TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter A—Commodity Standards and Standard Container Regulations

PART 39—UNITED STATES STANDARDS FOR GRADES OF NONFAT DRY MILK SOLIDS

TEST METHODS

On March 25, 1953, notice was published in the FEDERAL REGISTER (18 F. R. 1692) regarding proposed amendment of United States Standards for Grades of Nonfat Dry Milk Solids (16 F. R. 5420). Such proposal would increase the scorched particle content from "22.5 mg." to "32.5 mg." for U. S. Extra Grade Roller Process and the majority of views, comments, and suggestions received by the Department favor such an increase

in the scorched particle content permitted.

Further study and consideration since the above proposal was published has indicated a more practical method to accomplish the objective, by decreasing the test sample size from the present 25 gram sample to 17 grams and retaining the present requirement of "not more than 22.5 mg." of scorched particle content. This method of reducing the sample size permits the same amount of scorched particles per gram of roller nonfat dry milk solids as the original method proposed.

The use of a 17 gram instead of a 25 gram sample of roller process nonfat dry milk solids will facilitate the testing of this product. Experiments have indicated that if a 25 gram sample is used and such sample contains more than 32.5 mg. of total scorched particles, filtration may be difficult, and in some instances, filtration may not be successfully accomplished.

It is hereby found that it is unnecessary, impracticable, and contrary to the public interest to postpone the effective date of this amendment until thirty (30) days after publication thereof in the FEDERAL REGISTER for the reasons that: (1) There has been an unusual increase in milk production during recent months with the result that increased quantities of dairy products will be offered to the Commodity Credit Corporation under the price support program for milk and butterfat, (2) This will probably make it necessary for Commodity Credit Corporation to accept larger quantities of roller process nonfat dry milk solids to carry out its commitments under the price support program, (3) During 1951 and 1952, since the present standards have been in effect, only small quantities of roller process nonfat dry milk solids were acquired under the price support program, and (4) The moisture requirement for purchase under the price support program is lower than under the standard. This tends to result in somewhat more scorched particles. Therefore, this change is necessary effective immediately in order to facilitate the carrying out of the Department's price support program.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter C—Procedural Regulations

[Reg., Serial No. PR-21]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

PARTICIPATION IN ORAL ARGUMENTS BY PERSONS NOT PARTIES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 1st day of May 1953.

By Amendment No. 2 to Part 302 of its Procedural Regulations effective August 1, 1952, the Board provided that any person, including any state or political subdivision thereof, state aviation commission, or other body, may present to the Board an oral or written statement on the issues involved in a proceeding. The primary purpose of this rule, as evidenced by the statement accompanying its adoption, was to provide for filing with the Board a written statement of views by a person who had some interest in the proceeding, but who was not a formal party thereto. However, the literal language of the amendment not only provides a right to file a written statement but also gives such person the right to oral argument in any case.

Upon further consideration of the rule the Board does not believe it desirable or in the public interest to give "any person" the right to oral argument before it. The exercise of such a right could unduly delay oral arguments and would not be conducive to the proper dispatch of the Board's business. The Board, therefore, has determined to amend its rules so as to limit the privilege of oral argument for persons other than formal parties to representatives of any agency or branch of the Federal Government or of any state government, including state aviation commissions. Other persons not parties will still be accorded the privilege of appearing at hearings and presenting written state-

ments of their views to the Board. According to representatives of governmental bodies the privilege of oral argument, even though they are not formal interveners, is in recognition of the substantial interest that such bodies may have in a Board proceeding.

