Public Papers of the Presidents
of the United States

HARRY S. TRUMAN, 1951

This is the 19th volume in the "Public Papers" series to be released. It contains public messages and statements, news conferences, and other selected papers that were released by the White House during the year 1951.

Among the 307 items in the book are: the President's annual message to Congress on the State of the Union; special message to the Congress recommending a "pay as we go" tax program; radio and television reports to the American people on Korea and U.S. policy in the Far East and on the need for extending inflation controls; the address and remarks in San Francisco at the opening of the Conference on the Japanese Peace Treaty; and the proclamation terminating the state of war with Germany.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Valencia Orange Reg. 180]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.480 Valencia Orange Regulation 180.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information

concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 22, 1966.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., September 25, 1966, and ending at 12:01 a.m., P.s.t., October 2, 1966, are hereby fixed as follows:

- (i) District 1: Unlimited movement;
- (ii) District 2: 500,000 cartons;
- (iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

Dated: September 22, 1966.

[Lemon Reg. 233]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.533 Lemon Regulation 233.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such lemons as will provide, in the interest of producers and consumers, an orderly

flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held, the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 20, 1966.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., September 25, 1966, and ending at 12:01 a.m., P.s.t., October 2, 1966, are hereby fixed as follows:

- (i) District 1: Unlimited movement;
- (ii) District 2: 186,000 cartons;
- (iii) District 3: 24,333 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

Chapter X—Consumer and Marketing Service (Marketing Agreements and Orders; Milk) Department of Agri- culture

[Milk Order 68]

PART 1068—MILK IN MINNEAPOLIS- ST. PAUL, MINN., MARKETING AREA

Order Amending Order

§ 1068.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Minneapolis-St. Paul, Minn., marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act; and

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than the date of publication in the FEDERAL REGISTER. Any delay beyond that date would tend to disrupt orderly marketing of milk in the marketing area.

(1) The provisions of the said order are known to handlers. The recommended decision of the Deputy Administrator, Regulatory Programs, was issued August 18, 1966, and the decision of the Assistant Secretary containing all amendment provisions of this order was issued September 15, 1966. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective upon publication in the FEDERAL REGISTER and that it would be contrary to the public interest to delay the effective date of this order for 30 days after its publication in the FEDERAL REGISTER. (Sec. 4(c), Administrative Procedure Act, 5 U.S.C. 1001-1011.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in § 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as herein amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Minneapolis-St. Paul, Minn., marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby amended, as follows:

1. In § 1068.9 paragraph (b) is revised to read as follows:

§ 1068.9 Pool plant.

(b) Any plant from which during any month 40 percent or more of such plant's total receipts for such month from farms of skim milk or butterfat eligible for sale in fluid form as Grade A milk within the marketing area is delivered to (1) a plant(s) which has qualified pursuant to paragraph (a) of this section, (2) any other plant(s) located within the marketing area from which Class I milk is disposed of within the marketing area on a route(s), or (3) a governmentally

owned and operated institution which disposes of Class I milk solely for use on its own premises or to its own facilities: *Provided*, That if during each of the months of August, September, and October 40 percent or more of such plant's receipts of skim milk or butterfat for such month as described above is delivered as provided in this paragraph, it shall be a pool plant through the following July: *And provided further*, That if not less than 30 percent of the total member producer milk of a cooperative association is delivered during each of the months of August, September, and October as direct-shipped milk to a plant(s) described in paragraph (a) of this section located within the city limits of either Minneapolis or St. Paul, then any deliveries of milk by such cooperative association directly to such plant(s) may be considered, for the purposes of this paragraph, as having been received first at a plant of such cooperative association.

2. In §§ 1068.55 and 1068.82(a) the tables are revised to read as follows:

Location of plant (miles)	Amount of deduction (cents)
Less than 15.....	0
15 but less than 20.....	8.0
20 but less than 30.....	9.5
30 but less than 40.....	11.0
40 but less than 50.....	12.5
Each additional 10 miles or fraction thereof in excess of 50 miles an additional.....	1.0

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on September 20, 1966.

GEORGE L. MEHREN,
Assistant Secretary.

Title 12—BANKS AND BANKING

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

[20, 192, as amended September 22, 1966]

PART 526—LIMITATIONS ON RATE OF RETURN

SEPTEMBER 21, 1966.

Resolved that the Federal Home Loan Bank Board, upon the basis of consideration by it of the advisability of amending the regulations for the Federal Home Loan Bank System to implement the authority to limit the rates of interest or dividends on withdrawable accounts paid by member institutions conveyed to it by Public Law 89-597, 89th Congress, 2d session, and for the purpose of effecting such amendment, hereby amends the Regulations for the Federal Home Loan Bank System (12 CFR Ch. V) by adding

to said Subchapter B a new part, Part 526, to read as follows, effective September 26, 1966:

- Sec. 526.1 Definitions.
- 526.2 Maximum rate of return.
- 526.3 Maximum rate of return payable on regular accounts.
- 526.4 Maximum rate of return payable on certificate accounts.

AUTHORITY: The provisions of this Part 526 issued under sec. 4, P.L. 89-597; 12 U.S.C. 1425b.

§ 526.1 Definitions.

(a) *Certificate account.* The term "certificate account" means any form of withdrawable account evidenced by a separate certificate which must be maintained for a period of at least 6 months if it is to receive a rate of return greater than that paid on regular accounts.

(b) *Regular account.* The term "regular account" means any form of withdrawable account that is not a certificate account.

(c) *Member institution.* The term "member institution" means any institution, other than a savings bank the deposits of which are insured by the Federal Deposit Insurance Corporation, which is a member of a Federal Home Loan Bank.

(d) *Return.* The term "return" means any dividend, interest or other similar distribution on a withdrawable account.

(e) *Distribution period.* The term "distribution period" means the period of time used by a member institution as a basis for distributing a return.

(f) *Announced rate.* The term "announced rate" means the rate of return which an institution has declared, announced or advertised that it will pay or anticipates paying for a distribution period or, if none, the rate of return paid for the immediately preceding distribution period.

§ 526.2 Maximum rate of return.

(a) *Prohibition on payment in excess of maximum prescribed rate.* Except in accordance with the provisions of this part, no member institution shall pay a return on any withdrawable account in any manner, directly or indirectly, or by any method, practice, or device whatsoever. No member institution shall pay a return on any withdrawable account at a rate in excess of such applicable maximum rate as the Board shall prescribe from time to time.

(b) *Exceptions.* (1) No such prescribed maximum rate shall apply to the payment of a return at not in excess of the announced rate on regular accounts with respect to that portion of a distribution period which has occurred prior to October 1, 1966, or the date upon which such prescribed maximum rate became effective.

(2) No such prescribed maximum rate shall apply to accounts which may receive an additional return after a prescribed period, outstanding prior to the date upon which such rate became effective, but shall apply to such accounts upon completion of the minimum term or

qualifying period prescribed with respect to such accounts.

(c) *Grace periods in computing return on accounts.* The maximum rate specified in this part may be increased to such effective rate as results from the treatment of funds received not later than the 10th day of the month as if received on the first of the month and the treatment of funds withdrawn during the last 3 business days of any calendar month ending a distribution period as if withdrawn at the end of such calendar month.

(d) *Compounding.* In calculating the rate of return paid, the effect of compounding may be disregarded.

(e) *Loans upon the security of accounts.* No loan may be made by a member institution upon the security of a certificate or regular account at a rate of interest on such loan that is less than 1 percent per annum in excess of the rate of return on any such account.

§ 526.3 Maximum rate of return payable on regular accounts.

(a) *Maximum rate of 4.75 percent.* No member institution shall pay a return on regular accounts at a rate in excess of 4.75 percent per annum, except as otherwise herein provided.

(b) *Institutions at higher rates.* A member institution whose announced rate of return on regular accounts on September 21, 1966, for the distribution period including September 21, 1966, was in excess of 4.75 percent per annum may pay a return on regular accounts at a rate not in excess of 5 percent per annum.

(c) *Geographic exception.* A member institution whose home office is located in California, Nevada, or Alaska may pay a return on regular accounts at a rate not in excess of 5.25 percent per annum.

§ 526.4 Maximum rate of return payable on certificate accounts.

(a) *Institutions paying 4.75 percent or less on regular accounts.* During a distribution period with respect to which a member institution has an announced rate of return not in excess of 4.75 percent per annum on regular accounts, it may not pay a rate of return on certificate accounts in excess of 5.25 percent per annum, except as otherwise herein provided.

(b) *Institutions paying more than 4.75 percent on regular accounts.* During a distribution period with respect to which an insured institution has an announced rate of return in excess of 4.75 percent per annum on regular accounts, it may not pay a rate of return on certificate accounts in excess of 5 percent, except as otherwise herein provided.

(c) *Geographic exception.* A member institution whose home office is located in California, Nevada, or Alaska may pay a return on certificate accounts at a rate not in excess of 5.75 percent per annum if the funds constituting the account were initially received by the institution as a certificate account prior to September 22, 1966, and at a rate not in excess of 5.25 percent per annum if the funds are received by the institution as a certificate account on or after September 26, 1966.

Resolved further that, since affording notice and public procedure on the above amendments might result in substantial withdrawals of funds from insured institutions, the Board hereby finds that notice and public procedure on said amendments are contrary to the public interest under the provisions of § 508.12 of the general regulations of the Federal Home Loan Bank Board or section 4(a) of the Administrative Procedure Act, and publication of said amendments for the period specified in section 4(c) of said Act prior to the effective date of said amendments would in the opinion of the Board likewise be contrary to the public interest for the same reason and the Board hereby so finds, and the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

By the Federal Home Loan Bank Board.

[SEAL] HARRY W. CAULSEN,
Secretary.

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

[FSLIC-2,734, as amended September 22, 1966]

PART 569—LIMITATIONS ON RATE OF RETURN

SEPTEMBER 21, 1966.

Resolved that the Federal Home Loan Bank Board, upon the basis of consideration by it of the advisability of amending the rules and regulations for Insurance of Accounts to implement the authority to limit the rates of interest or dividends on withdrawable accounts paid by insured institutions conveyed to it by Public Law 89-597, 89th Congress, 2d session, and for the purpose of effecting such amendment, hereby amends the rules and regulations for Insurance of Accounts (12 CFR Ch. V) by adding to said Subchapter D a new part, Part 569, to read as follows, effective September 26, 1966:

- Sec. 569.1 Definitions.
- 569.2 Maximum rate of return.
- 569.3 Maximum rate of return payable on regular accounts.
- 569.4 Maximum rate of return payable on certificate accounts.

AUTHORITY: The provisions of this Part 569 issued under sec. 4, P.L. 89-597; 12 U.S.C. 1425b.

§ 569.1 Definitions.

(a) *Certificate account.* The term "certificate account" means any form of withdrawable account evidenced by a separate certificate, which must be maintained for a period of at least 6 months if it is to receive a rate of return greater than that paid on regular accounts.

(b) *Regular account.* The term "regular account" means any form of withdrawable account that is not a certificate account.

(c) *Return.* The term "return" means any dividends, interest or other similar distribution on a withdrawable account.

(d) *Distribution period.* The term "distribution period" means the period

of time used by an insured institution as a basis for distributing a return.

(e) *Announced rate.* The term "announced rate" means the rate of return which an institution has declared, announced or advertised that it will pay or anticipates paying for a distribution period or, if none, the rate of return paid for the immediately preceding distribution period.

§ 569.2 Maximum rate of return.

(a) *Prohibition on payment in excess of maximum prescribed rate.* Except in accordance with the provisions of this part, no insured institution shall pay a return on any withdrawable account in any manner, directly or indirectly, or by any method, practice, or device whatsoever. No insured institution shall pay a return on any withdrawable account at a rate in excess of such applicable maximum rate as the Board shall prescribe from time to time.

(b) *Exceptions.* (1) No such prescribed maximum rate shall apply to the payment of a return at not in excess of the announced rate on regular accounts with respect to that portion of a distribution period which has occurred prior to October 1, 1966, or the date upon which such prescribed maximum rate became effective.

