Codification Guide

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1964, and specifies how they are affected.

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington, D.C., 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, Government Printing Office, Washington, D.C., 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Rules and Regulations

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES [NEW]

[Reg. Docket No. 4082; Amdt. 370]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES [NEW]

Miscellaneous Amendments

The amendments to the standard instrument approach procedures contained herein are adopted to become effective when indicated in order to promote safety. The amended procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the complete procedure is republished in this amendment indicating the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 97 [New] (14 CFR Part 97 [New]) is amended as follows:

1. By amending the following low or medium frequency range procedures prescribed in § 97.11(a) to read:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
Aberdeen VOR	AR LFR	Direct	2900	T-dn	300–1	300–1	200–½
				C-dn	400–1	500–1	500–1½
				S-dn-35	400–1	400–1	400–1
				A-dn	800–2	800–2	800–2

Procedure turn E side S crs, 162° Outbnd, 342° Inbnd, 2900′ within 10 miles.
Minimum altitude over facility on final approach crs, 1900′.
Crs and distance, facility to airport, 341°—2.3 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 2.3 miles after passing AR-LFR, make right climbing turn to 2900′ and return to the LFR. Hold S crs, 342° Inbnd, right turns.
NOTE: Final approach from holding pattern at LFR not authorized. Procedure turn required.

City, Aberdeen; State, S. Dak.; Airport Name, Aberdeen Municipal; Elev., 1301′; Fac. Class., SBRAZ; Ident., AR; Procedure No. 1, Amdt. 12; Eff. Date, 2 May 64; Sup. Amdt. No. 11; Dated, 21 Sept. 63

Pulaski VOR	Pulaski LFR	Direct	5100	T-dn	*500–1	*500–1	*500–1
				C-dn	800–2	800–2	800–2
				S-dn	NA	NA	NA
				A-dn	NA	NA	NA

Procedure turn S side of crs, 248° Outbnd, 068° Inbnd, 5100′ within 10 miles.
Minimum altitude over facility on final approach crs, 3900′.
Crs and distance, facility to airport, 059°—3.2 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 3.2 miles after passing Pulaski LFR, make a right climbing turn to PK-LFR at 5100′. Hold SW on PK-LFR, 248° Outbnd, 068° Inbnd, 1-minute right turns.
*CAUTION: Mountainous terrain 1500′ higher than airport elevation S, W, and N at 5 to 8 miles. Higher terrain at greater distances. Climb to 8000′ in an area bounded by bearing of 050° through 110° from LFR within 15 miles.
MSA: NE—5400′; SE—4600′; SW—5100′; NW—5100′.

City, Dublin; State, Va.; Airport Name, New River Valley; Elev., 2105′; Fac. Class., SBMRAZ; Ident., PK; Procedure No. 1, Amdt. 2; Eff. Date, 2 May 64; Sup. Amdt. No. 1; Dated, 21 Mar. 64

Eagle Pt. LF Int	ME LFR (final)	Direct	2600	*If Eagle Pt. Int is positively identified the following minimums apply:			
				C-dn	700–1	700–1	700–1½

Procedure turn E side of crs, 332° Outbnd, 152° Inbnd, 5000′ within 12 miles.
Minimum altitude over Eagle Pt. Int on final approach crs, 3900′; over ME LFR 2600′.
Crs and distance, facility to airport, 160°—2.1 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 2.1 miles after passing ME LFR, make immediate right turn, climb to 5000′ direct ME LFR thence continue on the N crs of ME LFR within 10 miles. All turns E side of N crs.
CAUTION: High terrain all quadrants.
Other change: Deletes transition from Gold Hill Int to ME LFR.
*If Eagle Pt. Int is not positively identified, minimum over ME LFR is 3900′. VOR equipment required to execute this procedure to reduced minimums.
MSA: 000°-090°—10,000′; 090°-180°—8600′; 180°-270°—7600′; 270°-360°—6300′.

City, Medford; State, Oreg.; Airport Name, Medford Municipal; Elev., 1330′; Fac. Class., SBRAZ; Ident., ME; Procedure No. 1, Amdt. 9; Eff. Date, 2 May 64; Sup. Amdt. No. 8; Dated, 27 Jan. 62

PROCEDURE CANCELLED, EFFECTIVE 2 MAY 1964.

City, Pocatello; State, Idaho; Airport Name, Municipal; Elev., 4448′; Fac. Class., BMRLZ; Ident., PIH; Procedure No. 1, Amdt. 4; Eff. Date, 26 Dec. 59; Sup. Amdt. No. 3; Dated, 17 Sept. 55

2. By amending the following automatic direction finding procedures prescribed in § 97.11(b) to read:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

Title 6—AGRICULTURAL CREDIT

Chapter V—Agricultural Marketing Service, Department of Agriculture

SUBCHAPTER B—EXPORT AND DOMESTIC CONSUMPTION PROGRAM

[Amdt. 3]

PART 540—PILOT FOOD STAMP PROGRAM

Miscellaneous Amendments

The regulations governing the Pilot Food Stamp Program as revised and reissued in 27 F.R. 9207, are amended as follows:

Section 540.14(c)(3) is amended to read as follows:

§ 540.14 Miscellaneous provisions.

* * * * *

(c) * * *

(3) *Retail food stores and wholesale food concerns.* Any authorized retail food store or authorized wholesale food concern may be disqualified from further participation by AMS for a reasonable, definitely stated pediod of time not to exceed three years as AMS may determine, if such retail food store or wholesale food concern fails to comply with the provisions of this part or any procedures or instructions issued pursuant thereto. AMS may reduce any such period of disqualification prior to the expiration of the period originally specified if it is determined by the Director of the Food Distribution Division, AMS, that the purpose for which the period of disqualification was imposed has been served and that the retail food store or wholesale food concern is currently responsible and willing to comply with the provisions of this part. The Director of the Food Distribution Division may require, as a condition precedent to any such reduction, a showing by the retail food store or wholesale food concern of its responsibility and willingness to comply with the provisions of this part or any procedures or any instructions issued pursuant thereto, including such instructions or directions as may be specified and accepted by such retail food store or wholesale food concern as an express condition to the reduction in the period of disqualification.

* * * * *

This amendment shall be effective when signed by the Secretary of Agriculture.

ROY W. LENNARTSON,
Acting Administrator.

Approved: April 21, 1964.
GEORGE L. MEHREN,
Assistant Secretary.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

SUBCHAPTER A—COMMODITY STANDARDS AND STANDARD CONTAINER REGULATIONS

PART 26—GRAIN STANDARDS

Fees and Charges

Statement of considerations. The regulations governing the fees and charges in an appeal or dispute (7 CFR 26.74) under the United States Grain Standards Act (7 U.S.C. 71 et seq.) were amended August 30, 1960 (25 F.R. 8247).

The administrative regulations issued by the U.S. Department of Agriculture concerning overtime for inspectional personnel, including employees engaged in appeal inspection work, were amended May 24, 1963 (8 AR 188.2, Amendment No. 347).

A further amendment to the regulations governing the fees and charges in an appeal or dispute is warranted to conform such regulations to the administrative regulations concerning overtime for inspectional personnel. The amendment will establish the criteria for charging for a two-hour minimum for overtime or holiday work, and will liberalize the commuted travel time allowances for such work. The change in the commuted travel time allowance will more nearly compensate the Department for the time spent in the travel required to perform overtime on appeal grain inspections.

At the present, the original and one copy of each appeal or dispute grade certificate are issued to the appellant of record or to his order, and one copy is issued to each other interested party of record or to his order. Additional copies of the certificates are frequently requested by the appellant or other interested parties. The furnishing of the additional copies is a time-consuming activity for which no charge has been made. The amendment establishes a fee of fifty cents ($0.50) for each additional copy to recover the cost of preparation and issuance.

Pursuant to the authority contained in section 8 of the United States Grain Standards Act, as amended (7 U.S.C. 84), § 26.74 of the regulations under the Act (7 CFR Part 26) governing the fees and charges in an appeal or dispute is amended as follows:

§ 26.74 Fees and charges.

The fee in an appeal or dispute shall be fixed as follows:

(a) For bulk or sacked grain in carload lots, $9.00 per car;

(b) For bulk or sacked grain in trucks and trailers, $5.50 per truck or trailer lot;

(c) For bulk or sacked grain in boats, barges, or other vessels, $2.25 per thousand bushels or fraction thereof, with a minimum of $5.00 per lot;

(d) For a submitted sample or package of grain $3.50 per sample or package;

(e) For all lots of grain other than those referred to in paragraphs (a), (b), (c), and (d) of this section, $2.25 per thousand bushels or fraction thereof, with a minimum fee of $5.00 per lot;

(f) For extra copies of an appeal or a dispute grade certificate fifty cents ($0.50) per copy. The original and one copy of each appeal or dispute grade certificate shall be issued to the appellant of record or to his order, and one copy shall be issued to each other interested party of record, or to his order. Additional copies furnished to the appellant and to each other interested party, or to their order, shall be considered extra copies;

(g) Charges for overtime, night, or holiday work performed by employees of the Department on account of an appeal or a dispute shall be determined at the rate of $6.40 per man-hour per employee and shall include the following:

(1) A minimum charge of two hours shall be made for any unscheduled overtime work performed by an employee in any of the following circumstances: (i) On a day when no work was scheduled for him; or (ii) which is performed by an employee on his regular work day beginning either at least one hour before his regular tour of duty or which has necessitated his recall to perform work after he has completed his regular tour of duty, and has left his place of employment; or (iii) when the employee is ordered, before he leaves his place of employment, to perform such unscheduled overtime work and at least two hours elapse between the end of his duty tour, whether regular or overtime, and his re-

turn to duty to perform the overtime work.

(2) Each period of unscheduled overtime or holiday work within the Metropolitan area to which the two hour minimum guarantee provision applies shall include a commuted travel time period of one hour to be paid for at the overtime rate. (For the purpose of this section all travel of 50 miles (one way) or less as measured by a speedometer reading from the point of departure to the point of inspection by the most direct route shall be considered within the Metropolitan area.)

(3) With respect to unscheduled overtime or holiday work performed outside the Metropolitan area:

(i) Each employee who is entitled to the two hour minimum guarantee under subparagraph (1) of this paragraph shall be paid at the overtime rate for commuted travel time periods as follows:

Outside metropolitan area	*Commuted travel time period*
51–100 miles	2 hours
101–200 miles	3 hours
201 and over	4 hours

(For purpose of this section all travel over 50 miles (one way) measured in the same manner as subparagraph (2) of this paragraph shall be considered outside the Metropolitan area.)

(ii) When inspection duties do not warrant the minimum two hour guarantee but involve overtime that

(*a*) Either begins less than one hour before the beginning of the regular tour of duty or is in continuation of the regular tour of duty, the employee will be allowed one-half the commuted travel time period applicable to the point at which the inspection is made in accordance with the schedule in subdivision (i) of this subparagraph; and

(*b*) Both begins before the regular tour and is in continuation thereof, the employee will be allowed one-half the commuted time period applicable to the point at which the inspection is made in each instance in accordance with the schedule in subdivision (i) of this subparagraph.

(4) The charges for overtime shall be in addition to the fees described in paragraphs (a) to (f) of this section in all cases, whether the appeal be sustained or not sustained.

(39 Stat. 485; 7 U.S.C. 84)

The establishment of the fees and charges herein above set forth depends upon facts within the knowledge of the Agricultural Marketing Service. It is to the benefit of the public that this amendment be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and public procedure on this amendment are impracticable, unnecessary, and contrary to the public interest and good cause is found for making this amendment effective less than 30 days after publication in the FEDERAL REGISTER.

This amendment shall become effective May 1, 1964.

Done at Washington, D.C., on this 21st day of April 1964.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

[F.R. Doc. 64-4070; Filed, Apr. 23, 1964; 8:50 a.m.]

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 1]

PART 728—WHEAT

Subpart—Wheat Diversion Program for 1964 and 1965

MISCELLANEOUS AMENDMENTS

The regulations governing the Wheat Diversion Program for 1964 and 1965, 28 F.R. 5133, are hereby amended as follows:

§ 728.50 [Amended]

1. Section 728.50 is amended by deleting the last sentence in paragraph (a) and by deleting paragraph (e) in its entirety.

2. Section 728.50(b) is amended by changing the phrase "within such tolerances as are permitted in amendments to these regulations to be promulgated at a later date" to "within the tolerances provided in § 728.64(b)".

