### EXECUTIVE ORDER 9724

#### AMENDMENT OF EXECUTIVE ORDER NO. 9672 ESTABLISHING THE NATIONAL WAGE STABILIZATION BOARD

By virtue of the authority vested in me by the Constitution and the statutes, and as President of the United States, it is hereby ordered that paragraph 1 (c) of Executive Order No. 9672 of December 31, 1945, entitled "Establishing the National Wage Stabilization Board and terminating the National War Labor Board," be, and it is hereby, amended to read as follows:

"The public members of the Board shall receive compensation at the rate of \$10,000 per annum. The other members of the Board, while serving as such without other compensation from the United States, shall receive actual transportation and other necessary expenses, and \$25 per diem in lieu of subsistence, whether or not in a travel status."

This order shall become effective as of December 31, 1945.

### EXECUTIVE ORDER 9725

#### DESIGNATING THE ALIEN PROPERTY CUSTODIAN TO ADMINISTER THE POWERS AND AUTHORITY CONFERRED UPON THE PRESIDENT BY SECTIONS 20 AND 32 OF THE TRADING WITH THE ENEMY ACT, AS AMENDED

By virtue of the authority vested in me by Title III of the First War Powers Act, 1941 (50 U. S. C. App., Sup., 616 et seq.), as amended, by the Trading with the Enemy Act of October 6, 1917 (50 U. S. C. App., 1 et seq.), as amended, and as President of the United States, it is hereby ordered as follows:

The Alien Property Custodian is designated as the officer to administer the powers and authority conferred upon the President by section 20 of the Trading

with the Enemy Act, as amended by Public Law 322, 79th Congress, approved March 8, 1946, and by section 32 of the said act, as added by the said Public Law 322.

The Alien Property Custodian may delegate to officers and employees of the Office of Alien Property Custodian such functions as he may deem necessary to carry out the provisions of this order.

This order shall not be construed as revoking or limiting any power or authority heretofore delegated to the Alien Property Custodian.

HARRY S. TRUMAN

## Subchapter A—Income and Excess Profits Taxes

[T. D. 5514]

## PART 35—EXCESS PROFITS TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

## MISCELLANEOUS AMENDMENTS

In order to conform Regulations 112 (26 CFR, Cum. Supp., Part 35) to sections

122 (c) and 131 (b) of the Revenue Act of 1945 (Public Law 214, 79th Congress), approved November 8, 1945, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 35.701-1 the following:

SEC. 131. FISCAL YEAR TAXPAYERS. (Revenue Act of 1945.)

(b) *Excess profit tax*—(1) *In general.* Section 710 (a) (imposing the excess profits tax) is amended by inserting at the end thereof the following:

(7) *Taxable years beginning in 1945 and ending in 1946.* In the case of a taxable year beginning in 1945 and ending in 1946, the tax shall be an amount equal to that portion of a tentative tax, computed as if the law applicable to taxable years beginning on January 1, 1945, were applicable to such taxable year, which the number of days in such taxable year prior to January 1, 1946, bears to the total number of days in such taxable year.

(2) *Technical amendments.* (A) Section 2 (a) of the Tax Adjustment Act of 1945 (relating to the specific exemption) is repealed as of the date of its enactment.

(B) Section 710 (b) (1) (relating to the specific exemption) is restored to read as such paragraph read immediately prior to the enactment of the Tax Adjustment Act of 1945, to be effective, as so restored, as if section 2 (a) of the Tax Adjustment Act of 1945 had not been enacted.

SEC. 122. REPEAL OF EXCESS PROFITS TAX IN 1946. (Revenue Act of 1945.)

(c) *Unused excess profits credit for taxable year beginning after December 31, 1945.* Section 710 (c) (2) (defining the unused excess profits credit) is amended by inserting at the end thereof a new sentence reading as follows: "There shall be no unused excess profits credit for a taxable year beginning after December 31, 1946. The unused excess profits credit for a taxable year beginning in 1946 and ending in 1947 shall be an amount which is such part of the unused excess profits credit determined under the preceding provisions of this paragraph as the number of days in such taxable year prior to January 1, 1947, is of the total number of days in such taxable year."

PAR. 2. Section 35.710-1, as amended by Treasury Decision 5478, approved September 20, 1945, is further amended as follows:

(A) By striking paragraph (b) thereof and inserting in lieu thereof the following:

(b) \$10,000 if such taxable year is a taxable year beginning after December 31, 1943; or

(B) By striking paragraphs (c) and (d) thereof.

(C) By relettering paragraph (e) thereof as paragraph (c).

(D) By striking "The application of paragraph (d) of this section may be illustrated by the following example:" and by striking the example.

(E) By striking "and section 2 (b) of the Tax Adjustment Act of 1945" where it appears in the sentence beginning "See section 729 (b)."

PAR. 3. Section 35.710-3, as amended by Treasury Decision 5478, is further amended as follows:

(A) By inserting at the end of paragraph (a) the following new paragraph:

A corporation may have an unused excess profits credit for a taxable year beginning in 1946, which may be carried back to the two preceding taxable years, even though no excess profits tax is imposed for such taxable year. The unused excess profits credit for a taxable year beginning in 1946 is to be computed in the same manner as though an excess profits tax were imposed for such taxable year. In the case of a taxable year which begins in 1946 and ends in 1947, the unused excess profits credit will be an amount which is such part of the unused excess profits credit determined in the manner prescribed in the first or second paragraph of this paragraph, whichever is applicable, as the number of days in such taxable year prior to January 1, 1947 is of the total number of days in such taxable year. Thus, if a taxable year begins on December 1, 1946 and ends on November 30, 1947 and if the unused excess profits credit determined in the manner prescribed in the first paragraph of this paragraph is \$1,000, the unused excess profits credit for such taxable year will be  $31/365 \times \$1,000$ , or \$84.93. There will be no unused excess profits credit for a taxable year beginning after December 31, 1946.

(B) By inserting after the second sentence of the first paragraph of paragraph (b) the following new sentence: "There will be no unused excess profits credit carryback from any taxable year beginning after December 31, 1946."

(C) By inserting at the end of paragraph (b) the following footnote:

Under the provisions of section 122 of the Revenue Act of 1945 no excess profits tax will be imposed for any taxable year beginning after December 31, 1945 and there will be no unused excess profits credit for any taxable year beginning after December 31, 1946. Accordingly, there will be no unused excess profits credit carry-over or carry-back to any taxable year beginning after December 31, 1945, and there will be no unused excess profits credit carry-back from any taxable year beginning after December 31, 1946.

PAR. 4. Section 35.710-4, as amended by Treasury Decision 5386, approved July 1, 1944, is further amended as follows:

(A) By striking the heading of paragraph (c) and inserting in lieu thereof the following: "(c) *Taxable years beginning after December 31, 1943 and ending prior to January 1, 1946.*"

(B) By inserting "and ending prior to January 1, 1946," immediately following "December 31, 1943," where it appears in the first sentence of paragraph (c).

(C) By inserting immediately following paragraph (c) the following new paragraph:

(d) *Taxable years beginning in 1945 and ending in 1946.* In the case of a taxable year which begins in 1945 and ends in 1946, a tentative tax shall first be computed as if the law applicable to taxable years beginning on January 1, 1945 (see paragraph (c) of this section) were applicable to such taxable year. The excess profits tax for such taxable year shall be an amount equal to that portion of such tentative tax which the number of days in such taxable year prior to January 1, 1946 bears to the total number of days in such taxable year. Thus, if a taxable year begins on

February 1, 1945 and ends on January 31, 1946, a tentative tax shall first be computed under the provisions of paragraph (c) of this section. If such tentative tax is \$10,000, the excess profits tax for such taxable year will be 334/365 x \$10,000, or \$9,150.68.

(D) By relettering paragraph (d) as paragraph (e).

(Sec. 62 of the Internal Revenue Code (53 Stat. 32; 26 U.S.C. 62) as made applicable by section 729 (a) of the Internal Revenue Code (54 Stat. 989; 26 U.S.C. 729 (a)) and sections 122 (c) and 131 (b) of the Revenue Act of 1945 (Pub. Law 214, 79th Cong.))

Commissioner of Internal Revenue.

#### PART 802—GENERAL LICENSES EXPORTATION OF RELIEF SHIPMENTS

Section 802.30 *Exportation of relief shipments—"RLS"* is hereby amended in the following particulars:

Paragraph (a) is hereby amended to read as follows:

(a) A general license designated "RLS" is hereby granted to relief agencies registered with the President's War Relief Control Board authorizing the exportation of the commodities set forth in paragraph (b) of this section for relief or charity to all destinations except Japan: *Provided*, That the consignee of shipments exported under this section is a person or agency approved by the President's War Relief Control Board as being qualified to receive and assume full responsibility for the distribution of such commodities and to assure non-commercial distribution of such commodities free of cost to the person or persons ultimately receiving them: *And provided further*, That in the case of exportations to Germany under this section the shipments are consigned to the United Nations Relief and Rehabilitation Administration or to a person or agency approved as a consignee by the President's War Relief Control Board in care of the United Nations Rehabilitation Administration in Germany.

**PART 3290—TEXTILE, CLOTHING AND LEATHER**

[Conservation Order M-328B, Schedule C, as Amended May 16, 1946]

**SPECIAL PROGRAM FOR COTTON FABRICS FOR CIVILIAN APPAREL ITEMS**

§ 3290.120c *Schedule C to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in Order M-328B for manufacturers of civilian apparel made of cotton fabric to get preference ratings for fabric to make the items listed in this schedule. It also establishes set-asides for certain cotton fabrics for these items and for over-the-counter sale as piece goods. Order M-317A contains other provisions for set-asides and for accepting rated orders for cotton fabrics.

(b) *Definitions.* (1) "Fabric", unless otherwise designated, means a woven fabric twelve inches or more in width.

(2) "Cotton fabric" means any fabric containing less than 25% wool by weight, but of which the remaining fibers are 50% or more cotton by weight.

(3) "Cotton item" means an item of which more than 50% of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is cotton fabric.

(c) *Requirements for obtaining priorities assistance.* (1) When a fabric is removed from the fabric column for any item, each manufacturer must immediately cancel or unrate any unfilled orders for that fabric which he placed with ratings assigned under this Schedule for that item.

(2) Whenever a fabric is added to a Preference Rating Schedule for any item, an applicant who has filed an application for that item need not file a new application, but may send a letter to the Civilian Production Administration, Textile Division, Washington 25, D. C., requesting authorization to use the new fabric in place of or in addition to fabrics previously applied for. Where the change is only in the sley of the fabric, the authorization to be issued by the Civilian Production Administration will give effect to such change and no letter is required. The letter must specify the item number, the description of the item, the complete description of all of the authorized fabrics which the applicant wishes to use during the quarter and the number of linear yards of each fabric for which priorities assistance is requested. Such letter should be mailed within five days of the issuance date of an amendment incorporating additional fabrics for an item.

(3) [Deleted Apr. 3, 1946.]

(d) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get the particular cotton fabrics shown in the fabric column of the preference rating schedule to make the cotton items specified.

(2) The fabrics must be incorporated into an item produced for sale by the

manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration; or

(ii) The price specified in the Maximum Price column.

(3) [Deleted Apr. 3, 1946.]

(4) Manufacturers who did not manufacture an item in the base period must produce the item in the size assortments listed opposite each item in the size assortment column. Where 'normal industry practice' appears, the manufacturer should state his proposed sizes in the remarks section of Form CPA-3732. If his application is granted, he must comply with these size assortments.

(5) [Deleted May 16, 1946.]

(e) *Set-asides of cotton fabrics to fill rated or certified orders.* (1) Every producer of a cotton fabric listed in a Fabric Set-aside Table whether he sells it in the grey or finished state or uses it to manufacture civilian items shall set aside during the quarter stated for the purpose shown in Columns IV and V yardages of that fabric equal to at least the percentage shown of the yardage he produced during the preceding quarter or of his estimated production in that quarter, whichever is greater. Any producer who does not deliver the full yardages required during the applicable quarter must deliver in the next quarter a yardage of cotton fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter.

(2) *Set-asides for civilian apparel.* Only orders accompanied by Form CPA-4412 or Form CPA-4413 may be charged to the set-aside in Column IV of Fabric Set-Aside Table No. II. No producer need deliver or use to fill these orders more of any fabric than his set-aside for that fabric.

(3) *Set-asides for piece goods for over-the-counter sale.* Only orders accompanied by Form CPA-4414 or the following certificate may be charged to the set-aside in Column V of Fabric Set-Aside Table No. II:

The undersigned certifies subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code that in the \_\_\_ quarter of 1946 (insert applicable quarter) he will deliver at retail as over-the-counter piece goods, at not more than 60¢ a yard or his OPA ceiling price, whichever is lower, a yardage of cotton fabric at least equal to the yardage he orders for delivery in that quarter on orders bearing this certificate.

In addition the certificate must contain one of the following sentences:

He will not place orders bearing this certificate calling for delivery in this quarter of 1946 of a total of more than 300 yards of cotton fabric.

or

He will not place orders bearing this certificate calling for delivery in this quarter

of 1946 of a total of more cotton fabric than 50% of the yardage he purchased for over-the-counter piece goods sale in the first quarter of 1943 (or 1944)

or

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more cotton fabric than the greatest yardage he purchased for over-the-counter piece goods sales in any quarter of 1945.

or (for a veteran)

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more cotton fabric than the yardage he purchased for over-the-counter piece goods sale in his last full quarter before he entered the military service.

(4) When a producer has accepted orders accompanied by applicable CPA forms, to the extent of a set-aside for any fabric, he may not require any customer to furnish any of these forms as a condition of filling additional orders for that fabric.

(5) Any person giving a certificate under this schedule, including the certificate set forth in paragraph (e) (3) above and the certificates on applicable CPA forms, must use or dispose of fabric he gets with that certificate in accordance with its terms.

(f) *Deliveries by finished goods suppliers to fill rated or certified orders.*

(1) Every supplier of finished cotton fabric making the certification on Form CPA-4381 or CPA-4413 must, if possible, deliver during the applicable quarters on M-328B CC rated orders finished cotton fabric of the type covered by his purchase order in a yardage at least equal to the yardage which he orders for delivery in those quarters on orders accompanied by Form CPA-4381 or CPA-4413. Within this quantity M-328B CC rated orders must be accepted and filled in accordance with Priorities Regulation 1. Every supplier of finished cotton fabric making the certification on Form CPA-4380 or Form CPA-4414 must if possible deliver during the applicable quarters to persons who furnish the certificate set forth in paragraph (e) (3) above, or to persons who certify that they will sell only on orders bearing that certificate, finished cotton fabric of the type covered by his purchase order in a yardage at least equal to the yardage which he orders for delivery in those quarters on orders accompanied by Form CPA-4380 or 4414. In calculating the yardage of a particular fabric which he is required to deliver the supplier of finished fabric may take into consideration actual processing loss in finishing the fabric. Any supplier who does not deliver the full yardage required during the applicable quarter must de-

liver in the next quarter a yardage of finished cotton fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter. In the first twenty calendar days of that next quarter he must give preference to the extent of this undelivered yardage for M-328B ratings to orders bearing CC ratings assigned under the program for the previous quarter over orders rated CC for the current quarter's program.

(2) No supplier of finished cotton fabric is required to accept or fill M-328B CC rated or over-the-counter piece goods certified orders for a greater yardage of any type of finished cotton fabric listed on a Fabric Set-aside Table than the

yardage he is required to deliver on those orders under paragraph (f) (1) above.

(3) Any supplier of finished fabric who does not use the certification in Form CPA-4381 or CPA-4413, for a fabric must accept and fill all M-328B CC rated orders for that fabric in accordance with the provisions of Priorities Regulation No. 1. After a supplier of finished fabrics uses Form CPA-4381 or Form CPA-4413 on any of his purchase orders for a fabric he must not extend to any supplier on orders for that fabric, for delivery in the applicable quarter any CC ratings which he knows or has reason to believe were assigned under Order M-328B.

(g) *Restrictions on sale of student nurses' uniforms.* Student nurses' uniforms manufactured under Preference Rating Schedules Nos. 3 and 4 (items 42

through 47) may be sold only to hospitals or nurses' training schools; or to persons who furnish substantially the following certification on their purchase orders:

The purchaser represents to the seller and to the Civilian Production Administration that the student nurses' uniforms covered by this order will be sold only to hospitals or nurses' training schools or for ultimate delivery to such institutions.

The standard certification provided for in Priorities Regulation 7 must not be used instead of the above.

Issued this 16th day of May 1946.

## PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule K, as Amended May 16, 1946]

## SPECIAL PROGRAM FOR WOOL CIVILIAN ITEMS

§ 3290.120k *Schedule K to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in M-328B for manufacturers of civilian items manufactured from wool fabric to get preference ratings for wool fabric and for rayon and

cotton component fabrics to make the items listed in this schedule. It also establishes set-asides for certain wool fabrics for these items.

(b) *Definitions.* For the purpose of this schedule:

(1) "Fabric" unless otherwise designated, means a woven or knitted fabric 12 inches or more in width.

(2) "Wool fabric" means any fabric incorporating 25% or more by weight of new, re-processed or re-used wool fiber except upholstery pile fabrics and floor

coverings and blankets and felt. The term includes woolen and worsted fabrics.

(3) "Wool item" means an item of which 50% or more of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is made of woolen or worsted fabrics.

(4) "Tailor-to-the-trade" means a manufacturer who makes items to the individual measurements of the ultimate consumer, and who sells them to a distributor at a wholesale price.

(c) [Deleted Jan. 3, 1946.]

(d) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get wool fabrics listed on a Fabric Set-Aside Table to make the wool items specified in the preference rating schedule.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration.

(ii) The price specified in the maximum price column.

(3) Each manufacturer must use all the wool fabric he gets with CC ratings under this schedule to make the particular item for which the ratings were assigned, except as follows:

(i) Fabric obtained with ratings assigned for Items 3 or 4 in Preference Rating Schedule 2 for the second quarter of 1946 may be used to make Item 2 if he made Item 2 in his chosen base period; and

(ii) Fabric obtained with ratings assigned for Items 11 or 12 in Preference Rating Schedule 2 for the second quarter of 1946 may be used to make Item 10 if he made that item in his chosen base period.

(4) A manufacturer who did not manufacture an item in the base period must state his proposed production by size assortment per dozen in the "Remarks" section of Form CPA-3732. If his application is granted, he must comply with these size assortments.

