§ 173.4 Requirement of returns—(a) Returns required. Every person in the United States who disposes of any substance, as defined in § 173.3 (b), shall, when required in writing by the Commissioner of Internal Revenue, the Deputy Commissioner in charge of the Alcohol Tax Unit, or a District Supervisor or Acting District Supervisor of the Alcohol Tax Unit, and until notified to the contrary in writing by such an officer, for the purpose of enabling the determination, in accordance with law, as to whether all taxes due with respect to any distilled spirits manufactured from such substances have been paid, render in writing correct returns showing (1) the date of each disposition of such substances, and in such quantities, as may be specified in the formal notice requiring such returns; (2) the quantity and kind of each substance disposed of; (3) the name and complete address of each purchaser, consignee, and other person actually receiving such substances, and of any other person for, by or through whom the substances were ordered or disposed of; (4) the date and method of shipment or delivery, and (5), if delivered or shipped by truck or similar conveyance, the state or city registration number of such truck or conveyance, and the name and complete address of the operator of such truck or conveyance as shown by his operator's license, giving the number of such operator's license and the date of its issuance. Where shipment is made by a common carrier, such as a railroad, trucking company, steamboat line, etc., the information required by subparagraph (5) of this paragraph need not be reported, but in lieu thereof there shall be furnished the complete routing of the shipment, full name and address of first carrier, and railroad car number or name of ship.

(b) *Filing returns.* Returns shall be filed with the officer or employee of the Bureau of Internal Revenue designated by the officer requiring returns. The first return shall be filed not later than ten days after the receipt of the notice requiring the same to be submitted, unless that notice shall specify the date upon which the first return is to be filed.

§ 173.5 Records to be maintained. Every person in the United States who disposes of any substance, as defined in § 173.3 (b), and who has been required to render returns under the provisions of § 173.4 (a), shall keep at his

place of business such books, records, documents, papers, invoices, bills of lading, etc., relating to or connected with any such disposition, as will enable such person to make the return provided for by § 173.4 (a): *Provided*, That, unless the Commissioner, Deputy Commissioner, District Supervisor, or Acting District Supervisor shall, in writing, notify any such person so to do, he shall not be required to keep such books, records, documents, papers, invoices, bills of lading, etc., when the disposition of any such substances at the same time does not exceed the following: (a) 300 pounds of cane, corn, or beet sugar; (b) 250 gallons of syrup or molasses; (c) 5 pounds of yeast when packaged or cartoned in quarter pound, half pound, pound, or larger packages; (d) 100 gallons of cider; (e) 250 pounds of malt; (f) 300 pounds of dehydrated molasses; (g) 250 gallons of hydrol or sugar syrup; (h) 100 pounds of urea, ammonium phosphate, ammonium carbonate, ammonium sulphate, or other yeast foods; or (i) 300 pounds of corn meal, corn chops, cracked corn, rye chops, middlings, bran or other grain derivatives. Such books, records, documents, papers, invoices, bills of lading, etc., shall be kept readily available for, and open to, inspection by any officer or employee of the Alcohol Tax Unit of the Bureau of Internal Revenue during the hours of business of such person.

§ 173.6 Delegation of authority—(a) Authority of Deputy Commissioner. Paragraph (1) of section 1 of Treasury Decision 4662, approved July 3, 1936, in force when this part, amended, was approved on April 27, 1937 and filed with the Division of the Federal Register on April 29, 1937, shall be and continue in force.

(b) *Authority of District Supervisor.* Under authority of section 3170, Internal Revenue Code, District Supervisors and Acting District Supervisors of the Alcohol Tax Unit are authorized to require returns under this part.

[T. D. 5466]

PART 186—GAUGING MANUAL

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of sections 2808 and 3176, Internal Revenue Code, the Gauging Manual, approved November 21, 1938 (26 CFR, Part 186), is hereby amended as follows:

1. Section 186.13 (a) is amended to read as follows:

§ 186.13 Wine and proof gallon contents. (a) The proof of alcohol in receiving cisterns of industrial alcohol plants and the proof of spirits in cisterns of distilleries shall be adjusted to a whole

or complete degree of proof before being removed therefrom. The proof of alcohol or other spirits at industrial alcohol bonded warehouses, bottling-in-bond departments of internal revenue bonded warehouses, rectifying plants, and tax-paid bottling houses shall be adjusted to a whole degree of proof preparatory to filling containers such as tank cars, barrels, drums, or bottles. Adjusting the proof to tenths of a degree, either above or below the whole or complete degree, will not be permitted: *Provided*, That when tax-paid spirits at rectifying plants and tax-paid bottling houses and untaxed spirits for bottling in bond for export at bottling-in-bond departments of internal revenue bonded warehouses are being prepared for bottling and are to be bottled and labeled in tenths of a degree of proof, such as 86.6, the proof of the spirits shall be adjusted to such tenths of a degree of proof. The restoration to the original proof and volume of rectified spirits upon which the rectification tax has been paid, by the addition of water, preparatory to bottling, shall not be deemed a reduction in proof or an increase in volume within the meaning of section 2801 (b) of the Internal Revenue Code.

2. Section 186.60 is amended by the addition of a new paragraph, lettered (k), reading as follows:

§ 186.60 Kind of spirits branded on barrel. * * *

(k) Where spirits are quick-aged, by any process, in packages at any time prior to tax-payment, the letters "Q. A." will be burned, cut or stenciled upon the head of the package when such quick-aging is completed.

Commissioner of Internal Revenue.

Acting Secretary of the Treasury.

of each lot will be performed by the proprietor of the warehouse under the immediate supervision of the storekeeper-gauger: *Provided*, That the storekeeper-gauger shall determine the proof of the spirits in the tank after reduction and prior to release for bottling, and make appropriate entries on Form 1515. The proof of the spirits shall be adjusted to a whole degree of proof in accordance with the provisions of Part 186 of this chapter preparatory to filling bottles. Adjusting the proof to tenths of a degree, either above or below the whole or completed degree, will not be permitted: *Provided*, That when spirits are being prepared for bottling in bond for export and are to be bottled and labeled in tenths of a degree of proof, such as 86.6, the proof of the spirits shall be adjusted to such tenths of a degree of proof. The proof in each instance shall be verified as to accuracy by the Government officer. The proof will be determined in accordance with Part 186 of this chapter. While the storekeeper-gauger is charged with the duty of requiring compliance with the provisions of the law and regulations by the persons engaged in the various operations of bottling the spirits, his failure in any instance will not relieve the proprietor of the warehouse from responsibility. (Secs. 2903, 2904 and 3176, I.R.C.)

2. Section 188.70 is amended to read as follows:

§ 188.70 *Liquor bottles*. The proprietor must comply with the provisions of Part 175 of this chapter, respecting the use of properly marked liquor bottles. Spirits may be bottled in bond for domestic purposes in the following-sized bottles and no others: 1 quart, $\frac{4}{5}$ quart, 1 pint, $\frac{1}{2}$ pint, $\frac{1}{3}$ pint, $\frac{1}{4}$ pint, and, in the case of brandy, $\frac{1}{8}$ pint. Bottles must be filled as nearly as possible to conform to the amount stated on the stamp, label or bottle, to be contained therein, but in no event may the amount of spirits contained in any bottle, due to the lack of uniformity of the bottles, vary more than 2 per cent from the amount stated to be contained therein and, further, in such case there shall be substantially as many bottles overfilled as there are bottles underfilled for each lot of spirits bottled as reported on Form 1515. (Secs. 2903, 2904 and 3176, I.R.C.; Sec. 2871, I.R.C.)

(a) *Bottles for export*. Distilled spirits may be bottled in bond for export in the following-sized bottles and no others: 1 quart, $\frac{4}{5}$ quart, 1 pint, $\frac{1}{2}$ pint, and less than $\frac{1}{2}$ pint. Bottles of less than one-half pint capacity may be of the size desired. Liquor bottles as defined in Part 175 of this chapter may be used but will not be required in bottling distilled spirits in bond for export. (Secs. 2903, 2904 and 3176, I.R.C.; secs. 2871, 2905, I.R.C.)

3. Paragraphs (b), (c), (d), and (e) of § 188.72 are amended to read as follows:

§ 188.72 *Labels for distilled spirits for domestic consumption*. * * *

(b) *Comparison of labels with contents of bottling tank*. Before releasing

spirits from bottling tanks for bottling, the Government officer will require the proprietor to submit to him the label he proposes to use for the spirits in the bottling tank, together with the certificate of label approval or the certificate of label exemption, as the case may be, and he will compare such label with the label affixed to such certificate to see that they agree in every respect except for the differences allowed by the certificate. He will then compare such label with Form 1515 to determine whether the label to be used corresponds in every respect with the spirits in the bottling tank, including age, class and type, and proof. In making this determination he will take into consideration the kind of spirits, the proof of distillation, the kind of cooperage in which the spirits were stored, and whether the spirits were treated with oak chips, etc., as disclosed by the marks and brands on the packages and entered on Form 1515. If the label and spirits agree in every respect, the Government officer will attach the label securely to the copy of Form 1515 to be attached to the bottling tank and release the spirits for bottling. If the label and spirits do not agree in every respect, the Government officer will withhold the release of the spirits for bottling until the proprietor submits to him a label and a certificate of label approval or exemption, as the case may be, correctly describing the spirits to be bottled.

(c) *Additional label requirements*. Officers assigned to bottling-in-bond departments of internal revenue bonded warehouses will also see that all labels affixed to containers of distilled spirits subject to the provisions of Part 175 of this chapter conform to the requirements of such regulations. The methods prescribed in paragraph (b) of this section will be followed in making such determinations.

(d) *Tests of bottled spirits*. Officers assigned to bottling-in-bond departments will, at frequent, irregular intervals during the process of bottling, test and examine the bottled spirits to determine (1) whether the label attached is identical with the label verified by the Government officer under paragraph (b) of this section; (2) whether the bottled spirits agree in proof with the data on the label and stamp; and (3) whether the quantity agrees with the data on the label, stamp or bottle, subject to the limitation prescribed by § 188.70. The test as to proof will be made by the use of standard gauging instruments in accordance with the provisions of Part 186 of this chapter. The test as to quantity will be made (1) by the utilization of a glass graduate standardized at sixty degrees Fahrenheit to be provided by the proprietor or (2) by weighing a given number of empty bottles and reweighing the same bottles after filling. The net contents will be computed in accordance with the provisions of Part 186 of this chapter. If the contents do not agree as to quantity (subject to the limitation of § 188.70) or as to proof (subject to a normal drop in proof occurring during bottling operations not to exceed three-tenths of a degree) with the respective data on the label, stamp or bottle,

the Government officer will withhold release of the bottled spirits and require the proprietor to rebottle, recondition (where permissible), or relabel the spirits in such manner that the label will correctly describe the contents. However, the proof at the beginning of the bottling operations shall always be set exactly as provided in § 188.56.

