PART 984—LEAD

[General Preference Order M-38, as Amended
Dec. 19, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of lead for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 984.1 *General Preference Order M-38—(a) Scope of the order.* This order controls generally the use of lead and lead products. Lead and lead products may be used only for the items and purposes set forth in the order. Other restrictions may also be found in other orders of the Civilian Production Administration relating to particular articles or

parts. In such case the more restrictive provision governs. In no case shall any person use, purchase, sell, deliver or accept delivery of any lead in violation of this order.

(b) *Definitions.* For the purpose of this order:

(1) "Lead" means metallic lead, including any alloy containing 50% or more by weight of metallic lead. It includes soft and antimonial lead produced from foreign or domestic ores, scrap, drosses, or other lead bearing material, as well as scrap lead and alloys in which the lead content is 50% or more by weight.

(2) "Lead product" means lead in the form of sheet, pipe, ingot, castings, and foil.

(3) "Refiner" means any person who produces lead in refinery shapes, and includes any person who has such lead produced for him under toll agreement.

(4) "Dealer" means any person who procures lead either by importing or from domestic sources for sale or resale without change in form, whether or not such person receives title to or physical delivery of the material, and includes selling agents, warehousemen, and brokers.

(5) "Military order" means a specific contract or sub-contract necessitating the use of lead or lead products in the manufacture of any product, or any component to be physically incorporated into such products, produced for or for the account of the Army or Navy of the United States, Maritime Commission, War Shipping Administration, Veterans' Administration or Office of Scientific Research and Development.

(6) "Implement of war" means combat end products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(7) "Use" means to melt, form or alloy lead for introduction into an end product or a component thereof.

(8) "Item" means any article or component thereof.

(c) *Restrictions on use.* (1) No person shall use lead or lead products except for the items and purposes and subject to the qualifications set forth in List I of this order and then only to the extent necessary to meet applicable specifications or for the proper service performance of the end product or where the use of any less critical material is unpracticable or when satisfactory substitutes are prohibited in other Civilian Production Administration orders.

(2) No person shall use primary lead for any items or purpose set forth in List I if secondary lead is obtainable and usable for the item or purpose. "Primary lead" means lead obtained mainly from mine ores and concentrates. "Secondary lead" means lead obtained

mainly from remelting or smelting of scrap materials.

(d) *Special directions.* The Civilian Production Administration may at any time issue special directions to any person respecting the production, distribution, delivery, or acceptance of delivery of lead.

(e) *Lead from Office of Metals Reserve, Reconstruction Finance Corporation.* Any person unable to obtain pig lead from the regular sources of supply and wishing to procure pig lead from the Office of Metals Reserve, Reconstruction Finance Corporation must make application in writing to the Civilian Production Administration on Form WPB-95, not later than the 20th of the month preceding that of shipment.

(f) *Inventory restrictions.* No person shall knowingly deliver to any person and no person shall accept delivery of any quantity of pig lead if the total inventory of pig lead in the hands of the person accepting delivery is, or by virtue of the acceptance will become, in excess of his reasonable anticipated requirements for permissible uses in the next 45 days (except where a minimum carload quantity requested by Office of Defense Transportation exceeds these restrictions). The restrictions of this paragraph do not apply to a refiner, dealer, or scrap dealer.

(g) [Deleted May 1, 1945]

(h) *Restrictions on sales and deliveries of lead.* No person shall sell or deliver any lead to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(i) *Appeals.* Any appeal from the restrictions of this order must be by letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for the appeal and should be addressed to the Civilian Production Administration, Tin, Lead and Zinc Branch, Washington 25, D. C., reference M-38. The appeal should contain the following information:

(1) Product in which the lead will be used.

(2) Period of time, not exceeding one calendar quarter for which relief is requested.

(3) Monthly schedule of amount of lead to be used.

(4) Prime contract numbers on military orders.

(5) If the appeal is filed because the restrictions on use of lead will prevent the filling of non-military orders of extreme urgency, give exact information as to the use of the product in which the lead is used.

(6) Why other less critical materials cannot be used.

(7) Any other information pertinent to the appeal.

(j) [Deleted Oct. 3, 1945.]

TITLE 36—PARKS AND FORESTS

Chapter II—Forest Service

PART 231—GRAZING

OCCUPANCY, USE, PROTECTION, AND ADMINISTRATION OF NATIONAL FORESTS

Modification of Regulations G-1, G-2, G-3, G-4, G-5, and G-7 (§§ 231.1, 231.2, 231.3, 231.4, 231.5, and 231.7).

By virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat., 35, 16 U.S.C. 551), and the act of February 1, 1905 (33 Stat.

628, 16 U.S.C. 472), I Charles F. Brannan, Assistant Secretary of Agriculture, do hereby amend Regulations G-1, G-2, G-3, G-4, G-5, and G-7 of the rules and regulations governing the occupancy, use, protection, and administration of the National Forests, which constitute §§ 231.1, 231.2, 231.3, 231.4, 231.5, and 231.7, Chapter II, Title 36, Code of Federal Regulations, as follows:

Section 231.1 is amended to read as follows:

§ 231.1 *Grazing authorizations.* The Chief of the Forest Service is hereby authorized:

(a) To permit the grazing of such numbers and kinds of livestock upon the National Forests or additions thereto as in his judgment is in the public interest.

(b) To refuse renewals of grazing permits in whole or in part where, in his judgment, continued grazing is not in the public interest.

(c) To prescribe the conditions and requirements under which permits will be issued or terminated.

Paragraph (a) of § 231.2 is amended to read as follows:

(a) Under the general direction of the Chief of the Forest Service, the Forests will be divided into range allotments, the kind and number of livestock to be grazed in each allotment determined, grazing periods established, the entrance of livestock regulated, range allocated among permittees, and efficient methods of range use developed and applied with the intent of obtaining the most equitable and profitable utilization of the forage consistent with its sustained productivity and with the protection of the Forest and other related interests.

Paragraph (a) of § 231.3 is amended by inserting a period after "years" in the second sentence and striking the remainder of the paragraph.

Paragraph (b) (3) of § 231.3 is amended to read as follows:

(3) Persons conducting permitted operations on a National Forest for not to exceed ten head of livestock actually needed and used in connection with such operations.

Section 231.4 is amended to read as follows:

§ 231.4 *Limits and preferences.* For the purpose of equitable distribution of grazing privileges, the prevention of monopoly in the use of national-forest ranges, and contributing to the stabilization of the livestock industry, the Chief of the Forest Service shall provide for the establishment for each National Forest or portion thereof, of lower and upper limits in numbers of livestock. He shall also provide for the recognition and waiver of preferences, renewal of permits, approval of nonuse, and admission of new applicants to an extent consistent with the objects of the grazing regulations.

The lower limit will define the number of livestock beyond which a grazing preference will not be allowed to accrue by grant, except when surplus range is available.

The upper limit will define the number of livestock up to which grazing preferences may be consolidated through purchase of base property or permitted livestock or both.

Any grazing preference may be reduced for range protection at any time in any amount justified by range conditions.

No grazing preference for less than the lower limit will be reduced for wider distribution of grazing privileges.

No grazing preferences between the lower and upper limit will be reduced for wider distribution of grazing privileges except in connection with sale or transfer of base property or permitted livestock or both.

The Chief of the Forest Service may authorize the Regional Forester in special cases to suspend the upper-limit restriction against consolidation.

Persons who are full citizens of the United States shall be given preference in the use of national-forest ranges over other persons.

A grazing preference is not a property right. Preferences in the use of national-forest ranges are approved for the exclusive use and benefit of the persons to whom allowed.

Subject to the upper-limit restrictions and the protection and management needs of the range, a purchaser of either the permitted livestock or the base property of a permittee with an established grazing preference may be allowed renewal of preference in whole or in part, provided the purchaser of livestock only actually owns commensurate ranch property and the person from whom the purchase is made waives his preference to the Government.

Approval of grazing preference on account of purchase of base property or permitted livestock from a permittee who has used the range under temporary permit less than five consecutive years will not be allowed.

Before a grazing preference is renewed on the basis of a waiver, satisfactory evidence must be submitted that the sale of base property or permitted livestock, or both, is bona fide.

Persons who have waived any part of a previously established grazing preference will not be recognized as grantee applicants or granted any increases where such action would (a) necessitate reduction in any established grazing preference; (b) prevent increase in any preference where the holder owns less than the lower-limit number of livestock; or (c) prevent the admission of new applicants.

Section 231.5 is amended so that the next to the last paragraph reads as follows:

All grazing fees are payable in advance of the opening date of the grazing period unless otherwise authorized by the Chief of the Forest Service. Crossing fees are payable in advance of entering the National Forest. Failure to comply with the provisions of this regulation will be sufficient cause for denying a grazing or crossing permit.

