FEDERAL REGISTER

Area Code 202 Phone 963-3261

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The Federal Register will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies varies in proportion to the size of the issue (15 cents for the first 80 pages and 5 cents for each additional group of 40 pages, as actually bound). Remit check or money order, made payable to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first Federal Register issue of each month.

Contents

List of CFR Parts Affected

(Codification Guide)

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date appears at the end of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1966, and specifies how they are affected.

Presidential Documents

Title 3—THE PRESIDENT

Proclamation 3717

STATE AND MUNICIPAL BOND WEEK

By the President of the United States of America

A Proclamation

Over 70 percent of all Americans now live in urban areas. These are also the areas which will receive the greatest impact from the growth of our population in the years ahead. By 1975, we will need schools for 10 million additional children, welfare and health facilities for five million more people over the age of 60, and transportation facilities for the daily movement of more than 200 million people.

In the remainder of this century—little more than 30 years from now—we will have to build in our cities as much as all we have built since the first colonists arrived in the New World. Our urban population will double, and the amount of land falling within metropolitan areas will also double. In this short time we must virtually rebuild the entire urban United States.

One of the most effective tools for financing such growth is the State or municipal bond issue. State and municipal bonds build hospitals, schools, sanitation facilities, pumping plants for water, roads and bridges—all the many facilities needed to create a wholesome environment for our cities.

These bond issues represent local initiative and local responsibility in meeting pressing community needs. They are in the best tradition of our American system of Government and our American system of enterprise.

To create full understanding of the opportunities and benefits to community life which are provided by State and municipal bonds, the Congress by a Joint Resolution, approved April 16, 1966, has requested the President to issue a Proclamation designating the week beginning April 17, 1966 as State and Municipal Bond Week.

NOW, THEREFORE, I, LYNDON B. JOHNSON, President of the United States of America, do hereby proclaim the week beginning April 17, 1966 as State and Municipal Bond Week, in recognition of the role that State and municipal bonds play in building a better community.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this sixteenth day of April in the year of our Lord nineteen hundred and sixty-six, and [SEAL] of the Independence of the United States of America the one hundred and ninetieth.

LYNDON B. JOHNSON

By the President:

DEAN RUSK,
Secretary of State.

Title 7—AGRICULTURE

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 108, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of Navel oranges grown in Arizona and designated part of California.

Order, as amended. The provisions in paragraph (b)(1) (i) and (ii) of § 907.408 (Navel Orange Regulation 108, 31 F.R. 5607) are hereby amended to read as follows:

§ 907.408 Navel Orange Regulation 108.

* * * * *

(b) *Order.* (1) * * *

(i) District 1: 850,000 cartons;

(ii) District 2: 325,000 cartons.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 15, 1966.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Reg., 1966 and Subsequent Crops Soybean Supp.]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1966 and Subsequent Crops Soybean Loan and Purchase Program

The General Regulations Governing Price Support for the 1964 and Subsequent Crops (Revision 1) (31 F.R. 5941) issued by the Commodity Credit Corporation which contain regulations of a general nature with respect to price support loan and purchase operations are supplemented for the 1966 and subsequent crops of soybeans as follows:

Sec.
1421.2951 Purpose.
1421.2952 Availability.
1421.2953 Eligible soybeans.
1421.2954 Determination of quality.
1421.2955 Determination of quantity.
1421.2956 Warehouse receipts.
1421.2957 Fees and charges.
1421.2958 Warehouse charges.
1421.2959 Maturity of loans.
1421.2960 Support rates.

AUTHORITY: The provisions of this subpart issued under sec. 4, 62 Stat. 1070 as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 203, 301, 401, 63 Stat. 1054; 7 U.S.C. 1446(d), 1447, 1421.

§ 1421.2951 Purpose.

This subpart contains program provisions which, together with the annual soybean crop supplement, the provisions of the General Regulations Governing Price Support for the 1964 and Subsequent Crops (Revision 1) and any amendments thereto or revisions thereof (such regulations are referred to in this subpart as "General Regulations"), and the Cooperative Marketing Association Eligibility Requirements for Price Support in Part 1425 of this chapter and any amendments thereto, apply to loans and purchases for the 1966 and subsequent crops of soybeans.

§ 1421.2952 Availability.

Producers desiring price support for soybeans must obtain a loan or notify the ASCS county office of intentions to sell to CCC no later than the dates set forth in the applicable annual soybean crop supplement to the regulations in this part.

§ 1421.2953 Eligible soybeans.

(a) *General.* To be eligible for a loan or a purchase, the soybeans may be of any class but must be merchantable for food, feed, or other uses, as determined by CCC, and must not contain mercurial compounds or other substances poisonous to man or animals.

(b) *Warehouse stored loan grade requirements.* To be eligible for a warehouse-storage loan, the soybeans must also meet the following requirements:

(1) The soybeans must grade No. 4 or better.

(2) If the soybeans grade "Weevily," the warehouse receipt issued for such soybeans must be accompanied by a supplemental certificate which provides for the delivery by the warehouseman of soybeans which do not grade "Weevily" and which are otherwise of an eligible grade and quality. The grade, grading factors and the quantity shown on the supplemental certificate must be as specified in § 1421.2956(c).

(3) If the soybeans contain in excess of 14 percent moisture, the warehouse receipt issued for such soybeans must be accompanied by a supplemental certificate which provides for the delivery by the warehouseman of soybeans containing not over 14 percent moisture and which are otherwise of an eligible grade and quality. The grade, grading factors and the quantity shown on the supplemental certificate must be as specified in § 1421.2956(c).

(4) Soybeans must not grade "Garlicky."

§ 1421.2954 Determination of quality.

The class, grade, grading factors and all other quality factors shall be based on the Official Grain Standards of the United States for Soybeans, whether or not determinations are made on the basis of an official inspection.

§ 1421.2955 Determination of quantity.

When the quantity is determined by weight, a bushel shall be 60 pounds of soybeans.

(a) *In warehouse.* The quantity of soybeans stored in an approved warehouse and on which a warehouse storage loan may be made, and the quantity of soybeans delivered to or acquired by CCC in an approved warehouse, shall be the net weight specified on the warehouse receipt, or on the supplemental certificate, if applicable. If the soybeans have been dried or blended to reduce the moisture content, the quantity specified on the warehouse receipt or the supplemental certificate, if applicable, shall be the quantity after drying or blending, and such quantity shall reflect a minimum shrink in the receiving weight of 1.2 times the percentage difference between the moisture content of the soybeans when received, and 14 percent.

(b) *On farm.* The quantity of soybeans eligible to be placed under a farm storage loan shall be determined in accordance with § 1421.67 of the General Regulations. The quantity acquired by CCC from farm storage shall be determined by weight.

§ 1421.2956 Warehouse receipts.

Warehouse receipts tendered to CCC in connection with a loan or purchase must meet the requirements of this section.

(a) *Separate receipt.* A separate warehouse receipt must be submitted for each grade and class of soybeans. In the case of approved cooperative marketing associations, a separate warehouse receipt also must be submitted for each county support rate at which price support is obtained.

(b) *Entries.* Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show all of the following: (1) Gross weight and bushels, (2) class, (3) grade, (4) test weight, (5) moisture, (6) percentage of foreign material, (7) any other grading factor(s) when such factor(s), and not test weight or moisture, determine the grade, (8) for soybeans grading No. 3 or No. 4, the percentage of splits, total damage and heat damage and (9) the date the soybeans were received or deposited in the warehouse.

(c) *Where warehouse receipt shows "Weevily," or moisture over 14 percent, or both.* If a warehouse receipt tendered for a loan shows that the soybeans grade "Weevily" or contain over 14 percent moisture, or both, the warehouse receipt must be accompanied by a supplemental certificate as provided in § 1421.2953(b) (2) and (3) in order for the soybeans to be eligible for price support. The grade, grading factors, quantity to be delivered, and other information must be shown on the supplemental certificate as follows: (1) When the warehouse receipt shows "Weevily" and the soybeans have been conditioned to correct the "Weevily" condition, the supplemental certificate must show the same grade without the "Weevily" designation and the same grading factors and quantity as shown on the warehouse receipt; (2) when the warehouse receipt shows moisture content over 14 percent and the soybeans have been dried or blended, the supplemental certificate must show the grade, grading factors, and quantity after drying or blending the soybeans to a moisture content of not over 14 percent. The quantity shown on the supplemental certificate shall reflect a drying or blending shrink specified in § 1421.2955(a); (3) the supplemental certificate must state that no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of the warehouse receipt; (4) in the case of conditions specified in subparagraphs (1) and (2) of this paragraph, the grade, grading factors, and the quantity shown on the supplemental certificate shall supersede the entries for such items on the warehouse receipt.

(d) *Liens.* The warehouse receipts may be subject to liens for warehouse charges only to the extent indicated in § 1421.2958.

§ 1421.2957 Fees and charges.

The producer shall pay a loan service fee and delivery charge as specified in § 1421.60(b) of the General Regulations.

§ 1421.2958 Warehouse charges.

(a) *Handling and storage liens.* Warehouse receipts and the soybeans represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the soybeans are deposited in the warehouse for storage. Warehouse receipts and the soybeans represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. In no event shall a warehouseman be entitled to satisfy the lien by sale of the soybeans when CCC is holder of the warehouse receipt.

(b) *Deduction of storage charges—U.G.S.A. warehouses.* The table set forth in the annual soybean crop supplement will provide the deduction for storage charges to be made from the amount of the loan or purchase price in the case of soybeans stored in approved warehouses operated under the Uniform Grain Storage Agreement. Such deduction shall be based on entries shown on the warehouse receipts. If written evidence is submitted with the warehouse receipt that all warehouse charges except receiving and loading out charges have been prepaid through the loan maturity date, no storage deduction shall be made. If such written evidence is not submitted, the beginning date to be used for computing the storage deduction on soybeans stored in warehouses operating under the Uniform Grain Storage Agreement shall be the latest of the following: (1) The date the soybeans were received or deposited in the warehouse, (2) the date storage charges start, or (3) the day following the date through which storage charges have been paid.

(c) *Deduction of storage charges—Eastern common carriers.* In the case of soybeans stored in an approved warehouse operated by an Eastern common carrier there shall be deducted in computing the loan or purchase price, the amount of the approved tariff rate for storage (not including elevation) which will accumulate from the date of deposit through the maturity date unless written evidence is submitted with the warehouse receipt that such charges have been prepaid. The State office shall advise county offices of the applicable charges. Where the producer presents evidence showing the elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

§ 1421.2959 Maturity of loans.

Loans will mature on demand but not later than the date specified in the annual soybean crop supplement to the regulations in this part.

§ 1421.2960 Support rates.

The basic county support rates and the schedule of premiums and discounts for use in making loans and for use in settling loans and for purchases shall be as set forth in the annual soybean crop supplement to the regulations in this part.

Effective date. Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on April 14, 1966.

H. D. GODFREY,
Executive Vice President,
Commodity Credit Corporation.

[F.R. Doc. 66-4322; Filed, Apr. 19, 1966; 8:50 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Docket No. 7297; Amdt. 39-224]

PART 39—AIRWORTHINESS DIRECTIVES

Sensenich Model M76EMM and M76EMMS Propellers

There have been failures of Sensenich Model M76EMM and M76EMMS propellers resulting from corrosion pits that initiated fatigue cracks under the midblade decal. Since this condition is likely to exist or develop in other propellers of the same type design, an airworthiness directive is being issued to require inspection of the subject propellers for cracks and corrosion, and repair or replacement as necessary.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SENSENICH. Applies to Model M76EMM and M76EMMS fixed-pitch propellers that have not been inspected and reconditioned as necessary by the manufacturer in accordance with Sensenich Propeller Bulletin No. R-10, dated January 4, 1965. (Airplanes on which these propeller models are installed include but are not necessarily limited to Piper Model PA-28-180, S/N 28-671 through 28-2336.)

Compliance required within the next 20 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent further midblade propeller failures resulting from corrosion pits that initiate fatigue cracks under the midblade decal, accomplish the following:

(a) Soak midblade decals with paint remover and rub off with a rag. (Scraping or sanding of decals may inadvertently obscure evidence of possible corrosion.)

(b) Apply dye penetrant to the midblade area and inspect for corrosion and cracks with a glass of at least three power.

(c) Remove corrosive pits 0.015 inch deep or less by sanding with a 220 grit wet or dry abrasive paper and polishing with a paper of 320 grit or finer.

(d) Clean area thoroughly and reinspect in accordance with paragraph (b) to ensure that removal of all corrosive pits has been accomplished. Clean and spray repaired area with a clear lacquer.

(e) Replace before further flight any propeller having corrosive pits 0.015 inch deep or greater or having cracks with a propeller of the same model number that has been inspected and repaired as necessary in accordance with this AD.

(Sensenich Propeller Bulletin No. R-11, dated March 1, 1966, and Piper Service Bulletin No. 473, dated March 1, 1966, pertain to this subject.)

This amendment becomes effective April 20, 1966.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, and 1423)

Issued in Washington, D.C., on April 13, 1966.

EDWARD C. HODSON,
Acting Director,
Flight Standards Service.

[F.R. Doc. 66-4252, Filed, Apr. 19, 1966; 8:45 a.m.]

Title 15—COMMERCE AND FOREIGN TRADE

Chapter II—National Bureau of Standards, Department of Commerce

SUBCHAPTER B—STANDARD REFERENCE MATERIALS

PART 230—STANDARD REFERENCE MATERIALS

Subpart D—Standards of Certified Properties and Purity

RADIOACTIVITY STANDARDS

Under the provisions of 15 U.S.C. 275a and 277, the following amendment relating to standard reference materials issued by the National Bureau of Standards is effective upon publication in the FEDERAL REGISTER. The amendment renews and revises standard reference material 4944-B.

The following amends Title 15 CFR Part 230:

Section 230.8-5 *Radioactivity standards* (b)(3) *Beta, gamma and electron-capture solution standards* is amended to renew and revise standard 4944-B as follows:

Sample No.	Radionuclide	Calibration radiation	Approximate activity	Approximate weight of solution	Price
4944-C	Iodine-125	X-ray	1.5×10^{5} dps/g (3/66)	5g	$53.00

(Sec. 9, 31 Stat. 1450, as amended; 15 U.S.C. 277. Interprets or applies sec. 7, 70 Stat. 959; 15 U.S.C. 275a)

Dated: April 6, 1966.

A. V. ASTIN,
Director.

[F.R. Doc. 66-4257; Filed, Apr. 19, 1966; 8:45 a.m.]

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

PART 83—SCREWWORMS

Revocation of Part

Pursuant to sections 4 through 7 of the Act of May 29, 1884, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, and section 3 of the Act of July 2, 1962 (21 U.S.C. 111-113, 115, 117, 120, 121, 134b), Part 83 of Chapter I, Subchapter C, Title 9, Code of Federal Regulations, containing regulations imposed because of screwworms, is hereby revoked.

(Secs. 4 through 7, 23 Stat. 32, as amended, secs. 1 and 2, 32 Stat. 791, as amended, 792, as amended, sec. 3, 76 Stat. 130; 21 U.S.C. 111-113, 115, 117, 120, 121, 134b; 29 F.R. 16210, as amended, 30 F.R. 5801)

The foregoing action revokes certain restrictions pertaining to the interstate movement of animals, because such restrictions are no longer deemed necessary to prevent the dissemination of screwworms. Inasmuch as this action relieves certain restrictions presently imposed, it should be made effective promptly in order to be of maximum benefit to persons subject to such restrictions. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to this action are impracticable and contrary to the public interest, and such action may be made effective less than 30 days after publication in the FEDERAL REGISTER.

Effective date. This revocation shall become effective upon publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 14th day of April 1966.

R. J. ANDERSON,
Deputy Administrator,
Agricultural Research Service.

[F.R. Doc. 66-4281; Filed, Apr. 19, 1966; 8:47 a.m.]

Title 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

SUBCHAPTER B—BUREAU OF THE PUBLIC DEBT

PART 316—OFFERING OF UNITED STATES SAVINGS BONDS, SERIES E

The regulations set forth in Treasury Department Circular No. 653, Sixth Revision (31 CFR Part 316), dated December 23, 1964, are hereby further revised in the form shown below. This revision of the regulations is issued under authority of Revised Statutes, section 161 (5 U.S.C. 22), and the Second Liberty Bond Act (31 U.S.C. 757c, 757c-1), both as amended.

The revision increases the investment yield (interest) and shortens the term to maturity of Series E savings bonds. As these matters involve fiscal policy of the United States, notice and public procedure hereon are unnecessary. The regulations, as revised, were adopted on March 18, 1966.

Dated: March 18, 1966.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

Department Circular No. 653, Sixth Revision, dated December 23, 1964, and the tables incorporated therein (31 CFR Part 316), are hereby further amended and issued as the Seventh Revision.

AUTHORITY: The provisions of this Part 316 issued under secs. 22 and 25 of the Second Liberty Bond Act, as amended, 49 Stat. 21, as amended, and 73 Stat. 621 (31 U.S.C. 757c, 757c-1).

§ 316.1 Offering of bonds.

The Secretary of the Treasury hereby offers for sale to the people of the United States, U.S. Savings Bonds of Series E, hereinafter generally referred to as Series E bonds. This offering of bonds will continue until terminated by the Secretary of the Treasury.

§ 316.2 Description of bonds.

(a) *General.* Series E bonds bear a facsimile of the signature of the Secretary of the Treasury and of the Seal of the Treasury Department. They are issued only in registered form and are nontransferable.

(b) *Denominations and prices.* Series E bonds are issued on a discount basis at 75 percent of their face values. The denominations and issue prices are:

Denomination (face value)	*Issue (purchase) price*
$25	$18.75
$50	37.50
$75	56.25
$100	75.00
$200	150.00
$500	375.00
$1,000	750.00
$10,000	7,500.00
$100,000 [1]	75,000.00

[1] The $100,000 denomination is available only for purchase by trustees of employees' savings and savings and vacation plans (see sec. 316.5(c)).

(c) *Inscription and issue.* At the time of issue the issuing agent will (1) inscribe on the face of each Series E bond the name and address of the owner, and the name of the beneficiary, if any, or the name and address of the first named coowner and the name of the other coowner, (2) enter in the upper right-hand portion of the bond the issue date, and (3) imprint the agent's dating stamp in the lower right-hand portion to show the date the bond is actually inscribed. A Series E bond shall be valid only if an authorized issuing agent receives payment therefor and duly inscribes, dates, stamps, and delivers it in accordance with the purchaser's instructions. The Treasury Department may require, without prior notice, that the appropriate taxpayer identifying number, as required on tax returns and other documents submitted to the Internal Revenue Service, be furnished for inclusion in the inscription.

(d) *Term.* A Series E bond shall be dated as of the first day of the month in which payment of the issue price is received by an agent authorized to issue such bonds. This date is the issue date and the bond will mature and be payable at face value 7 years from such issue date. The bond may not be called for redemption by the Secretary of the Treasury prior to maturity or the end of any extended maturity period (see § 316.8(a)(1)). It may be redeemed at the owner's option at any time after 2 months from issue date at fixed redemption values; however, the Treasury Department may require reasonable notice of presentation for redemption prior to maturity or extended maturity.

(e) *Investment yield (interest).* The investment yield (interest) on a Series E bond will be approximately 4.15 percent per annum compounded semiannually, if the bond is held to maturity;[2] but the yield will be less if the bond is redeemed prior to maturity. The interest will be paid as a part of the redemption value. For the first 6 months from issue date the bond will be redeemable only at issue price. Thereafter, its redemption value will increase at the beginning of each successive half-year period. See Table 1.

[2] Under authority of sec. 25, 73 Stat. 621 (31 U.S.C. 757c-1), the President of the United States on Feb. 16, 1966, concluded that with respect to Series E bonds it was necessary in the national interest to exceed the maximum interest rate and investment yield prescribed by sec. 22 of the Second Liberty Bond Act, as amended (31 U.S.C. 757c).

(f) *Bonds with issue dates December 1, 1965, or thereafter.* Series E bonds with issue dates of December 1, 1965, or thereafter, are deemed to be Series E bonds issued under the terms of this circular and the investment yield and shorter term of maturity provided for in paragraphs (d) and (e) of this section, are applicable to such bonds. Series E bond stock on sale prior to December 1, 1965, will be used for issue under this circular until such time as new stock is printed and supplied to issuing agents. Such bonds have the new investment yield and redemption values and all other privileges as fully as if expressly set forth in the text of the bonds. It will be unnecessary for owners to exchange bonds issued on the old stock for bonds on the new stock as all paying agents will redeem the bonds in accordance with the schedule of redemption values set forth in Table 1. However, when the new stock becomes available, issuance on the new stock may be obtained by presentation for that purpose of bonds issued on the old stock to any Federal Reserve Bank or Branch, or to the Treasurer of the United States, Securities Division, Washington, D.C., 20220.

§ 316.3 Governing regulations.

Series E bonds are subject to the regulations of the Treasury Department, now or hereafter prescribed, governing U.S. Savings Bonds, contained in Department Circular No. 530, current revision (31 CFR Part 315).[3]

§ 316.4 Registration.

(a) *General.* Generally, only residents of the United States, its territories and possessions, the Commonwealth of Puerto Rico, the Canal Zone and citizens of the United States temporarily residing abroad are eligible to be named as owners of Series E bonds. The bonds may be registered in the names of natural persons in their own right as provided in paragraph (b) of this section, and in the names and titles or capacities of fiduciaries and organizations as provided in paragraph (c) of this section. Full information regarding authorized forms of registration and restrictions with respect thereto will be found in the governing regulations.

(b) *Natural persons in their own right.* The bonds may be registered in the names of natural persons (whether adults or minors) in their own right, in single ownership, coownership, and beneficiary forms.

(c) *Others.* The bonds may be registered in single ownership form in the names of fiduciaries and private and public organizations, as follows:

[3] Copies may be obtained from any Federal Reserve Bank or Branch, or the Bureau of the Public Debt, Washington, D.C., 20220, or its Chicago Office, 536 South Clark Street, Chicago, Ill., 60605.

(1) *Fiduciaries.* In the names of and showing the titles or capacities of any persons or organizations, public or private, as fiduciaries (including trustees, legal guardians or similar representatives, and certain custodians), but not where the fiduciary would hold the bonds merely or principally as security for the performance of a duty, obligation, or service.

(2) *Private and public organizations.* In the names of private or public organizations (including private corporations, partnerships, and unincorporated associations, and States, counties, public corporations, and other public bodies) in their own right, but not in the names of commercial banks.[4]

§ 316.5 Limitation on holdings.

The amount of Series E bonds originally issued during any 1 calendar year that may be held by any one person, at any one time, computed in accordance with the governing regulations, is limited, as follows:

(a) *General limitation.* $10,000 (face value) for the calendar year 1959 and each calendar year thereafter.

(b) *Special limitation for owners of savings bonds of Series F, G, J, and K.* Owners, except commercial banks[4] in their own right (as distinguished from a representative or fiduciary capacity), of outstanding bonds of Series F and G, all of which are now matured, and bonds of Series J and K, at or after maturity, may purchase Series E bonds with the proceeds of redemption without regard to the general limitation on holdings, under the following conditions and restrictions:

(1) The bonds must be presented to a Federal Reserve Bank or Branch or the Office of the Treasurer of the United States, Securities Division, Washington, D.C., 20220, for the specific purpose of taking advantage of this privilege. The Series E bonds will be dated as of the first day of the month in which the bonds presented are received by the agency.

(2) Series E bonds may be purchased with the proceeds of the bonds presented only up to the denominational amounts that the proceeds thereof will fully cover. Any difference between such proceeds and the purchase price of the Series E bonds will be paid to the owner.

(3) The Series E bonds will be registered in the name of the owner in any authorized form of registration, subject to the restrictions prescribed by the governing regulations.

(4) This privilege will continue until terminated by the Secretary of the Treasury.

(c) *Special limitation for employees' savings plans.* $2,000 (face value) multiplied by the highest number of participants in any employees' savings plan, as defined in subparagraph (1) of this paragraph at any time during the year in which the bonds are issued.[5]

(1) *Definition of plan and conditions of eligibility.* (i) The employees' savings plan must have been established by the employer for the exclusive and irrevocable benefit of his employees or their beneficiaries, afford employees the means of making regular savings from their wages through payroll deductions, and provide for employer contributions to be added to such savings.

(ii) The entire assets thereof must be credited to the individual accounts of participating employees and assets credited to the account of an employee may be distributed only to him or his beneficiary, except as otherwise provided herein.

(iii) Series E bonds may be purchased only with assets credited to the accounts of participating employees and only if the amount taken from any account at any time for that purpose is equal to the purchase price of a bond or bonds in an authorized denomination or denominations, and shares therein are credited to the accounts of the individuals from which the purchase price thereof was derived, in amounts corresponding with their shares. For example, if $37.50 credited to the account of John Jones is commingled with funds credited to the accounts of other employees to make a total of $7,500, with which a Series E bond in the denomination of $10,000 (face value) is purchased in February 1966 and registered in the name and title of the trustee, the plan must provide, in effect, that John Jones' account shall be credited to show that he is the owner of a Series E bond in the denomination of $50 (face value) bearing issue date of February 1, 1966.

(iv) Each participating employee shall have an irrevocable right at any time to demand and receive from the trustee all assets credited to his account or the value thereof, if he so prefers, without regard to any condition other than the loss or suspension of the privilege of participating further in the plan. However, a plan will not be deemed to be inconsistent herewith if it limits or modifies the exercise of any such right by providing that the employer's contribution does not vest absolutely until the employee shall have made contributions under the plan in each of not more than 60 calendar months succeeding the month for which the employer's contribution is made.

(v) Upon the death of an employee, his beneficiary shall have the absolute and unconditional right to demand and receive from the trustee all assets credited to the account of the employee, or the value thereof, if he so prefers.

(vi) When settlement is made with an employee or his beneficiary with respect to any Series E bond registered in the name and title of the trustee in which the employee has a share (see subdivisions (ii) and (iii) of this subparagraph), the bond must be submitted for redemption or reissue to the extent of such share. If an employee or his beneficiary is to receive distribution in kind, bonds bearing the same issue dates as those credited to the employee's account will be reissued in the name of the distributee to the extent to which he is entitled, in authorized denominations, in any authorized form of registration, upon the request and certification of the trustee in accordance with the governing regulations.

(2) *Definition of terms used in this subsection—related provisions.* (i) The term "savings plan" includes any regulations issued under the plan with regard to Series E bonds. A trustee desiring to purchase bonds in excess of the general limitation in any calendar year should submit to the Federal Reserve Bank of the District, a copy of (*a*) the plan, (*b*) any such regulations, and (*c*) the trust agreement, all certified to be true copies, in order to establish his eligibility.

(ii) The term "assets" means all funds, including the employees' contributions and employer's contributions and assets purchased therewith as well as accretions thereto, such as dividends on stock, the increment in value on bonds and all other income; but, notwithstanding any other provision of this subsection, the right to demand and receive "all assets" credited to the account of an employee shall not be construed to require the distribution of assets in kind when it would not be possible or practicable to make such distribution; for example, Series E bonds may not be reissued in unauthorized denominations, and fractional shares of stock are not readily distributable in kind.

(iii) The term "beneficiary" means the person or persons, if any, designated by the employee in accordance with the terms of the plan to receive the benefits of the trust upon his death or the estate of the employee, and the term "distributee" means the employee or his beneficiary.

§ 316.6 Purchase of bonds.

Series E bonds may be purchased, as follows:

(a) *Over-the-counter for cash*—(1) *Bonds registered in names of natural persons in their own right only.* At such incorporated banks, trust companies, and other agencies as have been duly qualified as issuing agents and at selected U.S. post offices.

(2) *Bonds registered in all authorized forms.* At Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Securities Division, Washington, D.C., 20220.

(b) *On mail order.* By mail upon application to any Federal Reserve Bank or Branch or to the Office of the Treasurer of the United States, Securities Division, Washington, D.C., 20220, accompanied by a remittance to cover the issue price. Any form of exchange, in-

[4] Commercial banks, as defined in Sec. 315.7 (c)(1) of Department Circular No. 530, current revision, for this purpose are those accepting demand deposits.

[5] Savings and vacation plans may be eligible for this special limitation. Questions concerning eligibility of such plans should be addressed to the Bureau of the Public Debt, Division of Loans and Currency Branch, 536 South Clark Street, Chicago, Ill., 60605.

cluding personal checks, will be accepted subject to collection. Checks or other forms of exchange should be drawn to the order of the Federal Reserve Bank or the Treasurer of the United States, as the case may be. Checks payable by endorsement are not acceptable. Any depositary qualified pursuant to the provisions of Treasury Department Circular No. 92, current revision (31 CFR Part 203), will be permitted to make payment by credit for bonds applied for on behalf of its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its district.

(c) *Savings stamps.* Savings stamps, in authorized denominations, may be purchased at most post offices and at such other agencies as may be designated from time to time. The stamps may be used for the purchase of Series E bonds. Albums for affixing the stamps will be available without charge, and such albums will be receivable by any authorized issuing agent in the amount of the affixed stamps on the purchase price of the bonds.

§ 316.7 Delivery of bonds by mail.

Issuing agents are authorized to deliver Series E bonds by mail at the risk and expense of the United States, at the address given by the purchaser, but only within the United States, its territories and possessions, the Commonwealth of Puerto Rico, and the Canal Zone. No mail deliveries elsewhere will be made. If purchased by citizens of the United States temporarily residing abroad, the bonds will be delivered at such address in the United States as the purchaser directs.

§ 316.8 Extended terms and improved yields for outstanding bonds.

(a) *Optional extension privileges*—(1) *General.* The term "optional extension privilege," when used herein, means the privilege of retaining Series E bonds after maturity for a period, known as the "extended maturity period," or as the "second extended maturity period," and of earning interest upon the maturity values or extended maturity values thereof, as the case may be.[6] No special action is required of owners desiring to take advantage of any optional extension privilege. Merely by continuing to hold their bonds after maturity, they will continue to earn further interest.[7]

(2) *Bonds with issue dates May 1, 1941, through May 1, 1949.* Owners of Series E Bonds with issue dates of May 1, 1941, through May 1, 1949, have the option of retaining their bonds for a second extended maturity period of 10 years.[8]

(3) *Bonds with issue dates June 1, 1949, through May 1, 1959.* Owners of Series E bonds with issue dates of June 1, 1949, through May 1, 1959, have the option of retaining their bonds for an extended maturity period of 10 years.[8]

(4) *Bonds with issue dates June 1, 1959, or thereafter.* Owners of Series E bonds with issue dates of June 1, 1959, or thereafter, have the option of retaining their bonds for an extended maturity period of 10 years at rates of interest to be determined prior to the original maturity of such bonds.[8]

(b) *Improved yields* (see footnote 2)—(1) *Bonds with issue dates May 1, 1941, through November 1, 1945.* The investment yield on all outstanding Series E bonds with issue dates of May 1, 1941, through November 1, 1945, is hereby increased by $\frac{4}{10}$ of 1 percent per annum for the remaining period to the second extended maturity date, but the increase in yield will be less if the bonds are redeemed earlier. The increase, on a graduated basis, will begin with the first interest accrual period starting on or after December 1, 1965.

(2) *Bonds with issue dates December 1, 1945, through May 1, 1949.* The investment yield on all outstanding Series E bonds with issue dates of December 1, 1945, through May 1, 1949, is hereby increased by $\frac{4}{10}$ of 1 percent per annum for any remaining period to the extended maturity date, but the increase in yield will be less if the bonds are redeemed earlier. The increase, on a graduated basis, will begin with the first interest accrual period starting on or after December 1, 1965. The investment yield for the second extended maturity period will be approximately 4.15 percent per annum compounded semiannually for each half-year period.

(3) *Bonds with issue dates June 1, 1949, through March 1, 1956.* The investment yield on all outstanding Series E bonds with issue dates of June 1, 1949, through March 1, 1956, is hereby increased by $\frac{4}{10}$ of 1 percent per annum for the remaining period to the extended maturity date, but the increase in yield will be less if the bonds are redeemed earlier. The increase, on a graduated basis, will begin with the first interest accrual period of 6 months starting on or after December 1, 1965.

(4) *Bonds with issue dates April 1, 1956, through May 1, 1959.* The investment yield on all outstanding Series E bonds with issue dates of April 1, 1956, through May 1, 1959, is hereby increased by $\frac{4}{10}$ of 1 percent per annum for the remaining period to the maturity date, but the increase in yield will be less if the bonds are redeemed earlier. The increase, on a graduated basis, will begin with the first interest accrual period of 5 months or more starting on or after December 1, 1965. The investment yield for the extended maturity period will be approximately 4.15 percent per annum compounded semiannually for each half-year period.

(5) *Bonds with issue dates June 1, 1959, through November 1, 1965.* The investment yield on all outstanding Series E bonds with issue dates of June 1, 1959, through November 1, 1965, is hereby increased by $\frac{4}{10}$ of 1 percent per annum for the remaining period to the maturity date, but the increase will be less if the bonds are redeemed earlier. The increase, on a graduated basis, will begin with the first interest accrual period starting on or after December 1, 1965.

§ 316.9 Taxation.

(a) *General.* For the purpose of determining taxes and tax exemptions, the increment in value represented by the difference between the price paid for Series E bonds (which are issued on a discount basis) and the redemption value received therefor shall be considered as interest. Such interest is subject to all taxes imposed under the Internal Revenue Code of 1954. The bonds are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

(b) *Federal income tax on Series E bonds.* An owner of Series E bonds who is a cash basis taxpayer and accordingly not required to report the increase in redemption value of his bonds each year as it accrues is required to include such amount in gross income for Federal income tax purposes for the taxable year of final maturity, actual redemption, or other disposition, whichever is earlier. An owner not reporting the increase in redemption value of such bonds currently for income tax purposes may elect in any year prior to final maturity, subject to the provisions of section 454 of the Internal Revenue Code of 1954 and the regulations prescribed thereunder, for such year and subsequent years to report such income annually. An owner who is required, or chooses, to report the increase in redemption value of his bonds each year as it accrues must continue to do so so long as he retains the bonds, unless in accordance with the income tax regulations he obtains permission from the Internal Revenue Service to change to a different method of reporting income from such obligations. Inquiry concerning further information on Federal taxes should be addressed to the District Director, Internal Revenue Service, of the taxpayer's district, or the Internal Revenue Service, Washington, D.C., 20224.

§ 316.10 Payment or redemption.

(a) *General.* A Series E bond may be redeemed in accordance with its terms at the appropriate redemption value as

[6] The redemption value of any bond at the original maturity date is the base upon which interest will accrue during the extended maturity period. The redemption value of any bond at the extended maturity date is the base upon which interest will accrue during the second extended maturity period.

[7] The tables incorporated herein, arranged according to issue dates, show current redemption values and investment yields.

