Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter II—Packers and Stockyards Administration, Department of Agriculture

PART 201—REGULATIONS UNDER THE PACKERS AND STOCKYARDS ACT

Purchase of Livestock by Packers on Carcass Grade, Carcass Weight, or Carcass Grade and Weight Basis

On February 9, 1968, there was published in the FEDERAL REGISTER (33 F.R. 2760-2762), pursuant to section 407 (a) of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 228), an amendment of the regulations under said Act which added a new § 201.99 thereto. The document was signed on February 6, 1968, to become effective on April 6, 1968.

Paragraph (d) of said § 201.99 provides, inter alia, that "settlement and final payment for livestock purchased by packers on a carcass weight, or carcass grade and weight basis shall be on actual (hot) carcass weights determined before shrouding." The requirement that such weight determination be made before shrouding necessitates a modification of the kill floor facilities of certain packers that presently have the shroud area before the scale. Officials of the Packers and Stockyards Administration have found that many such packers have already made the necessary modifications, and that other such packers have instituted measures to redesign their facilities to comply with this requirement. In addition, some packers have taken this opportunity to modernize their kill floor facilities by the installation of new monorail scales and other equipment. Several packers also have indicated that they must make the necessary layout modifications during evenings or on weekends to avoid any disruption of their kill floor productivity. A few of the packers who are having new equipment installed or the kill floor layout redesigned during evenings or on weekends have stated that they will be unable to complete such changes on or before April 6, 1968, the original effective date of all provisions of the new regulation. Furthermore, one of the Nation's principal manufacturers of scale equipment has been confronted by an employee strike that commenced during the middle of March and has not yet been resolved. The Administration has been advised that certain packers have placed orders for new scales manufactured by that firm, delivery of which is being delayed because of the strike. Accordingly, such packers' inability to comply with all of the requirements of the new regulation

appears to exist notwithstanding good faith and conscientious efforts on their part to achieve compliance.

In view of the fact that some packers will not be able to comply with the provisions of that part of paragraph (d) of § 201.99 of the regulation relating to weighing before shrouding on or before the original effective date due to circumstances beyond their control, the effective date of said paragraph (d) of § 201.99 as published in the FEDERAL REGISTER on February 9, 1968, is postponed until July 1, 1968; and a new paragraph (d) is added to said section 201.99 to be effective during the period April 6, 1968, through June 30, 1968, to read as follows:

§ 201.99 Purchase of livestock by packers on a carcass grade, carcass weight, or carcass grade and weight basis.

(d) Settlement and final payment for livestock purchased by a packer on a carcass weight or carcass grade and weight basis shall be on actual (hot) carcass weights. The hooks, rollers, and gambrels or other similar equipment used at a packing establishment in connection with the weighing of carcasses of the same species of livestock shall be uniform in weight. The tare weight shall include only the weight of such equipment: *Provided, however,* That until July 1, 1968, these packers who shroud carcasses before weighing them may include in the tare weight the average weight of the shrouds and pins.

(Sec. 407, 42 Stat. 169; 7 U.S.C. 228, 29 F.R. 16210, as amended 32 F.R. 7186)

The foregoing action has been taken solely for the purpose of accommodating the members of the industry who have diligently but unsuccessfully endeavored to comply with all provisions of the new regulation on or before the original effective date, April 6, 1968; and the new regulation shall be in full force and effect on said original effective date in all other respects. In view of the hereinbefore described circumstances, the temporary amendment of paragraph (d) should be made effective on April 6, 1968, to be of maximum benefit to persons affected thereby. Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. section 553 that notice and other public procedure with respect thereto are impracticable, and that such action may become effective in less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 1st day of April 1968.

DONALD A. CAMPBELL,
Administrator, Packers and
Stockyards Administration.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 68-WE-29]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of these amendments to Part 71 of the Federal Aviation Regulations is to alter the description of the Imperial Beach, Calif., and San Diego, Calif. (NAS North Island) control zones. This action is necessary to reflect the recent name change of NAAS Ream Field, Calif. to NAS Imperial Beach, Calif.

Since this change is editorial in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary.

In § 71.171 (33 F.R. 2091) The Imperial Beach, Calif. control zone is amended to read as follows:

IMPERIAL BEACH, CALIF.

Within a 3-mile radius of NAS Imperial Beach (latitude 32°34'00" N., longitude 117°06'50" W.); that airspace W of NAS Imperial Beach within the arc of a 6-mile radius circle centered in the Imperial Beach TACAN, extending counterclockwise from a line 2 miles north of and parallel to the Imperial Beach TACAN 288° radial to the United States/Mexican Flight Information Region Boundary, excluding the portion under the jurisdiction of Mexico; and that airspace east of NAS Imperial Beach within the arc of a 6-mile radius circle centered on the Imperial Beach TACAN, extending clockwise from a line 2 miles north of and parallel to the Imperial Beach TACAN 065° radial to the United States/Mexican Border.

In § 71.171 (33 F.R. 2122) the San Diego, Calif. (NAS North Island) control zone is amended by deleting " * * * NAS Ream Field, Calif., * * * " where it appears in the text and substituting " * * * NAS Imperial Beach, Calif. * * * " therefor.

Effective date. These amendments are effective upon publication in the FEDERAL REGISTER.

Issued in Los Angeles, Calif., on March 29, 1968.

LEE E. WARREN,
Acting Director, Western Region.

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 8785; Amdt. 589]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to the standard instrument approach procedures contained herein are adopted to become effective when indicated in order to promote safety. The amended procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the complete procedure is republished in this amendment indicating the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 97 (14 CFR Part 97) is amended as follows:

1. By amending § 97.11 of Subpart B to establish low or medium frequency range (L/MF), automatic direction finding (ADF) and very high frequency omnirange (VOR) procedures as follows:

PART 694—MINIMUM WAGE RATES IN INDUSTRIES IN THE VIRGIN ISLANDS

Statutory Wage Increases for the Virgin Islands

Pursuant to section 6 of the Fair Labor Standards Act of 1938 (29 U.S.C. 206), Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and Order No. 19-67 of the Secretary of Labor (32 F.R. 12980), 29 CFR Chapter V is hereby amended as set out below to conform it to the 28 percent increase in wage rates required by section 6(c)(2) of the Fair Labor Standards Amendments of 1966 (80 Stat. 839). These amendments will take effect April 2, 1968.

