Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 728—WHEAT

Subpart—1964-65 Marketing Year

COUNTY ACREAGE ALLOTMENTS FOR 1964 CROP OF WHEAT

§ 728.6 Basis and purpose.

The county acreage allotments for 1964 crop wheat contained herein have been determined under section 334 of the Agricultural Adjustment Act of 1938, as amended. The purpose is to apportion among the counties of each State the respective State wheat acreage allotments for 1964 as established by the proclamation dated April 3, 1963 (23 F.R. 3254).

Section 334(b) of the Agricultural Adjustment Act of 1938, as amended, provides that the State acreage allotments for wheat, less a reserve of not to exceed 3 per centum thereof for apportionment to farms on which wheat has not been planted during any of the three marketing years immediately preceding the marketing year in which the allotment is made, shall be apportioned among the counties in the State on the basis of the acreage seeded for the production of wheat during the 10 calendar years immediately preceding the calendar year in which the national acreage allotment is determined (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during such period and for the promotion of soil-conservation practices. The applicable 10-year period used in apportioning the 1964 State wheat acreage allotments among the counties in the respective States included the years of 1953 through 1962.

Section 301(c) of the act requires that the latest available statistics of the Federal Government be used in making the apportionments required to be made under the act. Estimates of county acreage seeded to wheat made by the Statistical Reporting Service of the Department of Agriculture do not meet the definitions of wheat acreage as contained in the regulations pertaining to 1964 wheat acreage allotments and marketing quotas. Such regulations provide that: (1) Wheat seeded in mixtures with other small grains will be counted as wheat acreage if the harvested mixture in counties other than approved wheat mixture counties is classified as wheat or as mixed grain under the official grain standards. In approved wheat mixture counties, a mixture of wheat and other

small grains will not be counted as wheat if the mixture contains (a) when seeded, less than 50 percent of wheat by weight, and (b) when harvested, produced less than 50 percent by weight; (2) wheat used for cover crops will not be counted as wheat acreage in any county; and (3) the transferring of farm records of wheat acreage across county lines will be permitted for administrative purposes. For these reasons, acreage data obtained from farm surveys by ASC county committees and from farm acreage reports in the years 1953 through 1962 were used as a basis for apportioning the State allotment to counties in lieu of estimates made by the Statistical Reporting Service. It was necessary to adjust the total seeded acreage of wheat for 1954 in the States of Minnesota, Montana, North Dakota, and South Dakota in order that the acreage seeded to durum wheat in excess of the official farm acreage allotments under the provisions of Public Law 290, 83d Congress, would not be considered in establishing future State, county, and farm acreage allotments. For 1955, 1956, and 1957, the data compiled from the farm survey excluded the acreage of durum wheat seeded in excess of the regular allotment under the provisions of Public Law 8, 84th Congress, Public Law 431, 84th Congress, and Public Law 85-13, respectively. Therefore, no further adjustment was necessary for this factor for these years.

From a survey conducted by the Agricultural Stabilization and Conservation Service in 1953, data for 1953 with respect to the acreage seeded to wheat for harvest as grain, the acreage of mixtures of wheat and other small grains, and the acreage of wheat used as a cover crop were compiled as separate items. Such items were included or excluded as required to conform to the wheat acreage definition set forth in the regulations. The acreage data obtained from farm acreage reports for 1954 through 1962 were compiled in accordance with the definitions of wheat acreage as set forth in the regulations and were used as compiled.

Credit for wheat diversion in 1954 and 1955 was computed on a farm basis rather than on a county basis and was determined as follows: For each year, if the farm wheat acreage allotment was exceeded, no credit nor diversion was allowed. If the allotment was not knowingly exceeded and the wheat acreage was 90 per centum or more of the farm allotment, the diversion credit allowed was the difference between the base acreage and the wheat acreage. If the wheat acreage was less than 90 per centum of the allotment, the maximum diversion credit for the farm was determined by dividing the wheat acreage by 90 per centum of the county proration factor and subtracting from this result the wheat acreage.

Credit for wheat diversion in 1956 was computed on a farm basis in a similar

manner as for 1954 and 1955, except that 75 per centum was used in all computations instead of 90 per centum.

For 1954, the sum of all such computed diversion credits were totaled to obtain the county diversion credit for wheat. For the States of Minnesota, Montana, North Dakota, and South Dakota, the acreages of Durum Wheat (Class II) grown within the allotment increases made for 1954 under Public Law 290, 83d Congress, were subtracted from the 1954 wheat acreage adjusted as described above so as to conform to language in this act providing that such acreage shall not be considered in the determination of future allotments.

The acreages for 1955 and 1956, including diversion credit on a farm basis, were obtained as the sum of the acreages recorded on the farm record card in 1960 for each such year. The acreage thus used for 1955 and 1956 included the following as wheat acreage: (1) acreage actually seeded on the farm and classified as wheat under marketing quota regulations, less the acreage of Durum Wheat (Class II) grown within the allotment increases under Public Law 8, 84th Congress and Public Law 431, 84th Congress; (2) the acreage diverted from the production of wheat on complying farms; and (3) the acreage released for reapportionment to other farms under regulations issued by the Secretary governing the temporary release and reapportionment of such acreage.

Adjustments for abnormal weather conditions in county wheat acreage estimates were considered only for those counties for which the ASC State committees had determined that the acreage classified as wheat, including acreage diverted from wheat, for the years 1953 through 1956 was below normal. Counties thus approved which had wheat acreage plus diverted acreage for the year in question lower than the level represented by 90 per cent of the most recent previous normal year's acreage or 110 per cent of the previous 10-year average wheat acreage plus diverted acreage, whichever was less, were increased to such level as an adjustment for abnormal weather. Determinations of such adjusted acreages made for years prior to 1957 were not revised even though minor revisions were made in acreages of the "normal" years as a result of census revisions. No adjustments for abnormal weather conditions were made in county wheat acreages for the years 1957 through 1962, since the application of Public Law 86-172 and Public Law 86-793 minimized or eliminated the needs for weather adjustments for such years.

The 1957 wheat acreage data as compiled for ASCS statistics included the following as wheat acreage: (1) Acreage actually seeded on the farms and classified as wheat under marketing quota regulations, less the acreage of Durum Wheat (Class II) grown within the al-

lotment increases under Public Law 85-13; (2) the amount by which the acreage on a farm was less than wheat acreage allotment, except for those farms underplanting the allotment for the purpose of depleting stored excess; (3) the acreage diverted from the production of wheat on complying farms; and (4) the acreage released for reapportionment to other farms under regulations issued by the Secretary governing the temporary release and reapportionment of such acreage. Use of this 1957 acreage data precluded the necessity of making any adjustments for abnormal weather conditions.

Section 334 of the Agricultural Adjustment Act of 1938, as amended, was amended by Public Law 85-233, to add the following:

Notwithstanding any other provision of law, no acreage in the commercial wheat-producing area seeded to wheat for harvest as grain in 1958 or thereafter in excess of acreage allotments shall be considered in establishing future State and county acreage allotments except as prescribed in the provisions to the first sentence of subsections (a) and (b), respectively, of this section.

Under the provisions of this amendment, only the allotment can be counted as wheat acreage history on any farm on which the allotment is overseeded. The 1958 wheat acreage data compiled from Agricultural Stabilization and Conservation Service statistics was the sum of the following:

(1) The wheat acreage allotment for all farms on which the allotment was overseeded;

(2) The wheat base acreage on all farms complying with the wheat acreage allotment, except those farms underplanting the wheat allotment for the purpose of depleting stored excess; and

(3) For those farms underplanting the allotment for the purpose of depleting stored excess, the acreage actually classified as wheat under marketing quota regulations, plus the diversion credit determined by multiplying the acreage seeded by the reciprocal of the county proration factor.

Section 334 of the Agricultural Adjustment Act of 1938, as amended, was amended by Public Law 86-419, to add the following:

(d) For the purpose of subsections (a), (b), and (c) of this section, any farm (1) to which a wheat marketing quota is applicable; (2) on which the acreage planted to wheat exceeds the farm wheat acreage allotment; and (3) on which the marketing excess is zero, shall be regarded as a farm on which the entire amount of the farm marketing excess has been delivered to the Secretary or stored in accordance with applicable regulations to avoid or postpone the payment of the penalty. This subsection shall be applicable in establishing the acreage seeded and diverted and the past acreage of wheat for 1959 and subsequent years in apportionment of allotments beginning with the 1961 crop of wheat. For the purpose of clause (1) of this subsection, a farm with respect to which an exemption has been granted under section 335(f) for any year shall not be regarded as a farm to which a wheat marketing quota is applicable for such year, even though such exemption should become null and void because of a violation of the conditions of the exemption.

Under the provisions of this amendment and under the exception as prescribed in the provisos to Public Law 85-203, only the allotment can be counted as wheat acreage history on any farm on which the allotment is overseeded, unless the entire amount of the marketing quota excess is stored or delivered to the Secretary to avoid or postpone the payment of penalty, and none of such excess has been depleted, or the excess has been adjusted to zero because of underproduction.

The 1959, 1960, 1961, and 1962 wheat acreage data compiled from Agricultural Stabilization and Conservation Service statistics was the sum of the following:

(1) The wheat acreage allotment for all farms on which the allotment was overseeded, except those farms on which the entire amount of the marketing excess was stored or delivered to the Secretary to avoid or postpone the payment of penalty, and none of such stored excess has been depleted, or the marketing excess was adjusted to zero because of underproduction;

(2) The wheat base acreage on all farms on which the allotment was overseeded and on which the entire amount of the marketing excess was stored or delivered to the Secretary to avoid or postpone payment of penalty and none of such stored excess has been depleted, or the farm marketing excess was adjusted to zero because of underproduction;

(3) The wheat base acreage on all farms complying with the wheat acreage allotment except those farms underplanting the allotment for the purpose of depleting stored excess of a prior crop and except for 1960, 1961, and 1962, those farms other than federally owned farms on which the acreage classified as wheat acreage was less than 75 per centum of the farm wheat acreage allotment for the year involved or for either of the two preceding years;

(4) For 1959 those farms underplanting the allotment for the purpose of depleting stored excess, the acreage actually classified as wheat under 1959 marketing quota regulations in this part, multiplied by the reciprocal of the county allotment apportionment factor; and

(5) For 1960, 1961, and 1962 for any old farm other than a federally owned farm on which less than 75 per centum of the farm acreage allotment for the year involved or either of the two preceding years was actually planted to wheat or regarded as planted to wheat under the Soil Bank Act and the Great Plains program, the smaller of the farm base acreage for 1960, 1961, or 1962, whichever is applicable, or the acreage obtained by multiplying the wheat acreage for such year by the county wheat diversion factor, which was the reciprocal of a decimal fraction equal to 75 per centum of the county proration factor for such year.

(6) The 1962 wheat history acreage was adjusted pursuant to the provisions of section 334(e) of the Act as amended by section 125 of the Agricultural Act of 1961, in order that the acreage of increased allotments for the production of Durum Wheat (Class II) in the States

and counties of North Dakota, Minnesota, Montana, South Dakota, and California, would not be taken into account in the determination of future State, county, and farm allotments.

To determine for each county the acreage seeded for the production of wheat during the 10 calendar years immediately preceding the year 1963, in addition to the foregoing adjustments for diverted acres and abnormal weather, the following additional adjustments for trends, abnormal weather, and promotion of soil-conservation practices were made:

(1) The simple average of the annual county wheat acreages, adjusted as described above, for the 10-year period, 1953-62 inclusive, was determined.

(2) The simple average of the annual wheat acreages, adjusted as described above, for the 5-year period 1958-62, was determined.

(3) A simple average of the 10-year average and the 5-year average was determined giving equal weight to each. This acreage became the preliminary adjusted county base acreage of wheat.

(4) A preliminary adjustment for trend was made by deducting from the county wheat acreage history, as computed in accordance with the preceding paragraphs, the wheat acreage history for the years 1955 through 1958 for those farms which have been removed from agricultural production due to the encroachment of urban and industrial development. Such adjustments were not made for 1959, 1960, 1961, and 1962 because the farm data for these years reflected such adjustments.

(5) As a further adjustment for trend and to give greater effect to the sharp changes in county seeded acreages of wheat during recent years, the preliminary adjusted county base acreages were limited to an acreage of not less than 80 percent nor more than 120 percent of the 4-year (1959-62) average acreage.

Since the farm data for the years 1955 through 1962 as currently constituted on the farm record cards was used in determining the county base acres, no adjustments were necessary for transfers of farms into or out of the county.

If the sum of the county base acreages thus established differed from the State base established for the apportionment of the national allotment to States, all preliminary county base acres were factored pro rata so that the sum of the county base acres equaled the State base acres.

The resultant preliminary 1964 county base acreages as adjusted for trend in accordance with the above formula were reviewed by the respective State Agricultural Stabilization and Conservation Committees and, where recommended, appropriate adjustments were made to give greater effect to actual trends in county wheat history acreages and for the promotion of soil-conservation practices. Only downward adjustments were permitted for the promotion of soil-conserving practices. The maximum acceptable adjustment for any county was limited to 3 percent of the preliminary base acreage for the county or 200 acres, whichever was the larger.

If such county adjustments were not compensating, the base acreages for all counties were factored, pro rata, so that the sum of the county base acreages, including such adjustments, equaled the base acreage originally determined for the State.

The 1964 State wheat acreage allotment less (1) a reserve acreage for new farms not in excess of 3 per centum of the State acreage allotment, and (2) a reserve acreage for appeals, correction of errors, and missed farms as recommended by the ASC State Committee, was apportioned pro rata to counties on the basis of the final 1964 county base acreage.

Section 334(a) of the Agricultural Adjustment Act of 1938, as amended, states in part, "The national acreage allotment for wheat, less a reserve of not to exceed 1 per centum thereof for apportionment as provided in this subsection, shall be apportioned by the Secretary among the several States * * *. The reserve acreage set aside herein for apportionment by the Secretary shall be used to make allotments to counties, in addition to the county allotments made under subsection (b) of this section, on the basis of the relative needs of counties for additional allotment because of reclamation and other new areas coming into the production of wheat during the ten calendar years ending with the calendar year in which the national acreage allotment is proclaimed."

A reserve acreage of 20,000 acres was withheld for this purpose. In order for a county in 1964 located in a wheat-producing area to receive additional allotment acreage under this provision, the State committee was required to establish that a definite delineable area of the county had gone into the production of wheat during the 10 calendar years ending with 1963.

The amount of additional allotment apportioned to counties under this provision was the sum of the acreages determined under items (1) and (2) below, but in no case was the amount of the apportionment less than an amount obtained by subtracting the regular 1964 county allotment from 50 percent of the figure obtained by averaging the 4-year (1955-58) average wheat acreage history for the county with the 1959, 1960, 1961, and 1962 county wheat acreage history, giving 60 percent weight to the 4-year average wheat acreage history and 10 percent weight to the history acreages for each of the years 1959, 1960, 1961, and 1962.

(1) The acreages apportioned by the State committee from the State reserve for new farms in the delineable area for the 1963 crop year, plus

(2) The amount by which the 1964 regular county allotment was less than the 1963 final county allotment less 10 per centum to make 1963 comparable with 1964 adjusted to give compensating effect to the loss of county wheat acreage history in 1960, 1961, and 1962 which was reflected in the 1964 regular county allotment. Such adjustment was made by deducting from the 1963 final county allotment (less 10 per centum) the product of 45 percent (the weight applicable

to the 3 years 1960, 1961, and 1962 since the weight given to each of the last 5 years in the 10-year base period is 15 percent) of the acreage by which the 1962 county wheat acreage history was less than the 1959 county wheat acreage history multiplied by the 1964 State allotment apportionment factor.

In the two States, Alabama and Mississippi, which were added to the commercial wheat-producing area in 1959, and in Arizona which was added to the commercial wheat-producing area in 1960, the above-mentioned apportionment procedure was not used because county allotments were not established for any year between 1954 and the year the State was brought into the commercial wheat-producing area. Since in each of these three States it was determined that virtually every county now producing wheat came into the production of wheat during the past 10 years, all counties in such States were treated alike. Sufficient acreage out of the national reserve was apportioned to counties in each of these States which would bring the 1964 county wheat acreage allotment up to a level equal to an acreage obtained by applying the national proration factor of .61763 to an adjusted base determined for the county which was obtained by averaging the 4-year (1955-58) average historical base acreage for the county with the 1959, 1960, 1961, and 1962 county wheat acreage history, giving 60 percent weight to the 4-year average historical base acreage and 10 percent weight to the history acreages for each of the years, 1959, 1960, 1961, and 1962. No apportionment of acreage from the national reserve was made to those counties in which the regular allotment for 1964 exceeded the allotment computed in accordance with the formula as outlined above, or to counties which would be apportioned 4 acres or less, unless the State committees requested that such small acreages be apportioned to them. For counties in the State of Mississippi, adjustments in base acreages as recommended by the State committee were considered in determining the need for additional allotment from the national reserve. Counties with downward adjustments in base acreages were not apportioned additional allotments and also counties for which no wheat history acreage was reported for 1961 and 1962, since it was evident that the need for such additional allotment ceased to exist.

In the States of Florida, Louisiana, Nevada, and the six New England States which were added to the commercial wheat-producing area for 1964, the foregoing procedures were not used because county allotments were not established for any year between 1954 and 1964. A review of wheat history acreages reported for the 10-year period 1953-62 for each county, showed that none of the counties in the six New England States appeared to be in need of additional allotment acres. All New England counties have reported wheat history acreages showing a sharp downward trend. Therefore, no additional allotment from the national reserve will be apportioned to such counties until the need arises.

For six counties in the State of Nevada it was determined that additional allotment from the national reserve would be apportioned to such counties, using the difference between the computed base acreages (1953-62), and the base acres recommended for each of the six counties, by the ASC State committee (which appear to be reasonable in view of the expansion of irrigation areas, thus reclaiming additional land), and then factoring the base acreage difference by the national apportionment factor of .61763, to obtain the amount of the additional allotment for each county. The base acres, as recommended by State committees approximates an average of the history acreage for the county, and such recommended base acreage will approximate an average of the last 1, 2 or more years of the 10-year base period, depending upon the year in which such reclaimed land in the county was utilized for the production of wheat.

In the State of Louisiana, additional acreage from the national reserve is apportioned to 11 counties. Those counties have the greatest expansion of wheat grown for grain during the last 5 years of the 10-year base period. Other counties in the State report downward trends, or no wheat grown for grain. Therefore, the difference between the 10-year average (1953-62) and the 5-year average (1958-62) for the 11 counties, thus indicating need for additional allotment and as recommended by the State ASC Committee, was factored by use of the national allotment factor (0.61763) to determine the amount of the additional allotment to be apportioned from the national reserve.

For the State of Florida, no official estimates of wheat acreages by counties have been made for any of the 10 years 1953-62 of the base period. Data from ARCS farm survey reports were used. Since wheat acreages as reported, "needed for the production of grain" show the greatest increases during the last five years of the 10-year period, the difference between the county averages of wheat acres grown for grain for the base period 1953-62 and 1958-62, factored by the national allotment factor (0.61763) is considered fair and equitable apportionment of additional allotment acreage from the national reserve. Of the 23 counties reporting wheat acreages during the 10-year base period, 19 counties are considered to be in need of additional allotment in order that they are equal to the national average apportionment of total wheat allotments for 1964.

The total acreage apportioned to all counties from the national reserve is 18,127 acres. The balance of the reserve is being held for possible future requirements.

The tables contained in § 728.7 hereof show the county base acreages and apportionment of the 1964 State wheat acreage allotment, except that for the States of Alaska and New Hampshire, 35 acres have been apportioned from the national allotment subject to a request by such States that the same be apportioned to counties, and the national reserve acreage among the counties. The reserve acreage for new farms and the

reserve for appeals, corrections of errors and missed farms withheld from the State allotment are listed at the end of the allotment tabulation for each State. The reserve acreage withheld by county committees for appeals, correction of errors, and missed farms prior to apportioning the county allotment to individual farms is indicated in the appropriate column on the tabulation.

Prior to determinations of county acreage allotments for the 1964 crop wheat, Public Notice (28 F.R. 1059) was given in accordance with the Administrative Procedure Act (5 U.S.C. 1003). No data, views, or recommendations pertaining to the determination of county

acreage allotments for 1964 crop wheat, were submitted pursuant to such notice. Wheat farmers need to be notified of farm wheat acreage allotments which are based upon the county allotments apportioned to States from the national quota referendum to be held on May 21, 1963, as required by law, it will be impracticable to publish these county allotments 30 days in advance of their effective date. Accordingly, the county allotments herein shall become effective upon filing with the Director, Office of the Federal Register.

§ 726.7 Wheat Acreage apportioned to counties for 1964.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

[Orange Reg. 25]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.374 Orange Regulation 25.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the committees established under the afore-

said amended marketing agreement and order, and upon other available information, it is hereby found and determined, in accordance with paragraph (5) of section 602 of the act, that the continuation of regulation of shipments of oranges, including Temple oranges, as hereinafter provided, is necessary and will tend to avoid a disruption of the orderly marketing of the remainder of the current crop of such oranges; and such continuation of regulation will be in the public interest.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, including Temple oranges, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for

regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on April 30, 1963, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges, including Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140-51.1178 of this title).

(2) Orange Regulation 24 (§ 905.370; 28 F.R. 3109) is hereby terminated at 12:01 a.m., e.s.t., May 6, 1963.

(3) During the period beginning at 12:01 a.m., e.s.t., May 6, 1963, and ending at 12:01 a.m., e.s.t., September 16, 1963, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any oranges, except Temple oranges, grown in the production area, which do not grade at least U.S. No. 2 Russet; or

(ii) Any oranges, except Temple oranges, grown in the production area, which are of a size smaller than $2\frac{1}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in said United States Standards for Florida Oranges and Tangelos: *Provided*, That in determining the percentage of oranges in any lot which are smaller than $2\frac{1}{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size $2\frac{1}{16}$ inches in diameter or smaller.

(4) During the period beginning at 12:01 a.m., e.s.t., May 6, 1963, and ending at 12:01 a.m., e.s.t., July 31, 1963, no handler shall ship, between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any Temple oranges, grown in the production area, which do not grade at least U.S. No. 2 Russet.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 2, 1963.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 63-4849; Filed, May 3, 1963; 8:50 a.m.]

[Grapefruit Reg. 25]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.375 Grapefruit Regulation 25.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found and determined, in accordance with paragraph (5) of section 602 of the act, that the continuation of regulation of shipments of grapefruit, as hereinafter provided, is necessary and will tend to avoid a disruption of the orderly marketing of the remainder of the current crop of such grapefruit; and such continuation of regulation will be in the public interest.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all grapefruit, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on April 30, 1963, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section,

including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Grapefruit (§§ 51.750-51.783 of this title).

(2) During the period beginning at 12:01 a.m., e.s.t., May 6, 1963, and ending at 12:01 a.m., e.s.t., September 16, 1963, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any grapefruit, grown in the production area, which do not grade at least U.S. No. 2 Russet;

(ii) Any seeded grapefruit, grown in the production area, which are smaller than $3\frac{1}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit; or

(iii) Any seedless grapefruit, grown in the production area, which are smaller than $3\frac{3}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 2, 1963.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 63-4847; Filed, May 3, 1963; 8:50 a.m.]

[Valencia Orange Reg. 45]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.345 Valencia Orange Regulation 45.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and

Order No. 908, as amended (7 CFR Part 908; 27 F.R. 10089), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 2, 1963.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., May 5, 1963, and ending at 12:01 a.m., P.s.t., May 12, 1963, are hereby fixed as follows:

- (i) District 1: 506,850 cartons;
- (ii) District 2: 219,193 cartons;
- (iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 3, 1963.

PAUL A. NICHOLSON,
Deputy Director, Fruit and
Vegetable Division, Agricultural
Marketing Service.

11:36 a.m.]

[Lemon Reg. 61]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.361 Lemon Regulation 61.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 27 F.R. 8346), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the

period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 30, 1963.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., May 5, 1963, and ending at 12:01 a.m., P.s.t., May 12, 1963, are hereby fixed as follows:

- (i) District 1: Unlimited movement;
- (ii) District 2: 348,750 cartons;
- (iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 2, 1963.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Veg-
etable Division, Agricultural
Marketing Service.

[F.R. Doc. 63-4848; Filed, May 3, 1963;
8:50 a.m.]

[970.303, Amdt. 3]

PART 970—CARROTS GROWN IN SOUTH TEXAS

Limitation of Shipments

Findings. (a) Pursuant to Marketing Agreement No. 142 and Order No. 970 (7 CFR Part 970), regulating the handling of carrots grown in designated counties in South Texas, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the South Texas Carrot Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the amendment to the limitation of shipments hereinafter set forth will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, or engage in public rule making procedure, and that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1003) in that (1) South Texas carrots are now being, and have been, handled under regulations this season since November 5, 1962, (2) this amendment should become effective as soon as possible in order to maximize benefits to growers in light of present crop conditions, and (3) special preparation on the part of handlers is not required since this amendment relieves restrictions on the handling of carrots grown in the production area.

Order, as amended. In § 970.303 (27 F.R. 10746; 28 F.R. 962; 28 F.R. 2957) delete paragraph (b) and in lieu thereof substitute a new paragraph (b) as set forth below.

§ 970.303 Limitation of shipments.

* * * * *
(b) *Sizing requirements*—(1) *Medium-to-large*: $1\frac{3}{16}$ inch minimum diameter to $1\frac{1}{2}$ inches maximum diameter, $5\frac{1}{2}$ inches minimum length;

(2) *Jumbos*: 1 inch minimum diameter to 3 inches maximum diameter and 6 inches minimum length.

* * * * *
(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 2, 1963, to become effective May 6, 1963.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Veg-
etable Division, Agricultural
Marketing Service.

Title 20—EMPLOYEES' BENEFITS

Chapter III—Bureau of Old-Age and Survivors Insurance, Social Security Administration, Department of Health, Education, and Welfare

[Regs. 4, Further Amended]

PART 404—FEDERAL OLD-AGE, SUR- VIVORS, AND DISABILITY INSUR- ANCE (1950—)

Subpart G—Filing of Applications and Other Forms

WITHDRAWAL OF APPLICATION AND REQUEST FOR REVISION OF RECORDS OF EARNINGS

Regulations No. 4, as amended, of the Social Security Administration (20 CFR 404.1 et seq.) are further amended as follows:

1. Section 404.615 is amended to read as follows:

§ 404.615 Withdrawal of application and request for revision of records of earnings.

(a) *Before adjudication of application or request.* A claimant (or an individual who is authorized to execute an application on his behalf under § 404.603) may withdraw his previously filed application or request for revision of a record of earnings maintained by the Administration if (1) he files a written request for withdrawal, (2) the claimant is alive at the time the request for withdrawal is filed, (3) the Administration approves the request for withdrawal, and (4) the request for withdrawal is filed on or before the date the Administration makes a determination on the application or request for revision of a record of earnings.