[8] See Appendix for maturities and summary of investment yields to the maturity, extended maturity and second extended maturity dates under regulations heretofore prescribed for Series E bonds with issue dates May 1, 1941, through Nov. 1, 1965.

shown in the applicable tables hereof for bonds bearing various issue dates back to May 1, 1941. The redemption values of bonds in the denomination of $100,000 (see footnote 1) (which was authorized as of January 1, 1954) are not shown in the tables. However, the redemption values of bonds in that denomination will be equal to the total redemption values of ten $10,000 bonds bearing the same issue dates. A Series E bond in a denomination higher than $25 (face value) may be redeemed in part but only in the amount of an authorized denomination or multiple thereof.

(b) *Federal Reserve Banks and Branches and Treasurer of the United States.* Owners of Series E bonds may obtain payment upon presentation and surrender of the bonds to a Federal Reserve Bank or Branch or to the Office of the Treasurer of the United States, Securities Division, Washington, D.C., 20220, with the requests for payment on the bonds duly executed and certified in accordance with the governing regulations.

(c) *Incorporated banks, trust companies and other financial institutions.* An individual (natural person) whose name is inscribed on a Series E bond either as owner or coowner in his own right may also present such bond to any incorporated bank or trust company or other financial institution which is qualified as a paying agent under Department Circular No. 750, current revision (31 CFR Part 321). If such bond is in order for payment by the paying agent, the owner or coowner, upon establishing his identity to the satisfaction of the agent and upon signing the request for payment and adding his home or business address, may receive immediate payment of the current redemption value.

§ 316.11 Reservation as to issue of bonds.

The Secretary of the Treasury reserves the right to reject any application for Series E bonds, in whole or in part, and to refuse to issue or permit to be issued hereunder any such bonds in any case or any class or classes of cases if he deems such action to be in the public interest, and his action in any such respect shall be final.

§ 316.12 Preservation of rights.

Nothing contained herein shall limit or restrict rights which owners of Series E bonds heretofore issued have acquired under offers previously in force.

§ 316.13 Fiscal agents.

Federal Reserve Banks and Branches, as fiscal agents of the United States, are authorized to perform such services as may be requested of them by the Secretary of the Treasury in connection with the issue, delivery, redemption, and payment of Series E bonds.

§ 316.14 Reservations as to terms of offer.

The Secretary of the Treasury may at any time or from time to time supplement or amend the terms of this offering of bonds (31 CFR Part 316), or of any amendments or supplements thereto.

APPENDIX—MATURITIES AND SUMMARY OF INVESTMENT YIELDS TO THE MATURITY, EXTENDED MATURITY AND SECOND EXTENDED MATURITY DATES UNDER REGULATIONS HERETOFORE PRESCRIBED FOR SERIES E SAVINGS BONDS WITH ISSUE DATES MAY 1, 1941, THROUGH NOVEMBER 1, 1965

Original maturity period.

Bonds with issue dates May 1, 1941, through April 1, 1952: 10-year maturity; 2.90 percent per annum compounded semiannually.

Bonds with issue dates May 1, 1952, through January 1, 1957: 9-year, 8-month maturity; 3.00 percent per annum compounded semiannually.

Bonds with issue dates February 1, 1957, through May 1, 1959: 8-year, 11-month maturity; 3.25 percent per annum compounded semiannually.

Bonds with issue dates June 1, 1959, through November 1, 1965: 7-year, 9-month maturity; 3.75 percent per annum compounded semiannually.

Increases for remaining periods to original maturity dates, effective June 1, 1959:*

Bonds with issue dates December 1, 1949, through April 1, 1952: $\frac{6}{10}$ of 1 percent per annum compounded semiannually.

Bonds with issue dates May 1, 1952, through May 1, 1959: $\frac{5}{10}$ of 1 percent per annum compounded semiannually.

Extended maturity period (10 years).

Bonds with issue dates May 1, 1941, through April 1, 1942:

Approximately 2.90 percent per annum compounded semiannually.

Increased $\frac{6}{10}$ of 1 percent per annum for remainder of period to extended maturity date. Effective June 1, 1959.*

Bonds with issue dates May 1, 1942, through May 1, 1949:

Approximately 3.00 percent per annum compounded semiannually.

Increased $\frac{5}{10}$ of 1 percent per annum for remainder of period to extended maturity date. Effective June 1, 1959.*

Bonds with issue dates June 1, 1949, through April 1, 1957: Approximately 3.75 percent per annum compounded semiannually to extended maturity date. Effective June 1, 1959.*

Second extended maturity period (10 years).

Bonds with issue dates May 1, 1941, through May 1, 1949: Approximately 3.75 percent per annum for each half-year period compounded semiannually. Effective May 1, 1961.

TABLES OF REDEMPTION VALUES AND INVESTMENT YIELDS FOR U.S. SAVINGS BONDS OF SERIES E

Each table shows: (1) The redemption value for each successive half-year term of holding during the current maturity period and the authorized redemption values during any subsequent maturity period, on bonds bearing issue dates covered by the table; (2) The approximate investment yield on the redemption value at the beginning of the current maturity period to the beginning of each half-year period thereafter; and (3) The approximate investment yield on the current redemption value from the beginning of each half-year period to next maturity. Yields are expressed in terms of rate percent per annum, compounded semiannually.

TABLE 1

BONDS BEARING ISSUE DATES BEGINNING DECEMBER 1,1965

Maturity value / Issue price	$25.00 / 18.75	$50.00 / 37.50	$75.00 / 56.25	$100.00 / 75.00	$200.00 / 150.00	$500.00 / 375.00	$1,000.00 / 750.00	$10,000 / 7,500	Approximate investment yield	
Period after issue date	(1) Redemption values during each half-year period (values increase on first day of period shown)								(2) On purchase price from issue date to beginning of each half-year period	(3) On current redemption value from beginning of each half-year period to maturity
									Percent	Percent
First ½ year	$18.75	$37.50	$56.25	$75.00	$150.00	$375.00	$750.00	$7,500	0.00	*4.15
½ to 1 year	18.96	37.92	56.88	75.84	151.68	379.20	758.40	7,584	2.24	4.30
1 to 1½ years	19.32	38.64	57.96	77.28	154.56	386.40	772.80	7,728	3.02	4.34

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 16425; FCC 66-321]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, FM Broadcast Stations

1. The Commission has before it for consideration its notice of proposed rule making, FCC 66-43, issued in this proceeding on January 14, 1966 (31 F.R. 757), inviting comments on a proposal advanced by Henryetta Radio Co., licensee of Station KHEN, Henryetta, Okla., to assign a Class C FM channel to that community as follows:

City	Channel No.	
	Present	Proposed
Eufaula, Okla	----------	272A
Henryetta, Okla	272A	258

2. Henryetta has a population of 6,551 persons and the county in which it is located (Okmulgee) has a population of 35,945 persons. Its only AM station, KHEN, licensed to petitioner, is a daytime-only operation. There are two applications on file for the sole FM assignment in Henryetta. One is from petitioner, BPH-4593, Docket No. 16293 and the second from Tri-City Broadcasting Co., BPH-4482, Docket No. 16292, for use of the channel at Eufaula under the "25-mile rule." Since the applications are mutually exclusive they will require a comparative hearing unless the subject proposal is adopted. Eufaula has a population of 2,382 and its county has a population of 12,371. No oppositions to the proposal were filed.

3. Henryetta Radio submits that the community is an important trade, population, and recreational center for the general area. It points out that the Eufaula Reservoir was constructed by the U.S. Army Corps of Engineers at a cost of $143 million and that this development, with its 800 miles of shore line, flood control, and hydroelectric powerplant, will cause a considerable growth of population within the next few years, affording Henryetta unlimited sports and recreational facilities. It further states that Henryetta is excellently located at the crossroads of four U.S. and State highways to benefit from this growth. Petitioner estimates that a Class C station at Henryetta, assuming a facility of 50 kw power and 500 feet antenna height, would provide a first FM service to an area 2,175 square miles more than would a Class A station. Similarly, it is estimated that a Class C station would provide a much greater first aural nighttime service than would a Class A station in view of the lack of AM service in the general area. Finally, petitioner urges that Henryetta merits a Class C assignment even though it is not a large population center because it is far removed from any large city or metropolitan area. The nearest metropolitan area is Tulsa, about 50 miles away.

4. After careful consideration of the comments filed, we are of the view that the public interests would be served by the adoption of the petitioner's request. The assignment of a Class C channel to Henryetta will provide a first FM service to a large area and a growing population as well as a first local early morning and nighttime aural service. It will make possible the elimination of a comparative hearing and so permit the early establishment of FM service in both Henryetta and Eufaula. Since Henryetta is in a large rural area and is isolated from large centers of population, it merits a departure from our policy of making only Class A assignments in the smaller communities

5. Authority for the adoption of the amendments contained herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

6. In view of the foregoing: *It is ordered,* That effective May 23, 1966, § 73.202 of the Commission's rules and regulations, the FM Table of Assignments, is amended to read, insofar as the communities named are concerned, as follows:

City	*Channel No.*
Eufaula, Okla	272A
Henryetta, Okla	258

7. *It is further ordered,* That this proceeding is terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply secs. 303, 307, 48 Stat. 1082, 1083; 47 U.S.C. 303, 307)

Adopted: April 13, 1966.

Released: April 15, 1966.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 66-4308; Filed, Apr. 19, 1966; 8:49 a.m.]

[Docket No. 16520; FCC 66-325]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, FM Broadcast Stations

1. The Commission has before it for consideration its notice of proposed rule making released February 3, 1966 (FCC 66-97), and printed in the FEDERAL REGISTER on February 9, 1966 (31 F.R. 2554) proposing a number of changes in the FM Table of Assignments.

2. A number of formal and informal statements were filed in response to the proposals set out in the notice. All duly filed documents were considered in making the following determinations.

3. *RM-882, Live Oak, Fla.* Our notice, in response to the petition of Norman O. Protsman (licensee of Station WNER), filed November 9, 1965, amended December 1, 1965, proposed the following FM channel reassignments:

City	Channel No.	
	Present	Proposed
(All in Florida)		
Live Oak	221A	291
Madison	290	285A
Starke	288A	296A
Green Cove Springs	296A	224A

[1] Commissioner Cox dissenting; Loevinger absent.

The proposal, in substance, alters only the nature of the existing assignments in Live Oak and Madison by interchanging Live Oak's Class A assignment for a Class C assignment and Madison's Class C assignment for a Class A assignment. None of the existing assignments have applications pending.

4. The county seat of Suwannee County with its population of 14,961, is Live Oak which has 6,544 residents.[1] This community's only FM assignment, Channel 221A, is unapplied for. One AM station, WNER, serves it on a daytime-only basis. Madison has 3,239 residents and is located in Madison County with its population of 14,154. Its only FM assignment, Channel 290, also has no applications pending for its use. WMAF, an unlimited-time AM station, is located there. It is petitioner's contention that Live Oak, with more than double the population of Madison and without an unlimited-time service, is more needful of a local Class C FM assignment and that such an assignment better meets our policy of assigning Class C channels to isolated areas. Live Oak is 43 miles south of Valdosta, Ga., 78 miles west of Jacksonville, Fla., 62 miles north of Gainesville, Fla., and 80 miles east of Tallahassee, Fla. These facts, along with petitioner's statistics which indicate that the retail sales of Suwannee County are more than double those of Madison County, lead us to the decision that it is most fair, efficient, and equitable to adopt petitioner's proposal as set out in the notice.

5. In light of the above as well as petitioner's intention to activate any Class C assignment made to Live Oak at an early date, we are of the opinion that it is in the public interest to assign Channel 291 to Live Oak while deleting Channel 221A, to assign Channel 285A to Madison while deleting Channel 290, to assign Channel 296A to Starke while deleting Channel 288A, and to assign Channel 224A to Green Cove Springs while deleting Channel 296A.

6. *RM–895, Jefferson City, Mo.* On January 3, 1966, Jerrell A. Shepherd, principal officer and stockholder of Mark Twain Broadcasting Co., licensee of Station KHMO, Hannibal, Mo., filed a petition requesting the assignment of Channel 295 to Jefferson City. We responded by setting out the proposal and facts in our notice.

7. KWOS, a Class IV unlimited-time station, and KLIK, a daytime-only operation, are the only commercial radio services presently located in the capital of Missouri, Jefferson City, with its population of 28,228. In addition to being a State capital, the community is the seat of Cole County which contains 40,761 residents. It is petitioner's contention that the reason Jefferson City's present FM assignment, Channel 261A, is unapplied for is that Missouri's State capital requires a locally based wide-coverage service in order to provide a large segment of Missouri's population with direct service and news of governmental activity. This important governmental, cultural, industrial, and agricultural hub is located near the center of the State with the closest concentrations of population being at Kansas City more than 100 miles distant, St. Louis, approximately 100 miles distant and Columbia which is approximately 30 miles distant. A Channel 295 assignment in Jefferson City could provide, we are convinced, a valuable service and is warranted under the circumstances even though such an assignment would result in the intermixture of a Class A and a Class C assignment at Jefferson City.

8. It is concluded, therefore, that it is in the public interest to assign Channel 295 to Jefferson City.

9. *RM–899, Eau Claire, Wis.* The notice in this proceeding, in response to the petition of the Post Broadcasting Corp., licensee of WEAU–FM and WEAU–TV, proposed the assignment of Channel 283 to Eau Claire by substituting Channel 221A for Channel 285A at Menomonie, Wis.

10. This rule making is directed toward both providing Eau Claire with an additional FM service and permitting petitioner to locate its present Eau Claire FM operation on Channel 264 at its television tall tower. In order to relocate its transmitter, it is necessary for petitioner to vacate its operation on Channel 264 and shift to Channel 283 so as to meet our minimum mileage separation requirements. WECL, Inc., and WBIZ, Inc., licensees of AM stations in Eau Claire, support the proposed addition of Channel 283 to Eau Claire.

11. Eau Claire, a community of 37,987 persons, is located on the border between Eau Claire and Chippewa Counties. The population of the former is 58,300, while the population of the latter is 45,096. Unlimited-time AM stations, WEAQ and WBIZ, along with the daytime-only AM station, WECL, are located in Eau Claire. At the present time the community's two FM assignments, Channels 231 and 264, are occupied, the latter by petitioner. Both WBIZ, Inc. and WECL, Inc. have expressed an intention to apply for Channel 264 in the event petitioner transfers his operation from that channel to Channel 283. The growing city of Eau Claire is the county seat and largest community in Eau Claire County. As such, it is a center for governmental activity and a substantial market area. A third FM service would provide a new outlet for local expression, a third choice of local and network service and a third element in local FM competition. Generally the areas in which the use of Channel 264 or 283 would preclude the assignment of these or related adjacent channels are located to the northeast of Eau Claire. These areas contain mostly small communities of under 2,500 population, in which Class A assignments could be made in the event there develops a need or demand for such assignments. There are a few communities in these areas with populations over 2,500 but they already have FM assignments. Thus, the proposed addition of Channel 283 to Eau Claire can be made without depriving any substantial community of a first FM assignment. Petitioner's use of its television tower for transmission of its Eau Claire FM operation, appears to be both efficient and desirable.

12. Menomonie Broadcasting Co., prospective applicant for a new FM station in Menomonie, opposes the substitution of Channel 221A for 285A in that community on the grounds that the former is not as desirable a channel, that it is preparing an application for Channel 285A, and that the change will needlessly delay FM service in Menomonie. No supporting evidence was submitted to warrant the assumption that Channel 221A is less desirable than Channel 285A. Since no application has as yet been filed for Channel 285A, there will not be any delay as a result of the substitution of one Class A channel for another in Menomonie.

13. After a careful weighing of the presentation in this proceeding, we are of the opinion that it is in the public interest to assign Channel 283 to Eau Claire while replacing Channel 285A in Menomonie with Channel 221A.

14. *Princeton, Ky.* On our own motion, the notice proposed to correct the short spaced assignment of Channel 249A at Princeton by replacing it with Channel 285A. The proposal was supported by Leslie Goodaker trading as the Princeton Broadcasting Co. Because of the short spacing of Channel 249A, we find it in the public interest to replace it with Channel 285A in Princeton.

15. Authority for the amendments adopted herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

16. In accordance with the determinations made above, *It is ordered*, That effective May 23, 1966, § 73.202 of the Commission's rules, the Table of Assignments, is amended to read, with respect to the communities listed below as follows:

City	*Channel No.*
Florida:	
Green Cove Springs	224A
Live Oak	291
Madison	285A
Starke	296A
Kentucky: Princeton	285A
Missouri: Jefferson City	261A, 295
Wisconsin:	
Eau Claire	231, 264, 283
Menomonie	221A

17. *It is further ordered*, That effective May 23, 1966, and pursuant to section 316(a) of the Communications Act of 1934, as amended, that the outstanding license of Post Broadcasting Corp. for Station WEAU–FM, Eau Claire, Wis., Channel 264, is modified to specify operation on Channel 283, subject to the following conditions:

(a) The licensee shall inform the Commission by May 16, 1966, of its acceptance of this modification.

(b) The licensee shall submit to the Commission by May 16, 1966, the technical information normally required for issuance of a construction permit for operation on Channel 283 as assigned to

[1] All population figures herein are those of the 1960 U.S. Census.

Eau Claire, including any changes in antenna and transmission line.

(c) The licensee may continue to operate on Channel 264 as authorized in Eau Claire, Wis., until upon its request, the Commission authorizes interim operation on Channel 283, following which the licensee shall submit (within 30 days) the measurement data normally required of an applicant for an FM broadcast station license.

18. *It is further ordered*, That all petitions, comments, reply comments, pleadings, briefs, and other instruments filed in this proceeding are adopted or denied in whole or part as is consistent with the actions we take herein.

19. *It is further ordered*, That this proceeding is terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply secs. 303, 307, 48 Stat. 1082, 1083; 47 U.S.C. 303, 307)

Adopted: April 13, 1966.

Released: April 15, 1966.

[Docket No. 14229; FCC 66-324]

PART 73—RADIO BROADCAST SERVICES

Fostering Expanded Use of UHF Television Channels

1. On February 9, 1966, the Commission adopted the Fifth Report and Memorandum Opinion and Order in this proceeding, adopting a revised assignment plan for UHF television broadcast channels (2 FCC 2d 527, 6 R.R. 2d 1643, 31 F.R. 2932). A number of petitions for reconsideration of actions taken therein have been filed. The present document deals with two of these, where the relief sought is of a corrective nature which could appropriately have been taken on the Commission's own motion and where no change in the particular channels assigned to the communities involved is required.

2. Wilmington, Del.; in a petition filed March 21, 1966, Rollins Broadcasting of Delaware, Inc. (Rollins) asks that the only UHF channel assigned to Wilmington, Del.—Channel 61—not be reserved for educational use, as it is in the Fifth Report Table of Assignments, but be made available for commercial applicants. Rollins points out that it has had an application for a Wilmington UHF assignment on file since June 1963 (BPCT-3207), specifying Channel 83 which was then assigned there. In the UHF allocation revisions undertaken since then, effort has been made to clear Channels 70 and above, as far as possible, so that consideration may be given to their use by other types of television stations. This principle was applied to a substantial extent in the Fourth Report and Order adopted herein on June 4, 1965 (FCC 65-504, 30 F.R. 7711, 5 R.R. 2d 1587), and was carried further in the Fifth Report and Order. In the Table adopted therein, there are only two assignments on these higher channels, both operating stations. Applying this principle, the Wilmington assignment on these channels (Channel 83 before the Fourth Report, Channel 73 in the Fourth Report Table) was deleted. In preparing the Fifth Report Table, effort was made to find channels to take care of the demand shown by all pending applications, particularly where (as with Rollins) the application was on file as of September 15, 1965. (See Fifth Report, paragraph 71.) It was possible to find only one UHF assignment—Channel 61—at Wilmington on the lower UHF channels. In line with the principle just mentioned, that channel should have been left unreserved to take care of the demand shown by the pending Rollins application. Inadvertently it was not, but was reserved for educational use. It is appropriate to correct that action by unreserving the channel, and we do so at this time.[1]

3. This action leaves Wilmington without a channel reserved for educational use (there are two other educational reservations in the State). The Wilmington VHF channel, Channel 12, though unreserved is in fact occupied by an educational station, WHYY-TV. However, this station, with its transmitter in New Jersey, serves only partly as an outlet for the particular educational interests of Delaware. Delaware educational interests have submitted no plan for assignment of reserved channels in that State. If we receive a request for a reserved channel in or near Wilmington, it will be possible to make such an assignment, either on a channel above Channel 69 (if the assignment is at Wilmington or close to it) or possibly on a lower UHF channel if a different location is requested. Delaware educational interests may wish to express their views in that portion of Docket 14229 concerning use of Channel 70 and above, in which comments are now due April 29, 1966.

4. Florence, S.C.: As a result of channel changes in the Fifth Report Table, a number of outstanding construction permits and licenses were modified by changing the channels originally assigned. Among these was Rovan Television, Inc., permittee on Channel 23 in Florence, S.C. (WPDT, permit granted Nov. 17, 1965). Rovan was ordered to change to Channel 21.

5. On March 14, 1966, Rovan filed a petition for reconsideration of that action requesting that the channel assignment be changed to Channel 15 instead of Channel 21. Both Channels 15 and 21 were assigned to Florence for commercial use. In support of its request, Rovan points out that in originally applying for authority to construct and operate a new UHF television broadcast station in Florence it selected the lowest channel then assigned to Florence under the Fourth Report and Order, and that when the Commission announced the assignment of unreserved Channels 15 and 21 to Florence in lieu of Channels 23 and 39, it assumed that it would be moved to the lowest channel. Rovan recognizes that the Commission does not attribute any significant technical differences to the various UHF channels, but it is of the opinion that in its particular circumstances as the first UHF station in a predominantly VHF market, some advantage may accrue from operating on the lowest available UHF channel.

[1] As with TV assignment actions generally, our action herein is not taken to accommodate any particular applicant but in light of the demand shown for a channel in a community by the filing of an application.

6. Our sole reason for selecting Channel 21 instead of Channel 15 as the replacement for Channel 23 originally assigned to Rovan, was to avoid an extensive change in the authorized transmitting facilities for Rovan which might require the expenditure of additional funds. However, Rovan indicates that it has deferred the purchase of transmitting equipment and antenna because it was aware of the possibility of a channel change and that it would prefer to be assigned Channel 15. Under the circumstances and in view of the fact that there is no pending application for Channel 15 in Florence, we find no reason to deny the request of the petitioner and it is granted.

7. Accordingly, pursuant to the authority contained in sections 4(i) and 303(c) and (f) of the Communications Act of 1934, as amended: *It is ordered*, That:

(a) Section 73.606 of the Commission's rules, Table of Assignments, Television Broadcast Stations, is amended, effective May 23, 1966, to read as follows with respect to Wilmington, Del.:

City	*Channels*
Wilmington, Del	12, 61

(b) If Rollins Broadcasting of Delaware, Inc., desires to continue to prosecute its application (BPCT-3207) for a UHF channel at Wilmington, Del., said application shall be amended, on or before May 12, 1966, to specify Channel 61 instead of Channel 83.

8. *It is further ordered*, That, the construction permit of Rovan Television, Inc., for a new television station at Florence, S.C., is modified to specify Channel 15- instead of Channel 21, subject to the following conditions:

(a) That the permittee or licensee shall advise the Commission, in writing by April 29, 1966, of its acceptance of the modification of its authorization;

(b) That the permittee or licensee shall submit to the Commission by May 23, 1966, all necessary information for the preparation of a modified authorization to construct and operate on the newly specified channel with transmitting facilities meeting all requirements of the Commission's rules and regulations for operation on that channel;

(c) The construction looking to a change to the newly specified channel is not to commence until specifically authorized by the Commission after the information in (b) above is submitted; and

(d) Upon completion of construction of the new facilities in accordance with the terms of the modified authorization, proof of performance measurement data adequate to demonstrate compliance with the applicable technical performance requirements of the rules and of the type normally required to be furnished in an application for a television license shall be submitted, in triplicate, at least ten (10) days prior to the date on which it is desired to begin program operation. Program operation on the newly specified channel shall not be commenced until specifically authorized by the Commission after its evaluation of such data.

9. The petitions for reconsideration of the Fifth Report and Memorandum Opinion and Order, filed by Rollins Broadcasting of Delaware, Inc., and Rovan Television, Inc., are granted to the extent indicated herein and in all other respects are denied.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Adopted: April 13, 1966.

Released: April 15, 1966.

FEDERAL COMMUNICATIONS COMMISSION,[2]

[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 66-4310; Filed, Apr. 19, 1966; 8:50 a.m.]

[Docket No. 16331; FCC 66-326]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, FM Broadcast Stations

1. The Commission has before it for consideration its notice of proposed rule making, released December 3, 1965 (FCC 65-1080), and published in the FEDERAL REGISTER on December 9, 1965 (30 F.R. 15235), proposing a number of changes in the FM Table of Assignments.

2. A number of formal and informal statements were filed in response to the proposals set out in the notice. All duly filed documents were considered in making the following determinations. Each of the proposals below discussed was unopposed except as otherwise specified.

3. RM-847. Quincy, Calif. (Wonderland Broadcasting Co.), RM-859. McKinney, Tex. (Disan Engineering Corp.), RM-861. Glens Falls, N.Y. (Normandy Broadcasting Corp.), RM-872. Harriman, Tenn. (Folkways Broadcasting Co., Inc.), RM-873. St. Ignace, Mich. (Mighty-Mac Broadcasting Co.), RM-875. Cape May, N.J. (Owen W. Hand and Edward Evanchyk).

In these six cases, we proposed, as a result of petitions received, to make FM assignments as indicated in the following paragraphs.

[2] Commissioner Loevinger absent.

4. *Channel 240A proposed for Quincy, Calif.* Quincy is not listed in the 1960 census. However, Quincy-East Quincy is listed with a population of 2,723. Quincy is the county seat of Plumas County in which 11,620 persons reside.[1] Daytime-only AM Station KQCY is the community's only local aural service. No. FM assignment has been made to date. The assignment of FM Channel 240A would make possible its first local FM (full-time) service. This alleged market hub is surrounded by a substantial lumber industry and is growing in significance as a resort for summer and winter sports. Wonderland Broadcasting Co. asserts that it will apply for operation on Channel 240A immediately on its assignment to Quincy.

5. *Channel 237A proposed for McKinney, Tex.* The population of Collin County is 41,247. The largest community it contains, and its county seat, is McKinney with a population of 13,763 persons. It has no FM assignment, and but one AM Station, KMAE, broadcasting during daytime hours only. The community is the center of activity in this area from a political, commercial and cultural viewpoint. A new FM facility will bring a needed second service during daytime hours as well as the potential for service in the early morning and nighttime periods. The petition indicates an early activation of Channel 237A if it is assigned to McKinney.

6. *Channel 240A proposed for Glens Falls, N.Y.* There is one daytime-only and one unlimited-time Class IV AM operation in Glens Falls—WBZA and WWSC, respectively. No FM assignment has been made to this largest community in Warren County. The city has a population of 18,580 and the county 44,002. Two parties are presently seeking to bring it a first FM service by application of section 73.203(b) (the so-called "25-mile rule") of our rules. Each has applied for Channel 272A assigned to Saratoga Springs, N.Y., for use in Glens Falls—BPH-4804, Olean Broadcasting Corp. and BPH-4838, Normandy Broadcasting Corp. (petitioner).[2] If either application is granted, Saratoga Springs will be deprived of its only FM assignment. At the present time, Saratoga Springs, with its population of 16,630, located in Saratoga County with a population of 89,096, has but one aural service, a daytime-only operation—AM Station WKAJ. The assignment of Channel 240A to Glens Falls accomplishes several desirable ends and we believe, should be adopted. First, it will provide that substantial community with a first FM local service of any kind. Second, while providing Glens Falls with a first FM service, it will maintain the potential for FM service in the equally substantial community of Saratoga Springs, thereby providing for the community's future needs.[3] We have previously stated that we have made a special effort to assign FM stations to each community with a population of over 10,000. The present and potential needs of these two communities are made apparent by the pending applications above cited as well as their size and the numbers and natures of their existing facilities. We recognize that one of the principal reasons for the request is the elimination of a comparative hearing on the two mutually exclusive applications. However, we believe it more important to provide each of the communities involved with an FM assignment than to attempt to remove the need for a hearing.

[1] All population figures cited herein are those of the 1960 census.

[2] Glens Falls and Saratoga Springs are separated by approximately 18 miles.

7. *Channel 224A proposed for Harriman, Tenn.* There is but one existing AM station, WHBT, a daytime-only operation, in Harriman. On January 12, 1966, a construction permit was granted for an additional daytime-only AM service, BP-15122. No FM assignment exists in the community. Harriman, located in the east central section of Tennessee, with 5,931 residents, is in Roane County which contains a population of 39,133. Petitioner, Folkways Broadcasting Co., Inc., licensee of WHBT-AM, has been providing Harriman with a broadcast service since 1956. It states that an evaluation of Harriman's needs, in light of its broadcast experience, indicates clearly that an FM facility on Channel 224A is required to promote economic development in the area. Although the community will shortly have two daytime aural services, we note that an adoption of the proposal will provide it the potential for a full time service which petitioner alleges it will promptly implement.

8. *Channel 272A proposed for St. Ignace, Mich.* The largest community and county seat of Mackinac County with its population of 10,853 is St. Ignace with 3,334 residents. Petitioner (Mighty-Mac Broadcasting Co.), licensee of WSTI-AM, a daytime-only operation, alleges that its station is the only aural facility located in St. Ignace and that it is not sufficient to meet the needs of the area because of its limited broadcast day and the frequent emergencies caused by severe weather conditions and that, therefore, it is in the public interest to assign a first FM channel, 272A, to the community so as to permit petitioner, and/or other interested parties, to construct an FM station.

9. *Channel 269A proposed for Cape May, N.J.* Neither an AM station nor an FM assignment exists in Cape May, with its population of 4,477. The population of its county, Cape May, is 48,555. Owen W. Hand and Edward Evanchyk, petitioners, maintain that this rapidly growing community deserves and needs a first

[3] The assignment of Channel 240A to Glens Falls will make it a listed community. Hence, the procedure of section 73.203(b) will no longer be available to either applicant presently attempting to obtain a grant for the use of Saratoga Springs' Channel 272A in Glens Falls.

local aural facility not only for the permanent population listed above, but for the many times larger population this resort contains during the vacation season. In view of petitioners' informal survey of public desire for an FM service, petitioners assert that it will apply for use of the proposed channel on its assignment.

10. Each of the above discussed communities is substantial in view of the density of population in their areas. They are county seats, or the largest communities in their counties, or centers for commercial and social activities. None has local FM service. Those that do have AM stations are only served by them during the daytime hours, the only exception being Glens Falls, N.Y., which has a Class IV operation. These six communities are the type of communities we contemplated when we created Class A FM assignments. Each of the above assignments meets our minimum mileage separation requirements without requiring shifts in existing assignments. In view of these facts and those above discussed, we are of the opinion that it is in the public interest to assign Channel 240A to Quincy, Calif., Channel 237A to McKinney, Tex., Channel 240A to Glens Falls, N.Y., Channel 224A to Harriman, Tenn., Channel 272A to St. Ignace, Mich., and Channel 269A to Cape May, N.J.

11. *RM-868, Gilroy, Calif.* Radio KPER, in a petition received October 11, 1965, requested the assignment of Channel 232A to Gilroy. Our notice responded by setting out the proposal.

12. Santa Clara County, population 642,315, contains the community of Gilroy. This community of 7,348 persons has but one local broadcast service, a daytime-only operation, KPER. Petitioner asserts that Gilroy's existing facility is not adequate, stating "A full time service will bring to this city programs of a local nature that due to the time of events, cannot be broadcast live on the present daytime AM service. Some events available are local sports such as football, basketball, and other sports of the high schools of the area and of the State junior college now under construction in Gilroy. Also available will be other events of public interest such as city council meetings, forums, and other public meetings of such interest that the broadcasting of them would certainly be in the public interest." Petitioner also points out that a full time FM facility would be of great service for the purpose of civil defense and in other times of emergency.

13. The Pacifica Foundation, licensee of Station KPFA-FM, Channel 231, Berkeley, Calif., filed a counterproposal to the petition on November 17, 1965, to assign Channel 228A to Gilroy. Our notice stated that the counterproposal would be considered in this proceeding. The counterproposal was reiterated in a Comment which responded to our notice. It is the Pacifica Foundation's position that although both Channels 232A and 228A meet our minimum mileage separation requirements in respect to their possible assignment to Gilroy, it is more desirable to assign Channel 228A to Gilroy because an operation on Channel 232A would both provide and receive unnecessary interference with its Berkeley FM station, KPFA.[4] Pacifica concedes that the proposed assignment of Channel 232A to Gilroy meets all the required spacings including that to KPFA but urges that interference will occur to several communities within its 50 uv/m contour. The assignment which Pacifica suggests, 228A, also would be adjacent to yet another San Francisco station, KOIT-FM on Channel 227. However, petitioner points out that negotiations are in progress for a site for the new assignment which would make Channel 228A infeasible but which would be feasible for Channel 232A. In view of this and in view of the fact that no stations whether "super-maximum" or not are entitled to protection beyond that afforded by the minimum spacings and the maximum authorized facilities (see Second Report, Memorandum Opinion and Order, issued on Dec. 4, 1962, FCC 62-1243, par. 14), we are of the view that Channel 232A should be assigned to Gilroy.

14. In view of the foregoing, we are assigning Channel 232A to Gilroy and rejecting the Pacifica counterproposal.

15. *RM-855, Panama City, Fla.* In response to a petition from Don Industries, Inc., filed on September 17 and amended on September 24, 1965, respectively, our notice proposed the assignment of Channel 261A to Panama City.

16. The notice indicated concern over the proposed assignment because Panama City already has the number of FM assignments contemplated for a community of its size[5] and, in order to ascertain that the public interest would be served by an additional assignment, requested specifically that comments be filed: (1) To demonstrate that the proposed assignment would not preclude other assignments in the general area, and, (2) to justify the intermixing of classes of channels in this instance, in view of our general policy of avoiding such intermixture so as not to create a situation of competitive imbalance. No comments of any kind were filed in response to our Notice and specific requests for information.

17. In view of the brevity of the petition and the failure of petitioner to supply us with the information our Notice requested to enable us to determine if the public interest would be served by the adoption of petitioner's proposal, we dismiss the petition.

18. *RM-859, Stillwater, Okla.* On September 13, 1965, the Commission received a petition from the Disan Engineering Corp. acting for the Oklahoma State University. In light of this petition, our notice proposed to assign Channel 288A to Stillwater.

19. Stillwater, with its population of 23,965, is the largest city in, and the governmental seat for Payne County, with its population of 44,231. Its sole FM assignment, Channel 230, is occupied. In addition it is served by one AM station, KSPI, a daytime-only operation.[6] The material available to us indicates that Stillwater is not only a hub for the county's political activity but, in addition, acts as the area's center for commercial, educational, social, and cultural life. A second FM service would provide not only a choice in commercial programing in the early morning and nighttime hours, but would act as an additional stimulus to the development of the area.

