### Chapter I—Consumer and Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

#### PART 53—LIVESTOCK, MEATS, PREPARED MEATS, AND MEAT PRODUCTS (GRADING, CERTIFICATION, AND STANDARDS)

##### Change of Agency Name

Pursuant to the order of the Secretary of Agriculture dated February 8, 1965 (30 F.R. 2160), changing the name of the Agricultural Marketing Service to the Consumer and Marketing Service, and pursuant to the provisions of section 205 of the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1624), §§ 53.1 (d), (e), (f), and (jj), 53.6(a) (2) (iv), 53.8(c) (1) and (2), 53.11, 53.29(b), 53.30, and 53.31 of the regulations (7 CFR 53.1 (d), (e), (f), and (jj), 53.6(a) (2) (iv), 53.8(c) (1) and (2), 53.11, 53.29(b), 53.30, and 53.31) issued under said Act are each hereby amended by changing the term "Agricultural Marketing Service" wherever it appears in said sections to "Consumer and Marketing Service."

*Statement of considerations.* These amendments are of an organizational nature. They merely reflect the change in name of the agency which administers the Agricultural Marketing Act of 1946

and make no substantive change in the regulations. It is found under section 4 of the Administrative Procedure Act (5 U.S.C. 1003) that notice and other public procedure regarding the amendments are unnecessary, and good cause is found for making the amendments effective in less than 30 days after publication thereof in the FEDERAL REGISTER.

These amendments shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624; 29 F.R. 16210; 30 F.R. 1260, 2160)

Done at Washington, D.C., this 19th day of August 1965.

### Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 174, Amdt. 1]

#### PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

##### Limitation of Handling

*Findings.* 1. Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such lemons as will provide, in the interest of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this

amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of lemons grown in California and Arizona.

*Order, as amended.* The provisions in paragraph (b) (1) (ii) of § 910.474 (Lemon Reg. 174, 30 F.R. 10154) are hereby amended to read as follows:

§ 910.474 Lemon Regulation 174.

- (b) Order. (1) . . . . .
- (ii) District 2: 302,250 cartons.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: August 19, 1965.

PAUL A. NICHOLSON,  
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

**AUTHORITY:** The provisions of this Subpart A issued under sec. 5(f) 62 Stat. 1072, 15 U.S.C. 714c; Sec. 407, 63 Stat. 1055 as amended, 7 U.S.C. 1427.

## § 1488.1 General statement.

(a) The regulations contained in this Subpart A supersede Announcement GSM-3 and set forth the terms and conditions governing the financing of certain agricultural commodities for export under the CCC Export Credit Sales Program. The maximum credit period shall be 3 years.

(b) Credit arrangements for eligible commodities may be made through the General Sales Manager's Office, Foreign Agricultural Service, Washington, D.C., 20250.

(c) An application requesting a credit arrangement may be submitted to the General Sales Manager, and upon issuance of a credit approval the applicant may, but will not be obligated to make purchases of eligible commodities or shipments of private stocks in accordance with such credit arrangement.

(d) Exporters may acquire the commodities from CCC inventories (including tobacco under CCC loan) for exportation hereunder or may elect to export commodities from private stocks even though the commodity is available from CCC inventory (or in the case of tobacco, under CCC loan). In the event an exporter elects to export from private stocks, CCC will issue to the exporter an Export Commodity Certificate (Form CCC-341) in a dollar amount equal to the port value for commodities exported from private stocks. Such certificate may be transferred and may be used in the purchase of commodities for export pursuant to the terms and conditions of announcements issued by Commodity Credit Corporation providing for the redemption of such certificates.

(e) If the exporter desires issuance of a certificate prior to exportation of private stocks, the appropriate Agricultural Stabilization and Conservation Office will issue such certificate for an amount representing the port value of the private stocks to be exported upon receipt of CCC will consent to cancellation of credit issued or confirmed by a bank in the United States in the amount of 110 percent of the value of the certificate. The exporter will be required to submit acceptable evidence of export and port value and an acceptable bank obligation covering the credit arrangement within 30 days from the date of issuance of the advance certificate. Upon receipt thereof CCC will consent to cancellation of the letter of credit.

(f) The provisions of Public Law 83-664 are not applicable to export shipments under this program.

### § 1488.2 Definition of terms.

Terms used in this subpart are defined as follows:

(a) "CCC" shall mean the Commodity Credit Corporation, U.S. Department of Agriculture.

(b) "ASCS Office" shall mean the designated office of the Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture.

(c) "FAS" shall mean the Foreign Agricultural Service, U.S. Department of Agriculture.

(d) "Credit arrangement" shall mean and include the terms and conditions of the regulations of this subpart and any amendments thereto, the exporter's application for, and the issuance of a credit approval by the General Sales Manager.

(e) "Eligible commodities" shall mean those agricultural commodities which are produced in the United States and which are designated as eligible for export under this credit sales program either in the CCC Monthly Sales List or other announcement by CCC in effect for the calendar month in which an application for credit approval is submitted pursuant to § 1488.3.

(f) "Private stocks" shall mean those quantities of an eligible commodity which have not been acquired by the exporter, or any of his predecessors in title, from stocks owned by CCC or from stocks of tobacco under loan to CCC unless such quantities were acquired from such stocks under a contract, regulation, or announcement (1) which does not restrict the use or disposition of the commodity or (2) which requires the commodity so acquired or a substitute commodity to be exported and the substitute commodity has been or will be exported as so required. Such substitute commodities shall not be considered private stocks.

(g) "Eligible destination" shall mean the country which is named in the CCC credit arrangement and which meets the licensing requirements of the U.S. Department of Commerce.

(h) "Certificate" shall mean an Export Commodity Certificate, Form CCC-341.

(i) "Port value" shall mean the sales price of the commodity f.a.s. or f.o.b. export carrier at U.S. ports, at U.S. border points of exit, or, if transhipped through Canada via the Great Lakes, at ports on the St. Lawrence River, for shipment from private stocks to be exported under this program. In the case of c&f and cif sales the port value shall not include the ocean freight and marine insurance.

(j) "Purchase price" shall mean the value of the commodities obtained from CCC to be applied to the credit arrangement as determined by CCC or as provided under the applicable commodity export sales announcement.

(k) "Principal amount" shall mean the purchase price of the commodities obtained from CCC or the port value in the case of private stocks.

(l) "Bank obligation" shall mean an obligation of a bank in the United States to pay the principal amount plus interest upon expiration of the credit period if payment is not received from other

sources and shall be in the form of (1) an irrevocable letter of credit issued or confirmed by such bank obligating the bank to pay sight drafts drawn by CCC, (2) an irrevocable letter of credit issued or confirmed by such bank obligating it to accept time drafts drawn by CCC, (3) a note or time draft drawn for the principal amount plus interest payable at maturity, executed or drawn by any party to the transaction and endorsed or accepted by such bank, or (4) any other document which constitutes a firm obligation of such bank.

(m) "Monthly Sales List" shall mean the CCC Monthly Sales List which is published monthly in the FEDERAL REGISTER.

(n) "United States" shall mean the 50 States, the District of Columbia, and Puerto Rico.

(o) "Credit period" shall mean the number of months as stated in the credit approval. Such period shall start on the date of delivery (or weighted average delivery date) of commodities purchased from CCC or the date of issuance of a certificate by CCC for export from private stocks.

(p) "Credit approval" shall mean the document signed by the General Sales Manager approving the credit arrangement.

### § 1488.3 Submission of applications.

(a) Applications for credit approvals with respect to financing exports of eligible commodities shall be submitted by eligible exporters in writing to the General Sales Manager, Foreign Agricultural Service, U.S. Department of Agriculture, Washington, D.C., 20250. An exporter to be eligible must be a person regularly engaged in the business of buying or selling commodities and for this purpose shall maintain a bona fide business office in the United States, its territories or possessions, and having a person, principal, or resident agent upon whom service of judicial process may be had.

(b) Each application shall refer to GSM-3, Revision I and such reference shall have the effect of incorporating in the application all the terms and conditions of GSM-3, Revision I. The following information shall be included in the exporter's application:

(1) The name of the commodity or commodities to be exported, the class, grade, quality, as applicable, and quantity.

(2) Country of destination.

(3) The approximate principal amount of the commodities to be exported.

(4) Length of credit period requested.

(5) A statement that an acceptable assurance of payment from a bank in the United States will be submitted assuring payment of the obligation under the credit arrangement.

(c) If the General Sales Manager requires additional information, the applicant will be so advised. The General Sales Manager reserves the right to reject any and all applications.

### § 1488.4 Interest.

CCC will announce in the Monthly Sales List the interest rate applicable

under this program. Each credit approval shall specify the applicable interest rate. The specified interest rate shall be effective for purchases from CCC and exports from private stocks within the periods specified in § 1488.6. Such interest shall run on the principal amount due from the date of each delivery (or the weighted average delivery date) to the exporter of commodities acquired from CCC including tobacco under CCC loan, or in the case of export from private stocks, the date of issuance by CCC of the certificate, to the date of payment to CCC, and shall be paid together with the principal amount on the day following the expiration of the credit period unless prior payment is made.

### § 1488.5 Special conditions applicable to cotton exported from private stocks.

(a) Upland cotton exported from private stocks hereunder shall be "eligible cotton" as defined in § 1427.1952(a) of the 1964-66 Cotton Equalization Program—Payment-in-Kind Regulations, as amended (7 CFR 1427.1950-1427.1973), and the evidence of exportation of such cotton shall meet the requirements set forth in § 1427.1967(b) of such regulations for satisfactory evidence of exportation of cotton under the 1964-66 Cotton Equalization Program.

(b) Extra long staple cotton exported from private stocks hereunder shall meet the requirements of the first paragraph of subsection A, Exportation of Cotton, of section II, Export Conditions, of the Extra Long Staple Cotton Export Program (Announcement CN-EX-22); and the evidence of exportation of such cotton shall meet the requirements of subsection D, Satisfactory Evidence of Exportation, of such section II of Announcement CN-EX-22.

### § 1488.6 Expiration of period for purchases from CCC or exports from private stocks.

Each credit approval will provide for one or both of the following periods, except as may otherwise be provided by CCC when the exporter submits acceptable evidence of a firm contract requiring export deliveries which necessitate a longer period of time beyond those specified in paragraph (a) or (b) of this section:

(a) A maximum period of 90 days from the date of the credit approval for purchases from CCC, including purchase of tobacco under loan.

(b) A maximum period of 120 days from the date of the credit approval for export of private stocks (date of export shall be the on-board date of the ocean bill of lading or date of entry if exported by rail or truck).

### § 1488.7 Advance payment.

If the exporter receives payment, in whole or in part, from or on behalf of the foreign importer of the principal amount of the commodities exported under the credit arrangement prior to maturity of the credit period, he shall remit promptly to CCC such payment received plus interest for the actual credit period utilized.

**§ 1488.8 Purchases of commodities from CCC inventory and tobacco under CCC loan.**

Eligible commodities that are available from CCC inventory and tobacco under CCC loan will be sold in accordance with the terms and conditions of the applicable commodity export sales announcement, issued by Commodity Credit Corporation, including the requirements therein for evidence of export. The ASCS Offices which are responsible for export sales of CCC-owned commodities are listed in the Monthly Sales List. Tobacco under loan may be acquired from tobacco associations designated in the CCC export sales announcement. In submitting an offer to purchase a commodity under an approved credit arrangement, the exporter shall furnish the applicable ASCS Office or tobacco association the credit approval number. The exporter shall submit to the ASCS Office from which deliveries of commodities purchased from CCC have or will be received (or the Fiscal Division, ASCS, U.S. Department of Agriculture, Washington, D.C., 20250, in the case of tobacco under CCC loan), in such form and by such bank as may be acceptable to CCC, a bank obligation to pay the principal amount plus interest thereon on the date following the expiration of the credit period in the event payment thereof from other sources has not been received by CCC. The exporter shall pay to CCC at the applicable ASCS Office promptly upon demand dollar amounts which represent any adjustment in the purchase price made pursuant to the CCC export sales announcement for failure to export, damages if any, and any other amounts which are due and payable to CCC under such announcement. These items are not part of the credit arrangement.

**§ 1488.9 Issuance of certificates in advance of exportation of private stocks.**

(a) If the exporter desires issuance of a certificate prior to export of private stocks, he shall submit a written application to the appropriate ASCS Office listed in § 1488.11. Each application shall include:

- (1) The credit approval number.
- (2) The value of the certificate desired.
- (3) The estimated port value.

(b) Each application shall be accompanied by an acceptable irrevocable letter of credit issued or confirmed by a bank in the United States in the amount of 110 percent of such estimated port value.

