Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 2—RULES OF PRACTICE

PART 50—LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

PART 115—PROCEDURES FOR REVIEW OF CERTAIN NUCLEAR REACTORS EXEMPTED FROM LICENSING REQUIREMENTS

Review of Initial Decision

On November 5, 1965, the Atomic Energy Commission published in the FEDERAL REGISTER (30 F.R. 14014) proposed amendments to its regulations which would eliminate, in licensing and compliance proceedings, the procedure for Commission review of initial decisions by the filing of petitions for review, whose granting is discretionary, and substitute appeals as of right by the filing of exceptions by the parties.

All interested persons were invited to submit written comments and suggestions for consideration in connection with the proposed amendments within 60 days after publication of the notice of proposed rule making in the FEDERAL REGISTER. Upon consideration of the material submitted in response to the notice of proposed rule making and other factors involved, the Commission has decided to adopt the amendments set forth below, which, except as noted, are the same as those set out in the notice of the proposed rule making.

The amendments to 10 CFR Part 2, "Rules of Practice," permit appeals as of right from initial decisions by the filing of exceptions. Amendments are also made to related sections of Part 50, "Licensing of Production and Utilization Facilities," and Part 115, "Procedure for Review of Certain Nuclear Reactors Exempted from Licensing Requirements," to reflect the changes in Part 2. The amendments do not affect the Commission's opportunity to review initial decisions within 45 days on its own motion. The principal purpose of the amendments is not to encourage the taking of appeals from initial decisions, but rather to expedite the Commission's decisional process by the elimination of procedural requirements—the petition for review and Commission ruling on the petition—which have not proved necessary.

The amendments to Part 2, as proposed in the notice of proposed rule making, specified (§ 2.762) that exceptions might be filed within 20 days after service of the initial decision and a party might file a brief in support of his exceptions, or in opposition to the exceptions filed by another party, within

such period after service of the initial decision as might be fixed therein. The amendment of § 2.762 set forth below provides that both exceptions and the supporting brief of the excepting party shall be filed within 20 days after service of the initial decision. Briefs in opposition to exceptions or in support of exceptions filed by another party may be filed within 10 days after the service of exceptions. It is expected that a general requirement for exceptions and supporting briefs to be filed together, by a specified day, and for answering briefs also to be filed by a specified day, will serve to expedite and shorten the Commission's adjudicatory process. If in any case good cause can be shown for extending the specified period, the Commission may, under § 2.711 of Part 2, grant such extensions.

Pursuant to the Atomic Energy Act of 1954, as amended, and the Administrative Procedure Act of 1946, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Parts 2, 50, and 115, are published as a document subject to codification, to be effective thirty (30) days after publication in the FEDERAL REGISTER.

1. Paragraph (i) of § 2.743 is revised to read as follows:

§ 2.743 Evidence.

(i) *Official notice.* Official notice may be taken of any fact of which judicial notice might be taken by the courts of the United States and of any technical or scientific fact within the knowledge of the Commission as an expert body, if (1) the fact is specified in the record or is brought to the attention of the parties before final decision, and (2) every party adversely affected by the decision is afforded an opportunity to controvert the fact. Any party may oppose a request that official notice be taken of a fact. If a decision is stated to rest in whole or in part on official notice of a fact which the parties have not had a prior opportunity to controvert, a party may controvert the fact by exceptions to an initial decision or a petition for reconsideration of a final decision, clearly and concisely setting forth the information relied on to show the contrary.

2. Paragraph (a) and subparagraphs (3) and (4) of paragraph (c) of § 2.760 are revised to read as follows:

§ 2.760 Initial decision and its effect.

(a) After hearing, the presiding officer will render an initial decision which will constitute the final action of the Commission forty-five (45) days after its date when it authorizes the issuance or amendment of a license for a facility, or 30 days after its date in any other case, unless exceptions are taken in accordance with section 2.762 or the Com-

mission directs that the record be certified to it for final decision.

(c) * * *

(3) The appropriate ruling, order or denial of relief with the effective date;

(4) The time within which exceptions to the decision and a brief in support of them may be filed, the time within which briefs in support of or in opposition to exceptions filed by another party may be filed and, in the case of an initial decision which may become final in accordance with paragraph (a) of this section, the date when it may become final.

3. Subparagraph (1) of § 2.761(a) and subparagraph (1) of § 2.761(c) are revised to read as follows:

§ 2.761 Expedited decisional procedure.

(a) * * *

(1) All parties stipulate that the initial decision may be omitted and waive their rights to file exceptions, to request oral argument, and to seek judicial review;

(c) * * *

(1) All parties stipulate that the initial decision may be made effective immediately and waive their rights to file exceptions, to request oral argument, and to seek judicial review.

4. Section 2.762 is revised to read as follows:

§ 2.762 Exceptions to initial decisions and briefs to the Commission.

(a) Within twenty (20) days after service of any initial decision any party may file exceptions to the decision and a brief in support of them with the Commission and shall serve copies of such exceptions and brief on all other parties. Each exception shall be separately numbered, shall identify the part of the initial decision to which objection is made; shall specify precisely the portions of the record relied upon; and shall state the grounds for the exception including the citation of authorities in support thereof. Any objection to a ruling, finding, or conclusion which is not made a part of the exceptions will be deemed to be waived.

(b) Any party to a proceeding may file a brief in support of or in opposition to exceptions filed by any other party within ten (10) days after the service of exceptions.

5. Section 2.763 is revised to read as follows:

§ 2.763 Oral argument.

In its discretion the Commission may allow oral argument upon the request of a party made in his exceptions or brief, or upon its own initiative.

6. Paragraph (b) of § 2.764 is revised to read as follows:

§ 2.764 Expedited effectiveness of initial decision directing issuance or amendment of construction permit.

(b) If any party opposes the motion for expedited effectiveness of the initial decision, the presiding officer may stay its effectiveness pending the filing, within five (5) days after its issuance, of an exception to the provision for expedited effectiveness, and thereafter until decision by the Commission on the exception.

7. Paragraph (a) of § 2.771 is revised to read as follows:

§ 2.771 Petition for reconsideration.

(a) A petition for reconsideration of a final decision may be filed by a party within ten (10) days after the date of the decision. No petition may be filed with respect to an initial decision which has become final through failure to file exceptions thereto.

8. Paragraph (e) of § 50.57 is revised to read as follows:

§ 50.57 Provisional operating license.

(e) In a case where a hearing has been held in connection with a proceeding under this section the presiding officer may, upon written motion and upon good cause shown, provide that any initial decision issued pursuant to this section shall become effective ten (10) days after issuance subject to (1) the review thereof and further decision by the Commission upon exceptions filed by any party, and (2) such order as the Commission may enter upon such exceptions or upon its own motion within forty-five (45) days after the issuance of such initial decision. In the absence of a Commission order pursuant to the foregoing, and in the absence of exceptions to the initial decision, the initial decision shall become the final decision of the Commission at the end of such forty-five (45) day period. If any party opposes the motion for expedited effectiveness of the initial decision, the presiding officer may stay its effectiveness pending filing within five (5) days after its issuance of an exception to the provision for expedited effectiveness, and thereafter until decision by the Commission on the exception.

9. Paragraph (e) of § 115.45 is revised to read as follows:

§ 115.45 Provisional operating authorization.

(e) In a case where a hearing has been held in connection with a proceeding under this section the presiding officer may, upon written motion and upon good cause shown, provide that any initial decision issued pursuant to this section shall become effective ten (10) days after issuance subject to (1) the review thereof and further decision by the Commission upon exceptions filed by any party, and (2) such order as the Commission

may enter upon such exceptions, or upon its own motion within forty-five (45) days after the issuance of such initial decision. In the absence of a Commission order pursuant to the foregoing, and in the absence of exceptions to the initial decision, the initial decision shall become the final decision of the Commission at the end of such forty-five (45) day period. If any party opposes the motion for expedited effectiveness of the initial decision, the presiding officer may stay its effectiveness pending filing within five (5) days after its issuance of an exception to the provision for expedited effectiveness, and thereafter until decision by the Commission on the exception.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Washington, D.C., this 3d day of March 1966.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release No. 33-4821]

PART 239—FORMS PRESCRIBED UNDER SECURITIES ACT OF 1933

Registration of Voting Trust Certificates

The Securities and Exchange Commission has adopted a new Form S-13 (17 CFR 239.25) under the Securities Act of 1933, which is prescribed for the registration of voting trust certificates. The revised form is a revision of the previous Form F-1 (listed and described at 17 CFR 239.9). Notice of the proposed revision was published December 9, 1965, in Release No. 4810 (see 30 F.R. 15594, Dec. 17, 1965).

The format of the new form follows generally that of the Commission's more recently adopted registration forms. The disclosure requirements are substantially the same as those contained in the recently adopted revision of Form 16 (17 CFR 249.216) which is prescribed for registration of voting trust certificates pursuant to section 12 of the Securities Exchange Act of 1934.

The form requires information with respect to such matters as the formation and principal provisions of the voting trust; the distribution of the voting trust certificates; the deposit and withdrawal of securities; the identity, business connections and compensation of the voting trustees; and the identity and compensation of the depository which holds the deposited securities for safekeeping. The amount of voting trust certificates owned by the voting trustees and persons owning more than 10 percent of such certificates must be shown, together with the amount of securities of the issuer and its subsidiaries owned by such persons. A description of the interests of the voting trustees and certain other persons in certain transactions with the issuer or its subsidiaries must also be given.