3. Section 728.51(b)(2) is amended by changing the word "A" to "a" and inserting immediately before such word the following: "Subject to the tolerances provided in § 728.64(b),".

3a. Section 728.51(b)(4) is amended by inserting immediately following the phrase "cropland conversion program" the following: "(minus that part of the acreage designated under the cropland conversion program for which a reduction in the conserving acreage requirement is permitted under § 751.20(b) of this chapter (regulations governing the cropland conversion program, 28 F.R. 1206))".

3b. Section 728.51(b) is amended by deleting subparagraph (8) in its entirety.

3c. Section 728.51(c)(2) is amended to read as follows:

§ 728.51 Requirements for eligibility.

* * * * *

(c) * * *

(2) (i) The producer shall not knowingly exceed the allotment for the farm for any commodity.

(ii) The acreage of wheat on any other farm in which the producer has an interest shall not exceed the allotment. For the purpose of this subdivision (ii) of this subparagraph, a producer shall not be considered as violating the foregoing requirement if he satisfies the county committee that he did not have control of the managerial operations of the non-complying farm, that he has made a reasonable effort to encourage compliance with the requirements of this subparagraph and that it was through no fault of his own that such farm was not in compliance. A producer who violates the requirement of this subdivision (ii) shall be ineligible for payment under the program, except that if the allotment for each farm is exceeded by no more than the larger of 2 acres or 5 percent of the allotment (but not to exceed 15 acres), the payment otherwise earned by the producer under the program shall be reduced in an amount determined by multiplying the number of acres the allotment is exceeded on each farm by the smallest per acre diversion payment earned on any farm in which he shares in a diversion payment, but not to exceed the total payments otherwise earned by the producer under the program.

4. Section 728.52 is amended in the following respects:

a. The last two sentences of paragraph (a) are deleted and new text substituted in lieu thereof;

b. Subparagraph (1) of paragraph (c) is deleted in its entirety, and subparagraphs (2) and (3) are redesignated as subparagraphs (1) and (2), respectively;

c. In paragraph (c), subdivision (i) of newly redesignated subparagraph (2) is amended by deleting the word "additional".

d. The first two sentences of paragraph (d) are deleted, and new text is substituted in lieu thereof;

e. Paragraphs (e), (f), and (g) are amended.

The substituted and amended portions of § 728.52 read as follows:

§ 728.52 Designation, use, and care of diverted acreage.

(a) *Cropland eligible for designation as diverted acreage.* * * * Land from which a crop is harvested in the current year prior to designation as diverted acreage other than as authorized in paragraph (c)(1) of this section, land devoted in the current year to asparagus, strawberries or bush fruits (including new planting of such crop), and land which, at the time the diverted acreage is designated, is expected to be utilized in the current year for industrial development, housing, highway construction or other nonfarm use, shall not be eligible for designation as diverted acreage. In addition, land devoted to a nonagricultural use on or before September 30 of the current year shall not be eligible for designation as diverted acreage, unless such land is acquired by eminent domain and a representative of the State committee determines that it could not be anticipated at the time the diverted acreage was designated that the land would be devoted to nonagricultural use before the end of the current year.

* * * * *

(d) *Restriction on grazing.* The designated diverted acreage shall not be grazed between April 30 and November 1 of the current year, or upon recommendation of the State committee, approval by the Deputy Administrator, and

notice to the operator, between March 31 and October 1 or between April 14 and October 15, except where the Secretary considers it necessary to permit the diverted acreage to be grazed in order to alleviate a shortage of forage in the area resulting from severe drought, flood, or other natural disaster. In addition to the foregoing restriction, the designated diverted acreage shall not be grazed on or after October 1 of the current year when planted to wildlife food plots authorized in § 728.53(a)(11) or devoted to a grain or oilseed crop which has matured, other than a substitute crop. * * *

(e) *Diverted acreage devoted to designated crops planted for harvest in lieu of conservation uses.* Diverted acreage devoted to castor beans, guar, sunflower, safflower or sesame may be harvested.

(f) *Use of land.* Measures normally carried out in the fall in the area in connection with the production of a crop for harvest in a subsequent year may be carried out on the diverted acreage in the fall of the current year.

(g) *Control of erosion, insects, weeds and rodents.* The farm operator shall carry out such measures as are needed for the control of erosion, insects, weeds and rodents on the designated acreage. If the county committee determines that the measures carried out are not adequate, it shall prescribe and require the application of such other or additional measures as are needed. If erosion, insects, weeds and rodents are not timely controlled in accordance with instructions received from the county committee, the designated diverted acreage shall, for purposes of determining the total diverted acreage on which payment is based under § 728.64, be reduced by the number of acres on which erosion, insects, weeds and rodents are not satisfactorily controlled.

5. Section 728.53 is amended in the following respects:

a. In paragraph (a), the introductory text and subparagraphs (1), (7), and (11) are amended, the last sentence of subparagraph (13) is deleted, and a new subparagraph (14) is added;

b. Paragraph (b) is amended.

The amended and added portions of § 728.53 read as follows:

§ 728.53 Approved conservation uses for diverted acreage.

(a) Subject to the provisions for the use and care of diverted acreage as specified in § 728.52 and the provisions of paragraph (b) of this section, the conservation uses and practices approved for diverted acreage are as follows:

(1) Summer or winter cover crops consisting principally of small grains, annual legumes or annual grasses including volunteer stands of such crops which are normally seeded in the area. Soybeans may be used as a cover crop only when incorporated into the soil by a date established for the area by the State committee. In the case of winter cover crops, seedings may be made in the fall of the preceding year or in the fall of the current year; however, other approved conservation uses will be required if necessary to protect the land throughout the current year cropping season. Wheat or barley may be used as a cover crop only when destroyed by natural causes, plowed down as green manure, destroyed by mechanical means or clipped and left on the land not later than the wheat disposal date.

* * * * *

(7) Guar which is not harvested, provided the farm operator notifies the county office that the crop will be used only for cover. Other substitute crops destroyed by a date established by the State committee, but not later than 30 days before normal harvest for such crop, will also qualify. However, other approved conservation uses will be required, if necessary, to protect the land during the cropping season.

* * * * *

(11) Plantings for wildlife food plots (other than acreages of wheat or rice) or establishment of wildlife habitat. Barley, corn, and grain sorghums will qualify only if planted in small plots which are designated by the operator and approved by the county committee for such purpose prior to planting and no grazing or harvesting other than by wildlife is permitted.

* * * * *

(14) Otherwise eligible cropland which is designated as diverted acreage but which is not devoted to one of the conservation uses and practices specified in subparagraphs (1) through (13) of this paragraph will qualify as being devoted to an approved conservation use only if the county committee determines that, due to flood, drought or other natural disaster, serious illness, or other cause not due to the fault or negligence of the producer, it would not be practicable to devote the land to any of such specified uses and practices in the current year, and provided such measures for the control of erosion, insects, weeds and rodents as are prescribed by the county committee are carried out.

(b) Information will be available in the county ASCS office as to (1) the availability of the conservation uses and practices in a particular county, (2) the specifications for the uses and practices, including any supplementation or modification of such uses and practices, and (3) the disposal dates referred to in paragraph (a) of this section.

6. Section 728.54 is amended to read as follows:

§ 728.54 Non-cropland used for crops in 1964 or 1965.

The conserving base established for a farm shall be increased by the number of acres of non-cropland which are brought into a cropland status in the current year.

7. Section 728.55 is amended to read as follows:

§ 728.55 Farm conserving base.

(a) *Conservation uses for establishing the conserving base.* Subject to the provisions of paragraph (d) of this section, cropland devoted to the conservation uses set forth in this paragraph shall count toward establishing the conserving base.

(1) The conservation uses set forth in subparagraph (8) of § 728.53(a).

(2) Summer or winter cover crops consisting principally of small grains, annual legumes or annual grasses, including volunteer stands of such crops, which are normally seeded in the area. (An acreage of annual grasses (including millet) and soybeans, cowpeas, field and canning peas, and field and canning beans, which is harvested as seed or grain or for processing purposes, shall not be considered as devoted to a conservation use. Soybeans shall not be considered as devoted to a conservation use unless incorporated into the soil by a date established for the area by the State committee.)

(3) Small grain cover crops when left standing, when grazed off before maturity, when clipped green or when mechanically incorporated into the soil before maturity. Also, small grain seeded as a nurse crop with grass or legumes and cut green for hay or, excluding barley, cut green for silage by a date well ahead of maturity of the grain as established for the area by the State committee, and in the case of wheat and barley, not later than the barley disposal date. An acreage of small grain used as a nurse crop and harvested for any purpose after such date shall not be considered as devoted to a conservation use. An acreage of barley, wheat or rice left standing as of the established disposition date, shall not be considered as devoted to a conservation use, except as provided for barley in § 728.53(a)(11).

(4) Idle cropland and summer fallowed cropland.

(b) *Determining farm conserving base.* The conserving base for a farm shall be the average acreage of cropland on the farm devoted in 1959 and 1960 to the conservation uses specified in paragraph (a) of this section, as adjusted by the county committee to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop-rotation practices, types of soil, soil and water conservation measures, and topography.

(c) *Eligible conservation uses for maintaining the conserving base.* Subject to the provisions of paragraph (d) of this section, the following uses of cropland will qualify as eligible conservation uses for the purpose of maintaining the conserving base:

(1) The conservation uses set forth in paragraph (a) of this section.

(2) Small grains seeded alone and cut for hay not later than the date referred to in paragraph (a)(3) of this section, in areas determined by the State committee to be adversely affected by severe drought conditions.

(3) Trees or shrubs planted for erosion control, shelter-belts, or other forestry purposes or for wildlife habitat.

(4) The conservation uses set forth in subparagraphs (10) through (13) of § 728.53(a).

(d) *Additional provisions relating to the conserving base.* (1) Cropland devoted to both an approved conserving use and a use which is not an approved conserving use in the same year shall not be counted toward establishing the

conserving base or maintaining the conserving base.

(2) Measures normally carried out in the area in connection with the production of a crop for harvest in a subsequent year may be carried out in the fall of the current year on acreage used in maintaining the conserving base.

(3) Information will be available in the county ASCS office as to (i) the availability of the conservation uses and practices in a particular county, (ii) the specifications for the uses and practices, including any supplementation or modification of such uses and practices, and (iii) the disposal dates referred to in paragraph (c) of this section.

§ 728.56 [Amended]

8. Section 728.56 is amended by deleting paragraph (b) in the second sentence thereof and redesignating paragraph (c) as (b).

9. Section 728.57 (a) and (b) are amended to read as follows:

§ 728.57 Determination of payment rates.

(a) The payment rate per acre for the farm shall be obtained by multiplying the county bushel payment rate by the farm normal yield determined under § 728.21. The county bushel payment rate will be published in an amendment to this subpart. The county bushel diversion payment rate per bushel for both minimum and additional diversion shall be 20 per centum of the estimated basic county support rate for non-certificate wheat.

(b) Notwithstanding any other provision of this section, the rates of payment under the programs shall be (1) 50 percent of the payment rate per acre otherwise applicable to the farm in the case of diverted acreage devoted to guar, castor beans, and sesame, and (2) 30 percent of the payment rate per acre otherwise applicable to the farm in the case of diverted acreage devoted to sunflower. No diversion payment shall be made with respect to diverted acreage devoted to safflower.

* * * * *

10. Section 728.59 is amended to read as follows:

§ 728.59 Notice of payment rates, normal yield, minimum diversion requirement and conserving base.

Each operator and owner interested in the wheat crop on a farm for which an old farm wheat allotment is established will be notified in writing on Form ASCS–865 of the wheat normal yield. Any producer who files an intention to participate under § 728.61 will receive notice of the farm payment rate, minimum required diversion acreage and the conserving base on Form ASCS–477 (Wheat).

11. Section 728.60 is amended to read as follows:

§ 728.60 Appeals.