(c) Upon receipt of the application and letter of credit, the ASCS Office will issue to the exporter a certificate for the amount of the estimated port value or the value of the certificate desired, whichever is less. Within 30 days from the date of issuance of the advance certificate the exporter shall submit to the appropriate ASCS Office the documents, including the bank obligation, itemized in paragraphs (b), (c), and (d) of § 1488.10. CCC will consent to can-

cellation of the letter of credit specified above in this section upon timely receipt of the documents, including the bank obligation, itemized in paragraphs (b), (c), and (d) of § 1488.10 provided the port value of the private stocks exported is equal to or exceeds the amount of the certificate. If the port value of private stocks exported exceeds the amount of the certificate issued but does not exceed 110 percent of the amount of the credit approval and any amendments thereof, the ASCS Office will issue another certificate for the dollar value of such excess. If the port value is less than the amount of the certificate, the exporter shall at the time of submission of the documents itemized in paragraphs (b), (c), and (d) of § 1488.10, remit in dollars to CCC the amount of such deficiency plus interest from the date of issuance of the certificate to the date of payment at the rate provided in the credit approval. If such remittance is not received by the appropriate ASCS Office, CCC will draw on the letter of credit covering the certificate for the amount of the deficiency plus interest before consenting to cancellation of the balance of the letter of credit. If the exporter fails to present the required documents within 30 days and an extension is not granted by CCC, CCC will draw on the letter of credit for 110 percent of the amount of the certificate issued (and this shall represent full compensation to CCC), and the credit arrangement shall thereupon be void.

**§ 1488.10 Issuance of certificates after export of private stocks.**

If an exporter has not received a certificate in advance of the exportation of commodities from private stocks, the exporter shall, within 30 days after exportation of private stocks under a credit arrangement, submit the following documents to the appropriate ASCS Office as listed in § 1488.11:

(a) A written application for a certificate showing the credit approval number and the port value of the commodity exported.

(b) A copy of the sales invoice to the foreign importer.

(c) A copy of the document evidencing export as provided under § 1488.5 in the case of cotton and under § 1488.12 in the case of other commodities.

(d) A bank obligation, in such form and by such bank as may be acceptable to CCC, covering the credit arrangement.

Upon timely receipt of the application and required documents, the ASCS Office will issue to the exporter a certificate in the amount of such port value, not to exceed 110 percent of the amount of the credit approval, as amended. If an acceptable application for a certificate and the required documents have not been received within 30 days from date of exportation of private stocks, the credit arrangement shall be void.

**§ 1488.11 ASCS offices responsible for issuing certificates.**

Export Commodity Certificate (Form CCC-341) will be issued by ASCS Offices

under approved credit arrangements as follows:

Kansas City Agricultural Stabilization and Conservation Service Commodity Office, 8930 Ward Parkway, Post Office Box 205, Kansas City, Mo., 64141, Telephone: Emerson 1-0860; Grain, rice, wheat flour, bulgur, cornmeal, and related commodities.

Minneapolis Agricultural Stabilization and Conservation Service Commodity Office, 6400 France Avenue, South, Minneapolis, Minn., 55410, Telephone: 334-3200; Cottonseed oil, soybean oil, and processed commodities.

New Orleans Agricultural Stabilization and Conservation Service Commodity Office, Wirth Building, 120 Marais Street, New Orleans, La., 70112, Telephone: 527-7766; Cotton.

Fiscal Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C., 20250, Telephone: DU 8-4042; Tobacco.

**§ 1488.12 Evidence of export of private stocks and warranty.**

(a) If the commodity is cotton, the evidence of exportation shall be as provided under § 1488.5.

(b) If the commodity is other than cotton and is exported by rail or truck, the exporter shall furnish a copy of the bill of lading, certified to by the exporter as being a true copy, under which the commodity is exported and an authenticated landing certificate or similar document issued by an official of the Government of the country to which the commodity is exported, showing the quantity, the place and date of entry, the gross landed weight of the commodity, and the name and address of both the exporter who exported the commodity from the United States and the importer to whom it is shipped.

(c) If the commodity is other than cotton and is exported by ocean carrier, the exporter shall furnish a non-negotiable copy of either (1) an on-board ocean bill of lading, (2) an ocean bill of lading with an on-board endorsement dated and signed or initialed on behalf of the carrier, or (3) a port or custody bill of lading with on-board endorsement. In the event that the exporter is unable to supply documentary evidence of export as specified in the above provisions he shall submit such other documentary evidence as may be acceptable to the applicable ASCS Office. The bill of lading must be certified to by the exporter as being a true copy and must show the quantity, the date, and place of loading the commodity, the name of the vessel, the destination of the commodity, and the name and address of both the exporter who exported the commodity and the importer to whom it is shipped.

(d) By submitting documents evidencing exportation the exporter represents and warrants that the commodity covered by such documents was not exported to, and has not and will not be transshipped or caused to be transshipped by the exporter to, any country or area for which an export license is required under the regulations issued by the Bureau of International Commerce, U.S. Department of Commerce, unless a license for

such exportation or transshipment thereto has been obtained from such Bureau.<sup>1</sup>

(e) In the case of commodities transhipped through Canada via Great Lakes, the exporter shall also furnish a certificate that the commodity transhipped was produced in the United States.

**§ 1488.13 Evidence of entry into country of destination.**

In the case of a credit arrangement involving a credit period in excess of 6 months, the exporter, within ninety (90) days, or such extension of time as may be granted by the General Sales Manager in writing, following shipment from the United States of any agricultural commodity exported under the approved credit arrangement, shall furnish the General Sales Manager with documentary evidence satisfactory to the General Sales Manager of customs entry of the commodity into the country of destination specified in the approved credit arrangement. A certificate signed or authenticated by a customs official of the country of destination stationed in such country shall be satisfactory if it (a) identifies the agricultural commodity (or permits identification through supplementary documents which are furnished the General Sales Manager) as that exported under the credit arrangement, (b) states the quantity of such commodity entered and (c) states the date of entry. If the certificate is in other than the English language, the exporter also shall provide the General Sales Manager with an English translation thereof. The exporter must also within the above specified time period, except for cotton, furnish the General Sales Manager with copies of all applicable bills of lading properly identified as to the credit approval number. In the event such evidence is not furnished within the time specified, the credit arrangement may be terminated by the General Sales Manager and upon such termination if payment for such commodity has not previously been made, the principal amount plus interest shall, upon demand, become due and payable. The remedy herein provided shall not be exclusive of other rights available to the Federal Government as a result of the entry of a commodity which was exported under a credit arrangement into a country other than that specified in the credit arrangement.

**§ 1488.14 Liability for payment.**

Except as provided in § 1488.7, if the bank obligation submitted in accordance with §§ 1488.8, 1488.9, and 1488.10 is an irrevocable letter of credit issued by the bank and if exportation is made within the coverage of such bank obligation, CCC will look solely to such bank obligation for payment at maturity of the prin-

cipal amount, plus interest, due under the credit arrangement, but the exporter shall remain liable for any amounts not covered by the bank obligation which are owing to CCC and for any remittance required by § 1488.7. CCC shall pay to the exporter the amount, if any, by which the amounts accepted by CCC are in excess of the amounts due CCC.

**§ 1488.15 Assignment.**

The exporter shall not assign any claim or rights to any amounts payable under the credit arrangement, in whole or in part without written approval of CCC.

**§ 1488.16 Covenant against contingent fees.**

The exporter warrants that no person or selling agency has been employed or retained to solicit or secure the credit arrangement upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona fide employees or bona fide established commercial or selling agencies maintained by the exporter for the purpose of securing business. For breach or violation of this warranty, CCC shall have the right to annul the credit arrangement without liability to CCC.

**§ 1488.17 Shipment of commodities on vessels calling at Cuban ports.**

Any commodity exported under a CCC credit arrangement shall not be shipped from the United States on a vessel which has called at a Cuban port on or after January 1, 1963.

**§ 1488.18 Officials not to benefit.**

No member of or delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of the credit arrangement or to any benefit that may arise therefrom, but this provision shall not be construed to extend to the credit arrangement if made with a corporation for its general benefit.

**§ 1488.19 Non-use of Government financing.**

(a) The exporter warrants that neither he nor any other person or firm which exports or sells for export the agricultural commodities eligible for export financing under this program will accept in payment for such agricultural commodities funds made available by the U.S. Government, or any agency thereof, expressly for the purchase of agricultural commodities produced in the United States, or funds made available as the result of the financing by the U.S. Government, or any agency thereof.

(b) If the warranty set forth in this section is not complied with, the principal amount and accrued interest under the credit arrangement shall, upon demand, become due and payable by the exporter.

**§ 1488.20 Exporter's records and accounts.**

The U.S. Department of Agriculture shall have access to and the right to examine any directly pertinent books, documents, papers, and records of the exporter involving transactions related to contracts between the exporter and the

importer until the expiration of 3 years after maturity of the related credit arrangement.

**§ 1488.21 Communications.**

Unless otherwise provided, any written requests, notifications, or communications with respect to the credit arrangement by the applicant shall be addressed to the General Sales Manager's Office, Foreign Agricultural Service, U.S. Department of Agriculture, Washington, D.C., 20250.

The recordkeeping and reporting requirements of the regulations of this subpart have been approved by, and subsequent recordkeeping and reporting requirements will be subject to, the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

*Effective date.* Date of signature.

Signed at Washington, D.C., on August 20, 1965.

C. R. ESKILDSEN,  
*Acting Vice President, Commodity Credit Corporation, and  
Administrator, Foreign Agricultural Service.*

**NOTICE TO EXPORTERS**

The Department of Commerce, Bureau of International Commerce, pursuant to regulations under the Export Control Act of 1949, prohibits the exportation or reexportation by anyone of any commodities under this program to Cuba, the Soviet Bloc, or Communist-controlled areas of the Far East including Communist China, North Korea, and the Communist-controlled area of Vietnam, except under validated license issued by the U.S. Department of Commerce, Bureau of International Commerce.

For all exportations, one of the destination control statements specified in Commerce Department Regulations (Comprehensive Export Schedule 15 CFE 379.10(c)) is required to be placed on all copies of the shipper's export declaration, all copies of the bill of lading, and all copies of the commercial invoices. For additional information as to which destination control statement to use, the exporter should communicate with the Bureau of International Commerce or one of the field offices of the Department of Commerce.

Exporters should consult the applicable Commerce Department regulations for more detailed information if desired and for any changes that may be made therein.

## Title 8—ALIENS AND NATIONALITY

Chapter 1—Immigration and Naturalization Service, Department of Justice

PART 214—NONIMMIGRANT CLASSES

PART 243—DEPORTATION OF ALIENS IN THE UNITED STATES

Miscellaneous Amendments

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

<sup>1</sup> Information to exporters: The Department of Commerce Regulations prohibit exportation or reexportation by anyone, including a foreign exporter, of the commodity exported pursuant to the terms of these regulations, to prohibited countries and areas. The attention of the exporter is invited to the "Notice to Exporters" which accompanies these regulations.

1. Subparagraph (3) of paragraph (h) *Temporary employees of § 214.2 Special requirements for admission, extension, and maintenance of status* is amended in the following respects:

a. The headnote is amended to read "Admission, employment, and extension."

b. The following sentence is inserted after the existing fourth sentence: "Approval of the beneficiary's employment or training is automatically suspended while a strike or other labor dispute involving a work stoppage or layoff of employees occurs at his place of employment or training."

2. Section 243.8 *Imposition of sanctions* is amended by adding the following sentence at the end thereof: "However, the regional commissioner or the Deputy Associate Commissioner, Travel Control, may direct that any case or class of cases be referred to him for such determination."

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall be effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order relate to agency procedure.

Dated: August 18, 1965.

RAYMOND F. FARRELL,  
Commissioner of  
Immigration and Naturalization.

*Effective date.* The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER.

The amendment adds the following additional areas to the list of areas designated as modified certified brucellosis areas because it has been determined that such areas come within the definition of § 78.1(i): Butler County in Alabama;

Lake County in Colorado; Warren County in Indiana; Adair, Alamakee, Cedar, Des Moines, Dubuque, Howard, Ida, Iowa, and Washington Counties in Iowa; Jefferson County in Mississippi; Knox County in Nebraska; Hanson County in South Dakota; and Caldwell County in Texas.

The amendment imposes certain restrictions necessary to prevent the spread of brucellosis in cattle and it should be made effective promptly in order to accomplish its purpose in the public interest. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 18th day of August 1965.

DONALD MILLER,  
Acting Director, Animal Health  
Division, Agricultural Research Service.