(b) *After adjudication of application.* An application for monthly benefits, a lump-sum death payment, a recomputation of a primary insurance amount, or

the establishment of a period of disability may be withdrawn by a written request filed after the date the Administration makes a determination on the application, provided that:

(1) The conditions enumerated in subparagraphs (1) through (3) of paragraph (a) of this section are met;

(2) Any other person whose entitlement would be rendered erroneous by such withdrawal consents in writing thereto (or such written consent is given on behalf of such other person by an individual authorized to execute an application on his behalf under § 404.603); and

(3) There is repayment of the amount of benefits previously paid because of the application that is being withdrawn or it can be established to the satisfaction of the Administration that repayment of any such amount is assured.

(c) *Effect of withdrawal of application or request.* Where a request for withdrawal of an application or for withdrawal of a request for revision of an earnings record is filed and such request for withdrawal is approved by the Administration, such application or request for revision will be deemed not to have been filed. After the withdrawal (whether made before or after the date the Administration makes a determination), further action will be taken by the Administration, except as provided in § 404.615a, only upon the filing of a new application or request for revision.

(Sec. 205, 1102 of the Social Security Act, as amended, 53 Stat. 1368, as amended, 49 Stat. 647, as amended; sec. 5 of Reorg. Plan No. 1 of 1953, 67 Stat. 18, 631; 42 U.S.C. 1302)

2. Effective date. The foregoing amendments shall become effective upon publication in the FEDERAL REGISTER.

Dated: April 10, 1963.

[SEAL] ROBERT M. BALL,
Commissioner of Social Security.

Approved: April 30, 1963.

ANTHONY J. CELEBREZZE,
Secretary of Health, Education,
and Welfare.

Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Docket No. 3666; Order 57]

PARTS 71-78—EXPLOSIVES AND OTHER DANGEROUS ARTICLES

Miscellaneous Amendments

At a session of the Interstate Commerce Commission, Safety and Service Board No. 2—Explosives and Other Dangerous Articles Board, held in Washington, D.C. on the 26th day of April 1963.

The matter of certain regulations governing the transportation of explosives and other dangerous articles, formulated and published by the Commission, being under consideration, and

It appearing, that Notice No. 57, dated February 27, 1963, setting forth certain proposed amendments to the said regulations, and the reasons therefor, and stating that consideration was to be given thereto, was published in the FEDERAL REGISTER on March 16, 1963 (28 F.R. 2592), pursuant to the provisions of section 4 of the Administrative Procedure Act; that pursuant to said Notice interested parties were given an opportunity to be heard with respect to said proposed amendments; that written views or arguments were submitted to the Commission with respect to the proposed amendments;

And it further appearing, that said views and arguments with respect to the proposed amendments are such as to warrant revision at this time of certain of the proposed amendments, and that in all other respects the proposed amendments set forth in the above referred-to Notice No. 57 are deemed justified and necessary;

It is ordered, That the aforesaid regulations governing the transportation of explosives and other dangerous articles be, and they are hereby, amended in the manner and to the extent set forth in said Notice No. 57, dated February 27, 1963, as revised by the specific modification set forth as follows:

In § 78.150-6, amend paragraph (a).
It is further ordered, That this order shall become effective July 24, 1963, and

shall remain in effect until further order of the Commission;

It is further ordered, That compliance with the herein prescribed and amended regulations is hereby authorized on and after the date of service of this order;

And it is further ordered, That copies of this order be served upon all parties of record herein, and that notice shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission, Safety and Service Board No. 2—Explosives and Other Dangerous Articles Board.

[SEAL] HAROLD D. MCCOY,
Secretary.

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71-78 OF THIS CHAPTER

Amend § 72.5 Commodity list (15 F.R. 8265, 8268, Dec. 2, 1950) (27 F.R. 6736, July 17, 1962) as follows:

§ 72.5 List of explosives and other dangerous articles.

(a) * * *

Article	Classed as—	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
(Change)				
Alkaline corrosive battery fluid.....	Cor. L.....	73.244, 73.249, 73.257	White.....	10 gallons.
Carbolic acid (phenol), solid.....	Pois. B.....	73.369	Poison.....	250 pounds.
Hydrogen, liquefied.....	F. G.....	No exemption, 73.316	Red Gas.....	Not accepted.
(Add)				
Memtetrahydro phthalic anhydride.....	Cor. L.....	No exemption, 73.298	White.....	1 quart.

PART 73—SHIPPERS

Subpart A—Preparation of Articles for Transportation by Carriers by Rail Freight, Rail Express, Highway, or Water

In § 73.29 amend paragraph (f) (15 F.R. 8277, Dec. 2, 1950) to read as follows:

§ 73.29 Empty containers.

* * * * *
(f) Unless otherwise specifically provided, empty containers offered for transportation (see paragraph (a) of this section) if bearing labels described in §§ 73.405 through 73.414 (except § 73.413) of this chapter must have such labels removed, obliterated, or completely covered. The label described in § 73.413 is authorized for the latter purpose. Containers which last contained explosives on which the word "EXPLOSIVES" and/or commodity name is printed, stenciled or otherwise marked

or applied, when shipped as empty shall have such marking completely covered or obliterated if shipped in less-than-carload or less-than-truckload lots, or in open-top or flat cars or open-top or flat bed motor vehicles or trailers. Covering or obliteration of such labels and markings shall not be required for carload or truckload shipments made in closed cars or van-type motor vehicles when loaded by the shipper and unloaded by the consignee or their authorized agents.

In § 73.33 amend paragraphs (o) (4) and (p) (25 F.R. 6624, July 14, 1960) (20 F.R. 8099, Oct. 28, 1955) to read as follows:

§ 73.33 Qualification, maintenance, and use of cargo tanks.

* * * * *

(o) * * * * *
(4) Angle valves and excess-flow valves on chlorine tank motor vehicles shall conform to the standards of the Chlorine Institute, Inc. Angle valves to

conform with Dwg. 104-4 dated May 5, 1958. Excess-flow valves conforming with Dwg. 101-3 dated January 23, 1959 shall be installed under each liquid angle valve and the excess-flow valves conforming with Dwg. 106-1 dated July 24, 1959 shall be installed under each gas angle valve.

(p) Each tank for chlorine, carbon dioxide, and nitrous oxide shall be insulated with a suitable insulation material of such thickness that the overall thermal conductance is not more than 0.08 Btu per square foot per degree F. differential in temperature per hour. The conductance shall be determined at 60° F. Insulation material used on tanks for nitrous oxide shall be non-combustible. Insulation material used on tanks for chlorine shall be corkboard with minimum thickness of 4 inches.

Subpart B—Explosives; Definitions and Preparation

§ 73.54 [Amendment]

In § 73.54 headed "Ammunition for cannon," paragraph (a), change the drawing number "XM115554" to read "XP115554" (27 F.R. 6736, July 17, 1962).

In § 73.70 amend paragraph (b) (1) (27 F.R. 6737, July 17, 1962) to read as follows:

§ 73.70 Diazodinitrophenol or lead mononitroresorcinate.

(b) ***
(1) Spec. 21C (§ 78.224 of this chapter). Fiber drums not over 30 gallons capacity of at least nine-ply construction having, in addition, a sheet of steel having a minimum base box of 75 pounds, not less than .008 inch thick, wound between the fifth and sixth plies. The inside ply of kraft paper shall be laminated on each side with polyethylene to form a waterproof lining. The bottom head shall be of fiber, metal covered on the outside. Lead mononitroresorcinate only must be packed wet with not less than 40 percent by weight of water and shall be contained in at least two tightly sealed polyethylene bags of at least 0.004 inch thickness and this unit shall then be placed in a tightly closed polyethylene bag of at least 0.004 inch thickness and this assembly shall be placed within a 0.006 inch thickness polyethylene or other suitable plastic bag, completely filled with water and tightly closed. The 0.006 inch plastic bag shall be of such size as to completely fill the outside shipping container. The dry weight of lead mononitroresorcinate only in one outside container must not exceed 100 pounds.

In § 73.75 amend paragraph (b) (1) (27 F.R. 6737, July 17, 1962) to read as follows:

§ 73.75 Nitro mannite.

(b) ***
(1) Spec. 21C (§ 78.224 of this chapter). Fiber drums not over 30 gallons

capacity of at least nine-ply construction having, in addition, a sheet of steel having a minimum base box of 75 pounds, not less than 0.008 inch thick, wound between the fifth and sixth plies. The inside ply of kraft paper shall be laminated on each side with polyethylene to form a waterproof lining. The bottom head shall be of fiber, metal covered on the outside. Nitro mannite must be packed wet with not less than 40 percent by weight of water and shall be contained in at least two tightly sealed polyethylene bags of at least 0.004 inch thickness and this unit shall then be placed in a tightly closed polyethylene bag of at least 0.004 inch thickness and this assembly shall be placed within a 0.006 inch thickness polyethylene or other suitable plastic bag, completely filled with water and tightly closed. The 0.006 inch plastic bag shall be of such size as to completely fill the outside shipping container. The dry weight of nitro mannite in one outside container must not exceed 100 pounds.

Subpart D—Flammable Solids and Oxidizing Materials; Definition and Preparation

In § 73.184 amend paragraph (a) (2) and (6) (15 F.R. 8308, Dec. 2, 1950) (17 F.R. 7281, Aug. 9, 1952) to read as follows:

§ 73.184 Nitrocellulose or collodion cotton, wet, or nitrocellulose, colloided, granular, or flake, wet, or nitrostarch, wet, or nitroguanidine, wet.

(a) ***
(2) Spec. 14, 15A, or 15B (§ 78.165, § 78.168, or § 78.169 of this chapter). Wooden boxes lined, spec. 2M (§ 78.31 of this chapter).

(6) Spec. 42F (§ 78.110 of this chapter). Aluminum barrels or drums.

In § 73.204 amend paragraph (a) (6) (27 F.R. 3428, April 11, 1962) to read as follows:

§ 73.204 Sodium hydrosulfite.

(a) ***
(6) Spec. 21C (§ 78.224 of this chapter). Fiber drums constructed for a net weight of 225 pounds; authorized net weight of product not over 250 pounds; drums must have a metal foil (laminated between two sheets of kraft paper with thermoplastic adhesive) moisture and water barrier wound into the sidewall of the drum and located not more than 2 plies from the interior of drum but not to be wound as the first ply; a metal foil moisture and water barrier must also be present in the fiber or wood heading; exterior of drum sidewall must be protected with a water resistant coating; in addition to the tests prescribed by § 78.224-2 (a), (b), and (c) of this chapter, a drum having been given a 4-foot diagonal bottom chime drop must, after being emptied, withstand complete immersion of the bottom in 6 inches of water for 4 hours without leakage to the interior; drums

must not be offered for transportation by carriers by water.

In § 73.208 add paragraph (b) (3) (15 F.R. 8311, Dec. 2, 1950) to read as follows:

§ 73.208 Titanium metal powder, wet or dry.

(b) ***
(3) Spec. 5B (§ 78.82 of this chapter). Metal barrels or drums not over 15 gallons capacity.

In § 73.221 amend paragraph (a) (8) (23 F.R. 2325, April 10, 1958) to read as follows:

§ 73.221 Liquid organic peroxides, n.o.s. and liquid organic peroxide solutions, n.o.s. other than acetyl peroxide solution, acetyl benzoyl peroxide solution, cumene hydroperoxide, dicumyl peroxide, hydrogen peroxide, peracetic acid, and tertiary butylisopropyl benzene hydroperoxide.

(a) ***
(8) Spec. 37P (§ 78.133 of this chapter). Steel drums, not over 5-gallons capacity, with one-piece seamless molded polyethylene liner (nonreusable container). Drums exceeding 1-gallon capacity must be constructed of at least 24-gauge metal. Authorized only for materials that will not react with polyethylene and result in container failure.

In § 73.230 amend paragraph (a) (1); add paragraph (a) (3) (15 F.R. 8312, Dec. 2, 1950) to read as follows:

§ 73.230 Sodium, metallic, dispersion in organic solvent.

(a) ***
(1) Spec. 15A (§ 78.168 of this chapter). Wooden boxes with inside containers which must be metal cans not exceeding one quart capacity, and each such can must be packed in another metal can and cushioned on all sides with at least one inch of incombustible dry nonhygroscopic material which is nonreactive with sodium at temperatures encountered during normal transportation. Both the inner and outer metal cans shall be equipped with an airtight closing device secured by positive means (not friction). Gross weight of completed package must not exceed 100 pounds.

(3) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes constructed of at least 375-pound test (Mullen or Cady) solid fiberboard with inside metal cans not exceeding one quart capacity. Each such can must be packed in another metal can and cushioned on all sides with at least one inch of incombustible dry nonhygroscopic material which is nonreactive with sodium at temperatures encountered in normal transportation. Both the inner and outer metal cans shall be equipped with an airtight closing device secured by positive means (not friction) and must be individually nested into a double-faced corrugated partition of at least 200-pound test (Mullen or Cady) which is in turn surrounded on all sides by a peripheral double-walled

corrugated liner of at least 200-pound test (Mullen or Cady). Authorized gross weight not over 90 pounds.

Subpart E—Acids and Other Corrosive Liquids; Definition and Preparation

In § 73.249 amend the heading and introductory text of paragraph (a); amend the introductory text of paragraph (b), (b)(1); cancel paragraph (b)(4) (21 F.R. 3010, May 5, 1956) (21 F.R. 4432, June 23, 1956) (24 F.R. 5640, July 14, 1959) (24 F.R. 3597, May 5, 1959) to read as follows:

§ 73.249 Alkaline corrosive liquids, n.o.s., alkaline caustic liquids, n.o.s., alkaline corrosive battery fluids, and sodium aluminate, liquid.

(a) Alkaline corrosive liquids, n.o.s., alkaline caustic liquids, n.o.s., alkaline corrosive battery fluids, and sodium aluminate, liquid, when offered for transportation by carriers by rail freight, highway, or water must be packed in specification containers of a design and constructed of materials that will not react dangerously with or be decomposed by the chemical packed therein as follows:

(b) Alkaline corrosive liquids, n.o.s., alkaline caustic liquids, n.o.s., alkaline corrosive battery fluids, and sodium aluminate, liquid, when offered for transportation by rail express, must be packed in specification containers as follows (also authorized for transportation by carriers by rail freight, highway, or water):

(1) In containers as prescribed in paragraphs (a) (8), (9), (10), and (11) of this section and § 73.245 (a) (12).

(4) [Cancelled].

In § 73.255 add paragraph (a) (6) (15 F.R. 8315, Dec. 2, 1950) to read as follows:

§ 73.255 Dimethyl sulfate.

(a) * * *
(6) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes with each box containing not more than six inside glass containers not over 1-quart capacity each, closed by plastic screw-cap resistant to the lading, and each completely surrounded by incombustible absorbent cushioning material and enclosed in a metal can having rolled, seamed-on heads of a key-opening type.

In § 73.262 add paragraph (b) (3) (15 F.R. 8316, Dec. 2, 1950) to read as follows:

§ 73.262 Hydrobromic acid.

(b) * * *
(3) Spec. 15A (§ 78.168 of this chapter). Wooden box having only one polyethylene bottle, with screw-cap closure, not over one-gallon capacity.

In § 73.263 amend paragraph (a) (5); add paragraph (a) (26) (15 F.R. 8316, 8317, Dec. 2, 1950) to read as follows:

§ 73.263 Hydrochloric (muriatic) acid, hydrochloric (muriatic) acid mixtures, hydrochloric (muriatic) acid solution, inhibited, sodium chlorite solution, and cleaning compounds, liquid, containing hydrochloric (muriatic) acid.

(a) * * *

(5) Spec. 1A, 1C, or 1K (§ 78.1, 78.3, or 78.14 of this chapter). Carboys in boxes or kegs.

(26) Spec. 33A (§ 78.150 of this chapter). Polystyrene cases (nonreusable container) with inside glass bottles not over 5 pints capacity each. Not more than four 5-pint bottles may be packed in one outside container.

In § 73.268 amend paragraph (f) (1); add paragraph (f) (6) (15 F.R. 8320, Dec. 2, 1950) to read as follows:

§ 73.268 Nitric acid.

(f) * * *

(1) Spec. 1A, 1C, or 1K (§ 78.1, 78.3, or 78.14 of this chapter). Straight sided carboys in boxes or kegs.

(6) Spec. 33A (§ 78.150 of this chapter). Polystyrene cases (nonreusable container) with inside glass bottles not over 5 pints capacity each. Not more than four 5-pint bottles may be packed in one outside container.

In § 73.269 amend paragraph (a) (2); add paragraph (a) (4) (15 F.R. 8320, 8321, Dec. 2, 1950) to read as follows:

§ 73.269 Perchloric acid.

(a) * * *

(2) Spec. 1A, 1C, 1D, 1E, or 1K (§ 78.1, 78.3, 78.4, 78.7, or 78.14 of this chapter). Glass carboys in boxes, kegs or plywood drums.

(4) Spec. 33A (§ 78.150 of this chapter). Polystyrene cases (nonreusable container) with inside glass bottles not over 5 pints capacity each. Not more than four 5-pint bottles may be packed in one outside container.

In § 73.271 amend paragraph (a) (16) (26 F.R. 12703, Dec. 29, 1961) to read as follows:

§ 73.271 Phosphorus oxybromide, phosphorous oxychloride, phosphorus trichloride, and thiophosphoryl chloride.

(a) * * *

(16) Spec. 17C (§ 78.115 of this chapter). Metal drums (single-trip) with no opening exceeding 2.3 inches in diameter. When drums are not constructed of stainless steel they must be lined with a material impervious to the

lading. Authorized for phosphorus trichloride only.

In § 73.272 amend paragraph (e) (1); add paragraph (e) (3) (15 F.R. 8321, Dec. 2, 1950) to read as follows:

§ 73.272 Sulfuric acid.

(e) * * *

(1) Spec. 1A, 1C, or 1K (§ 78.1, 78.3, or 78.14 of this chapter). Carboys in boxes or kegs.

(3) Spec. 33A (§ 78.150 of this chapter). Polystyrene cases (nonreusable container) with inside glass bottles not over 5 pints capacity each. Not more than four 5-pint bottles may be packed in one outside container.

In § 73.277 amend paragraph (a) (4); cancel paragraph (c) (21 F.R. 672, Jan. 31, 1956) (15 F.R. 8322, Dec. 2, 1950) to read as follows:

§ 73.277 Hypochlorite solutions.

(a) * * *

(4) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S or 2SL (§ 78.35 or 78.35a of this chapter) polyethylene container. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum shall be waived. Authorized for not over 16 percent sodium hypochlorite solution only.

(c) [Cancelled].

In § 73.297 add paragraph (a) (3) (25 F.R. 6627, July 14, 1960) to read as follows:

§ 73.297 Titanium sulfate solution containing not more than 45% sulfuric acid.

(a) * * *

(3) Spec. 15A, 15B, 15C, 16A or 19A (§§ 78.168, 78.169, 78.170, 78.185 or § 78.190 of this chapter). Wooden boxes with inside glass or earthenware containers, not over 1 gallon capacity each.

Add § 73.298 (15 F.R. 8324, Dec. 2, 1950) to read as follows:

§ 73.298 Memtetrahydro phthalic anhydride.

(a) Memtetrahydro phthalic anhydride must be packed in specification containers as follows:

(1) Spec. 15A, 15B, 15C, 16A or 19A (§§ 78.168, 78.169, 78.170, 78.185 or § 78.190 of this chapter). Wooden boxes with inside glass containers not over 1-gallon capacity each.

(2) Spec. 12A (§ 78.210 of this chapter). Fiberboard boxes with inside glass bottles not over 1-gallon capacity each. Not more than 4 inside glass bottles exceeding 5 pints capacity each shall be packed in the outside container. Shipper must have established that the completed package meets test requirements prescribed by § 78.210-10 of this chapter.

(3) Spec. 17E (§ 78.116 of this chapter). Metal drums (single-trip) with

openings not exceeding 2.3 inches in diameter.

(4) Spec. 37P (§ 78.133 of this chapter). Steel drums with polyethylene liner (nonreusable container). Authorized only for materials that will not react with polyethylene and result in container failure.

Subpart F—Compressed Gases; Definition and Preparation

In § 73.308 amend paragraph (a) table and Note 16 (26 F.R. 1015, Feb. 2, 1961) to read as follows:

§ 73.308 Compressed gases in cylinders.

(a) * * *

Kind of gas	Maximum permitted filling density (see Note 12) (percent)	Cylinders (see Note 11) marked as shown in this column must be used except as provided in Note 1 and § 73.34 (a) to (e)
(Change) Liquefied nonflammable gases, liquids other than those classified as flammable, corrosive, or poisonous and mixtures or solutions thereof, charged with nitrogen, carbon dioxide, or air (see Notes 10, 15, and 16)	(4)	ICC-3A300; ICC-3AA300; ICC-3HT900; ICC-4B300; ICC-4BA-300; ICC-4D300; ICC-4DA500; ICC-4DS500.

NOTE 16: Specs. 4D, 4DA, 9, 40, 41, and 4DS (§§ 78.53, 78.58, 78.63, 78.66, 78.67, and 78.47 of this chapter) spheres and cylinders must be shipped in strong outside containers.

§ 73.315 [Amendment]

In § 73.315 amend the introductory text of paragraph (i) by changing the reference to "§ 78.336-5" therein to read "§ 78.336-10" (20 F.R. 8103, Oct. 28, 1955).

Add § 73.316 (15 F.R. 8331, Dec. 2, 1950) to read as follows:

§ 73.316 Liquefied hydrogen.

(a) Liquefied hydrogen (minimum 95 percent parahydrogen) must be charged into specification containers as follows:

(1) Spec. 113A60-W-2 (§ 78.279 of this chapter). Tank cars. Each tank car shall have a pressure controlling valve set at a pressure not exceeding 17 psig. The maximum permitted filling density is 6.6 percent.

Subpart G—Poisonous Articles; Definition and Preparation

In § 73.359 amend paragraph (a) (12) (26 F.R. 12704, Dec. 29, 1961) to read as follows:

§ 73.359 Hexaethyl tetraphosphate mixtures, methyl parathion mixtures, organic phosphate compound mixtures, n.o.s., parathion mixtures, tetraethyl dithio pyrophosphate mixtures, and tetraethyl pyrophosphate mixtures, liquid.

(a) * * *

(12) Spec. 12A (§ 78.210 of this chapter). Fiberboard boxes with inside securely closed metal containers not over 1-gallon capacity each. Fiberboard boxes shall be constructed of not less than 500-pound test (Mullen or Cady) double-wall corrugated fiberboard. Not more than six 1-gallon metal containers shall be packed in one outside container. Authorized gross weight not over 65 pounds.

In § 73.364 amend the introductory text of paragraph (a) and (a)(1) (25 F.R. 10396, Oct. 29, 1960) (26 F.R. 9403, Oct. 6, 1961) to read as follows:

§ 73.364 Exemptions for poisonous solids, class B.

(a) Poisonous solids, class B, except beryllium metal powder; carbolic acid (phenol) other than as specified in § 73.369(b); cyanides, other than as specified in § 73.370 (b) and (d); cyanogen bromide, hexaethyl tetraphosphate mixtures, methyl parathion mixtures, organic phosphate compound, n.o.s., parathion mixtures, tetraethyl dithio pyrophosphate mixtures, and tetraethyl pyrophosphate mixtures, other than as specified in § 73.377(f); in tightly closed inside containers, securely cushioned when necessary to prevent breakage and packed as follows, are exempt from specification packaging, marking, and labeling requirements, except that marking name of contents on outside container is required for shipments via carrier by water. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter.

(1) In inside glass, earthenware, or composition bottles or jars, or metal containers, or lock-corner sliding-lid wooden boxes, or of not over 5 pounds capacity each; or chipboard, pasteboard, or fiber cartons, cans, boxes, or tightly closed strong plastic bags or bottles compatible with product of not over 1 pound capacity each, packed in outside wooden or fiberboard boxes, or wooden barrels or kegs. Net weight of contents of outside container not over 100 pounds.

In § 73.369 amend paragraph (a) (15); add paragraph (b) (26 F.R. 9404, Oct. 6, 1961) (15 F.R. 8337, Dec. 2, 1950) to read as follows:

§ 73.369 Carbolic acid (phenol), not liquid.

(a) * * *

(15) Spec. 12A (§ 78.210 of this chapter). Fiberboard boxes with inside glass, polyethylene, or other nonfragile plastic bottles not over 5 pounds capacity each. Not more than 4 inside glass bottles of 5 pounds capacity each shall be packed in one outside container. Shipper must

have established that the completed package meets test requirements prescribed by § 78.210-10 of this chapter.

(b) Carbolic acid (phenol), not liquid, in tightly closed inside containers, securely cushioned when necessary to prevent breakage and packed as follows, is exempt from specification packaging, marking, and labeling requirements, except that marking name of contents on outside container is required for shipments via carrier by water. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter.

(1) In inside glass, earthenware or polyethylene bottles or jars not over 1 pound capacity each, or metal containers not over 5 pounds capacity each, packed in outside wooden boxes, barrels or kegs, or fiberboard boxes. Net weight of contents in fiberboard boxes shall not exceed 65 pounds; and not more than 100 pounds in wooden boxes, barrels or kegs.

In § 73.384 amend paragraph (a) (1) (15 F.R. 8338, Dec. 2, 1950) to read as follows:

§ 73.384 Monochloroacetone, stabilized.

(a) * * *

(1) Spec. 5, 5A or 17C (single-trip) (§ 78.80, 78.81 or 78.115 of this chapter). Metal barrels or drums.

In § 73.392 amend the introductory text of paragraph (b) (21 F.R. 368, Jan. 19, 1956) to read as follows:

§ 73.392 Exemptions for radioactive materials.

(b) Manufactured articles other than liquids, such as instrument or clock dials or electronic tubes and apparatus, of which radioactive materials are a component part, luminous compounds, and thoria nickel in mill shapes, including tubes, plates, sheets and bars, when securely packed in strong outside containers are exempt from specification packaging, marking, and labeling requirements provided the gamma radiation at any surface of the package is less than 10 milliroentgens in 24 hours. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter.

PART 74—CARRIERS BY RAIL FREIGHT

Subpart C—Placards on Cars

In § 74.542 amend paragraph (b) (24 F.R. 5641, July 14, 1959) to read as follows:

§ 74.542 "Poison gas" placards.

(b) "Flammable poison gas" placards. "Flammable poison gas" placards as prescribed in § 74.556 must be applied to Class 105A-W tank cars containing hydrocyanic acid.

PART 78—SHIPPING CONTAINER SPECIFICATIONS

Subpart A—Specifications for Carboys, Jugs in Tubs, and Rubber Drums

In § 78.1-8 amend the introductory text of paragraph (a) (15 F.R. 8374, Dec. 2, 1950) to read as follows:

§ 78.1 Specification IA; boxed carboys.

§ 78.1-8 Marking of outside container.

(a) On each container with letters and figures at least 3/4 inch high applied by hot branding iron or printing ink of a color sharply contrasting to background of package with high pressure dies as follows:

In § 78.2-6 amend the introductory text of paragraph (a) (15 F.R. 8375, Dec. 2, 1950) to read as follows:

§ 78.2 Specification IB; boxed lead carboys.

