(Sec. 9, 37 Stat. 318, sec. 106, 71 Stat. 33; 7 U.S.C. 162, 150ee. Interpret or applies sec. 8, 37 Stat. 318, as amended; 7 U.S.C. 161, 29 F.R. 16210, as amended, 30 F.R. 5801; 7 CFR 301.52-2)

These administrative instructions shall become effective March 18, 1966, when they shall supersede P.P.C. 621, 9th Revision, 7 CFR 301.52-2a, effective April 23, 1965.

The Director of the Plant Pest Control Division has determined that infestations of the pink bollworm exist or are likely to exist in the quarantined States and in the counties, parishes, and parts thereof in such States, listed in paragraph (a), or that it is necessary to regulate such localities because of their proximity to pink bollworm infestation or their inseparability for quarantine purposes from pink bollworm infested localities.

This revision adds to the pink bollworm regulated area a portion of Avoyelles Parish, La., and all of Yuma County, Ariz.

Inasmuch as this revision imposes restrictions that are necessary in order to prevent the dissemination of the pink bollworm it should be made effective promptly to effectuate the purposes of the regulations. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to this revision are impracticable and contrary to the public interest, and good cause is found for making the revision effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Hyattsville, Md., this 15th day of March 1966.

[SEAL]

E. D. BURGESS,
Director,
Plant Pest Control Division.

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 8]

PART 719—RECONSTITUTION OF FARMS, ALLOTMENTS, AND BASES

Pooling and Transfer of Allotments

This amendment is issued pursuant to section 375(b) of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1375(b)), section 124 of the Soil Bank Act (7 U.S.C. 1812), and the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590g-p). This amendment provides for approval of transfer of pooled allotments and feed grain bases by the receiving State committee in accordance with the requirements of

§ 719.11 and eliminates the necessity for concurrence by the Deputy Administrator in such approval.

Since transfers of pooled allotments are now pending for the current year it is essential that this amendment be made effective as soon as possible. It is hereby determined and found that compliance with the notice, public procedure, and 30-day effective date requirement of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) is impracticable and contrary to the public interest and this amendment shall be effective upon filing this document with the Director, Office of the Federal Register.

The regulations for Reconstitution of Farms, Allotments, and Bases (29 F.R. 13370, as amended), are amended as follows:

1. Subparagraph (4) of paragraph (f) and subparagraph (2) of paragraph (j) of § 719.11 of the regulations are amended as follows:

§ 719.11 Pooling and transfer of farm acreage allotments and feed grain bases where the farm owner is displaced by an agency having the right of eminent domain.

(f) *Transfer from the pool.* . . .

(4) *Action of receiving State committee.* The approval of a transfer of allotment under this paragraph by the receiving county committee shall be effective upon concurrence by the receiving State committee. Notwithstanding any other provision of this section the receiving State committee may authorize a transfer of allotment in any case where the displaced owner presents evidence satisfactory to the receiving State committee that the eligibility requirements of subparagraph (3) (ii), (iii), or (iv) of this paragraph cannot be met without creating a hardship because of illness, old age, multiple farm ownership, or lack of a dwelling on the farm to which allotment is to be transferred. Notwithstanding any other provisions of this section and particularly subparagraph (3) (v) of this paragraph, the receiving State committee may authorize a transfer of allotment in any case where the displaced owner presents evidence satisfactory to the receiving State committee that the displaced owner has made a normal acquisition of the receiving farm for the purpose of bona fide ownership to reestablish his farming operations although the farm is leased to the seller of the farm for the first year the allotment is transferred.

(j) *Determination of the person entitled to the benefit of pooled allotments.* . . .

(2) *Cases where farm not owned for at least 12 months.* In cases where the land acquired by an agency has not been owned by the person from whom acquired for at least 12 months immediately prior to the date of acquisition, allotments and feed grain bases from the acquired farm shall be placed in the pool for the benefit of such person under this section only

if a determination has been made by the State committee that the purchase of the land by the person from whom the agency acquired the land was for the purpose of carrying out farming operations and was not made for the purpose of obtaining the status of a displaced owner with the right to have allotments or feed grain bases pooled for his benefit. If it is determined that the allotments and feed grain bases shall not be pooled for the benefit of such person, then allotments and feed grain bases shall be pooled in accordance with this section for the benefit of the last owner who could qualify as the bona fide displaced owner. In such cases, and in the cases covered in subparagraph (1) of this paragraph, the date of displacement shall be considered as the date of acquisition by the agency. The transferring State committee shall determine the proper person entitled to the benefits of the pooled allotment. The transferring State committee shall establish the pooled allotment in accordance with such determination.

(Secs. 375, 378, 52 Stat. 66, as amended, 72 Stat. 995, as amended, 7 U.S.C. 1375, 1378; sec. 124, 70 Stat. 198, 7 U.S.C. 1812; secs. 16(b), 74 Stat. 1030, 16(c), 75 Stat. 5, 16(d), 75 Stat. 302, 105(c), 75 Stat. 301, 16(h), 77 Stat. 45, 16 U.S.C. 590p)

PART 724—BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED, VIRGINIA SUN-CURED, CIGAR-BINDER (TYPES 51 AND 52), CIGAR-FILLER AND BINDER (TYPES 42, 43, 44, 53, 54 AND 55), AND MARYLAND TOBACCO

Results of Maryland Tobacco Marketing Quota Referendum

Basis and purpose. The purpose of this proclamation is to add a § 724.35x to announce the results of the Maryland tobacco marketing quota referendum for the 3 marketing years beginning October 1, 1966. Under the provisions of the Agricultural Adjustment Act of 1938, as amended, the Secretary proclaimed national marketing quotas for Maryland tobacco for the 1966-67, 1967-68, and 1968-69 marketing years, and announced the amount of the national marketing quota for Maryland tobacco for the 1966-67 marketing year (31 F.R. 1237). The Secretary announced (31 F.R. 1259) that a referendum would be held on February 25, 1966, to determine whether Maryland tobacco producers were in favor of or opposed to marketing quotas for the 3 marketing years beginning October 1, 1966. Since the only purpose of this

proclamation is to announce the results of the referendum, it is hereby found and determined that with respect to this proclamation, compliance with the notice, public procedure, and effective date provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 1003) is unnecessary.

§ 724.35x Proclamation of results of Maryland tobacco marketing quota referendum for 3-year period beginning October 1, 1966.

In a referendum of farmers engaged in the production of 1965 crop of Maryland tobacco held on February 25, 1966, 4,030 farmers voted. Of those voting, 1,674 or 41.5 percent, favored quotas for a period of 3 years beginning October 1, 1966; 2,356 or 58.5 percent were opposed to quotas. Since more than one third of the farmers voting were opposed to quotas, the national marketing quota of 34.0 million pounds proclaimed January 27, 1966 (31 F.R. 1237) for Maryland tobacco for the 1966-67 marketing year will not be in effect for such year and marketing quotas on Maryland tobacco will not be in effect for the 3 marketing years beginning October 1, 1966, except that Maryland tobacco growers will vote in a referendum to be held in late 1966 or early 1967 on whether they favor or oppose quotas on Maryland tobacco for the 1967-68, 1968-69, and 1969-70 marketing years; if quotas for the 1967-68, 1968-69, and 1969-70 marketing years are disapproved in such referendum, Maryland tobacco growers will vote in a referendum to be held in late 1967 or early 1968 on whether they favor or oppose quotas for the 1968-69, 1969-70, and 1970-71 marketing years.

AUTHORITY: The provisions of this subpart issued under sec. 4, 82 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 82 Stat. 1072, secs. 105, 401, 63 Stat. 1051 as amended; 15 U.S.C. 714c, 7 U.S.C. 1421, 1441.

§ 1421.2651 Purpose.

This supplement contains program provisions which, together with the annual crop year supplement, and the provisions of the General Regulations Governing Price Support for the 1964 and Subsequent Crops and any amendments thereto or revisions thereof (such regulations are referred to in this subpart as "General Regulations") apply to loans and purchases for the 1966 and subsequent crops oats.

§ 1421.2652 Availability.

Producers desiring price support must obtain a loan or notify the ASCS county office of intentions to sell to CCC no later than the dates set forth in the annual crop year supplement to these regulations.

§ 1421.2653 Eligible oats.

(a) *General.* In order to be eligible for price support the oats must be merchantable for use as food or feed or for other uses, as determined by CCC, and must not contain mercurial compounds or substances poisonous to man or animals.

(b) *Warehouse stored loan grade requirements.* Oats to be placed under a warehouse storage loan also must meet the following requirements:

(1) The oats must grade No. 3 or better, except that (i) they may grade No. 4 on the factor of test weight, and because of being badly stained or materially weathered, and (ii) they may have the special grade designation "Garlicky".

(2) The oats must not grade "Weevily" or have moisture over 14 percent unless the warehouse receipt representing the oats is accompanied by a supplemental certificate which provides that the warehouseman shall deliver oats which are not "Weevily", do not contain in excess of 14 percent moisture, and are otherwise of an eligible grade and quality. The grade, quality and quantity shown on the supplemental certificate shall be as provided in § 1421.2656(b) of the regulations of this part.

(3) The oats must not grade Smutty, Ergoty, Bleached or Thin or otherwise of a distinctly low quality.

§ 1421.2654 Determination of quality.

The grade, grading factors and all other quality factors shall be based on the Official Grain Standards of the

United States for Oats, whether or not the determination is made on the basis of an official inspection.

§ 1421.2655 Determination of quantity.

When the quantity is determined by weight, a bushel shall be 32 pounds of oats. In determining the quantity of sacked oats by weight, a deduction of three-fourths of a pound for each sack shall be made.

(a) *In warehouse.* The quantity of oats on which a warehouse storage loan shall be made and the quantity delivered to or acquired by CCC in an approved warehouse shall be the net weight specified on the warehouse receipt or on the supplemental certificate, if applicable. If the oats have been dried or blended to reduce the moisture content, the quantity specified on the warehouse receipt or the supplemental certificate, if applicable, shall represent the quantity after drying or blending, and such quantity shall reflect a minimum shrink in the receiving weight of 1.2 times the percentage difference between the moisture content of the oats, when received, and 14 percent.

(b) *On farm.* The quantity eligible to be placed under farm-storage loan will be determined in accordance with § 1421.67. The quantity acquired by CCC from farm storage under a loan or purchase shall be determined by weight.

§ 1421.2656 Warehouse receipts.

Warehouse receipts tendered to CCC in connection with a loan or purchase must meet the requirements of this section.

(a) *Separate receipt.* A separate receipt must be submitted for each grade and class of oats.

(b) *Entries for weight and grade.* Each warehouse receipt, or the warehouseman's supplemental certificate properly identified with the warehouse receipt must show: (1) Net weight and bushels, (2) class, (3) grade (including special grades), (4) test weight, (5) moisture if in excess of 14 percent, (6) and other grading factor(s) when such factor(s) and not test weight determine the grade, (7) the date the oats were received or deposited in the warehouse.

(c) *Where warehouse receipt shows "Weevily" or moisture over 14 percent.* If a warehouse receipt tendered for a warehouse storage loan indicates the oats grade "Weevily" or contain over 14 percent moisture the warehouse receipt must be accompanied by a supplemental certificate as provided in § 1421.2653. The grade, grading factors and the quantity to be delivered must be shown on the supplemental certificate as follows:

(1) When the warehouse receipt shows "Weevily" and the oats have been conditioned to remove the "Weevily" designation, the supplemental certificate must show the same grade without the "Weevily" designation and the same grading factors and quantity as shown on the warehouse receipt.

(2) When the warehouse receipt shows the oats contain more than 14 percent moisture and the oats have been dried

RULES AND REGULATIONS

or blended, the supplemental certificate must show the grade, grading factors and quantity after drying or blending the oats to a moisture content of not over 14 percent. The quantity shown on the supplemental certificate shall reflect a drying or blending shrink as specified in § 1421.2655.

(3) The supplemental certificate must state that no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of the warehouse receipt.

(4) In the case of conditions in subparagraphs (1) and (2) of this paragraph, the grade and grading factors and the quantity shown on the supplemental certificate shall supersede the entries for such items on the warehouse receipts.

(c) *Liens.* The warehouse receipts may be subject to liens for warehouse charges only to the extent indicated in § 1421.2658.

§ 1421.2657 Fees and charges.

The producer shall pay a loan service fee and delivery charge as specified in § 1421.60(b) of the general regulations.

§ 1421.2658 Warehouse charges.

(a) *Handling and storage liens.* Warehouse receipts and the oats represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the oats are deposited in the warehouse for storage. Warehouse receipts and the oats represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. In no event shall a warehouseman be entitled to satisfy the lien by sale of the oats when CCC is holder of the warehouse receipt.

(b) *Deduction of storage charges—UGSA warehouses.* The table set forth in the annual crop year supplement will provide the deduction for storage charges to be made from the amount of the loan or purchase price in the case of oats stored in an approved warehouse operated under the Uniform Grain Storage Agreement. Such deduction shall be based on entries shown on the warehouse receipts. If written evidence is submitted with the warehouse receipt that all warehouse charges except receiving and loading out charges have been prepaid through the applicable loan maturity date, no storage deduction shall be made. If such written evidence is not submitted, the date to be used for computing the storage deduction on oats stored in warehouses operating under the Uniform Grain Storage Agreement shall be the latest of the following:

(1) The date the oats were received or deposited in the warehouse

(2) The date storage charges start, or
(3) The day following the date through which the storage charges have been paid.

(c) *Deduction of storage charges—Eastern common carriers.* In the case of oats stored in an approved warehouse operated by an Eastern common carrier, there shall be deducted in computing the loan or purchase price the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit through the applicable maturity date unless written evidence is submitted with the warehouse receipt that such charges have been prepaid. Where the producer presents evidence showing the elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

§ 1421.2659 Maturity of loans.

Loans will mature on demand but not later than the date specified in the annual crop year supplement to these regulations.

§ 1421.2660 Support rates.

Basic support rates. The basic county support rates and the schedule of premiums and discounts for use in making loans and for use in settling loans and for purchases shall be set forth in the annual crop year supplement to these regulations.

Effective date. Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on March 14, 1966.

H. D. GODFREY,
Executive Vice President,
Commodity Credit Corporation.

PROGRAM OPERATION

§ 1472.1201 General.

This subpart sets forth the policies, procedures, and requirements governing price support payments for shorn wool and unshorn lambs (pulled wool) for the 1966, 1967, 1968, and 1969 marketing years by the Commodity Credit Corporation (referred to in this subpart as "CCC").

§ 1472.1202 Administration.

The program will be carried out by the Agricultural Stabilization and Conservation Service (referred to in this subpart as "ASCS") under the general supervision and direction of the Executive Vice President of CCC. In the field, the program will be administered through the ASCS State and county offices. ASCS State and county offices do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements thereto unless the power to modify or waive is expressly included in the pertinent provisions.

§ 1472.1203 Announcement of price support level.

Pursuant to the National Wool Act of 1954, as amended by the Food and Agriculture Act of 1965 (P.L. 89-321), the Secretary of Agriculture is to announce a price support level for wool which has been determined to meet the requirements of the Act for each of the four marketing years, 1966, 1967, 1968, and 1969. In accordance with section 703 of the Act, such announcement shall, to the extent practicable, be sufficiently in advance of each marketing year as will permit producers to plan their production for such marketing year.

§ 1472.1204 Definitions.

As used in the regulations in this subpart and in the forms and documents related thereto, the following terms shall have the meanings assigned to them in this section:

(a) "Financing agency" means any bank, trust company, or Federal lend-

ing agency. It also includes any other financing institution which customarily makes loans or advances to finance production of sheep, lambs, or wool.

(b) "Joint producers" means two or more persons who are joint owners of shorn wool or unshorn lambs, or who are producers of shorn wool or unshorn lambs under a caretaking agreement pursuant to which one producer owns the sheep or lambs and the other producer furnishes labor in connection with lamb or wool production, in return for which he is entitled to share either in the wool or lambs produced or in the proceeds from the sale of such wool or lambs.

(c) "Joint owners" means two or more persons who own the wool or lambs in question, regardless of the special nature of their relationship or how it came into being, and shall include owners in common.

(d) "Lamb" means a young ovine animal which has not cut the second pair of permanent teeth. The term includes animals referred to in the livestock trade as lambs, yearlings, or yearling lambs.

(e) "Liveweight" is the weight of live lambs which a producer purchases or sells. In the event the price for the lambs is based on weight, the weight actually used in determining the total amount payable shall be considered the liveweight.

(f) "Local shipping point" means the point at which the producer delivers his wool to a common carrier for further transportation, or if his wool is not delivered to a common carrier, the point at which he delivers it to his marketing agency or a purchaser. The term "common carrier" includes any carrier that serves the public in transporting goods for hire whether or not he is required to be licensed by some Government authority to do so.

(g) "Marketing agency" with reference to shorn wool means a person who sells a producer's wool for his account, and with reference to lambs, it means a commission firm, auction market, pool manager, or any other person who sells a producer's lambs for his account.

(h) "Marketing year" means the period beginning January 1 and ending the following December 31, both dates inclusive.

(i) "Person" means an individual, partnership, association, business trust, corporation, or any organized unincorporated group of individuals, and includes a State and any subdivision thereof.

(j) "Producer" of shorn wool means a person who either owns, individually or jointly, the sheep or lambs from which the wool is shorn or is a joint producer of the wool under a caretaking agreement as described in paragraph (b) of this section. "Producer" of lambs means a person who either owns the lambs, individually or jointly, or is a joint producer of the lambs under a caretaking agreement as described in paragraph (b) of this section.

(k) "Sales document" means the account of sale, bill of sale, invoice, and any other document evidencing the sale

by the producer of shorn wool or unshorn lambs.

(l) "Slaughterer" means a commercial slaughterer, that is, a person who slaughters for sale as distinguished from a person who slaughters for home consumption.

(m) "Specified marketing year" is the marketing year as to which the Department of Agriculture has announced that marketings of shorn wool and unshorn lambs by a producer during that year will entitle him to a payment under this program.

(n) "Unshorn lambs" means lambs which have never been shorn.

SHORN WOOL

§ 1472.1205 Price support level.

(a) General. For each marketing year, price support on shorn wool will be furnished by means of payments to the producer in accordance with the provisions of this subpart on the shorn wool he markets in that marketing year. Payments will not be made on marketings of the pelts of sheep or lambs or on the marketings of wool removed from such pelts.

(b) 1966 marketing year. For the 1966 marketing year, the price support level was announced on November 24, 1965, as 65 cents per pound of shorn wool, grease basis.

§ 1472.1206 Eligibility for payments.

Before payments under this subpart can be approved pursuant to any application for payment covering any lot or lots of wool, the following requirements must be satisfied:

(a) Except as provided in § 1472.1244, the applicant must be the producer, and in the case of a joint application each applicant must be a producer, of the shorn wool which must have been marketed during the specified marketing year.

(b) The wool must have been shorn in the United States on or after January 1, 1955. If wool is shorn from imported sheep or lambs while they are held in quarantine in connection with their importation, such wool is not considered to have been shorn in the United States. For the purpose of this program, shorn wool is deemed to include murrain and other wool removed from dead sheep and other off wools such as black wool, tags, and crutchings.

(c) The producer, or in the case of joint producers at least one of the producers, must have owned the wool at the time of shearing and must have owned in the United States the sheep or lambs from which the wool was shorn for not less than 30 days at any time prior to the filing of the application. Ownership of wool or animals as used in this paragraph does not include the ownership which in some States is held by a person having a security interest, such as a mortgage or other lien. If sheep or lambs are imported into the United States, the 30-day period of required ownership shall begin after their importation and, if they were quarantined in connection with such importation, the period shall begin after their release from quarantine.

(d) Beneficial interest in the wool must always have been in the producer from the time the wool was shorn up to the time of its sale. A producer has beneficial interest in wool (1) when he owns it and has not authorized any other person to sell or otherwise dispose of it, or (2) when he has, by transfer of legal title to such other person or otherwise, authorized another person to sell or otherwise dispose of the wool but continues to be entitled to the proceeds from any such sale or other disposition thereof. Such beneficial interest is not changed by a mortgage or other lien on the wool.

(e) The applicant shall either report purchases of unshorn lambs as required by § 1472.1212 (a) (1) or (b) (1), or make the statement provided for in § 1472.1212 (a) (2) or (b) (2).

(f) Payments will not be made on the marketing of wool shorn from imported sheep or lambs if the permit for the importation of sheep or lambs or a communication connected with such permit, issued by the Agricultural Research Service of this Department, states that the importation is for slaughter.

§ 1472.1207 Marketing within a specified marketing year.

(a) Marketing shall be deemed to have taken place in a marketing year if, pursuant to a sale or contract to sell in the process of marketing, the last of the following three events, in whatever order they occur, was completed in that marketing year: (1) Title passed to the buyer; (2) the wool was delivered to the buyer (physically or through documents which transfer control to the buyer); and (3) the last of the factors (price per pound, weight, etc.) needed to determine the total purchase price payable by the buyer is known to the applicant's marketing agency, if he markets through a marketing agency, or is known to the applicant, if he markets directly.

(b) Delivery of wool on consignment to a marketing agency to be sold for the producer's account does not constitute a marketing, whether or not a minimum sales price is guaranteed or an advance against the prospective sales price is given by the consignee, except that the wool is deemed marketed if the marketing agency has guaranteed a minimum sales price, is unable to sell the wool for more, and with the producer's consent takes it over at the minimum sales price. The producer shall be deemed to have consigned the wool when he transfers to a marketing agency title to his wool and provides that such agency shall market the wool and that he shall be entitled to the proceeds of such marketing.

(c) The exchange of wool for merchandise or services (for instance, shearing) will be considered a marketing, provided a definite price for the wool is established by the parties to the exchange. Such price, or whatever other price the ASC county committee determines is the fair market value for such wool, whichever is lower, shall be utilized for the purpose of computing the net sales proceeds pursuant to § 1472.1209 upon which payment under this subpart is based.

§ 1472.1208 Rate of payment.

Upon expiration of a specified marketing year and after the Department of Agriculture has determined the national average price for wool received by producers in that marketing year, the Department will announce the rate of the payment under this subpart. The rate of payment will be the percentage of the national average price per pound received by producers in a specified marketing year which is required to bring such national average price up to the price support level announced for that year.

§ 1472.1209 Computation of payment.

(a) The amount of the payment due to a producer shall be computed by applying the rate of payment to the net sales proceeds for the wool marketed during the specified marketing year. The resultant amount shall be reduced, on account of the purchase by the producer on or after April 1, 1956, of unshorn lambs, by an amount resulting from multiplying the liveweight of such lambs reported in his application for payment by the announced rate of payment on unshorn lambs during said marketing year. If the amount of the reduction exceeds the payment computed on the shorn wool marketed, the liveweight of lambs which corresponds to the excess amount shall be carried forward and used to reduce payments on unshorn lambs marketed or slaughtered or shorn wool marketed in the current or future years.

(b) Except as provided in § 1472.1211 (a) (6) with respect to a guaranteed minimum sales price, the net sales proceeds shall be determined by deducting from the gross sales proceeds of the wool all marketing expenses, such as transportation from the local shipping point, handling (including commissions), grading, scouring, or carbonizing. The figure so arrived at will express the net proceeds received by the producer at his farm, ranch, or local shipping point. For the purpose of this program, the producer is expected to deliver his wool packed in bags to his local shipping point and, until the wool is sold, to bear the charges made for furnishing wool bags, storing the wool, or transporting wool to the producer's local shipping point. Such charges, as well as any other charges not directly related to the marketing of the wool, such as interest on advances, shall not be considered marketing charges.

(c) All applications filed by a producer in the same county office for payments due on wool marketed during the specified marketing year shall be considered together for the purpose of determining the total net amount of payment due him. All such applications filed in different county offices may be considered together in determining such total payment.

§ 1472.1210 Preparation of application.

(a) *Preparation.* The application for payment on the sale of shorn wool shall be prepared on Form CCC-1155, "Application for Payment—Shorn Wool or Unshorn Lambs (Pulled Wool)." Marketing agencies may assist producers in filling out applications by inserting the information on sales of shorn wool and

sending the sales documents to the appropriate ASCS county office, but the producer must sign the application and is responsible for the requirements as to the time and manner of filing his application. If the producer paid marketing charges not shown on the sales document, such charges shall be considered with the marketing charges shown on the sales document in arriving at the net proceeds.

(b) *Supporting documents.* The application shall be supported by the original sales documents covering the wool sold.

(c) *Original sales document retained.* If the applicant does not wish the original sales document to remain with the ASCS county office, he may submit a photostat, carbon or other copy of the original document. However, he must show the original document to the ASCS county office where the statements on the copy will be confirmed by comparison with the original. The original sales document will be appropriately stamped or marked to indicate that it had been used in support of an application for payment under this program and will be returned to the applicant, who shall retain it in accordance with § 1472.1251.

(d) *Practice of issuing carbon or photostat copies.* If it is the practice of the person or firm preparing the sales document to furnish a carbon or photostat copy to the seller in place of the original, the producer may submit that copy in support of his application, provided the copy bears a signature, in accordance with § 1472.1211 (a) (10), of the person or of the representative of the firm preparing the original sales document. Such copy shall be treated as an original for the purposes mentioned in this section.

(e) *Lost or destroyed sales document.* If the original sales document has been lost or destroyed, the applicant may submit a copy, certified by the buyer or the applicant's marketing agency, and such certified copy shall be treated as an original for the purposes mentioned in this section.

§ 1472.1211 Contents of sales documents.

The sales documents attached to each application for an incentive payment must contain a final accounting and meet the requirements of paragraph (a) or (b) of this section, for the wool covered by the sales document. Contracts to sell as well as tentative or pro forma settlements will not be acceptable as sales documents meeting such requirements. Except as provided in § 1472.1244, sales documents must cover wool sold by the producer.

(a) *Sales other than at farm, ranch, or local shipping point.* Each sales document, except a document covering an outright sale at the producer's farm, ranch, or local shipping point, must be prepared by the purchaser or the applicant's marketing agency and must contain at least the following information:

(1) Name and address of seller.

(2) Date of sale: In case the producer's shipment to a marketing agency is

sold in parts within a marketing year, the date when final settlement is made within that marketing year for the wool that was sold within that marketing year may be shown on the sales document as the date of sale instead of the various dates on which the sales actually took place.

(3) *Net weight of wool sold:* If the wool was sold as scoured or carbonized wool, the original grease weight must be shown as well as the scoured or carbonized weight.

(4) Except as otherwise provide in subparagraph (5) of this paragraph, the gross sales proceeds or sufficient information from which the gross sales proceeds can be determined.

(5) *Marketing deductions,* if any (see § 1472.1209 (b)), except as otherwise provided in this subparagraph: The marketing deductions may be itemized or they may be shown on the sales document as a composite figure for all marketing charges with an explanation of what services are included in that figure. If it is the practice of a marketing agency to show, on the sales document, only the net proceeds after marketing deductions, the gross sales proceeds and the amount of the marketing deductions need not be shown, provided the sales document contains a statement reading substantially as follows: "The net sales proceeds after marketing deductions shown herein were computed by deducting from the gross sales proceeds charges for the following marketing services: ----- Details of these charges will be furnished on request." All the services for which deductions are made shall be enumerated in the blank space indicated. If a sales document shows charges without specifying their nature, they will be considered marketing charges and will thus diminish the net proceeds on which the incentive payment is computed. Association dues are to be considered marketing deductions if they include compensation for marketing services.

(6) *Net proceeds after marketing deductions:* If a sales document contains a figure for net proceeds after marketing deductions, computed for a location other than the producer's farm, ranch, or local shipping point, the person preparing the sales document shall show thereon the name of the location for which the net proceeds have been computed. If a marketing agency has guaranteed a minimum sales price for the wool, is unable to sell the wool for a higher price, and therefore settles with the producer on the basis of such guaranteed minimum price, the sales document should be on the basis of that guaranteed minimum price regardless of a lower price at which the agency may sell the wool. In such a case, the marketing agency may indicate on the sales document that the price is the guaranteed minimum sales price.

