### TITLE 6—AGRICULTURAL CREDIT

#### Chapter II—Production and Marketing Administration (Commodity Credit)

##### PART 245—IRISH POTATOES

##### SUBPART—1946 LOAN PROGRAM

This bulletin states the requirements with respect to the 1946 Irish Potato Loan Program formulated by Commodity Credit Corporation and the Production and Marketing Administration. Loans will be made available on potatoes of the 1946 late crop to growers or associations of growers or their authorized agents, and certified dealers. The program will be administered through the facilities of the Production and Marketing Administration.

Forms may be obtained from County Agricultural Conservation Committees or from State PMA offices in areas where loans are available. State and county committees will determine the eligibility of the potatoes, the grade and quality, and the amount of the loan. All loan documents will be completed and approved by the county committee, which will retain copies of all documents, provided, however, that the county committee may designate in writing certain employees of the County Agricultural Conservation Association to execute such forms on behalf of the Committee.

The County Committee will furnish the borrower with the names of local lending agencies approved for making disbursements on loan documents, or with the address of the Area Fiscal Office of the Production and Marketing Administration to which loan documents may be forwarded for disbursement.

**AUTHORITY:** §§ 245.41 to 245.57, inclusive, issued under the Charter of Commodity Credit Corporation, Article Third, paragraph (b); section 4 (a) of the act of July 1, 1941, as amended (55 Stat. 498, 56 Stat. 768; 15 U. S. C., Sup. V, 713a-8 (a)); and section 7 (a) of the act of January 31, 1935, as amended (15 U. S. C., Sup. V, 713 (a)).

§ 245.41 *Borrower responsibility.* The Chattel Mortgage and Mortgage Supplement governs generally the responsibility of the borrower and should be read carefully.

§ 245.42 *Eligible borrowers.* (a) Any person, partnership, association, or corporation producing Irish potatoes in 1946.

(b) Associations of producers that have acquired 1946 Irish potatoes pursuant to the 1946 Potato Producers' Sales Agreement (CCC Potato Form C).

(c) Dealers who have been certified by the State potato committee and who have purchased potatoes from producers at not less than the equivalent of the 1946 announced support prices.

§ 245.43 *Applications, period for making loans, maturity date, and interest rate.* Applications for loans shall be made at the office of the county agricultural conservation committee for the county where the potatoes are stored.

Applications for loans may be accepted between September 15, 1946 and December 15, 1946. However, since all loan documents must be completed not later than December 31, 1946, State Committees should, if necessary, set a final date for accepting applications sufficiently in advance of December 15, 1946, in order that all inspections of potatoes and the approval of all loan documents will be completed by December 31, 1946. Disbursement on a loan will be made only within the fifteen calendar day period following the date of approval of the loan.

All loans shall mature on demand but not later than April 30, 1947, and will bear interest at the rate of 3 percent per annum from the date of disbursement.

§ 245.44 *Eligible potatoes.* Eligible potatoes shall be 1946 crop potatoes produced by or acquired at not less than the equivalent of support prices by eligible borrowers, which are of a quality suitable for storage and which are properly stored in approved permanent storage.

Potatoes containing more than 2 percent soft rot or more than 3 percent dry rot including late blight shall not be eligible for loan.

Potatoes stored in a manner or in storage structures not meeting specifications established by the State Committee shall not be eligible for loan.

In order to make certain that the potatoes are of a quality suitable for storage, county committees may require that the potatoes remain in storage for a specified period prior to inspection and approval for loan.

§ 245.45 *Amount of loan and loan rates.* The amount of the loan shall be computed in accordance with the 1946 Schedule of Loan Rates attached hereto on the quantity of U. S. No. 1 quality potatoes in the unit at the applicable loan rate for U. S. No. 1 potatoes, plus the quantity of U. S. No. 1 size B and U. S. No. 2 (1 $\frac{7}{8}$  inches minimum) quality potatoes in the unit at the applicable loan rate for U. S. No. 2 potatoes.

§ 245.46 *Storage charges.* Where a borrower obtains a loan on potatoes stored in an approved warehouse, all storage costs shall be assumed by the borrower.

§ 245.47 *Service fees.* A service fee shall be charged for each loan in the amount of two cents per hundredweight for the hundredweight of potatoes placed under loan but not less than \$5.00 for each loan. Part of the service fee (one-half cent per 100 pounds of the potatoes which are estimated will be placed under loan, but not less than \$5.00) will be payable at the time application is made for a loan, and will be unreturnable even though the loan is not completed.

§ 145.48 *Insurance.* The borrower shall not be required to carry insurance on the collateral. However, it should be made clear to the borrower that in case of a loss the Corporation will only cancel any deficiency remaining on his note after all proceeds from any sales or salvage have been applied as a credit thereto, and then only in the case of a loss due to flood, fire, lightning, or windstorm on which he has given the county committee immediate notice in writing, and to which his fault, negligence or conversion has not been a contributing factor.

§ 245.49 *Withholding lower grade potatoes from commercial markets.* Each borrower, in order to obtain a loan, is required to agree that during any period in which settlement rates for U. S. No. 2 grade or quality, 1 $\frac{7}{8}$  inches minimum diameter, and U. S. No. 1 size B grade or quality, are applicable to his area, and the Department of Agriculture has provided or approved outlets for potatoes of these and lower grades or qualities which will assure a return at least equal to the applicable support prices for all of such potatoes grading U. S. No. 2, 1 $\frac{7}{8}$  inches minimum diameter, and U. S. No. 1 size B, he will withhold from commercial markets when requested to do so by the Department of Agriculture all potatoes of No. 2 grade or quality, 1 $\frac{7}{8}$  inches minimum diameter, and U. S. No. 1 size B and lower grades or qualities produced or otherwise acquired by him.

§ 245.50 *Settlement of loans.* The borrower must satisfy the loan on or before maturity of the note either by repayment in cash or by delivery of the potatoes to Commodity Credit Corporation, or by a combination of the two.

(a) *Repayment by cash—(1) Proceeds of sales.* A borrower will be required to apply on the loan all of the net proceeds (proceeds less marketing services performed) resulting from sale of the mortgaged potatoes until the loan is repaid. In no event shall such repayment be less than the loan value of the potatoes plus interest. Such repayments shall redeem only the potatoes sold.

(2) *Other cash repayments.* Other cash repayments on the loan shall redeem from the loan (and remove from price support) a quantity of potatoes equal to the amount of the payment divided by the weighted average settlement rate in effect at the time of such repayment.

(b) *Repayment by delivery.* Between the date of disbursement of the loan and the maturity date of the loan, the borrower may request shipping instruction to enable him to deliver potatoes to Commodity Credit Corporation within the quantities permitted in his loan agreement. Such deliveries in any calendar month shall be limited to 20 percent of the quantity of potatoes originally placed under loan or one carload, whichever is higher, except where larger quantities are eligible for delivery as provided herein. The potatoes must be delivered in such condition with respect to preparation for market and shipment (either in bulk or graded and sacked) as may be prescribed by CCC. Delivery of the potatoes in any other conditions shall be at the borrower's expense.

Upon delivery, the borrower will be credited with the full support price applicable to the location and condition of the potatoes at the time of delivery.

§ 245.51 *Delivery in excess of agreed monthly quantity.* In the event an examination by a qualified representative of the county committee shows that, by reason of actual deterioration, immediate disposal of all, or a portion of the potatoes is required to avoid abnormal loss, CCC will accept delivery in excess of the agreed monthly quantity limitation. The quantity thus accepted shall be limited to potatoes of which immediate disposal has been found necessary, and shall constitute a part of and shall be limited to the total quantity which would be eligible for delivery, at the agreed monthly rate, between the date of such examination and April 30, 1947. In any event, CCC shall accept a sufficient quantity of such potatoes to repay the balance due on the loan. Credit shall be given at support prices applicable on the date of delivery for such quantity of the potatoes delivered as would be eligible for delivery at the agreed monthly rate to April 30, 1947, and at September 1946 support prices for any potatoes in excess of such quantity which are accepted in order to satisfy the loan.

In the event a borrower offers potatoes on or before the 20th day of any month during which such potatoes are eligible for delivery and due to the failure of CCC to provide shipping instructions delivery of such potatoes is not completed during that month, delivery of such potatoes shall not be included in the quantity regularly eligible for delivery in the month delivery is accepted, provided the borrower delivers promptly on receipt of the delivery order.

§ 245.52 *Inability of CCC to accept delivery.* If the borrower offers potatoes eligible for delivery and delivery cannot be accepted within 20 days, the county committee shall authorize the borrower to have such potatoes inspected at the end of the 20-day period, by a Federal or Federal-State inspector, at his own expense, to determine their value at the applicable support price as of the date of such inspection.

Such potatoes will be accepted as soon as possible. On or after the date of issuance of a delivery order covering such potatoes, a second inspection shall be

PART 245—IRISH POTATOES

SUBPART—1946 EMERGENCY LOAN PROGRAM

In addition to the regular loans on the 1946 crop of Irish Potatoes covered in §§ 245.41 to 245.57, inclusive, special loans will be made by Commodity Credit Corporation in certain designated areas on potatoes stored in barns, sheds, windrows, banks, pits or other forms of emergency field storage. Under this special potato loan program, loans will be made only in such states or areas as are specifically designated by the Director, Fruit and Vegetable Branch and then only to the extent that permanent storage as required under the regular loan program is not available in the area. This program may be put into effect only after authority has been given to the Director, FSB, authorizing a special loan program in a given State or area. The FSB will redelegate authority to the PMA State Director prior to acceptance of any special loans within the State.

Loans under the special potato loan program will be separate from all other types of loans. However, the general provisions applicable to regular loans as outlined in §§ 245.41 to 245.57 will apply to this Special Loan Program except for the changes noted below.

- Sec.
- 245.58 Eligible potatoes and eligible storage.
- 245.59 Amount of loan and loan rates.
- 245.60 Settlement of loans.

ceive in settlement therefor the same price as though such potatoes had been delivered in satisfaction of the loan, provided that such deliveries in any calendar month shall be limited to 20 percent of the potatoes originally placed under loan or one carload, whichever is higher. No deliveries shall be accepted after June 30, 1947.

(d) CCC may request delivery of any portion of such potatoes at a specified date and in a specified manner and, if the borrower fails to make such delivery, the CCC shall be relieved of any further price support obligations with respect to such portion of the potatoes.

§ 245.55 *Loans in default.* In the event the borrower has made a fraudulent representation in the loan documents or in obtaining the loan, or abandons or fails to safeguard the mortgaged potatoes or otherwise causes CCC to remove the potatoes to protect its interest, or to foreclose the mortgage, settlement shall not necessarily be at support rates, but the borrower shall be credited with the best price obtainable by CCC, less necessary costs incurred, and shall be charged with any deficiency which may result.

In the event the borrower fails to satisfy the loan by maturity, he shall be credited at September 1946 support prices for potatoes delivered after maturity and shall be liable for any deficiency which may result. Such delivery shall be limited to the quantity necessary to satisfy the loan.

§ 245.56 *Purchase of notes.* Commodity Credit Corporation will purchase from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages. The purchase price to be paid by CCC will be the principal sums remaining due on such notes, plus accrued interest from the date of disbursement to the date of purchase at the rate of 1½ percent per annum. Lending agencies are required to submit a weekly report to CCC and CCC may prescribe of all payments received on producer's notes held by them, and are required to remit promptly to CCC an amount equivalent to 1½ percent interest per annum, on the amount of the principal collected, from the date of disbursement to the date of payment. Lending agencies should submit notes

made by a Federal or Federal-State inspector while the potatoes are still in storage, at the expense of the Commodity Credit Corporation to determine their value at the applicable support price as of the date of such inspection.

Any decline in value between the dates of these two inspections shall be credited to the borrower's account, by means of "Claim for Deterioration" (copy attached).

§ 245.53 *Deficiencies due to flood, fire, lightning or windstorm.* The borrower shall be responsible for any loss in the quality and quantity of the potatoes, which results in a deficiency on the loan, except that uninsured physical loss or damage occurring without fault, negligence, or conversion on his part and resulting solely from flood, fire, lightning, or windstorm shall be assumed by CCC to the extent of the deficiency which results. In cases where such losses are covered by insurance, the borrower, after the proceeds of sales and salvage have been applied on the note, shall have first claim on the proceeds of any insurance claim to the extent of his equity in the damaged potatoes (market value or support value, whichever is higher, of the potatoes, less the part of the unpaid balance on the note represented by the damaged potatoes). The balance of the proceeds from the insurance claim, if any, shall be credited in payment of the note.

§ 245.54 *Continued price support.* Borrowers who have satisfied their loans by maturity shall be assured full price to any remaining potatoes which were covered by the loan and were not re-deemed, in accordance with the following procedure:

(a) The borrower shall notify the county committee in writing within 10 days after repayment, stating the quantities and grades of such potatoes in his possession.

(b) The county committee shall verify the quantity and shall indorse on the declaration the quantity approved for continued price support (potatoes re-deemed by cash repayments on the loan shall not be eligible for continued price support).

(c) The borrower shall be permitted to deliver such remaining potatoes to CCC, passing title thereto, free and clear of liens and encumbrances, and shall re-

(4) Potatoes containing not more than two percent soft rot or more than 3 percent dry rot including late blight.

(b) Eligible storage shall consist of emergency storage containing adequate drainage as approved by the County Agricultural Conservation Committee wherein potatoes are protected from the elements including freezing. (Borrowers shall furnish any protective material required in storing the potatoes at their own expense.)

§ 245.59 *Amount of loan and loan rates.* The amount of the special loan shall be computed in accordance with Table II, Schedule of Loan Rates for the 1946 Special Potato Loan, set forth in § 245.66 on the quantity of U. S. No. 1 quality potatoes in the unit at the applicable loan rate for U. S. No. 1 potatoes plus the quantity of U. S. No. 1 size B and U. S. No. 2 (1 7/8 inches minimum) quantity potatoes in the unit at the applicable loan rates for U. S. No. 2 potatoes.

§ 245.60 *Settlement of loans.* The following supersedes all of the provisions with respect to the settlement of loans as set forth in § 245.50:

(a) *Repayment by cash.*—(1) *Proceeds of sales.* A borrower will be required to apply on the loan all of the net proceeds (proceeds less value of marketing services performed) resulting from the sale of the mortgaged potatoes until the loan is repaid. In no event shall such repayment be less than the loan value of the potatoes plus interest. Such repayment shall redeem only the potatoes sold.

(2) *Other cash repayments.* Other cash repayments on the loan shall redeem from the loan (and remove from price support) a quantity of potatoes equal to the amount of the payment divided by the weighted average September 1946 settlement rate.

(3) *Notes held by local lending agencies.* Cash repayments should be made direct to the local lending agency and interest will cease on the amount of such repayments as of the dates they are received by the lending agency.

(4) *Notes held by the area fiscal office.* (i) The borrower may forward cash repayments to the office of the county committee which approved the loan and interest will cease on the amount of such repayments as of the date they are received at the county committee's office. On receipt of such repayments, the county committee will prepare in duplicate a letter of transmittal. The date the repayment was received in the county office shall be shown in the upper right hand corner. The original of the letter of transmittal shall be forwarded to the Area Fiscal Office without delay. The copy of the letter should be filed with the borrower's loan papers.

(ii) The borrower may forward cash repayments direct to the Area Fiscal Office. Interest shall cease on the amount of such repayments as of the date they are received at that office.

(b) *Repayment by delivery.* When called for by CCC, the borrower will deliver the potatoes in the manner requested to the shipping point designated in the chattel mortgage and will receive

credit at the applicable support rates for September 1946. The State PMA Director shall arrange for acceptances and shipment of the potatoes in a manner similar to a regular field purchase program. This includes telegraphic reports of shipment and usual documentation, except that the holder of the note and State and county code and loan numbers shall be entered as lienholder on the voucher SMA-120. The mortgage supplement provides that in order to obtain a special loan the borrower must agree:

(1) That he will sell in commercial channels, and deliver to CCC, only potatoes mortgaged hereunder so long as any such potatoes remain unsold or undelivered, or until such remainder has been redeemed or released by CCC or its authorized representative, except in the following instances:

(i) When sales or delivery of other potatoes is required by reason of abnormal deterioration.

(ii) When sale or delivery of other potatoes for specific purposes is permitted pursuant to specific authority issued to the State committee; or

(iii) When sale or delivery of other potatoes has been authorized by the county committee because sale or delivery of potatoes mortgaged under a special loan is impossible or impracticable solely because of the limited amount of the sale or because of weather conditions rendering such sale or delivery dangerous to the safety of the potatoes.

(2) That the monthly quantity of potatoes eligible for delivery shall be limited to 20% of the total quantity of potatoes under special and regular loan or one carload, whichever is higher, and if he has obtained a regular loan the monthly quantity of potatoes eligible for delivery under such loan shall be amended in accordance with this provision.

(3) That notwithstanding the monthly quantity limitation on potatoes eligible for delivery, CCC may at any time require delivery of all or any portion of the potatoes under special loan, provided that such deliveries in excess of the monthly quantity limitation shall not affect the quantity eligible for delivery in succeeding months. In the event the borrower fails without good reason, as determined by the county committee, to comply with delivery instructions issued under this paragraph, he shall subsequently be entitled to deliver only such quantity of the potatoes under special loan as are required to satisfy the loan thereon.

§ 245.61 *Deterioration.* If the borrower notifies the county committee or the county committee finds that the potatoes are deteriorating or are threatened with deterioration, the county committee shall immediately notify the State PMA Director of such deterioration and request acceptance of delivery or instructions for the disposition of the potatoes.

After all deliveries and sales, if any, have been made and the borrower has been authorized to dispose of any remaining potatoes because of deterioration, the county committee shall conduct such investigation as may be necessary for their determination as to the disposal

made of the potatoes and prepare a "Claim for Deterioration Under Special Loan."

§ 245.62 *Quantity eligible for delivery.* In the event a borrower offers potatoes on or before the 20th day of any month during which such potatoes are eligible for delivery and due to the failure of the CCC to provide shipping instructions delivery of such potatoes is not completed during that month, delivery of such potatoes shall not be included in the quantity regularly eligible for delivery in the month delivery is accepted, provided the borrower delivers promptly on receipt of the delivery order.

§ 245.63 *Deficiencies due to flood, fire, lightning, or windstorm.* The provision set forth in § 245.53 will apply.

§ 245.64 *Continued price support.* Borrowers who have satisfied their loans by maturity shall be assured September price support through June 1947, with respect to any remaining potatoes which were covered by the loan and were not redeemed, in accordance with the following procedure:

(a) The borrower shall notify the county committee in writing within 10 days after repayment, stating the quantities and grades of such potatoes in his possession.

(b) The county committee shall verify the quantity and shall indorse on the declaration the quantity approved for continued price support (potatoes redeemed by cash repayments on the loan shall not be eligible for continued price support).

(c) The borrower shall be permitted to deliver such remaining potatoes to CCC, passing title thereto, free and clear of liens and encumbrances, and shall receive in settlement therefor the September support prices as though such potatoes had been delivered in satisfaction of the loan. No deliveries shall be accepted after June 30, 1947.

(d) CCC may request delivery of any portion of such potatoes at a specified date and in a specified manner and, if the borrower fails to make such delivery, the CCC shall be relieved of any further price support obligations with respect to such portion of the potatoes.

§ 245.65 *Loans in default.* In the event the borrower has made a fraudulent representation in the loan documents or in obtaining the loan, or abandons or fails to safeguard the mortgaged potatoes or otherwise causes CCC to remove the potatoes to protect its interest, or to foreclose the mortgage, settlement shall not necessarily be at support rates, but the borrower shall be credited with the best price obtainable by CCC, less necessary costs incurred, and shall be charged with any deficiency which may result. In the event the borrower fails to satisfy the loan by maturity, he shall be credited at September 1946 support prices for potatoes delivered after maturity and shall be liable for any deficiency which may result. Such delivery shall be limited to the quantity necessary to satisfy the loan.

In the event the borrower has more than one loan on potatoes of the 1946 crop and defaults on any of them, CCC

may remove the collateral securing any or all of the loans and apply any excess proceeds resulting therefrom or from deliveries by the borrower against the balance due on the defaulted loan.

§ 245.66 1946 schedule of loan rates per cwt. of potatoes. (Applicable only in States or areas specifically authorized.)

### Chapter III—Bureau of Entomology and Plant Quarantine

[B. E. P. Q. 557]

#### PART 301—DOMESTIC QUARANTINE NOTICES MEXICAN FRUITFLY REGULATIONS MODIFIED

INTRODUCTORY NOTE. The following administrative instructions lift all permit requirements relative to interstate movement of regulated citrus fruits from the area regulated on account of the

Mexican fruitfly until notice is given that, as a result of inspections and surveys, it has been determined that the status of fruitfly infestations in regulated areas makes it necessary to order the resumption of such requirements. Since intensive inspections over a number of years have shown that infestations do not occur during the early part of the harvesting and shipping season, it is believed unnecessary to maintain the permit requirements during that period.

The purpose of this action is thus to relieve commerce in citrus fruits from a burdensome requirement which must be observed during most of the calendar year. In order to be of maximum benefit to the public, the relief from these restrictions must be made effective as soon as possible. Accordingly, compliance with the rule making procedure of sec. 4 (a) of the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 238) is impracticable and contrary to the public interest, and compliance with the publication requirement of sec. 4 (c) of that act is unnecessary.

§ 301.64-3c *Administrative instructions lifting permit requirements for interstate movement of citrus fruits until further notice.* The Chief of the Bureau of Entomology and Plant Quarantine, having determined that natural conditions exist with respect to the area regulated by 7 CFR, 1945 Supp., 301.64-2 [Notice of Quarantine No. 64 on account of the Mexican fruitfly] which eliminate the risk of Mexican fruitfly infestations in regulated citrus fruits during the early part of the shipping season, hereby waives the permit requirements for interstate movement of such fruits from such regulated area, effective October 1, 1946, and until due notice of their resumption shall have been given.

(Section 8, 37 Stat. 318, 39 Stat. 1165, 44 Stat. 250; 7 U. S. C. 161; 7 CFR, 1945 Supp., 301.64-3 (a))

Effective: October 1, 1946.

#### Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Grapefruit Reg. 40]

#### PART 955—GRAPEFRUIT GROWN IN THE STATE OF ARIZONA; IN IMPERIAL COUNTY, CALIFORNIA; AND IN THAT PART OF RIVERSIDE COUNTY, CALIFORNIA, SITUATED SOUTH AND EAST OF THE SAN GORGONIO PASS

##### LIMITATION OF SHIPMENTS

§ 955.301 *Grapefruit Regulation 40—(a) Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 955.1 et seq.) regulating the handling of grapefruit grown in the State of Arizona; in Imperial

County, California; and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation of the Administrative Committee established under the said marketing agreement and the said order, and upon other available information, it is hereby found that the limitation of shipments of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., p. s. t., October 13, 1946, and ending at 12:01 a. m., p. s. t., December 1, 1946, no handler shall ship:

(i) Any grapefruit grown in the State of Arizona; in Imperial County, California; or in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, which grade lower than U. S. No. 2 grade, as such grades are defined in the U. S. Standards for California and Arizona Grapefruit, issued by the United States Department of Agriculture, effective March 15, 1941; or

(ii) From the State of California or the State of Arizona (a) to any point outside thereof in the United States, any such grapefruit which are of a size smaller than 3 11/16 inches in diameter, or (b) to any point outside thereof in Canada, any such grapefruit which are of a size smaller than 3 6/16 inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than such minimum sizes shall be permitted, which tolerances shall be applied in accordance with the provisions for the application of tolerances, specified in the said U. S. Standards for California and Arizona Grapefruit: *Provided*, That in determining the percentage of grapefruit in any lot which are smaller than 3 11/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size 4 2/16 inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are smaller than 3 6/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size 3 13/16 inches in diameter and smaller.

(2) As used herein, "handler" and "ship" shall have the same meaning as is given to each such term in said marketing agreement and order.

#### PART 802—DELEGATIONS OF FINAL AUTHORITY

#### DIRECTIVE TO RFC WITH RESPECT TO CAST IRON SOIL PIPE

§ 802.6 *Directive to the Reconstruction Finance Corporation on Premium Payments Regulation 8 (§ 805.8 of this chapter); cast iron soil pipe.* This directive assigns to the Reconstruction Finance Corporation responsibilities which are necessary to assure effective administration of Premium Payments Regulation 8, as amended September 30, 1946<sup>1</sup> (§ 805.8 of this chapter), on cast iron soil pipe, and in addition it summarizes responsibilities assigned to the RFC by § 805.8 of this chapter.

