UNITED STATES STANDARDS[1] FOR GRADES OF FROZEN BROCCOLI

On April 20, 1950, a notice of proposed rule making was published in the FEDERAL REGISTER (15 F. R. 2219) regarding a proposed revision of the United States Standards for Grades of Frozen Broccoli. After consideration of all relevant matters including the proposals set forth in the aforesaid notice, the following revised United States Standards for Grades of Frozen Broccoli are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1950 (Pub. Law 146, 81st Cong., approved June 29, 1949):

§ 52.194 *Frozen broccoli.* "Frozen broccoli" is prepared from the fresh, headed stalks or shoots of the broccoli plant (Brassica oleracea botrytis) by trimming, washing, and blanching and is frozen and stored at temperatures necessary for preservation of the product.

(a) *Styles of frozen broccoli.* (1) "Stalks" is the style that consists of the head and adjoining portions of the stem

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

and attached leaves. Stalks that are cut longitudinally (including, but not limited to, quarters or halves) are considered as this style.

(2) "Cuts" or "Cut Broccoli" is the style that consists of portions cut from stalks with not less than 35 percent by weight of the broccoli that is head material.[1] "Head material" consists of buds or bud clusters whether or not attached to stalks or portions of stalks and includes such stalks or portions thereof. Units that possess practically no buds are not considered as head material.

(3) "Pieces" is the style that consists of any cut portions of stalks and that does not meet the foregoing definition for "Cuts" or "Cut Broccoli".

(b) *Grades of frozen broccoli.* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen broccoli that possesses similar varietal characteristics; that possesses a good color; that is practically free from defects; that possesses good character; that possesses a good flavor and odor; and is of such quality with respect to uniformity of size as to score not less than 85 points when scored in accordance with the scoring system outlined in this section.

(2) "U. S. Grade B" or "U. S. Extra Standard" is the quality of frozen broccoli that possesses similar varietal characteristics; that possesses a reasonably good color; that is reasonably free from defects; that possesses a reasonably good character; that possesses a fairly good flavor and odor; and is of such quality with respect to uniformity of size as to score not less than 70 points when scored in accordance with the scoring system outlined in this section.

(3) "U. S. Grade D" or "Substandard" is the quality of frozen broccoli that fails to meet the requirements of U. S. Grade B or U. S. Extra Standard.

(c) *Ascertaining the grade.* (1) The grade of frozen broccoli may be ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of color, uniformity of size, absence of defects, and character. The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given for such factors are:

Factors:	Points
(i) Color	20
(ii) Uniformity of size	20
(iii) Absence of defects	20
(iv) Character	40
Total score	100

(2) The scores for the factors of color, uniformity of size, absence of defects, and character with respect to development are determined immediately after thawing to the extent that the product is substantially free from ice crystals and can be handled as individual units. The degree of tenderness and freedom from fiber and flavor and odor are determined after the product is cooked.

(3) "Good flavor and odor" means that the product after cooking has a good, characteristic, normal flavor and odor and is free from objectionable flavors and objectionable odors of any kind.

(4) "Fairly good flavor and odor" means that the product after cooking may be lacking in good flavor and odor but is free from objectionable flavors and objectionable odors of any kind.

(d) *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

(1) *Color.* (i) Frozen broccoli that possesses a good color may be given a score of 17 to 20 points. "Good color" means that the frozen broccoli possesses a characteristic green color which may include lighter colored areas typical of young and tender broccoli that do not materially affect the appearance of the product.

(ii) If the frozen broccoli possesses a reasonably good color, a score of 14 to 16 points may be given. Frozen broccoli that falls into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the frozen broccoli possesses a characteristic green color which may be variable but is not off color.

(iii) Frozen broccoli that fails to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(2) *Uniformity of size.* (i) "Diameter" of a stalk, whether or not cut longitudinally, means the greatest crosswise dimension measured 1 inch above the lowest portion of the main stem of the stalk at approximate right angles to the length.

(ii) Frozen broccoli that is practically uniform in size may be given a score of 17 to 20 points. "Practically uniform in size" has the following meanings with respect to the following styles:

Stalks. The longest stalk does not exceed the shortest stalk by more than 2 inches and in the 90 percent, by count, of stalks which have the most uniform lengths, the length of the longest stalk does not exceed the length of the shortest stalk by more than 1 inch; and the diameter of the stalk with the greatest diameter does not exceed the diameter of the stalk with the shortest diameter by more than 1 inch and in the 90 percent, by count, of stalks which have the most uniform diameters, the diameter of the stalk with the greatest diameter does not exceed the diameter of the stalk with the shortest diameter by more than ¾ inch.

Cuts; pieces. Not more than 5 percent, by weight, of the units may be longer than 2 inches.

(iii) If the frozen broccoli is reasonably uniform in size, a score of 14 to 16 points may be given. "Reasonably uniform in size" has the following meanings with respect to the following styles:

Stalks. In the 90 percent, by count, of stalks which have the most uniform lengths, the length of the longest stalk does not exceed the length of the shortest stalk by more than 2 inches; and in the 90 percent, by count, of stalks which have the most uniform diameters, the diameter of the stalk with the greatest diameter does not exceed the diameter of the stalk with the shortest diameter by more than ¾ inch.

Cuts; pieces. Not more than 10 percent, by weight, of the units may be longer than 2½ inches.

(iv) Frozen broccoli that fails to meet the requirements of subdivision (iii) of this subparagraph may be given a score of 0 to 13 points and shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule).

(3) *Absence of defects.* The factor of absence of defects refers to the degree of freedom from grit, harmless extraneous materials, detached fragments, loose leaves, loose pieces of leaves, and poorly trimmed stalks; and from units that are damaged or seriously damaged.

(i) "Grit" means sand or other rough, hard particles of earthy sediment.

(ii) "Harmless extraneous material" means vegetable substances other than broccoli, such as weeds and grass and any portions thereof, that are harmless.

(iii) "Loose leaves and loose pieces of leaves" means leaves or pieces of leaves not attached to a unit.

[1] The amount of head material is determined by averaging the weight of the head material from all containers comprising the sample, provided no single container contains less than 25 percent by weight of head material.