(e) *Proprietor's responsibility*. Notwithstanding that Government officers assigned to bottling-in-bond departments of internal revenue bonded warehouses are required to verify labeling data, full responsibility rests upon the proprietor to see that the labeling of all spirits bottled at his plant is in conformity with the requirements of the Federal Alcohol Administration Act and regulations issued thereunder, and Part 175 of the chapter. (Sec. 2903, 2904, and 3176, I.R.C.; Sec. 2871, I.R.C.; sec. 505, 49 Stat., 1985; 27 U.S.C., Sup., 205)

PART 189—BOTTLING OF TAX-PAID DISTILLED SPIRITS

MISCELLANEOUS AMENDMENTS

Pursuant to sections 2801 (b), 2803, 2871, and 3176, Internal Revenue Code, (U.S.C., Title 26, Secs. 2801 (b), 2803, 2871, and 3176) Regulations 11 (26 CFR, Part 189) is hereby amended as follows:

ARTICLE XIX—DUMPING AND BOTTLING

1. Section 189.65 is amended to read as follows:

§ 189.65 *Application, Form 230*. Proprietors of tax-paid bottling houses desiring to bottle tax-paid spirits will execute application on Form 230, in duplicate, giving all of the data called for by the form as indicated by the headings of the columns and lines and the instructions printed thereon. The proprietor will enter on Form 230 the details of the withdrawal gauge for tax-payment when packages of spirits are to be dumped for bottling, or when liqueurs or cordials are authorized to be bottled from the original packages as provided in § 189.78. An actual gauge of the spirits will, however, be made in either case before the bottling begins. The proof of spirits shall be adjusted to a whole degree of proof in accordance with the provisions of Part 186 of this chapter, preparatory to bottling. Adjusting the proof to tenths of a degree, either above or below the whole or complete degree, will not be permitted: *Provided*, That when spirits are being prepared for bottling and are to be bottled and labeled in tenths of a degree of proof, such as 86.6, the proof of the spirits shall be adjusted to such tenths of a degree of proof. The proof in each instance shall be verified as to accuracy by the Government officer.

The proprietor will enter the details of his gauge on Form 230, as provided in §§ 189.77 and 189.78. Each Form 230 will be given a serial number beginning with "1" for the 1st day of January of each year and running consecutively thereafter to December 31, inclusive. A separate application on Form 230 must be prepared for each lot of tax-paid spirits to be bottled. (Secs. 2803, 2871 and 3176, I.R.C.)

2. Section 189.79 is amended to read as follows:

§ 189.79 Reduction of tax-paid rectified spirits prohibited. The reduction in proof or the increasing in volume, at a tax-paid bottling house, of rectified spirits on which the rectification tax has been paid is prohibited by law. However, the restoration to the original proof and volume of rectified spirits upon which the rectification tax has been paid, by the addition of water, preparatory to bottling, shall not be deemed a reduction in proof or an increase in volume within the meaning of section 2801 (b) of the Internal Revenue Code. Liqueurs and cordials upon which the tax imposed by section 3030 (a) of the Internal Revenue Code has been paid, may not be reduced in proof or increased in volume, nor may wines be increased in volume or in taxable grade, at a tax-paid bottling house. Section 2801 (b) of the Internal Revenue Code is not applicable to the reduction of imported spirits rectified abroad, or of spirits rectified in Puerto Rico, the Virgin Islands, or the Philippine Islands, or of domestically rectified spirits exempt from rectification tax. (Secs. 2803, 2871 and 3176, I.R.C.; sec. 2801 (b), I.R.C.)

3. Section 189.91 is amended to read as follows:

§ 189.91 Liquor bottles. The proprietor of a tax-paid bottling house must comply with the provisions of Part 175 of this chapter, respecting the use of liquor bottles and other containers for rectified and unrectified products. Marked liquor bottles may not be used for packaging wines containing 24 per cent or less of alcohol by volume, or products manufactured with such wines, unless such products contain distilled spirits other than those used in fortifying the wine. Bottles must be filled as nearly as possible to conform to the amount stated on the stamp, label or bottle, to be contained therein, but in no event may the amount of spirits contained in any bottle, due to the lack of uniformity of the bottles, vary more than 2 per cent from the amount stated to be contained therein and, further, in such case there shall be substantially as many bottles overfilled as there are bottles underfilled for each lot of spirits bottled as reported on Form 1515. (Secs. 2803, 2781 and 3176, I.R.C.)

ARTICLE XXI—LABELS ON BOTTLES OF DISTILLED SPIRITS

1. Section 189.116 is amended to read as follows:

§ 189.116 Comparison of labels with contents of bottling tank. Before releasing spirits from bottling tanks for bottling, the Government officer will re-

quire the proprietor of the tax-paid bottling house to submit to him the label he proposes to use for the spirits in the bottling tank, together with the certificate of label approval or the certificate of label exemption, as the case may be, and in the case of imported spirits the certificate of origin, age, and class and type referred to in § 189.115, and he will compare such label with the label affixed to such certificate to see that they agree in every respect except for the differences allowed by the certificate. He will then compare such label with Form 230 to determine whether the label to be used corresponds in every respect with the spirits in the bottling tank, including age, class and type, and proof. In making this determination he will take into consideration the kind of spirits, the proof of distillation, the kind of cooperage in which the spirits were stored, and whether the spirits were treated with oak chips, etc., as disclosed by the marks and brands on the packages and entered on Form 230. If the label and spirits agree in every respect, the Government officer will attach the label securely to the copy of Form 230 to be attached to the bottling tank and release the spirits for bottling. If the label and spirits do not agree in every respect, the Government officer will withhold the release of the spirits for bottling until the proprietor submits to him a label and a certificate of label approval or exemption, as the case may be, correctly describing the spirits to be bottled. (Secs. 2803, 2871 and 3176, I.R.C.; Sec. 505, 49 Stat. 1965; 27 U.S.C. Supp., 205)

2. Section 189.117 is amended to read as follows:

§ 189.117 Additional label requirements. Officers assigned to tax-paid bottling houses will also see that all labels affixed to containers of distilled spirits subject to the provisions of Part 175 of this chapter conform to the requirements of such regulations. The methods prescribed in § 189.116 will be followed in making such determinations. (Secs. 2803, 2871 and 3176, I.R.C.)

3. Section 189.118 is amended to read as follows:

§ 189.118 Tests of bottled spirits. Officers assigned to tax-paid bottling houses will, at frequent, irregular intervals during the process of bottling, test and examine the bottled spirits to determine (a) whether the label attached is identical with the label verified by the Government officer under § 189.116; (b) whether the bottled spirits agree in proof with the data on the label; and (c) whether the quantity agrees with the data on the label, stamp or bottle, subject to the limitation prescribed by § 189.91. The test as to proof will be made by the use of standard gauging instruments in accordance with the provisions of Part 186 of this chapter. The test as to quantity will be made (a) by the utilization of a glass graduate standardized at sixty degrees Fahrenheit to be provided by the proprietor or (b) by weighing a given number of empty bottles and reweighing the same bottles after filling. The net contents will be computed in accordance with

the provisions of Part 186 of this chapter. If the contents do not agree as to quantity (subject to the limitation of § 189.91) or as to proof (subject to a normal drop in proof occurring during bottling operations not to exceed three-tenths of a degree) with the respective data on the label, stamp or bottle, the Government officer will withhold the release of the bottled spirits and require the proprietor to re-bottle, recondition (where permissible), or re-label the spirits in such manner that the label will correctly describe the contents. However, the proof at the beginning of the bottling operations shall always be set exactly as provided in § 189.65. (Secs. 2803, 2871 and 3176, I.R.C.)

4. Section 189.119 is amended to read as follows:

§ 189.119 Proprietor's responsibility. Notwithstanding that Government officers assigned to tax-paid bottling houses are required to verify labeling data, full responsibility rests upon the proprietor to see that the labeling of all spirits bottled at his plant is in conformity with the requirements of the Federal Alcohol Administration Act and regulations issued thereunder, and Part 175 of this chapter. PART 190—RECTIFICATION OF SPIRITS AND WINES

MISCELLANEOUS AMENDMENTS

Pursuant to sections 2801, 2813, 2861, 2871, and 3176, Internal Revenue Code, (26 U.S.C. 2801, 2813, 2861, 2871, and 3176) Regulations 15 (26 CFR, Part 190) is hereby amended as follows:

ARTICLE XXVI—GAUGING AND DUMPING SPIRITS FOR RECTIFICATION

1. Section 190.177 is amended to read as follows:

§ 190.177 Application, Form 122. When the rectifier desires to dump spirits for rectification he will carefully gauge each package and prepare Form 122, in duplicate, giving a complete description of the packages and making application for permission to dump the same, except that where spirits are transferred to the rectifying plant, directly upon tax-payment, from a contiguous distillery or internal revenue bonded warehouse and dumped for rectification within three days after receipt, the withdrawal gauge will be considered as satisfying the requirement that the spirits shall be gauged when dumped for rectification. Where the spirits are so dumped on the withdrawal gauge, the details of such gauge will be copied on Form 122, and, in addition thereto, if the rectifying plant is

equipped with processing tanks mounted on scales, the spirits may be dumped and gauged by weight in such processing tanks. In such case, the composite proof and proof gallons determined by such gauge shall also be reported on Form 122. The difference in proof gallons between the withdrawal (tax-payment regauge) and such gauge shall also be reported on Form 122. If the spirits are to be drawn from a storage tank the rectifier will likewise execute Form 122, giving all the information applicable. Each Form 122 will be given a serial number beginning with "1" for the 1st day of January of each year and running consecutive thereafter to December 31, inclusive. (Sec. 2801 (e) (1) and 3176, I.R.C.; sec. 2813, I.R.C.)

2. Section 190.190 is amended to read as follows:

§ 190.190 Entire package to be dumped. A portion of a package may not be dumped for rectification. Where it is desired to rectify a quantity of spirits less than a full package, the entire package must be dumped into a processing tank or receptacle and the quantity which it is desired to rectify at that time must be removed from such tank or receptacle to another processing tank for rectification. The first processing tank or receptacle into which the full package was dumped will be labeled to show the kind of spirits and the serial number and date of the Form 122 pursuant to which such spirits were dumped. Where small quantities of rum, sherry wine, or other liquors are to be used for flavoring purposes from time to time, a statement to that effect shall be made on Form 122 covering the gauge and dumping of the packages, unless the entire quantity is to be used within 10 days from the date of dumping. No larger quantities of liquor to be used for flavoring purposes shall be dumped than necessary for a reasonable period, except that not less than an entire original package (barrel or keg) may be dumped. No liquors except small quantities of those used for flavoring and similar purposes shall be retained in processing tanks or receptacles for an indefinite period. (Secs. 2801 (e) (1) and 3176, I.R.C.)