Section 231.7 is amended to read as follows:

¹ 10 FR. 12812, 14028, 14865.

§ 231.7 *Cooperation with stockmen.* In order to obtain a collective expression of the views and recommendations of national-forest range users concerning the management and administration of national-forest range lands, the Chief of the Forest Service shall provide for the recognition of and cooperation with local, State, and National livestock associations; also for recognition of and cooperation with permittee advisory boards elected by the range users of a subdivision of a National Forest, an entire National Forest, or a group of National Forests. When more than one kind of livestock is permitted to graze on a unit, an advisory board may represent the owners of each kind of livestock or one advisory board may represent all range users.

The recognition of livestock associations and permittee advisory boards shall be under the provisions of § 211.1 of this chapter (Regulation A-9); *Provided*, That all advisory boards shall be elected by the permittees whom they represent.

Boards representing a subdivision of a National Forest shall consist of not less than three members. Boards representing an entire National Forest or a larger unit shall consist of not less than five members. When satisfactory with the range users, other organizations or groups using resources of the National Forests may designate a representative to serve on livestock advisory boards.

Suggestions and recommendations of advisory boards, which will meet upon call of the chairman of the board or upon call of the local Forest officer, will be obtained and carefully considered upon current grazing programs and upon policy changes well in advance of their adoption by the Forest Service. Advisory boards also will be given the opportunity to review any matters affecting the interests of one or more users of national-forest range upon request of the individual or individuals affected.

Duly recognized permittee advisory boards may consider grazing complaints and appeals and make recommendations thereon; *Provided*, That in appeal cases the procedure under § 211.2 of this chapter (Regulation A-10) may be followed if preferred by the appellant.

Associations or advisory boards representing a majority of permittees of a National Forest, or a subdivision thereof, may pass special rules designed to obtain economy of operation, improved grades of livestock, larger natural increases, and similar improved practices which, when approved by the designated Forest officer, will be binding upon all permittees using the range for which the rule has been approved. Failure on the part of a permittee to comply with an approved special rule may be considered sufficient cause to deny his permit or revoke his preference in whole or in part.

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the City of Washington, this 19th day of December 1945.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 13 and 14 of Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* The Coleman Company, Inc., 250 N. St. Francis Street, Wichita 1, Kansas, may increase by no more than 21 per cent, its ceiling prices to each class of purchaser for camp, cabin and trailer cook stoves of its manufacture.

(b) *Ceiling prices of purchasers for resale.* Purchasers for resale of such articles which the manufacturer has sold at the adjusted maximum prices permitted by paragraph (a) above, shall determine their maximum prices as follows:

Ceiling prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March, 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. FLUID MILK IN NEW HAMPSHIRE

For the reasons set forth in an opinion issued simultaneously herewith, which has been filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by § 1351.408 of Maximum Price Regulation 329, Region I Order No. G-19 under § 1499.75 (a) (9) of Supplementary Regulation 15 to the General Maximum Price Regulation, Section 1351.807 of Maximum Price Regulation 280 and § 1351.408 of Maximum Price Regulation 329 is hereby amended in the following respects:

1. Paragraph (c) is amended to read as follows:

(c) *Differentials*—(1) *Wholesale and retail*. Except in the case of those differentials or special prices which are specifically set forth in paragraph (b) of this order, each seller may add to or

must subtract from (as the case may be) the maximum prices for standard milk established by this Order all customary differentials (including, but not limited to, flavored milk, trade-marked milk and milk of specially high or low butterfat content) which he had in effect during the "base period". The base periods for determining all such differentials shall be:

(i) For sales of fluid milk which, but for this order, would be subject to the General Maximum Price Regulation, the month of March 1942.

(ii) For sales of fluid milk which, but for this order, would be subject to Maximum Price Regulation 280, the period September 28, 1942 to October 2, 1942, both inclusive.

(2) *Purchases from producers*—(i) *Butterfat differentials*. Payments of differentials for butterfat content varying from 3.7% may be added to and must be subtracted from (as the case may be) the maximum prices for purchases from producers on the basis of the calculation of the Federal Milk Market Administrator for the Greater Boston Marketing Area as announced from time to time by the New Hampshire Milk Control Board, except as may otherwise be specifically provided in this Order.

(ii) *Other differentials*. Each purchaser from a producer may add to or must subtract from (as the case may be) the maximum prices for standard milk established by this Order all other customary differentials (including, but not limited to, those for Grade A and trade-marked milk) which he had in effect during January, 1943.