(iv) "Detached fragments" means any detached portions of stalks including bud clusters, shattered materials, portions of stems without bud clusters regardless of size or length, and portions of stems with bud clusters, which portions are 2 inches or less in the greatest straight dimension.

(v) "Poorly trimmed" means that the appearance of the stalk is seriously affected by attached leaves and by ragged or partial trimming of the leaves, by ragged or partial removal of leaves, and poor cutting of the stem of the stalk.

(vi) "Damaged" means discoloration, mechanical injury, pathological injury, insect injury, hollow stems, pithy stems, or other injuries which, singly or in combination, on a unit or in a unit materially affect the appearance or eating quality of the unit.

(vii) "Seriously damaged" means damaged to such an extent that the appearance or eating quality of the unit is seriously affected.

(viii) Frozen broccoli that is practically free from defects may be given a score of 17 to 20 points. "Practically free from defects" has the following meanings with respect to the following styles:

Stalks. No grit that affects the appearance or eating quality may be present; not more than one piece of harmless extraneous material may be present for each 20 ounces of net weight; detached fragments, loose leaves, and loose pieces of leaves that do not materially affect the appearance may be present; and stalks that are poorly trimmed, damaged, or seriously damaged do not exceed 10 percent, by count, of all the stalks, but of such 10 percent, not more than one-half thereof, or not more than 5 percent by count of all the stalks, may be seriously damaged. One stalk in a single container is permitted to be poorly trimmed, damaged, or seriously damaged if such stalk exceeds the respective allowances of 10 percent or 5 percent, provided that in all containers comprising the sample such poorly trimmed, damaged, or seriously damaged stalks do not exceed an average of 10 percent, by count, but of such 10 percent average, not more than one-half thereof, or not more than an average of 5 percent, may be seriously damaged.

Cuts; pieces. No grit that affects the appearance or eating quality may be present; not more than one piece of harmless extraneous material may be present for each 20 ounces of net weight; loose leaves and loose pieces of leaves that do not materially affect the appearance may be present; and units that are damaged or seriously damaged do not exceed 8 percent, by weight, but of such 8 percent not more than one-half thereof, or not more than 4 percent, by weight, of all the units, may be seriously damaged.

(ix) If the frozen broccoli is reasonably free from defects, a score of 14 to 16 points may be given. Frozen broccoli that falls into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" has the following meanings with respect to the following styles:

Stalks. No grit that affects the appearance or eating quality may be present; not more than two pieces of harmless extraneous material may be present for each 20 ounces of net weight; detached fragments, loose leaves, and loose pieces of leaves that do not materially affect the appearance may be present; and stalks that are poorly trimmed, damaged, or seriously damaged do not exceed 20 percent, by count, of all the stalks, but of such 20 percent, not more than one-half thereof, or not more than 10 percent, by count, of all the stalks, may be seriously damaged.

Cuts; pieces. No grit that affects the appearance or eating quality may be present; not more than two pieces of harmless extraneous material may be present for each 20 ounces of net weight, loose leaves and loose pieces of leaves that do not materially affect the appearance may be present; and units that are damaged or seriously damaged do not exceed 16 percent, by weight, but of such 16 percent, not more than one-half thereof, or not more than 8 percent, by weight, of all the units, may be seriously damaged.

(x) Frozen broccoli that fails to meet the requirements of subdivision (ix) of this subparagraph may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(4) *Character.* The factor of character refers to the degree of development and tenderness and to the degree of freedom from stringy, fibrous development.

(i) "Well developed" means that the branching bud clusters of the unit form a practically compact head, that the individual buds in the bud clusters are all practically closed, and that the immediate stems supporting the individual buds in the bud clusters show no more than slight elongation.

(ii) "Reasonably well developed" means that the branching bud clusters of the unit may be spread or spreading; that the individual buds in the bud clusters may have reached a moderate stage of enlargement but practically none of the buds are in the flowered or open stage; and that the immediate stems supporting the individual buds in the bud clusters may be moderately elongated.

(iii) After the broccoli has been tested for development, the broccoli is cooked before making the determination for the degree of tenderness and the degree of freedom from fibrous development.

(iv) Frozen broccoli that possesses a good character may be given a score of 34 to 40 points. "Good character" has the following meanings with respect to the following styles:

Stalks. Not less than 80 percent, by count, of the stalks are well developed and the remainder are reasonably well developed; and all of the stalks are tender.

Cuts; pieces. The units are at least reasonably well developed; and the broccoli is tender.

(v) If the frozen broccoli possesses a reasonably good character, 28 to 33 points may be given. Frozen broccoli that falls into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" has the following meanings with respect to the following styles:

Stalks. Not less than 90 percent, by count, of the stalks are at least reasonably well developed; the stalks are reasonably tender and practically free from stringy, fibrous development.

Cuts; pieces. Not less than 95 percent, by weight, of the bud clusters of the units are at least reasonably well developed; the broccoli is reasonably tender and practically free from stringy, fibrous development.

(vi) Frozen broccoli that fails to meet the requirements of subdivision (v) of this subparagraph may be given a score of 0 to 27 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(e) *Tolerances for certification of officially drawn samples.* (1) When certifying samples that have been officially drawn and which represent a specific lot of frozen broccoli, the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if:

(i) Not more than one-sixth of such containers fails to meet all the requirements of the grade indicated by the average of such total scores, and, with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, is within the range for the grade indicated;

(ii) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(iii) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 336, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR, Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.443 (Lemon Regulation 336, 15 F. R. 4078) are hereby amended to read as follows:

(ii) District 2: 675 carloads.

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.444 *Lemon Regulation 337*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR, Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Adminstrative Committee on June 28, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 2, 1950, and ending at 12:01 a. m., P. s. t., July 9, 1950, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 700 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

LIMITATION OF SHIPMENTS

§ 957.306 *Regulation No. 6*—(a) *Findings.* (1) Pursuant to the provisions of Marketing Agreement No. 98 and Order No. 57, as amended (15 F. R. 311), regulating the handling of Irish potatoes grown in certain designated counties in Idaho and in Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and upon the basis of the recommendations and information submitted by the Idaho-Eastern Oregon Potato Committee established under said order, and upon other available information, it is hereby found that the limitation of shipments of such potatoes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impractical and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) shipments of potatoes grown in the production area will increase in volume on the effective date of this order; (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date hereinafter set forth; (iii) no special preparation will be required of handlers to comply with such regulation because such handlers are currently complying with a grade and size regulation (15 F. R. 1101, 3477) that is identical with the minimum grade and size permitted to be handled hereunder; and (iv) the time intervening between the date information necessary for the issuance of this section became available and the time such regulation must become effective to effectuate the declared policy of the act is insufficient.