(5) Priorities assistance will be given for the procurement of rayon and cotton broad woven fabrics for linings, facings, bindings, stays, pockets and other components made of broad woven fabric for incorporation into the number of units for which priorities assistance is granted. Ratings for component materials will be assigned and may be used only for rayon serges and twills, 38 to 140 sley, and for the following cotton fabrics: three-leaf silesia twills; three-leaf pocketing twills; sheeting, Class B, narrower than 42"; interlining flannels; three-leaf twills. Requests for this assistance shall be made on Form CPA-3732 in accordance with the instructions applicable to filling out that form. Manufacturers who are authorized to apply a CC rating to get wool fabrics for items under this schedule may immediately apply a CC rating to get the above component fabrics for those items, under the following rules. Applications for CC ratings for the second quarter of 1946 must include these component fabrics and must be filed by April 23, 1946. This advance CC rating may only be used to get the yardage of component fabrics needed to produce the number of units of the item which can be made from the yardage of body fabric for which the manufacturer is entitled to use CC ratings assigned under M-328B. In placing CC rated orders for component fabric under this paragraph (d) (5) for delivery in the

second quarter of 1946, manufacturers must file Form CPA-4412 with their purchase orders. Component fabrics purchased under this advance authorization, shall be deducted by the manufacturer from the total quantity for which priorities assistance for component fabrics is granted on Form CPA-3732. If the applicant does not receive a grant for the entire quantity thus rated he shall upon notification of his grant by the Civilian Production Administration immediately unrate or cancel orders for any undelivered quantities which are in excess of his grant.

(6) Producers of wool woven fabric shall file Form CPA-1420 by April 10, 1946. Producers of wool knitted fabric need not file Form CPA-1420 but must report to the Textile Division, Civilian Production Administration, Washington 25, D. C. by letter on or before April 10, 1946. This letter must state the yardage of each fabric listed on Fabric Set-aside Table No. II required to be set-aside to fill rated or certified orders under the provisions of paragraph (e) (1) below.

(7) [Deleted Apr. 3, 1946.]

(e) *Set-asides of wool fabrics to fill rated or certified orders.* (1) Every producer of wool fabric listed in a Fabric Set-aside Table, whether he sells it or uses it to manufacture civilian items, shall set aside during the quarter stated, for ultimate delivery on M-328B CC rated orders, a yardage of that fabric equal to at least the percentage shown in Column IV of the yardage he produced during the preceding quarter or of his estimated production in that quarter, whichever is greater. Any producer who does not deliver the full yardages required during the applicable quarter must deliver in the next quarter a yardage of wool fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter. No fabrics sold at more than the price specified in Column III may be charged to this set-aside.

(2) Only orders accompanied by Form CPA-4412 or Form CPA-4413 may be charged to the set-aside in Column IV of Fabric Set-aside Table No. II. No producer need deliver or use to fill these orders (i) any wool fabric not listed on a Fabric Set-Aside Table; (ii) more of any fabric listed on a Fabric Set-Aside Table than his set-aside for that fabric.

(3) When a producer has accepted orders accompanied by the applicable CPA forms to the extent of a set-aside for any fabric he may not require any customer to furnish any of these forms as a condition of filling additional orders for that fabric.

(4) Any person giving a certificate under this schedule, including the certificates on the applicable CPA forms, must use or dispose of fabric he gets with that certificate in accordance with its terms.

(f) *Deliveries by wool jobbers to fill rated orders.* (1) Every wool jobber making the certification on Form CPA-4381 or CPA-4413 must, if possible, deliver during the applicable quarters wool fabric of the type covered by his order in a yardage at least equal to the yardage which he ordered for delivery in those

quarters on orders bearing those certificates. Within this quantity M-328B CC rated orders must be accepted and filled in accordance with Priorities Regulation 1. A wool jobber who does not deliver the full yardages required during the applicable quarter must deliver in the next quarter a yardage of wool fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter. In the first twenty calendar days of that next quarter he must give preference, to the extent of this undelivered yardage for M-328B ratings, to orders bearing CC ratings assigned under the program for the previous quarter over orders rated CC for the then current quarter's program.

(2) No wool jobber is required to accept or fill M-328B CC rated orders for a greater yardage of any type of wool fabric listed on a Fabric Set-aside Table than the yardage he is required to deliver on those orders under paragraph (f) (1) above.

(3) Any wool jobber who does not use the certification in Form CPA-4381 or Form CPA-4413 for a fabric must accept M-328B CC rated orders for that fabric in accordance with the provisions of Priorities Regulation No. 1. After a wool jobber uses Form CPA-4381 or Form CPA-4413 on any of his purchase orders for a fabric he must not extend to any supplier on orders for that fabric for delivery in the applicable quarter any CC ratings which he knows or has reason to believe were assigned under Order M-328B.

(4) A wool jobber may not use the certification on Form CPA-4381 to order a total yardage of wool fabric of any type listed on the Fabric Set-aside Table greater than 85% of the yardage of that type of fabric delivered to him in the fourth quarter of 1945. A wool jobber may not use the certification on Form CPA-4413 to order for delivery in the second quarter of 1946 a yardage of wool fabric of any type listed on Fabric Set-aside Table No. II greater than the yardage of that fabric ordered by him on Form CPA-4381 in the first quarter of 1946.

(g) [Deleted Apr. 3, 1946.]

(h) *Acceptance of rated orders.* No supplier of wool fabrics may reject any M-328B CC rated orders for any fabric until he has accepted CC rated orders for the full yardage of that fabric he is required to set aside.

(i) *Special provisions for tailors-to-the-trade.* The Civilian Production Administration will grant priorities assistance to manufacturers who are tailors-to-the-trade to get wool fabrics listed under Reference No. 2 on Fabric Set-Aside Table No. II to make Item No. 1a on Preference Rating Schedule No. 2.

(j) *Special provision for persons who made military textile products.* Any person who produced on his own facilities in 1943, 1944 or 1945 textile products for the military services may qualify under

paragraph (d) of Order M-328B for priorities assistance under this schedule for sufficient wool fabric to operate at a minimum economic rate whether or not his total proposed production of all textile products exceeds an annual rate based on sales of \$250,000. Such a person may file his application for the second quarter of 1946 by June 5, 1946; and to be eligible for priorities assistance must conform to all the provisions of paragraph (d) of Order M-328B except (d) (3) (i).

#### PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule J, as Amended May 16, 1946]

#### SPECIAL PROGRAM FOR RAYON CIVILIAN ITEMS

§ 3290.120j *Schedule J to Order M-328B*—(a) *Explanation*. This schedule states the special rules in addition to those set forth in Order M-328B for

manufacturers of civilian items manufactured from rayon fabric to get preference ratings for rayon fabric for delivery beginning in the fourth quarter of 1945 to make the items listed in this schedule. It also establishes set-asides for rayon fabrics other than marquises for these items and for over-the-counter sale as piece goods. Order M-391 contains other provisions for set-asides and for accepting rated orders for rayon fabrics.

(b) *Definitions*. For the purpose of this schedule:

(1) "Fabric," unless otherwise designated, means a woven fabric 12 inches or more in width.

(2) "Rayon fabric" means any fabric containing less than 25% wool by weight but of which the remaining fibers are more than 50% of synthetic fiber (staple or continuous filament) by weight. For example, a fabric containing 20% wool, 41% rayon, and 39% cotton is rayon.

(3) "Rayon item" means an item of which more than 50% of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is made of rayon fabric.

(c) *General provisions*. (1) Preference ratings assigned under this schedule may be used only to get rayon fabrics to make the rayon items specified in the preference-rating schedule.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration; or

(ii) The price specified in the Maximum Price Column.

(3) [Deleted Apr. 3, 1946.]

(4) A manufacturer who did not manufacture an item in the base period must state his proposed production by size assortment per dozen in the "Remarks" section of Form CPA-3732. If his application is granted, he must comply with these size assortments.

(d) *Set-asides of rayon fabrics to fill rated or certified orders*. (1) Every producer of rayon fabric listed in a Fabric Set-aside Table whether he sells it in the grey or in the finished state or uses it to manufacture civilian items shall set aside during the quarter stated for the purpose shown in Columns III and IV yardages of that fabric equal to at least the percentage shown of the yardage he produced during the preceding quarter or of his estimated production in that quarter, whichever is greater. Any producer who does not deliver the full yardages required during the applicable quarter must deliver in the next quarter a yardage of rayon fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter.

(2) *Set-asides for civilian apparel*. Only orders accompanied by Form CPA-4412 or Form CPA-4413 may be charged to the set-aside in Column III of Fabric Set-Aside Table No. II. No producer need deliver or use to fill these orders more rayon fabric than his set-aside for that fabric.

(3) *Set-asides for piece goods for over-the-counter sale*. Only orders accompanied by Form CPA-4414 or the following certificate may be charged to the set-aside in Column IV of Fabric Set-Aside Table No. II.

The undersigned certifies subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code that in the \_\_\_\_\_ quarter of 1946 (insert applicable quarter) he will deliver at retail as over-the-counter piece goods at not more than \$1.25 a yard or his OPA ceiling price, whichever is lower, a yardage of rayon fabric at least equal to the yardage he orders for delivery in that quarter on orders bearing this certificate.

In addition the certificate must contain one of the following sentences:

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more than 300 yards of rayon fabric.

or;

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more rayon fabric than 50% of the yardage he purchased for over-the-counter piece goods sale in the first quarter of 1943 (or 1944).

or;

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more rayon fabric than the greatest yardage he purchased for over-the-counter piece goods sales in any quarter of 1945.

or (for a veteran)

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more rayon fabric than the yardage he purchased for over-the-counter piece goods sale in his last full quarter before he entered the military service.

(4) When a producer has accepted orders accompanied by the applicable CPA forms to the extent of a set-aside for rayon fabric he may not require any customer to furnish any of these forms as a condition of filling additional orders for that fabric.

(5) Any person giving a certificate under this schedule, including the certificate set forth in paragraph (d) (3) above and the certificates on the applicable CPA forms must use or dispose of fabric he gets with that certificate in accordance with its terms.

(e) *Deliveries by finished goods suppliers to fill rated or certified orders*. (1) Every supplier of finished rayon fabric making the certification on Form CPA-4381 or CPA-4413 must, if possible, deliver during the applicable quarters on M-328B CC rated orders finished rayon fabric of the type covered by his purchase order in a yardage at least equal to the yardage which he orders for delivery in those quarters on orders accompanied by Form CPA-4381 or CPA-4413. Within this quantity M-328B CC rated orders must be accepted and filled in accordance with Priorities Regulation 1. Every supplier of finished rayon fabric making the certification on Form CPA-4380 or Form CPA-4414 must, if possible deliver during the applicable quarters to persons

who furnish the certificate set forth in paragraph (d) (3) above, or to persons who certify that they will sell only on orders bearing that certificate, finished rayon fabric of the type covered by his purchase order in a yardage at least equal to the yardage which he orders for delivery in those quarters on orders accompanied by Form CPA-4380 or Form CPA-4414. In calculating the yardage of a particular fabric which he is required to deliver, the supplier of finished fabric may take into consideration actual processing loss in finishing the fabric. Any supplier who does not deliver the full yardage required during the applicable quarter must deliver in the next quarter a yardage of finished rayon fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter. In the first twenty calendar days of that next quarter he must give preference, to the extent of this undelivered yardage for M-328B ratings, to orders bearing CC ratings assigned under the program for the previous quarter over orders rated CC for the then current quarter's program.

(2) No supplier of finished rayon fabric is required to accept or fill M-328B CC rated or over-the-counter piece goods certified orders for a greater yardage of any type of finished rayon fabric listed on a Fabric Set-aside Table than the yardage he is required to deliver on those orders under paragraph (e) (1) above.

(3) Any supplier of finished fabric who does not use the certification in Forms CPA-4381 or CPA-4413 for rayon fabric must accept M-328B CC rated orders for that fabric in accordance with the provisions of Priorities Regulation No. 1. After a supplier of finished fabric uses Form CPA-4381 or Form CPA-4413 on any of his purchase orders for rayon fabric he must not extend to any supplier on orders for that fabric for delivery in the applicable quarter any CC ratings which he knows or has reason to believe were assigned under Order M-328B.

(4) Any finished goods supplier granted an authorization by the Civilian Production Administration under paragraph (i) of this schedule as amended January 18, 1946, may sell the yardage exempted by that authorization only to persons who give the following certification:

The undersigned certifies to the seller and to the Civilian Production Administration, subject to the criminal penalties of section 35(a) of the United States Criminal Code, that he will use the material covered by this purchase order only as linings for garments, or will deliver it only to persons who give this certificate.

Issued this 16th day of May 1946.

§ 3290.120 Conservation Order M-328B—(a) Explanation. This order (including the schedules and supplements) states the rules under which apparel and other textile end-product manufacturers may get preference ratings to make listed essential items under special programs. It also provides a method for retail sellers of over-the-counter piece goods to get certain fabrics. Set-asides are also established on producers of certain cotton, rayon and wool fabrics to channel them to the above uses. This Order M-328B states the general rules including those relating to the obtaining of priorities assistance and the use of such priorities assistance after it has been obtained. Other rules may be specified for a special program in a schedule of this order. If the rules set forth in a schedule differ from those specified in this order the provisions of the schedule govern.

(b) Definitions. For the purpose of this order and its schedules,

(1) "Special program" means a program approved by the Civilian Production Administration for the production with priorities assistance and the distribution of any item on a schedule of this order.

(2) "Priorities assistance" includes preference ratings, allocations and directions.

(3) "Manufacturer" means any person engaged in the United States in manufacturing for sale any item listed in a schedule of this order from material which has not been supplied directly or indirectly by the person acquiring the item.

A person is also deemed a "manufacturer" for the purpose of using a preference rating under this order, if he is engaged in the business of selling and having manufactured in the United States for his account an item listed in a schedule of this order from material which he owns or material which he directly or indirectly supplies to a contractor or contractors. In no event shall more than one person be deemed a "manufacturer" of the same units which one person fabricates in whole or in part and for which another person supplies the material.

(4) "Base period" means the past period of production which a manufacturer uses as a base in applying for priorities assistance under this order.

(5) "Base period manufacturer" means a manufacturer who applies for priorities assistance to make an item of the same class of material (cotton, rayon or wool) of which he was a manufacturer in the base period for sale at or below any price specified in the applicable schedule of this order.

(6) "Price" means the list price of the manufacturer to an unaffiliated purchaser. A purchaser is deemed affiliated with a manufacturer if he is an owned or controlled outlet or is an outlet which owns, controls or is subject to common control with the manufacturer.

A manufacturer who sells directly to consumers or to an affiliated purchaser may use two-thirds of the retail selling price as a manufacturer's equivalent selling price in applying for priorities assistance.

(7) "Item" means the article produced for civilian sale of the type, size, price and other description listed in a schedule.

(8) The terms "orders" or "purchase orders" include orders between branches or divisions of a company as well as orders from other companies.

(9) "Veteran" means any person who was in the Army, Navy, Marine Corps, Coast Guard or Merchant Marine on or after September 16, 1940, and was discharged or released under conditions other than dishonorable after active service of 90 days or more, or by reason of an injury or disability incurred in service in line of duty.

(c) *How to apply for priorities assistance.* (1) Applications for the second quarter of 1946 must be filed on Form CPA-3732 with the Textile Division, Civilian Production Administration, Washington 25, D. C., and should be postmarked not later than April 23, 1946, except that a veteran who was discharged from the military service on or after March 1, 1946, may file his application at any time before June 1, 1946. Also, if any item is added to a schedule during that quarter, applications for that item may be filed within 20 days after the item is added. Copies of the application form

CPA-3732 and other CPA forms used under this order may be procured by writing to the Civilian Production Administration, Washington 25, D. C.

(2) Each applicant must show on Form CPA-3732 his base period and base period production of an item under the following rules:

(i) If he was in business during at least 6 months of 1943 or 1944, he may apply for the items of which he was a manufacturer in any calendar quarter of either year, but must use the same quarter as his base period for all items under a single schedule to this order.

(ii) If he entered business after July 1, 1944, he may apply for the items of which he was a manufacturer in any calendar quarter after that. If he did not have a previous production record of an item and was initially granted priorities assistance under this order for the first quarter of 1946, he may use the production authorized for that quarter as his base period production even though he was unable to manufacture the item or items for which he was granted priorities assistance in that quarter. In any event he must use the same quarter as his base period for all items under a single schedule of this order.

(iii) If he is a veteran who closed his business when he entered the military service, he may use as his base period the last full calendar quarter in which he was a manufacturer of the items before his entry into military service.

(3) An applicant who produced on his own facilities in 1943, 1944 or 1945 textile products for the military services and who before then produced on his own facilities items listed on a schedule to this order may use as his base period the better of the two calendar quarters preceding the quarter when he started military production. If such a manufacturer increased his own facilities to produce military textile products, he may be eligible for a military credit, and should therefore attach a letter to his application on Form CPA-3732 showing all the following:

(i) The quantity of each textile product which he made for his own account in the better of the two calendar quarters preceding the quarter in which he first made textile products for the military services;

(ii) The average number of sewing machines he used in making each textile product reported under (i) above; and

(iii) The total number of sewing machines he operated in his best quarter during which he made textile products for the military services.

(4) An applicant who did not make an item applied for before the fourth quarter of 1945 must send with his application on Form CPA-3732 a certified or photostatic copy of the document furnished to him by the Office of Price Administration establishing his maximum average price for the category which includes that item, or his ceiling price. For items not covered by any price regulation which requires specific applications for a ceiling price or highest price line, the following certificate (signed as provided in

Priorities Regulation 7) must be furnished instead:

The undersigned certifies, subject to the criminal penalties of section 35 (A) of the United States Criminal Code, that he has met all the requirements of the Office of Price Administration for establishing ceiling prices for the items listed on the accompanying application.

(5) An applicant who does not own or control the facilities on which it is proposed to manufacture items applied for, must submit with his application form a signed statement from each person who owns or controls the facilities on which the items are to be produced. This statement must contain the following information:

(i) Each operation to be performed for the applicant.

(ii) The maximum quantity of each item applied for which he has agreed to produce for the applicant.

(iii) That he in fact owns the facilities or controls them under a rental or lease contract.

(6) A veteran should submit with his application a certified or photostatic copy of his discharge papers or other written evidence of his military service.

(d) *Policy in granting priorities assistance.* Within the available supply of materials for which ratings may be assigned, the following policy will apply:

(1) Base period manufacturers will generally be granted priorities assistance in proportion to their base period production of an item. Where an applicant is eligible for military credit under paragraph (c) (3), priorities assistance to him may be increased up to or above his base period production, in proportion to any additional facilities he acquired for the purpose of producing textile products for the military services. However, a manufacturer who qualifies under paragraph (d) (3) below may be granted priorities assistance for additional yardage to give him sufficient material to operate at a minimum economic rate.

(2) Applications from persons who are not base period manufacturers of an item will be denied, except where the applicant qualifies under paragraph (d) (3) below. Applicants (including Veterans) who do so qualify, may be given priorities assistance for sufficient material to enable them to operate at a minimum economic rate.

(3) To qualify under paragraph (d) (1) or (d) (2) above for priorities assistance to operate at a minimum economic rate, an applicant must meet both the following conditions:

(i) His total proposed production of all textile products (including items under M-328B programs) does not exceed an annual rate, based on sales, of \$250,000 and

(ii) The facilities with which the items will be produced are owned by the applicant, or are leased to him and the facilities are operated by the applicant and the employees are paid by him; provided that in any case the facilities were not used during any quarter beginning with the 4th quarter of 1945 more than 10% for the account of persons who supplied the applicant with materials.

