Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

[Valencia Orange Reg. 128]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.423 Valencia Orange Regulation 128.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in

order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 8, 1965.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., July 11, 1965, and ending at 12:01 a.m., P.s.t., July 18, 1965, are hereby fixed as follows:

- (i) District 1: 175,000 cartons;
 - (ii) District 2: 375,000 cartons;
 - (iii) District 3: Unlimited movement.
- (2) As used in this section, "handled," "handler," "District 1," "District 2," and "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: July 9, 1965.

[Lemon Reg. 168, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient,

and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b)(1)(ii) of § 910.468 (Lemon Regulation 168; 30 F.R. 8511) are hereby amended to read as follows:

§ 910.468 Lemon Regulation 168.

- (b) *Order.* (1) * * *

[Lemon Reg. 169]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.469 Lemon Regulation 169.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to

submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 6, 1965.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., July 11, 1965, and ending at 12:01 a.m., P.s.t., July 18, 1965, are hereby fixed as follows:

- (i) District 1: Unlimited movement;
- (ii) District 2: 379,000 cartons;
- (iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

[Bartlett Pear Reg. 1]

PART 917—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

Minimum Standards

§ 917.367 Bartlett Pear Regulation 1.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Bartlett Pear Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Bartlett pears, as hereinafter provided, will establish and maintain such minimum standards of quality and maturity and such grading and inspection requirements as will tend to effectuate such

orderly marketing of Bartlett pears as will be in the public interest, will tend to effectuate the declared policy of the act, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Bartlett Pear Commodity Committee on June 29, 1965; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; information concerning the committee's recommendation for regulation, including the effective time recommended, has been disseminated among handlers of such pears; the provisions of the act and this regulatory program authorize minimum standards of quality and maturity, as set forth herein, during periods when the seasonal average price to growers of the particular fruit will exceed the parity level specified in section 2(1) of the act; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth and at the commencement thereof, so as not to permit unrestricted shipment hereinafter of Bartlett pears, as such unrestricted shipments would not be conducive to the orderly marketing of such fruit as will be in the public interest and would not tend to effectuate the declared policy of the act; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a.m., P.s.t., July 11, 1965, and ending at 12:01 a.m., P.s.t., January 1, 1966, no shipper shall ship any box or container of Bartlett pears unless:

(i) All such pears grade not less than U.S. No. 2;

(ii) At least 75 percent, by count, of the pears contained in any box or container grade at least U.S. No. 1, except that such pears may fail to be fairly well formed only because of short shape but shall not be seriously misshapen; and

(iii) Such pears are of a size not smaller than the size known commercially as size 180.

(2) Section 917.143 of the rules and regulations, as amended (7 CFR 917.100 et seq.), sets forth the requirements with respect to the inspection and certification of shipments of Bartlett pears. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(c) *Definitions.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

(2) "Size known commercially as size 180" means a size Bartlett pear that will pack a standard pear box, packed in accordance with the specifications of a standard pack, with 5 tiers, each tier having 6 rows with 6 pears in each row, and with the 21 smallest pears weighing not less than 5 pounds.

(3) "Standard pear box" means the container so designated in section 828.3 of the Agricultural Code of California.

(4) "U.S. No. 1," "U.S. No. 2," "fairly well formed," "seriously misshapen," and "standard pack" shall have the same meaning as when used in the U.S. Standards for Pears (Summer and Fall), §§ 51.1260-51.1280 of this title.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: July 8, 1965.

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[Amdt. 1]

PART 1427—COTTON

Subpart—1965 Cotton Domestic Allotment Program Regulations

REQUIREMENTS FOR ELIGIBILITY AND EXTENSION OF FINAL DATE FOR FILING AGREEMENT

This amendment modifies the requirements for eligibility for the additional price support payments in § 1427.2008 by removing the tolerance by which the feed grain base on the applicable farm may be exceeded, so that these requirements will agree with the provisions of the 1965 Feed Grain Program Regulations.

This amendment also extends the final date for filing agreements to participate under the 1965 Cotton Domestic Allotment Program, in accordance with the

press releases previously issued by Commodity Credit Corporation announcing extensions of such date. The regulations issued by Commodity Credit Corporation and published in 30 F.R. 2592 as the 1965 Cotton Domestic Allotment Program Regulations are amended as follows:

1. Subparagraph (5) of § 1427.2008(b) is revised to read as follows:

§ 1427.2008 Requirements for eligibility.

(b) Farm requirements.

(5) If the 1965 farm domestic allotment for cotton for the farm is less than the 1965 effective farm acreage allotment for cotton, the 1965 farm feed grain acreage, as defined in the 1964 and 1965 Feed Grain Program Regulations, must not exceed the total farm feed grain base for the 1965 crop as defined in such regulations.

2. Section 1427.2009 is revised to read as follows:

§ 1427.2009 Intention to participate.

An Agreement to Participate and Application for Payment, Form ASCS-378, must be filed by April 16, 1965, with the office of the ASC county committee for each farm on which the domestic allotment is less than the effective allotment, except as follows:

(a) The final date for filing may be extended by the county committee if the operator establishes that his failure to file by April 16, 1965, was due to causes occurring without his fault or negligence: *Provided*, That such extension shall not be effective unless it is approved by the State committee representative: *And provided further*, That any extension for which the request is made after the start of normal planting in the area must be approved by the State committee.