(a) Pursuant to the authority vested in me by the Veterans' Emergency Housing Act of 1946, the RFC is hereby authorized and directed to perform the following functions in addition to those assigned to it by § 805.8 of this chapter:

(1) After preliminary review of claims for payment and information returns, and after making payments as provided for by § 805.8 of this chapter, forward three copies of the claim, or the information return, to the Civilian Production Administration, Washington, D. C., Attention: Building Materials Division, and two copies of the claim, or the information return, to the Office of the Expediter, Washington, D. C., Attention: Premium Payment Branch.

(2) Notify the producer of any change in the amount of a claim made by RFC after preliminary review, or by CPA after further investigation and audit.

<sup>1</sup> 11 F. R. 11270.

(3) Furnish to CPA, at its request, serial numbers to be inserted on the quota application form by CPA.

(4) Prepare and transmit to the OHE such regular and special reports of its operations under § 805.8 of this chapter and this directive as may be requested by the OHE.

(5) RFC shall act upon advice from the CPA with respect to such authority delegated to CPA by the Housing Expediter as affects the functions of the RFC in the program.

(6) Take all other steps necessary to carry out the responsibilities of the RFC under § 805.8 of this chapter.

(b) Responsibilities assigned to RFC by § 805.8 of this chapter, together with appropriate reference to related delegations to the CPA, are summarized as follows:

(1) The RFC will furnish copies of Quota Form NHA 14-64 and Claim Form NHA 14-65 to applicants on request, through its Loan Agencies.

(2) The RFC will receive claims for payment and information returns and:

(i) Determine whether such claims appear to have been correctly and properly prepared.

(ii) Subject to final verification by CPA, pay all or any part of a claim accepted by RFC. If any part of a claim is questionable after review or audit by CPA, RFC may:

(a) Require that a bond satisfactory in form and amount be furnished by the claimant, or

(b) Suspend further payments.

(3) The RFC may require that a bond satisfactory in form and amount be furnished by any claimant for the last two months during which this regulation is in effect.

(4) If the amount verified and approved for payment by CPA is less than the amount previously paid, or if the claim is invalidated in whole or in part, RFC shall notify the claimant of the overpayment or the invalidation and:

(i) Demand that the claimant refund the overage, or the amount invalidated, plus interest at the rate of 4 percent per annum, or

(ii) Deduct such sum plus interest from any accrued or subsequent claim of the claimant.

## TITLE 32—NATIONAL DEFENSE

### Chapter XI—Office of Price Administration

#### PART 1305—ADMINISTRATION NATURAL AND PETROLEUM GAS

The following is a new interpretation of section 1A (d) (4) of the Emergency Price Control Act of 1942, as amended:

*Application to natural and petroleum gas; what petroleum products are exempt from price control.* Section 1A (d) (4) of the Emergency Price Control Act of 1942, as amended, prohibits the Administrator from imposing or maintaining price controls with respect to petroleum or petroleum products processed or manufactured in whole or substantial part from petroleum. Questions arise as to whether the term "petroleum" includes natural and petroleum gas and as to what petroleum products are exempt from price control by the wording "petroleum products processed or manufactured in whole or substantial part from petroleum."

In view of legislative history and industry definition of petroleum, it has been concluded that section 1A (d) (4) of the act applies to natural and petroleum gas. Natural gas is any gas produced from a gas well not associated with crude petroleum at the time of production. Petroleum gas is any refinery gas or any gas and/or vapor produced in conjunction with crude petroleum.

A manufactured or processed product, to qualify under the exemption, must be a petroleum product. It has been concluded that to qualify as a petroleum product the product must be predominantly manufactured or processed by petroleum refiners, compounders or blenders. By predominantly is meant that more than 50% of the volume of

the product must be manufactured or processed by petroleum refiners, compounders or blenders. Therefore, products such as gasoline, kerosene, naphthas, fuel oils, greases, lubricating oils, waxes, petrolatums, asphalt and road oil (derived solely from crude petroleum) and natural or petroleum gas are exempt from price control.

On the other hand, those products which are manufactured from petroleum but where 50% or more of the volume is produced by other than petroleum refiners, compounders or blenders are not exempt from price control. Products such as isopropyl alcohol, isopropyl acetate, carbon black, briquets, asphalt insulating and sound deadening compounds and wax emulsions are not exempt from price control under section 1A (d) (4) of the act.

If a product qualifies as a petroleum product under this interpretation, it is exempt from price control regardless of by whom it is made. Conversely, if a product does not qualify as a petroleum product under this interpretation, the product is subject to price control regardless of by whom it is made.

This does not revoke supplementary orders exempting both products of petroleum and petroleum products heretofore issued.

Issued this 23d day of September 1946.

General Counsel.

#### PART 1305—ADMINISTRATION

[SO 129, Amdt. 59]

##### EXEMPTION AND SUSPENSION FROM PRICE CONTROL OF MACHINES, PARTS, INDUSTRIAL MATERIALS AND SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 129 is amended in the following respect:

Section 10 (a) is amended by adding the following to the list of commodities thereunder:

Laminated glass.  
Natural and synthetic pigments (mineral earth color pigments).  
Rustic fencing.

This amendment shall become effective October 10, 1946.

Issued this 10th day of October 1946.

PAUL A. PORTER,  
Administrator.

##### Statement of Considerations Accompanying Amendment No. 59 to Supplementary Order 129

The accompanying amendment adds to the items suspended from price control under section 10 (a) of Supplementary Order 129 laminated glass, natural and synthetic mineral pigments (mineral earth color pigments) and rustic fencing. These products have been

covered by Maximum Price Regulation 592 and the General Maximum Price Regulation.

Laminated glass is used principally in the automotive industry and its sales to that industry for use in new vehicles have already been suspended from price control. The balance of the output, suspended by this amendment, goes principally to industrial consumers for use in railroads and street cars, trailers, and marine vessels.

Natural mineral pigments are principally iron oxide pigments used by the paint and other industries for coloring purposes. They are principally red iron oxide, yellow ochres, metallic browns, paint sienna and umbers.

Rustic fencing is made largely from 2", 3" and 4" peeled Northern White Cedar, Locust, Tennessee Red Cedar, Arkansas Red Cedar and Tamarack fence posts. Post and rail fencing made from the same material has already been suspended from price control. Rustic fencing is used largely for decorative rather than practical purposes and purchases are generally made, therefore, for reasons of taste rather than necessity.

None of the products suspended by this action are considered to be commodities but are in fact items grouped within a commodity or class of commodities. No determination has been made at this time that the respective commodity groups to which these products belong are not important in the cost of living or business costs. The Price Administrator has, nevertheless, selected these products out of their respective commodity groups for suspension at this time because (a) they are insignificant in relation to the class to commodities to which they belong; (b) their special end uses are different from the end uses of the other products within the respective commodity groups and are unimportant in the cost of living and business costs; (c) the administrative burden involved in processing applications for adjustment in the event maximum prices for these products are maintained is disproportionate in relation to the effectiveness of controls or the contribution to stabilization and (d) suspension from price control will not result in any cumulative and dangerous unstabilizing effect.

After due consideration of the foregoing, the Price Administrator finds that this action is consistent with the Emergency Price Control Act of 1942, as amended.

#### PART 1351—FOOD AND FOOD PRODUCTS

[FPR 1, Amdt. 5 to Supp. 19' (§ 1351.485)]

##### PACKED FRUITS, BERRIES AND VEGETABLES OF THE 1946 AND LATER PACKS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.

<sup>1</sup> 11 F. R. 6827, 8644, 9118, 9190, 9341, 9523, 10292.

Supplement 19 to Food Products Regulation 1 is amended in the following respects:

1. In the table entitled "Metal containers" in section 3 (b), "No. 3" is added in the first column immediately following "No. 3 vacuum" and in the column headed "Dimensions" directly opposite "No. 3" the figures "404 x 414" are added.

2. The table in section 6 (e) (4) is amended by adding "No. 3" opposite the states beginning with "Montana" and opposite the listing "All other states" in the column headed "Can size" immediately following the can size "No. 3"; and directly opposite these listings of "No. 2½" under the column headed "Amount" the figure "\$.34" is inserted.

3. Section 6 (e) (6) is added to read as follows:

(6) *Adjustment for items of tomato paste packed by processors whose factories are located in California.* For sales to purchasers other than government procurement agencies the maximum price per dozen containers or other unit, f. o. b. shipping point, for any item of tomato paste of any processor whose factory is located in California, shall be his maximum price as otherwise determined under this supplement multiplied by 1.046.

This amendment shall become effective October 10, 1946.

Issued this 10th day of October 1946.

GEOFFREY BAKER,  
Acting Administrator.

Approved: October 2, 1946.

N. E. DONN,  
Acting Secretary of Agriculture.

##### Statement of the Considerations Involved in the Issuance of Amendment 5 to Supplement 19 to Food Products Regulation 1

The accompanying amendment to Supplement 19 to Food Products Regulation 1 adjusts processors' maximum prices of tomato paste produced in California. The adjustment provided in the amendment for tomato paste allows processors whose factories are located in California to increase their maximum prices for all items of tomato paste produced in that state, as otherwise determined under the supplement, by 4.6 percent. This adjustment is calculated to return to the canning industry in that area the average total cost of making and selling this product.

From cost data submitted by a firm of certified public accountants covering substantially all processors of tomato paste in California it has been determined that the present maximum prices of tomato paste of the industry in that area do not cover total costs. Processors in this area have been unable to purchase tomatoes at the Department of Agriculture's designated price of \$25.00 per ton and the industry generally has paid an average increase over the designated price of \$4.00 per ton. It has been ascertained from the Department of Agriculture that processors in this area paid a weighted average price of \$29.00 per ton for tomatoes. Due to the high solid content of this product the pay-

ment of \$4.00 per ton above the designated price (i. e. the maximum amount for raw material which processors are allowed to reflect in their maximum prices under the supplement), has thrown processors of this commodity in a loss position on their tomato paste operations.

The amount of the adjustment necessary to cover total costs was determined by calculating 1946 weighted average prices for the can sizes of tomato paste being packed by first increasing 1945 reported prices by the 1946 adjustments provided in the supplement, and then determining by what percentage these prices must be increased to cover the weighted average total costs of the companies included in the cost study referred to above. The Price Administrator has determined that the adjustments granted by the accompanying amendment is necessary to correct maladjustments that would interfere with an effective transition to a peacetime economy.

The amendment also adds a dollars-and-cents increase factor to the table in section 6 (e) (4) for No. 3 cans of Italian pear shaped tomatoes. This table provides dollars-and-cents figures which processors add to their maximum prices for the can sizes listed, as otherwise determined under the supplement, to compensate for the loss of the incentive subsidy which is no longer payable, and for the increase in price of 14 cents per dozen No. 2 can basis which was recommended for production reasons by the Secretary of Agriculture, and made effective by Amendment 4 to the supplement. At the time these increases were provided the Price Administrator was not aware that some processors were also packing tomatoes in No. 3 can size, and since it has been ascertained that this can size is now being used the accompanying amendment provides an appropriate increase for this can size.

PART 1346—BUILDING MATERIALS

[RMPR 206, Amdt. 26]

VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 206 is amended in the following respects:

1. A new section 4.1 (a) (9) is added to read as follows:

(9) In the case of sales of sewer pipe products sold f. o. b. factory on a "pick-up basis" or for "less-than-carload shipments by rail" within Zones 1-4, inclusive, of the State of Washington, Zones 1 and 2 of the State of Oregon, Zones 1 and 2 of the State of Idaho, and Zone 1 of the State of Montana, said zones being defined in section 11.1, below, any manufacturer may increase his price in accordance with either of the following alternative pricing methods:

(i) By adding an amount not in excess of 6 percent to the maximum prices existing on October 14, 1946, for the same quality, kind, and quantity of sewer pipe products delivered to purchasers of the same class.

(ii) By adding amounts not in excess of such amounts as may be required to maintain discount differentials between

prices established under this paragraph and those established by sections 11.3 and 11.4, below, at least as favorable as those existing during the month of March 1942 for the same quality, kind and quantity of sewer pipe products, delivered to purchasers of the same class.

2. Chart VIII of section 11.3 is amended to read as follows:

Sec. 11.5 *Maximum prices for resellers of sewer pipe products.* (a) Any reseller (including those covered by area orders under General Order 68 prior to October 15, 1946) purchasing sewer pipe products for resale in the same form from any manufacturer who has adjusted his maximum prices in accordance with sections 4.1, 11.3 and 11.4, above, may increase his presently established maximum prices by an amount not in excess of 6%.

(b) If, after October 15, 1946, maximum prices in effect on October 15, 1946 are changed by an area order, or amendment thereto, the maximum prices established by the area order shall supersede maximum prices established under (a) above.

This amendment shall become effective October 15, 1946.

Issued this 10th day of October 1946.

GEOFFREY BAKER,  
Acting Administrator.

*Statement of Considerations Accompanying Amendment No. 26 to Revised Maximum Price Regulation 206 and Opinion Accompanying Amendment No. 68 to Order 1 Under Section 25 of Maximum Price Regulation No. 592*

The accompanying amendments permit an increase of 6 percent in the maximum prices of vitrified clay sewer pipe and allied products when sold in the states of Washington, Oregon, Idaho and Montana and incorporates a previous individual company adjustment of 10 percent permitted by Order 3 under section 3.1 (b) (2) of Revised Maximum Price Regulation 206 effective September 15, 1944.

Revised Maximum Price Regulation 206 had previously spelled out dollars-and-cents maximum prices at March 1942 levels for deliveries of sewer pipe products within this area.

Producers operating plants in the state of Washington have alleged that such prices are no longer generally fair and equitable. These plants supply virtually the entire requirements for sewer pipe products in the area under consideration.

Cost and financial data were obtained from two producers operating three plants and representing all the sewer pipe productive facilities in the area. Data were submitted covering operations for the pre-war period 1936 to 1939, the year 1941, and 1945. Wage increases approved by the Wage Stabilization Board have been reflected into the current data, as well as increased costs of freight and materials.

The Administrator has considered: (1) the proportion which sewer pipe represents of the total output of each plant and company; (2) the earnings position of these manufacturers on their over-all operations; (3) the earnings position of these manufacturers on their sewer pipe operations within the area; (4) the necessity for maximum production of this commodity to meet the demand for a product which is in short supply; and (5) the practicability of granting differential adjustments to sellers within the area.

In connection with the foregoing considerations, the Administrator finds: (1) sewer pipe is produced within the area by three plants whose operations are wholly or largely devoted to the production of this product and by companies for whom sewer pipe represents a major product in a multiline operation; (2) the over-all earnings of these companies are favorable in relation to pre-war base period years; (3) earnings on sewer pipe operations within this area are unfavorable as compared with the average of the base period; (4) the Civilian Production Administration has indicated that shortages of this commodity in this and other areas may seriously impede the housing program; and (5) marketing and price relationships in this historically uniform price industry make differential pricing impracticable.

The Administrator has concluded that to insure that price is not an impediment to full production, an adjustment is appropriate sufficient to return to producers in this area their average current costs plus average aggregate earnings on this product during the base period years 1936-1939. In adopting this standard the Administrator has noted that the measure of relief permitted in the accompanying amendments accord with the measure of relief permitted sewer pipe companies in connection with previous studies in the other sewer pipe production areas. The adjustment granted by the accompanying amendments will return base period sewer pipe earnings on the basis of current sales and costs adjusted to reflect a normal volume of operations.

The accompanying amendments also incorporate in the discount tables for Seattle, Washington, the individual adjustment granted in September 1944 to one of the three plants under consideration. This individual adjustment of 10% permitted by Order 3 under section 3.1 (b) (2) of Revised Maximum Price Regulation 206, effective September 15, 1944, is reflected into Charts VIII and IX in section 11.3. Inasmuch as this plant is virtually the sole supplier of the Seattle Territory, the Administrator deems it appropriate, since the individual increase has been reflected into sales data employed in this study, to incorporate this individual increase with the industry-wide increase permitted by this action.

In amending Revised Maximum Price Regulation 206, specific discount changes are provided which approximate the adjustment required, after rounding off to the nearest half discount point in accordance with customary industry practice. In the amendment to Order 1 under Maximum Price Regulation 592, which covers sewer pipe products not listed in Revised Maximum Price Regulation 206, an adjustment equal to 6% above present maximum prices is provided. Likewise, section 4.1 (a) of Revised Maximum Price Regulation 206 is amended to permit an increase of 6% on sales f. o. b. factory on a "pick-up basis", and for "less-than-carload shipments by rail" within the area covered by the accompanying amendments.

In each of the amendments, resellers, including resellers covered by area price

ing orders, purchasing sewer pipe products for resale in the same form may add to their presently established maximum prices an amount not in excess of 6%, representing the average percentage increased costs to the reseller resulting from the adjustment permitted manufacturers. Thus resellers will continue to realize the same percentage margins.

Prior to the issuance of these amendments, the Price Administrator consulted, so far as practicable, with representatives of the industry and has given considerations to their recommendations. The Price Administrator finds that the increase permitted and the maximum prices established by the ac-

companying amendments are consistent with the Emergency Price Control Act of 1942, as amended, and the Executive orders of the President.

**PROCESSING PIECE GOODS**

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 128 is amended by adding § 1400.21a thereto:

§ 1400.21a *Adjustment in ceiling prices.* Notwithstanding the provisions of § 1400.21 above, the maximum price which a job-processor or vertical organization may charge for paper tubes and wooden or veneer packing cases, which are used in connection with the put-up

and packing of piece goods, may be increased by no more than 35% over the maximum price filed for the particular product, with the Office of Price Administration, Washington, D. C., prior to September 11, 1942, pursuant to § 1400.27 of this regulation.

This amendment shall become effective October 10, 1946.

Issued this 10th day of October 1946.

GEOFFREY BAKER,  
Acting Administrator.

*Statement of the Considerations Involved in the Issuance of Amendment No. 5 to Maximum Price Regulation No. 128*

Job-processors and vertical organizations who finish piece goods are presently pricing the finishing service under a freeze-type regulation based on maximum price filed with the Office of Price Administration in 1942. Since that date the cost of various items used by finishers has risen to a point where the Administrator believes it is necessary to provide some adjustment in the ceiling price of these items. Specifically, the cost of

paper tubes, which are now decontrolled at the manufacturers level, has risen approximately 70% while the cost of wooden and veneer packing cases has risen approximately 60%. Traditionally, these items were sold and billed separately by the finishers, and were sold at price which included a markup over acquisition cost.

Under the product standard, the ceiling price for these items may be increased to a level which will return to the industry the average total cost for the items.

A study of a representative sample of figures submitted by the industry has indicated that an average increase of 35% over the 1942 filed maximum prices would be appropriate. In arriving at the figure of 35% the Administrator has discounted the profit margin originally included in the 1942 filed maximum prices.

The Price Administrator is of the opinion that the effect of this price increase on the consumer will be negligible.

**PART 1499—COMMODITIES AND SERVICES**

[Rev. SR 11, Amdt. 103]

**EXCEPTIONS FOR CERTAIN SERVICES; TOBACCO**

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Section 1499.46 of Revised Supplementary Regulation No. 11 is amended in the following respect:

A new subparagraph (170) is added to paragraph (b) to read as follows:

(170) Tobacco—Services involved only with the marketing, handling or processing of leaf tobacco.

This amendment shall become effective October 10, 1946.

Issued this 10th day of October 1946.

GEOFFREY BAKER,  
Acting Administrator.

Approved: October 2, 1946.

N. E. DODD,  
Acting Secretary of Agriculture.

*Statement of the Considerations Involved in the Issuance of Amendment No. 103 to Revised Supplementary Regulation No. 11*

The Price Control Extension Act of 1946 exempted all leaf tobacco and all products manufactured in whole or in part therefrom from price control but did not exempt those services involved only in the marketing, handling and processing of such products. Maximum prices for these services are established in the various leaf tobacco regulations and in Maximum Price Regulation 165, which is the general services regulation.

As examples of these services the fol-

Although there have been considerable increases in the costs of labor and materials involved in these services which would properly be the basis for some increase in price ceilings, the supply of services exempted from control by this amendment seems adequate for the handling of the 1946 crop of tobacco.

PART 1400—TEXTILE FABRICS, COTTON, WOOL, SILK, SYNTHETICS AND ADMIXTURES

[MPR 127, Amdt. 55]  
FINISHED PIECE GOODS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 127 is amended in the following respect:

1. Section 1400.82 (b) (2) (i) is amended to read as follows:

(i) *Independent converters*—(a) *Cotton goods*. A converter selling finished goods composed 75% or more by weight of cotton fibre, and made from grey goods acquired from an unaffiliated source under a contract in which his supplier permissibly reserved the right to charge

<sup>1</sup>10 F. R. 14507, 15006; 11 F. R. 1783, 2075, 2224, 2986, 14628, 4339, 4541, 5120, 5542, 7282, 8646, 8961, 7941, 7690.

For some services, furthermore, state statutes establish the price or percentages that may be charged. For these reasons it appears that, if any price increase results from this action, it will not exceed the increase which would be required under applicable pricing standards.

For the foregoing reasons the accompanying amendment exempts all such services from price control.

A converter selling finished goods composed less than 75% by weight of cotton fibre, and made from grey goods acquired from an unaffiliated source under a contract in which his supplier permissibly reserved the right to charge the ceiling price for the grey goods as of the time of delivery, may reserve the right to charge up to the time of delivery, and at such time may charge, a ceiling price calculated from a "basic grey goods cost" which includes the definite additional charge to which he has by that time become liable by reason of the adjustable pricing clause in his grey

GEOFFREY BAKER,  
Acting Administrator.

Statement of Considerations Involved in the Issuance of Amendment No. 55 to Maximum Price Regulation No. 127

When § 1400.82 (b) (2) was amended on August 15, 1946, integrated sellers of cotton finished piece goods were given permission to reserve the right to charge, up to the time of delivery, a ceiling price calculated from a basic grey goods cost computed from any individually adjusted maximum price granted for the grey goods. In addition they were permitted to reserve the right to charge any additional wage increase factor established by the Office of Price Administration with respect to undelivered goods. It was thought, at the time, that increases granted mills because of higher wages would be granted on an individual basis in the form of an individual adjustment in the seller's ceiling price. If this plan had been followed, the language of § 1400.82 (b) (2) (i) would have been adequate to permit an independent con-

TITLE 43—PUBLIC LANDS; INTERIOR

Subtitle A—Office of the Secretary of the Interior

[Order 2263]

PART 4—DELEGATIONS OF AUTHORITY

SUBPART C—BUREAU OF LAND MANAGEMENT

In paragraph (a) of § 4.275 *Functions with respect to various statutes* (11 F. R. 9080) subparagraphs (9), (10) and (11) are amended to read as follows:

verter, who purchased grey goods on a contract containing an adjustable pricing clause, to also reserve the right to charge a ceiling price for finished piece goods which included his supplier's higher price to him based on the supplier's wage increase. However, the Office of Price Administration finally determined not to grant grey goods increases for the wage factor in the form of an individual adjustment, but to make such increase automatic provided certain standards were met by the grey mills.

It therefore becomes necessary to amend § 1400.82 (b) (2) (i) retroactively to August 15, 1946 in order to carry out the original intention of the Administrator, and this amendment so provides. In addition, independent converters are authorized to sell rayon piece goods with an adjustable pricing reservation.

## TITLE 49—TRANSPORTATION AND RAILROADS

### Chapter I—Interstate Commerce Commission

[Rev. SO 558]

#### PART 95—CAR SERVICE

##### REFRIGERATOR CARS FOR FRUIT AND VEGETABLE CONTAINERS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 7th day of October A. D. 1946.

It appearing, that fruit and vegetable containers, box shooks and other packing material are now moving in box cars from origins in the States of Washington, Oregon or California, to destinations in the State of California; that refrigerator cars are moving empty from the same points of origin to the same points of destination and that the substitution of refrigerator cars for such box cars will release the box cars for other and more essential transportation; in the opinion of the Commission an emergency exists requiring immediate action to prevent a shortage of equipment; it is ordered, that:

(a) *Substitution of refrigerator cars for box cars, to transport fruit and vegetable containers and box shooks.* (1) Except as provided in paragraph (a) (2), common carriers by railroad subject to the Interstate Commerce Act transporting fruit and vegetable containers, box shooks or other packaging or packing materials, in carloads, from origins located in the State of California, or in the State of Oregon on or south of a line extending from Bend through Eugene, to destinations in the State of California may, at their option, furnish and transport not more than three (3) refrigerator cars in lieu of each box car ordered, subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car, provided such refrigerator cars are without floor racks and are not suitable for fruit and vegetable loading.