(7) *Additional deductions,* such as charges for bags, storage, interest, association dues which do not include compensation for marketing services, or other charges not directly related to the marketing of the wool.

(8) Amount paid to the seller.
(9) Name and address of the purchaser or marketing agency, whichever issues the sales document.

(10) Signature: The sales document must bear a handwritten signature by or on behalf of the person or firm issuing the sales document. Acceptable signatures will consist of at least one initial or name by which the person is generally known, followed by his last name in full. A carbon impression or facsimile of a handwritten signature is not acceptable.

(11) A sales document issued by a marketing agency and covering sales made on various dates within a specified marketing year shall contain a statement that the wool was marketed during that marketing year.

(b) *Sales at farm, ranch, or local shipping point.* Each sales document covering an outright sale at the producer's farm, ranch, or local shipping point, and attached to an application for incentive payment shall be prepared by the purchaser and must contain at least the following information:

(1) Name and address of seller.
(2) Date of sale.
(3) Net weight of wool sold: If the wool was sold as scoured or carbonized wool, the original grease weight must be shown as well as the scoured or carbonized weight.

(4) Net amount received by the seller for the wool at his farm, ranch, or local shipping point.

(5) Any applicable nonmarketing deductions, such as charges for bags, storage, interest, association dues which do not include compensation for marketing services, or other charges not directly related to the marketing of the wool.

(6) Name and address of the purchaser.

(7) Signature: The sales document must bear a handwritten signature by or on behalf of the person or firm issuing the sales document. Acceptable signatures will consist of at least one initial or name by which the person is generally known, followed by his last name in full. A carbon impression or facsimile of a handwritten signature is not acceptable.

§ 1472.1212 Report of purchases of unshorn lambs.

(a) *Report on actual basis.* (1) If the application includes wool removed in the first shearing of lambs purchased unshorn, and the applicant is able to identify the lambs from which such wool was shorn, he shall report the number and liveweight of such lambs at time of purchase, including those from which wool was removed after death.

(2) If the applicant knows that his application does not include any wool which was removed in the first shearing of lambs purchased unshorn, he shall state that there are no purchases of unshorn lambs related to the sale of such wool.

(b) *Report on "first in, first out" basis.* (1) If an applicant does not know whether the application includes wool removed in the first shearing from lambs purchased unshorn, or he knows that such wool is included but he is un-

able to identify the lambs from which such wool was shorn, he shall report on a "first in, first out" basis, that is, in chronological order, the number and liveweight at the time of purchase of a quantity of lambs purchased unshorn equal to the number of sheep and lambs from which wool was shorn and included in the application. This reporting of purchased lambs shall be continued in applications for the current and subsequent marketing years for payments on shorn wool and for payments on unshorn lambs until the applicant has accounted for all lambs purchased unshorn on or after April 1, 1956, not reported in previous applications. However, he need not report those lambs with respect to which he can show no application has been made for a payment for the 1956 or a subsequent marketing year on their sale or on the sale of wool shorn from them.

(2) If the application for payment on the sale of shorn wool is made after an applicant has accounted for the total purchases of unshorn lambs, he shall state that there are no purchases of unshorn lambs related to such sale.

(c) *Imported lambs.* If purchased lambs which the applicant is required to report were imported, the liveweight required to be reported shall be the liveweight of the lambs at the time of import, or, if they were quarantined in connection with the importation, at the time of release from quarantine. For the purpose of reporting imported lambs, whether they were purchased or raised by the producer they shall be treated as if they had been purchased by him. Any report in an application of purchased lambs and their liveweights as required by this paragraph shall be deemed to include lambs both purchased and raised by the producer.

(d) *Additional information.* The applicant shall furnish any additional details requested by ASCS State and county offices concerning any report made pursuant to this section.

UNSHORN LAMBS (PULLED WOOL)

§ 1472.1221 Price support payments.

(a) *Level of payments.* For each marketing year, price support will be furnished on pulled wool at such level, in relationship to the support price for shorn wool, as the Secretary determines will maintain normal marketing practices for pulled wool, by means of payments to the producer in accordance with this subpart on live unshorn lambs that are sold or moved to slaughter in a specified marketing year. Payments will not be made on the sale of the pelts of sheep or lambs or wool removed from such pelts.

(b) *Rate of payment.* Payment will be at a flat rate per hundredweight of live animals. The rate of payment will be 80 percent of the difference between the national average price per pound received by producers for shorn wool during a specified marketing year and the announced price support level per pound of shorn wool for that year. The exact rate of payment will be determined after the end of that marketing year.

The payments will be based on the average weight of wool per hundredweight of animals (5 pounds) multiplied by the rate of payment.

§ 1472.1222 Eligibility for payments.

Before payments under this program can be approved pursuant to an application covering any lot or lots of lambs, the following requirements must be satisfied:

(a) Except as provided in § 1472.1244, the applicant must be the producer, and in the case of a joint application each applicant must be a producer, of the lambs.

(b) The producer, or in the case of joint producers at least one of the producers, must have owned the lambs for 30 days or more in the United States and title must have passed to the buyer within the specified marketing year. If a slaughterer is to qualify for a payment, he must have owned the lambs for 30 days or more in the United States prior to their moving to slaughter and they must have moved to slaughter within the specified marketing year. Ownership of lambs, as used in this paragraph, does not include the ownership which in some States is held by a person having a security interest, such as a mortgage or other lien. If lambs are imported into the United States, the 30-day period of required ownership shall begin after their importation and, if they were quarantined in connection with such importation, the period shall begin after their release from quarantine.

(c) The lambs must never have been shorn at the time of sale, or, in the case of an application by a slaughterer, at the time of moving to slaughter.

(d) The applicant shall either report purchases of unshorn lambs as required by § 1472.1226 (a) (1) or (b) (1), or make the statement provided for in § 1472.1226 (a) (2) or (b) (2).

(e) Payments will not be made on the marketing of imported lambs if the permit for the importation of sheep or lambs or a communication connected with such permit, issued by the Agricultural Research Service of this Department, states that the importation is for slaughter.

§ 1472.1223 Computation of payment.

(a) The amount of the payment due to an applicant shall be computed by applying the rate of payment to the liveweight of the lambs sold or moved to slaughter during the specified marketing year, reduced, on account of the purchase or importation by the applicant on or after April 1, 1956, of unshorn lambs, by the liveweight of such lambs reported in his application for payment, if the amount of the reduction exceeds the liveweight of the unshorn lambs sold or moved to slaughter during said marketing year, such excess liveweight shall be carried forward and used to reduce payments on unshorn lambs marketed or slaughtered or shorn wool marketed in the current or future years.

(b) All applications filed by a producer in the same county office for payments due on unshorn lambs marketed or moved to slaughter during the specified marketing year shall be considered together

for the purpose of determining the total net amount of payment due him. All such applications filed in different county offices may be considered together in determining such total payment.

§ 1472.1224 Preparation of application.

(a) *Preparation.* The application for payment on the sale or slaughter of unshorn lambs shall be made on Form CCC-1155, "Application for Payment-Shorn Wool or Unshorn Lambs (Pulled Wool)."

(b) *Supporting documents.* The application for payment on the sale of unshorn lambs shall be supported by the original sales documents covering the sale. The application for payment on the slaughter of unshorn lambs shall be supported by the scale ticket covering the movement to slaughter.

(c) *Original sales document retained.* If the applicant does not wish the original sales document to remain with the ASCS county office, he may submit a photostat, carbon, or other copy of the original document. However, he must show the original document to the ASCS county office where the statements on the copy will be confirmed by comparison with the original. The original sales document will be appropriately stamped or marked to indicate that it had been used in support of an application for payment under this program and will be returned to the applicant. He will be required to retain it in accordance with § 1472.1251.

(d) *Practice of issuing carbon or photostat copies.* If it is the practice of the person or firm preparing the sales document to furnish a carbon or photostat copy to the seller in place of the original, the applicant may submit that copy in support of his application, provided the copy bears a signature in accordance with § 1472.1225(a)(6), of the person or the representative of the firm preparing the original sales document. Such copy shall be treated as an original for the purposes mentioned in this section.

(e) *Lost or destroyed sales document.* If the original sales document or scale ticket has been lost or destroyed, the applicant may submit a copy, certified by the person who issued the original, and such certified copy shall be treated as an original for the purposes mentioned in this section.

§ 1472.1225 Contents of sales documents and scale tickets.

(a) *Sales documents.* Each sales document supporting an application must cover lambs sold by the producer except as provided in § 1472.1244, must be issued by the purchaser or the producer's marketing agency, and must show the following:

- (1) Name and address of seller.
- (2) Date of sale.
- (3) Number of unshorn lambs sold: If the sales document does not clearly identify the animals as lambs that had never been shorn at the time of sale, the person issuing the sales document shall add a statement to that effect. If the sales document refers to the animals as "unshorn lambs," this will indicate

that the lambs were never shorn. If the document issued in connection with the sale of unshorn lambs also covers the sale of other animals, the person preparing the sales document shall clearly indicate therein the number and the liveweight of unshorn lambs included in the sale.

(4) *Liveweight of unshorn lambs sold:* If the weight is not determined by scales, this weight may be an estimated weight agreed to by the purchaser and the producer.

(5) *Name and address of the purchaser or marketing agency,* whichever issues the sales document.

(6) *Signature:* The sales document must bear a handwritten signature by or on behalf of the person or firm issuing the sales document. Acceptable signatures will consist of at least one initial or name by which the person is generally known, followed by his last name in full. A carbon impression or facsimile of a handwritten signature is not acceptable.

(b) *Scale tickets.* The scale ticket supporting an application must cover unshorn lambs moved to slaughter by the applicant and must show the information normally appearing on scale tickets issued by stockyards (that is, date, number of head, classification(s), weight by classification, scale ticket number, if any, place of weighing, and name of weigher).

§ 1472.1226 Report of purchases of unshorn lambs.

(a) *Report on actual basis.* (1) If the application is based on the sale or slaughter of lambs purchased unshorn and the applicant is able to identify such lambs, he shall report the number of lambs purchased and their liveweight at the time of purchase.

(2) If the applicant knows that his application is not based on the sale or slaughter of any lambs purchased unshorn, he shall state that there are no purchases of unshorn lambs related to the sale or slaughter of such lambs.

(b) *Report on "first in, first out" basis.*

(1) If an applicant does not know whether the application is based on the sale or slaughter of lambs purchased unshorn, or he knows that such lambs are included but he is unable to identify such lambs, he shall report on a "first in, first out" basis, that is, in chronological order, the number and liveweight at the time of purchase of a quantity of lambs purchased unshorn equal to the number of lambs on which his application is based. This reporting of purchased lambs shall be continued in applications for the current and subsequent marketing years for payments on unshorn lambs and shorn wool until the applicant has accounted for all lambs purchased unshorn on or after April 1, 1956, not reported in previous applications. However, he need not report those lambs with respect to which he can show no application has been made for a payment for the 1956 or a subsequent marketing year on their sale or on the sale of wool shorn from them.

(2) If the application for payment on the sale or slaughter of unshorn lambs is made after an applicant has accounted

for the total purchases of unshorn lambs, he shall state that there are no purchases of unshorn lambs related to such sale or slaughter.

(c) *Imported lambs.* If purchased lambs which the applicant is required to report were imported, the liveweight required to be reported shall be the liveweight of the lambs at the time of import, or, if they were quarantined in connection with the importation, at the time of release from quarantine. For the purpose of reporting imported lambs, whether they were purchased or raised by the producer, they shall be treated as if they had been purchased by him. Any report in an application of purchased lambs and their liveweights as required by this paragraph shall be deemed to include lambs both purchased and raised by the producer.

(d) *Additional information.* The applicant shall furnish any additional details requested by ASCS State and county offices concerning any report made pursuant to this section.

GENERAL PROVISIONS

§ 1472.1241 Filing application for payment.

(a) *Place of filing.* Applications for payment shall be filed by the applicant with the ASCS county office serving the county where the headquarters of the producer's farm, ranch, or feed lot, as the case may be, is located. If the producer has more than one farm, ranch, or feed lot, with headquarters in more than one county, separate applications for payment shall be filed with the ASCS county office serving each such headquarters covering only the wool or lambs produced at each such farm, ranch, or feed lot, except that: (1) If the producer sells his entire clip of wool in a single sale or if his entire clip is sold for his account by one marketing agency, he may file his application(s) for payment on shorn wool in any one of those ASCS county offices, or (2) if the producer includes in one sale unshorn lambs that were ranged, pastured, or fed in more than one county, he may file his application(s) for payment on such lambs in any one of those ASCS county offices. In the event the producer conducts all his business transactions from his residence or office, and his farm or ranch has no other headquarters, his office or residence may be considered the farm or ranch headquarters. Applications by producers located in Alaska shall be filed with the Alaska ASCS State Office, and applications by producers located in Hawaii shall be filed with the Hawaii ASCS State Office.

(b) *Time of filing.* An application for payment shall be filed as soon as possible after the sales of shorn wool or unshorn lambs for the specified marketing year have been completed or, in the case of slaughter, as soon as possible after the last of the lambs moved to slaughter in the specified marketing year, but in no event shall an application be filed later than 3 years after the end of the specified marketing year.

(c) *Withdrawal or amendment of application for payment on shorn wool.*

(1) An applicant may request permission from the ASCS county committee to withdraw an application for payment on shorn wool which constitutes the full first shearing of purchased unshorn lambs when, as a result of such application containing the necessary report of purchases of unshorn lambs on an "actual basis," there is excess liveweight carried forward which would be used to reduce payments in the current or future marketing years. An applicant may also request permission to amend his application by omitting sales of those lots of wool constituting the full first shearing of purchased unshorn lambs reported on an "actual basis." These requests must be accompanied by such supporting evidence as may be required by the ASCS county committee. If the application was signed jointly by two or more producers, the request for withdrawal or amendment must be signed by each such producer. To be considered a full shearing, the wool must constitute the complete fleece, and not merely tags, clippings, trimmings around the eyes, or other off-wools.

(2) If the ASC county committee is satisfied that the conditions described in subparagraph (1) of this paragraph exist, the committee may grant the request. If the applicant has filed additional shorn wool applications in other ASCS county offices, his request may be granted only if it is determined that such additional applications do not include any wool removed in the full first shearing of the lambs which will not be reported as a result of the withdrawal or amendment.

§ 1472.1242 Signature of applicant.

No payment will be made unless an application for payment on shorn wool or unshorn lambs is signed. Each person who signs an application for payment in a representative or fiduciary capacity as agent, attorney-in-fact, officer, executor, etc., must be properly authorized to sign in such capacity.

§ 1472.1243 Joint applicants.

When the applicant for a shorn wool payment is a joint producer of the wool, all of the joint producers (except those who sign a release as provided below in this section) must sign any application based on the sale of such wool regardless of whether the wool was divided among such producers prior to sale or was sold without division. When the applicant for a payment on unshorn lambs is a joint producer of the lambs, all of the joint producers (except those who sign a release as provided below in this section) must sign any application based on the sale of such lambs regardless of whether the lambs were divided among such producers prior to sale or were sold without division. CCC will not be responsible for a division among the applicants of a payment made to all of them jointly. When the application shows such joint production, and one or more of the joint producers refuse to join in the application, if each such joint producer signs a form prescribed by CCC releasing CCC from any obligation to make a payment to him, CCC shall make payment of the

amount due the remaining joint producers who sign the application. Such release(s) shall be attached to the application. When any joint producer is entitled to join in an application but fails to do so, and the application does not show his interest as a joint producer, he shall have no claim against CCC for any portion of the payment made pursuant to the application.

§ 1472.1244 Disability.

(a) If a producer who is otherwise eligible to receive a payment under this subpart dies, disappears, or is declared incompetent, before marketing the shorn wool or unshorn lambs or before filing an application, his successors or representatives authorized to receive payment in the order of precedence set forth in Part 707 of this title may complete the eligibility requirements and make application for such payment on Form CCC-11551. The applicant shall also file Form ASCS-325, "Application for Payment of Amounts Due Persons Who Have Died, Disappeared, or Have Been Declared Incompetent," in accordance with Part 707 of this title.

(b) If a producer who earned a payment under this subpart and filed an application therefor dies, disappears, or is declared incompetent, either before CCC has issued a draft in payment or after CCC has issued a draft in payment but before the draft is negotiated, his successors or representatives authorized to receive such payment in the order of precedence set forth in Part 707 of this title may apply therefor on Form ASCS-325, in accordance with Part 707 of this title.

(c) If an Indian who is incompetent earned a payment under this subpart, an application therefor may be filed on his behalf by the Superintendent of the Indian Field Service of the reservation on which the Indian resides or by the authorized representative of such Superintendent. Such application for payment will be filed in the ASCS county office where the headquarters of the Indian's farm or ranch is located.

(d) In all other cases of disability, including bankruptcy and dissolution, payments will be made to a representative only in accordance with specific directions issued by CCC.

§ 1472.1245 Payment.

(a) Payment will be made under this subpart after the ASCS county office has reviewed the application and the attached supporting documents, has approved payment in whole or in part, and the appropriate rate of payment for the specified marketing year has been announced by the Department of Agriculture.

(b) Payments under this subpart shall be made only on the basis of the net sales proceeds received for shorn wool and on the liveweight of lambs sold or moved to slaughter. No payment shall be made on that part of any sale which has been cancelled or on the basis of prices or weights which have been fraudulently increased for the purpose of obtaining higher payments.

(c) If it is determined by the ASCS State or county office that an applicant knowingly made a false statement in his application, including his failure to report accurately purchases of unshorn lambs, no payment shall be made to him with respect to such application.

(d) If CCC subsequently determines that available evidence does not sustain the applicant's right to all or any part of the payment made, the amount of the payment not so sustained shall immediately become due and repayable to CCC, and CCC may, without limitation upon any of the Government's rights in the matter, deduct such amount from any other payment due the applicant under this subpart. If the right to such amount becomes involved in a lawsuit between the Government and the applicant or his assignee, he or his assignee shall have the burden of proving that he was entitled to such amount.

(e) If the ASCS county office rejects in whole or in part an application for payment on shorn wool or unshorn lambs, or, after a payment has been made, determines that the available evidence does not sustain the applicant's right to the payment or any part thereof, the ASCS county office shall mail a notice to the applicant, or, in the case of a joint application, to each applicant, that the application has been rejected, specifying the reason therefor, or that the available evidence does not sustain the applicant's right to the payment or any part thereof, as the case may be.

§ 1472.1246 Deductions for promotion.

If the Department of Agriculture has approved deductions for an advertising and sales promotion program in accordance with section 708 of the National Wool Act of 1954, as amended, the rate of such deductions for the specified marketing year will be announced and the appropriate deduction will be made from each payment due under this subpart for such specified marketing year.

§ 1472.1247 Set-off.

If the county office records show that the producer is indebted to CCC, to any other agency within the U.S. Department of Agriculture, or to any other agency of the United States, such indebtedness will be set off against the payment due to the producer in accordance with Part 1408 of this title.

§ 1472.1248 Liens on sheep or wool.

If a producer grants a lien on his sheep, lambs, or wool, such lien shall not be deemed to extend to payments made to the producer pursuant to this subpart.

§ 1472.1249 Requests for reconsideration and appeals.

Any applicant who is notified that his application has been rejected in whole or in part or that any other action has been taken by the ASCS county office which unfavorably affects a payment to him may obtain reconsideration and review of the determination in accordance with Part 780 of this title. In the request for reconsideration, the appli-

cant shall identify the application by number and date. When a joint application is involved, the request for reconsideration and review may be filed by all applicants jointly or by any of the applicants, in which case it shall be considered a request in behalf of all the joint applicants.

§ 1472.1250 Assignments.

(a) *Form.* An assignment of a payment due or to become due under this subpart on shorn wool or on unshorn lambs may be given to a financing agency or a wool marketing agency as security for cash advanced or to be advanced on sheep, lambs, or wool. The assignees shall not reassign such payment. One assignment may cover payments due or to become due on the sale of shorn wool or unshorn lambs or both. An assignment must include all payments due and to become due for the specified marketing year on the commodity or commodities for which payment is being assigned. The assignment shall be executed by the producer, or in the case of joint producers by all such producers, on Form CCC-1157, "Assignment of Payment Under the National Wool Act of 1954," and shall be null and void unless it is freely made and is either executed in the presence of an attesting witness, who shall not be an employee or agent of, or by consanguinity or marriage related to, the assignee, or acknowledged before a notary public, a member of the ASC county committee, the ASCS county office manager, or a designated employee of such committee.

(b) *Payment.* CCC will make payment pursuant to an accepted assignment unless the ASCS county office is furnished evidence that the assignment is released by the assignee.

§ 1472.1251 Records and inspection thereof.

(a) The applicant for a payment under this subpart, as well as his marketing agency and any other person who furnishes evidence to such applicant for use in connection with the application, shall maintain books, records, and accounts pertaining to the marketing of the commodity on which the application is based, for 3 years following the end of the specified marketing year during which the marketing took place. The applicant shall maintain books, records, and accounts pertaining to the production of wool, sheep, and lambs and the shearing thereof, with respect to which he applies for payment, for 3 years following the end of the specified marketing year during which the marketing took place. The applicant shall also maintain books, records, and accounts showing the purchases of lambs on or after April 1, 1956, for 3 years following the end of the specified marketing year during which any part of the wool shorn from such lambs has been marketed or during which any such lambs have been marketed, as the case may be. If the applicant is required to report purchases of unshorn lambs on a "first in, first out" basis, he shall maintain such books, records, and accounts of such lambs for 3 years following the end of the specified

marketing year for which such lambs are to be reported.

(b) If an application is based on the sale of wool shorn from imported sheep or lambs, or on the sale of imported lambs, of if lambs required to be reported as purchased unshorn were imported, the books, records, and accounts required by paragraph (a) of this section to be maintained by the applicant shall show the details of such importation, including the date of arrival of the lambs in the United States and the liveweight of such date, and if the lambs were quarantined, the date when they were released from quarantine and their liveweight on such date.

(c) With respect to any application for payment filed later than 1 month after the end of the specified marketing year, instead of maintaining the books, records, and accounts for the time specified in paragraph (a) of this section, such books, records, and accounts shall be maintained for 3 years following the date on which the application is filed.

(d) At all times during regular business hours, CCC shall have access to the premises of the applicant, of his marketing agency, and of the person who furnished evidence to an applicant for use in connection with the application, in order to inspect, examine, and make copies of the books, records, and accounts, and other written data as specified in paragraphs (a), (b), and (c) of this section.

§ 1472.1252 Violations of program.

(a) Whoever issues a false sales document or otherwise acts in violation of the provisions of this program, so as to enable an applicant to obtain a payment to which he is not entitled, shall become liable to CCC for any payment which CCC may have made in reliance on such sales document or as a result of such other action.

(b) The issuance of a false sales document or the making of a false statement in an application for payment or other document, for the purpose of enabling the applicant to obtain a payment to which he is not entitled, will subject the person issuing such document or making such statement to liability under applicable Federal civil and criminal statutes.

§ 1472.1253 Forms.

(a) Form CCC-1155, "Application for Payment—Shorn Wool or Unshorn Lambs (Pulled Wool)," Form CCC-1157, "Assignment of Payment Under the National Wool Act of 1954," Form ASCS-325, "Application for Payment of Amounts Due Persons Who Have Died, Disappeared, or Have Been Declared Incompetent," and other forms issued by the U.S. Department of Agriculture for use in connection with this program may be obtained from ASCS county offices.

§ 1472.1254 Authorization by Executive Vice President, CCC, or other official.

If the applicant is unable to furnish the documentary evidence of sale required in this subpart, the Executive Vice President, CCC, or his designee and the Deputy Administrator, State and County

Operations, ASCS, may authorize the submission of any other evidence which establishes to their satisfaction the information required by §§ 1472.1211 and 1472.1225 of this subpart.

§ 1472.1255 Expiration of time limitation.

Whenever the final date for filing an application falls on a Saturday, Sunday, National holiday, or State holiday, and on that day the proper ASCS State or county office is closed, or the final date falls on any other day on which such office is not open for the transaction of business during normal working hours, the time for filing the application shall be extended to the close of business on the next working day. If the filing is by mail, it shall be considered timely if it is postmarked by midnight of such next working day.

NOTE: The reporting and recordkeeping requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Effective date. This subpart shall become effective on the date of publication.

Signed at Washington, D.C., on March 14, 1966.

Executive Vice President,
Commodity Credit Corporation.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Airspace Docket No. 64-CE-58]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Control Zone; Designation; Change of Effective Date

On January 13, 1966, there was published in the FEDERAL REGISTER (31 F.R. 427) a rule, designating a control zone at Civic Memorial Airport, Alton, Ill. This rule stated that the control zone designation was to become effective 0001 e.s.t., March 3, 1966. On February 24, 1966, there was published in the FEDERAL REGISTER (31 F.R. 3065) an amendment to the above mentioned rule, whereby the effective date of the control zone designation was changed to May 26, 1966. The reason for this amendment was the postponement of the commissioning of the control tower at this airport. Unforeseen construction delays have further postponed the conditioning of this control tower. It is now scheduled for commissioning on June 23, 1966. Designation of the control zone is dependent upon commissioning of the facility.

Since this action merely projects the effective date, it is minor in nature and imposes no additional burden on the public. Therefore, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Airspace Docket 64-CE-58 (31 F.R. 427) as amended (31 F.R. 3065) is amended, effective immediately as follows: "Effective 0001 e.s.t., May 26, 1966" is deleted and "effective 0001 e.s.t., June 23, 1966" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Kansas City, Mo., on March 8, 1966.

DONALD S. KING,
Acting Director, Central Region.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Control Zones and Transition Area; Alteration; Change of Effective Date

On January 12, 1966, there was published in the FEDERAL REGISTER (31 F.R. 342) a rule altering the control zones and transition area in the Milwaukee, Wis., terminal area. This rule stated that the alterations were to become effective 0001 e.s.t., March 31, 1966. This effective date should be October 13, 1966, since the commissioning of the No. 2 ILS at General Mitchell Field, Milwaukee, Wis., has been postponed until October 1966.

Since this action merely projects the effective date, it is minor in nature and imposes no additional burden on the public. Notice and public procedure are therefore unnecessary.

In consideration of the foregoing, Airspace Docket No. 65-CE-121 (31 F.R. 342) is amended, effective immediately, as follows: "effective 0001 e.s.t., March 31, 1966" is deleted, and "effective 0001 e.s.t., October 13, 1966" is substituted therefor.

This amendment is made under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Kansas City, Mo., on March 9, 1966.

DONALD S. KING,
Acting Director, Central Region.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On January 7, 1966, a notice of proposed rule making was published in the FEDERAL REGISTER (31 F.R. 224) stating that the Federal Aviation Agency proposed to alter the control zone at Enid, Okla.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., May 26, 1966, as herein set forth.

In § 71.171 (31 F.R. 2088) the Enid, Okla., control zone is amended to read:

That airspace within a 5-mile radius of Vance AFB (latitude 36°20'20" N., longitude 97°55'00" W.); and within 2 miles W and 5 miles E of the Vance AFB ILS localizer S course extending from the 5-mile radius zone to the LOM; and within 2 miles each side of the Vance AFB TACAN 185° radial, extending from the 5-mile radius zone to 8 miles S of the TACAN; and within 2 miles each side of the Vance VOR 134° radial, extending from the 5-mile radius zone NW to the VOR; and within 2 miles each side of the Vance AFB TACAN 348° radial, extending from the 5-mile radius zone to 7 miles N of the TACAN; and within 2 miles W and 3 miles E of the Vance AFB 17R-35L runway centerline, extending from the 5-mile radius zone to 6 miles N of Vance AFB; and within a 5-mile radius of Woodring Field (latitude 36°22'45" N., longitude 97°47'30" W.); and within 2 miles each side of the Woodring VOR 355° radial, extending from the 5-mile radius zone to 8 miles N of the VOR; and within 2 miles each side of the Woodring VOR 185° radial, extending from the 5-mile radius zone to 8 miles S of the VOR; and within 2 miles each side of the Woodring VOR 011° radial, extending from the 5-mile radius zone to 12 miles N of the VOR; and that airspace within 2 miles each side of the Woodring VOR 191° radial, extending from the Woodring Field 5-mile radius zone to 12 miles S of the VOR.

