Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 89—FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM

Miscellaneous Amendments

On March 16, 1963, a notice of proposed rule-making was published in the FEDERAL REGISTER (28 F.R. 2587) stating that the Civil Service Commission proposed to revise Part 89 of Title 5 of the Code of Federal Regulations to read as set forth therein. This notice indicated that it was proposed to make the amendment of § 89.13 effective not later than May 1, 1963, and the other proposed amendments effective November 1, 1963. Interested persons were allowed 30 days from the date of publication in which to submit written comments, suggestions, and objections.

The comments, suggestions, and objections received in reference to the March 16, 1963, notice have been given full and careful consideration. Those that relate to the substantive provisions of the proposed amendments are discussed below.

Three health benefits carriers objected to the provision of proposed § 89.13 to the effect that the Commission will not consider until after the expiration of the then current contract period any proposal for change which is received less than 6 months before the expiration of the then current contract period. They felt that they would not have enough time to evaluate the effect of newly-adopted benefit improvements before having to commit themselves on premium rates and benefits for the next contract year.

The Commission recognizes that there is considerable merit to this objection. However, inasmuch as the requirement is not unreasonable and since the Commission needs this much "lead" time to do an adequate job of negotiating health benefits contracts and informing employees as to changes, decision has been made not to make any change in this proposed amendment except to change the effective date from May 1, 1963, to November 1, 1963.

One carrier proposed that additions be made to the regulations which would (1) prevent any upward revision of the benefits initially proposed by carriers as the result of Commission counter proposals, and (2) require that all carrier proposals become a matter of public record as received on and after the deadline date of April 30, 1963.

Adoption of this proposal would have the effect of letting each carrier decide entirely on his own just what benefits he would provide employees during the next contract year, as well as what he would charge for these benefits. It

would also defeat the Commission's overall responsibility for insuring that all employees get a reasonable return in potential benefits for what they and the government pay in premiums. It is believed that this responsibility can best be discharged by negotiation with carriers on an individual basis, with all information relating to these negotiations with each carrier being kept confidential until agreement is reached with all carriers.

Two carriers suggested changes in the manner in which the provision of proposed § 89.23 would make reserve funds in excess of one month's premium available to an experience rated carrier. The Commission believes the proposed amendment handles this problem in as equitable and reasonable manner as possible in the circumstances.

A carrier suggested that it would be desirable to amend § 89.23 further to make the administrative reserves available to carriers under the circumstances. Legislation would be required to put this suggestion into effect.

Finally, two suggestions for editorial changes designed to clarify the intent of the proposed amendments were received. One related to § 89.23(c)(2) and has been adopted.

In view of the opportunities already provided for comment, the Commission finds that further opportunity to participate in the rule-making procedure is neither necessary nor in the public interest, and therefore:

It is ordered, That effective November 1, 1963, §§ 89.11(a)(9), 89.13, and 89.23(c) of Part 89 of Chapter I of Title 5, Code of Federal Regulations, are amended to read as follows:

§ 89.11 Minimum standards for health benefits plans.

(a) * * *

(9) Provide for a special reserve for the plan. The carrier shall account for amounts retained by it as reserves for the plan separately from reserves maintained by it for other plans. The carrier shall invest the special reserve and income derived from the investment of the special reserve shall be credited to the special reserve. If the contract is terminated or approval of the plan is withdrawn, the carrier shall return the special reserve to the Employees Health Benefit Fund. However, in the case of a group-practice plan, the carrier, without regard to the foregoing provisions of this subparagraph, shall follow such financial procedures as are mutually agreed on by the carrier and the Commission.

§ 89.13 Application for approval of, and proposal of amendment to, health benefits plans.

(a) Application for approval of comprehensive medical plans may be made by letter to the United States Civil Serv-

ice Commission, Washington 25, D.C. Approval of a plan will become effective on a date to be set by the Commission for the plan. An application received less than 6 months in advance of a contract period will not be approved for that contract period.

(b) Any proposal for change in a health benefits plan shall be in writing, specifically describe the change proposed, and be signed by an authorized official of the carrier. The Commission will review a proposal for change and notify the carrier whether it accepts the change and may make a counterproposal or at any time propose changes on its own motion. The Commission will not consider until after the expiration of the then current contract period any proposal for change which is received less than 6 months before the expiration of the then current contract period.

§ 89.23 Reserves.

(c)(1) The contingency reserve for each plan is credited with (i) the three one-hundred and fourths of the enrollment charge set aside for the contingency reserve from the enrollment charges for employees and annuitants enrolled for that plan, (ii) income from investment of the reserve, and (iii) all dividends, rate adjustments, or other refunds made by the plan. The preferred minimum balance for the contingency reserve is 1 month's subscription charges at the average monthly rate paid from the Employees Health Benefits Fund for the plan during the most recent contract period.

(2) When, as of the end of a contract period, the total of all the reserves held by a carrier (other than a group-practice carrier) for the plan amounts to less than the total of the last 5 months' subscription charges paid from the Fund to the carrier for the plan, the carrier is entitled to payment from the contingency reserve of the lesser of: An amount equal to the difference between the total of the last 5 months' subscription charges paid from the Fund to the carrier for the plan and the total of the reserves held by the carrier for the plan, or an amount equal to the excess, if any, of the contingency reserve over the preferred minimum balance. The Commission shall authorize this payment after receipt of the accounting report for the contract period. The carrier shall credit the amount so paid to the special reserve for the plan.

(3) If a group-practice carrier's contingency reserve exceeds the preferred minimum balance, the carrier may request the Commission to pay a portion of the reserve not greater than the excess of the contingency reserve over the preferred minimum balance. The carrier shall state the reason for the re-

quest. The Commission will decide whether to allow the request in whole or in part and will advise the plan of its decision.

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

[Peach Reg. 2]

PART 921—FRESH PEACHES GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Limitation of Shipments

§ 921.302 Peach Regulation 2.

(a) *Findings.* (1) Pursuant to the marketing agreement, and Order No. 921 (7 CFR Part 921), regulating the handling of fresh peaches grown in designated counties in Washington, effective May 27, 1960, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the recommendations of the Washington Fresh Peach Marketing Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of fresh peaches, in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that, as herein-after set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 8, 1963. A reasonable determination as to the supply of, and the demand for, peaches must await the development of the crop and adequate information thereon was not available to the Washington Fresh Peach Marketing Committee until May 28, 1963; recommendation as to need for, and the extent of, regulation of shipments of such peaches was made at the meeting of said committee on May 28, 1963, after consideration of all available information relative to the

supply and demand conditions for such peaches, at which time the recommendation and supporting information were submitted to the Department; necessary supplemental data for consideration in connection with the specifications of the provisions were not available until June 17, 1963; shipments of the current crop of such peaches will begin on or about July 8, 1963, and this section should be applicable, insofar as practicable, to all shipments of such peaches in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* During the period beginning at 12:01 a.m., P.s.t., July 8, 1963, and ending at 12:01 a.m., P.s.t., November 1, 1963, no handler shall handle any lot of peaches unless such peaches meet the following applicable requirements, or are handled in accordance with subparagraph (5) of this paragraph:

(1) *Minimum grade requirement.* Such peaches shall grade at least Washington No. 1: *Provided*, That peaches of any variety which are damaged but not seriously damaged by hail injury, healed open seams, or rough suture growth may be shipped if they otherwise grade at least Washington No. 1.