20. The needs of Stillwater as well as the assignments available for that community, we are convinced, justify the intermixing of classes of channels in this instance and indicate that it is in the public interest to assign Channel 288A to Stillwater.[7]

21. *RM-858, St. Louis, Mo. and Granite City, Ill.* Our notice, in response to a petition filed on September 24, 1965 by Charles H. Norman, permittee of FM Station WGNO, Madison, Ill., proposed to reassign Channel 293 from St. Louis to Granite City. Although our rules indicate that Channel 293 is assigned to St. Louis, that channel has been authorized to petitioner at Madison under our "25-mile rule" in order to serve Madison and the surrounding area. Therefore, in fact, petitioner is requesting the shift of the facility from Madison to Granite City.

22. Madison County, with its population of 224,689, contains both Madison with 6,861 residents and Granite City with 40,073 residents. Madison has no local aural service at this time—petitioner holds only a construction permit for its proposed operation on Channel 293. The sole aural facility at Granite City is daytime-only AM station, WGNU. Its FM assignment, Channel 285A, is authorized under our "25-mile rule" for use at Columbia, Ill. The material before us indicates that petitioner's construction permit for Channel 293 to provide service to Madison, specifies a site and studio but 2 miles north of Granite City. In view of this, petitioner asserts that if its petition is granted, it will ascertain the needs of, and serve both Granite City and Madison, that the much larger community of Granite City needs a first local full-time service and that it is more orderly and logical in light of the station's location to describe it as a Granite City operation.

---

[4] At the present time, KPFA is able to provide Berkeley and the large surrounding area, which includes Gilroy, with a service noncommercial in nature, since it operates with facilities greater than those permitted for a Class B station. These "super-maximum" facilities were authorized prior to the rules and Table adopted in 1963 in Docket No. 14185.

[5] 33,275 persons reside in Panama City. Its two FM assignments, Channels 223 and 300, are operational. Four AM stations, two of which are unlimited-time operations, serve the community.

[6] KOSU-FM, a noncommercial educational FM service of the Oklahoma State University, is also located in the community.

[7] Although the Oklahoma State University, licensee of KOSU-FM, is the petitioner in this rule making and a prospective applicant for Channel 288A with the intention of using that channel to provide the community with a commercial service and its students with commercial broadcasting experience, it should be noted that any interested party may apply for the channel's use.

23. In light of the above, we agree with petitioner, that it is in the public interest to reassign Channel 293 from St. Louis, Mo. to Granite City, Ill., and to modify petitioner's construction permit to specify operation on the channel in Granite City. No other technical changes are contemplated at WGNO at this time.

24. *Wichita Falls, Tex. and Centerville, Iowa.* On our own motion, the notice proposed to correct two short spaced assignments by deleting Channel 247 from Wichita Falls and replacing Channel 232A with Channel 237A in Centerville. No comments were filed on our proposals. In view of the short spacing, we find it in the public interest to adopt our proposal which will continue four FM assignments in Wichita Falls and one in Centerville.

25. Authority for the amendments adopted herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

26. In accordance with the determinations made above: *It is ordered,* That effective May 23, 1966, § 73.202 of the Commission's rules, the Table of Assignments, is amended, to read, with respect to the communities listed below, as follows:

City	*Channel No.*
California:	
Gilroy	232A
Quincy	240A
Illinois: Granite City	285A, 293
Iowa: Centerville	237A
Michigan: St. Ignace	272A
Missouri: St. Louis	222, 229, 243, 251, 273, 277, 299
New Jersey: Cape May	269A
New York: Glens Falls	240A
Oklahoma: Stillwater	230, 288A
Tennessee: Harriman	224A
Texas:	
McKinney	237A
Wichita Falls	225, 236, 260, 277

27. *It is further ordered,* That effective May 23, 1966, and pursuant to section 316(a) of the Communications Act of 1934, as amended, the outstanding construction permit of Charles H. Norman for FM Station WGNO, Madison, Ill., is modified to specify operation on Channel 293 as assigned to Granite City, Ill.

28. *It is further ordered,* That all petitions, comments, reply comments, pleadings, briefs, and other instruments filed in this proceeding are adopted or denied in whole or part as is consistent with the actions we take herein.

29. *It is further ordered,* That this proceeding is terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply secs. 303, 307, 48 Stat. 1082, 1083; 47 U.S.C. 303, 307)

Adopted: April 13, 1966.

Released: April 15, 1966.

FEDERAL COMMUNICATIONS COMMISSION,[8]

[SEAL] BEN F. WAPLE, *Secretary.*

[F.R. Doc. 66-4311; Filed, Apr. 19, 1966; 8:50 a.m.]

[8] Commissioner Cox dissenting with respect to Stillwater, Okla.; Loevinger absent.

[Docket No. 16063; FCC 66-322]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, FM Broadcast Stations

1. The Commission has under consideration its further notice of proposed rule making issued in this proceeding on November 12, 1965 (FCC 65-1011, 30 F.R. 14382), inviting comments on a proposal to assign a first FM channel to Savanna, Ill., and Maquoketa, Iowa, by deleting one from Muscatine, Iowa, as follows:

City	Channel No.	
	Present	Proposed
Savanna, Ill		272A
Maquoketa, Iowa		237A
Muscatine, Iowa	237A, 259	259

An alternate proposal was advanced by Jackson County Broadcasting Co. in RM-762 which would have assigned Channel 272A to Maquoketa by substituting Channel 276A for 275 in Cedar Rapids, Iowa. This proposal, however, conflicts with the proposal to assign Channel 272A to Savanna since the two communities are less than the required 65-mile co-channel spacing. No oppositions were filed to the proposal which was advanced in this proceeding. The other matters involved in this proceeding have previously been disposed of.

2. Savanna, Ill., has a population of 4,950 persons and Carroll County in which it is located has a population of 19,507. The city and county presently do not have any AM stations or FM assignments. Mr. Robert A. Jones, proponent of the proposal to assign Channel 272A to Savanna (RM-823), submits that it is the largest community in the county, that a station on the assignment would also serve Mount Carroll, the county seat, and that there are no AM or FM stations within 31 miles of Savanna. Soundvision, Inc., prospective applicant for a new FM station at Savanna, supports the assignment of Channel 272A to Savanna and states that Mr. Jones is the consulting engineer for the company.

3. Maquoketa, Iowa, population 5,909, is the county seat and largest community in Jackson County, which has a population of 20,754 persons. The city and county have no FM assignment and only a daytime-only AM station at Maquoketa licensed to Maquoketa Broadcasting Co. (formerly Jackson County Broadcasting Co.), the proponent of the proposal to assign a first Class A channel there, RM-762. Muscatine, Iowa, with a population of 20,997, has been assigned one Class C channel and one Class A, the former in operation and the latter unapplied for. Maquoketa Broadcasting urges that the proposal would make available a first FM assignment in two communities which need and deserve such an assignment in view of their county size and their lack of service, and that the assignment which must be deleted at Muscatine is vacant.

4. Muscatine is a relatively large community and so we are reluctant to delete one of the two FM assignments there. However, it does have one Class C FM assignment in addition to its daytime AM station. The deletion of its Class A assignment and its assignment to Maquoketa would remove the conflict between Maquoketa and Savanna for Channel 272A and make possible the assignment of two Class A channels in these communities. While they are not very large cities, they are the largest in their respective counties. In the case of Savanna, Channel 272A would provide the first local aural outlet for this community and county. In Maquoketa, Channel 237A would provide the first early morning and late evening hours service since the community now has but a daytime-only AM station. On balance, we are of the view that the proposal would serve the public interest and should be adopted.

5. Authority for the amendments adopted herein is contained in sections 4 (i) and (j), 303(r), and 307(b) of the Communications Act of 1934, as amended.

6. In view of the foregoing: *It is ordered,* That effective May 23, 1966, § 73.202 of the Commission's rules and regulations, the FM Table of Assignments, is amended to read, insofar as the communities named are concerned, as follows:

City	*Channel No.*
Savanna, Ill	272A
Maquoketa, Iowa	237A
Muscatine, Iowa	259

7. *It is further ordered,* That this proceeding is terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply secs. 303, 307, 48 Stat. 1082, 1083; 47 U.S.C. 303, 307)

Adopted: April 13, 1966.

Released: April 15, 1966.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 3997]

[Sacramento 079406]

CALIFORNIA

Withdrawal for Public Recreation Site

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

Subject to valid existing rights, the following described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws (Title 30, U.S.C., Ch. 2), but not the mineral leasing laws, and reserved as an addition to a public recreation site:

MOUNT DIABLO MERIDIAN

T. 32 N., R. 10 W.,
Sec. 1, SE¼SW¼;
Sec. 12, W½W½NW¼.

The areas described aggregate approximately 80 acres in Trinity County.

The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

HARRY R. ANDERSON,
Assistant Secretary of the Interior.

APRIL 13, 1966.

Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Ex Parte No. 55]

PART 1—GENERAL RULES OF PRACTICE

Filing of Applications

Order. At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 6th day of April A.D. 1966.

There being under consideration the Commission's general and special rules of practice, and good cause appearing therefor:

§ 1.241 [Deleted]

It is ordered, That § 1.241 be, and it is hereby, deleted from the special rules of practice.

It is further ordered, That § 1.247 be, and it is hereby, amended to read as follows:

§ 1.247 Special rules governing notice of filing of applications by motor carriers of property or passengers and brokers under sections 206 (except section 206(a)(6) relating to Certificates of Registration), 209 and 211, by water carriers under sections 302(e), 303, and 309, and by freight forwarders under section 410 of the Interstate Commerce Act, and certain other procedural matters with respect thereto.

(a) *Scope and applicability of special rules*—(1) *Scope.* These special rules govern the filing and handling pursuant to the provisions of the Interstate Commerce Act of (i) applications for certificates, permits, and licenses respecting the transportation of property or passengers under sections 206 (except section 206(a)(6) relating to Certificates of Registration), 209, and 211, (ii) applications for certificates, permits, and exemptions respecting the water transportation of property or passengers under sections 302(e), 303, and 309, and (iii) applications for permits to operate as freight forwarders and for certificates of abandonment under section 410. Except as otherwise herein provided, the general rules of practice shall apply.

(2) *Applicability.* These special rules shall apply to all applications enumerated in subparagraph (1) of this paragraph and filed with the Commission on and after May 20, 1966, and to such of those applications filed prior to that time as the Commission may designate by appropriate publication in the FEDERAL REGISTER.

(b) *Applications*—(1) *Form and content.* An application filed with the Commission under these special rules shall be prepared in accord with and contain the information called for in the form of application prescribed by the Commission or in instructions which may have been issued by the Commission with respect to the filing of such an application.

(2) *Copies and service.* Copies of an application filed under these special rules shall be furnished in such number and shall be filed and served in the manner and upon the persons specified in the form or instructions.

(3) *Requests for handling applications without oral hearing.* An applicant who believes its application is susceptible of handling without oral hearing may request such handling when the application is filed. If such a request is made at that time, the applicant shall submit with its application original verified statements of the facts to which its witnesses would testify at an oral hearing if one were held, together with one copy thereof which need not be verified. Applicant shall furnish copies of its verified statements to interested persons upon request from such interested persons.

(c) *Notice to interested persons.* (1) Notice of the filing of applications to competitors and other interested persons will be given by the publication of a summary of the authority sought in the FEDERAL REGISTER. Such summaries will be prepared by the Commission, and it shall be the responsibility of applicant promptly to advise the Commission if the summary does not properly describe the authority sought. No other notice by applicants to interested persons is required, except that applicants are not relieved from the obligation to file copies of applications with Governors, State Boards, and Regional Directors of the Commission's Bureau of Operations and Compliance as may be required by the prescribed form of the application.

(2) *Amendments.* Except for good cause shown, amendments to applications which broaden the scope of the proposed operations will not be allowed if tendered after notice of the filing of an application has been published in the FEDERAL REGISTER. Restrictive amendments acceptable to the Commission may be submitted at any time, but if tendered after such publication, they may be allowed only in the discretion of the Commission or by the hearing officer if the matter is assigned for hearing or prehearing conference.

(d) *Protests and request for hearing.* (1) Protests to the granting of an application shall be filed with the Commission within 30 days after the date notice of the filing of the application is published in the FEDERAL REGISTER. A protest filed under these rules shall certify that it has been served upon applicant's representative (or applicant, if no practitioner representing him is named in the notice of filing published in the FEDERAL REGISTER). Unless otherwise specified in the published notice, the original and one copy of the protest shall be filed with the Commission. Protests not in reasonable compliance with the requirements of these rules may be rejected in the discretion of the Commission.

(2) Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding.

(3) A protest against any application shall set forth specifically the grounds upon which it is made and contain a detailed statement of the protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method (whether by joinder, interline, or other means) by which protestant would use such authority to provide all or part of the service proposed), shall request an oral hearing if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests phrased in general terms and not complying with these specifications may be rejected.

(4) Any request for an oral hearing shall be supported by a specific explanation as to why the evidence to be presented cannot reasonably be submitted in the form of affidavits, and shall set forth the number of witnesses which would be presented by the protestant and an estimate of the hearing time required for such presentation. Protests embracing a request for oral hearing shall contain the following certification without further qualification:

The undersigned hereby certifies that, if an oral hearing is held, protestant(s) will appear and present evidence of protestant(s) own operations and particular interest(s) in the outcome of this application unless this application is amended so as to eliminate the interest(s) of protestant(s) as set forth in this protest.

(5) Where a person has a limited interest in an application, which possibly could be eliminated by a restrictive amendment to the application, which amendment must be acceptable to the Commission, it may also include in a protest filed in conformity with this paragraph an offer to withdraw the protest in the event of acceptance by applicant and the Commission of such amendment.

(6) Except where a restrictive amendment has been made as provided in subparagraph (5) of this paragraph, or for good cause shown, the failure of any person filing a protest to an application to appear at a hearing scheduled thereon shall be construed as a waiver of its right to participate further in the proceeding; such person shall no longer be considered as a party to the proceeding, and it and any representative responsible for its participation in the proceeding may be subject to censure for failure to appear. In addition, the mere appearance of protestant without the presentation of evidence of protestant's own operations and particular interest in the application may, in the absence of good cause shown, subject protestant and its representative to similar censure.

(7) An interested person, not a protestant, desiring to receive notice of the time and place of any hearing, conference, or other proceedings shall notify the Commission by telegram or letter (original and one copy) within 30 days from the date of the publication of the notice of the filing of the application in the FEDERAL REGISTER.

(e) *Hearing or other procedures to be followed*—(1) *Determination.* The Commission will determine whether an assignment for oral hearing should be made, after notice to interested persons of the filing of the application has been published in the FEDERAL REGISTER and the period for filing protests has expired. At or prior to such time, any applicant who does not intend to prosecute its application should promptly request dismissal thereof.

(2) *Uncontested proceedings.* Proceedings in which no protests are filed within 30 days after publication of notice in the FEDERAL REGISTER, and which are not assigned for oral hearing, will be determined on the basis of verified statements submitted by applicant. Where not submitted previously along with the application as provided in paragraph (b)(3) of this section, such statements, by order, will be required to be filed by the applicant with the Commission within the time prescribed in said order, failing which the application may be summarily dismissed for want of prosecution.

(3) *Contested proceedings.* In those contested proceedings which the Commission determines that assignment of an application for oral hearing is unnecessary, thereafter the procedure shall be in accordance with §§ 1.45(b), 1.46(b), and 1.47–1.54, inclusive, of the general rules of practice, except that only the original and one copy of any statement made pursuant to § 1.51 need be filed with the Commission. All other contested proceedings which are subject to these rules will be assigned for oral hearing, unless other procedures are ordered.

(f) *Withdrawal or dismissal of contested applications.* If protests to its application have been filed, applicant shall, within 30 days after the period for filing protests has expired, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application. Failure so to notify the Commission will be construed to mean that applicant has no further interest in the application, and the application will thereupon be dismissed by the Commission. Withdrawal of the application after the 30-day period or failure by applicant to appear at a hearing scheduled thereon will, except for good cause shown, subject applicant and its representative to censure.

(g) *Notice of hearing, conference or other proceedings*—(1) *Initial assignment.* Notice of the time and place of any hearing, conference, or other proceedings will be given to applicant's representative, applicant, protestants, and other interested parties by mailing to them the order or notice assigning the application for hearing, conference, or other procedure.

(2) *Assignment of an application for hearing concurrently with notice of its filing.* For the convenience of the Commission in handling applications related to one or more applications which already have been noticed in the FEDERAL REGISTER, when, in the Commission's discretion, the public interest would be served, an application may be concurrently noticed and assigned for hearing provided appropriate publication in the FEDERAL REGISTER can be made at least 1 week prior to the assigned date of hearing. Where such action is taken, and regardless of any prior publication of the application, any interested person may, without filing a protest prior to the assigned hearing, appear at the hearing in opposition to the application so assigned and become a party and be entitled to participate in that proceeding.

(3) *Requests for change.* A request by any party for a change in the time or place of an assigned hearing must set forth good and sufficient cause for the action requested, must be in writing and filed with the Commission not less than 10 days before the assigned hearing date, except in emergency circumstances, and must be served on all known parties of record at the same time and by the same method of communication as service is made on the Commission. Where such requests are filed less than 10 days before the date of hearing, the petitioning party shall state the reasons for his failure to make such request within the prescribed 10 days.

(4) *Notice of changes.* The applicant's representative (or applicant if it has no representative), protestants, and those who request notice of changes in time or place of hearing, conference, or other proceeding will be informed of such changes if notice is given by mail. If telegraphic notice becomes necessary, notice of such changes will be given by telegram only to those who request telegraphic notice at their expense.

(h) *Intervention.* Section 1.73 relating to participation without intervention is inapplicable to applications subject to this section, except with respect to those persons seeking to intervene in support. No person who fails to file a protest as provided in these rules will be permitted to intervene in opposition in a proceeding except upon a showing of substantial reasons in a petition submitted in accordance with § 1.72.

(i) *Drafting of recommended order and report by prevailing party.* Applications in which oral hearings are held and in which the hearing officer can announce his decision on the record after the close of the taking of testimony may be made the subject of a report and recommended order, prepared by the party or parties in whose favor the hearing officer decides, within a period specified by the hearing officer. The hearing officer will make such changes as he considers appropriate in the draft prepared for him.

It is further ordered, That this order shall become effective on May 20, 1966.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission and by filing a copy with the Director, Office of the Federal Register.

(Secs. 12, 17, 24 Stat. 383, as amended, 385, as amended; secs. 204, 205, 206, 209, 211, 49 Stat. 546, as amended, 548, as amended, 551, as amended, 552, as amended, 554, as amended; secs. 302, 303, 304, 309, 54 Stat. 929, 931, as amended, 933, 941; secs. 403, and 410, 56 Stat. 285, 291, as amended; 49 U.S.C. 12, 17, 304, 305, 306, 309, 311, 902, 903, 904, 909, 1003, and 1010)

PART 7—LIST OF FORMS, PART II, INTERSTATE COMMERCE ACT

Application for Motor Carrier Certificate or Permit

Order. At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 6th day of April A.D. 1966.

The matter of the filing of applications for certificates of public convenience and necessity and permits to operate, in interstate or foreign commerce, as common and contract carriers by motor vehicle under the provisions of sections 206 and 209 of the Interstate Commerce Act, as amended, being under consideration:

It is ordered, That Application for Motor Carrier Certificate or Permit, Form OP-OR-9 (49 CFR 7.78), which is attached hereto[1] and incorporated into this order, be, and it is hereby, prescribed and approved for use on and after May 20, 1966.

It is further ordered, That Application for Motor Carrier Certificate or Permit, Form BMC 78 (49 CFR 7.78), revised April 26, 1951, be, and it is hereby, discontinued as of May 20, 1966.

It is further ordered, That effective May 20, 1966, 49 CFR 7.78 be, and it is hereby, revised to read as follows:

§ 7.78 OP-OR-9.

Application for motor carrier certificate or permit, revised April 6, 1966.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

(49 Stat. 551 as amended, 49 U.S.C. 306; 49 Stat. 552 as amended, 49 U.S.C. 309)

By the Commission.

PART 95—CAR SERVICE

Railroad Operating Regulations for Freight Car Movement

At a session of the Interstate Commerce Commission held in Washington, D.C., on the 14th day of April A.D. 1966.

It appearing, that the unprecedented level of the economy is placing tremendous pressures on railroad transportation facilities, causing such acute shortages of freight cars in all sections of the country as to close industrial plants, impede the movements of agricultural products and other goods to market; that delays in transportation threaten to cause unwarranted increases in the prices of certain commodities; that car owners and shippers in all sections of the country are being deprived of the use of the cars acquired to handle their traffic; that present rules, regulations, and practices with respect to the use, supply, control, movement, distribution, exchange, interchange, and return of freight cars are not promoting the most efficient utilization of cars. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

§ 95.975 Service Order No. 975.

(a) *Railroad operating regulations for freight car movement.* Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) *Placing of cars.* (i) Loaded cars, which after placement will be subject to demurrage rules applicable to detention of cars awaiting unloading, shall be actually placed within 24 hours, exclusive of Sundays and holidays, following arrival at destination.

(ii) Actual placement means placing of a car on industrial interchange tracks or other-than-public-delivery tracks serving the consignee, or on public delivery tracks. Proper notice for cars placed on public delivery tracks shall be sent or given within 24 hours after placement, exclusive of Saturdays, Sundays, and holidays.

(iii) When delivery of a car, either empty or loaded consigned or ordered to an industrial interchange track or to other than a public delivery track cannot be made because of any condition attributable to the consignor or consignee, such car will be held at destination or, if it cannot reasonably be accommodated there, at an available hold point, and constructive placement notice shall be sent or given the consignor or consignee within 24 hours, exclusive of Saturdays, Sundays, and holidays, after arrival of car at destination or hold point.

(iv) Loaded cars held at destination for accessorial terminal services described in the applicable tariffs, such as holding for orders or inspection, shall be placed on unloading, hold or inspection tracks, and proper notice given within 24 hours, exclusive of Saturdays, Sundays, and holidays, after arrival at destination. On cars set off and held short of billed destination, or on cars held at destination and short of inspection tracks, a written notice shall be sent or given to consignee or other party entitled to receive such notice, within 24 hours of arrival, exclusive of Saturdays, Sundays, and holidays, at the hold point. Time and charges shall be computed from the first 7 a.m., following such notice and demurrage assessed in accordance with provisions of Service Order No. 979.

(2) *Removal of cars.* (i) Empty cars must be removed from point of unloading or interchange tracks of industrial plants within 24 hours, exclusive of Sundays and holidays, following unloading or release by consignee or shipper, unless such empty cars are ordered or appropriated by the shipper with approval of carrier for reloading within such 24-hour period. Empty cars not ordered for loading at point where made empty must be forwarded in line-haul service within 24 hours, following removal of empty cars.

(ii) Outbound loaded freight cars must be removed from point of loading or interchange tracks of industrial plants within 24 hours, exclusive of Sundays and holidays, following acceptance by carrier of the shipping instructions covering the cars. Such cars must be forwarded in line-haul service within 24 hours, following release and removal.

(iii) Cars subject to subdivisions (i) and (ii) of this subparagraph not made accessible to the carrier shall be subject to demurrage until such time as they become, and remain, accessible to the carrier.

(3) *Forwarding of cars.* (i) Loaded and empty cars of foreign or private ownership, and empty system freight cars when the holding line is the beneficiary of Car Distribution Directions or Orders issued by this Commission applicable to the kind of car held, shall not be held in excess of 24 hours for any purpose, except as follows:

(ii) Loaded cars held subject to instructions of consignee, consignor, or other qualified owner of the freight contained therein.

(iii) Cars held for repairs.

(iv) Cars held because no train or switch engine service is available between hold point and destination. (See subparagraph (6) of this paragraph.)

(4) *Cars held for repairs.* (i) Loaded cars and empty cars of foreign or private ownership, and empty system cars when the holding line is the beneficiary of Car Distribution Directions or Orders issued by this Commission applicable to the kind of car held, which are held for light repairs shall be placed on repair tracks not later than the first 7 a.m., exclusive of Sundays and holidays after time carded for repairs. Light repairs shall be made on same calendar day, exclusive of Sundays and holidays, that cars are placed on repair tracks; except that when necessary to order from car owner the material necessary to make light repairs to foreign or private cars, light repairs to foreign or private cars held awaiting such material shall be completed prior to 11:59 p.m., of the calendar day which includes the first 7 a.m., inclusive of Sundays and holidays, after receipt of such material at the station at which the repair point is located.

(ii) Light repairs are defined as repairs requiring less than 20 man-hours by repair track forces to complete.

(5) *Railroad operating regulations for the movement of freight cars.* (i) No common carrier by railroad subject to the Interstate Commerce Act shall delay the movement of cars by holding such cars in yards, terminals, or sidings for the purpose of increasing the time in transit of such loaded cars.

(ii) Cars shall not be set out between terminals except in cases of emergencies or sound operating practices.

(iii) Backhauling cars for the purpose of increasing the time in transit is prohibited.

(iv) Through cars shall not be handled on local or way freight trains for the purpose of increasing the time in transit of such cars.

(v) The use by any common carrier by railroad for the movement of cars over its line, of any route other than its usual and customary fast freight route from point of receipt of the car from consignor, or connecting line, to point of delivery to consignee, or to next connecting line, except for the purpose of according a lawfully established transit privilege (not including a diversion or reconsignment privilege) is hereby prohibited.

(6) *Availability of service.* (i) The availability for movement of forty (40) or more cars, whether loaded or empty, in territory normally served by a single train or engine, shall be considered sufficient to justify the train or engine service required to place, remove, or forward all such cars on any given day. Where side-trip operations are necessary, the availability of 10 such cars for each 25 miles of round-trip service required to move such cars will be considered sufficient to warrant the side trip.

(ii) When the volume of available traffic is less than that described in subdivision (i) of this subparagraph, placement, removal, or forwarding of all cars which are available 1 hour or more prior to departure of a train or engine serving the station or terminal where such cars are held, by that train shall be deemed compliance with subparagraph (1), (2), or (3) of this paragraph. Nothing in this paragraph shall be interpreted as to require the movement of a car in a direction opposite to its proper direction of movement, unless such back haul will expedite the overall movement of the car to its proper destination.

(b) *Application.* (1) The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(2) Holidays shall be those listed in Item 25 of Agent H. R. Hinsch's Tariff ICC H-17, naming Car Demurrage Rules and Charges, supplements thereto or successive issues thereof.

(c) *Announcement required.* The operation of all rules and regulations, insofar as they conflict with the provisions of this order, is hereby suspended and each railroad subject to this order, or its agent, shall publish, file, and post a supplement to its tariffs affected hereby, in substantial accordance with the provisions of Rule 9(k) of the Commission's Tariff Circular No. 20, announcing such suspension.

(d) *Effective date.* This order shall become effective at 12:01 a.m., April 18, 1966.

(e) *Expiration date.* This order shall expire at 11:59 p.m., December 31, 1966, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary.*

[3d Rev. S.O. 977]

PART 95—CAR SERVICE

Distribution of Boxcars

At a session of the Interstate Commerce Commission, held in Washington, D.C., on the 14th day of April A.D. 1966.

It appearing, that an acute shortage of boxcars exists on the Great Northern Railway Co. and on the Northern Pacific Railway Co.; that shippers located on the Great Northern Railway Co. and the

Northern Pacific Railway Co. are being deprived of cars required for loading, resulting in a very severe emergency forcing mills to close thus creating a great economic loss and total unemployment to their personnel; that present regulations and practices with respect to the use, supply, control, movement, distribution, exchange, interchange, and return of boxcars owned by the Great Northern Railway Co. and the Northern Pacific Railway Co. are ineffective. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

§ 95.977 **Service Order No. 977.**

(a) Distribution of boxcars: Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) Withdraw all boxcars owned by the Great Northern Railway Co. and the Northern Pacific Railway Co. from distribution and return to owners empty except as otherwise provided in subparagraphs (3) and (4) of this paragraph.

(2) Great Northern Railway Co. and Northern Pacific Railway Co. boxcars available empty at a station other than a junction with the owner may be loaded to stations on or via the owner, or to any station which is close to the owner than the point where loaded.

(3) Great Northern Railway Co. and Northern Pacific Railway Co. boxcars available empty at a junction with the owner must be delivered to the owner at that junction, either loaded or empty.

(4) For the purposes of obtaining a load authorized in subparagraphs (2) and (3) of this paragraph, Great Northern Railway Co. and Northern Pacific Railway Co. boxcars may be moved empty in the direction of the owner. Great Northern Railway Co. and Northern Pacific Railway Co. boxcars must not be held more than 24 hours awaiting placement for loading, nor back-hauled empty for the purpose of obtaining a load.

(b) No common carrier by railroad subject to the Interstate Commerce Act shall accept from shipper any Great Northern Railway Co. or Northern Pacific Railway Co. boxcar for movement contrary to the provisions of paragraph (a) of this section.

(c) The term boxcars as used in this order means freight cars having a mechanical designation prefixed by "X" in the Official Railway Equipment Register, ICC R.E.R. No. 358, issued by E. J. McFarland, or successive issues thereof.

(d) Application: The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(e) Effective date: This order shall become effective at 12:01 a.m., April 18, 1966.

(f) Expiration date: This order shall expire at 11:59 p.m., May 28, 1966, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, 17(2). Interprets or applies secs. 1(10–17), 15(4), 40 Stat. 101, as amended 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), 17(2))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary*.

[S.O. 983]

PART 95—CAR SERVICE

Distribution of Boxcars

At a session of the Interstate Commerce Commission, Railroad Safety and Service Board, held in Washington, D.C., on the 14th day of April A.D. 1966.

It appearing, that an acute shortage of boxcars with inside length of 50 feet or longer and of boxcars with inside length of 40 feet or longer with side-door openings of 8 feet or wider exists in the areas served by the Southern Pacific Co. and the Union Pacific Railroad Co., and that shippers served by the Southern Pacific Co. and the Union Pacific Railroad Co. are being deprived of cars required for loading, resulting in a very severe emergency forcing mills to close thus creating a great economic loss and total unemployment to their personnel; that present regulations and practices with respect to the use, supply, control, movement, distribution, exchange, interchange, and return of such boxcars owned by the Southern Pacific Co. or by the Union Pacific Railroad Co. are ineffective. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

§ 95.983 **Service Order No. 983.**

(a) Distribution of boxcars: Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) Withdraw from distribution and return to owners empty, except as otherwise provided in subparagraph (2) or (3) of this paragraph, all boxcars owned by the Southern Pacific Co. and the Union Pacific Railroad Co. which are listed in the Official Railway Equipment Register, ICC R.E.R. 358, issued by E. J. McFarland, or reissues thereof, as having mechanical designations XM or XME, with inside length of 50 feet or longer, or with inside length 40 feet or longer and with side-door openings 8 feet wide or wider, or equipped with plug doors regardless of length.

(2) Southern Pacific Co. and Union Pacific Railroad Co. boxcars described in subparagraph (1) of this paragraph available empty at a station other than a junction with the owner may be loaded to stations on or via the owner, or to any station which is closer to the owner than the point where loaded.

(3) Southern Pacific Co. and Union Pacific Railroad Co. boxcars described in subparagraph (1) of this paragraph available empty at a junction with the owner must be delivered to the owner at that junction, either loaded or empty.

(4) Southern Pacific Co. and Union Pacific Railroad Co. boxcars described in subparagraph (1) of this paragraph may be moved empty in the direction of the owners. Such cars must not be back-hauled empty, nor held empty more than 24 hours awaiting placement for loading for the purpose of obtaining a load as authorized in subparagraphs (2) and (3) of this paragraph.

(b) No common carrier by railroad shall accept from shipper any Southern Pacific Co. or Union Pacific Railroad Co. boxcar described in paragraph (a) of this section for movement contrary to the provisions of paragraph (a) of this section.

(c) Application: The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(d) Effective date: This order shall become effective at 12:01 a.m., April 18, 1966.

(e) Expiration date: This order shall expire at 11:59 p.m., May 28, 1966, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, 17(2). Interprets or applies secs. 1(10–17), 15(4), 40 Stat. 101, as amended 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), 17(2))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Safety and Service Board.

[SEAL] H. NEIL GARSON, *Secretary.*

[S.O. 984]

PART 95—CAR SERVICE

Regulations for Return of Covered Hopper Cars

At a session of the Interstate Commerce Commission, Railroad Safety and Service Board, held in Washington, D.C., on the 15th day of April A.D. 1966.

It appearing, that an acute shortage of covered hopper cars exists in all sections of the country; that shippers are being deprived of covered hopper cars required for loading, resulting in an emergency, forcing curtailment of their operations thus creating great economic loss and reduced employment of their personnel; that covered hopper cars, after being unloaded, are being appropriated and being retained in services for which they have not been designated by the car owners; that present regulations and practices with respect to the use, supply, control, movement, distribution, exchange, interchange, and return of covered hopper cars are ineffective. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

§ 95.984 Service Order No. 984.

(a) Regulations for return of covered hopper cars: Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) Covered hopper cars, in interline service (including intraterminal switch movements) after being unloaded shall be returned to the originating line via reverse of service route, billed on standard form waybills without charges, except as provided in subparagraph (3) of this paragraph.

(2) When a covered hopper car is released after handling on switching waybills which do not show the origin or complete reverse route, such car shall be returned empty to the line from which it was received loaded for further movement as required by subparagraph (1) of this paragraph.

(3) Exception: Empty covered hopper cars will be sent to other points upon instructions of the car owner given in writing, or orally, confirmed in writing. Such instructions shall include name of station to which car is to be sent and necessary routing authority.

(b) No common carrier by railroad subject to the Interstate Commerce Act shall accept from shipper any covered hopper car offered for movement contrary to the provisions of paragraph (a) of this section.

(c) The term covered hopper cars as used in this order means freight cars having a mechanical designation "LO" in the Official Railway Equipment Register, ICC R.E.R. No. 358, issued by E. J. McFarland, or successive issues thereof.

(d) Application: The provisions of this order shall apply to intrastate, interstate and foreign commerce.

(e) Effective date: This order shall become effective at 12:01 a.m., April 18, 1966.

(f) Expiration date: The provisions of this order shall expire at 11:59 p.m., December 31, 1966, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, 24 Stat. 379, 383, 284, as amended; 49 U.S.C. 1, 12, 15 and 17(2). Interprets or applies secs. 1(10-17), 15(4) and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, That a copy of this order and direction shall be served upon each State railroad regulatory body, the Association of American Railroads, Car Service Division, and upon The American Short Line Railroad Association as agents of the railroads subscribing to the car service and per diem agreement under the terms of that agreement, and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Safety and Service Board.