(2) On shipments on which the carload minimum weight varies with the size of the car,

(i) Two (2) refrigerator cars may be furnished in lieu of one (1) box car ordered of a length of 40' 7", or less, subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car of the size ordered.

(ii) Three (3) refrigerator cars may be furnished in lieu of one (1) box car ordered of a length of over 40' 7", but not over 50' 7", subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car of the size ordered.

(b) *Application.* The provisions of this order shall apply to shipments moving in intrastate commerce as well as to those moving in interstate commerce.

(c) *Effective date.* This order shall become effective at 12:01 a. m., October 10, 1946.

(d) *Expiration date.* This order shall expire at 11:59 p. m., December 20, 1946, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(e) *Conflicting service orders suspended.* The operation of Service Order No. 68 (8 F. R. 8513) of January 30, 1942, as amended (8 F. R. 8513, 14224, 16265; 9 F. R. 7206, 14306; 10 F. R. 6040, 8142, 9720, 12090; 11 F. R. 562, 6983), and all other orders of the Commission insofar as they conflict with the provisions of this order, or as amended, is suspended.

(f) *Rules and regulations suspended.* The operation of all rules and regulations insofar as they conflict with the provisions of this order is hereby suspended.

(g) *Announcement of suspension.* Each of such railroads, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U. S. C. 1 (10)-17)

It is further ordered, that this order shall vacate and supersede Service Order No. 558 as amended; that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

ALLOCATION OF FREQUENCIES IN THE AVIATION SERVICE BETWEEN 108 AND 132 MEGACYCLES

NOTICE OF PROPOSED RULE MAKING

SEPTEMBER 20, 1946.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. A new § 9.80 is proposed to be added to the Commission's rules and regulations as follows:

§ 9.80 *Frequencies for the aviation service between 108 and 132 megacycles.* The frequencies between 108 and 132 megacycles are hereby assigned to the Aviation Service as follows:

108.1 thru 111.9. (20) Air navigation aids,<sup>1</sup> Instrument landing localizer with simultaneous radiotelephone channel.

112.1 thru 117.9. (30) Air navigation aids,<sup>2</sup> Airway track guidance (ranges).

118.1 thru 121.3. (17) Air traffic control communications<sup>3</sup> Ground to air.

121.5 (1) Emergency.<sup>4</sup>

<sup>1</sup> These facilities are normally operated by the CAA. However, the frequencies are available to the FCC for licensing to the industry at those locations where service is needed, and CAA is not prepared to render the service. The frequencies 111.1 thru 111.9 mc have a secondary use in the U. S. as airway communications channels.

<sup>2</sup> Operating frequencies are to be assigned according to a grid system prepared by the CAA. These facilities are normally operated by the CAA. However, the frequencies are available to the FCC for licensing to the industry at those locations where service is needed, and CAA is not prepared to render the service.

<sup>3</sup> These frequencies will be assigned for use on a sequential basis, the details of which will be announced.

<sup>4</sup> The VHF emergency frequency is a universal simplex channel for emergency and distress communications. This channel is available to all aircraft and to all ground installations operating in or with the aeronautical service. This frequency will not be assigned to aircraft unless there are also assigned and available for use other frequencies to accommodate the normal communication needs of the aircraft. The military will use 140.58 mc, until all stations are

121.7, 121.9. (2) Airport utility.<sup>5</sup> Simplex or Cross band.

122.1, 122.3. (2) Private aircraft en route. Air to ground.

122.5 thru 122.9. (3) Private aircraft to towers. Air to ground.

123.1 thru 123.5. (3) Flight test and flying schools. (Shared) Simplex.

123.7 thru 125.5. (10) Approach control. Air to ground.

125.7 thru 126.5. (5) Air carrier. Aircraft to towers.

126.7. (1) Air carrier. Aircraft to airways stations.

126.9 thru 131.9. (26) Air carriers en route. Simplex.

132.1 and higher. Government.

GENERAL NOTE: The above utilization plan when fully implemented contemplates cross band communications except in the case of "Air Carriers Enroute" communications which will be on a simplex basis, and "Airport Utility" communications which may be either cross band or simplex. The target date for full implementation is July 1, 1950. Simplex communications will be permitted during this interim period in those cases where equipment in use will not permit cross band. It is expected that implementation of cross band operation will commence immediately. Change of ground watch on private aircraft frequencies is set for January 1, 1947. Ground stations will guard the frequencies 131.7 and 131.9 mc until that time, hence these two frequencies will not be authorized for air carrier use until January 1, 1947.

3. The allocation plan set forth above is in conformity with the recommendations of the Executive Committee of the Radio Technical Commission for Aeronautics as formulated at its meeting of August 14, 1946. This plan includes an emergency frequency which, it is expected, will serve as a means of establishing communication when no other means exist or are known. Specifically, it will provide a means of calling and working between the various services in connection with search and rescue operations, including such agencies as the Army, Navy and Coast Guard. It will provide an emergency means for direction finding purposes. It will provide a means for establishing emergency air contact. It will provide a means for establishing air to ground contact with lost aircraft. It will provide a means for establishing communication between civil aircraft and military aviation facilities and vice versa. However, the Commission will not license this frequency alone, but will authorize it in conjunction with other frequencies that have been made available to meet all normal communication needs. Under this new plan the navigation receiver required aboard aircraft need cover only the band 108-122 Mc for all important ground to air facilities. The private airman's transmitter need cover only the frequency band 121.5 to 122.9 Mc, inclusive, and need have only six channels to enable him to receive all essential and emergency services.

4. The Commission's action will implement the Radio Technical Commission for Aeronautics' recommendations insofar as they relate to those aircraft and aeronautical stations within the United States which are licensed for op-

provided with this frequency. Adjacent contiguous channels 100 kc. removed shall be reserved as guard channels.

<sup>5</sup> Power and antenna height shall be restricted to the minimum to achieve the required service.

eration by the Commission. It is contemplated that this plan will be implemented eventually on a world-wide basis. The Communications Committee of the PICAQ Caribbean Regional Air Navigation Meeting, which is meeting in Washington at this time, has approved the emergency frequency 121.5 for use in the Caribbean. As this conference's recommendations must be reviewed by PICAQ Headquarters in Montreal, undoubtedly the whole RTCA plan will receive consideration.

5. These proposed rules are issued under the authority of sections 303 (c) and 303 (r) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed rule should not be adopted or should not be adopted in the form set forth may file with the Commission on or before October 7, 1946, a written statement or brief setting forth his comments. The Commission will consider these written comments before adopting the proposed rule and if comments are submitted which appear to warrant the Commission in holding an oral argument, notice of the time and place of such oral argument will be given.

Adopted: September 12, 1946.

MEDICAL DIATHERMY EQUIPMENT AND INDUSTRIAL HEATING EQUIPMENT

NOTICE OF PROPOSED RULE MAKING

SEPTEMBER 20, 1946.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The proposed rules and regulations are set forth attached to this notice.

3. These proposed rules are issued under the authority of sections 301, 303 (f) and 303 (r) of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that the proposed rules should not be adopted or should not be adopted, in the form set forth may file with the Commission on or before October 25, 1946 a written statement or brief setting forth his position. The Commission will conduct an oral argument and hearing at its offices in Washington, D. C. on November 6, 1946 at which interested persons who have filed written statements or briefs may appear and submit any evidence or argument on the issues in question. At such oral argument and hearing the Commission will also give consideration to the question whether an additional frequency band should be assigned for the operation of medical diathermy equipment and industrial hearing equipment in the 3000 mc region of the spectrum.

Adopted: September 19, 1946.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,  
WM. P. MASSING,  
Acting Secretary.

**PART 18—PROPOSED RULES AND REGULATIONS RELATING TO THE OPERATION OF MEDICAL DIATHERMY EQUIPMENT AND INDUSTRIAL HEATING EQUIPMENT**

**GENERAL**

§ 18.1 *Statement of basis and purpose.* (a) Section 301 of the Communications Act of 1934, as amended, provides for the control by the Federal Government over all the channels of interstate and foreign radio communication and further provides, in part, that no person shall use or operate apparatus for the transmission of energy, communications, or signals by radio when the effects of such operation extend beyond state lines or cause interference with the transmission or reception of energy, communications, or signals, of an interstate or foreign character by radio, except under and in accordance with the Communications Act and a license granted under the provisions of that act. The operation of medical diathermy equipment and industrial heating equipment of a type which emits radio frequency energy upon frequencies within the radio spectrum constitutes a serious source of interference to authorized radio communication services operating upon the channels of interstate and foreign communication unless precautions are taken which will prevent the creation of any substantial amount of such interference.

(b) The following rules and regulations are designed to have a twofold effect: (1) They set forth the conditions under which the operation of the equipment in question is not regarded as a cause of interference to the authorized radio communication services and is therefore not required to be operated pursuant to license under the Communications Act. (2) They provide a procedure for the licensing of medical diathermy and industrial heating equipment which in operation constitutes a source of interference to authorized communication services, directly affects the control of the Federal Government over the channels of interstate and foreign radio communication, and is therefore required to be licensed.

§ 18.2 *Definitions.* For purposes of the provisions of this part of the rules and regulations the following definitions shall be applicable:

(a) "Radiofrequency energy" shall include electromagnetic energy generated at any frequency in the radio spectrum between 10 kilocycles and 30,000 megacycles.

(b) "Medical diathermy equipment" shall include any apparatus (other than surgical diathermy apparatus designed for intermittent operation with low power) which utilizes a radiofrequency oscillator or any other type of radio frequency generator and transmits radiofrequency energy used for therapeutic purposes.

(c) "Industrial heating equipment" shall include any apparatus which utilizes a radiofrequency oscillator or any other type of radiofrequency generator and transmits radiofrequency energy used for or in connection with industrial heating operations.

§ 18.3 *When license is required.* Any medical diathermy equipment or industrial heating equipment which complies with §§ 18.11 to 18.16 or 18.21 to 18.23 may be operated without a station license. Any other such equipment requires a license for operation.

§ 18.4 *Inspection by commission representatives.* Medical diathermy equipment or industrial heating equipment, the premises in which such equipment is operated, and any license or certification required hereby shall be available for inspection by representatives of the Commission at all reasonable hours.

**OPERATION WITHOUT A LICENSE—MEDICAL DIATHERMY EQUIPMENT**

§ 18.11 *Operation within assigned frequency bands.* A station license will not be required for the operation of medical diathermy equipment within assigned frequency bands provided such operation meets the following conditions:

(a) Such operation shall be confined to one or more of the following bands of frequencies and in accordance with the general conditions of operation set out in the guarantee or certification required by paragraph (c) of this section.

Assigned band	Center frequency of channel	Tolerance (from center frequency)
13.6525-13.6675 mc.....	Mc. 13. 66	Kc. ±7. 5
27.185-27.455 mc.....	27. 32	±135
40.960-41.000 mc.....	40. 98	±20

(b) Such operation may be without regard to the type or power of emissions being radiated. Spurious and harmonic radiations on frequencies other than those specified above shall be suppressed so that such radiations do not exceed a strength of 25 microvolts per meter at a distance of 1000 feet or more from the medical diathermy equipment causing such radiations.

(c) There shall be affixed to each unit of equipment so operated, or posted in the room in which such operation occurs, a dated certificate of a competent engineer, or a dated certificate or name plate of the manufacturer of the equipment setting forth the general conditions under which such equipment should be operated, or is proposed to be operated, and certifying that in the light of the following information, which shall be set out on the certificate or name plate required hereby, and such other investigation as may be required by good engineering practice, the equipment involved may reasonably be expected to meet the requirements of this section under the described conditions of operation for a period of at least one year:

1. The ambient temperature between 50° F. and 100° F. at which the maximum frequency deviation over a treatment cycle occurs and the extent of such deviation.

2. The long time frequency stability, i. e. the frequency stability guaranteed by the manufacturer for one year or certified by a competent engineer to be the frequency stability which in his best judgment on the basis of examination of the equipment involved, the conditions

under which such equipment is operated, and such tests as may be required by good engineering practice will be maintained by such equipment for a one-year period.

3. Clear identification of the measuring equipment used for certification of frequency stability and measurement.

4. A statement that F. C. C. type approval for the equipment has or has not been obtained and if so a reference to the F. C. C. Type Approval Number for the equipment.

The certification required in this section shall be renewed annually; provided that no such renewal is required for such certification with respect to equipment which has been type approved pursuant to the provisions of §§ 18.14 to 18.16.

§ 18.12 *Operation outside of assigned frequency bands.* A station license will not be required for the operation of medical diathermy equipment outside of the frequency bands specified in § 18.11 (a), provided such operation is in accordance with the general conditions of operation set out in the guarantee or certificate required in paragraph (c) of this section, and meets the following conditions:

(a) The equipment used in such operation shall be provided with a rectified and filtered plate power supply, power line filters, and shall be operated in a completely shielded room or space.

(b) The emission of radiofrequency energy generated by such operation, including spurious and harmonic emissions, shall not exceed a strength in excess of 15 microvolts per meter at a distance of 1,000 feet or more from the medical diathermy equipment on frequencies other than those specified in § 18.11 (a).

(c) There shall be affixed to each unit of equipment so operated, or posted in the room in which such operation occurs, a dated certificate of a competent engineer or a dated certificate or name plate of the manufacturer of such equipment, setting forth the general conditions under which such equipment should be operated or is proposed to be operated, and certifying that under the described conditions of operation the requirements of this section may reasonably be expected to be met for a period of at least one year. Such certification, which shall be renewed annually, shall describe with certainty the equipment covered thereby, the exact place of operation of such equipment, and such other data as may be pertinent including a brief description of the engineering investigation and tests upon which the certification is based and the results thereof.

§ 18.13 *Measurement of field intensity.* Measurements to determine the field intensity of radiofrequency energy generated by medical diathermy equipment shall be made in accordance with standard engineering procedures and shall include the following:

(a) An approved type of field intensity meter using loop pickup shall be used for measurements on frequencies below and including 18 mc, and such a meter with a double antenna shall be used for measurements for frequencies above 18 mc.

Appropriate techniques shall be resorted to for measurements in the microwave region of the spectrum.

(b) The field intensity at 1,000 feet from the medical diathermy equipment, or at any other point at which it becomes necessary to determine such intensity, shall be determined by measurements at approximately 100 feet intervals along 5 radials approximately 72° apart, provided that additional measurements shall be taken when necessary in particular cases. An average curve shall be drawn through the points obtained for each radial and then either (1) the field intensity at 1,000 feet taken from the curve or (2) the curve extended to the 1,000 feet point to obtain the field intensity at that point. If points of measurement along a radial are such that marked changes of field intensity over short distances are noted because of standing waves, multipaths, etc., continuous measurements shall be made along any such radial at points 100 feet apart in order to obtain average values for such points.

(c) If due to the location of equipment in a large city, or for some other reason, measurements as outlined above are impractical because of shadows or shielding of large buildings or other objects, every effort should be made to obtain necessary measurements at clear locations such as atop adjacent buildings, etc.

§ 18.14 *Submission of equipment for type approval tests.* (a) Manufacturers of medical diathermy equipment designed to operate within the frequency bands specified in § 18.11 (a) may submit units of such equipment to this Commission for type approval upon the grant of request therefor made in writing by the manufacturer to the Secretary of the Commission. Such a request will not be granted unless at least 5 units of the model to be submitted are scheduled for manufacture and the manufacturer agrees to bear all forwarding and return charges in connection with shipment of the unit to be tested between the Federal Communications Commission, Laboratory Division, Laurel, Maryland, and the manufacturer.

(b) Any such equipment which is submitted will be tested and a certificate of type approval will be issued to the manufacturer for each type of equipment which meets the following tests:

(1) The frequency at all times during the tests below shall be within the middle 65% of the frequency bands specified in § 18.11 (a).

(a) From a cold start the machine will be operated continuously at full load for 8 hours.

(b) From a cold start the machine will be operated at no load for 5 minutes and then the frequency deviation determined over a normal treatment cycle (20 minutes). A treatment cycle will be simulated by artificial varying loads and varying settings of the resonance and other operating controls. Similar treatment cycle tests will be conducted after periods of continuous full load operations up to eight hours to determine the maximum deviation. The number of such tests normally will be determined by the results of test a.

*Provided, however,* That equipment designed to operate within the frequency bands set forth in § 18.11 (a) may be granted type approval regardless of frequency stability, provided such equipment meets the other requirements hereof and contains a power cut-off mechanism which is effective in rendering the machine inoperative when the deviation from the assigned center frequency exceeds 65% of the tolerance provided for.

(2) The equipment must be designed to prevent the emission of spurious and harmonic radiations to the extent required in § 18.11 (b).

(3) The electrical and mechanical components of the machine and their installation must be such as to give reasonable assurance of compliance with the requirements of permissible frequency tolerance for at least 5 years.

(4) In the case of withdrawal of a certificate of type approval as hereinafter provided for the manufacturer shall make no further sale of equipment under such certificate.

§ 18.15 *Effect of certificate of type approval.* A certificate of type approval constitutes a recognition that on the basis of the tests made the equipment has the inherent capability of functioning within the frequency bands set out in § 18.11 (a), in accordance with the provisions of this part, provided such equipment is properly constructed, maintained and operated, and no change whatsoever is made in the construction of equipment sold under the Certificate of Type Approval issued by the Commission except on specific approval by the Commission to any changes made.

§ 18.16 *Withdrawal of certificate of type approval.* A certificate of type approval may be withdrawn if the type of equipment for which it was issued proves defective in service and under usual conditions of maintenance and operation such equipment cannot be relied on to meet the conditions set forth in the part for the operation of the type of equipment involved within the frequency bands set forth in § 18.11 (a).

#### OPERATION WITHOUT A LICENSE—INDUSTRIAL HEATING EQUIPMENT

§ 18.21 *Operation within assigned frequencies.* A station license will not be required for the operation of medical heating equipment within assigned frequency bands provided such operation meets the following conditions:

(a) Such operation shall be confined to one or more of the following bands of frequencies and in accordance with the general conditions of operation set out in the guarantee or certification required by paragraph (c) of this section.

Assigned band	Center frequency of channel	Band width of channel (from center frequency)
13.6525-13.6675 mc.....	Mc. 13.66	Kc. ±7.5
27.185-27.485 mc.....	27.32	±135
40.960-41.000 mc.....	40.98	±20

(b) Such operation may be without regard to the type or power of emissions being radiated. However, spurious and harmonic radiations shall be suppressed so that such radiations do not exceed a strength of 10 microvolts per meter at a distance of one mile or more from the radiating equipment. Filtering between the radiating equipment and power lines must be provided to the extent necessary to prevent the radiation of energy from power lines on frequencies outside of the assigned bands and with a strength in excess of 10 microvolts per meter at a distance of one mile or more from the industrial heating equipment, when measured at a distance of 50 feet from the power line.

(c) There shall be affixed to each unit of equipment so operated, or posted in the room in which such operation occurs, a dated certificate of a competent engineer or a dated certificate or name plate of the manufacturer of the equipment, setting forth the general conditions under which such equipment should be operated, or is proposed to be operated, and certifying that in the light of the following information, which shall be set out on the certificate or name plate required hereby, and such other investigation as may be required by good engineering practice, the equipment involved may reasonably be expected to meet the requirements of this section under the described conditions of operation for a period of at least one year:

1. The ambient temperature within the range in which the equipment will be used, which range shall be specified, at which the maximum frequency deviation over an operational cycle occurs and the extent of such deviation.

2. The long time frequency stability, i. e. the frequency stability guaranteed by the manufacturer for one year or certified by a competent engineer to be the frequency stability which in his best judgment on the basis of examination of the equipment involved, the conditions under which such equipment is operated, and such tests as may be required by good engineering practice, will be maintained by such equipment for a one-year period.

3. Clear identification of the measuring equipment used for certification of frequency stability and measurement.

The certification required by this section shall be renewed annually.

§ 18.22 *Operation outside of assigned frequency bands.* A station license will not be required for the operation of industrial heating equipment outside of the frequency bands specified in § 18.21 (a), provided such operation is in accordance with the general conditions of operation set out in the guarantee or certificate required in paragraph (b) of this section, and meets the following conditions:

(a) The equipment used in such operation shall be operated within a room or space with sufficient shielding and power line filtering so that the emission of radiofrequency energy generated by such operation, including spurious and harmonic emissions, will not exceed a strength of 10 microvolts per meter at a distance of one mile from the industrial heating equipment on frequencies other

than those specified in § 18.21 (a). The radiofrequency field from power lines due to radiofrequency energy originating with such equipment at distances beyond one mile must be less than 10 microvolts per meter when measured at one mile from such equipment and 50 feet from the power line.

(b) There shall be affixed to each unit of equipment so operated, or posted in the room in which such operation occurs, a dated certificate of a competent engineer or a dated certificate or name plate of the manufacturer of such equipment, setting forth the general conditions under which such equipment should be operated or is proposed to be operated, and the purposes of such operation, and certifying that under the described conditions of operation the requirements of this section may reasonably be expected to be met for a period of at least one year. Such certification, which shall be renewed annually, shall describe with certainty the equipment covered thereby, the exact place of operation of such equipment, and such other data as may be pertinent, including a brief description of the engineering investigation and tests upon which such certification is based and the results thereof.

§ 18.23 *Measurement of field intensity.* Measurements to determine the field intensity of radiofrequency energy generated by industrial heating equipment shall be made in accordance with standard engineering procedures and shall include the following:

(a) An approved type of field intensity meter employing loop pickup shall be used for measurements on the frequencies of 18 mc and below, and such a meter with a doublet antenna shall be used for measurements on frequencies above 18 mc. Appropriate techniques shall be resorted to for measurements in the micro-wave region of the spectrum.

(b) Prior to the determination of the maximum field intensity at one mile, a sufficient number of measurements shall be made in the vicinity of the industrial heating equipment to enable plotting of the polar radiation pattern. Where conditions permit, these measurements shall be made at intervals of not less than 20 degrees in azimuthal directions and at distances not exceeding 1000 feet from the equipment. The measurements so obtained shall be reduced to the equivalent field intensities at 1000 feet.

(c) The measurements for the maximum field intensity at one mile shall be made along the radial corresponding to the lobe of maximum radiation as determined from the polar radiation pattern. If two or more lobes of radiation of approximately the same intensity are present, measurements to determine field intensity shall be made along the several radials for such lobes. Where possible, field intensity measurements shall be made along each radial at intervals of not greater than 500 feet and an average curve drawn for measured field intensity in microvolts per meter versus distance in feet. Where necessary, the average curve shall be extended to show the extrapolated field intensity at one mile. In those cases where it is impractical to conduct meas-

urements along the radial of maximum radiation a sufficient number of field intensity measurements will be made to clearly indicate the magnitude of the radiation field in the sector containing the lobe of maximum radiation.

(d) Where there is evidence of radiation from power lines field intensity measurements shall be made at not less than three points along the power line located approximately one mile from the industrial heating equipment causing such radiation and to include a length of power line not less than 500 feet. One point of measurement shall lie within the one-mile distance and the other beyond. At each of these points at least three measurements of field intensity shall be made along a line normal to the power line and out to a distance from the power line not exceeding 50 feet.

#### OPERATION FOR WHICH A LICENSE IS REQUIRED

##### § 18.31 *When a license is required.*

(a) No medical diathermy equipment or industrial heating equipment which does not comply with §§ 18.11 to 18.16 or §§ 18.21 to 18.23 shall be operated except pursuant to a station license issued by the Commission authorizing such operation.

(b) Whenever the Commission on complaint or on its own motion determines that medical diathermy equipment or industrial heating equipment is not in fact operating in compliance with the provisions of §§ 18.11 to 18.16 or §§ 18.21 to 18.23 and so advises the operator of such equipment, further operation of such equipment without a station license shall be unlawful unless within 10 days of the receipt of such notice, or within such further time as the Commission may for good cause allow, the operator of such equipment shall file with the Commission a certificate of a competent engineer stating that the equipment is now capable of complying with the requirements of the rules.

§ 18.32 *Showing required.* A station license for the operation of medical diathermy equipment or industrial heating equipment will be granted upon proper application therefor in accordance with the provisions of this part and a showing that in the light of the following considerations the public interest, convenience, and necessity would be served by such a grant: (a) The purpose for which the equipment sought to be licensed will be used; (b) the reason why the equipment involved may not be operated in compliance with the provisions of this part for the operation of such equipment without a license; and (c) the nature and extent of interference that may be caused to authorized communication services by the operation of such equipment.

