(o) "Maintenance" means the preserving and keeping, through constant attention, of each roadway and roadside structure and facility as nearly as possible in its original condition as constructed, or subsequently improved, to provide satisfactory and safe highway service.

§ 15.2 *Apportionment.* (a) From such information, investigations, and sources as the Forester shall deem most accurate he shall prepare a tabulation showing the areas and value of the national forest land in each State, including the value of forage and timber. This tabulation, when approved by the Secretary, shall serve as the basis of apportionment for the forest highway fund.

(b) On or before January 1 of each year the Secretary shall apportion among the several States, Alaska and Puerto Rico the forest highway fund authorized for the next succeeding fiscal year as follows: One-half in the ratio that the area of national forest land in any State bears to the total area of such land in all States, and one-half in the ratio that the value of national forest land in any State bears to the total value of such land in all States, subject to any modifications that future legislation may require.

(c) Ten percent not exceeding \$100,000 of the amount so apportioned to each State shall be held as a reserve and the balance shall be made available immediately after apportionment for the forest highway work program. Allotments will be made from this reserve for administration and, in special cases, to programmed projects. Any balances in the reserve will be entirely released for programming not later than the date of the apportionment of the succeeding fiscal year authorization. At the beginning of

the fiscal year for which the funds are authorized, allotments will be made from the reserve to cover the administrative requirements of the Public Roads Administration and the Forest Service.

§ 15.3 *The forest highway system.* (a) Forest Highways shall be determined by the Secretary and the Administrator and shall be classified as follows:

(1) All forest highways on the Federal-aid highway system.

(2) All forest highways which are on an approved primary State highway and not in class (1).

(3) All forest highways on the secondary or feeder roads system and any other forest road, of primary importance to the counties or communities, when designated as a forest highway.

(b) The forest highway system previously approved by the Secretary may be increased or decreased in mileage by addition or deletion of sections from time to time, in accordance with the following procedure:

The division engineer shall request from each State highway department a map showing the roads within or adjacent to the national forests which the State Highway Planning Survey shows to be of primary importance to the States, counties, or communities and which, therefore, may be proposed for inclusion in the forest highway system. The division engineer will furnish a copy of this map to the regional forester for his comments and suggestions. Subsequently the division engineer will arrange a conference with the State highway department and the regional forester to agree on recommendations of routes to be included in the forest highway system. A map of the routes selected at this conference shall be submitted by the Commissioner and the Forester, with their recommendations, to the Secretary and to the Administrator for final action.

§ 15.4 *Selection of forest highway program.* (a) After each authorization of appropriations by Congress for forest highways the division engineer shall request each State highway department to submit to him and to the regional forester a map and a corresponding list of forest highway projects proposed for the fiscal period covered by such authorization, including its recommendations on all projects proposed to it by counties, communities, or other agencies.

The regional forester may call upon the division engineer for any necessary investigations to supply him accurate and full information on any projects proposed by the State or county.

(b) Projects included in the forest highway programs shall be based upon the following considerations:

(1) Provision for the maintenance of roads existing or under construction.

(2) The completion of necessary surveys.

(3) Findings of the highway planning survey.

(4) Benefit to forest development, protection, and administration, as indicated by the transportation plan of the Forest Service.

(5) Construction correlation with military requirements and with adjacent Federal and State road programs.

(6) The economy of continuity of operations and ability of cooperators to maintain adequately the improvement.

(c) Within sixty days following the receipt of the maps and lists required by paragraph (a) of this section, the division engineer shall arrange for a joint conference with the State highway department and the regional forester for consideration of a program for the fiscal period of the authorization. A joint report of this conference shall be filed by the division engineer with the Commissioner and by the regional forester with the Forester.

(d) Following the joint conference report the Commissioner and the Forester each year shall prepare a Forest highway work program for the ensuing fiscal year, and following the Secretary's apportionment, as provided in § 15.2, the Commissioner shall submit such work program to the Administrator and the Secretary for their approval.

(e) The approved forest highway work program may be modified on recommendation of the Commissioner and the Forester with the approval of the Administrator and the Secretary.

§ 15.5 *Cooperative agreements.* (a) A cooperative agreement for any project which involves financial contributions for construction or maintenance from cooperators shall be approved prior to beginning work thereon.

(b) Negotiations for cooperative agreements shall be conducted by the division engineer and the detailed provisions shall be agreed upon by him and the cooperator. All cooperative agreements shall be prepared on forms furnished by the Commissioner for execution by him and the cooperator.

(c) No work under a cooperative agreement involving forest highway funds shall be advertised, no contracts let, nor any construction started without the prior approval of the division engineer.

§ 15.6 *Surveys.* (a) A location survey, plans, specifications and estimate of cost for projects to be included for construction in any present or future forest highway work program, under allotments set up as provided hereinafter in § 15.9, shall be made by the division engineer as soon as practicable, unless otherwise specifically directed by the Commissioner. Roads that ultimately may become a part of the forest highway system may be programmed for preliminary location survey and corresponding estimate of cost in the same manner as location surveys are programmed for adopted forest highways.

(b) Before the completion of a survey, the regional forester shall be notified in writing so that he shall have opportunity to examine the surveyed line or the location map and to indicate any details of location desirable for the protection or development of the national forests.

§ 15.7 *Construction.* (a) No construction shall be undertaken upon any designated part of the forest highway system by any Federal agency until a survey and cost estimate have been made by the division engineer and approved by the State highway department and the Commissioner, unless otherwise specifically authorized by the Commissioner; but the

Forest Service may make temporary repairs on forest highways or construct timber utilization roads on the forest highway system following as closely as practicable reconnaissance surveys made by the Commissioner at the request of the Forest Service.

(b) Upon approval by the Commissioner, the division engineer may begin construction of projects carried in the approved forest highway work program.

(c) Expenditures authorized in the work program for any construction project may be increased or decreased by the Commissioner by not to exceed 25 percent by transfer between projects or from any unprogrammed balance or from the reserve. Any construction project substantially deviating, in the opinion of the Commissioner, from the project as approved in the forest highway work program or on which the cost will exceed by more than 25 percent the expenditure authorized therein, shall be reprogrammed.

(d) Unless otherwise authorized by the Commissioner all construction of forest highways will be by the contract method and he shall accept or reject proposals from bidders on any forest highway construction projects and execute any necessary contracts and supporting bonds therefor. If it is impractical to construct a project or any part thereof by the contract method, the Commissioner may proceed as authorized by paragraph (d), section 23, of the Federal Highway Act.

(e) Construction work on projects shall not be considered complete until the project has been inspected and approved by the division engineer and by the State highway department or co-operating agency, as the case may be, nor until the regional forester has approved the clearing and disposal of refuse.

§ 15.8 Maintenance. (a) All maintenance work on all programmed forest highway projects during construction and after completion shall be performed by the Public Roads Administration unless otherwise directed by the Commissioner or specified by cooperative agreement with the State or local authority.

§ 15.9 Records and accounting. (a) Following each forest highway appropriation, lump sum allotments shall be set up by the Secretary to the Public Roads Administration and the Forest Service to cover the estimated requirements of each agency based on the approved work program. These cash allotments shall be available for disbursement on vouchers approved by authorized officers of the appropriate agency for:

(1) Authorized expenditures for survey and construction on all forest highway projects in the approved work program.

(2) Current costs of maintenance as estimated by the division engineer on all forest highway projects to be maintained by the Public Roads Administration in accordance with the approved program.

(3) Administrative expenses.

(b) Each equipment depot under the jurisdiction of the Public Roads Administration shall be operated on a self-sustaining basis. Work done for other

agencies will be on actual cost basis including overhead. Projects on which equipment is used will be charged with the cost of such equipment on a depreciation or appropriate rental basis. The purchase of equipment and operation of these equipment depots will be paid from available forest highway cash and such expenditures will be carried initially in a suspense account. Periodically equipment charges will be transferred to the proper projects.

(c) Cooperative funds contributed by cooperator shall be deposited in the United States Treasury to the credit of the Forest Service Cooperative Fund authorized by the act of June 30, 1914 (16 U.S.C., 498), which deposits will be made available for expenditure by the agency concerned from the appropriation "Cooperative Work, Forest Service, Trust Fund" (Act of June 26, 1934, 31 U.S.C., 725s), and shall be audited, disbursed, and recorded in the same manner as funds under the Federal Highway Act. Cooperative expenditures made by co-operators shall be audited and disbursed as provided in the cooperative agreement.

(d) The Commissioner shall keep all records which he deems necessary of survey, construction, and maintenance costs for projects under his supervision and will furnish the Forester and any co-operating agency with a copy of a final report showing the accomplishments and expenditures on each project completed.

§ 15.10 Commissioner's report. (a) Not later than September 15 each year the Commissioner shall submit to the Administrator and to the Secretary a report covering the operations on the forest highway system for the preceding fiscal year, showing the current status of surveys, construction and maintenance and with such recommendations as he shall consider desirable. This report shall contain sufficient data upon which to base the report to Congress on forest highway work required by section 19 of the Federal Highway Act.

Application of regulations. This part shall take effect upon approval and shall supersede the rules and regulations approved by the Secretary of Agriculture for administering forest roads and trails on March 11, 1922, as amended.

Dated: May 10, 1945.

PHILIP B. FLEMING,
Federal Works Administrator.

Approved: April 17, 1945.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue Subchapter A—Income and Excess Profits Taxes

[T. D. 5454]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941 RECOVERY OF CERTAIN ITEMS PREVIOUSLY DEDUCTED

Regulations 111 (26 CFR, Cum. Supp., Part 29), relating to income tax, are amended as follows:

PARAGRAPH 1. Section 29.22 (b) (12)-1, as amended by Treasury Decision 5307, approved November 29, 1943, is further amended as follows:

(A) By revising the title to such section and the first two paragraphs thereof to read as follows:

§ 29.22 (b) (12)-1 Recovery of certain items previously deducted—(a) In general. Section 22 (b) (12) provides that income attributable to the recovery during any taxable year of bad debts, prior taxes, and delinquency amounts shall be excluded from gross income to the extent of the "recovery exclusion" with respect to such items. The rule of exclusion so prescribed by statute applies equally with respect to all other losses, expenditures, and accruals made the basis of deductions from gross income for prior taxable years, including war losses referred to in section 127, but not including deductions with respect to depreciation, depletion, amortization, or amortizable bond premiums. See *Dobson v. Commissioner*, 64 S. Ct. 239. The term "recovery exclusion" as used in these regulations means accordingly an amount equal to the portion of the bad debts, prior taxes, and delinquency amount (the items specifically referred to in section 22 (b) (12)), and of all other items subject to the rule of exclusion which, when deducted or credited for a prior taxable year, did not result in a reduction of any tax of the taxpayer under chapter 1 of the Internal Revenue Code (other than a tax under section 102) or under corresponding provisions of prior revenue laws.

(1) **Section 22 (b) (12) items.** The term "section 22 (b) (12) items" as used in these regulations means those bad debts, prior taxes, delinquency amounts, and all other items subject to the rule of exclusion, for which a deduction or credit was allowed for a prior taxable year. If a bad debt was previously charged against a reserve by a taxpayer on the reserve method of treating bad debts, it was not deducted, and it is therefore not considered a section 22 (b) (12) item. Bad debts, prior taxes, and delinquency amounts are defined in section 22 (b) (12) (A), (B), and (C), respectively. A typical example of a delinquency amount described in that section is interest upon delinquent taxes. A typical example of the other items not expressly referred to in section 22 (b) (12) but nevertheless subject to the rule of exclusion is a loss sustained upon the sale of stock and later recovered, in whole or in part, through an action against the party from whom such stock had been purchased.

(B) By striking from the first sentence in paragraph (a) (2) the words "items described in section 22 (b) (12)" and by inserting in lieu thereof the words "section 22 (b) (12) items".

(C) By striking the last sentence of paragraph (a) (4).

(D) By striking out the word "recoveries" in the second sentence of paragraph (b) (1) and inserting in lieu thereof the words "excludable recoveries".

(E) By striking from the first paragraph in the example in paragraph (b) the words "\$2,000 business expenses" and

by inserting in lieu thereof the words "a depreciation deduction of \$2,000".

(F) By striking from the second line in the tabulation in the example in paragraph (b) the words "Business expenses" and by inserting in lieu thereof the word "Depreciation".

PAR. 2. Section 29.127 (c)-1 is amended by inserting immediately after the second sentence in the first paragraph thereof the following: "War loss recoveries are considered as made first on account of war losses allowable but not actually allowed as a deduction, and second on account of war losses allowed as a deduction but which did not result in a reduction of tax under chapter 1. If there were deductions allowed on account of war losses for two or more taxable years which did not result in a reduction of any tax under chapter 1, a recovery on account of such losses is considered as made on account of such losses in the order of the taxable years for which they were allowed, beginning with the latest."

PAR. 3. Section 29.127 (f)-1 is amended by striking out the second sentence in the first paragraph and substituting in lieu thereof the following: "In the case of recoveries of war losses and other items to which the recovery exclusion provisions of section 22 (b) (12) apply, such as bad debts, the determination of the tax benefit should be made in accordance with § 29.22 (b) (12)-1 (b)."

PAR. 4. The amendments to § 29.22 (b) (12)-1 of Regulations 111 (covering taxable years beginning after December 31, 1941) are hereby made applicable to taxable years beginning prior to January 1, 1942 (such years being covered by Regulations 103, 101, 94, 86, 77, 74, 69, 65, 62, 45, and 33), and the amendments to §§ 29.127 (c)-1 and 29.127 (f)-1 of Regulations 111 are hereby made applicable to taxable years beginning prior to January 1, 1942, and after December 31, 1940 (such years being covered by Regulations 103).

