Codification Guide

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

Monthly, quarterly, and annual cumulative guides, published separately from the daily issues, include the section numbers as well as the part numbers affected.

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 3—THE PRESIDENT

Proclamation 3507

TERMINATING AUTHORITY GRANTED AND ORDERS ISSUED IN PROCLAMATION NO. 3504

By the President of the United States of America
A Proclamation

I, JOHN F. KENNEDY, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and statutes of the United States, do hereby proclaim that at 11 p.m., Greenwich Time, November 20, 1962, I terminated the authority conferred upon the Secretary of Defense by Proclamation No. 3504, dated October 23, 1962, and revoked the orders contained therein to forces under my command.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 21st day of November, in the year of our Lord nineteen hundred and sixty-two
[SEAL] and of the Independence of the United States of America the one hundred and eighty-seventh.

JOHN F. KENNEDY

By the President:

DEAN RUSK,
Secretary of State.

Executive Order 11063

EQUAL OPPORTUNITY IN HOUSING

WHEREAS the granting of Federal assistance for the provision, rehabilitation, or operation of housing and related facilities from which Americans are excluded because of their race, color, creed, or national origin is unfair, unjust, and inconsistent with the public policy of the United States as manifested in its Constitution and laws; and

WHEREAS the Congress in the Housing Act of 1949 has declared that the general welfare and security of the Nation and the health and living standards of its people require the realization as soon as feasible of the goal of a decent home and a suitable living environment for every American family; and

WHEREAS discriminatory policies and practices based upon race, color, creed, or national origin now operate to deny many Americans the benefits of housing financed through Federal assistance and as a consequence prevent such assistance from providing them with an alternative to substandard, unsafe, unsanitary, and overcrowded housing; and

WHEREAS such discriminatory policies and practices result in segregated patterns of housing and necessarily produce other forms of discrimination and segregation which deprive many Americans of equal opportunity in the exercise of their unalienable rights to life, liberty, and the pursuit of happiness; and

WHEREAS the executive branch of the Government, in faithfully executing the laws of the United States which authorize Federal financial assistance, directly or indirectly, for the provision, rehabilitation, and operation of housing and related facilities, is charged with an obligation and duty to assure that those laws are fairly administered and that benefits thereunder are made available to all Americans without regard to their race, color, creed, or national origin:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States by the Constitution and laws of the United States, it is ordered as follows:

PART I—PREVENTION OF DISCRIMINATION

SECTION 101. I hereby direct all departments and agencies in the executive branch of the Federal Government, insofar as their functions relate to the provision, rehabilitation, or operation of housing and related facilities, to take all action necessary and appropriate to prevent discrimination because of race, color, creed, or national origin—

(a) in the sale, leasing, rental, or other disposition of residential property and related facilities (including land to be developed for residential use), or in the use or occupancy thereof, if such property and related facilities are—

(i) owned or operated by the Federal Government, or

(ii) provided in whole or in part with the aid of loans, advances, grants, or contributions hereafter agreed to be made by the Federal Government, or

(iii) provided in whole or in part by loans hereafter insured, guaranteed, or otherwise secured by the credit of the Federal Government, or

(iv) provided by the development or the redevelopment of real property purchased, leased, or otherwise obtained from a State or local public agency receiving Federal financial assistance for slum clearance or urban renewal with respect to such real property under a loan or grant contract hereafter entered into; and

(b) in the lending practices with respect to residential property and related facilities (including land to be developed for residential use) of lending institutions, insofar as such practices relate to loans hereafter insured or guaranteed by the Federal Government.

SEC. 102. I hereby direct the Housing and Home Finance Agency and all other executive departments and agencies to use their good offices and to take other appropriate action permitted by law, including the institution of appropriate litigation, if required, to promote the abandonment of discriminatory practices with respect to residential property and related facilities heretofore provided with Federal financial assistance of the types referred to in Section 101 (a) (ii), (iii), and (iv).

PART II—IMPLEMENTATION BY DEPARTMENTS AND AGENCIES

SEC. 201. Each executive department and agency subject to this order is directed to submit to the President's Committee on Equal Opportunity in Housing established pursuant to Part IV of this order (hereinafter sometimes referred to as the Committee), within thirty days from the date of this order, a report outlining all current programs administered by it which are affected by this order.

SEC. 202. Each such department and agency shall be primarily responsible for obtaining compliance with the purposes of this order as the order applies to programs administered by it; and is directed to cooperate with the Committee, to furnish it, in accordance with law, such information and assistance as it may request in the performance of its functions, and to report to it at such intervals as the Committee may require.

SEC. 203. Each such department and agency shall, within thirty days from the date of this order, issue such rules and regulations, adopt such procedures and policies, and make such exemptions and exceptions as may be consistent with law and necessary or appropriate to effectuate the purposes of this order. Each such department and agency shall consult with the Committee in order to achieve such consistency and uniformity as may be feasible.

PART III—ENFORCEMENT

SEC. 301. The Committee, any subcommittee thereof, and any officer or employee designated by any executive department or agency subject to this order may hold such hearings, public or private, as the Committee, department, or agency may deem advisable for compliance, enforcement, or educational purposes.

SEC. 302. If any executive department or agency subject to this order concludes that any person or firm (including but not limited to any individual, partnership, association, trust, or corporation) or any State or local public agency has violated any rule, regulation, or procedure issued or adopted pursuant to this order, or any nondiscrimination provision included in any agreement or contract pursuant to any such rule, regulation, or procedure, it shall endeavor to end and remedy such violation by informal means, including conference, conciliation, and persuasion unless similar efforts made by another Federal department or agency have been unsuccessful. In conformity with rules, regulations, procedures, or policies issued or adopted by it pursuant to Section 203 hereof, a department or agency may take such action as may be appropriate under its governing laws, including, but not limited to, the following:

It may—

(a) cancel or terminate in whole or in part any agreement or contract with such person, firm, or State or local public agency providing for a loan, grant, contribution, or other Federal aid, or for the payment of a commission or fee;

(b) refrain from extending any further aid under any program administered by it and affected by this order until it is satisfied that the affected person, firm, or State or local public agency will comply with the rules, regulations, and procedures issued or adopted pursuant to this order, and any nondiscrimination provisions included in any agreement or contract;

(c) refuse to approve a lending institution or any other lender as a beneficiary under any program administered by it which is affected by this order or revoke such approval if previously given.

SEC. 303. In appropriate cases executive departments and agencies shall refer to the Attorney General violations of any rules, regulations, or procedures issued or adopted pursuant to this order, or violations of any nondiscrimination provisions included in any agreement or contract, for such civil or criminal action as he may deem appropriate. The Attorney General is authorized to furnish legal advice concerning this order to the Committee and to any department or agency requesting such advice.

SEC. 304. Any executive department or agency affected by this order may also invoke the sanctions provided in Section 302 where any person or firm, including a lender, has violated the rules, regulations, or procedures issued or adopted pursuant to this order, or the nondiscrimination provisions included in any agreement or contract, with respect to any program affected by this order administered by any other executive department or agency.

PART IV—ESTABLISHMENT OF THE PRESIDENT'S COMMITTEE ON EQUAL OPPORTUNITY IN HOUSING

SEC. 401. There is hereby established the President's Committee on Equal Opportunity in Housing which shall be composed of the Secretary of the Treasury; the Secretary of Defense; the Attorney General; the Secretary of Agriculture; the Housing and Home Finance Administrator; the Administrator of Veterans Affairs; the Chairman of the Federal Home Loan Bank Board; a member of the staff of the Executive Office of the President to be assigned to the Committee by direction of the President, and such other members as the President shall from time to time appoint from the public. The member assigned by the President from the staff of the Executive Office shall serve as the Chairman and Executive Director of the Committee. Each department or agency head may designate an alternate to represent him in his absence.

SEC. 402. Each department or agency subject to this order shall, to the extent authorized by law (including § 214 of the Act of May 3, 1945, 59 Stat. 134 (31 U.S.C. 691)), furnish assistance to and defray the necessary expenses of the Committee.

PART V—POWERS AND DUTIES OF THE PRESIDENT'S COMMITTEE ON EQUAL OPPORTUNITY IN HOUSING

SEC. 501. The Committee shall meet upon the call of the Chairman and at such other times as may be provided by its rules. It shall: (a) adopt rules to govern its deliberations and activities; (b) recommend general policies and procedures to implement this order; (c) consider reports as to progress under this order; (d) consider any matters which may be presented to it by any of its members; and (e) make such reports to the President as he may require or the Committee shall deem appropriate. A report to the President shall be made at least once annually and shall include references to the actions taken and results achieved by departments and agencies subject to this order. The Committee may provide for the establishment of subcommittees whose members shall be appointed by the Chairman.

SEC. 502. (a) The Committee shall take such steps as it deems necessary and appropriate to promote the coordination of the activities of departments and agencies under this order. In so doing, the Committee shall consider the overall objectives of Federal legislation relating to housing and the right of every individual to participate without discrimination because of race, color, creed, or national origin in the ultimate benefits of the Federal programs subject to this order.

(b) The Committee may confer with representatives of any department or agency, State or local public agency, civic, industry, or labor group, or any other group directly or indirectly affected by this order; examine the relevant rules, regulations, procedures, policies, and practices of any department or agency subject to this order and make such recommendations as may be necessary or desirable to achieve the purposes of this order.

(c) The Committee shall encourage educational programs by civic, educational, religious, industry, labor, and other nongovernmental groups to eliminate the basic causes of discrimination in housing and related facilities provided with Federal assistance.

SEC. 503. The Committee shall have an executive committee consisting of the Committee's Chairman and two other members designated by him from among the public members. The Chairman of the Committee shall also serve as Chairman of the Executive Committee. Between meetings of the Committee, the Executive Committee shall be primarily responsible for carrying out the functions of the Committee and may act for the Committee to the extent authorized by it.

PART VI—MISCELLANEOUS

SEC. 601. As used in this order, the term "departments and agencies" includes any wholly-owned or mixed-ownership Government corporation, and the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and the territories of the United States.

SEC. 602. This order shall become effective immediately.

JOHN FITZGERALD KENNEDY

THE WHITE HOUSE,
November 20, 1962.

[F.R. Doc. 62-11689; Filed, Nov. 21, 1962; 1:20 p.m.]

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter IV—The President's Committee on Equal Employment Opportunity

PART 401—NONDISCRIMINATION IN GOVERNMENT EMPLOYMENT

Time Limitation for Processing Complaints

Pursuant to Executive Order 10925 of March 6, 1961 (26 F.R. 1977), the President's Committee on Equal Employment Opportunity hereby amends Part 401 of Title 5 of the Code of Federal Regulations by amending § 401.3(d) to read as set forth below. This amendment becomes effective upon publication in the FEDERAL REGISTER.

§ 401.3 Duties of the head of department or agency.

* * * * *

(d) *Processing of complaints; time limitation.* Within 60 days from receipt of a complaint by the agency or within such additional time as may be allowed by the Executive Vice Chairman for good cause shown, the agency shall process the complaint and submit to the Executive Vice Chairman the report on disposition of the complaint required by § 401.31. Where the complainant requests a hearing under the provisions of § 401.19, the report on the disposition of the complaint may be submitted to the Executive Vice Chairman within 90 days after the receipt thereof.

(E.O. 10925, Mar. 6, 1961, 26 F.R. 1977)

Signed at Washington, D.C., this 20th day of November 1962.

HOBART TAYLOR, Jr.,
Executive Vice Chairman.

[F.R. Doc. 62-11704; Filed, Nov. 23, 1962; 8:51 a.m.]

Title 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

[P.P.C. 615]

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Mediterranean Fruit Fly

ADMINISTRATIVE INSTRUCTIONS DESIGNATING CERTAIN LOCALITIES AS REGULATED AREAS

Pursuant to § 301.78-2 of the regulations supplemental to the Mediterranean Fruit Fly Quarantine (7 CFR 301.78-2), under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U.S.C. 161, 162), administrative instructions appearing as 7 CFR 301.78-2a are hereby amended to read as follows:

§ 301.78-2a Administrative instructions designating regulated areas under the Mediterranean fruit fly quarantine and regulations.

Infestations of the Mediterranean fruit fly have been determined to exist in the parts of civil divisions listed below, or it has been determined that such infestation is likely to exist therein, or it is deemed necessary to regulate such parts of civil divisions because of their proximity to infestation or their inseparability for quarantine enforcement purposes from infested localities. Accordingly, such parts of civil divisions are hereby designated as Mediterranean fruit fly regulated areas within the meaning of the provisions in this subpart:

FLORIDA

Broward County. That portion of the county bounded by a line beginning at the intersection of Powerline Road and Atlantic Boulevard and extending east along Atlantic Boulevard to its intersection with the shoreline of the Atlantic Ocean; thence southward along said shoreline to a point which would be intersected by a line projected east from Southeast 28th Street; thence west along said projected line, Southeast 28th Street, and Southwest 28th Street to its intersection with Southwest 9th Avenue; thence north along Southwest 9th Avenue; Northwest 9th Avenue, and Powerline Road to the point of beginning.

(Sec. 9, 37 Stat. 318; 7 U.S.C. 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U.S.C. 161. 19 F.R. 74, as amended; 7 CFR 301.78-2)

These administrative instructions shall become effective November 24, 1962, when they shall supersede P.P.C. 615, effective October 23, 1962 (7 CFR 301.78-2a).

This amendment adds to the regulated area a portion of Broward County, Florida, in which a specimen of the Mediterranean fruit fly was recently trapped. It also relieves restrictions by removing from the list of parts of civil divisions designated as Mediterranean fruit fly regulated area all parts of Palm Beach County, Florida, heretofore included in such list, it having been determined by the Director of the Plant Pest Control Division that adequate eradication measures have been practiced in said localities for a sufficient length of time to eradicate the Mediterranean fruit fly infestation therein and that regulation of such localities is not otherwise necessary under this subpart. Intensive survey and trapping activities have been carried on in the localities, but no Mediterranean fruit flies have been found there for a period of three months. Therefore, it is considered safe to release them from regulation.

Insofar as the amendment relieves restrictions it should be made effective promptly in order to be of maximum benefit to persons wishing to move regulated products from these localities. In addition, the amendment imposes restrictions supplementing Mediterranean fruit fly quarantine regulations already effective and must be made effective promptly in order to carry out the purposes of the regulations. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing administrative instructions are impracticable and good cause is found for making the effective date thereof less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 19th day of the November 1962.

[SEAL] D. R. SHEPHERD,
Acting Director,
Plant Pest Control Division.

[F.R. Doc. 62-11651; Filed, Nov. 23, 1962; 8:49 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

SUBCHAPTER E—AIRSPACE [NEW]

[Airspace Docket No. 62-EA-75]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Alteration of Federal Airways and Reporting Points

The purpose of these amendments to Part 71 [New] of the Federal Aviation Regulations is to change the name of the Tower City, Pa., VORTAC to the Ravine, Pa., VORTAC. This action is taken to eliminate the confusion in name similarity between the Tower City and the Tyrone, Pa., reporting points.

Part 71 [New] was published in the FEDERAL REGISTER on October 24, 1962, as a part of the Agency's recodification program. This new part contains the regulatory material presently found in Parts 600 and 601 of the regulations of the Administrator and becomes effective on December 12, 1962 (27 F.R. 10352, 220-2).

Since these changes are editorial in nature and will not assign or reassign the use of navigable airspace, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, these amendments will become effective more than 30 days after publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) the following actions are taken:

In the text of the following sections "Tower City" is deleted wherever it appears and "Ravine" is substituted therefor.

1. Section 71.123 (27 F.R. 220–6) V–170, V–238, V–276, and V–810.
2. Section 71.143 (27 F.R. 220–38) V–1510, V–1516, V–1522, and V–1686.
3. Section 71.203 (27 F.R. 220–157).
4. Section 71.205 (27 F.R. 220–165).

These amendments shall become effective 0001 e.s.t. January 10, 1963.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 16, 1962.

CLIFFORD P. BURTON,
Chief,
Airspace Utilization Division.

[F.R. Doc. 62–11613; Filed, Nov. 23, 1962; 8:45 a.m.]

[Airspace Docket No. 62–WE–78]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Alteration and Designation of Control Zones

On August 7, 1962, a notice of proposed rule making was published in the FEDERAL REGISTER (27 F.R. 7796) stating that the Federal Aviation Agency proposed to designate a control zone at Fort Ord, Calif. (Fritzsche AAF), and alter the control zones currently designated at Monterey and Salinas, Calif.

The Air Transport Association (ATA) registered an objection to the establishment of a control zone at the Fritzsche AAF if the implementation of instrument flight rule operations at this airfield would impose a delay to the air traffic movements conducted at the Monterey Peninsula Airport.

The FAA has considered the ATA's objection and feels that the proposal to designate a control zone at the Fritzsche AAF will fulfill a valid requirement for controlled airspace without creating any appreciable adverse effect upon present instrument operations at the Monterey Peninsula Airport. It should be noted in this regard that on February 14, 1962, a radar instrument approach procedure for the Fritzsche AAF was approved by the Federal Aviation Agency and that this approach procedure was specifically devised to permit simultaneous instrument flight rule operations at the Monterey Peninsula Airport.

No other adverse comments were received regarding the amendments which were proposed.

Subsequent to the issuance of the notice, Parts 600 and 601 of the regulations of the Administrator have been consolidated and recodified into a new Part 71 [New] of the Federal Aviation Regulations which will become effective December 12, 1962 (27 F.R. 10352, 220–2). The airspace actions taken herein reflect the new format and numbering system adopted for these parts.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following actions are taken:

1. In § 71.171 (27 F.R. 220–91) the Monterey, Calif., control zone is amended to read:

Monterey, Calif.:
Within a 5-mile radius of Monterey Peninsula Airport (latitude 36°35′22″ N., longitude 121°51′02″ W.) and within 2 miles either side of the 317° bearing from the Monterey ILS MM compass locator extending from the 5-mile radius zone to 7 miles NW of the compass locator, excluding the portion subtended by a chord drawn between the points of INT of the Monterey 5-mile radius zone with the Fort Ord, Calif. (Fritzsche AAF), 5-mile radius control zone and excluding the portions within R–2511.

2. Section 71.171 (27 F.R. 220–91) is amended by adding the following:

Fort Ord, Calif.:
Within a 5-mile radius of Fritzsche AAF, Fort Ord, Calif. (latitude 36°40′54" N., longitude 121°45′40″ W.) and within 2 miles either side of the Fritzsche AAF Runway 11/29 extended centerline extending from the 5-mile radius zone to 6 miles NW of the approach end of Runway 11, excluding the portions subtended by chords drawn between the points of INT of the Fort Ord 5-mile radius zone with the Monterey, Calif., and Salinas, Calif., 5-mile radius zones and excluding the portions within R–2511. This control zone shall be effective from 0600 to 2400 hours, local time, daily.

3. In § 71.171 (27 F.R. 220–91) the Salinas, Calif., control zone is amended to read:

Salinas, Calif.:
Within a 5-mile radius of Salinas Municipal Airport (latitude 36°39′40″ N., longitude 121°36′22″ W.), excluding the portion subtended by a chord drawn between the points of INT of the Salinas 5-mile radius zone with the Fort Ord, Calif., (Fritzsche AAF) 5-mile radius zone.

These amendments shall become effective 0001 e.s.t. January 10, 1963.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 19, 1962.

CLIFFORD P. BURTON,
Chief,
Airspace Utilization Division.

[F.R. Doc. 62–11617; Filed, Nov. 23, 1962; 8:45 a.m.]

[Airspace Docket No. 62–WE–52]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Revocation of Federal Airways, Associated Control Areas and Reporting Points; Alteration of Control Zone and Transition Area

On July 24, 1962, a notice of proposed rule making was published in the FEDERAL REGISTER (27 F.R. 6986) stating that the Federal Aviation Agency proposed to revoke Red Federal airway No. 53, its associated control areas and reporting points, and to alter the Pendleton, Oreg., control zone and transition area.

No adverse comments were received regarding the proposed amendments.

Subsequent to the issuance of the notice, Parts 600 and 601 of the regulations of the Administrator have been consolidated and recodified into a new Part 71 [New] of the Federal Aviation Regulations which will become effective December 12, 1962 (27 F.R. 10352, 220–2). The airspace actions taken herein reflect the new format and numbering system adopted for these parts.

In addition, it has been brought to the attention of the FAA that the geographical coordinates for Pendleton Airport were incorrectly stated in the proposed description of the Pendleton control zone. Therefore, action is taken herein to reflect the correct geographical location of the Pendleton Airport.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following actions are taken:

1. In § 71.171 (27 F.R. 220–91), the Pendleton, Oreg., control zone is amended to read:

Pendleton, Oreg.:
Within a 5-mile radius of Pendleton Airport (latitude 45°41′50″ N., longitude 118°50′20″ W.) and within 2 miles either side of the Pendleton RR NE course extending from the 5-mile radius zone to 8 miles NE of the RR.

2. In § 71.181 (27 F.R. 220–139), the Pendleton, Oreg., transition area is amend to read:

Pendleton, Oreg.:
That airspace extending upward from 700 feet above the surface within a 12-mile radius of latitude 45°41′30″ N., longitude 118°47′24″ W.; that airspace extending upward from 1,200 feet above the surface within 11 miles NE and 7 miles SW of the Pendleton VORTAC 137° radial extending from the 12-mile radius area to 39 miles SE of the VORTAC; within 10 miles SE and 7 miles NW of the Pendleton VORTAC 254° radial extending from the 12-mile radius

area to 20 miles SW of the VORTAC; that airspace extending clockwise from a line 5 miles NW of and parallel to the Pendleton VORTAC 060° radial to a line 5 miles N of and parallel to the Pendleton VORTAC 090° radial extending from the 12-mile radius area to the arc of a 30-mile radius circle centered on the Pendleton VORTAC, and within 5 miles either side of the Pendleton VORTAC 090° radial extending from the 12-mile radius area to 34 miles E of the VORTAC.

3. Section 71.107 (27 F.R. 220–4) is amended by revoking R–53.

4. In § 71.203 (27 F.R. 220–157) the following are revoked:

a. The Dalles, Oreg., RR.

b. Pendleton, Oreg., RR.

These amendments shall become effective 0001 e.s.t. January 10, 1963.

(Sec. 307(a), 72 Stat. 749; U.S.C. 1348)

Issued in Washington, D.C., on November 19, 1962.

CLIFFORD P. BURTON,
Chief,
Airspace Utilization Division.

[F.R. Doc. 62–11618; Filed, Nov. 23, 1962; 8:45 a.m.]

[Airspace Docket No. 61–KC–28]

PART 73—SPECIAL USE AIRSPACE [NEW]

Alteration of Restricted Area

On August 17, 1962, a notice of proposed rule making was published in the FEDERAL REGISTER (27 F.R. 8221) stating that the Federal Aviation Agency proposed to alter the Savanna, Ill., Restricted Area R–3302 by increasing the designated altitude from "Surface to 1,900 feet MSL" to "Surface to 2,300 feet MSL".

