By virtue of and pursuant to the authority vested in me by section 1 of the act of March 14, 1940, 54 Stat. 49, as amended by the act of June 16, 1948, 62 Stat. 471 (38 U. S. EXECUTIVE ORDER 10071

CREATING AN EMERGENCY ORDER TO INVESTIGATE A DISPUTE BETWEEN THE SOUTHERN PACIFIC COMPANY (PACIFIC LINES) AND CERTAIN OF ITS EMPLOYEES

WHEREAS a dispute exists between the Southern Pacific Company (Pacific Lines), a carrier, and certain of its employees represented by the Brotherhood of Railroad Trainmen, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive a large section of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate the said dispute. No member of the said board shall be pecuniarily or otherwise interested in any organization of railway employees or any carrier.

The board shall report its findings to the President with respect to the said dispute within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by the Southern Pacific Company (Pacific Lines) or its employees in the conditions out of which the said dispute arose.

§ 621.106 *Approved storage.* Approved storage for grain sorghums shall meet the following requirements:

(a) Under the loan program approved farm-storage shall consist of storage structures located on the farm, or off the farm provided no warehouse receipt is outstanding, which, as determined by the county committee, are of such substantial and permanent construction as to afford safe storage of grain sorghums.

(b) Under the loan and purchase agreement programs, approved warehouse storage shall consist of (1) public grain warehouses for which a Uniform Grain Storage Agreement (CCC Form H, Revised), in effect for the 1949 crop, has been executed; or (2) warehouses operated by eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect for the program year. TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

Subchapter B—Immigration Regulations

PART 110—PRIMARY INSPECTION AND DETENTION

PART 150—ARREST AND DEPORTATION

EXCHANGE VISITORS; CHANGE OF STATUS AND DEPORTATION

JUNE 6, 1949.

The following amendments to Chapter I, Title 8 of the Code of Federal Regulation, are hereby prescribed:

1. Section 110.31, *Officials, traders, visitors; change of status, conditions,* is amended by adding thereto the following sentence: "In the case of any alien admitted to the United States under section 201 of the United States Information and Educational Exchange Act of 1948 (62 Stat. 7; Public Law 402, 80th Congress), a change in the status under which the alien was admitted shall not be authorized."

2. Paragraph (g), *Application for suspension of deportation, for departure in lieu of deportation, or for preexamination,* of § 150.6, is hereby amended by adding the following sentence: "No alien admitted to the United States under section 201 of the United States Information and Educational Exchange Act of 1948 (62 Stat. 7; Public Law 402, 80th Congress) may apply for suspension of deportation."

3. Paragraph (b), *Eligibility,* of § 150.10, is amended by deleting the word "and" at the end of subdivision (v) of subparagraph (1) and inserting in its place the word "or", and by adding subdivision (vi) as follows:

(vi) Section 201 of the United States Information and Educational Exchange Act of 1948; and

This order shall become effective on the effective date of two joint orders of the Secretary of State and the Attorney General entitled, respectively, "Exchange Visitors; Visas" and "Exchange Visitors; Period and Conditions of Admission."[1] Those orders, to which section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) is inapplicable because they involve foreign-affairs functions, become effective on the date of their publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act with respect to proposed rule making and delayed effective date is impracticable in this instance because the regulations prescribed by this order are so related to the regulations prescribed by the said orders of the Secretary of State and the Attorney General that all such regulations should become effective at the same time.

(Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 201, Pub. Law 402, 80th Cong., 62 Stat. 7; 8 U. S. C. 102, 222, 458 (a), 22 U. S. C. 1446)

PART 119—VISITORS

EXCHANGE VISITORS; PERIOD AND CONDITIONS OF ADMISSION

Part 119, Chapter I, Title 8 of the Code of Federal Regulations, is hereby amended by adding a new section as follows:

§ 119.8 *Exchange visitors; special provisions.* The case of any alien who presents a visitors visa which by its own terms shows issuance pursuant to section 201 of the United States Information and Educational Exchange Act of 1948 (62 Stat. 7; 22 U. S. C. 1446; Public Law 402, 80th Congress) shall be handled in accordance with all of the provisions of this part with the following exceptions:

(a) No bond shall be required in connection with admission or extension of stay.

(b) The period of admission shall be for whatever period, not to exceed one year, is indicated in a written agreement, commitment, guarantee, or similar paper made by the alien's approved sponsor or intended employer and presented by the alien at the port where he applies for admission.

(c) An alien admitted under the provisions of section 201 of the United States Information and Educational Exchange Act of 1948 may accept remunerative

[1] See Title 22, Chapter I, Part 42, and Part 119 of this chapter, *infra*, respectively.

employment in the United States consistent with the purposes of such act.

(d) Any application for extension of stay shall be supported by satisfactory written evidence from the alien's approved sponsor or employer, showing the time and terms of the continuation of the status under which the alien was admitted. Any application for extension of stay or any other application submitted by the alien shall be referred by the receiving field office of the Immigration and Naturalization Service with a report and recommendation to the Commissioner of Immigration and Naturalization for decision.

