(34 F.R. 2311-2328) concerning the revision of the System of Account Classifications for Small Business Investment Companies (Part 111). No comments have been received. No changes have been made in the text of the proposed revision to Part 111 as published on February 18, 1969. Accordingly, SBA has determined to adopt the proposed Part 111, subject to the following, as being in furtherance of the best interests of the SBA program:

In view of the determination made that it is necessary in the public interest that this revision should be promptly applied to the program authorized by the Small Business Investment Act of 1958, it shall become effective on March 31, 1969.

Dated: March 17, 1969.

HILARY BANDOW, Jr.,
Administrator.

General Instructions

1. This system of account classifications for small business investment companies (effective Mar. 31, 1969) is adaptable to manual or machine accounting procedures employing the double-entry method, and is otherwise designed to meet the specific needs of companies licensed in accordance with the provisions of the Small Business Investment Act of 1958, as amended.

2. Account classifications in use by companies licensed prior to issuance of this revised system shall be converted to the classifications set forth herein as of March 31, 1969. A small business investment company which considers that it needs one or more additional accounts may submit a detailed description of the proposed account(s) to the Staff Accountant, Investment Division, SBA, for consideration, and, upon receipt of written approval thereof, may incorporate such additional accounts into its accounting system.

3. Subdivisions of any account in this system of account classifications may be kept in the general ledger provided that such subaccounts do not impair the integrity of the accounts set forth in the prescribed system. All such subaccounts shall refer by number and title to the account of which they are subdivisions. Use of a decimal system is required for extending the account numbers to identify such subaccounts.

4. This account classifications system is designed to provide for two-digit number designations for major categories under which accounts are listed, and three-digit number designations for individual general ledger accounts. The first two digits of all general ledger accounts refer to the major category under which the account is classified and the third digit identifies the specific account. Digits from zero through nine are used to identify specific accounts. For example, the first deposit bank account established will be designated "100" and the second "101." It will be noted that some categories encompass individual accounts in sufficient number to require assignment of more than one two-digit number to identify the category. For example, "Cash on Hand and in Banks" has been assigned category numbers "10," "11," and "12."

5. Books of account shall be maintained on an accrual basis and, at the end of each month all transactions shall be posted to the General Ledger, Entries in the records and posting to the General Ledger of accruals applicable to each month is optional with each Licensee but SBA requires that all accounts shall be kept in the books and posted as of March 31 and September 30 each year, and as of such other dates as mark the close of periods to be covered by interim or special financial reports, such accounts to be furnished to SBA.

6. It is very important that complete and accurate records of all nominal assets and contingent liabilities be maintained. This is especially true with respect to (1) outstanding guarantees under which the company is contingently liable to lend through loans to them or the acquisition of their equity securities and to make funds available to other lenders through the sale of participation, (2) all outstanding guarantee agreements under which the company is contingently liable to lend institutions in connection with obligations of portfolio concerns. A section providing for the maintenance of appropriate memorandum records is included herein, covering nominal assets, contingent liabilities, options on the capital stock of the small business investment company, and the actual loss experience of the company.

Each small business investment company shall keep its books of account, and all other books, records, and memoranda which support in any way the entries in its books of account, in such
manner as to be able readily to furnish full information on any item included in any account. The books and records referred to herein include not only accounting records in a limited technical sense, but all other records, such as minute books, capital stock records, reports, correspondence, and memoranda which may be useful in developing the history of, or facts regarding, any transaction.

8. Nothing contained in this system of account classifications can or is intended to authorize or approve any operation or action by a Licensee, or any other, not authorized or approved by the Small Business Investment Act of 1958, as amended.

Oral argument may be permitted in the discretion of the Hearing Board, and shall be reported as part of the record unless otherwise ordered by the Hearing Board.

§ 604.23 Final findings and recommendations.

(a) The Hearing Board shall make its final findings, conclusions, and recommendations, if any, based on the evidence presented at the hearing, and submit the same to the Secretary.

**RULES AND REGULATIONS**

**PART 882—DECORATIONS AND AWARDS**

**Subpart B—U.S. Military Decorations**

Subchapter I of Chapter VII of Title 32 of the Code of Federal Regulations is amended as follows:

1. Section 882.24 is revised; § 882.26 is amended by adding note immediately following subparagraph (1) of paragraph (e). These sections now read as follows:

**§ 882.24 Special entitlements.**

(a) Increase in retired pay. Any Regular enlisted member of the Air Force retired under 10 U.S.C. 8914 credited with extraordinary heroism in line of duty, is entitled to 10 percent increase in retired pay, provided the total retired pay does not exceed 75 percent. A determination that extraordinary heroism was or was not involved will now be made by the Secretary of the Air Force at the time the member is separated from active duty.