(b) If a farm is reconstituted, any part of the farm acreage allotment is released, or released cotton allotment is reapportioned to the farm, and if the final domestic allotment for the farm is less than the final effective allotment, the farm operator will have 15 days after the date of the revised Form MQ-24—Upland Cotton or to April 16, 1965, whichever date is later, to file a new or revised Form ASCS-378. If a Form ASCS-378 was filed prior to the reconstitution, release, or reapportionment, such Form ASCS-378 shall be null and void.

(Secs. 4, 5, 62 Stat. 1070, as amended; secs. 103, 105, 106, 78 Stat. 173; secs. 101, 401, 63 Stat. 1051; 15 U.S.C. 714 b and c; 7 U.S.C. 1301, 1350, 1421, 1441, 1444)

Effective date. This amendment shall be effective upon filing with the Office of the Federal Register.

Signed at Washington, D.C., on July 6, 1965.

E. A. JAENKE,
Acting Executive Vice President,
Commodity Credit Corporation.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Airspace Docket No. 65-80-47]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Gainesville, Fla., control zone.

An extension to the Gainesville, Fla., control zone is presently designated within 2 miles each side of the Gainesville VOR 032° radial, extending from the 5-mile radius zone to the VOR. Because of a change in the VOR/DME instrument approach procedure for Gainesville Municipal Airport to be made effective on August 7, 1965, it is necessary to redesignate this extension on the Gainesville VOR 033° radial.

Since this change is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., August 7, 1965, as hereinafter set forth.

In § 71.171 (29 F.R. 17581) the Gainesville, Fla., control zone is altered by substituting "033" for "032".

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348(a))

Issued in East Point, Ga., on June 30, 1965.

Acting Director, Southern Region.

[Airspace Docket No. 63-AL-26]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Correction of Federal Register Document

On June 11, 1965, a rule (F.R. Document 65-6048) was published in the FEDERAL REGISTER (30 F.R. 7598) amending the terminal airspace configuration at Anchorage, Alaska. During publication, the FEDERAL REGISTER page references in Items 3 and 4 were transposed from 17583 to 14583. Accordingly, action is taken herein to correct this error.

Since this amendment is editorial in nature, compliance with section 4 of the Administrative Procedure Act is unnecessary, and the effective date of the final rule, as initially adopted, is retained.

In consideration of the foregoing, effective immediately, Federal Register Document 65-6048 (30 F.R. 7598) is corrected as hereinafter set forth.

In Item 3 the FEDERAL REGISTER reference is corrected to read "(29 F.R. 17583)".

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

SUBCHAPTER A—GENERAL

[CGFR 64-82]

PART 3—COAST GUARD DISTRICTS, MARINE INSPECTION ZONES, AND CAPTAIN OF THE PORT AREAS

Miscellaneous Amendments

The amendments to 33 CFR 3.10-55 through 3.10-95 and 3.40-55 through 3.40-85 revise the boundary descriptions of the Captain of the Port areas in the Second and Eighth Coast Guard Districts. The amendments to 33 CFR 3.25-10, 3.25-15, 3.25-20, 3.65-10, and 3.65-15 revise the boundary descriptions of the Marine Inspection Zones in the Fifth and Thirteenth Coast Guard Districts. The purpose of these amendments is to bring these descriptions up-to-date.

By virtue of the authority vested in me as Commandant, U.S. Coast Guard, by section 632 in Title 14, U.S. Code, and Treasury Department Orders 120 dated July 31, 1950, 15 F.R. 6521, and 167-17 dated June 29, 1955, 20 F.R. 4976, as well as the statutes cited with the regulations below, the following amendments are prescribed and shall be in effect on and after July 1, 1965:

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 8—Veterans Administration

PART 8-2—PROCUREMENT BY FORMAL ADVERTISING

PART 8-7—CONTRACT CLAUSES

Miscellaneous Amendments

1. In Part 8-2, § 8-2.201 is revised to read as follows:

§ 8-2.201 Preparation of invitations for bids.

(a) Invitations for bids for supplies, equipment or services will be serially numbered at the time of issuance. A new series beginning with the number 1 will be started at the beginning of each fiscal year. Bid invitations issued in one fiscal year to become effective in the ensuing fiscal year will be assigned a number from the ensuing fiscal year series.

(b) Invitations for construction contracts will bear the applicable specification number and project number if assigned. When no specification or project number is assigned, the invitation will

be assigned a number in the current fiscal year series as provided in paragraph (a) of this section.

(c) In order to preclude adverse criticism of the Veterans Administration by prospective bidders relative to disclosure of bid prices prior to bid opening, the following provision shall be prominently placed in all invitations to bid:

Caution to Bidders—Bid Envelopes

Bidders are requested to submit their bids in the envelope furnished with this invitation. However, when it is in the bidder's interest, he may use any other suitable envelope. It is the responsibility of each bidder to take all necessary precautions including the use of a proper mailing cover to ensure that his bid price cannot be ascertained by anyone prior to bid opening.

