TITLE 3—THE PRESIDENT EXECUTIVE ORDER 10392

ESTABLISHING THE PRESIDENT'S COMMISSION ON IMMIGRATION AND NATURALIZATION

By virtue of the authority vested in me as President of the United States, it is hereby ordered as follows:

SECTION 1. There is hereby established in the Executive Office of the President a commission to be known as the President's Commission on Immigration and Naturalization, which shall be composed of a Chairman, a Vice Chairman, and five other members, all of whom shall be designated by the President.

SEC. 2. The Commission is authorized and directed to make a survey and evaluation of the immigration and naturalization policies of the United States, and shall make recommendations to the President for such legislative, administrative, or other action as in its opinion may be desirable in the interest of the economy, security, and responsibilities of this country. The Commission shall give particular consideration to:

(a) the requirements and administration of our immigration laws with respect to the admission, naturalization and denaturalization of aliens, and their exclusion and deportation;

(b) the admission of immigrants into this country in the light of our present and prospective economic and social conditions and of other pertinent considerations; and

(c) the effect of our immigration laws and their administration, including the national origin quota system, on the conduct of the foreign policies of the United States, and the need for authority to meet emergency conditions such as the present overpopulation of parts of Western Europe and the serious refugee and escapee problems in such areas.

SEC. 3. In performing its functions under this order, the Commission may prescribe such rules of procedure, and may hold such public hearings and hear such witnesses as it may deem appropriate.

SEC. 4. All executive departments and agencies of the Federal Government are authorized and directed to cooperate with the Commission in its work and to

furnish the Commission such assistance, not inconsistent with law, as it may require in the performance of its functions.

SEC. 5. The expenditures of the Commission shall be paid out of an allotment made by the President from the appropriation entitled "Emergency Fund for the President—National Defense" in Title I of the Independent Offices Appropriation Act, 1953 (Public Law 455, 82nd Congress), approved July 5, 1952. Such payments shall be made without regard to the provisions of (a) section 3681 of the Revised Statutes (31 U. S. C. 672), (b) section 9 of the Act of March 4, 1909, 35 Stat. 1027 (31 U. S. C. 673), and (c) such other laws as the President may hereafter specify. The members of the Commission shall receive such compensation and expense allowances, payable out of the said allotment, as the President shall hereafter fix, except that no compensation shall be so fixed with respect to any person while receiving other compensation from the United States.

SEC. 6. The Commission shall make a final written report to the President not later than January 1, 1953, including its recommendations for legislative, administrative or other action. The Commission may also make such earlier reports to the President as it may deem appropriate. The Commission shall cease to exist 30 days after rendition of its final report to the President.

Board). The Board shall consist of three members, appointed by the President, one of whom shall be designated from the Department of State, one from the Department of Defense, and one from the Department of Justice. Each member shall designate an officer or employee of his department as an alternate member of the Board, who while participating as a member of the Board shall have the same status and functions as the member designating him.

2. The Board shall make the necessary investigations in, and advise the President with respect to, those cases in which a decision of the Government of the United States is required on recommendation by the Government of Japan for clemency, reduction of sentence, or parole, with respect to sentences imposed on Japanese war criminals by tribunals

established by the Government of the United States or by the International Military Tribunal for the Far East. In making its investigations, the Board may examine witnesses and take testimony to the extent deemed necessary or advisable.

3. The Board shall determine its own procedure and shall act by majority vote. The member designated from the Department of State, or his alternate, shall serve as Chairman. The Board may prescribe rules and regulations deemed necessary or desirable for carrying out the purposes of this Order.

4. Consonant with law, including section 214 of the Act of May 3, 1945, 59 Stat. 134 (31 U. S. C. 691), each member and alternate member of the Board shall receive from the department from which he is designated his compensation as an officer or employee of that department but shall receive no additional compensation by reason of service as a member or alternate member of the Board, and the Department of State shall furnish the Board necessary accommodations and facilities. So much of the other expenditures of the Board (including such travel expenses of, and other expense allowances for, members and alternate members of the Board as the President shall hereafter fix) as may be within the limits of an allotment to be made by the President from the appropriation entitled "Emergency Fund for the President—National Defense" in Title I of the Independent Offices Appropriation Act, 1953 (Public Law 455, 82nd Congress, approved July 5, 1952), shall be paid from the said allotment. Payments from such allotment shall be made without regard to provisions of (a) section 3681 of the Revised Statutes (31 U. S. C. 672), (b) section 9 of the Act of March 4, 1909, 35 Stat. 1027 (31 U. S. C. 673), and (c) such other laws as the President may hereafter specify.

PART 364—SETTLEMENT

MISCELLANEOUS AMENDMENTS

1. Section 364.1 (a) (1), Title 6, Code of Federal Regulations (16 F. R. 11799), is revised to exclude settlement actions on debts arising from loans made from the Utah and Wisconsin Rural Rehabilitation Corporation trust funds, and to read as follows:

§ 364.1 General—(a) Purpose and scope. (1) * * *

- (i) Farm Ownership loans;
- (ii) Other Real Estate loans, except indebtedness under rent accounts, D-1 and other leases, and cancelled Lease and Purchase Contracts;
- (iii) Farm Housing loans made under 63 Stat. 432;
- (iv) Water Facilities loans made under 50 Stat. 869, as amended;
- (v) 1948 Flood Damage loans made under 62 Stat. 1038, as amended;

(vi) Property Damage loans made under 63 Stat. 82; and

(vii) Disaster, Fur, and other loans made under 63 Stat. 43, as amended;

(viii) Loans made from State Rural Rehabilitation Corporation funds in the States of Utah and Wisconsin.

(R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 2 (d), 64 Stat. 99; 40 U. S. C. 440 (d))

2. Section 364.2 (a) (2), Title 6, Code of Federal Regulations (16 F. R. 11799), is revised to exclude settlement actions on debts arising from loans made from the Utah and Wisconsin State Rural Rehabilitation Corporation trust funds and to read as follows:

§ 364.2 Compromise and adjustment of debts upon application. (a) * * *

(2) Rural Rehabilitation loans, including those made from State Rural Rehabilitation Corporation funds except those of the Utah and Wisconsin State Rural Rehabilitation Corporations.

(R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 2 (d), 64 Stat. 99; 40 U. S. C. 440 (d))

3. Section 364.5 (b) (2), Title 6, Code of Federal Regulations (16 F. R. 11800), is revised to specify the State Rural Rehabilitation Corporations whose debts may be charged-off without application if the debt is not in excess of \$100, and to read as follows:

§ 364.5 Cancellation and charge-off of debts without application when the debt is not in excess of \$100. * * *

(2) Loans made from funds of the California, Iowa, Kansas, Kentucky, Oregon, Tennessee and Wyoming State Rural Rehabilitation Corporations.

(R. S. 161; 5 U. S. C. 22)

4. Section 364.6 (b) (2), Title 6, Code of Federal Regulations (16 F. R. 11801), is revised to specify the State Rural Rehabilitation Corporations whose debts may be charged-off without application and without regard to the amount of the debt, and to read as follows:

§ 364.6 Cancellation and charge-off of debts without application and without regard to the amount of the debt. * * *

(2) Loans made from funds of the California, Iowa, Kansas, Kentucky, Oregon, Tennessee and Wyoming State Rural Rehabilitation Corporations.

(R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 2 (d), 64 Stat. 99; 40 U. S. C. 440 (d))

5. Section 364.8 is amended to add in paragraph (a) the word "charge-off" and to add a new paragraph (f) which requires the prior written consent of the North Carolina Rural Rehabilitation Corporation on debt settlement actions involving the Corporations claims. Paragraphs (a) and (f) read as follows:

§ 364.8 State Office handling. (a) Subject to the policies, procedures, and limitations set forth in this part, State Directors are authorized to approve the compromise, adjustment, and cancellation of debts due the Farmers Home Administration upon application by borrowers, and to cancel or charge-off debts

due the Farmers Home Administration. This authority may be redelegated to Assistant State Directors and Chiefs responsible for Production Loan operations, upon special authorization from the Administrator.

(f) State Directors may not compromise, adjust or cancel claims of the North Carolina Rural Rehabilitation Corporation without prior written approval of the Corporation.

(R. S. 161; 5 U. S. C. 22)

[SEAL] DILLARD B. LASSETER,
Administrator,
Farmers Home Administration.

AUGUST 18, 1952.

Approved: September 2, 1952.

CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 450, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.557 (Lemon Regulation 450, 17 F. R. 7920) are hereby amended to read as follows:

(ii) District 2: 350 carloads.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 4th day of September 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-9845; Filed, Sept. 5, 1952; 9:02 a. m.]

[Lemon Reg. 451]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.558 *Lemon Regulation 451*—(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 P. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 3, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among han-

dlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) Order. (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 7, 1952, and ending at 12:01 a. m., P. s. t., September 14, 1952, is hereby fixed as follows:

- (i) District 1: Unlimited movement;
- (ii) District 2: 300 carloads;
- (iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handler," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 4th day of September 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53092]

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

INVOICES FOR ARTICLES OF IRON, STEEL, ALUMINUM, AND ALLOYS CONTAINING ALUMINUM

In order to assist collectors of customs in properly classifying the iron and steel articles provided for in the paragraphs enumerated in paragraph 305, Tariff Act of 1930, and the aluminum and alloys containing aluminum provided for in paragraphs 302 (j) and 374 of the tariff act, except the coils, plates, sheets, bars, rods, circles, disks, blanks, strips, rectangles, and squares specified in the last-mentioned paragraph, customs invoices for such products shall contain, in addi-

tion to all other information required by law or regulations, a statement of the percentages by weight of any metallic element used as an alloy in the articles.

This requirement shall be effective as to certified or commercial invoices filed after the expiration of 30 days after the publication of this ruling in the weekly Treasury Decisions.

Section 8.13 (i), Customs Regulations of 1943 (19 CFR 8.13 (i)), as amended, is further amended by adding the following to the list of merchandise with respect to which additional information is required to be furnished on customs invoices, and by placing opposite such addition the number and date of this Treasury Decision:

Articles of iron or steel provided for in any paragraph enumerated in paragraph 305, Tariff Act of 1930, and the aluminum and alloys containing aluminum provided for in paragraphs 302 (j) or 374 of the tariff act, except the coils, plates, sheets, bars, rods, circles, disks, blanks, strips, rectangles, and squares specified in the last-mentioned paragraph.

(Secs. 481, 624, 46 Stat. 720, 759; 19 U. S. C. 1481, 1624)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: August 29, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 52-9783; Filed, Sept. 5, 1952;
8:56 a. m.]

[T. D. 53093]

PART 16—LIQUIDATION OF DUTIES

EFFECTIVE DATE OF CHANGE IN CLASSIFICATION

Whenever it is necessary to issue an administrative ruling imposing a higher rate of duty or charge on an imported article than has been assessed under an established and uniform practice, the ruling is made effective only as to merchandise entered for consumption or withdrawn from warehouse for consumption after the expiration of 30 days after the date of publication of such ruling in the weekly Treasury Decisions. It has been concluded that a period of 30 days is not sufficiently long to accomplish the purposes of section 315, Tariff Act of 1930, as amended, and the applicable customs regulations.

Accordingly, §§ 16.10 (a) and 16.10a (c), Customs Regulations of 1943 (19 CFR 16.10 (a), 16.10a (c)), are amended by deleting the figure "30" and inserting in its place the figure "90."

(Secs. 315, 502, 624, 46 Stat. 695, as amended; 731, 759; 19 U. S. C. 1315, 1502, 1624)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: August 29, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

8:55 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter G—Procurement

ARMY PROCUREMENT PROCEDURE; MISCELLANEOUS AMENDMENTS

PART 590—GENERAL PROVISIONS

Part 590 is amended as indicated below:

1. In § 590.355-3 (d), subparagraph (4) is rescinded.

2. In § 590.603-3, paragraphs (c) and (d) are amended, and paragraph (e) is added, as follows:

§ 590.603-3 *Contracts required to be numbered.*

(c) All contracts shall be unnumbered except in the following instances:

(2) Where later determination is made that more than one payment and/or collection is involved, payments, not to exceed five in number on any given contract, may be made with respect to partial deliveries under unnumbered contracts: *Provided*, That the original signed contract is attached to the first payment voucher, and the following information is included on each subsequent payment under the contract: Name of Disbursing Officer, period of account, voucher number, amount paid.

(3) Where more than five payments and/or collections become necessary, a number must be assigned to such contract.

(4) Where later determination is made that the amount to be paid or collected equals \$5,000 or more, a number must also be assigned to such contract.

(d) In instances cited in paragraph (c) (1), (3) and (4) of this section, in which payments have been made, a citation to the name of the Disbursing Officer, period of account, and number of the disbursement or collection voucher to which the original unnumbered contract was attached will be furnished promptly to the General Accounting Office by the Contract Officer concerned.

(e) The instructions contained in this section do not apply to DA AGO Form 383 used in connection with the Small Purchases Procedure (Subpart G of this part). See §§ 590.603-2 (b), 590.705-1 (b) and 590.705-10 (e) of this part.

3. Section 590.604-1 is rescinded and the following substituted therefor:

§ 590.604-1 *Personal or professional services—(a) Contracts for employment of experts or consultants—(1) Statutory authority.* (1) Section 15 of the act approved August 2, 1946 (60 Stat. 810; 5 U. S. C. 55a) authorized:

The head of any department, when authorized in an appropriation or other Act, may procure the temporary (not in excess of one year) or intermittent services of experts or consultants or organizations thereof, including stenographic reporting services, by contract, and in such cases such service shall be without regard to the civil-service and classification laws (but as to agencies subject to the Classification Act at rates not in excess of the per diem equivalent of the highest rate payable under the Classification Act, un-

less other rates are specifically provided in the appropriation or other law) and, except in the case of stenographic reporting services by organizations, without regard to section 3709, Revised Statutes, as amended by this act.

(ii) Section 601 of the Department of Defense Appropriation Act, 1953 (Pub. Law 488, 82d Cong.), approved July 10, 1952, provides that:

During the current fiscal year, the Secretary of Defense and the Secretaries of the Air Force, Army, and Navy, respectively, if they should deem it advantageous to the national defense, and if in their opinions the existing facilities of the Department of Defense are inadequate, are authorized to procure services in accordance with section 15 of the act of August 2, 1946 (5 U. S. C. 55a), but at rates for individuals not in excess of \$50 per day, and to pay in connection therewith travel expenses of individuals, including actual transportation and per diem in lieu of subsistence while traveling from their homes or places of business to official duty station and return as may be authorized by law: *Provided*, That such contracts may be renewed annually.

(2) *Approval required.* The following classes of contracts are authorized by section 15 of the act of August 2, 1946, and Section 601 of the Department of Defense Appropriation Act of 1953, and as such require the approval of the Secretary:

(i) Contracts for stenographic reporting services.

(ii) Contracts which provide for performance of personal services by experts or consultants, or organizations thereof, contemplating supervision by Government personnel of the contractor, and not requiring the contractor, as an integral part of the contract, to furnish an end item or product.

Each contract for stenographic reporting services or for personal services of experts and consultants negotiated under the above or any other authority and each supplemental agreement or change order making a material change in such contract, will contain a provision stating that it is subject to the approval of the Secretary and will not be binding until so approved; and the contract or request for award thereof, supplemental agreement, or change order will be forwarded by the Head of the Procuring Activity involved to the Assistant Chief of Staff, G-4, Department of the Army, Attention: Chief, Purchases Branch, for approval by the Secretary. The request for approval will refer specifically to the above-quoted statutory authorities and will furnish a complete statement of facts supporting the determinations required by statute to be made by the Secretary. The request for approval will also include the information required by § 590.605 of this part, if applicable, and will contain a statement as to availability of funds and a reference to the Project Account Number, Appropriation Symbol, and the statutory authority under which appropriated. The request for approval shall also contain a statement or be accompanied by a certificate personally signed by the Head of the Procuring Activity, his Deputy, or his Chief of Staff reading substantially as follows:

The proposed contract is advantageous to and necessary for the national defense; existing facilities of the Army are inadequate to accomplish the required services, and compensation specified therein is considered reasonable.

(3) *Limitation on compensation.* When with an individual, each personal service contract will expressly limit the compensation payable to not more than \$50 per day, plus travel expenses, including actual transportation and per diem in lieu of subsistence while traveling from his home or place of business to official duty station and return.

