[M-328B, Direction 10]

USE OF CC RATINGS IN FIRST QUARTER OF 1946 UNDER SCHEDULE C

The following direction is issued pursuant to M-328B:

(a) *Purpose.* The purpose of this direction is to state the rules governing the yardage for which CC ratings may be used in the first quarter of 1946 under Schedule C of Order M-328B.

(b) *Restrictions on use of M-328B CC ratings to get certain fabrics.* (1) On and after March 6, 1946, no person may place any orders bearing CC ratings assigned under Schedule C of M-328B for carded broadcloth of any sley, or carded poplins, sley of 88 and higher, except for incorporation into men's and boys' shirts and shorts (Items No. 4, 5, 6, 7, 32, 33 and 35 on Preference Rating Schedule No. 2, and Items No. 4 (a), 4 (b), 6 (a), 6 (b), 32, 33 and 35 on Preference Rating Schedule No. 3.) CC rated orders placed before March 6, 1946, are not affected by this provision and remain valid.

(2) Any manufacturer who is prohibited by the provisions of paragraph (b) (1) from using for any item CC ratings for the fabrics listed, may, however, use CC ratings to get any other fabric permitted for that item on Preference Rating Schedules No. 2 or 3 in an equivalent yardage.

(c) *Quantities and kinds of fabric which may be received on ratings.* (1) Authorizations on Form CPA-3732 under Schedule C for the first quarter of 1946 assign CC ratings for the total yardage of all fabrics which may be obtained for an item. The yardage (explained in (c) (2) and (c) (3) below) may be divided up in any way among the fabrics listed on the Preference Rating Schedules for that item, subject to the rule stated above in paragraph (b).

(2) Any person who receives an authorization for an item on Schedule C on Form CPA-3732 for a yardage which was 75% or more of the total yardage of all fabrics for which he was assigned CC ratings for that item in the fourth quarter of 1945, is governed by the following rule. He may not receive on M-328B CC rated orders after he gets his CPA-3732 authorization for an item any

fabric which will make his total receipts of all fabrics for that item in the first quarter of 1946 on M-328B CC ratings exceed the yardage authorized on Form CPA-3732 for that item. This includes the yardage authorized for the fourth quarter of 1945, but not received in that quarter.

(3) Any person who receives an authorization on Form CPA-3732 for any item for less than 75% of the total yardage of all fabrics allocated to him for that item in the fourth quarter of 1945, may use CC ratings to get in the first quarter of 1946 75% of the yardage for which he was assigned CC ratings for all fabrics for the fourth quarter of 1945 for the same item. This includes the yardage authorized for the fourth quarter of 1945, but not received in that quarter.

(4) Any person who has actually received on CC ratings under paragraphs (c) (2) and (f) (2) of Order M-328B more than the yardage to which he is entitled under this direction, may not receive any more fabric on M-328B CC ratings in the first quarter of 1946 for the particular item. He must, however, use all of the yardage obtained before then to make the item for which the rating was authorized.

(5) Any person who has placed CC rated orders for more yardage than he is authorized to receive under this direction must immediately unrate or cancel orders for the excessive yardage as explained in paragraph (c) (4) of Order M-328B.

Maximum Price Regulation 539A is redesignated Revised Maximum Price Regulation 539A and is revised and amended to read as follows:

In the judgment of the Price Administrator, the maximum prices established by this regulation are, and will be, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328. A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register. Such specifications and standards as are used in this regulation were, prior to such use, in general use in the industry affected.

AUTHORITY: § 1499.2277 issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155; E.O. 9651, 10 F.R. 13487.

SECTION 1. *Sales of custom milling or custom kiln drying services on hardwood or softwood lumber at higher than maximum prices prohibited.* (a) On and after March 11, 1946, no person shall sell or provide, and no person shall buy or receive in the course of trade or business, any "custom milling services", as defined in section 3 below, on hardwood or softwood lumber covered by this regulation at prices higher than the maximum prices set by this regulation; and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged and paid.

SEC. 2. *What lumber is covered.* This regulation covers custom milling and kiln drying of all softwood lumber (except Western softwoods which are defined in and covered by RMPR 539) and all hardwood lumber regardless of the area in which it is produced, when custom milling or kiln drying is performed in the area defined in section 3 (a).

SEC. 3. *What services are covered.* (a) This regulation covers "custom milling and kiln drying services" on all woods other than Western softwoods when performed in the states of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island or Vermont.