Since this amendment is not a substantive rule but one of agency procedure, notice and public procedure hereon are unnecessary, and the amendment may be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 302 of the Procedural Regulations (14 CFR Part 302), as follows, effective May 1, 1953:

1. By amending § 302.14 to read as follows:

§ 302.14 *Participation in hearings by persons not parties.* Any person, including any state, political division thereof, state aviation commission, or other public body, may appear at any hearing, other than in an enforcement proceeding, and present any evidence which is relevant to the issues. With the consent of the Examiner or the Board, if the hearing is held by the Board, such person may also cross-examine witnesses directly. Such persons may also present to both the Examiner and the Board a written statement on the issues involved in the proceeding. Such statement shall conform to the requirements of these rules as to form, content, service, and time of filing of briefs to the Examiner and the Board. In addition, a representative of any department, agency or branch of the Federal Government or of any state government (including a state aviation commission) may appear and present oral argument in any proceeding in which argument has been assigned.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 1001, 52 Stat. 1017; 49 U. S. C. 641)

By the Civil Aeronautics Board.

M. C. MULLIGAN,
Secretary.

TITLE 50—WILDLIFE

Chapter 1—Fish and Wildlife Service, Department of the Interior

Subchapter E—Alaska Wildlife Protection

PART 46—TAKING ANIMALS, BIRDS, AND GAME FISHES

MISCELLANEOUS AMENDMENTS

Basis and purposes. Investigations by the Fish and Wildlife Service and the Alaska Game Commission disclose that conditions in the Territory indicate a need for additional wildlife protection in some instances and justify a relaxation of regulatory protection elsewhere. The Commission at the conclusion of its recent public session at Juneau, when proposed amendments to the regulations were considered, recommended the changes herein to conserve this valuable Alaskan resource and still permit such utilization as is consistent with the preservation of the breeding stocks of wild animals, birds, and game fishes.

I have considered the recommendations and have determined that the following amendments of existing regulations, to become effective July 1, 1953, will effectuate the purposes of the Alaska Game Law:

1. Section 46.21 *General provisions* is redesignated as § 46.25 and a new § 46.21

is added under the center head "Definitions" reading as follows:

§ 46.21 *Seasonal bag limit.* Greatest number of a species permitted to be taken in any area for which a limit is prescribed.

2. Sections 46.22 *Application* and 46.23 *Exemption* are redesignated as §§ 46.26 and 46.27, respectively.

3. Section 46.41 is amended to read as follows:

§ 46.41 *Using game as food for dogs or fur animals or as bait.* No person is permitted to feed any game animal, protected bird, game fish, or part thereof, to a dog or to a fur animal held in captivity, except the waste parts, such as hides, viscera, and bones, or permitted to use any part of any game animal or game bird for bait.

4. Sections 46.61 and 46.72 are amended to read as follows:

§ 46.61 *General provisions.* Animals, birds (but not including migratory birds), and game fishes, parts thereof, and articles manufactured therefrom, and the nests and eggs of such birds taken in accordance with the regulations in this part may be possessed within the Territory at any time, by any person, and in any number and kind not limited by §§ 46.100, 46.101, and 46.103 to 46.114, inclusive, 46.126, 46.129 to 46.134, inclu-

sive, 46.140, 46.142, 46.143, 46.150, 46.155 and 46.156 and may be transported within and exported out of the Territory by any person at any time, except as provided in §§ 46.64 to 46.72, inclusive. Migratory game birds may be transported and possessed only in accordance with the Migratory Bird Treaty Act regulations.

§ 46.72 *Live animals, birds, and game fishes.* No live game or fur animals, game birds, or game fishes shall be taken, possessed, transported, exported, or imported except in accordance with the terms of a permit issued pursuant to § 46.231.

5. Sections 46.100 and 46.101 are amended to read as follows:

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 7, 8]

[Docket No. 10444]

MARITIME MOBILE RADIOTELEPHONE SERVICE

EXTENSION OF TIME FOR FILING COMMENTS

In the matter of amendment of Parts 7 and 8 of the Commission's rules relating to the Maritime Mobile Radiotelephone Service in the band 2000-2850 kc; Docket No. 10444.

