Guide to Record Retention Requirements

[Revised as of January 1, 1965]

This useful reference tool is designed to keep industry and the general public informed concerning published requirements in laws and regulations relating to records-retention. It contains about 900 digests detailing the retention periods for the many types of records required to be kept under Federal laws and rules.

The "Guide" tells the user (1) what records must be kept, (2) who must

keep them, and (3) how long they must be kept. Each digest also includes a reference to the full text of the basic law or regulation governing such retention.

The booklet's index, numbering over 2,000 items, lists for ready reference the categories of persons, companies, and products affected by Federal record-retention requirements.

Price: 40 cents

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., 20402

Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$1.50 per month or \$15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 7—AGRICULTURE**Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture****SUBCHAPTER G—DETERMINATION OF PROPORTIONATE SHARES**

[850.147, as amended; Supp. 12]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA**Nevada Proportionate Share Areas and Farm Proportionate Shares for 1965 Crop**

Pursuant to the provisions of § 850.147 (29 F.R. 14620, 15801, 17029), the Agri-

cultural Stabilization and Conservation Nevada State Committee has issued the bases and procedures for dividing the State into proportionate share areas and establishing individual farm shares for the 1965 sugarbeet crop from acreage allocated and from any unused acreage redistributed to Nevada. Copies of these bases and procedures are available for public inspection at the office of the Agricultural Stabilization and Conservation Committee, 1479 South Wells Avenue, Reno, Nev., and at the offices of the Agricultural Stabilization and Conservation Committees in the sugarbeet producing counties in Nevada. These bases and procedures incorporate the following:

§ 850.159 Nevada.

(a) *Proportionate share area.* Nevada shall be divided into three proportionate share areas, each area consisting of a single sugarbeet producing county. The areas shall be designated Area I (Churchill County), Area II (Pershing County), and Area III (Washoe County). Acreage allocations of 443.4, 1,115.0 and 782.8 acres respectively, are established for these areas on the basis of a formula giving 30 percent weighting to the average accredited acreage for the crop years 1962 and 1963 and 70 percent weighting to the accredited acreage for the crop year 1964 for each area as a measure of "past production" and "ability to produce" sugarbeets, with prorata adjustments to the State allocation less such set-asides as provided in paragraph (b) of this section.

(b) *Set-asides of acreage.* Set-asides of acreage shall be made from the State acreage allocation as follows: 12 acres for new producers and 12 acres for appeals and adjustments in initial shares.

(c) *Requests for proportionate shares.* A request for each farm share shall be filed at the local ASC County Office on Form SU-100, Request for Sugarbeet Proportionate Share, under the conditions, and on or before the closing date for such filing, as provided in § 850.147. If a preliminary request for a tentative farm share is filed as provided in § 850.147, a fully-completed Form SU-100 shall be filed by April 12, 1965. However, requests for shares may be accepted after such dates and shares may be established if the State Committee determines that in any such case the farm operator was prevented from filing a completed Form SU-100 by such dates because of illness or other reasons beyond his control, and provided further, that requests may be accepted generally by the State committee after such date if acreage is available within the area allotment.

(d) *Establishment of individual proportionate shares for old-producer farms—(1) Farm bases—(i) Area I and Area III.* For each old-producer farm, a farm base shall be determined on the basis of a formula giving 30 percent weighting to the average accredited acreage of the farm for the crop years 1962 and 1963 and 70 percent weighting to the accredited acreage record for the crop year 1964.

(ii) *Area II.* For each old-producer farm, a farm base shall be determined on the basis of the personal accredited acreage record of the person who will operate such farm for the 1965-crop year. The base shall be determined on the basis of a formula giving a 30 percent weighting to the average of the personal accredited acreage record, within the area, of such operator for the crop years 1962 and 1963 and a 70 percent weighting to such record for the crop year 1964.

(2) *Initial proportionate shares.* For Area I, the total of individual farm bases for old-producer farms in the State, as established pursuant to this paragraph, is less than the area allotment. Accordingly, initial proportionate shares shall be established from farm bases as follows: For farms for which the respective requested acreages are equal to or less than their farm bases, the initial shares shall coincide with the requested acreages; and for all other farms, initial shares shall be computed by prorating to such farms in accordance with their respective bases, the area allotment less such set-asides and the total of the initial shares of the farms for which the requested acreages are equal to or less than their farm bases. The proration factor for the area shall be 1.5374. For Areas II and III, the total of the individual farm bases for old-producer farms, as established pursuant to this paragraph, exceeds the area allotment. Accordingly, initial shares shall be established from the farm bases in each such area by prorating the area allotment to the farms in accordance with their respective bases, but not in excess of their requests. The proration factor for each area shall be 0.91901.

(e) *Establishment of individual proportionate shares for new-producer farms.* The State committee has determined that a 12 acre share is the minimum acreage which is economically feasible to plant as a new-producer farm share. Since only one share may be established within the acreage set aside for new producers no distribution of such acreage will be made. In determining whether a farm for which a request is filed for a new-producer share may qualify for such a share, and to assist in establishing new-producer share which is fair and equitable as to relative size among qualified farms, the State committee, by taking into consideration availability and suitability of land, availability of irrigation water, adequacy of drainage, the production experience of the operator, and the availability of production and marketing facilities, shall rate each farm, as provided in § 850.147 (k), and shall establish a new-producer farm share as provided therein.

(f) *Adjustments and appeals.* Within the acreage available from the set-aside for adjustments and appeals, and from any acreage of initial shares in excess of requested acreages in each proportionate share area, adjustments may be made in initial shares for old producers so as to establish a share for each farm which is fair and equitable as compared with shares for all other farms in the area by

taking into consideration availability and suitability of land, area of available fields, crop rotation, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities and the production experience of the operator. Such acreage shall also be used to make adjustments in shares under appeals to establish fair and equitable shares in accordance with the provisions of § 891.1 of this chapter applicable to appeals.

(g) *Adjustments because of unused or unallotted acreage.* Any acreage made available during the 1965-crop season by under planting or failure to plant proportionate share acreage on farms in any county shall be reported to the ASC State Committee. Acreages released and so reported, together with available acreages from unused set-aside or from other sources of unused acreage shall be distributed to farms in the State whereon additional acreage may be used. Such distribution shall be made prior to September 1, 1965.

(h) *Notification of farm operators.* The farm operator shall be notified concerning the share established for his farm on Form SU-103, Notice of Farm Proportionate Share—1965 Sugarbeet Crop, even if the acreage established is "none." In each case of approved adjustment, whether resulting from the release of acreage, the redistribution of unused acreage, appeals, or the reconstitution of the farm, the farm operator shall be notified regarding the adjusted share on a Form SU-103 marked "revised." For each tentative share which is established, the person filing the request for such share shall be notified on a Form SU-103-B specifying that such tentative share does not constitute a farm share for the purpose of payment under the Sugar Act of 1948, as amended.

(i) *Redetermination of proportionate share.* The share determined for any farm which is subdivided into, combined with, or becomes a part of another farm or farms shall be redetermined as provided in § 850.147.

(j) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.147.

Statement of bases and considerations. This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation, Nevada State Committee for determining farm proportionate shares in Nevada for the 1965 crop of sugarbeets.

Informal relationships are maintained with grower and processor representatives. In establishing proportionate shares for old producers, the factors of "past production" and "ability to produce" sugarbeets are measured, in Area I, by a formula which gives a 30 percent weighting to the average accredited acreage for the farms for the crop years 1962 and 1963 and 70 percent weighting to the 1964 record. In Areas II and III,

such factors are measured by applying the formula to the accredited acreage record of the operator for the same crop years. One 12 acre new-producer share was established in accordance with the provisions of § 850.147. Such share was determined to be a minimum economic unit.

The bases and procedures for making adjustments in initial proportionate shares and for adjusting shares subsequently because of unused acreage and appeals are designed to provide a fair and equitable proportionate share for each farm of the total acreage of sugarbeets required to enable the domestic beet sugar area to meet its quota and provide a normal carryover inventory.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 184, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such lemons as will provide, in the interest of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to

be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 910.484 (Lemon Reg. 184, 30 P.R. 13529) are hereby amended to read as follows:

PART 1602—PARTICIPATION OF RETAIL FOOD STORES, WHOLESALE FOOD CONCERNS AND BANKS

Participation of Retail Food Stores

The regulations governing the Food Stamp Program, as issued in 30 P.R. 6859, are amended as follows:

Paragraph (b) of § 1602.2 is amended to read as follows:

§ 1602.2 Participation of retail food stores.

(b) Coupons shall be accepted by an authorized retail food store only in exchange for eligible foods, as defined in § 1600.2(i) of this chapter. A food retailer shall not knowingly accept coupons for any imported meat or meat products. The acceptance of coupons for meat or meat products which are labeled or can be identified as imported when they are delivered to the retail food store or to a central warehouse, a distribution center or meat fabricating facility, operated by the food retailer shall be deemed to have been done with knowledge of the fact

that such meat or meat products were imported. Any other food product which is clearly identified on the package as being imported shall not be exchanged for coupons. Coupons shall be accepted for eligible foods at the same prices and on the same terms and conditions applicable to cash purchases of the same foods at the same store: *Provided, however*, That nothing in this part shall be construed as authorizing C&MS to specify the prices at which food may be sold by retail food stores.

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX [T.D. 6861]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DE- CEMBER 31, 1953

Foreign Tax Credit

In order to amend the Income Tax Regulations (26 CFR Part 1) under section 902 of the Internal Revenue Code of 1954 to provide rules respecting the choice of controlling United States shareholders to compute earnings and profits of a foreign corporation under the rules of § 1.964-1, such regulations are amended as follows:

Section 1.902-3 is revised by adding a new subdivision (iii) to paragraph (c) (5) which reads as follows:

§ 1.902-3 Credit for domestic corporate shareholder of a foreign corporation (after amendment by Revenue Act of 1962).

(c) *Determination of accumulated profits and taxes paid on or with respect thereto.* * * *

(5) *Determination of earnings and profits.* * * *

(iii) *Time and manner of making choice.* The controlling United States shareholders (as defined in paragraph (c) (5) of § 1.964-1) of a foreign corporation shall make the choice referred to in subdivision (i) of this subparagraph (including the elections permitted by paragraphs (b) and (c) of § 1.964-1) by filing a written statement to such effect with the Director of International Operations, Washington, D.C., 20225, within 180 days after the close of the first taxable year of the foreign corporation during which such shareholders receive a distribution of earnings and profits with respect to which the benefits of this section are claimed or on or before November 15, 1965, whichever is later. For purposes

of this subdivision, the 180-day period shall commence on the date of receipt of any distribution which is considered paid from the accumulated profits of a preceding year or years under subparagraph (6) of this paragraph. See paragraph (c) (3) (ii) and (iii) of § 1.964-1 for procedures requiring notification of the Director of International Operations and noncontrolling shareholders of action taken.