(Sec. 62, Internal Revenue Code (53 Stat. 32; 26 U.S.C., 1940 ed., 62), the corresponding provisions of prior internal revenue laws, and sections 116 and 156 of the Revenue Act of 1942 (56 Stat. 812, 852; 26 U.S.C., Sup. III, 22 (b), 127))

[SEAL] JOSEPH D. NUNAN, JR.,
Commissioner of Internal Revenue.

Approved: May 10, 1945.

Acting Secretary of the Treasury.

[SFAW Reg. 3, Amdt. 3]

PART 602—GENERAL ORDERS AND DIRECTIVES

DISTRIBUTION OF COAL MOVING TO TIDEWATER FOR BUNKER FUEL USE

In order that SFAW may be advised concerning the distribution of coal moving to tidewater for bunker fuel use, it is necessary to obtain the name and

country of registration of each vessel into which coal is dumped for bunker fuel use other than on the Great Lakes. SFAW Order No. 3 is therefore amended as follows:

Section 602.62 (b) is amended to read as follows:

(b) Each person who directs or orders the dumping of coal into vessels for transshipment via tidewater, or for vessel or bunker fuel use other than on the lakes, shall maintain appropriate records and shall file with the Solid Fuels Administration for War, Washington 25, D. C., on or before the first day of each calendar month, a copy of the cargo manifest consist report or dumping sheet issued to him in regard to each shipment of coal made during the second preceding calendar month, and shall attach to and file with such copy a statement, which may be a copy of the invoice covering the coal dumped, showing the producing district (where such district is District No. 7 or 8 there shall be an indication as to whether the coal involved was low or high volatile bituminous coal), tonnages by size groups, consumer use, destination of the vessel, and, if the coal involved is for railroad fuel use or is for by-product use, the name of the vendee or purchaser. When such statement covers coal for bunker fuel use, it shall also show the name of the vessel and the country of registration of the vessel.

This amendment shall become effective immediately.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service

[1945 Rev. Dept. Circ. 560, Amdt. 3]

PART 313—ADJUSTED SERVICE BONDS OF 1945

MAY 11, 1945.

Department Circular No. 560, Revised, dated October 24, 1936 (31 C. F. R. 313), as amended, is hereby further amended by striking out paragraphs 3 and 9 of the regulations prescribed therein and inserting in lieu thereof the paragraphs 3, 9 and 9½ set forth below, and by adding a new paragraph, number 11½, also set forth below.

3. Federal Reserve banks are designated as places for the redemption on and after January 16, 1937, of bonds, and are authorized to issue checks in payment for bonds transmitted to them in accordance with this and the next preceding paragraph. If a bond is to be transmitted for payment to a Federal Reserve bank directly by the registered owner, or through a banking institution acting as his agent, the request for pay-

ment must be executed in the presence of and be certified by one of the officers authorized in paragraph 12, except postmasters and other post office officials or employees.

9. *Without administration.* When no legal representative of the estate of a deceased bond owner has been or is to be appointed and it is established to the satisfaction of the Secretary of the Treasury either that the value of the gross personal estate of the deceased owner, including Adjusted Service Bonds, does not exceed \$2,000 or that administration of the estate is not required in the State of the decedent's domicile, delivery or payment of a bond owned by such decedent will be made to the person determined by the Secretary of the Treasury to be lawfully entitled thereto. Such delivery or payment will be made in accordance with the provisions of Department Circular No. 300, as amended, in so far as applicable, such provisions to be construed in a manner consistent with the provisions of the Adjusted Compensation Payment Act, 1936, as amended, and the provisions of these regulations. Forms P. D. 1049 and 1050 must be completed and executed in compliance with the accompanying instructions. These forms may be obtained from the Treasury Department, Division of Loans and Currency, Washington, D. C. In all such cases instructions should be requested of that Division before a request for payment is executed or a bond submitted.

9½. *Payment in the case of minors or incompetents not under legal guardianship—(a) Payment to a minor.* Payment may be made direct to a minor bond owner not under legal guardianship upon request of the minor if at the time payment is requested such minor is of sufficient competency and understanding to comprehend the nature of the transaction. In general, the fact that the request for payment has been signed by the minor and duly certified will be accepted as sufficient proof of such competency and understanding.

(b) *Payment to a parent or other person on behalf of a minor.* If a minor bond owner not under legal guardianship is not of sufficient competency and understanding to sign his name to the request and to comprehend the nature of the transaction, payment will be made to either parent of the minor with whom he resides, or if the minor does not reside with either parent, then to the person who furnishes his chief support. Such parent or other person must surrender the bond with the request for payment properly executed, and furnish a certificate, which may be typed on the back of the bond, showing his right to act for the minor. If a parent signs the request, the certificate and signature thereto should be in substantially the following form:

I certify that I am the mother (or father) of John C. Jones and the person with whom he resides. He is _____ years of age, is not under legal guardianship, and is not of sufficient competency to sign this request and to understand the nature of the transaction.

Mrs. Mary Jones on behalf of John C. Jones.

If a person other than a parent signs the request, the certificate and signature thereto, including a reference to the person's relationship, if any, to the minor,

should be in substantially the following form:

I certify that John C. Jones does not reside with either parent and that I furnish his chief support. He is _____ years of age, is not under legal guardianship, and is not of sufficient competency to sign this request and to understand the nature of the transaction.

Mrs. Alice Brown, grandmother, on behalf of John C. Jones.

(c) *Payment to incompetents.* In any case where the adult owner of a bond has been judicially declared incompetent or such incompetency is otherwise established and no duly qualified legal representative of his estate is acting, payment will be made to any person (whether or not a member of the family of the incompetent) upon presentation of satisfactory proof that such person is acting in behalf of and for the benefit of the incompetent.

The Treasury Department may in any particular case require further evidence as to the competency and understanding of a minor. It may also in any particular case require a minor to join in a request

for payment executed by a parent or by another person or may require a parent or other person to join in a request for payment executed by a minor.

1 1/2. *Payment to joint fiduciaries.* Where there are two or more persons acting as joint fiduciaries, such as administrators, executors, trustees or guardians of a bond owner's estate, the bond will be paid upon a properly executed request by any one or more of such fiduciaries but payment shall be for the account of all.

In any such case, the person affected may apply by letter to the Copper Division, War Production Board, for a specific authorization to cover his needs. Situations may arise which will require the War Production Board, from time to time, to issue specific authorizations or directions to a person as to the source, destination, amount or grade of copper raw materials to be delivered, acquired or used by him.

(e) *Definitions.* (1) "Copper" means unalloyed copper.

(2) "Copper-base alloy" means any alloy in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy. Copper-base alloy does not include alloyed gold produced in accordance with United States Commercial standards CS 51-35 and CS 67-38.

(3) "Scrap" means all copper or copper-base alloy materials or objects which are the waste or by-product of industrial fabrication, or which have been discarded on account of obsolescence, failure or other reason. The following direction is issued pursuant to Priorities Reg. 3:

(a) *Purpose.* Limitation Order L-38 is revoked as of May 12, 1945. List B of Priorities Regulation 3 includes "Refrigeration and air conditioning systems and parts, except as permitted by Order L-38". This direction continues in effect the restrictions on the use of blanket MRO ratings formerly contained in that order.

(b) *Blanket MRO ratings.* (1) Blanket MRO ratings may not be used to get any new system, condensing unit (with or without motor or controls), compressor unit, low side, evaporator, cold storage door, or insulated enclosure, for any refrigeration or air conditioning system, or any reconditioned refrigeration or air conditioning system containing a new condensing unit (with or without motor or controls) or containing a new compressor unit, unless needed to replace equipment of substantially the same size or capacity which has become worn out or damaged beyond repair while in the purchaser's possession and unless he has had it at least ninety days. In addition, no blanket MRO rating may be used to get any new parts to enlarge the size or capacity of any used or reconditioned system or to improve its design or change its function.

(2) The restrictions in (b) (1) above do not apply to the use of AA-1 blanket MRO ratings assigned by CMP Regulation 5 or 5A or any preference rating order, providing the equipment is to be installed and operated in the production area, cafeteria, or restaurant of an industrial plant (excluding of-

fices, recreation rooms, conference rooms, drafting rooms, first aid rooms, change and rest rooms, and dispensaries).

PART 1010—SUSPENSION ORDERS

[Suspension Order S-779]

DAVID HOLDER

David Holder operates a sawmill at Willits, California, of which he and his wife, Clara Holder, are the owners. The construction hereinafter referred to was, and the operation of the sawmill is, under the sole supervision of David Holder. Beginning on or about June 19, 1944, without having received permission from the War Production Board, David Holder commenced and thereafter continued and completed on Franklin Street at Willits, California, construction of a sawmill at an estimated cost of \$15,000, which was in excess of the \$200 limitation fixed by War Production Board Conservation Order L-41 for such construction. David Holder was aware of War Production Board restrictions on construction and the beginning and carrying on of this construction project without authorization from the War Production Board constituted a wilful violation of Conservation Order L-41.

This violation has diverted critical materials to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.779 Suspension Order No. S-779. (a) For one year from the effective

date of this order David Holder shall manufacture at his sawmill on Franklin Street, Willits, California, 50% of the expected monthly production of lumber in sizes to meet the then current specifications and requirements of the Central Procurement Agency of the United States War Department, unless otherwise specifically authorized in writing by the War Production Board.

(b) For one year from the effective date of this order, unless otherwise specifically authorized in writing by the War Production Board, David Holder shall not sell or deliver all or any part of the lumber produced as required by paragraph (a), unless he shall first offer such lumber to the Procurement Officer of the Central Procurement Agency of the United States War Department and shall have had his offer rejected in writing. The provisions of this paragraph shall not apply to sales and deliveries to agencies of the government of the United States.

(c) For one year from the effective date of this order, unless otherwise specifically authorized in writing by the War Production Board, David Holder shall not cut in the sawmill on Franklin Street, Willits, California, any species of lumber except fir.

(d) Nothing contained in this order shall be deemed to relieve David Holder from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(e) The restrictions and prohibitions contained herein shall apply to David Holder, his successors and assigns or persons acting in his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(f) This order shall take effect on the 13th day of May 1945.

Issued this 3d day of May 1945.

PART 1138—ANTIMONY

[General Preference Order M-112, as Amended May 12, 1945]

§ 1138.1 General Preference Order M-112—(a) *Definitions.* For the purpose of this order "antimony" means and includes:

(1) Ores and concentrates, including beneficiated or treated forms, containing antimony commercially recognized;

(2) Antimony metal, otherwise known as "Regulus" and the element antimony in commercially pure form;

(3) Liquated antimony, sometimes known as "needle antimony", "crude antimony" or "Crudum", which is in any case the result of separating antimony sulphide from antimony ores by fusion, without essential chemical change;

(4) Any alloy containing 50 per cent or more by weight of antimony, as defined in (1), (2), and (3) above;

(5) Antimony oxide which results from the processing of antimony, as defined in (1), (2), (3) and (4) above;

(6) Antimony sulphide (precipitate or synthetic) which results from the processing of antimony, as defined in (1), (2), (3), (4), and (5) above.

(b) *Deliveries, allocations and uses—*

(1) *Restrictions on deliveries.* No person shall deliver or accept delivery of antimony except in accordance with an allocation thereof pursuant to paragraph (b) (2) hereof except as follows:

(i) Antimony ores or concentrates in amounts totaling not more than 50 tons of contained antimony during any one calendar month, by any person who produced such ores or concentrates from mines located within the continental United States or Alaska;

(ii) Antimony in any of the forms specified in paragraph (a) of this order, to any person in lots of 224 pounds or less (contained antimony) provided that the total quantity of contained antimony which any person may receive in one calendar month from all sources of supply pursuant to the authorization contained in this paragraph (b) (1) (ii) shall be limited to 224 pounds.

(iii) To the Metals Reserve Company or to any other Corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act as amended (15 U. S. C., section 606 (b)), or to any duly authorized agent of any such Corporation.

(2) *Allocations and uses.* The War Production Board may from time to time allocate and direct the manner and quantity in which antimony shall be delivered or used, including the use of antimony-bearing lead scrap, secondary antimony-bearing lead alloys or any other practicable substitute in lieu of antimony. The War Production Board may also require any person seeking to place a purchase order for antimony to place the same with one or more particular suppliers. Such allocations and directions will be made primarily to insure satisfaction of all defense requirements of the United States, both direct and indirect and they may be made without regard to any preference ratings assigned to particular contracts or purchase orders.

(c) *Applications for and reports of antimony.* (1) Applications for allocation of antimony under paragraph (b) (1) shall be made to the War Production Board not later than the 20th day of the month next preceding the month in which delivery is desired, on form WPB-2931 or such other form as the War Production Board may from time to time prescribe. Each applicant for an allocation of antimony must apply for the first available grade of antimony which is usable by him in accordance with the following sequence: (i) "Sulphide ores"; (ii) "Liquated"; (iii) "Oxide ores"; (iv) "Regulus metal"; and (v) "Oxide"; and

no application may be made if less critical materials obtainable from secondary sources, or substitute materials, are usable by and available to the applicant. Failure by any person to file an application pursuant to the provisions of this paragraph may be construed as notice to the War Production Board that such person does not desire an allocation of antimony for the succeeding month.

NOTE: The second sentence of subparagraph (1) redesignated subparagraph (2) May 12, 1945; former subparagraph (2) deleted May 12, 1945.

(2) Any person who on the first day of a calendar month has in his possession or under his control 2240 pounds or more of antimony or who used during the preceding calendar month 2240 pounds or more of antimony shall not later than the 20th day of such month report to the War Production Board on form WPB-2931 in accordance with the instructions accompanying such form, regardless of whether or not he seeks an allocation of antimony during the next succeeding month.

(d) *Inventory restrictions.* No person shall knowingly deliver to any person and no person shall accept delivery of any quantity of antimony after February 10, 1945, if the total inventory in the hands of the person accepting delivery is, or by virtue of acceptance will become, in excess of his reasonably anticipated requirements for permissible uses in the next 30 days, excepting in the case of antimony as defined in paragraph (a) (1) which shall be limited to 45 days. This restriction does not apply to a producer of antimony as defined in paragraph (a).