(b) "Custom milling services", as used in this regulation, means all operations upon lumber, as distinguished from logs, which are customarily performed by a sawmill, or operations upon lumber for which maximum prices are fixed in the basic mill regulation covering direct-mill sales of the various species of lumber.

(c) The following are not "custom milling services" even though performed by a "custom mill" as defined in section 4 below:

(1) Milling or kiln drying services performed upon lumber in which the mill performing the service has or had any financial interest, direct or indirect, other than such interest as arises from the performance of the services.

(2) Milling or kiln drying services performed on lumber which was produced by a sawmill, or sold by or handled through a wholesaler or commission merchant, or processed by a concentration yard, any one of which has a financial interest in the mill performing the services.

(3) Milling or kiln drying services by a custom mill owned or operated by a distribution yard when performed on lumber which has been, is or becomes part of the regular stock of the yard.

(4) Milling or kiln drying services performed on lumber which the seller has arranged to have milled or kiln dried in transit and which he sells and ships from the point of origin in any manner other than as a sale f. o. b. sawmill or other point of origin under the appropriate mill regulation.

In any of such cases, the maximum prices which the seller may charge the purchaser for both the lumber and for milling or kiln drying are the ceiling prices fixed in the appropriate mill regulation for the end product reaching the purchaser after milling or kiln drying. In any of such cases, the person performing the milling or kiln drying of the lumber may not invoice the purchaser for custom milling at the maximum prices fixed in this regulation.

Nothing in this section, however, shall prevent the person performing the milling and/or kiln drying services from charging the maximum prices in this regulation to any wholesaler or mill which ships lumber to be custom milled in the manner described in subparagraph (3) above: *Provided*, That the shipper agrees to bear the custom milling charges when the same are not permitted to be passed on to the purchaser under this section.

SEC. 4. *What is a custom mill.* A custom mill is an establishment, whether known as a planing mill, distribution yard, or anything else, which performs custom milling services or kiln drying upon softwood or hardwood lumber in which it has or had no financial interest, other than such interest as arises from the performance of the services, and which either:

(a) Meets the following test: It does not operate, or have a financial interest in a mill which produces lumber, or in a wholesaler or commission merchant of lumber, or in a concentration yard which processes lumber; or

(b) Obtains authority to operate as a custom mill under the following rules:

(1) Application must be filed with the Regional Office of the Office of Price Administration for the region in which the applicant's mill is located, specifying:

(i) The location of the plant, with a description of the physical layout of

operation in relation to any other activities relating to lumber carried on by the applicant, wherever located.

(ii) The extent of ownership or control or financial interest in or by any other operation relating to lumber, or of common ownership, control or financial interest, giving name, location, and nature of the operations.

(iii) Applicant's milling facilities and the capacity thereof in M'BM per day, together with a statement of total footage in rough boards, and rough or surfaced dimension, plank and timbers, and of green or partially dry lumber in the sizes sold during the 30 day period preceding date of application.

(iv) Any other information the applicant may wish to submit.

(2) Special written authorization under this paragraph (b) will be granted only where the application enables the Regional Office to make findings that the authorization:

(i) Will result in a greater production of surfaced boards or kiln dried lumber.

(ii) Will not encourage producing sawmills having remanufacturing and kiln drying facilities to ship their lumber green, partially dry, rough, or in thicknesses over 1".

(iii) Will provide necessary milling services which cannot reasonably be supplied by producing mills, or by custom mills qualifying under paragraph (a).

(iv) Will not result in unnecessarily increasing the cost of finished lumber to the ultimate consumer.

The Regional Administrator may grant the authority sought, in whole or in part, and may make such limitations and conditions as to its duration and extent as may be appropriate and consistent with the above findings.

SEC. 4a. *Meaning of "financial interest."* The term "financial interest" as used in sections 3 and 4 of this regulation means any ownership or control of the plant which performed milling or kiln drying services by a sawmill, concentration yard, planing mill, wholesaler or commission merchant, or ownership or control of the sawmill, concentration yard, planing mill, wholesaler or commission merchant by a plant which performs milling or kiln drying services or any common ownership, or control of such plant with one of the other types of operations listed, or any financial interest, direct or indirect, no matter how small, which such plant may have in one of the other types of operations listed, or which such other type of operation may have in the plant performing the services. Financial interest or control within the meaning of this section and of sections 3 and 4 shall be presumed where there is any continuing arrangement between the plant performing the milling or kiln drying services and one of the other listed types of operations for the former to rework lumber produced, handled or sold by the latter. Financial interest within the meaning of these sections shall also be presumed where a family relationship, by blood or marriage exists between the persons owning or operating the plant which performs milling or kiln drying

services and one of the other listed types of operations.