## Title 10—ATOMIC ENERGY

### Chapter I—Atomic Energy Commission

#### PART 31—GENERAL LICENSES FOR CERTAIN QUANTITIES OF BYPRODUCT MATERIAL AND BYPRODUCT MATERIAL CONTAINED IN CERTAIN ITEMS

#### PART 32—SPECIFIC LICENSES TO MANUFACTURE, DISTRIBUTE, OR IMPORT EXEMPTED AND GENERALLY LICENSED ITEMS CONTAINING BYPRODUCT MATERIAL

#### Labeling and Installation Requirements for Certain Devices Under General License

On April 30, 1965, the Commission published in the FEDERAL REGISTER (30 F.R. 6118) proposed amendments of its regulation, "Licensing of Byproduct Material", 10 CFR Part 30, which would (a) modify labeling requirements for certain devices used under general license and (b) modify installation requirements for such devices. All interested persons were invited to submit written comments and suggestions for consideration in connection with the proposed amendment within sixty days after publication in the FEDERAL REGISTER. No comments were received.

Since the notice of proposed rule making was published, Part 30 has been recodified. The amendments set forth below will accordingly appear in new Part 31 "General Licenses for Certain Quantities of Byproduct Material and Byproduct Material Contained in Certain Items" and Part 32 "Specific Licenses to Manufacture, Distribute, or Import Exempted and Generally Licensed Items Containing Byproduct Material". Ex-

cept for redesignation of sections and other minor revisions to conform to the recodification of 10 CFR Part 30, published in the FEDERAL REGISTER June 26, 1965 (30 F.R. 8185), the text of the amendments set out below is identical with the text of the proposed amendments published April 30, 1965.

Pursuant to the Atomic Energy Act of 1954, as amended, and the Administrative Procedure Act of 1946, the following amendments of Title 10, Chapter I, Parts 31 and 32, Code of Federal Regulations are published as a document subject to codification, to be effective thirty (30) days after publication in the FEDERAL REGISTER.

1. Section 31.5 of 10 CFR Part 31 is amended by revising paragraphs (b), (c), and (d) (2) to read as follows:

#### § 31.5 Certain measuring, gauging or controlling devices.

(b) The general license contained in this section applies only to devices which have been:

(1) Manufactured in accordance with the specifications contained in a specific license issued by the Commission to the manufacturer of the device pursuant to § 32.51 of this chapter, or in accordance with the specifications contained in a specific license issued to the manufacturer by an agreement State which authorizes the manufacture of the device for distribution to persons generally licensed by the agreement State; and

(2) Installed on the premises of the general licensee by a person authorized to install such devices under a specific license issued to the installer by the Commission pursuant to Parts 30 and 32 of this chapter or by an agreement State, if a label affixed to the devices at the time of receipt states that installation by a specific licensee is required. The requirement of this subparagraph (2) does not apply while devices are held in storage in the original shipping container pending installation by a specific licensee.

(c) The general license contained in this section applies only to devices which (1) are labeled in accordance with the provisions of the specific license which authorizes the distribution of the device to general licensees, and (2) bear a label containing the following or a substantially similar statement which contains the information called for in the following statement:<sup>1</sup>

The receipt, possession, use, and transfer of this device, Model \*----- Serial No. \*----- are subject to a general license or the equivalent and the regulations of the U.S. AEC or of a State with which the AEC has entered into an agreement for the exercise of regulatory authority. Removal of this label is prohibited.

#### CAUTION—RADIOACTIVE MATERIAL

(Name of supplier)\*

\*The model, serial number, and name of supplier may be omitted from this label provided they are elsewhere specified in labeling affixed to the device.

<sup>1</sup> Devices generally licensed under this section acquired prior to July 1, 1966, may bear labels authorized by the regulations in effect on Jan. 1, 1965.

(d) \* \* \*

(2) Shall assure that all labels affixed to the device at the time of receipt and bearing a statement that removal of the label is prohibited are maintained thereon and shall comply with all instructions contained in such labels;

2. Section 31.6 of 10 CFR Part 31 is amended by revising paragraph (c) to read as follows:

#### § 31.6 General license to install devices generally licensed in § 31.5.

(c) Such person assures that any labels required to be affixed to the device under regulations of the agreement State which licensed manufacture of the device bear a statement that removal of the label is prohibited.

3. Section 32.51 of 10 CFR Part 32 is amended by revising paragraph (c) to read as follows:

#### § 32.51 Certain measuring, gauging or controlling devices generally licensed under § 31.5 of this chapter: requirements for license to distribute.

(c) In describing the label or labels and contents thereon to be affixed to the device, the applicant should separately indicate those instructions and precautions which are necessary to assure safe operation of the device. Such instructions and precautions must be contained on labels bearing a statement that removal of the label is prohibited.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201. Interpret or apply secs. 81, 82, 163, 68 Stat. 935, 954; 42 U.S.C. 2111, 2112, 2233)

Dated at Washington, D.C., this 13th day of August 1965.

For the Atomic Energy Commission.

F. T. HOBBS,  
Acting Secretary.

## Title 14—AERONAUTICS AND SPACE

### Chapter I—Federal Aviation Agency

[Docket No. 6526; Amdt. 39-118]

#### PART 39—AIRWORTHINESS DIRECTIVES

#### Boeing Model 707 and 720 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring repetitive inspection of the fuselage frames and reworking if cracks are found on the subject airplanes was published in 30 F.R. 3782.

Interested persons have been afforded an opportunity to participate in the making of the amendment. One comment stated that the inspection and rework could not be accomplished on certain

Model 720 airplanes at Body Stations 760 and 780 as required by the AD. The manufacturer has further revised Service Bulletin No. 2014 to eliminate reference to the inspection of Body Stations 760 and 780 on these aircraft, and paragraph (c) of the AD has been amended to eliminate Body Station 760 and 780 inspections on 720-025 Series airplanes. Another comment requested the repetitive inspection interval be increased to 1,600 hours' time in service. The Agency does not feel the interval can be extended since it is based on an engineering evaluation considering the inspection intervals used by operators who found frame cracks on their airplanes. Since no substantiating data was offered to establish the integrity of the frames beyond 1,200 hours, the repetitive inspection has not been increased. Another comment stated that there have been no MRR's issued on cracks in Fuselage Station 760, and that the industry has inspected these frames several times over the last 10 months and sees no need for inspection unless fuselage frames at 780 or 800 are cracked. There have been no MRR's which report cracking of fuselage frame 760, but due to the similarity of these three frames and their relationship to the various loads, the Agency feels it is probable that cracking may occur, and therefore considers it necessary that these frames be inspected irrespective of cracking at Fuselage Stations 780 and 800.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

**Boeing.** Applies to Model 707 and 720 Series airplanes listed in Boeing Service Bulletin No. 2014(R-2).

Compliance required as indicated.

(a) For Model 720 Series airplanes with 4,500 or more hours' time in service on the effective date of this AD, comply with paragraph (c) within the next 600 hours' time in service, unless accomplished within the last 600 hours' time in service, and thereafter at intervals not to exceed 1,200 hours' time in service from the last inspection.

(b) For Model 720 Series airplanes with less than 4,500 hours' time in service on the effective date of this AD, comply with paragraph (c) before the accumulation of 5,100 hours' time in service, unless accomplished after the accumulation of 3,900 hours' time in service, and thereafter at intervals not to exceed 1,200 hours' time in service from the last inspection.

(c) Inspect visually for cracks in the left-hand and right-hand frames at Body Stations 760 and 780 on Model 720 Series airplanes except 720-025 Series and at Body Station 800 on all Model 720 Series airplanes in the vicinity of waterline 208.1 (top of floor beam). If cracks are found, rework the frames before further flight in accordance with paragraph 3 of Boeing Service Bulletin No. 2014(R-2) or later FAA-approved revision; Boeing Structural Repair Manual D6-1891, paragraph 53-3-5, page 1; or a method approved by the Aircraft Engineering Division, FAA Western Region. The repetitive inspections required by paragraphs (a) and (b) of this AD may be discontinued when cracked frames have been reworked in accordance with this paragraph, or when uncracked frames have been reworked in accordance with Boeing Draw-

ing 65-42173, or a method approved by the Aircraft Engineering Division, FAA Western Region.

(d) For Model 707 Series airplanes with 10,000 or more hours' time in service on the effective date of this AD, comply with paragraph (f) within the next 600 hours' time in service, unless accomplished within the last 600 hours' time in service, and thereafter at intervals not to exceed 1,200 hours' time in service from the last inspection.

(e) For Model 707 Series airplanes with less than 10,000 hours' time in service on the effective date of this AD, comply with paragraph (f) before the accumulation of 10,600 hours' time in service, unless accomplished after the accumulation of 9,400 hours' time in service, and thereafter at intervals not to exceed 1,200 hours' time in service from the last inspection.

(f) Inspect visually for cracks in the left-hand and right-hand frames at Body Station 800 in the vicinity of waterline 208.1 (top of floor beam). If cracks are found, rework the frames before further flight in accordance with paragraph 3 of Boeing Service Bulletin No. 2014(R-2) or later FAA-approved revision; Boeing Structural Repair Manual D6-1649, paragraph 53-3-5, page 1, for 707-100/200 Series airplanes, and Boeing Structural Repair Manual D6-2962 for 707-300/400 Series airplanes; or a method approved by the Aircraft Engineering Division, FAA Western Region. The repetitive inspections required by paragraphs (d) and (e) of this AD may be discontinued when cracked frames have been reworked in accordance with this paragraph, or when uncracked frames have been reworked in accordance with Boeing Drawing 65-42173, or a method approved by the Aircraft Engineering Division, FAA Western Region.

(g) Upon request of an operator, an FAA maintenance inspector, with prior approval of the Chief, Aircraft Engineering Division, FAA Western Region, may adjust the repetitive inspection intervals required by this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

This amendment becomes effective September 23, 1965.

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Modification of Transition Area and Designation of Control Zone

On May 13, 1965, a notice of proposed rule making was published in the FEDERAL REGISTER (30 F.R. 6588) stating that the Federal Aviation Agency proposed to alter the controlled airspace in the Galesburg, Ill., terminal area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. Comments received from the Air Transport Association and the National Business Aircraft Association were favorable. Comments received from the

Soaring Society of America expressed an objection to the designation of the Galesburg control zone, but concurred with the designation of the Galesburg transition area. The Soaring Society of America pointed out that there was insufficient traffic to warrant such a control zone and that adequate traffic control could not be exercised without the presence of a controller at Galesburg. This Agency has determined that adequate traffic control can be exercised at Galesburg by the Chicago Air Route Traffic Control Center, through the Burlington, Iowa, Flight Service Station, and that there is sufficient traffic to warrant establishment of the control zone.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., November 11, 1965, as hereinafter set forth.

1. In § 71.171 (29 F.R. 17581) the following control zone is added:

#### GALESBURG, ILL.

Within a 5-mile radius of Galesburg, Ill., Municipal Airport (latitude 40°56'24" N., longitude 90°25'46" W.); within 2 miles each side of the Galesburg VOR 019° radial extending from the 5-mile radius zone to 8 miles N of the VOR; and within 2 miles each side of the Galesburg VOR 214° radial extending from the 5-mile radius zone to 8 miles SW of the VOR. This control zone shall be effective during the times established by a Notice to Airmen and published continuously in the Airman's Information Manual.

2. In § 71.181 (29 F.R. 17643) the Galesburg, Ill., transition area is amended to read:

#### GALESBURG, ILL.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Galesburg, Ill., Municipal Airport (latitude 40°56'24" N., longitude 90°25'46" W.); within 5 miles E and 8 miles W of the Galesburg VOR 019° radial extending from the VOR to 12 miles N of the VOR; and within 5 miles NW and 8 miles SE of the Galesburg VOR 214° radial extending from the VOR to 12 miles SW of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Kansas City, Mo., on August 11, 1965.

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Designation of Transition Area

On May 19, 1965 a notice of proposed rule making was published in the FEDERAL REGISTER (30 F.R. 6795) stating that the Federal Aviation Agency was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a transition area at Marion, Ky.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0001 e.s.t., October 14, 1965, as hereinafter set forth.

In § 71.181 (29 F.R. 17643) the following transition area is added:

MARION, KY.

That airspace extending upward from 1,200 feet above the surface, bounded on the NE by a line extending from latitude 37°25'50" N., longitude 88°17'40" W. to latitude 37°18'05" N., longitude 87°54'40" W., on the SE by V-178 and on the NW by V-11.

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on August 16, 1965.

### Postal Employees To Be Carried Free

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of August 1965.