This order shall become effective upon publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date is unnecessary because the regulations contained in this order involve foreign-affairs functions of the United States.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter A—Meat Inspection Regulations

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of Agriculture by the Meat Inspection Act, as amended (21 U. S. C. 71–91), the so-called Horse Meat Act (21 U. S. C. 96), and section 306 of the Tariff Act of 1930 (19 U. S. C. 1306) and after public notice (14 F. R. 2950) and due consideration of all relevant material presented pursuant thereto, the meat inspection regulations (9 CFR, Chapter I, Subchapter A, as amended) are hereby amended as follows:

PART 4—APPLICATIONS FOR INSPECTION OR EXEMPTION: RETAIL BUTCHERS, RETAIL DEALERS, AND FARMERS

Section 4.3 (a) is amended to read as follows:

§ 4.3 *Exemption.* (a) Retail butchers and retail dealers in product, supplying their customers as provided in the Meat Inspection Act, upon making application, pursuant to § 4.1, may be exempted from inspection. To each one so exempted a numbered certificate of exemption shall be furnished. No certificate of exemption shall be issued unless all the premises on which the products are prepared and handled are maintained in a sanitary condition. Failure by certificate holders to maintain sanitary conditions or to conform to such of the regulations in this subchapter as apply to them shall be cause for withdrawal of exemption and the cancellation of certificates. Such exempted establishments shall conform to the same regulations as govern official establishments to the extent that such regulations are applicable, including but not limited to those regulations regarding labeling, the use of dyes, chemicals, and preservatives, and the prescribed treatment of pork to destroy trichinae as required under Part 18 of this subchapter.

PART 17—LABELING

1. Section 17.2 (b) is amended to read as follows:

§ 17.2 *Labels, what to contain, when and how used.* * * *

(b) Labels shall contain, prominently and informatively displayed, (1) the true name of the product; (2) the word "ingredients" followed by a list of the ingredients when the product is fabricated from two or more ingredients, except in the case of products for which definitions and standards of identity have been prescribed under Part 28 of this subchapter; (3) the name and place of business of the manufacturer, packer, or person for whom the product is prepared; (4) an accurate statement of the quantity of contents; and (5) an inspection legend and the number of the establishment in the form shown herewith, on that portion of the label featuring the name of the product, or, when there are two or more panels, than on the principal display panels: *Provided,* That the name and place of business of the manufacturer, packer, or person for whom the product is prepared and the statement of quantity of contents may be omitted from labels for product not required to be labeled under § 17.1: *Provided further,* That the establishment number may be omitted from the labels on cartons used as outer containers of edible fats, such as lard and oleomargarine, when such articles are enclosed in wrappers which bear an inspection legend and establishment number; and from a label lithographed directly on a can bearing the embossed or lithographed establishment number: *And provided further,* That a metal container on which an inspection legend is embossed or lithographed may, with the approval of the chief of division, bear an inspection legend of different design and in abbreviated form.

2. Section 17.2 (d) is amended to read as follows:

(d) The establishment number shall be either embossed or lithographed on all sealed metal containers of inspected and passed product filled in an official establishment, except that such containers which bear labels lithographed directly on the can and in which the establishment number is incorporated need not have the establishment number embossed or lithographed thereon. Labels shall not be affixed to containers so as to obscure the embossed or lithographed establishment number.

3. Section 17.8 (c) (1) is amended to read as follows:

§ 17.8 *False or deceptive names; established trade names; false indication of origin or quality; use of names of countries, States, etc.; "farm," "country," etc., qualified by word "style"; labeling of lard, oleo oil, oleo stearin, etc.* * * *

(c) * * *

(1) Terms having geographical significance with reference to a locality other than that in which the product is prepared may appear on the label only when qualified by the word "style," "type," or "brand," as the case may be, in the same size and style of lettering as in the geographical term, and accompanied with a prominent qualifying statement identifying the country, State, Territory, or locality in which the product is prepared, using terms appropriate to effect the qualification. When the word "style" or "type" is used, there must be a recognized style or type of product identified with and peculiar to the locality represented by the geographical term and the product must possess the characteristics of such style or type, and the word "brand" shall not be used in such a way as to be false or deceptive. A geographical term which has come into general usage as a trade name and which has been approved by the chief of division as being a generic term may be used without the qualifications provided for in this paragraph. The terms "frankfurter," "vienna," "bologna," "lebanon bologna," "braunschweiger," "thuringer," "genoa," "leona," "berliner," "holstein," "goteborg," "milan," "polish," and their modifications, as applied to sausages, the terms "brunswick" and "irish" as applied to stews, and the term "boston" as applied to pork shoulder butts, need not be accompanied with the word "style," "type," or "brand" or a statement identifying the locality in which the product is prepared.

4. Section 17.8 (c) (6) is amended to read as follows:

(6) The word "fresh" shall not be used on labels to designate product which contains any sodium nitrate, sodium nitrite, potassium nitrate, or potassium nitrite, or which has been salted for preservation.

5. Section 17.8 (c) (29) is amended to read as follows:

(29) Product labeled "hash" shall contain not less than 35 percent of meat computed on the weight of the cooked

and trimmed meat. The weight of the cooked meat used in this calculation shall not exceed 70 percent of the uncooked weight of the fresh meat. Corned beef hash shall not be made with cereal, vegetable flour, dried skim milk, or similar substances. Beef cheek meat and beef head meat from which the overlying glandular and connective tissues have been removed, and beef heart meat, exclusive of the heart cap, may be used individually or collectively to the extent of 5 percent of the meat ingredient in the preparation of corned beef hash. When beef cheek meat, beef head meat, and beef heart meat are used in the preparation of this product, their presence shall be reflected in the statement of ingredients as required by this part.