§ 78.2-6 Marking of outside container.

(a) On each container with letters and figures at least 3/4 inch high applied by hot branding iron or printing ink of a color sharply contrasting to background of package with high pressure dies as follows:

In § 78.3-8 amend the introductory text of paragraph (a) (15 F.R. 8375, Dec. 2, 1950) to read as follows:

§ 78.3 Specification IC; carboys in kegs.

§ 78.3-8 Marking of outside container.

(a) On each container with letters and figures at least 3/4 inch high applied near the bilge by hot branding iron or printing ink of a color sharply contrasting to background of package with high pressure dies as follows:

In § 78.4-7 amend the introductory text of paragraph (a) (15 F.R. 8376, Dec. 2, 1950) to read as follows:

§ 78.4 Specification ID; boxed glass carboys.

§ 78.4-7 Marking of outside container.

(a) On each container with letters and figures at least 3/4 inch high applied by hot branding iron or printing ink of a color sharply contrasting to background of package with high pressure dies as follows:

In § 78.5-7 amend the introductory text of paragraph (a) (15 F.R. 8377, Dec. 2, 1950) to read as follows:

§ 78.5 Specification IX; boxed carboys, 5 to 6 gallon, for export only.

§ 78.5-7 Marking of outside container.

(a) On each container with letters and figures at least 3/4 inch high applied by hot branding iron or printing ink of a color sharply contrasting to background of package with high pressure dies as follows:

In § 78.6-8 amend the introductory text of paragraph (a) (15 F.R. 8378, Dec. 2, 1950) to read as follows:

§ 78.6 Specification IEX; glass carboys in plywood drums.

§ 78.6-8 Marking of outside container for compliance with specification.

(a) On each container with letters and figures at least 3/4 inch high applied by hot branding iron or printing ink of a color sharply contrasting to background of package with high pressure dies as follows:

In § 78.7-7 amend the introductory text of paragraph (a) (16 F.R. 11782, Nov. 21, 1951) to read as follows:

§ 78.7 Specification IE; glass carboys in plywood drums.

§ 78.7-7 Marking of outside container.

(a) On each container with letters and figures at least 3/4 inch high applied by hot branding iron or printing ink of a color sharply contrasting to background of package with high pressure dies as follows:

In § 78.12-9 amend paragraph (a) (3) (15 F.R. 8379, Dec. 2, 1950) to read as follows:

§ 78.12 Specification 34B; aluminum carboys.

§ 78.12-9 Marking on each container.

(a) * * *

(3) Nominal thickness of metal in decimals of an inch of the thinnest part; rated capacity in gallons; year of manufacture (for example, 0.110-15-50).

Add § 78.14 (15 F.R. 8379, Dec. 2, 1950) to read as follows:

§ 78.14 Specification 1K; glass carboys cushioned with expandable polystyrene in wooden wirebound box outside containers.

§ 78.14-1 Reuse of packages.

(a) Top, base or side sections of outside container and cushioning must be replaced when broken, decayed, or inefficient in any way.

(b) Carboys with lip cracked or badly chipped not authorized; gasket seat must be even. Packages must be capable of passing tests prescribed in § 78.14-8.

§ 78.14-2 Closing devices required.

(a) As follows except when otherwise authorized in the packing regulations:

(1) Acidproof stoppers or other devices, with gaskets, securely fastened; venting closures are required when necessary to prevent internal pressure in excess of 8 pounds per square inch gauge at 130° F.

(2) Glass stoppers ground to fit and securely fastened are authorized when internal pressures do not exceed 8 pounds per square inch gauge at 130° F.

§ 78.14-3 Capacity and marking of carboy.

(a) Thirteen gallon bottles. Must be embossed to indicate maker and year of manufacture; mark of maker to be registered with the Bureau of Explosives.

§ 78.14-4 Bottles.

(a) Thoroughly annealed; top of lip smooth and even; must contain at least 21 pounds of glass. Glass in side walls should be well distributed and at least 1/16 inch thick.

§ 78.14-5 Cushions.

(a) Expandable polystyrene, molded to produce a completely fused closed cell structure and designed as to provide a snug fit in all areas of contact with the inside container, in the following forms:

(1) Formed in place around the inside container; density 1.25 plus or minus 0.25 pounds per cubic foot, minimum thickness of sidewalls 1 inch and of bottoms 1.5 inches.

(2) Preformed cushions, one top and one bottom; density 2.75 plus or minus 0.5 pounds per cubic foot, minimum thickness of side walls 1 inch and of bottoms 1.37 inches.

(b) Assembled containers must be capable of passing tests prescribed in § 78.14-8.

§ 78.14-6 Outside containers.

(a) Wooden wirebound boxes completely enclosing body of carboy or completely enclosing body and neck of carboy.

(b) Lumber shall be as follows:

(1) Lumber shall be well seasoned and commercially dry; free from decay, objectionable knots, slanting shakes, sharp cross grain, and other defects that materially lessen the strength. Grain of wood in cleats and battens must not cross piece within its length.

(2) Authorized tolerances; cleats, battens and handles, minus 1/32 inch; single thickness veneer minus 5 percent; resawn boards, 1/32 inch below specified thickness for boards 1/4 inch or more thick.

(3) Woods authorized are in the following groups:

GROUP 2	
Southern yellow pine.	North Carolina pine.
Hemlock.	Douglas fir.
	Larch (Tamarack).
GROUP 3	
White elm.	Black ash.
Red gum.	Black gum.
Sycamore.	Tupelo.
Pumpkin ash.	Maple-soft or silver.
GROUP 4	
Hard maple.	Birch.
Beech.	Rock elm.
Oak.	White ash.
Hackberry.	Hickory.

(c) Binding wires and staples shall be as follows:

(1) Galvanized coated annealed steel or other material of equal strength, Washburn and Moen sizes.

(d) Minimum construction requirements shall be as follows:

6 months of each year, one series each year to be witnessed by representative of the Bureau of Explosives; separate tests required for:

- (1) New packages.
- (2) Used packages.
- (3) Packages differing in kind or shape of cushioning.

1. A hole of suitable type may be made in top of box to provide for the protruding neck of inner container. There shall be 1 inch minimum clearance between bottle and inside of hole.

§ 78.14-8 Tests.

(a) Apparatus. Standard required. Detail prints can be obtained from the Bureau of Explosives, 63 Vesey Street, New York 7, New York.

(b) Method. Fill with water to lower edge of neck; swing 55 inches measured from wall to nearest bottom edge of basket:

- (1) Test 10 carboys each against bottom and one side.

NOTE 1: Instances where 99 or less carboys are in service during either 6-month period of the year it shall be acceptable to test 10 percent of the total but not less than 3 carboys on both the side and bottom swing. If this provision is used, the report of test results must so state.

(c) Acceptable results. One hundred percent of carboys must not break under side or bottom shocks. If failures occur, the test is to be repeated with an additional 10 carboys for which the passing requirement shall be 100 percent.

(d) When required. By each manufacturer, and each shipper who fills and ships new or used carboys; during each

(e) Exception. Tests not required by shipper who fills and ships or reships for one shipment only packages obtained from a manufacturer or shipper who has had tests made.

(f) Reports. Required to be made to the Bureau of Explosives on form as follows:

Subpart B—Specifications for Inside Containers, and Linings

In § 78.35a-4 amend paragraph (a) (3) (25 F.R. 10399, Oct. 29, 1960) to read as follows:

§ 78.35a Specification 2SL; molded or thermoformed polyethylene container.

Subpart C—Specifications for Cylinders

§ 78.35a-4 Tests.

- (a) * * *
- (3) The polyethylene container in a prescribed outer specification container, as authorized in Part 73 of this chapter, filled to 98 percent of capacity with water shall be capable of withstanding a vibration test by placing the container on the vibration table anchored in such manner that all horizontal motion shall be re-

stricted and only vertical motion allowed. The test shall be performed for one hour using an amplitude of one inch at a frequency that causes the test container to be raised from the floor of the table to such a degree that a piece of paper or flat steel strap or tape can be passed between the table and the container.

Add § 78.47 (15 F.R. 8372, Dec. 2, 1950) to read as follows:

§ 78.47 Specification 4DS; inside containers, welded stainless steel for aircraft use.

§ 78.47-1 Compliance. (a) Required in all details.

Specification mark is
Identification symbol is
Remarks

(Signature)
(Per)

1 State whether outside container is new or used.
2 State whether glass, earthenware, etc.
3 State whether hay, mineral wool, ground cork, excelsior, wood strips ---- type cork pads ---- type, etc.

§ 78.47-2 Type, size and service pressure.

(a) Type and size, welded stainless steel spheres (two seamless hemispheres) or circumferentially welded cylinders not over 100 pounds water capacity.

(b) Service pressure.¹ At least 500 to not over 900 pounds per square inch.

§ 78.47-3 Inspection by whom and where.

(a) By competent and disinterested inspector acceptable to the Bureau of Explosives; chemical analyses and tests, as specified, to be made within the limits of the United States.

§ 78.47-4 Duties of inspector.

(a) Inspect all material and reject any not complying with requirements.

(b) Verify chemical analysis of each heat of material by analysis or by obtaining certified analysis; provided, that a certificate from the manufacturer thereof, giving sufficient data to indicate compliance with requirements, is acceptable when verified by check analyses of samples taken from one container out of each lot of 200 or less.

(c) Verify compliance of containers with all requirements including markings; inspect inside before closing; verify heat treatment and welding procedure as proper; obtain samples for all tests and check chemical analyses; witness all tests; verify threads by gage; report volumetric capacity and tare weight and minimum thickness of wall noted. Verify that all tests are conducted at temperatures between 60° F. and 90° F.

(d) Render complete report to purchaser, container maker, and the Bureau of Explosives.

§ 78.47-5 Steel.

(a) Types 304, 321 and 347 stainless steel are authorized with proper welding procedure and complying with the following analyses:

	Stainless steels		
	304 (percent)	321 (percent)	347 (percent)
Carbon (maximum).....	0.08	0.08	0.08
Manganese (maximum).....	2.00	2.00	2.00
Phosphorus (maximum).....	.030	.030	.030
Sulfur (maximum).....	.030	.030	.030
Silicon (maximum).....	.75	.75	.75
Nickel.....	8.0/11.0	9.0/13.0	9.0/13.0
Chromium.....	18.0/20.0	17.0/20.0	17.0/20.0
Molybdenum.....			
Titanium.....		(1)	
Columbium.....			(2)

¹ Titanium shall be not less than 5 x C and not more than 0.60%.

² Columbium shall be not less than 10 x C and not more than 1.0%.

¹ The "service pressure" limits the use of the container. It is shown by marks on container; for example ICC-4DS500 indicates the service pressure as 500 pounds per square inch.

§ 78.47-6 Identification of material.

(a) Required; any suitable method.

§ 78.47-7 Defects.

(a) Material with seams, cracks, laminations, or other injurious defects, not authorized. Defects in welded joints shall not exceed the limits specified in § 78.47-16 covering radiographic inspection.

§ 78.47-8 Manufacture.

(a) By best appliances and methods; dirt and scale to be removed as necessary to afford proper inspection; no defect acceptable that is likely to weaken the finished container appreciably, reasonably smooth and uniform surface finish required. No abrupt change in wall thickness permitted. Certification of welders and/or process required in accordance with the sections that apply of Compressed Gas Association Standard for Welding and Brazing on Thin Walled Containers (CGA Pamphlet C-3-1954).¹

(b) All seams of the sphere or cylinder must be fusion welded. Seams shall be of the butt type and means must be provided for accomplishing complete penetration of the joint.

§ 78.47-9 Attachments.

(a) Attachments to the container are authorized by fusion welding provided that such attachments are made of weldable stainless steel in accordance with § 78.47-5.

§ 78.47-10 Wall thickness.

(a) The minimum wall thickness shall be such that the wall stress at the minimum specified test pressure shall not be over 60,000 psi. Minimum wall 0.040 inch for any diameter container.

(b) Calculation for sphere must be made by the formula:

$$S = \frac{PD}{4tE}$$

where

S = Wall stress in pounds per square inch;
 P = Test pressure prescribed for water jacket test, i.e., at least two times service pressure, in pounds per square inch;

D = Outside diameter in inches;
 t = Minimum wall thickness in inches;
 E = 0.85 (provides 85 percent weld efficiency factor which must be applied in the girth weld area and heat zones which zone shall extend a distance of 6 times wall thickness from center of weld);
 E = 1.0 (for all other areas).

(c) Calculation for a cylinder must be made by the formula:

$$S = \frac{P(1.3D^2 + 0.4d^2)}{D^2 - d^2}$$

where

S = Wall stress in pounds per square inch;
 P = Test pressure prescribed for water jacket test, i.e., at least two times service pressure, in pounds per square inch;
 D = Outside diameter in inches;
 d = Inside diameter in inches.

¹ Available from the Compressed Gas Association, Inc., 500 Fifth Avenue, New York 36, New York.

§ 78.47-11 Heat treatment.

(a) The seamless hemispheres and cylinders may be stress relieved or annealed for forming. Welded container shall be stress relieved at a temperature of 775° F. ± 25° after process treatment and before hydrostatic test.

§ 78.47-12 Openings in container.

(a) Each opening in the container must be provided with a fitting, boss, or pad of weldable stainless steel securely attached to the container by fusion welding.

(b) Attachments to a fitting, boss, or pad must be adequate to prevent leakage. Threads must comply with the following:

(1) Threads must be clean cut, even, without checks, and tapped to gauge.

(2) Taper threads to be of length not less than as specified for American Standard taper pipe threads.

(3) Straight threads having at least 4 engaged threads, to have tight fit and calculated shear strength at least 10 times the test pressure of the container; gaskets required, adequate to prevent leakage.

§ 78.47-13 Safety relief devices.

(a) Safety relief devices must be as required by Interstate Commerce Commission Regulations (see § 73.34(f) of this chapter).

§ 78.47-14 Process treatment.

(a) Each container shall be hydraulically pressurized in a water jacket to at least 100 percent, but not more than 110 percent, of the test pressure and maintained at this pressure for a minimum of 3 minutes. Total and permanent expansion shall be recorded and included in the inspector's report.

§ 78.47-15 Hydrostatic test.

(a) By water-jacket, operated so as to obtain accurate data. Pressure gage must permit reading to an accuracy of 1 percent. Expansion gage must permit reading of total expansion to accuracy either of 1 percent or 0.1 cubic centimeter.

(b) Pressure must be maintained for 30 seconds and sufficiently longer to insure complete expansion. If, due to failure of the test apparatus, the test pressure cannot be maintained, the test may be repeated at a pressure increased by 10 percent or 100 pounds per square inch, whichever is the lower.

(c) Permanent volumetric expansion must not exceed 10 percent of total volumetric expansion at test pressure.

(d) Each container must be tested to at least 2 times service pressure.

(e) Container will then be inspected. Wall thickness lower than that required by § 78.47-10 shall be cause for rejection. Bulges and cracks shall be cause for rejection. Weld joint defects exceeding requirements of § 78.47-16 shall be cause for rejection.

§ 78.47-16 Radiographic inspection.

(a) Required on all welded joints which are subjected to internal pressure, except that at the discretion of the disinterested inspector, openings less than 25 percent of the container diameter

RULES AND REGULATIONS

need not be subjected to radiographic inspection. Evidence of any defects likely to seriously weaken the container shall be cause for rejection.

(b) Radiographic inspection shall be performed subsequent to hydrostatic test.

§ 78.47-17 Burst test.

(a) One container taken at random out of 200 or less shall be hydrostatically tested to destruction. Rupture pressure shall be included as part of the inspector's report.

§ 78.47-18 Flattening test.

(a) *Flattening test for spheres.* At the weld between parallel steel plates on a press with welded seam at right angles to the plates, test one sphere taken at random out of each lot of 200 or less after hydrostatic test. Any projecting appurtenances may be cut off (by mechanical means only) prior to crushing.

(b) *Flattening test for cylinders.* Between knife edges, wedge shaped, 60° angle, rounded to 1/2-inch radius; test one cylinder taken at random out of each lot of 200 or less, after hydrostatic test.

§ 78.47-19 Acceptable results for flattening and burst tests.

(a) Flattening required to 50 percent of the original outside diameter without cracking.

(b) Burst pressure shall be at least 3 times service pressure.

§ 78.47-20 Rejected containers.

(a) Repair of welded seams by welding prior to process treatment authorized; subsequent thereto containers must be heat treated and pass all prescribed tests.

§ 78.47-21 Marking.

(a) Marking on each container by stamping plainly and permanently only on a permanent attachment or on a metal nameplate permanently secured to the container by means other than soft solder, as follows:

(1) ICC-4DS followed by the service pressure (for example: ICC-4DS900).

(2) A serial number and an identifying symbol (letters) location of a number to be just below the ICC mark; location of symbol to be just below the number. The symbols and numbers must be those of purchaser, user, or maker. The symbol must be registered with the Bureau of Explosives, duplications unauthorized;

Example: ICC-4DS900
1234
XY

(3) Inspector's official mark, near serial number, date of test (such as 8-61 for August 1961) so placed that dates of subsequent tests can be easily added.

§ 78.47-22 Size of marks.

(a) Of sufficient size to be legible.

§ 78.47-23 Inspector's report.

(a) Required to be clear, legible, and in the following form:

(Place) -----
(Date) -----
Gas -----
(Spheres-cylinders)

These containers were made by process of -----

The material used was verified as to chemical analysis and record thereof is attached hereto. The heat numbers ----- (Were—were not) marked on the material.

All material, such as plates and seamless tubing, was inspected and each container was inspected both before and after closing in the ends; all that were accepted were found free from seams, cracks, laminations, and other defects which might prove injurious to the strength of the container. The processes of manufacture of containers were supervised and found to be efficient and satisfactory.

The container walls were measured and the minimum thickness noted was -----

inch. The outside diameter was determined by a close approximation to be ----- inches. The wall stress was calculated to be ----- pounds per square inch under an internal pressure of ----- pounds per square inch.

Hydrostatic tests, flattening tests and other tests, as prescribed in specification No. ICC-4DS were made in the presence of the inspector and all material and containers accepted were found to be in compliance with the requirements of that specification. Records thereof are attached hereto.

I hereby certify that all of these containers proved satisfactory in every way and comply with the requirements of Interstate Commerce Commission specification No. 4DS except as follows:

Subpart D—Specifications for Metal Barrels, Drums, Kegs, Cases, Trunks and Boxes

In § 78.80-11 amend paragraph (a) (2) (15 F.R. 8433, Dec. 2, 1950) to read as follows:

§ 78.80 Specification 5; steel barrels or drums.

§ 78.80-11 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.81-11 amend paragraph (a) (2) (15 F.R. 8433, Dec. 2, 1950) to read as follows:

§ 78.81 Specification 5A; steel barrels or drums.

§ 78.81-11 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.82-11 amend paragraph (a) (2) (15 F.R. 8434, Dec. 2, 1950) to read as follows:

§ 78.82 Specification 5B; steel barrels or drums.

§ 78.82-11 Markings.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.83-11 amend paragraph (a) (2) (15 F.R. 8435, Dec. 2, 1950) to read as follows:

§ 78.83 Specification 5C; steel barrels or drums.

§ 78.83-11 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives. Also, by embossing or stamping, tare weight in pounds (for example, TW121).

In § 78.84-11 amend paragraph (a) (2) (15 F.R. 8436, Dec. 2, 1950) to read as follows:

§ 78.84 Specification 5D; steel barrels or drums.

§ 78.84-11 Marking.

(a) * * *
sibility for compliance with specification maker or other party assuming respon-

requirements; this must be recorded with the Bureau of Explosives.

In § 78.85-10 amend paragraph (a) (2) (15 F.R. 8437, Dec. 2, 1950) to read as follows:

§ 78.85 Specification 5F; steel drums.

§ 78.85-10 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.87-11 amend paragraph (a) (2) (15 F.R. 8438, Dec. 2, 1950) to read as follows:

§ 78.87 Specification 5H; steel barrels or drums.

§ 78.87-11 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.88-10 amend paragraph (a) (2) (15 F.R. 8439, Dec. 2, 1950) to read as follows:

§ 78.88 Specification 5K; nickel barrels or drums.

§ 78.88-10 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.89-9 amend paragraph (a) (2) (15 F.R. 8440, Dec. 2, 1950) to read as follows:

§ 78.89 Specification 5L; steel barrels or drums.

§ 78.89-9 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.90-10 amend paragraph (a) (2) (15 F.R. 8440, Dec. 2, 1950) to read as follows:

§ 78.90 Specification 5M; monel drums.

§ 78.90-10 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.91-11 amend paragraph (a) (2) (15 F.R. 8441, Dec. 2, 1950) to read as follows:

§ 78.91 Specification 5X; steel drums, aluminum lined.

§ 78.91-11 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.97-9 amend paragraph (a) (2) (15 F.R. 8443, Dec. 2, 1950) to read as follows:

§ 78.97 Specification 6A; steel barrels or drums.

§ 78.97-9 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.98-9 amend paragraph (a) (2) (15 F.R. 8443, Dec. 2, 1950) to read as follows:

§ 78.98 Specification 6B; steel barrels or drums.

§ 78.98-9 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.99-9 amend paragraph (a) (2) (15 F.R. 8444, Dec. 2, 1950) to read as follows:

§ 78.99 Specification 6C; steel barrels or drums.

§ 78.99-9 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.100-9 amend paragraph (a) (2) (15 F.R. 8445, Dec. 2, 1950) to read as follows:

§ 78.100 Specification 6J; steel barrels and drums.

§ 78.100-9 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.101-9 amend paragraph (a) (2) (15 F.R. 8445, Dec. 2, 1950) to read as follows:

§ 78.101 Specification 6K; steel barrels or drums.

§ 78.101-9 Marking.

(a) * * *
(2) Name or symbol (letters) of maker or other party assuming responsibility

for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.110-3 amend paragraph (a) (17 F.R. 7286, Aug. 9, 1952) to read as follows:

§ 78.110 Specification 42F; aluminum barrels or drums.

§ 78.110-3 Composition.

(a) Body and heads of aluminum alloy 6061 or an aluminum base alloy of equivalent corrosion resistance and physical properties.

In § 78.111-6 amend paragraph (a) (26 F.R. 4998, June 6, 1961) to read as follows:

§ 78.111 Specification 42G; aluminum drums.

§ 78.111-6 Parts and dimensions.

(a) At start of fabrication, aluminum alloy sheets shall have a minimum thickness of 0.102 inch and completed container shall have no wall thickness less than 0.081 inch.

In § 78.115-10 amend paragraph (a) (2) (15 F.R. 8448, Dec. 2, 1950) to read as follows:

§ 78.115 Specification 17C; steel drums.

§ 78.115-10 Marking.

(a) * * *

(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.116-10 amend paragraph (a) (2) (15 F.R. 8449, Dec. 2, 1950) to read as follows:

§ 78.116 Specification 17E; steel drums.

§ 78.116-10 Marking.

(a) * * *

(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.117-11 amend paragraph (a) (2) (15 F.R. 8449, Dec. 2, 1950) to read as follows:

§ 78.117 Specification 17F; steel drums.

§ 78.117-11 Marking.

(a) * * *

(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.118-10 amend paragraph (a) (2) (15 F.R. 8450, Dec. 2, 1950) to read as follows:

§ 78.118 Specification 17H; steel drums.

§ 78.118-10 Marking.

(a) * * *

(2) Name or symbol (letters) of maker or other party assuming responsibility

for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.119-10 amend paragraph (a) (2) (15 F.R. 8451, Dec. 2, 1950) to read as follows:

§ 78.119 Specification 17X; steel barrels or drums.

§ 78.119-10 Marking.

(a) * * *

(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.130-8 amend paragraph (a) (2) (15 F.R. 8454, Dec. 2, 1950) to read as follows:

§ 78.130 Specification 37K; steel drums.

§ 78.130-8 Marking.

(a) * * *

(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.131-9 amend paragraph (a) (3) (20 F.R. 4419, June 23, 1955) to read as follows:

§ 78.131 Specification 37A; steel drums.

§ 78.131-9 Marking.

(a) * * *

(3) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.132-9 amend paragraph (a) (3) (20 F.R. 4420, June 23, 1955) to read as follows:

§ 78.132 Specification 37B; steel drums.

§ 78.132-9 Marking.

(a) * * *

(3) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.133-9 amend paragraph (a) (2) (23 F.R. 2330, April 10, 1958) to read as follows:

§ 78.133 Specification 37P; steel drums with polyethylene liner.

§ 78.133-9 Marking.

(a) * * *

(2) Name or symbol (letters) of maker or other party assuming responsibility for compliance with specification requirements; this must be recorded with the Bureau of Explosives.

In § 78.136-3 amend paragraph (a); in § 78.136-6 amend paragraph (a) (15 F.R. 8454, Dec. 2, 1950) to read as follows:

§ 78.136 Specification 42E; aluminum drums.

§ 78.136-3 Composition.

(a) Body and heads of aluminum alloy 5052. Plastic closure plugs authorized if suitably resistant to action of lading.

§ 78.136-6 Parts and dimensions.

(a) To be a minimum of 0.064 inch thick.

Add § 78.150 (15 F.R. 8457, Dec. 2, 1950) to read as follows:

§ 78.150 Specification 33A; polystyrene cases. Nonreusable containers.

§ 78.150-1 Material requirements.

(a) Expandible polystyrene, molded to produce a completely fused closed cell composition having a minimum density of 1.25 pounds per cubic foot.

§ 78.150-2 Design.

(a) The case is to consist of two parts, a bottom section with pockets for the inside containers and a top section that covers, and interlocks with, the bottom section. Both the bottom and top sections shall be designed to provide a snug fit for the inside containers.

§ 78.150-3 Construction.

(a) The case shall be constructed in accordance with the following minimum thicknesses:

Side walls and bottoms.....	¼ inch.
Between inside containers.....	½ inch.
Top	¾ inch (see Note 1).

NOTE 1: In recesses for closure caps for inside containers ¼ inch thickness is permissible; closure caps shall not be in contact with inside of top section.

§ 78.150-4 Closing for shipment.

(a) The cases shall be closed for shipment with a pressure sensitive paper tape having not less than 1½ inches width and a tensile strength at least 55 pounds per inch of width, or tape of equivalent strength. The tape shall completely encircle the case, with overlap, in one direction so as to transverse the top-bottom section joint in vertical manner. If the design of the case is such that the tape is subject to abrasion in transportation and handling, tape shall also be applied similarly on the same axis but at 90°.

§ 78.150-5 Gross weight authorized.

(a) Fifty pounds maximum.

§ 78.150-6 Test for completed package.

(a) Cases, with inside containers filled with water enclosed as for shipment, shall be capable of withstanding 4-foot flap drops onto solid concrete without leakage from or breakage of any inside container, and without producing any condition that would result in potential damage to the inside container. A minimum of four cases shall be tested, each case not being subjected to more than one test. Each test is to consist of six 4-foot drops once each side, bottom and top.

