¹ On poles treated west of the crest of the Cascade Mountains or in California these prices may be increased by 5% if poles are not incised no increase to these prices is allowed.
² If the buyer does not require ground-line incising with this type of treatment deduct 5% from the price of under 8 hours' treatment.
³ Where guaranteed penetration at the ground line area is required in this type of treatment add to these prices the 1/4-inch guaranteed penetration butt treatment for the same length and class of pole, but the reduction set forth in Note 2 above must be made.
⁴ This addition is permitted when the sapwood is reduced in machine shaving to less than 1/2-inch average thickness

PART 1332—HARDWOOD LUMBER

[MPR 223, Amdt. 14]

NORTHERN HARDWOOD LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 223 is amended as follows:

1. In § 1382.159 (a) (4), subdivision (ii) is amended to read as follows:

(ii) Which resembles a "typical concentration yard" as defined in this subdivision more nearly than it resembles a "typical distribution yard" as defined in subparagraph (5) (ii) below. A "typical concentration yard" is an establishment which is located in a hardwood lumber producing area; which concentrates either graded hardwood lumber or ungraded hardwood lumber or both; which keeps in stock principally Northern hardwood lumber; which purchases hardwood lumber principally in rough green condition from mills located in its vicinity; which receives its hardwood lumber principally by truck; which prepares graded hardwood lumber for commercial shipment; and which sells hardwood lumber principally for rail shipment.

2. In § 1382.159 (a) (5), subdivision (ii) is amended to read as follows:

(ii) Which resembles a "typical distribution yard" more nearly than it resembles a "typical concentration yard" as defined in subparagraph (4) (ii) above. A "typical distribution yard" is a wholesale or retail yard which is located in a lumber consuming area; which regularly maintains a varied stock of lumber from different regions; which obtains graded lumber principally from mills or from other yards; which receives its lumber principally by rail; which unloads, sorts, stores and redistributes graded hardwood lumber; which from the nature of its lumber inventory is in position to make prompt deliveries of many different items of lumber; and which sells chiefly for truck shipment.

3. In § 1382.165 the heading of paragraph (c) and subparagraphs (1) and

(2) of paragraph (c) are amended to read as follows:

(c) *Maximum prices for Northern hardwood lumber not specifically priced in this regulation.* (1) Northern hardwood lumber sold on special grades or specifications or with special services or other extras not specifically priced in this regulation is, nevertheless, subject to this regulation as a "specially priced item" or a "special item." A seller making a sale of hardwood lumber covered by this section, for which that seller does not have a maximum price duly approved by the Office of Price Administration, shall apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., for approval of a requested price for that hardwood lumber. The application shall cover only one order or inquiry of hardwood lumber and a copy of that order or inquiry shall accompany the application. The seller must make his application for approval of a maximum price on a copy of Form 323.1, a facsimile of which is in subparagraph (3) below.

If the seller had sales in October 1941 of the special item and of the most comparable item specifically priced in this regulation, he shall show on his application the price differential which he maintained between these two items in that month. If the seller did not have sales of both of such items in October 1941 he shall show on the application the price differential between these two items which existed in the first month preceding October 1941 in which he had sales of both of these items. If the seller did not have any sales of these two items in October 1941 or in any month preceding October 1941, the seller shall show on the application the price differential which he would have maintained between these two items in October 1941, if he had made sales of these items in that month.

The seller shall report his requested price in his application, together with an explanation of how he has determined such price. The maximum price shall be a price which is in appropriate relationship to the most comparable standard item determined from an examination of the data submitted by the seller and from such other data as may be available to the Office of Price Administration. A maximum price duly approved by the Office of Price Administration for a seller for a special item shall apply to subsequent sales by that seller of the identical item of hardwood lumber unless the Office limits the applicability of the approved price in some manner.

If, within thirty (30) days of the receipt of the application by the Lumber Branch of the Office of Price Administration, that Office does not transmit by letter, telegram or in some other manner, a disapproval of the price requested by the seller on the application, that request price may be deemed approved, but such approval shall be applicable only to the one specific order covered by the application and only to the quantity of the special item contained in that order on the date of the application.

(2) Prior to approval by the Office of Price Administration of the maximum price for a special item of hardwood lumber covered by this section the seller shall not make any collections on account of the sale price of the special item. However, the seller may proceed with delivery of the special item using the requested price as a tentative maximum price but all quotations, contracts, and invoices must notify the buyer that the price is subject to approval by the Office of Price Administration within the thirty (30) day period described above.