6. Section 17.8 (c) (42) is amended to read as follows:

(42) Canned product labeled "Corned Beef" and canned product labeled "Roast Beef Parboiled and Steam Roasted" shall be prepared so that the weight of the finished product shall not exceed 70 percent by weight of the fresh beef, plus salt and flavoring material included in the product. Beef cheek meat and beef head meat from which the overlying glandular and connective tissues have been removed, and beef heart meat, exclusive of the heart cap may be used individually or collectively to the extent of 5 percent of the meat ingredient in the preparation of canned product labeled "Corned Beef" and canned product labeled "Roast Beef Parboiled and Steam Roasted". When beef cheek meat, beef head meat, and beef heart meat are used in the preparation of these products, their presence shall be reflected in the statement of ingredients as required by this part.

PART 18—REINSPECTION AND PREPARATION OF PRODUCTS

1. Section 18.7 (d) is amended by substituting a semicolon for the period at the end thereof and adding thereafter the word "or" and new subparagraphs designated as subparagraphs (9) and (10) respectively, reading as follows:

(10) Butylated hydroxyanisole (a mixture of 2-tertiarybutyl-4-hydroxyanisole and 3-tertiarybutyl-4-hydroxyanisole) and combinations of butylated hydroxyanisole with nordihydroguaiaretic acid or propyl gallate with or without the addition of citric acid or phosphoric acid, may be added as preservatives to animal fats and shortenings containing animal fats. The quantities used shall not exceed 2/100 of 1 percent of butylated hydroxyanisole, or 1/100 of 1 percent of nordihydroguaiaretic acid plus 2/100 of 1 percent of butylated hydroxyanisole, or 1/100 of 1 percent of propyl gallate plus 2/100 of 1 percent of butylated hydroxyanisole. Citric acid or phosphoric acid, not to exeeced 5/1000 of 1 percent may be added with butylated hydroxyanisole or with the combinations of butylated hydroxyanisole and nordihydroguaiaretic acid or propyl gallate.

2. Section 18.7 is further amended by adding thereto a new paragraph designated as 18.7 (p), reading as follows:

(p) Harmless bacterial starters of the acidophilus type may be used in the preparation of such kinds of sausage as thuringer, lebanon bologna, cervelat, salami and pork roll in an amount not to exceed 1/2 of 1 percent. When used, the harmless bacterial starter shall be included in the list of ingredients in the order of its predominance as required by Parts 16 and 17 of this subchapter.

PART 24—EXPORT STAMPS AND CERTIFICATES

Section 24.1 (a) is amended to read as follows:

§ 24.1 *Manner of affixing stamps and marking product for export.* (a) A numbered meat-inspection stamp shall be affixed to each outside container (except cloth wrappings) of any inspected and passed product for export except ship stores and small quantities exclusively for the personal use of the consignee and not for sale or distribution. So far as possible stamps shall be issued serially.

PART 27—IMPORTED PRODUCTS

Section 27.16 (c) (1) is amended to read as follows:

§ 27.16 *Marking and labeling of product U. S. inspected and passed for importation; application of inspection legend.* * * *

(c) * * *

(1) All outside containers of product which have been inspected and passed in compliance with this part shall be marked by the inspector, or under his supervision, "U. S. inspected and passed by Department of Agriculture," or authorized abbreviation thereof and with the name or abbreviation of the name of the official station having jurisdiction over the inspection. The 2 1/2 inch circular rubber import meat brand bearing an authorized abbreviation of the inspection legend and the abbreviated name of the official station shall be used for marking shipping containers of product which conforms to the requirements of this part.

Effective date. The foregoing amendments shall be effective 30 days after the date of their publication in the FEDERAL REGISTER.

The purpose of the foregoing amendments is to bring into the regulations, orders and instructions that have been given to the field operating force of the Meat Inspection Division and inspected establishments during the past year, and to incorporate new material controlling the composition of certain meat food products along lines which have been thoroughly investigated by that Division.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Departmental Reg. 108.92]

PART 42—VISAS: DOCUMENTATION OF ALIENS ENTERING THE UNITED STATES

EXCHANGE VISITORS; VISAS

The following amendments to Part 42, Chapter I, Title 22, of the Code of Federal Regulations, are hereby prescribed:

1. Paragraph (d) of § 42.134, *Temporary visitors,* is amended to read as follows:

(d) The term "business" is construed as including not only intercourse of a commercial character but also any other legitimate activity of a temporary nature classifiable within the ordinary meaning of the term "business", but not classifiable as pleasure or labor. It does not include employment contravening the contract-labor clause in section 3 of the Immigration Act of February 5, 1917, as amended, unless a waiver of the contract-labor clause shall have been granted. The term "business" is further construed to include the activity of an alien, hereinafter referred to as an "exchange visitor", who is coming to the United States as a student, trainee, teacher, guest instructor, professor, or leader in a field of specialized knowledge or skill, in accordance with the provisions of section 201 of the United States Information and Educational Exchange Act of 1948 (62 Stat. 7, 22 U. S. C. 1446; Public Law 402, 80th Congress).

2. Section 42.135, *Evidence of temporary-visitor status,* is hereby amended by adding at the end thereof the following paragraph:

(d) Each applicant for a temporary visitors visa under section 201 of the United States information and Educational Exchange Act of 1948 shall be required to present a written notification from his sponsor, showing his selection as a participant in a designated Exchange-Visitor Program, such designation having been duly notified to the American diplomatic and consular offices concerned. In addition, such an applicant must comply with the documentary requirements of § 42.106, subject to the exceptions provided therein, and in § 42.107, of this part, and be otherwise entitled to receive a visa as a nonimmigrant under section 3 (2) of the act. The officer to whom application is made may, in his discretion, require a confir-

mation of the alien's status from the sponsor.

3. Section 42.136, *Temporary visitors who will be employed in the United States,* is amended by adding at the end of paragraph (a) thereof the following subparagraph:

(7) An alien who is coming to the United States under the provisions of section 201 of the United States Information and Educational Exchange Act of 1948.