(b) *Order.* (1) During the period beginning 12:01 a. m., m. s. t., July 1, 1950, and ending 12:01 a. m., m. s. t., June 1, 1951, no handler shall ship potatoes of any variety unless (i) such potatoes are generally fairly clean (which means that 90 percent or more of the potatoes in any lot must be fairly clean), (ii) such potatoes of the Russett Burbank and Long White varieties meet the requirements of the U. S. No. 2 or better grade, and are at least 2 inches minimum diameter or 4 ounces minimum weight, and (iii) such potatoes of the red skin varieties meet the requirements of the U. S. No. 2 or better grade and are at least 1½ inches minimum diameter, as such terms, grades, and sizes are defined in the U. S. Standards for Potatoes (14 F. R. 1955, 2161), including the tolerances set forth therein.

(2) During the period beginning 12:01 a. m., m. s. t., July 1, 1950, and ending 12:01 a. m., m. s. t., November 1, 1950, no handler shall ship potatoes which do not comply with the aforesaid grade and size requirements and which are more than "moderately skinned," as such term is defined in the United States Standards for Potatoes (14 F. R. 1955, 2161), which means that not more than 10 percent of the potatoes in any lot have more than one-half of the skin missing or feathered: *Provided*, That one lot of not to exceed 200 hundredweight of potatoes of each producer may be handled without regard to the aforesaid skinning requirement if the handler thereof reports, prior to such handling, the name and address of the producer of such lot, and such lot is handled as an identifiable entity.

(3) The limitations set forth in subparagraphs (1) and (2) of this paragraph shall not be applicable to shipments of potatoes for the following purposes: (i) Seed, (ii) export, (iii) sale to the Federal government under programs authorized by the Secretary of Agriculture, (iv) canning, dehydration, or manufacture or conversion into starch, flour, meal, and alcohol, and (v) livestock feed: *Provided*, That each handler, prior to making special purpose shipments pursuant hereto, shall file an application with the committee to do so, shall have each of such shipments (except shipments of seed potatoes) inspected, and shall pay assessments in connection therewith, and for each such shipment made pursuant to subdivisions (ii), (iv), and (v) of this subparagraph, shall furnish a copy of the bill of lading applicable thereto to the committee: *Provided further*, That each handler making shipments of potatoes pursuant to subdivision (ii) of this subparagraph shall include in his application applicable thereto, the export certificate number and shall enter such number on the Federal-State inspection certificate and bill of lading applicable to such shipment, and that each application to ship potatoes pursuant to subdivisions (iv) and (v) of this subparagraph shall be accompanied by the applicant handler's certification and the buyer's certification that the potatoes to be shipped are to be used for the purposes stated in the application.

(3) The terms used in this section shall have the same meaning as when used in Order No. 57 (7 CFR 957.1 et seq.).

PART 961—MILK IN THE PHILADELPHIA, PA., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 961.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as

such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Philadelphia, Pennsylvania, on April 19, 20, 21, 1950, and reopened at Philadelphia on May 10, 11, 12, 1950, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary to make the present amendment to said order, as amended, effective July 1, 1950, to reflect current marketing conditions. Any further delay in the effective date of this order, amending the said order, as amended, will seriously disrupt the orderly marketing of milk for the Philadelphia, Pennsylvania, marketing area. The changes effected by this order, amending the order, as amended, do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing, it is hereby found that good cause exists for making this order effective July 1, 1950 (see sec. 4 (c), Administrative Procedure Act 5 U. S. C. 1003 (c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the Philadelphia, Pennsylvania, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of this order amending the order, as amended, and who during the determined representative period (April 1950) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Philadelphia, Pennsylvania, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 961.3 (b) (2) redesignate subdivision (ii) as (iii) and insert after subdivision (i) the following:

(ii) Milk dumped or disposed of for animal feed.

2. In § 961.4 (a) (1) delete the proviso *"And provided further,* That the price shall be at least $5.02 per hundredweight for each of the months of April, May, and June 1950," and substitute *"And provided further,* That the price shall be at least $5.24 per hundredweight for each of the months of July, August, and September 1950."

3. In § 961.4 delete (b) and substitute:

(b) *Butterfat differential.* (1) The Class I price shall be subject to a butterfat differential of 5 cents for each one-tenth of 1 percent variation above or below 4.0 percent.

(2) The Class II price shall be subject to a butterfat differential for each one-tenth of 1 percent variation above or below 4.0 percent, calculated as follows: Divide the average of the cream quotations used in calculating the Class II price by 334.8 and subtract 0.67 cents; or in the case of butterfat in Class II to which the "butter-value" is applicable, divide the butter value by 40.

4. Delete § 961.8 (e) and substitute:

(e) *Additional deductions.* In the case of milk received from producers at plants more than 11 miles from City Hall in Philadelphia, the handler may deduct from the payments otherwise specified in this section to be paid, 7 cents per hundredweight at plants 11 to 16 miles from the City Hall in Philadelphia, and an additional 2 cents per hundredweight for plants within each additional 5 miles in excess of 16 miles but less than 31 miles.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Issued at Washington, D. C., this 27th day of June 1950, to be effective on and after the first day of July 1950.

Secretary of Agriculture.

[Orange Reg. 334]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.480 *Orange Regulation 334*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66, as amended, (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on June 29, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State or Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 2, 1950, and ending at 12:01 a. m., P. s. t., July 9, 1950, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate District No. 1: Unlimited movement;

(b) Prorate District No. 2: 1,400 carloads;

(c) Prorate District No. 3: Unlimited movement.

(ii) *Oranges other than Valencia oranges.* (a) Prorate District No. 1: No movement;

(b) Prorate District No. 2: Unlimited movement;

(c) Prorate District No. 3: No movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "varieties," "carloads," and "porate base" shall have the same meaning as when used in the said amended order; and the terms "Porate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as given to the respective term in § 966.107 of the current rules and regulations (14 F. R. 6588) contained in this part.