(b) *Contracts for employment of other than experts or consultants which may involve personal or professional services.* Contracts with individuals or organizations containing any one or more of the following elements will be submitted to the level of the Head of the Procuring Activity involved, for approval:

(1) Payment to the Contractor will be rendered on a time basis.

(2) The contract calls for no definite end item.

(3) The contract provides for or will require supervision by Government personnel of its performance other than the administrative supervision exercised by a Contracting Officer.

This paragraph shall not apply to time and material contracts as set forth in § 592.407 of this subchapter.

4. In § 590.604-4, the date "June 30, 1952" appearing in paragraphs (a) and (b) is changed to read "June 30, 1953".

5. The address of the General Accounting Office contained in §§ 590.606-2, 590.606-3, and 590.606-4 is changed to read "General Accounting Office, Army Audit Branch, 634 North Noble Street, Indianapolis 7, Indiana, Attention: Contract Service Group."

6. Sections 590.809 and 590.810 are rescinded and the following substituted therefor:

§ 590.809 *Instructions for preparation of Procurement Action Report; Monthly Summary (DA Form 377) (Reports Control Symbol CSGLD-534).* (a) This summary will include every new procurement action, as defined in § 590.807, transacted during the month covered by this report, irrespective of the dollar value of any such action. It will include every modification (amendment, change order, or supplemental agreement) to contracts negotiated under paragraph 2c (11) and 2c (16) of Public Law 413, 80th Congress, irrespective of the dollar value of any such contract or modification thereto. This summary will also include every modification involving an increase or decrease of \$10,000 or more. Modifications not pertaining to paragraphs 2c (11) or 2c (16) of Public Law 413 which involve an increase or decrease of less than \$10,000 will be completely excluded from this summary.

(b) For the purpose of this summary only those reportable modifications made pursuant to the provisions of the basic contract will be reported in the columns headed "number of modifications." New actions and reportable modifications not made pursuant to the provisions of the basic contract will be reported in the columns headed "number of new actions."

(c) The dollar value entries in this summary will reflect the net total of all debit and credit procurement actions reportable under paragraph (a) of this section. If during the month the credit actions exceed the debit actions for any item, a credit entry will be shown. Such entry will be preceded by the symbol CR (for credit). Dollar value entries will not include cents. (Example: \$500 not \$500.25 nor \$500.00).

(d) Monthly summaries will be consolidated at the following levels and in the following manner prior to submission to the Assistant Chief of Staff, G-4, Department of the Army. (See § 590.805.)

(1) *Class I installations.* At Class I installations all reportable actions will be consolidated each month on one DA Form 377 regardless of the source of the funds involved in any of the actions. The appropriate army area having responsibility for the Class I installation will be indicated in the space for "Technical Service or Command." The original of each DD Form 350 of those actions shown in line 8 columns D and G will be attached to the DA Form 377.

(2) *Class II installations.* At Class II installations those reportable actions which have been transacted for the purpose of Class I activities will be consolidated on one DA Form 377, and the appropriate army area having responsibility for the Class I activities will be indicated in the space for "Technical Service or Command." All other reportable actions at Class II installations will be consolidated on one DA Form 377, and the technical service having responsibility for the Class II installation will be indicated in the space for "Technical Service or Command." The governing factor in the aforementioned breakdown will be whether the action was executed for the purpose of Class I activities or for the purpose of Class II activities. Where the contractual instrument has been assigned a number pursuant to § 590.603 of this part the letter symbol of this number may be used as a guide. As an exception to the above, general depots will submit one DA Form 377 for each Procuring Activity located at the depot.

(3) *Date of report.* Enter the day, month, and year on which the report is prepared.

(4) *From.* Enter the title and address of the Procuring Activity in sufficient detail to readily establish the identity of the office, installation, activity, or individual preparing the report.

(5) *Station number.* Enter the fiscal code station number (SR 35-218-1). Where a Class II installation has been assigned a separate station number to identify its Class I activities (§ 590.603-5 (b)) this latter station number will be entered on the army area report from this installation (subparagraphs (1) and (2) of this paragraph).

(6) *Month ending.* Enter the month covered by the report. Where information for DA Form 377 is obtained from Individual Procurement Action Report, Reports Control Symbol CSGLD-525 (DD Form 350) the date of the report (Item 39, DD Form 350) will be the controlling factor in determining which monthly summary (DA Form 377) will

include the action reported. For example, a procurement action executed November 28, but having a "date of report" of December 2, will be reported in the monthly summary of December actions, the only exception being the close of the fiscal year, when all actions taken in the month of June will be reported on the monthly summary regardless of the "date of report."

(7) *Technical Service or command.* Enter the name of the Technical Service, Army Area, or command having responsibility for the Procuring Activity: such as Quartermaster Corps, Third Army, Far East, National Guard Bureau, etc. At Class I and Class II installations the instructions set forth in subparagraphs (1) and (2) of this paragraph will govern.

The column headed "Modifications" will be those actions which were made pursuant to the provisions of the basic contract, and will not be included in column C and D. The total of column A will equal columns B, C, and D.

(8) *Line 1; Small Business total.* Enter the total number of actions and dollar amount of procurement (except interdepartmental, interservice and outside continental United States) from concerns which are classified as Small Business. Entries on this line will equal the totals of entries on lines 1a and 1b. For the purpose of this report, a small business is defined as one in which the aggregate number of employees of the contracting organization and its affiliates is less than 500.

(9) *Line 1a; Small Business; advertised.* Enter the number of actions and dollar amount of procurement by advertising from concerns classified as Small Business.

(10) *Line 1b; Small Business; negotiated.* Enter the number of actions and dollar amount of procurement by negotiation in accordance with the provisions of the Armed Services Procurement Regulation, from concerns classified as Small Business.

(11) *Line 2; other than Small Business; total.* Enter the total number of actions and dollar amount of procurement (except interdepartmental, interservice and outside continental United States) from all concerns which were other than Small Business. Entries on this line will equal the totals of entries on lines 2a and 2b.

(12) *Line 2a; other than Small Business; advertised.* Enter the number of actions and dollar amount of procurement by advertising from concerns classified as Other than Small Business.

(13) *Line 2b; other than Small Business; negotiated.* Enter the number of actions and dollar amount of procurement by negotiation in accordance with the provisions of the Armed Services Procurement Regulations from concerns classified as Other than Small Business.

(14) *Line 3; total advertised.* Enter the total number of actions and dollar amount of advertised procurement. Entries on this line will equal the totals of entries on lines 1a and 2a.

(15) *Line 4; total negotiated.* Enter the total number of actions and dollar amount of negotiated procurement. Entries on this line will equal the totals of entries on lines 1b and 2b.

(16) *Line 5; interdepartmental procurement.* Include procurement of supplies or services from other Federal agencies (outside of Department of Defense) or under a contract made by any such department or agency; e. g., purchase made under Bureau of Federal Supply Schedules and purchases made under Schedule of Products issued by Federal Prison Industries, Inc.

(17) *Line 6; interservice procurement.* Enter the number of actions and dollar amount covering individual purchase instruments executed against term contracts, open-end contracts, indefinite quantity contracts, or agreements for obtaining supplies or service, which contracts or agreements were originally let by department or agency of Department of Defense other than the Army, and which do not specify quantities or total dollar value; e. g., purchases against open-end contracts of the Armed Services Petroleum Purchasing Agency.

(18) *Line 7; work performed outside continental United States.* Enter the total amount of actions and dollar amount of purchase actions where the place of performance is outside continental United States. Place of performance applies to place of manufacture or final assembly by the prime contractor, place of real property construction, and place of service performed.

(19) *Line 8; total.* Enter on this line the total number of actions and dollar amount of all types of procurement to be covered by this report. For the report covering offices located within continental United States, entries on this line will equal the totals of entries on lines 3, 4, 5, 6, and 7.

(20) *Line 9; special category data which have been included in line 4.* Enter the total number of actions and total dollar value only of those actions negotiated for the following reasons.

(21) *Line 9a; perishable subsistence.* (See § 592.209 of this subchapter.)

(22) *Line 9b; small purchases.* (See § 590.700.)

(23) *Line 9c; petty cash purchases under imprest fund procedure.* (See SR 35-350-10.)

(24) *Line 9d; delivery order against "open-end contracts."* (See § 596.515 of this subchapter.)

(25) *Line 10; special Small Business information which is included in lines 1 and 2 above.*

(26) *Line 10a; suitable to Small Business.* This entry will include the following:

(i) All actions not reported on DD 350.
(ii) All actions actually awarded to Small Business.

(iii) That portion of the actions awarded to Large Business which was in fact, suitable to performance by Small Business firms. The total of these will be added to arrive at the Suitable for Small Business figure.

(27) *Line 10a (1); suitable for Small Business; advertised.* Enter the number of actions and dollar amount of procurement considered suitable for small business which was advertised.

(28) *Line 10a (2); suitable for Small Business; negotiated.* Enter the number of actions and dollar amount of procure-

ment considered suitable for small business which was negotiated.

(29) *Remarks.* Enter the DD Form 350 report numbers of those actions which are included in line 2. Enter any other comments to supplement the information shown in the body of the report which are considered essential to a proper understanding of the report.

(30) *Signature.* The report will be signed by a Contracting Officer or his authorized representative and the appropriate name and title typed in the space provided. Where a consolidated monthly summary is being prepared pursuant to subparagraphs (1) and (2) of this paragraph, the consolidated report will be prepared and signed by an officer so designated by the commanding office of the installation concerned.

§ 590.810 *Retention of procurement action reports.* Individual Procurement Action Report (DD Form 350) and Procurement Action Report—Monthly Summary (DA Form 377) or comparable forms submitted by Contracting Officers to higher headquarters indicating the status of procurement actions may be destroyed after 6 months. Such material is considered nonrecord material.

PART 591—PROCUREMENT BY FORMAL ADVERTISING

Section 591.403 is amended by changing paragraph (1) (1) to read as follows:

§ 591.403 *Rejection of bids.* * * *

(1) *Not responsible bidders.* (1) The lowest bid as to price may be rejected by the Contracting Officer if the bidder is determined to be not responsible. For the elements to be considered in determining responsibility, see § 590.357 of this subchapter.

PART 592—PROCUREMENT BY NEGOTIATION

Part 592 is amended as follows:

1. Section 592.204-2 is rescinded and the following substituted therefor:

§ 592.204-2 *Application*—(a) *Authorization.* Section 2 (c) (4) of the Armed Services Procurement Act of 1947 shall be used as authority to negotiate personal or professional services contracts, only when all the conditions set forth in § 402.204-2 of this title have been satisfied.

(b) *Application.* Section 2 (c) (4) does not authorize the making of any contracts. It merely authorizes the award by negotiation, as distinguished from formal advertising, of contracts otherwise authorized by law.

(c) *Approval required.* (1) The requirements for approval of higher authority of contracts involving personal and professional services are set forth in § 590.604-1 (a) of this subchapter.

(2) The requirements for approval of higher authority of contracts containing provisions closely related to personal services contracts are set forth in § 590.604-1 (b) of this subchapter.

2. Section 592.308 is rescinded and the following substituted therefor:

§ 592.308 *Retention of copies of determinations and findings and of other*

records. (a) Executed originals of all Determinations and Findings, copies of all supporting documents, and complete records with respect to all negotiated contracts shall be preserved in the cognizant purchasing office or Procuring Activity concerned for a period of six years following payment on each respective contract, unless retired earlier under other regulations.

(b) Each procurement transaction file will be complete and copies of all documents, certified if necessary, will be included therein. Procurement transaction files will be maintained in such a manner as to present a complete resume of the transaction for historical record or such other purpose as may be required. As a minimum in negotiated procurements, a memorandum for record, signed by the Contracting Officer or his properly designated representative, and briefly setting forth the facts, conclusions, and actions regarding the transaction, will be included as part of the file.

(c) The Contracting Officer's official file of each contract awarded by negotiation shall contain an assembled section of documents, communications, and memoranda presenting an historical record of negotiations preceding award of the contract. Such section of the file shall be identified by a cover sheet designated as "Summary of Negotiation and Contract Award Data." The head of each Procuring Activity is authorized to publish an appropriate form of such designation and to delegate authority for local reproduction. The form so published shall include as a minimum a check list and certification substantially as detailed below. Additional items and/or reductions of monetary limits separating Parts I and II of the form, determined by the head of a Procuring Activity to be necessary or appropriate to its contract procedure or records thereof, may be included in the form promulgated by the Procuring Activity.

SUMMARY OF NEGOTIATION AND CONTRACT AWARD DATA

The purpose of this summary, pursuant to § 592.308, is to present a brief statement of basic data as to which complete detail in narrative or documentary form are contained in the assembled file underlying this cover sheet. Each pertinent item on this form is to be completed either by filling in blanks or by the insertion of data appropriate to the purpose of the item and as to which supporting papers are contained in the file.

Contract date _____ Contract No. _____
Name of contractor _____

PART I. Items 1 to 8 below will be completed for all negotiated contracts, except those covering small purchase.

1. (Copy of procurement order, requisition, or document upon which procurement is based, or reference thereto.)

2. (Complete justification for negotiation.)

3. (Copy of request for proposals, including drawings and specifications or reference thereto.)

4. Number of requests for proposals distributed _____

Date of distribution _____

Number of proposals received _____

Date of award _____

5. (Statement relative to contingent fees, signed by the contractor.)
 6. (Special contract provisions, or reference thereto.)
 7. Small business _____ (Yes or No).
 8. Regular dealer _____ or manufacturer _____ (Yes or No).

PART II. Items 9 to 14 below will be completed for negotiated contracts which are expected to exceed \$25,000 (except that the Head of each Procuring Activity may reduce the dollar value if desired).

9. Labor area classification _____
 10. Amount of work to be subcontracted \$ _____ percent.
 11. (Explanation of any Government financial assistance required by the contractor.)
 12. (Detail of survey or other determination of contractor's ability to consummate the contract.)
 13. (Justification for this award, and determination if required.)
 14. (Summary of proposal received, with comparative information on all factors entering into total cost.)

I certify that I have this date reviewed this contract file and that it contains papers in support of the above data and is otherwise considered to provide a clear and complete record of the negotiation and award of this contract.

(Signature) _____
 Contracting officer, or contracting officer's representative.
 Date _____

PART 596—CONTRACT CLAUSES AND FORMS

Part 596 is amended as follows:

1. Section 596.536-1 is amended by renumbering clauses 18 through 21 thereof as clauses 19 through 22, and inserting a new clause 18 as follows:

§ 596.536-1 Sample of form.

18. *Adjustment of rentals; State or local taxation.* Except as may be otherwise provided, the rental rates established in this lease do not include any State or local tax on the property herein leased. If and to the extent that such property is hereafter made taxable by State and local governments by Act of Congress, then in such event the rental rates of this lease shall be equitably adjusted.

2. Section 596.571 (b) is amended to read as follows:

§ 596.571 Invitation for bids (Construction Contract).

(b) A revised text of this form will be made available as soon as approved. Interim use, however, of WD Standard Procurement Form No. 116 is authorized in the meantime. Local reproduction is authorized. In reproducing WD Standard Procurement Form No. 116;

- (1) The Bureau of the Budget approval notation in the upper right hand corner should be omitted;

- (2) The last sentence of paragraph 2 should be changed to read as follows:

The bidder who is awarded the contract will be required to execute the Department of the Army Contract Form for Construction (DA AGO Form R-5701) which is incorporated herein by reference. (A copy is obtainable upon request.)

No. 175—2

PART 602—GOVERNMENT PROPERTY

A new Subpart I is added to Part 602 as follows:

SUBPART I—AUDIT OF INDUSTRIAL PROPERTY RECORDS

- Sec.
 602.900 Scope of subpart.
 602.901 Responsibility for audits.
 602.901-1 Continental United States.
 602.901-2 Overseas.
 602.902 Purpose of audits.
 602.903 Performance of audits.
 602.903-1 Frequency.
 602.903-2 Scope of audit.
 602.904 Reports of audit.
 602.904-1 Distribution and action on reports.
 602.904-2 Clearance of deficiencies.
 602.905 Accounts not in condition for audit.
 602.905-1 Distribution of reports.
 602.905-2 Action.

AUTHORITY: §§ 602.900 to 602.905-2 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. Sup. 151-161.

§ 602.900 *Scope of subpart.* This subpart sets forth policies governing audit of industrial property accounts.