(b) Tests prescribed by paragraph (a) of this section must be conducted by the shipper assembling the completed package prior to initial use, and each 6 months thereafter. The tests must also be repeated on the change of any components or design of the package. Records of tests and results must be maintained.

§ 78.150-7 Marking.

(a) On each container. Symbol as follows:

ICC-33A

These marks shall be understood to certify that the outer container complies with all the construction requirements of the specification.

(1) The letters NRC, located just above or below the ICC mark, to indicate a nonreusable container.

(2) Name or symbol (letters) of manufacturer and plant making the case; these must be registered with the Bureau of Explosives. These marks shall be located on the same face as the marks specified in this paragraph.

(3) Size of markings: Specification markings prescribed in this paragraph must be at least 1/2 inch high; other markings must be legible.

Subpart H—Specifications for Portable Tanks

In § 78.245-1 amend paragraph (a) (27 F.R. 6742, July 17, 1962) to read as follows:

§ 78.245 Specification 51; steel portable tanks.

§ 78.245-1 Requirements for design and construction.

(a) Tanks shall be of seamless or welded steel construction or combination of both and shall have in excess of 1,000 pounds water capacity. Fusion welded tanks shall be stress-relieved and radiographed to provide the highest joint efficiency provided by the Code. Tanks shall be designed and constructed in accordance with and fulfill the requirements of (1) the 1950 edition, (2) 1952 edition, (3) 1956 edition, (4) 1959 edition, or (5) 1962 edition of Section VIII of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code; no revisions except to include ASME Case Interpretations Nos. 1204-9, 1297-3, and 1298-2 and all addendas through the 1962 addenda issued July 16, 1962 (any or all of which hereinafter is referred to as "the Code"). When the above referenced ASME Case interpretations are used for the construction of tanks, the following additional requirements shall be met:

(1) Welding procedure and welder performance tests shall be made in accordance with the 1962 edition of Section IX of the ASME Boiler and Pressure Vessel Code. In addition to the essential variables enumerated in Section IX of this Code, the following shall also be considered essential variables: number of passes, thickness of plate, heat input per pass, and manufacturer of rod or flux. The number of passes, thickness of plate and heat input per pass shall not vary

more than 25 percent from the procedure qualification.

(2) Impact tests shall be made on a lot basis. A lot shall be defined as 100 tons or less of the same heat, and having a thickness variation no greater than plus or minus 25 percent. The minimum impact required for full size specimens shall be 20 ft.-lbs. (or 10 ft.-lbs. for half sized specimens) at 0° F Charpy V-notch in both the longitudinal and transverse direction. If the lot test does not pass this requirement, individual plates may be accepted if they individually meet this impact test requirement.

(3) Welding procedure and welder qualification tests shall be made each year with one copy of the reports submitted to the Bureau of Explosives.

Subpart J—Specifications for Containers for Motor Vehicle Transportation

In § 78.336-1 amend paragraph (a); in § 78.336-10 amend paragraph (a) Exception (27 F.R. 6743, July 17, 1962) (26 F.R. 2521, Mar. 24, 1961) (26 F.R. 5002, June 6, 1961) to read as follows:

§ 78.336 Specification MC 330; cargo tanks constructed of steel, primarily for transportation of compressed gases.

§ 78.336-1 General requirements.

(a) Code construction. Tanks shall be of seamless or welded steel construction or combination of both and shall be designed and constructed in accordance with and fulfill the requirements of (1) the 1950 edition, (2) 1952 edition, (3) 1956 edition, (4) 1959 edition, or (5) 1962 edition of Section VIII of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code; no revisions except to include ASME Case Interpretations Nos. 1204-9, 1297-3, and 1298-2 and all addendas through the 1962 addenda issued July 16, 1962, (any or all of which hereinafter is referred to as "the Code"). When the above referenced ASME Case interpretations are used for the construction of tanks, the following additional requirements shall be met:

(1) Welding procedure and welder performance tests shall be made in accordance with the 1962 edition of Section IX of the ASME Boiler and Pressure Vessel Code. In addition to the essential variables enumerated in Section IX of this Code, the following shall also be considered essential variables: number of passes, thickness of plate, heat input per pass, and manufacturer of rod or flux. The number of passes, thickness of plate and heat input per pass shall not vary more than 25 percent from the procedure qualification.

(2) Impact tests shall be made on a lot basis. A lot shall be defined as 100 tons or less of the same heat, and having a thickness variation no greater than plus or minus 25 percent. The minimum impact required for full size specimens shall be 20 ft.-lbs. (or 10 ft.-lbs. for half sized specimens) at 0° F. Charpy V-notch in both the longitudinal and transverse direction. If the lot

test does not pass this requirement, individual plates may be accepted if they individually meet this impact test requirement.

(3) Welding procedure and welder qualification tests shall be made each year with one copy of the reports submitted to the Bureau of Explosives.

EXCEPTION: Chlorine tanks shall be fully radiographed and stress relieved in accordance with the provisions of the Code under which they are constructed.

§ 78.336-10 Protection of fittings.

(a) ***

EXCEPTION: On chlorine tanks there shall be a protective housing and cover plate conforming to the Chlorine Institute, Inc., Dwg. 137-1 dated November 7, 1962 to permit the use of standard emergency kits for controlling leaks in fittings on the dome cover plate.

(62 Stat. 738, 74 Stat. 808; 18 U.S.C. 834) [F.R. Doc. 63-4789; Filed, May 3, 1963; 8:50 a.m.]

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

Entire Executive Civil Service

Effective upon publication in the FEDERAL REGISTER, paragraph (u) is added to § 6.101 as set out below.

§ 6.101 Entire Executive Civil Service.

(u) Temporary positions in the Washington, D.C., metropolitan area, involving performance of laboring work that requires primarily physical effort and no specific knowledges or skills when filled by persons certified by the Juvenile Delinquency Planning Board under its pilot program for the Washington, D.C., metropolitan area. A person may not be employed under this authority (1) unless he has reached his 16th birthday; (2) for more than 700 hours; (3) except during the period from June 1 through September 30, 1963. This authority may not be used for filling custodial laborer positions.

(R.S. 1753, sec. 2, 22 Stat. 403, as amended; 5 U.S.C. 631, 633)

UNITED STATES CIVIL SERVICE COMMISSION,
MARY V. WENZEL,
Executive Assistant to the Commissioners.

[F.R. Doc. 63-4804; Filed, May 3, 1963; 8:49 a.m.]

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

Housing and Home Finance Agency

Effective upon publication in the FEDERAL REGISTER, subparagraph (30) is

added to paragraph (b) of § 6.342 as set out below.

§ 6.342 **Housing and Home Finance Agency.**

(b) *Federal Housing Administration.*

(30) One Associate Deputy Commissioner for Operations.

(R.S. 1753, sec. 2, 22 Stat. 403, as amended; 5 U.S.C. 631, 633)

UNITED STATES CIVIL SERVICE COMMISSION,
MARY V. WENZEL,
Executive Assistant to the Commissioners.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

SUBCHAPTER E—AIRSPACE [NEW]

[Airspace Docket No. 62-EA-68]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Alteration of Federal Airway

On February 15, 1963, a notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 1484) stating that the Federal Aviation Agency was considering the alteration of VOR Federal airway No. 162 by extending it from Clarksburg, W. Va., to Elkins, W. Va.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted and no comments were received regarding the proposed amendment.

In consideration of the foregoing and for the reasons stated in the notice, the following action is taken:

In § 71.123 (27 F.R. 220-6, November 10, 1962) V-162 "From Clarksburg, W. Va., via" is deleted and "From INT of Clarksburg, W. Va., 135° and Elkins, W. Va., 092° radials via Clarksburg;" is substituted therefor.

This amendment shall become effective 0001, e.s.t., June 27, 1963.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on April 29, 1963.

CLIFFORD P. BURTON,
Chief, Airspace Utilization Division.

[F.R. Doc. 63-4759; Filed, May 3, 1963; 8:45 a.m.]

[Airspace Docket No. 62-CE-76]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Alteration of Federal Airway and Associated Control Areas

On February 22, 1963, a notice of proposed rule making was published in the

FEDERAL REGISTER (28 F.R. 1739), stating that the Federal Aviation Agency proposed to alter VOR Federal airway No. 129 between Duluth, Minn., and International Falls, Minn.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted and no adverse comments were received.

The substance of the proposed amendment having been published, therefore, and for the reasons stated in the notice, the following action is taken:

Section 71.123 (27 F.R. 220-6, November 10, 1962) is amended as follows: In V-129 all after "Eau Claire, Wis." is deleted and "From Duluth, Minn., via Hibbing, Minn., including an E alternate; to International Falls, Minn., including a W alternate." is substituted therefor.

This amendment shall become effective 0001, e.s.t., June 27, 1963.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on April 29, 1963.

CLIFFORD P. BURTON,
Chief, Airspace Utilization Division.

[F.R. Doc. 63-4760; Filed, May 3, 1963; 8:46 a.m.]

[Airspace Docket No. 62-SO-58]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Alteration of Federal Airways and Associated Control Areas

On February 1, 1963, a notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 983) stating that the Federal Aviation Agency proposed to alter VOR Federal airway No. 20 and its south alternate between Mobile, Ala., and Evergreen, Ala., and to realign VOR Federal airway No. 425 from Brookley, Ala., to the intersection of Brookley 357° and Mobile 049° radials.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted and no adverse comments were received.

The substance of the proposed amendments having been published, therefore, and for the reasons stated in the notice, the following actions are taken:

Section 71.123 (27 F.R. 220-6, November 10, 1962, 27 F.R. 11939, 28 F.R. 907, 2229) is amended as follows:

a. In V-20 "INT of Mobile 044° and Evergreen, Ala., 231° radials; Evergreen; including an N alternate via INT of Mobile 015° with Evergreen direct radial to Picayune and also an S alternate from Mobile to Evergreen via INT of Mobile 059° and Evergreen 216° radials;" is deleted and "Evergreen, including an N alternate via INT of Mobile 015° and Evergreen 247° radials and also an S alternate (S alternate 8 miles wide Mobile to Evergreen);" is substituted therefor.

b. V-425 is amended to read:

V-425 From Brookley, Ala., to INT of Brookley 357° and Mobile, Ala., 049° radials.

These amendments shall become effective 0001, e.s.t., June 27, 1963.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on April 29, 1963.

CLIFFORD P. BURTON,
Chief, Airspace Utilization Division.

[F.R. Doc. 63-4761; Filed, May 3, 1963; 8:46 a.m.]

[Airspace Docket No. 62-WE-119]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Alteration of Federal Airways and Associated Control Areas

On February 15, 1963, a notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 1485) stating that the Federal Aviation Agency proposed to designate a standard south alternate to VOR Federal airway No. 4 from Baker, Oreg., to Boise, Idaho, and to expand the width of both the main and alternate airways between these points.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted and no adverse comments were received.

The substance of the proposed amendment having been published, therefore, and for the reasons stated in the notice, the following action is taken:

Section 71.123 (27 F.R. 220-6, November 10, 1962, 27 F.R. 12439) is amended as follows:

In V-4 "Baker, Oreg., Boise, Idaho;" is deleted and "Baker, Oreg.; Boise, Idaho (12 miles wide from 45 nmi., from Baker to 45 nmi., from Boise), including an S alternate (13 miles wide from 45 nmi., from Baker to 45 nmi., from Boise);" is substituted therefor.

This amendment shall become effective 0001, e.s.t., June 27, 1963.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on April 29, 1963.

CLIFFORD P. BURTON,
Chief, Airspace Utilization Division.

[F.R. Doc. 63-4762; Filed, May 3, 1963; 8:46 a.m.]

[Airspace Docket No. 61-LA-106]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Designation of Control Area

On February 8, 1963, a notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 1264) stating that the Federal Aviation Agency proposed to designate a control area from the Ukiah, Calif., VOR via the Ukiah VOR 300° True radial to the eastern boundary of the Seattle Oceanic Control Area.

The Air Transport Association of America submitted a comment concurring with the proposal and recommended that the proposed control area be designated as a jet advisory area.

The designation of jet advisory areas is presently confined to that portion of the Continental Control area at and above flight level 240. The portion of the proposed Ukiah Control area within the United States would underlie the Continental Control area below 14,500 feet MSL. Aircraft which would utilize the Ukiah Control area while operating on an Instrument type flight plan would be provided air traffic control services by the Oakland Air Route Traffic Control Center. No other comments were received in response to the notice.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published; therefore, for the reasons stated herein and in the notice the following action is taken.

In § 71.163 (27 F.R. 220-55, November 10, 1962) the following is added:

Control 1486:

That airspace within 5 miles each side of the Ukiah, Calif., VOR 300° radial and the additional area between lines diverging at angles of 5° either side of the 300° radial extending from the VOR to the eastern boundary of the Seattle Oceanic Control Area; excluding the airspace below 5,000 feet MSL which lies outside the continental limits of the United States.

This amendment shall become effective 0001, e.s.t., June 27, 1963.

(Secs. 307(a), 1110, 72 Stat. 749, 800; 49 U.S.C. 1348, 1510, E.O. 10854, 24 F.R. 9565)

Issued in Washington, D.C., on April 29, 1963.

CLIFFORD P. BURTON,
Chief, Airspace Utilization Division.

[F.R. Doc. 63-4763; Filed, May 3, 1963; 8:46 a.m.]

[Airspace Docket No. 62-SW-59]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Revocation and Alteration of Federal Airways

On February 15, 1963, a notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 1485) stating that the Federal Aviation Agency proposed to revoke V-1528, extend V-1529 and alter a segment of V-1551.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and no adverse comments were received regarding the proposed amendments.

The substance of the proposed amendments having been published and for the reasons stated in the notice, the following actions are taken:

1. In § 71.143 (27 F.R. 220-38 November 10, 1962) V-1528 is revoked.

2. In § 71.143 (27 F.R. 220-38 November 10, 1962, 27 F.R. 12440) the following change is made:

In V-1529 "Dalhart, Tex.; Tobe, Colo.;" is deleted and "Dallas, Tex.; INT Dallas 299°, Wichita Falls, Tex., 122° radials; Wichita Falls; Childress, Tex.; 10 miles

wide Amarillo, Tex.; Dalhart, Tex., thence Tobe, Colo.;" is substituted therefor.

3. In § 71.143 (27 F.R. 220-38 November 10, 1962) the following change is made:

In V-1551 "INT Oakland 077°, Stockton, Calif., 268° radials" is deleted and "INT Oakland 110°, Stockton, Calif., 246° radials" is substituted therefor.

These amendments shall become effective 0001, e.s.t., June 27, 1963.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on April 29, 1963.

CLIFFORD P. BURTON,
Chief, Airspace Utilization Division.

[F.R. Doc. 63-4765; Filed, May 3, 1963; 8:46 a.m.]

[Airspace Docket No. 63-WA-30]

PART 73—SPECIAL USE AIRSPACE

Modification of Restricted Area

The purpose of this amendment to § 73.30 of the Federal Aviation Regulations is to reduce the designated altitudes of the Fort Stewart, Ga., Restricted Area R-3005A from the "Surface to 40,000 feet MSL" to the "Surface to 29,000 feet MSL."

The Department of the Army has stated that it has no requirement for restricted airspace above 29,000 feet MSL in this area and therefore such action is taken herein.

Since this amendment will reduce the burden on the public, compliance with the effective date requirements of section 4 of the Administrative Procedure Act is unnecessary and it may be made effective upon publication.

In consideration of the foregoing, § 73.30 (28 F.R. 19-17, January 26, 1963, 1629), is amended as follows:

In the description of R-3005A. "Designated altitudes. Surface to 40,000 feet MSL" is deleted and "Designated altitudes. Surface to 29,000 feet MSL" is substituted therefor.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on April 29, 1963.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 63-4764; Filed May 3, 1963; 8:46 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1653; Amdt. 561]

PART 507—AIRWORTHINESS DIRECTIVES

Mooney Models M20 and M20A Aircraft

A proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring replacement of all empennage attach brackets P/N 3009 with new brackets

P/N 3471 on Mooney Models M20 and M20A aircraft was published in 28 F.R. 2531.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

MOONEY. Applies to M20 airplanes Serial Numbers 1002 through 1200, and M20A airplanes Serial Numbers 1201 through 1540, with empennage attach brackets P/N 3009, installed.

Compliance required within 25 hours' time in service after the effective date of this AD, unless already accomplished.

Replace empennage attach bracket P/N 3009 and bearing plate P/N 3449 with bracket P/N 3471.

(Mooney Service Letter No. 20-60 dated November 17, 1959, also covers this change.)

This supersedes Amendment 17, 24 F.R. 3574, AD 59-9-1.

This amendment shall become effective June 4, 1963.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on April 29, 1963.

W. LLOYD LANE,
Acting Director,
Flight Standards Service.

[F.R. Doc. 63-4755; Filed, May 3, 1963; 8:45 a.m.]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 55883]

PART 14—APPRAISEMENT

Antidumping; Portland Cement From Dominican Republic

APRIL 30, 1963.

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determination of sales at less than fair value. Pursuant to such authority a determination was made, and on January 21, 1963, the United States Tariff Commission was advised that portland cement, other than white, nonstaining portland cement, from the Dominican Republic is being, or is likely to be, sold in the United States at less than its fair value.

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the United States Tariff Commission responsibility for determination of injury or likelihood of injury. The United States Tariff Commission has determined, and on April 19, 1963, it notified the Secretary of the Treasury, that an industry in the United States is likely to be injured by reason of the importation of Portland cement, other than white, nonstaining portland cement, from the Dominican Republic at less than fair value within the mean-

ing of the Antidumping Act, 1921, as amended.

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to Portland cement, other than white, non-staining portland cement, from the Dominican Republic.

Section 14.13(b) of the Customs Regulations is amended by adding the following to the list of findings of dumping currently in effect:

Merchandise	Country	T.D.
Portland cement, other than white, nonstaining portland cement.	Dominican Republic.	55883

(Secs. 201, 407, 42 Stat. 11, as amended, 18; 19 U.S.C. 160, 173)

[SEAL] JAMES POMEROY HENDRICK,
Acting Assistant
Secretary of the Treasury.

[F.R. Doc. 63-4801; Filed, May 3, 1963;
8:49 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 19—CHEESES; PROCESSED CHEESES; CHEESE FOODS; CHEESE SPREADS, AND RELATED FOODS; DEFINITIONS AND STANDARDS OF IDENTITY

Cold-Pack Cheese Foods; Standards of Identity

In the matter of amending the definitions and standards of identity for § 19.787 *Cold-pack cheese food* * * * and § 19.788 *Cold-pack cheese food with fruits, vegetables, or meats* * * *:

A notice of proposed rule making was published in the FEDERAL REGISTER of September 20, 1962 (27 F.R. 9332), setting forth proposals by Calumet Cheese Company, Hilbert, Wisconsin; Tasty Morsel Cheese Company, Green Bay, Wisconsin; and Woody's Cheese Company, Waupaca, Wisconsin, to amend the standards of identity for cold-pack cheese food to provide for the optional use of sodium propionate and guar gum, with appropriate labeling therefor.

No objections were filed to that part of the proposal concerning the use of sodium propionate, in an amount not in excess of 0.3 percent by weight, to retard mold growth. In amending the standard for cold-pack cheese food, it is determined that it is desirable to use the wording employed in other cheese standards that permit the use of propionates to retard mold and that so phrasing the amendment will not adversely affect interested parties. With a single exception, all the comments filed objected to that part of the proposal concerning the use of guar gum to hold moisture in cold-pack cheese food.

Conclusions:

1. On the basis of data submitted by the petitioners and other information available, it is concluded that it will promote honesty and fair dealing in the interest of consumers to amend the standard of identity for cold-pack cheese food to provide for using propionates to retard mold growth as hereinafter ordered.

2. Taking into consideration the limited information submitted by the petitioners, the adverse comments filed by others in the cheese industry, and other available data, it is not concluded that it will promote honesty and fair dealing in the interest of consumers to adopt the amendment proposed for using guar gum in cold-pack cheese food.

Therefore, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625): *It is ordered:*

1. That § 19.787 (e) (7) and (f) (8) be amended to read as follows:

§ 19.787 Cold-pack cheese food; identity; label statement of optional ingredients.

(e) * * *

(7) Cold-pack cheese food in consumer-size packages may contain not more than 0.2 percent by weight of sorbic acid or not more than 0.3 percent by weight of sodium propionate, calcium propionate, or a combination of sodium propionate and calcium propionate.

(f) * * *

(8) If cold-pack cheese food in consumer-sized packages contains sorbic acid, or sodium propionate, calcium propionate, or a combination of sodium propionate and calcium propionate, the label shall bear the statement "----- added to retard mold growth" or "----- added as a preservative," the blank being filled in with the name or names of the substance or substances used.

2. That the standard of identity for cold-pack cheese food not be amended to permit the use of guar gum as an optional ingredient.

Because the standard of identity for cold-pack cheese food with fruits, vegetables, or meats (§ 19.788) is cross-referenced to the standard for cold-pack cheese food (§ 19.787), amending the latter standard to permit the use of propionates has the effect of making the amendment applicable also to the standard for cold-pack cheese food with fruits, vegetables, or meats.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify

with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing, and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed preferably in quintuplicate.

Effective date. This order shall become effective 60 days from the date of its publication in the FEDERAL REGISTER, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced by publication in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: April 29, 1963.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

PART 19—CHEESES; PROCESSED CHEESES; CHEESE FOODS; CHEESE SPREADS, AND RELATED FOODS; DEFINITIONS AND STANDARDS OF IDENTITY

Edam Cheese; Gouda Cheese; Pasteurized Process Cheese Spread and Related Cheese Spread Products; Effective Date; Standard of Identity

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919; 21 U.S.C. 341, 371) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (25 F.R. 8625), notice is hereby given that no objections were filed to the order published in the FEDERAL REGISTER of March 13, 1963 (28 F.R. 2444), amending the standard of identity for edam cheese, gouda cheese, and pasteurized process cheese spread to permit the optional use of sorbic acid to retard mold growth. Accordingly, the definition and standard of identity promulgated by that order will become effective May 12, 1963.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919; 21 U.S.C. 341, 371)

Dated: April 29, 1963.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Animal Feed and Animal-Feed Supplements

CHOLINE XANTHATE

The Commissioner of Food and Drugs, having evaluated the data submitted in a

petition filed by Dawe's Laboratories, Inc., 4800 South Richmond Street, Chicago 32, Illinois, has concluded that the regulation for choline xanthate should be amended to provide for its safe use in swine feed. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), § 121.231 is amended to read as follows:

§ 121.231 Choline xanthate.

Choline xanthate may be safely used as a component of animal feed as a source of choline to supplement the diets of poultry and swine in accordance with good feeding practice.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: April 29, 1963.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 63-4794; Filed, May 3, 1963;

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Animal Feed or Animal-Feed Supplements

Subpart D—Food Additives Permitted in Food for Human Consumption

IRON-CHOLINE CITRATE COMPLEX

The Commissioner of Food and Drugs, having evaluated the data in a petition submitted by Baxter Laboratories, Inc., 6301 North Lincoln Avenue, Morton Grove, Illinois, and other relevant material, has concluded that food additive regulations should issue to prescribe the safe use of iron-choline citrate complex in human food and in animal feed. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21

U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations are amended by adding to Subparts C and D new sections, as follows:

§ 121.247 Iron-choline citrate complex.

Iron-choline citrate complex made by reacting approximately equimolecular quantities of ferric hydroxide, choline, and citric acid may be safely used as a source of iron in animal feed.

§ 121.1100 Iron-choline citrate complex.

Iron-choline citrate complex made by reacting approximately equimolecular quantities of ferric hydroxide, choline, and citric acid may be safely used as a source of iron in foods for special dietary use.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: April 29, 1963.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 63-4796; Filed, May 3, 1963;
8:48 a.m.]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

GLYCERYL ABIETATE

The Commissioner of Food and Drugs, having evaluated data in a petition (FAP 85) filed by H. Kohnstamm and Company, Inc., 161 Avenue of the Americas, New York 13, New York, and other relevant data, has concluded that a regulation should issue to prescribe safe conditions of use for glyceryl abietate. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and

Welfare (25 F.R. 8625), the food additive regulations are amended by adding to Subpart D the following new section:

§ 121.1084 Glyceryl abietate.

Glyceryl abietate may be safely used to adjust the density of citrus oils used in the preparation of beverages.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: April 29, 1963.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 63-4795; Filed, May 3, 1963;
8:48 a.m.]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

POLYSULFIDE POLYMER-POLYEPOXY RESINS

The commissioner of Food and Drugs, having evaluated the data submitted in a petition (FAP 945) filed by Thiokol Chemical Corporation, 780 North Clinton Avenue, Trenton 7, New Jersey, and other relevant material, has concluded that the following regulation should issue with respect to the use of polysulfide polymer-polyepoxy resin coatings as the food-contact surface of articles contacting dry food. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations (21 CFR Part 121) are amended by adding to Subpart F the following new section:

§ 121.2572 Polysulfide polymer-polyepoxy resins.

Polysulfide polymer-polyepoxy resins may be safely used as the food-contact surface of articles intended for pack-

RULES AND REGULATIONS

aging, transporting, holding, or otherwise contacting dry food, in accordance with the following prescribed conditions:

(a) Polysulfide polymer-polyepoxy resins are the reaction products of liquid polysulfide polymers and polyfunctional epoxide resins, cured with the aid of tri(dimethylaminomethyl) phenol, to which have been added certain optional substances to impart desired technological properties to the resins. Sub-

ject to any limitations prescribed in this section, the optional substances may include:

(1) Substances generally recognized as safe in food and food packaging.

(2) Substances the use of which is permitted under applicable regulations in this part, prior sanctions, or approvals.

(3) Substances named in this section and further identified as required.

<i>List of substances</i>	<i>Limitations</i>
Bis(2-chloroethyl) formal	
Bis(dichloropropyl) formal	Cross-linking agent.
Butyl alcohol	Solvent.
Channel black	
Chlorinated paraffins	Cross-linking agent.
Epoxidized linseed oil	
Epoxidized soybean oil	
Epoxy resins (as listed in § 121.2514(b) (3) (viii) (a))	
Ethylene glycol monobutyl ether	Solvent.
Magnesium chloride	Suspension agent.
Methyl isobutyl ketone	Solvent.
Sodium bisulfite	Coagulating agent.
Sodium dibutyl naphthalene sulfonate	Wetting agent.
Sodium hydrosulfide-hydrogen sulfide combinations	Splitting agent.
Sodium hydroxide-sodium sulfite combinations	
Sodium polysulfide	
$\beta,\beta',\gamma,\gamma'$ Tetrachloro normal propyl ether	Cross-linking agent.
Titanium dioxide	
Toluene	Solvent.
Trichloroethane	Cross-linking agent.
1,2,3-Trichloropropane	Do.
Xylene	Solvent.

(b) The resins are used as the food-contact surface for dry food.