Because it is necessary to provide at the earliest practicable date the rules of this Treasury decision respecting determination of earnings and profits of foreign corporations for purposes of the foreign tax credit under section 902, it is hereby found that it is impracticable to issue this Treasury decision with notice and public procedure thereon under section 4(a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4(c) of that Act.

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS

PART 264—REGISTRATION AND FIN- GERPRINTING OF ALIENS IN THE UNITED STATES

PART 299—IMMIGRATION FORMS Miscellaneous Amendments

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

1. Paragraph (c) *Additional fees* of § 103.7 *Records and fees* is amended in the following respects:

a. The third item which reads as follows is deleted:

For filing application for alien laborer's permit in lieu of one lost, mutilated, or destroyed..... \$1.00

b. The sixth item is amended to read as follows:

For filing application for Alien Registration Receipt Card (Form I-151), in lieu of one lost, mutilated or destroyed, or in a changed name..... \$5.00

2. Paragraph (a) *Prescribed registration forms* of § 264.1 *Registration and fingerprinting* is amended with respect to Form I-485 to read as follows:

applicant for extension of his temporary stay or change of nonimmigrant classification. Application by an alien lawfully admitted for permanent residence for Form I-151, Alien Registration Receipt Card, in lieu of one lost, mutilated or destroyed, or who requests issuance of such card in a name which has been changed after registration by order of any court of competent jurisdiction or by marriage, shall be made on Form I-90 accompanied by the fee required by § 103.7(c) of this chapter, two photographs and, when issuance of Form I-151 is desired in a changed name, by appropriate documentary evidence of such change. Any Form I-151 in the applicant's possession must also be submitted with the application. An application on Form I-90, with two photographs, but without fee, is required for issuance of Form I-151 in the case of a lawful permanent resident who surrenders evidence of registration on other than Form I-151; who establishes that Form I-151 was not received by him when the Form I-151 sent to him has not been returned to the issuing Service office; who is the holder of a Form I-151 which is in poor condition because of improper lamination and surrenders such form, or in the case of an alien who has attained the age of fourteen and is seeking to be registered and fingerprinted pursuant to section 262(b) of the Act and who surrenders evidence of registration previously issued to him. An application by an alien within the United States for replacement of evidence of registration shall be submitted to the Service office having jurisdiction over the applicant's place of residence in the United States. An alien lawfully admitted for permanent residence who is outside the United States shall submit his application for a new Form I-151 in person or through an American consular officer to the Service office stationed outside the United States having jurisdiction over the place where the applicant is temporarily sojourning or, if physically present in the area of jurisdiction of the following consular officers directly to such a consular officer in South America (except Venezuela), in areas of Asia lying to the east of the western borders of Afghanistan and Pakistan (but not including Hong Kong and adjacent islands, Taiwan, Japan, Okinawa, Korea, and the Philippines), in Australia, New Zealand, Bulgaria, Czechoslovakia, Hungary, Iceland, Rumania, the Union of Soviet Socialist Republics, Iran, Iraq, Jordan, Saudi Arabia, Syrian Arab Republic, Yemen, Aden, Kuwait, and in Africa (including the United Arab Republic). An application filed abroad will be forwarded to the district director having jurisdiction over the alien's place of residence in the United States and, if the application is approved, Form I-151 will be transmitted to the Service office stationed outside the United States or the American consular officer for delivery to the applicant. An alien who files application Form I-90 may be required, as a matter of discretion, to appear in person before an immigration officer prior to adjudication of the application and be interrogated under oath concerning

his eligibility for issuance of Form I-151 as evidence of his registration. If the applicant is outside the United States, such interrogation may be conducted by an immigration officer or a consular officer. The decision on an application for replacement of evidence of registration shall be made by the district director having jurisdiction over the alien's place of residence in the United States. No appeal shall lie from the decision of the district director denying the application.

(1) *Registration and fingerprinting of children who reach age fourteen.* Within 30 days after reaching the age of fourteen, any alien in the United States not exempt from alien registration under the Act and this chapter shall present himself to a Service office for registration in accordance with section 262(b) of the Act, and for fingerprinting unless fingerprinting is waived pursuant to paragraph (e) of this section. He shall submit Form I-90 if he is a lawful permanent resident, or Form I-102 if he is not a lawful permanent resident. If such alien is a lawful permanent resident of the United States and is temporarily absent from the United States when he reaches the age of fourteen, he shall comply with the foregoing within 30 days of his return to the United States. The alien, if a lawful permanent resident of the United States, shall surrender his prior evidence of alien registration and shall be issued Form I-151 bearing a photograph submitted by him in accordance with the instructions on Form I-90. In the case of an alien who is not a lawful permanent resident, the Form I-102 and evidence of registration in his possession shall be noted to show that he has been registered and the date of registration.

5. The references to Forms I-90 and I-102 in the list of forms in § 299.1 *Prescribed forms* are amended to read as follows:

Form No.	Title and description
I-90	Application by Lawful Permanent Resident Alien for Alien Registration Receipt Card, Form I-151.
I-102	Application by Nonimmigrant Alien for Replacement of Arrival Document or for Alien Registration.

This order shall be effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order relate to agency procedure.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Airspace Docket No. 65-AL-29]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to revoke the Portage, Alaska, transition area. The Portage, Alaska, radio beacon was partially destroyed and removed from service as a result of the 1964 earthquake. The facility was formally decommissioned on June 9, 1964. Therefore, the requirement for a transition area with a 1,200-foot floor is no longer necessary at this location.

Since this amendment imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective within less than the 30-day statutory period.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended upon publication in the FEDERAL REGISTER as hereinafter set forth:

In § 71.181 (29 F.R. 17690), the Portage, Alaska, transition area is deleted. (Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Anchorage, Alaska, on October 21, 1965.

Director, Alaskan Region.

[Airspace Docket No. 65-SO-31]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Colored Federal Airway, Additional Control Area and Designation of Reporting Point

The purpose of these amendments to Part 71 of the Federal Aviation Regulations is to redesignate Blue 48 Federal airway, Control 1230, and the Gulf Stream INT reporting point, due to the relocation of the Miami, Fla., radio beacon.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices, by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 and Annex 11 to the Convention on International Civil Aviation (ICAO), which pertains to the establishment of air navigation facilities and services necessary to promoting the safe, orderly and expeditious flow of civil air traffic. Its purpose is to insure that

civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

On January 6, 1966, the Miami RBN will be relocated from its present site at latitude 25°55'47" N., longitude 80°25'15" W., to latitude 25°47'49" N., longitude 80°23'05" W. This relocation will position the RBN at the ILS outer marker serving Runway 9L at the Miami International Airport. This relocation will require a slight adjustment to the descriptions of the foregoing controlled airspaces and reporting point. Because these readjustments will involve a small amount of controlled airspace and the requirement for the descriptions to conform to the relocation of the Miami RBN on January 6, 1966, the Administrator finds that notice and public procedure hereon are impracticable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001, e.s.t., January 6, 1966, as hereinafter set forth.

a. In § 71.109 (29 F.R. 17507) Blue 48 Federal airway is amended to read:

B-48: From INT of the 077° bearing from the Marathon, Fla., RBN and the 151° bearing from the Miami, Fla., RBN; to the Miami RBN.

b. In § 71.163 (29 F.R. 17552) Control 1230 is amended to read:

That airspace extending from the Miami, Fla., RBN to the INT of the Miami RBN 275° bearing and the eastern boundary of the Miami Oceanic control area, excluding the airspace below 2,000 feet MSL outside the United States, and the airspace within W-168.

c. In § 71.209 (29 F.R. 17721) the Gulf Stream INT is amended to read:

Gulf Stream INT: INT 077° bearing Marathon, Fla., RBN, 151° bearing Miami, Fla., RBN.

(Secs. 307(a) and 1110 of the Federal Aviation Act of 1958; 49 U.S.C. 1348, 1510; and Executive Order 10854; 24 F.R. 9565)

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On August 11, 1965, a notice of proposed rule making was published in the FEDERAL REGISTER (30 F.R. 9986) stating that the Federal Aviation Agency was considering an amendment to Part 71 that would alter the Red Bluff, Calif., control zone and transition area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., January 6, 1966, as hereinafter set forth.

1. In § 71.171 (29 F.R. 17627), the Red Bluff, Calif., control zone is amended to read as follows:

Within a 5-mile radius of Bidwell Airport, Red Bluff, Calif. (latitude 40°09'15" N., longitude 122°14'50" W.), and within 2 miles each side of the Red Bluff VORTAC 167° radial, extending from the 5-mile radius zone to 8 miles S of the VORTAC.

2. In § 71.181 (29 F.R. 17693), the Red Bluff, Calif., transition area is amended by adding the following:

That airspace NW of Red Bluff extending upward from 1,200 feet above the surface bounded on the SW by a line 9 miles NE of and parallel to the Red Bluff VORTAC 291° radial, on the NW by a line 5 miles NW of and parallel to the Red Bluff VOR 233° radial, and on the NE by a line 9 miles W of and parallel to the Red Bluff VORTAC 342° radial.

These amendments are made under the authority of Sec. 307(a) of the Federal Aviation Act of 1958, as amended (72 Stat. 749; 49 U.S.C. 1348).

Issued in Los Angeles, Calif., on October 22, 1965.

Acting Director, Western Region.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

PART 73—SPECIAL USE AIRSPACE

Designation of Temporary Restricted Area and Alteration of Controlled Airspace

The purpose of this amendment is to designate a temporary restricted area in the vicinity of Nashua, N.H., and to include this area within the continental control area.

On October 28, 1965, the Department of the Navy submitted a request for the designation of a temporary restricted area, stating that it has an urgent military requirement to perform operations of a classified nature within the area requested. These operations will involve unusual maneuvers by jet aircraft at subsonic speeds between FL 200 and 1,500 feet above the surface that would be hazardous to nonparticipating aircraft. Ordnance will not be expanded in these operations. The request states that the availability of this area is required between 0900 e.s.t., and sunset daily from November 4, 1965, through February 4, 1966. When the restricted area is not being utilized during the period designated, it will be released to the controlling agency for use by the public. A direct telephone circuit between the controlling agency and the using agency is available to expedite communications.

Due to insufficient notice, the restricted area cannot be depicted on radio navigation charts until December 9, 1965. However, information on this area has been disseminated by NOTAM, Airman's Advisories, and the distribution of a Special Notice to Subscribers of radio navigation charts. Local dissemination of this information is being made by the FAA Boston Area Office.

The Administrator has been authorized by Congress to order the use of airspace under such terms, conditions, and limitations as he may deem necessary in order to insure the safety of aircraft and the efficient utilization of airspace. In exercising the authority granted to him, the Administrator also is required to give full consideration to the requirements of national defense.

Since the Department of the Navy has stated that the designation of this restricted area is of urgent military necessity, the Administrator has determined that it is contrary to the public interest to comply with the notice, public procedure, and effective date requirements of the Administrative Procedure Act and, therefore, this amendment may become effective in less than thirty days.