(b) Medal of Honor Recipients. (1) Since extraordinary heroism is the criteria for award of the Medal of Honor, Air Force Cross, or equivalent Army or Navy decorations, to enlisted members, they will be automatically entitled to the additional retirement pay subject to the 75 percent limitation. When award of the Medal of Honor and the Air Force Cross is approved, the special order confirming the award will include a statement authorizing the 10 percent additional retirement pay. The CEPO or unit personnel record custodian will file one copy of the special order in the recipient's unit personnel records. USAFMC (AFPGSM) will include a copy of the special order in the recipient's master personnel records.

(2) Other decorations awarded for heroism (Silver Star, Distinguished Flying Cross, Airman's Medal, and the Bronze Star Medal with "V" device) also will be considered for the additional 10 percent retirement pay. USAFMC (AFPGSM) will consider requests to award the additional retirement pay when the award is processed. The determination of the Secretary of the Air Force as to extraordinary heroism is conclusive for all purposes.

(3) If the final determination is made that the factor of extraordinary heroism was involved, a Department of the Air Force special order will be issued confirming entitlement to the additional retired pay. USAFMC (AFPGSM) will inform the major command of the Secretary's determination and include sufficient copies of the order to insure a copy for the recipient and a copy of his unit personnel records. USAFMC (AFPGSM) will also include a copy of the special order in the member's master personnel records.

(4) If it is determined that extraordinary heroism was not involved, the major command will be requested to make that determination a matter of official record by filing a copy of the record in the recipient's unit personnel records. A copy of the correspondence also will be included in the individual's master personnel record by USAFMC.

(f) Air Force commanders having final awarding authority for the Silver Star, Distinguished Flying Cross, Airman's Medal, and the Bronze Star Medal with "V" device will, when they approve the award, forward the approved recommendation, including a copy of the special order announcing the award and the member's name, to the USAFMC (AFPGSM), Randolph AFB, TX 78148, for processing through the Secretary of the Air Force for a determination. Each case will include the major command's evaluation as to whether or not extraordinary heroism in line of duty was involved in the action which resulted in award of the decoration.

Note: This new procedure will not preclude a member from requesting a determination on any decoration (Silver Star, Distinguished Flying Cross (Heroism), Airmans Medal, and the Bronze Star Medal) re­ceived before this new procedure when extraordinary heroism may have been involved.

(b) Medal of Honor Recipients. (1) Medal of Honor Roll. Upon written application to the Secretary of the Air Force, each living recipient of the Medal of Honor, who has served on active duty in the armed forces of the United States, may have his name inscribed on the Medal of Honor Roll. If the Medal of Honor was awarded for conspicuous gallantry and intrepidity at the risk of his life above and beyond the call of duty while serving, each person whose name is placed on the Roll is certified to the Veteran Administration as being entitled to receive a special pension of $100 per month for life, if he so desires, payable monthly by that agency. The payment of this special pension is in addition to, and does not deprive the pensioner of, any other pension, benefit, right, or privilege to which he is or may be thereafter entitled (38 U.S.C. 560–562). Necessary application is automatically furnished each Air Force recipient of the Medal of Honor by Hq USAF.

(2) Air Transportation. Living recipients of the Medal of Honor are entitled to free transportation on military aircraft within the continental limits of the United States on a "space available" basis. Identification cards for this purpose are furnished by USAFMC (AFPGSM). (See AFR 76–6, Responsibilities and Policies for Movement of Traffic on Other Than MAC Scheduled Aircraft.)

(3) Admission to U.S. Service Academies. Sons of Medal of Honor recipients, otherwise qualified, are not subject to the limits of admission to any of the U.S. Service Academies. (See annual catalog, U.S. Air Force Academy.)

(4) Wearing of Air Force Uniform. Persons awarded the Medal of Honor, are authorized to wear the uniform at any time, except as prohibited in AFM 35–10 (Service and Dress Uniforms for AP Personnel).

**§ 882.26 Joint Service Commendation Medal (JSCM) (Department of Defense).**

(d) Awarded by:

(1) * * *
RULES AND REGULATIONS

§ 882.54 Awards by other U.S. agencies.

Service awards are also awarded by the U.S. Army, Navy, Marine Corps, and Coast Guard. Such awards are made in accordance with the policies and regulations of the awarding authority, and this part will not be construed to nullify them. An Air Force member who has been awarded a service award by one of the other military services may wear the award on the Air Force uniform provided that its wear is not precluded by AFM 35-16 (Service Dress Uniforms for AF Personnel).

§ 882.54a Combat readiness medal.

(a) Description. Encircling a ring of stylized cloud forms, a border of concentric rays, its rim concave between 12 points, charged six arrowheads, alternating with the points of two triangular flight symbols, having center lines ridged inversely. One is pointed south and overlapped, and the other pointing north whose apex extends beyond the rim, becoming the point of suspension of the medal. The ribbon is predominantly old glory red and banded in blue, with a vertical dark blue stripe separated by two wider stripes of light blue.