(2) *Uniform firmness requirement.* Such peaches in individual containers shall have a reasonably uniform degree of firmness.

(3) *Minimum size requirements.* Such peaches shall measure at least $2\frac{3}{8}$ inches in diameter: *Provided*, That any lot of peaches shall be deemed to meet such minimum diameter requirement if (i) not more than 10 percent, by count, of the peaches in such lot are smaller than $2\frac{3}{8}$ inches in diameter, or (ii) such peaches are not smaller than a size that will pack 65 peaches in a standard peach box, 72 peaches in a cascade lug box, or 72 peaches in a L.A. lug box, or other containers of a capacity at least equivalent to the L.A. lug box.

(4) *Pack requirements.* Such peaches in loose or jumble packs shall be in containers of a capacity equal to or greater than that of the western lugs (boxes with inside dimensions of 7 inches by $11\frac{1}{2}$ inches by 18 inches) and shall contain not less than 26 pounds net weight of peaches: *Provided*, That such containers of peaches having less than 26 pounds net weight of peaches may be handled if such containers are well filled.

(5) Notwithstanding any other provisions of this section, any individual shipment of peaches which (i) does not, in the aggregate, exceed 150 pounds may be handled without regard to the restrictions specified in this paragraph (grade, size, pack, and container) or in §§ 921.41 (Assessments) or 921.55 (Certification), (ii) is in excess of 150 pounds but not in excess of 500 pounds, and is for home use only and not for resale in commercial channels may be handled without regard to the restrictions in § 921.55 (Certification) or the pack and container requirements of this paragraph: *Provided*, That the fruit so shipped meets the grade and size requirements of this paragraph and

is subject to § 921.41 (Assessments) and is reported to the committee on forms furnished by the committee in the manner specified therein.

(6) The terms "Washington No. 1," "damage," "serious damage," and "hail injury," shall have the same meaning as when used in the Washington State Department of Agriculture Standards for Peaches (1963); the term "loose or jumble pack" shall mean that the peaches are not placed in the container in rows, cups, compartments, or otherwise are not placed in the container in symmetrical order; the term "standard peach box" shall mean a wooden container with inside dimensions of $4\frac{1}{2}$ to 5 by $11\frac{1}{2}$ by 16 inches; the term "cascade lug box" shall mean a wooden container with inside dimensions of 6 by $11\frac{1}{2}$ by 18 inches; the term "L.A. lug box" shall mean a wooden container with inside dimensions of $5\frac{3}{4}$ by $13\frac{1}{2}$ by $16\frac{1}{8}$ inches, except that the 1-layer L.A. lug shall have a depth of not less than $3\frac{1}{2}$ inches; the term "diameter" shall mean the greatest distance, measured through the center of the peach at right angles to a line running from the stem to the blossom end; and terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in the marketing agreement and order.

Chapter X—Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order No. 135]

PART 1135—MILK IN THE COLORADO SPRINGS-PUEBLO MARKETING AREA

Order Suspending Certain Provision

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Colorado Springs-Pueblo marketing area (7 CFR Part 900), it is hereby found and determined that:

(a) The following provision of the order does not tend to effectuate the declared policy of the Act:

In § 1135.46(a)(2)(i) the words "if such fluid milk products are not processed and packaged in the pool plant during the month".

(b) Thirty days notice of effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions

and to maintain orderly marketing conditions in the marketing area.

(3) This suspension will permit Colorado Springs-Pueblo order handlers to receive packaged milk products from an Eastern Colorado order pool plant and have such products classified and deducted from Class I if they were classified as Class I at the Eastern Colorado pool plant. Under present provisions such milk so transferred could receive a Class II assignment under the Colorado Springs-Pueblo order if the same product was packaged in that plant.

Eastern Colorado order handlers are installing one-gallon paper packaging machines while no such machines are being installed by Colorado Springs-Pueblo handlers. This suspension will permit handlers regulated under the Colorado Springs-Pueblo order to receive the packaged milk from plants regulated under the Eastern Colorado order with identical classification of the milk under both orders. This will facilitate the movement of milk packaged in this container size and permit the Colorado Springs-Pueblo handlers to offer the product in competition with Eastern Colorado handlers.

(4) This suspension was requested by the operators of two distributing plants regulated under the Colorado Springs-Pueblo order and by the principal cooperative in the Colorado Springs-Pueblo market.

(5) An invitation to all interested parties to submit written data, views, or arguments in connection with this suspension was issued on June 11, 1963 (28 F.R. 6082). Views favoring the suspension were received.

Therefore, good cause exists for making this order effective July 1, 1963.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended effective July 1, 1963.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: July 1, 1963.

Signed at Washington, D.C., on June 25, 1963.

JOHN P. DUNCAN, JR.,
Assistant Secretary.

(6) St. Croix Island of the Virgin Islands of the United States;

(7) All counties in Missouri except Jackson, Lafayette, Saline, Cooper, Moniteau, Cole, Osage, Gasconade, Franklin, St. Louis, and all counties in the State of Missouri lying south thereof;

(8) All counties in Illinois except Madison, Bond, Clinton, Marion, Clay, Richland, Lawrence, and all counties in the State of Illinois lying south thereof.

(Secs. 4-7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791-792, as amended, secs. 1-4, 33 Stat. 1264, as amended, 1265, as amended; 21 U.S.C. 111-113, 115, 117, 120, 121, 123-126; 19 F.R. 74, as amended)

Effective date. The foregoing amendments shall become effective upon issuance.

The amendments add Madison, Bond, Clinton, Marion, Clay, Richland, and Lawrence Counties and all counties in the State of Illinois lying south thereof, to the list of free areas and delete such counties from the list of infected and eradication areas as sheep scabies is no longer known to exist therein. Hereafter, the restrictions pertaining to the interstate movement of sheep from or into infected and eradication areas as contained in 9 CFR Part 74, as amended, will not apply to these counties. However, the restrictions in said Part 74 pertaining to the interstate movement of sheep from or into free areas will apply to these counties.

The amendments relieve certain restrictions presently imposed and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and contrary to the public interest, and the amendments may be made effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 25th day of June 1963.