§ 602.901 Responsibility for audits.

§ 602.901-1 *Continental United States.* Within the continental United States, and for contracts administered from the continental United States, the Army Audit Agency, operating as a functional activity of the Comptroller of the Army, is charged with the operational performance of audits of industrial property accounts.

§ 602.901-2 *Overseas.* Commanders of major overseas commands or similar areas are responsible for the operational performance of audits of industrial property accounts of contracts administered by their commands. The performance of these audits will be through audit agencies established within their commands and in accordance with basic techniques prescribed by the Army Audit Agency.

§ 602.902 *Purpose of audits.* The purpose of audits of industrial property accounts is to determine and report to those responsible for contract administration and to all echelons of command, whether accounting for and disposition of Government property has been accomplished in accordance with applicable regulations, whether the controls being exercised are adequate and, where the need exists, to make appropriate recommendations for the improvement of controls or the correction of deficiencies.

§ 602.903 Performance of audits.

§ 602.903-1 *Frequency.* Audits will normally be performed on an annual basis. Special or more frequent audits may be performed at the discretion of the regional auditor concerned or as directed by the Chief, Army Audit Agency. Request by installations for special or more frequent audits will be submitted through the Head of the Procuring Activity to the regional auditor. Initial audits will normally be made as soon as practicable after inception of contract activity.

§ 602.903-2 *Scope of audit.* Selective audit principles will be employed in the performance of audits. A selective audit reflects the overall condition of the account and the adequacy of the accounting controls.

§ 602.904 *Reports of audits.* The report of audit is a Government administrative report for the information of all echelons of command and operations concerned with contract administration. The report of audit will not be transmitted to the Contractor, but information necessary to form the basis for corrective action may be discussed with or extracted and transmitted to the Contractor by the Contracting Officer, or his authorized representative.

§ 602.904-1 *Distribution and action on reports.* (a) Distribution of reports will be made as follows:

(1) The original and one copy will be forwarded to the installation commander responsible for the administration of the contract or contracts. When more than one contract is included in an audit report the original will be filed with the contract property control records of the first contract shown on the schedules attached to the report and an entry will be made in the property control records of all other contracts covered by the audit showing the report of audit number, date, period covered, and the contract number under which the report of audit is filed. The copy of the report of audit will be retained at the installation headquarters for administrative use.

(2) One copy will be furnished the head of the procuring activity administering the contract for information, for follow-up action where required, and for retention in command headquarters. Coordination will be effected by the head of the procuring activity with other interested services, where necessary.

(b) Upon receipt of a Report of Audit the installation commander will report within 15 days to the Head of the Procuring Activity the action taken or contemplated and target date for completion with respect to any deficiencies or recommendations contained in the Report of Audit. Information copy of this report will be forwarded to the regional auditor by the installation commander.

(c) The Head of the Procuring Activity will review the report of audit and the corrective action reported by the installation commander to determine the propriety and sufficiency of corrective action taken and will notify the regional auditor when any deficiencies reported have been adjusted. If adjustment of deficiencies will be delayed more than 90 days he will furnish the regional auditor an interim advice of progress being made in connection therewith.

§ 602.904-2 *Clearance of deficiencies.* After verification at account level, deficiencies listed on reports of audit will be cleared by appropriate entry in a subsequent report of audit, or by issuance of supplemental reports of audit which will be given the same distribution as the original reports.

§ 602.905 *Accounts not in condition for audit.* Accounts will be reported

not in condition for audit when audit is found to be impracticable due to missing or incomplete records or an abnormal number of errors.

§ 602.905-1 *Distribution of reports.* Reports of accounts not in condition for audit will be distributed in the manner prescribed for reports of audit in § 602.904-1 (a) of this part, except that the Chief, Army Audit Agency, will furnish a copy to The Inspector General.

§ 602.905-2 *Action.* (a) Upon receipt of a report of an account not in condition for audit, the installation commander will immediately take forceful action necessary to have the records placed in an acceptable condition for audit. He will advise the Head of the Procuring Activity within 15 days of the action taken and the probable date of completion.

(b) The Head of the Procuring Activity will review the report of account not in condition for audit and the installation commander's report of corrective action to determine any further action necessary and will advise the regional auditor promptly of the action being taken and the probable date the account will be in condition for audit. In the event the corrective action is not completed within 90 days from the date account is reported not in condition for audit, the regional auditor will be advised every 90 days of the progress toward correction until the account is found to be in an acceptable condition for audit.

(c) If the circumstances are such as to justify a waiver of accounting requirements the case will be prepared and submitted in accordance with SR 735-275-15 (Special Regulations, Department of the Army).

[Proc. Cir. 15, Aug. 8, 1952] (R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. Sup. 151-161)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Manpower Policy 8]

POLICY ON TRAINING AND UTILIZATION OF SCIENTIFIC AND ENGINEERING MANPOWER

Preface. This policy has been recommended by the Interagency Manpower Policy Committee, its Committee on Specialized Personnel, and the national Labor-Management Manpower Policy Committee of the Office of Defense Mobilization. It is issued for information and guidance to employers of scientists and engineers; to educational institutions and to professional associations; and assigns to Government agencies the responsibility for providing assistance and leadership in the fields of action required of them.

I. *Statement of the problem.* The importance of scientists and engineers in the establishment of the strongest possible defense and, should war come, in insuring ultimate victory, is well established and widely recognized. Furthermore there is no limit, in principle, to the advances which can be made in science and technology, practical limits being imposed largely by the limited number of individuals with training and ability along these lines. The problem, then, is to formulate national policies and to take actions consistent with these policies and with the principles of a voluntary manpower program in order to guarantee the most effective use of existing resources of scientific and technical personnel and to encourage the training of increasing numbers of additional scientists and engineers.

Throughout this document all references to scientists and engineers make no distinction between the sexes or between racial groups, it being understood that equality of opportunity to make maximum effective use of intellect and ability is a basic concept of democracy.

II. *Discussion of the problem.* Basically, the national defense program consists of the following major elements:

1. Maintenance of armed forces at approximately 3.7 million.
2. Production of military equipment and material to supply an armed force of 3.7 million, to provide a reserve supply of key equipment sufficient to meet the first year's needs of full mobilization, and to assist other free nations to build up their military strength.
3. Expansion of specialized manpower and productive capacity to support high levels of both military and civilian production.
4. Maintenance of a vigorous civilian economy for an increasing population.

This is a long-term program. Any substantial change in it within the foreseeable future will be by way of expansion. Consequently, the requirements for specialized manpower presented in this report are estimated minimum requirements.

One of the most far-reaching effects of the defense program is an acceleration of research and industrial technology. Likewise the development, operation and maintenance of modern scientific weapons has given greater emphasis to military technology. As a result, industrial and scientific development which normally would have been spread over a decade now must be telescoped into less than half that time. The realities of international relations indicate that intensive activity in the fields of engineering, science and industrial development must be made a more important aspect of our continuing national security. This means an unprecedented and sustained demand for specialized manpower in a great variety of fields.

Of the approximately 60 million civilians currently employed only about 4 million are in the professions. Only 1 percent or 600,000 are employed in engineering and in the biological and physical sciences. On this numerically small but vitally important segment of our

manpower depends in very large part our national security and future increases in our standard of living.

New discoveries and the development of new techniques of inquiry call for an increasing number of investigators and as each area of knowledge becomes more complex, increased specialization of individuals and longer periods of training are required.

The advance of scientific knowledge also results in an increasing degree of utilization of specialized personnel as technical discoveries are applied in industrial operations.

The number of workers per engineer in the basic commodity producing and transporting industries, for example, has decreased continuously from an approximate 250 in 1900 to about one-quarter of that in 1950.

These factors help to explain the four-fold growth of the professions in the last 50 years—from one million to four million. There has been an even more rapid expansion in the engineering and scientific fields, which have increased some 60 percent in the last decade alone and now total 600,000. The continually increasing complexity of the economy and the rapid growth of research activity make it necessary that this trend continue.

Despite the fact that very large numbers of young men and women have been trained in science and engineering since World War II, stringencies of engineers and scientists now exist in some fields and acute shortages are in immediate prospect. This situation has been caused in part by the increased demand resulting from the defense program with no corresponding decrease in non-defense programs and in part by the very small number of persons trained in these fields during World War II.

As the defense program develops, two highly significant facts with respect to specialized personnel stand out:

First, the demand is rising rapidly and will continue at a high level indefinitely.

Second, college enrollments show that the supply completing training is declining and will continue to decline through 1954 after which an upturn will occur in the number of engineering graduates.

These facts indicate that in the next few years it will be very difficult, or impossible, to obtain a supply of specialized personnel equal to the expanded demand. Vigorous and intelligent action in the utilization of specialized manpower in the armed forces and in civilian activities is required. Both military and civilian manpower policies should recognize that within the objectives of attaining maximum military strength and maintaining a vigorous civilian economy the achievement of an improved balance between the supply of and demand for specialized personnel is our most urgent manpower goal.

III. *Purpose.* The purpose of this policy is:

1. To focus attention on the problems created by the shortage of trained scientists and engineers in the attainment of maximum military strength while maintaining a healthy civilian economy and

to enlist the support and assistance of the public, industry, educational institutions and Government agencies in the solution of these problems.

2. To indicate actions which should be taken to provide scientific and engineering manpower to achieve necessary research and development and production goals for 1952 and for the years immediately ahead.

3. To provide an initial program to meet scientific and technical manpower requirements of a broadened mobilization base, and to set forth the policy of the Federal Government and the responsibilities of Government agencies concerned with scientific and technical manpower problems.

IV. Policy. It is the policy of the Federal Government to take and to encourage the taking of action which will aid in achieving the following objectives:

A. To utilize most efficiently existing resources of scientific and technical skills in private industry, in the civil government, in the armed forces and in educational institutions.

B. To develop increasingly reliable information regarding requirements and resources of scientists and engineers to meet both immediate and long-term national needs.

C. On the basis of needs indicated under B, to attract and train the additional number of able young men and women required for scientific and technical fields.

Industrial employers, educational administrators, scientists and engineers, as individuals, and professional associations of scientists and engineers, have an important responsibility to assist in achieving these objectives. In order that they may do their full part, it is recommended that the actions listed below be taken. In taking these actions all groups should direct their efforts toward furthering the objective of self-development by the individual to meet the national need for scientific and engineering manpower.

It is recognized that many of the activities recommended are already underway in individual industrial firms, educational institutions, professional organizations and in government, but they are listed here partly for the sake of completeness and partly for the purpose of bringing them to the attention of those segments of industry, education and the professions which are not now engaged in such activities.

a. Employers of scientists and engineers are urged:

1. To make every effort to meet increasing demands for engineering and scientific personnel by improving their utilization of scientists and engineers through programs of systematic review and reevaluation of the duties, responsibilities, training and experience requirements of positions in which scientists or engineers are employed to determine the minimum levels of training and experience required for each position. Particular attention should be given to identifying and utilizing scientists and engineers of exceptional ability in work which will make full use of their capacities.

2. To take the necessary steps to develop qualified research leaders and administrators.

3. To develop, in cooperation with educational institutions, especially the junior colleges and technical institutes, improved programs for selecting and training sub-professional personnel to do work which requires less than the full training of professional scientists and engineers.

4. To maintain programs for the continuous review of performance and compensation of scientists and engineers to assure that salaries are commensurate with the contributions being made by such personnel.

5. To consult with public employment offices in the development of recruitment campaigns to avoid activities which would be disruptive to high-urgency defense work. Professional associations and similar organizations may be of assistance in providing additional information needed in this connection. Large scale transfers of personnel between projects of equal urgency or form a project of greater urgency to one of lesser urgency are obviously contrary to the best interests of the mobilization effort.

6. To cooperate with educational institutions in the development of on-the-job or off-the-job training for scientists and engineers which will increase and broaden the professional competence of such personnel.

7. In the case of professional personnel subject to induction into the armed forces, to submit complete and timely employment information to local Selective Service boards for their use in classification of registrants engaged in essential activities of a scientific or technical nature.

8. In the case of professional personnel subject to recall to active duty by the Armed Forces, to submit complete and timely employment information to appropriate military authorities for their use in determining eligibility for delay in recall to active duty.

9. In cooperation with associations of employers in industries in which serious shortages of scientists and engineers exist, to establish Technical Manpower Utilization Committees to consider steps which can be taken on an industry-wide or area basis to alleviate the effects of those shortages and to disseminate information concerning successful practices of individual firms in dealing with such shortages.

10. In cooperation with associations of employers, to consider the advisability of expanding existing scholarship programs to assist students with the necessary ability and interest but without the necessary funds to complete their education in the sciences and in engineering.

11. To reexamine their personnel policies and effect any changes necessary to assure full utilization of women and members of minority groups having scientific and engineering training.

12. To cooperate with appropriate public and private agencies in determining current and long-range requirements and resources of scientists and engineers and in developing relevant information regarding their employment, such as salaries, hours, mobility, and working conditions. It is essential that employers of scientists and engineers

take steps to improve the techniques for forecasting their own current and long-range technical manpower requirements.

b. Professional associations of scientists and engineers are urged:

1. To undertake informational programs designed to bring to the attention of students, through normal educational channels, and to individuals employed in sub-professional positions but possessing an aptitude for science or engineering, the career opportunities in scientific and technical fields in order to attract into these fields additional students with the required ability and interest.

2. To cooperate with appropriate public and private agencies in determining current and long-range requirements and resources of scientists and engineers and in developing relevant information regarding their employment, such as salaries, hours, mobility, and working conditions.

3. To cooperate with educational institutions in studying the adequacy of existing curricula in the sciences and in engineering, in developing better teaching methods and in achieving maximum utilization of teaching facilities in scientific and engineering fields.

c. Educational institutions are urged:

1. To make special provision for students who possess the necessary aptitude for engineering work but who lack the courses in science and mathematics prerequisite for admission to the engineering college either because of the inadequacy of high school offerings or because their interest in an engineering career was developed too late in the high school program. Such special provision should include a program for locating the potential candidates, encouraging them to apply for enrollment in colleges offering scientific and engineering courses, and special counseling to assist the candidate in working up a suitable curriculum. In most instances the candidate's initial shortcomings may be made up either by a lengthening of the normal curriculum or by intensification through additional work during summer vacation periods.

2. To make further studies of the engineering curriculum, as regards both its content and its length, and to give consideration to all possible measures which may be indicated under present conditions of engineering and scientific manpower shortages, such as acceleration, cooperative work-study arrangements, etc.

3. To make further studies of teaching methods employed in the sciences and engineering and of the use of teaching and research facilities in these fields in order to achieve the maximum educational return from existing staffs and facilities.

4. To study the causes of high drop-out rates among qualified students of engineering and science and to take steps toward minimizing the number of such drop-outs.

5. To strengthen high school curricula in order that more high school graduates will be eligible for entrance into engineering colleges and to establish closer working arrangements between colleges and universities and high schools to the end that both high school students and

the faculty will become more aware of the opportunities in the engineering field.

V. *Assignment of responsibility.* In order that the desired objectives can be achieved in accordance with the above-stated policy the assignments indicated below are made to the specified departments and agencies of Government. In listing these assignments, it is to be understood that they do not, in many cases, represent new assignments of responsibility, and that many of the activities referred to are already underway. A complete listing is given in order to indicate the total responsibility of Government departments and agencies in implementing national scientific and engineering manpower policies.

A. The Department of Labor shall:

1. In cooperation with the National Science Foundation, Bureau of the Census, Federal Security Agency and the Civil Service Commission strengthen its program of information on the supply of and demand for scientists and engineers in industry, education and government and provide this information to:

a. Private and public employers as a guide to planning of their recruitment and training activities.

b. Schools for the guidance of students in the choice of careers.

c. The Selective Service System as a guide to the deferment of registrants having scientific and engineering training and experience.

d. The Department of Defense as a guide to the postponement in call to active duty of reservists having scientific and engineering training and experience.

2. Through the federal-state system of public employment offices, expand its informational and placement service to scientists and engineers and to employers of such personnel.

3. Encourage and assist employers of scientists and engineers in maintaining realistic hiring specifications and in conducting appropriate recruitment programs.

4. Determine manpower shortages which can be met in whole or in part by short-term training programs designed to complete the professional training in engineering or science of individuals already employed by industry or to provide additional professional training to allow employed engineers and scientists to assume increased responsibilities; cooperate with the Federal Security Agency in the arranging of appropriate programs through the use of local training facilities.