As the only substantive change effected by these amendments is one from which I have no discretion to depart, the increase in rates having already been provided for by Congress, I find good cause to omit notice, public procedure, and further delay as unnecessary under section 4 (a) and (c) of the Administrative Procedure Act (5 U.S.C. 553).

In 29 CFR 694.2 subparagraphs (1), (2), (3), and (4) of paragraph (a) are revised to read as follows:

Proposed Rule Making

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 17873, RM-320]

STANDARD BROADCAST STATIONS OPERATED BY REMOTE CONTROL

Transmission of Telemetry Signals; Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of Part 73 of the Commission rules and regulations to permit standard broadcast stations operated by remote control to transmit telemetry signals directly related to the technical operation of the broadcast station, Docket No. 17873, RM-320.

1. The notice of proposed rule making in the above-entitled matter, adopted

November 15, 1967, set dates of December 26, 1967, and January 5, 1968, as the deadlines for receiving comments and reply comments, respectively. By subsequent orders filing periods were extended for comments until March 25, 1968, and for reply comments until April 5, 1968.

2. RCA states it has completed tests which demonstrate that standard broadcast transmitters and the AM modulation monitors which it manufactures can be used with the proposed tone telemetry system without adverse effects. However, laboratory tests with receivers indicate that the telemetry signals may cause interference with program reception in high fidelity receivers. An extension of time will permit a field investigation to be made of this possibility.

3. In view of the showing made by RCA, we believe that the extension of

the requested filing times would be in the public interest.

4. Accordingly, it is ordered, That the time for filing comments in this proceeding is extended from March 25, 1968, to May 27, 1968, and the time for filing reply comments is extended from April 5, 1968, to June 5, 1968.

5. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules.

Adopted: March 26, 1968.

Released: April 1, 1968.

COMMISSION,

[SEAL] BEN F. WAPLE,
Secretary.

Notice of Determination for Surveys

In conformity with title 13, United States Code, sections 181, 224 and 225, and due Notice of Consideration having been published on February 24, 1968 (33 F.R. 3360), I have determined that a First Quarter 1968 Survey of selected multiunit companies is needed to collect information for the 1968 County Business Patterns Report. The Survey is similar to those conducted for previous County Business Patterns Reports and is designed to collect information on number of employees, taxable wages, geographic location, and kind of business for establishments of selected multiunit companies. Only those companies which do not report in sufficient detail to other Federal agencies will be required to report in this survey. The data will have significant application to the needs of the public and to governmental agencies and are not publicly available from nongovernmental or governmental sources.

Report forms will be furnished to firms included in the survey and additional copies of the forms are available on re-

quest to the Director, Bureau of the Census, Washington, D.C. 20233.

I have, therefore, directed that a survey be conducted for the purpose of collecting these data.

In the matter of Petroservice International GmbH [PSI (Petroservice International) Gesellschaft fuer oel-und (Gastechnik mit beschraenkter Haftung) and Joseph S. Versch, Adolfsallee 27, 6200 Wiesbaden, Federal Republic of Germany; respondents, Bavaroil Establishment; Vaduz, Liechtenstein; related party.

An order temporarily denying export privileges for a period of 45 days was entered against the above named respondents and related party on February 19, 1968 (33 F.R. 3395). Said order was issued because on the evidence presented there was reasonable basis to believe that respondent Versch who is connected with and is a responsible official in Petroservice International GmbH, and who also had such connection and affiliation with a predecessor company by the same name, reexported \$75,000 worth of U.S.-origin seismic equipment to an unauthorized destination and made false representations to the Investigations Division, Office of Export Control as to the disposition of said equipment. It was also found that there was reasonable basis to believe that Versch on behalf of Petroservice International GmbH was engaging in activities for the purpose of obtaining additional U.S.-origin equipment.

On March 8, 1968, respondent Petroservice International, through its attorney, filed a motion to terminate the temporary denial order as against it and said motion was denied by the undersigned on March 13, 1968.

A charging letter has not yet been issued in this case. The Director, Investigations Division has applied under § 382.11 of the Export Regulations for an extension of the temporary denial order and has represented that it is his intention to issue a charging letter in the immediate future. The matter has been considered by the Compliance Commissioner and he has reported his recommendation to me that the temporary denial order be extended for 20 days. He has found that such an extension is reasonably necessary to protect the public interest and for effective enforcement of the law. I confirm these findings. Accordingly, it is hereby ordered:

I. The prohibitions and restrictions of the temporary denial order issued on February 19, 1968 (33 F.R. 3395) against the above named respondents and related party are hereby continued in full force and effect.

II. The respondents, their assigns, partners, representatives, agents, and employees hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States in whole or in part, or to be exported, or which are otherwise subject to the Export Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation, directly or indirectly, in any manner or capacity; (a) as a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or any document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control document; (d) in the carrying on of negotiations with respect to or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data in whole or in part, exported or to be exported from the United States; and (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondents, but also to their agents and employees, including Michael Schmidt-Sandler, Manager of respondent Petroservice International GmbH, and to any person, firm, corporation, or business organization with which they now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith. The determination heretofore made that the firm Bavaroil Establishment of Vaduz, Liechtenstein is such a related party is hereby confirmed.

IV. This order continues in full force and effect the temporary denial order which was entered on February 19, 1968, and shall remain in effect for a period of 20 days from the expiration of said temporary denial order, to wit, through April 24, 1968, unless it is hereafter amended, modified or vacated in accordance with the provisions of the U.S. Export Regulations.

V. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with the respondents, or whereby the respondents may obtain any benefit therefrom or

have any interest or participation therein, directly or indirectly; (a) apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for the respondent; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

VI. A copy of this order shall be served upon the respondents and the other parties named herein.

VII. In accordance with the provisions of § 382.11(c) of the Export Regulations, the respondents or the other parties named herein may move at any time to vacate or modify this temporary denial order by filing an appropriate motion therefor, supported by evidence, with the Compliance Commissioner and may request an oral hearing thereon which, if requested, shall be held before the Compliance Commissioner in Washington, D.C., at the earliest convenient date.

Dated: April 1, 1968.

CIVIL AERONAUTICS BOARD

[Docket No. 19797; Order No. E-26605]

AIRBORNE FREIGHT CORP. ET AL.

Order Instituting Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 2d day of April 1968.