Acting Administrator,

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Rev. 2]

PART 120—LOAN POLICY

The Small Business Administration is terminating its Deferred Participation Loan program as of July 1, 1963. In place of the Deferred Participation Loan

program, the Small Business Administration is inaugurating a Loan Guaranty Plan. All deferred participation loans made by this Agency prior to publication of this revision shall continue in full force and effect and those loans shall continue to be governed by SBA regulations which were in effect at the time that the deferred participation loan was made.

Guaranteed loans are those in which a financial institution loans funds to a small business concern, and the Small Business Administration agrees to purchase, upon default by the borrower, an agreed portion not to exceed 90 percent of the loan outstanding at the time of default. During the time that the Small Business Administration may be obligated to purchase pursuant to its Guaranty Agreement, the financial institution may avail itself of liquidity privileges from the Small Business Administration up to the amount of the loan guaranteed by the Small Business Administration. The total maturities of such temporary advances to the financial institution from the Small Business Administration shall not exceed ninety days in any twelve-month period. No such advance shall be made the maturity of which is less than fifteen days, nor may the maturity of the advance extend beyond the maturity date of the note evidencing the loan from the financial institution to the small business concern.

The Small Business Administration Loan Policy Regulation, Revision 1 (13 CFR Part 120, 28 F.R. 210) is hereby revoked in its entirety and the following substituted in lieu thereof:

- Sec.
120.0 Introduction.
120.1 Business loans and guarantees.
120.2 Terms and conditions of financial assistance.
120.3 Disaster loans and guarantees.

AUTHORITY: §§ 120.0 through 120.3 issued under Public Law 85-536, sec. 5, 72 Stat. 385.

§ 120.0 Introduction.

(a) This part is established by the SBA to set forth principles and policies which will be followed in the granting and denial of financial assistance to small-business concerns. It is not intended that this general statement of policy provide answers to all questions which may arise in connection with specific applications.

(b) "Financial Assistance" as used in this part shall include direct loans made by SBA, immediate participation loans, and guaranteed loans.

(c) "Financial Institution" as used in this part shall include, but not be limited to, banks and other concerns whose regular course of business entails the making of commercial and industrial loans.

§ 120.1 Business loans and guarantees.

Basic principles governing the granting and denial of applications for financial assistance:

(a) Applications for financial assistance may be considered only when there is evidence that the desired credit is not otherwise available on reasonable terms. The financial assistance applied for shall be deemed to be otherwise available on

reasonable terms, unless it is satisfactorily demonstrated that:

(1) Proof of refusal of the required financial assistance has been obtained from—

(i) The applicant's bank of account,

(ii) If the amount of financial assistance applied for is in excess of the legal lending limit of the applicant's bank or in excess of the amount that the bank normally lends to any one borrower, then a refusal from a correspondent bank or from any other lending institution whose lending capacity is adequate to cover the financial assistance applied for, and

(iii) Not less than two banks in cities where the population exceeds 200,000.

Proof of refusal must contain the date, amount and terms requested, and the reasons for not granting the desired credit. Bank refusals to advance credit should not be considered the full test of unavailability of credit and, where there is knowledge or reason to believe that credit is otherwise available on reasonable terms from sources other than such banks, the financial assistance applied for cannot be granted notwithstanding the receipt of written refusals from such banks.

(2) The financial assistance required does not appear to be obtainable:

(i) On reasonable terms through the public offering or private placing of securities of the applicant,

(ii) Through the disposal at a fair price of assets not required by the applicant in the conduct of its existing business or not reasonably necessary to its potential healthy growth, and

(iii) Without undue hardship through utilization of the personal credit or resources of the owner, partners, management or principal shareholders of the applicant.

(iv) Through V-loan, or other applicable Government financing.

(b) It is the policy to stimulate and encourage loans by banks and other lending institutions.

(1) An applicant for a direct SBA loan must show that an immediate participation or guaranteed loan is not available. An applicant for an immediate participation loan must show that a guaranteed loan is not available.

(2) SBA's share of immediate participation loans shall not exceed 90 percent of the loan. In guaranteed loans the exposure of SBA under the guaranty may not exceed 90 percent of the unpaid principal balance and accrued interest.

(3) No agreement to extend financial assistance under the Small Business Act shall establish any preferences in favor of a bank or other lending institution, except in accordance with the Early Maturities Participation Plans set forth in Part 122 of this chapter.

(c) No financial assistance shall be extended unless there exists reasonable assurance that the loan can and will be repaid pursuant to its terms. Reasonable assurance of repayment will exist only where the past earnings record and future prospects of the firm indicate ability to repay the loan out of income from the business. It will be deemed

not to exist when the proposed loan is to accomplish an expansion which is unwarranted in the light of the applicant's past experience and management ability, or when the effect of making the loan is to subsidize inferior management.

(d) Financial assistance will not be granted by SBA:

(1) If the direct or indirect purpose or result of granting such assistance would be to—

(i) Pay off a creditor or creditors of the applicant who are inadequately secured and are in position to sustain a loss.

(ii) Provide funds, directly or indirectly, for payment, distribution, or as a loan to owners, partners or shareholders of the applicant which do not change ownership interests in applicant. This shall not apply to ordinary compensation for services rendered.

(iii) Refund a debt owed to a Small Business Investment Company.

(iv) Replenish funds theretofore used for such purposes.

(2) If the purpose of the applicant in applying for financial assistance is to effect a change in ownership of a business unless such change will promote the sound development or preserve the existence of a small-business concern;

(3) If the financial assistance will provide or free funds for speculation in any kind of property, real or personal, tangible or intangible;

(4) If the applicant is an eleemosynary institution or other nonprofit enterprise: *Provided, however,* That this provision shall not be construed to bar financial assistance to a cooperative if it carries on a business activity and the purpose of such activity is to obtain pecuniary benefit for its members in the operation of their otherwise eligible small-business concerns.

(5) If the purpose of the financial assistance is to finance the construction, acquisition, conversion or operation of recreational or amusement facilities, unless such facilities contribute to the health or general well-being of the public;

(6) If the applicant is a newspaper, magazine, book publishing company, radio broadcasting company, television broadcasting company or similar enterprise;

(7) If 50 percent or more of the net sales of the applicant is derived from the sale of alcoholic beverages;

(8) If any part of the gross income of the applicant (or of any of its principal owners) is derived from gambling activities;

(9) If the financial assistance is to provide funds to an enterprise primarily engaged in the business of lending or investments or to any otherwise eligible enterprise for the purpose of financing investments not related or essential to the enterprise;

(10) If the purpose of the financial assistance is to finance the acquisition, construction, improvement or operation of real property which is, or is to be, held primarily for sale or investment: *Provided, however,* That this prohibition shall not apply to financial assistance for the remodeling or improvement (includ-

ing limited expansion) of existing commercial or industrial structures held for rental where the applicant is performing substantial maintenance and operational services in connection with such structures: *And provided further*, That no financial assistance may be extended to build or acquire buildings for investments.