(iii) *Approval of differentials for Grade A milk*. Any purchaser from a producer, who, during January, 1943, did not buy Grade A milk from any producer or did not pay a differential for Grade A milk to any producer, may apply to the District Director of the New Hampshire District Office of the Office of Price Administration for permission to pay a differential not to exceed the differential for Grade A milk which was generally in effect during January, 1943, in the same or a similar marketing area in New Hampshire, and said District Director may by order approve, disapprove, or revise the proposed differential. Any such application may be denied if, in the opinion of said District Director, any diversion of supplies may result or the purposes of the Emergency Price Control Act of 1942, as amended, will not be effectuated.

2. Subparagraph (12) is added to paragraph (1), which reads as follows:

(12) Amendment No. 12 shall become effective at 12:01 a. m. on December 19, 1945.

Issued this 18th day of December 1945.

Regional Administrator.

SOLID FUELS IN GARY, IND., AREA

(a) *Applicability.* This Appendix No. 21 applies to sales of solid fuels delivered within the city of Gary, Indiana, and the remainder of Calumet Township and the Town of East Gary, Indiana.

(b) *Price schedule.* Immediately below and as a part of this section (b) is a price schedule that sets forth maximum prices for delivered sales by dealers in lots of one (1) ton or more of specified kinds and sizes of solid fuels. Charges for treatment of coal are set forth in section (c). Discounts are set forth in section (d). Service charges are set forth in section (e). Definitions are set forth in section (f). Sales in lots of fractions of a ton or tons shall be governed by the price schedule as follows:

(i) On delivered sales of less than 1 ton, the price shall be proportional to the price per ton plus an additional charge of 25¢, but in no event shall the total price be in excess of that for a sale of 1 ton; for example, if the price of 1 ton is \$10.15, the price of ½ ton would be \$5.08 plus 25¢ or a total of \$5.33; the price of ¾ ton would be \$7.61 plus 25¢ or a total of \$7.86.

(ii) On delivered sales of more than 1 ton, for each fraction of a ton sold, the price shall be proportional to the price per ton; for example, if the price of 1

ton is \$13.70, the price of 1½ tons would be \$20.55.

The price schedule lists maximum prices for the sale of coal on the basis of the type of mine operation by means of which it is produced. On sales of coal produced in District Nos. 7, 8, and 11, the prices established are similar for the same kind and size of fuel regardless of the type of mine operation. On sales of coal from District No. 10 (Illinois), prices for coal described in paragraph IV, A, 1 to 4, inclusive, apply to coal produced by deep machine mines only. The prices of by-product coke and briquettes are unaffected by the type of mine operation.

NOTE: The maximum prices listed above in tables 1, 2, and 3 are based upon an insulation thickness of 4 inches. For each inch of insulation over 4 inches, when ordered by the purchaser, the seller may make the following additional charges: 1 1/2¢ per square foot for flat areas, 2¢ per square foot for vertical areas; and 2¢ per square foot for sealed slopes, while for each inch of thickness under 4 inches, the seller shall deduct 1¢ per square foot. A 3/4-inch tolerance may be allowed with respect to any such measurements.

The maximum prices listed above in tables 4 and 5 are based upon an insulation thickness of 3 inches and over. For each inch or fraction of an inch of thickness of batts and blankets under 3 inches, the seller shall deduct 1¢ per square foot.

Where a machine or crew of two or more workers is used on installed insulation jobs, and the total charge is determined in accordance with the maximum prices listed in the tables set forth above, is \$40 or less, the seller may make an additional charge of \$10 for the job.

(b) *Extra work for which charges may be made.* Maximum prices for certain extra work for which charges may be made are shown below in Categories (1) to (13), inclusive. The work described by these categories shall be subject to the maximum prices established thereby only when performed and sold by the seller of installed insulation. When such work is sold by other sellers, the maxi-

mum price shall be determined under Revised Maximum Price Regulation No. 251, or as fixed by any applicable area pricing order issued by the Regional Administrator of Region VII. When the work listed in Categories (1) to (13), inclusive, is performed by a subcontractor, but sold by a seller subject to this order, the seller's maximum price shall be the exact price charged by the subcontractor;

but in no event shall such charge be higher than the maximum price determined under RMPR No. 251; that is, the seller may in no event add any amount to the price charged him by the subcontractor.