(b) Requirements for award. Completion of an aggregate of 4 years of sustained professional performance as an Air Force combat ready aircrew or missile launch crew member or as a Weapons Director, AFSC 17xx, assigned to an operational unit subject to the Combat Readiness Rating System under the provisions of AFM 55-11. During this period, the aircrew or missile launch crew member of combat Weapons Director must have been:

(1) Certified as combat ready in accordance with Air Force and major command qualification criteria by the appropriate wing commander or commander of a group not reporting to a wing; and

(2) Serving in a missile launch crew position, or in a rated AFSC position as an aircrew member, or in an AFSC 17xx position as a Weapons Director.

(c) Method of award. The Wing/Group Director of Operations will notify the custodian of the unit personnel records group by letter when a crew member has fulfilled the requirements for award of the Combat Readiness Medal. The letter will be filed in the unit personnel records group and will be authority for entries on personnel records in accordance with AFMs 35-9 or 35-12.

Note: Aircrew members on special duty with another US military service may be credited with time for award of the CRM provided they are designated and/or certified, while so serving, as combat ready in accordance with that service’s criteria (if such criteria closely correlates to Air Force and parent major command criteria) and provided that other requirements stated above are met. When in combat ready status (requalification, PCS, sickness, or other cause not attributed to any instance of nonprofessionalism or misconduct), the aircrew member submitting service for award of the Combat Readiness Medal, provided the break is not more than 120 days, will be credited with such service for award of the Combat Readiness Medal.

(d) Initial award. All qualifying service from August 1, 1960. Individuals may claim in the personal record under new criteria established August 23, 1967. Officers must certify that they earned entitlement to the Combat Readiness Medal, as outlined in paragraph (b) of this section giving the dates when they were combat ready aircrew members and their unit(s) of assignment. Airman claiming entitlement must execute a sworn statement providing the same information. The certificate or sworn statement will be filed in the unit personnel records group. Entries on personnel records will be in accordance with AFM 35-9 or 35-12 (Official Military Personnel Records System and Air Force Military Personnel Records System).

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 87—AVIATION SERVICES

Improvement of Capability of the Civil Air Patrol (CAP) To Participate in Search and Rescue (SAR) Operations

I. The Commission, on December 12, 1968, adopted a notice of proposed rule making in the above entitled matter (FCC 68-1177) which made provision for filing comments. The notice was published in the FEDERAL REGISTER on December 21, 1968 (33 F.R. 19084). The time for filing comments and reply comments has passed, and none were filed.

2. The notice proposed rule changes that were requested by the Civil Air Patrol (CAP) and would apply to the operation, by the CAP and others, of all Search and Rescue (SAR) stations. The requested changes would make a frequency available to SAR stations for training purposes and would relax the regulatory requirements somewhat concerning SAR land station locations and points of communication. In general, the CAP requested the changes to permit them to participate more fully and effectively in SAR operations, and we agreed, for the reasons explained in detail in our notice, that the changes would achieve the desired result.

3. In addition to the rule changes proposed in our notice, we are now making editorial changes in §§ 87.183(c), 87.401(c), and 87.431 of our rules to delete the protection afforded the frequency 121.5 Mc/s when this frequency was available for SAR station use on a shared basis.

4. In view of the foregoing: It is ordered. That pursuant to authority contained in section 4(d) and 303(r) of the Communications Act of 1934, as amended, Parts 2 and 87 of the Commission's rules are amended, effective April 28, 1969, as set forth below.

5. It is further ordered. That this proceeding is terminated.

§ 2.1 Definitions.

Aeronautical search and rescue station. A land or mobile station in the aeronautical mobile service used for communication with aircraft and other aeronautical search and rescue stations pertaining to search and rescue activities with aircraft.

1. Commissioner Johnson concurring in the result.

II. Part 87, Aviation Services is amended as follows:

1. In § 87.6 the definition for an Aeronautical search and rescue mobile station is deleted, and a new definition for an aeromedical search and rescue station is added, as follows:

§ 87.6 Definition of terms.

Aeronautical search and rescue station. A mobile station in the aeronautical mobile service used for communication with aircraft and other aeronautical search and rescue stations pertaining to search and rescue activities with aircraft.
§ 87.183 Frequencies available.

(g) 122.9 and 123.1 Mc/s: These frequencies may be used by aircraft for air-to-air communications and air-to-ground communications with aeronautical search and rescue stations when engaged in search and rescue activities in accordance with Subpart K of this part.

(h) 121.60, 121.65, 121.70, 121.75, 121.80, 121.85, and 121.90 megacycles: Airport utility frequencies. In addition to their use for airport utility communications, these frequencies may be used for the control of airport lights by the transmission of brief keyed RF signals from aircraft on the condition that no harmful interference is caused to authorized voice communications.

3. Section 87.401(c) is amended to read as follows:

§ 87.401 Frequencies available.

(c) 121.60, 121.65, 121.70, 121.75, 121.80, 121.85, and 121.90 megacycles: These airport utility frequencies are available to airdrome control stations for communications with ground vehicles and aircraft on the ground at airdromes. The antenna heights shall be restricted to the minimum necessary to achieve the required coverage.