[SEAL] H. NEIL GARSON, *Secretary.*

Proposed Rule Making

FEDERAL AVIATION AGENCY

[14 CFR Parts 23, 25, 27, 29]

[Docket No. 7298; Notice No. 66-16]

CASTING FACTORS AND INSPECTION PROCEDURES

Notice of Proposed Rule Making

The Federal Aviation Agency is considering amending Parts 23, 25, 27, and 29 of the Federal Aviation Regulations to clarify critical and noncritical casting factors and inspection requirements.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Agency, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C., 20553. All communications received on or before July 19, 1966, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Since the strength of castings is subject to a high degree of variability, adherence to manufacturing and inspection specifications is significant in control of strength. In addition, manufacturing specifications are usually necessary to define castings completely, and both manufacturing and inspection specifications constitute standards and guidance that are useful in establishing approved quality control procedures. Therefore, it is proposed to amend § 23.621(a) to require that all castings meet approved manufacturing and inspection specifications.

Some questions have arisen with respect to §§ 23.621(c)(1)(ii) and 23.621(d)(1) concerning the applicability of all the enumerated inspection methods to each critical casting and the fact that the rules do not clearly state whether an equivalent method may be substituted for each such method. It is, therefore, proposed to amend these sections for all critical and noncritical castings to clarify the applicability of visual, radiographic, magnetic particle and penetrant inspections and their approved nondestructive inspection method equivalents.

For critical castings having casting factors less than 1.5, present § 23.621(c)(2) requires certain static tests but is not explicit as to the method of selecting test samples or the loading conditions under which they are to be tested. The proposed amendment would require testing of randomly selected previously inspected samples from defined lots at the critical loading condition.

Since the changes proposed herein concern a section of Parts 23, 25, 27, and 29 of the Federal Aviation Regulations, which are substantially the same, the foregoing discussion has been directed to the provision in Part 23. However, the discussion should be treated as being equally applicable to the changes proposed in all the Parts.

In consideration of the foregoing, it is proposed to amend Parts 23, 25, 27, and 29 of the Federal Aviation Regulations as follows:

1. By amending the second sentence of § 23.621(a) to read as follows: "All castings must meet acceptable manufacturing and inspection specifications."

2. By amending § 23.621(c)(1)(ii) to read as follows:

(ii) Be 100 percent inspected under each of the following inspection methods:

(*a*) Visual.

(*b*) Radiographic or equivalent.

(*c*) Magnetic particle or equivalent (for ferromagnetic materials), or dye penetrant or equivalent (for nonferromagnetic materials).

3. By amending § 23.621(c)(2) to read as follows:

(2) For each critical casting with a casting factor less than 1.5, three sample castings must be static tested from each lot. For the purposes of this section, a lot consists of a specific design, of one alloy, produced by one facility, from a single melt or pour, and submitted for acceptance at one time. The test castings must be selected randomly from castings which have successfully passed the required inspections. The tests must be conducted for the critical loading condition and the castings shown to meet—

(i) The strength requirements of § 23.305 at an ultimate load corresponding to a casting factor of 1.25; and

(ii) The deformation requirements of § 23.305 at a load of 1.15 times the limit load.

4. By amending § 23.621(d)(1) to read as follows:

(1) Except as provided in subparagraphs (2) and (3) of this paragraph, the casting factors and corresponding inspections must meet the following table:

Casting factor	*Inspections*
2.0 or more	a. 100 percent visual.
Less than 2.0, but more than 1.5.	a. 100 percent visual; and b. 100 percent magnetic particle or equivalent (ferromagnetic materials) or dye penetrant or equivalent (nonferromagnetic materials).
1.25 through 1.50 inclusive.	a. 100 percent visual; b. 100 percent magnetic particle or equivalent (ferromagnetic materials) or dye penetrant or equivalent (nonferromagnetic materials); and c. 100 percent radiographic or equivalent.

5. By making similar amendments to §§ 25.621, 27.621, and 29.621.

This amendment is proposed under the authority of sections 313(a) and 601 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421).

Issued in Washington, D.C., on April 13, 1966.

EDWARD C. HODSON,
Acting Director,
Flight Standards Service.

[F.R. Doc. 66-4253; Filed, Apr. 19, 1966; 8:45 a.m.]

[14 CFR Part 71]

[Airspace Docket No. 66-AL-8]

CONTROL ZONE, CONTROL AREA EXTENSION, AND TRANSITION AREA

Proposed Alteration, Revocation and Designation

The Federal Aviation Agency is considering amendments to Part 71 of the Federal Aviation Regulations which would alter the Kenai, Alaska, terminal airspace structure.

The following controlled airspace is presently designated in the Kenai, Alaska, terminal area:

1. Kenai, Alaska, control zone—Within a 5-mile radius of the Kenai Airport (latitude 60°33'50" N., longitude 151°15'00" W.); within 2 miles either side of the Kenai RR NE course extending from the 5-mile radius zone to 12 miles NE of the RR, and within 2 miles either side of the Kenai VOR 025° radial extending from the 5-mile radius zone to 12 miles NE of the VOR.

2. Kenai, Alaska, control area extension—Within a 42-mile radius of the Kenai VOR, excluding that portion which coincides with the Anchorage, Alaska, Control Area Extension.

A change in the final approach course of the Kenai VOR-1 instrument approach procedure, relocation of the runway, change of airport name, and application of current criteria for establishment of control zones require a change in the Kenai control zone description. The Kenai control area extension was established to provide controlled airspace for high altitude holding and for the high altitude instrument approach procedure conducted outside the Anchorage control area extension. Concurrent with the establishment of continental control area in Alaska, the Kenai control area extension was no longer required for high altitude holding. The transition area proposed herein will provide sufficient protected airspace southwest of Kenai for aircraft executing the high altitude instrument approach procedure and the portions of the holding patterns below 14,500 feet not contained within the Anchorage transition area.

The Federal Aviation Agency, having completed a comprehensive review of the controlled airspace requirements in the Kenai, Alaska, terminal area, proposes the following airspace action:

1. Alter the Kenai, Alaska, control zone by redesignating it to comprise that airspace within a 5-mile radius of the Kenai Municipal Airport (latitude 60°-34'11" N., longitude 151°14'56" W.); and within 2 miles NW and 3 miles SE of the Kenai VOR 031° T (006° M) radial extending from the 5-mile radius zone to 8 miles NE of the Kenai VOR.

2. Revoke the Kenai, Alaska, control area extension.

3. Designate a transition area at Kenai, Alaska, described as that airspace extending upward from 1,200 feet above the surface within 12 miles each side of the 227° T (202° M) bearing from the Kenai, Alaska, RR extending from the southwest boundary of the Anchorage, Alaska, 1,200-foot transition area to 29 miles SW of the Kenai RR.

The alteration of the control zone would provide protected airspace for aircraft conducting prescribed instrument approach and departure procedures and would decrease the extension length by 4 miles. The proposed 1,200-foot transition area would provide protected airspace for aircraft executing portions of the prescribed instrument approach procedures, missed approaches, departures, and holding procedures conducted beyond the limits of the Kenai control zone and the Anchorage 1,200-foot transition area. Revocation of the control area extension would release airspace for other aeronautical uses.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Alaskan Region, Federal Aviation Agency, 632 Sixth Avenue, Anchorage, Alaska, 99501. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The Public Docket will be available for examination by interested persons at the Office of the Regional Counsel, Federal Aviation Agency, 632 Sixth Avenue, Anchorage, Alaska, 99501.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Anchorage, Alaska, on April 13, 1966.

R. G. TAYLOR, Jr.,
Acting Director, Alaskan Region.

[Docket No. 16591; FCC 66-336]

TRANSMITTING FACILITIES ON CERTAIN LANDS UNDER JURISDICTION OF DEPARTMENTS OF AGRICULTURE AND INTERIOR

Notice of Proposed Rule Making

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Experience has indicated an increasing number of electromagnetic compatibility problems, also referred to as proximity interference problems, in instances where a number of transmitters and antennas are within relatively small areas. This concentration often occurs on hills and mountain tops and stems from the advantages that elevated areas offer in affording line-of-sight transmission conditions over greater distances than are otherwise possible. In many areas, the number of favorable sites is often small and many of these sites are on Federal land under the jurisdiction of the Forest Service, U.S. Department of Agriculture or the Bureau of Land Management, Department of the Interior. Because of the unique problems outlined below, the scope of this proceeding is being limited to radio operations on those lands only.

3. In the administration of the Federal land under their jurisdiction, the U.S. Forest Service and the Bureau of Land Management are charged with the responsibility of issuing "special land use permits," frequently called "use permits" or "rights of way" in the public interest to individuals who wish to occupy portions of the land for their own purposes, such as for the construction of radio facilities. While interference effects between radio facilities often occur over great distances, there are a number of adverse effects which are either greatly augmented by, or solely attributable to, the operation of two or more facilities in proximity to each other. In general, these effects are multiplied as the number of facilities is increased. Often, the extent of the effects can be forecast fairly accurately by a proper evaluation of the technical factors involved. In many cases, the anticipated effects can be avoided by the application of proper engineering techniques. As the number of facilities increases, however, so does the complexity of the problems and the analysis necessary to evaluate them. Likewise, more extensive and more complicated measures will be required to eliminate or minimize the adverse effects. In some instances, it may be impossible to accurately evaluate the problems that will occur short of actual installation of equipment to make appropriate tests.

4. The U.S. Forest Service and the Bureau of Land Management each hold the view that it is not in the public interest to issue a land use permit for a new radio operation if it renders useless or seriously degrades existing operations on the same general site, especially since existing users are required to pay fees for their land use permits. In light of the Commission's responsibility to license non-Government operations in the public interest, there is a joint responsibility between the Commission and the Government land agencies in providing for workable radio installations at these sites. It is the purpose of this proceeding to provide, in coordination with the Forest Service and the Bureau of Land Management, a means whereby the compatibility or degree of incompatibility between prospective and existing radio operations can be determined as accurately as possible prior to the issuance of either use permits or FCC Station Authorizations. Additionally, the procedure is intended to provide for the application of corrective measures to overcome those instances of incompatibility which are susceptible to correction by proper engineering techniques.

5. The proposed procedure has been developed in coordination with the Director of Telecommunications Management (who is developing similar procedures to be followed by Government applicants) and with the U.S. Forest Service and the Bureau of Land Management. The procedure is briefly outlined as follows:

(a) An applicant for a radio facility to be located on land requiring a use permit will be required to apply to the appropriate land use agency using a prescribed agency form setting forth the technical parameters of the proposed installation or modification. In the application filed with the Commission the applicant will be required to: (1) Indicate the fact that use of Government land is contemplated; and (2) certify to the date and place of filing of the prescribed application for a use permit.

(b) If the site is available and electromagnetic compatibility problems are indicated, the Government land use agency will, within 15 days of receipt of the application, furnish a copy of the technical proposal to all existing site users and applicants therefore and to the Commission. The Commission will also be furnished a list of all parties being notified and the date of such notice.

(c) Within 30 days after the notice is sent by the appropriate land use agency, existing users of the site or applicants therefor may file comments concerning the proposed installation with the Commission, with a copy to the applicant, which shall include all relevant technical data and a competent engineering analysis establishing and evaluating the anticipated proximity interference.

(d) The applicant will be afforded an additional period of 30 days within which reply comments to each objection may be filed with the Commission. The reply comments shall contain an analysis of the objection and an indication of the measures required to avoid or eliminate the anticipated interference, including a statement as to the steps the applicant is prepared to undertake to avoid or eliminate such interference.

(e) The application will be processed by the Commission on the basis of the foregoing procedure. The Commission will determine, through appropriate measures, the validity of the objections and the adequacy of steps proposed to alleviate interference. These measures may include the issuance of a short term special temporary authorization to test the technical feasibility of the proposed operation. If the Commission determines that the public interest would be served by granting an authorization, operating conditions may be imposed upon the station authorization as deemed appropriate in order to eliminate or minimize interference.

(f) Upon issuance of a regular authorization by the Commission, the applicant will then obtain a final site permit from the Forest Supervisor or the Land Office Manager, as appropriate.

6. The proposed amendment of Part 1 of the rules is set forth in the Appendix and is issued pursuant to authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended. If the proposal contained herein is adopted, Parts 21, 23, 73, 74, 81, 87, 89, 91, 93, 95, and 97 of the Commission's rules would be amended appropriately to reflect the foregoing procedure.

7. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before June 1, 1966, and reply comments on or before June 15, 1966. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. The Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

8. In accordance with the provisions of § 1.419(b) of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: April 13, 1966.

Released: April 15, 1966.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE,
Secretary.

Section 1.70 of the Commission's rules is added in appropriate sequence to read as follows:

[1] Commissioner Loevinger absent.

§ 1.70 Procedures for handling applications involving use of certain public lands and reservations owned by the U.S. Government.

(a) Any application proposing new or modified transmitting facilities to be located on land under the jurisdiction of the U.S. Forest Service, or the Bureau of Land Management, shall include a statement that the facilities will be so located and the applicant shall certify that a proper application for a land use permit has been filed with the agency involved on the form prescribed by that agency. This certification shall include the date and place of filing.

(b) Within 15 days following receipt of the application for a land use permit, the appropriate Government agency will by agreement with the Commission and the Director of Telecommunications Management, proceed as follows:

(1) If, for reasons other than electromagnetic compatibility, the site is not available, notify the Commission to this effect;

(2) If the site is available and there are no existing radio users of, or applicants for, the site, notify the Commission to this effect;

(3) If the site is otherwise available and there is an existing user(s) or applicant(s), send a notice containing all of the technical parameters of the proposed new or modified transmitting facilities to all existing users of, and applicants for, the site in question and simultaneously furnish the Commission with a list of all such users and applicants together with a copy of the aforementioned notice.

(c) Any existing user of the site or applicant therefor, may, within 30 days after the date of the notice sent by the appropriate land use agency, file comments concerning the proposed new or modified installation with the Commission, with a copy to the applicant, which shall include all relevant technical data and an engineering analysis establishing and evaluating the proximity interference expected in either or both directions, together with an explanation of any technical measures that may be taken to eliminate or minimize the expected interference.

(d) Within 30 days from the last day for filing objections, the applicant shall furnish to the Commission a competent engineering analysis of, and comments on, each objection received, together with a clear indication of the measures that the applicant is prepared to take to eliminate or minimize the expected interference.

(e) If no objections based on electromagnetic compatibility problems are received within 30 days after the notice has been sent by the appropriate land use agency, the application will be processed by the Commission in the normal manner. Should data be received indicating technical objections to the proposed installation or modification, the Commission will determine, through appropriate procedures, the validity of such objections. These procedures may include issuance of a special temporary authorization for a relatively short period of time to test the technical feasibility of the proposed operation. The Commission will then determine whether the application should be granted, and, if so, what operating conditions should be imposed. In general, the primary responsibility for correcting proximity interference will be upon the applicant. Any user affected, however, will be expected to extend all reasonable cooperation in reaching a satisfactory solution. In some cases this may involve expenditures on the part of existing users to correct technical deficiencies in their installations.

(f) Upon issuance of a station authorization, which may be restricted to reflect conditions relative to site use imposed by either the Departments of Agriculture or Interior or operating conditions imposed by the Commission, the applicant will then obtain a final site permit from the Forest Supervisor or the Land Office Manager, as appropriate.

[F.R. Doc. 66-4313; Filed, Apr. 19, 1966; 8:50 a.m.]

[47 CFR Part 73]

[Docket No. 16586; FCC 66-319]

TABLE OF ASSIGNMENTS, TELEVISION BROADCAST STATIONS

Notice of Proposed Rule Making

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission has before it for consideration a petition filed on October 18, 1965, by Paul Kafoury and Ray T. Moe to assign Channel 16 to Newport, Oreg.

3. Newport, Oreg., is a small community of 5,344 population situated on the coast a little over 90 miles south-southwest of Portland and 39 miles west of Corvallis, Oreg. It is the county seat of Lincoln County which has a population of 24,635. Although it is within the theoretical Grade B contour of KBZI-TV, Channel 9, Eugene, Oreg., and near the edge of the theoretical Grade B contour of KVAL-TV, Channel 13, also in Eugene, intervening terrain would be expected to make satisfactory reception difficult. As a matter of fact, principal service appears to come from a CATV system operated by Newport Cable TV Co. which has been in existence since 1955 and currently provides signals from the four Portland TV stations and KVAL-TV in Eugene, to 1,000 of an estimated potential 2,000 subscribers. The present cable system has a capacity of five channels but is expected to be increased to seven channels this year. Two UHF television translators are also licensed to serve the Newport-Otter Creek area bringing in the signals of KOIN-TV, Channel 6 and KGW-TV, Channel 8, Portland on UHF Channels 74 and 71, respectively. Paul Kafoury, one of the petitioners, operates the two UHF translators. Educational TV service is probably provided by KOAC-TV, Channel 7, Corvallis, Oreg., approximately 40 miles away.

4. The request for the assignment of Channel 16 was based on assignments

adopted in the Fourth Report and Order in Docket No. 14229. We have since adopted a corrected assignment plan and Channel 16 may not be assigned to Newport, Oreg. However, employing the principles used in developing the corrected assignment plan, it has been found that Channel 20 may be assigned to Newport with the least impact on remaining available assignments. Accordingly, in lieu of Channel 16 we are proposing the assignment of Channel 20 to Newport, Oreg.

5. The Commission stated in paragraph 48 of the Fifth Report and Memorandum Opinion and Order in Docket No. 14229, that additions to the Table of Assignments would not be made until there was an actual demand for channels. Petitioners are expected to show that they intend to apply for the requested channel and are prepared to proceed promptly with the construction and operation of a new UHF station if authorized to do so. The subject petition was filed prior to the release of the Fifth Report and Order and did not contain this showing. Therefore, it will be necessary for the petitioner to provide the needed showing in the form of a comment in this proceeding.

6. Under the authority contained in sections 4 (i) and (j), 303, and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend the Table of Assignments in § 73.606 of the Commission's rules insofar as the below listed community is concerned:

City	*Channel*
Newport, Oreg	20

7. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties shall file comments on or before May, 23, 1966, and reply comments on or before June 2, 1966. All submissions by parties to this proceeding, or by persons acting on behalf of such persons, must be made in written comments, reply comments, or other appropriate similar pleadings.

8. In accordance with § 1.419 of the Commission's rules and regulations, an original and 14 copies of all written comments, reply comments, pleadings, briefs, or other pertinent documents shall be furnished the Commission.

Adopted: April 13, 1966.

Released: April 15, 1966.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE, *Secretary*.

[1] Commissioner Loevinger absent.

[47 CFR Part 73]

[Docket No. 16587; FCC 66-320]

TABLE OF ASSIGNMENTS, FM BROADCAST STATIONS

Notice of Proposed Rule Making

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission has before it for consideration the petition filed by Eastern Idaho Broadcasting & Television Co. on January 5, 1966, and amended on February 25, 1966, requesting the substitution of Channel 256 for Channel 223 at Idaho Falls, Idaho, as follows:

City	Channel No.	
	Present	Proposed
Idaho Falls, Idaho	223, 241	241, 256

Eastern Idaho Broadcasting & Television Co. (Eastern) is the licensee of television Station KIFI-TV, which operates on TV Channel 8 at a site about 30 miles west of the city of Idaho Falls. On December 7, 1965, a construction permit was granted to Golden Valley FM, Inc. (BPH-4908) for a new FM station on Channel 223 at a site near that city. In addition to filing the subject petition, Eastern also filed a Petition for Reconsideration of the Golden Valley FM grant.

3. The stated purpose of the subject petition is to remove the possibility of the interference petitioner feels is likely to occur to the reception of its TV station in the area of the FM transmitter due to the fact that the second harmonic of the FM signal (185.0 Mc/s) falls within the range of Channel 8 (180-186 Mc/s). See Information Bulletin FCC 65-130, dated February 19, 1965, and Public Notice, FCC 66-106, dated February 3, 1966. Eastern fears that this interference will be severe in this case since the TV station is far from the center of population while the FM station is situated much closer to the city (about 8 miles northeast) and near the populated area. It cites the example of the interference which was caused to reception of WILX-TV on Channel 10 at Lansing, Mich., around the transmitter of WKFR-FM on Channel 243 at Battle Creek, Mich. Eastern urges that the proposed substitution of Channel 256 for 223 at Idaho Falls will conform to the policy included in the February 3, 1966, Public Notice since there will not result any loss of potential FM service nor will it shift the problem to any other community or television station. Eastern submits that Channel 223, if deleted from Idaho Falls, would still be available in a large area to the east and south of that city and that there are 23 other FM channels which can be assigned to Idaho Falls for future use, 10 of which could be used simultaneously.

4. Golden Valley, FM, Inc., opposes the request for rule making on several grounds. First, it states that there is no absolute evidence that second harmonic interference will in fact occur under the circumstances in this case. Second, some additional expenses will be incurred since some of the ordered equipment has already been manufactured. Third, Golden Valley is anxious to start operations as soon as possible and the proposed rule making will delay its plans. It states that it is willing to risk the possibility of such interference, but urges that in the event the Commission feels that rule making is warranted in this case, such rule making be expedited to the greatest extent possible, and that it be ordered to show cause why its outstanding authorization should not be modified to specify operation on Channel 256 in lieu of 223.

5. We appreciate the desire of Golden Valley to commence operation of its new FM station in the earliest possible time. However, we are also of the view that rule making on the petitioner's request is warranted. The proposal conforms to the policy announced in the February 1966 Public Notice concerning changes in the FM Table to avoid interference to TV stations. In view of the large number of other channels available to the area, the fact that the problem will not be shifted to any other community or station, and that there does exist the possibility of the expected interference, we believe that the slight delay in the operation of Golden Valley's station is merited. As to the construction permit held by Golden Valley, we will take appropriate measures in the event the proposal is adopted. Comments are therefore invited on the proposal as outlined above.

6. Authority for the adoption of the amendments proposed herein is contained in sections 4(i), 303, and 307(b) and 316 of the Communications Act of 1934, as amended.

7. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules, interested parties may file comments on or before May 3, 1966, and reply comments on or before May 13, 1966. All submissions by parties in this proceeding or by persons acting in behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

8. In accordance with the provisions of § 1.419 of the rules, an original and 14 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished to the Commission.

Adopted: April 13, 1966.

Released: April 15, 1966.

[1] Commissioners Bartley and Cox dissenting; Loevinger absent.

FEDERAL POWER COMMISSION

[18 CFR Part 141]

[Docket No. R-302]

REPORTING OF MAJOR ELECTRIC POWER OUTAGES BY ALL ENTITIES ENGAGED IN GENERATION AND TRANSMISSION

Notice of Proposed Rulemaking

APRIL 14, 1966.

1. Notice is given pursuant to section 4 of the Administrative Procedure Act that

the Commission proposed to require all public utilities, licensees, and other entities engaged in the generation or transmission of electric energy, whether or not otherwise subject to the jurisdiction of the Commission, to report the interruption of bulk power supply for a period of 15 minutes or more for aggregate loads in excess of 25,000 kw or in excess of half the system load. Interruptions which do not affect facilities operating at a nominal voltage of 69 kv or more need not be reported. This proposal would apply to privately, publicly, and cooperatively owned systems.

2. This proposed requirement will enable the Commission to keep currently informed of major service interruptions in bulk power supply. The proposal is to define a reporting system, applicable to all segments of the electric industry, which will secure necessary information during a service interruption or in the period immediately thereafter. It will not necessarily secure all the data which would be desirable in order to build up comprehensive statistics on the reliability of electric power service. (For example, this proposal does not include data on the equipment outages which electric systems sustain without interruption of service.)

3. The Commission has the statutory responsibility, among other things, for encouraging actions to assure an abundant supply of electric energy throughout the country and is authorized by subsection 202(c) of the Federal Power Act to take appropriate action as in its judgment will best meet an emergency situation arising out of any failure of an adequate power supply. In addition, section 207 requires us, under certain circumstances, to determine and fix by order the proper, adequate, or sufficient interstate service to be rendered by a public utility. Under section 311 of the Act the Commission is responsible for reporting the problems and developments of the electric industry to Congress and is directed to collect information regarding the generation, transmission, distribution, and sale of electric energy, however produced, and whether or not otherwise subject to its jurisdiction. The information which we are here proposing to require will enable us more adequately to carry out these responsibilities.

4. These amendments to the Commission's regulations are proposed to be issued under the authority of the Federal Power Act, as amended, particularly sections 202, 207, 304, 307, 309, and 311 (49 Stat. 848, 853, 855, 856, 858, 859, as amended 67 Stat. 461; 16 U.S.C. 824a, 824f, 824c, 825f, 825h, 825j).

5. Accordingly, it is proposed to amend Part 141, Subchapter D, Chapter I, Title 18 of the Code of Federal Regulations, by adding a new § 141.58 to read as follows:

§ 141.58 Report of bulk electric power supply outages.

(a) *Telephonic reports.* Every electric utility, licensee, and other entity engaged in the generation or transmission of electric energy shall report to the Commission's Washington office by telephone any loss in service for 15 minutes or more of bulk power supply to aggregate loads in excess of 200,000 kw. Calls should be placed at the earliest feasible moment to Area Code 202, number 962-1307, which will be manned 24 hours a day. Incoming messages will be recorded in order to preserve a record. The information supplied in the first report should include the geographic location of the incident, approximate land area affected, the time of occurrence and a description of the initial incident resulting in the interruption, the cause (if known), an estimate of the number of customers affected and an appraisal of the likely duration of the outage. The Commission may require further reports during the period of interruption and restoration of service, such reports to be made by telephone or telegraph or both as the Commission may direct.

(b) *Telegraphic reports.* Every electric utility, licensee, and other entity engaged in the generation or transmission of electric energy shall report to the Commission's Washington office by telegram any loss in service for 15 minutes or more of bulk power supply to aggregate loads exceeding the lesser of 25,000 kw or half the system load, but less than 200,000 kw. The affected utilities shall report to the Commission's Washington office by telegram addressed to the Chief, Bureau of Power, Federal Power Commission, 441 G Street NW., Washington, D.C., within 2 hours of the initiation of the service interruption. The information supplied shall include the geographic location of the incident, approximate land area affected, the time of occurrence and the time or times of restoration, a description of the initial incident resulting in the interruption, the cause (if known), an estimate of the number of customers affected, and an appraisal of the likely duration of the outage.

(c) *Report of details.* (1) Subsequent to the submittal of initial reports by telephone or telegram as required by paragraphs (a) and (b) of this section, each entity experiencing a service interruption of bulk power supply shall submit a full report, if so directed by the Commission or the Chief of its Bureau of Power, within 10 days of the initial outage or at such other times as may be ordered, of the circumstances of the outage and the conclusions it has drawn therefrom.

(2) The report shall be prepared in such detail as may be appropriate to the severity and complexity of the incident experienced and should include an account understandable to the informed layman in addition to the following technical and other information:

(i) A description of the manner in which the incident was initiated.

(ii) A description of the operating conditions of an unusual nature preceding the initiation of the disturbance.

(iii) the cause of the initial disturbance, clearly described.

(iv) If the interruption was geographically widespread, enumerate the sequence of events contributing to its spread.

(v) An account of the measures taken to prevent spread in the loss of service; e.g., manual or automatic load shedding, unit isolation, or system sectionalization. These actions and all chronicled events should be keyed to a record of the frequency involved.

(vi) Where load outage exceeded capacity of interties, either within the system or with other systems, state the capacity of the interties.

(vii) A summary description of any equipment damage, the status of its repair and a description of the measures taken to restore service with particular evaluation of the availability of startup power and the ease or difficulty of restoration.

(viii) Factual data on the impact of the interruption on people and industries in the affected area.

(ix) Information on the steps taken, being taken, or planned by the utility, to prevent recurrence of the interruption or interruptions of a similar nature, to ease problems of service restoration, and to minimize impacts on the public and the customers in any future service interruption.

6. Any interested person may submit in writing to the Federal Power Commission, Washington, D.C., 20426, not later than May 17, 1966, data, views, comments, and suggestions concerning the proposed reporting requirements. We invite, particularly, an evaluation of the 25,000 kw-15 minute and the 50 percent of load-15 minute definitions of reportable outages. The Commission would appreciate comments both as to the extent of the reporting burden involved and as to the effectiveness of these definitions in identifying significant outages. The Commission would be interested in suggestions for alternative definitions and would appreciate information as to the frequency of reporting which each definition would likely entail on the basis of recent experience. An original and nine conformed copies of any such submittal should be filed. The Commission invites the submission of telephonic and telegraphic reports on a voluntary basis during the pendency of this rulemaking proceeding as a means of developing practical experience before defining the final form of the rule.

By direction of the Commission.

JOSEPH H. GUTRIDE,
Secretary.

Notices

DEPARTMENT OF THE TREASURY

Office of Foreign Assets Control

IMPORTATION OF CERTAIN MERCHANDISE DIRECTLY FROM TAIWAN (FORMOSA)

Available Certification by Government of Republic of China

Notice is hereby given that certificates of origin issued by the Ministry of Economic Affairs of the Republic of China under procedures agreed upon between that Government and the Office of Foreign Assets Control in connection with the Foreign Assets Control Regulations are now available with respect to the importation into the United States directly, or on a through bill of lading, from Taiwan (Formosa) of the following additional commodity:

Hair, human, processed (wigs, etc.)

This notice supersedes a previous notice announcing the availability of certificates of origin for "hair (human) nets, netting, other products." All of these hair products, in addition to wigs, wiglets, etc., are now included within the category set forth above.

[SEAL] MARGARET W. SCHWARTZ,
Director,
Office of Foreign Assets Control.

BUREAU OF TRANSPORTATION AND INTERNATIONAL SERVICES

New Executive Alignment

The following is an excerpt from Regional Letter No. 66-55 signed by the Deputy Postmaster General on April 5, 1966, relative to the above subject:

Executive position changes. Effective immediately the following position and personnel changes are made in the Bureau of Transportation and International Services.

A. The Deputy Assistant Postmaster General (Domestic Transportation and Distribution and Routing) and Deputy Assistant Postmaster General (International and Research and Development) positions are abolished.

B. A single Deputy Assistant Postmaster General position is established.

C. A new position, Staff Assistant to the Deputy Assistant Postmaster General, is established.

(R.S. 161, as amended; 5 U.S.C. 22, 39 U.S.C. 501, 505)

TIMOTHY J. MAY,
General Counsel.

CHIEFS, BRANCH OF OFFICE SERVICES AND PROPERTY MANAGEMENT AND PROCUREMENT SECTION

Redelegation of Authority

Pursuant to the authority contained in section 2 of Bureau Order No. 698 of the Bureau of Land Management, the Chief, Branch of Office Services, Washington Office, and the Chief, Property Management and Procurement Section, Washington Office, are hereby redelegated the following authority:

1. To issue contracts regardless of amount for equipment, supplies and services obtainable from established sources of supply.

2. To issue contracts on the open market pursuant to section 302(c)(3) of the Federal Property and Administrative Services Act of 1949, as amended, not to exceed $2,500 for supplies, equipment, and services, and $2,000 for construction.

The above authority is effective April 13, 1966, and may not be redelegated.

J. F. HUCHINGSON,
Chief,
Division of Administrative Services.

ARIZONA

Notice of Filing of Plats of Survey

APRIL 12, 1966.

1. Plats of survey of the lands described below will be officially filed in the Land Office, Phoenix, Ariz., effective at 10:00 a.m., on May 18, 1966:

GILA AND SALT RIVER MERIDIAN

T. 12 N., R. 1 W.,
Secs. 1 to 36, inclusive;
T. 12½ N., R. 1 W.,
Secs. 19 to 36, inclusive.

The areas described aggregate 29,844.31 acres.

2. All of Township 12 North, Range 1 West, is mountainous, with gently rolling lands in the central and north portions. The soil is rocky clay with general drainage to the south. The majority of the township is covered with dense scrub oak and manzanita. There is a good growth of yellow pine on Big Bug Mesa, also in Pine Flat and on Longfellow Ridge.

The entire area of fractional Township 12½ North, Range 1 West, lies within the Prescott National Forest. The western and central portions of the township are mountainous and high rolling land. The many draws and ravines in the central portion of the township drain into Big Bug Creek. The soil is of a rocky clay loam. There is a moderate to heavy growth of juniper and pinon over most of the township except the northeast portion, which is covered with heavy scrub oak and manzanita.

3. All of the above-described lands are embraced in the Prescott National Forest by Proclamation 6 of October 21, 1899.

Since the lands are withdrawn for the Prescott National Forest, the described lands will not be subject to disposition under the general public land laws by reason of the official filing of the plats.

JOHN L. BRIXIUS,
Acting Manager.

Bureau of the Census

MULTIUNIT COMPANIES

Notice of Determination for Surveys

In conformity with 13 U.S.C. 181, 224, and 225, and due Notice of Consideration having been published on March 8, 1966 (31 F.R. 3503), I have determined that a First Quarter 1966 Survey of selected multiunit companies is needed to collect information for the 1966 County Business Patterns Report. The Survey is similar to those conducted for previous County Business Patterns Reports and is designed to collect information on number of employees, taxable wages, geographic location, and kind of business for establishments of selected multiunit companies. Only those companies which do not report in sufficient detail to other Federal Agencies will be required to report in this survey. The data will have significant application to the needs of the public and to governmental agencies and are not publicly available from nongovernmental or governmental sources.

Report forms will be furnished to firms included in the survey and additional copies of the forms are available on request to the Director, Bureau of the Census, Washington, D.C., 20233.

I have, therefore, directed that a survey be conducted for the purpose of collecting these data.

Dated: April 11, 1966.

A. ROSS ECKLER,
Director, Bureau of the Census.

Bureau of International Commerce

[Case No. 355]

CON-MECH ENGINEERS, LTD.

Consent Probation Order and Termination of Indefinite Denial Order

In the matter of Con-Mech Engineers Ltd., 4 Southampton Place, London, W.C., 1, England, respondent; Case No. 355.

By charging letter dated March 22, 1966, Con-Mech Engineers Ltd. was charged by the Director, Investigations Division, Office of Export Control, Bureau of International Commerce, with having violated the U.S. Export Regulations. The respondent was served with the charging letter. Pursuant to the provisions of § 382.10 of the Export Regulations, with agreement of the Director of the Investigations Division, the respondent submitted to the Compliance Commissioner a proposal for the issuance of a consent order substantially in the form hereinafter set forth. In said consent proposal the respondent admitted for the purpose of this compliance proceeding only the charges set forth in the charging letter. It waived all right to an oral hearing before the Compliance Commissioner and consented to the issuance of an order. It also waived all right of administrative appeal from, and judicial review of, such order.

On August 18, 1965, effective as of August 23, 1965 (30 F.R. 10913), an order denying export privileges for an indefinite period was entered against the above respondent and D. E. Gibbs, a director of said firm and its export manager. Said order was entered because said parties had failed to respond to interrogatories which had been served on them pursuant to § 382.12 of the Export Regulations. In view of the admitted violation by respondent in reexporting certain commodities concerning which inquiries were made in the interrogatories (on the basis of which admission this order is being entered) the indefinite denial order dated August 18, 1965, is hereby terminated as to Con-Mech Engineers Ltd. and D. E. Gibbs.

The Compliance Commissioner has reviewed the facts in the case and the respondent's proposal. He has approved the proposal and recommended that it be accepted.

