Section 50.34 as amended, effective October 1, 1949, requires the holder of an airman agency certificate to obtain the written approval of the Administrator before changing the location of the school. It also provided that requests for approval of such change shall be mailed to the Administrator of Civil Aeronautics, attention Airman Division, Washington 25, D. C. We have been advised that the Administrator would prefer such requests to be made to the appropriate regional offices or local agents of the Administrator. The current provision, it is said, causes an unnecessary delay in the consideration and granting of requests for changes in location. Therefore, this amendment deletes the requirement that requests shall be made to the Airman Division in Washington. This procedural change would appear to be in the interest of the public.

Since this amendment is minor in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and the amendment may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 50 (14 CFR Part 50, as amended) effective immediately:

By amending § 50.34 to read as follows:

§ 50.34 *Change of location.* No change in a location of an approved airman agency shall be made without the prior written approval of the Administrator.

PART 60—AIR TRAFFIC RULES

DANGER AREA ALTERATIONS

Under sections 205 and 601 of the Civil Aeronautics Act of 1938, as amended, and § 60.13 of the Civil Air Regulations, the Administrator of Civil Aeronautics is authorized to designate as a danger area any area within which he has determined that an invisible hazard to aircraft in flight exists, and no person may operate an aircraft within a danger area unless permission for such operation has been issued by appropriate authority. Such areas have been designated and published.

The following danger area alterations have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and should be adopted without delay, in order to promote safety of

the flying public. Compliance with the notices, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Acting pursuant to sections 205 and 601 of the Civil Aeronautics Act of 1938,

as amended, and § 60.13 of the Civil Air Regulations, and in accordance with sections 3 and 4 of the Administrative Procedure Act, I hereby amend the Code of Federal Regulations, Title 14, Chapter I, Part 60, § 60.13-1, as follows:

1. The Patuxent River, Maryland, areas are amended to read:

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 4 to Revision Effective May 10, 1949]

PART 550—FEDERAL AID TO PUBLIC AGENCIES FOR DEVELOPMENT OF PUBLIC AIRPORTS

PROCEDURE

Acting pursuant to the authority vested in me by the Federal Airport Act (60 Stat. 170; Pub. Law 377, 79th Cong.), I hereby amend Part 550 of the regulations of the Administrator of Civil Aeronautics as follows:

Section 550.5 (c) (3) of this part is hereby amended to read as follows:

§ 550.5 Procedure. * * *

(c) Project application. * * *

(3) Property interests. In general, the property interest which a sponsor or sponsors must have or agree to acquire in all lands to be used for landing area or building area purposes in order to meet the requirements of subparagraph (2) of this paragraph is either: (1) Title free and clear of any reversionary interest, lien, easement, lease or other encumbrance which, in the opinion of the Ad-

ministrator, would be of such a nature as to create an undue risk that its existence might deprive the sponsor or sponsors of possession or control of such lands, interfere with their use for public airport purposes, or make it impossible for the sponsor (or any sponsor of a joint project) to carry out and perform any of the assurances, agreements, and covenants contained in Parts III and IV of the Project Application Form (§ 550.11 (b)); or (2) a long term leasehold estate granted to the sponsor or sponsors by another public agency having such title, on terms and conditions satisfactory to the Administrator. With respect to "off-site" areas, the minimum property interest which a sponsor or sponsors must have or agree to acquire in the lands comprising such areas, in order to meet the requirements of subparagraph (2) of this paragraph, is any easement or leasehold estate in privately-owned lands or any right to or interest in publicly-owned lands, which, in the opinion of the Administrator, is sufficient to provide reasonable assurance that the sponsor or sponsors will not be deprived of its or their right to occupy and use such lands for the purpose intended during whatever period of time such use may be necessary in order to meet the requirements of the regulations in this part.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

(Secs. 1-15, 60 Stat. 170-178; as amended; 49 U. S. C. 1101-1114)

Administrator of Civil Aeronautics.

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR, Part 522]

GLOVE INDUSTRY

EMPLOYMENT OF LEARNERS AT SUBMINIMUM RATES

Pursuant to section 14 of the Fair Labor Standards Act of 1938, a determination and order dated February 8, 1940, has heretofore been issued prescribing the terms and conditions under which certificates may be issued authorizing employment of learners in the Glove Branch of the Apparel Industry at wages below the minimum wage established by section 6 of the act.