4. Section 87.431 is amended to read as follows:

§ 87.431 Frequencies available.

The frequencies 121.60, 121.65, 121.70, 121.75, 121.80, 121.85, and 121.90 megacycles are available for use by aeronautical utility mobile stations.

5. Subpart K is amended by deleting the word “Mobile” from the title, and in § 87.441 paragraphs (a) and (b) are amended and a new paragraph (c) is added, and § 87.443 is amended to read as follows:

Subpart K—Aeronautical Search and Rescue Stations

§ 87.441 Frequencies available.

(a) The frequency 123.1 Mc/s is available for assignment to aeronautical search and rescue stations for actual search and rescue missions. Each search and rescue station shall be equipped to operate on this frequency.

(b) 121.5 Mc/s: This is a universal simplex emergency and distress frequency for air-ground communications and will not be assigned unless (1) a showing is made establishing a need for such services and (2) the search and rescue mobile frequency 123.1 Mc/s is assigned and available for use to accommodate normal communication needs.

(c) The frequency 122.9 Mc/s is available for assignment to aeronautical search and rescue stations for organized search and rescue training and practice search and rescue missions.

6. Section 87.443 is amended to read as follows:

§ 87.443 Scope of service.

(a) Aeronautical search and rescue stations operating as mobile stations shall be used only for communications with aircraft, and other aeronautical search and rescue stations engaged in search and rescue activities with aircraft.

(b) Aeronautical search and rescue stations operating as land stations shall be used only for communications with aircraft and search and rescue mobile stations engaged in search and rescue activities with aircraft. Such land stations may be moved for temporary periods from a specified location to an area where actual or practice search and rescue operations are being conducted.

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Virginia Beach, Va., offshore transition area east of the States of Virginia and North Carolina.

As parts of this proposal relate to the navigable airspace outside the United States, this notice is submitted in conformance with the ICAO International Standards and Recommended Practices.
in those parts of the airspace under the jurisdiction of a contracting State, derived from ICAO wherein air traffic services over high seas or in airspace of undetermined sovereignty. A contracting State accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Annexes and the Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication of this notice in the Federal Register will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

If the proposal set forth above is adopted, the Virginia Beach, Va., transition area would be designated as that airspace extending upward from 2,000 feet MSL to FL-600 bounded on the east by long 75°30'00" W.; on the south, southwest, and northwest by a line 3 nautical miles from and parallel to the shoreline, excluding that airspace within Control 1149 and W-50.

This transition area will provide controlled airspace for air traffic control to radar vector aircraft to and from the Norfolk, Va., and Oceana, Va., NAS complexes and en route aircraft operating east of VOR Federal airway No. 158 and Jet Route Nos. 79 and 121.

In conjunction with the foregoing rule-making proposal, the following ancillary non-rule-making actions are proposed:

1. Alter W-386 altitude west of long 75°30'00" W., to read from surface up to but not including 2,000 feet and above FL-600 to unlimited.
2. Alter W-72 altitude west of long 75°30'00" W., to read from surface up to but not including 2,000 feet and above FL-600 to unlimited.

This amendment is proposed under the authority of sections 307(a) and 1101 of the Federal Aviation Act of 1958 (49 U.S.C. 1348 and 1510) and Executive Order 10854 (28 F.R. 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1603(c)).

Issued in Washington, D.C., on March 18, 1969.

FEDERAL REGISTER, VOL. 34, NO. 58—WEDNESDAY, MARCH 26, 1969
2. The Commission has considered the allegations made in support of the complaints and petition opposing renewal of the licenses and the licensee's responses. Because of the substantial issues raised, and unresolved questions of fact going to these issues, we are unable to find upon the applications and other papers before us that a grant of the applications would serve the public interest. Accordingly, we are designating the applications for hearing on three issues which are unresolved. In addition, we have determined that a full opinion will give the specifications of these issues, and we therefore find it unnecessary at this point to recite the particulars of the pleadings before us. The applications are not being designated for hearing on the issue raised in the Barzhaf and ASF petition, since we find that while a greater effort in the maximum viewing hours is called for (see Letter to Chronicle Broadcasting Co., adopted this day) the licensee has been making substantial efforts to meet the essence of our holding that in the circumstances it must devote a significant amount of time to informing the listeners of the health issue posed by cigarette smoking (Applicability of the Fairness Doctrine to Cigarette Advertising, 9 FCC 2d 621, 629 (1967)).

3. Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned renewal applications are designated for a consolidated hearing, at a time and place to be specified in a subsequent order, on the following issues:

(1) Whether Chronicle Publishing Co., the parent of the licensee, has an undue concentration of control of the media of mass communications in the San Francisco Bay area;
(2) Whether the Chronicle Publishing Co. has engaged in anticompetitive or monopolistic practices in the newspaper field in the San Francisco Bay area;
(3) Whether the licensee has used the facilities of Stations KRON-FM and KRON-TV to "manage" or slant the public interest, convenience, and necessity.