(e) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Appeals and communications.* Any appeal from the provisions of this order shall be made by filing a letter referring to the particular provision appealed from and stating fully the grounds of appeal. Appeals, reports and all communications concerning this order shall, unless otherwise directed, be addressed to the Antimony Section, Tin, Lead and Zinc Division, War Production Board, Washington 25, D. C., reference M-112.

(h) The reporting and record-keeping provisions of this order have been approved by the Bureau of the Budget in

accordance with the Federal Reports Act of 1942.

Issued this 12th day of May 1945.

PART 3294—IRON AND STEEL PRODUCTION

[Order M-21, Direction 1]

DISTRIBUTORS' ORDERS FOR HOT ROLLED OR COLD REDUCED CARBON STEEL SHEETS OR STRIP

The following direction is issued pursuant to Order M-21:

(a) *Purpose and scope of this direction.* The tonnage of hot rolled and cold reduced carbon steel sheets and strip ordered by distributors from producers' scheduled rollings for delivery in each month of 1945 after June 30, is considerably in excess of the tonnage of such products which the War Production Board can allocate to the warehouse industry. So as to make room on mill schedules for urgent war orders which require shipment direct from producers to consumers, and to insure an equitable distribution among all distributors of the scheduled carbon steel sheet and strip tonnage available to the warehouse industry, the following direction is issued pursuant to the provisions of paragraph (f) (1) of Order M-21. The terms of this direction apply only to carbon

steel sheets and strip ordered by distributors from producers' scheduled rollings, and do not apply to distributors' orders for steel sheets or strip to be filled from mill accumulations.

(b) *Limitations on distributors' orders.* (1) *Scheduled carbon steel sheets and strip.* Effective immediately, no distributor shall order hot rolled carbon steel sheets and strip for delivery to his stock from all producers' scheduled rollings during any calendar quarter following June 30, 1945, exceeding 25% of the tonnage of such material he received into his stock from all producers' scheduled rollings during the calendar year 1944. In addition, no distributor shall order cold reduced carbon steel sheets and strip for delivery to his stock from all producers' scheduled rollings during any calendar quarter following June 30, 1945, exceeding 30% of the tonnage of such material he received into his stock from all producers' scheduled rollings during the calendar year 1944. As an alternative for the above provisions of this paragraph (b) (1), a distributor may order up to but not more than a total of 60 tons of hot rolled and cold reduced carbon steel sheets and strip for delivery to his stock from all producers' scheduled rollings in any calendar quarter following June 30, 1945.

(2) *Hot rolled pickled carbon steel sheets or strip.* Within the total tonnage allowed in paragraph (b) (1), no distributor shall order any hot rolled pickled carbon steel sheets or strip for delivery to his stock from producers' scheduled rollings during any calendar quarter following June 30, 1945, exceeding whichever is the greater of 30 tons, or 12½% of the total tonnage of hot rolled pickled carbon steel sheets or strip which he received into his stock from all producers' scheduled rollings during the calendar year 1944.

(c) *Excess orders must be cancelled.* Any distributor who has already placed orders for hot rolled or cold reduced carbon steel sheets or strip to be delivered to his stock from producers' scheduled rollings during any calendar quarter following June 30, 1945, in excess of the amounts permitted by paragraph (b) shall cancel such excess orders immediately, or he shall defer the delivery quarter specified on such orders to the extent necessary for him to comply with the terms of this direction.

§ 4500.1 Utilities Order U-1—(a)

Definitions. (1) "Producer" means any individual, partnership, association, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not, located in the United States, its territories, or possessions, supplying, or having facilities built for supplying, directly or indirectly for general use by the public, one or more of the following services:

(i) Electric power,
(ii) Gas, natural or manufactured, exclusive of the production and transmission of natural gas up to the point of its entry into gas transmission lines from field gathering lines,
(iii) Water, other than exclusively for irrigation purposes,

(iv) Central steam heating, or
(v) Any of the foregoing services but not for general use by the public, if a specific direction from the War Production Board entitles such person or agency to apply the ratings herein assigned. Application for such a specific direction should be made by letter to the War Production Board, Washington 25, D. C. Ref.: U-1.

(2) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(3) "Controlled materials" means controlled materials as defined in Schedule I of CMP Regulation 1.

(4) "Maintenance" means the upkeep of a producer's property and equipment in sound working condition. It does not include any plant addition.

(5) "Repair" means the restoration of a producer's property and equipment to sound working condition after wear and tear, damage, destruction of parts, or the like have made such property or equipment unfit or unsafe for service. It does not include any plant addition.

(6) "Plant addition" means the construction or installation of new facilities or the replacement of existing facilities with facilities of greater capacity.

(7) "Minor plant addition" means a plant addition having a net material cost of not more than \$25,000. No job or project may be subdivided to come within this limit.

(8) "Major plant addition" means a plant addition having a net material cost of more than \$25,000.

(9) "Net material cost" means the cost of material incorporated in plant less the cost of material removed from plant, priced in accordance with the producer's regular accounting practice.

(10) "Operating supplies" means material, other than fuel, which is used or consumed in the course of a producer's operations, except in maintenance, repair, and plant additions.

(11) "Inventory" means all material in the producer's possession, without regard to its accounting classification, excluding, however, (i) material incorporated in plant, (ii) appliances and merchandising supplies, (iii) fuel, (iv) water purification and treatment material except equipment, (v) gas chemical material, (vi) material segregated for use in approved major plant additions, (vii) scrap and (viii) war surplus materials purchased.

(12) "Class" means any one of those categories of material established as a basis for classification of inventory in Schedule A of this order.

(13) "War surplus materials" means material designated as surplus to the war effort and offered for sale by any Federal government agency having jurisdiction over their disposal.

How To Obtain Material

(b) *Preference ratings.* (1) A preference rating of AA-1 is hereby assigned to orders to be placed by a producer for material (other than controlled materials), for use in maintenance and repair, as operating supplies, and for minor plant additions for which the net material cost is not more than \$10,000, in every class except (i) the transmission and distribution class and (ii) the meter class.

(2) A preference rating of AA-1 is hereby assigned to orders to be placed by a producer for material (other than controlled materials), for use in the repair of an actual or imminent breakdown, in (i) the transmission and distribution class and (ii) the meter class.

(3) A preference rating of AA-3 is hereby assigned to orders to be placed by a producer for material (other than controlled materials), for use in maintenance and repair, as operating supplies, and for minor plant additions, except where an AA-1 rating is assigned in paragraphs (b) (1) and (b) (2) above.

(4) Material obtained with the AA-1 rating may be used for purposes which are assigned lower ratings, but it may be replaced in inventory only by applying the lower rating to an equivalent dollar value of material in the same class. Material obtained with the AA-3 rating may be used for purposes which are assigned the AA-1 rating and may be replaced in inventory with either the AA-1 rating or an authorized AA-3 rating. The provisions of this paragraph (b) (4) supersede those of § 944.11, paragraph (a), of Priorities Regulation 1.

(5) Preference ratings for major plant additions may be obtained by filing an application on Form WPB-2774.

(6) The preference ratings herein assigned may not be applied by producers to acquire material for uses not permitted by paragraphs (h) and (i) of this order.

(c) *CMP allotment symbol.* (1) The CMP allotment symbol U-9 is hereby assigned to orders to be placed by a producer for controlled materials for use in maintenance and repair, as operating supplies and for minor plant additions. Allotments of material for major plant additions may be obtained by filing an application on Form WPB-2774.

(2) An order for controlled materials for use in maintenance and repair, as operating supplies, and for minor plant additions bearing the CMP allotment symbol U-9 and the certification required by paragraph (d) of this order shall be deemed an authorized controlled materials order. This CMP allotment symbol shall constitute an "allotment number or symbol" for the purpose of CMP Regulation 3.

(3) The allotment symbol U-9 herein assigned may not be applied by producers to acquire material for uses not permitted by paragraphs (h) and (i) of this order.

(d) *Certification.* The ratings assigned by subparagraphs (b) (1), (2) and (3) of this order and the CMP allotment symbol U-9 may be applied by a producer only by the use of a certification in substantially the following form unless an order of the War Production Board affecting a particular item of material requires some other form of certification:

Preference Rating _____, CMP Allotment symbol U-9. The undersigned producer certifies subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order, to receive, for utility uses under Utilities Order U-1, the material ordered, and to use the preference ratings or CMP allotment symbol which the undersigned has placed on this order.

The certifications set forth in Priorities Regulation 3 and CMP Regulations 1 and 5 may not be used but the standard form of certification provided in Priorities Regulation 7 is permissible if the producer adds a statement saying that material ordered is for utility uses under Utilities Order U-1.

Restrictions on Ordering Material

(e) *Scheduling deliveries.* Except as permitted by paragraphs (f) and (g) below, no producer shall schedule for delivery to it any material to be used for maintenance and repair, as operating supplies, or for minor plant additions, unless the following conditions are satisfied:

(1) [Deleted Aug. 31, 1944.]

(2) The producer does not have reason to believe that its inventory of ma-

terial in the same class is or will, by virtue of its acceptance of the delivery when made, become in excess of a practical working minimum. A practical working minimum inventory is that amount of material which a producer, exercising prudent operating judgment, considers the smallest quantity of material it can hold and render service in accordance with sound and economical operating standards. It may be less than the values established in Schedule C but it shall in no case exceed them.

(3) No producer may place an order for any item of material, including material for major plant additions, if the required item or a practical substitute therefor is in the producer's inventory in excess of minimum requirements for that item.

(f) *Exceptions to paragraph (e).* (1) The restrictions of paragraph (e) do not apply to a producer so long as its inventory does not exceed \$25,000 in value, except that such a producer must restrict its inventory to that amount of material which, in the exercise of prudent operating judgment, it considers the smallest quantity it can hold and render service in accordance with sound and economical operating standards. Each purchase of material by such a producer, however, must be treated as the purchase of a "short item", and is subject to the provisions of paragraph (g) below. A producer engaged in furnishing more than one of the services named in paragraph (a) (1) may consider its inventory for each service separately for the purposes of this paragraph.

(2) The restrictions of paragraph (e) do not apply to material excepted from inventory by the definition in paragraph (a) (11).

(3) [Deleted Aug. 31, 1944.]

(4) [Deleted Aug. 31, 1944.]

(5) The War Production Board may from time to time establish specific limits for permissible inventory for individual producers, modifying the provisions of Schedule C.

(6) [Deleted Aug. 31, 1944.]

(7) Notwithstanding the restrictions of paragraph (e) or of paragraph (g) below a producer may schedule an item of material for delivery in a minimum procurable commercial quantity, and in the case of cast iron, carbon steel, and non-metallic pipe, may schedule for delivery a carload quantity.

(g) *Short item deliveries.* Even though it cannot schedule deliveries without exceeding the limits of paragraph (e), a producer may schedule for delivery material which it will require for use in maintenance and repair, as operating supplies and for minor plant additions during the ninety-day period following the date it expects to receive such material, so long as the producer's inventory of the required material, together with material already scheduled for delivery, will be insufficient to meet requirements during such ninety-day period.

(1) [Deleted Aug. 31, 1944.]

(2) [Deleted Aug. 31, 1944.]

Restrictions on Use of Material

(h) *Restrictions on use of material for maintenance and repair.* A job which can be classed as maintenance or repair, as those terms are defined in paragraphs (a) (4) and (5), may be done without regard to the dollar value of the material required when the following standards are met:

(1) The job must be necessary to maintain or restore service in accordance with sound and economical operating standards or to prevent damage to facilities from serious overload, deterioration, storm, flood, climate, soil conditions, or similar contingencies.

(2) Design must emphasize economy of manpower and material as well as the substitution of the more plentiful for scarce material.

(3) [Deleted May 12, 1945.]

(i) *Restrictions on use of material for minor plant additions.* A job which is a plant addition, as defined in paragraph (a) (6), rather than maintenance and repair, may be done without special permission from the War Production Board, if it is a "minor plant addition"; that is, if its net material cost does not exceed \$25,000. Paragraph (a) (9) explains what is meant by net material cost. However, all minor plant additions are subject to the following restrictions:

(1) [Deleted May 12, 1945.]

(2) Design must emphasize economy of manpower and material as well as the substitution of the more plentiful for scarce material.

(3) New facilities must be necessary for rendering service in accordance with sound and economical operating standards, or to restore the producer's facilities to safe and economical operating condition.

(4) No extension of a line to consumer premises may be made or connected by a producer as a minor plant addition unless the following conditions are satisfied:

(i) The extension does not duplicate an adequate service of the same type already installed or constitute a standby service.

(ii) In the case of an extension of gas facilities, no extension may be made to serve a consumer not permitted to accept delivery of gas under Order U-7.

(5) [Deleted May 12, 1945.]

(j) *Restrictions on use of material for major plant additions.* No material may be used for a major plant addition unless the job has been authorized by the approval of an application filed on Form WPB-2774. In an emergency approval may be obtained by telephone or telegraph. Confirmation must be obtained, however, by the submission of an application on Form WPB-2774.

Selling Material

(k) *Sales of material.* A producer may sell material which is in its inventory or which it acquired for major plant additions to any person. However, the

preference ratings or allotment symbol assigned by this order may not be used to replace in inventory material sold by a producer unless the sale is to another producer or to a customer of a producer for the repair of the customer's facilities. Producers may sell material pursuant to this paragraph (k) or in accordance with the provisions of PR-13.

(1) [Deleted May 12, 1945.]

Inventory Redistribution

(m) [Deleted Aug. 31, 1944.]

General Provisions

(n) *Appeals.* Relief from any of the restrictions of this order may be requested by filing a letter with the War Production Board, Office of War Utilities, Washington 25, D. C., Ref.: U-1, stating the reasons why relief is necessary. If the relief requested involves an uprating or other special assistance for material needed for urgent requirements, the request should be filed on Form WPB-2774.