This amendment shall become effective January 29, 1946.

NOTE: All reporting and record keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of January 1946.

Administrator.

Maximum Price Regulation 368 is amended in the following respects:

1. In section 4 (b) (1), subdivision (ii) is amended to read as follows:

(ii) A "typical concentration yard" is an establishment which is located in a hardwood lumber producing area; which concentrates either graded hardwood lumber, or ungraded hardwood lumber or both; which keeps in stock principally Northeastern hardwood lumber; which purchases hardwood lumber principally in rough green condition from mills located in its vicinity; which receives its hardwood lumber principally by truck; which prepares graded hardwood lumber for commercial shipment; and which sells hardwood lumber principally for rail shipment.

2. In section 4 (b) (1) subdivision (iii) is amended to read as follows:

(iii) A "typical distribution yard" is a wholesale or retail yard which is located in a lumber consuming area; which regularly maintains a varied stock of lumber from different regions; which obtains graded lumber principally from mills or from other yards; which receives its lumber principally by rail; which unloads, sorts, stores and redistributes graded hardwood lumber, which from the nature of its lumber inventory is in position to make prompt deliveries of many different items of lumber; and which sells chiefly for truck shipment.

8 F.R. 8541, 10770, 15672, 16791, 17414; 9 F.R. 1534, 4184.

3. In section 21, the heading of the section and paragraphs (a) and (b) are amended to read as follows:

SEC. 21. Maximum prices for Northeastern Hardwood Lumber not specifically priced in this regulation. (a) Northeastern Hardwood Lumber sold on special grades or specifications or with special services or other extras not specifically priced in this regulation is, nevertheless, subject to this regulation as "a specially priced item" or a "special item." A seller making a sale of hardwood lumber covered by this section, for which that seller does not have a maximum price duly approved by the Office of Price Administration, shall apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., for approval of a requested price for that hardwood lumber. The application shall cover only one order or inquiry of hardwood lumber and a copy of that order or inquiry shall accompany the application. The seller must make his application for approval of a maximum price on a copy of Form 675-1, a facsimile of which is in paragraph (d) below.

If the seller had sales in October 1941 of the special item and of the most comparable item specifically priced in this regulation, he shall show on his application the price differential which he maintained between these two items in that month. If the seller did not have sales of both of such items in October 1941 he shall show on the application the price differential between these two items which existed in the first month preceding October 1941 in which he had sales of both of these items. If the seller did not have any sales of these two items in October 1941 or in any month preceding October 1941, the seller shall show on the application the price differential which he would have maintained between these two items in October 1941 if he had made sales of these items in that month.

The seller shall report his requested price in his application, together with an explanation of how he has determined such price. The maximum price shall be a price which is in appropriate relationship to the most comparable standard item, determined from an examination of the data submitted by the seller and from such other data as may be available to the Office of Price Administration. A maximum price duly approved by the Office of Price Administration for a seller for a special item shall apply to subsequent sales by that seller of the identical item of hardwood lumber unless the Office limits the applicability of the approved price in some manner.

If, within thirty (30) days of the receipt of the application by the Lumber Branch of the Office of Price Administration, that Office does not transmit by letter, telegram or in some other manner, a disapproval of the price requested by the seller on the application, that requested price may be deemed approved, but such approval shall be applicable only to the one specific order covered by the application and only to the quantity of the special item contained in that order on the date of the application.

(b) Prior to approval by the Office of Price Administration of the maximum price for a special item of hardwood lumber covered by this section, the seller shall not make any collections on account of the sale price of the special item. However, the seller may proceed with delivery of the special item using the requested price as a tentative maximum price but all quotations, contracts and invoices must notify the buyer that the price is subject to approval by the Office of Price Administration within the thirty (30) day period described above.

4. In section 21 (c), subparagraph (5), Bevel drop siding, is deleted and subparagraphs (6) through (11) are redesignated (5) through (10) inclusive respectively.

This amendment shall become effective January 29, 1946.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of January 1946.

(5) "Real property" means any interest owned by the United States or any Government agency in land and in any fixtures or improvements thereon of any kind, but does not include the public domain or such lands withdrawn or reserved from the public domain as the Surplus Property Administrator determines are suitable for return to the public domain for disposition under the general land laws.

(6) "Scrambled facility" means any Government-owned industrial real prop-

erty or transportation property together with its appurtenant equipment, structures, and other personal property which is operated as an integral part of a privately owned plant or transportation property and is not capable of economic operation as a separate and independent unit.