2. In Part 8-7, §§ 8-7.150-17, 8-7.150-18, and 8-7.150-19 are added to read as follows:

§ 8-7.150-17 Aggregate awards.

(a) When in the opinion of the Contracting Officer an award should be made in the aggregate in lieu of an item by item basis, the following will be used:

Aggregate Awards

It is contemplated that items No. ----- through ----- will be awarded in the aggregate, but the right is reserved to cancel any item or items after the bids are opened, before making an award. The entire group will be awarded to the bidder quoting the lowest price for the complete group. In the event no bid is received for all items in the group, award will be made to the lowest bidder quoting the lowest aggregate price for the greatest number of items in the group.

To provide a basis for award when no bids are received on the entire group, it will be necessary for each bidder to quote a unit price on each item on which he is bidding. However, bidders quoting on all items in a group may quote a total aggregate price which is equal to or less than the total of the unit prices quoted.

(b) Contracting Officers shall not include in any group, to be awarded in the aggregate, any item that is not available from more than one source of supply.

§ 8-7.150-18 Test and examination reports.

When it is determined by the Contracting Officer that an unusually long period of time will be required to secure test or examination reports, or that it is necessary to establish the exact date for discount consideration, the following clause will be used:

Test and Examination Reports

Paragraph 7, Standard Form 33A is amended as follows: Discounts offered for prompt payment will be computed from the date of acceptance by the Veterans Administration (whether delivery is f.o.b. point of origin or f.o.b. destination) or from the date the correct invoice or voucher is received in the office specified by the Veterans Administration, or from the date of receipt of the shipment whichever is later. Acceptance will be the date the Veterans Administration

receives satisfactory inspection or test report.

§ 8-7.150-19 Alternate items.

Bid invitations for supplies, equipment or services (other than construction) must define the extent to which alternate bids will be authorized and considered. Alternates specified on construction projects will be considered for acceptance only as a part of the basic item. Following are examples of situations and appropriate clauses for use when bids are allowed on alternate items.

(a) When alternate is to be considered only if no bids or insufficient bids are received on the item desired.

Alternate Item(s)

Bids on (acceptable alternate, item number, etc.) will be considered only if acceptable bids on (required item, item number, etc.) are not received or do not satisfy the total requirement.

(b) When alternate item will be considered on equal basis with the item specified.

Alternate Item(s)

Bids on (alternate item) will be given equal consideration along with the (desired item) and any such bids received may be accepted if to the advantage of the United States. The bids will be decided in favor of the (desired item).

(c) When bids will be allowed on different packaging, unit designation, etc., the following should be added to the clauses in paragraphs (a) and (b) of this section.

Alternate Packaging and Packing

The bidder's offer must clearly indicate the (quantity, package size, unit or other different feature) upon which he is quoting. Evaluation on (the alternate or multiple alternates) will be made on a (common denominator such as a per ounce, per pound, etc.) basis.

(Sec. 205(c), 63 Stat. 390, as amended, 40 U.S.C. 486(c); sec. 210(c), 72 Stat. 1114, 38 U.S.C. 210(c))

These regulations are effective July 15, 1965.

Approved: July 6, 1965.

- Sec. 20, W $\frac{1}{2}$, and W $\frac{1}{2}$ E $\frac{1}{2}$.

The areas described aggregate approximately 8,500 acres of public lands.

The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral and vegetative resources other than under the mining laws. However, leases, licenses, or permits will be issued only if the National Aeronautics and Space Administration finds that the proposed use of the lands will not interfere with the proper operation of its facilities on the lands.

CORK AND Balsa WOOD LIFE PRESERVERS

Withdrawal of Approvals

The cork and balsa wood life preservers manufactured in accordance with Specifications in 46 CFR Subpart 160.003 or 160.004 (Subchapter Q—Specifications) do not support the head nor provide the desired turning moment of the wearers under various conditions which may be encountered, as required by the standards for life preservers. Additionally, these types of life preservers do not meet satisfactorily the provisions in the International Convention for the Safety of Life at Sea, Chapter III, Regulation 22(c) (iv) and (v), which read: "It (life preserver) shall provide support to the head so that the face of an unconscious person is held above the water with the body inclined backwards from its vertical position. It shall be capable of turning the body, on entering the water, to a safe floating position with the body inclined backwards from its vertical position."

The Merchant Marine Council at a public hearing held March 23, 1965, considered this proposal to withdraw the approvals of cork and balsa wood life preservers in accordance with an announcement published in the FEDERAL REGISTER of January 27, 1965 (30 F.R. 837), and the Merchant Marine Council Public Hearing Agenda (CG-249, Item Xa, p. 94 and 95). The Council determined that the cork and balsa wood life preservers manufactured in accordance with specifications in 46 CFR Subpart 160.003 or 160.004 failed to meet the standards for all life preservers, and recommended that the approvals be withdrawn as of July 1, 1965, and that such life preservers bearing basic approval No. 160.003 or 160.004 shall not be considered as approved equipment meeting the requirements of the International Convention for the Safety of Life at Sea, 1960, for those passenger, cargo, and tank vessels constructed on or after May 26, 1965, which are engaged on international voyages and subject to all of the requirements of that Convention. The Council's determination and recommendation regarding cork and balsa wood life preservers are adopted.