In consideration of the foregoing, Parts 71 and 73 of the Federal Aviation Regulations are amended, effective 0001 e.s.t., November 4, 1965, as hereinafter set forth.

a. In § 71.151 (30 F.R. 17550) "R-4902 Nashua, N.H. (Temporary)" is added.

b. In § 73.49 (30 F.R. 17755) the following is added:

R-4902 NASHUA, N.H. (TEMPORARY)

Boundaries. Beginning at latitude 43° 07'30" N., longitude 71°47'00" W.; to latitude 42°56'30" N., longitude 71°33'00" W.; to latitude 42°51'30" N., longitude 71°41'00" W.; to latitude 43°03'00" N., longitude 71°55'00" W.; to the point of beginning.

Designated altitudes. 1,500 feet AGL to FL 200.

Time of designation. 0900 e.s.t. to sunset, November 4, 1965, through February 4, 1966.

Controlling Agency. Federal Aviation Agency, Boston ARTC Center.

Using Agency. Commander, Operational Test and Evaluation Force, Norfolk, Va.

(Secs. 306 and 307 of the Federal Aviation Act of 1958; 49 U.S.C. 1347, 1348)

Issued in Washington, D.C., on October 29, 1965.

CLIFFORD P. BURTON,
Acting Director, Air Traffic Service.

PART 75—ESTABLISHMENT OF JET ROUTES

Designation of Jet Route

On May 21, 1965, a notice of proposed rule making was published in the FEDERAL REGISTER (30 F.R. 6924) stating that the Federal Aviation Agency proposed the designation of a jet route between Winslow, Ariz., and El Paso, Tex.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. Due consideration was given to all comments received.

The Department of the Air Force objected to the proposal because the jet route would cross areas between San Simon, Ariz., and Zuni, N. Mex., that are used for military training, thereby impairing the training operations conducted therein. The FAA does not consider the Air Force objection valid since these training areas presently are crossed by four existing jet routes for which separation is provided without impairment to the training operations. The most recent peak day survey made by the FAA indicates that there were 76 en route flights through these training areas via the jet routes. En route aircraft presently operate direct between Winslow and El Paso, and it is anticipated that designation of a jet route between these points will result in a negligible increase in traffic. The FAA traffic control facility at Albuquerque, N. Mex., can provide procedural separation between the en route jet route traffic and military traffic without impairment of the Air Force mission.

Although not mentioned in the notice, the jet route will extend from Boulder,

Nev., via the alignment of Jet Route No. 72 to Winslow, thence direct to El Paso as proposed in the notice, connecting therewith the present terminus of Jet Route No. 86. This alignment will provide a continuous jet route between Las Vegas, Nev., and Houston, Tex. Since the extension of Jet Route No. 86 from Winslow to Boulder is for flight planning convenience and is coextensive with an existing jet route, no additional burden is imposed upon the public, and notice and public procedure hereon is unnecessary.

In consideration of the foregoing and for the reasons stated herein and in the notice, § 75.100 (29 F.R. 17776, 30 F.R. 11314) is amended effective 0001 e.s.t., December 9, 1965, as hereinafter set forth:

In Jet Route No. 86—

a. "El Paso, Tex." is deleted in the caption and "Boulder, Nev." is substituted therefor.

b. In the text "From El Paso, Tex., via" is deleted, and "From Boulder, Nev., via Peach Springs, Ariz.; Winslow, Ariz.; El Paso, Tex.;" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on October 26, 1965.

JAMES L. LAMPL,
Acting Chief, Airspace Regulations and Procedures Division.

PART 95—IFR ALTITUDES

Miscellaneous Changes

The purpose of this amendment to Part 95 of the Federal Aviation Regulations is to make changes in the IFR altitudes at which all aircraft shall be flown over a specified route or portion thereof. These altitudes, when used in conjunction with the current change-over points for the routes or portions thereof, also assure navigational coverage that is adequate and free of frequency interference for that route or portion thereof.

As a situation exists which demands immediate action in the interest of safety, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 95 of the Federal Aviation Regulations is amended, effective December 9, 1965, as follows:

Title 39—POSTAL SERVICE

Chapter I—Post Office Department PART 113—TREATMENT OF OUTGOING POSTAL UNION MAIL

Shortpaid and Unpaid Mail and Forwarding of Domestic Mail

The regulations of the Post Office Department are amended as follows:

In Part 113 make the following changes:

A. Section 113.2 is revised and amended to provide that outgoing shortpaid or unpaid postal union mail received at sectional centers from associated offices shall be returned to the senders for deficient postage. Also, quantity mailings of ten or more pieces of unpaid or shortpaid mail from the sender for addressees in Canada will be returned for adjustment of the deficiency if observed at the mailing office or sectional center. In addition, § 113.2 is expanded to provide regulations concerning mail in transit to dispatching exchange offices. As so revised, § 113.2 reads as follows:

§ 113.2 Shortpaid and unpaid.

(a) *At mailing office or section center.* Check carefully all locally mailed articles and mail received at sectional centers from associated offices for postage payment before it is dispatched. Return the shortpaid and unpaid articles to the sender for deficient postage, using stock rubber stamp R-1300-230. The following exceptions apply:

(1) *Special delivery.* Dispatch to appropriate exchange office, unless deficiency can be obtained without delaying the article.

(2) *Letter mail and post cards with return address at an office other than the mailing office.* Dispatch to appropriate exchange office, unless the articles (i) can be returned to the office shown in the return address by the next business day; or (ii) are paid at domestic rates; or (iii) are totally unpaid.

(3) *Articles without return address.* Send letter mail and post cards to appropriate exchange office. Send "Other Articles" to proper dead letter branch.

(4) *Mail for Canada.* When quantity mailings of 10 or more pieces from the same sender are received return them for the deficiency or arrange that the postage charges be adjusted before the mail is dispatched. Otherwise endorse articles to show that postage due charges are to be collected from the addressee, as follows, and dispatch to appropriate exchange office: (i) Double the amount of the deficient postage on ordinary (unregistered) letter mail and post cards. (ii) The actual amount of the deficiency on ordinary "Other Articles" and on all registered mail.

(b) *Dispatch to exchange office or dead letter branch.* When shortpaid or unpaid mail is dispatched to exchange offices or to dead letter branches pursuant to paragraph (a) of this section, apply stock rubber stamp R-1300-4, "Postage Due ----- Cents", but do not indicate the amount of shortpayment, except as provided in paragraph (a) (4) of this section for mail addressed to Canada. Dispatch to exchange offices by surface means when surface mail is involved and by air when airmail is involved.

(c) *In transit to dispatching exchange offices.* Except as provided in paragraph (a) of this section, no check shall be made for postage deficiencies, but any articles seen to be paid at domestic postage rates (except special delivery) or to be totally unpaid shall be returned. Endorse "Returned for additional postage" or "Returned for postage". Do not return if the senders are in Alaska, Hawaii, or an overseas territory or possession and the articles are seen after arrival in continental United States, or vice versa; allow them to go forward to the dispatching exchange office for appropriate treatment.

(d) *Credit for postage already affixed.* Credit is allowed for postage already affixed in figuring correct amount on articles returned to senders for deficient postage.

NOTE: The corresponding Postal Manual section is 223.2.

B. In § 113.4, paragraph (b) (1) is amended to clarify instructions on forwarding domestic mail when the addressee has moved to another country. As so amended, paragraph (b) (1) reads as follows:

§ 113.4 Forwarding.

(b) *Domestic—(1) Addressee moved to another country.* Treat as undeliverable and dispose of as provided in Part 48 of this chapter, except that post or postal cards and ordinary letters that do not appear to contain merchandise and do not bear a notice forbidding forwarding may be directed to the original addressee in another country. Letters and cards are forwarded by surface if surface mail is involved and by air if airmail is involved, without prepayment of additional postage.

NOTES: The corresponding Postal Manual section is 223.421.

PART 531—FILING OF CLAIMS AND PROCEDURES THEREFOR

SUBCHAPTER F—RECEIPT, ADMINISTRATION AND PAYMENT OF CLAIMS UNDER TITLE II OF THE WAR CLAIMS ACT OF 1948, AS AMENDED BY PUBLIC LAW 87-846

PART 580—FILING OF CLAIMS AND PROCEDURES THEREFOR

Miscellaneous Amendments

1. In § 500.3 *Fees*, paragraph (d) is hereby redesignated paragraph (e), and a new paragraph (d) is added. Paragraphs (d) and (e) of § 500.3 now read as follows:

§ 500.3 Fees.

(d) No remuneration on account of any services rendered on behalf of any claimant in connection with any claim filed with the Commission under Title V of the International Claims Settlement Act of 1949, as amended (claims against the Government of Cuba), shall exceed 10 per centum of so much of the total amount of such claim, as determined by the Commission under Title V of the Act, as does not exceed \$20,000, plus 5 per centum of so much of such amount, if any, as exceeds \$20,000.

(e) The total remuneration on account of services rendered or to be rendered to or on behalf of any applicant in connection with any application filed under Public Law 87-616 (76 Stat. 411) shall not exceed five per centum of the amount paid by the Commission on account of such application.

2. The section heading of § 500.5 is hereby amended to read as follows:

§ 500.5 Order allowing fees in excess of ten per centum of amount paid on account of claims under Title III of the International Claims Settlement Act of 1949, as amended.

3. Paragraph (a) (3) of § 500.6 is hereby amended to read as follows:

§ 500.6 Suspension of attorneys:

(a) * * *

(3) To have violated sections 10 and 214 of the War Claims Act of 1948, as amended, or sections 4(f), 317(a), 414, and 512 of the International Claims Settlement Act of 1949, as amended, or § 500.3 of Part 500 of the regulations.

4. Section 531.1 is hereby amended by adding at the end thereof a new paragraph (d) which reads as follows:

§ 531.1 Time for filing.

(d) Claims under Title V of the Act (Cuban claims) shall be filed with the Commission on or before May 1, 1967.

5. In § 531.2 paragraphs (e) and (f) are hereby redesignated paragraphs (f) and (g), respectively, and a new paragraph (e) is added to read as follows:

§ 531.2 Form, content and filing of claims.

(e) FCSC Form 666—Claims against the Government of Cuba.

(f) Notice to the Foreign Claims Settlement Commission, the Department of State, or any other governmental office or agency, prior to the enactment of the statute authorizing a claims program or the effective date of a lump-sum claims settlement agreement, or an intention to file a claim against a foreign country, shall not be considered as a timely filing of a claim under the statute or agreement.

(g) Any initial written indication of an intention to file a claim received within 30 days prior to the expiration of the filing period thereof shall be considered as a timely filing of a claim if formalized within 30 days after the expiration of the filing period.

6. Paragraphs (j)(1) and (k) of § 531.5 are amended to read as follows:

§ 531.5 Procedure for determination of claims.

(j)(1) In case an individual claimant dies prior to the issuance of a Final Decision his legal representative shall be substituted as party claimant. However, upon failure to comply with the foregoing, the Commission may issue its decision in the name of the estate and, in case of an award, certify the award to the Secretary of the Treasury for payment, if the payment of such award is provided for by statute.