(2) No such prescribed maximum rate shall apply to accounts which may receive an additional return after a prescribed period, outstanding prior to the date upon which such rate became effective, but shall apply to such accounts upon completion of the minimum term or qualifying period prescribed with respect to such accounts.

(c) *Grace periods in computing return on accounts.* The maximum rate specified in this part may be increased to such effective rate as results from the treatment of funds received not later than the 10th day of the month as if received on the first of the month and the treatment of funds withdrawn during the last 3 business days of any calendar month ending a distribution period as if withdrawn at the end of such calendar month.

(d) *Compounding.* In calculating the rate of return paid, the effects of compounding may be disregarded.

(e) *Loans upon the security of accounts.* No loan may be made by an insured institution upon the security of a certificate or regular account at a rate of interest on such loan that is less than 1 percent per annum in excess of the rate of return on such account.

§ 569.3 Maximum rate of return payable on regular accounts.

(a) *Maximum rate of 4.75 percent.* No insured institution shall pay a return on regular accounts at a rate in excess of 4.75 percent per annum, except as otherwise herein provided.

(b) *Institutions at higher rates.* An insured institution whose announced rate of return on regular accounts on Sep-

tember 21, 1966, for the distribution period including September 21, 1966, was in excess of 4.75 percent per annum may pay a return on regular accounts at a rate not in excess of 5 percent per annum.

(c) *Geographic exception.* An insured institution whose home office is located in California, Nevada, or Alaska may pay a return on regular accounts at a rate not in excess of 5.25 percent per annum.

§ 569.4 Maximum rate of return payable on certificate accounts.

(a) *Institutions paying 4.75 percent or less on regular accounts.* During a distribution period with respect to which an insured institution has an announced rate of return not in excess of 4.75 percent per annum on regular accounts, it may not pay a rate of return on certificate accounts in excess of 5.25 percent per annum, except as otherwise herein provided.

(b) *Institutions paying more than 4.75 percent on regular accounts.* During a distribution period with respect to which an insured institution has an announced rate of return in excess of 4.75 percent per annum on regular accounts, it may not pay a rate of return on certificate accounts in excess of 5 percent, except as otherwise herein provided.

(c) *Geographic exception.* An insured institution whose home office is located in California, Nevada, or Alaska may pay a return on certificate accounts at a rate not in excess of 5.75 percent per annum if the funds constituting the account were initially received by the institution as a certificate account prior to September 22, 1966, and at a rate not in excess of 5.25 percent per annum if the funds are received by the institution as a certificate account on or after September 26, 1966.

Resolved further that, since affording notice and public procedure on the above amendments might result in substantial withdrawals of funds from insured institutions, the Board hereby finds that notice and public procedure on said amendments are contrary to the public interest under the provisions of § 508.12 of the general regulations of the Federal Home Loan Bank Board or section 4(a) of the Administrative Procedure Act, and publication of said amendments for the period specified in section 4(c) of said Act prior to the effective date of said amendments would in the opinion of the Board likewise be contrary to the public interest for the same reason and the Board hereby so finds, and the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

By the Federal Home Loan Bank Board.

[SEAL] HARRY W. CAULSEN,
Secretary.

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Amdt. 2; Rev. 1]

PART 105—STANDARDS OF CONDUCT

Disaster Loan Exceptions to Conflict of Interest Analysis Prior to Granting Assistance

Paragraph (a) of § 105.735-4-3 of Part 105 of Chapter I of Title 13 of the Code of Federal Regulations is hereby amended by adding the words "under subparagraphs (1) and (2) of paragraph (b) of section 7 of the Small Business Act, as amended," after the words "disaster loans" in the first sentence thereof. As amended, paragraph (a) of § 105.735-4-3 reads as follows:

§ 105.735-4-3 Assistance by the Administration to businesses owned or managed by officers, employees, or special employees of the Government or members of Small Business Advisory Councils.

(a) No assistance, other than disaster loans under subparagraphs (1) and (2) of paragraph (b) of section 7 of the Small Business Act, as amended, shall be furnished to a business enterprise when the sole proprietor, a partner, an officer or director thereof, or a stockholder with a 10 or more percent interest therein:

(1) Is (i) an employee of the Administration or an employee in Grade GS-13 or its equivalent, or higher, of any other department in the executive branch, or (ii) an officer of the rank of major or lieutenant commander or its equivalent, or higher, in the Armed Services of the United States, or (iii) an appointed consultant or special Government employee of the Administration, or a member of a Small Business Advisory Council, or (iv) a spouse of any of the above, without the prior approval of the Ad Hoc Committee (established by § 105.735-10).

(2) Is (i) an employee in Grade GS-12 or its equivalent or lower, of any other department in the executive branch, or (ii) a member of the Armed Services of the United States of the rank of captain or lieutenant senior grade, or its equivalent, or lower, or (iii) a spouse of any of the above, without prior written statement of no objection by the pertinent department or Armed Service of the United States.

This amendment was approved by the Civil Service Commission on September 1, 1966, and is effective upon publication in the FEDERAL REGISTER.

Dated: September 19, 1966.

BERNARD L. BOUTIN,
Administrator.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Docket No. 7191; Amdt. 39-291]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed Model 188A and 188C Series Airplanes

Amendment 39-213 (31 F.R. 4493), AD 66-11-2, as amended by Amendment 39-223 (31 F.R. 5823), requires repetitive inspection of the lower wing plank splices and wing lower surface planks on certain Lockheed Model 188A and 188C Series airplanes. Subsequent to the issuance of Amendment 39-223, the Agency has determined that one of the inspection areas on some of these airplanes contains two or three screw or rivet holes rather than just one as stated in the AD. The manufacturer has accordingly provided supplementary instructions to carriers confronted with this problem. However, because this area described by the AD differs from that existing on some airplanes, and because the supplementary instructions are not included in the AD, these carriers cannot comply with the AD. The AD is therefore being further amended to include a reference to design configurations and instructions not included in the original AD.

Since this amendment provides a clarification only, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-213 (31 F.R. 4493), AD 66-11-2, as amended by Amendment 39-223 (31 F.R. 5823), is further amended as follows:

1. By amending the applicability statement to read:

Applies to Model 188A and 188C Series Airplanes except those modified in accordance with Lockheed Drawing 841318A (including Notes 10 and 11), Lockheed Drawing 841318B (including Notes 11, 13, and 19), or an equivalent approved by the Chief, Aircraft Engineering Division, FAA Western Region.

2. By amending subparagraph (a) (2) to read:

Inspect for cracks the internal plank area surrounding the bulkhead angle (P/N 810970) at the Wing Station 211 attachment hole or holes, as applicable, located between the lower number 6 plank risers 37 and 38, by dye penetrant method, in accordance with Lockheed Service Bulletin 88/SB-625C, section 2.G, or later FAA-approved revision.

3. By amending paragraph (b) to read:

Repair cracks found during the inspections required by this AD before further flight in

accordance with Lockheed Drawing 841318A (including Notes 10 and 11) or Lockheed Drawing 841318B (including Notes 11, 13, and 19), as applicable, and the accomplishment instructions of Lockheed Service Bulletin 88/SB-625C or later FAA-approved revision, or an equivalent approved by the Chief, Aircraft Engineering Division, FAA Western Region. The airplane may be flown in accordance with FAR 21.197 to a base where the repair is to be performed. Seal all splice areas to be covered with repairs in accordance with Lockheed Service Bulletin 88/SB-620D or later FAA-approved revision.

4. By amending paragraph (c) to read:

The repetitive inspections required by subparagraph (a) (2) may be discontinued if, during the inspections required by paragraph (a), no cracks are found, and before further flight the airplane is modified in accordance with Note 10 of Lockheed Drawing No. 841318A or Notes 13 and 19 of Lockheed Drawing No. 841318B, as applicable.

This amendment becomes effective September 23, 1966.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Control Zone and Alteration of Transition Area

On July 23, 1966, a notice of proposed rule making was published in the FEDERAL REGISTER (31 F.R. 10040) stating that the Federal Aviation Agency proposed to alter controlled airspace in the Vandalla, Ill., terminal area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. The one comment received was favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., December 8, 1966, as hereinafter set forth.

(1) In § 71.171 (31 F.R. 2065) the following control zone is added:

VANDALLA, ILL.

Within a 5-mile radius of the Vandalla Municipal Airport (latitude 38°59'26" N., longitude 89°09'55" W.) and within 2 miles each side of the Vandalla VOR 183° radial extending from the 5-mile radius area to the VOR.

(2) In § 71.181 (31 F.R. 2149) the Vandalla, Ill., transition area is amended to read:

VANDALLA, ILL.

That airspace extending upward from 1,200 feet above the surface within a 10-mile radius of the Vandalla Municipal Airport

(latitude 38°59'26" N., longitude 89°09'55" W.); within 5 miles E and 8 miles W of the Vandalla 003° and 183° radials extending from the 10-mile radius area to 12 miles N of the VOR; within an area bounded on the S by V-14N, on the NW by V-191, on the E by a line 8 miles W of and parallel to the 003° radial; and within an area bounded on the N by V-14 and V-210, on the E by the arc of a 10-mile radius circle centered on the Vandalla Municipal Airport, on the SW by the arc of a 40-mile radius circle centered on the Scott AFB, Belleville, Ill. (latitude 38°32'30" N., longitude 89°51'05" W.); and that airspace extending upward from 3,000 feet MSL within an area bounded on the W by V-191, on the E by V-313, and on the S by a line 12 miles N of the Vandalla VOR.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Redesignation of Control Zone

On August 10, 1966, a notice of proposed rule making was published in the FEDERAL REGISTER (31 F.R. 10643) stating that the Federal Aviation Agency was proposing an amendment to Part 71 of the Federal Aviation Regulations that would alter the controlled airspace in the Klamath Falls, Oreg., terminal area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0001 e.s.t., December 8, 1966, as hereinafter set forth:

In § 71.171 (31 F.R. 2104) the Klamath Falls, Oreg., control zone is amended to read:

KLAMATH FALLS, OREG.

Within a 5-mile radius of Kingsley Field (latitude 42°09'29" N., longitude 121°43'57" W.), within 3 miles east and 2 miles west of the Klamath Falls VORTAC 170° radial, extending from the 5-mile radius zone to 8 miles south of the VORTAC, and within 2 miles each side of the Klamath Falls VORTAC 332° radial, extending from the 5-mile radius zone to 11 miles northwest of the VORTAC.

WASHINGTON

Partial Revocation of Public Land Order 1249

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Public Land Order No. 1249 of November 7, 1955, withdrawing lands for the Lenore Game Range is hereby revoked so far as it affects the following described land:

WILLAMETTE MERIDIAN

T. 24 N., R. 27 E.,
Sec. 15, SE $\frac{1}{4}$ SW $\frac{1}{4}$.

The area described contains 40 acres. The land is located southwest of Coulee City, Grant County, and is smoothly rolling with rocky shallow soil. Vegetation consists of cheat grass, low sagebrush, and scattered annual weeds.

2. Until 10 a.m. on March 21, 1967, the State of Washington shall have a preferred right of application to select the lands as provided by R.S. 2276, as amended (43 U.S.C. 852). After that time the lands shall be open to operation of the public land laws generally, subject

to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on March 21, 1967, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. The lands will be open to location under the U.S. mining laws at 10 a.m. on March 21, 1967. They have been open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Portland, Oreg.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

MISSISSIPPI

NOXUBEE NATIONAL WILDLIFE REFUGE

Public hunting of squirrels and rabbits on the Noxubee National Wildlife Refuge, Miss., is permitted only on the area designated by signs as open to hunting. This open area, comprising 42,590 acres, is delineated on a map available at the refuge headquarters, Route 1, Brooksville, Miss., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 809 Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations covering the hunting of squirrels and rabbits subject to the following conditions:

(1) The open season extends from October 8 through October 22, 1966, excluding Sundays.

(2) The use of dogs is not permitted. The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 22, 1966.

