PART 717—HOLDING OF REFERENDA

Subpart—Regulations Governing the Holding of Referenda on Marketing Quotas

TIME OF VOTING

The amendment contained herein is issued pursuant to the Agricultural Adjustment Act of 1938, as amended, for the purpose of amending § 717.5 to provide a change in the hours the polls shall be closed for the holding of referenda on marketing quotas in the State of North Carolina.

The referendum for the 1964 crop of wheat will be held on May 21, 1963. It is necessary that wheat producers be informed of the time of voting in the referendum in advance thereof. Therefore, it is determined that compliance with the notice, public procedure and 30-day effective date provisions of the Administrative Procedure Act (5 U.S.C. 1003) is impracticable and contrary to the public interest, and this amendment shall become effective upon filing with the Director, Office of the Federal Register.

Section 717.5 with respect to time of voting in North Carolina is amended to read:

§ 717.5 Time of voting.

State:	Polls to open	Polls to close
North Carolina	6:00 a.m.	8:00 p.m.

Provisional Certification and Operation of Aircraft; Extension of Special Civil Air Regulation

Special Civil Air Regulation No. SR-425C (26 F.R. 4990) provides for the provisional certification of aircraft to permit air carriers and manufacturers to conduct, among other things, crew training, service testing, sales demonstrations, and simulated air carrier operations prior to introducing the aircraft into commercial service. The objective of the Special Civil Air Regulation is to provide a means whereby the air carriers and manufacturers can obtain as much experience as possible with aircraft which, although safe for flight, have not been approved for the issuance of a type certificate. The purpose of this amendment is to extend the provisions of SR-425C beyond its June 30, 1963, termination date.

The circumstances which led to the adoption of Special Civil Air Regulation

SR-425C continue to exist. Furthermore, experience has shown that operations conducted in accordance with the provisions of the SR-425 series of special regulations do not adversely affect safety. Therefore, based on the established need for provisional certification, the provisions of SR-425C are hereby extended for an indefinite period.

Since this amendment extends the provisions of a currently effective regulation and imposes no additional burden on any person, compliance with the notice and public procedure provisions of the Administrative Procedure Act is unnecessary, and good cause exists for making this amendment effective on less than 30 days' notice.

In consideration of the foregoing, effective May 17, 1963, the last paragraph of Special Civil Air Regulation No. SR-425C is hereby amended by deleting the words "and shall terminate on June 30, 1963, unless sooner superseded, rescinded, or otherwise terminated."

Issued in Washington, D.C., on May 10, 1963.

Administrator.

SUBCHAPTER E—AIRSPACE [NEW]

[Airspace Docket No. 62-WA-136]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Designation of Positive Control Area

On March 16, 1963, a notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 2588) stating that the Federal Aviation Agency (FAA) proposed to include portions of the airspace from flight level 240 to and including flight level 600 which are under the jurisdiction of the Denver, Kansas City, and Salt Lake City air route traffic control centers in positive control area. This area is to be known as the Denver, Colo., positive control area.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and no adverse comments were received regarding the proposed amendment.

The substance of the proposed amendment having been published, therefore, and for the reasons stated in the notice, the following action is taken:

In § 71.193 (27 F.R. 220-157, November 10, 1962) the following is added:

Denver, Colo.

That airspace within the continental control area, from flight level 240 to and including flight level 600, bounded by a line beginning at: latitude 36°33'00" N., longitude 101°04'30" W.; thence to latitude

36°46'00" N., longitude 102°28'00" W.; thence to latitude 37°44'00" N., longitude 102°20'00" W.; thence to latitude 36°43'00" N., longitude 106°05'00" W.; thence to latitude 38°08'00" N., longitude 106°38'00" W.; thence to latitude 37°48'00" N., longitude 110°46'00" W.; thence to latitude 38°27'00" N., longitude 110°57'00" W.; thence to latitude 38°59'00" N., longitude 111°07'00" W.; thence to latitude 39°39'00" N., longitude 110°39'00" W.; thence to latitude 40°11'00" N., longitude 110°22'00" W.; thence to latitude 40°45'00" N., longitude 109°35'00" W.; thence to latitude 41°05'00" N., longitude 106°10'00" W.; thence to latitude 42°00'00" N., longitude 106°15'00" W.; thence to latitude 42°40'00" N., longitude 107°05'00" W.; thence to latitude 43°00'00" N., longitude 107°00'00" W.; thence to latitude 43°30'00" N., longitude 106°30'00" W.; thence to latitude 43°47'10" N., longitude 106°31'00" W.; thence to latitude 43°30'00" N., longitude 101°30'00" W.; thence to latitude 43°30'00" N., longitude 99°00'00" W.; thence to latitude 39°23'00" N., longitude 99°04'00" W.; thence to latitude 38°36'00" N., longitude 101°28'00" W.; thence to latitude 37°39'00" N., longitude 101°03'00" W.; thence to the point of beginning.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

This amendment shall become effective 201, e.s.t., June 27, 1963.

Issued in Washington, D.C., on May 10, 1963.

PART 75—ESTABLISHMENT OF JET ROUTES [NEW]

Alteration of Jet Advisory Areas

On February 8, 1963, a notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 1265) stating that the Federal Aviation Agency (FAA) proposed to convert the non-radar jet advisory area associated with Jet Route No. 20 in the vicinity of Boise, Idaho, to a radar jet advisory area.

On April 16, 1963, a supplemental notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 3702) stating that the FAA also proposed to convert the non-radar jet advisory areas associated with Jet Route Nos. 15 and 73 in the vicinity of Boise to radar jet advisory areas.

Additionally, in Airspace Docket No. 61-WA-91 (28 F.R. 4086), effective May 30, 1963, a non-radar jet advisory area is established on Jet Route No. 7 from 28 nautical miles southwest of Rome, Ore., to 22 nautical miles northeast of Boise. The FAA is taking action herein to also convert this segment of J-7 from nonradar to radar jet advisory area.

The National Business Aircraft Association objected to the use of the term "civil air carrier turbojet aircraft" in connection with the alteration of the radar advisory area associated with J-20 as such language implies that the radar advisory service is unavailable to other users. Special Civil Air Regulation No. 444 (26 F.R. 292) provided for the establishment of radar advisory areas "for the purpose of providing additional traffic advisory service for U.S. and for-

eign scheduled air carrier aircraft". However, this service has been extended to other civil users and in FAA Draft Release No. 63-3 (28 F.R. 1004), in which Special Civil Air Regulation No. 444 is proposed to be recodified in Part 91 [New] of the Federal Aviation Regulations, the reference to U.S. and foreign scheduled air carrier aircraft has been deleted.