The existence of a financial interest, as defined above, between the milling plant and the other listed types of operations effects a financial interest on the part of the plant performing the milling or kiln drying services in lumber sold or handled by such other operations prior to their movement into such plant. As a result, where such financial interest exists, the plant performing milling or kiln drying services which seeks to operate at the maximum prices in this regulation must make application for authority to operate as a custom mill under section 4 (b).

SEC. 5. *Maximum prices for custom milling services by other than a custom mill.* Unless the operation qualifies or is specially authorized as a "custom mill" under section 4 above, its maximum prices for custom milling or kiln drying of softwood or hardwood lumber are the charges set forth as additions for workings in the basic mill regulation covering the species milled or kiln dried.

SEC. 6. *Invoicing and records.* Invoices must show the species, size, condition and workings of the lumber before and after milling, with a detailed description of all services performed thereon for which a charge is made. Copies of invoices, or similar records must be kept at the place where the custom milling is performed, available for examination by the Office of Price Administration. The records must be kept for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

SEC. 7. *Maximum prices for services not specifically priced.* If a custom mill wishes to perform any custom milling service covered by this regulation which is not specifically priced in the price tables, or wishes to make an addition for special workings, specifications, services, or other extras for which additions are not specifically permitted, he must apply in writing to the Lumber Branch, Office of Price Administration, Washington 25, D. C., for a maximum price.

The seller's application may be (a) for specific approval in reference to a particular order; or (b) for general approval in reference to a price or price list which he seeks to set up for general use in the future for non-standard custom milling services.

(a) Where the application is for specific approval in reference to a particular order, it shall be made prior to any shipment, or within five (5) days after acceptance of order, whichever be the earlier date. The following information shall be set forth:

(1) The requested price.

(2) A complete description of the service to be priced.

(3) The price differential between it and the most comparable service in the price tables with a detailed statement of comparative cost of performing the services.

(4) The name and location of producing mill.

(5) The purchaser's name, and address to which delivery is to be made.

If the application is for specific approval in reference to a particular order calling for custom milling services identical with an order upon which specific approval has previously been granted by the Office of Price Administration, it is sufficient for the seller to identify by reference, such previous application and approval. In such case, the only additional information required is the information requested in (4) and (5) above.

A seller using this pricing method may quote and make sales and deliveries prior to receipt of official approval. He also may collect the price he has requested: *Provided*, That he has first received a written acknowledgment of his application from the Office of Price Administration and has so informed the purchaser in writing. The requested price is subject to revision within 30 days after the date of the acknowledgment and, if the price is ordered to be reduced, the seller must refund any excess collected over the price which is officially approved. If a requested price is not disapproved within 30 days of the date of the acknowledgment, it is approved. Where, after receipt of an application for specific approval, the Office of Price Administration requests additional information from the seller upon which to base its approval of a ceiling price, the time within which the requested price may be revised is automatically extended to 30 days after acknowledgment of the requested information. An officially approved price shall be subject to further adjustment at any time, even after the 30 day period, as to all shipments made after the date of such further adjustment.

An authorization number will be assigned in every case where a special price is approved. Within 10 days after receipt of such number the seller must notify the purchaser in writing of the price which has been officially approved and the authorization number assigned; and the authorization number must appear on all invoices covering shipments made after the date the number was received by the seller.

(b) Where the seller's application is for general approval in reference to a price list which he seeks to set up for general use in the future for non-standard custom milling services he shall set forth the information required for specific approvals by (1), (2) and (3) in paragraph (a) above, and, in addition, a statement showing the need for such non-standard custom milling services in his area.

Quotations may not be made, orders taken, or shipments commenced until a maximum price has been officially approved.

An authorization number will be assigned in every instance where a special price or price list is approved; and this number must appear on all orders accepted and sales made, as well as on all invoices covering shipments. A file of all general approvals under this section will be open for inspection at the Office of Price Administration Regional Office at Boston, Massachusetts, as well as at the National Office, Lumber Branch, Washington, 25, D. C.