4. Section 42.137, *Trainees, students, and candidates for religious orders coming as temporary visitors,* is amended by adding at the end thereof the following paragraph:

(d) An alien who is coming to the United States as an exchange visitor under the provisions of section 201 of the United States Information and Educational Exchange Act of 1948 (62 Stat. 7; 22 U. S. C. 1446; Public Law 402, 80th Congress) shall be classified as a temporary visitor for business under section 3 (2) of the act. Such alien may, however, accept remunerative employment in the United States consistent with the purposes of the United States Information and Educational Exchange Act of 1948.

5. Paragraph (c) of § 42.114, *Form of passport visa,* is amended to read as follows:

(c) In granting a nonimmigrant passport visa to an alien having no official status and classifiable under section 3 (2) of the act, the figure "2" should be inserted in the parentheses and the words "temporary visitor" should be written in the visa on the line provided for the classification of the bearer. Whenever such a visa is granted to an alien whose case falls within one of the classes mentioned in section 201 of the United States Information and Educational Exchange Act of 1948 (62 Stat. 7; 22 U. S. C. 1446; Public Law 402, 80th Congress) the words "student", or "trainee", or "teacher", or "guest instructor", or "professor", or other appropriate designation identifying leaders in fields of specialized knowledge or skill, as the case may be, should be inserted on the line provided in the visa form for classification and immediately followed in parentheses by the words "Sec. 201, P. L. 402, 80th Cong."

6. Section 42.117, *Fees for passport-visa services,* is hereby amended by adding at the end thereof the following paragraph:

(c) The fee to be charged for a passport visa granted to an alien who is coming to the United States pursuant to the provisions of section 201 of the United States Information and Educational Exchange Act of 1948 (62 Stat. 7; 22 U. S. C. 1446; Public Law 402, 80th Congress), and the application therefor, shall be determined in accordance with the provisions of paragraphs (a) and (b) of this section.

This order shall become effective upon publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date is unnecessary because the regulations contained in this order involve foreign-affairs functions of the United States.

PART 2 — FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

OPERATION DURING EMERGENCY

In the matter of amendment of Part 2 of the Commission's rules and regulations—operation during emergencies.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of July 1949;

The Commission having under consideration requests by various classes of licensees, including police, for permission to engage, during emergencies, in communication with stations in other services, including aeronautical and ship, on frequencies allocated under the Commission's rules to such other services; and

It appearing, that the basis of such requests is an interpretation of § 2.405 to permit emergency operation without regard to the basic limitations of power and frequency, whereas the rule was intended only to remove restrictions in respect to the scope of service and points of communication; and

It further appearing, that a clarification of § 2.405 of the Commission's rules by way of amendment is immediately necessary in order to avoid possible confusion of communications in time of emergency, and that general notice of proposed rule making in accordance with section 4 (a) of the Administrative Procedure Act would, therefore, be contrary to the public interest; and

BILLINGS GAS CO.

NOTICE OF APPLICATION

JULY 15, 1949.

Take notice that Billings Gas Company (Applicant), a Montana corporation, address Billings, Montana, filed on July 11, 1949, a petition presumably as an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the acquisition and utilization of a certain gas reservoir for underground storage, hereinafter described.

Applicant owns and operates a natural-gas transmission system extending generally northward from the Garland field in Wyoming to the City of Billings, Montana. Applicant proposes to acquire and utilize for underground storage a gas reservoir located in portions of the States of Wyoming and Montana, known as the Elk Basin Cloverly gas reservoir. All gas now purchased and handled by Applicant, excepting only the minor Northwest Elk Basin field, passes through the area in which the Elk Basin Cloverly gas reservoir is located. Applicant estimates that approximately one billion cubic feet of gas will be needed for injection and withdrawal annually, the cycle being completed in each 12-month period.

Applicant proposes to purchase all gas rights in the reservoir, including the fee owner's consent to the use thereof for storage. Applicant states that 61/64th of such rights are now committed, and that it anticipates consents can be secured at a nominal price, the total purchase price approximating $280,000. Rearrangement and enlargement of its existing facilities, Applicant estimates will cost $20,000. No new operating expenses will be incurred. The price to be paid for reservoir gas rights covers also more than six billion cubic feet of gas still in place, which can and will be taken out in later years.

Applicant's current annual demand is slightly more than four billion cubic feet, and is expected to increase to 4.25 billion within the next five years. Its 1948 peak-day demand was 26.9 million cubic feet. Applicant presently has under contract 12 million cubic feet of gas a day ready to enter its pipe lines, with a potential peak-day demand approximating 30 million cubic feet.

Applicant asserts that with use of the Elk Basin Cloverly reservoir for storage purposes, it can more reliably meet its obligation as to annual and peak-day demands; it can utilize to best advantage its existing facilities; it can conserve gas produced concurrently with oil in the Elk Basin area for which no other market exists or is in immediate prospect, and which will be irretrievably lost and wasted if not stored for withdrawal as needed.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure, within 15 days from the date of publication hereof in the FEDERAL REGISTER. The application is on file with the Commission for public inspection.

MONONGAHELA POWER CO. ET AL.

MEMORANDUM FINDINGS, OPINION AND ORDER

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 15th day of July A. D. 1949.