(a) A producer may request reconsideration of any determination made by a county committee concerning a question of fact under this subpart, including the conserving base as determined under § 728.55, and the farm normal yield as determined under § 728.21, and he may appeal such determination in accordance with the provisions of this paragraph. The producer shall first request reconsideration by the county committee. If the producer is dissatisfied with a determination of the county committee with respect to his request for reconsideration, he may then appeal the determination to the State committee. The producer may also request reconsideration of any determination of the State committee. If he is is dissatisfied with a determination of the State committee with respect to his appeal from the determination of the county committee or with respect to his request for reconsideration by the State committee, he may appeal such determination to the Deputy Administrator, in which case the determination of the Deputy Administrator shall be final. Each request for reconsideration or appeal shall be in writing and shall be supported by a written statement of facts upon which it is based. Any request for reconsideration or appeal shall not operate to extend the applicable closing date for filing Form ASCS-477 (wheat). Each request for reconsideration or appeal shall be filed within 15 days after notice of the determination is mailed to or is otherwise made available to the producer: *Provided,* That a request for reconsideration or appeal may be accepted and acted upon even though it is not filed within such time limit if, in the judgment of the committee or person to whom such request for reconsideration or appeal is made, the circumstances warrant such action. Nothing herein shall preclude the county committee or the State committee, on its own motion or upon request at any time, from revising or requiring revision of any determination for any farm to correct mechanical or clerical errors resulting solely from action by a county or State committee representative.

(b) To the extent that a producer proves the actual yields for the farm for each of the five years preceding the year in which the normal yield is determined, either prior to receipt of notice under § 728.59 or pursuant to paragraph (a) of this section, the yields so proven shall be used in establishing the farm normal yield in accordance with § 728.21: *Provided,* That the producer whose production records are used to prove yields on the farm shall be required to furnish production data for all other farms in the county or adjoining counties in which he had an interest in any of the years for which the yields are proven (unless there is conclusive evidence that the records presented are in fact for the specific farm), and such data shall be used in making determinations for such other farms in which the producer has an interest in the current year.

12. In § 728.61, paragraph (d) is amended, and paragraph (e) is amended by inserting a period following the reference "§ 728.51(b)(2)" in the last sentence of paragraph (e) and deleting the balance of such sentence. Paragraph (d), as amended, reads as follows:

§ 728.61 Intention to participate in the program.

* * * * *

(d) *Contents.* The operator or owner shall provide on Form ASCS–477 (Wheat) the following information: The acreage which is intended to be diverted from the production of wheat for the farm for which the form is filed; the names of the producers entitled to share in diversion payments and the proportionate share of each; the acreage, if any, of substitute crops which is intended to be planted for harvest on the diverted acreage; and if advance payment is available, whether or not such advance payment is desired for the farm.

* * * * *

13. Section 728.62 is amended to read as follows:

§ 728.62 Advance payment.

Advance payment shall not be made available to participants in the 1964 Wheat Diversion Program.

§ 728.63 [Amended]

14. Section 728.63 is amended by deleting paragraph (b) in its entirety and redesignating paragraph (c) as paragraph (b).

15. Section 728.64 is amended as follows:

§ 728.64 Final diversion payment.

(a) Payments of any amounts due the producers on a farm shall be made after the farm operator certifies that the farm is in compliance with the requirements of the program by signing Part IV, Form ASCS–477 (Wheat), and the county committee determines that the producers and the farm are in compliance with such requirements. The signing of Part III, Form ASCS–477 (Wheat), by any producer or Part IV by the farm operator after May 1, of the year following the current year, shall not be approved by the county committee unless prior approval of the State committee is obtained.

(b) No payment shall be made if (1) the acreage of wheat on the farm exceeds the wheat allotment; (2) the acreage designated and credited as diverted from wheat is less than the stated intention by more than, in case the stated intention is 20 acres or less, the larger of 1 acre or 10 percent of the stated intention and, in case the stated intention is over 20 acres, the larger of 2 acres or 5 percent of the stated intention, not to exceed 15 acres; (3) the acreage of wheat is within the allotment but exceeds the permitted acreage by more than, in case the stated intention is 20 acres or less, the larger of 1 acre or 10 percent of the stated intention, and, in case the stated intention is over 20 acres, the larger of 2 acres or 5 percent of the stated intention, not to exceed 15 acres; or (4) the total conserving acreage on the farm (including diverted acreage devoted to crops planted in lieu of conservation uses) is less than the sum of the conserving base and the intended diverted acres under this program and the Feed Grain Program by more than (i) in case the sum of the conserving base and the stated intention is 20 acres or less the

largest of 1 acre, the sum of the tolerances applicable to the stated intention under subparagraph (1) of this paragraph (b) and § 775.318(b)(1) of this chapter of the regulations governing the Feed Grain Program, or 10 percent of the sum of the conserving base and the stated intention, and (ii) in case the sum of the conserving base and the stated intention is over 20 acres, the largest of 2 acres, the sum of the tolerances applicable to the stated intention under subparagraph (1) of this paragraph (b) and § 775.318(b) of this chapter of the regulations governing the Feed Grain Program, or 5 percent of the sum of the conserving base and the stated intention: *Provided*, That the county committee, with the approval of a representative of the State committee, may make payment to the extent of the acreage eligible for payment under paragraph (c) of this section with respect to a farm not meeting the requirements of subparagraph (2) and (4) of this paragraph (b) if the farm operator establishes that, because of the small size of the deficiency and the unavailability of recent measurements of field acreages on the farm, he had no reason to believe that the designated acreage was less than the acreage intended to be diverted or that the total conserving acreage was less than the sum of the conserving base and the stated intention, and all additional acreage on the farm (including any wheat and other unharvested crops) eligible for such purposes at the time the operator receives a Form ASCS–590 (Notice of Acreage) is designated as diverted acreage or is counted toward meeting the conserving base requirement, and there is still insufficient acreage to comply with the requirements of subparagraphs (2) and (4) of this paragraph (b).

(c) The total diverted acreage of wheat on the farm shall be determined by subtracting the current year's wheat acreage on the farm, as defined in § 728.10, from the current year's farm acreage allotment and adding thereto the farm minimum diversion acreage determined under § 728.51(a)(2). The total diverted acreage on which payment shall be based within the tolerance authorized in paragraph (b) of this section shall be the smallest of:

(1) The total diverted acreage of wheat on the farm determined as provided above;

(2) The stated intention;

(3) The increased acreage devoted to approved conservation uses and substitute crops, excluding substitute crops which are in excess of the stated intention and acreage credited for payment under the Feed Grain Program;

(4) The designated diverted acreage excluding acreage credited for payment under the Feed Grain Program;

(5) If the farm is covered by a conservation reserve contract or a cropland conversion program agreement, the number of acres which are permitted to be devoted to soil bank base crops under the terms of the contract or which can be devoted to nonconserving crops under the terms of the agreement minus the acreage devoted to such crops (excluding designated diverted acreage which is devoted to soil bank base or nonconserving crops in lieu of conservation uses or on which soil bank base or nonconserving crops are planted as a conservation use).

(d) The amount of the earned diversion payment for the farm shall be computed by multiplying the total diverted acreage on which payment is based by the payment rate determined in accordance with § 728.57.

(e) The amount of the total earned diversion payment due each eligible producer under the program shall be determined by multiplying the total earned diversion payment for the farm by the producer's share of such payment and subtracting therefrom any advance payment made to such producer. Producers shall refund any payment previously made to which they are not entitled.

(f) Notwithstanding any other provision of these regulations, if a producer declines, for personal reasons, to accept all or any part of his share of the payment computed for a farm in accordance with the provisions of this section, such payment or portion thereof shall not become available for any other producer on the farm.

§ 728.66 [Amended]

16. Section 728.66 is amended by deleting paragraph (b) in its entirety and redesignating paragraph (c) as paragraph (b).

17. Section 728.72 is amended to read as follows:

§ 728.72 Land use penalty.

The land use penalty provisions of section 339(a) of the Agricultural Adjustment Act of 1938, as amended, are not applicable for 1964 and 1965.

18. Section 728.73 is amended to read as follows:

§ 728.73 County bushel payment rates.

The county bushel payment rate per bushel under the 1964 Wheat Diversion Program shall be 20 per centum of the estimated basic county support rate for the 1964 crop of wheat.

19. A new § 728.74 is added to read as follows:

§ 728.74 Assignments.

Payments under this program may not be assigned.

20. A new § 728.75 is added to read as follows:

§ 728.75 Delegation of authority.

No delegation herein to a State or county committee shall preclude the Administrator, ASCS, or his designee, from determining any question arising under the program or from reversing or modifying any determination made by a State or county committee.

(Sec. 339(g), 76 Stat. 624)

Effective date: Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on April 21, 1964.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Program.

[F.R. Doc. 64–4072; Filed, Apr. 23, 1964; 8:52 a.m.]

PART 728—WHEAT

Subpart—Farm Wheat Certificate Program for 1964 and 1965

Sec.
728.100 General.
728.101 Definitions.
728.102 Requirements for eligibility.
728.103 Issuance of certificates.
728.104 Division of certificates between producers.
728.105 Assignments.
728.106 Other provisions applicable to program.

AUTHORITY: The provisions of this subpart issued under sec. 379j of the Agricultural Adjustment Act of 1938, as amended, 76 Stat. 630.

§ 728.100 General.

(a) The regulations in this subpart provide terms and conditions under which wheat marketing certificates are issued to producers who divert acreage from the production of wheat under the provisions of the Wheat Diversion Program for 1964 and 1965, §§ 728.50–728.75 inclusive, to the extent provided herein.

(b) Domestic marketing certificates shall be issued for the portion of the wheat marketing allocation representing wheat used for food products for consumption in the United States and export marketing certificates shall be issued for the portion of the wheat marketing allocation used for exports. The wheat marketing certificates issued with respect to any farm for the current year shall be in the amount of the farm wheat allocation for such year, but not to exceed the acreage of wheat on the farm multiplied by the farm normal yield. Upon request, Commodity Credit Corporation will purchase certificates from the producer to whom they are issued.

(c) This program is applicable in the commercial wheat-producing area which includes all of the States in the United States except Hawaii.

§ 728.101 Definitions.

As used in the regulations in this subpart, and in all instructions, forms and documents in connection therewith, the words and phrases defined in this section and in § 728.10 of the subpart relating to farm acreage allotments, small farm bases and normal yields for 1964 and subsequent crop years shall have the meanings assigned to them therein unless the context or subject matter otherwise requires, except that "current year" shall mean the calendar year in which the marketing year with respect to which marketing certificates may be issued under this subpart begins.

(a) "National allocation percentage" means the percentage which the national marketing allocation is of the national marketing quota for the 1964 crop adjusted for expected production on noncomplying farms. For 1964, this percentage is 90.

(b) "Farm wheat marketing allocation" means the number of bushels obtained by multiplying the farm acreage allotment determined under § 728.16 by the farm normal yield determined under § 728.21 and multiplying the resulting number of bushels by the national allocation percentage.

§ 728.102 **Requirements for eligibility.**

(a) *General.* Any person who will share in the current year's crop of wheat or the proceeds thereof on an old wheat farm or a new wheat farm which meets the requirements of paragraph (b) of this section and who meets the requirements of § 728.51(c) (2) and (3) of the regulations governing the Wheat Diversion Program shall receive marketing certificates in an amount and manner specified in §§ 728.103 and 728.104.

(b) *Farm requirements.* A farm shall be eligible for wheat marketing certificates if producers on the farm file an intention to participate and application for payment (herein called Form 477 (Wheat)) for the current year in accordance with § 728.61 of the regulations governing the Wheat Diversion Program and the farm is eligible for a wheat diversion payment or would have been eligible for such payment except for the fact that (1) the diverted acreage was devoted to a substitute crop in lieu of payment; (2) the producers on the farm, while diverting the minimum acreage required under § 728.51(b)(2), failed to divert an acreage equal to the number of acres stated on Form 477 (Wheat) as required under § 728.50(b) of the regulations governing the Wheat Diversion Program; or (3) a new farm wheat allotment was established for the farm.

§ 728.103 **Issuance of certificates.**

(a) *Compliance requirements.* Issuance of marketing certificates due the producers on a farm shall be made after the farm operator certifies that the farm is in compliance with the requirements of § 728.102 by signing Part IV, Form 477 (Wheat) and the county committee determines that the producers and farms are in compliance with such requirements.

(b) *Amount of certificates.* The number of bushels for which marketing certificates shall be issued to producers on an eligible farm shall be computed on Form 477 (Wheat) and shall be a number of bushels which is equal to the smaller of (1) the farm wheat marketing allocation as determined under § 728.101(b) or (2) the current year's wheat acreage as defined under § 728.10(m) multiplied by the normal yield determined under § 728.21.