§ 18.33 *Applications for station licenses.* Each applicant for a station license authorizing the operation of medical diathermy or industrial heating equipment, or requesting the modification or renewal of such a license, shall file with the Commission in Washington, D. C., three copies of each application on the appropriate form designated by the Commission and a like number of any exhibits and other papers incorporated

therein and made a part thereof. Only the original copy need be sworn to. The form used in making application for a license shall be FCC Form No. -----, and separate application should be made for each unit of equipment for which a license is sought. The form used in making application for modification of a license shall be FCC Form No. ----- and the form used in making application for renewal of a license shall be FCC Form No. -----.

§ 18.34 *Full information.* Each application for a license authorizing the operation of medical diathermy or industrial heating equipment shall contain full and complete information concerning all matters and things required to be disclosed by the application forms.

§ 18.35 *License period.* Each station license authorizing the operation of medical diathermy or industrial equipment will expire at the hour of 3 a. m. and will be issued for a normal license period of five years or such other period as the Commission may specify upon consideration of the facts in a particular case. Each such license shall be non-transferable.

§ 18.36 *Renewal of license.* Unless otherwise directed or permitted by the Commission, applications for renewal of a station license for the operation of medical diathermy or industrial heating equipment shall be filed with the Commission upon prescribed forms at least 60 days prior to the expiration date of such license.

§ 18.37 *Station license, posting of.* The original of each station license shall be posted in the room in which the equipment is operated. Licenses covering equipment not used in a fixed place shall be attached to the equipment itself.

§ 18.38 *Operator requirements.* Equipment for which a station license is issued pursuant to the provisions of this part of the Commission's rules and regulations may be operated by persons who do not hold an operator license or permit issued by this agency.

§ 18.39 *Cessation of operation pursuant to license.* If any equipment for which a license has been issued hereunder shall cease to be operated pursuant to such license, or is transferred, sold, assigned, leased, loaned, stolen, destroyed, or otherwise removed from the possession of the licensee, the licensee shall within five days of such occurrence notify the Commission thereof and, where possible, include in such notification the name and address of the recipient of such equipment.

#### EXISTING EQUIPMENT

§ 18.41 *Existing equipment.* The provisions of this part shall not be applicable for a period of five years from the effective date hereof to the operation of equipment the manufacture and assembly of which is completed prior to May 25, 1945.<sup>1</sup> In the event of interference

<sup>1</sup> This date is specified in accordance with the report of the Commission entitled "Report of Allocations from 25,000 kc. to 30,000,000 kc. (Docket No. 6651), "Part 18", dated May 25, 1945.

to authorized radio services resulting from the operation of such equipment, such steps as may be suitable under the circumstances shall promptly be taken to eliminate such interference.

DES MOINES BROADCASTING CORP.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Des Moines Broadcasting Corporation, Des Moines, Iowa, docket No. 7827, file No. B4-P-4940; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 12th day of September 1946;

The Commission having under consideration the above-entitled application for a construction permit for a new standard broadcast station to operate on the frequency 1240 kilocycles, with 100 watts power, unlimited time, at Des Moines, Iowa;

It is ordered, That, pursuant to section 309 (a) of the Communications Act, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with stations KBIZ, Ottumwa, Iowa; KICD, Spencer, Iowa; KFJB, Marshalltown, Iowa; and KFGQ, Boone, Iowa, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed sta-

tion would be in compliance with the Commission's rules and standards of good engineering practice concerning standard broadcast stations.

It is further ordered, That KBIZ, Inc., Ottumwa, Iowa, licensee of Station KBIZ; Iowa Great Lakes Broadcasting Co., Spencer, Iowa, licensee of Station KICD; Marshall Electric Co., Marshalltown, Iowa, licensee of Station KFJB; and Boone Biblical College, Boone, Iowa, licensee of Station KFGQ be, and they are hereby, made parties to this proceeding.

By the Commission.

STATUS OF TELEVISION BROADCAST APPLICATIONS

SEPTEMBER 30, 1946

The Federal Communications Commission today issued the following statement showing the status of applications pending for the construction of commercial television stations.

The table below shows the number of licensed commercial television stations, the number of construction permits authorized for such stations, and the number of applications pending for new commercial stations as of September 25, 1946. The attachments list the licensees and permittees, and the applications pending for new stations in the respective categories shown below. Experimental television stations and applications therefor are not included:

1. Licensed stations rendering broadcast service.....	6
(Attachment A)	
2. Outstanding construction permits authorizing new stations.....	31
(Attachment A)	
3. Applications designated for hearing and awaiting decision.....	14
(Attachment B)	
4. Applications pending disposition of hearings in related cases.....	11
(Attachment C)	
5. Applications pending receipt of information requested by the Commission.....	10
(Attachment D)	
6. Applications being processed.....	6
Total (licensees, construction permits, and pending applications).....	78

The attached lists have been checked as to their accuracy; however, if any errors have appeared they should be called to the attention of the Commission by letter directed to the Secretary, attention of the Television Division.

From time to time, similar notices will be released for the information of TV applicants and others. This notice is being sent to all applicants for television facilities to acquaint them with the status of their respective applications. Applications being held for further information from the applicants will be processed as the information is filed with the Commission.

PARIS BROADCASTING CO. ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Paris Broadcasting Company, Paris, Tennessee, docket No. 7430, file No. B3-P-4566; James A. Dick and William W. Crenshaw, d/b as Paris Broadcasting Company, Paris, Tennessee, docket No. 7506, file No. B3-P-4618; Murray Broadcasting Company, Incorporated, Murray, Kentucky, docket No. 7839, file No. B2-P-5219; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 19th day of September 1946;

The Commission having under consideration the above-entitled application of Murray Broadcasting Company, Incorporated, requesting a construction permit for a new standard broadcast station to operate on 1340 kc, with 250 w power, unlimited time, at Murray, Kentucky; and the Commission also having under consideration a petition filed by

said applicant on September 9, 1946, requesting (a) that the said application be designated for a hearing in the consolidated proceeding designated to be held at Paris, Tennessee, on September 26, 27, and 28, 1946, on the above-entitled applications of Paris Broadcasting Company and James A. Dick and William W. Crenshaw, d/b as Paris Broadcasting Company, and (b) that the hearing on the petitioner's application be held at Murray, Kentucky;

*It is ordered*, That the petition be, and it is hereby, granted.

*It is further ordered*, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the above-entitled application of Murray Broadcasting Company, Incorporated, be, and it is hereby, designated for hearing in a consolidated proceeding with the above-entitled applications of Paris Broadcasting Company and James A. Dick and William W. Crenshaw, d/b as Paris Broadcasting Company, each requesting a construction permit for a new standard broadcast station to operate at Paris, Tennessee, on 1340 kc, with 250 w power, unlimited time, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of the above-entitled Paris Broadcasting Company and James A. Dick and William W. Crenshaw, d/b as Paris Broadcasting Company, or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

*It is further ordered*, That the order of the Commission dated March 13, 1946,

designating for hearing the above-entitled application of Paris Broadcasting Company, and the order of the Commission dated April 3, 1946, designating for hearing the above-entitled application of James A. Dick and William W. Crenshaw, d/b as Paris Broadcasting Company be, and they are hereby, amended to include the above-entitled application of Murray Broadcasting Company, Incorporated.

*It is further ordered*, That the Commission's Notice of Place of Hearing dated August 26, 1946, scheduling for hearing the above-entitled applications of Paris Broadcasting Company and James A. Dick and William W. Crenshaw, d/b as Paris Broadcasting Company, at Paris, Tennessee, on September 26, 27, and 28, 1946, be, and it is hereby, amended to include the above-entitled application of Murray Broadcasting Company, Incorporated, and to provide that the said application shall be heard at Murray, Kentucky, at a time to be determined by the officer designated by the Commission to preside in this hearing.

By the Commission.

ENTERPRISE PUBLISHING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Thomas H. Frier and W. R. Frier, d/b as Enterprise Publishing Company, Douglas, Georgia, docket No. 7868, file No. B3-P-4922; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of September 1946;

The Commission having under consideration the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 1490 kc, 250 w power, unlimited time, at Douglas, Georgia;

*It is ordered*, Pursuant to section 309 (a) of the Communications Act, as amended, that the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission upon the following issues:

1. To determine the technical qualifications of the applicant partnership and the partners to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine whether the operation of the proposed station would involve objectionable interference with stations WMOG at Brunswick, Georgia; WMJM at Cordele, Georgia; and WKMA at Quitman, Georgia, or with any other existing broadcast stations and, if so,

the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

4. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Regulations of Good Engineering Practice concerning standard broadcast stations.

[Docket 6651]

REVISION OF REPORT OF ALLOCATIONS  
BELOW 25,000 KILOCYCLES

SEPTEMBER 25, 1946.

In a Public Notice (No. 95409) dated July 12, 1946, the Commission announced a revision of its proposed table of service-allocations of frequencies below 25,000 kilocycles. The release provided that any interested party desiring oral argument on this proposal could file a request therefor on or before July 22, 1946.

Statements were received from the Lorain County Radio Corporation, American Telephone and Telegraph Company, the National Federation of American Shipping, Inc., RCA Communications, Inc., Radiomarine Corporation of America, and Mackay Radio and Telegraph Company concerning the effect of this service-allocation on the various services with which they are concerned. The American Radio Relay League requested that the Commission include the Amateur service in the service-allocation for the band 1750-2000 kilocycles. None of these parties desires oral argument.

Several of the statements brought to the attention of the Commission the problem concerning the shift of frequencies which will be required if this proposal is internationally adopted. The Commission believes that this problem is vital and is of the opinion that any service which is required to relinquish a frequency because of the implementation of this proposal should, where feasible and in the public interest, be furnished with another of comparable characteristics.

The Commission recognizes that the various problems brought to its attention are necessarily a matter for continued study and will undoubtedly remain so until the next World Telecommunications Conference convenes. The Commission intends, therefore, to continue the study of these problems. It has given serious study and sympathetic consideration to all the problems pointed

out in the statements which were submitted and, after exploring other alternatives to accommodate all interests involved, believes that this plan is the most equitable distribution of frequencies

below 25,000 kilocycles which can be achieved at this time.

The Commission therefore announces the adoption of this revised proposal without further change. The following

revision is therefore made in the Commission's Report of Allocations Below 25,000 kilocycles (Docket 6651) dated May 21, 1945:

Adopted September 19, 1946.

MODIFIED PROPOSAL FOR THE REVISION OF ARTICLE 7 OF THE GENERAL RADIO REGULATIONS (CAIRO REVISION) BELOW 25,000 KILOCYCLES

NOTE: The designations in the International Service Allocation column preceded by (a) and (b) are in alphabetical order; this order of listing does not, in itself, indicate relative priority.

1 "Route"—Available exclusively for aeronautical mobile communications along air routes established for scheduled air carrier flying. Frequencies within these bands are reserved primarily for long distance overseas air routes and only where the use of frequencies above 30 megacycles is impracticable.  
 2 "Off-Route"—Not available for aeronautical mobile communications along air routes established for scheduled air carrier flying.  
 3 Frequencies within this band are reserved for fixed circuits associated primarily with long distance overseas air routes where other facilities are not available or are impracticable.  
 4 13,660 kilocycles industrial, scientific and medical radio frequency devices which do not involve communication. All emissions must be kept within the band 13652.5 to 13667.5 kilocycles.

No. 7869, file No. B2-P-5234; James M. Tisdale, Chester, Pennsylvania, docket No. 7647, file No. B2-P-4781; Diamond State Broadcast Corporation, Dover, Delaware, docket No. 7012, file No. B1-P-4217; Key Broadcasting Corporation, Baltimore, Maryland, docket No. 7551,

file No. B1-P-4713; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 25th day of September 1946;

The Commission having under consideration the above-entitled application of Paul W. Delehanty, requesting a construction permit for a new standard broadcast station to operate on 740 kc, with 250 w power, daytime only, at Chester, Pennsylvania;

It appearing, that the Commission on June 13, 1946, designated for hearing in a consolidated proceeding the applications of James M. Tisdale (File No. B2-P-4781; Docket No. 7647) requesting a construction permit for a new standard broadcast station to operate on 740 kc, with 250 w power, daytime only, at Chester, Pennsylvania, and Diamond State Broadcast Corporation (File No. B1-P-4217; Docket No. 7012) requesting a construction permit for a new standard broadcast station to operate on 750 kc, with 250 w power, daytime only, at Dover, Delaware; and

It further appearing, that the Commission on August 15, 1946, designated for hearing in the above consolidated proceeding the application of Key Broadcasting Corporation (File No. B1-P-4713; Docket No. 7551) requesting a construction permit for a new standard broadcast station to operate on 750 kc, with 1 kw power, daytime only, at Baltimore, Maryland;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Paul W. Delehanty be, and it is hereby, designated for hearing in the above consolidated proceeding, at Washington, D. C., on October 3, 1946, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending application of James M. Tisdale (File No. B2-P-4781; Docket No. 7647) or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and standards of good engineering practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the order of the Commission dated June 13, 1946, designating for hearing in a consolidated proceeding the said applications of James M. Tisdale and Diamond State Broadcast Corporation, and the order of the Commission dated August 15, 1946, designating for hearing in the above consolidated proceeding the said application of Key Broadcasting Corporation, be, and they are hereby, amended to include the said application of Paul W. Delehanty.

By the Commission.

WDEL, INC.

ORDER DESIGNATING APPLICATION FOR  
HEARING ON STATED ISSUES

In re application of WDEL, Inc., Wilmington, Delaware, file No. B1-PH-177, docket No. 7834; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 12th day of September 1946;

The Commission having under consideration the application of WDEL, Inc., File No. B1-PH-177 for a new Class B FM broadcast station in Wilmington, Delaware; and

Whereas, on August 29, 1946, the Commission granted the said application of WDEL, Inc., for an FM station at Wilmington, Delaware, conditionally subject however, (a) to future review and approval of engineering details, and (b) that the applicant's stockholders have no interest in any other FM station in the same community, and

Whereas, it now appears that the stockholders of WDEL, Inc., and/or members of their families own capital stock in and to WGAL, Inc., grantee of FM station WGAL-FM at Lancaster, Pennsylvania, and it further appearing that the operation of said FM broadcast station at Wilmington, Delaware, may serve substantially the same service area as that served by station WGAL-FM in contravention of § 3.240 of the rules and regulations of the Commission which provides, inter alia, as follows:

No person (including all persons under common control) shall, directly or indirectly, own, operate or control more than one FM broadcast station that would serve substantially the same service area as another FM broadcast station owned, operated, or controlled by such person.

It is ordered, That the Commission's action of August 29, 1946, be, and the same is hereby, set aside, and

It is further ordered, Pursuant to the provisions of section 309 (a) of the Communications Act of 1934, as amended, that the above entitled application be and hereby is designated for hearing at a time and place to be specified by subsequent order of the Commission:

1. To determine the identity of the stockholders, officers and directors of the applicant and the interests or family and official relationships of such persons in and to WGAL, Inc., grantee of station WGAL-FM and/or any other existing or proposed FM station for which an application is now pending.

2. To determine the areas and populations to gain FM service through the operation of the proposed FM station at Wilmington, Delaware, and what other FM broadcast services are available to those areas and populations.

3. To determine the areas and populations receiving or to receive FM service from station WGAL-FM, Lancaster, Pennsylvania, and/or any other existing or proposed FM station in which any of the stockholders, officers, and/or directors of the applicant herein or members of their families may have an interest.

4. To determine whether the granting of this application would be in conformity with § 3.240 of the Commission's rules and regulations.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 12th day of September 1946;

The Commission having under consideration the above entitled applications for consent to assignment of the license for FM Station WABW and permit for AM Station WBBW, Indianapolis, Indiana, and acting in accordance with section 310 (b) of the Communications Act of 1934, and not being satisfied that it is in possession of full information as required by said section 310 (b);

It is ordered, That said applications be and they are hereby designated for hearing in a consolidated proceeding upon the following issues:

(1) To determine the legal, technical, financial and other qualifications of each of the applicants for the facilities in question.

(2) To obtain full information as to the arrangements including financing and the proposed acquisition of the facilities by each applicant.

(3) To determine the character and extent of overlapping, if any, between the facilities involved in the assignment and any other AM and/or FM facilities licensed to companies associated or affiliated with the proposed assignee.

(4) To obtain full information as to the plans for programming the stations involved by each of the applicants therefor.

(5) To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

ORLAND IRRIGATION PROJECT, CALIFORNIA  
PUBLIC NOTICE OF ANNUAL OPERATION AND  
MAINTENANCE CHARGES

SEPTEMBER 17, 1946.

1. *Operation and maintenance charges.* The minimum annual operation and maintenance charge for the irrigation season of 1947 and thereafter until further notice against all lands of the Orland project, California, under public notice shall be \$2.85 per irrigable acre, whether water is used or not, which

charge will permit the delivery of not to exceed 3 acre feet of water per irrigable acre per annum. Additional water, up to the amount of the surplus natural flow water used prior to the time it becomes necessary to draw upon the storage supply, will be furnished at the rate of \$0.10 per acre-foot. Further additional water, if available, will be furnished during the irrigation season at the following rates:

	Per acre-foot
First acre-foot per acre.....	\$0.50
Second acre-foot per acre.....	.50
Third acre-foot per acre.....	.75
Fourth and additional acre-feet per acre.....	1.00

2. *Time of payment.* The minimum charge for the next irrigation season, together with charges for additional water used during the previous irrigation season, shall be payable on or before December 31 of each year. If payment of the charges, or any part thereof, is not made on or before the due date, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid, and a like penalty of one-half of one percent of the amount unpaid on the first day of each calendar month thereafter so long as such default shall continue, and no water shall be delivered until all charges and penalties have been paid in full.

3. *Method of billing and payment.* All charges will be billed direct to the water users and will be payable by them to the Bureau of Reclamation, Orland, California.

PUBLIC NOTICE OF ANNUAL WATER RENTAL  
CHARGES

SEPTEMBER 17, 1946.

1. Announcement is hereby made that, pending the cancellation of water rights on lands now delinquent in the payment of charges due the United States and the transfer of said water rights to other lands in private ownership that can be served from the constructed canal system, or minor extensions, on the Orland project, California, water will be furnished during the irrigation season of 1947 and thereafter until further notice, upon approved applications for temporary water service for the irrigation of such other lands, upon a water rental basis, at the following rates and terms.

2. The minimum water rental charge for the lands to be irrigated under the provisions of this public notice shall be \$2.85 per irrigable acre, which charge will permit the delivery of not to exceed 3 acre-feet of water per acre. Additional water, if available, will be furnished at the following rates:

	Per acre-foot
First acre-foot per acre.....	\$0.50
Second acre-foot per acre.....	.50
Third acre-foot per acre.....	.75
Fourth and additional acre-feet per acre.....	1.00

3. The minimum charge will be payable at the time that application for temporary water service is executed and no water will be delivered until the minimum charge has been paid in full. Charges for additional water at the rates above specified must be paid in advance of the delivery of additional water and no advance payments shall be accepted in sums of less than \$10.00.

4. All charges for water rental services are to be paid to the Bureau of Reclamation, Orland, California.

[Docket No. G-793]

KANSAS-NEBRASKA NATURAL GAS CO., INC.  
NOTICE OF APPLICATION

OCTOBER 7, 1946.

Notice is hereby given that on September 30, 1946, Kansas-Nebraska Natural Gas Company, Inc. ("Applicant"), a corporation organized under the laws of the State of Kansas, with its principal place of business at Phillipsburg, Kansas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, for authority to transport and sell natural gas in interstate commerce, subject to the jurisdiction of the Commission, and to construct and operate facilities therefor.

The facilities proposed to be constructed and operated are described as follows:

A 4½-inch O. D. natural gas pipeline, approximately three miles in length, in Adams County, Nebraska, from Applicant's town border meter and regulator station north of the City of Hastings, Nebraska, running in a southeasterly direction approximately three miles to the Hastings, Nebraska, Naval Ammunition Depot, and a meter and regulator station at the latter point.

Applicant states that the proposed extension of its facilities is being undertaken at the request of the United States Navy Department and only for the purpose of furnishing natural gas to the Hastings Naval Ammunition Depot; that no other company renders gas service in the area; that the public need for the proposed service is evidenced by the request of the Navy Department; and that the estimated cost of such extension will be \$22,000 which is to be financed from funds on hand.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Rule 37 of the Com-

mission's rules of practice and procedure, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter, and further to specify whether it desires a conference, the creation of a board, or a joint or concurring hearing, as defined in said rule, and the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Kansas-Nebraska Natural Gas Company, Inc. should file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of the publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure. The time and place of hearing herein will subsequently be duly given.

[Vesting Order CE 340]

COSTS AND EXPENSES INCURRED IN CERTAIN  
ACTIONS OR PROCEEDINGS IN CERTAIN  
CALIFORNIA COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 4 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property which each of the persons named in said Column 1 of said Exhibit A obtained or is determined to have as a result of the action or proceeding described in said Column 3 of said Exhibit A the sums stated in said Column 4 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on October 7, 1946.

1. That the persons named in Exhibit A, attached hereto and by reference made a part hereof, whose last known addresses are Japan, are residents of Japan and nationals of a designated enemy country (Japan);

2. That the property described as follows: Those certain debts or other obligations owing to the persons named in Exhibit A, by Honolulu Sake Brewery and Ice Company, Limited, 2150 Booth Road, Honolulu, T. H., in the amounts set forth in Exhibit A, as of July 19, 1946, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licens-

ing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 25, 1946.

COMMONWEALTH AND SOUTHERN CORP.  
(DEL.) ET AL.

## ORDER PERMITTING PURCHASE OF STOCK

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 4th day of October A. D. 1946

In the matter of The Commonwealth & Southern Corporation (Delaware), Respondent, File No. 59-20; The Commonwealth & Southern Corporation (Delaware),

and its subsidiary companies, Respondents, File No. 59-8; The Commonwealth & Southern Corporation (Delaware), File No. 54-75.

The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company, having filed an application and declaration pursuant to sections 11 and 12 (c) of the Public Utility Holding Company Act of 1935 and Rule U-42 promulgated thereunder requesting authority to expend in its discretion not more than \$5,000,000 to purchase in the open market, or otherwise, shares of its outstanding \$6 cumulative preferred stock; and

A public hearing having been held after appropriate notice, and the Commission having considered the record and having made and filed its findings and opinion herein:

*It is ordered*, That the said application and declaration be and hereby are granted and permitted to become effective forthwith, subject, however, to the conditions prescribed in Rule U-24 and the following further terms and conditions:

(1) At least seven days before purchases are commenced, Commonwealth shall advise by letter each holder of record of its preferred stock fully with respect to its intention to make purchases and the method to be employed, and shall furnish to each known preferred stockholder a copy of our findings and opinion herein. Such letter shall be submitted to the Commission for review prior to release;

(2) The minimum purchase price to be paid by Commonwealth for its preferred stock shall be one dollar per share below the closing market price of \$118 on the New York Stock Exchange on the date of our order herein, except upon further order of the Commission;

(3) During the time the acquisition program is in effect, Commonwealth shall not reduce the current dividend rate of twice preferred dividend requirements;

(4) Commonwealth shall not purchase its preferred stock knowingly, directly or indirectly, from any associate company, or from any officer or director, or from any associate of any officer or director of Commonwealth or of any associate company;

(5) All purchases shall be effected on the New York Stock Exchange except that the company may purchase blocks of 500 shares or more otherwise than on said Exchange provided that notice of intention to effect each such purchase together with a statement of the identity of the seller, the price proposed to be paid and any fees or commissions to be incurred in connection therewith shall have been given to the Commission and the company shall have been informed that the Commission does not intend to issue an order to show cause why such purchase should be consummated.

(6) Commonwealth shall promptly, upon completion or abandonment of the proposed purchase program, publicly notify its preferred stockholders to that effect;

(7) No purchases shall be made after three months from the date of the order

herein subject, however, to the right of Commonwealth to apply for any extension or extensions of said period; and

(8) The Commission reserves the right to rescind or modify this order upon motion of Commonwealth or upon its own motion after notice to Commonwealth at any time prior to the expiration of said three months period, such rescission or modification to be applicable only to such portion of the \$5,000,000 as shall not have been previously expended.

By the Commission.

PROVIDENTIA, LTD., ET AL.

NOTICE OF APPLICATION, STATEMENT OF ISSUES, ORDER FOR HEARING, AND ORDER CONSOLIDATING PROCEEDINGS

In the Matter of Providentia, Ltd., The Nineteen Corporation, Instoria, Inc. File Nos. 812-192-812-193-812-194.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 7th day of October A. D. 1946.