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

PART 155—UNIFORM SYSTEM OF RECORDS AND REPORTS OF PROPERTY CHANGES; COMMON CARRIERS

Recording and Reporting; Correction

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 5th day of August 1966.

Having under consideration the regulations for the recording and reporting

of property changes by railroads for valuation purposes pursuant to the provisions of section 19a of the Interstate Commerce Act, as amended; and

It appearing, the changes herein consisting of technical amendments to relieve the regulations of obsolete reporting requirements so that public rule making procedures pursuant to section 4 of the Administrative Procedure Act are deemed unnecessary,

It further appearing, that the original order published in 31 F.R. 11181, on August 24, 1966, omitted revocation of paragraphs (f) through (m), inclusive, of § 155.0; and for good cause shown:

It is ordered, That Part 155 of Chapter I of Title 49 of the Code of Federal Regulations be amended by revoking §§ 155.0 (f) through (m) both inclusive, 155.19, 155.20 and 155.22,

It is further ordered, That this order shall become effective 30 days after its publication in the FEDERAL REGISTER,

And it is further ordered, That service be made on all carriers by railroad which are affected hereby and that notice of this order shall be given to the general public by depositing a copy hereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

Proposed Rule Making

FEDERAL AVIATION AGENCY

[14 CFR Part 71]

[Airspace Docket No. 66-WE-39]

FEDERAL AIRWAYS

Proposed Alteration

The Federal Aviation Agency is considering amendments to Part 71 of the Federal Aviation Regulations that would raise the floors of segments of Federal airways in the Los Angeles, Calif., and a portion of the Albuquerque, N. Mex., ARTC Center areas.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, Post Office Box 90007, Los Angeles, Calif. 90009. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Agency, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20553. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

On those segments for which a 1,200 feet AGL floor is proposed, the floor is required for climb from the surface to minimum en route altitude, for aeronautical chart legibility or for compatibility with existing airspace for which a 1,200 feet AGL floor has been assigned. 1,200 feet AGL floors have previously been assigned for V-186, V-326, and V-518 in the vicinity of Van Nuys, Calif., and for the segment of V-66 from Tucson, Ariz., to Douglas, Ariz. It has been determined that the control area between V-21 and V-21 east alternate from Mormon Mesa, Nev., to Milford, Utah, is no longer required for air traffic control. Accordingly, it is proposed to revoke this control area. The alignments of V-105, V-291, and V-372 conform to those proposed in Airspace Docket No. 66-WE-37. The alignments of V-210, and V-257 conform to those proposed in Airspace Docket No. 66-WE-38.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

CONTROL ZONE AND TRANSITION AREA

Proposed Designation Withdrawal

On September 2, 1966, a notice of proposed rule making was published in the FEDERAL REGISTER (F.R. Doc. 66-9560, 31 F.R. 11615) stating that the Federal Aviation Agency proposed to designate a control zone and transition area in the Palm Springs, Calif., terminal area.

Subsequent to the issuance of the notice, it was determined that additional review of the airspace requirements for Palm Springs Municipal Airport would be necessary.

In consideration of the foregoing, notice is hereby given that the proposal contained in F.R. Doc. 66-9560 (31 F.R. 11615) is withdrawn.

This notice of withdrawal is made under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Los Angeles, Calif., on September 16, 1966.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release No. 34-7954]

QUALIFIED NONMEMBER MARKET-MAKERS

Proposed Requirements

The Securities and Exchange Commission announced that it has under consideration a proposal to adopt Rule 19b-1 (17 CFR 240.19b-1) under the Securities Exchange Act of 1934 (Exchange Act), which is related to a proposal for the amendment of the New York Stock Exchange Rule 394. The new paragraph (b) to Rule 394 would permit members of the New York Stock Exchange to solicit qualified nonmember market-makers to participate in the execution of orders for listed securities off-the-floor of the Exchange under designated conditions. New York Stock Exchange Rule 394(b) will become effective by formal action of its Board of Governors at the request of the Commission pursuant to section 19(b) of the Securities Exchange Act and upon adoption by the Commission of rules fixing minimum capital requirements for such nonmember market-makers and providing for identification of such firms and the securities in which they make markets.

A. Background. Chapter VIII of the Report of the Special Study of Securities Markets examined the interrelationships among the primary markets and regional exchange markets and the over-the-counter market in listed securities. That chapter focused on the competitive elements among the various securities markets, the necessity to balance the desirability of competition against unnecessary or undesirable fragmentation of markets, the need and desirability of access by professionals and the public to the various securities markets, the restrictions placed on the right of members of various securities exchanges to deal in other markets, and similar matters. The Study recognized that the problems were complex, and on the particular issue here involved recommended further study:

Among the subjects that appear to need further and continuing attention * * * are (a) types and forms of competition and of

limitations on competition actually or potentially existing within and among markets, and their impact on the free, fair, and orderly functioning of the various markets; and (b) factors contributing to or detracting from the public's ready access to all markets and its assurance of obtaining the best execution of any particular transaction.

Among the subjects covered by this recommendation was the applicability of Rule 394 of the New York Stock Exchange which, as administered, required, with certain exceptions, that all member firms execute orders as agent or principal on the Exchange; thus, the rule, in effect, limited the right of member firms to solicit nonmember market-makers off-floor to facilitate execution of their customers' orders. In this connection the Study noted:

* * * Presumably there are situations, for example, where a better execution might result if all or part of a transaction in an NYSE-listed security were handled over-the-counter, but where an exchange member firm would be precluded from handling the transaction away from the exchange. Footnotes omitted.

In partial fulfillment of the Special Study recommendation, the Commission directed its staff to investigate the:

[F]acts, conditions, and practices concerning the rules and procedures of national securities exchanges relating to limitations on the ability of member firms of such exchanges to act as principal or agent in the execution of transactions, otherwise than on the floor of such exchanges * * *

While the inquiry focused primarily on Rule 394 of the New York Stock Exchange, the rules and practices of all major national securities exchanges were reviewed. Extensive testimony was taken of New York Stock Exchange staff and members, including floor governors and floor officials, specialists and representatives of member firms doing public commission business, principals of the "third market" firms, representatives of regional exchanges, and others who were intimately familiar with the rule. Extensive documentary material was obtained from the New York Stock Exchange and other exchanges.

In connection with the listing on the New York Stock Exchange of the common stock of Chase Manhattan Bank, a nonmember dealer which had maintained a market in Chase common stock objected that the application of Rule 394 would prohibit members from continuing their customary dealings, both for their own account and for the account of their customers with his firm. Subsequently, the dealer made a request that the Commission, pursuant to the authority granted it under section 19(b) of the Securities Exchange Act of 1934, order the New York Stock Exchange to rescind or modify Rule 394 for the protection of investors or to insure fair dealing in securities trade in upon such Exchange or to insure fair administration of such Exchange.

Following the completion of our inquiry, discussions were conducted with the New York Stock Exchange and other interested parties concerning appropriate

modifications to Rule 394 which would serve the public interest.

The New York Stock Exchange reviewed the matter and approved, in principle, amendment of its rules as set forth below, subject to the Commission's requesting adoption thereof. The Commission has reviewed Exchange proposed Rule 394(b) and finds it to be necessary and in the public interest. It provides as follows:

Rule 394(b). Solicitation of Nonmember Market-Makers to Participate in Transactions Off-the-Floor of the Exchange. (1) A member or member organization holding a customer's round-lot order for the purchase or sale of stock may, if he so desires, solicit a qualified nonmember market-maker to participate in the execution of the order for the nonmember's own account, off-the-floor of the Exchange, provided he has reported to a floor governor, other than the specialist in the stock, that all of the following conditions have been met:

(A) A diligent effort to explore the feasibility of obtaining a satisfactory execution of the order on the floor has been made during that market session.

(B) The member or member organization has provided the floor governor with the following information:

(i) The name of the stock and size of the order;

(ii) Details of the effort made to explore the feasibility of obtaining a satisfactory execution of the order on the floor;

(iii) The number of shares, if any, he is taking or supplying for his own account, and

(iv) The extent, if any, of the interest the specialists has indicated in participating at an indicated price or prices.

(2) A qualified nonmember market-maker in a stock is a broker-dealer registered with the Securities and Exchange Commission as a broker-dealer, who meets the capital and other applicable requirements and who has notified the Exchange that he is available to be solicited for his own account by members and member organizations pursuant to this rule for bids and offers in that stock.

(3) The member or member organization must file a report promptly after the completion of a transaction made pursuant to this rule listing all parties to the transaction; the amount of participation of each; the price; the time of receipt of the order; the time of the off-floor execution and the name of the governor to whom he reported.

(4) Notwithstanding the provisions of Rule 104, the specialist may buy on a plus or zero plus tick or sell on a minus or zero minus tick, any or all of the stock with respect to which a third market-maker is to be asked to participate.

(5) Under the provision of this rule, a member must ask other members in the crowd immediately prior to the off-floor trade if they have orders to execute at the same price and on the same side of the market. If such be the case, the nonmember market-maker's bid or offer may be displaced in whole or in part by:

(i) Any or all bids or offers at that price on the specialist's book and any or all bids or offers made by other brokers acting as agents for other than registered traders, registered odd-lot dealers or members or member organizations known by the broker to be acting for their own account; or

(ii) The specialist in the stock, acting as a dealer, if the specialist before the third market-maker was solicited, advised the member or member organization of the extent of his interest at an indicated price or prices at which the transaction is to be made.

Supplementary Material:

10 Listed below are examples of situations that would not comply with Rule 394(b). The rule is intended only to apply to situations where member firms have solicited the participation of a qualified nonmember market-maker. If, in the course of such a solicitation, the nonmember market-maker asks to participate in the purchase or sale of any other security or of the same security in a different transaction, the transaction does not qualify under Rule 394(b).

(1) A member firm solicits a qualified nonmember market-maker to participate in the purchase or sale of stock X. The market-maker is not interested in stock X but tells the member firm to solicit him in some other listed stock in which he does have an interest. A subsequent transaction in that other stock would not qualify under Rule 394(b). It must take place on board with a full commission, charged to the nonmember market-maker.

(2) A qualified nonmember market-maker advises, other than by the ordinary written advertisements, notification, or publication, a particular member firm during the day that he wishes to be solicited in a given stock or stocks. The subsequent solicitation by the member firm, in response to the third market-maker's request, will disqualify the resulting transaction from qualifying under Rule 394(b).

(3) A member firm has an understanding with a qualified nonmember market-maker to solicit him under Rule 394(b) whenever he has customers' orders in these stocks in which the third market-maker is qualified. Such an understanding will disqualify any transaction made pursuant to the understanding from Rule 394(b).

Any effort to accomplish indirectly that which is not directly permitted by the rule, or the intent of the rule as indicated in the rule itself, and the supplementary material, will result in the transaction not qualifying under the rule.

B. Minimum Capital Requirements. The proposed New York Stock Exchange Rule 394(b) contemplates that, while market-makers may advertise or publish their markets publicly or to the financial community, they would deal with members, under proposed paragraph (b) of

the (aforesaid) rule, only when solicited by such members. The purpose of Commission Rule 19b-1 (17 CFR 240.19b-1) is to establish minimum capital requirements for nonmember market-makers who may be solicited to do business under the proposed New York Stock Exchange Rule 394(b) and to identify such firms. It is further proposed that Rule 19b-1 (17 CFR 240.19b-1) and the proposed Exchange Rule 394(b) become effective simultaneously.

The financial requirements of Rule 19b-1 (17 CFR 240.19b-1) are designed to assure that off-board trading is extended only to those nonmember market-makers who can reasonably be expected to add substantially to the depth and liquidity of the Exchange market. The Exchange has expressed the view that the capital requirements will tend to assure that market-makers will be able to perform the functions contemplated by the rule.

Rule 19b-1 (17 CFR 240.19b-1) is promulgated pursuant to the Securities Exchange Act of 1934, and particularly sections 17(a), 19(b), and 23(a). An appropriate reporting form will be prescribed when the rule is adopted. The Commission is also engaged in developing a program for administration of the rule and procedures for surveillance and reporting.