(c) *Type of certificates.* (1) Domestic marketing certificates for a farm for 1964, shall be issued for 50 percentum of the farm wheat marketing allocation: *Provided,* That the number of bushels of domestic certificates issued for any farm shall not exceed the number of bushels computed under paragraph (b)(2) of this section.

(2) Export marketing certificates for a farm for 1964 shall be issued for the number of bushels computed under paragraph (b) of this section less the number of bushels for which domestic certificates are issued.

(d) *Value of certificates.* For 1964, each domestic certificate issued for a farm shall be valued at 70 cents per bushel and each export certificate shall be valued at 25 cents per bushel.

(e) *Purchase of certificates by Commodity Credit Corporation.* Domestic or export certificates, legally held by any person, will be purchased by Commodity Credit Corporation at any time at face value at any ASCS county office.

§ 728.104 **Division of certificates between producers.**

(a) Wheat marketing certificates issued under § 728.103 shall be divided among producers on an eligible farm on the same basis as such producers share in the current year's wheat crop produced on the farm, or proceeds therefrom.

(b) Certificates which producers receive, to which they are not entitled, shall be returned to the county committee or, if not returned, the value thereof shall be paid to Commodity Credit Corporation.

(c) In case of the death, incompetency, or disappearance of any producer who is entitled to marketing certificates under this program, the certificates due him shall be issued to his successor, as determined in accordance with the regulations in Part 707 of this chapter for making payments pursuant to section 8 of the Soil Conservation and Domestic Allotment Act, as amended.

(d) Notwithstanding any other provision of this section, (1) if any person who has or would have an interest as producer of wheat on the farm (herein called "predecessor") leaves the farm after Form 477 (Wheat) has been filed and is succeeded on the farm by another producer (herein called "successor"), their share of the marketing certificates shall be divided on such basis as they agree is fair and equitable, and (2) if such persons are unable to agree to a division of the marketing certificates, the marketing certificates shall be issued to the producer who has the interest in the wheat crop at the time of harvest, and if the wheat crop is completely destroyed prior to harvest, the certificates shall be issued to the producer who had the interest at the time of destruction of the crop: *Provided,* That if the marketing certificates are issued to the predecessor prior to notification to the county committee of such change of producers, marketing certificates shall not be issued to the successor unless such certificates are returned to the county committee, or if not returned, the value thereof is paid to Commodity Credit Corporation.

§ 728.105 **Assignments.**

The right to receive wheat marketing certificates under these regulations may not be assigned.

§ 728.106 **Other provisions applicable to program.**

The provisions of § 728.69 *Reconstitution of farms,* § 728.71 *Supervisory authority of State Committee,* and § 728.75 *Delegation of authority,* of the regulations governing the Wheat Diversion Program shall also be applicable to this subpart.

Effective date: Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on April 21, 1964.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

[F.R. Doc. 64-4071; Filed, Apr. 23, 1964; 8:51 a.m.]

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 342—ADMINISTRATIVE CANCELLATION OF CERTIFICATES, DOCMENTS, OR RECORDS

Service

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

1. The first sentence of § 342.1 is amended and that section will read as follows:

§ 342.1 **Notice.**

If it shall appear to a district director that a person has illegally or fraudulently obtained or caused to be created a certificate, document, or record described in section 342 of the Act, a notice shall be served upon the person of intention to cancel the certificate, document, or record. The notice shall contain allegations of the reasons for the proposed action and shall advise the person that he may submit, within 60 days of service of the notice, an answer in writing under oath showing cause why the certificate, document, or record should not be cancelled, that he may appear in person before a naturalization examiner in support of, or in lieu of his written answer, and that he may have present at that time, without expense to the Government, an attorney or representative qualified under Part 292 of this chapter. In such proceedings the person shall be known as the respondent.

2. Paragraph (a) and the first sentence of paragraph (b) of § 342.2 are amended. The section reads as follows:

§ 342.2 **Service of notice.**

(a) *Service.* The notice required by § 342.1 shall be served personally by an employee of the Government by delivery to the respondent, or by delivery to a person of suitable age and discretion at the respondent's dwelling house or usual place of abode, or by mailing to the respondent's last known address by registered or certified mail, return receipt requested.

(b) *Proof of service.* The post office return receipt, or the certificate of the employee serving the notice by personal

delivery, setting forth the date and manner of service, shall constitute proof of service. In the case of a mentally incompetent respondent or a child under 14 years of age, service shall be made upon his guardian, near relative or friend, and the person so served shall be permitted to appear on behalf of the respondent.

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003), as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order relate to agency procedure.

Dated: April 20, 1964.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization.

[F.R. Doc. 64-4050; Filed, Apr. 23, 1964; 8:47 a.m.]

Title 20—EMPLOYEES' BENEFITS

Chapter V—Bureau of Employment Security, Department of Labor

PART 604—POLICIES OF THE UNITED STATES EMPLOYMENT SERVICE

Disclosure of Information

Pursuant to authority in section 12 of the Wagner-Peyser Act (29 U.S.C. 49k), Reorganization Plan No. 2 of 1949 (3 CFR 1949-53 Comp., p. 998), and 20 CFR 602.21, I hereby revise 20 CFR 604.16(f) and establish a new 20 CFR 604.16(g) to read as set forth below.

As these amendments provide only general statements of policy, notice of proposed rule making, public participation in their adoption, and delay in their effective dates are excepted from the requirements of section 4 of the Administrative Procedure Act (5 U.S.C. 1003). As the policies hereby expressed merely make explicit those which have heretofore been intended, no need for public participation or delay appears, and these amendments shall become effective immediately.

As amended, 20 CFR 604.16 (f) and (g) shall read as follows:

§ 604.16 Disclosure of information.

It is the policy of the United States Employment Service to permit disclosure of information from the files and records of the Employment Service:

* * * * *

(f) To all governmental authorities, such as antidiscrimination and fair employment practice authorities, whose functions will aid the Employment Service in carrying out an amplified and more effective placement service, including information relating to fair employment practices.

(g) To individuals, organizations, and agencies or for purposes other than as specified in the other paragraphs of this section if such disclosure will not impede the operation of, and is not inconsistent with the purposes of, the public employment service program, and is authorized in writing in individual cases by the state agency official responsible for the employment service program.

(48 Stat. 117, as amended; 29 U.S.C. 49k)

Signed at Washington, D.C. this 17th day of April 1964.

ROBERT C. GOODWIN,
Administrator, Bureau of Employment Security.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

KELP

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 411) filed by California Vegetable Concentrates, Inc., P.O. Box 149, Huntington Park, California; Diketan Laboratories, Inc., 9201 Wilshire Boulevard, Los Angeles, California; Kopco, Inc., Dock 1, Port Hueneme, California; Philip R. Park, Inc., Berth 42, Outer Harbor, San Pedro, California; S. O. Barnes & Sons, Inc., 17250 South Main Street, Gardena, California; and Thurston Laboratories, 3355 Glendale Road, Los Angeles, California, and other relevant material, has concluded that a food additive regulation should issue to prescribe the use of kelp as a source of iodine in foods for special dietary use. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471), the food additive regulations are amended by adding to Subpart D a new section reading as follows:

§ 121.1149 Kelp.

Kelp may be safely used as a source of iodine in foods for special dietary use when the amount of iodine so provided for daily intake does not exceed 0.15 milligram. The food additive kelp is the dehydrated, ground product prepared from macrocystis pyrifera.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: April 20, 1964.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 33]

POCASSE NATIONAL WILDLIFE REFUGE, SOUTH DAKOTA

Proposed Addition to List of Refuges Open to Public Sport Fishing

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Migratory Bird Conservation Act of February 18, 1929, as amended (45 Stat. 1222; 16 U.S.C. 715), it is proposed to amend 50 CFR 33.4 by the addition of the Pocasse National Wildlife Refuge, South Dakota, to the list of wildlife refuges open to public sport fishing as legislatively permitted.

It has been determined that regulated public sport fishing may be permitted on the Pocasse National Wildlife Refuge without detriment to the objectives for which the area was established.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections, with respect to this proposed amendment, to the Director, Bureau of Sport Fisheries and Wildlife, Washington, D.C., 20240, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

1. Section 33.4 is amended by the addition of the following area as one where sport fishing is authorized:

§ 33.4 List of open areas; sport fishing.

* * * * *

SOUTH DAKOTA

Pocasse National Wildlife Refuge.

PEANUTS

Proposed Amendment to Allotment and Marketing Quota Regulations for 1963 and Subsequent Crops

Pursuant to authority contained in applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.), a proposed amendment is being prepared to amend the Allotment and Marketing Quota Regulations for Peanuts of the 1963 and Subsequent Crops (27 F.R. 11920, 28 F.R. 11811).

As presently contemplated the amendment would:

1. Amend § 729.1432 to provide that (1) an allotment shall not be established for a new farm from acreage made available from the new farm national reserve unless the farm is operated by the owner thereof who must have had experience in producing, harvesting and marketing peanuts either as a sharecropper, tenant or farm operator during at least two of the five years immediately preceding the year for which the new farm allotment is requested and (2) a farm which includes land acquired by an agency having the right of eminent domain for which the entire peanut allotment was pooled pursuant to Part 719 of this chapter, which is subsequently returned to agricultural production, shall not be eligible for a new farm peanut allotment for a period of three years from the date the former owner was displaced.

2. Amend § 729.1433 to provide that (1) a farm shall not be eligible for a new farm allotment unless the farm is operated by the owner thereof and (2) a farm which includes land acquired by an agency having the right of eminent domain for which the entire peanut allotment was pooled pursuant to Part 719 of this chapter, which is subsequently returned to agricultural production, shall not be eligible for a new farm peanut allotment for a period of three years from the date the former owner was displaced.

3. Amend § 729.1435 to provide that, in all States, a farm shall be eligible to receive a reapportionment of released acreage only if a written request is filed by the farm owner or operator at the office of the county committee not later than the specified closing date.

Prior to the amendment being issued, consideration will be given to any data, views and recommendations which are submitted in writing to the Director, Farmer Programs Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington, D.C., 20250. To be considered any such submission must be postmarked not later than 15 days after publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D.C., on April 21, 1964.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

[7 CFR Part 855]

MAINLAND CANE SUGAR AREA

Farm Proportionate Shares, 1965 Crop

On April 3, 1964 (29 F.R. 4970), notice was given that the Department of Agriculture was considering the need for the establishment of proportionate shares for farms in the Mainland Cane Sugar Area for the 1965-crop of sugarcane. Notice was also given that the Department was considering limiting 1964 acreage credit for 1965-crop proportionate share purposes to acreages of sugarcane planted on or before April 15, 1964.

Notice is hereby given that consideration is now being given to limiting 1964-crop credit to acreages of sugarcane planted on or before May 1, 1964.

All persons who desire to submit comments and views regarding the limitation set forth above with respect to sugarcane planted after May 1, 1964, may submit the same in writing and in duplicate to the Director of the Sugar Policy Staff, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington, D.C., 20250, postmarked no later than midnight, May 1, 1964.

Signed at Washington, D.C., on April 17, 1964.

ROBERT G. LEWIS,
Acting Administrator, Agricultural Stabilization and Conservation Service.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 561]

[No. FSLIC-1,785]

DEFINITIONS

Notice of Proposed Rule Making

APRIL 21, 1964.

Resolved that, pursuant to Part 508 of the general regulations of the Federal Home Loan Bank Board (12 CFR Part 508) and § 567.1 of the rules and regulations for Insurance of Accounts (12 CFR 567.1), it is hereby proposed that §§ 561.15, 561.16, 561.17, 561.19, and 561.21 of the rules and regulations for Insurance of Accounts be amended by amendments the substance of which are as follows:

1. Amend § 561.15 to read as follows:

§ 561.15 Scheduled items.

The term "scheduled items" means slow loans (other than insured or guar-

anteed loans), 40 percent of slow loans which are insured or guaranteed, real estate owned as a result of foreclosure, or acquired by deed in lieu of foreclosure, and such real estate sold on contract, or by a loan, where the unpaid principal balance exceeds that permitted under otherwise applicable lending limitations or exceeds 90 percent of the value of the security, and any investment securities upon which one or more interest payments due has not been paid.

2. Amend § 561.16 to read as follows:

§ 561.16 Slow loans.