Rule for substitution of other service for air transportation proposed by Airborne Freight Corp. and in effect for Barnett Aircargo, Inc., Emery Air Freight

Corp., General Air Freight Corp., Wings and Wheels Express, Inc., Docket No. 19797.

By tariff revision filed on February 28, 1968, and marked to become effective March 30, 1968, Airborne Freight Corp. (Airborne), an air freight forwarder, proposes the following rule:

SUBSTITUTION OF SERVICE FOR AIR TRANSPORTATION DUE TO EMERGENCY CONDITIONS

In emergency conditions arising from the inability of the direct air carrier to perform air transportation due to adverse weather conditions, equipment failure, or other causes beyond the control of the direct air carrier, the forwarder will utilize other means of transportation. When under the performance of this rule it becomes necessary to utilize other than air transportation no reduction or refund of charges will be made.¹

Upon consideration of all relevant matters, the Board finds that Airborne's proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated.

It appears unjust and inequitable to require a shipper to pay the air freight rate when he is receiving lower-rated surface transport, even though the latter may be the only service available at the time.

The Board for similar reasons suspended and initiated an investigation of an analogous rule proposed by Trans World Airlines, Inc. (TWA), Order E-25013, adopted April 19, 1967. In this rule, TWA proposed that, when the carrier deviated from the route on the airbill by using another transport mode to expedite delivery, it would make no reduction or refund of charges. TWA subsequently canceled its proposed rule and the proceeding was dismissed.

We have concluded not to suspend Airborne's proposal because several other forwarders have similar rules in effect involving substitute service. Suspension of Airborne's rule would not appear equitable since the rules of its competitors would remain in effect pending the investigation. These forwarders include Barnett Aircargo, Inc. (Barnett), Emery Air Freight Corp. (Emery), General Air Freight Corp. (General), and Wings and Wheels Express, Inc. (Wings and Wheels).

Emery's rule is as follows:

When, for any reason, including temporary suspension of air service, refusal, or inability of air carrier to perform services requested, embargoes, strikes, or other causes, diversion of shipments to other means of transportation is necessary, the Forwarder shall have the right to use his best judgment as to the means of transportation to be selected. No reduction or refund of charges will be made when, under the provision of this rule, it becomes necessary to utilize other than air transportation in order to expedite the shipment.²

¹ Airborne Freight Corp., Tariff CAB No. 21, Rule 20(F).

² Emery Air Freight Corp.'s Air Freight Rules Tariff, CAB No. 8, Rule No. 3.6(b).

The rules³ in effect for Barnett and Wings and Wheels are almost identical to Emery's. General's rule⁴ provides that, regardless of the reason for substitution of other transportation modes, the applicable charge is the forwarder's published charge or the surface mode's charge, whichever is greater.

There appears to be less justification for the foregoing rules than for Airborne's proposed rule since substitution may be made by the forwarder for any reason in accordance with his judgment. Consequently, the Board finds that the currently effective rules of Barnett, Emery, General, and Wings and Wheels may be unjust, unreasonable, or unjustly discriminatory, or unduly preferential, or otherwise unlawful, and should be investigated.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the provisions described in appendix A attached hereto,⁵ including subsequent revisions and reissues thereof, and rules, regulations, and practices affecting such provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions, and rules, regulations, or practices affecting such provisions;

2. The proceeding herein be assigned for hearing before an examiner of the Board at a time and place hereafter to be designated; and

3. A copy of this order be served upon Airborne Freight Corp., Barnett Aircargo, Inc., Emery Air Freight Corp., General Air Freight Corp., and Wings and Wheels Express, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority April 1, 1968.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act)

³ Barnett Aircargo, Inc.'s Air Freight Rules Tariff CAB No. 1, Rule 3.6(2) Wings and Wheels Express, Inc., Air Freight Rules Tariff CAB No. 1, Rule 6.4(b).

⁴ General Air Freight Corp.'s Tariff CAB No. 9, Rule 3.9.A.

⁵ Appendix A filed as part of the original document.

and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Joint Conferences of the International Air Transport Association (IATA). The agreement, which has been assigned CAB Agreement No. 20125, was adopted by the Sixth Meeting of the Joint Specific Commodity Rates Committee, held in New York, February 6, through February 9, 1968.

Basically, the agreement, as it applies to air transportation, extends for a further period of effectiveness certain specific commodity rates, under current or amended descriptions, adopted since the Fifth Meeting of the Joint Specific Commodity Rates Committee held in London, June 6, through June 9, 1967. Additionally, the agreement names rates to added points under existing commodity descriptions and proposes reduced rates under several new commodity descriptions. In the latter instance, for example, reduced rates are to be offered for such items as "Rubber Hose and Tubing," "Display Equipment," and "Venetian Blinds," which currently move under the general cargo rates. Other revisions include increased minimum weight requirements, from 45 kilograms to 100 kilograms, for rates under "Transfers/Dealcomania" and "Phonograph Records," and an increase in rates for certain textile manufactures moving to the United States from Auckland.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act: *Provided*, That approval thereof is conditioned as hereinafter ordered.

Accordingly, it is ordered, That:

Agreement C.A.B. 20125 be approved: *Provided*, That approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff application.

Persons entitled to petition the Board for review of this order, pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within 10 days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed, or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[Docket Nos. 10920, 18381; Order No. E-26602]

NONPRIORITY MAIL RATE CASE Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 2d day of April 1968.

The Postmaster General filed a motion on March 4, 1968, to amend Order E-17255 to extend the application of the multiple element domestic rates for the transportation by aircraft of first-class mail on a space available basis, to include American Samoa.¹

In support of the motion, the Postmaster General states that American Samoa is included within the U.S. domestic postal system (39 CFR 112.1), and airmail is presently dispatched directly on Pan American World Airways, Inc., between American Samoa and the 48 contiguous States and Hawaii. The Post Office states that the transit time by ship from the West Coast to American Samoa is currently 20 days; that, on the average, only 26 pounds of mail per flight would be dispatched from Los Angeles to American Samoa, and only 12 pounds per flight would be dispatched from American Samoa to Los Angeles; and that air transportation of first-class mail on a space available basis would result in a more expeditious movement of mail, improved service to the public, and increased flexibility in the transportation and handling of mail by the Department.