(k) After the date of filing with the Commission no claim shall be amended to reflect the assignment thereof by the claimant to any other person or entity except as otherwise provided by statute.

7. Section 580.7 is hereby amended to read as follows:

§ 580.7 Procedure for determination of claims.

The procedures set forth under § 531.5, Subchapter C of this chapter, shall be applicable to claims filed pursuant to

Title II of the War Claims Act of 1948, as amended by Public Law 87-846.

These amendments shall become effective on the date of publication in the FEDERAL REGISTER.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

SUBCHAPTER B—HUNTING AND POSSESSION OF WILDLIFE

PART 10—MIGRATORY BIRDS

Seasons and Limits on Waterfowl in California

Section 3 of the Migratory Bird Treaty Act of July 3, 1918, as amended (40 Stat. 755; 16 U.S.C. 704), authorizes and directs the Secretary of the Interior, from time to time, having due regard for the zones of temperature and to the distribution, abundance, economic value, breeding habits, and times and lines of flight of migratory game birds, to determine when, to what extent, and by what means, such birds or any part, nest, or egg thereof, may be taken, captured, killed, possessed, sold, purchased, shipped, carried, or transported.

By notice of proposed rule making published in the FEDERAL REGISTER of April 21, 1965 (30 F.R. 5640), notification was given that the Secretary of the Interior proposed to amend Part 10, Title 50, Code of Federal Regulations, to specify, among other things, open seasons for the taking of migratory game birds. All interested persons were invited to submit their views, data, or arguments regarding such proposed amendments to the Director, Bureau of Sport Fisheries and Wildlife, Washington, D.C., within 30 days following publication of the notice.

Subsequently, after giving due consideration to the status of migratory game bird populations and to all comments received, open season dates for the hunting of migratory game birds were adopted. When these open season dates were adopted it was intended that the hunting of Canada geese in a certain portion of California Fish and Game District No. 22 be permitted during the period from October 23, 1965, through December 26, 1965, and that the hunting of all other species of geese in this area be permitted during the period from October 12, 1965, through January 9, 1966.

However, contrary to the intended meaning, the wording of the regulation as adopted would restrict the hunting of

all species of geese in this area to the period from October 23, 1965, through December 26, 1965. The purpose and effect of this amendment is to permit the hunting of all species of geese other than Canada geese in this area during the period from October 12, 1965, through January 9, 1966, as was originally intended.

Since this amendment will benefit the public by relieving an existing restriction, it shall become effective upon publication in the FEDERAL REGISTER.

Footnote 7 of paragraph (f) § 10.53 is amended to read as follows:

§ 10.53 Seasons and limits on waterfowl, coots, gallinules, and Wilson's snipe.

(f) Pacific Flyway States—Waterfowl.

California: In that portion of the State lying east and north of a line beginning at the point where U.S. Highway 99 intersects the California-Oregon State line; thence south and east following U.S. Highway 99 to the junction with State Highway 89; thence south and east on State Highway 89 to the junction with State Highway 49; thence east and north on State Highway 49 to the junction with State Highway 70; thence east on State Highway 70 to the junction with U.S. Highway 395; thence south and east on U.S. Highway 395 to the point of intersection with the California-Nevada State line, the open season for taking ducks, coots, gallinules, and geese is Oct. 9-Jan. 6. In this area the basic daily bag limit on ducks other than mergansers is 4 and the possession limit is 8.

SUBCHAPTER C—THE NATIONAL WILDLIFE
REFUGE SYSTEM

PART 32—HUNTING

Noxubee National Wildlife Refuge,
Miss.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.32 Special regulations; big game;
for individual wildlife refuge areas.

MISSISSIPPI

NOXUBEE NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Noxubee National Wildlife Refuge, Miss., is permitted only on the area designated by signs as open to hunting. This open area, comprising 42,490 acres, is delineated on a map available at the refuge headquarters and from the Regional Di-

rector, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga., 30323. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following conditions:

(1) The open season for hunting deer on the refuge is from November 20 through November 29, 1965, and from December 27, 1965, through January 4, 1966, excluding Sundays.

(2) Only bucks with antlers over 4 inches long may be taken during the first hunt period from November 20 to November 29. During the second hunt period starting December 27, deer of either sex may be taken until 400 antlerless deer have been killed, after which only bucks with antlers over 4 inches long may be taken. A total kill quota of 800 deer is established. If this quota is reached during the above open seasons, the refuge hunt will be terminated.

(3) Any type gun may be used except 22 caliber rifles and shotguns smaller than 20 gauge. Shells with buckshot smaller than No. 1 prohibited. Long bows permitted.

(4) The use of dogs is not permitted.

(5) All deer killed must be checked at one of the designated check stations and all antlerless deer must be tagged before successful hunters leave the refuge.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 4, 1966.

W. L. TOWNS,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

Proposed Rule Making

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 107]

SMALL BUSINESS INVESTMENT COMPANIES

Records and Reports

Notice is hereby given that pursuant to authority contained in section 308 of the Small Business Investment Act of 1958, Public Law 85-699, 72 Stat. 694, as amended, it is proposed to amend, as set forth below, Part 107 of Subchapter B, Chapter I, of Title 13 of the Code of Federal Regulations, as revised in 29 F.R. 16946-16961, and amended in 30 F.R. 534, 1187, 2652, 2653, 2654, 3635, 3856, 7597, 7651, 8775, 8900, 11960, and 13005, by amending § 107.802. Prior to final adoption of such amendment, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in triplicate, to the Investment Division, Small Business Administration, Washington, D.C., 20416, within a period of thirty (30) days of the date of this notice in the FEDERAL REGISTER.

Information. The proposed amendment affects the recordkeeping requirements applicable to Licensees. Section 107.802(a), as amended, would require every Licensee to obtain and keep on file financial reports for the latest fiscal year of each small business concern financed by it.

The periodic financial reports furnished by portfolio concerns would include at least a statement of financial condition and a statement of income and expense for the latest fiscal year, (1) certified by an officer of the portfolio concern (or principal, if unincorporated) or (2) accompanied by an opinion of an independent public accountant based on an audit made in accordance with generally accepted standards. Licensees would be required to obtain audited reports within 3 months, and unaudited reports within 2 months, following the close of the respective period or periods covered thereby.

The information included in the periodic financial reports will provide a proper basis for evaluating the status of Licensees' investments, and assist Licensees in the preparation of required financial reports to SBA. Financial data obtained from portfolio concerns will form part of the Licensees' records, which are subject to SBA examination under § 107.801 of the regulations.

It is proposed to amend the Regulations Governing Small Business Investment Companies by changing the cap-

tion accompanying § 107.802 to read, "Records and reports"; redesignating present § 107.802(a) as subparagraph (1) of § 107.802(a); and adding a new subparagraph (2) to § 107.802(a). As amended, the heading and paragraph (a) of § 107.802 would read as follows:

§ 107.802 Records and reports.

(a) (1) *General.* Each Licensee shall keep current financial records in accordance with generally accepted accounting principles, including the maintenance of books of account in accordance with the System of Account Classifications prescribed by SBA as set forth in Part 111 of the Regulations. All such financial records and minutes of meetings of stockholders, directors, executive committees or other officials; and all files containing pertinent documents and supporting material employed by a Licensee with respect to any and all transactions of the Licensee shall be kept at its principal place of business: *Provided, however,* That there shall be excepted from the foregoing all portfolio items held by a custodian for Licensee pursuant to written custodian agreement. All financial reports furnished to SBA by Licensees shall make full and complete disclosure of all matters relevant to the Act and Regulations.

(2) *Reports from portfolio small business concern.* Every Licensee shall obtain and keep on file periodic financial reports from each portfolio small business concern (i) as a condition of all financing agreements consummated after the effective date hereof and, wherever possible, (ii) through voluntary cooperation with respect to financing agreements previously made with any such concern. The report shall be obtained as of the close of and shall cover the latest fiscal year of the portfolio concern. The report must include at least statements of financial condition and of income and expense (a) certified as correct, by an officer of the portfolio concern (or principal, if unincorporated), or (b) accompanied by an opinion on such statements by an independent public accountant on the basis of an audit conducted in accordance with generally accepted auditing standards. Audited reports shall be obtained by Licensee within 3 months, and unaudited reports within 2 months, following the close of the respective period or periods covered thereby.

Dated: October 21, 1965.

BIOLOGICAL PRODUCTS

Dating Periods

Notice is hereby given of proposed rule making to amend Part 73 of the Public Health Service Regulations to set forth for specific products the periods beyond which the products cannot be expected beyond reasonable doubt to yield the results as stated in labeling.

Notice is also given that it is proposed to make any amendments that are adopted effective 60 days after publication in the FEDERAL REGISTER.

Inquiries may be addressed, and data, views, and arguments relating to this notice of rule making may be presented by interested parties, in writing, in triplicate, to the Surgeon General, Public Health Service, Washington 25, D.C. All relevant material received not later than 60 days after publication of this notice in the FEDERAL REGISTER will be considered.

1. Delete § 73.104(e).
2. Delete § 73.116(f).
3. Delete § 73.134(h).
4. Delete § 73.306.
5. Delete § 73.325.
6. Delete § 73.354 (e) and (f).
7. Delete § 73.503.
8. Amend Part 73 by adding a new § 73.86 to read as follows:

§ 73.86 Dating periods for specific products.

The following dating periods are based on data relating to usage, clinical experience or laboratory tests that establish the period beyond which the product cannot be expected beyond reasonable doubt to yield its specific results and retain its safety, purity, and potency, provided the product is maintained at the recommended temperatures. The standards prescribed by the regulations in this part, designed to assure safety, purity, and potency of the products, are based on the dating periods set forth below. The manufacturer's cold storage periods as prescribed in § 73.84 shall apply and outside labels shall recommend storage from 2°C to 8°C, except when specifically provided otherwise. Maximum storage temperatures and storage periods are specified in parentheses after the dating period when they differ from those specified in § 73.84.

Adsorbed Anti-A Serum.....	One year.	Antipertussis Serum.....	Rabbit: Two years.
Adenovirus and Influenza Virus Vaccines Combined Aluminum Hydroxide Adsorbed.....	Six months (5° C., six months).	Antirabies Serum.....	Two years.
Adenovirus and Influenza Virus Vaccines Combined Aluminum Phosphate Adsorbed.....	Six months (5° C., six months).	Anti-Rh Typing Serum, Anti-br' (Anti-c).....	One year.

CIVIL AERONAUTICS BOARD

[14 CFR Part 298]

[Docket No. 16544]

**CLASSIFICATION AND EXEMPTION
OF AIR TAXI OPERATORS****Use of Turbo-Jet Aircraft With a Maxi-
mum Certificated Takeoff Weight**

OCTOBER 28, 1965.