In accordance with the procedures in 46 CFR 2.75-40 and 2.75-50, the manufacturers of cork and balsa wood life preservers were notified that the approvals of cork and balsa wood life preservers and the certificates of approval for such life preservers held by them are suspended and withdrawn as of July 1, 1965, and requested the surrender of outstanding certificates of approval.

The approvals of cork and balsa wood life preservers bearing basic approval No. 160.003 or 160.004 and the certificates of approvals therefor, which were granted in accordance with the specification regulations in 46 CFR Subpart 160.003 or 160.004 (Subchapter Q—Specifications), are withdrawn as of July 1, 1965. All cork and balsa wood life preservers manufactured and approved pursuant to effective requirements prior to July 1, 1965, may be placed in service or continued in use so long as such life preservers are serviceable and in good condition to the satisfaction of the Officer in Charge, Marine Inspection: *Provided, however,* That such life preservers bearing basic approval No. 160.003 or 160.004 shall not be considered as approved equipment meeting the requirements for those passenger, cargo, and tank vessels constructed on or after May 26, 1965, which are engaged on international voyages and subject to all of the requirements of the International Convention for the Safety of Life at Sea, 1960.

This withdrawal of approvals of cork and balsa wood life preservers is in accordance with the regulations in 46 CFR Ch. I which implement R.S. 4488, as amended, 4491, as amended, and sections 6 and 17 of the act of April 25, 1940, as amended (46 U.S.C. 481, 489, 526f, 526p). Other provisions of law which have been interpreted or applied may be identified as section 632 of Title 14, U.S. Code, R.S. 4405, as amended, 4462, as amended, 4426, as amended, and section 3 of the act of May 10, 1956 (46 U.S.C. 375, 416, 404, 390b). The delegations of authority to the Commandant, U.S. Coast Guard, regarding such actions are in Treasury Department Orders 120, July 31, 1950, 15 F.R. 6521; 167-20, June 18, 1956, 21 F.R. 4894; and 167-38, Oct. 26, 1959, 24 F.R. 8857.

FRESH PEACHES

Notice of Purchase Program GMP 96a

In order to encourage the domestic consumption of peaches by diverting them from the normal channels of trade and commerce in accordance with section 32, Public Law 320, 74th Congress, approved August 24, 1935, as amended, a fresh peach purchase program was made effective on July 2, 1965, in South-eastern States. Purchases will be made on an announced price basis as a surplus

removal activity. Peaches purchased under the program will be distributed to eligible schools and institutions. Details regarding price, container, and other program specifications are contained in purchase announcements issued by the Agricultural Stabilization and Conservation (ASC) Committees in these States. Quantities purchased will depend upon marketing conditions at the time of purchase, and availability of outlets for use of the peaches without waste. Information concerning this purchase program may be obtained from the Fruit and Vegetable Division, Consumer and Marketing Service, Department of Agriculture, Washington, D.C., 20250.

e. Administration of the International Sugar Agreement.

f. Administration of the International Wheat Agreement.

g. Special feed grain and wheat stabilization and diversion programs.

h. Price support programs, except the administration of section 32 of the Act of August 24, 1935 (7 U.S.C. 612c), as supplemented by Public Law 165, 75th

Congress (15 U.S.C. 713c) as assigned to Consumer and Marketing Service.

i. Procurement, handling, payment, and related services for section 32 purchase and export payment programs and for purchases under section 6 of the National School Lunch Act for the Consumer and Marketing Service.

j. Commodity domestic sales programs, and other commodity disposal programs except as assigned to Consumer and Marketing Service and Foreign Agricultural Service.

k. Supervision and direction of Agricultural Stabilization and Conservation Service State and County offices, and designation of functions to be performed by Agricultural Stabilization and Conservation State and County Committees.

l. Activities under the Strategic and Critical Materials Stockpiling Act (50 U.S.C. 98-98h), except as otherwise assigned in this title.

m. Commodity Credit Corporation functions assigned in accordance with Commodity Credit Corporation bylaws.

n. Soil Bank program authorized by Title 1 of the Agricultural Act of 1956, with assistance from other agencies of the Department, as otherwise assigned, in the conservation practices phase of the conservation reserve program.

o. Determination and proclamation of agricultural commodities in surplus supply pursuant to section 125 of the Agricultural Act of 1956 (7 U.S.C. 1813). Also, responsibility to serve as the focal point in the Department for consultation on matters relating to the leasing of federally owned farm lands to insure that such leases are consistent with the Government's farm program to reduce production of price-supported crops in surplus supply.

p. The programs authorized by sections 7-15, 16(a), 16(e), and 17 of the Soil Conservation and Domestic Allotment Act, as amended (16 U.S.C. 590g, et seq.) except the naval stores conservation program.

q. Functions relating to agreements under section 708 (7 U.S.C. 1787) of the National Wool Act of 1954, as amended (7 U.S.C. 1781-1787).

r. Responsibility for coordinating and preventing duplication of aerial photographic work of the Department, including: (1) Clearing of photography projects; (2) assigning symbols for new aerial photography, maintaining symbol records, and furnishing symbol books; (3) recording departmental aerial photography flown and coordinating the issuance of aerial photography status maps of latest coverage; (4) promoting interchange of technical information and techniques to develop lower costs and better quality; (5) representing the Department on the Interagency Committee on Sales Prices of Aerial Photographic Reproductions and serving as liaison with other governmental agencies on aerial photography and related activities including classification of departmental aerial photography but excluding mapping; and (6) serving as Chairman of the Photography Sales Committee of the Department.

s. Land stabilization, conservation, and erosion control program authorized by section 203 of the Appalachian Regional Development Act of 1965 (P.L. 89-4), with assistance from Soil Conservation Service as assigned.