By virtue of the Fair Labor Standards Amendments of 1949 the minimum wage provided in section 6 of the act will be increased from 40 to 75 cents an hour, effective January 25, 1950. In view of this fact, it appears necessary to reexamine the subminimum wage rates and other conditions specified in the above-described determination and order applicable to employment of learners in the Glove Branch of the Apparel Industry.

Notice is hereby given that, pending the final determination of the terms and conditions which should be adopted for the employment of learners in the Glove Branch at subminimum wage rates after January 25, 1950, the Administrator intends, as an interim measure, and on the basis of available information, to provide for the employment of learners in the Glove Branch of the Apparel Industry for a period of 6 months following January 25, 1950, in accordance with the provisions of the determination and order dated February 8, 1940, mentioned above, revised as set forth below. It is intended that such revision shall become effective on January 25, 1950, and continue in effect until July 25, 1950. During this 6 month period, the Administrator will hold a hearing, at which all interested parties will have an opportunity to present their views with respect to the necessity for providing for the employment of learners in the Glove

Branch of the Apparel Industry at subminimum wage rates, and the terms and conditions under which such learners should be employed.

1. When necessary in order to prevent the curtailment of opportunities for employment, special certificates permitting the employment of learners, at subminimum rates may be issued under the conditions set forth below to all plants in the Glove Branch of the Apparel Industry making application therefor representing that experienced workers are not available to the plant, unless experienced workers are found to be available.

(a) Learners employed under the certificates shall not exceed 10 percent of the total number of workers in the plant engaged in hand and machine stitching operations on leather dress gloves; and in machine stitching operations on knit fabric and work gloves; and in finger knitting and finger closing operations on knit wool gloves, provided that as many as 10 learners may be authorized in any certificate.

(b) No person shall be employed as a learner under the certificate, longer than 480 hours.

(c) Learners employed under the certificate shall be paid not less than 55 cents for the first 320 hours and 65 cents for the last 160 hours of the learning period. In plants where experienced operators are paid on a piece-work rate, learners shall be paid at least the same piece-work rate and shall receive earnings paid on this rate if they earn in excess of the subminimum wage rates provided herein.

(d) Only learners shall be employed at a subminimum wage under the certificate and no learner shall be employed under the certificate unless hired when an experienced worker was not available.

(e) No learners shall be employed at a subminimum wage under the certificate until and unless the certificate is posted and kept posted in a conspicuous place in the plant in which learners are employed.

2. (a) The Administrator or his authorized representative may cancel any certificate for cause. Cancellation may

be effected (1) as of the date of issuance if it is found that the applicant set forth any fact or facts in the application which he knew or had reasonable cause to believe to be false; (2) as of the date of violation if it is found that any of its terms have been violated; and (3) prospectively if it is found that the conditions of employment of the learner have changed or that the purposes for which the certificate was originally issued no longer obtain.

(b) Except in cases of willfulness or those in which the public interest requires otherwise, before any contemplated action for cancellation or revocation of any special certificate for the employment of a learner will be considered, facts or conduct which may warrant such action will be called to the attention of the employer and he shall be afforded an opportunity to achieve or demonstrate compliance.

3. In this order, the term "learner" means:

(a) In the leather dress branch, a person who has not been employed during the preceding three years for more than 480 hours in the aggregate in hand or machine stitching operations on leather dress gloves.

(b) In the knit fabric branch, a person who has not been employed during the preceding three years for more than 480 hours in the aggregate in machine stitching operations on leather dress or knit fabric gloves.

(c) In the work glove branch, a person who has not been employed during the preceding three years for more than 480 hours in the aggregate in machine stitching operations in any type of glove manufacture.

(d) In the knit wool branch, a person who has not been employed during the preceding three years for more than 480 hours in the aggregate on finger knitting and finger closing operations;

and, the term "Glove Branch of the Apparel Industry" includes leather dress gloves, knit fabric gloves, work gloves, and knit wool gloves.

Prior to the final adoption of the above revision, consideration will be given to any data, views or arguments

pertaining thereto which are submitted in writing to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington, D. C., within 5 days from the publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 16th day of January 1950.

WM. R. McCOMB,
Administrator,
Wage and Hour Division.