In view of the circumstances set forth by the Postmaster General, it appears to be in the public interest to amend the nonpriority mail rate Order E-17255, July 31, 1961 (34 CAB 143),² to extend the application of the existing multiple element rate for nonpriority mail to services between the 48 contiguous States, and Hawaii, on the one hand, and American Samoa on the other.

Therefore, the Board proposes to issue an order to include the following findings and conclusions:

(1) There are presently in effect temporary service mail rates for the transportation of nonpriority mail which were established by Order E-17255;

(2) The fair and reasonable temporary rates of compensation to be paid for the transportation of nonpriority mail on a space available basis between the 48 contiguous States, and Hawaii, on the one hand, and Pago Pago, American Samoa on the other, the facilities used and useful therefor, and the services connected therewith are the service mail rates established by Order E-17255, as amended;

(3) Paragraph B of Order E-17255, July 31, 1961, shall be amended to read as follows:

B. The rates fixed and determined herein shall be applicable only to the transportation by air of nonpriority mail, i.e., such first-class mail, other than airmail and air parcel post, which may be tendered from time to time by the Post Office Department and carried

FEDERAL POWER COMMISSION

[Docket Nos. G-4589 etc.]

G. P. BROWN ET AL.

Findings and Order After Statutory Hearing

MARCH 27, 1968.

Findings and order after statutory hearing issuing certificates of public convenience and necessity, amending certificates, permitting and approving abandonment of service, terminating certificates, severing proceeding, terminating rate proceeding, dismissing application, canceling rate schedule, substituting respondent, redesignating pro-

ceeding, and accepting related rate schedules and supplements for filing.

Each of the Applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce, for permission and approval to abandon service, or a petition to amend an existing certificate authorization, all as more fully described in the respective applications and petitions (and any supplements or amendments thereto) which are on file with the Commission.

The Applicants herein have filed related FPC gas rate schedules and propose to initiate or abandon, add or delete natural gas service in interstate commerce as indicated by the tabulation herein. All sales certificated herein are at rates either equal to or below the ceiling prices established by the Commission's statement of general policy No. 61-1, as amended, or involve sales for which permanent certificates have been previously issued; except that the sale from the Permian Basin area of Texas is authorized to be made at the applicable area base rate and under the conditions prescribed in Opinion Nos. 468 and 468-A.

By order issued February 13, 1968, in Docket Nos. G-3756 et al., a certificate of public convenience and necessity was issued in Docket No. CI68-724 to Piney Point Petroleum (Operator) et al., authorizing the continuation in part of the sale of natural gas theretofore authorized in Docket No. G-16836 to be made pursuant to Atlantic Richfield Co. FPC Gas Rate Schedule No. 190. The contract comprising said rate schedule was also accepted for filing as Piney Point Petroleum (Operator), et al., FPC Gas Rate Schedule No. 7. Atlantic has advised the Commission that Piney Point has succeeded to the entire interests covered by its certificate and rate schedule. Therefore, the certificate issued in Docket No. G-16836 will be terminated, the related rate schedule will be canceled, and the certificate in Docket No. CI68-724 will be amended to denote a complete succession in interest.

Southdown Burmah Oil Co., Applicant in Docket No. CI62-550, proposes to continue the sale of natural gas heretofore authorized in said docket to be made pursuant to Southdown, Inc., FPC Gas Rate Schedule No. 2. Said rate schedule will be redesignated as that of Applicant. Southdown, Inc., had filed a notice of change in rate under said rate schedule, which change was suspended in Docket No. RI66-159, and has not been made effective. Therefore, Applicant will be substituted in lieu of Southdown, Inc., as respondent in the proceeding pending in Docket No. RI66-159 and the proceeding will be redesignated accordingly.

The Commission's staff has reviewed each application and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice, no petitions to intervene, notices of intervention, or protests to the granting of any of the respective

applications or petitions in this order have been received.

At a hearing held on March 20, 1968, the Commission on its own motion received and made a part of the record in these proceedings all evidence, including the applications, amendments, and exhibits thereto, submitted in support of the respective authorizations sought herein, and upon consideration of the record.

The Commission finds:

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a "natural-gas company" within the meaning of said Act upon the commencement of the service under the respective authorizations granted hereinafter.

(2) The sales of natural gas hereinbefore described, as more fully described, in the respective applications, amendments and/or supplements herein, will be made in interstate commerce, subject to the jurisdiction of the Commission and such sales by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) The respective Applicants are able and willing properly to do the acts and to perform the services proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity and certificates therefore should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the certificate authorizations heretofore issued by the Commission in Docket Nos. G-10129, CI60-392, CI60-691, CI62-550, CI63-16, CI63-181, CI64-69, CI64-789, CI65-453, CI65-1159, and CI66-686 should be amended as hereinafter ordered and conditioned.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificate heretofore issued in Docket No. G-16836 should be terminated, that Atlantic Richfield Co. FPC Gas Rate Schedule No. 190 should be canceled, and that the certificate in Docket No. CI68-724 should be amended as hereinafter ordered.

(7) The sales of natural gas proposed to be abandoned by the respective Applicants, as hereinbefore described, all as more fully described in the respective

applications and in the tabulation herein, are subject to the requirements of subsection (b) of section 7 of the Natural Gas Act, and such abandonments should be permitted and approved as hereinafter ordered.

(8) Permission for and approval of the abandonment in Docket No. G-4589 should be permitted and the application for a certificate of public convenience and necessity in said docket should be dismissed as moot.

(9) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificates of public convenience and necessity heretofore issued to the respective Applicants relating to the abandonments hereinafter permitted and approved should be terminated.

(10) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Docket No. RI63-327 should be severed from the consolidated proceedings in Docket No. AR64-2, et al., and that the rate suspension proceeding pending in Docket RI63-327 should be terminated.

(11) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that Southdown Burmah Oil Co. should be substituted in lieu of Southdown, Inc., as respondent in the proceeding pending in Docket No. RI66-159 and the proceeding should be redesignated accordingly.

(12) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the respective related rate schedules and supplements as designated in the tabulation herein should be accepted for filing as hereinafter ordered.