4. It is further ordered, That, the licensee and complainants, pursuant to § 1.221 of the Commission's rules and regulations, in person or by attorney, shall within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intent to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

6. It is further ordered, That, the licensee herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules and regulations, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission thereof as required by § 1.594 of the Commission's rules and regulations.

FORT PIERCE MARINE RADIO AND ANSERFONE OF ST. LUCIE COUNTY, INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Jessica W. Porter doing business as Fort Pierce Marine Radio, Fort Pierce, Fla., Docket No. 18496, File No. 5025-M-P-66; Anserfone of St. Lucie County, Inc., West Palm Beach, Fla., Docket No. 18497, File No. 5215-M-P-78; for a Public Class III-B coast station to serve the Fort Pierce, Fla., area.

1. Anserfone of St. Lucie County, Inc., and Jessica W. Porter, doing business as Fort Pierce Marine Radio have each filed an application for a new Public Class III-B coast station to serve the Fort Pierce, Fla., area. Both applicants have expressed the belief that there is no need to have two public coast VHF stations serving the Fort Pierce area. Anserfone proposes operation on 156.8 and 162.0 Mc/s, Fort Pierce Marine Radio proposes operation on 156.8 and 161.950 Mc/s. Based on the information available, the Commission is unable to find that a grant of both of the applications would be in the public interest. In addition, it appears that the proposed operations may not be consistent with restrictions on duplication of service contained in § 81.303 of the rules. Accordingly, it is necessary to designate the applications for hearing. Except for the issues specified herein each applicant is otherwise qualified.

2. In view of the foregoing, It is ordered, Pursuant to the provisions of section 309(e) of the Communications Act of 1934, as amended, that the above-captioned applications are hereby designated for a hearing in a consolidated proceeding at a time and place to be specified in a subsequent order on the following issues:

(a) To determine the area in which the station proposed by Anserfone could exchange satisfactory communications with vessels and the extent, if any, to which such area overlaps that of the station proposed by Fort Pierce Marine Radio.

(b) To determine the area in which the station proposed by Fort Pierce Marine Radio could exchange satisfactory communications with vessels and the extent, if any, to which such area overlaps that of the station proposed by Anserfone.

3. Accordingly, it is ordered, That, to avail themselves of an opportunity to be heard, Anserfone and Fort Pierce Marine Radio, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within twenty (20) days of the mailing of this order file with the Commission in triplicate, a written appearance stating an intention to appear on...
the date set for hearing and present evidence on the issues specified in this order.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Richard S. Genetti, Edward F. Genetti, Salvador Caudillo, Jr., and James Mangendall (a partnership) for construction permits to station WPBR, Hazleton, Pa., Docket No. 18489, File No. BP-16996, Requests: 1300 kc, 1 kw, DA, Day; CBM, Inc., West Hazleton, Pa., Docket No. 18490, File No. BP-17496, Requests: 1306 kc, 1 kw, DA, Day; Broadcasters 7, Inc., West Hazleton, Pa., Docket No. 18491, File No. BP-17497, Requests: 1300 kc, 5 kw, DA, Day; for construction permits.

1. The Commission has before it for consideration (a) the above-captioned mutually exclusive applications; (b) a petition to deny the applications by The Baltimore Radio Show, Inc., licensee of station WBEN, Buffalo, N. Y.; and (c) a petition to deny the applications by The Baltimore Radio Show, Inc., licensee of station WBEN, Baltimore, Md.; and (d) a motion by The Baltimore Radio Show, Inc., licensee of station WBEN, Baltimore, Md., to expedite the hearing. The petition to deny the applications by The Baltimore Radio Show, Inc., licensee of station WBEN, Buffalo, N. Y., is untimely since it was filed after the conclusion of the limited record.

2. First, we find that the aforementioned petition is untimely since it was filed after the conclusion of the limited record. Second, we find that WPBR lacks standing as a party in interest within the purview of section 309(d) of the Act. Petitioner bases its claim of standing on the increased interference that would result to its station if either the Freeland or CBM proposal received a grant of the application that would be granted. In WBEN v. United States and Pacific and Southern Co., Inc. v. FCC, 13 RR 2d 2111, therefore, petitioner is not entitled to any review of the grant of its proposal as of right.

3. Analysis of the financial portion of the CBM, Inc., application reveals that the corporation will not be able to meet first year construction and operation costs, consisting of: Down payment on equipment, $7,500; first year payments on equipment including interest, $10,000; miscellaneous costs, $10,000; and working capital, $70,000. To meet these costs applicant has available existing capital of $3,033, a partners' loan of $75,000 and a bank loan of $15,000 for a total of only $85,032. Applicant fails to meet its expected financial requirements by approximately $7,881, and accordingly, a financial issue is required.