[Airspace Docket No. 66-SW-10]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the San Antonio, Tex., transition area to eliminate the extension to the portion of the transition area extending upward from 700 feet above the surface which is based on the 189° true bearing from the Kelly AFB OM. This action is necessary since the ILS approach procedures to Kelly AFB have been revised to eliminate the requirement for this particular extension. Since this amendment is less restrictive in nature and imposes no additional burden on any person, notice and public procedures hereon are unnecessary and the amendment may be made effective immediately.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.181 (31 F.R. 2251) the San Antonio, Tex. transition area is amended to read:

SAN ANTONIO, TEX.

PART 73—SPECIAL USE AIRSPACE

Modification of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to amend the time of designation for usage of Restricted Area R-2401, Fort Chaffee, Ark.

The U.S. Army has concurred in the Federal Aviation Agency's request that the time of designation for the usage of R-2401 be changed so as to reflect the actual use of the area which will reduce the time of designation and thus lessen the burden on the public. R-2401 is presently a joint use restricted area and des-

ignated on a continuous basis. It has been determined that the area is required on a continuous basis from only June 1 through August 31; and from 0600 Saturday to 2400 c.s.t., Sunday September 1 through May 31; and other times following issuance of a NOTAM by the using agency at least 24 hours in advance.

Since this amendment reduces the burden on the public, notice and public procedure hereon are unnecessary and the amendment may be made effective immediately.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 73.24 (31 F.R. 2299) R-2401, Fort Chaffee, Ark., is amended as follows: Under time of designation "Continuous." is deleted and "Continuous June 1 through August 31; and 0600 Saturday to 2400 c.s.t., Sunday, September 1 through May 31; other times following issuance of a NOTAM by the using agency at least 24 hours in advance" is substituted therefor.

PART 73—SPECIAL USE AIRSPACE

Modification of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to amend the time of designation for the use of restricted area, R-2402, Fort Chaffee, Ark.

The U.S. Army has concurred in the Federal Aviation Agency's request that the time of designation for the usage of R-2402 be changed so as to reflect the actual use of the area which will reduce the time of designation and thus lessen the burden on the public. R-2402 is presently a joint use restricted area and designated on a continuing basis. It has been determined that the area is required on a continuous basis only from June 1 through August 31; and from 0600 Saturday to 2400 c.s.t., Sunday, September 1 through May 31; and other times following issuance of a NOTAM by the using agency at least 24 hours in advance.

Since this amendment reduces the burden on the public, notice and public procedure hereon are unnecessary and the amendment may be made effective immediately.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 73.24 (31 F.R. 2299) R-2402, Fort Chaffee, Ark., is amended as follows: Under time of designation "Continuous." is deleted and "Continuous June 1 through August 31; and 0600 Saturday to 2400 c.s.t., Sunday, September 1 through May

31; other times following issuance of a NOTAM by the using agency at least twenty-four (24) hours in advance" is substituted therefor.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter I—Commodity Exchange Authority (Including Commodity Exchange Commission), Department of Agriculture

PART 1—GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT

Application and Closing Out of Offsetting Long and Short Positions

On January 27, 1966, there was published in the FEDERAL REGISTER (31 F.R. 1079) a notice regarding a proposed amendment of § 1.46(b) of the general regulations under the Commodity Exchange Act (17 CFR 1.46(b)). After due consideration of all relevant matters and pursuant to sections 4g, 5(b), and 8a of the Commodity Exchange Act (7 U.S.C. 6g, 7(b), and 12a), said § 1.46(b) is amended to read as follows:

§ 1.46 Application and closing out of offsetting long and short positions.

(b) *Close-out against oldest open position.* In all instances wherein the short or long position in such customer's account immediately prior to such offsetting purchase or sale is greater than the quantity purchased or sold, the futures commission merchant shall apply such offsetting purchase or sale to the oldest portion of the previously held short or long position: Except, that upon specific instructions from the customer the offsetting transaction shall be applied as specified by the customer without regard to the date of acquisition of the previously held position. Such instructions may also be accepted from any person who, by power of attorney or otherwise, actually directs trading in the customer's account unless the person directing the trading is the futures commission merchant (including any partner thereof), or is an officer, employee, or agent of the futures commission merchant.

(Sec. 4g as added by sec. 5, 49 Stat. 1496, sec. 5, 42 Stat. 1000, sec. 8a as added by sec. 10, 49 Stat. 1500; 7 U.S.C. 6g, 7(b), and 12a)

Effective date. The amendment shall become effective 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 15th day of March 1966.

GEORGE L. MEHREN,
Assistant Secretary.

Title 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

SUBCHAPTER W—AIR FORCE PROCUREMENT INSTRUCTIONS

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

Subchapter W is amended as follows:

PART 1001—GENERAL PROVISIONS

Present Subpart F is deleted and the following inserted, as follows. The heading is changed to read as shown.

Subpart F—Debarment, Ineligibility, and Suspension

Sec.	
1001.601	Establishment and maintenance of records and lists of firms or individuals debarred, ineligible or suspended.
1001.601-1	General.
1001.601-3	Joint Consolidated List.
1001.601-4	Protection of lists and records.
1001.601-5	Limitation.
1001.603	Grounds for listing and treatment to be accorded listed concerns.
1001.603-50	Security clearances.
1001.604	Administrative debarment of firms or individuals (Type A).
1001.604-3	Notice of debarment.
1001.605	Suspension of firm or individual.
1001.605-3	Notice of suspension.
1001.606	Limited debarment or suspension.
1001.610	Use of overseas lists within the United States.
1001.650	Reporting violations.
1001.651	Supplemental lists.

AUTHORITY: The provisions of this Subpart F issued under sec. 8012, 70A Stat. 488, secs. 2301-2314, 70A Stat. 127-133, 10 U.S.C. 8012, 2301-2314.

Subpart F—Debarment, Ineligibility, and Suspension

§ 1001.601 Establishment and maintenance of records and lists of firms or individuals debarred, ineligible or suspended.

§ 1001.601-1 General.

AFL 70-23, Joint Consolidated List of Debarred, Ineligible, and Suspended Contractors, will be published, maintained, and distributed for the information and guidance of AF contracting officers and other concerned procurement personnel.

§ 1001.601-3 Joint Consolidated List.

(a) *Changes.* Additions, deletions, or modifications to the Joint Consolidated List (AFL 70-23) will be forwarded through the Frauds Analysis Branch (MCJMF), Office of the Staff Judge Advocate, Hq AFLC, to DCS/S&L, Hq USAF, for transmittal to the Department of the

Army. MCJMF will recommend to DCS/S&L (AFSPPCA) action to be taken.

(b) *Distribution.* Distribution of the Joint Consolidated List of Debarred, Ineligible and Suspended Contractors and periodic revisions will be accomplished according to provisions of AFM 5-4 (Distribution of Publications and Forms). Advance notices of additions, deletions, and modifications will be distributed according to applicable procedures. Activities may receive upon request and proper justification to AFLC (MCJMF), copies of these notices.

§ 1001.601-4 Protection of lists and records.

The list and related correspondence will be marked "For Official Use Only" pursuant to AFR 11-30 (Custody, Use, and Preservation of DOD Official Information Which Requires Protection in the Public Interest), unless the correspondence warrants security classification according to AFR 205-1 (Safeguarding Classified Information) and AFR 120-3 (Administrative Inquiries and Investigations).

§ 1001.601-5 Limitation.

DCS/S&L, Hq USAF, will upon the recommendation on the Frauds Analysis Office (MCJMF) Hq AFLC, determine whether a firm or individual will be included in the list.

§ 1001.603 Grounds for listing and treatment to be accorded listed concerns.

(a) The DCS/S&L, Hq USAF may authorize exceptions to the restrictions imposed by Type A (iii) and Type D listings when it is determined to be in the best interests of the Government. In such cases, the contracting officer will submit a written justification containing all relevant facts to AFLC (MCJMF). Urgent delivery schedules or inability to secure the supplies or services from other sources due to lead time, proprietary rights, or lack of procurement data are prime factors for such justification. MCJMF will recommend to DCS/S&L, Hq USAF (AFSPPCA) action to be taken on individual requests for exceptions to restrictions when appropriate.

(b) DCS/S&L, Hq USAF, will determine, based on recommendation of MCJMF, Hq AFLC, whether it is in the best interest of the Air Force to terminate current contracts and/or withhold all or part of funds due firms and individuals appearing on the list. DCS/S&L, Hq USAF will request the Air Force Accounting and Finance Center, Denver, Colo., to notify all AF accounting and finance officers to withhold payments where such action is considered appropriate.

(c) If award of a subcontract to a listed firm or individual is considered in the best interest of the Government, the administrative contracting officer (ACO), prior to approving such award, will request an exception to restrictions according to the procedures outlined in paragraph (a) of this section. Approval may be granted by MCJMF. Doubtful cases will be referred by MCJMF to

(DCS/S&L) Hq USAF (AFSPPCA), for review and determinations. In the case of subcontracts already in effect, no termination proceedings will be instituted unless contractual provisions reserve to the Government that control over subcontracts permitting the Government to require their terminations. Where the Government has such control, the ACO will decide whether termination of a subcontract would be in the best interests of the Government. If the ACO finds that termination is proper, he will forward his findings together with all relevant facts to AFLC (MCJMF) for review and advice as to further action.

§ 1001.603-50 Security clearances.

(a) Security clearances for facilities or individuals currently appearing on the debarred, ineligible, and suspended list will be initiated only after determination that the firm or individual concerned will be permitted to bid or submit quotations on classified Department of Defense contracts even though listed as suspended.

(b) If a facility has been issued a facility security clearance and subsequently is listed in the debarred, ineligible, and suspended contractor list, the commander of the major air command assigned security cognizance for that facility under the provisions of AFR 205-1 will reexamine the eligibility of the facility from a security viewpoint with a view to recommending revocation of such clearance.

§ 1001.604 Administrative debarment of firms or individuals (Type A).

Fully substantiated recommendations for debarment of firms or individuals will be submitted to AFLC (MCJMF) for review and appropriate action. MCJMF will submit its recommendations to DCS/S&L, Hq USAF (AFSPPCA), for action to be taken. Consideration should be given to provisions of § 1.606 of this title.

§ 1001.604-3 Notice of debarment.

The DCS/S&L, Hq USAF (AFSPPCA) will furnish the notice of debarment required by § 1.604-3 of this title. All inquiries or correspondence from or in behalf of debarred contractors concerning their status, reasons for debarment actions, etc., will be referred through command channels to AFLC (MCJMF) for appropriate action. MCJMF will refer these matters to DCS/S&L, Hq USAF (AFSPPCA) if review, advice, or action by that Headquarters is considered appropriate.

§ 1001.605 Suspension of firm or individual.

Fully substantiated recommendations for suspension of firms or individuals will be submitted to AFLC (MCJMF) for review and appropriate action. MCJMF will submit its recommendations to DCS/S&L, Hq USAF (AFSPPCA) for action to be taken. Consideration should be given to provisions of § 1.606 of this title. Any proposed award of a contract or approval of a subcontract to a suspended firm or individual will be processed according to § 1001.603 (a) or (c).

§ 1001.605-3 Notice of suspension.

The DCS/S&L, Hq USAF (AFSPPCA), will furnish the notice of suspension. All inquiries or correspondence from or in behalf of suspended contractors concerning their status, reasons for suspension action, etc., will be referred through command channels to AFLC (MCJMF) for appropriate action. MCJMF will refer these matters to DCS/S&L, Hq USAF (AFSPPCA) if review, advice, or action by that Headquarters is considered appropriate.

§ 1001.606 Limited debarment or suspension.

Where applicable, recommendations for limited debarment or suspension should specify whether the action should apply to procurement contracts or to sales contracts, or to both.

§ 1001.610 Use of overseas lists within the United States.

(a) *Determination of overseas listings.* (1) Within the United States: Prior to the award of a prime or subcontract (where the prime contract reserves the right of approval of subcontracts by the ACO) to an offshore supplier the cognizant U.S. procuring or administrative contracting officer will contact AFLC (MCJMF) in writing, to determine whether or not the firm or individual in question appears on any of the overseas lists.

(2) Possessions: AF procuring or administrative contracting officers located in U.S. possessions (see § 1.201-12 of this title) will contact whichever of the following activities is most conveniently located:

- (i) CINCEUR.
- (ii) CINCPAC.
- (iii) USCINCS.
- (iv) AFLC (MCJMF).

(3) The activity contacted will reply to the requesting activity within 2 working days by the most expeditious means of communication. If the firm or individual in question appears on an offshore consolidated list, the reply will include the information outlined in § 1.609-2 of this title and will be assigned a security classification commensurate with the information furnished.

(b) *Proposals regarding products of listed concerns.* Proposals by contractors to furnish products of a concern listed on an overseas list will be referred by the contracting officer to Hq USAF (AFSPPCA) through AFLC (MCJMF).

§ 1001.650 Reporting violations.

All AF personnel will promptly report according to AFR 124-8 (Violations of Public Trust in Contract, Procurement, and Other Matters), any indication of fraud or other violation of public trust for appropriate investigative action. Upon receipt of action copies of the investigative reports, the major command concerned will submit comments and recommendations as to debarments or suspension of the firms or individuals involved to the DCS/S&L, Hq USAF, through AFLC (MCJMF). Upon request, major commands will supply

MCJMF with a closing report of action taken regarding the findings outlined in investigative reports. Reports are exempt from the requirements of reports control symbols in compliance with paragraph 7c(1), AFR 174-1 (AF Reports Management System).

§ 1001.651 Supplemental lists.

Under department authority of § 1.905-1(b) of this title, all major commands are authorized to establish and maintain records and experience data relative to firms or individuals and to maintain a list of such firms or individuals for the guidance of contracting officers in placing new procurements.

PART 1003—PROCUREMENT BY NEGOTIATION

Subpart F—Small Purchases

Section 1003.608-6 is revised to read as follows:

§ 1003.608-6 Use of DD Form 1155 as a delivery order.

(a) DD Form 1155 will be used as a delivery order under call procurement arrangements (§ 1003.409-50) and basic ordering agreements (§ 3.410-2 of this title).

(b) The responsibility for scheduling deliveries under indefinite delivery contracts rests with the procurement office. However, the nature of certain supplies and services makes it advisable to permit requiring activities to schedule such deliveries. These supplies are usually items that do not lend themselves to normal warehouse storage and requisitioning procedures. These services are those that are not susceptible to planned scheduling because the frequency of need for the service varies from day to day. To provide for expeditious ordering of such supplies and services under indefinite delivery contracts, the contracting officer may issue a delivery order that delegates the scheduling of deliveries to a member of the requiring activity, if authorized by paragraph (c) (1) of this section. Such delivery orders may be referred to as Blanket Delivery Orders (BDO).

(c) The type of delivery orders against indefinite delivery contracts, as set forth in this section, will be issued monthly or prior to the beginning of each fiscal quarter.

(1) The procedures set forth below apply to:

(i) Products listed in Supply Bulletins issued by the Defense Subsistence Supply Center that satisfy paragraph (b) of this section. However, permission must be obtained from the supplier if not specifically authorized by the Supply Bulletin.

(ii) Commissary requirements not listed in Supply Bulletins that satisfy paragraph (b) of this section.

(iii) All services of a recurring nature.

(iv) Motor vehicle and equipment repair parts obtained from an on-base contractor-operated vehicle parts store.

(v) All other supplies and services, provided the procurement office schedules deliveries.

(2) Upon receipt of the purchase request, the contracting officer will submit a delivery order (DD Form 1155) to the contractor for the estimated requirements for the period covered. The delivery order will not itemize the items listed on the contract but will cite the appropriate accounting classification and will contain a statement similar to the following: "For * * * products covered by Contract No. * * * to be delivered during the month(s) * * * as scheduled by the * * * officer. Aggregate monetary total of all deliveries made against this delivery order shall not exceed \$ * * * unless authorized in writing by the contracting officer."

(3) The activity scheduling deliveries set forth in the contract will maintain informal records against the delivery orders to insure that the designated monetary limitations are not exceeded. Orders will be placed in numerical sequence and recorded. The sequence of recording deliveries will run for the duration of the delivery order.

(4) On the last day of the month the requiring activity will prepare a consolidated receiving report (by line item of the contract) for all deliveries made during the monthly period. Obligations will be recorded and reported in the month in which they are incurred. One copy of each consolidated receiving report prepared will be furnished to complete the files in the base procurement office.

(5) Delivery orders for commissary resale items will coincide with the inventory date (e.g., 25th day of each month) of the commissary. Items will be reported for the month for which the consolidated receiving report is prepared. Delivery order numbers should be taken from the register sufficiently in advance so as to come within the subsequent month's business.

(6) AF activities desiring to allow a requiring activity to schedule deliveries of supplies and services not authorized in subparagraph (1) of this paragraph, will forward a request for approval with complete justification to AFLC (MCPPL).

PART 1007—CONTRACT CLAUSES

Present Subpart U is deleted and the following inserted therefor:

Subpart U—Clauses for Fixed-Price Nonpersonal Service Contracts

Sec.	
1007.2100	Scope of subpart.
1007.2101	General.
1007.2102	Definitions.
1007.2103	Substitution of clauses for nonpersonal service contracts.
1007.2103-1	Changes.
1007.2103-3	Inspection.

AUTHORITY: The provisions of this Subpart U issued under sec. 8012, 70A Stat. 488, secs. 2301-2314, 70A Stat. 127-133, 10 U.S.C. 8012, 2301-2314.

Subpart U—Clauses for Fixed-Price Nonpersonal Service Contracts

§ 1007.2100 Scope of subpart.

This subpart sets forth clauses for use in fixed-price nonpersonal service contracts excluding contracts for which DD Form 1270 is authorized.

§ 1007.2101 General.

The clauses and instructions for use set forth in Subchapter A, Chapter I of this title and this subchapter for application to fixed-price supply contracts are also applicable to contracts for nonpersonal service contracts, and, therefore, subject to the following, will be used according to the applicable instructions in fixed-price nonpersonal service contracts of a type not specifically covered by Subchapter A, Chapter I of this title or this subchapter.

§ 1007.2102 Definitions.

As used throughout this subpart, the term "nonpersonal service contract" means any contract for services other than kinds of services expressly provided for by Subchapter A, Chapter I of this title or other subparts of this part.

§ 1007.2103 Substitution of clauses for nonpersonal service contracts.

The following substitution of clauses prescribed for supply contracts will be made in contracts for nonpersonal services.

§ 1007.2103-1 Changes.

Substitute § 1007.4025 for § 7.103-2 of this title.

§ 1007.2103-3 Inspection.

Substitute § 1007.4037 for § 7.103-5 of this title.

Subpart JJ—Contracts for Care of Remains

Subpart JJ, Contracts for Care of Remains, is deleted.

Subpart NN—Special Clauses

§§ 1007.4028, 1007.4039 [Deleted]

1. Sections 1007.4028 and 1007.4039 are deleted.

2. In § 1007.4048 a reference is added to the note that follows paragraph (b), as follows:

§ 1007.4048 Safety precautions for all types of dangerous materials.

* * *

NOTE: Requests for necessary and significant variations from strict adherence to specific TO's, manuals, or portions thereof referenced in the foregoing will be substantiated and then processed through the deviation channels of § 1001.109-50 of this subchapter.

3. In § 1007.4050 the introduction is revised to read as follows:

§ 1007.4050 Government bill of lading.

All central procurement contracts (except purchase orders issued on DD Form

1155 and contracts issued under small purchase procedures, Subpart F, Part 1003 of this subchapter) which provide for delivery of supplies will contain the clause set forth below. Other contracts may contain this clause or a GBL clause adapted to the particular contract.

PART 1011—TAXES

1. The heading of Part 1011 is amended to read as shown.

§ 1011.054 [Deleted]

2. Section 1011.054 is deleted.

3. A new § 1011.055 is added as follows:

§ 1011.055 Inquiries.

(a) If advice or guidance is desired with respect to tax problems not provided by this section or Part 11 of this title concerning procurement of any Air Force Command, and the information is not available at command headquarters, inquiries may be forwarded to Hq AFLC (MCJC) as follows:

(1) Inquiries by AFLC and organizations located at Wright-Patterson AFB will be forwarded through the cognizant Staff Judge Advocate.

(2) Inquiries within other commands will be routed as directed by that command.

(b) The local Staff Judge Advocate will be consulted in connection with all tax problems.

Subpart A—Federal Excise Taxes

Subpart B—Exemptions From Federal Excise Taxes

4. Present Subparts A and B are deleted.

Subpart C—State and Local Taxes

§ 1011.301 [Amended]

1. In § 1011.301 the introductory material and paragraph (c) are deleted.

2. A new § 1011.302 is added as follows:

§ 1011.302 Tax-exemption forms.

(a) Prepare certificates to meet the requirements of the State or local tax authority concerned. In most cases, Standard Form 1094, U.S. Government Tax Exemption Certificate, will be appropriate. Except as provided in paragraph (b) of this section, a tax-exemption certificate will not be issued unless the contract shows that the price is exclusive of the tax or unless the contractor consents to deduction of the tax from the contract price and acceptance of the tax-exemption certificate.

(b) If for any reason it is impossible to exclude an inapplicable State or local tax, execute SF 1094 and deliver to the accounting and finance officer, with a written statement that the vendor refused such certificate, for use of the U.S. Comptroller General in obtaining a refund of the tax. Show the serial number of the tax-exemption certificate on the payment voucher.

3. In § 1011.356, paragraph (b) is revised to read as follows:

§ 1011.356 North Carolina sales and use taxes.

(b) The State of North Carolina currently imposes sales and use taxes on contractor purchases of materials and supplies used in performing construction type work contracts with the Federal Government. On September 15, 1965, the U.S. District Court for the Eastern District of North Carolina ruled that such taxes were unconstitutional as they discriminated against contractors of the Federal Government in favor of State and local contractors. Currently, an appeal is pending in the U.S. Supreme Court.

4. In § 1011.356-1, paragraph (a) and the second unnumbered paragraph of the clause are revised to read as follows:

§ 1011.356-1 Fixed price contracts.

(a) In view of the above litigation, all affected fixed price contracts over \$2,500 (see § 1011.356(a)) will contain the following special tax clause. Provision will be made in IFBs and RFPs to incorporate said clause in the resulting contracts. Existing contracts should be amended to include said clause to the maximum extent possible; however, such amendment is not mandatory except in cases where new work is added to the contract.

NORTH CAROLINA SALES AND USE TAXES (SEPTEMBER 1961)

Currently, the issue of the validity of these taxes as applied to construction contractors of the United States is before the United States Supreme Court.

§ 1011.357 [Deleted]

5. Section 1011.357 is deleted.

6. In § 1011.358, paragraph (a) is revised to read as follows:

§ 1011.358 Los Angeles City License Tax.

(a) *Instructions to contractors.* It is the intention of the military departments to challenge the validity of the Los Angeles City License Tax as it is currently being applied to contractors and subcontractors selling manufactured end items directly or indirectly to the Government under fixed-price contracts and cost-type contracts. Test litigation will soon be instituted to accomplish this purpose. A form letter of instructions, see Instructions to Contractors, has been approved by the Armed Services Tax Group (DOD) for issuance to contractors concerned. The letter sets forth the procedures to be followed by Government contractors and subcontractors in the City of Los Angeles during the pendency of the test litigation. Issuance thereof to affected prime contractors (who should, in turn, instruct affected subcontractors) will be accomplished by cognizant ACOs. Reports received from contractors concerning the Los Angeles Tax (see paragraph (f) of the Instructions to Contractors) will be forwarded to AFLC (MCJC).

7. The heading and centerhead of § 1011.358-1.1 are now incorporated with § 1011.358-1, following the present material. The numbering § 1011.358-1.1 is deleted. As amended, § 1011.358-1 is now set up as follows:

§ 1011.358-1 Cost-type contracts.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter VI—Business and Defense Services Administration, Department of Commerce

[DMS Regs. No. 1, Amdt. 2 of Mar. 15, 1966]

DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

Amdt. 2—Authorized Program Identifications and Allotting Agencies

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this

amendment, consultation with industry has been rendered impracticable because this amendment applies to numerous trades and industries.

This amendment affects DMS Regulation 1, December 1, 1959, as amended by Amendment 1, November 23, 1962, by inserting in Schedule II of that regulation the program identification K-1 which has been authorized for the General Services Administration's Stores Depot Program, pursuant to BDSA Delegation 3, May 8, 1963, and for which BDSA is the allotting agency.

Accordingly, Schedule II of DMS Regulation 1 is hereby further amended to read as follows:

SCHEDULE II TO DMS REG. 1

AUTHORIZED PROGRAM IDENTIFICATIONS AND ALLOTING AGENCIES

(See sections 5(d), 12(a) and 16)

The program identification symbols listed in this schedule are the only ones authorized

for use under the Defense Materials System and must be used in accordance with this regulation and other applicable regulations and orders of BDSA.

The symbols are not listed in alphabetical or numerical sequence but are grouped by Allotting Agencies. Within each group, the Allotting Agencies listed in Column 3 are authorized to make allotments under one or more of the programs listed in Column 2 and to assign allotment numbers and ratings containing one or more of the program identifications listed in Column 1. Communications concerning rating, self-authorization and allotment authority should be addressed to the named agency, its procuring element, or as directed by the procuring element. The full names of the Allotting Agencies shown by initials in the following list are:

AEC—Atomic Energy Commission.
BDSA—Business and Defense Services Administration.
CIA—Central Intelligence Agency.
FAA—Federal Aviation Agency.
NASA—National Aeronautics and Space Administration.

Appendix.

AUTHORITY: The provisions of this Part 600 issued under E.O. 11222 of May 8, 1965, 30 F.R. 6469, 3 CFR, 1965 Supp.; 5 CFR 735.104.

Subpart A—Employee Conduct, Outside Activities, and Conflicts of Interest

§ 600.735-1 Purpose.

As required by Executive Order 11222 of May 8, 1965 and Part 735 of Chapter I, Title 5 of the Code of Federal Regulations, this subpart sets forth National Science Foundation policies and procedures with respect to employee conduct, certain permissible and prohibited outside activities, and possible conflicts-of-interest situations.

§ 600.735-2 Scope.

The policies and procedures contained in this subpart apply to all NSF employees.

§ 600-735-3 Statutory provisions.

Each employee is responsible for acquainting himself not only with the provisions of this subpart, but also with applicable portions of each Federal statute relating to his conduct as an employee of the Foundation and of the U.S. Government. The Personnel Office will call this subpart to the attention of all employees at least once a year and will provide a

copy of the part to each new full-time employee who joins the Foundation. (A list of pertinent statutes is provided in the Appendix to this part.)

§ 600.735-4 Policy.

Confident of the integrity and sense of responsibility of its employees, it is the intent of the Foundation to impose on employees' conduct, activities, and financial interests those prohibitions, and limitations that are required by law or Federal regulation.

§ 600.735-5 Conflicts-of-Interest Review Panel.

To assist the Director in making judgments regarding conflicts-of-interest situations, there is hereby established a Conflicts-of-Interest Review Panel, which is assigned duties and responsibilities as set forth in § 600.735-7. The Panel consists of the General Counsel as Chairman, the Deputy Director, and the Associate Directors for Education, Planning, and Research. (The Director may specify other or additional members from time to time. The Assistant to the Administrative Manager is designated as Executive Secretary of the Panel.

§ 600.735-6 Conflicts-of-Interest Counselor.

The attorney in the Office of the General Counsel who has responsibilities for conflicts-of-interest matters is designated the Conflicts-of-Interest Counselor, with responsibilities for providing, on request from any Foundation employee, counsel regarding conflicts-of-interest regulations and requirements, as well as their applicability in particular situations. Each Foundation employee is responsible for seeking the advice of the Conflicts-of-Interest Counselor whenever it appears that he may be, or may become, involved in a possible conflict-of-interest situation. Any supervisor in the Foundation may refer to the Conflicts-of-Interest Counselor any possible conflict-of-interest situation involving a subordinate of his whenever he deems such action appropriate. In such cases the subordinate concerned shall be informed that the matter has been referred for consideration and shall be afforded the opportunity to state his case.