ARTICLE XXX—GAUGE, RETURN, AND TAX-PAYMENT OF RECTIFIED SPIRITS

Section 190.276 is amended, by adding a new paragraph designated (a), to read as follows:

§ 190.276 Transfer to packages or bottling tank. * * * (a) *Adjustment of proof.* The proof of rectified spirits shall be adjusted to a whole degree of proof in accordance with the provisions of part 186 of this chapter preparatory to filling barrels or bottles. Adjusting the proof to tenths of a degree, either above or below the whole or complete degree, will not be permitted: *Provided*, That when spirits are being prepared for bottling and are to be bottled and labeled in tenths of a degree of proof, such as 86.6, the proof of the spirits shall be adjusted to such tenths of a degree of proof. The restoration to the original proof and volume of rectified spirits upon which the rectification tax has been paid, by the addition of water, preparatory to bottling, shall not be deemed a reduction in proof or an increase in volume within the

(Secs. 2801 (e) (1) and 3176, I.R.C.; sec. 2861, I.R.C.)

ARTICLE XXXI—BOTTLING OF RECTIFIED SPIRITS AND PRODUCTS

Section 190.326 is amended to read as follows:

§ 190.326 Liquor bottles. The proprietor of a rectifying plant must comply with the provisions of Part 175 of this chapter, respecting the use of liquor bottles and other containers for rectified and unrectified products. Marked liquor bottles may not be used for packaging wines containing 24 per cent or less of alcohol by volume, or products manufactured with such wines, unless such products contain distilled spirits other than those used in fortifying the wine. Bottles must be filled as nearly as possible to conform to the amount stated on the stamp, label or bottle, to be contained therein, but in no event may the amount of spirits contained in any bottle due to the lack of uniformity of the bottles, vary more than 2 per cent from the amount stated to be contained therein and, further, in such case there shall be substantially as many bottles overfilled as there are bottles underfilled for each lot of spirits bottled as reported on Form 230 or 237. (Secs. 2801 (e) (1) and 3176, I.R.C.; sec. 2871, I.R.C.)

ARTICLE XXXIV—BOTTLING OF UNRECTIFIED SPIRITS AND WINES

1. Section 190.341 is amended to read as follows:

§ 190.341 Gauge. When preparing application for the dumping of spirits for bottling without rectification, the rectifier will enter in the space provided therefor on Form 230 the details of the withdrawal gauge for tax-payment. An actual gauge of the spirits dumped will, however, be made in the bottling tank after they have been reduced to bottling proof, where such reduction is permissible, and before they are released by the Government officer for bottling, and the details of such gauge will be entered in the space provided therefor on the form. Where spirits are to be bottled from the original package, as provided in § 190.347, the details of the withdrawal gauge for tax-payment will likewise be entered on Form 230 at the time the application is prepared, but an actual gauge will be made before the bottling begins and the details of such gauge will also be entered on the form. The proof of spirits shall be adjusted to a whole degree of proof in accordance with the provisions of Part 186 of this chapter preparatory to filling bottles. Adjusting the proof to tenths of a degree, either above or below the whole or complete degree, will not be permitted: *Provided*, That when spirits are being prepared for bottling and are to be bottled and labeled in tenths of a degree of proof, such as 86.6, the proof of the spirits shall be adjusted to such tenths of a degree of proof. The restoration to the original proof and volume of rectified spirits upon which the rectification tax has been paid, by the addition of water, preparatory to bottling, shall not be deemed a reduction in proof or an increase in volume within the

meaning of section 2801 (b) of the Internal Revenue Code. The proof in each instance shall be verified as to accuracy by the Government officer. (Secs. 2801 (e) (1) and 3176, I.R.C.; sec. 2801 (b), I.R.C.)

2. Section 190.353 is amended to read as follows:

§ 190.353 Reduction of spirits. Processing tanks may not be used for the dumping and reducing of spirits to be bottled without rectification. Spirits may be reduced to bottling proof in dumping and reducing tanks provided for the purpose or in the bottling tanks prior to the commencement of bottling. The reduction in proof or the increasing in volume of rectified spirits on which the rectification tax has been paid is, however, prohibited by law, unless the spirits are again rectified and the rectification tax again paid thereon. However, the restoration to the original proof and volume of rectified spirits upon which the rectification tax has been paid, by the addition of water, preparatory to bottling, shall not be deemed a reduction in proof or an increase in volume within the meaning of section 2801 (b) of the Internal Revenue Code. Section 2801 (b) of the Internal Revenue Code is not applicable to the reduction of imported spirits rectified abroad, or spirits rectified in Puerto Rico, the Virgin Islands, or the Philippine Islands, or of domestically rectified spirits exempt from rectification tax. (Secs. 2801 (e) (1) and 3176, I.R.C.; Sec. 2801 (b), I.R.C.)

ARTICLE XXXVI—LABELS ON BOTTLES OF DISTILLED SPIRITS

1. Section 190.408 is amended to read as follows:

§ 190.408 Comparison of labels with contents of bottling tank. Before releasing spirits from bottling tanks for bottling, the Government officer will require the rectifier to submit to him the label he proposes to use for the spirits in the bottling tank, together with the certificate of label approval or the certificate of label exemption, as the case may be, and in the case of imported spirits the certificate of origin, age, and class and type referred to in § 190.407, and he will compare such label with the label affixed to such certificate to see that they agree in every respect except for the differences allowed by the certificate. He will then compare such label with Forms 122 and 237, and Form 27B—Supplemental describing the formula, for rectified products, and with Form 230 as to products being bottled without rectification, to determine whether the label to be used corresponds in every respect with the spirits in the bottling tank, including age, class and type, and proof. In making this determination he will take into consideration the kind of spirits, the proof of distillation, the kind of cooperage in which the spirits were stored, and whether the spirits were treated with oak chips, etc., as disclosed by the marks and brands on the packages and entered on Form 122 or Form 230, as the case may be. If the label and spirits agree in every respect, the Government officer

will attach the label securely to the copy of Form 237 or Form 230 to be attached to the bottling tank and release the spirits for bottling. If the label and spirits do not agree in every respect, the Government officer will withhold the release of the spirits for bottling until the rectifier submits to him a label and a certificate of label approval or exemption, as the case may be, correctly describing the spirits to be bottled. (Secs. 2801 (e) (1) and 3176, I. R. C.; sec. 505, 49 Stat., 1965; 27 U.S.C., Sup., 205)

2. Section 190.409 is amended to read as follows:

§ 190.409 Additional label requirements. Officers assigned to rectifying plants will also see that all labels affixed to containers of distilled spirits subject to the provisions of Part 175 of this chapter conform to the requirements of such regulations. The methods prescribed in § 190.408 will be followed in making such determinations. (Secs. 2801 (e) (1) and 3176, I.R.C.; sec. 2871, I.R.C.)

3. Section 190.410 is amended to read as follows:

§ 190.410 Tests of bottled spirits. Officers assigned to rectifying plants will, at frequent, irregular intervals during the process of bottling, test and examine the bottled spirits to determine (a) whether the label attached is identical with the label verified by the Government officer under § 190.408; (b) whether the bottled spirits agree in proof with the data on the label; and (c) whether the quantity agrees with the data on the label, stamp or bottle, subject to the limitation prescribed by § 190.326. The test as to proof will be made by the use of standard gauging instruments in accordance with the provisions of Part 186 of this chapter. The test as to quantity will be made (a) by the utilization of a glass graduate standardized at sixty degrees Fahrenheit to be provided by the rectifier, or (b) by weighing a given number of empty bottles and reweighing the same bottles after filling. The net contents will be computed in accordance with the provisions of Part 186 of this chapter. If the contents do not agree as to quantity (subject to the limitation of § 190.326) or as to proof (subject to a normal drop in proof occurring during bottling operations not to exceed three-tenths of a degree), with the respective data on the label, stamp or bottle, the Government officer will withhold release of the bottled spirits and require the rectifier to re-bottle, recondition, or relabel the spirits in such manner that the labels will correctly describe the contents. However, the proof at the beginning of the bottling operations shall always be set exactly as provided in §§ 190.276 (a) and 190.341. (Secs. 2801 (e) (1) and 3176, I.R.C.)

4. Section 190.411 is amended to read as follows:

§ 190.411 Rectifier's responsibility. Notwithstanding that Government officers assigned to rectifying plants are required to verify labeling data, full responsibility rests upon the rectifier to see that the labeling of all spirits and wines

bottled or packaged at his plant is in conformity with the requirements of the Federal Alcohol Administration Act and regulations issued thereunder, and Part 175 of this chapter. (Secs. 2801 (e) (1) and 3176, I.R.C.)

ARTICLE XXXVII—MARKING AND BRANDING

Section 190.414 is amended to read as follows:

§ 190.414 Packages of distilled spirits. The gross weight, tare, and net weight shall be cut upon the stave to the left of the bung stave of each barrel or similar container of distilled spirits in the order named, beginning in the middle of such stave and extending toward the Government head. In addition to the serial number, each such container shall also have marked on the Government head thereof the kind of spirits, the wine gallons, proof, and proof gallons, the date of filling, the number of the approved formula under which rectified, and the name (or trade name or style), location (city or town and State), and the number of the rectifier's basic permit issued under the Federal Alcohol Administration Act: *Provided*, That if the spirits were rectified by such rectifier, or if the spirits are unrectified spirits which were produced by such rectifier at a distillery, he may use in connection with his name the designation "Rectifier" or "Distiller," respectively. (Secs. 2801 (e) (1) and 3176, I.R.C.; sec. 2861, I.R.C.)

VILLAGE OF ALANSON BRIDGE, CROOKED RIVER, MICH.

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), the following regulations are prescribed to govern the operation of the drawspan of the bridge of the Village of Alanson across Crooked River in Alanson, Michigan.

§ 203.692 Crooked River, Mich.; Vil- lage of Alanson bridge in Alanson, Mich.

(a) The owner of or agency controlling

the above-named bridge shall provide the appliances and personnel necessary for the safe, prompt, and efficient operation of the draw during the period May 16 to October 31, inclusive, or leave the bridge in an open position when unattended.