The Commission orders:

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order, authorizing the sales by the respective Applicants herein of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary for such sales, all as hereinbefore described and as more fully described in the respective applications, amendments, supplements, and exhibits in this proceeding.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder, and is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against the respective Applicants. Further, our action in this proceeding shall not foreclose nor prej-

udice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. Nor shall the grant of the certificates aforesaid for service to the particular customers involved imply approval of all of the terms of the respective contracts particularly as to the cessation of service upon termination of said contracts, as provided by section 7(b) of the Natural Gas Act. Nor shall the grant of the certificates aforesaid be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The grant of the certificates issued herein on all applications filed after July 1, 1967, is upon the condition that no increase in rate which would exceed the ceiling prescribed for the given area by paragraph (d) (3) of the Commission's statement of general policy No. 61-1, as amended, shall be filed prior to the applicable date as indicated by footnote 21 in the attached tabulation.

(E) The initial rate for the sale authorized in Docket No. CI68-926 shall be the applicable base area rate prescribed in Opinion No. 468, as modified by Opinion No. 468-A, as adjusted for quality, or the contract rate, whichever is lower.

(F) If the quality of the gas delivered by Applicant in Docket No. CI68-926 deviates at any time from the quality standards set forth in Opinion No. 468, as modified by Opinion No. 468-A, so as to require a downward adjustment of the existing rate, a notice of change in rate shall be filed pursuant to the provisions of section 4 of the Natural Gas Act: *Provided, however,* That adjustments reflecting changes in B.t.u. content of the gas shall be computed by the applicable formula and charged without the filing of a notice of change in rate.

(G) Within 90 days from the date of initial delivery Applicant in Docket No. CI68-926 shall file a rate schedule quality statement in the form prescribed in Opinion No. 468-A.

(H) The initial rate for sales authorized in Docket Nos. CI64-526, CI64-1280, CI65-1052, CI67-1851, CI68-791, and CI68-894 shall be 15 cents per Mcf at 14.65 p.s.i.a., including tax reimbursement, plus B.t.u. adjustment; however, in the event that the Commission amends its policy statement No. 61-1, by adjusting the boundary between the Panhandle area and the Oklahoma "Other" area so as to increase the initial wellhead price for new gas in the areas involved herein, Applicants thereupon may substitute the new rates reflecting the amounts of such increases, and thereafter collect such new rates prospectively in lieu of the initial rate herein required.

(I) The initial rate for sales authorized in Docket Nos. CI63-181 and CI68-762 shall be 11 cents per Mcf at 14.65 p.s.i.a.

(J) Issuance of the certificate in Docket No. CI68-882 is contingent upon Applicant's filing of an estimated billing

statement for the first month of service showing method of billing and prices used.

(K) The certificates heretofore issued in Docket Nos. CI60-392, CI63-181, and CI65-1159 are amended by adding thereto or deleting therefrom authorization to sell natural gas to the same purchasers and in the same areas as covered by the original authorizations pursuant to the rate schedule supplements as indicated in the tabulation herein.

(L) The certificate heretofore issued in Docket No. G-10129 is amended by deleting therefrom authorization to sell natural in the G. L. Wood et al. Lease, and the related rate schedule is redesignated from Gulf Oil Corp. (Operator) et al. to Gulf Oil Corp., as indicated in the tabulation herein.

(M) The certificates heretofore issued in Docket Nos. CI60-691, CI63-16, CI64-69, and CI64-789 are amended by deleting therefrom authorization to sell natural gas from acreage assigned to Applicant in Docket No. CI65-1052.

(N) The certificate heretofore issued in Docket No. CI65-453 is amended by deleting therefrom authorization to sell natural gas from acreage assigned to Applicant in Docket No. CI68-926.

(O) The certificate heretofore issued in Docket No. G-16836 is terminated; Atlantic Richfield Co. FPC Gas Rate Schedule No. 190 is canceled; and the certificate heretofore issued in Docket No. CI68-724 is amended to denote that the sale authorized therein to be made by Piney Point Petroleum (Operator) et al., will be made from the complete interests of Atlantic Richfield Co.

(P) The certificates heretofore issued in Docket Nos. CI62-550 and CI66-686 are amended by substituting the respective successors in interest as certificate holders as indicated in the tabulation herein.

(Q) Permission for and approval of the abandonment of service by the respective Applicants, as hereinbefore described, all as more fully described in the respective applications and in the tabulation herein are granted.

(R) Permission for and approval of the abandonment in Docket No. G-4589 is granted and the application for a certificate of public convenience and necessity in said docket is dismissed as moot.

(S) The certificates heretofore issued in Docket Nos. G-11183, CI60-267, CI65-27, and CI67-294 are terminated.

(T) Docket No. RI63-327 is severed from the consolidated proceedings in Docket No. AR64-2 et al., and the rate suspension proceeding pending in Docket No. RI63-327 is terminated.

(U) Southdown Burmah Oil Co. is substituted in lieu of Southdown, Inc., as respondent in the proceeding pending in Docket No. RI66-159 and the proceeding is redesignated accordingly.¹

(V) The respective related rate schedules and supplements as indicated in the

tabulation herein are accepted for filing; further, the rate schedules relating to the successions herein are accepted and redesignated, subject to the applicable Commission regulations under the Nat-

ural Gas Act to be effective on the dates as indicated by the tabulation herein.

By the Commission.

¹¹ "Fractured" rate increase. Contractually due 22.75 cents per Mcf (21 cents base plus 1.75 cents tax reimbursement).

¹² Initial rate issued by conditioned temporary certificate issued Jan. 25, 1968, in Docket No. C168-771.

¹³ Contract dated Nov. 1, 1967, provides, among other things, for cancellation of the basic contract dated Feb. 8, 1961, as amended, and for a new pricing schedule which is the basis for the rate proposed herein.

¹⁴ Renegotiated rate increase.

Gulf Oil Corp. (Gulf) requests that Supplement No. 5 to its FPC Gas Rate Schedule No. 178 be permitted to become effective on March 30, 1968. Goodale, Bertman & Co., Inc. (Goodale) requests an effective date of March 1, 1968, for its proposed rate increase. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit earlier effective dates for Gulf and Goodale's rate filings and such requests are denied.

Kerr-McGee Corp.'s (Kerr-McGee) proposed rate increases were submitted under rate schedules that are subject to a settlement moratorium condition which prohibits Kerr-McGee from filing prior to April 1, 1968, for any contractually due rate increases under the rate schedules.¹⁵ In view of the short period remaining before expiration of the April 1, 1968, moratorium date, and consistent with prior Commission action involving

rate increase filings submitted by producers under rate schedules where the moratorium had not as yet expired, we conclude that Kerr-McGee's rate filings should be treated as though filed on April 1, 1968, the date of expiration of the above-mentioned moratorium, and the Commission's 30-day notice period commence as of that date in lieu of the date such filings were submitted.