The Board, by publication in 30 F.R. 12891 and by circulation of notice of proposed rule making EDR-93, dated October 5, 1965, gave notice that it had under consideration promulgation of an amendment to Part 298 of the Board's economic regulations to permit air taxi operators to use turbojet aircraft having a maximum certificated takeoff weight of over 12,500 pounds and less than 25,000 pounds, provided that the maximum passenger capacity thereof does not exceed twelve (12) persons.

Several air carriers have requested that the time for submitting comments be extended ranging from an extension of 2 weeks to 30 days; in addition, several air taxi trade associations seek an extension of time of approximately 2 months.

The undersigned finds that good cause has been shown for a 30-day extension of time. Accordingly, pursuant to authority delegated under section 7.3C of public notice PN-15 dated July 3, 1961, the undersigned hereby extends the date for submitting comments on the subject proposal to December 8, 1965. All relevant matter received on or before that date will be considered by the Board before taking action on the proposal. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 710, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C.

**SUPPLEMENTAL AIR CARRIERS
AND TOUR OPERATORS****All-Expense Tours**

OCTOBER 29, 1965.

By supplemental notice of proposed rule making SPDR-6B, dated October 11, 1965, and published in 30 F.R. 13077, the Board gave notice that it had under consideration the amendment of proposed Part 378(1) to make the tour operator's exemption from Title IV of the Federal Aviation Act coextensive with the all-expense tour authority which might be granted by the Board to supplemental air carriers in the Supplemental

Air Service Proceeding, Docket 13795, et al., and the Reopened Transatlantic Charter Investigation (All-Expense Tour Phase), Docket 11908, et al., and (2) to cover all-expense tours in foreign air transportation, as well as those in interstate and overseas air transportation. Interested parties were invited to file comments on the foregoing amendments, to be received on or before November 2, 1965.

Creative Tour Operators Association has requested that the time for submitting comments be extended for a period of 2 weeks.

The undersigned finds that good cause has been shown for a 6-day extension of time. Accordingly, pursuant to authority delegated under section 7.3C of Public Notice PN-15 dated July 3, 1961, the undersigned hereby extends the date for submitting comments on the subject amendments to November 8, 1965. All relevant matter received on or before that date will be considered by the Board before taking action on the proposed amendments. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 710, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., upon receipt thereof.

FEDERAL AVIATION AGENCY

[14 CFR Part 71]

[Airspace Docket No. 65-CE-134]

CONTROL ZONE**Proposed Alteration**

The Federal Aviation Agency is considering an amendment to Part 71 of the Federal Aviation Regulations which would change the effective hours of operation of the Chicago, Ill. (Meigs Airport) control zone. The Chicago, Ill. (Meigs Airport) control zone is presently in operation from 0600 to 2200 hours, local time, daily.

At the present time, the Meigs Airport is closed when the tower and control zone are not in operation. The city of Chicago has advised that as a result of the increased convention activity in that city, they intend to extend the hours of operation of Meigs Airport from 2200 to 2400 hours, local time, daily. The city has requested the Federal Aviation Agency to extend the hours of operation of the control zone and the control tower to coincide with hours of operation of the airport. The hours of operation of the control zone are directly related to the hours of operation of the control tower inasmuch as the tower provides the necessary communications

and weather observation and dissemination services. The Federal Aviation Agency has determined that the public interest will be better served by operating the Meigs control tower between 0600 and 2400 hours, local time, daily.

The Federal Aviation Agency thereby proposes to designate the Chicago, Ill. (Meigs Airport) control zone as that airspace within a 3-mile radius of Meigs Airport (latitude 41°51'30" N., longitude 87°36'30" W.) from 0600 to 2400 hours, local time, daily.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The public Docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued at Kansas City, Mo., on October 19, 1965.

Acting Director, Central Region.

FEDERAL POWER COMMISSION

[18 CFR Parts 104, 204]

[Docket No. R-288]

**UNIFORM SYSTEM OF ACCOUNTS
PRESCRIBED FOR CLASS C PUBLIC
UTILITIES, LICENSEES AND NAT-
URAL GAS COMPANIES****Work Order and Property Record
System**

OCTOBER 26, 1965.

1. Pursuant to section 4 of the Administrative Procedure Act, the Commission gives notice that it is proposing to amend the Uniform System of Accounts applicable to Class C public utilities, licensees and natural gas companies, to require that all construction and retirement of electric and gas plant, respectively, shall be recorded by work orders or job orders and other detail and

shall be maintained in relation to plant additions or requirements.

2. An instruction similar to the one here being proposed has always been included in the system of accounts applicable to Classes A and B companies, but at the time the system was being drafted in cooperation with the National Association of Railroad and Utilities Commissioners it was felt that the requirements might be too much of a burden on the small Class C companies. It now appears, however, that several of the state commissions have experienced difficulties because of the lack of a work order accounting system for the Class C companies and, as a result, the Committee on Accounts of the NARUC included the following recommendation in the minutes of a meeting held on April 20 and 21, 1965:

The present System of Accounts for Class C Electric, Gas and Water Utilities does not specifically require a work order system in accounting for plant. The consensus of opinion was that this class of utilities is large enough that a work order system should be maintained, and that it was the only feasible way in which accurate records could be maintained of construction costs. Accordingly, it was recommended that paragraphs (a) and (b) of Utility Plant Instruction 11 of the Class A and B system of Accounts be adopted also for Class C utilities.

3. We are, therefore, proposing to amend the Uniform System of Accounts, prescribed for Class C public utilities, licensees and natural gas companies by Part 104, Subchapter C, and Part 204, Subchapter F, respectively, of Chapter I, Title 18 of the Code of Federal Regulations, by adding to the Plant Instructions contained in each, the following new paragraph 13:

PART 104—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS C PUBLIC UTILITIES AND LICENSEES

Electric Plant Instructions

13. Work Order and Property Record System Required.

A. Each utility shall record all construction and retirements of electric plant by means of work orders or job orders. Separate work orders may be opened for additions to and retirements of electric plant or the retirements may be included with the construction work order: *Provided, however*, That all items relating to the retirements shall be kept separate from those relating to construction and provided, further, that any maintenance costs involved in the work shall likewise be segregated.

B. Each utility shall keep its work order system so as to show the nature of each addition to or retirement of electric plant, the total cost thereof, the source or sources of costs, and the electric plant account or accounts to which charged or credited. Work orders covering jobs of short duration may be cleared monthly.

PART 204—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS C NATURAL GAS COMPANIES

Gas Plant Instructions

13. Work Order and Property Record System Required.

A. Each utility shall record all construction and retirements of gas plant by

means of work orders or job orders. Separate work orders may be opened for additions to and retirements of gas plant or the retirements may be included with the construction work order: *Provided, however*, That all items relating to the retirements shall be kept separate from those relating to construction and provided, further, that any maintenance costs involved in the work shall likewise be segregated.

B. Each utility shall keep its work order system so as to show the nature of each addition to or retirement of gas plant, the total cost thereof, the source or sources of costs, and the gas plant account or accounts to which charged or credited. Work orders covering jobs of short duration may be cleared monthly.

4. These amendments to the Commission's Uniform System of Accounts are proposed to be issued under the authority of the Federal Power Act, as amended, particularly sections 301 and 309 thereof (49 Stat. 854, 858; 16 U.S.C. 825, 825h) and the Natural Gas Act, as amended, particularly sections 8 and 16 thereof (52 Stat. 825, 830; 15 U.S.C. 717g, 717o).

5. Any interested person may submit to the Federal Power Commission, Washington, D.C., 20426, on or before November 26, 1965, data, views, and comments in writing concerning the amendments proposed herein. The Commission will consider these written submittals before taking any action upon the proposed amendments. An original and nine (9) copies of any such submittals should be filed.

By direction of the Commission.

JOSEPH H. GUTRIDE,
Secretary.

IDAHO

Notice of Proposed Withdrawal and Reservation of Lands

OCTOBER 25, 1965.

The Department of the Army, Corps of Engineers has filed an application, Serial Number Idaho 016758, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the mining and mineral leasing laws and the issuance of grazing leases.

The applicant desires the land for use in connection with the Ririe Reservoir

project planning and the construction of the Ririe Dam to provide conservation, flood control and recreation, together with the relocation of highways and public utilities.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Post Office Box 2237, Boise, Idaho, 83701.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the Department of the Army, Corps of Engineers.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

Notice of Qualification as U.S. Citizen

OCTOBER 27, 1965.

This is to give notice that pursuant to § 3.21, Customs Regulations, issued under the provisions of section 27A of the Merchant Marine Act, 1920, as amended by the Act of September 2, 1958 (46 U.S.C. 883-1), the Louisiana Development Co., Inc., of Legal Building, 110 South Third Street, Louisiana, Mo., incorporated under the laws of the State of Missouri, did on September 28, 1965, file with the Commissioner of Customs, in duplicate, an oath for qualification of a corporation as a citizen of the United States following the form of oath prescribed in customs Form 1260.

The oath shows that:

(a) A majority of the officers and directors of the corporation are citizens of the United States (list of names, home addresses, and citizenship attached to the oath);

(b) Not less than 90 percent of the employees of the corporation are residents of the United States;

(c) The corporation is engaged primarily in a manufacturing or mineral industry in the United States, or in a Territory, District, or possession thereof;

(d) The aggregate book value of the vessels owned by the corporation does not exceed 10 percent of the aggregate book value of the assets of the corporation; and

(e) The corporation purchases or produces in the United States, its Territories or possessions not less than 75 percent of the raw materials used or sold in its operations.

The Commissioner of Customs, having found this oath to be in compliance with the law and regulations, on October 27, 1965, issued to the Louisiana Development Co., Inc., a certificate of compliance on customs Form 1262 as provided in § 3.21(i) of the regulations. The certificate and any authorization granted thereunder will expire 3 years from the date thereof unless there first occurs a change in the corporate status requiring a report under § 3.21(h) of the regulations.

GENERAL ELECTRIC CO.

Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued, effective as of the date of issuance, Amendment No. 5, set forth below, to Facility License No. R-33. The license as previously amended authorized General Electric Co. ("the licensee") to operate, at steady state thermal power levels up to 30 kilowatts, its Nuclear Test Reactor located at its Vallecitos Atomic Laboratory in Alameda County, Calif. The amendment authorizes the licensee to receive, possess and store, but not to use, up to six kilograms of plutonium contained in Zircaloy-2 clad, rod-type fuel elements, in accordance with the procedures described in the application for license amendment dated October 4, 1965. The licensee, after obtaining AEC approval, plans to use the fuel elements in an experimental program utilizing plutonium-uranium fuel.