The Air Transport Association of America endorsed the proposal. No other comments were received.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, and for the reasons stated herein and in the notices, in § 75.200 (28 F.R. 19-60, January 26, 1963, 28 F.R. 1421, 3202, 4086) the following changes are made:

1. Jet Route No. 7 is amended to read:

Jet Route No. 7 jet advisory area. Radar—Red Bluff, Calif., to 95 nmi NE of Boise, Idaho; from 65 nmi NE of Dillon, Mont., to United States/Canadian border. Nonradar—from 95 nmi NE of Boise to 65 nmi NE of Dillon, Mont.

2. Jet Route No. 15 is amended to read:

Jet Route No. 15 jet advisory area. Radar—Wink, Tex., to Albuquerque, N. Mex.; from Boise, Idaho, to Newberg, Ore.

3. Jet Route No. 20 is amended to read:

Jet Route No. 20 jet advisory area. Radar—Seattle, Wash., to Oklahoma City, Okla.; Jackson, Miss., to Orlando, Fla.

4. Jet Route No. 73 is amended to read:

Jet Route No. 73 jet advisory area. Radar—from Boise, Idaho, to The Dalles, Ore.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

These amendments shall become effective 0001, e.s.t., June 27, 1963.

Issued in Washington, D.C. on May 10, 1963.

W. THOMAS DEASON,
Assistant Chief,
Airspace Utilization Division.

[Airspace Docket No. 62-WE-147]

PART 75—ESTABLISHMENT OF JET ROUTES [NEW]

Alteration of Jet Route

The purpose of this amendment to § 75.100 is to alter Jet Route No. 60 between Denver, Colo., and Wolbach, Nebr. Jet Route No. 60 is described in part from the Denver VORTAC to the Wolbach VORTAC.

This presently designated direct alignment lies over the site of the North Platte, Nebr., air route surveillance radar, which is utilized by the Denver Air Route Traffic Control Center for control of instrument flight rule traffic. Radar contact is frequently lost when aircraft fly over the radar antenna site through an area where complete radar coverage is

impossible. The termination of radar service in this "blind" area and subsequent reidentification creates an undue burden upon air traffic controllers. Additionally, an increasing number of aircraft are utilizing J-60 between Denver and Wolbach. Continuous radar contact may have prevented a recent near mid-air collision between an air carrier aircraft and an Air Force aircraft.

For the reasons stated above, the Administrator finds that a situation exists requiring immediate action in the interest of safety and that notice and public procedure hereon are impracticable. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

The jet advisory area associated with J-60 is so designated that it will automatically conform with the altered jet route. Accordingly, no amendment relating to such jet advisory area is necessary.

In consideration of the foregoing, the following action is taken:

In § 75.100 (28 F.R. 19-50, January 26, 1963), in the text of Jet Route No. 60 "Denver, Colo.; Wolbach, Nebr.," is deleted and "Denver, Colo.; Hayes Center, Nebr.; Wolbach, Nebr.," is substituted therefore.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

This amendment shall become effective 0001, e.s.t., June 27, 1963.

Issued in Washington, D.C., on May 10, 1963.

W. THOMAS DEASON,
Assistant Chief,
Airspace Utilization Division.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

ADHESIVES

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition (FAP 1051) filed by Badische Anilin- & Soda-Fabrik, A. G., Ludwigshafen am Rhein, Federal Republic of Germany, and other relevant material, has concluded that the food additive regulations should be amended to provide for the safe use of di(2-hydroxy-5-tert-butylphenyl) sulfide as a component of food-packaging adhesives. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), § 121.2520 *Adhesives*

is amended by inserting alphabetically in the list "Components of adhesives" in paragraph (c) (5), the new item "Di(2-hydroxy-5-tert-butylphenyl) sulfide."

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c) (1), 72 Stat. 1786; 21 U.S.C. 348 (c) (1))

Dated: April 25, 1963.

Notice and public procedure and delayed effective date are not necessary prerequisites to the promulgation of this order, and I so find, since extensions of time, under certain conditions, for the effective date of the food additive amendment to the Federal Food, Drug, and Cosmetic Act were contemplated by Public Law 87-19 as a relief of restrictions on the food-processing industry.

Effective date. This order shall become effective on the date of signature.

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Animal Feed or Animal-Feed Supplements

FOOD ADDITIVES FOR USE IN MILK-PRODUCING ANIMALS

1. The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by The Upjohn Company, Kalamazoo, Michigan, and other relevant material, has concluded that the following regulation and amendments should issue to provide for the safe use of formulations intended for the treatment of bovine mastitis. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations are amended by adding to Subpart C the following new section:

§ 121.249 Food additives for use in milk-producing animals.

Formulations containing food additives may be safely used in the treatment of milk-producing animals in accordance with the following prescribed conditions:

(a) The formulation is used or intended for use in the treatment of bovine mastitis by udder instillation, as follows:

(1) (i) It contains the following in each 10 milliliters of suspension:

Hydrocortisone acetate	20 mg.
Hydrocortisone sodium succinate	12.5 mg.
Procaine penicillin G	50,000-100,000 units.
Novobiocin (from sodium novobiocin)	100 mg.-150 mg.
Polymyxin B sulfate	50,000 units.
Dihydrostreptomycin base (sulfate salt)	50 mg.-100 mg.
Chlorobutanol, anhydrous (chloral derivative)	50 mg.
Peanut oil—2 percent aluminum monostearate vehicle, q.s.	

(ii) Milk that has been drawn from animals within 72 hours of such treatment may not be used for food.

(b) through (v) [Reserved]

(w) To assure safe use, the label and labeling of the formulation shall bear, in addition to the other information required by the act, the following:

(1) The name of the additive or additives contained therein.

(2) A statement of the quantity or quantities of additives contained therein.

(3) Adequate directions and warnings for use, including the statement: "Warning: Milk taken from treated animals within _____ hours after the latest treatment must not be used for food," the blank being filled in with the figure specified in the applicable subparagraph in this section.

2. Based upon an evaluation of the data before him and proceeding under the authority of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(4), 72 Stat. 1786; 21 U.S.C. 348(c)(4)), the Commissioner of Food and Drugs has further concluded that where animals producing milk for food are treated with formulations containing novobiocin and chlorobutanol, zero tolerances are required to assure that such milk is safe for food. Therefore, Part 121 is amended as follows:

a. Section 121.1033 is amended to read:

§ 121.1033 Novobiocin.

A tolerance of zero is established for residues of novobiocin in milk from dairy animals and in the uncooked edible tissues and eggs or byproducts of turkeys.

b. A new section, as follows, is added to Subpart D:

§ 121.1131 Chlorobutanol.

