Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER E—DETERMINATION OF SUGAR COMMERCIALLY RECOVERABLE

PART 833—MAINLAND CANE SUGAR AREA

Sugar Commercially Recoverable From Sugarcane; 1969 and Subsequent Crops

Pursuant to the provisions of section 302(a) of the Sugar Act of 1948, as amended, the following regulation is hereby issued:

§ 833.16 Sugar commercially recoverable from sugarcane in the mainland cane sugar area.

(a) *Definitions.* For the purpose of this section, the terms:

(1) "Trash" means leaves, that portion of the sugarcane which is removed by topping in the field, growth above the last formed joint of the sugarcane which has not been topped or has been topped above the last formed joint in the field, dirt and all other extraneous material.

(2) "Gross weight" of sugarcane means the total weight (short tons) of sugarcane, including trash, as delivered by a producer for sugar production.

(3) "Net weight" of sugarcane means:

(i) In Florida, the gross weight of sugarcane delivered by a producer to a processor's mill minus a deduction equal to the average percentage weight of trash determined to have been delivered with all sugarcane ground during the current season at such mill.

(ii) In Louisiana, the weight obtained by deducting the weight of trash determined to have been in sugarcane delivered by a producer from the gross weight of such sugarcane.

(4) "Base period" means the last five crops immediately preceding the crop year for which rates of recoverability are to be established.

(b) *Recoverable sugar.* The amount of sugar, raw value, commercially recoverable from sugarcane grown on a farm in the Mainland Cane Sugar Area and marketed (or processed by the producer) for the extraction of sugar or liquid sugar, shall be obtained by multiplying the net weight of the sugarcane in tons by the rate of recoverability determined as follows:

(1) (i) The rates of sugar commercially recoverable at the various normal juice sucrose levels shall be calculated from data reported to the Department by the processors of sugarcane for sugar in each of the States of Florida and Louisiana. This data is to be determined and reported in accordance with procedures and reporting requirements of the Agricultural Stabilization and Conservation Service. The calculation for the various normal juice sucrose levels shall use data representing averages in each State for the base period of each of the factors of normal juice extraction (the weight of normal juice extracted expressed as a percentage of the weight of gross sugarcane ground for all producers), boiling house efficiency (the ratio of the amount of sugar produced to the amount that could theoretically be produced), polarization of the sugar produced, and net sugarcane as a percent of gross sugarcane. The calculation shall also use the purity or retention factor which correlates purity of normal juice with sugar recovery based on the Winter-Carp Formula. That formula, expressed mathematically, is as follows: Purity or Retention Factor=(1.4−40/P) in which "P" is purity of normal juice. For the purpose of this section, the computed average purity at each of the available normal juice sucrose levels for the base period are used.

(ii) In calculating sugar commercially recoverable, the data shall be used in the following manner: The product of normal juice extraction and boiling house efficiency is divided by the product of the polarization of sugar produced and net sugarcane as a percent of gross sugarcane. The result so obtained is multiplied by 2,000 to obtain a factor which when multiplied by a given normal juice sucrose and the purity or retention factor for that normal juice sucrose gives pounds of sugar per ton of net sugarcane. By use of the applicable raw value conversion factor, in accordance with section 101(h) of the Act, pounds of sugar per ton of net sugarcane are converted into sugar, commercially recoverable, raw value.

(iii) Expressed mathematically the formula reads:

$$CRS, RV = \frac{NJE \times BHE \times 2{,}000 \times NJS \times PR \times RVCF}{(\text{Polarization of sugar}) \times (\text{net sugarcane, percent gross sugarcane})}$$

(2) For the 1969 crop of sugarcane, the amount of sugar, in hundredweight, raw value, commercially recoverable per net ton of sugarcane for the average percentage of sucrose in the normal juice of such sugarcane is as follows:

(i) *For farms in Louisiana.*

Percentage of sucrose in normal juice[1]	Rate of recoverable sugar (hundredweight) per net ton of sugarcane
5.0	0.397
6.0	0.584
7.0	0.775
8.0	0.961
9.0	1.127
10.0	1.305
11.0	1.478
12.0	1.650
13.0	1.825
14.0	1.997
15.0	2.168
16.0	2.336
17.0	2.495
18.0	2.669

(ii) *For farms in Florida.*

Percentage of sucrose in normal juice[1]	Rate of recoverable sugar (hundredweight) per net ton of sugarcane
5.0	0.312
6.0	0.550
7.0	0.818
8.0	1.013
9.0	1.210
10.0	1.397
11.0	1.575
12.0	1.752
13.0	1.926
14.0	2.103
15.0	2.277
16.0	2.450
17.0	2.622
18.0	2.791

[1] Rates for the intervening tenths of 1 percent shall be calculated by interpolation and less than 5 percent or more than 18 percent shall be computed in proportion to the immediately preceding interval.

(c) *Delegation and effectiveness.* The Deputy Administrator, State and County Operations, Agricultural Stabilization and Conservation Service of the Department, is hereby authorized to establish the rates of sugar commercially recoverable applicable to the 1970 and subsequent crops in accordance with the terms of paragraph (b)(1) of this section and such rates for each crop shall become effective when published in the FEDERAL REGISTER.

Statement of bases and considerations. Determinations of amounts of sugar commercially recoverable from sugarcane are required under section 302(a) of the Act to establish the amounts of sugar upon which payments under the Act may be made.

Pursuant to that section, this regulation sets forth the method of determining and establishing amounts of sugar commercially recoverable from sugarcane grown on a farm in the Mainland Cane Sugar Area. The method established herein is the same as that used in the previous determination of rates and is restated for purposes of clarity and simplicity.

For the 1969 crop, the rates of sugar commercially recoverable were calculated from data determined and reported in accordance with procedures and reporting requirements set forth in Agricultural Stabilization and Conservation Handbook 8-SU entitled "Sampling, Testing, and Reporting for Louisiana Sugar Processors", and 9-SU entitled "Sampling, Testing, and Reporting for Florida Sugar Processors". Data reported to the Department on Form SU-71, "Mainland Sugar Production and Marketing Report" and on Form SU-73, "Sugar Production and Movement Report—Refiners who also Process Mainland Sugarcane" were also used. The calculation for the various normal juice

sucrose levels made use of data representing averages in each State for the crop years 1964, 1965, 1966, 1967, and 1968 of each of the factors of normal juice extraction, boiling house efficiency, polarization of the sugar produced, net sugarcane as a percent of gross sugarcane, and the computed average purity at each of the normal juice sucrose levels.

The rates for the 5 through 8 percent normal juice sucrose levels in Florida and the 5, 6, 17, and 18 percent normal juice sucrose levels in Louisiana were calculated as above, except that sucrose—purity data at those levels were not available for all years of the base period.

The rates determined are almost unchanged for Louisiana and average somewhat higher for Florida than those for the preceding crop. These rates reflect small changes in the average normal juice extraction, boiling house efficiency, polarization of sugar produced, percent net cane, and normal juice sucrose purity relationships for the base period.

Accordingly, I hereby find and conclude that the aforestated regulation will effectuate the applicable provisions of the Act.

Effective date: Date of publication.

Signed at Washington, D.C., on October 9, 1969.

§ 1421.2376 Availability.

A producer desiring a price support loan must request a loan on his eligible corn on or before June 30, 1970. To obtain price support through sales, a producer must execute and deliver to the appropriate county ASCS office, on or before July 31, 1970, a Purchase Agreement (Form CCC–614) indicating the approximate quantity of 1969 crop corn he may sell to CCC: *Provided*, That in any area where it is determined by the State committee that producers may not be able to or cannot store corn safely on the farm for the full storage period because of insects, adverse climatic conditions, or other factors affecting the safe storage of corn, the final date for requesting price support on farm-stored corn shall be such earlier dates as are established by the State committee. Public announcement of the final dates shall be made sufficiently in advance of such dates to allow producers a reasonable period of time to request price support.

§ 1421.2377 Compliance requirements.

To be eligible for a loan or purchase, a producer must qualify for a price support payment under the 1966–69 Feed Grain Program Regulations (31 F.R. 8339), and any amendments thereto, on corn of the 1969 crop produced on the farm on which the corn tendered for loan or purchase was produced except that such qualification is not necessary with respect to corn produced in an area of the United States in which the feed grain program is not in effect.

§ 1421.2378 Warehouse charges.

Subject to the provisions of § 1421.2369, the schedules of deductions set forth in this section shall apply to corn stored in an approved warehouse operating under the Uniform Grain Storage Agreement or operated by an Eastern common carrier.

(a) *Warehouses approved under the Uniform Grain Storage Agreement.*

§ 1421.2379 Maturity of loans.

Loans mature on demand but not later than July 31, 1970.

§ 1421.2380 Delivery period.

(a) *Regular delivery period.* The regular delivery period shall begin August 1, 1970.

(b) *Where producer may not be in a position to store corn safely.* In areas where it is determined by the State committee that some producers may not be in a position to store corn safely on the farm for the full storage period (for reasons set forth in § 1421.2376) the State committee may establish an earlier delivery period prior to maturity (in addition to the regular delivery period) during which any producer in such areas may voluntarily deliver corn which is under farm storage loan. Eligible corn not under loan may also be delivered to CCC for purchase in the earlier delivery period. Such earlier delivery period, if established, shall begin at least 30 days after the final date of availability of loans established by the State committee, but not before April 1, 1970. CCC will accept deliveries of corn during such early delivery period, provided the producer notifies the county office within the time specified by the county office that he wants to deliver the corn.

(c) *Where producers cannot store corn safely.* If the State committee determines that producers in an area cannot store corn safely on the farm for the full storage period (for reasons set forth in § 1421.2376), all farm-storage loans in such area shall be called. Producers having eligible corn not under loan who elect to make deliveries from farm-storage for purchase by CCC shall also be required to deliver during the delivery period for

loans; except that individual producers may keep corn in farm storage until the regular loan maturity date if (1) such corn is shelled, (2) the producer has satisfactory storage facilities, and (3) either the State committee approves or the county committee approves where the State committee has authorized county committees to make such determinations. Any earlier delivery period established shall begin at least 30 days after the final date of availability of loans established by the State committee and not before April 1, 1970.

§ 1421.2381 Support rates, premiums, and discounts.

(a) *Application.* The support rate to be used to make a loan, and to settle a loan and a purchase shall be the applicable basic county support rate established for the county in which the corn covered by the loan or purchase was produced. A farm storage loan shall be made at the basic county support rate adjusted only by the weed control discount, if applicable. A warehouse storage loan, a farm storage loan settlement and a purchase shall be made at the basic county support rate adjusted by the applicable premiums and discounts prescribed in paragraphs (c) and (d) of this section.

(b) *Basic county support rates.* Basic county support rates for corn grading No. 2 and containing from 15.1 through 15.5 percent moisture are as follows:

Title 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 100—EXCHANGE OF PAPER CURRENCY AND COIN

Subpart C—Exchange of Mutilated Coin

Because the nature of these revisions is to clarify existing regulations, and there is a necessity for making them effective immediately, it is found that notice and public procedure are unnecessary. Subpart C is hereby revised to read as follows:

Subpart C—Exchange of Mutilated Coin

Sec.
100.10 Mutilated coin; in general.
100.12 Where mutilated coins should be transmitted.
100.13 Criminal penalties.
100.14 Standard silver dollars, subsidiary silver coins, and coins minted under authority of Public Law 89-81.
100.15 Minor coins.

AUTHORITY: The provisions of this Subpart C issued under sec. 1, 49 Stat. 938; 31 U.S.C. 773a.

Subpart C—Exchange of Mutilated Coin

§ 100.10 Mutilated coin; in general.[1]

(a) Mutilated coins of 90 percent silver are not accepted at their face amount but at their bullion or metal value, calculated at the price fixed by the Director of the Mint in accordance with § 100.14. Mutilated coins which were minted under authority of Public Law 89-81 are accepted at the value at which coins of 90 percent silver of the equivalent denomination would be accepted in similar condition, in accordance with such comparative measurement as is feasible. Mutilated coins which are so defaced or fused together as not to be readily and clearly identifiable as to genuiness and denomination will be accepted at their bullion or metal value. Mutilated minor coins are accepted at their bullion or metal value.

(b) Coins are mutilated when punched, clipped, plugged, fused together, or when so defaced as to be not readily and clearly identifiable as to genuineness and denomination. Coins containing lead, solder, or other substances which will render them unsuitable for coinage metal will not be accepted. Coins that are bent or twisted out of shape, but are readily and clearly identifiable as to genuineness, and coins that have been reduced in weight by natural abrasion only, are not regarded as mutilated, and will be received at face amount.

§ 100.12 Where mutilated coins should be transmitted.

Mutilated coins shall not be transmitted to the Federal Reserve bank or branches or to the Treasurer of the United States but should be forwarded to either the Denver Mint or the New York Assay Office.

§ 100.13 Criminal penalties.

Criminal penalties connected with the defacement or mutilation of U.S. coins are provided in United States Code, title 18, section 331.

§ 100.14 Standard silver dollars, subsidiary silver coins, and coins minted under authority of Public Law 89-81.[1]

(a) Mutilated coins will be purchased at the Denver Mint or the New York Assay Office. They should be transmitted to the mints at the expense and risk of the owner (charges prepaid). Mutilated coins of 90 percent silver will be purchased at the price fixed from time to time by the Director of the Mint, which is approximately the market price of silver bullion on the date purchased, or the monetary value of silver contained in the coins, whichever is lower. Mutilated silver coins shall not be commingled with other types of coins in the shipment.

(b) Mutilated clad coins minted under the authority of Public Law 89-81 will be paid for in accordance with the provisions of § 100.10.

§ 100.15 Minor coins.

Mutilated minor coins (1-cent bronze and 5-cent nickel) will be purchased in lots of not less than 5 pounds of each kind, at a price (the approximate value as metal) fixed from time to time by the Director of the Mint, and should be transmitted at the expense and risk of the owner (charges prepaid). One-cent and 5-cent coins in the same shipment shall be segregated by denomination.

[1] Silver coins which have been melted or treated in violation of Part 82 of this chapter, or any metal resulting from such melting or treating, are subject to forfeiture as provided in section 106 of the Coinage Act of 1965 (79 Stat. 255; 31 U.S.C. 396).

Effective date. These regulations are effective upon publication in the FEDERAL REGISTER.

Dated: October 9, 1969.

Assistant Secretary of the Treasury.

It is further ordered, That respondent and its subsidiaries, officers, directors, agents, representatives, employees, affiliates, successors, and assigns, within one (1) year from the date that this order becomes final, shall divest absolutely and in good faith all assets and properties, tangible and intangible, including but not limited to all plants, machinery, equipment, trade names, contract rights, trademarks, and good will acquired by Marquette and its subsidiaries as a result of its acquisition of the stock and/or assets of Cooney Bros., Inc., Plaza Concrete Corp., and Mamaroneck Stone Corp. and which are now located at the former ready-mix concrete plantsite of Plaza Concrete Corp. at Yonkers, Westchester County, N.Y. None of the assets, properties, rights, or privileges, described in this paragraph, shall be sold or transferred, directly or indirectly, to any person who is at the time of the divestiture an officer, director, employee, or agent of, or under the control or direction of Marquette Cement Manufacturing Co., or any subsidiary or affiliated corporations of Marquette Cement Manufacturing Co., or who owns or controls, directly or indirectly, more than one (1) percent of the outstanding shares of common stock of Marquette Cement Manufacturing Co., or to any purchaser who is not approved in advance by the Federal Trade Commission.

[1] 13 cents is the minimum postage chargeable on "Samples of Merchandise," and 15 ounces is the maximum weight limit.

To determine the postage for packages of printed matter weighing over 6 pounds 9 ounces addressed to countries admitting them (see Chart 1, Table II), compute the rate for the pounds alone at 32 cents per pound. Then if there are no remaining ounces, add 2 cents; if there are remaining ounces, determine the rate for them from the table and add to the rate for the pounds. For example, if a package weighs 21 pounds, compute the rate at 32 cents and add 2 cents, finding the rate to be $6.74. If a package weighs 21 pounds 5 ounces, compute the rate for 21 pounds at 32 cents ($6.72) and add the rate for the ounces (14 cents), finding the rate to be $6.86.

3 or 4 ounces—add 11 cents.
5 or 6 ounces—add 12 cents.
7 or 8 ounces—add 13 cents.
9 or 10 ounces—add 14 cents.
11 or 12 ounces—add 15 cents.
13 or 14 ounces—add 16 cents.

Chart 7.—POSTAGE RATES ON ARTICLES MAILED TO THE UNITED STATES FROM OTHER COUNTRIES

USE OF CHART

This chart will be found useful for the following purposes:

1. Determining the postage rates for letters, cards and aerogrammes from other countries to the United States.

Surface rates for letters are shown in columns 1 and 4, and for cards in column 5. Air rates for letters are shown in column 7 or column 8; for cards in column 11; and for aerogrammes in column 12. When the airmail letter rate appears in column 7, it is a surcharge in addition to the surface rate in columns 1 and 4. When it appears in column 8, it is the total airmail postage.

Column 2 shows the approximate equivalents in U.S. currency of the surface letter rates in column 1.

The weight units (columns 3 and 9) are frequently given in grams. One ounce equals 28.35 grams. It is generally considered that 20 grams equal about ¾ ounce, and 5 grams about ⅙ ounce.

2. Determining the number of international reply coupons required to prepay an airmail reply from another country.

One reply coupon will aways prepay a single-rate surface letter from any country (§ 221.2(e)(1) of this chapter). Thus one coupon is good for the amount of postage shown in column 1 of the chart.

Column 10 shows the number of reply coupons needed to prepay an airmail reply weighing one weight unit as shown in column 9. For a letter exceeding that weight, determine the number of coupons by whichever of the following methods is applicable, converting ounces to grams if necessary (see the last paragraph of section 1 above).

a. If the airmail rate is a surcharge shown in column 7, compute the surface postage from columns 1 and 4, using the weight unit in column 3. Then compute the air surcharge from column 7, using the weight unit in column 9. Add the surcharge to the postage and divide the sum by the amount in column 1, which is the exchange value of a coupon.

b. If there is an airmail "combined rate" shown in column 8, compute the postage at that rate, using the weight unit in column 9, and divide by the exchange value of a coupon shown in column 1.

3. Checking postage-due ratings on letters and cards (surface or air) from other countries.

The postal service of origin marks shortpaid articles before dispatch for collection of an amount based on double the deficient postage. The marking, except on mail from Canada, consists of a letter "T" (meaning "Taxe") followed by a fractional number. The receiving U.S. exchange office multiplies the fraction by the single-rate surface letter postage to the country concerned (13 cents except with Mexico, 6 cents), and applies the product as postage-due marking.

The fractional number should consist of a figure representing double the shortpayment, written above the surface letter postage to the United States, in currency of the country of origin. For example, an airmail letter from France paid 1.15 francs but weighing over 5 grams would be marked "T 90/70", and 17 cents would be collected on delivery.

Shorpaid letters from Canada are not marked by the Canadian service with fractional numbers, but with the words "Postage due" followed by the actual amount in cents to be collected.

Parcels not exceeding $50 in value do not require invoices.

Observations. Persons desiring to mail parcels or postal union mail packages to Brazio should be informed that most commodities are subject to customs duty equal to or higher than their value, even if sent as gifts, and it is necessary for the addressees to make two or more trips to the post office to obtain delivery. Also, each parcel must be accompanied by an import permit which the addressee must obtain in advance and send to the mailer to be enclosed in the parcel. Only noncommercial commodities valued at $5 or less, and books and magazines in single copies mailed as printed matter are admitted as gifts free of duty and without import permits. Senders should be cautioned that the Brazilian customs authorities may appraise articles at a higher valuation than that declared by the mailers, resulting in the assessment of duty and penalties against the addressees. To be admitted as gifts, packages must be addressed to individuals, not to firms.