(e) *Advance use of CC ratings for second quarter of 1946.* A manufacturer

may apply a CC rating for the second quarter of 1946 before the Civilian Production Administration assigns him a CC rating for that quarter only under the following rules:

(1) A manufacturer who received an allocation for the first quarter of 1946 for an item which is also on the preference rating schedule for the second quarter of 1946 in Schedules C, F, J or K, may immediately apply a CC rating for fabrics specified for that item under the following rules:

(i) He must file his application on Form CPA-3732 for that item by April 23, 1946.

(ii) He must not use this advance CC rating for more than 70% of the yardage of body fabric he was authorized under Directions 9 or 10 to M-328B to receive on CC rated orders in the first quarter of 1946 for an item on Schedule C, J or K. For an item on Schedule F he may not use this advance CC rating for more than 70% of the yardage for which he was assigned CC ratings on Form CPA-3732.

(iii) In placing orders under this advance authorization, a manufacturer must show on Form CPA-4412 (which he must file in accordance with paragraph (g) below) the case number which he was assigned for the first quarter of 1946, unless otherwise directed in writing by the Civilian Production Administration.

(2) A base period manufacturer who did not receive an allocation for the first quarter of 1946 for an item may apply a CC rating for the purchase of fabrics in the second quarter of 1946 for that item as soon as the Civilian Production Administration assigns him a case number in writing after receipt of his application on Form CPA-3732 for that item. He may apply this advance CC rating only for fabrics for which he makes application. He may not use this rating for a total yardage of fabrics of more than 50% of the total yardage of fabric he used in making that item in the base period.

(3) Fabrics purchased on an advance authorization under paragraphs (e) (1) or (e) (2) above shall be deducted by the manufacturer from the total quantity for which priorities assistance is granted pursuant to his application on Form CPA-3732. If the applicant does not receive a grant for the entire quantity thus rated, he shall upon notification of his grant by the Civilian Production Administration immediately unrate or cancel orders for any undelivered quantities which are in excess of his grant.

(f) *Rules applicable to manufacturers granted priorities assistance.* (1) A manufacturer who is assigned a preference rating under a schedule of this order may use that rating only to get the fabrics specified and may not use the fabrics for any purpose except to make the item for which the rating was assigned.

(2) All persons receiving priorities assistance for any quarter under a schedule of this order must as far as practicable

complete in that quarter all the items for which assistance was given. A manufacturer may, however, use valid CC ratings to get in the second quarter of 1946 any undelivered cotton, rayon, or wool fabric for which he was assigned a CC rating under this order and for which he was unable to get delivery in the first quarter of 1946.

(3) All items produced from material obtained with a rating assigned under a special program shall meet the same basic specifications, including standards of quality and workmanship, used by the applicant during the base period in producing such items for sale at the same prices, taking into account any subsequent adjustments by the Office of Price Administration.

(4) No manufacturer who uses a rating assigned under a schedule of this order may accept delivery of any finished material which is suitable for an item for which priorities assistance has been granted whether rated or unrated if together with material on hand it will give him more than the smaller of the following:

(i) A practicable minimum working inventory, or

(ii) The quantity required by him during the next 45 days on the basis of his current or scheduled rate of production. Such material on hand includes material wherever located if title has passed to the manufacturer except material in transit to him from his supplier.

No manufacturer who uses a rating assigned under a schedule of this order may make an item if his inventory of the item in the form in which he sells it is or will be more than a practicable minimum working inventory or the quantity which he produced during the previous 21 working days, whichever is less.

(5) Items produced from material procured with priorities assistance shall, to the extent called for by the customers' orders, be made in the same size ranges and in the same proportion of size ranges and assortment of sizes as the manufacturer produced in the base period. If he did not produce the item in the base period, he must comply with the size ranges and assortments of sizes which the Civilian Production Administration may specify for the particular item.

(6) Every manufacturer who is entitled to use a CC rating under this order to get fabric in any quarter must apply this rating to orders already placed before he places any additional rated orders for that fabric. If he is unable to use all his CC ratings on outstanding orders he must place rated orders for the balance before he places any unrated orders for that fabric.

(7) Whenever a Preference Rating Schedule is deleted, fabric obtained with CC ratings to make an item on that schedule must be used to make the item as shown on the Preference Rating Schedule before it was deleted.

(g) *Application and extension of preference ratings.* The preference ratings assigned under this order shall be applied and extended in accordance with the provisions of Priorities Regulation No. 3 but subject to the limitations stated below:

(1) No person may use, apply or extend any CC rating, or accept any CC rated order, if he knows or has reason to believe the rating was assigned under Order M-328B unless the purchase order is accompanied by Form CPA-4382 (for 1st quarter of 1946 ratings) or Form CPA-4412 (for 2nd quarter 1946 ratings). In executing Form CPA-4412 a manufacturer certifies as follows:

The undersigned purchaser hereby represents to the seller and to the Civilian Production Administration, subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code, that he is entitled to apply the CC preference rating indicated opposite items shown on the attached purchase order for the yardage specified above; and that such application is in accordance with Priorities Regulation 3 as amended, with the terms of which he is familiar; that the total of all textiles ordered by him under the above number does not exceed his assigned quota under M-328B; (that he has applied CC ratings to all his unfilled orders for this fabric); and that the textiles will be incorporated into an item for which authorization is given.

(2) A supplier of fabric who does not extend the rating must complete Form CPA-4382 or Form CPA-4412 in accordance with its instructions and forward one copy immediately to the Textile Division, Civilian Production Administration, Washington 25, D. C.

(3) [Deleted Apr. 3, 1946.]

(h) *Set-asides and certificates.* (1) Some of the schedules of this order have set-asides which apply to producers and suppliers of fabric. These set-asides are of two kinds, one for orders rated CC under this order or for orders certifying the fabrics will be used in a program under this order, and one for piece goods for over-the-counter sale at retail. Every producer and supplier of fabrics subject to these set-asides must deliver his fabrics in accordance with the provisions of the applicable schedule to persons who furnish the rating or certificate specified, even though he may have higher rated orders for other purposes.

(2) Any producer accepting an order accompanied by a certificate on Form CPA-4381, CPA-4382, CPA-4412 or CPA-4413 (for M-328B programs) or Form CPA-4380 or CPA-4414 (for over-the-counter sales as piece goods) must fill out a copy of that form in accordance with its instructions and send it to the Textile Division, Civilian Production Administration, Washington 25, D. C.

(3) Each producer of fabric who is required by a schedule of this order to set aside fabrics shall file a report on Form CPA-658B (for cotton), CPA-658C (for cotton and rayon), or CPA-1420 (for wool), in accordance with its instructions. The yardage reported on that Form as the calculated set-aside shall be deemed the yardage he is required to set-aside under the applicable schedule of this order unless otherwise directed by the Civilian Production Administration.

(4) No finished goods supplier may sell from his set-aside obligation for over-the-counter sales as piece goods to

<sup>1</sup> The words in parenthesis shall merely be deemed a statement that he has complied with paragraph (f) (6) above.

any one person who certifies that he will sell fabric as piece goods on over-the-counter retail sales more yardage of any fabric than 10% of the total yardage of his set-aside obligation of that fabric for these sales.

(5) After a producer has accepted any order accompanied by Form CPA-4381 or CPA 4380, or for the second quarter of 1946, Form CPA-4413 or CPA-4414 he may schedule it for delivery as if it bore a CC rating, and charge it against his set-aside.

(6) No person may deliver or accept any fabric on an order accompanied by a Form or certificate prescribed by this order or its schedules if he knows or has reason to believe that the fabric will not be used for the purpose specified on the Form or certificate.

(7) Suppliers of fabric may apply to the Textile Division, Civilian Production Administration, Washington 25, D. C., on Form CPA-4351 for relief from the set-aside requirements for fabrics if:

(i) A fabric which they are required to set-aside is unsuitable because of construction or price for the purpose for which it is set aside, or

(ii) If its inclusion in the set-aside would work an unreasonable hardship on manufacturers of an item not included in a schedule of Order M-328B.

Applications for such exemption must be filed not later than April 25, 1946 for exemptions from the set-aside for the second quarter of 1946. Whenever an application is made to exempt a fabric because of its unsuitability for any item in the program a small sample of each type and construction bearing the OPA ceiling price must be attached to the application form. When permission for a change in the yardage to be delivered under a set-aside is given to a person who has purchased material on a certification, the Civilian Production Administration may notify the person who filled the certified order of the exemption and direct him to reinstate the exempted yardage in his set-aside.

(8) Each producer of fabric who is required to set aside fabrics under the provisions of a schedule of this order shall, to the extent orders chargeable to the set-aside are offered, accept them by April 30, 1946. To the extent that customers' orders permit, suppliers of grey fabric and finished fabric shall schedule and make deliveries so that at least two-thirds of the quantity to be delivered during any quarter on M-328B CC rated orders and certificates (including piece goods certificates) will be delivered by the end of the second month of the quarter.

(9) Whenever a Fabric Set-aside Table is deleted, each producer of fabric who is required to set aside fabrics under that table must comply with the provisions of this order and its schedules and the provisions of the Fabric Set-aside Table as shown before it was deleted.

(10) At the end of each month a producer of fabric (or his selling agent acting in his behalf) who, during that month, has accepted certified retailers' orders for such fabric for ultimate sale as piece goods, for delivery during the sec-

ond quarter of 1946, must report such orders by letter to the Civilian Production Administration, Washington 25, D. C. Attention: Textile Division, Ref. M-328B, not later than the 10th of the following month. The total yardage accepted during the month must be reported separately for each fabric listed on the fabric set-aside tables.

(i) Equitable distribution by manufacturers. All items made with material obtained with a preference rating assigned under this order must be distributed without regard to any preference ratings and each manufacturer must distribute his production of the item (including any production of the same item which he may have made without a rating) as follows:

(1) Up to 90 percent of sales of each item in each calendar quarter must be made to customers who purchased that item or any other textile product for civilian sale in the United States, its territories and possessions, from the manufacturer during the base period, to the extent that orders are received from such customers. However, the manufacturer need not sell any customer an amount which will be a greater percentage of the manufacturer's total sales for the period than the percentage of the manufacturer's total sales which were made to the same customer in the calendar year which includes the base period.

(2) As between such customers, each customer shall be entitled to a dollar share of the sales referred to in (1) above up to the percentage which the customer's total purchases from the manufacturer in the base period was of the manufacturer's total sales in that quarter.

(3) Any manufacturer may base his distribution under this paragraph on his style seasons instead of calendar quarters, but must treat all customers on the same basis. A manufacturer shall not be required to sell smaller than commercial quantities. The manufacturer may not discriminate against any of his customers in notifying the trade that he has the items available for sale or in making deliveries or allocating his production. If the manufacturer was not, in the base period, in the business of manufacturing an item for which a preference rating is assigned under this order, he shall not sell to any one purchaser more than 10 percent of his total production of any item he produces with a rating (including any part of his production of the same item which he may have made without the rating). Purchasers who are subject to common control shall be deemed one purchaser. Further specific directions may be issued as to the distribution of items.

(4) No manufacturer may sell any item produced with priorities assistance granted under a schedule of this order for export to a foreign country, or to a person, whom the seller has reason to believe, will export it to a foreign country.

(j) Records and reports. (1) Each person who uses a preference rating assigned under this order shall maintain at his regular place of business, accurate

records of the quantities of material for which he is authorized under this order to apply preference ratings, the quantities ordered with the use of such ratings, the quantities received and the quantities put into process. He shall also maintain records of the quantities of each item manufactured from the material obtained with the rating. All these records shall be preserved for a period of not less than two years and shall, upon request, be submitted to audit and inspection by duly authorized representatives of the Civilian Production Administration.

(2) The reporting and application requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Subject to the approval of the Bureau of the Budget under this act, all persons affected by this order shall execute and file with the Civilian Production Administration such other reports as the Civilian Production Administration shall from time to time require.

(k) Applicability of regulations. Except as otherwise provided in this order, this order and all transactions affected thereby are subject to all applicable regulations of the Civilian Production Administration as amended from time to time.

(l) Appeals. Any person who considers that compliance with any restriction of this order or its schedules, would work an exceptional and unreasonable hardship, may appeal for relief. The appeal shall be made by filing a letter in triplicate with the Appeals Branch, Textile Division, Civilian Production Administration, Washington 25, D. C., referring to the particular provision appealed from, and stating fully the grounds of the appeal.

(m) Violations. Any person who willfully violates any provisions of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priority assistance.

(n) Communications. All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: Textile Division, Civilian Production Administration, Washington 25, D. C., Reference M-328B.

Issued this 16th day of May 1946.

ADMINISTRATION,

Recording Secretary.

• Interpretation 1

ACCEPTANCE AND FILING OF RATED ORDERS, AND  
COMPLETION AND DELIVERIES OF APPAREL

(a) Purpose. This interpretation calls particular attention to certain rules concerning the acceptance and filing of rated orders, and their application to orders for textiles assigned CO preference ratings under

several schedules to Order M-328B; and also to certain rules requiring apparel manufacturers to complete their operations as rapidly as practicable.

To insure the success of the low price civilian apparel programs provided by the schedules, these rules must be observed. Any person who wilfully violates them, or who, in connection with the rules, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is subject to administrative action and the penalties referred to in § 944.18 of Priorities Regulation 1 and paragraph (m) of Order M-328B.

Any supplier who has inadvertently failed to comply with these and other applicable Civilian Production Administration rules should immediately take any steps necessary to make his operations conform to them.

(b) *Compulsory acceptance of rated orders.* The rules concerning compulsory acceptance of rated orders (that is, orders carrying an AAA, MM, or CC preference rating) are stated in § 944.2 of Priorities Regulation 1. It must be noted that a rated order which meets the supplier's regularly established prices and terms of sale or payment may not be rejected merely because he would prefer to hold back his goods from sale until a later date when he may hope that tax laws, his OPA ceiling prices, or other factors will change so as to enable him to make a larger profit.

(c) *Offering of goods.* A supplier may not evade the acceptance and filling of rated orders by withholding his production or offerings of low cost goods suitable for low cost apparel.

In addition, when a person who has a rating asks a supplier of textiles to quote his regularly established prices and terms of sale or payment, or the earliest date on which he could make delivery on that rating, the supplier must do so; he may refuse to quote only if he would have the right under the applicable rules, to reject the rated orders and also knows that he will do so if he receives it.

(d) *Rated orders must be given priority over unrated ones.* A rated order must be accepted and filled regardless of existing contracts and orders, in accordance with the rules in § 944.2 of Priorities Regulation 1. For example, if a supplier has accepted an unrated order for fabric and has a rated order served upon him, he may not reject the rated order merely because filling it would require him to use some or all of the fabric

which he planned to use to fill the unrated order.

(e) *Customer's required delivery date must be met, if possible.* A supplier must schedule his operations, if possible, so as to fill each rated order by the required delivery or performance date, as explained in § 944.7 of Priorities Regulation 1. He must also accept orders and schedule and make deliveries in accordance with paragraph (h) (8) of M-328B. If he cannot fill all rated and unrated orders, he must give preference to the rated ones.

(f) *Operations of apparel manufacturers; inventories of manufacturers, mills, converters, and other suppliers.* The attention of apparel manufacturers using ratings under M-328B Schedules is particularly called to the production preference and inventory rules in paragraphs (f) (2) and (f) (4) of M-328B, and in Priorities Regulation 32. A manufacturer of items within the programs provided for by these schedules must purchase materials for these programs for delivery before materials to be used for items not within the programs, to the full extent necessary to comply with the rule in (f) (2) of M-328B; and must complete the items within the programs in accordance with that rule, even if this results in postponing or delaying production of items not within the programs. A delay in processing material or in making deliveries of completed apparel may involve a violation of Priorities Regulation 32 and of paragraph (f) (4) of M-328B prohibiting the receipt or accumulation of excessive inventories. Priorities Regulation 32 applies equally to suppliers of gray or finished fabrics and manufacturers of apparel not within these programs.

(g) *Other rules.* All of the rules concerning the acceptance and filling of rated orders and the accumulation of excessive inventories, are, of course, not referred to above, and reference must be made to the Priorities Regulations, orders in the M-328 series, and other orders such as L-99, and M-317. The rules specifically referred to are those to which attention is particularly called at this time, in view of their important current application to orders rated CC under the M-328B programs. Some of these rules are qualified to the extent that a special rule, such as those in Schedule C, J, or K of Order M-328B, may permit a supplier to reject rated orders in excess of a specified quantity of his receipts or production. ### PART 1388—DEFENSE-RENTAL AREAS

[Housing, Amdt. 87]

#### HOUSING

The Rent Regulation for Housing is amended in the following respects:

1. Section 7 (a) is amended by adding the following paragraph:

On or after June 1, 1946, the provisions of this section 7 shall apply to all housing accommodations in the Cincinnati Defense-Rental Area.

2. Section 7 (c) (3) is eliminated.

3. Item 227 in Schedule A of the Rent Regulation for Housing is amended to read as follows:

Name of defense-rental area	State	County or counties in defense-rental area under rent regulation for housing	Maximum rent date	Effective date of regulation	Date by which registration statement to be filed (inclusive)
(227) Cincinnati...	Ohio.....	Butler, Clermont, Hamilton, and Warren.	Mar. 1, 1942..	Nov. 1, 1942..	May 31, 1943, except registrations required by Amendment 87 which must be filed by July 15, 1946.
	Kentucky...	Boone, Campbell, and Kenton.	Mar. 1, 1942..	Nov. 1, 1942..	May 31, 1943, except registrations required by Amendment 87 which must be filed by July 15, 1946.

This amendment shall become effective June 1, 1946.

Issued this 15th day of May 1946.

### PART 1351—FOOD AND FOOD PRODUCTS

[RPS 91, Amdt. 7]

#### TEA

A statement of the considerations involved in the issuance of this amendment

<sup>1</sup> 8 FR. 1981, 3178.

issued simultaneously herewith has been filed with the Division of the Federal Register.

Revised Price Schedule No. 91 is amended in the following respects:

1. Section 1351.259 is amended to read as follows:

§ 1351.259 *Definitions.* When used in Revised Price Schedule 91 the term:

(a) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States government or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(b) "Import" means to transport into the continental United States from any

place outside thereof. Teas entered in a custom's bonded warehouse, or placed in a foreign trade zone, or in a general order warehouse shall be considered as "imported".

(c) "Cost of putting the tea into the warehouse", in United States, includes (1) labor in and out; (2) trucking and labor costs from dock to warehouse; and (3) warehouse storage charges actually incurred but not to exceed 2½ months.

(d) Qualified distributors shall be those named by the Department of Agriculture.

(e) "Foreign seller's agent" means the United States agent of a person exporting tea from India or Ceylon.

(f) "Importer" means the person by whom a commodity is imported and who first sells it after importation.