A tolerance of zero is established for residues of chlorobutanol in milk from dairy animals.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

DRIED YEASTS

The FEDERAL REGISTER of February 2, 1960, contained a proposal by the Commissioner of Food and Drugs that a number of substances may be generally recognized by qualified experts as safe in food. Included in the listing of substances was torula yeast, dried. In a final order published in the FEDERAL REGISTER of January 31, 1962 (27 F.R. 883), the majority of the components proposed on February 2, 1960, were determined to be generally recognized as safe. The final order did not include dried torula yeast. The exclusion of dried torula yeast was based on comments and data which indicated that there should be a designation of maximum folic acid content. Dried torula yeast was therefore classified as a food additive, and pending the establishment of appropriate regulations prescribing conditions under which the yeast could be safely used, the effective date of the food additives amendment was extended to provide for the interim use of dried torula yeast and dried yeast, provided that not more than 0.04 milligram of folic acid was present per gram of yeast when the yeast was used as a flavor in food; and not more than 0.4 milligram of folic acid per day when the yeast was used in food for special dietary use.

An ad hoc Committee requested by the Commissioner of Food and Drugs to review the safe use of folic acid discussed on February 8, 1963, the safety of yeast products and concluded on February 25, 1963, that safe levels of yeast should be determined on the basis of pteroylglutamic acid content rather than on total folic acid activity. Additionally, during the period in which the effective date of the food additives amendment was extended to provide for the interim use of yeast, food additive petitions were received proposing a regulation that would prescribe safe conditions of use of yeast.

Based on data submitted in petitions filed by the following persons: Cerevisiae Yeast Institute, 30 North LaSalle Street, Chicago 2, Illinois (FAP 519 and 524), Lake States Yeast and Chemical Divisions of St. Regis Paper Company, Rhinelander, Wisconsin (FAP 525), National Dairy Products Corporation, 260 Madison Avenue, New York 16, New York (FAP 789), and Knudson Creamery Company of California, Santee Street at Twenty-First, Los Angeles 54, California (FAP 887); and after full consideration of all the data available, including evidence that pteroylglutamic acid occurs as a small percentage of the total folic acid content of yeast produced under normal processing and good manufacturing practice, the Commissioner of Food and Drugs has concluded that a regulation to prescribe the safe conditions of use of yeast should issue.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner

by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations are amended by adding to Subpart D the following new section:

§ 121.1125 Dried yeasts.

Dried yeast (*Saccharomyces cerevisiae* and *Saccharomyces fragilis*) and dried torula yeast (*Candida utilis*) may be safely used in food provided the total folic acid content of the yeast does not exceed 0.04 milligram per gram of yeast (approximately 0.008 milligram of pteroylglutamic acid per gram of yeast).

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

CELLOPHANE

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by E. I. du Pont de Nemours and Company, Inc., Wilmington 98, Delaware, and other relevant material, has concluded that the food additive regulations should be amended to provide for an additional use of polyethylenimine in cellophane used for food packaging. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), § 121.2507(c) is amended by changing the item "Polyethylenimine" to read as follows:

§ 121.2507 Cellophane.

(c) List of substances:

Limitations (residue and limits of addition expressed as percent by weight of finished packaging cellophane)

Polyethyl- As the basic polymer, for use as enimine. a resin to anchor coatings to the substrate and for use as an impregnant in the food-contact surface of regenerated cellulose sheet in an amount not to exceed that required to improve heat-sealable bonding between coated and uncoated sides of cellophane.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

Such term also means a domestic building and loan association.

[Sec. 581 as amended by sec. 5, Act of Sept. 28, 1962 (Public Law 87-722, 76 Stat. 668, 670)]

PAR. 3. Section 1.581-3 is inserted immediately after § 1.581-2. This new provision reads as follows:

§ 1.581-3 Definition of bank prior to September 28, 1962.

Prior to September 28, 1962, for purposes of sections 582 and 584, the term "bank" means a bank or trust company incorporated and doing business under the laws of the United States (including laws relating to the District of Columbia), of any State, or of any Territory, a substantial part of the business of which consists of receiving deposits and making loans and discounts, or of exercising fiduciary powers similar to those permitted to national banks under section 11(k) of the Federal Reserve Act (38 Stat. 262; 12 U.S.C. 248(k)), and which is subject by law to supervision and examination by State, Territorial, or Federal authority having supervision over banking institutions. Such term also means a domestic building and loan association.

PAR. 4. Section 1.584 is amended by revising section 584(a)(2) and by adding a historical note at the end thereof. This amended provision and historical note read as follows:

§ 1.584 Statutory provisions; common trust funds.

SEC. 584. *Common trust funds—(a) Definitions.* * * *

(2) In conformity with the rules and regulations, prevailing from time to time, of the Board of Governors of the Federal Reserve System or the Comptroller of the Currency pertaining to the collective investment of trust funds by national banks.

[Sec. 584 as amended by sec. 4, Act of Sept. 28, 1962 (Public Law 87-722, 76 Stat. 668, 670)]

PAR. 5. Paragraph (b)(2) of § 1.584-1 is amended to read as follows:

§ 1.584-1 Common trust funds.

(b) *Conditions for qualification.* * * *

(2) In conformity with the rules and regulations, prevailing from time to time—

(i) With respect to periods after September 27, 1962, of the Comptroller of the Currency, or

(ii) With respect to periods before September 28, 1962, of the Board of Governors of the Federal Reserve System,

pertaining to the collective investment of trust funds by national banks, whether or not the bank maintaining such fund is a national bank or a member of the Federal Reserve System.

PAR. 6. Section 1.584-4 is amended by revising paragraphs (a) and (b). These amended provisions read as follows:

§ 1.584-4 Admission and withdrawal of participants in the common trust fund.

(a) *Gain or loss.* The common trust fund realizes no gain or loss by the admission or withdrawal of a participant, and the basis of the assets and the period for which they are deemed to have been held by the common trust fund for the purposes of section 1202 are unaffected by such an admission or withdrawal. If a participant withdraws the whole or any part of its participating interest from the common trust fund, such withdrawal shall be treated as a sale or exchange by the participant of the participating interest or portion thereof which is so withdrawn. A participant is not deemed to have withdrawn any part of its participating interest in the common trust fund so as to have completed a closed transaction by reason of the segregation and administration of an investment of the fund, pursuant to the provisions of 12 CFR 9.18(b)(7) (or, for periods before September 28, 1962, 12 CFR 206.17(c)(7)), for the benefit of all the then participants in the common trust fund. Such segregated investment shall be considered as held by, or on behalf of, the common trust fund for the benefit ratably of all participants in the common trust fund at the time of segregation, and any income or loss arising from its administration and liquidation shall constitute income or loss to the common trust fund apportionable among the participants for whose benefit the investment was segregated.