Gift parcels valued over $25 and all commercial parcels must also be accompanied by commercial shipping documents which the sender must have legalized by a Brazilian consulate at a fee of $12. Brazilian consulates are located in principal cities of the United States.

If parcels are found on arrival in Brazil to be in violation of any of the import regulations, they will be withheld from delivery and the addressees may be required to pay fines in addition to the customs duty. If the charges are not paid, the parcels are liable to seizure and are not released even if senders have requested return through the postal service.

In view of the foregoing, patrons should be advised to refrain from mailing parcels to Brazil unless they are assured that the addressees will be permitted to take delivery.

Parcels may be addressed to banks or other organizations for ultimate delivery to second addressees. The latter however may not take delivery without written authority from the first addressee, unless the sender arranges for change of address as provided in Part 247 of this chapter.

A parcel destined for a person in care of a bank, organization, etc., shall bear the complete addresses of both addressees on the customs declarations and dispatch note, as well as on the parcel itself.

Prohibitions. For reasons of public safety: Poniards, stilettos, poniard blades; canes, umbrellas, or any other articles containing swords, daggers, or guns; handcuffs and blackjacks.

For sanitary reasons: Medicines whose formulas are not listed in the official pharmacopeias or not licensed by the Brazilian Department of Public Health.

For the protection of plants: Seeds and seedlings of coffee.

Arms, munitions, etc.: Regulation arms and munitions of Brazil and parts. Air guns. Reducing tubes and silencers for firearms.

Saccharine and other artificial sweeteners and essences for artificial beverages require permission from the Brazilian Department of Public Health for importation.

Firearms may be imported only with permission of the Brazilian War Ministry.

Advertising matter specially prepared to promote the sale of goods or services by Canadian persons or firms is charged with customs duty in Canada when the total weight of articles mailed at one time exceeds 1 pound. Duty is charged on each individually addressed article. To avoid detention of such mail by Canadian customs, senders may arrange to pay the duty, which can be done by means of Canadian customs duty stamps affixed to the back of each piece of mail. Senders may inquire as to rates of duty and may purchase the duty stamps from the Department of National Revenue, Customs and Excise, Ottawa, Ontario, Canada.

Commercial shipments of printed matter and certain other merchandise must be marked to indicate country of origin in the manner prescribed by the Canadian customs regulations. Commercial invoices are required as indicated in "Observations" under "Parcel Post".

It should be recommended to senders that the articles mentioned, with the exception of bees, be sent in the registered letter mails.

However, articles for personal adornment, such as rings, brooches, tie pins, chains, cuff links, dress sets, fobs, bracelets, lockets and necklaces, and articles for personal use, such as cigarette holders, cigarette cases, vanity cases, cardcases, gold and silver pencils, lorgnettes, gold filled optical frames and mountings, mesh bags and watches, having a value not over $5 each may be insured provided they are enclosed in parcels of at least a minimum size of 36 cu. in. or combined length and girth of at least 16 in. For example, such parcels must be at least 6 by 6 by 1 in., or 8 by 3 by 1 in., etc. A parcel containing a number of such articles valued at $5 or less may be insured for the total value of the contents (up to the maximum of $200), provided it meets the prescribed requirements as to size.

Observations. Each parcel must bear as part of its address the name of the Canadian Province in which the office of destination is located.

Parcels for members of the Canadian armed forces overseas may not exceed 22 pounds in weight and may not be insured. They must be addressed in the following manner for surface dispatch:

Number, rank, name.
Unit.
CFPO (number).
Belleville, Ontario, Canada.

A letter fully prepaid and bearing the same address as that of the parcel may be tied or otherwise securely attached to the outside of the parcel in such manner as to prevent its separation therefrom and not to interfere with the address of the parcel. Stamps to cover postage on the parcel must be affixed to the wrapper of the parcel. Stamps to pay postage on the letter must be affixed to the envelope thereof.

Certain types of merchandise must be marked to show country of origin in the manner prescribed by the Canadian customs regulations.

The Canadian customs authorities require commercial invoices for all parcel post or postal union mail packages, regardless of value, except casual noncommercial shipments. For shipments valued at less than $50, the sender's regular business invoice may be used; if the value is $50 or over, the commercial invoice must be prepared on Canadian forms M–A or N–A. Four copies of the invoice, one of them signed by the sender in ink, must be sent by letter mail to the addressee.

In the case of noncommercial shipments of a casual nature, the senders need not furnish invoices, as the Canadian customs authorities will make delivery on the basis of forms completed by the addressees.

Interested mailers can secure information as to obtaining and preparing forms M–A and N–A, as well as other information concerning the Canadian customs regulations, from the European Division (Canadian Section), Bureau of International Commerce, Department of Commerce, Washington, D.C. 20230, or any field office of that Department.

Prohibitions. Honey bees, unless addressed to places served by railway post offices or motor vehicles. Mailers must ascertain whether the addressees of parcels containing honey bees are located at places to which such shipments can be sent. This information can be obtained from the Canadian postmaster at the office of address. After obtaining the information, the sender must mark the wrapper of his parcel "Office of address served by R.P.O." or "Office of address served by motor vehicle." Special handling charges are applicable to honey bees in cages, but not to queen bees in small cages, alone or accompanied by a few workers, unless a considerable number of such cages are tied together for transportation outside of mail sacks.

TWENTY-FIVE DOLLARS AND SEVENTY-FIVE CENTS

77.25 GOLD FRANCS

See Part 243 of this chapter for method of converting U.S. currency into gold francs and for general information on insurance.

Coin, precious metals, jewelry, or other precious articles must not be accepted as parcel post for mailing unless they are insured.

Observations. Senders are required to indicate as a part of the addresses of all parcels the name of the department (State) in which the office of destination is located.

In view of the extensive variety of articles prohibited to Colombia (see "Prohibitions"), persons desiring to mail parcels should be advised to consult the addressees in advance of mailing to ascertain whether their articles will be admitted, or to consult the nearest Colombian consulate, stating specifically what articles they desire to send. Parcels will be accepted for mailing to Colombia only with the understanding that the mailer has satisfied himself that the contents will be admitted.

Each parcel-post shipment valued at $20 or less requires two copies of the sender's commercial invoice, one of which must be enclosed in the parcel and the other sent under separate cover to the addressee. Consular legalization is not needed, but the invoice must include a declaration of origin of the merchandise, in Spanish, reading as follows:

Certificamos bajo juramento que los precios de esta factura son los mismos que cargamos al cliente y que la mercancía a que se refiere esta misma factura es originaria de ---------- (Country of origin). En fe de lo expuesto firmamos la presente declaración en ----------, ----------, ------ de ---------- de ---------- (City) (State) (Day) (Month) (Year)

---------- (Signature of shipper)

(Translation: We certify under oath that the prices in this invoice are the same that we charge our customers, and that the merchandise in this same invoice comes from ---------- (Country of origin). In faith of which we sign the present declaration at ---------- (City), ---------- (State), on ---------- (Date))

Commercial shipments of books or periodicals must be accompanied by commercial invoices as prescribed for such shipments in the postal union mails. See "Observations" under "Postal Union Mail."

For parcels valued over $20, the sender must have a copy of his commercial invoice legalized by a Colombian Consulate, and must prepare four copies of a consular invoice, one of which must be sent direct to the addressee with the legalized commercial invoice.

Consular invoice forms may be obtained and commercial invoices legalized at Colombian Consulates, which are located in principal cities of the United States.

The addressees in Colombia are required in most cases to obtain import licenses in order to secure delivery of parcels. For a parcel exceeding $20 in value the addressee is required to send a copy of the import license to the sender, who must submit it to the Colombian Consul when obtaining the consular invoice. If a sender receives a copy of a Colombian import license for a parcel whose value does not exceed $20, he must return it to the addressee in Colombia.

Parcels mailed simultaneously by the same sender to the same addressee at one address must be marked in the following manner, in order that customs officials in Colombia may more readily ascertain the combined value of the parcels contained in a single mailing.

Each parcel comprised in a single mailing must bear a fractional number, the numerator of which indicates the number of the parcel and the denominator the number of parcels comprised in the mailing. For example, if a single mailing were composed of 15 parcels they would be numbered 1/15, 2/15, 3/15, etc.

Parcels may be addressed to banks or other organizations for ultimate delivery to second addressees. The latter however may not take delivery without written authority from the first addressee, unless the sender arranges for change of address as provided in Part 247 of this chapter.

Prohibitions. New and used clothing, except when mailed as unaccompanied baggage, in which case the words "Equipaje no acompañado" and the owner's passport number must be shown on the address label and the accompanying documents. Used clothing is also admitted when addressed to educational institutions. In either case, used clothing must have a certificate of disinfection enclosed.

An extensive variety of articles is prohibited to Colombia as a result of stringent import control regulations. Many kinds of food, musical instruments, jewelry, ornaments, watches, clocks, electrical and scientific apparatus, playing cards, engravings and other pictures including picture books, calendars, and other illustrated stationery, soap, tobacco and pharmaceutical products are prohibited, as well as articles made from metal, wood, rubber, cloth, paper, cardboard, leather, glass, wax, and ceramics.

Parcels are accepted only under the conditions set forth in "Observations."

INSURED VALUE

$76.89

SEVENTY-SIX DOLLARS AND EIGHTY-NINE CENTS

Coins, bullion, precious stones, and any article of gold, silver, or platinum sent as parcel post must be insured.

Parcels containing jewelry must not have a value in excess of $1,000 ($100 when mailed as air parcel post from and to American Samoa and the Trust Territory of the Pacific). Any parcel containing jewelry or any other precious article exceeding $280 in value must be packed in a box measuring not less than 3 feet 6 inches in length and girth combined.

The final decision on all questions of compensation rests with the country in whose service the loss, rifling, or damage took place.

While parcels containing eggs, when properly packed, may be accepted for insurance to Great Britain and Northern Ireland, "no indemnity is payable", in the event of damage, should it be determined that responsibility for the damage rests with the Postal Administration of Great Britain and Northern Ireland. Also regardless of where the damage occurred, "no indemnity" is payable for the damage to insured parcels, containing eggs, originating in Great Britain and Northern Ireland and addressed to this country.

For general information on insurance see Part 243 of this chapter.

Observations. Many types of merchandise, unless sent as unsolicited gifts, require import licenses which the addressees must obtain from the British Board of Trade. Before mailing commercial shipments, senders should assure themselves that the addressees can obtain licenses if needed.

Parcels containing bona fide unsolicited gifts are exempt from British import licensing requirements (see Import Restrictions). Mailers of such parcels should mark the wrappers and customs declarations "Unsolicited Gift."

Under the British customs regulations, parcels are liable to seizure if the customs declarations do not contain a full and accurate description of the contents.

Parcels containing articles subject to ad valorem duty should have an invoice enclosed showing the contents in detail and value of each article, and the parcel should be marked on the address side "Invoice enclosed". When the invoice relates to the contents of more than one parcel, each parcel is to be marked "Invoice in parcel No. _____".

Prohibitions. For reasons of sanitary policy: Meat, milk, cheese, butter, margarine, lard and other greases, unless packed in hermetically sealed tins plainly marked to show the nature of the contents. However, "Smithfield" hams are accepted as unsolicited gifts if enclosed in waterproof wrappings and adequately packed for protection and to avoid damage to other mail matter.

Arms, etc.: Firearms (except shotguns with barrels at least 24 inches long) and other deadly weapons and parts thereof, including guns for throwing liquid or gas and munitions therefor; accessories for

reducing the sound or flash of firearms. The foregoing are admitted, however, if the addressee possesses an import license issued by the competent British authorities.

Switchblade knives.

To Northern Ireland: Airguns, and shotguns with barrels 24 inches or more in length, in addition to the above.

For other reasons: Articles violating the British trademark or copyright laws.

Liquids with flash point below 150° F. As an exception, paints, varnishes, turpentine, lacquer and similar substances with flash point between 90° and 150° may be accepted in quantities not exceeding 1 quart when packed as prescribed in § 231.3(b)(2)(ii) of this chapter, with an air space of at least 7½ percent of the total cubic content left in each container; the wrapper must be marked by the sender indicating that the flash point is not lower than 90° F.

Cigars and other tobacco products containing any nontobacco material or ingredient. Mentholated or flavored cigarettes and "Cavendish" or "Negrohead" pipe tobacco are admitted.

Coins, precious stones, jewelry, and any articles of gold, silver, or platinum, unless insured. Coins (unless declared to be for ornament), silver bullion, or partially worked silver may not exceed £200 in value.

Portable radio transmitters operating on frequencies between 26.1 and 29.7 or between 88 and 108 megaherz, except with specific permission of the British authorities.

Advertisements of fortune tellers.

Oilskins or similar products, and waxed or varnished articles unless thoroughly dried. If sent by air, such articles must be hermetically sealed in strong paper or enclosed in boxes of metal or of wood reinforced with wire.

Also see § 231.2 of this chapter.

Import restrictions. The attention of senders should be called to the following requirements, which are to be met by addressees:

Certain hallucinogenic, narcotic and stimulant drugs; vaccines, antigens, antitoxins and sera; antibiotics for parenteral injection; salvarsan and similar substances; enzyme and hormone preparations; and certain surgical material for human use require import authorization from the competent British authority.

Foods or beverages to which any preservative or other substance has been added must comply with the British regulations for importation.

Many categories of merchandise require import licenses from the British Board of Trade, except when sent as bona fide unsolicited gifts (see Observations) or as trade samples.

Print on the wrapper, near the "Insured" endorsement and number, the amount for which the parcel is insured. This indication shall be shown in U.S. currency, in figures and in letters spelled out in full, in the following form:

INSURED VALUE

$75.55

SEVENTY-FIVE DOLLARS AND FIFTY-FIVE CENTS

Coins, precious metals, jewelry, or other precious articles sent as parcel post must be insured.

For general information on insurance see Part 243 of this chapter.

Observations. The customs laws of Guatemala require that a certificate of origin be furnished for every importation except merchandise not exceeding $50 in value. In the case of articles subject to restrictions, quotas, or special charges, the certificate is required regardless of their value.

Commercial invoices must be furnished for all merchandise.

Both certificate of origin and commercial invoice must be visaed by one of the Guatemalan Consuls located in principal cities of the United States. Senders must present to the nearest Guatemalan Consul five copies of the commercial invoice covering their parcels. The certificate of origin, and the original invoice which is returned after certification shall not be enclosed in the parcel, but forwarded under separate cover to the addressee. The remaining copies are retained by the Consul.

Consular fees are collected at the point of destination of the parcels in Guatemala. It is understood that in cases where parcels of value are received in Guatemala without the certified invoices and the addressees are unable to produce such invoices the parcels will be delivered, but the addressees will be required to pay the usual import duties plus a fine of 50 percent of the duties.

The invoices must indicate (1) name and address of shipper; (2) name and address of consignee; (3) date of the invoice; (4) marks, countermarks, and numbers; (5) number and kind of package; (6) contents of merchandise in detail; (7) weights in kilograms—legal, net and gross; (8) value of merchandise; (9) expenses, such as postage, commissions, etc.; (10) declaration that all the prices and particulars are true and correct. The invoices must be signed in ink.

Parcels may be addressed to banks or other organizations for ultimate delivery to second addressees. The latter however may not take delivery without written authority from the first addressee, unless the sender arranges for change of address as provided in Part 247 of this chapter.

Prohibitions. Arms, etc.: Arms in general, except certain arms for hunting.

For other reasons: Military supplies of all kinds.

Observations. A large variety of items, when the value exceeds 200 Mexican pesos (about $16), require import licenses which the addressees must obtain before the goods arrive. The Mexican official valuation of articles may be higher than the purchase price. Also, customs duty is assessed at high rates. This applies to gifts and to Mexican goods being returned for replacement or repair, as well as commercial shipments. If the addressees have not obtained import licenses, if required, before the parcels arrive, the Mexican customs authorities may assess fines in addition to the duty, or confiscate the parcels. Confiscated parcels are not released without authorization of the customs authorities, even if the addressees refuse them or the senders request their return.

Parcel post and postal union mail packages for which the declared value exceeds $16 (U.S. currency) are not to be accepted for mailing unless the sender has marked the wrapper "Addressee possesses Mexican import license" or "Addressee does not require Mexican import license".

Parcels may be addressed to banks or other organizations for ultimate delivery to second addressees. The names and addresses of both addressees should be indicated on the parcels and on the customs declarations. The second addressee however may not take delivery without written authority from the first addressee, unless the sender arranges for change of address as provided in Part 247 of this chapter.

Parcels containing queen bees and accompanying worker bees must have enclosed an official health certificate. The addressee must possess an import permit to be secured from the Mexican "Secretaría de Agricultura y Ganadería" before the bees are mailed. The wrapper must be marked "Health Certificate Enclosed—Addressee Has Import Permit."

Insecticides, fungicides and germicides must be packed with cushioning material between the inner and outer containers, and each receptacle shall be plainly marked with the word "Poison" and the label or printed name of the manufacturer.

For each parcel or group of parcels exceeding $70 in value, a commercial invoice in triplicate must be enclosed in the parcel or in one parcel of the group. The wrapper of each parcel should be marked "Commercial invoice enclosed" or "Commercial invoice enclosed in parcel No. _____", as the case may be.

Prohibitions. For sanitary reasons: Pacifiers for the amusement of babies should bear labels in Spanish showing the material of which they are made and the name and address of the manufacturer.

Arms, etc.: Pistols, hunting and target arms, require a certificate from the Mexican consul at the place of shipment. Pistols and other instruments for the projection of tear gas are prohibited.

For other reasons: Works violating the Mexican copyright laws.

Bank notes, coins of all kinds, and values payable to bearer. As an exception, the Bank of Mexico and the banks associated therewith are authorized to import bank notes exclusively for the purpose of exchange.

Candy containing chocolate.

Cigarettes, unless the manufacturer has placed Mexican excise tax stamps on each pack.

Queen bees and accompanying worker bees, unless mailed in compliance with the Mexican regulations (see Observations).

Radioactive materials, unless the sender has obtained import authorization prior to mailing from the National Nuclear Energy Commission, Av. Insurgentes Sur 1079, Mexico, D. F., Mexico.

Also see § 231.2 of this chapter.

Import restrictions. The attention of senders should be called to the following requirements, which are to be met by the addressees:

Meat or other animal products in cans, except in quantities less than 11 pounds require an inspection certificate from the Ministry of Agriculture and Fomento.

Arms other than those mentioned under "Prohibitions" require special permission from the Secretariat of War and Navy.

(a) Bona fide gifts not exceeding 10 Rand (about $14) in value.

(b) Medicines and therapeutic devices for the addressee's personal use, not exceeding 10 Rand in value.

(c) Books, newspapers, catalogues, printed music and periodicals (other than those of the sensational or "comic" variety which are prohibited) sent to firms or private individuals for their own use.

(d) Samples having no commercial value.

(e) Articles being returned to South Africa after repairs costing 10 Rand or less.

(f) Articles originating in South Africa being returned for repair or for replacement due to defect.

(g) Articles authorized under South African quota regulations.

(h) Used household or personal effects of persons who have arrived in South Africa.

Before mailing any parcel or postal union article whose contents do not conform to one of the above categories, the sender should ascertain whether the addressee will be permitted to receive it. The sender must mark the wrapper of each parcel or article "Addressee has import permit," or, if the contents are in one of the exempted categories, "Exempt from import control."

Commercial shipments of printed matter require separate import permits to be obtained by the addressees for the portions classified as (a) scientific, educational and technical, (b) nonfiction, and (c) fiction. It is desirable that mailers of such shipments prepare separate invoices in respect of each classification, each invoice to show the total number of parcels in the shipment, and the invoice number to be marked on each package.

