Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 130—PRIORITIES REGULATION

Los Alamos, N. Mex.; Apartment Houses

1. Section 130.203 is amended as follows:

Paragraph (f) is revoked and the following paragraphs are added:

§ 130.203 Definitions.

(f) [Revoked]

(t) "Persons residing in the community" means any natural person residing in the community at the time the apartment house in question was first offered for sale and who has maintained residency in the community for at least 6 months prior to the date of such offering.

(u) "Priority interest" means the interest of an occupant of an apartment house which automatically vests in him by virtue of his being an occupant, and which may be (i) retained by an occupant for use in conjunction with other priority interests in the establishment of a priority to purchase an apartment house, or (ii) assigned pursuant to subsection 130.234(d).

(v) "Entity" means any corporation, partnership, cooperative corporation or trust, joint venture, association, or group of occupants.

(w) "Group of occupants" means two or more occupants.

2. Section 130.221(c) is revised to read as follows:

§ 130.221 Residential priorities.

(c) For Government-owned apartment houses:

(1) *First priority.* Any occupant, or a group of occupants, or an assignee (whose membership or ownership is composed of occupants, or project-connected persons, or persons residing in the community, or any of the foregoing persons) of the priority interests of such occupants, who or which has obtained the priority interest of at least 60 per centum of the occupants of the apartment house: *Provided, however,* That an occupant who has not obtained the priority interests of all the occupants of the apartment house must offer, for a minimum of 15 days prior to his submitting his application for priority, to the occupants whose priority rights he has not obtained, the choice of either joining in the purchase with the occupant-applicant, or assigning his priority interest to the occupant-applicant on terms and conditions no less favorable than those offered to or agreed upon with other occupants.

(2) *Second priority.* Any entity whose membership or ownership consists of occupants, or project-connected persons, or persons residing in the community, or any of the foregoing persons (provided that such entity has obtained the priority interest of at least one occupant).

3. Section 130.231(a) is revised to read as follows:

§ 130.231 Applications for priority.

(a) All priority rights within each priority class, other than rights under § 130.221 (a)(1), (c) (1) and (2) or (d) (1), shall be invalid unless an application for the determination thereof, in the form prescribed by the Commission, is filed with the Commission within 30 days after the date on which the property in question is offered for sale to such priority class or within such period as the Commission may prescribe, in the case of an offering of lots or acreage tracts to the priority class provided for in § 130.221 (e) or (f). All priority rights under § 130.221(c) (1) and (2) shall be invalid unless an application for the determination thereof, in the form prescribed by the Commission, is filed with the Commission within 60 days after the date on which the property in question is offered for sale to such priority class.

4. Section 130.232 is amended by designating the existing paragraph as (a) and adding a new paragraph (b) as follows:

§ 130.232 Exercise of priority.

(b) A priority to purchase an apartment house may not be exercised by a priority holder (other than an occupant)

unless, within the time specified by the sales agency, the priority holder has offered, for a minimum of 15 days and on terms and conditions no less favorable than those offered to or agreed upon with other occupants, membership or association to all occupants of the apartment house in question. In addition to the foregoing, no second priority to purchase shall be exercised unless the priority holder, within the time specified by the sales agency, provides evidence that its membership or ownership equals at least 70 per centum of the housing units in the apartment house, and occupies or agrees to occupy at least 70 per centum of the housing units in the apartment house.

5. Section 130.234 is amended by adding a new paragraph (d) as follows:

§ 130.234 Transfer of priority.

(d) Any occupant of an apartment house may assign his priority interest therein to any other occupant or to an entity whose membership or ownership is composed of occupants, project-connected persons, or persons residing in the community. Such assignment may be made only once unless revoked by the assignor with the written consent of the assignee; provided that, in the case of a first priority, the assignment shall be automatically revoked if there is a failure to apply for the priority, to obtain the priority, to exercise the priority, or to consummate the purchase. Assignments and revocations (other than automatic revocations) shall be made on forms provided by the Commission and shall not be effective until filed with the Commission. Files of assignments and revocations shall be made reasonably available for inspection by the public.

6. Section 130.236 is amended by adding the following sentence:

§ 130.236 Limitation.

Persons who have purchased, either individually or jointly with other persons, a single-family house or duplex house (or a single-family unit in a duplex house) at Los Alamos pursuant to a priority right under the act shall not be eligible to participate in the priority purchase of an apartment house, and if any such person is an occupant of any unit of an apartment house, such unit will be considered vacant for the purpose of establishing a priority to purchase the apartment house.

7. Section 130.237 is amended by designating the existing paragraph as (a) and adding a new paragraph (b) as follows:

§ 130.237 Persons applying for determinations or exercising priority.

(b) A priority interest may be assigned or used by the occupant of an apartment house or, on his behalf, by his

duly authorized agent, executor, trustee, administrator, or guardian.

8. Section 130.242(a) (6) is revised to read as follows:

§ 130.242 Determination of conflicting claims for priority.

(a) * * *

(6) Conflicting claims between entities for a second priority to purchase an apartment house shall be resolved in favor of that entity among such claimants which includes in its membership the largest percentage of the occupants of the apartment house in question. If the membership of two or more such claimants include the same, and largest, percentage of the occupants of the apartment house, such conflicting claims shall be resolved by lot.

Effective date. The foregoing amendments shall become effective 30 days following the date of publication in the FEDERAL REGISTER.

(Sec. 111, 69 Stat. 483; 42 U.S.C. 2305; sec. 1, 81 Stat. 575; 42 U.S.C. 2348)

Dated at Washington, D.C., this 13th day of March 1968.

F. T. HOBBS,
Acting Secretary.

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.580]

PART 41—VISAS: DOCUMENTATION OF NONIMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT, AS AMENDED

Nonresident Alien Canadian Border Crossing Identification Cards

Part 41, Chapter I, Title 22 of the Code of Federal Regulations is being amended to authorize consular officers in Canada to issue nonresident alien border crossing identification cards under certain conditions to aliens having the status of "landed immigrants" in Canada. A new section (§ 41.129) is added to read as follows:

§ 41.129 Nonresident alien Canadian border crossing identification cards.

(a) *Aliens eligible to apply.* Under the conditions prescribed by this section a consular officer assigned to a consular office in Canada may issue a nonresident alien border crossing identification card, as that term is defined in section 101 (a) (6) of the Act, to a nonimmigrant alien who satisfactorily establishes that he (1) has been admitted to Canada for permanent residence as a "landed immigrant"; (2) seeks to enter the United States from Canada and only as a bona fide temporary visitor for business or pleasure as defined in section 101(a)

(15) (B) of the Act for periods of stay not exceeding 6 months; and (3) is otherwise eligible to receive a temporary visitor visa.

(b) *Application for Canadian border crossing identification cards.* An alien lawfully admitted to Canada as a "landed immigrant" shall apply on Form PS-257a for a nonresident Canadian border crossing identification card, supporting his application with (1) evidence of his "landed immigrant" status in Canada; (2) a valid, or expired, passport showing his origin, identity, and nationality, if any, and containing a photograph of the bearer if the alien is over the age of 14; and (3) if the applicant is over the age of 14, a photograph 1½ inches square. Personal appearance of the applicant may be waived at the discretion of the consular officer.

(c) *Issuance of border crossing cards.* A nonresident Canadian border crossing identification card shall consist of a stamp in the format set out in paragraph (d) of this section placed in the alien's passport or travel document by a consular officer in Canada. The post symbol and the number of each card issued shall be entered at the top of the stamp. The border crossing card shall be numbered serially by each post beginning with the number 1 on each July 1. The name of the alien to whom the card is issued shall be inserted in the stamp after the word "to" and the date of issuance shall be entered following the words "Issued on".

(d) *Format of Canadian border crossing card.* The nonresident Canadian border crossing card shall be in the following form:

No. -----
SEAL (Title of office) (Location)
CANADIAN BORDER CROSSING IDENTIFICATION CARD
Issued on: -----
To: ----- (a landed immigrant in Canada)
Valid indefinitely for unlimited applications for admission to the United States as a temporary visitor for business or pleasure from Canada unless canceled by a U.S. Consular or Immigration Officer.
SEAL ----- (Consular Officer)

(e) *Validity.* A nonresident Canadian border crossing identification card issued pursuant to these regulations may be valid indefinitely.

(f) *Signature and seal.* The consular officer who issues a nonresident Canadian border crossing card shall affix his signature, and indicate his title in the border crossing card stamp. The consular officer shall impress the seal of his office in the lower left corner of the stamp.

(g) *Voidance.* A nonresident Canadian border crossing card shall be canceled by a consular officer if information is developed indicating that the holder of such a card is ineligible to receive a visa or by a District Director of the Immigra-

tion and Naturalization Service if he finds that the alien has violated the conditions of his admission into the United States. In voiding such a card the consular officer or immigration officer shall write or stamp the word "Canceled" plainly across the face of the border crossing card stamp. The canceling endorsement shall be dated and signed by the consular officer or District Director taking the action and shall show the location of the consular office or District Office of the Immigration and Naturalization Service concerned.

Effective date: The regulation contained in this order shall become effective upon publication in the FEDERAL REGISTER.

The provisions of section 4 of the Administrative Procedure Act (80 Stat. 383; 5 U.S.C. 553) relative to notice of proposed rule making are inapplicable to this order because the regulation contained herein involves foreign affairs functions of the United States.

(Sec. 104, 66 Stat. 174; 8 U.S.C. 1104)

Dated: March 13, 1968.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 68-EA-13]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The Federal Aviation Administration is amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Mansfield, Ohio, control zone and transition area.

The Mansfield Municipal Airport, Mansfield, Ohio, name has been changed and will require an editorial change in the description of the control zone, and transition area.

Since the regulation is editorial and does not place additional burden on any person, notice and public procedure hereon are unnecessary and the regulation may be made effective in less than 30 days.

In view of the foregoing, the regulation is hereby adopted and becomes effective upon publication in the FEDERAL REGISTER as follows:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete in the description of the Mansfield,

Ohio, control zone the words "Mansfield Municipal Airport" and insert in lieu thereof "Mansfield Lahm Municipal Airport".

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete in the description of the Mansfield, Ohio, transition area the words "Mansfield Municipal Airport" and insert in lieu thereof "Mansfield Lahm Municipal Airport" and insert in lieu thereof "Mansfield Lahm Municipal Airport ILS" and insert in lieu thereof "Mansfield Lahm Municipal Airport ILS".

(Sec. 307(a), Federal Aviation Act of 1958; 72 Stat. 749; 49 U.S.C. 1348)

Issued in Jamaica, N.Y., on March 8, 1968.

[Airspace Docket No. 67-CE-161]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 469 of the FEDERAL REGISTER dated January 12, 1968, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transmission area at Fort Leonard Wood, Mo.

Interested persons were given 45 days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0001 e.s.t., May 23, 1968.

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Kansas City, Mo., on March 7, 1968.

DANIEL E. BARROW,
Acting Director, Central Region.

In § 71.181 (33 F.R. 2137), the following transition area is amended to read:

FORT LEONARD WOOD, MO.

That airspace extending upward from 700 feet above the surface within a 6-mile radius of Forney AAF (latitude 37°44'30" N., longitude 92°08'25" W.); 8 miles northeast and 5 miles southwest of the Forney AAF VOR 152° and 323° radials, extending from the VOR to 12 miles southeast and northwest of the VOR; and within 8 miles northeast and 5 miles southwest of the 146° bearing from Forney AAF RBN, extending from the RBN to 12 miles southeast of the RBN; and that airspace extending upward from 1,200 feet above the surface within 5 miles each side of the following direct radials: Maples, Mo., VORTAC to Forney AAF VOR; Maples VORTAC to Forney AAF RBN; Vichy, Mo., VORTAC to Forney AAF VOR; and Vichy VORTAC to Forney AAF RBN; and within 5 miles each side of the Forney AAF VOR 086° radial and the Forney AAF RBN 080° bearing

extending from the VOR and the RBN to V-72, excluding the portions which overlie the Vichy and Maples, Mo., transition areas.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 539 of the FEDERAL REGISTER dated January 16, 1968, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Sioux City, Iowa.

Interested persons were given 45 days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the amendment as so proposed is hereby adopted, subject to the following change:

The coordinates recited in the Sioux City, Iowa, Municipal Airport transition area alteration as "latitude 42°24'05" N., longitude 96°22'55" W." are changed to read "latitude 42°24'10" N., longitude 96°23'05" W."

This amendment shall be effective 0001 e.s.t., May 23, 1968.

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Kansas City, Mo., on March 7, 1968.

DANIEL E. BARROW,
Acting Director, Central Region.

In § 71.181 (33 F.R. 2137), the following transition area is amended to read:

SIoux CITY, IOWA

That airspace extending upward from 700 feet above the surface within a 10-mile radius of Sioux City Municipal Airport (latitude 42°24'10" N., longitude 96°23'05" W.); within 7 miles southwest and 8 miles northeast of the Sioux City ILS localizer southeast course, extending from the 10-mile radius area to 12 miles southeast of the OM; and within 7 miles northeast and 8 miles southwest of the Sioux City ILS localizer northwest course, extending from the 10-mile radius area to 12 miles northwest of Jackson, Nebr., RBN; and that airspace extending upward from 1,200 feet above the surface within a 27-mile radius of the Sioux City VORTAC; and the area bounded on the northeast by a line 5 miles northeast of and parallel to the Sioux City VORTAC 116° radial, on the southwest by a line 5 miles southwest of and parallel to the Sioux City VORTAC 140° radial, on the northwest by the 27-mile radius area and on the southeast by the arc of a 30-mile radius circle centered on the Sioux City ILS OM; and that airspace extending upward from 3,500 feet MSL east, south, and west of Sioux City bounded on the north by V-100, and the southeast by V-138, on the south by V-172, and on the west by longitude 98°00'00" W.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On pages 539 and 540 of the FEDERAL REGISTER dated January 16, 1968, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Lincoln, Nebr.