Kerr-McGee is "fracturing" its contractually due rates and proposing rates to 21.25 cents, the area standard for initial service rates as established by the Commission's statement of general policy No. 61-1, as amended. For the above reason, Kerr-McGee requests that its proposed increases be accepted without suspension, effective as of April 1, 1968.¹⁷ The proposed rates exceed the area ceiling for increased rates and, since Kerr-McGee is prohibited from filing these increases prior to April 1, 1968, we con-

clude that the increases proposed by Kerr-McGee should be suspended for 5 months from May 2, 1968, the date of expiration of the statutory notice from April 1, 1968.

Concurrently with the filing of its proposed rate increase, Continental Oil Co. (Continental) submitted a contract dated November 1, 1967, designated as Supplement No. 12 to Continental's FPC Gas Rate Schedule No. 106, which provides for its proposed rate increase. We believe that it would be in the public interest to accept for filing Continental's proposed contract to become effective on April 4, 1968, the expiration date of the statutory notice, but not the proposed rate contained therein which is suspended as hereinafter ordered.

The proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's statement of general policy No. 61-1, as amended (18 CFR Ch. I, Part 2, § 2.56).

The proposed changed rates and charges may be unjust, unreasonable,

¹⁵ Order approving settlement proposal issued Nov. 29, 1963, in Docket No. G-13221 et al.

¹⁷ The initial rate ceiling for uncontested certificate applications has no relevance for an increased rate filing.

unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) Good cause has been shown for accepting for filing Continental's proposed contract dated November 1, 1968, designated as Supplement No. 12 to Continental's FPC Gas Rate Schedule No. 106, and for permitting such supplement to become effective on April 4, 1968, the date of expiration of the statutory notice.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the proposed changes, and that the above-designated rate supplements be suspended and the use thereof deferred as hereinafter ordered (except for the supplement set forth in paragraph (1) above).

The Commission orders:

(A) Continental's contract dated November 1, 1967, designated as Supplement No. 12 to Continental's FPC Gas Rate Schedule No. 106, is accepted for filing and permitted to become effective on April 4, 1968, the date of expiration of the statutory notice.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in the above-designated rate supplements (except the supplement set forth in paragraph (A) above).

(C) Pending hearings and decisions thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(D) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(E) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before May 8, 1968.

By the Commission.

Secretary.

all applications in which no protest or petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates, or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given; Provided, however, that pursuant to § 2.56, Part 2, Statement of General Policy and Interpretations, Chapter I of Title 18 of the Code of Federal Regulations, as amended, all permanent certificates of public convenience and necessity granting applications, filed after July 1, 1967, without further notice, will contain a condition precluding any filing of an increased rate at a price in excess of that designated for the particular area of production for the period prescribed therein unless at the time of filing of protests or petitions to intervene the Applicant indicates in writing that it is unwilling to accept such a condition. In the event Applicant is unwilling to accept such condition the application will be set for formal hearing.

ARGUS PRODUCTION CO. ET AL.

Findings and Order Substituting Holder of Small Producer Certificate of Public Convenience and Necessity, Accepting and Approving Settlement Offer, Providing for the Termination and Severance of Proceedings, and Requiring Refunds

MARCH 12, 1968.

On December 18, 1967, Argus Production Co. (Applicant) filed in Docket No. CS66-22 an application requesting that it be substituted as the holder of the "small producer" certificate issued on June 14, 1966, in said docket to the First National Bank of Dallas as Trustee for Paul P. Scott and Clara T. Scott (Scott). The substitution will be effective as of May 1, 1967, the date of the transfer of the properties involved.

The sales of natural gas presently being rendered pursuant to Docket No. CS66-22 are from various leases in Lea County, N. Mex., to El Paso Natural Gas Co. (El Paso). The applicable area base rates determined in Opinion No. 468 are 13.50 cents per Mcf for sales made pursuant to contracts executed prior to January 1, 1961, and 15.5 cents per Mcf for sales made pursuant to contracts executed on or after January 1, 1961. To such base rates the applicable State and local production taxes in effect on September 1, 1965, should be added. Said rates are the same as the predecessor was

authorized to collect at the time the properties were transferred to Applicant.

With respect to one of the rate schedules involved in Docket No. CS66-22, Scott on January 2, 1968, filed a settlement offer in Docket No. RI61-98. This proceeding involves a rate increase from 10.5 cents per Mcf to 15.5 cents per Mcf being collected subject to refund by Scott for the sale of gas formerly covered by Scott's FPC Gas Rate Schedule No. 1.¹

Scott proposes to refund to El Paso all revenues (except for the Federal royalty portion) collected in excess of 14.3275 cents per Mcf (including taxes) for the period March 1, 1961, through June 13, 1966, inclusive, plus 7 percent interest to the date of the Commission order. The amount that Scott estimates will be refunded is \$1,618.70 (\$1,309.67 principal and \$309.02 interest through Nov. 30, 1967).

Section 154.102(f) of the Commission's regulations excuses only the payment of interest on royalties paid to a governmental authority. It does not purport to relieve a producer of its obligation to refund amounts attributable to such royalties.

The settlement therefore shall be conditioned to provide that Scott's refund include the principal attributable to the Federal royalty portion in accordance with § 154.102 of the regulations and interest to the date of issuance of this order.

¹ Docket No. RI61-98 is consolidated in Docket No. AR61-1 et al.

The Commission finds: It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that Argus Production Co. be substituted as the certificate holder in Docket No. CS66-22 in lieu of First National Bank of Dallas as Trustee for Paul P. Scott and Clara T. Scott.

The Commission orders:

(A) Argus Production Co. is substituted as the holder of the "small producer" certificate in Docket No. CS66-22 in lieu of First National Bank of Dallas as Trustee for Paul P. Scott and Clara T. Scott. In all other respects said certificate shall remain in full force and effect.

(B) The Commission accepts and approves the settlement offer submitted by Scott, conditioned to require Scott to refund all revenues (including the Federal royalty portion) collected in excess of 14.3275 cents per Mcf for the period March 1, 1961, through June 13, 1966, inclusive, plus 7 percent interest (except on refunds attributable to Federal royalty portion) to the date of this order.