The Commission having under consideration a request timely filed by the

County of Kern, California, for a 30-day extension of time for the filing of comments in the above-designated proceeding in order to enable the County to prepare the necessary evidence and briefs for transmission to the Commission;

It appearing, that on March 31, 1953, the Commission released a notice of proposed rule making in the above-designated matter proposing certain changes in the allocation and assignment of frequencies in the band 2000-2850 kc; and

It further appearing, that this notice of proposed rule making afforded an opportunity to interested parties to file on or before May 1, 1953, written state-

ments or briefs setting forth their comments and provided that comments or briefs in reply to the original comments may be filed within ten (10) days from the last day for filing said original comments; and

It further appearing, that the County of Kern did not receive a copy of the notice of proposed rule making until April 15, 1953, leaving it insufficient time to gather the material needed for its comments; and

It further appearing, that a 15-day extension would be more consistent with the necessity for speedily carrying out the proceeding in this docket than the requested period, and would adequately

compensate the County of Kern for the delay in receiving the notice of proposed rule making:

It is ordered, This 30th day of April 1953, that the date for filing written statements or briefs setting forth the comments of the interested parties in this proceeding is extended until May 15, 1953, and the date for filing com-

ments or briefs in reply to the original comments is extended until May 25, 1953.

COMMISSION,

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

WYOMING

CLASSIFICATION ORDER 11

MAY 7, 1953.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427, dated August 16, 1950, 15 F. R. 5639, I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a), as hereinafter indicated, the following described land in the Wyoming land district, embracing approximately 151.16 acres:

For lease and sale for homesites:
T. 47 N., R. 93 W., 6th Principal Meridian,
Wyoming, Tract 63, Lots 1 through 14, 16
through 48 and Lot 52.

Lots 15, 49, 50, 51, 53, 54, 55, 56 as shown on the plat of survey are not available for lease or sale.

These lots lie in the valley of the Big Horn River near the city of Worland, Wyoming. A power line and gas pipeline are on or near the tracts involved, and domestic water can be obtained from wells at a depth of approximately 385 feet. Sewage disposal may be made by septic tanks. Schools, stores and other facilities are available in the city of Worland, reached by oiled highway at a distance of three miles. The land is smooth to hilly with soils ranging in texture from clay loam to gravelly loam. Irrigation water is not available at the present time. The native vegetation consists of sagebrush and grass. There is no timber on the land nor any evidence of metallic or non-metallic minerals. The mineral rights to the land will be reserved to the Federal Government. However, applications to lease the lands for minerals may be filed under the Mineral Leasing Act. The size of the lots ranges from 1.45 acres to 4.96 acres.

2. Public Land Order No. 329 dated October 17, 1946, was modified by Public Land Order No. 890 dated April 6, 1953, which revoked the administrative site withdrawal covering the lands here classified. Public Land Order No. 890 provided that "the lands released by this order shall not become subject to the initiation of any rights or to any disposition under the public-land laws until it is so provided by an order of classification to be issued by the Regional Administrator, Bureau of Land Manage-

ment, Billings, Montana, opening such lands to application under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a) as amended, with a 91-day preference-right period for filing such applications by veterans of World War II and other qualified persons entitled to preference under the said act of September 27, 1944, as amended".

3. A multiplicity of filings by those persons entitled to claim veterans' preference for service in World War II only is anticipated during the simultaneous filing period. Therefore, in accordance with the provisions of 43 CFR 257.8, Circular 1764, containing small tract regulations approved September 11, 1950, the special procedure and drawing outlined therein will be used. This special procedure does not apply to veterans of other wars of the United States.

4. Commencing at 10:00 a. m., on the date of this order and for a period of 35 days thereafter, the lands described herein shall be subject to the filing of drawing entry cards only by those persons entitled to claim World War II veterans' preference under the act of September 27, 1944 (58 Stat. 748, 43 U. S. C. 279-284), amended. Such veterans desiring to participate in the drawing may secure drawing entry cards, Form 4-775 from the Manager, Land and Survey Office in Cheyenne, Wyoming or Area Manager, Bureau of Land Management, Worland, Wyoming. The veteran will print clearly his name, post office address, and sign his full name in the space provided on the card, certifying that he is a citizen of the United States, over 21 years of age or the head of a family, and entitled to veterans' preference based upon service in World War II and honorable discharge from such service. Only one drawing entry card may be filed by an entrant. No filing fee or additional papers should accompany the drawing entry card. All drawing entry cards when completed as indicated shall be mailed to the Manager, Land and Survey Office, Cheyenne, Wyoming and must be forwarded in time to reach him not later than 10:00 a. m. on the 35th day after the date of this order. All cards of qualified entrants received not later than the hour and date mentioned will be placed in a box and at 2:00 p. m., on the business day following such 35th day and thoroughly mixed in the presence of such persons as may desire to be present. The cards will then be drawn by a disinterested party, one at a time, and numbered in the order drawn to establish an adequate