Interested persons were given 45 days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0001 e.s.t., May 23, 1968.

(Sec. 307(a) Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Kansas City, Mo., on March 7, 1968.

DANIEL E. BARROW,
Acting Director, Central Region.

In § 71.181 (33 F.R. 2137), the following transition area is amended to read:

LINCOLN, NEBR.

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Lincoln Municipal Airport (latitude 40°50'45" N., longitude 96°45'20" W.); within the area bounded by a line 5 miles west of and parallel to the Lincoln ILS localizer south course clockwise along a 17-mile arc centered on the Lincoln Municipal Airport to a line 2 miles east of and parallel to the Lincoln VORTAC 015° radial; and within 5 miles west and 9 miles east of the Lincoln ILS localizer south course, extending from the 9-mile radius area to 13 miles south of the OM; that airspace extending upward from 1,200 feet above the surface bounded by a line starting at the intersection of longitude 97°02'00" W. and the north edge of V-216, thence north to and clockwise around the arc of a 29-mile radius circle centered on Lincoln Municipal Airport, to latitude 41°15'00" N., longitude 96°35'00" W., thence northeast to latitude 41°19'00" N., longitude 96°30'00" W., thence southeast to latitude 41°16'00" N., longitude 96°23'00" W., thence south along longitude 96°23'00" W., to and west along the north edge of V-216 to the point of beginning; and that airspace extending upward from 3,500 feet MSL bounded by a line starting at the intersection of longitude 97°02'00" W. and the north edge of V-216, thence north to and clockwise around the arc of a 29-mile radius circle centered on Lincoln Municipal Airport to latitude 41°15'00" N., longitude 96°35'00" W., thence northeast to latitude 41°19'00" N., longitude 96°30'00" W., thence southeast to latitude 41°16'00" N., longitude 96°23'00" W., thence north along longitude 96°23'00" W., to and west along the south edge of V-172, to and south along longitude 98°00'00" W., to and east along the north edge of V-216 to the point of beginning.

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 8758; Amdt. 587]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to the standard instrument approach procedures contained herein are adopted to become effective when indicated in order to promote safety. The amended procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the complete procedure is republished in this amendment indicating the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 97 (14 CFR Part 97) is amended as follows:

1. By amending § 97.11 of Subpart B to amend low or medium frequency range (L/MF), automatic direction finding (ADF) and very high frequency omnirange (VOR) procedures as follows:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Roanoke, Va.—Roanoke Municipal, NDB (ADF) Runway 33, Orig., 23 Sept. 1967 (established under Subpart C).

3. By amending § 97.11 of Subpart B to cancel low or medium frequency range (L/MF), automatic direction finding (ADF) and very high frequency omnirange (VOR) procedures as follows:

Roanoke, Va.—Roanoke Municipal, NDB (ADF)-1, Amdt. 3, 11 Mar. 1967.

Roanoke, Va.—Roanoke Municipal, VOR-1, Amdt. 6, 11 Mar. 1967.

Roanoke, Va.—Roanoke Municipal, VOR-2, Amdt. 8, 11 Mar. 1967.

4. By amending § 97.15 of Subpart B to delete very high frequency omnirange-distance measuring equipment (VOR/DME) procedures as follows:

Akron, Ohio—Akron-Canton, VOR/DME Runway 23, Orig., 3 June 1967 (established under Subpart C).

5. By amending § 97.17 of Subpart B to delete instrument landing system (ILS) procedures as follows:

Akron, Ohio—Akron-Canton, ILS Runway 1, Amdt. 20, 15 Apr. 1967 (established under Subpart C).

Niagara Falls, N.Y.—Niagara Falls International, ILS Runway 28R, Amdt. 10, 4 Feb. 1967 (established under Subpart C).

Roanoke, Va.—Roanoke Municipal, ILS Runway 33, Orig., 23 Sept. 1967 (established under Subpart C).

6. By amending § 97.19 of Subpart B to delete radar procedures as follows:

RULES AND REGULATIONS

10. By amending § 97.31 of Subpart C to establish precision approach radar (PAR) and airport surveillance radar (ASR) procedures as follows:

STANDARD INSTRUMENT APPROACH PROCEDURE—TYPE RADAR

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL, except HAT, HAA, and RA. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles or hundreds of feet RVR.

If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure authorized for such airport by the Administrator. Initial approach minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at Pilot's discretion if it appears desirable to discontinue the approach. Except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

Revocation

The Federal Import Milk Act prohibits importation of milk or cream unless the importer holds a valid permit from the Secretary of Health, Education, and Welfare. Milk or cream is considered unfit for importation unless the cows have been examined within the previous year and found healthy and free of tuberculosis and all dairy farms and plants involved have been found to meet certain sanitary requirements.

In a statement of policy (21 CFR 3.56) published in the FEDERAL REGISTER of September 10, 1966 (31 F.R. 11935), the Food and Drug Administration announced that the provisions of the Federal Import Milk Act apply to "all imported milk and cream, whether sterilized or not." Subsequently, objections received regarding § 3.56 were referred to the Department of Justice with a request for an opinion. That Department concludes that imported milk products in hermetically sealed cans so processed by heat as to prevent spoilage are not subject to the provisions of the Federal Import Milk Act.

Therefore, pursuant to the provisions of said act (secs. 1-9, 44 Stat. 1101-1103, as amended; 21 U.S.C. 141-149) and under the authority delegated to the

Commissioner of Food and Drugs by the Secretary (21 CFR 2.120), Part 3 is amended by revoking § 3.56 *Imported canned heat-processed milk products under the Federal Import Milk Act.*

This action shall not be construed as exempting such products from any of the applicable provisions of the Federal Food, Drug, and Cosmetic Act or regulations promulgated thereunder.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Secs. 1-9, 44 Stat. 1101-1103, as amended; 21 U.S.C. 141-149)

Dated: March 13, 1968.

J. K. KIRK,
 Associate Commissioner
 for Compliance.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

SUBCHAPTER I—ANCHORAGES

[CGFR 68-30]

PART 110—ANCHORAGE REGULATIONS

Mississippi River Below Baton Rouge, La., Including South and Southwest Passes

1. The purpose of this document is to delegate authority to the Commander,

8th Coast Guard District, New Orleans, La., to establish temporary anchorages on the Mississippi River from mile 233 at Baton Rouge, La., to Head of Passes, La., and to ratify the actions of the Commander, 8th Coast Guard District taken on June 29, 1967, and October 27, 1967, to establish and discontinue the use of the following temporary anchorage areas on the Mississippi River:

a. An area approximately 3,500 feet in length, extending from mile 168.5 AHP to mile 169.2 AHP, bounded by the left descending bank and a line 500 feet channelward therefrom. This anchorage will be restricted to use by a maximum of three ships at any one time;

b. An area approximately 3,500 feet in length, extending from mile 166.3 AHP to mile 167.0 AHP, bounded by the left descending bank and a line 800 feet channelward therefrom;

c. An area approximately 11,144 feet in length, extending from mile 85.0 AHP to mile 82.7 AHP bounded on the right descending bank and a line 800 feet channelward therefrom; and

d. An area approximately 9,500 feet in length extending from mile 80.8 AHP to mile 79.0 AHP bounded by the right descending bank and a line 800 feet channelward therefrom;

e. The area described as being in the vicinity of mile 169.5 AHP between the right descending bank and a line drawn parallel to this bank not more than 500 feet therefrom, is no longer designated as a temporary anchorage area and its use is discontinued; and

f. The area described as being in the vicinity of mile 87.5 AHP and mile 85.0 AHP between the right descending bank and a line drawn parallel to this bank not more than 800 feet therefrom, is no

longer designated as a temporary anchorage area and its use is discontinued.

2. On March 30, 1967, a special notice was published by the District Engineer, New Orleans District, Corps of Engineers, Department of the Army, in Navigation Bulletin No. 67-53, proposing changes in temporary anchorage areas between mile 166.0 AHP and mile 170.5 AHP, Mississippi River. Interested persons were invited to file written comments about this proposal. No objections to the proposal were received. Transfer of authority and responsibility for anchorage areas to the Department of Transportation has been effected and assigned to the U.S. Coast Guard.

3. On September 5, 1967, a special notice was published by Commander, 8th Coast Guard District, New Orleans, La., proposing changes in temporary anchorage areas between mile 87.5 AHP and mile 82.7 AHP, Mississippi River. Interested persons were invited to file written comments about this proposal. A hearing open to all interested parties was held at 1400, October 12, 1967, at the office of the Commander, 8th Coast Guard District, Custom House, New Orleans, La. No objections to the proposed changes were received.

4. By virtue of the authority vested in me as Commandant, U.S. Coast Guard, by 14 U.S.C. 632 and the delegation in 49 CFR 1.4(a)(3) of the Secretary of Transportation under 49 U.S.C. 1655 (g)(1), the text of § 110.195(a)(6) is amended to read as follows, and shall become effective on the date of publication of this document in the FEDERAL REGISTER:

§ 110.195 Mississippi River below Baton Rouge, La., including South and Southwest Passes.

(a) * * *

(6) *Temporary anchorages, Baton Rouge, New Orleans to Head of Passes.* Vessels awaiting berthing at riverside wharves between Head of Passes and mile 233 above Head of Passes will anchor in a manner and area as prescribed by the District Commander.

(Sec. 7, 38 Stat. 1053, as amended, sec. 6(g)(1), 80 Stat. 940; 33 U.S.C. 471, 49 U.S.C. 1655(g)(1); 49 CFR 1.4(a)(3))

Dated: March 15, 1968.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 11—Coast Guard, Department of Transportation

[CGFR 67-94]

MISCELLANEOUS AMENDMENTS TO CHAPTER

Pursuant to authority vested in me as Commandant, U.S. Coast Guard, by 49 CFR 1.4:

PART 11-1—GENERAL

Subpart 11-1.3—General Policies

1. Section 11-1.352 is revised to read as follows:

§ 11-1.352 Industrial security.

Pursuant to Executive Order 10865, an agreement between the Department of Defense and the Department of Transportation was executed on June 1, 1967, which provides for inclusion of the Transportation Department as a "user agency" in the program. The Office of Security and Investigations of the Department of Transportation has been designated as Transportation Department liaison for industrial security matters. The Defense Supply Agency will perform all cognizant security office functions prescribed by the regulations in behalf of all user agencies. Coast Guard contracting officers will perform the functions specified in, and will have the authority and responsibilities prescribed by Department of Defense Industrial Security Regulations (DoD 5220.22R), and Department of Defense Industrial Security Manual (DoD 5220-22M), except when the administrative contracting officer functions are delegated or assigned to the Defense Supply Agency.

Subpart 11-1.8—Labor Surplus Area Concerns

1. Section 11-1.807 is revised to read as follows:

§ 11-1.807 Report on preference procurement in labor surplus areas.

Reports required by § 1-1.807 will be forwarded to the Commandant (FS) within 20 work days after the close of each reporting period identified by Reports Control Symbol FS-6131. The Commandant (FS) will submit a consolidated report for the Coast Guard to the Department of Transportation (Director of Logistics and Procurement Policy) by the 35th work day after the close of each reporting period. Negative reports are required.

Subpart 11-1.9—Reporting Possible Antitrust Violations

§ 11-1.901 [Amended]

1. Section 11-1.901 *General* is amended by changing in the third sentence the phrase from "the Attorney General of the United States" to "the Department of Transportation (Director of Logistics and Procurement Policy)."

Subpart 11-1.16—Report of Identical Bids

1. Section 11-1.1603-3 is revised to read as follows:

§ 11-1.1603-3 Submission of reports.

Identical bid reports required in § 1-1.1603-3 will be submitted with three additional copies to the Commandant (FS) for required distribution.

PART 11-3—PROCUREMENT BY NEGOTIATION

Subpart 11-3.2—Circumstances Permitting Negotiation

§ 11-3.211 [Amended]

1. Section 11-3.211 *Experimental, development, or research work* is amended by changing in paragraph (b) the phrase from "the Secretary of the Treasury" to "the Secretary of Transportation" and in paragraph (c)(1) the phrase from "the Secretary of Treasury" to "the Department of Transportation (Director of Logistics and Procurement Policy)."

§ 11-3.212 [Amended]

2. Section 11-3.212 *Purchases not to be publicly disclosed* is amended by changing the phrase from "the Secretary of the Treasury" to "the Secretary of Transportation."

§ 11-3.213 [Amended]

3. Section 11-3.213 *Technical equipment requiring standardization and interchangeability of parts* is amended by changing the phrase from "the Secretary of the Treasury" to "the Secretary of Transportation."

§ 11-3.214 [Amended]

4. Section 11-3.214 *Negotiation after advertising* is amended by changing in paragraphs (a) and (b) the phrase from "the Secretary of the Treasury" to "the Secretary of Transportation."

§ 11-3.250 [Amended]

5. Section 11-3.250 *Technical or specialized supplies requiring substantial initial investment or extended period of preparation for manufacture* is amended by changing in paragraph (c) the phrase from "the Secretary of the Treasury" to "the Secretary of Transportation."

§ 11-3.251 [Amended]

6. Section 11-3.251 *Purchases in the interest of national defense or industrial mobilization* is amended by changing in paragraph (d) the phrase from "the Secretary of the Treasury" to "the Secretary of Transportation."

Subpart 11-3.3—Determinations, Findings and Authorities

§ 11-3.300 [Amended]

1. Section 11-3.300 *Scope of subpart* is amended by changing the phrase from "the Secretary of the Treasury" to "the Secretary of Transportation."