(c) An appropriate sample of the finished resin in the form in which it contacts food, when subjected to Method

6191 in Federal Test Method Standard No. 141, published in "Varnish, Lacquer, and Related Materials—Methods of Inspection and Sampling" (General Services Administration, Washington 25,

D.C.), using No. 50 Emery abrasive in lieu of Ottawa sand, shall exhibit an abrasion coefficient of not less than 20 liters per mil of film thickness.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c) (1), 72 Stat. 1786; 21 U.S.C. 348 (c) (1))

Dated: April 30, 1963.

JOHN L. HARVEY,
Deputy Commissioner of
Food and Drugs.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 965 I]

TOMATOES GROWN IN LOWER RIO GRANDE VALLEY, TEXAS

Proposed Limitation of Shipments

Notice is hereby given that the Secretary of Agriculture is considering the limitation of shipments, as hereinafter set forth, which was recommended by the Texas Valley Tomato Committee, established pursuant to Marketing Order No. 965 (7 CFR Part 965), regulating the handling of tomatoes grown in the counties of Cameron, Hidalgo, Starr and Willacy in Texas (Lower Rio Grande Valley). This program is effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than five days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

§ 965.305 Limitation of shipments.

Except as otherwise provided in this section, during the period May 20, 1963, through July 15, 1963, the regulations in this section shall be effective with respect to all varieties of tomatoes handled, as to all varieties of tomatoes handled, as defined in § 965.5, and no person shall handle such tomatoes or cause such tomatoes to be handled unless they are inspected and certified as required by paragraph (b) of this section, and meet the requirements of paragraph (a) of this section. Elongated types of tomatoes, commonly referred to as pear shaped or paste tomatoes and including but not limited to San Marzano, Red Top, and Roma varieties; and cerasiform type tomatoes commonly referred to as cherry tomatoes, are not subject to the requirements of subparagraphs (2) and (3) of paragraph (a) of this section.

(a) *Requirements*—(1) *Minimum grade*. U.S. No. 2, or better, grade.

(2) *Minimum size*. $2\frac{1}{32}$ inches in diameter or larger. Not more than 10 percent, by count, of tomatoes in any lot of size 7 x 7 ($2\frac{1}{32}$ inches minimum diameter to $2\frac{3}{32}$ inches maximum diameter) may be smaller than the specified minimum diameter.

(3) *Sizing arrangements*. (i) Any lot with more than 5 percent "green" tomatoes shall be packed in one of the following ranges of diameter applicable thereto:

Size arrangements:	Diameter (inches)
7 x 7-----	$2\frac{1}{32}$ to $2\frac{3}{32}$, inclusive.
6 x 7-----	Over $2\frac{3}{32}$ to $2\frac{1}{2}$, inclusive.
6 x 6-----	Over $2\frac{1}{32}$.

(ii) All tomatoes subject to sizing arrangements shall be packed separately for each size range, except that size 6 x 6 and larger sizes may be commingled.

(iii) To allow for variations incident to proper sizing and handling not more than a total of ten percent, by count, in any lot, may be smaller than the minimum diameter or larger than the specified maximum diameter. "Breakers" or tomatoes of a greater degree of maturity shall not be subject to size arrangements.

(b) *Inspection*. (1) All tomatoes handled pursuant to this part, other than those specifically excepted therefrom pursuant to paragraphs (c), (d), and (e) of this section, shall be inspected and certified pursuant to the provisions of § 965.60; and

(2) No handler shall transport or cause the transportation of any shipment of tomatoes by motor vehicle unless each such shipment is accompanied by a copy of the inspection certificate applicable thereto.

(c) *Repacked tomatoes*. A handler who is a repacker within the production area may register with the committee, as a repacker, in accordance with applicable rules and regulations, and thereafter may handle repacked tomatoes without reinspection thereon after repacking, if such tomatoes were previously inspected prior to repacking and met the grade and size requirements of this section.

(d) *Minimum quantity*. For purposes of regulation under this part, each person subject thereto may handle, pursuant to § 965.53, up to, but not to exceed 120 pounds of tomatoes per day without regard to the requirements of this part, but this exception shall not apply to any portion of a shipment of over 120 pounds of tomatoes.

(e) *Special purpose shipments*. The limitations set forth in this section shall not be applicable to shipments of tomatoes for the following purposes: (1) Relief or charity; (2) processing; and (3) for experimental purposes.

(f) *Safeguards*. Each handler making shipments of tomatoes pursuant to paragraph (e) of this section for relief or charity, for processing, or for experimental purposes, shall apply for and obtain an approved Certificate of Privilege from the committee applicable to shipments for such purposes.

(g) *Definitions*—(1) *Grade, size, and color*. The terms "U.S. No. 2," "green," and "breakers" means the U.S. No. 2 grade, and "green" and "breakers" maturity, as set forth in the United States Standards for Fresh Tomatoes (§§ 51.1855-51.1877 of this title; 22 F.R. 4528 as amended, 26 F.R. 8559), including

the tolerance set forth therein; and the application of tolerance for size shall be as set forth in § 51.1861 of such standards.

(2) *Other terms*. All other terms used in this section shall have the same meaning as when used in this part.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 1, 1963.

PAUL A. NICHOLSON,
Acting Director,
Fruit and Vegetable Division.

[F.R. Doc. 63-4812; Filed, May 3, 1963; 8:50 a.m.]

[7 CFR Part 980 I]

TOMATOES

Proposed Regulations Governing Imports

Notice is hereby given that the Secretary of Agriculture is giving consideration to grade, size, quality and inspection regulations that are to be made applicable to the importation of tomatoes into the United States pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674).

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than 5 days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

§ 980.201 Tomato Regulation No. 3.

(a) *Import restrictions*. During the period from May 20, 1963, to July 15, 1963, both dates inclusive, no person shall import any tomatoes of any variety, unless such tomatoes (1) meet the requirements of the U.S. No. 2, or better grade, and (2) except for elongated types, commonly referred to as pear shaped or paste tomatoes and including, but not limited to, San Marzano, Red Top, and Roma varieties; and cerasiform type tomatoes, commonly referred to as cherry tomatoes, unless such tomatoes meet the requirements of the U.S. No. 2, or better grade, and are $2\frac{1}{32}$ inches minimum diameter or larger: *Provided*, That not more than ten (10) percent, by count, of the tomatoes in any lot of 7 x 7 ($2\frac{1}{32}$ inches minimum diameter to $2\frac{3}{32}$ inches maximum diameter) may be smaller than the specified minimum diameter.

(b) *Minimum quantity*. Any importation which in the aggregate does not exceed 120 pounds, may be imported without regard to the provisions of paragraph (a) of this section.

(c) *Plant quarantine.* No provisions of this section shall supersede the restrictions or prohibitions on tomatoes under the Plant Quarantine Act of 1912.

(d) *Designation of Governmental inspection services.* The Federal or the Federal-State Inspection Service, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are hereby designated as governmental inspection services for the purpose of certifying the grade, size, quality and maturity of tomatoes that are imported, or to be imported, into the United States under the provisions of section 8e of the act.

(e) *Inspection and official inspection certificates.* (1) Inspection by the Federal or Federal-State Inspection Service, by the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, or by such other governmental inspection service as may be designated, or approved, by the Director, Fruit and Vegetable Division, Agricultural Marketing Service, with appropriate evidence thereof in the form of an official inspection certificate issued by the respective service and applicable to a particular shipment of tomatoes, is required. Each such lot shall be made available and accessible for inspection. Such inspection and certification will be made available in accordance with the rules and regulations governing inspection and certification of fresh fruits, vegetables and other products (Part 51 of this title). Since inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers of uninspected and uncertified tomatoes should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give the specified advance notice to the applicable office listed below prior to the time the tomatoes will be imported.

(2) Inspection certificates shall cover only the quantity of tomatoes that is being imported at a particular port of entry by a particular importer.

(3) The inspections performed, and certificates issued, by the Federal or Federal-State Inspection Service, or the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables and other products (Part 51 of this title). The cost of any inspection and certification, shall be borne by the applicant therefor.

(4) Each inspection certificate issued with respect to any tomatoes to be imported into the United States shall set forth, among other things:

- (i) The date and place of inspection;
- (ii) The name of the shipper, or applicant;
- (iii) The commodity inspected;
- (iv) The quantity of the commodity covered by the certificate;
- (v) The principal identifying marks of the containers;
- (vi) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and
- (vii) The following statement, if the facts warrant: Meets U.S. Import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937.

(f) *Reconditioning prior to importation.* Nothing contained in this part shall be deemed to preclude any importer from reconditioning prior to importation any shipment of tomatoes for the purpose of making it eligible for importation under the act.

(g) *Definitions.* (1) The term "U.S. No. 2" means the U.S. No. 2 grade, as set forth in the United States Standards for Fresh Tomatoes (§§ 51.1855 to 51.1877, inclusive, of this title), including the tolerances set forth therein.

(2) "Importation" means release from custody of the United States Bureau of Customs.

Dated: May 1, 1963.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Docket Nos. AO 219-A12, AO 237-A8, AO 243-A10]

MILK IN THE MEMPHIS, TENNESSEE, FORT SMITH, ARKANSAS, AND CENTRAL ARKANSAS, MARKETING AREAS

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreements and Orders

Pursuant to the provisions of the Agricultural Marketing Agreement Act of

1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the King Cotton Hotel, 69 Jefferson Avenue, Memphis, Tennessee, beginning at 10 a.m. local time, on May 21, 1963, with respect to proposed amendments to the tentative marketing agreements and to the orders, regulating the handling of milk in the Memphis, Tennessee, Fort Smith, Arkansas, and Central Arkansas, marketing areas.

The public hearing is for the purpose of receiving evidence with respect to the economic and emergency marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreements and to the orders.

The proposals relative to a redefinition of the marketing area raise the issue whether the provisions of the present orders would tend to effectuate the declared policy of the Act, if they are applied to the marketing area as proposed to be redefined and, if not, what modifications of the provisions of the orders would be appropriate.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by the Mid-South Milk Producers Association:

Proposal No. 1. Amend subparagraphs (2) and (3) of paragraph (a) of § 1097.51 to read as follows:

(2) Add if the net utilization percentage calculated pursuant to subparagraph (3) of this paragraph is less than, or subtract if it is more than the base utilization range, an amount determined by multiplying such net utilization percentage by ten cents per unit for the pricing months of August through December, five cents per unit for the pricing months of January and February, and three cents per unit for the pricing months of March through July.

(3) The figure calculated for each month as follows shall be known as the net utilization percentage: Divide the net pounds of Class I milk utilized by fluid milk plants and by cooperative associations which are handlers pursuant to § 1097.10 (b) or (c) under the terms of this order and utilized by pool plants under the terms of the order regulating the handling of milk in the Central Arkansas marketing area (Part 1109 of this chapter) and by cooperative associations which are handlers pursuant to § 1108.12 of Order No. 108, and utilized by a regulated plant under the terms of the order regulating the handling of milk in the Fort Smith, Arkansas, marketing area (Part 1102 of this chapter), and by cooperative associations which are handlers pursuant to § 1102.9 of this chapter (Order No. 102), for the second and third preceding months into the pounds of producer milk received at such plants during the same months, multiply by 100, round to the nearest whole percentage number and determine the

amount by which such number exceeds the higher figure or is less than the lower figure of the appropriate base utilization range in the following table:

Pricing month	Second and third preceding months	Base utilization range
January.....	October-November.....	109-115
February.....	November-December.....	108-114
March.....	December-January.....	108-114
April.....	January-February.....	108-114
May.....	February-March.....	108-114
June.....	March-April.....	111-117
July.....	April-May.....	113-120
August.....	May-June.....	112-119
September.....	June-July.....	115-121
October.....	July-August.....	114-120
November.....	August-September.....	112-118
December.....	September-October.....	110-116

Proposed by Central Arkansas Milk Producers Association:

Proposal No. 2. Amend § 1097.51 (a) (2) by deleting the three words "by 3 cents" immediately preceding the colon, and inserting in lieu thereof the following: "10 cents during the months of August through December of each year, 5 cents during the months of January and February of each year, and 3 cents during the months of March through July of each year"

B. Amend § 1097.51(a) (3) to provide for the use of the Class I sales and receipts by handlers subject to regulation by the orders regulating the handling of milk in the Central Arkansas and the Port Smith, Arkansas, marketing areas, as well as the Memphis, Tennessee, marketing area, and computing the base utilization percentages in this section, and by deleting the base utilization range column in the table contained therein, and inserting in lieu thereof the following:

January.....	109-115
February.....	108-114
March.....	108-114
April.....	108-114
May.....	108-114
June.....	111-117
July.....	113-120
August.....	112-119
September.....	115-121
October.....	114-120
November.....	112-118
December.....	110-116

Proposal No. 3. Amend § 1108.51(a) by deleting the language contained therein, and inserting in lieu thereof, the following:

(a) The Class I price shall be the Class I price established for the respective month pursuant to Federal Order No. 97, regulating the handling of milk in the Memphis, Tennessee, marketing area.

Proposed by Mid-South Milk Producers Association:

Proposal No. 4. Amend § 1097.51(b) Class II milk to read as follows:

(b) *Class II milk.* The price for Class II milk for the months of March through August shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department of Agriculture for the delivery period, and for the months of September through February such price plus 25 cents per hundredweight: *Provided,*

That such reported price shall be adjusted to 3.5 percent butterfat basis by the butterfat differential computed pursuant to § 1097.52(b) and rounded to the nearest one-tenth of one cent.

Proposal No. 5. Amend paragraph (b) of § 1097.52 (butterfat differential to handlers) to read as follows:

(b) *Class II price.* Multiply the Chicago butter price for the month by 0.115 for all months of the year.

Proposed by the Central Arkansas Milk Producers Association:

Proposal No. 6. Amend § 1108.51(b), by deleting the language contained therein, and inserting in lieu thereof the following:

(b) During the months of March through August of each year, the Class II milk price shall be the basic formula price computed pursuant to § 1108.50, and for the months of September through February of each year, that price plus 25 cents per hundredweight.

Proposal No. 7. Amend § 1108.52(b), by deleting the language contained therein, and inserting in lieu thereof the following:

(b) Multiply the Chicago butter price for the month by 0.115 for all months of the year.

Proposal No. 8. Amend § 1102.51(b) by deleting the language contained therein, and inserting in lieu thereof the following:

(b) During the months of March through August of each year, the Class II milk price shall be the basic formula price computed pursuant to § 1102.80, and for the months of September through February of each year, that price plus 25 cents per hundredweight.

Proposed by Mid-South Milk Producers Association:

Proposal No. 9. Amend § 1097.16 so as to provide for the classification of egg nog and boiled custard as Class I milk products.

Proposal No. 10. Amend § 1097.41(b) (3) to read as follows:

(3) Disposed of and used for livestock feed if all the following conditions are met:

(i) The market administrator is notified, prior to such disposition, of the time the disposition is to be made so that he or his representative may physically verify the disposition;

(ii) Records are maintained to show the source, availability, butterfat content and volume of each product composing each lot of the aggregate to be disposed of for livestock feed and the total butterfat content and volume of each lot of the aggregate product;

(iii) Each disposition is documented in duplicate by a separate record in a form approved by the market administrator showing disposition date, volume disposed of and the name of the person to whom it is disposed and his or his representative's signature, one copy of which is mailed or delivered to the market administrator on or before the second day after the date of such disposition; and

(iv) The volume of skim milk and butterfat classified as Class II pursuant to this paragraph shall not exceed 0.5 percent of the volume of skim milk and butterfat in fluid milk products disposed of in fluid form.

Proposal No. 11. Amend § 1097.41(b) (5) (i) by deleting the semicolon after the words "pursuant to § 1097.10(c)" and inserting immediately thereafter and before the words "and plus 2.0 percent" the following provision: "and disposed of in a form other than bulk tank lots of whole milk, skim milk or cream;"

Proposed by Central Arkansas Milk Producers Association:

Proposal No. 12. Amend § 1108.16 by deleting the word "eggnog" as it appears in the exceptions to the definition of fluid milk products.

Proposal No. 13. Amend § 1108.41(b) (3), by deleting the language contained therein, and inserting the following in lieu thereof:

(3) Disposed of in the form of fluid milk products for use as animal feed if all the following conditions are met:

(i) The market administrator is notified, prior to such disposition, of the time the disposition is to be made so that he or his representative may physically verify the disposition; (ii) records are maintained to show the source, availability, butterfat content and volume of each product composing each lot of the aggregate to be disposed of for animal feed and the total butterfat content and volume of each lot of the aggregate product; (iii) each disposition is documented in duplicate by a separate record in a form approved by the market administrator showing disposition date, volume disposed of, and the name of the person to whom it is disposed and his or his representative's signature, one copy of which is mailed or delivered to the market administrator on or before the second day after the date of such disposition; and (iv) the volume of skim milk and butterfat classified as Class II pursuant to this paragraph shall not exceed 0.5 percent of the volume of skim milk and butterfat in fluid milk products disposed of in fluid form.

Proposal No. 14. Amend § 1108.41 (b) (5) by deleting the language contained therein, and inserting in lieu thereof, the following:

(5) In actual shrinkage of skim milk and butterfat:

(i) Allocated pursuant to § 1108.42(b) (1) but not to exceed an amount calculated as follows: 0.5 percent of skim milk and butterfat in milk received directly from producers (except diverted milk) and disposed of as whole milk, skim milk, or cream in bulk; plus 1.5 percent of skim milk and butterfat, respectively, received in bulk from fluid milk plants of other handlers and from cooperative associations which are handlers pursuant to § 1108.12(c); and plus 2.0 percent of skim milk and butterfat, respectively, received directly from producers and disposed of in a form other than bulk tank lots of whole milk, skim milk, or cream.

Proposal No. 15. Add two subparagraphs to § 1108.41(b) as follows:

(7) In aerated cream and in cream frozen and stored;

(8) The utilization of which is established as disposed of in bulk to bakeries, candy or soup manufacturers, and other commercial food manufacturing establishments which do not dispose of fluid milk products.

Proposal No. 16. Amend § 1102.41(b) (2), by deleting the language contained therein, and inserting the following in lieu thereof:

(2) Disposed of in the form of fluid milk products for use as animal feed if all the following conditions are met:

(i) The market administrator is notified, prior to such disposition, of the time the disposition is to be made so that he or his representative may physically verify the disposition;

(ii) Records are maintained to show the source, availability, butterfat content and volume of each product composing each lot of the aggregate to be disposed of for animal feed and the total butterfat content and volume of each lot of the aggregate product;

(iii) Each disposition is documented in duplicate by a separate record in a form approved by the market administrator showing disposition date, volume disposed of, and the name of the person to whom it is disposed and his or his representative's signature, one copy of which is mailed or delivered to the market administrator on or before the second day after the date of such disposition; and

(iv) The volume of skim milk and butterfat classified as Class II pursuant to this paragraph shall not exceed 0.5 percent of the volume of skim milk and butterfat in fluid milk products disposed of in fluid form.

Proposal No. 17. Amend § 1102.22(j) (1), by deleting the figure "5th", and inserting in lieu thereof the figure "6th".

Proposal No. 18. Amend § 1102.30 in the opening paragraph thereof by deleting all words preceding the colon, and inserting in lieu thereof, the following: "Each handler, except a producer-handler, shall report by mailing on or before the 6th day, or by delivering on or before the 7th day after the end of each month, for each of his approved plants, for such month to the market administrator in the detail and on the forms prescribed by the market administrator as follows:"

Proposal No. 19. Amend § 1108.30 by deleting the first paragraph of this section to the colon, and inserting in lieu thereof, the following: "Each handler, except a producer-handler, shall report by mailing on or before the 6th day, or by delivering on or before the 7th day after the end of each month, for each of his approved plants, for such month to the market administrator in the detail and on the forms prescribed by the market administrator as follows:"

Proposed by the Mid-South Milk Producers Association:

Proposal No. 20. Amend § 1097.30 by deleting therefrom the introductory

text and substituting in lieu thereof the following: "Each handler (except a producer-handler) for each of his approved plants and any cooperative association with respect to milk for which it is a handler pursuant to § 1097.10 (b) or (c), shall report for such month to the market administrator in detail and on forms prescribed by the market administrator, such reports to be received and due at the office of the market administrator not later than the sixth (6th) day after the end of such month."

Proposal No. 21. Amend the provisions of Order No. 97 to provide for a base-excess plan, and in particular amend the following provisions of Order No. 97:

A. Amend paragraph (k) of § 1097.22 in its entirety to read as follows:

(k) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate and notify each handler in writing.

(1) On or before the 13th day after the end of each of the months of August through February, the uniform price and the location differential for each handler computed pursuant to § 1097.71 and § 1097.93, respectively, and the butterfat differential computed pursuant to § 1097.92; and

(2) On or before the 13th day after the end of each of the months of March through July, the uniform prices for base milk and for excess milk and the location differential for each handler computed pursuant to § 1097.72 and § 1097.93, respectively, and the butterfat differential computed pursuant to § 1097.92.

B. Add §§ 1097.72, 1097.80, 1097.81, 1097.82, 1097.83 to read as follows:

§ 1097.72 Computation of the uniform price for base milk and for excess milk for handlers.

For each of the months of March through July, the market administrator shall compute for each handler with respect to his producer milk, a uniform price for base milk and for excess milk as follows:

(a) Add to the amount computed pursuant to § 1097.70 the total of the location differential deductions made pursuant to § 1097.93;

(b) Add or subtract for each one-tenth percent that the average butterfat content of such milk received by such handler is less or more, respectively, than 3.5 percent, an amount computed by multiplying such difference by the butterfat differential to producers, and multiplying the result by the total hundredweight of such milk;

(c) Subtract, for each of the months of March through July, any amount resulting from the following computations for each cooperative association which is a handler pursuant to § 1097.10(b) and from whose producers the handler receives milk:

(1) Compute the percentage which milk received from member producers of such cooperative association and from such cooperative association which was a handler pursuant to § 1097.10(c), was of total milk, received from producers and from cooperative associations which were handlers pursuant to § 1097.10(c), dur-

ing the preceding period of September through January;

(2) Compute the percentage which milk received from member producers and from such cooperative association which was a handler pursuant to § 1097.10(c), was of total milk received from producers and from cooperative associations which were handlers pursuant to § 1097.10(c), during the month;

(3) Multiply any amount by which the percentage computed pursuant to subparagraph (1) of this paragraph exceeds the percentage computed pursuant to subparagraph (2) of this paragraph by the total hundredweight of Class I milk, allocated to milk from producers and from cooperative associations which were handlers pursuant to § 1097.10(c) during the month; and

(4) Multiply this resultant quantity of milk by the difference between the Class I price and the Class II price for the month and divide the resultant figure by the proportion of milk which was received from producers who were not members of such association and from other cooperative associations which were handlers pursuant to § 1097.10(c). If the combined deductions so calculated for all handlers with respect to the milk of such cooperative association exceed an allowable credit calculated by multiplying the difference between the Class I and Class II prices by the total quantity of Class II milk allocated to all member producers of such cooperative association during the month, such deductions shall be reduced pro rata for each handler to equal such allowable credit;

(d) Add, for each cooperative association which is a handler, the sum of the deductions made for such cooperative association pursuant to paragraph (c) of this section;

(e) Subtract for each handler operating a fluid milk plant receiving milk for which a cooperative association is the handler pursuant to § 1097.10(c), the amount prorated to such milk pursuant to § 1097.71(c);

(f) Add the amount represented by any deductions made for eliminating fractions of a cent in computing the uniform price(s) for the preceding month;

(g) Subject to the conditions set forth in paragraph (h) of this section, compute the value of excess milk received by such handler by multiplying the quantity of such milk by the Class II price;

(h) Compute the value of base milk received by such handler from producers by subtracting the value obtained pursuant to paragraph (g) of this section from the value obtained pursuant to paragraphs (a) through (f) of this section. If such resulting value is greater than an amount computed by multiplying the pounds of such base milk by the Class I price, such value in excess thereof shall be added to the value computed pursuant to paragraph (g) of this section to the extent that the excess price shall not exceed the base price as calculated herein. Any additional value remaining shall be prorated to the respective volumes of base milk and excess milk;

(i) Divide the value obtained pursuant to paragraph (h) of this section by the

hundredweight of base milk received by such handler. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for base milk of 3.5 percent butterfat content, f.o.b. the market; and

(j) Divide the value obtained pursuant to paragraphs (g) and (h) of this section by the hundredweight of excess milk received by such handler. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for excess milk of 3.5 percent butterfat content.

§ 1097.80 Determination of daily base for each producer.

Subject to the rules set forth in § 1097.82 the daily average base for each producer shall be calculated by dividing the total pounds of milk received from such producer by handlers during the months of September through January immediately preceding, by the total number of days in such period beginning with the first day on which milk is received from such producer during such months, but not less than 120. In the case of a producer whose milk is received at a plant which becomes a fluid milk plant during or after the end of the base-forming period, and which has records of milk receipts satisfactory to the market administrator for the determination of a base, the producer's base shall be that which would have been calculated for such producer (exclusive of transfers) for the entire base-forming period if such plant had been a fluid milk plant during such period.

§ 1097.81 Determination of monthly base for each producer.

For each of the months of March through July of each year the monthly base of each producer shall be calculated as follows: Multiply the daily base of such producer by the number of day's production received from such producer by handlers during the month.

§ 1097.82 Base Rules.

The following rules shall apply in connection with the establishment and assignment of bases.

(a) Subject to the provisions of paragraph (b) of this section, the market administrator shall assign a base as calculated pursuant to § 1097.80 to each producer for whose account producer milk was delivered during the months of September through January.

(b) If a producer ceases to deliver milk in his name between September 1 and the last day of January, but milk is delivered to a handler from the same dairy production facility in the name of another producer during the remainder of the base-forming period, the base earned by both producers shall be combined in the manner set forth in paragraph (c) (3) of this section if milk is delivered in the names of both producers during any of the immediately following months of March through July; and

(c) An entire base shall be transferred from a person holding such base to another person as of the end of the month during which an application for the transfer of such base is received by

the market administrator, such application to be on forms approved by the market administrator and signed by the base holder or his heirs and by the person to whom such base is to be transferred subject to the following conditions.

(1) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders;

(2) An entire base or the proportionate share of a jointly held base may be transferred to another person if such person assumes the ownership or operation of the farm on which the base to be transferred was established; and

(3) If one or more bases are transferred to a producer already holding a base which was either earned by such producer or transferred to him, a new base shall be computed by adding together the total producer milk deliveries during the base-forming period of all persons in whose names such bases were earned and dividing the total by the total number of days in such period beginning with the first day on which milk was received during the base-forming period from any of such persons, but not less than 120 days.

§ 1097.83 Announcement of daily bases.

On or before February 20 of each year, the market administrator shall notify each producer of his daily base.

C. Amend paragraph (b) of § 1097.91 by inserting after the words "computed pursuant to § 1097.71" and before the words "subject to the following adjustments" the following provision: "for such handler for the months of August through February, and such payments to be for base and excess milk at not less than the uniform base and excess prices, respectively, computed pursuant to § 1097.72 for such handler for other months."