(b) *Basis for gain or loss upon withdrawal.* The participant's gain or loss

upon withdrawal of its participating interest or portion thereof shall be measured by the difference between the amount received upon such withdrawal and the adjusted basis of the participating interest or portion thereof withdrawn plus the additions prescribed in paragraph (c) of this section and minus the reductions prescribed in paragraph (d) of this section. The amount received by the participant shall be the sum of any money plus the fair market value of property (other than money) received upon such withdrawal. The basis of the participating interest or portion thereof withdrawn shall be the sum of any money plus the fair market value of any property (other than money) contributed by the participant to the common trust fund to acquire the participating interest or portion thereof withdrawn. Such basis shall not be reduced on account of the segregation of any investment in the common trust fund pursuant to the provisions of 12 CFR 9.18(b)(7) (or, for periods before September 28, 1962, 12 CFR 206.17(c)(7)). For the purpose of making the adjustments, additions, and reductions with respect to basis as prescribed in this paragraph, the ward, rather than the guardian, shall be deemed to be the participant; and the grantor, rather than the trust, shall be deemed to be the participant, to the extent that the income of the trust is taxable to the grantor under subpart E (section 671 and following), part I, subchapter J, chapter 1 of the Code.

Because this Treasury decision makes no changes of substance in existing regulations but merely reflects an amendment to section 542(c) of the Internal Revenue Code of 1954 with respect to which no regulations are prescribed, made by the Act of October 9, 1962 (76 Stat. 766), and reflects amendments to sections 581 and 584(a)(2) of the Internal Revenue Code of 1954 made by the Act of September 28, 1962 (76 Stat. 668, 670) which transferred from the Board of Governors of the Federal Reserve System to the Comptroller of the Currency authority to grant trust powers to national banks and to issue regulations governing the exercise of such powers, it is determined that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4(a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4(c) of said Act.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

Commissioner of Internal Revenue.

Title 32—NATIONAL DEFENSE

Chapter V—Department of the Army

SUBCHAPTER B—CLAIMS AND ACCOUNTS

PART 537—CLAIMS ON BEHALF OF THE UNITED STATES

Claims for the Reasonable Value of Medical Care Furnished by the Army

Sections 537.21–537.23 are added to Part 537, as follows:

Sec.	
537.21	General.
537.22	Procedures.
537.23	Administrative matters.

AUTHORITY: §§ 537.21 to 537.23 issued under sec. 3012, 70A Stat. 157; 10 U.S.C. 3012. Interpret or apply 76 Stat. 593; 42 U.S.C. 2651–2653.

SOURCE: AR 25–110, Jan. 8, 1963.

§ 537.21 General.

(a) *Purpose.* (1) The regulations in §§ 537.21–537.23 are in implementation of the Act of September 25, 1962 (76 Stat. 593, 42 U.S.C. 2651–3). That act provides generally, that in any case in which the United States is authorized or required by law to furnish medical care to a person who has been injured or suffered a disease because of the wrongful or negligent act or omission of a third person, the United States shall have a right to recover from such third person the reasonable value of the medical care furnished. The act applies, for example, to instances in which medical care has been furnished to a member of the Army as a result of either an on or off duty injury, to a dependent, and to any other person who is authorized to receive medical care in Army medical facilities.

(2) Pursuant to Executive Order 11060, 7 November 1962 (27 F.R. 10925), the Bureau of the Budget has established rates representing the reasonable value of the medical care furnished or to be furnished (27 F.R. 12380). In each case in which medical care is furnished, a determination is required to be made whether it was for an injury or disease caused under circumstances entitling the United States to recover its costs from a third person. If such circumstances exist, a claim must be asserted for the reasonable value of the medical care. In addition, the individual who received the care may be required to assign to the United States his claim or cause of action against the third person to the extent of the reasonable value of the medical care furnished, to cooperate in the prosecution of claims and actions by the United States against the third person, and to notify appropriate authorities of a settlement with, or offer of settlement from the third person.

(b) *Scope.* The regulations in §§ 537.21–537.23 prescribe the procedures for the investigation, determination,

assertion, compromise, and settlement of claims for the reasonable value of medical care furnished by the Army for an injury or disease caused by the wrongful or negligent act or omission of some third person.

(c) *Definitions.* The definitions of terms set forth in § 536.3 of this subchapter are applicable to § 537.21–537.23 except that the following terms as used in §§ 537.21–537.23 will have the meanings here indicated:

(1) *Claim.* The Government's right to recover the reasonable value of medical care.

(2) *Medical care.* Includes hospitalization, outpatient treatment, dental care, nursing service, drugs, and other adjuncts such as prostheses and medical appliances furnished or to be furnished by the United States.

(3) *Reasonable value of medical care.* The value of the medical care determined in accordance with rates prescribed by the Bureau of the Budget.

(4) *Judge Advocate.* The judge advocate or staff judge advocate of any command or the legal counsel of a command to which no such officer is assigned, if such counsel is a member of the bar of a Federal court or of the highest court of a state.

(5) *Uniformed services.* The Army, the Navy, the Marine Corps, the Air Force, the Coast Guard, the Commissioned Corps of the Coast and Geodetic Survey and the Commissioned Corps of the Public Health Service.

(6) *Injured party.* The person who received an injury or contracted a disease which resulted in the medical care. Such a person may be a member of the uniformed services, a dependent, or any other person who is eligible for medical care at Army medical treatment facilities.

(7) *Defendant.* An individual, partnership, association, corporation, or governmental body, foreign or domestic, other than an instrumentality of the United States, against whom the United States has a claim under §§ 537.21–537.23.

(d) *Application.*—(1) *Cognizable claims.* Unless otherwise prescribed, cognizable claims comprise all claims for the reasonable value of medical care which has been furnished either by the Army or at the expense of the Army as a result of an injury or disease occurring after 31 December 1962 which was caused by the wrongful or negligent act or omission of some third person (other than or in addition to the United States) under circumstances creating a tort liability upon such person.

(2) *Claims not cognizable.* (i) Claims for not in excess of \$50 unless a Government property damage claim is to be asserted under § 537.1.

(ii) Claims for medical care furnished by the Veterans Administration to an eligible veteran for a service connected disability under the provisions of chapter 17, title 38, United States Code.

(iii) Claims against employers of seamen treated under the provisions of section 322 of the act of July 1, 1944 (58 Stat. 696), as amended (42 U.S.C. 249).

(e) *Basic considerations.* The following basic considerations apply to the investigation, assertion, and processing of claims under §§ 537.21–537.23:

(1) Claims for medical care furnished to persons for which reimbursement is authorized from another uniformed service, or from another Federal department or agency will ordinarily be investigated, asserted, and processed by the uniformed service, department, or agency responsible for making the reimbursement.

(2) The official responsible for the investigation, assertion, and processing of a claim for medical care may request appropriate assistance from another command of the uniformed services, or from another department or agency. This requested assistance may be to any extent found necessary by the requesting agency, including a complete investigation of the incident, the assertion and processing of the claim, or merely the taking of a statement of a witness. In such cases the requested assistance will be rendered in conformity with the regulations of the service, department, or agency to whom the request is made. Requests for assistance will be made only when the requesting service, department, or agency does not have a facility conveniently located for conducting the investigation or furnishing the assistance requested. Expenses resulting from any assistance given will not be reimbursed.