Within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER, the licensee may file a request for a hearing, and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the provisions of the Commission's rules of practice, 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) the application for license amendment, and (2) a related safety evaluation prepared by the Research and Power Reactor Safety Branch of the Division of Reactor Licensing, both of which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. [License No. R-33; Amdt. 5]

The Atomic Energy Commission having found that:

a. The application for license amendment dated October 4, 1965, complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in Title 10, Chapter 1, CFR;

b. There is reasonable assurance that (1) the activities authorized by the license, as amended, can be conducted at the designated location without endangering the health and safety of the public, and (2) such activities will be conducted in compliance with the rules and regulations of the Commission;

c. The issuance of this license amendment will not be inimical to the common defense and security or to the health and safety of the public; and

d. Prior public notice of proposed issuance of this amendment is not required since the amendment does not involve significant hazards considerations different from those previously evaluated;

Facility License No. R-33, as amended, is hereby further amended by adding a new subparagraph 2.E. to read:

"2.E. Pursuant to the Act and Title 10, CFR, Part 70, 'Special Nuclear Material,' to receive, possess, and store, but not to use, up to six kilograms of plutonium contained in Zircaloy-2 clad, rod-type fuel elements, in accordance with the procedures described in the application for license amendment dated October 4, 1965."

This amendment is effective as of the date of issuance.

Date of issuance: October 26, 1965.

COMMONWEALTH EDISON CO.

Order and Notice of Prehearing Conference

In the matter of the application by Commonwealth Edison Co., for a provisional construction permit for the Dresden Nuclear Power Station Unit 2 (DRESDEN 2).

1. In Morris Ill., on December 7, 1965, a hearing upon stated issues concerning the above application will be commenced. The notice of hearing which was published at 30 F.R. 13660 (October 27, 1965) described and identified certain hearing procedures and information concerning public participation therein. On October 25, 1965, counsel for the applicant filed a motion for prehearing conference suggesting a date on or before November 4, or at some other con-

venient early date, and inviting the Board to conduct the prehearing conference upon described premises at the Applicant's Dresden Nuclear Power Station. Counsel for the AEC Regulatory Staff, in its reply which was received on October 28, expressed its assent to the motion, and indicated some procedural matters to be presented by the Staff at the prehearing conference.

2. The Board considered the above motion and response at its meeting on October 28 and determined that a prehearing conference should be convened at the time and place hereinafter specified.¹ The prehearing conference date is fixed so as to allow the Board members to make a brief preliminary review of the voluminous application documents now at hand, and also to permit adequate notice to the public of the prehearing conference time and place.

3. The publicly owned and reasonably accessible courtroom facilities in Morris, Ill., are available and are deemed by the Board to be appropriately useful for conducting the prehearing conference.

4. Upon the basis of the foregoing considerations the Board finds that: an early prehearing conference is desirable to facilitate the conduct of this proceeding; such a conference should be publicly conducted upon notice and near the location of the proposed facility; the courtroom facilities in Morris, Ill., are available and suitable for the public proceedings to be held; and a prehearing conference should be convened at the time and place hereinafter specified.

Accordingly, it is ordered, This 29th day of October 1965, pursuant to 10 CFR 2.721 and 2.752, that the parties or their counsel shall appear at a prehearing conference to be convened at 10 a.m., local time on Tuesday, November 9, 1965, in Courtroom No. 16, Grundy Circuit Court-house, West Washington and Liberty Streets, Morris, Ill., to consider:

(a) The simplification, clarification and meaningful definition of the issues, including but not limited to a delineation of the scope of the inquiry to be made and the nature of the evidence to be offered under each issue;

(b) Procedures to govern the prior notification and submission in evidence of written testimony and exhibits;

(c) The order and methods of presenting hearing evidence and statements on behalf of the parties and of other participants, if any;

¹ It is noted that at this time the Advisory Committee on Reactor Safeguards (ACRS) has not yet completed its review or submitted its report as required by § 182b. of the Atomic Energy Act. Also, probably in part because of the ACRS report is awaited, the "staff hazards analysis" (as referred to in the Commission's Statement of Considerations of Dec. 8, 1962, 27 F.R. 12184) has not been filed. This Board has concluded that, notwithstanding the present incompleteness of the filing and public notification steps contemplated by the Commission's regulations and the Statement of Considerations, an early conference is likely to serve some, but less than all of the useful purposes intended to be accomplished by a prehearing conference.

(d) The nature and purposes and dimensions of posthearing pleadings and schedules for their submission; and

(e) Such other matters as may aid in the orderly disposition of the proceeding.

It is further ordered, That this order and notice of prehearing conference be promptly published in the FEDERAL REGISTER.

Issued: October 29, 1965, Germantown, Maryland.

BEKINS AIRVAN CO. ET AL.

Notice of Proposed Approval of Application

Application of Bekins Airvan Co., et al., for approval of control and interlocking relationships pursuant to sections 408 and 409 of the Federal Aviation Act of 1958, as amended, Docket 16355.

Notice is hereby given, pursuant to the statutory requirements of section 408(b), that the undersigned intends to issue the order below under delegated authority. Interested parties are hereby afforded a period of fifteen days from date of service within which to file comments or request a hearing with respect to the action proposed in the order.

Dated at Washington, D.C., October 27, 1965.

[SEAL] J. W. ROSENTHAL,
Director,
Bureau of Operating Rights.

Application of Bekins Airvan Co., et al., for approval of control and interlocking relationships, Docket 16355; order approving control and interlocking relationships.

In the Air Freight Forwarder Authority Case, Order E-21056, July 10, 1964, Docket 12193, et al., the Board approved under section 408 of the Federal Aviation Act of 1958, as amended (the Act), the control by Bekins Van & Storage Co., a California corporation (Bekins-California), of Bekins Airvan Co. (Airvan) and of various motor carriers and surface freight forwarders of household goods.¹ Such Order also approved under section 409 of the Act interlocking relationships resulting from the positions of certain individuals with these companies.

Bekins-California is a local intrastate moving and warehouse company specializing in the carriage of household goods. Airvan is a domestic and international air freight forwarder limited to the carriage of household goods.

By application filed July 23, 1965, as amended September 10 and October 4, approval is requested for Bekins-California, while it continues in control of Airvan, to control also Bekins Van & Storage Co. (Georgia), Bekins Van & Storage Co., Inc.

¹ Such companies are those listed in Appendix A hereto, exclusive of the ones whose names are preceded by an asterisk.

(Massachusetts), Bekins Van & Storage Co. (Michigan) and Bekins Van & Storage Co. (Virginia), all intrastate motor common carriers of household goods.² In addition, approval is sought for the control by Bekins-California of various other companies which although at present inactive, may be activated at any time to conduct local moving and warehouse operations within their respective states of incorporation. The applicants state that it is the policy of Bekins-California to activate a local company in each state where a substantial local business has been developed. Bekins Van Lines Co. (Nebraska), the long-haul motor carrier in the Bekins system, operates the local moving and warehousing business until a local company is activated. Therefore, any future activation of the local subsidiary companies will not, according to applicants, involve any element of monopoly or restraint of competition since the total service to the public remains unchanged.

Finally, approval is requested for certain individuals to hold the positions set forth in Appendix B as well as such other positions within the same system of affiliated and subsidiary companies to which they may be hereafter elected or appointed.

No adverse comments or requests for a hearing have been received.

Notice of intent to dispose of the application without a hearing has been published in the FEDERAL REGISTER, and a copy of such notice has been furnished by the Board to the Attorney General not later than the day following the date of such publication, both in accordance with the requirements of section 408 of the Act.

Upon consideration of the application, it is concluded that those companies marked with an asterisk in Appendix A are, or will be, common carriers within the meaning of section 408 of the Act, and that the control by Bekins-California of such companies, while it controls Airvan, is subject to section 408 of the Act. However, it has been further concluded that such relationships do not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation, do not result in creating a monopoly and do not restrain competition. Furthermore, no person disclosing a substantial interest in this proceeding is currently requesting a hearing. The control relationships are similar to those which the Board previously approved by Order E-21056 and essentially do not present any new substantive issues. Accordingly, approval thereof would not appear to be inconsistent with the public interest. With respect to those companies which are presently inactive, we will require, however, that Airvan file in this Docket within 30 days after the activation of any of the companies, a notice indicating the date of activation and describing the activities of the company, including the geographical extent of any common carrier activities.³

It is also concluded that interlocking relationships within the scope of section 409 of the Act exist between the companies as a result of the holding by Messrs. Anderson, Bekins, Jr., Bryant, Clawson, Patton, Schmidt, and Shaw of the positions described in Appendix B. However, it is further concluded that the parties have made a due showing in the form and manner prescribed that such interlocking relationships will not adversely affect the public interest.

² Appendix A lists those companies presently controlled by Bekins-California, together with a description of the activities of each.

³ Our actions herein are based on the representation that such companies will be local moving and warehouse companies. Different activities may require further authorization from the Board.

Similarly, it is found that any interlocking relationships which may result from the election or appointment of the above individuals to other positions within the Bekins system, as shown in Appendix A, will not adversely affect the public interest.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.13, it is found that the foregoing control relationships should be approved under section 408(b) of the Act, without a hearing, and that the interlocking relationships should be approved under section 409.¹

Accordingly, it is ordered:

1. That the control by Bekins-California of the companies in Appendix A marked with an asterisk be and it hereby is approved;

2. That, subject to the provisions of Part 251 of the Board's Economic Regulations, as now in effect or hereafter amended, the interlocking relationships existing by reason of the holding by Messrs. Andreson, Bekins, Jr., Bryant, Clawson, Patton, Schmidt, and Shaw of the positions set forth in Appendix B be and they hereby are approved;

3. That Messrs. Andreson, Bekins, Jr., Bryant, Clawson, Patton, Schmidt, and Shaw are hereby authorized to hold such other positions as officers and/or directors of the companies set forth in Appendix A to which they may hereafter be elected or appointed;

4. That Airvan shall file in this Docket, within thirty (30) days after the effective date thereof, a notice stating the date of activation of any inactive company listed in Appendix A and describing the activities of such company, including the geographical extent of any common carrier activities; and

5. That jurisdiction over this proceeding is retained pursuant to sections 408 and 409 of the Act for the purpose of imposing such other terms and conditions as may be reasonable.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within 5 days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

Director,
Bureau of Operating Rights.

SECOND PRESIDENTIAL EXCHANGE FUND, INC.

Notice of Application for Order of Exemption

OCTOBER 27, 1965.

Notice is hereby given that Second Presidential Exchange Fund, Inc. ("ap-

² These companies have filed applications for domestic and international air freight forwarder authority limited to the movement of used household goods. Our action herein shall not be construed as approval or disapproval of such applications.

plicant"), 44 School Street, Boston, Mass., 02108, an open-end, diversified registered investment company, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order of the Commission exempting applicant from compliance with the provisions of section 14(a) of the Act. Section 14(a) of the Act provides that no registered investment company shall make a public offering of securities of which it is the issuer unless it has a net worth of at least \$100,000. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Applicant has filed a registration statement under the Securities Act of 1933 for 300,000 shares of common stock, \$1 par

value, to be offered to investors in exchange for securities included in a list set forth in the prospectus. Applicant is intended as an investment vehicle for investors who wish to exchange securities they presently hold for shares of the applicant in a simultaneous exchange on a tax-free basis. The minimum deposit to be accepted from any investor is to be securities having a market value of \$20,000 and the exchange will not be consummated unless the aggregate market value of the deposited securities as at the effective date of the planned exchange is at least \$10,000,000. In the event that such value is not then realized, the deposited securities will be returned to investors without charge to them.