For commercial shipments, a commercial invoice in prescribed form must be sent to the addressee so as to arrive before the shipment.

See Parcel Post Observations for import license regulations, which apply also to merchandise sent by postal union mail.

Mailers shall be warned that it is a practice of the authorities in the United Arab Republic to impose a fine whenever any postal union article is found to contain an item of commercial value and no green customs label, Form 2976, is attached to the cover or wrapper.

When a fine is imposed and the article is refused by the addressee, it is subject to seizure and will be released for return to origin only if the fine is paid in advance by the sender.

Tobacco, cigars, and cigarettes of any kind are not admitted as samples.

Observations. Parcels should be addressed "United Arab Republic", without the name "Egypt".

An invoice must be enclosed in each parcel or one parcel of each group. In the latter case, the other parcels of the consignment must be marked accordingly.

Care should be taken in the preparation of customs declarations, as the authorities in the United Arab Republic may impose a fine when the weight or quantity of any item is found to differ by more than 5 percent from the declaration.

All merchandise imported into the United Arab Republic requires an import permit to be obtained by the addressee, except for the following: Gifts and articles for personal use; books, magazines, and scientific bulletins; postage stamps; advertising matter for steamship and air lines for their own use; repair parts, equipment and supplies for steamships and airplanes.

For merchandise other than the categories listed above, the addressee must obtain an import permit before the goods are sent, and inform the sender of the permit number. The sender must place this number on the wrapper, dispatch note and customs declaration. Otherwise the packages will be liable to confiscation in the United Arab Republic.

Parcel post and postal union mail packages are not to be accepted for mailing to the United Arab Republic unless the sender has marked the wrapper "U.A.R. Import Permit Not Required" or "U.A.R. Import Permit No. ------"

with the appropriate number. In the case of parcel post, the number must be placed also on the dispatch note and customs declaration.

The authorization of the Ministry of Agriculture is required for the importation of the following:

Fungicides and insecticides; bees; silkworms; parasites and predators of injurious insects intended for the control of such insects and exchanged between officially recognized institutions.

Observations. To meet the requirements of Venezuelan customs regulations and avoid penalties against the addressees, complete customs declarations (Form 2966) carefully, giving particular attention to the following:

1. If a parcel contains articles of different kinds, show the exact quantity of each kind, with complete descriptions and individual weights. Give descriptions if possible in the exact terminology of the Venezuelan customs tariff with the tariff item numbers, or you may use the ordinary commercial descriptions of the goods with complete descriptions of the materials of which they are made and the intended use. Also show the value of each kind of article and the total value. Show the country of origin of the goods; a brief statement such as "Product of U.S.A." is sufficient.

2. Give the weight of each article in kilograms or other metric units. This weight must include the immediate container or the spool or board which holds the goods, as well as the goods themselves. Also give the net weight and gross weight of the entire parcel in kilograms or other metric units.

Fines are imposed when the net weights vary more than 3 percent from those stated on the customs declarations,

or when the customs declarations are not complete or do not show the proper classification of the merchandise.

Parcels may be addressed to banks or other organizations for ultimate delivery to second addressees. The latter however may not take delivery without written authority from the first addressee, unless the sender arranges for change of address as provided in Part 247 of this chapter.

After the arrival of parcels in Venezuela each addressee is contacted in order to ascertain whether he desires to accept the parcel. If the addressee refuses the parcel it is treated as undeliverable and disposed of in accordance with the instructions of the sender, but if the addressee accepts the parcel it is then submitted for customs treatment. After customs treatment the addressee must either take delivery of the parcel or surrender it to the Venezuelan customs authorities, since parcels which have been accepted by the addressees cannot be considered as abandoned for purposes of retransmission.

Prohibitions. For sanitary reasons: Pharmaceutical specialties not authorized by the Minister of Health, Agriculture, and Boviculture.

Tomatoes, tomato sauce, and foods containing tomato sauce in metal containers.

Frozen, dried, and salted meats except frozen birds and sea food.

Certificates of origin are required for meat, fish, and preserved foodstuffs.

For the protection of animals: Uncooked pork, including ham and bacon, and all uncooked pork products, unless accompanied by an inspection certificate issued by the U.S. Agriculture Department to the effect that the meat or products have been treated by heat of at least 156° F.

Arms, etc.: Guns which are not considered as hunting arms; daggers and swords; knives and cutlasses not for domestic, industrial, or agricultural use.

Import permits are required for hunting arms and material.

War material may be imported only by the National Government.

For other reasons: Cigarette papers.

Copper, nickel, and silver coins may be imported only by collectors with the permission of the Venezuelan Ministry of Finance.

PART 135—FOURTH CLASS

Conditions for Mailing 1,000 or More Pieces in Single Mailing at Special Fourth-Class Rate or at Library Rate

In the daily issue of Saturday, August 2, 1969 (34 F.R. 12633), the Department published a notice of proposed rule making relating to Public Law 90-206, approved December 16, 1967. The purpose of the cited notice of proposed rule making was to seek the views of the public in making changes in existing presorting requirements applicable to articles mailed in quantities of 1,000 or more pieces at the special fourth-class rate or at the library rate to become effective November 1, 1969.

After careful consideration the Department has determined to adopt the proposed amendment without change to clarify the references to portions of § 134.4(c) of Title 39 CFR; and to change the effective date to January 1, 1970.

Accordingly, the regulations of the Post Office Department are amended as follows:

Section 135.2(a)(6) is amended to read as follows:

§ 135.2 Classification.

(a) *Description.* * * *

(6) The address on each piece mailed at the rates provided by § 135.1 (c) and (d) must include the complete ZIP Code. When 5,000 or more identical pieces are mailed at these rates during a single day and there are enough pieces for the same destination to fill approximately one-third of a sack, they must be presorted and placed in sacks in accordance with the instructions contained in § 134.4(c) of this chapter, as follows: Subparagraph (2); and subdivisions (i)(b), (ii)(b), (iii)(b), (iv)(b), and (v)(b) of subparagraph (6). When 1,000 or more but less than 5,000 identical pieces are mailed at these rates during a single day and there are enough pieces for the same destination to fill approximately one-third of a sack, they must be presorted and placed in sacks in accordance with the instructions contained in § 134.4(c) of this chapter, as follows: Subparagraph (2); and subdivisions (ii)(b), (iii)(b), (iv)(b), and (v)(b) of subparagraph (6).

NOTE: The foregoing amendment is effective Jan. 1, 1970. Mailers have the option of applying the amendment prior to that date.

NOTE: The corresponding Postal Manual section is 135.216.

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 69-CE-19-AD; Amdt. 39-860]

PART 39—AIRWORTHINESS DIRECTIVES

Allison Models 250-C10 and 250-C18 Series Engines

Amendment 39-833 (34 F.R. 14025), AD 69-18-4, applicable to Allison Models 250-C10 and 250-C18 series engines is an airworthiness directive which became effective September 10, 1969, and imposes operating limitations on affected Allison Models 250-C10 and 250-C18 series engines as described in Allison Commercial Service Letter 250 CSL-34 dated August 4, 1969, until these engines are modified in accordance with Allison Commercial Engine Bulletin 250 CEB-90 dated August 21, 1969, or later FAA-approved revision or until P/N 6852085 nitrided helical torquemeter shaftgears are installed.

Subsequent to the issuance of this airworthiness directive, the manufacturer published Revision No. 1 dated September 24, 1969, to both Allison Commercial Service Letter 250 CSL-34 and Allison Commercial Engine Bulletin 250 CEB-90 which revised the engine gearbox serial numbers set forth in the applicability statement of the airworthiness directive. Accordingly, the applicability statement is being amended to effect this change. In addition, a note is also being added to the airworthiness directive which states that Revision No. 1 dated September 24, 1969, to Allison Commercial Service Letter 250 CSL-34 and Allison Commercial Engine Bulletin 250 CEB-90 is a later FAA-approved revision which relates to the subject matter of the airworthiness directive.

Since this amendment is in the interest of safety, provides a clarification only, and imposes no additional burden on any person, notice and public procedures hereon are unnecessary and the amendment shall become effective within thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of the Federal Aviation Regulations, Amendment 39-833 (34 F.R. 14205) AD 69-18-4, is amended as follows:

1. The applicability statement is amended to read as follows:

ALLISON. Applies to Allison Models 250-C10 and 250-C18 Series Engines having Gearbox Serial Nos. CAG 20183; CAG 20185; CAG 20193 through CAG 20265; CAG 20508; CAG 21001 through CAG 21395; CAG 21600 through CAG 21706; CAG 21800 through CAG 21803 installed, except those engines modified in accordance with Allison Commercial Engine Bulletin 250 CEB-90, dated August 21, 1969, or later FAA-approved revision, or having P/N 6852085 nitrided helical torquemeter shaftgears.

2. The following note is added:

Revision No. 1 dated September 24, 1969, to Allison Commercial Service Letter 250 CSL-34 and Allison Commercial Engine Bulletin 250 CEB-90 is a later FAA-approved revision which relates to the subject matter of this airworthiness directive.

This amendment becomes effective October 18, 1969.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Lansing, Mich., transition area.

U.S. Standard for Terminal Instrument Procedures (TERPS) became effective November 18, 1967, and was issued only after extensive consideration and discussion with Government agencies concerned and affected industry groups. TERPS updates the criteria for the establishment of instrument approach procedures in order to meet the safety requirements of modern day aviation and to make more efficient use of the airspace possible. As a result, the criteria for designation of controlled airspace for the protection of these procedures were modified to conform to TERPS. The new criteria requires minor alteration of the Lansing, Mich., transition area. Action is taken herein to reflect this change.

Since changes in most, if not all, existing airspace designations are required in order to achieve the increased safety and efficient use of the airspace that TERPS is designed to accomplish and since these changes are minor in nature, notice and public procedure hereon have been determined to be both unnecessary and impracticable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., December 11, 1969, as hereinafter set forth:

In § 71.181 (34 F.R. 4637), the following transition area is amended to read:

LANSING, MICH.

That airspace extending upward from 700 feet above the surface within an 8½-mile radius of Capital City Airport (latitude 42°46'40" N., longitude 84°35'20" W.); within 3 miles each side of the Lansing ILS localizer east course, extending from the 8½-mile radius area to 14 miles east of the OM; and within 3 miles each side of the Lansing ILS localizer west course, extending from the 8½-mile radius area to 14 miles west of the OM; and that airspace extending upward from 1,200 feet above the surface bounded on the north by latitude 43°16'00" N., on the east by longitude 84°05'00" W., on the south by a line beginning at latitude 42°30'00" N., longitude 84°05'00" W., to latitude 42°30'00" N., longitude 84°50'00" W., to latitude 42°38'00" N., longitude 84°50'00" W., to latitude 42°38'00" N., longitude 85°15'00" W., and on the west by longitude 85°15'00" W.; and within the area bounded on the north by V-216, on the east by longitude 84°25'00" W., on the south by latitude 43°16'00" N., and on the west by longitude 85°02'00" W.

Issued in Kansas City, Mo., on September 26, 1969.

The net amount of bounties or grants on the above-described commodities which are manufactured or produced in Australia is hereby ascertained, determined, and declared to be Australian $103.80 per 2,240 pounds of sugar content. Additional duties on the above-described commodities, except those commodities covered by T.D. 55716 (27 F.R. 9595), whether imported directly or indirectly from that country, equal to the net amount of the bounty shown above shall be assessed and collected.

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

SURFACE LUBRICANTS USED IN MANUFACTURE OF METALLIC ARTICLES

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 7B2115) filed by Yawata Iron & Steel Co., Ltd., 375 Park Avenue, New York, N.Y. 10032, and other relevant material, concludes that the food additive regulations should be amended to provide for the safe use of diisodecyl phthalate in surface lubricants used in the manufacture of metallic food-contact articles under conditions such that the total residual lubricant does not exceed 0.2 milligram per square inch of food-contact surface. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2531(b)(2) is amended by alphabetically inserting in the list of substances a new item, as follows:

Subpart 101–14.1 is amended by revising §§ 101–14.102–4, 101–14.103–2, and 101–14.106 and amending § 101–14.103–1 as follows:

However, if the holding agency determines that there is no reasonable prospect of accumulating within 12 months the minimum quantities required to be reported by this Subpart 101–14.1, the excess material shall be handled in accordance with the applicable provisions of Part 101–43.

§ 101–14.106 List of strategic and critical materials to be reported to the Property Management and Disposal Service, GSA.

The Commissioner, Property Management and Disposal Service, periodically will issue to Federal agencies a revised GSA bulletin listing the materials and the quantities to which this subpart applies. Additional copies of the bulletin may be obtained upon written request to the General Services Administration, Property Management and Disposal Service, Washington, D.C. 20405.

Subpart 101–14.2—Transfer of Excess Strategic and Critical Materials From General Services Administration Inventories for Direct Government Use

Subpart 101–14.2 is revised as follows:

§ 101–14.200 Scope of subpart.

This subpart deals with the transfer of excess strategic and critical materials from General Services Administration inventories for direct Government use.

§ 101–14.201 Purpose and authority.

This subpart restates the policy and procedures for the transfer of excess strategic and critical materials in the inventories of the General Services Administration to Federal agencies for their direct use.

§ 101–14.202 Background.

On January 30, 1963, the President approved a report submitted by the Executive Stockpile Committee containing recommendations for the long-range disposal of excess stockpile materials. Recommendation No. 7 of that report reads as follows.: "Federal agencies should continue to purchase their direct needs for surplus stockpile materials from the General Services Administration." "Direct Government use" means use in a Government-owned and -operated facility and may include the actual consumption of the material in a Government-owned facility which is operated by a contractor for the Government. Examples of direct Government use are lead to the Department of Defense for ordnance plants, ammunition plants, and Navy Yards, and magnesium to Atomic Energy Commission plants. To the same effect is section 3p of Defense Mobilization Order 8600.1A, which reads in part as follows: "Government agencies which directly use strategic and critical materials shall fulfill their requirements through the use of materials in Government inventories that are excess to the needs thereof whenever such action is found to be consistent with overall disposal policies and with the best interests of the Government."

§ 101–14.203 Materials available.

(a) The Commissioner, Property Management and Disposal Service, periodically will issue to Federal agencies a GSA bulletin listing the excess materials available for transfer. The bulletin will be revised as excess materials become available or as available supplies of excess materials become exhausted. Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 966]

TOMATOES GROWN IN FLORIDA

Limitation of Shipments

Consideration is being given to the issuance of the limitation of shipments regulation, hereinafter set forth, which was recommended by the Florida Tomato Committee, established pursuant to Marketing Agreement No. 125 and Marketing Order No. 966, both as amended (7 CFR Part 966), regulating the handling of tomatoes grown in the production area. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

The recommendations of the committee reflect its appraisal of the composition of the 1969–70 crop of Florida tomatoes and of the marketing prospects for this season. The grade, size, and quality requirements are necessary to prevent tomatoes of poor quality and undesirable sizes from being distributed in fresh market channels. The proposed standardization of weights, containers and size classifications is needed in the interest of orderly marketing so as to improve net returns to producers. The proposals with respect to special pack and special purpose shipments are designed to meet the different requirements for such shipments.

All persons who desire to submit written data, views, or arguments in connection with this proposal shall file the the same in quadruplicate with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C., 20250, to be received not later than October 31, 1969. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). The proposal is as follows:

§ 966.307 Limitation of shipments.

During the period from November 15, 1969, through July 31, 1970, the following regulations shall be effective with respect to all varieties of tomatoes handled for shipment outside the regulation area as defined in § 966.4, except elongated types, commonly referred to as pear shaped or paste tomatoes and including, but not limited to, San Marzano, Red Top, and Roma varieties; cerasiform type tomatoes, commonly referred to as cherry tomatoes; hydroponic tomatoes; and greenhouse tomatoes.

(a) *Grade.* No person shall handle any lot of tomatoes for shipment outside the regulation area unless they are U.S. No. 3 grade or better.

(b) *Size.* No person shall handle any lot of tomatoes for shipment outside of the regulation area unless they are over $2\frac{1}{32}$ inches in diameter: *Provided,* That not more than 10 percent, by count, of the tomatoes in any lot may be smaller than the specified minimum diameter.

(c) *Size classifications.* (1) No person shall handle any lot of tomatoes for shipment outside the regulation area unless they are packed in one or more of the following ranges of diameters (expressed in terms of minimum and maximum). Measurement of minimum and maximum diameter shall be in accordance with the methods prescribed in the U.S. Standards for Grades of Fresh Tomatoes (§§ 51.1855 to 51.1877 of this title).

Size classification:	Diameter (inches)
7 x 7	Over $2\frac{1}{32}$ to $2\frac{9}{32}$, inclusive.
6 x 7	Over $2\frac{9}{32}$ to $2\frac{17}{32}$, inclusive.
6 x 6	Over $2\frac{17}{32}$ to $2\frac{23}{32}$, inclusive.
5 x 6	Over $2\frac{23}{32}$

(2) Tomatoes shall be packed separately for each designated size range except that size 6 x 6 and larger may be commingled.

(3) To allow for variations incident to proper sizing, not more than a total of ten (10) percent, by count, of the tomatoes in any lot may be smaller than the specified minimum diameter or larger than the maximum diameter.

(d) *Containers.* (1) No person shall handle any lot of tomatoes for shipment outside the regulation area unless they are packed in one of the following container sizes and the net weights of the tomatoes contained therein are within the specified weight tolerances:

Container weight	Minimum weight	Maximum weight
	(Pounds)	
8	8	$9\frac{1}{2}$
20	20	$21\frac{1}{2}$
30	30	$31\frac{1}{2}$
40	40	$41\frac{1}{2}$
60	60	62

(2) To allow for variations incident to proper packing, not more than a total of ten (10) percent of the aforesaid containers in any lot, by count, may exceed the specified maximum net weight specified for each such container.

(3) No person shall handle tomatoes in 8 pound containers after December 31, 1969.

(e) *Inspection.* No person shall handle any lot of tomatoes for shipment outside the regulation area unless such tomatoes are inspected and certified pursuant to the provisions of § 966.60.

(f) *Truck shipments.* For purposes of these regulations, the rule, § 966.140, relating to truck shipments of tomatoes grown in Florida, shall continue in effect.

(g) *Minimum quantity.* For purposes of these regulations, each person subject thereto may handle, pursuant to § 966.53, up to, but not to exceed, 60 pounds of tomatoes per day without regard to the requirements of this part, but this exception shall not apply to any shipment or any portion thereof of over 60 pounds of tomatoes.

(h) *Special pack requirements.* The tomato size classifications of paragraph (c) of this section and the container weight requirements of paragraph (d) of this section shall not be applicable to tomatoes packed in cupped trays, or when in containers customarily packed for the retail trade, if such tomatoes are handled in accordance with the reporting requirements of paragraph (i) of this section.

(i) *Reporting requirements.* Each handler making shipments of tomatoes pursuant to this section shall report to the committee on forms furnished by the committee such information on the shipments as may be required by the committee pursuant to § 966.80. Such reports shall be made within 10 days after shipment.

(j) *Special purpose shipments.* The requirements of paragraphs (a), (b), (c), (d), and (e) of this section shall not be applicable to shipments of tomatoes for processsing into pickles, for canning, for relief or charity, or for export: *Provided,* That the handler thereof complies with the safeguard requirements of paragraph (k) of this section.

(k) *Safeguards.* Each handler making shipments of tomatoes for processing into pickles, for canning, for relief or charity, or for export in accordance with paragraph (j) of this section shall:

(1) First apply to the committee for and obtain a Certificate of Privilege to make such shipments;

(2) Prepare, on forms furnished by the committee, a report in quadruplicate on each individual shipment to such outlets authorized in paragraph (j) of this section;

(3) Bill or consign each shipment directly to the designated applicable receiver; and

(4) Forward one copy of such report to the committee office, and two copies to the receiver for signing and returning one copy to the committee office. Failure of the handler or receiver to report such shipments by signing and returning the applicable report to the committee office within 10 days after shipment shall be cause for cancellation of such handler's certificate and/or the receiver's eligibility to receive further shipments pursuant to such certificate. Upon cancellation of any such certificate the handler may appeal to the committee for reconsideration.