(3) Claims against a foreign government or a political subdivision, agency, or instrumentality thereof, or against a member of the armed forces or an official or a civilian employee of such foreign government will not be asserted without prior approval of the Department of the Army. Investigation and report thereof, however, will be made as provided in §§ 537.21–537.23, unless the provisions of applicable agreements, or regulations in implementation thereof, negate the requirement for such investigation and report.

(4) The commander of a major over-sea command, or of an over-sea command designated as a major command for claims purposes, may establish procedures for the processing of claims under §§ 537.21–537.23 which arise in his command. Such procedures may, to the extent deemed necessary, modify the procedures prescribed herein.

(5) In the assertion and processing of claims under §§ 537.21–537.23 due regard will be given to the interests of the injured party. A claim will not be asserted if it appears that collection will result in undue hardship upon the injured party, i.e., preclude or make impracticable his recovery of damages for other than medical care furnished at the expense of the United States. To the extent feasible, the collection effort on behalf of the injured party and on

behalf of the Government will be coordinated. Although, the judge advocate should not assert a claim on behalf of the injured party, the latter may, if he is eligible therefor, be given legal advice and assistance to the extent authorized by AR 608-50. Similarly, it is not desirable to permit the injured party or a person acting on his behalf to assert or collect a claim for medical care on behalf of the Government. There is no authority to pay attorney's fees for the collection of claims under §§ 537.21-537.23.

(6) Claims against members of the uniformed services or civilian employees of the United States which arise out of acts or omissions committed within the scope of their employment as such members or employees will be investigated and processed in conformity with §§ 537.21-537.23, except that such claims will not be asserted without the approval of the Department of the Army.

(7) Claims for medical care which are based upon an incident or circumstances which may give rise to a claim for damage to Army property should be consolidated with the claim for the property damage and processed in accordance with § 537.1.

(f) *Investigative responsibility.* (1) The commanding general of an army or comparable area command is responsible for the investigation of all incidents which may give rise to claims under §§ 537.21-537.23 occurring in his area except those within the purview of subparagraphs (2) and (3) of this paragraph. However, those cases in which the Army is entitled to receive reimbursement in accordance with paragraph (e)(1) of this section, will ordinarily be the investigative responsibility of another uniformed service, department, or agency of the United States.

(2) The commanding officer of a separate company, battalion, battle group, or corresponding unit, or higher echelon, or installation, or activity is responsible for the investigation of incidents involving members of his command or their dependents which may give rise to a claim under §§ 537.21-537.23 and which occur while the member is assigned to his command.

(3) State National Guard authorities are responsible for the investigation of incidents involving members of their respective organizations which may give rise to claims under §§ 537.21-537.23 who are injured while performing armory training under section 502 of title 32, United States Code, or full-time training duty under sections 503-505 of title 32, United States Code, except that in those cases in which the injured party is performing full-time training duty at a service school or with an organization of the active Army, the commander thereof will be responsible for the investigation.

(4) In a foreign country where no appropriate commander is located the Army attaché is responsible for the required investigation.

(5) Transfer of responsibility for investigation is authorized under the cir-

cumstances prescribed in paragraph 7d, AR 25-20, and paragraph (e)(2) of this section.

§ 537.22 Procedures.

(a) *Investigations*—(1) *Conduct.* Investigations under §§ 537.21-537.23 will be conducted in the manner prescribed herein and in §§ 536.1-536.11b of this subchapter. However, unnecessary investigation and duplication of investigative effort will be avoided. Thus a line-of-duty investigation should be fully utilized. If Army property has been damaged in the same incident in which the injuries were received, the investigation should satisfy the requirements of §§ 537.1, 537.21-537.23, and AR 735-11, as may be appropriate.

(2) *Advice to injured party.*

(i) The claims officer should promptly contact the injured party and advise him that—

(a) Under 76 Stat. 593, 42 United States Code, §§ 2651-2653, the United States is entitled to recover from the person responsible for his injury the reasonable value of medical care furnished or to be furnished him in the future;

(b) He should seek the advice of legal counsel concerning any possible claim he may have for personal injury;

(c) He should not execute a release or settle any claim which he may have as a result of his injury without first notifying the claims officer or the judge advocate whose address is shown on SF 96-A;

(d) He should not furnish the person responsible for his injury or that person's insurance company with any information or signed statements which might prejudice his personal injury claim; and

(e) If he notifies his own insurance company relative to any injury or property damage he may have suffered, he should inform that company of the right of the United States to recover the reasonable value of the medical care furnished him.

(ii) The claims officer should further advise the injured party that a person furnished medical care at the expense of the Army for an injury or disease caused by the negligent or wrongful acts or omissions of another is required by §§ 537.21-537.23:

(a) To assign in writing to the United States his claim or cause of action against the third person to the extent

of the reasonable value of the medical care furnished or to be furnished, or any portion thereof;

(b) Subject to the provisions of Article 31, Uniform Code of Military Justice, to furnish such information as may be requested concerning the circumstances giving rise to the injury or disease for which the medical care is being given and concerning any action instituted or to be instituted by or against a third person;

(c) To notify the department or agency concerned of a settlement with, or an offer of settlement from a third person; and

(d) To cooperate in the prosecution of all claims and actions by the United States against such third person.

(iii) After giving the injured party the foregoing instructions the claims officer should obtain a complete statement from the injured party regarding the facts and circumstances surrounding the incident which resulted in the injury or disease, and have the injured party execute a Power of Attorney and Assignment (SF 96-A) in triplicate. One copy should be retained by the injured party, and the other copies attached as exhibits to the report of the claims officer. The claims officer should enter in the appropriate space on the reverse side of SF 96-A the address of the judge advocate of the command, or if the command does not have such an officer, the judge advocate of the commander to whom the report will be forwarded.

(iv) In appropriate cases the claims officer should give the foregoing advice and instructions to either the next of kin, or the personal representative of the injured party, or the executor or administrator of his estate. Records as to medical history, diagnosis, findings, or treatment may be withheld by the Army pending compliance with the provisions of this subparagraph by the injured party or someone acting for him.

(3) *Notice to defendant.* The claims officer will, unless the defendant falls within the categories enumerated in § 537.21(e)(3) or (6) complete and mail to the defendant a letter in the form shown in figure 1, in duplicate together with a copy of the executed Power of Attorney and Assignment (SF 96-A). A copy of the letter will accompany the report of investigation. Before sending such a letter, the claims officer may consult with the appropriate judge advocate.