The text of the proposed section would be substantially as follows:

§ 240.19b-1 Requirements for qualified nonmember market-makers.

(a) For the purposes of any rule of a national securities exchange which the Commission shall have requested an exchange to adopt pursuant to the provisions of section 19(b) of the Act and which rule prescribes the conditions under which exchange members may deal with a "qualified nonmember market-maker," any broker-dealer may become and remain qualified as to one or more specified securities registered for trading on a national securities exchange by:

(1) Maintaining (i) a net worth of not less than \$1,500,000; or (ii) a minimum net capital of \$250,000 (computed as provided in § 240.15c3-1 of this chapter) for each security as to which it is so qualified; and

(2) Making a market in each such security including regularly making bona fide bids and offers for such securities for its own account; and

(3) Filing with the Commission and the Exchange an "Initial Statement under Rule 19b-1 (§ 240.19b-1)" showing net worth or net capital required to qualify and the name of each security as to which it is qualified; and

(4) Promptly notifying the Commission and the Exchange whenever a change occurs in net worth or net capital which would make him ineligible as a qualified nonmember market-maker under subparagraph (1) of this paragraph; and

(5) Filing a report with the Commission and the Exchange whenever he thereafter commences or ceases making a market for purposes of this section in any security registered for trading on a national securities exchange, containing the dates of such commencement or cessation forthwith after such action takes place. (For purposes of this subparagraph (5), a nonmember market-maker may report on Form X-17A-9(1) (§ 249.917(1) of this chapter) and such report will be deemed to also be a filing in compliance with Rule 17a-9(b) (§ 240.17a-9 of this chapter) unless the broker-dealer specifies that such commencement or cessation is for purposes of this § 240.19b-1 only.)

(Sec. 17(a) 48 Stat. 897, as amended, sec. 203 (a), 49 Stat. 704, sec. 5, 52 Stat. 1076, 15 U.S.C. 78q(a); sec. 19(b), 48 Stat. 898, 15 U.S.C. 78s (b); sec. 23(a), 48 Stat. 901, as amended, sec. 8, 49 Stat. 1379, 15 U.S.C. 78w(a))

All interested persons are invited to submit their views and comments on the proposed rule in writing to the Secretary, Securities and Exchange Commission, at its principal office, 500 North Capitol Street, Washington, D.C. 20549, on or before October 17, 1966. Material submitted will be made available for public inspection unless a request for confidentiality is made.

TETRAMETHYLTHIURAM DISULFIDE AND ZINC DIETHYLDITHIOCAR- BAMATE FROM THE NETHERLANDS

Antidumping Proceeding Notice

SEPTEMBER 20, 1966.

On June 20, 1966, information was received in proper form pursuant to the provisions of § 14.6(b) of the Customs regulations indicating a possibility that Tetramethylthiuram Disulfide (TMTD) and Zinc Diethyldithiocarbamate (ZDC) imported from the Netherlands are being, or likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

TMTD is used as an ultra-accelerator for curing rubber manufactured goods. ZDC is used as an ultra-accelerator for curing rubber and latex manufactured goods.

The information was submitted by Vanderbilt Export Corp., New York, N.Y.

Ordinarily, merchandise is considered to be sold at less than fair value when the net, f.o.b. factory price for exportation to the United States is less than the net, f.o.b. factory price to purchasers in the home market, or, where appropriate, to purchasers in other countries, after due allowance is made for differences in quantity and circumstances of sale.

Having conducted a summary investigation pursuant to § 14.6(d) (1) (i) of the Customs regulations and having determined on this basis that there are grounds for so doing, the Bureau of Customs is instituting an inquiry pursuant to the provisions of § 14.6(d) (1) (ii), (2), and (3) of the Customs regulations to determine the validity of the information.

A summary of information received from all sources is as follows: Evidence submitted to the Bureau tends to indicate that the sales price of the subject merchandise to U.S. firms when netted

back to the factory is lower than the price for the same products (identically same chemical composition) to domestic users for home consumption.

This notice is published pursuant to § 14.6(d) (1) (i) of the Customs regulations (19 CFR 14.6(d) (1) (i)).

Commissioner of Customs.

**FEDERAL PERCENTAGE, FEDERAL
MEDICAL PERCENTAGE, AND FED-
ERAL MEDICAL ASSISTANCE PER-
CENTAGE**

Promulgation

Promulgation of (1) Federal percentage for purposes of State assistance expenditures under Title I, IV, X, XIV, or XVI of the Social Security Act; (2) Federal medical percentage for purposes of State medical expenditures on behalf of recipients of aid or assistance under Title I or XVI of said Act; and (3) Federal medical assistance percentage for purposes of State expenditures for medical assistance under Title XIX of said Act.

Pursuant to section 1101(a) (8) (B) of the Social Security Act, as amended (42 U.S.C. 1301(a) (8) (B)), which provides for the determination and promulgation of the Federal percentage, and sections 6(c) and 1905(b) of said Act (42 U.S.C. 306(c) and 1396d(b)), which provide, respectively, that the Federal medical percentage and the Federal medical assistance percentage shall be determined and promulgated in accordance with said section 1101(a) (8) (B).

And it having been found that the three most recent calendar years for which satisfactory data are available from the Department of Commerce as to the per capita income of each State and of the United States are the years 1963, 1964, and 1965.

The Federal percentage, the Federal medical percentage, and the Federal medical assistance percentage, as indicated below, to be used in determining Federal financial participation in State expenditures for the purposes specified herein, for each of the 50 States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands, as specified in said Act, or as determined pursuant thereto, and on the basis of said income data, are hereby promulgated for each of the eight quarters in the period beginning July 1, 1967, and ending with the close of June 30, 1969:

ATOMIC ENERGY COMMISSION

[Docket No. 50-2]

UNIVERSITY OF MICHIGAN

Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued, effective as of the date of issuance, Amendment No. 15, set forth below, to Facility License No. R-28. The license as previously issued authorizes the Regents of the University of Michigan (the licensee) to operate the Ford Nuclear Reactor located on the University's campus in Ann Arbor, Mich. The license amendment, as requested in the application dated July 27, 1966, increases from 11.5 kilograms to 15.0 kilograms the total quantity of uranium 235 which the licensee may receive, possess, and use as reactor fuel under the license.

Within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice, 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) the application for license amendment, and (2) a related safety evaluation prepared by the Research and Power Reactor Safety Branch of the Division of Reactor Licensing, both of which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (2) above may be obtained at the Commission's Public Document Room, or upon request addressed to the Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 17th day of September 1966.

For the Atomic Energy Commission.

PETER A. MORRIS,
Director,

Division of Reactor Licensing.

FACILITY LICENSE AMENDMENT

[License No. R-28; Amdt. 15]

The Atomic Energy Commission having found that:

a. The application for license amendment dated July 27, 1966, complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in Title 10, Chapter I, CFR;

b. The issuance of this license amendment will not be inimical to the common defense and security or to the health and safety of the public; and

c. Prior public notice of proposed issuance of this amendment is not required since the amendment does not involve significant hazards considerations different from those previously evaluated;

Facility License No. R-28, as amended, which authorizes the Regents of the University of Michigan to operate the Ford Nuclear Reactor on the University's campus at Ann Arbor, Mich., is hereby further amended in accordance with the application for license amendment dated July 27, 1966.

Subparagraph 2.b.(1) of License No. R-28 is amended to read as follows:

"2.b.(1) 15.0 kilograms of contained uranium 235 in fuel element assemblies as fuel for operation of the facility."

This amendment is effective as of the date of issuance.

Date of issuance: September 17, 1966.

For the Atomic Energy Commission.

CIVIL AERONAUTICS BOARD

[Docket Nos. 15419, 17594]

FLYING TIGER LINE, INC.

Blocked-Space Air Freight Tariffs; Notice of Postponement of Prehearing Conference

By motion filed September 19, 1966, The Flying Tiger Line, Inc. asks indefinite postponement of the prehearing conference in docket 17594, set for September 27, 1966, and indefinite postponement of further procedural steps. The motion assumes grant of Bureau counsel's motion to consolidate the above two dockets. Flying Tiger has agreed to postpone indefinitely the effective date of the suspended tariff revision and to give 270 days' notice before permitting it to become effective. No objection to postponement has been indicated.

Accordingly, the prehearing conference set for September 27, 1966, is hereby postponed until further notice. In the event the Board grants the motion to consolidate the two proceedings, it is planned to defer further procedural steps until decision by the Supreme Court in the current litigation before it with respect to blocked-space air freight.

Dated at Washington, D.C., September 20, 1966.

GULF STATES-MIDWEST POINTS**Order Instituting Service Investigation**

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of September 1966.

For the reasons discussed below we are instituting this investigation to determine whether a need exists for new and improved certificate authority between points in the Gulf States area and the major transportation hubs and trade centers of Chicago, Detroit, St. Louis, and Kansas City. (See map, App. A^{1a}.)

In several formal proceedings since 1956, the Board reviewed the Gulf States area's long-haul service needs to the northeast, west, southeast and is currently investigating such needs to the Pacific northwest.^{1b} However, the area's service requirements to the midwest trade centers Chicago, Detroit, St. Louis, and Kansas City have not been similarly analyzed.

The Gulf States area represents one of the fastest growing sections of the country. For example, between 1950 and 1960, population of eight metropolitan centers in the area² increased by 35.4 percent, while the national average was 26.5 percent.³ An examination of air traffic between Gulf States points and the four midwest hubs reveals that there are a number of monopoly nonstop markets which generate sufficient air traffic to warrant our considering whether competitive service should be authorized.⁴ In addition there is one substantial market (Detroit-Dallas) in which no carrier has nonstop authority.⁵ From time to time the Board has received complaints by the communities with respect to the quality and quantity of air service in these markets. Despite the present pattern of service, these markets have grown at a more rapid rate than the national average. A comparison of year ended June 30, 1965, O&D traffic with that for 1959 shows an increase of 82 percent,

^{1a} Appendices A, B, and C filed as part of original document.

^{1b} Southwest-Northeast Service Case, 23 CAB 42 (1956); Southern Transcontinental Service Case, 33 CAB 701 (1961); and the Pacific Northwest-Southwest Service Investigation, Docket 15459.

² Dallas, Houston, Little Rock, Louisville, Memphis, Nashville, New Orleans, and San Antonio.

³ Statistical Abstract of the United States, 1965.

⁴ These markets are: Dallas-Kansas City, Dallas-St. Louis, Houston-St. Louis, San Antonio-Chicago, Memphis-Chicago, New Orleans-Chicago, Nashville-Chicago.

⁵ In the interest of limiting the scope of this proceeding so that it can proceed expeditiously, we considered including first competitive nonstop service issues only with respect to those markets which have generated at least 100 O&D and connecting passengers per day and first nonstop service only with respect to those markets which have generated in excess of 50 passengers per day. (See App. C^{1a}.) Additional nonstop authority in the St. Louis-Memphis market will not be heard in this case since it is already in issue in the Central Airlines Route 81 Investigation, Docket 16196.

while the total domestic traffic grew only 55 percent.⁶ All of these factors justify setting down a proceeding to hear the need for improved service in these markets.

To keep the investigation within manageable proportions and to focus attention upon those markets where first nonstop and competitive nonstop authorizations may be needed, we shall require that all flights operated pursuant to any awards granted herein must serve both terminals of one of the eight markets discussed above. However, intermediate points within the geographical scope of the proceeding⁷ may be included as a part of an application requesting certification in the eight markets, but no more than two intermediate points may be served between the two terminal points.

The scope of the proceeding as defined herein should accomplish our objective of limiting the proceeding to what appears to be the more significant long-haul point-to-point service issues. However, any party is free to advance during the proceeding appropriate evidence and argument in support of a need for more stringent restrictions.

There are presently on file applications from carriers and civic parties in part requesting authority which would be at issue in the investigation as hereinabove described. Rather than sever out and consolidate herein, sua sponte, those portions of these applications which are within the purview of this proceeding, we shall favorably act upon duly filed motions seeking consolidation of applications or parts thereof which are within the scope of the investigation.