5. Cooperate with the Selective Service System and the Department of Defense in relating military manpower procurement policies to civilian requirements for scientists and engineers.

6. Develop, with the cooperation of the Department of Defense, expanded counseling and placement programs to assist individuals being discharged from the Armed Forces in availing themselves of training and job opportunities in scientific and engineering fields.

7. Make available to employers information on techniques for improving the utilization of scientists and engineers.

B. The Selective Service System shall:

1. Continue to apply to scientists and engineers the policy formulated by Congress providing for classifying in a deferred class registrants whose activities are necessary to the maintenance of the national health, safety or interest for as long a period as they continue to meet the criteria for such deferment.

2. Prepare semi-annually, in cooperation with the Department of Labor and the Department of Defense, a report on the status of the student deferment program, indicating any recommended changes in the size or character of this program and the reasons therefor.

C. The Department of Defense shall:

1. Continue, through the Military Departments, to review all military jobs requiring scientific and engineering skills and take any additional steps necessary to assure that to the greatest possible degree, consistent with the missions of the Armed Services.

a. Military personnel having full scientific or engineering competence are assigned to military jobs requiring that level of competence, and

b. Military jobs requiring less than full scientific or engineering competence are filled by subprofessional personnel.

2. Continue program of maintaining an inventory of current military manpower requirements in scientific and engineering specialties as an aid to determination of over-all specialized manpower requirements, to recall of reserves and to assignment or transfer of military personnel.

3. Encourage the continued development within the Military Departments of central military personnel records to facilitate the identification of individuals with scientific and engineering competence as an aid to meeting specialized manpower requirements of the Armed Forces to greatest extent possible by full utilization of personnel already in the Armed Services.

4. Continue review of reserve policies and take any additional steps necessary to assure that reservists possessing scientific and engineering competence which is being fully utilized in defense or essential civilian activities are called to active duty only when (a) the military services have need of persons with such skills and the need of the military services for these skills outweighs that of the defense-supporting or essential civilian economy, or (b) when the individual reservist possesses highly developed, essential military skills which cannot otherwise be obtained, (c) the individual reservist has a special obligation to serve, such as completion of military-financed training programs.

5. Continue collaboration with the Atomic Energy Commission and the National Advisory Committee for Aeronautics in a review of the total research and development programs of the three agencies, which together account for the great bulk of all research and development work performed by or sponsored by the Federal Government, with a view toward reducing the demands on the engineering and scientific manpower pool to the minimum level consistent with the national security.

D. The Civil Service Commission shall:

1. Encourage and assist agencies which employ scientists and engineers to evaluate periodically all technical positions to determine the minimum levels of training and experience required to satisfactorily perform the duties involved, and to utilize personnel having full scientific and engineering competence only in positions requiring such competence.

2. In cooperation with all departments and agencies which employ technical personnel, develop a program for identifying scientists and engineers in the government service who possess exceptional ability and wherever necessary assist in placing them in positions which will make full use of such ability.

3. Encourage and assist agencies in developing training programs which will broaden and improve the competence of scientists and engineers now in the government service. Such programs might make use, in a teaching capacity, of the professional personnel of the agencies concerned, or might be carried out in cooperation with a neighboring college or university.

4. Encourage and assist agencies in developing sub-professional personnel to perform jobs not requiring full professional competence in science or engineering.

E. The Atomic Energy Commission shall:

1. Continue collaboration with the Department of Defense and the National Advisory Committee for Aeronautics in a review of the total research and development programs of the three agencies, which together account for the great bulk of all research and development work performed by or sponsored by the Federal Government, with a view toward reducing the demands on the engineering and scientific manpower pool to the minimum level consistent with the national security.

F. The National Science Foundation shall:

1. Encourage basic research in the sciences and engineering in colleges and universities in order to stimulate the training of additional and better trained scientists and engineers.

2. Conduct follow-up studies on young graduate scientists and engineers to determine what occupational adjustments they are making in or outside the armed forces in order to assist in the development of Selective Service policy and policy on placement of such personnel within the Armed Forces.

G. The Federal Security Agency shall:

1. Encourage and assist engineering colleges to make special provision for students who possess the necessary aptitude for engineering work but who lack the courses in science and mathematics prerequisite to admission either because of the inadequacy of high school offerings or because their interest in an engineering career was developed too late in the high school program. Such special provision should include a program for locating the potential candidates, encouraging them to apply for enrollment in colleges offering scientific and engineering courses, and special counseling to assist the candidate in working up a suitable curriculum. In most instances

the candidate's initial shortcomings may be made up either by a lengthening of the normal curriculum or by intensification through additional work during summer vacation periods.

2. Encourage and assist colleges and universities to develop undergraduate and graduate level training for scientific and engineering personnel currently employed but requiring additional training to broaden and improve their professional skills.

3. In cooperation with employers and Labor-Management Committees, encourage and assist colleges, universities, and vocational schools, in areas where shortages of engineers and scientists exist, in the establishment of short training courses to develop draftsmen, engineering aides and scientific aides to assist professional personnel in matters requiring less highly developed skills.

4. Assist secondary schools in developing more adequate curricula and better teaching methods in order to provide students possessing the requisite aptitudes and interests with the fundamental education necessary for college work in science and engineering.

H. The National Advisory Committee for Aeronautics shall:

1. Continue collaboration with the Department of Defense and the Atomic Energy Commission in a review of the research and development programs of the three agencies, which together account for the great bulk of all research and development work performed by or sponsored by the Federal Government, with a view toward reducing the demands on the engineering and scientific manpower pool to the minimum level consistent with the national security.

VI. This policy shall take effect on September 6, 1952.

OFFICE OF DEFENSE
MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Supplementary Regulation 117]

GCPR, SR 117—MILK SOLD TO SCHOOLS IN DETROIT MILK MARKETING AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation No. 117 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation permits sellers of milk to schools in the Detroit (Michigan) Milk Marketing Area to use as their ceiling price for such sales \$0.04625 per half-pint of milk. This will permit the Detroit schools to purchase milk for their school lunch at lower prices.

The Detroit schools normally contract for their fluid milk requirements on a bid basis. Contracts for the supply of milk normally cover the duration of a school year. The lowest bidders thus had very low contract prices as the basis for their GCPR ceiling prices. Many of these sales are made to schools at no profit or only a nominal profit. If these lower bidders are not permitted price increases, the only sellers who will be able to bid for the school business will be those who held contracts at higher prices during the GCPR base period. This means that the normally low bidders will not have an opportunity to supply these school lunch programs. This supplementary regulation brings low-end sellers in line with the prevailing level of ceiling prices for such sales. In any event this supplementary regulation is limited to the Detroit (Michigan) marketing area since that is the only place where this problem is known to have arisen. If this supplementary regulation were made applicable generally in the absence of more information, it is feared that the price of milk supplied to school systems might rise unduly.

The Director of Price Stabilization has consulted with individual members of the Industry affected before issuing this supplementary regulation and has given full consideration to their recommendations. Moreover, the Director has formally consulted with the Fluid Milk Industry Advisory Committee as well as with representatives of trade associations. In the judgment of the Director, the ceiling prices and the provisions of this supplementary regulation are generally fair and equitable and are necessary to effectuate the provisions of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.

1. What the supplementary regulation does.
2. Ceiling prices for sales to schools in Detroit milk marketing area.

AUTHORITY: Sections 1 and 2 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. What the supplementary regulation does. This supplementary regulation modifies the General Ceiling Price Regulation by allowing sellers of fluid milk to use as their ceiling prices for sales of fluid milk to schools in the Detroit (Michigan) Milk Marketing Area \$0.04625 per half-pint.

Sec. 2. Ceiling prices for sales to schools in Detroit milk marketing area. Irrespective of any other provisions of the GCPR, you may sell fluid milk to schools in the Detroit (Michigan) Milk Marketing Area, whether the purchaser is a school board, Board of Education, Diocese or otherwise, at \$0.04625 per half-pint. You may also continue to sell at your present ceiling price.

All other provisions of the GCPR not in conflict with this supplementary regulation remain in full force and effect.

Effective date. This supplementary regulation is effective September 5, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 5, 1952.

[F. R. Doc. 52-9863; Filed, Sept. 5, 1952;
1:00 p. m.]

[General Overriding Regulation 2, Revision 1, Amdt. 2]

GOR 2—SALES TO THE UNITED STATES, ITS AGENTS AND SUPPLIERS

CEILING PRICES FOR SALES F. O. B. ANY DESTINATION WITHIN A ZONE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 2 to General Overriding Regulation 2, Revision 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

General Overriding Regulation 2, Revision 1, covers all matters of a special and overriding nature applying to sales to the United States, its agents and suppliers.

The General Services Administration has recently solicited bids for furniture and drafting and office supplies in which the unit price quoted shall be f. o. b. any destination within a specified zone. It intends to continue to solicit bids on this basis. Many potential bidders have not sold on this basis in the past. Under many of our regulations establishment of uniform prices f. o. b. any destination within a zone would be time-consuming or otherwise unsatisfactory. Consequently, it has been decided to amend General Overriding Regulation 2, Revision 1, so as to provide a uniform and simple method by which persons making sales to the United States may establish such prices.

This amendment provides that prospective sellers may determine their ceiling prices f. o. b. any destination within a zone by adding to f. o. b. factory (or other shipping point) ceiling prices the average freight from the shipping point into the zone at the lowest available common carrier rates. Substantially sim-

ilar provisions are contained in this amendment for determining ceiling prices f. o. b. any destination within a zone on the basis of previously established "delivered" or "f. o. b. destination" ceiling prices.

Although the use of an average freight in computing ceiling price will, in some instances, increase the total price to be paid by the government as compared with the cost which it would incur by buying f. o. b. factory and paying the actual freight, there will be other instances in which a decrease will result. In view of the great number and variety of Government orders, the increases and decreases of cost will probably reach a balance.

As to the computation of the average freight from shipping point into the zone of destination, this Amendment provides that the appropriate agency of the United States, with the approval of the Office of Price Stabilization, may designate the freight center of each zone so that the freight at the lowest available current common carrier rate from the shipping point to that freight center may serve as average freight. It is expected that the General Services Administration will designate such freight centers whenever the probable places of destination and magnitude of the orders are known beforehand. As in many instances the Government will not be in a position to designate a freight center, this amendment provides for a secondary method for determining the average freight. The second method provides simply for adding the freight to the place within the zone to which the freight for a particular bidder is the lowest to the freight to the place where it is the highest, and dividing the result by two.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, and with representatives of the General Services Administration to the extent practicable, and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

General Overriding Regulation 2, Revision 1, is amended by adding a new section 43 at the end of Article IV to read as follows:

Sec. 43. Sales f. o. b. any destination within a zone— (a) *General.* You may sell to the United States or any agency thereof f. o. b. any destination within a zone even though you have not customarily sold on such basis. The term "f. o. b. any destination within a zone" means that delivery shall be made at any destination designated by the purchaser within a specified, integrated geographical area, on board conveyance of carrier, free of expense to the purchaser. However, the purchaser may require delivery by the seller to premises designated by the purchaser in two situations. First, if transportation is by the seller's

vehicle and, second, if, and to the extent that, the applicable tariff for the principal transportation service used by the seller includes such delivery.

(b) *How you determine your ceiling price f. o. b. any destination within a zone.* (1) You determine your ceiling price f. o. b. any destination within a zone for any commodity for which you have a ceiling price f. o. b. a shipping point by adding to the latter your average freight into the zone. Subparagraph (4), below, tells you how to find your average freight. Your f. o. b. shipping point may be your factory, your warehouse, or any other customary point of origin.

(2) You determine your ceiling price f. o. b. any destination within a zone for any commodity for which you have a delivered (or f. o. b. destination) ceiling price and which you ship from your customary point of delivery (or destination) into the zone within which you are now establishing a uniform ceiling price f. o. b. any destination by adding to the delivered (or f. o. b. destination) ceiling price your average freight into the zone. You follow the directions contained in subparagraph (4) in order to find your average freight. In following these directions take as your "shipping point" your customary point of delivery (or point of destination). If your delivered (or f. o. b. destination) ceiling price is a uniform price within a zone or area use as your "shipping point" the railroad station in such zone or area from which the freight into the zone within which you are establishing a uniform price f. o. b. any destination is the lowest.

(3) You determine your ceiling price f. o. b. any destination within a zone for any commodity as to which you have a delivered (or f. o. b. destination) ceiling price and which you ship from your plant into the zone within which you are now establishing a uniform ceiling price f. o. b. any destination as follows: First, deduct from your delivered (or f. o. b. point of destination) ceiling price the freight for transporting the commodity in carload lots from your plant to the point of delivery (or destination) using the lowest current common carrier rates customarily used by you for the commodity involved. If your delivered (or f. o. b. point of destination) ceiling price has uniformly been established for a zone or area, you use in this computation as point of delivery (or destination) the railroad station within such zone or area to which the freight from your plant is the highest. Second, add to the remainder the average freight into the zone. Subparagraph (4) tells you how to find the average freight.

(4) (i) You determine "average freight" by finding the freight for the commodity from your shipping point to the freight center of the zone. This freight center will be designated by the interested government agency, with the approval of OPS, and you will be advised in writing what the freight center is.

(ii) If no freight center has been designated and communicated to you in writing you find your average freight by taking half the sum of the following: The freight from your shipping point to the railroad station within the zone to

which the freight is the lowest plus the freight from your shipping point to the railroad station within the zone to which the freight is the highest.

(iii) If no freight center has been designated and communicated to you in writing and your shipping point is within the zone within which you wish to establish uniform prices f. o. b. any destination, your average freight is half the freight from your shipping point to the railroad station within that zone to which the freight is the highest.

(iv) In computing average freight under this paragraph you must always use the lowest current common carrier rate customarily used by you for the commodity involved. For sales in known quantities you must use the rates applicable to such quantities. For sales of uncertain quantities you may use l. c. l. rates. However, if you do so you must make an allowance reflecting the difference between l. c. l. rates and carload rates on all shipments in carload lots.

(5) If you have ceiling prices for sales of the same commodity f. o. b. various points (for instance f. o. b. plant, f. o. b. warehouse, Chicago, Ill. and f. o. b. warehouse, Los Angeles, Calif.; or f. o. b. factory, Raleigh, N. C., and delivered, Denver, Colo.) your ceiling price f. o. b. any destination within a zone must be based on your established ceiling price which yields the lowest ceiling price f. o. b. any destination within a zone.

(c) *Records.* In addition to all records required by other applicable Office of Price Stabilization regulations, you shall keep, for a period of two years from the date when you first used these ceiling prices in a bid or an offer to sell or a sale, for inspection by the Director of Price Stabilization, the worksheets showing how you computed your ceiling prices f. o. b. any destination within a zone.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 2 to General Overriding Regulation 2, Revision 1 is effective September 5, 1952.

NOTE: The record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,

Director of Price Stabilization.

SEPTEMBER 5, 1952.

[F. R. Doc. 52-9862; Filed, Sept. 5, 1952; 10:59 a. m.]

[General Overriding Regulation 14, Interpretation 2]

GOR 14—EXCEPTED SERVICES

INT. 2—NECESSARY OPERATIONS IN CONNECTION WITH DRILLING OF OIL AND GAS WELLS (SECTION 3 (a) (18))

There has been some confusion as to the scope of GOR 14, section 3 (a) (18). Various interpretations have been placed on what constitutes the necessary operations in connection with the drilling of oil and gas wells. The interpretations placed on this section have varied be-

cause of the different operations considered necessary in different areas of the country. This Office has consulted with a number of industry representatives and endeavored to ascertain what industry generally regards as necessary operations in connection with the drilling of oil and gas wells. All charges for the necessary operations in connection with the drilling of oil and gas wells, whether performed by the operator or the subcontractor for him, are excepted from price controls.

It is the interpretation of this Office that the following listed examples of operations shall constitute necessary operations in connection with the drilling of oil and gas wells. This interpretation does not limit the necessary operations to this list only.

Section 3 (a) (18) of GOR 14 is interpreted to mean that in addition to electrical logging services, preparation of locations, shot hole and diamond core drilling, fishing jobs, pulling, salvaging, and plugging operations, the following are examples of services which shall be considered excepted from price control whether performed by the operator or a subcontractor for him:

Surveying lease and making location.
Moving in derrick materials by trucking contractor.

Erection of derrick by rig building contractor.