CIVIL AERONAUTICS BOARD

[14 CFR, Parts 207, 302]

[Draft Release No. 42]

CERTIFICATED AIR CARRIERS

CHARTER TRIPS AND SPECIAL SERVICES

Notice is hereby given that the Civil Aeronautics Board has under consideration the issuance of regulations pursuant to section 401 (f) of the Civil Aeronautics Act to be codified as Part 207 of the Economic Regulations and the issuance of related amendments to the Procedural Regulations. The principal features of the proposed new part and amended Procedural Regulations are set forth in the attached explanatory statement.

The proposed new Part 207 and the amendment to the Procedural regulations are set forth in the attached proposed rules.

These regulations are proposed under the authority of sections 205 (a), 401 (f), and 1001 of the Civil Aeronautics Act of 1938, as amended.

Interested persons may participate in the proposed rule making through submission, in triplicate, of written data, views, or arguments pertaining thereto, addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All relevant matter in communications received on or before February 15, 1950, will be considered by the Board before taking final action on the proposed rule.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

EXPLANATORY STATEMENT ON PROMULGATION OF PART 207 OF THE ECONOMIC REGULATIONS

The proposed new Part 207 embodies the first general regulation covering the performance of charter trips and special services by certificated air carriers. Up to the present time there has been no regulation of these matters by the Board except in the case of Alaskan Air Carriers and except, during the period of the war, for a regulation prohibiting the conduct of such services without the permission of the appropriate military authorities.

The Board has become increasingly concerned with the possible economic dangers which the unregulated conduct of charter trips and special services may entail. This is so particularly in the field of foreign and overseas air transportation.

Accordingly, the Board proposes to establish in Part 207 the general frame-

work under which charter trips and special services may be encouraged and directed and wasteful competitive practices therein curtailed, so as to fulfill the basic policy of the act as set forth in section 2 thereof.

The definitions of "charter trip" and "special service" contained in § 207.1 of the new part have been made solely for the purpose of establishing the scope of permissible operations of this character, and not with the idea of attempting to define the meaning of these terms as used in section 401 (f) of the act. In this connection it will be noted that the proposed § 207.3 prohibits an air carrier from performing any air transportation other than the charter trips or special services as defined, unless in conformity with its certificate of public convenience and necessity or with a special or general exemption issued by the Board.

Attention is invited to the fact that the definitions of both charter trip and special service have the common element that all space on the aircraft must be devoted to the purposes of the charter party or the special service, as the case may be. This in effect will prohibit the operation of these services in combination with the regular transportation service offered by the carrier. The essential element of difference between the two terms as used in the regulation is that in the case of a charter where transportation is offered to a group of persons, the group must not have been assembled by or on behalf of the carrier. In the case of special services, on the other hand, the group is assembled by the carrier, or by a traffic generating agent, for the purpose of furnishing transportation to the group in order to accomplish a common objective apart from the transportation.

One further point of difference should be noted—that there is no provision made in the term "special service", as defined in the part, for the transportation of property (other than baggage and other personal effects of passengers). However, cargo may be carried on a charter basis, and this will permit the carriage of property in any case where the shipper desires to charter an entire aircraft, either for his individual use or on behalf of a group of shippers. Air Freight Forwarders may also ship property to or from off-line points within the continental United States if they desire to charter the entire aircraft at the carrier's published tariff rates. Further than this the Board does not believe it wise to go in providing general rules for the off-route transportation of cargo.

Section 207.2 is formal in nature and makes it clear that only air carriers holding certificates of public convenience and necessity are to be governed by the part. Alaskan air carriers are specifically exempted from the part since charter trips and special services performed by such carriers are regulated in Part 292 of the Economic Regulations.

Section 207.3 permits air carriers to make charter trips and special services as defined in the regulation. It is to be noted that under this section all such charter trips and special services will be permitted except to the extent which

their operation is curtailed, restricted, or limited by the other provisions in the regulation.

Section 207.4 places a quantitative limitation on the extent to which charter trips or special services may be performed by an air carrier in any calendar quarter. This limitation is established as 5 percent of the aggregate air transportation performed by the carrier during the preceding calendar quarter. The purpose of this provision is to assure that the privilege of conducting charter trips and special services will not be abused.

By § 207.5 air carriers subject to the part are not permitted to perform any charter trips or special services between points within the Territory of Alaska. This provision should be read in connection with § 207.2 which excludes Alaskan Air Carriers from the applicability of the part. The effect of these two provisions is to reserve to the Alaskan Air Carriers all charter trips and special services of an intra-Alaskan nature, but it will not operate to prevent the rendering of such services by air carriers generally to or from Alaska.