Orange Regulation 332 (7 CFR 966.478 15 F. R. 3863) fixes the sizes of designated oranges which may be handled during the aforesaid period.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Suchapter B—Economic Regulations

[Reg., Serial No. ER-157]

PART 234—TRANSPORTATION OF MAIL; PETITIONS FOR DETERMINATION OF RATES

MISCELLANEOUS AMENDMENTS

Adopted by the Civil Aeronautics Board, at its office in Washington, D. C., on the 26th day of June 1950.

Part 234 of the Economic Regulations provides that if the Board shall request the petitioner to supply it with additional information regarding a petition for the determination of rates of compensation for the transportation of mail, such information, except that furnished in formal proceedings, shall be furnished in the form of an amendment to the original petition. This requirement was adopted October 4, 1938, at a time when the Board itself was sitting en banc to hear mail rate cases. Recently, the Board established an informal mail rate conference procedure (Amendment No. 4 to Part 302 of the Procedural Regulations, § 302.19, Serial Number PR-5, adopted and effective December 20, 1949) whereby it is provided that additional information required by the Board's staff for processing mail rate cases under such procedure may be requested by and furnished to the staff, rather than the Board itself. A question has arisen as to the applicability of the first sentence of § 234.3 of the Economic Regulations to the furnishing of certified information by the carrier to the Board's staff, under the informal rate conference procedure. Such procedure was not in existence or contemplated when Part 234 of the Economic Regulations was adopted. The informal conferences do not supplant the established prehearing conference procedure which is part of the formal proceedings and are not to be considered as proceedings. Furthermore, the type and form of data supplied by the carrier under the informal rate conference procedure is of a different nature than that which would be submitted in a formal document such as an amendment to a petition. Consequently, the Board believes that it never was intended that Part 234 would apply to information furnished under the informal conference procedure. However, because some doubt has arisen, and in order to clarify Part 234, the present action amending § 234.3 thereof is taken.

Inasmuch as this amendment is only for the purposes of clarification of present procedures and does not impose any significant additional burden upon the persons affected thereby, and inasmuch as there are several cases pending or imminent under the informal rate conference procedures requiring a minimum of delay in adopting the amendment, notice and public procedure hereon are impractical and unnecessary, and the Board finds that good cause exists for making this amendment effective on less than 30 days' notice.

In consideration of the foregoing, the Board hereby amends Part 234, § 234.3 of the Economic Regulations (14 CFR 234.3) effective June 26, 1950, as follows:

1. By deleting the first sentence which reads: "If, after receipt of any petition, the Board shall request the petitioner to supply it with additional information, such information, except that furnished in formal proceedings, shall be furnished in the form of an amendment to the original petition."

2. By deleting, in the second sentence, the words "Each amendment" and substituting therefor, the words "Any amendment to a petition."

The amended § 234.3 shall then read:

§ 234.3 *Amendments.* Any amendment to a petition (including those made on the petitioner's own initiative) should be consecutively numbered, and shall comply with the requirements of this regulation as to form, number of copies, manner of execution, verification, and all other essential respects. In the event that any petition shall be amended, the amendment shall contain a statement that a copy thereof has been served on the Postmaster General by sending the same to him by registered mail, postpaid, prior to the filing with the Board of such amendment.

By the Civil Aeronautics Board.

PART 203—TITLE I MORTGAGE INSURANCE; ELIGIBILITY REQUIREMENTS

MISCELLANEOUS AMENDMENTS

1. Part 203 is hereby amended by adding the following new section:

§ 203.5a *Certificate of builder regarding charges and fees.* Any application filed on or after July 17, 1950, with respect to proposed construction must be accompanied by a certificate, in form satisfactory to the Commissioner, executed by the builder certifying that he has not paid or obligated himself to pay and will not pay or obligate himself to pay any charges, interest or fees in connection with the financing of the construction or sale of the property described in the application other than (a) customary cost of title search, recording fees, and the application fee, mortgage insurance premiums, and other fees and charges which the mortgagee is required to pay to the Commissioner under this part; (b) interest on the principal amount of any construction loan at a rate not in excess of five percentum per annum; (c) fees and commissions in connection with any construction loan aggregating not in excess of two and one-half percentum of the original principal amount of such loan; (d) fees and commissions in connection with a loan made after completion of construction aggregating not in excess of one percentum of the original principal amount of such loan; and (e) charges paid or to be paid in connection with a mortgage, if any, filed of record prior to July 17, 1950.

2. Part 203 is hereby further amended by changing §§ 203.16 and 203.17 to read as follows:

(b) Payments from a State allotment for venereal disease control shall be reduced by the amount such State requests the Public Health Service to utilize in furnishing equipment, services, and supplies for special venereal disease activities.

(c) All payments shall be made to the State, except, with respect to the heart disease control program, amounts from the State's allotment may be certified for payment to a cooperating agency upon recommendation by the State health authority when (1) the State health authority has not prior to August 1 of the fiscal year for which allotment is made, presented and had approved a plan, or (2) the State is not authorized by law to make payments to a cooperating agency. Funds for heart disease control paid to a cooperating agency and remaining unobligated at the termination of the plan for any fiscal year shall be returned to the Treasury of the United States, unless plans for continued cooperation with such agency are submitted and approved for the succeeding fiscal year.

(d) Subject to the foregoing limitations, payments shall be made as follows:

(1) Payment for the first quarter shall be based upon an application for funds showing the estimated requirement for such quarter.

(2) Except for payment to a cooperating agency, payment for the second quarter shall be the amount of the difference between the unpaid balance of the allotment of the respective State for the first six months and the unencumbered cash balance of the respective fund in the State treasury at the beginning of the first quarter, adjusted for exceptions. With respect to payment to a cooperating agency from the State's allotment, payment in the second quarter shall be based on the requirements for such quarter adjusted for exceptions and for the estimated unobligated balances at the beginning of the quarter as shown in an application for funds.

(3) Payment for subsequent quarters from the allotments for the final six-month period shall be made once in each quarter and shall be based upon an application for funds showing the estimated requirement for such quarter and the estimated unencumbered balance of the respective fund in the State treasury (or with respect to the heart disease control program, in the treasury of the cooperating agency) at the beginning of the quarter for which payment is to be made. All such payments shall be in the amount of the difference between the estimated requirement and the estimated unencumbered cash balance adjusted for exceptions.