4. A Suburban issue is also required as to Summit Broadcasting. Although the applicant conducted a survey, it is impossible to determine whether a representative range of groups and leaders were consulted due to the small number (8) of individuals contacted. See Andy Valley Broadcasting System, Inc., 13 RR 2d 691 (1968). The applicant also failed to meet the program requirements by not listing the suggestions that were given by the leaders and members of the community. Public Notice, August 22, 1968, FCC 68-547. Thus, we are unable to determine whether the applicant is aware of and responsive to the needs of the area.

5. Analysis of the financial portion of the CBM, Inc., application reveals that the corporation will not be able to meet first year construction and operation costs, consisting of: Down payment on equipment, $7,500; first year payments on equipment including interest, $10,000; first year payment on lease, $1,200; working capital of $60,000. To meet these requirements, applicant intends to rely on liquid assets of the corporation of $2,515, a stockholder's loan of $9,000 and a bank loan of $15,000 for a total of $10,032. However, since the bank loan is to be secured by guaranty of two of the shareholders, and there is no statement indicating that if the individual guarantors are unable to obtain additional funds, whether the applicant is aware of and responsive to the needs of the area.

6. It is further ordered, That the petition filed by The Baltimore Radio Show, Inc., licensee of Station WPBR, is hereby dismissed.

7. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants, pursuant to § 1221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

8. It is further ordered, That the petition filed by The Baltimore Radio Show, Inc., licensee of Station WPBR, is hereby dismissed.

9. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants, pursuant to § 1221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

10. It is further ordered, That the applications herein shall, pursuant to section 311(a) (2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the applications to such community individually or, if feasible and consistent with such notice, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such
notice as required by §1.594(g) of the rules.

Applicant is incorporated under the laws of the State of West Virginia with its principal business office in Wichita, Kans., and is engaged in the electric utility business in 165 communities in southeastern Kansas.

By the original application, Applicant seeks a grant of the certificate and permission to abandon the following facilities:

(1) Construct and operate 11.2 miles of 10-inch line E5-A and 0.34-mile of 8-inch line E5-B;
(2) Upgrade the designed pressure capacity, among other, of (a) 4.77 miles of 6-inch O.D. and 4-inch line E5-A from 400 to 800 psig and (b) the Cumberland Field Dehydration Plant from 400 to 800 psig; and
(3) Abandon 4.9 miles of line E5-A and 0.34-mile of line E5-B.

By this amendment, Applicant now proposes to construct and operate:

(1) 10.7 miles of 8-inch line E5-A in lieu of 11.2 miles of 10-inch line E5-A;
(2) 0.31-mile of 6-inch line E5 in lieu of 0.34-mile of 8-inch line E5-B;
(3) 4.45 miles of 4-inch line E5-A in lieu of upgrading an existing 4.47 miles of 6-inch and 4-inch line E5-A to operate at the design pressure of 600 psig; and
(4) 0.21-mile of 10-inch line E-A;

(5) Upgrade the operating pressure of the Cumberland Field Dehydration Plant from 400 to 800 psig per aggregation at a new location in lieu of upgrading the proposed operating pressure of the plant at its present location.

In addition to abandoning 4.9 miles of 10-inch and 8-inch line E5-A as proposed in the original application, Applicant, by this amendment, also seeks permission and approval to abandon the following facilities:

(1) 0.51-mile of 6-inch and 4-inch line E5 in lieu of 10-mile of 6-inch and 4-inch line E5-A; and
(2) 4.43 miles of 6-inch and 4-inch line E5-A; and
(3) 0.10-mile of 10-inch line E-A.

The total estimated cost of the original proposal for new construction and upgrading of facilities was $396,000. Such costs in the amended proposal is estimated at approximately $489,700. The estimated value of salvage is increased from $13,000 to $29,950, and the estimated cost to remove facilities is increased from $86,000 to $29,950.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.3 or 1.10) and the regulations under the Natural Gas Act (§157.10) on or before April 11, 1969.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the rules of practice and procedure, a hearing will be held without further notice before the Commission on this application. If no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval to abandon are required by the public convenience and necessity, and if upon the filing of the application the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

FEDERAL REGISTER, VOL 34, NO. 58—WEDNESDAY, MARCH 26, 1969
Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP66-6] MANUFACTURERS LIGHT AND HEAT CO. AND HOME GAS CO.

Order Permitting Intervention and Fixing Date of Prehearing Conference

MARCH 17, 1969.

The Manufacturers Light and Heat Co. (Manufacturers) a Pennsylvania corporation, with its principal place of business in Pittsburgh, Pa., and Home Gas Co. (Home) a New York corporation, with its principal place of business in Franklin, N.C., file a joint application with the Federal Power Commission pursuant to section 7 of the Natural Gas Act on June 20, 1968. Notice of the filing was issued July 5, 1968, and published in the Federal Register on July 11, 1968 (33 F.R. 9981).

The applicants seek a certificate of public convenience and necessity authorizing the coordination of their operations. They state that a coordination of their respective systems will provide greater operating flexibility, to make available the underground storage fields of both companies on a combined basis, and to permit Manufacturers to optimize gas purchases. No facilities are said to be required in the coordination of these operations.