(b) Whenever a vessel, unable to pass under the closed bridge, desires to pass through the draw during the period November 1 to May 15, inclusive, at least eight hours' advance notice of the time the opening is required shall be given to the authorized representative of the owner of or agency controlling the bridge.

(c) Upon receipt of such advance notice, the authorized representative of the owner of or agency controlling the bridge, in compliance therewith, shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(d) The owner of or agency controlling the bridge shall keep conspicuously posted on both the upstream and downstream sides thereof, in such manner that it can easily be read at any time, a copy of these regulations together with a notice stating exactly how the representative specified in paragraph (b) may be reached.

(e) Whenever a vessel, unable to pass under the closed bridge, approaches it, the signal for the draw to be opened shall be three blasts of a whistle or horn blown on the vessel. This signal shall be repeated at intervals until it is answered from the bridge. Upon receiving the signal from the vessel, the tender or operator of the bridge, in case the draw will be opened immediately, shall reply by one long blast of a whistle or horn. In case the opening of the draw will be delayed on account of accident to the machinery or other contingency, the signal from the vessel shall be answered by the tender or operator of the bridge by five short blasts of a whistle or horn, to be followed by one long blast when the draw is to be opened.

(f) The operating machinery of the draw shall be maintained in a serviceable condition, and the draw shall be opened and closed at intervals frequent enough to make certain that the machinery is in proper order for satisfactory operation. AUTHORITY: Regulations in this chapter, unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; W.P.B. PART 1157—CONSTRUCTION MACHINERY

[Limitation Order L-192, as Amended July 13, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain items of construction machinery and repair parts for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1157.10 Limitation Order L-192—
(a) *What this order does.* This order states the rules on deliveries of those construction machinery items and repair parts which are expected to continue in short supply after the defeat of Germany. The items covered are those on Lists 1 and 2 (including track-laying tractors formerly under Order L-53). In general, the order reserves for military agencies up to 75% of each producer's monthly output of each model of these construction machinery items; the remaining 25% plus any quantities not needed by those agencies may be sold to other persons without restriction if on List 1, but only upon specific authorization of the War Production Board if on List 2. Critical repair parts are apportioned on a similar, but not monthly, basis.

(b) *Definitions.* For the purpose of this order:

(1) "Producer" means any person engaged in the manufacture of construction machinery or repair parts.

(2) "New construction machinery" means any item listed on Lists 1 and 2 to this order which has never been delivered to and put into regular use by a person acquiring it for use. It does not include any surplus construction machinery which has been purchased from a disposal agency of the United States Government.

(3) "Model" means any one size or type of construction machinery which is identified by the producer with a separate model number or size designation.

(4) "Repair part" means any part manufactured or sold by a producer for use in the repair and maintenance of construction machinery. It does not in-

clude components or attachments which change the functional operations of the machinery as originally shipped.

(5) "Military agency" means the Army, Navy, Maritime Commission, War Shipping Administration and Veterans' Administration.

(c) *Procedure for placing and receiving orders for List 2 construction machinery.* No person shall sell or deliver any new construction machinery listed in List 2 except to a military agency, unless the purchase or delivery order is accompanied by authorization on Form WPB-1319 or by a certification as explained below. Application for such authorization and for a preference rating must be made by filing the required number of copies of Form WPB-1319 with the nearest War Production Board field office in accordance with the current instructions for the form. When a person receives authorization on Form WPB-1319 to purchase List 2 construction machinery he may give his supplier the authorization along with his purchase order, or, if he prefers, he may give the supplier a certification in substantially the following form: "Authorized under Order L-192 on Form WPB-1319, Case No. _____. This certification shall constitute a representation to the War Production Board that the purchase or delivery of the List 2 construction machinery ordered has been specifically authorized by the War Production Board on Form WPB-1319.

(d) *Restrictions on deliveries—(1) New construction machinery.* If required by orders from military agencies, a producer must deliver to those agencies in any calendar month up to 75% of his total deliveries of each model of new construction machinery during that month. This means that he may deliver to persons other than military agencies at least 25% of his total monthly deliveries of any model, and more than 25% to the extent that deliveries of the particular model directly to military agencies are not required during the month. The producer may also deliver more than 75% of any model to military agencies during the month, but need not do so unless a greater percentage is required by the terms of any purchase contract entered into between himself and military agencies before May 17, 1945.

(2) *Repair parts.* The rule on apportioning of repair parts is somewhat different and applies only when unfilled orders in a producer's hands calling for immediate delivery of a particular repair part exceed his inventory of that part. As long as that condition exists for any repair part, the producer may not deliver more than 75% of his total deliveries of that part to military agencies if there are unshipped orders for the part on hand from other persons, and may not deliver more than 25% of his total deliveries of that part to other persons if there are unshipped orders on hand from military agencies.

(3) *Special directives.* The War Production Board may direct any producer in writing to deliver a greater proportion of his deliveries of any model or repair part than above specified to either

military agencies or persons other than military agencies.

(e) *Reports.* On or before the 15th day of each month, every producer must file on Form WPB-1689 in accordance with the instructions on the form, a statement of his production and shipments of new construction machinery for the previous month and a statement of his unfilled orders as of the last day of that month.

(f) *Applicability of regulations.* This order and all transactions affected by it are subject to all applicable regulations of the War Production Board, as amended from time to time, unless the order states otherwise.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(h) *Appeals.* Any appeal from the provision of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal. This letter should be filed with the field office of the War Production Board in the district in which is located the plant or branch to which the appeal relates.

(i) *Communications.* All communications concerning the order should, unless otherwise directed, be addressed to the War Production Board, Construction Machinery Division, Washington 25, D. C., Ref: Order L-192.

Issued this 13th day of July 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Preference Order M-388B, as Amended July 13, 1945]

SYNTHETIC FIBER TEXTILES FOR CIVILIAN ITEMS

§ 3290.353 General Preference Order M-388B—(a) *Explanation.* This order is supplemental to M-388. It states the special rules applicable to civilian items made from synthetic fiber materials and lists the items for which ratings are assigned.

(b) *Delivery quotas*—(1) *General rule.* (Orders rated AA-3 or higher, and AA-5, must be filled as required by Priorities Regulation 1, in addition to the quotas under this paragraph.) Each producer of colored yarn fabrics, intermediate processor and importer must deliver to fill AA-4 orders in the calendar quarter beginning July 1, 1945, and in each subsequent calendar quarter, at least 80 percent of the total linear yards of synthetic fiber fabrics he delivers during the same period on both AA-4 and unrated orders. Stated another way, he must not deliver on unrated orders in any of these periods more than 20 linear yards of synthetic fiber fabrics for each 80 linear yards he delivers to fill AA-4 orders in the same period. He must not discriminate against rated orders in distributing widths as between rated and unrated deliveries.

(2) *Exception for 6 percent of total deliveries.* An exception to the above rule is that each producer of colored yarn fabrics, intermediate processor or importer may deliver up to 6 percent of his total deliveries in the period without regard to AA-4 ratings as long as he fills all other rated orders and complies with all other applicable orders, regulations and directions of the War Production Board.

(3) *Examples.* If an intermediate processor delivers a total of 1,000,000 yards in a calendar quarter, and half of this yardage is delivered to fill orders

rated AA-3 or higher, or AA-5, he has available a total of 500,000 yards for both AA-4 and unrated deliveries. Eighty percent of this total, or at least 400,000 yards would have to be delivered on AA-4 orders and not more than 20 percent or 100,000 yards could be delivered on unrated orders. However, if he delivers in the period 750,000 yards on orders rated AA-3 or higher or AA-5, leaving 250,000 yards for unrated and AA-4 orders, he may still deliver 60,000 yards on unrated orders to the extent that these 60,000 yards are not needed to fill orders other than AA-4 or to comply with regulations, orders or directions of the War Production Board.

(4) *Rejects.* Rejects, including remnants over one yard and seconds, must be included in calculating required deliveries for rated delivery quotas under this order.

(5) *Military and other cancellations.* Material resulting from cancellations of customers' orders must also be included in calculating rated delivery quotas. However, unless otherwise ordered by the War Production Board, a producer of colored yarn fabrics, intermediate processor or importer who has a contract or subcontract with the United States Army, Navy, Maritime Commission, War Shipping Administration or the Procurement Division of the Treasury Department which is cancelled after April 30, 1945, and for which synthetic fiber fabric or yarn is already completed or in process either in his plant or that of one of his subcontractors, may deliver the completed finished fabric, or the finished fabric made from the material in process, free of his rated delivery quota.

(c) *Finishing, sale, and delivery of materials under delivery quotas.* No intermediate processor or importer shall bleach, dye, print or otherwise finish, or permit to be bleached, dyed, printed or otherwise finished, any fabric, title to which passes to him, or which he completes as gray goods, on or after May 1, 1945, except to fill rated orders which he has accepted, or to make unrated deliveries within the limits allowed by this order. Material must not be finished in a manner which will make it unsuitable to fill the required amounts of rated orders.

(d) *Unfinished fabric deliveries and finishing by integrated producers*—(1) *Producer deliveries of unfinished synthetic fiber fabrics.* Effective May 1, 1945, a producer shall deliver unfinished synthetic fiber fabrics only if the delivery is in one of the following classes:

(i) Deliveries to fill rated orders.

(ii) Deliveries of unfinished fabric less than 10 yards in length unavoidably produced in normal production operations.

(iii) Deliveries to persons who have serial numbers from the War Production Board pursuant to applications on Form WPB-4202 and have on file with the producer certification substantially as follows: (The certification once filed remains in effect until withdrawn. The standard certification in Priorities Regulation 7 may not be used instead.)

The undersigned certifies subject to the Criminal Penalties of section 35 (A) of the

U. S. Criminal Code that he holds WPB serial number _____, that the textiles covered by this and all subsequent unrated purchase orders placed with you will be used or disposed of as required by the set-asides, delivery quotas, and other applicable rules of M-388, or other orders in the M-388 series. This certification is a continuing representation to the War Production Board and to you until you are otherwise notified in writing.

(iv) *Deliveries authorized in writing pursuant to letter of application to the War Production Board.* Deliveries will be authorized when needed for essential though unrated items if the deliveries will not substantially reduce production of rated items.

(2) *Finishing of fabrics by integrated producers.* A producer of synthetic fiber fabrics, who is also an intermediate processor shall not finish any synthetic fiber fabrics after June 1, 1945, unless he has obtained a serial number from the War Production Board pursuant to application on Form WPB-4202.

(e) *Preference rating schedules.* Preference ratings are assigned in the Preference rating schedules of this order. The conditions under which the ratings can be used are explained in these schedules.

