## Title 3—THE PRESIDENT

### Executive Order 11156

#### ESTABLISHING A MARITIME ADVISORY COMMITTEE

By virtue of the authority vested in me as President of the United States it is ordered as follows:

**SECTION 1. *Committee established.*** (a) There is hereby established a Maritime Advisory Committee (hereinafter referred to as the Committee). The Committee shall be composed of:

(1) An equal number of representatives of the public at large, labor, and management, respectively, who shall be designated by the President and shall serve at his pleasure.

(2) The Secretary of Commerce, who shall serve as chairman of the Committee.

(3) The Secretary of Labor.

(b) The Secretary of State, the Secretary of Agriculture, the Secretary of the Navy, the Administrator of the Maritime Administration, and the Director of the Federal Mediation and Conciliation Service or their designee shall be present at all meetings of the Committee.

**SEC. 2. *Functions of the Committee.*** The Committee shall consider such matters of policy and administration of government programs affecting the Maritime industry as it deems to be in the public interest, including policies and practices which may be followed by labor, management, or the Government for strengthening the trade, national defense, manpower, and labor relations programs of the Maritime industry. The Committee shall also be the forum within which the recommendations of the representatives of public, labor and management members with respect to these matters shall be presented to and discussed with the Secretaries of Labor and Commerce and such other Federal officials designated in Section 1 as may be appropriate.

**SEC. 3. *Procedure; agency cooperation.*** Subject to law, the Committee may use available appropriate studies and resources of Federal departments, agencies, committees, and commissions. All such departments, agencies, committees, and commissions shall cooperate with the Committee by furnishing information which it requests insofar as is reasonable and not inconsistent with law.

**SEC. 4. *Expenditures.*** (a) As may be necessary for the effectuation of the purposes of this order, each agency the head of which is a member of the Committee under the provisions of Section 1(a) hereof shall furnish assistance to the Committee as permitted by law, including Section 214 of the Act of May 3, 1945, 69 Stat. 134 (31 U.S.C. 691).

(b) Members of the Committee shall receive no compensation from the United States by virtue of this order except that those members under Section 1(a)(1) who are representatives of the public at large shall each receive compensation of \$75 for each day such member is engaged in meetings of the Committee or is with the approval of the Chairman of the Committee engaged in other work in pursuance of this order. Members of the Committee under Section 1(a)(1) hereof may be allowed travel expenses and per diem in lieu of subsistence as authorized by law (5 U.S.C. 73b-2) for persons serving without compensation.

## THE PRESIDENT

SEC. 5. *Construction.* All functions of the Committee under the foregoing provisions of this order shall be deemed to be advisory only; accordingly, no Federal function, agency, or officer (including any Federal officer who under this order is a member of or may participate in the affairs of the Committee) shall be subject to control by the Committee or by any action taken by the Committee.

## Title 6—AGRICULTURAL CREDIT

### Chapter I—Farm Credit Administration

#### SUBCHAPTER D—FEDERAL INTERMEDIATE CREDIT BANKS AND PRODUCTION CREDIT ASSOCIATIONS

#### PART 40—FEDERAL INTERMEDIATE CREDIT BANKS

##### Subpart B—Loans and Discounts

##### FINANCING INSTITUTIONS OTHER THAN PRODUCTION CREDIT ASSOCIATIONS

In order to reflect a change in the Manual for Federal Intermediate Credit Banks, Title 6 of the Code of Federal Regulations is amended by changing § 40.226-2 to read as hereinafter set forth and by deleting § 40.226-3 (27 F.R. 12807).

§ 40.226-2 Same; other financing institutions.

Notes of a corporation may be discounted for a financing institution other than a production credit association if the borrowing corporation is engaged in actual farming operations or livestock production and meets the following requirements:

(a) Either, (1) at least 75 percent in value and number of shares of its capital stock must be owned by the individuals personally actually conducting the farming or livestock operations of the corporation; or (2) the major portion of the assets of the corporation must consist of property actually devoted to farming or livestock production and at least half of its gross income must be derived from such operations; and

(b) Either the holder or holders of at least a majority of its outstanding shares of voting stock or, with the consent of the Federal intermediate credit bank, a principal stockholder or stockholders must (1) endorse, or sign as co-makers, all notes evidencing such loans; or (2) execute a continuing guaranty of all indebtedness of such corporation to the payee lending institution. Requirement (2) may be met by two or more stockholders each executing a guaranty for a specified percentage of the indebtedness, with the aggregate of such guaranties affording personal liability for 100 percent of the indebtedness. If such personal liability of stockholders of the borrowing corporation cannot be obtained by reason of ownership of its capital stock by another corporation, the stockholder liability requirement may be met by like endorsement or guaranty on the part of an individual stockholder or

stockholders of such parent or affiliated corporation.

## Title 7—AGRICULTURE

### Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

#### SUBCHAPTER C—REGULATIONS AND STANDARDS UNDER THE AGRICULTURAL MARKETING ACT OF 1946

#### PART 70—GRADING AND INSPECTION OF POULTRY AND EDIBLE PRODUCTS THEREOF; AND UNITED STATES CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

##### Miscellaneous Amendments

Under authority contained in the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621-1627) the United States Department of Agriculture hereby amends the Regulations Governing the Grading and Inspection of Poultry and Edible Products Thereof; and United States Classes, Standards, and Grades with Respect Thereto (7 CFR Part 70) as set forth below.

*Statement of considerations.* On November 9, 1963, a notice of proposed amendments of the Regulations Governing the Grading and Inspection of Poultry and Edible Products Thereof, and United States Classes, Standards and Grades with Respect Thereto (7 CFR Part 70) was published in the FEDERAL REGISTER (28 F.R. 12062). Such proposal provided, among other things, for the establishment of standards for A Quality and U.S. Grade A canned whole chicken and ready-to-cook poultry roast, and for making slight changes in the Standards for Quality of Ready-to-Cook Poultry by limiting the amount and appearance of weepage that is visible in packages of such poultry when frozen.

After careful consideration of all comments received, the Department deems it inappropriate to promulgate grade standards for canned whole chicken, since there was a general lack of interest and support for such standards. The comments received concerning standards for poultry roast indicate that there is an interest and need for such stand-

ards, but that there remains a diversity of opinion regarding the appropriate factors of quality for a Grade A poultry roast. In view of this, the Department will delay publishing standards for poultry roast, and will continue to study the manufacture and fabrication of poultry roast and to receive comments and data respecting this matter.

The present amendments change the United States Standards for Quality of Ready-to-Cook Poultry by limiting the amount and appearance of weepage which is visible in packages of frozen ready-to-cook poultry. This change will further protect buyers from purchasing products that are not handled or frozen properly. The amendment differs from the proposal only to the extent that the wording of the amendment clearly indicates that the requirements apply only to consumer packaged poultry.

On March 14, 1964, there was published in the FEDERAL REGISTER (29 F.R. 3404) a notice of proposed amendments which would change the requirements for poultry of B Quality and Procurement Grade I by allowing birds of A Quality fleshing which have up to 1/3 of the flesh exposed on any part to be graded B Quality or Procurement Grade I provided that the meat yield of such products is not appreciably affected. Such products are being marketed at prices often commensurate with those of B Quality poultry, but would have been graded C Quality prior to the present amendments. This tends to discourage the use of USDA standards and grades for this type of product. Accordingly, the present amendments change the requirements for B Quality and Procurement Grade I poultry in order that the official standards and grades will more accurately reflect the true market value of these products.

In addition, the present amendments made several changes which are of an administrative or "housekeeping" nature. Some requirements have been relocated for the sake of clarity and continuity, and certain repetitious paragraphs have been deleted. A number of sections and paragraphs have been modified solely for the purpose of effecting editorial changes which improve the format of the regulations. Sections or paragraphs that contain the same substantive material as sections or paragraphs of Part 81 of the regulations have been deleted, and a reference to the applicable section or paragraph of Part 81 has been substituted in lieu thereof. This latter modification will help maintain uniformity between the requirements of the voluntary inspection program and those of the mandatory in-

spection program, and will eliminate the administrative burden of amending Part 70 each time a change is made in Part 81.

Practically all of the changes made are of an administrative nature except for § 70.353(h) and § 70.354(h) which concern the appearance and amount of weepage that is visible in consumer packages of poultry and § 70.354(e) and § 70.367 which concern the area of missing skin permitted on B Quality and Procurement Grade I poultry.

The amendments are as follows:

1. Section 70.1 is hereby amended to read:

#### § 70.1 Definitions.

Unless the context otherwise requires, the following terms shall have the following meaning:

"Acceptable" means suitable for the purpose intended and acceptable to the Service.

"Act" means the applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621 et seq.) or any other act of Congress conferring like authority.

"Administrator" means the Administrator of the Agricultural Marketing Service of the Department or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated the authority to act in his stead.

"Applicant" means any interested person who requests any inspection service or grading service.

"Area supervisor" means any employee of the Department in charge of poultry grading service or poultry inspection service in a designated geographical area.

"Carcass" means any poultry carcass. "Circuit supervisor" or "technical supervisor" means the officer in charge of the poultry inspection service or the poultry grading service in a circuit consisting of a group of stations within an area.

"Class" means any subdivision of a product based on essential physical characteristics that differentiate between major groups of the same kind.

"Condition" means any condition, including but not being limited to, the state of preservation, cleanliness, or soundness of any product; or any condition, including but not limited to, the processing, handling, or packaging which affects such product.

"Condition and wholesomeness" means the condition of any product and its healthfulness and fitness for human food.

"Department" means the United States Department of Agriculture.

"Dressed poultry" means poultry which has been slaughtered for human food with head, feet, and viscera intact, and from which the blood and feathers have been removed.

"Edible product" means any product other than live poultry and dressed poultry.

"Food product containing poultry product" means any articles of food for human consumption which is prepared in part from any edible portion of poultry, if such edible portion does not comprise

a substantial portion of such article of food.

"Free from protruding pinfeathers" means that the carcass is free from protruding pinfeathers which are visible to an inspector or grader during an examination of the carcass at normal operating speeds. However, a carcass may be considered as being free from protruding pinfeathers if it has a generally clean appearance (especially on the breast), and if not more than an occasional protruding pinfeather is in evidence during a more careful examination of the carcass.

"Giblets" means the following organs when properly trimmed and washed: the liver from which the bile sac has been removed, the heart from which the pericardial sac has been removed, and the gizzard from which the lining and contents have been removed.

"Grader" means any Federal or State employee to whom a license has been issued by the Secretary, to investigate and certify in accordance with the regulations in this part, the class, quality, quantity, or condition of products.

"Grading" or "grading service" means: (1) The act whereby a grader determines, according to the regulations in this part, the class, quality, quantity, or condition of any product by examining each unit thereof or each unit of the representative sample thereof drawn by a grader, and issues a grading certificate with respect thereto, except that with respect to grading service performed on a resident basis the issuance of a grading certificate shall be pursuant to a request therefor by the applicant or the Service; (2) the act whereby the grader identifies, according to the regulations in this part, the graded product; (3) with respect to any official plant, the act whereby a grader determines that the product in such plant was processed, handled, and packaged in accordance with § 70.240; or (4) any regrading or any appeal grading of a previously graded product.

"Grading certificate" means a statement, either written or printed, issued by a grader, pursuant to the regulations in this part, relative to the class, quality, quantity, or condition of a product.

"Identify" means to apply official identification to products or the containers thereof.

"Inspected and certified" or "certified" means, with respect to any product, that it has undergone an inspection and was found, at the time of such inspection, to be sound, wholesome, and fit for human food.

"Inspection," "inspection service," or "inspection of products for condition and wholesomeness" means any inspection by an inspector to determine, in accordance with the regulations in this part, (1) the condition and wholesomeness of any edible product at any stage of the preparation or packaging thereof in the official plant where inspected and certified, or (2) the condition and wholesomeness of any previously inspected and certified product if such product has not lost its identity as an inspected and certified product. In addition to the foregoing, the terms "inspection" and "inspection service" shall each mean any inspection by an inspector to determine,

in accordance with the regulations in this part, the condition of dressed poultry as it is affected by its processing, handling or packaging, or any antemortem examination of poultry.

"Inspection certificate" means a statement, either written or printed, issued by an inspector, pursuant to the regulations in this part, relative to the condition or wholesomeness of products.

"Inspector" means any person who is authorized by the Secretary to investigate and certify in accordance with the regulations in this part, the condition and wholesomeness of products or the condition of dressed poultry. An inspector may be either an employee of the Department or of a State; he may be a graduate veterinarian or a layman.

"Interested party" means any person financially interested in a transaction involving any inspection or grading.

"National supervisor" means (1) the officer in charge of the poultry inspection service of the Agricultural Marketing Service, (2) the officer in charge of the poultry grading service of the Agricultural Marketing Service, or (3) such other officers or employees of the Department who may be so designated by the officer in charge of the poultry inspection service or poultry grading service of the Agricultural Marketing Service.

"Office of grading" means the office of any grader.

"Official plant" or "official establishment" means one or more buildings, or parts thereof, comprising a single plant in which the facilities and methods of operation therein have been approved by the Administrator as suitable and adequate for operation under inspection or grading service and in which inspection or grading is carried on in accordance with the regulations in this part.

"Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

"Potable water" means water that has been approved by the State health authority as safe for drinking and suitable for food processing.

"Poultry" means any kind of domesticated bird, including, but not being limited to chickens, turkeys, ducks, geese, pigeons, and guineas.

"Poultry food product" means any article of human food or any article intended for or capable of being so used which is prepared or derived in whole or in substantial part, from any edible part or parts of poultry.

"Poultry grading and inspection service" means the personnel who are actively engaged in the administration, application, and direction of poultry grading and inspection programs and services pursuant to the regulations in this part.

"Product" means each of the following: (1) Dressed poultry; (2) ready-to-cook poultry; (3) poultry food product; (4) food product containing poultry product; and (5) with respect to grading service only, live poultry.

"Quality" means the inherent properties of any product which determine its relative degree of excellence.

"Ready-to-cook poultry" means any dressed poultry from which the protrud-

ing pinfeathers, vestigial feathers (hair or down as the case may be), head, shanks, crop, oil gland, trachea, esophagus, entrails, reproductive organs and lungs have been removed, and with or without the giblets, and which is ready to cook without need of further processing. Ready-to-cook poultry also means any cut-up or disjointed portion of such poultry or any edible part thereof.

"Regulations" means the provisions of this entire part and such United States classes, standards, and grades for products as may be in effect at the time grading or inspection is performed.

"Secretary" means the Secretary of the Department, or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated, the authority to act in his stead.

"Service" means the Agricultural Marketing Service of the Department.

"Soundness" means freedom from external evidence of any disease or condition which may render a carcass or product unfit for food.

"State supervisor" or "Federal-State supervisor" means any authorized and designated individual who is in charge of the poultry grading service or the poultry inspection service in a State. A State supervisor or a Federal-State supervisor of poultry inspection service shall be a veterinarian and a Federal employee.

"Station supervisor" means any authorized individual who is designated to supervise the poultry grading service or the poultry inspection service in a large official plant or in a group of several smaller plants.

2. Paragraph 70.2(c) is hereby amended to read:

§ 70.2 Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.

(c) "Official mark" means the grade mark, inspection mark, and any other mark, or any variations in such marks, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U.S. Grade or condition of the product, or for maintaining the identity of products graded or inspected or both under this part, including but not limited to, those marks set forth in §§ 70.90 through 70.93.

3. Section 70.4 is hereby amended to read:

§ 70.4 Grading and inspection services available.

The regulations in this part provide for the following kinds of service; and any one or more of the different services applicable to official plants may be rendered in an official plant:

(a) Grading of live poultry.  
(b) Certification of dressed poultry produced under sanitary requirements in official plants.

(c) Grading of dressed poultry in an official plant or at other locations with adequate facilities.

(d) Inspection service in an official plant or at other locations with adequate facilities.

(e) Grading of ready-to-cook poultry in an official plant or at other locations with adequate facilities.

(f) Grading of poultry food products in official plants.

§§ 70.11, 70.12 [Amended]

4. Change the words "Subpart B" to read "Subpart C" in the ninth line of § 70.11 and in the last line of § 70.12.

5. Section 70.14 is hereby amended to read:

§ 70.14 Dressed poultry; eligibility.

Except as otherwise provided in this section, dressed poultry may be graded or inspected under the regulations in this part only if it was processed in an official plant in accordance with the regulations in this part, or in Part 81 of this chapter, or was imported from a country with an inspection system approved by the Administrator. Squabs and domesticated game birds (including, but not being limited to, quail, grouse, pheasants, and wild species of ducks and geese) which were not dressed in an official plant may be brought into an official plant for grading or inspection. In order to facilitate distribution thereof, dressed poultry from other than official plants may be brought into an official plant in instances where the Service has determined that such dressed poultry will be adequately segregated and its form and identity maintained until it is shipped from the official plant.

6. Section 70.15 is hereby amended to read:

§ 70.15 Inspection in official plants; extent required.