(o) *Records.* In addition to the records required to be kept under Priorities Regulation 1, each producer who applies the preference ratings or allotment number hereby assigned shall maintain a continuing record of inventory and of segregated material in his possession.

(p) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: Office of War Utilities, War Production Board, Washington 25, D. C., Ref.: U-1.

(q) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priorities control and may be deprived of priorities assistance.

(r) *Applicability of WPB regulations.* This order and all transactions affected hereby are subject to all applicable regulations of the War Production Board, as amended from time to time, unless there is a conflict between this order and such regulations, in which case this order shall govern, if it specifically so provides. No producer is, however, subject to the restrictions of CMP Regulation 5 nor may any producer in any way use the preference ratings therein assigned.

(s) *Special inventory directions.* Nothing in this order is intended to supersede any special inventory base established by a specific direction from the War Production Board to a named producer. All such directions shall remain in effect unless modified by a further specific direction to the producer affected.

(t) *Special provisions relating to Form WPB-2774 approvals issued prior to May 12, 1945.* With respect to WPB-2774 authorizations issued prior to May 12,

1945 and involving not in excess of \$25,000 net material cost, producers may:

(1) Use the preference ratings and CMP allotment symbol assigned in paragraphs (b) and (c) of this order in lieu of those specifically assigned on such a Form WPB-2774 authorization.

(2) Treat as segregated under paragraph (a) (11) any material to be used pursuant to such a WPB-2774 authorization.

Issued this 12th day of May 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-695, Amdt. 1]

SCHICK, INC., AND SCHICK SERVICE, INC.

Schick, Inc., located at Stamford, Connecticut, engaged in the business of manufacturing electric dry shavers and Schick Service, Inc., a wholly-owned subsidiary of Schick, Inc. operating service stations in the principal cities of the United States for the repair and servicing of its dry shavers, were suspended on January 27, 1945, by Suspension Order No. S-695. It appealed from the provisions of Suspension Order No. S-695 and, on April 5, 1945, the Chief Compliance Commissioner dismissed the appeal. Upon further consideration of the appeal by the Chief Compliance Commissioner, he has directed that paragraph (c) of the suspension order be amended by striking out in the seventh line the words "present inventory" and substituting therefor the following: "inventory as of January 27, 1945."

In view of the foregoing, *It is hereby ordered*, That: § 1010.695, Suspension Order No. S-695 be and hereby is amended by the substitution of the following paragraph (c) for the present paragraph (c):

(c) The foregoing restrictions shall not apply to the production of repair or replacement parts for electric dry shavers insofar as the same is permitted under the provisions of Limitation Order L-65, to the assembly of parts out of its inventory as of January 27, 1945, into new or rebuilt electric dry shavers as part of its repair or exchange service for individual consumers, nor apply to purchase orders actually received and on hand on the date of issuance of this order from the Army or Navy of the United States or from the Veterans Administration.

The following direction is issued pursuant to Priorities Reg. 3:

Blanket MRO ratings may not be applied to get any of the equipment listed below. No person shall give any effect to any rating applied to his deliveries of any item of such equipment if he knows or has reason to believe that it is a blanket MRO rating. Any blanket MRO rating applied to an order for any item of such equipment which was not delivered before May 12, 1945 shall be deemed void. The items of equipment covered by this direction are:

Office machines

Typewriters

Outstanding delivery authorizations for the above equipment which were issued under Order L-54-a (Revoked) and Order L-54-c remain in effect and purchase orders placed under those authorizations carry a rating of AA-5.

PART 904—PROCUREMENT

[Directive 2, as Amended May 12, 1945]

PLACING WAR CONTRACTS FOLLOWING VE-DAY

Pursuant to the authority vested in me by Executive Order No. 9024, as amended, Executive Order No. 9040 as amended, and Executive Order No. 9125 as amended; in accordance with the directions set forth in Public Law No. 458, 78th Congress (War Mobilization and Reconversion Act of 1944) in order to obtain

necessary war production and to assist an orderly conversion from war to peace; the following policies and procedures are prescribed for all departments and agencies now or hereafter authorized by the President to exercise the powers set forth in Title II, Section 201 of the First War Powers Act 1941 (Public Law No. 354, 77th Congress):

§ 904.1 *Directive No. 2—(a) Basic policy.* In planning for and in the actual placement of war contracts the paramount consideration at all times shall be the retention and utilization in war production of facilities with a proven capacity to produce known and contingent future requirements. Subject to this overriding objective disruption of the national economy should be minimized to the greatest extent practicable.

(b) *Procurement contracts to be placed by negotiation.* Except as hereinafter provided, all such departments and agencies shall place contracts relating to war procurement by negotiation. The principle of negotiation makes possible effective coordination, proper evaluation and efficient use of manpower, materials, plant capacity and public funds. Negotiation as used in this directive may include not only face-to-face dealings but also purchasing by securing informal written bids or telephone quotations. Where consistent with the required speed of war procurement, notifications of the proposed procurement shall be given to a reasonable number of qualified contractors and quotations shall be secured from them.

(c) *Selection of contractors.* In negotiating contracts relating to war procurement and revising war procurement programs the following considerations shall govern in the selection of contractors:

(1) *Deliveries.* Primary emphasis shall be upon securing deliveries or performance at the times required by the war program. The objective is to insure timely delivery while avoiding creation of unnecessary inventories.

(2) *Manpower.* It shall be the objective of all procurement departments and agencies to place contracts in areas in which labor surpluses are known to exist, and, conversely, to avoid communities or areas designated as Group I labor shortage areas by the War Manpower Commission, except that renewal contracts for war production in Group I labor shortage areas not requiring increase in employment over the ceiling may be placed (i) with small business concerns, (ii) with facilities deemed by the head of an agency vital to national defense, or (iii) with experienced, satisfactory producers; providing in each case the production of the item will not interfere with war programs of higher urgency in the area. No contract requiring increases in employment over the ceiling currently established by the War Manpower Commission shall be placed in Group I labor areas without the prior approval of the Chairman of the War Production Board or such person or persons as he may designate for such purpose.

(3) *Other factors to be considered.* Subject to the requirements of ability to deliver and avoidance of areas of labor

shortage, each procuring agency will give due weight to the following factors for the purpose of effectively utilizing the national resources for the prosecution of the war and of assisting, to the greatest extent practicable, in the reconversion of the national economy to a peacetime basis. Not all of these factors will apply to each case but all that are pertinent should be considered.

(i) *Cost and efficiency.* War contracts should be placed so as to incur the lowest possible cost to the Government consistent with the economic use of manpower and raw materials. Insofar as possible, contracts should provide the maximum incentive to the producer for the reduction of his costs (including subcontract prices).

(ii) *Plants available for multiple uses.* The fact that a plant can be utilized only in specialized war production may make its selection for such work more desirable than a plant which can also be utilized in other lines of war production or in essential civilian production.

(iii) *New facilities.* Creating new (as distinguished from furnishing existing) machinery, facilities or equipment should be avoided as far as possible.

(iv) *Transportation.* To the greatest extent practicable, the burden on transportation facilities should be minimized by the selection of contractors accessible to raw materials, purchased components and ultimate destination in preference to contractors requiring crosshauls or long distance deliveries.

(v) *Release of privately owned plants.* Privately owned plants not normally engaged in production of a military character will be given first priority of release from war production in order to facilitate their reconversion to civilian production, due consideration being given to the wishes of the contractors. Government owned plants will be kept in operation or reserve until their production is clearly no longer required for military needs.

(vi) *Small business concerns.* War procurement contracts should be placed so as to make the most effective utilization of small plants of the nation, in accordance with the declared policy of Congress (Public Law, No. 603, 77th Congress). In order to carry out this policy, war procurement departments and agencies shall give as large a proportion of awards as practicable to qualified small concerns, directly if feasible and, if not, through awards to larger firms which will subcontract to small concerns. In connection with the release from war production, independent small concerns should be retained to the fullest extent possible, due consideration being given to the wishes of such small concerns as may desire to be released for civilian production. To achieve these objectives, payment of a reasonable premium to small plants is authorized where such plants have higher unit costs.

(d) *Payment of higher prices.* The procuring agencies are hereby authorized to pay higher prices (subject to applicable maximum price regulations) wherever necessary to give due weight to the factors set out herein. The lower cost factor will, however, grow in im-

portance as manpower, transportation, and other shortages are overcome.

(e) *Deviations.* Authority to depart from these policies may, upon specific request, be granted by the Director of the Procurement Policy Division of the War Production Board or by such person or persons as he may designate for this purpose.

Issued this 12th day of May 1945.

PART 3175—REGULATIONS APPLICABLE TO
THE CONTROLLED MATERIALS PLAN
[CMP Reg. 3, as Amended May 14, 1945]

PREFERENCE RATINGS UNDER THE CONTROLLED
MATERIALS PLAN

§ 3175.3 *CMP Regulation 3—(a) Purpose and scope.* The purpose of this regulation is to define the operation of preference ratings under the Controlled Materials Plan.

(b) *Definitions.* The following definitions shall apply for the purpose of this regulation and for the purposes of any other CMP regulation unless otherwise indicated:

(1) "Production material" means, with respect to any person, material or products (including fabricated parts and sub-assemblies) which will be physically incorporated into his product, and includes the portion of such material normally consumed or converted into scrap in the course of processing. It also includes items purchased by a manufacturer for resale to round out his line, if such items do not represent more than 10% of his total sales. It does not include any items purchased by him as manufacturing equipment or for maintenance, repair or operating supplies as defined in CMP Regulation 5.

(2) "Allotment number or symbol" means:

(i) An allotment number or symbol placed on a delivery order as provided in paragraphs (f) and (g) of this regulation, or as provided in CMP Regulation 1 or CMP Regulation 5; or

(ii) A number or symbol placed on a delivery order pursuant to any other regulation or order of the War Production Board, if, but only if, such number or symbol is expressly called or is expressly described as an "allotment number or symbol."

(c) *Superiority of ratings with allotment numbers or symbols over other ratings of equal grade during the second quarter.* A delivery order bearing a preference rating with an allotment number or symbol applied before July 1, 1943 shall (unless otherwise ordered by the War Production Board) be deemed superior in rating, for purposes of Priorities Regulation 1, to any delivery order bearing a rating of the same grade without an allotment number or symbol, but shall not be superior to another order bearing a rating of a higher grade. For example, a rating of AA-2X with an allotment number or symbol is superior to another rating of AA-2X without an allotment number or symbol, but is inferior to any rating of AA-1 with or without an allotment number or symbol.

An allotment number or symbol applied to a rating after June 30, 1943, shall not have any effect on the rating. For example, an order placed in June with a rating of AA-2X to which an allotment number is applied in July or an order placed in July with a rating of AA-2X and bearing an allotment number shall each be deemed equal in rating to orders rated AA-2X to which no allotment number or symbol is applied.

(d) *Preference ratings with allotment numbers for production schedules—(1)*

Prime consumers. In each case when an allotment is made to a prime consumer making Class A or Class B products, and his production schedule is authorized by a Claimant Agency or an Industry Division, a preference rating will be assigned to such schedule for use with the allotment number applicable to the schedule.

(2) *Secondary consumers.* In each case when an allotment is made to a secondary consumer making Class A products and his production schedule is authorized by the consumer making the allotment, the consumer making the allotment shall apply or extend to such production schedule the same rating as he has received for his own related production schedule for use with the appropriate allotment number, except as otherwise provided in paragraph (h) of this regulation.

(3) *Use of ratings received for authorized production schedules.* A prime or secondary consumer who has received a preference rating for an authorized production schedule as provided in this paragraph (d) may use said rating, with the appropriate allotment number, only to acquire production materials in the minimum practicable amounts required to fulfill such schedules, or to replace production materials in his inventory, subject to the restrictions of paragraph (d) (3) of Priorities Regulation 3. He may not use such rating for any other purpose. As explained in paragraph (o) of CMP Regulation 1, a Class B product manufacturer may exceed his authorized production schedule. However, the rating assigned to such schedule may not be used to buy any of the materials or products required for the excess.

(e) *No extension of customers' ratings by prime consumers making Class B products.* A prime consumer who manufactures Class B products and has received an authorized production schedule for such manufacture, accompanied by a preference rating to be used with his allotment number, shall not extend any other rating received by him from a customer, except that if a delivery to be made by him is rated AAA, he may extend said rating to the extent necessary to obtain production material required to fill his AAA order, but may not extend the same for purposes of replenishing his inventory.

(f) *Use of allotment numbers and symbols on delivery orders.* (1) Each prime or secondary consumer shall place on each rated delivery order for production materials, required to fulfill his authorized production schedule of Class A or Class B products, his allotment number with the certification provided in paragraph (g) of this regulation or in Priorities Regulation No. 7.

(2) A person placing a rated order for maintenance, repair or operating supplies under CMP Regulation 5 shall place thereon the allotment symbol MRO with the certification required by said regulation or the certification in Priorities Regulation No. 7.

(3) A person placing a rated small order for Class A products under paragraph

(1) of CMP Regulation No. 1 does not have to put his allotment number on the order. He can place on the order the symbol "SO" with the rating and the certification provided in paragraph (g) of this regulation or in Priorities Regulation No. 7.

(4) A dealer, distributor, jobber or other person who receives a rated order bearing an allotment number or symbol for any material (other than a controlled material) or product, which is not manufactured by him (or which is manufactured by him, but for the manufacture of which he has received no authorized production schedule), may extend the rating to the extent permitted by Priorities Regulation No. 3, with the same allotment number or symbol, using the form of certification prescribed in paragraph (g) of this regulation or in Priorities Regulation No. 7. If he places a single rated order to which he extends ratings bearing different allotment numbers or symbols, he shall include a statement indicating all the allotment numbers or symbols extended and the amount of the delivery order (in quantity or dollar value) represented by each. He may, if he prefers, extend the rating without any allotment number or symbol.