Interested applicants, of course, may file amended or additional applications consistent with the scope of the investigation within the time for filing as hereinafter established. However, in the event new or amended applications for new or additional routes consistent with the scope of this case are filed, each applicant should file one new composite application covering clearly and specifically all of the relief sought in this proceeding. This procedure will obviate the confusion resulting from the consolidation of several separately filed applications or portions thereof and will assist the parties, the Examiner, and the Board in analyzing and considering the precise proposals of each applicant.

Accordingly, it is ordered:

1. That an investigation designated the Gulf States-Midwest Points Service Investigation, be and it hereby is instituted in Docket 17726 pursuant to sections 204(a) and 401(g) of the Federal Aviation Act of 1958, as amended, to determine whether the public convenience and necessity require the addition, alteration, amendment, or modification of carrier authorizations so as to authorize service in the following markets: Dallas-Detroit; Dallas-Kansas City; Dallas-St. Louis; Chicago-San Antonio;

⁶ See Appendix B.^{1a}

⁷ The geographical scope of this proceeding is indicated by the shaded areas of the map in App. A.^{1a}

Chicago-Nashville; Chicago-New Orleans; Chicago-Memphis; and St. Louis-Houston;

2. That all flights operated pursuant to any awards made as a result of this proceeding shall serve both terminals of any one of the eight markets designated in ordering paragraph 1, but no more than two intermediate points may be served between the terminal points;

3. That proposals to serve intermediate points which are not within the geographical scope of this proceeding as set forth in Appendix A to this order will not be considered.

4. That the restrictions provided in ordering paragraphs 2 and 3 above are stated without prejudice to any party to advance during the course of the proceeding appropriate evidence or argument bearing on the need for more stringent restrictions or limitations;

5. That motions to consolidate applications, motions or petitions seeking modification or reconsideration of this order, and petitions for leave to intervene be filed no later than 20 days from service date of this order, and that answers to such pleadings be filed no later than 10 days thereafter;

6. That this proceeding shall be set down for hearing before an Examiner of the Board at a time and place hereafter designated; and

7. That a copy of this order be served upon American Airlines, Inc., Braniff Airways, Inc., Delta Air Lines, Inc., and Eastern Air Lines, Inc. and the cities of Dallas, Fort Worth, Detroit, Chicago, San Antonio, Nashville, St. Louis, Memphis, Kansas City, New Orleans, and Houston.

This order will be published in the FEDERAL REGISTER.

INTERNATIONAL AIR TRANSPORT ASSOCIATION**Order Regarding Specific Commodity Rates**

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 15th day of September 1966.

1. Agreement adopted by Joint Conferences 1-2, 3-1, and 1-2-3 of the International Air Transport Association relating to specific commodity rates; Docket 16236, Agreement CAB 18934, R-24 through R-30.

1. An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Joint Conferences 1-2, 3-1, and 1-2-3 of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement, adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated August 29, 1966,¹ as set forth in the attachment hereto,² names rates under existing commodity descriptions. The new rates reflect reductions ranging from 8.5 to 75.2 percent and are consistent with the present level of specific commodity rates within the applicable areas.

Additionally, the agreement (1) cancels the present 75 cent per kilogram rate (minimum weight 160 kilograms) under commodity Item 0525—Ice Cream Cones, between Auckland and Honolulu and establishes a 59 cent rate with a minimum weight requirement of 400 kilograms, (2) cancels the present expiry date of November 30, 1966, from all rates listed under commodity Item 1477—Tropical Plants—Excluding Cut Flowers, (3) establishes eastbound rates at the same level as the present westbound rates for points listed under commodity Item 1563—Cigarettes, Cigars, and Tobacco, and (4) amends the description for commodity Item 7103 by the inclusion of promotional coupons.

The Board, acting pursuant to sections 102, 204(a) and 412 of the Act does not find the subject agreement to be adverse to the public interest or in violation of the Act, provided that approval thereof is conditioned as hereinafter ordered.

Accordingly, it is ordered:

That Agreement CAB 18934, R-24 through R-30, be approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication.

Any air carrier party to the agreement, or any interested person, may, within 15 days from the date of service of this order, submit statements in writing containing reasons deemed appropriate, together with supporting data, in support of or in opposition to the Board's action herein. An original and nineteen copies of the statements should be filed with the Board's docket section. The Board may, upon consideration of any such statements filed, modify or rescind its action herein by subsequent order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

FEDERAL COMMUNICATIONS COMMISSION

STANDARD BROADCAST APPLI- CATIONS READY AND AVAILABLE FOR PROCESSING

SEPTEMBER 21, 1966.

Notice is hereby given, pursuant to § 1.571(c) of the Commission's rules, that on October 28, 1966, the standard broadcast applications listed below will be considered as ready and available for processing. Pursuant to §§ 1.227(b)(1) and 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on October 27, 1966, which involves a conflict necessitating a hearing with an application on this list, must be substan-

tially complete and tendered for filing at the offices of the Commission in Washington, D.C., by whichever date is earlier: (a) The close of business on October 27, 1966, or (b) the earlier effective cutoff date which a listed application or by any other conflicting application may have by virtue of conflicts necessitating a hearing with applications appearing on previous lists.

The attention of any party in interest desiring to file pleadings concerning any pending standard broadcast application pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time of filing and other requirements relating to such pleadings.

Adopted: September 20, 1966.

[Docket Nos. 16700, 16701; FCC 66R-362]

KENTUCKY CENTRAL TELEVISION, INC., AND WBLG-TV, INC.

Memorandum Opinion and Order Enlarging Issues

In re applications of Kentucky Central Television, Inc., Lexington, Ky., Docket No. 16700, File No. BPCT-3569; WBLG-TV, Inc., Lexington, Ky., Docket No. 16701, File No. BPCT-3642; for construction permit for new television broadcast station.

1. Kentucky Central Television, Inc., which is competing with WBLG-TV for a television authorization in Lexington, Ky., petitions¹ for enlargement of the hearing issues: To determine whether a grant of the application of WBLG-TV, Inc., would be consistent with the provisions of section 310(a)(5) of the Communications Act of 1934, as amended.

¹ The pleadings before the Board are the Motion to Enlarge Issues filed by Kentucky Central on July 7, 1966; WBLG-TV's Opposition, filed on Aug. 15, 1966; Broadcast Bureau's Comment, filed on Aug. 15, 1966; Kentucky Central's Reply, filed on Aug. 25, 1966; and WBLG-TV's Erratum, filed on Aug. 30, 1966.

2. WBLG-TV is owned equally by Roy B. White, Jr., its president, and Reeves Broadcasting Corp. The questions about alien ownership or control pertain to Reeves Broadcasting, it being Kentucky Central's contention that only 45 percent of Reeves' stock is accounted for through the ownership by U.S. citizens who are officers and/or directors of Reeves. As to the remaining stock, says petitioner, "[n]o showing has been made of any effort to obtain any direct, first-hand information regarding the citizenship of any of the some 1,400 stockholders owning approximately 55 percent of the Reeves stock. Moreover, ownership reports on file with the Commission show that there are a number of brokerage firms holding 1 percent or more of said stock in street names for an unidentified number of other stockholders." Kentucky Central cites the Board's opinion in TVUE Associates, Inc., 2 RR 2d 1 (1964) as authority for its position. The Broadcast Bureau joins in the request for enlargement.²

3. WBLG, in its opposition, asserts that 1,622,256 shares of stock are issued and outstanding; 877,041 shares (54.063 percent) are owned by U.S. citizens who are officers or directors or who have more than a 1 percent stock interest; 200,000 shares (10.9754 percent) are set aside for employee stock options; and 207,767 shares (12.767 percent) are held in "street names". It is also averred that of the 1,621,347 shares voted at the annual meeting, 1,126,019 (69.45 percent) were voted by management proxy representatives, all of whom are U.S. citizens. According to latest information, says WBLG, 86,700 shares (5.35 percent) are held by aliens.

4. Further in opposition, it is shown that the stock certificates of Reeves contain a notice which says that the stock is "subject to restrictions as to ownership and voting by or for the account of aliens or their representatives" etc., and refers to section 7 of the corporate bylaws. Section 7, which was made a part of the bylaws in 1960, limits alien ownership or voting of Reeves' stock to one-fifth of the capital stock, requires consent of the corporation to transfer of stock to an alien, permits the corporation to refuse consent if the transfer would violate the one-fifth alien ownership limitation, and makes a purported transfer in violation of the restriction invalid or ineffective to vest any interest in the purported transferee. WBLG believes these steps to assure compliance with section 310 of the Act, which are alleged to have been fully disclosed to the Commission, have been considered in earlier filings by Reeves "and have not been found wanting". Citation is made to numerous Commission actions concerning Reeves since adoption of the restriction, and it is concluded that "[p]resumably, all matters involving legal qualifications have been thoroughly reviewed by the Commission staff, including the review made by the staff

² The Bureau also urges that the Board add on its own motion a § 73.636 issue against Kentucky Central.

prior to hearing designation. No useful purpose would be served by adding issues against WBLG-TV, Inc., at this time; manifestly, the Commission does not establish different standards for applications in hearing status than for the applications not designated for hearing."

5. The showing made here is weaker than that which the Commission found insufficient in Integrated Communications System, Inc., of Massachusetts, FCC 64-96; for there, a sample had been taken, but none has been here.³ The facts relied on by WBLG do not establish that one-fourth or less of Reeves' stock is owned or controlled by aliens. The shares set aside for stock options to employees cannot be counted, for they are not owned or voted. There is no basis for drawing any conclusions about the ownership of the stock held in "street names". WBLG's declarations about foreign holdings of Reeves' stock are vague as to date and do not claim to be complete and comprehensive. Similarly, these data do not establish that no more than one-fourth of Reeves' stock was voted by aliens at the annual meeting. The placement of a restriction notice on the stock certificates and the adoption of a provision in the by-laws restricting transfers to aliens, shows that Reeves has made an effort to control the alien ownership of its stock; but there is nothing before the Board from which any conclusions as to the success of these efforts can be drawn. Where the adequacy of a citizenship showing has been challenged by a participant in a hearing before the Commission, it is not a sufficient answer to this challenge to say that the Commission has never raised the issue on its own motion.⁴ Thus, the Board has no choice but to add the requested issue.

6. WBLG comments that on August 23, 1966, it expects a series of steps to be taken by Reeves' board of directors to make an even more conclusive determination of compliance with section 310 (a) (5). Accordingly, it requests that in the event the Board is disposed on the present pleadings to grant the requested enlargement, the procedure followed in WKAT, Inc., 10 RR 471 (1954) should be followed and an additional 60 days be granted WBLG to demonstrate compliance. Petitioner opposes this disposition because it would delay action on the enlargement until after the hearings have been completed.

7. If the delay requested were to be granted, opportunity to file comments on the additional showing would have to be provided. A delay of several months would be inevitable. Any additional material bearing on the citizenship issue can as well be introduced at the hearing as in additional pleadings before the Board. Therefore, the post-

ponement will not be granted and the issues will be enlarged to inquire into WBLG-TV's compliance with the statute.

8. In Integrated Communication Systems, Inc., of Massachusetts, supra, the Commission added an issue to determine compliance by one of the applicants with § 73.636 of the rules where it appeared that a significant portion of the voting stock was owned by holding companies, nominees, or others, for and on behalf of persons unknown. In TVUE Associates, supra, another proceeding involving the same applicant, the Board added a similar issue on its own motion in view of the Commission's prior action. Here, the question of compliance with § 73.636 is raised in a reply pleading by the Bureau, and a different applicant is involved. Therefore, the Board believes that the better procedure is to await the filing of a petition before determining whether the further enlargement referred to by the Bureau is needed.

9. In view of the foregoing: *It is ordered*, This 19th day of September 1966, that the petition to enlarge issues, filed July 7, 1966, by Kentucky Central Television, Inc., is granted, and the issues are enlarged as follows: To determine whether a grant of the application of WBLG-TV, Inc., would be consistent with the provisions of section 310(a) (5) of the Communications Act of 1934, as amended.