2. Section 1351.261 is amended to read as follows:

§ 1351.261 *Appendix A: Maximum prices for tea*—(a) *Maximum import prices for India and Ceylon Teas imported by private trade.* The maximum prices, f. o. b. steamer India or Ceylon port, above which no person, either as principal or agent, may purchase and import into the continental United States (except as provided for in subparagraph (1)), the teas described below shall be:

	In cents per pound of tea		
	Fair	Medium	Fine
Northern India:			
Leaf.....	33½	35½	40½
Broken.....	30½	33½	38½
Ceylon:			
Leaf.....	39½	42	45½
Broken.....	40½	42½	46½
Southern India (Travencore):			
Leaf.....	32½	34½	38½
Broken.....	32½	34	37½

These prices are in cents per pound, f. o. b. steamer India or Ceylon port, basis net shipping weight, and include all commissions and charges to that point.

A foreign seller's agent's commission not to exceed \$0.0090 per pound, if incurred, may be paid by the importer to the foreign seller's agent in addition to the maximum prices if the services of a foreign seller's agent were used to negotiate sales for the agent's principal prior to 1942.

(1) *Exceptions to the maximum import prices.* A "line" of teas which has been purchased or contracted to be purchased at a price in excess of the applicable maximum import price, may be imported provided the importer's "weighted average import price" for a "category" of teas imported during a particular "averaging period" does not exceed the applicable maximum import price.

A "line" is an individual garden lot within a category.

A "category" is any one of the 18 subdivisions of teas listed in § 1351.261 (a), such as "India fine leaf" or "Ceylon fair broken".

"Averaging periods" are the following:

For teas grown in Ceylon and Southern India (Travencore), the months of (1)

May through October, and (ii) November through April, inclusive.

For teas grown in Northern India, the months of (iii) May through December, and (iv) January through April, inclusive.

"Weighted average import price" for a category is the average of all f. o. b. steamer India or Ceylon port prices paid or contracted to be paid by that importer for a category of tea which he has imported into the continental United States during an averaging period, determined by dividing the total amount of dollars paid or contracted to be paid, f. o. b. steamer India or Ceylon port, by the number of pounds of tea of that category imported by him during the averaging period.

All persons availing themselves of this exception shall report to the Imported Foods Section, Office of Price Administration, Washington 25, D. C., on or before the 25th day of August, November, February, and May, for each of the categories of tea imported during the previous three calendar months, (a) the total amount of dollars paid or contracted to be paid, computed on an f. o. b. steamer India or Ceylon port basis; (b) the net weight of tea imported; (c) the highest and the lowest "line" prices paid; and (d) the weighted average import price for the category.

(b) *Maximum prices for India and Ceylon Teas after importation.* Maximum prices, ex dock continental United States port of entry, for sales of teas specified in paragraph (a) after importation into the continental United States, shall be the total of (1) the price actually paid for the "line," f. o. b. steamer India or Ceylon port; (2) actual landing costs consisting of ocean freight, war risk and marine insurance charges incurred from the port of origin to the continental United States port of entry; and (3) the amounts specified below for the appropriate category.

	In cents per pound of tea		
	Fair	Medium	Fine
Northern India:			
Leaf.....	0.0300	0.0330	0.0360
Broken.....	.0300	.0300	.0330
Ceylon:			
Leaf.....	.0310	.0335	.0390
Broken.....	.0310	.0335	.0390
Southern India (Travencore):			
Leaf.....	.0300	.0330	.0360
Broken.....	.0300	.0330	.0360

For the purpose of substantiating the price actually paid, f. o. b. steamer India or Ceylon port for a "line," every person selling the teas specified in paragraph (a) shall keep and make available for examination by the buyer, his foreign seller's invoice containing full descriptions of the "line" and the prices paid.

(c) *Maximum import and selling prices for teas other than India and Ceylon teas imported by private trade.* Maximum prices for the teas described below shall be:

	Cents per pound ex dock New York City		
	Common	Medium	Fine
Java and Sumatra:			
Broken Orange Pekoe.....	40½	42½	51
Broken Pekoe.....	41½	44½	51
Fannings.....	41½	44½	51
Orange Pekoe.....	41½	44½	51
Pekoe.....	41½	44½	51
Flowery Pekoe.....	41½	44½	51
Flowery Pekoe Souehong.....	41½	44½	51
Pekoe Souehong.....	41½	44½	51
Other Souehongs.....	41½	44½	51
China:			
Young Hyson.....	27½	35½	48½
Congou.....	41	45	57
Gun Powder No. 1.....	48	48	48
Gun Powder No. 2.....	41	41	41
Gun Powder No. 3.....	38	38	38
Gun Powder No. 4.....	35	35	35
Gun Powder No. 5.....	32½	32½	32½
Gun Powder No. 6.....	31½	31½	31½
Gun Powder No. 7.....	29	29	29
Gun Powder No. 8.....	27½	27½	27½
First Imperial.....	33½	33½	33½
Second Imperial.....	30½	30½	30½
Third Imperial.....	27½	27½	27½

These maximum prices are in cents per pound ex dock New York City, basis net landed weights, and include all commissions and charges to that point, except that increases in the charges prevailing prior to the opening of business on December 8, 1941, for ocean freight, war risk insurance, and marine insurance may be added to the maximum prices if such charges have been actually incurred by the seller on such sale. Decreases in said charges prevailing prior to the opening of business on December 8, 1941, shall be subtracted from the maximum prices.

(d) The maximum prices for tea imported from any country other than those named in paragraphs (a) and (c), or for grades not named in those paragraphs, shall be the prices at which sales of those grades were made in New York on October 15, 1941 or in the event no such sale was made on that date, the prices at which sales of the corresponding grades were last made in New York City prior to October 15, 1941.

(e) The maximum prices for teas specified in paragraphs (c) and (d) ex dock any port of entry other than New York City shall be determined by adding to or subtracting from the New York City price the difference between the actual cost of ocean freight, war risk insurance, and marine insurance from the port of origin to New York City and the actual cost of ocean freight, war risk insurance, and marine insurance from the port of origin to such other port of entry.

(f) For any of the teas specified in paragraphs (a), (c) and (d) sold ex warehouse rather than ex dock New York City or any other port of entry, the cost of putting the tea into the warehouse as defined in § 1351.259 may be added by the seller who incurred the cost.

(g) The delivered price for tea shall in no case exceed the maximum prices specified plus actual transportation charges incurred from the dock or warehouse at New York City or other port of entry to the place of destination.

(h) Any person making a sale and delivery of tea of ten chests or less may add to the maximum price for that sale

an amount which shall not exceed 10% of such maximum price. However, such an addition may be made for only one such sale and delivery to any one buyer during a calendar month.

(i) Any person who, for the accommodation of his customers, blends tea for sale in quantities of more than half chest lots, may add to the maximum price an amount which shall not exceed one cent per pound.

(j) The maximum prices at which a person may export the teas specified in paragraphs (a), (c) and (d) shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.

3. Section 1351.255 is amended to read as follows:

§ 1351.255 *Prohibition against evasions.* (a) The price limitations set forth in this price schedule shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to any tea items, prices for which are established by this regulation, alone or in conjunction with any commodity, or by way of any commission, service, transportation, or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

(b) No person shall offer, sell or deliver any item of tea on condition that the purchaser is required to purchase another category or categories of tea or any other commodity.

This amendment shall become effective May 21, 1946.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 16th day of May 1946.

#### Chapter XXIII—War Assets Administration

[SPA Reg. 1, Amdt 3]

#### PART 8301—DESIGNATION OF DISPOSAL AGENCIES AND PROCEDURES FOR REPORTING SURPLUS PROPERTY LOCATED WITHIN THE CONTINENTAL UNITED STATES, ITS TERRITORIES AND POSSESSIONS

Surplus Property Administration Regulation 1, November 10, 1945, entitled "Designation of Disposal Agencies and Procedures for Reporting Surplus Property Located Within the Continental United States, Its Territories and Possessions", as amended through March 16, 1946 (10 F.R. 14064, 11 F.R. 2602, 3035), is hereby further amended in the following respects:

1. Section 8301.2 (b) is amended by adding three new subparagraphs to be designated (9), (10) and (11) which shall read as follows:

(9) All structures and improvements which have been declared surplus and assigned to a disposal agency, and which such disposal agency has determined are to be demolished. Upon such a determination, the disposal agency shall forward to the War Assets Administration, Washington 25, D. C., a declaration of surplus covering such structures and improvements.

(10) Marine industrial real property (including buildings and fixtures) such as shipyards, ship repair yards, and marine terminals.

(11) Personal property (including machinery, equipment, and materials and products finished or in process) which is declared as surplus as a part of marine industrial real property.

2. Section 8301.2 (c) is amended to read as follows:

(c) *Ships and maritime personal property.* The United States Maritime Commission is hereby designated as the disposal agency for ships and maritime personal property, except maritime personal property declared as surplus as a part of marine industrial real property. The general class of property, "Ships and maritime personal property", includes property assigned to the Maritime Commission by Order 1<sup>1</sup> under this part.

3. Paragraph (h) of § 8301.2 is hereby revoked.

##### Chapter II—Forest Service

##### PART 221—TIMBER

##### MANAGEMENT PLANS, SUSTAINED YIELDS, AND COMMUNITY AND INDUSTRIAL STABILITY; EXPORTATION OF NATIONAL FOREST TIMBER

By virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat. 35, 16 U.S.C. 476, 551), as amended and supplemented, the act of February 1, 1905 (33 Stat. 628, 16 U.S.C. 472), the act of March 4, 1917 (39 Stat. 1145, 16 U.S.C. 491), and the act of April 12, 1926 (44 Stat. 242, 16 U.S.C. 616), I, Clinton P. Anderson, Secretary of Agriculture, do hereby amend Regulation S-2 of the rules and regulations governing the occupancy, use, protection and administration of the national forests, which constitutes § 221.2, Chapter II, Title 36, Code of Federal Regulations, by deleting the last sen-

<sup>1</sup> 10 F.R. 14064; 11 F.R. 2602, 3035.

tence thereof and adding the following paragraph:

§ 221.2 *Management plans, sustained yields, and community and industrial stability; exportation of national forest timber.* \* \* \*

Unless prohibited by specific instructions from the Secretary of Agriculture, timber lawfully cut on any national forest, except the national forests in Alaska, may be exported from the State or Territory where grown. Timber cut from the national forests in Alaska shall not be exported from the Territory of Alaska in the form of logs, cord wood, bolts or other similar raw products necessitating primary manufacture elsewhere without the prior consent of the regional forester when the timber sale project involved is within his authorization to sell or the Chief of the Forest Service when a larger timber sale project is involved. In determining whether consent will be given to the export of such products consideration will be given, among other things, to whether such export will (1) permit of a more complete utilization of material on areas being logged primarily for products for local manufacture, (2) prevent the loss or serious deterioration of logs unsaleable locally because of an unforeseen loss of market, (3) permit the salvage of timber damaged by wind, insects or fire, (4) bring into use a minor species of little importance to local industrial development, (5) provide material required to meet national emergencies or to meet urgent and unusual needs of the nation.

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the City of Washington, this 16th day of May 1946.

# FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 7490]

KSAL, Inc.

## ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of KSAL, Inc. (KSAL), Salina, Kans., for construction permit. File No. B4-P-4364, Docket No. 7490.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of March 1946;

The Commission having under consideration the application of KSAL, Inc. (KSAL) (File No. B4-P-4364; Docket No. 7490) for construction permit to increase power from 1 kw to 5 kw, install a new transmitter and directional antenna for night use, and change its transmitter location operating on the frequency 1150 kc at Salina, Kansas;

It is ordered, That this application be designated for hearing in a consolidated proceeding with the applications of Fostoria Broadcasting Company (File No. B2-P-4430; Docket No. 7356); Northwestern Ohio Broadcasting Corporation (File No. B2-P-4447; Docket No. 7357), and WOOP, Inc. (File No. B2-P-3987; Docket No. 6824) on the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors, and stockholders, to construct and operate Station KSAL as proposed.
2. To determine the areas and populations which would gain or lose primary service through the operation of Station KSAL as proposed and what other broadcast services are available to those areas and populations.
3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the areas and populations proposed to be served.
4. To determine whether the operation of Station KSAL as proposed would involve objectionable interference with any existing or proposed broadcast service, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.
5. To determine whether the proposed operation of Station KSAL would involve objectionable interference with any existing foreign broadcast station under the provisions of the North American regional broadcasting agreement.
6. To determine whether the erection of the antenna system proposed would be consistent with the Civil Aeronautics Administration requirements.

7. To determine whether the installation and operation of Station KSAL as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

8. To determine, upon a comparative basis, which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the bills of particulars heretofore issued in these proceedings be, and the same are hereby, amended to include the application of KSAL, Inc. (KSAL), (File No. B4-P-4364; Docket No. 7490).

By the Commission.

NORTHERN OHIO BROADCASTING CO.

## ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Northern Ohio Broadcasting Company, Amherst, Ohio, for construction permit. File No. B2-P-4193; Docket No. 7495.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 3d day of April 1946;

The Commission having under consideration an application for construction permit (File No. B2-P-4193, Docket No. 7495) of Northern Ohio Broadcasting Company for a new standard AM broadcast station at Amherst, Ohio; to operate on 1040 KC, with power of 1 KW, LS, Des Moines, Iowa.

It is ordered, That this application be designated for hearing in a consolidated proceeding with the application of LCB Inc. (File No. B2-P-4636, Docket No. 7496) on the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate the proposed station.
2. To determine the areas and populations which would gain primary service through the operation of the proposed station and what other broadcast services are available to those areas and populations.
3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the areas and populations proposed to be served.
4. To determine whether the operation of the proposed station would involve objectionable interference with any existing station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.
5. To determine whether operation of the proposed station would involve objectionable interference with the service of the station proposed in any pending applications, particularly with the new

station proposed at Lorain, Ohio (File No. B2-P-4636; Docket No. 7496), and, if so, the nature and extent, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning Standard Broadcast Stations.

7. To determine the hours of operation that should be assigned the proposed station.

8. To determine on a comparative basis, which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

PLAINS EMPIRE BROADCASTING CO.

## ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Plains Empire Broadcasting Company, Amarillo, Tex., for construction permit. Docket No. 7527, File No. B3-P-4551.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of April 1946;

The Commission having under consideration the above-listed application of Plains Empire Broadcasting Company for a construction permit to erect a new standard broadcast station at Amarillo, Texas, to operate on 1320 kc, with a power of 500 watts night—1 kw to local sunset, using directional antenna at night, unlimited time;

It is ordered, That the said application be designated for hearing upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.
2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.
3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the areas and populations proposed to be served.
4. To determine whether the operation of the proposed station would involve objectionable interference with Station XERJ, Mazatlan, Sinaloa, Mexico, and, if so, the nature and extent thereof.
5. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations in the United States and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of

other broadcast service to such areas and populations.

6. To determine whether the operation of the proposed station would involve objectionable interference with the operation proposed by Station KGKY, Scotts Bluff, Nebraska, or any other pending application, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

7. To determine whether the installation and operation of the proposed station would be in accordance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

S. H. PATTERSON (KVAK)

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of S. H. Patterson (KVAK), Atchison, Kans., for construction permit. Docket No. 7562, File No. B4-P-4317.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 2d day of May 1946;

The Commission having under consideration the above-entitled application for a construction permit to change the frequency of Station KVAK at Atchison, Kansas, from 1450 kc to 1200 kc, increase power to 1 kw, and to change hours of operation from unlimited time to daytime only, contingent upon the granting of the pending application of S. H. Patterson (File No. B4-P-4389) for a construction permit for a new standard broadcast station to be operated on the frequency 1440 kc, with 5 kw power, employing a directional antenna for nighttime use, unlimited time, at Topeka, Kansas;

It is ordered, That the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the applications for construction permits of Earl C. Dunn, Charles W. Rossi, H. B. Lockhart and E. C. Hughes, d/b as Nueces Broadcasting Co. (KEYS) (File No. B3-P-3999) to increase power to 5 kw day, 1 kw night, and to install a new antenna system and transmitter at a new location; Amarillo Broadcasting Corporation (KFDA) (File No. B3-P-4353) to change frequency from 1230 kc to 1440 kc, and to increase power from 250 w to 1 kw night, 5 kw Local Sunset, unlimited time; and S. H. Patterson (File No. B4-P-4389) for a new standard broadcast station to be operated on frequency 1440 kc, with 5 kw power, employing a directional antenna for nighttime use, unlimited time, at Topeka, Kansas; upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate Station KVAK as proposed.

2. To determine the areas and populations which may be expected to gain or

lose primary service from the operation of Station KVAK as proposed and the nature and extent of other broadcast service available to those areas and populations.

3. To determine whether Station KVAK as proposed would render primary service within the areas and to the populations proposed to be served by the new station at Topeka, Kansas, proposed in the said pending application of S. H. Patterson (File No. B4-P-4389), and the extent thereof.

4. To determine whether the operation of Station KVAK as proposed would involve objectionable interference with any other existing broadcast service and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Station KVAK as proposed would involve objectionable interference with any pending applications for broadcast facilities and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station KVAK as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

MUTUAL TELEPHONE CO., AND R. C. A. COMMUNICATIONS, INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re applications of Mutual Telephone Company, for construction permit for new fixed point-to-point radiotelephone station at Honouliuli, Oahu, T. H.; Docket No. 7555, File No. 335-PHP-A;

R. C. A. Communications, Inc., for renewal of license for fixed point-to-point radiotelephone station at Kahuku, T. H.; File No. P5-RH-28.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of May 1946;

The Commission having under consideration the application of Mutual Telephone Company for construction permit for a new point-to-point radiotelephone station in the fixed public service at Honouliuli, Oahu, Territory of Hawaii, (File No. 335-PHP-A), and the application of RCAC Communications, Inc. for renewal of its outstanding license for its point-to-point radiotelephone station in the fixed public service, located at Kahuku, Territory of Hawaii (File No. P5-RH-28);

It appearing that the frequencies requested by Mutual Telephone Company for its proposed station are presently assigned to the point-to-point radiotelephone station in the fixed public service at Kahuku, T. H. licensed to RCA Communications Inc. until December 1, 1946, and that a grant of the above-described application of Mutual Telephone Company would require the modification or nonrenewal of license of such radiotelephone station of RCA Communications, Inc.; and

It further appearing, that the Commission, upon examination of the above-described applications, is unable to determine that public interest, convenience or necessity would be served by a grant of one, rather than the other of the aforesaid applications;

*It is ordered*, That the above-described applications of Mutual Telephone Company and RCA Communications Inc. be and they are hereby designated for hearing for the following reasons:

1. To determine the comparative ability of the respective applicants to provide public radiotelephone service between Hawaii and the continental United States in the public interest, in the light of all the pertinent factors relating to such determination, including, but not limited to the following:

(a) The comparative quality and reliability of public telephone service proposed to be rendered by the respective applicants between Hawaii and the continental United States.

(b) The relative efficiency with which the frequencies requested in the respective applications would be used by each of the applicants for communication purposes.

(c) The amount of expense and investment related to the operations and facilities involved in the respective applications.

(d) The relative ability of the respective applicants to provide reductions in rates for public telephone service between Hawaii and the continental United States and to provide expansion of radio telephone service between Hawaii and other points in the world.

(e) The specific plans and programs of the respective applicants for providing future improvements and expansions in radiotelephone service to and from Hawaii and for providing reductions in rates for such service.