The term "slow loans" means:

(a) Any loan or land contract less than one year old which is the equivalent of 60 days (two months) or more contractually delinquent; or

(b) Any loan or land contract that is from 1 year to 7 years old which is the equivalent of 90 days (three months) or more contractually delinquent; or

(c) Any loan or land contract more than 7 years old which is the equivalent of 90 days (three months) or more contractually delinquent unless 10 out of the last 12 contractually required payments have been made; or

(d) Any mortgage loan, deed of trust or land contract on which taxes on the security are due and unpaid for the equivalent of two or more years; or

(e) Any delinquent mortgage loan, deed of trust or land contract that has been modified or refinanced;

Provided, that any mortgage loan, deed of trust or land contract on which the total indebtedness is less than 60 percent of the original amount, any loan on which all contractually required payments have been made during the preceding 12 months and any loan on which payments are being deferred by law shall not be considered to be a slow loan under this section.

3. Amend § 561.17 to read as follows:

§ 561.17 Risk assets.

(a) The term "risk assets" means the total assets of an insured institution less the institution's cash, government obligations and accrued interest thereon, Federal Home Loan Bank stock, prepaid Federal Savings and Loan Insurance Corporation premiums, loans in process, loans on the security of the institution's share accounts, investments of up to $10,000 per institution in other institutions insured by the Federal Savings and Loan Insurance Corporation, and less 60 percent of the institution's actual investments in insured and guaranteed loans.

(b) In computing risk assets at the close of any semiannual period, any asset which is sold or disposed of in one semiannual period and then repurchased or reacquired in the next semiannual period shall be computed as if it had not been sold or disposed of during such initial semiannual period.

4. Amend § 561.19 to read as follows:

§ 561.19 Government obligations.

The term "government obligations" means obligations of, or guaranteed or insured by, or special obligations (as they may hereinafter be defined by the Board) issued by the United States, a Bank or Banks for Cooperatives, including the Central Bank for Cooperatives, a Federal Land Bank or Banks, a Federal Home Loan Bank or Banks, a Federal Intermediate Credit Bank or Banks, the Federal National Mortgage Association or the Tennessee Valley Authority.

5. Amend § 561.21 to read as follows:

§ 561.21 Guaranteed loan.

The term "guaranteed loan" means a loan that is guaranteed, including a guarantee to repurchase, in whole or in part, or as to which a commitment to guarantee has been made under the provisions of the Servicemen's Readjustment Act of 1944, or chapter 37 of title 38, United States Code, as now or hereafter amended.

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1947 Supp.)

Resolved further that all interested persons are hereby given the opportunity to submit written data, views, or arguments on the following subjects and issues: (1) Whether said proposed amendments should be adopted as proposed; (2) whether said proposed amendments should be modified and adopted as modified; (3) whether said proposed amendments should be rejected. All such written data, views, or arguments must be received through the mail or otherwise at the Office of the Secretary, Federal Home Loan Bank Board, Federal Home Loan Bank Board Building, 101 Indiana Avenue NW., Washington, D.C., 20552, not later than May 25, 1964, to be entitled to be considered, but any received later may be considered in the discretion of the Federal Home Loan Bank Board.

By the Federal Home Loan Bank Board.

[SEAL] HARRY W. CAULSEN, *Secretary.*

OPERATIONS

Required Amounts and Maintenance of Federal Insurance Reserve

APRIL 21, 1964.

Resolved that, pursuant to Part 508 of the general regulations of the Federal Home Loan Bank Board (12 CFR Part 508) and § 567.1 of the rules and regulations for Insurance of Accounts (12 CFR 567.1), it is hereby proposed that § 563.13 of the rules and regulations for Insurance of Accounts be amended by amendments the substance of which are as follows:

Amend paragraphs (a), (b) (1), (2), (3), and (4), and (c) of § 563.13 to read as follows:

§ 563.13 Required amounts and maintenance of Federal insurance reserve.

(a) *Minimum reserve level.* (1) After the fiscal year in which a certificate of insurance is issued to an insured institution, it shall build up its Federal insurance reserve account so that as of the close of business on the closing date preceding the anniversary of the date of insurance of accounts stated in the table set forth in this subparagraph, such reserve account shall be at least equal to the following percentage of the total of its savings accounts on such closing date:

Percentage	*Anniversary*
0.50	2
0.75	3
1.0	4
1.25	5
1.50	6
1.75	7
2.0	8
2.25	9
2.50	10
2.75	11
3.0	12
3.25	13
3.50	14
3.75	15
4.0	16
4.25	17
4.50	18
4.75	19

5.0 percent at the twentieth anniversary and thereafter.

(2) After the fiscal year in which a certificate of insurance is issued to an insured institution, it shall build up its net worth so that as of the close of business on the closing date preceding the anniversary of the date of insurance of accounts stated in the table set forth in subparagraph (1) of this paragraph, its net worth shall be at least equal to the appropriate Federal insurance reserve account requirement plus 15 percent of its scheduled items in 1964 and plus 20 percent of its scheduled items thereafter.

(3) If, at any semiannual closing date, either of the levels required in subparagraphs (1) and (2) of this paragraph are not met by an insured institution, such insured institution shall credit to its Federal insurance reserve account at such time an amount equal to 25 percent of its net income or any lesser amount sufficient to meet the requirements.

(b) *Semiannual credits.* (1) An insured institution shall not be required to make any credit to its Federal insurance reserve account under this paragraph at any time when its adjusted net worth is at least 12 percent of its risk assets at the close of the semiannual period.

(2) Each insured institution, not exempted under subparagraph (1) of this paragraph, that has an adjusted net worth of at least 8 percent of its risk assets shall credit, from net income, undivided profits or earned surplus, within each semiannual period, to its Federal insurance reserve account an amount at least equal to 10 percent of its net income for the period.

(3) Each insured institution which has an adjusted net worth of less than 8 percent of its risk assets shall credit, from net income, undivided profits or earned surplus, within each semiannual period, to its Federal insurance reserve account at least the amount required by the applicable of the following requirements:

(i) An institution which has not reached its twentieth anniversary of insurance of accounts and

(a) Has not more than $50,000,000 in risk assets at the close of the period shall credit an amount equal to 5 percent of its net income for the period or an amount equal to 5 percent of its growth in risk assets during the period, whichever is greater; or

(b) Has more than $50,000,000 in risk assets at the close of the period shall credit an amount equal to 5 percent of its net income for the period or an amount equal to 6 percent of its growth in risk assets for the period, whichever is greater.

(ii) An institution which has reached its twentieth anniversary of insurance of accounts shall credit an amount equal to 5 percent of its net income for the period or an amount equal to 6 percent of its growth in risk assets during the period, whichever is greater.

(4) If an insured institution has made any semiannual credit to its Federal insurance reserve account, subsequent to December 31, 1963, in excess of the applicable requirement, it may apply such excess credit toward the requirements of this paragraph in future periods: *Provided*, That excess credits to the Federal insurance reserve account of an insured institution, or to other reserve accounts irrevocably established for the sole purpose of absorbing losses, made prior to January 1, 1964, and not previously utilized, may be used to meet a maximum of 15 percent of its reserve credit requirements under this paragraph during the fiscal year commencing subsequent to December 31, 1963.

* * * * *

(c) *Limitations on payment of dividends.* Any insured institution which has failed to meet the required credits under subparagraph (3) of paragraph (a) of this section or under paragraph (b) of this section shall not, after December 31, 1964, declare, pay or advertise dividends, for the period subsequent to the immediately succeeding dividend period, in excess of the amount approved by the Corporation.

* * * * *

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR 1947 Supp.)

Resolved further that all interested persons are hereby given the opportunity to submit written data, views, or arguments on the following subjects and issues: (1) Whether said proposed amendments should be adopted as proposed; (2) whether said proposed amendments should be modified and adopted as modified; (3) whether said proposed amendments should be rejected. All such written data, views, or arguments must be received through the mail or otherwise at the Office of the Secretary, Federal Home Loan Bank Board, Federal Home Loan Bank Board Building, 101 Indiana Avenue NW., Washington, D.C., 20552, not later than May 25, 1964, to be entitled to be considered, but any received later may be considered in the discretion of the Federal Home Loan Bank Board.

By the Federal Home Loan Bank Board.

[SEAL] HARRY W. CAULSEN,
Secretary.

NEW YORK WORLD'S FAIR

Notice of Tentative Recordation of Trade Name

APRIL 20, 1964.

An application has been filed in the Treasury Department for the recordation of the following described trade name under the provisions of section 42, Trademark Act of 1946, and § 11.16, Customs Regulations:

"New York World's Fair," a New York corporation, owned by the New York World's Fair Corporation, located and doing business at Flushing, New York, which trade name is used in connection with numerous items, including medallions, medals, guide books, novelty hats, post cards, flight bags, pennants, raincoats, flags, jewelry, wallets, cigarette lighters, etc., manufactured in various foreign countries and the United States.

Collectors of customs will be instructed that numerous concerns have been licensed to use the trade name "New York World's Fair" on imported merchandise and that the merchandise may be released upon presentation of a license to import. Imported goods bearing the name may be detained until the license is presented.

Any person who desires to file an opposition to the recordation of this trade name shall notify the Commissioner of Customs, Bureau of Customs, Washington, D.C., before the expiration of 30 days after May 15, 1964, of his intent to oppose the recordation. If a notice of opposition is filed, the opposer will be furnished with a copy of the application for recordation of the trade name, together with its supporting documents and instructions as to the procedure to be followed. The customs officers concerned will be given notice within 45 days after May 15, 1964, of any opposition proceeding.

Until 45 days after May 15, 1964, all articles of foreign manufacture bearing names or marks which copy or simulate the above-mentioned trade name shall be detained, but not seized, and thereafter, shall receive the treatment provided for in § 11.17, Customs Regulations, unless a notice is received that an opposition has been filed, in which case such articles shall continue to be detained until a final determination is made concerning the right of the applicant to the trade name.

[SEAL] LESTER D. JOHNSON,
Acting Commissioner of Customs.

ALASKA AND MISSOURI

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321 of the Consolidated Farmers Home Administration Act of 1961 (7 U.S.C. 1961), it has been determined that in the State of Alaska and Butler County, Missouri, natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, emergency loans will not be made in the State of Alaska after June 30, 1965, or in Butler County, Missouri, after December 31, 1964, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 21st day of April 1964.

ORVILLE L. FREEMAN,
Secretary.

MICHIGAN AREA AIRLINE SERVICE AIRPORT INVESTIGATION

Notice of Change of Hearing Room

Notice is hereby given that the session of the hearing to be held on May 12, 1964, at Kalamazoo, Mich., will convene in the City Commission Room, Second Floor, City Hall, 241 West South St., Kalamazoo, Mich., at 10 a.m., instead of the Civil Service Exam. Room, as set forth in the notice of hearing of April 13, 1964.

Dated at Washington, D.C., April 20, 1964.

[SEAL] RALPH L. WISER,
Hearing Examiner.

[F.R. Doc. 64-4068; Filed, Apr. 23, 1964; 8:50 a.m.]

FEDERAL DEPOSIT INSURANCE CORPORATION

INSURED BANKS

Joint Call for Report of Condition

Pursuant to the provisions of section 7(a)(3) of the Federal Deposit Insurance Act each insured bank is required to make a Report of Condition as of the close of business April 15, 1964 to the appropriate agency designated herein, within ten days after notice that such report shall be made: Provided, that if such reporting date is a nonbusiness day for any bank, the preceding business day shall be its reporting date.

Each national bank and each bank in the District of Columbia shall make its original Report of Conditon on Office of the Comptroller Form, Call No. 449,[1] and shall send the same to the Comptroller of the Currency, and shall send a signed and attested copy thereof to the Federal Deposit Insurance Corporation. Each insured State bank which is a member of the Federal Reserve System, except a bank in the District of Columbia, shall make its original Report of Condition on Federal Reserve Form 105—Call 171,[1] and shall send the same to the Federal Reserve Bank of the District wherein the bank is located, and shall send a signed and attested copy thereof to the Federal Deposit Insurance Corporation. Each insured State bank not a member of the Federal Reserve System, except a bank in the District of Columbia and a mutual savings bank, shall make its original Report of Condition on FDIC Form 64—Call No. 67,[1] and shall send the same to the Federal Deposit Insurance Corporation.