Released: September 20, 1966.

INTERAGENCY TEXTILE ADMINISTRATIVE COMMITTEE

CERTAIN COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN SINGAPORE

Levels of Restraint

SEPTEMBER 21, 1966.

On March 31, 1966, the Chairman of the President's Cabinet Textile Advisory Committee, under the terms of the Long-Term Arrangements Regarding International Trade in Cotton Textiles, done at Geneva on February 9, 1962, directed that the Commissioner of Customs prohibit entry for consumption and withdrawal from warehouse for consumption of certain cotton textile products in Categories 31, 43, 45, 46, 50, 51, and 60, produced or manufactured in Singapore in excess of designated levels.

By an exchange of letters dated August 30, 1966, the Governments of the United States and Singapore concluded a comprehensive understanding concerning exports of cotton textiles and cotton textile products from Singapore to the United States for a period of 3 years beginning April 1, 1966. The Singapore Government has agreed that exports of cotton textiles from Singapore to the United States will be restrained in accordance with a Singapore Cotton Textile Industry Restraint Schedule (Department of State Press Release No. 194 of Aug. 30, 1966). In view of this understanding the control made effective by the directive of March 31, 1966, has been terminated.

There is published below a letter of September 19, 1966, from the Chairman, President's Cabinet Textile Advisory Committee to the Commissioner of Customs terminating the directive of March 31, 1966, concerning certain cotton tex-

tile products produced or manufactured in Singapore.

STANLEY NEHMER,
Chairman, Interagency Textile
Administrative Committee,
and Deputy Assistant Secretary
for Resources.

THE SECRETARY OF COMMERCE

PRESIDENT'S CABINET TEXTILE ADVISORY
COMMITTEE

WASHINGTON, D.C. 20230,
September 19, 1966.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C.

DEAR MR. COMMISSIONER: On March 31, 1966, the Chairman of the President's Cabinet Textile Advisory Committee directed you, effective as soon as possible, and until further notice, to prohibit entry into the United States for consumption and withdrawal from warehouse for consumption, of cotton textile products in Categories 31, 43, 45, 46, 50, 51, and 60, produced or manufactured in Singapore and exported from Singapore during the period extending from April 1, 1966 through March 31, 1967, in excess of designated levels of restraint.

Under the terms of the Long-Term Arrangements Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, and in accordance with the procedures outlined in Executive Order 11052 of September 28, 1962, as amended by Executive Order 11214 of April 7, 1965, and in furtherance of the understanding between the Governments of the United States and Singapore effectuated by an exchange of letters dated August 30, 1966, the directive of March 31, 1966, concerning certain cotton textile products produced or manufactured in Singapore is hereby terminated.

The actions taken with respect to the Government of Singapore and with respect to imports of cotton textiles and cotton textile products from Singapore have been determined by the President's Cabinet Textile Advisory Committee to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of Section 4 of the Administrative Procedure Act. This letter will be published in the FEDERAL REGISTER.

Sincerely yours,

ALAN S. BOYD,
Acting Secretary of Commerce, and
Chairman, President's Cabinet
Textile Advisory Committee.

[File No. 81-62]

ALABAMA BY-PRODUCTS CORP.

Notice of and Order for Hearing on
Application

SEPTEMBER 19, 1966.

Notice is hereby given that Alabama By-Products Corp. (applicant), First National Bank Building, Birmingham, Ala. 35202, has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended (Exchange Act), for a finding that by reason of the number of public investors in applicant's common stock, the amount of trading interest therein, the nature and extent of the activities of the applicant and the income and the assets of the applicant, as well as other facts pertaining to the affairs of applicant and the existing and potential investor interest in its common stock an exemption from the registration provisions of section 12(g) of the Exchange Act with respect to its common stock would not be inconsistent with the public interest or the protection of investors. Exemption from section 12(g) will have the additional effect of exempting applicant from sections 13 and 14 of the Exchange Act and any officer, director or beneficial owner of more than 10 percent of applicant's equity securities from section 16 of the Exchange Act.

Section 12(g) of the Exchange Act requires the registration of the equity securities of every issuer engaged in interstate commerce, or in a business affecting interstate commerce, or whose securities are traded by use of the mails or any means or instrumentality of interstate commerce, with certain exceptions, set forth therein, within 120 days of the last day of its first fiscal year ended subsequent to the effective date of section 12(g) on which each issuer has total assets exceeding \$1,000,000, and a class of equity security held of record by 750 or more persons, or after July 1, 1966, by 500 or more persons.

Section 12(h) empowers the Commission upon application of an interested person, by order after notice and opportunity for hearing, to exempt in whole or in part any issuer from the registration provisions of section 12(g) or from the periodic reporting and proxy soliciting provisions of sections 13 and 14 of the Exchange Act and from the reporting and trading provisions of section 16 of the Exchange Act, if the Commission finds, by reason of the number of investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer, or otherwise that such exemption is not inconsistent with the

public interest or the protection of investors.

The applicant's application and supplemental information received states in part:

1. That applicant is a Delaware corporation organized in 1920 with all of its mining, manufacturing and processing assets and facilities located in the State of Alabama;

2. That applicant, which has been closely held since inception, is controlled by Alabama Chemical Products Co. which owns 63 percent of applicant's total voting stock. Alabama Chemical Products Co. has a total of 13 stockholders and the only transfers of its stock have been interfamily and inheritance transactions;

3. That applicant has two classes of stock outstanding, Class A and Class B, differing in that the Class B is nonvoting. There were 123 holders of record of the Class A common stock and 610 holders of record of the nonvoting Class B common stock as of December 6, 1965. A breakdown of stock ownership shows that 94.8 percent of the Class A common stock and 62.8 percent of the Class B common stock is owned by either Alabama Chemical Products Co. or the employees, officers, directors or families of applicant. The amount owned by the general public has been acquired principally upon the death of several members of the closely held family group by which public sales were primarily made to accommodate death tax needs;

4. That a relatively minor amount of trading activity exists in applicant's common stock. Thus, during 1965 there were 35 transactions which involved a total of 1,306 shares of applicant's common stock among buyers other than employees, officers, directors, or their families. From January 1, 1965, to June 26, 1966, there were 14 transactions involving 406 such shares effected by officers and directors of the applicant and 27 such transactions involving 1,993 shares effected by employees of applicant who were not officers or directors of applicant. In 1966 as of June 26, 1966, there were 38 transactions involving 1,340 shares of applicant's common stock effected by persons other than officers, directors, employees or members of their families. The local newspaper reports of quotations for the NASD on over-the-counter securities have shown applicant's stock as "none available" for 1965;

5. That applicant has never made any public offering of its stock; and

6. That applicant's records are audited each year by Lehmann, Ullman & Barclay, Certified Public Accountants, Birmingham, Ala. and audited, certified financial statements are made available to all stockholders at the annual meeting of applicant's stockholders in April of each year.

For a more detailed statement of the information presented in the application including applicant's request for a hearing in this matter, all persons are hereby referred to the above-captioned application which is on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C.

It is ordered, Pursuant to section 12(h) of the Exchange Act, that a hearing on the aforesaid application be held at 10 a.m. (e.d.t.), October 24, 1966, at the offices of the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. At such time the hearing room clerk will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in this proceeding is directed to file with the Secretary of the Commission his application as provided by Rule 9(c) of the Commission's rules of practice, on or before the date provided in said rule, setting forth any issues of fact or law which he desires to controvert or any additional issues which he deems raised by this Notice and Order or by such application.

It is further ordered, That Warren E. Blair, an officer of the Commission, or such other officer as the Commission may designate be and hereby is designated to preside as the hearing officer with all powers vested in him pursuant to the Commission's rules of practice.

The Division of Corporation Finance has advised the Commission that it has made a preliminary examination of the application, and that upon the basis thereof the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the number of public investors and the amount of trading interest, actual or potential, in applicant's securities is sufficiently limited to justify the requested exemption;

2. Whether the nature and extent of the activities of applicant are such to justify the requested exemption;

3. Whether adequate information is and will be available to investors concerning the financial and business affairs of applicant, the management of applicant, the principal holders of the securities of applicant, recent sales of unregistered securities of applicant, and the nature and description of applicant's securities; and

4. Generally, whether the requested exemption is consistent with the public interest and with the protection of investors.

It is further ordered, That at the aforesaid hearing attention be given to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this Notice and Order by registered mail to Alabama By-Products Corp. and that notice to all other persons be given by publication of this Notice and Order in the FEDERAL REGISTER, and that a general release of this Commission in respect of this Notice and Order be distributed to the press and mailed to those persons whose names appear on the mailing list for releases.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-4389]

**AMERICAN ELECTRIC POWER CO.,
INC., AND MICHIGAN GAS UTILITIES CO.**

**Notice of Filing of Amendment and
Order for Hearing**

SEPTEMBER 20, 1966.

Notice is hereby given that American Electric Power Co., Inc. ("AEP"), 2 Broadway, New York, N.Y. 10008, a registered holding company, and Michigan Gas Utilities Co. ("MGU"), 6 South Monroe Street, Monroe, Mich., a nonassociate company and an exempt holding company, have jointly filed with this Commission, under the Public Utility Holding Company Act of 1935 ("Act"), a further amendment ("Amendment No. 2") to a pending amended application. Amendment No. 2 relates principally to certain changes in AEP's proposal to acquire from MGU the latter's holdings of the common stock of Michigan Gas & Electric Co. ("Michigan"), a nonassociate gas and electric utility company. The changed proposals reflect a settlement agreement with Michigan which has heretofore opposed such acquisition. All interested persons are referred to the application, and the amendments thereto, for a complete statement of the matters therein contained, and to the Commission's Notice of Filing and Order for Hearing, dated August 19, 1966 (Holding Company Act Release No. 15543), for a summary of the background of the proposed transactions and related matters, and for a statement of the matters heretofore ordered to be considered at the hearing in this proceeding. A summary of the changes in the proposals effected by Amendment No. 2 is set forth below.

AEP's application, as heretofore amended proposes that pursuant to an agreement with MGU dated July 1, 1966, AEP will purchase all of MGU's holdings of the \$10 par value shares of the common stock of Michigan, at the prices plus commissions, paid by MGU. Official reports filed by MGU with this Commission indicate that, as of August 30, 1966, MGU owned beneficially 79,297 shares of Michigan common stock, of which 8,082 shares were acquired at undisclosed prices and times prior to July 1, 1966, and the remainder ("tendered shares") were acquired at a price of \$100 per share net, paid to shareholders tendering shares pursuant to tender offers made by AEP or MGU, or subsequently otherwise tendered to MGU. AEP, which had commenced such a tender offer on May 17, 1966, by agreement dated July 1, 1966, assigned to MGU its rights thereunder and MGU continued such offer until July 20, 1966. (All references herein to Michigan common stock are to such \$10 par value stock or its equivalent after stock splits or other similar changes.)

AEP now proposes, upon its purchase from MGU of the tendered shares, to pay to the former holders of tendered shares an additional amount of \$15 per share. AEP and MGU have heretofore made commitments to the Commission

regarding the tendered shares, including a commitment for a payment to the former holders of the tendered shares, if the Commission should determine, under the standards of section 10 of the Act, that the fair price of the Michigan common stock is in excess of \$100 per share plus commissions. In such event AEP committed itself to pay any excess so determined if it considered the resulting total not unreasonably high; otherwise, it would offer such former holders the right to rescind, upon payment to AEP of \$100 per share, and would take such action with respect to any subsequent remaining tendered shares as the Commission might direct. These commitments remain unchanged, except, however, that the excess over \$100 per share, plus commissions, to be paid such former holders is now limited to \$15 per share.

AEP also proposes to purchase on the open market or otherwise—presumably by a further tender offer—during the 6 months period following the date of its purchase of Michigan common stock from MGU, and during such subsequent period as the Commission may authorize, additional shares of Michigan common stock at prices within such limits as may be approved by the Commission in this proceeding.