(l) *Definitions.* "Hydroponic Tomatoes" means tomatoes grown in solution without soil. "Greenhouse Tomatoes"

means tomatoes grown indoors. Other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 125, as amended, and this part.

Notice is hereby given of proposed grade, size, and inspection requirements to be made applicable to the importation of fresh tomatoes into the United States pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The import regulation would apply the same requirements to be made effective under the Federal marketing order for tomatoes grown in Florida.

All persons who desire to submit written data, views, or arguments in connection with this proposal shall file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112A, Washington, D.C. 20250, so as to be received not later than October 31, 1969. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

[Docket Nos. AO–271–A12, AO–271–A12–R02]

MILK IN CENTRAL ARIZONA MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Phoenix, Ariz., on February 7–10, 1967, pursuant to notices thereof which were issued on December 14, 1966 (31 F.R. 16277), January 4, 1967 (32 F.R. 140), and January 12, 1967 (32 F.R. 415).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Regulatory Programs, on October 9, 1967 (32 F.R. 14232, F.R. Doc. 67–12143),

filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto. Exceptions were filed by a number of interested parties.

This proceeding was reopened at a public hearing held at Memphis, Tenn., under Docket No. AO-217-A12-R02, among others, beginning February 19, 1968, pursuant to notice thereof which was issued February 6, 1968 (33 F.R. 2785). At the reopened hearing, issues (3), (4), and (7) were considered with respect to the disposition of filled milk products in the marketing area.

Upon the basis of the evidence introduced at the reopened hearing and the record thereof, the Deputy Administrator, Regulatory Programs, on June 17, 1969 (34 F.R. 11802; F.R. Doc. 69-7282) filed with the Hearing Clerk his revised recommended decision containing notice of the opportunity to file written exceptions thereto.

Simultaneously therewith was issued a recommended decision with respect to the handling of milk in Memphis, Tenn., and certain other marketing areas (34 F.R. 11809). The hearing on which the decision was based was held in Memphis, Tenn., beginning on February 19, 1968 (33 F.R. 2785). It constituted a reopening of the hearing held in Phoenix, Ariz., on Feb. 7-10, 1967, for the purpose of receiving further evidence with respect to issues (3), (4), and (7) of this decision. The findings and conclusions of the recommended decision based upon the evidence introduced at the hearing held in Memphis were incorporated as a part of the findings and conclusions of the recommended decision in this proceeding.

The material issues, findings and conclusions, rulings, and general findings of the revised recommended decision (34 F.R. 11802; F.R. Doc. 69-7282) are hereby approved and adopted and are set forth in full herein subject to the following modifications:

Index of changes:

1. Immediately following the last paragraph of issue 3, there are added two additional paragraphs;

2. The first paragraph of issue 4, "Classification provisions," is revised, a new 2d paragraph is added, and the third paragraph is revised; and

3. Immediately following the last paragraph of issue 6, "Location differentials at Tucson," there are added three additional paragraphs.

The material issues on the record of the hearing relate to:

1. Marketing area extension;
2. Producer definition;
3. Producer-handler definition;
4. Classification provisions;
5. Transfer provisions;
6. Location differential at Tucson; and
7. Obligation of a handler operating a partially regulated distributing plant.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Marketing area extension.* The proposals to include the southern part of Mohave County and the northern part of Yuma County in the marketing area are denied.

The cooperative association serving the market proposed that the marketing area be extended to include the southern part of Mohave County (south of the Colorado River) and the northern part of Yuma County. The southern part of Yuma County is now included in the marketing area.

At the present time there is no distribution in the northern part of Yuma County by handlers regulated under the order. All of the milk sold there is distributed by two unregulated handlers. The milk moves into the area from Blythe, Calif. In Mohave County, regulated handlers dispose of approximately 70 percent of the Class I sales. This is approximately 1.5 percent of the total Class I sales of regulated handlers. The remainder of the Class I sales in Mohave County south of the Colorado River are made by a distributor located in Needles, Calif.

The northern part of Yuma County is separated from the marketing area by desert. There is only one north-south highway across the county and it is in the extreme western part of the county close to the California border. At the time of the hearing, there were no highways or bridges across the Bill Williams River which forms the boundary between Yuma and Mohave Counties.

Proponent stated that a new highway-bridge complex across the Bill Williams River was under construction and that upon its completion it would be practicable for regulated handlers to dispose of milk in northern Yuma County. If this area were added to the marketing area and a compensatory payment were assessed on the California milk, regulated handlers might expect to expand their sales very substantially in the two-county area.

Proponents contended that California handlers had a decided buying advantage over regulated handlers in that the California Milk Stabilization Regulation did not apply to milk sold outside the State of California. They alleged that such milk was purchased at the Class III price and that this lower cost of acquiring milk was a cause of market instability.

The record clearly established that California regulations do not apply to sales to military installations regardless of their location. There are apparently no military installations in the areas under consideration. Hence competition for sales to military bases is not involved here.

With respect to sales to other than military installations, however, the evidence does not bear out the contention of proponents. The figures presented by proponents on prices received by California producers do not establish that milk is being purchased by California handlers for sale in Arizona at the Class III price.

On the other hand witnesses for handlers who operate plants in California testified that the State of California does in fact establish the prices which handlers must pay for such milk. They referred specifically to section 4283 of the Agricultural Code of California and to the provisions of the Stabilization and Marketing Plan for the Southern Metropolitan Area (Los Angeles, Orange, San Bernardino, and Riverside Counties), issued under the authority of the above code. Blythe is located in Riverside County and Needles is in San Bernardino County.

The record does not establish that there is a significant difference in the cost to Arizona and California handlers of milk acquired for fluid disposition to nonmilitary outlets in Arizona. Hence, at this time the record evidence does not reveal disorderly marketing conditions which affect regulated handlers in the proposed area.

It is concluded, therefore, that the northern part of Yuma County and Mohave County should not be added to the marketing area. In Yuma County regulated handlers sell no milk and the proposal for regulation is based on handlers expectations of acquiring some business there after the completion of a new bridge over the Bill Williams River. In the case of Mohave County where regulated handlers do sell some milk, the county, in view of the decision to omit Yuma County, would not be contiguous to the remainder of the marketing area. Moreover, the volume of milk distributed there by Central Arizona handlers is a very small percentage of the total Class I sales of regulated handlers.

A handler proposed that a lower Class I price apply in Yuma and Mohave Counties if the marketing area were not extended. The appropriate level of Class I milk price for a marketing area is influenced by the Class I sales which regulated handlers make outside the marketing area. These sales affect the volume of milk covered by an order.

If the Class I price were higher for milk sold inside than outside the marketing area, returns for Class I disposition inside the area would bear the greater burden of providing the incentive for milk production for both. To the extent that a higher Class I price inside the marketing area is reflected in higher prices to consumers inside the area said consumers would be subsidizing consumers outside the marketing area where lower prices prevailed.

There is no basis when establishing the appropriate Class I milk price for a market to distinguish between milk sold inside and milk sold outside the marketing area. The milk sold outside the area by regulated handlers is produced under the same conditions as milk sold in the marketing area and is processed in the same plants. Thus, the milk moving through the regulated handlers' plants, whether it is sold inside or outside the marketing area is part of the same supply and demand considerations upon which the determination concerning the appropriate Class I price level must be made.

Neither is it intended that Federal milk regulation be susceptible of manipulation to permit the use of adjacent outside markets as a dumping ground for milk in excess of a market's needs. A lower Class I price for milk sold in the other area could have a lowering effect on the price paid farmers by unregulated distributors in that area, and would tend to lower returns to dairy farmers supplying the unregulated handlers. For the above reasons, it is concluded that an out-of-area Class I price should not be adopted, and the proposal, therefore, is denied.

2. *Producer definition.* The order should provide for the recipt of milk at a pool plant by diversion from an other order plant without designating the dairy farmers who shipped it as producers under the Central Arizona order.

The cooperative association supplying milk to Central Arizona regulated handlers also supplies milk to two handlers regulated by the Rio Grande Valley order on a 5-day-week basis. During the remainder of the week, some of this milk is manufactured at the association's plant which is regulated by the Central Arizona order.

The milk supplied to the Rio Grande Valley handlers was developed for and is, in large part, committed to the Rio Grande Valley area. Under present order provisions, however, when the milk is diverted from the Rio Grande Valley pool plants and received at a pool plant under the Central Arizona order, the dairy farmers involved are designated as producers under the Central Arizona order, and the milk is accounted for as producer milk. Since the milk is not needed for fluid use in the Central Arizona area, it is converted into manufactured dairy products. This tends to lower the uniform price to producers regularly supplying the Central Arizona market.

In other instances, milk regularly marketed by the cooperative association in the Rio Grande Valley area is transferred to a manufacturing plant about 700 miles from El Paso, Tex., when not needed for Class I use under that order. Under the proposed order change, such milk could be diverted about 400 miles for manufacture at a pool plant regulated by the Central Arizona order without lowering the uniform prices of the producers regularly supplying the market. This would also result in a considerable saving in transportation costs to the association in supplying the Rio Grande Valley market.

The proposal will encourage greater marketing efficiencies and can be implemented by providing in the "producer" definition that the term shall not include a person with respect to milk diverted to a pool plant from an other order plant if such person retains producer status under the other order and if the operators of both the diverting plant and the plant to which the milk is diverted have requested Class III classification in their reports of receipts and utilization filed with the market administrators of the respective orders.

3. *Producer-handler definition.* Producer-handlers should continue to be exempt from the pooling and pricing provisions of the order. However, the producer-handler definition should be amended to prohibit the reconstitution or recombining of fluid milk products and filled milk from concentrated nonfat milk solids such as nonfat dry milk. Also, provision should be made to add to the definition a further limitation on the quantity of fluid milk products (including filled milk) that a producer-handler may receive from pool plants if he is to retain exemption from pricing and pooling milk of his own production under the order.

A hearing on amendments to the Central Arizona order considered, among other issues, the distribution of filled milk by producer-handlers. It was held at Phoenix, Ariz., during the period February 7–10, 1967, and a recommended decision was issued by the Acting Deputy Administrator, Regulatory Programs, on October 9, 1967 (32 F.R. 14232). Exceptions to the recommended decision were filed by interested parties.

A general hearing at Memphis, Tenn., which began on February 19, 1968, also considered this issue, and for the Central Arizona market, represented a reopening of the February 1967 hearing. The evidence submitted at the Memphis hearing, together with the exceptions to the 1967 recommended decision are considered in this decision.

The order now provides essentially that a person who is a dairy farmer and who processes in his own plant and distributes in the marketing area milk of his own production may be defined as a producer-handler. As such, he is accorded exemption from all payment obligations normally applicable to handlers fully regulated under the order. Recognizing that circumstances might arise where a producer-handler's production might temporarily fall below his sales requirement, the order provides that such a person may buy supplemental milk from pool plants in an amount representing not more than 5 percent of his Class I utilization for the month without losing his producer-handler status. No limit was placed on the volume of nonfluid other source products which a producer-handler could purchase. However, it was not contemplated that the producer-handler, typically a family type farm operation, would recombine or reconstitute nonfat dry milk solids into substantial quantities of fluid products.

Under the present provisions of the order, producer-handlers can buy nonfluid, other source milk from any source and reconstitute it into a full range of fluid milk products such as buttermilk and milk drinks. More specifically, some producer-handlers have reconstituted nonfat dry milk and have made filled milk by recombining the fluid skim milk with added ingredients such as vegetable fat, and vitamins. When they do this they obtain an undue pricing advantage compared to regulated handlers. Other handlers incur financial obligations to the pool on unregulated milk used in identical or similar fluid milk products, but producer-handlers are exempt from pooling and incur no obligation to the pool. This financial advantage accruing to producer-handlers under the present terms of the order was not contemplated when the producer-handler exemption was provided. A person who reconstitutes substantial quantities of fluid milk products including filled milk cannot be considered to be disposing of milk of his own farm production and hence should not enjoy the exempt status afforded a farmer who bottles and distributes essentially only milk of his own production.

At the Phoenix hearing, a witness for a producer-handler proposed that a tolerance factor of 25 percent is needed to cover emergencies and the seasonality of production and Class I sales. In this connection, a 1962 decision (27 F.R. 3923), official notice of which is hereby taken, stated that producer handlers must provide for their own seasonal reserves. The 5-percent tolerance now provided is for emergency situations. Moreover, the evidence in this proceeding is that the 5-percent tolerance now provided has been fully adequate.

Accommodating the purchase of milk and milk products (including nonfat dry milk) from pool plants, as proposed by the witness, would not further marketing stability, because it would shift a further burden of surplus to other producers supplying the market to the extent of the reserves otherwise needed by producer handlers. The proposal, therefore, is denied.

The 5-percent tolerance factor now provided under the order applies only to purchases of supplemental bulk milk by producer-handlers from pool plants. It should also include packaged milk products which producer-handlers acquire from pool plant or other order plants for resale as Class I either with or without further processing. Such products would include items such as flavored milk and buttermilk. The 5-percent tolerance factor should also include filled milk, whether made from fluid skim or from reconstituted nonfat dry milk. To implement this, the order should specify that the 5-percent tolerance applies to fluid milk products purchased from pool or other order plants. Filled milk is included in the fluid milk products definition contained herein.

As under the present order, a producer-handler should not be precluded from buying from any source manufactured dairy products such as butter and cheese, which are in a form such that they cannot be reconstituted into fluid milk products. Likewise, the order should continue to provide that such person may not purchase fluid milk products from other dairy farmers or from a nonpool plant without losing his exemption under the order. This may be accomplished by providing that fluid milk products received at the plant of a producer-handler or acquired for route disposition may be derived only from own farm production and fluid milk products transferred from pool plants or other order plants subject

to the aforesaid limitations. Also, producer-handlers may not reprocess or convert nonfluid milk products into a fluid milk product except to increase the nonfat milk solids content above that of the fluid milk products so received.

A witness for some of the producer-handlers operating in the Central Arizona area testified that the 5,000-pound limit on supplemental milk purchases, as proposed by the cooperative association, would effectively eliminate from exemption at least two producer-handlers. This would result because their supplemental purchases of nonfat dry milk which is reconstituted and combined with vegetable fat and other ingredients greatly exceed that amount. He argued that Federal milk orders generally allow "adequate" purchases of supplemental milk from pool plants. Actually, there is no significant difference between the Central Arizona order and other orders in this regard, including the proposed volume limit of 5,000 pounds.

In exceptions, some of the producer-handlers objected strenously to the limitations proposed by the cooperative association and recommended by the Department. Specifically, they objected to the 5,000-pound limit proposed for receipts from pool plants, reiterating that the provision would eliminate their exemption as producer-handlers.

Nevertheless, it is appropriate that a limit be placed on the amount of milk that a producer-handler may receive from pool plants if he is to retain exemption from pricing and pooling of his own production. If producer-handlers could rely on substantial pool supplies to supplement their own production, they would be able to keep all of their own production for Class I use without assuming the burden of their own surplus. The producer-handler maintains control of his milk from its source at the farm until its ultimate disposition. He is, therefore, in position to keep his farm production closely in line with the needs of his fluid milk business. He should assume the burden of maintaining whatever reserve supply of milk is necessary for his fluid operations.

There was no significant controversy over the present provision that a producer-handler's receipts from pool plants be limited to 5 percent of his fluid milk product disposition. There was, however, substantial protest with respect to the provision that such receipts not exceed 5,000 pounds monthly. The exceptors are producer-handlers of relatively large production. They should be expected to rely on their own production for reserve supplies. However, an occasional purchase of a small quantity from pool plants should be permitted to cover possible emergencies.

Producer-handlers are purchasing supplemental milk from pool plants within the limits now prescribed by the order. In fact, a witness for two producer-handlers with the largest volumes testified that they contemplate no need to increase supplemental purchases of bulk milk from pool plants. The additional provision that such purchases shall not exceed 5,000 pounds per month is necessary to insure that producer-handlers do not obtain an undue price advantage compared to regulated handlers in the use of nonfat dry milk reconstituted into fluid milk products.

It is concluded that a volume limitation of 5,000 pounds should apply whenever 5 percent of a producer-handler's fluid milk product disposition exceeds that figure. Accordingly, under the producer-handler definition provided herein, a producer-handler's total disposition of fluid milk products may not exceed his own farm production, plus fluid milk products obtained by transfer from pool plants or other order plants in an amount not to exceed 5 percent of his total fluid milk product disposition for the month or 5,000 pounds, whichever is less; plus the skim milk equivalent of nonfat milk solids used to increase the total solids content of fluid milk products.

Exceptions to the revised recommended decision were filed on behalf of certain producer-handlers in the market. Their arguments reiterated the position previously taken that a producer-handler should not lose his status as such because he purchased substantial quantities of milk not of his own production or because he reconstituted skim milk for use in fluid milk products, specifically filled milk. For the reasons set forth above, this portion of the exception is denied.

They further argued that the Secretary has no authority to classify, price or in any way regulate fluid milk products (specifically filled milk) which are made by the reconstitution of nonfat milk solids with water. For the reasons set forth elsewhere in this decision, this portion of the exceptions is also denied.

4. *Classification provisions.* The findings and conclusions pertaining to the classification and pricing of filled milk which resulted from evidence introduced at the Memphis hearing, as set forth in the decision issued simultaneously herewith, are hereby adopted as the findings and conclusions of this decision.

Exceptions were filed on behalf of one consumer group and by a few consumers as individuals indicating a fear that the amendments would increase substantially the retail price of filled milk. The amendments do not affect the present application of the order to the handling of filled milk except to extend regulation to persons now classified as producer-handlers if they reconstitute skim milk from nonfat milk solids for use in fluid milk products including filled milk. The amendment in no way affects the cost to regulated handlers of filled milk relative to whole milk or other fluid milk products.

At the Phoenix hearing, the cooperative assoication, which represents a majority of the producers on the market, proposed that the order be amended to provide that any milk product not specifically designated as Class II milk or as Class III milk be automatically classified as Class I milk. The main purpose of this proposal was to make certain that fluid milk products made from skim milk or from reconstituted nonfat milk solids and in which nonmilk fat has been substituted for the butterfat, are classified as Class I milk.

In this connection, it is noted that the Memphis decision provides that filled milk be defined separately from the fluid milk product definition and that the product "filled milk" be included in the fluid milk product definition. Accordingly, the fluid milk product definition of Order No. 131 is amended similarly.

Another proposal by the proponent was that the provision that excludes from Class I classification, sterilized products in hermetically sealed containers be clarified. The purpose of such clarification would be to indicate specifically the type of containers that would be covered by the exclusion. It would distinguish, for example, between the use of skim milk and butterfat in evaporated milk packaged in metal cans and fluid products which have the characteristics of fresh products and are packaged in paper containers.

Substantial changes in marketing practices concerning the distribution of sterilized products have occurred within the dairy industry since the 1967 hearing at Phoenix. The testimony concerning this proposal was limited to glass and metal containers and thus may not reflect current marketing conditions. Accordingly, the proposal is denied.

Proponent also proposed that yogurt be classified as Class I milk because: (1) It is similar in form and use to sour cream and buttermilk, (2) it is required to be labeled "Grade A", (3) handlers depend on the availability of locally inspected milk for its manufacture, and (4) all yogurt sold in the market is manufactured in the same plants that process and package fluid milk products.

Yogurt has been classified in the lowest price class since the inception of the order in 1955. The principal reason advanced by proponent for now classifying yogurt as Class I milk is that it is required to be labeled as Grade A milk by the local health authorities.