The original Report of Condition required to be furnished hereunder to the Comptroller of the Currency and the copy thereof required to be furnished to the Federal Deposit Insurance Corporation shall be prepared in accordance with "Instructions for preparation of Reports of Condition by National Banking Associations," dated January, 1961, and any amendments thereto.[1] The original Report of Condition required to be furnished hereunder to the Federal Reserve Bank of the District wherein the bank is located and the copy thereof required to be furnished to the Federal Deposit Insurance Corporation shall be prepared in accordance with "Instructions for the preparation of Reports of Condition by State Member Banks of the Federal Reserve System," dated February, 1961.[1] The original Report of Condition required to be furnished hereunder to the Federal Deposit Insurance Corporation shall be prepared in accordance with "Instructions for the preparation of Report of Condition on Form 64, by insured State banks not members of the Federal Reserve System," dated January, 1961.[1]

Each insured mutual savings bank not a member of the Federal Reserve System shall make its original Report of Condition on FDIC Form 64 (Savings),[1] prepared in accordance with "Instructions for the preparation of Report of Condition on Form 64 (Savings) and Report of Income and Dividends on Form 73 (Savings) by Mutual Savings Banks," dated December, 1962,[1] and shall send the same to the Federal Deposit Insurance Corporation.

JOSEPH W. BARR,
Chairman,
Federal Deposit Insurance Corporation.

JAMES J. SAXON,
Comptroller of the Currency.

A. C. MILLS, Jr.,
Acting Chairman, Board of Governors of the Federal Reserve System.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

STATEMENT OF ORGANIZATION

Border Patrol Sectors; Field Service

Effective upon publication in the FEDERAL REGISTER, the following amendment to the Statement of Organization of the Immigration and Naturalization Service (19 F.R. 8071, December 8, 1954), as amended, is prescribed:

Sector No. 13 of paragraph (d) *Border Patrol Sectors* of section 1.51 *Field Service* is amended to read as follows:

SECTOR NO. 13—YUMA, ARIZ.

Blythe, Calif. Yuma, Ariz.

Dated: April 20, 1964.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization.

[F.R. Doc. 64-4051; Filed, Apr. 23, 1964; 8:48 a.m.]

FEDERAL MARITIME COMMISSION

A. F. BURSTROM & SON, INC., ET AL.

Notice of Agreements Filed for Approval

Notice is hereby given that the following agreements have been filed with the Federal Maritime Commission for approval pursuant to section 15 of the Shipping Act, 1916 (75 Stat. 763 and 46 U.S.C. 814). All parties involved are eligible to operate as independent ocean freight forwarders pursuant to section 44 of the Shipping Act, 1916.

Unless otherwise indicated, these agreements are non-exclusive, cooperative working arrangements under which the parties may perform freight forwarding services for each other, dividing forwarding and service fees as agreed on each transaction. Ocean freight compensation is to be divided as agreed between the parties.

A. F. Burstrom & Son, Inc., Detroit, Michigan, is party to the following agreements, the terms of which are identical. The other parties are:

James G. Wiley Co., Los Angeles, Calif.	FF-1466
Sheriff-Guerringue, Inc., Seattle, Wash.	FF-1470

The Cottman Company, Baltimore, Maryland, is party to the following agreements, the terms of which are similar. The other parties are:

Argus Shipping Co., Inc., New York, N.Y.	FF-1480
United Forwarders Service, Inc., New York, N.Y.	FF-1481
Export-Import Services, Inc., New York, N.Y.	FF-1482
H & H Shipping Co., New York, N.Y.	FF-1483
Mohegan International Corp., New York, N.Y.	FF-1484

The following agreements are similar:

Loretz & Co., Los Angeles, San Francisco, Calif.; Houston, Tex., and J. T. Steeb & Co., Inc., Portland, Oreg	FF-1471

Chas. Kurz Co., Philadelphia, Pa., and Albury & Co., Miami, Fla.---- FF-1472
Atlas Agencies, Inc., Jacksonville, Fla., and Hudson Shipping Co., Inc., New York, N.Y.---------- FF-1473
George J. Young & Co., Los Angeles, Calif., and W. H. Wickersham & Co., Inc., San Pedro, Calif.------- FF-1476
H. A. Gogarty, Inc., New York, N.Y., and Fillette, Green & Co., Inc., Pensacola, Fla.---------- FF-1477
Berry & McCarthy Shipping Co., Inc., San Francisco, Calif., and Tone Forwarding Corp., New York, N.Y.---------- FF-1478
A & M Custom Brokers Co., Boston, Mass., and Judson Sheldon International Corp., New York, N.Y.--- FF-1479

Agreement No. FF-1467 between Metro Shipping Corp., New York, New York, and J. G. R. Williams, Inc., New Orleans, Louisiana, is an arrangement whereunder forwarding and service fees will be divided as agreed. Ocean freight compensation will be divided equally (50 percent/50 percent).

Agreement No. FF-1468 between Metro Shipping Corp., New York, New York, party (a) and Admiral Shipping Corp., Houston, Texas, party (b), is an arrangement whereunder forwarding and service fees are divided as agreed. Ocean freight compensation will be divided 60 percent in favor of party (a) and 40 percent in favor of party (b).

Agreement No. FF-1469 between Penson Forwarding Corp., New York, New York, and other branch offices, and Coastal Forwarders, Charleston, South Carolina, is an arrangement under which forwarding and service fees are divided as agreed. Ocean freight compensation will be retained by the originating forwarder.

Agreement No. FF-1474 between Trans Marine Co., New Orleans, Louisiana, and Encargos International, New York, New York, is an arrangement under which forwarding and service fees are retained by the party accomplishing the work. Ocean freight compensation is to be divided equally between the parties (50 percent/50 percent).

Agreement No. FF-1475 between Stevens Shipping Co., Savannah, Georgia, and Stevens Shipping Co., Jacksonville, Florida, and Major Forwarding Co., Inc., New York, New York, is an arrangement under which Major Forwarding Co., Inc., agrees to pay Stevens Shipping Co. $3.00 for Export Declarations (in no case less that $5.00 at Kings Bay, Georgia even if only one Declaration is passed).

Agreement No. FF-1486 between C. S. Greene & Co., Inc., Chicago, Illinois, and R. J. McCracken & Co., Muskegon, Michigan, is an arrangement whereunder forwarding and service fees are $7.50 per shipment. Ocean freight compensation is to be divided equally.

Interested persons may inspect these agreements and obtain copies thereof at the Bureau of Domestic Regulation, Federal Maritime Commission, Washington, D.C. They may submit to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, within twenty days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreements and their approval, disapproval, or modification together with request for hearing should such hearing be desired.

Dated: April 21, 1964.

By the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 64-4061; Filed, Apr. 23, 1964; 8:49 a.m.]

SEA-LAND SERVICE, INC., AND AZTA SHIPPING CO.

Notice of Filing of Agreement

Notice is hereby given that the following described agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733; 75 Stat. 763; 46 U.S.C. 814):

Agreement 9341 between Sea-Land Service, Inc., and Azta Shipping Company, covers a through billing arrangement on general and controlled temperature cargo between East and West Coast ports of Central America, on the one hand, and East Coast ports of the United States, on the other hand, with transhipment at San Juan, Puerto Rico, under terms and conditions set forth in the agreement.

Interested parties may inspect this agreement and obtain copies thereof at the Bureau of Foreign Regulation, Federal Maritime Commission, Washington, D.C., or may inspect a copy at the offices of the District Managers of the Commission in New York, N.Y., New Orleans, La., and San Francisco, Calif., and may submit to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with a request for hearing, should such hearing be desired.

Dated: April 21, 1964.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-18740 etc.]

CUMBERLAND NATURAL GAS CO., INC., ET AL.

Notice of Applications

APRIL 17, 1964.

Cumberland Natural Gas Company, Inc., Docket No. G-18740; J. C. Miller Oil Company, Inc., Docket No. G-18743; Truman Drake, Docket No. G-18744.

Take notice that Cumberland Natural Gas Company (Cumberland), 408 North Main Street, Greenville, Kentucky, filed an application in Docket No. G-18740 on June 8, 1959, and amendments thereto on May 2, 1963, and October 24, 1963, pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of approximately 90,000 feet of 6⅝-inch, 50,000 feet of 4½-inch, 8050 feet of 2-inch pipeline, and 1-mile of 4-inch pipeline, in Muhlenberg, Christian and Hopkins Counties, Kentucky, together with the installation and operation of compression and metering facilities comprising a transmission pipeline system, and the transportation and sale of natural gas in interstate commerce, all as more fully set forth in the application and amendments filed thereto on file with the Commission and open to public inspection.

Cumberland proposes the construction and operation of a pipeline system and the transportation and sale of natural gas in interstate commerce to Texas Gas Transmission Corporation. The natural gas to be transported and sold to Texas Gas will be produced from Cumberland's wells in the Sharon School Area, and purchased from J. C. Miller Oil Company, Incorporated, produced in the Harps Hill Area, from Truman Drake produced in the Apex Area, and from the Creek Oil Company[1] produced in the White Plains Field, all in the Muhlenberg, Christian and Hopkins Counties area in Kentucky.

The cost of the facilities proposed by Cumberland in Docket No. G-18740 is $306,949.55. The system facilities have been mortgaged to Stupp Bros. Bridge and Iron Company to the extent of $147,094.

Take further notice that on June 8, 1959, J. C. Miller Oil Company, Incorporated (J. C. Miller), Kresge Building, Owensboro, Kentucky, filed in Docket No. G-18743, and Truman Drake, Old State Road, Evansville, Indiana, filed in Docket No. G-18744, their respective applications pursuant to section 7(c) of the National Gas Act, for certificates of public convenience and necessity, authorizing the sale and delivery of natural gas to Cumberland all as more fully set forth in their respective applications on file with the Commission, and open to public inspection.

These matters are ones that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that preliminary staff analysis has indicated that there are no problems which would warrant a recommendation that the Commission designate these applications for formal hearing before an examiner and that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing may be held without further notice before the Commission on this application provided no protest or petition to intervene is filed within the time required herein.

[1] The application of Creek Oil Company Incorporated in Docket No. CI64-457 has been noticed by publication in the FEDERAL REGISTER on October 26, 1963 (28 F.R. 11493).

Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 11, 1964.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 64-4037; Filed, Apr. 23, 1964; 8:45 a.m.]

[Project No. 2353]

MOOSE CREEK RANCH, INC.

Notice of Application for License

APRIL 17, 1964.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by Moose Creek Ranch, Inc. (correspondence to: Kenneth Christensen, 5031 Colonial Drive, Minneapolis, Minnesota) for license for constructed Project No. 2353, located on North Fork of Moose Creek in Idaho County, Idaho, and affecting lands of the United States within the Nezperce National Forest.

The project consists of: A concrete diversion dam 6 feet high and 108 feet long; a wood flume 97 feet long; a small frame powerhouse containing a 33-horsepower waterwheel and a 24-kva generator; about 4,300 feet of 2,300 volt transmission line; and appurtenant facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is June 15, 1964. The application is on file with the Commission for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 64-4041; Filed, Apr. 23, 1964; 8:45 a.m.]

[Docket No. G-16862]

GILCREASE OIL CO.

Order Accepting Offer of Settlement, Requiring Filing of Notice of Change and Contract Amendment, and Terminating Proceeding

APRIL 6, 1964.

On February 3, 1964, Gilcrease Oil Company (Gilcrease) submitted an offer of settlement in this proceeding pursuant to § 1.18(e) of the Commission's rules of practice and procedure. The offer involves a proposed increased rate for sales of natural gas made to Tennessee Gas Transmission Company (TGT) by Gilcrease. The offer relates to sales made under Supplement No. 5 to Gilcrease's FPC Gas Rate Schedule No. 1 in Wharton County, Texas (Texas R.R. Com. District No. 3). The proposed increased rate was suspended by order of the Commission for the statutory period, and was made effective by Gilcrease on June 1, 1959.

Under the terms of the offer, Gilcrease proposes to eliminate the favored-nation and price redetermination provisions from the rate schedule and to establish a 15 cent per Mcf rate for the subject sale. Gilcrease's annual revenues will be decreased about $853 from the presently effective rates. No protests or objections have been filed to the offer.

Gilcrease, in its offer, proposes to refund all amounts collected, subject to refund, for sales of natural gas to TGT under the subject rate schedule in excess of the settlement rate. The estimated total dollars to be refunded approximates $7,770, exclusive of interest.

The proposed settlement is consistent with the provisions of the Second Amendment to the Commission's Statement of General Policy No. 61–1, issued December 20, 1960, 24 F.P.C. 1107, as amended by Order No. 264, issued March 27, 1963, 29 F.P.C. 589, and its acceptance would serve the public interest.