All dressed poultry that is eviscerated in an official plant where inspection service is maintained shall be processed in a sanitary manner. Dressed poultry may be eviscerated in such plant without inspection for condition and wholesomeness but uninspected and inspected operations may not be carried on simultaneously except in plants where processing rooms (including packing rooms) are separate or when, by other acceptable means, effective segregation of inspected and uninspected product is maintained. Evisceration without inspection may be conducted only if an inspector or governmentally employed grader is on duty, at all times when such operations are carried on, for the purpose of (a) effecting adequate segregation of inspected and uninspected products, (b) control of official inspection marks and grade marks, and (c) supervision of sanitation in the official plant. No uninspected edible products or uninspected slaughtered rabbits shall be brought into such plant except as may be specifically approved by the Administrator upon written request and only for the purpose of rehandling, reconditioning, packaging, freezing, marking, and further distribution, and only if an inspector or governmentally employed

grader is on duty, at all times when such operations are carried on, for the purpose of effecting adequate segregation of uninspected and inspected products and control of official inspection marks and grade marks.

7. The heading of § 70.16 is hereby changed to read:

§ 70.16 Certification of dressed poultry.

8. In § 70.16, "§ 70.94" is hereby changed to "§ 70.93".

§§ 70.21, 70.22, 70.23 [Redesignated]

9. Sections 70.105, 70.106 and 70.107 are hereby renumbered as §§ 70.21, 70.22 and 70.23, respectively, and said renumbered sections are relocated in numerical order following § 70.20.

10. Section 70.30 is hereby amended to read:

§ 70.30 Licensed graders and inspectors.

(a) Any person who is a Federal or State employee possessing proper qualifications as determined by an examination for competency, and who is to perform grading services under this part, may be licensed by the Secretary as a grader.

(b) Any person who is a Federal or State employee possessing proper qualifications as determined by an examination for competency, and who is to perform inspection services under this part, may be licensed or otherwise authorized by the Secretary as an inspector.

(c) All licenses issued by the Secretary shall be countersigned by the officer in charge of the poultry grading service or the poultry inspection service of the Agricultural Marketing Service or any other designated officer of such Service.

(d) A limited license may be issued by the Secretary to any person possessing proper qualifications, as determined by a grader licensed in accordance with paragraph (a) of this section, authorizing such person to grade poultry on the basis of the United States classes, standards, and grades under the supervision of a grader licensed in accordance with paragraph (a), and all product so graded shall be check graded by a grader licensed in accordance with paragraph (a). No person to whom a limited license is issued shall have the authority to issue any grading certificates, grading memoranda or other official documents. All limited licenses are to be countersigned by the licensed grader who determined the qualifications of the limited licensee.

11. Section 70.44(b) is hereby amended to read:

§ 70.44 Application for inspection service or grading service in official plants; approval.

(b) Drawings and specifications to be furnished. Unless otherwise specified, the requirements of § 81.14 of this chapter shall be applicable to plants operating under inspection service and/or grading service pursuant to this part.

12, 13. In § 70.44, paragraphs (c), (d), (e), and (f) are hereby deleted.

## RULES AND REGULATIONS

14. Section 70.47 is hereby amended to read:

§ 70.47 Order of service.

Grading service shall be performed, insofar as practicable and subject to the availability of qualified graders, in the order in which applications therefor are made, except that precedence may be given to any application for an appeal grading.

15. Sections 70.90, 70.91 and 70.93 are hereby amended to read, and § 70.92 is hereby added to read:

IDENTIFYING AND MARKING PRODUCTS

§ 70.90 Approval of official identification and wording on labels.

Any label or packaging material which bears any official identification shall be used only in such a manner as the Administrator may prescribe, and such labeling or packaging materials, including the wording used on such materials, shall, when used under this Part 70, be approved in accordance with and conform with the provisions of §§ 81.126-81.135 and §§ 81.138-81.148 of this chapter: *Provided*, That for the purposes of this part, where §§ 81.130, 81.138, 81.141, and 81.143 of this chapter refer to "inspection," "inspector" or "inspection mark," they shall be deemed to refer to "inspection," "inspector" or "inspection mark" and/or "grading," "grader" or "grade mark", as applicable.

§ 70.91 Marking graded products.

(a) *Information required on grade mark.* Except as otherwise authorized by the Administrator, each grade mark which is to be used shall include the letters "USDA" and the U.S. Grade of the product it identifies, such as "U.S. A Grade," and such information shall be printed in a light color on a dark field. In addition, a term, such as "Federal-State Graded" or "Government Graded," may be used adjacent to but not within the grade mark.

(b) *Form of official identification symbol and grade mark.* (1) The shield set forth in Figure 1 shall be the official identification symbol for purposes of this part, and when used, imitated, or simulated in any manner in connection with poultry, shall be deemed prima facie to constitute a representation that the product has been officially graded for the purposes of § 70.2.

FIGURE 1.

(2) Except as otherwise authorized, the grade mark permitted to be used to officially identify consumer graded poultry products shall be of the form and design indicated in Figure 2 or 3 of this section. The shield shall be of sufficient size so that the print and other information contained therein is distinctly legible and in approximately the same proportion and size as shown in Figures 2 and 3.

FIGURE 2.

Federal-State Graded

FIGURE 3.

(c) *Products that may be individually grade marked.* The grade marks set forth in Figures 2 and 3 may be applied individually to ready-to-cook poultry and specified poultry food products prepared therefrom, for which consumer grades are provided in §§ 70.361 through 70.363, or to the containers in which such products are enclosed for the purpose of display and sale to household consumers, only when such products qualify for the particular grade indicated, in accordance with the consumer grades.

§ 70.92 Marking inspected products.

(a) For plants furnished inspection under this part, except as otherwise provided in paragraph (b) of this section, the inspection mark approved for use on inspected and certified edible products shall be contained within the outline of a hexagon and contain the following wording: "USDA Inspected and passed

Plant No. \_\_\_\_\_ Voluntary Poultry Inspection Service." The form and arrangement of such wording shall be as indicated in the example in Figure 4.

FIGURE 4.

(b) For plants furnished inspection under this part, the inspection mark approved for use on human food products that consist in part of edible parts of poultry from federally inspected poultry and are exempt from classification as poultry products, as set forth in § 81.208 of this chapter (Regulations Governing the Inspection of Poultry and Poultry Products) promulgated pursuant to the Poultry Products Inspection Act, shall be contained within a circle and include the following wording: "Inspected for Wholesomeness by U.S. Department of Agriculture." The form and arrangement of such wording shall be as indicated in the example in Figure 5. The plant number of the official plant shall be set forth if it does not appear on the packaging material.

FIGURE 5.

§ 70.93 Marking dressed poultry.

(a) The Administrator is authorized to prescribe and approve the manner in which dressed poultry which was processed in accordance with minimum standards for sanitation, facilities, and operating procedures in official plants may be marked for identification purposes.

(b) With respect to dressed poultry which has been graded or inspected for condition pursuant to § 70.16, the official identification approved for use shall contain the wording "Dressed Poultry—Eligible for Further Processing Under

USDA Voluntary Poultry Inspection Service." This wording shall be printed on the label and shall not be applied by means of a stencil or rubber stamp. Such identification shall also set forth the applicable plant number and a lot number which shall be the number of the day of the year the poultry was slaughtered, or a coded number to indicate such day of slaughter, the meaning of which shall be made known to the Service. A rubber stamp may be used to insert the plant number and lot number within the official identification, provided such numbers are applied legibly. This identification may be used only on bulk packages of dressed poultry. It shall not be applied to individual carcasses of dressed poultry or to any poultry that has been eviscerated. The required wording shall be set forth in the manner indicated in Figure 6 of this section and within a rectangle of the form and design illustrated.

§§ 70.94, 70.100, 70.101, 70.102, 70.103 [Deleted]

§ 70.94 [Redesignated]

16. Sections 70.94, 70.100, 70.101, 70.102, and 70.103, and the heading "Supervision of Marketing and Packaging" preceding § 70.100 are hereby deleted and § 70.104 is hereby renumbered as § 70.94.

17. Section 70.131(b) and the last paragraph of the chart immediately following footnote 1 in § 70.133 are hereby amended to read:

§ 70.131 Grading Service on a fee basis.

(b) In the event the aforesaid applicable rates specified in § 70.133 are deemed by the Administrator to be inadequate fully to reimburse the Service for all costs and other items paid or incurred by the Service in connection with such grading service, the fees for such service shall not be based on the rates specified in § 70.133, but shall be based on the time required to perform such grading service and the travel of each grader at the rate of \$5.60 per hour for the time actually required. The minimum time charged for grading any lot in excess of 180 pounds shall be one-half hour except when grading multiple lots for contract deliveries as provided for in § 70.133.

§ 70.133 Poultry grading fees.

Re-examination of previously inspected and/or graded product for condition and determination of quantity (weight test)

shall be charged for at the rate of \$5.60 per hour.

18. Section 70.137 is hereby amended to read:

§ 70.137 Charges for continuous grading service on a non-resident basis.

When grading service is furnished on a continuous non-resident basis, the charges and other provisions contained in § 70.138 are applicable with the exception of § 70.138(a) (1) and (9). The administrative charge shall be computed by adding 20 percent to each of the charges specified in § 70.138(a) (3) and (7).

19. Section 70.141(a)(1) is hereby amended to read:

§ 70.141 Inspection performed on a resident inspection basis.

(a) Charges. \* \* \*

(1) A charge of \$125.00 for the combined initial and final survey (required to be made with respect to an official plant pursuant to the regulations in this part) made of the designated plant and its premises prior to the performance, by AMS, of the inspection service. However, surveys made pursuant to the regulations (Part 81 of this chapter), under the Poultry Products Inspection Act will be accepted for purposes of § 70.44 and where a determination of eligibility for service under the regulations in this part is to be made upon the basis of such surveys the charge specified in this subparagraph is not applicable.

20. The heading "Inspection" preceding § 70.150 and said section are hereby amended to read:

INSPECTION PROCEDURES

§ 70.150 Manner of handling products in an official plant.

Unless otherwise specified in the regulations in this part or by the Administrator, products which are to be further processed under inspection in an official plant shall be prepared and handled in such official plant under the supervision of an inspector, and the inspection procedures used in this part shall, where applicable, be the same as those provided in §§ 81.61 through 81.110 of this chapter.

§§ 70.151-70.161 [Deleted]

21. Sections 70.151 through 70.161 are hereby deleted.

22. Section 70.183 is hereby amended to read:

§ 70.183 Ready-to-cook poultry and specified poultry food products.

(a) Ready-to-cook poultry carcasses or parts or poultry food products may be graded only if they have been inspected and certified pursuant to the regulations in this part, or inspected and passed by any other inspection system which is acceptable to the Administrator, except that acceptability of non-inspected ready-to-cook carcasses or parts may be determined under institutional contract specifications pursuant to § 70.11.

(b) Only when ready-to-cook poultry carcasses or parts, including those used

in the fabrication of poultry food products, have been graded on an individual basis by a grader licensed under § 70.30 (a), or by a limited licensee pursuant to § 70.30(d) and thereafter check graded by a grader, and when fabrication of the poultry food products has been done under the supervision of a grader, may the container or the individual carcass or part or poultry food product be identified with the appropriate official letter grade mark. Except when otherwise permitted by the Administrator, the grading of ready-to-cook poultry with respect to the factors of fleshing and fat covering and the determination of the class of the poultry shall be performed prior to the disjuncting or cutting up of the carcass. Grading with respect to the other factors of quality may be performed after the carcass has been disjuncted or cut up. Grading with respect to factors such as freezing defects and appearance of finished products may be done on a sample basis.

23. Section 70.192 is hereby amended to read:

§ 70.192 Determining compliance with § 70.191.

A qualified veterinary supervisor of the Service shall investigate the manner of operation of the inspection system to determine the adequacy of the post-mortem examination and the compliance with the requirements contained in §§ 70.190 through 70.192 prior to approving the official plant for the grading of ready-to-cook poultry. This supervisor, as well as any official graders who may be stationed in the official plant, shall periodically observe the inspection operations in the official plant to determine whether the requirements of §§ 70.190 through 70.192 are being met. If at any time the supervisor finds that an official plant fails or failed to comply with the requirements as set forth by the inspection system, grading service may be withdrawn from such official plant.

24. Section 70.240 is hereby amended to read:

§ 70.240 Minimum standards for sanitation facilities, and operating procedures in official plants.

The requirements of §§ 81.31 through 81.53 of this chapter shall be applicable to plants operating under inspection service and/or grading service pursuant to this part other than with respect to the grading of live poultry. With respect to grading services, there shall be a minimum of 50 foot candles of light intensity at grading stations; office space, including lockers or cabinets, suitable for the protection and storage of supplies; and acceptable means, when necessary, of maintaining control and identity of products segregated for quality, class, condition, weight, lot, or any other factor which may be used to distinguish one type of product from another.

§§ 70.241-70.283 [Deleted]

25. Sections 70.241 through 70.283 are hereby deleted.

26. The heading preceding § 70.300 is hereby amended to read:

### Subpart C—United States Classes, Standards and Grades for Poultry

27. The headings preceding § 70.350 are hereby amended to read:

#### UNITED STATES STANDARDS FOR QUALITY OF DRESSED POULTRY, READY-TO-COOK POULTRY AND SPECIFIED POULTRY FOOD PRODUCTS

##### GENERAL

28. Section 70.350 (a) and (b) are hereby amended to read:

#### § 70.350 General.

(a) The United States standards for quality contained in § 70.350 through § 70.355 are applicable as indicated in the headings with respect to said sections, to individual carcasses of ready-to-cook poultry, to parts of ready-to-cook poultry as described in paragraph (e) of this section, to individual carcasses of dressed poultry, and to individual units of the specified poultry food products.

(b) Carcasses, parts or poultry food products found to be unsound, unwholesome or otherwise unfit for human food in whole or in part shall not be given any of the quality designations specified in § 70.350 through § 70.355. If the carcass is dressed poultry, determination of unfitness for human food shall be based on external characteristics only. No part, other than wing tips, of dressed poultry carcass may be removed.

29. In § 70.350, paragraph (c) is hereby deleted and paragraphs (d) through (f) are hereby redesignated as (c) through (e), respectively.

30. Section 70.353 (h) is hereby amended to read:

#### § 70.353 A Quality.

(h) *Freezing defects.* With respect to consumer packaged poultry, parts or specified poultry food products, the carcass, part or specified poultry food product is practically free from defects which result from handling or occur during freezing or storage. The following defects are permitted if they, alone or in combination, detract only very slightly from the appearance of the carcass, part or specified poultry food product:

(1) Slight darkening over the back and drumsticks provided the frozen bird or part has a generally bright appearance;

(2) Occasional pockmarks due to drying of the inner layer of skin (derma), (however, none may exceed the area of a circle  $\frac{1}{8}$  inch in diameter on chickens, guineas, ducks and pigeons, and  $\frac{1}{4}$  inch in diameter on turkeys and geese);

(3) Occasional small areas showing a thin layer of clear or pinkish colored ice.

31. Section 70.354 (e) and (h) are hereby amended to read:

#### § 70.354 B Quality.

(e) *Cuts, tears and missing skin.* Parts may have cuts, tears and missing skin, provided that not more than a moderate amount of the flesh normally covered by skin is exposed. The carcass may have cuts, tears and missing skin,

provided that the aggregate of the areas of flesh exposed thereby on the breast and legs does not exceed the area of a circle of the following diameters, respectively: (1) On chickens, ducks, guineas and pigeons,  $1\frac{1}{2}$  inches; (2) on turkeys and geese, 3 inches. Elsewhere on the carcass the aggregate area of flesh exposed shall not be greater than the area of a circle having the following diameters, respectively: (i) On chickens, ducks, guineas, and pigeons, 3 inches; (ii) on turkeys and geese, 6 inches. Notwithstanding the foregoing, a carcass meeting the requirements of A quality for fleshing may be trimmed to remove skin and flesh defects, provided that no more than one-third of the flesh is exposed on any part and the meat yield of any part is not appreciably affected.

(h) *Freezing defects.* With respect to consumer packaged poultry, parts or specified poultry food products, the carcass, part or specified poultry food product may have moderate defects which result from handling or occur during freezing or storage. The skin and flesh shall have a sound appearance but may lack brightness. The carcass or part may have a few pockmarks due to drying of the inner layer of skin (derma). However, no single area of overlapping pockmarks may exceed that of a circle  $\frac{1}{2}$  inch in diameter. Moderate areas showing layers of clean pinkish or reddish colored ice are permitted.

#### §§ 70.356, 70.357, 70.360, 70.364

[Deleted]

32. Sections 70.356, 70.357, 70.360 and 70.364; the heading "General" preceding §§ 70.356, 70.360 and 70.364; and the heading "Grades" preceding § 70.357 are hereby deleted.

33. After § 70.355 the heading "United States Consumer Grades for Ready-to-Cook Poultry" is hereby deleted and the following heading is hereby added to read:

#### STANDARDS FOR QUALITY OF SPECIFIED POULTRY FOOD PRODUCTS [RESERVED]

34. After said heading and sentence, the following headings and a new § 70.360 are hereby added to read:

#### UNITED STATES GRADES FOR DRESSED POULTRY, READY-TO-COOK POULTRY AND SPECIFIED POULTRY FOOD PRODUCTS

##### GENERAL

#### § 70.360 General.

(a) All terms in the United States standards for quality set forth in § 70.350 through § 70.355 shall, when used in § 70.360 through § 70.368, have the same meaning as when used in said standards.

(b) The United States Grades for Dressed Poultry, Ready-to-Cook Poultry and Specified Poultry Food Products are applicable to poultry of the kinds and classes set forth in § 70.300 through § 70.306 when the carcasses or parts, including those used in the fabrication of poultry food products, have been graded in accordance with § 70.30 on an individual basis or on the basis of each carcass in a representative sample, whichever is applicable in accordance with paragraph

(c), (d) or (e) of this section, and when fabrication of the poultry food products has been done under the supervision of a grader.