Notice is hereby given that Providentia, Ltd., The Nineteen Corporation and Instoria, Inc., ("applicants") have filed applications pursuant to section 6 (c) of the Investment Company Act of 1940, for orders exempting applicants from all of the provisions of the Investment Company Act of 1940 ("act"). Exemption from all of the provisions of the act was heretofore granted to applicants and extended to October 15, 1946 by order of the Commission dated July 10, 1946.

All of applicants' outstanding capital stock has been deposited under Voting Trust Agreement with John Foster Dulles, and his successors as Voting Trustee. Voting Trust Certificates issued thereunder are held for Stockholms Enskilda Bank Aktiebolag, a Swedish banking corporation which in turn holds them for the account of the beneficial owners, nationals of Sweden. The Voting Trust Agreement terminated on September 29, 1945 and applicants indicated that the Voting Trustee proposes to deliver certificates representing shares of capital stock to the registered holders of Voting Trust Certificates. The applicants assert that an exemption is necessary or appropriate within the standards set forth in section 6 (c) of the act. All interested persons are referred to said applications which are on file in the offices of this Commission for a more detailed statement of the matters of fact and law asserted.

It appearing to the Commission that said applications are related and present questions of law and fact common to each of said applications, *It is ordered*, That the proceedings on the three applications be and the same hereby are consolidated, and

It appearing to the Commission that a hearing upon the applications is necessary and appropriate:

It is ordered, pursuant to section 40 (a) of said act, that a public hearing on the consolidated matter be held on October 15, 1946 at 9:30 A. M. Eastern Standard Time in Room 318 in the Securities and Exchange Commission Building, 18th and Locust Streets, Philadelphia 3, Pennsylvania;

It is further ordered, That William Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to trial examiners under the Commission's rules of practice.

The Corporation Finance Division of the Commission has advised the Commission that, upon a preliminary examination of the applications, it deems the following issues to be raised thereby:

(1) Whether and the extent to which an exemption from all or some of the provisions of the act is necessary or appropriate in the public interest and consistent with the protection of investors and with the purposes fairly intended by the policy and provisions of the act; and

(2) Whether and the extent to which it is necessary for the protection of investors to condition any order granting the exemption.

Notice of such hearing is hereby given to the above named applicants, Providentia, Ltd., The Nineteen Corporation and Instoria, Inc., and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard should file with the Secretary of the Commission, on or before October 14, 1946 his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid applications.

By the Commission.

OFFICE OF PRICE ADMINISTRATION.

[SO 148, Order 38]

GILLINDER BROTHERS, INC.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 148; it is ordered:

(a) *Manufacturer's ceiling prices.* Gillinder Brothers, Inc., Port Jervis, New York, may sell and deliver to wholesale distributors the following articles of illuminating glassware which it manufactures, at the following adjusted maximum prices:

Article	Model No.	Maximum prices to industrial users
Opal high-grade glass half shade under 8 1/2".	9504, 9770, 9989, 9926, 9990, 9960, 42.	Per hundred \$29.37
High-grade fawn ivory glass cup shades under 8 1/2".	5241, 5276, 5278, 5285, 5287, 5288, 5311, 5327, 5337, 5341, 5348, 5377, 9171, 9195, 9200, 9202, 9207, 9210, 9213, 9230, 9239, 9245, 9252, 9255, 9271, 9272, 9273, 9278, 9294, 9294, 9297, 9800, 9810, 9813, 9820, 9857, 9904, 9935, 9940, 9953, 9957, 9959, 9972, 9973, 9978, 9980, 9981, 9987, 9988, 9997, 10018, 10055.	29.40

(b) The prices set forth in this order are manufacturer's maximum prices for sales to industrial users. For sales to any other class of purchaser, manufacturer's maximum prices shall be determined by applying to the prices specified in this order the discounts, allowances and other price differentials which it granted and charged during March 1942 on sales of the same type of article to the same class of purchaser. If the manufacturer did not make such sales during March 1942, or if it wishes to make sales on any other terms or conditions, it must apply to the Office of Price Administration under § 1499.158 of Maximum Price Regulation No. 188 for the establishment of maximum prices for those sales, and it may not sell or deliver until its maximum prices have been so established.

(c) Prices determined by the manufacturer under paragraph (b) hereof shall not exceed the appropriate dollar-and-cents cut-off price for the article determined in accordance with the provisions of Supplementary Order No. 148; nor shall such prices exceed the manufacturer's previously established maximum price for such sale (exclusive of any individual price adjustments which may have been granted him) plus the maximum percentage adjustment set forth for the article in Appendix A of Supplementary Order No. 133.

(d) As used herein, the term "industrial user" shall mean a purchaser for resale of an article covered by this order who resells such article in a form which is not substantially the same as it was when he purchased it from his supplier. For instance, a lamp manufacturer who purchases illuminating glassware for resale and uses same for incorporation into a lamp is a commercial user.

(e) *Maximum prices of purchasers for resale.* A purchaser for resale, except an industrial user, shall determine his maximum price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established maximum price. For this purpose, the "most comparable article" is one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration, for the establishment of a maximum price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(f) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or established under any applicable OPA regulation.

(g) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale showing a ceiling price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods to be used in accordance with this order for determining adjusted ceiling prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(h) *Relation between this order and Supplementary Order No. 153.* The provisions of Supplementary Order No. 153 shall not apply to sales of any of the articles covered by this order.

This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 11th day of October 1946.

Issued this 10th day of October 1946.

PAUL A. PORTER,  
Administrator.

Opinion Accompanying Order 38 Under Supplementary Order No. 148

Gillinder Brothers, Inc., Port Jervis, New York, completed its application for an adjustment in its maximum prices for sales of certain articles of illuminating glassware which it manufactures. This application has been considered under the provisions of Supplementary Order No. 148.

Supplementary Order No. 148 allows an adjustment of maximum prices for sales by manufacturers of certain "low-end" articles listed in Appendix A of that order, which Appendix includes the articles above-mentioned, where the adjusted maximum prices do not exceed the

appropriate "cut-off" price for the commodity listed in the same Appendix. A manufacturer's maximum price for a low-end article may be adjusted if his maximum price, including any adjustments previously authorized by the Office of Price Administration, is below the adjusted maximum price for which he can qualify under Supplementary Order No. 148.

The adjusted maximum price may be in an amount sufficient to cover the total unit cost to the manufacturer to make and sell the article plus one-half the industry's average profit margin during a normal peacetime period, determined in accordance with the provisions of the said Supplementary Order No. 148, provided same does not exceed the appropriate dollars-and-cents cut-off prices, or the maximum percentage adjustment set forth for the article in Appendix A. None of the adjusted maximum prices set forth in the accompanying order exceed the appropriate cut-off prices or maximum percentage adjustments.

No adjustments are allowed in the accompanying order as to Models 5351 and 10064 residential cup shades because applicant's total unit cost to make and sell these articles plus the profit factor is below applicant's properly established maximum price.

Ceiling prices of purchasers for resale (except industrial users who do not resell articles in substantially the same form they were in when bought) of the articles which the manufacturer sells at adjusted prices are established, allowing them their customary markups for their types of distributive operations. The order is, therefore, in conformity with the provisions of section 2 (t) of the Emergency Price Control Act of 1942, as amended, which provides that "In establishing maximum prices applicable to wholesale or retail distributors, the Administrator shall allow the average current cost of acquisition of any commodity, plus such average percentage discount or markup as was in effect on March 31, 1946".

[MPR 188, Rev. Order 4725]

INTERNATIONAL REGISTER CO.

APPROVAL OF MAXIMUM PRICES

The title of Order No. 4725 under § 1499.158 of Maximum Price Regulation No. 188 is hereby amended to read: "International Register Company", and the said order is hereby amended and revised to read as follows:

(a) This revised order establishes maximum prices for sales and deliveries of certain articles manufactured by International Register Company, 2620 West Washington Boulevard, Chicago 12, Illinois.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Maximum prices for sales by International Register Co. to Sheldon Clock Corp. and wholesalers; and by Sheldon Clock Corp. to wholesalers
Self-starting electric clocks with plastic cases with current interruption indicator, sealed in oil motor, 6" cord:		
Bell alarm clock, 4 3/4" by 4 3/4" cord:	A-100	Each \$2.48
Kitchen clock, 7" by 7 3/4" front set, polished bezel.	K-200	2.25

These maximum prices are for the articles described in the manufacturer's application dated October 8, 1945.

(2) For sales by the manufacturer or Sheldon Clock Corporation the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. Terms of sale are f. o. b. Chicago, Illinois, and are subject to a cash discount of 2 percent for payment within 30 days.

(3) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The provisions of Order No. 14 under § 1499.159e of Maximum Price Regulation No. 188 apply to all sales and deliveries of the articles covered by this order, and the prices established by this order may be increased in accordance with the provisions of that order. Maximum prices of resellers of clocks which have been sold by the Sheldon Clock Corporation shall be computed in accordance with Order 14 by applying the markups stated therein to the prices of the Sheldon Clock Corporation rather than to the prices at which sales were made by the International Register Company to the Sheldon Clock Corporation.

(c) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 11th day of October 1946.

Issued this 10th day of October 1946.

PAUL A. PORTER,  
Administrator.

Opinion Accompanying Revised Order No. 4725 Under § 1499.158 of Maximum Price Regulation No. 188

On October 8, 1945, the International Register Company, 2620 West Washington Boulevard, Chicago, Illinois, applied for maximum prices on certain electric clocks which it was about to manufacture exclusively for the Sheldon Clock Corporation, 37 South Wabash Avenue, Chicago, Illinois. Subsequently, the ap-

plicant requested the establishment of maximum prices for sales by purchasers for resale.

The reasons for the issuance of Order No. 4725 contained in the opinion accompanying said order apply equally to the issuance of this revised order and are therefore incorporated herein by reference. Briefly they are that since applicant had not previously manufactured an article the maximum price of which could be used as a basis for pricing the articles described in the application under one of the other pricing methods of Maximum Price Regulation No. 188, the application was considered under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by that regulation. The specifications, construction, and design of the applicant's product were compared with those of comparable competitive articles for which maximum prices have been properly established under the regulation, and the prices so established were in line with the maximum prices of those comparable articles for sales to the same class of purchasers and therefore in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Since the issuance of Order No. 4725, the office has issued Order No. 14 under § 1499.159e of Maximum Price Regulation No. 188, which contained provisions governing maximum prices of resellers of clocks. The issuance of Order 14 requires the revision of Order 4725 to make clear that resellers prices for clocks sold by Sheldon Clock Corporation are to be based upon its prices rather than upon the prices of the International Register Company. This revision is made because the Sheldon Clock Corporation, although not technically the manufacturer, performs in its capacity as national distributor the distributive functions normally performed by clock manufacturers and the prices established for sales by the Sheldon Clock Corporation to wholesalers are in line with those of manufacturers who sell to wholesalers.

Since the International Register Company and the Sheldon Clock Corporation are in a sense joint entrepreneurs, the separately stated price previously established, at the request of International Register Company, for sales by it to the Sheldon Clock Corporation is deleted as unnecessary. Also deleted are prices to retailers and consumers since these are now established by Order 14.

STERLING INDUSTRIES

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188, it is ordered:

(a) This order establishes maximum prices for sales and deliveries of certain

articles manufactured by Sterling Industries, 1140 North American Street, Philadelphia 23, Pa.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sale by manufacturer to—		For sale by any person to consumers
		Jobbers	Retailers	
Painted metal fluorescent desk lamp.	D-L-200	Each \$5.20	Each \$6.12	Each \$11.10

These maximum prices are for the articles described in the manufacturer's application dated September 20, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. Philadelphia, Pennsylvania, 2% 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement with the proper model number and the ceiling price inserted in the blank spaces:

Model Number -----  
OPA Retail Ceiling Price—\$-----  
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 11th day of October 1946.

Issued this 10th day of October 1946.

PAUL A. PORTER,  
Administrator,

*Opinion Accompanying Order No. 5225 Under § 1499.158 of Maximum Price Regulation No. 188*

By application dated September 20, 1946, Sterling Industries, 1140 N. American Street, Philadelphia 23, Pennsylvania, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

*Opinion Accompanying Order No. 206 Under Maximum Price Regulation 478*

The Taylor, Pinkham & Company, Inc., 55 Worth Street, New York 13, New York, applied on August 14, 1946, for authorization of maximum prices for sales of the described coated fabrics which it sells as a converter. It appears that this company is unable to use section 9a as that section applies only to sales by converters who sell to cutters, supply jobbers, and retailers. The maximum prices for sales by a converter to any other class of purchaser must be established under section 10 of Maximum Price Regulation 478.

The applicant is asking for approval of maximum prices for sales of these coated fabrics to wholesalers who resell these coated fabrics to manufacturers, supply jobbers, and retailers. During March 1942, and for several years prior thereto, a converter of coated fabrics generally sold direct to manufacturers, supply jobbers, and retailers. It was not the usual practice for a converter to sell to a wholesaler who resold to manufacturers, supply jobbers, and retailers. In the few instances of such resales to manufacturers, the converter's sales prices to wholesalers were lower than his sales prices to the manufacturer, supply jobber, and retailer, permitting resale by the wholesalers to the manufacturers, supply jobbers, and retailers at the same price at which the converter would have sold directly to the manufacturer, supply jobber, and retailer. Therefore, the maximum prices for wholesalers who purchase from converters would be the same as that of their supplier for sales to the same class of purchasers. Accordingly, this order establishes the maximum prices for sales to manufacturers, supply jobbers, and retailers equally applicable for sales made by wholesalers and any other sellers. Thus, the wholesalers maximum prices for sales to manufacturers, supply jobbers, and retailers will be the same as the applicant's prices for sales to the same buyers.

It is desirable that the applicant be required to notify the wholesalers to whom he sells of the maximum price which applies to sales to a manufacturer, a supply jobber, and a retailer. This is

the most practical way of informing the wholesalers of the price at which he must sell. If such notice is not given many wholesalers may price these coated fabrics under section 9 of the regulation with the result that different and higher prices will result for sales of the same commodity.

The maximum prices proposed by the applicant have been compared to the maximum prices established by other converters under Maximum Price Regulation 478. The Administrator finds that the proposed maximum prices are not consistent with the level of maximum prices generally established by the regulation. This is because the applicant has used the gross margin applicable for sales to an upholstery manufacturer. Therefore, the Administrator is approving maximum prices which are consistent with the level of maximum prices generally established by the regulation.

In the judgment of the Price Administrator, the maximum prices as established by this order are consistent with the level of maximum prices otherwise established by Maximum Price Regulation 478, are fair and equitable, and effectuate the purpose of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9326.

WEYMOUTH ART LEATHER CO., INC.  
AUTHORIZATION OF MAXIMUM PRICES

For reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 10 of Maximum Price Regulation 478, *It is ordered:*

(a) The maximum prices for sales at wholesale to manufacturers, supply jobbers, and retailers by the Weymouth Art Leather Company, Inc., South Braintree, Massachusetts, or by any other reseller of the following coated fabrics shall be as follows:

[For linear yard]

Commodity	Manufacturer	Supply jobber	Retailer
54" T-11874 quality, 60" 38 x 40 1.87 soft filled sheeting, f. m., dyed, coated with 6.4 dry ounces of pyroxylin coating (purchased from Postex, Inc.)	\$0.852	\$0.82856	\$0.96339

(b) With or prior to the first delivery of the coated fabrics covered by this order to a wholesaler, the seller shall notify such person in writing of the specific maximum prices applicable to his resale of these coated fabrics to manufacturers, supply jobbers, and retailers which are the maximum prices set forth in paragraph (a) above.

(c) All requests not granted herein are denied.

(d) All provisions of Maximum Price Regulation 478 not inconsistent with this order shall apply to sales covered by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

Opinion Accompanying Order No. 207 Under Maximum Price Regulation 478

The Weymouth Art Leather Company, Inc., South Braintree, Massachusetts, applied on September 17, 1946, for authorization of maximum prices for sales of the described coated fabrics which it sells as a wholesaler. It appears that this company is unable to use section 9 of Maximum Price Regulation 478, as amended, because section 9 applies only to sales by a wholesaler who purchased from a manufacturer. The maximum prices for sales by wholesalers who purchased through other channels must be established under section 10 of Maximum Price Regulation 478.

The applicant is asking for approval of the maximum prices for sales of these coated fabrics to manufacturers, supply jobbers, and retailers, as well as to wholesalers who resell these coated fabrics to manufacturers, supply jobbers, and retailers. During March 1942, and for several years prior thereto, a wholesaler of coated fabrics generally sold direct to manufacturers, supply jobbers, and retailers. It was not the usual practice for a wholesaler to sell to another wholesaler who resold to manufacturers, supply jobbers, and retailers. In the few instances of such resales to manufacturers, supply jobbers and retailers, the wholesaler's sales price to other wholesalers was lower than his sales price to the manufacturers, supply jobbers, and retailers, permitting resale by the second wholesalers to the manufacturers, supply jobbers, and retailers at the same price at which the first wholesaler would have sold directly to the manufacturers, supply jobbers, and retailers. Therefore, the maximum prices for wholesalers who purchase from wholesalers should be the same as that of their supplier for sales to the same classes of purchasers. Accordingly, this order establishes maximum prices for sales to manufacturers, supply jobbers, and retailers equally applicable for sales made by wholesalers and any other sellers. Thus, the second wholesaler's maximum prices for sales to manufacturers, supply jobbers, and retailers, will be the same as the applicant's prices for sales to the same buyers.

It is desirable that the applicant be required to notify the wholesalers to whom he sells of the maximum prices which applies to sales to a manufacturer, a supply jobber, and a retailer. This is the most practical way of informing the wholesalers of the price at which he must sell. If such notice is not given many

wholesalers may price these coated fabrics under section 9 of the regulation with the result that different and higher prices will result for sales of the same commodity.

The maximum prices proposed by the applicant have been compared to maximum prices established by other wholesalers selling similar commodities. The Administrator finds that the maximum prices proposed are not consistent with the maximum prices generally established by the regulation. The Administrator is, therefore, approving maximum prices which are the same as the applicant's supplier's maximum prices for sales to the same classes of purchasers.

In the judgment of the Price Administrator, the maximum prices established by this order are consistent with the level of maximum prices otherwise established by Maximum Price Regulation 478, are fair and equitable, and effectuate the purpose of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9326.

ADMIRAL CORP.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Revised Maximum Price Regulation No. 136 and section 6.4 of Second Revised Supplementary Regulation No. 14, *It is ordered:*

(a) Admiral Corporation, 3800 Cortland Street, Chicago, 47, Illinois, may sell and deliver its Model RA 211 refrigerator replacement unit for use in its refrigerator Models CS 746 and CS946 to the classes of purchaser listed below at prices no higher than those set forth below:

Class of purchaser:	Ceiling price (each)
Wholesale distributors.....	\$48.30
Retail dealers.....	57.75
Ultimate consumers.....	63.00

These prices include a four-year replacement contract. These prices also include full freight allowance (not including local cartage) as follows: In the case of sales to distributors, full freight allowance from factory to distributor, distributor to dealer, and return freight for the defective unit; in the case of sales to dealers, full freight allowance from factory to dealer, and return freight for defective units; in the case of sales to ultimate consumers, full freight allowance from factory to purchaser, and return freight for defective units. The ceiling prices for sales to ultimate consumers do not include labor costs for installation of the unit in the consumer's refrigerator.

(b) The ceiling price for sales to retail dealers by wholesale distributors of the Model RA 211 refrigerator replacement unit for use in Admiral refrigerator Models CS 746 and CS 946 is \$57.75 each. This ceiling price includes a four year replacement contract and full freight allowance (less local cartage) from the

distributor to the dealer and return freight for the defective unit.

(c) The ceiling price for sales by any person to ultimate consumers of the Model RA 211 refrigerator replacement unit for use in Admiral refrigerator Models CS 746 and CS 946 is \$63.00 each. This ceiling price includes a four year replacement contract, delivery to the consumer, and return transportation for the defective unit, but does not include labor costs for installation of the unit in the consumer's refrigerator.

(d) Any seller subject to this order may require the purchaser, as part of the consideration for the replacement unit, to surrender the defective unit which the rebuilt unit is intended to replace. In addition any seller subject to this order may add a deposit charge of \$15.00 per unit to the price set forth in this order for sales to the particular class of purchaser. If this deposit charge is made, it must be returned or allowed in full upon the surrender of the defective unit by the purchaser of the rebuilt unit.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 11th day of October 1946.

Issued this 10th day of October 1946.

Administrator.

*Opinion Accompanying Order No. 680 Under Revised Maximum Price Regulation No. 136*

The Admiral Corporation, hereinafter referred to as the applicant, 3800 Cortland Street, Chicago 47, Illinois, has applied for the establishment of its ceiling prices for the new model refrigerator replacement unit which it is now producing for use in two different models of its refrigerators. Since the applicant has never before sold this model of replacement unit, it is necessary to establish ceiling prices for such sales.

Section 9 (c) of Revised Maximum Price Regulation No. 136 provides that list prices may be established which shall be the ceiling prices for any article covered by the regulation, if the manufacturer publishes or proposes to publish a list price for such an article and files with the Office of Price Administration a report containing the proposed list price, the proposed effective date, the classes of purchaser to whom such price is to be quoted, and all relevant data used in determining such prices and evidence that such prices were determined in accordance with the applicable provisions of the regulation. The applicant has applied under the regulation and refrigerator replacement units are covered by the regulation. Section 10 (b) provides that a manufacturer who had no method of determining price by relation to cost in effect on the base date for products of the same type must file a proposed price determining method with the Office of Price Administration before he delivers any product covered by section 9. This price determining method must be reasonable in the light of the operations

being performed, and the profit margin used must be in line with that of comparable manufacturers of comparable articles.

Analysis of the data submitted by the applicant fails to demonstrate that the price determining method proposed by the applicant is reasonable. It appears that the applicant has purchased the domestic refrigerator operation of another company and has, therefore, adopted the ceiling prices previously established by its predecessor. Similarly, any ceiling prices it establishes for new models must be set on the basis of its existing ceiling prices for the comparable models it is now selling for use in its predecessor's refrigerators. The ceiling prices proposed apply a markup over the applicant's current direct cost substantially in excess of that received by the applicant on its comparable model. Hence, the accompanying order, disapproving the applicant's proposed pricing method, establishes dollar-and-cent ceiling prices for sales at each level of distribution which return to each type of seller a percentage markup over invoice cost equal to that which they now receive on comparable refrigerator replacement units under Revised Maximum Price Regulation No. 136.

The accompanying order also establishes ceiling prices for sales of the unit at wholesale and retail, in accordance with the authority contained in section 6.4 of Second Revised Supplementary Regulation No. 14. Wholesalers and retailers receive percentage markups equal to those they received on comparable refrigerator replacement units on March 31, 1946.

PRIZER-PAINTER STOVE WORKS  
APPROVAL OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 11 of Maximum Price Regulation No. 64; *It is ordered:*

(a) This order establishes ceiling prices for sales at retail of certain models of gas combination ranges listed below manufactured by the Prizer-Painter Stove Works, Arlington & Orrton Streets, Reading, Pennsylvania. For sales in each zone by retail dealers to ultimate consumers, the ceiling prices, including the Federal excise tax, but not including any state or local taxes imposed at the point of sale, are those set forth below:

Model	Ceiling prices for sales to ultimate consumers			
	Zone 1	Zone 2	Zone 3	Zone 4
841 D with low guard....	\$226.25	\$232.25	\$238.75	\$243.25
841 D with No. 40 shelf..	230.50	236.50	243.00	247.50
841 C with low guard....	229.50	235.75	242.50	247.25
841 C with No. 40 shelf..	233.75	240.00	246.75	251.50
181 D with low guard....	195.25	200.75	206.50	210.50
181 D with No. 40 shelf..	199.50	205.00	210.75	214.75

These prices include delivery and installation. If the retail dealer does not provide installation, he shall compute his ceiling price by deducting \$9.00 from the ceiling price shown above for his sales on an installed basis. If the retailer sells a stove equipped at the factory with any of the items listed below, he may add to the applicable ceiling price for the stove shown above an amount no greater than that set forth below opposite that item of equipment:

Item of equipment:	Amount which may be added
Heat control.....	\$14.75
Cover-all.....	9.25
Oil burner.....	35.00

In all other respects these prices are subject to each seller's customary terms, discounts, allowances (other than trade-in allowances) and other price differentials in effect on sales of similar articles.