The decision in which yogurt was included in the lowest price class (20 F.R. 6344, official notice of which is hereby taken) indicated that the applicable health ordinances for the marketing area did not require yogurt to be made exclusively from milk approved by local health authorities.

The record fails to establish that marketing conditions indicated in 20 F.R. 6344 with respect to yogurt have changed since the matter was last reviewed. Hence, it is concluded that the classification of yogurt should not be changed at this time.

5. *Transfer provisions.* The provision requiring a "Grade C" label for cream transferred outside the market for manufacturing should be revised.

A witness for the cooperative association in the market testified that the present provision impedes the sale of cream from the pool plant operated by the association to ice cream manufacturers some distance from the market.

The quality implication of the present "Grade C" labeling provision is apparent, and should be changed. Yet, some provision is needed to prevent such cream from being used in fluid milk products. In this connection, it should be sufficient to provide that cream so transferred with certification designating "manufacturing use only" may be classified as Class III milk.

6. *Location differentials at Tucson.* The zone location differential at Tucson, Ariz., should be lowered to 12 cents per hundredweight to reflect procurement changes in the area. The zone location differential of plus 30 cents per hundredweight now applicable at Tucson has not been changed since the order was promulgated in 1955.

Under the order, the Class I and uniform prices are increased 30 cents per hundredweight over the f.o.b. market price for milk received from producers at pool plants located at Tucson. Four pool plants are located at Tucson, and two of them purchase milk from producers. The purpose of the zone location differential is to encourage the movement of milk to the Tucson segment of the market from the major milk producing segment of the milkshed (Maricopa County). The changes herein provided are the same as those proposed by producers.

One of the handlers opposed the proposal to amend the provision. He criticized proponent's proposal because it did not give sufficient weight to production costs in the Tucson area. He contended that production costs are relatively high in the area and that this justifies a continuation of the plus 30-cent zone differential now provided.

In this connection, when the order was promulgated in 1955 the 30-cent higher price at Tucson was based primarily on the actual cost of hauling milk from the main segment of the Central Arizona milkshed. Official notice is hereby taken of the decision containing the applicable findings (20 F.R. 7695).

Since the promulgation of the order and the establishment of the 30-cent differential between Phoenix and Tucson, a marked change has occurred in the pattern of the milk supply for the market.

Average daily production per farm has increased from 1,807 pounds per day in 1956 to 6,652 pounds per day in 1966. Thus, increased production per farm and resultant fewer stops per truckload together with a vastly improved highway system have resulted in a lower per hundredweight cost for transporting milk.

The major consideration in reviewing the differential between Tucson and Phoenix is the substantial increase that has taken place in the production of milk in the area lying between Phoenix and Tucson. This is particularly true in the area of Casa Grande in the northern part of Pinal County. The increase in production in this locality is, of course, in part attributable to the very substantial increase in production per farm which has occurred throughout the whole milkshed. The major factor, however, has been the relocation of farms which has occurred. Some producers formerly located in the vicinity of Phoenix have moved their herds to new locations between the two cities as the expanding metropolitan area of Phoenix has encroached upon the farms formerly surrounding that city.

A substantial proportion of the milk of its member producers is hauled by the cooperative association in its own trucks. From the production area about Casa Grande, the hauling rate from the farm to plants in Tucson is 30 cents per hundredweight. From the farm to Phoenix the hauling rate 18 cents per hundredweight. Thus, a producer whose milk is delivered to Tucson has a net return at the farm 18 cents higher than his neighbor whose milk is delivered to a Phoenix plant.

Under today's conditions, the 30 cent higher price at Tucson, instead of equalizing prices between Phoenix and Tucson producers, creates a serious disparity in net farm prices in the production area developing between the two cities. As production shifts to this location a continuation of the present differential could result in a dislocation of supplies between the two major segments of the market.

It is concluded that the present zone location differential of plus 30 cents which is applicable at Tucson no longer reflects current marketing conditions for the area. A substantial proportion of the milk supply for the Tucson area is no longer identified with the main segment of the milkshed as previously. A differential which more reasonably reflects the prevailing cost of moving milk to Tucson should be provided. This can be done by providing a zone location differential of plus 12 cents over the f.o.b. Class I and uniform prices for producer milk delivered to a pool plant at Tucson.

As a corollary change, the Class I differential should be increased 2 cents. This will maintain in the pool approximately the same amount of money represented in lowering the zone location differential as proposed, and will help to assure the market of an adequate supply of milk for fluid use.

One handler excepted to the change in the location differentials applicable to Class I milk and to the increase of two cents per hundredweight in the Class I price applicable at Phoenix.

It was the position of this handler that while reducing from 30 cents to 12 cents the difference between the applicable prices at Phoenix and Tucson might be appropriate with respect to uniform prices to producers, no change should be made in the relationship of Class I prices.

The distance from Phoenix to Tucson is 120 miles. From the edges of the respective metropolitan areas it is substantially less. In view of the distance involved and the improved highway system that has developed it must be concluded that the 12-cent location differential adopted herein much more closely approximates the actual cost of moving fluid milk products between Phoenix and Tucson than does the 30-cent location differential which was incorporated in the order when it was originally issued in 1955. Accordingly, this exception is denied.

7. *Obligations of a handler operating a partially regulated distributing plant.* The findings and conclusions of the Memphis decision concerning the obligation of a partially regulated distributing plant that distributes filled milk in the marketing area are hereby adopted. If the filled milk is made from reconstituted nonfat dry milk, the obligation is at the rate of the difference between the Class I and Class III prices. If the filled milk is made from fresh skim milk, the handler has the option of making a payment into the producer-settlement fund on the quantity of such milk disposed of in the marketing area at a rate equal to the difference between the Class I and the uniform prices.

At the Phoenix hearing, the principal cooperative serving the market proposed that the rate charged a partially regulated distributing plant on sales of fluid milk products in the marketing area be changed from the difference between the Class I and uniform prices to the difference between the Class I and Class III prices.

The order now provides that an unregulated distributor who disposes of some fluid milk products on routes in the regulated marketing area shall be accorded four options as a means of integrating his plant operations into the market's regulatory scheme.

(a) He may show that payment for his total dairy farm supply has been at least as much as if his plant were fully regulated;

(b) He may show that he has purchased Class I milk priced under some Federal order in an amount at least equivalent to his total Class I sales within the regulated area;

(c) He may make a payment into the producer-settlement fund on the quantity of Class I sales made in the regulated market at a rate equal to the difference between the Class I price and the blend price for the regulated market; or

(d) Any combination of (b) and (c).

Proponent contends that the amendment is needed because substantially lower-priced milk from California is displacing fluid milk sales to military bases by Central Arizona handlers.

The marketing conditions involved in this issue are comparable to those described in the decision issued by the Department following the Lehigh Valley case. Consequently, official notice of that decision is hereby taken (29 F.R. 9218). The decision indicated that a rate of payment representing the difference between the Class I price and the surplus price might be justified if it were found that the unregulated milk sold in a Federal order marketing area carries only a surplus value.

We may not conclude from the record that such is the case in the proceeding. An exhibit was introduced by proponent indicating that the prices paid by one Los Angeles, Calif., handler for milk sold to military bases averaged $4.22 per hundredweight in 1966 for milk testing 3.5

percent butterfat content. This was 56 cents per hundredweight higher than the Central Arizona Class III price which averaged $3.66 for 1966. The prices paid by another Los Angeles handler for "military milk" averaged 69 cents per hundredweight higher than Central Arizona Class III prices, while those paid by a third Los Angeles handler averaged 72 cents higher.

However, none of these prices was said by proponent to represent prices paid by Los Angeles handlers for milk sold to military bases in Arizona. There is no indication where the milk was actually sold.

Another exhibit indicated the Central Arizona Class III and blend prices and similar prices paid to 40 producers shipping milk to the Los Angeles market. However, the "blend" price for the Los Angeles market represents a blend price of the handler receiving the milk and does not represent a "blend" price for the market.

For 1965, the Class III prices paid for milk delivered by the 40 Los Angeles producers averaged 59 cents per hundred weight higher than the average of the Central Arizona Class III prices for the same year (both for milk testing 3.5 percent butterfat). For 1966, the Class III prices for the Los Angeles area averaged 22 cents per hundredweight higher than the Central Arizona Class III price.

For 1965 and 1966 the blend prices of the Los Angeles producers averaged 3 cents and 26 cents per hundredweight lower, respectively, than the Central Arizona blend prices for the corresponding years.

These were the only California price data entered in evidence, and they cannot be specifically identified with milk sold in Arizona. Moreover, California milk that is sold to military bases in the Central Arizona marketing area (principally at Yuma) comes from the San Diego market and no price data were introduced concerning that area.

The price differences between Central Arizona regulated handlers and California unregulated handlers, which is the basis of this issue is not centered, as proponent contends, on the removal of California milk price regulation from sales to military bases. As indicated, proponent's price data were for the Los Angeles market whereas the milk for the military base at issue (near Yuma) comes from San Diego. The prices quoted for military milk are substantially above the Class III prices established by the California regulation, and the California Class III prices are substantially higher than Central Arizona Class III prices.

There is a substantial difference developing between the Central Arizona Class I prices and the Class I prices established by the California Milk Stabilization Regulation for the Los Angeles market. For 1965, Central Arizona Class I prices averaged 27 cents per hundredweight higher than Los Angeles Class I prices. For 1966, Central Arizona Class I prices averaged 78 cents higher than the Class I prices for the Los Angeles market. Thus, Central Arizona handlers might expect to meet increased competition from partially regulated handlers on packaged milk from Los Angeles for outlets, not military in the marketing area.

It is concluded that milk for Class I use in the Central Arizona marketing area is not being purchased, as proponent contends, by unregulated California handlers for prices equal to or lower than Central Arizona Class III prices. The proposal, therefore, is denied.

Order[1] Amending the Order Regulating the Handling of Milk in the Central Arizona Marketing Area

§ 1131.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agree-

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

ments and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Central Arizona marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the central Arizona marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby amended, as follows:

1. In § 1131.7, the introductory text immediately preceding paragraph (a) is revised as follows:

§ 1131.7 Producer.

"Producer" means any person, other than a producer-handler as defined in any order (including this part) issued pursuant to the Act, who produces milk pursuant to the requirements specified in paragraph (a) or (b) of this section, and whose milk is received directly from the farm at a pool plant, or is diverted as producer milk pursuant to § 1131.13. The term "producer" shall not include a person with respect to milk diverted to a pool plant from an other order plant if such person retained producer status under the other order and if the operators of both the diverting plant and the plant to which diverted have requested Class III classification in their reports of receipts and utilization filed with the market administrators of the respective orders.

* * * * *

2. In § 1131.8, pargarphs (a) and (b) are revised to read as follows:

§ 1131.8 Pool plant.

"Pool plant" means any milk plant, except the plant of a producer-handler or a plant exempt pursuant to § 1131.61:

(a) Approved by a duly constituted state or municipal health authority for the receipt or processing of Grade A milk or which supplies processed milk to an agency of the United States Government located within the marketing area, from which during the month:

(1) There are disposed of on routes fluid milk products, except filled milk, equal to at least 50 percent of the total receipts at the plant (i) of milk qualified by inspection to become producer milk pursuant to § 1131.13(a), and (ii) from other milk plants and a cooperative association acting in the capacity of a handler pursuant to § 1131.10(c) in the form of fluid milk products, except filled milk, qualified for fluid consumption; and

(2) There are disposed of on routes in the marketing area fluid milk products, except filled milk, in a volume not less than 25 percent of such receipts and also greater than an average of 600 pounds per day.

(b) Any plant which ships fluid milk products, except filled milk, approved by any health authority having jurisdiction in the marketing areas as eligible for distribution under a Grade A label in a volume not less than 50 percent of its receipts of milk (from dairy farmers who would be producers if this plant qualifies as a pool plant) in the current month during the period of July through October or 20 percent in the current month during the period of November through June to a plant specified in paragraph (a) of this section: *Provided,* That if a plant qualifies in each of the months of July through October in the manner prescribed in this section such plant shall upon written application to the market administrator on or before October 31 following such compliance be designated as a pool plant until the end of the following June.

* * * * *

3. In § 1131.9, the introductory text preceding paragraph (a), and paragraph (d) are revised to read as follows:

§ 1131.9 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

* * * * *

(d) "Unregulated supply plant" means a nonpool plant from which fluid milk products are moved during the month to a pool plant and which is not an other order plant nor a producer-handler plant.

4. Section 1131.11 is revised to read as follows:

§ 1131.11 Producer-handler.

"Producer-handler" means:

(a) Any person who is both a dairy farmer and the operator of a plant from which fluid milk products are disposed of in the marketing area on routes and who:

(1) Receives at his plant, or acquires for disposition on routes, fluid milk products only from:

(i) His own farm production, and

(ii) Fluid milk products obtained by transfer from pool plants or other order plants in an amount not to exceed 5 percent of his total fluid milk product disposition for the month or 5,000 pounds, whichever is less;

(2) Does not reprocess or convert milk products into a fluid milk product except to increase the nonfat milk solids content above that of the fluid milk product received;

(3) Furnishes proof satisfactory to the market administrator that:

(i) The maintenance, care, and management of all the dairy animals and other resources necessary to produce the entire amount of milk handled (other than that received from regulated plants) is the personal enterprise of and at the personal risk of such person in his capacity as a producer, and

(ii) The operation of such plant is the personal enterprise of and at the personal risk of such person in his capacity as a handler.

(b) A governmental agency that operates a milk plant, except that a plant operated by such agency shall be a pool plant if bulk milk is delivered during the month by such governmental agency to another plant that is a pool plant and a written request is filed by the agency with the market administrator asking that its plant be considered a pool plant. If such a plant is made a pool plant at the request of the governmental agency for 1 month and thereafter resumes the status of a nonpool plant, it shall not be eligible for pool plant status again until it has been a nonpool plant for 12 consecutive months.

5. Section 1131.15 is revised to read as follows:

§ 1131.15 Fluid milk product.

"Fluid milk product" means milk (including frozen or concentrated milk), cream (sweet or sour), skim milk, buttermilk, flavored milk, flavored milk drinks, filled milk, or any mixture in fluid form of milk, skim milk or cream (including such products made by reconstituting or recombining concentrated or dehydrated milk constituents with water), with or without other ingredients. This definition shall not include sterilized products packaged in hermetically sealed containers, a product which contains 6 percent or more nonmilk fat (or oil), eggnog, yogurt, ice cream mix or aerated plastic or frozen cream.

6. Section 1131.16 is revised to read as follows:

§ 1131.16 Route.

"Route" means any delivery to retail or wholesale outlets (including delivery by a vendor or a sale from a plant or a plant store) of a fluid milk product classified as Class I milk pursuant to § 1131.41(a), other than a delivery to a plant described in § 1131.8(a).

7. A new § 1131.18 is added to read as follows:

§ 1131.18 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers,

emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

8. In § 1131.22, paragraph (i) is revised to read as follows:

§ 1131.22 Duties.

* * * * *

(i) Verify all reports and payments of each handler by audit, as necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and by such other means as are necessary;

* * * * *

9. In § 1131.30, paragraphs (b) and (c) are revised to read as follows:

§ 1131.30 Reports of receipts and utilization.

* * * * *

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including a separate statement of the route disposition of Class I milk outside the marketing area, and a statement showing separately in-area and outside area route disposition of filled milk.

(c) Each handler specified in § 1131.10 (d) who operates a partially regulated distributing plant shall report as required in this section, except that receipts of Grade A milk from dairy farmers shall be reported in lieu of producer milk; such report shall include a separate statement as to the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area.

10. In § 1131.44, paragraph (d), and subparagraph (5) of paragraph (g) are revised to read as follows:

§ 1131.44 Transfers.

* * * * *

(d) As Class I milk, if transferred or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant, located outside the marketing area and outside Imperial County, Calif., except that cream may be classified as Class III if prior notice is given to the market administrator, each container is labeled by the transferor as "cream for manufacturing use only" and such shipment is so invoiced.

* * * * *

(g) * * *

(5) For purposes of this paragraph, if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and skim milk and butterfat allocated to another class shall be classified as Class III; and

11. In § 1131.46, subparagraphs (2), (3), (4), (7), and (8) of paragraph (a) are revised to read as follows:

§ 1131.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1131.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk classified as Class III pursuant to § 1131.41(c)(5);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (3)(v) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established, and receipts of fluid milk products from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual handler pooling, to the extent that reconstituted skim is allocated to Class I at the transferor plant;

(4) Subtract, in the order specified below, in sequence beginning with Class III from the pounds of skim milk remaining in Class II and III but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant, that were not subtracted pursuant to subparagraph (3)(iv) of this paragraph:

(*a*) For which the handler requests Class III utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool plants, from cooperative handlers pursuant to § 1131.10(c), and receipts in bulk from other order plants, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph;

(ii) Receipts of fluid milk products in bulk from an other order plant, that were not subtracted pursuant to subparagraph (3)(v) of this paragraph, in excess of similar transfers to such plant, if Class III utilization is requested by the handler and the operator of the transferor plant requests the lowest class utilization under the other order;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (3)(iv) or (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraphs (3)(v) or (4)(ii) of this paragraph:

(i) In series beginning with Class III, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1131.22(1) or the percentage that Class II and Class III utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

§ 1131.51 [Amended].

12. In § 1131.51(a), the figure "$2.30" is revised to "$2.32".

13. In § 1131.53, paragraph (c) is revised to read as follows:

§ 1131.53 Location adjustments to handlers.

* * * * *

(c) For other source milk to which a location adjustment is applicable and for milk received from producers at a plant located in Pima County, Ariz., and which is classified as Class I milk, the price computed under § 1131.51(a) shall be increased 12 cents.

14. Section 1131.61 is revised to read as follows:

§ 1131.61 Plants subject to other Federal orders.

A plant specified in paragraph (a) or (b) of this section shall be exempted from all the provisions of this part, except as specified in paragraphs (c) and (d):

(a) Any plant qualified pursuant to § 1131.8(a) which disposes of a lesser volume of Class I milk, except filled milk, in the Central Arizona marketing area than in a marketing area where the handling of milk is regulated pursuant to another order issued pursuant to the Act, and which is subject to the classification and pricing provisions of such other order is exempted;

(b) Any plant qualified pursuant to § 1131.8(b) for any portion of the period November through June, inclusive, that

the milk of producers at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act and the Secretary determines that such plant should be exempted from this part.

(c) Each handler operating a plant described in paragraph (a) or (b) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, report to the market administrator at such time and in such manner as the market administrator may require (in lieu of reports pursuant to §§ 1131.30 and 1131.31) and allow verification of such reports by the market administrator; and

(d) Each handler operating a plant specified in paragraph (a), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area.

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price under this part applicable at the location of the other order plant and subtract its value at the Class III price.

15. Section 1131.62 is revised to read as follows:

§ 1131.62 Obligations of handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant except one from which less than an average of 600 pounds per day of Class I milk is disposed of on a route(s) in the marketing area shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to §§ 1131.30(c) and 1131.31(c) the information necessary to compute the amount specified in paragraph (a) of this section, he shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1131.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class III (or Class II) milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. There shall be included in the obligation so computed a charge in the amount specified in § 1131.70(f) and a credit in the amount specified in § 1131.82 (b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph; and

* * * * *

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class III price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph a value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

16. In § 1131.70, paragraph (e) is revised to read as follows:

§ 1131.70 Computation of the net pool obligation of each pool handler.