§ 600.735-7 Resolution of possible conflicts-of-interest situations.

(a) *The General Counsel.* The General Counsel is responsible for reviewing conflicts-of-interest matters brought to his attention by the Executive Secretary of the Panel or the Conflicts-of-Interest Counselor, and for attempting to work with the employees concerned in resolving such situations, and for offering employees an opportunity to explain any conflict or appearance of conflict. He is responsible for bringing to the attention of the Panel any conflicts-of-interest situation that has not in his opinion been satisfactorily resolved through the above procedures. He will not, however, refer to the Panel, nor will the Panel consider any conflicts-of-interest matter which the General Counsel be-

lieves to be a violation of law. He will refer such matters to the Director for decision and appropriate action. Remedial action, whether disciplinary or otherwise, shall be effected in accordance with any applicable laws, Executive orders, and regulations.

(b) *Conflicts-of-Interest Review Panel.* The Panel will consider those matters brought to its attention by the General Counsel, will direct the Executive Secretary to obtain any additional information deemed necessary, and will state in writing the conclusions it reaches. The Chairman of the Panel may refer any conflicts-of-interest matter to the attention of the Director whenever this appears desirable, as, for example, in a case where the Panel is unable to reach a unanimous judgment upon a matter which has been referred to it. Similarly, if an employee disagrees with the outcome of the Panel's deliberations, he may bring the matter to the attention of the Director for his consideration and such action as the Director may deem appropriate.

(c) *Disciplinary and other remedial actions.* When there is a final decision that a conflict-of-interest situation requires disciplinary or other remedial action, such action shall be taken promptly to end the conflict or appearance of conflict of interest and to carry out any appropriate disciplinary measure. Any action taken, whether disciplinary or otherwise, shall be effected in accordance with applicable laws. Executive orders, Civil Service Commission regulations and the regulations in this part. The action taken may involve, among other things:

- (1) Changes in existing duties;
- (2) Divestment by the employee of his conflicting interest;
- (3) Appropriate disciplinary action, up to and including removal;
- (4) Disqualification for a particular assignment.

§ 600.735-8 Statements of employment and financial interests.

(a) *General requirement.* Statements of employment and financial interests are required of all Federal employees occupying positions at or above grade 16 or the equivalent, as well as all employees occupying positions which require the exercise of judgment in making or recommending a Government decision or in taking or recommending Government action in regard to:

- (1) Contracting or procurement;
- (2) Administering or monitoring grants or subsidies;
- (3) Regulating or auditing private or other non-Federal enterprise; or
- (4) Other activities where the decision or action has an economic impact on the interest of a particular non-Federal enterprise.

(b) *Foundation requirement.* In order to fulfill the Foundation's obligations under the general Government requirement described in paragraph (a) of this section, it has been determined that a Statement of Employment and Financial Interests must be completed and submitted in accordance with the procedures set forth in this section by all Foundation

employees occupying positions of grade 14 or above, with the exception of the GS-14 and GS-15 positions in the following offices: Office of Program Development and Analysis; Budget Office; Finance Office; Management Analysis Office; Personnel Office; as well as by all employees occupying the positions specified below:

(1) All employees occupying grade 12 and above positions in:

- (i) Contracts Office;
- (ii) Indirect Cost (Rate) Determination Office;
- (iii) Internal Audit Office;
- (iv) Grants Office;
- (v) Office Services.

(2) All attorneys in the Office of the General Counsel;

(3) All nonclerical employees in the Mohole Project Office;

(4) All nonclerical employees whose functions include purchasing and/or procurement of any sort.

(c) *Inclusion and exclusion of positions.* Whenever appropriate, the Director may amend paragraph (b) of this section to include additional positions that entail submission of such statements or may exclude any positions listed in that paragraph (b) the inclusion of which is not required by the general requirement in paragraph (a) of this section. Each supervisor in the Foundation is responsible for bringing to the attention of the Director (through appropriate channels) any position which the supervisor believes should be covered or excluded by this requirement.

(d) *Submission of original and supplementary statements.* Each employee covered by this requirement shall complete the statement and submit it to the Executive Secretary of the Conflicts-of-Interest Review Panel within 90 days after the effective date of this part. Each new employee shall complete and submit the statement within 30 days after his entrance on duty or within 90 days after the effective date of this part, whichever date is later. All changes in, or additions to, the information contained in each employee's original statement must be reported in a supplementary statement submitted by the employee at the end of the quarter in which the changes occur. (Quarters end March 31, June 30, September 30, and December 31.) If there are no changes or additions in a quarter, a negative report is not required, except that a supplementary statement, negative or otherwise, is required from each employee as of each June 30. The Executive Secretary is responsible for obtaining the initial statements from all affected employees and the supplementary statements at the end of each fiscal year. The Personnel Office is responsible for informing each new, affected employee of the requirement for him to submit the statement to the Executive Secretary within 30 days after his entrance on duty. The Executive Secretary is responsible for maintaining a confidential file of all statements that are submitted and for reviewing all statements for possible conflicts-of-interest situations in

accordance with the provisions of this subpart.

(e) *Interests of employees' relatives.* For purposes of the statement, the interests of a spouse, minor child, or any other member of an employee's immediate household who is a blood relation of the employee, are considered to be interests of the employee.

(f) *Information not known by employees.* If information required to be included on the statement of employment and financial interests (supplementary or otherwise, including holdings placed in trust) is not known by the employee but is known to another person, the employee shall request such other person to submit the information on his behalf.

(g) *Information not required.* Employees are not required to submit information relating to their financial interests in any professional society not conducted as a business enterprise as described in the next sentence, charitable, religious, social, fraternal, recreational, public service, civic, political, or similar organization not conducted as a business enterprise. Professional societies, educational institutions and other nonprofit organizations engaged in research, development, or related activities involving grants of money from, or contracts with, the Government are deemed "business enterprises" and are required to be included in employees' statements of employment and financial interests.

(h) *Effect of employees' statements on other requirements.* The statements of employment and financial interests and supplementary statements required of employees are in addition to, and are not in substitution for, or in derogation of, any similar requirement imposed by law, regulation, or Executive order. The submission of the statement or supplementary statement by an employee does not permit him or any other person to participate in any matter in which his or the other person's participation is prohibited by law, regulation, or Executive order.

(i) *Confidentiality of employees' statements.* Each statement of employment and financial interest and each supplementary statement will be held in strictest confidence. Information will not be disclosed from the statement by the Foundation except as the Civil Service Commission or the Director may authorize for good cause shown.

§ 600.735-9 Employee conduct.

(a) *General:* The Foundation assumes that each employee will conduct himself in a manner that will not discredit or embarrass himself or the Foundation. However, it is pointed out that the violation of the regulations in this part or any criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct on the part of an employee (whether in official duty status or not) is cause for immediate disciplinary action, up to and including removal.

(b) *Indebtedness:* Employees are expected to meet their financial obligations and not to take advantage of the fact that

their wages are not subject to garnishment for private debts. Failure to meet just financial obligations in a proper and timely manner may result in disciplinary action, up to and including removal. For the purpose of this section, a "just financial obligation" means one acknowledged by the employee or reduced to judgment by a court, and "in a proper and timely manner" means in a manner which the agency determines does not, under the circumstances, reflect adversely on the Government as his employer. In the event of dispute between an employee and an alleged creditor, this section does not require NSF to determine the validity or amount of the disputed debt.

(c) *Payment of taxes:* Employees are expected to meet their obligation for payment of taxes to Federal, State, and local authorities. Delinquency in payment of Federal, State, and local taxes is cause for disciplinary action, up to and including removal. Federal agencies are required to furnish State taxing authorities (including the District of Columbia) with a copy of Form W-2 indicating annual earnings and Federal income tax withheld. Employees are authorized to pay delinquent Federal taxes by payroll deduction, provided that they make satisfactory arrangements with the Internal Revenue Service to liquidate their tax liabilities in this manner. When such arrangements are not made, District Directors of Internal Revenue have the authority to levy upon the salaries of Federal employees for the full amount of delinquent Federal income tax.

(d) *Financial interests:* Any employee may hold financial interests and engage in financial transactions in the same way as any private citizen not employed by the Foundation: *Provided*, That such interests or activities are not prohibited by law, Executive order, or the regulations in this part. In particular, no employee may have any direct or indirect financial interest that conflicts substantially with his duties and responsibilities as a Foundation employee. No employee shall carry out Foundation duties involving any organization in which he has a direct or indirect financial interest. No employee shall engage directly or indirectly in any financial transaction resulting from, or primarily relying on, information obtained through his employment.

(e) *Participation in NSF grants by former NSF employees:* In cases not directly coming under the prohibitions of 18 U.S.C. 207 (relating to activities of former Government officials), the following rules shall apply:

(1) Where an employee on leave of absence from his university or other organization has suspended work on an NSF grant to become a Foundation employee, he may resume his work under the grant immediately upon terminating his service with the Foundation. He may also apply at once to the Foundation for support for his resumed activities.

(2) In addition to the statutory bars against ever dealing with the U.S. Government in connection with a particular matter in which he participated personally and substantially while an employee, and against dealing with the Government for 1 year after leaving in connection with a matter under his official responsibility while in the Government, a former regular employee of the Foundation may not negotiate with NSF, with a view to obtaining support for himself or his organization within 1 year after having left NSF, except with the written authorization of the Director.

(3) Former regular employees of the Foundation may not be compensated from an NSF grant directly or indirectly within 1 year of their leaving the Foundation, except with the written permission of the Director.

(f) Gifts, entertainment, and favors: (1) Employees may not solicit or accept directly or indirectly from any person, institution, corporation, or group, anything of economic value as a gift, gratuity, favor, entertainment, or loan, which might be reasonably interpreted by others as being of such a nature that it would affect his impartiality. This is especially applicable in those instances where the employee has reason to believe that the person, institution, corporation, or group:

(i) Has, is seeking, or is likely to seek assistance, support, or funds from the Foundation; or

(ii) Conducts operations or activities which are involved with, or are supported by, the Foundation; or

(iii) Has interests which might be substantially affected by the employee's performance or nonperformance of duties; or

(iv) May be attempting to affect the employee's official actions.

(2) As required by law (5 U.S.C. 113), no employee shall solicit contributions from another employee for a gift to an employee who is a superior. A superior shall not accept a gift obtained from contributions from employees receiving less salary than himself. An employee shall not make a donation as a gift to an employee in a superior position.

(3) Employees are not permitted to accept a gift, or decoration, or other objects from a foreign government unless authorized by Congress as provided by the Constitution and in 5 U.S.C. 114-115A.

(4) Employees may accept promotional material of nominal intrinsic value such as pens, pencils, note pads, calendars, etc. Employees may on infrequent occasions accept items of nominal value such as food in the ordinary course of a luncheon or dinner meeting, site visit, or professional conference when the employee is properly in attendance.

(g) Outside employment: (1) Employees shall not engage in any outside employment or other outside activity not compatible with the full and proper discharge of their Foundation duties and responsibilities. Incompatible activities include, but are not limited to, acceptance of anything of monetary value which may result in or create the appearance of a conflict of interest.

(2) Employees shall not engage in outside employment which tends to impair their health or capacity to discharge acceptably their duties and responsibilities.

(3) Employees shall not receive anything of monetary value from a private source as compensation for their activities as Foundation employees.

(4) Employees shall not engage in teaching, lecturing, or writing which is dependent on official information obtained as a result of Government employment, except when the information has been, or is being made available to the general public, or will be made available to the public on request, or when the Director or Deputy Director gives written authorization for the use of nonpublic information on the basis that the use is in the public interest. However, employees are encouraged to engage in teaching, lecturing, and writing not prohibited by the regulations in this part, by law, or by Executive order.

(5) Employees shall not receive anything of monetary value for any consulting, lecturing, discussion, writing, or presentation, the subject of which is devoted to the responsibilities, programs, or operations of the Foundation, or which draws on official data or ideas which have not become part of the body of public information.

(6) Employees shall not serve as organizers or directors of scientific conferences, colloquia or similar events supported by grant or contract from the Foundation, but may otherwise participate in such events provided they do not receive any compensation or economic benefit for such participation.

(7) Employees shall avoid any action whether or not specifically prohibited which might result in or create the appearance of:

(i) Using public office for private gain;

(ii) Giving preferential treatment to any person;

(iii) Impeding Government efficiency or economy;

(iv) Losing complete independence or impartiality;

(v) Making a Government decision outside official channels; or

(vi) Affecting adversely the confidence of the public in the integrity of the Government.

(8) Employees may, however, participate in the affairs of, and accept an award for meritorious public contribution or achievement given by a charitable, religious, fraternal, educational, recreational, public service, or civic organization.

(h) Advice or assistance to nonprofit or commercial organizations: The conditions under which employees may offer assistance or advice to nonprofit or commercial organizations are set forth in this paragraph (h). Although these conditions are stated as general rules, illustrative applications to specific situations are set forth as an aid to interpretation.

(1) *General rules.* While not on official duty, an employee may provide advice or assistance and receive compensation therefor, to either nonprofit or com-

mercial organizations, provided that such services are unrelated to his activities at the Foundation and do not draw upon information deriving from Government sources not publicly available.

(2) *Specific examples—*(i) *Visiting committees.* Employees should not participate in the deliberations of a college or university visiting committee; however, an employee may meet with such groups as a Foundation official where it would be appropriate to attend a similar meeting with any other comparable group requesting his assistance.

(ii) *Participation in non-Federal research institutions.* Employees may not participate in any way in the policy making or administration of a non-Federal research institution which receives or is eligible to receive funds from a Federal agency.

(iii) *Membership and office holding in professional societies.* An employee may be a member of a professional society, but may not serve as an officer except where the society has not received any support from the Foundation during the preceding three years and the employee has no reason to expect it to seek support during the tenure of his office. If the society later requests support from the Foundation, the employee should resign his office in the society or request permission to remain in such office.

(i) *Misuse of information:* For the purpose of furthering a private interest, employees shall not (except as provided in paragraph (g) (4) of this section) directly or indirectly use, or allow the use of, official information obtained through, or in connection with, his Government employment which has not been made available to the general public.

(j) *Compensation from NSF-awarded funds:* No employee may receive any compensation either directly or indirectly from NSF funds awarded to contractors or grantees.

(k) *Use of Federal property:* No employee may use Federal property or facilities of any kind for other than officially approved activities. Every employee has the responsibility to protect and conserve all Federal property which has been entrusted to him.

(l) *Exercise of notary powers:* Employees who are notaries public may not charge or receive any compensation for performing any notarial act during working hours, including the luncheon period.

(m) *Political activity:* Restrictions in this section are applicable to employees on leave, leave without pay, or furlough, as well as to other regular employees of the Foundation. Individuals whose employment is on an intermittent basis (not occupying a substantial portion of their time) are subject to the political-activities restrictions only while they are in an active-duty status. The period of active-duty status for a particular employee includes the entire 24-hour period of any day of actual employment. The Federal Personnel Manual contains information on such restrictions. Copies of the Federal Personnel Manual may be consulted in the Personnel Office. If an employee is in doubt about permissi-

ble activities, he should contact the Personnel Office for clarifications.

(1) Employees may not use their official positions or influence for the purpose of interfering with an election and they may not take an active part in political management or in political campaigns, except as provided in subparagraphs (4) and (5) of this paragraph.

(2) No employee may discriminate against another employee because of his political opinions or affiliations.

(3) An employee may not become a candidate for nomination or election to a Federal, State, county, or municipal office on a partisan political ticket. Nor may an employee become a candidate as an independent when opposed by a partisan political candidate, except as provided in subparagraph (4) of this paragraph.

(4) Certain political subdivisions in the vicinity of Washington, D.C., as well as other municipalities, designated by the CSC, have been granted a limited exception to the rules prohibiting political management or candidacy for local office. In such municipalities, employees may become candidates as independents, even when opposed by partisan political candidates.

(5) In general, the Foundation encourages employees to be candidates for, and to hold, State, county, or municipal offices of a nonpartisan nature when permitted by law. Employees desiring to be candidates for or to hold a State or local office or to undertake the political management of a candidacy for such office, must first secure the approval of the head of their Division or Office, and then forward their request to the Personnel Officer for approval.

(6) Full-time employees, with the prior consent of the Director, may hold positions under a State or local government on a part-time basis only. Intermittent employees may hold full-time or part-time State or local government positions. In both cases, the above restrictions on political activity must be observed.

(n) An employee shall not participate, while on Government-owned or leased property or while on duty for the Government, in any gambling activity, such as a lottery or the sale or purchase of numbers, etc.

§ 600.735-10 Presenting grievances to Congress.

Nothing in this subpart shall be construed as abridging in any way the right of employees, either individually or collectively, to petition Congress, or any member thereof or to furnish information when appropriate to either House of Congress, or to any committee or member thereof.

Subpart B—Standards of Conduct for Consultants

§ 600.735-20 Purpose.

(a) In order to meet the requirements of the Civil Service Commission pertaining to conflicts of interest and ethical conduct, this subpart prescribes NSF policy and procedures governing all NSF

consultants and shall serve as formal notification of the conditions for serving as consultants. Acceptance of the appointment as consultant signifies that the consultant is subject to and will abide by the conditions set forth in this subpart.

(b) To promote the highest possible standards of honesty, integrity, and impartiality in the conduct of its business, the National Science Foundation conveys to all consultants the regulations in this subpart as an aid in the avoidance of actual or apparent conflicts of interest and misconduct.

§ 600.735-21 Scope.

This subpart applies to every consultant appointed by the National Science Foundation and is based upon the standards of ethical conduct described in Executive Order 11222. For the purpose of this subpart, "consultant" means a person retained, designated, appointed or employed by NSF with or without compensation, to perform temporary duties either in a full-time or intermittent basis, for not to exceed 130 days during any period of 365 consecutive days.

§ 600.735-22 Consultant conduct.

(a) A consultant shall not use his position for the actual or apparent purpose of private gain for himself or another person, particularly one with whom he has family business or financial ties, nor shall he convey inside information (that which has not become part of the body of public information and that would not be available upon request) directly or indirectly to any person for the purpose of private gain for himself or another person, particularly one with whom he has family business or financial ties.

(b) A consultant shall not, either for or without compensation, engage in teaching, lecturing, or writing that is dependent on information obtained as a result of his Government employment, except when that information has been made available to the general public or will be made available on request, or when the Director gives written authorization for the use of nonpublic information on the basis that the use is in the public interest.

(c) A consultant shall not use his position with the Foundation to coerce or give the appearance of coercing a person to provide private gain for himself or another person.

(d) A consultant shall not, in connection with his NSF duties, receive or solicit from anyone having business with the Foundation anything of value such as a gift, gratuity, loan, or entertainment for himself or another person. (This does not prohibit the infrequent acceptance of unsolicited advertising or promotional materials of nominal value such as pens, note pads, or calendars, or the acceptance of food or refreshments of nominal value characteristic of luncheon or dinner meetings.)

(e) A consultant shall adhere to the same standards of conduct made applicable to employees of the National Science Foundation by § 600.735-9 (a) through (d), (f), and (k) through (n).

§ 600.735-23 Statements of employment and financial interests.

(a) At the time of appointment, each consultant shall complete and submit to the Personnel Office, National Science Foundation, the form entitled "Statement of Employment and Financial Interests." Present consultants must submit such statement not later than June 30, 1966. It is necessary that the consultant report all Federal and non-Federal employment, as well as those financial interests which relate either directly or indirectly to his Foundation duties or responsibilities. Inquiries as to whether financial interests relate directly or indirectly to his duties or responsibilities should be directed to the Conflicts-of-Interest Counselor, National Science Foundation.

(b) Consultants are not required to submit information relating to their financial interests in any professional society not conducted as a business enterprise as described in the next sentence, charitable, religious, social, fraternal, recreational, public service, civic, political, or similar organization not conducted as a business enterprise. Professional societies, educational institutions and other nonprofit organizations engaged in research, development, or related activities involving grants of money from, or contracts with, the Government are deemed "business enterprises" and are required to be included in consultants' statements of employment and financial interests.

(c) Each consultant must file a supplementary statement of employment and financial interests whenever a significant change occurs in either employment or financial interests to keep his record current.

(d) All original and supplementary statements of employment and financial interests will be held in strictest confidence. Information will not be disclosed from the statement except as the Civil Service Commission or the Director may authorize for good cause shown.

(e) It should be noted that the statements of employment and financial interests and supplementary statements required of consultants are in addition to, and are not in substitution for, or in derogation of, any similar requirement imposed by law, regulation, or Executive order. The submission of the statement or supplementary statement by a consultant does not permit him or any other person to participate in any matter in which his or the other person's participation is prohibited by law, regulation, or Executive order. It is the responsibility of each consultant to acquaint himself with the relevant statutes. A listing of such statutes is provided in the Appendix to this part. Upon request, the Personnel Office, National Science Foundation will provide excerpts of pertinent portions of these statutes.

§ 600.735-24 Resolution of possible conflicts-of-interest situations.

(a) The Conflicts-of-Interest Counselor of the Foundation is available to provide advice and guidance to each con-

sultant requiring counsel regarding possible conflicts-of-interest situations and will offer the consultant an opportunity to explain any conflict or appearance of conflict. Whenever a consultant has reason to believe that a present or proposed activity or financial interest of his might conflict or might appear to conflict with Government statutes or regulations, he should bring the matter to the attention of the Conflicts-of-Interest Counselor. The Conflicts-of-Interest Counselor will discuss such matters with the consultant, as well as any other possible conflicts-of-interest situations revealed by the statement of employment and financial interests.

(b) Conflicts-of-interests situations that can not be resolved through their discussions will be presented to the General Counsel, who, if necessary, will refer the matter to the Director of the Foundation for resolution. In rare cases when it is not possible to resolve the conflict-of-interest situation by changing the consultant's duties or by his divesting himself of his conflicting interest, it may be necessary to request he resign his appointment.

Cancellation. This part cancels NSF Circular No. 12, "Policy Respecting Conflicts of Interest and Related Matters," dated July 2, 1964, NSF Circular No. 13, "Establishment of a Conflicts-of-Interest Advisory Panel; Referral of Matters Involving Possible Conflicts of Interest of Foundation Staff Members," dated July 2, 1964, and NSF Circular No. 47, "Conduct," dated March 29, 1965.

This Part 600 was approved by the Civil Service Commission on February 4, 1966.

Effective date. This Part 600 shall become effective upon publication in the FEDERAL REGISTER.

Dated: March 10, 1966.

Proposed Rule Making

FEDERAL AVIATION AGENCY

[14 CFR Part 71]

[Airspace Docket No. 66-CE-17]

TRANSITION AREA

Proposed Designation

The Federal Aviation Agency is considering an amendment to Part 71 of the Federal Aviation Regulations which would designate controlled airspace in the Gaylord, Mich., terminal area.

A public use instrument approach procedure is planned for the Otsego County Airport, Gaylord, Mich. No controlled airspace presently exists in the Gaylord, Mich., terminal area.

The Federal Aviation Agency, having completed a comprehensive review of the terminal airspace structural requirements in the Gaylord, Mich., terminal area, proposes the following airspace action:

Designate the Gaylord, Mich., transition area as that airspace extending upward from 700 feet above the surface within a 6-mile radius of the Otsego County Airport (latitude 45°01'00" N., longitude 84°41'30" W.), and within 2 miles each side of the 087° bearing from Otsego County Airport extending from the 6-mile radius area to 8 miles E of the airport; and that airspace extending upward from 1,200 feet above the surface within 8 miles N and 5 miles S of the 087° bearing from Otsego County Airport extending from the airport to 12 miles E of the airport and within 5 miles each side of the 304° bearing from Otsego County Airport extending from the airport to V-193.

The proposed 700-foot floor transition area will provide protection for aircraft executing the prescribed instrument approach and departure procedures. The 1,200-foot floor transition area will provide protection for the procedure turn and holding pattern areas of the proposed instrument approach procedure, and for transition between Otsego County Airport and V-193.

The proposed instrument approach procedure will become effective concurrently with the designation of the proposed transition area.

Since the proposed transition area was developed to provide controlled airspace protection for a new approach procedure, no procedural changes would be affected by the proposal.

Specific details of the new approach procedure for Otsego County Airport and of the proposal contained herein may be examined by contacting the Chief, Airspace Branch, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued at Kansas City, Mo., on March 7, 1966.

DONALD S. KING,

Acting Director, Central Region.

[14 CFR Part 71]

[Airspace Docket No. 66-CE-18]

TRANSITION AREA

Proposed Designation

The Federal Aviation Agency is considering an amendment to Part 71 of the Federal Aviation Regulations which would designate controlled airspace in the Connersville, Ind., terminal area.

The Federal Aviation Agency has completed a comprehensive review of the terminal airspace structural requirements in the Connersville terminal area. As a result of the planned establishment of an "MH" facility by the city of Connersville to serve Mettel Airport and the development of a public-use instrument approach procedure using this facility, the Federal Aviation Agency proposes the following airspace action:

Designate the Connersville, Ind., transition area as that airspace extending upward from 700 feet above the surface within a 6-mile radius of the Mettel Airport (latitude 39°41'50" N., longitude 85°07'51" W.), and within 2 miles each side of the 015° bearing from the Mettel

Airport extending from the 6-mile radius area to 8 miles north of the airport.

The proposed transition area will provide protection for departing aircraft during climb from 700 to 1,200 feet above the surface and will also provide protection for aircraft executing the prescribed instrument approach procedure during descent from 1,500 to 700 feet above the surface.

The controlled airspace proposed herein will underlie the Richmond, Ind., 1,200-foot transition area.

The floor of the airway that would traverse the transition area proposed herein will automatically coincide with the floor of the transition area.

Since the proposed transition area was developed to provide controlled airspace protection for a new approach procedure, no procedural changes would be affected by the proposal.

Specific details of the new approach procedure for Mettel Airport and of the proposal contained herein may be examined by contacting the Chief, Airspace Branch, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, ATTN: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued at Kansas City, Mo., on March 7, 1966.

DONALD S. KING,

Acting Director, Central Region.

[16 CFR Part 59]

LIME INDUSTRY

Proposed Revocation of Trade Practice Rules

Notice is hereby given that pursuant to the Federal Trade Commission Act, as amended, 15 U.S.C. 41, et seq., and provisions of Part 1, Subpart F, of the Commission's procedures and rules of practice (July 1963), the Federal Trade Commission proposes to revoke the Trade Practice Rules for the Lime Industry promulgated October 31, 1931.

Interested or affected parties may submit their views, suggestions, objections, or other information concerning the proposed revocation to the Chief, Division of Trade Practice Conferences and Guides, Bureau of Industry Guidance, Federal Trade Commission, Sixth Street and Pennsylvania Avenue NW., Washington, D.C., 20580, in writing not later than April 18, 1966. Due consideration will be given by the Commission to all comments received before final action is taken in this matter.

Approved: March 7, 1966.

INTERSTATE COMMERCE COMMISSION

[Notice No. 893]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FOR- WARDER APPLICATIONS

MARCH 11, 1966.

The following applications are governed by Special Rule 1.247¹ of the Commission's general rules of practice (49 CFR 1.247), published in the FEDERAL REGISTER, issue of December 3, 1963, effective January 1, 1964. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with § 1.40 of the general rules of practice which requires that it set forth specifically the grounds upon which it is made and specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and six (6) copies of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such request shall meet the requirements of § 1.247 (d)(4) of the special rule. Subsequent assignment of these proceedings for oral hearing, if any, will be by Commission order which will be served on each party of record.