(11) If the effect of the granting of the financial assistance will be to encourage monopoly or will be inconsistent with the accepted standards of the American system of free competitive enterprise;

(12) If the financial assistance would be used primarily in a farming or other agricultural activity; or if the applicant is a processor of agricultural commodities and grows or produces more of the commodities processed than he purchases from others.

§ 120.2 Terms and conditions of financial assistance.

(a) *Maturities.* The maturity of business loans made under the Small Business Act shall be restricted to the minimum consistent with sound business practice, not to exceed 10 years.

(b) *Charges on guaranteed loans—*
(1) *Charges.* In guaranteed loans (those made by a financial institution with which SBA has entered into an agreement to guarantee as set forth in Part 122 of these Regulations), a guaranty charge shall be payable by the financial institution to SBA for such agreement. The guaranty charges shall be on a sliding scale based upon the percentage of the loan which SBA may be obligated to purchase. Such charges, which shall not be charged to the borrower by the participating financial institution shall be as follows:

(i) For an amount not in excess of 75 percent of the loan, $\frac{1}{2}$ of 1 percent per annum on the portion of the loan which SBA has guaranteed;

(ii) For an amount in excess of 75 percent of the loan, 1 percent per annum on the portion of the loan which SBA has guaranteed.

(2) *Interest.* (i) Except as provided in subdivisions (iii) and (iv) of this subparagraph, interest on SBA's share of immediate participation loans shall not exceed $5\frac{1}{2}$ percent per annum and where the rate of interest on the share of the loan of the bank or other financial institution is less than $5\frac{1}{2}$ percent per annum then the rate of SBA's share of the loan shall be at the same rate, but not less than 5 percent per annum. Subject to the approval of SBA, a participating financial institution may establish such rate of interest on its share of a loan as shall be legal and reasonable, but in no event to exceed 8 percent per annum.

(ii) *Direct loans:* Except as provided in subdivisions (iii) and (iv) of this subparagraph, interest on direct loans made by SBA shall be at the rate of $5\frac{1}{2}$ percent per annum, except as may be otherwise required by reason of the provisions of the Servicemen's Readjustment Act of 1944, as amended.

(iii) Interest on a direct loan or on the SBA share of an immediate participation loan, approved or disbursed sub-

sequent to September 14, 1961, to a small-business concern pursuant to section 7 (a) of the Act, shall be at the rate of 4 percent per annum if, at the time of approval or initial disbursement, such concern agrees or has agreed to use more than 50 percent of the proceeds of such assistance in the operation or establishment of its business located or to be located in:

(a) A Redevelopment Area designated in accordance with the Area Redevelopment Act (Public Law 87-27); or

(b) An area of Substantial Unemployment or an Area of Substantial and Persistent Unemployment as classified by the Department of Labor provided such area is listed as such by that Department in its publication "Area Labor Market Trends" for the month of September 1961, and in each subsequent issue of that publication until the time of such approval or initial disbursement of the loan.

The provisions of this subdivision shall not apply to assistance authorized pursuant to section 7(a)(5) of the Small Business Act, as amended (Group Corporation Loans), and to loans guaranteed by the Small Business Administration.

(iv) Interest on SBA's share of financial assistance, which may be extended to Group Corporations shall be at the rate of 5 percent per annum. Subject to the approval of SBA, financial institutions may establish such rate of interest on their share of participation or guaranteed loans as shall be legal and reasonable, but in no event to exceed 8 percent.

(v) In the event SBA purchases pursuant to a guaranty agreement, the interest rate on the part of the loan purchased by SBA shall be $5\frac{1}{2}$ percent per annum: *Provided, however*, That where the rate of interest on the financial institution's loan is less than $5\frac{1}{2}$ percent, then the rate of the SBA's part shall be at the same rate, but not less than 5 percent per annum.

(vi) The interest rate on temporary advances to financial institutions under the liquidity privilege of the Loan Guaranty Plan shall be $4\frac{1}{2}$ percent per annum computed on a per diem basis.

(3) *Service fees.* In immediate participation loans made and serviced by a financial institution, the financial institution may deduct a service fee only out of interest collected for the account of SBA so long as the bank is servicing the loan, and provided that such fee shall not be added to any amount which borrower is obligated to pay under the loan. Where SBA's share of the loan is 75 percent or less, the service fee shall be $\frac{1}{2}$ of 1 percent per annum on the unpaid principal balance of SBA's share of the loan. Where SBA's share is in excess of 75 percent of the loan, the service fee shall be $\frac{1}{4}$ of 1 percent per annum on the unpaid principal balance of SBA's portion of the loan.

§ 120.3 Disaster loans and guarantees.

(a) Financial assistance for disaster relief will be considered on an individual basis in the light of circumstances of the applicant and of the particular dis-

aster or business displacement. Such financial assistance will be made to relieve the distress and hardships attendant upon the disasters or business displacement. Financial assistance may be extended:

(1) To rehabilitate or replace property damaged or lost as a result of disasters declared by SBA, declarations of which are published in the FEDERAL REGISTER (Physical-Loss Disaster Assistance). Financial assistance may not be used to rehabilitate or replace personal recreation or vacation homes, cabins or similar facilities. Farmers, stockmen and others engaged primarily in an agricultural activity are not eligible for disaster loans, except that, where the disaster area is located beyond the territorial jurisdiction of any other Federal lending agency otherwise authorized to provide such assistance.

(2) To any small-business concern located in an area affected by drought or excessive rainfall, if SBA determines that the small-business concern has suffered a substantial economic injury as a result of such drought or excessive rainfall, and the President has determined that such drought or excessive rainfall is a major disaster, or the Secretary of Agriculture or his designee has found that such drought or excessive rainfall constitutes a production or economic disaster in such area (Excessive Rainfall or Drought Disaster Assistance).

(3) To any small-business concern which has been displaced by a federally aided urban renewal or highway construction program or by any other construction conducted by or with funds provided by the Federal Government, if SBA determines that the small-business concern has suffered substantial economic injury as a result of such displacement (Displaced Business Disaster Assistance). Financial assistance may be extended as SBA determines to be necessary or appropriate to assist displaced small-business concerns in re-establishing their business.

(4) Small-business concerns which were established or in which a substantial change of ownership occurred after the approval of a federally aided project are not eligible for financial assistance under this section. Religious, eleemosynary, agricultural and nonprofit organizations are not eligible for Displaced Business Disaster Assistance. Financial assistance may not be made for replacement or rehabilitation of homes or apartment houses.

