot be determined under (i) or (ii), your maximum price shall be the highest price per pound, selling weight, you charged a purchaser of the same class for the most closely comparable grade of the 1942 crop of the type of tobacco being priced for.

(iv) If your maximum price cannot be determined under (i), (ii), or (iii), your maximum price shall be the highest price per pound, selling weight, charged by a seller of the same class to a purchaser of the same grade of the most closely comparable grade of the 1942 crop of the tobacco being priced.

IV. Maximum prices for sales of domestic cigar filler and binder tobaccos by dealers and jobbers. (a) If you are a dealer or jobber, your maximum price per pound, selling weight, for a type and grade of domestic cigar filler or binder tobacco shall be determined as follows:

1. Ascertain your weighted average cost per pound of the type and grade of tobacco being priced of the 1939, 1940 and 1941 crops by dividing your total net delivered cost for all such tobacco by the weight thereof.

2. Ascertain your weighted average selling price per pound for your sales of the type and grade of tobacco being priced of the 1939, 1940 and 1941 crops by dividing your total selling price therefor by the number of pounds sold.

3. Ascertain your mark-up factor by dividing the result obtained in (2) by the result obtained in (1).

4. Multiply your net delivered cost per pound of the tobacco being priced by the percentage obtained in (3). The resulting figure is your maximum price per pound, selling weight.

(b) If your maximum price cannot be determined under (a), your maximum price shall be that of your most closely competitive dealer or jobber at a purchaser of the same class for the same type and grade of domestic cigar filler or binder tobacco.

Sec. 6. Maximum prices for sales of domestic cigar filler and binder tobacco by manufacturers. If you are a manufacturer, your maximum prices for sales of domestic binder and filler tobacco packed by you shall be determined in the manner provided in section 4 as if you were a packer. If you resell in packed form binder or filler tobacco purchased by you in packed form, your maximum price shall be your net delivered cost per pound for the tobacco.

Sec. 7. Maximum prices for seller unable to price under sections 4, 5 or 6. If you are required to price under sections 4, 5 or 6, but cannot determine your maximum price for a sale of a type and grade of domestic cigar filler and binder tobacco to a purchaser, you shall apply by letter to the Office of Price Administration. Washington, D.C., requesting that such tobacco be divided into four classes and that the average price per pound of each class be established. The application should state (a) the name and address of the purchaser; (b) a description of the tobacco sufficient to identify it for pricing purposes; and (c) the reasons for your inability to determine a maximum price under sections 4, 5 or 6.

After receipt of the application, the Office of Price Administration will, by order, establish a maximum price, or prescribe a method of determining it. Until a maximum price is established or a method of determining it prescribed, you may deliver the tobacco, but you may not receive payment.

Sec. 8. Customary discounts and allowances. If you are a seller, you shall continue to grant your customary discounts and allowances with respect to sales of the 1942 crop to the particular purchaser. If you made no sales of the 1942 crop to that purchaser, you shall continue to grant your customary discounts and allowances on sales by you of the 1942 crop to purchasers of the same class. If you made no sales of the 1942 crop, you shall grant the discounts and allowances customarily allowed on sales of the 1945 crop by a seller of the same class to purchasers of the same class.

Sec. 9. Adjustable pricing. You may agree to sell this tobacco at a price which can be increased up to the maximum price in effect at the time of delivery, but you may not, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices adjusted upward in accordance with action taken by it after delivery. Such authorization may be given when a request to establish a maximum price or for a change in a maximum price is pending, but only if the authorization is necessary to promote distribution and if it will not interfere with the provisions of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to establish the price or to act upon the pending request for a change in price. The authority above will be given by order except that it may be given by letter or telegram when the contemplated action will be the granting of an individual application for establishment of a maximum price.

PART 1439—FRESH FRUITS AND VEGETABLES FOR TABLE USE, SALES EXCEPT AT RETAIL

A statement of the considerations involved in the issuance of this amendment has been filed with the Division of the Federal Register.*

Section 5 is amended to read as follows:

Sec. 5. Exempt sales. This regulation does not apply to the following sales:

(a) Sales at retail.