(5) No person shall place any allotment number or symbol on any delivery order except as provided in the foregoing provisions of this paragraph (f) or as specifically provided in any other regulation or order of the War Production Board.

(g) *Form of certification.* Any person when placing an allotment number or symbol on a rated delivery order pursuant to this regulation or CMP Regulation No. 1 shall accompany or endorse the same with a certification in substantially the following form (in lieu of the certification provided in Priorities Regulation No. 3) signed manually or as provided in Priorities Regulation No. 7:

Preference rating _____ Allotment number or symbol _____ The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that he is authorized under CMP Regulation No. 3 to apply or extend the above preference rating and allotment number or symbol to the delivery of the items covered by the attached delivery order.

An allotment number shall consist of the appropriate Claimant Agency letter symbol followed by the major program number (consisting of one digit only as provided in paragraph (c) (6) (ii) of CMP Regulation No. 1) but the quarterly designation does not have to be used.

However, if the order is placed in connection with an allotment of controlled materials by the purchaser to the seller, the quarterly designation as described in paragraph (c) of CMP Regulation No. 1 must be used.

(h) *Use of existing ratings.* (1) A person who has not yet received his allotment and CMP rating for a particular production schedule may apply and extend other preference ratings for such production to the extent permitted by

existing Priorities Regulations and Orders (including, in the case of PRP Units, Priorities Regulation 11A regarding transition from PRP to CMP).

(2) [Deleted July 3, 1944]

(i) *Construction and facilities.* Preference ratings assigned for construction or facilities may be applied or extended in the manner and subject to the restrictions provided in CMP Regulation No. 6.

(j) *Effect of preference ratings on deliveries of controlled materials.* (1) Authorized controlled material orders placed with controlled materials producers shall be accepted and filled by such producers as provided in CMP Regulation No. 1 without regard to any preference ratings applicable to such delivery orders and in preference to all other delivery orders, except as may be otherwise specifically directed. To the extent that controlled materials producers are able to fill orders other than authorized controlled material orders, they shall fill such orders until July 1, 1943, in accordance with preference ratings as provided in Priorities Regulation 1 and subject to any other applicable regulations or orders of the War Production Board.

(2) Authorized controlled material orders placed pursuant to applicable CMP Regulations, with persons who are not controlled materials producers, shall be filled by them without regard to any preference ratings applicable to such delivery orders and in preference to all other delivery orders, except as otherwise specifically provided in applicable regulations or orders of the War Production Board, and except that an authorized controlled material order placed with any such person which is rated AAA shall take precedence over other authorized controlled material orders.

(k) *Effect of ratings on conflicting production and delivery schedules for Class A and Class B products.* Manufacturers of Class A and Class B products must comply with the requirements of paragraph (p) of CMP Regulation 1 with respect to the rejection of orders in excess of capacity, and, in the event they are unable to fulfill all orders which they have accepted, they must report for instructions as provided in paragraph (q) of CMP Regulation 1 but until and unless otherwise instructed, they shall fill orders in accordance with preference ratings as provided in Priorities Regulation No. 1 and paragraph (c) of this regulation.

Issued this 14th day of May 1945.

INTERPRETATION 1

EFFECT OF AN ALLOTMENT SYMBOL

In § 3175.3 the provisions of paragraph (c) of CMP Regulation No. 3 with respect to the superiority of a rating with an allotment number over the same rating without an allotment number are subject to the provisions of Priorities Regulation No. 12 regarding reratings. The receipt of an allotment number against a delivery order previously rated without an allotment number is equivalent to a rerating of the delivery order. (Issued July 3, 1944.)

No. 96—4

INTERPRETATION 2

PURCHASES TO ROUND OUT A LINE

(a) Under CMP Regulation No. 3 preference ratings assigned to an authorized production schedule may be used with the related allotment number to acquire production materials required to fulfill the schedule. The term "production material" is defined in paragraph (b) (1) of the regulation to include "items purchased by a manufacturer for resale to round out his line, if such items do not represent more than 10 percent of his total sales."

(b) The provision may not be used indiscriminately by a manufacturer to compel others to furnish him with materials for resale which he normally is able to produce himself. It was intended to permit acquisition of resale items normally sold by a producer as his own product, rather than as a distributor, in accordance with customary trade practices. Examples of such cases are (a) repair parts or special accessories for the product manufactured; (b) articles necessary to complete a "kit" or "package" which is sold as such and thereby becomes the "product," of the manufacturer such as goggles and gloves sold with welding equipment; (c) articles necessary to fill out a specific line or type of product such as sets of wrenches where the manufacturer produces some of the sizes in the set but purchases the remaining sizes to complete the set.

(c) The provision may not be used by persons, such as service repair shops, who do not manufacture products for sale.

(d) In those cases where the estimated amount of resale items to be purchased by a manufacturer will exceed 10 percent of his sales, he may not use this provision to purchase any resale items but will be treated as a distributor with respect to the entire quantity. Priorities assistance may be obtained by applying to the Wholesale and Retail Trade Division of the War Production Board on Form PD-1X, if the items are to be purchased from manufacturers, or the distributor may extend his customers' ratings, to the extent permitted by Priorities Regulation No. 3, and in extending ratings may use allotment numbers appearing on his customers' orders as provided in paragraph (f) (4) of CMP Regulation No. 3.

(e) It should be borne in mind that a preference rating assigned to an authorized production schedule may be used by a manufacturer "only to acquire production materials in the minimum practicable amounts required to fulfill such schedule, or to replace production materials in his inventory, subject to the restrictions of paragraph (c) (2) of Priorities Regulation No. 3. He may not use such rating for any other purpose."

(f) In illustration of the above, assume that a manufacturer's authorized production schedule permits him to manufacture electric motors having a value of \$10,000. He may apply the preference rating assigned to such schedule to obtain all materials and components incorporated in motors produced by him and, in addition, he may purchase up to \$1,000 worth of finished parts to be sold separately as repair parts for such motors. If the manufacturer desires to purchase \$2,000 worth of such repair parts, he may not acquire any of them with the rating assigned to his authorized production schedule. (Issued June 2, 1943.)

INTERPRETATION 3

USE OF ALLOTMENT NUMBERS FOR PURPOSES OF IDENTIFICATION

(a) Under paragraph (f) of CMP Regulation No. 3 each manufacturer of Class A or Class B products who has received an authorized production schedule is required to show

the allotment number assigned to the schedule on each rated order for production materials required to fill the schedule. However, if he is placing a "small order" he need only use the "SO" symbol, as explained in paragraph (1) (4) of CMP Regulation No. 1. This requirement is for identification purposes and remains effective even though allotment numbers placed on orders after June 30, 1943, will not have any up rating effect.

(b) On the other hand, a dealer, distributor, jobber or other person receiving a rated order bearing an allotment number or symbol for any material (other than a controlled material) or product, which is not manufactured by him, but for the manufacturer of which he has received no authorized production schedule is not required to show the allotment number or symbol appearing on his customer's order in extending the rating.

(c) In brief, prime and secondary consumers who have received an authorized production schedule must identify all orders for production materials by the allotment number assigned to the related schedule and persons who are not operating under authorized production schedules may, but need not, do so. (Issued July 3, 1944.)

INTERPRETATION 4

USE OF PRODUCTION MATERIAL RATINGS IN ORDERING NON-CONTROLLED MATERIALS AND COMPONENTS FOR ADVANCE QUARTER DELIVERY

(a) Under paragraph (d) (3) of CMP Regulation 3 a consumer may use the preference rating assigned with an authorized production schedule only to get production materials (other than controlled materials) "in the minimum practicable amounts required to fill such schedules or to replace production materials in his inventory." This does not prevent placing rated orders for delivery after the quarter for which the allotment of controlled material is made. While an allotment authorizes the ordering of controlled materials for delivery only in the quarter for which the allotment is valid, it is recognized that the production for which controlled materials are allotted may not be completed until a later quarter. If there is a long production cycle or if the controlled materials are received near the end of the quarter. In such cases, non-controlled materials and components may not be needed until a later quarter and the rating may be used to order them for delivery when required. In fact, they must not be ordered for delivery before they are actually needed. Also, where items are taken from inventory in meeting the schedules, replacements may not be needed until a later quarter.

(b) For purposes of using the rating to fill authorized production schedules, a consumer may assume (in the absence of specific information to the contrary), that he will receive authorized production schedules at least big enough to use all the controlled materials he is allotted, and he may place his rated orders accordingly. For example, if a manufacturer of generators which take six months to make has received allotments only through the third quarter of 1944, he may assume that he will receive authorized production schedules for the fourth quarter and the first quarter of 1945 big enough to use up the controlled materials allotted, and he may proceed on this assumption in ordering the non-controlled materials and components which he will need in those quarters. (Issued Jan. 10, 1944.)

(2) "Contractor" or "converter" means a person in the business of causing hides or skins to be tanned or dressed for his account in any tannery not owned or controlled by him.

(3) "Collector" means a person, including a dealer or importer, engaged in the business of acquiring from others untanned hides or skins for resale, or removing hides or skins from animals not slaughtered by him.

(4) "Producer" means a person in the business of slaughtering animals.

the War Shipping Administration, or any foreign government pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act) or any extension or renewal thereof. Regardless of the provisions of Priorities Regulation 17, no orders for military exchanges and service departments shall be regarded as military orders except rated orders of United States Navy Ship's Service Departments and War Shipping Administration Training Organization Ship's Service activities for cut sole leather for repair purposes which are endorsed as follows:

The within order has been approved in accordance with instructions of the Army and Navy Munitions Board.

By _____

(7) "Sole leather" means vegetable tanned sole leather unless otherwise specified.

(8) "Scrap leather" means small leather pieces which are unavoidably produced from processing or cutting operations, but in no case shall include bellies or shoulders.

(9) "Rawhide" means a hide or skin which after the hair has been removed is used in that state or fabricated without further tanning.

(10) All trade terms shall have their usual trade significance unless otherwise specified.

(b) *Provisions applying to all hides, skins and leather.* (1) No person shall process any hides, skins or leather contrary to any specific direction issued from time to time by the War Production Board relating to the processing or production of specific types of leather to meet military or designated civilian requirements.

(2) No producer, collector, tanner, contractor, converter or cutter shall sell, deliver, accept delivery of, cut, use or incorporate in any product any hides skins or leather contrary to any specific direction issued from time to time by the War Production Board deemed necessary in order to fill military or designated civilian requirements.

(3) No person shall commercially incorporate any leather or rawhide into any product except as permitted by Schedule A at the end of this order, and no person shall sell any leather or rawhide unless the same is to be incorporated into a product permitted by Schedule A. This restriction shall not, however, apply to:

- (i) The filling of military orders;
- (ii) The delivery or use of vegetable tanned cattlehide flesh splits under 3½ ounces;

- (iii) The delivery or use of scrap leather, *Provided*, That any tanner selling any such scrap leather shall report

his sales on his monthly form prescribed in paragraph (k).

(v) [Deleted Aug. 25, 1944.]

(4) The War Production Board may authorize the reprocessing, sale and use of rejected leather, or leather which can be made available consistently with program requirements, for purposes not otherwise permitted by this order or § 944.11 of Priorities Regulation 1. Any person may request such authorization by letter on his own behalf to use leather he owns or his supplier may request authorization to sell, and on behalf of his customer to use, stating the proposed uses of the leather and the quantity, quality, weight and type involved, and in the case of rejected leather, facts substantiating its qualification as such.

"Rejected leather" as used in this paragraph means any leather made to fill a military order or for production of items listed on Schedule A which (i) is so defective that it will be refused if tendered, (ii) the purchaser has refused, or (iii) the purchaser has notified the seller will be refused because of defects.

No person shall process or order any leather which he knows will be rejected. This paragraph does not prohibit the production of rejects to the extent that they are unavoidable in the manufacturers' or tanners' operations.

(5) When not otherwise permitted by this order, the War Production Board may authorize the re-processing, sale and use of leather not used for the purposes for which it was purchased because of termination of procurement by the United States Government or any of its agencies for which the production was ordered. Any person may request such authorization on his own behalf, or on behalf of his customer, stating the proposed use of the leather, the quantity, quality, weight, type involved, the number of the cancelled contract, branch of service, date of purchase, intended end use and why it cannot be used for the purpose for which it was intended.

Any leather held by a person who does not in the regular course of his business sell leather in that form may only be sold in accordance with Priorities Regulation 13.

(6) Notwithstanding the provisions of any priorities or other regulations of the War Production Board, no preference ratings shall be applied or extended for the delivery of hides, skins or leather, except:

- (i) Leather for military orders (excluding sole leather whole stock as defined in paragraph (e) (1) (vii) and cattlehide splits in the blue, pickled, or lime state); or

- (ii) When specifically authorized in writing by the War Production Board pursuant to this subparagraph (b) (6) (ii).

- (7) In making sales or deliveries of hides, skins or leather (including sole leather cut stock) not required to fill military orders, no person shall make discriminatory cuts in quality or quantity

between customers who meet such person's established prices, terms and credit requirements, or between customers and his own consumption of said materials.

(8) No tanner, contractor, converter, finisher, jobber or cutter shall deliver any leather (except shearlings) for footwear purposes, unless he has received the quota number of the purchaser. This paragraph shall not prevent deliveries to persons regularly in business as leather contractors, leather converters, leather finishers, leather jobbers, leather cutters, finders or shoe repairers or to persons outside the continental United States.

(c) *Untanned cattlehides, calfskins and kips*—(1) *Definition*. "Cattlehide", "calfskin" and "kip" mean the hide or skin of a bull, steer, cow or buffalo, foreign or domestic (excluding slunks).

(2) No tanner shall put into process, and no contractor shall cause to be put into process, any cattlehide, calfskin or kip in excess of such amounts for specified periods as may be fixed by the War Production Board from time to time.