(b) (1) Interest on SBA's share of financial assistance, excluding loans under the Displaced Business Disaster Assistance program, shall be at the rate of 3 percent per annum. Where a disaster loan is made for the acquisition or construction (including acquisition of site therefor) of housing for the personal occupancy of the borrower, the interest rate on the entire loan shall be at the rate of 3 percent per annum. Where a participating institution's share of an immediate participation loan represents complete conversion of a predisaster loan made by such institution the interest rate on the participating institution's share

may be at a rate accepted as reasonable by SBA.

(2) Interest on SBA's share of financial assistance made under the Displaced Business Disaster program shall be at a rate determined by SBA in conformity with the statutory formula set forth in the Small Business Act, as amended.

(c) The maximum maturity, including renewals and extensions, for disaster loans shall not exceed 20 years.

(d) SBA's share of immediate participation disaster loans shall not exceed 90 percent of the loan. In guaranteed disaster loans the exposure of SBA under the guaranty may not exceed 90 percent of the unpaid principal balance and accrued interest.

(e) No service fees shall be charged on disaster loans.

This revision of Part 120 shall become effective July 1, 1963.

Chapter I—Federal Aviation Agency

SUBCHAPTER E—AIRSPACE [NEW]

[Airspace Docket No. 63-SW-2]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Alteration of Control Zone, Designation of Transition Area and Revocation of Control Area Extension

On April 17, 1963, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (28 F.R. 3732) stating that the Federal Aviation Agency (FAA) proposed to alter the Wink, Tex., control zone, designate the Wink transition area, and revoke the Wink control area extension.

Subsequent to the publication of the notice, the Wink radio range has been decommissioned. Accordingly, the proposed control zone extension based on the south course of the radio range is no longer required for air traffic control purposes. However, a portion of this extension will continue to be required for the protection of aircraft executing instrument approach procedures based on the Wink VOR 161° (recently changed from the 162°) True radial, which is in approximately the same location as the south course of the radio range. Therefore, action is taken herein to revoke the control zone extension based on the radio range south course and designate an extension on the Wink VOR 161° True radial, extending from the VOR to 5 miles south of the Winkler County Airport.

Interested persons have been afforded and opportunity to participate in the making of the rules herein adopted, and no adverse comments were received regarding the proposed amendments.

The substance of the proposed amendments having been published and for the reasons stated herein and in the notice, the following actions are taken:

1. In section 71.171 (27 F.R. 220-91, November 10, 1962), the Wink, Tex., control zone is amended to read:

Wink, Tex.

Within a 3-mile radius of the Winkler County Airport (latitude 31°46'45" N., longitude 103°12'05" W.); within 2 miles each side of the Wink VOR 161° radial, extending from the VOR to 5 miles south of the airport.

2. Section 71.181 (27 F.R. 220-139, November 10, 1962) is amended by adding the following:

Wink, Tex.

That airspace extending upward from 1,200 feet above the surface within the area bounded by a line beginning at latitude 31°33'40" N., longitude 102°59'10" W.; to latitude 31°26'20" N., longitude 103°01'00" W.; to latitude 31°26'30" N., longitude 103°29'30" W.; to latitude 32°00'00" N., longitude 103°29'30" W.; to latitude 32°06'45" N., longitude 103°07'50" W.; to latitude 32°04'50" N., longitude 102°58'00" W.; to latitude 31°34'20" N., longitude 103°03'45" W.; to point of beginning.

3. In Section 71.165 (27 F.R. 220-59, November 10, 1962), the Wink, Tex., control area extension is revoked.

These amendments shall become effective 0001 e.s.t., August 22, 1963.

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

PLASTICIZERS

The Commissioner of Food and Drugs, having evaluated the data in petitions submitted by Monsanto Chemical Company, 800 North Lindbergh Boulevard, St. Louis 66, Missouri, and other relevant material, has concluded that § 121.2511 should be amended to provide for the use of dicyclohexyl phthalate and diphenyl phthalate as plasticizers in polymeric substances used in the manufacture of articles that contact food. The Commissioner has further concluded that §§ 121.2523, 121.2527, and 121.2528 should be revoked and that the plasticizers di(2-ethylhexyl) adipate, epoxidized linseed oil, and di-n-hexyl azelate should be included in the revised § 121.2511. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1785; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations are amended as set forth below:

Agricultural Stabilization and Conservation Service

[7 CFR Part 728]

WHEAT

Notice of Determinations To Be Made With Respect to Amendment of Regulations Pertaining to Farm Acreage Allotments, Small Farm Bases and Normal Yields for 1964 and Subsequent Crop Years

Pursuant to the authority contained in applicable provisions of the Agricultural Adjustment Act of 1938, as amended, the Department is preparing to amend regulations pertaining to farm acreage allotments for the 1964 and subsequent crops of wheat to provide for the definition of wheat acreage and wheat cover crop. It is proposed for 1964 and subsequent crop years to eliminate the wheat mixture provision which exempts a mixture of wheat and other grains, grown in certain counties, from being classified as wheat acreage, if the mixture contains less than 50 percentum of wheat. Elimination of the wheat mixture provision would have the effect of exempting from the classification of wheat acreage an acreage devoted to a mixture only if such mixture does not contain enough wheat to cause the grain to be graded as "mixed grain" under the Official Grain Standards of the United States (Part 26 of this title).

It is also proposed to add to the definitions in the 1964 regulations the definition of "wheat cover crop" which formerly was contained in the 1961 wheat marketing quota regulations.

Disposal dates by counties and areas for compliance with farm allotments will be published in an amendment to the regulations.

Prior to the issuance of the proposed regulations any data, views or recommendations pertaining thereto which are submitted in writing to the Director, Farmer Programs Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington 25, D.C., will be given consideration, provided such submissions are postmarked not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

It is proposed that § 728.10 definitions be amended as follows:

(m) "Wheat acreage" means any acreage planted to wheat, and any acreage of volunteer wheat which reaches maturity, excluding:

(1) Any acreage of a mixture of other grains and wheat which does not contain enough wheat to cause the grain to be graded as "mixed grain" under the Official Grain Standards of the United States (Part 26 of this title).

(2) Any acreage of wheat cover crop.

(3) Any acreage of wheat grown for experimental purposes only by or under contract to a publicly owned agricultural experiment station.

(4) Any acreage of wheat in excess of the allotment on a wildlife refuge farm consisting solely of Federal or State-owned land provided such acreage is not harvested, but is left on the land for wildlife feed.

(5) Any acreage of unharvested wheat which is disposed of by mechanical means to the extent that such wheat cannot be harvested for grain or used for hay, pasture or silage (i) within 15 days after a delayed notice of excess acreage of wheat is mailed to the operator of the farm, or (ii) within an extended period of time as authorized by the State or county committee.