(f) The effect on quality, reliability, and cost of rendering telephone service to and from Hawaii of placing all telephone equipment and operations in Hawaii under unified control.

(g) The effect on quality, reliability and cost of rendering telephone service to and from Hawaii of maintaining under unified control and operation Hawaiian terminals for overseas radiotelegraph and radio telephone service.

2. To determine the effect on other radio services in Hawaii of establishing radiotelephone stations at the location proposed by Mutual Telephone Company.

3. To determine any other relevant facts which would indicate that public interest, convenience or necessity would be better served by a grant of one, rather than the other of the above-mentioned applications.

*It is further ordered*, That Mutual Telephone Company and RCA Communications, Inc., be, and they are hereby, afforded an opportunity to obtain a hearing on the foregoing issues by filing a written appearance in accordance with the provisions of §§ 1.384 and 1.10 of the Commission's rules and regulations.

#### KING-TRENDLE BROADCASTING CORP.

##### PUBLIC NOTICE CONCERNING TRANSFER OF CONTROL

Public notice concerning proposed transfer of control of King-Trendle Broadcasting Corporation<sup>1</sup> (Licensee of AM Broadcasting Stations WXYZ, Detroit, and WOOD, Grand Rapids, Mich.)

The Commission hereby gives notice that on May 6, 1946, there was filed with it an application (B2-TC-490) for its consent under section 310 (b) of the Communications Act (47 U. S. C. A. 310) to the proposed transfer of control of King-Trendle Broadcasting Corporation, licensee of AM Stations WXYZ, Detroit, and WOOD, Grand Rapids, Michigan, from Geo. W. Trendle, John H. King, H. Allen Campbell and Howard O. Pierce (transferors) to American Broadcasting Company, Inc. (transferee), 30 Rockefeller Plaza, New York, N. Y. The arrangements for transfer of control of the above stations are based upon a contract entered into April 24, 1946 between transferors and transferee, pursuant to which it was agreed that the former would sell to the latter all of the outstanding 100,000 shares of common voting stock of licensee for \$3,650,000.00. Of this amount purchasers agreed to deposit with the Detroit Trust Company \$100,000.00 for the joint account of purchasers and sellers; \$3,400,000.00 is to be paid upon transfer of the stock on three days notice by either party following Commission approval of the application, on or before January 1, 1947, when the \$100,000.00 down-payment above referred to is to be released to sellers. Sixty days following such transfer, \$100,000.00 is to be paid to sellers. The balance of \$50,000.00 is to be held by purchasers until such time as Federal income and excess profits taxes of licensee for all years ending on or before December 31, 1945 have been finally determined. Any excess of such taxes over those heretofore paid or reported shall be paid out of the \$50,000.00 and the balance thereupon to be paid by purchasers to sellers. Payments un-

der the contract are to be apportioned to sellers as their stock interests appear. In the event Commission approval is not obtained on or before January 1, 1947 the agreement shall terminate and the down-payment returned to purchasers. Upon the transfer of the stock, written resignations of the officials of licensee are to be delivered. Further details concerning the application and negotiations between the parties may be found with the application and papers on file at the offices of the Commission.

In the Commission's decision of September 6, 1945, granting the application for transfer of control of the Crosley Corporation (Docket No. 6767), it was announced that public hearings would be held to consider new rules and regulations for the handling of assignment and transfer applications including provision for public notice by the applicant and by the Commission of the filing of such applications and pertinent details in cases where a controlling interest is involved. Thereafter, on October 3, 1945, the Commission also gave public notice (10 F.R. 12926) that pending the issuance of such proposed new rules, hearing thereon, and final adoption, consideration of such applications would be deferred unless applicants desired to follow the procedure proposed in the Crosley decision and supplement their applications so as to come within the framework of the announced procedure, including the provision for public notice. Pursuant thereto, the Commission was advised May 6, 1946 that starting on May 10, 1946 notice of the filing of the application would be published in the Detroit Free Press, Detroit, Michigan and the Grand Rapids Herald, Grand Rapids, Michigan, newspapers of general circulation in those areas, in conformity with the provisions of the proposed rules.

In accordance with the procedure proposed in the Crosley decision and that announced in the Commission's release, no action will be had in the instant application for a period of 60 days from May 10, 1946, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above-described contract. [Docket No. G-723]

#### UNITED GAS PIPE LINE CO.

##### NOTICE OF APPLICATION

MAY 14, 1946.

Notice is hereby given that on May 6, 1946 an application was filed with the Federal Power Commission by United Gas Pipe Line Company (hereinafter referred to as the "Applicant" or "United Company"), a Delaware corporation, with its principal place of business at 1525 Fairfield Avenue, Shreveport, Louisiana, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the Applicant to construct and operate a natural-gas pipe line extension from Applicant's natural-gas pipe line system to connect Hayes Field in Calcasieu and Jefferson Davis Parishes, Louisiana, and additions to Applicant's Iowa compressor station in Jefferson Davis Parish, Louisiana, hereinafter more particularly described, which, if constructed, are to be used to make available to Applicant additional gas reserves and delivery capacity under a purchase contract with Gulf Refining Company dated March 26, 1946, under which Applicant estimates it may attain a maximum daily delivery of 60,000 Mcf of natural gas from the said Hayes Field.

Applicant owns and operates a natural-gas pipe-line system situated in the States of Alabama, Florida, Louisiana, Mississippi and Texas, including particularly, main gas transmission lines extending from a point on Applicant's Latex-Beaumont line, near the town of Kirbyville, Jasper County, Texas, to the town of Franklin, St. Marys Parish, Louisiana, serving an area designated as Applicant's "Southwest Louisiana District."

The facilities which the United Company seeks authorization to construct and operate are described as follows:

(1) *Hayes Gas Field Extension.* Construct approximately 16.6 miles of 12 $\frac{3}{4}$ " O. D. x 33.38# grade B seamless natural gas transmission pipe line, and paralleling telephone line, beginning at the outlet side of a Dehydration Plant proposed to be constructed by Applicant in Hayes Gas Field near section 18, Township 11 South, Range 5 West, Calcasieu Parish, Louisiana, and extending in a north-

<sup>1</sup> Section 1.364, Part I, Rules of Practice and Procedure.

erly direction to Applicant's Iowa Compressor Station, located in section 25, Township 8 South, Range 6 West, Jefferson Davis Parish, Louisiana.

At the present time Applicant proposes to operate the said 12 $\frac{3}{4}$ " natural gas transmission pipe line with an inlet pressure of approximately 670 pounds per square inch gauge and an outlet pressure of approximately 600 pounds per square inch gauge at Applicant's said Iowa Compressor Station. With these pressures it is estimated that the said 12 $\frac{3}{4}$ " line will have a maximum capacity of 62,000 Mcf per day.

(2) *Additions to Iowa Compressor Station.* Applicant proposes to enlarge its Iowa Compressor Station by the installation of an addition of approximately 850 horsepower and appurtenant equipment.

Applicant proposes to operate said additional 850 horsepower with pressures of 375 pounds per square inch gauge suction and 600 pounds per square inch gauge discharge, under which conditions said additional horsepower will have a maximum capacity of approximately 32,000 Mcf per day.

The United Company in its application states that it desires to augment the gas reserves presently connected with and supplying its Southwest Louisiana District by constructing the proposed pipeline extension to the Hayes Field. In addition to supplying its customers in its Southwest Louisiana District, Applicant transports natural gas from that district into the State of Texas, and says that in order to increase its delivery capacity of its call Junction-Franklin line into its Latex-Beaumont line it proposes to enlarge its Iowa compressor station by the addition of approximately 850 horsepower.

Applicant has submitted with its application its gas purchase contract with Gulf Refining Company dated March 26, 1946, covering the purchase of natural gas produced in the Hayes Field. Under this contract Applicant estimates there is an available reserve of approximately 500 billion cu. ft. of natural gas, and further estimates that the maximum daily delivery of natural gas from the wells under said Gulf contract in said Hayes Field proposed to be connected will be approximately 60,000 Mcf. Applicant estimates that the proposed 12 $\frac{3}{4}$ -inch line will have a maximum daily delivery of approximately 62,000 Mcf. Natural gas reserves in said Hayes Field not under contract to United Company, Applicant estimates, approximates 50 billion cu. ft.

The estimated over-all capital cost of the proposed facilities is \$635,405. The proposed new transmission line, Applicant estimates, will cost \$429,799, appurtenant communication equipment \$12,329, and the additional five 170 horsepower compressor units to Iowa compressor station, \$193,277. The cost of these new facilities Applicant proposes to finance out of cash on hand. Applicant did not include in its application any estimates of the total revenues expected from the proposed new facilities to be constructed, or any estimates as to total fixed charges or operating expenses.

United Gas Pipe Line Company in its application says that it does not propose to make any sales directly from the proposed facilities, other than such sales as may arise from farm tap service, and such other sales as may be advisable in the future, and says that it does not contemplate making any change in present rates for gas sold from existing facilities as the result of the addition of the proposed new facilities.

The proposed connection of the said Hayes Field with its transmission system, the United Company says, will make available to it additional gas reserves and delivery capacity, which, Applicant says, is a matter of good operating practice.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of the United Gas Pipe Line Company should, on or before the 31st day of May 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

[Docket No. G-724]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION

MAY 14, 1946.

Notice is hereby given that on May 6, 1946, an application was filed with the Federal Power Commission by United Gas Pipe Line Company (hereinafter referred to as "Applicant" or "United Company"), a Delaware corporation, with its principal place of business at 1525 Fairfield Avenue, Shreveport, Louisiana, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the Applicant to construct and operate certain natural-gas pipeline extensions from Applicant's natural-gas pipeline system to connect Baxterville Field in Lamar and Marion Counties and Gwinville Field in Jefferson Davis County, Mississippi, and additions to Applicant's Hattiesburg compressor station, Perry County, Mississippi, and the Laurel Loop line, Jones County, Mississippi, hereinafter more particularly described which, if constructed, are to be used to make available to Applicant additional gas reserves and delivery capacity, under a purchase contract with Gulf Refining

Company, dated March 26, 1946, under which Applicant estimates it may attain a maximum delivery of 75,000 Mcf from the Baxterville Field and 63,000 Mcf from the Gwinville Field.

Applicant owns and operates a natural-gas pipe-line system situated in the States of Alabama, Florida, Louisiana, Mississippi and Texas, including particularly, main gas-transmission lines extending from Lirette area, Terrebonne Parish, Louisiana, and from northern Louisiana, respectively, to the Cities of Mobile, Alabama and Pensacola, Florida, serving an area designated as Applicant's "Jackson District Market".

The new facilities and proposed operation for which United Company seeks authorization are described as follows:

(1) *Baxterville Project.* Construct approximately 10.3 miles of 12 $\frac{3}{4}$ " O. D. x 33.38# grade B seamless natural gas transmission pipe line complete with two 10 $\frac{3}{4}$ " x 54.74# grade B seamless pipe lines across Pearl River, beginning near section 12, Township 1 North, Range 17 West at the outlet of Baxterville Gas Field, and extending in a westerly direction, crossing Pearl River to a point where Applicant proposes to install a 48" Gas Scrubber and a 10" Check Measuring Station at the point of connection with Applicant's Bogalusa 10" natural gas transmission line at approximately mile post 51.4. Mile post 51.4 is located in section 7, Township 1 North, Range 14 East, all in Marion County, Mississippi.

At the present time Applicant proposes to operate said 12 $\frac{3}{4}$ " natural gas transmission line with an inlet pressure of approximately 550 pounds per square inch gauge and an outlet pressure of approximately 505 pounds per square inch gauge at the point of connection with the said Bogalusa 10" line. With these pressures it is estimated that the said 12 $\frac{3}{4}$ " line will have a maximum capacity of 51,000 Mcf per day.

(2) *Gwinville Project.* Construct approximately 13.6 miles of 10 $\frac{3}{4}$ " O. D. x 24.6# grade B seamless natural gas transmission pipe line, and paralleling telephone line, beginning at the outlet side of a Dehydration Plant proposed to be constructed by Applicant in Gwinville Gas Field near section 16, Township 9 North, Range 18 West, Jefferson Davis County, Mississippi, and extending in a northeasterly direction through portions of Jefferson Davis, Covington, Simpson, and Smith Counties to a proposed 10" Check Measuring Station at the point of connection with Applicant's Benton Junction-Mobile 16" main gas transmission line at approximately mile post 82. Mile post 82 is located in section 16, Township 10 North, Range 16 West, Smith County, Mississippi. Applicant also proposes to install a 48" scrubber and an 8" Check Measuring Station at the point of connection with Applicant's Jackson-Hattiesburg 8" natural gas transmission line at the point said lines intersect each other near section 34, Township 10 North, Range 17 West, Simpson County, Mississippi.

At the present time Applicant proposes to operate the said 10 $\frac{3}{4}$ " natural gas transmission line with an inlet pressure of approximately 610 pounds per square

inch gauge and with outlet pressures of approximately 460 pounds per square inch gauge at the point of connection with the said Jackson-Hattiesburg 8" line, and approximately 406 pounds per square inch gauge at the point of connection with the said Benton Junction-Mobile 16" line. With these pressures it is estimated that the said 10 3/4" line will have a maximum capacity of 74,000 Mcf of gas per day with a delivery of 31,000 Mcf per day to the said Jackson-Hattiesburg 8" line and 43,000 Mcf per day to the said Benton Junction-Mobile 16" line.

(3) *Hattiesburg Project.* Applicant proposes to make additions to its Hattiesburg Compressor Station by the installation of one 1,000 H. P. C. & G. Cooper eccentric type horizontal twin tandem double acting gas engine compressor, change cylinders on present compressors to suit new station load conditions, make 34' extension to present compressor building, extend present cooling tower an additional 24' in length, replace present 600 G. P. M. centrifugal water pumps with pumps of a total capacity of 1,050 G. P. M., rearrange piping in compressor station yard, install one additional 48" Gas Scrubber on inlet side of station, and construct two additional five-room residences for employees. Applicant's Hattiesburg Compressor Station is located in section 6, Township 5 North, Range 11 West, Perry County, Mississippi.

At the present time Applicant proposes to operate the said Hattiesburg Compressor Station with an inlet pressure of approximately 210 pounds per square inch gauge and an outlet pressure of approximately 425 pounds per square inch gauge. With these pressures it is estimated that the said compressor station with 2350 H. P. will have a maximum capacity of 55,000 Mcf per day.

(4) *Laurel Project.* Construct approximately 2.9 miles of 12 3/4" O. D. x 33.38# grade B seamless natural gas transmission pipe line, beginning at the end of the present loop on Applicant's Laurel Tap Line in section 28, Township 8 North, Range 12 West, and extending in a northeasterly direction, parallel to said Laurel Tap Line, to a point of connection where Applicant's 6" line extends to the City of Laurel and Applicant's 8" line extends to Masonite Corporation. The said connection is located at approximately mile post 12.1 on said Laurel Tap Line in section 14, Township 8 North, Range 12 West, all in Jones County, Mississippi.

At the present time Applicant proposes to operate said 12 3/4" extension as a loop to said Laurel Tap Line with a 24 hour average inlet pressure of 257 pounds per square inch gauge and a 24 hour average outlet pressure of approximately 150 pounds per square inch gauge at Applicant's measuring station located at Masonite Corporation. With these pressures, it is estimated that the capacity of said Laurel Tap Line will be 28,000 Mcf per day. The maximum demand on this line during the 1945-46 season was 21,449 Mcf. Applicant estimates that the demands on this line during the 1946-47 season will be increased as follows:

No. 97—4

Cities of Laurel and Ellisville.....	Mcf
Masonite Corporation.....	950
Total.....	5,600

United Company in its application states there are no gas reserves located within the States of Alabama, Florida or Mississippi which are presently connected with its gas lines located within its so-called Jackson District. Market area with the exception of the Jackson Field, near Jackson, Mississippi, in which the reserves have heretofore been substantially exhausted since the year 1939. Applicant has submitted with its application its gas purchase contract with Gulf Refining Company dated March 26, 1946, covering the purchase of natural gas produced in the Baxterville and Gwinville Fields in Mississippi. United Company estimates that the total natural-gas reserves in the Baxterville Field are approximately 171 billion cubic feet, and in the Gwinville Field approximately 1,177 billion cubic feet. Under its purchase contract with Gulf Refining Company, Applicant estimates there is available to it a reserve of approximately 80 billion cubic feet in the Baxterville Field and approximately 303 billion cubic feet in the Gwinville Field.

United Company estimates that the maximum daily delivery capacity of natural gas from the wells under its Gulf contract, in the said Baxterville Field proposed to be connected to its proposed 12 3/4" line will be approximately 75,000 Mcf, and it is estimated that said line will have a maximum daily delivery capacity of 51,000 Mcf. From the wells under the Gulf contract in the Gwinville Field, Applicant estimates that the maximum daily delivery capacity of natural gas will be approximately 63,000 Mcf, and it is estimated that the proposed 10 3/4" line to that field will have a maximum daily delivery capacity of approximately 74,000 Mcf.

The annual requirements of natural gas necessary to meet the demand in its Jackson District Market area, United Company says, increased from 15,170,000 Mcf in 1939 to 51,840,843 Mcf in 1945, with the following peak day delivery and peak day demands for that area for the years 1940 and 1945, as follows:

Year	Peak day demand	Peak day delivery
1940.....	Mcf 92,837	Mcf 92,837
1945.....	234,396	189,858

Applicant in its application estimates its peak day demand in the 1946-47 season in its Jackson District Market area will be 265,896 Mcf.

The proposed connection of the Baxterville and Gwinville Fields with its transmission system, United Company says, will make available additional gas reserves to meet a portion of the present increased demands of its Jackson District Market area, and will also be of assistance in minimizing service interruptions due to failure of existing facilities.

The estimated over-all capital cost of the proposed facilities is \$318,615. The

proposed new line to the Gwinville Field, Applicant estimates, will cost \$263,018, the line to the Baxterville Field \$281,696, the addition of a 1,000 H. P. unit to the Hattiesburg compressor station \$211,440, and the Laurel Loop line \$62,461. The cost of these new facilities Applicant proposes to finance out of cash on hand. Applicant did not include in its application any estimates of the total revenues expected from the proposed new facilities to be constructed or any estimates as to total fixed charges or operating expenses.

United Gas Pipe Line Company in its application says that it does not propose to make any sales directly from the proposed facilities, other than such sales as may arise for farm tap service and such other sales as may be advisable in the future, and says that it does not contemplate making any change in present rates for gas sold from existing facilities as the result of the addition of the proposed new facilities.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of United Gas Pipe Line Company should, on or before the 31st day of May 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

## OFFICE OF PRICE ADMINISTRATION.

[Order 111 Under Order 375 Under 3 (b)]

### HOMESPUN FRUIT PRODUCTS CO.

Order No. 111 under Order No. 375 of § 1499.3 (b) of the General Maximum Price Regulation. Homespun Fruit Products Company. Docket No. 6035.2-GMPR-ORD 375-408.