The approval of a maximum price under this section shall not prevent a further adjustment in ceiling prices from being made, as the result of, or without, further application by the seller; and such further adjustment may be made to apply to all sales or shipments after the date the adjustment is issued.

SEC. 8. No quantity limitations. Except as specified below, the maximum prices set forth in this regulation shall apply to all transactions regardless of the quantity of lumber involved.

For milling quantities of less than 1,000 feet board measure of any size or operation, the charge for 1,000 feet may be made. Where such lot is a part of a larger order, this minimum charge may be used only where a change of heads involving a change in patterns is required, but may not be made for handling. For milling lots of not more than 5,000 feet where not part of a larger order, a charge of 50¢ per M feet may be made.

SEC. 9. No service charges. (a) No service charges may be made by a custom mill for any services unless they are specifically priced in this regulation or expressly approved upon application under section 7.

(b) No service charge may be made by a custom mill for the arrangement of transportation of lumber or advancement of freight charges thereon.

(c) No service charge, commission, rebate or any other form of compensation, however termed, may be paid by a custom mill to, or collected from a custom mill by any person who has, or has had at any time, any financial interest in lumber being custom milled or kiln dried, for services in locating the custom mill, directing to it a shipment of lumber, or advancing custom milling or other charges.

As a service to its customer, a producing mill or wholesaler may perform any or all of these services without compensation. Where payment for custom milling, kiln drying or other charges is advanced for the account of customer it may bill the customer for the actual amount of such advances but must include with its invoice for the sale of the lumber, a true copy of the invoice from the custom mill, with no additional charges. In no case may the charges for custom milling services performed exceed the maximum prices for custom milling or kiln drying permitted by this regulation.

SEC. 10. Computing prices on most economical basis. Except where the specific pricing provisions in the tables or in the footnotes to the tables require otherwise, prices on combination milling, such as ripping and resawing, must be computed on the cheapest possible method of producing the end product from the particular size remanufactured, regardless of how the custom mill actually produces the end product.

SEC. 11. Enforcement. Persons violating any provisions of the regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damage, and proceedings for suspension

of license provided by the Emergency Price Control Act of 1942, as amended, and regulations or orders issued thereunder.

SEC. 12. Licensing. The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations.

SEC. 13. Prohibited practices. Any practice which is a device to get the effect

of a higher than ceiling price without actually raising the price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, trade understandings and the like.

SEC. 14. Maximum prices. The maximum prices per one thousand feet board measure for custom milling services and custom kiln drying of lumber, when performed by a custom mill in the area covered by this regulation are as follows:

GENERAL NOTES

- Charges for additional lines of resawing and/or ripping are based on original size of piece ripped or resawn.
- Where surfacing is done following resawing and/or ripping, surfacing charges shall be based on size or sizes of stock resulting from the resawing and/or ripping operation.
- Where stock thinner than 1" is surfaced, resawn, or ripped, charges may be computed on surface measure. Where the first line of resawing reduces thickness of the remaining piece to less than 1", additional lines, where required, may be figured on surface measure, instead of original size as provided in note 1.
- Fractional and odd thicknesses: For custom-milling 6/4 and thinner use price of 1" and compute footage on actual rough measure. For thicker than 6/4" and less than 8/4" use 2" price and compute footage on actual rough measure. For odd or fractional thickness thicker than 2" use price of next thinner listed size and compute footage on actual rough measure.
- Where stock is of fractional or odd width not specified in table use price of next listed width, either wider or narrower, whichever is lower. Compute on actual board measure.
- Where stock is both kiln dried and milled, a handling charge of \$2.00 per M'BM

may be added for handling between drying kilns and mill. Handling charge provided in milling tables may not be added.

7. If customer does not furnish a reasonably accurate inbound piece tally, the custom mill may add 50¢ per M'BM for tallying.

8. Where 50% or more of the lumber in any car is to be custom milled or kiln dried, and the balance of the lumber in such car is required to be handled from car to car without processing, a flat handling charge of \$3.00 per M'BM may be made on such balance.

9. Random width prices may be used only on random width shipments containing at least 4 widths when such widths fall under 2 or more specified width price brackets in tables. Shipments containing mixed widths if piece tallied and segregated in the car are not random widths. Subject to above conditions the use of random width prices or specified width prices is optional with custom mill.