Moving in small machines, usually cable tools to drill water well, providing water line is not laid to nearby water course or pond by a water well contractor.

Moving in drilling rig, equipment, or supplies to and from location.

Fuel for the operation of the rig and other equipment at the well location.

Moving in conductor and surface pipe by miscellaneous contractors.

Furnishing of cement and performing cementing services for conductor and/or surface casing.

Engineering services for the purpose of developing deviation from vertical in the drilling of hole.

Testing operations rendered by contractor involving the furnishing of instruments and necessary tools for performing a drillstem test.

Perforating gun, jet, or knife and equipment for the purpose of perforating pipe into producing formation.

Furnishing equipment, men and materials to transport acid to well and pump into well bore, usually under pressure, to increase or induce production, remove mud or precipitates from face of formation.

Water Operation. In this type operation, following the surveying and staking of location, it is customary in marsh land drilling to have a contractor dig a canal from a main water course to location preparatory to moving in barge on which is mounted a drilling rig. In moving rotary rig to location, it is necessary to employ contractor for towing barge. In water operations, an operator usually contracts with owner of boats for use by drilling contractor to move materials and crews to and from location. After barge is floated over location, sea cocks are opened and the barge settles to bottom; at which time drilling operations are ready to commence. Subsequent operations are more or less similar to Land Operations in all of the various services needed.

Preparing location, including operations such as grading; excavating; constructing roads, canals, piers and platforms; and erecting shelters.

Installing equipment, including any means of transporting, assembling, erecting, and testing.

Making, conditioning and completing hole, including drilling and control thereof, coring, reaming, straightening or deflecting, repairing defects, together with all surveying, fishing, casing, cementing, perforating, and treating operations that may be required.

Plugging and grouting, including the setting of bottom hole or bridge plugs and injecting cement, plastic or other material into the formation selectively or otherwise.

Completing for utilization, including installation of tubing, packers, valves and other service connections above or below the surface such as flow lines, oil and gas separators, treating equipment and tanks; and also all testing and repairing.

Repairing or redrilling, including deepening, plugging back, squeezing, side tracking, cleaning out, reaming, treating (shooting, acidizing, hydraulic fracturing, etc.), pulling and running casing and tubing, and testing.

Core drilling; strata testing; well logging; well shooting; cementing; pressure fracturing; sand acidizing; repressuring or flooding. Shooting.

Rig removal.

Pulling casing and tubing on abandonment. Dry holes—casings are pulled and well plugged; Old abandoned wells—casings and tubings are pulled and well is plugged.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-46, Direction 5 of September 5, 1952]

M-46—PRIORITIES ASSISTANCE FOR THE PETROLEUM AND GAS INDUSTRIES IN THE UNITED STATES AND CANADA

DIV. 5—RULES FOR ACQUIRING CARBON CONVERSION STEEL BY PETROLEUM AND GAS OPERATORS IN THE UNITED STATES AND CANADA

This direction is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

REGULATORY PROVISIONS

Sec.

1. What this direction does.
2. Applicability of other orders.
3. Carbon conversion steel for construction operations.
4. Orders for carbon conversion steel.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. What this direction does. The purpose of this direction is to provide rules for the acquisition and use of carbon conversion steel without allot-

ments. The direction provides that the only finished carbon conversion steel which may be obtained by petroleum and gas operators without allotments is finished carbon conversion steel for use in approved construction projects. The effect of this is to require that finished carbon conversion steel in the form and shape of oil country tubular goods continue to be acquired only by allotments. "Finished carbon conversion steel" has the same meaning as in CMP Regulation No. 1, Direction 19.

Sec. 2. Applicability of other orders. No operator shall acquire any finished carbon conversion steel, including such steel in the form and shape of oil country tubular goods, pursuant to the provisions of Direction 19 to CMP Regulation No. 1, as amended, or Direction 7 to Revised CMP Regulation No. 6, as amended.

Sec. 3. Carbon conversion steel for construction operations. (a) Any operator who has received authorization from the Petroleum Administration for Defense to commence construction of a petroleum or gas project on Form PAD-26 together with a related allotment of carbon steel for the third calendar quarter of 1952, the fourth calendar quarter of 1952, or the first calendar quarter of 1953, may use the allotment symbol identifying such allotment to order for delivery in each of such quarters for each such approved project up to 500 tons of finished carbon conversion steel without charging the related allotment, and use such steel in such project.

(b) To obtain authorization to acquire in excess of 500 tons of finished carbon conversion steel in any such calendar quarter for any such project, as provided in paragraph (a) of this section without charging the related allotment, or to obtain authorization to acquire finished carbon conversion steel in any amount for any other construction project without charging the related allotment, a domestic operator shall make application to the Petroleum Administration for Defense, Washington 25, D. C., and a Canadian operator shall make application to the Petroleum Division, Department of Defence Production, Toronto, Canada. Such application shall describe and state the tonnage of the semifinished and finished conversion product and the name and address of the supplier and the finishing plant.

Sec. 4. Orders for carbon conversion steel. Any person who is authorized to acquire and use finished carbon conversion steel pursuant to section 3 of this direction, may place authorized controlled material orders for such steel with the finished conversion steel producer, and such producer may accept and fill such orders if they will not interfere with production directives and other directives which may be issued from time to time to such steel producer by NPA, or with the acceptance and filling of orders which such steel producer is required to accept pursuant to any regulation or order of NPA. The person ordering such steel shall make his own arrangements for obtaining the semifinished carbon conversion steel with the original ingot producer, or the finished conversion steel producer. In arranging to purchase the semifinished carbon conversion steel

from an original ingot producer or an intermediate producer, such person shall furnish to such original ingot producer or intermediate producer a certification in the following form:

Certified under Direction 5 to NPA Order M-46

which shall be signed as provided in section 8 of NPA Reg. 2. This certification shall constitute a representation to the original ingot producer or intermediate producer and to NPA that such person is authorized to place such order under the provisions of this direction to obtain the quantity of semifinished conversion steel covered by the delivery order, for conversion into finished conversion steel, and that he will furnish an authorized controlled material order to the finished conversion steel producer. Notwithstanding the provisions of any NPA regulation or order, a producer of semifinished carbon conversion steel may deliver semifinished carbon conversion steel pursuant to such a certification: *Provided, however,* That such delivery shall not interfere with production directives and other directives which may be issued from time to time to such steel producer by NPA, or with delivery on orders which such steel producer is required to accept pursuant to any regulation or order of NPA.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This direction shall take effect September 5, 1952.

SECTION 1. What this direction does. The purpose of this direction is to provide rules for the acquisition and use of carbon conversion steel without allotments. The direction provides that the only finished carbon conversion steel which may be obtained by petroleum and gas operators without allotments is finished carbon conversion steel for use in approved construction projects. The effect of this is to require that finished carbon conversion steel in the form and shape of oil country tubular goods continue to be acquired only by allotments. "Finished carbon conversion steel" has the same meaning as in CMP Regulation No. 1, Direction 19.

SEC. 2. Applicability of other orders. No operator shall acquire any finished carbon conversion steel, including such steel in the form and shape of oil country tubular goods, pursuant to the provisions of Direction 19 to CMP Regulation No. 1, as amended, or Direction 7 to Revised CMP Regulation No. 6, as amended.

SEC. 3. Carbon conversion steel for construction operations. (a) Any operator who has received an allotment of carbon steel for a construction project on Form PAD-26A for the third calendar quarter of 1952, the fourth calendar quarter of 1952, or the first calendar quarter of 1953, may use the allotment symbol identifying such allotment to order for delivery in each of such quarters, for each such project, up to 500 tons of finished carbon conversion steel without charging the related allotment, and use such steel in such project.

(b) To obtain authorization to acquire in excess of 500 tons of finished carbon conversion steel in any such calendar quarter for any such project as provided in paragraph (a) of this section without charging the related allotment, or to obtain authorization to acquire finished carbon conversion steel in any amount for any other construction project without charging the related allotment, an operator shall make application by filing an original and three copies with the Office of International Trade. Such application shall describe and state the tonnage of the semifinished and finished conversion product and the name and address of the supplier and the finishing plant.

SEC. 4. Orders for carbon conversion steel. Any person who is authorized to acquire and use finished carbon conversion steel pursuant to section 3 of this direction, may place authorized controlled material orders for such steel with the finished conversion steel producer, and such producer may accept and fill such orders if they will not interfere with production directives and other directives which may be issued from time to time to such steel producer by NPA, or with the acceptance and filling of orders which such steel producer is required to accept pursuant to any regulation or order of NPA. The person ordering such steel shall make his own

arrangements for obtaining the semifinished carbon conversion steel with the original ingot producer, or the finished conversion steel producer. In arranging to purchase the semifinished carbon conversion steel from an original ingot producer or an intermediate producer, such person shall furnish to such original ingot producer or intermediate producer a certification in the following form:

Certified under Direction 3 to NPA Order M-46A

which shall be signed as provided in section 8 of NPA Reg. 2. This certification shall constitute a representation to the original ingot producer or intermediate producer and to NPA that such person is authorized to place such order under the provisions of this direction to obtain the quantity of semifinished conversion steel covered by the delivery order, for conversion into finished conversion steel, and that he will furnish an authorized controlled material order to the finished conversion steel producer. Notwithstanding the provisions of any NPA regulation or order, a producer of semifinished carbon conversion steel may deliver semifinished carbon conversion steel pursuant to such a certification: *Provided, however,* That such delivery shall not interfere with production directives and other directives which may be issued from time to time to such steel producer by NPA, or with delivery on orders which such steel producer is required to accept pursuant to any regulation or order of NPA.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This direction shall take effect September 5, 1952.

SCHEDULE A—DEFENSE-RENTAL AREAS

ILLINOIS, INDIANA, MICHIGAN AND
PENNSYLVANIA

Effective September 6, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 3d day of September 1952.

JAMES MCI. HENDERSON,
Director of Rent Stabilization.

1. Schedule A, Item 83, is amended to describe the counties in the defense-rental area as follows:

Cook County, except (i) the Cities of Berwyn, Blue Island, Calumet City, Chicago Heights, Des Plaines, Harvey, Park Ridge, and that portion of the City of Elgin located therein, (ii) the Town of Cicero, (iii) the Villages of Arlington Heights, Bartlett, Bellwood, Brookfield, Burnham, Calumet Park, Crestwood, Dolton, East Hazelcrest, Evergreen Park, Flossmoor, Franklin Park, Glenview, Glenview, Hazelcrest, Hillside, Homewood, Kenilworth, La Grange, La Grange Park, Lansing, Lemont, Lyons, Markham, Matteson, Morton Grove, Mt. Prospect, Northfield, North Riverside, Oak Forest, Orland Park, Palatine, Phoenix, Riverdale, River Forest, Riverside, South Holland, Thornton, Tinley Park, Westchester, Western Springs, Wheeling, Wilmette, Winnetka, and (iv) those portions of the Villages of Barrington, Hinsdale and Steger located in said Cook County; Kane County, except that portion of the City of Elgin located therein, the Cities of Batavia, Geneva and St. Charles, and the Villages of Carpentersville, East Dundee, Hampshire, South Elgin and West Dundee; and Lake County, except the City of Lake Forest, the Villages of Deerfield, Grayslake and Lake Bluff, and that portion of the Village of Barrington located therein.

This decontrols the Village of Lake Bluff in Lake County, Illinois, a portion of the Chicago, Illinois, Defense-Rental Area.

2. Schedule A, Item 88b, is amended to describe the counties in the defense-rental area as follows:

Peoria County, except the Cities of Chillicothe and Peoria, and the Villages of North Chillicothe and Peoria Heights, and all unincorporated localities in said county; Tazewell County, except the Cities of Pekin and Washington, the Village of Morton, and all unincorporated localities.

This decontrols the City of Pekin in Tazewell County, Illinois, a portion of the Peoria, Illinois, Defense-Rental Area.

3. Schedule A, Item 102, is amended to describe the counties in the defense-rental area as follows:

Lake County, except the Cities of Crown Point, East Chicago, Hammond, Hobart and Whiting, the Towns of Highland and Munster, and the Townships of Cedar Creek, Eagle Creek, Hanover, West Creek and Winfield.

Ditto.

In Lake County, the City of Whiting, the Town of Highland, and the Townships of Hanover and Winfield.

This decontrols the Town of Munster in Lake County, Indiana, a portion of the Gary-Hammond, Indiana, Defense-Rental Area.

4. Schedule A, Item 152, is amended to describe the counties in the defense-rental area as follows:

Calhoun County, except the City of Battle Creek and the Townships of Battle Creek, Bedford, Emmett and Pennfield.

This decontrols the Township of Pennfield in Calhoun County, Michigan, a portion of the Kalamazoo-Battle Creek, Michigan, Defense-Rental Area.

5. Schedule A, Item 267, is amended to describe the counties in the defense-rental area as follows:

No. 175—3

Allegheny County, except the Boroughs of Bethel, Churchill, Elizabeth, Ingram, Rosslyn Farms and Wilkinsburg, and the Townships of Crescent, Franklin, Mount Lebanon, Ohio, Penn and Shaler; Armstrong County; Beaver County, except the Borough of Beaver and the Township of Brighton; Lawrence County, except the Borough of New Wilmington; Westmoreland County; in Butler County, the City of Butler; Fayette County, except the Townships of Henry Clay, Stewart and Wharton; in Greene County, the Townships of Cumberland, Dunkard, Jefferson, Monongahela, Morgan and Franklin, except the Borough of Waynesburg; and Washington County, except the Townships of East Finley, Morris, South Franklin and West Finley.

That part of Beaver County north and east of the Ohio River, except the Townships of Economy, Harmony and Brighton, and the Boroughs of Ambbridge, Baden, Beaver and Conway, and (effective February 28, 1952) that part of the Borough of Ellwood City which lies in Beaver County.

In Beaver County, the Townships of Potter and Center and the Borough of Monaca.

In Beaver County, Brighton Township.

This decontrols the Township of Franklin in Allegheny County, Pennsylvania, a portion of the Pittsburgh, Pennsylvania, Defense-Rental Area.

All decontrols effected by these amendments are based on resolutions submitted under section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

[F. R. Doc. 52-9786; Filed, Sept. 5, 1952; 8:57 a. m.]

[Rent Regulation 3, Amdt. 81 to Schedule A]

[Rent Regulation 4, Amdt. 25 to Schedule A]

RR 3—HOTELS

RR 4—MOTOR COURTS

SCHEDULE A—DEFENSE-RENTAL AREAS

INDIANA

Effective September 6, 1952, Rent Regulation 3 and Rent Regulation 4 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 3d day of September 1952.

JAMES MCI. HENDERSON,
Director of Rent Stabilization.

Schedule A, Item 102, is amended to describe the counties in the defense-rental area as follows:

Lake County, except the Cities of Crown Point, East Chicago, Hammond and Hobart, the Town of Munster, and the Townships of Cedar Creek, Eagle Creek and West Creek.

This decontrols the Town of Munster in Lake County, Indiana, a portion of the Gary-Hammond, Indiana, Defense-Rental Area, based on a resolution submitted under section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

NORTH RIVER, MASS.; STATE OF MASSACHUSETTS HIGHWAY BRIDGE BETWEEN SCITUATE AND MARSHFIELD

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.77 governing the operation of the highway bridge over the North River between Scituate and Marshfield is hereby prescribed as follows:

§ 203.77 North River, Mass.; State of Massachusetts highway bridge between Scituate and Marshfield. (a) The owner of or agency controlling the bridge will not be required to keep draw tenders in constant attendance at the bridge.

(b) Whenever a vessel unable to pass under the closed bridge desires to pass through the draw during the period between May 1, and October 31, at least 4-hours advance notice of the time the opening is required shall be given to the authorized representative of or agency controlling the bridge. For the remainder of the year at least 24-hours advance notice for a desired opening shall be given. For this purpose the owner of the bridge shall provide arrangements whereby the draw tenders can be readily reached by telephone or otherwise at any time of the day or night.

(c) Upon receipt of such notice, the authorized representative of the owner of or agency controlling the bridge, in compliance therewith, shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(d) The owner of or agency controlling the bridge shall keep conspicuously posted on both sides of the bridge, in a position where it can easily be read at any time, a copy of these regulations together with a notice stating exactly how the representative specified in paragraph (b) of this section may be reached.