Section 207.6 establishes as a basic requirement in respect of charter trips that they shall be in the form of written bilateral agreements. It will be noted that there is no general requirement that such agreements be filed with the Board. Such agreements, however, are required to be submitted in connection with petitions filed under § 302.19 (a) for permission to conduct charter trips in protected areas.

No provision has been made in this part for the filing and observance of tariffs in connection with charter trips and special services, for the reason that air carriers are already required to file tariffs therefor under the act and the Board's general tariff regulations.

As indicated in the earlier part of this statement, the problem of most pressing concern to the Board has been the question of charter trips and special services conducted in competition with the services rendered by other air carriers in overseas or foreign air transportation. Accordingly, § 207.7 prescribes the general rule that air carriers shall not conduct trips or services in overseas or foreign air transportation to or from a point or area not mentioned in its certificate of public convenience and necessity, if service is authorized to be performed to or from such point or area by another air carrier. This rule is applicable only to overseas and foreign air transportation.

This provision is designed to prevent the "pirating" by one air carrier of traffic in the legitimate field of operation of another such carrier. However, the Board believes it desirable to permit two exceptions to the general rule stated above. These exceptions are set forth in paragraphs (a) and (b) of § 207.7. Paragraph (a) provides for cases where the protected carrier has consented to the operation by another air carrier of charter trips or special services within the area served by it. Paragraph (b) provides for cases where the Board finds that the proposed charter trips or special services are in the public interest.

The procedure under which requests pursuant to this paragraph to make charter trips or to perform special services would be considered by the Board is set forth in the proposed amendment to Part 302 of the Procedural Regulations, also attached hereto.

Section 207.8 is designed to assure that carriers will not evade the provisions of § 207.7 through the device of transferring the traffic at some mid-way point for onward carriage by a carrier not subject to the act into a territory protected by § 207.7.

Section 207.9 deals with a problem raised by the Board's recent action in issuing certificates of public convenience and necessity to four all-freight carriers (Air Freight Case, decided July 29, 1949, Order Serial No. E-3085).

In arriving at its decision in the above-mentioned case, there was no intent on the part of the Board to authorize any air transportation of persons (other than the transportation of attendants to the extent expressly permitted by the certificates issued in the case). In order to confine the activities of the all-freight carriers to those which the Board has expressly found to be required by the public convenience and necessity and those reasonably ancillary thereto, we believe it necessary to utilize our authority under section 401 (f) of the act to restrict the charter and special service activities of these carriers to the cargo field.

Accordingly, § 207.9 has been inserted in the proposed new part in order to carry out this intent.

PART 207—CHARTER TRIPS AND SPECIAL SERVICES

§ 207.1 *Definitions.* As used in this part, unless the context otherwise requires—

(a) "Charter trip" means air transportation performed by an air carrier holding a certificate of public convenience and necessity where the entire capacity of one or more aircraft has been chartered either on a time, mileage, or trip basis:

(1) For the individual use of one person not acting as a common carrier, or

(2) For the transportation of a group of persons or their property by a person (or one or more persons acting jointly) no part of whose business is the formation of such groups, or

(3) For the interstate air transportation of property by an air freight forwarder holding a currently effective letter of registration issued under Part 296 of the Economic Regulations.

(b) "Point" means any airport or place where an aircraft may be landed or taken off, including the area within a 25-mile radius of such airport or place.

(c) "Special service" means air transportation by an air carrier holding a certificate of public convenience and necessity where the exclusive use of one or more aircraft is furnished to a group of passengers and their baggage, which group is assembled by the carrier, its employees, or agents, or by a ticket agent, travel bureau or other traffic generating

agent and where the members of the group have a common purpose not directly connected with the transportation.

§ 207.2 *Applicability of part.* This part shall apply to all air carriers (other than Alaskan Air Carriers) who hold currently effective certificates of public convenience and necessity issued by the Board pursuant to section 401 of the act.

§ 207.3 *Scope of authorization.* Charter trips and special services may be performed by air carriers, subject, however, to the limitations and regulations set forth in this part. Apart from such trips and services, an air carrier shall not perform any air transportation except in conformity with its certificate of public convenience and necessity or with a special or general exemption issued by the Board.