(7) "Small business" shall include any commercial, industrial or manufacturing enterprise, or group of enterprises under common ownership or control, which does not at the date of purchase or lease of industrial real property or transportation property hereunder have more than five hundred employees, or any commercial, industrial or manufacturing enterprise which by reason of its relative size and position in its industry is certified by Department of Commerce, with the approval of the Surplus Property Administrator, to be a small business.

(8) "Single purpose plant" means any plant the basic structure of which cannot be readily adapted to uses other than those for which it was originally designed and used.

(9) "State or local government" means any State, territory or possession of the United States, the District of Columbia, and any political subdivision or instrumentality thereof.

In any case, the Administrator may determine whether property is or is not transportation property, as defined herein.

lar institution which has been held exempt from taxation under section 101 (8) of the Internal Revenue Code.

(12) "Educational institution" means any school, school system, library, college, university, or other similar institution, organization, or association, which is organized for the primary purpose of carrying on instruction or research in the public interest, and which is a non-profit institution.

(13) "Public-health institution" means any hospital, board, agency, institution, organization, or association, which is organized for the primary purpose of carrying on medical, public-health, or sanitational services in the public interest, or research to extend the knowledge in these fields, and which is a nonprofit institution.

§ 8310.2 *Scope.* This part applies to all Government-owned industrial real property and transportation property in the United States, its territories and possessions, including plants constructed under Emergency Plant Facilities Contracts but excluding any other plants located on land which the Government does not own. Nothing in this part applies to real property included within the scope of Part 8305,³ Part 8316, or Part 8320.

§ 8310.3 *Basic policy.* (a) In all studies, negotiations, disposals, and any other actions taken pursuant to this part the disposal agency shall give due weight to the applicable objectives set forth in section 2 of the act. The Surplus Property Administrator finds that it is imperative that prompt action be taken with respect to the disposal of government-owned industrial real property and transportation property except such property as may be needed for purposes of national defense. Whenever feasible, the owning agency with the consent of any sponsoring agency may, while property is still in production or operation, declare the property surplus subject to leases and to any other outstanding contract rights and also subject to any conditions the owning or sponsoring agency may deem necessary in the interest of national defense. The disposal agency should, subject to the approval of the owning agency in cases in which national security is involved, enter into negotiations for the sale or lease of transportation property or plants and take other steps hereunder toward the disposal thereof prior to their declaration as surplus; *Provided, however,* That no final action shall be taken until such transportation property or plant has been declared surplus.

(b) It is the policy of the Administrator that industrial real property and transportation property shall be disposed of generally by negotiated sale or lease as provided in this part and in appropriate cases by sealed bids.

§ 8310.4 *Duties of owning and disposal agencies—(a) General.* Declarations of Government-owned surplus industrial real property and transportation property shall be filed with the Administrator

as provided in Part 8301.⁴ The Administrator will transmit the declaration to the appropriate disposal agency and will notify the owning agency thereof. Upon receipt by the disposal agency of a declaration, it shall undertake immediately to dispose of the property covered by the declaration in accordance with the requirements of the act and of this part.

(b) *Care and handling.* (1) The disposal agency shall promptly upon receipt of a declaration of surplus industrial real property or transportation property undertake to work out with the owning agency mutually satisfactory arrangements for the disposal agency's assumption of the care and handling of, and accountability for, the property covered by such declaration. Such assumption shall be completed within ninety (90) days after the disposal agency receives the declaration unless additional time is allowed by the Surplus Property Administrator. Any taxes or rentals becoming due on such property after the date of such assumption shall be paid by the disposal agency. The owning agency shall place the property in normal standby condition to insure its reasonable preservation and safety.

(2) The disposal agency shall make or cause to be made repairs necessary for the protection and maintenance of the property. It shall give careful consideration to what improvements or changes may be necessary for the completing, converting or rehabilitating of the property in order best to attain the applicable objectives of the act, and may make commitments and expenditures for such purposes as in its opinion will further such objectives; *Provided, however,* That not more than \$100,000 shall be expended by the disposal agency for any such changes or improvements in connection with any one plant or property without prior approval by the Administrator in writing.

(3) The disposal agency may renew any lease relating to surplus industrial real property or transportation property and shall assume and carry out any obligation which may have been entered into by an owning agency to restore any such property. The disposal agency as such shall not by exercise of any option or otherwise purchase industrial real property or transportation property for resale or lease without the prior written consent of the Administrator.