The companies state coordination of their operations is necessary because Home's two largest customers Orange and Rockland Utilities, Inc. (Rockland), and Central Hudson Gas and Electric Corp. (Central Hudson), are planning significant increases in their purchase gas load factors. Home does not presently have the necessary supply to provide these customers with their increased annual requirements. The additional annual deliveries would increase Home's sales from an average load factor of 52 percent to 94 percent, and increase its average day sales from 75,000 Mf per day to 93,000 Mcf per day. These significant increases would cause Home's storage pools to be utilized at a lesser degree. Home purchases gas from Manufacturers, its major supplier, at 100 percent load factor.

It is indicated that the continuation of their operations on a noncoordinated basis would require Home to increase its contract demand with Manufacturers 17,000 Mf per day. Home would purchase this increased contract demand at 106 percent load factor at a price of 39.61 cents per Mcf. The added volume for resale to Rockland and Central Hudson would be at a rate of 31 cents per Mcf. In addition it is stated that noncoordinated operations would require Manufacturers to increase its contract demand with United Fuel Gas Co. 11,000 Mf per day, result in the idling of Home's underground storage operations, and require Manufacturers to construct 1.3 miles of gas main at an estimated cost of $1.3 million. The applicants estimate that under noncoordinated operations incremental costs would be $132,600 above incremental revenues, while under coordinated operations, incremental revenues would be $131,800 above incremental costs.

It is proposed that the applicants file a joint tariff to supersede their present tariffs. The tariff would reflect the same rates contained in settlement agreements in RP66-5 and RP66-8 which have been approved by the Commission. The tariff provisions would be the same as those settled upon except the companies propose a minimum annual commodity charge for the CDS schedules, which would be 60 percent effective November 1, 1968, 62 percent November 1, 1969, and 65 percent November 1, 1970, and thereafter.

Petitions to intervene in the proceeding have been filed by the following customers: Central Hudson Gas and Electric Corp., Acme Natural Gas Co., Rockland Utilities, Inc., Pennsylvania Gas and Water Co., UGI Corp., and United Natural Gas Co. Additional petition filed New York Commission filed an intervention.

Pennsylvania Gas and Water Co. requests formal hearing and raises the following issues: (1) Validity of the unilateral abandonment of purchase and sale of natural gas, (2) validity of the proposed minimum bill, (3) validity of the proposal under the rate standards of the Natural Gas Act, (4) ability of Tired Electroplating to deliver 6.6 million Mcf to Manufacturers and the economic consequences upon United Fuel Gas Co. of such deliveries, and (5) the continued propriety of the existing rate levels, rate zone boundaries, and rate differentials under coordinated operations.

New York State Electric and Gas Corp. is concerned about the effect of the proposed minimum bill and commodity charge upon itself and its customers. Acme Natural Gas Co. filed a protest against the proposed minimum annual commodity charge, and the New York Commission has no objection to the application since the acceptance of Home's settlement in Docket No. RP66-8. An application was filed for temporary authorization to coordinate their operations in order that Home may meet its 1968-69 customer requirements. Said authorization has been granted.

The Commission finds: (1) It is desirable and in the public interest to allow the above-named petitioners to intervene in these proceedings in order that the petitioners may establish the facts and the law from which the nature and quality of their allegations and interests may be determined and show what other action may be appropriate under the circumstances in the administration of the Natural Gas Act. The expeditions and disposition of these proceedings will be expedited by providing for a prehearing conference prior to the filing of evidence by any of the parties.

The Commission orders:
(A) The above-named petitioners are hereby permitted to intervene in these proceedings subject to the conditions and regulations of the Commission: Provided, however, That the participation of such interveners shall be limited to matters affecting rights and interests as specifically set forth in said petitions for leave to intervene: And provided further, That the admission of such interveners shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the provisions of 118 of the Commission's rules of practice and procedure, a prehearing conference shall be held before a hearing examiner of the Commission to be designated by the Chief Examiner, in order to consider the means by which the conduct of the proceedings may be facilitated and in order to determine further procedures including the date for commencement of cross-examination. Such conference will be held in a hearing room of the Federal Power Commission, 441 G Street NW, Washington, D.C. commencing at 10 a.m. (e.d.s.t.) on May 1, 1969.

By the Commission.

TECHNOLOGY FUND, INC.

Notice of Filing of Application for Order Exempting Sale by Open-End Company of Its Shares of Other Than the Public Offering Price

MARCH 23, 1969.