Notice is further given that any interested person may, not later than November 23, 1965 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

THIRD EMPIRE FUND, INC.

Notice of Application for Order of Exemption

OCTOBER 27, 1965.

Notice is hereby given that Third Empire Fund, Inc. ("applicant"), 44 School Street, Boston, Mass., 02108, an open-end, diversified registered investment company, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an or-

der of the Commission exempting applicant from compliance with the provisions of section 14(a) of the Act. Section 14(a) of the Act provides that no registered investment company shall make a public offering of securities of which it is the issuer unless it has a net worth of at least \$100,000. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Applicant has filed a registration statement under the Securities Act of 1933 for 750,000 shares of common stock, \$1 par value, to be offered to investors in exchange for securities of the character of those included in a list set forth in the prospectus. Applicant is intended as an investment vehicle for investors who wish to exchange securities they presently hold for shares of the applicant in a simultaneous exchange on a tax-free basis. The minimum deposit to be accepted from any investor is to be securities having a market value of \$20,000 and the exchange will not be consummated unless the aggregate market value of the deposited securities as at the effective date of the planned exchange is at least \$10,000,000. In the event that such value is not then realized, the deposited securities will be returned to investors without charge to them.

Notice is further given that any interested person may, not later than November 23, 1965 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. FEDERAL POWER COMMISSION

[Docket No. CP65-197]

ALABAMA-TENNESSEE NATURAL GAS CO.

Notice of Petition To Amend

OCTOBER 26, 1965.

Take notice that on October 12, 1965, Alabama-Tennessee Natural Gas Co. (Petitioner), filed in Docket No. CP65-197 a petition to amend the order issued in said docket on April 30, 1965, which order authorized the construction and operation of certain natural gas facilities required to provide an additional 6,650 Mcf of daily system delivery capacity in order to enable it to serve its existing customers with their natural gas requirements for the winter heating season of 1965-1966, as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that by letter of September 10, 1965, the city of Huntsville, Ala., advised Petitioner that due to the delay in Redstone Arsenal's conversion to the use of natural gas and other factors, Huntsville will not need to increase its presently contracted volume of 36,830 Mcf per day to the previously requested volume of 40,010 Mcf per day. Huntsville has no objection to Petitioner's making the difference of 3,180 Mcf of gas per day available to other customers, provided the larger volume is available to Huntsville during the heating season of 1966-1967.

Petitioner states that Reynolds Metals Co. (Reynolds) now requires an additional 1,000 Mcf, a total of 13,000 Mcf, of gas per day during the 1965-1966 season. Petitioner and Reynolds have entered into an agreement dated October 8, 1965, in which the 13,000 Mcf per day volume is agreed to.

Petitioner proposes to make the additional 1,000 Mcf per day available from the 3,180 Mcf per day reduction agreed to by Huntsville and requests that the certificate issued on April 30, 1965, be amended to authorize the increased sales to Reynolds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before November 18, 1965.

JAMES DONOGHUE ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates¹

OCTOBER 26, 1965.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service heretofore authorized as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 18, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given; *Provided, however*, That pursuant to § 2.56, Part 2, Statement of General Policy and Interpretations, Chapter I of Title 18 of the Code of Federal Regulations, as amended, all permanent certificates of public convenience and necessity granting applications, filed after April 15, 1965, without further notice, will contain a condition precluding any filing of an increased rate at a price in excess of that designated for the particular area of production for the period prescribed therein unless at the time of filing such certificate application, or within the time fixed herein for the filing of protests or petitions to intervene the Applicant indicates in writing that it is unwilling to accept such a condition. In the event Applicant is unwilling to accept such condition the application will be set for formal hearing.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

JOSEPH H. GUTRIDE,
Secretary.

FLORIDA GAS TRANSMISSION CO.

Notice of Petition To Amend

OCTOBER 26, 1965.

Take notice that on October 21, 1965, Florida Gas Transmission Co. (Petitioner), Post Office Box 44, Winter Park, Fla., filed in Docket No. CP65-165 a petition to amend the order of the Commission issued in said Docket on June 8, 1965, which order authorized, among other things, the construction and operation of approximately 51 miles of 18-inch supply lateral pipeline extending from a point in the East White Lake Field in Southern Louisiana to Petitioner's 24-inch main pipeline near Port Barre, La., by means of which Petitioner was authorized to take delivery of an average daily quantity of 80,000 Mcf of natural gas purchased from Pan American Petroleum Corp. (Pan Am) and Austral Oil Co., Inc. (Austral), and transport said quantities into its main pipeline systems, as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the instant filing, Petitioner seeks amendment of said order by requesting authorization to construct and operate 60 miles of 26-inch lateral pipeline in lieu of the 51 miles of 18-inch lateral pipeline authorized by said order, and 3 miles of 26-inch and 20 miles of 30-inch main line loop, in lieu of 26 miles of 30-inch main line loop paralleling Petitioner's 24-inch main line in Louisiana.

Petitioner states that subsequent to the execution of its Gas Purchase Contract with Pan Am and Austral dated November 20, 1964, under which the aforesaid quantities are to be sold and delivered to Petitioner, Pan Am, Austral, Florida Power & Light Co. (Power Company) and Petitioner entered into another Gas Purchase Contract dated March 12, 1965, whereby Power Company will purchase from Pan Am and Austral and Petitioner will transport for Power Company a Contract Demand Quantity of up to 200,000 MMBtu of natural gas per day from at or near the same point for receipt of natural gas in the East White Lake Field as that heretofore authorized. Petitioner has filed an application in Docket No. CP65-393 for authorization, among other things, to construct and operate an additional 22-inch supply lateral approximately 60 miles in length designed to transport said additional Contract Demand Quantity from the East White Lake Field, which application is presently pending before the Commission. The application in Docket No. CP65-393 was filed on June 9, 1965.

The 26-inch lateral facilities for which authorization is requested by Petitioner would be in lieu of the 18-inch supply lateral presently authorized and the 22-inch supply lateral requested in Docket No. CP65-393, and are designed to transport the aggregate quantities of gas from East White Lake Field which are presently authorized and which are proposed in Docket No. CP65-393.

The estimated cost of the substitute 26-inch lateral and associated main line loop facilities is \$15,115,000, or \$2,928,000 less than the combined estimated cost of the 18-inch and 22-inch lateral lines it is designed to replace, and \$2,494,000 more than the estimated cost of the presently authorized 18-inch line. Petitioner states that this increase in cost is only approximately 1.2 percent of its total undepreciated plant, and that on the basis of current construction costs being experienced by Petitioner, it appears that the substitute facilities can be installed without disturbing the estimate of total overall capital costs of Petitioner's project as originally certificated herein.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before November 22, 1965.

JOSEPH H. GUTRIDE,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 16258; FCC 65-959]

AMERICAN TELEPHONE & TELEGRAPH CO.

Memorandum Opinion and Order Instituting Investigation

In the matter of American Telephone & Telegraph Co. and the Associated Bell System Cos., Docket No. 16258, charges for interstate and foreign communication service.

1. The Commission has under consideration financial data filed with it by American Telephone & Telegraph Company (A.T. & T.) and the Associated Bell System Cos. (referred to collectively herein as the Bell System) relating to operating results achieved in the rendition of the various classes of interstate and foreign communication service. Among such data are the results of a cost study undertaken by A.T. & T. at the Commission's request in connection with the proceedings in its Telegraph Inquiry (Docket No. 14650).¹ This study undertook to determine for the 12 months ending August 31, 1964, the investment, expenses and revenues associated with each of 7 different classes of communication service, making up the Bell System's total interstate operations; i.e., message toll telephone service, wide area telephone service (WATS), teletypewriter exchange service (TWX), private line telephone, private line telegraph,

¹ The issues in this Inquiry are directed to various matters affecting telegraph service in the United States but do not involve a determination of the lawfulness of any specific rates under the Communications Act of 1934.

TELPAC, and all other. The results of the study were presented by A.T. & T. for the record in Docket No. 14650 on September 10, 1965. They disclosed wide variations in earnings among the various services. At one extreme, message toll telephone and WATS were earning at the rates of 10 percent and 10.2 percent, respectively, while TELPAK, at the other extreme, was earning at the rate of 0.3 percent, all on the basis of the data as reported by the company and without any adjustment by the Commission. It is significant that message toll telephone and WATS services, with the highest level of earnings, account for 85 percent of total interstate revenues. Although certain message toll telephone rates were reduced, effective February 1 and April 1, 1965, subsequent to the study period, the current level of earnings on total interstate operations is above the total level of interstate earnings which were obtained during the study period. These levels of earnings, as well as the wide variations in such levels for the different classes of service, indicate the desirability of a thorough examination by the Commission of the interstate rate structure of the Bell System to determine the lawfulness of the rate levels and rate relationships within that structure. The importance of such a determination is underscored by the fact that certain of the services involved are furnished by the Bell System in direct competition with services offered by other carriers. To the extent that these services may be underpriced by the Bell System, this may have a competitive impact on such other carriers.

2. Any determination of the lawfulness of existing rate levels and adjustments that should be made therein requires an ascertainment of the revenue requirements of the Bell System applicable to its total interstate operations. Since most of its telephone plant is used in common for both intrastate and interstate services, for jurisdictional and rate-making purposes, the investment in such plant and the costs associated with its operation must be apportioned on a fair and equitable basis between interstate and intrastate services. Heretofore, such apportionments have been made in accordance with principles and procedures set forth in a Separations Manual published by the National Association of Railroad and Utilities Commissioners (NARUC). Although the content of the Separations Manual is the product of cooperative studies and consultations involving the NARUC, this Commission and the telephone industry, it has never been formally evaluated, approved or adopted by this Commission in the context of either a rate-making or rule-making proceeding. This is true with respect to the original Separations Manual as issued in 1947 and the several revisions that have been subsequently incorporated therein. There is now pending consideration by the Commission of another major revision in the Separations Manual which has been approved by the NARUC for use "on an interim basis." The Commission today has advised the NARUC that we will not inter-

pose any objection to the use of the proposed revision on such "interim basis," pending conclusion of the proceedings provided for herein and subject to such changes as may be required as a result of such proceedings. Thus, in connection with our determination of revenue requirements of the Bell System applicable to its interstate services, the rates for which are at issue herein, we will consider the propriety of the principles and procedures of the Separations Manual including the most recent revision. This will afford all interested parties an opportunity to present evidence, views and recommendations concerning these principles and procedures, including the independent segment of the telephone industry which has, in written representations to this Commission, raised certain questions concerning the merits of the recent revision.

3. In determining the revenue requirements for the private line services, in its decision in the Private Line Case, 34 FCC 217, the Commission excluded the costs associated with telephone plant under construction together with the claimed amount representing cash working capital and materials and supplies. However, in its reports of earnings to the Commission since that time, the Bell System has almost universally included these items in its costs. The results of the 7 way cost study cited above similarly include such items. In the investigation which we are hereby instituting, the company will be expected to justify the inclusion of these items, as well as the reasonableness of all other items of rate base, expense, taxes, and reserves upon which it relies in determining its operating results.