If the securities to be deposited under the voting trust agreement are not required to be registered under the Act, the prospectus must include the information, including financial statements, which would be required to be contained in a

prospectus relating to such securities if they were to be currently so registered. Provision is made, however, for the omission of this additional information if the issuer of such securities is required to file reports with the Commission pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934, if neither the voting trustees nor the promoters of the voting trust are in control of the issuer of such securities, or if the voting trust agreement is required by law to permit the deposit of securities by all holders of securities of the class and no public solicitation of the deposit of such securities is to be made.

Commission action. The Securities and Exchange Commission, acting pursuant to the Securities Act of 1933, particularly sections 6, 7, 10, and 19(a) thereof, hereby adopts Form S-13 (17 CFR 239.25) to read as set forth below. Form S-13 shall be used for registration statements filed on or after April 4, 1966, for the registration of voting trust certificates. Form F-1 (17 CFR 239.9) is revoked effective April 4, 1966 (Form F-1 has been replaced by Form S-13 at 17 CFR 239.25).

By the Commission, March 4, 1966.

[SEAL] ORVAL L. DuBois,
Secretary.

§ 239.25 Form S-13, for registration under the Securities Act of 1933 of voting trust certificates.

(a) **General instructions—A. Rule as to use of Form S-13.** This form shall be used for the registration of voting trust certificates under the Securities Act of 1933.

B. Application of general rules and regulations. Attention is directed to the general rules and regulations under the Act, particularly those comprising Regulation C. That regulation contains general requirements regarding the preparation and filing of the registration statement. The definitions contained in Rule 405 (17 CFR 230.405) should be especially noted.

C. Documents comprising registration statement. The registration statement shall consist of the facing sheet of the form, the prospectus, the required signatures, consents of experts, financial statements and exhibits and any other prospectus, information, undertaking or documents which are required or which the registrant may file as a part of the registration statement.

D. Form and content of prospectus. (a) The prospectus shall contain the information called for by all items of the form, except that no reference need be made to inapplicable items, and negative answers to any item may be omitted. The information shall be presented in clear, concise, understandable fashion. Avoid unnecessary and irrelevant details, repetition or the use of unnecessary technical language.

(b) Unless clearly indicated otherwise, information set forth in any part of the prospectus need not be duplicated elsewhere in the prospectus. Where it is deemed necessary or desirable to call attention to such information in more than one part of the prospectus, this may be accomplished by appropriate cross reference. In lieu of restating information in the form of notes to the financial statements, references should be made to other parts of the prospectus where such information is set forth.

E. Definition of "issuer." The term "issuer" means the issuer of the securities deposited or to be deposited under the voting trust agreement.

Title 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 46—RURAL SERVICE

PART 61—MONEY ORDERS

Rural Boxes, and Issuance of Domestic Money Orders

A notice of proposed revision in Parts 46 and 61 of Title 39, Code of Federal Regulations, was published in the FEDERAL REGISTER of February 4, 1966 (31 F.R. 2384). One proposed amendment to § 46.5(b) would expand the requirements for painting and identification of mail boxes on rural routes. A second proposed amendment to § 61.1(e) (2) would clarify instructions on the mailing of a money order to the payee by postal employees. Interested persons were given 30 days in which to submit written comments with respect to the proposals.

After consideration of the comments received, the Department has reached the conclusion to adopt the proposals. Therefore, the amendments to be effective on Monday, April 11, 1966, are as follows:

§ 46.5 Rural boxes.

(b) *Painting and identification.* The Department prefers that rural mail boxes and posts or supports be painted white, but they may be painted other colors if desired. It is not necessary that posts or supports and boxes be painted the same color. Where box numbers are used, the name of the owner and box number must be inscribed in contrasting color in neat letters and numerals not less than 1 inch high on the side of the box that is visible to the carrier as he regularly approaches, or on the door if boxes are grouped. Where the use of street names and house numbers has been authorized, the house number must be shown on the box. If the box is located on a different street than the patron's residence, both the street name and house number must be inscribed on the box. The placing of the owner's name on the box is optional with the patron where street and house numbers have been authorized. Advertising on boxes or supports is prohibited.

NOTE: The corresponding Postal Manual section is 156.52.

§ 61.1 Issuance of domestic money orders.

(e) *Issuance to rural patrons—* * **
(2) *Requesting the mailing of order to payee.* If the purchaser wants the money order mailed to the payee, he should furnish the carrier with a stamped addressed envelope. The carrier will take the application form, the money, and the envelope, to the post office where a postal employee will com-

plete the money order and mail to the payee. No extra charge is made for this service.

NOTE: The corresponding Postal Manual section is 171.152.

Proposed Rule Making

FEDERAL AVIATION AGENCY

[14 CFR Part 71]

[Airspace Docket No. 65-AL-27]

CONTROL AREA

Proposed Designation

The Federal Aviation Agency is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate an offshore control area to be described as follows:

That airspace extending upward from 14,500 feet MSL, to FL 450, within the area bounded by a line beginning at latitude 59°08'30" N., longitude 147°16'00" W., counterclockwise via the arc of a 172-mile radius centered on the Anchorage VOR to latitude 60°14'10" N., longitude 145°29'30" W., thence southeastward 3 nmi from and parallel to the U.S. coastline to latitude 54°40'00" N., longitude 132°56'00" W., thence to latitude 54°14'00" N., longitude 134°57'00" W., thence to point of beginning. The airspace within Canada is excluded.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices, by the Air Traffic Service, FAA, in areas outside domestic airspace of the U.S. is governed by Article 12 and Annex 11 to the Convention on International Civil Aviation (ICAO), which pertains to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Its purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Alaskan Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, 632 Sixth Avenue, Anchorage, Alaska, 99501. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Agency, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C., 20553. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The designation of this area as controlled airspace would facilitate the movement and control of instrument air traffic operating between the Alaskan continental control area and the Anchorage Oceanic Control Area/Flight Information Region at altitudes between 14,500 feet MSL and FL 450.

This amendment is proposed under the authority of sections 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348, 1510) and Executive Order 10854 (24 F.R. 9565).

Issued in Washington, D.C., on March 8, 1966.

JAMES L. LAMPL,
Acting Chief, Airspace and
Air Traffic Rules Division.

CONTROL ZONES, TRANSITION AREA AND AIRWAYS

Proposed Alterations, Designation and Realignment

The Federal Aviation Agency is considering amendments to Part 71 of the Federal Aviation Regulations to accomplish the following:

1. The Hoquiam control zone would be redesignated as that airspace within a 5-mile radius of Bowerman Field,

Hoquiam, Wash. (latitude 46°58'15" N., longitude 123°56'05" W.), and within 2 miles each side of the Hoquiam VORTAC 079° True radial, extending from the 5-mile radius zone to the VORTAC.

2. The Hoquiam transition area would be designated as that airspace extending upward from 700 feet above the surface within 2 miles each side of the Hoquiam VORTAC 069° True radial, extending from the arc of a 5-mile radius circle centered on Bowerman Field to 20 miles east of the VORTAC; within 2 miles each side of the Hoquiam VOR 089° True radial, extending from the arc of a 5-mile radius circle centered on Bowerman Field to 20 miles east of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within 8 miles north and 8 miles south of the Hoquiam VORTAC 068° and 249° True radials, extending from 13 miles west to 15 miles east of the VORTAC.

3. Control 1418 would be redesignated as that airspace extending upward from 2,000 feet MSL centered on the Hoquiam VORTAC 232° True (210° mag.) radial, 10 nmi in width at the VORTAC with each edge diverging at an angle of 5° with the centerline, extending from the VORTAC to the east boundary of the Oakland Oceanic Control Area.

4. The segment of V-27 and V-27W between Astoria, Oreg., and Seattle, Wash., would be realigned as follows:

Astoria, Oreg.; Olympia, Wash., INT of Olympia 010° (348° mag.) and Seattle, Wash., 249° True (227° mag.) radials; to Seattle, including a W alternate from Astoria to INT of Olympia 010° and Seattle 249° True radials via Hoquiam, Wash., excluding the airspace between the main and this alternate airway.

5. The segment of V-99 between Olympia, Oreg., and Seattle, Wash., would be realigned as follows:

Olympia; INT of the Olympia 010° (348° mag.) and Seattle, Wash., 249° True (227° mag.) radials; to Seattle.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices, by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 and Annex 11 of the Convention on International Civil Aviation (ICAO), which pertains to the establishment of air navigation facilities and services necessary to promoting the safe, orderly and expeditious flow of civil air traffic. Its purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under

the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, Post Office Box 90007, Airport Station, Los Angeles, Calif., 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The actions proposed herein are primarily the result of the relocation of the Hoquiam VOR and its conversion to a VORTAC. The establishment of the transition area is included as an associated action.

These amendments are proposed under secs. 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348, 1510), and Executive Order 10854 (24 F.R. 9565).