D. In order to conform the base plan to that under the Central Arkansas order, the base forming period in 1963 should be September through December, and in 1964 and thereafter September through January of the following year; base excess payments to be made in 1964 February through July and in 1965 and thereafter March through July. Bases should be transferable between Fort Smith, Little Rock, and Memphis orders.

Proposed by Central Arkansas Milk Producers Association:

Proposal No. 22. Amend § 1108.44, by adding a new paragraph (e) reading as follows:

(e) The skim milk and butterfat in milk received by a pool plant from a cooperative association which is a handler, pursuant to § 1108.12(c) shall be considered producer milk for the purpose of classification and pricing at the plant of the receiving handler.

The proposed § 1108.44(e) will require consideration of conforming changes to §§ 1108.46(a) (1) and (b); 1108.70; and 1108.86(b), among others, because of the use of words "producer milk" in these sections.

Proposal No. 23. Amend § 1108.53 (location differential to handlers) and

§ 1108.74 (location differential to producers) to specifically provide for the computation of the location differential provided therein on a plus basis for all pool plants located 60 miles or more south from the City Hall at Benton, Arkansas, or the State Capitol at Little Rock, Arkansas, whichever is nearer by the shortest highway distance.

Proposal No. 24. Amend § 1108.80 to specifically require a handler to make the advance payment to the cooperative association on bulk tank milk for which the cooperative association acts as the handler, pursuant to § 1108.12(c).

Proposal No. 25. Amend § 1108.4 to include the counties of Poinsett, Craighead, Greene, Lawrence, Independence, Jackson, and Mississippi, all in the State of Arkansas, within the marketing area, in addition to the counties now included in the marketing area.

Proposal No. 26. Amend § 1102.6 *Fort Smith marketing area* by deleting the language contained therein, and inserting in lieu thereof, the following:

§ 1102.6 Fort Smith marketing area.

"Fort Smith, Arkansas, marketing area," hereinafter called the marketing area, means all territory included within the corporate limits of the City of Van Buren, Arkansas, and within the counties of Sebastian Scott, Logan, Johnson, and Franklin, all within the State of Arkansas, including all Federal installations included therein.

Proposed by the Milk Marketing Orders Division:

Proposal No. 27. Make such changes as may be necessary to make the entire marketing agreements and the orders conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the orders may be procured from the Market Administrator, Charles S. McDonald, 35 South Cooper Street, P.O. Box 9926, Memphis 12, Tennessee, or 3518 West Roosevelt Road, P.O. Box 4225, Asher Avenue Station, Little Rock, Arkansas, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., or may be there inspected.

Signed at Washington, D.C., on May 1, 1963.

LINLEY E. JUERS,
Acting Deputy Administrator,
Agricultural Marketing Service.

Agricultural Stabilization and Conservation Service

[7 CFR Part 728]

WHEAT

Notice of Intention To Issue Regulations for the Wheat Diversion Program for 1964 and 1965

Pursuant to authority contained in the Agricultural Adjustment Act of 1938, as amended, the Administrator, Agricultural Stabilization and Conservation Service, United States Department of

Agriculture, is preparing to issue regulations for the wheat diversion program for 1964 and 1965. These regulations will provide terms and conditions relative to (i) designation and use of acreage diverted from the production of wheat, (ii) establishing farm conserving bases, (iii) required use of land to maintain the farm conserving base, (iv) diversion permitted and payments therefor, (v) eligibility to participate in the program, (vi) advance payments, (vii) determination of compliance with program provisions, (viii) final payments, (ix) land use penalty provisions, (x) diversion payment rates per bushel for each county, and (xi) related operating procedures. Prior to issuance of these regulations, consideration will be given to any data, views or recommendations pertaining thereto which are submitted in writing to the Director, Farmer Programs Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington 25, D.C. To be considered, any such submissions must be postmarked not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER.

NOTE: The full text of the proposed regulations for the Wheat Diversion Program for 1964 and 1965 (7 CFR 728.50-728.73) will be published in the FEDERAL REGISTER dated Tuesday, May 7, 1963.

Signed at Washington, D.C., on April 29, 1963.

H. D. GODFREY,
Administrator, Agricultural Sta-
bilization and Conservation
Service.

DEPARTMENT OF HEALTH, EDU- CATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRI- CULTURAL COMMODITIES

p-Chlorophenoxyacetic Acid; Pro- posal to Establish Tolerance

The Chun King Corporation, P.O. Box 206, Duluth 1, Minnesota, has presented a petition to the Food and Drug Administration requesting that action be taken to establish a tolerance of 2 parts per million for residues of *p*-chlorophenoxyacetic acid in or on mung bean sprouts, when used as a plant regulator to inhibit embryonic root development.

The U.S. Department of Agriculture has advised that this pesticide chemical is useful for the purpose proposed.

Data in the petition indicate that the residues in or on mung bean sprouts from use of *p*-chlorophenoxyacetic acid as proposed do not exceed 2 parts per million, and that these residues will not constitute a hazard to man.

After consideration of the data submitted in the petition, and by virtue of

the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 512; 21 U.S.C. 346(e)), and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625), it is proposed by the Commissioner, in accordance with the request set forth above, that the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120) be amended as set forth below:

1. By inserting after the item "chlorobenzilate * * *" in paragraph (e)(4) of § 120.3 *Tolerances for related pesticide chemicals*, the new item:

p-Chlorophenoxyacetic acid.

2. By adding to Part 120 the following new section:

§ 120.— *p*-Chlorophenoxyacetic acid; tolerance for residues.

A tolerance of 2 parts per million is established for residues of *p*-chlorophenoxyacetic acid in or on mung bean sprouts, from use as a plant regulator on the beans to inhibit embryonic root development.

Any person who has registered or who has submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing *p*-chlorophenoxyacetic acid may request, within 30 days from the publication of this proposal in the FEDERAL REGISTER, that the proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Any interested person may, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written comments on the proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Documents shall be filed preferably in quintuplicate.

Dated: April 29, 1963.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

FEDERAL AVIATION AGENCY

[14 CFR Part 507]

[Reg. Docket No. 1725]

BOEING

Proposed Airworthiness Directives

Pursuant to the authority delegated to me by the Administrator (§ 11.45, 27 F.R. 9585), notice is hereby given that the Federal Aviation Agency has under consideration a proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring inspection and rework

of the latch lock on the aft thrust reverser on Boeing Model 707 and 720 Series aircraft equipped with JT3D-1 or -3 engines. A number of failures of the upper latch lock ball bearings on the aft thrust reverser have occurred in service. This failure permits the latch hook to drift sideways and jam against the aft sleeve roller support structure, thereby preventing the sleeve from locking closed in the cruise position. With an aft sleeve unlocked a loss or reduction of pneumatic pressure may cause aft sleeve extension. The resultant effects could present serious in flight control problems.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room A-103, 1711 New York Avenue NW., Washington 25 D.C. All communications received on or before June 4, 1963, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments submitted will be available in the Docket Section for examination by interested persons at any time. This proposal will not be given further distribution as a draft release.

This amendment is proposed under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 507.10(a) of Part 507 (14 CFR Part 507), by adding the following airworthiness directive:

BOEING. Applies to all Models 707 and 720 Series aircraft equipped with JT3D-1 or -3 engines.

Compliance required as indicated.

To prevent inadvertent aft thrust reverser sleeve actuation, compliance with the following is required:

(a) Within 300 hours' time in service after the effective date of this airworthiness directive, unless already accomplished within the last 200 hours' time in service, and within each 500 hours' time in service thereafter until compliance with (d), inspect the upper latch lock hook for evidence of interference with the latch roller support structure. This inspection shall be done as follows:

(1) Remove the access panel in the aft reverser sleeve to gain access to the upper latch lock (P/N 65-10567).

(2) Disengage the upper and lower latch locks and move the sleeve 5 inches aft from the fully closed position.

(3) Force the aft end of the upper latch lock horizontally to the limit of its travel and hold it in that position.

(4) Move the sleeve forward and determine by using a feeler gauge, if the hook end of the latch clears the roller support structure by 0.05 inch minimum while the hook is in position (3).

(5) Repeat (3) and (4) with the hook displaced to its limit in the opposite direction.

(6) If the hook end of the latch clears the roller support structure on either side by less than 0.05 inch the latch installation must be reworked in accordance with (b) before further flight.

(b) Rework the latch installation by replacing the latch pivot bearing with a new

bearing, BAC-B10A-659 or BAC B10A-649A, roller swaged in place per BAC Process Specification 5435 or secured by an FAA approved equivalent means, or by replacing the latch assembly, P/N 65-10567, with a new or reworked assembly. When replacing the latch bearing or latch assembly install an AN 960C616L washer on each side of the latch pivot bearing to provide additional support. After rework, the latch hook must clear the roller support structure by 0.05 inch minimum.

(c) Unless already accomplished, within 500 hours' time in service after the effective date of this AD, provide an indexing stripe in accordance with Boeing Service Bulletin No. 1799, or equivalent, to the inboard surface of the strut and sleeve to give visual indication of the aft reverser sleeve position both on the ground and in flight. To insure alignment of the strip following replacement, removal, or rework of either the aft sleeve or strut, remove the old stripe and apply a new one in accordance with Boeing Service Bulletin No. 1799, or equivalent. Approval of any equivalent means shall be processed through Engineering and Manufacturing Branch, FAA Western Region, Los Angeles, California.

(d) Within 2,400 hours' time in service after the effective date of this AD, unless already accomplished, accomplish the following:

(1) Install a new latch pivot bearing (BAC-B10A-649A) in the upper latch assembly in accordance with Boeing Service Bulletin No. 1787, or replace the latch assembly with a new or reworked assembly (P/N 65-10567-A) which incorporates the new bearing (BAC-B10A-649A).

(2) Provide a means of preventing the upper latch hook from jamming into the latch roller support structure in accordance with Boeing Service Bulletin No. 1809 or equivalent. Approval of any equivalent means shall be processed through Engineering and Manufacturing Branch, Western Region, Los Angeles, California.

(e) At each engine replacement after incorporation of (d) (1) and (2), determine if the upper latch lock pivot bearing is in serviceable condition and if it is properly retained in its housing. If necessary, rework the upper latch assembly as required to return it to a serviceable condition in accordance with Boeing Service Bulletin No. 1787.

(f) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Engineering and Manufacturing Branch, FAA Western Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for such operator.

(Boeing Service Bulletins Nos. 1787, 1799 and 1809 pertain to this subject.)

Issued in Washington, D.C., on April 29, 1963.

W. LLOYD LANE,
Acting Director,
Flight Standards Service.

[14 CFR Part 507]

[Reg. Docket No. 1726]

LOCKHEED

Proposed Airworthiness Directives

Pursuant to the authority delegated to me by the Administrator (§ 11.45, 27 F.R. 9585), notice is hereby given that the Federal Aviation Agency has under consideration a proposal to amend Part 507

of the regulations of the Administrator. There have been numerous instances of fatigue cracks found in the horizontal stabilizer spar web at fuselage Station 1167.7 on Lockheed 188A and 188C Series aircraft. These cracks adversely affect the structural integrity of the horizontal tail. Since this condition may exist or develop in other such aircraft, an airworthiness directive is being proposed to require inspection and repair of fatigue cracks found in the horizontal stabilizer spar web at fuselage Station 1167.7.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room A-103, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before June 4, 1963, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments submitted will be available in the Docket Section for examination by interested persons at any time. This proposal will not be given further distribution as a draft release.

This amendment is proposed under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 507.10(a) of Part 507 (14 CFR Part 507), by adding the following airworthiness directive:

LOCKHEED. Applies to all Models 188A and 188C Series aircraft which have not been repaired in accordance with Lockheed Service Bulletin 88/SB-579 or FAA-approved equivalent.

Compliance required as indicated.

As a result of fatigue cracking in the horizontal stabilizer spar web at fuselage Station 1167.7, the following shall be accomplished:

(a) Within the next 160 hours' time in service following the effective date of this AD, inspect the horizontal stabilizer spar web at fuselage Station 1167.7, stabilizer Station 29, in the 0.62-inch radius near the lower cap and repair as necessary in accordance with the following:

(1) Clean the radius area with a mild soap solution and inspect for cracks using a dye-penetrant method or FAA-approved equivalent.

(2) Any webs with cracks of $\frac{3}{4}$ inch or less shall be stop drilled before further flight with a $\frac{3}{8}$ -inch diameter flat bottom drill, except that if the crack terminates at a fastener hole, stop drilling is not required.

(3) Any webs with cracks in excess of $\frac{3}{4}$ inch and cracked webs which have been stop drilled on which further cracking occurs shall be repaired before further flight in accordance with Lockheed Service Bulletin 88/SB-579 or FAA-approved equivalent.

(b) Following the accomplishment of (a) inspect the area described in (a) in accordance with (a) (1) as follows:

(1) Inspect uncracked webs at intervals not to exceed 1,000 hours' time in service.

(2) Inspect stop-drilled cracks of $\frac{3}{16}$ inch or less at intervals not to exceed 700 hours' time in service.

(3) Inspect stop-drilled cracks in excess of $\frac{3}{16}$ inch but not greater than $\frac{1}{2}$ inch at intervals not to exceed 350 hours' time in service.

(4) Inspect stop-drilled cracks in excess of $\frac{1}{2}$ inch but not greater than $\frac{3}{4}$ inch at intervals not to exceed 160 hours' time in service.

(c) If cracks are detected by reinspection of (b) (1), repair in accordance with (a) (2) or (a) (3) as applicable. If additional cracking is detected by the reinspection of (b) (2) through (b) (4), repair in accordance with (a) (3).

(d) For aircraft on which the inspection and repair as required in (a) was accomplished before the effective date of this AD, such inspection may be considered as the initial inspection, and the repetitive inspection periods of (b) shall be computed from the aircraft's time in service at the time of that initial inspection.

(e) The periodic reinspection described in (b) may be discontinued when the repair described in Lockheed Service Bulletin 88/SB-579 or an FAA-approved equivalent is incorporated.

(f) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA Western Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for such operator.

(Lockheed Service Information Letter 88/SIL-62 and Lockheed Service Bulletin 88/SB-579 cover this same subject.)

Issued in Washington, D.C., on April 29, 1963.

W. LLOYD LANE,
Acting Director,
Flight Standards Service.

[14 CFR Part 507]

[Reg. Docket No. 1727]

BOEING

Proposed Airworthiness Directives

Pursuant to the authority delegated to me by the Administrator (§ 11.45, 27 F.R. 9585), notice is hereby given that the Federal Aviation Agency has under consideration a proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring a heat-treat check of the main landing gear actuator beam terminal attach bolts on Boeing Model 720 Series aircraft and replacement of any where necessary. It has been found that a number of main gear actuator beam terminal bolts were deformed. Failure of these bolts would prevent retraction of the main landing gear.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room A-103, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before June 4, 1963, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments submitted will be available in the Docket Section for examination by interested persons at any time. This pro-

posals will not be given further distribution as a draft release.

This amendment is proposed under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 507.10(a) of Part 507 (14 CFR Part 507), by adding the following airworthiness directive:

BOEING. Applies to all Model 720 Series aircraft, Serial Numbers 17907 through 17917, 18013 through 18037, 18041 through 18050, 18057, 18059 through 18066, 18072 through 18082, 18086 and 18087, 18154 through 18167, 18240 through 18244, 18248 through 18251, 18351 through 18353, 18355 and 18356, 18376 through 18384, 18416 through 18425, 18451 through 18455 and 18581.

Compliance required within the next 450 hours' time in service after the effective date of this AD, unless already accomplished.

In order to correct for the presence of any improperly heat-treated main landing gear actuator beam terminal attach bolts, P/N 63-9587-1, accomplish the following:

(a) Conduct a heat-treat check on the attach bolts, P/N 63-9587-1 (two per actuator beam).

(b) Bolts testing within the heat-treat range of 180,000 p.s.i. to 200,000 p.s.i. are acceptable for further use and may be continued in service provided they are not otherwise defective.

(c) Bolts testing outside the heat-treat range of 180,000 p.s.i. to 200,000 p.s.i. shall be replaced with bolts of proper heat-treat before further flight.

(d) If the holes in either the actuator beam or the terminal are damaged during bolt removal, the bolt holes, or the bolts may be reworked in accordance with Boeing Service Bulletin No. 1827, or an FAA equivalent approved method.

(Boeing Service Bulletin No. 1827 covers this same subject)

Issued in Washington, D.C., on April 29, 1963.

W. LLOYD LANE,
Director,
Flight Standards Service.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 563]

[FSLIC-1,575]

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION; OPERATIONS

Proposed Increases in Insured Accounts Through Merger, Consolidation, or Bulk Assets Purchases

APRIL 30, 1963.

Resolved that, pursuant to Part 508 of the general regulations of the Federal Home Loan Bank Board (12 CFR Part 508) and § 567.1 of the rules and regulations for Insurance of Accounts (12 CFR 567.1), it is hereby proposed that § 563.22 of the rules and regulations for Insurance of Accounts (12 CFR 563.22)

be amended by an amendment the substance of which is as follows:

Amend § 563.22 of the rules and regulations for Insurance of Accounts to read as follows:

§ 563.22 Merger, consolidation, or purchase of bulk assets.

No insured institution may at any time increase its accounts of an insurable type as a part of any merger or consolidation with another institution or through the purchase of bulk assets, without application to and approval by the Corporation. Application for such approval shall be upon forms prescribed by the Corporation and such information shall be furnished therewith as the Corporation may require.

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1947 Supp.)

Resolved further that all interested persons are hereby given the opportunity to submit written data, views, or arguments on the following subjects and issues: (1) Whether said proposed amendment should be adopted as proposed; (2) whether said proposed amendment should be modified and adopted as modified; (3) whether said proposed amendment should be rejected. All such written data, views, or arguments must be received through the mail or otherwise at the office of the Secretary, Federal Home Loan Bank Board, Federal Home Loan Bank Board Building, 101 Indiana Avenue NW., Washington 25, D.C., not later than June 4, 1963, to be entitled to be considered, but any received later may be considered in the discretion of the Federal Home Loan Bank Board.

By the Federal Home Loan Bank Board.

[SEAL] HARRY W. CAULSEN,
Secretary.

FEDERAL MARITIME COMMISSION

[46 CFR Part 536]

[Foreign Tariff Circular 1; Docket No. 964]

FILING OF TARIFFS BY COMMON CARRIERS BY WATER IN FOREIGN COMMERCE OF THE UNITED STATES AND BY CONFERENCES OF SUCH CARRIERS

Notice of Proposed Rule Making

On December 23, 1961, the Federal Maritime Commission gave notice by publication in the FEDERAL REGISTER (26 F.R. 12294) that, in accordance with the provisions of section 4 of the Administrative Procedure Act and sections 18(b) and 43 of the Shipping Act, 1916 (75 Stat. 764; 75 Stat. 766), it was considering promulgation of regulations covering the filing of tariffs by common carriers by water in the foreign commerce of the United States and by conferences of such carriers. Having given due consideration to the comments of interested

persons filed in response to said notice, the Federal Maritime Commission hereby gives notice that it is considering the promulgation of final rules in this matter as set forth hereafter.

Interested parties may participate in this proposed rule-making proceeding by submitting an original and 15 copies of written statements, data, views, or arguments pertaining thereto, to the Secretary, Federal Maritime Commission, Washington 25, D.C. All relevant matters and communications must be submitted for consideration by the Commission by the close of business on June 7, 1963.

By order of the Federal Maritime Commission April 25, 1963.

THOMAS LISI,
Secretary.

Preamble. Section 18(b) of the Shipping Act, 1916, requires every common carrier by water in foreign commerce and every conference of such carriers to file with the Federal Maritime Commission, and keep open to public inspection tariffs showing all their rates and charges for transportation to and from United States ports and foreign ports between points on its own routes and on any through route which is established. It is further required that such tariffs shall plainly show the places between which freight will be carried, and shall contain the classification of freight in force, and shall also state separately such terminal or other charge, privilege, or facility under the control of the carrier or conference which is granted or allowed, and any rules or regulations which in anywise change, affect, or determine any part or the aggregate of such aforesaid rates, or charges, and shall include specimens of any bill of lading, contract of affreightment or other document evidencing the transportation agreement. Copies of such tariffs shall be made available to any person, and a reasonable charge may be made therefor.

All tariffs and modifications thereof which are filed subject to section 18(b) of the Shipping Act, 1916, shall, on and after the effective date of this circular, conform to the rules contained herein. The requirements of that section and these rules are not applicable to cargo loaded and carried in bulk without mark or count.

A common carrier by water in foreign commerce may comply with the tariff filing requirements of section 18(b) of the Shipping Act, 1916, and with this tariff circular by filing its own individual tariffs, or by participating in a conference tariff filed pursuant to authorization contained in an agreement approved by the Federal Maritime Commission under section 15 of the Shipping Act, 1916.

Sec.
536.0 Definitions.
536.1 Filing of tariffs—general.
536.2 Form and preparation of tariffs.
536.3 Contents of tariffs.
536.4 Statement of rates.
536.5 Amendments to tariffs.
536.6 Supplements.

Sec.	
536.7	Application for special permission.
536.8	Statement of terminal or other charges.
536.9	Other governing tariffs.
536.10	Transfer of operations; changes in name and control; changes in conference membership.
536.11	Delegation of authority to file tariffs.
536.12	Effective date of this part and time limit within which tariff format must comply therewith.

AUTHORITY: §§ 536.0 to 536.12 issued under 75 Stat. 764, 766.

§ 536.0 Definitions.

The following definitions of terms used in this part shall apply unless the context indicates otherwise.

Act. The term "Act" means the Shipping Act, 1916, as amended.

Carrier. The term "carrier" means a common carrier by water in foreign commerce of the United States as defined in section 1 of the Shipping Act, 1916.

Class rate. The term "class rate" means rates applicable to all articles which have been grouped according to class ratings set forth in a classification tariff or a classification section of a commodity tariff.

Commission. The term "Commission" means the Federal Maritime Commission.

Commodity rates. The term "commodity rates" means rates applying on a commodity or on commodities specifically named or described in the tariff in which the rate or rates are published.

Conference. For the purposes of this part only, the term "conference" means any association of common carriers by water, in the foreign commerce of the United States, which is permitted, pursuant to an agreement approved by the Commission under section 15 of the Shipping Act, 1916, to file a tariff, for the common carriers who are members of the approved conference.

Dual rates. The term "dual rates" means the two rates offered by a carrier or conference of such carriers in the foreign commerce of the United States, the lower rate applicable to a shipper or consignee who agrees to give all or any fixed portion of his patronage to such carrier or conference, and the higher rate applicable to shippers or consignees who have not so agreed.

Local rates. The term "local rates" means rates or charges for transportation over the route of an individual water carrier (or participating carrier in conference tariffs) which is not conditioned upon any prior or subsequent movement of the cargo, or the point of origin or ultimate destination thereof.

Open rate. The term "open rate" applies when a conference relinquishes or suspends rate making authority, in whole or in part, over a specified commodity or commodities, thereby permitting each individual carrier member of the conference to fix its own rates on such commodity or commodities.

Person. The term "person" includes individuals, firms, partnerships, corporations, companies, associations, joint stock associations, trustees, receivers, assignees, or personal representatives.

Proportional rates. The term "proportional rates" means water transpor-

tation rates or charges of a carrier applicable to cargo originating at or destined to points beyond the ports between which such rates or charges apply.

Tariff. The term "tariff" means a publication containing the actual rates, charges, classifications, rules, regulations, and practices of a carrier or conference of carriers for transportation by water.

Tariff filing. The term "tariff filing" means any tariff, or modification thereto, which is received by the Commission as filed pursuant to this part.

§ 536.1 Filing of tariffs—general.

(a) Where used in this part, the words "filing", "filed" or "file" when used with respect to time of filing with the Commission shall mean actual receipt by the Federal Maritime Commission at its offices in Washington, D.C., United States of America.

(b) All tariffs shall be published and filed by an officer or employee of the carrier, or if a conference tariff, by an officer or employee of the conference. In the alternative publication and filing may be accomplished through an agent authorized to act for such carrier or conference as provided in § 536.11.

(c) No carrier shall publish and file any tariff or modification thereto which duplicates or conflicts with any other tariff on file with the Commission to which such carrier is a party whether filed by such carrier or by an authorized agent.

(d) All tariffs published in a foreign language shall be accompanied, when submitted for filing with the Commission, by two true copies translated into the English language.

(e) All tariffs filed with the Commission except temporary filings as permitted hereafter in § 536.5(c) (1) shall be accompanied by a letter of transmittal in duplicate which shall clearly identify the tariff and pages involved. The duplicate letter of transmittal will be stamped with the date of receipt by the Commission and returned to the sender.

(f) All tariffs, except as hereafter provided, shall be filed in duplicate. Temporary filings made by mail, as permitted in § 536.5(c) (1) shall be filed in duplicate. Temporary filings made by telegraph or cable, as hereafter provided in § 536.5(c) (1) are not subject to the duplicate filing requirements of this section.

(g) No tariff filing will be accepted by the Commission unless it is delivered to it free from all charges, including claims for postage. Tariffs sent for filing shall be addressed to:

Federal Maritime Commission,
Washington 25, D.C.

(h) Each carrier shall keep open for public inspection all tariffs published by it or to which it is a party in the foreign commerce of the United States.

(i) Where carriers are participants in a conference tariff this does not relieve such individual carriers from the necessity of complying with the Commission's regulations and the requirements of section 18(b) of the Act with regard to keeping tariffs open for public inspection.

(j) The obligation of a common carrier to file tariffs pursuant to section 18(b) of the Act, and these rules must be carried out by each such carrier filing its own tariff or tariffs or by being a participating carrier in a conference as defined in this tariff circular. No carrier or conference may be shown as a participant in a tariff filed by another carrier or conference where such participation has not been approved by the Commission pursuant to section 15 of the Act.

(k) Any tariff submitted for filing, which fails to conform with section 18(b) of the Act or with the provisions of this part, is subject to rejection by the Commission and, upon rejection will be void and its use unlawful. Rejection will be accomplished as hereafter set forth in § 536.5(c) (2).

(l) Copies of all tariffs, subsequent revisions and changes thereto on file with the Commission and in effect shall be made available by carriers and conferences to any person and a reasonable charge may be made therefor.

(m) Any new or initial tariff shall be published and filed with the Commission to become effective not earlier than 30 days after such publication and filing with the Commission, unless special permission to become effective on less than said 30 days has been granted by the Commission pursuant to § 536.7.

§ 536.2 Form and preparation of tariffs.

(a) All tariffs which are filed and kept open to public inspection shall be clear and legible and shall be plainly printed, mimeographed, multilithed, or prepared by other similar permanent process on durable paper of good quality.

(b) No alteration in writing or erasure shall be made in any tariff publication.

(c) Sufficient marginal space of approximately an inch shall, to the extent possible, be allowed at the left side of each tariff to permit insertion in tariff binders.

(d) Tariffs shall be in loose-leaf form and, to the extent possible, shall be on pages approximately 8½ by 11 inches. If other than a loose-leaf tariff is to be filed, application for permission to make such filing shall be made to the Commission. If permission to file other than a loose-leaf tariff is granted by the Commission, such permission will set forth the form and manner of filing the tariff and any amendments or supplements thereto.