* * * * *

(e) Add an amount equal to the difference between the value at the Class I price applicable at the pool plant and the value at the Class III price with respect to skim milk and butterfat in other source milk subtracted from Class I pursuant to § 1131.46(a)(3) and the corresponding step of § 1131.46(b) except that for receipts of fluid milk products assigned to Class I pursuant to § 1131.46 (a)(3)(iv) and (v) and (b) the Class I price shall be adjusted to the location of the transferor plant;

* * * * *

17. Section 1131.81 is revised to read as follows:

§ 1131.81 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1131.82, 1131.61, and 1131.62 and out of which he shall make all payments pursuant to § 1131.83: *Provided*, That any payments due to any handler shall be offset by any payments due from such handler.

17a. In § 1131.87, paragraphs (a) and (d) are revised to read as follows:

§ 1131.87 Termination of obligations.

The provisions of this section shall apply to any obligations under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the skim milk and butterfat, involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation,

(2) The month(s) during which the skim milk and butterfat, with respect to which the obligation exists, were received or handled; and

* * * * *

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received if an underpayment is claimed, or 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler, if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

FISHING VESSEL CONSTRUCTION-DIFFERENTIAL SUBSIDY PROCEDURES

Furnishing of Information

OCTOBER 10, 1969.

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the United States Fishing Fleet Improvement Act (46 U.S.C. 1401-1413), as amended, it is proposed to amend 50 CFR Part 256 as set forth below. The aforesaid Act and the contracts executed in connection therewith contain certain requirements regarding, among other things, the fishery, landing of the catch, citizenship or domicile of the vessel employees, and documentation of the vessel. In the past, enforcement of these requirements has been on an individual basis with necessary information being requested from each vessel owner individually. The purpose of this regulation is to regularize the furnishing of this information by notifying the public broadly of the requirement and providing for it to be furnished by affidavit without individual requests. Further, in order to determine, among other things, the profitability of the fishery and to assist the Bureau in determining which fisheries can benefit the most from the limited amounts of subsidy funds available, all those persons having a Subsidy Contract shall be required to furnish annual operating statements. This information will be treated as confidential and will be released, if at all, only in a consolidated form so as not to reveal individual operations.

This proposed procedure relates to matters which are exempt from the rule making requirements of the Administrative Procedures Act (5 U.S.C. 1003); however, it is the policy of the Department of the Interior that, whenever practicable, the rule making requirements be observed voluntarily. Accordingly, interested persons may submit in duplicate, written comments, suggestions, or objections with respect to the proposed amendments to the Director, Bureau of Commercial Fisheries, Department of the Interior, Washington, D.C. 20240, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

A new § 256.11 is added to read as follows. "During the term of the contract, an affidavit will be submitted to the Secretary by the owner or his authorized agent, of each vessel constructed with the aid of a subsidy paid under the Act within 90 days of the end of each calendar year, or at such other times as the Secretary may require, providing information on the citizenship and domicile of all vessel employees, the catch of the vessel by species, ports in which the catch was landed and assurance that the vessel has been continuously documented as a vessel of the United States during the preceding calendar year or period since the last previous affidavit was filed. It should also contain the basis for such information and when necessary include supporting documents. In addition, within 90 days of the close of each fiscal year, an operating statement shall be furnished to the Bureau."

DAYTON L. ALVERSON,
Acting Director,
Bureau of Commercial Fisheries.

CONTROL OF ELECTRONIC PRODUCT RADIATION

Proposed Performance Standard for Television Receivers

Pursuant to the authority contained in section 358 of the Radiation Control for Health and Safety Act of 1968 (42 U.S.C. 263f) and under the authority delegated to the Commissioner of the Environmental Control Administration (33 F.R. 9909), it is proposed to add Subpart C to Part 78 of Title 42, Code of Federal Regulations as set forth below.

The proposed new subpart would establish general provisions regarding certification and labeling of electronic products to which Federal standards are applicable and also would prescribe a performance standard applicable to the emission of x-radiation from television receivers.

The development of a standard applicable to television receivers commenced after studies by the Bureau of Radiological Health revealed that television receivers could emit excessive radiation and that a performance standard was necessary for the protection of the public health and safety. In the course of consulting with persons and organizations, as required by section 358 of the Act, it was determined that virtually all television receivers are designed so that the exposure rate at any readily accessible point 5 centimeters from the surface of the receiver does not exceed 0.5 milliroentgen per hour (mR/hr) under normal operating conditions. This 0.5 mR/hr level was the exposure limit contained in an interim standard adopted by the National Council on Radiation Protection and Measurements in November 1959. Further available information indicated that actual exposure rates from receivers designed to meet this level were generally well within this limit. However consultations with appropriate agencies and with the Technical Electronic Product Radiation Safety Standards Committee indicated that a lower standard is not practical because it is not possible to make reliable measurements of levels substantially below 0.5 mR/hr at the present time. It was concluded that the promulgation of a 0.5 mR/hr limit as a legally enforceable standard, with the added requirements that the tests on receivers be made under the most adverse conditions, viz., at maximum rated voltage, maladjustment of user and service controls and during periods of failure of critical components or circuits, would result in actual emissions substantially lower than the maximum limit allowed by the standard. Careful consideration of all factors, including those specified in section 358 of the Act, led to this proposal which is reasonably attainable and technically feasible and will reduce electronic product radiation from television receivers to the lowest level practicable at this time, and will protect the public

health and safety. This standard will be reviewed as technology improves and the radiation limit will be reduced accordingly.

Discussions with representatives of the public, other governmental agencies and the industry affected, have resulted in a finding that the standard should be applicable to television receivers manufactured after January 1, 1970. The need for the protection of the public health and safety, together with the ability of industry to meet the standard, constitutes good cause for a finding that an early effective date is in the public interest. Accordingly, this amendment shall become effective on the date of its republication in the FEDERAL REGISTER and will be applicable to television receivers manufactured after January 1, 1970.

Inquiries may be addressed and data, views, and argument may be submitted in writing to the Director, Bureau of Radiological Health, 12720 Twinbrook Parkway, Rockville, Md. 20852. All relevant material received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered.

The amendments to Part 78 would provide as follows:

Subpart C—Performance Standards for Electronic Products

GENERAL PROVISIONS

Sec.
78.200 Scope.
78.201 Certification.
78.202 Labeling.
78.203 Special test procedures.

PERFORMANCE STANDARD

78.210 Performance standard for television receivers.

AUTHORITY: The provisions of this Subpart C issued under sec. 358, 82 Stat. 1177; 42 U.S.C. 263f.

Subpart C—Performance Standards for Electronic Products

GENERAL PROVISIONS

§ 78.200 Scope.

The standards listed in this subpart are prescribed pursuant to section 358 of the Radiation Control for Health and Safety Act of 1968 (42 U.S.C. 263) and are applicable to electronic products as specified herein, to control electronic product radiation from such products. Standards so prescribed are subject to revision and additional standards may be prescribed as are determined necessary for the protection of the public health and safety.

§ 78.201 Certification.

(a) Every manufacturer of an electronic product to which is applicable a standard in effect under this subpart, shall furnish to the dealer or distributor at the time of delivery of such product the certification that such product conforms to all applicable standards under this subpart.

(b) The certification shall be in the form of a label or tag permanently affixed to such product. In the case of products to which it is not feasible to affix the label or tag, upon application therefor, the Secretary may approve other means by which a manufacturer may provide the certification required by this section.

(c) Such certification shall be based upon a test, in accordance with the standard, of the individual unit to which it is attached or upon a testing program for quality control which is in accordance with good manufacturing practices. The Secretary may disapprove such a testing program on the grounds that it does not assure the adequacy of safeguards against hazardous electronic product radiation or that it does not assure that electronic products comply with the standard prescribed under this subpart.

§ 78.202 Labeling.

Every manufacturer of an electronic product to which is applicable a standard under this subpart, shall have permanently affixed to such product a label or tag which sets forth:

(a) The full name and address of the manufacturer of the product: Abbreviations such as "Co.," "Inc.," or their foreign equivalents and the first and middle initials of individuals may be used. Where products are sold under a name other than that of the manufacturer of the product, the label may set forth the name of the individual or company under whose name the product was sold, provided such individual or company has previously supplied the Secretary with sufficient information to identify the manufacturer of the product.

(b) The month, year, and place of manufacture: This information may be expressed in code provided the manufacturer has previously supplied the Secretary with the key to such codes.

(c) The tag or label shall be located on the product so as to be visible when the product is fully assembled for use.

§ 78.203 Special test procedures.

The Secretary may, on the basis of a written application therefor by a manufacturer, authorize test programs other than those set forth in the standard for an electronic product if he determines that such products are not susceptible to satisfactory testing by the procedures set forth in the standard and that the alternative test procedures assure compliance with the standard.

PERFORMANCE STANDARD

§ 78.210 Performance standard for television receivers.

(a) *Applicability.* The provisions of this section are applicable to television receivers manufactured subsequent to January 1, 1970.

(b) *Requirements*—(1) *Exposure rate limit.* Radiation exposure rates produced by a television receiver shall not exceed 0.5 milliroentgens per hour at a distance of five (5) centimeters from any point on the external surface of the receiver, as measured in accordance with this section.

(2) *Measurements.* Compliance with the exposure limit defined in subparagraph (1) of this paragraph shall be determined by measurements made with an instrument, the radiation sensitive volume of which shall have a cross section parallel to the external surface of the receiver with an area of ten (10) square centimeters and no dimension larger than five (5) centimeters. Measurements made with instruments having other areas must be corrected for spatial nonuniformity of the radiation field to obtain the exposure rate average over a ten (10) square centimeter area.

(3) *Test conditions.* All measurements shall be made with the receiver displaying a usable picture and with the power source at the maximum rated voltage of the receiver, and as applicable, under the following specific conditions:

(i) On television receivers manufactured subsequent to January 1, 1970, measurements shall be made with all user controls adjusted so as to produce maximum x-radiation emissions from the receiver.

(ii) On television receivers manufactured subsequent to June 1, 1970, measurements shall be made with all user controls and all service controls adjusted to combinations which result in the production of maximum x-radiation emissions.

(iii) On television receivers manufactured subsequent to June 1, 1971, measurements shall be made under the conditions described in subdivision (ii) of this subparagraph, together with conditions identical to those which result from that component or circuit failure which maximizes x-radiation emissions.

(4) *Critical component warnings.* Appropriate warnings of those components which tend to significantly increase x-radiation emission through failure, adjustment, or improper replacement shall be either inscribed on or affixed to the component or included in instructions permanently affixed to or inscribed on the receiver.

(c) *Definitions.* (1) "External surface" means the cabinet or enclosure provided by the manufacturer as part of the receiver. If a cabinet or enclosure is not provided as part of the receiver, the external surface shall be considered to be a hypothetical cabinet, the plane surfaces of which are located at those minimum distances from the chassis sufficient to enclose all components of the receiver except that portion of the neck and socket of the cathode-ray tube which normally extends beyond the plane surfaces of the enclosure.

(2) "Maximum rated voltage" means 130 root mean square volts if the receiver is intended to operate from nominal 110 to 120 root mean square volt power sources. If the receiver is intended to operate from a power source having some voltage other than from nominal 110 to 120 root mean square volts, maximum rated voltage means 110 percent of the nominal root mean square voltage specified by the manufacturer for the power source.

(3) "Service controls" means all of those controls on a television receiver

provided by the manufacturer for purposes of adjustment, which under normal usage, are not accessible to the user.

(4) "Television receiver" means an electronic product designed to receive and display a television picture through broadcast, cable, or closed circuit television.

(5) "Usable picture" means a picture in synchronization and transmitting viewable intelligence.

(6) "User controls" means all of those controls on a television receiver, provided by the manufacturer for purposes of adjustment, which on a fully assembled receiver under normal usage, are accessible to the user.

POCATELLO LIVESTOCK AUCTION ET AL.

Deposting of Stockyards

It has been ascertained, and notice is hereby given, that the livestock markets named herein, originally posted on the respective dates specified below as being subject to the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), no longer come within the definition of a stockyard under said Act and are, therefore, no longer subject to the provisions of the Act.

Name, location of stockyard, and date of posting

Pocatello Livestock Auction, Pocatello, Idaho, Nov. 20, 1964.
Humboldt Livestock Exchange, Inc., Humboldt, Iowa, Mar. 12, 1957.
Hastings Livestock Market Center, Hastings, Nebr., May 22, 1959.
Bell's Cart and Tack Company, Mechanicsburg, Pa., May 12, 1967.
Hatfield Livestock Market, Inc., Hatfield, Pa., Nov. 19, 1959.

Notice or other public procedure has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impracticable and contrary to the public interest. There is no legal warrant or justification for not deposting promptly a stockyard which is no longer within the definition of that term contained in the Act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

CIVIL AERONAUTICS BOARD

[Docket No. 14235; Order 69-10-58]

AIR WEST, INC., ET AL.

Order Regarding Promotional Area-Fare Tariffs for Foreign Visitors

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 13th day of October 1969.

Agreement among certain air carriers concerning promotional area-fare tariffs for foreign visitors; Docket 14235, Agreement CAB 17281-A6.

On September 12, 1969, Air West, Inc., on behalf of itself and certain other air carriers [1] filed with the Board an amendment of an existing agreement concerning the "Visit USA" tariff. The existing agreement was first approved by Order E-19961, of August 29, 1963, and by subsequent amendments the carriers have continued this agreement in effect through December 31, 1969.[2] By the instant amendment the carriers would extend the expiration date on the current "Visit USA" tariff for 1 year, to December 31, 1970, and would change the name of Trans-Texas Airways, Inc., to Texas International Airlines, Inc.

In view of the nature of this amendment, and for the same reasons as were stated by the Board in Order E-19961, the Board does not find Agreement CAB 17281-A6 to be adverse to the public interest or in violation of the Act.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 412, and 414 thereof:

It is ordered, That:

1. Agreement CAB 17281-A-6 is approved.

2. Any air carrier party to the agreement, or any interested person may within 10 days from the date of service of this order submit statements in writing containing reasons deemed appropriate, together with supporting data in support of or in opposition to the Board's action herein. An original and 19 copies of the statement should be filed with the Board's Docket Section. The Board may, upon consideration of any statements filed, modify or rescind its action herein by subsequent order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Secretary.

[Dockets Nos. 21415, 21417; Order 69-10-53]

COMMUTER AIRLINES, INC.

Order To Show Cause Regarding Establishment of Service Mail Rates

Issued under delegated authority October 10, 1969.

The Postmaster General filed notices of intent September 11, 1969, pursuant to 14 CFR Part 298, petitioning the Board to establish for the above-captioned air taxi operator final service mail rates per great circle aircraft mile for the transportation of mail by aircraft as follows:

Docket	Between	Cents
21415.....	Binghamton and Syracuse, N.Y.....	63
21417.....	Binghamton, N.Y., and Newark, N.J., via Scranton, Pa.	63

No protest or objection was filed against the proposed services during the time for filing such objections. The Postmaster General states that the Department and the carrier agree that the above are fair and reasonable rates of compensation for the proposed services and submits the cost data which Commuter presented with its bid. We note that this financial support reflects some expenses which were not recognized by the Post Office Department in negotiating the agreed rate. The Postmaster General believes these services will meet postal needs in the market. He states the air taxi plans to initiate mail service with twin-engine Beech Model 18 aircraft equipped for all-weather operation.

It is in the public interest to fix, determine, and establish the fair and reasonable rates of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the notice of intent and other matters officially noticed, it is proposed to issue an order [1] to include the following findings and conclusions:

The fair and reasonable final service mail rates per great circle aircraft mile to be paid to Commuter Airlines, Inc., entirely by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be as follows:

Docket	Between	Cents
21415.....	Binghamton and Syracuse, N.Y.....	63
21417.....	Binghamton, N.Y., and Newark, N.J., via Scranton, Pa.	63

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR Part 302, 14 CFR Part 298, and 14 CFR 385.14(f):

It is ordered, That:

1. Commuter Airlines, Inc., the Postmaster General, Eastern Air Lines, Inc., Allegheny Airlines, Inc., Mohawk Airlines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine and publish the final rates for the transportation of mail by aircraft, the facilities used and useful therefor,

[1] Alaska Airlines, Inc.; Allegheny Airlines, Inc.; Frontier Airlines, Inc.; Mohawk Airlines, Inc.; North Central Airlines, Inc.; Ozark Air Lines, Inc.; Piedmont Airlines; Southern Airways, Inc.; Texas International Airlines, Inc.

[2] Orders E-21851 of Feb. 26, 1965; E-22975 of Dec. 7, 1965; E-24503 of Dec. 9, 1966; E-26100 of Dec. 11, 1967; 68-11-19 of Nov. 5, 1968.

[1] As this order to show cause is not a final action but merely affords interested persons an opportunity to be heard on the matters herein proposed, it is not regarded as subject to the review provisions of Part 385 (14 CFR Part 385). These provisions for Board review will be applicable to final action taken by the staff under authority delegated in § 385.14(g).

and the services connected therewith as specified above as the fair and reasonable rates of compensation to be paid to Commuter Airlines, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and notice of any objection to a rate or rates or to the other findings and conclusions proposed herein, shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objection is not filed within 10 days after service of this order, or if notice is filed and answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter and order incorporating the findings and conclusions proposed herein and fix and determine the final rates specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rates shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the rules of practice (14 CFR 302.307); and

5. This order shall be served upon Commuter Airlines, Inc., the Postmaster General, Eastern Air Lines, Inc., Allegheny Airlines, Inc., and Mohawk Airlines, Inc.

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority October 13, 1969.

Agreement adopted by the Joint Conferences of the International Air Transport Association relating to specific commodity rates; Docket 18650, Agreement CAB 20745, R-118 through R-126.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Joint Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement, adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated October 1, 1969, names additional specific commodity rates, as set forth in the attachment hereto,[1] which reflect significant reductions from the general cargo rates. In addition, rates for several new commodity descriptions, also set forth in the attachment, have been specified from Helsinki to New York.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found, on a tentative basis, that the subject agreement is adverse to the public interest or in violation of the Act: *Provided*, That tentative approval thereof is conditioned as hereinafter ordered.

Accordingly, it is ordered, That:

Action on Agreement CAB 20745, R-118 through R-126, be and hereby is deferred with a view toward eventual approval: *Provided*, That approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication.

Persons entitled to petition the Board for review of this order, pursuant to the Board's regulations, 14 CFR 385.50, may, within 10 days after the date of service of this order, file such petitions in support of or in opposition to our proposed action herein.

This order will be published in the FEDERAL REGISTER.

WTC AIR FREIGHT ET AL.

Notice of Proposed Approval

Application of WTC Air Freight, Penson Freight Corp. et al., for approval of control relationships, Docket 21390.

Notice is hereby given, pursuant to the statutory requirements of section 408(b) of the Federal Aviation Act of 1958, as amended, that the undersigned intends to issue the order set forth below under delegated authority on October 17, 1969. Prior to such time interested persons may file comments or request a hearing with respect to the action proposed in the order.

Dated at Washington, D.C., October 10, 1969.

ORDER APPROVING CONTROL RELATIONSHIPS

Issued under delegated authority.

Application of WTC Air Freight and Penson Freight Corp. et al., for approval of control relationships under section 408 of the Federal Aviation Act of 1958, as amended; Docket 21390.

By application filed September 5, 1969, WTC Air Freight (WTC) and Penson Freight Corp. (Penson) et al., request Board approval, under section 408 of the Federal Aviation Act of 1958, as amended (the Act), of various control relationships resulting from the acquisition by WTC of substantially all of the assets, properties business and goodwill of Penson.

WTC is a California corporation holding both domestic and international air freight forwarding authority from the Board. Penson is a Delaware corporation holding stock in a number of subsidiaries including Penson Forwarding Corp. (Penson Forwarding) a New York corporation which also holds domestic and international air freight forwarding authority.[1] Penson Forwarding is also a Federal Maritime Commission authorized ocean freight forwarder and an IATA sales agent.