(6) Any acreage of unharvested wheat in excess of the allotment which is destroyed by some cause beyond the control of the operator to the extent that such wheat cannot be harvested for grain or used for hay, pasture or silage (i) prior to 30 days before the date wheat harvest normally begins in the county or areas within the county, (ii) within 15 days after a delayed notice of excess acreage of wheat is mailed to the operator of the farm, or (iii) within an extended period of time as authorized by the State or county committee.

(7) Any acreage of unharvested wheat not in excess of the allotment which is destroyed by some cause beyond the control of the operator to the extent that such wheat cannot be harvested for grain or used for hay, pasture or silage (i) prior to 30 days before the date wheat harvest normally begins in the county or areas within the county, (ii) within 15 days after a delayed notice of excess acreage of wheat is mailed to the operator of the farm, or (iii) within an extended period of time as authorized by the State or county committee; *Provided*, That this subparagraph (7) shall be applicable only if the producer requests the county committee to exempt such acreage not in excess of the allotment from the classification of wheat acreage (i) not later than 30 days prior to the date wheat harvest normally begins in the county or areas within the county, (ii) within 15 days after a delayed notice of excess acreage of wheat is mailed to the operator of the farm, or (iii) within an extended period of time as authorized by the State or county committee.

(8) Wheat acreage shall not include any acreage of emmer, spelt, spinkorn, Polish wheat, and poulard wheat except that any acreage of such grains containing more than 10 percent wheat shall be considered wheat acreage.

(n) "Wheat cover crop" means the acreage of wheat which does not reach maturity because it is, while still green, turned under, cut off or pastured off, to the extent that wheat will not mature as

grain, not later than 30 days prior to the date wheat harvest normally begins in the county or areas within the county.

OPHTHALMIC SOLUTIONS AND DISPENSERS

Proposal To Revise Statement of Policy

Since publication of § 3.28 *Sterility of ophthalmic solutions* in the FEDERAL REGISTER of January 16, 1953, the Commissioner of Food and Drugs has acquired data which demonstrate the need for additional requirements to insure the safety of using these solutions. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a)), and under the authority delegated to him by the Secretary of Health, Education, and Welfare, the Commissioner proposes to revise § 3.28 to read as indicated below:

§ 3.28 Ophthalmic solutions and dispensers.

(a) Investigations by pharmaceutical manufacturers, physicians, and the Food and Drug Administration have revealed that liquid preparations for ophthalmic use contaminated with viable microorganisms have been responsible for serious eye injuries and, in some cases, loss of vision. The Administration has conducted a survey and has found that it is the consensus of informed medical opinion that such preparations should be sterile. It is evident that liquid preparations offered or intended for ophthalmic use, including cosmetic-type preparations for cleansing the eyes and contact-lens solutions, purport to be of such purity and quality as to be suitable for safe use in the eye. The Administration concludes that such preparations fall below their professed standard of purity or quality and may be unsafe for use if they are not sterile. Accordingly, such liquid preparations offered or intended for ophthalmic use that are not sterile may be regarded as adulterated within the meaning of section 501(c) of the Federal Food, Drug, and Cosmetic Act and, further, may be misbranded within the meaning of section 502(j) of the act.

PROPOSED RULE MAKING

(b) Liquid ophthalmic preparations packed in multiple-dose containers should:

(1) Contain one or more suitable and harmless substances that will prevent the growth of micro-organisms; or

(2) Be so packaged as to volume and type of container and so labeled as to duration of use and with such necessary warnings as to afford adequate protection and minimize the hazard of injury resulting from contamination during use.

(c) Eye cups, eye droppers, and other dispensers intended for ophthalmic use should be sterile, and may be regarded as falling below their professed standard of purity or quality if they are not sterile. They should be so packaged as to maintain sterility and be so labeled as to afford adequate directions and necessary warnings to minimize the hazard of injury resulting from contamination during use.

It is further proposed to amend § 131.15 by revising the item "Ophthalmic Preparations" to read:

§ 131.15 **Drugs for human use; recommended warning and caution statements.**

* * * * *

Ophthalmic Preparations. (See also § 3.28 of this chapter.)

Warning—If irritation persists or increases, discontinue use and consult physician. Keep container tightly closed.

Solutions should include the statement: Do not touch dropper tip (or other dispensing tip) to any surface, since this may contaminate solution.

Boric acid offered for use in the preparation of ophthalmic solutions should bear the statement: Prepare solution by boiling in water. Store in a sterile container. Prepare sufficient for one day's use and discard unused portion.

Any interested person may, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, submit written views and comments thereon. Such comments should be filed, in triplicate, with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C.

Dated: June 21, 1963.

Deputy Commissioner
of Food and Drugs.

It appearing, that there have been filed with the Federal Maritime Commission tariff schedules naming an increased rate of 28 cents per cubic foot on "Bottles, Viz: Glass, with or without caps, covers, stoppers or tops" from Jacksonville, Florida to Puerto Rico to become effective June 10, 1963, designated as follows:

and

It further appearing, that upon consideration of the said schedules, there is reason to believe that the said increased rate, if permitted to become effective, would result in rates, charges, regulations, and/or practices which would be unjust, unreasonable, or otherwise unlawful in violation of the Shipping Act, 1916, as amended, or the Intercoastal Shipping Act, 1933, as amended; and

It further appearing, that the Commission is of the opinion that the new rate should be made the subject of a public investigation and hearing to determine whether it is unjust, unreasonable, or otherwise unlawful under the Shipping Act, 1916, as amended or the Intercoastal Shipping Act, 1933, as amended; and

It further appearing, that the effective date of the said rate should be suspended pending such investigation:

Now therefore it is ordered, That an investigation be, and it is hereby, instituted into and concerning the lawfulness of the proposed "Glass Bottles" rate contained in the said schedules, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant; and

It is further ordered, That the 28-cent per cubic foot rate on glass bottles scheduled to become effective on June 10, 1963 on 12th Revised Page 38 and as brought forward on 13th, 14th, and 15th Revised Pages No. 38 be, and it is hereby suspended and that the use thereof be, and it is hereby deferred to and including October 9, 1963, unless otherwise authorized by the Commission,

and that the rates, fares, charges, rules, regulations and/or practices heretofore in effect, and which were to be changed by the suspended rate, shall remain in effect during the period of suspension; and

It is further ordered, That no change shall be made in the matter hereby suspended nor the matter which is continued in effect as a result of such suspension until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs unless otherwise authorized by the Commission; and

It is further ordered, That there shall be filed immediately with the Commission by Sea-Land Service, Inc., Puerto Rican Division a consecutively numbered supplement to the aforesaid tariff schedule, which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described, and shall state that the aforesaid rates are suspended and may not be used until the 10th day of October 1963, unless otherwise authorized by the Commission; and that the rates heretofore in effect, and which were to be changed by the suspended rates shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission; and

It is further ordered, That copies of this order shall be filed with the said tariff schedule in the Bureau of Domestic Regulation of the Federal Maritime Commission; and

It is further ordered, That (I) the investigation herein ordered be assigned for public hearing by the Chief Examiner, before an examiner of the Commission's Office of Hearing Examiners, at a date and place to be announced; (II) Sea-Land Service, Inc., Puerto Rican Division be and it is hereby made respondent in this proceeding; (III) a copy of this order shall forthwith be

served upon said respondent; (IV) the said respondent be duly notified of the time and place of the hearing herein ordered; and (V) this order and notice of the said hearing be published in the FEDERAL REGISTER.