The Board, by publication in 30 F.R. 8487 and by circulation of a notice of proposed rule making, EDR-85, dated June 29, 1965, Docket 16307, gave notice that it had under consideration amendments to Part 233 of the Economic Regulations which would dispense with the requirement that Post Office Department Inspectors-in-Charge present to an air carrier, prior to obtaining free air transportation, properly executed "Requests for Access to Aircraft or Free Transportation" on U.S. Government Standard Form 160, in accordance with existing provisions in § 233.2(b). The notice also proposed incidental amendments to Part 233 to correctly describe certain Post Office Department officials and bureaus whose titles had been changed as a result of a reorganization within the Department.

The notice of proposed rule making invited interested persons to submit written data, views, or arguments pertaining to the proposed amendments on or before August 2, 1965, but none has been received. It therefore appears that the proposed rule is acceptable to the industry and would aid the Postal Inspectors-in-Charge in the performance of their official duties as represented by the Post Office Department.

In consideration of the foregoing, the Board hereby amends Part 233 of its economic regulations (14 CFR Part 233), effective September 23, 1965, as follows:

By amending paragraphs (c) through (g) of § 233.1 to read as follows:

§ 233.1 Postal employees to be carried free.

(c) The Executive Assistant to the Postmaster General; the two (2) Special Assistants to the Postmaster General; the Executive Assistant to the Deputy Postmaster General; and the Director, Office of Regional Administration.

(d) The Assistant Postmaster General—Operations; the Assistant Postmaster General—Transportation and International Services; the Assistant Postmaster General—Finance and Administration; the Assistant Postmaster General—Facilities; the Assistant Postmaster General—Personnel; and the respective Deputies of the foregoing Assistant Postmasters General.

(e) The Chief Postal Inspector; the Deputy Chief Postal Inspector; the General Counsel; the Deputy General Counsel; and the Director of the Office of Research and Engineering and his Deputy.

(f) The Director, Distribution and Routing Division; the Director, Air Transportation Branch; the Director, International Service Division, Bureau of Transportation and International Services; the Regional Director in each of the fifteen Postal Regions; the fifteen (15) Postal Inspectors-in-Charge; and the Field Service Officers in Alaska.

(g) Any inspector of the Post Office Department, other than a Postal Inspector-in-Charge.

(Secs. 204(a) and 405(j), Federal Aviation Act of 1958; 72 Stat. 743, 760; 49 U.S.C. 1324, 1375)

Effective date. September 23, 1965.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,  
Secretary.

## Title 21—FOOD AND DRUGS

### Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

#### SUBCHAPTER B—FOOD AND FOOD PRODUCTS

### PART 27—CANNED FRUITS AND FRUIT JUICES

#### Canned Concentrated Orange Juice; Order Amending Identity Standard

In the matter of amending the identity standard for canned concentrated orange juice (21 CFR 27.110) to provide an alternative label declaration of the concentration of orange juice soluble solids in terms of degrees Brix for the article when it is packed in containers larger than 1 pint:

No comments were received in response to the notice of proposed rule making in the above-identified matter published in the FEDERAL REGISTER of April 24, 1965 (30 F.R. 5798), and based on a petition submitted by Sunkist Growers, Inc., 720 East Sunkist Street, Ontario, Calif., 91764.

On the basis of the relevant information available it is concluded that it will

promote honesty and fair dealing in the interest of consumers to adopt the proposed amendment. Therefore, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371), and delegated by him to the Commissioner of Food and Drugs (21 CFR 2.90): It is ordered, That § 27.110 be amended by changing paragraph (b) to read as follows:

§ 27.110 Canned concentrated orange juice, canned orange juice concentrate; identity; label statement of optional ingredients.

(b) The name of the food when concentrated to a dilution ratio of 3 plus 1 is "canned concentrated orange juice" or "canned orange juice concentrate." The name of the food when concentrated to a dilution ratio greater than 3 plus 1 is "canned concentrated orange juice, ----- plus 1" or "canned orange juice concentrate, ----- plus 1," the blank being filled in with the whole number showing the dilution ratio; for example, "canned orange juice concentrate, 4 plus 1." However, where the label bears directions for making 1 quart of the reconstituted article (or multiples of a quart) the blank in the name may be filled in with a mixed number; for example, "canned orange juice concentrate, 4½ plus 1." For containers larger than 1 pint, the dilution ratio in the name may be replaced by the concentration of orange juice soluble solids in degrees Brix; for example, a 62° Brix concentrate in 1-gallon cans may be named on the label "canned concentrated orange juice, 62° Brix." If the food does not purport to be frozen concentrated orange juice, the word "canned" may be omitted from the name.

Any person who will be adversely affected by the foregoing order may at any time within 30 days following the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, written objections thereto, preferably in triplicate. Objections shall show where in the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing, and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective 60 days from the date of its publication in the FEDERAL REGISTER, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced by publication in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: August 17, 1965.

J. K. KIRK,  
Assistant Commissioner  
for Operations.

## Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

### Chapter 9—Atomic Energy Commission

#### PART 9-15—CONTRACT COST PRINCIPLES AND PROCEDURES

##### Subpart 9-15.50—Cost Principles and Procedures

###### MISCELLANEOUS AMENDMENTS

Section 9-15.5006 *Advance understandings on particular cost items*, is revised to read as follows:

§ 9-15.5006 *Advance understandings on particular cost items.*

It is important that agreement between AEC and its contractors be reached in advance of the incurrence of costs in categories where reasonableness or allocability are difficult to determine in order to avoid possible subsequent disallowance or dispute. Any such agreement should be incorporated in cost-type contracts and should govern the cost treatment covered thereby. But the absence of such agreement on any element of cost will not, in itself, serve to make that element either allowable or unallowable. Examples of costs on which advance agreements may be particularly important are:

- (a) Deferred maintenance costs;
- (b) Precontract costs;
- (c) Professional or technical consulting services;
- (d) Reconversion costs;
- (e) Research and development costs;
- (f) Royalties;
- (g) Selling and distribution costs;
- (h) Unemployment insurance experience ratings;
- (i) Employee compensation, travel, and other personnel costs. AEC utilizes two basic methods of achieving and recording understandings with contractors as to the allowability of employee compensation, travel, and other personnel costs: negotiation of a personnel appendix to the contract which sets forth the policies, programs, and schedules which are accepted as the basis for determining the allowability of costs; or reviewing and reaching agreement on published policies, programs, and schedules (and any changes thereto during the contract term) applicable to the contractor's private operations which are acceptable for contract work and which will be consistently followed throughout the contractor's organization. Generally, a personnel appendix to the contract is utilized in contracts for work in

Government-owned facilities, and in other contract situations when one or more of the following circumstances exist: when policies, programs, and schedules are established specifically for contract work; when the contractor's work is predominantly or exclusively made up of negotiated Government contract work; when contract work is so different from the organization's private work that existing published policies, programs, and schedules cannot reasonably be extended to and consistently applied on contract work; or, when published policies, programs, and schedules proposed for contract work are not sufficiently definitive to permit a clear advance mutual understanding of allowable costs and to provide a basis for audit. Field Office Managers are authorized to select the alternative method of achieving and recording advance understanding that they find most appropriate after considering the facts of the particular contract situation. Employee compensation, travel, and other personnel costs as used in this paragraph include:

(1) Compensation for personal services, including wages and salaries, bonuses and incentives, premium payments, pay for time not worked, and supplementary compensation and benefits, such as pension and retirement, group insurance, severance pay plans, and other forms of compensation covered by AECPR 9-15.5010-14;

(2) Morale, health, welfare, and food service and dormitory costs;

(3) Training and education costs; and

(4) Employee travel costs, including travel on official business, relocation of employees, foreign travel, travel of executive officers, and special or mass personnel movement.

Section 9-15.5010-14 *Compensation for personal services*, is revised to read as follows:

§ 9-15.5010-14 *Compensation for personal services.*

(a) *Definition.* Compensation for personal services includes all remuneration paid currently or accrued, in whatever form and whether paid immediately or deferred, for services rendered by employees of the contractor during the period of contract performance. It includes, but is not limited to, salaries, wages, directors' and executive committee members' fees, bonuses (including stock bonuses), incentive awards, employee stock options, employee insurance, fringe benefits, and contributions to pension, annuity, and management employee incentive compensation plans.

(b) *Allowability.* Except as otherwise specifically provided in this § 9-15.5010-14, costs of compensation for personal services are to be treated as allowable to the extent that:

(1) Compensation is paid in accordance with policies, programs, and procedures that effectively relate individual compensation to the individual's contribution to the performance of contract work, result in internally consistent treatment of employees in like situations, and effectively relate compensa-

tion paid within the organization to that paid for similar services outside the organization;

(2) Total compensation of individual employees is reasonable for the services rendered; and

(3) Costs are not in excess of those costs which are allowable by the Internal Revenue Code and regulations thereunder.

(c) *Reasonableness.* Compensation is reasonable to the extent that the total amount paid or accrued is comparable to compensation paid for similar work in the private competitive economy in the labor market in which the contractor competes. The application of this basic standard of reasonableness may vary according to the contract situation.

(1) When the contractor is substantially engaged in private competitive business, compensation paid employees on private work will usually be an acceptable standard of comparison for evaluating the reasonableness of compensation paid employees performing similar work under AEC contracts provided that sufficient information is available to the AEC to permit a determination that compensation is, in fact, consistent.

(2) In other contract situations, information on compensation paid elsewhere in the labor market(s) for similar work, usually as measured by compensation surveys found acceptable by the AEC, will be the standard of comparison for evaluating the reasonableness of compensation paid employees engaged in work under AEC contracts.

(3) The standard of comparison (i.e., subparagraph (1) or (2) of this paragraph) for a particular contract situation is determined by the contracting officer after consideration of such factors as the extent and nature of the organization's private competitive business; extent to which contract work would be physically and organizationally integrated with private work; and the contractor's systems for determining, evaluating, and controlling compensation levels.

(4) It is AEC policy that contractors justify the reasonableness of proposed compensation costs and provide to the contracting officer any supporting information he deems necessary to his evaluation of reasonableness.

(d) *Review and approval of compensation paid individual employees.* In determining the reasonableness of compensation, the compensation of each individual contractor employee normally need not be subjected to review and approval. Generally, the compensation paid individual employees should be left to the judgment of contractors subject to the limitations of AEC-approved compensation policies, programs, classification systems, and schedules, and amounts of money authorized for wage and salary increases for groups of employees. However, all cases of individual total compensation of \$25,000 or more shall require review and approval on an individual basis. In addition, it will often be necessary that employee compensation be subjected to review and approval on an individual basis at a level

below \$25,000 when the contracting officer finds it appropriate for the particular situation. The contract shall specifically provide for the approval by the contracting officer of the cost of compensating an individual contractor employee above the level determined by the contracting officer (or \$25,000) if a total of 50 percent or more of such compensation is reimbursed under AEC and other Government cost-type contracts. For purposes of determining the level for individual review and approval, total compensation as used in this paragraph includes only the employee's base salary and bonus or incentive compensation. As in the case of other personnel and compensation costs, it is intended that contracting officer review and approval of individual compensation normally will be prior to in-currence of costs.

(e) *Special considerations in determining allowability.* Certain conditions require special consideration and possible limitation as to allowability for contract cost purposes where amounts appear excessive. Among such conditions are the following:

(1) Compensation to owners of closely held corporations, partners, sole proprietors, or members of the immediate families thereof, or to persons who are contractually committed to acquire a substantial financial interest in the contractor's enterprise. Determination should be made that such compensation is reasonable for the actual personal services rendered rather than a distribution of profits.

(2) Any change in a contractor's compensation policy resulting in a substantial increase in the contractor's level of compensation, particularly when it is concurrent with an increase in the ratio of Government contracts to other business, or any change in the treatment of allowability of specific types of compensation due to changes in Government policy.

(3) Compensation in lieu of salary for services rendered by partners and sole proprietors will be allowed to the extent that it is reasonable and does not constitute a distribution of profits.

(f) *Limitations on certain forms of compensation.* In addition to the general requirements in paragraphs (a) through (e) of this section, certain forms of compensation are subject to further requirements as specified in paragraphs (g) through (o) of this section.

(g) *Salaries and wages.* Salaries and wages for current services include gross compensation paid to employees in the form of cash, products, or services, and are to be treated as allowable. However, premiums for overtime in excess of statutory requirements, extra-pay shifts, and multishift work are to be treated as allowable to the extent approved by the contracting officer.