The Federal Aviation Agency is considering amendments to Part 71 of the Federal Aviation Regulations that would accomplish the following:

1. The San Francisco, Calif., transition area would be designated as that airspace extending upward from 700 feet above the surface bounded on the north by latitude 38°02'00" N., on the east by longitude 121°52'00" W., on the south by latitude 37°30'00" N., and on the west by a line extending from latitude 37°30'00" N., longitude 122°27'00" W., to latitude 37°34'00" N., longitude 122°31'00" W., to latitude 37°55'00" N., longitude 122°31'00" W., to latitude 38°02'00" N., longitude 122°40'00" W.; and that airspace extending upward from 1,200 feet above the surface bounded on the north by latitude 38°02'00" N., on the east by a line extending from latitude 33°02'00" N., longitude 121°37'00" W., to latitude 37°38'00" N., longitude 121°37'00" W., to latitude 37°38'00" N., longitude 121°50'00" W., to latitude 37°30'00" N., longitude 121°50'00" W., on the south by latitude 37°30'00" N., and on the west by V-27 and V-199.

2. Control 1173 would be redescribed as that airspace west of San Francisco, Calif., bounded by a line extending from:

The portion within W-513 is excluded between the hours of 0800 and 2000 P.s.t., Monday through Friday, and below 3,000 feet MSL within W-513 between the hours of 2000 and 0800 P.s.t., Monday through Friday.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices, by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 and Annex 11 to the Convention on International Civil Aviation (ICAO), which pertains to the establishment of air navigation facilities and services necessary to promoting the safe, orderly and expeditious flow of civil air traffic. Its purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, de-

rived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, Post Office Box 90007, Airport Station, Los Angeles, Calif., 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Agency, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C., 20553. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

There are no procedural changes required as a result of these proposed actions, and there is no requirement for alteration of the control zones. Companion actions relating to the Hamilton AFB, Travis AFB, and the San Jose terminal areas will be issued by the Western Region.

These amendments are proposed under the authority of secs. 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348, 1510) and Executive Order 10854 (24 F.R. 9565).

TRANSITION AREA

Proposed Alteration

The Federal Aviation Agency is considering an amendment to Part 71 of the Federal Aviation Regulations to alter controlled airspace in the St. Joseph, Mo., transition area.

The St. Joseph, Mo., transition area is presently designated as:

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the Rosecrans Memorial Airport (latitude 39°46'23" N., longitude 94°54'31" W.) and within 5 miles E and 8 miles W of the St. Joseph ILS localizer S course, extending from the 8-mile radius area to 12 miles S of the OM; and that airspace extending upward from 1,200 feet above the surface bounded by a line extending from the INT of the S boundary of V-216 and the W boundary of V-13 SW along the W boundary of V-13 to latitude 39°42'25" N., longitude 94°29'20" W.; thence W to latitude 39°44'00" N., longitude 94°43'20" W.; thence S to latitude 39°30'00" N., longitude 94°49'00" W.; thence W along latitude 39°30'00" N., to longitude 95°09'00" W.; thence N along longitude 95°09'00" W. to the arc of a 20-mile radius circle centered on the Rosecrans Memorial Airport; thence clockwise along this arc to the W boundary of V-205; thence N along the W boundary of V-205 to the S boundary of V-216; thence E along the S boundary of V-216 to point of beginning; and that airspace N of St. Joseph bound on the E by a line 5 miles NE of and parallel to the Neola, Iowa VORTAC 142° radial, on the S by V-216 and on the W by longitude 95°00'00" W.

The Federal Aviation Agency, having completed a review of the designation of

controlled airspace in the St. Joseph, Mo., terminal area, has under consideration the following airspace action:

Alter the transition area in the St. Joseph, Mo., terminal area by redesignating it as that airspace extending upward from 700 feet above the surface within an 8-mile radius of the Rosecrans Memorial Airport (latitude 39°46'23" N., longitude 94°54'31" W.); and within 5 miles E and 8 miles W of the St. Joseph ILS localizer S course, extending from the 8-mile radius area to 12 miles S of the OM; and that airspace extending upward from 1,200 feet above the surface bounded by a line extending from the INT of the S boundary of V-216 and the W boundary of V-13 SW along the W boundary of V-13 to latitude 39°42'25" N., longitude 94°29'20" W.; thence W to latitude 39°44'00" N., longitude 94°43'20" W.; thence S to latitude 39°30'00" N., longitude 94°49'00" W.; thence W along latitude 39°30'00" N. to longitude 95°09'00" W.; thence N along longitude 95°09'00" W. to the arc of a 20-mile radius circle centered on the Rosecrans Memorial Airport; thence clockwise along this arc to the N boundary of V-50; thence W along the N boundary of V-50 to the S boundary of V-216; thence E along the S boundary of V-216 to point of beginning.

The proposed alteration adds controlled airspace in the area northwest of St. Joseph, Mo., and will permit a more direct radar routing for aircraft operating between Lincoln, Nebr., and Kansas City, Mo. It also eliminates that airspace N of St. Joseph bound on the E by a line 5 miles NE of and parallel to the Neola, Iowa VORTAC 142° radial, on the S by V-216 and on the W by longitude 95°00'00" W.

No revisions to prescribed instrument procedures would accompany the actions proposed herein. Therefore, operational complexities, aircraft performance char-

acteristics and established landing minimums would not be affected.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued at Kansas City, Mo., on March 3, 1966.

Director, Central Region.

FEDERAL POWER COMMISSION

[Docket No. G-3783, etc.]

CONTINENTAL OIL CO. ET AL.

Findings and Order

MARCH 2, 1966.

Findings and order after statutory hearing issuing certificates of public convenience and necessity, canceling docket number, amending certificates, permitting and approving abandonment of service, terminating certificates, making successor co-respondent, redesignating proceeding, requiring filing of surety bond, and accepting related rate schedules and supplements for filing.

Each of the Applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce, for permission and approval to abandon service, or a petition to amend an existing certificate authorization, all as more fully described in the respective applications and petitions (and any supplements or amendments thereto) which are on file with the Commission.

The Applicants herein have filed related FPC Gas Rate Schedules and propose to initiate or abandon, add or delete natural gas service in interstate commerce as indicated by the tabulation herein. All sales certificated herein are either equal to or below the ceiling prices established by the Commission's Statement of General Policy 61-1, as amended, or involve sales for which permanent certificates have been previously issued.

C. F. Raymond, Applicant in Docket No. CI66-454, proposes to continue in part the sale of natural gas heretofore authorized in Docket No. G-14892 and made pursuant to U.S. Smelting Refining and Mining Co. FPC Gas Rate Schedule No. 8. Said rate schedule will also be accepted for filing as Applicant's rate schedule. The presently effective rate under said rate schedule is in effect subject to refund in Docket No. RI64-656. Accordingly, Applicant will be made a co-respondent in said proceeding, the

proceeding will be redesignated, and Applicant will be required to file a surety bond to assure the refund of any amount collected by him in excess of the amount determined to be just and reasonable in said proceeding.

After due notice, no petitions to intervene, notices of intervention, or protests to the granting of any of the respective applications or petitions in this order have been received.

At a hearing held on February 24, 1966, the Commission on its own motion received and made a part of the record in these proceedings all evidence, including the applications, amendments, and exhibits thereto, submitted in support of the respective authorizations sought herein, and upon consideration of the record,

The Commission finds:

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will therefore, be a "natural-gas company" within the meaning of said Act upon the commencement of the service under the respective authorizations granted hereinafter.

(2) The sales of natural gas hereinbefore described, as more fully described in the respective applications, amendments and/or supplements herein, will be made in interstate commerce, subject to the jurisdiction of the Commission, and such sales by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) (e) of section 7 of the Natural Gas Act.

(3) The sales of natural gas by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity and certificates therefore should be issued as hereinafter ordered and conditioned.

(4) The respective Applicants are able and willing properly to do the acts and to perform the services proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Docket No. CI66-284 should be canceled and that the application filed therein should be processed as a petition to amend the certificate heretofore issued in Docket No. CI62-1516 by permitting the successor in interest to continue the service heretofore authorized.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the certificate authorizations heretofore issued in the

following dockets should be amended as hereinafter ordered and conditioned:

G-3783	G-18748	CI64-148

G-16218	CI63-1363	CI65-1145
G-16367	CI64-82	CI66-32
G-18630		

(7) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the temporary certificate heretofore issued in Docket No. CI64-465¹ should be amended to reflect General American Oil Co. of Texas (Operator), et al., as certificate holder thereof in lieu of J. P. Owen (Operator), et al.

(8) The sales of natural gas proposed to be abandoned by the respective Applicants, as hereinbefore described, all as more fully described in the tabulation herein and in the respective applications, are subject to the requirements of subsection (b) of section 7 of the Natural Gas Act, and such abandonments should be permitted and approved as hereinafter ordered.

(9) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificates of public convenience and necessity heretofore issued to the respective Applicants herein relating to the abandonments hereinafter permitted and approved should be terminated.

(10) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that C. F. Raymond should be made a co-respondent in the proceeding pending in Docket No. RI64-656, that said proceeding should be redesignated accordingly, and that C. F. Raymond should be required to file a surety bond.

The Commission orders:

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order, authorizing the sales by the respective Applicants herein of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary for such sales, all as hereinbefore described and as more fully described in the respective applications, amendments, supplements, and exhibits in this proceeding.