PART 11-12—LABOR

Subpart 11-12.4—Labor Standards in Construction Contracts

1. Section 11-12.404-8 is added, reading as follows:

§ 11-12.404-8 Reports of violations.

(a) *Enforcement reports.* Reports of violations required by § 1-12.404-8(a) of this title shall be submitted via the Commandant (CL) for review and processing.

(b) *Semiannual enforcement reports.* Reports (Reports Control Symbol FS-6150) shall be prepared semiannually to cover the periods January 1 through June 30, and July 1 through December 31 of each year. District commanders and commanding officers of Headquarters units will submit their reports, in an original only, to Commandant (FS) prior to July 15 and January 15 for consolidation and submission of a Coast Guard report, in an original only, to the Department of Transportation (Director of Logistics and Procurement Policy) prior to July 25 and January 25.

PART 11-16—PROCUREMENT FORMS

Subpart 11-16.8—Miscellaneous Forms

1. In § 11-16.804 paragraph (b) is revised to read as follows:

§ 11-16.804 Report on procurement by civilian executive agencies.

(b) *Frequency and due date.* Reports (Reports Control Symbol FS-6129) shall be prepared semiannually to cover the periods January 1 through June 30, and July 1 through December 31 of each year. The district office report will include data compiled from district unit reports. District commanders and commanding officers of Headquarters units will submit their reports, in an original only, to Commandant (FS) prior to July 15 and January 15 for consolidation and submission of a Coast Guard report, in an original only, to the Department of Transportation (Director of Logistics and Procurement Policy) prior to August 1 and February 1.

Dated: March 7, 1968.

- PART 101-7—NATIONAL ARCHIVES
- PART 101-9—FEDERAL RECORDS CENTERS
- PART 101-10—PRESIDENTIAL LIBRARIES
- Deletion of Parts

This amendment deletes Parts 101-7, 101-9, and 101-10 from Chapter 101. The subject matter formerly in these parts has been revised and consolidated in Part 105-61 of Chapter 105 (General Services Administration) of Title 41, Code of Federal Regulations.

1. The table of contents for Subchapter B is amended by deleting all entries for Parts 101-7, 101-9, and 101-10 and by substituting therefor the new part designations "Reserved," as follows:

- Part 101-7 [Reserved]
- Part 101-9 [Reserved]
- Part 101-10 [Reserved]

2. Part 101-7 of Chapter 101 is deleted.

Part 101-7 [Reserved]

3. Part 101-9 of Chapter 101 is deleted.

Part 101-9 [Reserved]

4. Part 101-10 of Chapter 101 is deleted.

Part 101-10 [Reserved]

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This regulation is effective upon publication in the FEDERAL REGISTER.

Dated: March 15, 1968.

J. E. MOODY,
Acting Administrator
of General Services.

Chapter 105—General Services Administration

SUBCHAPTER B—ARCHIVES AND RECORDS

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

The following regulations revise procedures applicable to the General Services Administration and the public regarding (1) requests for identifiable records by the public pursuant to 5 U.S.C. 552 (the "Freedom of Information Act") and subpoenas or other legal demands with respect to records held by GSA, and (2) the public use of archives, Federal record center records, and donated historical materials, as well as certain structural facilities, under the management and administration of the National Archives and Records Service, GSA.

PART 105-60—PUBLIC AVAILABILITY OF AGENCY RECORDS AND INFORMATIONAL MATERIALS

Section 105-60.000 is revised to clarify the scope of Part 105-60 so as to indicate coverage of records managed and administered by GSA as well as current operating records. As revised, the section reads as follows:

§ 105-60.000 Scope of part.

This part sets forth policies and procedures concerning the disclosure and availability to the public of records and information held by GSA with respect to: (a) Agency organization, functions, decisionmaking channels, and rules and regulations of general applicability, (b) agency final opinions and orders, including policy statements and staff manuals, (c) operational and other appropriate agency records, and (d) agency proceedings. The part also covers exemptions from disclosure of such materials, procedures for the guidance of the public in obtaining information and inspecting records, service of subpoena or other legal demand with respect to records, and authentication and attestation of record copies.

Subpart 105-60.1—General Provisions

1. Section 105-60.104(a) (3) is added to indicate expressly that donated historical materials accepted by GSA from a source other than an agency of the United States Government in accordance with 44 U.S.C. 397 are not subject to the provisions of the "Freedom of Information Act." As added, the section reads as follows:

§ 105-60.104 Definitions.

(a) * * *

(3) Donated historical materials (as defined in § 105-61.001-4) accepted by GSA from a source other than an agency of the U.S. Government in accordance with the provisions of 44 U.S.C. 397.

2. Section 105-60.106 is revised to refer specifically to the application of the executive privilege disclosure exemption to requests for information from the Congress. As revised, the section reads as follows:

§ 105-60.106 Congressional information.

Nothing in this Part 105-60 authorizes withholding information from the Congress except where executive privilege is invoked by the President (see § 105-60.603).

3. Section 105-60.107 is revised to clarify procedures with respect to requests for records of other agencies, held by GSA. As revised, the section reads as follows:

§ 105-60.107 Records and informational materials of other agencies.

(a) *Other agencies' records managed and administered by GSA.* The availability of records of other agencies located in the National Archives of the United States and Federal records centers are governed by Part 105-61 (Public Use of Records, Donated Historical Materials, and Facilities in the National Archives and Records Service).

(b) *Current records of other agencies.* If a request is submitted to GSA to make available current records or informational materials which are the primary responsibility of other agencies, but which are in GSA for review purposes, the request will be referred by GSA to the agency concerned for instructions, unless prior instructions have been received from the agency.

4. Section 105-60.109 is added to establish procedures to be followed where it is believed that the records requested may be involved in litigation or other judicial process in which the United States is a party, including discovery procedures pursuant to the Federal Rules of Civil Procedure or the Federal Rules of Criminal Procedure. As added, the new section reads as follows:

§ 105-60.109 Records involved in litigation or other judicial process.

Where there is reason to believe that any records requested may be involved in litigation or other judicial process in

which the United States is a party, including discovery procedures pursuant to the Federal Rules of Civil Procedure or Federal Rules of Criminal Procedure, the request shall be referred to appropriate legal counsel for immediate coordination with the Department of Justice. Pending receipt of advice from that Department, the records involved shall not be made available.

Subpart 105-60.4—Identifiable Records

Subpart 105-60.4 is amended by changing the caption from "Agency Records" to "Identifiable Records" and by revising §§ 105-60.401, 105-60.402, and 105-60.402-1(a), as follows:

1. Section 105-60.401 is revised to reference certain procedures under Part 105-61 pertaining to the public availability of records transferred to the National Archives and Records Service, GSA, and to cross-reference § 105-60.109. As revised, the section reads as follows:

§ 105-60.401 General.

Except with respect to the records made available pursuant to Subparts 105-60.2 and 105-60.3, identifiable records requested in accordance with § 105-60.402, or in accordance with § 105-61.101 or § 105-61.104, will be made promptly available to any person by GSA, unless nondisclosure is invoked pursuant to § 105-60.105-2. While the burden of identification rests with the person seeking the record, GSA will assist to the extent practicable in this regard. Where it is believed that records requested may be involved in litigation or other judicial process in which the United States is a party, the procedures set forth under § 105-60.109 shall be followed.

2. Section 105-60.402 is revised to set forth the scope of coverage of the section. The revision specifies that records transferred to the National Archives and Records Service, GSA, are subject to procedures under Part 105-61 and are not within the scope of § 105-60.402. The revision also provides cross-references to procedures in Part 105-61 applicable to the public use of records transferred to the National Archives and Records Service. As revised, the section reads as follows:

§ 105-60.402 Procedures for making records available.

This section sets forth initial procedures for making identifiable records available when requested. These procedures do not apply to records that have been transferred to the National Archives and Records Service in accordance with the Federal Records Act of 1950 (44 U.S.C. 392-401), which include "archives" and "FRC records" (as defined in §§ 105-61.001-2 and 105-61.001-3). The initial procedures on availability of such records are governed by Part 105-61 (see §§ 105-61.101 and 105-61.104).

3. Section 105-60.402-1(a) is revised to clarify instructions regarding the GSA office to which requests for identifiable records shall be submitted by the

public and to delete obsolete references to the National Archives and Records Service. As revised, the section reads as follows:

§ 105-60.402-1 Submission of requests for identifiable records.

(a) With respect to identifiable records located in the GSA Central Office, requests shall be submitted, in writing or in person, to the Director of Information, Office of the Administrator, General Services Administration, Washington, D.C. 20405. With respect to identifiable records located in the GSA regional offices, requests shall be submitted to the Regional Director of Business Affairs for the particular region involved at the address listed in § 105-60.303(a).

Subpart 105-60.6—Exemptions

1. Section 105-60.603 is revised to clarify procedures involving the applicability of the executive privilege exemption regarding disclosure of records in judicial or adjudicatory proceedings. As revised, the section reads as follows:

§ 105-60.603 Executive privilege exemption.

On signing Public Law 89-487, the President stated "Moreover, this bill in no way impairs the President's power under our Constitution to provide for confidentiality when the national interest so requires" (2 Weekly Compilation of Presidential Documents 895, July 11, 1966). Where application of the executive privilege exemption is desired, the matter shall be forwarded to the Administrator for consideration. If the request for information is Congressional, only the President may invoke the exemption. Presidential approval is not necessarily required where the request for information is in connection with judicial or adjudicatory proceedings or otherwise. In connection with judicial proceedings, the response shall be coordinated with the Department of Justice.

2. Section 105-60.604(b) (8) is revised to correct obsolete cross-references. As revised, it reads as follows:

§ 105-60.604 Other statutory exemptions.

(b) * * * * *
(8) 44 U.S.C. 397 (nondisclosure of certain records in the National Archives, Federal records centers, and Presidential archival depositories; see Part 105-61 of this subchapter).

Subpart 105-60.7—Subpoenas or Other Legal Demands for Records and Authentication of Copies of Records

1. Section 105-60.701 is revised by deleting the text thereof and by substituting therefor a new § 105-60.701-1, concerning service of subpoena or other legal demands with respect to GSA records, and a new § 105-60.701-2, concerning service of subpoenas or other legal demands with respect to records

transferred to the National Archives and Records Service. As revised, the section reads as follows:

§ 105-60.701 Service of subpoena or other legal demand.

§ 105-60.701-1 GSA records.

(a) A subpoena duces tecum or other legal demand for the production of records held by GSA shall be addressed to the appropriate Regional Director of Business Affairs or Regional Administrator with respect to regional records; to the Director of Information, Washington, D.C., with respect to Central Office records; or to the Administrator of General Services.

(b) The General Counsel and, with respect to records in a GSA regional office, the Regional Counsel are authorized to accept service of a subpoena duces tecum or other legal demand on behalf of the officials designated in paragraph (a) of this § 105-60.701-1.

(c) When such subpoena or demand is served on any officer or employee of GSA other than as provided in paragraphs (a) and (b) of this § 105-60.701-1, he shall, unless otherwise directed by the Administrator, respectfully decline to produce such records on the ground that he is without authority under this Subpart 105-60.7 to do so.

§ 105-60.701-2 Records transferred to the National Archives and Records Service.

(a) Access to "FRC records" (§ 105-61.001-3) is controlled by the instructions and restrictions imposed on GSA by the Federal agency which transferred the records to the Federal records center. Accordingly, a subpoena duces tecum or other legal demand for the production of "FRC records" will be honored by GSA if no restrictions have been imposed by the transferring agency. On the other hand, where restrictions have been imposed by the transferring Federal agency, the authority issuing the subpoena or other legal demand will be notified of that fact and be requested to take up the matter further with the transferring agency, since GSA must decline to release the records. The subpoena or other legal demand for "FRC records" may be served only on the Administrator of General Services, the Archivist of the United States, the General Counsel, a Regional Administrator or a Regional Counsel, as appropriate, or the manager of the Federal records center in which the records are stored. Any such demands will be reported to the agency whose records are involved.

(b) A subpoena duces tecum or other legal demand for the production of records designated as "archives" or "donated historical materials" administered by the National Archives and Records Service (§§ 105-61.001-2 and 105-61.001-4) may be served only on the Administrator of General Services, the Archivist of the United States, the General Counsel, or the cognizant Assistant Archivist or, as appropriate, on a Regional Administrator, a Regional Counsel, a manager of a Federal records center, or a director of a Presidential library.

(c) When such subpoena or demand is served on any officer or employee of GSA other than as provided in paragraphs (a) and (b) of this § 105-60.701-2, he shall, unless otherwise directed by the Administrator, respectfully decline to produce such records on the ground that he is without authority under this Subpart 105-60.7 to do so.

2. Section 105-60.702(a) is revised by adding an appropriate cross-reference to Part 105-61. As revised, it reads as follows:

§ 105-60.702 Compliance with subpoena or other legal demand.

(a) Such served officials will comply with the subpoena or demand insofar as practicable by submitting authenticated copies of the records, or the original records if necessary. However, the records shall not be produced where to do so would be contrary to the governing policies stated in 5 U.S.C. 552 and Parts 105-60 and 105-61.

3. Section 105-60.703 is revised by adding appropriate cross-references to §§ 105-61.107 and 105-61.108. As revised, the section reads as follows:

§ 105-60.703 Authentication and attestation of copies.

The Head of the Service or Staff Office having the records, or his superiors, or if the records are in a GSA regional office, the Head of the Regional Service or Staff Office concerned, or his superiors, are authorized to authenticate and attest, for and in the name of the Administrator of General Services, copies or reproductions of the records. Appropriate fees will be charged for such copies or reproductions (see § 105-60.303 (d) (3) and (e)). With respect to records transferred to the National Archives and Records Service, authentication and attestation and fee procedures set forth in §§ 105-61.107 and 105-61.108 will be followed.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); and 81 Stat. 54, U.S.C. 552)

AUTHORITY: The provisions of this Part 105-61 issued under sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

§ 105-61.000 Scope of part.