(C) Scott shall submit within 30 days from the date of this order a letter from El Paso Natural Gas Co. acknowledging the receipt of the refunds required by this order and agreeing to the correctness thereof.

(D) Upon compliance by Scott with the terms of the settlement offer, as conditioned in paragraph (B) above, the proceeding in Docket No. RI61-98 shall be terminated, and the proceeding severed from Docket No. AR61-1 et al.

By the Commission.

NORTHERN NATURAL GAS CO.

Notice of Petition To Amend

MARCH 29, 1968.

Take notice that on March 22, 1968, Northern Natural Gas Co. (Petitioner), 2223 Dodge Street, Omaha, Nebr. 68102, filed in Docket No. CP67-138 a petition to amend a temporary certificate issued December 16, 1966, as amended on March 9, 1967 and June 23, 1967. By this petition, the Petitioner seeks authorization to establish emergency standby service to New Mexico Electric Service Co. (New Mexico Electric) at the latter's Maddox Electric Generating Station near Hobbs, N. Mex., as more fully set forth in the petition to amend, which is on file with the Commission and open to public inspection.

By the order issued December 16, 1966, as last amended June 23, 1967, Petitioner was authorized to deliver up to 20,000 Mcf per day to New Mexico Electric until New Mexico Electric's long-term supply was developed.

By the instant petition, Petitioner seeks authorization to provide only emergency service pursuant to a contract

with New Mexico Electric dated March 14, 1968. The proposed service is to be rendered only during periods of interruption or curtailment of New Mexico Electric's gas supply.

The proposed emergency deliveries are to be limited to 24,000 Mcf per day for use exclusively in New Mexico Electric's Maddox Electric Generating Station. The proposed deliveries are to be made only after Petitioner has determined that such deliveries will not impair service to its other customers.

New Mexico Electric is to pay Petitioner \$1,920 per year plus 28 cents per Mcf for all gas delivered under the contract.

Petitioner also requests the Commission to waive a condition of the temporary certificate, as amended, requiring Petitioner to report, within 10 days, the removal of facilities serving New Mexico Electric in view of Petitioner's proposal to utilize such facilities to provide emergency standby service.

The petition states that no new facilities will have to be constructed by Petitioner.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (§ 157.10) on or before April 26, 1968.

SECURITIES AND EXCHANGE COMMISSION

[812-2302]

TALLEY INDUSTRIES, INC. AND AMERICAN INVESTORS FUND, INC.

Notice and Order for Hearing on Application

APRIL 2, 1968.

Notice is hereby given that Talley Industries, Inc. ("Talley Industries"), 3500 North Greenfield Road, Mesa, Ariz., and American Investors Fund, Inc. ("American Investors"), 88 Field Point Road, Greenwich, Conn. 06830, a diversified, open-end management investment company registered under the Investment Company Act of 1940 ("Act"), have filed a joint application for an order of the Commission declaring that the transactions described therein and summarized below are not subject to the provisions of section 17(d) of the Act or Rule 17d-1 thereunder. In the alternative, the application requests an order of the Commission granting the application pursuant to section 17(d) of the Act and Rule 17d-1 thereunder with respect to such transactions.

All interested persons are referred to the application, which is on file with the

Commission, for a statement of the representations therein, which are summarized below:

Since August 8, 1967, American Investors has owned more than 5 percent of the outstanding common stock of Talley Industries, a Delaware corporation which is engaged in the design, development, manufacture, and sale of products primarily for the aerospace industry. On December 31, 1967, American Investors owned 116,700 shares or approximately 9 percent of the outstanding common stock of Talley Industries. Franz G. Talley, Gerald E. Hirt, and Oscar Kimelman are directors and, respectively, president, vice president, and assistant secretary of Talley Industries. Franz G. Talley also beneficially owns in excess of 5 percent of the outstanding common stock of Talley Industries; and Oscar Kimelman is a limited partner of M. Kimelman &

Co., a member of the New York Stock Exchange. As a result of the relationships described above, Talley Industries is an affiliated person of American Investors and Franz G. Talley, Gerald E. Hirt, and Oscar Kimelman are affiliated persons of an affiliated person (Talley Industries) of American Investors, a registered investment company, within the meaning of section 2(a)(3) of the Act.

During the period December 22, 1967, through February 23, 1968, American Investors and each of its above-mentioned affiliates purchased shares of the outstanding common stock of General Time Corp. ("General Time").

The number of shares of General Time purchased and owned by American Investors and each of the aforementioned affiliated persons, the time of such purchases and the average price paid are set forth in the following table:

	Number General Time shares purchased	Average cost per share	Period acquired	Percent of 2,124,136 shares of General Time common stock outstanding at Mar. 1, 1968
American Investors.....	210,000	\$28.49	1-5-68— 2-15-68	9.89
Affiliates of American Investors: Talley Industries ¹	257,937	38.99	12-26-67— 2-23-68	12.14
F. G. Talley ²	400	28.00	12-22-67	.02
G. E. Hirt.....	1,000	23.25	11-22-67	.05
O. Kimelman.....	9,800	29.50	1-12-68 and 1-18-68	.46
Total.....	479,137			22.56

¹ During the period shown Talley Industries acquired and sold 50,000 additional shares of General Time common stock. The average cost of the 307,937 shares so acquired was \$36.76 a share. Of the 257,937 shares of General Time now held by Talley Industries, 205,837 shares were acquired following the acquisition of American Investors' entire holdings of 210,000 shares of General Time.

² Held as custodian for children of Franz G. Talley.

The application indicates that each of the persons enumerated above acquired his holdings of General Time stock under the following circumstances:

About December 29, 1967, following the purchase by Hirt and Talley of shares of General Time, Franz G. Talley informed George A. Chestnutt, Jr., President of American Investors and of Chestnutt Corp., the investment adviser of American Investors, that M. Kimelman & Co. had recommended the purchase of General Time common stock; that Talley Industries had purchased approximately 25,000 shares of such stock and was considering the purchase of additional shares; and that if Talley Industries decided to proceed with the purchase it might consider the desirability at a later date of proposing a combination of Talley Industries and General Time. At that time Mr. Talley also suggested that Chestnutt, if he was interested, might want to discuss the matter with Michael Kimelman, of M. Kimelman & Co.