¹ Although the temporary certificate contained no express refund obligation, there is a possibility that refunds may be ordered in said docket by General American Oil Co. of Texas and J. P. Owen, P.S.C. of the State of New York v. F.P.C., 329 F.2d 242, cert. denied sub nom. Prado Oil & Gas Co. v. F.P.C., 377 U.S. 963.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder, and is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against the respective Applicants. Further, our action in this proceeding shall not foreclose nor prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. Nor shall the grant of the certificates aforesaid for service to the particular customers involved imply approval of all of the terms of the respective contracts, particularly as to the cessation of service upon termination of said contracts, as provided by section 7(b) of the Natural Gas Act. Nor shall the grant of the certificates aforesaid be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The grant of the certificates issued herein on all applications filed after April 15, 1965, is upon the condition that no increase in rate which would exceed the ceiling prescribed for the given area by paragraph (d) of the Commission's Statement of General Policy 61-1, as amended, shall be filed prior to the applicable dates, as indicated by footnotes 2 and 13 in the attached tabulation.

(E) A certificate of public convenience and necessity is issued to Applicants in Docket No. CI63-1219, to continue in part the sale of natural gas heretofore authorized in Docket No. G-16010, at the proposed rate of 15.0 cents per Mcf subject to the following conditions:

(a) K. B. Absher, et al. and John P. Booth, et al., shall submit, within 45 days from the date of this order, an estimated billing statement reflecting the 15.0 cents rate.

(b) A statement showing the amounts refunded to the buyer, Northern Natural Gas Co., attributable to the difference between the rate previously collected and the proposed 15.0 cents rate.

(c) A release from the buyer stating that the required refunds have been made.

(F) A certificate of public convenience and necessity is issued to Applicant in Docket No. CI66-381, and the allowance for the take-or-pay provisions of the related rate schedule is subject to the ultimate disposition of the rule-making proceeding in Docket No. R-199, however, Texaco Inc., shall not be required to file

take-or-pay provisions for less than 80 percent of the annual contract quantity.

(G) A certificate of public convenience and necessity is issued to Applicant in Docket No. CI66-555 authorizing the continuance of the related sale which was initiated without Commission authorization.

(H) The certificates heretofore issued in Docket Nos. G-3783, G-5123, G-6947, G-10706, G-16218, G-16367, G-18630, CI60-590, CI60-788, CI62-1132, CI63-411, CI64-82, CI64-546, CI64-735, CI64-929, CI65-396, and CI65-1145 are amended by adding thereto or deleting therefrom authorization to sell natural gas to the same purchasers and in the same areas as covered by the original authorizations, pursuant to the rate schedule supplements as indicated in the tabulation herein.

(I) The certificate issued herein in Docket No. CI66-301 and the authorization granted in Docket No. CI65-396 in paragraph (H) above are subject to the following conditions:

(a) Frio-Tex Oil & Gas Co. (Operator), et al., and Rodman Oil Co. shall file, within 90 days from the date of initial delivery, a Rate Schedule-Quality Statement as set forth in Opinion No. 468, as modified by Opinion No. 468-A.

(b) No increase in rate may be filed prior to January 1, 1968, except in compliance with a specific order of the Commission, for a rate in excess of the applicable area rate as determined pursuant to the Commission's Opinion No. 468, as modified by Opinion No. 468-A, or pursuant to a later order of the Commission.

(c) Should the quality of the gas delivered at any time deviate from the quality standards set forth in ordering paragraph (B) of Opinion No. 468-A so as to require a downward adjustment to the existing rate, a notice of change in rate must be filed pursuant to the provisions of section 4 of the Natural Gas Act: *Provided, however,* That adjustments reflecting changes in Btu content shall be computed by the applicable formula set forth in Opinion No. 468, as modified by Opinion No. 468-A, and charged without the filing of a notice of change in rate.

(J) The certificate issued herein in Docket No. CI66-346 and the authorization granted in Docket No. CI64-929 in paragraph (H) above are subject to the conditions set forth in paragraphs (C), (D), and (E) of the order accompanying Opinion No. 353 (27 FPC 449); further, the authorization granted in Docket No. CI64-929 is conditioned upon Applicant filing a supplement to its rate schedule, applicable to said acreage, to provide for a proportional downward Btu adjustment from a base of 1,000 Btu per cubic foot.

(K) The certificate heretofore issued in Docket No. G-18748 is amended to include the sale of natural gas from the additional acreage and such authorization is subject to the conditions set forth in paragraphs (G) and (H) of the order accompanying Opinion No. 390 (29 FPC 1175); further, such authorization is

conditioned upon Applicant filing, within 30 days from the date of this order, a billing statement reflecting the rate of 17.0 cents per Mcf.

(L) The certificate heretofore issued in Docket No. CI65-205 is amended to include the sale of natural gas from the additional acreage, at an initial rate of 9.0 cents per Mcf at 14.65 psia, conditioned upon Rodman Oil Co. refunding to West Lake Natural Gasoline Co. any amounts collected, plus interest, in excess of the rate found to be required in Docket No. RI65-435.

(M) The certificate heretofore issued in Docket No. CI62-1251 is amended to include the interest of coowners to the basic contract.

(N) The certificates heretofore issued in Docket Nos. G-11860, G-14892, G-16010, G-19316, and CI65-766 are amended by deleting therefrom authorization to sell natural gas from acreage assigned to Applicants in Docket Nos. CI66-575, CI66-454, CI63-1219, CI66-450, and CI66-346.

(O) Docket No. CI66-284 is canceled. (P) The certificates heretofore issued in Docket Nos. G-7978, CI61-1460, CI62-1516, CI63-1363, CI64-148, CI65-301, and CI66-32 are amended by changing the certificate holders to the respective successors in interest as indicated in the tabulation herein.

(Q) The temporary certificate heretofore issued in Docket No. CI64-465 is amended to reflect General American Oil Co. of Texas (Operator), et al., as certificate holder thereof in lieu of J. P. Owen (Operator), et al., and such authorization shall not be construed to relieve either company of any possible refund obligations in said docket.

(R) Permission for and approval of the abandonment of service by the respective Applicants, as hereinbefore described and as more fully described in the respective applications herein are granted.

(S) Permission for and approval of abandonment of service by Applicant in Docket No. CI66-504 is granted and the related certificate in Docket No. G-3913 is terminated only insofar as it pertains to FPC Gas Rate Schedule No. 86.

(T) The certificates heretofore issued in Docket Nos. G-9861, G-18295, CI63-1362, and CI65-47 are terminated.

(U) C. F. Raymond shall be a co-respondent in the proceeding pending in Docket No. RI64-656 and said proceeding is redesignated accordingly.²

ALABAMA-TENNESSEE NATURAL GAS CO.

Notice of Petition To Amend

MARCH 7, 1966.

Take notice that on March 1, 1966, Alabama-Tennessee Natural Gas Co. (Petitioner), Post Office Box 918, Florence, Ala., 35630, filed in Docket No. CP65-197 a petition to amend the order issued in said docket on April 30, 1965, and amended on December 20, 1965, by requesting authorization for the transportation and delivery of an additional volume of 700 Mcf of gas per day for sale to the Ford Motor Co., an existing customer, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

By the order issued in the instant docket on April 30, 1965, Petitioner was authorized, inter alia, to construct certain natural gas facilities in order to increase its daily system delivery capacity by 6,650 Mcf and thereby serve its existing customers with their natural gas requirements for the winter heating season of 1965-66. On December 20, 1965, said order was amended to authorize Petitioner to transport and deliver an additional 1,000 Mcf of natural gas per day for sale to the Reynolds Metals Co.

Petitioner states that the sale and delivery to Reynolds Metals Co. of the additional volume of 1,000 Mcf of gas per day has reduced the unused daily capacity of its system to 2,180 Mcf. Petitioner further states that no additional facilities are required to provide the additional service requested by the instant petition and that said additional service will have no adverse effect on its ability to continue the rendition of service to its other customers as heretofore authorized in the instant docket.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before April 4, 1966.

(McBride) filed five offers of settlement in these proceedings pursuant to § 1.18(e) of the Commission's rules of practice and procedure, involving five sales of natural gas to natural gas pipeline companies in fields located in the States of Colorado, Oklahoma, and Texas (Texas Railroad Commission District Nos. 2 and 6).¹ The settlement involves proposed rate increases which when filed by McBride, were suspended by order of the Commission, and after the statutory suspension period were made effective, subject to refund, by McBride by appropriate motion.

Under the terms of the settlement offers, McBride proposes settlement rates equal to the applicable increased area rate ceiling, or the last firm rate, and to a 3-year filing moratorium, commencing November 1, 1965, upon any proposed increased rates for the sales involved. However, McBride reserves the right to file up to the applicable area ceiling, if such ceiling be increased, at any time during the moratorium period if contractually authorized. It also proposes to refund all monies collected subject to refund under three of the sales (FPC Gas Rate Schedule Nos. 6, 8, and 9) and refunds in accordance with the Grigsby formula² under the other two sales (FPC Gas Rate Schedule Nos. 1 and 7). The amount of refunds to be made is approximately \$17,400, exclusive of applicable interest, and McBride's annual revenues will be reduced approximately \$6,500 below that now charged and collected at the currently effective rates.

In the Grigsby order (supra) we provided that as a condition to utilizing Grigsby the small producers agree to a 36-month moratorium on proposed rate increases above the applicable ceiling for each of their filed rate schedules as is generally agreed to by large producers in their companywide settlements. As noted above, McBride proposes to make

the moratorium applicable only to the sales involved herein. Therefore, we shall condition our approval of its proposal to require the moratorium period to apply to all of McBride's FPC Gas Rate Schedules now on file with the Commission.