The applicants seek approval of (a) WTC's acquisition of control of Penson Forwarding (b) WTC's control of Penson Travel Corp. (Penson Travel)[2] and (c) the acquisition by WTC, through a subsidiary, of 100 percent of the stock of its present affiliate United United Freight Inc. (United Freight).[3]

By Order E-26114, December 13, 1967, the Board approved, inter alia, control by R. B. Meyers (Meyers) and A. Meyers Trust (Meyers Trust) of Western Truck Leasing Co. (Leasing) an intrastate common carrier by motor vehicle, and through Leasing of WTC.[4]

[1] Attachment filed as part of original document.

[1] Penson owns all of the outstanding capital stock of the following companies: Penson & Co., Inc., a Delaware corporation; Penson & Co., Inc., an Illinois corporation; Penson & Co., Inc., a California corporation, all of which are customs brokers; Bemo Shipping Co., Inc., a customs broker and an ocean freight forwarder authorized by the Federal Maritime Commision; and Penson Custom Broker, Inc., an inactive corporation.

[2] Penson Travel is a New York corporation engaged in business as an ATC and IATA travel agent. Penson Travel is presently 100 percent owned by Mr. Jack A. Penson. Among the assets of Penson is an option to purchase all of the stock of Penson Travel.

On Sept. 22, 1969, an amendment to the application was filed seeking approval, without hearing under sections 408 and 409 of the Act, of the formation by Mr. Penson of Penson Travel and the relationship of Penson Travel to Penson Forwarding. The amendment indicates that Mr. Penson formed Penson Travel in 1964 at a time when Mr. Penson owned a controlling interest in Penson Forwarding. In July of 1968, ownership of Penson Forwarding passed by reorganization to Penson. Mr. Penson owns 50 percent of the voting stock of Penson.

[3] United Freight is one of four surface freight forwarders presently affiliated with WTC.

[4] The same order also approved the control by Meyers and Meyers Trust of various surface freight forwarders including United Freight.

By Order 69–2–74, dated February 14, 1969, the Board approved, inter alia, the acquisition by WTC of Coast Cartage Co., an intrastate common carrier by motor vehicle,[5] and through Cartage of two additional intrastate motor vehicle common carriers and a surface freight forwarder. In addition the Board approved the common control by Meyers and Meyers Trust of each of the above-mentioned companies and those companies already within the system of affiliated and subsidiary companies controlled by Meyers and Meyers Trust.[6]

As a result of the aforementioned transactions Meyers and Meyers Trust would hold 100 percent of the stock of Leasing who in turn would own 55 percent of WTC. Under the transactions now before the Board Leasing would hold 38 percent and Mr. Penson 6 percent of WTC's stock. The remaining shares would be held by various individuals and members of the public.[7]

The proposed acquisition is to be accomplished pursuant to an Agreement and Plan of Reorganization (Agreement), dated September 4, 1969, between WTC and Penson. Under the Agreement WTC will acquire the assets of Penson, and assume Penson's debts, obligations, and liabilities, in exchange for the transfer of 220,000 shares of WTC to Penson. The WTC stock received by Penson will be distributed to Penson's shareholders for cancellation of the outstanding Penson stock, and Penson will be liquidated.

At present, the majority of Penson's officers and directors also serve as the officers and directors of each Penson subsidiary. Following consummation of the agreement the Penson subsidiaries will be 100 percent owned by WTC which will elect, for the most part, the same persons who presently serve as officers and directors of those companies. In addition, Mr. Penson will be elected to the Board of Directors of WTC and will serve as a corporate officer.[8]

The applicants assert that, as WTC is engaged almost exclusively in domestic operations and Penson Forwarding is primarily an international forwarder, the acquisition of Penson Forwarding by WTC would expand the services available to each of the companies' present customers into the domestic and international markets.[9]

No comments or requests for a hearing have been received.

Notice of intent to dispose of the application without a hearing has been published in the FEDERAL REGISTER, and a copy of such notice has been furnished by the Board to the Attorney General not later than 1 day following such publication, both in accordance with the requirements of section 408 (b) of the Act.

Upon consideration of the foregoing, it is concluded that the transactions described in the application, as amended, involve, within the meaning of section 408 of the Act, (1) the acquisition by an air carrier (WTC) of control of another air carrier (Penson Forwarding) and a person engaged in a phase of aeronautics (Penson Travel); (2) the acquisition by an air carrier (WTC) through its subsidiary (Cartage) of control of a common carrier (United Freight); and, by virtue of the foregoing, (3) the common control by Meyers and Meyers Trust of two air carriers (WTC and Penson Forwarding), a person engaged in a phase of aeronautics (Penson Travel), and those additional companies already within the system of affiliated and subsidiary companies controlled by Meyers and Meyers Trust. It is further concluded that the amended application involves the acquisition by a person (Mr. Penson) controlling an air carrier (Penson Forwarding) of control of a person engaged in a phase of aeronautics (Penson Travel), also within the meaning of section 408 of the Act.[10]

It appears that the acquisition will not result in eliminating any measurable competition between WTC and Penson Forwarding. Judged on the basis of each forwarder's principal markets it appears that WTC and Penson Forwarding are, for the most part, noncompetitive—particularly in the international field. In 1968 WTC's domestic operations in terms of tonnage shipped in its top ten markets, far exceeded those of Penson Forwarding. In addition, WTC and Penson Forwarding had only three markets in common in the top ten markets of each. In the international field, the two forwarders were even less competitive as there was only one common market (New York-London), among the top ten markets of the forwarders, in which the two competed.

The acquisition of Penson Forwarding by WTC should not result in WTC increasing its relative competitive position in either the domestic or international air freight forwarding fields to such an extent that restraint of competition would result. In this connection, the application indicates that in 1968 WTC's domestic and international air freight forwarding revenues were $17,110,157 and $172,445, respectively. Similarly, Penson Forwarding's revenues were $168,000 from domestic operations and $2 million from international operations. From the foregoing it appears that WTC and Penson Forwarding had combined domestic and international revenues of $19,450,952. In 1967 WTC ranked fifth among all forwarders with revenues of $14,290,369 and Penson Forwarding ranked 25th with revenues of $1,133,123; or combined revenues for the two forwarders of $15,423,492. If the combined 1968 forwarding revenues of the two forwarders is compared with the 1967 total revenues for the industry then WTC's percentage of the market would still only be 7.9 percent and its ranking would remain at fifth.

WTC's acquisition of United Freight through Cartage could give WTC more direct control over the operation of the surface freight forwarder, and thus allow WTC to render improved service to the shipping public. Furthermore, the acquisition of United Freight does not appear to alter the basic control relationships heretofore existing within the framework of the system controlled by Meyers and Meyers Trust.

The control relationships presented by the application, as amended, are similar to others which have been approved by the Board, and essentially do not present any new substantive issues not heretofore considered by the Board.[11] Approval of the control relationships, subject to the conditions hereinafter set forth, would not be inconsistent with the public interest. Such relationships do not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation, do not result in creating a monopoly, and do not tend to restrain competition. Furthermore, no person disclosing a substantial interest is currently requesting a hearing and it is concluded that a hearing is not required in the public interest.[12]

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.13 and 385.3, it is found that the foregoing control relationships should be approved subject to conditions, under section 408(b) of the Act, without hearing, and that the application, to the extent that it requests approval of the aforementioned interlocking relationships, should be dismissed.

Accordingly, it is ordered, That:

1. The acquisition by WTC of Penson Forwarding, Penson Travel and United Freight; and the common control by Meyers and Meyers Trust of WTC, Penson Forwarding, Penson Travel and those companies already within the system of affiliated and subsidiary companies controlled by Meyers and Meyers Trust, be and they hereby are approved;

2. The formation of Penson Travel by Mr. Penson and the relationships of Penson Travel to Penson Fordwarding be and they hereby are approved;

3. Within 10 days of the date of consummation of the agreement, to the extent that WTC acquires the assets of Penson and thereby Penson Forwarding, WTC shall submit for cancellation its international air freight forwarder operating authorization and Penson Forwarding shall submit for cancellation its domestic air freight forwarder operating authorization;

4. WTC and Penson Forwarding shall maintain separate accounts and records; any required reports filed with the Board shall be submitted individually and shall not reflect any consolidation of financial or statistical data;

5. The approvals granted herein shall be effective only so long as the operation of motor vehicles by those companies within the system of affiliated and subsidiary companies controlled by Meyers and Meyers Trust is limited to the States in which they presently operate; and

6. Except to the extent granted herein, the application in Docket 21390 be and it hereby is dismissed.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such

---

[5] The order indicated that Cartage would dispose of its intrastate certificates and acquire Leasing's motor carrier authorization.

[6] Approval was also granted of WTC's acquisition of its Hong Kong subsidiary, WTC Air Freight (HK) Ltd.

[7] Mr. E. C. McIntyre, Mr. H. M. Baker, and Mrs. J. M. Baker would own a total of 18 percent of WTC's common stock.

[8] The application recites that to the extent that the directorships would involve interlocking relationships between two indirect air carriers, it is believed that upon approval of the acquisition such relationships would fall within the scope of the exemption from section 409 of the Act afforded by § 287.2 of the Board's economic regulations.

[9] The application indicates that upon approval and consummation of the acquisition, the international air freight forwarder operating authorization of WTC and the domestic air freight forwarder operating authorization of Penson will be submitted to the Board for cancellation.

[10] Interlocking relationships within the meaning of section 409 of the Act have existed or will exist with respect to Penson, Penson Forwarding, Penson Travel, and WTC. However, upon approval of the acquisitions, such relationships would come within the scope of the exemption from section 409 afforded by §§ 287.2 and 287.4 of the Board's economic regulations.

[11] E.g., Wings and Wheels Express, Inc., and Air Express International Corp., Order E–25656, Sept. 11, 1967; Novo Industrial Corp. and Trans-World Forwarding and Air Expediting Co., Order E–26863, June 3, 1968; and Eagle General Corp., Mercury Air Freight, Inc., et al., Order 68–8–53, Aug. 13, 1968.

[12] It appears that the control and interlocking relationships between Penson, Penson Forwarding, and Penson Travel have been in effect for some time. Nevertheless, it has been decided not to enforce the doctrine expressed in Sherman Control and Interlocking Relationships, 15 CAB 876 (1952) and to consider the amended application on its merits.

petitions within 5 days after the date of service of this order.

This order shall be effective upon issuance, and the filing of petitions for review shall not stay its effectiveness.

FEDERAL OPEN MARKET COMMITTEE

Current Economic Policy Directive

In accordance with § 271.5 of its Rules Regarding Availability of Information, there is set forth below the Committee's Current Economic Policy Directive issued at its meeting held on July 15, 1969.[3]

The information reviewed at this meeting suggests that expansion in real economic activity, after moderating slightly in the first quarter, has continued at about the same pace since then. Substantial upward pressures on prices and costs are persisting. Market interest rates have fluctuated widely recently, partly because of varying expectations, although credit demands remain relatively strong. Short-term rates on balance have continued under upward pressure, against the background of considerable restraint on the banking system. In June bank credit showed little change, after allowance for assets sold to affiliates and to customers with bank guarantees. Growth in the money supply resumed at a slow pace, and the run-off of large-denomination CD's which began in mid-December continued without abatement. There apparently were substantial net outflows from consumer-type time and savings accounts at banks and nonbank thrift institutions around midyear, following a period of slackened growth. The overall balance of payments deficit on the liquidity basis rose sharply in the second quarter; there were large outflows into German marks and into Euro-dollar deposits, and there was no significant improvement in net exports. In contrast, there was another large surplus on the official settlements basis as U.S. banks borrowed heavily in the Euro-dollar market. In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions conducive to the reduction of inflationary pressures, with a view to encouraging a more sustainable rate of economic growth and attaining reasonable equilibrium in the country's balance of payments.

To implement this policy, while taking account of the forthcoming Treasury refunding, System open market operations until the next meeting of the Committee shall be conducted with a view to maintaining the currently prevailing firm conditions in money and short-term credit markets; *Provided, however*, That operations shall be modified, to the extent permitted by the Treasury refunding, if bank credit appears to be deviating significantly from current projections.

By order of the Federal Open Market Committee, October 8, 1969.

ARTHUR L. BROIDA,
Deputy Secretary.

COMPETITIVE CAPITAL FUND ET AL.

Notice of Filing of Application for Exemption

OCTOBER 9, 1969.

Notice is hereby given that Competitive Capital Fund (the "Fund"), a Delaware Corporation registered under the Investment Company Act of 1940 (the "Act") as an open-end diversified management investment company, Competitive Capital Corp. ("Fund Manager"), 44 Montgomery Street, San Francisco, Calif. 94104, a California corporation and Colonial Management Associates, Inc. ("Colonial"), 75 Federal Street, Boston, Mass. 02110, a Massachusetts corporation (hereinafter collectively referred to as the "Applicants"), have filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act"), for an order temporarily exempting Applicants from the provisions of section 15(a) of the Act to the extent necessary to permit Colonial to act as a Portfolio Manager of the Fund pursuant to a Portfolio Manager Agreement between the Fund, the Fund Manager and Colonial for a period beginning with the date of the acquisition of the stock of Colonial by a wholly owned subsidiary of State Mutual Life Assurance Company of America (Oct. 8, 1969) and ending on the date of the next annual or special meeting of stockholders of the Fund which will be held no later than April 15, 1970, without the prior approval of the new Portfolio Manager Agreement by the stockholders of the Fund as required by section 15(a) of the Act. Section 15(a) of the Act provides among other things that no person may serve as investment adviser of a registered investment company except pursuant to a written contract that has been approved by the vote of a majority of the outstanding voting securities of such company. All interested persons are referred to the application, which is on file with the Commission, for a statement of the representations therein which are summarized below.

Under the terms of the Fund Manager Agreement between Fund and Fund Manager, Fund Manager manages the business of the Fund and administers the allocation of Fund's assets among five portfolio managers which Fund Manager is authorized to retain, subject to approval by Fund, to manage a portion of Fund's assets and to render investment advisory and other related services. The Fund, the Fund Manager and Colonial entered into a Portfolio Manager's Agreement, dated March 14, 1968, which was amended on January 13, 1969. The agreement with Colonial was approved by holders of a majority

of the outstanding shares of the Fund at the annual meeting of stockholders on April 8, 1969. Colonial is a well-known and established investment counselor corporation with numerous investment company, institutional and individual clients. In July 1969, Colonial and all its shareholders entered into agreements with State Mutual Life Assurance Company of America and two of its wholly owned subsidiaries for the acquisition by one of the subsidiaries of 80 percent of the outstanding common stock of Colonial. The consummation of such an acquisition, scheduled for October 8, 1969, would constitute an "assignment" of the present portfolio manager agreement within the meaning of section 2(a)(4) of the Act. Accordingly, the assignment of this agrement will result in its termination.

Applicants propose to enter into a new Portfolio Manager Agreement in the same form and containing substantially the same provisions as the existing agreement, to take effect at the time the sale is consummated and to last until such new agreement is submitted to Fund shareholders for approval at the next special or annual meeting to take place not later than April 15, 1970. Shareholders may at that time vote for approval or disapproval of a new Portfolio Manager Agreement with Colonial to go forward from the date of such meeting.

If holders of a majority of the outstanding voting securities (as defined in section 2(a)(40) of the Act) ratify the proposed agreement for the October through April period, Colonial will be paid an advisory fee based on the rate of compensation set forth in the present agreement and currently effective prospectus of the Fund, which is the same rate of compensation Colonial and the four other Portfolio Managers of the Fund are presently being paid. In the event the stockholders fail to ratify the proposed agreement, Colonial has agreed to accept an advisory fee based on an annual rate of three thirty-seconds of 1 percent of the average net assets of Fund under its advisement during that period, which is 75 percent of the base fee payable to it under the present contract.

Fund and Fund Manager state that it is in the best interest of the Fund and its shareholders that Colonial continue to act as Portfolio Manager and applicants represent that it would be unduly expensive and burdensome on Colonial to require them to pay the expenses of calling a special meeting of shareholders for the purpose of approving the proposed investment advisory agreement.

Section 15(a) of the Act provides in pertinent part that it shall be unlawful for any person to act as an investment adviser of a registered investment company except pursuant to a written contract which has been approved by a vote of a majority of the outstanding voting securities of such registered company.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person or transaction from any provision of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than October 31, 1969 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants at the addresses stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing the matter herein may be issued by the Commission upon the basis of the information stated in this application, unless an order for hearing upon said proposal shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in such matters, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

MASSACHUSETTS MUTUAL LIFE INSURANCE CO. AND MASSACHUSETTS MUTUAL VARIABLE FUND I

Notice of Application for Exemptions

OCTOBER 10, 1969.

Notice is hereby given that Massachusetts Mutual Life Insurance Co. ("Massachusetts Mutual") and Massachusetts Mutual Variable Fund I ("Fund"), 1295 State Street, Springfield, Mass. 01101 (herein collectively called "Applicants"), have filed an application pursuant to section 6(c) of the Investment Company Act of 1940, 15 U.S.C. Section 80a–1 et seq. ("Act"), for an order exempting Applicants from the provisions of sections 17(f)(3), 22(c), 22(d), 27(a)(3), and 27(c)(2) of the Act, and Rules 17f–2 and 22c–1 thereunder. Massachusetts Mutual established Fund pursuant to Massachusetts law on April 24, 1968, as a separate account to offer variable annuity contracts in connection with qualified plans described in section 401(a) or section 403(a) of the Internal Revenue Code of 1954, as amended (the "Code"), or which meet the requirements of section 403(b) of the Code. Fund is an open-end diversified management company registered under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Section 17(f)(3) provides, in pertinent part, that a registered management investment company may maintain its securities and investments in its own custody in accordance with the rules, regulations, and orders adopted by the Commission in the interest of investors. Rule 17f–2 requires, in pertinent part, that such assets be placed in a bank subject to the other requirements of the rule, one of which limits the persons who shall have access to such assets to only certain specified individuals. Applicants request an exemption to permit access to the securities of Fund which will be held pursuant to a safekeeping agreement with the Franklin National Bank of Mineola, N.Y., by not more than any one of 10 officers or responsible employees of Massachusetts Mutual as well as any duly authorized representative of the Massachusetts Department of Banking and Insurance and of the National Association of Insurance Commissioners.

Section 22(c) provides, in pertinent part, that the Commission may make rules and regulations applicable to principal underwriters of, and dealers in, redeemable securities of registered investment companies for the purpose of eliminating or reducing so far as reasonably practicable any dilution of the value of other outstanding securities of such company. Rule 22c–1 provides, in pertinent part, that no registered investment company issuing any redeemable security, no person designated in such issuer's prospectus as authorized to consummate transactions in any such security, and no principal underwriter of, or dealer in, any such security shall sell, redeem, or repurchase any such security except at a price based on the current net asset value of such security next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security. Applicants request an exemption from Rule 22c–1 so as to permit the application of purchase payments received, and the determination of death benefits and redemption values, to be based on valuations as of the close of the New York Stock Exchange on the date purchase payment, notice of death, or request for redemption is received, regardless of the time of that receipt except to the extent such payment is made to the payee in person or such notice or request is delivered in person at the home office of Massachusetts Mutual. Applicants represent that the requested exemption is sought for ease of administration and that in almost all instances purchase

payments, death notices, and surrender requests will be received by mail.

Section 22(d) provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current offering price described in the prospectus. Applicants request an exemption from section 22(d) to permit variable annuity contracts which depend in whole or in part on the investment performance of Fund to be sold without a deduction for sales expense, upon the receipt of proceeds payable under other contracts issued by Massachusetts Mutual under a plan described under section 401(a) or section 403(a) of the Code, or under a plan which meets the requirements of section 403(b) of the Code. Applicants represent that sales costs will be lower with this class of contract owners, that such other contracts have already been subject to sales charges, and that no unfair discrimination between variable annuity contract owners would result from the requested exemption.