(b) The manufacturer shall, before delivering any range covered by this order, after the effective date thereof, attach securely to the inside oven door panel a label which plainly states the applicable OPA retail ceiling prices established by this order for sales of the range to ultimate consumers in each zone together with a list of the states included in each zone. The label shall also state that the retail prices shown thereon include the Federal excise tax, delivery and installation, and that if the seller does not provide installation, the ceiling price is \$9.00 less than the price shown on the label.

(c) For purposes of this order Zones 1, 2, 3, and 4 comprise the following states:

- Zone 1. Pennsylvania, New Jersey, Delaware, Maryland, and the District of Columbia.
- Zone 2. Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Virginia, West Virginia, Kentucky, Wisconsin, Michigan, Illinois, Ohio, Indiana, Tennessee, North Carolina, South Carolina, Mississippi, Alabama, Georgia, and Florida.
- Zone 3. Minnesota, Iowa, Missouri, Arkansas, Louisiana, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Wyoming, Colorado, and New Mexico.
- Zone 4. Montana, Idaho, Utah, Arizona, Nevada, Washington, Oregon and California.

(d) The ceiling prices established by this order supersede those established for the same ranges by Order No. 304 under Maximum Price Regulation No. 64. All the provisions of Maximum Price Regulation No. 64 continue to apply to sales of articles covered by this order, except to the extent that they are modified by this order. The ceiling prices established by this order have been determined in accordance with section 11b of Maximum Price Regulation No. 64 and may not, therefore, be increased under that section.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 11th day of October 1946.

Issued this 10th day of October 1946.

PAUL A. PORTER,  
Administrator.

*Opinion Accompanying Order No. 326 Under Maximum Price Regulation No. 64*

Section 11b (c) of Maximum Price Regulation No. 64 required manufacturers of stoves subject to preticketing by the manufacturer having retail ceiling prices fixed prior to August 19, 1946, to recompute those ceiling prices so as to insure the return to retailers of a percentage markup over their current invoice cost equal to the average percentage markup which they received on sales of the same or similar stoves on March 31, 1946. To achieve this result the manufacturer was required to determine a markup factor for each stove applicable to his current ceiling prices to distributors or, if he did not sell to distributors, to his largest class of purchaser by dividing his March 31, 1946, ceiling price to that class by his March 31, 1946, retail ceiling price for his most comparable stove in Zone 1.

The Prizer-Painter Stove Works, Reading, Pennsylvania, hereinafter referred to as the applicant, did not have resale ceiling prices established under Maximum Price Regulation No. 64 on March 31, 1946, for the gas combination ranges it is now offering for sale. The resale ceiling prices so established were not fixed until after March 31, 1946. Hence the applicant had no models in his line on March 31, 1946, which he could use to determine a markup factor to be applied to his current ceiling prices for sales to his largest buying class of purchaser to enable him to recompute the retail ceiling prices of his ranges in accordance with section 11b (c) of Maximum Price Regulation No. 64. It is, therefore, necessary to issue an order establishing new retail ceiling prices for each stove now in his line under section 11 of Maximum Price Regulation No. 64 which provides that orders may be issued establishing retail ceiling prices whenever a manufacturer's ceiling prices have been determined under the regulation.

The retail ceiling prices established by the accompanying order were determined by dividing the retail ceiling price in Zone 1 which would have been established under Maximum Price Regulation No. 64 for the same stove on March 31, 1946 by the applicant's ceiling price to his largest buying class of purchaser as it would have been set under the same regulation on the same date, and applying the resulting markup factor to the applicant's current ceiling price under Maximum Price Regulation No. 64 to the same class of purchaser. The resulting ceiling prices return to the retailers a percentage markup equal to the average percentage markup they would have received on March 31, 1946 in connection with sales of the same stove. The retail ceiling prices established are, therefore, in accordance with the requirements of section 2 (t) of the Emergency Price Control Act of 1942, as amended and in line with the level of ceiling prices fixed under Maximum Price Regulation No. 64.

The accompanying order requires compliance with the notification, preticketing, terms of sale and other general provisions of Maximum Price Regulation No. 64.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 14 of Revised Maximum Price Regulation No. 86; *It is ordered:* That Order No. 30 under section 14 of Revised Maximum Price Regulation No. 86 be amended in the following respects:

- (1) Sub-paragraph (2) of paragraph (a) is amended to read as follows:
- (2) The ceiling price for sales by dealers in each zone for the models listed below are as follows:

Article	Model	Dealers' ceiling prices to consumers		
		Zone 1	Zone 2	Zone 3
Allied wringer-type washing machine.....	52250	\$69.95	\$74.95	\$79.95

These ceiling prices are subject to each retail seller's customary terms, discounts, allowances and other price differentials in effect on sales of similar articles.

This amendment shall become effective on the 11th day of October 1946.

Issued this 10th day of October 1946.

*Opinion Accompanying Amendment No. 1 to Order No. 30 Under Section 14 of Revised Maximum Price Regulation No. 86*

The accompanying amendment removes certain washing machines and ironers manufactured by the Nineteen Hundred Corporation of St. Joseph, Michigan from the scope of Order No. 30 under section 14 of Revised Maximum Price Regulation No. 86, hereinafter referred to as Order No. 30. These machines are being covered by a new order issued simultaneously with the accompanying amendment. The reasons for this action are set forth in the opinion accompanying the issuance of that order.

In other respects Order No. 30 is not affected. The ceiling prices established by Order No. 30 for machines still subject to the order are subject to the modification provided for by section 16b of Revised Maximum Price Regulation No. 86.

(d) Except as is otherwise provided for in paragraph (b) of this order, the ceiling prices established by this order are subject to the provisions of section 22 of Revised Maximum Price Regulation No. 86.

(e) For the purposes of this order Zones 1, 2, 3, and 4 comprise the following states:

Zone 1: Illinois, Indiana, Michigan, Ohio, Wisconsin.

Zone 2: Connecticut, Delaware, District of Columbia, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Pennsylvania, Rhode Island, South Dakota, Vermont, Virginia, West Virginia.

Zone 3: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee.

Zone 4: Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington, Wyoming.

(f) At the time of, or prior to, the first invoice to each distributor, the manufacturer shall notify him of the ceiling prices established by this order for resales by the distributor. This notice may be given in any convenient form.

(g) All the provisions of Revised Maximum Price Regulation No. 86 continue to apply to all sales and deliveries of machines covered by this order, except to the extent that those provisions are modified by this order.

(h) Unless the context requires otherwise, the definitions set forth in the various sections of Maximum Price Regulation No. 86 shall apply to all terms used herein.

(i) The ceiling prices established by this order supersede the provisions of Order No. 30 and Order No. 34 under section 14 of Revised Maximum Price Regulation No. 86 as modified by sections 15 and 16b of Revised Maximum Price Regulation No. 86 only with respect to machines sold by the manufacturer to a purchaser for resale on or after October 11, 1946.

(j) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 11th day of October 1946.

Issued this 10th day of October 1946.

PAUL A. PORTER,  
Administrator.

Opinion Accompanying Order No. 79 Under Revised Maximum Price Regulation 86

The accompanying order establishes new ceiling prices for distributors' and dealers' sales of certain models of wringer-type washing machines and ironers manufactured by Nineteen Hundred Corporation and sold under the brand name of Whirlpool. Heretofore ceiling prices for distributors' and dealers' sales of these machines were established by Orders No. 30 and 34 under section 14 of Revised Maximum Price Regulation No. 86 as modified by section 16b of Revised Maximum Price Regulation No. 86.

The machines subject to Order No. 34 had retail ceiling prices established on a four (4) zone basis whereas those subject to Order No. 30 had retail ceiling

prices established on a three (3) zone basis. The manufacturer has applied to this Office for the establishment of retail ceiling prices for all Whirlpool machines under one order and on a uniform zone basis.

Accordingly, the accompanying order establishes retail ceiling prices for all Whirlpool machines on a four (4) zone basis. Insofar as zone differentials are concerned, they were established on the same basis as the zone differentials provided for by Order No. 34. The opinion which accompanied Order No. 34 when it was originally issued explains the method for determining the zone differentials, and it is incorporated herein by reference.

The ceiling prices established by the accompanying order for distributors' and dealers' sales of machines subject to the order include the increases allowed by section 15 or 16b of Revised Maximum Price Regulation No. 86. They are therefore, in line with the level of ceiling prices that would otherwise be established for such sales by the provisions of Revised Maximum Price Regulation No. 86 as amended.

In order to insure compliance with the preticketing, notification and terms-of-sale provisions of Revised Maximum Price Regulation No. 86, the accompanying order also specified that all the provisions of Revised Maximum Price Regulation No. 86 are applicable to sales of articles covered by the order, except to the extent that they are modified by this order.

[SO 148, Order 39]

## GREEN RIVER CHAIR CO.

## ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 5 of Supplementary Order No. 148; It is ordered:

(a) This order establishes maximum prices for sales and deliveries of certain wood chairs manufactured by Green River Chair Company, Livermore, Kentucky.

(1) For all sales and deliveries of the following articles by the manufacturer to the class of purchaser specified below, the adjusted maximum prices are as follows:

Article	Model No.	Adjusted maximum price to retailers
		<i>Per dozen</i>
Chair—finished.....	123	\$16.20
Chair—unfinished.....	123	14.40
Chair—finished.....	124	18.00
Chair—unfinished.....	124	14.44

(2) For sales and deliveries by the manufacturer to all other classes of purchasers the maximum prices are the adjusted maximum prices set forth in paragraph (a) (1), adjusted to reflect the manufacturer's customary or established differentials for sales to those other classes of purchasers.

(b) Resellers of articles which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580 and a wholesaler who must determine his ceiling prices under Maximum Price Regulation No. 590 shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a ceiling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a ceiling price, shall compute his ceiling prices under that regulation as modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price," the reseller shall calculate his ceiling prices by adding to his invoice cost the same percentage mark-up which he had on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the articles being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) The manufacturer shall comply with the invoicing and reporting provisions of Order No. 4800 under Maximum Price Regulation No. 188.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 11th day of October, 1946.

Issued this 10th day of October, 1946.

PAUL A. PORTER,  
Administrator.

*Opinion Accompanying Order No. 39 Under Supplementary Order No. 148*

The accompanying order is issued under Supplementary Order No. 148 pursuant to an application filed by the Green River Chair Company, Livermore, Kentucky.

Supplementary Order No. 148 provided for adjustment of maximum prices of articles listed in Appendix A of that order, if those prices do not exceed the "cutoff" prices listed in Appendix A for those articles.

Articles covered by the accompanying order are listed in Appendix A of Supplementary Order No. 148. From information submitted by the manufacturer it appears that the maximum prices of those articles including any adjustments previously authorized by the Office of Price Administration are below the adjusted maximum prices for which he can qualify under Supplementary Order No. 148. Therefore, the maximum prices of the articles under the accompanying order have been adjusted in accordance with the provisions of Supplementary Order No. 148 to reflect increases authorized by that order.

Purchasers for resale of the articles which the manufacturer sells at adjusted prices are permitted to pass on to their customers, the amount of the increase permitted by the accompanying order which is in excess of that authorized for the industry generally. This follows from the requirements contained in Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188 under which the manufacturer must furnish his purchasers for resale with an invoice of a particular type and under which purchasers for resale are given fixed rules as to how they determine their resale ceiling prices. This is in accordance with the policy of this Office in cases where industry-wide actions have been taken with respect to a particular commodity and a manufacturer of that commodity has also qualified for an individual adjustment in excess of that granted the industry generally.

[SO 94, Order 140]

CERTAIN USED SHOWER CURTAINS  
SPECIAL MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and in accordance with section 11 of Supplementary Order 94, It is ordered:

(a) *What this order does.* This order establishes maximum prices at which used approximately 72" x 99" or any standard sized white cotton shower curtains may be sold and delivered by the War Assets Administration or any other United States Government Agency, and by any subsequent reseller.

(b) *Maximum prices.* The maximum prices per unit (f. o. b. shipping point) for used approximately 72" x 99" or any standard sized white cotton shower curtains shall be:

Price for all sales to wholesalers.....	\$0.80
Price for all sales to retailers.....	1.00
Price for all sales at retail.....	1.70

Cross-stream sales may be made at any normal trade level of distribution by division of the mark-up in such proportion as may be agreed upon between the parties to the transaction.

(c) *Notification.* Any person who sells shower curtains described in paragraph (b) to a retailer shall furnish the retailer with an invoice of sale setting forth retailer's maximum price, and

stating that the retailer is required by this order to attach to each shower curtain before sale a tag or label which plainly states a selling price not in excess of \$1.70.

(d) *Tagging.* Any person who sells the shower curtain described in paragraph (b) at retail shall attach to each shower curtain before sale a tag or label which plainly states a selling price not in excess of \$1.70, as follows:

OPA Price—\$-----

(e) *Failure to furnish invoice or tag.* If any person, except a retailer, who sells the shower curtain described in paragraph (b), fails to furnish his purchaser with an invoice of sale containing the information required in paragraph (c) or, in the case of a retailer, fails to comply with the tagging requirements of paragraph (d), such person's maximum sales price shall be his net invoice cost plus incoming freight, regardless of any other pricing provisions of this order.

(f) *Relation to other regulations and orders.* This order with respect to the commodity it covers supersedes any other regulation or order previously issued by the Office of Price Administration.

(g) *Definitions.* (1) "Wholesaler" means any person who sells to purchasers for resale.

(2) "Retailer" means any person who sells to ultimate consumers.

(h) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective October 11, 1946.

Issued this 10th day of October 1946.

GEOFFREY BAKER,  
Acting Administrator.

*Opinion Accompanying Order No. 140 Under Supplementary Order 94*

The accompanying order establishes maximum prices for sales of the used shower curtain, therein described, by the War Assets Administration or any other Government agency, and by subsequent resellers. The specific occasion for the issuance of the order is the proposed sale by the War Assets Administration of 3,400 of these shower curtains, now located in New York, N. Y., and available for sale by the Regional Office of the War Assets Administration in that city. It is expected that additional quantities will become available in other regions and that they will be sold in the ordinary civilian channels.

The maximum price established for sales to wholesalers is less than the acquisition cost to the Government but is the price at which the shower curtains are being sold by the War Assets Administration. The prices established for sales at wholesale and at retail reflect the customary markups in the trade for this type of article, and will permit resellers to maintain adequate margins.

In order to insure compliance with the maximum prices, the order provides that retailers be notified of the retail ceiling price and that each shower curtain be tagged with a price not in excess thereof by the retailer before sale.

In the opinion of the Administrator the maximum prices established by the order are generally fair and equitable and are consistent with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

[MPR 188, Order 5221]

CARBONATED BEVERAGE WARE AND MALT BEVERAGE WARE

AUTHORIZATION OF ADJUSTABLE PRICING

Applications have been filed by several manufacturers of narrow-neck glass containers described as "carbonated beverage ware" and "malt beverage ware" which are subject to the provisions of Maximum Price Regulation 188, as amended, for revision of their presently established maximum prices under that regulation. The Office of Price Administration is presently determining what action is appropriate in connection with these applications.

It appears that authorization for such manufacturers to use adjustable pricing, pending final action on the above mentioned applications, is necessary to promote the production and continued supply of carbonated and beverage ware, and that such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

After due consideration of the foregoing and in accordance with § 1499.19a of the General Maximum Price Regulation, which is made part of Maximum Price Regulation 188, as amended, by incorporation pursuant to § 1499.151 thereof, *It is ordered:*

(a) Pending final determination by the Office of Price Administration of the applications for adjustment now on file, manufacturers of "carbonated beverage ware" and "malt beverage ware" are hereby authorized to sell and any person may buy from them at prices not in excess of the maximum prices established in accordance with Maximum Price Regulation 188, as amended: *Provided, however,* That any such manufacturer may agree with any purchaser in any contract for the sale of "carbonated beverage ware" and "malt beverage ware" that the contract price may be adjusted to conform to the final determination of the Price Administrator upon the applications for adjustment: *Provided further,* That such manufacturers may not receive and their purchasers may not pay an amount in excess of the maximum prices established under Maximum Price Regulation 188, as amended, until final action is taken on the petition for amendment now pending and then only to the extent such final action permits an increase of such maximum prices.

(b) This order shall be automatically revoked at such time as the Office of Price Administration takes final action with respect to the applications for adjustment now pending with respect to maximum prices for narrow-neck glass

containers described as "carbonated beverage ware" and "malt beverage ware" subject to Maximum Price Regulation 188.

(c) This order may be amended or revoked by the Price Administrator at any time.

This order shall become effective October 15, 1946.

Issued this 10th day of October 1946.

Acting Administrator.

VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS

ADJUSTMENT OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order 1 is amended in the following respects:

1. A new section 3.1 (e) is added to read as follows:

(e) *Maximum prices for manufacturers in the Pacific Northwest Area.* A manufacturer's maximum prices for sewer pipe products, except as covered by Revised Maximum Price Regulation 206, produced in Zones 1-4, inclusive, of the state of Washington, Zones 1 and 2 of the state of Oregon, Zones 1 and 2 of the state of Idaho and Zone 1 of the state of Montana, as described in section 11.1 of Revised Maximum Price Regulation 206, may be increased in accordance with either of the following alternative pricing methods:

(1) By adding an amount not in excess of 6 percent to the maximum prices in effect on October 14, 1946, for the same quality, kind and quantity of sewer pipe products delivered to purchasers of the same class, or

(2) By adding amounts not in excess of such amounts, as may be required, to maintain discount differentials between prices established under this paragraph and those established by sections 11.3 and 11.4 of Revised Maximum Price Regulation 206, as amended, at least as favorable as those existing during the month of March 1942 for the same quality, kind and quantity of sewer pipe products, delivered to purchasers of the same class.

2. A new section 3.3a is added to read as follows:

SEC. 3.3a *Maximum prices for resellers of sewer pipe products in the Pacific Northwest Area.* (a) Any reseller (including those covered by area orders under General Order 68 prior to October 15, 1946) purchasing sewer pipe products for resale in the same form from any manufacturer who has adjusted his maximum prices in accordance with section 3.1 (e), above, may increase his presently established maximum prices by an amount not in excess of 6 percent.

(b) If, after October 15, 1946, maximum prices in effect on October 15, 1946, are changed by an area order, or amendment thereto, the maximum prices established by the area order shall supersede maximum prices established under (a) above.

This amendment shall become effective October 15, 1946.

Issued this 10th day of October 1946.

GEOFFREY BAKER,  
Acting Administrator.

*Statement of Considerations Accompanying Amendment No. 26 to Revised Maximum Price Regulation 206 and Opinion Accompanying Amendment No. 68 to Order 1 Under Section 25 of Maximum Price Regulation No. 592*

The accompanying amendments permit an increase of 6 percent in the maximum prices of vitrified clay sewer pipe and allied products when sold in the states of Washington, Oregon, Idaho and Montana and incorporate a previous individual company adjustment of 10 percent permitted by Order 3 under section 3.1 (b) (2) of Revised Maximum Price Regulation 206 effective September 15, 1944.

Revised Maximum Price Regulation 206 had previously spelled out dollars-and-cents maximum prices at March 1942 levels for deliveries of sewer pipe products within this area.

Producers operating plants in the state of Washington have alleged that such prices are no longer generally fair and equitable. These plants supply virtually the entire requirements for sewer pipe products in the area under consideration.

Cost and financial data were obtained from two producers operating three plants and representing all the sewer pipe productive facilities in the area. Data were submitted covering operations for the pre-war period 1936 to 1939, the year 1941, and 1945. Wage increases approved by the Wage Stabilization Board have been reflected into the current data, as well as increased costs of freight and materials.

The Administrator has considered: (1) the proportion which sewer pipe represents of the total output of each plant and company; (2) the earnings position of these manufacturers on their over-all operations; (3) the earnings position of these manufacturers on their sewer pipe operations within the area; (4) the necessity for maximum production of this commodity to meet the demand for a product which is in short supply; and (5) the practicability of granting differential adjustments to sellers within the area.

In connection with the foregoing considerations, the Administrator finds: (1) sewer pipe is produced within the area by three plants whose operations are wholly or largely devoted to the production of this product and by companies for whom sewer pipe represents a major product in a multi-line operation; (2) the over-all earnings of these companies are favorable in relation to prewar base period years; (3) earnings on sewer pipe operations within this area are unfavorable as compared with the average of the

base period; (4) the Civilian Production Administration has indicated that shortages of this commodity in this and other areas may seriously impede the housing program; and (5) marketing and price relationships in this historically uniform price industry make differential pricing impracticable.

The Administrator has concluded that to insure that price is not an impediment to full production, an adjustment is appropriate sufficient to return to producers in this area their average current costs plus average aggregate earnings on this product during the base period years 1936-1939. In adopting this standard the Administrator has noted that the measure of relief permitted in the accompanying amendments accords with the measure of relief permitted sewer pipe companies in connection with previous studies in the other sewer pipe production areas. The adjustment granted by the accompanying amendments will return base period sewer pipe earnings on the basis of current sales and costs adjusted to reflect a normal volume of operations.

The accompanying amendments also incorporate in the discount tables for Seattle, Washington, the individual adjustment granted in September 1944 to one of the three plants under consideration. This individual adjustment of 10% permitted by Order 3 under section 3.1 (b) (2) of Revised Maximum Price Regulation 206, effective September 15, 1944, is reflected into Charts VIII and IX in Section 11.3. Inasmuch as this plant is virtually the sole supplier of the Seattle Territory, the Administrator deems it appropriate, since the individual increase has been reflected into sales data employed in this study, to incorporate this individual increase with the industry-wide increase permitted by this action.

In amending Revised Maximum Price Regulation 206, specific discount changes are provided which approximate the adjustment required, after rounding off to the nearest half discount point in accordance with customary industry practice. In the amendment to Order 1 under Maximum Price Regulation 592, which covers sewer pipe products not listed in Revised Maximum Price Regulation 206, an adjustment equal to 6% above present maximum prices is provided. Likewise, section 4.1 (a) of Revised Maximum Price Regulation 206 is amended to permit an increase of 6% on sales f. o. b. factory on a "pick-up basis", and for "less-than-carload shipments by rail" within the area covered by the accompanying amendments.

In each of the amendments, resellers, including resellers covered by area pricing orders, purchasing sewer pipe products for resale in the same form may add to their presently established maximum prices an amount not in excess of 6%, representing the average percentage increased costs to the reseller resulting from the adjustment permitted manufacturers. Thus resellers will continue to realize the same percentage margins.

Prior to the issuance of these amendments, the Price Administrator consulted, so far as practicable, with representatives of the industry and has given considerations to their recom-

mendations. The Price Administrator finds that the increases permitted and the maximum prices established by the accompanying amendments are consistent with the Emergency Price Control Act of 1942, as amended, and the Executive orders of the President.

Regional and District Office Orders.

[Region III Order G-50 Under MPR 592, Amdt. 1]

UNION SAND AND GRAVEL CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation No. 592 and the Emergency Price Control Act of 1942, as amended; *It is ordered*, That Order No. G-50 under Maximum Price Regulation No. 592 be and hereby is amended in the following respects:

Paragraph (b) is amended to read as follows:

(b) *Adjustment of processor's maximum prices.* The processor is hereby authorized to increase its maximum prices in effect on April 5, 1946, to each class of purchaser, by 13% on all sales of sand and gravel processed by it.

This Amendment No. 1 to Order No. G-50 shall become effective September 25, 1946.

Issued: September 25, 1946.

E. C. TURNEY,  
Acting Regional Administrator.

*Opinion Accompanying Amdt. 1 to Order G-50 Under Section 16 of MPR 592*

The accompanying Amendment No. 1 to Order No. G-50 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of the maximum prices of all sand and gravel processed by the Union Sand and Gravel Company, Huntington, West Virginia, therein referred to as the processor.

Examination of additional data concerning cost increases reveals that the processor is not realizing total costs plus a reasonable margin of profit. It is, therefore, considered that the data submitted by processor with its application do not accurately portray the extent of its current financial hardship and do not constitute a proper basis for the adjustment granted by the order of August 30, 1946. It is considered that the adjustment granted in the accompanying amendment to Order No. G-50, while constituting the minimum required, is sufficient to enable the applicant to maintain a continued supply of the subject sand and gravel.

The price increases established in the accompanying amendment are considered generally fair and equitable in accordance with the provisions of Maximum Price Regulation No. 592 and consistent with the provisions of the Emergency Price Control Act of 1942, as amended.

[Region I Order G-1 Under Rev. Gen. Order 65]

LUMBER AND LUMBER PRODUCTS IN BOSTON REGION

Under the authority vested in the Regional Administrator of Region I by Revised General Order No. 65 and for the reasons set forth in an opinion issued simultaneously herewith, it is ordered:

SECTION 1. *What this order does.* This order establishes dollars-and-cents maximum prices and makes other provisions with respect to retail type sales by lumber distribution yards out of distribution yard stock of the lumber and lumber products listed in the tables contained in the appendices issued hereunder and made part of this order.