(h) *Bonuses and incentive compensation.* Incentive compensation and cash bonuses based on production, cost reduction, or efficient performance; suggestion awards; and safety awards are to be treated as allowable to the extent that the contractor's overall compensation plan is determined to be reasonable and such costs are paid or accrued pursuant

to an agreement entered into in good faith between the contractor and the employees before the services were rendered, or pursuant to an established plan followed by the contractor so consistently as to imply, in effect, an agreement to make such payment (but see § 9-15.5006). In determining reasonableness, it will be necessary to take into account not only bonuses and incentive compensation payments charged directly to the contract but also payments charged indirectly to the contract through overhead. Bonuses, awards, and incentive compensation, when any of them are deferred, are to be treated as allowable to the extent provided in paragraph (m) of this section.

(1) Bonuses and incentive compensation paid to employees other than those whose pay is directly reimbursed will not be made allowable in on-site construction, architect-engineer, and operating contracts where home office general and administrative expense is unallowable.

(2) Employer contributions to incentive compensation plans for the purpose of establishing a reserve for the payment of incentive compensation for services performed in the future are unallowable.

(i) *Bonuses and incentive compensation paid in stock.* Costs of bonuses and incentive compensation paid in the stock of the contractor or of an affiliate are to be treated as allowable to the extent set forth in paragraph (h) of this section (including the incorporation of the principles of paragraph (k) of this section for deferred bonuses and incentive compensation), subject to the following additional requirements:

(1) Valuation placed on the stock transferred shall be the fair market value at the time of transfer, determined upon the most objective basis available; and

(2) Accruals for the cost of stock prior to the issuance of such stock to the employees shall be subject to adjustment according to the possibilities that the employees will not receive such stock and their interest in the accruals will be forfeited.

Such costs otherwise allowable are to be made subject to adjustment according to the principles set forth in paragraph (k) (3) of this section. (But see § 9-15.5006.)

(j) *Stock options.* The cost of options to employees to purchase stock of the contractor or of an affiliate is to be made unallowable.

(k) *Deferred compensation.* (1) As used herein, deferred compensation includes all remuneration, in whatever form, for which the employee is not paid until after the lapse of a stated period of years or the occurrence of other events as provided in the plans, except that it does not include normal end of accounting period accruals. It includes (i) contributions to pension, annuity, stock bonuses, and profit sharing plans, (ii) contributions to disability, withdrawal, insurance, survivorship, and similar benefit plans, and (iii) other deferred compensation, whether paid in cash or in stock.

(2) Deferred compensation is to be treated as allowable to the extent that

(i) except for past service pension and retirements costs, it is for services rendered during the contract period; (ii) it represents, together with all other compensation, a reasonable overall compensation plan; (iii) it is paid pursuant to an agreement entered into in good faith between the contractor and employees before the services are rendered, or pursuant to an established plan followed by the contractor so consistently as to imply, in effect, an agreement to make such payments; and (iv) for a plan which is subject to approval by the Internal Revenue Service, it falls within the criteria and standards of the Internal Revenue Code and the regulations of the Internal Revenue Service. (But see § 9-15.5006.)

(3) For determining the allowable cost of deferred compensation, contractual provision shall be made for appropriate adjustments for credits or gains, including those arising out of both normal and abnormal employee turnover, or any other contingencies that can result in a forfeiture by employees of such deferred compensation. Adjustments shall be made only for forfeitures which directly or indirectly inure to the benefit of the contractor; forfeitures which inure to the benefit of other employees covered by a deferred compensation plan with no reduction in the contractor's costs will not normally give rise to adjustment in contract costs. Adjustments for normal employee turnover shall be based on the contractor's experience and on foreseeable prospects, and shall be reflected in the amount of cost currently allowable. Such adjustments will be unnecessary to the extent that the contractor can demonstrate that his contributions take into account normal forfeitures. Adjustments for possible future abnormal forfeitures shall be effected according to the following rules:

(i) Abnormal forfeitures that are foreseeable and which can be currently evaluated with reasonable accuracy, by actuarial or other sound computation, shall be reflected by an adjustment of current costs otherwise allowable; and

(ii) Abnormal forfeitures, not within subdivision (i) of this subparagraph may be made the subject of agreement between the Government and the contractor either as to an equitable adjustment or a method of determining such adjustment.

(4) In determining whether deferred compensation is for services rendered during the contract period or is for future services, consideration shall be given to conditions imposed upon eventual payment, such as, requirements of continued employment, consultation after retirement, and covenants not to be complete.

(l) *Fringe benefits.* Fringe benefits are allowances and services provided by the contractor to his employees as compensation in addition to regular wages and salaries. Subject to the determination that total compensation is reasonable (see AECPR 9-15.5010-14(c)), costs of fringe benefits such as pay for vacations, holidays, sick leave, military leave, employee insurance, pension and retirement plans, and supplemental unemployment benefit plans are to be

## RULES AND REGULATIONS

treated as allowable, provided such fringe benefits meet the following conditions:

(1) The benefits contribute to the performance of contract work and are appropriate for reimbursement from public funds;

(2) Such benefit plans as exist in the contractor's private operations that are inconsistent with AEC published requirements are appropriately modified or disallowed;

(3) Employee benefit plans especially established to meet the particular needs of the contract are in conformity with published AEC policy and standards;

(4) Appropriate controls under the contract are established to assure that employees on contract work are treated no more or no less favorably than em-

ployees in the contractor's private operation except to the extent that (ii) and (iii) immediately above apply;

(5) To the fullest extent possible, definite limitations or terminal points are established for each of the various benefit plans, so that AEC's full liability with respect thereto is established under the contract; and

(6) AEC has access to all information necessary to complete understanding of the means of computing or determining the extent of the benefits afforded under the various benefit plans.

(m) *Severance pay.* See AECPR 9-15.5010.8.

(n) *Training and education expenses.* See AECPR 9-7.5006-9, -10, -12(d)(8)(v).

(o) *Location allowances.* See FPR 1-12.105.

(Sec. 161, Atomic Energy Act of 1954, as amended, 68 Stat. 948, 42 U.S.C. 2201; sec. 205, Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U.S.C. 486)

*Effective date.* These regulations are effective 30 days after publication in the FEDERAL REGISTER, but may be observed earlier.

[Docket No. AO-177-A24]

### MILK IN TRI-STATE MARKETING AREA

#### Notice of Extension of Time for Filing Exceptions to Recommended Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to the proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Tri-State marketing area, which was issued August 3, 1965 (30 F.R. 9815), is hereby extended until the 6th day after publication of this notice in the FEDERAL REGISTER.

## ATOMIC ENERGY COMMISSION

[10 CFR Part 20]

### STANDARDS FOR PROTECTION AGAINST RADIATION

#### Extension of Retention Period for Personnel Monitoring Records

Section 20.401(a) of the Commission's "Standards for Protection Against Radiation," 10 CFR Part 20, requires a licensee to maintain records showing the radiation exposures of all individuals for whom personnel monitoring is required under § 20.202. Section 20.401(c) provides that the required records of individual radiation exposure shall be preserved until December 31, 1965, or until a date 5 years after termination of the individual's employment, whichever is later.

Various studies concerned with the need for records of radiation exposure in the administration of workmen's compensation laws and in the correlation of radiation exposure with lifetime health and mortality experience are now being carried out. The results of these studies will be used to determine whether the Commission should require long-term retention of radiation exposure records.

The Commission believes that the personnel monitoring records required by § 20.401 should not be destroyed pending completion of these studies and the determination of a permanent Commission policy with respect to record retention. Accordingly, the Commission is proposing to amend § 20.401(c) to extend the retention period for records of individual radiation exposure to December 31, 1970, or until a date 5 years after termination of the individual's employment, whichever is later.

Pursuant to the Atomic Energy Act of 1954, as amended, and the Administrative Procedure Act of 1946, notice is hereby given that adoption of the following amendment to Part 20 is contemplated. All interested persons who desire to submit written comments or suggestions in connection with the proposed amendments should send them to the Secretary, U.S. Atomic Energy Commission, Washington, D.C., 20545, within thirty (30) days after publication of this notice in the FEDERAL REGISTER. Comments received after that period will be considered if it is practicable to do so, but assurance of consideration cannot be given except as to comments filed within the period specified.

Paragraph 20.401(c) and the note which follows § 20.401(c) are revised to read as follows:

§ 20.401 Records of surveys, radiation monitoring, and disposal.

(c) Records of individual radiation exposure which must be maintained pursuant to the provisions of paragraph (a) of this section shall be preserved until December 31, 1970, or until a date 5 years after termination of the individual's employment, whichever is later. Records which must be maintained pursuant to this part may be maintained in the form of microfilms.

NOTE: Prior to Dec. 31, 1970, the Commission may amend this paragraph to assure the further preservation of records which it determines should not be destroyed. (Sec. 161, 68 Stat. 948, 42 U.S.C. 2201)

Dated at Germantown, Md., this 12th day of August 1965.

F. T. HOBBS,  
Acting Secretary.

## FEDERAL AVIATION AGENCY

[14 CFR Part 71]

[Airspace Docket No. 65-CE-102]

### CONTROL ZONE, TRANSITION AREA, AND CONTROL AREA EXTENSION

#### Proposed Alteration, Designation, and Revocation

The Federal Aviation Agency is considering amendments to Part 71 of the

Federal Aviation Regulations which would alter the controlled airspace in the Jamestown, N. Dak., terminal area.

The following controlled airspace is presently designated in the vicinity of Jamestown:

(1) The Jamestown control zone is designated as that airspace within a 5-mile radius of Jamestown Airport; within 2 miles either side of the Jamestown RR, E course extending from the 5-mile radius zone to 10 miles E of the RR and within 2 miles either side of the Jamestown 191° and 011° radials extending from the 5-mile radius zone to 10 miles S of the VOR.

(2) The Jamestown control area extension is designated as that airspace within a 15-mile radius of the Jamestown VOR and the airspace within 5 miles either side of the Jamestown VOR 191° radial extending from the VOR to 25 miles S.

The Federal Aviation Agency, having completed a comprehensive review of the terminal airspace structural requirements in the Jamestown terminal area, including studies attendant to the implementation of the Provisions of Amendments 60-21 (26 F.R. 570) and 60-29 (27 F.R. 4012) of Part 60 of the Civil Air Regulations, proposes the following airspace action:

(1) Alter the Jamestown, N. Dak., control zone by redesignating it as that airspace within a 5-mile radius of Jamestown, N. Dak., Municipal Airport (latitude 46°55'48" N., longitude 98°40'42" W.).

(2) Designate a transition area at Jamestown, N. Dak., to comprise that airspace extending upward from 700 feet above the surface within a 7-mile radius of Jamestown, N. Dak., Municipal Airport (latitude 46°55'48" N., longitude 98°40'42" W.); and within 2 miles each side of the Jamestown VOR 190° radial extending from the 7-mile radius area to 8 miles S of the VOR; and that airspace extending upward from 1,200 feet above the surface within 8 miles E and 5 miles W of the Jamestown VOR 010° and 190° radials, extending from 4 miles N to 13 miles S of the VOR.

(3) Revoke the Jamestown, N. Dak., control area extension in its entirety.

The proposed control zone would provide controlled airspace protection for departing aircraft during climb to 700 feet above the surface and for aircraft executing the prescribed instrument approach procedure during descent below 1,000 feet above the surface.

The proposed 700-foot floor transition area would provide controlled airspace protection for departing aircraft during climb from 700 to 1,200 feet above the surface. It would also provide controlled airspace protection for aircraft executing the prescribed instrument approach procedure during descent from 1,500 to 1,000 feet above the surface.

The proposed 1,200-foot floor transition area would provide controlled airspace protection for the procedure turn

area of the prescribed instrument approach procedure and for the holding pattern at the Jamestown VOR. The floors of the airways that traverse the transition areas proposed herein would automatically coincide with the floors of the transition areas.

Certain minor revisions to the prescribed instrument approach procedure would be effected in conjunction with the actions proposed herein, but operational complexity would not be increased nor would aircraft performance or present landing minimums be adversely affected.

Specific details of the changes to procedures that would be required may be examined by contacting the Chief, Airspace Branch, Air Traffic Division, Central Region, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The public docket will be available for examination by interested person in the office of the Regional Counsel, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued at Kansas City, Mo., on August 11, 1965.

EDWARD C. MARSH,  
Director, Central Region.

### CONTROL ZONE AND TRANSITION AREAS

#### Proposed Alteration and Designation

The Federal Aviation Agency is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations which would alter the Columbus, Ohio, Control Zone (29 F.R. 17592); designate 700-foot floor transition areas over Columbus Municipal Airport, Columbus, Ohio, Anchor Hocking Airport, Lancaster, Ohio, and Ohio University Airport, Athens, Ohio; designate a 1,200-foot floor Columbus, Ohio, Transition Area.