(c) *Transfer of title papers, documents, etc.* Upon request of the disposal agency, and consistent with any necessary restrictions in the interest of national security, the owning agency shall immediately supply the disposal agency with the originals or true copies of all documents or portions thereof pertaining to the surplus industrial real property or transportation property which are in the possession of the owning agency and copies of which have not been filed with the declaration. These shall include appraisal reports, abstracts of titles, tax receipts, deeds, affidavits of title, copies of judgment in condemnation proceedings, and all other title papers relating to the property. All

such papers and documents which may still be needed by the owning agency shall be returned to it as soon as the needs of the disposal agency have been satisfied. The disposal agency may transfer to the purchaser of surplus industrial real property or transportation property, as a part of the disposal transaction, any abstract of title or title guaranty or title insurance policy which relates to the property being transferred and which is no longer needed either by the owning or by the disposal agency. The terms upon which such transfer shall be made shall be fixed by the disposal agency.

§ 8310.5 *Restriction on disposal in certain cases.* Any plant or facility classified by the Surplus Property Administrator as an aluminum, magnesium, synthetic rubber, chemical, aviation gasoline, iron and steel, pipe line or facility used for transporting oil, or aircraft plant or facility or transportation facility which cost more than \$500,000 may be disposed of by sale or lease in accordance with this part only with prior written approval by the Administrator; *Provided, however,* That any aircraft plant or facility which the Administrator acting under Part 8301⁴ classifies as readily adaptable to or desirable for uses other than aircraft manufacture or repair, respectively, may be disposed of by sale or lease without prior written approval by the Administrator.

§ 8310.6 *Price.* (a) The price at which the disposal agency shall make a sale of industrial real property or transportation property to a person other than a Government agency shall be determined by taking into consideration actual proposals received and the use of property most desirable in the light of the applicable objectives of the act. It need not necessarily be the same as the fair value of the property determined in accordance with Revised Special Order 19.⁵

(b) In accordance with the requirements of section 12 (c) of the act, all transfers of industrial real property or transportation property to Government agencies as provided in § 8310.11 of this part shall be at the fair value as determined and recorded pursuant to the provisions of Revised Special Order 19 unless transfer without reimbursement or transfer of funds is otherwise authorized by law. The disposal agency shall make such transfers of industrial real property to Government agencies without reimbursement or transfer of funds whenever a transfer on such terms by the owning agency by which such property was declared surplus would be authorized by law to be made to the agency desiring such property.

(c) State or local governments or educational or public-health institutions seeking to acquire surplus industrial real property or transportation property for educational use or to promote or protect the public health shall be entitled to acquire such property at the fair value as determined and recorded pursu-

ant to the provisions of Revised Special Order 19 less any discount which the Administrator may allow because of the benefit which has accrued or may accrue to the United States by such use. Applications for such discounts shall be filed with the Administrator and shall be accompanied by a certificate under oath by an authorized official of the buyer that the property is being acquired solely for educational or health purposes and that the buyer is a State or local government or an educational or public-health institution. The certificate shall also set forth in detail the manner in which the property will be employed for educational or health purposes and shall include such further information as will aid the Administrator in determining to what extent the United States will be benefited by the proposed use. After considering the application, and any additional evidence he may deem appropriate, the Administrator will notify the applicant of his action on the application and will certify to the disposal agency the amount of any discount which may be granted. The Administrator may authorize any such disposal to be made upon such conditions as he may deem expedient, including provisions for the reversion of such property to the United States if the buyer ceases to use it for educational or health purposes.

§ 8310.7 *Studies by disposal agency.*

(a) The disposal agency shall compile appropriate information regarding all industrial real property and transportation property to be disposed of hereunder, including generally the data listed on Exhibit A to this part.

(b) *Collection of information.* Any report by any person engaged to collect or evaluate information pursuant to this part shall contain a certificate that he has no interest, direct or indirect, which would conflict in any manner or degree with the preparation and submission of an impartial report. Consistent with any necessary restrictions in the interest of national security, the owning agency shall render all possible assistance to the disposal agency in compiling such information, and where the owning agency shall have prepared any such information it shall immediately upon request forward the same to the disposal agency and shall cooperate with the disposal agency in obtaining any further necessary information. The owning agency and the disposal agency shall avoid duplication of work in compiling or preparing any such information. Studies pursuant to this section shall so far as possible be coordinated with the preparation of the reports required under section 19 of the act.