Additionally, one of McBride's jurisdictional pipeline customers, Texas Eastern Transmission Corp. (TETCO) does not now acknowledge a flow-through obligation on its part of the refund monies it would receive from McBride. Consequently, for all of the reasons set forth in our order in Humble Oil & Refining Co., Docket Nos. G-9287 and G-9288, et al., 32 FPC 49, we shall require McBride to retain the refund monies it would otherwise pay over to TETCO pending further order of the Commission regarding their disposition.

We believe that McBride's settlement proposals, as conditioned, are in the public interest and shall approve the same. However, we desire to make it clear that acceptance of McBride's offers of settlement, as amended, shall not be construed as approval of any future increased rate that may be filed by McBride under the subject rate schedules and is without prejudice to any findings or order of the Commission in any future proceeding involving McBride's rates and rate schedules.

The Commission finds:

The proposed settlement of the above-designated proceedings, on the basis described herein, as more fully set forth in the offers of settlement, as conditioned, filed with the Commission by McBride on November 26, 1965, is consistent with the Statement of General Policy No. 61-1, as amended, 18 CFR 2.56, and approval thereof as made effective and hereinafter ordered is in the public interest and is appropriate to carry out the provisions of the Natural Gas Act.

The Commission orders:

(A) The offers of settlement, as conditioned, filed with the Commission by McBride on November 26, 1965, is approved in accordance with the provisions of this order.

(B) McBride shall file, within 45 days from the date of issuance of this order, notices of change in rates under its FPC gas rate schedules to reflect the settlement rates in accordance with the terms of its settlement proposals, as amended, and as conditioned herein. The notices of change and the contractual amendments shall be submitted in accordance with Part 154 of the Commission's regulations under the Natural Gas Act.

(C) McBride shall compute the difference between the rates collected subject to refund and the settlement rate for the sales for which it proposes to make refunds under its FPC Gas Rate Schedule Nos. 6, 8, and 9, and under its Rate Schedule Nos. 1 and 7 in accordance with the percentages set forth in the appendix hereto, with applicable interest to the date of this order, and shall within 45 days from the date of issuance of this order submit a report to the Commission, with a copy to its jurisdictional pipeline purchasers, setting out the

amount of refunds (showing separately the principal and applicable interest) the bases used for such determination, the period covered, and 10 days thereafter shall submit to the Commission a copy of a letter from its jurisdictional pipeline purchasers agreeing to the correctness of such amounts.

(D) McBride shall refund to its jurisdictional pipeline purchasers the refund monies due and owing each in accordance with paragraph (C) above 10 days after receiving the letter from each required by paragraph (C) above, with applicable interest, except it shall retain the amounts shown in the report required under paragraph (C) above due to be paid to TETCO, subject to further order of the Commission directing the disposition of those amounts.

(E) McBride may deposit the retained refunds in a special escrow account, and shall tender for filing within 60 days of the date of issuance of this order an executed escrow agreement, conditioned as set out below, accompanied by a certificate showing service of a copy thereof upon TETCO. Unless notified to the contrary by the Secretary within 30 days from the date of filing thereof, the escrow agreement shall be deemed to be satisfactory and to have been accepted for filing. The escrow agreement shall be entered into between McBride and any bank or trust company used as a depository of funds of the U.S. Government and the agreement shall be conditioned as follows:

(1) McBride, the bank or trust company, and the successors and assigns of each, shall be held and formally bound unto the Federal Power Commission for the use and benefit of those entitled

thereto, with respect to all amounts and the interest thereon deposited in the special escrow account, subject to such agreement, and such bank or trust company shall be bound to pay over to such person or persons as may be identified and designated by final order of the Commission and in such manner as may be therein specified, all or any portion of such deposits and the interest thereon.

(2) The bank or trust company may invest and reinvest such deposits in any short-term indebtedness of the United States or any agency thereof or in any form of obligation guaranteed by the United States which is, respectively, payable within 120 days as the said bank or trust company in the exercise of its sound discretion may select.

(3) Such bank or trust company shall be liable only for such interest as the invested funds described in paragraph (2) above will earn and no other interest may be collected from it.

(4) Such bank or trust company shall be entitled to such compensation as is fair, reasonable and customary for its services as such, which compensation shall be paid out of the escrow account to such bank or trust company. Said bank or trust company shall likewise be entitled to reimbursement for its reasonable expenses necessarily incurred in the administration of this escrow account, which reimbursement shall be paid out of the escrow account.

(5) Such bank or trust company shall report to the Secretary quarterly, certifying the amount deposited in the bank or trust company for the quarterly period.

(F) If McBride elects to commingle the retained refunds with its general assets and use them for business purposes, it shall notify the Secretary of the

Commission of his intention so to do within 60 days of the issuance of this order, and shall pay interest on such monies at the rate of 5 percent per annum from the date of issuance of this order to the date on which they are paid over to the person or persons ultimately determined to be entitled thereto by final order or orders of the Commission.

(G) Upon notification by the Secretary of the Commission that McBride has complied with the terms and conditions of this order, the proceedings in the Appendix hereto shall terminate, the proceedings in Docket Nos. G-16890 and RI63-309 shall be severed from the proceedings in Docket Nos. AR64-2, et al., and the proceedings in said dockets shall terminate, all without further order of the Commission.

(H) McBride shall file, over the signature of a responsible officer of the corporation, within 30 days from the issuance of this order, an original and one copy in writing of its acceptance or rejection of the terms and conditions of this order.

(I) The acceptance by the Commission of McBride's offers of settlement, conditioned to provide that the moratorium period shall apply to all McBride's FPC gas rate schedules now on file with the Commission, is without prejudice to any findings or determinations that may be made in any proceeding now pending, or hereafter instituted by or against McBride and is without prejudice to claims or contentions which may be made by McBride, the Commission staff, or any affected party hereto, in any proceedings.

By the Commission.*

[Docket No. CP64-228]

NORTHERN NATURAL GAS CO.
Notice of Petition To Amend

MARCH 4, 1966.

Take notice that on February 25, 1966, Northern Natural Gas Co. (Petitioner), 2223 Dodge Street, Omaha 2, Nebr., filed in Docket No. CP64-228 a petition to amend the order issued in said docket on March 9, 1965, and amended on June 30,

1965, by requesting authority to install one 9,100 horsepower compressor unit at its Clifton Kansas Compressor Station (Clifton) in lieu of the two 4,000 horsepower units presently authorized and by requesting that the time prescribed by the Commission for the completion of construction be extended 12 months from the original deadline of March 9, 1966, all as more fully set forth in the petition to amend which is on file with

the Commission and open to public inspection.

The order issued in the instant docket, as amended, authorized Petitioner to construct and operate certain facilities, including two 4,000 horsepower compressor units at Clifton, to render initial natural gas service to the Consumers Cooperative Association for use in its fertilizer plant located near Fort Dodge, Iowa.

* Commissioner O'Connor not participating.

Petitioner states that in viewing its 1966 mainline construction program, it has become apparent that certain economies of construction can be realized by utilizing larger units of horsepower and in order to take advantage of these economies it requests the authority to install one 9,100 horsepower compressor unit at Clifton in lieu of the two 4,000 horsepower units presently authorized. Petitioner further states that the estimated cost of the two 4,000 horsepower units is \$2,390,100 as compared with an estimated cost of \$2,151,000 for the installation of one 9,100 horsepower unit, resulting in a savings of approximately \$239,000.

The Commission's order issued in the instant docket provided that the facilities must be constructed and placed in service by March 9, 1966. Petitioner requests that the time be extended for 12 months to allow for construction of the proposed 9,100 horsepower unit.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before March 31, 1966.

CINCINNATI INTERNATIONAL FINANCE CORPORATION

Filing of Application for Order Exempting Company

MARCH 8, 1966.

Notice is hereby given that Cincinnati International Finance Co. ("applicant"), a Delaware corporation, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order exempting it from all provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

The applicant was organized by Cincinnati Milling Machine Co. ("Cincinnati Milling") under the laws of the State of Delaware on February 14, 1966. All of the common stock, par value \$100 a share, will be purchased for \$872,222, and held by Cincinnati Milling, which will also contribute to applicant promissory notes of a foreign subsidiary in the aggregate principal amount of \$1,627,778. Cincinnati Milling will also acquire any additional securities, other than debt securities, which applicant may issue in the future and will not dispose of any of the securities of applicant, other than debt securities, held by Cincinnati Milling except to the applicant or to a wholly owned subsidiary of Cincinnati Milling.

Cincinnati Milling, an Ohio corporation, is engaged directly and through its subsidiaries in the manufacture and distribution of machine tools and related machinery and products, and in the manufacture and distribution of certain lines of chemical products.

Applicant has been organized in order to raise funds abroad for use in financing the requirements of Cincinnati Milling's

foreign operations in a manner which will not adversely affect the U.S. balance of payments position, in compliance with the voluntary cooperation program instituted by the President in February 1965. Applicant intends to issue and sell \$6,000,000 principal amount of its Guaranteed Sinking Fund Debentures Due 1976 (the "Debentures"). Cincinnati Milling will guarantee the principal, premium, if any, sinking fund and interest payments on the Debentures. Any additional debt securities of applicant which may be issued to or held by the public will be guaranteed by Cincinnati Milling in the same manner as the Debentures.