(4) Payments from allotments shall not be certified unless an application for payment and all reports and documents prescribed by the regulations in this part to be due have been received.

(5) Supplemental payment in any quarter may be certified upon submission of application accompanied by satisfactory justification.

§ 51.9 *Required expenditure of State and local funds; funds of cooperating agencies.* (a) Moneys paid to any State or to a cooperating agency pursuant to section 314 of the act shall be paid upon the condition that there be expended in the State during the fiscal year for which payment is made and for purposes specified in the plan with respect to which payment is made, public funds of the State and its political subdivision (or, in the case of payments to a cooperating agency having an approved heart disease control plan, funds of the cooperating agency) in amounts which shall be exclusive of any funds derived from loan or grant from the United States and which shall be determined as follows:

(1) With respect to payments for a venereal disease control program, an amount equal to 50 percent of the amount of Federal funds to be expended pursuant to the State plan.

(2) With respect to payments for a tuberculosis control program, an amount equal to 50 percent of the amount of Federal funds to be expended pursuant to the State plan.

(3) With respect to payments for a general health program other than the mental health program, an amount equal to 50 percent of the amount of Federal funds to be expended pursuant to the State plan.

(4) With respect to payments for a mental health program, an amount equal to 50 percent of the amount of Federal funds to be expended pursuant to the State plan.

(5) With respect to payments for a heart disease program, an amount equal to 50 percent of the amount of Federal funds to be expended pursuant to the State plan or, in the absence of a State plan, to the plan of the cooperating agency or agencies.

(b) The expenditures required for any one of the above programs shall be additional to the expenditures required for other programs.

(c) Federal funds paid to a State or cooperating agency shall not be used to conserve State and local funds or the funds of a cooperative agency.

§ 51.10 *Expenditure of Federal funds.* (a) Federal funds paid to a State or to a cooperating agency shall be expended solely for the purposes specified in plans approved by the Surgeon General or his designee, and in accordance with the regulations in this part.

(b) Except as otherwise authorized by the Surgeon General, the provisions of State or local law which are applicable to the expenditure of moneys appropriated by the State or local subdivision shall apply respectively to Federal moneys paid to the State or to a political subdivision of the State as a cooperating agency.

(c) All encumbrances of Federal funds shall be liquidated within two years after the end of the fiscal year in which the encumbrance was incurred unless otherwise authorized by the Surgeon General. The amount of encumbrances not so liquidated, adjusted by such amounts as otherwise authorized, will be treated for the purpose of determining payments under the regulations in this part as constituting a part of the unencumbered cash balance at the end of the second succeeding fiscal year.

§ 51.11 *Use of Federal funds for training.* Use of Federal funds for training personnel for State and local health work shall be authorized by the State health authority or by a cooperating agency in accordance with "Minimum Standards for Sponsored Training of the Public Health Service." Records of authorized training shall be maintained by the State health authority or cooperating agency and shall be audited for compliance with these standards.

§ 51.12 *Personnel administration on a merit basis.* A system of personnel administration on a merit basis shall be established and maintained for personnel employed in programs, the budgets of which provide for the expenditure of Federal funds or of State or local funds for matching purposes included in the plan of the State health authority. Standards for evaluating compliance with this requirement shall be contained in merit-system standards of the Public Health Service in effect at the time of the expenditure.

§ 51.13 *Fiscal accounting and control.* (a) The principal State Accounting Officer shall maintain either (1) a separate and distinct fund account for each Public Health Service grant, or (2) a separate and distinct fund account for each State agency in which all Public Health Service grants may be commingled with other Federal grants (but no other funds) available to such agency.

(b) The State and local public health agencies and cooperating agencies receiving Federal funds under the regulations in this part shall establish and maintain efficient methods for conducting fiscal affairs (including financial and property controls). Each State agency and cooperating agency shall maintain a separate and distinct fund account for each Public Health Service grant.

§ 51.14 *Reports; State health authority; cooperating agencies.* The Surgeon General may require the submission of information pertinent to the operation of the plans and to the purpose of the grants, including the following:

(a) A certification from the State health authority on an official form as to the amount of State and local funds available for carrying out the State plan shall be due in duplicate within 90 days after the beginning of the fiscal year.

(b) A statement in duplicate shall be due on May 15 of each year from the State health authority showing on an official form the estimates of need by fund and functional activity for the year beginning the second succeeding July 1.

(c) Quarterly reports on official forms showing (1) total receipts, expenditures, unliquidated encumbrances, and balances of Federal funds, and (2) for the first three quarters, total quarterly expenditures from Federal grants and other sources for each activity shown in the budget for health services (§ 51.6 (c)) shall be due in duplicate 45 days after the close of the quarter from each State health authority and each cooperating agency having an approved plan.

(d) An annual report on an official form showing total expenditures for the fiscal year from Federal grants and other sources for each activitiy shown in the budget for health services shall be due in duplicate within 90 days after the close of the fiscal year from each State health authority and each cooperating agency having an approved plan.

(e) A report on an official form showing presonnel, facilities and services for each local health organization included in the current State plan shall be due in duplicate on February 15 of each year.

(f) The following reports on official forms shall be submitted by the State health authority with respect to venereal disease activities within 45 days after the close of the period to which they pertain:

(1) A quarterly report on laboratory activities, drug distribution and fees to private physicians.

(2) A quarterly activity report for each cooperative health unit or a summary of such activities by the State health authority.

(3) A quarterly morbidity report with separate report by each city of 200,000 population or over.

(g) The following reports on official forms shall be submitted by the State health authority with respect to tuberculosis control activities within 45 days after the close of the period to which they pertain:

(1) A semiannual report on mass chest surveys, and tuberculosis morbidity, and mortality, with separate report for cities of 500,000 population or over.

(2) An annual report on clinic and nursing services.

§ 51.15 *Audit.* Audit of the activities and programs described in the plan may be made after prior consultation with the State health authority or the cooperating agency. Records, documents, and information available to the State health authority or cooperating agency pertinent to the audit shall be accessible for purposes of audit.