(e) Automobiles, trucks, vehicles, vessels, or other watercraft shall not be stopped or manipulated in a manner hindering or delaying the operation of the draw. All passage over the draw or through the draw opening shall be in a manner to expedite both land and water traffic.

(f) The operating machinery of the draw shall be maintained in serviceable condition, and the draw opened and closed at least once each quarter to make certain that the machinery is in proper order for satisfactory operation.

[Regs., Aug. 19, 1952, 823.01-ENGWO] (28 Stat. 362; 33 U. S. C. 499)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service,
Department of the InteriorSubchapter C—Management of Wildlife
Conservation Areas

PART 34—SOUTHEASTERN REGION

SUBPART—KENTUCKY WOODLANDS NATIONAL
WILDLIFE REFUGE, KENTUCKY

HUNTING PERMITTED

Basis and purpose. On the basis of observations and reports of field representatives of the Fish and Wildlife Service, it has been determined that the population of white-tailed deer and rabbits is sufficient that a periodic removal is possible and can best be accomplished by public hunting.

Inasmuch as the following regulation is a relaxation of existing regulations

applicable to the Kentucky Woodlands National Wildlife Refuge, notice and public procedure thereon are not required (60 Stat. 237; 5 U. S. C. 1001, et seq.).

Effectively immediately upon publication of this document in the *FEDERAL REGISTER*, § 34.60 *Hunting permitted*, is revised to read as follows:

§ 34.60 *Hunting permitted.* Until further notice, raccoons and opossums may be taken on that part of the Kentucky Woodlands National Wildlife Refuge, Kentucky, lying west of the dividing Ridge Road north of U. S. Highway No. 68 and south of the Moss Creek Ferry Road, and until further notice, fallow deer of either sex, white-tailed deer, rabbits, red and gray foxes, bobcats, woodchucks, squirrels, opossums, skunks, crows, and carp may be taken

by means of bow and arrow within the fallow deer range on the Kentucky Woodlands National Wildlife Refuge, as determined annually by the officer in charge of the Refuge and designated by posting. All such hunting shall be in accordance with the State laws and regulations, at such times, and under such special regulations and conditions as may be prescribed by the officer in charge of the Refuge, copies of which shall be posted at Refuge headquarters. All hunting shall also be in accordance with the provisions of §§ 34.58, 34.59, and 34.61.

(Sec. 10, 45 Stat. 1224; 16 U. S. C. 7151)

Dated: August 29, 1952.

O. H. JOHNSON,
Acting Director.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 424]

EXTENSIONS OF TIME FOR PAYMENT OF
TAXES BY CORPORATIONS EXPECTING
CARRY-BACKS AND TENTATIVE CARRY-
BACK ADJUSTMENTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the *FEDERAL REGISTER*. The proposed regulations are to be issued under the authority contained in section 3791 of the Internal Revenue Code (53 Stat. 467; 26 U. S. C. 3791).

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform the regulations prescribed by Treasury Decision 5498, approved February 27, 1946 (26 CFR Part 474), to sections 3779 and 3780 (a) of the Internal Revenue Code, as amended by section 304 (a), (b), and (g) of the Excess Profits Tax Act of 1950, approved January 3, 1951, such Treasury decision is amended as follows:

PARAGRAPH 1. The paragraph which reads "Pursuant to the above-quoted provisions of the Tax Adjustment Act of 1945, the following regulations are hereby prescribed:", which paragraph immediately precedes § 474.0, is stricken and

there is inserted in lieu thereof the following:

SEC. 304. TECHNICAL AMENDMENTS (EXCESS PROFITS TAX ACT OF 1950, APPROVED JANUARY 3, 1950).

(a) Section 3779 of the Internal Revenue Code (relating to extensions of time for payment of taxes by corporations expecting carry-backs) is hereby amended by striking "710 (c) (3)" where it appears in subsection (b) and inserting in lieu thereof "432 (c)", and by striking the words "four equal" where they appear in subsections (c), (g) and (i).

(b) Section 3780 (a) of such code (relating to tentative carry-back adjustments) is hereby amended by striking "710 (c) (3)" and inserting in lieu thereof "432 (c)".

(g) The amendments made by this section shall be applicable with respect to taxable years ending after June 30, 1950.

Pursuant to the above-quoted provisions of law, the following regulations are hereby prescribed:

PAR. 2. Section 474.2 is amended by inserting "711 (a) (2) (L), and 433 (a) (1) (J)" in lieu of "and 711 (a) (2) (L)" in the last sentence of paragraph (c) thereof, so that such sentence will read as follows: "In determining the net operating loss deduction, the adjustments required by sections 122 (c), 711 (a) (1) (J), 711 (a) (2) (L), and 433 (a) (1) (J) are likewise to be made."

PAR. 3. Section 474.4 is amended by striking "four equal installments." from the end of the first sentence thereof and inserting in lieu thereof "installments as provided in section 56 (b).", so that such sentence will read as follows: "If an extension of time relates to only part of the tax, the time for payment of the remainder of the tax shall be considered to be the dates on which payments would have been required if such remainder had been the tax and the taxpayer had elected to pay the tax in installments as provided in section 56 (b)."

PAR. 4. Section 474.8 is amended by striking from the second sentence thereof the words "four equal", so that such sentence will read as follows: "The time for payment of such amount shall be the

dates on which payments would have been required if there had been no extension with respect to such amount and the taxpayer had elected under section 56 (b) to pay the tax in installments."

PAR. 5. Section 474.9 is amended by striking the words "four equal" from the second sentence thereof, so that the part of such sentence which precedes paragraph (a) thereof will read as follows: "The interest, which is to be collected as part of such amount, is to be computed from the dates on which payments would have been required if there had been no extension, and the taxpayer had elected under section 56 (b) to pay the tax in installments, at the following rates:"

PAR. 6. Section 474.11 is amended by inserting "711 (a) (2) (L), and 433 (a) (1) (J)" in lieu of "and 711 (a) (2) (L)" in the last sentence of paragraph (b) thereof, so that such sentence will read as follows: "In computing the net operating loss deduction for purposes of determining any such increase or decrease, proper adjustments as required by sections 122 (c), 711 (a) (1) (J), 711 (a) (2) (L), and 433 (a) (1) (J) are to be made."

DEPARTMENT OF AGRICULTURE

Production and Marketing
Administration

[7 CFR Parts 723, 727]

CIGAR-FILLER TOBACCO, AND CIGAR-FILLER
AND BINDER TOBACCO; MARYLAND TO-
BACCONOTICE OF DETERMINATIONS TO BE MADE
WITH RESPECT TO TOBACCO MARKETING
QUOTAS FOR 1953-54 MARKETING YEAR

Pursuant to the Agricultural Adjustment Act of 1938, as amended, the Secretary of Agriculture is preparing to proclaim national marketing quotas for cigar-filler tobacco, cigar-filler and

binder tobacco, and Maryland tobacco, for the 1953-54 marketing year, determine the amount of the national marketing quota for each kind of tobacco, apportion the national marketing quotas among the several States, and convert the State marketing quotas into State acreage allotments.

The Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1312 (a)), provides that the Secretary of Agriculture shall proclaim a national marketing quota for each marketing year for each kind of tobacco for which a national marketing quota was proclaimed for the immediately preceding marketing year. The act (7 U. S. C. 1301 (b) (15)) defines "tobacco" as each one of the kinds of tobacco listed below comprising the types specified as classified in Service and Regulatory Announcement Numbered 118 (7 CFR Part 30) of the Bureau of Agricultural Economics of the Department:

- Flue-cured tobacco, comprising types 11, 12, 13, and 14;
- Fire-cured tobacco, comprising types 21, 22, 23, and 24;
- Dark air-cured tobacco, comprising types 35 and 36;
- Virginia sun-cured tobacco, comprising type 37;
- Burley tobacco, comprising type 31;
- Maryland tobacco, comprising type 32;
- Cigar-filler and cigar-binder tobacco, comprising types 42, 43, 44, 45, 46, 51, 52, 53, 54, and 55;
- Cigar-filler tobacco, comprising type 41.

The act provides that any one or more of the types comprising any such kind of tobacco shall be treated as a "kind of tobacco" for the purposes of this act if the Secretary finds that there is a difference in supply and demand conditions as among such types of tobacco which results in a difference in the adjustments needed in the marketings thereof in order to maintain supplies in line with demand. Pursuant to this authority the Secretary has determined (15 F. R. 8214) that type 46 tobacco shall be treated as a separate kind of tobacco for purpose of marketing quotas and price supports on the 1951 and subsequent crops of such tobacco.

The act (7 U. S. C. 1313 (i)) provides that notwithstanding any other provision of the act, whenever after investigation the Secretary determines with respect to any kind of tobacco that a substantial difference exists in the usage or market outlets for any one or more of the types comprising such kind of tobacco and that the quantity of tobacco of such type or types to be produced under the marketing quotas and acreage allotments established pursuant to this section would not be sufficient to provide an adequate supply for estimated market demands and carry-over requirements for such type or types of tobacco, the Secretary shall increase the marketing quotas and acreage allotments for farms producing such type or types of tobacco in the preceding year to the extent necessary to make available a supply of such type or types of tobacco adequate to meet such demands and carry-over requirements. The increases in farm marketing quotas and acreage allotments shall be made on the basis of the

production of such type or types of tobacco during the period of years considered in establishing farm marketing quotas and acreage allotments for such kind of tobacco. The additional production authorized by this subsection shall be in addition to the national marketing quota established for such kind of tobacco pursuant to section 312 of this act. The increase in acreage under this subsection shall not be considered in establishing future State or farm acreage allotments.

National marketing quotas were proclaimed for the 1952-53 marketing year as follows:

Kind of tobacco:

- Cigar-filler; 16 F. R. 11474.
- Cigar-filler and binder; 16 F. R. 11474.
- Maryland; 16 F. R. 11537.

The act (7 U. S. C. 1312 (a)) provides that the Secretary shall also determine and specify in such proclamation the amount of the national marketing quota in terms of the total quantity of tobacco which may be marketed, which will make available during such marketing year a supply of tobacco equal to the reserve supply level. The act provides further that the amount of the 1953-54 national marketing quota may, not later than March 1, 1953, be increased by not more than 20 per centum if the Secretary determines that such increase is necessary in order to meet marketing demands or to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level. The act (7 U. S. C. 1301 (b)) defines the "total supply" of tobacco for any marketing year as the carry-over at the beginning of the marketing year (or on January 1 of such marketing year in the case of Maryland tobacco) plus the estimated production in the United States during the calendar year in which such marketing year begins. "Reserve supply level" is defined as the normal supply plus 5 per centum thereof. "Normal supply" is defined as a normal year's domestic consumption and exports, plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports. A "normal year's domestic consumption" is defined as the yearly average quantity produced in the United States and consumed in the United States during the 10 marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A "normal year's exports" is defined as the yearly average quantity produced in the United States which was exported from the United States during the 10 marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

The act (7 U. S. C. 1312 (b)) requires that within 30 days after a national marketing quota is proclaimed for the 1953-54 marketing year for cigar-filler tobacco, cigar-filler and binder tobacco, or Maryland tobacco, the Secretary shall conduct a referendum of farmers who are engaged in the production of the 1952 crop of each of such kinds of tobacco to determine whether such farmers are in favor of or opposed to

such quota. If more than one-third of the farmers voting in the referendum oppose such quota, the quota shall not be effective thereafter. The Secretary is also required to submit to such farmers the question of whether they favor marketing quotas for a period of three years beginning with the 1953-54 marketing year. If two-thirds of the farmers voting on this question favor quotas for such three-year period, the Secretary is required to proclaim marketing quotas for such period. A separate referendum will be held for each of such kinds of tobacco and the results of any referendum will not affect the results of any other referendum.

The act (7 U. S. C. 1313 (a)) requires the Secretary to apportion the national marketing quota, less the amount to be allotted under subsection (c) of section 1313 (small farms and "new" farms), among the several states on the basis of the total production in each State during the five calendar years immediately preceding the calendar year in which the quota is proclaimed, with such adjustments as are determined to be necessary to make correction for abnormal conditions of production, for small farms, and for trends in production, giving due consideration to seed bed and other plant diseases during such 5-year period. The act (7 U. S. C. 1313 (g)) authorizes the Secretary to convert State marketing quotas into State acreage allotments on the basis of average yield per acre for the State during the 5 years last preceding the year in which the national marketing quota is proclaimed, adjusted for abnormal conditions of production.

In making the determinations of the amounts of the national marketing quotas, the apportionment of the quotas among the several States, and the conversion of State marketing quotas into State acreage allotments, consideration will be given to any data, views and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 3d day of September 1952.

[SEAL]

G. F. GEISSLER,
Administrator.

[7 CFR Part 997]

**HANDLING OF FILBERTS GROWN IN OREGON
AND WASHINGTON**

**SALABLE, SURPLUS, AND WITHHOLDING
PERCENTAGES**

Notice is hereby given that the Department is considering the issuance of the proposed administrative rule herein set forth pursuant to the provisions of

PROPOSED RULE MAKING

Marketing Agreement No. 115 and Order No. 97 regulating the handling of filberts grown in Oregon and Washington (7 CFR Part 997), effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Prior to the final issuance of such administrative rule, consideration will be given to data, views, or arguments pertaining thereto which are submitted in writing to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and which are received not later than the close of business on the tenth day after date of publication of this notice in the FEDERAL REGISTER, except that, if said tenth day after publication should fall on a holiday, Saturday, or Sunday, such submission may be received by the Director not later than the close of business on the next following work day.

Upon the basis of estimates submitted by the Filbert Control Board, the administrative agency operating under the aforesaid agreement and order, and other information available to the Department, it is proposed that the salable percentage of merchantable in-shell filberts for the fiscal year beginning August 1, 1952, be fixed at 66 percent and the surplus percentage at 34 percent.

Following is a summary of the supply and demand situation for merchantable in-shell filberts for the fiscal year beginning August 1, 1952, which is based in part on estimates submitted by the Filbert Control Board, and in part on other information available to the Department: (1) Merchantable production from the 1952 crop, 17,167,000 pounds; (2) trade demand, 11,000,000 pounds; (3) handler carryover, August 1, 1952 (all certified for shipment), 794,000 pounds; (4) trade demand to be supplied from the 1952 crop (item 2-item 3), 10,206,000 pounds; (5) salable quantity computed at 66 percent of item 1, 11,330,000 pounds; (6) handler carryover as of August 1, 1953 (item 5-item 4), 1,124,000 pounds.

On the basis of the aforesaid proposed salable and surplus percentages, the withholding percentage, which is the ratio of the surplus percentage to the salable percentage, would be 52 percent, when adjusted to the nearest whole number.

The proposed rule is as follows:

§ 997.202 *Salable, surplus, and withholding percentages for merchantable in-shell filberts.* For the fiscal year beginning August 1, 1952, the salable percentage of merchantable in-shell filberts shall be 66 percent, the surplus percentage shall be 34 percent, and the withholding percentage shall be 52 percent.

Issued at Washington, D. C., this 3d day of September 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Branch.

[29 CFR Part 522]

EMPLOYMENT OF LEARNERS IN THE CIGAR
INDUSTRY IN THE UNITED STATES

NOTICE OF PROPOSED AMENDMENT

Pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (section 14, 52 Stat. 1068, as amended; 29 U. S. C. 214) the Administrator has heretofore issued regulations (§§ 522.201 through 522.211) providing for the employment of learners in the cigar industry in the continental United States at wages lower than the minimum wage applicable under section 6 of the act.

Such regulations have been re-examined in the light of recent changes in wage levels, administrative experience in the operation of the regulations, and after consultation with interested parties in the industry. All relevant infor-

mation available indicates that it is necessary to amend the learner regulations for this industry by increasing the minimum learner wage rates as proposed below.

Accordingly, notice is hereby given pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), that under the authority provided in section 14 of the Fair Labor Standards Act of 1938, as amended, the Administrator of the Wage and Hour Division, United States Department of Labor, proposes to amend § 522.204 (a) of this part to read as follows:

§ 522.204 *Subminimum rates.* (a) The subminimum rates which may be authorized in special certificates issued in the cigar industry shall be not less than 65 cents per hour in the occupations of cigar machine operating and cigar packing; not less than 65 cents per hour for the first 480 hours and 70 cents per hour for the second 480 hours in the occupations of hand rolling and hand bunch making; not less than 65 cents per hour for the first 320 hours and 70 cents per hour for the second 320 hours in the occupation of making Italian stogies; and not less than 65 cents per hour in the occupations of hand stripping and machine stripping.