On August 15, 1945, the Commission adopted findings and issued an order[1] with respect to Monongahela Power Company ("Monongahela"), a subsidiary in The West Penn Electric Company ("West Penn Electric") holding company system, which order, among other things, contained the following restriction on the payment of common stock dividends by Monongahela: "That so long as the serial notes to be issued by Monongahela remain outstanding and not discharged, Monongahela shall not pay dividends on its common stock in any calendar year exceeding in the aggregate $800,000".

West Penn Electric and three of its subsidiaries, including Monongahela, have recently filed a joint application-declaration with this Commission concerned primarily with a plan of partial simplification of The West Penn Electric Company holding company system pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935. Included in the joint application-declaration is a petition on the part of Monongahela for an order of the Commission rescinding and revoking the dividend restriction imposed in 1945 and quoted above.

Hearings with respect to this joint application-declaration have been held. At the public hearing, applicants-declarants stated, with respect to the request for revoking the dividend restriction on Monongahela, that Monongahela's financial position has so substantially improved since 1945 that the restriction is no longer appropriate. In addition, it is represented that prompt revocation of the restriction would facilitate the overall section 11 program of the system. Under the circumstances the Commission has determined that it is appropriate to take action with respect to the application of Monongahela in this matter separately from the action to be taken with respect to the section 11 (e) plan.

Having considered the record with respect to Monongahela's request for the removal of the common stock dividend restriction, the Commission makes the following findings:

Monongahela, together with its four subsidiaries, operates electric and gas utility facilities principally in central and northern West Virginia but also in eastern Ohio and western Pennsylvania.

The order of August 15, 1945, permitted the issuance and sale by Monongahela of $22,000,000 principal amount of First Mortgage Bonds: $9,000,000 aggregate par value of Cumulative Preferred Stock; 52,500 shares of new common stock; and $4,000,000 face amount of Serial Notes, sold to three banks. In an opinion accompanying that order, we stated that a dividend restriction on Monongahela's common stock was being imposed for the reason ". . . that an unduly high proportion of senior securities will remain outstanding immediately following the proposed transaction." It was apparent at that time that the capital structures of Monongahela's parent holding companies were so complex and in need of simplification that the parent companies could not then serve the function of providing needed common capital for Monongahela and that the only way in which Monongahela could be assured of adequate equity capital was by means of a restriction on its common stock dividends.

Attached hereto, as Appendix A, are consolidated balance sheets of Monongahela and its subsidiaries as at April 30, 1945, and March 31, 1949. Applicants-declarants represent that property, plant and equipment of Monongahela and subsidiaries are carried at original cost with the exception of $2,644,203, which is classified as Account 100.5—Utility Plant Acquisition Adjustments. The record indicates that, in accordance with orders of the Federal Power Commission and the Public Service Commission of West Virginia, substantially all of the amount in Account 100.5 is being amortized by charges to income over a 15-year period, beginning July 1, 1945. The following Table I, based on these balance sheets, contrasts certain capitalization and property ratios for these two periods.

TABLE I

	Apr. 30, 1945	Mar. 31, 1949	Increase or (decrease)
Capitalization ratios	*Percent*	*Percent*	*Percent*
All debt	57.88	54.85	(3.03)
Preferred stock	20.23	19.15	(1.08)
Common stock equity	21.89	26.00	4.11
Property ratios			
Bonds to net plant and property	57.99	57.96	(.03)
All debt to net plnat and property and net current assets	64.77	56.88	(7.89)
All debt and preferred stock to net plant and property and net current assets	87.40	76.75	(10.65)
Depreciation reserve to depreciable property	20.5	20.1	(.4)

Reference to Table I above indicates that the proportion of outstanding senior securities has been substantially reduced and the common stock equity increased since the imposition of the dividend restriction. It will be noted particularly that the ratio of debt and preferred stock to net plant and property and net current assets has decreased from 87.40%, as of April 30, 1945, to 76.75%, as of March 31, 1949. As indicated in Appendix A attached, during the period from April 30, 1945 to March 31, 1949, the Serial Notes of Monongahela, because of the serial maturities, have been reduced from $4,000,000 face amount to $2,600,000 face amount.

Set forth in Table II below are condensed statements of income of Monongahela and its subsidiaries for the twelve months ended April 30, 1945, and for the twelve months ended March 31, 1949.

[1] *Monongahela Power Company et al.* — S. E. C. — (1945) Holding Company Act Release No. 5988. August 15, 1945.

TABLE II

	12 months ended Apr. 30, 1945	12 months ended Mar. 31, 1949	Increase or (decrease)
Gross income before fixed charges	$2,932,587	$4,320,461	$1,367,874
Fixed charges	1,261,871	1,046,456	(215,415)
Net income for dividends	1,690,716	3,274,005	1,583,289
Preferred stock dividends	396,000	588,000	192,000
Balance net income for dividends on common stock	1,294,716	2,686,005	1,391,289
Common stock dividends paid	800,000	800,000	
Balance of net income after dividends on common stock	494,716	1,886,005	1,391,289
	Percent	*Percent*	
Percent of applicable earnings paid as dividends on common stock	61.79	29.78	
Times fixed charges earned	2.34	4.13	
Times fixed charges and preferred dividends earned	1.78	2.64	
Earned per share on common:			
1,000,000 shares	$1.29		
1,067,000 shares		$2.52	

Table II indicates that in 1945, when we imposed the condition that so long as Monongahela's serial notes remain outstanding Monongahela shall not pay common stock dividends in excess of $800,000 a year, Monongahela's balance of net income available for common stock was only $1,294,716, of which $800,000 was 61.79 percent. As at March 31, 1949, $800,000 was only 29.78 percent of the total amount available for common stock dividends. Furthermore, fixed charges in 1945 were earned 2.34 times; in 1949 this has become 4.13 times. Fixed charges plus preferred stock dividends were earned 1.78 times in 1945 and are earned 2.64 times in 1949.