(b) Sales of fruits specifically exempted by the provisions of any appendix to this regulation.

(c) Those sales of gift packages of fruit, and fruit to be used in gift packages, specified in section 5a of this regulation.

2. A new section 5a is added to read as follows:

Sec. 5a. Special provisions for sales of gift packages of fruit and sales of fruit to be used in gift packages—(a) Definitions. When used in this section the term

(1) "Standard container" includes "standard" or "legal" container as defined elsewhere in this regulation, and also includes single units or component parts of standard containers, such as a half-box, a one-half box bag, etc.

(2) "Christmas tree" means either (a) a container, other than a standard container, which is specially made, wrapped or otherwise particularly adapted for use as a gift, and which contains either one or several kinds of fresh fruit specially packed in the container, or (ii) any container, not larger than a standard container, which contains more than one kind of fresh fruit specially packed in the container; whether or not, in either case, the fresh fruit is mixed with other food items such as nuts, jams, preserves, glacé fruits, etc.

(b) Exempt sales of gift packages of fruit. Sales and deliveries of gift packages of fruit are exempt from the regulation if all of the following conditions are satisfied:

(1) The sale is made by the packer of the particular gift package to an ultimate consumer.

(2) The order is taken directly from the buyer by the seller and not through any agent except a regularly paid employee, and delivery is made directly by the seller and not through any agent except a regularly paid employee or a carrier.

(3) The sale provides delivery of not more than 5 packages in one lot to the buyer or to any one person designated by him.

(c) Exempt sales of fruit to be used in gift packages of fruit. Sales of fruit by wholesalers, country buyers or primary sellers to packers of gift packages of fruit are exempt from this regulation if the fruit sold is to be used and resold in gift packages.

(d) Reports to be filed by packers of gift packages of fruit. Every packer of gift packages of fruit who purchases fruit that is exempt under paragraph (c) of this section shall, within 6 days after each such purchase, file an affidavit with the Regional Office of the Office of Price Administration for the region in which he is located showing his name and address, the name and address of the person from whom he purchased the fruit, the date of the purchase, the quantity and a description of the fruit purchased containing a statement that the fruit was purchased or received for sale in gift packages of fruit.

(e) Maximum prices for all other sales of gift packages of fruit. For all sales of gift packages of fruit not specifically exempted by this section, the seller, unless the sale is covered by Maximum Price Regulation 411, 422 or 423, figures his maximum price in each case as follows:

(1) He determines his maximum price under this regulation for the quantity of each fruit contained in the package and adds to these his maximum prices, if any, for the other items in the package. If the fruit was produced by him, he uses the per-pound maximum price for bulk sales, or for bulk graded sales if such a price is named for the particular fruit. If he bought the particular fruit, he uses the per-pound maximum price for the type and style of pack in which he bought it.
(2) He adds the actual cost to him (not to exceed a legal cost) of any item in the package that is not covered by this regulation, or for which he cannot determine a maximum price, and of all packaging materials, including the container, if any, that are sold in a single package.

(3) He multiplies the total by 1.05. The result is his maximum price for the particular gift package of fruit.

If any particular fruit or other item in the package has no maximum price under this or any other maximum price regulation, the seller uses his actual cost of that item. However, he may not use the actual cost of any fruit which he purchased under paragraph (c) of this section. For such fruit he must use his maximum price figure under (1) above.

This amendment shall become effective December 18, 1944.

Note: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 16th day of December 1944.

Rev. Sr. 14 to OM. Pr. Amdt. 165

CERTAIN BULK MALT SYRUPS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1.30 is amended to read as follows:

(a) This section applies only to malt syrups prepared from an infusion of barley malt (sprouted barley), with or without other cereals, concentrated to a moisture content of approximately 20% to 50% in liquid form and approximately 3% to 5% in dry form and packed in bulk, that is, in containers of 10 pounds or more capacity. Such syrups may possess varying degrees of diastatic activity or may be non-diastatic enzymatically-treated syrups, to which section 1.22 of this regulation applies, are not included in this section.