AEP also proposes, in accordance with its obligations under the agreement of July 1, 1966, with MGU, that if it should acquire a majority of the outstanding shares of the common stock of Michigan, to take certain steps to cause the sale of Michigan's gas assets to MGU, subject to necessary regulatory approval, including approval of this Commission. Accordingly, AEP now requests that the Commission enter an order pursuant to section 12(d) of the Act authorizing AEP to effect such transaction, subject to such further order or orders of the Commission as may be necessary or appropriate to authorize specific details of such transaction which will be supplied by further amendment. The price to be paid by MGU for the gas utility assets will be based on their capitalized value determined as provided in a formula contained in the agreement of July 1, 1966. Generally speaking, the formula provides for the determination of the percentage which Michigan's gas operating income bears to total operating income for the calendar year 1965; the application of such percentage to the total of the capital securities of Michigan, as adjusted for certain working capital and other matters, and that the resultant amount will be the purchase price. In computing the total of the capital securities under the formula the common stock segment is based on the average cost to AEP of all shares of such stock owned by AEP at the date of the sale of the gas assets to MGU.

Amendment No. 2 states that the settlement agreement between AEP, MGU, and Michigan provides, among other things, that (i) AEP will (a) make the additional payment of \$15 per share to the former holders of tendered shares,

and (b) offer to purchase from present shareholders additional shares at \$115 per share, in cash, (ii) upon such \$15 payment each party to the agreement will withdraw and discontinue all pending actions in the Federal and State courts and before the Federal Power Commission against any other party thereto, or any subsidiary company of any such party, (iii) Michigan and the Chairman of its Board, will support Amendment No. 2, (iv) Michigan's Chairman will tender his shares of Michigan common stock for purchase by AEP at \$115 per share, and (v) if AEP obtains control over Michigan and elects to discontinue the services of certain Michigan employees, such employees will receive certain retirement benefits under Michigan's pension plan.

The agreement of July 1, 1966, between AEP and MGU was amended on September 7, 1966, in "such respects as shall be necessary to conform to and comply with the transactions and commitments described in * * * Amendment No. 2 * * *" and States that as so amended it "shall be and remain in full force and effect." The Commission's Notice of Filing and Order for Hearing dated August 19, 1966, set forth certain issues which are still pertinent.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that the hearing heretofore ordered to be held in this proceeding and postponed from time to time, be further postponed; and that all interested persons be afforded an opportunity to be heard at such postponed hearing with respect to the proposed transactions and related matters.

It is ordered, That the hearing in this proceeding be further postponed to October 5, 1966, at 10 a.m., at the office of the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. On such date the hearing room clerk will advise as to the room in which the hearing will be held.

The Division of Corporate Regulation having advised the Commission that it has made a preliminary examination of the amended application, as further amended by Amendment No. 2, and that, upon the basis thereof, the following matter and question is presented for consideration, in addition to those specified in the Commission's order for hearing dated August 19, 1966 (Holding Company Act Release No. 15543) without prejudice, however, to the presentation of further additional matters and questions upon further examination.

Whether, in connection with the proposed sale by AEP, directly or indirectly, of the gas utility assets of Michigan to MGU, and the transactions incident thereto, (a) competitive conditions have been and will be maintained, and (b) if such transactions are authorized, it is necessary or appropriate in the public interest, in the interests of investors, or for the adequate protection of consumers, to impose terms and conditions regarding the consideration to be re-

ceived, the fees and commissions to be paid, and the accounting for such transactions.

It is further ordered, That at said hearing evidence shall be adduced with respect to the foregoing additional matter and question and with respect to all other matters and questions heretofore specified.

It is further ordered, That jurisdiction be, and it hereby is, reserved to separate in whole or in part, either for hearing or for disposition, any issues, matters, or questions which may arise or have arisen in these proceedings and to take such other action as may appear conducive to an orderly, prompt, and economical disposition of the matters involved.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid postponed hearing by mailing copies of this Notice and Order by registered mail to AEP, MGU, Michigan, the Public Service Commission of Michigan, and the U.S. Federal Power Commission; that notice to all other persons shall be given by publication of this Notice and Order in the FEDERAL REGISTER; and that a general release of this Commission in respect of this Notice and Order be distributed to the press and mailed to the persons appearing on the mailing list of the Commission for releases under the Public Utility Holding Company Act of 1935.

It is further ordered, That any person, other than AEP, MGU, and Michigan, desiring to participate in the hearing herein may, not later than October 3, 1966, make a request therefor in writing, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon AEP and MGU at their respective above-stated address, and upon Michigan at 100 South Main Street, Three Rivers, Mich., and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed contemporaneously with the request.

By the Commission.

ORCHARD SUPPLY BUILDING CO.
Notice of an Order for Hearing on
Application

SEPTEMBER 20, 1966.

Notice is hereby given that the Orchard Supply Building Co. (Applicant), 720 West San Carlos Street, San Jose, Calif., has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended (EX-

change Act), for a finding that by reason of its financing history and the lack of public interest in its securities, an exemption of its common stock from the provisions of section 12(g) of the Exchange Act would not be inconsistent with the public interest. Exemption from section 12(g) will have the additional effect of exempting applicant from sections 13 and 14 of the Exchange Act and any officer, director, or beneficial owner of more than 10 percent of applicant's equity securities from section 16 of the Exchange Act.

Section 12(g) of the Exchange Act requires the registration of the equity securities of every issuer engaged in interstate commerce, or in a business affecting interstate commerce, or whose securities are traded by use of the mails or any means or instrumentality of interstate commerce, with certain exceptions set forth therein, within 120 days of the last day of its first fiscal year ended subsequent to the effective date of section 12(g) on which such issuer has total assets exceeding \$1,000,000, and a class of equity security held of record by 750 or more persons, or after July 1, 1966, by 500 or more persons.

Section 12(h) of the Exchange Act empowers the Commission acting by order, upon application of an interested person and after notice and opportunity for hearing, to exempt any issuer in whole or in part from the registration provisions of section 12(g) or from the periodic reporting and proxy soliciting provisions of sections 13 and 14 of the Exchange Act and from the reporting and trading provisions of section 16 of the Exchange Act, if the Commission finds, by reason of the number of investors, the amount of trading interest in the securities, the nature and extent of the activities of the issuer, the income or assets of the issuer, or otherwise that such exemption is not inconsistent with the public interest or the protection of investors.

The application of applicant states in part:

1. That applicant, a California corporation with its principal place of business in San Jose, Calif., was organized as a regular stock corporation on July 12, 1945, by Orchard Supply Co., Ltd. (Parent), to purchase real property and erect buildings thereon which it leased to Parent and Orchard Supply Sales Corp. (Orchard Sales), a second corporation organized by Parent. Parent was organized under California law as a non-profit, nonstock cooperative association for the purpose of purchasing for its members hardware, farm supplies, fertilizers and equipment. Orchard Sales was organized to sell such merchandise to nonmembers.

2. That both Parent and Orchard Sales are now dissolved, and on May 25, 1956, applicant was directed to carry on the mercantile business theretofore conducted by Orchard Sales. On August 30, 1956, applicant issued 182,045 shares of \$1.00 par value common stock to Parent in exchange for a small amount of stock and in satisfaction of applicant's total indebtedness to Parent. This stock

is presently held by applicant's stockholders, who received the stock in a distribution accompanying Parent's 1956 dissolution.

3. That an additional 30,034 shares of applicant's common stock have been issued since 1956 and have passed by "private sale" to previously existing stockholders of applicant. There has been no other "private sale" of applicant's common stock and there has never been a "public sale" of the common stock of applicant.

4. That applicant's capital also includes 2,500 shares of authorized and outstanding preferred stock, \$100 par value. There has never been a "public sale" of this preferred stock.

5. That in view of applicant's financing history and the complete lack of public interest in its securities it would not be against the public interest to grant exemption from the registration requirements of Exchange Act section 12(g) (1) for its securities pursuant to Exchange Act section 12(h).

Supplemental information submitted by applicant indicates that applicant, which is currently engaged in the operation of three diversified hardware stores in the city of San Jose, Calif., had total assets of \$1,742,328 as at March 31, 1966, and net income of \$103,362 for the year ending March 31, 1966. Further it had 269 preferred stockholders and 1,151 common stockholders as at July 29, 1966. Applicant has never been required to file reports pursuant to section 13 or 15(d) of the Exchange Act.

For a more detailed statement of the information presented, including applicant's request for a hearing in this matter, all persons are hereby referred to the above captioned application and supplements which are on file at the offices of the Commission at 500 North Capitol Street, Washington, D.C.

It is ordered, Pursuant to section 12 (h) of the Exchange Act that a hearing on the aforesaid application be held at 10 a.m., November 2, 1966, at the San Francisco Regional Office of the Securities and Exchange Commission, 450 Golden Gate Avenue, San Francisco, Calif. 94102. Any person desiring to be heard or otherwise wishing to participate in this proceeding is directed to file with the Secretary of the Commission his application as provided by Rule 9(c) of the Commission's rules of practice, on or before the date provided in said rule, setting forth any issues of fact or law which he desires to controvert or any additional issues which he deems raised by this notice and order or by such application.

It is further ordered, That Sidney Gross, an officer of the Commission, or such other officer as the Commission may designate, be and hereby is designated to preside as the hearing officer with all powers vested in him pursuant to the Commission's rules of practice.

The Division of Corporation Finance advises that it has made a preliminary examination of the application, and that, on the basis thereof, the following matters and questions are presented for consideration without prejudice to its

specifying additional matters and questions upon further examination:

1. Whether the number of public investors and the amount of trading interest, actual or potential, in applicant's securities is sufficiently limited to justify the requested exemption;

2. Whether the nature and extent of the activities of applicant are such as to justify the requested exemption;

3. Whether adequate information is and will be available to investors concerning the financial and business affairs of applicant, the management of applicant, the principal holders of the securities of applicant, any transactions of management in the securities of applicant, and the nature and description of applicant's securities; and

4. Generally, whether the requested exemption is consistent with the public interest and with the protection of investors.

It is further ordered, That attention be given to the foregoing matters and questions at the aforesaid hearing.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this Notice and Order by registered mail to Orchard Supply Building Co., and its attorney and that notice to all other persons be given by publication of this Notice and Order in the FEDERAL REGISTER, and that a general release of this Commission in respect of this Notice and Order be distributed to the press and mailed to those persons whose names appear on the mailing list for releases.

By the Commission.

SOHIO PETROLEUM CO. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund¹

SEPTEMBER 15, 1966.

The Respondents named herein have filed proposed changes in rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness

¹ Does not consolidate for hearing or dispose of the several matters herein.

of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. D, and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column, and thereafter until made effective as prescribed by the Natural Gas Act: *Provided, however*, That the supplements to the rate schedules filed by Respondents, as set forth herein, shall become effective subject to refund on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order Respondents shall each execute and file under its above-designated docket number with the Secretary of the Commission its agreement

and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless Respondents are advised to the contrary within 15 days after the filing of their respective agreements and undertakings, such agreements and undertakings shall be deemed to have been accepted.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before November 2, 1966.

³ The stated effective date is the effective date proposed by Respondent.

⁴ The suspension period is limited to 1 day.

⁵ Periodic rate increase.

⁶ Pressure base is 14.65 p.s.i.a.

⁷ Phillips resells the gas, after processing in its Dumas Plant, to El Paso Natural Gas Co. under its FPC Gas Rate Schedule No. 32 at a rate of 19.76 cents per Mcf which is effective subject to refund in Docket No. G-20403.

⁸ The stated effective date is the first day after expiration of the statutory notice.

⁹ Subject to deduction of 0.5 cent per Mcf for sour gas.

¹⁰ Contract dated after Sept. 28, 1966, the date of issuance of general policy statement No. 61-1.

Texaco, Inc. (Texaco) requests that its proposed rate increase be permitted to become effective as of September 1, 1966. Herbert L. Dillon, Jr. (Operator), et al. (Dillon), request a retroactive effective date of April 1, 1966, for their proposed rate increase. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit earlier effective dates for Texaco and Dillon's rate filings and such requests are denied.