No adverse comments were received regarding the proposed amendment.

Subsequent to publication of the notice, the Department of the Army has requested the Federal Aviation Agency to reduce the time designation of R–3302 from "Continuous" to "0800 to 2200 c.s.t., Monday through Friday." Such action is taken herein.

Part 608 of the regulations of the Administrator has been recodified into a new Part 73 [New] of the Federal Aviation Regulations which will become effective December 12, 1962 (27 F.R. 10352). The airspace action taken herein reflects the new format and numbering system adopted for this part.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated herein and in the notice, the following action is taken:

In § 73.33 *Illinois* (27 F.R. 7339, 10352), R–3302 Savanna, Ill., is amended to read:

R–3302 Savanna, Ill.:

Boundaries. A circular area with a 1,500-foot radius centered at latitude 42°13′15″ N., longitude 90°21′24″ W.

Designated altitudes. Surface to 2,300 feet MSL.

Time of designation. 0800 to 2200 c.s.t., Monday through Friday.

Using agency. Commanding Officer, Ordnance Depot, Savanna, Ill.

This amendment shall become effective 0001 e.s.t. January 10, 1963.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62–11615; Filed, Nov. 23, 1962; 8:45 a.m.]

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. No. ER–367]

PART 211—APPLICATIONS FOR PERMITS TO FOREIGN AIR CARRIERS

General Provisions Regarding Contents

NOVEMBER 20, 1962.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 20th day of November 1962.

Section 402(c) of the Civil Aeronautics Act of 1938 provided that any foreign air carrier holding a permit issued by the Secretary of Commerce under section 6 of the Air Commerce Act of 1926, as amended, and in effect on May 14, 1938, and which authorized such carrier to operate between any foreign country and the United States, was entitled to receive a permit under section 402 of the 1938 Act, upon proof of that fact only.

This statutory provision was implemented by § 211.5(e) of the Economic Regulations which provided that applications for permits to foreign air carriers under section 402 of the Civil Aeronautics Act of 1938 should state that a permit for the services applied for had been issued by the Secretary of Commerce under Section 6 of the Air Commerce Act of 1926, as amended, giving the date of such issuance, and that such permit was in effect on May 4, 1938.

Having long since served its purpose, section 402(c) was omitted from the Federal Aviation Act of 1958. Consequently § 211.5(e) no longer has any applicability and should be repealed.

Since this amendment of Part 211 does not impose a regulatory burden on any person and merely eliminates from the regulation a provision which no longer serves any function, notice and public procedure hereon are not required, and the regulation may be made effective upon less than 30 days' notice.

In consideration of the foregoing, the Board hereby repeals § 211.5(e) of Part 211 (14 CFR Part 211), effective on November 20, 1962.

(Sec. 204(a), 72 Stat. 743, 49 U.S.C. 1324)

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 62–11650; Filed, Nov. 23, 1962; 8:48 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 62–EA–66]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 608—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of these amendments to §§ 600.6213, 608.40, and 608.66 is to change the using agency of the Potomac River, Va., Restricted Area R–6607 and to place the restricted area under § 608.40 (Maryland) rather than § 608.66 (Virginia), since it lies within the state of Maryland.

The Department of the Navy has stated that the using agency should be changed from "Commanding Officer, Naval Air Test Center, Patuxent River, Md." to "Commanding Officer, NAS, Patuxent River, Md." to reflect the proper Naval command responsible for scheduling Naval activities in this area.

Since a change of state is involved, action is taken herein to list this restricted area under § 608.40 *Maryland*, with a change in restricted area number from R–6607 (Virginia) to R–4008 (Maryland). Action is also taken herein to alter the text of § 600.6213 by substituting R–4008 for R–6607 in the description of VOR Federal airway No. 213.

Since these amendments are minor in nature, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary and they may be made effective upon publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following actions are taken.

1. In § 608.66 *Virginia* (27 F.R. 7363), R–6607 Potomac River, Va., is revoked.

2. In § 608.40 *Maryland* (27 F.R. 7342), the Potomac River, Md., Restricted Area, R–4008 is added as follows:

R–4008 Potomac River, Md.:

Boundaries. Beginning at latitude 38°07′-00″ N., longitude 76°24′30″ W.; to latitude 37°53′10″ N., longitude 76°14′00″ W.; thence along the south shore of the Potomac River to latitude 37°59′20″ N., longitude 76°26′30″ W.; to latitude 38°05′40″ N., longitude 76°33′32″ W.; to latitude 38°07′25″ N., longitude 76°30′45″ W.; to latitude 38°07′00″ N., longitude 76°28′30″ W.; to the point of beginning.

Designated altitude. Unlimited.

Time of designation. Continuous.

Using agency. Commanding Officer, NAS, Patuxent River, Md.

3. In the text of § 600.6213 (27 F.R. 7387), "R–6607" is deleted and "R–4008" is substituted therefor.

These amendments shall become effective on publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on November 16, 1962.

LEE E. WARREN,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62–11616; Filed, Nov. 23, 1962; 8:45 a.m.]

[Reg. Docket No. 1465; Amdt. 297]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to standard instrument approach procedures contained herein are being adopted to become effective when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act would be contrary to the public interest and is therefore not required.

Pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 609 is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
Grand Island VOR	GI-LFR	Direct	3400	T-dn C-dn A-dn	300–1 400–1 800–2	300–1 500–1 800–2	200–½ 500–1½ 800–2

Procedure turn W side N crs, 345° Outbnd, 165° Inbnd, 3400′ within 10 miles.
Minimum altitude over facility on final approach crs, 2400′.
Crs and distance, facility to airport, 165°—1.3 mi.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 1.3 miles after passing GI–LFR, make left turn, climb to 3400′, return to LFR.
NOTE: Final approach from holding pattern, LFR NA, procedure turn required.

City, Grand Island; State, Nebr.; Airport Name, Grand Island Municipal; Elev., 1846′; Fac. Class., SBMRLZ; Ident., GI; Procedure No. 1, Amdt. 11; Eff. Date, 8 Dec. 62; Sup. Amdt. No. 10; Dated, 18 Nov. 61

2. The automatic direction finding procedures prescribed in § 609.100(b) are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

Procedure turn W side of crs, 175° Outbnd, 355° Inbnd, 3400′ within 10 miles. Nonstandard due terrain.
Minimum altitude over RBn/FM on final approach crs, *2800′, over VOR, 2000′.
Crs and distance, breakoff point to approach end of Runway 35, 347°—1.4 mi.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 0.0 mile, make a right climbing turn to 5000′ on R-035 MPV-VOR within 20 miles. Reverse course at 5000′, maintain 5000′ and return to MPV-VOR. Hold at MPV-VOR, right turns, 1-minute 215° Inbnd.
CAUTION: Do not descend below authorized minimum unless airport and landing runway are in clear view and the aircraft is positioned along runway centerline extended. High unlighted terrain west of airport. Critical obstructions southwest of field and on approach to Runway 35.
*Descent to published minimums authorized after passing the MPV fan marker or radio beacon. If fan marker or radio beacon not received, then maintain 2800′ to the VOR.

City, Montpelier; State, Vt., Airport Name, Barre-Montpelier Municipal; Elev., 1157′; Fac. Class., BVOR; Ident., MPV; Procedure No. TerVOR-35, Amdt. Orig.; Eff. Date, 8 Dec. 62

5. The very high frequency omnirange-distance measuring equipment (VOR/DME) procedures prescribed in § 609.300 are amended to read in part:

VOR-DME STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

7. The radar procedures prescribed in § 609.500 are amended to read in part:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
				Precision approach

Issued in Washington, D.C., on November 2, 1962.

G. S. MOORE,
Acting Director, Flight Standards Service.

[F.R. Doc. 62–11150; Filed, Nov. 23, 1962; 8:45 a.m.]

[Reg. Docket No. 1480; Amdt. 298]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to standard instrument approach procedures contained herein are being adopted to become effective when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act would be contrary to the public interest and is therefore not required.

Pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 609 is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	

PROCEDURE CANCELLED, EFFECTIVE DECEMBER 15, 1962.

City, Las Vegas; State, Nev.; Airport Name, Nellis Air Force Base; Elev., 1888′; Fac. Class., SBMRAZ; Ident., LAS; Procedure No. 1, Amdt. 4; Eff. Date, 12 Feb. 1955; Sup. Amdt. No. 3; Dated, 16 Aug. 54

2. The automatic direction finding procedures prescribed in § 609.100(b) are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums

3. The very high frequency omnirange (VOR) procedures prescribed in § 609.100(c) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
Cecil Int	TGE-VOR	Direct	1800	T-dn	300-1	300-1	200-½
Mathews Int	TGE-VOR (Final)	Direct	1800	C-dn	1000-3	1000-3	1000-3
				A-dn*	NA	NA	NA

Procedure turn S side of crs, 234° Outbnd, 054° Inbnd, 2000′ within 10 miles.
Minimum altitude over facility on final approach crs, 1800′.
Crs and distance, facility to airport, 054°—13.8 mi.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 6.0 miles after passing TGE-VOR, turn right, climb to 2000′, proceed direct to TGE-VOR, hold SW on R-218, 1-minute right turns or, when directed by ATC, climb to 2200′ on R-051 TGE-VOR within 20 miles.
NOTE: Aircraft will not enter IFR conditions without prior approval of ATC. Contact Montgomery Approach Control for initial approach clearance. Pilot will close IFR Flight Plan with Columbus Approach Control or Columbus FSS on appropriate frequency when reaching VFR conditions on approach and will proceed VFR from contact point (6 miles after passing TGE-VOR) to airport.
*No weather available to public.

5. The radar procedures prescribed in § 609.500 are amended to read in part:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
All directions		10–20 miles	2500	Surveillance approach			
145°	322°	0–10 miles	2500				
322°	145°	0–10 miles	2000				
				T–dn	300–1	300–1	200–½
				C–dn*	400–1	500–1	500–1½
				S–dn*	400–1	400–1	400–1
				A–dn	800–2	800–2	800–2
				C–dn–4	600–2	600–2	600–2
				S–dn–4	600–2	600–2	600–2

All bearings are from radar site with sector azimuths progressing clockwise.

If visual contact not established upon descent to authorized landing minimums or if landing not accomplished, make immediate left or right turn, climb to 2500′, proceed to OBK–VOR via ORD–VOR R–030 and OBK–VOR R–135 or, when directed by ATC, make immediate left or right turn climb to 2500′ and proceed to IA LOM, then direct to OBK–VOR.

NOTE: Right or left turn as appropriate for the direction of the approach.

CAUTION: Takeoffs on Runway 27 when weather is below 2000–3 will intercept ORD–VOR R–250 and climb to 2000′ before proceeding westbound. Takeoffs on Runway 32L, when weather is below 2000–3, will intercept ORD–VOR R–306 and climb to 2000′ before proceeding westbound.

*Runways 14 L and R, 32 L and R, 27, 22#.

#Do not descend below 1200′ until radar advises passing 926′ tower 4.2 miles from end of runway 22.

City, Chicago; State, Ill.; Airport Name, O'Hare International; Elev., 667′; Fac. Class. and Ident., O'Hare Radar; Procedure No. 1, Amdt. 6; Eff. Date, 15 Dec. 62; Sup. Amdt. No. 5; Dated, 3 Nov. 62

These procedures shall become effective on the dates specified therein.

(Secs. 313(a), 307(c), 72 Stat. 752, 749; 49 U.S.C. 1354(a), 1348(c))

Issued in Washington, D.C., on November 9, 1962.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

Acushnet River, Mass.

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.80 governing the operation of the drawspan of the Massachusetts Department of Public Works highway bridge over the entrance to Acushnet River between New Bedford and Fairhaven, Massachusetts, is hereby amended with respect to paragraph (b) by revising subparagraph (2) and by making other necessary minor revisions, effective 30 days after publication in the FEDERAL REGISTER, as follows:

§ 203.80 Acushnet River, Mass.; State of Mass. bridge between New Bedford and Fairhaven.

(a) *Prompt opening required.* Except as otherwise provided in paragraph (b) of this section, the draw of the bridge shall, upon proper signal, be opened promptly for the passage of vessels unable to pass under the closed draw.

(b) *Exceptions.* (1) From 6:30 a.m. to 8:30 a.m., from 11:30 a.m. to 1:30 p.m., and from 4:00 p.m. to 6:00 p.m., on all days other than Sundays and legal holidays observed in the locality, the draw need not be opened for the passage of any vessels drawing less than 15 feet of water. The above periods of closure will not apply to vessels owned or operated by the U.S. Government, State or local authorities.

(2) During the period May 1 to October 1 between the hours of 9:00 p.m. and 5:00 a.m. (local time) and during the period October 1 to May 1, from one hour after sunset to one hour before sunrise, advance notice of two hours will be required for an opening. This advance notice will be given to the draw tender by telephone or otherwise. The owner of or agency controlling the bridge shall provide arrangements whereby the draw tender can be conveniently reached by telephone or otherwise at any hour of the night, and shall keep conspicuously posted on both the upstream and downstream sides of the bridge, in a position where it can be read easily at any time, a copy of the regulations of this section together with a notice stating exactly how the draw tender may be reached.

(c) *Signals*—(1) *By the vessel.* The signal for opening the draw promptly when required shall be three short blasts of a whistle or horn. When a vessel drawing more than 15 feet of water intends to pass through the draw during the period described in paragraph (b)(1) of this section, three short blasts followed by one long blast shall be sounded. When any United States, State or municipal vessel as described in paragraph (b)(1) of this section intends to pass through the draw, four long blasts are sounded.

(2) *By the bridge.* If the draw is to be opened promptly, the draw tender shall reply by one long blast of a whistle or horn. If the draw cannot be opened promptly, the draw tender shall reply by three long blasts and, in addition, a red flag or ball by day and a red light by night shall be conspicuously displayed on the bridge.

[Regs., Nov. 8, 1962, 285/111 (Acushnet River, Mass.)—ENGCW–ON] (Sec. 5, 28 Stat. 362; 33 U.S.C. 499)

J. C. LAMBERT,
Major General, U.S. Army,
The Adjutant General.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 121—FOOD ADDITIVES

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Zoalene in Feed for Chickens and Turkeys

1. The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by The Dow Chemical Company, Midland, Michigan, and other relevant information, has concluded that § 121.207 of the food additive regulations should be amended as set forth below, for the purpose of establishing a minimum of 0.004 percent of zoalene in feed for replacement flocks for chickens and providing for feeding of zoalene-medicated feeds to turkeys with or without antibiotics added for growth promotion. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations are amended as set forth below.

a. Section 121.207 is revised to read:

The food additive zoalene (3,5-dinitro-*o*-toluamide) may be safely used in animal feed when incorporated therein in accordance with the following prescribed conditions:

(a) The antibiotic activities authorized are expressed in this section in terms of the weight of the appropriate antibiotic standard.

(b) Permitted uses of zoalene alone and with certain other additives in medicated feeds are described in tabular form in this section. These tables are to be read as follows:

(1) Where the principal ingredient is the sole medicament, the required limitations and indications for use are found on the same line entry.

(2) Where the principal ingredient is combined with a secondary ingredient, the required limitations and indications for use for the secondary ingredient are found on the same line entry. The required limitations and indications for use of the principal ingredient at the designated concentration are found on the line entry for the principal ingredient alone, and both sets of applicable limitations and indications for use shall apply. If duplicate limitations occur, these may be appropriately simplified.

(3) Permitted combinations of principal ingredient and secondary ingredient are individually listed. Unless specifically provided by the regulations, the principal ingredient may not be mixed with two or more secondary ingredients.

(c) The additive is used or intended for use as follows:

TABLE 1—ZOALENE WITH OR WITHOUT ANTIBIOTICS IN COMPLETE FEEDS FOR CHICKENS AND TURKEYS

Principal ingredient [1]	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
1. Zoalene	113.5–170.3 (0.0125%–0.01875%)			For turkeys grown for meat purposes only.	Prevention and control of coccidiosis.
a. Zoalene	113.5–170.3	Penicillin	2.4–50	For turkeys grown for meat purposes only; as procaine penicillin.	Growth promotion and feed efficiency.
b. Zoalene	113.5–170.3	Bacitracin	4–50	For turkeys grown for meat purposes only; as bacitracin, bacitracin methylene disalicylate, manganese bacitracin, or zinc bacitracin.	Do.
2. Zoalene	113.5 (0.0125%)			For broiler chickens	Prevention and control of coccidiosis.
a. Zoalene	113.5	Penicillin	2.4–50	For broiler chickens; as procaine penicillin.	Growth promotion and feed efficiency.
b. Zoalene	113.5	Penicillin plus bacitracin.	3.6–50	For broiler chickens; not less than 0.6 gm. of penicillin, nor less than 3.0 gm. of bacitracin, nor more than 50 gm. in combination; as procaine penicillin plus bacitracin, bacitracin methylene disalicylate, manganese bacitracin, or zinc bacitracin.	Do.
c. Zoalene	113.5	Bacitracin	4–50	For broiler chickens; as bacitracin, bacitracin methylene disalicylate, manganese bacitracin, or zinc bacitracin.	Growth promotion and feed efficiency.
d. Zoalene	113.5	Oleandomycin	1–2	For broiler chickens	Do.
e. Zoalene	113.5	Chlortetracycline	50–200	For broiler chickens. As prescribed in § 121.208(d), Table 1, Item 1; § 121.208(d), Table 1, Item 4; § 121.208(d), Table 1, Item 5; § 121.208(d), Table 1, Item 10; as chlortetracycline hydrochloride.	As prescribed in: § 121.208(d), Table 1, Item 1; § 121.208(d), Table 1, Item 4; § 121.208(d), Table 1, Item 5; § 121.208(d), Table 1, Item 10.
3. Zoalene	36.3–113.5 (0.004%–0.0125%)			For replacement chickens; in complete feed only; (grower ration not to be fed to birds under 5½ weeks of age nor over 14 weeks of age), as follows:	Development of active immunity to coccidiosis.

Growing conditions	Amount of zoalene in feed for birds by age group	
	Starter ration	Grower ration
	Grams per ton	*Grams per ton*
Severe exposure	113.5 (0.0125%)	75.4–113.5 (0.0083%–0.0125%)
Light to moderate exposure.	75.4–113.5 (0.0083%–0.0125%)	36.3–75.4 (0.004%–0.0085%)

a. Zoalene	do	Penicillin	2.4–50	Replacement chickens; as procaine penicillin.	Growth promotion and feed efficiency.
b. Zoalene	36.3–113.5 (0.004%–0.0125%)	Penicillin plus bacitracin.	3.6–50	Replacement chickens; not less than 0.6 gm. of penicillin nor less than 3.0 gm. of bacitracin, nor more than 50 gm. of combination; as procaine penicillin plus bacitracin, bacitracin methylene disalicylate, manganese bacitracin, or zinc bacitracin.	Growth promotion and feed efficiency.
c. Zoalene	36.3–113.5 (0.004%–0.0125%)	Bacitracin	4–50	Replacement chickens; as bacitracin, bacitracin methylene disalicylate, manganese bacitracin, or zinc bacitracin.	Do.
d. Zoalene	do	Oleandomycin	1–2	Replacement chickens	Do.
e. Zoalene	do	Chlortetracycline	50–200	Replacement chickens. As prescribed in § 121.208(d), Table 1, Item 1; § 121.208(d), Table 1, Item 4; § 121.208(d), Table 1, Item 5; § 121.208(d), Table 1, Item 10; as chlortetracycline hydrochloride.	As prescribed in § 121.208(d), Table 1, Item 1; § 121.208(d), Table 1, Item 4; § 121.208(d), Table 1, Item 5; § 121.208(d), Table 1, Item 10.

[1] The term "Principal ingredient," as used in this section, refers to the additive named in the title of this section and is not intended to imply that the ingredient is of a greater value than other additives named in this section.

(d) To assure safe use, the label and labeling of the additive, any combination of additives, and any intermediate premix or final feed shall bear, in addition to the other information required by the act, the following:

(1) The name of the additive or additives.

(2) A statement of the quantity or quantities contained therein, except that the label of the final feed need not bear the quantities of the antibiotic drugs added solely for growth promotion.

(3) Adequate directions and warnings for use, including a statement that such feeds may not be fed to laying birds.

b. In § 121.208 *Chlortetracycline*, items 1c, 4c, 5d, and 10c of Table 1 in paragraph (d) are changed to read as follows:

TABLE 1—CHLORTETRACYCLINE IN FINISHED CHICKEN AND TURKEY FEEDS

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
1. * * *					
c. Chlortetracycline	50–100	Zoalene	36.3–113.5	For chickens; not to be fed to laying chickens; as prescribed in § 121.207(c), Table 1, Item 2; § 121.207(c), Table 1, Item 3.	As prescribed in § 121.207(c), Table 1, Item 2; § 121.207(c), Table 1, Item 3.
4. * * *					
c. Chlortetracycline	50–100	do	36.3–113.5	For chicks. As prescribed in § 121.207(c), Table 1, Item 2; § 121.207(c), Table 1, Item 3.	Do.
5. * * *					
d. Chlortetracycline	100–200	do	36.3–113.5	For chickens; not to be fed to laying chickens. As prescribed in § 121.207(c), Table 1, Item 2; § 121.207(c), Table 1, Item 3.	Do.
10. * * *					
c. Chlortetracycline	200	do	36.3–113.5	do	Do.

2. Based upon an evaluation of the data before him and proceeding under the authority of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(4), 72 Stat. 1786; 21 U.S.C. 348(c)(4)), the Commissioner of Food and Drugs has further concluded that where turkeys have been treated with zoalene in accordance with § 121.207, a tolerance limitation is required in order to assure that edible tissues of turkeys are safe for human food. Therefore, § 121.1013 (21 CFR 121.1013) is amended to provide a safe tolerance for this additive in edible tissues of turkeys. As amended, § 121.1013 reads as follows:

§ 121.1013 Zoalene.

Tolerances are established for residues of zoalene (3,5-dinitro-o-toluamide) and its metabolite 3-amino-5-nitro-o-toluamide in food, as follows:

(a) In edible tissues of chickens:

(1) Six parts per million (0.0006 percent) in uncooked liver and kidneys.

(2) Three parts per million (0.0003 percent) in uncooked muscle meat.

(3) Two parts per million (0.0002 percent) in uncooked fat.

(b) In edible tissues of turkeys: 3 parts per million (0.0003 percent) in uncooked muscle meat and liver.

§ 146.26 [Amendment]

3. Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463 as amended; 21 U.S.C. 357), and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625), § 146.26 *Animal feed containing penicillin* * * * (21 CFR 146.26) is amended by changing paragraph (b)(45) to read:

(45) It is a medicated chicken or turkey feed containing antibiotics and zoalene in the amounts and for the purposes indicated in § 121.207 of this chapter; *Provided, however,* That such medicated complete feed has been prepared from a concentrated zoalene-antibiotic medicated feed that contained not more than 0.0375 percent zoalene. If the complete medicated feed is prepared from a product of zoalene that contains more than 0.0375 percent zoalene, it is exempt from certification only under the condition that there has been submitted to the Commissioner, in triplicate, adequate information of the kind described in § 146.7 to establish the safety and efficacy of the article and to guarantee its identity, strength, quality, and purity. The exemption shall expire at the beginning of any act changing the composition or labeling of such drug, or the methods used in and the facilities and controls used for its manufacturing, processing, and packaging, or in its labeling, unless the person who obtains the exemption has submitted to the Commissioner, in triplicate, amended information that describes such proposed changes, and such amendment has been accepted by the Commissioner. Both concentrates and finished poultry feed containing zoalene must comply with all the requirements of § 121.207 of this chapter, including labeling.

(Sec. 507, 59 Stat. 463 as amended; 21 U.S.C. 357)

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Secs. 409(c), 507, 59 Stat. 463 as amended, 72 Stat. 1786; 21 U.S.C. 348(c), 357)

Dated: November 15, 1962.

JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

Correction

In F.R. Doc. 62–11436, appearing at page 11254 of the issue for Thursday, November 15, 1962, the first word in the eighth line of § 203.3(b) should read "of" instead of "or".

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 55763]

PART 54—CERTAIN IMPORTATIONS TEMPORARILY FREE OF DUTY

Free Entry for Certain Personnel of the United States Government

Public Law 126, 84th Congress (69 Stat. 242) provides for the entry free of duty and tax of personal and household effects of persons traveling under Government orders which are entered for consumption or withdrawn from warehouse for consumption during a specified period. This period has been extended by various amendments of Public Law 126. The presently effective extension expires July 1, 1964.

The regulations issued under Public Law 126 were set up to indicate the expiration date of the law thus necessitating an amendment of the regulations each time the effective date is extended. To state in the regulations that the free entry privilege is applicable during the effective period of such act, § 54.2(a) is amended to read as follows:

(a) Under section 1 of the Act of June 30, 1955 (50 U.S.C. App. 801), free entry may be accorded to the personal and household effects (with the limitation on alcoholic beverages and tobacco products prescribed by paragraph (c) of this section) of any person in the service of the United States who returns to the United States upon the termination of assignment to extended duty at a post or station outside the customs territory of the United States, or of returning members of his family who have resided with him at such post or station, or of any person evacuated to the United States under Government orders or instructions, provided such effects are entered or withdrawn from warehouse, for consumption during the effective period of such Act.

(Sec. 624, 46 Stat. 759, sec. 1, 56 Stat. 461, as amended; 19 U.S.C. 1624, 50 U.S.C. App. 801)

[SEAL] PHILIP NICHOLS, Jr.,
Commissioner of Customs.

Approved: November 16, 1962.

JAMES POMEROY HENDRICK,
Acting Assistant Secretary of the Treasury.

SUBCHAPTER A—GENERAL

PART 200—INTRODUCTION

Subpart D—Delegations of Basic Authority and Functions

MISCELLANEOUS AMENDMENTS

In Part 200 in the Table of Contents the pertinent section headings are amended and a new section heading is added to read as follows:

Sec.
200.67 Director of the Program Division.
200.73 Director, Audit and Examination.
200.82 Assistant Commissioner for Congressional Liaison and Public Information.

In § 200.73 the introductory text is amended and paragraph (c) is revoked as follows:

§ 200.73 Director, Audit and Examination.

To the position of Director, Audit and Examination, there is delegated the following basic authority and functions:

* * * * *

(c) [Revoked.]

Part 200 is amended by adding a new § 200.82 as follows:

§ 200.82 Assistant Commissioner for Congressional Liaison and Public Information.

To the position of Assistant Commissioner for Congressional Liaison and Public Information there is delegated the following basic authority and functions:

(a) To maintain liaison with Senators, Representatives, and members of their staffs and with Congressional Committees and committee staffs on matters affecting the programs and operations of the Federal Housing Administration.

(b) To coordinate the public information activities of the Federal Housing Administration.

(c) To act with the Commissioner in the determination of basic policy and be a member of the Executive Board.

In § 200.85 paragraph (a) is amended to read as follows:

§ 200.85 Executive Board.

(a) *Members.* The committee called the Executive Board is comprised of the following members: Commissioner, Chairman; Deputy Commissioner, Vice Chairman; Assistant Commissioner (Executive Officer); General Counsel; Assistant Commissioner for Field Operations; Assistant Commissioner for Multifamily Housing Operations; Assistant Commissioner for Technical Standards; Assistant Commissioner for Programs; Assistant Commissioner for Administration; Assistant Commissioner-Comptroller; Assistant Commissioner for Property Disposition; and Assistant Commissioner for Congressional Liaison and Public Information.

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

PART 71—RECOGNITION OF ATTORNEYS AND AGENTS TO REPRESENT CLAIMANTS

PART 72—ATTORNEY CONTRACTS WITH INDIAN TRIBES

Miscellaneous Amendments

Sections 71.1, 72.1, 72.3, 72.4, 72.9, 72.13, 72.14, 72.15, 72.16, 72.17, 72.18, 72.19, and 72.21 of 25 CFR are amended as set forth below. These amendments are necessary to conform the affected regulations with the transfer of authority by the Secretary of the Interior from the Solicitor of the Department of the Interior to the Commissioner of Indian Affairs to approve attorney contracts with Indian tribes and directly related tribal contracts with technical specialists, and to determine fees and expenses under such contracts pursuant to 25 U.S.C. 81, 82, 84, and 476. Since the amendments are made necessary because of a transfer of functions within the Department, notice and public procedure have been deemed unnecessary and the amendments shall become effective on the date of publication in the FEDERAL REGISTER.

§ 71.1 Employment of attorneys.

(a) Indian tribes organized pursuant to the Indian Reorganization Act of June 18, 1934 (48 Stat. 984; 25 U.S.C. 461-479), as amended, may employ legal counsel. The choice of counsel and the fixing of fees are subject under 25 U.S.C. 476 to the approval of the Secretary of the Interior or his authorized representative.

(b) Attorneys may be employed by Indian tribes not organized under the Act of June 18, 1934, under contracts subject to approval under 25 U.S.C. 81 and the Reorganization Plan No. 3 of 1950, 5 U.S.C. 481, note, by the Secretary of the Interior or his authorized representative.

(c) Any action of the authorized representative of the Secretary of the Interior which approves, disapproves or conditionally approves a contract pursuant to paragraph (a) or (b) of this section shall be final.

(d) Practice of such attorneys before the Bureau of Indian Affairs and the Department of the Interior is subject to the requirements of 43 CFR 1.1-1.7.

§ 72.1 Contracts with organized tribes.

(a) Negotiation and execution of tribal attorney contracts with Indian tribes organized pursuant to the Indian Reorganization Act of June 18, 1934 (48 Stat. 984; 25 U.S.C. 461-479), as amended, shall be in accordance with the provisions of the approved constitution or charter of the respective tribes.

(b) The Secretary of the Interior or his authorized representative is authorized to approve pursuant to 25 U.S.C. 476 the selection of counsel and the amount of fees and expenses to be paid under any such contract.

§ 72.3 Tentative form of contract.

A tribal council or representative body having authority to employ legal counsel in behalf of an organized tribe, may, if it desires, obtain a tentative form of contract by written request directed to the office of any area director or agency superintendent, or to the Commissioner of Indian Affairs. Requests for forms should include a statement of the scope of the intended employment; that is, whether an attorney is desired for investigation and prosecution of tribal claims against the United States, or as a general legal counsel in connection with the ordinary business of the tribe, or specific problems on which legal advice is desired, or specific matters requiring representation in court or before committees of Congress and the departments of the Government. The period for which an attorney is desired should be stated.

§ 72.4 Report of Superintendent.

Contracts executed by organized tribes should be transmitted to the Area Director by the Superintendent, with a report based upon references and independent inquiry concerning the qualifications of the attorney and his ability to perform the services required by the contract, and including the superintendent's recommendation with reference to approval of the contract.

§ 72.9 Record of council proceedings.

A report should be made of the proceedings of the council, certified to by the Superintendent or his representative as correct, and a copy thereof should be sent to the Area Director with the contract.

§ 72.13 Limitation of authority.

The tribal business committee or other representative body, when proceeding under § 72.12 should carefully investigate, with the assistance of the superintendent if desired, the qualifications of available attorneys, bearing in mind the purpose for which counsel is desired and except as provided in § 72.14 shall carry on its negotiations with attorneys subject to the distinct understanding that final action on the selection and employment of counsel shall be had in a general council or meeting of the tribe or as otherwise provided under § 72.15, subject to approval by the Secretary of the Interior or his authorized representative as required by law.

§ 74.14 Employment by tribal business committees.

In case the tribal business committee or board has specific authority from the tribe to employ tribal attorneys and to execute a contract for that purpose, the tribal business committee or board may negotiate with attorneys and enter into a contract subject to approval of the Secretary of the Interior or his authorized representative as provided by law.

§ 72.15 Vote by secret ballot.

Those tribes accustomed to act on important tribal matters by secret ballot, or by vote in district meetings, or in some other manner, may apply through their proper officers to the Area Director for permission to consider and act upon employment of tribal counsel in the manner preferred by the tribe rather than by a general council or meeting.

§ 72.16 Notice from the tribe.

Notice of intention to negotiate with attorneys should be sent to the superintendent by the proper tribal officers, accompanied by a full statement concerning the need for retaining counsel, showing in detail the purposes for which an attorney is needed, the scope of his intended employment, and a reference to the tribal funds, if any, which the tribe believes should be made available for payment of counsel fees and expenses. The notice and statement should be transmitted to the Area Director by the Superintendent with the latter's report and recommendations.

§ 72.17 Notice from attorneys.

Attorneys desiring to execute contracts with Indian tribes shall be required to give written notice directed through the superintendent to the Area Director in advance of all negotiations.

§ 72.18 Tentative form of contract.

A tentative form of contract may be obtained from any agency office, area office, or the Commissioner of Indian Affairs. When the attorney or tribe proposing to execute a contract desires to make substantial changes in the tentative form, the proposed changes should be submitted through the superintendent to the Area Director for approval as to form prior to execution of a contract.

§ 72.19 Execution in quintuplicate.

The contract should be executed in quintuplicate, and all copies should be transmitted by the superintendent to the Area Director.

§ 72.21 Copies of approved contracts.

The original of all approved contracts will be retained by the Area Director with a copy to the tribal governing body, attorney, Superintendent and Commissioner. The Commissioner's copy should be completely supported by copies of the recommendation of the Superintendent or Officer in Charge, Regional Solicitor's or Field Solicitor's opinions, and any other pertinent data which will permit the records of the Commissioner's office to reflect the full current status of approved attorney contracts in each instance.

STEWART L. UDALL,
Secretary of the Interior.

NOVEMBER 16, 1962.

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 7—SPECIAL REGULATIONS RELATING TO PARKS AND MONUMENTS

Rocky Mountain National Park, Colorado; Fishing, Camping, Traffic, Trails, Dogs, Cats and Domestic Pets, Boats, Sanitation and Registration

On page 9819 of the FEDERAL REGISTER of October 4, 1962, there was published a notice and text of a proposed amendment to § 7.7 of Title 36, Code of Federal Regulations. The purpose of this amendment is to revise certain fishing regulations; to delete superseded sections on camping, speed and vehicular traffic; to close certain trails to horse use; to establish regulations concerning dogs, cats and domestic pets; to establish regulations for boats; sanitation; and to require registration for climbing and winter trips.

Interested persons were given 30 days within which to submit written comments, suggestions, or objections with respect to the proposed amendment. No comments, suggestions, or objections have been received, and the proposed amendment is hereby adopted without change and is set forth below. This amendment shall become effective at the beginning of the 30th calendar day following the date of this publication in the FEDERAL REGISTER.

ALLYN F. HANKS,
Superintendent,
Rocky Mountain National Park.

Paragraphs (b) and (c) are amended; paragraphs (d) and (h) are deleted; and new paragraphs (j), (k), (l), and (m) are added to § 7.7 as follows:

§ 7.7 Rocky Mountain National Park.

* * * * *

(b) *Fishing.* (1) Fishing in Shadow Mountain Lake, those portions of the tributary streams between full pool elevation (8,280 feet) and actual pool elevation of Lake Granby, the Grand Bay portion of Lake Granby, the Colorado River between Shadow Mountain Lake and Lake Granby shall be permitted in conformity with the laws and regulations of the State of Colorado.

(2) Elsewhere in the park, fishing shall be permitted in conformity with the laws and regulations of the State of Colorado regarding minimum size limits and the method of handling and returning undersized fish to the water; and, the following additional provisions:

* * * * *

(vii) Bear Lake and Black Canyon Creek are closed to fishing.

(viii) [Deleted]

(c) *Travel on roads and trails.* The use of saddle or pack animals is prohibited on the following trails:

(i) Bear Lake Nature Trail.

(ii) Bear Lake to Emerald Lake.

(iii) Dream Lake to Lake Haiyaha.

(iv) Chasm Lake trail from its junction with the Longs Peak trail to Chasm Lake.

(d) [Deleted]

* * * * *

(h) [Deleted.]

* * * * *

(j) *Dogs, cats and domestic pets.* (1) Dogs, cats, and other domestic pets or animals are prohibited on all trails and other Government lands, except on roads and parking areas and at campgrounds and picnic areas accessible to automobiles, provided such animals or pets are on leash, crated or otherwise under physical control at all times.

(2) The superintendent may, by the posting of official signs, limit or prohibit the presence of dogs, cats and other domestic pets or animals from any of the areas outlined in subparagraph (1) of this paragraph.

(3) Dogs, cats or other domestic pets or animals creating a public nuisance shall be removed from the park by the owners.

(k) *Boats.* (1) Permit: No privately owned boat, canoe, raft, or other waterborne or floating craft shall be placed or operated upon the waters of Rocky Mountain National Park without a written permit from the superintendent, who shall have authority to revoke the permit and require the immediate removal of such craft upon the failure of the permittee to comply with the terms and conditions of the permit. The permit must be carried within the craft at all times it is on park waters and shall be exhibited upon request to any person authorized to enforce the regulations in this chapter.

(2) The operations of motor-propelled waterborne craft are prohibited on all waters of the park.

(3) All waterborne craft are prohibited on Bear Lake.

(4) The restrictions contained in subparagraphs (1), (2), and (3) of this paragraph shall not apply to craft operated for administrative purposes or in emergencies.

(l) *Sanitation in back country.* (1) Persons using the park shall remove or otherwise dispose of all waste materials accumulated on trips away from park roads in the following manner:

(i) All combustible waste materials shall be burned in fires authorized by written campfire permits.

(ii) All noncombustible waste materials shall be transported to, and deposited in the nearest roadside trash receptacle.

(m) *Registration.* (1) Registration is required for mountain climbing and back country winter trips as follows:

(i) For all "technical" mountain climbing. The term "technical" means where such technical climbing aids as pitons, carabiners or snap links, ropes, expansion bolts or other mechanical equipment is necessary to make the climb.

(ii) For all types of hikes or climbs on the portions of Longs Peak and Mount Meeker above 11,000 feet elevation.

(iii) For all persons making trips away from main roads or places of habitation during the winter months. Calendar dates when such registration is required will be determined by the superintendent and posted each year.

(iv) No individual will be permitted to start or continue a solo climb or trip as outlined in subdivisions (i), (ii), and (iii) of this subparagraph.

(v) For extensive winter foot, ski or snowshoe trips, special requirements are contained in forms available at ranger stations. These forms must be completed and signed prior to any trip planned to exceed one day.

(60 Stat. 238; 5 U.S.C. 1003; 39 Stat. 535; 16 U.S.C. 3)

[F.R. Doc. 62-11632; Filed, Nov. 23, 1962; 8:46 a.m.]

PART 7—SPECIAL REGULATIONS RELATING TO PARKS AND MONUMENTS

Mount McKinley National Park, Alaska; Motorboats

On Page 5195 of the FEDERAL REGISTER of June 2, 1962 there was published a notice and text of a proposed amendment to § 7.44 of Title 36, Code of Federal Regulations. The purpose of this amendment is to prohibit the use of motorboats on any of the ponds, lakes, and streams in Mount McKinley National Park.

Interested persons were given 30 days within which to submit written comments, suggestions or objections with respect to the proposed amendment. Consideration having been given to all relevant matters presented, it has been determined that the amendment should be and is hereby adopted without change and is set forth below. This amendment shall become effective at the beginning of the 30th calendar day following the date of this publication in the FEDERAL REGISTER.

Paragraph (f) is added to § 7.44 to read as follows:

§ 7.44 Mount McKinley National Park.

* * * * *

(f) *Motorboats.* Motorboats are prohibited on all the ponds, lakes, and streams of Mount McKinley National Park.

(39 Stat. 535; 16 U.S.C. 3)

JERROL G. COATES,
Acting Superintendent,
Mount McKinley National Park.

[F.R. Doc. 62-11631; Filed, Nov. 23, 1962; 8:46 a.m.]

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

Subpart A—Education and Training of World War II Veterans and Vocational Rehabilitation Under 38 U.S.C. Ch. 31

VOCATIONAL REHABILITATION FOR CERTAIN VETERANS WHO INCURRED A DISABILITY IN ACTIVE SERVICE AFTER WORLD WAR II AND BEFORE THE KOREAN CONFLICT OR AFTER THE KOREAN CONFLICT

In Part 21, a new § 21.802 is added to read as follows:

§ 21.802 Vocational rehabilitation for certain veterans who incurred a disability in active service after World War II and before the Korean conflict or after the Korean conflict.

(a) *Effect of the act.* Section 7, Public Law 87-815 makes vocational rehabilitation benefits available to veterans who are in need of such rehabilitation in order to overcome the handicap of a disability incurred in or aggravated by active service between World War II and the Korean conflict or after the Korean conflict.

(b) *Procedures.* (1) Every veteran who is in need of vocational rehabilitation on account of a service-connected disability which is or, but for the receipt of retirement pay, would be compensable under Chapter 11, Title 38, United States Code, shall be provided vocational rehabilitation as may be prescribed by the Administrator if such disability arose out of service after World War II and before the Korean conflict, or after the Korean conflict, and is rated for compensation purposes as 30 per centum or more, or if less than 30 per centum, is clearly shown to have caused a pronounced employment handicap.

(2) Vocational rehabilitation may not be afforded to such a veteran after nine years following his discharge or release; except that vocational rehabilitation may be afforded until October 15, 1971, if such person is eligible for rehabilitation by reason of a disability arising before October 15, 1962.

(3) Notwithstanding the preceding provisions of this paragraph, where a veteran is prevented from entering, or having entered, from completing vocational rehabilitation training for reasons set forth in subparagraphs (A) through (C) of subsection (c) (1) of section 1502, such training may be afforded him during a period not to exceed four years beyond the period otherwise applicable to him.

(4) The following criteria govern determinations on providing vocational rehabilitation training where two or more periods of service provide basic eligibility.

(i) For purposes of these determinations, periods of service which provide basic eligibility are:

(*a*) The period of World War II.

(*b*) The period between World War II and the Korean conflict.

(*c*) The period of the Korean conflict.

(*d*) The period following the Korean conflict.

(ii) When a veteran has been rehabilitated to overcome the handicap of a disability incurred in one period of service and requests vocational rehabilitation to overcome the disabling effects of a disability incurred in a later period of service, action will be taken as follows:

(*a*) First it will be determined whether the new disability prevents the veteran from or will be aggravated by pursuit of the occupation for which he was rehabilitated based on the period of previous service.

(*1*) If it is determined that the objective for which he was rehabilitated is suitable to the veteran's present disability, he may not be considered entitled to vocational rehabilitation training based on his recent period of service.

(*2*) If it is determined that the objective reached through his previous period of training is no longer suitable because of the disability incurred in his more recent period of service and need is determined to exist, he will be provided whatever vocational rehabilitation training is necessary to overcome the handicap of the disability incurred in his more recent period of service and under the policy governing training for that period.

(iii) When a veteran has interrupted a program of vocational rehabilitation to reenter military service and, following release from such service, requests reentrance into vocational rehabilitation to overcome the disabling effects of a disability incurred in his last period of service, action will be taken as follows:

(*a*) First, it will be determined whether the new disability would prevent the veteran from, or be aggravated by, pursuit of the occupation for which he was pursuing training based on the previous service.

(*1*) If it is determined that the objective for which he was previously enrolled is suitable to his present disability, he may be reentered into training for that same objective.

(*2*) If it is determined that the objective for which he was pursuing training, based on his previous period of service, is no longer suitable because of the disability incurred in his last period of service, he will be proyided vocational counseling to select another objective, determined to be compatible with the handicap incurred in his last period of service.

(c) *Determining need for vocational rehabilitation.* A veteran having eligibility based upon a disability which arose out of service between World War II and the Korean conflict, or after the Korean conflict, for whom training is medically feasible may be afforded training if found in need of vocational rehabilitation to overcome the handicap of a service-connected disability in accordance with the criteria of subparagraphs (1), (2), and (3) of this paragraph:

(1) A veteran whose disability is rated for compensation purposes at 30 per centum or more will be presumed to be in need of vocational rehabilitation unless there is convincing evidence that one of the conditions set forth in § 21.701 exists.

(2) A veteran whose disability rating for compensation purposes is less than 30 per centum will be presumed to be not in need of vocational rehabilitation unless there is convincing evidence that his disability causes a pronounced employment handicap. The veteran's employment potential will be explored and evaluated through vocational counseling. A finding that the veteran's disability causes a pronounced employment handicap will not be made, unless there is convincing evidence, supported by medical opinion, that training will be required to overcome the limiting effects of the disability and enable the veteran to obtain and hold employment which it may be expected will not aggravate the disability.

(3) The determination as to the existence of a pronounced employment handicap resulting from a disability rated 10 per centum or 20 per centum will require professional and technical judgment and medical consultation.

(i) Such determination may not be made if an evaluation of previous work history and training shows that the veteran is employed or employable in an occupation appropriate to his experience and training and compatible with the disability, i.e., it is not expected that the work will aggravate the disability nor will the disability seriously limit successful pursuit of the employment. It is emphasized that such factors as the veteran's aspirations, interests, and development to the maximum of his vocational potential will not be for consideration in determining the appropriateness of an occupation. (Instruction 1, 38 U.S.C. 1502(a), Public Law 87–815)

(72 Stat. 1114; 38 U.S.C. 210)

This regulation is effective November 24, 1962.

[SEAL] W. J. DRIVER,
Deputy Administrator.

[F.R. Doc. 62–11712; Filed, Nov. 23, 1962; 9:32 a.m.]

Title 41—PUBLIC CONTRACTS

Chapter 60—The President's Committee on Equal Employment Opportunity

PART 60–1—OBLIGATIONS OF GOVERNMENT CONTRACTORS AND SUBCONTRACTORS

Miscellaneous Amendments

Pursuant to Executive Order 10925 of March 6, 1961 (26 F.R. 1977), the President's Committee on Equal Employment Opportunity hereby amends Part 60–1 of Title 41 of the Code of Federal Regulations by making miscellaneous changes in §§ 60–1.2, 60–1.3, 60–1.5, and 60–1.24. The amendments are set forth below.

1. Section 60–1.2 is amended by changing paragraph (j) and adding paragraph (o). As amended § 60–1.2 (j) and (o) read as follows:

§ 60–1.2 Definitions.

* * * * *

(j) "Subcontractor" means any contractor holding a subcontract with a government prime contractor or another subcontractor calling for supplies or services required for the performance of a government prime contract. "First-tier subcontractor" refers to a subcontractor holding a subcontract with a government prime contractor.

* * * * *

(o) "Site of construction" means the physical location of a project covered by a contract or subcontract for construction, alteration and/or repair as well as temporary locations or facilities established specifically to meet the demands of such contract or subcontract.

2. Section 60–1.3 is amended by amending paragraph (a), redesignating it as subparagraph (1) of paragraph (a) and adding subparagraph (2). This section is further amended by adding subparagraph (10) to paragraph (b). As amended § 60–1.3 reads as follows:

§ 60–1.3 Contract agreements; exemptions.

(a) *Requirements of the Order*—(1) *General.* Each contracting agency shall include in each of its contracts or contract modifications the nondiscrimination provisions of section 301 of the Order unless the contract is exempt in accordance with the provisions of paragraph (b) of this section. Each contractor or first-tier subcontractor shall include paragraphs 1 through 6 of the contract clauses contained in section 301 of the Order in every subcontract or purchase order made in connection with the performance of the government contract, so that the provisions of section 301 will be binding upon each subcontractor or vendor with whom the contractor or first-tier subcontractor deals. Such necessary modifications in language may be made as shall be appropriate to identify properly the parties and their undertakings. Except as provided in subparagraph (2) of this paragraph, subcontractors below the first tier shall be required to insert the nondiscrimination provisions of section 301 of the Order in contracts which they may make in connection with the performance of a government contract only upon special order of the contracting agency or the Executive Vice Chairman. Subcontracts or purchase orders may incorporate by reference the nondiscrimination provisions of section 301 of the Order.

(2) *Contracts for construction, alteration and/or repair.* In connection with the performance of a government contract for construction, alteration and/or repair each subcontractor below the first tier shall include paragraphs 1 through 6 of the contract clauses contained in section 301 of the Order in every subcontract which calls for the performance of construction work at the site of construction, unless the subcon-

tract is exempt in accordance with the provisions of paragraph (b) of this section.

(b) *Exemptions* * * *

(10) *Contracts and subcontracts for an indefinite quantity.* Contracts and subcontracts for an indefinite quantity (including, without limitation, open-end contracts, requirement-type contracts, Federal Supply Schedule contracts, "call-type" contracts, and purchase notice agreements) which are not to extend for more than one year are exempt from the requirements of section 301 of the Order unless the contracting agency (or, in the case of subcontractors, the prime contractor or subcontractor issuing the subcontract) determines that the amounts to be ordered under any such contract or subcontract are reasonably expected to exceed $100,000 in the case of contracts or subcontracts for standard commercial supplies and raw materials, or $10,000 in the case of all other contracts and subcontracts. When determined not to be exempt from the requirements of section 301 of the Order, such contracts or subcontracts shall be subject to those requirements even though the amounts actually ordered do not exceed the appropriate dollar limitation. With respect to contracts or subcontracts for an indefinite quantity which are to extend for more than one year or continue indefinitely, the nondiscrimination provisions of section 301 of the Order shall be included unless the contracting agency (or, in the case of subcontracts, the prime contractor or subcontractor issuing the subcontract) knows in advance that the amounts to be ordered in any year under such contract or subcontract will not exceed the appropriate dollar limitation. When so included in any contract the applicability of the nondiscrimination provisions shall be determined by the contracting agency at the time of award for the first year, and at the end of each year for the succeeding year, based upon the amounts that are reasonably expected to be ordered during such year, and the contracting agency shall notify the contractor in writing when the nondiscrimination provisions are so determined to be applicable. In the case of subcontracts the appropriate determination and notification shall be made by the prime contractor or subcontractor issuing the subcontract. Once the nondiscrimination provisions are determined to be applicable, the contract or subcontract shall continue for its duration to be subject to such provisions, regardless of the amounts ordered, or reasonably expected to be ordered, in any succeeding year. Whenever it has been determined in accordance with the provisions of this subparagraph (10) that a contract or subcontract for an indefinite quantity is exempt from the requirements of the Order, or that such requirements are not to be applicable in any one year, such determination shall be controlling even though the amounts actually ordered exceed the appropriate dollar limitation.

3. Section 60–1.5 is amended by changing paragraph (a)(1) thereof. As amended § 60–1.5(a)(1) reads as follows:

§ 60–1.5 Compliance reports.

(a) *Requirements for contractors and subcontractors*—(1) *General.* The contracting agency shall require each contractor having a contract containing the provisions prescribed in section 301 of the Order to file, and each contractor shall cause each of its first-tier subcontractors not exempted by § 60–1.3 to file, compliance reports in accordance with instructions attached to the official compliance report forms. In addition, where appropriate to achieve the purposes of the Order, the instructions attached to the official compliance report forms may require that first-tier subcontractors and subcontractors below the first tier cause their subcontractors to file compliance reports in accordance with those instructions. Compliance reports shall be filed at the times specified by the instructions attached to such forms or at such other times as may be required by order of the Executive Vice Chairman. Compliance report forms may be obtained from the contracting agency or from the prime contractor. Among other things, the forms shall provide that whenever the contractor or subcontractor has a collective bargaining agreement or other contract or understanding with a labor union or other representative of employees, information shall be furnished as to the labor union or other workers' representative's practices and policies affecting compliance, and in connection therewith, shall request the union or workers' representative for any necessary data within its possession. Where such information is within the exclusive possession of a labor union or other workers' representative and the labor union or other workers' representative shall fail or refuse to furnish such information, the contractor or subcontractor shall so certify in his report and shall set forth what efforts he has made to obtain such information. When such failure or refusal is certified to a contracting agency, it shall immediately advise the Executive Vice Chairman. The contractihg agency, with the approval of the Executive Vice Chairman, may, in appropriate cases, extend the time for the filing of compliance reports.

4. Section 60–1.24 is amended by changing paragraph (c) thereof. As amended § 60–1.24(c) reads as follows:

§ 60–1.24 Processing of complaints by the contracting agency.

* * * * *

(c) *Report to the Executive Vice Chairman.* Within 60 days from receipt of a complaint by the contracting agency, or within such additional time as may be allowed by the Executive Vice Chairman for good cause shown, the agency shall process the complaint and submit to the Executive Vice Chairman the case record and a summary report containing the following information:

(1) Name and address of the complainant;

(2) Brief summary of findings;

(3) A statement of the disposition of the case, including any corrective action taken and any sanctions or penalties imposed under subsection (d) of section 312 of the Order, or, whenever appropriate, the recommended corrective action and sanctions or penalties.

(E.O. 10925, Mar. 6, 1961, 26 F.R. 1977)

Effective date. Because these amendments are within the public contracts exception to section 4 of the Administrative Procedure Act, and because of the desirability of prompt implementation of the provisions of Executive Order 10925, these amendments become effective immediately upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., this 20th day of November 1962.

HOBART TAYLOR, Jr.,
Executive Vice Chairman.

[F.R. Doc. 62–11703; Filed, Nov. 23, 1962; 8:51 a.m.]

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

[7 CFR Part 301]

WHITE-FRINGED BEETLE

Proposed Domestic Quarantine

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U.S.C. 1003) that the Administrator, Agricultural Research Service, pursuant to sections 8, 9 and 10 of the Plant Quarantine Act of 1912, as amended, and sections 105 and 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 164a, 150dd, 150ee), is considering amending notice of quarantine No. 72 relating to white-fringed beetles and the regulations supplemental to said quarantine (7 CFR 301.72, 301.72–1, 301.72–2, 301.72–3 through 301.72–11) to read as follows:

QUARANTINE

Sec.
301.72 Notice of quarantine.

REGULATIONS

301.72–1 Definitions.
301.72–2 Designation of regulated area.
301.72–3 Regulated articles; conditions of movement.
301.72–4 Use of certificates or limited permits with shipments.
301.72–5 Protecting certified articles.
301.72–6 Conditions governing the issuance of certificates and limited permits.
301.72–7 Assembly of articles for inspection.
301.72–8 Cancellation of certificates or limited permits.
301.72–9 Inspection and disposal.
301.72–10 Nonliability of Department.

QUARANTINE

§ 301.72 Notice of quarantine.

(a) Pursuant to section 8 of the Plant Quarantine Act of August 20, 1912, as amended (7 U.S.C. 161), and after public hearing, it has been determined that it is necessary to quarantine the States of Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee to prevent the spread of introduced species of the genus Graphognathus, commonly known as white-fringed beetles, dangerous insects injurious to cultivated crops and which have not heretofore been widely prevalent or distributed within and throughout the United States, and said States have been and hereby are continued to be quarantined because of said insects, and under the authority of said Act and the Federal Plant Pest Act, supplemental regulations are prescribed in this subpart governing the movement of carriers of said insects. Hereafter the following shall not be moved from the quarantined States into or through any other State, Territory, or District of the United States in manner or method, or under conditions other than those prescribed in the regulations as from time to time amended: (1) Forest, field, nursery, or greenhouse-grown woody or herbaceous plants with roots; (2) soil, compost, manure, peat, muck, clay, sand, or gravel, independently of or in connection with nursery stock, plants, plant products or other products or articles; (3) grass sod; plant crowns or roots for propagation; true bulbs, corms, tubers, and rhizomes of ornamental plants, when freshly harvested or uncured; potatoes (Irish) when freshly harvested; peanuts in shells, peanut shells and peanut hay; (4) uncleaned grass, grain and legume seed; hay (other than peanut hay), straw, seed cotton and cottonseed; (5) scrap metal and junk; brick, tile, stone; concrete slabs, pipes, and building blocks; and cinders; (6) forest products, such as cordwood, stump wood, logs, lumber, timbers, posts, poles, and cross ties; (7) used harvesting machinery and used construction and maintenance equipment; and (8) other farm products and farm equipment, trucks, wagons, railway cars, aircraft, boats, and other means of conveyance, used crates, boxes, and other used farm products containers, and, unlimited by the foregoing, any other products and articles of any character whatsoever, not covered by subparagraphs (1) through (7) of this paragraph, when it is determined in accordance with the regulations that they present a hazard of spread of white-fringed beetles. Moreover, movement of products and articles, designated above, form a quarantined State, or portion thereof, into or through another quarantined State, or portion thereof, may be restricted or prohibited under the regulations. The requirements of this quarantine and the regulations in this subpart, with respect to such products and articles shall be limited to the area in any quarantined State which may be designated as within the regulated area as provided in the regulations, as long as in the judgment of the Administrator of the Agricultural Research Service, the enforcement of the regulations as to such regulated area will be adequate to prevent the spread of white-fringed beetles; except that such limitation is further conditioned upon the affected State's providing regulations for and enforcing control of the movement within such State of live white-fringed beetles and the other regulated articles, under the same conditions as those which apply to their interstate movement under the provisions of the currently existing Federal quarantine regulations, and upon the State's providing regulations for and enforcing such sanitation measures with respect to such area or portions thereof as, in the judgment of said Administrator, are adequate to prevent the spread of white-fringed beetles within such State. Moreover, whenever the Director of the Plant Pest Control Division shall find that facts exist as to the pest risk involved in the movement of one or more of the products or articles to which the regulations apply, making it safe to modify, by making less stringent, the requirements contained in the regulations, he shall set forth and publish such finding in administrative instructions, specifying the manner in which the regulations should be made less stringent; whereupon such modification shall become effective for such period, and for all or such portion of such regulated area, and for such products and articles as shall be specified in said administrative instructions, and every reasonable effort shall be made to give publicity to such administrative instructions throughout the affected area.

(b) Regulations governing the movement of live white-fringed beetles are contained in Part 330 of this chapter. Applications for permits for movement of said pests may be made to the Director, Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, Washington 25, D.C., in accordance with said part.

(c) As used in this subpart, unless the context otherwise requires, the term "State, Territory, or District of the United States" means State, the District of Columbia, Guam, Puerto Rico, or the Virgin Islands of the United States.

REGULATIONS

§ 301.72–1 Definitions.

For the purposes of the provisions in this subpart, except where the context otherwise requires, the following terms shall be construed respectively to mean:

(a) *White-fringed beetle.* Species of the genus Graphognathus, in any stage of development.

(b) *Infestation.* The presence of white-fringed beetles.

(c) *Regulated area.* The counties, parishes and other minor civil divisions, or parts thereof, designated in administrative instructions under § 301.72–2 as regulated area.

(d) *Suppressive area.* That part of the regulated area where eradication may be undertaken as an objective, as designated in administrative instructions under § 301.72–2.

(e) *Generally infested area.* All of the regulated area, exclusive of the suppressive area, designated in administrative instructions under § 301.72–2.

(f) *Nursery stock.* Forest, field, nursery, or greenhouse-grown woody or herbaceous plants with roots.

(g) *Regulated articles.* Live white-fringed beetles and other products or articles of any character whatsoever, the movement of which is regulated by this quarantine (§ 301.72) and regulations supplemental thereto (§§ 301.72–1 to 301.72–10).

(h) *Inspector.* An inspector of the United States Department of Agriculture.

(i) *Moved (movement, move).* Shipped, offered for shipment to a common carrier, received for transportation

or transported by a common carrier, or carried, transported, moved, or allowed to be moved, interstate, directly or indirectly. "Movement" and "move" shall be construed accordingly.

(j) *Certificate.* A document evidencing compliance with the requirements of this subpart.

(k) *Master certificate.* A document, indicating the quantity and nature of the articles covered thereby, issued by an inspector for use with bulk or lot shipments of regulated articles by rail, boat, or road vehicle, authorizing their movement.

(l) *Limited permit.* A document authorizing the movement of regulated articles to a restricted destination for limited handling, utilization, or processing.

(m) *Dealer-carrier agreement.* An agreement to comply with stipulated conditions, executed by persons engaged in purchasing, assembling, exchanging handling, processing, utilizing, treating, or moving regulated articles.

(n) *Administrative instructions.* Documents relating to the enforcement of the provisions in this subpart issued under authority of such provisions by the Director of the Plant Pest Control Division, Agricultural Research Service.

(o) *Interstate.* From one State, Territory, or District of the United States into or through another.

§ 301.72–2 Designation of regulated area.

The Director of the Plant Pest Control Division, shall, from time to time, in administrative instructions promulgated by him, list the counties, parishes, and other minor civil divisions, or parts thereof, in the quarantined States, in which infestation has been determined to exist, or in which it has been determined infestation is likely to exist, or which it is deemed necessary to regulate because of their proximity to infestation or their inseparability for quarantine enforcement purposes from infested localities, and shall designate such civil divisions and parts thereof, as constituting the regulated area. Any civil division, or part thereof, so designated, shall continue in a regulated status until the Director of the Plant Pest Control Division shall have determined that adequate eradication measures have been practiced for a sufficient length of time to eradicate white-fringed beetles therein and that regulation of such area is not otherwise necessary under this section, and shall have issued administrative instructions revoking the designation of such civil division, or part thereof, as coming within the regulated area. The Director of the Plant Pest Control Division may, in said administrative instructions, divide the regulated area into a suppressive area and a generally infested area.

§ 301.72–3 Regulated articles; conditions of movement.

(a) *Designated articles.* Unless exempted by administrative instructions, the following may be moved from the regulated area into or through any point outside thereof, or from the generally infested area into or through the suppressive area, only if accompanied by a valid certificate or limited permit issued in compliance with § 301.72–6 and if the applicable requirements of §§ 301.72–4 and 301.72–5 are also met:

(1) Forest, field, nursery, or greenhouse-grown woody or herbaceous plants with roots.

(2) Soil, compost, manure, peat, muck, clay, sand, or gravel, independently of or in connection with nursery stock, plants, plant products, or other products or articles, except that the movement of processed sand and gravel is not regulated.

(3) Grass sod; plant crowns or roots for propagation; true bulbs, corms, tubers, and rhizomes of ornamental plants, when freshly harvested or uncured; potatoes (Irish) when freshly harvested; peanuts in shells, peanut shells and peanut hay.

(4) Uncleaned grass, grain and legume seed; hay (other than peanut hay), straw, seed cotton and cottonseed.

(5) Scrap metal and junk; brick, tile, stone; concrete slabs, pipes, and building blocks; and cinders.

(6) Forest products, such as cordwood, stump wood, logs, lumber, timbers, posts, poles, and cross ties.

(7) Used harvesting machinery and used construction and maintenance equipment.

However, regulated articles of kinds within this paragraph which originate outside of the regulated area and are moving through or are being reshipped from the regulated area, may be moved from the regulated area, and from the generally infested area into or through the suppressive area, without further restriction under this subpart, when their point of origin is clearly indicated, when their identity has been maintained, and when they have been safeguarded against infestation while in the regulated area in a manner satisfactory to an inspector and do not present a hazard of spread of white-fringed beetles. Otherwise such regulated articles shall be subject to all applicable requirements under this subpart for articles originating in the regulated area.

(b) *Articles determined to present hazards.* When it has been determined by an inspector that, due to contamination with white-fringed beetles, or any other reason, a hazard of spread of the beetles is presented by any products or articles of any character whatsoever, not covered by paragraph (a) of this section, notice of such fact shall be given to the person having custody thereof. Thereafter, such contaminated products and articles may be moved from the regulated area into or through any point outside thereof, or from the generally infested area into or through the suppressive area, only after they have been cleaned, treated or otherwise disinfected to the satisfaction of the inspector or after a limited permit authorizing such movement has been issued by the inspector.

§ 301.72–4 Use of certificates or limited permits with shipments.

Every container of regulated articles, or if there is none, the article itself, required to have a certificate or limited permit under § 301.72–3 shall have such certificate or permit securely attached to the outside thereof, when offered for movement under said section, except that where the regulated articles are adequately described on a certificate or limited permit attached to the waybill, the attachment of a certificate or limited permit to each container of the articles, or to the article itself, will not be required.

§ 301.72–5 Protecting certified articles.

Subsequent to certification as provided in § 301.72–6, regulated articles must be loaded, handled, and shipped, only under such protection and safeguards against infestation as are required by the inspector.

§ 301.72–6 Conditions governing the issuance of certificates and limited permits.

(a) *Certificates.* Certificates may be issued by the inspector for the movement of the regulated articles designated in § 301.72–3 under any one of the following conditions:

(1) When, in the judgment of the inspector, they have not been exposed to infestation.

(2) When they have been examined by the inspector and found to be free of infestation.

(3) When they have been treated under the observation of the inspector and in accordance with methods selected by him from administratively authorized procedures known to be effective under the conditions in which applied.

(4) When grown, produced, stored, or handled in such manner that, in the judgment of the inspector, no infestation would be transmitted thereby.

(b) *Limited permits.* Limited permits may be issued by the inspector for the movement of noncertified regulated articles under § 301.72–3 to specified destinations for limited handling, utilization, or processing.

(c) *Dealer-carrier agreement.* As a condition of issuance of certificates or limited permits for the movement of regulated articles, any person engaged in purchasing, assembling, exchanging, handling, processing, utilizing, treating, or moving such articles may be required to sign a dealer-carrier agreement stipulating that he will maintain such safeguards against the establishment and spread of infestation and comply with such conditions as to the maintenance of identity, handling, and subsequent movement of such articles, and the cleaning and treatment of means of conveyance and containers used in the transportation of such articles, as may be required by the inspector.

§ 301.72–7 Assembly of articles for inspection.

Persons intending to move any of the regulated articles under § 301.72–3 shall make application for inspection as far in advance as possible, shall so handle such articles as to safeguard them from infestation, and shall assemble them at such points and in such manner as the inspector shall designate to facilitate inspection.

§ 301.72–8 Cancellation of certificates or limited permits.

Certificates or limited permits for any regulated articles issued under the regulations in this subpart may be withdrawn or cancelled and further certificates or permits for such articles may be refused by the inspector whenever he determines that the further use of such certificates or permits might result in the spread of white-fringed beetles.

§ 301.72–9 Inspection and disposal.

Any properly identified inspector is authorized to stop and inspect, without a warrant, any person or means of conveyance moving from any State, Territory, or District of the United States into or through any other such State, Territory, or District and any plant pest and any product and article of any character whatsoever carried thereby, upon probable cause to believe that such means of conveyance, product, or article is infested or infected by or contains any plant pest or is moving subject to this subpart or any other regulations under the Federal Plant Pest Act or that such person or means of conveyance is carrying any plant pest subject to that act, and to stop and inspect, without a warrant, any means of conveyance so moving, upon probable cause to believe it is carrying any product or article prohibited or restricted movement under the Plant Quarantine Act or any quarantine or order thereunder. Such inspector is authorized to seize, destroy, or otherwise dispose of, or require disposal of, products, articles, means of conveyance, and plant pests in accordance with section 105 of the Federal Plant Pest Act and section 10 of the Plant Quarantine Act.

§ 301.72–10 Nonliability of Department.

The United States Department of Agriculture disclaims liability for any cost incident to inspection or treatment required under the provisions in this subpart other than for the services of the inspector.

(Secs. 8, 9, 10, 37 Stat. 318–319, as amended, secs. 105, 106, 71 Stat. 32, 33; 7 U.S.C. 161, 162, 164a, 150dd, 150ee; 19 F.R. 74, as amended)

At a public hearing held in Memphis, Tennessee, December 6, 1961, consideration was given to the advisability of adding the States of Arkansas, Kentucky, and Virginia to the quarantined States designated in the notice of quarantine. The testimony presented at this hearing established that in 1960, small infestations of white-fringed beetles were found in Kentucky and Virginia, and that in the same year the soil in the infested area in these States, together with adequate surrounding margins, was treated with sufficient insecticide dosages to eradicate the white-fringed beetle infestations. No beetles were found in the treated area in 1961. While the infested area in Arkansas was more extensive, treatment of the soil with insecticides was begun with the finding of the first infestation in 1959. Insecticides sufficient to eradicate the white-fringed beetle have now been applied to those parts of four counties in Arkansas where infestations had been found. In view of the foregoing, the three States of Arkansas, Kentucky, and Virginia, are not added to the quarantined States designated in the proposed notice of quarantine.

The proposed revision would make several changes in the notice of quarantine and regulations, the most important of which are: Authorization for the issuance of administrative instructions dividing the regulated area into a suppressive area where measures to eradicate infestation may be conducted, and a generally infested area; movement of regulated articles from a generally infested area into or through a suppressive area, would be subject to the same requirements as apply to their movement from the regulated area into or through any point outside thereof; and also, used harvesting machinery, and used construction and maintenance equipment would be added to the list of designated articles which may not be moved unless accompanied by a certificate. Furthermore, other farm products and farm equipment, wagons, aircraft, boats, used crates, boxes, and other used farm products containers, would be added to the list of articles specifically designated as regulated in the notice of quarantine. Provision would also be made for the compulsory treatment prior to their movement, of articles with respect to which certification is not required under the regulations, when it is determined that a hazard of spread of white-fringed beetles is presented by such articles. Many of the changes are proposed for the purpose of conforming the phraseology of the notice of quarantine and the regulations as closely as practicable with similar domestic plant quarantine notices and regulations.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Director of the Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, Washington 25, D.C., within 30 days after the date of the publication of this notice in the FEDERAL REGISTER.

Done at Washington, D.C., this 16th day of November, 1962.

[SEAL] B. T. SHAW,
Administrator,
Agricultural Research Service.

FEDERAL AVIATION AGENCY

[14 CFR Parts 75 [New], 602]

[Airspace Docket No. 62–EA–43]

JET ROUTES AND JET ADVISORY AREA

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 11.65), notice is hereby given that the Federal Aviation Agency (FAA) is considering amendments to Part 602 of the regulations of the Administrator (Part 75 [New] of the Federal Aviation Regulations, effective December 12, 1962, 27 F.R. 10352), the substance of which is stated below.

Jet Route No. 75 is presently designated in part from the Gordonsville, Va., VORTAC via the Allentown, Pa., VORTAC to the Albany, N.Y., VORTAC. The FAA has under consideration the realignment of this segment of J–75 and its associated jet advisory area from the Gordonsville VORTAC via the Huguenot, N.Y., VORTAC to the Albany VORTAC.

Jet Route No. 77 is presently designated in part from the Gordonsville VORTAC via the Allentown VORTAC and the Idlewild, N.Y., VORTAC to the Boston, Mass., VORTAC. The FAA has under consideration the realignment of this segment of J–77 and its associated jet advisory area from the Gordonsville VORTAC via the Huguenot VORTAC to the Boston VORTAC.

The realignment of J–77 would provide a route between Gordonsville and Boston which would bypass the New York Metropolitan area. The realignment of J–75 would cause it to coincide with J–77 between Gordonsville and Huguenot.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Eastern Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within thirty days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room A–103, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on November 16, 1962.

CLIFFORD P. BURTON,
Chief,
Airspace Utilization Division.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 563]

[No. FSLIC–1,480]

OPERATIONS

Proposed Loans to One Borrower

NOVEMBER 16, 1962.

Resolved that, pursuant to Part 508 of the general regulations of the Federal Home Loan Bank Board (12 CFR Part 508) and § 567.1 of the rules and regulations for Insurance of Accounts (12 CFR 567.1), it is hereby proposed that Part 563 of the rules and regulations for Insurance of Accounts (12 CFR Part 563) be amended by an amendment the substance of which is as follows:

Part 563 aforesaid is hereby amended by adding thereto, immediately after § 563.9–2, the following new section:

§ 563.9–3 Loans to one borrower.

(a) *Definition of terms.* For the purposes of this section the term "one borrower" means (1) any person or entity that is, or that upon the making of a loan will become, obligor on a loan on the security of real estate, (2) nominees of such obligor, (3) all persons, trusts, partnerships, syndicates, and corporations of which such obligor is a nominee or a beneficiary, partner, member, or record or beneficial stockholder owning 10 percent or more of the capital stock, and (4) if such obligor is a trust, partnership, syndicate, or corporation, all trusts, partnerships, syndicates, and corporations of which any beneficiary, partner, member, or record or beneficial stockholder owning 10 percent or more of the capital stock, is also a beneficiary, partner, member, or record or beneficial stockholder owning 10 percent or more of the capital stock of such obligor; and the term "total balances of all outstanding loans" means the original amounts loaned by an insured institution plus any additional advances and interest due and unpaid, less repayments and participating interests sold and exclusive of any loan on the security of real estate the title to which has been conveyed to a bona fide purchaser of such real estate.

(b) *Limitations.* An insured institution shall not make a loan on the security of real estate to one borrower, as defined in paragraph (a) of this section, if the sum of (1) the amount of such loan and (2) the total balances of all outstanding loans on the security of real estate owed to such institution by such borrower exceeds an amount equal to 10 percent of such institution's withdrawable accounts or an amount equal to the sum of such institution's non-withdrawable accounts, surplus, undivided profits, and reserves for losses, whichever amount is less: *Provided,* That, notwithstanding any other limitation of this sentence, any such loan may be made if the sum of subparagraphs (1) and (2) of this paragraph does not exceed $100,000.

(c) *Determination by institution; maintenance of records.* If an insured institution makes a loan to any one borrower, as defined in paragraph (a) of this section, in an amount which, when added to the total balances of all outstanding loans on the security of real estate owed to such institution by such borrower, exceeds $100,000, the records of such institution with respect to such loan shall include documentation showing that such loan was made within the limitations of paragraph (b) of this section; for the purpose of such documentation such institution may require, and may accept in good faith, a certification by the borrower identifying the persons, entities, and interests described in the definition of one borrower in paragraph (a) of this section.

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR 1947 Supp.)

Resolved further that all interested persons are hereby given the opportunity to submit written data, views, or arguments on the following subjects and issues: (1) Whether said proposed amendment should be adopted as proposed; (2) whether said proposed amendment should be modified and adopted as modified; (3) whether said proposed amendment should be rejected. All such written data, views, or arguments must be received through the mail or otherwise at the office of the Secretary, Federal Home Loan Bank Board, Federal Home Loan Bank Board Building, 101 Indiana Avenue NW., Washington 25, D.C., not later than December 27, 1962, to be entitled to be considered, but any received later may be considered in the discretion of the Federal Home Loan Bank Board.

By the Federal Home Loan Bank Board.

[SEAL] HARRY W. CAULSEN, *Secretary.*

Notices

DEPARTMENT OF THE TREASURY

Coast Guard

[CGFR 62–40]

EQUIPMENT, INSTALLATIONS, OR MATERIALS

Approval and Termination of Approval Notice

1. Various items of lifesaving, fire-fighting and miscellaneous equipment, installations, and materials used on merchant vessels subject to Coast Guard inspection or on certain motorboats and other pleasure craft are required by law and various regulations in 46 CFR Chapter I to be of types approved by the Commandant, United States Coast Guard. The procedures governing the granting of approvals, and the cancellation, termination or withdrawal of approvals are set forth in 46 CFR 2.75–1 to 2.75–50, inclusive. For certain types of equipment, installations, and materials, specific specifications have been prescribed by the Commandant and are published in 46 CFR Parts 160 to 164, inclusive (Subchapter Q—Specifications), and detailed procedures for obtaining approvals are also described therein.

2. The Commandant's approval of a specific item is intended to provide a control over its quality. Therefore, such approval applies only to the item considered or installed in accordance with the applicable requirements and the details described in the specific approval. If a specific item when manufactured does not comply with the details in the approval, then such item is not considered to have the Commandant's approval, and the certificate of approval issued to the manufacturer does not apply to such modified item. For example, if an item is manufactured with changes in design or material not previously approved, the approval does not apply to such modified item.

3. After a manufacturer has submitted satisfactory evidence that a particular item complies with the applicable laws and regulations, a Certificate of Approval (Form CGHQ–10030) will be issued to the manufacturer certifying that the item specified complies with the applicable laws and regulations and approval is given, which will be in effect for a period of 5 years from the date given unless sooner canceled or suspended by proper authority.

4. The purpose of this document is to notify all concerned that certain approvals were granted and terminations of approvals were made, as described in this document, during the period from September 10 to October 2, 1962. These actions were taken in accordance with procedures set forth in 46 CFR 2.75–1 to 2.75–50, inclusive

5. The delegations of authority for the Coast Guard's actions with respect to approvals may be found in Treasury Department Orders 120 dated July 31, 1950 (15 F.R. 6521), 167–14 dated November 26, 1954 (19 F.R. 8026), 167–15 dated January 3, 1955 (20 F.R. 840), 167–20 dated June 18, 1956 (21 F.R. 4894), CGFR 56–28 dated July 24, 1956 (21 F.R. 5659), or 167–38 dated October 26, 1959 (24 F.R. 8857), and the statutory authority may be found in R.S. 4405, as amended, 4462, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 17, 54 Stat. 166, as amended, sec. 3, 54 Stat. 346, as amended, sec. 3, 70 Stat. 152 (46 U.S.C. 375, 416, 481, 489, 367, 526p, 1333, 390b), sec. 4(e), 67 Stat. 462 (43 U.S.C. 1333), or sec. 3(c), 68 Stat. 675 (40 U.S.C. 198), and implementing regulations in 46 CFR Chapter I or 33 CFR Chapter I.

6. In Part I of this document are listed the approvals granted which shall be in effect for a period of 5 years from the dates granted, unless sooner canceled or suspended by proper authority.

7. In Part II of this document are listed the approvals which have been terminated. Notwithstanding this termination of approvals of the items of equipment as listed in Part II such equipment may be used so long as such equipment is in good and serviceable condition.

PART I—APPROVALS OF EQUIPMENT, INSTALLATIONS, OR MATERIALS

HATCHETS (LIFEBOAT AND LIFERAFT)

Approval No. 160.013/2/1, No. 0 size hatchet, True American, dwg. dated August 8, 1962, manufactured by Mann Edge Tool Co., Lewiston, Pennsylvania, effective September 14, 1962. (It reinstates and supersedes Approval No. 160.013/2/0 which expired July 31, 1962.)

COMPASSES, LIFEBOAT

Approval No. 160.014/7/0, Model 34–1000, compensating mariners liquid-filled magnetic lifeboat compass with mounting, assembly dwg. No. 34–1000 dated January 22, 1946, manufactured by Kenyon Instrument Co., Inc., Brewster, New York, effective September 30, 1962. (It is an extension of Approval No. 160.014/7/0 dated September 30, 1957, and published in FEDERAL REGISTER January 22, 1958.)

BUOYANT CUSHIONS, UNICELLULAR PLASTIC FOAM

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.049/31/4, Group approval for rectangular and trapezoidal unicellular plastic foam buoyant cushions with vinyl dip coatings, sizes to be as per Table 160.049–4(c)(1) and dwgs. No. 2 dated June 3, 1960, and No. 1–B dated August 1, 1962, and revised September 5, 1962, with Bill of Material dated February 13, 1962, manufactured by Jones & Yandell Division, American Tent Co., P.O. Box 270, Canton, Mississippi, effective September 14, 1962. (It supersedes Approval No. 160.049/31/3 dated February 26, 1962.)

BUOYANT VESTS, UNICELLULAR PLASTIC FOAM, ADULT AND CHILD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.052/171/0, Type II, Model No. 100, adult unicellular plastic foam buoyant vest, dwg. No. 1 dated June 25, 1962, Rev. 2 dated September 14, 1962, manufactured by Bulldog Marine Products, Inc., 5825 S. Western Avenue, Chicago 36, Illinois (Plant: Griffith, Indiana), effective September 24, 1962.

Approval No. 160.052/172/0, Type II, Model No. 200, child, medium, unicellular plastic foam buoyant vest, dwg. No. 2 dated June 25, 1962, Rev. 2 dated September 14, 1962, manufactured by Bulldog Marine Products, Inc., 5825 S. Western Avenue, Chicago 36, Illinois (Plant: Griffith, Indiana), effective September 24, 1962.

Approval No. 160.052/173/0, Type II, Model No. 300, child, small, unicellular plastic foam buoyant vest, dwg. No. 3 dated June 25, 1962, Rev. 2 dated September 14, 1962, manufactured by Bulldog Marine Products, Inc., 5825 S. Western Avenue, Chicago 36, Illinois (Plant: Griffith, Indiana), effective September 24, 1962.

Approval No. 160.052/180/0, Type II, Model 242, adult, unicellular plastic foam buoyant vest, Jones & Yandell dwg. JV–L No. 3 dated August 16, 1961, manufactured by Jones & Yandell Division, American Tent Co., P.O. Box 270, Canton, Mississippi, for The American Pad & Textile Co., Greenfield, Ohio, effective September 10, 1962.

Approval No. 160.052/181/0, Type II, Model 244, child, medium, unicellular plastic foam buoyant vest, Jones & Yandell dwg. JV–M No. 3 dated August 16, 1961, manufactured by Jones & Yandell Division, American Tent Co., P.O. Box 270, Canton, Mississippi, for The American Pad & Textile Co., Greenfield, Ohio, effective September 10, 1962.

Approval No. 160.052/182/0, Type II, Model 244, child, small, unicellular plastic foam buoyant vest, Jones & Yandell dwg. JV–S No. 3 dated August 16, 1961, manufactured by Jones & Yandell Division, American Tent Co., P.O. Box 270, Canton, Mississippi, for The American Pad & Textile Co., Greenfield, Ohio, effective September 10, 1962.

FLAME ARRESTERS, BACKFIRE (FOR CARBURETORS)

Approval No. 162.015/71/0, Model 4–5–150–6, backfire flame arrester for carburetors, dwg. No. 4–5–150–6, Marine Flame Arrester, dated August 8, 1962, manufactured by Fisher Industries, 1625 West Maple Road, Troy, Michigan, effective September 14, 1962.

VALVES, PRESSURE-VACUUM RELIEF AND SPILL

Approval No. 162.017/94/0, Model No. 53–35F pressure-vacuum relief valve, enclosed pattern, flanged inlet, weight-loaded discs, bronze construction, dwg. No. E–11002 dated March 27, 1962, approved for five-inch pipe size, manufactured by Tate Engineering, Inc., 516 South Eutaw Street, Baltimore 1, Maryland, effective September 14, 1962.

FIRE EXTINGUISHING SYSTEMS, FOAM TYPE

Approval No. 162.033/4/1 "Pyrene Marine Air Foam Systems" using Pyrene Foam Compound, Type R–5 (3 percent low expansion), design data book RMT–36, Rev. 3 dated July 18, 1962, manufactured by The Fyr-Fyter Co., 221 Crane Street, Dayton 1, Ohio (Plant: Newark, New Jersey), effective September 14, 1962. (It supersedes Approval No. 162.033/4/0 dated May 15, 1962.)

PUMPS, BILGE, LIFEBOAT

Approval No. 160.044/4/1, Size No. 2 lifeboat bilge pump, identified by general assembly dwg. No. 222–A dated August 8, 1944, and revised August 27, 1962, manufactured by Allied Marine Equipment Corp., Division Tap-Rite Products Corp., 204 Railroad Avenue, Hackensack, New Jersey, effective September 14, 1962. (It supersedes Approval No. 160.044/4/0 dated November 22, 1957.)

DECK COVERINGS

Approval No. 164.006/3/1, "Asbestolith" magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TG–3610–1214: FR 1778 dated July 2, 1940, approved for use without other insulating material as meeting Class A–60 requirements in a 1½-inch thickness, manufactured by Asbestolith Manufacturing Corp., 257 Kent Street, Brooklyn 22, New York, effective September 30, 1962. (It is an extension of Approval No. 164.006/3/1 dated September 30, 1957, and published in FEDERAL REGISTER January 22, 1958.)

PART II—TERMINATIONS OF APPROVAL OF EQUIPMENT, INSTALLATIONS, OR MATERIALS

BOILERS (HEATING)

Termination of Approval No. 162.003/23/1, Model No. 29M2, steel plate steam heating boiler, dwg. No. 266.091, revision F, dated May 20, 1952, maximum design pressure 30 p.s.i., approval limited to bare boiler, manufactured by Pacific Steel Boiler Division of Crane Corp., P.O. Box 780, Johnstown, Pennsylvania, effective October 2, 1962. (It is an extension of Approval No. 162.003/23/1 dated July 17, 1957, published in FEDERAL REGISTER August 31, 1957, and a change of name and address of manufacturer. Approval terminated October 2, 1962, since item is no longer manufactured.)

Termination of Approval No. 162.003/24/1, Model No. 29M3, steel plate steam heating boiler, dwg. No. 266.091, revision F, dated May 20, 1952, maximum design pressure 30 p.s.i., approval limited to bare boiler, manufactured by Pacific Steel Boiler Division of Crane Corp., P.O. Box 780, Johnstown, Pennsylvania, effective October 2, 1962. (It is an extension of Approval No. 162.003/24/1 dated July 17, 1957, published in FEDERAL REGISTER August 31, 1957, and a change of name and address of manufacturer. Approval terminated October 2, 1962, since item is no longer manufactured.)

Termination of Approval No. 162.003/25/1, Model No. 29M4, steel plate steam heating boiler, dwg. No. 266.091, revision F, dated May 20, 1952, maximum design pressure 30 p.s.i., approval limited to bare boiler, manufactured by Pacific Steel Boiler Division of Crane Corp., P.O. Box 780, Johnstown, Pennsylvania, effective October 2, 1962. (It is an extension of Approval No. 162.003/25/1 dated July 17, 1957, published in FEDERAL REGISTER August 31, 1957, and a change of name and address of manufacturer. Approval terminated October 2, 1962, since item is no longer manufactured.)

Termination of Approval No. 162.003/37/1, Model No. 33M1, steel plate steam heating boiler, dwg. No. 264.091, revision E, dated May 20, 1952, maximum design pressure 30 p.s.i., approval limited to bare boiler, manufactured by Pacific Steel Boiler Division of Crane Corp., P.O. Box 780, Johnstown, Pennsylvania, effective October 2, 1962. (It is an extension of Approval No. 162.003/37/1 dated July 17, 1957, published in FEDERAL REGISTER August 31, 1957, and a change of name and address of manufacturer. Approval terminated October 2, 1962, since item is no longer manufactured.)

Termination of Approval No. 162.003/38/1, Model 33M2, steel plate steam heating boiler, dwg. No. 264.091, revision E, dated May 20, 1952, maximum design pressure 30 p.s.i., approval limited to bare boiler, manufactured by Pacific Steel Boiler Division of Crane Corp., P.O. Box 780, Johnstown, Pennsylvania, effective October 2, 1962. (It is an extension of Approval No. 162.003/38/1 dated July 17, 1957, published in FEDERAL REGISTER August 31, 1957, and a change of name and address of manufacturer. Approval terminated October 2, 1962, since item is no longer manufactured.)

Termination of Approval No. 162.003/39/1, Model No. 33M3, steel plate steam heating boiler, dwg. No. 264.091, revision E, dated May 20, 1952, maximum design pressure 30 p.s.i., approval limited to bare boiler, manufactured by Pacific Steel Boiler Division of Crane Corp., P.O. Box 780, Johnstown, Pennsylvania, effective October 2, 1962. (It is an extension of Approval No. 162.003/39/1 dated July 17, 1957, published in FEDERAL REGISTER August 31, 1957, and a change of name and address of manufacturer. Approval terminated October 2, 1962, since item is no longer manufactured.)

Termination of Approval No. 162.003/40/1, Model No. 33M4, steel plate steam heating boiler, dwg. No. 264.091, revision E, dated May 20, 1952, maximum design pressure 30 p.s.i., approval limited to bare boiler, manufactured by Pacific Steel Boiler Division of Crane Corp., P.O. Box 780, Johnstown, Pennsylvania, effective October 2, 1962. (It is an extension of Approval No. 162.003/40/1 dated July 17, 1957, published in FEDERAL REGISTER August 31, 1957, and a change of name and address of manufacture. Approval terminated October 2, 1962, since item is no longer manufactured.)

Termination of Approval No. 162.003/41/1, Model No. 40M1, steel plate steam heating boiler, dwg. No. 265.091, revision E, dated May 20, 1952, maximum design pressure 30 p.s.i., approval limited to bare boiler, manufactured by Pacific Steel Boiler Division of Crane Corp., P.O. Box 780, Johnstown, Pennsylvania, effective October 2, 1962. (It is an extension of Approval No. 162.003/41/1 dated July 17, 1957, published in FEDERAL REGISTER August 31, 1957, and a change of name and address of manufacturer. Approval terminated October 2, 1962, since item is no longer manufactured.)

Dated: November 15, 1962.

[SEAL] D. McG. MORRISON,
Vice Admiral, U.S. Coast Guard,
Acting Commandant.

[F.R. Doc. 62–11644; Filed, Nov. 23, 1962; 8:48 a.m.]

POST OFFICE DEPARTMENT

ORGANIZATION AND ADMINISTRATION

Miscellaneous Amendments

The statement of the Department's Organization and Administration, as published in the FEDERAL REGISTER of September 11, 1962, at pages 8982 through 9007, is amended by making the following changes:

I. In 823.441, amend paragraph (2) to read as follows:

.441 *Installations Management Division.*

* * * * *

(2) *Organization and Management Branch.* (a) Develops and issues standards governing the organization, management, staffing, and proper utilization of manpower for post offices and subunits thereof. For mobile units, airport mail facilities, transfer offices and truck terminals, development and issuance of standards governing the organization, management and staffing is the responsibility of the Bureau of Transportation.

(b) Determines and allocates the number and kinds of positions, including supervisory and administrative, required at postal installations. See 823.5g regarding the staffing of mobile units, airport mail facilities, transfer offices and truck terminals.

(c) Maintains control over clerical and mail handling allocations for post offices and subunits thereof; insures proper supervisory-employee ratios.

(d) Analyzes and evaluates manpower usage in post offices; recommends corrective action when indicated.

(e) Develops and issues policies and procedures for the provision of general delivery, lockbox, and window services in post offices.

(f) Reviews regional recommendations for supervisory promotions; reviews

disciplinary cases involving clerical and mail handler personnel in post offices.

(g) Establishes criteria for the general management of the military postal service, the establishment, discontinuance, and conversion of military post offices, branches, and stations, and the appointment of military postal clerks.

(h) Develops systems, procedures, and controls governing the shipment of stamp stock and other accountable paper by regional distributing post offices; recommends changes in operation, including establishment or discontinuance, of units established as accountable paper depositories and designated regional distributing post offices.

II. In 823.5, add a new paragraph (g) to read as follows:

.5 *Assistant Postmaster General, Bureau of Transportation.* * * *

(g) Establishes and issues standards for the organizational form and staffing of mobile units, airport mail facilities, transfer offices, and truck terminals.

III. In 823.522, amend paragraph (3) to read as follows:

.522 *Distribution and Routing Division.* * * *

(3) *Transit Organization Control Branch.* (a) Develops and recommends action on the following:

i. Policies and instructions for the general field management of RPOs, HPOs, AMFs, transfer offices, and truck terminals.

ii. Procedures and systems for internal mail handling in RPOs, HPOs, AMFs, transfer offices, and truck terminal type installations. Coordinates with the Bureau of Operations when these units are an integral part of the local post office.

iii. Staffing requirements for the efficient management of RPOs, HPOs, AMFs, transfer offices, and truck terminals by field installations.

iv. Standards for the supervisory organization in RPOs, HPOs, AMFs, transfer offices, and truck terminals, including determination of the number and kind of supervisory positions required.

v. Clerical and mail handler staffing standards in RPOs, HPOs, AMFs, transfer offices and truck terminals.

(b) Obtains concurrence of Bureau of Operations on actions proposing supervisory increases in complements of mobile unit sections, airport mail facilities, transfer offices, and truck terminals.

(c) Appraises operating efficiency of RPOs, HPOs, AMFs, transfer offices, and truck terminals through periodic analysis of inspection, trip observation, mail volume, and special reports

(d) Makes periodic analysis of delayed mail reports (Form 5339) and recommends changes to assure completion of essential distribution in mobile units.

(R.S. 161, as amended, 5 U.S.C. 22, 39 U.S.C. 309, 501)

LOUIS J. DOYLE,
General Counsel.

Bureau of Indian Affairs

[Bureau Order 551, Amdt. 77]

ATTORNEY CONTRACTS

Redelegation of Authority

NOVEMBER 16, 1962.

Order 551 (16 F.R. 2939), as amended, is further amended by the addition of a new section under the heading "Functions Relating to Funds and Fiscal Matters," to read as follows:

SEC. 272. *Attorney contracts.* Except for those matters concerning proposed compromises and settlements of claims before the Indian Claims Commission and the Court of Claims, payment of fees and reimbursement of expenses from an award of the Indian Claims Commission and the Court of Claims, and directly related contracts with technical specialists, the approval of attorney contracts and other contracts with Indian tribes and the payment of fees and expenses thereunder pursuant to 25 U.S.C. 81, 82, and 84, and section 16 of the Act of June 18, 1934 (48 Stat. 984, as amended; 25 U.S.C. 476).

PHILLEO NASH,
Commissioner.

Bureau of Land Management

[Classification 102]

ALASKA

Small Tract Classification; Amendment

NOVEMBER 16, 1962.

1. Pursuant to the authority redelegated to me from Bureau Order No. 684, dated August 28, 1961 (26 F.R. 6215), as amended, by the Alaska State Director in section 2(c) of a memorandum dated December 1, 1961, I hereby amend, in part, paragraph four of Small Tract Classification Order No. 102, dated June 27, 1955 (Federal Register Document 55-5455), insofar as it affects the appraisal price and advance rental of the two Lots described below, to read as follows:

FAIRBANKS AREA—FIELDING LAKE SMALL TRACT UNIT

U.S. Survey 3299

	Appraisal price	*Advance rental*
Tract 2:		
Lot 15	$500.00	$50.00
Tract 3:		
Lot 23	500.00	50.00

2. The remainder of the Classification Order is unchanged.

3. This amendment will take effect immediately.

ROBERT J. COFFMAN,
Chief, Division of Lands and Minerals Management.

[F.R. Doc. 62-11648; Filed, Nov. 23, 1962; 8:48 a.m.]

Bureau of Mines

NEGOTIATED PURCHASES AND CONTRACTS

Delegations of Authority

Chapter 215.1 of the Bureau of Mines Manual is amended to authorize certain officials to negotiate contracts and purchases. The following material is a portion of the Bureau Manual:

.1 *Redelegations under Federal Property and Administrative Services Act.* The officers and employees designated in this Chapter are severally authorized, subject to the provisions of 205 DM 11, to exercise the following authority under the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 252 et seq.) This authority includes the negotiation, without advertising, of purchases and contracts for supplies and services, when it is determined that the facts are such as to bring the particular purchase or contract within the cited provisions of the act.

A. *Subsection 302(c)(1).* Determined to be necessary in the public interest during the period of a national emergency declared by the President or by the Congress.

B. *Subsection 302(c)(2).* Public exigency will not admit of the delay incident to advertising.

C. *Subsection 302(c)(3).* Aggregate amount involved does not exceed $2500.

D. *Subsection 302(c)(4).* Personal or professional services.

E. *Subsection 302(c)(5).* Services rendered by any university, college, or other educational institution, excluding developmental or research work.

F. *Subsection 302(c)(6).* Property or services are to be procured and used outside the limits of the United States and its possessions.

G. *Subsection 302(c)(7).* Medicines or medical property.

H. *Subsection 302(c)(8).* Property purchased for authorized resale.

I. *Subsection 302(c)(9).* Perishable or nonperishable subsistence supplies.

J. *Subsection 302(c)(10).* Property or services for which it is impracticable to secure competition.

K. *Subsection 302(c)(13).* For technical equipment in special situations or in particular localities in order to assure standardization of equipment and interchangeability of parts; *Provided,* That a Secretarial officer first determines that procurement of the technical equipment without advertising is necessary (205 DM 11.4C(2)(b)).

L. *Subsection 302(c)(14).* Property or services as to which determination is made that bid prices after advertising are not reasonable (either as to all or part of the requirements) or have not been arrived at in open competition; *Provided,* That no negotiated purchase or contract may be entered into under this subsection after the rejection of all or some of the bids unless (1) notice of intent to negotiate and reasonable opportunity to negotiate shall have been given to each responsible bidder and (2)

the negotiated price is the lowest negotiated price offered by any responsible supplier.

M. *Exercise of authority.*

(1) Assistant Directors, Headquarters Chief, Division of Administration and Headquarters Chief, Branch of Procurement and Property Management, may exercise all of the above authorities, limited to $200,000 as to any one contract.

(2) Regional Directors may exercise all of the above authorities except subsections 302(c) (5) and (13), in amounts not exceeding $100,000, unless otherwise limited as to amount.

N. *Redelegation.* The authority granted in this Chapter may not be redelegated.

MARLING J. ANKENY,
Director, Bureau of Mines.

[F.R. Doc. 62-11630; Filed, Nov. 23, 1962; 8:46 a.m.]

Office of the Secretary

[Order 2508, Amdt. 52]

BUREAU OF INDIAN AFFAIRS

Delegation of Authority

Paragraph (f), as amended (17 F.R. 1570; 25 F.R. 831), of section 11 of Order 2508 is further amended to read as follows:

SEC. 11. *Funds and fiscal matters.* The Commissioner may exercise the authority of the Secretary in relation to the following classes of matters:

* * * * *

(f) The approval of attorney contracts with Indian tribes and of directly related tribal contracts with technical specialists, and the determination of fees and expenses thereunder, pursuant to 25 U.S.C. 81, 82, 84, and 476.

* * * * *

The authority delegated to the Solicitor to approve attorney contracts with Indian tribes (25 F.R. 831) and appearing in 210 DM 2.2A(10) is revoked.

STEWART L. UDALL,
Secretary of the Interior.

NOVEMBER 16, 1962.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

IDENTIFICATION OF CARCASSES OF CERTAIN HUMANELY SLAUGHTERED LIVESTOCK

Supplemental List of Humane Slaughterers

Pursuant to section 4 of the Act of August 27, 1958 (7 U.S.C. 1904), and the statement of policy thereunder in 9 CFR Part 181.1 the following table lists additional establishments operated under Federal inspection under the Meat Inspection Act (21 U.S.C. 71 et seq.) which have been officially reported as humanely slaughtering and handling the species of livestock respectively designated for such establishments in the table. This list supplements the lists previously published under the Act (27 F.R. 10662 and 11245) for October and represents those establishments and species which were reported too late to be included in the earlier lists or which have come into compliance with respect to species indicated since the completion of the reports on which the earlier lists were based. The establishment number given with the name of the establishment is branded on each carcass of livestock inspected at that establishment. The table should not be understood to indicate that all species of livestock slaughtered at a listed establishment are slaughtered and handled by humane methods unless all species are listed for that establishment in the table. Nor should the table be understood to indicate that the affiliates of any listed establishment use only humane methods:

Agricultural Stabilization and Conservation Service

EXECUTIVE DIRECTORS OF STATE COMMITTEES

Representatives of the Secretary of Agriculture

Administrative Officers of Agricultural Stabilization and Conservation State Committees were designated to act as Representatives of the Secretary of Agriculture, effective April 28, 1961 (26 F.R. 3900). Subsequent thereto (August 9, 1961), the title of Administrative Officer of Agricultural Stabilization and Conservation State Committees was changed to Executive Director. The persons holding these positions (formerly under the title of Administrative Officer and now under the title of Executive Director) were and continue to be authorized to act as Representatives of the Secretary of Agriculture and their authority to act as such Representatives of the Secretary of Agriculture pursuant to the designation of April 28, 1961, is hereby ratified.

Dated: November 19, 1962.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

[F.R. Doc. 62-11652; Filed, Nov. 23, 1962; 8:49 a.m.]

Commodity Credit Corporation

EXECUTIVE DIRECTORS OF AGRICULTURAL STABILIZATION AND CONSERVATION STATE COMMITTEES

Contracting Officers of Commodity Credit Corporation

The Executive Vice President, Commodity Credit Corporation, pursuant to the authority vested in him by the by-laws of the Commodity Credit Corporation, appointed Administrative Officers of Agricultural Stabilization and Conservation State Committees as contracting officers of Commodity Credit Corporation, effective April 28, 1961 (26 F.R. 3900). Subsequent thereto (August 9, 1961), the title of Administrative Officer of Agricultural Stabilization and Conservation State Committees was changed to Executive Director. The persons holding these positions (formerly under the title of Administrative Officer and now under the title of Executive Director) were and continue to be authorized to act as contracting officers of Commodity Credit Corporation and their authority to act as contracting officers of Commodity Credit Corporation pursuant to the appointment of April 28, 1961, is hereby ratified.

Dated: November 19, 1962.

H. D. GODFREY,
Executive Vice President, Commodity Credit Corporation.

DEPARTMENT OF COMMERCE

Office of the Secretary

[Dept. Order 169 (Rev.)]

GREAT LAKES PILOTAGE ADMINISTRATION

Delegation of Authority and Description of General Functions

The following order was issued by the Acting Secretary of Commerce on November 13, 1962. This material supersedes the material appearing at 25 F.R. 10142–10143 of October 25, 1960 and 27 F.R. 8334–8335 of August 21, 1962.

SECTION 1. *Purpose.* The purpose of this order is to delegate authority to the Administrator, Great Lakes Pilotage Administration and to describe the general functions of the Great Lakes Pilotage Administration.

SEC. 2. *General.* The Great Lakes Pilotage Administration established by Department Order No. 169 of September 8, 1960 is continued as a constitutent organization unit in the Office of the Secretary and is headed by an Administrator appointed by the Secretary.

SEC. 3. *Delegation of authority.*

.01 Pursuant to the authority vested in the Secretary by the Great Lakes Pilotage Act of 1960, P.L. 86-555, Reorganization Plan No. 5 of 1950, and subject to such policies and directives as the Secretary of Commerce and the Under Secretary of Commerce for Transportation may prescribe, the Administrator, Great Lakes Pilotage Administration is hereby delegated the authority vested in the Secretary under the Great Lakes Pilotage Act of 1960, except as to the appointment of members of the Advisory Committee authorized under section 10 (a) of the Act and the remission or mitigation of penalties imposed pursuant to section 7(c) of the Act.

.02 The Administrator, Great Lakes Pilotage Administration, may redelegate his authority to appropriate officials of the Great Lakes Pilotage Administration subject to such conditions in the exercise of such authority as he may prescribe, except that authority to impose penalties pursuant to section 7(c) of the Act and to issue regulations under the Act shall not be redelegable.

SEC. 4. *General functions.* The Great Lakes Pilotage Administration shall perform the following functions:

1. Establish and administer an effective system of regulated pilotage on those United States waters of the Great Lakes as defined in the Act, by, among other things:

a. Arranging with the appropriate agency of Canada for a coordinated system of pilotage as provided for in the Act;

b. Determining after consultation with the appropriate agency of Canada, the number of pilots to comprise the pilotage service and the number and location of pilot pools;

c. Registering qualified persons as pilots and issuing documentary evidence of their registration;

d. Authorizing the establishment, as appropriate, of U.S. pilot pools and issuing rules and regulations governing their operation;

e. Arranging with the appropriate agency of Canada equitable participation by U.S. registered pilots and Canadian registered pilots in pilotage service;

f. Establishing appropriate rates and charges for pilotage service in conjunction with Canada;

g. Prescribing uniform systems of accounts and performing audits and inspections of pool operations; and

h. Performing investigations as necessary to insure compliance with regulations issued by the Administrator and, when appropriate, imposing civil penalties as provided in the Act.

2. Collaborate with appropriate officials of the State Department and the United States Coast Guard on matters within the cognizance of these agencies as set forth in the Act.

3. Issue and administer such regulations as may be necessary and appropriate to assure the adequacy and effectiveness of pilotage service, subject to applicable provisions of the Administrative Procedure Act and as authorized by the Great Lakes Pilotage Act of 1960.

SEC. 5. *Advisory Committee.* The Advisory Committee appointed pursuant to section 10(a) of the Act shall serve in an advisory capacity to the Administrator and, at the Administrator's request, may:

1. Review proposed regulations and policies and make appropriate recommendations thereon;

2. Assist and advise the Administrator in reviewing the operations of the system of regulated pilotage to assure that the purposes of the Act are being well and feasibly served; and

3. Provide such other advice as the Administrator may request from time to time.

SEC. 6. *Saving provision.* All orders, regulations, certificates, or other actions issued by or relating to the Great Lakes Pilotage Administration, or any official thereof, shall remain in effect until specifically amended or revoked by proper authority.

Effective date: November 13, 1962.

HERBERT W. KLOTZ,
Assistant Secretary for Administration.

[F.R. Doc. 62-11641; Filed, Nov. 23, 1962; 8:47 a.m.]

ATOMIC ENERGY COMMISSION

STATE OF TEXAS

Proposed Agreement for Assumption of Certain AEC Regulatory Authority

Notice is hereby given that the U.S. Atomic Energy Commission is publishing for public comment, prior to action thereon, a proposed agreement received from the Governor of the State of Texas for the assumption of certain of the Commission's regulatory authority pur-

suant to section 274 of the Atomic Energy Act of 1954, as amended.

A resume, prepared by the State of Texas and summarizing the State's proposed program, was also submitted to the Commission and is set forth below as an appendix to this notice. Annexes referenced in the appendix are included in the complete text of the program. A copy of the Texas program, including proposed Texas regulations, is available for public inspection in the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C., or may be obtained by writing to the Director, Division of Radiation Protection Standards, United States Atomic Energy Commission, Washington 25, D.C. All interested persons desiring to submit comments and suggestions for the consideration of the Commission in connection with the proposed agreement should send them in triplicate to the Secretary, U.S. Atomic Energy Commission, Washington 25, D.C., within 30 days after initial publication in the FEDERAL REGISTER.

Exemptions from the Commission's regulatory authority which would implement this proposed agreement, as well as other agreements which may be entered into under section 274 of the Atomic Energy Act, as amended, were published as Part 150 of the Commission's regulations in FEDERAL REGISTER issuance of February 14, 1962; 27 FR 1351. In reviewing this proposed agreement, interested persons should also consider the aforementioned exemptions.

Dated at Germantown, Maryland, this 7th day of November 1962.

For the Atomic Energy Commission.

WOODFORD B. MCCOOL,
Secretary to the Commission.

Agreement Proposed by the State of Texas Pursuant to Section 274 of the Atomic Energy Act of 1954, as Amended, for the Assumption of Certain of the Atomic Energy Commission's Regulatory Authority

Whereas, The United States Atomic Energy Commission (hereinafter referred to as the Commission) is authorized under Section 274 of the Atomic Energy Act of 1954, as amended (hereinafter referred to as the Act) to enter into agreements with the Governor of any State providing for discontinuance of the regulatory authority of the Commission within the State under Chapters 6, 7, and 8 and Section 161 of the Act with respect to byproduct materials, source materials, and special nuclear materials in quantities not sufficient to form a critical mass; and

Whereas, the Governor of the State of Texas is authorized under Article 4590f of the Texas Revised Civil Statutes to enter into this Agreement with the Commission; and

Whereas, the Governor of the State of Texas certified on November 5, 1962, that the State of Texas (hereinafter referred to as the State) has a program for the control of radiation hazards adequate to protect the public health and safety with respect to the materials within the State covered by this Agreement, and that the State desires to assume regulatory responsibility for such materials; and

Whereas, the Commission found on --------, 1962, that the program of the State for the regulation of the materials covered by this Agreement is compatible with the Commission's program for the regulation of such materials and is adequate to protect the public health and safety; and

Whereas, the State recognizes the desirability and importance of maintaining continuing compatibility between its program and the program of the Commission for the control of radiation hazards in the interest of public health and safety; and

Whereas, the Commission and the State recognize the desirability of reciprocal recognition of licenses and exemption from licensing of those materials subject to this Agreement; and

Whereas, this Agreement is entered into pursuant to the provisions of the Atomic Energy Act of 1954, as amended;

Now, therefore, it is hereby agreed between the Commission and the Governor of the State, acting in behalf of the State, as follows:

Article I. Subject to the exceptions provided in Articles II, III, and IV, the Commission shall discontinue, as of the effective date of this Agreement, the regulatory authority of the Commission in the State under Chapters 6, 7, and 8, and section 161 of the Act with respect to the following materials:

A. Byproduct materials;

B. Source materials; and

C. Special nuclear materials in quantities not sufficient to form a critical mass.

Article II. This agreement does not provide for discontinuance of any authority and the Commission shall retain authority and responsibilty with respect to regulation of:

A. The construction and operation of any production or utilization facility;

B. The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;

C. The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials as defined in regulations or orders of the Commission;

D. The disposal of such other byproduct, source, or special nuclear material as the Commission from time to time determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

Article III. Notwithstanding this agreement, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

Article IV. This agreement shall not affect the authority of the Commission under subsection 161 b. or i. of the Act to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data or to guard against the loss or diversion of special nuclear material.

Article V. The Commission will use its best efforts to cooperate with the State and other agreement states in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that State and Commission programs for protection against hazards of radiation will be coordinated and compatible. The State will use its best efforts to cooperate with the Commission and other agreement states in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that the State's program will continue to be compatible with the program of the Commission for the regulation of like materials. The State and the Commission will use their best efforts to keep each other informed of proposed changes in their respective rules and regulations and licensing, inspection and enforcement policies and criteria, and to obtain the comments and assistance of the other party thereon.

Article VI. The Commission and the State agree that it is desirable to provide for reciprocal recognition of licenses for the materials listed in Article I licensed by the other party or by any agreement state. Accordingly, the Commission and the State agree to use their best efforts to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

Article VII. The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the State, or upon request of the Governor of the State, may terminate or suspend this Agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that such termination or suspension is required to protect the public health and safety.

Article VIII. This agreement shall become effective on March 1, 1963, and shall remain in effect unless, and until such time as it is terminated pursuant to Article VII.

APPENDIX A

Policies and Procedures for the Licensing and Regulation of Radioactive Materials, Source and Special Nuclear Materials

INTRODUCTION

Foreword. These documents present a brief description of the practices, capabilities, and proposed activities of the Division of Occupational Health and Radiation Control, Texas State Department of Health, insofar as they would relate to assumption of certain regulatory functions of the U.S. Atomic Energy Commission.

Under section 274 of the Atomic Energy Act of 1954, as amended, the Atomic Energy Commission is authorized to enter into agreement with the Governor of a state, whereby it may transfer certain licensing and regulatory control of byproduct, source, and special nuclear materials in quantities not sufficient to form a critical mass, to a state agency designated by the Governor. Relinquishment of such authority by the Atomic Energy Commission and subsequent assumption by the state is made when the Atomic Energy Commission has evaluated and accepted the competency of the state to administer such licensing and regulatory authority; and certain authorities are reserved to the Atomic Energy Commission.

The Texas Radiation Control Act of 1961, Article 4590f, Revised Civil Statutes, State of Texas, authorizes the Governor of Texas to enter into an agreement with the Atomic Energy Commission and to appoint a Radiation Advisory Board; and designates the Texas State Department of Health as the Agency responsible for the control of ionizing radiation. Further, the Act authorizes the Agency to formulate rules and regulations necessary for the control of ionizing radiation; makes mandatory the registration or licensing of all sources of ionizing radiation; provides for recognition of other agreement states and Federal licenses; requires that the regulatory program be compatible with that of the Federal Government, and insofar as possible, with that of other states; and authorizes the Agency, subject to approval of the Governor, to make subsequent agreements with the Federal Government, other states or interstate agencies for cooperative actions to be taken relating to the control of sources of ionizing radiation.

To this narrative are attached the Texas Radiation Control Act and the various resumes, regulations, and outlines of proposed practices and activities to be undertaken by the Division of Occupational Health and Radiation Control, Texas State Department of Health, pursuant to an agreement between the Atomic Energy Commission and the Governor of Texas.

History. The Texas State Department of Health became initially involved in limited radiological health activities in 1947. When more reliable survey instruments became available in 1948, instrumentation was furnished to the various field offices and to the central office of the Texas State Department of Health. The Bureau of Sanitary Engineering, parent of the Division of Occupational Health and Radiation Control, then expanded its evaluations of occupational health hazards by including x-ray and radium studies. One of the Nation's first extensive surveys demonstrating the radiation hazards of shoe fitting fluoroscopes was conducted in Texas.

In 1952, a series of basic courses in occupational health and radiological health hazards was given by the Texas State Department of Health throughout the State for the benefit of local health department personnel and other interested persons. In 1953, short courses in radiological health and safety for x-ray technicians were conducted in major cities of the State.

In 1956, the State Board of Health adopted "Regulations on Radiation Exposure" developed from National Committee on Radiation Protection and Measurements recommendations. These regulations provide for the registration of all sources of radiation and also establish standards governing personnel protection requirements, maximum permissible concentrations, and doses. An amendment was adopted in 1957 which prohibited the use of shoe-fitting fluoroscopes.

In 1959, the Legislature created a Radiation Study Committee charged with the responsibility of conducting a comprehensive review of all aspects of the State's role in the field of nuclear energy. This Committee, comprised of representation from the Texas Legislature and the general public drafted the Texas Radiation Control Act which was enacted into law in April 1961. This Act authorized the establishment of the Texas Radiation Advisory Board for the purpose of reviewing and evaluating policies and programs of the State relating to ionizing radiation, making recommendations, conducting hearings, and providing such technical advice as may be required on matters relating to development, utilization and regulation of sources of ionizing radiation.

The Radiation Advisory Board members and their fields of representation are:

1. J. R. Maxfield, M.D., Chairman, Radiology.
2. Mr. E. C. Stokely, LL.B., Vice Chairman, Industry.
3. Herbert C. Allen, Jr., M.D., Secretary, Nuclear Medicine.
4. Julius W. Dieckert, Ph. D., Agriculture.
5. Ben DuBilier, M.D., Public Safety.
6. Lloyd R. Hershberger, M.D., Pathology.
7. Mr. Charles R. Johnson, Labor.
8. Mr. E. C. McFadden, P.E., Insurance.
9. Mr. Boone Powell, LL.D., Hospital Administration.

Radiation Advisory Board membership qualifications are given in Annex III.

As of September 1962, State Health Department records revealed that there were 6363 registered sources of radiation in Texas, of which 509 were Atomic Energy Commission licenses and 302 were radium registrations. In addition to registered sources of radiation, there are 32 radiation-producing installations of a special nature such as reactors and particle accelerators. The first and only uranium concentrating plant in Texas began operation on April 11, 1962.

The Texas Radiation Control Program has developed in proportion to this marked increase in the number of users of radioactive materials, x-ray producing machines and specialized radiation-producing equipment.

The Texas State Health Department currently administers a comprehensive radiation control program designed to govern and insure safeguards for the various aspects of use, transfer, storage, and disposal of radioactive materials. Inspectional surveys are routinely conducted to determine and correct radiological health hazards associated with the use of medical and dental x-ray equipment. To illustrate further the comprehensiveness of the radiation control program activities such as radiological defense monitoring training programs, special environmental background studies, preoperational reactor surveys, radioactivity counter measures evaluations, and environmental media monitoring are presently being conducted.

Division activities especially qualifying the Texas State Department of Health for expanded licensing and inspectional responsibilities are the dental x-ray surveys, surveys of medical radiographic and fluoroscopic units, inspections of therapeutic medical x-ray equipment, and cooperative Atomic Energy Commission-State inspections.

The scope of these activities can be illustrated by a consideration of the dental survey program. In the past two years a total of 850 dental x-ray units were inspected. During the inspections corrections were made to include adding of filtration, and the adjusting of collimation. Recommendations were provided for the reduction of occupational radiation scatter.

Since 1956, 84 incidents involving excessive exposures, losses, thefts, spills, or illegal transfers of radioactive materials were investigated. Current inspections of radioactive materials usually entail a comprehensive review by the inspector of the user's equipment and facilities; the handling or storage of radioactive material; the procedures in effect, including actual operations and interviewing the personnel directly involved; survey methods and results; personnel monitoring practices and results; posting and labelling; instructions to personnel; methods and effectiveness of maintaining control of people in the restricted area; licensee's records of receipts, transfers, personnel exposures and inventory of licensed material; records concerning disposal to the sewerage system and burial in the soil. These inspection procedures will be used in the future for inspections of all byproduct and other radioactive materials.

Program Description

The Radiation Control Program will be conducted by the Division of Occupational Health and Radiation Control, Texas State Department of Health.

Licensing and registration. The State Program will control all sources of ionizing radiation. Provisions have been made for the issuance of both specific and general licenses. The specific license will be issued to authorize possession of radioactive materials not exempted or generally licensed by the Agency. Requirements for the possession of byproduct, source, and special nuclear materials will be comparable to those of the Atomic Energy Commission. In addition, regulations provide that the Agency will require specific radioactive materials licenses for naturally occurring radioactive materials such as radium and accelerator-produced isotopes of nonexempt quantities. All other sources of radiation such as medical and dental x-ray machines will be registered.

The licensing program will be essentially identical to that presently employed by the Atomic Energy Commission, and will cover prelicensing evaluations and postlicensing inspections. The Chief of Licensing and Regulation will have the responsibility for the evaluation of license applications.

A committee of not less than three qualified physicians, members of the Texas Radiation Advisory Board, will be used for consultation and recommendations concerning license applications for the human use of radioactive materials. These physicians are exceptionally well qualified in radiology and health physics. As general guides in the evaluation of licensee applications, the Division of Occupational Health and Radiation Control and the Radiation Advisory Board will utilize applicable criteria of the Atomic Energy Commission publications including Teletherapy—"Licensing Requirements for Teletherapy Programs"; Broad License (research and development)—"Licensing Requirements for Broad Licenses for Research and Development";—"Licensing Requirements for Broad Medical Use"; and the "Medical Use of Radioisotopes".

Inspection. The Texas State Department of Health, Division of Occupational Health and Radiation Control, proposes to conduct future inspectional activities of licensees comparable to the type now undertaken by the Division of Compliance of the Atomic Energy Commission. Inspections will be performed by personnel qualified in radiological health. Competency with the Atomic Energy Commission inspectional work has been developed through joint participation of Texas State Department of Health personnel with Atomic Energy Commission inspectors. It is estimated that the Texas State Department of Health has been represented in 98 percent of all Atomic Energy Commission inspections made in Texas during the last five years.

The following frequency for the inspection of Texas licenses is planned but may be either increased or decreased depending upon individual circumstances:

Industrial Radiographers — once each 6 months.
Operations involving waste disposal—once each 6 months.
Industrial, Special Licenses—once each 6 months.
Industrial, Broad Licenses—once each 12 months.
Academic—once each 24 months.
Medical and Hospital—once each 24 months.
Others—on a time-available schedule.

Before the termination of each inspection, the inspector will confer with the licensee to discuss the results of his inspection, presenting tentative oral recommendations or suggestions. During this meeting he will attempt to answer questions on the regulatory program.

The inspector will submit in writing comprehensive reports to the Director of the Division of Occupational Health and Radiation Control relating facts and circumstances observed during the inspection. The report will enumerate violations, if any, and include recommendations. Recommendations made by field personnel will be subject to the critical review of senior members of the Division of Occupational Health and Radiation Control.

Licensees will be informed of the results of all inspections, orally at the time of inspection or by letter or notice from the Agency.

It is expected that most licensed activities will be inspected at least once in each two years. Most of the inspections will be scheduled visits, but a significant number may be on an unannounced basis.

Supporting resources available as an adjunct to the Division's inspection program include the Division of Laboratories, the Division of Public Health Education, the Division of Water Pollution Control, the Legal Counsel, all of the Texas State Department of Health, and the State Attorney General.

Compliance. Minor matters of noncompliance will be handled through official letter notification, and when deemed necessary, followed by reinspections.

If the inspection reveals noncompliance of a more serious nature, the licensee will be required to correct such items within a time period to be specified by the inspector based upon the degree of hazard involved.

The licensee will be required to inform the Agency in writing within 30 days, or less if specified, as to corrective action taken and the date completed. The Agency will then conduct a followup inspection or the matter will be reviewed during the next regular inspection to assure that corrective action has in fact been accomplished. The legal recourses which may be taken by the Division of Occupational Health and Radiation Control are cited within the Texas Radiation Control Act, Article 4590f, Revised Civil Statutes, State of Texas, and commented upon elsewhere in the accompanying documents. They include the rights of injunction and impoundment.

Enforcement. When in the judgment of the Texas Radiation Control Agency a person is engaged or about to engage in acts or practices constituting a violation of the Act, rules, regulations or orders, the State's Attorney General may, at the request of the Agency, make application for a court order to enjoin such acts or practices or direct compliance.

Should the Division of Occupational Health and Radiation Control determine that an emergency exists, it shall have the authority to impound or to order the impounding of any source whether licensed or not in the possession of any person who is not equipped to observe or fails to observe the provisions of the Texas Radiation Control Act or any rules and regulations issued thereunder. In the case of violation, section 16 of the Texas Radiation Control Act provides for appropriate penalties by fine or imprisonment or both.

The full legal procedures normally will be employed only in those instances where there is continued noncompliance after notice, willful negligence on the part of the licensee, or where a serious potential harzard results.

Of special importance is the provision under section 7 of Article 4590f, Revised Civil Statutes, State of Texas, which empowers the Texas Radiation Control Agency or its authorized representatives to enter into all private or public property in line of duty.

Staffing. The Texas Radiation Control Act of 1961 directs that the Commissioner of Health shall designate a director of the Radiation Control Program. Mr. Charles R. Barden, Registered Professional Engineer, has been appointed Director of the Division of Occupational Health and Radiation Control of the Texas State Department of Health.

Functionally, the Division Director has been named by the Commissioner of Health to serve as the State's Radiation Control Officer. Administratively, the Director is responsible to Mr. G. R. Herzik, Jr., Chief, Section on Environmental Sanitation Services. The Chief Engineer, Mr. Martin C. Wukasch, who is also a Certified Health Physicist, has technical supervision of the broad Radiation Control Program. Mr. Ralph G. Griffin, Jr., Engineer III, is in charge of the licensing program and supervises the review and evaluation of applications for licenses.

Mr. Donald G. Decker and Mr. Richard G. Leard, Engineering Assistants; Mr. David K. Lacker, Radiological Health Specialist I; Mr. John A. Eure, Engineer; and Mr. James Edward Cowan, Radiation Biologist, will be used primarily to conduct inspections and generally administer on-site aspects of the licensing and regulatory program.

The minimum staffing pattern proposed by the Radiation Control Program consists of a Chief Engineer, four Engineers, three Radiological Health Specialists I, and two Radiological Health Specialists II. In addition, at least one laboratory staff member will be designated a radiochemist whose salary will be paid by the Division of Occupational Health and Radiation Control.

Future plans provide for the placement of representatives of the Division of Occupational Health and Radiation Control in regional offices.

When replacement of present personnel is necessitated, or new personnel are employed, these personnel will be required to have equivalent capabilities in radiological health now demonstrated by incumbent personnel, whose detailed personnel qualifications are given in Annex II.

In the event of emergencies, Mr. Hugh D. McGaw, Chief Engineer, Industrial Hygiene Program and Mr. Otto Paganini, Chief Engineer, Air Pollution Control Program, both of whom have extensive radiological health training and experience, will be used for field work and consultation.

Local health agencies. It has been the continuing policy of the Division of Occupational Health and Radiation Control to assist and at times furnish equipment and on-the-job radiological health training to selected personnel of local health departments. Such personnel will be utilized for prelicensing and preliminary incident investigative work. Assistance in the inspection and enforcement activities may be requested of selected local health agencies of cities and counties as they develop and demonstrate competence, but in no case will the authority and responsibilities of the Agency under the Texas Radiation Control Act be delegated. Local personnel assisting in the State investigation program will be appropriately qualified in radiological health and will be governed by the policies and pertinent rules, regulations and procedures of the Texas State Department of Health.

Relations With Federal Government and Other States. The State Radiation Control Agency is responsible by law for advising, consulting and cooperating with other agencies of the State, the Federal Government and other state and interstate agencies concerning radiation control.

Reciprocity. Regulations of the Agency provide for the recognition of licenses issued by the U.S. Atomic Energy Commission or other agreement states.

Hearings. Provisions are made for a hearing at the request of a licensee. The Texas Radiation Control Act, under section 12(a)(3), states that the Agency shall afford an opportunity for a hearing before the Radiation Advisory Board upon the request of any person whose interest may be affected by the proceeding, when it is a question of determining compliance or granting exceptions from rules and regulations.

Further, section 12(b) authorizes issuance of a regulation or order, which shall be effective immediately, in those instances where the Division of Occupational Health and Radiation Control finds that an emergency exists. This may be done without prior notice or hearing. Any person to whom such an order is directed must comply therewith immediately, but he may apply to the Division of Occupational Health and Radiation Control for a hearing within ten (10) days. Upon the basis of such hearing, the emergency regulation or order shall be continued, modified or revoked within thirty (30) days after such hearing.

Any final order entered in any proceeding under the two foregoing subsections shall be subject to judicial review by any district court of Travis County, Texas.

[F.R. Doc. 62-11275; Filed, Nov. 8, 1962; 8:52 a.m.]

[Docket No. 50-191]

BABCOCK AND WILCOX CO.

Notice of Issuance of Amendment to Utilization Facility License

Please take notice that the Atomic Energy Commission has issued Amendment No. 1, set forth below, to Facility License No. CX-19. The license authorizes The Babcock and Wilcox Company to operate the critical experiment facility ("the facility") designated by the licensee as the "Advanced Test Reactor Critical Experiment" and situated at the licensee's Critical Experiment Facility located near Lynchburg, Virginia. The amendment authorizes the licensee, as requested in its application dated September 10, 1962 and supplement thereto dated October 3, 1962, to install a hot pressurized loop in the facility and conduct certain experiments therein.

The Commission has found that:

(1) Operation of the facility in accordance with the license as amended will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

(2) The application for amendment and supplement thereto comply with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in Title 10, Chapter I, CFR;

(3) Prior public notice of proposed issuance of this amendment is not necessary in the public interest since operation of the facility in accordance with the license, as amended, will not present any substantial change in the hazards to the health and safety of the public from those considered and evaluated in connection with the previously approved operation.

Within fifteen days from the date of publication of this notice in the FEDERAL REGISTER, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the provisions of the Commission's rules of practice, (10 CFR Part 2). If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment see (1) the hazards analysis prepared by the Research and Power Reactor Safety Branch of the Division of Licensing and Regulation and (2) the licensee's application for license amendment dated September 10, 1962, and supplement thereto dated October 3, 1962, all of which are available for public inspection at the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C. A copy of item (1) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 16th day of November 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[License No. CX–19; Amdt. No. 1]

1. License No. CX–19 which authorizes The Babcock and Wilcox Company ("the licensee") to operate the Advanced Test Reactor Critical Experiment ("the facility") situated in the licensee's Critical Experiment Laboratory located near Lynchburg, Virginia, is hereby amended in the following respects:

A. In addition to the activities previously authorized by the Commission in License No. CX–19 the licensee is authorized, as requested by the licensee's application for license amendment dated September 10, 1962, and supplement thereto dated October 3, 1962 (together "the application"), to install a hot pressurized loop in the facility and conduct certain experiments therein.

B. In addition to the amounts of special nuclear material which license No. CX–19 previously authorized the licensee to receive, possess and use, the licensee is authorized to receive, possess and use up to 350 grams of contained uranium-235 in connection with the conduct of the activities authorized by this amendment.

C. The activities authorized by this amendment shall be conducted in accordance with the applicable provisions of License No. CX–19, and the application, and the additional condition that helium shall be the sole gas used for pressurizing the loop.

2. This amendment is effective as of the date of issuance.

Date of issuance: November 16, 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[F.R. Doc. 62–11612; Filed, Nov. 23, 1962; 8:45 a.m.]

[Docket No. 50–97]

CORNELL UNIVERSITY

Notice of Proposed Issuance of Utilization Facility License

Please take notice that, unless within fifteen days after the publication of this notice in the FEDERAL REGISTER a request for a formal hearing is filed with the United States Atomic Energy Commission by the applicant or a petition for leave to intervene is filed as provided by the Commission's rules of practice (10 CFR Part 2), the Commission proposes to issue a facility license, substantially as set forth below, to Cornell University. The license would authorize the University to operate, at steady-state power levels not in excess of ten watts, thermal, the "Zero Power Reactor" located on its campus in Ithaca, New York. Requests for a hearing and petitions to intervene may be filed in accordance with the provisions of the Commission's rules of practice (10 CFR Part 2).

For further details, see (1) a hazards analysis prepared by the Research and Power Reactor Safety Branch of the Division of Licensing and Regulation and (2) Cornell University's application for license filed under Docket No. 50–97, both of which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (1) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 21st day of November 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

PROPOSED UTILIZATION FACILITY LICENSE

1. This license applies to the "Zero Power Reactor" ("the reactor") which is owned by Cornell University ("the licensee") and located on the licensee's campus in Ithaca, New York, and authorized for construction by Construction Permit No. CPRR–31, and described in the "hazards summary report" which is hereinafter defined.

2. Pursuant to the Atomic Energy Act of 1954, as amended ("the Act"), and having considered the record in this matter, the Atomic Energy Commission ("the Commission") finds that:

A. The reactor has been constructed in conformity with Construction Permit No. CPRR–31 and will operate in conformity with the application and in conformity with the Act and the rules and regulations of the Commission:

B. There is reasonable assurance that the reactor can be operated at the designated location without endangering the health and safety of the public;

C. The licensee is technically and financially qualified to operate the reactor, to assume financial responsibility for payment of any Commission charges for special nuclear material and to undertake and carry out the proposed activities in accordance with the Commission's regulations;

D. The possession and operation of the reactor and the receipt, possession and use of the special nuclear material in the manner proposed in the application will not be inimical to the common defense and security or to the health and safety of the public; and

E. The licensee is a nonprofit educational institution and will use the reactor for conduct of educational activities. The licensee is, therefore, exempt from the financial protection requirement of subsection 170.a. of the Act.

3. Subject to the conditions and requirements incorporated herein, the Commission hereby licenses the licensee:

A. Pursuant to section 104c of the Act and Title 10, CFR, Chapter I, Part 50, "Licensing of Production and Utilization Facilities", to possess and operate the reactor as a utilization facility at the designated location in Ithaca, New York;

B. Pursuant to the Act and Title 10, CFR, Chapter I, Part 70, "Special Nuclear Material", to receive, possess and use in connection with operation of the reactor up to 40.0 kilograms of uranium-235 contained in uranium enriched in the isotope uranium-235 and up to 16.0 grams of plutonium contained in an encapsulated plutonium-beryllium source; and

C. Pursuant to the Act and Title 10, CFR, Chapter I, Part 30, "Licensing of Byproduct Material", to possess but not to separate such byproduct material as may be produced by operation of the reactor.

4. This license shall be deemed to contain and be subject to the conditions specified in § 30.32 of Part 30, §§ 50.54 and 50.59 of Part 50 and § 70.32 of Part 70, Title 10, Chapter I, CFR, and to be subject to all applicable provisions of the Act, and to the rules and regulations and orders of the Commission, now or hereafter in effect, and to the additional conditions specified below:

A. The licensee may not operate the reactor at any time at a steady-state power level in excess of ten watts, thermal;

B. The maximum excess reactivity of the reactor core with the moderator at full height shall not exceed 0.03 above cold clean critical;

C. With respect to the 2.1 percent enriched uranium powder obtained for use in the reactor, the licensee is authorized only to receive, possess and store and may not utilize this material until authorized to do so by the Commission;

D. The licensee may not use the "short fuel elements", described in the "hazards summary report", until authorized to do so by amendment to this license;

E. The technical specifications defined in Appendix "A" hereto ("the technical specifications") are hereby incorporated into this license. The licensee shall operate the reactor in accordance with the technical specifications. No changes shall be made in the technical specifications unless authorized by the Commission as provided in § 50.59 of 10 CFR Part 50;

F. In addition to those otherwise required under this license and applicable regulations, the licensee shall keep the following records:

(1) Reactor operating records, including power levels.

(2) Records of in-pile irradiations.

(3) Records showing radioactivity released or discharged into the air or water beyond the effective control of the licensee as measured at the point of such release or discharge.

(4) Records of emergency reactor scrams, including reasons for emergency shutdowns.

G. As promptly as practicable, but no later than 60 days after the initial criticality of the reactor, the licensee shall submit a written report to the Commission for the first core configuration utilized describing the measured values of the operating conditions or characteristics listed below and evaluating any significant variation of a measured value from the corresponding predicted value:

(1) Maximum excess reactivity of the reactor, not including the worth of control rods or other control devices such as burnable poison strips or soluble poison, or any experiments;

(2) Total control rod worth;

(3) Minimum shutdown margin both at room and operating temperature;

(4) Maximum worth of the single control rod cluster of highest reactivity value; and

(5) Maximum total and individual worth of any fixed or movable experiments inserted in the reactor.

H. In addition to reports otherwise required under this license and applicable regulations, the licensee shall make an immediate report in writing to the Commission of any indication or occurrence of a possible unsafe condition relating to the operation of the reactor;

I. The licensee shall immediately report to the Commission in writing any substantial variance disclosed by operation of the reactor from performance specifications of the reactor contained in the technical specifications;

J. As used in this license the term "hazards summary report" means collectively the licensee's submission to the Commission, dated October 24. 1962, and the "Final Safeguards Report to the U.S. Atomic Energy Commission for The Cornell University Zero Power Reactor" filed with the Commission on September 11, 1962 with the exception of Section B.4 of Appendix B of the Final Safeguards Report, and that portion of Section 2.5.2 of the Final Safeguards Report dealing with the leakage rate from the Zero Power Reactor Cell, and those portions of the Final Safeguards Report which relate to the licensee's TRIGA reactor.

5. This license is effective as of the date of issuance and shall expire at midnight November 21, 1978.

For the Atomic Energy Commission.

APPENDIX "A"

TECHNICAL SPECIFICATIONS

THE CORNELL UNIVERSITY ZERO POWER REACTOR

The technical specifications for the Cornell University Zero Power Reactor, operation of which is authorized by Operating License No. ------, shall consist of the "hazards summary report", as defined in paragraph 4.J. of the above mentioned license, and the following additional specifications:

A. The individual and total reactivity worths of movable experiments shall not exceed 0.0075, and the individual and total worths of fixed experiments shall not exceed 0.015, provided, further, that the total reactivity worth of all experiments shall not exceed 0.015.

B. The minimum period scram set point shall not be less than 5 seconds.

C. The minimum number of operational control rod clusters shall not be less than four, and each cluster, by itself, shall be capable of shutting down the reactor by its insertion into the core.

D. No person shall be in the ZPR cell at any time when moderator is raised to a level above the bottom of the fuel in the core.

E. The moderator shall be at full height at all times when the core reactivity is at or above critical.

F. No soluble poison shall be added to the moderator.

G. No experiment shall be conducted in the reactor which involves a core loading wherein the moderator contribution to the temperature coefficient of reactivity is positive.

H. The insertion of reactivity by addition of moderator shall be regulated by the fill pump gate valve. For the purposes of this condition, reactivity of the core shall be calculated on the assumption that all control rods are fully withdrawn. When the calculated k-effective is greater than 0.95, the reactivity insertion rate shall not exceed 0.002 per second. When calculated criticality of the reactor is reached, the rate of reactivity insertion shall not exceed 0.0005 per second.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3842]

BLACK BEAR INDUSTRIES, INC.

Order Summarily Suspending Trading

NOVEMBER 19, 1962.

The common stock, par value 15 cents a share, of Black Bear Industries, Inc. (formerly Black Bear Consolidated Mining Co.), being listed and registered on the San Francisco Mining Exchange, a national securities exchange; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15(c)(2) of the Securities Exchange Act of 1934 and the Commission's Rule 15c2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19(a)(4) of the Securities Exchange Act of 1934 that trading in said security on the San Francisco Mining Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days, November 20, 1962, through November 29, 1962, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F.R. Doc. 62-11634; Filed Nov. 23, 1962; 8:47 a.m.]

[File No. 24NY-5322]

DATAMATION, INC.

Notice and Order for Hearing

NOVEMBER 19, 1962.

I. Datamation, Inc. (issuer), a New Jersey corporation, formerly located at 100 South Van Brunt Street, Englewood, New Jersey, now reported to be at 1500 West Tryon Avenue, West Englewood, New Jersey, filed with the Commission on November 30, 1960, a notification on Form 1-A and an offering circular relating to an offering of 80,000 shares of its 10¢ par value common stock at $2.00 per share for an aggregate of $160,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof, and Regulation A promulgated thereunder.

II. The Commission, on October 1, 1962, issued an order pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, temporarily suspending the issuer's exemption under Regulation A, and affording to any person having any interest in the matter an opportunity to request a hearing. A written request for a hearing has been received by the Commission.

The Commission deems it necessary and appropriate that a hearing be held for the purpose of determining whether it should vacate the temporary suspension or enter an order of permanent suspension in this matter.

It is hereby ordered, Pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, that a hearing be held at 10:00 a.m., e.s.t., on January 15, 1963, at the New York Regional Office of the Commission, 23d Floor, 225 Broadway, New York 7, New York, before a Hearing Officer to be designated, with respect to the following matters and questions, without prejudice, however, to the specification of additional issues which may be presented in these proceedings:

A. Whether the terms and conditions of Regulation A have not been complied with in that:

1. The issuer failed to amend the notification and offering circular to reflect subsequent transactions entered into between the issuer and underwriter whereby an underwriter made loans to the issuer; and

2. The issuer filed a false and misleading report of sales on Form 2-A which failed to disclose that the issuer used a portion of the proceeds of the offering to repay loans made to it by an underwriter.