(c) United States Consumer Grades for ready-to-cook poultry and poultry food products may be assigned only when each carcass or part, including those used in the fabrication of poultry food products, has been (1) graded on an individual basis and (2) graded and identified in an unfrozen state.

(d) United States Wholesale Grades may be assigned to dressed poultry and ready-to-cook poultry when graded as a lot on the basis of an examination of each carcass or part in the lot or each carcass or part in a representative sample thereof. When any lot of dressed poultry is graded according to the United States Wholesale Grades, any carcass having any of the following conditions will be considered as "No Grade": Dirty or bloody head or carcass; dirty feet or vent; fan feathers; neck feathers; garter feathers; or feed in the crop. A U.S. Grade designation shall not be assigned to any sample which contains "No Grade" birds for any reason nor to the lot represented by such sample. Certificates issued will show the percentages of qualities and "No Grade" and describe the condition of "No Grade" birds.

(e) United States Procurement Grades may be assigned to ready-to-cook poultry when graded as a lot on the basis of an examination of each carcass or part in the lot or each carcass in a representative sample thereof.

#### §§ 70.362–70.368 [Redesignated]

35. Renumber §§ 70.358, 70.359, 70.361, 70.362, 70.363, 70.365 and 70.366 as §§ 70.362, 70.363, 70.364, 70.365, 70.366, 70.367, and 70.368, respectively.

36. Section 70.367 is hereby amended to read:

#### § 70.367 U.S. Procurement Grade I.

Any lot of ready-to-cook poultry composed of one or more carcasses of the same kind and class may be designated and identified as U.S. Procurement Grade I when: (a) 90 percent or more of the carcasses in such lot meet the requirements of A Quality, with the following exceptions: (1) Fat covering and conformation may be as described in this subpart for B Quality; (2) trimming of skin and flesh to remove defects is permitted to the extent that not more than  $\frac{1}{3}$  of the flesh is exposed on any part and the meat yield of any part is not appreciably affected; (3) the wings or parts of wings may be removed if severed at a joint, and the tail may be removed at the base.

(b) The balance of the carcasses meet the same requirements, except they may have only a moderate covering of flesh.

37. After § 70.360 add new headings and new § 70.361 to read:

#### UNITED STATES CONSUMER GRADES FOR READY-TO-COOK POULTRY AND SPECIFIED POULTRY FOOD PRODUCTS

##### GRADES

#### § 70.361 U.S. Grade A.

A lot of ready-to-cook poultry, parts or poultry food products consisting of

one or more ready-to-cook carcasses or parts or individual units of poultry food products of the same kind and class, each of which conforms to the requirements for A quality as specified in this part, may be designated as U.S. Grade A.

38. The heading preceding § 70.380 is hereby amended to read:

**Subpart B—Forms, Instructions and Applications**

§§ 70.380–70.382, 70.384 [Deleted]

39. Sections 70.380, 70.381, 70.382 and 70.384 and the heading "Forms of Official Identification" preceding § 70.380 are hereby deleted.

40. The headings preceding § 70.390 are hereby amended to read:

BASIS; SUPERVISION**

§ 70.390 [Amended]

41. In § 70.390, "§§ 70.390 to 70.401" is hereby changed to read "§§ 70.250 to 70.258".

§ 70.401 [Amended]

42. In § 70.401(d) (1) and (2), "§ 70.391" is hereby changed to read "§ 70.251".

§§ 70.250–70.258, 70.260, 70.265, 70.266 [Redesignated]

43. Sections 70.390, 70.391, 70.395, 70.396, 70.397, 70.398, 70.399, 70.400, 70.401, 70.410, 70.416 and 70.417 are hereby renumbered as §§ 70.250, 70.251, 70.252, 70.253, 70.254, 70.255, 70.256, 70.257, 70.258, 70.260, 70.265 and 70.266, respectively, and said renumbered sections are relocated in numerical sequence, as appropriate.

44. The heading for Subchapter C of Chapter I, Title 7, Code of Federal Regulations is hereby changed to read as set forth in the heading of this document.

(Secs. 203 and 205, 60 Stat. 1087, 1090, as amended; 7 U.S.C. 1622, 1624; 19 F.R. 74, as amended)

Notices have been published with respect to the amendments of the regulations which are substantive in nature and affect the rights of individuals. Those changes in the regulations which were not included in such notices of rule making are non-substantive in nature and do not affect the rights of any person. Accordingly, it is found upon good cause under section 4(a) of the Administrative Procedure Act (5 U.S.C. 1003 (a)) that notice and public procedure with respect to the non-substantive changes included in the amendments are impracticable and unnecessary.

**Effective date.** The foregoing amendments shall become effective 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 16th day of June 1964.

**SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS**

**PART 718—DETERMINATION OF ACREAGE AND COMPLIANCE**

**Miscellaneous Amendments**

1. **Basis and purpose.** This amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1301, et seq.), the Sugar Act of 1948, as amended (7 U.S.C. 1100, et seq.), the Agricultural Adjustment Act of 1949, as amended (7 U.S.C. 1441, et seq.), the Soil Bank Act (7 U.S.C. 1801, et seq.), the Food and Agriculture Act of 1962 (Public Law 87-703, approved September 27, 1962, and Public Law 87-801, approved October 11, 1962), and the Agricultural Act of 1964 (Public Law 88-297, approved April 11, 1964) for the purpose of: (1) Deleting the sled row provision; (2) prescribing conditions when crops planted in alternate rows with the crop being measured will not be eligible for deduction; (3) prescribing methods of measuring tobacco acreages; (4) increasing the minimum area eligible for deduction from 0.03 acre to 0.1 acre for crops and land uses other than for tobacco and for sugar crops in Puerto Rico, Virgin Islands, and Hawaii; (5) deleting premeasurement provisions and inserting in lieu thereof the measurement service provisions; (6) recognizing that measurement is required for wheat price support eligibility; (7) prescribing the rule of fractions; (8) prescribing the conditions under which an erroneous notice of excess acreage will be recognized; (9) amending the provisions for extension of time for acreage adjustment; (10) making corrections in certain subparagraph numbers; and (11) including changes in State committee options in California, Iowa, Kansas, Minnesota, Montana, Nebraska, and Texas.

§ 718.2 [Amended]

2. Section 718.2 (28 F.R. 10899) is amended by deleting subparagraph (m).

3. Section 718.5 (28 F.R. 8117) (28 F.R. 10899) is amended by revising the heading of paragraph (e) (2) (i), redesignating paragraph (e) (2) (ii) as paragraph

(e) (2) (iii), adding paragraph (e) (2) (ii), deleting paragraph (f) (3) and amending paragraphs (e) (3) and (f) (1), and paragraph (h) to read as follows:

§ 718.5 Determination of crop and land use acreages.

(e) *Acreage devoted to a crop or land use.* \* \* \*

(2) *Row crops other than tobacco and peanuts—*(i) *Alternate rows with row widths less than 4 links (32 inches).* \* \* \*

(ii) *Alternate rows with row widths 4 links (32 inches) through 8 links (63 inches).* When the crop being measured is planted in alternate rows with a different row crop and the distance between the rows of crops is at least 4 links (32 inches) but not more than 8 links (63 inches), each crop shall be considered as occupying one-half of the area except that when the alternating crop does not have a season of growth substantially the same as the crop being measured or is not cared for in a workmanlike manner, the entire area shall be considered as devoted to the crop being measured.

(3) *Tobacco—*(i) *Flue Cured and Fire Cured (Type 21)—*(a) *Less than four rows.* When tobacco is planted in strips of less than four rows (including one row plantings) with alternating strips of idle or fallow land or another crop, the acreage shall be determined as follows:

(1) The entire area shall be considered as devoted to tobacco if the distance between the strips or rows of tobacco (measured from plant to plant) is not greater than 8 links (63 inches).

(2) Measurements shall extend 4 links (32 inches) beyond the planted area on each side of the strips or rows of tobacco if the distance between the strips or rows of tobacco is greater than 8 links (63 inches).

(b) *Four rows or more.* Where tobacco is planted in strips of 4 rows or more, measurements shall extend beyond the planted area of each strip to a point equal to one-half the distance between the rows of tobacco or 2 links (16 inches), whichever is greater. Measurement under this provision shall include strips of less than four rows of tobacco on the sides of the field provided there are at least two rows on one side.

(ii) *All other types of tobacco.* Where tobacco is planted in a skip-row pattern with idle or fallow land or another crop, the entire area shall be considered as devoted to tobacco unless the strips planted to tobacco contain four or more rows and the strips of idle or fallow land or other crop are at least four normal rows in width, except, that one strip on one side of the field may contain less than four rows. If the strips of tobacco and strips of idle or fallow land or other crop conform to at least the four row requirement, only the area actually devoted to tobacco shall be considered as the acreage of tobacco.

(f) *Deductions.* \* \* \*

(1) *Minimum Area Requirements—*(i) *Sugar crops in Puerto Rico, Virgin Islands and Hawaii.* Three-hundredths (0.03) acre.

**RULES AND REGULATIONS**

(ii) *Tobacco.* Three-hundredths (0.03) acre except that a minimum of one-hundredth (0.01) acre will apply to turn rows and to noncropland areas which could not be planted to tobacco. Terraces, permanent irrigation and drainage ditches, and sod waterways which meet the minimum width requirements of subparagraph (2) of this paragraph (f) may be combined to meet the 0.03 acre minimum area requirement.

(iii) *All other crops and land uses.* One-tenth (0.1) acre. Terraces, permanent irrigation and drainage ditches, and sod waterways which meet the minimum width requirements of subparagraph (2) of this paragraph (f) and contain 0.1 acre or more may be combined to meet the minimum area requirement in those States which have increased the minimum area for deduction under § 718.15.

(3) [Deleted]

(h) *Measurement Services*—(1) *Measurement prior to planting (hereinafter referred to as "staking and referencing")*—(i) *Cotton.* The county committee shall provide a staking and referencing service for cotton when the farm operator requests such service and pays the cost. Rates to be charged shall be recommended by the county committee and approved by the State committee. The staking and referencing shall be performed prior to the beginning of the regular compliance check on the farm. The acreage staked and referenced shall not exceed the farm cotton allotment. If the entire farm allotment is staked and referenced and all the cotton on the farm is planted within the staked area, the farm shall be considered to be in compliance with the farm acreage allotment.

(ii) *Other crops and land uses.* A staking and referencing service may be made available for other crops and land uses subject to the same general conditions as are applicable under subdivision (i) of this subparagraph (1).

(2) *Other measurement services.* Other types of measurement service may be made available for any ASCS program purpose when the operator requests the service and pays the cost as recommended by the county committee and approved by the State committee. Any acreage measured under this provision will be considered as official acreage.

Compliance with the allotment, the permitted acreage or the acreage limitation for any other program shall not be guaranteed unless measurement prior to planting is requested and performed for the entire program acreage limitation under the provisions of subparagraph (1) of this paragraph (h).

4. Section 718.5(f) is further amended by striking out the second sentence.

5. The heading of § 718.8(b)(2) (28 F.R. 5273) is amended to read as follows:

**§ 718.8 Report of acreage.**

(b) *Obtained by certification.* \* \* \*

(2) *For wheat on a farm not participating in the wheat diversion program and measurement is not requested for price support purposes.*

6. Section 718.9(b) (28 F.R. 8117) is amended as follows:

**§ 718.9 Computation of acreage.**

(b) *Rule of fractions.* \* \* \*

(2) *Sugar crops in Puerto Rico, Virgin Islands and Hawaii.* Each field or subdivision computed will be recorded in acres and hundredths of acres, dropping thousandths. The total farm acreage shall be the sum of the field and subdivision acreages recorded in acres and hundredths of acres.

(3) *All other crops and acreages.* Compute field and subdivision acreages in acres and hundredths, dropping all thousandths. Record net acreages for each field and subdivision in acres and tenths, dropping hundredths. Where a field or subdivision devoted to a crop is less than one-tenth (0.1) acre, obtain the net acreage in hundredths of acres, dropping thousandths. The total farm acreage for each allotment crop, other crop classification, or land use shall be the sum of the field and subdivision acreages of each allotment crop, other crop classification, or land use recorded in acres and tenths.

7. Section 718.10 (28 F.R. 8117) is amended by adding paragraph (c) to read as follows:

**§ 718.10 Notice to farm operator.**

(c) *Erroneous excess notice.* If the erroneous notice of acreage shows excess

acreage which is not adjusted in accordance with applicable regulations the farm will not be deemed in compliance, but if the provisions of paragraph (b) (1) through (5) are met with respect to additional excess acreage not shown on the notice the acreage entered on the notice will be used for program purposes.

8. Section 718.14(e) (28 F.R. 8117) is amended to read as follows:

**§ 718.14 Adjustment of acreage.**

(e) *Extension of time for adjustment of acreage.* (1) If producers on a farm are unable to adjust the acreage within the time limit specified on the notice of acreage for reasons beyond their control, any producer having an interest in the crop may request the county office manager to grant an extension of time. The request shall be filed in writing. It may be filed before or after the time established has expired and shall state why the producers are unable to adjust the acreage within the time limit specified.

(2) If the county office manager determines that the producers are prevented, by reasons beyond their control, from adjusting the acreage within the time specified, the date for adjustment may be extended to grant an additional period of time equal to that provided by the latest notice of acreage, but not to exceed 15 days. If an extension is granted, a revised notice of acreage shall be mailed to the farm operator showing the extended date. If the extension is denied, he shall be notified by letter.

**§ 718.15 [Amended]**

9. Section 718.15(a) (28 F.R. 8117) is amended by striking out "§ 718.2(h)" and inserting in lieu thereof "§ 718.2(g)".

10. Section 718.15(b) Table of Sections Affected By State Committee Determinations Pursuant To § 718.15(a) (28 F.R. 8117) is amended by changing the second column heading to read "§ 718.2(g)" in lieu of "§ 718.2(h)".

11. Section 718.15(b) Table of Sections Affected by State Committee Determinations Pursuant to § 718.15(a) (28 F.R. 8117) is further amended for the States of California, Iowa, Kansas, Minnesota, Montana, Nebraska, and Texas to read as follows:

TABLE OF SECTIONS AFFECTED BY STATE COMMITTEE DETERMINATIONS PURSUANT TO § 718.15(a)

State	718.2 (g)	718.5 (f)		718.5 (g)		718.13(c)(2)

California	30 inches for cotton.	0.1 acre	(1) Around the perimeter of the field, 1 row for row crops, (2) within the planted area, 4 rows for all row crops except cotton; 20 links for close-sown crops.	Minimum widths: (1) 1 row for cotton; (2) 4 rows for all other row crops; (3) 20 links for close-sown crops. Areas disposed of shall be limited to 2 areas per field except that 2 or more alternate rows or strips of cotton and strips of 4 rows or more of any crop, extending the entire length of the field and disposed of in a block of uniform pattern may be counted as 1 area. Irrigation ditches constructed subsequent to the initial acreage determination which meet the minimum requirements will be credited in addition to the 2 areas per field. Areas eligible for adjustment credit must have at least 1 side on the perimeter of the field and not more than 8 sides, except where disposition of a block of alternate rows or consecutive strips are counted as 1 area. Sides must be straight except when formed by the perimeter of the field, contour levees in rice field, or a crop row.	Areas to be designated shall be limited to 2 per field, with 1 side on the perimeter of the field and not more than 8 sides, except that when an area in which a crop was disposed of under the provisions of § 718.5 (g) (2) is designated as diverted acreage in adjusting a deficiency (4) the same area requirements shall apply (2) the same width requirements shall apply for close-sown crops (3) the minimum width for all row crops is 4 rows except that strips of less than 4 normal rows in skip-row plantings patterns will not qualify as diverted acreage.

Montana	22 inches for sugar beets.					
Nebraska	22 inches for sugar beets.	0.5 acre for all crops and land uses except sugar beets and wheat. For terraces, permanent irrigation and drainage ditches, and sod waterways each area must meet the minimum requirement.		1.0 acre for all crops and land uses except sugar beets. Adjustment credit may be allowed for an area smaller than the minimum if the area constitutes the balance of the excess or deficiency after adjusting 1 or more eligible areas.		
Texas	18 inches for vegetable crops; 30 inches for sugar beets.		9 links	Areas to be disposed of shall be of regular shape with not more than 4 sides. 1 side or 1 end of the disposition area shall be parallel with the rows or field boundary when row crops are destroyed in a square, rectangular, or trapezoidal pattern. These restrictions may be disregarded when disposition of excess acreage is made between adjacent terraces or between the field boundary and a terrace within that field or subdivision, provided the perimeter of the area within the field is parallel to such terrace.		

**Effective date.** Since the determination of acreage and compliance for the 1964 program year is now in progress, these regulations should be issued as soon as possible. Accordingly, it is hereby determined that compliance with the notice, public procedure, and effective date provisions of the Administrative Procedure Act (5 U.S.C. 1003) is impracticable and contrary to the public interest and the provisions of this part shall become effective upon publication in the FEDERAL REGISTER.

[Amdt. 7]

**PART 722—COTTON**

**Subpart—Acreage Allotment Regulations for the 1964 and Succeeding Crops of Upland Cotton**  
**Export Market Acreage**

This amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.), as amended by Title I of the Agricultural Act of 1954.