list of eligibles and of alternates to whom the available tracts will be allocated in consecutive order.

5. Each successful entrant to whom a lot is awarded will be sent by registered mail a decision making appropriate requirements with an offer to lease Form 4-776, in duplicate, bearing the description of the tract. The forms must be completely filled out, signed and returned by the successful entrant within the time allowed, accompanied by a \$10 filing fee and \$15 representing rental for a 3-year period; also a complete photostat, or other copy (both sides) of his certificate of honorable discharge, or of an official document of the branch of the service which shows clearly the period of service. An award to a successful entrant who was not qualified to enter the drawing, or who for any reason fails within the time allowed to comply with the requirements of the decision accompanying the lease forms, will be cancelled upon the records, and the lot will become available to the alternate next in line as determined by the drawing.

6. Lessees, under the Small Tract Act of June 1, 1938, will be required within a reasonable time after execution of the lease to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which in the circumstances are presentable, substantial and appropriate for the use for which the lease is issued. Detailed specifications as to the improvement requirements under the terms of the lease or prior to the sale of the lots will be made part of the lease terms.

7. Lessees or their successors in interest shall comply with all Federal, State, County and municipal laws and ordinances, especially those governing health and sanitation, and failure or refusal to do so may be cause for cancellation of the lease in the discretion of the authorized officer of the Bureau of Land Management.

8. Leases will contain an option to purchase clause at the appraised value of the lots as follows:

T. 47 N., R. 93 W., 6th Principal Meridian,
Wyoming.
Lots 1, 2, 5, 17C, 33 and 34, \$100.00 each;
Lots 3 and 4, \$150.00 each;
Lots 6, 31, and 32, \$125.00 each;
Lots 35 and 36, \$175.00 each;
Lot 17D and Lot 52, \$75.00 each.

All other lots classified for small tract purposes as shown on the approved plat of survey are appraised at \$120.00 each.

9. The leases will be made subject to rights of way for road purposes and public utilities along lot boundaries, as follows:

60 feet along east boundary of Lots 1, 2, 3.
60 feet along east boundary and an additional 30 feet parallel to highway right of way of Lot 4.
60 feet along east boundary of Lot 6.
30 feet along east boundary of Lots 7, 8, 9, 10, 11, 12, 13, 14B, 14C.
30 feet along west boundary of Lot 16, 25, 26, 27, 28, 29, 30.
60 feet along the east boundary and 30 feet along south boundary of Lot 17C.
30 feet along south boundary of Lot 17D.
30 feet along the east boundary and 30 feet along south boundary of Lot 18.

30 feet along the east boundary and 30 feet along the north boundary of Lot 19.

30 feet along the east boundary of Lots 20, 21, 22, 23, 24.

60 feet along the east boundary of Lots 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48.

10. Such rights of way may be utilized by the Federal Government, or the State, County or municipality in which the tract is situated, or by any agency thereof. The rights of way, in the discretion of the authorized officer of the Bureau of Land Management, may be definitely located prior to the issuance of the patents. If not so located, they may be subject to location after patent is issued. Leases and patents issued in accordance with this order will also be subject to all existing rights of way.

11. Each entrant to whom no lot is allocated will be informed thereof by the return of his drawing card carrying a notation to that effect.

12. The lots, if any, which are not leased as a result of the drawing, will not become subject to application by veterans who do not participate in the drawing or by the general public until a further order has been issued granting veterans of World War II a preference right of application for a period of 90 days.