We also note that since 1945 the top holding company in the holding company system of which Monongahela is a part, American Water Works and Electric Company, Inc., has been dissolved, that West Penn Electric, now the top company, has a partial simplification plan before us at this time, and that removal of the instant restriction on Monongahela's common stock dividends will facilitate the carrying out of needed steps under section 11 in the further simplification of The West Penn holding company system.

Although Monongahela's common stock equity is now only 26 percent, the Commission is persuaded, in the light of the substantial improvements in the company's financial position since 1945 and other restrictions on the company's dividends, mentioned below, which become operative, generally speaking, if ratios deteriorate, that the special dividend restriction limiting common dividends to not more than $800,000 a year may now be appropriately removed.[2]

Upon the removal of this special dividend restriction, Monongahela will continue, as long as its preferred stock remains outstanding, to be subject to our standard requirement that common stock dividends may not exceed 75 percent of current earnings applicable to the common stock if the common capital amounts to less than 25 percent of total capitalization and 50 percent if such common capital becomes less than 20 percent. Monongahela will also continue to be subject to a provision, contained in the Fifth Supplemental Indenture securing certain of its outstanding bonds, to the effect that the earned surplus of the company and its subsidiaries, as at November 30, 1948, amounting to $6,784,000, with the exception of $750,000 thereof, is restricted against the payment of dividends on the common stock of the company.

It is therefore ordered, That the restriction heretofore imposed on Monongahela, by Commission Order dated August 15, 1945, restricting dividends on its common stock to not more than $800,000 in any calendar year be, and same hereby is, removed.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[2] Applicants-declarants represent that Monongahela's note holders have been consulted with respect to the elimination of the dividend restriction on Monongahela and expressed no opposition.

All interested persons are referred to said joint application-declaration which is on file in the offices of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

GPU proposes to dispose of its investment in Rochester by means of issuing to its shareholders rights to purchase, during a fixed period of time, shares of the common stock of Rochester as reclassified. During the initial portion of such period, GPU will purchase such rights from the initial record holders thereof who request GPU so to do and will pay to such initial record holders a

stated minimum price per right, or the value attributable to such rights upon the sale by GPU of the shares covered thereby, whichever is higher. GPU will offer for sale through a Dealer-Manager Group to be selected by it such number of shares of Rochester's common stock as (1) are not covered by the rights issued to stockholders, (2) are covered by the rights purchased by GPU from the initial record holders thereof, or (3) become available to GPU upon the expiration of the rights by reason of the nonexercise of such rights. The exact details of the distribution program will be supplied by amendment.

In connection with the disposition by GPU of its investment in Rochester, it is proposed that:

(a) Rochester (1) transfer the amount of $1,210,000 to the stated value of its no par value common stock from its earned surplus accumulated on or before December 31, 1944, (2) increase the number of shares of its outstanding common stock from 775,914 shares to 835,000 shares, and (3) amend its certificate of incorporation so as to (i) increase the number of its authorized shares of common stock to 1,250,000 shares, (ii) provide for cumulative voting for the election of directors, (iii) restrict (unless the holders of two-thirds of Rochester's then outstanding preferred stock otherwise consent) the issuance by Rochester of additional shares of preferred stock, or any stock ranking prior thereto or on a parity therewith, unless Rochester's Common Stock Equity (as defined) is at least equal to the aggregate amount payable by Rochester on involuntary liquidation to the holders of its preferred stock or of any stock ranking prior thereto or on a parity therewith, which will be outstanding after the issuance of such proposed additional shares, and (iv) restrict (unless the holders of two-thirds of Rochester's then outstanding preferred stock otherwise consent) the declaration or payment of dividends on Rochester's common stock so long as any shares of its preferred stock are outstanding, so as to provide in effect that, if Rochester's Common Stock Equity (as defined), is less than 25% of its Total Capitalization (as defined), the amount of the dividends payable on its common stock may not exceed 75% of its Net Income Available for Common Stock (as defined) in the preceding twelve calendar months, and that, if its Common Stock Equity is less than 20% of its Total Capitalization, the amount of dividends payable on its common stock may not exceed 50% of its Net Income Available for Common Stock in the preceding twelve calendar months.

(b) GPU, which now owns all the outstanding 40,000 shares of no par value common stock of Canadea Power Corporation ("Canadea") (a corporation owning a storage dam with necessary control gates and a water storage reservoir, all of whose property is leased to Rochester and is used by Rochester as a necessary part of its operations), will make a capital contribution to Rochester of such 40,000 shares of no par value common stock of Canadea.

GPU contemplates that the bulk of the proceeds to be received by GPU from the sale of its investment in Rochester will be invested by GPU in Associated Electric Company so as to enable Associated Electric Company to redeem the balance of its outstanding debentures and to make further investments in its subsidiaries. The details of the proposed utilization of the proceeds to be received by GPU from the sale of its investment in Rochester will be supplied by amendment.

GPU requests that the Commission find that the carrying out of the proposed capital contribution by GPU to Rochester of the shares of the common stock of Canadea and the proposed sale by GPU of its investment in the shares of the common stock of Rochester are necessary and appropriate to effectuate the provisions of section 11 (b) of the act, and that the order of the Commission granting and permitting to become effective the application-declaration direct, pursuant to section 11 (b) of the act, the divestment by GPU of its interests in Rochester and Canadea. GPU also requests that the order of the Commission be in such form as will meet the requirements of sections 371–373, inclusive, and 1808 (f) of the Internal Revenue Code.