However, we desire to make it clear that acceptance of Gilcrease's offer of settlement shall not be construed as approval of any future increased rate filed in accordance with its reservations of the right to file increases to cover future tax increases. Nor, shall our action herein be construed as constituting approval of any future rate increase that may be filed under the subject rate schedule, and is without prejudice to any findings or order of the Commission in any future proceedings, including area rate or other similar proceedings, involving Gilcrease's rate and rate schedule.

The Commission finds: The proposed settlement by Gilcrease of the above-designated proceedings on the basis described herein, as more fully set forth in the offer of settlement filed with the Commission by Gilcrease on February 3, 1964, is in the public interest and appropriate to carry out the provisions of the Natural Gas Act and should be approved and made effective as hereinafter ordered.

The Commission orders:

(A) The offer of settlement filed with the Commission by Gilcrease on February 3, 1964, is hereby approved in accordance with the provisions of this order.

(B) Gilcrease shall file, within 30 days from the date of issuance of this order, notice of change in rate providing for the 15 cents per Mcf rate specified in its offer of settlement, and executed contractual amendment to its FPC Gas Rate Schedule No. 1 eliminating the favored-nation and price redetermination provisions therefrom. The notice of change and the contractual amendment shall be submitted in accordance with Part 154 of the Commission's regulations under the Natural Gas Act.

(C) Gilcrease shall refund to TGT to the date of issuance of this order the difference between the rates collected subject to refund under the rate schedule herein and the settlement rate with simple interest thereon, making account for proper charges, and shall report to the Commission, in writing, within 30 days from the date of issuance of this order, the amount of such refund, showing separately the amount of principal and interest, and the bases used for such determination, together with a release from TGT.

(D) Upon notification by the Secretary of the Commission that Gilcrease has complied with the terms and conditions of the order, the rate and charge of 15 cents per Mcf at 14.65 psia, specified in its offer of settlement shall be effective as of the date of issuance of this order, the above designated proceedings shall be deemed terminated, and severed from the consolidated area rate proceeding (Texas Gulf Coast Area) in Docket No. AR64–2 without further order of the Commission.

(E) The acceptance by the Commission of Gilcrease's offer of settlement is without prejudice to any findings or determinations that may be made in any proceeding now pending, or hereafter instituted by or against Gilcrease, including area rate or other similar proceedings.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 64-4038; Filed, Apr. 23, 1964; 8:45 a.m.]

[Docket No. RI64-692 etc.]

HUMBLE OIL & REFINING CO. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates [1]

APRIL 17, 1964.

The respondents named herein have filed proposed increased rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, public hearings shall be

[1] Does not consolidate for hearing or dispose of the several matters herein.

held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the Date Suspended Until column, and thereafter until made effective as prescribed by the Natural Gas Act.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before June 3, 1964.

By the Commission.

[1] The stated effective date is the effective date requested by respondent.
[2] Perodic rate increase.
[3] Pressure base is 14.65 psia.
[4] Subject to downward Btu adjustment.
[5] Renegotiated rate increase.
[6] Subject to downward and upward Btu adjustment based on 1000 Btu (net rate is 12.32 cents per Mcf before increase and 13.09 cents per Mcf after increase based on 770 Btu shown in filing).
[7] The stated effective date is the first day after expiration of the required statutory notice.
[8] Pressure base is 15.025 psia.
[9] Includes 1.0 cent per Mcf minimum guarantee for liquids.
[10] Includes partial reimbursement for 0.55 percent increase in New Mexico Emergency School Tax.
[11] For gas delivered at 250 psig.

United States Smelting Refining and Mining Company (Operator), et al., (Mining Company) request waiver of notice to make their proposed rate increases effective as of April 1, 1964. Sword Company, et al., and J. F. Hickman (Hickman) request an effective date of January 1, 1964, for their proposed rate filings. Caulkins Oil Company (Operator), et al., request an effective date of March 17, 1964. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit an earlier effective date for the aforementioned producers' rate filings and such requests are denied.

Hickman's proposed rate increase is applicable to low pressure wells and Hickman, in a letter agreement with the buyer, El Paso Natural Gas Company, has previously consented to a 2.0 cents per Mcf reduction in price as consideration for a reduction in line pressure from 500 psig to 250 psig. The proposed 12.0495 cents per Mcf rate is below the applicable 13.0 cents per Mcf area ceiling for increased rates; however, the compression cost to the buyer will cause the proposed rate to exceed the area ceiling for pipeline quality gas and is suspended as hereinbefore ordered.

All of the proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

[F.R. Doc. 64-4039; Filed, Apr. 23, 1964; 8:45 a.m.]

[Docket No. E-7130]

UTAH POWER AND LIGHT CO.

Declaratory Order To File Application for License

APRIL 17, 1964.

On October 11, 1963, the Utah Power and Light Company (Petitioner), a Maine corporation with principal offices in Salt Lake City, Utah, filed under § 1.7(c) of the rules of practice and procedure a petition, including a statement of facts, for a declaratory order removing uncertainty as to whether it needs a license under Part I of the Federal Power Act (16 U.S.C. 791-823) to continue to maintain and operate its Pioneer project works on the Ogden River at Ogden, Utah.

The petition shows that the Pioneer project's sole source of water power is the Pine View Dam. Water passes from the dam through a 5.5 mile wood-stave flowline to the head of Ogden Canyon. Here, the Ogden River Waters Users' Association (Association) diverts part of the water into its irrigation system, and Petitioner diverts the remainder to its project works. The water used by Petitioner flows into a surge tank, passes through a 4,800-foot steel penstock to the powerhouse, and empties through a half-mile ditch into the Ogden River. The installed capacity of petitioner's project is 5,000 kilowatts.

The Bureau of Reclamation of the Department of the Interior built the Pine View Dam between 1934 and 1937. By authority of the Reclamation Act of June 17, 1902 (32 Stat. 388, 389), the Secretary of Interior has authorized the Association to operate and maintain the dam and reservoir. The wood-stave flow line is owned jointly by petitioner, whose interest is about 45 percent, and the Association, holding the remainder. Petitioner wholly owns the powerhouse and appurtenant facilities.

Under subsection 23(b) of the Federal Power Act (16 U.S.C. 817), it is unlawful for petitioner, which does not claim to hold a Federal permit predating the act's approval on June 10, 1920, "for purpose of developing electric power, to * * * utilize the surplus water or water power from any Government dam, except under and in accordance with the terms of * * * a license granted pursuant to this Act." The term "government dam" is defined "for purposes of this Act" in section 3(10) (16 U.S.C. 796): "* * * a dam or other work constructed or owned by the United States for Government purposes with or without contribution from others."

The Pine View Dam and Reservoir are still owned by the United States. Moreover, since the dam was Federally constructed, it would be a "Government dam" as Congress defined the term for purposes of the Federal Power Act, even if the United States had disposed of it. Directly in point is the Commission's order in Green Mountain Power Corp., Project No. 2090, 13 FPC 1211 and 1321 (1954). Petitioner is required by subsection 23(b) to apply for and obtain a license for the continued maintenance and operation of its Pioneer project.

The Commission finds:

(1) The Pine View Dam is owned by the United States;

(2) The Pine View Dam was constructed by the United States;

(3) Thus, the Pine View Dam is a "Government dam" as the word is defined in section 3(10) for purposes of the Federal Power Act;

(4) The Utah Power and Light Company's Pioneer project utilizes surplus water power from the Pine View Dam.

The Commission orders: Utah Power and Light Company shall file, within ninety days from the date of issuance of this order, application for license pursuant to the provisions of the Federal Power Act and the Commission's rules and regulations thereunder for the continued maintenance and operation of its project works of its Pioneer project on the Ogden River at Ogden, Utah.

By the Commission.

[Docket No. RI64-690 etc.]

MARATHON OIL CO. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

APRIL 17, 1964.

The respondents named herein have filed proposed changes in rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the Date Suspended Until column, and thereafter until made effective as prescribed by the Natural Gas Act: *Provided, however,* That the supplements to the rate schedules filed by respondents, as set forth herein, shall become effective subject to refund on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order respondents shall each execute and file under its above-designated docket number with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless respondents are advised to the contrary within 15 days after the filing of their respective agreements and undertakings, such agreements and undertakings shall be deemed to have been accepted.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before June 3, 1964.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[1] The stated effective date is the effective date requested by respondent.
[2] Periodic rate increase.
[3] Pressure base is 14.65 psia.
[4] The stated effective date is the first day after expiration of the required statutory notice.
[5] Favored-nation rate increase.
[6] Pressure base is 15.025 psia.
[7] Subject to upward adjustment of 0.25 cent per Mcf for each treatment if buyer is not required to sweeten and/or remove moisture.
[8] Includes 0.5 cent per Mcf upward adjustment for delivery pressure (800 psig).
[9] The suspension period is limited to one day.

Mary H. Trenchard (Trenchard) requests waiver of notice to make her proposed rate increase effective as of March 24, 1964. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit an earlier effective date for Trenchard's rate filing and such request is denied.

Marathon Oil Company (Operator) et al. (Marathon), and Trenchard's proposed increased rates do not exceed the applicable area price level as set forth in the Commission's Statement of General Policy No. 61-1, as amended. The proposed rates, being lower than the contractually authorized rates, are considered to be "fractured" rates. Had Marathon and Trenchard's instant filings been accompanied by a waiver of the right to file for further rate increases above the ceiling level, we would not suspend the instant filings. But, in the absence of such a waiver, or a contrac-

[1] Does not consolidate for hearing or dispose of the several matters herein.

tual amendment substituting the 13.0 cents per Mcf (Trenchard) and 11.0 cents per Mcf (Marathon) rates in place of the now contractually authorized rates, we conclude that Trenchard and Marathon's rate filings should be suspended for one day, as hereinbefore ordered.

FEDERAL RESERVE SYSTEM

COMMERCIAL BANCORP, INC.

Notice of Application for Approval of Acquisition of Shares of Banks

Notice is hereby given that the Board of Governors of the Federal Reserve System has received an application by Commercial Bancorp, Inc., Miami, Florida, pursuant to section 3(a)(1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(1)), for the Board's prior approval of action to become a bank holding company through acquisition by Commercial Bancorp, Inc. of 80 percent or more of the voting shares of each of the following banks: Commercial Bank of Miami, Miami, Florida; Merchants Bank of Miami, Miami, Florida; and Bank of Kendall, Kendall, Florida.

In determining whether to approve this application, the Board is required by said Act to take into consideration the following factors: (1) The financial history and condition of the company and the banks concerned; (2) their prospects; (3) the character of their management; (4) the convenience, needs, and welfare of the communities and the area concerned; and (5) whether or not the effect of such acquisition would be to expand the size or extent of the bank holding company system involved beyond limits consistent with adequate and sound banking, the public interest, and the preservation of competition in the field of banking.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C., 20551.

Dated at Washington, D.C., this 17th day of April 1964.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area No. 463]

MISSISSIPPI

Declaration of Disaster Area

Whereas, it has been reported that during the month of April 1964, because of the effects of certain disasters, damage resulted to residences and business property located in Jones County, in the State of Mississippi;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended.

Now, therefore, as Executive Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the Offices below indicated from persons or firms whose property, situated in the aforesaid County and areas adjacent thereto, suffered damage or destruction resulting from flood and accompanying conditions occurring on or about April 8, 1964.

OFFICES

Small Business Administration Regional Office, 90 Fairlie St., NW., Atlanta 3, Ga.
Small Business Administration Temporary Office, Civic Center Laurel, Miss.
Small Business Administration Branch Office, Capital and West Sts., Jackson 1, Miss.

2. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to October 31, 1964.

Dated: April 10, 1964.

ROSS D. DAVIS,
Executive Administrator.

[F.R. Doc. 64-4066; Filed Apr. 23, 1964; 8:49 a.m.]

[Delegation of Authority 30-XIII, Disaster 1]

MANAGER, DISASTER FIELD OFFICE, ANCHORAGE, ALASKA

Delegation Relating to Financial Assistance Functions

I. Pursuant to the authority delegated to the Regional Director by Delegation of Authority No. 30 (Revision 8), as amended, 28 F.R. 3228, 7204, 8179, and 29 F.R. 4842, there is hereby redelegated to the Manager of Anchorage, Alaska Disaster Field Office, the following authority.

A. Financial assistance. 1. To approve the following:

a. Direct disaster loans not exceeding $100,000.

b. Participation disaster loans not exceeding $150,000.