10. No charge may be made for any operation not expressly requested on customer's order.

11. Clipping to exact length permits tolerance of not more than 1/8" from length ordered.

This regulation shall become effective March 11, 1946.

NOTE: All reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Acts of 1942.

Issued this 6th day of March 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 4 and 6 of Supplementary Order No. 133; it is ordered:

(a) *Manufacturer's maximum prices*. Allen Calculators, Inc., of 678 Front Avenue, N. W., Grand Rapids, Michigan, may increase its maximum prices properly established under Maximum Price Regulation No. 188, of the adding machines and calculators which it manufactures, by 8.94 percent.

[Des Moines Order G-6 Under Gen. Order 68]

BUILDING AND CONSTRUCTION MATERIALS IN DUBUQUE, IOWA, AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. What this order covers. This order covers all retail sales made by any seller of commodities specified in Appendix A below, delivered to the pur-

chaser in the Dubuque, Iowa, Area, both on a yard sales and a delivered sales basis. The Dubuque, Iowa, Area for the purposes of this order consists of that area located within the corporate city limits of the City of Dubuque, Iowa.

SEC. 2. Definitions. For the purposes of this order, a retail sale means a sale to an ultimate user, or to any contractor; *Provided*, That for the purposes of this order, a "retail sale" shall not include any sale to the United States Government or any of its political sub-divisions. Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, a structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor. Purchasers by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings. The word "seller" refers to each separate seller covered by this order. If a seller makes sales at retail through more than one selling unit or establishment, each selling unit or establishment is considered to be a separate seller, subject to all the provisions of this order.

SEC. 3. Relation to other regulations. The maximum prices fixed by this order supersede any maximum prices determined under or pricing methods provided by any maximum price regulation or order which would otherwise be applicable to the sale of the commodities specified in Appendix A. Any other provision of this order which is inconsistent with any maximum price regulation or order which would otherwise be applicable, supersedes such provision of the maximum price regulation or order. All provisions of maximum price regulations or orders which are applicable to the sale of commodities specified in Appendix A, not inconsistent with provisions of this order, shall continue to apply to sales made subject to this order.

SEC. 4. Discounts, allowance and delivery practice. The maximum prices established by this order are maximum prices for cash sales. Where, during March 1942, the seller established a differential between cash sales and sales on credit, such differential or credit charge may be added to the maximum price established by this order. In no event may the credit charge, if any, exceed the highest charge made to the same class of purchaser for the same sale during March 1942. No additional charge may be made for deliveries by the seller to any point located within the Dubuque, Iowa, Area. All customary discounts, allowances or differentials established by any maximum price regulation or order applicable to the sale of the commodities specified in Appendix A, shall be maintained.

SEC. 5. Posting of maximum prices. Every seller making sales covered by this

order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. Two copies of the list of maximum prices are attached to this order; one of which may be removed and posted as required herein. Every seller making sales covered by this order shall retain a copy of the order in each of his places of business in the area covered by this order and shall, if requested by the purchaser, make the same available for inspection by him.

SEC. 6. Sales slips and records. Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order; *Provided*, That for sales of less than a total of \$7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and he must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of \$50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

- (1) Name and address of buyer.
- (2) Date of transaction.
- (3) Place of delivery.
- (4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. Petitions for amendment. Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 9. Appendix. The list of maximum prices fixed by this order is entitled Appendix A, attached hereto and hereby made a part of this order.

SEC. 10. This order may be modified, amended, or revoked at any time.

This order shall become effective February 27, 1946.

Issued this 20th day of February 1946.

J. M. KAMERICK,
Deputy District Director.

[Des Moines Order G-9 Under Gen. Order 68]
**BUILDING AND CONSTRUCTION MATERIALS IN
 FORT DODGE, IOWA, AREA**

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. What this order covers. This order covers all retail sales made by any seller of commodities specified in Appendix A below, delivered to the purchaser in the Fort Dodge, Iowa, Area, both on a yard sales and a delivered sales basis. The Fort Dodge, Iowa, Area for the purposes of this order consists of the area within the corporate city limits of the City of Fort Dodge, Iowa, and that area within eight (8) miles from the corporate city limits of the City of Fort Dodge, Iowa.