Issued this 13th day of July 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

AA-4 PREFERENCE RATING SCHEDULE I—SYNTHETIC FIBER CIVILIAN ITEMS

Assignment of AA-4 rating to manufacturers of listed synthetic fiber apparel and other items. Preference rating AA-4 for synthetic fiber fabric is assigned to manufacturers of the items shown in this Schedule who qualify under M-388 and M-388B, and also comply with the following:

(1) This rating may not be used to get delivery of other than colored yarn fabric from a producer.

(2) The fabric must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices: (i) the price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration, or (ii) the price specified in the Maximum Price Column in this Schedule.

(3) The Rated Quota Column in this Schedule shows for each item a quota of units of the item. This quota is a percentage of the total number of units (in all price lines) of the same item which the manufacturer made in the corresponding quarter of 1943. He may not get more fabric with the rating in any calendar quarter than the yardage necessary to fill this quota. This is the yardage which he must show in Form WPB-4200 before using the rating, as explained in paragraph (1) (2) of M-388.

(4) The rated quotas shown below, as amended July 13, 1945, supersede the previous rated quotas of this schedule for deliveries in the third calendar quarter of 1945 and thereafter. AA-4 ratings previously accepted by a supplier for deliveries within the 75 percent of previous quotas authorized by Direction 3 to Order M-388 remain valid, but the yardages covered by such ratings must be charged to the rated quotas shown below.

PART 3270—CONTAINERS

[Limitation Order L-336, as Amended
July 13, 1945]

SANITARY FOOD CONTAINERS

Section 3270.61 *Limitation Order L-336* is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain sanitary food containers for defense, for private account and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3270.61 *Limitation Order L-336*

(a) *What this order does.* This order places limitations on the manufacture, delivery and use of certain types of sanitary food containers. Among other restrictions, the use of hot drink cups is permitted for only certain purposes, and a monthly production set-aside for certain paper cups is required. A certificate is required on each purchase order for delivery of hot drink cups.

(b) *Definitions.* Wherever used in this order: (1) "Sanitary food containers" mean paper food containers and paper cups.

(2) "Paper food containers" mean all empty round nested containers, with or without lids, made of paper or paper-board but excluding wedge-shaped food pails and nested paper plates.

(3) "Paper cups" mean all empty open nested cups, with or without lids, made of paper, including but not limited to hot drink cups, cold drink cups, hot food cups, dishes (including flat-bottom dishes), water cups, and portion control cups. The term shall not include cups of the flat envelope type.

(4) "Hot drink cups" mean all cups made directly from moulded pulp, or all untreated tall cups, double-wrapped or single-wrapped of comparable weight, which are suitable for dispensing hot beverages. The term shall include all cups which at any stage of their manufacture fall within this definition of "hot drink cups".

(5) "Cold drink cups" means all one or two-piece cups, treated or untreated, of 6-ounce size or larger, which are not suitable for dispensing hot beverages.

(6) "Hot food cups" mean all untreated squat cups, 8 to 16 ounces inclusive, double-wrapped or single-wrapped of comparable weight, which are suitable for dispensing hot foods. The term shall include all cups which at any stage of their manufacture fall within the definition of "hot food cups".

(7) "Flat-bottom paper dishes" mean all four to seven ounce shallow, flat-bottom cups, pleated or two-piece nested, having a minimum taper of fifteen degrees.

(8) "Primary feeding" means the feeding of either food or hot beverages to persons, except feeding at gatherings of a purely social nature as at teas, parties or dances.

Restrictions on Manufacturers

(c) *General restriction on manufacture, sale or delivery.* No person shall

manufacture, sell or deliver any sanitary food containers which he knows or has reason to believe will be accepted or used in violation of the terms of this order.

(d) *Maintenance of production of certain paper cups.* Each manufacturer of hot drink cups, flat-bottom cold drink cups or flat-bottom dishes, shall maintain during each calendar quarter, a production of each of these items equivalent to the highest quarterly production of that item attained during any calendar quarter beginning on or after October 1, 1943, to the extent permitted by this order and all other War Production Board regulations and orders, and subject to contingencies beyond his control.

(e) *Distribution of production of paper cups between military and civilian requirements.* (1) Regardless of preference ratings on other orders, each manufacturer of paper cups must set aside the following percentages of his production of paper cups in each month for delivery to the Army and the Navy (excluding domestic post exchanges and ship's service stores, but including those located outside of continental United States) in the sizes ordered by them: 35 percent of his monthly production of 6-9 ounce hot drink cups inclusive (not more than 60 percent of the total production of any one size to be produced need be included in the set-aside); 50 percent of his monthly production of 10 to 12-ounce hot drink cups inclusive; 70 percent of his monthly production of 6 to 9-ounce flat-bottom cold drink cups inclusive; 100 percent of his monthly production of 10 to 24-ounce flat-bottom cold drink cups inclusive; 75 percent of his monthly production of all flat-bottom dishes. He must make this set-aside in the following proportion to the Army and the Navy. 70 percent of each of the above specified five classes of cups to be set aside shall be reserved exclusively to fill Army orders received on or before the 15th day of the preceding month, and the remaining 30 percent shall be similarly reserved for the Navy. Any unordered portion of the Army set-aside shall be further reserved exclusively to fill Navy orders received on or before the 22d day of the preceding month, and any unordered portion of the Navy set-aside shall be similarly reserved for the Army. In the event that on the 23d day of any month, any portion of either the Army's or the Navy's set-aside remains unordered, such portion must be sold as provided in paragraph (e) (2). Set-aside under this paragraph shall be computed on the basis of number of cups.

(2) The balance of each manufacturer's production of hot drink cups, flat-bottomed cold drink cups and flat-bottom dishes shall be used exclusively to fill orders other than Army and Navy orders (excluding domestic post exchanges and ship's service stores, but including those located outside the continental United States) in accordance with Priorities Regulation 1 and the provisions of this order.

(3) The above set-aside provisions shall not apply to the July 1945 production of 10 to 12-ounce hot drink cups.

(f) *Prohibited manufacture, sale or delivery.* No person shall manufacture,

sell or deliver the following types of paper cups if he knows or has reason to believe that they will be used for the purposes stated: (1) Packages of paper cups for retail sales, except that this restriction shall not apply to stocks of cups made up for retail sales which were on hand January 29, 1944; (2) Portion control or souffle cups for retail sales or for party favors.

Restrictions on Delivery and Use of Paper Cups

(g) *Certificate for delivery of hot drink cups.* No manufacturer, wholesaler, or jobber shall sell or deliver any hot drink cups to any person after July 31, 1945, unless he receives from such person with each purchase order (including each shipment order based on a long term requirements contract), a certificate in substantially the following form, signed manually or as provided in Priorities Regulation 7.

The undersigned purchaser certifies, subject to criminal penalties for misrepresentation, that he is familiar with Order L-336 of the War Production Board and that this order for hot drink cups and the use of the same by the undersigned is and will be in compliance with the order, as amended from time to time.

Furthermore, no manufacturer may sell or deliver any hot drink cups to any wholesaler or jobber unless he receives from such wholesaler or jobber, in addition to the above certificate, a copy of the applicable purchase order received by that wholesaler or jobber from the ultimate purchaser. The standard certificate provided for in paragraph (d) of Priorities Regulation 7 cannot be used in place of the above certificate; nor may the certificate provided by this order be waived in accordance with paragraph (f) of Priorities Regulation 7.

(h) *Restrictions on use of MRO preference ratings.* In purchasing paper cups other than hot drink cups, any person may use the blanket MRO rating assigned to him by any regulation or order of the War Production Board (including CMP Regulation 5, CMP Regulation 5A and orders in the P or U series). To purchase hot drink cups, only the persons described in paragraph (i) below may use blanket MRO ratings and then only for the purposes indicated in that paragraph. No person may use his MRO rating to buy paper food containers. Caterers or concessionnaires as described in paragraph (i) (4) below may also use their customer's MRO ratings to buy paper cups (including hot drink cups): *Provided*, That such cups are only used for the purposes for which they may use cups purchased on their own MRO rating. Furthermore, such customer may distribute to such caterer or concessionnaire for feeding the customer's employees, any paper cups obtained by the customer upon his MRO rating. Except as permitted for caterers and concessionnaires, blanket MRO ratings may not be used by any person to get paper cups for commercially packaging food or other products for shipment or delivery. No person may use his blanket MRO rating to buy paper cups which are to be sent to a commercial food packer to

be filled and returned to him for use in feeding.

(i) *Restrictions on use of hot drink cups.* No person shall use hot drink cups except the following persons for the purposes indicated:

(1) Army and Navy (excluding domestic post exchanges and ship's service stores but including those located outside of continental United States) for any purpose.

(2) Army post exchanges and Navy ship's service stores, located within the Continental United States, for a primary feeding purpose only.

(3) Industrial establishments for primary feeding of their employees on their premises.

(4) Caterers or concessionnaires for primary feeding of employees of one of the persons described in (3) above, on such person's premises, and pursuant to a written agreement with such person.

(5) Veterans' Administration hospitals and all other hospitals for any purpose.

(6) Red Cross for serving food or hot beverages at blood banks or for primary feeding purposes only.

(7) USO for primary feeding purposes only.

(8) Persons when engaged in serving food or drink in planes and trains.

(9) Educational institutions for primary feeding only of their students and personnel.

(10) Any individual for his personal use.

General Provisions

(j) *Inventory.* No person shall accept, have set aside or held for his account, any quantity of sanitary food containers which will increase his inventory of such containers to more than his reasonably anticipated requirements for the next 45 days, except that, whenever his inventory is less than a 45-days' supply, he may accept the minimum delivery required by his supplier under a published price list or sales policy in effect on October 29, 1943. No person shall order any quantity of sanitary food containers for delivery to him or for his account on any date, if receipt thereof on that date would increase his inventory of such containers to more than the amount permitted in the first sentence of this paragraph. This provision does not apply to the Armed Forces, Post Exchanges, Ship's Service Stores and individuals who accept sanitary food containers for their personal use.

(k) *Appeals.* Appeals from Order L-336 shall be filed by addressing a letter, in triplicate, to the appropriate field office of the War Production Board. The letter of appeal need not follow any particular form. It should state informally, but completely, the particular provisions appealed from, the precise relief desired, the reasons why denial of the appeal would result in exceptional and unreasonable hardship, and such other statistical and narrative information as may be pertinent.

(l) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any

department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control, and may be deprived of priorities assistance.