13. All inquiries relating to these lands should be addressed to the Manager, Land and Survey Office, Cheyenne, Wyoming.

Regional Administrator, Region III.

PENNSYLVANIA ELECTRIC CO.

ORDER AUTHORIZING ISSUANCE AND SALE TO
BANKS OF UNSECURED NOTES PURSUANT
TO REVOLVING CREDIT AGREEMENT

MAY 4, 1953.

Pennsylvania Electric Company ("Penelec"), a public utility subsidiary of General Public Utilities Corporation, a registered holding company, having filed an application, and an amendment thereto, pursuant to the Public Utility Holding Company Act of 1935 ("act"), particularly sections 6 and 7 and Rule U-50 thereunder, with respect to the following proposed transactions:

Penelec proposes, by the issuance and sale of unsecured notes, to borrow from banks from time to time (but not later than September 30, 1954) sums not to exceed the aggregate amount of \$10,000,000 outstanding at any one time. Such notes are to be issued pursuant to the terms of a credit agreement dated February 26, 1953, between Penelec and Mellon National Bank & Trust Company, Manufacturers Trust Company, and Chemical Bank & Trust Company.

Any note issued under the agreement is to mature at a date to be specified by Penelec, but not later than December 31, 1957. Any note maturing on or before December 31, 1954, is to bear interest at the rate of 3 percent per annum; any note maturing after December 31, 1954, is to bear interest at the rate of 3 1/4 percent per annum. Any note may be prepaid, in whole or in part, without premium, unless (a) the note prepaid matures on or before December 31, 1954 and is prepaid with the proceeds, or in anticipation, of another note issued under the credit agreement maturing after December 31, 1954, made within two months of such prepayment, or (b) the prepayment is made with proceeds, or in anticipation, of any bank borrowing not made under the credit agreement, made within two months of such prepayment. In the event of prepayment pursuant to (a) above, the company is required to pay a premium at the rate of 1/4 of 1 percent per annum on the amount prepaid from the date of issuance of the note to the date of such prepayment; in the event of prepayment pursuant to (b) above the premium will be at the rate of 1/2 of 1 percent per annum of the amount prepaid.

If Penelec pays at maturity any note maturing on or before December 31, 1954, from the proceeds, or in anticipation, of another loan under the credit agreement maturing by its terms after December 31, 1954, made within two months of such payment, the company is required to pay a premium at the rate of $\frac{1}{4}$ of 1 percent per annum of the amount prepaid from the date of issuance of the note to its maturity.

Penelec is to pay the banks a commitment fee at the rate of $\frac{1}{4}$ of 1 percent per annum computed on a daily basis from the date of any Commission order approving the instant proposal to September 30, 1954, on the unused balance of the commitment, which commitment may be terminated or reduced by Penelec upon five days' prior notice and payment of the commitment fee accrued and unpaid.

The filing states that Penelec will use the proceeds of the initial sales of notes under the credit agreement, expected to aggregate \$10,000,000, to temporarily finance its construction program, and that such borrowings are expected to be repaid with a portion of the proceeds to be derived from Penelec's anticipated sales of bonds during June 1953 and of common stock to be effected simultaneously or prior to the bond sale. Later in 1953, Penelec expects to effect further borrowings under the credit agreement in amounts aggregating not more than \$5,400,000, with maturities subsequent to December 31, 1953.

The filing states that total fees and expenses (other than legal fees and expenses) of Penelec in connection with the proposed transaction are estimated not to exceed \$1,000, and that legal fees to be paid by Penelec with respect to borrowings during 1953 under the credit agreement are estimated as follows: Beekman & Bogue, special counsel for the banks, \$833 and, in addition, not more than \$200 for each closing; Berlack, Israel & Liberman, special counsel for Penelec, \$500, subject to additional payments not to exceed \$500; Ballard, Spahr, Andrews & Ingersoll, general counsel for Penelec, \$350, subject to additional payments aggregating not more than \$250.