(3) No person shall sell, deliver, purchase or accept delivery of any untanned cattlehide, calfskin or kip, or portion thereof, other than splits and glue stock, except to the extent that the purchaser is specifically authorized by the War Production Board on Form WPB-1323 or Form WPB-3507. Applications may be made on Form WPB-1325 (formerly PD-569) for the purchase of domestic cattlehides, and on Form WPB-1322 (formerly PD-569-a) for the purchase of domestic calfskins and kips: *Provided*, That the following may be made without such authorization:

(i) *Transactions between collectors and between producers and collectors for purposes of resale or delivery within the continental United States*.

(ii) The sale and delivery to and the purchase and acceptance of delivery by any person other than a tanner of less than 100 hides or skins in any calendar month.

(4) In acting under paragraph (c) (3), it will be the policy of the War Production Board, so far as is practicable, to grant authorizations so that:

(i) The contractor or tanner may obtain cattlehides, calfskins, or kips in the proportions that the wettings in 1942 of the contractor or tanner, respectively, of cattlehides, calfskins, or kips, computed separately, bore to all wettings thereof in that year by all contractors and tanners producing the same type of leather, except that authorizations to tanners or contractors having more than a practicable minimum working inventory may be reduced or omitted; and

(ii) [Deleted Aug. 25, 1944.]

(5) No producer or collector shall cut off bellies or shoulders of untanned cattlehides, except for a purchaser specifically authorized in writing by the War Production Board to purchase hides with portions cut off.

(ii) Rough belting butts or butt bends shall be curried and thereafter used only for transmission belts, hydraulic, packing, mechanical and textile leathers, or fillet leather: *Provided*, That this restriction shall not apply to straightenings cut from the portion of the belting butt or butt bend beginning at the edge from which the belly was removed, if the straightening is less than two inches in width at the widest point;

(iii) Rough shoulders cut from sole leather hides if not finished for sole leather, and rough shoulders cut from any belting butts, shall be curried and used only for belting, hydraulic, packing, mechanical and textile leathers, except that double rough shoulders 11 iron and up may be curried and used for round belting.

The War Production Board may on written application authorize the substitution of any of the types of leather mentioned in subparagraphs (i), (ii), and (iii) of this paragraph (d) (4) for any of the end uses therein specified, and when consistent with meeting requirements for approved programs, the War Production Board may authorize the finishing and use of any of these types of leather for any products listed on Schedule A.

(8) No tanner, currier, finisher, jobber or dealer shall accept any order for cattlehide leather in the form of harness, skirting, collar, latigo, lace, rigging, rawhide, bag, case, strap or upholstery leather, rated or otherwise, or transfer any such leather to his own fabricating plant, unless such order or the request for such transfer states the specific end use of such leather.

(9) No tanner shall process any cattlehide to make grain garment leather.

Such bends are hereinafter referred to as "manufacturers' bends-for-repair," and the weight and the quality of the bends set aside shall be equal, as nearly as possible, to those of the manufacturers'

INTERPRETATION 1

EFFECT OF RATINGS ON EQUITABLE DISTRIBUTION

Paragraph (b) (7) of this order, the so-called equitable distribution clause, does not excuse filling of rated orders. This clause prohibits discrimination between customers who meet established prices, terms and credit requirements but it does not override Priorities Regulation No. 1, which requires, subject to the conditions set forth, that all rated orders be accepted and that preference be given to orders carrying higher ratings over those with lower ratings.

The particular types of leather specified by preference rated orders must be delivered unless the leather cannot be produced from the hides or skins available to the tanner or the tanner is excused or prevented from filling the order by a regulation, order or direction of the War Production Board. If a rated order is placed for military quality leather, this order may not be filled with civilian quality leather. (Issued Apr. 11, 1944.)

INTERPRETATION 2

OFRRA AND UNRRA ORDERS NOT WITHIN DEFINITION OF "MILITARY ORDER"

"Military order" as defined in paragraph (a) (5) does not include orders for delivery against contracts placed by the Office of Foreign Relief Administration or the United Nations Rehabilitation and Relief Administration, or orders for hides, skins or leather

for incorporation in products to be delivered against such contracts. (Issued April 15, 1944.)

PART 3290—TEXTILE CLOTHING AND LEATHER

[General Preference Order M-388, Interpretation 2]

EFFECT OF APRIL 14, 1945 AMENDMENT ON PREVIOUSLY ACCEPTED RATED ORDERS

The following interpretation is issued with respect to General Preference Order M-388:

Rated sales of fabric made before April 14, 1945, on ratings assigned by the M-388 orders as issued February 19, 1945, were not unrated by the changes in the list of rated items effected by the April 14th amendments of those orders. The effect of the April 14th amendments on the ratings previously assigned is governed by the rules of § 944.4a of Priorities Regulation 1. This section provides in part: " * * * If a regulation or order of the War Production Board which assigns a rating to a class or group of persons, without naming them individually, is revoked, they may not apply the rating to orders placed after the revocation. Orders

to which they have already applied the rating for delivery within three months after the revocation remain validly rated, but in the case of each order which they have placed for delivery after three months from that date, they must either cancel the order or withdraw the rating."

Thus, if a supplier before April 14, 1945, accepted a purchase order for delivery in May or June, bearing a rating assigned by an M-388 order as issued February 19, 1945, the order remains validly rated despite the April 14th change in the list of rated items.

However, before such rated orders are filled, the manufacturer must make the certification described in paragraph (i) (4) of M-388 as amended April 14, 1945. Suppliers may not deliver, and manufacturers may not accept delivery of any fabric in excess of the percentage fixed by paragraph (d) (2) of M-388 (equitable distribution by producers, intermediate processors and importers to fill rated orders). At present the deliveries in May and June may not exceed 75 percent of a manufacturer's rated delivery quota. Inasmuch as May and June constitute only two-thirds of the three months in the full second calendar quarter, 75 percent of the rated quota of a manufacturer who filed Form WPB-4200 is the same as 50 percent of the yardage calculated on a full second calendar quarter basis on that form. In the case of rated quotas assigned on Form WPB-4201, the shorter period was taken into account in the fixing of the quotas and the full 75 per-

cent therefore applies to the quota assigned to manufacturers on that form.

Issued this 14th day of May 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M-385, Interpretation 1 to Direction 1]

MATERIALS NOT DISPOSED OF BY MAY 1, 1945, REMAIN SUBJECT TO M-385 SET-ASIDES

The following interpretation is issued with respect to Direction 1 to General Conservation Order M-385:

Direction 1 to General Conservation Order M-385 as amended March 12, 1945, provides that as of the close of business April 30, 1945, M-385 will be replaced by Order M-388A. This replacement does not affect the fabric set-asides required by M-385 before the close of business on April 30, 1945. Fabric set-asides under these provisions and not disposed of before then may still be processed, finished, sold and delivered only as permitted by M-385 and Direction 1 to that order. Deliveries after April 30 of fabric from such set-asides must be on ratings (or certifications) which conform with the requirements of M-388 and M-388A. Unrated yardage of cotton fabric acquired before May 1, 1945, to the extent that it is not covered by the M-385 set-asides may be delivered after April 30, 1945 on unrated orders. For example, if an intermediate processor acquired (that is, received title to) print cloth sley of 62 to 65, before May 1, 1945, and made the 40 percent set-aside then required, the other 60 percent was free, and title having been acquired before May 1, on a contract necessarily made before May 1, it would not be unrated yardage as defined in paragraph (b) (3) of M-388A. Hence, this 60 percent is not subject to the set-asides in M-388A.

Beginning May 1, 1945, the set-asides of unfinished and colored yarn cotton fabrics are governed by M-388A.

Issued this 14th day of May 1945.

PART 3293—CHEMICALS

[General Allocation Order M-300, Schedule 17, as Amended May 14, 1945]

ACRYLIC MONOMER AND ACRYLIC RESIN

§ 3293.1017 *Schedule 17 to General Allocation Order M-300—(a) Definitions*. For the purpose of this schedule and Order M-300:

(1) "Acrylic monomer" means the unpolymerized forms of the methyl and higher esters of acrylic and methacrylic acids.

(2) "Acrylic resin" means the polymerized form of the methyl and higher esters of acrylic and methacrylic acids, in the following forms:

Cast sheet (unfabricated) but not including pieces having an area of less than 3 square feet produced as a by-product of normal casting or fabrication operations.

Molded sheet (unfabricated).

Molding powder.

Cast rod.

Cast tube.

Solution.

Emulsion.

Cast primary shapes.

Denture-base material.

Granular polymer.

(3) "Supplier" of acrylic monomer and acrylic resin means any person who: (i) synthesizes monomer from raw materials; or (ii) manufactures acrylic monomer by de-polymerization of acrylic resin; or (iii) manufactures acrylic resin by polymerization of acrylic monomer; or (iv) purchases acrylic monomer or acrylic resin for the purpose of resale without further fabrication, processing or admixing.

(b) *General provisions.* (1) Acrylic monomer and acrylic resin are subject to allocation under General Allocation Order M-300 as Appendix B materials. The initial allocation date is January 1, 1943, the date when these materials first became subject to allocation under Order M-260 (revoked). The allocation period is the calendar month. The small order exemption per person per month, without

use certificate, is each and all the following:

Cast sheet	50 square feet
Molded sheet	50 square feet
Molding powder	100 pounds
Cast shapes	50 pounds
Tube	25 pounds
Rod	25 pounds
Solution	400 pounds (1 barrel)
Emulsion	400 pounds (1 barrel)
Monomer	10 gallons (80 pounds)
Granular polymers	100 pounds

(2) Small order quantities may be received in addition to allocated quantities for experimental use and also to complete current jobs for which acrylic monomer or resin has been allocated, notwithstanding paragraph (p) (2) of Order M-300.

(3) Any person may use without restriction under this schedule cast sheet (unfabricated) which does not meet specification Nos. 33 M-1 and P-41-c of U. S. Navy and 94-12014-B of U. S. Army, if the sheet was shipped to him on or before January 13, 1945.

(c) *Special dental exception.* A supplier who delivers acrylic monomer and acrylic resin exclusively for dental use may make such deliveries, and his customers may order and accept delivery for dental use, without restriction under this order.

(d) *Special exception for suppliers' intra-company deliveries.* In the case of any group of suppliers under common ownership and control who produce both acrylic monomer and acrylic resin for general purposes, the monomer producing units may deliver acrylic monomer to the resin producing units to the extent necessary to produce resin to fill authorized orders, and the resin producing units may receive and use the monomer for this purpose, without application or specific authorization.

(e) *Suppliers' applications on WPB-2947.* Each supplier (as defined in paragraph (a) (3) above) seeking authorization to use or deliver shall file application on Form WPB-2947 (formerly PD-602). The filing date is the 15th day of the month before the proposed use or delivery month. Send three certified copies to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference: M-300-17. File a separate set of applications for each plant and for each different grade or type of acrylic monomer or acrylic resin as set forth in paragraph (a) (2) above. An aggregate quantity may be requested, without specifying customers' names, for delivery on uncertified small orders. Purchase orders or releases against purchase orders for aircraft glazing sheet shall not be listed individually, but totals shall be listed. Fill in Table II.

(f) *Military emergency shipments.* A supplier may make application on Form WPB-2947 for authorization to expedite shipments against anticipated emergency war orders from the Armed Services or their contractors. Column 1 shall read "Emergency shipments against Government contracts". Column 4 shall show the aggregate quantity of the proposed shipments. From the quantity allocated on this application the supplier may make such shipments without fur-

ther authorization. Subsequently, on the first WPB-2947 form filed after the end of the month, the supplier shall report his emergency shipments by listing in the usual manner the customers, end uses and quantities. An entry shall be made in Column 7 for each such customer to show that the material was expedited and that shipment was made in the preceding month, as, for example, "Expedited—May". In the case of emergency shipments to contractors, suppliers must obtain written or telegraphic certification from the Armed Service involved, stating that an emergency exists. Any unused material in the "emergency pool" at the end of the month shall be returned to inventory.

(g) *Certified uses with purchase orders.* Each person placing purchase orders for delivery of more than the small order exemption quantity shall furnish each supplier with a certified statement of proposed use, in the form prescribed in Appendix D of General Allocation Order M-300. Examples of end uses are: "Aircraft radio lens", "industrial steamgauge lens", "military denture-base material" or "Civilian denture-base material". Military items are those which are being produced against a prime or sub-contract for the Armed Services. Confidential end uses may be described in general terms but the prime contract number must be specified.

(h) *Surplus stocks.* (1) Surplus and excess stocks of cast sheet (unfabricated) in sizes and thicknesses listed in the manufacturer's price list when the stock is sold, may be sold by the holder under Priorities Regulation 13 to any person without application or specific authorization. If the purchaser is an aircraft manufacturer, he may use the sheet for aircraft purposes without application or further authorization. However, if the purchaser is not an aircraft manufacturer who wishes to use the sheet for aircraft purposes, he must apply to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref.: M-300-17, on Form WPB-2945 or by letter (three copies) for authorization to use the sheet.

(2) Surplus and excess stocks of cast sheet (unfabricated) in sizes and thicknesses not listed in the manufacturer's price list when the stock is sold, may be freely sold and delivered by the holder under Priorities Regulation 13, and thereafter shall not be subject to restriction under this order.

(3) Surplus and excess stocks of acrylic monomer or resin in forms other than cast sheet may be sold under Priorities Regulation 13 without application or specific authorization, but the purchaser must apply to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-17, on Form WPB-2945 or by letter (three copies), for authorization to use this material.

(4) Instead of disposing of surplus and excess stocks in accordance with paragraphs (h) (1), (2) and (3) above, the holder may elect to treat himself as a supplier and to file application for au-

thorization to deliver under paragraph (e) of this schedule, based on use certificates from his customers filed under paragraph (g) of this schedule.