Texaco and Sohio Petroleum Co.'s (Sohio) proposed periodic rate increases are for well-head sales of gas to Phillips Petroleum Co. (Phillips) who gathers and processes the gas and resells the residue gas after processing to interstate pipeline companies. Phillips' resale rates are in effect subject to refund. The proposed increases are not related to corresponding increases in rate by Phillips. Although Texaco and Sohio's proposed rate increases do not exceed the area increased rate ceiling of 11.0 cents per Mcf for Texas Railroad District No. 10 as announced in the Commission's statement of general policy No. 61-1, as amended, the sales related thereto

are considered to be for nonpipeline quality gas. We consider the increased rate ceiling to be applicable in these cases at the outlet of the processing plant which is the point of delivery to the pipeline company. Under the circumstances, we believe that Texaco and Sohio's proposed rate increases should be suspended for 1 day from the date shown in the "Effective Date" column of the attached Appendix A.

The contract related to the rate filing proposed by Dillon was executed subsequent to September 28, 1966, the date of issuance of the Commission's statement of general policy No. 61-1, as amended, and the proposed increased rate is above the applicable area ceiling for increased rates but below the initial service ceiling for the area involved. We believe, in this situation, Dillon's rate filing should be suspended for 1 day from September 26, 1966, the date of expiration of the statutory notice.

SUPERIOR OIL CO. ET AL.

Order Consolidating Proceedings and Fixing Date for Prehearing Conference

SEPTEMBER 15, 1966.

The Superior Oil Co. (Operator), et al., G-16878; Petroleum, Inc., CI61-226; Sunset International Petroleum Corp., et al., CI61-356; John R. Crain and Malcolm Deisenroth, Jr., successors to Carol Daube Sutton, et al., CI61-1119; H. L. Hunt, CI63-182; Roland S. Bond, G-17090; Sam K. Viersen, CI62-90; Van Grisso Oil Co., CI63-59; An-Son Corp., CI63-370; Petroleum International, Inc., CI64-520, CI64-604; Payne Petroleum Corp., CI65-1143; Apache Corp., CI61-336.

Each of the above-captioned proceedings concerns an application for a cer-

tificate of public convenience and necessity (or an application to amend a certificate by adding acreage) filed under section 7 of the Natural Gas Act to sell natural gas produced in the State of Oklahoma for resale in interstate commerce, all as more fully described below and in the respective applications (and supplements or amendments thereto) which are on file with the Commission and open to public inspection.

The Commission finds:

(1) It is appropriate and in the public interest that the above-captioned matters be consolidated for hearing and decision as hereinafter ordered.

(2) The expeditious disposition of these proceedings may be effectuated by holding a prehearing conference and to that end a prehearing conference should be held on October 25, 1966, as herein after ordered.

The Commission orders:

(A) The above-captioned matters are hereby consolidated for the purposes of hearing and decision.

(B) Pursuant to the provisions of section 1.18 of the Commission's rules of practice and procedure, a prehearing conference before a duly designated presiding examiner shall commence at 10 a.m., e.s.t., on October 25, 1966, in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., for the purpose of effectuating the expeditious disposition of these consolidated proceedings.

(C) The purpose of such conference shall be to consider all matters at issue in the above dockets, the manner in which evidence shall be presented, to fix dates for the distribution of such evidence, to fix the date on which the consolidated hearing shall commence, and to consider any and all matters which might contribute to an expeditious disposition of these consolidated proceedings.

(D) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held on a date to be fixed by the presiding examiner in accordance with paragraph (B) above, in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications.

(E) Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 18, 1966. Protestants and Petitioners shall state with particularity the dockets in which they claim to have an interest.

IDAHO POWER CO.

Notice of Application

SEPTEMBER 19, 1966.

Take notice that on September 8, 1966, Idaho Power Co. (Applicant), an electric utility incorporated under the laws of the State of Maine and qualified to do business in the States of Idaho, Oregon, and Nevada, filed an application with the Federal Power Commission seeking an

order pursuant to section 204 of the Federal Power Act authorizing it to make short-term borrowings of up to an aggregate of \$40,000,000.

Applicant states that these borrowings will consist of unsecured notes of a maturity of one year or less and in any event not later than December 31, 1967, not for resale to the public and that no finders fee or other fee, commission, or remuneration is to be paid in connection therewith to any third person for negotiating the transactions. These securities

will evidence bank loans which applicant anticipates will be at the current rate applicable in New York, N.Y., at the time of borrowings for commercial bank loans of said form and character.

According to the application the purpose for which the proposed short-term bank borrowings will be made and the promissory notes issued is to obtain temporary interim capital (including renewal of short-term notes now issued and outstanding or to be issued and outstanding pursuant to the authorization requested, prior to Dec. 31, 1967) for the construction, extension, and improvement of various operating facilities. For the period of July 1, 1966, to December 31, 1967, Applicant's construction program calls for the expenditure of approximately \$34.5 million for its Hells Canyon Generating Station, \$7 million for transmission lines, and \$2.4 million for transmission substations.

Any person desiring to be heard or to make any protest with reference to the application should on or before October 5, 1966, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file with the Commission and is available for public inspection.

DEPARTMENT OF LABOR

Office of the Secretary

[Secretary's Order 12-66]

OCCUPATIONAL SAFETY AND HEALTH ACTIVITIES

Responsibility

1. *Purpose.* The purpose of this order is to realign occupational health and safety functions within the Department to provide a stronger and coordinated occupational safety and health program.

2. *Authority and directives affected.* a. This order is issued pursuant to the Act of March 4, 1913, as amended (37 Stat. 736; 5 U.S.C. 611), R.S. 161 (5 U.S.C.), Reorganization Plan No. 6 of 1950 (15 F.R. 3174; 64 Stat. 1263; 5 U.S.C. 611, Note); Walsh-Healey Public Contracts Act; Longshoremen's and Harbor Workers' Compensation Act; Federal Employees' Compensation Act and other statutes vesting in the Secretary of Labor occupational health and safety responsibilities.

b. All other orders and directives of the Secretary of Labor and officials of the Department are superseded to the extent that they are inconsistent with this order.

3. *Background.* Responsibility for occupational health and safety functions has in the past been assigned to more than one organization within the Department of Labor. This matter has been the subject of considerable review

within the past 2 years. The Walsh-Healey Public Contracts Act is enforced by the Wage and Hour and Public Contracts Divisions. On the other hand, the safety and health provisions of the Longshoremen's and Harbor Workers' Compensation Act and of the Federal Employees' Compensation Act are the responsibility of the Bureau of Labor Standards. States rely upon the Bureau of Labor Standards to provide technical assistance and training to their safety staffs, and labor and management frequently call upon the Bureau for this same service.

If the Department of Labor is to exercise leadership in the occupational health and safety field, it must have a strong, coordinated and publicly recognized program. Since this involves responsibilities to Federal employees, enforcement by the Federal Government under Federal statutes, and leadership, training and assistance to State agencies, management, and labor, the responsibility does not fall logically or neatly within the exclusive jurisdiction of either the Bureau of Labor Standards or the Wage and Hour and Public Contracts Divisions.

Since, however, the broadest range of safety activities currently exists in the Bureau of Labor Standards, transfer of the safety functions of the Wage and Hour and Public Contracts Divisions is a logical first step toward a strong, centralized safety program in the Department.

4. *Assignment of responsibility—*a. *Director of the Bureau of Labor Standards.* Subject to the general direction of the Assistant Secretary for Labor Standards, the Director of the Bureau of Labor Standards shall have responsibility for:

(1) Planning and administering the Department's programs of occupational safety and health, and developing, promoting, and actively implementing the occupational safety and health responsibilities of the Department, including:

(a) Administering the regulatory authority in the Maritime Industry pursuant to P.L. 85-742.

(b) Advising and providing technical assistance to Federal departments and agencies, to States, and to industry, labor unions and other interested groups; developing safety programs, codes, and standards; and providing training and educational services.

(c) Formulating safety and health standards and making safety and health inspections under the provisions of the Walsh-Healey Public Contracts Act, the McNamara-O'Hara Service Contract Act, the National Foundation on the Arts and Humanities Act, and the Vocational Rehabilitation Act Amendments of 1965, and advising the Secretary of Labor on agreements with States for the making of inspections under the Walsh-Healey Public Contracts Act.

(d) Administering enforcement policy and activities in connection with the safety and health standards under the Walsh-Healey Public Contracts Act, the McNamara-O'Hara Service Contract

Act, the National Foundation on the Arts and Humanities Act, and the Vocational Rehabilitation Act Amendments of 1965.

(e) Administering the occupational safety and health functions of section 33(c) of the Federal Employees' Compensation Act, serving as chairman and providing the secretariat for the Federal Safety Council established by Executive Order 10990.

(2) Advising the Assistant Secretary for Labor Standards on policy in the area of occupational safety and health, and recommending new programs and policies in related areas.

b. *Solicitor of Labor.* The Solicitor of Labor shall have responsibility for:

(1) Furnishing legal advice and assistance to the Director, Bureau of Labor Standards, in connection with the administration of the occupational health and safety functions of the Department and the promulgation of regulations and interpretations.

(2) Determining in each case whether such proceedings are appropriate and prosecuting enforcement proceedings.

(3) Assisting the Director of the Bureau of Labor Standards in the development of policies for the administration and enforcement of the occupational health and safety provisions of the Walsh-Healey Public Contracts Act, the McNamara-O'Hara Service Contract Act, the National Foundation on the Arts and the Humanities Act, and the Vocational Rehabilitation Act Amendments of 1965.

c. *The Director of the Bureau of Labor Standards and the Administrator of the Wage and Hour and Public Contracts Divisions.* Are jointly responsible for coordinating occupational safety and health and minimum wage activities. They will develop a mutually acceptable agreement relating to the pattern of inspections, including arrangements for tying in inspections made by State agencies and arrangements for coordinating compliance activities. In addition, they will, together with the Solicitor of Labor, develop appropriate procedures for coordination of activities relating to cases which may warrant litigation.

5. *Transfer of responsibility and resources.* The responsibility, personnel, funds, equipment, and other resources now assigned to the Wage and Hour and Public Contracts Divisions for the administration of the occupational safety and health provisions of the Acts referred to in paragraph 4a(1)(c) above are hereby transferred to the Bureau of Labor Standards. The personnel transferred from the Wage and Hour and Public Contracts Divisions to the Bureau of Labor Standards will continue to perform duties and activities consistent with the purposes for which Congress appropriated funds.

6. *Effective date.* This order is effective immediately; however, a transition period extending to September 1, 1966, is authorized to effect completion of the transfer provided for in paragraph 5 above.

Signed at Washington, D.C., this 19th day of July, 1966.

W. WILLARD WIRTZ,
Secretary of Labor.

The student-worker certificates were issued upon the applicant's representations and supporting material fulfilling the statutory requirements for the issuance of such certificates, as interpreted and applied by Part 527.

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced

workers for the learner occupations are not available. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in 29 CFR, Part 528.

Signed at Washington, D.C., this 16th day of September, 1966.

The following certificates were issued to establishments under paragraph (k) of § 519.6 of 29 CFR, Part 519. These certificates supplement certificates issued pursuant to other paragraphs of that section, but do not authorize the employment of full-time students at rates below the applicable statutory minimum in additional occupations. The certificates contain limitations on the percentage of full-time student hours of employment at rates below the applicable statutory minimum to total hours of employment of all employees. The additional allowances apply to the specified months and vary from month to month between the minimum and maximum figures indicated.

Ramey Super Market, food stores; No. 1 Springfield, Mo. (between 0.0 percent and 1.6 percent for the months of September through August); No. 3, Springfield, Mo. (between 1.0 percent and 4.5 percent for the months of September through August, 9-24-66 to 9-23-67).

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not tend to displace full-time employees. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 519.9.

Signed at Washington, D.C., this 20th day of September 1966.

ROBERT G. GRONEWALD,
Authorized Representative
of the Administrator.