2. To decline disaster loans in any amount.

3. To execute loan authorizations for Washington and Regional Office approved loans and for disaster loans approved under delegated authority, said execution to read as follows:

(Name), Administrator.
By _____
Manager, Anchorage Disaster Field Office.

4. To cancel, reinstate, modify and amend authorizations for disaster loans approved under delegated authority.

5. To disburse unsecured disaster loans.

6. To extend the disbursement period on disaster loan authorizations or undisbursed portions of disaster loans.

II. The authority delegated herein may not be redelegated.

III. All authority delegated herein may be exercised by any SBA employee designated as Acting Manager of the disaster field office.

Effective date. April 14, 1964.

WILLIAM S. SCHUMACHER,
Regional Director,
Seattle, Washington.

[F.R. Doc. 64-4049; Filed, Apr. 23, 1964; 8:47 a.m.]

TARIFF COMMISSION

[AA1921-36]

TITANIUM DIOXIDE FROM JAPAN

Determination of No Injury or Likelihood Thereof

APRIL 21, 1964.

On January 21, 1964, the Tariff Commission was advised by the Assistant Secretary of the Treasury that titanium dioxide from Japan is being, or is likely

to be, sold in the United States at less than fair value as that term is used in the Antidumping Act. Accordingly, the Commission on January 24, 1964, instituted an investigation under section 201 (a) of the Antidumping Act, 1921, as amended, to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Public notices of the institution of the investigation and of a public hearing to be held in connection therewith were published in the FEDERAL REGISTER (29 F.R. 1497 and 29 F.R. 2618). The hearing was held on March 23, 1964.

In arriving at a determination in this case, due consideration was given by the Commission to all written submissions from interested parties, all testimony adduced at the hearing, and all information obtained by the Commission's staff.

On the basis of the investigation, the Commission has unanimously determined that an industry in the United States is not being, and is not likely to be, injured, or prevented from being established, by reason of the importation of titanium dioxide from Japan, sold at less than fair value, within the meaning of the Antidumping Act, 1921, as amended.

Statement of reasons. Titanium dioxide (TiO_2) is the major white pigment in use today in the manufacture of a variety of products, principally paper and paint. It is produced in two basic types, anatase (used mainly in paper) and rutile (used mainly in paint). Each type is manufactured in a variety of grades which differ in their content of TiO_2 and of additives introduced to modify specific physical properties. There is, however, considerable interchangeability between different grades of anatase and between different grades of rutile, and even some interchangeability between some grades of anatase and some grades of rutile.

Although the articles covered by this investigation consist of both anatase and rutile types, most of the imports from Japan (about 85 percent in 1963) have been anatase.

The domestic industry markets a wide range of grades of both anatase and rutile types. Domestic producers quote identical delivered prices, which vary uniformly with the quantity sold, for each type (irrespective of grade), to all points in the United States: In carload lots of 30 tons or more, domestic anatase type sells for 25 cents per pound and domestic rutile for 27 cents. Except for the elimination in December 1963 of a one-half cent per pound extra charge for TiO_2 sold for shipment west of the Rocky Mountains, domestic producers have not changed their prices for several years. This change was a direct result of the completion, by a domestic producer, of the first titanium dioxide plant west of St. Louis, Mo.

Domestic producers of TiO_2, unlike the importers, provide a wide range of services. The value of these services to the customers varies, depending upon their requirements; it tends to be of greater value to manufacturers of paints than to manufacturers of paper.

Titanium dioxide produced domestically is sold at prices that are about 2 cents per pound higher than those for TiO_2 imported from Japan and other foreign countries. Most of the TiO_2 imported from Japan—which is marketed throughout the United States—is sold at prices which are about the same as those for TiO_2 imported from other countries.

Except for TiO_2 from Japan and France, titanium dioxide has not been found to be selling at less than fair value. In particular, the Treasury Department specifically found that imports from Italy, the United Kingdom, and Finland (the principal foreign supplier of anatase) were not being sold at less than fair value.

Imports of TiO_2 from Japan sold at less than fair value have never supplied more than an insignificant share of the U.S. consumption of either the anatase or the rutile type.

The domestic industry overall has shown continuous growth, though the growth has not been as great in anatase as in rutile. Changes in the market pattern (both geographically and by type of TiO_2) and technological developments are exerting strong influences; thus far, however, they have not been accompanied by price adjustments. These influences, in conjunction with the marketing practices (product offerings, sales engineering, pricing, et cetera) of the domestic industry and the impact of greater quantities of imports not sold at less than fair value, largely account for the circumstances giving rise to the complaints of the domestic industry. The Commission finds that the imports from Japan sold at less than fair value have neither caused nor are likely to cause material injury to a domestic industry within the meaning of the Antidumping Act.

This determination and statement of reasons are published pursuant to 201(c) of the Antidumping Act, 1921, as amended.

By the Commission.

[SEAL] DONN N. BENT,
Secretary.

[F.R. Doc. 64-4060; Filed, Apr. 23, 1964; 8:49 a.m.]

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), and Administrative Order No. 579 (28 F.R. 11524) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the act. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods, for certificates issued under general learner regulations (29 CFR 522.1 to 522.9), and the principal product manufactured by the employer are as indicated below. Conditions provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended, and 29 CFR 522.20 to 522.25, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Empire Manufacturing Co., Winder, Ga.; effective 4-1-64 to 3-31-65 (men's and boys' pants).

Indiana Sportswear Co., P.O. Box 252, Route 119, Indiana, Pa.; effective 3-30-64 to 3-29-65 (men's and boys' outerwear jackets).

Lerner Slone Clothing Corp., Forrest City, Ark.; effective 4-11-64 to 4-10-65 (men's dress slacks).

Linda Lane Garment Co., Inc., 106 Bluff and 204 North Main Streets, Excelsior Springs, Mo.; effective 4-3-64 to 4-2-65 (ladies', nurses' and maids' uniforms).

Madill Manufacturing Co., Inc., Madill, Okla.; effective 4-3-64 to 4-2-65 (men's dress trousers).

Prepshirt Manufacturing Corp., Greenville, N.C.; effective 4-15-64 to 4-14-65 (boys' sport and dress shirts).

Publix Manufacturing Corp., Gallitzin, Pa.; effective 4-3-64 to 4-2-65 (men's sport and dress shirts).

Salant and Salant, Inc., South First Street, Union City, Tenn.; effective 4-16-64 to 4-15-65 (boys' dungaree pants).

Savada Bros. Inc., 115-121 Mulberry Street, Millville, N.J.; effective 4-3-64 to 4-2-65 (boys' sport shirts).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Brooks Seas Manufacturing Co., 151-153 Park Avenue, Wilkes-Barre, Pa.; effective 4-11-64 to 4-10-65; 10 learners (children's blouses and dresses).

East Waterford Textiles, Inc., East Waterford, Pa.; effective 4-3-64 to 4-2-65; 10 learners (ladies' dresses).

Manila Manufacturing Co., Manila, Ark.; effective 4-3-64 to 4-2-65; 10 learners (ladies' cotton dresses).

Savada Bros., Inc., North East Boulevard, Landisville, N.J.; effective 4-3-64 to 4-2-65; 10 learners (boys' sport shirts).

Savada Bros., Inc., Wheat Road, Vineland, N.J., effective 4-3-64 to 4-2-65; 10 learners (boys' sport shirts).

Style-line Frocks, Inc., 201 East Cottage Avenue, Tamaqua, Pa.; effective 4-3-64 to 4-2-65; 5 learners (children's dresses).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Blue Bell, Inc., Lenoir, N.C.; effective 4-6-64 to 10-5-64; 150 learners (ladies' and boys' dungarees, children's pants and blouses).

Michael Berkowitz Co., Inc., R.D. No. 2, Waynesburg, Pa.; effective 4-3-64 to 10-2-64; 15 learners (ladies' and men's pajamas).

Honey Togs, Inc., 1504 North Main Street, P.O. Drawer 31, Gladewater, Tex.; effective 4-3-64 to 10-2-64; 35 learners (children's slacks, shorts, and jumpers).

The H. D. Lee Co., Inc., Sulphur Springs, Tex.; effective 4-6-64 to 10-5-64; 50 learners (men's pants).

Salant and Salant, Inc., South First Street, Union City, Tenn.; effective 3-30-64 to 9-29-64; 90 learners (boys' dungaree pants).

Glove Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended, and 29 CFR 522.60 to 522.65, as amended).

Galena Glove and Mitten Co., 430 Garfield Avenue, Dubuque, Iowa; effective 4-2-64 to 4-1-65; 10 learners for normal labor turnover purposes (work gloves).

The Schafer Co., Inc., 101-117 North First Street, Dubuque, Iowa; effective 4-2-64 to 4-1-65; 10 learners (leather, and leather and fabric work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended, and 29 CFR 522.40 to 522.43, as amended).

Athens Hosiery Mills, Inc., Athens, Tenn.; effective 4-6-64 to 4-5-65; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's, children's and misses' seamless hosiery).

Troy Craft, Inc., Troy, Pa.; effective 4-3-64 to 4-2-65; 5 learners for normal labor turnover purposes (women's seamless hosiery).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended, and 29 CFR 522.30 to 522.35, as amended).

Louisburg Sportswear Co., Louisburg, N.C.; effective 4-2-64 to 4-1-65; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' knitted sport and T-shirts and underwear).

Louisburg Sportswear Co., Louisburg, N.C.; effective 4-2-64 to 10-1-64; 30 learners for plant expansion purposes (men's and boys' knitted sport and T-shirts and underwear).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in 29 CFR Part 528.

Signed at Washington, D.C., this 10th day of April 1964.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice 973]

MOTOR CARRIER TRANSFER PROCEEDINGS

APRIL 21, 1964.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 66681. By order of April 16, 1964, the Transfer Board approved the transfer to James K. Heisel, doing business as Tucker Hill Transfer, Gray Summit, Mo., of Certificate in No. MC 61100, issued June 23, 1941, to E. H. Smith and G. T. Smith, a partnership, doing business as Tucker Hill Auto & Transfer Company, Gray Summit, Mo., authorizing the transportation of: General commodities, excluding household goods, commodities in bulk, and other specified commodities, between Union, Mo., and National Stock Yards, Ill., over U.S. Highway 50, serving intermediate points and specified off-route points. A. A. Marshall, 216 Buder Building, St. Louis, Mo., practitioner for applicants.

No. MC-FC 66691. By order of April 16, 1964, the Transfer Board approved the transfer to Benny DeFazio, Jr., 1028 Springbrook Avenue, Moosic, Pa., of Certificate in No. MC 44302, issued May 29, 1941, to C. E. Hendrickson, 1624 Monsey Ave., Scranton, Pa., authorizing the transportation of: Machinery, between Scranton, Pa., on the one hand, and, on the other, points in New York and New Jersey; and paper and paper products, between Scranton, Pa., on the one hand, and, on the other, Philadelphia, Pa., Watkins Glen, Ludlowville, and New York, N.Y., and Boston, Mass.

No. MC-FC 66719. By order of April 16, 1964, the Transfer Board approved the transfer to Curry Motor Freight Lines, Inc., Amarillo, Texas, applicant in No. MC 98072 (Sub No. 3), BOR-99 joined filed in that name and by H. A. Davis, doing business as Davis Motor Freight, Amarillo, Texas, for certificate of registration to operate in interstate or foreign commerce authorizing operations under the former second proviso of section 206(a)(1) of the Act, supported by Texas Certificates Nos. 2238-A, 2238-C, and 3666, respectively, authorizing transportation of commodities generally, between Wheeler, Texas, and Amarillo, Texas, via U.S. Highway 60 from Amarillo to Pampa, thence via State Highway 152 to Wheeler, and return over the same route, serving the intermediate point of Pampa only on traffic originating at that point and destined to Mobeetie and Wheeler, and the off-route point of Lefors on State Highway 273; from Shamrock to Amarillo over U.S. Highway 66, with the right to serve McLean, Texas; between Amarillo, Texas, and Pantex Ordnance Plant and Amarillo Army Airfield, as an extension of operations in connection with the operations presently authorized under existing certificates, using U.S. Highways 60 and 66, a distance of some 10 to 18 miles; and between Wheeler and Wellington over U.S. Highway 83, serving all intermediate points. Grady L. Fox, 222 Amarillo Building, Amarillo, Texas, attorney for applicants.