After considering the Compliance Commissioner's recommendation and the consent proposal, I hereby make the following findings of fact:

1. The respondent, Con-Mech Engineers Ltd., is a British corporation and has a place of business in London, England. The company is engaged in the manufacture and distribution of various types of machinery, and also in the importing and exporting of machinery and engines and parts and accessories therefor.

2. During the period from January 8, 1965, to March 17, 1965, a U.S. supplier exported from New York to the respondent in London quantities of U.S.-origin bearings.

3. During the period February 1965 through April 1965, the respondent, without first obtaining authorization from the U.S. Government, reexported from England to Cuba some of the bearings referred to in the preceding finding.

4. The respondent knew or had reason to know, at the time the bearings were reexported from England to Cuba that the bearings were of U.S. origin and that the U.S. law prohibited their reexportation from England to Cuba without first obtaining authorization from the U.S. Government.

From the foregoing I have concluded that the respondent, without specific authorization from the U.S. Department of Commerce, knowingly reexported, transshipped and diverted U.S.-origin commodities from England to Cuba contrary to the provisions of § 381.6 of the U.S. Export Regulations.

I have considered the record in the case and also the fact that the respondent has been under denial of U.S. export privileges since August 23, 1965. The consent proposal is hereby accepted and I am of the view that the following order is calculated to achieve effective enforcement of the law and the purposes thereof. *Accordingly, it is hereby ordered:*

I. The order denying export privileges for an indefinite period entered on August 18, 1965 (30 F.R. 10913) against Con-Mech Engineers Ltd. and D. E. Gibbs, is hereby terminated.

II. For a period of 3 years from the effective date of this order the respondent Con-Mech Engineers Ltd. is place on probation on condition that it does not knowingly violate the Export Control Act of 1949, as amended, or any regulation or order issued thereunder. While the respondent is on probation it shall be permitted all export privileges as though this order had not been entered. If the respondent does not violate the condition of probation, this order without further action shall terminate at the expiration of 3 years from its effective date.

The respondent has agreed that in the future, as to shipments other than those covered in interrogatories heretofore submitted by the U.S. Department of Commerce, it will answer oral or written inquiries by the U.S. Government regarding its handling and disposition of commodities exported from the United States.

III. In the event that, after full investigation, a determination is made by the Director, Office of Export Control, or such other official as may at that time be exercising his duties, that the respondent has failed during the 3 year period of probation, to comply in any respect with the conditions set forth in Part II hereof, such official may summarily and without notice to the respondent enter and publish an order against the respondent which in substance shall provide as follows:

(a) Revoke all outstanding validated export licenses to which respondent is a party.

(b) For a period up to 3 years deny to the respondent and all persons and firms related to it, all privileges of participating directly or indirectly, in any manner or capacity, in any exportation of any commodity or technical data from the United States to any foreign destination including Canada. Without limitation of the generality of this provision, participation in an exportation is deemed to include and prohibit participation by the respondent, directly or indirectly, in any manner or capacity, (1) as a party or as a representative of a party to any export license application, (2) in the preparation or filing of any export license application or document to be submitted therewith, (3) in the obtaining or using any validated or general export license or other export control document, (4) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities or technical data, in whole or in part, exported or to be exported, from the United States, and (5) in the financing, forwarding, transporting, or other servicing of exports from the United States.

(c) No person, firm, corporation, or other business organization, shall without prior disclosure to, and specific authorization from, the Bureau of International Commerce, directly or indirectly, in any manner or capacity, (1) apply for, obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited exportation of commodities or technical data from the United States, or (2) order, receive, buy, use, dispose of, finance, transport, forward, or otherwise service or participate in any such prohibited exportation from the United States, or in the reexportation of any commodity or technical data within the scope of this order exported from the United States, with respect to which said company shall have any interest of any kind or nature, direct or indirect.

(d) The entry of an order under this part shall not limit the Bureau of International Commerce from taking other action based on the violation for which probation was revoked as said Bureau shall deem warranted.

This order shall become effective forthwith.

Dated: April 11, 1966.

Rauer H. Meyer,
Director, Office of Export Control.

CIVIL AERONAUTICS BOARD

[Docket No. 17228; Order E-23528]

EASTERN AIR LINES, INC., AND NATIONAL AIRLINES, INC.

Florida Summer Excursion Fares; Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of April 1966.

By a tariff filing posted January 10, 1966, and marked to become effective February 24, 1966, National Airlines, Inc. (National), established round-trip first-class and coach individual excursion fares between the east coast points of Washington, D.C. and points north, on the one hand, and Florida points on the other, to be applicable for travel commencing April 25, 1966. Subsequently on February 17, 1966, Northeast Airlines, Inc. (Northeast), filed an excursion fare applicable to this market effective April 4, 1966, and on March 23, 1966, Eastern Air Lines, Inc. (Eastern), filed a tariff matching that of National. In addition, the "Discover America" type coach excursion fare tariff as adopted generally by the domestic trunkline industry has been filed by these three East Coast-Florida carriers.

By letter dated February 25, 1966, National requested authority to permit Eastern, Northeast, and National to discuss summer excursion fares in the East Coast-Florida markets. National alleged, inter alia, that the excursion fares recently filed by National and Northeast in the East Coast-Florida market, and the United type excursion fare proposal differ radically, that the three excursion fare structures are not compatible and must be resolved in order to relieve a chaotic fare situation. The Board, by Order E-23309 authorized the discussions and a meeting was held in the morning of March 2, 1966. At the meeting the carriers reached agreement as to excursion fares in the East Coast-Florida markets for the summer season of 1966, and a formal agreement submitted for Board approval under section 412 of the Act was filed on March 15, 1966.

Comments opposing approval of the agreement were filed on behalf of the Southern Florida Hotel and Motel Association and replies thereto submitted by Eastern and National were received. By concurrent action in Order E-23527 the Board disapproved the agreement based upon the facts, findings, and conclusions there stated, and which are herein adopted by reference. The significant consideration underlying the disapproval was that in the absence of a competitive climate, sanctioned by the Board's authorizations of discussions, the carriers collectively proposed by concerted action to increase significantly the level of fares which they had filed individually, with no showing that the proposed individual excursion fares were unreasonably low or uneconomical. It is to be noted that the agreement to file the proposed excursion fares also contained an agreement to withdraw existing conflicting tariffs.

By tariff filings on March 24, 15, and 16, respectively, Eastern, National, and Northeast have proposed to cancel their individual excursion tariffs.

The order authorizing the discussions (Order E-23309), specifically provides that any agreement reached by the carriers be approved by the Board prior to being placed into effect. Consequently, in view of the Board's disapproval of the agreement, the carriers are not free to increase the level of their excursion fares by concerted action flowing from the discussions. Since the individually filed excursion fares were reductions from the basic or normal fares, cancellation of these individually filed excursion fares, in the absence of acceptable substitute would increase the effective fares paid by many passengers over and above the increase which would be effected by the agreement, which we have disapproved. Having found that the agreement to withdraw existing conflicting tariffs and to file the stipulated fares does not warrant approval under section 412 of the Act, we find that the proposals of Eastern and National to withdraw their existing individually filed excursion fares and thereby increase fares, do not appear to be consistent with the Act and the antitrust laws, and the Board's findings, conclusions, and orders in reference thereto. We will therefore institute an investigation to determine the lawfulness of such tariff proposals. In order to preclude an increase in fares resulting from the discussions, pending investigation we will suspend such tariff proposals.

The Board views the excursion fares filed by National and Eastern as basically acceptable promotional fares for these markets. The excursion tariff of Northeast varies in numerous respects from that of National and Eastern and with respect to travel upon certain days provided for higher fares. We are not suspending the Northeast cancellation filing and thereby will not preclude Northeast from establishing fares competitive with those of National and Eastern. However, the Northeast excursion fares are lower than those of its competitors for travel upon certain days, and should Northeast maintain such fares we would not preclude National and Eastern from meeting them. Our action herein is without prejudice to National or Eastern requesting permission to modify their existing tariffs so as to permit them to become competitive with Northeast, or to request permission to make such other modification to their excursion tariffs as may appear appropriate, such as offering excursion fares on the entire weekend period provided such changes would not effect increases in the general level of the excursion fares.

Accordingly, pursuant to the provisions of the Federal Aviation Act of 1958, and particularly sections 102, 204, 403, 404, 412, 414, and 1002 thereof,

It is ordered, That:

1. An investigation is instituted to determine whether the provisions of Supplement No. 1 to Eastern Air Lines, Inc.'s CAB No. 203 and Supplement No. 1 to National Airlines, Inc.'s CAB No. 93 and rules, regulations, or practices affecting such provisions are, or will be, unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions, and rules, regulations, or practices affecting such provisions;

2. Pending hearing and decision by the Board, the provisions of Supplement No. 1 to Eastern Air Lines, Inc.'s CAB No. 203 and Supplement No. 1 to National Airlines, Inc.'s CAB No. 93 are suspended and their use deferred to and including July 14, 1966, unless otherwise ordered by the Board and that no changes be made therein during the period of suspension except by order or special permission of the Board; and

3. A copy of this order be served upon Eastern Air Lines, Inc., National Airlines, Inc., Northeast Airlines, Inc., and the Southern Florida Hotel and Motel Association.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary*.

[F.R. Doc. 66-4303; Filed, Apr. 19, 1966; 8:49 a.m.]

[Docket No. 17017; Order E-23527]

EASTERN AIR LINES, INC., ET AL.

East Coast-Florida Individual Excursion Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of April 1966.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act), and Part 261 of the Board's Economic Regulations, between Eastern Air Lines, Inc. (Eastern), National Airlines, Inc. (National), and Northeast Airlines, Inc. (Northeast). The Agreement has been assigned the above-designated CAB Agreement number. The three carriers agree to withdraw existing conflicting tariffs and to file East Coast-Florida summer excursion fare tariffs with an effective date of April 25, 1966, and a termination date of December 15, 1966. In general, the excursion fare package contemplates the establishment of 1966 summer excursion fares at levels higher than existing corresponding excursion fares but applicable in some instances to time periods not presently covered by the effective excursion tariffs.

The principal elements of the Agreement as they relate to individual excursion fares include:

(1) The establishment of a different level of excursion fares for three basic time periods—Monday and Thursday (12:01 a.m.–11:59 p.m.), Tuesday and

Wednesday (12:01 a.m.–11:59 p.m.), and Friday, Saturday, and Sunday.

(2) The establishment of deluxe night coach excursion fares at levels which are $4 higher than corresponding proposed excursion coach fares.

(3) The establishment of first-class excursion fares at levels which are $20 higher than corresponding proposed excursion coach fares.

The Agreement resulted from a discussion[1] between representatives of the three carriers at a meeting held in the Board's offices on March 2, 1966. Minutes of the discussion and copies of the Agreement were appropriately filed with the Board.

The Southern Florida Hotel & Motel Association (Association) filed comments in opposition to the Agreement and requests that it be disapproved as contrary to the public interest. In support of its position, the Association presented a history of the proceeding including the level of excursion fares during past summers, the presently effective excursion fares, the possible increase in excursion fares if the Board's 25 percent[2] discount policy is applied to the New York-Miami market, and the increase in excursion fares if fares under the proposal are permitted to become effective. The Association contends that no justification has been shown for approving concerted action to fix fares at levels higher than established by the carriers individually. Such increases from the lowest original proposal range from $9 to $36 depending on the day of week during which the fares would be applicable. The Association also contends that the Agreement perverts the Board's fare policies regarding the recent Board approval of system excursion fares at 25 percent discounts. The Association believes the Board's action obviously was never intended to signal potential approval of excursion fare increases; that the genesis of the system excursion fares was to hold the line on jet fare increases and work toward substantial promotional fare improvements; and that the present agreement does not hold the line on fares but raises them drastically. Finally, the Association contends that the Agreement violates important public policies by breaking the President's wage-price guidelines and adversely affecting the balance of payments. In this connection, the Association states that the increase in the proposed excursion fares ranges from 10 to 38 percent over the fares which now are in force and will drive Florida travelers into foreign vacations as well as to make it more costly for foreign travelers to visit Miami

By motions filed March 30 and April 1, 1966, National and Eastern requested leave to file replies to the Association's comments and the motions will be granted. The replies variously state that the National filing on January 10, 1966, called for a $94–$90 summer excursion fare level in the Miami-New York market which had been the level at which the carriers operated summer group excursion fares in 1965. National points out that in filing the summer excursion tariff on January 10, 1966, it was unaware that within a month the Board would be suggesting a nationwide round-trip excursion fare at 150 percent of the regular one-way coach fares. National contends that the carrier did recognize the uniqueness of the East Coast-Florida markets and proposed the adjustments they believed necessary to provide a promotional fare which would stimulate summer air travel to Florida. It states that for over half of any given week (96 hours out of 168) the Agreement provides excursion fares lower than the industry 25 percent discount rate, which is from $9 to $35.80 lower in the New York-Miami market. It is further noted that excursion fares are available for travel over weekends, which was not the case with the National tariff nor with last year's excursion fares. It is contended that such fares provide a better promotional fare than the industrywide excursion fares and will resolve the annual summer East Coast-Florida fare dilemma annually encountered.

Eastern asserts that the result is a uniform promotional fare available throughout the week which will, on balance, be sufficiently more beneficial to the public than either the lowest 1965 summer promotional fares or the industry Discover America type excursion fare.

Upon consideration of the agreement, the statements in support and in opposition, and the replies thereto, the Board has concluded to disapprove the agreement. With certain exceptions relating to the blackout period contained in the tariffs filed by National and Eastern, the fares to be established by the agreement would be significantly higher than the fares which would be effected by the National and Eastern tariffs. The Board does not gainsay the contentions that certain benefits may flow from the uniformity of the carriers' excursion fares applicable 7 days a week and providing some reductions for first-class travel. The fact remains, however, that in the absence of a competitive climate, sanctioned by the authorization of discussions provided in Order E–23309, the carriers by agreement would increase significantly the level of fares which they had previously proposed by actions taken independently. The agreement here involved includes increases in fares, ranging as high as $36. While we have permitted carrier discussions here, to explore the possibility of eliminating multiple inconsistencies in the various proposed excursion fares, it was not our purpose to make possible a significant increase in the fare level by carrier agreements.

The East Coast-Florida summer travel market has for many years been considered unique, and special fares have been created to develop this market. The Board's approval of the industry Discover America type excursion fare tariff, related to the implementing of jet surcharges, was in no way an approval of agreements to increase the level of Florida excursion fares. The comparisons of the agreed fares with past and current excursion fares urged by the carriers to support the agreement might be persuasive as to the lawfulness of the fares, if proposed individually by any carrier. These comparisons do not, however, meet the problems that the carriers, by joint action, would increase the level of excursion fares above that which each by individual action has proposed.

In view of the foregoing, the Board finds that the subject agreement is adverse to the public interest and should be disapproved.

The Board views the excursion fares earlier filed by National and Eastern as basically acceptable promotional fares for these markets. So as to preclude an increase in the excursion fare levels which we find should not be permitted to be effected by agreement the Board, by an order issued concurrently herewith, will suspend the tariff filings of National and of Eastern to cancel their individual excursion fares. We are not suspending the tariff filing of Northeast to cancel its excursion fares, and the Board's actions will therefore not preclude Northeast from establishing fares competitive with those of National and Eastern. The excursion fares of Northeast are lower than its competitors for travel on certain days, particularly the blackout periods of Sunday and Thursday. Our action in suspending the cancellation filings of National and Eastern is without prejudice to these carriers requesting permission to modify their existing tariffs so as to permit them to become competitive with Northeast, or to request permission to make such other modification to their excursion tariffs as may appear appropriate, such as offering excursion fares on the entire weekend period provided such changes would not effect increases in the general level of the excursion fares. Neither does the Board consider that it would be adverse to the public interest for any carrier to discontinue the Discover America excursion fares with respect to the Washington and points north-Miami market during the period summer excursion fares are maintained at a level consistent with the order herein.

Accordingly, pursuant to the provisions of the Federal Aviation Act of 1958, and particularly sections 412 and 414 thereof,

It is ordered, That:

1. The motions of National Airlines, Inc., and Eastern Air Lines, Inc. for leave to file reply to the comments of the Southern Florida Hotel & Motel Association are granted; and

2. The Agreement entered into the 10th day of March 1966, by and between Eastern Air Lines, Inc., National Airlines, Inc., and Northeast Airlines, Inc., designated Agreement CAB 18799, is disapproved.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[Docket No. 16978; Order E-23521]

HOOD AIRLINES, INC.

Establishment of Service Mail Rates; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 13th day of April 1966.

By amended petition filed March 11, 1966, Hood Airlines, Inc. (Hood), requests the Board to establish final service mail rates for the transportation of mail by aircraft, between Killeen Municipal Airport, Killeen, Tex., on the one hand, and Love Field, Dallas, Tex., on the other.

Petitioner states, inter alia, that it is presently providing regularly-scheduled services between the above-named points as an air taxi operator pursuant to Part 298 of the Board's Economic Regulations, and that no other air carrier holds a certificate of public convenience and necessity pursuant to section 401(d) (1) or (2), or an exemption pursuant to section 416 of the Act, which authorizes service between these points. Petitioner further states that the transportation of mail will be on a nonsubsidy basis and that the service mail rate to be established by the Board will be paid in its entirety by the Postmaster General. The Post Office Department has indicated an interest in utilizing Petitioner's services for the transportation of mail.

Hood proposes to transport mail at a line-haul rate of 25 cents per ton-mile plus a 3 cents per pound loading charge for all letters and parcels bearing airmail postage and a line-haul rate of 13 cents per ton-mile plus a 1.5 cents per pound loading charge for all letters and parcels bearing first class postage. Hood also will provide service involving the pickup and delivery of mail between the main post office and the airport in Killeen, and similar service at the airport mail facility at Love Field, with delivery of mail to connecting air carriers at Love Field, as required.

By Answer filed March 21, 1966, the Post Office Department supports the amended Petition of Hood and states that mail between Killeen[1] and Dallas is presently being shipped by a combination of surface and air carrier via Temple, Tex.; that between Killeen and Temple mail is transported mainly by bus or truck, with a minor portion going by train, and between Temple and Dallas by air on Trans-Texas Airways, Inc.; and that studies undertaken by the Department show that this combination of surface-air carriage delays mail delivery. The Department further states that utilizing the services of Hood will provide greater flexibility in the transportation of mail; that mail service will be greatly improved between Killeen-Fort Hood and all parts of the United States; and that the service will provide connections with important air flights arriving and departing Dallas, enabling the Department to effect next-day letter carrier delivery at cities throughout the country. Finally, the Answer states that the mail rates proposed by the Petitioner represent fair and reasonable rates of compensation for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith; and that the Department supports the Petition of Hood requesting the Board to determine and fix as final mail rates the rates specified in Hood's Amended Petition.

The Board has determined to fix the fair and reasonable rates of compensation to be paid Hood by the Postmaster General for the air transportation of service mail as requested in the Amended Petition. The services to be provided are in accord with the provisions of Part 298 (14 CFR Part 298) and the establishment of the requested service mail rates will enable the Post Office Department to provide expedited mail service to the Killeen/Fort Hood area. Upon consideration of the Petition and the Amended Petition filed herein, the Answer in support thereof filed by the Post Office Department, Part 298 of the Board's Economic Regulations, and other matters officially noticed, the Board proposes to issue an order to include the following findings and conclusions:

[1] Mail to and from nearby Fort Hood is shipped through Killeen.

1. That the fair and reasonable final service mail rate to be paid to Hood Airlines, Inc., pursuant to section 406 of the Act, for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith between Killeen, Tex. and Dallas, Tex., shall be 25 cents per mail ton-mile for all letters and parcels bearing airmail postage rates, plus a 3 cents per pound loading charge for such mail; and 13 cents per mail ton-mile for all letters and parcels bearing first class postage, plus a 1.5 cents per pound loading charge for this mail.

2. That the final service mail rates here fixed and determined are to be paid in their entirety by the Postmaster General and shall be computed on a direct airport-to-airport mileage basis.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and pursuant to regulations promulgated in 14 CFR Part 302,

It is ordered, That:

A. All interested persons, and particularly Hood Airlines, Inc., and the Postmaster General, are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rates specified above as the fair and reasonable rates of compensation to be paid Hood Airlines, Inc., for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above;

B. Further procedures herein shall be in accordance with 14 CFR Part 302; and, if there is any objection to the rates or to the other findings and conclusions proposed herein, notice thereof shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 15 days, after the date of service of this order;

C. If notice of objection is not filed within 10 days; or if notice is filed and answer is not filed within 15 days, after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter and order incorporating the findings and conclusions proposed herein and fixing and determining the final rate specified herein;

D. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rate shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the rules of practice (14 CFR 302.307); and

E. This order be served upon Hood Airlines, Inc., and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 16125; FCC 66M-533]

TINKER, INC.

Memorandum Opinion and Order Continuing Hearing

In the matter of revocation of the license of Tinker, Inc., for Standard Broadcast Station WEKY, Richmond, Ky., Docket No. 16125.

1. The Hearing Examiner has for consideration a motion for Continuance of Hearing Date, filed by Tinker, Inc., on April 12, 1966, together with Tinker's assertion therein that the request is not opposed by the Broadcast Bureau, the only other party hereto.

2. Petitioner seeks a 4-week continuance of the presently scheduled hearing date, with comparable extensions of the prehearing procedural dates established by the Hearing Examiner's order released March 28, 1966. In justification of the requested relief, petitioner cites a personal crisis of its principal stockholder and primary witness.

3. It is the Commission's policy to dispose of revocation proceedings with the greatest possible dispatch. Nevertheless, when brief continuances are sought to accommodate the personal problems of participants in such proceedings, both 5 U.S.C. 4(a) and the obligations of common courtesy dictate that consideration be given to such requests.

4. Here, the personal matter is grave, the requested continuance is relatively brief, and no party would suffer prejudice or inconvenience. Moreover, in this instance, a continuance may actually facilitate the orderly and expeditious progress of the hearing. On March 28, 1966, the Hearing Examiner released an order imposing certain requirements on the parties. On April 4, 1966, one of the parties appealed from a portion of that order. While the requirement under appeal was, of course, modeled on a similar requirement imposed by a panel of Commissioners functioning as presiding officers at a Commission hearing,[1] the Review Board has not heretofore had an opportunity to pass upon the imposition of such conditions by Hearing Examiners. In view of the uncertainties thus created, the parties may encounter some difficulty in preparing the stipulations upon which they have agreed, in which case the additional time may be profitably employed.

5. Under all of the circumstances, the public interest would be served by a grant of the requested relief.

Accordingly, it is ordered, This 14th day of April 1966, that the subject petition is granted; the date for exchange of the Broadcast Bureau's proposed stipulation is continued from April 29 to May 27, 1966; the date for exchange of the licensee's proposed counter-stipulation is continued from May 4 to June 1, 1966; the latest date for the parties informal stipulation conference is continued from May 9 to June 6, 1966; the date for exchange of exhibit material and list of witnesses is continued from May 16 to June 13, 1966; and the date for commencement of hearing is continued from June 14 to July 12, 1966.

[Docket No. 16250; FCC 66M-537]

SERVICE ELECTRIC CABLE TV, INC.

Order Changing Place of Hearing

The Chief Hearing Examiner having under consideration a petition in behalf of Service Electric Cable TV, Inc., 206-208 East Third Street, Bethlehem, Pa., filed April 13, 1966, requesting that the hearing in the above-entitled proceeding which heretofore was scheduled to convene on April 26, 1966, in Bethlehem, Pa., be convened on that date in the Offices of the Commission, Washington, D.C.;

It appearing, that the petition is supported by a showing of good and sufficient cause, and that the Commission's Field Engineering Bureau, the only other party to the proceeding, consents to a grant of the relief sought by petitioner;

It appearing further, that the basis on which the hearing in this proceeding was originally set for Bethlehem, Pa., no longer exists;

It is ordered, This 15th day of April 1966, that the petition is granted, and that the place of hearing in the above-entitled proceeding is hereby changed from Bethlehem, Pa., to Washington, D.C., and will there be convened on April 26, 1966.

Released: April 15, 1966.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FCC 66-334]

STANDARD BROADCAST APPLICATIONS READY AND AVAILABLE FOR PROCESSING

APRIL 15, 1966.

The following applications were tendered for filing, in response to the Commission's public notice of December 2, 1965 (FCC 65-1077), for the frequency of Station KABE, Westwego, La.

New, Westwego, La.
Holmes Broadcasting, Inc.
Req: 1540 kc, 500 w, day.

New, Westwego, La.
Audubon Broadcasting, Inc.
Req: 1540 kc, 500 w, day.

New, Gretna, La.
West Jefferson Broadcasting, Inc.
Req. 1540 kc, 500 w, day.

The applications were timely tendered pursuant to the public notice and are mutually exclusive under the doctrine of Ashbacker v. F.C.C., 326 U.S. 327 (1945).

All three applications are for substantially the same facilities as those of deleted Station KABE. In view of this fact, and in order to avoid continued loss of broadcast service resulting from the deletion of KABE, the Commission, on its own motion, hereby waives § 73.37(a) of the rules insofar as its provisions interfere with acceptance of the applications for filing. Accordingly, notice is hereby given that the three applications listed above are accepted for filing and that on May 23, 1966, the applications will be considered as ready and available for processing.

As stated in the above-referenced public notice, any party in interest desiring to file pleadings pursuant to section 309 (d)(1) of the Communications Act of 1934, as amended, concerning any of the applications accepted, herein, for filing is directed to § 1.580(i) of the Commission's rules for the provisions governing the time of filing and other requirements relating to such pleading. Notwithstanding the provisions of § 1.580(i), petitions to deny may be filed no later than 30 days after the release date of the Commission's public notice accepting the listed applications.

Adopted: April 13, 1966.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 66-4316; Filed, Apr. 19, 1966; 8:50 a.m.]

[1] Commissioner Loevinger absent.

FEDERAL AVIATION AGENCY

[OE Docket No. 65-SO-9]

SCRIPPS-HOWARD BROADCASTING CO., TELEVISION STATION WPTV

Notice of Hearing

On March 29, 1966 (Vol. 31, No. 60, FEDERAL REGISTER, F.R. Doc. 66-3303), notice was given that the public hearing in the above subject matter was to be reconvened on April 19, 1966, at 9 a.m., in Conference Room 910A, Federal Aviation Agency, Headquarters Building, 800 Independence Avenue SW., Washington, D.C., for the purpose of obtaining rebuttal testimony. At the request of counsel for Scripps-Howard Broadcasting Co., Palm Beach, Fla., and with the agreement of all parties, the subject hearing is continued until further notice.

Issued in Washington, D.C., on April 14, 1966.

GEORGE R. BORSARI,
Presiding Officer.

[F. R. Doc. 66-4301; Filed, Apr. 19, 1966; 8:49 a.m.]

FEDERAL POWER COMMISSION

[Docket Nos. G-9991, etc.]

GULF OIL CORP. ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates and Pending Certificate Application [1]

APRIL 13, 1966.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service heretofore authorized as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 6, 1966.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given: *Provided, however,* That pursuant to § 2.56, Part 2, Statement of General Policy and Interpretations, Chapter I of Title 18 of the Code of Federal Regulations, as amended, all permanent certificates of public convenience and necessity granting applications, filed after April 15, 1965, without further notice, will contain a condition precluding any filing of an increased rate at a price in excess of that designated for the particular area of production for the period prescribed therein unless at the time of filing such certificate application, or within the time fixed herein for the filing of protests or petitions to intervene the Applicant indicates in writing that it is unwilling to accept such a condition. In the event Applicant is unwilling to accept such condition the application will be set for formal hearing.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

JOSEPH H. GUTRIDE,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein, nor should it be so construed.

1 Amendment to certificate filed to cover interests of nonsignatory coowners.
2 Rate in effect subject to refund in Docket No. RI65-600.
3 Contract provides for upward and downward B.t.u. adjustment from a base of 1,000 B.t.u.'s per cubic foot.
4 No permanent certificate issued; Predecessors, Carol Daube Sutton, et al., were issued temporary authorization by letter dated May 1, 1961.
5 Subject to B.t.u. adjustment.
6 Basic contract provides for a 21.0 cents per Mcf initial rate, however, the temporary certificate issued by letter dated May 1, 1961, conditioned initial rate to 17.0 cents per Mcf.
7 Amendment to certificate filed to include the interest of coowner.
8 Production from acreage acquired from Sinclair Oil & Gas Co.
9 Rate in effect subject to refund in Docket No. RI65-108; rate also subject to 0.4467 cent per Mcf compression charge by Buyer.
10 Production from acreage acquired from Claud E. Aikman.
11 Rate in effect subject to refund in Docket No. RI60-73; rate also subject to 0.4467 cent per Mcf compression charge by Buyer.
12 Amendment to application filed.
13 November through April.
14 May through October.
15 No longer productive.
16 Formerly Mississippi River Fuel Corp.
17 Price currently being collected subject to refund in Docket No. RI64-398.
18 Includes 1.0 cent per Mcf tax reimbursement.
19 For gas sold from properties in Ellis and Woodward Counties, Okla.
20 For gas sold from properties in Dewey County, Okla.
21 Both rates include B.t.u. adjustment.
22 Plus B.t.u. adjustment.
23 Subject to upward and downward B.t.u. adjustment.

[Docket Nos. CP64-5, CP65-85]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Petition to Amend

APRIL 14, 1966.

Take notice that on April 6, 1966, Texas Eastern Transmission Corp. (Petitioner), Post Office Box 2521, Houston, Tex., 77002, filed in Docket Nos. CP64-5 and CP65-85 a petition to amend the certificates of public convenience issued in those dockets by authorizing Petitioner to transfer the present allocation of natural gas under its Rate Schedules GS-D and WS from City Gas Co. of New Jersey (City Gas) to Elizabethtown Gas Co. (Elizabethtown), an existing customer of Petitioner, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that it is authorized to sell and deliver 1,285 Mcf of gas per day under Rate Schedule GS-D and 857 Mcf of gas per day under Rate Schedule WS to City Gas by the Commission's order issued January 19, 1965, in Docket No. CP65-85. An additional 500 Mcf per day under Rate Schedule GS-D was authorized to be sold to City Gas by the Commission's order of August 24, 1965, in Docket No. CP64-5.

Petitioner has been advised by Northwest Jersey Natural Gas, Inc. (Northwest Jersey), that on September 30, 1965, City Gas was consolidated into Northwest Jersey, a wholly owned subsidiary company of Elizabethtown. Northwest Jersey and Elizabethtown have embarked upon a program of integrating the gas supplies of Northwest Jersey with those of Elizabethtown for the stated purpose of obtaining maximum system flexibility, fullest utilization of pipeline supplies, and the lowest system cost. Pursuant to this program, Northwest Jersey has requested Petitioner to transfer the present allocations of gas under Rate Schedules GS-D and WS from City Gas to Elizabethtown.

Upon transfer of the allocations, Petitioner will make deliveries of such gas to Elizabethtown at its Measuring Station 584 and the requirements of Northwest Jersey in the area supplied by this delivery point will be supplied by Elizabethtown.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before May 12, 1966.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 66-4272; Filed, Apr. 19, 1966; 8:45 a.m.]

[Docket No. CP66-318]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

APRIL 14, 1966.

Take notice that on April 6, 1966, Natural Gas Pipeline Co. of America (Applicant), 122 South Michigan Avenue, Chicago, Ill., 60603, filed in Docket No. CP66-318 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the exchange of natural gas with Colorado Interstate Gas Co. (Colorado Interstate), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant proposes to construct and operate a tap connection in Beaver County, Okla., on its Amarillo line at a point where Colorado Interstate's 22-inch Hooker line crosses Applicant's Amarillo line. Applicant further proposes to construct and operate a tap connection on its 26-inch Oklahoma extension pipeline in Caddo County, Okla.

The application states that in a precedent agreement dated February 3, 1966, Applicant and Colorado Interstate agreed, inter alia, that the delivery point for gas received by Applicant from Colorado Interstate shall be changed from Applicant's Hooker station to Applicant's Amarillo line, and that Applicant and Colorado Interstate will exchange natural gas, thus allowing Colorado Interstate to sell volumes of natural gas to Public Service Co. of Oklahoma (Public Service). The application further states that the parties have also agreed in said precedent agreement that Colorado Interstate's rate schedule H-1 shall be revised and that Applicant will purchase increased quantities of gas from Colorado Interstate under that company's rate schedule F-1, said volumes to be delivered at existing delivery points.

Applicant states that under the terms of an exchange agreement dated January 3, 1966, the parties have agreed that Applicant will deliver up to 15,000 Mcf of gas per day to Public Service for Colorado Interstate's account during the first year of the proposed exchange and up to 30,000 Mcf per day during the remaining term of the agreement. Applicant further states that volumes equal in thermal content to those which it delivers to Public Service will be delivered to Applicant by Colorado Interstate in Beaver County, Okla., at the same delivery point in Beaver County, Okla., for which authority is requested by the instant application.

The total estimated cost of Applicant's proposed construction is $19,900, which cost will be financed from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before May 12, 1966.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 66-4273; Filed, Apr. 19, 1966; 8:46 a.m.]

[Docket Nos. AR64-1, RP66-24]

HUGOTON-ANADARKO AND PIPELINE PRODUCTION AREA RATE PROCEEDINGS

Order Severing Proceedings and Prescribing Procedures

APRIL 13, 1966.

The Commission, by order issued June 29, 1964, enlarged the issues in the Hugoton-Anadarko Area Rate Proceeding, Docket No. AR64-1, to provide that there be included in that proceeding "consideration of the extent to which, if any, the rates or cost allowances for pipeline gas production should be regulated on an area basis." On December 30, 1965, the Commission staff moved to sever the pipeline production question from this proceeding and for the institution of a separate proceeding to deal with the matter. Staff further moved that (1) a prehearing conference be held to delineate issues in evidence and (2) that all pipelines engaged in production be required to submit evidence and (3) that the examiner in the new proceeding consider the feasibility of a two-phase hearing respecting gas produced from dedicated reserves and that produced from future reserves.

On January 19, 1966, the Commission postponed all hearings and other procedure with respect to pipeline production pending action on the staff motion.

Staff's motion is supported by Texas Independent Producers and Royalty Owners Association (TIPRO), Municipal Gas Group (American Public Gas Association, the city of Chicago, the city of Denver, and the Memphis Gas and Water Division), the State of California and the California Public Utilities Commission (Cal PUC), and the Philadelphia Gas Works Division of the United Gas Improvement Co. (PGW). PGW suggests that the matter be dealt within a rulemaking proceeding.

Opposing the staff motion are two independent producers (Phillips and Humble), Union Producing Co., the Cities Service Group (classified as independent producers but affiliated with a pipeline company), two distributors (Michigan Gas Utilities Co. and Central Illinois Light Co.), and two groups of producing pipelines and their affiliates.[1] Most of the independent producers not represented by TIPRO take no position. A large percentage of the nation's producing pipelines are not parties to this proceeding or have taken no position.