Applicants-declarants state that the Public Service Commission of the State of New York has jurisdiction over the reclassification by Rochester of its common stock and the amendments to its articles of incorporation. Applicants-declarants also state that no commission, other than this Commission, has jurisdiction over any of the other proposed transactions.

The Commission having heretofore instituted a proceeding (designated as File No. 59–32) with respect to GPU to determine the status of the GPU system under section 11 (b) (1) of the act wherein, among other things, one of the matters and questions involved is whether an order should be entered requiring GPU to divest itself of all its interests in Rochester and in Canadea; and

It appearing appropriate to the Commission that the hearing in the proceeding instituted with respect to GPU, pursuant to section 11 (b) (1) of the act, be reconvened for the purpose of affording an opportunity to the parties and any interested persons to complete the presentation of evidence in such proceeding insofar as it relates to the property of the retention by GPU of its interests in Rochester and Canadea; and

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to the said joint application-declaration filed by GPU and Rochester and the said joint application-declaration should not be granted or permitted to become effective except pursuant to further order of the Commission; and

It further appearing to the Commission that the proceeding instituted pursuant to section 11 (b) (1) of the act with respect to GPU (File No. 59–32) in so far as it relates to its retention of its interests in Rochester and Canadea involves questions of law and fact common to the proceeding with respect to the joint application-declaration filed by GPU and Rochester (File No. 70–2179) and that the evidence offered in respect of each of the matters may have a bearing on the other, and that substantial savings in time, effort and expense will result if said matters are consolidated:

It is hereby ordered, That the proceeding instituted under section 11 (b) (1) of the act with respect to GPU (File No. 59–32) and the joint application-declaration filed by GPU and Rochester (File No. 70–2179) be, and hereby are, consolidated.

It is further ordered, Pursuant to sections 6, 7, 9, 10, 11 (b) (1), 12, 15 and 18 of the act that a hearing be held on said matters, as consolidated, on August 9, 1949, at 2:00 p. m., e. d. s. t., at the offices of the Securities and Exchange Commission, 425 Second Street, N. W., Washington 25, D. C. On such date the hearing room clerk will advise as to the room in which such hearing will be held. Any person desiring to be heard in connection with these proceedings or proposing to intervene therein shall file with the Secretary of the Commission, on or before August 5, 1949, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Willis E. Monty, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of the said joint application-declaration and that, on the basis thereof, the following matters and questions are presented for consideration without prejudice, however, to the presentation of additional matters and questions upon further examination:

1. Whether an order should be entered forthwith, pursuant to the provisions of section 11 (b) (1) of the act, requiring GPU to divest itself of all its interests in Rochester and Canadea.

2. Whether the proposed offering by GPU of rights to its shareholders to subscribe for shares of the common stock of Rochester is in any respect detrimental to the public interest or the interest of investors.

3. Whether the arrangements to be entered into by GPU with the Dealer-Manager Group are, in all respects, appropriate in the public interest and in the interest of investors.

4. Whether compliance by GPU with the competitive bidding requirements of Rule U-50, if it be applicable, with respect to the sale by GPU through the Dealer-Manager Group of the shares of common stock of Rochester not subscribed for by the shareholders of GPU, is not necessary or appropriate under the circumstances.

5. Whether the proposed transfer by Rochester of the $1,210,000 from earned surplus to the stated value of its no par value common stock is detrimental to the

public interest or the interest of investors.

6. Whether the increase by Rochester of the number of shares of its outstanding no par value common stock conforms to the requirements of section 7 of the act.

7. Whether the proposed amendments to Rochester's articles of incorporation will result in an unfair or inequitable distribution of voting power among its security holders or is otherwise detrimental to the public interest or the interest of investors.

8. Whether the proposed capital contribution by GPU of the shares of the common stock of Canadea and the acquisition thereof by Rochester will tend toward the economical and efficient development of an integrated public-utility system.

9. Whether the proposed accounting treatment of the several transactions on the books of the respective parties is proper.

10. Whether the fees, commissions, and other expenses to be incurred are for necessary services and reasonable in amount.

It is further ordered, That at said hearing evidence shall be adduced with respect to the foregoing matters and questions.

By the Commission.

[File No. 70-2182]

WISCONSIN PUBLIC SERVICE CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of July 1949.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") by Wisconsin Public Service Corporation ("Wisconsin"), a public utility subsidiary of Standard Gas and Electric Company, a registered holding company. Wisconsin has designated sections 6 (a) and 7 of the act as applicable to the proposed transactions.

Notice is further given that any person may, not later than July 28, 1949, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration which he desires to controvert or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed to the Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter said declaration may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration, which is on file in the office of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Wisconsin proposes to issue and sell notes in the total principal amount of $1,500,000 to several banks, the names of which are to be supplied by amendment to the declaration. The notes will be dated August 1, 1949, to be due November 1, 1949, will bear interest at a rate to be determined and to be supplied by amendment, but in any event not to exceed 2¼%, and provide for prepayment without penalty when permanent financing is completed.

Wisconsin states that it will need an estimated $9,600,000 during 1949 for construction expenditures plus $1,200,000 for its commitment to purchase common stock of its subsidiary, Wisconsin River Power Company. Of these total requirements, it is estimated that $2,800,000 will be secured from corporate funds. It is represented that proceeds from proposed permanent financing to be consummated later in 1949 will be used in part to pay bank loans then outstanding.

Wisconsin states that no commission other than this Commission has jurisdiction over the proposed transactions.