FROZEN CONCENTRATED GRAPEFRUIT JUICE

UNITED STATES STANDARDS FOR GRADES[1][2]

Notice is hereby given that the United States Department of Agriculture is considering the issuance, as herein proposed, of United States Standards for Grades of Frozen Concentrated Grapefruit Juice, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1950 (Pub. Law 146, 81st Cong., approved June 29, 1949). These standards, if made effective, will be the first issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standards should file the same, in duplicate, with the Chief, Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than June 1, 1951.

The proposed standards are as follows:

§ 52.368 *Frozen concentrated grapefruit juice.* Frozen concentrated grapefruit juice is the frozen product of concentrated, unfermented juice obtained from sound, mature grapefruit (Citrus paradisi). The fruit is prepared by sorting and washing prior to extraction of the juice to assure a clean product. Upon extraction of such juice, it is concentrated; and single-strength grapefruit juice is admixed to the concentrate. The concentrated grapefruit juice is packed in accordance with good commercial practice and is frozen and stored at temperatures necessary for the preservation of the product. It is recommended that frozen concentrated grapefruit juice during storage and in transit be maintained at temperatures of 0° Fahrenheit or less.

(a) *Styles of frozen concentrated grapefruit juice*—(1) *Style I, without sweetening ingredient added.* The Brix value of the finished concentrate shall be not less than 38 degrees nor more than 42 degrees.

(2) *Style II, with sweetening ingredient added.* The finished concentrate, exclusive of added sweetening ingredient, has a Brix value of not less than 36 degrees; and the finished concentrate, including added sweetening ingredient, shall have a Brix value of not less than 38 degrees but not more than 48 degrees.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

[2] The requirements of these standards shall not excuse failure to comply with applicable State laws and regulations.

(b) *Grades of frozen concentrated grapefruit juice.* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen concentrated grapefruit juice which reconstitutes properly and of which the reconstituted juice possesses the appearance of fresh grapefruit juice; possesses a very good color; is practically free from defects; possesses a very good flavor; and scores not less than 85 points when scored in accordance with the scoring system outlined in this section.

(2) "U. S. Grade B" or "U. S. Choice" is the quality of frozen concentrated grapefruit juice which reconstitutes properly and of which the reconstituted juice possesses a good color; is reasonably free from defects; possesses a good flavor; and scores not less than 70 points when scored in accordance with the scoring system outlined in this section.

(3) "U. S. Grade D" or "Substandard" is the quality of frozen concentrated grapefruit juice that fails to meet the requirements of U. S. Grade B or U. S. Choice.

(c) *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that the container be filled with frozen concentrated grapefruit juice as full as practicable without impairment of quality.

(d) *Ascertaining the grade.* The grade of frozen concentrated grapefruit juice is ascertained by considering in conjunction with the requirements of the respective grade, the respective ratings for the factors of color, absence of defects, and flavor. The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given each factor is:

Factors:	Points
(1) Color	20
(2) Absence of defects	40
(3) Flavor	40
Total score	100

(e) *Ascertaining the rating for each factor.* The essential variations within each factor are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

(1) *Color.* (i) Frozen concentrated grapefruit juice of which the reconstituted juice possesses a very good color may be given a score of 17 to 20 points. "Very good color" means that the color is bright and typical of freshly extracted grapefruit juice and is free from any trace of browning.

(ii) If the reconstituted juice possesses a "good color," a score of 14 to 16 points may be given. Frozen concentrated grapefruit juice that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Good color" means that the color is typical of freshly extracted grapefruit juice which may be slightly dull or show traces of browning but is not off color for any reason.

(iii) If the reconstituted juice fails to meet the requirements of subdivision (ii) of this subparagraph, a score of 0 to 13 points may be given. Frozen concentrated grapefruit juice that falls into this classification shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(2) *Absence of defects.* The factor of absence of defects refers to the degree of freedom from seeds and portions thereof, from excessive juice cells, from free and suspended pulp, from recoverable oil, and from other defects.

(i) "Free and suspended pulp" means particles of membrane, core, skin, and other similar extraneous materials in the reconstituted grapefruit juice.

(ii) Frozen concentrated grapefruit juice of which the reconstituted juice is practically free from defects may be given a score of 34 to 40 points. "Practically free from defects" means that there may be present: (*a*) Small seeds or portions thereof that pass through a screen with perforations not exceeding ⅛ inch in diameter, provided such seeds or portions thereof do not materially affect the appearance or drinking quality of the juice; (*b*) juice cells that do not materially affect the appearance or drinking quality of the juice; (*c*) other defects that are not more than slightly objectionable; and (*d*) not more than 10 percent free and suspended pulp. To score in this classification the frozen concentrated grapefruit juice may contain not more than 0.040 milliliter of recoverable oil per 100 grams of the concentrated product.

(iii) If the reconstituted juice is reasonably free from defects, a score of 28 to 33 points may be given. Frozen concentrated grapefruit juice that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that there may be present: (*a*) Small seeds or portions thereof that pass through a screen with perforations not exceeding ⅛ inch in diameter, provided such seeds or portions thereof do not seriously affect the appearance or drinking quality of the juice; (*b*) juice cells that do not seriously affect the appearance or drinking quality of the juice; (*c*) other defects that are not materially objectionable; and (*d*) not more than 15 percent free and suspended pulp. To score in this classification the frozen concentrated grapefruit juice may contain not more than 0.048 milliliter of recoverable oil per 100 grams of the concentrated product.

(iv) Frozen concentrated grapefruit juice that fails to meet the requirements of subdivision (iii) of this subparagraph may be given a score of 0 to 27 points and shall not be graded above U. S. Grade D or Substandard, regardless of

the total score for the product (this is a limiting rule).

(3) *Flavor.* (i) Frozen concentrated grapefruit juice of which the reconstituted juice possesses a very good flavor may be given a score of 34 to 40 points. "Very good flavor" means that the flavor is fine, distinct, and reasonably typical of freshly extracted grapefruit juice. To score not less than 34 points, frozen concentrated grapefruit juice shall meet the following requirements for the respective style:

Style I, without sweetening ingredient added. The ratio of Brix value to acid is not less than 8 to 1 nor more than 14 to 1 (see table I).

Style II, with sweetening ingredient added. The ratio of Brix value to acid is not less than 10 to 1 nor more than 13 to 1 (see table II).