For the reasons set forth in an opinion issued simultaneously herewith, it is ordered:

Authorization of maximum prices governing sales of "Homespun fruit drink."

(a) The maximum delivered prices for

sales indicated below per case containing twelve (12) one-fifth gallon bottles of "Homespun Fruit Drink" a beverage having four flavors, namely: lemon-lime, mixed fruit, grape and orange, manufactured by Homespun Fruit Products Company, 4743 Brooklyn Avenue, Los Angeles 22, California, in accordance with statements submitted in its price application shall be as follows:

Sales by—	To—	Maximum delivered price
Homespun fruit products Co.	Wholesalers, wagon wholesalers, chain stores and cooperatives.	\$2.04
Wholesalers and wagon wholesalers.	Independent retailers.	\$2.46
Chain stores, cooperatives and independent retailers.	Consumers.....	\$3.31 \$3.72

<sup>1</sup> Per case.

<sup>2</sup> Per bottle.

(b) F. o. b. plant maximum prices may be determined by deducting \$0.10 (freight charge) from the above delivered maximum prices.

(c) The prices established in this order are the highest prices for which "Homespun Fruit Drink" may be sold by the respective sellers. All sellers on sales of this item shall reduce the above appropriate maximum prices by applying discounts, allowances and price differentials which have been customarily applied on sales of other comparable beverages. In the application of any customary differential, the specific maximum prices established by this order must not be exceeded.

(d) Homespun Fruit Products Company shall mail or otherwise supply to its purchasers at the time of or prior to the first delivery to such purchasers the following notice:

The Office of Price Administration has authorized us to sell our "Homespun Fruit Drink" to wholesalers, wagon wholesalers, chain stores and cooperatives at a maximum delivered price of \$2.04 per case containing twelve one-fifth gallon bottles. The maximum delivered price for wholesalers and wagon wholesalers as authorized, on sales of the same item to independent retailers, is \$2.46 per case containing twelve one-fifth gallon bottle, each. The maximum delivered price for chain stores, cooperatives and independent retailers on sales of the same item to ultimate consumers is \$0.31 per bottle or \$3.72 per case containing twelve one-fifth gallon bottles, each. F. o. b. plant maximum prices are determined by deducting \$0.10 freight charge from the above maximum prices of each case. On sales of this item all sellers are required to reduce their maximum prices by applying their customary discounts, allowances and price differentials which have been applied to sales of comparable beverages.

(e) Homespun Fruit Products Company for a period of at least sixty days shall place in or on each case distributed through a wholesaler or wagon wholesaler a notice as follows:

The Office of Price Administration authorized wholesalers and wagon wholesalers to sell to independent retailers "Homespun Fruit Drink" at a maximum delivered price of \$2.46 per case containing twelve one-fifth gallon bottles. Retailers are authorized to

sell this item to consumers at the following maximum prices: \$0.31 per bottle; \$3.72 per case.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective May 16, 1946.

NOTE: This action has the prior written approval of the Secretary of Agriculture (10 F.R. 8419, 9419, 10961, 12305).

Issued this 15th day of May 1946.

MARKEL ELECTRIC PRODUCTS, INC.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 203 under Revised Supplementary Order No. 119. Docket No. 6123-SO 119-54. Adjustment of maximum prices for sales of electric lighting fixtures and electric wall heaters manufactured by Markel Electric Products, Incorporated of Buffalo, New York.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 13 of Revised Supplementary Order No. 119, it is ordered:

(a) Maximum prices for Markel Electric Products, Incorporated, of Buffalo, N. Y. (1) The above manufacturer may determine his maximum prices for his line of products by increasing by the following percentages his prices on these items in effect on October 1, 1941 to each class of purchaser: Electric lighting fixtures—18.9 percent and electric wall heaters—19.6 percent.

(2) Since the provisions of this order are not intended to reduce properly established maximum prices, the manufacturer may continue to use as his maximum prices to each class of purchaser his properly established prices in effect under Maximum Price Regulation No. 591 in the event that such prices exceed the prices in effect to each class of purchaser on October 1, 1941 plus the increase provided for in (1) above.

(3) The maximum prices set forth above shall be subject to discounts and allowances including transportation allowances and price differentials which are at least as favorable as those the manufacturer extended or rendered or would have extended or rendered to each class of purchaser on commodities in the same general category during March 1942.

(b) Resellers' maximum prices. All resellers of the commodities covered by this order (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their presently established maximum prices the actual dollars-and-cents increase in cost resulting from the adjustment granted the manufacturer by this order.

(c) Notification to all purchasers. The manufacturer shall send the following notice to every purchaser of the com-

modities covered by this order at or before the time of the first invoice after the adjustment granted by this order is put into effect:

Order No. 203 under Revised Supplementary Order No. 119 authorizes the following percentage increases in October 1, 1941, net prices for sales of these products manufactured by this company: electric lighting fixtures 18.9 percent and electric wall heaters 19.6 percent.

Resellers (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their existing maximum prices the actual dollars-and-cents increase in cost resulting from the adjustment granted by Order No. 203.

(d) All prayers for relief not granted herein are denied.

(e) This order may be amended or revoked by the Price Administrator at any time.

This order shall become effective May 16, 1946.

Issued this 15th day of May 1946.

#### ALUMINUM COOKING UTENSIL CO.

##### ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* The Aluminum Cooking Utensil Company of New Kensington, Pennsylvania may sell and deliver the articles of commercial, industrial, institutional and clinical aluminum cooking utensils which it manufactures at prices computed as follows:

(1) For an article in its line during July 1940, the highest price charged during that month to each class of purchaser plus an adjusted charge of no more than 8 percent of each such price.

(2) For an article not in its line during July 1940, but which has a properly established ceiling price, the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) plus an adjustment charge equal to the percentage of that price determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) The manufacturer's price computed in accordance with this order is his new ceiling price if it is higher than the previously established ceiling price, including all increases and adjustments otherwise authorized for his individually or for his industry.

(b) *Reseller's ceiling prices.* A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charged in the same dollar-and-cents amount as the adjustment charge authorized by this order

for, and which he has paid to, his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued, he shall first determine a maximum price (exclusive of adjustment charges) and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose, the reseller shall add to his invoice cost, less the adjustment charge stated on that invoice, the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1946, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

If the maximum resale price (exclusive of adjustment charges) cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of such a maximum price under § 1499.3 (c) of the General Maximum Price Regulation.

(c) *Statement of adjusted charges.* On all sales except to ultimate consumers, the adjustment charges may be made and collected only if they are separately stated on each invoice.

(d) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(e) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller

shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles. This notice may be given in any convenient form.

(f) All requests for adjustments of maximum prices not specifically granted by this order are hereby denied.

(g) The provisions of Supplementary Order No. 153 shall not apply to maximum prices for the sales of any article covered by this order.

(h) This order may be revoked or amended by the Price Administrator at any time.

(i) This order shall become effective on the 16th day of May 1946.

Issued this 15th day of May 1946.

Administrator.

#### WEST BRANCH NOVELTY CO.

##### ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* West Branch Novelty Company, 201 Arch Street, Milton, Pa. may compute its adjusted ceiling prices for all articles of wood furniture in its line of cedar chests which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 15 per cent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580 and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price" the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller

shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective May 16, 1946.

#### AMERICAN FIXTURE AND MFG. CO. ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* American Fixture and Mfg. Co., 2300 Locust Boulevard, St. Louis, Mo. may compute its adjusted ceiling prices for all articles of metal household furniture which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 19.3 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580, and a wholesaler who must determine his ceiling price under Maximum Price Regulation No. 590, shall

compute their ceiling prices in the manner provided by these regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under these regulations as they have been modified by Order No. 8 under § 1499.159c of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale prices under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 8 under § 1499.159c of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price", the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles.

This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

#### ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 14, 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Naxon Utilities Corporation, 2101 W. Walnut Street, Chicago 12, Illinois, may increase its maximum prices in effect during October 1941 for its sales of Model S-138 Wash Wringer by no more than 30.8 percent.

(b) *Maximum prices of purchasers for resale.* A seller shall calculate his maximum price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established maximum price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

The provisions of Supplementary Order No. 153 shall not apply to resale prices of articles covered by this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each

seller's terms, discounts, allowances and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 16th day of May 1946.

UNIVERSAL SLIDE FASTENER CO., INC.

#### ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Universal Slide Fastener Company, Inc., 43-01-22nd Street, Long Island City, N. Y., may compute its adjusted ceiling prices for all articles in its product line of slide fasteners which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 24 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer

has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows: A reseller shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced. The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-750 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) The word "resellers" as used in this order shall apply only to those purchasers for resale of the articles covered by this order who purchase such articles from their suppliers in substantially the same form as such articles were manufactured; and who resell same in substantially that form. This order shall apply only to such resellers and to no others.

(d) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(e) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form. Such notice need be given only to those purchasers for resale who are included in paragraph (c) of this order.

(f) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(g) The provisions of Supplementary Order No. 153 shall not apply to the max-

imum prices for sales of any of the articles covered by this order.

(h) This order may be revoked or amended by the Price Administrator at any time.

(i) This order shall become effective May 15, 1946.

Issued this 15th day of May 1946.

#### ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Strauss Fasteners, Inc., 154 West 14th Street, New York 11, N. Y., may compute its adjusted ceiling prices for all articles in its product line of slide fasteners, which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 13 per cent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 183; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows: A reseller shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. (iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced. The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) The word "resellers" as used in this order shall apply only to those purchasers for resale of the articles covered by this order who purchase such articles from their suppliers in substantially the same form as such articles were manufactured; and who resell same in substantially that form. This order shall apply only to such resellers and to no others.

(d) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(e) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form. Such notice need be given only to those purchasers for resale who are included in paragraph (c) of this order.

(f) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(g) The provisions of Supplementary Order No. 153 shall not apply to the maximum prices for sales of any of the articles covered by this order.

(h) This order may be revoked or amended by the Price Administrator at any time.

(i) This order shall become effective May 15, 1946.

Issued this 15th day of May 1946.

Administrator.

MONOWATT ELECTRIC CORP.

#### ADJUSTMENT OF MAXIMUM PRICES

Amendment 1 to Order No. 67 under Supplementary Order No. 142. Adjustment provisions for sales of industrial machinery and equipment. Monowatt Electric Corporation. Docket No. 6083-SO 142-136-243 and 6083-SO 142-82-11.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 2 of Supplementary Order No. 142, it is ordered:

Order No. 67, issued April 2, 1946, to the Monowatt Electric Corporation, Providence, Rhode Island, is hereby amended to read as follows:

(a) For sales of all products for which the Monowatt Electric Corporation has no base date prices, the Monowatt Electric Corporation shall compute its maximum prices as follows:

(1) It shall compute prices by use of the price determining method in the manner established by the applicable regulation with the following exceptions:

(i) It must use its October 1, 1941, cost for materials, purchase parts and sub-assemblies. If the Monowatt Electric Corporation cannot determine its October 1, 1941, costs, it shall then use the October 1, 1941, costs to a purchaser of its same class in the same locality.

(ii) It must use the labor rates in effect on October 1, 1941.

(iii) It must apply a factor for overhead which bears the same relation to

the direct cost which the profit and loss statement for the year 1941 of its division manufacturing the product shows overhead bore to direct cost.

(iv) It must apply a factor for selling and administrative expense which bears the same relation to sales which the profit and loss statement for the year 1941 of its division manufacturing the product shows selling and administrative expense bore to sales.

(v) It must apply a factor for profit which is no greater than the factor for the 1941 profit and loss statement of its division manufacturing the product shows as the percentage profit to sales.

(2) The Monowatt Electric Corporation, Providence, Rhode Island, shall increase the price computed under paragraph (1) above by ten per cent.

(3) If the Monowatt Electric Corporation is unable to compute a maximum price for any product as provided in the preceding paragraphs (1) and (2), the maximum price for the product shall be established under the applicable regulation without any adjustment provided by this order.

(b) The maximum prices of all products for which the Monowatt Electric Corporation, Providence, Rhode Island, received approval by the OPA under Maximum Price Regulation 82 and Revised Maximum Price Regulation 136, shall be those maximum prices increased by 10 per cent.

(c) The maximum prices of all resellers of the following products manufactured by the Monowatt Electric Corporation, Providence, Rhode Island, shall be the prices in effect just prior to the issuance of this order, increased by ten per cent, but in no case shall such reseller's prices exceed the prices in the column below headed "Maximum Retail Prices".

## ADJUSTMENT OF MAXIMUM PRICES

Order No. 108 under Supplementary Order No. 142. Adjustment provisions for sales of industrial machinery and equipment. Sola Electric Company. Docket No. 6083-SO 142-136-455.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 2 of Supplementary Order No. 142, *It is ordered:*

(a) The Sola Electric Company, Chicago, Illinois, shall compute maximum prices for sales of all its products manufactured by its Specialty Transformer Division under the provisions of section (b) (1) of Order No. 572 under Revised Maximum Price Regulation No. 136 substituting the figure 30.7% for the percentage applicable to the part being priced which is set forth in that section.

(b) The maximum prices for sales by resellers of the products described in paragraph (a) above shall be determined as follows: The reseller shall increase the maximum net prices he had in effect to a purchaser of the same class, just prior to the issuance of this order, by the same percentage by which his net invoiced cost

has been increased by reason of this order.

(c) The Sola Electric Company shall notify each purchaser, who buys the products listed in paragraph (a) above for resale of the percentage amount by which this order permits the reseller to increase his maximum net prices. A copy of each such notice shall be filed with the Machinery Branch, Office of Price Administration, Washington 25, D. C.

(d) All requests not granted herein are denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective May 16, 1946.

Issued this 15th day of May 1946.

## ADJUSTMENT OF MAXIMUM PRICES

Order No. 109 under Supplementary Order No. 142. Adjustment provisions for sales of industrial machinery and equipment. American Pulley Company. Docket No. 6083-SO 142-136-281.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 2 of Supplementary Order No. 142, *It is ordered:*

(a) The maximum prices for sales by the manufacturer, American Pulley Company, Philadelphia, Pennsylvania, of all its products, except those products designated below, which are covered by any of the regulations listed in Supplementary Order No. 142, shall be determined by increasing by 8.9% the maximum prices for these products in effect just prior to April 19, 1946.

(b) The maximum prices for sales by resellers of the products described in paragraph (a) above shall be determined as follows: The reseller shall increase the maximum net price he had in effect to a purchaser of the same class, just prior to the issuance of this order, the amount in percent, by which his net invoiced cost has been increased, due to the adjustment granted the manufacturer by this order.

(c) The American Pulley Company shall notify each purchaser who buys power transmission equipment and pressed metal specialties for resale, of the amount, in percent, by which this order permits the reseller to increase his maximum net prices. A copy of each such notice shall be filed with the Machinery Branch, Office of Price Administration, Washington 25, D. C.

(d) For sales of any of the products listed below, delivered by the American Pulley Company, Philadelphia, Pennsylvania, to any purchasers after (March 11, 1946), the American Pulley Company may collect up to but not in excess of

the price which the purchaser specifically contracted to pay.

LIVINGSTON AND CO.

## ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 5 of Supplementary Order No. 148, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles of metal household furniture manufactured by Livingston and Company, Luzerne at D Street, Philadelphia 24, Pa.

(1) For all sales and deliveries of the following articles by the manufacturer to the class of purchaser specified below, the adjusted maximum prices are as follows:

Article	Model No.	Adjusted maximum price to retailers <sup>1</sup>
Wall cabinet.....	R18-H	\$4.00
	R24-H	4.50
	R30-H	5.00

<sup>1</sup> That class of retailers to which the manufacturer customarily made sales in largest volume.

(2) For sales and deliveries by the manufacturer to all other classes of purchasers the maximum prices are the adjusted maximum prices set forth in paragraph (a) (1), adjusted to reflect the manufacturer's customary differentials for sales to those other classes of purchasers.

(b) Resellers of articles which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580 and a wholesaler who must determine his ceiling prices under Maximum Price Regulation No. 590 shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a ceiling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No.

8 under § 1499.159e of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling prices under that regulation as modified by Order No. 8 under § 1499.159e of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price", the reseller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he had on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) The manufacturer shall comply with the invoicing and reporting provisions of Order No. 8 under Maximum Price Regulation No. 188.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 16th day of May 1946.

Issued this 15th day of May 1946.

GENERAL MOTORS CORP.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to sections 7 and 11 of Maximum Price Regulation No. 64, *It is ordered:* That Order No. 175 under sections 7 and 11 of Maximum Price Regulation No. 64, be and it hereby is, amended in the following respect:

1. Paragraph (a) (5) is amended to read as follows:

(5) The maximum prices for all sales to ultimate consumers include delivery, a one year warranty, and installation where the installation requires only that the range be connected to electric facilities provided by the consumer and such connection does not require any additional materials. If a range cord set (customarily referred to in the industry as a "pigtail") is required and is furnished by the retail dealer, he may add \$3.50 to the OPA retail ceiling price of the range as set forth above. In all other respects these maximum prices are subject to each seller's customary terms, discounts, allowances, and other price differentials in effect on sales of similar articles.

2. Paragraph (b) is amended to read as follows:

(b) At the time of, or prior to, the first invoice to a purchaser for resale after the effective date of this order, the manufacturer, and each wholesale distributor, shall notify the purchaser of the maximum prices and conditions established by this order for resales by the purchaser. This notice may be given in any convenient form.

In addition, before delivering any range covered by this order to wholesale distributors or its factory branches, the manufacturer shall attach or cause to be attached to the outside oven door panel of each range, prior to its shipment to a retail dealer, a label which contains all of the following information:

1. The manufacturer.
2. The brand name and model number of the range.
3. The OPA retail ceiling price of the range in each zone.
4. A statement that the zone limits are on file with the Office of Price Administration.
5. A statement that the ceiling prices shown include the Federal excise tax, delivery, a one-year warranty and installation where the installation requires only that the range be connected to electric facilities to be provided by the purchaser and such connection does not require any additional materials.

tion does not require any additional materials.

6. A statement that if the installation requires the use of a range cord set (customarily referred to in the industry as a "pigtail") and a range cord set is furnished by the retail dealer, he may add \$3.50 to the applicable OPA retail ceiling price of the range.

7. A statement of whether the sale to the retail dealer was made by a factory owned branch.

The label may not be removed until after the range has been sold to an ultimate consumer.

This amendment shall become effective as of the 24th day of April 1945.

Issued this 15th day of May 1946.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 11 of Maximum Price Regulation No. 64, *It is ordered:*

(a) This order establishes maximum prices for sales at retail of the six models of gas ranges listed below manufactured by the Florence Stove Company, 2207 West Station Street, Kankakee, Ill. For sales in each zone by retail dealers to ultimate consumers, the maximum prices including the Federal excise tax, but not including any state or local taxes imposed at the point of sale are those set forth below:

Model	Maximum prices for sales to ultimate consumers		
	Zone 1	Zone 2	Zone 3
	Each	Each	Each
C9131, C9136	\$69.95	\$70.75	\$72.50
C9231, C9236	84.50	85.50	87.25
C9291, C9296	88.95	89.95	91.75
C9331, C9336	74.95	75.95	77.75

C7231, C7236	122.50	123.75	126.25

These prices include delivery and installation. If the retail dealer does not provide installation, he shall compute his maximum price by deducting \$6.00 from the maximum price shown above for his sales on an installed basis. In all other respects these prices are subject to each seller's customary terms, discounts, allowances (other than trade-in allowances) and other price differentials in effect on sales of similar articles.