Applicant contemplates that the proceeds received by it from the issuance of its capital stock, from the promissory notes to be contributed to it by Cincinnati Milling as hereinabove described, and from the sales of the Debentures will be invested in or loaned to companies which (1) are subsidiaries and affiliates (as defined in the Act) of Cincinnati Milling which will be either foreign companies or domestic companies all or substantially all of whose business is carried on abroad, and (2) are primarily engaged in a business or businesses other than investing, reinvesting, owning, holding, or trading in securities. Applicant will proceed as expeditiously as possible with the long-term investment of its assets in the manner described above. Pending such investment, applicant may make short-term deposits of such funds in foreign banks or foreign branches of U.S. banks, make temporary investments of such funds in short-term obligations outside the United States, and may maintain working balances in U.S. banks in anticipation of sinking fund and interest requirements. Applicant will not acquire the securities representing its loans or investments for the purpose of resale and will not trade in such securities.

The Debentures are to be sold to Underwriters under conditions intended to assure that they will not be sold to citizens or residents of the United States, its territories or possessions.

Applicant intends to apply for listing of the Debentures on the Luxembourg Stock Exchange.

Applicant asserts that it is not necessary or appropriate in the public interest or consistent with the protection of investors to regulate applicant under the Act, for the following reasons: (1) A principal purpose of applicant is to assist in improving the balance of payments program of the United States by serving as a vehicle through which Cincinnati Milling may obtain funds in foreign countries for its foreign operations; (2) applicant will not deal or trade in securities; (3) the public policy underlying the Act is not applicable to applicant and the security holders of applicant do not require the protection of the Act, because the payment of the Debentures, which is guaranteed by Cincinnati Milling, does not depend on the operations or investment policy of applicant, for the Debenture holders may ultimately look

to the business enterprise of Cincinnati Milling rather than solely to that of the applicant; (4) none of the securities other than debt securities of applicant will be held by any person other than Cincinnati Milling or a wholly owned subsidiary of Cincinnati Milling; (5) the Debentures will be offered and sold abroad to foreign nationals under circumstances designed to prevent any reoffering or resale in the United States, its territories or possessions or to any U.S. national, citizen, or resident; and (6) the burden of the Interest Equalization Tax will tend to discourage purchase of the Debentures by any U.S. person.

Notice is further given that any interested person may, not later than March 21, 1966, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of any attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

CORNING INTERNATIONAL CORP.

Filing of Application for Order Exempting Company

MARCH 8, 1966.

Notice is hereby given that Corning International Corp. ("applicant") Corning, N.Y., has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order exempting it from all provisions of the Act and the rules and regulations thereunder. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below:

The applicant was organized by Corning Glass Works ("Corning") under the

laws of the State of Delaware in January 1966. All of the authorized capital stock of the applicant, consisting of 10,000 shares with a par value of \$10 per share, will be issued in exchange for \$1,000 in cash and for stock owned by Corning of foreign subsidiaries or affiliates of Corning valued at \$3,986,768. Corning will also acquire any additional securities, other than debt securities, which applicant may issue in the future and will not dispose of any of the securities of applicant except to applicant or to another wholly owned subsidiary of Corning.

Corning, a New York corporation, is engaged, directly and through its subsidiaries and affiliates, in the manufacture and sale of a variety of glass and ceramic products for consumer and industrial uses.

A principal purpose for organizing the applicant was to provide assistance in improving the balance-of-payments position of the United States, in compliance with the voluntary cooperation program instituted by the President in February 1965, while at the same time continuing the expansion and development of Corning's operations outside the United States.

Applicant intends to borrow \$5,000,000 from the London branch of First National City Bank. The loan will bear interest at the most favorable rate charged by said branch at the date of borrowing for loans of comparable maturity and will be payable within 11 months. Corning will guarantee payment of the principal and interest of the loan. It is also expected that the applicant will subsequently borrow additional amounts up to \$10,000,000, possibly in foreign currencies, from one or more banks, upon terms and conditions to be fixed at the time of such borrowing or borrowings. Corning will also guarantee payment of the principal and interest on all such borrowings. A portion of the proceeds of any such borrowing will be used to repay the loan from the London branch of First National City Bank. It is intended that applicant will use the proceeds of the loan from said London branch and the balance of the proceeds of the other bank loans to invest in or lend to foreign subsidiaries and affiliates of Corning and will invest in obligations of foreign governments, foreign financial institutions or other foreign companies, payable either in U.S. dollars or other currencies and maturing in 1 year or less. It is intended that at least 90 percent of such proceeds will be invested in or loaned to foreign companies of which Corning owns, directly or indirectly, at least 20 percent of the outstanding voting securities and which are primarily engaged in a business other than investing, reinvesting, owning, holding or trading in securities. Applicant will proceed as expeditiously as possible with the investment of such proceeds in such manner. Pending the completion of such investment, applicant may invest in obligations of foreign governments, foreign financial institutions or other foreign companies, payable either in U.S. dollars or other currencies and maturing in 1 year or less,

in a proportion greater than that described above. Applicant will not acquire the securities representing loans or investments made by it for the purpose of sale and will not trade in such securities.

The other assets of the applicant will consist of the stock of the foreign subsidiaries or affiliates of Corning acquired by applicant in exchange for its shares of common stock. Applicant will own at least 20 percent of the outstanding voting securities of each such foreign subsidiary or affiliate and each such subsidiary or affiliate will be primarily engaged in a business other than investing, re-investing, owning, holding or trading in securities. By financing its foreign operations through the applicant rather than through the sale of its own debt obligations, Corning will utilize an instrumentality the acquisition of whose debt obligations by U.S. persons would, generally, subject such persons to the interest equalization tax, thus discouraging them from purchasing such debt obligations.

Applicant submits that it is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policies and provisions of the Act for the Commission to enter an order exempting applicant from each and every provision of the Act for the following reasons: (1) The sole purpose of applicant is to serve as a vehicle through which Corning may obtain funds in foreign countries for the foreign operations of Corning and its affiliates, in compliance with the President's cooperative program to improve the balance-of-payments program of the United States; (2) payment of bank loans guaranteed by Corning does not depend upon the operations or investment policy of applicant because note holders may ultimately look to the business enterprise of Corning rather than solely to that of applicant; (3) none of the equity securities of applicant will be held by any person other than Corning or a wholly owned subsidiary of Corning; (4) applicant will not deal or trade in securities.

Notice is further given that any interested person may, not later than March 22, 1966, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or of law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated

under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

For the Commission (pursuant to delegated authority).

MONONGAHELA POWER CO.

Proposed Charter Amendments and Proposed Acquisition of Preferred Stocks and Order Authorizing Solicitation of Proxies in Connection Therewith

MARCH 8, 1966.

Notice is hereby given that Monongahela Power Co. ("Monongahela"), 1310 Fairmont Avenue, Fairmont, W. Va., 26555, an electric utility company, a registered holding company, and a subsidiary company of Allegheny Power System, Inc. ("Allegheny"), also a registered holding company, has filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6, 7, 9(a), 10, 12(c), and 12(e) of the Act and Rules 42, 62, and 65 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, on file at the office of the Commission, for a statement of the transactions therein proposed which are summarized below.

Monongahela proposes to amend certain provisions of its charter in order to conform to the standards set forth in this Commission's statement of policy as set forth in Holding Company Act Release No. 13106 principally in respect of voluntary liquidation prices of preferred stock, acquisition of preferred stock, and payment of dividends on common stock. It is also proposed to amend the charter to permit the issue of unsecured indebtedness to the maximum authorized under the Commission's statement of policy.

The proposed charter amendments will be submitted to stockholders for their approval at Monongahela's annual meeting to be held on April 18, 1966. In connection therewith, Monongahela proposes to solicit proxies from the holders of its preferred stocks, and the proposed solicitation material sets forth in detail the amendments as to which their proxies are to be solicited. The application-declaration states that under the provisions of the Ohio General Corporation Law and Monongahela's charter, the affirmative vote of the holders of at least two-thirds of all issued and outstanding shares of the common stock and of each series of cumulative preferred stock, voting separately as a class, will be re-

quired for the adoption of the proposed charter amendments. Allegheny, the holder of all of Monongahela's outstanding common stock, will vote such stock in favor of the proposed amendments.

Under Ohio law, preferred stockholders who do not vote in favor of the proposed charter amendments and who comply with the provisions of State law, have the right to surrender their shares for payment of the fair cash value thereof as determined by the parties or in an appropriate judicial proceeding. Monongahela proposes to acquire the preferred stock of any such dissenting stockholders but will not consummate any acquisition at a price determined by the parties except pursuant to a post-effective amendment which the Commission, by order, has permitted to become effective. The application-declaration states that the proposed charter amendments may be withdrawn if, by reason of the potential liability to dissenting stockholders, the board of directors of Monongahela determines that adoption of the proposed amendments is inadvisable.

Expenses to be incurred in connection with the proposed transactions are estimated at \$10,500, as follows: proxy solicitations, \$4,500 (including \$2,000 for professional proxy solicitors); printing, \$2,000; legal fees, \$3,000; and miscellaneous expenses, \$1,000.