SEC. 2. Definitions. For the purposes of this order, a retail sale means a sale

to an ultimate user, or to any contractor; *Provided*, That for the purposes of this order, a "retail sale" shall not include any sale to the United States Government or any of its political sub-divisions. Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor. Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings. The word "seller" refers to each separate seller covered by this order. If a seller makes sales at retail through more than one selling unit or establishment, each selling unit or establishment is considered to be a separate seller, subject to all the provisions of this order.

SEC. 3. Relation to other regulations. The maximum prices fixed by this order supersede any maximum prices determined under or pricing methods provided by any maximum price regulation or order which would otherwise be applicable to the sale of the commodities specified in Appendix A. Any other provision of this order which is inconsistent with any maximum price regulation or order which would otherwise be applicable, supersedes such provision of the maximum price regulation or order. All provisions of maximum price regulations or orders which are applicable to the sale of commodities specified in Appendix A, not inconsistent with provisions of this order shall continue to apply to sales made subject to this order.

SEC. 4. Discounts, allowance and delivery practice. The maximum prices established by this order are maximum prices for cash sales. Where, during March 1942, the seller established a differential between cash sales and sales on credit, such differential or credit charge may be added to the maximum price established by this order. In no event may the credit charge, if any, exceed the highest charge made to the same class of purchaser for the same sale during March 1942. No additional charge may be made for deliveries by the seller to any point located within the Fort Dodge, Iowa, Area. All customary discounts, allowances or differentials established by any maximum price regulation or order applicable to the sale of the commodities specified in Appendix A, shall be maintained.

SEC. 5. Posting of maximum prices. Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. Two copies of the list of maximum prices are attached to this order, one of which may be removed and posted as required herein. Every seller

making sales covered by this order shall retain a copy of the order in each of his places of business in the area covered by this order and shall, if requested by the purchaser, make the same available for inspection by him.

SEC. 6. Sales slips and records. Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order: *Provided*, That for sales of less than a total of \$7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and he must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of \$50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

- (1) Name and address of buyer.
- (2) Date of transaction.
- (3) Place of delivery.
- (4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. Petition for amendment. Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 9. Appendix. The list of maximum prices fixed by this order is entitled Appendix A, attached hereto and hereby made a part of this order.

SEC. 10. This order may be modified, amended, or revoked at any time. This order shall become effective February 27, 1946.

Issued this 20th day of February, 1946.

J. M. KAMERICK,

[Des Moines Order G-12 Under Gen. Order 68]

BUILDING AND CONSTRUCTION MATERIALS IN COUNCIL BLUFFS, IOWA, AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. What this order covers. This order covers all retail sales made by any seller of commodities specified in Appendix A below, delivered to the purchaser in the Council Bluffs, Iowa Area, both on a yard sales and a delivered sales basis. The Council Bluffs, Iowa Area for the purposes of this order consists of that area located within the corpo-

rate city limits of the City of Council Bluffs, Iowa.

SEC. 2. Definitions. For the purposes of this order, a retail sale means a sale to an ultimate user, or to any contractor; *Provided*, That for the purposes of this order, a "retail sale" shall not include any sale to the United States Government or any of its political sub-divisions.

Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor.

Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

The word "seller" refers to each separate seller covered by this order. If a seller makes sales at retail through more than one selling unit or establishment, each selling unit or establishment is considered to be a separate seller, subject to all the provisions of this order.

SEC. 3. Relation to other regulations. The maximum prices fixed by this order supersede any maximum prices determined under or pricing methods provided by any Maximum Price Regulation or order which would otherwise be applicable to the sale of the commodities specified in Appendix A. Any other provision of this order which is inconsistent with any Maximum Price Regulation or order which would otherwise be applicable, supersedes such provision of the Maximum Price Regulation or order. All provisions of Maximum Price Regulations or orders which are applicable to the sale of commodities specified in Appendix A, not inconsistent with provisions of this order, shall continue to apply to sales made subject to this order.

SEC. 4. Discounts, allowance and delivery practice. The maximum prices established by this order are maximum prices for cash sales. Where, during March, 1942, the seller established a differential between cash sales and sales on credit, such differential or credit charge may be added to the maximum price established by this order. In no event may the credit charge, if any, exceed the highest charge made to the same class of purchaser for the same sale during March, 1942. No additional charge may be made for deliveries by the seller to any point located within the Council Bluffs, Iowa Area. All customary discounts, allowances or differentials established by any Maximum Price Regulation or order applicable to the sale of the commodities specified in Appendix A, shall be maintained.