(m) *Reports.* All paper food container or paper cup manufacturers shall file Form WPB-3366 in accordance with the instructions in that form. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. All persons affected by this order shall file such other reports and questionnaires as the War Production Board may request from time to time subject to the approval of the Bureau of the Budget.

(n) *Communications.* All inquiries relating to this order other than appeals shall be addressed to the War Production Board, Containers Division, Washington 25, D. C., reference: Order L-336.

PART 1377—LUMBER DISTRIBUTION

[2d Rev. MPR 215, Amdt. 10]

DISTRIBUTION YARD SALES OF SOFTWOOD

A statement of the considerations involved in the issuance of this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Second Revised Maximum Price Regulation 215 is amended in the following respects:

1. Section 7 (a) is amended so that the paragraph entitled "Exception" shall read as follows:

Exception: The foregoing shall not apply to mixed species, log run lumber priced in section 30 (a) of Revised Maximum Price Regulation 94, for which special provision is made under subparagraph (3) below.

2. Section 7 (a) (3) is amended to read as follows:

(3) *Ponderosa pine, sugar pine and secondary species—Revised Maximum Price Regulation 94.* (i) All shipments except "mixed species, log run", section 30 (a): Klamath Falls, Oregon (except: in Texas, Arizona, and New Mexico, use Susanville, California; and for Ponderosa Pine and Secondary species, in Idaho, Montana, Iowa, North Dakota, South Dakota, Washington and Wyoming, use Spokane, Washington).

(ii) Mixed species log run (Section 30 (a)): an addition of \$6.00 per M'BM for inbound transportation shall be used.

3. Section 7 (d) is amended to read as follows:

(d) *Trucking from railhead to yard site in certain areas.* The provisions of this paragraph apply only to the Mountain States, Northwest, Texas and California areas. Where the distribution yard is located at a distance greater than 10 miles from the nearest railhead it may add to its transportation charges, figured in accordance with paragraphs (b) and (d) of this section, for the cost of trucking from the railhead to the yard's site, an amount not to exceed the following: \$2.00 per M'BM for any distance over 10 miles and less than 20 miles; \$2.50 per M'BM for any distance 20 miles or greater. Distance is to be determined by the speedometer reading for the shortest route between the railhead and yard site, or as indicated on the official state highway road map.

4. Section 10 (b) is amended to read as follows:

No. 140—3

(b) Where a yard has in stock an item for which the mill regulation establishes a special price only for certain classes of purchasers, it may compute its selling price for that item using the special price in the mill regulation as its f. o. b. mill maximum price on the following conditions: (1) It must have received special permission from the Office of Price Administration to purchase that item at the special price or it must have developed that item in the process of remanufacturing lumber; (2) It must sell the item only to the classes of purchasers to whom the sale of that item could have been made by a mill at the special price under the mill regulation or to the classes of purchasers specifically designated in the special permission issued by the Office of Price Administration.

5. Section 23 is amended to read as follows:

SEC. 23. *Approval of yard operations—*

(a) *New yards.* In order to prevent violations of this regulation, by unnecessary routing of lumber through distribution yards, the Office of Price Administration will not recognize any distribution yard set up after December 31, 1942 (or the date set in the section on this subject in the applicable mill regulation, if different), unless the person establishing such yard writes to the Office of Price Administration, Building Materials Branch, Washington 25, D. C., and offers proof that such yard satisfies the requirements of the definition "distribution yard" and that the purpose is not to get around the mill regulations or to get the benefit of the mark-ups provided for herein by means of unnecessary distribution yard business. Pending written approval of the application, sales may not be made at the maximum prices permitted by this regulation.

(b) *Combination mill and retail operation.* Where a mill carries on a retail yard business at or adjacent to the mill and does not qualify as a distribution yard under this regulation, the mill may apply to the Building Materials Price Branch, Office of Price Administration, Washington 25, D. C., for permission to use the mark-ups in the regulation. The use of mark-ups in the regulation will be authorized only on sales of grades and sizes of the species of the lumber not produced by the applicant's mill within the 12-month period preceding the date of sale. Pending written approval of the application sales may not be made at the maximum prices permitted by this regulation.

(c) Any wholesale yard as defined in section 16 (e) which prior to June 23, 1943, separately operated a retail department under conditions conforming to the definition of a retail yard as set forth in section 16 (f) may apply to the Office of Price Administration, Building Materials Price Branch, Washington 25, D. C., for approval to continue the operations of its retail yard department and to use the mark-ups for retail yards in this regulation.

Pending written approval, sales may not be made at the maximum prices per-

mitted to retail distribution yards under this regulation.

Any wholesale yard which prior to July 13, 1945 has received written approval of the Office of Price Administration classifying its retail department as a retail distribution yard, may continue to use the mark-ups for retail distribution yards without further application.

(d) Where a distribution yard in the years 1941 and 1942 operated in conjunction with a mill producing hardwood flooring at or adjacent to the yard property and customarily sold through its yard flooring produced by its mill, it may apply to the Building Materials Price Branch of the Office of Price Administration, Washington 25, D. C., for permission to sell through the distribution yard hardwood flooring produced by the mill. Pending written approval sales of hardwood flooring may not be made at the maximum prices permitted by this regulation.

(e) The Price Administrator may approve or disapprove applications under this section in whole or in part, subject to restrictions and limitations to prevent violations of this and the several lumber regulations and to effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

This Amendment shall become effective July 18, 1945.

Issued this 13th day of July 1945.

The War Food Administrator having submitted certain information and recommendations to me on June 29, 1945 with reference to a program for the payment of subsidies in 1945 on surplus peaches, I hereby find that the policy established by Executive Orders 9250 and 9328 will be effectuated by the payment of a subsidy to equalize, to the extent necessary, the excess cost incurred by processors through the shipment of peaches from areas of surplus production to areas in which unused processing facilities exist.

The Secretary of Agriculture is, therefore, hereby authorized to absorb, by the use of Commodity Credit Corporation funds, the aforesaid excess cost incurred by processors through the shipment of peaches from areas of surplus production to the areas in which unused processing facilities exist.

The Secretary of Agriculture having submitted certain information and recommendations to me on July 6, 1945, with reference to the initiation of a subsidy program with respect to certain dry edible beans for which the support prices exceed the applicable Office of

Price Administration maximum prices, it is hereby found and determined that the policy established by Executive Orders 9250 and 9328 will be effectuated by such a program.

Pursuant to sections 4 (b) and 18 (a) of the Contract Settlement Act of 1944, the following procedures concerning records in connection with termination settlements and interim financing are prescribed.

Sec.

8076.1 Records to be prepared and retained.

8076.2 Period of retention.

8076.3 Records to be transmitted to General Accounting Office.

AUTHORITY: §§ 8076.1 to 8076.3, inclusive, issued under 58 Stat. 649.

§ 8076.1 Records to be prepared and retained. For the purpose of substantiating termination settlements, to facilitate review, and to prevent and detect fraud,

(a) The contracting agency making the settlement shall prepare and retain:

(1) A short report, upon the conclusion of any settlement by agreement, other than a settlement without cost to the Government, indicating the major considerations which led to the conclusion that the amount provided for in the settlement agreement was fair and reasonable.

(2) Any other records which the contracting agency deems necessary in a particular case.

(b) The contracting agency making the settlement shall also retain in its files, in convenient and readily accessible form, the records and information listed below, to the extent applicable in a particular case. Insofar as any such records and information relate to subcontract settlements not made directly

by the contracting agency, they are intended to be included only if they originated in the contracting agency or were obtained and reviewed by it in connection with the settlement made by it.

(1) The contract settled by the contracting agency, partial and final settlement agreements, and any other supplemental agreements material to the termination settlement.

(2) Notices of termination, and termination instructions.

(3) Settlement proposals submitted to the contracting agency in connection with the settlement, including all supporting statements, schedules and certificates.

(4) Records of partial payments, guarantees of loans, or other interim financing, including applications in support thereof.

(6) Records of disposal of termination inventory, and of any credits arising therefrom; storage agreements.

(9) Any final reports, reviews or written recommendations of legal, accounting, property disposition and other technical personnel with respect to the settlement or the negotiation thereof.

(10) Delegations of authority by the contracting officer to any representative with respect to the settlement; revocations thereof.

(11) Any other records which the contracting agency deems necessary in a particular case.

Where any of this information is included in the Standard Settlement Proposal Forms filed by the contractor, or in other retained records, separate records of such information are not required. Unnecessarily voluminous files should not be accumulated, particularly in the case of small settlements. Where the original record is not available, a copy should be retained.

§ 8076.2 Period of retention. (a) Such records will be retained for at least (1) five years after final settlement of the terminated contract, or (2) five years after disposition by the contracting agency of termination inventory relating to such contract, or (3) five years after termination of hostilities in the present war, as proclaimed by the President or by a concurrent resolution of the two Houses of Congress, whichever applicable period is longer.

(b) The standards for retention and disposition of Government records are governed by the provisions of laws other than the Contract Settlement Act. Nothing herein shall be construed as authorizing the destruction of any records which are required to be preserved or retained under other provisions of law, or as affecting any other provisions of law or of regulations of any contracting

Nothing herein shall affect any privilege conferred by law or regulation of any competent authority to dispose of records upon substitution of photographs or microphotographs made in accordance with applicable standards.

§ 8076.3 Records to be transmitted to General Accounting Office. In connection with any termination settlement made by it, each contracting agency the accounts of which are settled in the General Accounting Office shall transmit through appropriate channels to the General Accounting Office an executed copy of the settlement agreement, or in the case of a determination of the amount due without agreement a copy of the determination or a certificate of the amount thereof, and vouchers covering payment of any amounts under the agreement or determination.

INTERNATIONAL UTILITIES CORP., ET AL.

NOTICE OF FILING OF AMENDMENTS, ORDER
PERMITTING WITHDRAWAL OF FILING, AND
NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 12th day of July, A. D. 1945.

In the matters of International Utilities Corporation, General Water Gas & Electric Company, Rockland Light and Power Company, File No. 70-952, International Utilities Corporation, et al., File No. 31-84.

Applications and declarations have heretofore been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by International Utilities Corporation ("International"), General Water Gas & Electric Company ("General Water"), and Rockland Light and Power Company ("Rockland Light") regarding the sale of General Water's interest, consisting of all the outstanding common stock, in its subsidiary, Rockland Gas Company, Inc. ("Rockland Gas"), and the acquisition of said common stock by Rockland Light. Rockland Light has requested permission to withdraw its application stating that the Public Service Commission of New York has denied its application to that regulatory body regarding the proposed acquisition of Rockland Gas.

Notice is hereby given that International and General Water have filed amendments to their pending applications and declarations regarding the sale of General Water's interest in Rockland Gas together with other proposed transactions.