The filing further states that Penelec consents to the imposition by the Commission in any order approving the proposals of a condition to the effect that, unless and until a post-effective amendment to this application shall have been filed and granted, the aggregate principal amount of borrowings by Penelec under the credit agreement maturing by their terms subsequent to December 31, 1953, outstanding at any one time shall not exceed \$5,400,000.

Penelec states that no State or Federal regulatory body, other than this Commission and the Pennsylvania Public Utility Commission, has jurisdiction over the proposed transactions, and that the issuance and sale by Penelec of the notes under the credit agreement will be solely for the purpose of financing the business of Penelec, and have been expressly authorized by the Pennsylvania Public Utility Commission. It requests that the Commission's order become effective upon issuance.

Due notice having been given of the filing of the application and amendment thereto, and a hearing not having been requested or ordered by the Commission; and the Commission finding with respect to said application, as amended, that the applicable standards of the act and the rules are satisfied and that it is not necessary to impose any terms or conditions other than those set forth below, and the Commission deeming it appropriate that said application, as amended, be granted effective forthwith, subject to the reservation of jurisdiction hereinafter provided:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application, as amended, be, and it hereby is, granted effective forthwith, subject to the conditions prescribed in Rule U-24 and to the condition that Penelec shall not issue and sell any notes under the credit agreement maturing by their terms subsequent to December 31, 1953, if after such issuance and sale there would be more than \$5,400,000 of notes of such maturity outstanding at any one time, unless and until an amendment to the application shall have been filed by Penelec and a further order shall have been issued, which order may contain such further conditions as may then be deemed appropriate.

By the Commission.

COLUMBIA GAS SYSTEM, INC.

ORDER AUTHORIZING ISSUE AND SALE OF
COMMON STOCK AT COMPETITIVE BIDDING
SUBJECT TO RESERVATION

MAY 4, 1953.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, having filed a declaration pursuant to sections 6, 7 and 12 of the Public Utility Holding Company Act of 1935 ("act") and Rules U-43 and U-50 of the rules and regulations promulgated thereunder with respect to the following transactions:

Columbia proposes to issue and sell pursuant to the competitive bidding requirements of Rule U-50, 1,700,000 shares of its no par value common stock. The proceeds from this sale will be used to defray, in part, the cost of the 1953 construction program of Columbia's subsidiaries. This construction program will involve expenditures presently estimated at approximately \$68,000,000. It is estimated that after allowances for cash available at January 1, 1953, and cash to be generated from operations during 1953, Columbia will require from \$60,000,000 to \$65,000,000 in order to finance its 1953 construction program and to repay \$25,000,000 previously borrowed from commercial banks in order to complete its 1952 construction program and to finance part of its 1953 construction program. Accordingly, in addition to the presently proposed sale of common stock, Columbia proposes to

sell approximately \$40,000,000 of new debentures later in the year. The \$25,000,000 bank loans will be repaid at the time the debenture financing is concluded.

Columbia proposes, if necessary and desirable, to stabilize the price of its common stock for purposes of facilitating the proposed sale of the common stock. In connection therewith, Columbia may for a period of 24 hours prior to the opening of bids, purchase shares of its common stock on the New York Stock Exchange, in the open market, or otherwise, such purchases to be made through brokers with the payment of the regular stock exchange commissions. With respect to such stabilizing, Columbia will, at no time acquire a net long position of shares of its common stock in excess of 170,000 shares, and, prior to selling shares of common stock purchased pursuant to stabilizing operations, will file a post-effective amendment to the declaration setting forth the terms and conditions upon which such shares will be sold or disposed of.

The declarant has requested that the period for receiving competitive bids pursuant to Rule U-50 be shortened so that bids may be received on May 12, 1953.

Appropriate notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for a hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon;

The Commission finding with respect to the declaration, as amended, that the requirements of the applicable provisions of the act and rules promulgated thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective:

It is hereby ordered, Pursuant to Rule U-23, and the applicable provisions of the act, that said declaration, as amended, be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24, and to the further condition that the proposed issuance and sale of the 1,700,000 shares of common stock shall not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding, and a further order shall have been entered with respect thereto, which order shall contain such further terms and conditions as may then be deemed appropriate, for which purpose jurisdiction be, and the same hereby is, reserved.