Section 27(a)(3) prohibits a registered investment company issuing periodic payment plan certificates, or a depositor or underwriter for such company, from selling such certificates if the amount of sales load deducted from any one of the first 12 monthly payments thereon exceeds proportionately the amount deducted from any other payment, or if the amount deducted from any subsequent payment exceeds proportionately the amount deducted from any other subsequent payment. Applicants request an exemption, to the extent the provisions of section 27(a)(3) are applicable, to permit the deduction from purchase payments for administrative expenses of 3 percent of the first $50 of any such payment and 2 percent of the balance.

Section 27(c)(2) prohibits a registered investment company or a depositor or underwriter for such company from selling periodic payment plan certificates unless the proceeds of all payments, other than the sales load, are deposited with a bank as trustee or custodian and held under an indenture or agreement containing, in substance, the provisions required by section 26(a)(2) and (3) for a unit investment trust. Section 26(a)(2) requires that the trustee or custodian segregate and hold in trust all securities and cash of the trust and places certain restrictions on charges which may be made against the trust income and corpus and excludes from expenses which the trustee or custodian may charge against the trust any payments to the depositor or principal underwriter, other than a fee not exceeding such reasonable amount as the Commission may prescribe, for performing bookkeeping and other administrative services delegated to them by the trustee or custodian. Section 26(a)(3) governs the circumstances under which the trustee or custodian may resign.

Applicants state that Massachusetts Mutual is subject to extensive and detailed supervision and inspection by the Massachusetts Department of Banking and Insurance as well as by the insurance departments of all other jurisdictions in which Massachusetts Mutual is licensed to do business and that such control provides ample assurance against misfeasance and affords the essential protection which the trusteeship or custodianship under section 26(a)(2) is designed to provide. The contractual obligations of Massachusetts Mutual to the participants cannot be abandoned until such obligations have been discharged. Since such supervision, inspection, and undertakings render remote the possibility of orphanage of Fund by Massachusetts Mutual which the trusteeship under section 27(c)(2) is designed to prevent, Applicants request an exemption from the requirements of section 27(c)(2) for literal compliance with sections 26(a)(2) and (3) to the extent they are applicable. Applicants have consented to the requested exemption being subject to the conditions that the deductions under the contracts for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, that the Commission shall reserve jurisdiction for such purpose, and that the payment of sums and charges out of the assets of the Fund shall not be deemed to be exempted from regulation by the Commission by reason of the requested order: *Provided*, That the consent of Applicants to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payment of sums and charges out of such assets other than charges for administrative services. Applicants reserve the right in any proceeding before the Commission or in any suit or action in any court to assert that the Commission has no authority to regulate the payment of such other sums or charges.

Section 6(c) authorizes the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act and rules promulgated thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is hereby given that any interested person may, not later than October 30, 1969 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted; or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

[Docket No. 17574; FCC 69-1101]

RADIO SAN JUAN, INC. (WRSJ)

Memorandum Opinion and Order Designating Application for Hearing on Stated Issues

In regards application of Radio San Juan, Inc. (WRSJ), San Juan, P.R. has: 1560 kc., 250 w., 5 kw.-LS, U. Bayamon, P.R.; requests: 1560 kc., 5 kw., DA-N, U.; San Juan, P.R., Docket No. 17574, File No. BP-16770; for construction permit.

1. The Commission has before it for consideration the above-captioned application for a construction permit to increase nighttime power and change station location from Bayamon to San Juan, P.R. The applicant (hereafter WRSJ), the licensee of Station WRSJ, Bayamon, in its original application filed herein on June 7, 1965, requested authorization to increase its operating power to 50 kilowatts daytime and 25 kilowatts nighttime (directionalized day and night) and to change its city of designation to San Juan. The application was designated for hearing on July 5, 1967 (FCC 67-790, released July 18, 1967), and a prehearing conference was held on October 3, 1967.[1] Thereafter, on November 15, 1967, WRSJ sought to amend its application to eliminate its request for an increase in daytime power, and to reduce its request for nighttime power from 25 kilowatts to 5 kilowatts. In formal comments filed with its petition for leave to amend, the applicant attempted to establish "good cause" pursuant to § 1.522(b) of the Commission's rules.[2]

2. In a memorandum opinion and order issued on December 19, 1967 (FCC 67M-2118, released Dec. 21, 1967), the Examiner denied the applicant's request for waiver and rejected the amendment. On December 29, 1967, the applicant filed a petition requesting reconsideration of this action and leave to amend (in hearing) under § 1.522(b), or, in the event of unfavorable action on this request, leave to amend pursuant to § 1.522 (c). In a memorandum opinion and order issued on January 12, 1968 (FCC 68M-67, released Jan. 15, 1968), the Examiner denied the petition for reconsideration but granted the alternative relief. Accordingly, as of that date the applicant's amendment of November 15, 1967, was accepted, and the application as amended was removed from the hearing docket, returned to the Commission's processing line, and is presently before the Commission for further consideration.[3]

3. The applicant proposes to utilize the present antenna site and construct one additional tower to be utilized for the proposed two-tower directional nighttime operation. The present site does not appear to be adequate to accommodate the proposed directional antenna system in that the restricted plot of land results in severe curtailment in the length of the ground radials proposed. The ground system around the north tower is essentially restricted to a 30' by 30' ground screen over a large arc, and the other antenna tower would have the radials restricted to a length of only 73 feet in some directions. Accordingly, an issue is specified to determine whether the site is suitable for the proposed directional operation.

4. In addition to the foregoing, calculations made by the Commission reveal that minor variations in the operating parameters for the proposed nighttime operation would cause the proposed MEOV's to be exceeded. Accordingly, we must conclude that a substantial question obtains as to whether the antenna system can be adjusted and maintained as proposed, and an appropriate hearing issue is included.

---

[1] Petitions to intervene for the purpose of participating in the hearing were filed by (1) American Colonial Broadcasting Corp., licensee of Station WKVM, San Juan, and (2) San Juan Broadcasting Corp., licensee of Station WUNO, Rio Piedros (San Juan). These petitions, both unopposed, were granted and the petitioners made parties, on Sept. 14, 1967 (FCC 67M-1532, released Sept. 15, 1967.)

[2] Section 1.552 (b) and (c) pertains to requests for leave to amend after an application has been designated for hearing. If the applicant is unable to show "good cause" under § 1.522(b) (for leave to amend "in hearing"), leave to amend may be granted under § 1.522(c), at the discretion of the Examiner, provided it is requested that the application as amended be removed from the hearing docket and returned to the processing line.

[3] WRSJ amended again on Nov. 20, 1968, making certain minor changes in its engineering showing, and finally on June 24, 1969.

5. A grant of WRSJ's request to change the city of designation would bring an 11th local standard broadcast outlet to San Juan while leaving only one station licensed to serve Bayamon, a city with a population of 15,109 (1960 U.S. Census). There is therefore a substantial question as to whether a grant of this request would result in a fair, efficient, and equitable distribution of facilities within the meaning of section 307(b) of the Communications Act of 1934, as amended. See WKYR, Inc., 24 RR 1097 (1963). Accordingly, an issue with respect thereto will be included.

6. With respect to the proposed change from Bayamon to San Juan, WRSJ states in its original application that it does not propose to change its present programing schedule, and that although it would provide additional regular local event coverage of community affairs in key areas throughout the island it does not deem a drastic change in programing to be warranted or in the public interest. The applicant further states that this judgment is based upon its awareness of the needs of the San Juan area as the result of serving those needs for the past several months. WRSJ also refers to the information filed in May 1964 (BTC-4562/BLH-2598) as still being current. The applicant states that this information reveals that its programing was serving substantial portions of other areas of the island, including more particularly the San Juan Metropolitan Area, of which Bayamon is but an integral part. WRSJ also refers to a survey made in December of 1962 by the University of Puerto Rico as confirming the above findings.

7. In a current amendment the applicant observes that under its present proposal WRSJ's interference-free nighttime service area lies entirely within its daytime primary service contour (0.5 mv/m), and accordingly, under this proposal it will not be picking up any new areas. Thus it will simply provide a stronger signal at night to areas currently served daytime. As evidence of its awareness of needs of the San Juan Metropolitan District and its environs, and the fact that it is making a conscientious effort to meet those needs, the applicant filed a total of 14 letters from governmental, civic, and religious organizations of San Juan, Bayamon and Puerto Rico (the Commonwealth). The various civic officials rather uniformly pointed out that it is difficult to locate the station on the dial during the nighttime hours, and all of the letters indicated that the station is providing a very constructive program for their respective cities and areas. In one letter the respondent referred to specific programs, including crime prevention, traffic safety, juvenile delinquency, drug addiction, alcoholism, cleanup campaigns, etc., and all of them indicated that the station dedicates itself to public service, and that its newscasts, editorials, and musical programs are done with quality and good taste. However, there were no suggestions or even observations as to the needs of the community to be served.

8. It is not clear from this amendment whether or not these letters are intended to represent ascertainment of the needs and interests of the communities represented. In any case, the applicant has clearly not made a showing which would satisfy the Commission's requirements as most recently defined in the Public Notice Relating to Ascertainment of Community Needs by Broadcast Applicants, FCC 68-847, 13 RR 2d 1903, released August 22, 1968.[4]

9. Apart from the fact that the material which the applicant refers to is more than 4 years old, we are of the view that it is necessary to ascertain the needs and interests of the city of San Juan, as distinguished from those of Bayamon and other surrounding areas. In this case no populations or areas will be served by the proposed nighttime operation which are not already being served during the daytime. However, a valid ascertainment might well indicate and dictate a significant different response in terms of emphasis and treatment of the needs and interests of San Juan as distinguished from those of Bayamon, when viewed in light of San Juan as the city of designation. Accordingly, an appropriate issue is specified.

10. Except as indicated below, the applicant is qualified to construct, own, and operate as proposed. However, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the application would serve the public interest, convenience, and necessity and is of the opinion that it must be designated for hearing on the issues set forth below.

11. *Accordingly, it is ordered*, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the application is designated for hearing at a time and place to be specified in a subsequent order, upon the following issues:

(1) To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of Station WRSJ, and the availability of other primary service to such areas and populations.

(2) To determine the efforts made by the applicant to ascertain the community needs and interests of the area to be served, and the means by which it proposes to meet those needs and interests.

(3) To determine whether the present site is suitable for the proposed directional nighttime antenna system.

(4) To determine whether the directional antenna system can be adjusted and maintained within the maximum expected operating values of radiation as proposed.

(5) To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, whether a grant of the application would provide a fair, efficient, and equitable distribution of radio service.

(6) To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the application would serve the public interest, convenience and necessity.

12. *It is further ordered*, That to avail themselves of the opportunity to be heard, the applicant pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

13. *It is further ordered*, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: October 8, 1969.

Released: October 10, 1969.

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

OCTOBER 10, 1969.

The following publications are governed by the new Special Rule 247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission, authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

APPLICATIONS ASSIGNED FOR ORAL HEARING

MOTOR CARRIERS OF PROPERTY

No. MC 623 (Sub-No. 86) (Republication), filed May 19, 1966, published in the FEDERAL REGISTER issue of June 16, 1966, and republished this issue. Applicant: H. MESSICK, INC. (now retitled), TRI-STATE MOTOR TRANSIT CO., Post Office Box 214, Joplin, Mo. Applicant's representative: Turner White, 805 Woodruff Building, Springfield, Mo. 65806. By application filed May 19, 1966, H. Messick, Inc., sought authority to operate as a contract carrier, by motor vehicle, over irregular routes, of explosives, over specified routes as previously published. The application was referred to Examiner Bernard Feuer for hearing and the recommendation of an appropriate order thereon accompanied by reasons therefor. Hearing was held on January 17, 1967, in Kansas City, Mo. A report and order served March 23, 1967, the examiner finds that the granting of the authority sought by the applicant would not be consistent with the public interest and the national transportation policy and the application was denied. By joint application filed November 21, 1966, in MC-F-9594, as amended, Tri-State Motor Transit Co., a motor common carrier, seeks authority under section 5 of the Interstate Commerce Act to purchase the permanent and temporary authority operating rights and other property of H. Messick, Inc., a motor contract carrier; and that in Nos. MC 109397 (Sub-No. 149) and (Sub-No. 151) Tri-State seeks appropriate certificates in lieu of the contract carrier permits held by H. Messick, Inc.

By report and recommended order, served August 13, 1968, and examiner recommended, inter alia, that the transfer of certain permits from H. Messick, Inc., to Tri-State Motor Transit Co., be authorized, and that upon such transfer the latter be issued appropriate certificates of public convenience and necessity in lieu of the permits held by transferor. A decision and order of the Commission, Division 3, decided July 31, 1969, served August 8, 1969, finds that the transfer of the operating rights and other property of H. Messick, Inc., to Tri-State Motor Transit Co., has not yet been consummated and that the certificates authorized herein have not yet been issued; that in view of the interests of Tri-State in this proceeding, in the light of the Commission's approval of the section 5 application, substitution of Tri-State in lieu of H. Messick, Inc., as applicant should be allowed. A decision and order of the Commission, Review Board No. 3, dated September 23, 1969, and served October 1, 1969, finds that the present and future public convenience and necessity require operation by the substituted applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, of *explosives;* (1) from Mead, Nebr., to Kenvil, N.J., McAdory, Ala., and Tenino, Wash.; and

(2) From Shumaker, Ark., to Mead, Nebr.; and that the evidence considered in the light of the pleadings warrants a result different from that reached by the examiner but that since the statement of facts and the findings of a need for the proposed service, are proper and correct in all material respects, they should be, and hereby, affirmed and adopted as our own; and that only the conclusions and findings of the examiner which were based on matters pending before the Commission in No. MC-F-9594, the latter proceeding having now been approved by the Commission, require modification herein; that Tri-State Motor Transit Co., be, and it is hereby, substituted as applicant in lieu of H. Messick, Inc.; that an appropriate certificate will be issued, limited in point of time to a period expiring 5 years from the date of the issuance of such certificate, subject to the prior consummation of the section 5 application in docket No. MC-F-9594 and the issuance to applicant in Nos. MC 109397 (Sub-No. 149) and (Sub-No. 151) of appropriate certificate of public convenience and necessity in lieu of the permits held by H. Messick, Inc., in the manner set forth in the Commission's decision and order of July 31, 1969; that substituted applicant is fit, willing, and able properly to perform such service and to conform to the Commission's rules and regulations thereunder. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 34689 (Sub-No. 10) (Republication) filed February 5, 1969, published in the FEDERAL REGISTER issue of May 1, 1969, and republished this issue. Applicant: H. MAYNARD GOULD CO., a corporation, Union Street, East Walpole, Mass. 02081. Applicant's representative: Francis E. Barrett, Jr., Investors Building, 536 Granite Street, Braintree, Mass. 02184. By application filed February 5, 1969, applicant seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of building materials and materials and supplies used in the installation thereof (except in bulk, in tank vehicles); (1) from Walpole and Norwood, Mass., to Boston, Mass., and points in Connecticut, Rhode Island, and New Hampshire; (2) from Phillipsdale, R.I., to points in Connecticut, Massachusetts, Vermont, and New Hampshire; and (3) from Norwood and Walpole, Mass., and Phillipsdale, R.I., to points in York, Cumberland, Oxford, Androscoggin, Sagadahoc, Franklin, Kennebec, Waldo, Lincoln, Knox, Penobscot, Hancock, and Somerset Counties, Maine; by order dated June 19, 1969, and served June 30, 1969, it was ordered that this proceeding be handled under modified procedure. An order of the Commission, Operating Rights Board, dated September 19, 1969, and served October 3, 1969, finds that the present and future public convenience and necessity require operation by applicant in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *building materials and materials and supplies* used in the installation of building materials (except commodities in bulk); (1) from Walpole and Norwood,

Mass., to Boston, Mass., and points in Connecticut, Rhode Island, New Hampshire, and Vermont; (2) from Phillipsdale, R.I., to points in Connecticut, Massachusetts, Vermont, and New Hampshire; and (3) from Norwood and Walpole, Mass., and Phillipsdale, R.I., to points in York, Cumberland, Oxford, Androscoggin, Sagadahoc, Franklin, Kennebec, Waldo, Lincoln, Knox, Penobscot, Hancock, and Somerset Counties, Maine; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been prejudiced.

No. MC 119531 (Sub-No. 101) (Republication), filed December 1, 1968, published FEDERAL REGISTER issue of December 19, 1968, and republished this issue. Applicant: DIECKBRADER EXPRESS, INC., 5391 Wooster Road, Cincinnati, Ohio 45226. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Suite 1625, Chicago, Ill., 60602. By application filed December 1, 1968, applicant seeks a certificate of public convenience and necessity authorizing operations, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes of woodpulp, paper and paper products, (1) between points in McMinn County, Tenn., on the one hand, and, on the other points in Illinois, Indiana, Maryland, New Jersey, New York, Ohio, Pennsylvania, Virginia, Wisconsin, and the District of Columbia; and, (2) from Cincinnati, Ohio, to points in Ohio. A decision and order of the Commission, Review Board No. 3, dated September 3, 1969, and served October 1, 1969, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes; (1) of pulpboard, from West Point, Va., to plant and warehouse sites of Bowaters Southern Paper Corp. at or near Calhoun, Tenn.; (2) of paper and paper products; (a) from plant and warehouse sites of Bowaters Southern Paper Corp. at or near Calhoun, Tenn., to points in Maryland, New Jersey, New York, Pennsylvania, Wisconsin, the District of Columbia, Illinois (except Danville and Kankakee), Columbus and Indianapolis, Ind., points in Indiana within the Louisville, Ky., commercial zone as defined by the Commission, and points in Indiana north of U.S. Highway 40, and points in Virginia (except Charlottesville, Clifton Forge, Covington, Martinsville, Pulaski, Richlands, St. Paul, Staunton, and Waynesboro) restricted to the transportation of shipments originating at the specified plant and warehouse sites and destined to the specified destination points; and (b) from barge terminals or warehouse facilities of Bowaters Southern Paper Corp. at Cincinnati, Ohio, to points in Ohio, except Chillicothe, Ohio, restricted to the transportation of shipments having an immediately prior movement by water and destined to points in Ohio. Because it is possible that other parties, who may have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen, or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 133511 (Republication), filed February 20, 1969, published in the FEDERAL REGISTER issue of March 27, 1969, and republished this issue. Applicant: SECURITIES TRANSPORTATION CO., INC., 287 Kenberma Street, Manchester, N.H. Applicant's representative: Kenneth B. Williams, 111 State Street, Boston, Mass. 02109. A report of the Commission Review Board No. 4, has concluded that the application filed February 20, 1969, as amended, by applicant, has failed to meet its burden of proving a public need for common carrier service. Applicant's only present authority is in No. MC 129824, authorizing it to perform transportation for the New England Telephone Co., as a contract carrier by motor vehicle, over irregular routes, of coins, currency, receipts, and coin boxes, between Boston, Mass., on the one hand, and, on the other, points in New Hampshire and Vermont, and the transportation for which a need has been shown, is clearly an extension of its existing contract carrier rights. An order of the Commission, Review Board No. 4, decided September 24, 1969, and served September 30, 1969, finds that operation by applicant, in interstate or foreign commerce as a *contract carrier* by motor vehicle over irregular routes, of *tapes* used in the billing of toll calls, and intercompany communications between Boston, Mass., on the one hand, and, on the other, points in New Hampshire except points in Grafton, Sullivan, and Cheshire Counties, under a continuing contract with New England Telephone Co., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Commission and the Commission's rules and regulations thereunder. Because it is possible that other persons, who have relied upon the notice of the application as published may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.