Wisconsin has requested that the Commission's order be issued as soon as possible and that it become effective forthwith upon issuance.

By the Commission.

[File No. 70-2174]

NORTHERN STATES POWER CO. ET AL.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 19th day of July A. D. 1949.

In the matter of Northern States Power Company, Interstate Light & Power Co., The Elizabeth Light and Power Company, and Interstate Light and Power Corporation, File No. 70-2174.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") by Northern States Power Company ("Minnesota"), a Minnesota corporation, which is a registered holding company and also an operating public utility; Interstate Light & Power Co. ("Delaware"), a Delaware corporation and a subsidiary of Minnesota, which is also a registered holding company and an operating public utility; The Elizabeth Light and Power Company ("Elizabeth"), an Illinois corporation, which is a subsidiary of Delaware and an operating public utility; and Interstate Light and Power Corporation ("Illinois"), an Illinois corporation and a subsidiary of Minnesota. Delaware and Elizabeth furnish electric service in Galena, Menominee, Elizabeth, Schapville and Woodbine, Illinois, and surrounding territory. Illinois is inactive and has no physical properties. The parties designate sections 6, 7, 9, and 12 of the act and Rule U-45 thereunder as applicable to the proposed transactions.

All interested persons are referred to said application-declaration on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

As of April 30, 1949, Delaware and Illinois are to be merged with and into Elizabeth, pursuant to the appropriate provisions of the Delaware Corporation Act and the Illinois Business Corporation Act. Upon the effectuation of the merger the name of Elizabeth will be changed to Interstate Light and Power Company ("Surviving Corporation").

The merger agreement provides that the present outstanding capital stock of Elizabeth consisting of 198 shares of common stock, $50 par value, be canceled and reclassified into 75,000 shares of common stock, $10 par value, of the Surviving Corporation; and that 50,000 shares of the Surviving Corporation will be issued to Minnesota in lieu of the existing capital stocks of Delaware and Illinois, which will be surrendered and canceled.

The foregoing conversion of stocks will reduce by $333,500.00 the amount applicable to the capital stocks of the merging companies, creating an equivalent capital surplus. Minnesota will surrender the $1,000,000.00 promissory note of Delaware held by it bearing interest at the rate of 6% per annum, in exchange for a five-year promissory note of the Surviving Corporation in the principal amount of $500,000.00 bearing interest at the rate of 5% per annum, and will also cancel open account indebtedness in the amount of $434,348.71 due from Delaware and $2,517.75 due from Illinois, creating capital surplus of $936,866.46. There will thus be made available in the combined capital surplus account an aggregate of $1,270,366.46 against which to apply a deficit of the same amount in the combined earned surplus account of the merging companies.

It is stated that the merger will enable Delaware to dispose of electric plant adjustments arising from recording its properties at original cost as required by the Federal Power Commission and the Illinois Commerce Commission, thus bringing about the deficit in the combined earned surplus in the amount of $1,270,366.46; will consolidate the public utility operations of Delaware and Elizabeth into the Surviving Corporation; will effect further simplification of the capital structure of the holding company system of Minnesota, and will enable Minnesota to state its investments in Delaware and Illinois on a more realistic basis.

The application-declaration contains exhibits showing in detail the adjustments incidental to the merger and the effect thereof on the accounts of the several companies involved. It is proposed that the Surviving Corporation will have outstanding the following securities, all of which will be owned by Minnesota:

Five-year promissory note	$500,000
Common stock, par value $10 per share, 50,000 shares	500,000
	1,000,000

Minnesota proposes to record these securities in its accounts at their face and par value amounts. Minnesota presently carries its investments in the participating companies at an aggregate amount of $2,284,275.17 and it proposes to substitute therefor the underlying book value of the securities of the Surviving Corporation which it will receive, writing off the difference of $1,284,275.17 to its paid-in surplus account. This paid-in surplus was created at the time of the accounting reorganization of Minnesota (as of December 31, 1943) for the purpose of providing for possible adjustments of this character.

The application-declaration states that the properties of Elizabeth are recorded on the basis of original cost as determined by that company and by representatives of Federal Power Commission and the Illinois Commerce Commission, and that amounts lodged in Account 100.5, Electric Plant Acquisition Adjustments, and Account 107, Electric Plant Adjustments, have been disposed of. The properties of Delaware are also recorded on the basis of original cost; and Delaware now has in Account 107, Electric Plant Adjustments, and in other accounts in its balance sheet amounts aggregating $960,665.98 which will be disposed of in connection with the merger by charging $925,415.44 to Earned Surplus and $35,250.54 to Depreciation Reserve.

The balance in the depreciation reserves of Delaware and Elizabeth, aggregating $342,223.18, after certain adjustments, will be increased to $605,911.70; which amount the management considers adequate for the combined properties. Further adjustments, amounting in the aggregate to $81,775.55, in the accounts include the write-off of organization expenses of Delaware and Illinois, a provision for the accrual of Federal income taxes, and other miscellaneous items.

The pro forma balance sheet reflects the payment of estimated expenses of $7,500.00 in connection with the merger, which amount will be charged to organization expenses in the plant account.

It is stated that the only State commission having jurisdiction in the matter is the Illinois Commerce Commission, which has jurisdiction over the transaction insofar as it affects Delaware, Elizabeth and Illinois. A joint petition of said companies seeking appropriate authorization by the State commission is now pending.

The parties request that the Commission's order herein be made effective upon issuance.

Notice is further given that any interested person may, not later than July 29, 1949 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date this application-declaration, as filed or as amended, may be granted and become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 and U-100 thereunder.

By the Commission.