Notice is hereby given that Technology Fund, Inc. ("Applicant"). 120 South Street, Chicago, Ill. 60605, a Delaware corporation registered under the Investment Company Act of 1940 ("Act") as an open-end diversified management investment company, has filed an application pursuant to section 6(e) of the Act, for an order exempting from the provisions of section 22(d) of the Act a transaction in which Applicant's redeemable securities were transferred to Applicant in exchange for shares of McCoy's stock. The number of shares of Applicant to be issued to McCoy is to be determined by dividing the aggregate market value (subject to certain adjustments set forth in the Agreement and Plan of Reorganization) of the assets of McCoy to be transferred to Applicant by the net asset value per share of Applicant, both to be determined as of the close of the New York Stock Exchange on the business day preceding the date of transfer, as defined in the Act. In the agreement had taken place on October 31, 1968, McCoy would have received $4,254,800 shares of Applicant's stock. When received by McCoy, the shares of Applicant are to be distributed to the McCoy shareholders and McCoy will be dissolved. Applicant presently intends to sell a portion of the assets received from McCoy.

There is no affiliation or relationship between Applicant and McCoy or between the officers, directors and shareholders of McCoy and the officers and directors of Applicant. The agreement was negotiated at arm's length by the two companies.

Section 22(d) of the Act provides that registered investment companies issuing redeemable securities may sell their securities only at the public offering price as described in the prospectus. Section 6(e) permits the Commission, upon application, to exempt a transaction from the provisions of section 22(d) of the Act if it finds that such an exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant submits that the granting of the application is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant further requests that it be notified of any order for hearing upon said application. Any such notification should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. MARCH 20, 1969.

Notice is hereby given that Western Massachusetts Electric Co. ("WMECO"). 174 Brush Hill Avenue, West Springfield, Mass., a public-utility subsidiary company of Northeast Utilities ("Northeast") a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") promulgating sections 6 and 7 of the Act and Rule 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are requested to file a declaration, which is summarized below, for a complete statement of the proposed transactions.

WMECO proposes to issue and sell up to $40 million of bank notes or commercial paper notes prior to June 30, 1970. As such notes mature, they may be renewed or repaid out of any funds then available to WMECO including funds derived from the declaration which is summarized below, for a complete statement of the proposed transactions.

The funds to be derived from the issuance and sale of the notes will be applied to finance construction expenditures, to pay nuclear fuel costs, and to supply funds for investments in regional nuclear generating companies. These expenditures for the years 1969 and 1970 are estimated to be approximately as follows:

The commercial paper will be issued in the form of promissory notes with a maturity not more than 270 days after the date of issue, and will be sold at the discount rate per annum prevailing at the date of issue, in which case the purchaser of comparable quality and of the particular maturity sold by public-utility issuers thereof to commercial paper dealers. No commercial paper shall be issued having a maturity of more than 90 days after June 30, 1970 or which has an issued having a maturity of more than 270 days after the date of issue.

The notes to be issued and sold to WMECO will bear interest at the prime rate in effect at the lending bank on the date of issue, and will be sold at a discount of not more than one-half of 1 percent per annum less than the prevailing discount rate to WMECO, in such manner as not to constitute a effective interest cost to the company in connection with the proposed transactions.

It is stated that the fees and expenses to be incurred in connection with the proposed transactions will not exceed $500 and that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 10, 1969, request in writing that a hearing be held in respect of such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. At any time after said date, the declarant, as filed or as it may be amended, may be permitted to become effective, as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof, or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

WMECO will not effect any borrowing from banks pursuant to this declaration until a filed an amendment thereto setting forth the name or names of the banks from which such borrowings are to be effected and such amendment shall be granted by order of this Commission. WMECO expects to retire the bank notes and commercial paper prior to June 30, 1970, from the net proceeds of the sale of additional first mortgage bonds and/or preferred stock and/or other securities. In the event the company effects any permanent financing prior to the repayment of all bank notes and commercial paper outstanding pursuant to this declaration, it expects to apply the net proceeds of such permanent financing in reduction of such notes.

WMECO requests exception from the competitive bidding requirements of Rule 50 for the proposed issue and sale of its commercial paper pursuant to paragraph (a) (5) thereof. The company states that it is not practicable to invite competitive bids for commercial paper and that current rates for commercial paper of prime borrowers such as WMECO are published daily in financial publications. Irregular routes: Passengers and their baggage in the same vehicle with passengers, in charter operations, beginning and ending at authorized service points on the above-described routes and extending to points in the United States (including Alaska, but excluding Hawaii); and passengers and their baggage in the same vehicle in regular operations, beginning and ending at points on route (13) above, and extending to points in the United States (including Alaska, but excluding Hawaii); that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the rules and regulations thereunder. A certificate was issued under MC 53719 (Sub-No. 1) on January 21, 1969, in place of a prior certificate, where applicant was granted authority to engage in the operation. The opinion, but that, as a result of certain ambiguities in the application, restrictions were imposed in the certificate which unwarrantedly narrowed the scope of the service authorized therein. By petition filed January 30, 1969, applicant sought the issuance of a more appropriately drafted certificate; and that for the reason set forth above the certificate issued January 21, 1969, should be modified as indicated in the above appendix so as to (a) eliminate the unwarranted restrictions; and (b) make applicant's authority nonseverable from the regular route authority to which it is related. Because it is possible that other parties, who have relied upon the notice of the application as published in the register, may have an interest in the proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.