(ii) If the reconstituted juice possesses a good flavor, a score of 28 to 33 points may be given. Frozen concentrated grapefruit juice that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule), "Good flavor" means that the flavor is fairly typical of freshly extracted grapefruit juice and is free from abnormal flavors and off flavors of any kind. To score not less than 28 points frozen concentrated grapefruit juice shall meet the following requirements for the respective style:

Style I, without sweetening ingredient added. The ratio of Brix value to acid is not less than 7 to 1 nor more than 16 to 1 (see table I).

Style II, with sweetening ingredient added. The ratio of Brix value to acid is not less than 8 to 1 nor more than 13 to 1 (see table II).

(iii) If the frozen concentrated grapefruit juice fails to meet the requirements of subdivision (ii) of this subparagraph, a score of 0 to 27 points may be given. Frozen concentrated grapefruit juice that falls into this classification shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

(f) *Definitions of terms as used in these standards.* (1) "Reconstituted juice" means the product obtained by mixing thoroughly 3 parts by volume of distilled water and 1 part by volume of frozen concentrated grapefruit juice.

(2) "Reconstitutes properly" means that the reconstituted juice shows no material separation of colloidal or suspended matter, leaving a zone of definitely clear liquid without any turbidity, after standing four (4) hours at a room temperature of not less than 68 degrees Fahrenheit in a clear glass tube or cylinder (such as a 50 ml. graduated cylinder).

(3) "Acid" means the percent by weight of acid (calculated as anhydrous citric acid) in frozen concentrated grapefruit juice.

(4) "Brix value" in frozen concentrated grapefruit juice is the refractometric sucrose value determined in accordance with the International Scale

of Refractive Indices of Sucrose Solutions and to which the applicable correction for acid is added. (See Table III for corrections).

(g) *Explanation of analyses.* (1) The measurement of Brix value is determined on the thawed concentrate in accordance with the refractometric method for sugars and sugar products, outlined in the Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists.

(2) "Acid," calculated as anhydrous citric acid, is determined by titration with standard sodium hydroxide solution, using phenolphthalein as indicator.

(3) "Recoverable oil" is determined by the following method:

(i) *Equipment.* Oil separatory trap similar to either of those illustrated in Figure 1 and Figure 2,[1] gas burner or hot plate, ringstand and clamps, rubber tubing, and 3-liter narrow-neck flask.

(ii) *Procedure.* Exactly 400 grams of the thawed concentrate mixed with water to approximately two liters are placed in a 3-liter flask. Close the stopcock, place distilled water in the graduated tube, run cold water through the condenser from the bottom to top, and bring the solution to a boil. Boiling is continued for one hour at the rate of approximately 50 drops per minute.

By means of the stopcock, lower the oil into the graduated portion of the separatory trap, remove the trap from the flask, allow it to cool, and record the amount of oil recovered.

The number of milliliters of oil recovered divided by 4 equals the volume of recoverable oil per 100 grams of concentrate.

(4) "Free and suspended pulp" is determined by the following method: Graduated centrifuge tubes with a capacity of 50 ml. are filled with the reconstituted grapefruit juice and placed in a suitable centrifuge. The speed is adjusted, according to diameter, as indicated in Table IV, and the juice is centrifuged for exactly 10 minutes. As used herein, "diameter" means the over-all distance between the bottoms of opposing centrifuge tubes in operating position. After centrifuging, the milliliter reading at the top of the layer of pulp in the tube is multiplied by 2 to give the percentage of pulp.

HANDLING OF IRISH POTATOES GROWN IN NASSAU AND SUFFOLK COUNTIES IN NEW YORK

FINDINGS AND DETERMINATIONS ON RESULTS OF REFERENDUM ON PROPOSED MARKETING ORDER

Pursuant to Public Act No. 10, 73d Congress (May 12, 1933) as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Part 900), a public hearing was held at Riverhead, New York, on February 27–March 2, 1950, pursuant to notice thereof which was published in the FEDERAL REGISTER (15 F. R. 741), upon a proposed marketing agreement and a proposed marketing order regulating the handling of potatoes grown in Nassau and Suffolk Counties in New York. The recommended decision (15 F. R. 2241) of the Assistant Administrator, Production

and Marketing Administration, and the decision (15 F. R. 3057) of the Acting Secretary of Agriculture, setting forth a proposed marketing agreement and order as the appropriate and detailed means for effectuating the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, were published in the FEDERAL REGISTER on April 21 and May 19, 1950, respectively. The Acting Secretary also issued an order (15 F. R. 3062) directing that a referendum be conducted among producers of potatoes grown in Nassau and Suffolk Counties in New York to determine whether the requisite majority of such producers favor the issuance of the proposed marketing order.

It is hereby found and determined, on the basis of the results of the referendum conducted pursuant to the aforesaid referendum order, that the issuance of the proposed marketing order regulating the handling of Irish potatoes grown in Nassau and Suffolk Counties in New York, is not approved or favored by the requisite percentage of producers or of the total volume of production voting in the aforesaid referendum.

It is hereby further determined that the proposed marketing order set forth in the Acting Secretary's decision of May 16, 1950 (15 F. R. 3057), cannot be made effective because of the failure of producers to approve or favor its issuance by the requisite percentage of producers or of the total volume of production voting in the referendum conducted among such producers.

[No. 11]

OCEAN TUGS, AUXILIARY (ATA-121 CLASS)

RANGE LIGHTS

Whereas, section 360, 33 U. S. C., provides that any requirement as to the number, position, range of visibility or arc of visibility of navigation lights, required to be displayed by naval vessels under acts of Congress, as enumerated in said section 360, 33 U. S. C., shall not apply to any vessel of the Navy where the Secretary of the Navy shall find or certify that, by reason of special construction, it is not possible with respect to such vessel or class of vessels to comply with statutory requirements as to the number, position, range of visibility or arc of visibility of navigation lights; and

Whereas, a study of the arrangement and position of the navigation lights of that type of naval vessels known as Ocean Tugs, Auxiliary, ATA-121 Class, has been made in the Navy Department and, as a result of such study, it has been determined that because of their special construction it is not possible for Ocean Tugs, Auxiliary, ATA-121 Class, to com-

ply with the requirements of the statutes enumerated in said section 360, 33 U. S. C.;

Now, therefore, I Francis P. Matthews, Secretary of the Navy, as a result of the aforesaid study do hereby find and certify that the type of naval vessels known as Ocean Tugs, Auxiliary, ATA–121 Class, are naval vessels of special construction and that on such vessels, with respect to the position of the additional white light (commonly termed the range light), it is not possible to comply with the requirements of the statutes enumerated in section 360, 33 U. S. C. Further, I do find and certify that it is feasible to locate the said additional white light (commonly termed the range light), if such light is installed, forward of the masthead light in such position that the said additional white light and the masthead light shall be in line with the keel and the after light shall be at least fifteen feet higher than the forward light and the vertical distance between the two lights shall be less than the horizontal distance. I further direct that the aforesaid additional white light, if such light is installed, shall be located in the manner above described and I further certify that such location constitutes compliance as closely with the applicable statutes as I hereby find to be feasible.