Pursuant to 76 Stat. 593, 42 United States Code, §§ 2651-2653, the United States of America is entitled to recover the reasonable value of hospital, medical, surgical, or dental care and treatment (including prostheses and medical appliances) furnished or to be furnished to _____ in connection with injuries sustained

(b) Settlement and waiver of claims— (1) Authority. The judge advocate who asserts a claim under §§ 537.21-537.23, or the judge advocate to whom such a claim has been forwarded as provided in §§ 537.21-537.23, or the chief of a United States Army Claims Service, or a designee of The Judge Advocate General may, subject to the restrictions in subparagraph (2) of this paragraph:

(a) Releases. Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 29]

TOBACCO INSPECTION

Notice of Proposed Rule Making

Notice is hereby given that the United States Department of Agriculture has under consideration an amendment to the regulations governing the inspection of tobacco (7 CFR Part 29, Subpart B) issued pursuant to the provisions of the Tobacco Inspection Act (49 Stat. 731, 7 U.S.C. 511 et seq.).

The proposed amendment sets forth provisions with regard to the accessibility or spacing of flue-cured tobacco on auction warehouse floors in designated markets. It also sets forth provisions to guard against impeding, interfering with or attempting to improperly influence an inspector in the performance of his duties during an auction sale and provides procedures for discussing or questioning the grade certified by an inspector during the course of an auction sale, in designated markets.

Statement of consideration. Interference with inspectors engaged in the sampling and inspection of tobacco adversely affects inspection efficiency and tends to create a climate under which the most effective inspection cannot be accomplished. Accessibility of tobacco offered for sale at auction is necessary as a means of assuring conditions under which tobacco can be adequately sampled for grade determining purposes.

The Department is particularly interested in the scope or application of the proposed regulation with respect to interference with inspectors. The bracketed proviso in § 29.81(a)(3), if included in the final regulation, would exclude growers and other owners from the application of that portion of the regulation having to do with discussions with tobacco inspectors while engaged in the performance of their functions. Exclusion of this proviso from the regulations as finally formalized would result in all provisions of the regulations with respect to interference with inspectors being equally applicable to warehousemen, their operators and tradespeople, and growers. The Department is particularly interested in comments that will be helpful in determining attitudes and opinions with respect to the exclusion or inclusion of growers and other owners from the application of this provision of the regulation. Interested parties in making their comments should recognize the Department's interest with respect to the inclusion or exclusion of this proviso.

The proposed amendment is as follows:

§ 29.75 [Amendment]

1. Redesignate the present text of § 29.75 as paragraph (a) and add the following paragraphs:

(b) (1) Each warehouse operator shall block off space in his warehouse for each basket of flue-cured tobacco offered for sale on the auction market, and shall prominently number each 10th basket space. The blocking and numbering arrangement should follow the order of sale; that is, down one row and back on the adjacent row.

(2) Baskets of flue-cured tobacco displayed for sale on auction warehouse floors shall have a minimum space of 18 inches from butts to butts between rows, and a minimum space of 24 inches at each end of the row between the basket and the wall: *Provided*, That if the warehouseman shall mark the rows the width of the baskets plus 26 inches for the aisle between rows and shall place baskets in accordance with those markings, he shall be deemed to be in compliance with this provision. There shall be a space of not less than 6 inches in the row between butts at the nearest point.

(3) Each warehouse shall display a plainly visible sign with the total number of baskets of flue-cured tobacco allotted to be sold each day. All spaces, whether empty or full, shall be counted and no tobacco will be graded beyond the block posted with the number of baskets allotted for each day's sale.

(c) Before starting inspection of the day's sale of flue-cured tobacco in each warehouse, the inspector-in-charge of the sale shall determine if there is compliance with the requirements of paragraph (b) of this section. If he determines that the prescribed system has not been followed, the inspectors shall proceed to the next scheduled warehouse and shall return to the non-complying warehouse on the next sales day when the inspector-in-charge shall again determine if the prescribed system has been followed before starting the inspection.

2. Insert a new § 29.81 to read as follows:

§ 29.81 Interference with inspectors.

(a) No person, including the owner, warehouseman, agent, or employee thereof shall (1) attempt, in any manner, to influence an inspector with respect to the grade designation of tobacco, or (2) impede, in any manner, an inspector while the inspector is in the process of grading tobacco on the warehouse auction floor, or (3) ask any question or discuss any matter pertaining to the grading of tobacco while the inspector is grading any tobacco on the warehouse auction floor. While inspectors are engaged in grading the day's sale, all requests for information concerning the grade designation on or requests to review the grade of any lot of tobacco shall be made only to the inspector-in-charge of the sale or to the market supervisor: *Provided, however*, That the owner of a lot of tobacco may discuss the grading of his tobacco with the inspector while he is performing his grading operations.]

(b) In the event that the inspector-in-charge of the sale determines that a person has violated any of the provisions of this section, inspection ticket(s) if already issued on the lot(s) of tobacco involved shall be null and void and no further inspections shall be performed on such lot(s) until the next sales day: *Provided*, That if violation consists of talking to the inspector while he is grading the tobacco, a warning shall be given on first offense and withdrawal of inspection shall apply on subsequent offense.

(c) The provisions of this section shall not preclude the application of other administrative remedies or the institution of criminal proceedings in appropriate cases as provided by the act.

(49 Stat. 734, as amended; 7 U.S.C. 511m)

All persons who desire to submit written data, views and arguments with respect to the proposed amendment should mail the same to the Director, Tobacco Division, Agricultural Marketing Service, Washington 25, D.C., on or before May 30, 1963.

Done at Washington, D.C., this 13th day of May 1963.

Notice was issued on April 30, 1963, of a public hearing beginning on May 21, 1963, at Memphis, Tennessee, on proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the Memphis, Tennessee, Fort Smith, Arkansas, and Central Arkansas marketing areas.

Notice is hereby given pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), that the hearing will be held also at the Ward Hotel, 6th and Garrison Streets, Fort Smith, Arkansas, beginning at 10:00 a.m. local time, on May 24, 1963, and that, in addition to the proposed amendments set forth in the original notice of hearing, evidence will be received with respect to the additional provisions specified in the

proposals listed below or to appropriate modifications thereof.

The additional proposals contained in this supplemental notice have not received the approval of the Secretary of Agriculture.

Proposed by the Mid-South Milk Producers Association:

Proposal No. 28. Include in § 1097.22 (j) (1) the following provision:

On or before the 12th day after the end of each month, report to each cooperative association which so requests, the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk. For the purpose of this report the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler;

Proposed by Central Arkansas Milk Producers Association:

Proposal No. 29. Amend § 1102.51(a) to provide for the increase or decrease of the price computed pursuant to this section by the amount of the supply-demand adjustment computed pursuant to § 1097.51(a) (2) and (3) of the order regulating the handling of milk in the Memphis, Tennessee, marketing area.

Proposal No. 30. Amend (after one year's notice to producers) § 1102.14, base milk; § 1102.15, excess milk; § 1102.71, computation of the uniform prices for base and excess milk for each handler; § 1102.90, computation of daily average base for each producer; and § 1102.91, base rules; to provide for the computation of producers daily average base on the basis of producer deliveries during the months of September through January of each year, and for the use of the base so determined in computing payments to producers during the months of March through July of each year.