The publications hereinafter set forth reflect the scope of the applications as filed by applicants, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

No. MC 22229 (Sub-No. 39) (Amendment), filed August 30, 1965, published FEDERAL REGISTER issue of September 15, 1965, amended January 27, 1966, republished as amended February 25, 1966, further amended March 4, 1966 and republished as further amended this issue. Applicant: TERMINAL TRANSPORT COMPANY, INC., 248 Chester Avenue

SE., Atlanta, Ga. Applicant's representative: Guy H. Postell, Suite 693, 1375 Peachtree Street NE., Atlanta, Ga., 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes: (13) Between Detroit, Mich., and junction U.S. Highways 10 and 24 (approximately two miles northwest of Clarkston, Mich.) over U.S. Highways 10 and 24; (14) between Maumee, Ohio and Flint, Mich., over U.S. Highway 23, serving no intermediate points (except those which are already authorized); (15) between Indianapolis, Ind., and Fort Wayne, Ind., from Indianapolis over Indiana Highway 67 to junction Interstate Highway 69 near Pendleton, Ind., thence over Interstate Highway 69 to Fort Wayne, and return over the same route, serving no intermediate points; (16) between Louisville, Ky., and Cincinnati, Ohio, from Louisville, Ky., over Interstate Highway 64 to Lexington, Ky., thence over Interstate Highway 75 to Cincinnati, Ohio, and return over the same route, serving no intermediate points; (17) between Elizabethtown, and Lexington, Ky., over a toll road known as Blue Grass and/or Central Kentucky Parkway, serving no intermediate points. NOTE: (A) Applicant states: (1) It does not seek authority to provide any local service between Indianapolis, Ind., and Cincinnati, Ohio, on the one hand, and, on the other, any points in Michigan; (2) it does not propose to provide any service on shipments which both originate and terminate at any points sought by this application in Michigan; (3) it does not propose to receive a shipment in interchange service at any point in Michigan which is destined to another point in Michigan it seeks to serve; and (4) it does not seek to originate a shipment in Michigan for interchange at any other point in Michigan. (B) Applicant proposes to serve every point it is presently authorized to serve in MC 22229 and all subs thereto. The purpose of this republication is to add routes (13) through (17) to the previous publication and to eliminate language which does not quite express the intent of the application concerning operations between Chicago, Ill., Indianapolis, Ind., and Cincinnati, Ohio, on the one hand, and, on the other, points in Michigan, as applicant does propose to "operate" between said points but provide no "service." If a hearing is deemed necessary, applicant requests first hearing at Jacksonville, Fla., and conclusion at Detroit, Mich.

ALCOHOLIC BEVERAGES AND OTHER ARTICLES

Certain Exemptions for Returning Residents

Circular BAG-5-EV of March 11, 1966, set forth below, concerns the application of items 813.30 and 813.31 of the Tariff Schedules of the United States to alcoholic beverages and other articles sold to passengers on board cruise or other vessels in the territorial waters of the Virgin Islands of the United States, American Samoa, or Guam.

[SEAL]

EDWIN F. RAINS,
Acting Commissioner of Customs.

TREASURY DEPARTMENT

BUREAU OF CUSTOMS

[Circular BAG 5-EV]

WASHINGTON, D.C.

MARCH 11, 1966.

To: Regional Commissioners, District Directors, Director, Field Audit, Regional Counsels, Other Principal Customs Field Officers.

Subject: BAGGAGE; Sale of articles to passengers on board cruise or other vessels in the Virgin Islands, American Samoa, or Guam.

References: Items 813.30 and 813.31, Tariff Schedules of the United States.

1. *Purpose.* To advise customs field officers that alcoholic beverages or other articles brought to the Virgin Islands of the United States, to American Samoa, or to Guam as a part of the arriving vessel's stores or cargo and sold to passengers on board the vessel in territorial waters of the insular possession are considered to have been acquired by the passengers elsewhere than in the possession under items 813.30 and 813.31, Tariff Schedules of the United States.

2. *Background.* a. A customs field officer reports that alcoholic beverages withdrawn duty and/or tax free under section 309(a) of the Tariff Act of 1930, as amended, for use as supplies on a cruise ship are repacked during the cruise into "five pack" cartons. When the vessel arrives at St. Thomas, Virgin Islands of the United States, the five pack cartons are offered for sale on board to the passengers, presumably with the idea that the United States-resident purchasers may desire to return them to the United States and claim free entry therefor under §§ 813.30 and 813.31 of the Tariff Schedules of the United States.

b. The purpose of the increased exemption for persons visiting the Virgin Islands of the United States, American Samoa, or Guam is to encourage tourist travel in those islands which depend importantly on tourist

trade for their economic development. The tourist trade is described as the mainstay of the economy of the Virgin Islands of the United States and measures have been taken to develop tourism in American Samoa and Guam. The 1-gallon allowance for alcoholic beverages for residents returning from these islands is intended to provide an inducement to visitors to nearby areas to also visit the islands.

3. *Action.* For purposes of items 813.30 and 813.31 of the Tariff Schedules of the United States, alcoholic beverages or other articles brought to the Virgin Islands of the United States or to American Samoa or Guam as a part of the arriving vessel's stores or cargo and sold to passengers on board the vessel in territorial waters of the islands are deemed to have been acquired by the passengers elsewhere than in the Virgin Islands of the United States, American Samoa or Guam. Customs officers shall be governed accordingly.

4. *Effective date.* This instruction shall apply with respect to persons arriving in the United States on and after March 21, 1966.

EDWIN F. RAINS,
Acting Commissioner of Customs.

[Public Announcement 37]

COLUMBIA BASIN PROJECT, WASHINGTON

Public Announcement of Sale of Farm Units Suitable for Settlement Purposes

MARCH 7, 1966.

LANDS COVERED

SECTION 1. *Offer of farm units for sale.* It is hereby announced that certain farm units in the Columbia Basin Project,

Irrigation block	Farm unit	Gross acres	Tentative irrigation acreage				Non-irrigation	Price
			Total	CI 1	CI 2	CI 3		
21	44	154.4	145.6	142.0	3.6		8.8	\$4,478.60

48	24	141.2	124.1	69.6	54.5		17.1	3,492.85

b. *Additional farm units.* If, through the operation of its land acquisition program, the United States should, following the date of this announcement and prior to the date on which the first farm unit is offered for selection to an applicant under the provisions hereof, own additional farm units in the Columbia Basin Project which are suitable for settlement purposes and which are scheduled to receive water before the close of the 1966 irrigation season, such farm units may be offered for sale under the provisions of this announcement.

The revised plats of Irrigation Blocks 21 and 48 are on file in the offices of the Bureau of Reclamation at Ephrata, Wash., and Boise, Idaho. The prices of the farm units are subject to minor changes which may result from adjustments in the irrigable acreages due to changes in rights-of-way or other causes.

PREFERENCE OF APPLICANTS

SEC. 2. *Nature of preference.* Except for a prior preference given applicants for exchange under the provisions of the Act of August 13, 1953 (67 Stat. 566), who are hereinafter called "exchange applicants", preference right to purchase the farm units described above will be given to persons who submit applications during a 45-day period beginning at 2 p.m., March 22, 1966, and ending at 2 p.m., May 6, 1966.

QUALIFICATIONS REQUIRED OF PURCHASERS

SEC. 3. *Examining board.* An examining board of three members has been appointed by the Regional Director to determine the qualifications and fitness

Washington, will be sold to qualified applicants in accordance with the provisions of this announcement. Applications for farm units may be submitted beginning at 2 p.m., March 22, 1966.

In order to permit the continued orderly development and settlement of project lands, this public announcement is issued irrespective of there being pending applications for exchange pursuant to the Act of August 13, 1953 (67 Stat. 566).

a. *Farm units presently owned by the United States.* The farm units which are presently owned by the United States and hereby offered for sale are described as follows:

of applicants to undertake the purchase, development, and operation of a farm on the Columbia Basin Project. The Board will make careful investigations to verify the statements and representations made by applicants. Any false statements may constitute grounds for rejection of an application and cancellation of the applicant's right to purchase a farm unit.

SEC. 4. *Minimum qualifications.* Certain minimum qualifications have been established which are considered necessary for the successful development of farm units. Applicants, unless qualified exchange applicants, must, in the judgment of the examining board, meet these qualifications in order to be eligible for the purchase of farm units. Failure to meet them in any single respect will be sufficient cause for rejection of an application. No credit will be given for qualifications in excess of the required minimum. The minimum qualifications are as follows:

a. *Character and industry.* An applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, record of good moral conduct, and a bona fide intent to engage in farming as an occupation.

b. *Farm experience.* Except as otherwise provided in this subsection, an applicant must have had a minimum of 2 years (24 months) of full-time farm experience, which shall consist of participation in actual farming operations after reaching the age of 17 years. At least 1 year of such experience must have been obtained after a date 5 years prior to the date of this announcement. Except for the above-mentioned 1 year of

recent farm experience, time spent in agricultural courses in an accredited agricultural college or time spent in work closely associated with farming, such as teaching vocational agriculture, agricultural extension work, or field work in the production or marketing of farm products, which in the opinion of the Board will be of value to an applicant in operating a farm, may be substituted for full-time experience. Such substitution shall be on the basis of 1 year (academic year of at least 9 months) of agricultural college courses or 1 year (12 months) of work closely associated with farming for 6 months of full-time farm experience. Not more than 1 year of full-time experience of this type will be allowed.

Applicants who have acquired their experience on an irrigated farm will not be given preference over those whose experience was acquired on a nonirrigated farm, but all applicants must have had farm experience of such nature as in the judgment of the examining board will qualify the applicant to undertake the development and operation of an irrigated farm by modern methods.

c. *Health.* An applicant must be in such physical condition as will enable him to engage in normal farm labor.

d. *Capital.* Applicants must possess in excess of liabilities either (1) at least \$7,500 in cash or (2) various assets amounting to at least \$8,500. No value will be allowed for a passenger car or household goods. At the time he moves to the Project to take possession of the farm unit selected, the applicant must reestablish to the satisfaction of the Project Manager that he possesses in excess of liabilities either (1) at least \$7,500 in cash or (2) at least \$5,000 in cash plus \$3,500 in property such as livestock, farm machinery, or equipment which, in the opinion of the Board and the Project Manager, will be useful in the development and operation of a new, irrigated farm on the Columbia Basin Project. Before executing a land sale contract and acquiring the right of possession of the farm unit, the purchaser must establish, to the satisfaction of the Project Manager, that he has moved to the Project to take possession of the farm unit selected and reestablished his net worth as required above, except that the amount paid as an earnest money deposit can be credited as part of the assets making up the applicant's net worth.

Sec. 5. *Other qualifications required.* Each applicant must meet the following requirements:

a. Be a citizen of the United States or have declared an intention to become a citizen of the United States.

b. Not own outright, or be acquiring under a contract to purchase, more than 10 acres of cropland or a total of 160 acres of land at the time of execution of a purchase contract for a farm unit.

c. Not previously have purchased a farm unit from the United States under provisions of the Reclamation Law, excepting therefrom actions under the Act of August 13, 1953.

d. Not own outright, or be acquiring under a contract to purchase, a farm unit

or water delivery unit on the Columbia Basin Project.

e. If a married woman or a person under 21 years of age who is not a veteran with acceptable service, be the head of a family. The head of a family is ordinarily the husband, but a wife or a minor child who is obliged to assume major responsibility for the support of a family may be the head of a family.

WHERE AND HOW TO SUBMIT AN APPLICATION

Sec. 6. *Filing application blanks.* Any person desiring to apply for a farm unit offered for sale by this announcement must fill out the attached application blank and file it with the Bureau of Reclamation, Ephrata, Wash., in person or by mail. Additional application blanks may be obtained from the office of the Bureau of Reclamation at Ephrata, Wash.; Boise, Idaho; or Washington, D.C. No advantage will accrue to an applicant who presents an application in person. Each application submitted, including the evidence of qualification to be submitted following the public drawing, will become a part of the records of the Bureau of Reclamation and cannot be returned to the applicant.

SELECTION OF QUALIFIED APPLICANTS

Sec. 7. *Priority of applications.* All applications, except those received from qualified exchange applicants prior to 2 p.m., May 6, 1966, which shall be given prior preference, will be classified for priority purposes as follows:

a. *First group.* All complete applications filed prior to 2 p.m., May 6, 1966. Such applications will be treated as simultaneously filed.

b. *Second group.* All complete applications filed prior to 2 p.m., May 6, 1966. Such applications will be considered in the order in which they are filed if within 2 years following the date of this announcement any farm units offered hereunder are available for sale after all timely applications have been processed.

Sec. 8. *Public drawing.* After the close of the simultaneous filing period, the Board will conduct a public drawing of the names of the applicants in the first group, as defined in subsection 7.a. of this announcement. Applicants need not be present at the drawing to participate therein. The names of a sufficient number of applicants (not less than four times the number of farm units offered for sale) shall be drawn and numbered in the order drawn for the purpose of establishing the order in which the applications drawn will be examined by the Board to determine whether the applicants meet the minimum qualifications prescribed in this announcement and to establish the priority of qualified applicants for the selection of farm units. After such drawing, the Board will notify each applicant of his respective standing as a result of the drawing.

Sec. 9. *Submission of evidence of qualification.* After the drawing, a sufficient number of applicants, in the order of their priority as established by the drawing, will be supplied with forms on which to submit evidence of qualification showing that they meet the qualifi-

cations set forth in sections 4 and 5 of this announcement. Full and accurate answers must be made to all questions. The completed form, together with any attachments required, must be mailed or delivered to the Bureau of Reclamation, Ephrata, Wash., within 20 days of the date the form is mailed to the last address furnished by the applicant. Failure of an applicant to furnish all of the information requested or to see that information is furnished by his references within the time period specified will subject his application to rejection.

Sec. 10. *Examination and interview.* After the information outlined in section 9 of this announcement has been received or the time for submitting such statements has expired, the Board shall examine in the order drawn a sufficient number of applications, together with the evidence of qualification submitted, to determine the applicants who will be permitted to purchase farm units. This examination will determine the sufficiency, authenticity, and reliability of the information and evidence submitted by the applicants. If the applicant fails to supply any of the information required or the Board finds that the applicant's qualifications do not meet the requirements prescribed in this announcement, the applicant shall be disqualified and shall be notified by the Board, by certified mail, of such disqualification and the reasons therefor and of the right to appeal to the Regional Director, Region 1, Bureau of Reclamation. All appeals must be received in the office of the Project Manager, Bureau of Reclamation, Ephrata, Wash., within 15 days of the applicant's receipt of such notice or, in any event, within 30 days from the date when the notice is mailed to the last address furnished by the applicant. The Project Manager will promptly forward the appeal to the Regional Director.

If the examination indicates that an applicant is qualified, the applicant may be required to appear for a personal interview with the Board for the purposes of: (1) Affording the Board any additional information it may desire relative to his qualifications, (2) affording the applicant any information desired relative to conditions in the area and the problems and obligations relative to development of a farm unit; and (3) affording the applicant an opportunity to examine the farm units.

If an applicant fails to appear before the Board for a personal interview on the date requested, he will thereby forfeit his priority position as determined by the drawing. If the Board finds that an applicant's qualifications fulfill the requirements prescribed in this announcement, such applicant shall be notified, in person or by certified mail, that he is a qualified applicant and shall be given an opportunity to select one of the farm units available then for purchase. Such notice will require the applicant to make a field examination of the farm units available to him and in which he is interested, to select a farm unit, and to notify the Board of such selection within the time specified in the notice.

SELECTION OF FARM UNITS

SEC. 11. *Order of selection.* The applicants who have been notified of their qualification for the purchase of a farm unit will successively exercise the right to select a farm unit in accordance with the priority established by the drawing. If a farm unit becomes available through failure of a qualified applicant to exercise his right of selection or failure to complete his purchase, it will be offered to the next qualified applicant who has not made a selection at the time the unit is again available. An applicant who is considered to be disqualified as a result of the personal interview will be permitted to exercise his right to select, notwithstanding his disqualification, unless he voluntarily surrenders this right in writing. If, on appeal, the action of the Board in disqualifying an applicant as a result of the personal interview is reversed by the Regional Director, the applicant's selection shall be effective, but if such action of the Board is upheld by the Regional Director, the farm unit selected by this applicant will become available for selection by qualified applicants who have not exercised their right to select.

If any of the farm units listed in this announcement remain unselected after all qualified applicants whose names were selected in the drawing have had an opportunity to select a farm unit and if additional applicants remain in the first group, all said remaining applicants will be advised by the Board as to the number and nature of the unsold units. If any of the applicants so advised wish to be considered for the possible purchase of one of the remaining units, they must so advise the Board in writing within 20 days of the date of the notice. The Board will consider, in the order of their selection priority as established by drawing, only those applicants who make affirmative reply within the period stipulated.

If any farm units remain unselected after all qualified applicants in the first group have had an opportunity to select a farm unit and if not more than 2 years have elapsed since the date of this announcement, such farm units will be offered to applicants in the second group in the order in which their applications are filed, subject to the determination of the Board, made in accordance with the procedure prescribed herein, that such applicants meet the minimum qualifications prescribed in this announcement.

If any farm units offered by or under this announcement remain unsold for a period of 2 years following the date of this announcement, the Project Manager may designate them as supplemental units and sell them in accordance with established policies and procedures, including preference to resident Project landowners.

SEC. 12. *Failure to select.* If any applicant, except a qualified exchange applicant, refuses to select a farm unit or fails to do so within the time specified by the Board, such applicant shall forfeit his priority to select.

PURCHASE OF SELECTED UNIT

SEC. 13. *Execution of earnest money agreement and land sale contract.* When a farm unit is selected by an applicant as provided in section 11 of this announcement, the Project Manager will promptly give the applicant a written notice confirming the availability to him of the unit selected and will furnish an earnest money agreement together with instructions concerning its execution and return. In that notice, the Project Manager will inform the applicant of the amount of his down payment and the amount of the irrigation charges assessed by the irrigation district or, if such charges have not been assessed, of an estimate of the amount of the charges for the first year of the development period, to be deposited with the irrigation district.

The earnest money agreement will require the applicant to deposit \$200 or 5 percent of the purchase price of the farm, whichever amount is greater, with the Project Manager. The amount deposited with the earnest money agreement will be applied to the down payment if the applicant (1) submits proof that he has moved to the Columbia Basin Project before March 1 of the year water is first declared available to the irrigation block in which the farm unit is located or within 6 months of the earnest money agreement, whichever is later, and possesses the minimum capital assets required under subsection 4.d., (2) pays the real or estimated amount of the irrigation charges which will be required by the irrigation district for the first year of the development period following the date of contract, (3) pays the remainder of the required down payment on the purchase price of the farm unit, and (4) executes a land sale contract in accordance with the Project Manager's instructions. If the applicant fails to comply with any of the four requirements described in this paragraph, he will forfeit his right to purchase the farm unit and the amount he has deposited as earnest money will be retained by the United States as liquidated damages.

When the applicant submits proof to the Project Manager or his representative that he has moved to the Project to take possession of the farm unit and that he possesses the minimum capital assets required under subsection 4.d., the Project Manager will promptly furnish the applicant the necessary land sale contract together with instructions concerning its execution and return. Such proof shall be in the form of an affidavit that he has actually moved to the Project area, a current financial statement, and where appropriate, a personal inspection of farm equipment by a representative of the Project Manager.

If the purchase is made subsequent to July 1 of any year during the development period, a deposit may be required to cover payment of water charges for the balance of that year as well as for the year following the purchase.

SEC. 14. *Terms of sale.* Contracts for the sale of farm units offered pursuant to this announcement will contain,

among others, the following principal provisions:

a. *Down payment.* An initial or down payment of \$400 or 10 percent of the purchase price of the lands being purchased from the United States, whichever is larger, will be required. Larger proportions or the entire amount of the price may be paid initially at the purchaser's option.

b. *Schedule for payment of balance: interest rate.* If only a portion of the purchase price is paid initially, the remainder will be payable within a period of 20 years following the date of the contract. No payments on the principal, except the downpayment, will be required during the first 3 years, and the Project Manager may postpone such payments for as long as the first 5 years of the contract. Interest will be charged at the rate of $4\frac{1}{2}$ percent per annum on the unpaid balance. When payments on the principal are resumed, they will be payable each year. The schedule of principal payments, which will be established by the Project Manager, will provide for relatively small payments during the first years and larger payments during the later years of the contract period. Payment of any or all installments, or any portion thereof, may be made before their due dates at the purchaser's option.

c. *Development requirements.* In order that the irrigable area of the entire farm unit shall be developed with reasonable dispatch, each purchaser will be required, as a minimum, to clear, level, irrigate, and plant to crops by the end of each of the calendar years indicated below and to maintain in crops thereafter the following percentages of irrigable land as tentatively or finally classified:

Percentage of land classified tentatively or finally as irrigable to be developed by end of each year. (Period will begin with year of purchase if contract is executed and water is available on or before May 1 of that year; otherwise period will begin with the next calendar year.)

2d year	3d year	4th year	5th year
Percent 35	Percent 50	Percent 65	Percent 75

d. *Residence requirements.* A major objective of the settlement program for the Columbia Basin Project is to assist and encourage the permanent settlement of farm families. In keeping with this objective, each purchaser will be required to do the following with respect to residence: (1) Within 1 year from the date of his contract or by March 1 of the year water is first declared available to the irrigation block in which the farm unit is located, whichever is later, he must initiate residence by actually moving onto the unit, such residence to be maintained by living thereon for not less than 12 months within an 18-month period following the initial date of residence, and (2) before receiving title to the unit under the land sale contract, to establish a permanent and habitable dwelling on the unit. The time for compliance with the initiation of residence may be extended by the Project Manager for pe-

riods of as long as 6 months, upon his determination that an extension is necessary to avoid undue hardship to the purchaser and that it will not be detrimental to the orderly development of the irrigation block. The latest permissible date for initiating residence, however, will not be extended for more than 1 year in addition to the 1-year period specified above.

e. *Possession.* The purchaser may take possession of the lands being purchased when he has complied with the requirements described in section 13 and the land sale contract has been executed by the Project Manager for the United States, except that if a farm unit is under lease when sold possession may not be taken until the end of the period for which the unit is leased. Such leases occur infrequently and are of not more than 1 year's duration.

f. *Copies of contract form.* The terms listed above and all other standard contract provisions are contained in the land sale contract form, copies of which may be obtained by writing to the Bureau of Reclamation, Ephrata, Wash.

IRRIGATION CHARGES

Sec. 15. *Water rental charges.* In Irrigation Blocks 21 and 48 some construction activities will be continuing and the system will be tested during the irrigation season of 1966. However, it is expected that water will be furnished on a temporary rental basis to those desiring it. The terms of payment, which will be at a fixed rate per acre-foot of water used, will be announced by the Project Manager before the beginning of the irrigation season.

Sec. 16. *Development period charges.* Pursuant to the provisions of the repayment contracts of October 9, 1945, as amended, between the United States and the three irrigation districts of the Columbia Basin Project, the Secretary of the Interior will establish a 10-year development period for each irrigation block, during which time payment of construction charge installments will not be required. The Secretary will announce the development period for Irrigation Blocks 21 and 48 when the testing of the irrigation facilities gives assurance that the development period can begin.

During the development period, water rental charges, except as pointed out later in this section, will average an estimated \$6.90 per year for each irrigable acre as tentatively or finally classified. This figure is an estimate and is subject to adjustment when the actual costs are determined. In any event, there will be a minimum charge per farm unit each year whether or not water is used. A notice establishing the details of the plan to be followed and announcing charges and governing provisions for the first year of the development period will be issued prior to January 1 of that year by the Project Manager.

The present plans are: (1) To vary the minimum charge according to the anticipated relative repayment ability of the various land classes; (2) to increase the minimum charge from 70 percent of the

estimated cost for the first year to about 115 percent for the later years of the development period; and (3) to charge for water in excess of the amount furnished for the minimum charge on an acre-foot basis. The minimum charge will entitle each user to a quantity of water, to be specified by the Project Manager, varying with the water requirement classification of the land and the size of the farm unit. In addition to the water rental charges, the irrigation district will levy a charge to cover administrative costs and probable delinquencies in collections and to accumulate reserve funds.

Sec. 17. *Construction period repayment charges—*a. *Operation and maintenance charges.* After the development period has ended, water users will pay a charge for operation and maintenance of the Project irrigation system which will be uniform for the irrigation blocks throughout the irrigation district. These charges may be graduated among land classes, and there will be an annual minimum charge per acre. In order to encourage careful use of water, present regulations require that this annual minimum charge will entitle the water user to one-half acre-foot of water per acre less than the amount of water normally required. The normal requirements for the various classes of land will be determined and announced as provided in the repayment contracts with the irrigation districts. Water in excess of the quantity covered by the minimum charge will be paid for on an acre-foot basis.

b. *Construction charges.* The amended repayment contracts between the United States and the irrigation districts require the payment of construction charges for the Project irrigation system during the 50 years following the end of the development period. Under the repayment contracts as amended, the total construction repayment obligation averages \$131.60 per irrigable acre, which includes construction of authorized drainage works. The contracts further provide that the construction charges shall be graduated according to the relative repayment ability of the land; consequently the charge per irrigable acre will be higher for the better lands than for the poorer lands.

[Docket No. 17093; Order E-23349]

AMERICAN AIRLINES, INC.

Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of March 1966.

Exception to the minimum charge per shipment proposed by American Airlines, Inc., Docket 17093.

By tariff revisions bearing the posting date of February 9, 1966, and marked to

become effective March 26, 1966, American Airlines, Inc. (American) proposes an exception to its current minimum charge per shipment for general commodities. American's current minimum charge is \$6.00 per shipment where the rate for shipments under 100 pounds is 12 cents per pound or less and the charge for 50 pounds where the rate for shipments under 100 pounds is 13 cents per pound or more. The carrier's proposal would make the minimum charge \$6.00 per shipment regardless of the rate per pound provided that the consignee receives, at the same address, 10 or more shipments tendered to the carrier on the same date for local transportation via American, and weighing 500 pounds or more, and that the transportation charges are paid by consignee. In order to obtain the foregoing charge, the consignee must present to the carrier copies of the waybills within 7 days from the date on which the shipment is delivered to the consignee. The proposal is to expire by its own terms with March 25, 1967.

In support of its proposal American declares that its purpose is to effect reductions in minimum charges in markets involving medium and long hauls for certain consignees receiving shipments from a number of different points and thus to attract to air transportation a significant volume of traffic currently moving via surface; that the current minimum charges are relatively high for shipments below 50 pounds, preventing such shipments from moving by air; that the limitation of the proposal to consignees receiving 10 or more shipments on a single day would minimize dilution of present minimum charges; that certain tariff requirements (that consignees pay the charges and are responsible for tallying the number of shipments and presenting the airbills to the carrier) are inserted to make the provision practicable; and that the expiry date will enable American to determine the number of shippers using the proposed rule, the volume of traffic, and the cost of administration.

Complaints requesting investigation and suspension have been filed by The Flying Tiger Line, Inc. (Tiger) and Trans World Airlines, Inc. (TWA). These complaints variously allege that the proposal involves significant reductions in rates not justified by cost savings; and that the proposal would involve undue discrimination and preference in favor of certain consignees, although their shipments are no larger than those received by other consignees.

Upon consideration of the complaints and other relevant matters, the Board finds that the proposed tariff revisions may be unjust, unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated. The proposal results in a reduced charge for shipments from a number of different origins to the same destination. The costs of transporting each of the 10 or more shipments, however, would be the

same between the foregoing pairs of points as for similar shipments having no relation to each other. American does not claim that the proposed reductions in charges would in any way reflect any cost savings to the carrier.

American asserts that the air freight minimum charges for shipments under 50 pounds are so high in medium- and long-haul markets as to discourage movement by air. In an answer filed to the foregoing complaints, the carrier states that one shipper promised that, as a result of the proposal, it would divert 3.4 million pounds of freight, consisting of 1.2 million pounds of minimum charge freight and of 2.2 million pounds of larger shipments from surface to air. In its answer American also declares that its proposal is no more discriminatory than promotional rates generally. Promotional rates, however, typically involve types of movements the volumes of which are particularly responsive to rate reductions. In contrast, American's justification of the limitation of its proposed reduced charge to shippers with numerous consignments is that it will minimize dilution of present minimum charges. However, American does not claim, nor is there any valid basis for assuming, that such shippers are more likely to divert their consignments to air transportation than other shippers. It appears that a reduction in minimum charges should not be made in a manner that will prefer one of these segments of the shipping public over another. For American to reduce minimum charges for shippers receiving 10 or more consignments in the absence of a demonstrated cost savings for these kinds of shippers, only would result in a situation involving discrimination, preference, or prejudice. In view of the foregoing, the Board will suspend the proposal pending investigation.