This part prescribes rules and procedures governing the public use of records and donated historical materials that have been transferred to the National Archives and Records Service, GSA, but does not apply to current operating records of the Service. This part also prescribes rules and procedures governing the public use of certain facilities of the Service.

§ 105-61.001 Definitions.

The following definitions are established for terms used in this part.

§ 105-61.001-1 Records.

"Records" means only records that have been transferred to the National

Archives and Records Service, in accordance with the Federal Records Act of 1950 (44 U.S.C. 392-401); namely, archives and Federal records center records, as those terms are defined in this § 105-61.001. The term "records" does not include current operating records of the National Archives and Records Service, the public availability of which is governed by Part 105-60, or donated historical materials, as defined and considered in this part.

§ 105-61.001-2 Archives.

"Archives" means official records that have been determined by GSA to have sufficient historical or other value to warrant their continued preservation by the U.S. Government, and have been accepted for deposit with the National Archives of the United States.

§ 105-61.001-3 Federal records center records.

"Federal records center records" (hereafter referred to as "FRC records") means records which, pending their deposit with the National Archives of the United States or their disposition in any other manner authorized by law, have been transferred to a Federal records center operated by GSA.

§ 105-61.001-4 Donated historical materials.

"Donated historical materials" means books, correspondence, documents, papers, pamphlets, magnetic tapes, pictures, photographs, plats, maps, films, motion pictures, sound recordings, and other documentary media having historical or commemorative value accepted by GSA from a source other than an agency of the U.S. Government.

§ 105-61.001-5 Director.

"Director" means the head of a Presidential library, the head of an Office of the National Archives division, branch, or unit responsible for servicing records, the head of a Reference Service Branch in a Federal records center, or the head of the Archives Branch of the Washington National Records Center.

§ 105-61.001-6 Researcher.

"Researcher" means a person who has applied for access to records or donated historical materials, in accordance with § 105-61.101-3, and who has been issued a researcher identification card.

Subpart 105-61.1—Public Use of Archives and FRC Records

§ 105-61.101 Availability of records.

§ 105-61.101-1 General.

(a) Researchers will normally use records in designated research rooms only.

(b) Original records will not normally be made available when microfilm copies are available.

(c) Persons seeking information that is published and readily available will normally be referred to a public library.

(d) Records will not be furnished to a researcher under the age of 16 years unless he is accompanied by an adult

researcher who agrees, in writing, to be present when the records are used and to be responsible for compliance with the research room rules set forth in § 105-61.103.

§ 105-61.101-2 Location of records and hours of use.

(a) A prospective researcher should first ascertain the location of the records desired. Inquiries may be addressed to the Archivist of the United States, Washington, D.C. 20408.

(b) The locations and hours of duty (expressed in local time) of depositories administered by the National Archives and Records Service are shown in § 105-61.4801.

(c) Except for Federal holidays and other times specified by the Archivist, records will be made available according to the schedule set forth in § 105-61.4801.

(d) In addition to the times specified in § 105-61.4801, records may be made available at such other times as authorized by a director.

§ 105-61.101-3 Application procedures.

(a) Applicants shall apply in person at the depository that has custody of the records sought and shall furnish, on a form provided for the purpose, information necessary for registration and for determining which records will be made available. Applicants shall furnish proper identification and, if applying for access to large quantities of records or to records that are especially fragile or valuable, shall upon request furnish a letter of reference or introduction.

(b) In advance of applying for the use of records, a prospective researcher is encouraged to determine from the appropriate depository whether the records are available and whether their volume is sufficient to warrant a personal visit in lieu of reproduction.

(c) In addition to the procedures prescribed in this § 105-61.101-3, researchers desiring to apply for the use of archives records that contain defense-classified information shall follow procedures prescribed in § 105-61.104.

§ 105-61.101-4 Researcher identification card.

A researcher identification card will be issued to each person whose application is approved. The card will be valid for the use of records at only the depository where it was issued, and for a period of not more than 1 year, but it may be renewed upon application. Cards are not transferable and shall be produced when requested by a guard or research room attendant.

§ 105-61.102 Restrictions and appeals.

§ 105-61.102-1 Restrictions.

The use of records is subject to any restrictions specified in writing by the agency from which the records were transferred and to restrictions set forth by the Archivist of the United States in pertinent Restriction Statements. The use of FRC records that have been restricted by the agency from which the records were transferred is governed by

access procedures prescribed by that agency.

§ 105-61.102-2 Denials and appeals.

Denials of use of records, except those made in the normal course of reference service, shall be made by the Deputy Archivist of the United States, in accordance with § 105-60.403, and any resulting appeals shall be made and conducted in accord with § 105-60.404.

§ 105-61.103 Research room rules.

§ 105-61.103-1 Registration.

Researchers shall register each day they enter a research room, furnishing the information specified on the registration form.

§ 105-61.103-2 Researcher's responsibility for records.

The research room attendant may limit the quantity of records to be delivered at one time to a researcher. When requested, researchers shall acknowledge receipt of records by signature. A researcher is responsible for all records delivered to him until he returns them. When a researcher has completed his use of records, he shall return them to the research room attendant. When requested, researchers shall return records as much as 10 minutes before closing time. Before leaving a research room, even for a short period of time, a researcher shall notify the research room attendant and place all records in their proper containers.

§ 105-61.103-3 Prevention of damage to records.

The researcher shall exercise all possible care to prevent damage to records. Records shall not be used at a desk where there is a container of liquid or where a fountain pen is being used. Records shall not be leaned on, written on, folded anew, traced, fastened with paper clips or rubber bands, or handled in any way likely to cause damage. The use of records of exceptional value or in fragile condition shall be subject to any conditions specified by the research room attendant.

§ 105-61.103-4 Removal or mutilation of records.

Researchers shall not remove records from a research room. The unlawful removal or mutilation of records is forbidden by law and is punishable by fine or imprisonment or both (18 U.S.C. 2071). When so requested, researchers shall check parcels and luggage before entering a research room; and upon leaving, a researcher shall, if so requested, present for examination any briefcase, notebook, package, envelope, book, or other article that could contain records.

§ 105-61.103-5 Conduct.

Researchers are subject to the provisions of Subpart 101-19.3, Conduct on Federal Property. Eating in a research room is prohibited. Smoking is prohibited except in designated smoking areas. Loud talking and other activities likely to disturb other researchers are also prohibited. Persons desiring to use type-

writers, sound recording devices, or photocopying equipment shall work in areas designated by the research room attendant.

§ 105-61.103-6 Keeping records in order.

A researcher must keep unbound records in the order in which they are delivered to him. Records appearing to be in disorder should not be rearranged by a researcher, but should be referred to the research room attendant. Normally, a researcher will not be allowed to remove records from more than one container at a time.

§ 105-61.104 Access to defense-classified archives records.

Access to archives records containing classified-defense information will be governed by Executive Order 10501 (3 CFR), as amended, particularly by Executive Order 10816 (3 CFR).

§ 105-61.104-1 Application procedures.

(a) Any person desiring permission to examine such records shall, sufficiently in advance, submit to the Archivist of the United States a completed application, a set of his fingerprints, and personal history data on forms that will be furnished. Applications will be referred by the Archivist to agencies having responsibility for the related defense programs and will be processed by those agencies in accord with Executive Order 10816. Records can be made available for examination only after each appropriate agency has authorized the Archivist to make them available.

(b) The requirement for submission of a fingerprint set or of personal history data may be waived for an applicant who has previously furnished those items.

§ 105-61.104-2 Rules governing use.

To guard against the possibility of unauthorized access to restricted records, a director may issue instructions supplementing the research room rules in § 105-61.103.

§ 105-61.105 Copying services.

The copying of records will normally be done by personnel of the National Archives and Records Service with equipment belonging to the Service. With the permission of a director, researchers may use their own copying equipment. Permission will be based on the director's determination that such use will not harm the records or disrupt reference activities. Equipment will be used under the supervision of personnel of the Service.

§ 105-61.106 Information services.

§ 105-61.106-1 About records.

Upon request, overall information pertaining to holdings or about specific records will be furnished, provided that the time required to furnish the information is not excessive, and provided that the information is not restricted (see § 105-61.102). When so specified by a director, requests shall be made on prescribed forms.

§ 105-61.106-2 From records.

Normally, information contained in the records will be furnished in the form of photocopies of the records, subject to the provisions of § 105-61.105. The National Archives and Records Service will certify facts and make administrative determinations on the basis of archives or FRC records when appropriate officials of other agencies have authorized GSA to do so. When similarly authorized, such certifications and determinations will be authenticated by the seal of GSA or by the seal of the National Archives of the United States.

§ 105-61.107 Authentication of copies.

The responsible director, or any of his superiors, and the Director of the Federal Register are authorized to authenticate and attest copies of records.

§ 105-61.108 Fees.

Fees charged for the reproduction, certification, and authentication of records must be paid in advance, except when the appropriate director approves a request for handling them on an accounts receivable basis. Fees may be paid in cash or by check or money order made payable to GSA. Remittances from outside the United States should be made by international money order or check drawn in U.S. dollars on a bank in the United States or one of its territories or possessions.

§ 105-61.109 Subpoenas and other legal demands.

The handling of subpoenas duces tecum or other legal demands for records will be in accord with Subpart 105-60.7.

Subpart 105-61.2—Public Use of Donated Historical Materials

§ 105-61.201 General.

The use of donated historical materials (as defined in § 105-61.001-4) is governed by the provisions of Subpart 105-61.1, except that § 105-61.202 shall apply in lieu of § 105-61.102.

§ 105-61.202 Restrictions.

The public use of donated historical materials is subject to the following restrictions:

(a) Use is subject to all conditions specified by the donor or transferor of such materials or by the Archivist of the United States.

(b) Use must relate to a study that has a serious and useful purpose, as determined by the appropriate director.

(c) Publication of such materials, where the literary property right in the materials is vested in the Government, is prohibited without the written authorization of the appropriate director. (Researchers are encouraged to confer with directors on any question of literary property right.)

Subpart 105-61.3—Public Use of Facilities of the National Archives and Records Service

§ 105-61.301 Facilities in the Archives Building.

Facilities in the Archives Building include the exhibition hall, library, and

theater as further described in this subpart. Additional conditions for use of these facilities are set out in § 105-61.306.

§ 105-61.302 The National Archives Exhibition Hall.

Unless otherwise directed by the Archivist of the United States, the National Archives Exhibition Hall is open to the public from 9 a.m. to 10 p.m. on weekdays and holidays and from 1 p.m. to 10 p.m. on Sundays. It is closed on Christmas and New Year's days. On Mondays through Fridays and before 5:15 p.m. on Saturdays, visitors may use either the Pennsylvania Avenue entrance, opposite Eighth Street, or the Constitution Avenue entrance; on Sundays and holidays and after 5:15 p.m. on Saturdays, the Constitution Avenue entrance only is open.

§ 105-61.303 The National Archives Library.

The National Archives Library is operated to meet the needs of researchers and GSA staff members. Other persons desiring to use library materials will generally be referred to public libraries and other possible sources of such materials.

§ 105-61.304 The National Archives Theater.

§ 105-61.304-1 Purposes of use.

The theater in the Archives Building was designed and will be used primarily for furnishing reference services on the motion picture holdings of the National Archives. When not required for such use, assignments to other organizations may be made. Application for such use will be approved only if the purpose for which it is requested is related to the programs of the National Archives and Records Service. The theater shall not be used to promote commercial enterprises or commodities, for political, sectarian, or similar purposes, or for meetings sponsored by profitmaking organizations. Use of the theater will not be authorized for any organization or group of individuals that engages in discriminatory practices proscribed in the Civil Rights Act of 1964 (42 U.S.C. 2000a, note).

§ 105-61.304-2 Application for use.

(a) Applications for use of the theater shall be submitted in writing by the head of the requesting organization, or his duly authorized representative, at least 1 week in advance of the requested use. Applications for use shall be addressed to the General Services Administration, National Archives and Records Service, Office of Administration and Technical Services, Washington, D.C. 20408, and shall include the following information:

(1) The name of the requesting organization;

(2) The date and the hours of contemplated use;

(3) A brief description of the program;

(4) The number of persons expected to attend the meeting or performance (the capacity of the theater is 216 persons);

(5) A statement as to whether it is the intention to exhibit motion pictures

or slides, and if so, the size of the film (35 mm. to 16 mm.) or slides, and whether the film to be shown is on nitrate or safety base; and

(6) Samples of any literature, folders, or posters to be distributed or exhibited at the meeting or performance.

(b) No program will be permitted to continue beyond 10 p.m.

(c) Applications for use on Saturdays, Sundays, holidays, or at times when the building is closed will be considered if fully justified.

(d) No admission fee will be charged, no indirect assessment will be made for admission, and no collection will be taken. Commercial advertising or the sale of articles is not permitted.

(e) The serving or consumption of food or beverages within the theater is prohibited.

(f) Smoking within the theater is prohibited.

(g) If the projection of motion pictures or slides is a part of the program, operators will be furnished by the National Archives and Records Service on a reimbursable basis.

(h) Posting of any material about the premises is subject to prior approval.

(i) All persons attending meetings or performances will be required to go directly to the theater, which is on the fifth floor. No one will be admitted to the parts of the building which are closed to the public.

§ 105-61.305 Facilities in Presidential libraries.

§ 105-61.305-1 Museum areas.

(a) Unless otherwise directed by the library director, the hours of admission to museums of the libraries are as follows:

(1) Monday through Saturday, 9 a.m. to 5 p.m., including Federal legal holidays.