(a) The purpose of this amendment is to establish the procedure regarding exportation of cotton produced on export market acreage pursuant to section 349 of the Act.

(b) Since immediate action is required by State and county ASCS committees, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, public procedure requirements and the 30-day effective date requirements of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) is impracticable and contrary to the public interest and this amendment shall be effective upon filing of this document with the Director, Office of the Federal Register.

Section 722.228 of the acreage allotment regulations for the 1964 and succeeding crops of upland cotton (28 F.R. 11041, 29 F.R. 2301, 5303, 5274, 5941, 6477, 6941) is amended as follows:

**§ 722.228 Exportation of cotton produced on export market acreage of the 1964 crop.**

(a) **General requirement of exportation of cotton.** Producers on any farm participating in the export market acreage program for the 1964 crop under section 349 of the Act or the purchasers of the 1964 crop of cotton produced on such farm shall, in accordance with this section, furnish a bond or other undertaking providing for the exportation of the quantity of cotton determined for the farm under paragraph (d) of this section (referred to in this section as "export cotton") without benefit of any Government cotton export subsidy and for the payment of liquidated damages upon failure to comply with such bond or other undertaking.

(b) **Farms participating in the export market acreage program for the 1964 crop.** A farm receiving an acreage allotment for the 1964 crop shall be eligible to participate in the export market acreage program for the 1964 crop if the following conditions are met:

(1) An application for export market acreage is filed by the farm operator with the county committee on or before June 1, 1964.

(2) A bond of indemnity (referred to in this section as a "bond") or other undertaking on a form prescribed by the deputy administrator providing for the exportation of cotton as required under this section is furnished to the county committee.

(3) The farm does not receive additional price support for participation in the domestic allotment program under section 103(b) of the Agricultural Act of 1949, as amended.

(4) The final cotton acreage determined for the farm does not exceed the farm acreage allotment by more than the maximum export market acreage for the farm.

A farm for which the conditions under subparagraph (1) and (2) of this paragraph have been met shall be subject to the export requirements under this section unless the county committee determines that no export market acreage is on the farm at the time of final cotton acreage determination for the farm or that the final cotton acreage on the farm is in excess of the sum of the farm acreage allotment and the maximum export market acreage for the farm.

(c) **Bond or other undertaking—(1) Bond.** The deputy administrator shall

prescribe the form of bond for exportation of cotton. For each farm participating in the export market acreage program, the farm operator and the farm owner (if he is also a producer of cotton on the farm and shares in the export market acreage) shall execute such bond as principals and furnish it duly executed by the principals and surety to the county committee. The county committee shall determine in each case whether the surety is acceptable. The surety may be an individual, partnership, corporation, or other legal entity. The county committee shall not accept a bond unless it is satisfied that the surety thereon is financially able to meet the obligations under the bond. A person who has agreed to purchase the export cotton from the farm may execute the bond as principal in lieu of the producers on the farm.

(2) *Other undertaking.* In lieu of a bond under subparagraph (1) of this paragraph, the county committee may accept an undertaking from the farm operator and the farm owner (if he is also a producer of cotton on the farm and shares in the export market acreage) of any farm participating in the export market acreage program for the 1964 crop or the purchaser of 1964 crop cotton produced on such farm providing for the exportation of the export cotton for the farm and for deposit with the county committee of an amount to secure the payment of liquidated damages for failure to fulfill terms and conditions of such undertaking. The amount of such deposit shall be equal to the maximum obligation for the payment of liquidated damages determined under paragraph (g) of this section. Such deposit shall be refundable to the extent that it exceeds such maximum obligation or such undertaking for the exportation of cotton is satisfied. The Deputy Administrator shall prescribe the form of the undertaking to be furnished hereunder.

(d) *Export cotton.* The county committee shall establish the quantity of cotton in pounds of lint cotton net weight required to be exported from the 1964 crop on each farm participating in the 1964 export market acreage program. Such quantity of cotton, referred to herein as the export cotton for a farm, shall be determined by multiplying the average yield per acre in pounds of lint cotton for the farm for the 1964 crop by the export market acreage of the 1964 crop on the farm. Such average yield shall be determined by the county committee by appraisal using the sample boll count method except that the actual production on the farm proven to the satisfaction of the county committee shall be used in lieu of such appraisal of yield if the farm operator, prior to such appraisal, requests the county committee to use the actual production in lieu of appraised yield. If the appraised yield is used in determining the export cotton for a farm, the county committee shall adjust such yield downward if the producers on the farm so request and furnish proof of actual production satisfactory to the county committee which

is less than the appraised yield. If the county committee determines that the entire farm production of cotton of the 1964 crop on the total of the farm acreage allotment and the export market acreage is less than one bale of 350 pounds gross weight, the export cotton for such farm shall be reduced to zero. Upon the determination of the export cotton for any farm, written notice thereof shall be given to the farm operator.

(1) The appraisal of yield shall include the following steps:

(i) The boll count shall be made when the cotton is substantially mature.

(ii) An area of  $\frac{1}{400}$  acre shall be selected and the bolls that are mature or can reasonably be expected to mature shall be counted. Such area shall be representative of the farm as a whole but if such area may not result in an accurate appraisal due to the size of the farm, different cultural practices on the fields in the farm, or variations in the crop, sample boll counts shall be made on as many additional  $\frac{1}{400}$ -acre plots as necessary to obtain an accurate appraisal. If the cotton in an area of  $\frac{1}{400}$  acre so selected is not uniform, such  $\frac{1}{400}$  acre shall be broken into fractions and the count made in different fields.

(iii) The State committee shall determine the estimated number of bolls, by varieties, required to produce a pound of lint cotton for the current crop and shall furnish such determinations to the county committee.

(iv) The appraised yield per acre shall be determined by multiplying the number of bolls counted for an area (or the average number of bolls if more than one area was selected) by 100 and dividing the result by the number of bolls determined to be required to produce a pound of lint cotton of the variety involved. This calculation shall be carried to three places beyond the decimal and rounded to the nearest hundredth.

(e) *Time limit for export.* The export cotton for a farm shall be exported on or before May 1 of the year following the year in which the export market acreage was planted. Evidence of exportation satisfactory to the county committee shall be furnished within 60 days after the earlier of (1) the date of exportation or (2) May 1 of such year. The State committee upon recommendation by the county committee may extend such time limits upon a showing of good cause. Unless evidence of exportation within the time limits specified in this paragraph is furnished, liability for liquidated damages shall accrue.

(f) *Evidence of exportation.* The county committee shall be furnished with evidence of exportation of export cotton for each farm in terms of bales of cotton which shall total at least the number of pounds of lint cotton net weight determined as the export cotton for the farm. Such bales of cotton shall meet the grades named in the Universal Standards for American Cotton (excluding Below Grade Cotton) (27 F.R. 5535) and have a staple length of  $\frac{13}{16}$  inch or longer and shall have been produced from the 1964 crop on the farm for which evidence of

exportation is furnished. The county committee shall review the evidence of exportation furnished for each farm which shall be deemed satisfactory if it meets the following requirements:

(1) There shall be submitted a listing showing the name of the farm operator, farm number, gin bale number or mark and gross weight of each bale, bill of lading number, carrier, vessel or car number, destination and date and place of lading. Such listing shall be certified by the exporter as true and correct and the exporter shall also certify that, to the best of the exporter's knowledge and belief, each bale so listed was produced in the United States from the 1964 crop on the farm so designated, such cotton is of a grade named in the Universal Standards for American Cotton (excluding Below Grade Cotton) (27 F.R. 5535) and is of a staple length of  $\frac{13}{16}$  inch or longer.

(2) The exporter shall also certify that no cotton export subsidy for the exportation of the cotton so listed has been received from the Government and that no claim for any cotton export subsidy for the exportation of such cotton has been or will be filed by such exporter with the Government and the evidence of exportation of cotton furnished under this section has not and will not be used to satisfy the obligation to export cotton which such exporter or any other person may have under the cotton equalization program pursuant to section 348 of the act and the regulations thereunder (§§ 1427.1801 to 1427.1819; 29 F.R. 5305) as may be amended from time to time, or any other program for the exportation of cotton which may now be or later become effective under the statutes of the United States.

(3) The exporter shall also furnish promptly any additional evidence of exportation which may be requested by the county committee, State committee or deputy administrator.

(g) *Liquidated damages—(1) Determination of amount.* (i) The county committee shall determine the maximum obligation for the payment of liquidated damages under each bond or other undertaking furnished under this section as follows:

(ii) Estimated liquidated damages for each farm shall be determined at the time such bond or other undertaking is furnished and shall be the number of dollars resulting by multiplying the farm normal yield by the maximum export market acreage established for the farm and multiplying the result thereof by 20.1 cents. Such estimated liquidated damages shall be adjusted when the export market acreage on the farm is determined so that the adjusted liquidated damages shall be the number of dollars resulting by multiplying the export cotton in pounds determined for the farm by the marketing quota penalty rate for the 1964 crop of upland cotton determined pursuant to section 346(a) of the Act. The adjusted liquidated damages shall be further adjusted in the case of partial exportation of the export cotton for the farm so that such adjusted liquidated damages shall be the number of dollars resulting by multiplying the

export cotton in pounds which was not exported by the marketing quota penalty rate for the 1964 crop of upland cotton determined pursuant to section 346(a) of the act.

(2) *Due date.* Liquidated damages shall be due and payable fifteen days after the date of mailing notice of the amount of adjusted liquidated damages to the principals and surety on any bond, or to the person furnishing any other undertaking in lieu of such bond. The county committee shall mail such notice by certified mail upon a determination that the export cotton for a farm has not been exported in accordance with the requirements of this section. The principals and surety on any bond of indemnity shall be deemed to waive actual notice of any adjustments in the amount of liquidated damages and corresponding adjustments is the maximum obligation determined under such bond of indemnity and this section.

(3) *Liability for liquidated damages.* Principals and sureties on any bond of indemnity furnished under this section shall be jointly and severally liable for the payment of liquidated damages to the United States of America in accordance with the terms and conditions of the bond and the provisions of this section. Where an undertaking in lieu of a bond of indemnity is furnished, the person executing such undertaking shall be liable for liquidated damages to the United States of America in accordance with the terms and conditions of the undertaking and the provisions of this section and such person shall authorize payment of the liquidated damages out of any deposit made with the county committee and shall pay any outstanding balance not covered by such deposit within fifteen days from the date of mailing of notice of such balance by certified mail to the farm operator and to such person. The county committee shall collect such liquidated damages from the deposit so made and give notice of the balance due, if any, upon a determination that the export cotton for the farm has not been exported in accordance with the requirements of this section.

(h) *Amounts collected as liquidated damages.* All amounts collected as liquidated damages shall be remitted to the Commodity Credit Corporation. In the event of suit to collect liquidated damages pursuant to section 376 of the act, the amount so collected shall also be remitted to the Commodity Credit Corporation.

(i) *Inspection of records.* The records and reports provisions of the regulations pertaining to marketing quotes for upland cotton of the 1961 and succeeding crops (§§ 722.36 to 722.44, 722.49; 26 F.R. 3672, as amended) shall also be applicable to the export market acreage program.

(1) *Appeals.* A producer may request reconsideration of any determination by the county committee under this section in accordance with the provisions of this paragraph. The producer shall first request reconsideration by the county committee. If the producer is dissatisfied with a determination of the county committee with respect to his request for

reconsideration, he may then appeal the determination to the State committee. The producer may also request reconsideration of any determination of the State committee. If he is dissatisfied with a determination of the State committee or with respect to his appeal from the determination of the county committee or with respect to his request for reconsideration by the State committee, he may appeal such determination to the deputy administrator, in which case the determination of the deputy administrator shall be final. Each request for reconsideration or appeal shall be in writing and shall be supported by a written statement of facts upon which it is based. Each request for reconsideration or appeal shall be filed within 15 days after notice of the determination is mailed to or is otherwise made available to the producer: *Provided*, That a request for reconsideration or appeal may be accepted and acted upon even though it is not filed within such time limit if, in the judgment of the committee or person to whom such request for reconsideration or appeal is made, the circumstances warrant such action. Nothing in this paragraph shall preclude the county committee or the State committee, on its own motion or upon request at any time, from revising or requiring revision of any determination for any farm to correct mechanical or clerical errors resulting solely from action by a county or State committee representative.

(Secs. 349, 375, 78 Stat. 173, 52 Stat. 66, as amended; 7 U.S.C. 1349, 1375)

*Effective date.* Date of filing this document with the Director, Office of the Federal Register.

Signed at Washington, D.C., on June 16, 1964.

### PART 778—EXPORT WHEAT MARKETING CERTIFICATE REGULATIONS

Sec.	
778.1	General statement.
778.2	Administration.
778.3	Definitions.
778.4	Form CCC-145, Wheat Marketing Certificate (Export).
778.5	Requirement for export certificates.
778.6	Refunds or Credits for export certificates.
778.7	Report of intention to export.
778.8	Export clearance.
778.9	Report of wheat exported.
778.10	Penalties.
778.11	Records.
778.12	Payments in dispute.

*AUTHORITY:* The provisions of this Part 778 issued under Secs. 379a to 379j, 52 Stat. 31, as amended by 76 Stat. 626 and 78 Stat. 178; 7 U.S.C. 1379a-1.

#### § 778.1 General statement.

(a) *Basis and purpose.* The Agricultural Adjustment Act of 1938, as amended by the Food and Agriculture Act of 1962 and the Agricultural Act of 1964, provides with certain exceptions, that during any marketing year for which a wheat marketing allocation program is in effect, all persons exporting wheat shall, prior to such export, acquire export wheat marketing certificates equivalent to the number of bushels of wheat so exported. The act also provides that upon the giving of a bond or other undertaking satisfactory to the Secretary of Agriculture to secure the purchase of and payment for such marketing certificates as may be required, and subject to such regulations as he may prescribe, and person required to have marketing certificates in order to export the wheat may be permitted to export it without having acquired marketing certificates in advance. Additionally, in order to expand international trade in wheat and promote equitable and stable prices therefor, the Commodity Credit Corporation is required upon the exportation from the United States of any wheat, to make a refund to the exporter or allow him a credit against the amount payable by him for marketing certificates, in such amount as the Secretary determines will make United States wheat generally competitive in the world market, avoid disruption of world market prices, and fulfill the international obligations of the United States. A marketing allocation program is in effect for the year beginning July 1, 1964, and ending June 30, 1965. The regulations in this part contain the terms and conditions for implementing these requirements of law.

(b) *Issuance of regulations.* Since these requirements must be acted upon immediately by exporters of wheat, inasmuch as export sales occur in advance of exportation, and all exportations beginning July 1, 1964, are subject to the regulations of this part, it is essential that §§ 778.1 through 778.12 be made effective as soon as possible. Accordingly, it is hereby found and determined that compliance with the notice, public procedure and 30-day effective date requirements of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) is impracticable and contrary to the public interest and that §§ 778.1 through 778.12 shall be effective upon filing this document with the Director, Office of the Federal Register.

#### § 778.2 Administration.

The regulations of this part will be administered by the Agricultural Stabilization and Conservation Service (hereinafter referred to as "ASCS") under the general supervision of the Administrator, ASCS. The Commodity Credit Corporation (hereinafter referred to as "CCC") will assist in carrying out the regulations through the issuance, sale and purchase of export certificates, and by making refunds to exporters or allowing them credit against the amounts payable for marketing certificates. Information pertaining to these regulations may be obtained from the Director,

## RULES AND REGULATIONS

Procurement and Sales Division, ASCS, U.S. Department of Agriculture, Washington, D.C., 20250.

### § 778.3 Definitions.

As used in the regulations of this part and in all instructions, forms, and documents pertaining hereto, the words and phrases defined in this section shall have the meaning assigned to them as follows, unless the context or subject matter otherwise requires:

(a) "Wheat" means wheat (whether produced in or outside the United States), as defined in the Official Grain Standards of the United States or any wheat contained in any mixed grain or in any other mixture, which if not contained in such mixture would qualify as wheat under such standards.

(b) "Export" or "exportation" means a shipment of wheat from the United States to any destination outside the United States. The wheat so shipped shall be deemed to have been exported on the date of the applicable on-board export bill of lading, or if shipment from the United States is by truck or rail, on the date the shipment clears the United States Customs. If wheat is lost, destroyed or damaged after loading on board an export vessel, exportation shall be deemed to have been made as of the date of the on-board-vessel bill of lading or the latest date appearing on the loading tally sheet or similar documents if the loss, destruction or damage occurs subsequent to loading aboard vessel but prior to issuance of the on-board bill of lading: *Provided*, That if the "lost" or "damaged" wheat remains in the United States, it shall be considered as re-entered wheat.

(c) Export "to Canada in bond" means, an exportation to Canada which is not on a through bill of lading to a third country, and which the consignee in Canada will re-export "ex-Sufferance Warehouse" to a third country.

(d) "Exporter" means an individual, partnership, corporation, association, State agency, municipality or any other legal entity, excluding the United States Government or any Agency thereof.

(e) "United States" means all the States in the United States, the District of Columbia and Puerto Rico, including any foreign trade zones (i.e., free trade zones) located therein.

(f) "Bushel" means 60 pounds of wheat, exclusive of dockage as defined in the Official Grain Standards of the United States or 60 pounds of wheat which is contained in mixed grain or in any mixture.