§ 8310.8 *Scrambled facilities and multiple tenancy.* In the case of any scrambled facilities the disposal agency shall give careful study to the desirability of conversion to a unit capable of independent operation. In all appropriate cases careful consideration shall also be given to the feasibility of sub-dividing a plant to make it available for multiple tenancy or joint use by more than one small business.

§ 8310.9 *Procedures by disposal agency prior to disposal of industrial real property and transportation property.*

The disposal agency shall widely publicize all industrial real property and transportation property which becomes available for disposal hereunder, giving information adequate to inform interested persons of the general nature of the property and its possible uses. Such publicity shall be by public advertising, by press releases and, particularly in the cases of single purpose plants, and of transportation property, by direct circularization to potential purchasers and by personal interviews. No industrial real property or transportation property shall be disposed of hereunder unless it shall have been publicly advertised for sale for a period of at least fourteen (14) days, *Provided, however,* That the advertising may take place either before or after the property is declared surplus or partly before and partly after. If no disposition of property is made within six (6) months after the end of the advertising period, the property shall be advertised again for another period of fourteen (14) days prior to sale. The disposal agency should consult with local groups and organizations. The disposal agency shall upon request supply to bona fide potential purchasers and lessees adequate preliminary information and shall make available for inspection all information compiled pursuant to § 8310.7 and, with the cooperation of the owning agency where necessary, shall render such assistance to such persons as may enable them so far as feasible to acquire complete information regarding plants or transportation property. Interested persons should be encouraged to make offers to purchase or lease on whatever terms they may deem expedient in the light of the use or uses, products, processes, methods of production, or other factors, which bear upon the adaptability of such property for peacetime use or production. The disposal agency shall establish procedures so that all such persons showing due diligence are given full and complete opportunity to make a proposal.

§ 8310.10 *Inspection.* All persons interested in the acquisition of industrial real property or transportation property available for disposal hereunder shall, with the cooperation of the owning agency where necessary, be permitted to make a complete inspection of such property, subject to any necessary restrictions in the interest of national security and subject to such rules or regulations as may be prescribed by the disposal agency. The consent of the owning or sponsoring agency is required where the industrial real property or transportation property is still in production or use or is not yet declared surplus.

§ 8310.11 *Priority for Government agencies and State or local governments—(a) Priorities.* Government agencies shall be accorded first priority to acquire industrial real property and transportation property hereunder for

their use: *Provided,* That the Reconstruction Finance Corporation shall have such priority to purchase any such property for its use and for resale or lease to small business when in its judgment such disposition is authorized by section 18 (e) of the act. State or local governments shall be accorded second priority hereunder.

(b) *Notice.* In the case of any given property a notice calling attention to the advertising made pursuant to § 8310.9, shall be sent at the earliest possible time to all Government agencies listed on Exhibit B, to the governments of the State and of each political subdivision in which the property is physically located, and to State or local governments which have expressed an interest in the property. If the advertising is repeated for an additional period of fourteen (14) days pursuant to the provisions of § 8310.9, the notice required by this section need not be repeated.

(c) *Time and method of exercise.* The priorities provided for by the act and established hereunder may be exercised at any time prior to the execution of a binding contract for disposal of the property. A priority holder wishing to exercise his priority shall indicate his intention to do so by making an offer for the purchase or lease of the property or by submitting to the disposal agency a written application requesting that the property be held for disposal to the priority holder. Such offer or application shall state the price or rental that the applicant is willing to pay, or state that a transfer without reimbursement or transfer of funds is authorized by law, and shall give all pertinent facts pertaining to the applicant's need for the property. If the applicant shall require time to acquire funds or to obtain the authority to take the property without reimbursement or transfer of funds, it shall so state and indicate the length of time needed for that purpose. Upon receipt of an offer or an application with such a statement the disposal agency shall forward a copy thereof, together with its recommendation to the Surplus Property Administrator. The Administrator will review the application, determine what time (if any) shall be allowed applicant to conclude the acquisition of the property, and advise the disposal agency and the applicant of such determination. During the time thus allowed the property may not be disposed of to any other person.