It is further ordered, That jurisdiction be, and hereby is, reserved over the sale or other disposition of any shares of common stock acquired pursuant to Columbia's stabilization operations.

It is further ordered, That the ten-day period for competitive bids, as provided by Rule U-50 (b), be shortened so as to permit the receipt of bids on May 12, 1953.

It is further ordered, That jurisdiction be, and hereby is, reserved over all fees and expenses to be incurred in connection with the proposed transaction.

By the Commission.

UTAH POWER AND LIGHT CO.

NOTICE OF FILING REGARDING BANK
BORROWINGS

MAY 4, 1953.

Notice is hereby given that Utah Power and Light Company ("Utah"), a registered holding company and operating company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935, and has designated sections 6 (a) and 7 thereof as applicable to the proposed transactions which are summarized as follows:

Utah proposes to enter into a credit agreement with certain banks pursuant to which Utah may borrow from time to time on or before May 28, 1954 not to exceed in the aggregate \$10,000,000 as money is required for its system construction program. Such loans will be evidenced by promissory notes maturing on June 1, 1954 and bearing interest at the rate of 3 percent per annum. The credit agreement provides, among other things, for a commitment fee of $\frac{1}{4}$ percent per annum on the daily average unused amount of the total credit.

The declaration states that the proceeds from the loans will be used in connection with the construction program of Utah and its subsidiary, The Western Colorado Power Company, which, it is estimated, will require the expenditure of approximately \$28,000,000 to the end of 1954. The declaration further states that it is the present intention of Utah to repay the loans from the proceeds of permanent financing during the first half of the year 1954, which permanent financing will maintain the present capital structure of Utah at approximately the existing debt-equity ratios.

Notice is further given that any interested person may, not later than May 18, 1953, at 5:30 p. m., e. d. s. t., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said declaration, as filed, or as amended, may be permitted to become effective as provided by Rule U-23 of the rules and regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration which is on file with this Commission for a full statement of the transactions therein proposed.

Notice is hereby given that a declaration has been filed with this Commission by Gulf Power Company ("Gulf"), a public utility subsidiary of the Southern Company, a registered holding company. Gulf, which operates solely within the State of Florida, is incorporated in the State of Maine. The filing has designated sections 6 (a) and 7 of the act and Rule U-50 promulgated thereunder as applicable to the proposed transactions which are summarized as follows:

Gulf proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, \$7,000,000 principal amount of First Mortgage Bonds -- percent Series due 1983, to be issued under and secured by Gulf's present Indenture, dated as of September 1, 1941, as last supplemented on July 1, 1952 and to be further supplemented by a Supplemental Indenture to be dated as of June 1, 1953. The interest rate and the price to the company for the bonds will be determined by the competitive bidding, except that the invitation for bids will specify that the price to the company shall not be less than 100 percent nor more than 102 $\frac{3}{4}$ percent of the principal amount. The company proposes to use the proceeds from the sale of these new bonds to provide a portion of the funds required for improvements, extensions and additions to the company's property, and to repay \$4,000,000 of short-term bank loans heretofore incurred for such purposes. Expenditures made and to be made by the company for property additions are estimated at approximately \$8,595,000 for the year 1953 and \$3,180,000 for the year 1954. The declaration states that, in addition to the cash proceeds from the proposed sale of new bonds, the company received \$2,000,000 in January 1953 and expects to receive \$1,000,000 in May 1953 through the sale of additional shares of its common stock to the Southern Company, which presently owns all the common stock of Gulf.

The filing also states that the issuance and sale of the proposed new bonds are subject to authorization by the Florida Railroad and Public Utilities Commission. Gulf requests that any order of this Commission permitting the declaration to become effective shall become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than May 22, 1953, at 5:30 p. m., request the Com-