Tiger also requests that the proposal be rejected. The carrier bases its request on the allegation that American does not present information and adequate justification for the discriminatory and dilutionary practices which would ensue. As indicated above, the Board is setting for investigation and suspending the proposal. Tiger's request will be dismissed.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof: *It is ordered, That:*

1. An investigation is instituted to determine whether the minimum charge and provisions in Exception No. 2 on 24th and 25th revised pages 19 of C.A.B. No. 8 (agent J. Aniello series)¹ issued by Airline Tariff Publishers, Inc., agent, and rules, regulations, or practices affecting such minimum charge and provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful minimum charge and provisions, and rules, regulations, and practices affecting such minimum charge and provisions;

¹ Appendix A filed as part of original document.

2. Pending hearing and decision by the Board the minimum charge and provisions in Exception No. 2 on 24th and 25th revised pages 19 of C.A.B. No. 8 (agent J. Aniello series), issued by Airline Tariff Publishers, Inc., agent, are suspended and their use deferred to and including June 23, 1966, unless otherwise ordered by the Board and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The complaints of The Flying Tiger Line, Inc., in Docket 17002 and Trans World Airlines, Inc., in Docket 17000 are dismissed, except to the extent granted herein;

4. The proceeding herein be assigned for hearing before an examiner of the Board at a time and place hereafter to be designated; and

5. Copies of this order shall be filed with the tariffs and served upon American Airlines, Inc., The Flying Tiger Line, Inc., and Trans World Airlines, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

DELAWARE RIVER BASIN COMMISSION

COMPREHENSIVE PLAN

Notice of Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on March 23, 1966. The hearing will take place in Room 1306 of the State Office Building in Philadelphia, Pa., beginning at 2 p.m. The hearing will be on a proposal to amend the Comprehensive Plan so as to include the following projects:

1. *Town of Hackettstown.* A water supply project consisting of one new well and several existing wells in Hackettstown, N.J. The new well is on the Seber Tract, along the Musconetcong River. It will have a yield of about 250 gallons per minute.

2. *New Castle County.* A sewer interceptor project by the Levy Court of New Castle County, Del. Designed to carry a future peak flow of 85 million gallons per day, the interceptor will be located along White Clay Creek between Wilmington and Newark. An associated 12-million-gallon holding basin will be constructed adjacent to the Red Clay Creek Pumping Station.

3. *Tidewater Utilities, Inc.* A water supply well developed by Tidewater Utilities, Inc., to meet residential requirements in its service area north of Dover, Del. The well is expected to yield about 150 gallons per minute.

4. *Leesburg Prison.* Two water supply wells developed by the N.J. Department of Institutions and Agencies to meet the needs of the prison at Leesburg, N.J. The wells are expected to yield about 350 gallons per minute.

5. *Maple Shade Township.* A water supply well developed to meet public requirements in the Township of Maple Shade, N.J. The new well is expected to yield about 800 gallons per minute.

6. *Borough of Ambler.* A new well to be used for public water supply purposes in the Borough of Ambler, Montgomery County, Pa. To be known as well No. 9, the new project is expected to yield about 175 gallons per minute.

7. *Borough of Kutztown.* A new well to be used for public water supply purposes in the Borough of Kutztown, Berks County, Pa. To be designated as well No. 4, the new project is expected to yield about 900 gallons per minute.

8. *Borough of West Chester.* Public water supply project involving development of three new wells to serve the Borough of West Chester, Pa. The wells will be located in the watershed of the East Branch Chester Creek. They are expected to yield between 100 and 150 gallons per minute each.

Documents relating to the above projects may be examined at the Commission's offices. All persons wishing to testify are requested to register in ad-

vance with the Secretary to the Commission.

FEDERAL AVIATION AGENCY

[OE Docket No. 66-EA-2]

WMAL-TV—WTOP-TV

Notice of Petition for and Grant of Discretionary Review

On January 28, 1966, the Agency's Eastern Regional Office issued the following Determination of No Hazard to Air Navigation (Aeronautical Study No. EA-OE-65-600) at Jamaica, N.Y.:

The Federal Aviation Agency has circularized the following described proposal and has conducted an aeronautical study to determine its effect on the use of navigable airspace.

Proponent: WMAL-TV, WTOP-TV.

Location: Silver Spring, Md.

Latitude: 39°00'51.5" N.

Longitude: 77°03'02" W.

Structure: Candelabra Type TV Tower.

Height above ground: 1218 Feet.

Above MSL: 1549 Feet.

The Evening Star Broadcasting Co., licensee of WMAL-TV, and the Washington Post Co., licensee of WTOP-TV, jointly, propose to construct a candelabra type television tower in Silver Spring, Md.

The proponents had previously proposed to erect towers to a height of 1,349 feet above mean sea level at their present locations in the northwest section of Washington, D.C. Determinations of Hazard were issued for both proposals in OE Docket Nos. 65-EA-4 and 65-EA-5. Subsequently, a Determination of No Hazard was issued to station WTOP under Case No. EA-OE-65-36 to increase the height of their existing tower to 1,049 feet above mean sea level. A proposal by WRC-TV to construct a 1,049 foot above mean sea level tower at their present location in the same area is now under study by the Agency.

The tower now proposed by WMAL and WTOP would exceed obstruction standards in Part 77, Federal Aviation Regulations, as follows:

Section 77.23(a)(1) in that it would be more than 500 feet above ground.

Section 77.23(a)(5) as applied to Federal Airway Victor 265 and would require increasing the minimum en route altitude of that airway between Beltsville and Riverdale Intersections from 2,000 feet to 2,500 feet and in turn would require increasing an altitude of the Andrews Air Force Base, Bethesda 5 Standard Instrument Departure route from 2,000 feet to 2,500 feet.

Section 77.23(a)(4) in that it would require increase of the AL-443-ADF-2 transition altitude from Unity Intersection to the Georgetown RBN from 2,000 feet to 2,500 feet.

The proposed tower would be located 10.5 miles north of Washington National Airport. It would not exceed obstruction standards in Part 77 as applied to this or any other airport.

The proposal was circularized for aeronautical comment by letter dated November 30, 1965. Objections received in response to the circularization were primarily based on

the conclusion that the loss of the 2,000 foot cardinal altitude on V265 would result in an adverse effect on arrival and departure procedures at Washington National Airport. Objections were also made on the basis that the proposed tower would be a hazard to VFR air traffic.

The proposal was discussed at the FAA Informal Airspace Meeting held on January 18, 1966. At the meeting, the proponents' representatives stated that if the proposed tower receives full approval, the existing WMAL and WTOP tower heights would be reduced to a height satisfactory to the FAA and that the proposal to increase the height of the existing WTOP tower to 1,049 feet above mean sea level would be withdrawn. They stated that the proposed tower would be constructed to support the antennas of other television stations provided assurance of collocation is received in sufficient time to permit required engineering changes. They noted that negotiations for such collocation have been in progress with at least two other television companies.

The effect the proposed tower would have on Instrument Flight Rules procedures was discussed. The Air Transport Association representative was particularly concerned with the effect the proposed construction would have on radar vectoring practices in the area and the loss of flexibility in air traffic control. There was general agreement, acknowledged by the FAA, that some adverse effect on the handling of IFR traffic would result if the proposed tower is constructed. FAA representatives indicated that, in this case, the aviation industry should weight the adverse effect of the proposed tower against the advantages that would result from the lowering or removal of tall towers from a location close to Washington National Airport and the collocation of these antennas more distant from the airport.

Aviation industry representatives concurred that the proposal was in accord with the antenna grouping concept. The Air Force representative stated his endorsement of the antenna grouping concept indicating that, in this case, the advantages realized would outweigh the requirement to change one Andrews Air Force Base departure procedure, and interposed no objection to the proposal. The ALPA representative withdrew his earlier objection in consideration of the antenna grouping concept present in this proposal. He noted that there would be some adverse effect to air navigation in the Washington area and recommended that the tower be erected to the lowest possible height consistent with the proponents needs. The APA representative urged that all television stations in the Washington area be encouraged to collocate with the proposed tower. The ATA representative endorsed the antenna grouping concept but continued his objections to this proposal based on the effect it would have on operations at Washington National Airport. He stated that this airport serves the Nation's Capital and cannot afford any adverse effect at any time.

There were no other objections from those present at the meeting.

The aeronautical study disclosed the following:

1. The required increase in MEA of a segment of Victor 265 and the Andrews standard instrument departure altitude would re-

sult in some change in air traffic control handling of aircraft utilizing these routes. The handling of arrival and departure traffic in the Washington area is based primarily on radar which permits flexibility in air traffic control. If required, the use of the present minimum altitude could be retained through vectoring with standard radar separation from this tower. The study disclosed that this vectoring would not substantially increase the time or distance flown by aircraft operating in this area.

2. The proposed tower would be located in the northern suburbs of Washington, D.C., in a built-up area which influences the altitude of VFR aircraft traversing this site. It would be within 1 mile of the Capital Belt Highway, which is a prominent highway circling the city of Washington. The highway traverses built-up areas and does not provide a route between any airports.

The study disclosed no evidence that any substantial number of VFR aircraft use this highway for navigational guidance.

Based on the aeronautical study, it is the finding of the Agency that the proposed tower would have no substantial adverse effect on air traffic control capability nor on aeronautical operations or procedures.

While this determination is based on the aeronautical study, cognizance was given to the fact that this proposal conforms to the antenna grouping concept with its attendant long range benefits to aviation. The FAA has long advocated this concept and believes that the proposed action by WMAL and WTOP jointly, is an affirmative step which could result in further collocation at this site by other television companies.

Therefore, pursuant to the authority delegated to me, it is found that the structure would have no substantial adverse effect upon the safe and efficient utilization of navigable airspace and it is hereby determined that the structure would not be a hazard to air navigation provided the structure is obstruction marked and lighted in accordance with FAA standards.

This determination is effective and becomes final on March 9, 1966, unless a petition for review is filed under § 77.37. If a petition is filed, further notice will be given and the determination will not become final pending disposition of the petition.

Petitions for discretionary review must be filed in triplicate with the Chief, Obstruction Evaluation Branch, Federal Aviation Agency, Washington, D.C., 20553, within 30 days after the date of issuance and must contain a full statement of the basis upon which it is made.

This determination expires on September 9, 1966, unless application is made to the FCC for a construction permit before that date, or the determination is otherwise extended, revised, or terminated. If application is made to the FCC within the 6 months time period, the determination expires on the date prescribed in the FCC construction permit for completion of construction or on the date the FCC denies the application.

Notice to this office is required at least 48 hours before the start of construction and again within 5 days after construction reaches its greatest height.

Issued in New York, N.Y., on January 28, 1966.

OSCAR BAKKE,
Director.

On February 24, 1966, the Aircraft Owners and Pilots Association (AOPA) petitioned the Administrator for a discretionary review of the above determination.

The petition set forth the following issues:

1. The tower, if erected as proposed, would constitute an unacceptable hazard to air navigation and would constitute an inefficient utilization of the airspace.

2. The airspace over the Washington metropolitan area is one of high concentration of IFR and VFR traffic. This is especially true in the lower regions of the airspace.

3. There are 28 airports within 25 miles of the proposed tower site.

4. At present, there are no obstructions in the Washington metropolitan area which exceed 1,049 feet msl. The proposal would exceed these obstructions by 500 feet and would constitute the controlling obstruction in the area.

5. It would have an adverse effect on the handling of IFR traffic and would cause an increase in MEA of a segment of Victor 265 and an increase in altitude of a SID from Andrews Air Force Base.

6. Television towers, because of their lattice-work construction, are difficult to see, especially under marginal VFR conditions.

7. Marginal VFR conditions prevail in the Washington area a significant portion of the time.

8. The proposed structure would be within 1 mile of the Capital Beltway, a prominent VFR landmark and an aid to the low-level circumnavigation of the Washington and Andrews traffic areas.

9. The proposal, if erected, would be the first break in the presently existing tower grouping in the Washington area. The four VHF stations already have their towers reasonably close together, on naturally high ground, in the general vicinity of Wisconsin and Nebraska Avenues NW. This area permits excellent television coverage of Washington and the surrounding area that these stations were assigned to serve.

Notice is hereby given that, pursuant to the authority delegated to me by the Administrator, the petition by the Aircraft Owners and Pilots Association for discretionary review under § 77.37 of Part 77 is granted and such review will be granted on the basis of written materials pursuant to § 77.37(c) (1).

Interested persons may, within 30 days of the issuance date of this notice, submit any relevant information in writing for consideration in this review to the Federal Aviation Agency, Air Traffic Service, Obstruction Evaluation Branch, 800 Independence Avenue SW., Washington, D.C., 20553. Submissions must be filed in triplicate and be relevant to the effect of the proposed structure on safe air navigation.

A copy of appropriate correspondence in this case is on file in OE Docket No. 66-EA-2, and may be examined by interested persons at the Federal Aviation Agency, Office of the General Counsel, Rules Dockets, 800 Independence Avenue SW., Washington, D.C., 20553.

Upon conclusion of this discretionary review, an appropriate order will be published in the FEDERAL REGISTER. In accordance with § 77.37 of the Federal Aviation Regulations, the determination of no hazard to air navigation issued by the Agency's Eastern Regional Office in Aeronautical Study No. EA-OE-65-600

is not and will not be a final determination pending final disposition of the petition.

Issued in Washington, D.C., on March 11, 1966.

WILLIAM E. MORGAN,
Acting Director, Air Traffic Service.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-4360]

MICHIGAN WISCONSIN PIPE LINE CO. AND AMERICAN NATURAL GAS CO.

Proposed Issue and Sale of Principal Amount of First Mortgage Bonds at Competitive Bidding, Increase in Authorized Capital Stock, and Issue and Sale, and Acquisition of Common Stock Shares

MARCH 14, 1966.

Notice is hereby given that American Natural Gas Co. ("American Natural"), Suite 4950, 30 Rockefeller Plaza, New York, N.Y., 10020, a registered holding company, and its subsidiary company, Michigan Wisconsin Pipe Line Co. ("Michigan Wisconsin"), 1 Woodward Avenue, Detroit, Mich., 48266, have filed a joint application-declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 6(b), 7, 9, 10, and 12(f) of the Act and Rules 43 and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the joint application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Michigan Wisconsin proposes to issue and sell, pursuant to the competitive bidding requirements of Rule 50 under the Act, \$45,000,000 principal amount of First Mortgage Pipe Line Bonds, --- percent Series, due April 15, 1986. The bonds are to be issued under a Mortgage and Deed of Trust, dated as of September 1, 1948, between Michigan Wisconsin and First National City Bank (formerly

City Bank Farmers Trust Co.) and Christopher C. Arvani, as Trustees, as heretofore supplemented and as to be further supplemented by a Seventeenth Supplemental Indenture to be dated as of April 1, 1966. The interest rate, which will be a multiple of $\frac{1}{8}$ of 1 percent and the price, exclusive of accrued interest (which will not be less than 100 percent nor more than 102 $\frac{3}{4}$ percent of the principal amount), will be determined by the competitive bidding.

Michigan Wisconsin also proposes (a) to amend its Articles of Incorporation so as to increase the number of its authorized shares of common stock, par value \$100 per share, from 785,000 shares to 885,000 shares, and (b) to issue and sell 100,000 shares of such common stock to American Natural for a cash consideration of \$10,000,000. American Natural, which owns all of Michigan Wisconsin's outstanding common stock, proposes to acquire the 100,000 shares, and in payment therefor to use \$5,000,000 of funds on hand and \$5,000,000 in cash to be received as a special dividend to be paid by Michigan Wisconsin on its common stock.

Michigan Wisconsin will use the net proceeds from the proposed issue and sale of the bonds and common stock to prepay, without penalty, its promissory notes due banks which are outstanding in the amount of \$29,000,000 maturing October 31, 1966, and \$5,500,000 maturing March 31, 1967. The balance of such proceeds will be used by Michigan Wisconsin to finance, in part, its 1966 expansion program estimated to cost \$90,000,000. It is stated that such additional funds as may be required to finance this expansion program will be obtained by Michigan Wisconsin from internal sources and borrowings from banks which will be the subject of a future filing with this Commission.

The fees and expenses to be paid by Michigan Wisconsin in connection with the issue and sale of the bonds are estimated at \$141,000, including counsel fees and expenses of \$50,000 and accountant's fees and expenses of \$7,000; and in connection with the issue and sale of the common stock are estimated at \$4,000, including counsel fees of \$500. The fees of counsel for the bond underwriters, estimated at \$16,000, are to be paid by the successful bidders; the expenses of such counsel will be filed by amendment.

It is stated that the Michigan Public Service Commission is the only regulatory body, other than this Commission, which has jurisdiction over the proposed issue and sale of bonds and common stock by Michigan Wisconsin, and a copy of the order of that State commission authorizing the same will be supplied by amendment.

Notice is further given that any interested person may, not later than April 1, 1966, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said joint application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Ex-

change Commission, Washington, D.C., 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed contemporaneously with the request. At any time after said date, the joint application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

For the Commission (pursuant to delegated authority).

WELLINGTON FUND, INC.

Filing of Application for Order Exempting Sale by Open-End Company of Shares at Other Than Public Offering Price in Exchange for Assets of Closely Held Company

MARCH 14, 1966.

Notice is hereby given that Wellington Fund, Inc. ("Wellington Fund"), 1630 Locust Street, Philadelphia, Pa., a Delaware corporation which is registered under the Investment Company Act of 1940 ("Act") as an open-end diversified management investment company, has filed an application pursuant to section 6(c) of the Act requesting an order of the Commission exempting from the provisions of section 22(d) of the Act the proposed issuance of its shares, without sales charge, for substantially all the cash and securities of Dick Securities Corp. ("Dick"). Said exemptive order is requested since the shares of Wellington Fund are offered to the public at a price which includes a sales charge in addition to the net amount which Wellington Fund receives from the underwriter through whom such public offering is made. All interested persons are referred to the application as filed with the Commission for a statement of the representations made therein, which are summarized below.

As of December 31, 1965, the net assets of Wellington Fund amounted to approximately \$2,047,575.319. Dick, a Pennsylvania corporation, has been a personal holding company since 1960. The present record holders are 24 individuals, 3 trusteeships, and 6 custodianships under various Uniform Gifts to Minors Acts. The assets of Dick as of the valuation date will consist substantially of cash and marketable securities which had, as of November 30, 1965, a value of approximately \$4,183,000. Pursuant to an Agreement and Plan of Reorganization,

Wellington Fund will acquire substantially all of the assets of Dick in exchange for stock of Wellington Fund which will be distributed to shareholders of Dick upon liquidation. Neither Dick nor any of the shareholders of Dick has any intention of redeeming shares of Wellington Fund which they acquire.

The amount of stock of Wellington Fund to be delivered to Dick will be determined on the basis of the values at 3:30 p.m. on the business day next succeeding the first dividend record date established by Wellington Fund after January 19, 1966, the date of said Agreement, or on such other date as shall be mutually agreed upon; the number of shares to be delivered will be obtained by dividing the adjusted market value of the assets of Dick by the net amount per share which Wellington Fund receives from the underwriter of its shares on sale of its shares to the public. This amount is the net asset value per share plus a charge, recently computed at 4 cents per share, to reflect the per share amount of annual brokerage commissions paid by Wellington Fund in acquiring portfolio securities. The market value of the assets of Dick will be adjusted according to a formula set forth in the application which would reflect a higher ratio, if any, of unrealized appreciation in the assets of Dick to be acquired by Wellington Fund than in the assets of Wellington Fund as well as the federal income taxes which may be payable upon present or future realization of such excess appreciation. As of November 30, 1965, unrealized appreciation represented approximately 1 percent and 12 percent of the net asset value of the shares of Dick and Wellington and Wellington had no undistributed long-term capital gain. Of the securities to be acquired, Wellington Fund intends, subject to changes in investment conditions and considerations, to retain securities having a value as of November 30, 1965, of approximately \$4,144,503 with unrealized capital gain of \$36,439, and to sell securities having a value of approximately \$38,224 with unrealized capital gain of \$7,104.

Notice is further given that any interested person may, not later than March 30, 1966, at 5:30 p.m. submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be

issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

For the Commission (pursuant to delegated authority).

FEDERAL POWER COMMISSION

[Docket No. G-3573, etc.]

SOUTHERN PETROLEUM EXPLORATION, INC., ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates¹

MARCH 9, 1966.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service heretofore authorized as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 30, 1966.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given: *Provided, however*, That pursuant to § 2.56, Part 2, Statement of General Policy and Interpretations, Chapter I of Title 18 of the Code of Federal Regulations, as amended, all permanent certificates of public convenience and necessity granting applications, filed after April 15, 1965, without further notice, will contain a condition precluding any filing of an increased rate at a price in excess of that designated for the particular area of produc-

¹ This notice does not provide for consolidation for hearing of the several matters covered herein, nor should it be so construed.

tion for the period prescribed therein unless at the time of filing such certificate application, or within the time fixed herein for the filing of protests or petitions to intervene the Applicant indicates in writing that it is unwilling to accept such a condition. In the event Applicant is unwilling to accept such

condition the application will be set for formal hearing.
Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

AUTHORITY: The provisions of this Part 73 issued under E.O. 11222 of May 8, 1965, 30 F.R. 6469, 3 CFR, 1965 Supp.; 5 CFR 735.104.

Subpart A—General Provisions

§ 73.735-101 Principles and purpose.

In order to assure that the business of this Department is conducted effectively, objectively and without improper influence or appearance thereof, all employees must be persons of integrity and observe unquestionable standards of behavior. An employee shall not engage in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct or other conduct prejudicial to the Government. An employee must avoid conflicts of his private interests with his public duties and responsibilities. Also, he must not do indirectly that which is improper for him to do directly. For example, members of his family may not accomplish for him that which he, himself, may not do. The propriety of any activity must be considered in relation to general ethical standards of the highest order. Certain standards are set by law. Others are set by regulation and by policy. This part references or discusses these standards and constitutes the Department's regulations on this subject. Failure to observe any of the regulations in this part is cause for disciplinary action.

§ 73.735-102 Applicability.

The regulations in this part apply to all officers and employees of the Department, including regular officers of the Public Health Service Commissioned Corps and Reserve Officers of the Corps while on active duty, except that the regulations in this part apply to special Government employees only to the extent stated in Subpart L of this part. A special Government employee is defined by law as " * * * an officer or employee * * * who is retained, designated, appointed, or employed to perform, with or without compensation, for not to exceed 130 days during any period of 365 consecutive days, temporary duties whether on a full-time or intermittent basis * * * "

§ 73.735-103 Responsibilities.

(a) Supervisors are responsible to a large degree for maintaining high standards of conduct by employees they supervise. They shall be aware of the Department regulations and apply the standards to work they do and supervise. They shall inform new employees as they come on duty and make sure that all employees are kept aware of the regulations. Supervisors shall take suitable action, including disciplinary action in accordance with Subpart K of this part, when violations occur.

(b) Each employee shall be responsible for observing all generally accepted rules of conduct and with the specific provisions of law and the regulations in this part. He shall secure approvals when required and file statements of outside work and financial interests as appropriate, as stated in this part. He is subject to discipline in accordance with Subpart K of this part, when he violates laws, rules or regulations on conduct or the ethical principles involved. When an employee has doubt about any provision, he shall consult his supervisor, the personnel office, the administrative office or the counselor or deputy counselor.

§ 73.735-104 Advice and guidance.

The following sources shall provide guidance and assistance as described on matters covered by the regulations in this part:

(a) Supervisors shall advise employees who come to them with questions on matters covered by the regulations in this part, or, as they consider appropriate, shall refer such questions to higher levels of management, the personnel office, or the counselor or deputy counselors who have been designated in accordance with paragraphs (b) and (c) of this section.

(b) The Regional Attorneys are designated deputy counselors for all employees of the Department in the geographic areas covered by their respective regions, except as specified in paragraph (c) (3) of this section. Included are employees and special Government employees of the regional offices, Public Health Service hospitals, clinics, or other Public Health Service installations, District Offices and Payment Centers of the Social Security Administration, and Dis-

strict Offices of the Food and Drug Administration. Deputy counselors shall:

(1) Give authoritative advice and guidance when requested to employees, special Government employees, management officials and personnel offices within their areas of jurisdiction.

(2) Receive information on and attempt to resolve, or refer to the Department counselor, conflicts of interest or appearances of conflicts of interest in Statements of Employment and Financial Interests submitted by employees and special Government employees to whom they are required to give advice and guidance, which are not resolved at lower levels.

(c) The Assistant General Counsel, Business and Administrative Law Division, Office of the General Counsel, is designated as the counselor for the Department. He shall:

(1) Serve as the Department's designee to the Civil Service Commission on matters covered by the regulations in this part.

(2) Coordinate the Department's counseling services and assure that counseling and interpretations on questions of conflicts of interest and other matters covered by the regulations in this part are available as needed to deputy counselors.

(3) Render authoritative advice and guidance on matters covered by the regulations in this part which are presented to him by employees, special Government employees, management or personnel offices in the Washington, D.C., metropolitan area or in the Social Security Administration headquarters, Baltimore, Md.

(4) Receive information on and resolve or forward to the Secretary for consideration, conflicts or appearance of conflicts which appear in the Statements of Employment and Financial Interests submitted under Subpart J or Subpart L of this part, which are not resolved at a lower level.

(d) The names and addresses of the counselor and deputy counselors will be made available to employees by appropriate bulletins, circulars, or other releases of a current nature. Any employee may also obtain the name and address of his counselor or deputy counselor through his personnel office and may seek advice and guidance therefrom, either indirectly through his supervisor or the personnel office, or directly in person, by telephone, or by mail.

§ 73.735-105 Supplementation.

Operating agencies may supplement the regulations in this part with additional requirements where necessary. Such requirements shall not be inconsistent with Civil Service Regulations and this part. The additional provisions shall be submitted to the Division of Personnel Management, Office of Administration, Office of the Secretary, for clearance and publication as necessary, as supplements to this part. When issued, a copy of the supplement shall be provided to each employee to whom it applies.

Subpart B—Miscellaneous Statutory Provisions

§ 73.735-201 General.

Each employee and special Government employee shall acquaint himself with each statute that relates to his ethical and other conduct as an employee of his operating agency, the Department, and the Government. These statutory provisions are referenced in Appendix A to this part and some are discussed at greater length in the various subparts of this part. The statutes will be made available for review upon the employee's request to the deputy counselor for his part of the Department or to the counselor.

Subpart C—Gifts, Entertainment and Favors

§ 73.735-301 Accepting gifts and expenses from outside sources.

(a) Law provides that a Federal employee shall not accept anything of value for or because of any official act he has performed or will perform. (See criminal provisions in Appendix A of this part.) In this connection, an employee shall not solicit or accept directly or indirectly any gift, gratuity, favor, entertainment, loan or any other thing of monetary value from members of the public with whom he has official relationships, whether or not proffered for or because of any action or decision of the employee, such as from a person or organization that:

(1) Has, or is seeking to obtain, contractual or other business or financial relations with his agency;

(2) Conducts operations or activities that are regulated by his agency; or

(3) Has interests that may be substantially affected by the performance or nonperformance of his official duties.

(b) Exceptions to the provisions of paragraph (a) of this section are set forth as follows:

(1) When the acceptance of gifts or expenses clearly is motivated by obvious family or personal relationships (such as those between the parents, children, or spouse of the employee and the employee) and not by the business of the persons concerned.

(2) Food and refreshments of nominal value may be accepted on infrequent occasions in the ordinary course of a luncheon or dinner meeting or other meeting or on an inspection tour where an employee may properly be in attendance.

(3) Loans may be accepted from banks or other financial institutions on customary terms to finance proper and usual activities of employees, such as home mortgage loans.

(4) Unsolicited advertising or promotional material may be accepted, such as pens, pencils, note pads, calendars, and other items of nominal intrinsic value.