(2) Sunday, 2 p.m. to 5 p.m. (10 a.m. to 5 p.m. from May 16 to September 15), including Federal legal holidays.

(3) Museums will be closed on Thanksgiving, Christmas, and New Year's days.

(b) Visitors to the museums of the libraries may be required to check all parcels and luggage at designated places.

(c) Eating and smoking are prohibited in the museums of the libraries and in other library areas except where designated by the library director.

§ 105-61.305-2 Auditoriums.

(a) Library auditoriums are designed to serve the purposes of the libraries, through lectures, seminars, meetings of professional societies, showings of historical motion pictures, and similar activities. A library director may approve applications for use by professional, scientific, educational, or civic organizations, provided that the purpose of the use is related to the activities of the library. Application for such use shall be made in writing to the library director.

(b) Use of the auditoriums will not be authorized for any profitmaking, political, sectarian, or similar purpose, or for any organization or group that engages in discriminatory practices proscribed in the Civil Rights Act of 1964 (42 U.S.C. 2000a, note).

(c) No admission fee will be charged except by the library, no indirect assessment fees will be made for admission, and no collections will be taken. Commercial advertising and sales of any kind are prohibited.

§ 105-61.305-3 Supplemental rules.

Library directors may establish appropriate supplemental rules governing use of Presidential libraries and adjacent buildings. Additional conditions for the use of Presidential libraries are set out in § 105-61.306.

§ 105-61.306 General conditions governing use of all facilities.

The provisions of this § 105-61.306 are applicable to the facilities in the Archives Building and Presidential libraries.

§ 105-61.306-1 Conduct.

All persons using these facilities are subject to the regulations applicable to conduct on Federal property, as specified in Subpart 101-19.3.

§ 105-61.306-2 Photographs for news, advertising, or commercial purposes.

Photographs for news, advertising, or commercial purposes may be taken only after approval of such requests, which shall be submitted to the Educational Programs Division in the Archives Building or to the appropriate director of a Presidential library.

§ 105-61.306-3 Photographs for personal use.

Visitors are permitted to take photographs in the Archives Building and in the Presidential libraries and adjacent buildings open to the public, subject to the restrictions set forth in § 105-61.306-4.

§ 105-61.306-4 Flash photography.

Flash equipment and other photoflighting devices shall not be used in the National Archives Exhibition Hall or anywhere in a Presidential library or adjacent building where such use may cause damage to documents. Persons desiring to use photoflighting devices shall request special permission from the Educational Programs Division in the Archives Building or from the appropriate director of the Presidential library concerned.

IRISH POTATOES GROWN IN SOUTHEASTERN STATES

Proposed Limitation of Shipments

Consideration is being given to the issuance of the limitation of shipments regulation, hereinafter set forth, which was recommended by the Southeastern Potato Committee, established pursuant to Marketing Agreement No. 104 and Order No. 953 (7 CFR Part 953), regulating the handling of Irish potatoes grown in the designated counties of Virginia and North Carolina. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with this proposal may file the same in quadruplicate with the Hearing Clerk, Room 112, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 30 days after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). The proposed regulation is as follows:

§ 953.308 Limitation of shipments.

During the period June 15 through July 31, 1968, no person shall ship any lot of potatoes produced in Districts 1, 2, 3 or 4 of the production area unless such potatoes meet the requirements of paragraphs (a) and (b) of this section or unless such potatoes are handled in accordance with paragraphs (c) and (d) of this section.

(a) *Grade requirements.* All varieties U.S. No. 2, or better grade.

(b) *Inspection.* Each first handler shall, prior to making each shipment of potatoes cause each shipment to be inspected by an authorized representative of the Federal-State Inspection Service. No handler shall ship any potatoes for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto by the Federal-State Inspection Service and the certificate is valid at the time of shipment.

(c) *Special purpose shipments.* The grade and inspection requirements set forth in paragraphs (a) and (b) of this section shall not be applicable to shipments of potatoes for potato chipping, canning, freezing, livestock feed, or charity: *Provided*, That the handler thereof complies with the safeguard re-

quirements of paragraph (d) of this section.

(d) *Safeguards.* Each handler making shipments of potatoes for potato chipping, canning, freezing, livestock feed, or charity in accordance with paragraph (c) of this section shall:

(1) Notify the committee of his intent to ship potatoes pursuant to paragraph (c) by applying on forms furnished by the committee for a Certificate of Privilege applicable to such special purpose shipments;

(2) Obtain an approved Certificate of Privilege;

(3) Prepare on forms furnished by the committee a special purpose shipment report for each such individual shipment; and

(4) Forward copies of such special purpose shipment report to the committee office and to the receiver with instructions to the receiver that he sign and return a copy to the committee's office. Failure of the handler or receiver to report such shipments by promptly signing and returning the applicable special purpose shipment report to the committee office shall be cause for suspension of such handler's Certificate of Privilege applicable to such special purpose shipments.

(e) *Definitions.* The term "U.S. No. 2" shall have the same meaning as when used in the U.S. Standards for Potatoes (§§ 51.1540-51.1556 of this title), including the tolerances set forth therein. All other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 104 and this part.

Federal Aviation Administration

[14 CFR Parts 71, 73]

[Airspace Docket No. 68-WE-1]

TEMPORARY RESTRICTED AREAS AND CONTROLLED AIRSPACE

Proposed Designation and Alteration

The Federal Aviation Administration is considering amendments to Part 71 and 73 of the Federal Aviation Regulations that would designate three temporary restricted areas in the vicinity of Camp Hale, Colo., and alter the descrip-

tion of the continental control area to reflect the establishment of these restricted areas.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 90007, Airport Station, Los Angeles, Calif. 90009. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The Department of the Army has requested the designation of three temporary joint-use restricted areas near Camp Hale, Colo., for the purpose of conducting gun-launched meteorological soundings over the Rocky Mountains. The project would be a joint civil-military operation by the Department of the Army and Colorado State University with the objective of providing better understanding of the dynamic effects of mountain barriers on the atmosphere from low levels to 200,000 feet MSL. The results obtained should be of value to operators of supersonic aircraft in the upper atmosphere.

The restricted areas would consist of a launch area, a circle with a five-statute mile radius centered at lat. 39°28'30" N., long. 106°19'30" W., and two impact areas approximately 2 by 10 statute miles in size, one located approximately 25 statute miles northwest and the other approximately 35 statute miles southeast of the launch area. The designated altitudes would be from the surface to flight level 240 and operation within the area of positive control would be in accordance with a Letter of Procedure between the using agency and the Denver ARTC Center. The time of use would be from 0001 to 0900 local time during three periods of from 30 to 40 days. These periods would be September 2, 1968, to October 11, 1968; January 5, 1969, to February 10, 1969; and June 5, 1969, to July 11, 1969.

The projectile used in the tests is purely ballistic in nature and has no self-propelling mechanisms and does not contain any guidance system. Its trajectory

is determined by the muzzle velocity and firing angles. Ordinance trajectories can be established to within $\pm 0.1^\circ$, thus assuring pinpoint accuracy. The exact minutes of launch is not critical and each flight will last approximately 4 minutes. The apogee and arc will vary with the change in firing angles, and the maximum height will not exceed 220,000 feet MSL. Direct telephone contact will exist between the using and controlling agencies.

If the above actions are taken the Camp Hale, Colo., restricted areas would be designated as follows:

BOUNDARIES

A—LAUNCH SITE

A circle with a 5-mile radius centered at lat. 39°26'30" N., long. 106°19'30" W.

B—NORTH IMPACT AREA

Beginning at lat. 39°46'00" N., long. 106°-32'10" W.; to lat. 39°45'40" N., long. 106°30'-11" W.; to lat. 39°54'38" N., long. 106°34'41" W.; to lat. 39°53'48" N., long. 106°27'05" W.; thence to point of beginning.

C—SOUTH IMPACT AREA

Beginning at lat. 38°50'30" N., long. 106°-01'20" W.; to lat. 38°51'10" N., long. 105°-59'15" W.; to lat. 38°59'20" N., long. 106°-03'10" W.; to lat. 38°58'40" N., long. 106°50'-15" W.; thence to point of beginning.

Designated altitudes. Surface to FL 240. Time of designation. 0001 to 0900 daily, September 2, 1968, to October 11, 1968; January 5, 1969, to February 10, 1969; June 5, 1969, to July 11, 1969.

Controlling agency. FAA, Denver ARTC Center.

Using agency. Atmospheric Sciences Office, Atmospheric Sciences Laboratory, U.S. Army Electronics Command, White Sands Missile Range, N. Mex.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Washington, D.C., on March 15, 1968.

**Notice of Extension of Time To File
Comments**

On December 22, 1967, the Federal Highway Administration published in

the FEDERAL REGISTER (32 F.R. 20868) a notice of proposed rule making inviting interested persons to submit written data, views, or arguments on Docket 2-16, an amendment to Standard No. 206, Doors, Latches, Hinges and Locks—Passenger Cars, Multipurpose Passenger Vehicles, and Trucks. Comments were required to be filed on or before the close of business January 26, 1968.

As part of its response, the Automobile Manufacturers Association petitioned that the time for filing comments in this docket be extended until April 25, 1968, in order to submit certain recommended demonstration procedures. The earliest effective date for the amendment to the standard proposed by this docket is January 1, 1970.

Upon consideration of the petition and in accordance with the requirements of § 216.19 of the rule making procedures (32 F.R. 15818), the time within which to file comments on Docket No. 2-16 is extended for all interested persons to the close of business, April 25, 1968.

Issued in Washington, D.C., on March 19, 1968.

Order Extending Time for Comments

The Commission considered a petition filed by the Hughes Aircraft Co. to extend the time to file comments in the above entitled matter to March 25, 1968; and

It appearing, that the time of filing comments expired March 11, 1968; and

It further appearing, that the petitioner states that additional time is necessary to permit the submission of a filing properly reflective of the consideration of its engineers interested in this proceeding; and

It further appearing, that in the light of considerations advanced by the petitioner, an extension of the period for filing comments would be in the public interest; and

It further appearing, that the requested extension of time for comments

would necessitate an extension of time for replies thereto;

It is ordered, Pursuant to § 0.303(c) of the Commission's Statements of Delegation of Authority, That the time for filing comments in response to the above entitled matter is hereby extended to March 25, 1968, and the time to file replies thereto extended to April 4, 1968.

Adopted: March 14, 1968.

Correction**

The report and order, FCC 68-135, adopted February 7, 1968, and published in the FEDERAL REGISTER on February 16, 1968, 33 F.R. 3078, is corrected as follows:

1. A footnote number "5" is added following the last sentence of paragraph 18.

2. The following footnote is added at the end of the report and order:

"Commissioner Bartley's dissent refers to language which was in the draft before the Commission when the item was voted upon. Subsequently, this language was deleted in line with the understanding that the Commissioners joining in the opinion proposed to make some further language changes of a nature that would not change the basis of decision (an opportunity also afforded the members having separate views). It is regretted that there was not a more adequate coordination of the documents finally released.

3. The attached Further Statement¹ of Commissioner Robert T. Bartley is added to the Appendices of the report and order.

Released: March 18, 1968.

ALBERT EINSTEIN COLLEGE OF MEDICINE

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897) and the regulations issued thereunder (32 F.R. 2433 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Scientific and Technical Equipment, Department of Commerce, Room 5123, Washington, D.C. 20230.

Docket No. 68-00305-33-46500. Applicant: Albert Einstein College of Medicine, 1300 Morris Park Avenue, Bronx, N.Y. 10461. Article: LKB 8800A Ultratome III ultramicrotome. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article will be used for the study of early vegetation of both bacterial and nonbacterial form at the electron microscope level in connection with the study of endocarditis. Comments: No comments have been received with respect to this application. Decision: Ap-

plication approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which such article is intended to be used, is being manufactured in the United States. Reasons: (1) For the purposes for which the foreign article is intended to be used, the applicant requires an ultramicrotome capable of cutting the thinnest possible sections. The foreign article has a thin-sectioning capability down to 50 Angstroms (page 6, 1965 catalogue for "Ultratome" Ultramicrotome, LKB Produkter AB, Stockholm, Sweden). The only known domestic ultramicrotome, the Model MT-2 manufactured by Ivan Sorvall, Inc. (Sorvall), has a thin-sectioning capability down to 100 Angstroms (page 11 of catalogue on Sorvall "Porter-Blum" MT-1 and MT-2 ultramicrotomes). For the purposes for which the foreign article is intended to be used, the better thin-sectioning capabilities of the foreign article are pertinent. (2) The applicant requires an ultramicrotome capable of reproducing a series of ultrathin sections with consistent accuracy and uniformity. We are advised by the Department of Health, Education, and Welfare (HEW) that an ultramicrotome equipped with a thermal advance such as provided by the foreign article, can meet these requirements (memorandum dated Feb. 19, 1968). The Sorvall Model MT-2 employs a mechanical advance. In connection with a prior application relating to the same model as the foreign article with which this application is concerned, HEW advised that ultramicrotomes employing the mechanical advance utilize a system of gears to advance the specimen and inherent in such systems are backlash and slippage, no matter how slight. (See Docket No. 67-00024-33-46500 and memorandum from HEW contained therein.) Hence, variations in thickness of the specimen are bound to be greater in mechanical feeds than when thermal feeds are used, even when both systems are functioning at their best. (3) The foreign article incorporates a device which permits measuring the knife-angle setting to an accuracy of 1°, whereas no similar device is specified for the Sorvall Model MT-2. The capability of accurately measuring the knife-angle setting is pertinent because the thickness of the section is varied by varying the angle at which the knife enters the specimen.