(e) Tariff pages shall be printed on one side only, and shall be numbered in the upper right-hand corner and designated as "Original Page 1", "Original Page 2", etc. Each page must show the name of the carrier or conference for whose account the tariff is issued, the effective date, the page number, and the FMC number of the tariff.

§ 536.3 Contents of tariffs.

(a) The first page of every tariff shall be a title page and, should be printed on paper heavier than that used in the body of the tariff. The title page shall contain the following information:

(1) The name of the carrier or conference for whose account such tariff is issued.

(2) An FMC tariff number assigned by the carrier or conference. For example:

"Smith Line Tariff FMC-1".

Each tariff issued by a carrier or conference shall be assigned the next higher FMC number not previously used. In the case of an initial tariff filed pursuant to section 18(b) of the Act the first tariff shall be assigned tariff number FMC-1. Each other tariff thereafter issued by the carrier or conference shall be assigned a different FMC number in consecutive order. Under the FMC tariff number shall be shown the FMC tariff number or numbers of any tariff or tariffs canceled by the issuance of such tariff. For example:

"Smith Line Tariff FMC-14, Cancels Smith Line Tariff FMC-5 and Smith Line Tariff FMC-9".

or
"Smith Line Tariff FMC-14, Cancels Smith Line Tariff FMC-12".

It shall not be necessary for a carrier or conference to reissue a tariff, or any portion thereof, immediately on the effective date of this part solely for the purpose of assigning the proper FMC number of such tariff as required by this section. It will be sufficient for each carrier and conference to file with the Commission an Adoption Notice to each tariff on file with the Commission assigning to such tariff the new FMC number. Thereafter, each modification filed to such tariff shall bear the proper FMC number on each page. However, within one year after the effective date of this part all tariffs on file with the Commission must have been properly reissued with the FMC number required by this part.

(3) When an individual carrier, partnership, or joint service operates under a trade name, the individual name or names shall be shown as well as the trade name, or reference may be made to an internal tariff page where this information is shown.

(4) (i) A list of the ports covered by the tariff, or reference to an internal tariff page where such ports are listed. In lieu of such listings of ports, a statement of the range or ports served will be accepted, provided all ports within the stated range are served. If there are any limitations as to calls at any ports within the range specified in the tariff the limitations and identifications of the ports to which such limitation applies shall be set forth.

(ii) Whenever tariff application is shown by identification of a range of ports in lieu of listing of ports, such range of ports must be within a geographical area generally served by the carrier or carriers participating in the tariff.

(5) A statement showing the type of rates contained in the tariff. For example, local, proportional, class, commodity, etc. Where a carrier or conference tariff includes contract rates, as permitted by § 536.4(m) the title page shall state that such rates are included.

(6) A reference to other publications which in any manner govern the tariff. This shall be accomplished by naming

such governing publications on the title page, or by reference on the title page to an internal tariff page identifying such governing publications.

(7) The date on which the tariff will become effective. Every tariff in which any provision is to become effective upon a date different from the general effective date of such tariff, shall so indicate in substantially the following form:

Effective: ----- (except as otherwise herein provided) or (except as provided in Item -----) or (except as provided on Page -----).

(8) The name, title and address of the person issuing the tariff or if the carrier or conference has authorized an agent other than an official thereof to file a tariff with the Commission as authorized in § 536.11, the name, title and address of such filing agent.

(9) An expiration date, if the entire tariff publication is to expire on a specified date.

(10) The name of all participating carriers in the tariff, if more than one such carrier participates. In lieu of listing the names of all such participating carriers, the title page may refer to an internal page on which are listed the names of all participating carriers.

(b) All pages after the title page shall be numbered beginning with Original Page 1. Each page as thereafter revised shall be a consecutively numbered revision of the same page. For example:

The 7th page in a tariff as originally filed would be titled Original Page 7. The first revision of this Page 7 would be titled First Revised Page 7, cancels Original Page 7. See § 536.5(b)(3).

The body of the tariff shall contain the following:

(1) The full name of each participating carrier with address of the principal office, if not shown on the title page.

(2) The trade name as well as the operating carriers' name, if not shown on the title page.

(3) A list of the ports or range of ports to and from which the tariff rates apply, if not shown on the title page. See § 536.3(a)(4).

(4) A statement indicating the extent of any limitation or restriction, if the application of any of the rates, charges, rules or regulations stated in the tariff are restricted to any particular port, pier, etc., or otherwise limited.

(5) A complete index alphabetically arranged for commodities for which rates in the tariff are named, together with a reference to each item or page where a particular article is shown, provided, however, if all commodities covered in the tariff are alphabetically arranged such index is not required. All articles generic to different species of the same commodity should be grouped together. For example:

Paper, Building; Paper, Printing; Paper, Wrapping

Such index may be omitted where rates on less than 25 commodities are included in the tariff.

(6) A full explanation of any symbols, reference marks or abbreviations used in the tariff. If such explanation does not

appear on the page where the reference marks or symbols are used, such page shall refer to the page in the tariff where the explanation is given. The symbols shown in § 536.5(b)(2) shall be used only for the purpose indicated therein.

(7) If a tariff is in any manner governed by other publications as may be permitted herein, the tariff shall contain a reference thereto substantially in the following form:

This tariff is governed, except as otherwise provided herein, by Bill of Lading Tariff FMC No. -----, (or by Rules Tariff FMC No. -----), etc.

Where such reference is fully made on the title page, reference in the tariff elsewhere is unnecessary. Governing publications must be on file with the Federal Maritime Commission.

(8) All rates applicable to the transportation of the articles or classes of articles on which rates are named in the tariff. Rates shall be set forth as required by § 536.4.

(9) Rules and regulations which in anywise affect the application of the tariff. Rules and regulations shall be governed by the following requirements:

(i) The rules shall include specimens of any bill of lading, contract of affreightment or other document evidencing the transportation agreement, unless a separate bill of lading tariff is on file with the Commission as permitted in § 536.9(a).

(ii) Where a rule affects only a particular item or rate, such item or rate must specifically refer to such rule.

(iii) Each rule or regulation shall be numbered.

(iv) No rate tariff shall require reference to any other rate tariff for determination of an applicable rate.

(v) Where a carrier or conference uses a contract rate system the tariff shall fully and clearly explain the application of the contract rate system, and shall include a true copy of the approved shipper contract.

(vi) Where a conference opens rates as permitted in § 536.4 (o) and (p) the tariff shall fully and clearly explain the extent to which rates have been opened. Any restriction or limitation on the right of participating carriers to fix their own rates on open rate items, and the extent to which applicable rules and regulations of the conference tariff will continue to govern the rates filed by each individual line, shall be stated.

(vii) Where it is not desirable or practicable to include the governing rules or regulations, or specimens of the bill of lading or other contract of affreightment in a rate tariff, such rules and regulations or bill of lading may be published and filed in separate tariffs, provided special reference is made in the rate tariff to such separate governing publication as required in § 536.9(a).

(viii) Tariffs which contain rates for the transport of explosives, inflammables, corrosive material, or other dangerous articles, shall contain the rules and regulations of the carrier or conference governing the transportation of such articles, or shall bear reference to a

separate publication which contains such rates and regulations.

(ix) Tariffs shall clearly state all of the services provided to the shipper and included in the transportation rates set forth therein.

§ 536.4 Statement of rates.

(a) The application of all rates shall be clear and definite and explicitly stated per 100 pounds, per cubic foot, per ton of 2,000 pounds, per ton of 2,240 pounds, or some clearly defined unit.

(b) All rates shall be arranged in a simple and systematic manner.

(c) Commodities on which rates are stated shall be listed in alphabetical order and each commodity or commodity grouping shall be given a separate item or commodity number.

(d) Where rates are stated in amounts per package, the term package must be defined. Method of packing with specifications showing size, measurement or weight of the packages on which such rate applies shall be shown.

(e) Where rates vary depending upon whether cargo is packed, crated, palletized, bundled, strapped, loose, or otherwise prepared or delivered for shipment, there shall be a statement clearly and specifically governing the application of such rates.

(f) Where rates from or to designated ports are determined by the addition or deduction of arbitraries or differentials to or from rates applicable at other ports, such application shall be clearly shown.

(g) A commodity item may, by use of a generic term, provide rates on a number of articles without naming such articles, provided such term contains reference to an item in the tariff which clearly defines the type of commodities contained in such generic term or which contains a complete list of such articles, or contains reference to the FMC number of a separate tariff containing such definition or list of such articles.

Example:
Packing house products, as described in Item ----- or Packing house products, as described under heading "Packing house products" in FMC No. -----, or successive issues thereof.

(h) A separate tariff, not containing rates, may be filed by a carrier or conference showing a list of the commodities on which rates published by reference to generic terms will apply, and rate tariffs shall be made subject thereto as provided above.

(i) When commodity rates are established, the description of the commodity must be specific and the rates thereon may not be applied to analogous articles.

(j) The rate section of a tariff may contain a rate applicable to all commodities, or all commodities of a class, on which specific commodity rates are not stated in the tariff, to be called Cargo, N.O.S. (Not Otherwise Specified), General Cargo, or other identifying name.

(k) A tariff naming rates on a group of related commodities, shall contain all of the rates on the same commodity or commodities published to apply for the

same carriers from and to the same ports.

(l) Publication of rates which duplicate or conflict with the rates published in the same or any other tariff is not permissible, and, except as otherwise authorized in these rules, the publication of a statement in a tariff to the effect that the rates published therein take precedence over the rates published in some other tariff, or that the rates published in some other tariff take precedence over or alternate with the rates published therein, is prohibited.

(m) Where a conference or carrier uses a dual rate system approved by the Federal Maritime Commission and states in its tariff two rates pursuant to such system, each commodity item in the tariff subject to dual rates may state in two columns identified as "Contract Rates" and "Noncontract Rates" the two rates applicable under the dual rate system. If separate contract and noncontract rates are not shown for each commodity, there shall be a rule which clearly states the manner of determining contract and noncontract rates.

(n) Where a carrier or conference tariff employs a single uniform percentage spread between contract and noncontract rates, the rates shown in the tariff may be either the contract rates or the noncontract rates, and an appropriate rule shall provide that the rates applicable to the noncontract or contract shipper shall be a stated percent higher or lower than the published contract or noncontract rates. Where the actual contract rates are not shown on each item, each page publishing a rate or rates on dual rated items shall make specific reference to such rule.

(o) Where a conference opens any or all rates, each tariff item so opened shall be amended to indicate the word "open" in place of the previous stated rate, and shall indicate a reference to a published rule in the tariff governing the application of open rates.

(p) Where a conference opens rates pursuant to paragraph (o) of this section, for an individual conference member to then charge rates on such an item, there must be on file with the Commission the individual member's proper tariff rate covering such item as required by this part. This may be accomplished by each individual carrier filing a complete tariff pursuant to this part, or by the official or tariff agent of the conference, or the carrier, filing as a separate supplement at the end of the conference tariff a page or pages indicating the rates which will be charged by each individual carrier, and the governing rules and provisions of the conference tariff which will apply to each carrier.

(q) If only a portion of particular rates or other provisions will expire with a specified date, a notation to that effect shall clearly be shown in connection with such item.

§ 536.5 Amendments to tariffs.

(a) *General.* (1) All changes in, additions to, or deletions from a tariff shall be known as amendments. All amendments to tariffs shall be in permanent form as set forth in this section.

(2) Amendments which provide for new or initial rates, or amendments which provide for changes in rates, charges, rules or other provisions resulting in an increase in cost to the shipper shall be published and filed with the Commission to become effective not earlier than 30 days after the publication and filing with the Commission, unless Special Permission to become effective on less than said 30 days notice has been granted by the Commission pursuant to § 536.7.

(3) Amendments which provide for changes in rates, charges, rules, regulations, or other provisions resulting in a decrease in cost to the shipper, or amendments which result in no change in cost to the shipper may become effective upon the publication and filing with the Commission.

(4) An amendment containing a rate on a specific commodity not previously named in a tariff is a reduction or no change in cost to the shipper and may become effective upon publication and filing with the Commission, provided that the tariff contains a Cargo, N.O.S. rate or similar general cargo rate, which rate would otherwise be applicable to the specific commodity, and further provided that the specific commodity rate is equal to or lower than the previously applicable Cargo, N.O.S. rate or general cargo rate.

(5) An amendment which provides for the elimination of a specific commodity and rate applicable thereto from a tariff, thereby resulting in the application of a higher Cargo, N.O.S. rate, or general cargo rate, is a rate increase and shall be published and filed with the Commission to become effective not earlier than 30 days after the date of publication and filing with the Commission in the absence of Special Permission for an earlier effective date pursuant to § 536.7.

(b) *Permanent tariff amendments.* (1) Amendments to loose-leaf tariffs shall be made by reprinting the page upon which such amendments are made. Such page shall be designated in the upper right hand corner as a revised page. For example:

"First Revised Page 1"
or
"Fifth Revised Page 21".

(2) The revised page filed to accomplish a tariff amendment shall reprint the page to be replaced in its entirety, changing only the matter on the page which is modified. Changes made in existing rates, charges, classifications, rule or other provisions shall be indicated by the following uniform symbols:

- ↓ or (R) to denote reduction.
- ◇ or (A) to denote increase.
- ▲ or (C) to denote changes in wording which result in neither increase nor reduction in charges.
- or (E) to denote an exception to a general change.
- or (N) to denote reissued matter.
- × or (I) new or initial matter.

An explanation of such symbols shall be set forth in the tariff as required by § 536.3(b)(6).

(3) Each revised page filed to accomplish a tariff amendment shall cancel

the previously issued page of that number upon which the change is made. Immediately under the designation of the new revised page number shall be indicated the previous page which is being canceled. For example:

"First Revised Page 1
cancels
Original Page 1"
or
"Fifth Revised Page 21
cancels
Fourth Revised Page 21"

All matter on the page to be canceled which is not being changed shall be reissued on the revised page as it was in the page being canceled.

(4) When a change of the same character is made in all, or in substantially all, rates in a tariff or supplement, or a page thereof, that fact and the nature of such change shall be indicated in distinctive type at the top of the title page of such issue, or at the top of each revised page, in the following manner:

"All rates in this issue are increases"; or
"All rates on this page are reductions"; or
there may be added, when appropriate, "except as otherwise provided in connection with particular rates."

In complying with this subparagraph, a bold-faced dot "●" or "(E)" shall be used to symbolize a rate or other provision in which no change has been made and the proper symbol shall be used for the purpose of denoting any other change not indicated by the general statement referred to above.

(5) Each revised page to accomplish a tariff modification shall, in the lower right hand corner of the page, state the effective date of the changes made on that page. Such effective date shall be subject to the requirements of section 18(b) of the Act and of this section. Revised pages may, if desired, also show an issue date.

(6) When a revised page canceling a previous page omits any matter contained in the previous page, if such omission effects changes in rates or charges, the omission shall be indicated and that fact shall be shown by the use of the uniform symbols prescribed above.

(7) Every tariff amendment which accomplishes changes in the tariff upon less than statutory notice pursuant to special permission granted by the Commission, shall show in connection with such change a notation as provided for in § 536.7.

(8) Increased rates brought forward without change, prior to becoming effective, from a tariff page which has not been in effect 30 days shall be designated "reissued", and shall show the original effective date.

(9) If, on account of expansion of matter on any page, it becomes necessary to add an additional page in order to take care of the additional matter, such additional page (except when it follows the final page) shall be given the same number as the previous page with a letter suffix. For example:

"Original Page 4-A", "Original Page 4-B", etc.

If it is necessary to change matter on Original Page 4-A, it may be done by

issuing First Revised Page 4-A, which shall indicate the cancellation of Original Page 4-A.

(10) When a revised page is issued which omits rates, rules, or other provisions previously published on the page which it cancels, and such rates, rules, or provisions are published on a different page, the revised page shall make specific reference to the page on which the rates, rules or provisions will be found, and the page to which reference is made shall contain the following notation in connection with such rates, rules or other provisions, etc.

"For (here insert rates, rules, other provisions, etc., as case may be) in effect prior to the effective date hereof see page -----"

Subsequently revised pages of the same number shall omit this notation insofar as this particular matter is concerned.

(11) The following method shall be used in identifying and checking revised pages filed for the purpose of amending tariffs: When the original tariff is filed, the page next to the title page shall be designated a "check sheet". The check sheet shall contain correction numbers which shall be in consecutive numerical order beginning with the number one (1), with a blank space provided with each correction number. A correction number shall be placed in the lower left-hand corner of each revised page. When such correction is received this will provide a cross reference and a permanent record of all corrections made to the original tariff and a method of determining the current applicable revised pages.

(c) *Temporary tariff amendments.*

(1) In order to facilitate the filing of rate changes as quickly as possible, without the delay necessitated by preparation and filing of permanent revised pages as required above, temporary filings will be permitted subject to the following conditions:

(i) Temporary filings may be made by telegram or cable, or by mailing to the Commission letters, rate advices, rate circulars, rate advances, etc. Such temporary filings must contain the following information:

(a) The identification of the carrier or conference.

(b) Identification of the tariff being amended.

(c) Identification of the commodity number or item of the commodity on which a rate is being changed.

(d) An exact description of the commodity on which a rate is being changed.

(e) The previously issued page upon which the item being changed is contained.

(f) The new rate to be filed.

(g) The effective date of the rate change.

(h) A statement that this is a rate increase, decrease, or a new or initial filing.

(ii) If the temporary filing is pursuant to special permission authority which has been granted, reference must be made to the special permission number.

(iii) Temporary amendments received by the Commission for filing cannot be withdrawn or rescinded in any manner.

(iv) Any carrier or conference making a temporary filing shall at the same time

furnish all subscribers to the tariff all the information furnished to the Commission as required in subdivision (i) of this subparagraph.

(v) All temporary filings permitted by this section must be followed by the permanent filing of a revised page to accomplish tariff changes as required by this section. Such permanent modifications to take the place of the temporary filing must be received by the Commission within 15 days after receipt of the temporary filing for carriers or conferences making such filing from within the continental United States, and within 30 days after receipt of such temporary filing when the carrier or conference is located outside the continental United States.

(vi) Even if the temporary filing is rejected, the permanent filing must be made, and will be marked rejected.

(vii) In the event a carrier or conference which has filed a rate change by temporary filing as permitted by this section should fail to properly file the permanent tariff modification to take the place of such temporary filing in the form and within the time limit above provided, a warning letter or collect telegram shall be sent to such carrier or conference. Immediate steps shall be taken by the carrier or conference to properly file the followup permanent filing. If a carrier or conference fails to correct such delinquent permanent filing after one warning, or if a carrier or conference after correction of one such delinquent filing, should fail a second time to file a permanent tariff modification to take the place of a temporary filing within the time limits provided, the Commission shall notify such carrier or conference that it no longer has the privilege of making rate changes by temporary filing as permitted in this section and thereafter, until further notice from the Commission, such carrier or conference may make tariff amendments only by filing of permanent tariff modifications as set forth in this section.

(2) Any amendment or other tariff publication submitted for filing which fails to conform with section 18(b) of the Act or with the provisions of this part, is subject to rejection. When an amendment or other tariff publication is rejected, the Commission, acting through a designated administrative officer, will inform the carrier, conferences, or agent tendering such amendment or other tariff publication for filing, by telegram, cablegram, or letter, of such rejection.

(i) Upon receipt of notice of a rejection, the carrier, conference, or agent shall immediately remove such rejected tariff amendment or other publication from the effective tariff, and shall immediately notify all subscribers to such tariff that the rejected amendment or other tariff publication is void.

(ii) The number assigned to an amendment or other tariff publication which has been rejected may not again be used. The rejected amendment or other tariff publication may not be referred to in any subsequent amendment or other tariff publication in any manner whatsoever, except that a notation shall

appear on the new amendment or other tariff publication issued to replace that which has been rejected, reading substantially in accordance with the following example:

"6th Revised Page No. 8

(Issued in lieu of 5th Revised Page No. 8 rejected by the Federal Maritime Commission)

Cancels 4th Revised Page No. 8"

§ 536.6 Supplements.

(a) Supplements to tariffs may be filed to accomplish the following:

(1) To cancel a tariff in whole or in part.

(2) To provide for a general rate decrease applicable to all, or substantially all, of the commodities listed in a tariff.

(3) To provide for a general rate increase applicable to all, or substantially all, of the commodities listed in a tariff.

(4) To indicate seasonal discontinuance or temporary suspension or reinstatement of service covered by a tariff.

When supplements are filed as provided for in subparagraphs (2) and (3) of this section, and the rate increase or decrease is not applicable to all commodities, a notation shall appear on the supplement in one of the following forms:

"The general rate increase (decrease) provided for on this page applies to all commodities stated herein except the following:" (Here list the excepted commodities or commodity item numbers.)

or

"The general rate increase (decrease) provided for on this page applies to all commodities stated herein except those noted on page —."

(b) Supplements for other purposes may be filed after a grant of special permission for such filing by the Commission.

(c) Additional supplements to other than loose-leaf tariffs shall be filed as set forth in any special permission granted by the Commission pursuant to §§ 536.2(d) and 536.7.

(d) Supplements shall be numbered consecutively on the upper right-hand corner of each page as follows:

"Supplement No. 1 to FMC Tariff No. —."

§ 536.7 Application for special permission.

(a) Section 18(b) of the Act authorizes the Commission, in its discretion and for good cause shown, to permit increases in rates or issuance of new or initial rates on less than statutory notice. The Commission may also in its discretion and for good cause shown permit departure from these regulations. The Commission will grant such permissions only in cases where real merit is shown. Where correction of clerical or typographical errors results in a rate increase, section 18(b) of the Act requires such correction to become effective not earlier than 30 days after filing with the Commission. Clerical or typographical errors will be considered to constitute good cause for the exercise of this authority, but every application based

thereon must plainly specify the error, together with a full statement of the attending circumstances and must be presented with reasonable promptness after issuance of the defective tariff publication.

(b) Application for special permission to establish increase in rates on less than statutory notice, or for waiver of the provisions of this part must be made by the carrier, conference, or agent that holds authorization to file the proposed publication.

(c) Application for special permission shall be made by cable, telegram, or letter. In an emergency situation special permission applications may be made by telephone provided that such application is promptly followed by cable, telegram or letter.

(d) If the authority granted by special permission is used, it must be used in its entirety and in the manner set forth in such special permission. If it is not desired to use all of the authority granted and less or more extensive or different authority is desired, a new application complying with the provisions of this section in all respects and referring to the previous permission must be filed.

(e) Application for special permission shall contain the following information:

(1) The name of the conference or carrier in whose name the special permission is requested.

(2) Identification of the specific tariff involved.

(3) The rate, commodity, rule, item, etc. (related to the application), and the special circumstances which the applicant believes to constitute good cause to make a tariff change on less than the statutory period required in section 18 (b) of the Act.

(f) Every tariff filed pursuant to a special permission granted by the Commission shall contain a notation to such effect in the following form:

"Issued under authority of the Federal Maritime Commission Special Permission No. F (here fill in assigned number)".

§ 536.8 Statement of terminal or other charges.

(a) Every tariff filed pursuant to this part shall state separately any terminal or other charge, privilege, or facility under the control of the carrier or conference which is granted or allowed.

(b) Wherever a tariff includes charges for terminal services, canal tolls or other additional charges not under the control of the carrier or conference, which merely acts as a collection agent for the charges, and the agency making such charges to the carrier increases the charges without notice to the carrier or conference, such charges may be increased in the carrier or conference tariff without being subject to the 30-day advanced filing requirement of this part.

§ 536.9 Other governing tariffs.

(a) If it is not desirable or practicable to include governing rules of a tariff, as required by § 536.3(b) (9), or bills of lading or contracts of affreightment as required by § 536.3(b) (9) (i), in the gen-

eral rate tariff, these may be separately filed and published in a rules tariff and/or bill of lading tariff. When rules, regulations, bills of lading or other governing provisions are thus separately published, rate tariffs shall be made subject thereto by specific FMC reference in the rate tariff as follows:

"Governed, except as otherwise provided herein by (rules or regulations) (bills of lading) shown in tariff FMC No. ———."

(b) Tariffs naming rates for the transportation of explosives, inflammables, or corrosive material, or other dangerous articles, shall contain as required by § 536.3(b) (9) (viii), the rules and regulations issued by the carrier or conferences governing the transportation of such articles, or shall if possible, bear reference to a separate publication where such regulations are available to the general public.

§ 536.10 Transfer of operations; changes in name and control; changes in conference membership.

(a) Whenever the name of a common carrier having an individual tariff on file with the Federal Maritime Commission is changed, or its operating control is transferred to another common carrier, the carrier which will thereafter operate the service shall make appropriate tariff filings to indicate the change in name. Subsequent filings to such tariff shall indicate the new name of the carrier involved.

(b) Wherever the name of a carrier who participates in a conference is changed, the conference shall file an appropriate amendment to the tariff to indicate the change in name to the new carrier.

(c) Whenever a new carrier becomes a participant in a conference tariff and the rates published in the conference tariff are equal to or lower than the new carrier's previously filed rates, cancellation of the new carrier's tariff and publication of a revised participating carriers page in the conference tariff may become effective upon filing with the Commission. However, where such participation of new carrier in a conference tariff results in higher rates being charged by the new carrier than previously stated in its individual tariff such participation and cancellation of the previous individual tariff shall not become effective earlier than 30 days after the date of filing with the Commission unless special permission is granted to file on less than such period of time pursuant to § 536.7.

§ 536.11 Delegation of authority to file tariffs.

(a) A carrier or conference may grant authority to a person, not an official or employee of such carrier or conference, as agent to act for such carrier or conference in the issuance of all its tariffs, or any particular tariff. Whenever there is such delegation of authority by a carrier or conference, there shall be filed with the Commission a statement indicating the appointment of such agent and setting forth the exact limits of the authority of such appointed agent.

PROPOSED RULE MAKING

§ 536.12 Effective date of this part and time limit within which tariff format must comply therewith.

This part shall become effective on _____, and any tariff filing made (Date)

after said date must comply in all respects with this part. Any tariffs lawfully filed with the Commission and in effect as of _____, need not be reissued on that date solely for the purpose of conforming to the format requirements of this part. Within one year from said date all such tariffs on file with the Commission must be modified to conform in all respects with this part.

DEPARTMENT OF DEFENSE

Department of the Navy

[No. 22c]

CERTAIN CLASSES AND TYPES OF NAVAL VESSELS

Navigational Light Waivers

Whereas, 33 United States Code, sections 143a and 360, provides that the requirements of the Regulations for Preventing Collision at Sea, 1948, the Inland Rules, the Great Lakes Rules and the Western River Rules as to the number, position, range of visibility, or arc of visibility of lights required to be displayed by vessels shall not apply to any vessel of the Navy where the Secretary of the Navy shall find or certify that, by reason of special construction, it is not possible for such vessel or class of vessels to comply with the statutory provisions as to navigation lights, and

Whereas, a recent study indicates that the military design characteristics of the command ship, known as the CC-2 class of vessels converted from an aircraft carrier preclude the installation of the masthead, range and towing lights in conformance with currently existing waivers as to masthead and range lights and with Rules 2a (ii) and (iii) and 3a of the Regulations for Preventing Collision at Sea (33 United States Code, sections 145 and 145a).