Prior to final adoption of the proposed amendment, consideration will be given to any data, views or arguments pertaining thereto which are submitted in writing to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., within 15 days from publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 2d day of September 1952.

F. GRANVILLE GRIMES, Jr.,
Acting Administrator, Wage
and Hour and Public Con-
tracts Divisions.

CHIEF OF CONCESSIONS MANAGEMENT,
REGIONAL DIRECTORS, AND SUPERIN-
TENDENTS

DELEGATION OF AUTHORITY WITH RESPECT
TO APPROVAL OF CONCESSIONERS' RATES,
STOCK TRANSFERS, ETC.

Subject to the limitations and conditions contained in section 16 of Order No. 2640 (16 F. R. 5846):

(a) The Chief of Concessions Management is authorized:

1. To approve all transfers of corporate stock in corporations operating under concession contract with the Department of the Interior.

2. To approve the amount of performance bonds of concessioners required

under contracts with the Department of the Interior.

3. To approve all subconcession agreements made by concessioners operating under contracts with the Department of the Interior.

(b) The Regional Directors are authorized:

1. To execute concession contracts involving terms not longer than five years.

2. To issue authorizations to concessioners to sell intoxicating beverages.

(c) The Superintendents are authorized:

1. To approve the opening and closing dates for concession operations, notwithstanding tentative dates which may be indicated in rate schedules.

(Secretary's Order No. 2640, 39 Stat. 535; 16 U. S. C., 1946 ed., sec. 2)

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

RELIEF FROM EXCESS PROFITS TAX BE-
CAUSE OF AN INADEQUATE EXCESS PROFITS
CREDIT

ALLOWANCE DURING FISCAL YEAR ENDED
JUNE 30, 1952

Subchapter E of Chapter 2 of the Internal Revenue Code imposes an excess profits tax on corporations for taxable years beginning after December 31, 1939. Under the provisions of this subchapter excess profits are measured by comparing the earnings for the current taxable year with a statutory excess profits credit.

Section 722 of Subchapter E reflects the recognition by Congress of the desirability and necessity of granting relief in meritorious cases to corporations which bear an excessive burden because of an inadequate excess profits credit. This section provides for the recomputation of excess profits tax on the basis of a reconstructed excess profits credit.

As required by section 722 (g) the following list, containing the cases ar-

anged alphabetically by internal revenue districts, shows the name and address of each corporation to which relief has been allowed, business, taxable years involved, excess profits credit before allowance of relief, increase in excess profits credit claimed, increase in excess profits credit allowed, decrease in excess profits tax, and increase in income tax. Allowances pursuant to decisions entered by The Tax Court of the United States have been made in fifty-four docketed cases. These are included in the list with appropriate notations. There are included as a supplement to this list eight cases in which relief was allowed by the Commissioner during the fiscal year ended June 30, 1951. These cases were not included in the list of allowances made during the fiscal year 1951 previously published.

In order to determine the relief granted and the relevant data required to be published, intermediate computations of the excess profits tax and the income tax showing the amounts of taxes which would have been due without the benefits of section 722 were made. Comparison of the pertinent items and figures appearing in the application for relief and the tax computations after allowance of relief with those appearing in the intermediate tax computations developed the required data.

Explanations of certain of the items, as displayed in their respective column headings of the list, and the data evolved, follows:

Business in which engaged, column 2. The business in which taxpayer is engaged is that reported in the income tax return of the corporation for the taxable year or years involved, therefore, it does not necessarily correspond with the business during the base period. In those instances where the return for the year involved failed to disclose the nature of the business, information from other sources was utilized. Moreover, since the nature of business shown usually represents a general description of the predominant business activity, it does not necessarily represent or reflect the business activity with respect to which an inadequate excess profits credit was established.

Excess profits credit before allowance of relief, column 4. The excess profits credit before allowance of relief is the credit originally claimed by the taxpayer, as corrected, whether based on income or capital.

Increase in the amount of excess profits credit claimed by taxpayer, column 5. The increase in the amount of excess profits credit claimed by taxpayer is the excess of the credit based on the constructive income claimed by the taxpayer over the credit before allowance of relief shown in column 4.

Increase in the amount of excess profits credit allowed, column 6. The increase in the amount of excess profits credit allowed is the excess of the recomputed credit based on constructive income finally allowed over the credit before allowance of relief shown in column 4.

Gross reduction in the excess profits tax, column 7; gross increase in the income tax, column 8. The gross reduction in the excess profits tax and the gross in-

crease in the income tax resulting from the operation of section 722 are the difference between the gross taxes which would have been due without the benefits of section 722 and the gross taxes due after relief has been granted. The gross excess profits tax is the tax due prior to the deferment under section 710 (a) (5), the foreign tax credit under section 729, the credit for debt retirement under section 783, the ten percent credit under section 784, and the adjustment under section 734. The gross income tax is the tax due prior to the foreign tax credit under section 131.

The changes in the income and excess profits taxes shown reflect the effect of the increase attributable to section 722 in the unused excess profits credit carried forward from prior taxable years as well as the effect of the increase in unused excess profits credit carried back from subsequent taxable years to the extent that claims with respect to unused credit carry-overs and carry-backs determined under section 722 were allowed within the same fiscal year.

While the decrease in excess profits tax is directly related to the increase in excess profits credit allowed, a number of factors serve to invalidate a comparison of the relationship of these two items applicable to a corporation for different taxable years or to different corporations for the same taxable year. Among the most important factors affecting this comparison are (1) increase in excess profits tax rates, (2) changes in rate structure from a graduated to a flat rate system, (3) effect of unused excess profits credits of prior and subsequent years attributable to section 722, (4) variation of provisions applicable to fiscal years, (5) limitation of excess profits tax to the amount by which 80 percent of net income exceeds the income tax, applicable to certain taxable years, and (6) relation of excess profits before the application of section 722 to the increase in excess profits credit allowed.

For taxable years beginning after December 31, 1940, a portion of the amount by which the excess profits tax is reduced by reason of the application of section 722 is offset by an increase in income tax. This offset arises from the provisions which permit the deduction of the income subject to excess profits tax (or excess profits tax in certain taxable years) in arriving at income subject to income tax.

Lists containing the cases in which relief has been allowed for prior fiscal years have been published in the various issues of the FEDERAL REGISTER as follows:

Fiscal years ended	Vol- ume	Num- ber	Date
June 30, 1942.....	9	194	Sept. 28, 1944
June 30, 1943.....	9	194	Sept. 28, 1944
June 30, 1944.....	9	219	Nov. 2, 1944
June 30, 1945.....	10	224	Nov. 15, 1945
June 30, 1946.....	11	196	Oct. 8, 1946
June 30, 1947.....	12	197	Oct. 8, 1947

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

WAGE RATES FOR SUGARCANE INDUSTRY IN PUERTO RICO AND VIRGIN ISLANDS

NOTICE OF HEARINGS AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsections (c) (1) and (c) (2) of section 301 of the Sugar Act of 1948, as amended (61 Stat. 929; 7 U. S. C. Sup. 1131), notice is hereby given that public hearings will be held as follows:

At San Juan, Puerto Rico, in the Conference Room of the Production and Marketing Administration Office, Se-garra Building, on September 25, 1952, at 9:30 a. m.,

At Christiansted, St. Croix, Virgin Islands, in the District Court Room, on September 29, 1952, at 9:30 a. m.

The purpose of these hearings is to receive evidence likely to be of assistance to the Secretary of Agriculture in deter-

mining (1), pursuant to the provisions of section 301 (c) (1) of said act, fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in Puerto Rico and the Virgin Islands during the calendar year 1953 on farms with respect to which applications for payments under the said act are made and (2), pursuant to the provisions of section 301 (c) (2) of said act, fair and reasonable prices for the 1952-53 Puerto Rican crop and the 1953 crop of Virgin Islands sugarcane to be paid, under either purchase or toll agreements by processors who, as producers, apply for payments under the said act.

In order to obtain the best possible information, the Department requests that all interested parties appear at the hearing to express their views and to present appropriate data with respect to wages and prices. While testimony on all points relative to the subject matters of the hearing is desired, it is especially requested that, in connection with fair prices for 1952-53 crop Puerto Rican

sugarcane, interested persons be prepared to make recommendations on the subject of pricing sugarcane from which is made raw sugar within and not within the processor's 1953 marketing allotment. Attention should be given to pricing methods which will not encourage an excessive rate of shifting by producers from one mill to another or from one method of settlement, cash or sugar, to another. In addition, it is requested that recommendations be made on the elements of cost properly admissible as selling and delivery expenses in the computation of net proceeds from sales of molasses and on possible changes in the provision of the 1951-52 crop price determination which relates to allowances made by processors to producers for hauling sugarcane and other services.

The hearings, after being called to order at the time and places mentioned herein, may be continued from day to day within the discretion of the presiding officers, and may be adjourned to a later day or a different place without notice other than the announcement

thereof at the hearing by the presiding officers.

Tom O. Murphy, Ward S. Stevenson, L. F. Diehl, and G. Laguardia are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearings.

Issued this 3d day of September 1952.

[SEAL] LAWRENCE MYERS,
Director, Sugar Branch.

8:58 a. m.]

Commodity Credit Corporation

CHAIRMAN OF PMA COUNTY COMMITTEE
DELEGATION OF AUTHORITY WITH RESPECT TO
EXECUTING LEASES FOR STORAGE STRUCTURES

Pursuant to the authority conferred upon me, by the bylaws of Commodity Credit Corporation published in 14 F. R. 7689, I hereby appoint the Chairman of every Production and Marketing Administration county committee or in his absence the Acting Chairman, a contracting officer, within the county of his jurisdiction, for the purpose of executing, in accordance with instructions, leases of Commodity Credit Corporation-owned storage structures, not needed for storage of Commodity Credit Corporation-owned grain. The aforementioned instructions shall be available for inspection in the PMA County offices.

In leasing such structures, such contracting officers have been instructed to give preference first to farmers or groups of farmers for the storage of their own grain; then to any cooperative associations, as that term is defined in the Agricultural Marketing Act, as amended (12 U. S. C. 1141j), for the storage of grain; and then to commercial warehousemen for the storage of grain: *Provided, however*, That the above preferences shall not be applicable to the leasing of such structures to cooperative associations for use in connection with the peanut price support program. Such contracting officers have been instructed to lease such structures to cooperative associations for such term and on such conditions as may be prescribed by me, for use in connection with the peanut price support program. Thereafter, if such structures are not needed for the storage of grain or peanuts, they may be leased for the storage of any commodity or product which will not be injurious or hazardous to the structure itself, or to the grain or peanuts stored in other structures at the site.

The rate of rental and the terms and conditions of such leases or rental agreements shall be determined by me, and such rates shall be reasonably related to storage rates approved under the Uniform Grain Storage Agreement or other warehouse agreements covering the farm commodities to be stored in such structures.

The expiration date of any such lease or rental agreement shall not be later than April 30 following the date of the rental agreement, unless extended in accordance with instructions issued to

the Chairman of the Production and Marketing Administration county committees, which instructions are on file and available for inspection by the public in the PMA County offices.

The delegation of authority issued May 22, 1951, contained in Federal Register Document 51-6055, published in 16 F. R. 4945, is hereby revoked.

Issued this 29th day of August 1952.

[SEAL] ELMER F. KRUSE,
Acting President,
Commodity Credit Corporation.

Attested:

LIONEL C. HOLM,
Secretary,
Commodity Credit Corporation.

DEFENSE PRODUCTION
ADMINISTRATION

[D. P. A. Request No. 13-A-DPAV-5, Supp. 1 (c)]

WITHDRAWAL OF REQUEST TO PARTICIPATE
IN PLAN OF ACTION NO. 1 UNDER VOL-
UNTARY AGREEMENT RELATING TO SUP-
PLY OF PETROLEUM TO FRIENDLY FOR-
EIGN NATIONS

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request published on 16 F. R. 8377, August 22, 1951, to participate in a plan of action entitled "Plan of Action No. 1 Under Voluntary Agreement Relating to the Supply of Petroleum to Friendly Foreign Nations," dated July 26, 1951, transmitted to and accepted by those companies listed on 16 F. R. 8377, August 22, 1951, 16 F. R. 11038, October 30, 1951, and 16 F. R. 12517, December 12, 1951, is hereby withdrawn.

The Notice of Termination of Plan of Action No. 1 published by the Secretary of the Interior and Petroleum Administrator for Defense, on 17 F. R. 6166, July 9, 1952, and this withdrawal of the request do not relieve any participating

company of any obligation, including the carrying out of approved schedules according to the terms, conditions, or intent thereof, incurred under Plan of Action No. 1 as originally approved and issued; nor do they deprive such company of any rights received or accrued under said Plan of Action No. 1, including the right to carry out the transactions specified in any schedule approved heretofore; nor do they deprive the Administrator of the Petroleum Administration for Defense of the authority to change, modify, or amend any schedule heretofore approved, or the right of any such company to carry out transactions in accordance with any such change, modification, or amendment made by the Administrator of the Petroleum Administration for Defense.

Further, except as to any act or omission to act performed or omitted by reason of the request to participate in Plan of Action No. 1, or as to any obligation incurred thereunder, and permitted to be concluded pursuant to such Notice of Termination, the immunity from prosecution under the Federal Antitrust Laws and the Federal Trade Commission Act heretofore granted is likewise withdrawn.

(Sec. 708, 64 Stat. 818, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Supp. 2158; E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.)

Dated: September 4, 1952.

HENRY H. FOWLER,
Administrator.

[F. R. Doc. 52-9867; Filed, Sept. 5, 1952; 11:07 a. m.]

[DPA Request No. 40-DPAV-22 (a)]

WITHDRAWAL OF REQUEST TO PARTICIPATE
IN VOLUNTARY AGREEMENT RELATING TO
SUPPLY OF HEATING OIL TO EAST COAST

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request published at 17 F. R. 2023, March 7, 1952, to participate in a voluntary agreement entitled "Voluntary Agreement Relating to the Supply of Heating Oil to the East Coast" transmitted to and accepted by those companies listed at 17 F. R. 2023, March 7, 1952, is hereby withdrawn. As stated in the Notice of Expiration, 17 F. R. 4826, May 27, 1952, this voluntary agreement by its own terms ceased to be effective on April 30, 1952.

The immunity from prosecution under the Federal Antitrust Laws and the Federal Trade Commission Act heretofore granted is likewise withdrawn, except as to those acts performed or omitted by reason of the request which occurred prior to this withdrawal.

(Sec. 708, 64 Stat. 818, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Supp. 2158; E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.)

Dated: September 4, 1952.

HENRY H. FOWLER,
Administrator.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27363]

PEAT AND HUMUS FROM GULF PORTS TO WYOMING, KANSAS, COLORADO, AND NEBRASKA

APPLICATION FOR RELIEF

SEPTEMBER 3, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. M. Engdahl, Agent, for carriers parties to his tariff I. C. C. No. 113.

Commodities involved: Peat and humus, carloads.

From: Gulf ports.

To: Points in Wyoming, Kansas, Colorado, and Nebraska.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain port rate relations.

Schedules filed containing proposed rates: H. M. Engdahl, Agent, I. C. C. No. 113, Supp. 40.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27364]

LIQUID CAUSTIC SODA FROM MCINTOSH, ALA., TO EAST ST. LOUIS, ILL., AND ST. LOUIS, MO.

APPLICATION FOR RELIEF

SEPTEMBER 3, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Southern Railway Company, for itself and on behalf of The Alabama Great Southern Railroad Company, and The Cincinnati, New Orleans and Texas Pacific Railway Company.

Commodities involved: Liquid caustic soda, in tank-car loads.

No. 175-7

From: McIntosh, Ala.
To: East St. Louis, Ill., and St. Louis, Mo.

Grounds for relief: Competition with rail carriers and market competition.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1172, Supp. 118.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-89]

UNITED CORP.

NOTICE OF FILING AND ORDER FOR HEARING ON APPLICATION TO PAY FEES AND EXPENSES

SEPTEMBER 2, 1952.