For the foregoing reasons, we find that the Sorvall Model MT-2 is not of equivalent scientific value to the foreign article, for the purposes for which such article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which such

article is intended to be used, which is being manufactured in the United States.

Docket No. 68-00358-00-77030. Applicant: Children's Cancer Research Foundation, 35 Binney Street Boston, Mass. 02115. Article: Spectrum Accumulator. Manufacturer: Japan Electron Optics Laboratory Co., Ltd., Japan. Intended use of article: The article will be used for spectral accumulation, time-averaged signal-to-noise enhancement, smoothing, integration, and simulation of nuclear magnetic resonance spectral information, in conjunction with existing nuclear magnetic resonance spectrometer system. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which such article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is an accessory which has been especially designed to operate with a nuclear magnetic resonance spectrometer, now in the possession of the applicant, that was also manufactured by the Japan Electron Optics Co., Ltd. The Department of Commerce knows of no similar accessory being manufactured

in the United States, which is interchangeable with the foreign article.

ORGANIZATION

Officers Designated To Perform Duties of Secretary

The following amendment to the order was issued by the Secretary of Commerce on March 11, 1968. This material further amends the material appearing at 32 F.R. 13422 of September 23, 1967, and 32 F.R. 20819 of December 27, 1967.

Department Order 83, dated September 13, 1967, is hereby further amended as follows:

1. Sec. 4. *Officers designated to perform the duties of the Secretary.* This section is revised to read:

By law (15 U.S.C. 1503) the Under Secretary performs the duties of the Secretary of Commerce in case of absence, sickness, death, or resignation of the Secretary. Executive Order 11388 provides that during any period when by reason of absence, disability, or vacancy in office, neither the Secretary of Commerce nor the Under Secretary of Commerce is available to exercise the powers or perform the duties of the office of Secretary, an Assistant Secretary of Commerce or the General Counsel of the Department of Commerce, in such order as the Secretary of Commerce may from time to time prescribe, shall act as Secretary. If no such order of succession is in effect at that time, they shall act as Secretary in the order in which they shall have taken office as Assistant Secretaries or General Counsel.

2. Sec. 6. *Effect on other orders.* Paragraph .02 is revised to read:

.02 The attached organization chart,¹ dated March 11, 1968, supersedes the organization chart of the U.S. Department of Commerce (attachment to Department Order 83 of September 13, 1967), dated December 13, 1967.

The revised chart reflects the establishment of the Office of Foreign Direct Investments as a primary operating unit reporting directly to the Secretary of Commerce.

Effective date: March 11, 1968.

Reorganization Order

Under the authority of section 6 of Reorganization Plan No. 1 of 1953 and section 2 of Reorganization Plan No. 3 of 1966, I hereby order the reorganization of certain health functions of the Department as follows:

The Assistant Secretary for Health and Scientific Affairs shall be responsible for the direction of the functions of the Public Health Service and the Food and Drug Administration.

Delegations of authority. All delegations of authority to the Surgeon General and to the Commissioner of Food and Drugs effective immediately prior to the effective date of this Reorganization

Order are hereby revoked. All such authority is hereby delegated to the Assistant Secretary of Health and Scientific Affairs, subject to all the reservations of authority in effect immediately prior to the effective date of this Reorganization Order.

Pending further orders by the Assistant Secretary for Health and Scientific Affairs all delegations or redelgations, including all redelegations by the Surgeon General of the Public Health Service or the Commissioner of Food and Drugs, to any other officer or employee of any office, institute, bureau, division, center, or other organizational unit in effect immediately prior to the effective date of this Reorganization Order shall continue in effect in them or their successors.

Redelegation of authority. The authority delegated to the Assistant Secretary for Health and Scientific Affairs may be redelegated as he may deem appropriate. It may be successively redelegated, except as any delegation may be explicitly limited.

Continuation of regulations. All regulations, rules, orders, statements of policy, or interpretations with respect to the Public Health Service or the Food and Drug Administration heretofore issued and in effect prior to the date of this Reorganization Order or to become effective subsequent to said date are continued in full force and effect.

Prior statements of organization, functions, and delegations of authority. To the extent inconsistent with this Reorganization Order, all previous statements of organization, functions, and delegations of authority, and chapters of the Department's Organization Manual are superseded by this Reorganization Order.

Effective date. This reorganization Order shall be effective March 13, 1968.

ATOMIC ENERGY COMMISSION

[Docket No. 50-203]

GENERAL ELECTRIC CO.

Mixed Spectrum Critical Assembly; Notice of Termination of Facility License

The Atomic Energy Commission has terminated Facility License No. CX-20 which authorized the General Electric Co. to operate its Mixed Spectrum Critical Assembly (MSCA) located in Building 105 of the company's Vallecitos Nuclear Center (formerly known as Vallecitos Atomic Laboratory) in Alameda County, Calif. On March 10, 1967, the Commission issued an order authorizing the General Electric Co. to dismantle the MSCA and dispose of the component parts.

General Electric Co. has reported, and a Commission inspector has confirmed, that all component parts have been disposed of through commercial salvage or as radioactive waste. Surveys made prior to disposal indicated that component parts contained no detectable radioactivity above background. Also, the reactor cell and all other locations which were used in connection with operation of the MSCA were surveyed and found to be free of radioactivity.

Accordingly, the Commission has found that the MSCA has been dismantled and disposition made of the component parts pursuant to the Commission's order dated March 10, 1967, and in accordance with its regulations in 10 CFR, Chapter 1, and in a manner not inimical to the common defense and security or to the health and safety of the public.

Copies of the Commission's License Termination Order and the General Electric Co.'s application for termination dated January 8, 1968, are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Md., this 11th day of March 1968.

For the Atomic Energy Commission.

Director,
Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 17828; Order E-26538]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Construction Rule for Passenger Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of March 1968.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the Traffic Conferences of the International Air Transport Association (IATA), and adopted by mail vote. The agreement has been assigned the above-designated CAB Agreement number.

By Order E-23776, dated June 6, 1966, the Board, upon the request of Mohawk Airlines, Inc. (Mohawk), modified its outstanding approval of the IATA construction rules for passenger fares by conditioning its approval so that any service operated by Mohawk with BAC-1-11 and FH-227 aircraft, as well as with Convair 240 and 440 equipment, could be used at through economy-class fares in connection with international travel.¹ The agreement now before the Board, for all practical purposes, accomplishes the same result. Therefore, we will approve the agreement and, consistent therewith, rescind our outstanding condition.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find the following resolutions, incorporated in Agreement CAB 20105, to be adverse to the public interest or in violation of the Act:

100 (Mail 527) 014a.
JT12 (Mail 527) 014a.
JT31 (Mail 144) 014a.
JT123 (Mail 527) 014a.

Accordingly, it is ordered:

1. That Agreement CAB 20105 is approved.
2. That the following condition imposed on Resolution 014a by Order E-24823, dated March 6, 1967, is hereby deleted:

That any service operated by Mohawk Airlines, Inc., with BAC-1-11 and FH-227 aircraft, as well as with Convair 240 and 440 equipment, may be used at through economy-class fares.

Any air carrier party to the agreement, or any interested person, may, within 15 days from the date of service of this order, submit statements in writing containing reasons deemed appropriate, together with supporting data, in support of or in opposition to the Board's action herein. An original and 19 copies of the statements should be filed with the Board's Docket Section. The Board may, upon consideration of any such

¹ By Order E-24823, dated Mar. 6, 1967, the Board restated this condition in connection with the readoption of the resolution at the Honolulu Conference.

statements filed, modify or rescind its action herein by subsequent order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Secretary.

[Docket 18072-18074; FCC 68-276]

ITT CABLE AND RADIO, INC.—PUERTO RICO AND PUERTO RICO COMMUNICATIONS AUTHORITY**Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues**

In re applications of ITT Cable and Radio, Inc.—Puerto Rico, for an authorization under section 214 of the Communications Act of 1934, as amended, to install and operate channelizing equipment on a microwave system between San Juan and Cayey, P.R., Docket No. 18072, File No. P-C-6811; ITT Cable and Radio, Inc.—Puerto Rico, for construction permits to establish new facilities in the Domestic Public Point-to-Point Microwave Radio Service between San Juan, P.R., and the interface of the Cayey, P.R., Earth Station, Docket No. 18073, File Nos. 690-C1-P-68, 691-C1-P-68, 692-C1-P-68, 693-C1-P-68, Puerto Rico Communications Authority, for construction permits to establish new facilities in the Domestic Public Point-to-Point Microwave Radio Service between San Juan, P.R., and the interface of the Cayey, P.R., Earth Station, Docket No. 18074, File Nos. 1091-C1-P-68, 1092-C1-P-68, 1093-C1-P-68, 4020-C1-P-68.

1. The Commission has before it competing, mutually exclusive microwave proposals¹ (hereafter called the competing applications) filed by ITT Cable and Radio, Inc.—Puerto Rico (ITTCRPR)² and by the Puerto Rico

¹ File Nos. 690 through 693-C1-P-68, 1091 through 1093-C1-P-68 and 4020-C1-P-68.

² ITTCRPR and All American Cables and Radio, Inc., are wholly owned subsidiaries of American Cable & Radio Corp. which is a wholly owned subsidiary of U.S. Telephone and Telegraph Corp. which is a wholly owned subsidiary of International Telephone and Telegraph Corp. Applications requesting appropriate Commission authorizations consenting to a merger of ITTCRPR with and into All American Cables and Radio, Inc., with the latter as the surviving corporation are presently pending. (File Nos. P-C-4130-L, S-C-L-17-M-1, 44-CSG-AP-68, P-D-187, and 454/459-C3/C4-SL-68).

Communications Authority (PRCA)³ for authority to construct an identical terrestrial link between San Juan, P.R., the gateway city, and the proposed Earth Station interface in Cayey, P.R., where the international carriers authorized to provide commercial communication satellite services will connect with the Earth Station which they and the Communications Satellite Corp. (Comsat) will jointly own. While ITTCRPR and PRCA have reached agreement with respect to the technical parameters and specifications of the proposed point-to-point microwave facilities, they have not resolved differences over proposed ownership and operation thereof.

2. Under the outstanding authorization, the Commission has ordered that construction of the Cayey Earth Station be completed on or before October 30, 1968, Comsat et al., 8 F.C.C. 2d 1001 (1967). In order for the Earth Station to be in a position to handle traffic by such date, it appears that the additional terrestrial facilities linking it with San Juan proposed in the competing applications before us must be constructed and operational by such date. Since it appeared that 6 to 10 months would be required to complete construction of the herein proposed facilities and place them in service, the Commission's staff held meetings with representatives of ITTCRPR and PRCA in an effort to determine whether their differences could be compromised. As a result of such meetings, ITTCRPR and PRCA agreed to amend their respective applications to specify the identical technical specifications.⁴ They also filed a joint application⁵ based upon the agreed-to technical specifications and agreed-upon interim joint construction, installation, maintenance and management arrangements. It was further agreed that any authorizations granted pursuant to their joint application would be assigned as the Commission might direct upon final resolution of their competing applications.

3. ITTCRPR and PRCA requested, pursuant to section 319(d) of the Communications Act of 1934, as amended, a waiver of the requirement for construction permit in order to commence construction of the facilities proposed in their joint application prior to Commission action thereon. Such 319(d) authorization was granted on February 21, 1968.

4. The Commission has been advised that Comsat, RCA Communications, Inc., Western Union International, Inc., ITT World Communications, Inc., and the Governor of Puerto Rico do not oppose the joint application or issuance of the joint construction permit requested therein and in the absence of any other objections it is expected that such joint construction permit will be granted on or shortly after March 21, 1968, the time when the 30-day public notice

³ PRCA is a governmental corporation authorized by the Commonwealth of Puerto Rico to render domestic telephone and telegraph services in Puerto Rico.

⁴ As initially filed, the competing applications proposed different frequencies, equipment, and routes.

⁵ File Nos. 4026 through 4029-C1-P-68.

period specified in section 309(b) of the Communications Act expires.

5. As noted above, although ITTCRPR and PRCA have agreed with respect to technical matters, they have not resolved their differences concerning the ultimate ownership, operation, and conditions of use of the facilities proposed in their competing applications.

6. As initially filed, the competing applications proposed different frequencies, equipment, and routes. They both proposed to provide point-to-point microwave radio service between the same points and primarily or exclusively as the terrestrial link between the Cayey Earth Station interface and San Juan.⁶ Since, as noted above, the applications have subsequently been amended to specify the identical frequencies, equipment, and routes, they are clearly mutually exclusive and pose an "Ashbacker" case problem.⁷

7. The Commission has now before it for consideration: (a) An application⁸ filed August 9, 1967 by ITTCRPR for an authorization to install and operate channelizing equipment for use with the microwave system proposed in the applications described in (b) below; (b) applications⁹ filed August 9, 1967 by ITTCRPR for construction permits to establish new stations in the Domestic Public Point-to-Point Microwave Radio Service at or near San Juan, Guaynabo, Caguas, and Cayey, P.R.; (c) applications¹⁰ filed August 30, 1967, and February 9, 1968, by Puerto Rico Communications Authority for construction permits for identical new stations in the Domestic Public Point-to-Point Microwave Radio Service at or near San Juan, Guaynabo, Caguas, and Cayey, P.R.; (d) a petition to deny timely filed on September 20, 1967, by PRCA directed against grant of the ITTCRPR applications described in (b) above, and associated pleadings; and (e) a petition to deny timely filed on October 11, 1967, by ITTCRPR directed against grant of three of the four PRCA applications described in (c) above, and associated pleadings.