§ 207.4 *Limitation on amount of charter and special service air transportation which may be performed.* An air carrier shall not, during any calendar quarter, perform charter trips or special services which, in the aggregate on an airplane mile basis, exceed five percent of the air transportation performed by it during the preceding calendar quarter.

§ 207.5 *Charter trips and special services within the Territory of Alaska.* An air carrier shall not perform any charter trip or special service in interstate air transportation within the Territory of Alaska.

§ 207.6 *Charter trips to be performed only pursuant to written agreement.* An air carrier shall not perform any charter trip except pursuant to a bilateral agreement in writing signed by both parties thereto.

§ 207.7 *Charter trips and special services in overseas and foreign air transportation.* An air carrier shall not perform any charter trip or special service in overseas or foreign air transportation to or from a point or area not designated to receive service by its certificate of public convenience and necessity if air transportation service to or from such point or area is authorized by a currently effective certificate of public convenience and necessity issued to another air carrier subject to this part except in one or more of the following circumstances:

(a) Where the air carrier so authorized to engage in air transportation has consented in writing to the making of the charter trip or special service concerned and such consent has been filed with or mailed to the Board in a properly addressed envelope with postage thereon prepaid; or

(b) Where specific authority to conduct the trip or special service has been granted by the Board upon a finding that the public interest so requires.

§ 207.8 *Part-way carriage of through traffic subject to § 207.7.* With the exception of carriage performed wholly within the United States, a charter trip or special service shall be governed by the provisions of § 207.7, if either the place of origin or destination of the journey of the persons or property carried is a point or area outside the United

States designated to receive service in a certificate of public convenience and necessity issued to another air carrier.

§ 207.9 *Air freight carriers; restriction on passenger operations.* An air carrier not authorized by its certificate of public convenience and necessity to engage in the air transportation of persons (otherwise than in connection with the transportation of property) shall not perform any charter trip or special service involving the air transportation of persons: *Provided,* That, in operating such trips any such air carrier may transport one or more attendants with each shipment of live animals, live birds and live reptiles when necessary for the protection of the shipment, the cargo, the aircraft or its crew. Attendants may be transported only when actually accompanying the shipment and shall not be transported from the destination of the shipment to its origin or otherwise.

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

PETITIONS TO CONDUCT CHARTER TRIPS OR SPECIAL SERVICES IN FOREIGN AND OVERSEAS AIR TRANSPORTATION

It is proposed to amend Part 302 of the Procedural Regulations by adding a new § 302.19 thereto reading as follows:

§ 302.19 *Petitions to conduct charter trips or special services into areas protected by § 207.7 of the Economic Regulations.* The rules set out in this section shall govern proceedings brought by air carriers holding certificates of public convenience and necessity who seek to obtain Board approval to perform charter trips or special services in overseas or foreign air transportation to points or areas where such service would otherwise be contrary to the provisions of § 207.7 of the Economic Regulations.

(a) Petitions filed pursuant to this section need not conform to the requirements of §§ 302.2 and 302.3 but must be submitted in triplicate, signed by a managing officer of the Company. Such petition shall set forth the proposed date(s), number of trips, and area(s) or point(s) to which the service is desired to be performed, together with the equipment to be utilized, the approximate number of passengers or amount and kind of cargo to be carried, and the compensation to be received. In the case of charter trips, a copy of the proposed charter agreement(s) shall be annexed to the petition. A copy of the petition, together with all supporting documents, shall be served upon the air carrier certificated to serve the point or area concerned at its principal office, and proof of such service shall accompany the petition when filed with the Board.

(b) The air carrier certificated to serve the point or area concerned shall have five days (not including Saturday or Sunday or legal holidays) after the filing of such a petition in which to file notice of objections thereto, if any, with the Board and if such notice is filed, an ad-

ditional ten days (not including Saturday or Sunday or legal holidays) in which to file supporting reasons or arguments as to why the petition should not be granted in the public interest. Such objections shall include a statement as to the ob-

jecting carrier's ability to handle the traffic and may, if desired, include the terms upon which the service requested would be performed by it.

(c) Thereafter the Board will grant the petition to such extent and subject to

such terms and conditions as it finds to be in the public interest. Petitions for the approval of service which it finds not in the public interest will be denied.

Lawrence having, on January 11, 1950, filed a further amendment to its application setting forth the action taken by

it to comply with the requirements of Rule U-50 and stating that, pursuant to the invitation for competitive bids, the following bids for said bonds were received:
