## Title 3—THE PRESIDENT

### Proclamation 3523

#### THE WARSAW GHETTO UPRISING

By the President of the United States of America

#### A Proclamation

Of the more than 400,000 Jews whom the Nazis had previously walled into the Warsaw Ghetto, only about 70,000 remained in April of 1943. With deadly efficiency, most of the other inhabitants had been transported by the Nazis to concentration camps and had there been exterminated. The surviving Jews, suffering from malnutrition and disease, with pitifully few weapons and virtually no hope of assistance from any source, determined to sell their lives as dearly as possible. They engaged the Nazis in battle.

The result was known by the Jews to be foredoomed. Yet, though they lacked both military resources and a military tradition, they were able to conduct their struggle against the overwhelming forces of the Nazi occupiers for more than three weeks, thereby providing a chapter in the annals of human heroism, an inspiration to the peace-loving people of the world and a warning to would-be oppressors which will long be remembered.

NOW, THEREFORE, I, JOHN F. KENNEDY, President of the United States of America, in consonance with the joint resolution of Congress approved August 28, 1962 (76 Stat. 407), do hereby invite the people of the United States to observe the twentieth anniversary of the Warsaw Ghetto uprising, April 21, 1963, with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this Fourth day of March in the year of our Lord nineteen hundred and sixty-three, and of [SEAL] the Independence of the United States of America the one hundred and eighty-seventh.

JOHN F. KENNEDY

By the President:

DEAN RUSK,  
*Secretary of State.*

## Title 7—AGRICULTURE

### Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

#### SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS [Amdt. 13]

#### PART 728—WHEAT

#### Subpart—Wheat Marketing Quota Regulations for 1961 and Subsequent Crop Years

#### EXCESS ACREAGE UTILIZATION DATES AND MISCELLANEOUS AMENDMENTS

The amendments herein are issued pursuant to and in accordance with the Agricultural Adjustment Act of 1938, as amended, and are issued (1) to provide final dates for the disposal of excess wheat acreage, effective for the 1963 and subsequent crops of wheat in the States of California, Colorado, Kansas, Kentucky, Nebraska, New Jersey and Oklahoma; (2) to provide for revisions in determination of amount of stored excess wheat which may be removed by underplanting or underproduction; (3) to revise the wheat acreage definition, relating to mixtures of wheat and crops other than grains; and (4) to provide that marketing cards issued for a current year would become invalid after the beginning of wheat harvest in the following year.

Since the determination of 1963 winter wheat acreage is now being made, it is important that State and county committees be notified of the amendments herein as soon as possible so that producers with 1963 excess wheat acreage

may be notified of the final dates for utilization of such excess acreage as wheat cover crop and of the amount of stored excess wheat which may be released by 1963 underplanting. Accordingly, it is hereby found that compliance with the public notice, procedure, and 30-day effective date provisions of section 4 of the Administrative Procedure Act is impractical and contrary to the public interest. Therefore, the amendments shall become effective upon their publication in the FEDERAL REGISTER.

1. Section 728.1141(y) is amended by deleting the period following the last sentence of subparagraph (9) and by adding the following language at the end thereof: "and (10) except as provided in subparagraph (9) of this paragraph, any acreage of wheat and crops other than grains listed under the Official Grain Standards of the United States if the average harvested yield of wheat in the mixture is three bushels or less per acre."

2. Section 728.1145(b) is amended to change the excess acreage utilization dates for the following States:

a. The fourth sentence in said paragraph is amended to read as follows: "The amount of wheat authorized to be removed from storage shall be apportioned among the several producers on the farm who have stored excess wheat to the extent of their respective needs therefor not to exceed their respective shares in the acreage which was or could have been planted to wheat; except that if the underplanting is on the same farm on which the prior year's excess occurred, the amount of wheat authorized to be removed from storage may be apportioned among the several producers on the farm who share in such stored excess wheat in accordance with their

## RULES AND REGULATIONS

agreement as to the apportionment to be made."

b. The sixth sentence of said paragraph is amended by adding the words and figures "or 1963" following the figures "1962" in said sentence.

5. Section 728.1169(i) is amended as follows:

a. The fourth sentence is amended as follows: "The amount of wheat which is authorized to be removed from storage shall be apportioned among the several producers on the farm who have stored excess wheat not to exceed their proportionate shares in the wheat crop on the farm; except that if underproduction is on the same farm on which the prior year's excess occurred, the amount of wheat authorized to be removed from storage may be apportioned among the several producers on the farm who share in such stored excess wheat in accordance with their agreement as to the apportionment to be made."

b. The last sentence is amended by adding the words and figures "or 1963" following the figures "1962" in the said sentence.

(Secs. 374, 375, 52 Stat. 65, as amended, 66 as amended; sec. 1, 55 Stat. 203, as amended; 7 U.S.C. 1374, 1375, 1340)

Effective date: Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on March 1, 1963.

## Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

### SUBCHAPTER F—DETERMINATION OF NORMAL YIELDS AND ELIGIBILITY FOR ABANDONMENT AND CROP DEFICIENCY PAYMENTS

[Sugar Determination 842.2, Supp. 4]

#### PART 842—BEET SUGAR AREA

##### Approved Local Areas for 1960 Crop § 842.6 Approved local areas for the 1960 crop.

For purposes of considering eligibility for abandonment and crop deficiency payments on 1960-crop sugarbeets, the respective Agricultural Stabilization and Conservation county committees have determined with respect to the following counties and local producing areas that due to drought, flood, storm, freeze, disease, or insects, the actual yields of commercially recoverable sugar from the acreages planted to sugarbeets on farms in each such county or local producing area were below 80 percent of the applicable normal yields either for 10 percent or more of the number of such farms or for 10 percent or more of the total acres of sugarbeets planted on all farms in such county or local producing area.

Statement of bases and considerations.

One of the conditions of eligibility of a sugarbeet producer for an acreage abandonment or crop deficiency payment is that the farm of such producer is located in a county or local producing area for which the Agricultural Stabilization and Conservation county committee determines that certain uncontrollable natural conditions have caused a prescribed amount of damage to the sugarbeet crop.

The purpose of this supplement is to give notice that specific counties and local producing areas have qualified under the requirements with respect to the 1960 crop of sugarbeets and that any sugarbeet producer operating a farm

which is located in any one of these counties or local producing areas and which is otherwise qualified may apply for payment accordingly, if he has not already done so.

PART 842—BEET SUGAR AREA

Approved Local Areas for 1961 Crop  
§ 842.7 Approved local areas for the 1961 crop.

For purposes of considering eligibility for abandonment and crop deficiency payments on 1961-crop sugarbeets, the respective Agricultural Stabilization and Conservation county committees have determined with respect to the following counties and local producing areas that due to drought, flood, storm, freeze, disease, or insects, the actual yields of commercially recoverable sugar from the acreages planted to sugarbeets on farms in each such county or local producing area were below 80 percent of the applicable normal yields either for 10 percent or more of the number of such farms or for 10 percent or more of the total acres of sugarbeets planted on all farms in such county or local producing area.

*Statement of bases and considerations.* One of the conditions of eligibility of a sugarbeet producer for an acreage abandonment or crop deficiency payment is that the farm of such producer is located in a county or local producing area for which the Agricultural Stabilization and Conservation county committee determines that certain uncontrollable natural conditions have caused a prescribed amount of damage to the sugarbeet crop.

The purpose of this supplement is to give notice that specific counties and local producing areas have qualified under the requirements with respect to the 1961 crop of sugarbeets and that any sugarbeet producer operating a farm which is located in any one of these counties or local producing areas and which is otherwise qualified may apply for payment accordingly, if he has not already done so.

ruary 12, 1963 (28 F.R. 1343) pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) and in which there was set out in full the terms of the proposed amendment to paragraph (c) of § 103.7, Chapter I, Title 8, Code of Federal Regulations, relating to fees. No representations were received concerning the proposed rule. The rule as set out below is adopted.

Items 2, 6, and 14 are amended and Item 23 is added so that when taken with the introductory material of paragraph (c) of § 103.7 *Records and fees* they will read as follows:

(c) *Additional fees.* In addition to the fees enumerated in sections 281 and 344 of the Act, the following fees and charges are prescribed:

* * * * *	
For set of annual tables entitled "Passenger Travel Reports via Sea and Air"-----	\$2.00
* * * * *	
For filing application for permission to reapply for excluded or deported aliens, aliens who have fallen into distress and have been removed, aliens who have been removed as alien enemies, or aliens who have been removed at Government expense in lieu of deportation-----	7.00
* * * * *	
For annual subscription for "Passenger Travel Reports via Sea and Air"-----	23.00
* * * * *	
For filing application for waiver of the foreign residence requirement under section 212(e) of the Act-----	25.00

The basis and purpose of the rule is to require the submission of the prescribed fees to cover the costs of furnishing the services and processing the applications enumerated.

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the requirements of section 4(c) of the Administrative Procedure Act relating to delayed effective date is unnecessary in this instance because the persons affected by the foregoing rule will not require additional time.

Dated: March 5, 1963.

(6) The following counties in Hawaii: Honolulu, Kauai, and Maui.

(b) Notice is hereby given also that sheep scabies exists in all States and Territories and parts of States not designated as free areas in paragraph (a) of this section, and they are hereby designated as infected areas.

**§ 74.3 Designation of eradication areas.**

(a) Notice is hereby given that sheep in the following States, Territory, or parts thereof as specified, are being handled systematically to eradicate scabies in sheep, and such States, Territory, and parts thereof, are hereby designated as eradication areas:

(1) Illinois, Kentucky, Maryland, Minnesota, New Jersey, New York, Okla-

homa, Pennsylvania, Tennessee, and the Virgin Islands of the United States;

(2) All counties in Nebraska except Arthur, Banner, Blaine, Box Butte, Brown, Chase, Cherry, Cheyenne, Dawes, Deuel, Dundy, Garden, Grant, Hooker, Keith, Keya Paha, Kimball, Loup, Morrill, Perkins, Rock, Sheridan, Sioux, Scotts Bluff, and Thomas;

(3) All counties in New Mexico except Bernalillo, Catron, Colfax, Curry, De Baca, Dona Ana, Grant, Guadalupe, Harding, Hidalgo, Los Alamos, Luna, McKinley, Mora, Quay, Rio Arriba, Roosevelt, Sandoval, San Juan, San Miguel, Santa Fe, Sierra, Socorro, Taos, Torrance, Union, and Valencia;

(4) All counties in Hawaii except Honolulu, Kauai, and Maui;

(5) The following counties in Kansas: Washington, Clay, Dickinson, Marion, Butler, Cowley, and all counties in the State of Kansas lying east thereof;

(6) The following counties in Missouri: Jackson, Lafayette, Saline, Cooper, Moniteau, Cole, Osage, Gasconade, Franklin, St. Louis, and all counties in the State of Missouri lying south thereof;

(7) The following counties in Michigan: Allegan, Arenac, Barry, Bay, Berrien, Branch, Calhoun, Cass, Clare, Clinton, Eaton, Genesee, Gladwin, Gratiot, Hillsdale, Huron, Ingham, Ionia, Iosco, Isabella, Jackson, Kalamazoo, Kent, Lake, Lapeer, Lenawee, Livingston, Macomb, Mason, Mecosta, Midland, Monroe, Montcalm, Muskegon, Newaygo, Oakland, Oceana, Ogemaw, Osceola, Ottawa, Saginaw, Sanilac, Shiawassee, St. Clair, St. Joseph, Tuscola, Van Buren, Washtenaw, and Wayne.

(Secs. 4-7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791-792, as amended, secs. 1-4, 33 Stat. 1264, as amended, 1265, as amended; 21 U.S.C. 111-113, 115, 117, 120, 121, 123-126; 19 F.R. 74, as amended)

**Effective date.** The foregoing amendments shall become effective upon issuance.

The amendments add Maui County in the State of Hawaii to the list of free areas and delete such county from the list of infected and eradication areas as sheep scabies is no longer known to exist therein. After the effective date of these amendments, the restrictions pertaining to the interstate movement of sheep from or into infected and eradication areas as contained in 9 CFR Part 74, as amended, will not apply to such county. However, the restrictions in said Part 74 pertaining to the interstate movement of sheep from or into free areas will apply thereto.

The amendments relieve certain restrictions presently imposed and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and contrary to the public interest, and the amendments may be made

effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 5th day of March 1963.

## Title 14—AERONAUTICS AND SPACE

### Chapter I—Federal Aviation Agency

#### SUBCHAPTER E—AIRSPACE [NEW]

[Airspace Docket No. 62-SW-46]

### PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

#### Alteration of Control Zone

On November 15, 1962, a notice of proposed rule making was published in the FEDERAL REGISTER (27 F.R. 11287) stating that the Federal Aviation Agency proposed to alter the Plainview, Tex., control zone.

No adverse comments were received regarding the proposed amendment.

Subsequent to the issuance of the notice, a flight check of the newly established Plainview VOR required a change of the final approach radial from 037° True to 034° True. Action is taken herein to reflect this change.

After the issuance of the notice, Parts 600 and 601 of the regulations of the Administrator were consolidated and recodified into Part 71 [New] of the Federal Aviation Regulations, effective December 12, 1962 (27 F.R. 10352, 220-2). The airspace action taken herein reflects the new format and numbering system adopted for these parts.

Interested persons have been afforded an opportunity to participate in the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following action is taken:

In § 71.171 (27 F.R. 220-91, November 10, 1961), the Plainview, Tex., control zone is amended to read:

Plainview, Tex.

Within a 3-mile radius of the Hale County Airport (latitude 34°10'10" N., longitude 101°43'00" W.) and within 2 miles either side of the Plainview VOR 034° radial extending from the 3-mile radius zone to 5.5 miles SW of the approach end of Runway 4 from 0600 to 2200 hours, local time, daily.

This amendment shall become effective 0001 e.s.t., May 2, 1963.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on March 4, 1963.

W. THOMAS DEASON,  
Assistant Chief,  
Airspace Utilization Division.

## Title 20—EMPLOYEES' BENEFITS

### Chapter V—Bureau of Employment Security, Department of Labor

#### PART 604—POLICIES OF UNITED STATES EMPLOYMENT SERVICE

##### Services to Women

Pursuant to authority in section 12 of the Wagner-Peyser Act (29 U.S.C. 49k), Reorganization Plan No. 2 of 1949 (3 CFR 1949-53 Comp., p. 998), and 29 CFR 602.21, I hereby establish a 20 CFR 604.20 to read as set forth below.

As this amendment provides a statement of general policy, notice of proposed rule making, public participation in its adoption, and delay in its effective date are excepted from the requirements of section 4 of the Administrative Procedure Act. It shall become effective upon publication in the FEDERAL REGISTER.

##### § 604.20 Service to women.

It is the policy of the United States Employment Service:

(a) To promote employment opportunity for applicants of both sexes on the basis of skills, abilities, and job qualifications.

(b) To encourage acceptance and use by employers of hiring specifications based exclusively upon job performance factors.

(c) To stimulate and cooperate in the conduct of educational programs with employers, employer groups, labor unions, and the community to promote employer acceptance of women workers on the basis of their qualifications, and thus provide fuller utilization of the Nation's total human resources.

(d) To insure that specialized services are developed for female as well as male applicant groups needing particular attention in order to facilitate their placement on jobs for which they are qualified.

## Title 32—NATIONAL DEFENSE

### Chapter VII—Department of the Air Force

#### SUBCHAPTER W—AIR FORCE PROCUREMENT INSTRUCTION

##### MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

Subchapter W of Title 32 is amended as follows:

##### PART 1001—GENERAL PROVISIONS

###### Subpart A—Introduction

1. Revise § 1001.103-2 to read as follows:

###### § 1001.103-2 Numbering.

Sections, subparts, or parts of this subchapter bearing numbers identical to those appearing in Subchapter A, Chapter 1 of this title implement the sections, subparts and parts in Subchapter A, Chapter 1 of this title.

(a) If it is necessary to implement Subchapter A, Chapter 1 of this title, but there is no appropriate heading, the material may be added to the AFPI section as the section number plus point fifty; e.g. § 1001.109-50.

(b) First reference should always be made to Subchapter A, Chapter 1 of this title, notwithstanding any implementation or lack thereof in this subchapter. If a section in Subchapter A, Chapter 1 of this title requires no implementation, the section identification and title will not be shown in this subchapter.

(c) If a section in this subchapter does not implement a specific section in Subchapter A, Chapter 1 of this title but pertains to a general subject covered in

a subpart of Subchapter A, Chapter 1 of this title, the section in this subchapter will be numbered consecutively starting with the particular subpart number plus fifty; e.g. § 1001.650.

(d) Additional parts and subparts may be added to this subchapter covering subjects not treated in Subchapter A, Chapter 1 of this title.

2. Add §§ 1001.106 and 1001.106-1 as follows:

###### § 1001.106 Other Department of Defense publications.

###### § 1001.106-1 Department of Defense directives and instructions.

DOD directives and instructions on procurement matters will be implemented in the Air Force Procurement Instruction or Air Force Procurement Circular (this subchapter). DOD directives and instructions may be included and reference made to their numbers and dates.

###### Subpart C—General Policies

1. Revise § 1001.313-50 as follows:

###### § 1001.313-50 Initial procurement.

Initial quantities of spare parts, with the exception of military, industry, and contractor standard items, will normally be procured from the end item manufacturer. These parts may be procured through provisioning procedures, when appropriate, utilizing authorized contractual provisioning documents. Any proposal for deviations received and/or initiated by any AF activities to authorized contractual provisioning documents or their application, must be submitted to AFLC (MCSCP) for review and coordination prior to submitting the request for the deviation, for final action to (a) AFSC (SCMK-3) with respect to AFSC and OAR contracts, or (b) AFLC (MCPC) with respect to AFLC and all other major command contracts.

2. Revise § 1001.314 to read as follows:

###### § 1001.314 Contracting officer's decision under the Disputes clause.

(a) This section deals with preparing decisions under the Disputes clause by contracting officers. The application of the following instructions are limited to cases where the Disputes clause contained in § 7.103-12 of this title is used. Where the Disputes clause of § 1007.4205-8 of this subchapter is used, the overseas command Staff judge advocate rather than the Staff Judge Advocate, Hq AFLC, will be the source of advice regarding proposed decisions and will be the channel for forwarding data relating to appeals (also see the instructions preceding the clause in § 1007.4205-8 of this subchapter).

(b) Preparation of decision. Where mutual agreement on a question of fact proves impossible, a findings and decision must be prepared by the contracting officer. This single document should contain a simple and concise statement of: (1) The claim, (2) the decision, (3) the findings of fact which support the decision, and (4) a reference to the Disputes clause. The factual determination must be relevant to the issues and supported by documents or oral statements.

§§ 1001.314-50; 1001.314-51; 1001.314-53-1001.314-55; 1001.355 and 1001.359 [Deletion]

3. Delete §§ 1001.314-50; 1001.314-51; 1001.314-53 through 1001.314-55; 1001.355 and 1001.359.

4. Sections 1001.314-52, 1001.314-56 and 1001.314-57 are revised to show change of command symbol, as follows:

§ 1001.314-52 Contractor's compliance and withdrawal after appeal is filed.

Whenever the contractor, subsequent to filing an appeal with the Armed Services Board of Contract Appeals, elects nevertheless to accept fully the findings and decision from which appeal was taken or any amendment thereof, and gives written notification of such acceptance to the contracting officer concerned, the contracting officer will be responsible for promptly sending the contractor's notice of acceptance to the Staff Judge Advocate, Hq AFLC. Upon receipt of the notice the Staff Judge Advocate in collaboration with the contractor will prepare and submit a joint motion of withdrawal to the Board. Similar action will be taken by the contracting officer in instances where the contractor, after filing an appeal with the Armed Services Board of Contract Appeals, in writing signifies partial acceptance with the findings and decision of the contracting officer.

§ 1001.314-56 Delegation of authority to process contract appeals.

The Commander, AFLC, has been delegated authority to process all contract appeals directly to the Armed Services Board of Contract Appeals and the Appeal Board, Office of Contract Settlement. The Commander, AFLC, has further delegated this authority to the Staff Judge Advocate, Hq AFLC, with power of redelegation.

§ 1001.314-57 Staff Judge Advocate, Hq AFLC.

The Staff Judge Advocate, Hq AFLC, is the duly designated trial attorney to represent the Government in the defense of appeals before the Armed Services Board of Contract Appeals or the Appeal Board, Office of Contract Settlement. Decisions of the Armed Services Board of Contract Appeals by the Staff Judge Advocate, Hq AFLC, will be transmitted to the appropriate contracting officer for action according to the Board's decision. When the Chief Trial Attorney determines that the best interest of the Air Force will be served, a motion for reconsideration of an adverse decision will be filed.

5. Add § 1001.315 as follows:

§ 1001.315 Procurement of jeweled bearings.

(a) to (c) No implementation.

(d) Jeweled bearings required in the performance of AF contracts will comply with Specification MIL B-27497A, and MS Standards referenced therein.

6. In § 1001.360, revise paragraph (b) to read as follows:

§ 1001.360 Requests from foreign entities for information as to acquisition of production and sales rights to United States military end items.

\* \* \* \* \*

(b) This section applies to AFLC field procurement activities assigned prime class procurement, all major overseas commands, Air Procurement Region Far East (APRFE), and Air Procurement Region, Europe (APRE).

Subpart D—Procurement Responsibility and Authority

1. Section 1001.452-1 is added as follows:

§ 1001.452-1 Assignment of additional duties.

Contracting officers will not be assigned additional duties which would interfere with the effective discharge of their procurement duties.

2. In § 1001.453, an introduction is added as follows:

§ 1001.453 Delegations of authority.

Delegations of authority with respect to procurement are described in subsequent sections of this subpart. In addition to limitations and conditions applicable to individual delegations and included therewith, the provisions of the paragraphs set forth in this section apply to all delegations of procurement authority and are published in this section to eliminate their repetition.

§ 1001.457 [Amendment]

3. In § 1001.457, *Authority to enter into, execute and approve contracts*, delete the last sentence of subparagraph (2) in paragraph (a).

Subpart I—Responsible Prospective Contractors

1. In § 1001.905-1, revise paragraph (b) (1) and (2), and delete paragraph (d) as follows:

§ 1001.905-1 General.

\* \* \* \* \*

(b) (1) AFSC (ASXKM) WPAFB, Ohio will advise Army, National Aeronautical and Space Administration, and Navy of locations where data concerning AF contractors may be obtained and will secure similar information from them concerning Army, National Aeronautical and Space Administration and Navy contractors for AF purchasing activities.

(2) A contracting officer may request an EDR on a prospective contractor either from an FCR activity, if a contract on which information is desired is administered by that activity, or from a DOD or NASA purchasing activity that had recent experience under a contract not assigned to an FCR activity for administration. Requests may be made directly to Army, NASA or Navy purchasing activities if known or according to information furnished by ASXKM. See subparagraph (1) of this paragraph.

2. Revise § 1001.905-4 to read as follows:

§ 1001.905-4 Pre-award surveys.

See § 1001.902(d).

(a) to (d) No implementation.

(e) When a preaward survey is required to support an FCR on a plant assigned to another military department or NASA, the FCR activity will request the local office of that department or NASA to perform the survey or to supply information necessary to complete the FCR.

3. In § 1001.905 revise the introductory portions of paragraphs (a) and (b) as follows, retaining the present subparagraphs:

§ 1001.950 Small business procedures.

(a) Negative FCR on Small Business concern or on Production or Research and Development Pools (see § 1.302-3 of this title) that have been designated Small Business.

\* \* \* \* \*

(b) Qualified FCR on Small Business concern or on Production or Research and Development Pools (see § 1.302-3 of this title) that have been designated Small Business concerns.

\* \* \* \* \*

Subpart J—Publicizing Procurement Actions

In § 1001.1002-51, revise paragraphs (a) (2) and (b) as follows:

§ 1001.1002-51 Distribution of invitations for bid and requests for proposals.

(a) \* \* \*

(2) Small Business Administration, Procurement Advisory Center, 811 Vermont Avenue, Washington 25, D.C.

\* \* \* \* \*

(b) *Classified IFBs*. See AFR 205-1 (Safeguarding Military Information) for instructions on distributing classified documents. In such cases, instead of sending a copy of the IFB to the Small Business Administration, as set forth in paragraph (a) (2) of this section for unclassified invitations, a letter will be sent to that office, in substance as follows:

This office has issued Invitation for Bids No. \_\_\_\_\_ dated \_\_\_\_\_, bids to be opened on \_\_\_\_\_, under classified project No. \_\_\_\_\_.

Subpart L—Specifications, Plans, and Drawings

1. In § 1001.1202, revise paragraph (c) to read as follows:

§ 1001.1202 Mandatory specifications.

\* \* \* \* \*

(c) No implementation.

2. Present § 1001.1206 is deleted and new §§ 1001.1206 through 1001.1206-3 are added as follows:

§ 1001.1206 Purchase descriptions.

§ 1001.1206-1 General.

(a) When a purchase description is authorized in lieu of a specification (see § 1.1202(b) of this title) it should be written in such a manner as to clearly describe the essential physical and functional characteristics of the item being

procured. As many of the following characteristics as are necessary to express the minimum requirements of the Government should be utilized in setting forth the purchase description:

- (1) Kind of material.
- (2) Electrical data, if any.
- (3) Dimensions.
- (4) Principles of operation.
- (5) Restrictive or significant environmental conditions.
- (6) If part of an assembly, the location within the assembly.
- (7) Essential operating conditions.
- (8) Special features, if any.
- (9) Intended use.
- (10) Operation to be performed.
- (11) Equipment with which the item is to be used.
- (12) Other requirements, as appropriate.

**§ 1001.1206-2 Brand name or equal purchase descriptions.**

- (a) No implementation.
- (b) Unless the identification of a requirement by use of a brand name (identifiable by a part number or model number) followed by the words "or equal" is so well known to the trade or industry, that there is no doubt that all bidders will recognize the item(s) desired, then brand name or equal purchase descriptions should also include those characteristics referenced in § 1001.1206-1(a) (1) through (12) as considered necessary to clearly identify the needs of the Government.

**§ 1001.1206-3 Invitation for bids—"Brand Name or Equal" purchase descriptions.**

- (a) No implementation.
- (b) The provision in § 1.1206-3(b) of this title entitled "Brand Name or Equal" is not applicable to contracts for construction, rehabilitation, and repair of buildings or structures.

**PART 1002—PROCUREMENT BY FORMAL ADVERTISING**

**Subpart D—Opening of Bids and Award of Contract**

In § 1002.403 revise paragraph (b) (9) (iii) to read as follows:

**§ 1002.403 Recording of bids (abstract of bids).**

- \* \* \* \* \*
- (b) \* \* \*
  - (9) \* \* \*
- (iii) *Small Business Administration, Procurement Advisory Center.* Within 3 working days after bids have been opened and final action taken, or after it is decided to cancel the invitation before opening bids, a copy of the abstract will be mailed to the Small Business Administration, (see § 1001.1004-1(a) (1) of this subchapter for address).

**Subpart E—Two-Step Formal Advertising**

A new Subpart E is added as follows:

**Subpart E—Two-Step Formal Advertising**

Sec.	
1002.500	Applicability of subpart.
1002.502	Conditions for use.

Sec.	
1002.503	Procedures.
1002.503-1	Step one.
1002.503-2	Step two.
1002.503-50	Award.

**AUTHORITY:** §§ 1002.500 to 1002.503-50 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U.S.C. 2301-2314.

**§ 1002.500 Applicability of subpart.**

This subpart applies to procurements accomplished by AFLC/AFSC field procurement activities.

**§ 1002.502 Conditions for use.**

- (a) to (d) No implementation.
- (e) A production contract is contemplated as distinguished from a contract that would require development to advance the state of the art to meet AF requirements.

**§ 1002.503 Procedures.**

**§ 1002.503-1 Step one.**

It is necessary to obtain concurrence of the cognizant engineering activity before using this procedure. If the engineering activity concurs in using the two-step procedure, it will specifically state in writing the detailed requirements for the technical proposal to give all bidders an equal opportunity to submit the required data. The engineering activity will furnish to the buyer the criteria for technical proposals, cutoff date for receipt of technical proposals, and anticipated date evaluation of technical proposals will be completed. If the engineering activity does not concur in using this procedure for the procurement under consideration, the nonconcurrence will be signed at the level of the Chief of the Laboratory, or comparable level, and will be considered a final determination not to use this procedure. The reasons cited in the nonconcurrence will be considered in determining an alternate method of procurement.

(a) *Request for technical proposals.* The letter request for technical proposals will be identified as "Letter Request for Technical Proposals (add applicable purchase request number)." The IFB resulting from the request for technical proposals will be numbered in the normal manner. Distribution of request for technical proposals and data will be according to § 1001.1002-51(a) of this subchapter.

- (1) to (9) No implementation.
- (10) A statement that submission of multiple technical proposals is acceptable, reading substantially as follows:
  - (i) Bidders are encouraged to submit multiple technical proposals in the first step of this two step procurement. Each of the technical proposals will be evaluated and the source submitting the proposals notified of their acceptability or nonacceptability.

(b) *Receipt and evaluation of technical proposals.* (1) to (3) No implementation.

(4) Technical evaluation will be accomplished as set forth in joint AFLCR 84-19/AFSCR 11-16. The engineering activity will submit recommendations to the buyer for negotiations with firms which submitted marginal proposals.

(5) Following any negotiations with the bidders, the engineering activity will give the buyer its final evaluation of each of the technical proposals. Acceptable proposals will be so designated. For unacceptable proposals, the engineering activity will give complete and detailed reasons why the proposal is not acceptable. Technical evaluations listing proposals which are unacceptable must clearly state whether rejection is based on the failure of the firm to furnish sufficient information or because of an unacceptable engineering approach. If the rejection is because of missing information, the evaluating activity must state specifically what information was not furnished. These evaluations are recommendations only and must be approved by the contracting officer, as selection of sources is his responsibility. However, any differences of opinion between the contracting officer and the engineering activity must be mutually resolved or decision will be made in writing by the chief or deputy chief of the buying division, of the AFLC/AFSC procurement activities, following discussion with the chief of the cognizant engineering activity.

**§ 1002.503-2 Step two.**

- (a) to (d) No implementation.
- (e) Will include a statement substantially as follows:
 

Bidders which have previously submitted multiple technical proposals under the first step of this two step procurement may submit a separate bid covering each technical proposal which has been determined acceptable by the Government.

**§ 1002.503-50 Award.**

In connection with award resulting from two-step formal advertising, the Method of Advertising portion of Standard Form 1036, "Statement and Certificate of Award," will be executed as follows:

- (a) Line 1: No.
- (b) Line 2(a): Insert number of sources furnished the request for technical proposal in the first step.
- (c) Line 2(b): Yes.

The blank in the Certificate should indicate the number of bids received in the second step.

**PART 1003—PROCUREMENT BY NEGOTIATION**

**Subpart F—Small Purchases**

1. In § 1003.652-3(b), subdivision (iii) (a) and (b), and subdivision (iv) (a) are set forth to change "AFPI Form 79" to "DD Form 1155" as follows:

**§ 1003.652-3 Purchasing procedures.**

- \* \* \* \* \*
- (b) *Construction services.* \* \* \*
  - (iii) \* \* \*
  - (a) If the final negotiated price for the restoration is considered fair and reasonable and, when added to the cost for the initial tear down or excavation, does not exceed \$2,000, the contractor who performed the tear down or excavation will be instructed to proceed with the

construction services. The procurement action will be completed by issuing a DD Form 1155 which will reflect separate line items for the tear down or excavation and for the restoration work.

(b) If the final negotiated price for the restoration service is not considered fair and reasonable and/or the restoration costs when added to the tear down or excavation costs exceed \$2,000, the contractor will be advised accordingly and the purchase action for services performed will be accomplished by confirmation DD Form 1155. The restoration services will be considered a separate requirement. The breakdown of material, equipment and labor obtained according to subdivision (ii) of this subparagraph may be used as a basis for soliciting competition for the restoration requirement.

(iv) \* \* \*

(a) Purchase action for services performed will be accomplished by confirmation DD Form 1155.

2. A new § 1003.653 is added as follows:  
**§ 1003.653 Blanket delivery orders.**

Certain requirements contracts are of such a nature that the supplies or services called for thereunder do not lend themselves to normal requisitioning procedures (e.g. the quantity of supplies or amount of service is unable to be determined until shortly before or subsequent to delivery, and scheduling of deliveries are required on a "daily," "weekly," etc. (as determined necessary) basis as scheduled by the requiring activity (i.e. commissary officer, transportation officer, etc.).

(a) Monthly or prior to the beginning of each fiscal quarter the requiring activity may initiate a purchase request for the estimated monthly/quarterly requirements under the contract and forward it to the contracting officer.

(b) Upon receipt of the purchase request, the contracting officer will ascertain that the items listed thereon are covered by the basic contract and will submit a delivery order (DD Form 1155) to the contractor for the estimated requirements for the period covered. The delivery order will not itemize the items listed on the purchase request, but will cite the appropriate accounting classification and will contain a statement similar to the following:

"For ----- products covered by Contract No. ----- to be delivered during the months of ----- as scheduled by the ----- officer. Aggregate monetary total of all deliveries made against this delivery order shall not exceed \$----- unless authorized in writing by the contracting officer."

NOTE: Fill in blank spaces.

(c) The activity scheduling deliveries set forth in the contract will maintain informal records against such delivery orders to insure that the designated monetary limitations are not exceeded. Requirements will be placed in numerical sequence and recorded. At the end of each month the procedure in paragraph (d) of this section will be effected. However, the sequence of recording deliveries scheduled will not be interrupted.

(d) On the last day of the month covered by the delivery order, the requiring activity will prepare a consolidated receiving report (by line item of the contract) for all deliveries made during the monthly period. Obligations will then be recorded and reported in the month in which they are incurred. One copy of each consolidated receiving report prepared will be furnished to complete the files in the base procurement office.

(e) Requirements Contracts and Delivery Orders for Commissary Resale items will coincide with the inventory date (e.g. 25th of each month) of the commissary. Items will be reported for the month for which the consolidated receiving report is prepared. Delivery order numbers should be taken from the register sufficiently in advance so as to come within the subsequent month's business.

(f) The procedures set forth in this section may be adopted to obtain products listed in Supply Bulletins. However, use of the procedure will be limited to: (1) Suppliers that agree to accept monthly/quarterly delivery orders and (2) items which do not lend themselves to warehousing and which must be supplied weekly or more often to the Commissary sales store to insure freshness.

(g) The procedure in this section does not preclude the contracting officer from using a blanket delivery order system, similar to the procedure in this section, on any requirements type contract provided the scheduling of deliveries is accomplished by the procurement office.

(h) Requiring activities will not be designated as the delivery scheduling office on requirements contracts unless authorization had previously been given, are for packing and crating, laundry and dry cleaning, bakery, dairy, ice and other frequently procured subsistence supplies or approval has been granted by AFLC (MCPPL).

**PART 1004—SPECIAL TYPES AND METHODS OF PROCUREMENTS**

AUTHORITY: §§ 1004.101 to 1004.2302 issued under sec. 8012, 70A Stat. 488; 10 U.S.C. 8012. Interpret or apply secs. 2301-2314, 70A Stat. 127-133; 10 U.S.C. 2301-2314.

**Subpart A—Procurement of Construction**

**§ 1004.101 General policy.**  
**§ 1004.101-2 Government estimates for fixed-price type contracts.**

Government estimates which are furnished by the Civil Engineer on AF Form 161 will be marked "For Official Use Only." If this estimate varies with that on AF Form 9, the estimate contained on AF Form 9 will be considered the official estimate.

**§ 1004.101-4 Statutory cost limitations.**

(a) All invitations for bid or requests for proposal which contain construction items subject to statutory limitation will contain the following clause:

**STATUTORY LIMITED ITEMS (FEB. 1962)**

Each bidder must certify on the bid that the prices bid for each of the items identified as being subject to a statutory limitation include an appropriate apportionment of all estimated applicable costs, direct and indirect, as well as overhead and profit. The government will reject any bid materially unbalanced with respect to the prices bid for items subject to the statutory limitation as contrasted to the prices bid for items not subject to statutory limitations. In this regard, attention is invited to the Penalty for False Statements citation made elsewhere in this invitation.

(b) In conformance with the clause in paragraph (a) of this section, a statement such as or similar to the following will be cited on the bid form:

The contractor by signing this bid certifies that the prices bid for each of the items, identified in this bid as being subject to a statutory limitation, includes an appropriate apportionment of all estimated applicable costs, direct and indirect, as well as overhead and profit.

**§ 1004.101-50 Contracting with architect-engineer firms for construction work.**

(a) Air Force policy prohibits the award of a contract for professional architect-engineer services for a particular facility, and the award of a contract for the related construction work to the same firm, its subsidiaries or affiliates. Professional architect-engineer services, as referred to herein, means: (1) Those architectural and engineering services furnished in connection with developing

designs, drawings, specifications, and other documents prerequisite and essential to the construction of a facility, and (2) those technical and other services furnished by an architect-engineer, in behalf of the government, in connection with the supervision and inspection of the work performed and materials supplied by the construction contractor. This policy, adopted in an effort to prevent the development of conflicts of interest which might tend to prevent architect-engineer contractors from furnishing the best professional services of which they are capable and from rendering unbiased decisions during the design and construction periods, is in keeping with similar policies followed by other major governmental construction agencies.

(b) Certain firms possess both architectural-engineering and construction capabilities, either within their own organizations or through subsidiaries or affiliates. In the event such firms, their subsidiaries or affiliates, are selected as prospective contractors for professional architect-engineer services, they will be clearly informed of the policy in paragraph (a) of this section prior to the initiation of architect-engineer contract negotiations. At that time such firms will have the option of either: (1) Withdrawing from further architect-engineer contract negotiation to compete for the construction contract, or (2) continuing with contract negotiations for the architect-engineer contract under the condition that if such negotiations are successful, that firm, its subsidiaries or affiliates, will be ineligible to compete for the related construction contract. Accordingly, bids for the construction of a facility will not be solicited from the firm, its subsidiaries or affiliates, which furnished, or will furnish professional architect-engineer services for that facility.

**Exceptions:** The policy in this section is not applicable in those few cases where the Secretary of the Air Force specifically authorizes the use of cost-plus-fixed-fee contracting with a firm or group of firms for both the design and construction of a specialized facility, nor in those cases where contracts are awarded based on requirements specifications, for the production, delivery, and/or erection of multiple units of pre-engineered structures and such contracts require the successful contractors to furnish construction drawings, specifications, or site adaptation drawings of the structures. In neither of these excepted cases will the firm that prepared the drawings and specifications be engaged to supervise, on behalf of the government, the construction of the facility involved.

#### § 1004.101-51 Additive items in construction contracts.

Whenever it is determined that additional or alternate items will be required in a bid or proposal, the contracting officer will assure himself that the method in which he intends to make the award is clearly and specifically stated. Further, the contracting officer will classify any additive or alternate items in order of priority wherever possible. De-

termination to use additional or alternate items and selection of the order of priority of these items represent an integral part of the construction requirement; and, as such, must be reflected by the civil engineer in the purchase request submitted to the contracting office.

#### § 1004.101-52 Preparation of specifications, plans and work descriptions.

The base civil engineer is responsible for the timely and qualitative preparation of plans and specifications for the construction and repair of base facilities. However, the contracting officer should review specifications and work descriptions to insure that there are no provisions therein which will conflict with other provisions of the IFB or resultant contract. Such scrutiny will also be for the purpose of obviating changes or criticism when soliciting bids. When considered necessary the base civil engineer may consult with the contracting officer on the proper manner of wording the description of work to insure that it meets procurement requirements. The contracting officer should frequently confer with the base civil engineer regarding those projects for which contractual action is contemplated by the base procurement office. Meetings such as these afford the contracting officer advance notice of programmed projects and will aid him in developing a source list.

#### § 1004.101-53 Contract responsibility.

(a) The contracting officer will designate in the contract the base civil engineer as his technical representative for the purpose of supervision and inspection and assisting the contracting officer in the administration of the contract. (See § 1001.451(d) of this subchapter.) In this respect decisions of the base civil engineer on details of performance, quality of materials and work will be accepted by the contracting officer when they are within the scope of the contract. When it is determined to employ an architect-engineer by contract for the purpose of performing Title II services (Inspection and Supervision), the base civil engineer will furnish the contracting officer with a scope of work or specification for the services to be performed. This requirement for Title II services will generally be satisfied by including the appropriate option clause (see § 1007.4307-2 of this subchapter) in the contract for Title I services. The lump sum option clause will not be used unless a specification for inspection service is available. Reports of the architect-engineer will be routed through the base civil engineer for approval and transmission to the contracting officer.

(b) Contracting officers should budget their time so that a proper balance is constantly maintained between contract administration in the office and in the field. Field contacts should include a sufficient number of work site units for spot-checks on the adequacy of labor law compliance, project progress, government furnished property delivery, testing procedures, final inspection, and acceptance schedules.

(c) The base civil engineer, as technical representative of the contracting

officer, will be responsible for acquainting the contractor with required procedures for all operations necessary to accomplish the technical requirements of the contract. He will evaluate the contractor's performance and accomplishments within the scope and terms of the contract. However, in no case will the base civil engineer require the contractor to perform work beyond or which changes that prescribed in the contract. In this respect, it is the responsibility of the contracting officer and the base civil engineer to properly instruct technical inspectors as to their authority and responsibility under the contract.

(d) The base civil engineer may request the contracting officer to direct any change he deems necessary, however, only the contracting officer has authority to take any action to commit the government. Any changes in specifications or work description, the exercise of a contract option, or any other change in contract terms will be directed only by the contracting officer. The contracting officer's decision for changes is subject to his contract authority and the availability of funds. When a contract change is necessary, the contracting officer will administer the change in a manner that will minimize delay in performance of the contract.

#### § 1004.103 Negotiation.

The general principles and procedures pertaining to costs as set forth in Subparts D and F, Part 15 of this title and Subparts D and F, Part 1015 of this subchapter will be adhered to in all construction negotiations.

#### § 1004.103-2 Conduct of negotiations.

(a) The civil engineer will furnish a detailed cost breakdown on all contemplated changes to existing contracts estimated to exceed \$2,000. Prior to consummation of negotiations all changes will be subject to a price or cost analysis by the contracting officer according to the principles of Parts 3 and 15 of this title and Parts 1003 and 1015 of this subchapter, to the extent applicable.

(b) Regardless of the ultimate negotiated price any negotiation containing debits or credits, the combined total of which exceeds \$2,000, will be considered within the intent of the requirement in paragraph (a) of this section.

#### § 1004.104 Subcontracting.

##### § 1004.104-1 General.

The contracting officer will obtain the recommendations of the base civil engineer before awarding any new contract or exercising an option for additional work or additional period of service to determine whether the contractor has the technical capability or whether his past performance has been satisfactory. The final selection of a contractor or the decision whether an option will be exercised will be made by the contracting officer.

#### § 1004.105 Types of construction contracts.

If the contracting officer determines that it is necessary to use a CFFF type contract for construction in the U.S.,

using Military Construction funds in excess of \$25,000, the request for approval thereof should be submitted to the Assistant Secretary of Defense (Installation and Logistics) through AFLC (MCPC)/AFSC(SCMK), as appropriate, furnishing complete justification as to its suitability for use, bearing in mind the requirement of § 3.404 of this title.

**§ 1004.107 Expediting construction contracts.**

Requests to use expediting action will be submitted through the major air commands to Hq USAF (AFSPM with information copy to AFOCE) together with detailed justification as to why such action is required.

**Subparts B through S [Reserved]**

**Subpart T—Preparation and Use of Contracts for Care of Remains**

**§ 1004.2000 Scope of subpart.**

This subpart contains instructions for the preparation and use of contracts for care of remains of deceased Government personnel.

**§ 1004.2001 Applicability of subpart.**

This subpart applies to all AF procuring activities within the continental United States.

**§ 1004.2002 Contracts for care of remains of deceased Government personnel.**

(a) *General.* (1) Due to the nature of the services, the invitation for bids will not be posted in public places.

(2) When cremation is requested and the requirements of AFM 143-1 (Mortuary Affairs) have been complied with, cremation services will be procured on an individual basis. A suitable casket (cloth-covered suggested) and an urn may be provided.

(3) In the case of all nonviewable remains, a sealer type casket with an all-metal innerseal will be called for. When death is due to a communicable disease and the remains are viewable, a sealer type casket with a viewing panel of glass or acrylic and metal innerseal will be called for. (See paragraph 4.2c(5), specification MIL-C-9876A (USAF).)

(b) *Instructions for preparation of contracts.* (1) Payment for care of deceased personnel: (i) Payment will be effected from funds available for care and disposition of deceased personnel.

(ii) Payments for the care of deceased Air Force and Army personnel and such other Government employees and/or persons as are authorized services (by AFM 143-1) under the contract, will be made by the accounting and finance officer of the using activity, the requirement of which resulted in a call for services or supplies under the contract. Invoices will be submitted to the appropriate accounting and finance officer as directed by the contracting officer. For aerial port contracts only, the payments will include services rendered for remains of those individuals authorized mortuary service on a reimbursable basis providing the sponsor elected to use the

aerial port contract services and reimbursement has been properly effected in the oversea command for all cost involved. A statement to this effect should be included in all invitations for bids for aerial port requirements.

(iii) When deceased Navy or Marine Corps personnel are cared for under the contract, invoices will be submitted to the Naval activity which requested such services and supplies.

(2) The following insertions will be made on the Standard Form 33:

(i) In the introductory paragraph, following the words "for delivery F.O.B.," insert the words "destination as provided in the attached Schedule (Part I) and Specification MIL-C-9876A (USAF)."

(ii) In the schedule on the Standard Form 33, under the heading "Supplies or Services," insert the following:

The contract resulting from this invitation shall consist of Schedule (Part I); and General Provisions (Part II). The services and supplies to be furnished are set forth in the Schedule (Part I) and bid prices will be entered thereon. No additional items will be inserted by the bidder.

(3) Clauses for contracts for care of remains are contained in Subpart JJ, Part 1007 of this subchapter.

**Subpart U—DOD Non Temporary Storage Contracts**

**§ 1004.2102 Department of Defense commercial warehousing and related services for household goods of military and civilian personnel.**

The procedure for processing commercial storage requirements for household goods of military and civilian personnel is set forth in AFR 67-61 (Commercial Warehousing and Related Services for Household Goods of Military Personnel).

(a) *Policy.* The execution and administration of service orders (DD Form 1164, "Service Order for Household Goods") against basic agreements (DD Forms of 1162 series) will be performed in the base transportation office. Since this duty is fundamentally a procurement responsibility, the individual in the base transportation office performing these duties must be a duly appointed contracting officer according to § 1001.452 of this subchapter. In the appointment of base transportation personnel as AF contracting officers, care must be exercised to insure that such individuals' qualification and experience meets established minimum standards.

**§ 1004.2103 Delivery orders for packing and crating services.**

The warrant of the contracting officer located in the transportation office may include authority to place calls and execute delivery orders on DD Form 1155 for packing and crating services against existing requirements contracts. Execution and administration of the requirements contract (Subpart II, Part 1007 of this subchapter) and administration of delivery orders (except routine followup) will be accomplished by the base procurement office.

**Subpart V—Utility Service Contracts**

**§ 1004.2202 Execution and administration of utility service contracts and processing of payments for services rendered.**

The procedures established herein are applicable to the following types of utility services only: Electric, gas, water, sewage, and steam.

(a) *General.* Utility services, as defined above are normally procured by one of the following methods:

(1) General Services Administration Area Contracts according to Subpart H, Part 5 of this title and Subpart H, Part 1005 of this subchapter.

(2) Individual contracts executed by each AF activity for its requirements according to § 1016.501-2 of this subchapter and Subpart KK, Part 1007 of this subchapter.

(3) Without a written contract according to § 16.501-1 of this title and § 1016.501-1 of this subchapter and the procedures established in this section.

**Subpart W—Food Services Contracts**

**§ 1004.2302 Use and administration of food services contracts.**

(a) *General.* (1) Base utilization of contractual feeding is subject to Hq USAF approval. No procurement will be initiated until approval according to AFR 146-8 (Contractual Feeding), has been attained. Section 1007.5005 of this subchapter, subparagraph (2) of this paragraph, and paragraph (c) of this section are not mandatory outside the United States. However, if a requirement type contract is used, the use of Schedules clause in § 1007.5005 of this subchapter is mandatory.

(2) Requirements type contracts according to § 3.405-5(b) of this title and Subpart XX, Part 1007 of this subchapter, will be established for contractual feeding.

(3) A number of diversified and specialized duties are required in the performance of this service (see § 1007.5003-3(a) of this subchapter). Generally, in the performance of this service, a minimum basic work force will be required regardless of the number of meals served and an increase in the number of meals served will not automatically result in a proportionate increase in this basic work force. In determining the price to be charged "per meal served," the bidder must prorate the costs of this basic work force to the estimated number of meals to be served. Hence, the utmost care must be exercised in establishing realistic estimated quantities to be cited in the procurement action. Both food service and manpower offices should be consulted in establishing estimated quantities.

(4) To insure that all parties are aware of the contractor's liabilities and duties in connection with government property under the food services contracts clause entitled, "Use, Conservation, and Responsibility for Government Property" (see § 1007.5003-31 of this subchapter), the Exhibit "A" to be attached to each contract should be separately entitled "Fixtures," "Facilities" and

"Equipment" listing the items in each group. For this purpose, (i) Facilities will be considered as buildings and non-serverable attachments to the building, such as built-in refrigerators; (ii) fixtures will be large items not easily moveable, such as stoves; and (iii) equipment will be the smaller items such as dishes, silverware, pots, and pans.

(5) The contracting officer will designate, in the contract, the food service officer as his representative for the purpose of technical supervision and inspection. See § 1001.451(d) of this subchapter.

## PART 1007—CONTRACT CLAUSES

### Subpart NN—Special Clauses

#### § 1007.4036 [Deletion]

1. Delete § 1007.4036.
2. Revise § 1007.4041 to read as follows:

#### § 1007.4041 Descriptive identification data to be furnished by Government suppliers.

Supply contracts issued by AFSC Divisions and AFLC field procurement activities as a result of PRs or MIPRs which contain a requirement for descriptive identification data according to Specification MIL-D-26715 (USAF) will contain clause (a) below, where such data are required for end items on the contract, and/or (b) below, where such data are required for spare parts to be selected and furnished according to a provisioning document. In the event the PR or MIPR calls for prescreening data only, the first sentence of the (a) or (b) clause will be changed to read: "The contractor shall furnish prescreening data in accordance with requirements of MIL-P-9855 (USAF) as in effect on the date of this contract.

#### DESCRIPTIVE IDENTIFICATION DATA TO BE FURNISHED BY GOVERNMENT SUPPLIERS (AUG. 1960)

(a) In item No.(s) \_\_\_\_\_, the Contractor shall furnish identification data in accordance with MIL-D-26715 (USAF) as in effect on the date of this contract. This service is included as an item in the contract schedule. Such data shall be delivered to the Government in accordance with the time cycle contained in the specification. No deliveries shall be made on these items until the contract has been amended to include the appropriate stock numbers. Any delay on the part of the Government to adhere to the time cycle set forth in the specification shall be considered an excusable delay within the meaning of the clause of this contract entitled "Default" or "Excusable Delays." Any such excusable delay will automatically extend the delivery schedule by the time of the delay.

(SEPT. 1962)

(b) The contractor shall furnish identification data in accordance with MIL-D-26715 (USAF) as in effect on the date of this contract for spare parts to be selected and furnished under provisioning procedures as established by item No.(s) \_\_\_\_\_. The items to be identified and the price for furnishing such data shall be negotiated at the time and in the manner provided in this contract for selecting and pricing spare parts.

The items and prices so negotiated shall be set forth separately from the other contract items in the priced exhibits, or similar document of like import. Any delay on the part of the Government to adhere to the time cycle set forth in the Specification shall be considered an excusable delay within the meaning of the clause of this contract entitled "Default" or "Excusable Delays." Any such excusable delay will automatically extend the delivery schedule by the time of the delay.

### Subpart XX—Clauses for Food Service Contracts

Revise §§ 1007.5003-7 and 1007.5003-25 to read as follows:

#### § 1007.5003-7 Record and charge for meals served.

##### RECORD AND CHARGE FOR MEALS SERVED (JULY 1962)

(a) The Food Service Officer or his representative will make a head count and check the number of military personnel, contractor personnel, and other authorized personnel to whom meals are served and will furnish a consolidated report of all meals served to the Contractor at the end of each month for use as evidence to support its monthly invoices submitted to the finance officer. The Contractor may also maintain a separate meal attendance record. In the event of any discrepancy between the Food Service Officer's consolidated report and the Contractor's meal attendance record, the Contractor may submit the matter to the Contracting Officer for decision pursuant to the clause of this contract entitled "Disputes."

(b) Where prices are to be charged for meals, the Government shall establish the rate of charge thereof. Any cash charged for meals made at the time meals are served will be received and maintained by the Food Service Officer or his representative.

(c) Contractor personnel are authorized to purchase their meals during their tenure of duty at the rate established in accordance with paragraph (b) above. The Contractor shall not invoice or be paid for meals served contractor personnel.

#### § 1007.5003-25 Utilization of small business concerns.

Insert the clause in § 7.104-14 of this title excluding contracts exempted by § 1.707-2 of this title.

## PART 1012—LABOR

### Subpart B—Convict Labor [Deleted]

Subpart B is deleted.

### Subpart C—Eight-Hour Law of 1912 (Other than Construction Contracts) [Deleted]

Subpart C is deleted.

## PART 1013—GOVERNMENT PROPERTY

### Subpart A—General

Add § 1013.101-68 as follows:

#### § 1013.101-68 General Service Administration supply items.

The term "GSA Supply Item" includes all standard items of property, such as office furniture and equipment (typewriters, etc.) batteries, tires or other

equipment as indicated in the Federal Supply Schedule Check List and GSA Stores Stock Catalog.

### Subpart B—Material

Revise § 1013.200 to read as follows:

#### § 1013.200 Scope of subpart.

Special nuclear material furnished as government property will not be deemed controlled by the use of such terms as "standard commercial or industrial practices" in the contract. Separate and detailed control procedures will be developed by the contractor for such property and will be consistent with the requirements of the Air Force and the Atomic Energy Commission with respect to controls for health, safety, security, and accountability. The approval of such procedures will be preceded by coordination with the cognizant representatives of AFSC, including ASD, SSD or BSD as appropriate. Upon approval, copies of the procedure will be furnished to the directorate of Aeronautical Systems (SCSA) and the Directorate of Ballistic Missile and Space Systems (SCSB), Hq AFSC. The approval procedure will be incorporated in the contract by appropriate contract provisions (see § 1013.553).

### Subpart E—Contract Clauses

#### § 1013.550 [Redesignation]

In § 1013.550, *Bailment clauses*, present paragraph (d) is deleted and paragraphs (e) and (f) are redesignated paragraphs (d) and (e).

### Subpart X—Facility Expansion Procedure

In § 1013.2402, new paragraphs (s) and (t) are added, as follows:

#### § 1013.2402 Procedure.

\* \* \* \* \*

(r) [Reserved]

(s) *General Services Administration supply items*. See § 1013.101-68 and Subpart I, Part 5 of this title.

(t) *Manpower*. When the APD forwards recommendations with a facilities expansion proposal, the industrial manpower representative of the APD or AMA will review paragraphs (b) and (p) of "Contractor's Formal Application for Facilities" (§ 1013.2403), and include a statement as to the ability of the locality to support the proposed expansion, as regards manpower and community facilities. The labor market area (Group A, B, C, D, E, or F) will be identified. If not located in Group D, E, or F, substantial labor surplus area, the manpower representative will explain why it cannot be so located. If the proposed expansion is located in a Group A or B labor area and requires 200 or more employees, the facilities project officer will obtain comments of Resources Policy Division (MCPM), Hq AMC.

### Subpart CC—Limited Power of Attorney for Procurement From GSA or FSS Contractors by AF Contractors

Subpart CC is deleted.

**PART 1016—PROCUREMENT FORMS****Subpart H—Miscellaneous Forms**

Revise § 1016.814-1 to read as follows:

**§ 1016.814-1 Architect-Engineer Experience Data (DD Form 1071).**

See § 16.814-1 of this title and AFR 85-8 (Selecting Architect-Engineers for Professional Services by Negotiated Contracts).

**PART 1053—CONTRACTS; GENERAL****Subpart B—Numbering of Contracts [Deleted]**

Subpart B is deleted.

**PART 1054—CONTRACT ADMINISTRATION****Subpart D—Reimbursement of Costs in Excess of Estimated Costs Incurred Under Cost-Reimbursement Type Prime Contracts and Subcontracts**

Revise § 1054.406 to read as follows:

**§ 1054.406 Subcontracts.**

Government reimbursement to prime contractors may be made for allowable costs paid to subcontractors, but not in excess of the aggregate funds obligated on the prime contract. When it appears that actual costs will exceed the estimated cost stated in the subcontract, the ACO will review the subcontract, and consult with the prime contractor to arrive at an agreement which will adequately protect the interests of the Government. In the event of disagreement between the prime contractor and the ACO, the matter should be referred to the chief, contract division, of the administering AF contract management district or AF plant representative office.

**Subpart K—Reporting Contractors Involved in Bankruptcy, Receivership, Assignment for the Benefit of Creditors, Other Types of Insolvency Proceedings and Probate Proceedings**

Revise § 1054.1102(b) to read as follows:

**§ 1054.1102 Reporting institution of bankruptcy, receivership, insolvency, and probate proceedings.**

(b) If a contracting officer is informed or is aware of the institution of bankruptcy, receivership, assignment for the benefit of creditors or other type of insolvency proceedings or probate proceedings involving an AF contractor, he will immediately send notice by electrically transmitted message of such proceedings directly to the Contract Financing Division, Directorate of Accounting and Finance, Hq USAF, and to Chief, Tax and Litigation Division, Office of The Judge Advocate General, Hq USAF, Washington, D.C. The notice will include the name of the contractor, address, type of proceedings, court in which

proceedings are held, and contracts held by the contractor (see §§ 837.1 to 837.5, Subchapter C of the chapter). If information of such proceedings is first received by the accounting and finance office, that office will submit the above information directly to the Contract Financing Division, Directorate of Accounting and Finance, and to Chief, Tax and Litigation Division, Office of The Judge Advocate General. A copy of the notice will be forwarded to the contracting officer, accounting and finance office whose funds are cited in the contract, or the accounting and finance office cited to make payment, as appropriate.

**Subpart L—Registration Under Securities Act of AF Contractors Holding Classified Contracts [Deleted]**

Subpart L is deleted.

**Subpart S—Performance Data on DPSC Contractors**

Revise §§ 1054.1900 through 1054.1904 to read as follows:

**§ 1054.1900 Scope of subpart.**

This subpart prescribes procedures for compiling performance data on Defense Petroleum Supply Center (DPSC) contractors and furnishing this to the Renegotiation Board.

**§ 1054.1902 General.**

To compile a complete performance report, it is necessary to supplement information available to the DPSC with that available to personnel having quality control jurisdiction over the contractor's plant.

**§ 1054.1903 Source and routing of requests.**

Requests for performance information will be received by the cognizant CMR from the Renegotiation Board through its regional boards. (Similar requests will be simultaneously submitted to DPSC by the Board.) The quality control office of the cognizant CMR will process the requests to the CMD.

**§ 1054.1904 Use of checklist.**

The performance checklist in § 1054-1909 will be used by the CMD as a guide in determining performance data factors.

**Subpart CC—Processing of Claims Under Cost-Reimbursement Type Contracts**

1. Revise § 1054.2902 to amend reference:

**§ 1054.2902 Definitions.**

The following definitions apply throughout this subpart.

(a) "Cost-reimbursement type contracts" includes cost, cost-plus-a-fixed-fee, cost-plus-an-incentive-fee, cost-sharing, labor hour, time-and-materials contracts, and cost-reimbursement type subcontracts. Although § 15.102 of this title states, in part, that a cost-reimbursement type contract includes the cost-reimbursement portion of a time and material contract, for the purpose of this subpart the entire contract, rather than only the cost-reimbursement portion, is construed as a cost-reimbursement type contract.

(b) "Administrative contracting officer (ACO)." See definition in § 1054-103(a).

2. Revise § 1054.2912(b) as follows:

**§ 1054.2912 Suspensions and disallowances.**

(b) The ACO may waive conferences with other government personnel when the DD Form 396 pertains only to items suspended because of improper or insufficient documentary evidence, or similar conditions that may be corrected readily. The contractor should be required to submit its supporting explanation, documentation, data, or justification within a reasonable time after issuance of the suspension notice. Where government advance payment funds are involved, the contractor's failure to resubmit costs promptly may be the basis for requiring it to restore an amount equal to suspended costs to the advance payment fund account (see §§ 1054.2703(c)(6) and 1054.2708). During the contract, mere passage of time does not change the basic reimbursable or nonreimbursable nature of the item in question. Accordingly, costs suspended will not be converted to disallowed when there is no reason for the conversion other than the contractor's failure to resubmit costs. However, a final determination concerning the status of all suspended items will be made prior to or at the time the completion voucher under the contract or subcontract is submitted.

3. Revise § 1054.2913 as follows:

**§ 1054.2913 Procedure when current claim is insufficient to cover credit.**

(a) When the current claim is not in sufficient amount to satisfy the credit due the Government under the contract, follow one or a combination of the procedures outlined in this section to effect collection in the most expeditious and practicable manner:

(1) Deduct the amounts necessary to satisfy the credit from the current and succeeding public vouchers (expected to be received within a reasonable length of time). The deduction on any voucher will not exceed the amount thereof so as to avoid processing of a voucher in a credit amount. The voucher, notwithstanding it may be in zero amount, will be processed to the disbursing officer via the usual channels to provide a record of the voucher action.

(2) Obtain from the contractor its check for the amount of the credit, payable to the order of the Treasurer of the United States.

(3) When the credits cannot be recovered by deductions from the current and succeeding public vouchers and the contractor declines to make refund, the ACO will accomplish or cause to be accomplished the collection by a set-off deduction from the public voucher(s) submitted by the contractor under any of its other military department contracts. However, where a contract so provides, payment to an assignee will not be subject to reduction or set-off for any indebtedness of the assignor arising independently of the assigned contract (§ 7.103-8 of this title).

**RULES AND REGULATIONS**

(b) When the collection is effected by set-off, show on the public voucher from which the deduction is made a notation identifying the contract and appropriation to which the credit is applicable and identifying the related DD Form 396. Set-off procedures as described herein will not be applied in connection with amounts cited in formal exceptions by the General Accounting Office.

(c) For other possible actions, see Subpart F, Part 163, Subchapter E of this title, and § 1030.5, of this subchapter.

**Subpart EE—Contractor Preparation of DD Form 250, "Material Inspection and Receiving Report"**

Revise § 1054.3103 to read as follows:

**§ 1054.3103 Procedures and responsibilities.**

(a) The contracting officer will require the contractor to prepare DD Form 250 (or comparable form) for shipment of items of material for the military supply system.

(b) Contractors will furnish on the mailed consignee and accounting and finance copies of DD Form 250 the value of government-furnished material (GFM) included in the shipment of each supply item. This value should be shown separately under the description and identified as the amount of GFM. Reference AFLC Supplement 1 to AFR 70-14 (Material Inspection and Receiving Report). While it is not mandatory that other copies of the DD Form 250 be priced, there is no prohibition against all copies bearing the price of the GFM. The price of GFM will be determined from the price shown on the Government invoices or shipping documents (reference par. 6, sec. 4, vol. I, AFM 67-1) or the price in USAF supply stock lists. When an AMA has not furnished an item price for GFM as required by paragraph 6, section 4, AFM 67-1, the contractor will request a price through appropriate AFPRO or AFCMD. If the item price is not made available by the Government, the contract will be relieved of entering such price on the DD Form 250 and will indicate N/A for not available. Items excluded from the foregoing requirements are drawings, blueprints, technical reports and similar items, missiles, aircraft complete, and experimental, developmental or research items as defined in AFR 80-6 (Classification of AF Equipment).

(c) DD Form 250 for items to be delivered to Army and Navy agencies from AF contracts will be prepared by the contractor and the prices included thereon will be as required by AFR 70-14, as supplemented.

**PART 1055—SPARE PARTS**

**Subpart C—Statement of Provisioning Policy (AMC Form 263) and Programming Checklist (AMC Form 321 Series) [Deleted]**

Subpart C is deleted.

**Chapter XVI—Selective Service System**

[Amtd. 91]

**PART 1606—GENERAL ADMINISTRATION**

**Production of Records in Court**

Paragraph (a) of § 1606.35 of the Selective Service Regulations is amended to read as follows:

**§ 1606.35 Subpena of records.**

(a) In the prosecution of a registrant or any other person for a violation of the Universal Military Training and Service Act, as amended, the Selective Service Regulations, any orders or directions made pursuant to such act or regulations, or for perjury, all records of the registrant shall be produced in response to the subpoena or summons of the court in which such production or proceeding is pending. Any officer or employee of the Selective Service System who produces the records of a registrant in court shall be considered the custodian of such records for the purpose of this section.

(Sec. 10, 62 Stat. 618, as amended; 50 U.S.C. App. 460; E.O. 9979, July 20, 1948, 13 F.R. 4177; 3 CFR, 1943-1948 Comp.)

The foregoing amendment to the Selective Service Regulations shall become effective upon filing with the Office of the Federal Register.

**Title 39—POSTAL SERVICE**

**Chapter I—Post Office Department**

**PART 168—DIRECTORY OF INTERNATIONAL MAIL**

**Miscellaneous Amendments**

The regulations of the Post Office Department in Part 168 are amended as follows:

I. In § 168.1 *Postal Union mail* make the following changes in paragraph (a) to show the new revised rates to Canada and Mexico effective January 7, 1963. (See 27 F.R. 12483-12484 for previous notice of the revised rates.)

A. In the rate table preceding subparagraph (1) make the following changes under "Surface Rates."

1. Opposite "Letter mail to Canada and Mexico" strike out "4 cents per ounce"; and insert in lieu thereof "5 cents per ounce."

2. Opposite "Postcards to Canada and Mexico" strike out "3 cents single; 6 cents reply paid"; and insert in lieu thereof "4 cents single; 8 cents reply paid."

3. Opposite "Regular prints to Canada and Mexico"; strike out "3 cents first 2 ounces; 1½ cents each additional ounce or fraction"; and insert in lieu thereof "4 cents first 2 ounces; 2 cents each additional ounce or fraction."

4. Opposite "Samples of merchandise to Canada and Mexico" strike out "3 cents first 2 ounces; 1½ cents each additional ounce or fraction"; and insert in lieu thereof "4 cents first 2 ounces; 2 cents each additional ounce or fraction."

5. Opposite "8-ounce merchandise packages to Canada" strike out "3 cents first 2 ounces; 1½ cents each additional ounce or fraction"; and insert in lieu thereof "4 cents first 2 ounces; 2 cents each additional ounce or fraction."

B. In subparagraph (1) amend subdivision (iv) to read as follows:

(1) *Printed matter weight limits.* \* \* \*

(iv) A package of second-class publications mailed to Canada at the postage rates prescribed in § 112.4(a) (1) (iii) (a) of this chapter may weigh up to 30 pounds.

**ALASKA**

**Opening of Lands Under Section 24 of Federal Power Act**

1. In DA-74-Alaska, the Federal Power Commission determined that the value of the following-described lands in Alaska, withdrawn in Power Site Classification No. 443 of February 13, 1958, will not be injured or destroyed for purposes of power development by location, entry, or selection under the public land laws, subject to the provisions of section 24 of the Federal Power Act, as amended, and subject to the condition that in the event said lands are required for power purposes, any improvements or structures placed thereon which shall be found to interfere with such development shall be removed or relocated as may be necessary to eliminate interference with power development at no cost to the United States, its permittees or licensees:

**DENALI PROJECT**

Beginning at a point on the Susitna River, longitude 147°12'57" W., latitude 62°57'38" N., approximately 7.5 miles upstream from the Clearwater River. All lands upstream from this point below the 2600-foot contour. (See Talkeetna Mountains D-1 and D-2; Gulkana D-6 and Healy A-1, A-2, B-1, and B-2 quadrangles.)

The area described contains approximately 83,500 acres. Some of the lands are withdrawn for other purposes, and about 30 acres are embraced in an application for patent filed by the State of Alaska.

2. The lands are located in south central Alaska in a wide valley near the headwaters of the Susitna River and its tributary, West Fork, just below the leading edge of the glaciers feeding these streams. Some are also included in a short reach near the mouth of the East Fork Susitna River. Terrain is hilly and treeless, except along the banks of streams. Vegetative cover consists mostly of tundra-type mosses, forbs, and berry bushes.

3. Subject to any existing valid rights and the requirements of applicable law, the public lands are hereby opened to settlement and to filing of such applications, selections, and locations as are allowable on unsurveyed lands in accordance with the following:

a. Until 10:00 a.m. on June 3, 1963, the State of Alaska shall have (1) a preferred right to select the lands in accordance with the provisions of the Act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46-3b), section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat.

339), and the regulations in 43 CFR Part 76, and (2) a preferred right to apply for the reservation to the State or to any of its political subdivisions under any statute or regulation applicable thereto of any of the lands required for a right-of-way for a public highway or as a source of materials for the construction and maintenance of such highways in accordance with the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818), as amended.

b. All other valid applications and selections under the nonmineral public land laws presented at or prior to 10:00 a.m. on June 3, 1963, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

c. The lands have been open to applications and offers under the mineral leasing laws, and to location under the United States mining laws subject to the provisions of the Act of August 11, 1955 (69 Stat. 682; 30 U.S.C. 621). They will be open to settlement under the homestead and Alaska homesite laws at 10:00 a.m. on June 3, 1963.

4. Any disposals of the lands shall be subject to the provisions of section 24 of the Federal Power Act, supra, and to the condition specified by the Federal Power Commission in its determination.

A small portion of the lands falls within the Anchorage Land District. Most of the lands are in the Fairbanks Land District. Inquiries should be addressed to the Manager, Land Office, Bureau of Land Management, Fairbanks, Alaska.

JOHN A. CARVER, JR.,  
Assistant Secretary of the Interior.

# Proposed Rule Making

## DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[ 43 CFR Part 192 ]

### OIL AND GAS LEASES

#### Interests, and Requirements for Filing of Transfers; Notice of Proposed Rule Making

**Basis and purpose.** Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Mineral Leasing Act of 1920 (30 U.S.C. 189) it is proposed to add new §§ 192.43a and 192.43b to 43 CFR Part 192 and a new subparagraph (a) (4) to 43 CFR 192.141 as set forth below.

The proposed new sections define the meaning and intent of the phrase "sole party in interest" in a lease, and what constitutes "interests" in leases. They also deal with the problem of collusive filings of oil and gas lease offers to obtain a greater probability of success in the drawing to determine priorities or to obtain a defined "interest" in a lease. The new subparagraph would require that lands in lease assignments be described as in lease offers.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendments to the Bureau of Land Management, Washington 25, D.C., within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

1. New §§ 192.43a and 192.43b and a new subparagraph (a) (4) to § 192.141 are added to Title 43, Code of Federal Regulations, to read as follows:

§ 192.43a Sole party in interest; statement of interest.

A sole party in interest in a lease or offer to lease is a party who is and will be vested with all legal and equitable rights under the lease. No one is or shall be deemed to be a sole party in interest with respect to a lease in which any other party has any of the interests described in this section. The requirement of disclosure in an offer to lease of an offeror's or other parties' interest in a lease, if issued, is predicated on the departmental policy that all offerors and other parties having an interest in simultaneously filed offers to lease shall have an equal opportunity of success in the drawings to determine priorities. Additionally, such disclosures provide the means for maintaining adequate records of acreage holdings of all such parties where such interests constitute chargeable acreage holdings. An "interest" in the lease includes but is not limited to record title interests, overriding royalty interests, working interests,

operating rights or options, or any agreements covering such "interests." Any claim or prospective or future claim to an advantage or benefit from a lease, and any participation or any defined or undefined share in any increments, issues, or profits which may be derived from or which may accrue in any manner from the lease is deemed to constitute an "interest" in such lease.

§ 192.43b Collusive filings.

When any person, association, corporation, or other entity or business enterprise files an offer to lease for inclusion in a drawing, and an offer or offers to lease are filed for the same lands in the same drawing by any person or party acting for, on behalf of, or in collusion with the other person, association, corporation, entity or business enterprise, under any agreement, scheme, or plan which would give either, or both, a greater probability of successfully obtaining a lease, or interest therein, in any public drawing held pursuant to § 192.43 of this part, all such offers will be rejected. Similarly, where an agent or broker files an offer to lease for the same lands in behalf of more than one offeror under an agreement that if a lease issues to any of such offerors, the agent or broker will participate in any proceeds derived from such lease, the agent or broker obtains thereby a greater probability of success in obtaining a share in the proceeds of the lease and all such offers filed by such agent or broker will also be rejected. Should any such offer be given a priority as a result of such a drawing, it will be similarly rejected. In the event a lease is issued on the basis of any such offer, action will be initiated to cancel the lease, whether the pertinent information regarding it is obtained by or was available to the Government before or after the lease was issued.

2. Section 192.141 is supplemented by adding a new subparagraph (a) (4) thereto to read as follows:

§ 192.141 Requirements for filing of transfers.

(a) \* \* \*

(4) Each instrument of transfer must describe the lands involved as required by § 192.42a.

### OIL AND GAS LEASES

#### Proposed Amount of Bond Required of Lessee

**Basis and purpose.** Notice is hereby given that pursuant to the authority

vested in the Secretary of the Interior by the Act of February 25, 1920 (41 Stat. 437), as amended (30 U.S.C. 181 et seq.), it is proposed to amend 43 CFR Part 192 as set forth below.

The purpose of the amendment is to provide that bonds for the protection of surface owners be furnished by an oil and gas lessee only prior to entry on the leased lands.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendments to the Bureau of Land Management, Washington 25, D.C., within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

Paragraph (b) of § 192.100 is amended to read as follows:

§ 192.100 Amount of bonds required of lessee.

\* \* \* \* \*

(b) Until a general lease bond is filed, a noncompetitive lessee will be required prior to entry on the leased lands to furnish and maintain a bond in the penal sum of not less than \$1,000 in those cases in which a bond is required by law for the protection of the owners of surface rights.

### HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

#### Proposed Revision of Control Percentages for the 1962-63 Marketing Year

Notice is hereby given that there is under consideration the proposed establishment of revised walnut control percentages as herein set forth for the marketing year which began August 1, 1962. The revised percentages are based on recommendations of the Walnut Control Board and other available information and would be established pursuant to the amended marketing agreement and order (7 CFR Part 984), regulating the handling of walnuts grown in California, Oregon, and Washington, effective under the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674).

The proposed percentages are as follows:

	District 1	District 2
Marketable -----	96	98
Surplus -----	4	2

The 1962 orchard-run production is now estimated at 162.8 million pounds. The proposed percentages would provide for (1) a trade demand for inshell walnuts of 56 million pounds plus a year end carryover of 10 million pounds, and (2) a trade demand for shelled walnuts of 35.5 million pounds (kernelweight) plus a year end carryover of 8 million pounds for the marketing year which began August 1, 1962.

Consideration will be given to written data, views, and arguments pertaining thereto which are received by the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than ten days after publication of this notice in the FEDERAL REGISTER.

Dated: March 4, 1963.

**HOLDING OF REFERENDA ON  
MARKETING QUOTAS**

**Notice of Proposed Rule Making**

Notice is hereby given that, pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended, 7 U.S.C. 1281 et seq., consideration is being given to amending the regulations governing the holding of referenda on marketing quotas (23 F.R. 3432, 7285; 25 F.R. 5907; 26 F.R. 7258, 7963, 10208).

The changes being considered are as follows:

In § 717.3, paragraph (a) (4) would be amended by changing it to read:

(4) *Wheat.* Any producer who has a farm acreage allotment shall be eligible to vote in any referendum held pursuant to 7 U.S.C. 1336, as amended: *Provided*, That a producer on a farm with a wheat acreage allotment of less than 15 acres shall be eligible to vote only if the operator on such farm files with the county committee, not later than 7 days prior to the date of the referendum, an election in writing to be subject to the wheat marketing quota for the farm. For the foregoing purpose, a producer who has a farm acreage allotment, is any person who as owner-operator, cash tenant, landlord of a share tenant, share tenant, or sharecropper on a farm for which there is established a farm acreage allotment greater than zero for wheat of the first crop for which the referendum is held, will share in such first crop of wheat, or the proceeds of such crop, produced on the farm, or, in the absence of

such production, would be entitled to a share of such crop, or the proceeds thereof, if it were produced. If a person is shown on the allotment notice (Form MQ-24) for the farm for the first-crop for which the referendum is held as an owner or operator, such person shall be presumed to be eligible to vote in the referendum, if the notice is for an allotment greater than zero. However, a person whose name appears on the Form MQ-24 may be challenged for cause as not being eligible, in which case the presumption may be overcome by relevant evidence. A person whose name does not appear on the Form MQ-24 but who meets the eligibility requirements shall be entitled to vote.

In § 717.3, paragraph (b) (3) would be amended to read:

(3) Subject to the provisions of § 717.7(c) a farmer or producer eligible to vote shall vote only at a polling place designated for the community in which he resides or for a combination of communities or neighborhoods which includes the community in which he resides, except that any farmer or producer who will not vote at such a polling place may vote at the polling place designated for the community or combination of communities or neighborhoods in which he was engaged, or will be engaged, in the production of the commodity which will qualify him as a voter, or, in the case of wheat, where the farm is located which has the allotment which makes him eligible to vote.

Section 717.5 would be amended by changing the last two sentences to read: "On the date fixed for holding the referendum, the polls shall be opened at 8 o'clock a.m., local time, and the polls shall be closed at 6 o'clock p.m., local time: *Provided*, That, an earlier opening hour and a later closing hour may be fixed by the State committee."

In § 717.7, paragraph (c) would be amended by changing the first sentence to read:

(c) Any person who will not be present on the day of the referendum in the county in which he is eligible to vote may obtain as early as five days prior to the date of the referendum, or earlier if ballots are available, one ballot from an ASCS State or county office conveniently situated for him, or from the Farmer Programs Division, ASCS, Department of Agriculture, Washington, D.C., and cast his ballot by mail. \* \* \*

Sections 717.1(b), 717.1(i) and 717.12 will be revised to conform the titles of Deputy Administrator and State Administrative Officers to agree with the current organization of the Agricultural Stabilization and Conservation Service.

All persons who desire to submit written data, views, and recommendations in connection with this proposal, or wish to suggest other changes in the present regulations, should file the same with the Deputy Administrator, State and County Operations, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington 25, D.C., within ten (10) days after the date

of the publication of this notice in the FEDERAL REGISTER.

Effective date: Date of publication.

Signed at Washington, D.C., on March 1, 1963.

Administrator, Agricultural Sta-  
bilization and Conservation  
Service.

**BIOLOGICAL PRODUCTS; MEASLES  
IMMUNE GLOBULIN (HUMAN)**

**Proposed Additional Standards**

Notice is hereby given of proposed rule making pursuant to section 351 of the Public Health Service Act, as amended (58 Stat. 702; 42 U.S.C. 262). The proposed amendment provides detailed specific standards of safety, purity and potency for the manufacture of Measles Immune Globulin (Human).

In the public interest, to assure its availability for use with Measles Virus Vaccine, Live, Attenuated, for which proposed standards were published on August 17, 1962 (27 F.R. 8214), notice is also given that it is proposed to make any amendments that are adopted effective upon their publication in the FEDERAL REGISTER.

Inquiries may be addressed, and data, views and arguments may be presented by interested parties, in writing, in triplicate, to the Surgeon General, Public Health Service, Washington 25, D.C. All relevant material received not later than 30 days after publication of this notice in the FEDERAL REGISTER will be considered.

Amend Part 73 of the Public Health Service regulations by inserting the following:

**ADDITIONAL STANDARDS: MEASLES  
IMMUNE GLOBULIN (HUMAN)**

**§ 73.350 The product.**

(a) *Proper name and definition.* The proper name of the product shall be Measles Immune Globulin (Human). It shall consist of a sterile solution of 10 to 18 percent globulin derived from human blood, having a measles antibody level of 0.5 times the level of the NIH measles reference serum. Measles Immune Globulin shall be made from a sterile 16.5±1.5 percent solution of human globulin.

(b) *Source material.* The source of Measles Immune Globulin (Human) shall be blood, plasma or serum from human donors determined at the time of donation to have been free of the known causative agents of diseases that are not destroyed or removed by the processing method. The source blood, plasma or serum shall not contain a

preservative and shall be stored in a manner that will prevent contamination by microorganisms, pyrogens or other impurities.

(c) *Additives in source material.* Source blood, plasma or serum shall contain no additives other than citrate or acid citrate dextrose anticoagulant solution, unless it is shown that the processing method yields a product free of the additive to such an extent that the safety, purity and potency of the product will not be affected adversely.

**§ 73.351 Manufacture of Measles Immune Globulin (Human).**

(a) *Processing method.* The globulin shall be prepared by a processing method that (1) has been shown to be capable of concentrating tenfold from source material at least two different antibodies, (2) does not affect the integrity of the globulins and is capable of consistently yielding a product which is safe for subcutaneous and intramuscular injection and (3) will not transmit viral hepatitis.

(b) *Reference materials.* The following NIH reference material shall be obtained from the Division of Biologics Standards: U.S. reference measles serum for correlation of measles antibody titers with globulin products.

(c) *Microbial contamination.* Low temperatures or aseptic techniques shall be used to minimize contamination by microorganisms. Preservatives to inhibit growth of microorganisms shall not be used during processing.

(d) *Bulk storage.* The globulin fraction may be stored in bulk prior to further processing provided it is stored in well-marked hermetically closed containers. Purified globulin as either a liquid concentrate or a solid and containing alcohol or more than 5 percent moisture, shall be stored at a temperature not to exceed  $-10^{\circ}$  C. Purified globulin as a solid free from alcohol and containing less than 5 percent moisture, shall be stored at temperatures not to exceed  $0^{\circ}$  C.

(e) *Determination of the lot.* Each lot of Measles Immune Globulin (Human) shall represent a pooling of material from not less than 1,000 donors.

(f) *Sterilization and dilution.* The product shall be prepared initially as a 16½ percent solution and this preparation shall be sterilized promptly after solution. After sterilization the product shall not be exposed to temperatures above  $45^{\circ}$  C. for more than 72 hours. Dilution of this sterile globulin solution shall be made only to adjust the required measles antibody level. The dilution shall be made with a pyrogen-free diluent and using pyrogen-free equipment.

**§ 73.352 The final product.**

(a) *Final solution.* The final product shall be a 10 to 18 percent solution of globulin containing 0.3 molar glycine and a preservative.

(b) *Protein composition.* No less than 90 percent of the globulin shall have an electrophoretic mobility not faster than  $-2.8 \times 10^{-5}$  centimeters per volt per sec-

ond, when measured at a 1 percent protein concentration in sodium diethylbarbiturate at pH 8.6 and 0.1 ionic strength.

**§ 73.353 Potency.**

*Antibody levels and tests.* Each lot of final product shall contain no less than the minimum levels of antibodies for diphtheria and measles as follows:

(a) The product shall contain no less than 2 units of diphtheria antitoxin per ml.

(b) Each lot of final product shall contain a measles antibody level of 0.5 times the level of the U.S. reference measles serum. The measles antibody potency shall be determined by simultaneous determination of the neutralizing antibody titers of the globulin on test and of a reference preparation against 100 TCID<sub>50</sub> of measles virus in a tissue culture system. The potency test shall also include a determination of virus titer and controls for globulin toxicity and cell culture viability. Twofold serial dilutions of the globulin under test and of the reference preparation shall be employed in this determination. In applying these requirements a plus or minus variation of one twofold dilution is acceptable.

**§ 73.354 General requirements.**

(a) *Heat stability test.* Approximately 2 ml. of final container material of each lot shall not show any visible sign of gelation after heating in a 12x75 mm. stoppered glass tube at  $57^{\circ}$  C. for four hours.

(b) *Bulk sterility test sample.* The test sample for the bulk material sterility test need be no more than 2 ml.

(c) *Final container test.* Tests shall be made on final containers for safety, sterility, pyrogens and identity in accordance with §§ 73.72, 73.73, 73.74(b), and 73.75 respectively, except that (1) the test sample from each final container used for the sterility test need be no more than 2 ml. or the entire contents of a final container if the amount of final container material is less than 2.0 ml. and (2) regardless of the human dose recommended, the test dose from the final container used for the pyrogen test shall be at least 1 ml. per kilogram of body weight of each rabbit.

(d) *Hydrogen ion concentration.* The pH of final container material shall be  $6.8 \pm 0.4$  when measured in a solution diluted to 1 percent protein with 0.15 molar sodium chloride.

(e) *Turbidity.* The product shall be free of turbidity as determined by visual inspection of final containers.

(f) *Date of manufacture.* The date of manufacture is the date of initiating the last valid measles antibody test as required in § 73.353(b).

(g) *Period of cold storage.* The final product may be held by the manufacturer in cold storage at a temperature not above  $5^{\circ}$  C. for three years after the date of manufacture without decreasing the length of the dating period. The provisions of § 73.84 shall not apply.

(Sec. 215, 58 Stat. 690, as amended; 42 U.S.C. 216. Interpret or apply sec. 351, 58 Stat. 702; 42 U.S.C. 262)

## FEDERAL AVIATION AGENCY

[14 CFR Part 61 [New] ]

[Reg. Docket No. 1639; Draft Release No.  
63-11]

### POSSESSION OF AIRMAN AND MEDICAL CERTIFICATES, AND OPERATIONS DURING PHYSICAL DEFICIENCY

#### Notice of Proposed Rule Making

Notice is hereby given that there is under consideration a proposal to amend Part 61 [New] of the Federal Aviation Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted, preferably in duplicate, to the Docket Section of the Federal Aviation Agency, Room A-103, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before May 9, 1963, will be considered by the Administrator before taking action on the proposed rules. The proposals contained in this notice may be changed in light of comments received. All comments submitted will be available in the Docket Section for examination by interested persons at any time.

Current regulations relating to personal possession of airman and medical certificates and to operations during physical deficiency do not apply to pilots other than the pilot in command. The objective of the proposed amendments is to apply these rules uniformly to all pilots and flight crewmembers.

The history of regulatory changes involving this subject shows that a number of spot amendments has caused, inadvertently, the requirement to have personal possession of airman and medical certificates when on duty to apply only to the pilot in command and not to the pilot second in command nor to any other pilot. The justification used when the requirement was first adopted in 1947 (that the requirement would facilitate enforcement of Civil Air Regulations without any undue burden on pilots) applies equally to all assigned flight crewmembers.

Section 61.3 requires the pilot in command to present his pilot certificate (but not his medical certificate) for inspection upon the request of certain

specified persons. Whereas § 63.3 requires a flight engineer or flight navigator to present his airman certificate or his medical certificate, or both, upon request of the same persons as specified for pilots.

In addition to the above, § 61.3 requires an airline transport pilot or a lighter-than-air pilot to present his pilot certificate upon the request of any passenger. To standardize the requirements, the requirement to show their certificates at the request of any passenger should be applied to all flight crewmembers or dropped as to the airline transport pilot and lighter-than-air pilots. It is proposed to drop the requirement in view of FAA surveillance and the high quality of management controls exercised through the company over all flight crewmembers.

The following actions are proposed to standardize the requirements for possession of airman and medical certificates, and for operations during a physical deficiency:

Section 61.3(a) would be amended to apply to personal possession of a current pilot certificate by any person acting under the provisions of the part. The phrase "(with appropriate ratings)" would be deleted inasmuch as its applicability to a pilot serving as second in command would be ambiguous. Furthermore, the rating requirements are specified elsewhere in the part.

Section 61.3(b) would be amended to include a person serving as second in command or in any other capacity as pilot.

Section 61.3(c) would be amended to include personal possession of a medical certificate for all pilots, retaining the exception for glider pilots piloting gliders.

Section 61.3(d) would be amended by deleting the additional requirements for airline transport pilots and lighter-than-air pilots, and by adding a requirement that the medical certificate must also be presented for inspection to the same persons authorized to inspect pilot certificates.

Section 61.45 *Operations during physical deficiency* would be amended to apply to persons acting as second in command or in any other capacity as pilot.

In consideration of the foregoing, it is proposed to amend Part 61 [New] of the Federal Aviation Regulations as follows:

1. By amending § 61.3 to read:

**§ 61.3 Certificates and ratings required.**

(a) *Pilot certificate.* No person may, within the United States, act as pilot in command, second in command, or in any other capacity as pilot (except a person receiving in-flight instruction from a pilot) of a civil aircraft of United States registry unless he has in his personal possession a current pilot certificate issued to him under this Part.

(b) *Pilot certificate; foreign aircraft.* No person may, within the United States, act as pilot in command, second in command, or in any other capacity as pilot (except a person receiving in-flight instruction from a pilot) of a civil aircraft of foreign registry that is eligible to operate in the United States, unless he

has in his personal possession a current pilot certificate issued to him under this Part or issued to him or validated for him by the country in which the aircraft is registered.

(c) *Medical certificate.* Except for glider pilots piloting gliders and persons receiving in-flight instruction from a pilot, no person may act as pilot in command, second in command, or in any other capacity as pilot of an aircraft under a certificate issued to him under this part unless he has in his personal possession an appropriate current medical certificate issued under Part 67 of this chapter. However, in the case of a special purpose pilot certificate, the evidence required by the second sentence of § 61.33(b) may be used in place of a medical certificate.

(d) *Inspection of certificate.* Each person who holds a pilot certificate or a medical certificate shall present either or both for inspection upon the request of the Administrator or an authorized representative of the Civil Aeronautics Board, or of any State or local law enforcement officer.

2. By amending § 61.45 to read:

**§ 61.45 Operations during physical deficiency.**

No person may act as pilot in command, second in command, or in any other capacity as pilot of an aircraft when he has a known physical deficiency, or increase of known physical deficiency, that would make him unable to meet the physical requirements for his current medical certificate.

These amendments are proposed under the authority of sections 313(a), 601, and 602 of the Federal Aviation Act of 1958 (49 U.S.C. 1354, 1421, 1422).

Issued in Washington, D.C., on March 1, 1963.

G. S. MOORE,  
Acting Director,  
Flight Standards Service.

**[ 14 CFR Part 71 [New] ]**

[Airspace Docket No. 62-AL-20]

**CONTROL ZONE, CONTROL AREA EXTENSION, AND TRANSITION AREA**

**Proposed Alteration, Revocation, and Designation**

Pursuant to the authority delegated to me by the Administrator (14 CFR 11.65), notice is hereby given that the Federal Aviation Agency is considering amendments to Part 71 [New] of the Federal Aviation Regulations, the substance of which is stated below.

The Sitka, Alaska, control zone is presently designated within a 5-mile radius of Sitka Harbor Seaplane Base (latitude 57°03'30" N., longitude 135°21'30" W.) and within 2 miles either side of the Sitka radio range northeast and southwest courses extending from the 5-mile radius zone to 2 miles southwest of the radio range. The Sitka control area extension is presently designated within 5 miles either side of the

Sitka radio range southwest course extending from the radio range to 25 miles southwest and within 5 miles either side of the Sitka VORTAC 027° True radial extending from the VORTAC to 20 miles northeast.

To implement the provisions of CAR Amendments 60-21/60-29 in the Sitka terminal area, the Federal Aviation Agency has under consideration the following airspace actions:

1. Alter the Sitka control zone by redesignating it within a 5-mile radius of Sitka Harbor Seaplane Base (latitude 57°03'30" N., longitude 135°21'30" W.); within 2 miles either side of the Sitka radio range northeast and southwest courses extending from the 5-mile radius zone to 2 miles southwest of the radio range and within 2 miles either side of the Biorka, Alaska, VORTAC 027° and 207° True radials extending from the 5-mile radius zone to 2 miles southwest of the VORTAC.

This control zone would provide protection for aircraft executing prescribed instrument approach and departure procedures at the Sitka Harbor Seaplane Base.

2. Designate the Sitka transition area to extend upward from 700 feet above the surface within 2 miles either side of the Sitka radio range southwest course extending from 2 miles southwest to 8 miles southwest of the radio range, within 2 miles either side of the Biorka VORTAC 207° True radial extending from 2 miles southwest to 8 miles southwest of the VORTAC, and to extend upward from 1,200 feet above the surface within 10 miles southeast and 7 miles northwest of the Biorka VORTAC 027° and 207° True radials extending from 6 miles northeast to 14 miles southwest of the VORTAC.

This transition area would provide protection for aircraft executing prescribed instrument approach and departure procedures at the Sitka Harbor Seaplane Base.

The floor of the airways that traverse this transition area would automatically coincide with the floor of the transition area.

3. Revoke the Sitka control area extension. This control area extension would no longer be required with the designation of the Sitka transition area.

Specific details of the changes in procedures and minimum instrument flight rules altitudes that would be required attendant to the implementation of Amendments 60-21 and 60-29 may be examined by contacting the Chief, Airspace Utilization Branch, Air Traffic Division, Alaskan Region, Federal Aviation Agency, 632-6th Avenue, Anchorage, Alaska.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Alaskan Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, P.O. Box 440, Anchorage, Alaska. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public

hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room A-103, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on March 4, 1963.

W. THOMAS DEASON,  
Assistant Chief,  
Airspace Utilization Division.

#### [ 14 CFR Part 75 [New] ]

[Airspace Docket No. 62-SW-70]

#### JET ROUTE

##### Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 11.65), notice is hereby given that the Federal Aviation Agency (FAA) is considering amendments to Part 75 [New] of the Federal Aviation Regulations, the substance of which is stated below.

Jet Route No. 37 is presently designated in part from the New Orleans, La., VORTAC via the Mobile, Ala., VORTAC to the Montgomery, Ala., VORTAC. The FAA has under consideration the alteration of this segment of J-37 by designating it from the New

Orleans VORTAC via the intersection of the New Orleans VORTAC 066° and the Montgomery VORTAC 230° True radials to the Montgomery VORTAC. Such action would eliminate the Mobile VORTAC from the description of J-37, thus eliminating a reporting point and a requirement for a frequency change by the pilot.

Jet Route No. 2 is presently designated in part from the New Orleans VORTAC via the intersection of the New Orleans VORTAC 071° and the Crestview, Fla., VOR 259° True radials to the Crestview VOR. The FAA has under consideration the alteration of this segment of J-2 via the intersection of the New Orleans VORTAC 066° and the Crestview VOR 266° radials. Such action would cause J-2 to coincide with J-37 between New Orleans and Mobile and would provide sufficient airspace for the establishment of a local flying area in the high altitude structure for aircraft from Brookley AFB, Ala.

The jet advisory areas associated with J-2 and J-37 are so designated that they would automatically conform with the altered jet routes.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Southwest Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment; No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room A-103, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C. on March 4, 1963.

## FEDERAL MARITIME COMMISSION

[ 46 CFR Ch. II ]

[Docket No. 875]

### TERMINAL OPERATORS

#### Proposed Filing of Tariffs; Notice of Enlargement of Time To File Comments

On December 27, 1962, Federal Maritime Commission caused to be published in the FEDERAL REGISTER a notice of revision of proposed rules concerning the filing of tariffs by terminal operators (27 F.R. 12777). Interested parties were requested to file within 60 days after publication of that notice such written data, views, or arguments as desired. Upon application of counsel for various interested persons for enlargement of time within which to file comments with respect to the proposed rules, and good cause appearing, the time for filing comments by all parties is hereby enlarged to and including March 29, 1963.

By order of the Commission, March 1, 1963.

THOMAS LISI,  
Secretary.

## DEPARTMENT OF THE TREASURY

Comptroller of the Currency  
COUNTY TRUST CO. AND GRAMATAN  
SAFE DEPOSIT CORP.

### Notice of Report on Competitive Factors Involved in Merger Application

On January 31, 1963, the Board of Directors of the Federal Deposit Insurance Corporation, pursuant to 12 U.S.C. 1828(c), requested that the Comptroller of the Currency report on the competitive factors involved in the proposed merger of The County Trust Company, White Plains, New York, and The Gramatan Safe Deposit Corporation, Bronxville, New York.

On February 26, 1963, the Comptroller of the Currency reported that since the transaction is merely the absorption of an affiliate corporation in order to simplify operations, there would be no adverse effect upon competition.

Copies of this report are available on request to the Comptroller of the Currency, Washington 25, D.C.

Dated: March 4, 1963.

## EVERETT TRUST & SAVINGS BANK AND BANK OF LAKE STEVENS

### Notice of Report on Competitive Factors Involved in Application To Purchase Assets

On January 17, 1963, the Board of Directors of the Federal Deposit Corporation, pursuant to 12 U.S.C. 1828(c), requested that the Comptroller of the Currency report on the competitive factors involved in the proposed purchase of assets and assumption of liabilities of the \$1 million Bank of Lake Stevens, Lake Stevens, Washington, by the \$28 million Everett Trust & Savings Bank, Everett, Washington.

On February 20, 1963, the Comptroller of the Currency reported that the Bank of Lake Stevens is scarcely a factor in competition in the Everett area because of its very low lending limit, and in view of the increased banking services which will be made available by the proposed purchase, it should be considered favorably.

Copies of this report are available on request to the Comptroller of the Currency, Washington 25, D.C.

Dated: March 4, 1963.

## NORFOLK COUNTY TRUST CO. AND WELLESLEY TRUST CO.

### Notice of Report on Competitive Factors Involved in Consolidation Application

On January 7, 1963, the Board of Governors of the Federal Reserve System, pursuant to 12 U.S.C. 1828(c), requested the Comptroller of the Currency to report on the competitive factors involved in the proposed consolidation of the \$132 million Norfolk County Trust Company, Brookline, Massachusetts, and the \$9 million Wellesley Trust Company, Wellesley, Massachusetts.

On February 12, 1963, the Comptroller of the Currency reported that approval of the consolidation would bring a worthy competition into Wellesley and benefit the residents of that community.

Copies of this report are available on request to the Comptroller of the Currency, Washington 25, D.C.

Dated: March 4, 1963.

## REEVES BANKING AND TRUST CO. AND CITIZENS NATIONAL BANK OF NEW PHILADELPHIA

### Notice of Report on Competitive Factors Involved in Merger Application

On January 3, 1963, the Board of Directors of the Federal Deposit Insurance Corporation, pursuant to 12 U.S.C. 1828(c), requested that the Comptroller of the Currency report on the competitive factors involved in the proposed merger of the \$13 million Citizens National Bank of New Philadelphia, New Philadelphia, Ohio, into the \$31 million Reeves Banking and Trust Company, Dover, Ohio.

On February 11, 1963, the Comptroller of the Currency reported that the dislocation of a well balanced banking structure, which would result from the approval of this transaction, would be unfavorable.

Copies of this report are available on request to the Comptroller of the Currency, Washington 25, D.C.

Dated: March 4, 1963.

## SECURITY NATIONAL BANK OF LONG ISLAND AND FIRST NATIONAL BANK OF SOUTHAMPTON

### Notice of Decision Denying Application To Consolidate

On December 12, 1962, Security National Bank of Long Island, Huntington, New York, and The First National Bank of Southampton, Southampton, New York, applied to the Comptroller of the Currency for permission to consolidate under the charter and title of the former.

Of February 15, 1963, the Comptroller of the Currency denied this application. Copies of this decision are available on request to the Comptroller of the Currency, Washington 25, D.C.

Dated: March 4, 1963.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management OIL AND GAS LEASE OFFER Outer Continental Shelf Off California

MARCH 4, 1963.

Pursuant to section 8 of the Outer Continental Shelf Lands Act (67 Stat. 462; 43 U.S.C. sec. 1331 et. seq.) and the regulations issued thereunder (43 CFR Part 201), sealed bids addressed to the Manager, Bureau of Land Management,

Pacific Coast Outer Continental Shelf Office, Bartlett Building, Room 1130, 215 West 7th Street, Los Angeles 14, Calif., will be received on or before April 11, 1963, at 9:00 a.m., P.s.t., for the lease of oil and gas in certain areas of the Outer Continental Shelf, adjacent to the State of California. Bids may be delivered in person to the Office of the Manager between 8:00 a.m., P.s.t., and 9:00 a.m., P.s.t., April 11, 1963. Bids will be opened at 10:00 a.m. P.s.t., April 11, 1963, in the Los Angeles Room of the Statler Hilton Hotel, 930 Wilshire Boulevard, Los Angeles, California.

All bids must be submitted in accordance with applicable regulations, particularly 43 CFR 201.20, 201.21, and 201.22. Bids may not be modified or withdrawn unless the modification or withdrawals are received prior to the time fixed for filing of the bids. Bidders are warned against violation of section 1860, Title 18 U.S.C., prohibiting unlawful combination or intimidation of bidders. Attention is directed to the non-discrimination clauses in section 2(k) of the lease agreement (Form 4-1255 (July 1962)). Bidders must submit with each bid one-fifth of the amount bid in cash, or by cashier's check, bank draft, certified check, or money order payable to the order of the Bureau of Land Management. The leases will provide for a royalty rate of one-sixth, and a rental or minimum royalty of \$3 per acre or fraction thereof. The successful bidder for each tract will be required to pay the remainder of the bid and the first year's rental of \$3 per acre and furnish an acceptable surety bond as provided in 43 CFR 201.51 prior to the issuance of each lease.

All leases resulting from this offering will contain the following stipulation: Upon order of the Commander, Western Sea Frontier, U.S. Navy, when in his opinion, the interests of national security would so require, the lessee agrees to temporarily suspend operations. This suspension would preclude the use of drilling and such associated machinery and equipment which the Commander, Western Sea Frontier, considers would generate interference that would temporarily impede defense activities. Such order shall be for a period not to exceed 72 hours unless specifically extended by the Secretary of Defense. During such period personnel and equipment may remain in place. Communications and normal producing operations may continue, if so determined by the Commander, Western Sea Frontier.

All leases north of Block 32 north in San Francisco Area, Map No. 3, will carry the following stipulation: "No pipeline for the transportation of oil or gas produced from the area leased herein or other facilities for the transportation or processing of oil or gas produced from the area leased herein shall be constructed on or across lands within the exterior boundaries of the area authorized in the Act of September 13, 1962 (76 Stat. 538), for the Point Reyes National Seashore without the express approval in writing of the Secretary of the Interior or his designated representative." In addition, no drilling or production activities will

be allowed above the ocean bed on portions of certain blocks in the San Francisco Area, Map No. 3, as designated in the body of this announcement.

Copies of the lease agreement (Form 4-1255 (July 1962)) with the special stipulations to be incorporated in the lease agreement may be obtained from the above-listed Manager; the Regional Oil and Gas Supervisor, Geological Survey, Room 1012 Bartlett Building, 215 West 7th Street, Los Angeles, Calif.; the Manager, New Orleans Office, T-9003 Federal Office Building, New Orleans, La.; or the Assistant Director, Operating Services, Bureau of Land Management, Washington 25, D.C.

Bids will be considered on the basis of the highest cash bonus offered for a tract but no total bid amounting to less than \$5 per acre or fraction thereof will be considered. Oil payment, overriding royalty, logarithmic or sliding scale bids will not be considered. No bid for less than full tract, as listed below, will be considered. A separate bid, in a separate sealed envelope, must be submitted for each tract. The envelope should be endorsed "Sealed bid for oil and gas lease, California (insert number of tract), not to be opened until 10:00 a.m., P.s.t., April 11, 1963." The right is reserved to reject any or all bids even though the bid may exceed the minimum referred to previously.

The tracts offered for bid are as follows:

On February 9, 1963, there appeared in the FEDERAL REGISTER (28 F.R. 1312) a notice concerning the posting of certain stockyards under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.). It has come to my attention that certain dates specified as the date of final posting are inaccurate. Accordingly, the following notice is issued which shall supersede in all respects the said notice published in the FEDERAL REGISTER on February 9, 1963.

Pursuant to the authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), on the respective dates specified below it was ascertained that the livestock markets named below were stockyards within the definition of that term contained

in section 302 of the Act, as amended (7 U.S.C. 202), and were, therefore, subject to the Act, and notice was given to the owners and to the public by posting notice at the stockyards as required by said section 302.

DEPARTMENT OF COMMERCE

Bureau of International Commerce  
[File No. 23-882]

JOSE ARCE GUTIERREZ AND PRO-  
VEEDORA AGRICOLA INDUSTRIAL,  
S.A.

Order Temporarily Denying Export  
Privileges

In the matter of Jose Arce Gutierrez,  
Huastusco, No. 21, Mexico City, Mexico,  
and Proveedora Agricola Industrial, S.A.

Insurgentes Norte, No. 1743, Mexico City, Mexico, respondents, File 23-882.

The Export Control Investigations Division, Bureau of International Commerce, United States Department of Commerce, pursuant to the provisions of § 382.11 of the Export Regulations (Title 15, Chapter III, Subchapter B, Code of Federal Regulations), has applied to the Compliance Commissioner for an order temporarily denying all export privileges to the above named respondents. It was requested that the order remain in effect for a period of ninety days pending continued investigation into the facts and transactions giving rise to the application and the commencement of such proceedings as may be deemed proper under the law against said respondents.

The Compliance Commissioner has reviewed the application and the evidence presented in support thereof and has submitted his report, together with his recommendation that the application be granted and that a temporary denial order be issued for ninety days. The evidence presented shows that Jose Arce Gutierrez is a resident or has a place of business in Mexico City and that he does business under the firm name of Proveedora Agrícola Industrial, S.A., of Mexico City. The evidence and the recommendation of the Compliance Commissioner have been considered, and I find that the evidence reasonably supports the conclusion that the respondents are engaged in obtaining commodities of U.S. origin, including agricultural equipment and spare parts therefor, and are diverting and transshipping, and participating in the diversion and transshipment, of such commodities to Cuba in contravention of the United States Export Control Act and regulations thereunder. I further find that the evidence reasonably supports the conclusion that unless export privileges are temporarily denied, the respondents will continue to obtain goods of United States origin and thereafter cause them to be shipped to destinations in contravention of the United States Export Control Act and regulations. An order temporarily denying export privileges to the respondents is reasonably necessary for the protection of the public interest and national security. Accordingly, it is hereby ordered:

1. The respondents, their successors, agents, and employees are hereby denied all privileges of participating, directly or indirectly, in any manner or capacity, in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing denials of export privileges, participation in an exportation is deemed to include and prohibit participation by any respondent or related party directly or indirectly in any manner or capacity (a) as a party or as a representative of a party to any validated export license application, or documents to be submitted therewith, (b) in the preparation or filing of any export license application or of any doc-

uments to be submitted therewith, (c) in the obtaining or using of any validated or general export license or other export control document, (d) in the receiving, ordering, buying, selling, using or disposing in any foreign country of any commodities or technical data, in whole or in part exported or to be exported from the United States, and (e) in the storing, financing, forwarding, transporting, or other servicing of such exports from the United States;

2. Such denial of export privileges shall extend not only to the respondents, but also to any successors and to any person, firm, corporation, or business organization with which they now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith;

3. This order shall take effect forthwith and shall remain in effect for a period of ninety days from the date hereof, unless it is hereafter extended, amended, modified, or vacated in accordance with the provisions of the United States Export Regulations;

4. No person, firm, corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, in any manner or capacity, on behalf of or in any association with any such respondents or related party, or whereby any such respondent or related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any such respondent or related party denied export privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States;

5. A certified copy of this order shall be served upon the respondents;

6. In accordance with the provisions of § 382.11(c) of the Export Regulations, the respondents may move at any time to vacate or modify this temporary denial order by filing an appropriate motion therefor, supported by evidence, with the Compliance Commissioner and may request oral hearing thereon, which, if requested, shall be held before the Compliance Commissioner at Washington, D.C., at the earliest convenient date.

Dated: February 21, 1963.

## ATOMIC ENERGY COMMISSION

[Docket No. 50-184]

### NATIONAL BUREAU OF STANDARDS

#### Order Setting Date of Hearing

On March 1, 1963 a joint Petition to Reopen Hearing was filed by National Bureau of Standards (NBS) and the Staff of the Commission in accordance with the Intermediate Decision issued in this proceeding on January 26, 1962. That decision provided for a reopening of the proceeding for the presentation of additional data respecting selection of the contractor for the proposed construction and also respecting " \* \* \* evidence related to either the conceptual or detailed design as indicated in the evidence." Subsequent to the previous hearing held on November 28, 1961, NBS filed certain design proposals related to the reactor control instruments, described as " \* \* \* emergency console for the proposed reactor facility," which were not evaluated at a public hearing.

Wherefore, it is ordered, That this proceeding shall be reopened for hearing and for the presentation of additional evidence relative to the issues specified for consideration in this proceeding by the Commission and a further hearing shall convene at 10:00 a.m. on Monday, March 18, 1963 in the Auditorium of the Headquarters, U.S. Atomic Energy Commission at Germantown, Maryland. The hearing will be convened by the undersigned or such Atomic Safety and Licensing Board as shall be designated by the Commission. This issue is being certified to the Commission for determination in accordance with § 2.730(f) of the rules of practice.

Issued: March 4, 1963, Germantown, Md.

SAMUEL W. JENSCH,  
Presiding Officer.

### UNIVERSITY OF UTAH

#### Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued, effective as of the date of issuance, Amendment No. 5, set forth below, to Facility License No. R-25. The license authorizes the University of Utah to operate its Model AGN-201, Serial No. 107, nuclear reactor on its campus at Salt Lake City, Utah. The amendment authorizes the licensee to operate the reactor in the presence of a representative of the Examining Branch, Division of Licensing and Regulation, for the purpose of administering operator license examinations, in accordance with the University's letters to the Commission dated October 3, 1962, and February 14, 1963 (which we are treating as an application for a license amendment).

The Commission has found that:

## NOTICES

(1) Operation of the reactor in accordance with the license as amended will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security;

(2) The application for amendment complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in 10 CFR Ch. I;

(3) Prior public notice of proposed issuance of this amendment is not necessary in the public interest since operation of the reactor in accordance with the license, as amended, will not present any substantial change in the hazards to the health and safety of the public from those considered and evaluated in connection with the previously approved operation.

Within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER, the applicant may file a request for a hearing, and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the provisions of the Commission's regulation (10 CFR Part 2). If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) a related hazards analysis prepared by the Research & Power Reactor Safety Branch of the Division of Licensing and Regulation and (2) the licensee's letters to the Commission dated October 3, 1962, and February 14, 1963, all of which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (1) above may be obtained at the Commission's Public Document Room, or upon request, addressed to the Atomic Energy Commission, Washington, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 1st day of March 1963.

For the Atomic Energy Commission.

ROBERT H. BRYAN,  
Chief, Research and Power  
Reactor Safety Branch, Division  
of Licensing and Regulation.

[License No. R-25; Amdt. No. 5]

1. License No. R-25 issued to the University of Utah is hereby amended to authorize operation of the University of Utah reactor in the presence of a representative of the Examining Branch, Division of Licensing and Regulation, U.S. Atomic Energy Commission, for the purpose of administering operator license examinations.

2. Conditions 1 and 2 of License R-25 are hereby waived for purposes of this amendment.

3. This amendment is effective immediately and shall expire on March 16, 1963, or at such time as the University of Utah has an individual as Chief Reactor Supervisor who has been approved by the Commission, whichever first occurs.

Date of issuance: February 15, 1963.

For the Atomic Energy Commission.

ROBERT H. BYRAN,  
Chief, Research and Power Reactor  
Safety Branch, Division of Licensing  
and Regulation.

## FEDERAL POWER COMMISSION

[Docket Nos. CP62-243 etc.]

### NATURAL GAS PIPELINE COMPANY OF AMERICA ET AL.

#### Order Further Consolidating Applica- tions and Permitting Intervention

MARCH 1, 1963.

By our orders of October 15, 1962 and November 30, 1962, we consolidated in the above-entitled proceeding, among others, the application for authorization under section 7(c) of the Natural Gas Act for the construction of a new pipeline system filed by Oklahoma Illinois Gas Pipeline Company (Oklahoma Illinois) in Docket No. CP62-260. We also consolidated sundry producer applications which relate to the gas supply for Oklahoma Illinois' pipeline proposal. Subsequent to the issuance of the above-mentioned orders, the following additional producer applications for sale of gas to Oklahoma Illinois were filed: William Gallagher, et al., Docket No. CI63-702; Charles P. Gallagher, et al., Docket No. CI63-715; Sinclair Oil & Gas Company, Docket No. CI63-766.

After issuance of our order of January 7, 1963, permitting and denying intervention in the instant proceeding, the time prescribed for in our previous orders for the filing of petitions having expired, Associated Natural Gas Company filed its petition to intervene. This petitioner sets forth that: (1) It proposes to

construct and operate certain facilities for the sale and delivery of natural gas to the town of Buffalo, Missouri; (2) Oklahoma Illinois in its aforementioned application proposes to allocate a supply of gas for said town and (3) petitioner did not file to intervene previously since it did not obtain its contractual rights to render service to Buffalo, Missouri until January 28, 1963.

The Commission finds:

(1) The proceeding upon the applications of William Gallagher, et al., Docket No. CI63-702, Charles P. Gallagher, et al., Docket No. CI63-715 and Sinclair Oil & Gas Company, Docket No. CI63-766 are interrelated with the above specified applications in this proceeding and should be consolidated therewith.

(2) Sufficient cause has been shown why the petition to intervene of Associated Natural Gas Company, although filed late, should be granted.

The Commission orders:

(A) The proceedings in above-named three producer applications are consolidated with the proceedings upon the applications filed in CP62-243 et al., for purpose of hearing.

(B) Associated Natural Gas Company is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of said intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in its petition for leave to intervene; *And provided further,* That the admission of this intervener shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding.

By the Commission.

Secretary.

### MOUNTAIN FUEL SUPPLY CO. ET AL.

#### Notice of Applications and Date of Hearing

MARCH 1, 1963.

Mountain Fuel Supply Co., Docket No. CP63-127; Gulf Oil Corporation (Operator), et al., Docket No. CI62-1515; St. Helens Petroleum Corporation,<sup>1</sup> Docket No. CI63-194; Socony Mobil Oil Company, Inc., Docket No. CI63-669; Texaco Inc., Docket No. CI63-688.

Take notice that on November 8, 1962, Mountain Fuel Supply Company (Mountain Fuel), 180 East First South Street, Salt Lake City, Utah, filed in Docket No. CP63-127 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and

necessity authorizing the construction and operation of certain pipeline facilities necessary to enable it to purchase natural gas from several producers in the State Line Field, Carbon and Sweetwater Counties, Wyoming, all as more fully set forth in the application in Docket No. CP63-127 on file with the Commission and open to public inspection.

Mountain Fuel proposes to construct 18 miles of 10 $\frac{3}{4}$ -inch pipeline extending from the State Line Field to its existing 8 $\frac{3}{4}$ -inch pipeline in the Powder Wash Field, Moffat County, Colorado. The total cost of the project is estimated to be \$544,000, which cost will be financed from funds on hand and short term bank loans, as required.

Take further notice that on June 19, 1962, as amended on November 15, 1962, Gulf Oil Corporation (Operator), et al., (Gulf) in Docket No. CI62-1515,<sup>2</sup> on August 10, 1962, St. Helens Petroleum Corporation (St. Helens) in Docket No. CI63-194, on November 20, 1962, Socony Mobil Oil Company, Inc. (Socony) in Docket No. CI63-669, and on November 26, 1962, Texaco Inc. (Texaco) in Docket No. CI63-688, filed applications pursuant to section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing the above-described sale of natural gas to Mountain Fuel, all as more fully set forth in the respective applications on file with the Commission and open to public inspection.

Mountain Fuel entered into gas purchase agreements with Gulf, St. Helens, Socony and Texaco dated May 31, 1962, June 20, 1962, July 12, 1962 and June 20, 1962, respectively, providing for the proposed sale of natural gas at a price of 15 cents per Mcf at 15.025 psia.

Mountain Fuel states that the additional gas supply will offset the decline in deliverability from other committed reserves supplying its system and will enable it to meet the normal growth requirements of its service area.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 9, 1963, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. ### NORTHERN NATURAL GAS CO.

#### Notice of Application and Date of Hearing

MARCH 1, 1963.

Take notice that on December 14, 1962 Northern Natural Gas Company (Northern) filed an application pursuant to section 7 of the Natural Gas Act requesting authority to sell gas to Kansas-Nebraska Natural Gas Company, Inc.

Northern and Kansas-Nebraska have entered into an agreement whereby Northern agrees to sell and Kansas-Nebraska to buy five billion cubic feet of gas. Northern proposes to commence delivery of the gas January 1, 1963 and to continue deliveries at an expected rate of approximately an average daily volume ranging between 30 million and 40 million cubic feet per day until the five billion cubic feet is delivered or July 1, 1963, whichever occurs first.

Northern has an imbalance between its markets and supply of gas in the Kansas-Hugoton Field and this sale will help alleviate that imbalance.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 8, 1963, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That, the Commission may, after noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Northern to appear or be represented at the hearing.

Protest or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and

procedure (18 CFR 1.8 or 1.10) on or before March 27, 1963. Failure of any party to appear at and participate in the hearing shall be construed as a waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

### TRANSCONTINENTAL GAS PIPE LINE CORP.

#### Notice of Petition for Further Amendment of Certificate Authorization and Date of Hearing

MARCH 1, 1963.

Take notice that on February 15, 1963, Transcontinental Gas Pipe Line Corporation (Transco), 3100 Travis Street, Houston, Texas, filed a petition for further amendment of the outstanding certificate authorization in Docket No. G-10000 by reducing the volume of natural gas therein allocated to Carolina Pipeline Company (Carolina) from 25,219 Mcf per day to 12,500 Mcf per day in accordance with a letter agreement between Transco and Carolina dated February 28, 1962, all as more fully set forth in said petition for amendment which is on file with the Commission and open to public inspection.

This request for reduction of the allocation to Carolina was originally contained in Transco's application in Docket No. CP63-84. By amendment filed February 15, 1963, the request for reduction of the allocation to Carolina was deleted from the application in Docket No. CP63-84.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on April 10, 1963, at 10:00 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such petition for amendment.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 20, 1963.

**Order Approving Merger of Banks**

In the matter of the application of Union Trust Company of Maryland for

approval of merger with Peoples Loan, Savings and Deposit Bank.

There has come before the Board of Governors, pursuant to the Bank Merger Act of 1960 (12 U.S.C. 1828(c)), an application by Union Trust Company of Maryland, Baltimore, Maryland, for the Board's prior approval of the merger of that bank and Peoples Loan, Savings and Deposit Bank, Cambridge, Maryland, under the charter and title of the former. As an incident to the merger, the sole office of the latter bank would be operated as a branch of the former bank. Notice of the proposed merger, in form approved by the Board, has been published pursuant to said Act.

Upon consideration of all relevant material in the light of the factors set forth in said Act, including reports furnished by the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Department of Justice on the competitive factors involved in the proposed merger,

*It is hereby ordered*, For the reasons set forth in the Board's Statement<sup>1</sup> of this date, that said application be and hereby is approved, provided that said merger shall not be consummated (a) within seven calendar days after the date of this Order or (b) later than three months after said date.

Dated at Washington, D.C., this 1st day of March 1963.

By order of the Board of Governors.<sup>2</sup>

[SEAL] MERRITT SHERMAN,  
Secretary.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 811-595]

INTERCONTINENTAL HOLDINGS LTD.

Notice of Proposal for Order Declaring Company Not To Be an Investment Company

MARCH 4, 1963.

Notice is hereby given that the Securities and Exchange Commission proposes, pursuant to section 8(f) of the Investment Company Act of 1940, to issue an order finding and declaring that Intercontinental Holdings Ltd. ("Intercontinental") c/o America Corporation, 420 Lexington Avenue, New York 17, New York, has ceased to be an investment company.

In support of said order, the Commission proposes, on the basis of information in its files, to find as follows:

Intercontinental, a Delaware corporation, registered as a closed-end, non-diversified management company under section 8(a) of the Investment Company Act of 1940 by notification of registration filed April 13, 1951.

Pursuant to a certificate of dissolution dated February 8, 1955, and filed in the office of the Secretary of State of Delaware on February 18, 1955, Intercontinental was dissolved. Thereafter all of the assets of the company after payment of all liabilities, were distributed to its stockholders.

Section 8(f) of the Investment Company Act of 1940 provides, in pertinent part, that whenever the Commission, on its own motion, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and that upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than March 25, 1963, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the above matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the

Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon America Corporation at the address given above. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter may be issued by the Commission upon the basis of the findings proposed above unless an order for hearing upon said proposal shall be issued upon request or upon the Commission's own motion.

By the Commission.

JOYCE, INC.

Notice of Application for Exemption

MARCH 4, 1963.

Notice is hereby given that Joyce, Inc., a corporation organized under the laws of California, has filed an application pursuant to Rule 15d-20 of the general rules and regulations under the Securities Exchange Act of 1934 ("Act") for an order exempting the issuer from the operation of section 15(d) of the Act with respect to the duty to file any reports required by that section and the rules and regulations thereunder.

Rule 15d-20 permits the Commission, upon application and subject to appropriate terms and conditions, to exempt an issuer from the duty to file annual and other periodic reports if the Commission finds that all outstanding securities of the issuer are held of record, as therein defined, that the number of such record holders does not exceed fifty persons, and that the filing of such reports is not necessary in the public interest or for the protection of investors.

The application states with respect to the request for exemption, as follows:

1. At the end of the fiscal year ended October 31, 1962, all of the outstanding securities of Joyce, Inc. were held of record and the number of such record holders did not exceed 50 persons.

2. Joyce, Inc. has furnished and will continue to furnish stockholders with an annual report.

Notice is further given that an order granting the application upon such terms and conditions as the Commission may deem necessary or appropriate may be issued by the Commission at any time on or after March 29, 1963, unless prior thereto a hearing is ordered by the Commission. Any interested persons may, not later than March 25, 1963, at 5:30 p.m., submit to the Commission in writing his views or any additional facts bearing upon the application or the desirability of a hearing thereon, or request the Commission in writing that a

hearing be held thereon. Any such communication or request should be addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reason for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

## OILS AND INDUSTRIES, INC.

### Notice of Proposal for Order Declaring Company Not To Be an Investment Company

MARCH 4, 1963.

Notice is hereby given that the Securities and Exchange Commission proposes, pursuant to section 8(f) of the Investment Company Act of 1940 ("Act"), to issue an order finding and declaring that Oils and Industries, Inc., c/o America Corporation, 420 Lexington Avenue, New York 17, New York, has ceased to be an investment company.

In support of said order, the Commission proposes, on the basis of information in its files, to find as follows:

By an agreement of merger dated January 4, 1955, Oils and Industries, Inc., was merged into Eagle Lion Studios, Inc., a California corporation and a wholly-owned subsidiary of Chesapeake Industries, Inc. The merger became effective on February 14, 1955. Pursuant to the terms of the merger agreement the continuing corporation, Eagle Lion Studios, Inc., changed its name to Intercoast Petroleum Inc.

Under the terms of the merger agreement the outstanding stock of Eagle Lion Studios, Inc., remained the outstanding stock of the continuing corporation. All of the outstanding shares of Oils and Industries, Inc., held by Chesapeake Industries, Inc., and held by any corporations a party to the merger were eliminated. Each of the remaining outstanding shares of Oils and Industries, Inc., upon the effective date of the merger agreement became exchangeable for and convertible into the stock of Chesapeake Industries, Inc. For each share of the preferred stock of Oils and Industries, Inc., surrendered, Chesapeake Industries offered one-fifth share of its \$4.00 preferred stock. For each share of the Oils and Industries, Inc. common stock, Chesapeake offered one-eighth share of its \$4.00 preferred stock and 3/4 shares of its common stock. On August 10, 1959, a name change was effected by which Chesapeake Industries, Inc.

became the America Corporation. As of October 19, 1962, there were 1,566 shares of common stock of Oils and Industries, Inc., unexchanged for which 5,872.50 shares of common stock and 195.75 shares of preferred stock of America were reserved, and 1,247 shares of preferred stock for which 249.4 shares of preferred stock of America were reserved. These America shares are in the possession of a trustee, the Empire Trust Company (20 Broad Street, New York, New York) and they have been irrevocably reserved for exchange for the outstanding shares of Oils and Industries, Inc.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than March 25, 1963, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon America Corporation at the address given above. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter may be issued by the Commission upon the basis of the findings proposed above unless an order for hearing upon said proposal shall be issued upon request or upon the Commission's own motion.

By the Commission.