Openings and closings. An extra charge may be made for openings and closings only in those cases where openings and closings are not specifically in-

cluded in the price applicable to categories (1) to (29), inclusive, set forth in subsection (a) of this section. The extra charges for openings and closings set forth in categories (1) to (5), inclusive, set forth below in this subsection (b) include payment for all labor and materials including that used for replacement of material where necessary.

(c) **Measurements.** It shall be the seller's responsibility to ascertain that all measurements are accurate. Measurements for exterior walls are to be taken over all, with no deduction for openings, except for sun porch walls, store fronts or similar areas where windows and door areas must be deducted. In the case of elevator wells, ventilators, skylights, monitors, and penthouses on flat roofs the entire such area must be deducted where they are more than 16 square feet in area and extend through the flat ceiling area to be insulated. For attic floors outside gross dimensions may be taken. In measuring the height of knee walls, to the height between floors, joists and rafters add one foot for floor seal piling of granulated insulation. For slopes add six inches to length of clear span for capping intersecting surfaces. For flat ceilings which intersect slopes add one foot to length of span taken at right angles to intersecting slopes. For stairwell walls measurement may be taken as a rectangle from floor to ceiling and not as triangles. In determining the total of the square foot area for each category of insulation installed a tolerance of 5 percent will be recognized.

(d) **Distant installations.** The maximum prices provided in paragraph (a) of this section shall apply to all installations made within 10 miles of the seller's nearest place of business. For installations at more distant points the follow-

ing additions may be made. Mileage shall be calculated to the nearest mile.

(iii) For installations distant 100 miles or more, 3¢ per square foot.

SEC. 10. Evasions. These allowances do not apply to imported fish nor do they apply in cases where you use the allowances in paragraph (a) (2) (ii). They may be used only if you meet all of the following conditions:

(i) The particular fish item being priced must have been landed and frozen in the United States.

(ii) The quantity of the item being priced that you have sold since September 30, 1945 (on the basis of summer ceilings and without any of the allowances specified below) must be at least equal to the total of your inventory of the item on that date plus your domestic purchases made on the basis of summer ceilings and your total imported purchases of the item since that date.

(iii) If you are a seller other than a processor, you must have received an invoice for the item setting out this allowance separately. (The allowance must be stated on the invoice pursuant to section 5.2 (c) of Maximum Price Regulation No. 579.)

(iv) You must deliver the item to the purchaser before April 1, 1946, if you are a processor, or before April 16, 1946 if you are a wholesaler.

(v) You must fully comply with the reporting requirements that are set forth immediately following the table of allowances.

"Summer ceilings" means the maximum prices established by this order for barracuda during the period April through August and for California halibut during April through September. "Winter ceilings" means the maximum prices established by this order for those items during all other periods, including the allowances set forth below.

TABLE OF WINTER ALLOWANCES

[Cents per pound]

	Barracuda	California halibut
Round.....	\$0.045	\$0.0275
Drawn.....	.0325	.0325
Dressed.....	.055	.04
Dressed collars off.....	.0625	.0475
Steaks.....	.075	.0525
Fillets.....	.095	.07

Reporting requirements. Before you may use any of the allowances specified above, you must have filed with the San Francisco Regional Office of the Office of Price Administration, 1355 Market Street, San Francisco, a statement of your inventory of the particular item on hand as of September 30, 1945, but only if your inventory of the item was over 1,000 pounds.

Thereafter, on or before the 10th day of each month, you must file with the San Francisco Regional Office of the Office of Price Administration a report showing the following:

Your inventory of the item at the end of the last day of the preceding month, beginning with November 1945:

The quantity of each item purchased or sold by you during the preceding month, stating separately purchases and sales on the basis of winter ceilings, summer ceilings, and purchases as imports. For each transaction involving more than 500 pounds of the item, the report must state the name and address of your supplier or purchaser, as the case may be, the price paid or charged and the location of the freezer or other place of business from which and to which delivery was made.

The reports mentioned above must be signed, dated, and contain the name and address of the person reporting. Where reports of inventories are called for, you must state the address of the places in which the inventories are stored and state separately the amount stored in each place. You need not file any report as to a particular item if your inventory of the item on which no winter allowance may be taken did not exceed 1,000 pounds at any time during the month which the report would otherwise cover. Note, however, that whether or not you must file a report, you may not take these allowances unless you meet all of the other requirements set forth in this subparagraph (3).

This amendment shall become effective December 1, 1945.

NOTE: The reporting and recording requirements of this amendment have been submitted for the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of November 1945.