(d) *Determination between claimants having same priority.* Whenever two or more Government agencies or two or more State or local governments, respectively, shall make acceptable offers for the same property, the disposal agency shall determine, on the basis of the relative needs of the claimants, which offer to accept of those within the same class of priority. No disposal of such property shall be made until five (5) days after the claimants have been notified of such determination, and, if any claimant shall feel aggrieved by such determination and shall so notify the disposal agency in writing within such five (5) days, the disposal agency shall report the matter in writing to the Surplus Property Ad-

ministrator setting forth all the facts, including the basis of the respective claims and of the determination by the disposal agency together with any statements in writing that the claimants or any of them may wish to file with the Administrator. The Administrator will review the matter and report his determination to the disposal agency. Pending such determination by the Administrator, no disposal of such property shall be made. The Administrator's determination shall be final for all purposes.

§ 8310.12 *Proposals.* All proposals made by any person interested in the acquisition of any industrial real property or transportation property shall be in writing and, in addition to the financial terms upon which the proposal is predicated, shall contain such information as the disposal agency may request. Any information submitted the disclosure of which might tend to subject the person submitting it to a competitive business disadvantage shall upon request be held in strict confidence by the disposal agency and by any other Government agency to which it is made available.

§ 8310.13 *Consideration of proposals.* Whenever in any case more than one proposal is received, the disposal agency shall accept that proposal which it finds upon an evaluation of all the information available to it, will most clearly tend to meet the applicable objectives of the act. In any case, the disposal agency shall reject any proposal if it finds that on the whole it conflicts with such objectives. In considering proposals the disposal agency shall give thorough consideration to whether such objectives can best be met by leasing. Emphasis shall be placed upon the urgency of getting plants and transportation property into civilian production or operation speedily so as to provide maximum employment in the post-war period. Due regard shall be given, however, to the possibility of enlarging the present major contribution to this objective which is made by small business as defined herein and to the importance in this connection of maintenance of free independent competitive enterprise and the establishment of a maximum of independent operators in industry.

It is the policy of the Administrator that plants and transportation property, particularly medium-sized and small plants and transportation property, be sold or leased to local or small firms, preferably those owned or controlled by veterans. The disposal agency should therefore accept offers from responsible local groups with adequate working capital, experience and other necessary qualifications, and should where necessary extend liberal credit terms over a period of years, in preference to a cash offer from a firm or group which would tend to concentrate economic power.

The disposal agency should seriously consider offers to purchase or lease which will result in a lower monetary return if the applicable objectives of the act will be better attained thereby.

The disposal agency shall keep a written record of the factors it weighed in arriving at a decision and shall forward to the Administrator copies of all complaints it may receive from unsuccessful bidders.

§ 8310.14 *Options.* Industrial real property and transportation property shall be declared surplus subject to any outstanding rights of refusal or options to purchase or otherwise acquire such property, and nothing in this part shall be deemed to impair the right of any person to exercise any valid right of refusal or option. In no case, however, shall any owning agency sell or lease industrial real property or transportation property pursuant to such rights or options, but all dispositions pursuant to such rights or options shall be made by the disposal agency, which shall request the assistance of the owning agency when necessary. Upon the lapse or waiver of any such right or option the property shall be disposed of as promptly as possible in accordance with the provisions of this part.

§ 8310.15 *Submission to Attorney General and approval by regulatory agencies.* (a) In any case in which a plant or transportation property cost \$1,000,000 or more a complete statement of any proposed disposal to private interests which has been tentatively decided upon, including all information compiled or obtained pursuant to §§ 8310.7 and 8310.12 shall be made available to the Attorney General as required by section 20 of the act.

(b) All transfers of surplus transportation property shall be subject to the approval of any regulatory agency, Federal or State, having jurisdiction of such transfer by reason of the type of property involved, for example, the Interstate Commerce Commission and State Public Utility Commissions.

§ 8310.16 *Disposal contract.* As a part of each disposal pursuant to this part, the person acquiring the industrial real property or transportation property shall certify in writing that he is acquiring the property for his own use, and, in the case of a purchase, that he is not purchasing it for the purpose of reselling or leasing it, and that in no case will he resell or lease it within three (3) years without written notice to the disposal agency of the purchaser or lessee and the conditions of such resale or lease within thirty (30) days of such event. If the disposal agency extends credit, the purchaser shall agree that until full payment is made, he will not resell or lease the property without the prior written consent of the disposal agency to such resale or lease. In appropriate cases, after consultation with the owning agency or with any other interested agency if such consultation is requested in either case, the disposal agency shall require an agreement that the facilities of the transportation property or plant

shall remain available to the Government for present or future Governmental defense needs upon such terms as may then be mutually agreed upon. All representations and agreements required by this section shall be recited in the instrument of transfer.