FEDERAL POWER COMMISSION

[Docket No. CP63-344 etc.]

COLORADO INTERSTATE GAS CO. ET AL.

Notice of Applications, Consolidation of Proceedings and Fixing Date of Hearing

JUNE 21, 1963.

Colorado Interstate Gas Company, CP63-344 (Phase One); Colorado Interstate Gas Company, CP63-344 (Phase Two); Kansas-Nebraska Natural Gas Company, Inc., CP63-340; Raton Natural Gas Company, CP62-131.

Take notice that on June 14, 1963, Colorado Interstate Gas Company (CIG), a Delaware corporation located in the Colorado Springs National Bank Building, Colorado Springs, Colorado, filed in Docket No. CP63-344 an application and supplement thereto requesting authorization to construct and operate certain facilities for the transportation and sale of natural gas in interstate commerce, pursuant to section 7(c) of the Natural Gas Act (Act), as amended, and to abandon certain existing transmission facilities, pursuant to section 7(b) of the Act, as amended, all as more fully set forth in the application.

CIG proposes to construct and operate certain facilities to increase the peak day

delivery capacity of its existing pipeline system in the Rocky Mountain area by approximately 133,000 Mcf of natural gas per day in order (1) to meet the additional requirements of its existing customers, estimated to be approximately 76,000 Mcf per day through the 1965-1966 winter; (2) to sell to Colorado Fuel and Iron Corporation (CF&I) an additional firm volume of 35,000 Mcf per day; (3) to sell to Raton Natural Gas Company (Raton) a firm volume of 2,100 Mcf per day; and (4) to sell to Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska), at a point in Weld County, Colorado, a firm volume of 20,000 Mcf per day. It also proposes to construct and operate a 275 mile pipeline to sell to Cities Service Gas Company (Cities) at a point near Blackwell, Oklahoma, a volume of 100,000 Mcf per day during 1964 and 1965 and a volume of 200,000 Mcf per day from and after January 1, 1966. The estimated cost of the proposed facilities is \$48,020,370. Colorado also seeks authorization to retire the major portion of its existing Bivins-Denver transmission line constructed in 1927 and 1928, together with certain other related facilities.

CIG requests that the application be considered and disposed of in two phases.

In "Phase One", in order to render the proposed service to Kansas-Nebraska, Raton and CF&I and to meet the 1963-1964 peak day requirements of the Rocky Mountain area, CIG proposes to construct and operate 7.1 miles of 20-inch pipeline between its Bivins and Fourway Compressor Stations in the Panhandle Field of Texas; 130.4 miles of 24-inch pipeline through the Arkansas Valley from the Morton Junction to Pueblo, all in the State of Colorado; 49.5 miles of 20-inch pipeline from Pueblo to North Colorado Springs, Colorado; 40.1 miles of 12 $\frac{3}{4}$ -inch pipeline from the Cheyenne Meter Station in Weld County, Colorado, to a point of connection with Kansas-Nebraska's proposed facilities near the Wyoming-Nebraska state line; various sales meter stations and other miscellaneous transmission facilities. The estimated cost of the "Phase One" facilities is \$14,023,000. Upon the commencement of operation of the "Phase One" facilities, CIG plans to retire approximately 122 miles of its Bivins-Denver transmission line together with certain related lateral facilities and compressor stations.

"Phase Two" involves the completion of the proposed expansion in the Rocky Mountain area and service to Cities. In "Phase Two" CIG proposes to construct and operate 58.9 miles of 20-inch pipeline from North Colorado Springs to Denver, Colorado; 32 miles of 10-inch pipeline to connect the existing Trinidad Lateral to the Morton Junction to Pueblo line; 275 miles of 24-inch transmission line between its Fourway Compressor Station and Blackwell, Oklahoma; three new compressor stations and the addition of 8730 horsepower at the Fourway Compressor Station. Upon the completion of the "Phase Two" facilities, CIG plans to retire an additional 83 miles of its Bivins-Denver line and certain other related facilities.

Take notice that in Docket No. CP63-340, Kansas-Nebraska Natural Gas Company, Inc., a Kansas corporation located in Phillipsburg, Kansas, on June 10, 1963, filed an application for a certificate of public convenience and necessity to install approximately 59 miles of 12-inch pipeline in order to receive the volumes of gas from CIG and to acquire, convert, develop and operate as a gas storage field the Third Dakota Formation of the Huntsman Field, Cheyenne, Nebraska, all as more fully set forth in the application. The storage facilities will include approximately 11,500 feet of 6-inch, 10-inch and 12-inch pipeline plus a 2,000 horsepower compressor which will be used both for the compression of the gas purchased from CIG for delivery into Kansas-Nebraska's main transmission facilities and for the injection of natural gas into storage. The estimated cost of the proposed project is \$4,185,893.

In Docket No. CP62-131 Raton Natural Gas Company filed on November 27, 1961, an application, pursuant 7(a) of the Act, as amended, seeking an allocation of natural gas from CIG for distribution in the city of Raton, New Mexico, and requesting authorization, pursuant to section 7(c) of the Act, as amended, to construct and operate 20.5 miles of transmission line, all as more fully set forth in the application. Notice of the application was published in the FEDERAL REGISTER on May 15, 1962 (27 F.R. 4600).

The proceedings in Docket Nos. CP63-344 (Phase One), CP63-340 and CP62-131 are related and should be heard on a consolidated record. They are hereby consolidated for hearing. These matters are such that they should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 16, 1963, at 9:30 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by the applications in Docket Nos. CP63-344 (Phase One), CP63-340 and CP62-131: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 12, 1963. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

The hearing date in Docket No. CP63-344 (Phase Two) will be fixed by a subsequent notice.

Secretary.

INDIANA & MICHIGAN ELECTRIC CO. Notice of Proposed Issuance and Sale of \$45,000,000 Principal Amount of First Mortgage Bonds at Competi- tive Bidding

JUNE 24, 1963.