8. An informal opposition directed against grant of ITTCRPR's 214 application (File No. P-C-6811) was filed on September 1, 1967, by the Governor of the Commonwealth of Puerto Rico. In its "Petition to Deny" directed against grant of the ITTCRPR microwave applications, PRCA relied upon the same reasons urged by the Governor against grant of the 214 application. Generally, it was alleged that grant of the ITTCRPR microwave applications would be contrary to the public interest because: (a) They

⁶ PRCA also proposed to provide intrastate service in addition to relaying international traffic over the proposed facilities where capacity is available. Although not franchised to provide intrastate service in the Cayey area, ITTCRPR stated that it would lease facilities to PRCA for such service where capacity is available, if the Commission found that to be in the public interest.

propose an extension of one carrier's facilities into an area "served exclusively" by another carrier to the "economic detriment" of the latter; (b) ITTCRPR has conflicting interests in its ownership of cable facilities in the Caribbean area and in its provision of common carrier services which are competitive with services provided by other carriers who will have access to the satellite facilities; and (c) the proposal of PRCA is technically superior to that of ITTCRPR. In reply to such allegations, ITTCRPR argued that: (a) It does not intend to compete with PRCA in providing facilities for local communications services within Puerto Rico; (b) there is no element of conflict of interest in this area; and (c) its proposal is believed to be technically superior to that of PRCA.

9. In its petition to deny, ITTCRPR argued that grant of the PRCA applications would serve only to complicate the rendition of overseas telecommunications to and from Puerto Rico without any countervailing advantages. It was further argued, among other things, that PRCA lacks experience in overseas telecommunications; that its proposal to negotiate lease arrangements with authorized users of the Earth Station for use of the microwave facilities is inconsistent with Commission policy to permit carrier ownership of facilities employed in rendering service; that it is attempting to inject its operations into the overseas telecommunications field unregulated by the Commission or any other regulatory body; and that such operations could be used to subsidize alleged deficits incurred by PRCA in its local operations. In response, PRCA argued, among other things, that it is proposing essentially a local intrastate service; and that, as the carrier serving the San Juan-Cayey area, it should provide the terrestrial facilities between the gateway city and the proposed Earth Station; that it is now, and as the licensee of the proposed facilities would continue to be, merely a "connecting carrier" subject only to limited Commission regulatory jurisdiction. However, PRCA argues that, even as a connecting carrier, to the extent it would be engaged in interstate or foreign communication, its charges must be just and reasonable within the meaning of section 201(b) of the Communications Act of 1934, as amended, and that, accordingly, there is no cause for concern on the question of the Commission's alleged limited regulatory jurisdiction over it.

10. Neither ITTCRPR nor PRCA propose to offer their facilities on a public tariff basis. ITTCRPR will make the facilities available to authorized international common carriers on the basis of indefeasible right of user arrangements for use by such carriers of voice-grade channels to connect the Cayey Earth Station with their Puerto Rico offices, and with other international circuit facilities terminating in Puerto Rico, for handling their authorized international services to, from or via Puerto Rico solely or in conjunction with overseas correspondents. PRCA does not propose to make the facilities available on an inde-

feasible right of user basis. Rather, the facilities would be available on a contract basis to authorized carriers and users of the Cayey Earth Station at charges designed to return approximately 8 percent annually on invested capital. Charges would be proportionate to the use made of the facilities. By letter dated November 28, 1967, RCA Communications, Inc. (RCA), informally requested that any authorization issued by the Commission be conditioned to require that channels in the proposed system be made available to the international communications common carriers on the basis of indefeasible right of user arrangements under such fair, reasonable and non-discriminatory terms as may be agreed upon between the interested carriers, or in the absence of such agreement, subject to such terms and conditions as may be specified by the Commission, to provide such carriers with communications facilities with which to serve overseas points with services for which they are or may be authorized by the Commission. RCA believes that such a condition is essential to safeguard the public interest. Western Union International, Inc., and ITT World Communications, Inc., also believe that the proposed facilities should be made available to all authorized users on an indefeasible right of user basis.

11. As noted above, although ITTCRPR and PRCA have now resolved their differences with respect to technical matters, they have not been able to resolve their differing views concerning the ultimate ownership, operation, and conditions of use of the facilities proposed in their competing applications. Accordingly, and in view of the foregoing and our obligations under the Communications Satellite Act of 1962, especially section 201(c)(2) thereof, we are designating their respective applications for comparative hearing upon appropriate issues as specified below.

12. The Commission has every hope and expectation that some, if not all, of the issues designated herein may be capable of resolution on the basis of written submissions rather than through formal evidentiary hearings. In view of the public interest and the national interest in having operational facilities available by October 30, 1968, the Examiner, to be designated hereafter by separate order, is hereby directed to explore at a pre-hearing conference to be held at the earliest possible date what issues can be so resolved and what stipulations can be reached as to factual matters by the parties herein, so that these proceedings may be expedited as much as possible.

13. It is found, pursuant to the provisions of section 1.274(a) of our rules that due and timely execution of the Commission's functions, imperatively and unavoidably, requires that the record of these proceedings be certified to the Commission for final decision, without the preparation of an initial or recommended decision by the hearing examiner. In this connection, the Examiner is directed to take appropriate and extraordinary measures as necessary to expedite these proceedings so they may be concluded at the earliest practicable date.

14. It also appears that except for the matters placed in issue herein, both applicants are legally, technically, financially, and otherwise qualified to render the services they have proposed.

15. Accordingly, in view of our conclusions above, *It is ordered*, That pursuant to the provisions of sections 309(e) and 403 of the Communications Act of 1934, as amended, the captioned applications are designated for hearing, in a consolidated proceeding, at the Commission's offices in Washington, D.C., before an examiner and on a date to be hereafter specified by separate order, upon the following issues:

(a) To determine, on a comparative basis, whether, and to what extent, the proposal of ITTCRPR or PRCA would better serve the public interest, convenience, and necessity with respect to the following:

(1) The rates, charges, practices, classifications, regulations, personnel, and services;

(2) The proposed degree of reliability and whether such degree of reliability is likely to be achieved;

(3) The cost of the proposed system, including estimated maintenance and operating costs;

(4) The manner by which the facilities and services of the proposed system shall be made available to authorized carriers;

(b) To determine whether it is necessary and desirable to establish physical connections between existing and proposed facilities, to establish through routes and charges applicable thereto and the divisions of such charges and to provide facilities and regulations for operating such through routes, within the meaning of section 201(a) of the Communications Act of 1934, as amended; and, if so, what connections, routes, charges, facilities, and regulations should be established;

(c) To determine whether it is necessary and desirable to establish charges, classifications, practices, regulations, and other terms and conditions in order to insure that all present and future authorized carriers shall have nondiscriminatory use of, and equitable access to, the communications satellite system and satellite terminal stations within the meaning of section 201(c)(2) of the Communications Satellite Act of 1962; and, if so, what charges, classifications, practices, regulations, and other terms and conditions should be established, and further, in this connection to determine whether the offering of channels to authorized carriers and users of the Cayey Earth Station on a contract basis as proposed by PRCA is consistent with the provisions of the Communications Satellite Act of 1962;

(d) To determine whether grant of any applications should be conditioned to require that channels shall be made available to all communications common carriers, international and domestic, on the basis of indefeasible right of user arrangements; and if so, what terms and conditions, if any, should be established;

(e) To determine whether PRCA is required to obtain authority pursuant to

section 214 of the Communications Act of 1934, as amended, to install, own, and/or operate channelizing equipment to be used in connection with the subject point-to-point microwave radio system;

(f) To determine, in light of the evidence adduced on all the foregoing issues, whether or not, and under what conditions, the public interest, convenience or necessity will be served by the grant of any of the subject applications, and/or by the establishment of an interconnected system.

16. *It is further ordered*, That ITT Cable and Radio, Inc.—Puerto Rico, Puerto Rico Communications Authority, and the Chief, Common Carrier Bureau, are made parties to the proceeding.

17. *It is further ordered*, That the Hearing Examiner designated to preside at the hearing shall, in accordance with our instructions in paragraphs 12 and 13 herein, take appropriate measures to expedite these proceedings as much as possible.

18. *It is further ordered*, That the Hearing Examiner shall certify the record to the Commission for a final decision without preparing either an initial or a recommended decision.

19. *It is further ordered*, That the parties are allowed 15 days after the record is closed to file proposed findings and conclusions (in the form of a proposed final decision).

20. *It is further ordered*, That the parties may file briefs within 15 days after the record is closed, and that the parties may file reply briefs within 7 days thereafter.

21. *It is further ordered*, That oral argument be held before the Commission en banc, commencing at a date and time to be hereafter announced, on the matters placed in issue herein.

22. *It is further ordered*, That each party intending to participate in the oral argument shall file a statement of intention to appear not later than 15 days after the record is closed.

23. *It is further ordered*, That, except as otherwise provided herein, the petitions to deny filed by ITTCRPR and by PRCA are DENIED.

24. *It is further ordered*, That the parties desiring to participate herein shall file their notice of appearance in accordance with § 1.221 of the Commission's rules.

Adopted: March 13, 1968.

Released: March 19, 1968.

FEDERAL POWER COMMISSION

[Docket No. E-7399]

CONSUMERS POWER CO.

Notice of Application

MARCH 18, 1968.

Take notice that on March 11, 1968, Consumers Power Co. (Applicant) filed an application pursuant to section 204 of the Federal Power Act seeking authority to issue \$55 million aggregate principal amount of First Mortgage Bonds.

Applicant is incorporated under the laws of Maine with its principal business office at Jackson, Mich. and is engaged in the electric utility business in 1,529 communities and townships in Michigan.

Applicant proposes to sell the Bonds at competitive bidding in accordance with the applicable requirements of the Commission's regulations. The Bonds which are to mature in 1998 will be issued on or about May 15, 1968.

The proceeds from the sale of the Bonds will be used first, to discharge short-term bank loans incurred and to be incurred prior to the sale of the Bonds to secure funds for construction purposes (which as of Dec. 31, 1967, amounted

to \$24 million) and second, to provide a portion of the funds required for the construction or acquisition of permanent improvements and additions to Applicant's property.

Present plans call for the expenditure by the company of approximately \$194,394,100 in 1968 for the construction or acquisition of property additions. The 1968 expenditures include an estimated \$65,227,000 on generating stations, including (1) an estimated \$958,000 on the Ludington Pumped Storage Plant, to be located 5 miles south of Ludington, Mich., (2) an estimated \$1 million on the Midland Plant, to be located adjacent to the east city limits of Midland, Mich., (3) an estimated \$518,000 on the second unit of 385,000 kw rated capacity of the James H. Campbell Plant, located 10 miles north of Holland, Mich., and (4) an estimated \$50,487,000 on the proposed Palisades Generating Plant, located 5 miles south of South Haven, Mich.

Any person desiring to be heard or to make any protest with reference to said application should, on or before April 8, 1968, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8

or 1.10). The application is on file and available for public inspection.

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Petition To Amend

MARCH 18, 1968.

Take notice that on March 6, 1968, Michigan Wisconsin Pipe Line Co. (Petitioner), 1 Woodward Avenue, Detroit, Mich. 48226, filed in Docket No. CP66-208 a petition to amend the order of the Commission issued in said docket May 24, 1966, seeking authorization to relocate certain compressor facilities. The proposal is more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the said order, Petitioner was authorized to construct and operate 4,400 horsepower of compressor facilities at Compressor Station "A" (now designated Woodstock) in Illinois.

Specifically, Petitioner seeks amendment of said order by requesting authorization to relocate four 1,100 horsepower units, installing two in the Bridgman Compressor Station and two in the Hamilton Compressor Station.

The petition states that these units would be used to provide the additional units sought in its application in Docket No. CP68-190 which is pending before the Commission.

The petition further states that the proposed relocation is the most efficient method of meeting Petitioner's delivery obligations in the State of Wisconsin.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before April 15, 1968.

SINCLAIR OIL & GAS CO. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates¹

MARCH 15, 1968.

The Respondents named herein have filed proposed increased rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth in Appendix A hereof.

¹ Does not consolidate for hearing or dispose of the several matters herein.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Ch. I), and the

Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column, and thereafter until made effective as prescribed by the Natural Gas Act.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought

to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before May 8, 1968.

By the Commission.

TRANSCONTINENTAL GAS PIPE LINE CORP. AND SOUTH TEXAS NATURAL GAS GATHERING CO.

Notice of Application To Amend Order and Notice of Amendment to Joint Motion To Amend

MARCH 15, 1968.

Take notice that on March 8, 1968, South Texas Natural Gas Gathering Co. (South Texas), Post Office Drawer 521, Corpus Christi, Tex. 78403, filed in Docket No. CP64-283 an application to amend the Commission's order, issued October 26, 1964, and the joint application to amend said order, filed October 26, 1967, by South Texas and Transcontinental Gas Pipe Line Corp. (Transco) so as to authorize the sale of natural gas by South Texas to Lo-Vaca Gas Gathering Co. (Lo-Vaca), all as more fully set forth in the subject application to amend on file with the Commission and open to public inspection.

The order of October 26, 1964, authorized South Texas and Transco to construct and operate certain facilities and to exchange up to 50,000 Mcf of natural gas per day. Deliveries by South Texas to Transco were to be made at two delivery points in Jim Wells and La Salle Counties, Tex. Deliveries by Transco to South Texas were to be made near the tailgate of the North Markham plant, Matagordo County, Tex. The joint application, as supplemented, requests amendment of the order of October 26, 1964, to provide two new delivery points for deliveries of gas by Transco to South Texas. One of the two new delivery points will be an existing tap on Transco's Thomaston 6-inch line and the other will be a new point to be installed on Transco's 26-inch line, all in Victoria County, Tex.