(i) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(j) *Communications to the War Production Board.* Communications concerning this schedule shall, unless otherwise directed, be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Reference: M-300-17.

PART 1010—SUSPENSION ORDERS
[Suspension Order S-784]

JOHN BYRNES CO.

John Bernstein, doing business as John Byrnes Company, of 35 Lyman Street, Springfield, Massachusetts, is engaged in the manufacture and sale of photomounts, a List C converted product under General Conservation Order M-241-a. Between October 1, 1943 and December 31, 1944 he consumed paper and paperboard in the manufacture of such

photomounts in an amount of at least 10,000 pounds in excess of his quarterly quota allowance as established by a grant of appeal from the War Production Board under date of November 13, 1943. This constituted a grossly negligent violation of General Conservation Order M-241-a. He also failed to keep and preserve accurate and complete records of the details of his consumption of paper and paperboard and of his inventories thereof, which was in violation of Priorities Regulation No. 1.

These violations of orders and regulations of the War Production Board have diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.784 *Suspension Order No. S-784.* (a) John Bernstein shall reduce his use of paper and paperboard in the manufacture of photomounts by 700 pounds during the second calendar quarter of 1945, and by 1400 pounds during each of the third and fourth calendar quarters of 1945 under the quota he would otherwise be entitled to use by virtue of General Conservation Order M-241-a as modified by the grant of appeal dated November 13, 1943, unless otherwise specifically authorized in writing by the War Production Board.

(b) The restrictions and prohibitions contained herein shall apply to John Bernstein, doing business as John Byrnes Company or otherwise, his successors and assigns, or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(c) Nothing contained in this order shall be deemed to relieve John Bernstein from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

Issued this 11th day of May 1945.

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Section 17a (a) is added to read as follows:

Sec. 17a. *Custom slaughter of "Club" livestock permitted under certain conditions.* (a) Any person other than a class 1, class 2, or class 3 slaughterer who acquires livestock from members of 4-H Clubs, Future Farmers of America, or other recognized youth organizations, at sales made at the place and time of a fair, show or exhibition, may, if such sales were previously approved by the District Office of the OPA upon application of a county agent, county club agent, vocational agricultural instructor, or the chief administrator of the state department of agriculture, apply for permission to have such livestock custom slaughtered for sale or transfer even though he does not have a quota under this order. He must apply on OPA Form R-315 to the board designated by the District Office to receive such applications, and must state:

(1) The name and location of the fair, show, or exhibition where the sale took place;

(2) The date of such sale;

¹ 7 F.R. 10153.

(3) The kind and number of head of livestock purchased by him and the live-weight of each;

(4) That he is not a class 1, class 2, or class 3 slaughterer; and the name and location of the establishment at which he intends to have such livestock custom slaughtered.

He must also attach to his application the certification issued to him at the time the livestock was acquired that the livestock covered by the application was acquired by him at the fair, show or exhibition where the sale took place.

(b) If the board finds that the applicant satisfies the conditions of this section, it shall authorize him, in writing, to have such livestock custom slaughtered for him by the custom slaughterer designated in the application on condition that the applicant surrenders all points required under RRO16 to be surrendered to such custom slaughterer. PART 1351—FOOD AND FOOD PRODUCTS

[RMPR 333.¹ Amdt. 5]

EGGS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 333 is amended in the following respects:

1. Section 1.9 (a) is redesignated section 1.9 (b).
2. Section 1.9 (b) is redesignated section 1.9 (c), and the first sentence is

¹ 9 F.R. 11514, 12216; 10 F.R. 1609, 2025, 3221.

amended to read as follows: "Except as provided in paragraphs (a) and (b) above, no additions to maximum prices are permitted for egg cases or cartons."

3. A new section 1.9 (a) is added to read as follows:

(a) On sales to a United States Government agency, additional costs of cases may be added to the maximum prices under the following conditions:

(1) If the purchase order covering the particular shipment requires that the eggs are to be packed in new cases of a specified type;

(2) If the cost of such new cases is more than 40 cents each, delivered at the place where the eggs are packed;

(3) If the eggs are actually packed in new cases of the type specified; and

(4) If the invoice covering the sale of eggs contains a signed certificate setting out separately the actual cost of the complete cases ready to be used for packing the eggs.

The additional cost that may be added under the foregoing conditions is the amount by which the actual cost exceeds 40 cents per case.

4. Section 1.12, Table A-1 (3) is amended to read as follows:

(3) *Other procurement grades and sizes; adjustment of Table A prices on sale to a U. S. Government Agency.* The maximum prices set out in this regulation for procurement grades are for large eggs, that is, eggs weighing an average of 45 pounds net or more per case for the lot. Additions to maximum prices may be made, according to the table below, for lots of eggs that weigh an average of 47 pounds net or more, per case, as follows:

Permitted addition to maximum price (per dozen) cents	
Average net weight of 30 dozen eggs:	
47 lbs. 0 oz. to 47 lbs. 7 ozs. inclusive	0.5
47 lbs. 8 ozs. to 47 lbs. 15 ozs. inclusive	1.0
48 lbs. 0 oz. to 48 lbs. 7 ozs. inclusive	1.5
48 lbs. 8 ozs. or more	2.0

The maximum price for large eggs of procurement grade IV shall be the following amounts less than the maximum

price for large eggs of procurement grade III, during the periods indicated:

Second Thursday in January to first Wednesday in July, inclusive, ½ cent less per dozen.

First Thursday in July to second Wednesday in January, inclusive, 2 cents less per dozen.

The maximum prices for medium or small eggs (that is, eggs weighing an average of less than 45 pounds net per case for the lot) are 5 cents less per dozen than the maximum prices for large eggs of the same grade.

5. Section 2.3 is amended in the following respects:

Change Table B (Western Area) in the column for the month of July to show the price of frozen eggs, whole or reconstituted as 32.2 cents per pound.

6. Section 3.2 is amended by adding paragraph (z) to read as follows:

(z) "Licensed ship suppliers" as used in this regulation means any ship supplier licensed by War Food Administration under War Food Order 74, or any ship supplier who holds a certificate from War Shipping Administration to the effect that he has been regularly engaged in supplying eggs or egg products directly to ship operators for use on vessels under the control or direction of War Shipping Administration and that his services are essential in the supplying of such vessels.

(b) To authorize the Federal Works Administrator to make advances of Federal funds for such plan preparation, which advances are to be repaid to the Government without interest.

TITLE 50—WILDLIFE

Chapter IV—Office of the Coordinator of Fisheries

[Order 1956, Amdt. 2]

PART 401—PRODUCTION OF FISHERY COMMODITIES OR PRODUCTS

ALLOCATION OF HALIBUT

Pursuant to the authority conferred by Executive Order 9280, dated December 5, 1942, (7 F.R. 10179), War Food Order

No. 52, dated February 8, 1943, (8 F.R. 1777), as amended March 16, 1943, (8 F.R. 3280) (formerly known as Food Directive No. 2), Title III of the Second War Powers Act, as amended (50 App. U.S.C. sec. 633), the Emergency Price Control Act of 1942, as amended (50 U.S.C. sec. 901 et seq.), and Directive No. 43 of the Economic Stabilization Director, dated April 26, 1945, (10 F.R. 4719), Order No. 1956 of the Secretary of the Interior (9 F.R. 6780), as amended (9 F.R. 9917), being § 401.4 of this Part 401, is hereby amended to read as follows:

§ 401.4 Allocation of halibut. — (a) **Jurisdiction.** Control over the delivery and allocation of halibut landings for the purposes of this section, hereafter referred to as the "order," is hereby vested in the Fishery Coordinator, and subject to his supervision and direction shall be administered by the Office of Fishery Coordination.

(b) **Statement of policy.** The purposes of this order are: to secure and facilitate the maximum production of halibut with a minimum expenditure of critical materials and manpower; to allocate halibut landings between dealers so as to aid in the most efficient distribution of the processed product to meet war and essential civilian needs, so that the armed services will secure an adequate supply of the product for their requirements, and so that the several civilian markets will be supplied with substantially normal proportions of the product, to satisfy, as near as may be, the demand which was developed largely during prewar years; and to discourage violation of maximum price regulations in transactions between fishermen and dealers. This order is to be administered so as to cause a minimum of interference with normal economic processes in the industry. Orderly production and marketing of the products of the fishery depend upon the equitable allocation of the catch among primary dealers, but all persons affected by this order are expected to cooperate in supplying the requirements of the armed services and by furthering the distribution of halibut available for civilian use to the principal distributing and consuming centers in substantially the normal percentages of supply.

(c) **Definitions.** Except where the context clearly indicates otherwise, the following definitions shall be applicable in the interpretation of this order and of all directions, regulations, permits, and other administrative statements and instruments issued under this order.

(1) "Person" means any individual, partnership, association, corporation, or other business entity.

(2) "Dealer" means any person who, within 50 miles of the coastal or inland waters of Alaska, Washington, Oregon or California, buys or takes delivery of, or arranges to buy or take delivery of, halibut from a fisherman or his agent or from a fishing vessel for resale. For the purpose of this definition it is immaterial whether the purchase, delivery or arrangements are for his own account or are for the account of another person.

(3) "Halibut" means Pacific halibut, and all other fish caught with gear of the type commonly used in the Pacific Coast halibut fishery, including cod, rockfishes, and sablefish.

(4) "Pacific halibut" means the species commonly known on the Pacific Coast as halibut, *Hippoglossus hippoglossus*, excluding the other species referred to in subparagraph (3) of this paragraph.

(5) "Allocation" means the dividing of halibut landings between the dealers according to quantities determined by the Fishery Coordinator, or his representative, usually after recommendations by an industry committee.

(6) "Representative of the Fishery Coordinator" means any person or persons duly designated to represent him in performing any of the delegable functions authorized by this order.

(7) Except when the context clearly indicates otherwise each term and phrase has the same meaning as is given to it in War Food Order No. 52 (8 F.R. 1777, 3280, formerly known as Food Directive No. 2).

(d) **Limitations on sales and deliveries of halibut.** No fisherman acting for himself or through an agent shall sell or deliver or arrange to sell or deliver halibut except to a dealer who is the holder of a valid, unexpired, and unrevoked permit issued pursuant to this order by the Fishery Coordinator or his representative.

(e) **Permits required for dealers.** No person shall operate as a dealer except in accordance with the terms and conditions of a valid, unexpired, and unrevoked permit issued to him pursuant to this order by the Fishery Coordinator or his representative. Dealers shall exhibit their permits to all fishermen and all agents of fishermen from whom they buy or accept delivery of halibut.

(f) **Permits; terms and conditions.** (1) Each permit shall authorize operation at one port only, and shall be limited in time as deemed advisable by the Area Coordinator. Each permit shall, except as expressly provided otherwise therein, allow the purchase of all the species referred to as halibut in paragraph (c) (3) of this order; but it shall limit purchases in accordance with any allocation schedules set up under paragraph (i). Permits shall be subject to such other terms and conditions both before and after issuance as are deemed by the Fishery Coordinator or the Deputy Fishery Coordinator appropriate to furthering the purposes of this order. The War Food Administrator may, where distribution is involved, recommend terms and conditions of permits issued.

(2) A person who is in the business of purchasing fish from trollers, and who holds no other permit to operate as a dealer under this order, may be issued a permit to purchase troll-caught halibut only; such permit shall not apply to the purchase of halibut from regular halibut vessels, but shall apply only to the purchase of halibut taken incidentally while fishing for salmon or other species.

(g) **Issuance of permit.** (1) Any dealer, upon informal request, shall be issued a permit to deal in halibut for any

port in which he operated as a halibut dealer in 1941, 1942, or in 1943 prior to July 13, 1943, or for which he had a permit to operate in 1944, unless the Area Coordinator has reasonable cause to believe that such issuance would be contrary to any of the provisions of this order or would interfere with the purposes of this order. The denial of any request shall be subject to appeal as provided in paragraph (n).

In making such request for a permit any person who operated as a halibut dealer purchasing halibut for the account of others in the years above mentioned shall furnish the Area Coordinator with a statement showing:

(i) The amounts of halibut purchased in each port for each account (identified by name and address) during each of the years 1939 to 1944, inclusive, during which the applicant purchased halibut, and

(ii) The amounts of halibut, if any, purchased for the applicant's own account during the same years.

(2) Any person not qualified under the terms of paragraph (g) (1), shall upon filing a proper application as set out in paragraph (h), be issued a permit if in the opinion of the Area Coordinator the applicant has or can obtain adequate facilities, and if his operation will not unduly disrupt the marketing, processing, or distribution of fish, nor interfere with the program of the Office of Price Administration or of the War Food Administration, and if his operation would be otherwise consistent with paragraphs (b) and (i). The denial of any application shall be subject to appeal as provided in paragraph (n).

(3) No person shall hold more than one permit for the same port; but the same person may hold one permit for each of several ports.

(4) A permit issued pursuant to application as set out in paragraph (h) shall become invalid upon any change of more than 25 percent interest in the ownership of the enterprise as described in the application therefor. Such invalid permit shall be at once surrendered to the Area Coordinator. A new application for another permit may be filed immediately.

(h) **Applications.** (1) Any person who did not have a permit to operate as a dealer in 1944 may, on or before July 31 of the fishing season, apply for a permit, filing a separate application for each port. No particular form is prescribed but any relevant data and reasons in support of the application may be included; it must include the following information:

(i) The name of the applicant.

(ii) The form of applicant's business organization, whether a sole proprietor enterprise, partnership, or corporation, and if the latter, the state of incorporation.

(iii) The name and extent of participation of every co-owner, stockholder; or other participant owning directly or indirectly a 25 per cent interest therein or more.

(iv) The port for which a permit is desired.

(v) The species of fish for purchase of which a permit is desired.

(vi) The dates of the applicant's prior operations as a dealer in fish, the ports in which he operated, and the amount of halibut purchased in each port in each of the last three years during which he purchased halibut in such port.