Whether the Commission may or should depart from the cost-of-service method in fixing the price of pipeline produced gas is the precise issue to be determined in this investigation. The issue was originally consolidated with this proceeding for the principal reason that Hugoton-Anadarko is an area of considerable pipeline production and thus this proceeding provided an appropriate vehicle for evaluating the general pipeline production issue. For the reasons hereinafter stated we do not now believe that such a determination can be made within the context of the present proceeding.

A group of pipelines asserting an interest in encouraging pipeline production activity have introduced considerable general evidence into the record detailing the reasons why they believe pipeline production is in the public interest and should be encouraged. The staff and some of the other parties have now introduced separate historical cost studies as of 1962 for pipeline production nationally and in the two regions involved in Docket Nos. AR64-1 and AR64-2 (taken from the all area questionnaire). However, no evidence has been introduced upon which a determination could be made of the impact upon the consumers of the various pipelines of substituting an area rate for one based upon each company's individual cost, nor has evidence been introduced which permits any meaningful judgment whether gas from leases or properties acquired by the pipelines during the formative period of the pipeline industry should be separately treated. Neither is there any evidence as to the relative acquisition costs over the years of pipelines which have engaged extensively in pipeline production as against those which have not.

While the evidence introduced in the proceeding thus far is incomplete, it does appear to indicate that pipeline production in the Hugoton-Anadarko area is by no means typical of pipeline production throughout the Nation. Our experience in pipeline rates cases would also indicate that much of the production in the area is of low cost, with the result that on a historic cost-of-service basis, it is significantly lower in cost than the nationwide cost of service for all gas. On the other hand, there is no evidence that nationwide all pipeline production, on a historical cost-of-service basis, has costs any lower than those of independent producers. Thus, there is no reason to believe that a determination with respect to the pipelines having production in the Hugoton-Anadarko area would or should necessarily be applicable to pipelines with production centered in other areas of the country. This situation is aggravated by the fact that not all pipeline producers are parties to the proceeding and some of the major pipeline producers with no production in the Hugoton-Anadarko region have not participated to date.

In view of the present state of the record it appears probable that, if the pipeline production issues were left in the present proceeding, the Commission would be compelled to make its determination upon an inadequate record. The only other alternative would be to attempt at this late stage in the proceeding to remedy the present deficiencies in the record. This would inevitably delay substantially the final determination of proper area rates in Hugoton-Anadarko and Texas Gulf Coast areas to the clear detriment of both the producers and their jurisdictional customers.

It is regrettable that the pipeline production issue has been continued as part of this proceeding until such a late date. If the effect of staff's motion was merely to relieve it from the burden of proceeding we would deny the motion out of hand. We think, however, that this would be a disservice to all parties including those who oppose the motion.

---

[1] The Pipeline Production Group and the Pipeline Division of INGAA. A number of pipelines filed separate briefs in opposition to staff's motion. Most of the companies filing separate briefs, however, are also represented in the group briefs. Only the pipeline division of INGAA, and not the entire membership, opposes staff motion.

A principal basis for the opposition to the motion is that if the pipeline production issue is severed, much of the labor and expense of this proceeding will be wasted, especially that expended to putting in the evidence so far received. Examination of the evidence so far presented reveals that it consists principally of prepared questions and answers submitted for copying by the reporter. Such evidence may readily be received and considered in another proceeding. It should be supplemented rather than supplanted. Cross-examination has not yet been had. Under these circumstances little of the effort and expense will be wasted.

Mere severance, however, is clearly not enough. The question remains whether there is any way in which resolution of at least part of the pipeline production issue can be expedited in the light of the very real problems discussed above. We believe that there is. The essential question after all is whether future and additional pipeline production activities should be encouraged (or at least not penalized) and, if so, what is the most appropriate lawful pricing technique to achieve this objective. It is apparent that if putting pipeline production on an area price basis does not make sense for the future lease acquisitions, that it will make even less sense for the past acquired leases where we have high and low cost pipeline production depending upon combination of such factors as vintage and area of exploratory efforts. At the same time, it would appear that many of the most difficult evidentiary and policy problems can be avoided or at least deferred if, in any separate proceeding on pipeline production costing, consideration is initially limited to a determination of whether pipeline produced and self-consumed gas on leases acquired after the date of any final Commission policy determination—by rule or otherwise—should be priced on an area basis and, if so, the exact nature of such area rate.[3]

In severing this issue we hesitate to impose any rigid format on the interested parties at this time. Instead, we shall direct the hearing examiner in the separate proceeding to hold a prehearing conference which will expeditiously and firmly establish the specific issues which will be considered in the first phase of this proceeding which is denominated as follows: What is the most appropriate pricing method to be applied to natural gas utilized in a pipeline's interstate system which is produced by the pipeline or its affiliated producing company from leases acquired after the date of determination of this issue?

Without in any way limiting the prerogatives of the Presiding Examiner to rule on the materiality and relevancy of the specific issues the parties may urge must be answered to resolve the foregoing question, we would suggest that the general areas of investigation, among others, should include evidence and data relating to: (1) The effect of pipeline production area rates on various aspects of individual pipeline rate determinations, such as but not limited to, rate of return and income tax allowance; (2) the impact on the independent producer segment of the natural gas industry, if pipeline production is to be encouraged; (3) the claimed advantages and benefits to the pipeline and the consumers from pipeline production as reflected in the past operations of producing pipelines and as compared with the operations of pipelines not engaged in production activities.

Clearly, the formulation of a meaningful record which will provide as broad a base as possible for resolving the overall issue set out above, requires participation of all pipeline companies engaged in the production of natural gas in more than an incidental capacity and of a substantial segment of other pipeline companies whose rates and charges are subject to the jurisdiction of the Commission. Accordingly, each of the pipeline companies listed in Appendix A attached hereto are made respondents in this severed proceeding.

Attention is directed to the Commission's views with respect to the use of the conference technique and the ultimate objective of expediting the Commission's hearing proceedings as set forth in Order No. 217. Each of the respondents shall, at the prehearing conference, set forth on the record a statement summarizing the extent to which it proposes to participate in the first phase of this proceeding (as set out above), the specific issues relating thereto which it deems relevant and material, the nature of the evidence it proposes to present on such issues, and any other matters germane and relevant to this phase of the proceeding which will aid the determination thereof. The requirements of the aforementioned statement shall also be applicable to Commission staff and any other party permitted to participate as a respondent or intervener in this proceeding. It is also our intent that the parties, at the prehearing conference herein provided, shall stipulate, to the maximum feasible extent, on all issues of fact not in dispute, items to be officially noticed, relevant material which may profitably be incorporated into the record of this severed proceeding either from the responses to the All Areas Questionnaire and evidence introduced in AR64-1 and other proceedings.

The Examiner is requested to exercise to the full his powers to expedite these proceedings and to provide a full and complete record by requiring service of the facts relating to each specific issue he determines material and relevant by the party or parties in control of the facts relating to that issue upon all other parties to this proceeding.

Certain of the parties have requested oral argument on Staff's motion. It is our view that oral argument is not necessary or appropriate since the actions herein relate to procedural matters, and grant of such request could only result in further delay. Moreover, the views of the several parties are fully set forth in the briefs submitted. Accordingly, the requests for oral argument are hereby denied.

The Commission orders:

(A) The proceedings promulgated by our "Order Enlarging Issues" issued June 29, 1964, concerning the methods to be used in pricing pipeline produced gas which were consolidated for hearing and decision with the Hugoton-Anadarko Area Rate Proceeding, Docket No. AR64-1 et al., are hereby severed from that docket.

(B) A separate proceeding entitled "Pipeline Production Area Rate Proceeding, Docket No. RP66-24, is hereby instituted, pursuant to sections 4, 5, 10, 14, 15, and 16 of the Natural Gas Act, to determine the proper method to be used by the Commission in pricing natural gas produced by pipelines and/or acquired by them from their affiliated producers.

(C) A prehearing conference shall be held in a hearing room of the Commission at 441 G Street NW., Washington, D.C., commencing 10 a.m., May 17, 1966, before Presiding Examiner Allan C. Lande in the proceeding instituted by paragraph (B) above, limited to the first phase of this proceeding as denominated in the text of this order, and to achieve the purposes set forth in the text of this order.

(D) Each of the pipeline companies listed in Appendix A attached hereto are joined as parties-respondent in the proceeding instituted by paragraph (B) above.

(E) At the conclusion of the prehearing conference prescribed by paragraph (C) above, or shortly thereafter as he deems necessary, the Presiding Examiner shall set forth on the record or by separate order his determination of the specific issues material and relevant to the first phase of this proceeding on which evidence is to be adduced on the record and shall designate, if necessary, the party or parties which are in control of the facts relating to any such specific and set the date on which such facts shall be furnished to each party to the proceeding.

(F) Concurrently with the actions taken under paragraph (E) above, the Presiding Examiner shall also set the dates for service of testimony and exhibits by the parties and the date for commencement of the hearing and cross-examination.

(G) Nothing herein shall be deemed to limit the authority of the Presiding Examiner's control of these proceedings to modify or enlarge on the procedures here provided consonant with our underlying and expressed purpose to adduce a full and complete record on the first phase of this proceeding as expeditiously as possible.

(H) Any interested person, other than the respondents specifically listed in Appendix A, who desires to participate as an intervener in the proceeding here instituted shall, on or before May 2, 1966, file a notice of intervention or petition

[3] Presumably, much if not all of the information already introduced by the pipeline production group and other parties who have directed themselves to this issue would be relevant to such a determination.

to intervene in accordance with § 1.8 of the Commission's rules of practice and procedure.

By the Commission.[1]

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. E-6670]

NORTHERN ELECTRIC COOPERATIVE

Notice of Application

APRIL 13, 1966.

Take notice that The Northern Electric Cooperative (Applicant), incorporated under the laws of the State of Montana, with its principal place of business at Opheim, Mont., filed an application in the above-entitled proceeding on January 18, 1966, for a supplemental order pursuant to section 202(e) of the Federal Power Act modifying Applicant's current authorization to transmit electric energy from the United States to Canada as granted by Commission order issued August 10, 1965.

Applicant currently exports electric energy at three points on the border between the United States and Canada over certain facilities of Applicant covered by a permit signed by the Chairman of the Federal Power Commission on December 12, 1956, in the above docket as amended by the aforementioned August 10, 1965, order of the Commission.

Applicant now requests that the authorization granted by Commission order issued August 10, 1965, referred to above, be modified as follows:

Line No. 1: Increase from 24,000 kwh per year at a rate of transmission not to exceed 24 kw to 30,000 kwh per year at a rate not to exceed 24 kw;

Line No. 2: Increase from 18,000 kwh per year at a rate of transmission not to exceed 20 kw to 25,000 kwh per year at a rate not to exceed 20 kw;

Line No. 3: Increase from 36,000 kwh per year at a rate of transmission not to exceed 35 kw to 42,000 kwh per year at a rate not to exceed 35 kw.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 26, 1966, file with the Federal Power Commission, Washington, D.C., 20426, a petition or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file with the Commission and available for public inspection.

JOSEPH H. GUTRIDE, *Secretary.*

[F.R. Doc. 66-4277; Filed, Apr. 19, 1966; 8:47 a.m.]

[Docket No. CP66-317]

COLORADO INTERSTATE GAS CO.

Notice of Application

APRIL 13, 1966.

Take notice that on April 6, 1966, Colorado Interstate Gas Co. (Applicant), Post Office Box 1087, Colorado Springs, Colo., 80901, filed in Docket No. CP66-317 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the transportation and exchange of natural gas with Natural Gas Pipeline Co. of America (Natural), all as more fully set forth in the application which is on file with the Commission, and open to public inspection.

Specifically, Applicant proposes to construct and operate the following facilities:

(1) A meter station and pipeline tap located at the point of interconnection of Applicant's 22-inch Mocane-to-Hooker pipeline with the main pipeline of Natural in Beaver County, Okla.;

(2) A meter station in Caddo County, Okla., to be used to measure gas delivered by Natural to Public Service Co. of Oklahoma (Public Service) for Applicant's account.

Applicant proposes to make a 2-year direct sale to Public Service, which will use the gas for boiler fuel, primarily in the summer months, in its southwestern power plant near Anadarko, Okla. Public Service has agreed to purchase a minimum volume of 1,500,000 Mcf and 2,500,000 Mcf in the first and second years, respectively. Applicant's maximum delivery obligation on any one day shall not be more than 15,000 Mcf in the first year and 30,000 Mcf in the second. All deliveries are interruptible at Applicant's discretion.

Natural has agreed to deliver the volumes to Public Service for Applicant's account at the proposed interconnection in Caddo County. Applicant will reimburse Natural for the cost of installing the pipeline tap through which the deliveries will be made. Applicant proposes to transport and deliver to Natural a volume of gas equal in thermal content to the volumes delivered by Natural to Public Service. This exchange gas is to be delivered through the proposed interconnection in Beaver County.

The total estimated cost of the facilities to be constructed by Applicant and the reimbursement by Applicant to Natural for the pipeline tap to be constructed by Natural in Caddo County is $41,870, which will be financed from current working funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before May 12, 1966.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. CP66-316]

COLORADO INTERSTATE GAS CO.

Notice of Application

APRIL 13, 1966.

Take notice that on April 6, 1966, Colorado Interstate Gas Co. (Applicant), Post Office Box 1087, Colorado Springs, Colo., 80901, filed in Docket No. CP66-316 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities for the establishment of a new delivery point for sales of natural gas to Natural Gas Pipeline Co. of America (Natural) and

---

[1] Concurring statement of Commissioner Bagge filed as part of the original document.

to increase the average daily contract quantity of firm deliveries to Natural, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization for the following:

(1) To establish a new delivery point for sales to Natural under Applicant's Rate Schedule H-1 (to be revised) and to construct and operate the required measurement facilities.

(2) To increase the average daily contract quantity of firm deliveries to Natural under Rate Schedule F-1 from 134,000 Mcf of gas per day to 160,000 Mcf per day.

The application states that the proposed new delivery point for gas to be sold under revised Rate Schedule H-1 is in lieu of the one currently being used near Hooker, Okla., for deliveries under existing Rate Schedule H-1. The application further states that Natural has advised that its Hooker Compressor Station, which pumps both local production and the gas delivered by Applicant, will soon be underpowered because of declining field pressures and that by diverting Applicant's gas to the new delivery point which is located on Natural's main transmission line, the need for additional compression facilities will be alleviated.

The total estimated cost of Applicant's proposed measuring facilities is $6,847, which will be financed from current working funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before May 12, 1966.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

JOSEPH H. GUTRIDE,
Secretary.

[Docket Nos. CP64-270, etc.]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice Fixing Oral Argument

APRIL 14, 1966.

Take notice that oral argument is hereby scheduled to be heard in the above-designated matter by the Commission en banc commencing at 10 a.m., e.d.s.t., April 28, 1966, in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C.

All parties desiring to participate in such oral argument shall notify the Secretary of the Commission in writing on or before April 20, 1966, of the amount of time desired for presentation of their respective oral arguments.

By direction of the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 66-4269; Filed, Apr. 19, 1966; 8:45 a.m.]

[Docket No. CP66-320]

NORTHERN NATURAL GAS CO.

Notice of Application

APRIL 14, 1966.

Take notice that on April 6, 1966, Northern Natural Gas Co. (Applicant), 2223 Dodge Street, Omaha, Nebr., 68102, filed in Docket No. CP66-320 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities for the transportation of natural gas in interstate commerce from a gas supply area in northwest Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to extend its existing pipeline system in a southeasterly direction from its present terminus in Ellis County, to a point in Woodward County, Okla., with several branches from such extension. Specifically, the length and diameter of the various pipelines proposed to be constructed are as follows: 36.32 miles of 4½-inch, 54.65 miles of 6⅝-inch, 21.0 miles of 8⅝-inch, 10.2 miles of 10¾-inch, 19.34 miles of 12¾-inch, 16.2 miles of 16-inch and 17 miles of 24-inch. Applicant also proposes to construct three skid mounted measuring stations together with certain dehydration facilities.

Applicant states that it has entered into a gas purchase contract with Pan American Petroleum Corp. (Pan Am) for the purchase of gas from a 42 township area located in Ellis, Woodward, and Dewey Counties, Okla., and proposes to extend its present gas supply system in this area, as set forth above, in order to attach the reserves under contract and additional reserves assigned for the future. Applicant states that the contract with Pan Am covers over 150,000 acres with 94 existing wells drilled and ready for connection. The estimated reserves under contract are nearly 400 billion cubic feet and Applicant plans to have these reserves attached to its system by the 1966-67 heating season.

The total estimated cost of the proposed facilities is $5,021,500, which cost will be financed from cash on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before May 11, 1966.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 66-4271; Filed, Apr. 19, 1966; 8:45 a.m.]

[Docket No. CP66-319]

GRAND VALLEY TRANSMISSION CO.

Notice of Application

APRIL 14, 1966.

Take notice that on April 6, 1966, Grand Valley Transmission Co. (Applicant), 63 East Stratford Avenue, Post Office Box 15548, Salt Lake City, Utah, 84115, filed in Docket No. CP66-319 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of approximately 30.3 miles of 3½-inch and 2⅞-inch gathering pipelines and a 100-horsepower compressor unit and the sale of increased volumes of natural gas to El Paso Natural Gas Co. (El Paso), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant proposes to extend both branches of its existing Y-shaped gathering system, which is located in eastern Utah. The westerly branch will be extended 10.65 miles with 3½-inch pipeline, where it will branch again with approximately 5.1 miles of 2⅞-inch pipeline, connecting to wells in the Moonridge and Segundo Canyon Units operated by Pacific Natural Gas Exploration Co. The proposed 100-horsepower compressor station would be installed to boost the pressure of the production from the Segundo Canyon wells.

The other main branch of the existing system will be extended from a point downstream from Applicant's existing Robidoux Compressor Station for approximately 11.53 miles north-northwest with 3½-inch and 2⅞-inch pipeline to connect the well operated by Tidewater Oil Co. in the Horse Point Unit and the three wells operated by Texaco Inc., in the Fence Canyon Unit.

The facilities would be used by Applicant to transport an estimated 12,000 Mcf per average day of natural gas to be sold by it to El Paso pursuant to an amended gas purchase agreement. Applicant states that the extensions to its system would enable it to connect seven additional wells on acreage dedicated to it in contracts with the above-named producers.

El Paso is Applicant's sole customer. The amendments to the existing gas purchase agreement with El Paso consist primarily of an increase in average daily deliveries from 9,000 Mcf to approximately 12,000 Mcf, higher B.t.u. guarantees, and extension of the makeup period for prepaid gas. No change of rate is involved.

The estimated cost of the facilities to be constructed by Applicant is $250,000, which will be financed by a mortgage loan.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before May 12, 1966.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

JOSEPH H. GUTRIDE,
Secrteary.

FEDERAL MARITIME COMMISSION

[Docket No. 65-46]

TRUCK LOADING AND UNLOADING RATES AT NEW YORK HARBOR

First Supplemental Order

The Commission, by order served December 14, 1965, instituted an investigation, upon its own motion, into the level of truck loading and unloading rates at New York Harbor.

United States Lines has filed with this Commission Tariff No. 7, and Cunard Steamship Co. has filed with this Commission Tariff No. 2, FMC–T No. 2, naming rates for truck loading and unloading which are comparable with the rates under investigation in this proceeding. The level of truck loading and unloading rates of United States Lines and Cunard Steamship Co. should be investigated pursuant to sections 16 and 17 of the Shipping Act, 1916, in the same manner as the rates of the New York Terminal Conference and its members subject to the original order in this proceeding. United States Lines and Cunard Steamship Co. should be named parties respondent to Docket No. 65-46.

It is ordered, That United States Lines and Cunard Steamship Co. be made parties respondent in this proceeding, that the level of the truck loading and unloading rates published by United States Lines in its Tariff No. 7 and by Cunard Steamship Co. in its Tariff No. 2, FMC–T No. 2 be investigated pursuant to sections 16 and 17, Shipping Act, 1916, in the same manner as the truck loading and unloading rates of the New York Terminal Conference and its members in this proceeding, that notice of this order be published in the FEDERAL REGISTER and that a copy thereof and other notices in this proceeding be served upon all respondents.

By the Commission.

[SEAL] THOMAS LISI,
Secretary.

[F.R. Doc. 66-4284; Filed, Apr. 19, 1966; 8:47 a.m.]

COLUMBUS LINE/PACIFIC AUSTRALIA DIRECT LINE

Notice of Agreement Filed for Approval

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement(s) at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 609; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. Sanford C. Miller, Haight, Gardner, Poor & Havens, 80 Broad Street, New York, N.Y., 10004.

Agreement 9539 between Columbus Line and Pacific Australia Direct Line is a cooperative working arrangement between the parties to charter one vessel for one voyage from Australia to Pacific Coast ports of the United States. Expenses, profits and/or losses relating to the voyage will be divided on the basis of 50 percent to each party. All rates, charges, and practices in connection therewith will be established pursuant to Agreement 7580, Australia, New Zealand, South Sea Islands/Pacific Coast Conference, to which both carriers are a party.

Dated: April 14, 1966.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 66-4285; Filed, Apr. 19, 1966; 8:47 a.m.]

[Order 1 (Amended); Amdt. 1]

MANAGING DIRECTOR ET AL.

Organization and Functions

Commission Order 1 (amended) is amended effective March 28, 1966, as follows:

Sec. 2.033—Organizational Components—Managing Director—is amended to read: (1) Office of Administration.

(2) Office of International Affairs and Relations.

(3) Bureau of Compliance.

a. Office of the Hearing Counsel.

b. Office of Foreign Regulation.

c. Office of Transport Economics.

(4) Bureau of Domestic Regulation.

(5) Bureau of Investigation.

(6) Bureau of Financial Analysis.

(7) Office of District Managers.

Sec. 3.02 is amended to read: The Office of Administration, Office of International Affairs and Relations, Bureau of Compliance, Bureau of Domestic Regulation, Bureau of Investigation, Bureau of Financial Analysis, and the Offices of the District Managers shall be responsible to, and report to, the Managing Director.

Sec. 5.03 is amended to read: The Managing Director directs and administers the organizations and activities enumerated in subsections 5.031 through 5.037 below; provides managerial administrative direction to, and effects work coordination with, the Office of the General Counsel and the Office of the Secretary; provides administrative direction and coordination to the Office of the Hearing Examiners; assists, advises, and consults with the Chairman and/or the Federal Maritime Commission in the performance of major executive functions; and directs general administrative activities.

Sec. 5.033 is amended to read: The Bureau of Compliance administers the program activities of the Office of Hearing Counsel, the Office of Foreign Regulation and the Office of Transport Economics as hereinafter stated.

a. The Office of Hearing Counsel acts as Hearing Counsel in all formal investigations, nonadjudicatory investigations, rulemaking proceedings and any other proceedings initiated by the Federal Maritime Commission under the Shipping Act, 1916, and other applicable shipping acts; examines and cross-examines witnesses, prepares and files briefs, motions, exceptions and other legal documents and participates in oral arguments before the hearing examiners and the Federal Maritime Commission; acts as Hearing Counsel, where intervention in permitted, in formal complaint proceedings initiated under section 22 of the Shipping Act; reviews and concurs in all recommendations of other bureaus recommending the institution of formal proceedings; prepares all orders, notices and other documents which institute formal or informal Commission proceedings; furnishes consultative and advisory services and otherwise assists other bureaus in formulating procedures to be followed in connection with investigations and/or formal Commission proceedings; serves, with the concurrence of the Managing Director, as requested by the General Counsel and under his direction in matters of court litigation by or against the Commission rising out of violations previously adjudicated by the Commission.

b. The Office of Foreign Regulation reviews the rates and practices of common carriers by water engaged in the foreign commerce of the United States and conferences of such carriers in accordance with the requirements of law and the rules, orders, and regulations of the Commission; examines, processes, and as appropriate prepares recommendations to the Commission with respect to activities and practices of common carriers by water in the foreign commerce and conferences of such carriers and with respect to agreements and tariffs filed by such common carriers and conferences; reviews annual and special reports filed by common carriers by water and conferences in the foreign commerce of the United States, including minutes of conference meetings; initiates action involving the granting of special permissions to waive advance tariff filing requirements, or to depart from rules and regulations governing publication of tariffs; recommends the institution of rulemaking proceedings, and where appropriate prepares drafts or rules and otherwise assists in the promulgation of rules; reviews informal complaints and protests against the practices, methods and operation of common carriers or conferences or against existing or proposed tariffs of such carriers or conferences and (1) requests the Bureau of Investigation to develop additional information and data through field investigations; (2) recommends the conclusion of complaints and protests by voluntary agreement between the parties or by administrative determination that the complaint or protest fails to represent a violation of the shipping statutes or the rules, or orders of the Commission; (3) prepares recommendations, collaborating with the Office of the Hearing Counsel, for formal action and proceedings by the Commission; and/or (4) refers, as appropriate, complaints and protests to the Bureau of Investigation for action by that bureau.

c. The Office of Transport Economics conducts research and economic studies necessary to the Commission in the fulfillment of its regulatory responsibilities. In this connection the staff compiles, interprets, and analyzes economic data essential to the study of freight rate structures and levels; conducts studies leading to determinations as to the reasonableness of specific cargo rates in the ocean trades of the United States including studies of reasonable return on and current cost of capital both borrowed and invested; studies the economic implications of shipping practices; analyzes costs attributable to the movement of cargoes in the ocean borne commerce of the United States and conducts related studies and analyses requisite to rendering by the Commission of sound economic judgments and decisions.

Sec. 5.034 is deleted.

Sec. 5.035 through 5.038 are renumbered 5.034 to 5.037 respectively.

JOHN HARLLEE,
Rear Admiral, U.S. Navy (Retired),
Chairman.

MARCH 28, 1966.

FEDERAL RESERVE SYSTEM

UNITED VIRGINIA BANKSHARES, INC.

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made to the Board of Governors of the Federal Reserve System pursuant to section 3(a)(2) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(2)), by United Virginia Bankshares, Inc., which is a bank holding company located in Richmond, Va., for the prior approval of the Board of the acquisition by applicant of at least 90 percent of the voting shares of Rockbridge Bank & Trust Co., Lexington, Va., a proposed new bank.

In determining whether to approve this application submitted pursuant to section 3(a)(2) of the Bank Holding Company Act, the Board is required by that Act to take into consideration the following factors: (1) The financial history and condition of the company and the banks concerned; (2) their prospects; (3) the character of their management; (4) the convenience, needs, and welfare of the communities and the area concerned; and (5) whether or not the effect of such acquisition would be to expand the size or extent of the bank holding company system involved beyond limits consistent with adequate and sound banking, the public interest, and the preservation of competition in the field of banking.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C., 20551.

Dated at Washington, D.C., this 13th day of April 1966.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

[F.R. Doc. 66-4259; Filed, Apr. 19, 1966; 8:45 a.m.]

WELLS FARGO BANK

Order Denying Application for Approval of Merger of Banks

In the matter of the application of Wells Fargo Bank for approval of merger with Bank of Sonoma County.

There has come before the Board of Governors, pursuant to the Bank Merger Act, as amended (12 U.S.C. 1828(c), Public Law 89-356), an application by Wells Fargo Bank, San Francisco, Calif., a State member bank of the Federal Reserve System, for the Board's prior approval of the merger of that bank and Bank of Sonoma County, Sebastopol, Calif., under the charter and title of Wells Fargo Bank. As an incident to the merger, the main office and two branches of Bank of Sonoma County would become branches of the resulting bank. Notice of the proposed merger, in form approved by the Board, has been published pursuant to said Act.

Upon consideration of all relevant material in the light of the factors set forth in said Act, including reports furnished by the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Attorney General on the competitive factors involved in the proposed merger,

It is hereby ordered, For the reasons set forth in the Board's statement [1] of

[1] Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C., 20551, or to the Federal Reserve Bank of San Francisco. Dissenting statement of Chairman Martin also filed as part of the original document and available upon request.

this date, that said application be and hereby is denied.

Dated at Washington, D.C., this 13th day of April 1966.

By order of the Board of Governors.[2]

[SEAL] MERRITT SHERMAN, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 37-64]

ALLEGHENY POWER SERVICE CORP., ET AL.

Notice of Request for Permanent Authorization of Organization and Conduct of Business of Subsidiary Service Company and Related Transactions

APRIL 14, 1966.

Notice is hereby given that Allegheny Power System, Inc. ("Allegheny"), a registered holding company, Allegheny Power Service Corp. ("Service Company"), a wholly owned subsidiary company of Allegheny, and Monongahela Power Co. ("Monongahela"), 320 Park Avenue, New York, N.Y., 10022, a subsidiary company of Allegheny and also a registered holding company and an electric utility company, have filed an amendment to their joint application-declaration, pursuant to the provisions of sections 6, 7, 9(a), 10, 12, and 13 of the Public Utility Holding Company Act of 1935 ("Act") and Rules 40(b), 43, and 88 promulgated thereunder, requesting that this Commission make permanent its order dated November 8, 1963, granting temporary authorization for the organization and conduct of business of Service Company and related transactions until May 17, 1966, unless on or prior to such date the Commission shall further continue such authorization (Holding Company Act Release No. 14966).

All interested persons are referred to the amended joint application-declaration, on file in the Office of the Commission, for a statement of the proposals therein contained which are summarized below.

By its order dated November 8, 1963, the Commission authorized Service Company to perform for associate companies, at cost allocated on the basis of benefits conferred, (1) the supervisory, coordination, engineering, and other professional services theretofore performed for such companies by Allegheny at its expense and by two associate operating companies at cost and (2) such additional services as might be feasible .The applicants-declarants state that Service Company commenced operations on January 1, 1964; that in 1965 it billed associate companies service charges totaling $1,287,900, of which $242,300, or 18.8 percent, was billed to Allegheny and $1,045,600, or 81.2 percent, was billed to associate operating companies; and that the latter total includes costs of services theretofore performed by Allegheny at its expense for the benefit of associate operating companies in the amount of $871,300.

The applicants-declarants estimate that the continued operation of Service Company, as proposed, would result in net annual savings of $200,000 for the Allegheny System. It is further represented that the temporary nature of the 1963 order of the Commission hinders long-term planning by Service Company and that ample justification now exists for continuation of the company as a permanent part of the Allegheny system.

Service Company has agreed to the imposition of the following terms and conditions in the Commission's order granting and permitting the application-declaration, as amended, to become effective:

1. No change in the organization of Service Company, the type and character of the companies to be serviced, the method of allocating costs to associate companies, or in the scope or character of services to be rendered, shall be made unless and until Service Company shall first have given the Commission written notice of such proposed change not less than 60 days prior to the proposed effectiveness of any such change. If, upon the receipt of any such notice, the Commission within the 60-day period shall notify Service Company that a question exists as to whether the aforesaid proposed change is consistent with the provisions of section 13 of the Act, or of any rule, regulation, or order thereunder, the proposed change shall not become effective unless and until Service Company shall have filed with the Commission an appropriate declaration with respect to such proposed change, and the Commission shall have permitted such declaration to become effective.

2. In the event that the operation of Service Company's cost allocation plan does not result in a fair and equitable allocation of its costs among the serviced associate companies, the Commission reserves the right to require, after notice and opportunity for hearing, prospective adjustments, and, to the extent that it appears feasible and equitable, retroactive adjustments of such cost allocations.

3. Jurisdiction is reserved by the Commission to take such further action as may be necessary or appropriate to carry out the provisions of section 13 of the Act and the rules, regulations, and orders thereunder.

Notice is further given that any interested person may, not later than May 9, 1966, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed contemporaneously with the request. At any time after said date, the said joint application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective in the manner provided by Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rule as provided in Rules 20(a) and 100 thereof, or take such other action as it may deem appropriate.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F.R. Doc. 66-4264; Filed, Apr. 19, 1966; 8:46 a.m.]

[File No. 70-4318]

AMERICAN GAS CO., AND AMERICAN GAS CO. OF WISCONSIN, INC.

Notice of Filing of Second Post-Effective Amendment Regarding Issue and Sale of Notes to Banks

APRIL 14, 1966.

Notice is hereby given that American Gas Co. ("American"), a public-utility company and a registered holding company, and its public-utility subsidiary company, American Gas Co. of Wisconsin, Inc. ("Wisconsin"), 546 South 24th Avenue, Omaha, Nebr., 68105, have filed with this Commission, pursuant to sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 ("Act"), a second post-effective amendment to the amended joint application-declaration in this matter. All interested persons are referred to said post-effective amendment, which is summarized below, for a complete statement of the proposed transactions.

American and Wisconsin have outstanding 6 percent promissory notes in the respective amounts of $434,000 and $255,000, maturing on April 30, 1966. Such notes were issued and sold to Harris Trust and Savings Bank, Chicago, Ill. ("Harris Trust") as permitted by orders of the Commission in this proceeding dated October 26, 1965, and February 10, 1966 (Holding Company Act Release Nos. 15335 and 15398). The companies now propose to renew, extend, or refund said notes for an additional period or periods. Such notes will mature no later than September 30, 1966, and will bear interest at the rate of 6½ percent per annum.

American and Wisconsin also propose to issue and sell, from time to time, to Harris Trust or any other bank or banks additional notes in the aggregate amounts not exceeding $136,000 and $195,000, respectively. These notes, as

[2] Voting for this action: Governors Robertson, Shepardson, Mitchell, Daane, Maisel, and Brimmer. Voting against this action: Chairman Martin.

issued or as renewed or extended, will mature no later than September 30, 1966, and will bear interest at the rate of 6½ percent per annum. The additional notes are to provide funds required for property additions, operating expenses, and the payment of interest on outstanding debt. All of America's notes will be secured by a junior lien on the 88 percent of the outstanding shares of the Wisconsin common stock owned by American.

The filing states that American will shortly file a plan pursuant to section 11(e) of the Act for the purpose of complying with the provisions of section 11(b) of the Act. This plan will provide for the retirement of all of American's indebtedness, including the outstanding bank loans.

Notice is further given that any interested person may, not later than April 29, 1966, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said second post-effective amendment to the amended joint application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed contemporaneously with the request. At any time after said date, the amended joint application-declaration as amended by said second post-effective amendment or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

CONTINENTAL OIL INTERNATIONAL FINANCE CORP.

Filing of Application for Order Exempting Company

APRIL 15, 1966.

Notice is hereby given that Continental Oil International Finance Corp. ("applicant"), 30 Rockefeller Plaza, New York, New York, 10020, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order exempting it from all provisions of the Act and the rules and regulations thereunder. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below:

The applicant was organized by Continental Oil Co. ("Continental") under the laws of the State of Delaware in April 1966. All of the common stock of applicant, consisting of 1,000 shares, $100 par value, will be purchased by Continental. Prior to the issuance of the Notes hereinafter referred to, Continental will make a capital contribution to applicant of additional cash, securities or other property so that the equity capital of applicant will not be less than $4,000,000 at that time. Any additional securities which applicant may issue other than debt securities shall be issued only to Continental. Continental will not dispose of any of the securities of applicant held by Continental except to applicant or to another wholly owned subsidiary of Continental.