Notice is hereby given that Indiana & Michigan Electric Company ("Indiana"),

2101 Spy Run Avenue, Fort Wayne 1, Indiana, an electric utility subsidiary company of American Electric Power Company, Inc., a registered holding company, has filed an application with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(b) and 12(c) of the Act and Rules 42 and 50 thereunder as applicable to the proposed transactions. All interested persons are referred to the application, on file at the office of the Commission, for a statement of the transactions therein proposed, which are summarized below.

Indiana proposes to issue and sell, pursuant to the competitive bidding requirements of Rule 50 under the Act, \$45,000,000 principal amount of its First Mortgage Bonds, --- percent Series due 1993. The interest rate on the bonds (which shall be a multiple of $\frac{1}{8}$ percent) and the price to be paid to Indiana (which shall be not less than 100 percent nor more than $102\frac{3}{4}$ percent of the principal amount of the bonds) will be determined by the competitive bidding. The bonds will be issued under a Mortgage and Deed of Trust made by Indiana to Irving Trust Company, New York, N.Y. and Frederick G. Herbst (James A. Austin, successor individual Trustee, New York, N.Y.) as Trustees, as heretofore supplemented and amended, and a new indenture supplemental thereto to be dated as of August 1, 1963.

The net proceeds from the proposed sale of bonds will be applied, to the extent necessary, to the prepayment, without premium, of Indiana's outstanding short-term notes payable to banks in the aggregate face amount of \$12,000,000 as at May 31, 1963, together with not in excess of \$17,000,000 additional face amount of notes that Indiana may issue and sell to banks prior to the proposed sale of bonds. The remaining proceeds will be added to Indiana's treasury funds and will be applied to extensions, additions and improvements to its properties.

The fees and expenses to be incurred and paid in connection with the proposed transactions are to be supplied by amendment.

Indiana has applied to the Public Service Commission of Indiana in which State Indiana is organized and doing business, and to the Michigan Public Service Commission in which State Indiana is qualified to do and is doing business, for authorization of the proposed issuance and sale of bonds. Copies of the orders entered therein are to be supplied by amendment. It is represented that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, on or before July 19, 1963, request in writing that a hearing be held in respect of such matters,

stating the nature of his interest, the reasons for the request, and the issues of law or fact which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the above-stated address, and proof of service by affidavit (or, if by an attorney at law, by certificate) should be filed contemporaneously with the request. At any time after said date the Commission may grant the application as it will be amended, as provided by Rule 23 under the Act, or the Commission may grant exemption from its general rules and regulations as provided by Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

For the Commission (pursuant to delegated authority).

J-F MACHINE, DIESEL & ELECTRONICS, INC.

Order Canceling Hearing and Perma- nently Suspending Exemption

JUNE 24, 1963.

J-F Machine, Diesel & Electronics, Inc. (issuer), a Pennsylvania corporation with its principal office and plant located at South Gulph Road, King of Prussia, Pennsylvania, filed with the Commission on December 6, 1960, a notification on Form 1-A and an offering circular and subsequently filed amendments thereto relating to an offering of 100,000 shares of Class A common stock, par value \$0.10 per share, at a public offering price of \$3.00 per share for an aggregate offering of \$300,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) and Regulation A promulgated thereunder. The offering was commenced on January 30, 1961. Vestal Securities Corporation (Vestal) was the original underwriter and sold 70,010 shares. The offering was amended on May 29, 1961 to name Albert James Company (James) as underwriter. James sold the remaining 29,990 shares and the offering was completed on or about October 10, 1961.

The Commission, on January 23, 1963, issued an order pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, which temporarily suspended the issuer's exemption under Regulation A. Said order provided an opportunity for a hearing, if requested by any interested party, on the question whether the temporary suspension order should be vacated or made permanent. A request for hearing was duly filed by the issuer.

The Commission asserted in support of its temporary suspension order that it had reasonable cause to believe that the issuer had failed to comply with certain terms and conditions of Regulation A in that: The offering was in excess of the \$300,000 limitation of Regulation A because of the failure to escrow certain stock subject to Rule 253(c) of the Regulation; the assignment by Vestal, the underwriter, of certain warrants in escrow was contrary to the provisions of Rule 253(c); and certain unregistered securities of the issuer not included in the Regulation A offering were issued and sold.

In addition, the Commission asserted that the issuer's offering circular was misleading as a result of the failure to disclose material facts, including the following: A net loss of the issuer; the existence of an agreement prior to the offering to issue shares of stock for services to a former director; the assignment of title to certain of issuer's equipment to its creditors; the assignment of rights, title and interest in the J-F 24 series engines to certain creditors; the true stock ownership of one of the issuer's directors; and the aggregate annual remuneration of all officers and directors.

The Commission further asserted that the issuer's offering circular was misleading as a result of the failure to disclose accurately and adequately certain material facts, including the following: The intended disposition of the proceeds of the offering; the purported sale of one of the issuer's J-F 24 engines to the U.S. Government; the terms of various repurchase agreements of the issuer with respect to its shares; and the book value of the issuer's stock at the commencement and at the termination of the offering.

The hearing requested by the issuer was convened on March 25, 1963, and continued for three days. Exhibits and affirmative evidence were offered by counsel of the Division of Corporation Finance in support of the matters underlying the temporary suspension order. Some 287 pages of testimony were recorded. The issuer then requested that the hearing be recessed in order to allow it further opportunity to prepare its defense; and this request was granted. By letter dated May 22, 1963, however, the issuer withdrew its request for a hearing, stating that it would present no defense to the Commission's charges and that such withdrawal was not to be construed by the Commission as an admission of any of the charges made in its temporary suspension order.

It is ordered, That the request for hearing be, and it hereby is, deemed withdrawn and further hearings herein are canceled; and

It is further ordered, Pursuant to the provisions of Rule 261(b) of Regulation A that the suspension of the Regulation A exemption from registration under the Securities Act of 1933, as amended, with respect to the proposed public offering of

securities by the issuer is hereby permanently suspended.

By the Commission.

The following certificate was issued to an establishment under paragraph (k) of § 519.6 of 29 CFR, Part 519. This certificate supplements the certificate issued pursuant to other paragraphs of that section, but does not authorize the employment of full-time students at rates below \$1.00 an hour in additional occupations. The certificate contains limitations on the percentage of full-time student hours of employment at rates below \$1.00 an hour to total hours of employment of all employees. The additional allowance applies to the specified months and varies from month to month between the minimum and maximum figures indicated.

G. C. Murphy Co., No. 298, Independence Mall, 2645 South Broad Street, Trenton, N.J.; effective 7-1-63 to 12-31-63; between 1 percent and 8 percent for the months of July, August, September, November and December (variety store; new store).

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not tend to displace full-time employees. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 523 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 519.9.

Signed at Washington, D.C., this 21st day of June 1963.