(b) The manufacturer shall, before delivering any range covered by this order, after the effective date thereof, attach securely to the inside oven door panel a label which plainly states the OPA retail ceiling prices established by this order for sales of the range to ultimate consumers in each zone together with a list of the states included in each zone. The label shall also state that the retail prices shown thereon include the

Federal excise tax, delivery and installation, and that if the seller does not provide installation, the maximum price is \$6.00 less than the price shown on the label.

(c) For purposes of this order Zones 1, 2, and 3 comprise the following states:

**Zone 1:** Illinois, Wisconsin, Minnesota, Iowa, Missouri, Arkansas, Louisiana, Nebraska, Kansas, Oklahoma, Michigan, Indiana, Ohio, Kentucky, Tennessee, Mississippi, Alabama, Georgia, North Carolina, South Carolina, Virginia, West Virginia, Delaware, Maryland, District of Columbia, Pennsylvania, New Jersey, New York, Rhode Island, Massachusetts, Connecticut, New Hampshire, and Vermont.

**Zone 2:** Florida, Maine, Texas, Colorado, Wyoming, North Dakota, South Dakota, and Montana.

**Zone 3:** Washington, Oregon, California, Idaho, Nevada, Utah, Arizona, and New Mexico.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 29th day of May 1946.

Issued this 15th day of May 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. These prices are f. o. b. factory and subject to a cash discount of 2% for payment within 10 days, net 30 days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. These prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement with the correct model number and retail prices properly filled in:

Model No. -----  
OPA Retail Ceiling Price—\$-----  
Do Not Detach or Obliterate

(c) At the time of, or prior to, the first invoice to each purchaser for resale at wholesale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 16th day of May 1946.

Issued this 15th day of May 1946.

(b) The manufacturer and wholesalers shall grant, with respect to their sales of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the discounts they customarily granted in March 1942 on their sales of domestic cigars of the same price class to purchasers of the same class, unless a change therein results in a lower price. Packing differentials charged by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class may be charged on corresponding sales of each brand and size or frontmark of cigars priced by this order, but shall not be increased. Packing differentials allowed by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class shall be allowed on corresponding sales of each

brand and size or frontmark of cigars priced by this order and shall not be reduced. If a brand and size or frontmark of domestic cigars for which maximum prices are established by this order is of a price class not sold by the manufacturer or the particular wholesaler in March 1942, he shall, with respect to his sales thereof, grant the discounts and may charge and shall allow the packing differentials customarily granted, charged or allowed (as the case may be) in March 1942 by his most closely competitive seller of the same class on sales of domestic cigars of the same March 1942 price class to purchasers of the same class.

(c) On or before the first delivery to any purchaser of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the manufacturer and every other seller (except a retailer) shall notify the purchaser of the maximum list price and the maximum retail price established by this order for such brand and size or frontmark of domestic cigars. The notice shall conform to and be given in the manner prescribed by § 1358.113 of Maximum Price Regulation No. 260.

(d) Unless the context otherwise requires, appropriate provisions of Maximum Price Regulation No. 260, shall apply to sales for which maximum prices are established by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective May 16, 1946.

Issued this 15th day of May 1946.

<sup>1</sup> Prices apply to this brand and size using only Connecticut Shadegrown (Type 61) L.V. 16"-18" wrapper and 87 percent Havana (Type 81) short filler. Attention of manufacturer is directed to average retail price ceiling requirement of MPR 260.

(b) The manufacturer and wholesalers shall grant, with respect to their sales of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the discounts they customarily granted in March 1942 on their sales of domestic cigars of the same price class to purchasers of the same class, unless a change therein results in a lower price. Packing differentials charged by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class may be charged on corresponding sales of each brand and size or frontmark of cigars priced by this order, but shall not be increased. Packing differentials allowed by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class shall be allowed on corresponding sales of each brand and size or frontmark of cigars priced by this order and shall not be reduced. If a brand and size or frontmark of domestic cigars for which maximum prices are established by this order is of a price class not sold by the manufacturer or the particular wholesaler in March 1942, he shall, with respect to his sales thereof, grant the discounts and may charge and shall allow the packing differentials customarily granted, charged or allowed (as the case may be) in March 1942 by his most closely competitive seller of the same class on sales of domestic cigars of the same March 1942 price class to purchasers of the same class.

(c) On or before the first delivery to any purchaser of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the manufacturer and every other seller (except a retailer) shall notify the purchaser of the maximum list price and the maximum retail price established by this order for such brand and size or frontmark of domestic cigars. The notice shall conform to and be given in the manner prescribed by § 1358.113 of Maximum Price Regulation No. 260.

(d) Unless the context otherwise requires, appropriate provisions of Maximum Price Regulation No. 260, shall apply to sales for which maximum prices are established by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective May 16, 1946.

SANDERS PET SHOP ET AL.

ESTABLISHMENT OF MAXIMUM PRICES

On March 14, 1946, E. A. Sanders, doing business as Sanders Pet Shop, 118 West Jefferson Street, Louisville, Kentucky, filed a request for the amendment of Revised Order No. 9 under section 10 of Maximum Price Regulation No. 367

No. 97—6

to establish maximum prices therein at which the said E. A. Sanders, doing business as Sanders Pet Shop, could be enabled to sell his pet food product containing horsemeat and known as "Sanders' Plete Meal Cooked Dog Food" to ultimate consumers and to retailers, f. o. b. Sanders Pet Shop.

Due consideration has been given this request and an opinion in support of this Amendment No. 1 to Revised Order No. 9 under section 10 of Maximum Price Regulation No. 367 has been issued simultaneously herewith and filed with the Division of the Federal Register.

For the reasons set forth in that opinion, and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders No. 9250, 9328, and 9599, and pursuant to the provisions of section 10 of Maximum Price Regulation No. 367, *It is ordered:*

(a) That subparagraph (1) of the paragraph designated (c) in Revised Order No. 9 under section 10 of Maximum Price Regulation No. 367 is amended to read as follows:

(1) For sales made by E. A. Sanders, doing business as Sanders Pet Shop:

(i) To peddler truck operators or wholesalers, f. o. b. the seller's plant—\$0.12 per pound.

(ii) To retailers, f. o. b. the seller's plant—\$0.35 per pound.

(iii) To retailers, delivered to their place of business—\$0.14 per pound.

(iv) To ultimate consumers—\$0.14 per pound.

All prayers of the request for amendment not herein granted are denied.

This amendment No. 1 to Revised Order No. 9 may be revoked or amended by the Administrator at any time.

This Amendment No. 1 to Revised Order No. 9 shall become effective immediately.

Issued this 15th day of May 1946.

#### YORK COLONIAL BRICK CO.

#### ADJUSTMENT OF MAXIMUM PRICES

Order No. 26 under section 16 of Maximum Price Regulation No. 592. York Colonial Brick Company. Docket No. 6122-592.16-166.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation 592, *It is ordered:*

(a) The maximum net prices for sales by the York Colonial Brick Company, York, Pennsylvania, of clay building brick and structural clay tile to its various classes of purchasers may be increased by an amount not in excess of

\$2.00 per thousand for standard size brick equivalents or by an amount not in excess of \$0.80 per ton for structural hollow tile.

(b) If the York Colonial Brick Company had an established differential in price during the month of March 1942 for non-standard sizes of brick, it may convert the adjustment granted herein for standard size brick on the basis of the conversion factors or formulas in use by it during March 1942 in establishing price differentials between standard size brick and the other sizes.

(c) Any person purchasing any of the products covered by this order produced by the York Colonial Brick Company for the purpose of resale in the same form may increase his presently established prices under the General Maximum Price Regulation by adding the dollars-and-cents increase in cost resulting from the increase permitted the manufacturer in (a) above. Notwithstanding the provisions of this paragraph, in any area where specific maximum prices are fixed by an area pricing order such specific maximum prices shall apply in that area.

(d) All requests of the application not granted herein are denied.

(e) This order may be amended or revoked by the Office of Price Administration at any time.

This Order No. 26 shall become effective May 16, 1946.

Issued this 15th day of May 1946.

#### ADJUSTMENT OF MAXIMUM PRICES

Order No. 27 under section 16 of Maximum Price Regulation No. 592. Atlantic Brick and Tile Company. Docket No. 6075.592.16-65.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation 592, it is ordered:

(a) The maximum net prices for sales by the Atlantic Brick and Tile Company, Boston, Massachusetts, of sand lime building brick and sand lime sewer brick to its various classes of purchasers may be increased in an amount not in excess of \$1.75 per thousand for sand lime brick, or by an amount not in excess of \$2.00 per thousand for sand lime sewer brick over its prices in effect on May 15, 1946.

(b) Any person purchasing any of the products covered by this Order produced by the Atlantic Brick and Tile Company for the purpose of resale in the same form may increase his presently established prices under the General Maximum Price Regulation by adding the dollars-and-cents increase in cost resulting from the increase permitted the manufacturer in (a) above. Notwithstanding the provisions of this paragraph, in any area where specific maximum prices are fixed by an area pricing order such specific maximum prices shall apply in that area.

(c) All requests of the application not granted herein are denied.

(d) This order may be amended or revoked by the Office of Price Administration at any time.

This Order No. 27 shall become effective May 16, 1946.

Issued this 15th day of May 1946.

[Order 144 Under 3 (e)]

KALAMAZOO STOVE AND FURNACE CO. ET AL.

#### AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and § 1499.3 (e) of the General

Maximum Price Regulation, it is hereby ordered:

(a) *What this order does.* This order establishes maximum wholesale and retail prices for sales by Kalamazoo Stove and Furnace Company (hereinafter referred to as the "Company") of the commodities set forth in Appendix A hereof. It also establishes maximum prices for sales at retail of such commodities by retail sellers who have purchased them from the Company.

(b) *Maximum prices.* (1) The maximum prices at which the Company may sell the commodities listed in Appendix A hereof at retail shall be the prices set forth in Appendix A.

(2) The maximum prices at which the Company may sell the commodities listed in Appendix A hereof at wholesale shall be the prices set forth in Appendix A, less thirty percent (30%).

(3) The maximum prices at which any person who has purchased the commodities listed in Appendix A from the Company may sell the same at retail shall be his maximum prices established under section 2 of General Maximum Price Regulation or the prices set forth in Appendix A.

(c) *Notification of maximum prices.* At the time of, or prior to, the first sale by the Company to purchasers for resale of the commodities covered by this order after the effective date hereof, the Company shall notify such resellers of the provisions of this order governing sales by such resellers. Such notice may be given in any convenient form.

(d) *Relation to General Maximum Price Regulation.* Except as specifically provided otherwise herein, all sellers of commodities covered hereby shall be and remain subject to the provisions of General Maximum Price Regulation.

(e) *Definitions.* Except as the context otherwise requires, the definitions contained in General Maximum Price Regulation shall apply to all terms used and not otherwise defined herein.

(f) *Amendment and revocation.* This order may be modified, amended, or revoked at any time by the Office of Price Administration.

This order shall become effective May 15, 1946.

Issued May 15, 1946.

PAUL A. PORTER,  
Administrator.

## ESTABLISHMENT OF CEILING PRICES

Maximum Price Regulation 580, Amendment 3 to Order 203. Establishing ceiling prices at retail for certain articles; Docket No. 6063-580-13-519.

For the reasons set forth in the opinion issued simultaneously herewith, Order No. 203 under section 13 of Maximum Price Regulation 580 issued to Lubin-Weeker Company, Inc., 1270 Broadway, New York 1, New York, on September 26, 1945, is amended in the following respects:

1. Paragraph (a) is amended to decrease the retail ceiling prices for the articles listed and described below by establishing new retail ceiling prices as follows:

Article	Style No.	Manufacturing jobber ceiling price (per dozen)	Retail ceiling price (per unit)
Plain color Bal-Tuck pajama	1222	\$17.42	\$2.25
Plain color Ski-Mo pajama	1310	19.71	2.55

2. Paragraph (d) is amended by adding thereto the following undesignated paragraph:

Upon issuance of any amendment to this order which either adds an article to those already listed in section (a) or changes the retail ceiling price of a listed article, the manufacturer or wholesaler, as to such article, must comply with the preticketing requirements of this paragraph within 30 days after the issuance of the amendment. After 60 days from the issuance date, no retailer may offer

or sell the article unless it is preticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60 day period, unless the article is so preticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this order. However, the pricing provisions of this order or of any amendment thereto shall apply as of the effective date of the order or applicable amendment.

This amendment shall become effective May 16, 1946.

Issued this 15th day of May 1946.

## LAROS TEXTILES Co.

## ESTABLISHMENT OF CEILING PRICES

Maximum Price Regulation 580, Order 307 establishing ceiling prices at retail for certain articles; Docket No. No. 6063-580-13-655.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to Section 13 of Maximum Price Regulation No. 580; It is ordered:

(a) The following ceiling prices are established for sales by any seller at retail of the following articles manufactured by Laros Textiles Company, Broad and Wood Streets, Bethlehem, Pennsylvania and described in the manufacturer's application dated May 1, 1946:

Article	Size	Manufacturer's selling price (per dozen)	Ceiling price at retail (per unit)
Laros Dimensional Slip.	30-44 inclusive.	\$22.50	\$3.00
	46-52 inclusive.	29.00	4.00

(b) The retail ceiling price of an article stated in paragraph (a) shall apply to any other article of the same type, having the same selling price to the retailer, the same brand or company name and first sold by the manufacturer after the effective date of this order.

(c) The retail ceiling prices contained in paragraph (a) shall apply in place of the ceiling prices which have been or would otherwise be established under this or any other regulation.

(d) On and after June 10, 1946, Laros Textiles Company must mark each article listed in paragraph (a) with the retail ceiling price under this order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

(Sec. 13, MPR 580)  
OPA Price—\$-----

On and after July 10, 1946, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to July 10, 1946, unless the article is marked or tagged in this form,

the retailer shall comply with the marking, tagging and posting provisions of the applicable regulation.

Upon issuance of any amendment to this order which either adds an article to those already listed in paragraph (a) or changes the retail ceiling price of a listed article, the manufacturer or wholesaler, as to such article, must comply with the preticketing requirements of this paragraph within 30 days after the issuance of the amendment. After 60 days from the issuance date, no retailer may offer or sell the article unless it is preticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60 day period, unless the article is so preticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this order. However, the pricing provisions of this order or of any subsequent amendment thereto shall apply as of the effective date of the order or applicable amendment.

(e) Coincident with or before the first delivery to any purchaser for resale of any article listed in paragraph (a), the seller shall send the purchaser a copy of this order. The seller shall also send the purchaser a copy of any subsequent amendment to this order at the time of, or before the first delivery (subsequent to the effective date of the amendment) of any article the price of which is affected by the amendment.

(f) Unless the context otherwise requires, the provisions of the applicable regulation shall apply to sales for which retail ceiling prices are established by this order.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective May 16, 1946.

Issued this 15th day of May 1946.

## STERLING MOTOR TRUCK CO., INC.

## AUTHORIZATION OF MAXIMUM PRICES

Order No. 627 under Revised Maximum Price Regulation 136. Machines, parts and industrial equipment. Sterling Motor Truck Company, Inc.; Docket No. 6085-136.21-18.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 21 of Revised Maximum Price Regulation 136; *It is ordered:*

(a) Sterling Motor Truck Company, Inc., Milwaukee, Wisconsin, is authorized to increase the maximum list prices in effect immediately prior to the issuance of this order for Sterling motor trucks manufactured by it and extra, special and optional equipment, sold as original equipment, by a percentage, not to exceed 2 per cent subject to all discounts, allowances, extra charges and terms of delivery in effect on March 31, 1942.

(b) Resellers of Sterling motor trucks are authorized to sell said trucks and extra, special and optional equipment sold as original equipment, at prices not to exceed the applicable charges listed below, subject to the discounts, allowances and terms of delivery in effect on March 31, 1942.

(1) A charge for the Sterling truck and extra, special or optional equipment sold as original equipment not to exceed the applicable maximum list price established in paragraph (a).

(2) A charge to cover delivery and handling expense equal to the charge the seller had in effect on March 31, 1942.

(3) A charge for transportation which shall not exceed the charge the Sterling Motor Truck Company, Inc., would make for the transportation of the truck from factory to the place of delivery of the reseller.

(4) A charge to cover Federal excise taxes, and State and local taxes on the purchase, sale or delivery of the truck, computed in accordance with the method the reseller had in effect on March 31, 1942.

(5) The dollar amount of all other charges which the seller had in effect on March 31, 1942, to the applicable class of purchasers.

(c) A reseller that cannot establish a price under paragraph (b) because it was not in business on March 31, 1942, shall determine maximum prices for Sterling trucks and extra, special and optional equipment sold as original equipment, by adding to the applicable list price established in paragraph (a) the following applicable charges:

(1) A charge for transportation which shall not exceed the charge Sterling Motor Truck Company, Inc., would make for the transportation of the truck from the factory to the place of delivery of the reseller.

(2) A charge to cover Federal excise taxes not to exceed the charge made to the reseller by Sterling Motor Truck Company, Inc., in accordance with the method the Sterling Motor Truck Company, Inc., had in effect on March 31, 1942 passing on this tax to resellers.

(3) A charge equal to the resellers expense for payment of State and local taxes on the purchase, sale or delivery of the truck.

(4) A charge equal to the resellers actual expense for handling and delivery of the truck.

(d) A reseller is authorized to sell in a territory or possession Sterling trucks and extra, special and optional equipment sold as original equipment at prices not to exceed the maximum prices permitted by paragraphs (b) or (c) to which he may add a sum not to exceed the expense incurred by or charged to him for: Payment of territorial and insular taxes on the purchase sale or introduction of the new truck in the territory or possession, when not charged under paragraph (b) or (c); export premiums; boxing and crating for export purposes; assembly costs, if any; marine and war risk insurance; landing, wharfage and terminal operations; ocean freight; freight to port of embarkation, when not charged under paragraph (b) or (c); and inland territorial freight from port of debarkation to reseller's place of business by the most direct route.

(e) All requests not granted herein are denied.

(f) This order may be amended or revoked by the Administrator at any time.

This order shall be effective May 15, 1946.

Issued this 15th day of May 1946.

PAUL A. PORTER,  
Administrator.

[RMPR 436, Order 37, Incl. Amdts. 1-15]

# CRUDE PETROLEUM PRODUCED FROM VARIOUS DESIGNATED POOLS

## ESTABLISHMENT OF MAXIMUM PRICES

This compilation of Order 37 under Revised Maximum Price Regulation 436 includes Amendment 15, effective as of April, 1946. Changes in paragraph (a) are indicated by a note.

For the reasons set forth in the accompanying opinion\* and under the authority vested in the Administrator of the Office of Price Administration by section 12 (a) of Revised Maximum Price Regulation No. 436, it is ordered:

(a) The maximum price for crude petroleum run from the receiving tank on or after March 1, 1945, and produced in any of the pools set out below, to an applicant or to any person purchasing prior to an application, shall be the maximum price as determined under section 10 and 11 plus increases permitted under section 12 (b) and the amount of the increase designated below:

## SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 59-17, 59-11, and 54-25]

UNITED LIGHT AND POWER CO. ET AL.

NOTICE OF FILING AND ISSUANCE OF CAPITAL STOCK BY MICHIGAN-WISCONSIN PIPE LINE CO.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 15th day of May A. D. 1946.

In the matter of The United Light and Power Company, The United Light and Railways Company, American Light & Traction Company, Continental Gas & Electric Corporation, United American Company, and Iowa-Nebraska Light and Power Company, Respondents, File No. 59-17; The United Light and Power Company and its subsidiary companies, Respondents, File No. 59-11; The United Light and Power Company, Applicant, File No. 54-25. Application No. 27.

Notice is hereby given that American Light & Traction Company ("American Light"), a registered holding company and a subsidiary of The United Light and Railways Company ("Railways"), also a registered holding company, and Michigan-Wisconsin Pipe Line Company ("Michigan-Wisconsin"), a subsidiary of American Light, have joined in filing an amended application and declaration (designated as "Application No. 27") pursuant to the Public Utility Holding Company Act of 1935.

All interested persons are referred to said amended application-declaration which is on file in the offices of the Commission for a statement of the transactions therein proposed which may be summarized as follows:

Michigan-Wisconsin will issue and sell to American Light 3,100 shares of Michigan-Wisconsin's capital stock of the par value of \$100 per share upon payment by American Light of the aggregate par value of \$310,000 in cash.

The purchase by American Light of such shares, it is stated, will provide Michigan-Wisconsin with funds estimated to be sufficient to discharge obliga-

tions incurred and to be incurred in the development of the plans and design and in the prosecution of the application for authorization by the Federal Power Commission of Michigan-Wisconsin's pipeline project as well as applications necessary to procure all other required governmental authority, permits and rights in connection with such pipe line project. The only securities heretofore issued by Michigan-Wisconsin consist of 50 shares of capital stock of the par value of \$100 per share.

Expenses to be incurred in connection with this application-declaration, as amended, are estimated at \$741 of which \$400 are to be paid by American Light and the remainder by Michigan-Wisconsin.

Notice is further given that any interested party may, not later than May 28, 1946, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, said amended application-declaration, as filed or as amended, may be granted and permitted to become effective, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

By the Commission.

SCRANTON-SPRING BROOK WATER SERVICE CO., ET AL.

SUPPLEMENTAL ORDER RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 13th day of May, A. D. 1946.

In the matters of Scranton-Spring Brook Water Service Company, Pennsylvania Water Service Company, Federal Water and Gas Corporation, File No. 54-116; Federal Water and Gas Corporation and Subsidiary Companies, File No. 54-66; Federal Water and Gas Corporation and Subsidiary Companies, Respondents, File No. 59-61.

The Commission on March 7, 1946, having issued its order under applicable provisions of the Public Utility Holding Company Act of 1935, approving an Amended Plan, and granting and permitting to become effective applications and declarations, of Federal Water and Gas Corporation ("Federal"), a registered holding company, Pennsylvania Water Service Company ("Pennsylvania"), an exempt holding company and a subsidiary of Federal, and Scranton-Spring Brook Water Service Com-

pany ("Scranton"), a gas utility company, a water company, an exempt holding company and a subsidiary of Federal and of Pennsylvania, said Amended Plan providing, among other things, that if certain new securities, more particularly described therein, were issued and sold by Scranton, Federal would send a notice addressed to all holders of the \$6 and \$5 Cumulative Preferred Stocks of Scranton and to the \$6 Cumulative Preferred Stock of Pennsylvania, designating a 15-day period within which they may, if they so desire, sell to Federal the new common stock, to be acquired by them pursuant to the Amended Plan, at \$13.685 per share, and that Federal would purchase all shares so tendered at \$13.685 per share within such designated period; and

The Commission in said order of March 7, 1946, having reserved jurisdiction to determine, among other things, the following:

The appropriateness of any communications which Federal proposes to mail to the public preferred stockholders of Scranton and Pennsylvania containing the purchase offer hereinabove described.

Federal having filed forms of notice dated May 13, 1946, to be mailed to holders of record of certificates of new common stock of Scranton, certificates of the \$6 and \$5 Cumulative Preferred Stocks of Scranton and of the \$6 Cumulative Preferred Stock of Pennsylvania, and to be published in the New York Times, New York Sun, Wall Street Journal, Philadelphia Inquirer, Wilkes-Barre Record and Scranton Times, which forms of notice contain an offer by Federal to purchase, during the period beginning at 9:00 a. m., e. d. s. t., on May 15, 1946, and ending at 3:00 p. m., e. d. s. t., on May 29, 1946, any shares of the new common stock of Scranton tendered to Federal at \$13.685 per share; and

It appearing to the Commission that said forms of notice appear appropriate;

It is ordered, That jurisdiction be, and it hereby is, released in respect of said forms of notice concerning the above purchase offer by Federal.

The Commission in its said order of March 7, 1946, having reserved jurisdiction to make further appropriate recitals and findings in conformity with the provisions of sections 371, 372, 373 and 1808 of the Internal Revenue Code, as amended; and Federal having filed an application herein containing a request for further recitals pursuant to said provisions of the Internal Revenue Code respecting the proposed application by Federal of \$2,781,875 or any part thereof to the purchase of shares of the new common stock of Scranton; and it appearing that Federal has in its treasury \$2,781,875, representing the unexpended balance of the proceeds of sales made by Federal of the common stocks of West Virginia Water Service Company, Ohio Water Service Company and Peoples Water and Gas Company, and the proposed application of said funds is necessary or appropriate to the integration or simplification of the holding company system of which Scranton, Pennsylvania and Federal are members, and is necessary or appropriate to the effectuation of the provisions of section 11 (b) of the act;

It is further ordered and recited, That the application by Federal Water and Gas Corporation of \$2,781,875 or any part thereof to the purchase of shares of the new common stock of Scranton-Spring Brook Water Service Company is necessary or appropriate to the integration or simplification of the holding company system of which Scranton-Spring Brook Water Service Company, Pennsylvania Water Service Company and Federal Water and Gas Corporation are members, and is necessary or appropriate to the effectuation of the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935; said sum of \$2,781,875 being the unexpended balance of the proceeds of sales of stocks heretofore made by Federal Water and Gas Corporation as follows:

West Virginia Water Service Co. common stock	\$577,000
Ohio Water Service Co. common stock	1,093,040
Peoples Water & Gas Co. common stock	1,111,835
	\$2,781,875

#### GULF STATES UTILITIES CO.

##### NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 15th day of May 1946.

Notice is hereby given that a declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 and the rules and regulations thereunder, by Gulf States Utilities Company ("Gulf States"), a subsidiary of Engineers Public Service Company (Incorporated), a registered public utility holding company.

All interested persons are referred to said document which is on file in the offices of the Commission for a statement of the transactions therein proposed which may be summarized as follows:

(1) Gulf States proposes to issue and sell, pursuant to the competitive bidding provisions of Rule U-50, \$27,000,000 principal amount of First Mortgage Bonds, \_\_\_\_\_% Series due 1976 (the interest rate to be fixed by competitive bidding);

(2) Gulf States proposes to issue to Irving Trust Company an unsecured promissory note in the principal amount of \$2,000,000, payable in equal semi-annual installments to June 1, 1956, such note to bear interest at the rate of 1 3/4% per annum. It is stated that the note will not be resold to the public and no finders' fee or other fee, commission or remuneration will be paid in connection with its issuance; and

(3) Gulf States proposes to use the proceeds from the sale of the bonds and from the issuance of the note (together with cash in its treasury available for that purpose) to redeem, in accordance with their terms, all of the outstanding

\$27,300,000 principal amount of its First Mortgage and Refunding Bonds, Series D, 3 1/2%, due May 1, 1969 at the redemption price of 107 and accrued interest.

The declarant has designated section 7 of the Act and Rules U-42 and U-50 as being applicable to the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said declaration and that said declaration shall not be permitted to become effective except pursuant to further order of the Commission;

It is ordered, That a hearing on said declaration under the applicable provisions of the act and rules of the Commission thereunder be held on May 28, 1946 at 10:00 a. m., e. d. t., in the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing shall be held.

It is further ordered, That Robert P. Reeder, or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve, by registered mail, a copy of this order on Gulf States Utilities Company; and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard in connection with these proceedings, or proposing to intervene herein, shall file with the Secretary of the Commission, on or before May 27, 1946, his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That, without limiting the scope of the issues presented by said declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the bonds and note proposed to be issued and sold by Gulf States will be reasonably adapted to the security structure and earning power of Gulf States and necessary and appropriate to the economical and efficient operation of the business in which the company is presently engaged;

(2) Whether the fees, commissions or other remuneration to be paid in connection with the issue and sale of said securities are reasonable;

(3) Whether the proposed accounting entries to be recorded in connection with the proposed transactions are proper and conform to sound accounting principles; and

(4) Generally, whether the proposed transactions comply with all the applicable provisions of the act and rules and regulations promulgated thereunder and whether it is necessary or appropriate in the public interest or for the protection of investors or consumers or to prevent the circumvention of any of the

provisions of the Act or rules, regulations or orders thereunder to impose terms and conditions in connection with any of the proposed transactions.

By the Commission.

#### FEDERAL WATER AND GAS CORP., AND SOUTHERN NATURAL GAS CO.

##### NOTICE OF FILING AND NOTICE OF AND ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 13th day of May A. D. 1946.

Notice is hereby given that Federal Water and Gas Corporation ("Federal"), a registered holding company, and its subsidiary, Southern Natural Gas Company ("Southern"), a registered holding company and a natural gas transmission company, have filed with this Commission an amendment to their joint application-declaration designating sections 7, 10, 11 and 12 of the Public Utility Holding Company Act of 1935 and Rules U-42, U-43 and U-50 promulgated thereunder as being applicable thereto. All interested persons are referred to said documents which are on file in the offices of this Commission for a statement of the transactions therein proposed, which may be summarized as follows:

Southern proposes to acquire and Federal proposes to sell to Southern 12,500 shares (all) of the common stock, no par value, of Mississippi Gas Company ("Mississippi") for a base cash consideration of \$1,173,484, subject to adjustment in an amount equal to the earned surplus, if any, of Mississippi as of the date of closing. Southern further proposes to acquire and Federal proposes to sell to Southern 7,500 shares (all) of the common stock, \$100 per share par value, of Chattanooga Gas Company ("Chattanooga") for a base consideration of \$860,587, subject to adjustment in an amount equal to the earned surplus of Chattanooga as of the date of closing.

Southern proposes to issue and sell to seventeen banks \$22,500,000 aggregate principal amount of Serial Notes of which (1) \$13,500,000 principal amount will bear interest at 2% per annum, maturing semi-annually from May 1, 1947, to an including May 1, 1956, and (2) \$9,000,000 principal amount will bear interest at 2 1/4% per annum, maturing on May 1, 1956.

Southern further proposes to redeem (1) its presently outstanding First Mortgage Pipe Line Sinking Fund Bonds, 3 1/4% Series, due 1956, outstanding as at March 31, 1946, in the aggregate principal amount of \$12,998,000, at the current redemption price thereof, 104 1/2% of their principal amount plus interest accrued to the date of redemption, (2) its presently outstanding 2 1/2% Serial Notes, in the aggregate principal amount of \$750,000 (\$450,000 principal amount due

November 1, 1946, and \$300,000 principal amount due May 1, 1947); and (3) its presently outstanding 1½% Notes, due September 26, 1946, in the principal amount of \$790,000. Southern states that the proceeds of the proposed new Serial Notes will be applied to the purchase of the common stocks of Mississippi and Chattanooga and the redemption of the presently outstanding securities mentioned above, and that the balance of such proceeds estimated to be in the amount of \$5,005,292, will be used for construction of additions to its pipe line system, for drilling and development activities, for investment in securities of its subsidiary, Southern Production, Inc., and for other corporate purposes.

Southern estimates its total expenses to be approximately \$15,000, consisting of \$7,500 for legal fees, auditors' fees and miscellaneous expenses and \$7,500 for expenses in connection with the proposed redemption of its outstanding securities. Federal estimates its total expenses to be about \$2,500, including legal fees and expenses.

Federal states that the proceeds to be received from the proposed sale of the common stock of Mississippi and Chattanooga will be added to its general funds.

Federal requests that the Commission reserve jurisdiction to make such order or orders as may be appropriate, conforming to the requirements of sections 371 (b), 371 (f) and 1808 (f) of the Internal Revenue Code, as amended, and containing the recitals and specifications required thereby.

Public hearings having been held with respect to the joint application-declaration and amendment thereto, heretofore filed and having been continued subject to call; and

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that such hearings should be reconvened for the purpose of adducing further evidence and affording further opportunity to all interested persons to be heard;

*It is hereby ordered*, That the hearing in this matter be reconvened on May 27, 1946, at 10:00 a. m., e. d. s. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as the hearing room clerk in Room 318 will at that time advise. All persons desiring to be heard or otherwise wishing to participate in the proceedings should file with the Commission on or before May 23, 1946, a written request relative thereto as provided by Rule XVII of the rules of practice of the Commission.

*It is further ordered*, That Robert P. Reeder, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such reconvened hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

*It is further ordered*, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing copies of this order by registered mail to Federal Water and Gas Corporation, Southern Natural Gas Company, Federal Power Commission, Mississippi Public Service Commission, Alabama Public Service Commission, Georgia Public Service Commission, Tennessee Railroad and Public Utilities Commission, and Central Hanover Bank & Trust Company of New York, Trustee under the indenture securing the bonds of Southern Natural Gas Company, and that notice of said hearing be given to all other persons by publication of a copy of this notice and order in the FEDERAL REGISTER.

*It is further ordered*, That without limiting the scope of the issues presented by said amended application-declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the consideration proposed to be paid by Southern and received by Federal for the securities of Mississippi and Chattanooga is in all respects reasonable and appropriate;

(2) Whether the acquisition by Southern of the securities of Mississippi and Chattanooga will be detrimental to the public interest or the interests of investors or consumers or the proper functioning of the Southern holding company system; and whether the proposed acquisitions will serve the public interest by tending towards the economical and efficient development of an integrated public utility system and will not otherwise be detrimental to the carrying out of the provisions of section 11 of the Act;

(3) Whether the securities proposed to be issued and sold by Southern are reasonably adapted to the earning power of Southern and to the security structure of Southern and other companies in the Federal holding company system, and whether financing by the issue and sale of such securities in the respective amounts proposed is necessary or appropriate to the economical and efficient operation of the businesses in which Southern is engaged;

(4) Whether the accounting entries to be made in connection with the proposed transactions are proper;

(5) Whether the fees, commissions and other remunerations to be paid directly or indirectly in connection with the proposed transactions are reasonable;

(6) Generally, whether the proposed transactions comply with all of the applicable provisions and requirements of the act and rules and regulations promulgated thereunder and whether it is necessary or appropriate in the public interest or for the protection of investors and consumers or to prevent the circumvention of any provisions of the act or rules, regulations, or orders thereunder to impose terms and conditions in connection with any of the proposed transactions.

By the Commission.

ILLINOIS POWER CO.

#### SUPPLEMENTAL ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 15th day of May 1946.

Illinois Power Company ("Illinois Power"), a registered holding company and public utility company, having filed an application pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 ("the act") regarding the issue and sale, by competitive bidding pursuant to the requirements of Rule U-50 promulgated under the Act, of \$45,000,000 principal amount of First Mortgage Bonds, ----% Series due 1976,

and of \$9,000,000 principal amount of Sinking Fund Debentures, ----% Series due 1966; and

The Commission having considered said application pursuant to section 6 (b) as a declaration pursuant to section 7 of the act, and having by order dated April 18, 1946, permitted said declaration to become effective subject to entry of a further order of the Commission after the results of competitive bidding pursuant to Rule U-50 had been supplied by amendment, and subject further to reservation of jurisdiction with respect to legal and auditing fees and expenses proposed to be paid in connection with the proposed security issues, and with respect to certain accounting entries as specified in said order of April 18, 1946; and

Illinois Power having filed a further amendment herein on May 15, 1946, setting forth the action taken to comply with the requirements of Rule U-50 and submitting results of the invitation for competitive bids, as follows:

BONDS			
Bidder	Price to company	Interest rate	Cost to company
The First Boston Corp.....	102.039	2 3/4	2.78
Halsey, Stuart & Co.....	101.90	2 3/4	2.79
DEBENTURES			
The First Boston Corp.....	101.039	2 3/4	2.69
Halsey, Stuart & Co.....	100.29	2 3/4	2.74

Said amendment having further stated that Illinois Power has accepted the bid of The First Boston Corporation for the first mortgage bonds, as set out above, and that said bonds will be offered for sale to the public at a price of 102.54 resulting in an underwriters' spread of .501; and

Said amendment having further stated that Illinois Power has accepted the bid of The First Boston Corporation for the Sinking Fund Debentures, as set out above, and that said Debentures will be offered for sale to the public at a price of 101.54 resulting in an underwriters' spread of .501; and

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the prices to be paid for said Bonds and Debentures, the respective redemption prices thereof, the respective interest rates thereon, and the respective underwriters' spreads,

It is ordered, That the declaration herein, as amended, be, and the same hereby is, permitted to become effective, subject, however, to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved with respect to the payment of all legal and auditing fees and expenses in connection with the

security issues, be and it is hereby continued.

It is further ordered, That the jurisdiction heretofore reserved to pass upon the accounting entries made by Illinois Power Company in connection with the loss resulting from the sale of certain interests in and property of Illinois Terminal Railroad Company, including entries relating to Paid-In Surplus and Depreciation accounts of Illinois Power Company, be and it hereby is continued.

By the Commission.

#### ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of May 1946.

John H. Ware, 3d, having filed an application pursuant to section 9 (a) (2) of the Public Utility Holding Company Act of 1935 in respect to his proposed acquisition from the Harrisburg Trust Company, Executor of the Estate of Robert Hall Craig, deceased, of the outstanding capital stock of Mount Carmel Citizens Gas Company, consisting of 300 shares, without par value, and the outstanding capital stock of Ashland Gas Light Company, consisting of 600 shares, without par value, for a cash consideration of \$35,110 subject to adjustment for profits or losses to the closing date.

Said application having been filed on March 29, 1946, and an amendment thereto having been filed on April 26, 1946, and notice of such filing having been duly given in the manner prescribed by Rule U-23 of the rules and regulations promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that such transaction has the tendency required by section 10 (c) (2) of the act and observing no basis for adverse findings under the other applicable standards of section 10 of the act:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid application be, and hereby is, granted forthwith.

By the Commission.

[SEAL] ORVAL L. DuBOIS,  
Secretary.