(vii) The equipment available to him for handling halibut in the port for which a permit is requested.

(viii) The name of a natural person, not a corporation or other fictitious entity, who will have possession of the permit in the port concerned and who will be in charge of operations under the permit there. The person so named should be the permittee himself if he is a natural person and is to be at the port and in charge of the business; otherwise, the permittee's chief representative at the port should be named. The person so named must not be another permittee at the port.

(ix) The names and locations of the secondary dealers through whom he expects to market the halibut purchased, and a statement setting out what arrangements if any he has made to secure outlets.

(2) The application shall be certified as follows:

I certify that the above information is true to the best of my knowledge and belief.

(3) The application shall be filed in triplicate with the Area Coordinator, Area I, Office of Fishery Coordination, United States Department of the Interior, 230 Bell Street Dock, Seattle 1, Washington. The Area Coordinator may refer the application to the Office of Price Administration, the War Food Administration, the War Manpower Commission, and any other Government Agency for report as to the effect the granting of the application would have on their respective emergency programs, and for recommendation as to the action appropriate thereon, with such supporting data and reasons as the agencies deem necessary.

(i) *Allocation schedules.* (1) When the Fishery Coordinator, or his representative, deems it advisable in order to further the purposes of this order, he may set up a plan for supervised allocation of halibut among dealers, and thereafter all halibut landed shall be distributed as directed by him or in the shares directed by him in accordance with an allocation schedule. Such allocation schedule shall be worked out and applied, so far as possible, in cooperation with the dealers concerned.

(2) Any such schedule of allocation among dealers shall be aimed at furthering the purposes of this order as set out in paragraph (b), and especially at securing substantially normal distribution of the catch. It shall be based upon some equitable historical basis, taking account of the normal distribution of landings among all dealers in the Pacific Coast port.

(3) An allocation schedule shall be adjusted as deemed reasonably necessary in the opinion of the Fishery Coordinator, or his representative, to secure an adequate supply of halibut for the

armed services or to adapt the schedule, in the light of changes in delivery practices of the halibut fleet and other abnormal circumstances, so as to further the purposes of this order and the aims of allocation referred to in subparagraph (2) of this paragraph (i).

(4) An allocation schedule may set aside as much as 15 per cent of the landings of halibut at any port for qualified dealers at that port who did not operate prior to July 13, 1943.

(j) *Records and reports.* (1) All dealers shall keep and preserve for not less than two years accurate records concerning purchases of halibut from fishermen and others, and sales of halibut to secondary dealers and others, showing for each transaction the date, the name and address of the other party, and the amount of halibut involved, by species.

(2) The Fishery Coordinator, or his representative, shall be entitled to make such audit and inspection of the books, records, and other writings, premises and stocks of halibut of any person, and to make such investigations, as may be necessary or appropriate in his discretion to the enforcement or administration of this order.

(3) The Fishery Coordinator, or his representative, may require from persons affected by this order periodic reports showing the amount of halibut received or sold in each separate transaction, with the date, name of seller and vessel or name of buyer, as the case may be. The Fishery Coordinator, or his representative, may also require from persons affected by this order such other material information as he may deem necessary to give effect to the purposes of this order. These record-keeping requirements have been approved by the Bureau of the Budget and specific recording and reporting requirements subsequently prescribed will be subject to the approval of the Bureau of the Budget, all pursuant to the Federal Reports Act of 1942, 5 U.S.C. sec. 139.

(k) *Industry committees.* An industry committee may be set up by the Fishery Coordinator, or his representative, in each port where an allocation program is established. Each such committee shall be representative of the various interests concerned, as by the inclusion of one large dealer, one small dealer, and one representative of the halibut fishermen, and shall advise with the local representative of the Fishery Coordinator and make recommendations as to the allocation schedule to be set up, and any other details connected with the administration of this order.

(l) *Orders and directions.* The Fishery Coordinator, or his representative, may issue such orders and directions as he may deem advisable to accomplish the purposes of this order, and violation of any such order or direction shall be a violation of this order.

(m) *Violations, revocation.* Any person who violates this order, any order or direction issued under it by the Fishery Coordinator, or his representative, or any term or condition of any permit issued by him, or who by any act or omission falsifies records to be kept, or information to be furnished pursuant to this

order, or who after the issuance of this order violates any price regulations issued by the Price Administrator, may, by a decision of the Area Coordinator, upon findings of fact made after reasonable notice and opportunity to be heard, be prohibited from purchasing more than a specified quantity of halibut; or he may be prohibited from dealing in halibut, by suspension or revocation of any permit issued, or prohibited from receiving halibut or from clearing port to fish for halibut or from fishing for halibut, for a specified period of time. In exceptional circumstances, where the Area Coordinator has reasonable grounds to believe such violation has occurred, and if the circumstances are such that he shall deem such action reasonably necessary to carry out the purposes of this order, he may immediately suspend the permit or prohibit fishing for halibut pending such hearing. Permits which have been suspended or revoked shall be surrendered at once to the Area Coordinator, Area I. Such further action may be taken against the violator as the Fishery Coordinator, or his representative, deems appropriate, including recommendations for prosecutions under section 35 (A) of the Criminal Code (18 U.S.C. sec. 80), under Title III of the Second War Powers Act (50 App. U.S.C. sec. 633), and under any and all other applicable laws.

(n) *Appeals and petitions for relief.* Any person who finds that compliance with this order imposes an unreasonable burden upon him, or who is aggrieved by any action of the Deputy Fishery Coordinator hereunder, may petition the Fishery Coordinator for appropriate relief. Any person aggrieved by any action taken by the Area Coordinator or one of his staff hereunder, or by any direction issued hereunder, or who finds that compliance therewith imposes an unreasonable burden upon him may petition the Area Coordinator for appropriate relief; and after the hearing or other presentation of the matter before the Area Coordinator and after his decision, any person affected may appeal from the decision by filing a petition with the Fishery Coordinator. Any petition filed under this paragraph must include a full showing of the pertinent facts, and must be filed in triplicate; and when any petition is filed with the Fishery Coordinator a copy thereof shall be filed at or before that time with the Area Coordinator. Unless there has been a hearing on the matter earlier in the proceedings, the petitioner may have a hearing before final action by request included in his petition.

(o) *Delegation of authority; designated representative.* For the purpose of this order, the functions, duties and powers of the Fishery Coordinator may in his absence be exercised by the Deputy Fishery Coordinator. All applications, petitions, and communications referred to herein shall, unless otherwise specified, be addressed to and filed with the Area Coordinator, Area I, Office of Fishery Coordination, United States Department of the Interior, 230 Bell Street Dock, Seattle 1, Washington; he is the Area Coordinator referred to in this or-

der and is hereby designated as the representative of the Fishery Coordinator for immediate supervision of the administration of this order. In the performance of these functions, the Area Coordinator, Area I, may designate any members of his staff to carry out any specific functions that may be assigned; and, in addition, he may delegate specific functions to any member of the staff of the Office of Fishery Coordination, or of the Fish and Wildlife Service, with the consent of the superior of such staff member.

Effective date. This order shall become effective at once upon issuance, and where any supervised allocation program is set up pursuant to paragraph (1), deliveries of halibut received by a permittee during the 1945 season, but before the effective date of this order, shall be considered as received under the share allocated to him under such program.

Issued this 9th day of May 1945.

HAROLD L. ICKES,
Secretary of the Interior.

(b) No common carrier shall collect, or cause the collection of property at any time except:

(1) Between the hours of 8 a. m. and 5 p. m. on any Monday, Tuesday, Wednesday, Thursday, or Friday, and then only when the order for the collection thereof is received by the carrier prior to 3 p. m. of such day; or

4. *Designation of collection point; preparation of property for shipment.*

- (a) Designated the point at which the property will be available for collection;
- (b) Prepared the property for shipment including, in respect of two or more shipments, the segregation and separation of such shipments to permit prompt checking and identification by the carrier; and
- (c) Placed the property for collection at the point so designated.

5. *Failure to prepare property for shipment; collection deferred.* Whenever a shipper fails, prior to the time agreed upon by the carrier and shipper, to prepare and place property for collection in the manner specified in paragraph 4 of this order, no common carrier shall collect, or cause the collection of, the property thereafter during the same calendar day.

7. *Placement of vehicles for collections or deliveries; restrictions.* No common carrier for the purpose of collecting or delivering property shall place, or spot, or cause to be placed or spotted, or permit or allow to remain, any vehicle on, at, or near the premises of a shipper or consignee (or other point or place designated by agreement for the collection or delivery of property) at any time during which collections, by virtue of the terms of paragraph 3 of this order, or deliveries, by virtue of the terms of paragraph 6 of this order, are prohibited.

8. *Truckload deliveries; notification of consignee.* A common carrier shall notify the consignee as to any truckload consignment before delivery thereof is attempted in order that the consignee may make provision for the prompt unloading of the vehicle or vehicles.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 70-930, 70-934]

NIAGARA HUDSON POWER CORP. ET AL.
SUPPLEMENTAL ORDER GRANTING APPLICATION
AND RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 9th day of May 1945.

In the matters of Niagara Hudson Power Corporation, New York Power and Light Corporation, Hudson Valley Fuel Corporation, File No. 70-930; New York Power and Light Corporation, Niagara Hudson Power Corporation, File No. 70-934.

Niagara Hudson Power Corporation, a holding company subsidiary of The United Corporation, a registered holding company, and New York Power and Light Corporation and Hudson Valley Fuel Corporation, both subsidiaries of Niagara Hudson Power Corporation and of The United Corporation, having filed applications and declarations, and amendments thereto, pursuant to sections 6 (b), 9 (a) and 12 of the Public Utility Holding Company Act of 1935, including, among other things, an application of New York Power and Light Corporation, filed pursuant to section 6 (b) of the act, for exemption from the provisions of section 6 (a) of the act for the issue and sale, in accordance with

the competitive bidding requirements of Rule U-50, of 240,000 shares of Cumulative Preferred Stock having an aggregate par value of \$24,000,000; and

The Commission by order dated April 27, 1945, having, among other things, granted said application, as amended, subject to the terms and conditions prescribed in Rule U-24 and subject to the following further conditions:

(1) That New York Power and Light Corporation obtain from the Public Service Commission of the State of New York a final order expressly authorizing the issue and sale of said Cumulative Preferred Stock;

(2) That the proposed issue and sale of said Cumulative Preferred Stock shall not be consummated until the results of competitive bidding, pursuant to Rule U-50, shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate; and

The Commission in said order, dated April 27, 1945, having reserved jurisdiction over the payment of legal fees and expenses of all counsel in connection with the proposed transactions; and

New York Power and Light Corporation having filed a further amendment to its application herein, setting forth the action taken to comply with the requirements of Rule U-50 and showing that, pursuant to the invitation for competitive bids, bids for said 240,000 shares of Preferred Stock were submitted by two groups of underwriters headed by Harriman Ripley & Co., Incorporated, and Morgan Stanley & Co., respectively, as follows:

Underwriting group	Price to company per share	Dividend rate	Annual cost to company
			Percent
Harriman Ripley & Co., Inc.	\$102.30	\$3.90	3.81
Morgan Stanley & Co.	102.75	4.00	3.93

Said amendment having further stated that New York Power and Light Corporation has accepted the bids of Harriman Ripley & Co., Incorporated, for the preferred stock, as set out above, and that the securities will be offered for sale to the public at a price of \$104 per share resulting in an underwriters' spread of \$1.70 per share; and

The Commission having examined said amendment with respect to the legal services performed for New York Power and Light Corporation and the underwriters in connection with the transactions, together with a statement of legal fees in the amount of \$13,000 to be paid by New York Power and Light Corporation to LeBoeuf & Lamb, counsel for New York Power and Light Corporation, and legal fees in the sum of \$8,000 to be paid by the underwriters to Sullivan & Cromwell, counsel for the underwriters; and

The Commission having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be paid to the company, the dividend rate on the preferred stock, the redemption prices therefor,

and the proposed underwriters' spread; and

It appearing to the Commission that the legal fees and expenses incurred by the company and by the underwriters are not unreasonable and that jurisdiction over them should now be released;

It is ordered, That said application, as amended, be and the same hereby is, granted, subject to the terms and conditions prescribed in Rule U-24 and that the jurisdiction heretofore reserved over the payment of legal fees and expenses of all counsel in connection with the proposed transactions be and the same hereby is released.

THE NORTH AMERICAN CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 11th day of May 1945.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The North American Company, a registered holding company.

Notice is further given that any interested person may, not later than May 25, 1945, at 5:30 p. m. e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, said declaration or application, as filed or as amended, may be granted, as provided in Rule U-23 of the rules and regulations promulgated pursuant to

said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of the said Commission, for a statement of the transactions therein proposed, which are summarized below:

The North American Company proposes to pay on July 2, 1945, a dividend to its holders of common stock of record on June 1, 1945. Such dividend will be payable in the common stock of Pacific Gas and Electric Company having a par value of \$25 per share, owned by The North American Company, at the rate of one share of common stock of Pacific Gas and Electric Company on each 100 shares of the common stock of The North American Company outstanding. No certificates will be issued for fractions of shares of stock of Pacific Gas and Electric Company but, in lieu thereof, cash will be paid at the rate of 38 cents for each 1/100th of a share of stock of Pacific Gas and Electric Company, this rate being based on the approximate market price of \$38 per share as of April 25, 1945, the date the proposed dividend was declared. The North American Company estimates that the payment of the above-mentioned dividend will involve the distribution of not more than 75,000 shares of the 1,420,505 shares of common stock of Pacific Gas and Electric Company owned by it and use of not more than \$500,000 of cash; and that the payment of such dividend will result in a charge of approximately \$2,880,000 to earned surplus.

The North American Company has requested that the Commission enter an order permitting said declaration to become effective or granting said application on or before May 28, 1945.

By the Commission.