(g) "Marketing year" means the twelve months beginning July 1, and ending June 30.

(h) "GR-261" means Announcement GR-261, "Terms and Conditions of Contracts for the Acquisition of CCC Wheat for Export," under which exporters acquire wheat for exportation pursuant to a barter transaction, or Export Credit Announcement GSM-1, or any other program under which CCC offers wheat for export at competitive world prices.

(i) "GR-345" means the regulations with respect to the "CCC Wheat Export Program—Payment-In-Kind, GR-345,"

(27 F.R. 6415, as amended by 27 F.R. 10741, 28 F.R. 7120, and 29 F.R. 4077 and any further amendments thereto) which cover wheat export payments applicable to transactions in several categories including, but not limited to, the following:

(1) Exports pursuant to a sale which is eligible for export payments at announced payment rates;

(2) Exports of Durum under bid payment procedure;

(3) Exports of wheat unsold, to Canada in bond and to other destinations on which the exporter wishes to earn an export payment.

(j) "Director" means the Director, Procurement and Sales Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture.

(l) "Administrator" means the Administrator, ASCS:

### § 778.4 Wheat Marketing Certificate (Export).

(a) *Description.* Wheat Marketing Certificates (Export), hereinafter called "export certificates" or "certificates," shall be represented by Form CCC-145, Wheat Marketing Certificate (Export) issued by CCC, or a certificate credit established by CCC in favor of an exporter for certificates purchased from CCC pursuant to these regulations. Form CCC-145 is a serially numbered form entitled 1964 Wheat Marketing Certificate. A valid Form CCC-145 export certificate will be identified as "export"; will show date of issuance, bushel quantity, face value and name and address of person to whom issued; and will bear the signature of a representative of CCC authorized to sign certificates.

(b) *Sale by CCC.* CCC will sell certificates to exporters and others who offer to purchase certificates from CCC and who pay to CCC the face value of the certificates. Offers to purchase certificates and payment therefor may be made at the Kansas City Commodity Office or may be made by deposit of funds to the credit of CCC at the Kansas City Federal Reserve Bank. If certificates are being purchased for a specific exportation of wheat as provided in § 778.5, the exporter shall identify in his offer the wheat to which the certificates are to be applied by indicating the transaction identification number which the Director provided the exporter on receipt of his intention to export as specified in § 778.7. Payment for certificates shall be deemed to have been made when payment is received at the Kansas City Commodity Office or the Kansas City Federal Reserve Bank. Form CCC-145 certificates will be issued for certificates sold by CCC, except that in any case where certificates are purchased for a specific exportation of wheat, CCC will credit the purchaser's account in the amount of the certificates

purchased in lieu of issuing Form CCC-145.

(c) *Negotiability.* Form CCC-145 certificates may be transferred to any person by endorsement and delivery. A person acquiring certificates by transfer may surrender them to CCC to cover exports of wheat or may sell them to CCC.

(d) *Surrender of certificates to CCC.* Exporters shall discharge their obligation to surrender certificates to CCC by endorsing Form CCC-145 certificates and delivering them to CCC at the Kansas City Commodity Office or by making payment to CCC for certificates required for a specific exportation of wheat. Surrender of certificates to CCC shall be deemed to have been made at the time when payment is made for certificates purchased for a specific exportation of wheat or at the time delivery of Form CCC-145 certificates is made at the Kansas City Commodity Office. If Form CCC-145 certificates are received in the Kansas City Commodity Office by mail and a time or date appears on the postmark, delivery shall be deemed to have been made at the time or date which appears on the postmark. Certificates shall be deemed to be cancelled by CCC upon their surrender to CCC.

(e) *Balance certificates.* If Form CCC-145 certificates delivered to the Kansas City Commodity Office have a face value in excess of the value of certificates required to be surrendered for the exportation for which the certificates are delivered, CCC will issue Form CCC-145 certificates to the exporter for the unused balance.

(f) *Purchase by CCC.* Any valid Form CCC-145 certificates legally held by any person will be purchased by CCC at face value if presented for purchase to the Kansas City Commodity Office.

### § 778.5 Requirement for export certificates.

(a) *General.* Any exporter who exports wheat on or after 12:01 a.m. local time, July 1, 1964, shall acquire and surrender certificates to CCC prior to export for the wheat so exported except as provided in paragraphs (b), (c), and (d) of this section. This requirement shall apply to all wheat exported irrespective of whether the wheat was sold prior to export or was exported prior to sale. The cost of export certificates (i.e., their face value) for the marketing year beginning July 1, 1964, shall be 25 cents per bushel. After exportation, the exporter may claim a refund against the amount paid by him for certificates as provided in § 778.6.

(b) *Notwithstanding the foregoing,* certificates shall not be required in the circumstances specified in subparagraphs (1) and (2) of this paragraph.

(1) *Wheat ex-U.S. customs bond.* Certificates shall not be required for wheat produced outside the United States which moves into the United States under customs bond and which is exported without having been withdrawn from bond in the United States. To obtain such an exemption, the exporter must submit to the Director prior to export an authenticated copy of the customs form evidencing the entry of the wheat into

the United States under bond and its withdrawal from customs bond for exportation.

(2) *Donation abroad.* Certificates shall not be required for any wheat exported for donation abroad or for any wheat samples exported without charge to the recipient. To obtain such an exemption, a person wishing to export such wheat shall make application to the Director. The application shall be made in the exporter's report of intention to export as provided in § 778.7 and shall include the evidence required in such section that the wheat will be donated abroad. An application is not required on wheat obtained from CCC by Voluntary Agencies registered with the Committee on Voluntary Foreign Aid of the Agency for International Development and on wheat samples of 100 pounds or less to be exported without charge to the recipient.

(e) *Undertaking to secure purchase and payment.* Any exporter may export wheat without first having acquired and surrendered certificates if he enters into the undertaking with CCC provided in this paragraph and complies with such undertaking. The undertaking shall be entered into by using the code word "CERTAG" in the exporter's report of his intention to export made pursuant to § 778.7. By so using such code word, the exporter agrees, in consideration of the privilege of exporting wheat without having first acquired and surrendered certificates, as follows:

(1) He will acquire and surrender the certificates for the wheat exported on or before the 45th calendar day after the date of exportation or such later date as may be approved by the Director for good cause shown by the exporter.

(2) If certificates are surrendered to CCC later than the 15th calendar day after the date of exportation, the exporter will pay to CCC interest on the face value of the certificates at six percent per annum from the date of export of the wheat until the date of surrender of the certificates.

(3) If requested by the Director, the exporter will furnish a bond or letter of credit prior to export in such form and amount as may be required by the Director to secure the purchase of and payment for the certificates.

(4) The exporter's right to export wheat without having first acquired and surrendered certificates is conditioned on his complying with his obligations under the foregoing provisions of this undertaking. Any exporter who breaches his undertaking and exports wheat without first acquiring and surrendering certificates shall be subject to statutory forfeitures and criminal penalties.

(d) *Acquisition and surrender of certificates in connection with wheat acquired from CCC under GR-261.* In the case of wheat acquired by an exporter from CCC under GR-261 at competitive world prices, a credit will be allowed the exporter as provided in § 778.6 on wheat exported in fulfillment of the exporter's obligations under GR-261, to offset the full cost of certificates required to be acquired and surrendered to CCC on such

wheat, and the exporter shall be deemed to have satisfied the requirements of the regulations of this part for the acquisition and surrender of certificates on the wheat so exported.

(e) *Reentry.* If any wheat exported is subsequently reentered into the United States, the exporter of such wheat shall be relieved of the requirement to acquire and surrender certificates as to such wheat. CCC shall credit the exporter with the net amount paid by him for certificates surrendered to CCC on such wheat after deductions for any refunds or credits received by the exporter against the cost of such certificates. The foregoing provisions of this paragraph shall not affect any obligation which the exporter may have under GR-345 to return to CCC the export payment received on such wheat (other than the refund or credit received by him against the cost of certificates) or any obligation which he may have under GR-345 or GR-261 to pay an adjusted price or any damages as a result of such reentry. If the reentered wheat is re-exported or an equivalent quantity of other wheat is exported in replacement of such wheat, certificates shall be acquired and surrendered on the re-exportation subject to such refund or credit against the cost of certificates as is provided for in § 778.6.

#### § 778.6 Refunds or credits for export certificates.

(a) *General.* CCC shall upon the exportation from the United States of wheat make refund to the exporter or allow him a credit against the amount payable by him for certificates in such amount as CCC determines will make United States wheat generally competitive in the world market, avoid disruption of world market prices and fulfill the international obligations of the United States. The provisions of GR-345 with respect to export payments shall apply in the determination of refunds and credits to be made or allowed the exporter unless the export is made under GR-261. The first 25 cents of the payment rate determined by CCC under GR-345, or if such rate is 25 cents or less, the full rate shall be the rate applicable to refunds or credits. The balance of such rate, if any, shall be the rate for the purpose of issuance of Wheat Export Payment Certificates (CCC Form-358) to the exporter under the provisions of GR-345. Notwithstanding the foregoing:

(1) A refund or credit in the amount of 25 cents per bushel against the amount payable for certificates shall be made or allowed to the exporter in addition to the applicable payment rate, if any, determined under GR-345 on any wheat (other than Durum wheat) exported on or after July 1, 1964, pursuant to an export sale which was made April 11, 1964, or earlier, for export in such period and which had been registered for export payment under GR-345.

(2) If (i) an exportation of wheat is made pursuant to an export sale which had been registered under GR-345 and which at the time of sale provided for export prior to July 1, 1964, or in the case of durum, if exportation is made pursuant to a contract with CCC for an export payment which provided for export prior

to July 1, 1964, and (ii) if the exporter establishes to the satisfaction of the Director that exportation had been delayed until on or after July 1, 1964, for cause without his fault or negligence, a refund or credit in the amount of 25 cents per bushel shall be made or allowed the exporter in addition to the applicable export payment, if any, determined under GR-345.

In the case of wheat acquired from CCC under GR-261, at competitive world prices, a credit to the extent of the full cost of certificates required to be surrendered to CCC will be allowed the exporter on wheat exported in fulfillment of the exporter's obligations under GR-261.

(b) *Method of obtaining refunds or credits.* If an exporter is entitled to a refund or credit against the amount payable by him for certificates, he may (except in the case of exports pursuant to GR-261) elect any of the following:

(1) The exporter may request CCC to issue him Wheat Export Payment Certificates (CCC Form 358) redeemable under GR-345 for both the refund or credit to which he is entitled and the balance of the export payment, if any, due him under GR-345 on the exportation. CCC will issue the Wheat Export Payment Certificates (CCC Form 358) after it has received payment for the cost of certificates required to be acquired and surrendered to CCC on the wheat exported.

(2) If he does not request Wheat Export Payment Certificates as provided in subparagraph (1) of this paragraph, the amount of refund or credit shall be offset against the amount payable by him for certificates, and the balance of the export payment due him on the exportation, if any, will be paid to him in-kind under GR-345.

(3) If the certificates have already been purchased and surrendered by him and he does not request Wheat Export Payment Certificates as provided in subparagraph (1) of this paragraph, the refund will be paid to him in cash, and the balance of the export payment due him on the exportation will be paid to him in-kind under GR-345.

#### § 778.7 Report of intention to export.

(a) *Submission of report.* Each exporter shall make a report to the Director of all wheat which he intends to export. The report may be made by letter, telegraph, or by telephone and shall be submitted so that it is received by the Director on or before the time of exportation unless an extension of such time is approved in writing by the Director for good cause shown by the exporter. Any reports submitted by telephone shall be confirmed in writing immediately thereafter.

(1) If the exporter wishes to obtain a refund or credit against the cost of certificates and the export is not under GR-261, he shall submit the following as his report:

(i) In the case of an export sale of wheat (other than Durum) prior to export, the report shall consist of a Notice of Sale required under GR-345.

(ii) In case export is to be made of Durum wheat, the report shall consist

of the bid for an export payment as provided in GR-345.

(iii) In the case of wheat (other than Durum) exported prior to sale, including wheat exported to Canada in bond, the report shall consist of the report required under the applicable provisions of GR-345.

(2) In the case of wheat to be exported under GR-261, the report shall consist of the information contained in the Confirmation of Sale signed by the exporter.

(3) In case exportation is to be made of any other wheat (other than wheat obtained from CCC for donation abroad and wheat samples of 100 lbs. or less to be exported without charge to the recipient) the report shall contain the following information:

- (i) Name and address of exporter.
- (ii) Date exportation is to be made.
- (iii) Port of exportation and name of vessel or other carrier on which wheat is to be loaded.
- (iv) Country and port of destination of wheat.

(v) Quantity in bushels.  
 (vi) Class and grade of the wheat.  
 (vii) If sale is made prior to exportation (a) date of sale; (b) sales price shown on an f.o.b. vessel basis including charges and commission necessary to move wheat to an f.o.b. vessel; (c) name of purchaser; (d) delivery period specified in contract.

(viii) If the wheat (other than wheat obtained from CCC) is donated or is a wheat samples in excess of 100 lbs. to be exported without charge to the recipient (a) name of recipient outside the United States, (b) method of distribution and use to be made of the wheat, and (c) certification that wheat is to be donated abroad or in the case of wheat samples in excess of 100 lbs. a certification that no charge is to be made to the recipient for the wheat exported.

(b) *Transaction identification number.* On receipt of the exporter's report of intention to export, the Director shall provide the exporter a transaction identification number as follows:

(1) In the case of an export sale registered by CCC under GR-345, such number shall be the registration number.  
 (2) In the case of a bid for an export payment on Durum wheat, such number shall be the number provided in CCC's acceptance.

(3) In the case of wheat exported prior to sale including exports to Canada in bond, reported under GR-345, such number shall be the Export Unsold number.

(4) In the case of an export under GR-261, such number shall be the CCC contract number.

(5) In the case of other exports, such number shall be the FD-416 number assigned if the wheat was acquired from CCC for donations or any special number assigned by the Director in connection with an exporter's report of intention to export.

#### § 778.8 Export clearance.

(a) As part of the reporting requirements of these regulations, the exporter shall furnish to the Bureau of Customs at

the port or point of export and at the time of export of any wheat, one copy of the on-board-vessel bill of lading or if exportation is by rail or truck one copy of the bill of lading or a manifest showing the quantity exported. This copy of the bill of lading or manifest shall show the transaction identification number which the Director provided the exporter on receipt of the report of intention to export as specified in § 778.7. In the case of wheat samples of 100 lbs. or less exported without charge to the recipient, the exporter shall use the code number "EX-100" as the transaction identification number.

(b) The copy of the bill of lading or manifest containing the transaction identification number will be transmitted by the Bureau of Customs to CCC for comparison with other information concerning the acquisition and surrender of certificates by the exporter covering the exportation referred to in the bill of lading or manifest.

#### § 778.9 Report of wheat exported.

The exporter shall submit to the Kansas City Commodity Office not later than 15 days after each exportation of wheat, or such later date as may be approved in writing by the Director for good cause shown, a Report of Wheat Exported, Form CCC-518 (except in the case of exports under GR-261, donations abroad, and wheat samples exported without charge to the recipient). If the exporter is entitled at such time to a refund or credit against the cost of certificates, the related Application for Wheat Export Payment, form CCC-357, as provided in GR-345 should accompany the report. The Report of Wheat Exported shall show:

- (a) Date of exportation of the wheat.
- (b) Net bushels exported.
- (c) Port of exportation.
- (d) Name of vessel, or other carrier identification.

(e) CCC Registration Number assigned under GR-345 or other identification number as set forth in § 778.7.

(f) Face value of certificates required to be acquired and surrendered for the wheat exported.

(g) Amount of certificate refund or credit under GR-345 applicable to the transaction and to be applied against the amount payable for certificates.

(h) Serial number(s) and face value of any Form CCC-145 export certificates surrendered to CCC with the Report of Exportation.

(i) Amount of any certificates previously purchased from CCC specifically for the exportation, and the date of payment.

(j) Amount remitted to CCC with the report for purchase of certificates.

(k) Name and address of exporter.

(l) Date of Report.

(m) Signature of an authorized official of the exporter.

#### § 778.10 Penalties.

(a) *Violation of marketing restrictions—forfeitures.* Any person who violates or attempts to violate or who participates or aids in the violation of any of the provisions of these regulations

with regard to the acquisition and surrender of certificates prior to export shall be subject to § 3791.(a) of the Agricultural Adjustment Act of 1938 which provides for the forfeiture to the United States by such person of a sum equal to two times the face value of the certificates involved in such violation. Such forfeiture shall be recoverable in a civil action brought in the name of the United States.

(b) *Violation of market restrictions; failure to make reports or maintain records—criminal penalties.* Any person except a producer in his capacity as a producer, who violates or attempts to violate or who participates or who aids in the violation of any provision of the regulations of this part governing the acquisition, disposition or handling of certificates or who fails to make any report or keep any record as required by these regulations shall be subject to the provisions of section 3791.(b) of the Agricultural Adjustment Act of 1938 which state that such person shall be guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than five thousand dollars for each violation.

(c) *Fraudulent use of marketing certificates.* Any person who falsely makes, issues, alters, forges or counterfeits any certificate, or with fraudulent intent possesses, transfers, or uses such falsely made, issued, altered, forged or counterfeited certificate, shall be subject to the provisions of section 3791.(d) of Agricultural Adjustment Act of 1938 which states that such person shall be deemed guilty of a felony and upon conviction thereof shall be subject to a fine of not more than ten thousand dollars or imprisonment of not more than ten years, or both.