(5) An employee may accept travel expenses from outside sources only when acceptance is approved in accordance with the provisions of the Department Travel Manual. The Travel Manual states restrictions in this connection:

"Neither payment in cash nor services in kind may be accepted where an inspectional or administrative-supervisory relationship exists between the traveler and the non-Federal organization offering to pay his expenses. Examples are: Food and Drug inspectors may not receive travel expenses in cash or kind from any individual business which it inspects unless the inspection is under the program of Certification Services or is part of a reconditioning operation; staff of the Department who have responsibility for making grants to States, local governments, or institutions may not receive travel expenses in cash or kind from organizational segments of the States, local governments, or institutions to which the traveler has responsibility for making grants or assuring compliance with grant regulations; grant-in-aid auditors may not accept travel expenses in cash or kind from any organization which they have responsibility for auditing."

§ 73.735-302 Offers of gifts and expenses from outside sources.

Law provides criminal penalties for whoever directly or indirectly receives, gives, offers or promises anything of value for performance of or to influence the performance of an official act (Item 2, Appendix A of this part).

§ 73.735-303 Gifts to official superiors.

An employee shall not solicit contributions from another employee for a gift to an employee in a superior official position. An employee in a superior official position shall not accept a gift presented as a contribution from employees receiving less salary than himself. An employee shall not make a donation as a gift to an employee in a superior official position (Item 24, Appendix A of this part).

§ 73.735-304 Acceptance of awards.

(a) This subpart does not preclude an employee from accepting an award for a meritorious public contribution or achievement given by a charitable, religious, professional, social, fraternal, nonprofit education and recreational, public service, or civic organization.

(b) An employee shall not accept a gift, present, decoration or other thing from a foreign government unless authorized by Congress as provided by the Constitution and in 5 U.S.C. 114-115a. If a foreign government proffers such a gift or award directly to an officer or employee he may receive it for transmittal purposes, but must immediately forward it to the Department of State, Washington, D.C., 20520, through the head of his constituent organization (or staff officer for employees of the Office of the Secretary). Under no conditions can the gift or award be worn or displayed after the presentation ceremony until authorized by Act of Congress.

§ 73.735-305 Other prohibitions.

An employee shall avoid any action, whether or not specifically prohibited by this subpart, which might result in, or create the appearance of:

- (a) Using public office for private gain;
- (b) Giving preferential treatment to any person;
- (c) Impeding Government efficiency or economy;
- (d) Losing complete independence or impartiality;
- (e) Making a Government decision outside official channels; or
- (f) Affecting adversely the confidence of the public in the integrity of the Government.

Subpart D—Outside Employment

§ 73.735-401 General provisions.

(a) Outside employment may be appropriate when it will not adversely affect performance of an employee's official duties and will not reflect discredit on the Government or the Department. Such work may include civic, charitable, religious, and community undertakings. It may also include some paid or unpaid outside work which would contribute to technical or professional development. There are certain types of outside work, however, which give rise to a real or apparent conflict of interest. Some of these are prohibited by law as discussed in paragraph (b) of this section. Others are prohibited by Civil Service Regulation, as discussed in paragraph (c) of this section. Others may be prohibited by criteria developed by heads of operating agencies. Such criteria must be observed by the employees of the respective agencies. All of these provisions are binding, but do not necessarily include all possible conflicts of interest. In all instances, good judgment must be used to insure scrupulous compliance with all provisions.

(b) Statutory provisions of Chapter 11 of title 18 of the United States Code (referenced in full in Appendix A of this part), which relate to outside work both during and after Government employment are reiterated below:

(1) An employee shall not, except in the discharge of his official duties, represent anyone else before a court or Government agency in a matter in which the United States is a party or has an interest. This prohibition applies both to paid and unpaid representation of another (Items 3 and 4, Appendix A).

(2) A person shall not, at any time after his Government employment has ended, represent anyone other than the United States in connection with a matter in which the United States is a party or has an interest and in which he participated personally and substantially for the Government (Item 27, Appendix A).

(3) A person shall not, for 1 year after his Government employment has ended, represent anyone other than the United States in connection with a matter in which the United States is a party or has an interest and which was within the boundaries of his official responsibility (but in which he may not have participated personally and substantially) during the last year of his Government service (Item 27, Appendix A).

(c) An employee shall not engage in outside employment or other outside

activity not compatible with the full and proper discharge of the duties and responsibilities of his Government employment whether or not in violation of any specific provision of statute. Incompatible activities include, but are not limited to:

(1) Acceptance of a fee, compensation, gift, payment of expense, or any other thing of monetary value in any circumstances in which acceptance may result in, or create the appearance of, conflicts of interest;

(2) Outside employment which tends to impair his mental or physical capacity to perform his Government duties and responsibilities in an acceptable manner;

(3) Work which identifies the Department or any employee in his official capacity with any organization commercializing products relating to work conducted by the Department, or with any commercial advertising matter, or work performed under such circumstances as to give the impression that it is an official act of the Department or represents an official point of view;

(4) Outside work or activity that takes the employee's time and attention during his official work hours;

(d) An employee shall not receive any salary or anything of monetary value from a private source as compensation for his services to the Government (Item 6, Appendix A). For example, a Department employee may be called upon, as a part of his official duties, to participate in a professional meeting sponsored by a non-Government organization, or to contribute a paper or other writing prepared on official time for publication under non-Government auspices. The employee must not accept an honorarium or fee for such services, even though the organization accepting the service customarily makes such a payment to those who participate. In some cases of this kind, the organization involved may indicate a desire or willingness to make a contribution to some charity, educational institution, or the like, in appreciation of the services furnished by the Department employee since he cannot accept the usual payment. Department standards require that all offers to make such a contribution be refused. No Department employee may suggest, or agree to a suggestion made by others, that such a contribution should be made. Any employee with whom such a question is raised shall explain that the service involved was provided as an official action of the Department and is authorized by law. Under these circumstances, it is inappropriate for any payment to be made, even indirectly and to a third party, for services which are furnished without charge by the Government.

(e) An employee who is a Presidential appointee covered by section 401(a) of Executive Order 11222 shall not receive compensation or anything of monetary value for any consultation, lecture, discussion, writing or appearance, the subject matter of which is devoted substantially to the responsibilities, programs, or operations of his agency, or which draws substantially on official data or ideas which have not or will not on request be-

come part of the body of public information.

(f) Application of these general provisions to some specific activities is discussed in §§ 73.735-402 to 73.735-407.

§ 703.735-402 Professional and consultative services.

(a) Employees may engage in outside professional or consultative work only after meeting certain conditions. Except as provided in §§ 73.735-403, 73.735-404, and 73.735-405, the conditions which must be met are:

(1) The work is to be rendered to public or nonprofit organizations or to individuals seen as private patients or clients, and

(2) Is not to be rendered to organizations, institutions, or State or local governments with which the official duties of the employee are directly related, or indirectly related if the indirect relationship is significant enough to permit existence of conflict or apparent conflict of interest. Consultative services to public or private institutions or Government units which have recently negotiated, or may in the near future seek, a contract or grant from the organizational unit in which the employee works must be very carefully appraised to avoid any apparent conflict of interest. Even when an employee is not personally involved in making awards and grants, his official association within the organization would make this appraisal necessary.

(3) The compensation expected must bear a reasonable relationship to the services to be performed.

(4) Advance administrative approval in accordance with Subpart I of this part must be obtained. Such approval is required whether or not the services are for compensation, and whether or not related to the employee's official duties.

(b) For the purpose of this section, "professional and consultative work" is work in occupations listed in Appendix B to this part.

§ 73.735-403 Writing and editing.

(a) *General.* Employees are encouraged to engage in outside writing and editing, whether or not done for compensation, when such activity is not otherwise prohibited. Such writing and editing, though not a part of official duties, may be on a directly related subject or entirely unrelated. Certain conditions must be met in either case, however, and certain clearances or approvals are prescribed according to the content of the material as set forth in paragraphs (b) through (e) of this section.

(b) *Conditions applying to all writing and editing done not as a part of official duties.* All of the following conditions shall apply to all writing and editing whether related or unrelated to the employee's official duties:

(1) Government-financed time or supplies shall not be used by the author or by other Government employees in connection with the activity.

(2) Official support must not be expressed or implied in the material itself

or advertising or promotional material, including book jackets and covers, relating to the employee and his contribution to the publication.

(3) Editing activities must not involve approval or disapproval of advertising matter.

(4) Advance administrative approval must be obtained if required by paragraph (f) of this section.

(c) *Additional conditions applying to writing and editing activities unrelated to the employee's official duties or other responsibilities and programs of the Federal Government.* In addition to observing the conditions in paragraph (b) of this section, the employee must either:

(1) Make no mention of his official title or affiliation with the Department, or

(2) Use his official title or affiliation with the Department in a way that will not suggest or convey official endorsement of the work.

(d) *Additional conditions applying to writing and editing activities related to the employee's official duties or other responsibilities and programs of the Federal Government.* In addition to observing the conditions in paragraph (b) of this section, the employee must either:

(1) Make no mention of his official title or affiliation with the Department, or

(2) Use his official title or affiliation with the Department and a disclaimer as provided in paragraph (e) of this section, or

(3) Submit his material for technical clearance within the operating agency and for clearance for publication by the public information officer of the employee's operating agency or bureau. When technical clearance is denied at any lower level, the employee shall have recourse for review up to the head of the operating agency. If the public information officer has question as to granting clearance for publication, he should refer the question for resolution by the Director of Public Information. These two clearances by the Department will show there are no official objections to the activity and the employee may then use his official title or affiliation with the Department usually without a disclaimer. (Publications and Reports Bulletin No. 2, available in public information offices, governs clearances necessary for writing and editing as a part of official duties.)

(e) *Disclaimers.* Disclaimers are required in writing and editing activities in accordance with the following provisions:

(1) Disclaimers shall be used in all writing and editing related to the employee's official duties or other responsibilities and programs of the Federal Government in which the employee identifies himself by official title or affiliation with the Department, except where requirement for disclaimer is waived as result of official clearance.

(2) Disclaimers shall be used in all writing and editing related to the employee's official position or other responsibilities or programs of the Federal Government, when the prominence

of the employee or his position or other reason might lead the public to associate him with the Department, even without identification other than name.

(3) Disclaimers shall read as follows unless a different wording is approved by the public information officer with the concurrence of the Division of Business and Administrative Law, Office of the General Counsel: "This (article, book, etc.) was (written, edited) by (employee's name) in his private capacity. No official support or endorsement by (name of operating agency, or of Department) is intended or should be inferred."

(f) *Advance approval.* Advance approval is required in accordance with Subpart I of this part when one or more of the following conditions apply:

(1) Any Government information is used which is not available on request to persons outside the Government;

(2) Material is written or edited which pertains to subject matter directly related to an employee's official duties. (This includes editing for scientific or professional journals which is related to his official duties.)

(3) Material is written or edited which pertains to any Government-sponsored research or other studies for which clinical case records or other material of a confidential nature are used or to which access is limited for persons outside the Government. Such use will not be permitted unless made under safeguards established by the operating agency to retain the confidentiality of the material and such use is determined to be in the public interest.

(4) Material is edited for publications organized for profit.

§ 73.735-404 Publishing.

Employees are encouraged to engage in publishing activities which are not part of their official duties, when all the following conditions are met:

(a) No financial profit is derived from publishing materials which are made available to the general public by this Department or which are available to the employee because of his official duties, but are not available to the general public.

(b) No financial profit is sought or derived from publishing proceedings or similar compilations of conferences, symposia, or similar gatherings:

(1) Which are sponsored by the Government, or

(2) Which involve the performance of official duties, or are directly related to official duties, or

(3) Where participation or attendance has been authorized on Government time.

(c) The publishing activities are conducted on non-Government time at no expense to the Government.

(d) The official title of the individual engaged in such publishing business is not used. If the individual is the author as well as the publisher, the provisions referred to under § 73.735-403 apply.

§ 73.735-405 Teaching and lecturing.

(a) *Conditions that must be met.* Employees are encouraged to engage in teaching and lecturing activities which

are not part of their official duties when certain conditions are met. These conditions, which apply to outside teaching and lecturing (including giving single addresses such as commencement and Memorial Day speeches) whether or not done for compensation, are:

(1) No Government-financed time is used in connection with such activity, nor Government supplies which are not otherwise available to the public;

(2) Government travel or per diem funds are not used for obtaining or performing such teaching or lecturing;

(3) Such teaching or lecturing is not dependent on specific information which would not otherwise be available to the public;

(4) Such activities are not conducted for the purpose of preparing students to pass civil service examinations;

(5) Such activities do not involve knowingly instructing persons on dealing with specific matters pending before Government organizations with which the employee is associated in an official capacity;

(6) Advance approval is obtained when required by paragraph (b) of this section.

(b) *Advance approval.* Advance approval must be obtained in accordance with Subpart I of this part before an employee may:

(1) Teach or lecture for an institution which has or is likely to have official dealings with the operating agency in which he is employed;

(2) Use, for teaching or lecturing purposes, clinical case records or other material of a confidential nature or to which access is limited for persons outside the Government. Such use will not be permitted unless made under safeguards established by the operating agency to retain the confidentiality of the material and such use is determined to be in the public interest.

§ 73.735-406 Holding office in professional societies.

(a) Employees may be members of professional societies and be elected or appointed to office in such a society. Activity in professional associations is generally desirable from the point of view of both the Department and the employee. Employees shall avoid, however, any real or apparent conflict of interest in connection with such membership. For example, they must not:

(1) Directly or indirectly commit the Department or any portion of it on any matter;

(2) Permit their names to be attached to documents the distribution of which would be likely to embarrass the Department;

(3) Serve in capacities involving them as representatives of non-Government organizations in dealing with the Government.

(b) In undertaking any office or function beyond ordinary membership in a professional association, a Department employee must obtain advance approval in accordance with Subpart I of this part in any situation in which his responsibilities as an officer would create

a real or apparent conflict of interest with his responsibilities as a Department employee. For example, advance administrative approval must be obtained:

(1) Before an employee who is responsible for review and approval of grants or contracts, or is in a supervisory position over those who conduct review and approval, may hold office, or be a trustee or member of the governing board, or the chairman or member of a committee, in any organization which has or is seeking a grant or contract with the operating agency in which he is employed;

(2) Before an employee may hold office in an organization which customarily expresses publicly views on matters of legislative or administrative policy within the areas of concern to the Department.

§ 73.735-407 Holding office under State or local government.

(a) Employees may hold office under State or local government only to the extent permitted by Executive Order or 5 CFR Part 734, Civil Service Regulations. Part 734, Civil Service Regulations, provides that with prior approval of the employing agency and a determination that an employee's service in the State or local office will not interfere with the regular and efficient performance of his Federal position, certain exceptions to the general prohibition can be made. In this Department, agency approval may be given orally by the immediate supervisor of the employee unless written approval or approval at a higher level is required by Subpart I of this part, or by the employee's operating agency or bureau, or as deemed desirable by the employee or his supervisor because of the nature of the part-time work. The exceptions under which such office-holding is permitted with prior approval are:

(1) A full-time Federal employee may hold a State or local office on other than a full-time basis.

(2) A Federal employee employed on other than a full-time basis may hold a State or local office, whether full time or otherwise.

(3) A Federal employee who is on leave without pay may hold a State or local office on a full-time basis.

(4) An employee of a State or local government who is on leave without pay may hold a Federal position on a full-time basis under a temporary appointment.

(b) Certain Executive orders permit holding a State or local office by specified employees of this Department as shown in Appendix A to this part.

Subpart E—Financial Interests

§ 73.735-501 General provisions.

(a) An employee shall not have a direct or indirect financial interest that conflicts substantially or appears to conflict substantially with his Government duties and responsibilities. He shall not participate in his Government capacity in any matter in which he, his spouse, his minor child, or an outside business associate or organization (profit or non-profit) with which he is connected or

is negotiating employment has a financial interest (Item 5, Appendix A). The indirect interest in business entities which the holder of shares in a widely held diversified mutual fund or other regulated investment company derives from ownership by the fund or regulated investment company of stocks in business entities is exempted from the provisions of this statutory provision as being too remote or inconsequential to affect the integrity of an officer's or employee's services, except as provided in paragraph (b) (1) and (2) of this section. In other cases, when the outside financial interest appears not substantial enough to have an effect on the integrity of his official services, the employee shall, each time a matter arises to which his financial interest relates, request administrative approval to participate in accordance with Subpart I of this part.

(b) An employee shall not engage directly or indirectly in financial transactions as a result of, or primarily relying on information obtained through his employment. For example:

(1) An employee shall not use official information not available to the public, on such matters as the successful clinical trials of drugs, a successful bid on a contract, or planned Government actions for speculative stock purchases, or stock investment.

(2) An employee shall not use official information not available to the public, on the prospective location of a new Government installation to gain financial advantage in the purchase of real estate.

(3) An employee shall not use official information not available to the public, to inform friends, neighbors, etc., so they may use it for speculative or investment purposes.

§ 73.735-502 Employees in regulatory, procurement and contracting activities.

(a) Employees in regulatory, procurement and contracting activities are prohibited from having certain types of financial interests, as stated below. The term "employee" as used here, includes line supervisory officials in the upward chain of authority and staff officials who advise supervisory officials.

(1) *Regulatory activities.* For the purpose of this paragraph all activities in the following organizations or functions within organizations are designated as regulatory activities: Food and Drug Administration; Division of Biologics Standards, NIH, PHS; Division of Foreign Quarantine, BMS, PHS; inspection and enforcement activities of the Division of Environmental Engineering and Food Protection, BSS, PHS; control activities of the Division of Air Pollution, EH, BSS, PHS; control activities of the Federal Water Pollution Control Administration; and the divisions of the Office of the General Counsel serving the above regulatory activities. An employee who is engaged in a regulatory activity shall not have financial interests in any company whose business activities are subject to such regulations, unless the regu-

lated activities of the company are an insignificant part of its total business operations. Such an employee may not hold shares in a mutual fund or other regulated investment company which specializes in holdings in industries that are regulated by the organization in which he is employed.

(2) *Procurement or contracting activities.* An employee who serves as a procurement or contracting officer or whose duties include authority to recommend or prepare specifications, negotiate noncompetitive contracts, or evaluate bids, shall not have financial interests in companies with which his office has any significant procurement or contracting relationship. An insignificant relationship exists only when all the following conditions are met: (i) the company is one with which the employee would rarely or never do official business; (ii) such business as he would do with the company is with respect to items of a standard type on the basis of competitive bids or regulated prices, as for utility services; and (iii) the amount of the financial interest is very small in relation to the size of the company. Such an employee may not hold shares in a mutual fund or other regulated investment company that specializes in holdings in industries with which his office has any significant procurement or contracting relationship.

(b) An employee who has a direct or indirect financial interest that would be prohibited except that he believes it to be relatively "insignificant" in terms of the discussions in paragraph (a) (1) and (2) of this section should request approval for retention by discussing the matter with his supervisor. If the supervisor approves the retention, the fact concerning such financial interest should be recorded. An employee who retains such an approved financial interest must disqualify himself from participating in his Government capacity if a matter arises involving the organization in which he has such interest. If in a special situation an exception to this rule appears desirable, administrative approval must be obtained in accordance with Subpart I of this part. Such approval extends only to the specific situation and may not be interpreted as extending to other situations, even though involving the same outside organization or similar official activities.

§ 73.735-503 Disposition of financial interest.

An employee who is newly assigned to a position in which the holding of stock or other financial interests is prohibited shall liquidate his interests within 90 days of entrance on duty in such position.

§ 73.735-504 Exceptions.

If any situation arises in which it would appear to be contrary to the best interests of the Government, or cause extreme and undue hardship to an individual to apply strictly the policies set forth in this subpart, a request for exception should be forwarded through supervisory channels to the counselor or deputy counselor for his part of the Department, for re-

view and recommendation to the Secretary.

Subpart F—Conduct on the Job

§ 73.735-601 General provisions.

An employee's conduct on the job is, in all respects, of concern to the Federal Government. Courtesy, consideration, and promptness in dealing with others must be shown in carrying out official responsibilities. In addition, specific rules and regulations have been set which must be observed as discussed in this subpart.

§ 73.735-602 Role of career official in support of Federal programs.

(a) The following statement issued by the Civil Service Commission shall be observed by career officials of this Department in supporting Administration programs:

The extent to which Federal career officials should publicly support current and discuss proposed programs of their departments and agencies requires thoughtful judgment by all concerned. The role of the career official is still evolving within our system of government with the consequence that the precedent of longstanding tradition is not available. It is understandable, therefore, that uncertainty exists regarding the role the career official should play in program advocacy. This uncertainty has prompted requests from career officials, particularly in the field service, and from department and agency heads for guidance.

No definitive standard can be enunciated to define this role. Discretion and judgment must be applied by both Presidential appointees and career officials within the context of each problem as it arises. With this in mind it may be helpful, nevertheless, to consider the following guidelines:

1. *Programs already authorized by law or Executive Order.* When a Federal program is based on law or Executive Order, every career official has a positive obligation to make it function as efficiently and economically as possible and to support it as long as it is a part of recognized public policy. This means that a career official may properly make speeches explaining and interpreting a current program, identifying its public purposes, citing its achievements, defending it against uninformed or unjust criticisms, pointing out need for possible corrective action or soliciting views for improving it. The fact that the program was the subject of partisan controversy during the stages of enactment or development would in no sense lessen this obligation although the career official should exercise care in divorcing his remarks from a strictly political context.

2. *Pending legislation.* A more difficult decision is faced when new or unchanged programs are pending before Congress in the form of proposed legislation. Definitive statutory language prohibits the use of appropriated funds for "publicity or propaganda designed to support or defeat legislation pending before Congress." Such language clearly limits the career official's position of possible support or of opposition to new or amendatory legislation.

Frequently career officials are requested to testify on pending legislative proposals before Congressional committees. Presidential appointees should recognize potential political involvement in assigning responsibility for legislative testimony to career officials. In most instances, the career officials should be used to present factual or technical testimony with policy advocacy reserved for presentation by the Presidential appointee.

A special circumstance arises when Congressional committees request the technical services of career officials to assist in drafting bills or reports. Even in politically controversial areas such an assignment is appropriate if it is understood that the career official is serving as a technical expert to assist in committee work under the direction of committee leadership.

§ 73.735-603 Use of Government funds.

(a) Several laws, referred to in Items 18-22, Appendix A to this part, carry penalties for misuse of Government funds. These apply to:

- (1) Improper use of official travel;
- (2) Improper use of payroll and other vouchers and documents on which Government payments are based;
- (3) Taking or failing to account for funds with which an employee is entrusted in his official position;
- (4) Taking other Government funds for personal use.

§ 73.735-604 Use of Government property.

(a) An employee shall not directly or indirectly use, or allow the use of Government property of any kind, including property leased to the Government, for other than officially approved activities. An employee has a positive duty to protect and conserve Government property, including equipment, supplies, and other property entrusted or issued to him. For example:

- (1) Only official documents and materials may be processed on Government reproduction facilities. Both supervisors and employees must assure that this rule is strictly followed. (Exception for employee welfare and recreation associations is stated in Chapter 25-10, General Administration Manual. Exception for employee organizations is stated in Personnel Instruction 711-1.)
- (2) Employees may drive or use Government automobiles only on official business.

§ 73.735-605 Conduct in Federal buildings.

(a) An employee shall not participate while on Government-owned or leased property or while on duty for the Government, in any gambling activity including the operation of a gambling device, in conducting a lottery or pool, in a game for money or property, or in selling or purchasing a numbers slip or ticket. However, this section does not preclude activities:

- (1) Necessitated by an employee's law enforcement duties; or
- (2) Involving fund-raising within the Federal service under section 3 of Executive Order 10927 and similar agency-approved activities.

(b) General Services Administration regulations on "Conduct on Federal Property" are applicable to all property under the control of the General Services Administration and are applied to all buildings and space under the control of this Department. These regulations prohibit, among other things, gambling and consumption of intoxicating beverages on the premises. The GSA regulations are found in Subpart 101-19.3 of the GSA Regulations, 41 CFR 101-19.3.

§ 73.735-606 Use of official information.

The public interest requires that certain information in the possession of the Government be kept confidential, and released only with general or specific authority under Department or operating agency regulations. This is necessary because it may involve the national security or because it is private personal or business information which has been furnished to the Government in confidence (Item 19-21, Appendix A). In addition, information in the possession of the Government and not generally available may not be used for private gain. The following paragraphs set forth the rules to be followed by Department employees in handling information in official files or documents:

(a) *Classified information.* Employees who have access to information which is classified for security reasons in accordance with Executive Order 10501, as amended, are responsible for its custody and safekeeping, and for assuring that it is not disclosed to unauthorized persons. See Security Manual, Part 3, for details.

(b) *Security and investigative information.* Security and investigative data received from Government agencies or other sources for official use only within the Department or developed under a pledge of confidence is not to be divulged to unauthorized persons or agencies.

(c) *Information obtained in confidence.* Certain Department units (e.g., Food and Drug Administration, Social Security Administration) obtain in the course of their program activities certain information from businesses or individuals which they are forbidden by law from disclosing. These statutory prohibitions are cited in Appendix A to this part. Each employee is responsible for observing these laws.

(d) *Use of information for private gain.* Government employees are sometimes able to obtain information about some action the Government is about to take or some other matter which is not generally known. Information of this kind shall not be used by the employee to further his or someone else's private financial or other interests. Such a use of official information is clearly a violation of a public trust. Employees shall not, directly or indirectly, make use of, or permit others to make use of, for the purpose of furthering a private interest, official information not made available to the general public.

§ 73.735-607 Nondiscrimination.

An employee shall not be discriminated against because of race, color, religion, national origin, sex, or age. This prohibition applies to both employment and utilization of Federal employees. Discrimination on the basis of politics also is prohibited.

§ 73.735-608 Participation in management of employee organizations.

Any employee has the right to be a member of an employee organization. He shall not, however, participate in the management of an employee organization as an officer of the organization or

represent it in dealings with management when such activity might result in a conflict of interest or otherwise be incompatible with law or the official duties of the employee. The duties of managerial executives who determine management policies and put them into effect and of personnel employees, other than those in a purely clerical capacity, are inconsistent with participation in the management or representation of an employee organization. Determination whether such conflict exists in other cases shall be made on a case-by-case basis by management after discussion with the employee organization concerned. Guidelines for such determinations are:

(a) Conflict of interest will be deemed to exist when an employee is an officer of an employee organization or actively represents it on specific matters of direct official concern, and also has continuing responsibility as a management official for

(1) Making administrative decisions or formal recommendations on cases or policies advocated by the same or a similar employee organization, or

(2) Dealing with officers and representatives of the same or a similar employee organization.

(b) The conflict must be immediate and real, not remote and theoretical.

(c) When the conflict is temporary and may be expected to occur only rarely, the employee shall be disqualified from acting as the representative of the employee organization in the particular case.

Subpart G—Financial Responsibility

§ 73.735-701 General provisions.

(a) An employee shall not by failure to meet his just financial obligations reflect adversely on the Government as his employer. He shall pay each just financial obligation in a proper and timely manner. A "just financial obligation" is one acknowledged by the employee or reduced to judgment by a court. "In a proper and timely manner" is a manner which the Department determines does not, under the circumstances, reflect adversely on the Government as his employer. The Department cannot condone laxness on the part of an employee in discharging his financial obligations, particularly those to Federal, State or local governments or to tax-supported institutions such as a city or State hospital or educational institution or in meeting his obligations for support of his family. If for some reason an employee is unable to pay these obligations promptly, he is expected to make satisfactory arrangements for payment and abide by these arrangements. It is the responsibility of the Department to help an employee who asks for advice in meeting such obligations.

(b) When an employee has handled his financial affairs in such a way that

(1) Action on complaints received from his creditors requires the use of a considerable amount of official time, or

(2) It appears that financial difficulties are impairing his efficiency on the job, or

(3) By reason of his financial irresponsibility the attitude of the general public toward the Department is adversely affected, and the employee after counseling does not make arrangements to meet his financial obligations, disciplinary action should be considered in accordance with Subpart K of this part.

(c) The Department is not obligated to help creditors who have an opportunity to make an investigation before extending credit such as mercantile creditors. The Department should not act as collection agent nor arbitrator when the validity of a debt is questioned.