SEC. 5. Posting of maximum prices. Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each

of his places of business in the area covered by this order in a manner plainly visible to all purchasers. Two copies of the list of maximum prices are attached to this order, one of which may be removed and posted as required herein. Every seller making sales covered by this order shall retain a copy of the order in each of his places of business in the area covered by this order and shall, if requested by the purchaser, make the same available for inspection by him.

SEC. 6. Sales slips and records. Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order; *Provided*, That for sales of less than a total of \$7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and he must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of \$50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

- (1) Name and address of buyer.
- (2) Date of transaction.
- (3) Place of delivery.
- (4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order who sells or offers to sell at a price higher than the ceiling price permitted by this order or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. Petition for amendment. Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 9. Appendix. The list of maximum prices fixed by this order is entitled Appendix A, attached hereto and hereby made a part of this order.

SEC. 10. This order may be modified, amended, or revoked at any time.

This order shall become effective February 27, 1946.

Issued this 20th day of February 1946.

J. M. KAMERICK,
Deputy District Director.

Delivery charges, if any, shall be shown separately. Each seller shall also furnish each customer at the time of sale or delivery an invoice or sales slip on which he has itemized the same information. [Region VIII Order G-5 Under RMPR 251, Amdt. 2]

PLUMBING SERVICES IN SOUTHERN CALIFORNIA AND CONTIGUOUS AREAS

An opinion accompanying this amendment has been issued simultaneously herewith.

Order No. G-5 under Revised Maximum Price Regulation No. 251 is amended to read as follows:

(a) *What this order does.* This order establishes maximum prices for all plumbing services performed in the following areas:

(1) *California.* Imperial, Inyo, Kern, Los Angeles, Orange, Riverside, San Diego, San Bernardino, San Luis Obispo, Santa Barbara, and Ventura Counties.

(2) *Nevada.* Clark County.

(b) *Maximum prices.* The maximum price for plumbing services shall be the sum of a charge for labor, a charge for the materials used, and such other

charges as may be permitted by this order. The maximum charge for labor shall be the sum of separate charges determined by multiplying the number of hours of labor performed in each category by the maximum hourly rate provided for that category by Column A of subparagraph (b) (1) or by the labor cost per hour multiplied by the percentage in Column B, whichever is the lower. The maximum price of the materials used shall be as is provided by subparagraph (b) (2).

(1) *Maximum labor charges.*

	Column A			Column B
	Straight time	Overtime	Sundays and holidays	Percentage of labor cost
Journeyman plumber:				
(Los Angeles County, Calif., or Clark County, Nev.).....	\$2.75	\$4.03	\$5.50	166%
(Kern County, Calif.).....	2.60	3.90	5.20	166%
(Remainder of area).....	2.50	3.75	5.00	166%
Apprentice plumber and common labor.....	1.75	2.63	3.50	140

(i) *Measurement of hours.* The number of hours to be charged against any job is to be counted from the time the workman leaves the shop or the previous job (whichever is later) until he completes the job if he proceeds to another job or until he returns to the shop if he proceeds there directly. For any job extending into more than one day, time in transit to or from the job may be charged only once. The hours for which charges are made shall not exceed those shown in the seller's payroll records nor those shown in any records which this order may require the seller to keep.

(ii) *Minimum charge.* If a job requires less than one man-hour, there may be collected a minimum charge equal to the maximum charge for one hour.

(iii) *Outside sewer stoppage removal.* A minimum charge not exceeding \$5.00 may be made for outside sewer stoppage removal. If because of employment of power-driven equipment, higher maximum hourly rates were in effect during March 1942, which are higher than the rates otherwise provided herein, and records are available to substantiate such rates, then the same rates may be continued for this type of work.

(iv) A journeyman plumber doing his own work shall take as his labor cost the labor cost applicable to journeyman plumbers in the area.

(v) *Definitions.* (a) "Plumbing service" means plumbing repair, maintenance, installation services, and includes the sale of installed plumbing materials; and "plumbing" means gas, water, and steam distribution or waste removal systems. "Plumbing service" also includes installation of oil burners and feed lines.

(b) "Overtime" refers to hours of work performed at customer's request on Saturday or between the hours of 5:00 p. m. and 8:00 a. m. Monday to Saturday.

(c) "Sundays and holidays" refers to work performed at customer's request

on Sundays and national holidays and emergency night calls made at customer's request.