Now, therefore, I, Fred Korth, Secretary of the Navy, do hereby certify that command ships, of CC-2 class converted from aircraft carriers, are naval vessels of special construction and with respect to the position of masthead, range and towing lights on such vessels, it is not possible to comply with the requirements of the statutes enumerated in sections 143a and 360, Title 33, United States Code.

Further, I do find that it is feasible to locate the said navigation lights as follows:

(a) The masthead light shall be carried at a height of 15 feet or more above the hull.

(b) The ratio of the horizontal to the vertical distance between the masthead light and the range light shall be 2.0 or greater to 1; however, the horizontal distance between the forward and after 20 point white lights shall be 30 feet or greater.

(c) The towing lights will meet the requirements for vertical separation; however, the lower light will be located from three to nine feet above the hull.

(d) The visibility of the range light will be obstructed for several degrees on the port side.

Further, I certify that such locations and installation constitute compliance as closely with the applicable statutes as I hereby find to be feasible.

I do specify that this waiver amends the consolidated tabulation of lights

described in Waiver Certificate No. 22 published in FEDERAL REGISTER, Volume 25, page 5791, 1960 by adding "CC2 (command ship converted from aircraft

carrier)" to those vessels described in Table One as Aircraft Carriers and adding in the succeeding columns applicable to such ships the following:

	1st column	2d column	3d column	4th column
CC2 command ships.....	25	None.....	2.0 or greater to 1.....	30 or greater.

Note 11 to follow Table 2 is attached to and is made a part of this waiver certificate.

I do specify further that the effective date of this certificate is May 1, 1963.

Dated at Washington, D.C., this 19th day of April 1963.

[SEAL]

FRED KORTH,
Secretary of the Navy.

11. On certain command ships (CC2 type converted from aircraft carrier hull), the following additional variations exist:

(a) Towing lights, when displayed, will meet the requirements for vertical separation; however, the lower light will be located 3-9 feet above the hull.

(b) 5 degrees of the arc of visibility of the range light is obstructed at a point commencing approximately 2½ points forward of the port beam.

(c) The number and position of the forward and after anchor lights is the same as other classes of aircraft carriers herein described in Note 3b and 3c attached to Waiver Certificate No. 22.

(d) The lights mentioned in Table One with respect to CC2 type ships are located on the center or keel line.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration PESTICIDE CHEMICALS NICKEL SULFATE AND MANEB

Notice of Extension of Temporary Tolerances

Notice is given that the Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), and under the authority delegated to him by the Secretary of Health, Education, and Welfare (25 F.R. 8625), has at the request of the Rohm and Haas Company, 222 West Washington Square, Philadelphia 5, Pennsylvania, extended a temporary tolerance of 45 parts per million for residues of the fungicide nickel sulfate (calculated as Ni) and a temporary tolerance of 2 parts per million for residues of the fungicide maneb in or on grain and straw of oats and wheat. Conditions under which these temporary tolerances are extended include the following:

1. The fungicides will not be marketed for general sale but will be supplied to

qualified persons as permitted in the experimental permit issued by the U.S. Department of Agriculture for bona fide experimental use.

2. The total amount of the finished product containing 19 percent anhydrous nickel sulfate and 53 percent maneb to be used under the experimental permit will not exceed 20,000 pounds.

These temporary tolerances expire April 6, 1964, or on the date of publication of tolerances under section 408(d) of the Federal Food, Drug, and Cosmetic Act, whichever occurs first.

Dated: April 29, 1963.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

CIVIL AERONAUTICS BOARD

[Docket No. 13777; Order No. E-19551]

TRAFFIC CONFERENCE 1 OF INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Relating to Specific Commodity Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 1st day of May 1963.

An agreement adopted by Traffic Conference 1 of the International Air Transport Association relating to specify commodity rates, Docket No. 13777, Agreement C.A.B. 16947 (R-11 and R-12).

There has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, an agreement between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA) and adopted pursuant to the provisions of Resolution 590 (Commodity Rates Board).

The agreement, adopted pursuant to unprotested notices to the carriers, names additional specific commodity rates, as follows:

Item 0006—Foodstuffs, Spices and Beverages, NES.

Rates: 40 cents per kilogram, minimum weight 100 kilograms, from Medellin to San Juan;

and

18 cents per kilogram, minimum weight 5,000 kilograms, from Caracas to New York.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find the subject agreement to be adverse to the public interest or in violation of the Act, provided that approval thereof is conditioned as hereinafter ordered.

Accordingly, it is ordered:

That Agreement C.A.B. 16947, R-11 and R-12, is approved, provided that such approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication.

Any air carrier party to the agreement, or any interested person, may, within 15 days from the date of service of this order, submit statements in writing containing reasons deemed appropriate, together with supporting data, in support of or in opposition to the Board's action herein. An original and nineteen copies of the statements should be filed with the Board's Docket Section. The Board may, upon consideration of any such statements filed, modify or rescind its action herein by subsequent order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

CIVIL SERVICE COMMISSION

POSITIONS FOR WHICH THERE IS DETERMINED TO BE A MANPOWER SHORTAGE

Notice of Listing

Under the provisions of Public Law 86-587, the Civil Service Commission has determined that there is a manpower shortage for the following:

Positions, Location, and Effective Date
Education Specialist (Training), GS-1710-13, requiring experience in reactor operation instruction; National Naval Medical Center, Bethesda, Md.; Feb. 15, 1963.
Soils Scientist, GS-470-13; Hanover, N.H.; Feb. 27, 1963.

If comparable positions which are not subject to the Classification Act exist, they are covered.

Travel and transportation expenses may be paid for appointees to their duty station for the positions as listed above.

Any such payments as a result of this determination must be made in accordance with travel regulations issued by the Bureau of the Budget.

UNITED STATES CIVIL SERVICE COMMISSION,
MARY V. WENZEL,
Executive Assistant to
the Commissioners.

ERNEST JOHN McDANIEL

Order To Show Cause

In the matter of Ernest John McDaniel, San Jose, California, Docket No. 15060; order to show cause why there should not be revoked the license for radio station K6CEN in the Amateur Radio Service.

The Commission, by the Chief, Safety and Special Radio Services Bureau, under delegated authority, having under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of the above-captioned station;

It appearing, that, pursuant to § 1.76 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee at his address of record as follows: Official Notice of Violation dated January 11, 1963, alleging violation of § 12.82(a)(1)(iii) of the Commission's rules.

It further appearing, that said licensee did not reply to such communication or to a follow-up letter dated February 25, 1963, also mailed to the licensee at his address of record; and

It further appearing, that, in view of the foregoing, the licensee has repeatedly violated § 1.76 of the Commission's rules:

It is ordered, This 29th day of April 1963, pursuant to section 312 (a) (4) and (c) of the Communications Act of 1934, as amended, and § 0.291(b) (8) of Part 0 of the Commission's rules, that the said licensee show cause why the license for the above-captioned radio station should not be revoked, and appear and give evidence in respect thereto at a hearing to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Acting Secretary send a copy of this order by Certified Mail—Return Receipt Requested to the said licensee at his last known address of 3409 New Jersey Avenue, San Jose, California.

Released: April 30, 1963.

FALLS CAB CO., INC.

Order To Show Cause

In the matter of Falls Cab Company, Inc., Idaho Falls, Idaho, Docket No. 15059; order to show cause why there should not be revoked the license for radio station KOA695 in the Taxicab Radio Service.

The Commission, by the Chief, Safety and Special Radio Services Bureau, under delegated authority, having under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of the above-captioned station;

It appearing, that, pursuant to § 1.76 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee at its address of record as follows: Official Notice of Violation dated November 7, 1962, alleging violations of §§ 16.160(a), 16.156(a), 16.154(a), 16.160(b), 16.104(b)(4) and 16.403(a) of the Commission's rules.

It further appearing, that said licensee did not reply to such communication or to a follow-up letter dated December 10, 1962, also mailed to the licensee at its address of record; and

It further appearing, that, in view of the foregoing, the licensee has repeatedly violated § 1.76 of the Commission's rules:

It is ordered, This 29th day of April 1963, pursuant to section 312 (a) (4) and (c) of the Communications Act of 1934, as amended, and § 0.291(b) (8) of Part 0 of the Commission's rules, that the said licensee show cause why the license for the above-captioned radio station should not be revoked, and appear and

give evidence in respect thereto at a hearing to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Acting Secretary send a copy of this order by Certified Mail—Return Receipt Requested to the said licensee at its last known address of 515 B Street, Idaho Falls, Idaho.

Released: April 30, 1963.

DONALD K. FISHER

Order To Show Cause

In the matter of Donald K. Fisher, Sherman Oaks, California, Docket No. 15061; order to show cause why there should not be revoked the license for radio station KEJ-1194 in the Citizens Radio Service.

The Commission, by the Chief, Safety and Special Radio Services Bureau, under delegated authority, having under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of the above-captioned station;

It appearing, that, pursuant to § 1.76 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee at his address of record as follows: Official Notice of Violation dated February 25, 1963, alleging violation of § 19.61 (e) of the Commission's rules.

It further appearing, that said licensee did not reply to such communication or to a follow-up letter dated March 22, 1963, also mailed to the licensee at his address of record; and

It further appearing, that, in view of the foregoing, the licensee has repeatedly violated § 1.76 of the Commission's rules:

It is ordered, This 30th day of April 1963, pursuant to section 312 (a) (4) and (c) of the Communications Act of 1934, as amended, and § 0.291(b) (8) of Part 0 of the Commission's rules, that the said licensee show cause why the license for the above-captioned radio station should not be revoked, and appear and give evidence in respect thereto at a hearing to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Acting Secretary send a copy of this order by Certified Mail—Return Receipt Requested to the said licensee at his last known address of 13753 1/4 Ventura Blvd., Sherman Oaks, California.

Released: April 30, 1963.

[Docket No. CP63-260]

AMERICAN LOUISIANA PIPE LINE CO.**Notice of Application and Date of Hearing**

APRIL 26, 1963.

Take notice that on March 20, 1963, American Louisiana Pipe Line Company (Applicant) of One Woodward Avenue, Detroit 26, Michigan, filed in Docket No. CP63-260 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction during the 12-month period following issuance of the proposed certificate and the operation of field facilities to enable Applicant to take into its certificated main pipeline system natural gas which will be purchased from producers thereof, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system new supplies of natural gas in various producing areas generally co-extensive with said system.

The total cost of the proposed facilities will not exceed \$2,000,000 and no single project will exceed a cost of \$500,000. The application states that the proposed facilities will be financed from cash generated from operations, and that it will not be necessary to undertake any new financing for this purpose.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 4, 1963, at 9:30 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant

to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 21, 1963. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.[F.R. Doc. 63-4768; Filed, May 3, 1963;
8:47 a.m.]

[Docket No. CP63-211]

EAST TENNESSEE NATURAL GAS CO.**Notice of Application and Date of Hearing**

APRIL 29, 1963.

Take notice that on January 21, 1963, as supplemented on March 6, 1963, East Tennessee Natural Gas Company with its principal place of business in Knoxville, Tennessee, filed pursuant to section 7(c) of the Natural Gas Act a "budget-type" application for a certificate of public convenience and necessity authorizing the construction and operation of routine transmission facilities including an unspecified number of metering and regulating stations and branch lines, during the remainder of the calendar year 1963 in order to make miscellaneous direct industrial interruptible sales of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the additional maximum daily volume of interruptible gas to be sold under the proposed authorization is estimated at 15,000 Mcf, whereas it estimates the total annual interruptible requirements of the direct industrial customers it proposes to serve will be 3,000,000 Mcf. The end-use of such interruptible gas is expected to be for rotary and tunnel kilns and direct fired equipment in various processing operations.

The total cost of such facilities will not exceed \$100,000 and any one installation will not exceed \$50,000, all to be financed from general company funds provided from its operations or from short-term bank loans.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 5, 1963, at 9:30 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such appli-

cation: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 23, 1963. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[Docket Nos. G-18337, G-18538]

EL PASO NATURAL GAS CO.

Notice of Application and Date of Hearing

APRIL 26, 1963.

Take notice that on April 20, 1959, and May 18, 1959, El Paso Natural Gas Company (Applicant) with its principal place of business in El Paso, Texas, filed in Docket Nos. G-18337 and G-18538 respectively, applications pursuant to section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing the construction and operation of certain natural gas transmission facilities enabling the direct sale and delivery of natural gas to Arizona Public Service Company (Public Service) and El Paso Electric Company (El Paso Electric), all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Applicant in Docket No. G-18337 proposes to (1) construct and place in operation a 16" O.D. 250 w.t. pipeline approximately 14.1 miles in length extending from a point of connection with its existing pipeline facilities in the Phoenix, Arizona area of Maricopa County, Arizona to a point of termination adjacent to Public Service's Ocotillo Power Plant located in the same County; (2) construct and operate a sales meter station located at the terminus of the proposed new pipeline facility; and (3) construct and operate those communication facilities necessary and incident to the operation and maintenance of the above described facilities sought in this Docket. These facilities would be for the purpose of enabling Applicant to deliver and sell quantities of natural gas to Public Service for use as fuel in that company's Ocotillo Power Plant located near Phoenix, Arizona.

Applicant in Docket No. G-18538 proposes to (1) construct and operate approximately 0.50 mile of 10¾" O.D. pipeline extending from a point of connection with its existing California main

line gas transmission system located in El Paso County, Texas, to El Paso Electric's Newman Power Plant located in the same County; (2) construct and operate a sales meter station located at the terminus of the proposed new pipeline facility; and (3) construct and operate those communication facilities necessary and incident to the operation and maintenance of the above described facilities sought in this Docket. These facilities would be for the purpose of enabling Applicant to deliver and sell quantities of natural gas to El Paso Electric for use as fuel in the latter company's Newman Power Plant located near El Paso, Texas.

The estimated costs, including overhead and contingency funds for the proposed facilities in Docket No. G-18337 is \$865,000. The estimated costs, including overhead and contingency funds for the proposed facilities in Docket No. G-18538 is \$45,000. These estimated costs for both Dockets would be financed from current working funds or by short-term bank loans.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 31, 1963, at 9:30 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 18, 1963. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[Project No. 2839]

INTERSTATE POWER CO.

Notice of Application for License

APRIL 26, 1963.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by Interstate Power Company (correspond-

ence to: Carl A. Hummel, Executive Vice President, Interstate Power Company, 1000 Main Street, Dubuque, Iowa) for a license for constructed Project No. 2339, known as the Green Hydroelectric Generating Station, located on Shell Rock River, a tributary of Cedar River, in Butler County, Iowa, near the Town of Green.

The project consists of: a reinforced concrete dam made up of a 235-foot spillway section, a 43-foot intake section, and wing walls at each end; 171 acres of pondage with a 9-foot head; a powerhouse comprising a one story building on a concrete substructure (forming the intake section of the dam) with installed capacity of 535 horsepower (300 kilowatts); and other necessary appurtenances.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is June 12, 1963. The application is on file with the Commission for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

[Project No. 2340]

INTERSTATE POWER CO.

Notice of Application for License

APRIL 29, 1963.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by Interstate Power Company (correspondence to: Carl A. Hummel, Executive Vice President, Interstate Power Company, 1000 Maine Street, Dubuque, Iowa) for a license for constructed Project No. 2340, known as the Delhi Hydroelectric Generating Station, located on the Maquoketa River, a tributary of the Mississippi, in Delaware County, Iowa, near the Town of Delhi.

The project consists of: a dam made up of a concrete intake section 45.2 feet long, a concrete spillway section 83 feet long, and an earth fill section 425 feet long; fishway; pondage of 538 acres; a 2-story brick powerhouse on a concrete substructure forming one end of the dam containing two 880 horsepower turbines operating under an effective head of 35 feet connected to generators with total capability of 1,300 kilowatts; and other necessary appurtenances.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is June 18, 1963. The application is on file with the Commission for public inspection.

[Docket No. CP63-22]

LONE STAR GAS CO.**Notice of Application To Amend**

APRIL 26, 1963.

Take notice that on April 2, 1963, Lone Star Gas Company (Applicant), 301 Harwood Street, Dallas 1, Texas, filed in Docket No. CP63-22 an application to amend the Commission's order, issued October 29, 1962, in Docket No. CP63-22 to authorize the construction and operation of approximately 50 feet of 2-inch pipeline extending from a point on Applicant's proposed 6-inch line E-26-4 to the site of a proposed city gate measuring station for the unincorporated community of Millerton, McCurtain County, Oklahoma, all as more fully set forth in the application to amend on file with the Commission and open to public inspection.

The subject order authorized Applicant to construct and operate facilities extending its existing gas transmission system in order to render natural gas service to Wright City and Valliant, McCurtain County, Oklahoma. Applicant states that it now proposes to serve Millerton, which is in close proximity to the facilities heretofore authorized by the subject order, and, therefore, requests herein authorization to construct the proposed transmission facilities necessary for such service.

Applicant states that it will distribute gas in Millerton as it also proposes to do in Wright City and Valliant.

The application indicates the estimated cost of the proposed facilities to be \$4,040.

Protests, petitions to intervene or requests for hearing in this proceeding may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 20, 1963.

JOSEPH H. GUTRIDE,
Secretary.

8:47 a.m.]

[Docket No. CP63-246]

SOUTHERN NATURAL GAS CO.**Notice of Postponement of Hearing**

APRIL 29, 1963.

Take notice that the hearing in the above-docketed proceeding heretofore scheduled to commence on May 9, 1963, by notice issued March 29, 1963, and published in the FEDERAL REGISTER on April 5, 1963 (28 F.R. 3363) is hereby postponed to a date to be fixed by further notice.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 63-4775; Filed, May 3, 1963;
8:47 a.m.]

[Docket No. CP63-257]

TEXAS EASTERN TRANSMISSION CORP.**Notice of Application and Date of Hearing**

APRIL 26, 1963.

Take notice that on March 15, 1963, as supplemented on March 25, 1963, Texas Eastern Transmission Corporation (Applicant), P.O. Box 2521, Houston, Texas, filed in Docket No. CP63-257 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the additional sale and delivery to The Manufacturers Light and Heat Company (Manufacturers), and The Ohio Fuel Gas Company (Ohio Fuel), jointly, of up to 10,200 Mcf¹ of natural gas per day under Applicant's FPC Gas Rate Schedule DCQ-C and a total volume of 4,365,600 Mcf¹ under Applicant's FPC Gas Rate Schedule ACQ-C, all during the period April 1, 1963, through December 31, 1963, all as more fully set forth in the application, as supplemented, on file with the Commission and open to public inspection.

Applicant states that, because of the severity of the past winter, Manufacturers and Ohio Fuel withdrew from storage substantially more gas than scheduled, resulting in storage deficiencies in excess of normal inputs during the coming storage injection season. Therefore, the application indicates that the proposed additional sales and deliveries are required in order to make up this deficiency prior to the 1963-64 winter.

No new facilities will be required for the proposed sales.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority conferred in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 4, 1963, at 9:30 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May

¹ At 14.73 psia.

23, 1963. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Project No. 2346]

WISCONSIN POWER AND LIGHT CO.**Notice of Application for License**

APRIL 29, 1963.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by Wisconsin Power and Light Company (correspondence to: Glydewell Burdick, Secretary, Wisconsin Power and Light Company, 122 West Washington Avenue, Madison 1, Wisconsin) for license for constructed Project No. 2346, known as the Monterey Plant, located on Rock River in the city of Janesville, Rock County, Wisconsin.

The project consists of a concrete overflow type dam 375 feet long, a canal with control gates at its head leading to the powerhouse; and a powerhouse of brick construction with concrete substructure containing two 160-kilowatt generating units operating under a normal head of 9 feet. There is no pondage area.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is June 18, 1963. The application is on file with the Commission for public inspection.

PRESIDENT'S CABINET TEXTILE ADVISORY COMMITTEE

CERTAIN COTTON TEXTILES, PRODUCT OR MANUFACTURE OF PORTUGAL

Modification of Outstanding Levels of Restraint on Import

APRIL 26, 1963.

On November 28, 1962, the Chairman of the President's Cabinet Textile Advisory Committee directed the Commissioner of Customs to prohibit beyond listed levels entry into the United States and withdrawal from warehouse for consumption in the United States of cotton textiles and cotton textile products in

twelve categories, including Categories 1, 2, 3, and 4, produced or manufactured in Portugal. The directive was published in accordance with the request of the Chairman in the FEDERAL REGISTER of December 19, 1962 (27 F.R. 12589).

A schedule accompanied that directive setting forth the maximum levels of the respective categories which might be entered into the United States during stated intervals for consumption.

On April 26, 1963, the Commissioner of Customs was directed to increase the levels of Categories 2 and 4 and decrease the levels of Categories 1 and 3 in accordance with an understanding with the Government of Portugal. To the extent that importers have, on the basis of levels announced on November 28, 1962, as applicable to Categories 1 and 3, entered into enforceable contracts with suppliers in Portugal for goods in these two categories and the goods so contracted for may not be entered into this country because of such decreased levels, such importers are invited to submit the facts concerning the particular transactions to the Chairman of the Interagency Textile Administrative Committee, U.S. Department of Commerce, Washington 25, D.C., for consideration by that Committee.

LUTHER H. HODGES,
Secretary of Commerce, and
Chairman, President's Cabinet
Textile Advisory Committee.

MODIFIED LIMITS ON ENTRY AND WITHDRAWAL FROM CONSUMPTION OF CERTAIN COTTON GOODS, PRODUCE OF PORTUGAL, BY CATEGORY, BY INTERVAL (LEVELS ARE IN POUND UNIT)

SECURITIES AND EXCHANGE COMMISSION

[File No. 811-1187]

MARINE INVESTORS, INC.

Notice of Application for Order Declaring That Company Has Ceased To Be an Investment Company

APRIL 30, 1963.

Notice is hereby given that an application has been filed pursuant to section 8(f) of the Investment Company Act of 1940 ("Act") for an order of the Commission declaring that Marine Investors, Inc. ("applicant"), 540 New England Building, Topeka, Kansas, a management closed-end non-diversified investment company, has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a full statement of the representations therein which are summarized below.

The applicant was organized in August 1959 by a group of Marine officers

at Camp Pendleton, California as an unincorporated investment club. Initially, there were approximately 10 members who made occasional voluntary contributions to the club for the purpose of purchasing securities in the club name.

The number of shareholders grew and it was decided that the club should have a more formal organization. As a result, the club was incorporated under the laws of Kansas on March 23, 1961 as Marine Investors Fund, Inc., although subsequently, on December 29, 1961, the articles of incorporation were amended to change the name to Marine Investors, Inc. On December 3, 1962, applicant registered under the Investment Company Act of 1940.

Originally, applicant maintained a substantial portion of its assets in securities, and applicant, in accordance with the wishes of its members, was actively investing, trading, and reinvesting in securities. After several of the organizers and principal shareholders departed for homes and occupations in various parts of the country, it became somewhat more difficult to consult and make decisions on pending purchases or sales of securities. For this reason and also to diversify applicant's investments, it was thought advisable to invest the major portion of the existing and incoming funds in real estate. As a result, applicant purchased two tracts of land in the Topeka, Kansas area, with a view toward the future development of this land.

At a special meeting of stockholders held on March 5, 1963 a resolution was adopted which provided that applicant shall not be or hold itself out as being engaged primarily in the business of investing, reinvesting, or trading in securities and at no time shall applicant own or acquire investment securities having a value exceeding 40 percentum of the value of the corporation's total assets.

Applicant further represents that, as of December 31, 1962, investment securities constituted 35.2 percent of its total assets (exclusive of Government securities and cash items) and that this percentage has been less than 40 percent for nearly a year.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission upon application finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than May 15, 1963, at 5:30 p.m. submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air mail if the person being served

is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after such date, as provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DuBOIS,
Secretary.

8:47 a.m.]

[File No. 24S-1873]

EASY-TOW RENTAL SYSTEM, INC.

Order Canceling Hearing

APRIL 29, 1963.

The Commission by order dated February 7, 1963, having temporarily suspended the Regulation A exemption of Easy-Tow Rental System, Inc., 2208 Northwest Market Street, Seattle, Washington, pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, and Easy-Tow Rental System, Inc., having requested a hearing upon the allegations set forth in the aforementioned order, and the Commission by order dated March 15, 1963, having ordered a hearing in the above-entitled matter, pursuant to section 3(b) of the Securities Act of 1933, as amended, and Rule 261(b) thereunder, to commence on April 24, 1963, at 10:00 a.m., P.s.t., at the Seattle Regional Office of the Commission, 900 Hoge Building, Seattle, Washington, before Hearing Officer Irving Schiller, and

The company, without admitting the allegations contained in the notice and order for hearing, having requested withdrawal of its request for hearing and having consented to the suspension order being made permanent prior to the convening of the hearing on April 24, 1963, and the Division of Corporation Finance and the Seattle Regional Office not objecting thereto:

It is ordered, That the request for hearing be, and it hereby is, deemed withdrawn.

It is further ordered, That the hearing in this matter scheduled for April 24, 1963, be and it hereby is canceled.

Pursuant to the provisions of Rule 261 (b) of Regulation A, the suspension of the Regulation A exemption from registration under the Securities Act of 1933, as amended, with respect to the proposed public offering of securities by the company becomes permanent.

By the Commission.

[SEAL] ORVAL L. DuBOIS,
Secretary.

[Delegation of Authority 30-VIII]

DEPUTY REGIONAL DIRECTOR ET AL.**Delegation of Authority To Conduct Program Activities in Minneapolis Regional Area**

I. Pursuant to the authority delegated to the Regional Director by Delegation of Authority No. 30 (Revision 8), 28 F.R. 3228, the following authority is hereby redelegated to the Deputy Regional Director and to the specific positions as indicated herein:

A. Size determinations (delegated to the positions as indicated below): To make original determinations and determinations upon the reconsideration thereof as to which concerns are small business within the meaning of the Small Business Size Standards Regulation, as amended, but not in cases which involve questions of dominance, questions relating to cooperatives, and questions involving franchise, license or other contractual agreements, unless authorized. This authorization does not permit the issuance of Small Business Certificates.

B. Eligibility determinations (delegated to the positions as indicated below): To determine eligibility of applicants for assistance under any program of the Agency in accordance with Small Business Administration standards and policies.

C. Chief, financial assistance division (and Assistant Chief, if assigned):

1. Item IA. (Size Determinations for Financial Assistance only.)

2. Item IB. (Eligibility Determinations for Financial Assistance only.)

3. To approve the following:

a. Business Loans

1. Direct not exceeding \$50,000.

2. Participation not exceeding \$150,000.

b. Disaster Loans

1. Direct not exceeding \$50,000.

2. Participation not exceeding \$100,000.

4. To decline business and disaster loans of any amount.

5. To disburse unsecured disaster loans.

6. To enter into business loan and disaster loan participation agreements with banks.