§ 73.735-702 Processing indebtedness complaints.

(a) *Tax indebtedness.* (1) When an employee cannot pay his Federal income taxes promptly he should get in touch with the local office of the Internal Revenue Service and make arrangements to pay. If he fails to make such arrangements or fails to keep the agreement, the Internal Revenue Service may place a levy against his salary. This will require the pay roll office to deduct at least part of the employee's take-home pay to meet the tax obligations.

(2) When a complaint on tax indebtedness is received by a member of the personnel or administrative office or a comparable official, he will discuss it with the employee. The employee will be told that he is expected to make arrangements to pay the indebtedness and to abide by the arrangements. If a supervisor receives such a complaint, he should send it to his personnel or administrative office.

(b) *Indebtedness for family support.* A complaint that an employee has failed to meet his obligations for support of his family will be handled in the same manner as in paragraph (a) of this section.

(c) *Indebtedness in mercantile cases.* When an indebtedness complaint of this type is received, the personnel or administrative office or the employee's supervisor, according to local practice, will discuss it with the employee. If more than one letter is received from the same creditor within 30 days, the additional letter or letters will not be discussed with the employee. If the supervisor holds the discussion, he will send the debt letter with a notation of the results of the discussion with the employee or the employee's statement of intention to the personnel or administrative office for filing.

§ 73.735-703 Telephone inquiries.

(a) Telephone inquiries to verify employment with the Department, the amount of an employee's salary, and similar information should be referred to the personnel or administrative office, or in the case of a Social Security District Office employee, to the District Manager. No other person or office should give out this information. Where there is question as to whether such information should be provided by telephone the caller should be asked to present his request in writing.

(b) No action will be taken on debt complaints received by telephone. When a creditor calls to make a complaint, he

will be told that Department policy does not permit handling debt complaints by telephone and will be told the office to which he should direct his complaint in writing. An employee shall not be called to the telephone to discuss a debt complaint with a creditor.

Subpart H—Political Activity

§ 73.735-801 Applicability.

(a) All employees in the Executive Branch of the Federal Government are subject to basic political activity restrictions of the Hatch Act (Hatch Political Activities Act of August 2, 1939, as amended) and Civil Service Rule IV. Employees are individually responsible for refraining from prohibited political activity. Ignorance of a prohibition does not excuse a violation. This subpart summarizes provisions of law and regulation concerning political activity of employees. The Federal Personnel Manual, Civil Service Pamphlet 20, and Federal Employees Facts Leaflet No. 2 contain more detailed information on this subject. These may be reviewed in the personnel office, or will be made available by the counselor or deputy counselor for the part of the Department.

(b) Intermittent employees are subject to the restrictions when in active duty status only and for the entire 24 hours of any day of actual employment.

(c) Employees on leave, on leave without pay, or on furlough or terminal leave, even though the employees' resignations have been accepted, are subject to the restrictions. A separated employee who has received a lump-sum payment for annual leave, however, is not subject to the restriction during the period covered by the lump-sum payment or thereafter, provided he does not return to Federal employment during that period. An employee is not permitted to take leave of absence to work with a political candidate, committee, or organization or become a candidate for office with the understanding that he will resign his position if nominated or elected.

(d) An employee is accountable for political activity by another person acting as his agent or under the employee's direction or control if he is thus accomplishing indirectly what he may not lawfully do directly and openly.

§ 73.735-802 Restrictions.

(a) The Hatch Act provides that employees have the right to vote as they please and the right to express their opinions on political subjects and candidates. Generally, however, they are prohibited from taking an active part in political management or political campaigns or using official authority or influence to interfere with an election or affect its results. There are some exemptions from the restrictions of the Hatch Act:

(1) Employees may engage in political activity in connection with any question not specifically identified with any National or State political party. They also may engage in political activity in connection with an election if none of the candidates represents a party any of whose candidates for presidential elector

received votes at the last preceding election at which presidential electors were selected.

(2) An exception relates to political campaigns in communities adjacent to the District of Columbia or in communities the majority of whose voters are employees of the Federal Government. Communities in which the exception applies are specifically designated by the Civil Service Commission. Information regarding the localities and the conditions under which the exceptions are granted may be obtained from the personnel office or the Department counselor or deputy counselor.

(3) Intermittent employees are exempt during such time as they are not in active duty status.

(4) The Secretary, Under Secretary, and Assistant Secretaries of the Department, as well as other officials appointed by the President by and with the advice and consent of the Senate, who determine policies to be pursued by the United States in its relations with foreign powers or in the nation-wide administration of Federal laws are exempt from the prohibitions concerning active participation in political management and political campaigns.

(b) There are restrictions other than those imposed by the Hatch Act and Rule IV which relate to:

- (1) Political contributions and assessments.
- (2) Circulars of solicitation.
- (3) Solicitation in Federal buildings.
- (4) Solicitation by letter.
- (5) Payment by one employee to another.
- (6) Discrimination because of political contributions.
- (7) Purchase and sale of public office.
- (8) Political recommendations and discrimination.
- (9) Other criminal offenses discussed in 18 U.S. Code, Chapter 29.

Subpart I—Administrative Approval for Certain Activities

§ 73.735-901 Applicability.

Administrative approval is the authorization by an operating agency head or such person or persons as he designates for an employee to engage in certain outside activities or to participate in his Government capacity in a matter in which he has a direct or indirect financial interest. It is required in advance for:

- (a) Any outside work which creates a conflict or apparent conflict of interest or about the propriety of which an employee is uncertain;
- (b) Certain writing or editing activities as specified in § 73.735-403;
- (c) Certain types of teaching or lecturing as specified in § 73.735-405;
- (d) All professional and consultative services as specified in § 73.735-402;
- (e) Any other outside activity or financial interest for which the head of an operating agency imposes an internal requirement for administrative approval;
- (f) Participation of an employee in his Government capacity in any matter in which he has a direct or indirect fi-

nancial interest, on grounds that the interest is not so substantial as to be deemed likely to affect the integrity of the services which the Government might expect, as specified in Subpart E of this part;

(g) Certain office-holding activities in professional societies as specified in § 73.735-406.

§ 73.735-902 Requesting approval.

Employees shall make requests for administrative approval in writing through administrative channels to the operating agency head (Assistant Secretary for Administration for Office of Secretary employees) or to such person or persons as he designates. Unless the operating agency requires extra copies of the request, it shall be made in one copy only.

(a) *Outside work.* The request shall include:

- (1) Employee's name, occupational title, grade or rank and Federal salary;
- (2) Nature of the activity; full description of specific duties or services for which approval is being requested. In the case of self-employment in a professional capacity, however, it is sufficient to indicate the type of service to be rendered, as medical, legal, etc.
- (3) Name and business of person or organization for which work will be done, or statement that work is to be done as self-employment. If self-employment, show whether alone or with partners, giving their names, and, if such self-employment consists of professional services to a large number of clients or patients, estimate the total number rather than listing them individually.
- (4) Place where work will be conducted;
- (5) Estimated total time that will be devoted to the activity. (If on a continuing basis, show estimated time per year; if not, show total time and anticipated ending date.)
- (6) Whether services can be performed entirely outside of usual duty hours; if not, estimated number of hours of absence from work that will be required;
- (7) Method or basis of compensation (e.g., whether fee basis, per diem, per annum, or other);
- (8) Total cash compensation anticipated during next year. In the case of self-employment in a professional capacity, the total earnings anticipated from fees. If net earnings are less than gross earnings because of expenses, show both gross and net earnings.
- (9) Compensation anticipated in forms other than cash during next year, such as stock, options to purchase stock, participation in life insurance plan, or other benefits; and estimated value.

At any time when the income from an employee's approved outside work changes or there is a change in the nature or scope of the duties or services performed, or the nature of his employer's business, the employee shall submit a revised request. The employee not only has a duty to keep the Department informed of a change of approved outside actions, but to inform the Department promptly. If the outside work is

discontinued sooner than anticipated (not merely suspended temporarily), he shall notify the officer who approved the request.

(b) *Participation in a matter in which an employee has a financial interest.* The request shall include the information listed below. New approval must be sought for each dealing by an employee in his official capacity with any organization or matter in which he, his spouse, minor child, partner, organization in which serving as officer, etc., has a financial interest.

- (1) Employee's name, occupational title, grade or rank and Federal salary;
- (2) Full description of financial interest: including whether ownership, service as officer, partner, etc.;
- (3) Business or activity in which financial interest exists;
- (4) Description of official matter in which employee is requesting approval to participate;
- (5) Basis for requesting determination that the interest is "not so substantial as to be deemed likely to affect the integrity of the services which the Government may expect." (If based on small total value of investment, supply appropriate information on total value, such as total shares held and latest quoted market price. If other basis, explain fully.)

(c) *Office-holding in professional societies.* The request should be submitted in memorandum form and should show all information pertinent to the activity and the reasons why the employee considers that such activity would not constitute a conflict of interest.

§ 73.735-903 Annual reporting.

On September 5 each year, the approving officer shall require a report from each person for whom outside work has been approved during the past year. The report shall show:

- (a) *For the 12 months just past (ending August 31).* (1) Whether the anticipated work was actually performed for the person or organization named in the request for approval;
- (2) Actual amount of time spent on the activity;
- (3) Actual compensation received in cash, and statement of any other benefits received, such as stock, options to purchase stock, or participation in life insurance plans.
- (b) *For the forthcoming 12 months (ending Aug. 31).* (1) Whether it is anticipated that the outside work will continue;
- (2) Whether any change is anticipated with respect to information supplied in accordance with the original request on which approval was based.

§ 73.735-904 Maintenance of records.

All requests for approval of outside work or of participation in a matter in which an employee has a financial interest (or copies of such requests), a copy of the notification of approval or disapproval, and the annual report shall be filed at a level where they are readily available to the operating agency head. This level shall be that of the approving

official or higher. These records will be treated as Personnel-Confidential and made available only to persons specifically authorized by the head of the operating agency.

Subpart J—Statements of Employment and Financial Interest

§ 73.735-1001 General.

(a) The requirements of this subpart are in addition to and not in substitution for, the requirements of Subpart I of this part concerning administrative approval for certain activities. Also, the requirements of this subpart are in addition to and not in substitution for, or in derogation of, any similar requirement otherwise imposed by law, order, or regulation. The submission of a statement or supplementary statement by an employee does not permit him or any other person to participate in a matter in which his or the other person's participation is prohibited by law, order, or regulation.

§ 73.735-1002 Applicability.

(a) The following employees shall submit statements of employment and financial interest in accordance with the provisions of this subpart:

(1) Employees paid at a level of the Federal Executive Salary Schedule established by the Federal Executive Salary Act of 1964, as amended;

(2) Employees in grade GS-16 or above of the General Schedule established by the Classification Act of 1949, as amended, or in comparable or higher positions not subject to that Act;

(3) The Surgeon General, Deputy Surgeon General, and Assistant Surgeons General of the Public Health Service Commissioned Corps;

(4) Employees in hearing examiner positions as defined by Civil Service Regulation 930.202(c) (5 CFR 930.202(c));

(5) Employees in positions specifically identified in Appendix C to this part which have basic duties and responsibilities which require the incumbent to exercise judgment in making or recommending a Government decision or in taking or recommending Government action in regard to contracting or procurement, administering or monitoring grants or subsidies, regulating or auditing private or other non-Federal enterprise, or other activities where the decision or action has an economic impact on the interest of any non-Federal enterprise;

(6) Any other positions specifically identified in Appendix C to this part as positions determined by the operating agency head as requiring the incumbent thereof to report employment and financial interests in order to carry out the requirements and intent of standards of ethical conduct.

(b) As new positions are established or duties of other positions change to bring them within the criteria stated in paragraph (a) (5) of this section and such positions do not fall within the listings already appearing in Appendix C to this part, they shall be identified and reported to the Division of Personnel Management, Office of Administration, Office of the Secretary, for inclusion as

a part of the regulations in this part through publication in the FEDERAL REGISTER. Exclusion of such positions from this requirement may be made when the operating agency head or his designee determines that the duties of a position are at such a level of responsibility that the submission of a statement of employment and financial interests by the incumbent is not necessary because of the degree of supervision and review over the incumbent and the remote and inconsequential effect on the integrity of the Government. Exclusions under this provision must be documented in writing and retained at the level of the determining official.

§ 73.735-1003 Content of statements.

(a) The statements of employment and financial interests shall follow the format prescribed in Appendix D to this part.

(b) The interest of a spouse, minor child, or other blood relative who is a resident of the employee's household is considered to be an interest of the employee, and shall be reported on the statement.

(c) If any information required to be included on the statement of employment and financial interests or supplementary statement, including holdings placed in trust, is not known to the employee but is known to another person, the employee shall request that other person to submit information in his behalf.

(d) An employee is not required to submit on the statement any information relative to his connection with, or interest in, a professional society or a charitable, religious, social, fraternal, recreational, public service, civic, or political organization or a similar organization not conducted as a business enterprise. Educational and other institutions doing research and development or related work involving grants of money from or contracts with the Government are deemed "business enterprises" and are required to be included.

§ 73.735-1004 Submission and review of statements.

(a) Officials responsible for reviewing employment and financial interests shall be the same as by those who are designated to consider requests for administrative approval as discussed in Subpart I of this part.

(b) Reviewing officials shall request that statements of employment and financial interests be submitted by employees covered by § 73.735-1002, in accordance with the following schedule:

(1) Ninety days after the effective date of the regulations in this part if employed on or before the effective date; or

(2) Thirty days after entrance on duty in the position requiring the filing of such statements, but not earlier than ninety days after the effective date, if such action occurs after the effective date.

(3) Changes in, or additions to, the information contained in the statement shall be reported in a supplementary statement by the 10th day of the month following the end of the quarter in which

the changes occur. Quarters end March 31, June 30, September 30, and December 31. If there are no changes in a quarter, a negative report is not required, except as provided in subparagraph (4) of this paragraph.

(4) A supplementary statement, negative or otherwise, is required as of June 30 each year. This statement shall be filed not later than July 10.

(c) Statements shall be submitted in one copy only.

(d) The reviewing officer shall review statements to determine whether conflicts of interest or apparent conflicts might arise from the activities reported thereon.

(e) When no conflict of interest or apparent conflict is disclosed by the review of the statements, no further action is necessary by the reviewing officer and the statements shall be filed in accordance with § 73.735-1005.

(f) When a question on conflict of interest or apparent conflict arises, the reviewing officer shall work with the employee to resolve the matter. He shall offer the employee or special Government employee an opportunity to explain the conflict or apparent conflict. If the question cannot be resolved the matter shall be reported to the operating agency head through the appropriate counselor or deputy counselor for further consideration and action.

§ 73.735-1005 Maintenance of records.

Statements on which questions of conflict of interest or apparent conflict have arisen shall be annotated to show the action taken. All statements and supplementary statements of employment and financial interests shall be filed at a level where they are readily available to the operating agency head. This level shall be that of the approving official or higher. These records shall be treated as Personnel-Confidential and made available only as specifically authorized by the head of the operating agency or the Civil Service Commission for good cause shown.

Subpart K—Disciplinary and Remedial Action

§ 73.735-1101 Disciplinary action.

(a) Violation of the regulations contained in this part may be cause for disciplinary action which may be in addition to any penalty prescribed by law.

(b) The type of disciplinary action to be taken shall be determined in relation to the specific violation. No standard table of penalties has been established for application in the Department. Those responsible for recommending and for taking disciplinary action must apply judgment to each case, taking into account the general objectives of meeting any requirements of law, deterring similar offenses by the employee and other employees and maintaining high standards of employee conduct and public confidence. Some types of disciplinary actions to be considered are:

- (1) Oral admonishment.
- (2) Written reprimand.
- (3) Reassignment.
- (4) Demotion.

- (5) Suspension.
- (6) Separation.
- (c) Demotion, suspension, and separation are adverse actions and when taken must follow law, Civil Service Regulations and Department procedures.

§ 73.735-1102 Remedial action.

(a) Where the statements of employment and financial interest of employees or special Government employees, filed under the provisions of Subparts J and L of this part, show a conflict of interest with their official responsibilities, consideration should be given by the agency head or his designee and the employee's supervisor to reconciling the conflict through remedial actions. The following are examples of such actions which may be appropriate:

- (1) Divestment by the employee or special Government employee of his conflicting interest.
- (2) Disqualification for a particular assignment.
- (3) Changes in assigned duties.

Subpart L—Special Provisions Relating to Special Government Employees

§ 73.735-1201 Applicability.

The requirements of this subpart apply to the group of employees designated by law (18 U.S.C. 202) as "special Government employees." The term includes employees who are retained, designated, appointed or employed to serve, with or without compensation, for not more than 130 days during any period of 365 consecutive days, either on a full-time or intermittent basis. This subpart applies to all consultants (defined in § 73.735-1205) even though the consultant who works more than 130 days in 365 is subject also to the regulations in this Part 73 as a regular employee. Sections 73.735-1205 and 73.735-1206 apply only to those special Government employees indicated.

§ 73.735-1202 Ethical standards of conduct.

(a) A special Government employee must conduct himself according to ethical behavior of the highest order. In particular,

- (1) He must refrain from any use of his office which is, or appears to be, motivated by a private gain for himself or other persons, particularly those with whom he has family, business, or financial ties.
- (2) He must conduct himself in a manner devoid of any suggestion that he is exploiting his Government employment for private advantage. He must not, on the basis of any inside information, enter into any speculation.
- (3) He must not use information not generally available to those outside the Government for the special benefit of a business or other entity by which he is employed or retained or in which he has a financial interest. Information not available to private industry should remain confidential in his hands. In cases of doubt whether information is generally available to the public, the special Government employee should confer with the person who assigns work to him, with

the office having functional responsibility for a specific type of information, or, as appropriate, with the Director of Public Information or the officials designated in § 73.735-104 to give interpretative and advisory service.

(4) Where a consultant is requested by private enterprise to act for it in a similar capacity and the request appears motivated by the desire for inside information, he should make a choice between acceptance of the tendered private employment and continuation of his Government consultancy. He may not engage in both.

(5) He must not use his position in any way to coerce, or give the appearance of coercing, anyone to provide a financial benefit to him or persons with whom he has family, business, or financial ties.

(6) He must not receive or solicit anything of value as a gift, gratuity, or favor for himself or persons with whom he has family, business, or financial ties if the acceptance would result in loss of complete independence or impartiality in serving the Government.

(7) He may teach, lecture, publish, or write in a manner not inconsistent with the regulations in §§ 73.735-403 to 73.735-405 for such activities for regular employees.

(b) A special Government employee who has questions about conflicts of interest or the application of the regulations in this part to him or his assigned work should make inquiry of the person who assigns his work. That person will direct him to the counselor or deputy counselor for interpretative and advisory services as provided in § 73.735-104.

§ 73.735-1203 Statement of financial interests required.

(a) Each special Government employee described in §§ 73.735-1205 and 73.735-1206 must submit a statement which reports:

- (1) All other employment; and
- (2) The financial interests which relate either directly or indirectly to his duties and responsibilities.

(b) Such statement must be submitted not later than the time of employment. If during the period of appointment the special Government employee undertakes a new employment, he must promptly file an amended statement and must report any new financial interests which relate either directly or indirectly to his duties acquired during the period of appointment.

(c) The format prescribed in Appendix E to this part shall be used for recording the information required by paragraph (a) of this section.

(d) Officials responsible for reviewing statements of employment and financial interests shall be the same as those designated to give administrative approval to outside work of regular employees unless the head of the operating agency designates another official to be responsible for such review. When no conflict of interest is disclosed by the review of the statements, no further action is necessary by the reviewing officer and the statement shall be filed

in accordance with paragraph (e) of this section. When a question of conflict of interest arises, the reviewing officer shall work with the consultant or special Government employee to resolve the matter or shall refer the question to the appropriate counselor or deputy counselor for further consideration and action.

(e) A confidential file of completed statements of employment and financial interests shall be maintained in the personnel office that maintains the official personnel folder (but not in the personnel folder), together with correspondence, memorandum, etc., relating specifically thereto. These forms and related materials are not forwarded to the Federal Records Center upon separation of the employee but are disposed of in accordance with the appropriate disposal schedule.

§ 73.735-1204 Special Government employees who must submit statement of financial interests.

(a) The statement of financial interests described in § 73.735-1203 must be submitted by the following special Government employees:

- (1) Consultants, experts, or advisers (hereafter referred to in this subpart as consultants) described in § 73.735-1205;
- (2) Such special Government employees (other than consultants) as the heads of operating agencies so determine (in accordance with § 73.735-1206).

§ 73.735-1205 Coverage—consultants.

(a) As used in this subpart, the term consultant refers to a person whose advice the Department obtains on a temporary (either full or part-time) or intermittent basis because of his individual qualifications, and who serves as an officer or employee of the Government for the periods during which his advice is obtained. Where this definition is met, the consultant (except for any excluded in paragraph (b) of this section) is subject to this subpart irrespective of:

- (1) The title by which he is designated;
- (2) The statutory authority under which his services are obtained;
- (3) The duration of the period for which his services are obtained (and whether or not limited to 130 days within the period of employment);
- (4) Whether his services are obtained by appointment or invitation and acceptance. (A consultant whose services are obtained by contract is also subject to this subpart if his relationship to the Department is that of an employee. Such condition will exist only through error or misunderstanding, as Department instructions require that a person whose relationship to the Department is that of an employee shall be appointed. Only where there is not to be such relationship shall a formal contract be processed.)

(5) Whether services are compensated or rendered without compensation;

(6) Whether or not services are obtained pursuant to a statute exempting persons rendering services from conflict of interest statutes.

(b) This subpart need not be applied to:

(1) Doctors, dentists, and similar specialists performing services for, or consulted as to the diagnosis or treatment of, individual patients;

(2) Doctors advising or testifying on medical issues or medical matters in connection with pending claims or appeals or advising on general questions as to the nature, extent, or severity of various types of impairments;

(3) Veterinarians performing services for or consulted as to treatment of individual animals;

§ 73.735-1206 Coverage—special Government employees other than consultants.

(a) Coverage by § 73.735-1203 requiring the submission of a statement of financial interests is waived for special Government employees (other than consultants) except those identified by the heads of operating agencies. Such identification shall be published in Appendix C to this part. The identification may be made because of the nature of the duties, or because of the nature of the principal employment, which is non-governmental. For example, a special Government employee, even though not a consultant, may be made subject to § 73.735-1203 if:

(1) The performance of his Department duties could directly and predictably affect a person or organization that is known to: Have a grant from this Department or contract with it; be seeking or negotiating such grant or contract; conduct an operation that is subject to regulation by the Department (as, for example, drug manufacture is subject to regulation under the Federal Food, Drug and Cosmetic Act).

(2) His principal occupation or employment is not his Government employment and is of such nature that being made subject to § 73.735-1203 is desirable to protect him and the Department from possible conflict-of-interest situations: Viz, those whose principal non-Government occupation is: On or concerned with work for the Government, or supported in whole or in part by the Government under grant or contract; on or concerned with work for which Government support is being sought; in any category of work which the head of the operating agency, or official he designates, determines should be subject to § 73.735-1203.

§ 73.735-1207 Restrictions—conflict-of-interest statutes.

(a) Each consultant and special Government employee covered by this subpart shall acquaint himself in particular with sections of Title 18 numbered 203, 205, 207, 208, and 209, all referenced in Appendix A to this part. Sections 203 and 205 contain prohibitions affecting the activities of Government employees in their private capacities. The prohibitions applicable to special Government employees are less stringent than those which affect employees appointed to serve more than 130 days a year. Section 207 contains prohibitions affecting the activities of persons who leave the service of the Government. It applies with the same force to former special

Government employees as to former regular employees. Section 208 sets forth a restriction on the activities of a Government employee in performing his functions as such. This section also applies with the same force to special Government employees as to regular employees. Section 209, which prohibits a regular employee's receipt of compensation from private sources in certain circumstances, specifically excludes special Government employees from its coverage.

§ 73.735-1208 Requesting waivers or exemptions.

(a) A consultant or special Government employee may request the following waivers or exemptions:

(1) An ad hoc exemption under 18 U.S.C. 208(b) if the outside financial interest is deemed not substantial enough to have an effect on the integrity of his services. A waiver of insignificant interests by a general rule or regulation requires approval by the Secretary and publication in the FEDERAL REGISTER.

(2) A limited waiver is permitted of restrictions in 18 U.S.C. 205 for the benefit of an employee who represents his own parents, spouse or child, or a person or estate he serves as a fiduciary. The waiver is available whether acting for such person with or without compensation, but only if approved by the agency in which the employee works. In no event does the waiver extend to his representation of any such person in matters in which he has participated personally and substantially or which, even in the absence of such participation, are the subject of his official responsibility. (The term "official responsibility" is defined by 18 U.S.C. 202(b) to mean "the direct administrative or operating authority, whether intermediate or final, and either exercisable alone or with others, and either personally or through subordinates, to approve, disapprove, or otherwise direct Government action.")

(3) Be allowed to represent his regular employer or other outside organization in the performance of work under a Government grant or contract upon certification by the Secretary that the national interest requires it. Publication in the FEDERAL REGISTER of such certifications is required.

(b) A file of all waivers or exemptions granted shall be maintained in such manner that information can be given promptly on individual cases or statistics provided upon request. Unless the head of the agency specifically provides for maintenance elsewhere, these records, together with written advice given in connection with less formal requests concerning questions of ethical standards, are kept with the employee's statement of employment and financial interests, required to be filed in the personnel office in accordance with § 73.735-1203(d).

§ 73.735-1209 Negotiations for contracts or grants.

(a) A consultant or special Government employee, even though not compelled to do so by 18 U.S.C. 203 and 205, should make every effort in his private work to avoid any personal contact with respect to negotiations for contracts or

grants with the department or agency which he is serving if the subject matter is related to the subject matter of his consultancy or other service. Any employee who believes that his case justified exception to this general principle may present a request in writing to the Department official who assigns his duties and request a reply in writing.

§ 73.735-1210 Salary from two sources.

Special Government employees are not subject to 18 U.S.C. 209 which prohibits other employees from receiving any salary, or supplementation of Government salary from a private source as a compensation for services to the Government. As a matter of policy this Department will not knowingly pay per diem to a consultant who also receives per diem pay for the same day from another Government agency (in or outside the Department).

This Part 73 was approved by the Civil Service Commission on January 20, 1966. This Part 73 shall become effective upon publication in the FEDERAL REGISTER.

[SEAL]

JOHN W. GARDNER,
Secretary.

MARCH 11, 1966.

APPENDIX D—CONFIDENTIAL STATEMENT OF EMPLOYMENT AND FINANCIAL INTERESTS (FOR USE BY REGULAR GOVERNMENT EMPLOYEES)¹

APPENDIX E—CONFIDENTIAL STATEMENT OF EMPLOYMENT AND FINANCIAL INTERESTS (FOR USE BY SPECIAL GOVERNMENT EMPLOYEES)¹

APPENDIX F—CODE OF ETHICS FOR GOVERNMENT SERVICE

Any person in government service should: Put loyalty to the highest moral principles and to country above loyalty to persons, party, or Government department.

Uphold the Constitution, laws, and legal regulations of the United States and all governments therein and never be a party to their evasion.

Give a full day's labor for a full day's pay; giving to the performance of his duties his earnest effort and best thought.

Seek to find and employ more efficient and economical ways of getting tasks accomplished.

Never discriminate unfairly by the dispensing of special favors or privileges to anyone, whether for remuneration or not; and never accept, for himself or his family, favors or benefits under circumstances which might be construed by reasonable persons as influencing the performance of his governmental duties.

Make no private promises of any kind binding upon the duties of office, since a Government employee has no private word which can be binding on public duty.

Engage in no business with the Government, either directly or indirectly, which is inconsistent with the conscientious performance of his governmental duties.

Never use any information coming to him confidentially in the performance of governmental duties as a means for making private profit.

Expose corruption wherever discovered.

Uphold these principles, ever conscious that public office is a public trust.

(This code of ethics was agreed to by the House of Representatives and the Senate as H. Con. Res. 175 in the 2d session of the 85th Congress. The code applies to all Government Employees and Office Holders.)