SEC. 2. *Area covered.* (a) Appendix A, "Northeastern Softwoods" establishes the maximum prices for retail type sales of the products listed therein when sold by distribution yards located in the states of New Hampshire, Vermont, Massachusetts (except Dukes and Nantucket Counties), Rhode Island (except the Town of New Shoreham), and Connecticut. Each table of this appendix establishes the maximum prices for sales of the products listed therein when sold by lumber distribution yards located in the area to which that table applies.

(b) Appendix B, "Douglas Fir and Other West Coast Lumber" establishes the maximum prices for retail type sales of the products listed therein when sold by distribution yards located in the states of New Hampshire, Vermont, Connecticut, Massachusetts (except Dukes and Nantucket Counties), Rhode Island (except the Town of New Shoreham), and Maine (except a portion of Northern Maine, namely Aroostook County and those portions of Penobscot, Piscataquis and Somerset Counties which are located on or served by the Bangor and Aroostook Railroad and have no other railroad connections).

(c) Appendix C, "Western Pine and Associated Species of Lumber and Western Softwood Shingles" establishes the maximum prices for retail type sales of the products listed therein when sold by distribution yards located in the states of New Hampshire, Vermont, Connecticut, Massachusetts (except Dukes and Nantucket Counties), Rhode Island (except the Town of New Shoreham), and Maine (except a portion of Northern Maine, namely Aroostook County and those portions of Penobscot, Piscataquis and Somerset Counties which are located on or served by the Bangor and Aroostook Railroad and have no other railroad connections).

SEC. 3. *Applicability of 2d RMPR 215.* The maximum prices and provisions established by this order shall supersede those established by 2d RMPR 215. Except to the extent that they are inconsistent with the provisions of the order, all other provisions of 2d RMPR 215 shall apply to all sales made under this order.

SEC. 4. *Availability of price tables.* Each person making or offering to make a sale covered by this order shall keep on the counter of his office (or at some other equivalent place if there is no counter) one copy of this order with applicable tables of each appendix where it shall be freely available for inspection by any interested person.

SEC. 5. *Invoicing.* Each person making a sale under the provisions of this order must provide the purchaser, whether he requests it or not, with an invoice or other evidence of sale, of which an exact copy shall be retained by the seller for the duration of the Emergency Price Control Act of 1942, as amended. The invoice shall contain the following:

1. Date of sale.
2. Name and address of seller.
3. Name and address of purchaser. (Not required on sales totalling less than \$7.50.)
4. Description of items sold, including quantity, grade, length, size, condition, special treatment, workings or other features which may affect the price, in full detail necessary to permit the exact calculation of the applicable maximum price.
5. Charges for extras, workings or delivery listed separately.
6. The total price.

SEC. 6. *Maximum prices for lumber improperly invoiced.* Where an invoice for a sale covered by this regulation does not contain a sufficiently complete description to show that the price appearing on its face is within the maximum

prices fixed by this order, the maximum price applicable to such sale shall be the maximum price of the lowest priced item in the applicable price table to which the incomplete description could apply. In the absence of any description, the maximum price shall be the lowest maximum price in the price tables for the area.

SEC. 7. *Petitions for amendment.* Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator of the Boston Regional Office of the Office of Price Administration.

SEC. 8. *Amendment.* This order may be amended or revoked by the Regional Administrator at any time.

SEC. 9. *Effective date.* This order shall become effective September 23, 1946.

Issued this 10th day of September 1946.

ELDON C. SHOUP,  
Regional Administrator.

- 4. 5/4" and 6/4" thickness.**—To the 25/32" price for the species, size, grade, condition, and washing, add \$4.

- 5. Surfaced 2 or 4 sides to 3/4".**—From the 25/32" surfaced price for the species, size, grade, and condition deduct \$1.

- 6. Surfaced to 3/4" on one side or hit-and-miss.**—From the 25/32" price for the species, size, grade, and condition deduct \$3.

- 7. Surfaced 2 sides and center matched or worked to flooring, drop siding, beaded or other patterns, sold on board measure.**—To the 25/32" surfaced price for the species, size, grade, and condition add \$0.

- 8. Sales less than \$7.50.**—When the total sale is less than \$7.50 the prices as determined above may be increased 10%.

- 9. Workings and delivery.**—For permitted additions for workings to customer's order, and for delivery, see 2d RMPR 215.

- 10. Other boards.**—Continue to compute maximum prices under 2d RMPR 215 on Douglas fir, western hemlock, and true fir boards not priced above.

These prices apply in the area specified in paragraph B, section 2, of Order G-1 under RGO 65.

Size of sale is based on the total of all softwood lumber and hardwood flooring sold in one sale.

**Additions and deductions per 1,000 feet surface measure**

1. **Green, surfaced as above.**—The maximum price is the same as for dry surfaced boards in the same grade and size.
2. **Full 1" thickness, rough.**—To the dry surfaced price for the size in 25/32" thickness: If rough dry add \$3; if rough green add \$3.
3. **1 x 4" and wider in No. 4 grade, dry, surfaced to 25/32".**—The maximum price for 1,000 feet surface measure is \$70.
4. **Standard patterns, machine run of product.**—To dry surfaced price for the grade, condition, and size from which most economically developed: For drop siding and corn

cribbing, dry, add \$7; for dressed and matched, dry, add \$3; for all other standard patterns, dry, add \$3. No addition for shiplap and beaded shelving.

5. **Surface measure.**—Is based on nominal size, and for 1" nominal thickness is the same as board measure.

6. **Sales less than \$7.50.**—When the total sale is less than \$7.50 the prices as determined above may be increased 10%.

7. **Workings and delivery.**—For permitted additions for workings to customer's order, and for delivery, see 2d RMPR 215.

8. **Other boards.**—Continue to compute maximum prices under 2d RMPR 215 on ponderosa pine boards not priced above.

These prices apply in the area specified in paragraph C, section-2, of Order G-1 under RGO 65.

Size of sale is based on the total of all softwood lumber and hardwood flooring sold in one sale.

Opinion Accompanying Order No. G-1 Issued Under Revised General Order No. 65

The accompanying Order No. G-1, issued under Revised General Order No. 65, establishes maximum dollars-and-cents prices for retail type sales of the lumber and lumber products listed in the Tables contained in the Appendices, when such sales are made by lumber distribution yards out of distribution yard stock.

Revised General Order No. 65 authorizes the Regional Administrator to issue such orders covering sales of lumber and lumber products for which maximum prices are presently established under 2d Revised Maximum Price Regulation No. 215. Such orders may include provisions for posting price lists, for keeping of records, and for making reports.

Appendix A, "Northeastern Softwoods," covers sales made in the States of New Hampshire, Vermont, Connecticut, Massachusetts (except Dukes and Nantucket Counties), and Rhode Island (except the Town of New Shoreham).

Appendix B, "Douglas Fir & Other West Coast Lumber," and Appendix C, "Western Pine and Associated Species of Lumber and Western Softwood Shingles," cover sales made in the above described area and also in the State of Maine (except a portion of Northern Maine, namely, Aroostook County and those portions of Penobscot, Piscataquis, and Somerset Counties which are located on or served by the Bangor and Aroostook Railroad and have no other railroad connections).

Dukes and Nantucket Counties in Massachusetts are composed of island communities where, owing to the necessity of shipment by water, prices applicable to mainland communities would not be fair and equitable. The proportionately small amount of lumber used there does not appear to warrant establishment, at this time, of separate lists of prices for

these Counties. The Town of New Shoreham, in Rhode Island, was omitted from the coverage of this order for the same reason, it also being an island community.

2d Revised Maximum Price Regulation No. 215 provides that incoming transportation charges, one of the factors used in establishing maximum prices under that regulation, shall be calculated by sellers in this Region from Portland, Oregon, for Douglas Fir and Other West Coast Lumber; from Klamath Falls, Oregon, for Western Pine and Associated Species of Lumber; from Seattle, Washington, for Western Softwood Shingles; and from Vanceboro, Maine, or Norway, Maine, for Northeastern Softwoods. The freight rates from the latter two basing points to communities within the State of Maine are so diverse and complex that it has been deemed inadvisable to bring within the coverage of Appendix A sales of Northeastern Softwoods made in that state. The rates from Portland, Oregon, from Klamath Falls, Oregon, and from Seattle, Washington, however, are uniform throughout Region I with few and specific exceptions. Sales within the greater portion of the State of Maine have, therefore, been brought within the coverage of Appendices B and C. The excepted areas in the State of Maine are those served only by the Bangor and Aroostook Railroad. A difference in freight rates on shipments to points served by that railroad has made it appropriate to exclude that area from the coverage of these appendices.

In issuing orders under Revised General Order No. 65, the Regional Administrator is required to establish prices which are generally in line with the level of prices in effect under 2d Revised Maximum Price Regulation No. 215. That regulation fixes maximum prices by formula rather than in dollars-and-cents. While the formula leads to definite dollars-and-cents prices which are uniform for the community, the computation of such prices by the consumer requires considerable information which is not readily accessible to him unless he makes special efforts to obtain it. To provide ceiling prices which can be readily applied by consumers, and to facilitate their application by sellers covered by this order, the Regional Administrator considers it advisable to translate the formula prices for the more common items covered by 2d Revised Maximum Price Regulation No. 215 into specific dollars-and-cents maximum prices. Since the maximum prices established by this order have been calculated in accordance with the provisions of 2d Revised Maximum Price Regulation No.

215, no field survey has been necessary, and the prices established herein are in line with the levels of prices in effect under that regulation.

This order will be amended from time to time by the addition of appendices which will be incorporated into and made part of this order. Each appendix will contain dollars-and-cents ceiling prices for sales of one or more of the other species of softwood lumber and hardwood flooring covered by 2d Revised Maximum Price Regulation No. 215.

All provisions of the accompanying order and their effect upon business practices, cost practices or methods, or means or aids to distribution in the industry or industries have been carefully considered. No provisions that might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention of this order or of the Emergency Price Control Act of 1942, as amended.

[Albany Adopting Order 5 Under Basic Order 1 Under Rev. Gen. Order 65]

SOUTHERN SHORTLEAF YELLOW FINE LUMBER IN THE ALBANY, N. Y., DISTRICT

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of Region II, by the Emergency Price Control Act of 1942, as amended, by Revised General Order No. 65, and by Revised Procedural Regulation No. 1, which authority has been duly delegated by such Regional Director of the Albany District Office, it is hereby ordered:

SECTION 1. What this order covers. This adopting order under Basic Order No. 1, as amended, under Revised General Order No. 65, covers retail-type sales of Southern Shortleaf Yellow Pine Lumber out of distribution yard stock by lumber distribution yards located in the Albany District area. All provisions of

Basic Order No. 1, as amended, under Revised General Order No. 65, are adopted in this order as if specifically set forth herein. If said Basic Order No. 1, as amended, is further amended in any respect, the provisions of said order, as amended, shall likewise, without further action, become part of this order. All persons subject to this adopting order are also subject to Basic Order No. 1, as amended, under Revised General Order No. 65, and should be familiar with the provisions of said order.

**SEC. 2. Territory covered by this order.** The geographical area covered by this order is the entire Albany District area as follows: Counties of Albany, Columbia, Greene, Rensselaer, Saratoga, Schenectady, Schoharie, Ulster, Hamilton, Montgomery, Warren, Washington, Clinton, Essex and Franklin, all in the State of New York.

**SEC. 3. Maximum prices.** The maximum prices for Southern Shortleaf Yellow Pine Lumber in the area covered by this order are set forth in Schedules A-7, A-8 and A-9, hereto annexed and made

a part of this order. Schedule A-7 fixes maximum prices for sales by lumber distribution yards located in the Counties of Albany; Columbia; Greene; Rensselaer; Saratoga, excluding the Towns of Corinth, Day, Edinburg, and Hadley; Schenectady; Schoharie; and Ulster. Schedule A-8 fixes maximum prices for sales by lumber distribution yards located in the Counties of Fulton; Hamilton; Montgomery; Warren; Washington; and the Towns of Corinth, Day, Edinburg, and Hadley, in the County of Saratoga. Schedule A-9 fixes maximum prices for sales by lumber distribution yards located in the Counties of Clinton, Essex, and Franklin.

**SEC. 4. Relationship of this order to Basic Order No. 1, as amended, under Revised General Order No. 65, Second Revised Maximum Price Regulation 215, and other maximum price regulations.** As previously stated, all provisions of Basic Order No. 1, as amended, are adopted by this order. The maximum prices fixed by this order supersede any maximum price or pricing method pre-

viously established by Second Revised Maximum Price Regulation 215, or any other applicable regulation or order. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of Second Revised Maximum Price Regulation 215 or any other applicable regulation or order, shall remain applicable to sales covered by this order.

**SEC. 5. Posting of prices, records and sales slips.** The provisions of sections (d), (e), (f), and (g) of Basic Order No. 1, as amended, covering posting, invoicing, records and sales slips, are adopted in and applicable to this order as if specifically set forth herein.

**SEC. 6. Amendment.** This order may be revised, amended, revoked or modified at any time by the Office of Price Administration.

This order shall become effective October 10, 1946.

Issued this 1st day of October 1946.

LESTER W. HERZOG,  
District Director.

SCHEDULE A-7

These prices apply to all retail type sales and deliveries by yards located in the counties of Albany; Columbia; Greene; Rensselaer; Saratoga, excluding the towns of Corinth, Day, Edinburg, and Hadley, Schenectady; Schoharie; and Ulster, all in the State of New

York, regardless of the place to which delivery is made. Size of sale is based on total of all softwood lumber and hardwood flooring sold in one sale.

BOARDS—SHORTLEAF YELLOW PINE  
[Price table (per 1,000 board feet)]

Applies to air-dried or kiln-dried boards, 4 to 20 feet long, surfaced on 1, 2, 3, or 4 sides to thickness shown, or surfaced on 2 sides and tongue-and-grooved or ship lapped. No additions to these prices may be made for grade-marking, antistain treatment, or sale of specific lengths.

Opinion Accompanying Adopting Order 5 Under Basic Order 1 as Amended Under Revised General Order 65

Pursuant to the provisions of Revised General Order No. 65 as amended, Regional Administrators and District Directors authorized to do so may issue and put into effect Orders establishing maximum prices applicable to particular communities or defined areas for sales of lumber products for which maximum prices are established under Second Revised Maximum Price Regulation 215 out of distribution yard stock by any lumber distribution yard located in such area.

In accordance with this authority, the Regional Administrator of Region II has issued Basic Order No. 1, as amended, under Revised General Order 65, setting forth the general provisions which are to be common to all future area orders, such orders to be known as adopting orders.

The accompanying adopting order covers prices of Southern Shortleaf Yellow Pine Lumber on retail-type sales out of distribution yard stock by lumber distribution yards located in the Albany District area. This order supersedes maximum prices or pricing methods previously established by Second Revised Maximum Price Regulation 215, or any other applicable regulation.

The prices fixed by the accompanying order are a translation into dollars and cents of existing maximum prices and are in line with the level of prices in effect under Second Revised Maximum Price Regulation 215. The variation in prices fixed by the three schedules attached to the accompanying order is due to differences in freight rates. The provisions of this order are in conformance with section 2 (t) of the Emergency Price Control Act of 1942, as amended.

The record-keeping, posting and invoicing provisions of Basic Order No. 1, as amended, which are adopted by the accompanying adopting order, are specifically authorized by section 1 (c) of Revised General Order 65 and are affirmatively found to be necessary to prevent evasion of this order.

[F. R. Doc. 46-18135; Filed, Oct. 8, 1946; 8:53 a. m.]

[New York Adopting Order 1 Under Basic Order 1 Under Rev. Gen. Order 65]

SOUTHERN SHORTLEAF YELLOW PINE LUMBER IN NEW YORK DISTRICT

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of Region II, by the Emergency Price Control Act of 1942 as amended by Revised General Order No. 65, and by Revised Procedural Regulation No. 1, which authority has been duly delegated by such Regional Administrator to the Assistant to the Regional Administrator in charge of the New York District Office, it is hereby ordered:

SECTION 1. *What this order covers.* This adopting order under Basic Order No. 1, under Revised General Order No. 65, covers retail-type sales of Southern Shortleaf Yellow Pine Lumber out of distribution yard stock by lumber distribution yards located in the New York District area. All provisions of Basic Order No. 1, under Revised General Order No. 65, are adopted in this order as if specifically set forth herein. If said Basic Order No. 1 is amended in any respect, the provisions of said order, as amended, shall likewise without further action, become part of this order. All persons subject to this adopting order are also subject to Basic Order No. 1 under Revised General Order No. 65, and should be familiar with the provisions of said order.

SEC. 2. *Territory covered by this order.* The geographical area covered by this order is the entire New York District area as follows: counties of New York, Kings, Queens, Bronx, and Richmond, all in the City and State of New York; counties of Westchester, Rockland, Orange, Putnam, Dutchess, Nassau, and Suffolk, all in the State of New York.

SEC. 3. *Maximum prices.* The maximum prices for Southern Shortleaf Yellow Pine Lumber in the area covered by this order are set forth in Schedule A-1, A-2, and A-3, hereto annexed and made a part of this order. Schedule A-1 fixes maximum prices for sales by lumber distribution yards located in the Counties

of New York, Kings, Queens, Bronx, Richmond, Westchester, Rockland, Orange, Putnam, and Dutchess. Schedule A-2 fixes maximum prices for sales by lumber distribution yards located in the County of Nassau and all that part of Suffolk County lying West of the seventy-third degree meridian excluding Medford, but including Patchogue, Selden, Norwood, Terryville, Port Jefferson, and Mt. Sinai. Schedule A-3 fixes maximum prices for sales by lumber distribution yards located in all that part of Suffolk County lying East of the seventy-third degree meridian including East Patchogue, Medford, Coram, and Millers Place.

SEC. 4. *Relationship of this order to Basic Order No. 1 under Revised General Order No. 65, Second Revised Maximum Price Regulation 215, and other maximum price regulations.* As previously stated, all provisions of Basic Order No. 1 are adopted by this order. The maximum prices fixed by this order supersede any maximum price or pricing method previously established by Second Revised Maximum Price Regulation 215, or any other applicable regulation or order. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of Second Revised Maximum Price Regulation 215 or any other applicable regulation or order, shall remain applicable to sales covered by this order.

SEC. 5. *Posting of prices, records, and sales slips.* The provisions of sections (d) and (e) of Basic Order No. 1 covering posting, invoicing, records and sales slips, are adopted in and applicable to this order as if specifically set forth herein.

SEC. 6. *Amendment.* This order may be revised, amended, revoked, or modified at any time by the Office of Price Administration.

This order shall become effective September 3d, 1946.

Issued this 28th day of August 1946.

DAVID J. WILLIAMS,  
Assistant to the  
Regional Administrator.

SCHEDULE A-1

In Schedule A-1 these prices apply to all retail type sales and deliveries by yards located in New York, Bronx, Queens, Kings, Richmond, Westchester, Rockland, Orange, Putnam, and Dutchess, regardless of the place to which delivery is made. Size of sale is based on the total of all softwood lumber and hardwood flooring sold in one sale.

BOARDS—SHORTLEAF YELLOW PINE

*Opinion Accompanying Adopting Order 1 Under Basic Order 1 Under Rev. Gen. Order 65*

Pursuant to the provisions of Revised General Order No. 65 as amended, Regional Administrators and District Directors authorized to do so, may issue and put into effect, orders establishing maximum prices applicable to particular communities or defined areas for sales of lumber products for which maximum prices are established under Second Revised Maximum Price Regulation 215 out of distribution yard stock by any lumber distribution yard located in such area.

In accordance with this authority, the Regional Administrator of Region II has issued Basic Order No. 1 under Revised General Order 65, setting forth the general provisions which are to be common to all future area orders, such orders to be known as adopting orders. The provisions of the basic order are expressly adopted by such adopting orders.

The accompanying adopting order covers prices of Southern Shortleaf Yellow Pine lumber on retail type sales out of distribution yard stock by lumber distribution yards located in the New York District area. This order supersedes maximum prices or pricing methods previously established by Second Revised Maximum Price Regulation 215, or any other applicable regulation.

The prices fixed by the accompanying order are a translation into dollars and cents of existing maximum prices and are in line with the level of prices in effect under Second Revised Maximum Price Regulation 215. The variation in prices fixed by the 3 schedules attached to the accompanying order is due to differences in freight rates.

The record-keeping, posting and invoicing provisions of Basic Order No. 1, which are adopted by the accompanying adopting order are specifically authorized by section 1 (c) of Revised General Order 65 and are affirmatively found to be necessary to prevent evasion of this order.

[Region III Order G-38 Under RMPR 251]

**RE-ROOFING AND RE-SIDING IN HUNTINGTON, W. VA., AREA**

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, and pursuant to the provisions of Regional Basic Order No. 1-B under Revised Maximum Price Regulation No. 251, this order is issued:

**SECTION 1. What this order does.** This adopting order establishes dollars-and-cents maximum prices for the composition roofing and siding materials and asbestos-cement siding materials specified in section 4, hereof, when sold installed on residential structures in the Huntington, West Virginia Area.

**SEC. 2. Area covered.** For the purposes of this order, the "Huntington, West Virginia Area" consists of the Counties of Cabell and Wayne in the State of West Virginia.

**SEC. 3. Applicability of Basic Order No. 1-B.** All the provisions of Basic Order No. 1-B, consistent with this Adopting Order, No. G-38, are hereby adopted by, and incorporated by reference into, this order and are just as much a part of this order as though fully re-written herein. If Basic Order No. 1-B is amended in any respect, all of the provisions of that order, as amended, shall likewise, without other action, be a part of this order. All persons subject to this adopting order are also subject to, and should read and be familiar with, the provisions of Basic Order No. 1-B.

**SEC. 4. Maximum prices.** The maximum prices for the specified re-roofing material on an installed basis shall be as follows:

TABLE I

12 in. (3 in line) strip shingles, 210 lbs. per square.....	\$12.85
Metal dormer, flashing, per lin. ft.....	.25
Metal valley flashing, per lin. ft.....	.30
Flashing around single chimney, per chimney .....	6.50
Flashing around double chimney, per double chimney.....	10.00

The above maximum prices include related materials and services as defined in section 11 of Basic Order No. 1-B.

The maximum prices for the specified re-siding materials on an installed basis, shall be as follows:

TABLE II

Asbestos-cement siding, standard surface hardness, standard colors, 12 in. x 24 in. or 12 in. x 27 in.....	\$21.85
Insulated brick siding, 14% in. x 43% in. or 14 in. x 43 in.....	27.95

The above prices include all related materials and services as defined in section 11 of Basic Order No. 1-B under Revised Maximum Price Regulation No. 251, facing sill, city permit, and removal of rubbish.

This Order No. G-38 shall become effective September 18, 1946.

Issued: September 4, 1946.

H. G. BOGART,  
Acting Regional Administrator.

*Opinion Accompanying Order G-38 Under Section 9 of Rev. MPR 251*

The accompanying order establishes area-wide prices for sales of certain specified re-roofing and re-siding on an installed basis in the Huntington, West Virginia, Area. The order is issued under the provisions of section 9 of Revised Maximum Price Regulation No. 251 and adopts all the applicable provisions contained in Basic Order No. 1-B under Revised Maximum Price Regulation No. 251. The Opinion accompanying said Basic Order No. 1-B is hereby incorporated by reference into this opinion.

The defined area covered by the accompanying order includes Cabell and Wayne Counties in the State of West Virginia. The accompanying order supersedes the pricing provisions currently

in effect for sales of the specified installed re-roofing and re-siding in this area.

This action has been discussed with members of the trade in the area at informal meetings with representative dealers. Most of the dealers in attendance agreed that prices established by the accompanying order are in line with those formerly prevailing under the freeze. All suggestions and recommendations of the trade have been considered and have been incorporated into the accompanying order to the extent that these suggestions were consistent with the provisions of Revised Maximum Price Regulation No. 251 and the Emergency Price Control Act of 1942.

In the opinion of the Regional Administrator, the provisions of the accompanying order are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of Revised Maximum Price Regulation No. 251, as amended.