(b) The seller's maximum price for sales of bulk malt syrups to which this section applies, per pound, shall be the total of:

(1) Suchseller's maximum price as established by § 1499.2 of the General Maximum Price Regulation, for an identical quantity, on sales to the same class of purchasers; plus:

*Copies may be obtained from the Office of Price Administration.

(2) He adds the actual cost to him (not to exceed a legal cost) of any item in the package that is not covered by this regulation, or for which he cannot determine a maximum price, and of all packaging materials, including the container, if any, that are sold in a single package.

(3) He multiplies the total by 1.05. The result is his maximum price for the particular gift package of fruit.

If any particular fruit or other item in the package has no maximum price under this or any other maximum price regulation, the seller uses his actual cost of that item. However, he may not use the actual cost of any fruit which he purchased under paragraph (c) of this section. For such fruit he must use his maximum price figure under (1) above.

This amendment shall become effective December 18, 1944.

Whereas, the Commission, on September 26, 1944, announced a proposed rule relative to the announcement of sponsored programs as required by section 317 of the Communications Act of 1934; and

sylvania, on the 13th day of December 1944.

Notice is hereby given that a declaration or application (or both) has been filed with the Commission pursuant to the Public Utility Holding Company Act of 1935, by Columbia Gas & Electric Corporation (“Columbia Gas”), a registered holding company and a subsidiary of The United Corporation, also a registered holding company.

Notice is further given that any interested person may, not later than December 25, 1944, e. w. r., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that his name be notified if the Commission should order a hearing thereon. At any time thereafter, said declaration or application, as filed, or as amended, may be granted or become effective, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereunder. Any such request should be addressed: Secretary, Securities & Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All comments are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Columbia Gas requests an extension to December 31, 1945, of the date, hereinafter extended by orders of this Commission from December 31, 1942 to December 31, 1943, and subsequently to December 31, 1944 (Holding Company Act Releases Nos. 4036 and 4795), on which the balances remaining in its accounts designated “Special Capital Surplus” and “Surplus Prior to January 1, 1928” must be restored to the common capital stock account of the corporation.

The initial findings, opinion and order of this Commission (dated January 26, 1939) issued in respect of the above matter permitted Columbia Gas to reduce the capital represented by the shares of its outstanding common stock from $33,263,950 to $15,244,049.10 without reducing the number of shares, and to credit the amount of the reduction ($18,039,900.90) to a new account to be designated “Unearned Surplus—Special” which will be available for adjustment of book cost and depreciation of utility plant. The proposed transaction is for the stated purpose of enabling Central New York to comply with the latter of certain alternative conditions contained in an order of the Public Service Commission of the State of New York, dated November 18, 1944, authorizing the issuance and sale of $48,000,000 principal amount of General Mortgage Bonds, said alternative conditions being (1) that so long as any of the bonds remain outstanding common stock is detrimental to the public interest or the interests of investors or consumers, or will result in an unfair or inequitable distribution of voting power among holders of the securities of Central New York.

That, without limiting the scope of the proceedings by the said declaration, particular attention will be directed at the hearing to the following matters and questions:

(1) Generally, whether the proposed transactions comply with the applicable provisions of the Public Utility Holding Company Act of 1935 and all rules and regulations promulgated thereunder.

It is ordered, That Charles S. Lobinger or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. Any person desiring to be heard or otherwise wishing to participate in the proceedings shall file with the Commission on or before December 27, 1944, at 11:00 a. m., e. w., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as the hearing room clerk in Room 218 will at that time designate. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall file with the Commission on or before December 27, 1944, a written request relative thereto as provided by Rule XVII of the Rules of Practice of the Commission.