(d) "Labor cost" means the wage rate actually paid, but not exceeding the wage rate in effect on October 3, 1942, or the wage rate which has been established by proper governmental agencies.

(2) *Materials.* The maximum price of any new materials shall be the highest price charged for such materials by the seller during March 1942, or the price published as of March 22, 1945, in Merchants Plumbers Guide, issued by John B. Reeves & Son, 3665 South Vermont Avenue, Los Angeles 7, California, whichever is lower. The maximum price of any used materials, or of new materials which cannot be priced as provided above, shall be the seller's maximum price, as determined under the appropriate maximum price regulation.

(3) *Other charges.*—(i) *Charges for permits.* A charge may be made for any fee a plumber may be required to pay to secure a permit to perform a specific job, which fee is paid to a Building Inspection Department of a city or other body politic.

(c) *Jobs selling for \$200.00 or over.*
(1) For jobs selling for \$200.00 or over, the maximum price shall be the maximum price determined under section 7 (a) of Revised Maximum Price Regulation No. 251, except as hereinafter provided. When determining a price under section 7 (a) for the purposes of this order, the seller shall use the sum of his labor costs, material costs, and other direct costs, and a margin not exceeding the following:

Total labor, material, and other direct costs:	Margin (percent)
For the first \$500 in costs.....	25
For the next \$500 in costs.....	20
For costs over \$1,000.....	15

Provided. That for sellers in business in March 1942, the margin shall not exceed the margin used in the most comparable job in the period January 1, 1939, to March 31, 1942.

(2) "Other direct costs" include only the cost of subcontracts, workmen's compensation insurance, social security tax, unemployment compensation tax, building permits and fees, and rentals of equipment covered by Maximum Price Regulation No. 134, the equipment rentals to be charged at prices not exceeding the maximum rental rates. Notwithstanding the provisions of subparagraph (c) (1) above, no margin may be added to costs of subcontracts for plumbing services.

(3) Administrative and overhead costs and selling expenses are not to be included as direct cost.

(d) *Estimates.* Where work is performed on a cost-plus job on the basis of an estimate submitted by the seller, the total charge for such work shall not exceed the estimated price by more than 15%, except to the extent permitted by paragraph (e) relating to extra work.

(e) *Extra work.* Any changes in plans or specifications made at the request of the customer involving an increase in the cost of the work covered by the original estimate shall be charged for under the terms of paragraph (c).

(f) *Lump-sum contracts.* Where a seller offers to supply services of the kind covered by this order on the basis of a lump-sum contract, the seller agreeing to charge a fixed price, such price may exceed the maximum price computed in accordance with the terms of paragraph (c) of this order but not by more than 10%. With respect to such job the seller shall keep records as required by other paragraphs of this order, these records to be available for inspection by the Office of Price Administration.

(g) *Scope of this order.* (1) The maximum prices established by this order include all expenses, and no additional charge will be made for any other cost or incidental service.

(2) Lower prices than the maximum prices established by this order may be charged, demanded, offered, or paid.

(h) *Records and invoices.* Every person making sales subject to paragraphs (b) and (c) of this order shall furnish each customer who requests it an invoice or sales slip on which he has certified that the price charged does not exceed the price permitted by this Order No. G-5 and showing the time spent by each classification of employee on the job, the rate charged for each such classification, the materials for which charges are made and their quantities and the charges therefor, the names and addresses of the buyer and seller, the location of the job and the date of its completion, and an itemization of any other charges (such as for "other direct costs") authorized by this order. Such seller shall also keep records showing the same information, and in addition, the itemized cost of the labor and materials involved. These records and duplicates of such invoices or sales slips shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration.

No charge may be made for any item for which a seller fails to issue the invoices or keep the records required by this order.

(i) *Relation of this order to Revised Maximum Price Regulation No. 251.* Except as otherwise provided in this order, this order supersedes sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251 with respect to sales covered by this order. Except to the extent they are inconsistent with the provisions of this order, however, all other sections of Revised Maximum Price Regulation No. 251, together with all amendments thereto that have been or may be issued, shall apply to sales covered by this order. As to such sales it also supersedes any other order issued under section 9 of Revised Maximum Price Regulation No. 251.

(j) This order may be revoked, amended, or corrected at any time.

This order as amended by Amendment No. 2 shall become effective February 17, 1946.

Issued this 5th day of February 1946.

FRANK H. SLOSS,

Acting Regional Administrator.