The Commission, by orders herein dated November 24, 1944, and November 29, 1944, having approved a plan, filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") by The United Corporation ("United"), a registered holding company, providing for the exchange, on a voluntary basis, of portfolio assets, including cash, for then outstanding shares of United's \$3 Cumulative Preference Stock, and in said orders having reserved jurisdiction with respect to fees and expenses to be paid by United in connection with said plan; and

Said plan having been consummated, and the Commission, by order herein dated March 22, 1946, having released the jurisdiction so reserved with respect to fees and expenses to be paid by United in connection with said plan;

Notice is hereby given that an application has been filed by Randolph Phillips, a common stockholder of United, for the payment of a requested fee in the amount of \$39,000 for services claimed to have been rendered in 1943 and 1944 in the above entitled matter, and for reimbursement of expenses in the amount of \$23,414.71 claimed to have been incurred by him in 1943 and 1944 in connection with such services.

It appearing to the Commission that it is appropriate in the public interest

that a hearing be held with respect to the matters set forth in said application:

It is ordered, That a hearing on said application, pursuant to sections 11 (e) and 18 of the act and rules and regulations thereunder, be held on September 23, 1952, at 10:00 a. m., e. d. s. t., at the office of the Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 193 will advise as to the room in which such hearing is to be held. Any person who is not already a party or given leave to participate herein, who desires to be heard or otherwise wishes to participate in this proceeding shall file with the Secretary of the Commission on or before September 19, 1952, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Harold B. Teegarden, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer or officers so designated to preside at such hearing are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities having advised the Commission that it has made a preliminary examination of the said application and that, on the basis thereof, the following matters and questions are presented for consideration without prejudice, however, to the presentation of additional matters and questions upon further examination:

Whether the requested amounts for a fee and for expenses are reasonable, and were reasonably incurred, in rendering services which were necessary in connection with said plan and the proceedings with respect thereto, and whether it is appropriate and lawful to require United to pay the requested fee and expenses, in whole or in part;

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That any person desiring to assert any additional claims for compensation or reimbursement for fees and expenses in connection with the proceedings upon the plan shall, on or before September 19, 1952, file such claim or a notification of intention to assert such claim, and, in the event such claims are filed during the course of the hearings, no notice of such filing will be given unless specifically ordered by the Commission. Any person desiring to receive further notice of the filing of such additional claims should file an appearance in these proceedings or otherwise specifically request such notice.

It is further ordered, That the Secretary of the Commission shall serve notice of the said hearing by mailing a copy of this notice and order by registered mail to Randolph Phillips, The United Corporation and to all persons granted participation in the proceedings, and notice of said hearing shall be given to all other persons by publi-

cation of this notice and order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DuBOIS,
Secretary.

[File No. 70-2906]

ARLINGTON GAS LIGHT CO. ET AL.

ORDER AUTHORIZING ISSUANCE OF
PROMISSORY NOTES

SEPTEMBER 2, 1952.

In the matter of Arlington Gas Light Company, Beverly Gas and Electric Company, Central Massachusetts Gas Company, Gloucester Gas Light Company, Lawrence Gas and Electric Company, Malden and Melrose Gas Light Company, Northampton Gas Light Company, Northern Berkshire Gas Company, Salem Gas Light Company, Suburban Gas and Electric Company, Wachusett Gas Company, File No. 70-2906.

The above named public-utility subsidiary companies of New England Electric System, a registered holding company, hereinafter individually referred to as "Arlington," "Beverly," "Central Mass.," "Gloucester Gas," "Lawrence," "Malden Gas," "Northampton," "Northern Berkshire," "Salem Gas," "Suburban" and "Wachusett" and collectively referred to as the "borrowing companies," having filed with this Commission applications, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935, and Rules U-23, U-42 (b) (2) and U-50 (a) (2) thereunder with respect to the following proposed transactions:

The borrowing companies propose to issue to The National City Bank of New York before September 5, 1952, unsecured promissory notes in an aggregate amount of \$4,540,000. Said notes will be payable in 10 equal instalments beginning on September 1, 1953, and ending on September 1, 1962. Interest on the annual instalments payable September 1, 1953, and September 1, 1954, will be at the rate of 3¼ percent per annum, on the annual instalments payable September 1, 1955, through September 1, 1957, at the rate of 3½ percent per annum and on the annual instalments payable September 1, 1958, through September 1, 1962, at the rate of 3¾ percent per annum or an over-all cost of money for the 10-year period of 3.668 percent. Under certain conditions, the notes may be prepaid, in whole or in part, without premium.

The applications state that the Massachusetts Department of Public Utilities has granted all of the borrowing companies, except Gloucester Gas and Wachusett, authority to amortize the costs of conversion to the use of natural gas over a period of ten years and that it is expected that the Massachusetts Commission will authorize a like period of amortization for these two companies. The amount of the note each borrowing company proposes to issue is set forth in the table below and, in each case,

such amount is substantially equal to the estimated amount of unamortized conversion costs at August 31, 1952. The proceeds of the proposed notes will be applied solely to the payment of short-term note indebtedness incurred by the borrowing companies for costs of conversion to the use of natural gas.

	Amount of proposed notes
Arlington.....	\$565,000
Beverly.....	285,000
Central Massachusetts.....	200,000
Gloucester Gas.....	125,000
Lawrence.....	835,000
Malden Gas.....	1,240,000
Northampton.....	195,000
Northern Berkshire.....	220,000
Salem Gas.....	380,000
Suburban.....	325,000
Wachusett.....	170,000
Total.....	4,540,000

The applications state that the Massachusetts Department of Public Utilities has approved and authorized the proposed note issues and no other state commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

The applications further state that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed \$500 for each of the borrowing companies, or an aggregate of \$5,500.

The borrowing companies request that the Commission's order herein become effective forthwith upon issuance.

Notice of the filing of the applications having been given in the manner and form provided by Rule U-23 of the rules and regulations promulgated under the act, and a hearing not having been requested or ordered by the Commission within the time specified in said notice; and the Commission finding that the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said applications be granted and that the Commission's order become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said applications be, and hereby are, granted, subject to the terms and conditions prescribed in Rule U-24, and that this order shall become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DuBOIS,
Secretary.

[File No. 70-2920]

ARKANSAS POWER & LIGHT CO.

NOTICE OF FILING CONCERNING ACQUISITION
OF UTILITY ASSETS

SEPTEMBER 2, 1952.

Arkansas Power & Light Company
("Arkansas"), an electric utility subsidi-

ary of Middle South Utilities, Inc., a registered holding company, has filed an application with the Commission pursuant to the Public Utility Holding Company Act of 1935, and has designated sections 9 and 10 thereof as applicable to the transactions which are summarized as follows:

Arkansas proposes to acquire all of the outstanding stock of Swifton Power & Light Company ("Swifton") for a cash consideration of \$65,000. Upon acquiring such stock, Arkansas proposes to surrender the stock of Swifton, liquidate that Company and transfer its assets to Arkansas. All of the outstanding 360 shares of the capital stock of Swifton are owned by Graham Brothers Company, a non-affiliated Arkansas corporation.

Swifton operates an electric distribution system in the town of Swifton, Arkansas. It is presently interconnected with Arkansas, which services adjacent territory, and purchases all of its electric power requirements from Arkansas. For the year ended March 1952, Swifton's kilowatt hour sales were: residential, 152,464; commercial, 177,694. The net plant of Swifton is stated at \$27,131. The total operating revenues of Swifton for the 12 months ended May 31, 1952, were \$14,429 and its net profit \$2,201.

The proposed transactions have been approved by the Arkansas Public Service Commission, and that Commission has directed Arkansas to eliminate the newly created Electric Plant Acquisition Adjustments (Account 100.5) in the amount of \$39,911.86 by a charge to Earned Surplus.

The application states that upon consummation of the transactions, the operations of Swifton's facilities will be fully integrated with those of Arkansas and by reason of application of Arkansas' rate schedule will result in overall savings of approximately 9 percent to the customers of Swifton.

Notice is further given that any interested person may, not later than September 16, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by the said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 16, 1952, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and Rule U-100 thereof. All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

[SEAL] ORVAL L. DuBOIS,
Secretary.

[File No. 70-2924]

APPALACHIAN ELECTRIC POWER CO.

NOTICE OF FILING UNDER CONCERNING SALE
OF BONDS AND SERIAL NOTES

SEPTEMBER 2, 1952.

Notice is hereby given that Appalachian Electric Power Company ("Appalachian"), an electric utility subsidiary of American Gas and Electric Company, a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935, and has designated section 6 (b) thereof and Rules U-42 and U-50 thereunder as applicable to the proposed transactions which are summarized as follows:

Appalachian proposes to issue and sell pursuant to the competitive bidding requirements of Rule U-50, \$17,000,000 principal amount of its First Mortgage Bonds ----- percent Series due 1982, and \$6,000,000 aggregate principal amount of its ----- percent Serial Notes due 1956-1967.

The First Mortgage Bonds will be issued under and secured by the company's Mortgage and Deed of Trust dated as of December 1, 1940, as supplemented, and as to be supplemented by four supplemental indentures.

The Serial Notes due 1956-67 will mature annually in the amounts of \$250,000 in each of the years 1956 to 1960, inclusive; \$500,000 in each of the years 1961 and 1962, and \$750,000 in each of the years 1963 to 1967, inclusive.

The proceeds from the sale of securities are to be used in part for prepayment of notes payable to banks which, it is contemplated, will be outstanding in the amount of \$14,000,000 at the time of the issuance and sale of the securities. The balance of the proceeds to be realized will be applied to extensions, additions and improvements to Appalachian's properties.

Notice is further given that any interested person may, not later than September 15, 1952, at 11:30 a. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by the said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 15, 1952, at 11:30 a. m., e. d. s. t., said application as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

[File No. 70-2925]

AMERICAN & FOREIGN POWER CO. INC.

NOTICE OF FILING AND NOTICE OF ORDER FOR
HEARING CONCERNING ISSUANCE OF ADDITIONAL STOCK AS A STOCK DIVIDEND

SEPTEMBER 2, 1952.

Notice is hereby given that American & Foreign Power Company Inc. ("Foreign Power"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935, and has designated sections 6 (a) and 12 (c) thereof as applicable to the proposed transactions which are summarized below. All interested persons are referred to said declaration which is on file in the offices of the Commission for a full statement of the proposed transactions:

Foreign Power has declared a dividend on its 7,152,711 shares of issued and outstanding no par value common stock at the rate of 10 cents in cash for each share of stock outstanding, and one share of additional common stock for each 100 shares of such stock outstanding. The record date and the payment date for the dividend are to be fixed by Foreign Power's Executive Committee as soon as practicable after issuance of an order by this Commission authorizing the issuance of the additional stock.

In connection with the stock dividend, the declaration states that no scrip or fractional shares are to be issued but that in lieu thereof Foreign Power's dividend disbursing agent will sell, without charge to the stockholders, the number of shares of common stock of Foreign Power which otherwise would be represented by scrip or fractional shares, and will pay the proceeds of such sales to the stockholders of Foreign Power entitled thereto. The Company estimates that by reason of this provision, approximately 70 percent of Foreign Power's stockholders will receive only cash.

The proposed stock dividend is to be reflected on the books of Foreign Power by a transfer from "Earned Surplus Since January 1, 1949" to "Capital Stock" in the amount of \$661,624.75. This represents a valuation of the 71,527 shares of additional stock as \$9.25 per share which was the closing price of that stock on August 25, 1952, the day prior to the date when the dividend was declared.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors that a hearing be held with respect to the declaration, and that such declaration shall not become effective except pursuant to a further order of this Commission:

It is ordered, That a hearing on said declaration, pursuant to the applicable provisions of the act and the rules of the Commission, be held on September 16, 1952, at 9:00 a. m., e. d. s. t., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. On said date the Hearing Room Clerk in Room 193 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in this proceeding should file with the Secretary of the Commission

on or before September 15, 1952, a request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Edward C. Johnson, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer or officers so designated to preside are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities having advised the Commission that it has made a preliminary examination of the declaration, and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the proposed issuance of no par value stock for the purpose of a stock dividend is in accordance with the standards of section 7 of the act, particularly subsections (c) and (d) thereof;

2. Whether, under the standards of section 12 of the act, the Commission should make any adverse findings in connection with the proposed stock dividend;

3. Whether the proposed accounting entries are proper and in conformity with sound accounting principles;

4. Generally, whether the proposed transactions are in all respects in accordance with the standards of the act and whether, in the event that the declaration shall be permitted to become effective, it is necessary or appropriate to impose any terms and conditions to insure compliance with the standards of the act, or in the public interest, or for the protection of investors.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission serve a copy of this order by registered mail on the declarant herein, and that notice of said hearing shall be given to all other persons by general release of this Commission, which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL]

ORVAL L. DuBois,
Secretary.[F. R. Doc. 52-9761; Filed, Sept. 5, 1952;
8:53 a. m.]UNITED STATES TARIFF
COMMISSION

[Investigation No. 5]

WOOL

NOTICE OF INVESTIGATION

Institution of investigation. By direction of the President, dated September 2, 1952, the United States Tariff Commission, on the 2d day of September

1952, instituted, and hereby gives notice of an investigation, under section 22 of the Agricultural Adjustment Act, as amended, and Executive Order No. 7233 of November 23, 1935, for the purpose of determining whether wool of the sheep subject to duty under paragraphs 1101 (a) and 1102 of the Tariff Act of 1930, carbonized wool of the sheep subject to duty under paragraph 1106 of the said act, or sheep's-wool tops subject to duty under the said paragraph 1106 are being or are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective or materially interfere with the price-support program undertaken by the United States Department of Agriculture with respect to wool.

Hearing. All parties interested will be given opportunity to be present, to produce evidence, and to be heard at a public hearing to be held in the Tariff Commission Building, 8th and E Streets NW., Washington, D. C., beginning at 10 a. m. on the 29th day of September 1952.

Request to appear. Parties desiring to appear at the public hearing should notify the Secretary of the Commission in writing at its offices in Washington, D. C., in advance of the hearing.

Rules. The Commission's rules of practice and procedure set forth in Part 204 the rules governing investigations under section 22. Copies of these rules may be obtained from the United States Tariff Commission, Washington 25, D. C.

I hereby certify that the above investigation was instituted by the United States Tariff Commission on the 2d day of September 1952.

[SEAL] DONN N. BENT,
Secretary.

SMALL DEFENSE PLANTS ADMINISTRATION

[S. D. P. A. Pool Request 1]

REQUEST TO GENERAL TIRE PRODUCTION POOL, INC., TO OPERATE AS SMALL BUSINESS PRODUCTION POOL AND REQUEST TO CERTAIN COMPANIES TO PARTICIPATE IN OPERATIONS OF SUCH POOL

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the

request to General Tire Production Pool, Inc., to operate as a small business production pool and the request to the companies hereinafter listed to participate in the operations of such pool, set forth below, were approved by the Attorney General after consultations with respect thereto between the Attorney General, the Chairman of the Federal Trade Commission, and the Administrator of the Small Defense Plants Administration. The voluntary program in accordance with which the pool shall operate has been approved by the Administrator of the Small Defense Plants Administration and found to be in the public interest as contributing to the national defense.

REQUEST TO GENERAL TIRE PRODUCTION POOL, INC.

You are requested to operate as a small business production pool in accordance with the voluntary program as set forth in the papers submitted to the Small Defense Plants Administration, Pooling Section, Washington, D. C.

In my opinion, the operations of your corporation as a small business production pool will assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect thereto between his representatives, representatives of the Chairman of the Federal Trade Commission, and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary program and find it to be in the public interest as contributing to the national defense. You may commence your operations thereunder as a small business production pool upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, provided that your operations are within the limits set forth in the approved voluntary program.

Your cooperation in this matter will be appreciated.

Sincerely yours,

TELFORD TAYLOR,
Administrator.

REQUEST TO COMPANIES

You are requested to participate in the operations of the General Tire Production Pool, Inc., which will operate as a small business production pool, in accordance

with the voluntary program as set forth in the papers submitted by it to the Small Defense Plants Administration, Pooling Section, Washington 25, D. C.

In my opinion, your participation in the operations of this small business production pool will greatly assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect to this matter between his representatives, representatives of the Chairman of the Federal Trade Commission, and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary program and find it to be in the public interest as contributing to the national defense.

You will become a participant therein upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, providing that the operations of this production pool and your participation therein are within the limits set forth in the approved voluntary program.

Your cooperation in this matter will be appreciated.

Sincerely yours,

TELFORD TAYLOR,
Administrator.

The General Tire Production Pool, Inc., accepted the request set forth above to operate as a small business production pool.