RADIO STATION KRMD (KRMD) AND LAKEWOOD BROADCASTING CO.

ORDER SCHEDULING HEARING

In re applications of Radio Station KRMD (KRMD) Shreveport, Louisiana, Docket No. 8919, File No. BP–5983; Eldridge C. Harrell and Delbert Davison, d/b as Lakewood Broadcasting Company, Dallas, Texas, Docket No. 8714, File No. BP–6309; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 22d day of June 1950;

The Commission, having under consideration a petition filed December 1, 1949, by Eldridge C. Harrell and Delbert Davison, d/b as Lakewood Broadcasting Company requesting reconsideration and grant without hearing of its above-entitled application for construction permit for a new standard broadcast station at Dallas, Texas to operate on 1480 kc, with power of 1 kilowatt, unlimited time, employing a directional antenna both day and night;

It appearing, that, the above-entitled application was by order of August 11, 1949, designated for consolidated hearing with the conflicting applications of Evangeline Broadcasting Co., Inc. (KVOL), Lafayette, Louisiana and of Radio Station KRMD (KRMD), Shreveport, Louisiana to determine whether objectionable interference with the proposed operations of Stations KVOL and KRMD and with the existing operations of Station KPLT, Paris, Texas; and that North Texas Broadcasting Company, licensee of Station KPLT, was made a party to this proceeding; and

It further appearing, that on November 14, 1949 leave was granted to petitioner to amend its application to make certain changes in its directional antenna system; and that on December 6, 1949 the hearing scheduled herein was continued indefinitely; and

It further appearing, that upon reconsideration of the Lakewood Broadcasting Company application, as amended, and of the aforesaid petition, the proposed operation will involve objectionable interference with the existing operations of Station KPLT and with the proposed operation of Station KRMD; and that for this reason, among others, the Commission is unable to determine that a grant of the said application would serve public interest; and

It further appearing, that, petitioner has accordingly failed to make the necessary showing required by §§ 1.386 and 1.382 of the Commission's rules and regulations governing petitions for reconsideration and grants without hearing;

It is ordered, That, the aforesaid petition of the Lakewood Broadcasting Company for reconsideration and grant of its above-entitled application without hearing is denied; and

It is further ordered, That, the hearing in the above-entitled proceeding heretofore continued indefinitely be scheduled to commence at 10 a. m. on the 20th day of November 1950 at Washington, D. C.

TRI-BOROUGH BROADCASTING CO. (WAVL)

ORDER SCHEDULING HEARING

In re application of Cecil F. Clifton and Andrew J. West d/b as Tri-Borough Broadcasting Company (WAVL), Apollo, Pennsylvania, for construction permit; Docket No. 9545, File No. BP–7142.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 22d day of June 1950;

The Commission, having under consideration a petition acompanied by an engineering affidavit, filed January 25, 1950, and supplemented on February 3, 1950, by Cecil F. Clifton and Andrew J. West, d/b as Tri-Borough Broadcasting Company, requesting reconsideration and grant without hearing of the above-entitled application for construction permit to increase the hours of operation of Station WAVL, Apollo, Pennsylvania, from daytime only to unlimited time, using power of 100 watts at night and to make changes in the vertical antenna;

It appearing, that, by order of January 4, 1950, the above-entitled application was designated for hearing to determine, among other things, whether the installation and operation of Station WAVL as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular reference to the following matters: type of transmitter to be used, coverage of the city of Apollo,

and assignment of a Class IV station to a regional channel; and

It further appearing, that, on March 10, 1950, the hearing on the above-entitled application was continued indefinitely pending consideration of the above-described petition; and

It further appearing, that, upon reconsideration of the above-described application, in the light of the information submitted with the aforesaid petition, the installation and operation of Station WAVL as proposed would not be in compliance with the Commission's rules and standards in that the type of transmitter to be used would be in violation of § 3.41 of the rules, coverage of the city of Apollo would not meet the requirements of the standards, and the proposed operation would not satisfy the conditions set forth in the standards for assignment of a Class IV station to a regional channel; and that for these reasons, among others, the Commission is unable to determine that a grant of said application would serve the public interest;

It is ordered, That, the aforesaid petition of Tri-Borough Broadcasting Company for reconsideration and grant without hearing of its above-entitled application is denied; and

It is further ordered, That, the hearing in the above-entitled proceeding, heretofore continued indefinitely pending action on the instant petition, be scheduled to commence at 10:00 a. m. on the 24th day of November 1950 at Washington, D. C.

5. To determine whether the operation of Stations KWOC and WTAD as proposed would involve objectionable interference each with the other or with the services proposed in the application of Independent Broadcasting Company (File Number BP-7005, Docket Number 9582) or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Stations KWOC and WTAD as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to whether the proposed operation of Station KWOC meets those provisions pertaining to the assignment of stations where objectionable interference would be received to a field intensity contour greater than that specified for a station of its class.

7. To determine the overlap, if any, that will exist between the service areas of Station KFAB, Omaha, Nebraska, and the proposed operation of Station WTAD, the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35 of the Commission's rules.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding, should be granted.

It is further ordered, That the order of the Commission dated February 8, 1950, designating for hearing the above-entitled application of A. L. McCarthy and J. H. Wolpers d/b as Radio Station KWOC is amended to include the application of Lee Broadcasting, Incorporated, and to revise all issues therein to include and conform with all issues specified herein; and