Proposal No. 31. Amend § 1102.91, base rules, to specifically provide for the transfer of a base earned by a producer pursuant to the provisions of Order No. 97 regulating the handling of milk in the Memphis, Tennessee, marketing area, Order No. 108 regulating the handling of milk in the Central Arkansas marketing area, and Order No. 102, regulating the handling of milk in the Fort Smith, Arkansas marketing area between these three Federal orders.

Proposal No. 32. Amend (after one year's notice to producers) § 1108.18 Base milk; § 1108.19 Excess milk; § 1108.72 Computation of uniform prices for base milk and excess milk; § 1108.90 Computation of daily average base for each producer; and § 1108.91 Base rules, to provide for the computation of producers daily average base on the basis of producer deliveries during the months of September through January of each year, and for the use of the base so determined in computing payments to producers during the months of March through July of each year.

Proposal No. 33. Amend § 1108.91, base rules, to specifically provide for the transfer of a base earned by a producer pursuant to the provisions of Order No. 97 regulating the handling of milk in

the Memphis, Tennessee, marketing area, Order No. 102 regulating the handling of milk in the Fort Smith, Arkansas, marketing area, and Order No. 108 regulating the handling of milk in the Central Arkansas marketing area, between these three Federal orders.

Proposed by Dean Milk Company, Conway, Arkansas:

Proposal No. 34. Revise § 1108.41 to provide classification in Class II of skim milk and butterfat contained in fluid milk products dumped after prior notification to and opportunity for verification by the market administrator.

Proposal No. 35. Revise § 1108.41 to provide classification in Class II of skim milk and butterfat contained in sour cream mixtures to which cheese or another food substance has been added.

Proposal No. 36. Revise § 1108.46 to provide for the allocation to Class I the skim milk and butterfat received in the form of a fluid milk product in consumer packages if such fluid milk product is priced as Class I pursuant to another order issued pursuant to the Act.

Proposal No. 37. Amend § 1108.53 to provide for a location adjustment at Paragould, Arkansas, comparable to the adjustment under the Memphis order. This would necessitate a change in the basing point from which distances are computed under the Central Arkansas order.

Proposed by Foremost Dairies of Paragould, Arkansas:

Proposal No. 38. Amend § 1108.51(a) by adding the following proviso: "Provided, That the price computed under this subpart shall be reduced by 34 cents per hundredweight at pool plants located in Greene County, Arkansas."

Proposal No. 39. Amend § 1097.51(a) by adding the following proviso: "Provided, That the price computed under this subpart shall be reduced by 34 cents per hundredweight at pool plants located in Greene County, Arkansas."

Proposal No. 40. In the Memphis order consider the allocation and classification of nonfat dry milk used in the fortification of fluid milk and milk products.

Proposed by Cedar Grove Dairy, Memphis, Tennessee; Forest Hill Dairies, Inc., Memphis, Tennessee; Meadowbrook Dairy, Memphis, Tennessee; Sealtest Foods Division, National Dairy Products Corporation, Memphis, Tennessee; and Turner's Dairy Company, Covington, Tennessee:

Proposal No. 41. If a supply-demand Class I price adjustment provision in any form is retained in the Memphis order, Part 1097, Code of Federal Regulations, amend the definitions of "fluid milk plant", § 1097.7; "producer", § 1097.11; "producer milk", § 1097.12; and related provisions of the order to provide properly for the determination of the quantity of milk to be employed as the supply factor in arriving at the "utilization percentage" or other supply-demand relationship in establishing the amount of the supply-demand price adjustment provision. Consider the propriety of all factors, elements, and features of a supply-demand provision for the Mem-

phis order. If a supply-demand provision that will function properly in the Memphis order cannot be provided, then delete and eliminate any supply-demand provision from the order.

Proposal No. 42. (a) Revise § 1097.45 by deleting the last sentence therein and replacing same with the following: "If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids, except that when nonfat milk solids are used to fortify a fluid milk product the volume of water originally associated with such nonfat milk solids shall not be considered in determining the pounds of skim milk disposed of in such product."

(b) If the revision proposed in paragraph (a) above is not adopted, amend § 1097.41 to provide that fluid milk products which have been fortified with nonfat milk solids shall be Class I in an amount equal only to the weight of an equal volume of an unfortified product of the same butterfat content; the remainder not so accounted for as Class I shall be Class II.

Proposal No. 43. Revise § 1097.41 to provide classification in Class II of skim milk and butterfat contained in fluid milk products dumped after prior notification to and opportunity for verification by the market administrator.

Proposal No. 44. Revise § 1097.41 to provide classification in Class II of skim milk and butterfat contained in sour cream mixtures to which cheese or another food substance has been added and which contain butterfat equal to not more than 15 percent of the finished product.

Proposal No. 45. Revise § 1097.46 to provide for the allocation to Class I of the skim milk and butterfat received in the form of a fluid milk product in consumer packages if such fluid milk product is priced as Class I pursuant to another order issued pursuant to the Act.

Proposal No. 46. Amend the Memphis order in all of the provisions necessary to revise the order to operate on the basis of a marketwide pool instead of individual handler pooling, as now provided.

Copies of this supplemental notice of hearing and the orders may be procured from the Market Administrator, Charles S. McDonald, 35 South Cooper Street, P.O. Box 9926, Memphis 12, Tennessee, or 3518 West Roosevelt Road, P.O. Box 4225, Asher Avenue Station, Little Rock, Arkansas, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., or may be there inspected.

Signed at Washington, D.C., on May 13, 1963.

FEDERAL AVIATION AGENCY

[14 CFR Parts 4b, 40, 41, 42]

[Reg. Docket No. 1740; Notice 63-19]

REQUIREMENT FOR A WING-FLAP-ACTUATED LANDING GEAR WARNING SYSTEM

Notice of Proposed Rule Making

Notice is hereby given that there is under consideration a proposal to amend Parts 4b, 40, 41, and 42 of the Civil Air Regulations to require the installation of a wing-flap-actuated landing gear warning system. Manufacturers and operators of airplanes having a maximum certificated weight of more than 12,500 pounds may be affected by these proposed amendments.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the Federal Aviation Agency, Office of the General Counsel: Attention Rules Docket, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before July 18, 1963, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Currently effective § 4b.334(e) prescribes, for airplanes with retractable landing gear: That a means "be provided for indicating to the pilot when the gear is secured in the extended and in the retracted positions"; that, in addition, landplanes "be provided with an aural warning device which will function continuously when one or more throttles are closed if the gear is not fully extended and locked"; and that, if a manual shutoff for the aural warning device is provided, it "be installed so that reopening the throttles will reset the warning mechanism."