§ 8310.17 *Restrictions on dismantling.* (a) No fixtures, machinery or equipment shall be removed by the disposal agency from any plant or transportation property subject to this part except such as is determined by the disposal agency in writing not to be essential to the operation of the property for the purposes for which it determines that the property should be disposed of. In connection with the leasing of any plant or transportation property subject to this part, the disposal agency may, however, in any case sell to the lessee any personal property located on or used in the operation of the plant or transportation property and not affixed to the realty.

(b) No surplus plant or transportation property other than a scrambled facility shall be dismantled by the disposal agency or disposed of to any person who does not expect to operate it at the place where it is located, unless the governments of the State and of each political subdivision in which such property is physically located have been given at least thirty (30) days' notice by the disposal agency of its intention to dismantle such property or dispose of it to a person who intends to dismantle it. If within such thirty (30) days any such government shall indicate an interest in acquiring such property, it shall be given a reasonable additional opportunity to submit an offer or application pursuant to § 8310.11.

(c) A plant or transportation property may be disposed of to a person for the purpose of dismantling and exporting it only after at least fifteen (15) days' prior written notice to the Administrator.

§ 8310.18 *Form of transfer.* The form of deed or instrument of transfer shall be approved by the Attorney General. Transfers shall be by quitclaim deed unless the disposal agency finds that a warranty deed is necessary to obtain a reasonable price for the property or to render the title marketable and unless the use of such a deed is recommended and approved by the Attorney General as provided in the act.

§ 8310.19 *Disposals under laws other than the Surplus Property Act.* (a) Except as provided in paragraph (b) of this section, disposals of surplus industrial real property or transportation property shall not be made under laws other than the Surplus Property Act of 1944 but shall be made only by the disposal agency in strict accordance with the provisions of this part unless the Surplus Property Administrator upon written application by the owning agency shall consent in writing to a different procedure.

(b) Transfers of industrial real property and transportation property to Gov-

ernment agencies for war production purposes shall not be subject to any of the provisions of this part and may be made by the owning agency directly.

§ 8310.20 *Permit or order use.* When a Government agency utilizing Government-owned industrial real property or transportation property under some form of arrangement with another Government agency having primary jurisdiction over the property no longer needs the property, such property and any interest therein shall be returned to the agency having primary jurisdiction over the property in accordance with the arrangement between such agencies, except where the property has been substantially improved while being so utilized. In this latter event the agency utilizing the property shall make a report of the facts to the Administrator for his determination as to how the interests of the Government will be best subserved.

§ 8310.21 *Interim use pending disposal.* Pending the disposition of industrial real property or transportation property hereunder, the owning agency prior to the time accountability is assumed by the disposal agency and the disposal agency thereafter, may grant a revocable permit to any person to use such property in any case in which it finds that the interests of the Government will be best served by such action. Any such use shall be conditioned upon payment of such consideration as may be fair and reasonable under all the circumstances.

§ 8310.22 *Records and reports.* Owning and disposal agencies shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of the act. Reports shall be prepared and filed with the Surplus Property Administrator in such manner as may be specified by order issued under this part subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 8310.23 *Regulations to be reported to the Administrator.* Each owning and disposal agency shall file with the Surplus Property Administrator copies of all regulations, orders, and instructions of general applicability which it may issue in furtherance of the provisions, or any of them, of this part.

This revision of this part shall become effective January 25, 1946.

W. STUART SYMINGTON,
Administrator.

[Rev. Special Order 19]

FAIR VALUE OF INDUSTRIAL REAL PROPERTY
AND TRANSPORTATION PROPERTY

Surplus Property Administration Special Order 19, September 7, 1945 (10 F.R. 11582), entitled "Fair Value of Industrial Real Property", is hereby revised and amended as set forth below. The title is amended to read as follows: "Fair Value of Industrial Real Property and Transportation Property." New matter is indicated by underscoring.

Section 12 (c) of the Surplus Property Act of 1944 (58 Stat. 765; 50 U. S. C. App. Sup. 1611) provides that the disposal agency shall transfer property to the Government agency acquiring it "at the fair value of such property as fixed by the disposal agency, under regulations prescribed by the Board."

Surplus Property Administration Revised Regulation 10, January 16, 1946, entitled "Government-Owned Industrial Real Property and Transportation Property", provides for the transfer of industrial real property and transportation property from one Government agency to another.