#### § 778.11 Records.

Each exporter shall establish and maintain accurate records as to all exportations of wheat made on and after July 1, 1964 and to support the reports made under the regulations of this part. Such records shall include, but shall not be limited to, export sales contracts or other agreements with the foreign buyer pursuant to which any exportation on or after July 1, 1964, was made; bills of lading or delivery documents evidencing all exportations made on or after July 1, 1964, and inspection and weight certificates relating thereto. Such records shall be available during regular business hours for inspection and audit by authorized employees of the USDA and shall be preserved for three years after the date of export to which they relate.

#### § 778.12 Payments in dispute.

The making of a payment to CCC for certificates or the surrender of certificates to CCC by an exporter shall not deprive the exporter of any right which he might otherwise have to assert a claim in the event of a dispute as to the number of certificates required to be acquired and surrendered by him to CCC or as to the refunds or credits against the cost of certificates to which the exporter is entitled.

The recordkeeping and reporting requirements of these regulations have been approved by, and subsequent recordkeeping and reporting requirements will be subject to the approval of, the Bureau of the Budget in accordance with Federal Reports Act of 1942.

**Effective date.** Date of filing with the Director, Office of the Federal Register.

Signed at Washington, D.C., on June 16, 1964.

### Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

[Valencia Orange Reg. 89]

#### PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

##### Limitation of Handling

##### § 908.389 Valencia Orange Regulation 89.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908; 27 F.R. 10089), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein

were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on June 18, 1964.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., June 21, 1964, and ending at 12:01 a.m., P.s.t., June 28, 1964, are hereby fixed as follows:

- (i) District 1: 200,000 cartons;
- (ii) District 2: 300,000 cartons;
- (iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," and "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

[Lemon Reg. 116]

#### PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

##### Limitation of Handling

##### § 910.416 Lemon Regulation 116.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 27 F.R. 8346), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became avail-

able and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on June 16, 1964.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., June 21, 1964, and ending at 12:01 a.m., P.s.t., June 28, 1964, are hereby fixed as follows:

- (i) District 1: Unlimited movement;
- (ii) District 2: 372,000 cartons;
- (iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

[Lime Reg. 7]

#### PART 911—LIMES GROWN IN FLORIDA

##### Quality and Size

##### § 911.309 Lime Regulation 7.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the

Florida Lime Administrative Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 22, 1964. Determinations as to the need for, and extent of, regulation of Florida lime shipments must await the development of the crop and the availability of information on the demand for such fruit; the recommendations and supporting information for regulation of lime shipments subsequent to June 22, 1964, and in the manner herein provided, were promptly submitted to the Department after an open meeting of the Florida Lime Administrative Committee on June 11, 1964, held to consider recommendations for regulation; the provisions of this section are identical with the aforesaid recommendations of the committee, and information concerning such provisions has been disseminated among handlers of Florida limes; it is necessary, in order to effectuate the declared policy of the act, to make this section effective as hereinafter set forth; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a.m., e.s.t., June 22, 1964, and ending at 12:01 a.m., e.s.t., July 22, 1964, no handler shall handle:

(i) Any limes of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties), grown in the production area, which do not grade at least U.S. Combination, Mixed Color; or

(ii) Any limes of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties), which are of a size smaller than 1 1/2 inches in diameter: *Provided*, That not to exceed 10 percent, by count, of the limes in any container may fail to meet this requirement.

(3) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade and diameter, as used herein, shall have the

same meaning as is given to the respective term in the United States Standards for Persian (Tahiti) Limes (§§ 51.1000-51.1016).

[C.C.C. Grain Price Support Reg., 1964-Crop Rice Supp., Amdt. 1]

#### PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

##### Subpart—1964-Crop Rice Loan and Purchase Program

The regulations issued by the Commodity Credit Corporation published in 29 F.R. 5833 and containing specific requirements of the 1964-crop rice price support program are hereby amended as follows:

Paragraph (a) of § 1421.2728 is amended to establish a maximum quantity of rice which may be pledged for a loan when stored identity preserved or modified commingled so as to read as follows:

##### § 1421.2728 Determination of quantity.

(a) *In Warehouse.*—(1) *Commingled.* The amount of a loan on eligible rice stored commingled in an approved warehouse shall be based on the weight specified on the warehouse receipt representing such rice which is pledged as security for the loan, or on the supplemental certificate, if applicable.

(2) *Identity preserved or modified commingled.* The amount of a loan on eligible rice stored identity preserved or modified commingled in an approved warehouse shall be based on a percentage, as determined by the State committee of the weight specified on the warehouse receipt, representing such rice which is pledged as security for the loan, or on the supplemental certificate, if applicable. Such percentage shall not exceed 95 percent of the weight so specified. The State committee's determination shall be made on a State-wide basis or for specified areas within the State. The county committee may lower such percentage on an individual basis when determined to be in the best interest of CCC.

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 62 Stat. 1051 as amended, 1054, sec. 302, 72 Stat. 988; 15 U.S.C. 714c, 7 U.S.C. 1421, 1441)

Effective date upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on June 17, 1964.

H. D. GODFREY,  
Executive Vice President,  
Commodity Credit Corporation.

#### PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

##### Subpart—1964-Crop Rye Loan and Purchase Program

C.C.C. Grain Price Support Regulations Governing Price Support for the 1964 and Subsequent Crops (29 F.R. 2686) issued by the Commodity Credit Corporation which contain regulations of a general nature with respect to price support operations are supplemented for the 1964-crop of rye as follows:

Sec.	Purpose.
1421.2811	Availability.
1421.2812	Eligible rye.
1421.2813	Determination of quality.
1421.2814	Determination of quantity.
1421.2815	Warehouse receipts.
1421.2816	Service charges.
1421.2817	Warehouse charges.
1421.2818	Maturity of loans.
1421.2819	Support rates.

*AUTHORITY:* The provisions of this subpart issued under sec. 4, 62 Stat. 1070 as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051 as amended; 15 U.S.C. 714c, 7 U.S.C. 1421, 1441.

##### § 1421.2811 Purpose.

This subpart contains additional program provisions, which together with the applicable provisions of the General Regulations Governing Price Support for the 1964 and Subsequent Crops and any amendments thereto, apply to loans and purchase agreements for 1964-crop rye.

##### § 1421.2812 Availability.

Producers desiring price support must file an application not later than January 31, 1965. Loans shall be available through January 31, 1965 in those States having a February 29, 1965 maturity date and through March 31, 1965 in States with an April 30, 1965 maturity date.

##### § 1421.2813 Eligible rye.

(a) The rye must be merchantable for food, feed, or other uses as determined by CCC and must not contain mercurial compounds or other substances poisonous to man or animals in order to be eligible for price support.

(b) Warehouse stored loan grade requirements. Rye to be placed under a warehouse storage loan must also meet the following requirements:

(1) The rye must grade (i) No. 2 or better or (ii) No. 3 or 4 on the factor of test weight and/or because of grading "thin", but otherwise No. 2 or better.

(2) Rye must not grade "Light Smutty", "Smutty", "Light Garlicky", "Garlicky", or contain in excess of 1 percent Ergot.

(3) Rye must not grade "Weevily" or "Tough" unless represented by a warehouse receipt accompanied by supplemental certificate which provides that the warehouseman shall deliver rye which does not grade "Weevily" or "Tough" and which is otherwise of an eligible grade and quality. The grade, quality and quantity shown on the supplemental certificate must be as provided in § 1421.2816.

§ 1421.2814 Determination of quality.

(a) *Grading factors.* The grade and grading factors and all other quality factors shall be based on the Official Grain Standards of the United States for Rye, whether or not the determination is made on the basis of an official inspection.

(b) *Ergot.* The quantity of ergot shall be stated in terms of tenths of one percent and where applicable, the word "Ergoty" shall be added to, and made a part of the grade designation.

§ 1421.2815 Determination of quantity.

When the quantity is determined by weight, a bushel shall be 56 pounds of rye free of dockage.

(a) *In warehouse.* The quantity of rye on which a warehouse storage loan shall be made and the quantity delivered to or acquired by CCC in an approved warehouse under a farm-storage loan or purchase shall be the net weight specified on the warehouse receipt or on the supplemental certificate, if applicable. If the rye has been dried or blended to reduce the moisture content the quantity specified on the warehouse receipt or supplemental certificate, if applicable, shall represent the quantity after drying or blending, and such quantity shall reflect a minimum shrink in the receiving weight of 1.2 times the percentage difference between the moisture content of the rye, when received and 14 percent.

(b) *On farm.* The quantity eligible to be placed under farm-storage loan shall be determined in accordance with § 1421.67 of the General Regulations. The quantity acquired by CCC shall be determined by weight. In determining the quantity of sacked rye by weight a deduction of three-fourths of a pound for each sack shall be made.

(c) *Dockage.* When the quantity is determined by weight the percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight in determining the net quantity.

§ 1421.2816 Warehouse receipts.

Warehouse receipts tendered to CCC in connection with a loan or a purchase must meet the requirements of this section.

(a) *Separate receipt.* A separate warehouse receipt must be submitted for each grade and quality of rye.

(b) *Entries.* Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show

(1) gross weight and net bushels, (2) grade (including special grades), (3) percentage of ergot for rye containing in excess of 3/10 of 1 percent of ergot, (4) test weight, (5) dockage, (6) moisture, if over 14 percent, (7) any other grading factor(s) when such factor(s) and not test weight determine the grade, and (8) whether the rye arrived by rail, truck or barge.

(c) *Where warehouse receipt shows "weevily" or excess moisture.* If a warehouse receipt tendered for loan indicates the rye grades "Weevily" or contains over 14 percent moisture the warehouse receipt must be accompanied by a supplemental certificate as provided in § 1421.2813 in order for the rye to be eligible for price support. The grade, grading factors and quantity to be delivered must be shown on the supplemental certificate as follows:

(1) When the warehouse receipt shows "Weevily" and the rye has been conditioned to correct the "Weevily" condition, the supplemental certificate must show the same grade without the "Weevily" designation and the same grading factors and quantity as shown on the warehouse receipt;

(2) When the warehouse receipt indicates a moisture content of over 14 percent and the rye has been dried or blended, the supplemental certificate must show the grade, grading factors, and quantity after drying or blending the rye to a moisture content of not over 14 percent. The quantity shown shall reflect a drying or blending shrink as specified in § 1421.2815;

(3) The supplemental certificate must state that no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of the warehouse receipt;

(4) In case of conditions specified in subparagraphs (1) and (2) of this paragraph, the grade, grading factors, and the quantity shown on the supplemental certificate shall supersede the entries for such items on the warehouse receipt.

(d) *Liens.* The warehouse receipts may be subject to liens for warehouse charges only to extent indicated in § 1421.2818.

(e) *Freight bill requirements.* Warehouse receipts representing rye which has been shipped by rail or water from a country shipping point to a designated terminal point, or shipped by rail or water from a country shipping point to a storage point and stored in-transit to a designated terminal point, must be accompanied by registered freight bills or by a certificate containing similar information. These registered freight bills or certificates must be representative as to origin and date of movement of the rye and must reflect the total freight rate from origin to designated terminal point including penalty for out-of-line haul, if any. The form of the certificates will be prescribed by the ASCS commodity office and shall be signed by the warehouseman and may be made a part of the supplemental certificate.

§ 1421.2817 Service charges.

A charge of one half cent per bushel will be made for the quantity acquired

by CCC and such charge shall be handled in accordance with § 1421.60(b) of the General Regulations.

§ 1421.2818 Warehouse charges.

(a) *Handling and storage liens.* Warehouse receipts and the rye represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the rye is deposited in the warehouse for storage. Warehouse receipts and the rye represented thereby stored in approved warehouse operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. In no event shall a warehouseman be entitled to satisfy the lien by sale of the rye when CCC is holder of the warehouse receipt.

(b) *Deduction of storage charges—UGSA warehouses.* The table shown below provides the deduction for storage charges to be made from the amount of the loan or purchase price in the case of rye stored in an approved warehouse operated under the Uniform Grain Storage Agreement. Such deduction shall be based on entries shown on the warehouse receipts. If written evidence is submitted with the warehouse receipt that all warehouse charges except receiving and loading out charges have been prepaid through the applicable loan maturity date, no storage deductions shall be made. If such written evidence is not submitted, the date to be used for computing the storage deduction on rye stored in approved warehouses operating under the Uniform Grain Storage Agreement shall be the latest of the following: (1) The date of deposit, (2) the date storage charges start, or (3) the day following the date through which the storage charges have been paid. If none of the foregoing dates is shown, the date of the warehouse receipt shall be used.

(c) *Deduction of storage charges—Eastern common carriers.* In the case of rye stored in an approved warehouse operated by an Eastern common carrier, there shall be deducted in computing the

## RULES AND REGULATIONS

loan or purchase price the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit through the applicable maturity date unless written evidence is submitted with the warehouse receipt that such charges have been prepaid. The county office shall request the ASCS commodity office to determine the amount of such charges. Where the producer presents evidence showing the elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

#### § 1421.2319 Maturity of loans.

Loans mature on demand but not later than February 28, 1965, for rye stored in Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia, and not later than April 30, 1965 in all other States.

#### § 1421.2320 Support rates.

Basic support rates for rye as established in this section are to be used in making loans or purchases and in settlement of loans and purchases. Farm-stored loans will be made at the applicable basic support rate adjusted only for weed control discount where applicable. Warehouse-stored loans, farm-stored loan settlements and purchases shall be at the applicable basic support rate adjusted by the discounts shown in paragraph (a), (b), and (d) of this section and such other discounts as may be established by CCC applicable to the grade and quality of the rye on which the loan or settlement is made. Basic support rates for rye per bushel are for rye grading No. 2 or better or grading No. 3 on the basis of test weight only.

(a) *Support rates at designated terminal markets.* (1) The basic support rates established for designated terminal markets apply to rye shipped on a domestic interstate freight rate basis. The basic support rate at the designated terminal market for any rye shipped at other than the domestic interstate freight rate shall be reduced by the difference between the freight rate paid and the domestic interstate freight rate.

(2) The basic support rates established for designated terminal markets also apply to rye which has been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges. If the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate, if any, from the terminal market to a recognized market determined by the appropriate ASCS commodity office, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate. If the rye is stored at any

designated terminal market and neither registered freight bills nor registered freight certificates are presented, the basic support rate shall be reduced by the actual amount of paid-in freight required to guarantee the proportional outbound rate from the terminal market to a recognized market determined by the appropriate ASCS commodity office.

(3) In determining the support rate for rye received by truck and stored at any designated terminal market there shall be deducted from the applicable basic support rate the actual amount of paid-in-freight required to guarantee the proportional outbound rate from the terminal market to a recognized market determined by the appropriate ASCS commodity office, plus 3.5 cents per bushel.

(4) Notwithstanding the foregoing provisions of this paragraph, in determining the support rate for rye shipped by rail or water and stored at any of the following terminal markets there shall be deducted from the applicable basic support rate, the transportation cost, if any, as determined by the appropriate ASCS commodity office, for moving the rye to a tidewater facility located within the same switching limits:

Long Beach, Los Angeles, Oakland, San Francisco, Stockton, and Wilmington, Calif.
Baton Rouge and New Orleans, La.
Baltimore, Md.
Duluth, Minn.
Astoria and Portland, Ore.
Albany and New York, N.Y.
Philadelphia, Pa.
Beaumont, Galveston, Houston, and Fort Arthur, Tex.
Norfolk, Va.
Kalama, Longview, Seattle, Tacoma, and Vancouver, Wash.
Superior, Wis.

(5) Notwithstanding the foregoing provisions of this paragraph, in determining the support rate for rye received by truck and stored at any of the terminal markets listed in subparagraph (4) of this paragraph shall be deducted from the applicable basic support rate the amount of 3.25 cents per bushel from the terminal rate, plus the transportation cost, if any, as determined by the appropriate ASCS commodity office, for moving the rye to a tidewater loading facility located within the same switching limits.

(b) *Support rates for rye in approved warehouse storage at other than designated terminal markets.* In determining the support rate for rye which is shipped by rail or water and which is stored in approved warehouses (other than those situated in the designated terminal markets) there shall be deducted from the basic support rate for the appropriate designated terminal market, as determined by CCC, an amount equal to the transit balance, if any, of the through-freight rate from the point of origin for such rye to such terminal market: *Provided*, That on any rye shipped at other than the domestic interstate freight rate, the basic support rate shall be further reduced by the difference between the freight rate paid and the domestic interstate freight rate from the point of origin of such rye, to the point of destination or appropriate terminal market: *And provided further*, That in the case of rye stored at any railroad transit point, taking a penalty by reason of out-of-line movement to the appropriate designated market, or for any other reason, there shall be added to such transit balance an amount equal to any out-of-line movement to the appropriate designated market, or for any other reason, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing rye in such position.

(c) *Basic county support rates.* (1) The applicable basic support rate for farm-storage loans and for rye stored in approved country warehouse-storage, except as otherwise provided in paragraph (b) of this section and subparagraph (2) of this paragraph shall be the basic county support rate established for the county in which the rye is stored.