All interested persons are referred to said amendments, which are on file in the office of the Commission, for a statement of the transactions now proposed, which may be summarized as follows:

General Water proposes to cause Rockland Gas to reclassify its authorized common stock from 7,500 shares, without par value, of which 6,100 shares are presently issued and outstanding, to 37,500 shares, without par value, of which 30,500 shares will be issued and outstanding upon such reclassification.

General Water further proposes to sell to Butcher and Sherrerd of Philadelphia, Pennsylvania, as underwriters, all the outstanding common stock of Rockland Gas as reclassified, namely 30,500 shares, for a base price of \$24 per share or an aggregate price of \$732,000. Butcher and Sherrerd have stated that they contemplate offering said shares of common stock to the public at not more than \$26 per share, but have agreed that if all or any part of said shares are sold by them at more than \$26 per share, such additional amount shall be payable to General Water. General Water states that its assets, after consummation of the proposed transactions, will consist substantially in their entirety of cash.

International proposes to donate to General Water its holdings of 4,255 shares of the \$3 preferred stock, without par value, of General Water (being all of such preferred stock now outstanding) for cancellation. Following such donation, and concurrently with consummation of the proposed reclassification and sale of the common stock of Rockland Gas, General Water proposes to invite tenders from the holders of the common stock of General Water, other than International, at a price equal to the book value of such common stock based upon a balance sheet giving effect to the final price realized by General Water upon the sale of its investment in Rockland Gas, with due allowance for all liabilities of General Water, known or estimated at the date of such balance sheet.

It appearing that the Commission has heretofore consolidated the proceedings herein (Holding Company Act Release No. 5722) and that a public hearing has been held with respect thereto and continued subject to the call of the trial examiner; and

It further appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that the hearing continued as aforesaid be reconvened with respect to the applications and declarations as amended of International and General Water and that said applications and declarations as amended shall not be granted or permitted to become effective except pursuant to further order of this Commission;

It is ordered. That said hearing be reconvened on July 26, 1945, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On that date, the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held. Any person desiring to be heard in the pro-

ceedings should file with the Commission on or before July 23, 1945, his application therefor, as provided in Rule XVII of the Commission's Rules of Practice.

It is further ordered. That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing. The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered. That without limiting the scope of the issues presented by said applications and declarations as amended particular attention will be directed at the hearing to the following matters and questions:

1. Whether the terms of the proposed sale, including the consideration to be received by General Water, the compensation to underwriters and any other remunerations to be paid, directly or indirectly, in connection with the proposed transactions, are reasonable;

2. Whether, in connection with the proposed sale, there has been maintenance of competitive conditions;

3. Whether the proposed donation by International and the proposed invitation for tenders by General Water are fair and equitable to the persons affected thereby and satisfy the applicable requirements of the act;

4. Whether the accounting entries to be made in connection with the proposed transactions are proper;

5. Whether it is necessary or appropriate to impose terms and conditions in the public interest or for the protection of investors or consumers, if so, what terms and conditions should be imposed;

6. Whether the proposed transactions comply with all the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder.

It is further ordered. That notice of said hearing is hereby given to International Utilities Corporation, General Water Gas & Electric Company and all interested persons, said notice to be given to International Utilities Corporation, General Water Gas & Electric Company, and to the Public Service Commission of New York by registered mail and to all other persons by publication of this notice and order in the FEDERAL REGISTER and by a general release of the Commission distributed to the press and mailed to the persons on our mailing list for releases under the Public Utility Holding Company Act of 1935.

It is further ordered. That Rockland Light and Power Company be, and hereby is, permitted to withdraw its pending application herein.

By the Commission.

MONONGAHELA POWER CO. ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 11th day of July A. D. 1945.

In the matter of Monongahela Power Company, The West Penn Electric Company, American Water Works and Electric Company, Incorporated, File No. 70-1105.

Notice is hereby given that Monongahela Power Company ("Monongahela"), formerly known as Monongahela West Penn Public Service Company, The West Penn Electric Company ("Electric"), and American Water Works and Electric Company, Incorporated ("American") have filed a joint application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935. American and Electric are registered holding companies. Electric is a subsidiary of American. Monongahela, a public utility company and an exempt holding company, is a subsidiary of American and Electric, and of West Penn Power Company and West Penn Railways Company, registered holding companies and subsidiaries of American and Electric.

All interested persons are referred to said document, which is on file in the offices of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Monongahela proposes a general refinancing program for the redemption and retirement of its 4½% First Mortgage Bonds, due 1960 (outstanding in the aggregate principal amount of \$22,000,000), 6% Debentures, due 1956 (outstanding in

the aggregate principal amount of \$7,500,000), and 7% preferred stock (outstanding in the aggregate par value of \$7,297,550 in the form of 291,902 shares, par value \$25 per share). Electric holds 23,376 shares of this preferred stock and American holds 574 shares of said stock. None of the other securities to be redeemed are held by American or subsidiaries of American. Monongahela proposes to redeem its publicly held securities at redemption prices, including premiums of 5% on the bonds, 10% on the debentures, and \$3.75 per share on the preferred stock.

It is proposed that Monongahela obtain the funds to effectuate the redemption of the above described securities by the issue and sale at competitive bidding, pursuant to the requirements of Rule U-50, of \$22,000,000 principal amount of 30-Year Bonds and 90,000 shares of preferred stock having a par value of \$100 per share (the interest rate on the bonds and the dividend rate on the preferred stock as well as the prices to Monongahela for these securities to be determined at competitive bidding); by the issuance and sale to certain unspecified banks of 2% 10-Year Serial Notes in the aggregate face amount of \$4,000,000; and by the issuance and sale at the rate of \$15 per share of 82,500 shares of additional common stock, having a par value of \$6.50 per share, to Electric.

By the terms of the filing, American will receive only the par value of its preferred stock holdings in Monongahela and Electric in acquiring the above described common stock will pay cash to the extent of \$653,100 and exchange its holdings of preferred stock of Monongahela for their aggregate par value, namely \$584,400.

The filing has designated sections 6, 7, 9, 10, 12 (c) and 12 (d) of the act and Rules U-42, U-43, U-44, and U-50 as being applicable to the proposed transactions. It is stated in the filing that the serial notes and additional common stock proposed to be issued by Monongahela are exempt from the competitive bidding requirements of Rule U-50.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that the application-declaration may not be granted or permitted to become effective except pursuant to further order of this Commission:

It is ordered, That a hearing on these matters under the applicable sections of the act and rules of the Commission promulgated thereunder be held at 10:00 a. m., e. w. t., on the 23d day of July, 1945, at the offices of this Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On that day, the hearing room clerk in Room 318 will advise as to the room in which said hearing is to be held. Any person desiring leave to be heard in the proceeding should file with the Secretary of the Commission on or before July 21, 1945, his request or application therefor as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Henry C. Lank, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in these matters. The officer designated to preside at said hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That notice of said hearing is hereby given to Monongahela, Electric and American and all interested persons, said notice to be given to Monongahela, Electric and American by registered mail and to all other persons by publication of this notice and order in the FEDERAL REGISTER and by a general release of the Commission distributed to the press and mailed to the persons on our mailing list for releases under the Public Utility Holding Company Act of 1935.

It is further ordered, That, without limiting the scope of the issues presented by such filing, particular attention be directed at said hearing to the following matters and questions:

1. Whether the securities proposed to be issued and sold by Monongahela are reasonably adapted to the earning power of Monongahela and to the security structure of Monongahela and other companies in the American holding company system, and whether financing by the issue and sale of such securities in the respective amounts proposed is necessary or appropriate to the economical and efficient operation of the businesses in which Monongahela is engaged;

2. Whether the proposed acquisition by Electric of shares of the common stock of Monongahela will serve the public interest by tending towards the economical and efficient development of an integrated public utility system, and whether said proposed acquisition will be detrimental to the carrying out of the provisions of section 11, or will unduly complicate the capital structure of the American holding company system;

3. Whether the terms and conditions of the proposed transactions between Monongahela and affiliated companies including the considerations to be paid and received are detrimental to the public interest or to the interest of investors or consumers;

4. Whether the accounting entries to be made in connection with the proposed transactions are proper;

5. Whether the fees, commissions, or other remunerations to be paid directly or indirectly in connection with the proposed transactions are reasonable;

6. Generally, whether the proposed transactions comply with all the applicable provisions and requirements of the Act and rules and regulations promulgated thereunder and whether it is necessary or appropriate in the public interest or for the protection of investors and consumers or to prevent the circumvention of any provisions of the act or rules, regulations or orders thereunder to impose terms and conditions in connection with any of the proposed transactions.

[Region II Order G-64 Under RMPR 122
and MPR 120]

SOLID FUELS IN ALLEGHENY COUNTY, PA.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, and under § 1340.209 of Maximum Price Regulation No. 120, it is ordered:

(a) *What this order does*—(1) *Maximum prices; area covered.* If you are a dealer, or producer of bituminous coal making "direct-delivery" sales at retail, this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of bituminous coal, delivered to or at any point in Commonwealth of Pennsylvania—Coal Area XII. That area consists of all of Allegheny County in the Commonwealth of Pennsylvania.

(2) *Schedules of prices and charges.* The applicable prices and authorized charges from which you shall determine the maximum prices for designated kinds, sizes and quantities of bituminous coal delivered within Allegheny County are set forth in Schedule I hereafter.

(3) *To what sales this order applies.* If you are a dealer, or producer of bituminous coal, making "direct-delivery" sales at retail, you are bound by the prices and charges, and by all other provisions of this order for all deliveries within Allegheny County, whether or not you are located in Allegheny County. If you are a dealer making "yard sales", you are likewise bound by all provisions

of this order for all such sales within Allegheny County.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy bituminous coal of the kinds, sizes, and in the quantities set forth in the schedule herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, if any, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government, or

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum prices as follows:

(1) Refer to Schedule I which contains separate tables of prices for "direct-delivery" sales and "yard sales" of bituminous coal. You will find Schedule I in paragraph (d).

(2) Take the dollars-and-cents figure given in the applicable table of the schedule, for the kind, size and quantity of bituminous coal you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified herein. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in the schedule.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain kinds, sizes and quantities of bituminous coal, delivered to or at any point within Area XII. There is a sep-

arate table of prices for "direct-delivery" sales and "yard sales".