The controlled airspace in the aforementioned terminal areas is presently

composed of the Columbus, Ohio, Control Zone, and a portion of the Columbus (29 F.R. 17561) and Mansfield (29 F.R. 17568), Ohio Control Area Extensions.

The proposed alteration of the Columbus, Ohio, Control Zone would add an extension to the east of the present control zone configuration for radar vectoring after departure and to final approach position.

The 700- and 1,200-foot floor transition areas would provide protection for aircraft executing prescribed holding, radar, arrival procedures in the terminal areas down to 700 feet above the surface and departure procedures above 700 feet above the surface.

The floors of airways which traverse the transition areas proposed herein would coincide with the floors of the transition areas.

Certain minor revisions to prescribed instrument procedures would be effected in conjunction with the actions proposed herein, but operational complexity would not be increased nor would aircraft performance or present landing minimums be adversely affected. Specific details of the changes to procedures and minimum flight rules altitudes that would be required may be examined by contacting the Chief, Airspace Branch, Air Traffic Division, Federal Aviation Agency, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y., 11430.

Interested persons may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y., 11430. All communications received within 45 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Chief, Airspace Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Federal Aviation Agency, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y., 11430.

The Federal Aviation Agency having completed a comprehensive review of the airspace requirements for the terminal areas of Columbus, Lancaster, and Athens, Ohio, attendant to the implementation of the provisions of Civil Air Regulations amendments 60-21 and 60-29 (26 F.R. 570, 27 F.R. 4012) proposes the airspace actions hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Columbus, Ohio Control Zone and insert in lieu thereof:

#### COLUMBUS, OHIO

Within a 5-mile radius of the center, 39°59'30" N., 82°53'20" W., of Columbus

Municipal Airport, Columbus, Ohio; within a 5-mile radius of the center, 39°48'50" N., 82°55'40" W., of Lockbourne AFB, Columbus, Ohio; within 2 miles each side of the Columbus runway 10L ILS localizer extending from the 5-mile radius zone to the runway 10L OM; within 2 miles each side of the Columbus runway 10R ILS localizer course extending from the 5-mile radius zone to 6.5 miles W of the runway 10R localizer; within 2 miles each side of the Columbus runway 28L ILS localizer course extending from the 5-mile radius zone to the runway 28L OM; within 2 miles either side of a direct line extending from the Columbus RBN to the Lockbourne AFB; within 2 miles each side of the centerline of Lockbourne runways 23R and 23L extended from the end of the runways to 7 miles SW; within 2 miles each side of the centerlines of runways 5L and 5R extended from the ends of the runways to 11.5 miles NE; within 3.5 miles each side of a line bearing 094° from 39°55'10" N., 82°54'10" W. to a point 12 miles E of 39°55'10" N., 82°54'10" W.; within a 1-mile radius of the center, 39°53'10" N., 82°57'55" W., of South Columbus Airport, Columbus, Ohio.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a 700- and 1,200-foot floor Columbus, Ohio Transition Area described as follows:

#### COLUMBUS, OHIO

That airspace extending upward from 700 feet above the surface within a 12-mile radius of the center, 39°59'30" N., 82°53'20" W., of Columbus Municipal Airport, Columbus, Ohio; within a 14-mile radius of the center, 39°48'50" N., 82°55'40" W., of Lockbourne AFB, Columbus, Ohio; within a 5-mile radius of the center, 39°45'25" N., 82°39'35" W., of Anchor Hocking Airport, Lancaster, Ohio; within 2 miles each side of the Lockbourne VOR 088° radial extending from the Anchor Hocking Airport 5-mile radius area to 8 miles E of the VOR; that airspace within a line from 39°49'35" N., 82°37'30" W. to 40°00'00" N., 82°32'30" W. to 40°10'00" N., 82°32'30" W. to 40°10'10" W., 82°53'20" W.

That airspace extending upward from 1,200 feet above the surface bounded by a line beginning at: 40°27'28" N., 82°07'37" W. to 39°52'25" N., 82°13'00" W. to 39°40'00" N., 82°00'00" W. to 39°40'00" N., 81°47'00" W. to 39°00'00" N., 81°43'40" W. to 39°00'00" N., 83°00'00" W. to 38°45'00" N., 83°30'00" W. to 38°30'00" N., 83°18'15" W. to 38°30'00" N., 83°30'00" N., 83°59'00" W. to 39°19'00" N., 83°59'00" W., 39°19'00" N., 84°00'00" W. to 39°05'00" N., 83°30'00" W. to 40°00'00" N., 83°15'00" W. to 40°30'00" N., 83°50'00" W. to 40°30'00" N., 83°10'00" W. to point of beginning.

3. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a 700-foot floor Athens, Ohio, Transition Area described as follows:

#### ATHENS, OHIO

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the center, 39°20'09" N., 82°04'16" W., of Ohio University Airport, Athens, Ohio, and within 2 miles each side of the 089° bearing from the Athens RBN extending from the 6-mile radius area to 8 miles E of the RBN.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Jamaica, N.Y., on August 5, 1965.

WAYNE HENDERSHOT,  
Acting Director, Eastern Region.

### MONTANA

#### Notice of Proposed Withdrawal and Reservation of Lands

AUGUST 16, 1965.

The Bureau of Reclamation, Department of the Interior, has filed an amendment to application, serial number Montana 070488, for the withdrawal of an additional 40 acres described below from all forms of appropriation except mineral leasing laws.

The applicant desires the land for right of way of Tiber Reservoir.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 316 North 26th Street, Billings, Mont., 59101.

The Department's regulations (43 CFR 211.1-3(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands

and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the minimum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the Bureau of Reclamation.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The additional land requested is:

PRINCIPAL MERIDIAN, MONT.

T. 30 N., R. 3 E.,  
Sec. 11, NE $\frac{1}{4}$ SW $\frac{1}{4}$ .

The area described contains 40 acres. The total acreage now requested in the withdrawal is 440 acres.

Office of the Secretary  
CENTRAL CALIFORNIA GRAPES FOR  
CRUSHING

Grape Crush Administrative Committee; Discharge of Joint Trustees and Designation of Successor Trustees To Continue Liquidation

Marketing Agreement No. 133 and Order No. 990 (7 CFR Part 990), regulating the handling of Central California grapes for crushing, were operative pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and were terminated (29 F.R. 6521) effective July 1, 1964, by order dated May 15, 1964 (the procedure upon termination being as set forth in §§ 990.72(b) and 990.83, and the provisions of § 990.84 being and remaining in effect at and after the effective time of such termination). In conformity with § 990.83, the termination order provided that the members of the Grape Crush Administrative Committee functioning upon termination continue as joint trustees for the purpose of liquidating the affairs of the Committee.

The joint trustees, in accordance with said termination order and said sections, have liquidated the affairs of the Committee as follows:

(1) All books and records of the Committee and of the joint trustees have been transferred to the jurisdiction of the Fresno Marketing Field Office, Fruit and Vegetable Division, Consumer and Marketing Service, U.S. Department of Agriculture;

(2) All other property, including furniture and equipment of the Committee

## NOTICES

and of the joint trustees, has been sold and the proceeds therefrom distributed in accordance with said § 990.72(b);

(3) All funds, other than as specified in paragraph (4), have been distributed to persons entitled thereto; and

(4) Most of the proceeds from the disposition of the Surplus Pools of the 1961 and 1962 crop years have been distributed to the respective producers or their successors in interest, the remainder being retained, pending the outcome of litigation with respect to such pools, for subsequent distribution.

The joint trustees have thus liquidated the affairs of the Committee to the fullest extent practicable and there are no pending Committee matters which can now be resolved or completed by the joint trustees. Furthermore, distribution of the remainder of the funds can appropriately and effectively be handled by a smaller group of persons as successor trustees, and any possible claims vested in the Committee or the joint trustees under the marketing agreement, Order No. 990, and the termination order, can likewise be handled by the successor trustees under the supervision of the Secretary.

Therefore, the members of the Grape Crush Administrative Committee who are serving as joint trustees are, at the effective time hereof, hereby discharged and released from further serving as such joint trustees, and the persons hereinafter designated shall serve as successor trustees and continue with the liquidation of the affairs of the Committee in accordance with the applicable provisions of the marketing agreement, Order No. 990, and the termination order.

The said joint trustees are hereby directed (1) to transfer all funds on hand to the designated successor trustees, and (2) to execute such assignments or other instruments necessary or appropriate to vest in the successor trustees full title and right to any and all funds and claims vested in the Committee or the joint trustees. Upon compliance with such directives, the said joint trustees shall thereupon be, and become, released from any and all obligations as joint trustees under said marketing agreement, Order No. 990, and termination order.

The following persons are hereby designated to serve as successor trustees: Mr. A. Setrakian, San Francisco, Calif.; Col. Albert H. Burton, Fresno, Calif.; and Mr. O. C. Fuqua, Fresno Marketing Field Office, Fruit and Vegetable Division, Consumer and Marketing Service, Fresno, Calif., for whom Mr. Martin J. Kelly of that Office is designated to serve as alternate. The successor trustees shall (1) begin serving as such at the effective time hereof, (2) continue with the liquidation of the affairs of the Committee in accordance with the applicable provisions of the marketing agreement, Order No. 990, and the termination order, and (3) serve in such capacity until discharged by the Secretary.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: August 18, 1965, to become effective upon publication in the FEDERAL REGISTER.

### Notice of Extension of Temporary Permit To Cover Market Testing Enriched Bread Varying From the Standard of Identity

Pursuant to § 10.5(j) of Title 21, Code of Federal Regulations, concerning temporary permits to facilitate market testing foods deviating from the requirements of standards of identity established under authority of section 401 of the Federal Food, Drug, and Cosmetic Act, notice is given that the temporary permit held by Continental Baking Co., Post Office Box 73, Rye, N.Y., 10580, to cover interstate marketing tests of enriched bread deviating from the requirements of the standard of identity (21 CFR 17.2) is extended. The bread deviates from the standard in that it contains lactic stearate complying with § 121.1048 of the regulations covering food additives. The quantity of the lactic stearate is not to exceed 0.5 part for each 100 parts by weight of the flour used. The labels state "Lactic stearate added."

This extension of temporary permit expires August 1, 1966, or at any time prior thereto that an amendment to the standard becomes effective permitting the use of lactic stearate in bread.

### INBOUND CARGO AT NEW YORK HARBOR

#### Free Time and Demurrage Practices; Amended Order of Investigation and Hearing

By order served May 12, 1965, the Commission instituted an investigation into free time and demurrage practices on inbound cargo at New York Harbor specifically to determine whether its regulations embodied in General Order 8, Part I (46 CFR Part 526; 28 F.R. 10703, Oct. 4, 1963 or section 17 of the Shipping Act, 1916, had been violated during the period of congestion following the strike of longshoremen, and to determine if this general order should be amended to deal more adequately in the future with the problems resulting from a carrier's refusal or inability to tender cargo for delivery and a consignee's inability because of factors beyond his control to remove cargo.

Respondents in this proceeding have requested clarification of the order of investigation, alleging that it was intended to cover the practices occurring only under extraordinary circumstances.

The investigation in this proceeding is directed not only toward conditions resulting from the longshoremen's strike, but also conditions arising from time to time at one or more of the piers in New York Harbor. These conditions include situations where a consignee is unable to take delivery of cargo through no fault of his own because, among other things, of time needed for clearance by the Bu-

reau of Customs and for inspection by the Food and Drug Administration and the Department of Agriculture. Paragraph (5) of the operative portion of the order of investigation was designed to cover such situations.

This investigation is not, however, intended to include an examination into practices under normal conditions other than those resulting from the problem toward which paragraph (5) is directed.

Therefore, it is ordered, That paragraph (1) of the operative portion of the order of investigation be deleted and the following substituted therefor:

(1) Free time and demurrage practices in the Port of New York, applicable to periods when a strike of longshoremen is in progress or other circumstances interfere with the efforts of receivers of cargo to call for same at terminals and take delivery thereof, are unjust and unreasonable under section 17 of the Shipping Act, 1916.

By the Commission.

THOMAS LISI,  
Secretary.

## FEDERAL POWER COMMISSION

[Docket No. CP66-45]

### CONSOLIDATED GAS SUPPLY CORP.

#### Notice of Application

AUGUST 16, 1965.

Take notice that on August 10, 1965, Consolidated Gas Supply Corp. (Applicant), 445 West Main Street, Clarksburg, W. Va., 26302, filed in Docket No. CP66-45 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon its Kibbeville Measuring and Regulating facilities in Potter County, Pa., and its service to Empire Gas and Fuel Co (Empire), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it sells and delivers natural gas to Empire at the Kibbeville connection pursuant to a service agreement dated June 8, 1955. The gas is resold by Empire to Iroquois Gas Corp. (Iroquois) for distribution to consumers. Applicant also renders natural gas service to Iroquois under three service agreements dated June 15, 1953, April 17, 1961, and March 9, 1962.