South Texas states that the gas delivered to it by Transco pursuant to the exchange authorization in the order of October 26, 1964, is sold to Lo-Vaca for resale, and that the gas to be delivered at the two new delivery points proposed in the joint application to amend will also be sold by South Texas to Lo-Vaca for resale. Accordingly, South Texas requests that the order of October 26, 1964, and

the joint application to amend be amended to provide for authorization of these Lo-Vaca sales.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before April 8, 1968.

CONNECTICUT LIGHT AND POWER CO.

Notice of Proposed Issue and Sale of Notes to Banks and to Dealer in Commercial Paper and Exemption From Competitive Bidding

MARCH 18, 1968.

Notice is hereby given that The Connecticut Light and Power Co. ("CL&P"), Selden Street, Berlin, Conn. 06037, an electric utility subsidiary company of Northeast Utilities, a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act and Rule 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

CL&P proposes, from time to time but not later than March 31, 1969, to issue and sell short-term notes (including commercial paper), in an aggregate principal amount outstanding at any one time of not more than \$45 million. CL&P intends to utilize the proceeds of the sale of its notes (i) for construction expenditures, (ii) for investments in nuclear generating companies, and (iii) to pay \$1,418,339 of noninterest bearing notes. CL&P's construction program contemplates gross construction expenditures of approximately \$61 million for 1968 and \$64 million for 1969. Estimated investments in or advances to nuclear generating companies (i.e., Connecticut Yankee Atomic Power Co., Maine Yankee Atomic Power Co., and Vermont Yankee Nuclear Power Corp.) are estimated to aggregate approximately \$2,250,000 during 1968 and \$1,550,000 during 1969.

CL&P presently has no notes outstanding representing short-term borrowings; however, it expects to issue up to \$12,200,000 of its short-term notes to banks prior to April 10, 1968, pursuant to the 5 percent exemptive provision of section 6(b) of the Act. CL&P proposes to renew and extend any notes so issued or to re-

fund them with other similar notes issued to other banks and to issue and sell to banks up to an additional \$32,800,000 of short-term notes (and to renew such notes) from time to time but not later than March 31, 1969, to meet portions of its capital requirements. The aggregate amount of such bank notes at any one time outstanding, including both notes issued on or prior to April 10, 1968, and those thereafter issued, will at no time exceed \$45 million. The bank notes will each be dated the date of issue, will have maximum maturity dates of 6 months, with right of renewal, will bear interest at the prime rate (currently 6 percent per annum in all cases) in effect at the lending bank on the date of issue, and will be subject to prepayment at any time at the company's option without premium. Although no formal commitments for future borrowings have been made with any bank, CL&P expects such borrowings will be effected from the following banks:

	<i>Maximum to be borrowed</i>
Bankers Trust Co., New York, N.Y.	\$11,400,000
Hartford National Bank & Trust Co., Hartford, Conn.	6,500,000
The Connecticut Bank & Trust Co., Hartford, Conn.	5,500,000
Manufacturers Hanover Trust Co., New York, N.Y.	4,000,000
Morgan Guaranty Trust Co., New York, N.Y.	4,000,000
Irving Trust Co., New York, N.Y.	2,000,000
City Trust Co., Bridgeport, Conn.	1,750,000
The Connecticut National Bank, Waterbury, Conn.	1,600,000
The Colonial Bank & Trust Co., Waterbury, Conn.	1,400,000
The Fairfield County Trust Co., Norwalk, Conn.	1,000,000
The Union & New Haven Trust Co., New Haven, Conn.	700,000
Putnam Trust Co., Greenwich, Conn.	600,000
The State National Bank of Connecticut, Greenwich, Conn.	1,500,000
United Bank & Trust Co., Bristol, Conn.	500,000
New Britain Bank & Trust Co., New Britain, Conn.	350,000
The Home National Bank & Trust Co., Meriden, Conn.	300,000
The Waterbury National Bank, Waterbury, Conn.	300,000
The Westport Bank & Trust Co., Westport, Conn.	300,000
Northern Connecticut National Bank, Windsor Locks, Conn.	150,000
The Plainville Trust Co., Plainville, Conn.	150,000
The Willimantic Trust Co., Willimantic, Conn.	150,000
The Seymour Trust Co., Seymour, Conn.	100,000
The Southington Bank & Trust Co., Southington, Conn.	100,000
The North Side Bank & Trust Co., Bristol, Conn.	85,000
Clinton National Bank, Clinton, Conn.	100,000
The Glastonbury Bank & Trust Co., Glastonbury, Conn.	70,000
The First National Bank of Litchfield, Conn.	95,000
New Britain National Bank, New Britain, Conn.	300,000
	45,000,000

[70-4605]

CL&P also proposes to issue and sell to a commercial paper dealer up to an aggregate face amount at any one time outstanding of \$25 million of commercial paper in the form of short-term promissory notes, from time to time but not later than March 31, 1969, to meet portions of its capital requirements. The total amount of commercial paper and bank notes outstanding at any one time will not exceed \$45 million. The commercial paper notes will be issued in denominations of not less than \$50,000 and not more than \$1 million and will be sold by CL&P directly to Lehman Commercial Paper, Inc. ("Lehman"), at the discount rate per annum prevailing at the date of issuance for commercial paper of comparable quality and of the particular maturity sold by public-utility issuers to commercial paper dealers. The effective interest costs for the commercial paper will not exceed the commercial bank prime rate on the date of issue. The declaration states that historically the cost of commercial paper borrowings for companies of comparable credit to CL&P has averaged less than the cost of bank borrowings, and, based on the recent experience of other companies, CL&P desires the flexibility of using commercial paper borrowings to supplement its bank borrowings. No commission or fee will be payable in connection with the issuance and sale of the commercial paper. Maturities of the commercial paper may vary from 1 to 270 days with specific maturities determined by market conditions, effective interest cost to CL&P, and CL&P's anticipated cash flow. It is stated that in accordance with established custom and practice in the market, the commercial paper will not be prepayable prior to maturity.

Lehman, as principal, will reoffer the commercial paper to institutional investors at a discount of no more than one-eighth of 1 percent per annum less than the prevailing discount rate to CL&P. The commercial paper will be reoffered to not more than 100 identified and designated customers in a list (nonpublic) prepared in advance by Lehman. No additions will be made to this customer list, which includes commercial banks, insurance companies, corporate pension funds, investment trusts, foundations, colleges and universities, municipal and State benefit funds, eleemosynary institutions, finance companies, and nonfinancial corporations purchasing such paper for the purpose of investing their funds on a short-term basis. It is anticipated that the commercial paper will be held by customers to maturity, but if such customers desire to resell prior to maturity, Lehman, pursuant to a verbal repurchase agreement, will repurchase the commercial paper and reoffer the same to others in the group of 100 customers.

CL&P expects to retire all of the bank notes and commercial paper notes prior to April 1, 1969, from the net proceeds of the sale of additional first mortgage bonds and/or preferred stock and/or other securities. In the event the company effects any permanent financing

prior to the repayment of all notes outstanding pursuant to this declaration, it will apply the net proceeds of such permanent financing in reduction of such outstanding notes. CL&P states that the maximum amount of indebtedness authorized pursuant to this declaration will be reduced by the amount of the net proceeds of any such permanent financing.

CL&P asserts that the issue and sale of its commercial paper notes should, pursuant to subparagraph (a) (5) of Rule 50, be exempted from the requirements thereof, in view of the fact that the proposed promissory notes to be issued by CL&P as commercial paper will have a maturity of not more than 270 days, the interest costs thereof will not exceed the prime rate for commercial borrowings from commercial banks, the current rates for commercial paper for prime borrowers such as CL&P are readily ascertainable by reference to daily financial publications, and that it is not practical to invite competitive bids for commercial paper.

Fees and expenses to be incurred by CL&P in connection with the proposed transactions are estimated at \$1,250, including legal fees of \$750. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 8, 1968, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

MARCH 18, 1968.

Notice is hereby given that The Hartford Electric Light Co. ("HELCO"), 176 Cumberland Avenue, Wethersfield, Conn. 06109, an electric utility subsidiary company of Northeast Utilities, a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act and Rule 50(a) (5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

HELCO proposes, from time to time but not later than March 31, 1969, to issue and sell short-term notes (including commercial paper), in an aggregate principal amount outstanding at any one time of not more than \$27 million. HELCO intends to utilize the proceeds of the sale of its notes for construction expenditures and for investments in nuclear generating companies. HELCO's construction program contemplates gross construction expenditures of approximately \$37 million for 1968 and \$29 million for 1969. Estimated investments in or advances to nuclear generating companies (i.e., Connecticut Yankee Atomic Power Co., Maine Yankee Atomic Power Co., and Vermont Yankee Nuclear Power Corp.) are estimated to aggregate approximately \$900,000 during 1968 and \$850,000 during 1969.

HELCO presently has no notes outstanding representing short-term borrowings; however, it expects to issue up to \$9 million of its short-term notes to banks on or before April 10, 1968, pursuant to the 5-percent exemptive provision of section 6(b) of the Act. HELCO proposes to renew and extend any notes so issued or to refund them with other similar notes issued to other banks and to issue and sell to banks up to an additional \$18 million of short-term notes (and to renew such notes) from time to time but not later than March 31, 1969, to meet portions of its capital requirements. The aggregate amount of such bank notes at any one time outstanding, including both notes issued on or prior to April 10, 1968, and those thereafter issued, will at no time exceed \$27 million. The bank notes will each be dated the date of issue, will have maximum maturity dates of 6 months, with right of renewal, will bear interest at the prime rate (currently 6 percent per annum in all cases) in effect at the lending bank on the date of issue, and will be subject to prepayment at any time at the company's option without premium. Although no formal commitments for future borrowings have

been made with any bank, HELCO expects such borrowings will be effected from the following banks:

	<i>Maximum to be borrowed</i>
Hartford National Bank & Trust Co., Hartford, Conn.	\$6,500,000
The Connecticut Bank & Trust Co., Hartford, Conn.	4,000,000
City Trust Co., Bridgeport, Conn.	1,750,000
First National Bank of Boston, Mass.	10,190,000
State National Bank of Connecticut, Greenwich, Conn.	1,200,000
Colonial Bank & Trust Co., Waterbury, Conn.	1,000,000
Fairfield County Trust Co., Norwalk, Conn.	1,000,000
First New Haven National Bank, New Haven, Conn.	500,000
United Bank & Trust Co., Hartford, Conn.	400,000
Waterbury National Bank, Waterbury, Conn.	300,000
Simsbury Bank & Trust Co., Simsbury, Conn.	160,000
	27,000,000

HELCO also proposes to issue and sell to a commercial paper dealer up to an aggregate face amount at any one time outstanding of \$15 million of commercial paper in the form of short-term promissory notes, from time to time but not later than March 31, 1969, to meet portions of its capital requirements. The total amount of commercial paper and bank notes outstanding at any one time will not exceed \$27 million. The commercial paper notes will be issued in denominations of not less than \$50,000 and not more than \$1 million and will be sold by HELCO directly to Lehman Commercial Paper, Inc. ("Lehman"), at the discount rate per annum prevailing at the date of issuance for commercial paper of comparable quality and of the particular maturity sold by public-utility issuers to commercial paper dealers. The effective interest costs for the commercial paper will not exceed the commercial bank prime rate on the date of issue. The declaration states that historically the cost of commercial paper borrowings for companies of comparable credit to HELCO has averaged less than the cost of bank borrowings, and, based on the recent experience of other companies, HELCO desires the flexibility of using commercial paper borrowings to supplement its bank borrowings. No commission or fee will be payable in connection with the issuance and sale of the commercial paper. Maturities of the commercial paper may vary from 1 to 270 days with specific maturities determined by market conditions, effective interest costs to HELCO, and HELCO's anticipated cash flow. It is stated that in accordance with established custom and practice in the market, the commercial paper will not be prepayable prior to maturity.

Lehman, as principal, will reoffer the commercial paper to institutional investors at a discount of no more than one-eighth of 1 percent per annum less than the prevailing discount rate to HELCO. The commercial paper will be reoffered

to not more than 100 identified and designated customers in a list (nonpublic) prepared in advance by Lehman. No additions will be made to this customer list, which includes commercial banks, insurance companies, corporate pension funds, investment trusts, foundations, colleges and universities, municipal and State benefit funds, eleemosynary institutions, finance companies, and non-financial corporations purchasing such paper for the purpose of investing their funds on a short-term basis. It is anticipated that the commercial paper will be held by customers to maturity, but if such customers desire to resell prior to maturity, Lehman, pursuant to a verbal repurchase agreement, will repurchase the commercial paper and reoffer the same to others in the group of 100 customers.

HELCO expects to retire all of the bank notes and commercial paper notes prior to April 1, 1969, from the net proceeds of the sale of additional first mortgage bonds and/or preferred stock and/or other securities. In the event the company effects any permanent financing prior to the repayment of all notes outstanding pursuant to this declaration, it will apply the net proceeds of such permanent financing in reduction of such outstanding notes. HELCO states that the maximum amount of indebtedness authorized pursuant to this declaration will be reduced by the amount of the net proceeds of any such permanent financing.

HELCO asserts that the issue and sale of its commercial paper notes should, pursuant to subparagraph (a)(5) of Rule 50, be exempted from the requirements thereof, in view of the fact that the proposed promissory notes to be issued by HELCO as commercial paper will have a maturity of not more than 270 days, the interest costs thereof will not exceed the prime rate for commercial borrowings from commercial banks, the current rates for commercial paper for prime borrowers such as HELCO are readily ascertainable by reference to daily financial publications, and that it is not practical to invite competitive bids for commercial paper.

Fees and expenses to be incurred by HELCO in connection with the proposed transactions are estimated at \$1,250, including legal fees of \$750. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 8, 1968, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served per-

sonally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MARCH 19, 1968.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67 (49 CFR Part 340) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protest must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the field office to which protests are to be transmitted.