According to the application, Chestnutt replied that if he decided to purchase General Time stock, he would do so based on his assessments of the merits of the security, and would retain complete freedom of action with respect to the shares purchased. Chestnutt also stated that he would make no commitments to Mr. Talley with respect to any possible merger of Talley Industries and General Time, or with respect to the voting of any

shares owned by American Investors, nor would he enter into any arrangement or understanding with respect to the sale or other disposition of any such shares.

On January 5, 1968, following discussions between Chestnutt and partners of M. Kimelman & Co. concerning the latter's research analysis of General Time, American Investors placed an order with M. Kimelman & Co. for the purchase of General Time common stock.

It is represented that all of the foregoing purchases of General Time stock were effected on the New York Stock Exchange through M. Kimelman & Co. at market prices prevailing at the time of purchase except for 66,437 shares purchased by Talley Industries in response to a special bid of \$36.50 a share made on February 19, 1968, by Smith, Barney & Co., Inc., as agent, pursuant to Rule 391 of the New York Stock Exchange.

In early March 1968, after several unsuccessful attempts to initiate negotiations in respect to a possible merger of Talley Industries and General Time, Talley determined to prepare to solicit proxies for the election at General Time's 1968 annual meeting of stockholders, of persons receptive to the concept of merging Talley Industries and General Time. To this end, a slate of 10 nominees as directors of General Time have been chosen and such nominees, Talley Industries and its officers and directors, and

M. Kimelman & Co. have filed Schedule 14B statements with the Commission. It is represented that American Investors was not consulted with respect to the determination to solicit proxies in opposition to management's slate of nominees for General Time's directors; that American Investors was not requested to, and did not, recommend any persons as opposition nominees; and that American Investors has not committed to vote its General Time shares for the persons proposed to be nominated in opposition to management's slate.

It is represented that neither Talley Industries nor any of its officers, directors, or stockholders owning 5 percent or more of its outstanding voting securities is an officer, director, or stockholder of American Investors or its investment adviser, Chestnutt Corp.; and that neither American Investors nor Chestnutt Corp. nor any of the officers or directors of either of these is an officer or director or controlling stockholder of Talley Industries.

Section 17(d) of the Act and Rule 17d-1 thereunder, taken together provide, among other things, that it shall be unlawful, with certain exceptions not applicable here, for an affiliated person of a registered investment company or any affiliated person of such person, acting as principal, to participate in or effect any transaction in which such registered company, or a company controlled by such registered company, is a joint or joint and several participant unless an application regarding such arrangement has been granted by the Commission, and that, in passing upon such an application, the Commission will consider whether the participation of such registered company or controlled company in such arrangement is consistent with the provisions, policies, and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants. A joint enterprise or arrangement as used in Rule 17d-1 is defined as any written or oral plan, contract, authorization, or arrangement, or any practice or understanding concerning an enterprise or undertaking whereby a registered investment company or a controlled company thereof and any affiliated person of or a principal underwriter for such registered company, or any affiliated person of such person or principal underwriter, have a joint or a joint and several participation, or share in the profits of such enterprise or undertaking.

Talley Industries and American Investors contend that there is no written or oral plan, contract, authorization, or arrangement nor is there any practice or understanding by, between or among Talley Industries, Franz G. Talley, American Investors, M. Kimelman & Co., Michael Kimelman, Oscar Kimelman, or Gerald E. Hirt, concerning any transaction, arrangement, enterprise, or undertaking whereby American Investors and any affiliated person or affiliated

person of an affiliated person thereof have a joint or a joint and several participation, or share in the profits of such enterprise or undertaking, and, consequently, that none of the transactions described in the application is subject to section 17(d) of the Act.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors that a hearing be held with respect to the application:

It is ordered, Pursuant to section 40(a) of the Act, that a hearing on the aforesaid application under the applicable provisions of the Act and of the rules of the Commission thereunder be held on the 16th day of April 1968, at 10 a.m., in the offices of the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. At such time the Hearing Room Clerk will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in this proceeding is directed to file with the Secretary of the Commission his application as provided by Rule 9(c) of the Commission's rules of practice, on or before the date provided in the rule, setting forth any issues of law or fact which he desires to controvert or any additional issues which he deems raised by this notice and order or by such application. Persons filing an application to participate or be heard will receive notice of any adjournment of the hearing as well as other actions of the Commission involving the subject matter of this proceeding.

It is further ordered, That any officer or officers of the Commission, designated by it for that purpose, shall preside at said hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42(b) of the Act and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation having advised the Commission that it has made a preliminary examination of the application, and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the transactions described in the application are subject to the provisions of section 17(d) of the Act;

(2) If such transactions are subject to the provisions of section 17(d) of the Act, (a) whether they are consistent with the provisions, policy and purposes of the Act, (b) whether the participation of American Investors in the transactions is on a basis different from or less advantageous than that of the other participants and the extent thereof, and (c) whether any of the transactions have been consummated, and, if so, whether the Commission should grant the application pursuant to section 17(d) and Rule 17d-1 with respect to such consummated transactions;

(3) Whether the transactions described constitute a single integrated transaction, and, if any portion thereof has been consummated, whether the Commission should grant the application with respect to the portion of the single transaction which remains unconsummated;

(4) Whether American Investors controls Talley Industries within the meaning of the term "control" as used in section 2(a)(9) of the Act;

(5) Whether the purchase by American Investors of stock of General Time contravenes American Investors' policy not to invest in the securities of a company for the purpose of exercising control or management, and, if so, whether the purchases by American Investors of its holdings of General Time common stock contravene the provisions of section 13(a)(3) of the Act;

(6) Whether American Investors is or has been involved in an attempt to bring about the merger of General Time and Talley Industries and, if so, whether such involvement is consistent with the investment policy of American Investors recited in its registration statement pursuant to section 8(b)(2) of the Act and with the provisions, policy, and purposes of the Act.

It is further ordered, That at the aforesaid hearing attention be given to the foregoing matters.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this notice and order by registered mail to Talley Industries, Inc., and American Investors Fund, Inc., and that notice to all other persons be given by publication of this notice and order in the FEDERAL REGISTER, and that a general release of this Commission in respect of this notice and order be distributed to the press and mailed to the mailing list for releases.

By the Commission.