The application states that Empire and Iroquois have advised Applicant of their desire to have Applicant deliver the gas which it is now delivering to Empire at the Kibbeville connection directly to Iroquois at existing delivery points in the State of New York, primarily at the Donovan Connection in Allegany County, N.Y.<sup>1</sup>

<sup>1</sup> On July 28, 1965, Empire filed an application in Docket No. CP66-31 requesting permission and approval to abandon its service to Iroquois.

Applicant and Iroquois have entered into a new service agreement dated April 23, 1965, which supersedes the existing service agreements between them. It is to become effective simultaneously with Applicant's abandonment of service to Empire.

The application states that the proposed shift in delivery points of up to 4,166 Mcf per day will have no significant operational effect.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before September 10, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

JOSEPH H. GUTRIE,  
Secretary.

### TRUNKLINE GAS CO.

#### Notice of Petition To Amend

AUGUST 16, 1965.

Take notice that on August 9, 1965, Trunkline Gas Co. (Petitioner), Post Office Box 1642, Houston, Tex., 77001, filed in Docket No. CP65-117 a petition to amend the order issued in said docket on March 15, 1965, to provide authorization for increased contract quantities to two of its existing resale customers, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

On March 15, 1965, the Commission issued a certificate of public convenience and necessity authorizing additional horsepower at various existing compressor stations, construction of a new compressor station at Ambia, Ind., and the installation of an additional river crossing at the Red River to provide increased contract quantities of natural gas to Consumers Power Co.

Petitioner states that after the issuance of the order, Illinois Power Co. and the city of Rensselaer, Ind., requested increased contract demands commencing during 1965 so as to meet their requirements for the 1965-1966 heating season, as follows:

	Volumes stated in Mcf		
	Presently authorized	Proposed Increase	Proposed contract demand
Illinois Power Co.	350	350	700
City of Rensselaer, Ind.	2,300	400	2,700
Totals	2,650	750	3,400

The petition states that the proposed increases, which are the result of normal market growth, may be served from unallocated capacity which will be available upon completion of the construction authorized in the order issued on March 15, 1965, and no new construction authorization will be required.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10), and the regulations under the Natural Gas Act (157.10) on or before September 10, 1965.

### UNITED GAS PIPE LINE CO.

#### Notice of Petition To Amend

AUGUST 16, 1965.

Take notice that on August 9, 1965, United Gas Pipe Line Co. (Petitioner), Post Office Box 1407, Shreveport, La., 71102, filed in Docket No. CP60-14 a petition to amend the order issued by the Commission in said docket on August 11, 1960, by authorizing the construction

and operation of certain facilities to increase the volumes of natural gas to be delivered to Chemstrand Co. (Chemstrand), a division of Monsanto Co., all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the order issued on August 11, 1960, the Commission granted Petitioner a certificate of public convenience and necessity authorizing the construction of certain facilities together with the delivery of limited quantities of natural gas. The deliveries of natural gas to Chemstrand were limited to 56,000 Mcf per day.

Petitioner now seeks authorization to deliver to Chemstrand up to 75,000 Mcf per day. Petitioner states that it and Chemstrand have entered into an amendatory agreement dated May 1, 1965, which is being filed as a part of Petitioner's I.C. No. 533, and which reflects the increased volumes. The estimated total annual deliveries during the third year following the increase are estimated to be 21,900,000 Mcf.

Chemstrand proposes to use the additional gas 26 percent to process raw material and 74 percent for the production of steam for process purposes and power generation.

Petitioner seeks authorization to install additional relief valves and to replace regulators and plug valves in the meter station serving Chemstrand in Escambia County, Fla. The petition to amend states that the pipeline capacity is sufficient but that the existing meter station has a capacity of only 66,000 Mcf.

The estimated cost of construction of the facilities is \$9,448.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before September 13, 1965.

## SECURITIES AND EXCHANGE COMMISSION

[812-1808]

### AXE-HOUGHTON FUND A, INC., ET AL.

#### Notice of Filing of Application for Order Exempting Proposed Transactions

AUGUST 18, 1965.

Notice is hereby given that Axe-Houghton Fund A, Inc. ("Fund A"), Axe-Houghton Stock Fund, Inc. ("Stock Fund"), and Axe Science Corp. ("Science Fund"), 400 Benedict Avenue, Tarrytown, N.Y., open-end diversified management investment companies registered under the Investment Company Act of 1940 ("Act"), and affiliated persons of each other (collectively referred to as "Applicants"), have filed a joint application pursuant to section 17(b) of the Act and Rule 17d-1 promulgated under section 17(d) of the Act. Applicants request an order of the Commission (1) exempting from the prohibitions of section 17(a) of the Act the proposed sale to Applicants by Panacolor, Inc., of debentures and shares of common stock of Panacolor, Inc., and (2) authorizing, pursuant to Rule 17d-1, the acquisition of Applicants of the debentures and stock.

All interested persons are referred to the application on file with the Commission for a statement of Applicants' representations, which are summarized below:

Panacolor, Inc. ("Panacolor"), a Delaware corporation, is engaged in the business of printing color film for the motion picture and television industries. It has currently issued and outstanding 1,142,921 shares of common stock of which Stock Fund owns 22,000 shares (1.9 percent) and Science Fund owns 42,000 shares (3.7 percent). No shares of Panacolor's common stock are presently owned by Fund A or by Axe-Houghton Fund B, Inc., a registered open-end diversified investment company which is affiliated with the Applicants. In addition, Stock Fund and Science Fund own warrants to purchase 10,000 and 20,000 shares, respectively, of Panacolor common stock on or before October 6, 1967, at a purchase price of \$7.50 per share.

Panacolor intends to sell to Applicants 15,000 shares of its common stock at \$10 per share. In addition, Panacolor will sell to Applicants an aggregate of \$150,000 principal amount of Panacolor's 6 percent Convertible Subordinate Debentures due November 1, 1970. The debentures may be converted in whole or in part at any time up to November 1, 1970, into shares of Panacolor common stock at a conversion price of \$7.50 per share on the \$150,000 principal amount. If all of the debentures are converted, Applicants will acquire 20,000 shares of Panacolor stock. Giving effect to a \$50,000 premium to be paid by Appli-

cants in connection with the acquisition of the debentures, the effective rate of conversion is at \$10 per share and the effective interest rate is 4.5 percent. The proceeds of the sale of debentures and stock will be used by Panacolor for additional working capital and for continued development of an audio-visual cartridge type projection device.

The debentures and stock to be purchased by Applicants will be acquired as units consisting of \$3,000 principal amount of the debentures and 300 shares of the stock. Fund A proposes to purchase 30 units, Stock Fund 10 units, and Science Fund 10 units, at a price of \$7,000 per unit.

In determining the number of units to be purchased by each of the Applicants, the principal factors which their respective investment advisers considered were the investment objectives of the Applicants, the size of the portfolio holdings by the Applicants of the same or comparable securities and the relative sizes of Applicants' portfolios. On August 11, 1965, the net asset value of the respective portfolios of the Applicants were approximately as follows: Fund A \$46,000,000; Science Fund \$23,000,000; and Stock Fund \$10,000,000. Stock Fund and Science Fund are further limited as to the number of units which they may purchase by the provision of the California Blue Sky Law which limits the aggregate investment which an investment company may have in the securities of one company to not more than 5 percent of the market value of such investment company's assets.

If Applicants consummate the proposed purchase agreements, Panacolor would then have issued and outstanding 1,157,921 shares of common stock, of which Fund A would own 9,000 shares (0.8 percent), Stock Fund would own 25,000 shares (2.2 percent), and Science Fund would own 45,000 shares (3.9 percent). If all the warrants owned by Stock Fund and Science Fund were exercised and if Applicants were to convert into common stock all of the debentures they would acquire upon consummation of the proposed purchase agreement, Panacolor would then have issued and outstanding 1,207,921 shares of common stock, of which Fund A would own 21,000 shares (1.7 percent), Stock Fund would own 39,000 shares (3.2 percent), and Science Fund would own 69,000 shares (5.7 percent). Neither Stock Fund nor Science Fund has any present intention of exercising any or all of the warrants they hold. Applicants have no present intention of exercising the conversion rights in the debentures if and when issued. Panacolor also has options, warrants, and convertible debentures outstanding in addition to those held by Applicants which entitle the holders thereof to acquire an aggregate of 466,989 shares of Panacolor common stock. The exercise of any or all of those options, warrants, or conversion rights would diminish the percentages of the outstanding Panacolor common stock owned by Applicants.

Fund A, Stock Fund, and Science Fund each has on its board of directors individuals who are also directors of one

or more of the other funds; three persons act as directors of each of the funds, and one of the officers of each of the funds also serves the other funds in a similar capacity. Each of the funds employs Axe Securities Corp. as its principal underwriter and Fund A and Stock Fund employ E. W. Axe & Co., Inc. as investment adviser. Science Fund employs as investment adviser Axe Science Management Co., Inc., which is under common control with E. W. Axe & Co., Inc. and Axe Securities Corp. Some of the officers and directors of each of the funds are also affiliated with E. W. Axe & Co., Inc., Axe Securities Corp., and Axe Science Management Co., Inc. R. H. Axe is the chief executive officer of Fund A, Stock Fund, Science Fund, and of each of their investment advisers. In view of the above and other circumstances, R. H. Axe might be deemed to control Stock Fund and Science Fund, and to control indirectly the Panacolor common stock owned by Stock Fund and Science Fund, which in the aggregate constitutes more than 5 percent of the Panacolor voting securities now outstanding. Therefore, Panacolor might be deemed to be an affiliate of R. H. Axe, who in turn, as an officer and director of the funds, is an affiliated person of each of the Funds within the meaning of section 2(a)(3) of the Act.

The application states that the proposed purchases of the units consisting of convertible debentures and shares of common stock by the Applicants are consistent with their respective investment policies, as recited in their registration statements and reports filed under the Act. Applicants assert that the fairness of the terms of the proposed debentures, including the conversion price, and the terms of the proposed purchase of the shares of common stock, including the consideration to be paid, is shown by comparing the \$10 per share conversion price and purchase price, respectively, with the closing bid price for Panacolor common stock in the over-the-counter market on June 18, 1965, the date of the purchase agreements. The closing bid price for Panacolor common stock on June 18, 1965, was \$11 per share. The application states that the high and low bid prices for Panacolor stock in the last half of 1964 were 14 and 4, respectively, and that in the first half of 1965, bids for Panacolor common stock ranged from a low of 10% to a high of 25. Applicants also assert that the terms of the proposed purchase agreements are fair since the conversion price of the debentures and the purchase price of the stock is \$5 less per share than the exercise price of options granted by Panacolor to certain of its officers and key employees on March 19, 1965.

Panacolor was organized in June 1957, and commenced commercial production in 1963. In 1964, Panacolor shut down its production units to allow certain structural modifications. Panacolor resumed commercial printing of color film in 1965, and in addition, is presently developing a new audio-visual cartridge type projection device. Panacolor has

had no income from operations to date, and has reported a continuing deficit.

Section 17 of the Act, as here pertinent, prohibits Panacolor, an affiliated person of R. H. Axe, who is in turn an affiliated person of each of Applicants from selling its securities to Applicants unless the Commission grants an exemption upon a finding that the terms of the proposed transaction, including the consideration to be paid, are fair and reasonable, and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of each of Applicants, as recited in its registration statement and reports filed under the Act, and is consistent with the general purposes of the Act.

Section 17(d) of the Act and Rule 17d-1 thereunder, taken together, provide, as here pertinent, that it shall be unlawful for an affiliated person of a registered investment company, acting as principal, to participate in, or to effect any transaction in connection with, any joint transaction or arrangement in which any such registered company is a participant unless an application regarding such arrangement has been granted by the Commission and that, in passing upon such application, the Commission will consider whether the participation of such registered company in such arrangement is consistent with the provisions, policy, and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants. Applicants do not concede that section 17(d) of the Act and Rule 17d-1 thereunder are applicable to the proposed transactions, but seek relief thereunder in order to eliminate any questions as to full compliance with section 17 of the Act.

In October, 1964, Panacolor sold to Stock Fund 20,000 shares of Panacolor common stock and warrants to purchase an additional 10,000 such shares. At the same time, Panacolor sold to Science Fund 40,000 shares of Panacolor common stock and warrants to purchase an additional 20,000 shares. Stock Fund and Science Fund have not filed an application under section 17 of the Act seeking an order of the Commission authorizing those acquisitions, and the Commission has issued no such order. No relief under section 17 is sought by the present application for those transactions.

Notice is hereby given that any interested person may, not later than September 2, 1965, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles

from the point of mailing) upon applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in such application, unless an order for hearing shall be issued upon request or upon the Commission's own motion.

For the Commission (pursuant to delegated authority).

### ELECTRO-SCIENCE INVESTORS, INC.

#### Notice of Filing of Application for Order Exempting Transactions Between Affiliated Persons

AUGUST 18, 1965.

Notice is hereby given that Electro-Science Investors, Inc. ("ESI"), First Bank & Trust Building, Richardson, Tex., a Texas corporation licensed under the Small Business Investment Act of 1958 and a registered closed-end, nondiversified management investment company, has filed an application under section 17(b) of the Investment Company Act of 1940 ("Act") for an order exempting from the provisions of section 17(a) of the Act certain proposed transactions between ESI and General Electronic Control, Inc. ("GEC"), a Minnesota corporation and a small business concern as defined by the Small Business Administration for purposes of the Small Business Investment Act. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

GEC through wholly owned subsidiaries is engaged in the manufacture and sale of electronic devices. GEC has adopted a plan of recapitalization. As an initial step, GEC will convert each of its 1,579,622 outstanding shares of common stock of \$0.10 par value into  $\frac{1}{2}$ th share of common stock of \$0.50 par value, and will change its name to Staco, Inc. GEC will issue 43,125 shares of the common stock to ESI upon the exercise of warrants which ESI holds to purchase such shares at an adjusted exercise price of \$2.00 per share. Unpaid interest owing by GEC to ESI in the amount of \$86,250 will be canceled in payment for the shares.

GEC will also issue to ESI 64,785 shares of common stock in consideration of the surrender of a \$75,000 principal amount Subordinated Second Mortgage Note of GEC held by ESI, and cancellation of the balance of unpaid interest, aggregating \$132,312, on such mortgage note and on a \$900,000 principal amount Series B  $\frac{1}{2}$  percent Subordinated Convertible

Debenture due September 14, 1966, of GEC's. The principal amount of the note and the unpaid interest, totaling \$207,312, is approximately equal to the total market value of the common stock to be issued therefor, based on the May 5, 1965, per share average between the bid and asked prices of such common stock after giving effect to the one for eight reverse split.

ESI will surrender the \$900,000 principal amount Series B  $\frac{1}{2}$  percent Subordinated Convertible Debenture and in exchange therefor GEC will issue to ESI 36,000 shares of a newly authorized Series A  $\frac{1}{2}$  percent Cumulative Convertible Preferred Stock. This preferred stock will have a par value of \$25 per share and be entitled to cumulative dividends at an annual rate of  $\frac{1}{2}$  percent. It will also be entitled, in the event of voluntary or involuntary liquidation, to a preference to the extent of its par value and any dividend arrears, and after payment of such par value and dividend arrears and \$5.00 per share on the common stock, to share in the remaining assets with the common stock on the basis of each share of preferred stock being deemed equal to five shares of common stock. The preferred stock is convertible into common stock at the rate of five shares of common stock for each share of preferred stock, and is entitled in all matters to five votes per share. As a result of the recapitalization, ESI will own 63.2 percent of the voting securities of GEC.

The application represents that GEC is in default upon its obligations under the debentures and notes held by ESI and it is unlikely that it will be able to retire such obligations because of their large amount and because of other outstanding long-term debt senior to such obligations.

It is also represented that earnings forecasts indicate the ability of GEC to meet the current dividend requirements of the newly issued preferred stock which ESI will acquire. It is further represented that, as a practical matter, ESI's position as a preferred stockholder rather than a debt holder will not be prejudiced in the event of GEC's liquidation, and as the largest common stockholder of GEC it will benefit proportionately from the increase in book value and expected market value of such shares resulting from the recapitalization.

GEC and ESI are "affiliated persons" as defined by section 2(a)(3) of the Act. Section 17(a), as here pertinent, prohibits an affiliated person of a registered investment company or a company controlled by such registered company to sell to or buy from such registered or controlled company any security or property. The Commission may, pursuant to application under section 17(b), grant an exemption from such prohibitions after finding that the terms of the proposed transaction are reasonable and fair and do not involve overreaching and that the proposed transaction is consistent with the policy of the registered investment company and the general purposes of the Act.

Notice is further given that any interested person may, not later than September 3, 1965, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued by the Commission upon the basis of the information stated in the application, unless an order for hearing upon said proposal shall be issued upon request or upon the Commission's own motion.

It is ordered That the Secretary of the Commission shall send a copy of this notice by certified mail to the Director, Office of Investment Assistance, Small Business Administration, Washington, D.C., 20416.

For the Commission (pursuant to delegated authority).

### Notice of Filing of Applications for an Order Exempting Proposed Trans- actions

AUGUST 18, 1965.

Notice is hereby given that Second Ohio Capital Fund, Inc., 812-1816, 812-1819, 812-1820 ("the fund"), 51 North High Street, Columbus, Ohio, 43215, an Ohio corporation and an open-end diversified investment company registered under the Investment Company Act of 1940 ("the Act"), has filed three applications under section 17(b) seeking exemptions from section 17(a) of the Act of the proposed sales of securities to the fund. Capitol Square Corp. has joined in one of the applications and the Ohio Co. has joined in another. All interested persons are referred to the applications on file with the Commission for a statement of the applicants' representations which are summarized below.

The fund, a recently organized investment company, is publicly offering to exchange shares of its common stock for securities of other companies deposited by investors with a designated escrow agent on or before August 9, 1965. As of such date the market value of the deposited shares was \$6,199,963. The terms of the offer provide, among other things, that within certain specified periods of time prior to the consummation of the exchange, the fund may accept or reject any such deposited securities and the depositor may withdraw his deposited securities from the escrow.

For the purpose of consummating the exchange the deposited securities will be valued on the last business day prior to the exchange and a sales charge will be deducted from such value. Shares of the fund having a net asset value of \$25 per share will be issued to the depositors on the above stated basis of valuation. The applications state that the exchange will be free from Federal capital gains taxes and the fund will have the same tax cost basis as the depositors had for the securities acquired from them.

Section 17(a) of the Act, with certain exceptions not here relevant, prohibits the sale of securities or other property to a registered investment company by affiliated persons of such a company, or by affiliated persons of such affiliated persons. The fund proposes to purchase, by exchange, common stocks from various affiliated persons, as set forth in the table below. This table shows as of closing date of the offering on August 9, 1965, the market value of such common stocks, the depositors estimated tax basis, and the percentage of such market value represented by such tax basis.

<sup>1</sup> The fund will reject the number of shares of the Huntington National Bank of Columbus (presently estimated at 5,100 shares) necessary to reduce their total value to no more than 5 percent of the value of the total assets of the fund upon the consummation of the exchanges.

<sup>2</sup> Total average.

In support of the applications it is represented that: (i) The common stocks shown in the above table are actively traded on registered securities exchanges, or in the over-the-counter market, and their value will be determined by their quoted closing sales prices on the valuation date, or if no such quotations are available, by reasonably current bid prices; (ii) the percentages of the estimated tax basis to the market value of the common stock deposited by each of the above named affiliated persons exceed the 21-percent average applicable to the securities deposited by unaffiliated persons as of August 9, 1965; and (iii) none of the above named depositors is an "underwriter" with respect to the securities he has deposited and none is in a "control" relationship with respect to the issuer thereof, as defined by the Securities Act of 1933.

The proposed sales of common stock described above would be prohibited by section 17(a) of the Act unless the Commission issues an order exempting such sales from the provisions thereof. Under section 17(b) of the Act, the Commission shall grant an exemption from the prohibitions of section 17(a) of the Act if it finds that the terms of the proposed transactions are reasonable and fair and do not involve overreaching on the part of any person concerned; that the proposed transactions are consistent with the policy of the registered investment company concerned, as recited in the registration statement and reports filed under the Act, and with the general purposes of the Act.

Notice is further given that any interested person may, not later than September 2, 1965, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in the case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DuBOIS,  
Secretary.

### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 19, 1965.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules in Ex Parte No. MC 67 (49 CFR Part 240), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protest must be specific as the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined, at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

#### MOTOR CARRIERS OF PROPERTY

No. MC 2229 (Sub-No. 133 TA), filed August 16, 1965. Applicant: RED BALL MOTOR FREIGHT, INC., 3177 Irving Boulevard, Post Office Box 10837, Dallas, Tex., 75207. Applicant's representative: Charles D. Mathews (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities including class "A" and "B" explosives* (but excluding household goods and commodities requiring special equipment) between Memphis, Tenn., and Monroe and West Monroe, La., from Memphis to Leland, Miss., over U.S. Highway 61, thence over U.S. Highway 82 to Montrose, Ark., thence over U.S. Highway 165 to Monroe, thence over U.S. Highway 80 to West Monroe (also from Montrose, Ark., over U.S. Highway 82 to junction Arkansas Highway 81; thence over Arkansas Highway 81 to Arkansas-Louisiana State Line; thence over Louisiana Highway 139 to Bastrop, La.; thence over U.S. Highway 165 to Monroe; and thence over U.S. Highway 80 to West Monroe); and (also from junction U.S. Highways 65 and 82 over U.S. Highway 65 to Eudora, Ark.; thence over Arkansas State Highway 159 to the Arkansas-Louisiana State Line; thence over Louisiana Highway 17 to Oak Grove, La.; thence over Louisiana Highway 2 to Bastrop, thence over U.S. Highway 165 to Monroe, and thence over U.S. Highway 80 to West Monroe), and return over the same routes, serving no intermediate points not presently authorized to be served under existing certificate, for 180 days.

NOTE: Applicant, pursuant to MC-2229 (Sub-No. 119), presently operates between Memphis, Tenn., on the one hand, and, on the other, Monroe and West Monroe, La., but in said authority it is restricted and prohibited from transporting any shipment over its existing routes moving between Memphis, Tenn., on the one hand, and, on the other, Monroe and West Monroe, La. The purpose of this application is to remove said restriction insofar as it relates to service between Memphis, Tenn., and Monroe and West Monroe, La., in its existing Sub 119 authority. Applicant pursuant to its existing authority presently operates over a network of regular routes in the States of Colorado, New Mexico, Oklahoma, Texas, Louisiana, Arkansas, Tennessee, Mississippi, and Alabama. No duplicating authority is sought. Supporting shipper: There are 46 shipper support letters and statements attached to the application which may be examined here at the Commission in Washington, D.C. Send protests to: E. K. Willis, Jr., District Supervisor, Bureau of Operations and Compliance, Interstate Commerce Commission, 513 Thomas Building, 1314 Wood Street, Dallas, Tex., 75202.

No. MC 23939 (Sub-No. 158 TA), filed August 16, 1965. Applicant: ASBURY TRANSPORTATION CO., 2222 East 38th Street, Los Angeles 58, Calif. Authority sought to operate a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid hydrogen*, in bulk,

in specially designed trailer equipment, between the plantsite of Air Products and Chemicals, Inc., located near Long Beach, Calif., the plantsite of Air Products and Chemicals, Inc., located in Orleans Parish, La., and the National Aeronautics and Space Administration missile test facility located at Gainesville, Hancock County, Miss., for 150 days. Supporting shipper: Air Products and Chemicals, Inc., Post Office Box 9187, Long Beach 10, Calif. Send protests to: District Supervisor Salm, Bureau of Operations and Compliance, Interstate Commerce Commission, 300 North Los Angeles Street, Room 7708, Los Angeles, Calif., 90012.

**PUBLIC PAPERS OF THE PRESIDENTS OF THE UNITED STATES**

*John F. Kennedy, 1963*

Contains verbatim transcripts of the President's news conferences and speeches and full texts of messages to Congress and other materials released by the White House during the period January 1–November 22, 1963.

Among the 478 items in the book are: special messages to the Congress on education, youth conservation, needs of the Nation's senior citizens, and on improving the Nation's health; radio and television addresses to the American people on civil rights and on the nuclear test ban treaty and the tax reduction bill; joint statements with leaders of foreign governments; and the President's final remarks at the breakfast of the Fort Worth Chamber of Commerce. Also included is the text of two addresses which the President had planned to deliver on the day of his assassination; President Johnson's proclamation designating November 25 a national day of mourning; and remarks at the White House ceremony in which President Kennedy was posthumously awarded the Presidential Medal of Freedom.

A valuable reference source for scholars, reporters of current affairs and the events of history, historians, librarians, and Government officials.