(1) *Sales on a "direct-delivery" basis by dealers and bituminous coal producers—for sales of underground mine bituminous coal from District 2, of the kinds and sizes, and in the quantities specified:*

Kind and size of coal	Per net ton

(3) *Addition for oil or chemical treatment of bituminous coal.* Notwithstanding other provisions of this order, if you are a dealer charged a price for oil or chemical treatment of bituminous coal, or if you are a producer authorized to make a charge for oil or chemical treatment under Maximum Price Regulation No. 120, you may, on sales of such treated coal, add to the maximum prices set by this order, the treatment charge made by your supplier, or, if you are a producer, your authorized treatment charge: *Provided*, That this charge does not exceed 10¢ per net ton. This treatment charge may be added only if the treated coal is kept separate and not mixed with other untreated coal. You must state the treatment charge separately from all other items on your invoice.

e. *Commingling.* If one size or kind of bituminous coal is sold commingled with another size or kind of bituminous coal, the maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes or for the least expensive kind so commingled, whichever is lower, except in the following situation: Where a purchaser requests that two or more sizes or kinds of bituminous coal be commingled in one delivery, then, and in that event, if these sizes and kinds are separately weighed at the point of loading, the dealer may commingle those sizes and kinds in the truck or other vehicle, in which the delivery is made. The price for solid fuel so commingled shall be calculated on the basis of the applicable per net ton price for each size and kind in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size and kind in the combination.

(f) *Ex Parte 148 freight rate increase.* Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any schedule price on account of freight rates.

(g) *Addition of increase in producer's or supplier's maximum price prohibited.* The specific maximum prices established by this order already reflect increases in maximum prices of bituminous coal producers affected and, in the case of dealers, in their supplier's maximum prices, which occurred up to the effective date of this order. You may not increase the specific maximum prices established by

this order to reflect, in whole or in part, any subsequent increases in your maximum mine price, if you are a bituminous coal producer, nor in your supplier's maximum prices, if you are a dealer. The Regional Administrator will, if he deems it to be warranted, take appropriate action to amend this order to reflect such subsequent increases that may occur.

(h) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or any amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, or to the Commonwealth of Pennsylvania or any political subdivision thereof, you need not state this tax separately.

(i) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the bituminous coal has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(j) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(k) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(l) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(m) *Records.* If you are a dealer or producer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of bituminous coal hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(n) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer or producer subject to this order, you shall post all your maximum prices (as set forth in Schedule I of this order) in

your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer or producer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of solid fuel sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser.

(c) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Pittsburgh District Office of the Office of Price Administration, or with the Price Panel of the appropriate War Price and Rationing Board.

(p) *Definitions and explanations.* When used in this Order No. G-64, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representatives of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political sub-divisions, or any agency of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase" and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling coal of the kinds and sizes set forth in the schedules herein, and does not include a producer or distributor making sales at or from a mine, a preparation plant operated as an adjunct of any mine, or a briquette plant.

(4) "Bituminous coal producer" means a person engaged in the business of mining bituminous coal or preparing bituminous coal at a preparation plant which is an adjunct of a mine or mines, and any person acting as agent of a producer in the sale of bituminous coal.

(5) "Direct delivery" means delivery to buyer's bin or other storage space designated by buyer.

(6) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car, or at a place of business of the seller other than at seller's truck or vehicle.

(7) "Shoveling" refers to housing of solid fuel by dumping it near the consumer's coal window, at the curb or on the sidewalk or driveway, and manually

shoveling it through the window into the bin or storage space.

(8) "Wheeling" refers to housing of solid fuel by dumping it at the curb or on the sidewalk or driveway, shoveling it into wheelbarrow, and then wheeling it into the bin or storage space, or wheeling it to the coal window and dumping or shoveling through the window into the bin or storage space.

(9) "Carrying" refers to housing of solid fuel by dumping it at the curb, or on the sidewalk or driveway, as near as possible to the consumer's coal window but at a distance and on a level which will not permit "chuting", "shoveling", or "wheeling", then shoveling it into baskets and carrying (including carrying up steps) to and dumping into the bin or storage space, usually through consumer's coal window.

(10) "Single chute" refers to housing of solid fuel by placing a single chute on the side of the truck, extending it into the coal window, then manually shoveling the fuel from the bed of the truck into the chute through which it is moved or moves, largely by gravity, into the bin or storage space. (This service is not to be confused with "dumping by way of chute". There the truck is backed up to the coal window, a chute is fastened to a door in the end-gate of the truck and extended through the coal window, the front body of the truck is mechanically raised, and the fuel is kept manually flowing through the chute and into the bin or storage space.)

(11) "Double chute" or "multiple chute" refers to housing of solid fuel in the same manner as by "single chute" except that two or more chutes are attached together for the purpose. The solid fuel is shoveled from the bed of the truck into the chutes and forced through the chutes into the bin or storage space.

(12) "District No." refers to the geographical coal-producing districts as defined in the Bituminous Coal Act of 1937, as amended, and as they have been modified as of midnight, August 23, 1943.

(13) All designations in this order of sizes, classifications, etc., applicable to bituminous coal, refer to the sizes, classifications, etc., as set forth in the minimum price schedules for the various producing districts issued by the Bituminous Coal Division of the United States Department of Interior, as in effect midnight, August 23, 1943.

(14) "Underground mine coal" means coal that is taken entirely from underground seams from which the overburden is not removed, and does not include coal from a mine which takes coal from the ground by the stripping method, except that, for purposes of this order, underground mine coal shall include coal from strip mines that has been especially prepared and for which the producer has been authorized to charge the maximum prices for underground mine coal.

(15) Except as otherwise provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to terms used herein.

(q) *Effect of order on Revised Maximum Price Regulation No. 122 and Maximum Price Regulation No. 120.* To the extent applicable, this order supersedes Revised Maximum Price Regulation No. 122 and Maximum Price Regulation No. 120.

NOTE: The record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G-64 shall become effective June 18, 1945.

(56 Stat. 23, 765, 57 Stat. 566, Pub. Law 383, 78th Cong. E.O. 9250, 7 F.R. 7871, E.O. 9328, 8. F. R. 4681)

Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set out by this order provided the dealer states it separately from the price of the fuel and lists it separately on any sales slip or receipt given the buyer. This tax need not be stated separately on sales to the United States or any agency thereof, the State government or any political subdivision thereof (see § 1340.265 (b) of Revised Maximum Price Regulation No. 122). No part of this tax may be collected in addition to maximum prices on sales of 1/4 ton or lesser quantities.

(2) *The Kansas State sales tax*. The seller may add to the prices listed in the schedule in section (c) the sales tax required to be collected by the laws of the State of Kansas. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

3. Section (j) is amended to read as follows:

(j) *Sales slips and receipts, records*. (1) Every person selling solid fuels subject to this order shall, either at the time of, or within thirty days after the date of a sale or delivery of solid fuels governed by this order, give to his purchaser an invoice, sales slip or receipt, and shall keep an exact copy thereof for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, showing the following information: the name and address of the seller and the purchaser, the kind, size and quantity of the solid fuels sold, the date of the sale or delivery, and the price charged. In addition, he shall separately state on each such invoice, sales slip or receipt, the amount, if any, of

the required discounts, authorized service charges, and taxes which must be deducted from or which may be added to the established maximum prices: *Provided*, That a dealer who is authorized to make a special service charge for chemical or oil treatment of coal need not separately state the amount of such service charge if he clearly indicates on the invoice that such coal is so treated: *And further provided*, That provisions of this section shall not apply to sales of solid fuels in less than quarter ton lots unless requested by the purchaser.

4. Section (m) is amended to read as follows:

(m) *Definitions and explanations*. (1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political sub-divisions or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "buy", "purchase", and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct of any mine, a coke oven or a briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but if this is unfeasible, because of the absence of a regular driveway free from all foreign matter which might damage trucks and tires, then direct delivery means discharging the solid fuel from the seller's truck directly at the

street curb or at the point nearest and most accessible to the buyer's bin or storage space.

(5) "Production group" or "production groups", as used in this Order, refer to the production groups established by the former Bituminous Coal Division pursuant to the Bituminous Coal Act of 1937, as amended, and as in effect at midnight, August 23, 1943.

(6) "Price groups", as used in this Order refers to the price groups established by the former Bituminous Coal Division pursuant to the Bituminous Coal Act of 1937, as amended, and as in effect at midnight, August 23, 1943.

(7) "District No." refers to the geographical bituminous coal producing districts as delineated and numbered by the Bituminous Coal Act of 1937, as amended, as they have been modified by the Bituminous Coal Division and as in effect at midnight, August 23, 1943.

(8) "High volatile bituminous coal" means coal produced in the high volatile sections of the producing districts specified in this order.

(9) "Low volatile bituminous coal" means coal produced in the low volatile sections of the producing districts specified in this order.

(10) "Solid fuel" (or "solid fuels") means all solid fuel except wood and wood products, including all kinds of anthracite and semi-anthracite; bituminous and semi-bituminous and cannel coal; lignite; all coke, including low temperature coke (except by-product foundry and blast furnace coke, and beehive oven furnace coke produced in the State of Pennsylvania); briquettes made from coke or coal; and sea coal used for foundry facings.

(11) "Egg, nut," etc., sizes of bituminous coal refer to the sizes of such coal as defined in the Bituminous Coal Act of 1937, as amended, and as prepared at the mine in accordance with the applicable minimum price schedule promulgated by the Bituminous Coal Division of the United States Department of the Interior, and in effect (or established) as of midnight, August 23, 1943.

Where the minimum price schedules do not make specific mention of any size designated in this order, such size designations shall refer to the sizes of bituminous coal sold as such in the area subject to this order during December 1941.

(12) "Machine-cut coal" is coal produced from an underground mine which is cut mechanically by the use of a "cutting machine" before the coal is dislodged for loading either by hand or by mechanical means.

(13) "Deep mine" or "underground mine" means a mine from which the coal is taken only from underground seams from which the overburden is not removed, and does not include a mine from which coal is taken by the stripping method.

(14) A "strip mine" means a mine producing coal by the stripping method and taking its entire production from the ground after removing all overburden.

(15) "Arkansas anthracite," as used in this order, is coal whose analysis and

non-coking characteristics are similar to anthracite produced in the Pennsylvania fields.

(16) Except as otherwise specifically provided herein, or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Maximum Price Regulation No. 122, as amended, shall apply to the terms used herein.

5. Supplementary Order No. 1 issued May 4, 1945, as amended, insofar as such Supplementary Order and Amendment affect Order No. G-3, is hereby revoked.

(56 Stat. 23, 765, 57 Stat. 566, Pub. Law 151, 78th Cong. E.O. 9250, 7 F.R. 7871, E.O. 9328, 8 F.R. 4681)

Issued at Dallas, Texas, and effective this 5th day of July 1945.