The Air Line Pilots Association (ALPA) has suggested to the Agency that many airplanes fitted with means to shut off the aural warning may be landed with throttles at or near the fully retarded position. On such airplanes, it states, the throttles are not necessarily reopened after the aural warning is silenced during an approach, and an inadvertent gearup landing accident may result. To prevent such accidents, the ALPA proposes that the Agency: (1) Amend currently effective § 4b.334(e) to require that the landing gear aural warning system be not only throttle-actuated but also wing-flap-actuated, that manual shutoff for the wing-flap-actuated portion of the aural warning system be pro-

hibited, and that separate circuit protective devices be provided for the throttle-actuated and the wing-flap-actuated portions of the aural warning system; and (2) amend the operating rules to require a retrofit of these design features on all current transport category airplanes.

In support of its proposals, the ALPA contends that: (a) The currently prescribed landing gear warning system is inadequate because of the faster pace of present day operations (which reduces the effectiveness of the checklist on all airplanes) and because of the operational characteristics of jet transports (long straight-in approaches with throttles retarded, occasionally all the way to touchdown); (b) inadvertent gear-up landings are hazardous to the occupants; (c) inadvertent gear-up landings create adverse publicity for the airlines, and decrease public acceptance of air travel; (d) the proposed amendments would require only a simple low-cost modification of airplanes affected; and (e) two jet transport models already are fitted with the proposed wing-flap-actuated aural warning system.

The Agency finds, from a review of the accident record over the past eight years, that fifteen inadvertent gear-up landing accidents were reported in which airplanes operating under Parts 40, 41, and 42 were involved. Although these accidents did not result in either major injuries or fatalities, such accidents are potentially quite hazardous, particularly by reason of possible ignition of fuel which may be spilled.

From its analysis of the accident record, and from a study of operational practices relating to landing gear aural warning systems, the Agency believes that the currently prescribed throttle-actuated aural warning device, even though backed up to some extent by the prescribed landing checklist procedure, is not sufficiently effective in preventing inadvertent gear-up landing accidents. The Agency believes further that installation of the proposed wing-flap-actuated aural warning system would reduce the number of such accidents, thereby eliminating the potential hazard to the airplane occupants, preventing damage to the airplanes, and avoiding loss of public confidence in air travel.

The need for the additional provision dealing with separate circuit protective devices for the throttle-actuated and wing-flap actuated portions of the aural warning system is not supported by available evidence. The Agency considers that this provision would be unnecessarily burdensome in relation to the increment of safety which might be attained.

The format of any final rules adopted pursuant to this proposal will be subject to such changes as may be necessary for recodification under the Agency's recodification program announced in Draft Release 61-25 (26 F.R. 10698).

In consideration of the foregoing, it is proposed to amend Parts 4b, 40, 41, and 42 of the Civil Air Regulations as follows:

1. By amending § 4b.334(e) of Part 4b by adding a new subparagraph (4) to read as follows:

§ 4b.334 Retracting mechanism.

* * * * *
(e) *Position indicator and warning device.* * * *

(4) In addition to the requirements of subparagraphs (1), (2), and (3) of this paragraph, landplanes shall be provided with an aural warning device which will function continuously when the wing flaps are extended beyond the approach climb configuration setting or to a setting normally used following gear extension, whichever is the lesser flap setting, if the gear is not fully extended and locked. This warning device shall not be equipped with a manual shutoff.

2. By adding a new § 40.154 to Part 40 to read as follows:

§ 40.154 Landing gear aural warning device.

After December 31, 1963, landplanes having a maximum certificated weight of more than 12,500 pounds shall be provided with a landing gear aural warning device (in addition to the throttle-actuated device installed in compliance with the airworthiness requirements under which the landplane is type certificated) which will function continuously when the wing flaps are extended beyond the approach climb configuration setting or to a setting normally used following gear extension, whichever is the lesser flap setting, if the landing gear is not fully extended and locked. This warning device shall not be equipped with a manual shutoff.

3. By amending § 40.170(c)(1) to read:

§ 40.170 Aircraft instruments and equipment for all operations.

* * * * *
(c) * * *
(1) Instruments and equipment required to comply with airworthiness requirements under which the airplane is type certificated and as required by the provisions of § 40.110 and §§ 40.150 through 40.154.

4. By making similar amendments to those proposed in items 2 and 3 in Parts 41 and 42.

These amendments are proposed under the authority of sections 313(a), 601, 603, 604, 605, of the Federal Aviation Act of 1958 (49 U.S.C. 1354, 1421, 1423, 1424, 1425).

Issued in Washington, D.C., on May 10, 1963.

Director,
Flight Standards Service.

Pennsylvania further proposes to issue and sell to Ohio, and the latter proposes to acquire, 50,000 additional shares of Pennsylvania's authorized and unissued \$30 par value common stock for \$1,500,000 cash.

The proceeds from the sale of such bonds and common stock are to be used for construction and acquisition by Pennsylvania of additional facilities or to reimburse the company's treasury for expenditures made for such purposes. The company states that, based on present estimates, such proceeds, together with cash on hand and generated by operations, will meet its cash requirements during 1963 and part of 1964, but that it may be necessary in 1964 to issue and sell an additional \$600,000 of common stock.

Pennsylvania also proposes to issue and deliver to its bond Indenture Trustee, from time to time as needed, an aggregate of not more than \$2,185,000 principal amount of its First Mortgage Bonds, in lieu of the cash sinking fund requirements of the Indenture for the years 1963, 1964, 1965, 1966, and 1967, or to permit withdrawal of cash deposited in respect of such requirements. Such bonds are to be identical with Pennsylvania's existing 3¼ percent Series bonds due 1982 heretofore issued under the Indenture as supplemented, particularly the Third Supplemental Indenture dated February 1, 1952.

The fees and expenses to be incurred by Pennsylvania in connection with the proposed issue and sale of common stock and the issue of the sinking fund bonds are estimated as follows:

Federal stock	Original Issue Tax on	
State Excise Tax on stock		\$1,500
Charges of Indenture Trustee		1,300
Fee of Counsel (Messrs. Winthrop, Stimson, Putnam & Roberts)		1,000
Miscellaneous		200
		<u>7,200</u>

¹ Paid in April 1961 in connection with the increase in authorized capital.

The fees and expenses to be incurred in connection with the proposed issue and sale of the \$9,000,000 principal amount of First Mortgage Bonds are to be supplied by amendment.

The application states that the Pennsylvania Public Utility Commission has jurisdiction over the proposed issue and sale by Pennsylvania of the common stock and bonds, that applications have been filed with that Commission for approval of such transactions, and that the orders thereof will be made a part of this record by amendment to the application.

Notice is further given that any interested person may, on or before May 31, 1963, request in writing that a hearing be held in respect of such matters, stating the nature of his interest, the reasons for the request, and the issues of law or fact which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof.