(2) If two or more approved warehouses are located in the same or adjoining towns, villages, or cities, having the same domestic interstate freight rate, such towns, villages, or cities shall be deemed to constitute one shipping point and the same basic support rate shall apply even though such warehouses are not all located in the same county. Such support rate shall be the highest support rate of the counties involved. County basic price support rates are as follows:

## RESINOUS AND POLYMERIC COATINGS

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition (FAP 1128) filed by the Dow Chemical Company, P.O. Box 467, Midland, Michigan, 48641, and other relevant material, has concluded that the food additive regulations should be amended to provide for the use of glycidyl ethers, formed by reacting phenol-novolak resins with epichlorohydrin, in the production of resinous and polymeric food-contact coatings. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471), paragraph (b)(3)(viii)(a) of § 121.2514 *Resinous and polymeric coatings* is amended by inserting alphabetically therein the following new item:

Glycidyl ethers formed by reacting phenol-novolak resins with epichlorohydrin.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accom-

panied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

*Effective date.* This order shall be effective on the date of its publication in the FEDERAL REGISTER.

## Title 22—FOREIGN RELATIONS

## Chapter I—Department of State

## SUBCHAPTER N—MISCELLANEOUS

[Dept. Reg. 108.509]

## PART 133—RESEARCH IN DEPARTMENT OF STATE RECORDS

Part 133—Study and Research in the Department of State is amended in its entirety as follows:

Sec.	Definition.
133.1	Definition.
133.2	General restrictions on the use of records of the Department, posts abroad, and missions to international organizations in the United States.
133.3	Official use of records by other Federal Agencies.
133.4	Nonofficial use of records for research purposes.

*AUTHORITY:* The provisions of this Part 133 issued under sec. 4, 63 Stat. 111, as amended; 5 U.S.C. 151c. Interpret or apply No. 8, 27 Stat. 395, as amended; 20 U.S.C. 91; sec. 612, 60 Stat. 1014; 22 U.S.C. 987; sec. 222, 66 Stat. 193; 18 U.S.C. 1202; and Executive Order 10501, as amended.

## § 133.1 Definitions.

For the purposes of the regulations of this part the term "records" includes those documents and materials defined in the Act of July 7, 1943 (57 Stat. 360; 44 U.S.C. 366) plus all copies of such documents and materials.

§ 133.2 General restrictions on the use of records of the Department, posts abroad, and missions to international organizations in the United States.

(a) Personnel security records will be maintained in confidence and will not be transmitted or disclosed, except as authorized and required in the conduct of business.

(b) Records relating to the citizenship of individuals, unsettled claims, Departmental and Foreign Service personnel matters, and the issuance or refusal of visas or permits to enter the United States; intelligence and investigative records; and Foreign Service inspection reports may generally not be used.

(c) Classified records originating in other Federal agencies and furnished the Department of State shall be communicated to a third agency or person only in accordance with applicable security regulations and with the consent of the originating agency.

### § 133.3 Official use of records by other Federal Agencies.

(a) *Procedure for handling requests.* Requests from other Federal agencies for access to and use of Departmental and post records for official purposes shall generally be received and coordinated by the appropriate liaison or functional office concerned. For example, all requests from congressional committees or individual Members of Congress for documents, regardless of subject matter, shall be referred to the Office of the Assistant Secretary for Congressional Relations; requests for personnel records or information to the Office of Personnel; and security questions to the Office of Security.

(b) *Clearance of official studies based on Departmental records.* Before publication, official studies based on Departmental records prepared by other Federal agencies are subject to clearance by appropriate offices of the Department in consultation with the Historical Office.

### § 133.4 Nonofficial use of records for research purposes.

(a) *General policy.* It is the policy of the Department to make its records available to private individuals and to Government officials engaged in private research as liberally as possible, consistent with the interests of national defense, the maintenance of friendly relations with other nations and the efficient operation of the Department and the Foreign Service.

(b) *Three periods with respect to access by nonofficial researchers to the records of the Department and its overseas posts—(1) Closed period.* The records of the Department are in general closed in advance of the publication of the Department's documentary series entitled "Foreign Relations of the United States". The beginning date of the closed period will be advanced automatically as the annual "Foreign Relations" volumes are released.

(2) *Restricted period.* The restricted period is the period of ten years behind the closed period. Use of the records in the restricted period shall be confined to qualified researchers demonstrating a scholarly or professional need for the information contained in such records.

(3) *Open period.* The open period is the period prior to the restricted period. The records of the Department for the open period are in the National Archives and may be consulted under regulations issued by the National Archives.

(c) *Special restrictions on use of records of restricted and closed periods, in addition to the general restrictions listed in § 133.2.* (1) The use of classified or administratively controlled records or information therefrom is subject to the Department's Security Regulations.

(2) Information contained in classified or administratively controlled telegrams less than 10 years old may be made available only in paraphrased form in accordance with the Department's Security Regulations.

(3) Certain types of documents will be withheld if their publication would be contrary to the public interest, such as (i) materials which might tend to embarrass the United States Govern-

ment in its conduct of foreign relations; (ii) materials embodying opinions or comments which might give needless offense to other nationalities or to individuals at home or abroad; and (iii) materials which would violate the confidence reposed in the Department or in the Foreign Service.

(4) Papers, with the possible exception of captured enemy or ex-enemy documentation, originated by a foreign government and not yet released for publication by that government, ordinarily will not be made available to inquirers without the consent of the government concerned.

(d) *Application for nonofficial access to records in the restricted and closed periods—(1) Submission of application.* The application shall be submitted to the Director of the Historical Office of the Department of State.

(2) *Information to be furnished in application.* The application shall contain a description of the nature and scope of the proposed study and the types of records required. Administrative considerations make it necessary for the researcher to confine his request, insofar as possible, to particular documents or materials on specific topics. The applicant also shall provide data concerning his citizenship, academic background and research experience. The application shall be accompanied by appropriate references or, preferably, by letters or recommendation. The application of an alien researcher should include a recommendation from the chief of mission in Washington representing the country to which he owes allegiance or an explanation of why such recommendation is not deemed necessary.

(3) *Departmental action on application.* The Director of the Historical Office shall confer with the appropriate officers, when necessary, and determine the action to be taken, the nature and extent of access to be granted, and any special restrictions to be placed on the use of the information. The Historical Office shall then notify the applicant whether the desired records can be made available within policy and security restrictions, and make any necessary arrangements for the applicant to consult official files subject to such conditions as may be decided upon.

(e) *Clearance of notes or materials resulting from nonofficial use of records for research purposes.* The researcher to whom documents have been made available shall submit to the Director of the Historical Office, for purpose of review, all such records, notes or manuscripts as may have been agreed to in advance. The Director may, in turn, submit them to the appropriate policy office or offices before approval is given for their use. After the clearance of the documents, notes, or manuscripts, the Director of the Historical Office shall transmit the cleared materials to the researcher, retaining such items as it may be deemed necessary to withhold.

For the Secretary of State.

ROBERT J. MANNING,  
Assistant Secretary.

#### Correction

In F.R. Doc. 64-5762, appearing at page 7505 of the issue for Thursday, June 11, 1964, the following correction is made in the third paragraph: The phrase reading "effective 001 e.s.t.," should read "effective 0001 e.s.t.,".

## RULES AND REGULATIONS

## SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES [NEW]

[Reg. Docket No. 5073; Amdt. 377]

## PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES [NEW]

## Miscellaneous Amendments

The amendments to the standard instrument approach procedures contained herein are adopted to become effective when indicated in order to promote safety. The amended procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the complete procedure is republished in this amendment indicating the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 97 [New] (14 CFR Part 97 [New]) is amended as follows:

1. By amending the following low or medium frequency range procedures prescribed in § 97.11(a) to read:

## LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums

7. By amending the following radar procedures prescribed in § 97.19 to read:

**RADAR STANDARD INSTRUMENT APPROACH PROCEDURE**

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Radar terminal area maneuvering altitudes by sectors and limiting distance				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

**PART 1801—CONTRIBUTIONS FOR CIVIL DEFENSE EQUIPMENT**

**Conditions of Contributions**

Paragraph (e) of § 1801.4 is revised to read as follows:

**§ 1801.4 Conditions of contributions.**

(e) *Use and disposal.* Except as otherwise may be prescribed or authorized in OCD guidance material, civil defense equipment shall be distributed, maintained, and used solely for civil defense purposes and shall not be disposed of without prior approval of the OCD: *Provided*, In view of the close relationship and parallel nature of activities required for enemy-caused and other-than-enemy-caused disaster, civil defense equipment obtained with the assistance of a contribution under the regulations in this Part 1801 may be used in preparation for (including without limitation training activities and test exercises) and during other-than-enemy-caused disaster, including without limitation natural disaster of a local nature and "major disaster" as defined in Public Law 875, 81st Congress.

**PART 1802—SURPLUS PROPERTY**  
**Additional Conditions**

Paragraph (b) of § 1802.6 is revised to read as follows:

**§ 1802.6 Additional conditions.**

(b) *Utilization in disaster.* In view of the close relationship and parallel nature of activities required for enemy-caused and other-than-enemy-caused disaster, any item of donated property, without regard to acquisition cost may be used in preparation for (including without limitation training activities and test exercises) and during other-than-enemy-caused disaster, including without limitation natural disaster of a local nature and "major disaster" as defined in Public Law 875, 81st Congress.

**Conditions of Contributions**

Paragraph (g) of § 1807.6 is revised to read as follows:

**§ 1807.6 Conditions of contributions.**

(g) *Use.* (1) Funds contributed under the regulations in this Part 1807 shall be used solely for the civil defense purposes for which the contribution was made. Accordingly, such funds must not be used for administrative activities which are required solely for preparedness against other-than-enemy-caused disaster. However, in view of the close relationship and parallel nature of the administration of both tasks, contribu-

tions may be made toward the cost of planning and other administrative activity in preparation for enemy-caused disaster which includes as an integral part thereof such activity in preparation for and during other-than-enemy-caused disaster, including without limitation natural disaster of a local nature and "major disaster" as defined in Public Law 875, 81st Congress.

(2) Except as otherwise may be prescribed or authorized in OCD guidance material, supplies and equipment for which contributions are to be made or have been made under the regulations in this Part 1807 shall be used solely for civil defense purposes: *Provided*, That such supplies and equipment may be used in preparation for (including without limitation training activities and test exercises) as well as during other-than-enemy-caused disaster, including without limitation natural disaster of a local nature and "major disaster" as defined in Public Law 875, 81st Congress.

*Effective date.* This amendment is effective immediately.

## Title 33—NAVIGATION AND NAVIGABLE WATERS

### Chapter II—Corps of Engineers, Department of the Army

#### PART 203—BRIDGE REGULATIONS California

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.714 is hereby amended to make minor revisions in paragraphs (a) (4), (c) (2) and (g) (2), and to change (h) (3) in its entirety; § 203.715 is hereby

amended to revise paragraphs (a) (2) and (c) (2) governing two Sacramento County highway bridges across Georgiana Slough, California; and § 203.716 is hereby amended to make minor revisions with respect to paragraphs (b) (1) and (c) (1), effective 30 days after publication in the FEDERAL REGISTER, as follows:

#### § 203.714 San Joaquin River and its tributaries, California.

(a) *San Joaquin River.* \* \* \*

(4) *State of California highway bridge (Garwood Bridge).* At least 12 hours' advance notice required.

(c) *Middle River.* \* \* \*

(2) *State of California highway bridge between Victoria Island and Drexler Tract.* At least 12 hours' advance notice required.

(g) *Little Potato Slough; State of California highway at Terminous.* \* \* \*

(2) From 5:00 p.m. to 8:00 a.m. during the months of July to September, inclusive, when a draw tender is not in attendance, advance notice required to be given to the draw tender by or by telephone to the Rio Vista Bridge before 4:00 p.m. At all other times, at least 12 hours' advance notice required.

(h) *Mokelumne River, including North and South Forks.* \* \* \*

(3) *South Fork; San Joaquin County highway bridge (New Hope Landing Bridge).* When an emergency exists which requires opening of the bridge, the bridge owner shall, upon notice from the District Engineer, remove the removable bridge portion over the main channel expeditiously and with as little delay as possible to water traffic.

#### § 203.715 Georgiana Slough, California.

(a) *Sacramento County highway bridge near Isleton.* \* \* \*

(2) The owner of or agency controlling this bridge shall keep a draw tender in constant attendance from 8:00 a.m. to 5:00 p.m. throughout the year, and from 5:00 p.m. to 9:00 p.m. from May to October, inclusive, during such other periods as regular crop movements may justify, and during periods when, in the opinion of the District Engineer, an emergency exists. In the event that the crop moving season is started earlier than May 1 or is extended later than October 31, the period for prompt opening of the bridge on proper signal from

5:00 p.m. to 8:00 a.m. shall be adjusted accordingly, provided the operators of vessels navigating this waterway give 15 days' written notice that such an adjustment is necessary to take care of contemplated traffic. At all other times, at least 16 hours' advance notice required.

(c) *Sacramento County highway bridge near Walnut Grove.* \* \* \*

(2) The owner of or agency controlling this bridge shall keep a draw tender in constant attendance from 8:00 a.m. to 5:00 p.m. throughout the year, and from 5:00 p.m. to 9:00 p.m. from May to October, inclusive, during such other periods as regular crop movements may justify, and during periods when, in the opinion of the District Engineer, an emergency exists. In the event that the crop moving season is started earlier than May 1 or is extended later than October 31, the period for prompt opening of the bridge on proper signal from 5:00 p.m. to 8:00 a.m. shall be adjusted accordingly, provided the operators of vessels navigating this waterway give 15 days' written notice that such adjustment is necessary to take care of contemplated traffic. At all other times, at least 16 hours' advance notice required.

### MILK IN SUBURBAN ST. LOUIS MARKETING AREA

#### Notice of Proposed Suspension of Certain Provision of Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the suspension of a certain provision of the order regulating the handling of milk in the Suburban St. Louis marketing area is being considered for the month of June 1964.

The provision proposed to be suspended in § 1032.13(a) is the following: "a volume equal to not less than 50 percent of the total receipts of", relating to the pool plant qualification requirement for a distributing plant.

Petitioners request the proposed suspension to enable a distributing plant, which serves as an outlet for reserve milk, to maintain pool status while handling additional seasonal milk supplies.

All persons who desire to submit written views, data, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112, Administration Building, U.S. Department of Agriculture, Washington, D.C., 20250, not later than three days from the day of publication of this notice in the FEDERAL REGISTER. All documents filed should be in duplicate.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Signed at Washington, D.C., on June 17, 1964.

#### FEDERAL MARITIME COMMISSION

[Docket No. 1188]

##### ALASKA LOWER YUKON RIVER AREA

##### Increased Freight Rates; Notice of Investigation and Suspension

It appearing, that there has been filed by Northern Commercial Company River Lines, Local Freight Tariff No. 2-K, FMC-F No. 53 which names increased rates on Emigrant's movables, Household goods, and Personal effects in Item No. 15; Beverages, carbonated or flavored, NOS, in Item No. 34; Iron and Steel (sheet) viz: Plain, Galvanized, or Corrugated, in Item No. 40; and Plasterboard, Wallboard and Plywood, in sheets, in Item No. 45;

It further appearing, that upon consideration of the said tariff there is reason to believe that the said increased rates, if permitted to become effective, would result in rates, charges, and/or practices which would be unjust, unreasonable, or otherwise unlawful in violation of the Shipping Act, 1916, or the Intercoastal Shipping Act, 1933.

It further appearing, that the Commission is of the opinion that the proposed increased rates should be made the subject of a public investigation and hearing to determine whether they are unjust, unreasonable, or otherwise unlawful under the Shipping Act, 1916, or the Intercoastal Shipping Act, 1933;

It further appearing, that the effective date of the said rates should be suspended pending such investigation;

Now therefore, it is ordered, That, an investigation be, and it is hereby instituted into and concerning the lawfulness of the proposed Northern Commercial Company River Lines increased rates with a view to making such findings and orders in the premises as the facts and circumstances shall warrant;

It is further ordered, That, Items Nos. 15, 34, 40, and 45 published in the aforementioned tariff be, and they are hereby suspended and that the use thereof be deferred to and including October 14, 1964, unless otherwise authorized by the Commission, and that the rates, and/or charges, heretofore in effect, and which were to be changed by the suspended matter, shall remain in effect during the period of suspension;

It is further ordered, That no change shall be made in the matter hereby suspended nor the matter which is continued in effect as a result of such suspension until the period of suspension has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs unless otherwise authorized by the Commission;

It is further ordered, That there shall be filed immediately with the Commission by Northern Commercial Company River Lines a consecutively numbered supplement to the aforesaid tariff, which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described, and shall state that the afore-

said rates are suspended and may not be used until the 15th day of October, 1964, unless otherwise authorized by the Commission; and that the rates heretofore in effect, and which were to be changed by the suspended rates shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission;

*It is further ordered*, That the investigation in this proceeding shall not be confined to the matter hereby placed under suspension, but shall include all matters with respect to the lawfulness of all rates, charges, rules, regulations, classifications, and practices published in the following tariffs of the said carrier including subsequent reissues thereof or amendments thereto: USMC No. F-6; FMC-F Nos. 39, 40, 43, 45, 49, 50, 51, and 53;

*It is further ordered*, That copies of this order shall be filed with the tariff schedule containing the suspended matter in the Bureau of Domestic Regulation of the Federal Maritime Commission;

*It is further ordered*, That (I) the investigation herein ordered be assigned for public hearing by the Chief Examiner, before an examiner of the Commission's Office of Hearing Examiners, at a date and place to be announced; (II) Northern Commercial Company River Lines be, and it is hereby made respondent in this proceeding; (III) a copy of this order shall forthwith be served upon the said respondent; (IV) the said respondent be duly notified of the time and place of the hearing herein ordered; and (V) this order and notice of the said hearing be published in the FEDERAL REGISTER.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 5(n) [46 CFR 502.73].