Continental, a Delaware corporation, is engaged in exploration for and development and production of crude oil and natural gas, refining of petroleum and processing of petrochemicals, and transporting and marketing of petroleum, refined products and petrochemicals in the United States and 27 other countries throughout the world and is also a major producer, manufacturer and distributor of plant foods in the United States.

Applicant has been organized to provide assistance in improving the balance of payments position of the United States, in compliance with the voluntary cooperation program instituted by the President in February 1965, while at the same time continuing the expansion and development of operations of Continental outside the United States. Applicant intends to issue and sell an aggregate of up to $20,000,000 principal amount of its Guaranteed Notes due 1971 ("Notes"). Continental will guarantee the principal and interest payments on the Notes. Any additional debt securities of applicant which may be issued to or held by the public will be guaranteed by Continental in a manner substantially similar to the guarantee of the Notes.

It is intended that at least 70 percent of the assets of applicant will be invested in or loaned to foreign companies (including U.S. companies all or substantially all of whose business is carried on abroad) which are affiliates of applicant or Continental as defined in the Act and which are primarily engaged in a business other than investing, reinvesting, owning, holding, or trading in securities. Applicant will proceed as expeditiously as possible with the investment of its assets in such manner, will not acquire securities for the purpose of sale and will not trade in securities. Pending the development of final investment plans, and from time to time thereafter in connection with changes in long-term investments, the assets of applicant may be invested on a short-term basis, or may be deposited in banks.

The Notes are to be offered and sold under conditions which are intended to assure that the Notes will not be sold to nationals or residents of the United States or its territories or possessions. The contracts relating to such offer and sale will contain various provisions intended to assure that the Notes will not be purchased by nationals or residents of the United States or its territories or possessions.

Counsel has advised the applicant that U.S. persons will be required to report and pay interest equalization tax with respect to acquisitions of the Notes, except where a specific statutory exemption is available. Thus, by financing its foreign operations through the applicant rather than through sale of its own debt obligations, Continental will utilize an instrumentality the acquisition of whose debt obligations by U.S. persons would, generally, subject such persons to interest equalization tax, thereby tending to discourage them from purchasing such debt securities.

The Notes will not be registered under the Securities Act of 1933. The applicant will use its best efforts to have the Notes listed on the Luxemburg Stock Exchange. The stock of Continental is listed on the New York Stock Exchange and registered under the Securities Exchange Act of 1934.

Applicant submits that it is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policies and provisions of the Act for the Commission to enter an order exempting applicant from each and every provision of the Act for the following reasons: (1) A significant purpose of the applicant is to assist in improving the balance of payments program of the United States by obtaining funds for foreign operations in foreign countries; (2) the payment of the Notes, which is guaranteed by Continental, does not depend solely on the operations or investment policy of the applicant, because as a result of the guarantee, the Noteholders may ultimately look to the business enterprise of Continental rather than solely to that of the applicant; (3) none of the equity securities of the applicant will be held by any person other than Continental or a wholly owned subsidiary of Continental; (4) applicant will not permit any debt securities to be issued or held by the public unless they are fully guaranteed by Continental; (5) applicant will not deal or trade in securities; (6) applicant's security holders will have the benefit of the disclosure and reporting provisions of the Luxemburg Stock Exchange as to the applicant and of the Securities Exchange Act of 1934 and of the New York Stock Exchange as to the common stock of Continental; (7) the Notes will be offered only to foreign nationals under circumstances designed to prevent reoffering or resale in the United States or to any U.S. national or resident; accordingly, the public policy which dictated the enactment of the Act is not applicable to the applicant nor do the security holders of the applicant require the protection afforded by the Act.

Notice is further given that any interested person may, not later than April 29, 1966, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or of law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DEPARTMENT OF LABOR

Office of Federal Contract Compliance

STANDARD FORM 41 FOR CONSTRUCTION CONTRACTORS

Notice of Revocation

1. *General.* This Office is currently developing a new consolidated reporting system in cooperation with the Equal Employment Opportunity Commission and Plans for Progress. Among other things, this system will include provisions for acquiring special information regarding that part of the construction industry that engages in Government contracts and federally assisted construction contracts.

2. *Discontinuance of use of SF-41.* Order No. C-8, issued January 31, 1963, by the President's Committee on Equal Employment Opportunity, establishing Standard Form 41, is hereby revoked and the filing of Standard Form 41 will no longer be required by this Office.

3. *Authority.* This order is issued pursuant to the authority of section 203 (a) of Executive Order 11246, September 24, 1965, 41 CFR § 60-1.6(a) and 30 F.R. 13441-2.

4. *Effective date.* This order is effective immediately.

Signed at Washington, D.C., this 14th day of April 1966.

EDWARD C. SYLVESTER, Jr., *Director.*

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, tive Order No. 579 (28 F.R. 11524) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the act. The effective and expiration dates, occupations, wage rates, number, or proportion of learners and learning periods, for certificates issued under general learner regulations (29 CFR 522.1 to 522.9), and the principal product manufactured by the employer are as indicated below. Conditions provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended, and 29 CFR 522.20 to 522.25, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Bannon Mills, Inc., Seventh and Union Streets, Lebanon, Pa.; effective 4-4-66 to 4-3-67 (infants' and children's wear).

Capitol City Manufacturing Co., Inc., 1651 Holland Street, West Columbia, S.C.; effective 3-29-66 to 3-28-67 (women's house dresses).

Dublin Garment Co., Inc., Troup Street, Dublin, Ga.; effective 3-26-66 to 3-22-67 (men's sport shirts).

E & W of Monterey, Inc., Monterey, Tenn.; effective 3-30-66 to 3-29-67 (boys' sport shirts).

Fortex Manufacturing Co., Inc., Fort Deposit, Ala.; Greenville, Ala.; effective 4-7-66 to 4-6-67 (pajamas).

Hartsville Garment Corp., Hartsville, Tenn.; effective 3-29-66 to 3-28-67 (men's sport shirts).

Henson Garment Co., 450 East Hancock Avenue, Athens, Ga.; effective 3-23-66 to 3-22-67 (men's and boys' dungarees).

Martin Manufacturing Co., 202 North Broadway, Martin, Tenn.; effective 3-28-66 to 3-27-67 (men's shirts and outerwear jackets).

Model's Coat, Inc., Route 2, Pelzer, S.C.; effective 3-30-66 to 3-29-67 (women's cotton dresses).

Salant & Salant Inc., 408 East Florida Avenue, Union City, Tenn.; effective 4-13-66 to 4-12-67 (men's work pants).

The Seaford Garment Co., Phillips Street, Seaford, Del.; effective 3-27-66 to 3-26-67 (shirts).

Henry I. Siegel Co., Inc., Whiteville, Tenn.; effective 4-1-66 to 3-31-67 (ladies' single pants).

Spartans Industries, Inc., Sparta, Tenn.; effective 3-26-66 to 3-25-67 (ladies' blouses).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Anthracite Overall Manufacturing Co., Inc., 430 Penn Avenue, Scranton, Pa.; effective 4-12-66 to 4-11-67; 10 learners. Learners may not be employed at special minimum wage rates in the production of separate skirts (men's work and dress trousers, ladies' pants and shorts).

Denise Lingerie Corp., East Unaka, Johnson City, Tenn.; effective 3-25-66 to 3-24-67; 10 learners (ladies' pajamas and gowns).

East Waterford Textiles, Inc., East Waterford, Pa.; effective 4-3-66 to 4-2-67; 10 learners (ladies' dresses).

IGAM Manufacturing Co., Inc., Woodsfield, Ohio; effective 4-1-66 to 3-31-67; 10 learners (ladies' blouses).

Spruce Pine Manufacturing Co., Carter's Ridge Road, Spruce Pine, N.C.; effective 4-12-66 to 4-11-67; 10 learners (men's dress shirts).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Loris Manufacturing Co., No. 1, Post Office Box 745, Loris, S.C.; effective 3-31-66 to 9-30-66; 60 learners (ladies' blouses and dresses).

Henry I. Siegel Co., Inc., Whiteville, Tenn.; effective 4-1-66 to 9-30-66; 60 learners (ladies' single pants).

Sunbright Shirt Corp., Sunbright, Tenn.; effective 3-31-66 to 9-30-66; 20 learners (boys' sport shirts).

Glove industry learner regulations (29 CFR 522.1 to 522.9, as amended, and 29 CFR 522.60 to 522.65, as amended).

Galena Glove & Mitten Co., 430 Garfield Avenue, Dubuque, Iowa; effective 4-2-66 to 4-1-67; 10 learners for normal labor turnover purposes (work gloves).

Knitted wear industry learner regulations (29 CFR 522.1 to 522.9, as amended, and 29 CFR 522.30 to 522.35, as amended).

Chatham Knitting Mills, Inc., Chatham, Va.; effective 3-23-66 to 3-22-67; 4 learners for normal labor turnover purposes (sweaters and outerwear jackets).

Dawson Industries, Inc., Dawson, Ga.; effective 3-31-66 to 9-30-66; 20 learners for plant expansion purposes (ladies' and girls' pajamas, nightgowns and panties).

Union Underwear Co., Inc., Bowling Green, Ky.; effective 3-27-66 to 3-26-67; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' underwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.9, as amended).

The following learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number of learners authorized to be employed, are indicated.

Carol Anne Corp., Calle Santo Domingo, Apartado 67, Yauco, P.R.; effective 3-14-66 to 3-13-67; 20 learners for normal labor turnover purposes in the occupation of sewing machine operating-machine reembroidery, for a learning period of 320 hours at the rate of 75 cents an hour (women's underwear and nightwear).

MAIPO, Inc., Edif. 615 Urb. Industrial de Fomento, Sabana Abajo, Carolina, P.R.; effective 3-14-66 to 9-13-66; 6 learners for plant expansion purposes in the single occupation of basic hand and/or machine production operations in the manufacture of gold rings, chains and medals, for a learning period of 320 hours at the rates of 95 cents an hour for the first 160 hours and $1.10 an hour for the remaining 160 hours (fine gold jewelry).

Ricardo Corp., Apartado 127, Hormigueros, P.R.; effective 3-1-66 to 2-28-67; 20 learners for normal labor turnover purposes in the occupations of: (1) machine stitching, laying off, each for a learning period of 480 hours at the rates of 80 cents an hour for the first 240 hours and 92 cents an hour for the remaining 240 hours; and (2) die and clicker machine operating, for a learning period of 160 hours at the rate of 80 cents an hour (fabric and leather gloves).

Wilrico, Inc., Carretera Estatal No. 107, Km. 0.1, Barrio Camaceyes, Aguadilla, P.R.; effective 2-28-66 to 6-30-66; 39 learners for plant expansion purposes in the occupations of: (1) hand sewing, for a learning period of 320 hours at the rates of 68 cents an hour for the first 160 hours and 78 cents an hour for the remaining 160 hours; and (2) final inspecting, for a learning period of 160 hours at the rate of 68 cents an hour (baseballs).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in 29 CFR, Part 528.

Signed at Washington, D.C., this 8th day of April 1966.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice 391]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

APRIL 15, 1966.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission, under the Commission's Deviation Rules Revised, 1957 (49 CFR 211.1 (c)(8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1(d)(4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 629 (Deviation No. 18), HELM'S EXPRESS, INC., Post Office Box 628, Pittsburgh, Pa. Applicant's representative: Richard J. Smith, 1515 Park Building, Pittsburgh, Pa., 15222; filed March 30, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Baltimore, Md., over Interstate Highway 70N (U.S. Highway 40) to Frederick, Md., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Baltimore, Md., over Maryland Highway 26 to junction U.S. Highway 15, thence over U.S. Highway 15 to Frederick, Md., and return over the same route.

No. MC 629 (Deviation No. 19), HELM'S EXPRESS, INC., Post Office Box 268, Pittsburgh, Pa. Applicant's representative: Richard J. Smith, 1515 Park Building, Pittsburgh, Pa., 15222; filed April 1, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction U.S. Highway 21 and Interstate Highway 77, near Sissonville, W. Va., over Interstate Highway 77 to junction U.S. Highway 21, near Fairplain, W. Va., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Parkersburg, W. Va., over U.S. Highway 21 to Charleston, W. Va., and return over the same route.

No. MC 2593 (Deviation No. 1), BAUMANN BROS. TRANSPORTATION, INC., 5126 South 25th Street, Omaha, Nebr., 68107; filed March 30, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *agricultural implements and parts, twine, cocoa, wallpaper, paint, paint material, groceries, grocery store supplies*, and *eggs*, over a deviation route as follows: From Lincoln, Nebr., over Interstate Highway 80 to junction Interstate Highway 55 (U.S. Highway 66), thence over Interstate Highway 55 (U.S. Highway 66) to Chicago, Ill., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) From Chicago, Ill., over Alternate U.S. Highway 30 (formerly U.S. Highway 330) to Dixon, Ill., thence over Alternate U.S. Highway 30 (formerly portion U.S. Highway 30) to junction U.S. Highway 30, thence over U.S. Highway 30 to Missouri Valley, Iowa, thence over Alternate U.S. Highway 30 (formerly U.S. Highway 75) to Council Bluffs, Iowa, thence over U.S. Highway 6 via Lincoln, Nebr., to Fairmont, Nebr., thence over U.S. Highway 81 to Geneva, Nebr.; (2) from Chicago, Ill., over U.S. Highway 34 to junction Illinois Highway 65, thence over Illinois Highway 65 to Aurora, Ill., thence over Illinois Highway 31 to Oswego, Ill., thence over U.S. Highway 34 to Princeton, Ill., thence over U.S. Highway 6 to Fairmont, Nebr., thence over U.S. Highway 81 to Geneva, Nebr.; (3) from Chicago, Ill., to Oswego, Ill., as specified above, thence over U.S. Highway 34 via Ottumwa, Iowa, to Lincoln, Nebr., thence over the above-specified routes to Geneva, Nebr.

(4) From Chicago, Ill., over U.S. Highway 66 to junction Alternate U.S. Highway 66, thence over Alternate U.S. Highway 66 via Joliet, Ill., to junction U.S. Highway 66, thence over U.S. Highway 66 to junction unnumbered highway (formerly portion U.S. Highway 66), thence over unnumbered highway to Chenoa, Ill., thence over U.S. Highway 24 to Banner, Ill., thence over Illinois Highway 78 to Farmington, Ill., thence over Illinois Highway 116 to junction U.S. Highway 34, thence over the above-specified routes to Geneva, Nebr.; (5) from Chicago, Ill., over Alternate U.S. Highway 30 (formerly U.S. Highway 330) to Dixon, Ill., thence over Alternate U.S. Highway 30 (formerly portion U.S. Highway 30) to junction U.S. Highway 30, thence over U.S. Highway 30 to Missouri Valley, Iowa, thence over Alternate U.S. Highway 30 (formerly U.S. Highway 75) to Council Bluffs, Iowa, thence over U.S. Highway 6 to Lincoln, Nebr.; (6) from Chicago, Ill., over Alternate U.S. Highway 30 (formerly U.S. Highway 330) to Dixon, Ill., thence over Alternate U.S. Highway 30 (formerly portion U.S. Highway 30) to junction U.S. Highway 30, thence over U.S. Highway 30 to Fremont, Nebr., thence over U.S. Highway 77 to Beatrice, Nebr., thence over U.S. Highway 136 (formerly Nebraska Highway 3) to Fairbury, Nebr.; and (7) from Lincoln, Nebr., over the above-specified routes to Chicago, Ill.; and return over the same routes.

No. MC 10872 (Deviation No. 9), BEMAC TRANSPORT CO., INC., 7400 North Broadway, St. Louis, Mo., 63147, filed March 28, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction U.S. Highway 51 and Interstate Highway 80 over Interstate Highway 80 to junction Interstate Highway 55, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) From Bloomington over U.S. Highway 51 to Wenona, Ill., thence over Illinois Highway 17 to junction Illinois Highway 23, thence over Illinois Highway 23 to Ottawa, Ill., thence over U.S. Highway 6 to Morris, Ill., thence over Illinois Highway 47 to junction U.S. Highway 34, thence over U.S. Highway 34 to Chicago, Ill., (2) from Wenona, Ill., over U.S. Highway 51 to junction U.S. Highway 6, and (3) from St. Louis, Mo., over U.S. Highway 66 to Chicago, Ill., and return over the same routes.

No. MC 22278 (Deviation No. 2), TAKIN BROS. FREIGHT LINE, INC., 2125 Commercial Street, Waterloo, Iowa, 50704; filed March 28, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Omaha, Nebr., over Interstate Highway 29 to Sioux City, Iowa, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Omaha, Nebr., over U.S. Highway 75, to Sioux City, Iowa, and return over the same route.

No. MC 22278 (Deviation No. 3), TAKIN BROS., FREIGHT LINE, INC., 2125 Commercial Street, Waterloo, Iowa, 50704; filed March 30, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Chicago, Ill., over U.S. Highway 20 to Waterloo, Iowa, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Chicago, Ill., over Alternate U.S. Highway 30 to junction U.S. Highway 218, thence over U.S. Highway 218 to Waterloo, Iowa, and return over the same route.

No. MC 22278 (Deviation No. 4), TAKIN BROS. FREIGHT LINE, INC., 2125 Commercial Street, Waterloo, Iowa, 50704; filed April 1, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Decorah, Iowa, over U.S. Highway 52 to junction Minnesota Highway 44, thence over Minnesota Highway 44 to junction Minnesota Highway 43, thence over Minnesota Highway 43 to Winona, Minn., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Decorah, Iowa, over U.S. Highway 52 to junction Minnesota Highway 44, thence over Minnesota Highway 44 to junction U.S. Highway 61, thence over U.S. Highway 61 to junction U.S. Highway 14, thence over U.S. Highway 14 to Winona, Minn., and return over the same route.

No. MC 22278 (Deviation No. 5), TAKIN BROS. FREIGHT LINE, INC., 2125 Commercial Street, Waterloo, Iowa, 50704; filed April 1, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Ames, Iowa, over Interstate Highway 35 to Osceola, Iowa, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Ames, Iowa, over U.S. Highway 69 to Osceola, Iowa, and return over the same route.

No. MC 26739 (Deviation No. 23), CROUCH BROS., INC., Post Office Box 1059, St. Joseph, Mo., 64502, filed April 4, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Chicago, Ill., over Interstate Highway 55 to junction Interstate Highway 80 (approximately 5 miles west of Joliet, Ill.), thence over Interstate Highway 80 to Omaha, Nebr., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Chicago, Ill., over U.S. Highway 66 to junction U.S. Highway 52, thence over U.S. Highway 52 to junction U.S. Highway 51, thence over U.S. Highway 51 to Mendota, Ill., thence over Illinois Highway 92 to Moline-Rock Island, Ill., thence over the Mississippi River to U.S. Highway 61, thence over U.S. Highway 61 to junction Iowa Highway 92, thence over Iowa Highway 92 to Washington, Iowa, thence over Iowa Highway 1 to Fairfield, Iowa, thence over U.S. Highway 34 to Ottumwa, Iowa, thence over U.S. Highway 63 to Bloomfield, Iowa, thence over Iowa Highway 2 to Bedford, Iowa, thence over Iowa Highway 148 to the Iowa-Missouri State line, thence over U.S. Highway 27 to junction U.S. Highway 71, and thence over U.S. Highway 71 to Maryville, Mo., and (2) from Maryville, Mo., over U.S. Highway 71 to Clarinda, Iowa, thence over Iowa Highway 2 to Shenandoah, Iowa, thence over U.S. Highway 59 to Emerson, Iowa, thence over U.S. Highway 34 to Glenwood, Iowa, and thence over U.S. Highway 275 to Omaha, Nebr., and return over the same routes.

No. MC 28478 (Deviation No. 5), GREAT LAKES EXPRESS CO., 172 Davenport Street, Saginaw, Mich., 48605; filed March 30, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Chicago, Ill., over Interstate Highway 90 to Syracuse, N.Y. (also over Interstate Highway 94 to junction Interstate Highway 90, and thence over Interstate Highway 90 to Syracuse, N.Y.), and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follow: (1) From Chicago, Ill., over U.S. Highway 12 via Michigan City, Ind., to junction unnumbered highway (formerly portion U.S. Highway 12), near New Buffalo, Mich.; (2) from New Buffalo, Mich., over unnumbered highway (formerly portion U.S. Highway 12) to junction U.S. Highway 12 (formerly portion U.S. Highway 112), thence over U.S. Highway 12 to junction unnumbered highway (formerly portion U.S. Highway 112), thence over unnumbered highway via Niles, Mich., to junction U.S. Highway 12 (formerly portion U.S. Highway 112), thence over U.S. Highway 12 to junction U.S. Highway 223, thence over U.S. Highway 223 to Toledo, Ohio; (3) from Toledo, Ohio, over Interstate Highway 280 to junction Interstate Highway 80 (Ohio Turnpike), thence over Interstate Highway 80 to junction U.S. Highway 42, thence over U.S. Highway 42 to Cleveland, Ohio; and (4) from Cleveland, Ohio, over U.S. Highway 6 (formerly Ohio Highway 85) to junction Ohio Highway 91, thence over Ohio Highway 91 to junction Ohio Highway 84, thence over Ohio Highway 84 to Madison, Ohio, thence over Ohio Highway 528 (formerly Ohio Highway 166) to junction Ohio Highway 307, thence over Ohio Highway 307 to Austinburg, Ohio, thence over Ohio Highway 45 to junction unnumbered highway (formerly portion Ohio Highway 45), thence over unnumbered highway via Munson Hill, Ohio, to Ashtabula, Ohio, thence over Ohio Highway 84 to Kingsville, Ohio, thence over Ohio Highway 170 (formerly Ohio Highway 90) to North Kingsville, Ohio, thence over U.S. Highway 20 to Erie, Pa., thence over Pennsylvania Highway 5 to the Pennsylvania-New York State line, thence over New York Highway 5 to Buffalo, N.Y., thence over New York Highway 33 via Crittenden, N.Y., to Rochester, N.Y., thence over New York Highway 31 to Weedsport, N.Y., thence over New York Highway 31B to junction New York Highway 5, thence over New York Highway 5 to Syracuse, N.Y.; and return over the same routes.

No. MC 29988 (Deviation No. 21), DENVER CHICAGO TRUCKING COMPANY, INC., 45th and Jackson Streets, Denver, Colo., 80216, filed March 30, 1966. Applicant's representative: David Axelrod, 39 South La Salle Street, Chicago, Ill., 60603. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Denver, Colo., over Interstate Highway 70 via Kansas City, Mo., to junction Interstate Highway 270 at or near Lambort-St. Louis Municipal Airport, near St. Louis, Mo., thence over Interstate Highway 270 to junction Interstate Highway 70 at or near Troy, Ill., thence over Interstate Highway 70 (U.S. Highway 40 to extent necessary because of the incompleteness of Interstate Highway 70) to Washington, Pa., thence over Interstate Highway 70 to junction Pennsylvania Turnpike, thence over the Pennsylvania Turnpike to junction New Jersey Turnpike, at or near the Pennsylvania-New Jersey State line, thence over the New Jersey Turnpike to junction New Jersey Highway 3 at the Lincoln Tunnel Interchange 16, approximately 3 miles from New York, N.Y., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) From Denver over U.S. Highway 85 to Greeley, Colo., thence over U.S. Highway 34 to junction U.S. Highway 6, thence over U.S. Highway 6 to Sterling, Colo. (also from Denver over U.S. Highway 6 to Sterling), thence over U.S. Highway 138 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction Alternate U.S. Highway 30, and thence over Alternate U.S. Highway 30 to Chicago, Ill., (2) from Denver, Colo., over U.S. Highway 40 to Limon, Colo., thence over U.S. Highway 24 to Halford, Kans., thence over U.S. Highway 83 to Oakley, Kans., thence over U.S. Highway 40 to Topeka, Kans., thence over U.S. Highway 24 to Kansas City, Mo. (also from Topeka over U.S. Highway 40 to Kansas City), and thence over U.S. Highway 40 to St. Louis, Mo., and (3) from Chicago, Ill., over U.S. Highway 20 to junction U.S. Highway 62, approximately 4 miles north of Hamburg, N.Y., thence over U.S. Highway 62 to Buffalo, N.Y., thence over New York Highway 130 to junction U.S. Highway 20, thence over U.S. Highway 20 via Avon, Auburn, and La Fayette, N.Y., to Albany, N.Y. (also from Buffalo over New York Highway 5 to Albany), and thence over U.S. Highway 9 (also over U.S. Highway 9-W) to New York, N.Y., and return over the same routes.

No. MC 33641 (Deviation No. 1), IML FREIGHT, INC., Post Office Box 2277, Salt Lake City, Utah, 84110, filed April 11, 1966. Applicant's representative: Marshall G. Berol, 100 Bush Street, San Francisco, Calif., 94104. Carrier proposes to operate as a *common carrier*, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From St. Louis, Mo., over Interstate Highway 70 (or U.S. Highway 40) to Indianapolis, Ind., thence over Interstate Highway 74 to Cincinnati, Ohio, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From St. Louis, Mo., over U.S. Highway 50 via Shoals, Ind., to Cincinnati, Ohio, and return over the same route.

No. MC 33641 (Deviation No. 2), IML FREIGHT, INC., Post Office Box 2277, Salt Lake City, Utah, 84110, filed April 11, 1966. Applicant's representative: Marshall G. Berol, 100 Bush Street, San Francisco, Calif., 94104. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, between Kansas City, Kans., and East St. Louis, Ill., over Interstate Highway 70, for operating convenience only. The notices indicate that the carrier is presently authorized to transport the same property over a pertinent service route as follows: From Kansas City, Kans., over U.S. Highway 50 to junction Missouri Highway 100, near Gray Summit, Mo., thence over Missouri Highway 100 to St. Louis, Mo., thence across the Mississippi River to East St. Louis, Ill., and return over the same route.

No. MC 33641 (Deviation No. 3), IML FREIGHT, INC., Post Office Box 2277, Salt Lake City, Utah, 84110, filed April 11, 1966. Applicant's representative: Marshall G. Berol, 100 Bush Street, San Francisco, Calif., 94104. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: Between Denver, Colo., and Kansas City, Kans., over Interstate Highway 70, for operating convenience only. The notices indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Denver, Colo., over U.S. Highway 36 to Smith Center, Kans., thence over U.S. Highway 281 to junction U.S. Highway 24, thence over U.S. Highway 24 to Kansas City, Mo., and return over the same route.

No. MC 47904 (Deviation No. 1), INTERCITY TRANSPORTATION COMPANY, 175 East Ashland Street, Brockton, Mass. Applicant's representative: Francis E. Barrett, Jr., 536 Granite Street, Braintree, Mass., 02184; filed March 30, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follow: (1) From Boston, Mass., over Interstate Highway 95 to New York, N.Y.; (2) from Boston, Mass., over Interstate Highway 90 to Springfield, Mass.; and (3) from Springfield, Mass., over Interstate Highway 91 to New Haven, Conn.; and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follow: (1) From Boston, Mass., over Massachusetts Highway 28 to Brockton, Mass., thence over Massachusetts Highway 123 to South Easton, Mass., thence over Massachusetts Highway 138 to Taunton, Mass., thence over U.S. Highway 44 to Providence, R.I., thence over Rhode Island Highway 3 via Hopkinton, R.I., to Westerly, R.I., and thence over U.S. Highway 1 to New York, N.Y.; (2) from Boston, Mass., over Massachusetts Highway 37 to junction Massachusetts Highway 28, thence over Massachusetts Highway 28 to Brockton, Mass., and thence to New York, N.Y., as specified above; (3) from Boston, Mass., to Hopkinton, R.I., as specified above, thence over Rhode Island Highway 84 to the Rhode Island-Connecticut State line, thence over Connecticut Highway 84 to junction U.S. Highway 1, thence to New York, N.Y., as specified above; and (4) from Boston, Mass., over Massachusetts Highway 9 to Worcester, Mass., thence over U.S. Highway 20 to Springfield, Mass., thence over U.S. Highway 5 to New Haven, Conn., and thence over U.S. Highway 1 to New York, N.Y.; and return over the same routes.

No. MC 59194 (Deviation No. 1), EASTERN FREIGHT WAYS, INC., Moonchie Avenue, Carlstadt, N.J., filed April 8, 1966. Applicant's representative: Maxwell A. Howell, 1511 K Street NW., Washington, D.C., 20005. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From New York, N.Y., over Interstate Highway 95 to junction Interstate Highway 91, at New Haven, Conn., and thence over Interstate Highway 91 to Hartford, Conn., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) From New Haven, Conn., over U.S. Highway 1 to New York, N.Y., and (2) from Hartford, Conn., over unnumbered highway (formerly U.S. Highway 5) to junction U.S. Highway 5, thence over U.S. Highway 5 to junction Alternate U.S. Highway 5, near Berlin, Conn., thence over Alternate U.S. Highway 5 to junction U.S. Highway 5, thence over U.S. Highway 5 to junction Alternate U.S. Highway 5, approximately 3 miles north of Meriden, Conn., thence over Alternate U.S. Highway 5 to junction U.S. Highway 5, thence over U.S. Highway 5 to North Haven, Conn., thence over Alternate U.S. Highway 5 to New Haven, Conn., and return over the same routes.

No. MC 105457 (Sub-No. 19) (Deviation No. 2), THURSTON MOTOR LINES, INC., Post Office Box 10638, Charlotte, N.C., filed March 28, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Greenville, S.C., over Interstate Highway 85 to junction Interstate Highway 285, thence over Interstate Highway 285 (near Atlanta, Ga.) to junction U.S. Highway 41, thence over U.S. Highway 41 to junction Georgia Highway 20, thence over Georgia Highway 20 to junction U.S. Highway 411 at Rome, Ga., and (2) from Greenville, S.C., over Interstate Highway 85 to junction Interstate Highway 285, thence over Interstate Highway 285 (near Atlanta, Ga.) to junction Interstate Highway 75, thence over Interstate Highway 75 to junction Georgia Highway 20, thence over Georgia Highway 20 to junction U.S. Highway 411, at Rome, Ga., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Charlotte, N.C., over U.S. Highway 29 to Greenville, S.C., thence over U.S. Highway 123 to Cornelia, Ga., thence over U.S. Highway 23 to Gainesville, Ga., thence over Georgia Highway 141 to junction Georgia Highway 306, thence over Georgia Highway 306 to junction U.S. Highway 19, thence over U.S. Highway 19 to junction Georgia Highway 20 at or near Cumming, Ga., thence over Georgia Highway 20 to junction U.S. Highway 411, thence over U.S. Highway 411 to Rome, Ga., thence over Georgia Highway 20 to the Georgia-Alabama State line, and return over the same route.

No. MC 105457 (Sub-No. 19) (Deviation No. 3), THURSTON MOTOR LINES, INC., Post Office Box 10638, Charlotte, N.C., filed March 28, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Greenville, S.C., over Interstate Highway 85 to junction Interstate Highway 285, thence over Interstate Highway 285 (near Atlanta, Ga.) to junction U.S. Highway 41, thence over U.S. Highway 41 to junction Georgia Highway 20, and (2) from Greenville, S.C., over Interstate Highway 85 to junction Interstate Highway 285, thence over Interstate Highway 285 (near Atlanta, Ga.), to junction Interstate Highway 75, thence over Interstate Highway 75 to Chattanooga, Tenn., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Charlotte, N.C., over U.S. Highway 29 to Greenville, S.C., thence over U.S. Highway 123 to Cornelia, Ga., thence over U.S. Highway 23 to Gainesville, Ga., thence over Georgia Highway 141 to junction Georgia Highway 306, thence over Georgia Highway 306 to junction U.S. Highway 19, thence over U.S. Highway 19 to junction Georgia Highway 20 at or near Cumming, Ga., thence over Georgia Highway 20 to junction U.S. Highway 41, and thence over U.S. Highway 41 to Nashville, Tenn., and return over the same route.

No. MC 109186 (Deviation No. 2), NEW YORK & WORCESTER EXPRESS, INC., 558 Southbridge Street, Worcester 3, Mass., filed March 31, 1966. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J., 07306. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From New York, N.Y., over Interstate Highway 95 to New Haven, Conn., thence over Interstate Highway 91 to Hartford, Conn., (2) from Hartford, Conn., over Connecticut Highway 15 to the Connecticut-Massachusetts State line, thence over Massachusetts Highway 15 to junction with the Massachusetts Turnpike, thence over the Massachusetts Turnpike to Boston, Mass., (3) from New York, N.Y., over Interstate Highway 95 to Providence, R.I., (4) from New York, N.Y., over Interstate Highway 95 to Boston, Mass., and (5) from Providence, R.I., over Interstate Highway 95 to Boston, Mass., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) From New York, N.Y., over U.S. Highway 1 to New Haven, Conn., thence over U.S. Highway 5 to Hartford, Conn., (2) from Hartford, Conn., over U.S. Highway 5 to junction U.S. Highway 20, thence over U.S. Highway 20 to junction Massachusetts Highway 9, thence over Massachusetts Highway 9 to Boston, Mass., and (3) from New York, N.Y., over U.S. Highway 1 to Providence, R.I., and Boston, Mass., and return over the same routes.

MOTOR CARRIERS OF PASSENGERS

No. MC 1515 (Deviation No. 306) (Canceling Deviation No. 254), GREYHOUND LINES, INC. (Western Division), Market and Fremont Streets, San Francisco, Calif., 94106, filed March 25, 1966. Carrier's representative: W. T. Meinhold, 371 Market Street, San Francisco, Calif. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express and newspapers*, over a deviation route as follows: From junction unnumbered highway and U.S. Highway 80 (El Cajon, Calif.), over U.S. Highway 80 (Interstate Highway 8) to junction unnumbered highway (West Alpine Junction, Calif.), and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From San Diego over California Highway 94 to junction California Highway 125 (Spring Valley Junction), thence over California Highway 125 to junction U.S. Highway 80 (Grossmont Junction), thence over U.S. Highway 80 to junction unnumbered highway (El Cajon), thence over unnumbered highway to junction U.S. Highway 80 (Harritt Road Junction), thence over U.S. Highway 80 to El Centro, and return over the same route.

No. MC 2890 (Deviation No. 58), AMERICAN BUSLINES, INC., 1805 Leavenworth Street, Omaha, Nebr.; filed March 30, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express, mail, and newspapers* in the same vehicle with passengers, over a deviation route as follows: From St. Louis, Mo., over U.S. Highway 40 to junction Interstate Highway 244, west of St. Louis, Mo., thence south over Interstate Highway 244 to junction Interstate Highway 44 (U.S. Highway 66), and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From St. Louis, Mo., over U.S. Highway 66 to Joplin, Mo., and return over the same route.

No. MC 2890 (Deviation No. 59), AMERICAN BUSLINES, INC., 1805 Leavenworth Street, Omaha 2, Nebr., filed April 4, 1966. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express, mail, and newspapers*, in the same vehicle with passengers, over a deviation route, as follows: From Cambridge, Ohio, east over U.S. Highway 40 to junction Interstate Highway 70 west of Morristown, Ohio, thence over Interstate Highway 70 to junction U.S. Highway 40 east of Wheeling, W. Va., thence over U.S. Highway 40 to junction Interstate Highway 70 west of Claysville, Pa., thence over Interstate Highway 70 to junction U.S. Highway 19, thence over U.S. Highway 19 to Pittsburgh, Pa., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From Pittsburgh, Pa., over U.S. Highway 22 to Zanesville, Ohio, and return over the same route.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary.*

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

APRIL 15, 1966.