It is stated that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than March 31, 1966, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing hereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed contemporaneously with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

It appearing to the Commission that Monongahela's declaration, as amended, regarding the proposed proxy solicitation should be permitted to become effective pursuant to Rule 62, and that jurisdic-

tion should be reserved pursuant to Rule 65 with respect to the expenses of professional proxy solicitors:

It is ordered, That the declaration, as amended, regarding the proposed proxy solicitation, be, and it hereby is, permitted to become effective forthwith pursuant to Rule 62, and that jurisdiction be reserved under Rule 65 with respect to the expenses of professional proxy solicitors.

For the Commission (pursuant to delegated authority).

Subpart A—General Provisions

§ 100.735-1 Policy.

In order to assure the proper performance of the Government's business and the maintenance of public confidence, all employees shall maintain high standards of honesty, integrity, impartiality, and conduct. The avoidance of misconduct

and conflicts of interests, apparent or real, on the part of all employees through informed judgment is indispensable to the maintenance of the standards in this part. Since service is the keystone of the Agency's operations, each person who deals with the Agency is entitled to courtesy and consideration. Not only must his case be treated with fairness—there must not be even the appearance of unfairness.

§ 100.735-2 Responsibilities.

(a) *The Board.* The Board is responsible for the implementation of the regulations in this part with respect to employees under its jurisdiction.

(b) *The General Counsel.* The General Counsel is responsible for the implementation of the regulations in this part with respect to employees under his jurisdiction.

(c) *Agency Counselor.* The Director, Division of Administration, is hereby designated as the Agency Counselor for the purpose of (1) acting as liaison with the Civil Service Commission with respect to matters of employee responsibility and conduct, (2) coordinating the Agency's interpretation and advisory service under § 100.735-3, (3) advising, upon request, Agency officials responsible for reviewing the "Statements of Employment and Financial Interests" provided for in Subpart C of this part, (4) directing employees to review the regulations in this part annually, and (5) implementing and applying the regulations in this part. The Assistant Director, Division of Administration, and Director of Personnel are hereby designated as Assistant Agency Counselors.

(d) *Agency Employee Suitability Committee.* (1) The Agency Employee Suitability Committee shall continue to serve as a point of initial consideration concerning any matters of employee suitability that arise under Agency and/or other governmental regulations. In this position the Committee, as required, advises a Board Member, the Board, or the General Counsel concerning the appropriateness of action under such regulations. In addition the Committee is responsible for recommending to the Board and General Counsel, as necessary, guidelines to assure consistent and uniform application of the regulations in this part throughout the Agency.

(2) The Agency Employee Suitability Committee shall be composed of one member and alternate designated by the Board; one member and alternate designated by the General Counsel; and the Director, Division of Administration (who shall serve as Chairman) and as his alternate, the Assistant Director, Division of Administration.

(e) *Employees.* All new employees shall become familiar with the provisions of the regulations in this part during the period of orientation with the Agency. All employees are expected periodically to review the provisions included in this part and any subsequent regulations which may be issued.

§ 100.735-3 Advisory and interpretation service.

(a) The incumbents of the following named positions are Deputy Agency Counselors and shall make themselves thoroughly familiar with applicable laws, Executive orders, and regulations in this part:

(1) Regional Directors and respective Assistant General Counsels;

(2) All Washington Office, Branch, and Division Chiefs; and

(3) All persons officially acting in one of the above positions.

(b) Upon request of employees under their supervision, the above incumbents shall be available for necessary consultation and advice. In the consideration of any question or problem arising under the regulations in this part, the above officials or employees with questions or problems may avail themselves of the services of the Agency Counselor.

§ 100.735-4 Disciplinary and other remedial action.

(a) Violations of the regulations in this part by an employee may be cause for appropriate disciplinary or other action which may be in addition to any penalty prescribed by law.

(b) In any instance where a statement submitted under § 100.735-16 or Subpart C of this part or information from any other source indicates a conflict of interest, apparent or real, the employee shall be provided opportunity to explain.

(1) After consideration of the employee's explanation, the appropriate official (see designated officials under § 100.735-3(a) (1), (2), (3)) may recommend, in writing to the Chairman of the Board, the General Counsel, or a Board Member, as appropriate, that the interest is not so substantial as to be likely to affect the integrity of the employee's services to the Government and he must so notify the employee in advance of handling the assignment.

(2) If, however, the designated official deems the interest to be so substantial as to be a conflict or an apparent conflict with the employee's assignment, that official must act immediately to end the real or apparent conflict or to prevent a possible conflict by (i) disqualification for a particular assignment or (ii) arrangement by mutual agreement that the employee will divest himself of the interest before proceeding with the assignment. Any such action must also be reported with recommendations to the Chairman of the Board, the General Counsel, or a Board Member, as appropriate.

(3) If the designated official determines that further remedial action is necessary, he may recommend to the Chairman of the Board, the General Counsel, or a Board Member, as appropriate, that any of the following actions be taken—(i) changes in assigned duties, (ii) arrangements for divestment by the employee of his interest, or (iii) disciplinary action.

(c) Remedial action, whether disciplinary or otherwise, shall be effected in accordance with any applicable laws.

Executive Orders, and regulations (see NLRB Administrative Policies and Procedures Manual, Employee Appeals from Adverse Actions, Items 2430-2448 and employee's rights thereunder).

§ 100.735-5 Definitions.

In the regulations in this part:

- (a) "Employee" means any officer or employee of the Agency but does not include a special employee.
- (b) "Special Government employee" means an officer or employee of the Agency who is retained, designated, appointed, or employed to perform, with or without compensation, for not to exceed one hundred and thirty (130) days during any period of three hundred and sixty-five (365) consecutive days, temporary duties either on a full-time or intermittent basis.
- (c) "Person" means an individual, a labor organization, a corporation, a company, an association, a firm, a partnership, a society, a joint stock company, or any other organization or institution.

Subpart B—Conduct and Responsibilities of Employees

§ 100.735-11 General provisions.

All employees shall avoid any action whether or not specifically prohibited by this part which might result in or create the appearance of:

- (a) Using public office for private gain;
- (b) Giving preferential treatment to any person;
- (c) Impeding Government efficiency or economy;
- (d) Losing complete independence or impartiality;
- (e) Making a Government decision outside official channels; or
- (f) Affecting adversely the confidence of the public in the integrity of the Government.

§ 100.735-12 Gifts, entertainment, and favors.

- (a) Except as provided in paragraph (b) of this section, an employee shall not solicit or accept, directly or indirectly, any gift, gratuity, favor, entertainment, loan, or any other thing of monetary value, from a person who:
 - (1) Is a party to or has an interest in any case, proceeding, or other matter before the Agency;
 - (2) Conducts operations or activities or is associated with any operation or activity that falls within the jurisdiction of the National Labor Relations Act, as amended;
 - (3) Has interests that may be substantially affected by the performance or nonperformance of the employee's duty; or
 - (4) Has, or is seeking to obtain, contractual or other business or financial relations with the Agency.
- (b) Appropriate exceptions to the prohibitions in paragraph (a) of this section are as follows:
 - (1) Those gifts, gratuities, favors, etc., that are governed by obvious family relationships (such as those between parents, children, or spouse of the employee and the employee) or personal relations

ships when the circumstances make it clear that it is those relationships rather than the business of the persons concerned which are the motivating factors.

- (2) Acceptance of food and refreshments of nominal value on infrequent occasions where, in the course of performing official functions, case handling matters continue through luncheon or dinner, or on other occasions when an employee is properly in attendance.
- (3) Arrangement for loans from banks or other financial institutions granted on customary terms.
- (4) Acceptance of unsolicited advertising or promotional material, such as pens, pencils, note pads, calendars, and other items of nominal intrinsic value.

(c) An employee shall not solicit contributions from another employee for a gift to an employee in a superior official position. An employee in a superior official position shall not accept a gift presented as a contribution from employees receiving less salary than himself. An employee shall not make a donation as a gift to an employee in a superior official position except, however, that the use of completely voluntary contributions of employees within the office to establish funds for the limited purpose of providing token remembrances in situations such as death, illness, marriage, birth, or retirement is permissible.

(d) An employee shall not accept a gift, present, decoration, or other thing from a foreign government unless authorized by Congress.

§ 100.735-13 Outside employment or occupation.

- (a) *General provisions.* Employees shall not engage in outside employment or other outside activity incompatible with the full and proper discharge of the duties and responsibilities of their Government employment. Incompatible employment includes, but is not limited to:
 - (1) The private practice of law either individually or with another person; however, as an exception, permission of the Board or General Counsel may be requested to engage in such occasional and private legal activities as those involving family or civic matters;
 - (2) Acceptance of a fee (including forwarding or referral fees), compensation, gift, payment of expense, or any other thing of monetary value in circumstances in which acceptance may result in, or create the appearance of, a conflict of interest;
 - (3) Outside employment which tends to impair an employee's mental or physical capacity to perform his duties and responsibilities in an acceptable manner; or
 - (4) Outside employment which tends to limit an employee's availability for any required assignments including, but not limited to, travel, after-hours investigations, interviews, and elections.
- (b) *Dual compensation.* An employee shall not receive any salary or anything of monetary value from a private source as compensation for his services to the Government.

(c) *Teaching, writing, and lecturing.*
 (1) Teaching, writing, and lecturing by employees are outside activities which may be permitted so long as all requirements pertaining to conflicts of interest and outside employment (see especially paragraph (a) (3) and (4) of this section) are observed. However, an employee shall not, either for or without compensation, engage in teaching, lecturing, or writing that is dependent on information obtained as a result of his Government employment, except when that information has been made available to the general public or will be made available on request, or when the Board or General Counsel gives written authorization for the use of nonpublic information on the basis that the use is in the public interest.