In furtherance of the foregoing provision of the act and pursuant to the authority thereof and of Public Law 181, 79th Congress; *It is hereby ordered, That:*

Prior to or concurrent with the offering for disposal of any industrial real property or transportation property under Surplus Property Administration Revised Regulation 10, January 16, 1946, the disposal agency shall obtain a writ-

ten estimate of the fair value of the property. The fair value shall be considered to be the maximum price which a well-informed buyer acting intelligently and voluntarily, would be warranted in paying if he were acquiring the property for long-term investment or for continued use with the intention of devoting it to a profit-making purpose which represents the most productive type of use for which the property is suitable. The estimate shall take into account only those rights in land, structures, facilities or equipment which would be of use to such a buyer and only to the degree to which they would be of use. It shall be recognized that the fair value of the property is not in excess of the prices at which other similar properties having a like utility and productive capacity are actually available on the market or in excess of the total cost which would be required to secure an equally useful site and erect and equip similarly useful structures. Neither the original cost to the Government nor the characteristics or readiness to buy of any particular prospective purchaser shall be taken into account. The disposal agency shall maintain an adequate written record to support its estimate of fair value and for this purpose may, if necessary, incur reasonable expenses for services by qualified persons, including appraisers, consultants or other Government agencies.

This revised order shall become effective January 25, 1946.

W. STUART SYMINGTON,
Administrator.

[Rev. Special Order 24]

PRICING AND DISTRIBUTION POLICY FOR CONSUMER GOODS

Surplus Property Administration Special Order 24, October 31, 1945 (10 F.R. 13677), is hereby revised and amended as set forth below.

The Congressional policy announced by the Surplus Property Act of 1944 is to foster wide distribution of surplus commodities to consumers at fair prices utilizing normal channels of trade in such manner as to strengthen and preserve the competitive position of small business concerns. This special order is intended to implement that policy with respect to consumer goods and shall be administered accordingly.

Pursuant to the authority vested in me by Public Law 181, 79th Congress, 1st Sess., and by the Surplus Property Act of 1944 (58 Stat. 765; 50 U.S.C. App. Sup. 1611), *It is hereby ordered*, That:

1. The minimum quantity which should be offered for sale by the disposal agency should to the extent feasible be a quantity which will enable small independent retailers who normally buy direct from manufacturers to participate in these offerings. The price on such quantity shall be known as the net price.

2. Another minimum quantity applicable to the wholesale trade should be offered to wholesalers of the commodity offered who agree to use their best efforts to sell to small retail establishments unable or unwilling to buy in quantities as great as the minimum established according to paragraph 1. This minimum quantity may be less than the minimum quantity offered to large retailers pursuant to paragraph 3 hereof. The price to the wholesaler should be such as to compensate for the distributive function to be performed by the wholesaler, taking into consideration the type of goods, the turn-over potential, the cost of care and handling, the value, and the quantity offered.

3. Certain large retailers, including chain stores, mail order houses and cooperative organizations, normally purchase in quantities far in excess of those purchased by the small retailer and small wholesaler. To facilitate the disposal of surplus property, and thereby to protect the interest of the Government in such property, and in recognition of the fact that retailers who buy in large quantities usually perform an intermediate distributive function in the movement of the goods to the consumer level such purchases should generally be made at a discount of not more than 5 percent from the net price. The minimum quantity subject to this discount shall be specified in the offering.

4. No other reductions or discounts shall be given and there shall be no graded discounts within the same class of buyers.

5. The price levels contemplated by this order shall be established by the disposal agency as to each kind of property to be sold. Subject to Office of Price Administration ceilings, surplus consumer goods shall be priced by the disposal agency to effectuate orderly and prompt disposal, giving due consideration to the kind, quantity, condition, and value of each item at the time of the offering.

6. The disposal agency shall allocate surplus property equitably among purchasers in accordance with this policy. When the total supply of a commodity is less than the demand, consideration should be given to the needs of other purchasers before large quantities are sold to one or a few purchasers. Precedence should be given to orders received from small retailers and from wholesalers who serve small independent retailers. Manufacturers who perform the distributive functions of serving small independent retailers may buy as wholesalers subject to the rules applicable to purchases made by wholesalers. Wholesalers and manufacturers who own, operate, or control retail stores are required to buy as retailers for their company owned or controlled retail stores. Buying offices of associated groups of retail stores operated on the voluntary chain system of buying will buy as retailers.

This revised order shall become effective January 18, 1946.

W. STUART SYMINGTON,
Administrator.

(h) *Announcement of suspension.* Each railroad, or its agent shall publish, file, and post a supplement to each of its tariffs affected thereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of the operation