The following publications are governed by the new Special Rule 1.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

APPLICATIONS ASSIGNED FOR ORAL HEARING

MOTOR CARRIERS OF PROPERTY

The applications immediately following are assigned for hearing at the time and place designated in the notice of filing as here published in each proceeding. All of the proceedings are subject to the Special Rules of Procedure for Hearing outlined below:

SPECIAL RULES OF PROCEDURE FOR HEARING

(1) All of the testimony to be adduced by applicant's company witnesses shall be in the form of written statements which shall be submitted at the hearing at the time and place indicated.

(2) All of the written statements by applicant's company witnesses shall be offered in evidence at the hearing in the same manner as any other type of evidence. The witnesses submitting the written statements shall be made available at the hearing for cross-examination, if such becomes necessary.

(3) The written statements by applicant's company witnesses, if received in evidence, will be accepted as exhibits. To the extent the written statements refer to attached documents such as copies of operating authority, etc., they should be referred to in written statements as numbered appendices thereto.

(4) The admissibility of the evidence contained in the written statements and the appendices thereto, will be at the time of offer, subject to the same rules as if the evidence were produced in the usual manner.

(5) Supplemental testimony by a witness to correct errors or to supply inadvertent omissions in his written statement is permissible.

No. MC 19227 (Sub-No. 106), filed April 11, 1966. Applicant: LEONARD BROS. TRANSFER, INC., 2595 Northwest 20th Street, Miami, Fla. Applicant's representative: William O. Turney, 2001 Massachusetts Avenue NW., Washington, D.C., 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood*, from Corona, Calif., and points in Oregon and Washington, to points in Delaware, the District of Columbia, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, North Carolina, Connecticut, Rhode Island, Massachusetts, Arkansas, Kansas, Louisiana, Missouri, Nebraska, Oklahoma, and Texas.

HEARING: May 4, 1966, in Room 401, Multnomah Building, 120 Southwest Fourth Street, Portland, Oreg., before Examiner Frank R. Saltzman.

No. MC 52110 (Sub-No. 96) (Republication), filed March 21, 1966. Issues published FEDERAL REGISTER April 14, 1966, and republished this issue. Applicant: BRADY MOTORFRATE, INC., 1223 Sixth Avenue, Des Moines, Iowa, 50314. Applicant's representative: Homer E. Bradshaw, Fifth Floor, Central National Building, Des Moines, Iowa, 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Lafayette, Ind., to points in Kansas, Illinois, Nebraska, Missouri, and Minnesota. NOTE: The purpose of this republication is to reflect the hearing information.

HEARING: May 24, 1966, at the Indiana Public Service Commission, New State Office Building, 100 North Senate Avenue, Indianapolis, Ind., before Examiner Joseph A. Reilly.

No. MC 113843 (Sub-No. 115), filed April 7, 1966. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass., 02210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Lafayette, Ind., to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Ohio, Michigan, and the District of Columbia.

HEARING: May 24, 1966, at the Indiana Public Service Commission, New State Office Building, 100 North Senate Avenue, Indianapolis, Ind., before Examiner Joseph A. Reilly.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary*.

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

APRIL 15, 1966.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

State Docket No. C-239, Case No. 3, filed March 22, 1966. Applicant: INTER-CITY TRUCKING SERVICE, INC., 14333 Goddard Street, Detroit, Mich., 48226. Applicant's representative: Walter N. Bieneman, Suite 1700, 1 Woodward Avenue, Detroit, Mich., 48226. Certificate of public convenience and necessity sought to operate as a freight service as follows: Transporting *general commodities*, serving the plantsite of Brighton N.C. Machine Co. located southwest of the Brighton, Mich., commercial zone on Swarthout Road, as an off-route point in connection with authorized regular-route service to and from Brighton, Mich.

HEARING: May 12, 1966, 9:30 a.m., Michigan Public Service Commission, Lewis Cass Building, South Walnut Street, Lansing, Mich. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Michigan Public Service Commission, Motor Transport Section, Transportation Division, Lewis Cass Building, Lansing, Mich., 48913, and should not be directed to the Interstate Commerce Commission.

State Docket No. assigned C-6714, Case No. 19, filed March 21, 1966. Applicant: CENTRAL TRANSPORT, INC., 3399 East McNichols Road, Detroit, Mich., 48212. Applicant's representative: Snyder, Loomis & Ewert, 117 West Allegan Street, Lansing, Mich., 48933. Certificate of public convenience and necessity sought to operate a freight service as follows: *General commodities* (except those of unusual value, class A and B explosives, household goods as defined by the Commission, commodities requiring special equipment, and those injurious or contaminating to other lading), serving the plantsite of Brighton N. C. Machine Corp., located at 3400 Swarthout Road in Hamburg Township, Livingston County, Mich. (approximately 2 miles north of Michigan Highway 36), as an off-route point in connection with applicant's otherwise authorized service.

HEARING: May 12, 1966, at 9:30 a.m., at the Michigan Public Service Commission, Lewis Cass Building, South Walnut Street, Lansing, Mich. Requests for procedural information, including the time for filing protests, concerning this application, should be addressed to the Michigan Public Service Commission, Lewis Cass Building, Lansing, Mich., 48913, and should not be directed to the Interstate Commerce Commission.

State Docket No. assigned 15768, filed April 7, 1966. Applicant: HILLER TRUCK LINES, INC., Post Office Box 1012, Jasper, Ala., 35501. Applicant's representative: Maurice F. Bishop, 327 Frank Nelson Building, Birmingham, Ala., 35203. Certificate of public convenience and necessity sought to operate a freight service as follows: *General commodities* (except commodities in bulk, in tank vehicles), between Birmingham and Fayette, Ala., and points intermediate on U.S. Highway 78 and Alabama Highways 69 and 18, and U.S. Highway 43, on the one hand, and, on the other, Monroeville, Ala., with the right to tack on any point on the aforesaid route with applicant's existing authority in Alabama.

HEARING: No date and time and place of hearing given, but interested parties should contact the Secretary of the Alabama Public Service Commission for this information. Requests for procedural information, including the time for filing protests, concerning this application, should be addressed to the Alabama Public Service Commission, Post Office Box 991, Montgomery, Ala., 26102, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary*.

[Notice 167]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 15, 1966.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules in Ex Parte No. MC 67 (49 CFR Part 240) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protest must certify that such service has been made. The protest must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined, at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 58813 (Sub-No. 77 TA) (Correction), filed March 29, 1966, published FEDERAL REGISTER, issue of April 6, 1966, and republished as corrected this issue. Applicant: SELMAN'S EXPRESS, INC., 460 West 35th Street, New York, N.Y., 10001. Applicant's representative: Solomon Granett, 1740 Broadway, New York, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wearing apparel*, on hangers only, from Cedar Bluff, Ala., Cartersville, Piney Grove, and Broxton, Ga., and Athens, Tenn., to points in New York, N.Y., commercial zone, and *materials and supplies* used in the manufacture of wearing apparel, from points in the New York, N.Y., commercial zone, to Cedar Bluff, Cartersville, Piney Grove, and Broxton, Ga., and Athens, Tenn.; (2) *wearing apparel*, on hangers only, from Wilson and Goldsboro, N.C., to Jacksonville, Fla., for 150 days. Supporting shipper: Bartow Sportswear, Inc., Cartersville, Ga.; Cedar Bluff Sportswear, Cedar Bluff, Ala.; Odum Manufacturing Co., Inc., Piney Grove, Ga.; Little Lisa Sales Co., Inc., 130 West 34th Street, New York, N.Y.; Evelyn Pearson Inc., 87 35th Street, Brooklyn, N.Y.; Fun 'N' Fads Inc., 1370 Broadway, New York, N.Y. Send protests to: Paul W. Assenza, District Supervisor, Bureau of Operations and Compliance, Interstate Commerce Commission, 346 Broadway, New York, N.Y., 10013. NOTE: The purpose of this republication is to show that materials and supplies used in the manufacture of wearing apparel will move from New York to the southern points specified above, in lieu of in the reverse direction, as published in error.

No. MC 64446 (Sub-No. 3 TA), filed April 12, 1966. Applicant: W. H. FITZGERALD, Inc., 163 West Main Street, Youngsville, Pa., 16371. Applicant's representative: James Abdella, Bank of Jamestown Building, Jamestown, N.Y., 14701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are processed and manufactured by the concern mentioned below, from Titusville, Pa., to points in New York, New Jersey, Delaware, Virginia, Ohio, West Virginia, Alabama, and the District of Columbia; and *equipment, materials and supplies* used in the manufacture and processing of the commodities described above, from the above-specified destination points to Titusville, Pa., for 180 days. Restriction: The authority granted above is limited to service to be performed under special and individual contracts or agreements with Titusville Crankshaft & Machine Co., a subsidiary of National Forge Co., engaged in the manufacture of forgings, machinery, and ordnance, for the transportation of the commodities indicated and in the manner specified above. NOTE: The applicant is presently authorized in MC 64446 to serve the National Forge Co. at its Irvine, Pa., location in the same manner that temporary authority is sought in the instant application. The purpose of this temporary authority application (and the permanent authority application previously filed on Feb. 21, 1966) is to permit the applicant to serve the Titusville Crankshaft & Machine Co., a subsidiary of National Forge Co., located at Titusville, Pa., in a like manner. Supporting shipper: National Forge Co., Irvine, Pa. Send protests to: Frank L. Calvary, District Supervisor, Bureau of Operations and Compliance, Interstate Commerce Commission, 2109 Federal Building, Pittsburgh, Pa., 15222.

No. MC 66562 (Sub-No. 2161 TA), filed April 12, 1955. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York, N.Y., 10017. Applicant's representative: John H. Engel, 2413 Broadway, Kansas City, Mo., 64108. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities moving in express service*, (1) between Salina, Kans., and La Crosse, Kans., from Salina over U.S. Highway 81 to junction U.S. Highway 56, thence over U.S. Highway 56 to junction U.S. Highway 281, thence over U.S. Highway 281 to junction Kansas Highway 4, thence over Kansas Highway 4 to La Crosse, and return over the same route, serving the intermediate and/or off-route points of Lindsborg, McPherson, Lyons, Ellinwood, Great Bend, and Hoisington, Kans., (a) between Garden City, Kans., and Garden City Kans. (loop route), from Garden City over U.S. Highway 83 to junction Kansas Highway 96, thence over Kansas Highway 96 to junction Kansas Highway 27, thence over Kansas Highway 27 to junction U.S. Highway 50, thence over U.S. Highway 50 to Garden City, and return over the same route, serving the intermediate and/or off-route points of Scott City, Leoti, Tribune, Syracuse, and Lakin, Kans., for 150 days. Restrictions: The service to be performed shall be limited to that which is auxiliary to or supplemental of the express service of Railway Express Agency, Inc., and shipments to be transported shall be limited to those moving on through bills of lading or express receipts. Supporting shippers: The application is supported by statements from 29 shippers, which may be examined here at the Interstate Commerce Commission in Washington, D.C. Send protests to: Anthony Chiusano, District Supervisor, Bureau of Operations and Compliance, Interstate Commerce Commission, 346 Broadway, New York, N.Y., 10013.

No. MC 83539 (Sub-No. 178 TA), filed April 12, 1966. Applicant: C & H TRANSPORTATION CO., INC., 1935 West Commerce Street, Dallas, Tex., 75208. Post Office Box 5976, Dallas, Tex., 75222. Applicant's representative: J. P. Welsh (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron* and plastic pipe and *pipe fittings*, from Tyler, Tex., to points in Arkansas, Illinois, Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, and Wisconsin, for 180 days. Supporting shipper: Woodward Iron Co., Tyler, Tex. Send protests to: E. K. Willis, Jr., District Supervisor, Bureau of Operations and Compliance, Interstate Commerce Commission, 513 Thomas Building, 1314 Wood Street, Dallas, Tex., 75202.

By the Commission.

[SEAL] H. NEIL GARSON, *Secretary*.

[Notice 907]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

April 15, 1966.

The following publications are governed by the new Special Rule 1.247 of the Commission's rules of practice, published in the Federal Register, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

Applications Assigned for Oral Hearing

Motor Carriers of Property

No. MC 74718 (Sub-No. 13) (Republication), filed March 22, 1966, Federal Register April 7, 1966 and republished this issue. Applicant: ADKINS CARGO EXPRESS, INC., 2130 South Avenue, La Crosse, Wis. Applicant's representative: Drew L. Carraway, Suite 618 Perpetual Building, 1111 E Street NW., Washington, D.C., 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, used household goods and commodities in bulk), between Nashville, Tenn., and Atlanta, Ga.; (a) from Nashville over U.S. Highway 41 to Atlanta, and return over the same route, serving those intermediate and off-route points located in Davidson County, Tenn., and (b) from Nashville over Interstate Highway 24 to junction Interstate Highway 75, and thence over Interstate Highway 75 to Atlanta, and return over the same route, serving those intermediate and off-route points located in Davidson County, Tenn. Note: The purpose of this republication is to show hearing information.

HEARING: May 9, 1966, at the Dinkler-Andrew Jackson Hotel, Nashville, Tenn., before Joint Board No. 238.

No. MC 114273 (Sub-No. 18), filed April 13, 1966. Applicant: CEDAR RAPIDS STEEL TRANSPORTATION, INC., 3930 16th Avenue SW., Post Office Box 1904, Cedar Rapids, Iowa. Applicant's representative: William P. Sullivan, 1825 Jefferson Place NW., Washington, D.C., 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and plywood*, from points in California, Oregon, Washington, Idaho, and Montana, to points in Nebraska, Kansas, Missouri, Indiana, Illinois, Iowa, Minnesota, Wisconsin, and the Lower Peninsula of Michigan.

HEARING: May 4, 1966, in Room 401, Multnomah Building, 120 Southwest Fourth Street, Portland, Oreg., before Examiner Frank R. Saltzman.

No. MC 1872 (Sub-No. 60) (Republication), filed November 10, 1965, published Federal Register issue of November 25, 1965, and republished, this issue. Applicant: ASHWORTH TRANSFER, INC., 1526 South 600 West, Salt Lake City, Utah. Applicant's representative: Keith E. Taylor, Kearns Building, Salt Lake City, Utah, 84101. By application filed November 10, 1965, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, of *such commodities* as require special handling or special equipment by reason of weight or size, in truckloads, between points in Utah, Nevada, Idaho, Montana, Wyoming, Colorado, and Arizona. An Order of the Commission, Operating Rights Board No. 1, dated March 29, 1966, and served April 7, 1966, finds that the present and future public convenience and necessity require the elimination of restrictions including the limitation "to truckloads", on sheet 1 of applicant's certificate No. MC-1872, so as to read as follows: *"such commodities* as require special handling or special equipment because of weight or size, between points in Utah, Nevada, Idaho, Montana, Wyoming, Colorado, and Arizona," that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the Federal Register and issuance of an amended certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate protest or other pleading.

No. MC 103051 (Sub-No. 203) (Republication), filed October 22, 1965, published Federal Register issue of November 11, 1965, and republished, this issue. Applicant: FLEET TRANSPORT COMPANY, INC., 340 Armour Drive, Northeast, Atlanta, Ga., 30324. Applicant's representative: R. J. Reynolds, Jr., Suite 403, 411 Healey Building, Atlanta, Ga., 30303. By application filed October 22, 1965, as amended, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of phosphate rock and phosphate byproducts, including phosphoric acid and super phosphate, in bulk, in tank, hopper, or other special vehicles, from Occidental, Fla., and points within 15 miles thereof, to points in Georgia on and south of U.S. Highway 80. An order of the Commission, Operating Rights Board No. 1, dated March 31, 1966, and served April 8, 1966, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of *phosphate rock, diammonium phosphate, superphosphate, phosphoric acid,* and *superphosphoric acid,* from points in that portion of Columbia County, Fla., on and north of Interstate Highway 10, those in that portion of Suwannee County, Fla., on and north of U.S. Highway 90, and points in Hamilton County, Fla., to those points in Georgia on and south of U.S. Highway 80, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings herein, a notice of the authority actually granted will be published in the Federal Register and issuance of a certificate herein will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate protest or other pleading.

No. MC 117119 (Sub-No. 213) (Republication), filed June 7, 1965, published Federal Register issue of July 9, 1965, and republished, this issue. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., Elm Springs, Ark. Applicant's representative: John H. Joyce, 26 North College, Fayetteville, Ark. By application filed June 7, 1965, applicant seeks authority to operate as a common carrier by motor vehicle over irregular routes, transporting: (1) Bananas and (2) commodities, the transportation of which is partially exempt under the provisions of 203(b)(6) of the Interstate Commerce Act if transported in vehicles not used in carrying any other property, when moving in the same vehicle at the same time with bananas, from Los Angeles and San Francisco, Calif., to Boise, Nampa, and Lewiston, Idaho. The application was referred to Examiner Garland E. Taylor for hearing and the recommendation of an appropriate order thereon. Hearing was held on November 17, 1965, at Boise, Idaho. A report and order of the Commission, served March 10, 1966, which became effective April 11, 1966, finds that the present and future public convenience and necessity require operation by applicant as a common carrier by motor vehicle in interstate or foreign commerce, over irregular routes transporting: (1) *Bananas*, from Los Angeles and San Francisco, Calif., and (2) *commodities*, the transportation of which is partially exempt under the provisions of section 203(b)(6) of the Interstate Commerce Act if transported in vehicles not used in carrying any other property, when moving in the same vehicle at the same time with bananas, from points in Arizona and California to Boise, Nampa, and Lewiston, Idaho, and further finds that the applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The examiner further finds that the application for the above grant may have not been fully understood from the notice published in the FEDERAL REGISTER, that while the opposing carrier which was present at the hearing did not appear to be prejudiced by the application as published other members of the public who relied upon the notice as published might have an interest which has been prejudiced by lack of proper notice. Accordingly, the above grant will be published in the FEDERAL REGISTER and the issuance of a certificate withheld until the elapse of 30 days from the commencement date of publication, during which period any proper party in interest may file a protest and petition for further hearing.

No. MC 119778 (Sub-No. 95) (Republication), filed September 27, 1965, published FEDERAL REGISTER issue of October 14, 1965, and republished, this issue. Applicant: REDWING CARRIERS, INC., Post Office Box 34, Powderly Station, Birmingham, Ala. Applicant's representative: J. Douglas Harris, 410–411 Bell Building, Montgomery, Ala., 36104. By application filed September 27, 1965, applicant sought a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of dry fertilizer, in bulk, from points in Houston County, Ala., to points in Georgia. The application was referred to Joint Board No. 157 for hearing and the recommendation of an appropriate order thereon. Hearing was held on February 8, 1966, at Atlanta, Ga. At the hearing the application was amended so that shipments would originate in Midland City, Ala. A report and order of the Commission, served March 9, 1966, which became effective March 29, 1966, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *dry fertilizer*, in bulk from Midland City, Ala., to points in Georgia. The joint board further finds that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The grant of authority made herein will exceed in scope the application as originally published in the FEDERAL REGISTER. Therefore, the issuance of a certificate herein will be made subject to the prior publication in the FEDERAL REGISTER of a notice of the authority actually granted herein and the proceeding will be held open for a period of 30 days subsequent to such publication, during which time any properly interested party may file a protest or other appropriate pleading.

No. MC 124770 (Sub-No. 7) (Second Republication), filed August 16, 1965, published FEDERAL REGISTER issues of August 26, 1965, and March 30, 1966, respectively, and republished, this issue. Applicant: TELLERI TRUCKING CO., a corporation, 335 Allen Street, Elizabeth, N.J. Applicant's representative: Bert Collins, 140 Cedar Street, New York 6, N.Y. By application filed August 16, 1965, applicant seeks a permit authorizing operations, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of frozen meats and meat products, in vehicles equipped with mechanical refrigeration from points in Union County, N.J., to points in Fairfield County, Conn., and Westchester County, N.Y., and returned, rejected and damaged shipments in the reverse direction. An order of the Commission, Operating Rights Board No. 1, dated March 14, 1966, and served March 21, 1966, finds that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle over irregular routes, of *meat and meat products*, in vehicles equipped with mechanical refrigeration, from Linden, N.J., to points in Fairfield County, Conn., and Westchester County, N.Y., under a continuing contract with Allen Packing Co. of Linden, N.J., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate protest or other pleading.

No. MC 125694 (Sub-No. 5) (Republication), filed November 26, 1965, published FEDERAL REGISTER issue of December 23, 1965, and republished, this issue. Applicant: OTTO FELDT, INC., Route 22, Brewster, N.Y. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J., 07306. By application filed November 26, 1965, applicant seeks a permit authorizing operations, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes of machinery, in dump vehicles, between Darby and Ansonia, Conn., Brooklyn, N.Y., and South Plainfield, N.J. An order of the Commission, Operating Rights Board No. 1, dated March 31, 1966, and served April 8, 1966, finds that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of *machinery*, (1) between Darby, Conn., Brooklyn, N.Y., and South Plainfield, N.J., and (2) between Ansonia, Conn., Brooklyn, N.Y., and South Plainfield, N.J., under a continuing contract with Kentile Floors, Inc., of Brooklyn, N.Y., will be consistent with the public interest and the national transportation policy, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings herein, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate herein will be withheld for a period of 30 days from the date of such republication, during which period any proper party in interest may file an appropriate protest or other pleading.

No. MC 126885 (Sub-No. 1) (Republication), filed November 4, 1965, published FEDERAL REGISTER issue of November 25, 1965, and republished, this issue. Applicant: VETERI TRUCKING CO., INC., 48 Harding Avenue, Totowa Borough, N.J. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J., 07306. By application filed November 4, 1965, as amended, applicant seeks a permit authorizing operations, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of the commodities from Thurmont, Md., to the points indicated in the findings below. An order of the Commission, Operating Rights Board No. 1, dated March 29, 1966, and served April 6, 1966, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, of *brick* (other than firebrick) and *calcium carbonate*, from Rocky Ridge, Md., to points in New Jersey, New York, Pennsylvania, and Connecticut, under a continuing contract with Tomkins Bros. Co., Inc., of Newark, N.J., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate protest or other pleading.

No. MC 127735 (Sub-No. 2) (Republication), filed November 29, 1965, published FEDERAL REGISTER issue of December 23, 1965, and republished, this issue. Applicant: ROY E. BARKER, doing business as ROY E. BARKER PRODUCE, 121 Magnolia Street, North Little Rock, Ark. Applicant's representative: Louis Tarlowski, Pyramid Life Building, Little Rock, Ark. By application filed November 29, 1965, applicant seeks a permit authorizing operations, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of wooden wirebound boxes, knocked down, in bundles, between the points indicated below, and exempt agricultural commodities and damaged and rejected shipments on return. An order of the Commission, Operating Rights Board No. 1, dated March 29, 1966, and served April 6, 1966, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, of *wooden boxes*, from the plantsite of Arkansas Wirebound Box Co., Inc., Atkins, Ark., to points in Florida, Colorado, and Hidalgo, Cameron, Dimmit, Zavala, Maverick, Webb, Willacy, Starr, and Bexar Counties, Tex., under a continuing contract with Arkansas Wirebound Box Co., Inc., of Atkins, Ark., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings herein, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate herein will be withheld for a period of 30 days from the date of such republication, during which period any proper party in interest may file an appropriate protest or other pleading.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC-F-9354 (VALLEY MOTOR LINES, INC.—CONTROL AND MERGER—PORTLAND-SEATTLE FREIGHT LINES, INC.), published in the March 9, 1966, issue of the FEDERAL REGISTER on page 4182. Supplemental application filed April 12, 1966, to show joinder of CONSOLIDATED COPPERSTATE LINES, 1200 West Washington Boulevard, Montebello, Calif., 90641, and SERVICE TANK LINES, 117 West Ninth Street, Suite 611, Los Angeles 15, Calif., as parties in control of VALLEY MOTOR LINES, INC.

No. MC-F-9398. Authority sought for control by SCHWERMAN TRUCKING CO., 611 South 28th Street, Milwaukee, Wis., 53246, of PETROLEUM CARRIER CORPORATION, 369 Margaret Street, Jacksonville, Fla., 32203, and for acquisition by FRED J. SCHWERMAN, CARL L. SCHWERMAN, ESTATE OF FRED SCHWERMAN (FRED J. SCHWERMAN, RICHARD D. SCHWERMAN, AND CARL L. SCHWERMAN, EXECUTORS), and GRANDCHILDREN AND SPECIAL TRUSTS (FRED J. SCHWERMAN, CARL L. SCHWERMAN, AND GEORGE J. LAIKIN, TRUSTEES), all also of Milwaukee, Wis., of control of PETROLEUM CARRIER CORPORATION, through the acquisition by SCHWERMAN TRUCKING CO. Applicants' attorneys: Clyde Herring, Shoreham Building, Washington, D.C., James Ziperski, 611 South 28th Street, Milwaukee, Wis., Martin Sack, 710 Atlantic Bank Building, Jacksonville, Fla., 32202, and Irving J. Raley, 1411 K Street NW., Washington, D.C. Operating rights sought to be controlled: *Petroleum products* (in bulk, in tank trucks; in containers; in bulk, in tank vehicles) and numerous other specified commodities (in tank; hopper-type; or dump-type vehicles; bulk; bags) as a *common carrier*, over irregular routes, from, to, and between specified points in the States of Georgia, Florida, South Carolina, Alabama, Tennessee, Maryland, Massachusetts, Indiana, Wisconsin, New Jersey, Pennsylvania, North Carolina, Louisiana, Arkansas, Oklahoma, Mississippi, Texas, Delaware, New York, West Virginia, Connecticut, and Virginia, with certain restrictions, as more specifically described in Docket No. MC-103378 and subnumbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety, thereof. SCHWERMAN TRUCKING CO. is authorized to operate as a *common carrier* in Kentucky, Tennessee, Iowa, Illinois, Wisconsin, Minnesota, Missouri, Indiana, Georgia, Alabama, South Carolina, Florida, North Carolina, Mississippi, Kansas, West Virginia, Nebraska, North Dakota, Oklahoma, Texas, Ohio, Michigan, South Dakota, Louisiana, Pennsylvania, Maryland, Virginia, Colorado, Montana, New Mexico, and Wyoming. Application has not been filed for temporary authority under section 210a(b). NOTE: Finance Docket No. 24096 is concurrently filed.

No. MC-F-9399. Authority sought for control and merger by WM. B. DUFFY CARTING CO., INC., 62 Scio Street, Rochester, N.Y., 14604, of the operating rights and property of BRONSON AVENUE CARTING & STORAGE CO., INC., 90 Bronson Avenue, Rochester, N.Y., 14608. Applicants' representative: Charles S. Wilcox, 5 South Fitzhugh Street, Rochester, N.Y., 14614. Operating rights sought to be controlled and merged: *Such commodities* which because of weight or size require the use of special equipment, as a *common carrier*, over irregular routes, between Rochester, N.Y., on the one hand, and, on the other, points in Ohio, Pennsylvania, New Jersey, Connecticut, and Massachusetts; *tanks, bins, conveyors, chutes, dryers, elevator buckets, elevator casings, fire escapes, flumes, guards, hoppers, ornamental iron, smoke breechings, spouts, stocks, stairways, tar kettles* and *troughs*, from Batavia, N.Y., to points in Connecticut, Massachusetts, New Jersey, Ohio, and Pennsylvania; and *commodities used in the manufacture of the immediately above-specified articles*, from points in Massachusetts, Ohio, and Pennsylvania, to Batavia, N.Y. WM. D. DUFFY CARTING CO., INC., is authorized to operate as a *common carrier* in New York, Vermont, New Hampshire, Pennsylvania, Michigan, Massachusetts, Rhode Island, Ohio, New Jersey, Maine, Connecticut, Maryland, Illinois, Indiana, Wisconsin, Virginia, West Virginia, Kentucky, North Carolina, Tennessee, South Carolina, Florida, Georgia, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC-F-9400. Authority sought for purchase by OVERLAND EXPRESS, INC., 498 First Street NW., New Brighton, Minn., of the operating rights of R. A. BROWN, C. F. ILES, AND H. E. McKINNEY, doing business as MEADOWS TRANSFER COMPANY, Post Office Box S, Bettendorf, Iowa, and for acquisition by ROBERT J. DOLLE, SR., also of New Brighton, Minn., of control of such rights through the purchase, or in the alternative, to assign all interest in and to the said operating authority to D. & T. TRUCKING COMPANY, INC., Box 2667, New Brighton, Minn. Applicants' attorney: Alan Foss, 502 First National Bank Building, Fargo, N. Dak. Operating rights sought to be transferred: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, as a *contract carrier*, over irregular routes, between certain specified points in Illinois; *bakery products* and *bakery supplies*, from Decatur, Ill., to certain specified points in Illinois. Restriction: The operations authorized above are limited to a transportation service to be performed, under a continuing contract, or contracts, with the Great Atlantic & Pacific Tea Co.; *such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, between certain specified points in Illinois, Indiana, Michigan, and Wisconsin, between certain specified points in Iowa, Nebraska, South Dakota, North Dakota, Minnesota, and Illinois, between points in the immediately above territory on the one hand, and, on the other, Kansas City and St. Louis, Mo., and Chicago, Ill.

Restriction: The operations above are limited to a transportation service to be performed under special and individual contracts or agreements with persons (as defined in section 203(a) of the Interstate Commerce Act) who operate retail stores, the business of which is the sale of food, for the transportation of the commodities indicated and in the manner specified; *such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, between Davenport and Bettendorf, Iowa, and certain specified points in Illinois, on the one hand, and, on the other, points in that part of Illinois on and north of U.S. Highway 24, except

Chicago. Restriction: The operations immediately above are limited to a transportation service to be performed under special and individual contracts or agreements with persons (as defined in section 203(a) of the Interstate Commerce Act) who operate chain retail stores, the business of which is the sale of food, for the transportation of the commodities indicated and in the manner specified. Restriction: The authority granted herein shall be subject to the right of the Commission, which is hereby expressly reserved, to impose such terms, conditions or limitations in the future as it may find necessary in order to insure that carrier's operations shall conform to the provisions of section 210 of the Act. OVERLAND EXPRESS, INC., holds no authority with this Commission. However, its controlling stockholder, also controls D. & T. TRUCKING CO., INC., which is authorized to operate as a *contract carrier* in West Virginia, Iowa, Minnesota, North Dakota, Wisconsin, Illinois, Michigan, and South Dakota. Application has not been filed for temporary authority under section 210a(b).

MOTOR CARRIER OF PASSENGERS

No. MC-F-9401. Authority sought for purchase by THE SHORT LINE, INC., 404 Fountain Street, Providence 1, R.I., of a portion of the operating rights of NEW HAVEN & SHORE LINE RAILWAY COMPANY, INC., 24 Hamilton Street, New London, Conn., and for acquisition by GEORGE M. SAGE, also of Providence, R.I., of control of such rights through the purchase. Applicants' attorney: S. Harrison Kahn, 733 Investment Building, Washington, D.C., 20005. Operating rights sought to be transferred: Passengers and their baggage, and express, in the same vehicle with passengers, as a *common carrier*, over regular routes, between Mystic, Conn., and Old Mystic, Conn., between New London, Conn., and Westerly, R.I., serving all intermediate points; and passengers and their baggage, and express and newspapers, in the same vehicle with passengers, between New Haven, Conn., and New London, Conn., serving all intermediate points. Vendee is authorized to operate as a *common carrier* in Rhode Island, Massachusetts, Connecticut, Vermont, Maine, New Hampshire, New York, Virginia, North Carolina, Tennessee, New Jersey, Pennsylvania, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] H. NEIL GARSON,
Secretary.

[Notice 1330]

MOTOR CARRIER TRANSFER PROCEEDINGS

APRIL 15, 1966.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-68513. By order of April 11, 1966, the Transfer Board approved the transfer to Wilson's Truck Lines, Ltd., Toronto, Ontario, Canada, of permit in No. MC-125607, issued January 17, 1966, to Wilson's Transport, Ltd., Toronto, Ontario, Canada; authorizing the transportation of: Paper and paper products, between Parchment and Kalamazoo, Mich., on the one hand, and, on the other, ports of entry on the United States-Canada boundary line at Detroit, Port Huron, and Sault Sainte Marie, Mich. Clarence D. Todd, 1825 Jefferson Place NW., Washington, D.C., 20036, attorney for applicants.

No. MC-FC-68584. By order of April 13, 1966, the Transfer Board approved the transfer to Transport Van Lines, Inc., Papillion, Nebr., of the operating rights in certificate No. MC-72439, issued July 10, 1942, to Ralph M. Aiken, doing business as Aiken Transfer, Nelson, Nebr., authorizing the transportation of: Petroleum products, in containers, from Eldorado, Kans., and St. Joseph, Mo., to Nelson, Nebr. Feed, from Kansas City and St. Joseph, Mo., to Nelson, Nebr. Salt, from Kanopolis, Kans., to points and places in Nebraska. Livestock, household goods, and agricultural products, between Nelson, Nebr., and points and places in Nebraska, within 15 miles of Nelson, on the one hand, and, on the other, those in Kansas and Colorado. Robert D. Zimmerman, 404 Lincoln Building, Lincoln, Nebr., 68508, attorney for applicants.

No. MC-FC-68614. By order of April 13, 1966, the Transfer Board approved the transfer to M. I. Loker and Pauline Loker, doing business as Seaway Coach Lines, Erie, Pa., of the operating rights in certificates Nos. MC-119233, MC-119233 (Sub-No. 1) and MC-119233 (Sub-No. 2), issued August 31, 1960, October 4, 1961, and September 25, 1964, respectively, to Lake Lines, Inc., Erie, Pa., authorizing the transportation of: Passengers and their baggage, in charter operations, beginning and ending at points in Erie County, Pa., and extending to specified counties in Ohio, and New York, and the District of Columbia, and specified regular route transportation of passengers and their baggage, and express and newspapers, between points in Pennsylvania. S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C., 20005, attorney for applicants.

No. MC-FC-68704. By order of April 13, 1966, the Transfer Board approved the transfer to Southern Maryland Transportation Co., Inc., 107 South Ellamont Street, Baltimore, Md., 21229, of certificate in No. MC-96818 (Sub-No. 1), issued May 26, 1960, to The Eastern Transportation Corp., doing business as Bailey's Express, 107 South Ellamont Street, Baltimore, Md., 21229; authorizing the transportation of: General commodities, except those of unusual value, household goods, commodities in bulk, and those requiring special equipment, between Baltimore, Md., and Point Lookout, Md., between Baltimore, Md., and Rock Point, Md., and between Baltimore, Md., and Solomons, Md., serving certain intermediate and off-route points on each of the above routes.

[SEAL] H. NEIL GARSON,
Secretary.