4. Also, in the Private Line Case, supra, the Commission rejected the showings made by the Bell System in support of the reasonableness of the prices and profits of the Western Electric Co. with respect to its sale of equipment, supplies and services to its affiliated companies within the Bell System. We rejected such showings on the grounds that they lacked probative value. (See 34 FCC at 225 supra.) However, we were unable to reach any determination, on the basis of the record made in that case, as to what adjustments, if any, might be warranted in the claimed revenue requirements of the Bell System Cos. by reason of any excessive payments by such companies to Western Electric. Thus, in these proceedings, we will expect the Bell System Cos. to justify the reasonableness of the prices and profits of Western Electric reflected in their claimed rate base and expenses with due regard to the aforementioned conclusions reached by the Commission in the Private Line Case and the specific issues hereinafter enumerated.

5. Concurrently with the issuance of this Memorandum Opinion and Order, we are extending an invitation to the NARUC to designate cooperating Commissioners to sit with the presiding officers of the Commission for the hearing and consideration of the proceedings provided for herein, in accordance with the Plan of Cooperative Procedure set

forth in Appendix A of Part 1 of the Commission's rules. This, however, will not foreclose any individual state commission or the NARUC from intervening as party in these proceedings or from presenting relevant, material and competent testimony as provided for in § 1.225 of Part 1 of our rules and regulations.

In view of all of the foregoing matters: *It is ordered*, That pursuant to the provisions of sections 201(b), 202(a), 205, and 403 of the Communications Act of 1934, as amended, an investigation is hereby instituted into the lawfulness of the charges of the American Telephone & Telegraph Co. and the associated Bell System Cos. for interstate and foreign communication service;

It is further ordered, That, without in any way limiting the scope of the proceeding, it shall include consideration of the following:

1. What are the revenue requirements of the Bell System Cos. applicable to their interstate and foreign communication services and the basis upon which such revenue requirements are to be determined, including:

A. The reasonableness and propriety of the procedures employed for separating and allocating plant investment, operating expenses, taxes, and reserves between the intrastate and interstate operations of such companies;

B. The amounts properly includible as the net investment of the above-mentioned companies in property and plant used and useful for providing interstate and foreign communication service;

C. The amounts properly includible as expenses and taxes incurred by the above-mentioned companies in the provision of interstate and foreign communication service;

D. The reasonableness of the prices paid by the Bell System Cos. for equipment, supplies and services purchased by such companies from the Western Electric Co. and the adjustments, if any, that should be made in the plant investments, expenses and taxes as reflected by the amounts determined pursuant to items B and C above to the extent that any prices are found to be unreasonable. In this connection, consideration shall be given, among other things, to whether Western Electric requires a greater rate of return on investment related to its sales to the Bell System Cos., than the rate of return determined to be required with respect to the interstate operations of the Bell System Cos.;

E. The fair rate of return required by the Bell System on the amounts of net investment determined pursuant to the foregoing;

F. The amount of operating revenues that are or may reasonably be expected in the foreseeable future to accrue from interstate and foreign communication services rendered by use of the plant and facilities, the costs of which are included in the net investment to be determined herein;

2. In the light of our determinations with respect to the aforementioned issues, whether the overall charges of the Bell System Cos. are just and reasonable

within the meaning of section 201(b) of the Communications Act of 1934, as amended.

3. Whether the charges for (1) message toll telephone service, (2) WATS, (3) private line telephone grade service, (4) private line telegraph grade service and (5) all other service, except TWX and TELPAK (as to which separate proceedings are now pending in Docket Nos. 15011 and 14251, respectively), are or will be just and reasonable within the meaning of section 201(b) of the Communications Act of 1934, as amended.

4. Whether the specific charges for the above-mentioned services will subject any person or class of persons to unjust or unreasonable discrimination, or give any undue or unreasonable preference or advantage to any person, class of persons or locality, or subject any person, class of persons or locality to any undue or unreasonable prejudice or disadvantage within the meaning of section 202(a) of the Communications Act of 1934, as amended.

5. Whether the Commission should prescribe just and reasonable charges or the maximum or minimum or maximum and minimum charges to be hereafter followed with respect to any or all of the above-mentioned services placed at issue by this order, and if so, what charges should be prescribed;

It is further ordered, That a hearing be held in this proceeding at the Commission's offices in Washington, D.C., at a time to be specified, before an examiner to be designated, and in accordance with procedures to be specified by subsequent order in this proceeding;

It is further ordered, That the American Telephone & Telegraph Co. and the associated Bell System Cos., are hereby made parties respondent in the proceeding;

It is further ordered, That any connecting or concurring carrier, The Western Union Telegraph Co., the United States Independent Telephone Association, the General Telephone & Electronics Service Corp., the National Association of Railroad and Utilities Commissioners and any State regulatory body is hereby granted leave to intervene upon the filing of a notice of intention to appear and participate in these proceedings within 30 days from the date of publication of this order in the FEDERAL REGISTER.

PATROON BROADCASTING CO., INC.

Order Continuing Hearing

In reapplication of Patroon Broadcasting Co., Inc., Albany, N.Y., Docket No. 16087, File No. BR-2787, for renewal of license of Station WPTR.

This is on a petition by Patroon Broadcasting Co. for postponement of the hearing which is now due to get under way next Monday, November 1. Patroon has on file with the Commission a request for reconsideration of the designation of its renewal application for hearing and argues for letting the hearing stand over until reconsideration is settled.

Notice is hereby given that the hearing will not open as scheduled. In its place an oral argument will be held on the question of longer term rescheduling. The position of Patroon is already clear from its petition; the Broadcast Bureau will be expected to address itself to Commission precedent on the narrow question of postponement under these circumstances, to give its views on the likelihood that the petition for reconsideration will prevail, and to disclose its position on the petition for reconsideration, on the petition for postponement of the hearing, and on the wisdom ordinarily of pushing forward with hearing when a substantial and serious petition for reconsideration is pending.

Accordingly, it is ordered, This 27th day of October 1965, that the hearing now scheduled to commence on November 1, 1965, is put off without date and that in its place an oral argument will be held on the same date and at the same time on the petition by Patroon for postponement of the hearing.

MIDWEST TELEVISION, INC.

Memorandum of Ruling on Motion To Continue Hearing

In re application of Midwest Television, Inc., Springfield, Ill., Docket No. 15450, File No. BPCT-2846; for construction permit for new television broadcast station.

This will formalize an oral ruling made by the Hearing Examiner in the hearing conference held this 27th day of October 1965, upon the conclusion of oral arguments by counsel and after earlier submission of responsive pleadings, denying the "Motion to Continue Hearing," heretofore scheduled for November 2, 1965, pending certain rule-making proceedings, filed by Midwest Television, Inc., on October 20, 1965, for the reasons stated on the record by the Examiner and which will appear in the official transcript.

Accordingly, it is ordered, This 27th day of October 1965, that the "Motion to Continue Hearing" filed by Midwest Television, Inc., on October 20, 1965, is denied.

It is further ordered, In accordance with arrangement therefor made in the hearing conference after discussion with counsel, that the hearing is rescheduled from November 2 to November 3, 1965, at 10 a.m., in the offices of the Commission at Washington, D.C.

FTC STATEMENT ON BROADCAST RATINGS

OCTOBER 28, 1965.

Commission calls attention of licensees to FTC statement on broadcast ratings:

On July 8, 1965, the Federal Trade Commission issued a statement regarding deceptive claims of broadcast audience coverage and setting forth certain basic guidelines to be followed in order to avoid such deception.

In furtherance of its continuing liaison with the FTC, this Commission calls the attention of broadcast licensees to this statement. As we stated in our Public Notice of June 13, 1963 (FCC 63-544), we do not intend to discourage valid audience research or its proper use, but we wish to remind licensees that they must act responsibly in using such research.

The Commission generally intends to continue to refer complaints dealing with the use of broadcast ratings to the Federal Trade Commission for its considera-

tion. In determining whether a licensee is operating in the public interest, we will take into consideration his operation under the guidelines set forth in the FTC statement of July 8, 1965, as well as any findings or orders to cease and desist of the FTC. In order that all broadcast licensees may be fully informed of the contents of the FTC statement, a copy of it appears below.

Adopted: October 27, 1965.

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] BEN F. WAPLE,
Secretary.

FTC ISSUES STATEMENT REGARDING DECEPTIVE CLAIMS OF BROADCAST AUDIENCE COVERAGE

The Federal Trade Commission today issued the following statement regarding deceptive claims of broadcast audience coverage.

Investigations by Congress and by the Commission have disclosed widespread misuse of audience survey results, use of unreliable survey data, and tampering with and distortion of survey results, which has resulted in deception as to the size, composition, and other characteristics of radio and television audiences. These matters are, of course, important to advertisers in these media.

The Commission believes that, to avoid such deception, television and radio broadcasters, other persons selling advertising or broadcasting time or programs, advertising agencies, and advertisers should, in making claims based on survey results or data, observe the following basic guidelines.

1. A person (or firm) making a claim concerning the size, composition or other important characteristics of a listening or viewing audience is responsible for seeing to it that the claim is truthful and not deceptive. If he bases his claim on the results of an audience survey, he assumes responsibility for interpreting the data accurately. Thus, he should not engage in activities calculated to distort or inflate such data—for example, by conducting a special contest, or otherwise varying his usual programming, or instituting unusual advertising or other promotional efforts, designed to increase audiences only during the survey period. Such variation from normal practices is known as "hyping."

It is also improper to cite or quote from a survey report or survey data in such a way as to create a misleading impression of the results of the survey, as by unfairly basing audience claims on results achieved only during certain periods of the broadcast day or on a survey of only a segment of the total potential audience.

2. Audience data are based on sample surveys not derived from complete measurements of audiences. As such, they are statistical estimates, and, at best, are of only limited reliability due to errors and distortions inherent in the statistical methods yielding such data. Claims as to audience coverage based on audience surveys should therefore be qualified in recognition of the fact that survey data are inherently imperfect. Any such claim should be accompanied by a disclosure that any figures cited or quoted are estimates only or are based upon estimates, and are not accurate to any precise mathematical degree unless based upon a true probability sample. Audience surveys are not, in practice, based upon true probability samples.

3. Such claims should not be based on data obtained in a survey that the person (or firm) making the claim knows or has reason to know was not designed, conducted, and analyzed in accordance with accepted statistical principles and procedures, reasonably free from avoidable bias, and based on a properly selected sample of adequate size. Such claims should not be based on survey reports or data that do not reliably reflect current audience coverage, either because the passage of time has made the data outdated, or because a later survey report encompassing essentially the same area has been published, or because of the entry or departure of a competitor, or for any other reason.

These guidelines are offered to broadcasters and others concerned for consideration in avoiding possible violation of the Federal Trade Commission Act.