II. Section 121 remains unchanged and continues to read as follows:

Sec. 121. *Reservations*—a. *Reservations to the Secretary.* (1) Designation of counties for Emergency Conservation Programs under P.L.'s 85-58, 85-170, and 85-766.

(2) Appointment of State ASC Committeemen.

(3) Recommendations to the President regarding the designation of areas of major disaster under Public Law 875, 81st Congress, and regarding designation of acute distress areas under section 407 of the Agricultural Act of 1949, as amended, because of unemployment or other economic causes; designation of boundaries within areas declared by the President to be major disaster areas or acute distress areas and the designation of areas under all the other programs specified in paragraph 120d; the execution of cooperative agreements with the State Governors and heads of other Federal agencies with respect to such programs; and final approval of allocation of funds and of national program regulations under paragraph 120d(3).

(4) Final approval of regulations under section 4 of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590d) and under section 8(b) of such act (16 U.S.C. 590h(b)) relating to the selection and exercise of the functions of committees.

(5) Under section 708 (7 U.S.C. 1787) of the National Wool Act of 1954, as amended (7 U.S.C. 1781-1787), entering into agreements with or approving agreements entered into between, marketing cooperatives, trade associations, or others engaged or whose members are engaged in the handling of wool, mohair, sheep, or goats or the products thereof. CIVIL SERVICE COMMISSION

FARM MANAGEMENT LOAN SERIES Minimum Educational Requirements for Positions

In accordance with section 5 of the Veterans' Preference Act of 1944, as amended, the Civil Service Commission

No. 132—3

has decided that previously approved minimum educational requirements for positions in the Farm Management Loan Series, GS-475, should be superseded by revised requirements. Identification of the superseded requirements, the revised requirements, the duties of the positions, and the reasons for the Commission's decision that these requirements are necessary are set forth below.

THE FARM MANAGEMENT LOAN SERIES, GS-475

(ALL POSITIONS)

Superseded requirements. The following material supersedes that previously appearing in 5 CFR 24.137 (published originally in 22 F.R. 9739, Dec. 6, 1957, as amended at 24 F.R. 6559, Aug. 13, 1959).

Minimum educational requirements. Applicants must have successfully completed one of the following:

A. A full 4-year course of study in an accredited college or university leading to a bachelor's or higher degree with major study in farm, livestock, or ranch management; agricultural economics; agricultural education; agronomy; animal, dairy, or poultry husbandry; agricultural engineering; general agriculture; horticulture; or other closely related fields of agriculture.

B. A total of at least 30 semester hours of course work in one or more of the agricultural fields listed in paragraph A above, plus sufficient additional education or experience of an appropriate nature to total 4 years of education or 4 years of education and experience. The quality of this additional education or experience must have been such that, when combined with the required 30 semester hours of course work, it gives the applicant a professional knowledge of agriculture comparable to that normally acquired through the successful completion of the full 4-year course of study described above in paragraph A.

Duties. Positions in this series involve professional work in the field of supervised agricultural credit in connection with the making and servicing of farm loans. This involves the application of a professional knowledge of the basic principles, concepts, and practices of farm management, farm credit, crop and livestock production, soil conservation, and water management to local conditions on a day-to-day basis; and the application of sound credit principles in the servicing of loans, the obtaining of security on loans, and the effecting of collections on accounts.

Reasons for establishing requirements. The duties of these positions cannot be performed successfully without a sound basic knowledge of the agricultural sciences, the scientific principles, concepts and methods which underlie the agricultural sciences, and scientific training in farm management. Appointees must have the ability to apply their professional and scientific knowledge to their work in order to solve specific problems. Interpret and apply the results of research, both in the field of farm management and in related fields of agriculture. The knowledge and training required can only be acquired through the success-

ful completion of a directed course of study in an accredited college or university which has scientific libraries, well-equipped laboratories, and thoroughly trained instructors, gives expert guidance, and evaluates progress competently.

[Docket No. 14006; FCC 65-578]

VHF TELEVISION CHANNELS

**Noncommercial Educational Use of
New York, N.Y., and Los Angeles,
Calif.**

Report and order. 1. This proceeding was initiated by notice of inquiry adopted March 29, 1961 (FCC 61-413), for the purpose of inquiring into the available means by which the Commission could enhance the opportunities for the provision of noncommercial educational television service in the New York and Los Angeles areas where no such service existed at that time and where no channels had been reserved for educational use. Comments were invited as to the methods by which one of the seven VHF channels at each of these areas could be duly made available for such service.

2. With regard to the New York area, after the institution of this proceeding, Educational Television for the Metropolitan Area, Inc. (ETMA) acquired Station WNDT, which operates on Channel 13 assigned to Newark, N.J. This station fully serves the metropolitan New York City area from its transmitter location atop the Empire State Building and its programing is predominantly of an educational nature.¹ Under the circumstances, the reservation of a VHF channel for the purpose of encouraging and expediting the institution of an educational television service in the New York area is unnecessary.

3. In the Los Angeles area the problem arose because the seven VHF channels which could be assigned to the area were all occupied by commercial stations prior to the Commission's policy of making reservations for noncommercial educational use.² Numerous Los Angeles-area educational interests filed comments herein supporting reservation of one of the seven VHF channels for educational use. These comments were filed in 1961, before the enactment of the all-channel receiver law (P.L. 87-529) in 1962. It now appears that the needs of the Los Angeles area for educational television service can be met by UHF assignments. A license for a UHF educational station (Station KCET) has already been granted. In our recent revision of the UHF Television Table of Assignments (4th Report and Order in Docket No. 14229, adopted June 4, 1965) we reserved a second UHF channel in Los Angeles. This is in line with the Commission's policy of providing two educational reservations in the larger cities. Accordingly, we are of the view that it is now unnecessary to alter the status of the VHF assignments in Los Angeles since the limit of educational reservations has been met.

¹ See Memorandum Opinion and Order In re Application of NTA Television Broadcasting Corp., released Oct. 26, 1961 (FCC 61-1281).

² The 7 commercial stations in Los Angeles commenced operation between January 1947 and September 1949. The 8th Report and Order reserving television channels for educational use was adopted Apr. 11, 1952, effective July 1, 1952.

4. In view of the foregoing, it is ordered, This 30th day of June 1965, that this proceeding is terminated.

Released: July 2, 1965.

FEDERAL POWER COMMISSION

[Docket No. CP65-419]

**NATURAL GAS PIPELINE CO. OF
AMERICA**

Notice of Application

JULY 2, 1965.

Take notice that on June 28, 1965, Natural Gas Pipeline Co. of America (Applicant), 122 South Michigan Avenue, Chicago, Ill., 60603, filed in Docket No. CP65-419 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of an additional 2,080 BHP of compressor horsepower at its Compressor Station No. 155 located in Wise County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the quantity of gas available to it in the Jack-Wise County area has increased by reason of additional gas purchase contracts and that reevaluation of estimates of reserves available under existing contracts has shown an increase in those reserves. Applicant further states that the reserves in this area have increased by 165,625 MMcf, specifically 143,139 MMcf by reason of revisions of reserve estimates under existing contracts and 22,486 MMcf by reason of new contracts and amendments to existing contracts dedicating additional acreage.

The proposal for the increased compressor horsepower is made in order to transport the new increased quantities of gas to Applicant's existing system.

The total estimated cost of the proposed facilities is \$394,000, which will be paid from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before July 30, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, and the Commission on its own review of the matter finds that a grant of the certificate is required by

the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

HUMBLE OIL & REFINING CO. ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates¹

JULY 1, 1965.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service heretofore authorized as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 23, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given: *Provided, however*, That pursuant to § 2.56, Part 2, Statement of General Policy and Interpretations, Chapter I of Title 18 of the Code of Federal Regulations, as amended, all permanent certificates of public convenience and necessity granting applications, filed after April 15, 1965, without further notice, will contain a condition precluding any filing of an increased rate at a price in excess of that designated for the particular area of production for the period prescribed therein unless at the time of filing such certificate application, or within the time fixed herein for the

filing of protests or petitions to intervene the Applicant indicates in writing that it is unwilling to accept such a condition. In the event Applicant is unwilling to accept such condition the application will be set for formal hearing.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

[Docket No. CP65-420]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

July 2, 1965.

Take notice that on June 28, 1965, Natural Gas Pipeline Co. of America (Applicant), 122 South Michigan Avenue, Chicago, Ill., 60603, filed in Docket No. CP65-420 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities for the sale of gas to Illinois Power Co. (Illinois) for resale, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant proposes to construct and operate one 2-inch side tap, approximately 200 feet of 3-inch lateral and a meter station all in Washington County, Ill., for the sale and delivery of natural gas to Illinois for resale and distribution in the village of Hoyleton, Washington County, Ill.

The application states that Illinois, an existing customer of Applicant, proposes to provide natural gas service for Hoyleton from the quantity of gas which Applicant has heretofore been authorized to sell and deliver to Illinois.

The estimated cost of the proposed construction is \$9,530, which will be financed with funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Com-

mission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before July 30, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, and the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

J. H. GUTRIDE,
Secretary.

NORTHERN NATURAL GAS CO.

Notice of Application

JULY 2, 1965.

Take notice that on June 25, 1965, Northern Natural Gas Co. (Applicant), 2223 Dodge Street, Omaha 2, Nebr., filed in Docket No. CP65-415 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the service of up to 420 Mcf per day of firm gas to General Appliance Manufacturing Co. (General), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The Metropolitan Utilities District (Metropolitan), Omaha, Nebr., has requested Applicant to provide firm service for General to be used in General's new plant under construction at Omaha. General will manufacture lawn mowers. Firm gas will be used at the plant for heating, degreasing and paint drying.

The contract demand of 420 Mcf per day will be supplied from the existing contract of Metropolitan with Applicant. No interruptible volumes are proposed to be sold. No new facilities will be constructed by Applicant to provide the proposed service.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before July 29, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Com-

mission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, and the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. RI65-652]

SHELL OIL CO.

Order Permitting Rate Filing, Providing for Hearing on and Suspension of Proposed Change in Rate

JULY 1, 1965.

On June 1, 1965, Shell Oil Co. (Shell)¹ tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated May 28, 1965.

Purchaser and producing area: Tennessee Gas Transmission Co. (Chaikey Field, Cameron Parish, La.) (South Louisiana).

Rate schedule designation: Supplement No. 2 to Shell's FPC Gas Rate Schedule No. 263.

Effective date: July 2, 1965.²

Amount of annual increase: \$57,792.

Effective rate: 21.25 cents per Mcf.³

Proposed rate: 22.8333 cents per Mcf.⁴

Pressure base: 15.025 p.s.i.a.

Shell's proposed rate increase from 21.25 to 22.8333 cents per Mcf, is from a conditioned initial rate, being the initial service ceiling for the area, to the initial rate level provided for in the contract. The sale was initially made under a temporary certificate conditioned as to the initial rate with a proviso that such rate could not be changed unless otherwise ordered by the Commission in the related certificate proceeding in Docket No. CI62-625. Such proviso comprises Condition (2) of the temporary certificate authorization. In certain instances the Commission has in the past waived Condition (2) of a temporary certificate authorization and permitted the filing of

² The stated effective date is the 1st day after expiration of the required statutory notice.

³ Conditioned initial rate. Initial rate ceiling inclusive of tax reimbursement.

⁴ Increase in rate to contractually provided initial rate.

⁵ Includes 1.5 cents per Mcf tax reimbursement.

a rate increase involving sales for which a permanent certificate has not been issued within 3 years from the date of initial delivery.

Shell's certificate application in Docket No. CI62-625 was consolidated for formal hearing in the South Louisiana "in-line" certificate proceeding and by order issued July 23, 1964, in Opinion No. 436, Union Texas Petroleum, et al., Docket Nos. G-13221, et al., the Commission issued a permanent certificate conditioned to a total initial rate of 20.0 cents per Mcf for the subject sale. However, by order issued October 8, 1964, in Opinion No. 436-A, the Commission, among other things, stayed the effectiveness of the rate reduction requirements of Opinion No. 436 for a period of 30 days after conclusion of judicial review of Opinion No. 436, or until such order otherwise becomes final. Consistent therewith, Shell did not reduce its rate for this sale but continued to sell such gas at the conditioned rate authorized in the temporary certificate in Docket No. CI62-625.

Since more than 3 years have elapsed from the date Shell initiated service under its temporary certificate authorization, we believe that Condition (2) of the related temporary certificate issued January 17, 1962, in Docket No. CI62-625, should be waived in order to permit Shell's proposed notice of change in rate to be filed as hereinafter ordered. The proposed rate of 22.8333 cents per Mcf exceeds the area increased ceiling level of 14.0 cents per Mcf as set forth in the Commission's Statement of General Policy No. 61-1, as amended, and should be suspended.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) Good cause exists for waiving Condition (2) in the temporary certificate issued in Docket No. CI62-625 with respect to Shell's notice of change, designated as Supplement No. 2 to Shell's FPC Gas Rate Schedule No. 263, and that such notice of change be permitted to be filed as hereinafter ordered.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed change, and that Supplement No. 2 to Shell's FPC Gas Rate Schedule No. 263 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Condition (2) in the temporary certificate issued in Docket No. CI62-625 is hereby waived with respect to Shell's notice of change, designated as Supplement No. 2 to Shell's FPC Gas Rate Schedule No. 263, and such rate change is hereby permitted to be filed.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing shall be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge

contained in Supplement No. 2 to Shell's FPC Gas Rate Schedule No. 263.

(C) Pending such hearing and decision thereon, Supplement No. 2 to Shell's FPC Gas Rate Schedule No. 263 is hereby suspended and the use thereof deferred until December 2, 1965, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(D) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or will until the period of suspension has expired, unless otherwise ordered by the Commission.

(E) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before August 16, 1965.

By the Commission.

TEXAS GAS TRANSMISSION CORP.

Notice of Application

JULY 2, 1965.

Take notice that on June 25, 1965, Texas Gas Transmission Corp. (Applicant), Post Office Box 1160, Owensboro, Ky., 42301, filed in Docket No. CP65-416 an application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(d) of the regulations under the Act, for a certificate of public convenience and necessity authorizing the construction and operation of facilities which may be necessary to enable Applicant to define, develop and/or test prospective gas storage reservoirs during the 36-month period following August 28, 1965,¹ at a total cost not to exceed \$3,000,000 for the three-year period, or \$1,000,000 for any one-year period, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The application states that the total volumes of natural gas to be injected into the prospective underground storage projects during the three-year period will not exceed 10,000,000 Mcf with not more than 2,000,000 Mcf injected in any single project. Only off-peak gas is proposed for the testing purposes. No new sales or service is proposed.

The construction costs are to be paid out of funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before July 29, 1965.

¹ Applicant's presently effective storage budget certificate authorization expires August 28, 1965, having been issued in Docket No. CP64-266 on Aug. 28, 1964.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, and the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP65-421]

UNITED NATURAL GAS CO. AND PENNSYLVANIA GAS CO.

Notice of Application

JULY 2, 1965.

Take notice that on June 28, 1965, United Natural Gas Co. (United), 308 Seneca Street, Oil City, Pa., 16301, and Pennsylvania Gas Co., (Pennsylvania), 213 Second Avenue, Warren, Pa., 16365, filed in Docket No. CP65-421 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas pursuant to the terms of an agreement between them dated June 23, 1965, and authorizing the construction and operation of certain facilities for this purpose, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants seek authorization for the exchange of natural gas on a regular basis during the months of May through October, inclusive, by means of an existing interconnection between their systems near Pennsylvania's Sackett Compressor Station in Highland Township, Elk County, Pa., and an interconnection proposed to be constructed near Youngsville, Pa. The Youngsville connection will require the construction and operation by United of approximately 2.5 miles of 6-inch transmission line, estimated to cost \$71,790, and the construction and operation by Pennsylvania of a metering station and flow controllers estimated to cost \$10,560. Both companies propose to finance the construction from cash on hand.

It is proposed that the maximum volume of gas to be exchanged on any day will not exceed 6,000 Mcf. The application states that the exchange will enable United to improve its supply of gas to its Youngsville and Irvine distribution markets, relieve Pennsylvania of the cost of transporting gas approximately

20 miles to its underground storage facilities and enable either company to assist the other in the event of an emergency requiring such assistance.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before July 30, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, and the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GENERAL SERVICES ADMINISTRATION

DIAMOND DIES AND BISMUTH ALLOYS HELD IN THE NATIONAL STOCKPILE

Proposed Disposition

Pursuant to the provisions of section 3(e) of the Strategic and Critical Materials Stock Piling Act, 50 U.S.C. 98b(e), notice is hereby given of the proposed disposition of approximately 8,374 pieces of subgrade small diamond dies and approximately 36,580 pounds of nonstockpile grade bismuth alloys now held in the national stockpile.

These quantities of diamond dies and bismuth alloys are excess to the needs of the stockpile as a result of revised determinations, made by the Office of Emergency Planning pursuant to section 2 of the Strategic and Critical Materials Stock Piling Act, 50 U.S.C. 98a, with respect to the quantities of such materials to be stockpiled.

Since the revised determinations were not by reason of obsolescence of the materials for use in time of war, these proposed dispositions are being referred to the Congress for its express approval as required by section 3(e) of the Strategic and Critical Materials Stock Piling Act.

General Services Administration proposes to make said diamond dies and bismuth alloys available for transfer to other Government agencies, for sale on a competitive basis, or for disposition in such other manner as may be in the best interest of the Government. The materials will be offered for disposal upon the express approval by the Congress of these proposed dispositions, but not prior to the expiration of 6 months after the date of publication of this notice in the FEDERAL REGISTER.

The plans and dates of disposition have been fixed with due regard to the protection of producers, processors, and consumers against avoidable disruption of their usual markets, as well as the protection of the United States against avoidable loss.

Dated: June 30, 1965.

WALKIE-TALKIE UNITS

Notice of Complaint Received

The U.S. Tariff Commission hereby gives notice of the receipt on June 11, 1965, of a complaint under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), filed by the Electro Solids Corp. of Los Angeles, Calif., alleging unfair methods of competition and unfair acts in the importation and sale of certain walkie-talkie units incorporating superregenerative detector circuits.

In accordance with the provisions of § 203.3 of its rules of practice and procedure (19 CFR 203.3), the Commission has initiated a preliminary inquiry into the allegations of the complaint for the purpose of determining whether there is good and sufficient reason for a full investigation, and, if so, whether the Commission should recommend to the President the issuance of a temporary order of exclusion from entry under section 337(f) of the Tariff Act.

A copy of the complaint is available for public inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, D.C., and at the New York office of the Tariff Commission, located in Room 437 of the Customhouse.

PUBLIC PAPERS OF THE PRESIDENTS OF THE UNITED STATES

John F. Kennedy, 1963

Contains verbatim transcripts of the President's news conferences and speeches and full texts of messages to Congress and other materials released by the White House during the period January 1–November 22, 1963.

Among the 478 items in the book are: special messages to the Congress on education, youth conservation, needs of the Nation's senior citizens, and on improving the Nation's health; radio and television addresses to the American people on civil rights and on the nuclear test ban treaty and the tax reduction bill; joint statements with leaders of foreign governments; and the President's final remarks at the breakfast of the Fort Worth Chamber of Commerce. Also included is the text of two addresses which the President had planned to deliver on the day of his assassination; President Johnson's proclamation designating November 25 a national day of mourning; and remarks at the White House ceremony in which President Kennedy was posthumously awarded the Presidential Medal of Freedom.

A valuable reference source for scholars, reporters of current affairs and the events of history, historians, librarians, and Government officials.