[Docket No. 1182]

## RATES FROM JACKSONVILLE, FLORIDA, TO PUERTO RICO

### Second Supplemental Order; Notice of Expansion of Investigation and Change of Name of Proceeding

Whereas, by order dated April 30, 1964, the Commission entered into an investigation to determine whether the publication by Sea-Land Service, Inc., Puerto Rican Division (Sea-Land) of a different rate on a commodity from Jacksonville to Puerto Rico than it maintains on the

same commodity from other Atlantic ports to Puerto Rico is unjust, unreasonable, or otherwise unlawful under the Shipping Act, 1916, or the Intercoastal Shipping Act, 1933;

Whereas, on April 20, 1964, Sea-Land filed 5th Revised Page No. 122-A, 2d Revised Page No. 123, 3d Revised Page No. 124 to its Tariff FMC-F No. 3 (Pan-Atlantic Steamship Corporation Series) originally scheduled to become effective on May 21, 1964, but postponed to and including June 7, 1964, which would increase the refrigerated cargo rates on Fruits and Vegetables, Fresh from \$525.00 per trailerload of onions and potatoes; \$550.00 per trailerload of cabbage and tomatoes; and \$575.00 per trailerload of watermelons to \$650.00 per trailer in straight or mixed trailerloads when such cargo moves from Jacksonville to ports in Puerto Rico;

Whereas, the trailerload rates on these commodities from other Atlantic ports remain unchanged and said tariff pages filed April 20, 1964 result in higher rates being assessed on Jacksonville/Puerto Rico cargo than on cargo moving from other Atlantic ports even though all of the cargo moves on the same voyage;

Whereas, the Commission is of the opinion that said new Sea-Land tariff provisions should be made the subject of a public investigation to the same extent as other matter currently under investigation herein, to determine whether they are unjust, unreasonable, or otherwise unlawful, under the Shipping Act, 1916, or the Intercoastal Shipping Act, 1933;

*Now therefore it is ordered*, That this proceeding be, and it is hereby expanded to include, in addition to matters now under investigation herein, an investigation into and a hearing concerning the lawfulness of Sea-Land's refrigerated trailer rates, effective on June 8, 1964, and as later may be amended, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant;

*It is further ordered*, That (I) a copy of this order shall forthwith be served upon the respondents herein; (II) the said respondents be duly notified of the time and place of the hearing ordered; and (III) this order and notice of the said hearing be published in the FEDERAL REGISTER.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 5(n) (46 CFR 502.73).

By the Commission June 4, 1964.

## NEW YORK FREIGHT BUREAU, HONG KONG

### Notice of Filing of Agreement

Notice is hereby given that the following described agreement has been filed

with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733; 75 Stat. 763; 46 U.S.C. 814):

Agreement 5700-5-E between the member lines of the New York Freight Bureau (Hong Kong) (Agreement No. 5700) further modifies temporary pooling and ceiling Agreement 5700-5 covering the trade from Hong Kong to U.S. Atlantic and Gulf Ports, by increasing the ceiling of 2200 revenue tons to 2450 revenue tons on voyages commencing on and after June 7, 1964.

Interested parties may inspect this agreement and obtain copies thereof at the Bureau of Foreign Regulation, Federal Maritime Commission, Washington 25, D.C., or may inspect a copy at the offices of the District Managers of the Commission in New York, N.Y., New Orleans, La., and San Francisco, Calif., and may submit to the Secretary, Federal Maritime Commission, Washington 25, D.C., within 10 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with a request for hearing, should such hearing be desired.

Dated: June 17, 1964.

## FEDERAL POWER COMMISSION

[Docket CP64-263]

### ARKANSAS-LOUISIANA PIPE LINE CO.

#### Notice of Application

JUNE 16, 1964.

Take notice that on April 29, 1964, Arkansas-Louisiana Pipe Line Company (Applicant), First National Bank Building, Shreveport, Louisiana, 71102, filed an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon its Terry Compressor Station located in Texas, all as more fully set forth in the application on file with the Commission, and open to public inspection.

The application reflects that the Terry Compressor Station is comprised of six (6) Cooper-Bessemer gas engines, type 80, twin, single acting, horizontal, each rated at 170 Hp, and manufactured in 1926. The engines were installed in their present location in 1937.

Applicant states the equipment is now obsolete, has not been operated for several years and is now unnecessary because of the connection of new sources of supply which provide volumes of gas for the markets formerly served by Terry Station. No service will be discontinued as a result of the abandonment of the obsolete equipment.

This matter is one that should be disposed of as promptly as possible under

the applicable rules and regulations and to that end:

Take further notice that preliminary staff analysis has indicated that there are no problems which would warrant a recommendation that the Commission designate this application for formal hearing before an examiner and that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing may be held without further notice before the Commission on this application provided no protest or petition to intervene is filed within the time required herein. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 7, 1964.

#### CITY GAS COMPANY OF NEWTON, N.J.

#### Notice of Application

JUNE 16, 1964.

Take notice that on April 14, 1964, City Gas Company of Newton, N.J. (Applicant), 193 Maplewood Avenue, Maplewood, New Jersey, filed in Docket No. CP64-238 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Tennessee Gas Transmission Company (Tennessee) to establish physical connection of its transmission facilities with the proposed facilities of and to sell natural gas to Applicant for resale and distribution in the Town of Newton, the Borough of Sussex and the Townships of Wantage and Hampton, all in New Jersey, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to construct and operate approximately 19 miles of 4-inch pipeline from the communities to be served to Tennessee's transmission facilities. In addition, Applicant will construct and operate distribution facilities in Sussex, Wantage, and Hampton and convert the manufactured gas system in Newton to natural gas.

The application shows the total estimated third year peak day and annual natural gas requirements for the communities to be served to be 1,275 Mcf and 175,400 Mcf, respectively.

The estimated cost of Applicant's project in the first year of operation is shown to be \$265,044, which cost will be financed by the issuance of additional common stock and the sale of First Mortgage Bonds.

On May 18, 1964, Tennessee filed an answer to the subject application stating that it does not oppose an order directing it to serve Applicant as requested.

Protests, petitions to intervene or requests for hearing in this proceeding may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 8, 1964.

#### Certificate of Public Convenience and Necessity and FPC Gas Rate Schedules

JUNE 15, 1964.

Order amending order issuing Certificate of Public Convenience and Necessity, accepting notice of adoption and supplement to FPC gas rate schedule for filing, redesignating FPC gas rate schedule, substituting respondent, redesignating proceeding, and accepting surety bond for filing.

On April 6, 1964, Richard C. Davoust (Applicant), successor to Stanton Oil Company, Ltd., filed in Docket No. CI61-340 an application pursuant to section 7(c) of the Natural Gas Act to amend the order issuing a certificate of public convenience and necessity to the Stanton Oil Company, Ltd. (Stanton), in said docket by substituting Applicant in lieu of Stanton as certificate holder to reflect a succession in interest, all as more fully set forth in the application.

Applicant proposes to sell and deliver natural gas in interstate commerce to El Paso Natural Gas Company for resale from the Levelland Field, Cochran County, Texas, pursuant to a contract heretofore designated as Stanton Oil Company, Ltd., FPC Gas Rate Schedule No. 1. Applicant has filed a notice of adoption of said rate schedule. The presently effective rate under said rate schedule is in effect subject to refund in Docket No. RI61-106. Concurrently with the subject application Applicant has filed a motion to be substituted as respondent in the rate proceeding and a surety bond for \$13,127 to assure refund of any amounts collected in excess of the amount to be determined to be just and reasonable in said proceeding.

After due notice no petition to intervene, notice of intervention, or protest to the granting of the application has been received.

The Commission finds:

(1) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the order issuing a certificate of public convenience and necessity to Stanton in Docket No. CI61-

<sup>1</sup> Consolidated with Docket No. AR61-1, et al.

340 should be amended by substituting Applicant as certificate holder.

(2) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Applicant should be substituted as respondent in the rate proceeding pending in Docket No. RI61-106, that said proceeding should be redesignated accordingly, and that the surety bond submitted by Applicant should be accepted for filing.

(3) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the notice of adoption and assignment submitted by Applicant should be accepted for filing and that Stanton's rate schedule, as supplemented, should be redesignated as a rate schedule of Applicant.

The Commission orders:

(A) The order issuing a certificate of public convenience and necessity to Stanton in Docket No. CI61-340 be and the same is hereby amended by substituting Applicant as certificate holder, and in all other respects said order shall remain in full force and effect.

(B) Applicant be and it is hereby substituted as respondent in the rate proceeding pending in Docket No. RI61-106; said proceeding is redesignated accordingly; and the surety bond submitted by Applicant to assure the refund of any amounts collected, both past and future, in excess of the amount to be determined to be just and reasonable in said proceeding be and it is hereby accepted for filing.

(C) Applicant shall comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, and Applicant's surety bond filed in Docket No. RI61-106 shall remain in full force and effect until discharged by the Commission.

(D) The notice of adoption of the related rate schedule and the assignment are accepted for filing, and said rate schedule is redesignated, all as follows:

New designation Richard C. Davoust		Former designation and description and date of instrument	Effective date

**FIRST UTILITY DISTRICT OF TIPTON  
COUNTY, TENNESSEE**

**Notice of Application**

JUNE 16, 1964.

Take notice that the First Utility District of Tipton County, Tennessee (Applicant), Brighton, Tennessee, filed an application on March 23, 1964, and a supplement thereto on May 4, 1964, in Docket No. CP64-212, pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Texas Gas Transmission Corporation (Texas Gas) to establish physical connection of its transmission facilities with the proposed facilities of and to sell natural gas to Applicant for distribution and resale in the communities of Burlison, Gilt, Edge, and Garland, and their environs in Tipton County, Tennessee, all as more fully set forth in the application and supplement thereto on file with the Commission, and open to public inspection.

Applicant proposes to construct and operate distribution systems within the borders of the three communities, transmission lines connecting the communities, and approximately 7.5 miles of 4-inch lateral line extending from Applicant's proposed master regulator station to the transmission lines connecting the communities. The proposed interconnection with the system of Texas Gas will be located east of Covington, Tennessee, adjacent to Applicant's proposed master regulator station.

The application reflects the third-year annual and peak day requirements for the communities it proposes to serve are 36,529 Mcf and 489 Mcf, respectively; and will be purchased from Texas Gas under Texas Gas' Rate Schedule SG-1.

The estimated total overall cost of constructing the proposed distribution systems, and the transmission and lateral lines is \$209,750, which Applicant proposes to finance from the issuance and sale of 30-year revenue bonds in the amount of \$125,000 bearing 5½ percent interest and, a public works grant of \$84,750 authorized by the Housing and Home Finance Agency.

Texas Gas filed an answer on April 23, 1964, to the application filed by Applicant, stating it has no objection to rendering the requested service provided Applicant establishes to the satisfaction of the Commission its proposals are required by public convenience and necessity, and the third year peak day requirements of the communities does not exceed 489 Mcf.

Protest, petitions to intervene or requests for hearing in this proceeding may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 9, 1964.

**FLORIDA GAS TRANSMISSION CO.**

**Notice of Application**

JUNE 16, 1964.

Take notice that Florida Gas Transmission Company (Applicant), P.O. Box 44, Winter Park, Florida, filed in Docket No. CP64-249 an application on April 22, 1964 and a supplement thereto on

May 13, 1964, pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities and the transportation of natural gas on a direct Preferred Interruptible basis to the City of Fort Pierce, Florida (City) for the use by the City in its existing Henry D. King Municipal Generating Station, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate approximately 8.1 miles of 6-inch line extending from its existing main pipe line in St. Lucie County, Florida in a general easterly direction to said generating station.

Applicant states that the natural gas will be used by the City for the generation of electricity for distribution to residential, commercial and industrial customers in and around Fort Pierce, Florida.

Applicant estimates the maximum daily and annual deliveries to the generating station will be 6,250 Mcf and 1,642,000 Mcf, respectively.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that preliminary staff analysis has indicated that there are no problems which would warrant a recommendation that the Commission designate this application for formal hearing before an Examiner and that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing may be held without further notice before the Commission on this application provided no protest or petition to intervene is filed within the time required herein. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 9, 1964.

[Docket No. CP64-261]

**NATURAL GAS PIPELINE COMPANY  
OF AMERICA**

**Notice of Application**

JUNE 16, 1964.

Take notice that on April 29, 1964, as supplemented on May 4, 1964, Natural Gas Pipeline Company of America, 122

South Michigan Avenue, Chicago, Illinois, 60603, filed in Docket No. CP64-261 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities in Rockland County, Illinois, in order to sell and deliver natural gas to Iowa-Illinois Gas & Electric Company (Iowa-Illinois), an existing customer, for resale and distribution in the unincorporated communities of Edgington, Taylor Ridge and Illinois City, Illinois, all as more fully set forth in the application, as supplemented, on file with the Commission and open to public inspection.

Specifically, Applicant proposes to construct and operate (1) three tap connections, (2) three meter stations, and (3) three 3-inch lateral pipelines each 200 feet in length.

The application shows the total estimated peak day and annual natural gas requirements for the three communities to be 417 Mcf and 37,486 Mcf, respectively. However, Applicant states that service to the three communities will be from volumes of natural gas heretofore authorized to be sold by Applicant to Iowa-Illinois.

The total estimated cost of Applicant's proposed facilities is shown to be \$54,000, which cost will be financed from funds on hand.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that preliminary staff analysis has indicated that there are no problems which would warrant a recommendation that the Commission designate this application for formal hearing before an examiner and that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing may be held without further notice before the Commission on this application provided no protest or petition to intervene is filed within the time required herein. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 8, 1964.

## TRANSCONTINENTAL GAS PIPE LINE CORP.

### Notice of Application

JUNE 16, 1964.

Take notice that Transcontinental Gas Pipe Line Corporation (Transco) P.O. Box 1396, Houston, Texas, 77001, filed an application on April 20, 1964, and a supplement thereto on May 25, 1964, pursuant to section 7(b) of the Natural Gas Act, for permission to abandon the facilities hereinafter described, subject to the jurisdiction of the Commission, all as more fully described in the application and supplement on file with the Commission, and open to public inspection.

Applicant seeks authority to abandon:

(a) A portion of its 4-inch purchase lateral pipeline in Calcasieu Parish, Louisiana, known as the "Vinton Lateral", running from lateral milepost 0.00, which is the point of connection with the northernmost of Transco's two 30-inch main lines, in a southerly direction to lateral milepost 13.67.

(b) 3.76 miles of 4-inch purchase lateral pipeline in Acadia Parish, Louisiana, known as the "South Bayou Mallet Lateral", running from a point of connection with the 20-inch line of Transco's Central Louisiana Gathering System at lateral milepost 12.24, eastward to a terminus in the South Bayou Mallet Field.

The application reflects that the facilities proposed to be abandoned originally were utilized in taking into Transco's system natural gas purchased from independent producers in the respective fields in which such facilities are located. Deliveries of gas by means of the South Bayou Mallet facilities have now ceased due to exhaustion of reserves. Transco states the portion of the Vinton Lateral for which abandonment is sought is no longer needed because of the subsequent construction of parallel 12-inch and 20-inch laterals required for the transportation of large volumes of gas purchased elsewhere.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that preliminary staff analysis has indicated that there are no problems which would warrant a recommendation that the Commission designate this application for formal hearing before an examiner and that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing may be held without further notice before the Commission on this application provided no protest or petition to intervene is filed within the time required herein. Where a protest or petition for leave to intervene is timely filed, or where the Com-

mission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Protest or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 8, 1964.

Secretary.

## OFFICE OF EMERGENCY PLANNING

### ARKANSAS

#### Amendment to Notice of Major Disaster

Pursuant to the authority vested in me by the President under Executive Order 10427 of January 16, 1953, Executive Order 10737 of October 29, 1957, and Executive Order 11051 of September 27, 1962 (18 F.R. 407, 22 F.R. 8799, 27 F.R. 9683); Reorganization Plan No. 1 of 1958, Public Law 85-763, and Public Law 87-296; by virtue of the Act of September 30, 1950, entitled "An Act to authorize Federal assistance to States and local governments in major disasters, and for other purposes" (42 U.S.C. 1855-1855g), as amended; notice is hereby given of a declaration of "major disaster" by the President in his letter to me dated June 8, 1964, reading in part as follows:

I have determined the damage in various areas of the State of Arkansas caused by heavy rains and flooding in the period April 3-5, 1964, to be of sufficient severity and magnitude to warrant assistance by the Federal Government to supplement State and local efforts.

Therefore, I hereby amend my declaration of a "major disaster" in the State of Arkansas, dated March 24, 1964, to include such additional damage.

I do hereby determine the following counties in the State of Arkansas to have been adversely affected by the catastrophe declared a major disaster by the President in his amendment of June 8, 1964:

The counties of:

Chicot.	Lincoln.
Cleveland.	Lonoke.
Conway.	Marion.
Crawford.	Monroe.
Desha.	Perry.