[Newark Adopting Order 8 Under Basic Order 1, Under Rev. Gen. Order 65]

**SOUTHERN SHORLEAF YELLOW PINE LUMBER IN NEW JERSEY AREA**

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of Region II, by the Emergency Price Control Act of 1942, as amended, by Revised General Order No. 65, and by Revised Procedural Regulation No. 1, which authority has been duly delegated by such Regional Administrator to the District Director of the Newark District Office, it is hereby ordered:

**SECTION 1. What this order covers.** This adopting order under Basic Order No. 1, as amended, is further amended in General Order No. 65, covers retail type sales of Southern Shortleaf Yellow Pine lumber out of distribution yard stock by lumber distribution yards located in the State of New Jersey. All provisions of Basic Order No. 1, as amended, under Revised General Order No. 65, are adopted in this order as if specifically set forth herein. If said Basic Order No. 1, as amended, is further amended in any respect, the provisions of said order, as amended, shall likewise without further action, become part of this order. All persons subject to this adopting order are also subject to Basic Order No. 1, as amended, under Revised General Order No. 65, and should be familiar with the provisions of said order.

**SEC. 2. Territory covered by this order.** The geographical area covered by this order is the entire State of New Jersey.

**SEC. 3. Maximum prices.** The maximum prices for Southern Shortleaf Yellow Pine lumber in the area covered by this order, as described in section 2 above, are set forth in Schedules A-6 and A-7, hereto annexed and made a part of this order. Schedule A-6 fixes maximum prices for sales by lumber distri-

bution yards located in the Counties of Atlantic, Burlington, Camden, Cumberland, Essex, Gloucester, Hunterdon, Mercer, Middlesex, Monmouth, Ocean, Salem, Somerset, and Union, all in the State of New Jersey. Schedule A-7 fixes maximum prices for sales by lumber distribution yards located in the Counties of Bergen, Cape May, Hudson, Morris, Passaic, Sussex, and Warren, all in the State of New Jersey.

**Sec. 4. Relationship of this order to Basic Order No. 1, as amended, Under Revised General Order No. 65, Second Revised Maximum Price Regulation 215, and other maximum price regulations.**

These prices apply to all retail type sales and deliveries by yards located in the Counties of Atlantic, Burlington, Camden, Cumberland, Essex, Gloucester, Hunterdon, Mercer, Middlesex, Monmouth, Ocean, Salem, Somerset, and Union, all in the State of New Jersey, regardless of the place to which delivery is made. Size of sale is based on total of all softwood lumber and hardwood flooring sold in one sale.

As previously stated, all provisions of Basic Order No. 1, as amended, are adopted by this order. The maximum prices fixed by this order supersede any maximum price or pricing method previously established by Second Revised Maximum Price Regulation 215, or any other applicable regulation or order. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of Second Revised Maximum Price Regulation 215 or any other applicable regulation or order, shall remain applicable to sales covered by this order.

**Sec. 5. Posting of prices, records, and**

*sales slips.* The provisions of sections (d), (e), (f) and (g) of Basic Order No. 1, as amended, covering posting, invoicing, records and sales slips, are adopted in and applicable to this order as if specifically set forth herein.

**Sec. 6. Amendment.** This order may be revised, amended, revoked, or modified at any time by the Office of Price Administration.

This order shall become effective October 10th, 1946.

Issued this 1st day of October 1946.

R. J. TARRANT,  
District Director.

Opinion Accompanying Adopting Order 8 Under Basic Order 1, Under Rev. Gen. Order 65

Pursuant to the provisions of General Order No. 65 as amended, Regional Administrators and District Directors authorized to do so, may issue and put into effect, orders establishing maximum prices applicable to particular communities or defined areas for sales of lumber products for which maximum prices are established under Second Revised Maximum Price Regulation 215 out of distribution yard stock by any lumber distribution yard located in such area.

In accordance with this authority, the Regional Administrator of Region II has issued Basic Order No. 1, as amended, under Revised General Order 65, setting forth the general provisions which are to be common to all future area orders, such orders to be known as adopting orders. The provisions of the Basic Order are expressly adopted by such adopting orders.

The accompanying adopting order covers prices of Southern Shortleaf Yellow Pine Lumber on retail type sales out of distribution yard stock by lumber distribution yards located in the State of New Jersey. This order supersedes maximum prices or pricing methods previously established by Second Revised Maximum Price Regulation 215, or any other applicable regulation.

The prices fixed by the accompanying order are a translation into dollars-and-cents of existing maximum prices and are in line with the level of prices in effect under Second Revised Maximum Price Regulation 215. The provisions of the accompanying order are in conformance with section 2 (t) of the Emergency Price Control Act of 1942, as amended.

The record-keeping, posting and invoicing provisions of Basic Order No. 1, as amended, which are adopted by the accompanying Adopting Order are specifically authorized by section 1 (c) of Revised General Order 65 and are affirmatively found to be necessary to prevent evasion of this order.

[Region III, Order G-41 Under RMPR 251]

RE-ROOFING IN SAGINAW, MICH., AREA

For the reasons set forth in an accompanying opinion which has been filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, and pursuant to the provisions of Regional Basic Order No. 1-B under Revised Maximum Price Regulation No. 251, this order is issued:

SECTION 1. *What this order does.* This adopting order establishes dollars-and-cents maximum prices for the composition roofing materials specified in section 4, hereof, when sold installed on residential structures in the Saginaw, Michigan Area.

SEC. 2. *Area covered.* For the purposes of this order, the "Saginaw, Michigan Area" consists of the Counties of Alcona, Alpena, Arenac, Bay, Cheboygan, Clare, Crawford, Genesee, Gladwin, Gratiot, Huron, Iosco, Isabella, Lapeer, Midland, Montmorency, Ogemaw, Oscoda, Otsego, Presque Isle, Roscommon, Saginaw, Shiawassee, Sanilac, and Tuscola in the State of Michigan.

SEC. 3. *Applicability of Basic Order No. 1-B.* All the provisions of Basic Order No. 1-B, consistent with this Adopting Order, No. G-41, are hereby adopted by, and incorporated by reference into, this order and are just as much a part of this order as though fully re-written herein. If Basic Order No. 1-B is amended in any respect, all of the provisions of that order, as amended, shall likewise, without other action, be a part of this order. All persons subject to this adopting order are also subject to, and should read and be familiar with, the provisions of Basic Order No. 1-B.

SEC. 4. *Maximum prices.* (a) The maximum prices for the specified re-roofing materials on an installed basis shall be as follows:

Type of roofing	Maximum price per square

(b) The above prices include related materials and services as defined in section 11 of Basic Order No. 1-B under Revised Maximum Price Regulation No. 251.

(c) In addition to the maximum prices listed above, sellers covered hereby may charge the following amounts for extra work when actually performed:

(i) When less than five squares of roofing materials are installed, an amount not exceeding \$0.75 per square may be added.

(ii) If the pitch of the roof upon which the roofing is applied rises two feet or more per three feet of horizontal measurement, an amount not exceeding \$0.75 per square may be added.

(iii) When the job site is located more than ten miles from the seller's place of business, by the most direct route, an amount not exceeding \$0.10 per square may be added for each mile, or fraction thereof, by which the job site is located beyond the ten mile zone, provided however, that such extra charges shall not exceed \$1.00 per square.

Sec. 5. *Effective date.* This Order No. G-41 shall become effective September 4, 1946.

Issued: August 21, 1946.

JOHN F. KESSEL,  
Regional Administrator.

*Opinion Accompanying Order G-41 Under Section 9 of Rev. MPR 251*

The accompanying order establishes area-wide prices for sales of installed re-roofing in the Saginaw, Michigan Area. The order is issued under the provisions of section 9 of Revised Maximum Price Regulation No. 251 and adopts all the applicable provisions contained in Basic Order No. 1-B under Revised Maximum Price Regulation No. 251. The opinion accompanying said Basic Order No. 1-B is hereby incorporated by reference into this opinion.

The defined area covered by the accompanying order includes the Counties of Alcona, Alpena, Arenac, Bay, Cheboygan, Clare, Crawford, Genesee, Gladwin, Gratiot, Huron, Iosco, Isabella, Lapeer, Midland, Montmorency, Ogemaw, Oscoda, Otsego, Presque Isle, Roscommon, Saginaw, Shiawassee, Sanilac and Tuscola in the State of Michigan.

The maximum prices established by the accompanying order supersede the pricing provisions currently in effect for sales of the specified installed re-roofing in this area. Basic Order No. 1-B contains provisions concerning construction work which is incidental and/or preparatory to such re-roofing installation.

This action has been discussed with members of the trade in the area at informal meetings with representative dealers. Most of the dealers in attendance agreed that prices established by the accompanying order are in line with those formerly prevailing under Revised Maximum Price Regulation No. 251. All suggestions and recommendations of the trade have been considered and have been incorporated into the accompanying order to the extent that these suggestions were consistent with the provisions of Revised Maximum Price Regulation No. 251 and the Emergency Price Control Act of 1942.

In the opinion of the Regional Administrator, the provisions of the accompanying order are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of Revised Maximum Price Regulation No. 251, as amended.

[Region III. Order G-8 Under RMPR 122, Amdt. 3]

**SOLID FUELS IN LOUISVILLE, KY., AREA**

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122; *It is hereby ordered:*

Sub-Parts A and B of Part I of Schedule I of paragraph (e) (1) of Revised Or-

der No. G-8 under Revised Maximum Price Regulation No. 122 be, and the same are, hereby amended to read as follows:

Column I	Column II	Column III

This amendment shall become effective September 27, 1946.

Issued September 27, 1946.

E. C. TURNEY,  
Acting Regional Administrator.

*Opinion Accompanying Amdt. 3 to Rev. Order G-8 Under Revised Maximum Price Regulation 122*

At the time of issuance of Revised Order No. G-8 under Revised Maximum Price Regulation No. 122, dealers in the area covered thereby were not receiving any Mine Price Classification A coal from Producing District No. 8. At the present time, however, due to the shortage of coal from Producing District No. 8, Classification A coal is being received in the area.

This classification of coal is not presently included in the Pricing Schedule of Revised Order No. G-8 and the accompanying amendment, therefore, places these coals under the coverage of said order. The prices are determined by

adding to the dealers costs, the same margin as was used in determining maximum prices for coals of Mine Price Classifications E and F in the corresponding sizes.

It is the opinion of the Regional Administrator that the provisions of the accompanying amendment are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

[Region III Rev. Order G-13 Under RMPR 122, Amdt. 2]

**SOLID FUELS IN TOLEDO, OHIO, AREA**

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, *It is hereby ordered,* that Revised Order No. G-13 under Revised Maximum Price Regulation No. 122 be, and the same is, hereby amended in the following respects:

Part (3) of Part V of Schedule I of Paragraph (e) (1) is amended to read as follows:

(3) *Schedule of service charges.* This schedule sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales of solid fuels. These charges may be made only if the buyer requests such services of the dealer and only when the dealer renders the service. Every service charge shall be separately stated in the dealer's invoice.

	Per ton

Additional charge for any coal listed in part III of the price schedule set forth in par. (c), low volatile bituminous coal from producing district No. 7 (Pocahontas) when such coal is forked.....	1.25

This order may be modified, amended or revoked at any time by the Office of Price Administration.

This amendment shall become effective September 23, 1946.

Issued September 23, 1946.

E. C. TURNEY,  
Acting Regional Administrator.

*Opinion Accompanying Amdt. 2 to Revised Order G-13 Under Revised Maximum Price Regulation 122*

As a result of a new labor contract entered into by the coal dealers in the area affected by the accompanying order, which contract became effective August 1, 1946 and which was approved by the Wage Stabilization Board, the coal dealers in the area have applied for an adjustment of the service charges contained in said order.

Pursuant to this application an investigation was conducted by the Office of Price Administration as a result of which it has been determined to the satisfac-

tion of the Regional Administrator that the maximum service charges requested by the dealers do not exceed the cost of rendering this service by them. Accordingly, it is determined that the request should be granted in full and the accompanying order accomplishes that purpose.

It is the opinion of the Regional Administrator that the provisions of the accompanying Amendment are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

[Region III, Order G-15 Under RMPR 251]

#### RE-ROOFING IN DETROIT, MICH., AREA

For the reasons set forth in an accompanying opinion which has been filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, and pursuant to the provisions of Regional Basic Order No. 1-B under Revised Maximum Price Regulation No. 251, this order is issued:

**SECTION 1. What this order does.** This adopting order establishes dollars-and-cents maximum prices for the composition roofing materials specified in section 4, hereof, when sold installed on residential structures in the Detroit, Michigan Area.

**SEC. 2. Area covered.** For the purposes of this order, the "Detroit, Michigan Area" consists of the Counties of Clinton, Eaton, Hillsdale, Ingham, Jackson, Lenawee, Livingston, Macomb, Monroe, Oakland, St. Clair, Washtenaw and Wayne in the State of Michigan.

**SEC. 3. Applicability of Basic Order No. 1-B.** All the provisions of Basic Order No. 1-B, consistent with this Adopting Order, No. G-15, are hereby adopted by, and incorporated by reference into, this order and are just as much a part of this order as though fully re-written herein. If Basic Order No. 1-B is amended in any respect, all of the provisions of that order, as amended, shall likewise, without other action, be a part of this order. All persons subject to this adopting order are also subject to, and should read and be familiar with, the provisions of Basic Order No. 1-B.

**SEC. 4. Maximum prices.** (a) The maximum prices for the specified re-roofing materials on an installed basis shall be as follows:

TABLE I

12 in. (3 in line) asphalt strip shingles, 210 lbs. per sq.	\$12.10
11½ in. hexagon strip, 167 lbs. per sq.	11.00
Re-roofer type shingles, 138-140 lbs. per sq.	11.65
Re-roofer type shingles, 160-162 lbs. per sq.	12.00
Roll-roofing (mineral surface), 90 lbs. per sq.	8.15

(b) The above prices include related materials and services as defined in sec-

tion 11 of Basic Order No. 1-B under Revised Maximum Price Regulation No. 251.

(c) Extra charges for the following items shall be computed under the provisions of Revised Maximum Price Regulation No. 251:

- (1) Installing roofing on false cornices.
- (2) Installing roofing on roofs of more than half pitch.

**SEC. 5. Effective date.** This Order No. G-15 shall become effective July 12, 1946.

Reissued: August 21, 1946.

Effective: September 4, 1946.

J. F. KESSEL,  
Regional Administrator.

#### Opinion Accompanying Order G-15 Under Section 9 of Rev. MPR 251

The accompanying order establishes area-wide prices for sales of installed re-roofing in the Detroit, Michigan Area. The order is issued under the provisions of section 9 of Revised Maximum Price Regulation No. 251 and adopts all the applicable provisions contained in Basic Order No. 1-B under Revised Maximum Price Regulation No. 251. The opinion accompanying said Basic Order No. 1-B is hereby incorporated by reference into this opinion.

The defined area covered by the accompanying order includes the Counties of Clinton, Eaton, Hillsdale, Ingham, Jackson, Lenawee, Livingston, Macomb, Monroe, Oakland, St. Clair, Washtenaw, and Wayne in the State of Michigan.

The maximum prices established by the accompanying order supersede the pricing provisions currently in effect for sales of the specified installed re-roofing in this area. Basic Order No. 1-B contains provisions concerning construction work which is incidental and/or preparatory to such re-roofing installation.

This action has been discussed with members of the trade in the area at informal meetings with representative dealers. Most of the dealers in attendance agreed that prices established by the accompanying order are in line with those formerly prevailing under Revised Maximum Price Regulation No. 251. All suggestions and recommendations of the trade have been considered and have been incorporated into the accompanying order to the extent that these suggestions were consistent with the provisions of Revised Maximum Price Regulation No. 251 and the Emergency Price Control Act of 1942.

In the opinion of the Regional Administrator, the provisions of the accompanying order are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of Revised Maximum Price Regulation No. 251, as amended.

The original effective date of this order was at a time subsequent to the expiration of the Emergency Price Control Act of 1942 and before the act had been extended. For the sake of clarity the Regional Administrator has deemed it advisable to reissue this order with a new effective date.

[Region III Order G-42 Under RMPR 251]

#### RE-ROOFING AND RE-SIDING IN MAYSVILLE, KY., AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, and pursuant to the provisions of Regional Basic Order No. 1-B under Revised Maximum Price Regulation No. 251, this order is issued:

**SECTION 1. What this order does.** This adopting order establishes dollars-and-cents maximum prices for the composition roofing and siding materials and asbestos-cement siding materials specified in section 4, hereof, when sold installed on residential structures in the Maysville, Kentucky, Area.

**SEC. 2. Area covered.** For the purposes of this order, the "Maysville, Kentucky, Area" consists of the Counties of Bath, Bracken, Fleming, Lewis, Mason, Menifee, Montgomery, Morgan, Nicholas, Robertson, and Rowan, in the State of Kentucky.

**SEC. 3. Applicability of Basic Order No. 1-B.** All the provisions of Basic Order No. 1-B, consistent with this Adopting Order, No. G-42, are hereby adopted by, and incorporated by reference into, this order and are just as much a part of this order as though fully rewritten herein. If Basic Order No. 1-B is amended in any respect, all of the provisions of that order, as amended, shall likewise, without other action, be a part of this order. All persons subject to this adopting order are also subject to, and should read and be familiar with, the provisions of Basic Order No. 1-B.

**SEC. 4. Maximum prices.** (a) The maximum prices for the specified re-roofing material on an installed basis shall be as follows:

TABLE I

	Per sq.
12 in. (3 in line) strip shingles (210 lbs. per square)	\$10.85
11½ in. hexagon strip shingles (167 lbs. per square)	9.05
Roll roofing, mineral surface (90 lbs. per square)	6.50

If the premises being re-roofed are located within the Maysville, Kentucky, area, but in a county other than that in which the seller's place of business is located, the seller may charge not more than \$1 per square in addition to the applicable price listed in table I, above.

If the re-roofing is applied on a tin roof, the seller may charge not more than \$2 in addition to the applicable price listed in table I, above.

The above maximum prices include related materials and services as defined in section 11 of Basic Order No. 1-B.

(b) The maximum prices for the specified re-siding materials on an installed basis, shall be as follows:

TABLE II

	Per sq.
Asbestos-cement siding, standard surface hardness, standard colors, 12 in. x 24 in. or 12 in. x 27 in.-----	\$22.35
Insulated brick siding, 14 3/8 in. x 43 3/8 in. or 14 in. x 43 in.-----	24.44
Composition siding, roll brick-----	16.21

If the premises upon which the re-siding is being performed are located within the Maysville, Kentucky, area, but in a county other than that in which the seller's place of business is located, the seller may charge not more than \$1.50 per square in addition to the applicable maximum price listed in table II, above.

The above prices include related materials and services as defined in section 11 of Basic Order No. 1-B under Revised Maximum Price Regulation No. 251, facing sill, city permit, and removal of rubbish.

This Order No. G-42 shall become effective September 10, 1946.

Issued: August 27, 1946.

J. F. KESSEL,  
Regional Administrator.

*Opinion Accompanying Order G-42 Under Section 9 of Rev. MPR 251*

The accompanying order establishes area-wide prices for sales of certain specified re-roofing and re-siding on an installed basis in the Maysville, Kentucky Area. The order is issued under the provisions of section 9 of Revised Maximum Price Regulation No. 251 and adopts all the applicable provisions contained in Basic Order No. 1-B under Revised Maximum Price Regulation No. 251. The opinion accompanying said Basic Order No. 1-B is hereby incorporated by reference into this opinion.

The defined area covered by the accompanying order includes the Counties of Bath, Bracken, Fleming, Lewis, Mason, Menifee, Montgomery, Morgan, Nicholas, Robertson, and Rowan, in the State of Kentucky. The accompanying order supersedes the pricing provisions currently in effect for sales of the specified installed re-roofing and re-siding in this area.

This action has been discussed with members of the trade in the Area at informal meetings with representative dealers. Most of the dealers in attendance agreed that prices established by the accompanying order are in line with those formerly prevailing under the freeze. All suggestions and recommendations of the trade have been considered and have been incorporated into the accompanying order to the extent that these suggestions were consistent with the provisions of Revised Maximum Price Regulation No. 251 and the Emergency Price Control Act of 1942.

In the opinion of the Regional Administrator, the provisions of the accompanying order are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of Revised Maximum Price Regulation No. 251, as amended.

[Region III, Order G-52 Under MPR 251]

**RE-SIDING IN FAIRMONT, W. VA., AREA**

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and under the authority vested in the Administrator of Region III of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, and pursuant to the provisions of Regional Basic Order No. 1-B under Revised Maximum Price Regulation No. 251, this order is issued:

**SECTION 1. What this order does.** This adopting order establishes dollars-and-cents maximum prices for the composition siding materials specified in section 4, hereof, when sold installed on residential structures in the Fairmont, West Virginia Area.

**SEC. 2. Area covered.** For the purposes of this order, the "Fairmont, West Virginia Area" consists of the Counties of Marion, Monongalia, and Preston in the State of West Virginia.

**SEC. 3. Applicability of Basic Order No. 1-B.** All the provisions of Basic Order No. 1-B, consistent with this Adopting Order No. G-52 are hereby adopted by, and incorporated by reference into, this order and are just as much a part of this order as though fully rewritten herein. If Basic Order No. 1-B is amended in any respect, all of the provisions of that order, as amended, shall likewise, without other action, be a part of this order. All persons subject to this adopting order are also subject to, and should read and be familiar with, the provisions of Basic Order No. 1-B.

**SEC. 4. Maximum prices.** The maximum prices for the specified re-siding material on an installed basis shall be as follows:

	Per sq.
Insulated brick or insulated stone siding, 14 3/8 in. x 43 3/8 in., 13 3/8 in. x 43 3/8 in. or 14 in. x 43 in.-----	\$27.44

The above maximum price includes related materials and services as the term is defined in section 11 of Basic Order No. 1-B under section 9 of Revised Maximum Price Regulation No. 251.

**SEC. 5. Effective date.** This Order No. G-52 shall become effective September 18, 1946.

Issued: September 4, 1946.

H. G. BOGART,  
Acting Regional Administrator.

*Opinion Accompanying Order G-52 Under Section 9 of Rev. MPR 251*

The accompanying order establishes area-wide prices for sales of installed re-siding in the Fairmont, West Virginia Area. The order is issued under the provisions of Section 9 of Revised Maximum Price Regulation No. 251 and adopts all the applicable provisions contained in Basic Order No. 1-B under Revised Maximum Price Regulation No. 251. The opinion accompanying said Basic Order No. 1-B is hereby incorporated by reference into this opinion.

The defined area covered by the ac-

companying order includes the Counties of Marion, Monongalia, and Preston in the State of West Virginia.

The maximum prices established by the accompanying order supersede the pricing provisions currently in effect for sales of the specified installed re-siding in this area. Basic Order No. 1-B contains provisions concerning construction work which is incidental and/or preparatory to such re-siding installation.

This action has been discussed with members of the trade in the area at informal meetings with representative dealers. Most of the dealers in attendance agreed that prices established by the accompanying order are in line with those formerly prevailing under Revised Maximum Price Regulation No. 251. All suggestions and recommendations of the trade have been considered and have been incorporated into the accompanying order to the extent that these suggestions were consistent with the provisions of Revised Maximum Price Regulation No. 251 and the Emergency Price Control Act of 1942.

In the opinion of the Regional Administrator, the provisions of the accompanying order are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of Revised Maximum Price Regulation No. 251, as amended.

Opinion Accompanying Order G-53 Under Section 9 of Rev. MPR 251

The accompanying order establishes area-wide prices for sales of certain specified re-roofing and re-siding on an installed basis in the Somerset, Kentucky, Area. The order is issued under the provisions of section 9 of Revised Maximum Price Regulation No. 251 and adopts all the applicable provisions contained in Basic Order No. 1-B under Revised Maximum Price Regulation No. 251. The opinion accompanying said Basic Order No. 1-B is hereby incorporated by reference into this opinion.

The defined area covered by the accompanying order includes the counties of Clay, Clinton, Casey, Laurel, Rockcastle, Lincoln, Russell, Wayne, McCreary, Pulaski, and Whitley in the State of Kentucky. The accompanying order supersedes the pricing provisions currently in effect for sales of the specified installed re-roofing and re-siding in this area.

This action has been discussed with members of the trade in the area at informal meetings with representative dealers. Most of the dealers in attendance agreed that prices established by the accompanying order are in line with those formerly prevailing under the freeze. All suggestions and recommendations of the trade have been considered and have been incorporated into the accompanying order to the extent that these suggestions were consistent with the provisions of Revised Maximum Price Regulation No. 251 and the Emergency Price Control Act of 1942.

In the opinion of the Regional Administrator, the provisions of the accompanying order are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of Revised Maximum Price Regulation No. 251, as amended.