B. Whether the offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading particularly with respect to:

1. The failure to disclose accurately and adequately the proposed use of proceeds of the offering in that a portion of the proceeds was expended on repayment of indebtedness and the intention to repay such indebtedness was not stated in the offering circular;

2. The failure to disclose accurately and adequately the liabilities of the issuer in that loans made to the issuer by an underwriter and outstanding as of the date of the offering circular were not disclosed therein; and

3. The failure to disclose accurately and adequately the true background of the president of the issuer in that the offering circular contained misrepresentations with respect to his educational and professional background.

C. Whether the offering was made in violation of section 17(a) of the Securities Act of 1933, as amended.

III. *It is further ordered,* That the designated hearing examiner, or any officer or officers of the Commission designated by it for that purpose, shall preside at the hearing; that any officer or officers so designated to preside at any such hearing are hereby authorized to exercise all the powers granted to the Commission under sections 19(b), 21, and 22(c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail on Datamation, Inc., that notice of the entering of this order shall be given to all other persons by a general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard, or otherwise wishes to participate in the hearing, shall file with the Secretary of the Commission on or before January 11, 1963, a written request relative thereto as provided in Rule 9(c) of the Commission's rules of practice.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

TARIFF COMMISSION

[AA 1921–24]

SHEET GLASS FROM CZECHOSLOVAKIA

Determination of No Injury or Likelihood Thereof

NOVEMBER 20, 1962.

On August 20, 1962, the United States Tariff Commission was advised by the Assistant Secretary of the Treasury that glass, sheet, in jalousie louvre sizes from Czechoslovakia is being, or is likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160(a)), the Tariff Commission instituted an investigation to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

A public hearing in connection with the investigation was held from October 16 through October 18, 1962. Notices of the investigation and hearing were published in the FEDERAL REGISTER (27 F.R. 8751 and 27 F.R. 9193).

In arriving at a determination in this case, due consideration was given by the Tariff Commission to all written submissions from interested parties, all testimony adduced at the hearing, and all factual information obtained by the Commission's staff.

On the basis of the investigation, the Commission has determined (Commissioner Schreiber dissenting) [1] that no industry in the United States is being, or is likely to be, injured, or prevented from being established, by reason of the importation of glass, sheet, in jalousie louvre sizes, from Czechoslovakia, which was sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

Majority statement of reasons. Sheet glass from Czechoslovakia cut to jalousie louvre sizes (jalousie louvres, unedged) is imported into the United States by a single firm;[2] this firm does not offer the glass for sale in the same condition as it is imported, but uses it in the production of edged jalousie louvres. The imports of Czechoslovakian unedged louvres, therefore, do not compete directly with unedged louvres produced in the United States. The jalousie louvres edged in the United States from imported Czechoslovakian glass compete directly with (a) louvres edged in the United States from domestically produced glass, (b) louvres edged in the United States from glass imported from countries other than Czechoslovakia, and (c) imported louvres edged in foreign countries other than Czechoslovakia. The greater part of the edged louvres produced in the United States are made of imported glass, and the major share of the imported glass comes from countries other than Czechoslovakia. Hence, the louvres made of domestically produced glass meet the greater part of their competition from louvres made of glass imported from countries other than Czechoslovakia. The domestic producers of unedged jalousie louvres, therefore, meet no direct competition and only limited indirect competition from the imported Czechoslovakian glass.

Beginning in 1960 the importer of the Czechoslovakian glass appears to have been confronted with increasing competition (rather than to have offered increasing competition based on his supposed advantage of purchasing at less than fair value) from domestic producers of edged glass who were obtaining domestic sheet glass at very low prices. These prices were so low, in fact, that other domestic edging concerns were able to reduce their prices of edged louvres substantially—in many areas to prices lower than those being quoted for louvres edged in the United States from Czechoslovakian glass. As a result, the importer of the Czechoslovakian glass lost customers for jalousie louvres in most important distributing areas. Accordingly, the Commission cannot find that the imports of the Czechoslovakian glass are injuring, or are likely to injure, the edgers of domestically produced glass. Neither can it find that such imports are injuring, or are likely to injure, the edgers of glass imported from elsewhere.

The foregoing determination and statement of reasons are published pur-

---

[1] Chairman Dorfman, who was abroad on official business, and Commissioner Dowling, who was absent on leave, did not participate in this determination. Commissioner Schreiber's dissenting statement filed as part of the original document.

[2] This firm is a wholly owned subsidiary of a company that has a number of other subsidiaries, some of which process (edge) the Czechoslovakian glass. These and certain other subsidiaries sell the finished louvres. For the purposes of this section, the importing firm and all related firms will be considered collectively as the importer.

suant to section 201(c) of the Anti-dumping Act, 1921, as amended.

By the Commission.

[SEAL] DONN N. BENT,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CP63-33]

RAMONA GAS AUTHORITY

Notice of Application

NOVEMBER 16, 1962.

Take notice that on July 30, 1962, as supplemented on September 19, 1962, The Romana Gas Authority (Applicant), Ramona, Washington County, Oklahoma, filed in Docket No. CP63-33 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Cities Service Gas Company (Cities Service) to establish physical connection of its existing transmission facilities with the proposed facilities of and to sell and deliver natural gas to Applicant for resale and distribution in the Town of Ramona, Oklahoma, all as more fully set forth in the application, as supplemented, on file with the Commission and open to public inspection.

Applicant proposes to construct and operate a distribution system in Ramona and a transmission lateral connecting the proposed distribution system with the transmission facilities of Cities Service. Applicant estimates that approximately ten customers will be served from the transmission lateral.

Applicant's estimated third year peak day and annual natural gas requirements are 620 Mcf and 37,075 Mcf, respectively.

The total estimated cost of all proposed facilities aggregates $141,000, which cost will be financed by a loan from the Housing and Home Finance Agency.

On October 25, 1962, Cities Service filed an answer to the subject application stating that it had no objection to the requested Commission order.

Protests, petitions to intervene or requests for hearing in this proceeding may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 14, 1962.

GORDON M. GRANT,
Acting Secretary.

[1] The stated effective date is the effective date proposed by Respondent.
[2] Periodic rate increase.
[3] Pressure base is 14.65 p.s.i.a.
[4] Includes 0.01 cent per Mcf pro rata share of tax reimbursement which buyer receives from the purchasers of residue gas from its Spraberry Gasoline Plant.
[5] Includes 0.06 cent per Mcf pro rata share of tax reimbursement which buyer receives from the purchasers of residue gas from its Spraberry Gasoline Plant.
[6] Pressure base is 15.025 p.s.i.a.
[7] No sales in Louisiana.
[8] For gas produced in Louisiana.
[9] For gas produced in Mississippi.
[10] Includes 1.0 cents per Mcf service charge.
[11] The stated effective date is the first day after expiration of the required statutory notice.
[12] Revenue-sharing rate increase.
[13] Pressure base is 15.325 p.s.i.a.
[14] Suspension period is limited to one day.

The revenue-sharing rate increases of Walter E. Smith, et al., d/b/a White Pine Oil Company and Walter E. Smith, et al., d/b/a Cleo H. Smith Oil and Gas Company fall below the ceiling for increased rates in West Virginia, but should be suspended because they are based on the buyer's (Cabot Corporation) related resale rate which is currently in effect subject to refund in Docket No. RI61-308. The suspension period for each of the aforementioned revenue-sharing increases may be shortened to one day from the date of expiration of the required statutory notice.

The other producers' rate changes herein are periodic increases and exceed the applicable area price levels as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR Ch. I, Part 2, § 2.56).

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed changed rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act: *Provided, however,* The supplements to the rate schedules filed by Walter E. Smith, et al., d/b/a White Pine Oil and Gas Company and Walter E. Smith, et al., d/b/a Cleo H. Smith Oil and Gas Company, as set forth above, shall become effective subject to refund on the date and in the manner prescribed if within 20 days from the date of issuance of this order Respondents shall each execute and file under its above-designated docket number with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless Respondents are advised to the contrary within 15 days after the filing of their respective agreements and undertakings, such agreements and undertakings shall be deemed to have been accepted.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before January 2, 1963.

By the Commission.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62-11583; Filed, Nov. 23, 1962; 8:45 a.m.]

[Docket No. RI63-191 etc.]

TENNECO OIL CO. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates [1]

NOVEMBER 16, 1962.

In the matter of Tenneco Oil Company (Operator), et al., Docket No. RI63-191; Tenneco Corporation, Docket No. RI63-192; Texas Imperial Oil & Gas Company, Docket No. RI63-193.

The above-named Respondents have tendered for filing proposed changes in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. All of the sales are made at a pressure base of 14.65 p.s.i.a. The proposed changes, which constitute increased rates and charges, are designated as follows:

[1] This order does not provide for the consolidation for hearing or disposition of the three matters covered herein, nor should it be so construed.

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date [1] unless suspended	Date suspended until—	Cents per Mcf		Rate in effect subject to refund in docket Nos.
									Rate in effect	Proposed increased rate	
RI63- ----	Tenneco Oil Co. (Operator), et al., P.O. Box 2511, Houston 1, Tex.	2	11	United Gas Pipe Line Co. (Mustang Island Area, Nueces and San Patricio Counties, Tex.) (R.R. Dist. No. 4).	$75,397	10-19-62	[1] 11-19-62	4-19-63	[3] 14.8	[2] [3] 17.74782	G-13582
RI63- ----	Tenneco Corp., P.O. Box 2511, Houston 1, Tex.	8	1	----do----	12,261	10-19-62	[1] 11-19-62	4-19-63	[3] 14.8	[2] [3] 17.74782	(4)
RI63- ----	Texas Imperial Oil & Gas Co., 211 North Ervay Street, Dallas 1, Tex.	1	7	Texas Gas Corp. (Big Hill Field, Jefferson County, Tex.) (R.R. Dist. No. 3).	143,717	10-18-62	[5] 11-18-62	4-18-63	[3] 10.096	[3] [6] 16.6584	----------

[1] The stated effective date is the first day after expiration of the required statutory notice.
[2] Redetermined rate increase.
[3] Subject to downward Btu adjustment below 1,000 Btu's.
[4] Rate is a revised tariff which is subject to refund in Docket No. G-19983.
[5] Respondent requests waiver of notice.
[6] Renegotiated rate increase.

Texas Imperial Oil & Gas Company (Texas Imperial) requests that the Commission waive the 30-day notice requirement provided in section 4(d) of the Natural Gas Act and permit a retroactive effective date of March 10, 1962, for its proposed renegotiated rate increase. Consistent with past Commission action in similar cases, Texas Imperial's proposed March 10, 1962, retroactive effective date should be denied.

The proposed increased rates and charges exceed the applicable area price levels set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR, Chapter I, Part 2, § 2.56).

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) Good cause has not been shown for waiving the 30-days' notice required by section 4(d) of the Natural Gas Act with respect to Texas Imperial's rate filing, designated as Supplement No. 7 to Texas Imperial's FPC Gas Rate Schedule No. 1, and such request should be denied.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the three proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Texas Imperial's aforementioned request for waiver of the 30-day notice requirement with respect to Supplement No. 7 to its FPC Gas Rate Schedule No. 1 is hereby denied.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the three proposed increased rates and charges contained in the above-designated supplements.

(C) Pending hearings and decisions thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(D) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(E) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before January 2, 1963.

By the Commission.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62-11620; Filed, Nov. 23, 1962; 8:45 a.m.]

[Docket Nos. G-1895, G-11080]

EL PASO NATURAL GAS CO.

Notice of Application to Amend

NOVEMBER 16, 1962.

Take notice that on July 27, 1962, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas, filed in Docket Nos. G-1895 and G-11080 an application to amend the orders in said dockets issued on April 4, 1952 (11 FPC 936), and January 9, 1958 (19 FPC 78), respectively, to delete therefrom the quantity restrictions applicable to maximum daily and annual deliveries of natural gas to Arizona Public Service Company (Arizona) and El Paso Natural Gas Products Company (Products Company), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

In Docket No. G-1895 Applicant was authorized to construct and operate certain facilities and to sell and deliver up to 3,502,000 Mcf of gas annually and up to 12,000 Mcf of gas per day to Arizona for resale to Salt River Project Agricultural Improvement and Power District[1] for use in its Kyrene Power Plant located in Maricopa County, Arizona. In anticipation of future periodic abnormal loading of the Kyrene plant such as that which occurred during the calendar year 1961, Applicant requests that the quantity restrictions on deliveries to Arizona be removed.

In Docket No. G-11080 Applicant was authorized, among other things, to deliver up to 1,230 Mcf of gas to Products Company for use in its Ciniza Refinery and Wingate and Bisti Pumping Stations. Applicant and Products Company have entered into an agreement amending the basic agreement regarding daily volumes in Mcf as follows:

	Original agreement	*Amended agreement*
Ciniza Refinery	1,100	5,000
Wingate Pumping Station	100	100
Bisti Pumping Station	30	50
Total	1,230	5,150

The amended agreement reflects the customer's requirements as demonstrated during the calendar year 1961, and accordingly Applicant requests that the quantity restriction on deliveries to Products Company be removed.

Protests, requests for hearing, or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 14, 1962.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62-11621; Filed, Nov. 23, 1962; 8:46 a.m.]

[Docket No. CP63-48]

TENNESSEE GAS TRANSMISSION CO.

Notice of Application and Date of Hearing

NOVEMBER 16, 1962.

Take notice that on August 28, 1962, Tennessee Gas Transmission Company (Applicant), P.O. Box 2511, Houston 1, Texas, filed in Docket No. CP63-48 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the operation of certain pipeline facilities which have been constructed pursuant to § 157.22 of the Commission's regulations under the Natural Gas Act, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The application states that spring flooding has caused the main channel of

[1] Formerly Salt River Valley Water Users Association.

the Yalobusha River to move approximately 160 feet west of the previously established channel. Applicant's Kinder-Portland Line crosses the Yalobusha River in Grenada County, Mississippi, at Main Line Valve 846 plus 0.9 miles. This submerged river crossing consists of a single 30-inch line approximately 800 feet in length. As a result of the shifting of the river channel, approximately 50 feet of the pipeline approach to the river crossing has been undercut by river currents to an average depth of 5 feet. This 50-foot section of pipeline, which had previously been buried in the ground to a depth of from 3 to 7 feet, is now suspended in the water and is moving with the river currents. The application further states that it will be impractical to attempt to lower the original pipeline crossing until such time as the additional crossing is placed in service because, for safety purposes, the flow of gas through the original line will have to be terminated until the work is completed. Therefore, in order to continue uninterrupted deliveries of gas through the Kinder-Portland Line, Applicant seeks authorization to operate an additional submerged pipeline crossing of the Yalobusha River.

The application states that the additional submerged crossing of the Yalobusha River is located approximately 100 feet downstream from the original crossing and consists of a single 30-inch submerged pipeline approximately 1,100 feet in length plus the necessary appurtenances thereto.

After the additional line is placed in service, Applicant will lower the original line, and thereafter Applicant will utilize both river crossings. The application states that the additional facilities will not increase Applicant's over-all system capacity.

The total cost for the new facilities is estimated to be $219,000, to be financed from general funds or revolving credit.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 3, 1963, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 24, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62-11623; Filed, Nov. 23, 1962; 8:46 a.m.]

[Docket No. G-13372]

UNITED FUEL GAS CO.

Notice of Application to Amend

NOVEMBER 16, 1962.

Take notice that on July 27, 1962, United Fuel Gas Company (Applicant), Charleston, West Virginia, filed an application to amend the Commission's order in Docket No. G-13372 issued September 9, 1958, wherein Applicant was authorized, among other things, to abandon and sell to Cabot Corporation (successor to Godfrey L. Cabot, Inc.) (Cabot) Applicant's natural gas Storage Pool X-1 and certain pipeline transmission facilities in Putnam County, West Virginia, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant was authorized by said order to transfer to Cabot the subject property and facilities during a period of time ending on May 1, 1962, and during the interim period the subject property and facilities were to be operated jointly by Applicant and Cabot pursuant to an agreement, dated May 31, 1957. Applicant proposes herein to continue the joint operation under an agreement between Applicant and Cabot, dated April 19, 1962, which provides substantially for a continuation of the interim operating arrangement. The application shows the primary term of the April 19, 1962, agreement is three years from May 1, 1962, and from year to year thereafter.

The application shows that on June 26, 1962, Storage Pool X-1 and related facilities were conveyed and assigned by Applicant to Cabot. The lease agreement of April 19, 1962, provides for the leasing to and operation by Applicant of some 3.5 miles of 10-inch pipeline extending from Applicant's Lanham compressor station to an interconnection with a 10-inch line conveyed to Cabot by Applicant and a 10-inch line owned by Applicant. Applicant will operate the leased lines pursuant to the arrangements set forth in the agreement of April 19, 1962; the excess capacity in said lines will be used by Applicant for its own purposes as it has heretofore been doing under the original operating agreement of May 31, 1957.

Protests, petitions to intervene or requests for hearing in this proceeding may be filed with Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 14, 1962.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62-11625; Filed, Nov. 23, 1962; 8:46 a.m.]

[Docket No. CP63-49]

VILLAGE OF CLAY CITY, ILL.

Notice of Application and Date of Hearing

NOVEMBER 16, 1962.

Take notice that on August 29, 1962, the Village of Clay City, Illinois (Applicant), filed an application under section 7(a) of the Natural Gas Act for an order directing Trunkline Gas Company (Trunkline) to establish physical connection of its interstate transportation facilities with the facilities proposed to be constructed by Applicant and to sell and deliver to Applicant its natural gas requirements for resale distribution in and around the Village of Clay City, Illinois, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct a 9.5 mile 3-inch lateral line extending from the Village of Clay City to the facilities of Trunkline at a point approximately 9 miles northwest of said village, and a distribution system to serve residents of said village and vicinity at a cost of $320,000. The cost of constructing the facilities will be financed by the issuance of $350,000 Gas Public Utility Certificates.

Applicant's estimated natural gas requirements for the first three years of operation are as follows:

Volumes in Mcf at 14.73 p.s.i.a.

Year	Peak day	Annual
1	478	53,600
2	529	59,300
3	595	66,400

On October 4, 1962, Trunkline filed its answer to the application. In its answer, Trunkline questioned the need of Applicant for an inlet pressure of 400 psig at the delivery point and further questioned the economic feasibility of the project as proposed. Therefore, Trunkline has requested that a public hearing be held in order to determine whether or not the public interest requires the issuance of the requested order.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 19, 1962, at 10:00 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 14, 1962.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62-11626; Filed, Nov. 23, 1962; 8:46 a.m.]

[Docket No. CP63–27]

TEXAS GAS TRANSMISSION CORP.

Notice of Application and Date of Hearing

NOVEMBER 16, 1962.

Take notice that on July 26, 1962, Texas Gas Transmission Corporation (Applicant), 3800 Frederica Street, Owensboro, Kentucky, filed in Docket No. CP63–27 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction during the 12-month period commencing September 1, 1962, and the operation of measuring and regulating stations and appurtenant facilities necessary for the establishment of new and additional delivery points for the sale and delivery of natural gas to existing utility customers for resale in the vicinity of Applicant's pipeline system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this "budget type" application is to enable Applicant to act with reasonable dispatch in the installation of delivery points which are routine in nature but which otherwise might require the filing and processing of a separate certificate application for each such delivery point.

The total cost of all projects for which authorization is sought herein will not exceed a maximum of $100,000, with no single project to exceed a cost of $15,000.

Deliveries through the subject delivery points will be made under Applicant's filed FPC Gas Tariff.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 3, 1963, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 24, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62–11624; Filed, Nov. 23, 1962; 8:46 a.m.]

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

NOVEMBER 20, 1962.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 38041: *Commodities between points in Texas.* Filed by Texas-Louisiana Freight Bureau, Agent (No. 452), for interested rail carriers. Rates on proprietary de-icing preparations, carpeting, rugs and lining, wooden lags, paper and paper articles, scrap rubber and borax, in carloads, and less-than-carloads, as described in the application, from, to and between points in Texas, over interstate routes through adjoining states.

Grounds for relief: Intrastate rates and maintenance of rates from and to points in other States not subject to the same conditions.

Tariff: Supplement 37 to Texas-Louisiana Freight Bureau tariff I.C.C. 935.

FSA No. 38043: *Vermiculite from Antonito, Colo., to official territory.* Filed by Western Trunk Line Committee, Agent (No. A–2285), for interested rail carriers. Rates on perlite and vermiculite, other than crude, in carloads, from Antonito, Colo., to points in official (not including Illinois) territory.

Grounds for relief: Market competition, modified short-line distance formula and grouping.

Tariff: Supplement 54 to Western Trunk Line Committee tariff I.C.C. A–396.

FSA No. 38044: *Lumber and related articles from and to points in southwestern territory.* Filed by Southwestern Freight Bureau, Agent (No. B–8300), for interested rail carriers. Rates on lumber and related articles, in carloads, between points in southwestern territory, including Mississippi River crossings, Memphis, Tenn., and south thereof; between points in southwestern territory, on the one hand, and points in Illinois, Kansas and Missouri, on the other; also from points in southwestern territory, on the one hand, to points in Colorado, Illinois and Nebraska, on the other.

Grounds for relief: Motor-truck competition, short-line distance formula, and grouping.

Tariffs: Supplements 39 and 41 to Southwestern Freight Bureau tariff I.C.C. 4454, and 5 other schedules named in the application.

FSA No. 38045: *Iron and steel articles within official territory.* Filed by Traffic Executive Association-Eastern Railroads, Agent (E.R. No. 2642), for interested rail carriers. Rates on manufactured iron and steel articles, in carloads, as described in the application, between points in official (including Illinois) territory; also between such points, on the one hand, and points in extended zone C, on the other.

Grounds for relief: Common, contract and private motor-carrier competition; also foreign import competition.

Tariffs: Supplement 197 to Traffic Executive Association-Eastern Railroads tariff I.C.C. A–686 and 37 other schedules named in the application.

FSA No. 38046: *Class and commodity rates from and to Westover, Ala.* Filed by O. W. South, Jr., Agent (No. A4257), for interested rail carriers. Rates on various commodities moving on class and commodity rates, in carloads and less-than-carloads, between Westover, Ala., on the one hand, and points in the United States and Canada, on the other.

Grounds for relief: New station and grouping.

AGGREGATE OF INTERMEDIATES

FSA No. 38042: *Commodities between points in Texas.* Filed by Texas-Louisiana Freight Bureau, Agent (No. 453), for interested rail carriers. Rates on proprietary de-icing preparations, motor vehicles, carpeting, rugs and lining, wooden lags, paper and paper articles, scrap rubber, and borax, in carloads and less-than-carloads, as described in the application, from, to and between points in Texas, over interstate routes through adjoining States.

Grounds for relief: Maintenance of depressed rates published to meet intrastate competition without use of such rates as factors in constructing combination rates.

Tariff: Supplement 37 to Texas-Louisiana Freight Bureau tariff I.C.C. 935.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.