(2) No employee of the Agency shall instruct, either directly or indirectly, or be concerned in any manner with the instruction of any person or classes of persons with a view to their special preparation for an examination of the Civil Service Commission or the Boards of Examiners for the Foreign Services. Any request for exceptions shall be directed to the Agency Counselor.

(d) *Employment under State or local government.* An employee shall not engage in outside employment under a State or local government, except in those situations allowed by law, Executive Order or Civil Service Commission regulation (5 CFR Part 734), and with the consent of the Board or General Counsel.

(e) *Requests for authorization and reports of outside employment—*(1) *Legal practice.* Requests directed to the Board or General Counsel, as appropriate, for exception to the prohibition in paragraph (a) (1) of this section, shall at a minimum, include:

- (i) Nature of legal activity,
- (ii) Relationship of proposed client(s) to employee, if any,
- (iii) Expected duration of activity, and
- (iv) Compensation involved.

(2) *Other employment.* Before any employee accepts outside employment, he shall obtain permission of his Regional Director, Branch Chief, or the equivalent. Permission shall be granted in accordance with the regulations in this part. Each Regional Director, Branch Chief, or the equivalent shall maintain a record on an individual basis of each request received for outside employment authorization and the official action taken. At least annually, as of June 30, the Division Chief shall require a report from each subordinate authorizing official showing as a minimum: (i) by named employee, the request and official action taken, and (ii) a list by employee of the outstanding authorizations for outside employment.

§ 100.735-14 Other outside activities.

The prohibition of § 100.735-13 shall not preclude an employee from:

- (a) Receipt of bona fide reimbursement, unless prohibited by law, for actual expenses for travel and such other necessary subsistence as is compatible with the

standards in this part, and for which no Government payment or reimbursement is made (since authority for payment of travel and subsistence to attend meetings is derived from the Government Employees Training Act, see Title 4, item 2022 of the NLRB Administrative Policies and Procedures Manual). However, this provision does not permit reimbursement for excessive personal living expenses, gifts, entertainment, or other personal benefits;

(b) Participating in the activities of National or State political parties insofar as such participation is not proscribed by law;

(c) Participating in affairs of or accepting an award for a meritorious public contribution or achievement given by a charitable, religious, professional, social, fraternal, nonprofit educational or recreational, public service, or civic organization; or

(d) Attending, participating in or speaking at special meetings conducted by labor or management organizations or associations thereof where the subject matter relates to the functions or specializations of the Agency; provided such attendance or participation has been approved by the employee's respective Regional Director, Division Chief, or equivalent who is generally responsible for clearing such matters with the Board or General Counsel as appropriate.

§ 100.735-15 Special additional requirements for Presidential appointees.

Board Members and the General Counsel (a) shall not engage in any other business, vocation, or employment, and (b) shall not receive compensation or anything of monetary value for any consultation, lecture, discussion, writing, or appearance the subject matter of which is devoted substantially to the responsibilities, programs, or operations of the NLRB, or which draws substantially on official data or ideas which have not become part of the body of public information.

§ 100.735-16 Financial and other interests.

(a) *General provisions.* Provisions of this section apply to all employees whether or not they are required to report under Subpart C of this part. Employees shall not have direct or indirect financial interests that conflict substantially or appear to conflict substantially with their duties and responsibilities as Federal employees or engage, directly or indirectly, in financial transactions as a result of, or primarily relying upon, information obtained through their employment and not available to the public. However, this section does not preclude an employee from having a financial interest or engaging in financial transactions to the same extent as a private citizen not employed by the Government so long as it is not prohibited by law, Executive Order, or the regulations in this part.

(b) *Limitations where financial or other interests are involved.* Except as permitted under paragraph (d) of this section, no employee shall participate

in any case, proceeding, or other matter before the Agency whenever to his knowledge he, his spouse, minor child, or relative residing in his household is associated with, has a financial interest in, or is seeking employment with, any outside person who has a direct interest in such case, proceeding, or other matter.

(c) *Disclosure of financial or other interests.* Upon assignment of any case, proceeding, or other matter in which the employee has an interest as described in paragraph (b) of this section, the employee shall complete Form NLRB-4573 (revised) and forward it as follows:

(1) Employees under the General Counsel to their Regional Director, division, branch, or office chief or the equivalent,

(2) Employees on the staff of a Board Member to their respective Board Members or his designee,

(3) Washington Trial Examiners to the Chief Trial Examiner or his associates,

(4) San Francisco Trial Examiners to the Associate Chief Trial Examiner, San Francisco, and

(5) Other employees under the Board to their division, branch, or office chief.

In the absence of any of the above officials, the person officially acting in the capacity of the absent official shall receive Form NLRB-4573 (revised).

(d) *Action required.* See § 100.735-4.

§ 100.735-17 Use of Government property.

An employee is prohibited from directly or indirectly using or allowing the use of Government property of any kind, including property leased to the Government, for other than officially approved activities. An employee has the positive duty to protect and conserve Government property, including equipment, supplies, and other property entrusted or issued to him.

§ 100.735-18 Misuse of information.

Except as permitted in § 100.735-13 (c) (1), no employee may directly or indirectly use or allow the use of official information obtained through or in connection with his employment with the Agency which has not been made available to the general public, for the purpose of furthering any private interest.

§ 100.735-19 Indebtedness.

An employee shall pay each just financial obligation including those imposed by laws in a proper and timely manner. For the purpose of this section, a "just financial obligation" means one acknowledged by the employee or reduced to judgment by a court, and "in a proper and timely" manner means in a manner which the Agency determines does not, under the circumstances, reflect adversely on the Government as an employer. In the event of a dispute between an employee and an alleged creditor, this section does not require the Agency to determine the validity or amount of the disputed debt. Nevertheless, it is the employee's responsibility to make a reasonable effort to resolve the dispute in a timely manner.

Employees need not submit in a statement of employment and financial interests or supplementary statement any information about the employee's connection with or interest in a professional society or a charitable, religious, social, fraternal, recreational, public service, civic, or political organization not conducted as a business enterprise. For this purpose, educational and other institutions doing research and development or related work involving grants of money from or contracts with the Government are considered business enterprises and are required to be included in an employee's statement of employment and financial interests.

Subpart D—Conduct and Responsibilities of Special Government Employees

§ 100.735-41 General provisions.

In addition to the requirements of this subpart, special Government employees are expected to adhere to the specified requirements of Subpart B, as follows: §§ 100.735-11, 100.735-12 (c) and (d), 100.735-14 (d), 100.735-16 through 100.735-21.

§ 100.735-42 Use of employment.

A special Government employee of the National Labor Relations Board shall not use his employment for a purpose that is, or gives the appearance of being, motivated by the desire for private gain for himself or another person, particularly one with whom he has family, business, or financial ties.

§ 100.735-43 Use of inside information.

A special Government employee of the National Labor Relations Board shall not use inside information obtained as a result of his employment with the Agency for private gain for himself or another person either by direct action on his part or by counsel, recommendation, or suggestion to another person, particularly one with whom he has family, business, or financial ties. "Inside information" means information obtained under Agency or Government authority which has not become part of the body of public information. The above does not preclude the special Government employee from teaching, lecturing, or writing in a manner not inconsistent with the provisions of § 100.735-13.

§ 100.735-44 Coercion.

A special Government employee is prohibited from using his employment to coerce, or give the appearance of coercing, a person to provide financial benefit to himself or another person, particularly one with whom he has family, business, or financial ties.

§ 100.735-45 Gifts, entertainment, and favors.

A special Government employee, while so employed or in connection with his employment, is prohibited from receiving or soliciting from a person having business at the Agency anything of value as a gift, gratuity, loan, entertainment, or favor for himself or another person, particularly one with whom he has family, business, or financial ties, except for situations clearly falling within the scope of § 100.735-12 (b).

§ 100.735-46 Statement of employment and financial interests.

(a) In addition to the requirements of § 100.735-16, special Government employees are to submit Form NLRB 4664a, "Statement of Employment and Financial Interests for Special Government Employees," which shall show all other employment; and their financial interests which relate either directly or indirectly to their duties and responsibilities as special Government employees of the Agency.

(b) The Agency may waive the requirement of paragraph (a) of this section for a special Government employee who is not a consultant or an expert when the Agency determines that the duties of the position held by a special Government employee are of such a nature and at such a level of responsibility that the submission of the statement by the incumbent is not necessary to protect the integrity of the Government. For the purpose of this paragraph, "consul-

tant" and "expert" have the meanings given those terms by chapter 304 of the Federal Personnel Manual.

(c) The above statement must be submitted no later than the time of employment of the special Government employee. By the submission of supplementary statements, each special government employee is required to keep his statement current throughout his employment with the Agency.

§ 100.735-47 Miscellaneous statutory provisions.

Each special Government employee of the Agency has a positive duty to acquaint himself with each statute that relates to his ethical and other conduct. See all of § 100.735-22, Miscellaneous statutory and nonstatutory provisions (copies of various statutes, etc., included in this listing are reprinted in the Appendix to the National Labor Relations Board Administrative Policies and Procedures Manual), and especially:
