Chapter III—Agricultural Research Service, Department of Agriculture

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Gypsy Moth and Brown-Tail Moth

EXEMPTIONS

Under authority of § 301.45–2 of the Gypsy Moth and Brown-Tail Moth Quarantine regulations (7 CFR 301.45–2, as amended), a supplemental regulation exempting certain articles from specified requirements of the regulations, 7 CFR 301.45–2b, is hereby issued as set forth below. The Director of the Plant Protection Division has found that facts exists as to the pest risk involved in the movement of such articles which make it safe to relieve the requirements as provided therein.

§ 301.45–2b Exempted articles.

The following regulated articles are exempt[1] from the certification and permit requirements of this subpart if they meet the applicable conditions prescribed in paragraphs (a) through (g) of this section and have not been exposed to infestation after cleaning or other handling as prescribed in said paragraphs:

(a) Trees and shrubs, and parts of such trees and shrubs, if grown in a greenhouse throughout the year and so labeled on the outside of each container.

(b) Boughs, cuttings, and scions with stems no greater than one-half inch in diameter.

(c) Parts of trees and shrubs that have been dried, pressed, waxed, lacquered, varnished, or similarly surface treated.

(d) Lumber, if dressed or sawed four sides with ends clipped and free of surface bark; or if kiln dried: *Provided,* That such lumber is shipped directly after processing and the waybill or other shipping document is marked to show that the lumber was shipped immediately after processing.

(e) Wood products which have been manufactured, such as shingles, flooring, furniture, handles, etc.

(f) Shavings, sawdust, wood flour, excelsior, and cedar bedding, if not exposed to infestation in storage.

(g) Stone and quarry products, if processed by grinding or pulverizing.

(Secs. 8 and 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 F.R. 16210, as amended; 7 CFR 301.45–2)

This list of exempted articles shall become effective upon publication in the FEDERAL REGISTER (2–3–71) when it shall supersede the list of exempted articles, § 301.45–2b, which became effective November 23, 1968.

The principal purpose of this document is to delete from the list of exempted articles stone and quarry products if handled in accordance with a compliance agreement and shipped directly from establishments approved by the Director. It has been determined by the Director that exempting stone and quarry products moving from specifically approved establishments should no longer be allowed and that attachment of certificates or permits is necessary for the orderly movement of such products. Accordingly, PPD 640, which lists specifically approved establishments eligible to ship stone and quarry products without certification or permit, is hereby canceled.

---

[1] The articles hereby exempted remain subject to applicable restrictions under other quarantines.

This document imposes restrictions that are necessary in order to prevent the interstate spread of the gypsy moth and should be made effective promptly to accomplish its purpose in the public interest. Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. 553, that further notice and other public procedure with respect to this revision are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Hyattsville, Md., this 29th day of January 1971.

D. R. SHEPHERD,
Director,
Plant Protection Division.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 222, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907, 35 F.R. 16359), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

Order, as amended. The provisions in paragraph (b)(1) (i) and (ii) of § 907.522 (Navel Orange Reg. 222, Amdt. 1) are hereby amended to read as follows:

§ 907.522 Navel Orange Regulation 222.

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Miscellaneous Amendments

Notice was published in the FEDERAL REGISTER issue of January 1, 1971 (36 F.R. 22), that the Department was giving consideration to proposed amendments of the respective rules and regulations (Subpart—Rules and Regulations; §§ 907.100–907.142 and §§ 908.100–908.142; 35 F.R. 457), currently in effect pursuant to the applicable provisions of the marketing agreements, as amended, and Order Nos. 907 and 908, as amended (7 CFR Parts 907 and 908; 35 F.R. 16625, 16359), regulating, respectively the handling of Navel oranges and Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The amendments were proposed by the Navel Orange Administrative Committee and the Valencia Orange Administrative Committee, established pursuant to the amended marketing agreements and orders as the agencies to administer, respectively, the terms and provisions thereof. No written data, views, or arguments were filed with respect to said proposals during the period specified therefor in the notice.

After consideration of all relevant matters presented, including that in the notice, it is hereby found that amendment, as hereinafter set forth, of the respective rules and regulations is in accordance with the applicable marketing agreements and orders and will tend to effectuate the declared policy of the act and contribute to more effective operations under said marketing agreements and orders. Therefore, said rules and regulations are hereby amended as follows:

§§ 907.102, 908.102 [Amended]

1. Sections 907.102 (a) (3) *Nomination procedure* and 908.102(a) (3) *Nomination procedure* are amended by deleting the word "seven" in the first sentence of each subparagraph and inserting in lieu thereof the word "five."

2. Section 908.108 *Prorate bases and allotments* is amended by revising the second sentence of paragraph (a), deleting paragraph (b), and redesignating paragraphs (c), (d), and (e) as (b), (c), and (d), respectively, to read as follows:

§ 908.108 Prorate bases and allotments.

(a) *Application to be filed.* * * * Such application shall contain the information required pursuant to § 908.53 (b) and a certification to the U.S. Department of Agriculture and the Valencia Orange Administrative Committee by the handler that the information in the application is true and that he has control, for all purposes relating to this part, of the oranges described in the application. * * *

(b) *Change in control of oranges occasioned by transfer of real property.* In the event a change in control of oranges is occasioned by a bona fide transfer of the ownership of the real property on which such oranges were produced, the person gaining the control shall request the committee to make the adjustment prescribed in § 908.53(e). Such request shall set forth the names of the parties to the transfer, and be accompanied by a legal description of the real property transferred, the name of the county, the book, page number and date showing that such transfer has been duly recorded. The request shall also set forth the name of the person losing control of the oranges. Upon determination by the committee that the change in control of the oranges has been occasioned by such transfer, the quantity of oranges available for current shipment of the person gaining such control shall be adjusted by adding thereto a quantity of oranges equal to the quantity deducted from the oranges available for current shipment of the person losing control of such oranges. Such quantity shall be added during the same periods in which the deductions are effected in accordance with the provisions of paragraph (c) of this section.

(c) *Loss of control of oranges.* If a person loses control of oranges and has handled a quantity thereof less than the quantity that could have been handled under allotments issued thereon, the quantity of oranges available for current shipment by such person shall be adjusted by deducting therefrom a quantity of oranges equivalent to the quantity upon which allotments were issued, but which were not utilized thereon. The quantity so determined shall be deducted during a period of 4 consecutive weeks in all prorate districts (or during the remainder of the applicable marketing season for the respective prorate district if it is of shorter duration than the designated period): *Provided,* That, insofar as practicable, such deduction for any weekly period shall not exceed the amount which would decrease by one-half the allotment, other than short-life allotment, that otherwise would be issued to such person for such weekly period in the absence of such deduction, and, if necessary to effect this requirement, the applicable period specified in

this section for making such deductions may be extended.

(d) *Adjustment of prorate bases.* (1) The prorate bases of handlers shall be adjusted to correct errors, omissions, or inaccuracies, as provided in this part, during a period of 4 consecutive weeks in all prorate districts (or during the remainder of the applicable marketing season for the respective prorate district if it is of shorter duration than the designated period): *Provided,* That insofar as practicable, such deduction for any weekly period shall not exceed the amount which would decrease by one-half the allotment, other than short-life allotment, that otherwise would be issued to such person for such weekly period in the absence of such deduction, and, if necessary to effect this requirement, the applicable period specified in this section for making such deductions may be extended.

(2) When a handler has moved all of the oranges under his control in a particular district and has received allotment sufficient to repay all loans of allotments received by him under the provisions of § 908.57, such handler shall receive no further allotment for such oranges unless, during the same marketing season, he subsequently gains control of oranges, in the same district, which he desires to handle and promptly submits a report thereon to the committee in accordance with § 908.53(d).

3. Section 908.111 *Allotment loans* is amended by redesignating paragraph (b) (4), (5), and (6), as paragraph (b) (5), (6), and (7), respectively, revising the second sentence of paragraph (a)(1), and adding a new paragraph (b)(4) to read, respectively, as follows:

§ 908.111 **Allotment loans.**

(a) * * *

(1) *Payback date.* * * * Each loan agreement entered into between handlers in the same district to whom short-life allotments have been issued shall provide for the repayment of the loan during the time the borrowing short-life handler will be issued allotment.

* * * * *

(b) * * *

(4) In arranging loans for handlers to whom short-life allotments have been issued, the committee shall offer such loans first, to other handlers within the same district to whom short-life allotments have been issued; second, to handlers within the same districts to whom general maturity allotments have been issued; and third, to handlers in other districts to whom allotments have been issued. All such loans to handlers to whom general maturity allotments have been issued shall provide for a payback date within the scheduled shipping period of the lending short-life handler.

(5) Loan offers and requests received by the committee prior to 12 m. Monday shall be applied first to the arrangement of loans between handlers within the same prorate district in accordance with the following provisions:

(i) If requests from handlers, in a prorate district, for general maturity allotment exceed the quantity offered by handlers in that district, the quantity offered shall be apportioned to each borrowing handler so that the amount he receives bears the same ratio to the total amount received by all borrowing handlers as the amount of his tree crop bears to the total tree crop of all borrowing handlers. If the quantity of general maturity allotment offered in any prorate district exceeds the quantity requested in that district, the same proportion of each offering handler's allotment shall be loaned; and any surplus general maturity allotment from such prorate district shall be apportioned, as aforesaid, to fill requests from borrowing handlers in all other prorate districts.

(ii) If requests from handlers, in a prorate district, for short-life allotment exceed the quantity offered by handlers in that district, the quantity offered shall be equitably apportioned to each borrowing handler so that the amount he receives bears the same ratio to the total amount received by all borrowing handlers as his tree crop bears to the total tree crop of all borrowing handlers. If the quantity of short-life allotment offered in a prorate district exceeds the quantity requested in that district, the same proportion of each lending handler's allotment shall be loaned.

(iii) Such loan offers and requests may be modified or withdrawn any time prior to 12 m. Monday, after which time the committee shall arrange allotment loans on the basis of the offers and requests, including modifications thereof, then pending without further action by the handlers involved. Loan offers and requests not fully utilized in such allotment loan arrangements may be modified or withdrawn.

(6) Offers to loan allotment received by the committee at, or subsequent to, 12 m. Monday shall be applied first to the arrangement of loans to handlers within the same prorate district whose requests were received prior to such time, but had not been completely filled. Any remaining allotment shall then be applied to the arrangement of loans to handlers within that district to fill any requests as thereafter received. Allotment loan offers received from handlers in a prorate district at, or subsequent to, 12 m. Monday and for which there are no requests by handlers in that district, may be applied by the committee to the arrangement of loans to fill requests from handlers in other prorate districts. If the total allotment offered for loan in the same prorate district exceeds total requests in such district, the same proportion of each lending handler's allotment shall be loaned. If the quantity of allotment requested by handlers in a prorate district exceeds the quantity offered, the quantity each borrowing handler receives shall bear the same ratio to the total amount received by all borrowing handlers as his tree crop bears to the total tree crop of all borrowing handlers.

(i) Offers to loan, and request to borrow, allotment received at, or subsequent to, 12 m. Monday may be modified or withdrawn: *Provided,* That allotment loan arrangements with respect to such offered allotment have not been completed by the committee.

(7) Offers to loan, and requests for, allotment may be made in person, by telephone, or telegram, or in writing. Immediately after completing arrangements for a loan, the committee shall confirm the terms thereof by mailing VOAC Form 6 Confirmation of Allotment Loan to the handlers involved.

4. A new paragraph (c) is added to § 908.113 *Early maturity allotments* to read as follows:

§ 908.113 **Early maturity allotments.**

* * * * *

(c) Whenever the total amount of early maturity allotment the committee determines should be granted to handlers within a prorate district equals or is larger than the total amount applied for in such district, the full amount applied for in each application shall be granted. Whenever the total amount applied for exceeds the total amount of early maturity allotment the committee deems should be granted in the same proportion as the handler's tree crop bears to the total tree crop of requesting handlers in that district, but not in excess of the amount requested, and any allotment then remaining shall be granted in successive increments, as necessary, to handlers filing requests, in proportion to the tree crop controlled by each, but not in excess of the amount requested.

(Secs. 1–19, 48 Stat. 31, as amended; U.S.C. 601–674)

Dated, January 28, 1971, to become effective March 5, 1971.

Farm-to-Market Road 730 in a southeasterly direction to the junction of the Wise-Parker-Tarrant County lines; thence, following the Parker-Tarrant County line in a southerly direction to State Highway 199; thence, following State Highway 199 in a northwesterly direction to Farm-to-Market Road 1707; thence, following Farm-to-Market Road 1707 in a southwesterly direction to U.S. Highways 80, 180; thence, following U.S. Highways 80, 180 in a westerly direction to Farm-to-Market Road 51; thence, following Farm-to-Market Road 51 in a northerly direction to Farm-to-Market Road 920; thence, following Farm-to-Market Road 920 in a northwesterly direction to Farm-to-Market Road 1885; thence, following Farm-to-Market Road 1885 in a generally northwesterly direction to the Parker-Palo Pinto County line; thence, following the Parker-Palo Pinto County line in a northerly direction to the Parker-Jack County line; thence, following the Parker-Jack County line in an easterly direction to the Parker-Wise County line; thence, following the Parker-Wise County line in an easterly direction to Farm-to-Market Road 51; thence, following Farm-to-Market Road 51 in a northeasterly direction to its junction with U.S. Highways 81, 287.

(f) Notice is hereby given that there is no clinical evidence that the virus of hog cholera exists in swine in the following States, that systematic procedures are in effect to detect and eradicate the disease should it appear within any of such States, and that such States are designated as hog cholera eradication States:

California.	Maryland.
Connecticut.	New Mexico.
Delaware.	Oklahoma.
Georgia.	West Virginia.
Iowa.	

(g) Notice is hereby given that a period of more than 1 year has passed since there has been clinical evidence that the virus of hog cholera exists in the following States, that more than 1 year has passed since systematic procedures were placed in effect to exclude the virus of hog cholera and to detect and eradicate the disease should it appear within any of such States, and that the virus of hog cholera has been eradicated from such States and such States are designated as hog cholera free States:

Alaska.	South Dakota.
Idaho.	Utah.
Michigan.	Vermont.
Montana.	Washington.
Nevada.	Wisconsin.
North Dakota.	Wyoming.
Oregon.	

(Secs. 4–7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1–4, 33 Stat. 1264, 1265, as amended, sec. 1, 76 Stat. 481, secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111, 112, 113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210, as amended)

Effective date. The foregoing shall become effective upon issuance.

The provisions above include without change the texts of § 76.2 (e), (f), and (g), as amended, which continue in effect. This is done in order to incorporate all amendments in one document for the convenience of affected persons. These provisions do not change the rights or duties of any person.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this reissuance are impracticable and unnecessary and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 28th day of January 1971.

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

1. In § 76.2, in paragraph (e)(6) relating to the State of Missouri, subdivision (i) relating to Lafayette County is deleted.

2. In § 76.2, paragraph (f) relating to hog cholera eradication States is amended to read:

(f) Notice is hereby given that there is no clinical evidence that the virus of hog cholera exists in swine in the following States, that systematic procedures are in effect to detect and eradicate the disease should it appear within any of such States, and that such States are designated as hog cholera eradication States:

Arkansas.	Maryland.
Connecticut.	New Jersey.
Delaware.	New Mexico.
Georgia.	New York.
Illinois.	Oklahoma.
Iowa.	Pennsylvania.
Kansas.	

3. In § 76.2, paragraph (g) relating to hog cholera free States is amended to read:

(g) Notice is hereby given that a period of more than 1 year has passed since there has been clinical evidence that the virus of hog cholera exists in the following States, that more than 1 year has passed since systematic procedures were placed in effect to exclude the virus of hog cholera and to detect and eradicate the disease should it appear within any of such States, and that the virus of hog cholera has been eradicated from such States and such States are designated as hog cholera free States:

Alaska.	Oregon.
California.	South Dakota.
Idaho.	Utah.
Kentucky.	Vermont.
Michigan.	Washington.
Montana.	Wisconsin.
Nevada.	Wyoming.
North Dakota.	West Virginia.

(Secs. 4–7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1–4, 33 Stat. 1264, 1265, as amended, sec. 1, 75 Stat. 481, secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111, 112, 113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210, as amended)

Effective date. The foregoing amendments shall become effective upon issuance.

The amendments exclude a portion of Lafayette County, Mo., from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will not apply to the excluded area, but will continue to apply to the quarantined areas described in § 76.2(e). Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 will apply to the area excluded from quarantine.

The amendments delete California and West Virginia from the list of hog cholera eradication States in § 76.2(f) and the special provisions pertaining to the interstate movement of swine and swine products from and to such eradication States are no longer applicable to California and West Virginia. The amendments also add the States of Arkansas, Illinois, Kansas, New Jersey, New York, and Pennsylvania, to the list of hog cholera eradication States in § 76.2(f) and the special provisions pertaining to the interstate movement of swine and swine products from and to such eradication States under said Part 76 are applicable to Arkansas, Illinois, Kansas, New Jersey, New York, and Pennsylvania.

The amendments also add California, Kentucky, and West Virginia to the list of hog cholera free States in § 76.2(g) and the special provisions pertaining to the interstate movement of swine and swine products from and to such free States under said Part 76 are applicable to California, Kentucky, and West Virginia.

Insofar as the amendments impose certain further restrictions necessary to prevent the interstate spread of hog cholera, they must be made effective immediately to accomplish their purpose in the public interest. Insofar as they relieve restrictions, they should be made effective promptly in order to be of maximum benefit to affected persons.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary and contrary to the public interest, and good cause is found for

making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 28th day of January 1971.

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 70-WE-92]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On December 18, 1970, a notice of proposed rule making was published in the FEDERAL REGISTER (35 F.R. 19184) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the San Diego, Calif., transition area.

Interested persons were given 30 days in which to submit written commits, suggestions, or objections. No objections have been received and the proposed amendment is hereby adopted subject to the following change:

Delete FEDERAL REGISTER citation "* * * § 71.181 (35 F.R. 2134) * * *" and substitute "* * * § 71.181 (36 F.R. 2140) * * *" therefor.

Effective date. This amendment shall be effective 0901 G.m.t., April 1, 1971.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on January 26, 1971.

LEE E. WARREN,
Acting Director, Western Region.

In § 71.181 (36 F.R. 2140) the description of the San Diego, Calif., transition area is amended by deleting the geographical coordinates "* * * latitude 33°00'00" N., longitude 116°18'00" W., * * *" in the ninth line of the description of the transition area and substituting therefor "* * * latitude 33°18'00" N., longitude 116°10'30" W., thence to latitude 33°00'00" N., longitude 116°15'00" W., * * *"

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the transition area at Winner, S. Dak.

U.S. Standard for Terminal Instrument Procedures (TERPS) became effective November 18, 1967, and was issued only after extensive consideration and discussion with Government agencies concerned and affected industry groups. TERPS updates the criteria for the establishment of instrument approach procedures in order to meet the safety requirements of modern day aviation and to make more efficient use of the airspace possible. As a result, the criteria for designation of controlled airspace for the protection of these procedures were modified to conform to TERPS. The new criteria requires minor alteration of the Winner, S. Dak., transition area. Action is taken herein to reflect this change.

Since changes in most, if not all, existing airspace designations are required in order to achieve the increased safety and efficient use of the airspace that TERPS is designed to accomplish and since these changes are minor in nature, notice and public procedure hereon have been determined to be both unnecessary and impracticable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., April 1, 1971, as hereinafter set forth:

In § 71.181 (36 F.R. 2140), the following transition area is amended to read:

WINNER, S. DAK.

That airspace extending upward from 700 feet above the surface within a 7½-mile radius of the Wiley Field (latitude 43°23'25" N., longitude 99°50'40" W.); within three miles each side of the Winner VOR 212° radial extending from the 7½-mile-radius area to the VOR; and that airspace extending upward from 1,200 feet above the surface within 9½ miles northwest and 4½ miles southeast of the Winner VOR 032° and 212° radials extending from 5 miles southwest of the VOR to 18½ miles northeast of the VOR; and within 5 miles each side of the Winner VOR 212° radial extending from the VOR to 20 miles southwest of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on January 13, 1971.

Acting Director, Central Region.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the control zone and transition area at Worthington, Minn.

U.S. Standard for Terminal Instrument Procedures (TERPS) became effective November 18, 1967, and was issued only after extensive consideration and discussion with Government agencies concerned and affected industry groups. TERPS updates the criteria for the establishment of instrument approach procedures in order to meet the safety requirements of modern day aviation and to make more efficient use of the airspace possible. As a result, the criteria for designation of controlled airspace for the protection of these procedures were modified to conform to TERPS. The new criteria requires minor alteration of the Worthington, Minn., control zone and transition area. Action is taken herein to reflect these changes.

Since changes in most, if not all, existing airspace designations are required in order to achieve the increased safety and efficient use of the airspace that TERPS is designed to accomplish and since these changes are minor in nature, notice and public procedure hereon have been determined to be both unnecessary and impracticable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., April 1, 1971, as hereinafter set forth:

(1) In § 71.171 (36 F.R. 2055), the following control zone is amended to read:

WORTHINGTON, MINN.

That airspace within a 5-mile radius of Worthington Municipal Airport (latitude 43°39'17" N., longitude 95°35'01" W.). This control zone shall be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(2) In § 71.181 (36 F.R. 2140), the following transition area is amended to read:

WORTHINGTON, MINN.

That airspace extending upward from 700 feet above the surface, within an 8-mile radius of the Worthington Municipal Airport (latitude 43°39'17" N., longitude 95°35'01" W.); and that airspace extending upward from 1,200 feet above the surface within 9½ miles west and 4½ miles east of the Worthington VOR 358° radial extending from the VOR to 18½ miles north of the VOR; and within 9½ miles west and 4½ miles east of the Worthington VOR 189° radial extending from the VOR to 18½ miles south of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on January 13, 1971.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Land O'Lakes, Wis., transition area.

U.S. Standard for Terminal Instrument Procedures (TERPS) became effective November 18, 1967, and was issued only after extensive consideration and discussion with Government agencies concerned and affected industry groups. TERPS updates the criteria for the establishment of instrument approach procedures in order to meet the safety requirements of modern day aviation and to make more efficient use of the airspace possible. As a result, the criteria for designation of controlled airspace for the protection of these procedures were modified to conform to TERPS. The new criteria requires minor alteration of the Land O'Lakes, Wis., transition area. Action is taken herein to reflect this change.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., April 1, 1971, as hereinafter set forth:

In § 71.181 (36 F.R. 2140), the following transition area is amended to read:

LAND O'LAKES, WIS.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of King's Land O'Lakes Municipal Airport (latitude 46°09'15" N., longitude 89°12'31" W.); and within 9½ miles southwest and 4½ miles northeast of the 312° and 132° bearings from the King's Land O'Lakes Municipal Airport extending from the 5-mile-radius area to 18½-mile-radius area to 18½ miles northwest of the airport to 6 miles southeast of the airport.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Yankton, S. Dak., control zone and transition area.

U.S. Standard for Terminal Instrument Procedures (TERPS) became effective November 18, 1967, and was issued only after extensive consideration and discussion with Government agencies concerned and affected industry groups. TERPS updates the criteria for the establishment of instrument approach procedures in order to meet the safety requirements of modern day aviation and to make more efficient use of the airspace possible. As a result, the criteria for designation of controlled airspace for the protection of these procedures were modified to conform to TERPS. The new criteria requires minor alteration of the Yankton, S. Dak., control zone and transition area. Action is taken herein to reflect these changes.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., April 1, 1971, as hereinafter set forth:

(1) In § 71.171 (36 F.R. 2055), the following control zone is amended to read:

YANKTON, S. DAK.

That airspace within a 5-mile radius of Chan Gurney Municipal Airport (latitude 42°54'45" N., longitude 97°23'15" W.); within 2½ miles each side of the Yankton VOR 321° radial extending from the 5-mile radius to 7 miles northwest of the VOR. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(2) In § 71.181 (36 F.R. 2140), the following transition area is amended to read:

YANKTON, S. DAK.

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Chan Gurney Municipal Airport (latitude 42°54'45" N., longitude 97°23'15" W.); and within 9½ miles northeast and 4½ miles southwest of the Yankton VOR 321° radial extending from the 9-mile radius to 18½ miles northwest of the VOR; and that airspace extending upward from 1,200 feet above the surface within 9½ miles northeast and 4½ miles southwest of the Yankton VOR 135° radial extending from the VOR to 18½ miles southeast of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On January 9, 1971, F.R. Doc. 71-286 was published in the FEDERAL REGISTER (36 F.R. 319), amending Part 71 of the Federal Aviation Regulations by designating the Oneida, Tenn., transition area.

In the amendment, a transition area extension was predicated on the 221° bearing from Scott RBN. Subsequent to publication of the rule, the final approach bearing was changed to 220°. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, F.R. Doc. 71-286 is amended as follows: In line six of the Oneida, Tenn., transition area description "* * * 221° * * * *" is deleted and "* * * 220° * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Clovis, N. Mex., transition area.

On December 18, 1970, a notice of proposed rule making was published in the FEDERAL REGISTER (35 F.R. 19185) stating the Federal Aviation Administration proposed to alter this transition area.

Interested persons were afforded an oportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., April 1, 1971, as hereinafter set forth.

In § 71.181 (36 F.R. 2140) the Clovis, N. Mex., transition area is amended to read:

CLOVIS, N. MEX.

That airspace extending upward from 700 feet above the surface within a 23-mile radius of Cannon AFB, Clovis, N. Mex. (lat. 34°23'01" N., long. 103°18'58" W.; within 7.5 miles north and 2 miles south of the Texico VORTAC 254° and 074° radials, extending from the 23-mile-radius area to 1.5 miles east of the Texico VORTAC; and within 3.5 miles each side of the Portales NDB (lat. 34°10'45" N., long. 103°22'33" W.) 202° bearing extending from the 23-mile-radius area to 12 miles south of the NDB.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate the Taos, N. Mex., transition area.

On December 22, 1970, a notice of proposed rule making was published in the FEDERAL REGISTER (35 F.R. 19363) stating the Federal Aviation Administration proposed to designate a transition area at Taos, N. Mex.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., April 1, 1971, as hereinafter set forth.

In § 71.181 (36 F.R. 2140), the following transition area is added:

TAOS, N. MEX.

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of the Taos Municipal Airport (lat. 36°27'33" N., long. 105°40'31" W.; within 3 miles each side of a 215° bearing from the Taos NDB (lat. 36°27'40" N., long. 105°-40'10" W.) extending from the 6.5-mile-radius area to 8.5 miles southwest of the NDB; and that aispace extending upward from 1,200 feet above the surface beginning at lat. 36°07'00" N., long. 105°50'00" W., thence via a 25-mile arc centered on the Taos Municipal Airport coordinates (lat. 36°27'33" N., long. 105°40'31" W.) clockwise to lat. 36°48'00" N., long. 105°49'15" W., thence direct to lat. 36°30'00" N., long. 105°-30'00" W., thence direct to point of beginning.

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to change the using agency of the Lake Erie, Ohio, Restricted Area R-5505. This change was requested by the Department of the Navy.

Since this change is minor in nature and imposes no additional burden upon the public, notice and public procedure thereon are unnecessary, and good cause exists for making it effective on less than 30 days notice.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective upon publication in the FEDERAL REGISTER (2-3-71), as hereinafter set forth.

In § 73.55 (36 F.R. 2356) the Lake Erie, Ohio, Restricted Area R-5505 is amended by changing the using agency from "Commanding Officer, U.S. Naval Air Facility, Detroit, Mich." to "Commander, Lockbourne AFB, Ohio."

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 27, 1971.

T. MCCORMACK,
Acting Chief, Airspace and Air Traffic Rules Division.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, AAMCO Automatic Transmissions, Inc., et al., Bridgeport, Pa., Docket 8816, Dec. 17, 1970]

In the Matter of AAMCO Automatic Transmissions, Inc., a Corporation, and Robert Morgan, Individually and as an Officer of Said Corporation

Consent order requiring a major licensor of businesses specializing in the rebuilding, reconditioning, and repairing of automatic transmissions used in automobiles with headquarters in Bridgeport, Pa., to cease misrepresenting other products or services to obtain leads to transmission repair, misrepresenting that all customers receive 1-day service and that customers will receive credit, using the term "overhaul" where service does not include replacement of worn parts, failing to give all terms of a guarantee, failing to furnish customers with an itemized bill of all parts and labor prior to removal of the transmission, furnishing others with deceptive advertising material, failing to disclose respondent's national customer service office telephone number, failing to keep records of all

complaints, and failing to deliver a copy of this order to every present and future licensee.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

I. *It is ordered*, That these proceedings be, and hereby are, terminated as to respondent Anthony A. Martino.

II. *It is ordered*, That respondents AAMCO Automatic Transmissions, Inc.; a corporation, and its officers and Robert Morgan, individually and as an officer of said corporation, and respondents' agents and employees, directly or through any corporate or other device or through any agent, employee, licensee, or franchisee, in connection with the advertising, offering for sale, sale, repair, servicing or distribution of automobile transmissions or any other automotive component, part or repair, or other services or products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using any advertising, sales plan or procedure involving the use of false, deceptive or misleading statements or representations which are designed to obtain leads or prospects for the sale of products or services other than those offered or advertised.

2. Representing, directly or by implication, that any product or service is offered when such offer is not a bona fide offer to sell said product or service. However, respondents' licensees or franchisees shall not be required to provide a product or service when the licensee or franchisee determines in good faith that such products or service are not applicable to the proper repair of a transmission, or other automotive components.

3. Representing, directly or by implication that all customers will receive 1 day service; misrepresenting, in any manner to any customer, the availability or completion time of any service for the purpose of gaining or retaining custody of the customer's automobile.

4. Misrepresenting that respondents or their licensees or franchisees furnish credit to customers; provided that nothing herein shall be deemed to prohibit respondents or their licensees or franchisees from making truthful and nondeceptive references as to the availability of credit or the arrangements that may be made for credit.

5. Using the term "overhaul" or any other word or words of similar import or meaning to refer to any transmission service which does not include the removal, disassembly, and replacement of all worn parts and the reassembly and reinstallation of the transmission in the vehicle.

6. Misrepresenting, in any manner, the nature or extent of any service or parts necessary to properly repair an automotive component.

7. Representing that any article of merchandise or service is guaranteed unless all of the terms and conditions of the guarantee, the identity of the guarantor and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed.

8. Misrepresenting to a customer that his transmission problem is an internal one necessitating the removal of the transmission from the automobile and its disassembly for diagnosis.

9. Removing and disassembling the customer's transmission for the purpose of misrepresenting that a serious transmission problem has been discovered requiring major repair service.

10. Refusing to disclose to a customer the specific nature of any transmission problem after proper inspection procedures have been completed.

11. Obtaining authorization from any customer to remove, or removing, the transmission or any other part from any customer's automobile without clearly and emphatically informing the customer at the time such authorization is obtained and prior to the removal of said transmission or other part, of the charge which will be made for replacement of the transmission or other part in its former nonrepaired condition in the customer's automobile if the customer refuses to authorize further work thereon, or refusing or failing to replace said transmission or other part in its former nonrepaired condition when requested to do so by the customer for the stated charge or without charge in case none was stated prior to such removal.

12. Failing to provide all customers, at the time of billing, with an itemized list of all parts and labor for which the customer is being charged in connection with the sale, service or repair of an automobile transmission or any other automotive component; and if any such parts were used or reconditioned, a clear disclosure on such list of the fact that such parts were used or reconditioned as the case may be: *Provided*, That when an automobile transmission or other automotive component has been rebuilt in the manner set forth in such trade practice rules or guides for the Rebuilt, Reconditioned and Other Used Automotive Parts Industry as may be in effect, in lieu of such itemized list, a certification may be furnished in writing to the customer that states substantially as follows:

This certifies that the transmission (or other automotive component) has been dismantled, reconditioned or rebuilt as necessary; all external and internal parts cleaned, all defective parts restored or replaced as needed with new, rebuilt or sound used parts and such machining or other procedures performed as necessary to place your transmission (or other automotive component) in sound working condition.

This certification shall be signed by or on behalf of the licensee or franchisee responsible for the sale or installation of the transmission or other automotive component.

13. Failing to, at the time of suggesting to a customer that they repair, recondition or rebuild his transmission or other automotive component, prepare a written quotation sheet describing the costs involved in repairing, reconditioning or rebuilding the customer's transmission or other automotive component. Where alternative services are available, the quotation sheet shall set forth such alternatives. At the time of suggesting to a customer that they repair or rebuild his transmission or other automotive component, they shall orally inform the customer of the information contained in said quotation sheet. The customer, upon his request, shall be entitled to receive a copy of said written quotation sheet. Said written quotation sheet shall be kept available at the transmission shop for a period of not less than 12 months from the date it is prepared. When agreement is reached between a shop and a customer, the shop shall prepare a written work order setting forth the agreed repair or replacement work and the agreed price together with the agreed financing arrangement if it is not a cash transaction. A copy of this work order shall be furnished to the customer at the earliest practicable time, either by placing it in a conspicuous place in or upon his automobile or by delivering it to him in person when he next visits the transmission shop. In addition, the work order shall clearly disclose on its face, the following statement:

You Are Entitled To Receive a Copy of Our Quotation Sheet Which Sets Forth the Cost of the Service or Services Which Were Available to You.

Each shop shall display in a conspicuous place a large sign which states:

Inspection service includes written quotation sheet upon request.

14. Using any deceptive sales scheme or device to induce the sale of the products or services offered by respondents or their licensees or franchisees.

15. Placing in the hands of others advertising materials, sales manuals or any other thing for the purpose of misleading or deceiving prospective customers or customers as to any of the matters or things prohibited by this order.

16. Failing to continue to disclose clearly and conspicuously on invoices furnished by licensees or franchisees to their customers the identification, location and telephone number of respondents' national customer service office.

17. Failing to deliver by ordinary mail a copy of this order to each present and every future licensee or franchisee; and failing to obtain an agreement in writing from each present and every future licensee or franchisee to abide by the terms of this order. *Provided, however*, That as to any licensee or franchisee whose franchise agreement is in effect as of the effective date of this order, respondents' failure to obtain said agreement to abide by the terms of the order shall not be deemed a violation of this provision if, after having made a diligent effort to obtain said agreement from any such licensee or franchisee and such licensee or franchisee having failed or refused to execute such agreement, respondents inform the Commission of the identity of such licensee or franchisee.

18. Failing, after acceptance by the Commission of respondents' initial report of compliance to maintain, and have readily available, records of each and every complaint received by respondents

involving the acts and practices prohibited by this order and which: (1) Describe each and every complaint, including the name and address of the complaining party; (2) set forth the facts uncovered by respondents in connection with the investigation of each such complaint; and (3) state the disposition of each such complaint. Said records shall be maintained and kept readily available for at least 24 months following the month in which said records were created.

It is further ordered, That respondents and respondents' agents and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale, repair, servicing or distribution of automobile transmissions or other automotive components, parts or services, or other products or services, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

Representing, or from providing any advertising or promotional materials to any licensee or franchisee which represent, that automobile transmissions or other automotive components will be inspected, serviced or repaired for any particular price, or that any other service will be provided or product sold, for any particular price unless the particular price represents the price previously and independently determined by the licensees or franchisees participating in the advertising program or named in the advertisement. For the purposes of this paragraph, representations of price include, but are not limited to, representations that minor repairs will be made for $4.50 to $28.80, that inspections will be performed for $23 or that towing or any other service will be provided free of charge. Nothing herein shall be deemed to sanction price fixing.

It is further ordered, That respondents continue to maintain their program of surveillance which is designed and executed to enable respondents to reasonably determine whether any of their licensees or franchisees may be engaged in any of the acts and practices prohibited by the provisions of this order. The acts and practices of an individual licensee or franchisee which violate any provision of this order shall be determined a violation of this order by respondents, if upon having knowledge that such act or practice has occurred, respondents do not take reasonably diligent steps to effect a discontinuance of the act or practice by the licensee or franchisee. For the purpose of this paragraph "knowledge" shall be defined as that which is obtained through respondents' program of surveillance. The receipt of individual complaints shall not, in itself, be deemed to constitute "knowledge" provided that respondents shall promptly institute a specific surveillance investigation of any licensee or franchisee who is the subject of 18 or more customer complaints in any calendar year: *And further provided,* That the foregoing shall not excuse respondents from failure to investigate any complaints which may violate this order and which are discovered in the course of its regular program of surveillance. For the purpose of this paragraph "reasonably diligent steps" shall mean that (1) the licensee or franchisee shall be instructed by registered mail to discontinue the acts or practices which violate this order, with further instructions to reply in writing within 10 days agreeing to discontinue the said acts or practices; (2) failing to receive within 10 days from the licensee or franchisee a written agreement to discontinue said acts or practices, respondents shall send a second letter, registered mail, to the licensee or franchisee with instructions that such licensee or franchisee submit within 10 days a written agreement to discontinue said acts or practices, with a warning that upon failure to do so, the Federal Trade Commission will be notified of such refusal to comply with respondents' instructions; (3) in the event the licensee or franchisee does not agree in writing to discontinue such acts or practices, or if the respondents shall have knowledge (as defined above) that such acts and practices have not been discontinued, the respondents shall notify the Federal Trade Commission in writing, copy to licensee or franchisee, and offer its full facilities to assist the Commission in any action against said licensee or franchisee; (4) for a period of 60 days subsequent to knowledge (as defined above) that a licensee or franchisee had engaged in any of the acts or practices prohibited by the provisions of this order, respondents' surveillance department shall arrange its schedule so as to perform at least one inspection of said licensee or franchisee; and (5) if respondents shall have knowledge (as defined above) that a licensee or franchisee, for the purpose of obtaining a higher price, has knowingly misrepresented the extent of repairs necessary to properly repair customers' transmissions, or who fails to replace parts in customers' transmissions that licensee or franchisee represented as requiring replacement or is listed on customers' repair orders as having been replaced, and if the licensee or franchisee has been previously requested in writing (as covered above) to discontinue these specific acts and practices, the respondents, in addition to notifying the Federal Trade Commission of these facts, shall institute legal action for the purpose of having said licensee or franchisee's Franchise Agreement terminated.

It is further ordered, That respondents notify the Commission at least 30 days after any change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That respondents furnish a copy of this order to each of their operating divisions or departments.

It is further ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: December 17, 1970.

By the Commission.

Subpart—Advertising falsely or misleadingly: § 13.125 *Limited offers or supply;* § 13.155 *Prices:* 13.155-15 Comparative; 13.155-100 Usual as reduced or special, etc.; § 13.260 *Terms and conditions.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements;* § 13.1905 *Terms and conditions:* 13.1905-50 Sales contract.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Hollywood Credit Clothing Co., Inc., et al., Washington, D.C., Docket 8796, Dec. 31, 1970]

In the Matter of Hollywood Credit Clothing Co., Inc., a Corporation, and Barry Miller, Individually and as an Officer of Said Corporation

Order requiring a Washington, D.C., distributor of clothing, furniture, appliances and other merchandise to cease advertising any merchandise without disclosure of required conditions or obligations, misrepresenting that any article of merchandise is in short supply, that any article is reduced from its former price, that customers are afforded savings; failing to maintain records upon which savings claims are based, failing to furnish customers with copies of executed conditional sales contracts, and failing to comply with certain requirements of Regulation Z of the Truth in Lending Act.

The order to cease and desist, is as follows:

It is ordered, That respondents Hollywood Credit Clothing Co., Inc., a corporation, and its officers, and Barry Miller, individually and as an officer of said corporation, and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of clothing, furniture, appliances, linenware or other articles of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Advertising any merchandise when there are any conditions or obligations imposed or attempted to be imposed, without clearly and conspicuously disclosing such conditions or obligations in the advertisement.

2. Representing, directly or by implication, that any merchandise is available in limited quantity, or that customers should hurry because the merchandise will be sold out or will be unavailable for purchase when an adequate supply is available to respondents to meet reasonably anticipated demands; or misrepresenting in any other manner the quantity or availability of merchandise.

3. Representing, directly or by implication, through the use of terms such as "Our Lowest Price Ever," "special sale price," "savings," or in any other manner, that any price is reduced from respondents' former price; unless, respondents' business records establish and show that such price constitutes a significant reduction from the price at which such merchandise has been sold in substantial quantities or offered for sale in good faith by respondents for a reasonably substantial period of time, in the recent, regular course of their business.

4. (a) Representing, in any manner, that by purchasing any of said merchandise, customers are afforded savings amounting to the difference between respondents' stated price and respondents' former price unless such merchandise has been sold or offered for sale in good faith at the former price by respondents for a reasonably substantial period of time in the recent, regular course of their business.

(b) Representing, in any manner, that by purchasing any of said merchandise, customers are afforded savings amounting to the difference between respondents' stated price and a compared price for said merchandise in respondents' trade area unless a substantial number of the principal retail outlets in the trade area regularly sell said merchandise at the compared price or some higher price.

(c) Representing, in any manner, that by purchasing any of said merchandise, customers are afforded savings amounting to the difference between respondents' stated price and a compared value price for comparable merchandise, unless substantial sales of merchandise of like grade and quality are being made in the trade area at the compared price or a higher price and unless respondents have in good faith conducted a market survey or obtained a similar representative sample of prices in their trade area which establishes the validity of said compared price and it is clearly and conspicuously disclosed that the comparison is with merchandise of like grade and quality.

5. Representing, directly or by implication, that savings are available to purchasers or prospective purchasers of respondents' merchandise unless such is the fact; or misrepresenting, in any manner, the amount of savings available to purchasers or prospective purchasers of respondents' merchandise.

6. Failing to maintain adequate records (a) which disclose the facts upon which any savings claims, including former pricing claims and comparative value claims and similar representations of the type described in paragraphs 3–5 of this order are based, and (b) from which the validity of any savings claims, including former pricing claims and comparative value claims, and similar representations of the type described in paragraphs 3–5 of this order can be determined.

7. Failing or refusing to furnish purchasers of respondents' merchandise with a completed copy of the executed conditional sale contract or any other agreement at the time of execution by the purchaser.

8. Engaging in any consumer credit transaction or disseminating any advertisement within the meaning of Regulation Z of the Truth in Lending Act without making all disclosures that are required by §§ 226.6, 226.7, 226.8, and 226.10 of Regulation Z in the amount, manner, and form specified therein, and

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions, and

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

By "Final Order" further order requiring report of compliance is as follows:

It is further ordered, That Hollywood Credit Clothing Co., Inc., a corporation, and Barry Miller, individually and as an officer of said corporation, shall, within sixty (60) days after service of this order upon them, file with the Commission a report in writing, signed by the respondents named in this order, setting forth in detail the manner and form of their compliance with the order to cease and desist.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release No. 34-9048]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Registration and Reporting and Form for Annual Reports of Employee Stock Purchase Plans

The Securities and Exchange Commission has adopted certain amendments to its general rules and regulations under the Securities Exchange Act of 1934. These amendments to the general rules and regulations are part of the steps being taken to implement the recommendations contained in the Disclosure Policy Study report submitted to the Commission last year. They were published in preliminary draft form for public comment on September 15, 1969, in Securities Exchange Act Release 8680 (34 F.R. 14235). A number of helpful comments have been received and carefully considered in the preparation of the definitive draft of the rules.

A brief description of the changes effected in the general rules and regulations under the Securities Exchange Act is set forth below.

Rule 12b–23 (17 CFR 240.12b–23). This rule as amended incorporates in a single rule, applicable to both registration statements and reports, the previous requirements under sections 12, 13, and 15(d) with respect to incorporation by reference of matter other than exhibits. Incorporation of exhibits by reference is governed by Rule 12b–32 (17 CFR 240.-12b–32). In order that the microfiche system for the public dissemination of reports and documents filed with Commission may work, the amended rule requires that copies of information or financial statements incorporated by reference, or copies of the pertinent pages of any document containing such information or statement, be filed with the registration statement or report in which it is so incorporated.

Rule 12b–25 (17 CFR 240.12b–25). Rule 12b–25 provides for an extension of time within which to furnish any required information or document. An application for an extension is deemed to be granted unless it is denied within 15 days after its receipt. The amended rule provides for an extension of 30 days which can be renewed for an additional 30 days in appropriate cases. Thereafter, any further extension will be deemed to be denied unless the Commission enters an order granting it within 15 days after receipt of the request. The amended rule also spells out more explicitly the procedures to be followed in applying for extensions of time.

Rule 12b–34 (17 CFR 240.12b–34). Rule 24(b) of the Commission's rules of practice (17 CFR 201.24(b)) provides for the classification of certain documents as basic documents which may be placed in a special file to form a permanent record of the company to which the documents relate. The new Rule 12b–34 classifies certain documents as basic documents for the purpose of Rule 24(b) of the Commission's rules of practice. In addition, the rule requires companies filing a registration statement under section 12 of the Act to identify the exhibits filed therewith which are classified as basic documents. Companies having securities already so registered are required to identify in their next annual report all documents previously filed which are classified as basic documents. Where such documents have been amended, the rule provides that copes of the amended documents may be filed.

Rule 13a–1 (17 CFR 240.13a–1). This rule requires the filing of annual reports.

It previously provided that such reports were to be filed within 120 days after the end of the fiscal year or such other period as may be specified in the appropriate form. Since various forms provide for different filing periods, this rule has been amended to provide merely that annual reports shall be filed within the period specified in the appropriate report form.

Rules 13a–3 and 13a–4 (17 CFR 240.-13a–3, –4). These rules were special rules relating to incorporation by reference. In view of the provisions for incorporation by reference made in Rule 12b–23, these rules have been rescinded.

Rules 15d–1 and 15d–2 (17 CFR 240.-15d–1, –2). The amendments to the rules under section 15(d) of the Act conform those rules to the amendments to the rules under section 13(a) of the Act.

Form 11–K (17 CFR 249.311). Since the general rules and regulations no longer specify the period within which annual reports must be filed, Form 11–K has been amended to provide that annual reports on that form shall be filed within 90 days after the end of the fiscal year. This is consistent with the corresponding provision of the recently amended Form 10–K (17 CFR 249.310).

Commission action. Parts 240 and 249 of Chapter II of Title 17 of the Code of Federal Regulations have been amended as indicated below:

I. Section 240.12b–23 is amended to read as follows:

§ 240.12b–23 Incorporation by reference.

(a) Information contained in any part of a registration statement or report, other than exhibits, may be incorporated by reference in answer or partial answer to any item of the same statement or report. Information contained in an exhibit may be so incorporated to the extent permitted by § 240.12b–24.

(b) Any information, other than financial statements, contained in any of the following documents may be incorporated by reference in answer or partial answer to any item of a registration statement or report:

(1) A definitive proxy statement filed pursuant to section 14(a) of the Act or a definitive information statement filed pursuant to section 14(c) of the Act;

(2) A report to security holders; or

(3) A prospectus filed pursuant to § 230.424 (b) or (c) of this chapter.

(c) Any financial statement contained in any document referred to in paragraph (b) of this section or filed with the Commission pursuant to any Act administered by the Commission may be incorporated by reference in a registration statement or report if such financial statement substantially meets the requirements of the form on which the statement or report is filed. Financial statements or other financial data required to be given in comparative form for two or more fiscal years or periods shall not be incorporated by reference unless the material incorporated by reference includes the entire period for which the comparative data is required to be given.

(d) Copies of any information or financial statement incorporated by reference pursuant to paragraph (b) or (c) of this section, or copies of the pertinent pages of the document containing such information or statement, shall be submitted with the statement or report and shall be deemed to be filed with the Commission for all purposes of the Act.

(e) Matter incorporated by reference shall be clearly identified in the reference by page, paragraph, caption or otherwise. Where only certain pages of a document are incorporated by reference and filed with the statement or report, the document from which the material is taken shall be clearly identified in the reference. An express statement that the specified matter is incorporated by reference shall be made at the particular place in the statement or report where the information is required. Matter shall not be incorporated by reference in any case where such incorporation would render the statement or report incomplete, unclear or confusing.

II. Section 240.12b–25 is amended to read as follows:

§ 240.12b–25 Extension of time for furnishing information.

NOTE: The disclosures required in reports filed with the Commission are essential to the preservation of free, fair and informed securities markets. It is of critical importance that such reports be filed with the Commission on or before their respective due dates under the Commission's rules. Only the most compelling and unexpected circumstances justify a delay in the filing of a report and the dissemination to the public of the factual information called for therein.

(a) If any required information, document or report, other than an initial registration statement under section 12(g) of the Act, cannot, without unreasonable effort or expense, be furnished at the time it is required to be filed, the registrant shall, prior to such time, file with the Commission, as a separate document, an application (1) identifying the information, document or report in question, (2) stating in detail the specific reasons why the filing thereof at the time required cannot be made without unreasonable effort or expense, (3) requesting an extension of time for filing the information, document or report to a specified date not more than 30 days after the date it would otherwise have to be filed and (4) showing that such extension is consistent with the public interest and the protection of investors.

(b) If the requested extension is necessitated by the inability of any person other than the registrant to furnish any required opinion, information, report or certification (1) the application shall be accompanied by a statement signed by such person stating the specific reasons why such person is unable to furnish the required opinion, information, report or certification within the required time; and (2) the application shall state whether the registrant has published a preliminary release of sales and earnings and mailed an annual report to shareholders containing financial statements certified by independent accountants relating to the registrant's latest fiscal year.

(c) The application shall be deemed granted unless the Commission within 15 days after the receipt thereof shall enter an order denying the application or shall notify the registrant that the application does not meet the requirements of the section.

(d) One additional extension of not more than 30 days may be applied for following the same procedure as for the initial application. An application for any further extension of time shall be deemed to have been denied unless the Commission shall enter an order granting such application within 15 days after its receipt.

(e) If the application, or the extension of time granted, relates only to a portion of the required information, document, or report, the registrant shall file the remaining portion, and the portion filed shall prominently indicate the nature of the omitted portion.

III. Section 240.12b–34 has been adopted and reads as follows:

§ 240.12b–34 Basic documents.

(a) The following documents filed pursuant to section 12, 13 or 15(d) of the Act by any issuer, other than issuers registered under the Public Utility Holding Company Act of 1935 or the Investment Company Act of 1940, are classified as basic documents for the purpose of § 201.24(b) of this chapter.

(1) Articles of incorporation, declarations of trust, articles of association or partnership, or any similar instrument which effects (either with or without filing with any governmental agency) the organization or creation of an incorporated or unincorporated person;

(2) Bylaws or instruments corresponding thereto;

(3) Specimen copies of securities registered pursuant to section 12 of the Act;

(4) Trust indentures, contracts or other documents defining or limiting the rights of the holders of any class of securities so registered;

(5) Voting trust agreements;

(6) Amendments to any of the foregoing; and

(7) Any other documents classified as basic documents by the Commission pursuant to § 201.24(b) of this chapter.

(b) Every registration statement filed pursuant to section 12 of the Act, and every report filed pursuant to section 13 or 15(d) of the Act, after the effective date of this section shall clearly identify the exhibits filed with such statement or report which are classified as basic documents pursuant to paragraph (a) of this section. If any such exhibit is an amendment of a previously filed basic document, the document as amended may be filed and identified as a basic document in lieu of filing and identifying the amendment.

(c) Every issuer which on the effective date of this section is subject to the reporting requirements of section 13 or 15(d) of the Act shall, in its first annual

report filed after such effective date pursuant to either of such sections, identify each document previously filed with the Commission pursuant to the Act or the Securities Act of 1933 which is currently a basic document to the Act or the Securities Act of 1933 which is currently a basic document and shall identify the registration statements and reports in which such documents are contained. If one or more amendments of a basic document have been previously filed, copies of such document as amended may be filed with the report and identified as a basic document in lieu of identifying the registration statements or reports in which the original document and amendments thereto are contained.

IV. Section 240.13a–1 is amended to read as follows:

§ 240.13a–1 Requirement of annual reports.

Every issuer having securities registered pursuant to section 12 of the Act shall file an annual report on the appropriate form authorized or prescribed therefor for each fiscal year after the last full fiscal year for which financial statements were filed in its registration statement. Registrants on Form 8–B, § 249.308b of this chapter, shall file an annual report for each fiscal year beginning on or after the date as of which the succession occurred. Annual reports shall be filed within the period specified in the appropriate report form.

V. Section 240.15d–1 is amended to read as follows:

§ 240.15d–1 Requirement of annual reports.

Every registrant under the Securities Act of 1933 shall file an annual report, on the appropriate form authorized or prescribed therefor, for the fiscal year in which the registration statement under that Act became effective and for each fiscal year thereafter, unless the registrant is exempt from such filing by section 15(d) of the Securities Exchange Act of 1934. Annual reports shall be filed within the period specified in the appropriate report form.

VI. Section 240.15d–2 is amended as follows:

§ 240.15d–2 Special financial report.

(a) If the registration statement under the Securities Act of 1933 did not contain certified financial statements for the registrant's last full fiscal year (or for the life of the registrant if less than a full fiscal year) preceding the fiscal year in which the registration statement became effective, the registrant shall, within 90 days after the effective date of the registration statement, file a special report furnishing certified financial statements for such last full fiscal year or other period, as the case may be, meeting the requirements of the form appropriate for annual reports of the registrant.

§§ 240.15d–3, 240.15d–4 [Rescinded]

VII. Sections 240.15d–3 and 240.14d–4 are rescinded.

§ 249.311 [Amended]

VIII. The general instructions as to the use of Form 11–K (§ 249.311) have been amended.

Copies of Release 34–9048 containing the text of this amendment to Form 11–K have been filed with the Office of the Federal Register, and may be obtained on request from the Securities and Exchange Commission, Washington, D.C. 20549.

The foregoing amendments shall become effective February 4, 1971.

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 71–39]

PERMIT TO UNLADE; SECURITY OF CARGO IN UNLADING AREAS

On June 26, 1970, a notice of proposed rule making to amend the Customs Regulations to prescribe security measures for the protection of cargo in unlading areas was published in the FEDERAL REGISTER (35 F.R. 10463). Interested persons were given the opportunity to submit written comments, suggestions, or objections regarding the proposed regulations. After consideration of all such relevant matters as were presented, certain portions of the proposed amendments are hereby adopted, subject to the following changes:

(1) In § 4.30(l) language is added which requires the carrier to utilize a terminal which has suitable facilities for the transportation and storage of its merchandise as a condition to the granting of a permit to unlade. Also, the term "adequately secured" has been clarified.

(2) In § 4.30(m) the requirement has been added that the list of names, addresses, social security numbers, and dates and places of birth required by the district director be submitted to him in writing. Also the carrier has been given the responsibility of promptly advising the district director when the employment of any such person is terminated. A definition of when a person is deemed to be employed by a carrier has been included.

(3) In §§ 19.3 and 111.28 dealing with bonded warehouse proprietors and their employees and customhouse brokers and their employees, respectively, changes similar to those in § 4.30(m) have been made.

(4) In § 4.38 (c) and (d), direct supervision of delivery by a Customs officer has been made optional.

Minor editorial changes, and conforming changes to reflect changes in the cross-references are also made. The text of the amendments to the Code of Federal Regulations as adopted is set forth below, and shall become effective April 1, 1971.

Other portions of the proposed amendments, concerned with the issuance of identification cards (previously published as §§ 4.30(n), 19.3(e), and 111.28 (c) and (d)) are still under consideration.

[SEAL] EDWIN F. RAINS,
Commissioner of Customs.

Approved: January 29, 1971.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

Section 4.30 is amended to add new paragraphs (l) and (m), as follows:

§ 4.30 Permits and special licenses for unlading and lading.

* * * * *

(l) A permit to unlade pursuant to this Part 4 or Part 6 of this chapter shall not be granted unless the district director determines that the applicant provides or the terminal at which the applicant will unlade the cargo provides (1) sufficient space, capable of being locked, sealed, or otherwise secured, for the storage immediately upon unlading of cargo whose weight-to-value ratio renders it susceptible to theft or pilferage and of packages which have been broken prior to or in the course of unlading; and (2) an adequate number of vehicles, capable of being locked, sealed, or otherwise secured, for the transportation of such cargo or packages between the point of unlading and the point of storage. A term permit to unlade shall be revoked if the district director determines subsequent to such issuance that the requirements of this paragraph have not been met.

(m) A permit to unlade pursuant to this Part 4 or Part 6 of this chapter shall not be granted to an importing carrier, and a term permit to unlade previously granted to such a carrier shall be revoked, (1) if such carrier, within 30 days after the date of receipt of a written demand by the district director, does not furnish a written list of the names, addresses, social security numbers, and dates and places of birth of persons it employs in connection with the unlading, storage and delivery of imported merchandise; or (2) if, having furnished such a list, the carrier does not advise the district directr in writing of the names, addresses, social security numbers, and dates and places of birth of any new personnel employed in connection with the unlading, storage and delivery of imported merchandise within 10

days after such employment. If the employment of any such person is terminated, the carrier shall promptly advise the district director. For the purposes of this part, a person shall not be deemed to be employed by a carrier if he is an officer or employee of an independent contractor engaged by a carrier to load, unload, transport or otherwise handle cargo.

Section 4.38 is amended to add new paragraphs (c) and (d) as follows:

§ 4.38 Release of cargo.

* * * * *

(c) If the district director determines that, in a port or portion of a port, the volume of cargo handled, the incidence of theft or pilferage, or any other factor related to the protection of merchandise in Customs custody requires such measures, he shall require as a condition to the granting of a permit to release imported merchandise that the importer or his agent present to the carrier or his agent a fully executed pickup order in substantially the following format, in triplicate, to obtain delivery of any imported merchandise:

PICKUP ORDER

	_____ is authorized to pick up the merchandise indicated below
	(Trucker name)
	COD ☐ Bank release ☐ Collect ☐

Broker Name and Authorized Signature (if applicable)

Marks and Numbers	Pcs.	Description of goods	Entry No.	Importing carrier and AWB Number or B/L Number	Signature and date of receiving carrier	Remarks

Delivered quantities verified.....
Customs officer badge No.

.....
Date

The pickup order shall contain a duly authenticated customhouse broker's signature, unless it is presented by a person properly identified as an employee or agent of the ultimate consignee. When delivered quantities are verified by a Customs officer, he shall certify all copies of the pickup order, returning one to the importer or his agent and two to the carrier making delivery.

(d) When the provisions of paragraph (c) of this section are invoked by the district director and verification of delivered quantities by Customs is required, a permit to release merchandise shall be effective as a release from Customs custody at the time that the delivery of the merchandise covered by the pickup order into the physical possession of a subsequent carrier or an importer or the agent of either is completed under the supervision of a Customs officer, and only to the extent of the actual delivery of merchandise described in such pickup order as verified by such Customs officer.

(Secs. 448, 505, 46 Stat. 714, 732; 19 U.S.C. 1448, 1505)

PART 19—CUSTOMS WAREHOUSES AND CONTROL OF MERCHANDISE THEREIN

Section 19.3 is amended to add new paragraphs (d) and (e), as follows:

§ 19.3 Bonded warehouses; alterations; suspensions; discontinuance.

* * * * *

(d) The bonded status of a warehouse may be discontinued if, within 30 days after the date of receipt of a written demand by the district director, the proprietor fails to submit a written list of the names, addresses, social security numbers, and dates and places of birth of all persons employed by him in the carriage, receiving, storage or delivery of imported merchandise; or if, having furnished such a list, the proprietor fails to advise the district director in writing of the names, addresses, social security numbers, and dates places of birth of any new personnel employed by him in the carriage, receiving, storage or delivery of imported merchandise within 10 days after such employment. If the employment of any such person is terminated, the proprietor shall promptly advise the district director. For the purpose of this part, a person shall not be deemed to be employed by a warehouse proprietor if he is an officer or employee of an independent contractor engaged by the warehouse proprietor to load, unload, transport, or otherwise handle imported merchandise.

(e) The district director may at any time serve notice in writing upon any proprietor of a bonded warehouse to show cause why his right to continue the bonded status of his warehouse should not be discontinued for failure to comply with the requirements established in accordance with paragraph (d) of this section. Such notice shall advise him of the allegations and shall afford him the right to respond in writing within 10 days. Thereafter, the district director shall consider the allegations and responses made by the said proprietor unless the proprietor in his response requests a hearing. If a hearing is requested, it shall be held before a hearing officer designated by the Secretary of the Treasury or his designee within 30 days following requests therefor. The proprietor may be represented by counsel at such hearing, and all evidence and testimony of witnesses in such proceedings, including substantiation of the allegations and the responses thereto shall be presented, with the right of cross-examination to both parties. A stenographic record of any such proceeding shall be made and a copy thereof shall be delivered to the proprietor of the warehouse. At the conclusion of such proceeding or review of a written response, the hearing officer or the district director, as the case may be, shall forthwith transmit all papers and the stenographic record of the hearing, if held, to the Commissioner of Customs together with his recommendation for final action. The proprietor may submit in writing additional views or arguments to the Commissioner, following a hearing on the basis of the stenographic record, within 10 days after delivery to him of a copy of such record. The Commissioner shall thereafter render his decision in writing, stating his reasons therefor, with respect to the action proposed by the hearing officer or the district director. Such decision shall be served on the proprietor of the warehouse.

(Secs. 555, 556, 46 Stat. 743; 19 U.S.C. 1555, 1556)

PART 111—CUSTOMHOUSE BROKERS

Section 111.28 is amended to read as follows:

§ 111.28 Responsible supervision.

(a) *General rule.* Every licensed broker operating as a sole proprietor and every licensed member of a partnership and every licensed officer of an association or corporation which is licensed as a broker shall exercise responsibile supervision and control over the transaction of the Customs business of such sole proprietorship, partnership, association, or corporation.

(b) *List of employees.* Within 30 days after the date of receipt of a written demand by the district director, a licensed customhouse broker shall submit a list of the names, addresses, social security numbers, and dates and places of birth of persons currently employed. Having furnished such a list, each licensed customhouse broker shall, within 10 days after the employment of any new personnel, advise the district director of the names, addresses, social security numbers, and dates and places of birth of any such employees. If the employment of any such person is terminated, the customhouse broker shall promptly advise the district director.

Title 29—LABOR

Subtitle A—Office of the Secretary of Labor

PART 4—LABOR STANDARDS FOR FEDERAL SERVICE CONTRACTS

Exemption From Service Contract Act of Certain Mail Contracts of Owner-Operators

On pages 18923 and 18924 of the FEDERAL REGISTER of December 12, 1970, there was published a notice of a proposed amendment to § 4.6 of Title 29, Code of Federal Regulations, which exempts from the Service Contract Act of 1965 certain mail contracts to be entered into with owner-operators. Interested persons were given 30 days in which to submit in writing data, views, or arguments relative to the proposal.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

As this amendment relieves a restriction, it shall be effective upon publication in the FEDERAL REGISTER (2-3-71).

Signed at Washington, D.C., this 29th day of January 1971.

ROBERT D. MORAN,
Administrator of Workplace Standards.

In § 4.6 of Title 29, Code of Federal Regulations, paragraph (m) is amended as follows:

§ 4.6 **Labor standards clauses for Federal service contracts exceeding $2500.**

* * * * *

(m) * * *

(9) Any of the following contracts exempted from all provisions of the Service Contract Act of 1965, pursuant to section 4(b) of the Act, which exempt tions the Secretary of Labor hereby finds necessary and proper in the public interest or to avoid serious impairment of the conduct of Government business:

(i) Contracts entered into by the United States with common carriers for the carriage of mail by rail, air (except air star routes), bus, and ocean vessel, where such carriage is performed on regularly scheduled runs of the trains, airplanes, buses, and vessels over regularly established routes and accounts for an insubstantial portion of the revenue therefrom;

(ii) Any contract entered into by the U.S. Postal Service with an individual owner-operator for mail service where it is not contemplated at the time the contract is made that such owner-operator will hire any service employee to perform the services under the contract except for short periods of vacation time or for unexpected contingencies or emergency situations such as illness or accident.

PART 50—NEIGHBORHOOD YOUTH CORPS PROJECTS

Project Standards for New Out-of-School Agreements

Pursuant to authority contained in section 602 of the Economic Opportunity Act of 1964, as amended (78 Stat. 528, 79 Stat. 973, 80 Stat. 1451, 81 Stat. 672, 83 Stat. 827, 42 U.S.C. 2701 et seq.), the delegation of authorities to the Secretary of Labor by the Director of the Office of Economic Opportunity (33 F.R. 15139), and Secretary's Order No. 14-69 (34 F.R. 6502), Part 50 of Subtitle A of Title 29 of the Code of Federal Regulations is hereby amended to read as set forth below.

The provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 553) requiring notice and public procedure are not applicable since these regulations involve only matters that relate to public benefits. Further, I do not believe that such procedure would in any event serve a useful purpose here. The amendments shall become effective 30 days after publication in the FEDERAL REGISTER.

1. In § 50.22, subparagraph (2) of paragraph (h) is amended to read as follows:

§ 50.22 **Standards for projects.**

* * * * *

(h) * * *

(2) New enrollments are limited to youths 16 and 17 years of age who have left full-time attendance in grade school or high school prior to graduation, and who are defined as disadvantaged persons: *Provided, however,* The Project Director may allow up to 10 percent of new enrollments to be youths who are 18 and 19 years of age. Otherwise eligible persons may be enrolled in a project on an Indian reservation, or in a project where the majority of the enrollees are Indians, at any age from 16 through 21, without restriction as to age ratios. Persons may be enrolled who are employed at the time of enrollment and may remain employed during enrollment if they are employed part-time or at a skill level substantially less than they are capable of before training in NYC. No person may remain enrolled for more than 24 months, or after his 22d birthday, whichever occurs first.

PART 70—EXAMINATION AND COPYING OF LABOR DEPARTMENT DOCUMENTS

Disclosure of Evaluation Reports

Pursuant to authority in 5 U.S.C. 301, 552, 559, and in Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), Part 70 of Title 29 of the Code of Federal Regulations is amended by revising § 70.3 to read as set out below.

As the change made by this document relates solely to an interpretative rule or a general statement of policy, neither notice of proposed rule making and public participation therein, nor delay in effective date is required by 5 U.S.C. 553. I do not believe such participation or such delay would serve a useful purpose here. This amendment shall, therefore, be effective upon publication in the FEDERAL REGISTER (2-3-71).

Section 70.3, as revised on January 26, 1970 (35 F.R. 1289), is further revised to read as follows:

§ 70.3 **Disclosure policy; exemptions.**

(a) Except with respect to matters specifically required by Executive order to be kept secret in the interest of national defense or foreign policy and with respect to matters specifically required by statute to be kept secret, the officer authorized to disclose documents, as provided in § 70.4(b), shall make available for inspection and copying:

(1) Within 45 days after receipt thereof, any document, or part thereof, containing a final evaluation, by an independent contractor, of any external program or activity carried out by the Department of Labor; and

(2) Any other document, if he determines that such disclosure furthers the public interest and does not impede the discharge of any of the functions of the Labor Department.

(b) Except as provided in paragraph (a) or (c) of this section, the officer authorized to disclose a document, as provided in § 70.4(b), may decline to disclose matters that are: (1) Specifically required by Executive order to be kept secret in the interest of national defense or foreign policy; (2) related solely to the internal personnel rules and practices of any administration, bureau, or office of the Department of Labor; (3)

specifically exempted from disclosure by statute; (4) trade secrets and commercial or financial information obtained from any person and privileged or confidential; (5) interagency or intra-agency memoranda or letters; (6) personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; or (7) investigatory files compiled for law enforcement purposes.

(c) Documents relating to Federal Employees' Compensation Act claims may be made available for inspection as provided in 20 CFR 1.22, and for copying as provided in § 70.6.

(5 U.S.C. 301, 552, 559. Reorganization Plan No. 6 of 1950, 3 CFR 1949–53 Comp., p. 1004)

Withdrawal for Reclamation Project and Revocation of Departmental Order of July 26, 1906

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), and the authority contained in section 3 of the Act of June 17, 1902, 32 Stat. 388, as amended and supplemented, 43 U.S.C. section 416 (1964), it is ordered as follows:

1. Subject to valid existing rights, the following described public land, which is under the jurisdiction of the Secretary of the Interior, is hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws, and reserved for flood control in the area of the Lower Reservation Levee and the

flood plain of the Colorado River for the Reservation Division of the Yuma Project:

SAN BERNARDINO MERIDIAN

T. 16 S., R. 22 E.,
Sec. 30, lots 5 to 10, inclusive.

Containing 165.92 acres in Imperial County.

2. The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws: *Provided*, That such use or disposition will not be inconsistent with the purpose for which the land is withdrawn in connection with the Lower Reservation Levee, Reservation Division, Yuma Project, which project was authorized by the Act of June 28, 1946, 60 Stat. 369.

3. The departmental order of July 26, 1906, withdrawing the land described in paragraph 1 of this order for use by the U.S. Forest Service as a planting area is hereby revoked.

Amendment of Public Land Order No. 3836 (Fort Chaffee Military Reservation)

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Public Land Order No. 3836 of September 27, 1965, which transferred jurisdiction over oil and gas deposits underlying certain acquired lands at Fort Chaffee Military Reservation, as amended by Public Land Order No. 4434 of June 3, 1968, is hereby further amended in the following respects:

(a) To add thereto the transfer of jurisdiction over oil and gas deposits within the following described lands:

FIFTH PRINCIPAL MERIDIAN

T. 7 N., R. 30 W.,
Sec. 4, SW¼SW¼, and those portions of the NW¼SW¼ and the SW¼NW¼ lying south and west of State Highway No. 22;
Sec. 5, that portion lying south of State Highway No. 22;
Sec. 6, that portion lying south of State Highway No. 22 excepting 2½ acres within the SE¼NE¼ which adjoins the southerly R.O.W. of Highway No. 22 and the east line of said section;
Secs. 7, 8, and 9;
Sec. 10, W½, and that portion lying below State Highway No. 22.

T. 7 N., R. 31 W.,
Sec. 1, S½, that portion of the NE¼ lying south of State Highway No. 22, excepting a portion of the SW¼NE¼ which extends 420 feet south of Highway No. 22, and 315 feet east of the west line of the SW¼NE¼, that portion of the NW¼ lying south of the Missouri Pacific Railroad, north of Highway No. 22 and extending 830 feet easterly from the west line of the NW¼, and that portion of the SW¼NW¼ lying south of Highway No. 22;
Secs. 2, 11, and 12.

The areas described aggregate 6,202.26 acres.

2. Jurisdiction over the oil and gas deposits owned by the United States underlying the acquired lands described in paragraph 1(a), above, is hereby transferred from the Department of the Army to the Department of the Interior, subject to all the provisions and limitations of Public Land Order No. 3836 as herein amended.

Title 49—TRANSPORTATION

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Lamps, Reflective Devices, and Associated Equipment

Motor Vehicle Safety Standard No. 108, establishing requirements for lamps, reflective devices, and associated equipment on motor vehicles was amended on October 31, 1970 (35 F.R. 16840). Thereafter, pursuant to 49 CFR 553.35 (35 F.R. 5119) petitions for reconsideration of the amendment were filed by Freightliner Corp., Ford Motor Co., Japan Automobile Manufacturers Association, Inc., Wagner Electric Corp., General Motors Corp., Chrysler Corp., Rohm and Haas Co., Motor Coach Industries, International Harvester Co., and Motorcycle Industry Council, Inc. The petitions of Harley-Davidson Motor Co., Inc., Kawasaki

Motors Corp., White Motor Corp., Hackney Bros. Body Co., and a supplement to the Japan AMA petition were not timely filed, and have been treated as petitions for rulemaking pursuant to 49 CFR 553.31. However, some of the issues raised in these petitions are similar to those contained in timely filed petitions.

In response to information contained in several of the petitions the standard is being amended. The Administrator has declined to grant requested relief from other requirements of the standard.

1. *Effective date.* General Motors, Ford, and Chrysler have petitioned for an extension of the effective date, stating that compliance is impracticable for 1971 models which, as of July 1, 1971, have only a short production life before the end of the model run. The Bureau has determined therefore that an effective date later than 1 year from issuance of the original amendment is in the public interest. The effective date of the standard is extended to January 1, 1972.

2. *Paragraph S4.1.1.7.* This paragraph is being amended to clarify that its stop lamp requirement does not apply to passenger cars manufactured before January 1, 1973, and to correctly cite SAE Standard J588d, "Turn Signal Lamps," June 1966, as the standard incorporated by reference.

3. *Paragraph S4.1.1.14.* The amendment inadvertently omitted installation requirements for backup lamps. This paragraph is hereby amended to correct the omission, and to insure that current installation requirements remain in effect until January 1, 1973.

4. *Paragraph* S4.1.1.16. Japan AMA and Motorcycle Industry Council objected to the portion of this paragraph that would require motorcycles, as of January 1, 1973, to be equipped with turn-signal units designed to complete a durability test of 100,000 cycles. In order to allow time for further industry study and comment on this aspect of performance, the requirement is withdrawn from the standard. It is anticipated, however, that an increased durability test cycle for motorcycle turn-signals will be proposed in a future rulemaking action.

5. *Paragraph S4.1.2.* Ford, Chrysler, and Rohm, and Haas petitioned for reduction of the heat test cycle of the warpage test from 10 to 5 minutes or, in the alternative, for an extension of the effective date of this requirement. The Traffic Safety Administration has determined that the 10-minute cycle is appropriate because of the frequency of usage of stop and backup lamps. The petitions for reduction of the test cycle are therefore denied. However, because of the leadtime for development and tooling of new lamps which may be required, good cause is considered shown for postponement of the effective date for this requirement until January 1, 1973.

6. *Paragraph S4.3.1.8 and Table II.* General Motors, Motor Coach Industries, and International Harvester objected to the reduction in the maximum allowable spacing of identification lamps (from 6 to 12 inches, to 6 to 8 inches), alleging that there is no safety justification for the requirement, and that compliance by July 1, 1971, is impracticable. It is recognized that other approaches to wide-vehicle identification, such as minimum spacing between identification and clearance lamps, have merit. These approaches are being considered and, as deemed appropriate, will be incorporated into future rulemaking proposals. Accordingly, the petitions are granted; Table II is amended to reinstate the 6 to 12 inch spacing, and S4.3.1.8 is deleted.

7. *Paragraph S4.4.2 and Tables I and III.* Wagner Electric petitioned for reconsideration of the omission of sampling provisions from SAE Standard J590b, "Turn-Signal Units", October 1965, and SAE Standard J945, "Vehicular Hazard Warning Unit", February 1966. Letters have also been received inquiring as to the number of flashers constituting a sample for test and the number of failures allowable for compliance. Standard No. 108 was amended without notice to omit sampling provisions in order to bring the standard into conformity with the National Traffic and Motor Vehicle Safety Act of 1966, which requires that all items conform to applicable standards. Therefore the safety standards should not specify sampling provisions or failure rates. It is the manufacturer's responsibility to institute a test program that is sufficient to legally constitute due care, on a continuing basis, to insure that all products manufactured after the effective date of a standard meet the applicable requirements. However, in response to the procedural objection that the change is important enough to merit notice and opportunity for comment, Wagner's petition is granted and paragraph S4.4.2 and Tables I and III are being amended to strike the language precluding sampling provisions. At the same time, this agency is publishing today a notice (Docket No. 69–18; Notice 3, 36 F.R. 1913 proposing omission of sampling provisions as of January 1, 1972, the date when this omission would otherwise have been effective.

8. *Paragraph S4.5.6.* International Harvester asked that the exemption for lamp outage indication be extended to vehicles equipped with auxiliary lamps or wiring, since these vehicles, like vehicles equipped to tow trailers, use variable load flashers. However, fixed load flashers providing lamp outage indication are available on the market for the increased load of an auxiliary lamp. The manufacturer can provide the appropriate flasher with foreknowledge of the intended end configuration of the vehicle, and International Harvester's petition is therefore denied.

9. *Tables II and IV.* Freightliner, International Harvester, and White Motor requested that the maximum mounting height allowable for turn-signal units, 72 inches, be reconsidered. This agency believes that most turn-signal lamps are presently mounted at or below the height of 72 inches, and that no detriment to motor vehicle safety would occur if the maximum mounting height were increased to 83 inches to allow higher mounting of turn-signals on cab-over-engine trucks, snow removal equipment, and other vehicles where a lower height may be impracticable. Tables II and IV are being revised accordingly. In Table IV the word "rear" was inadvertently omitted in that position of Column 2 establishing location requirements for side reflex reflectors, and has been reinserted.

10. *Table III.* Motorcycle Industry Council recommended that SAE Standard J584a, "Motorcycle and Motor Driven Cycle Headlamps," October 1969, be incorporated by reference rather than SAE Standard J584, April 1964. Such an amendment is beyond the scope of the original rulemaking proposal. Reference of the upgraded SAE Standard is being considered for a future rulemaking action. The petition is denied.

In addition, General Motors, Japan AMA, Motorcycle Industry Council, Harley-Davidson, and Kawasaki objected that the 300 candlepower limitation on motorcycle amber rear turn signals is unduly restrictive. Motorcycle Industry Council, Harley-Davidson, and Kawasaki objected to the spacing requirements for motorcycle turn-signal lamps. Both of these matters are still under reconsideration and will be disposed of at a later date.

In consideration of the foregoing, S4.1.1.7, S4.1.1.14, S4.1.1.16, S4.1.2, S4.3.1.8, S4.4.2, Table I, Table II, Table III and Table IV, of Motor Vehicle Safety Standard No. 108 in 49 CFR 571.21 are revised as follows:

S4.1.1.7. Stop lamps on each passenger car manufactured on or after January 1, 1973, and turn-signal lamps on each passenger car shall meet the photometric minimum candlepower requirements for Class A red turn-signal lamps, and shall have effective projected illuminated areas not less than those of Class B lamps as specified in SAE Standard J588d, 'Turn Signal Lamps,' June 1966. If multiple compartment lamps or multiple lamps are used, the effective projected illuminated area of each compartment or lamp shall be not less than that of a Class B lamp; however, Class A photometric requirements may be met by a combination of compartments or lamps.

* * * * *

S4.1.1.14. In lieu of conformance with SAE Standard J593c, February 1968, a vehicle manufactured before January 1, 1973, may be equipped with backup lamps conforming to SAE Standard J593b, May 1966, and the installation requirements of SAE Standard J593c, February 1968.

* * * * *

S4.1.1.16. All passenger cars, and multipurpose passenger vehicles, trucks, and buses of less than 80 inches overall width manufactured before January 1, 1973, may be equipped with Class B turn signal operating units. Such vehicles manufactured on or after January 1, 1973, shall be equipped with turn signal operating units designed to complete a durability test of 100,000 cycles.

* * * * *

S4.1.2. Plastic materials used for optical parts such as lenses and reflectors shall conform to SAE Recommended Practice J576b, "Platic Materials for Use in Optical Parts, such as Lenses and Reflectors, of Motor Vehicle Lighting Devices," August 1966. Plastic materials used as inner lenses or those covered by another material and not exposed directly to sunlight shall meet the requirements of paragraphs 3.4 and 4.2 of SAE J576b when covered by the outer lens or other material. Except for a stop lamp lens or a backup lamp lens, each plastic lens shall conform to section L, 'Warpage Test Devices with Plastic Lenses', of SAE Standard J575d, 'Test for Motor Vehicle Lighting Devices and Components', August 1967. A plastic lens for a stop lamp or a backup lamp manufactured on or after January 1, 1973, shall conform to section L of SAE Standard J575d and shall be tested with the lamp cycled on for 10 minutes and off for 10 minutes through the 1-hour warpage test.

* * * * *

S4.3.1.8 [Deleted]

* * * * *

S4.4.2. Each combination turn signal and hazard warning signal flasher shall, when tested consecutively in accordance with SAE Standard J590b, "Automotive Turn Signal Flasher", October 1965, and then SAE Standard J945, "Vehicular Hazard Warning Signal Flasher", February 1966, meet the requirements of both these standards.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 28—PUBLIC ACCESS, USE, AND RECREATION

PART 33—SPORT FISHING

Certain Wildlife Refuges in Southeast United States

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER (2-3-71).

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

ALABAMA

WHEELER NATIONAL WILDLIFE REFUGE

Area open to transportation of unstrung bows and arrows when used for fishing in conformance with Alabama State fishing regulations. This regulation effective March 1, 1971 through June 15, 1971.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

VIRGINIA

CHINCOTEAGUE NATIONAL WILDLIFE REFUGE

Public sport fishing, crabbing, and clamming, in accordance with Virginia regulations, is permitted on the Chincoteague National Wildlife Refuge, Va., subject to the following conditions:

(1) Open areas: (a) Surf fishing—the entire beach front, except those areas designated by signs as areas closed to fishing, (b) Fishing and crabbing—from the impoundment banks designated as open to fishing, (c) Clamming—the area between high and low tide marks in Tom's Cove, except as posted closed.

(2) Permits: A permit is required for fishing from 10 p.m. to sunrise; no permit is required at other times.

FLORIDA

ST. VINCENT NATIONAL WILDLIFE REFUGE

Sport fishing on the St. Vincent National Wildlife Refuge, Franklin County, Apalachicola, Fla., is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 360 acres, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Sport fishing shall be in accordance with all applicable State regulations.

(1) The sport fishing season extends from date of this announcement through October 30, 1971.

(2) Fishermen are permitted on the refuge from 1 hour before sunrise to 1 hour after sunset.

(3) No motors of any type may be used.

(4) Users must follow designated routes of travel from the beach to the open fishing area.

(5) Boats may be left on the island at designated points during the open season provided they are identified with their owner's name and address. Boats must be removed from the refuge no later than October 30, 1971.

(6) Use of live minnows as bait is prohibited.

ST. MARKS NATIONAL WILDLIFE REFUGE

Sport fishing on the St. Marks National Wildlife Refuge, St. Marks, Fla., is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 50,000 acres, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Sport fishing shall be in accordance with all applicable State regulations except the following special conditions:

(1) The sport fishing season on the refuge extends from March 15, 1971 through October 15, 1971.

(2) Fishing permitted one-half hour before sunrise until one-half hour after sunset, 7 days a week.

(3) Boats with gasoline engines to 4 horsepower and electric motors are permitted.

(4) Trotlines as permitted by State regulations are allowed except that lines shall be taken up prior to closing hour of fishing daily.

LAKE WOODRUFF NATIONAL WILDLIFE REFUGE

Sport fishing on the Lake Woodruff National Wildlife Refuge, DeLeon Springs, Fla., is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 650 acres, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Sport fishing shall be in accordance with all applicable State regulations except the following special conditions:

(1) The sport fishing season is open year-round on refuge waters west of Norris Dead River, Lake Woodruff, and Spring Garden Creek. The open season extends from March 15, 1971, to October 15, 1971, in refuge waters east of the Norris Dead River, Lake Woodruff, and Spring Garden Creek.

(2) Fishing on refuge waters is permitted during daylight hours only.

(3) Air-thrust boats are prohibited.

(4) Firearms of any type are prohibited.

LOXAHATCHEE NATIONAL WILDLIFE REFUGE

Sport fishing on the Loxahatchee National Wildlife Refuge, Delray Beach, Fla., is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 74,492 acres, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Sport fishing shall be in accordance with all applicable State regulations except the following special conditions:

(1) The sport fishing season on the refuge extends from February 23, 1971, to February 22, 1972.

(2) Fishing is restricted to 1 hour before sunrise until 1 hour after sunset.

(3) Boats may enter or leave the refuge only at the three public ramps as follows: (a) North end of the refuge at S-5A landing; (b) headquarters boat ramp; (c) S-39 boat ramp on south end of refuge.

(4) Method of fishing is with attended rod and reel and/or pole and line. Trotlines, limb lines, nets, or other set tackle prohibited.

(5) Air-thrust boats may be authorized only by special permit issued by the refuge manager. Speedboats and racing craft are prohibited except for official purposes.

(6) Persons must follow such routes of travel within the area as may be designated by posting by the refuge officer-in-charge. To protect Government property or wildlife the refuge officer-in-charge may close any or all of the area.

GEORGIA

BLACKBEARD ISLAND NATIONAL WILDLIFE REFUGE

Sport fishing on the Blackbeard Island National Wildlife Refuge, McIntosh County, Townsend, Ga., is permitted only on the areas designated by signs as open to fishing. Those open areas, comprising 680 acres, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Sport fishing shall be in accordance with all applicable State regulations except the following special conditions:

(1) The sport fishing season on the refuge extends from March 15, 1971, through October 25, 1971.

(2) Fishing is permitted in daylight hours only.

(3) Boats with motors prohibited.

(4) Use of live minnows as bait prohibited.

PIEDMONT NATIONAL WILDLIFE REFUGE

Sport fishing on the Piedmont National Wildlife Refuge, Round Oak, Ga., is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 10 acres, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Sport fishing shall be in accordance with all applicable State regulations except the following special conditions:

(1) The sport fishing season on the refuge extends from March 1, 1971, through November 15, 1971.

(2) Fishing permitted during daylight hours only.

(3) Boats with motors prohibited.
(4) Use of live minnows as bait prohibited.

SOUTH CAROLINA

SAVANNAH NATIONAL WILDLIFE REFUGE

Sport fishing on the Savannah National Wildlife Refuge, Jasper County, Hardeeville, S.C., is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 3,000 acres, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Sport fishing shall be in accordance with all applicable State regulations except the following special conditions:

(1) The sport fishing season on the refuge extends from March 15, 1971, through October 25, 1971.

(2) Fishing is permitted during daylight hours only.

(3) Boats powered with electric outboard motors are permitted in the impoundments. Boats powered with gasoline outboard motors are prohibited in the impoundments.

ALABAMA

CHOCTAW NATIONAL WILDLIFE REFUGE

Sport fishing on the Choctaw National Wildlife Refuge, Jackson, Ala., is permitted only on the areas designated by signs as open to fishing. These open areas are shown on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Sport fishing shall be in accordance with all applicable State regulations except the following special conditions:

(1) The sport fishing season on the refuge extends from February 15, 1971, through November 30, 1971.

(2) Fishing is permitted during daylight hours only.

The provisions of these special regulations supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1971.

W. L. TOWNS,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 29]

TOBACCO INSPECTION

Proposed Official Standards for Georgia and Florida Shade-Grown Cigar-Wrapper

Notice is hereby given that the U.S. Department of Agriculture has under consideration the issuance of Official Standard Grades for Georgia and Florida Shade-grown Cigar-wrapper Tobacco, U.S. Type 62, pursuant to the authority contained in the Tobacco Inspection Act (49 Stat. 731; 7 U.S.C. 511 et seq.).

Statement of consideration leading to the proposed standards. Grade standards for tobacco are issued under the authority of the Tobacco Inspection Act of 1935 which provides for the issuance of official U.S. grades to designate different levels of quality for the use of producers and buyers. Official grading service is also provided under the Act on both a mandatory and a permissive basis.

Standards for type 62 tobacco were originally issued in 1933 under the authority of the Stocks and Standards Act. They were slightly modified and issued in 1956 under the authority of the Tobacco Inspection Act of 1935. These tentative standards contain 35 basic grades for natural or air-cured tobacco with seven special factors which were used to describe type 62 tobacco at that time.

Concurrent with the present-day trend in market preparation and usage, fewer quality and color distinctions are needed to accurately describe Cigar-wrapper tobacco. Therefore, the proposed official standards would eliminate special factors and provide only 12 grades for natural or air-cured tobacco.

The proposal would also establish 10 grades for candela-cured tobacco to provide adequate standards for that portion of type 62 cured by this method. Candela-curing is a quick process of subjecting tobacco to artificial atmospheric conditions which are controlled through the use of regulated heat and humidity. Its usage is becoming more prevalent among producers of shade-grown cigar-wrapper tobacco.

In addition, the proposal would add, revise, and delete definitions and rules to implement accurate application of the official standards.

Preliminary drafts were discussed with producer and industry representatives. Their suggestions were incorporated into the proposed official standards.

All persons who desire to submit written data, views, or arguments in connection with the proposed amendment should file the same, in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112 Administration Building, Washington, D.C. 20250, not later than the 30th day after the publication of this notice in the FEDERAL REGISTER. All written submissions pursuant to the notice will be made available for public inspection at the office of the Hearing Clerk during official hours of business (7 CFR 1.27(b)).

The proposed official standards are as follows:

1. Subpart C of Part 29 is amended by adding the new issuance, immediately after § 29.6411, to read as follows:

KEY TO STANDARD GRADEMARKS

29.6661 Key to standard grademarks.

DEFINITIONS

§ 29.6501 Definitions.

As used in these standards, the words and phrases hereinafter defined shall have the indicated meanings so assigned.

§ 29.6502 Air-cured.

Tobacco cured under natural atmospheric conditions without the use of artificial heat except to prevent pole-burn in damp weather.

§ 29.6503 Body.

The thickness and density of a leaf or the weight per unit of surface. (See chart, § 29.6616.)

§ 29.6504 Candela-cured.

Tobacco cured under controlled artificial atmospheric conditions by regulating the heat and humidity. This process produces a green or greenish color in the cured leaves.

§ 29.6505 Candela-cured green colors.

A group of candela-cured wrapper colors ranging from a yellowish green to dark green. The range is expressed as yellowish green (YG), light green (LG), green (G), and dark green (KG).

[1] These standards provide grades for both air-cured and candela-cured tobacco.

§ 29.6506 Class.

A major division of tobacco based on method of cure or principal usage.

§ 29.6507 Color.

The third factor of a grademark based on the relative hues, saturation or chroma, and color values common to the type.

§ 29.6508 Color shade.

The varying strength or weakness of a color or hue.

§ 29.6509 Color symbols.

In this type the color symbols used for naturally cured tobacco are M—mixed color, FL—fleck, K—variegated, and G—green. Color symbols used for candela-cured tobacco are LG—light green, G—green, YG—yellowish green, FL—fleck, and KG—dark green or dark green and variegated mixed.

§ 29.6510 Condition.

The state of tobacco which results from the method of preparation or from the degree of fermentation. Words used to describe the condition of tobacco are undried, air-dried, steam-dried, sweating, sweated, and aged.

§ 29.6511 Crude.

A subdegree of maturity. (See rule 18, § 29.6599.)

§ 29.6512 Cured.

Tobacco dried of its sap by either natural or artificial processes.

§ 29.6513 Damage.

The effect of mold, musk, rot, black rot, or other fungous or bacterial diseases which attack tobacco in its cured state. Tobacco having the odor of mold, musk, or rot is considered damaged. (See rule 19, § 29.6600.)

§ 29.6514 Dirty.

The state of tobacco containing an abnormal amount of dirt or sand. (See rule 19, § 29.6600.)

§ 29.6515 Elasticity.

The flexible, springy nature of the tobacco leaf to recover approximately its original size and shape after it has been stretched.

§ 29.6516 Elements of quality.

Physical characteristics used to determine the quality of tobacco. Words selected to describe degrees within each element are shown in § 29.6616.

§ 29.6517 Fibers.

Lateral and cross veins in a tobacco leaf. (See chart, § 29.6616.)

§ 29.6518 Fleck (FL).

Spots or dapples on the surface of the tobacco leaf. (See rule 14, § 29.6595.)

§ 29.6519 Foreign matter.

Any extraneous substance or material. (See rule 19, § 29.6600.)

§ 29.6520 Form.

The stage of preparation of tobacco such as stemmed or unstemmed.

§ 29.6521 Grade.

A subdivision of a type according to group and quality and to other characteristics when they are of sufficient importance to be treated separately.

§ 29.6522 Grademark.

A grademark normally consists of three symbols which indicate group, quality, and color. A letter is used to indicate group, a number to indicate quality, and a letter or letters to indicate color. Color symbols are used only in the A group.

§ 29.6523 Green (G).

Green color. In natural wrappers any leaf which has a green color affecting 10 percent or more of its surface may be described as green. (See rule 16, § 29.6597.)

§ 29.6524 Greenish.

A term applied to greenish-tinged air-cured tobacco. Any leaf of natural wrapper tobacco which has a greenish tinge or a pale green color affecting 10 percent or more of its surface may be described as greenish.

§ 29.6525 Group.

A division of a type covering closely related grades. Groups in this type are Wrappers (A), Stained (S), Brokes (X), and Nondescript (N).

§ 29.6526 Injury.

Hurt or impairment. (See rule 13, § 29.6594.)

§ 29.6527 Leaf scrap.

A byproduct of unstemmed tobacco. Leaf scrap results from handling unstemmed tobacco and consists of loose and tangled whole or broken leaves.

§ 29.6528 Leaf structure.

The cell development of a leaf as indicated by its porosity. (See chart, § 29.6616.)

§ 29.6529 Length.

The linear measurement of cured tobacco leaves from the butt of the midrib to the extreme tip. (See chart, § 29.6616.)

§ 29.6530 Lot.

A pile, basket, bulk, package, or other definite unit.

§ 29.6531 Maturity.

The degree of ripeness. (See chart, § 29.6616.)

§ 29.6532 Mixed color (M).

Normal colors of air-cured type 62 mixed in various proportions. Golden brown, light brown, reddish brown, and greenish hues may be included.

§ 29.6533 Nested.

Any tobacco which has been loaded, packed, or arranged to conceal foreign matter or tobacco of inferior grade, quality, or condition. (See rule 19, § 29.6600.)

§ 29.6534 Offtype.

Tobacco of distinctly different characteristics which cannot be classified as type 62. (See rule 19, § 29.6600.)

§ 29.6535 Order (case).

The state of tobacco with respect to its moisture content.

§ 29.6536 Package.

A hogshead, tierce, case, bale, or other securely enclosed parcel or bundle.

§ 29.6537 Packing.

A lot of tobacco consisting of a number of packages submitted as one definite unit for sampling or inspecting. It is represented to contain the same kind of tobacco and has a common identification number or mark on each package.

§ 29.6538 Quality.

A division of a group or the second factor of a grademark based on the relative degree of one or more elements of quality in tobacco.

§ 29.6539 Semicured.

Tobacco in the process of being cured or which is partially but not thoroughly cured. Semicured includes tobacco which contains fat stems, wet butts, swelled stems, or stems that have not been thoroughly dried in the curing process. (See rule 19, § 29.6600.)

§ 29.6540 Side.

A certain phase of quality, color, or length as contrasted with some other phase of quality, color, or length; or any peculiar characteristic of tobacco.

§ 29.6541 Sound.

Free of damage.

§ 29.6542 Special factor.

A symbol or term authorized to be used with specified grades. Tobacco to which a special factor is applied may meet the general specifications but has a peculiar side or characteristic which tends to modify the grade. (See rule 9, § 29.6590.)

§ 29.6543 Stained.

A term applied to tobacco that has been blackened, bruised, or discolored by excessive moisture. (See rules 17 and 19, §§ 29.6598 and 29.6600.)

§ 29.6544 Stem.

The midrib or large central vein of a tobacco leaf.

§ 29.6545 Stemmed.

A form of tobacco, including strips and strip scrap, from which the stems or midribs have been removed.

§ 29.6546 Strips.

The sides of a tobacco leaf from which the stem has been removed or a lot of tobacco composed of strips.

§ 29.6547 Subgrade.

Any grade modified by a special factor symbol.

§ 29.6548 Sweated.

The condition of tobacco which has passed through one or more fermentations natural to tobacco packed with a normal percentage of moisture. This condition is sometimes described as aged.

§ 29.6549 Sweating.

The condition of tobacco in the process of fermentation.

§ 29.6550 Tobacco.

Tobacco as it appears between the time it is cured and stripped from the stalk, or primed and cured, and the time it enters into the different manufacturing processes. The acts of stemming, sweating, and conditioning are not regarded as manufacturing processes. Tobacco, as used in these standards does not include manufactured or semimanufactured products, stems, cuttings, clippings, trimmings, siftings, or dust.

§ 29.6551 Tobacco products.

Manufactured tobacco, including cigarettes, cigars, smoking tobacco, chewing tobacco, and snuff.

§ 29.6552 Type.

A division of a class of tobacco having certain common characteristics and closely related grades. Tobacco which has the same characteristics and corresponding qualities, colors, and lengths is classified as one type, regardless of any factors of historical or geographical nature which cannot be determined by an examination of the tobacco.

§ 29.6553 Type 62.

That type of shade-grown tobacco known as Georgia and Florida Shade-grown, produced principally in southwestern Georgia and in the central part of northern Florida.

§ 29.6554 Undried.

The condition of unfermented tobacco which has not been air-dried or steam-dried.

§ 29.6555 Uniformity.

An element of quality which describes the consistency of a lot of tobacco. (See rule 12, § 29.6593.)

§ 29.6556 Unstemmed.

A form of tobacco, including whole leaf and leaf scrap, from which the stems or midribs have not been removed.

§ 29.6557 Variegated.

Two or more contrasting colors or tints within a leaf. (See rule 15, § 29.6596.)

§ 29.6558 Wet.

Any sound tobacco containing excessive moisture to the extent that it is in unsafe or doubtful-keeping order. Wet applies to any tobacco which is not damaged but which is likely to damage if treated in the customary manner. (See rule 19, § 29.6600.)

RULES

§ 29.6581 Rules.

The application of these official standard grades shall be in accordance with the following rules.

§ 29.6582 Rule 1.

Each grade shall be treated as a subdivision of a particular type. When the grade is stated in an inspection certificate, the type also shall be stated.

§ 29.6583 Rule 2.

The determination of a grade shall be based upon a thorough examination of a lot or packing of tobacco or of an official sample of the lot or packing.

§ 29.6584 Rule 3.

The grade assigned to any lot or packing of tobacco shall be a true representation of the tobacco at the time of inspection and certification. If, at any time, it is found that a lot or packing of tobacco does not comply with the specifications of the grade previously assigned, it shall not thereafter be represented as such grade.

§ 29.6585 Rule 4.

Tobacco of the A, X, or S groups shall be placed straight in boxes or bales of normal size, weight, and shape with the butts out and tips overlapping sufficiently to make a level, solid, and uniform pack. All sides of the bales shall be completely covered with paper or other suitable protective material.

§ 29.6586 Rule 5.

A lot or packing of tobacco on the marginal line between two colors shall be placed in the color with which it best corresponds with respect to body or other associated elements of quality.

§ 29.6587 Rule 6.

Any lot or packing of tobacco which meets the specifications of two grades shall be placed in the higher grade.

§ 29.6588 Rule 7.

A lot or packing of tobacco meets the specifications of a grade when it is not lower in any element of quality than the degree stated in grade specifications and does not exceed the tolerance(s) of such grade.

§ 29.6589 Rule 8.

In determining the grade of a lot or packing of tobacco, the lot or packing as a whole shall be considered. Minor irregularities which do not affect over one percent of the tobacco shall be overlooked.

§ 29.6590 Rule 9.

Any special factor approved by the Director of the Tobacco Division, Consumer and Marketing Service, may be used after a grademark to show a peculiar side or characteristic of the tobacco which tends to modify the grade.

§ 29.6591 Rule 10.

Interpretations, the use of specifications, and the meaning of terms shall be in accordance with determinations or clarifications made by the Chief of the Standards and Testing Branch and approved by the Director.

§ 29.6592 Rule 11.

The use of any grade may be restricted by the Director during any marketing season when it is found that the grade is not needed or appears in insufficient volume to justify its use.

§ 29.6593 Rule 12.

Uniformity shall be expressed in percentages. These percentages shall govern the portion of a lot or packing which must meet each specification of the grade; the remaining portion must be closely related. Specified percentages of uniformity shall not affect limitations established by other rules.

§ 29.6594 Rule 13.

Injury tolerance shall be expressed in percentages. The appraisal of injury shall be based upon the percentage of affected wrapper cutting area or the degree of the injury.

§ 29.6595 Rule 14.

Fleck shall be included only in A3FL, N1, and N2.

§ 29.6596 Rule 15.

Any lot or packing of tobacco containing over 10 percent of variegated leaves shall be designated by the color symbol "K" in natural wrappers and "KG" in candela wrappers.

§ 29.6597 Rule 16.

Any lot or packing of natural wrapper tobacco containing over 10 percent of green leaves shall be designated by the color symbol "G."

§ 29.6598 Rule 17.

Stained tobacco shall be included only in grades of the S and N groups.

§ 29.6599 Rule 18.

Crude leaves shall be included only in N2.

§ 29.6600 Rule 19.

Tobacco shall be designated "N2" when it is crude, damaged, dirty, improperly packed, nested, offtype, semicured, wet, or when it contains foreign matter, is stained over 20 percent, or has an odor foreign to the type.

ELEMENTS OF QUALITY

§ 29.6616 Elements of quality and degrees of each element.

These words or terms are used to determine tobacco quality. Characteristics which constitute general quality are designated as elements of quality. The range within each element is expressed by words or terms designated as degrees.

Elements	Degrees		
Body	Thin	Medium	Heavy.
Color shade	True	Dusky	Dull.
Maturity	Ripe	Unripe	Immature.
Leaf structure.	Open	Firm	Close.
Fiber size	Small	Medium	Large.
Fiber color	Blending	Contrasting	Clashing.
Injury tolerance.	Expressed in percentages.		
Uniformity	do		
Length	Expressed in inches.		

GRADES FOR NATURAL (AIR-CURED) TOBACCO

§ 29.6636 Wrappers (A Group).

This group consists of tied, elastic tobacco having at least 90 percent of uninjured surface usable for cigar wrappers.

U.S. grades	Grade names, minimum specifications, and tolerances
A1M	Choice Mixed-color Natural Wrappers Thin, true color shades, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A2M	Fine Short Mixed-color Natural Wrappers Thin, true color shades, ripe, open, small and blending fibers, 14 inches or under in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A3M	Good Mixed-color Natural Wrappers Medium body, true color shades, ripe, open, medium-sized and contrasting fibers, over 14 inches in length. Uniformity, 90 percent; injury tolerance, 10 percent.
A3FL	Good Fleck Natural Wrappers Medium body, ripe, firm, over 14 inches in length. Uniformity, 90 percent; injury tolerance, 10 percent.
A3K	Good Variegated Natural Wrappers Medium body, unripe, firm. Uniformity, 90 percent; injury tolerance, 10 percent.
A3G	Good Green Natural Wrappers Heavy body, immature, close. Uniformity, 90 percent; injury tolerance, 10 percent.

§ 29.6637 Stained (S Group).

This group consists of tied, stained tobacco from the A group.

U.S. grades	Grade names, minimum specifications, and tolerances
S1	Choice Stained Natural Wrappers Thin, true color shades, ripe, open, over 14 inches in length. Uniformity, 85 percent. Tolerances: 5 percent injury, 10 percent stain parallel to the midrib.
S2	Fine Stained Natural Wrappers Medium body, ripe, open, over 14 inches in length. Uniformity, 70 percent. Tolerances: 10 percent injury, 20 percent stain.

§ 29.6638 Brokes (X Group).

This group consists of tied, highly injured tobacco from the A group.

U.S. grades	Grade names and minimum specifications
X1	Choice Natural Brokes Medium body, true color shades, ripe, open. Minimum wrapper yield, 50 percent.
X2	Fine Natural Brokes Medium body, ripe, open. Minimum wrapper yield, 25 percent.

§ 29.6639 Nondescript (N Group).

Tobacco which does not meet the specifications of the lowest grade in any other group. This tobacco may be tied in hands or packed loose.

U.S. grades	Grade names and specifications
N1	Best Natural Nondescript Any tobacco except N2 which does not meet the specifications of the lowest grade in the A, S, or X groups.
N2	Lowest Natural Nondescript Any tobacco classified as crude, damaged, dirty, nested, offtype, semicured, or wet; tobacco that is improperly packed, contains foreign matter, is stained over 20 percent, or has an odor foreign to the type.

GRADES FOR CANDELA-CURED TOBACCO

§ 29.6646 Wrappers (A Group).

This group consists of tied, elastic tobacco having at least 90 percent of uninjured surface usable for cigar wrappers.

U.S. grades	Grade names, minimum specifications, and tolerances
A1LG	Choice Light Green Candela Wrappers Thin, true color shade, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A1G	Choice Green Candela Wrappers Medium body, true color shade, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A2G	Fine Green Short Candela Wrappers Medium body, true color shade, ripe, open, small and blending fibers, 14 inches or under in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A3YG	Good Yellowish Green Candela Wrappers Thin to medium body, ripe, open, medium-sized and contrasting fibers. Uniformity, 90 percent; injury tolerance, 10 percent.
A3FL	Good Fleck Candela Wrappers Thin to medium body, ripe, firm. Uniformity, 90 percent; injury tolerance, 10 percent.
A3KG	Good Dark Green and Variegated Candela Wrappers Heavy, unripe, close. Uniformity, 90 percent; injury tolerance, 10 percent.

§ 29.6647 Brokes (X Group).

This group consists of tied, highly injured tobacco from the A group.

U.S. grades	Grade names and minimum specifications
X1	Choice Candela Brokes Medium body, true color shades, ripe, open. Minimum wrapper yield, 50 percent.
X2	Fine Candela Brokes Medium body, ripe, firm. Minimum wrapper yield, 25 percent.

§ 29.6648 Nondescript (N Group).

Tobacco which does not meet the specifications of the lowest grade in any other group. This tobacco may be tied in hands or packed loose.

U.S. grades	Grade names and specifications
N1	Best Candela Nondescript Any tobacco except N2 which does not meet the specifications of the lowest grades in the A or X groups.
N2	Lowest Candela Nondescript Any tobacco classified as crude, damaged, dirty, nested, offtype, semicured, or wet; tobacco that is improperly packed, contains foreign matter, or has an odor foreign to the type.

TOBACCO INSPECTION

Proposed Official Standards for Connecticut Valley Shade-Grown Cigar-Wrapper

Notice is hereby given that the U.S. Department of Agriculture has under

consideration the issuance of Official Standard Grades for Connecticut Valley Shade-grown Cigar-wrapper Tobacco, U.S. Type 61, pursuant to the authority contained in the Tobacco Inspection Act (49 Stat. 731; 7 U.S.C. 511 et seq.).

Statement of consideration leading to the proposed standards. Grade standards for tobacco are issued under the authority of the Tobacco Inspection Act of 1935 which provides for the issuance of official U.S. grades to designate different levels of quality for the use of producers and buyers. Official grading service is also provided under the Act on both a mandatory and permissive basis.

Tentative standard grades for Connecticut Valley Shade-grown tobacco were issued December 1933 under the authority of the Tobacco Stocks and Standards Act. They were slightly revised and issued in December 1956 under the authority of the Tobacco Inspection Act of 1935. Both versions contained grades for natural or air-cured tobacco only.

For some years it has been obvious that the tentative standards for type 61 tobacco were becoming obsolete. The increasing cost of labor has caused producers to adopt less stringent sorting methods. Also, the use of candela-curing has gradually become more widespread.

The candela-curing process exposes tobacco to artificial atmospheric conditions controlled by regulating heat and humidity. The traditional air-cured method subjects tobacco to natural atmospheric conditions without the use of artificial heat except to prevent poleburn in damp weather.

Studies of type 61 tobacco were conducted for several years to determine what changes would be necessary to bring the standards into focus with accepted methods of sorting and curing. Preliminary drafts were discussed with producer and industry representatives. Their suggestions were incorporated into the proposed official standards.

The proposal would simplify the grade structure for natural or air-cured tobacco by eliminating the eight special factors and the resultant subgrades and reducing the number of basic grades from 24 to 22. These changes would be accomplished through broadening grade specifications and relaxing length requirements to reflect current sorting practices. Ten grades would be established for candela-cured tobacco to describe that portion of type 61 production cured under this relatively new method.

In addition the proposal would add, revise, and delete definitions and rules to implement accurate application of the official standards.

All persons who desire to submit written data, views, or arguments in connection with the proposed revision should file the same, in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112 Administration Building, Washington, D.C. 20250, not later than the 30th day after the publication of this notice in the FEDERAL REGISTER. All written submissions pursuant to the notice will be made available for public inspection at the office of the Hearing Clerk during official hours of business (7 CFR 1.27(b)).

The proposed official standards are as follows:

1. Subpart C of Part 29 is amended by adding the new issuance immediately after § 29.6161 to read as follows:

SUMMARY OF STANDARD GRADES

29.6406 Summary of standard grades.

KEY TO STANDARD GRADEMARKS

29.6411 Key to standard grademarks.

DEFINITIONS

§ 29.6251 Definitions.

As used in these standards, the words and phrases hereinafter defined shall have the indicated meanings so assigned.

§ 29.6252 Air-cured.

Tobacco cured under natural atmospheric conditions without the use of artificial heat except to prevent poleburn in damp weather.

§ 29.6253 Body.

The thickness and density of a leaf or the weight per unit of surface. (See chart, § 29.6371.)

§ 29.6254 Brown colors.

A group of natural wrapper colors ranging from a golden brown to reddish brown. The range is expressed as golden brown (L), light brown (F), and reddish brown (R).

§ 29.6255 Candela-cured.

Tobacco cured under controlled artificial atmospheric conditions by regulating the heat and humidity. This process produces a green or greenish color in the cured leaves.

§ 29.6256 Candela-cured green colors.

A group of candela-cured wrapper colors ranging from a yellowish green to dark green. The range is expressed as yellowish green (YG), light green (LG), green (G), and dark green (KG).

§ 29.6257 Class.

A major division of tobacco based on method of cure or principal usage.

§ 29.6258 Color.

The third factor of a grademark based on the relative hues, saturation or chroma, and color values common to the type.

§ 29.6259 Color shade.

The varying strength or weakness of a color or hue.

[1] These standards provide grades for both air-cured and candela-cured tobacco.

§ 29.6260 Color symbols.

In this type the color symbols used for naturally cured tobacco are L—golden brown, F—light brown, M—mixed color, V—greenish, FL—fleck, R—reddish brown, K—variegated, and G—green. Color symbols used for candela-cured tobacco are LG—light green, G—green, YG—yellowish green, FL—fleck, and KG—dark green or dark green and variegated mixed.

§ 29.6261 Condition.

The state of tobacco which results from the method of preparation or from the degree of fermentation. Words used to describe the condition of tobacco are undried, air-dried, steam-dried, sweating, sweated, and aged.

§ 29.6262 Crude.

A subdegree of maturity. (See rule 19, § 29.6355.)

§ 29.6263 Cured.

Tobacco dried of its sap by either natural or artificial processes.

§ 29.6264 Damage.

The effect of mold, must, rot, black rot, or other fungous or bacterial diseases which attack tobacco in its cured state. Tobacco having the odor of mold, must, or rot is considered damaged. (See rule 20, § 29.6356.)

§ 29.6265 Dirty.

The state of tobacco containing an abnormal amount of dirt or sand. (See rule 20, § 29.6356.)

§ 29.6266 Elasticity.

The flexible, springy nature of the tobacco leaf to recover approximately its original size and shape after it has been stretched.

§ 29.6267 Elements of quality.

Physical characteristics used to determine the quality of tobacco. Words selected to describe degrees within each element are shown in § 29.6371.

§ 29.6268 Fibers.

Lateral and cross veins in a tobacco leaf. (See chart, § 29.6371.)

§ 29.6269 Fleck (FL).

Spots or dapples on the surface of the tobacco leaf. (See rule 14, § 29.6350.)

§ 29.6270 Foreign matter.

Any extraneous substance or material. (See rule 20, § 29.6356.)

§ 29.6271 Form.

The stage of preparation of tobacco such as stemmed or unstemmed.

§ 29.6272 Grade.

A subdivision of a type according to group and quality and to other characteristics when they are of sufficient importance to be treated separately.

§ 29.6273 Grademark.

A grademark normally consists of three symbols which indicate group, quality, and color. A letter is used to indicate group, a number to indicate quality, and a letter or letters to indicate color. Color symbols are used only in the A group.

§ 29.6274 Green (G).

Green color. In natural wrappers any leaf which has a green color affecting 10 percent or more of its surface may be described as green. (See rule 17, § 29.6353.)

§ 29.6275 Greenish (V).

A color term applied to greenish-tinged air-cured tobacco. Any leaf of natural wrapper tobacco which has a greenish tinge or a pale green color affecting 10 percent or more of its surface may be described as greenish. (See rule 16, § 29.6352.)

§ 29.6276 Group.

A division of a type covering closely related grades. Groups in this type are Wrappers (A), Stained (S), Brokes (X), and Nondescript (N).

§ 29.6277 Injury.

Hurt or impairment. (See rule 13, § 29.6349.)

§ 29.6278 Leaf scrap.

A byproduct of unstemmed tobacco. Leaf scrap results from handling unstemmed tobacco and consists of loose and tangled whole or broken leaves.

§ 29.6279 Leaf structure.

The cell development of a leaf as indicated by its porosity. (See chart, § 29.6371.)

§ 29.6280 Length.

The linear measurement of cured tobacco leaves from the butt of the midrib to the extreme tip. (See chart, § 29.6371.)

§ 29.6281 Lot.

A pile, basket, bulk, package, or other definite unit.

§ 29.6282 Maturity.

The degree of ripeness. (See chart, § 29.6371.)

§ 29.6283 Mixed color (M).

Normal colors of air-cured type 61 mixed in various proportions. Golden brown, light brown, reddish brown, and greenish hues may be included.

§ 29.6284 Nested.

Any tobacco which has been loaded, packed, or arranged to conceal foreign matter or tobacco of inferior grade, quality, or condition. (See rule 20, § 29.6356.)

§ 29.6285 Offtype.

Tobacco of distinctly different characteristics which cannot be classified as type 61. (See rule 20, § 29.6356.)

§ 29.6286 Order (case).

The state of tobacco with respect to its moisture content.

§ 29.6287 Package.

A hogshead, tierce, case, bale, or other securely enclosed parcel or bundle.

§ 29.6288 Packing.

A lot of tobacco consisting of a number of packages submitted as one definite unit for sampling or inspecting. It is represented to contain the same kind of tobacco and has a common identification number or mark on each package.

§ 29.6289 Quality.

A division of a group or the second factor of a grademark based on the relative degree of one or more elements of quality in tobacco.

§ 29.6290 Semicured.

Tobacco in the process of being cured or which is partially but not thoroughly cured. Semicured includes tobacco which contains fat stems, wet butts, swelled stems, or stems that have not been thoroughly dried in the curing process. (See rule 20, § 29.6356.)

§ 29.6291 Side.

A certain phase of quality, color, or length as contrasted with some other phase of quality, color, or length; or any peculiar characteristic of tobacco.

§ 29.6292 Sound.

Free of damage.

§ 29.6293 Special factor.

A symbol or term authorized to be used with specified grades. Tobacco to which a special factor is applied may meet the general specifications but has a peculiar side or characteristic which tends to modify the grade. (See rule 9, § 29.6345.)

§ 29.6294 Stained.

A term applied to tobacco that has been blackened, bruised, or discolored by excessive moisture. (See rules 18 and 20, §§ 29.6354 and 29.6356.)

§ 29.6295 Stem.

The midrib or large central vein of a tobacco leaf.

§ 29.6296 Stemmed.

A form of tobacco, including strips and strip scrap, from which the stems or midribs have been removed.

§ 29.6297 Strips.

The sides of a tobacco leaf from which the stem has been removed or a lot of tobacco composed of strips.

§ 29.6298 Subgrade.

Any grade modified by a special factor symbol.

§ 29.6299 Sweated.

The condition of tobacco which has passed through one or more fermentations natural to tobacco packed with a normal percentage of moisture. This condition is sometimes described as aged.

§ 29.6300 Sweating.

The condition of tobacco in the process of fermentation.

§ 29.6301 Tobacco.

Tobacco as it appears between the time it is cured and stripped from the stalk, or primed and cured, and the time

it enters into the different manufacturing processes. The acts of stemming, sweating, and conditioning are not regarded as manufacturing processes. Tobacco, as used in these standards, does not include manufactured or semimanufactured products, stems, cuttings, clippings, trimmings, siftings, or dust.

§ 29.6302 **Tobacco products.**

Manufactured tobacco, including cigarettes, cigars, smoking tobacco, chewing tobacco, and snuff.

§ 29.6303 **Type.**

A division of a class of tobacco having certain common characteristics and closely related grades. Tobacco which has the same characteristics and corresponding qualities, colors, and lengths is classified as one type, regardless of any factors of historical or geographical nature which cannot be determined by an examination of the tobacco.

§ 29.6304 **Type 61.**

That type of shade-grown tobacco known as Connecticut Valley Shade-grown, produced principally in the Connecticut Valley section of Connecticut and Massachusetts.

§ 29.6305 **Undried.**

The condition of unfermented tobacco which has not been air-dried or steam-dried.

§ 29.6306 **Uniformity.**

An element of quality which describes the consistency of a lot of tobacco. (See rule 12, § 29.6348.)

§ 29.6307 **Unstemmed.**

A form of tobacco, including whole leaf and leaf scrap, from which the stems or midribs have not been removed.

§ 29.6308 **Variegated.**

Two or more contrasting colors or tints within a leaf. (See rule 15, § 29.6351.)

§ 29.6309 **Wet.**

Any sound tobacco containing excessive moisture to the extent that it is in unsafe or doubtful-keeping order. Wet applies to any tobacco which is not damaged but which is likely to damage if treated in the customary manner. (See rule 20, § 29.6356.)

RULES

§ 29.6336 **Rules.**

The application of these official standard grades shall be in accordance with the following rules.

§ 29.6337 **Rule 1.**

Each grade shall be treated as a subdivision of a particular type. When the grade is stated in an inspection certificate, the type also shall be stated.

§ 29.6338 **Rule 2.**

The determination of a grade shall be based upon a thorough examination of a lot or packing of tobacco or of an official sample of the lot or packing.

§ 29.6339 **Rule 3.**

The grade assigned to any lot or packing of tobacco shall be a true representation of the tobacco at the time of inspection and certification. If, at any time, it is found that a lot or packing of tobacco does not comply with the specifications of the grade previously assigned, it shall not thereafter be represented as such grade.

§ 29.6340 **Rule 4.**

Tobacco of the A, X, or S groups shall be placed straight in boxes or bales of normal size, weight, and shape with the butts out and tips overlapping sufficiently to make a level, solid, and uniform pack. All sides of the bales shall be completely covered with paper or other suitable protective material.

§ 29.6341 **Rule 5.**

A lot or packing of tobacco on the marginal line between two colors shall be placed in the color with which it best corresponds with respect to body or other associated elements of quality.

§ 29.6342 **Rule 6.**

Any lot or packing of tobacco which meets the specifications of two grades shall be placed in the higher grade.

§ 29.6343 **Rule 7.**

A lot or packing of tobacco meets the specifications of a grade when it is not lower in any element of quality than the degree stated in grade specifications and does not exceed the tolerance(s) of such grade.

§ 29.6344 **Rule 8.**

In determining the grade of a lot or packing of tobacco, the lot or packing as a whole shall be considered. Minor irregularities which do not affect over 1 percent of the tobacco shall be overlooked.

§ 29.6345 **Rule 9.**

Any special factor approved by the Director of the Tobacco Division, Consumer and Marketing Service, may be used after a grademark to show a peculiar side or characteristic of the tobacco which tends to modify the grade.

§ 29.6346 **Rule 10.**

Interpretations, the use of specifications, and the meaning of terms shall be in accordance with determinations or clarifications made by the Chief of the Standards and Testing Branch, and approved by the Director.

§ 29.6347 **Rule 11.**

The use of any grade may be restricted by the Director during any marketing season when it is found that the grade is not needed or appears in insufficient volume to justify its use.

§ 29.6348 **Rule 12.**

Uniformity shall be expressed in percentages. These percentages shall govern the portion of a lot or packing which must meet each specification of the grade; the remaining portion must be closely related. Specified percentages of uniformity shall not affect limitations established by other rules.

§ 29.6349 **Rule 13.**

Injury tolerance shall be expressed in percentages. The appraisal of injury shall be based upon the percentage of affected wrapper cutting area or the degree of injury.

§ 29.6350 **Rule 14.**

Fleck shall be included only in A2FL, A3FL, N1, and N2.

§ 29.6351 **Rule 15.**

Any lot or packing of tobacco containing over 10 percent of variegated leaves shall be designated by the color symbol "K" in natural wrappers and "KG" in candela wrappers.

§ 29.6352 **Rule 16.**

Any lot or packing of L- or F-colored natural wrapper tobacco containing over 10 percent of greenish leaves shall be designated by the color symbol "V".

§ 29.6353 **Rule 17.**

Any lot or packing of natural wrapper tobacco containing over 10 percent of green leaves shall be designated by the color symbol "G".

§ 29.6354 **Rule 18.**

Stained tobacco shall be included only in grades of the S and N groups.

§ 29.6355 **Rule 19.**

Crude leaves shall be included only in N2.

§ 29.6356 **Rule 20.**

Tobacco shall be designated "N2" when it is crude, damaged, dirty, improperly packed, nested, offtype, semicured, wet, or when it contains foreign matter, is stained over 20 percent, or has an odor foreign to the type.

ELEMENTS OF QUALITY

§ 29.6371 **Elements of quality and degrees of each element.**

These words or terms are used to determine tobacco quality. Characteristics which constitute general quality are designated as elements of quality. The range within each element is expressed by words or terms designated as degrees.

Elements	Degrees		
Body	Thin	Medium	Heavy.
Color shade	True	Dusky	Dull.
Maturity	Ripe	Unripe	Immature.
Leaf structure	Open	Firm	Close.
Fiber size	Small	Medium	Large.
Fiber color	Blending	Contrasting	Clashing.
Injury tolerance	Expressed in percentages.		
Uniformity	do		
Length	Expressed in inches.		

GRADES FOR NATURAL (AIR-CURED) TOBACCO

§ 29.6386 **Wrappers (A Group).**

This group consists of tied, elastic tobacco having at least 90 percent of uninjured surface usable for cigar wrappers.

U.S. grades	Grade names, minimum specifications, and tolerances
A1L	Choice Golden Brown Natural Wrappers Thin, true color shade, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A2L	Fine Golden Brown Natural Wrappers Medium body, true color shade, ripe, open, small and blending fibers, over 14 inches in length. Uniformity 90 percent; injury tolerance, 10 percent.
A3L	Good Short Golden Brown Natural Wrappers Thin to medium body, true color shade, ripe, open, small and blending fibers, 14 inches or under in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A1F	Choice Light Brown Natural Wrappers Thin, true color shade, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A2F	Fine Light Brown Natural Wrappers Medium body, true color shade, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 90 percent; injury tolerance, 10 percent.
A3F	Good Short Light Brown Natural Wrappers Thin to medium body, true color shade, ripe, open, small and blending fibers, 14 inches or under in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A1M	Choice Mixed-color Natural Wrappers Thin, true color shades, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A2M	Fine Mixed-color Natural Wrappers Medium body, true color shades, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 90 percent; injury tolerance, 10 percent.
A3M	Good Short Mixed-color Natural Wrappers Thin to medium body, true color shades, ripe, open, small and blending fibers, 14 inches or under in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A2V	Fine Greenish Natural Wrappers Thin to medium body, true color shade, ripe, open small and blending fibers, over 14 inches in length. Uniformity, 90 percent; injury tolerance, 10 percent.
A3V	Good Greenish Short Natural Wrappers Medium body, true color shade, ripe, open, small and blending fibers, 14 inches or under in length. Uniformity, 90 percent; injury tolerance, 10 percent.
A2FL	Fine Fleck Natural Wrappers Thin to medium body, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 90 percent; injury tolerance, 10 percent.
A3FL	Good Fleck Short Natural Wrappers Heavy, ripe, firm, 14 inches or under in length. Uniformity, 90 percent; injury tolerance, 10 percent.
A3R	Good Reddish Brown Natural Wrappers Heavy, ripe, firm. Uniformity, 90 percent; injury tolerance, 10 percent.
A3K	Good Variegated Natural Wrappers Medium body, unripe, firm. Uniformity, 90 percent; injury tolerance, 10 percent.
A3G	Good Green Natural Wrappers Heavy, immature, close. Uniformity, 90 percent; injury tolerance, 10 percent.

§ 29.6387 Stained (S Group).

This group consists of tied, stained tobacco from the A group.

U.S. grades	Grade names, minimum specifications, and tolerances
S1	Choice Stained Natural Wrappers Thin, true color shades, ripe, open, over 14 inches in length. Uniformity, 85 percent. Tolerances: 5 percent injury, 10 percent stain parallel to the midrib.
S2	Fine Stained Natural Wrappers Medium body, ripe, open, over 14 inches in length. Uniformity, 70 percent. Tolerances: 10 percent injury, 20 percent stain.

§ 29.6388 Brokes (S Group).

This group consists of tied, highly injured tobacco from the A group.

U.S. grades	Grade names and minimum specifications
X1	Choice Natural Brokes Medium body, true color shades, ripe, open. Minimum wrapper yield, 50 percent.
X2	Fine Natural Brokes Medium body, ripe, open. Minimum wrapper yield, 25 percent.

§ 29.6389 Nondescript (N Group).

Tobacco which does not meet the specifications of the lowest grade in any other group. This tobacco may be tied in hands or packed loose.

U.S. grades	Grade names and specifications
N1	Best Natural Nondescript Any tobacco except N2 which does not meet the specifications of the lowest grade in the A, S, or X groups.
N2	Lowest Natural Nondescript Any tobacco classified as crude, damaged, dirty, nested, offtype, semicured, or wet; tobacco that is improperly packed, contains foreign matter, is stained over 20 percent, or has an odor foreign to the type.

GRADES FOR CANDELA-CURED TOBACCO

§ 29.6396 Wrappers (A Group).

This group consists of tied, elastic tobacco having at least 90 percent of uninjured surface usable for cigar wrappers.

U.S. grades	Grade names, minimum specifications, and tolerances
A1LG	Choice Light Green Candela Wrappers Thin, true color shade, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A1G	Choice Green Candela Wrappers Medium body, true color shade, ripe, open, small and blending fibers, over 14 inches in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A2G	Fine Green Short Candela Wrappers Medium body, true color shade, ripe, open, small and blending fibers, 14 inches or under in length. Uniformity, 95 percent; injury tolerance, 5 percent.
A3YG	Good Yellowish Green Candela Wrappers Thin to medium body, ripe, open, medium-sized and contrasting fibers. Uniformity, 90 percent; injury tolerance, 10 percent.
A3FL	Good Fleck Candela Wrappers Thin to medium body, ripe, firm. Uniformity, 90 percent; injury tolerance, 10 percent.
A3KG	Good Dark Green and Variegated Candela Wrappers Heavy, unripe, close. Uniformity, 90 percent; injury tolerance, 10 percent.

§ 29.6397 Brokes (X Group).

This group consists of tied, highly injured tobacco from the A group.

U.S. grades	Grade names and minimum specifications
X1	Choice Candela Brokes Medium body, true color shades, ripe, open. Minimum wrapper yield, 50 percent.
X2	Fine Candela Brokes Medium body, ripe, firm. Minimum wrapper yield, 25 percent.

§ 29.6398 Nondescript (N Group).

Tobacco which does not meet the specifications of the lowest grade in any other group. This tobacco may be tied in hands or packed loose.

U.S. grades	Grade names and specifications
N1	Best Candela Nondescript Any tobacco except N2 which does not meet the specifications of the lowest grades in the A or X groups.
N2	Lowest Candela Nondescript Any tobacco classified as crude, damaged, dirty, nested, offtype, semicured, or wet; tobacco that is improperly packed, contains foreign matter, or has an odor foreign to the type.

BREAD

Identity Standard; Listing of Papain as an Optional Ingredient

Notice is given that a petition has been filed by CPC International, Inc., International Plaza, Englewood Cliffs, N.J. 07632, proposing that the standard of identity for bread (21 CFR 17.1) be amended to permit papain preparations obtained from papaya to be listed as optional ingredients.

Grounds given in support of the proposal are that:

1. Papain is generally recognized as safe (21 CFR 121.101).

2. Papain improves the handling characteristics and machinability of dough and improves the grain and texture of bread.

3. Papain is effective in both the conventional "sponge and dough" process and the continuous process for making bread.

The petitioner proposes that § 17.1(a)(6)(ii) be revised to add papain preparations obtained from papaya to the ingredients already provided for therein, including the provision for a suitable harmless carrier.

Papain, if used as an optional ingredient, would not be required to be designated on the label of the bread. This is consistent with the provisions of the bread standard since the other enzymes listed in paragraph (a)(6)(ii) are not so required.

Due to cross-references, adopting the proposal would have the effect of providing for papain as an optional ingredient in enriched bread, milk bread, raisin bread, and whole wheat bread (§§ 17.2, 17.3, 17.4, and 17.5).

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), interested persons are invited to submit their views in writing (preferably in quintuplicate) regarding this proposal within 60 days after its date of publication in the FEDERAL REGISTER. Such views and comments should be addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, MD 20852, and may be accompanied by a memorandum or brief in support thereof.

Dated: January 26, 1971.

[Oil Import Reg. 1 (Rev. 5)]

SHIPMENTS OF NO. 2 FUEL OIL FROM PUERTO RICO; DISTRICT I

Notice of Proposed Rule Making

In order to remove deterrants to shipments of No. 2 fuel oil from Puerto Rico and thus broaden the base for purchases of such oil in the Western Hemisphere, it is proposed to add to paragraph (b) of section 15 (Allocations of crude oil and unfinished oils—Puerto Rico) of Oil Import Regulation 1 (Revision 5) as amended (33 F.R. 3062), the following three new sentences: "However, such a person's allocation for the period beginning April 1, 1972, shall not be reduced by reason of the shipment of No. 2 fuel oil, or the sale of No. 2 fuel oil which was shipped, to a recipient in District I during the calendar year 1971, if that recipient holds an allocation of imports of No. 2 fuel oil into District I and relinquishes to the Administrator a quantity of imports under such allocation equal to the quantity of No. 2 fuel oil which was shipped or which was sold and so shipped. As used in this paragraph, the term "No. 2 fuel oil" means only No. 2 fuel oil which is derived from crude oil produced in the Western Hemisphere (North America, Central America, South America, and the West Indies)." Final action on the proposal will be subject to the concurrence of the Director of the Office of Emergency Preparedness.

Interested persons are invited to submit written comments upon the proposal to the Administrator, Oil Import Administration, Department of the Interior, Washington, D.C. 20240, within a period of thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER. Each person who submits comments is asked to provide fifteen (15) copies.

SHEEPSCOT RIVER, MAINE

Drawbridge Operation

1. The Chief, Office of Operations, U.S. Coast Guard is considering requests from the Marine Central Railroad Co. to establish special operation regulations for its bridges across the Sheepscot River Mile 15 and the Maine State Highway Commission to revise the special operation regulations for its bridge across the Sheepscot River Mile 14. These requests were made for the purpose of reducing operating expenses in view of the infrequent openings currently required. Present regulations governing the Maine Central Railroad require that the draw be opened promptly on signal. The draws of the Maine State Highway bridge are presently required to be opened on signal from June 1 through September 30 from 9 a.m. to 9 p.m. Advance notice is required from June 1 through September 30 from 9 p.m. to 9 a.m. to be given to the drawtender while he is on duty. From October 1 through May 31, 24 hours' advance notice is required. The proposed regulations would require at least 24 hours' advance notice at all times.

2. It is proposed that Part 117 be amended by revising § 117.5a to read as follows:

§ 117.5a Sheepscot River, Maine.

(a) *Maine State Highway Commission bridge, Mile 14.* The draw need not be opened for the passage of vessels unless at least 24 hours' advance notice has been given to the Maine State Highway Commission, Augusta, Maine, in person, in writing, or by telephone.

(b) *Maine Central Railroad Company bridge, mile 15.0.* The draw need not be opened for the passage of vessels unless at least 24 hours' advance notice has

been given to the railroad's agent at Wiscasset in person, in writing, or by telephone.

Authority for this section is set forth in section 5, 28 Stat. 362 as amended (33 U.S.C. 499), section 6(g)(2) of the Department of Transportation Act (49 U.S.C. 1655(g)(2), 49 CFR 1.46(c)(5) (35 F.R. 4959) and 33 CFR 1.05-1(c)(4) (35 F.R. 15922).

3. Interested persons may participate in this proposed rule making by submitting written data, views, arguments, or comments as they may desire on or before March 8, 1971. All submissions should be made in writing to the Commander, First Coast Guard District, J. F. Kennedy Federal Building, Government Center, Boston, Mass. 02203.

4. It is requested that each submission state the subject to which it is directed, the specific wording recommended, the reason for any recommended change, and the name, address and firm or organization, if any, of the person making the submission.

5. Each communication received within the time specified will be fully considered and evaluated before final action is taken on the proposal in this document. This proposal may be changed in light of the comments received. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, First Coast Guard District.

6. After the time set for the submission of comments by the interested parties, the Commander, First Coast Guard District will forward the record, including all written submissions and his recommendations with respect to the proposals and the submissions, to the Chief, Office of Operations, U.S. Coast Guard, Washington, D.C. The Chief, Office of Operations will thereafter make a final determination with respect to these proposals.

Dated: January 27, 1971.

FEDERAL AIRWAY SEGMENTS

Proposed Alteration

The Federal Aviation Administration (FAA) is considering amendments to Part 71 of the Federal Aviation Regulations that would realign the segment of VOR Federal airway No. 159 between St. Joseph, Mo., and Omaha, Nebr., and extend V-307 with a west alternate from Pawnee City, Nebr., to Omaha.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, MO 64106. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The airspace actions proposed in this docket would:

1. Realign V-159 between St. Joseph and Omaha via the intersection of the St. Joseph VORTAC 328° T (320° M) and Omaha VORTAC 155° T (147° M) radials.

2. Extend V-307 from the Pawnee City VORTAC direct to the Omaha VORTAC with a west alternate via the intersection of the Pawnee City VORTAC 003° T (354° M) and Omaha VORTAC 226° T (218° M) radials.

An increase in air traffic in the vicinity of Omaha requires an alteration of the airway structure in the terminal area. The proposed realignment of airways would provide a dual airway capability between St. Joseph and Omaha and between Pawnee City and Omaha.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on January 27, 1971.

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations that would alter the description of the Palmdale, Calif., control zone.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, CA 90045.

The Lockheed Aircraft Corp. is presently installing an Instrument Landing System (ILS) at the Palmdale Production Flight Test Installation, Air Force Plant No. 42, Palmdale, Calif.

The ILS is being installed to serve Runway 25 and will be an improved alignment over the ILS formerly installed for Runway 22. Target date for commissioning is March 1, 1971. On completion of the flight inspection-acceptance check, the facility will be turned over to the Federal Aviation Administration. The ILS will be used primarily for checkout of airborne equipment of the Lockheed 1011 and as a training facility by air carrier aircraft conducting ILS training and proficiency flights.

Two new instrument approach procedures are proposed, one utilizing the ILS 086° T (071° M) and 266° T (251° M) bearings from the ILS LOM, and the VORTAC Runway 25 approach utilizing the 099° T (084° M) radial of the Palmdale VORTAC. The airspace requirements for these and the current VOR and TACAN 1 Runway 25 instrument approach procedures have been reviewed in accordance with the U.S. Standard for Terminal Instrument Procedures (TERPs). As a result of the review, control zone extensions are required for each procedure to provide controlled airspace protection for aircraft executing the prescribed instrument procedures while operating below 1,000 feet above the surface.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.171 (36 F.R. 2055) the description of the Palmdale, Calif., control zone is amended to read as follows:

PALMDALE, CALIF.

Within a 5-mile radius of Air Force Plant No. 42, Palmdale, Calif. (latitude 34°37'45" N., longitude 118°04'54" W.), within 2 miles each side of the Palmdale VORTAC 045° radial, extending from the 5-mile radius zone to 9 miles northeast of the VORTAC, within 3 miles each side of the ILS localizer east course, extending from the 5-mile radius zone to 7.5 miles east of the LOM, and within 2 miles south of and parallel to the Palmdale VORTAC 099° radial, extending from the 5-mile radius zone to 8 miles east of the VORTAC. This control zone is effective during the specific dates and times established

in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on January 26, 1971.

LEE E. WARREN,
Acting Director, Western Region.

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Montevideo, Minn.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106.

A new instrument approach procedure has been developed for the Montevideo Municipal Airport, Montevideo, Minn. In addition, the criteria for designation of transition areas have been changed. Accordingly, it is necessary to alter the Montevideo transition area to adequately protect aircraft executing the new approach procedure and to comply with the new transition area criteria.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (36 F.R. 2140), the following transition area is amended to read:

MONTEVIDEO, MINN.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Montevideo Municipal Airport (latitude 44°58'15" N., longitude 95°42'40" W.); and within 3 miles each side of the 313° bearing from the Montevideo Municipal Airport extending from the 5-mile radius to 8 miles northwest of the airport; and that airspace extending upward from 1,200 feet above the surface within 9½ miles southwest and 4½ miles northeast of the 313° and 133° bearings from the Montevideo Municipal Airport extending from 5 miles southeast of the airport to 18½ miles northwest of the airport; and within 5 miles each side of the 133° bearing from the Montevideo Municipal Airport extending from the airport to 12 miles southeast of the airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Mo., on January 13, 1971.

DANIEL E. BARROW,
Acting Director, Central Region.

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Wisconsin Rapids, Wis.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106.

A new instrument approach procedure has been developed for the Alexander Field-Southwood County Airport at Wisconsin Rapids, Wis. Accordingly, it is necessary to alter the Wisconsin Rapids transition area to adequately protect aircraft executing this new approach procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (36 F.R. 2140), the following transition area is amended to read:

WISCONSIN RAPIDS, WIS.

That airspace extending upward from 700 feet above the surface within a 6½-mile radius of the Alexander Field-Southwood County Airport (latitude 44°21'30" N., longitude 89°50'15" W.); and within 3 miles each side of the 193° bearing from Alexander Field-Southwood County Airport, extending from the 6½-mile-radius area to 8 miles south of the airport and within 3 miles each side of the 125° bearing from Alexander Field-Southwood County Airport, extending from the 6½-mile radius to 8 miles southeast of the airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Mo., on January 13, 1971.

DANIEL E. BARROW,
Acting Director, Central Region.

RESTRICTED AREAS AND JET ROUTES

Proposed Designation and Revocation

The Federal Aviation Administration (FAA) is considering amendments to Parts 71, 73, and 75 of the Federal Aviation Regulations that would designate a joint-use restricted area near Green River, Utah, revoke the Hanksville, Utah, Restricted Area and designate jet route segments from Grand Junction, Colo., to Wilson Creek, Nev., and from Grand Junction to Bryce Canyon, Utah.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules

Docket, 800 Independence Avenue SW., Washington, DC 20590. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The Department of the Air Force has requested the designation of a restricted area at Green River, Utah, to provide for the launching of U.S. Army Pershing ballistic missiles. The proposed area would contain the first stage booster impact and, when required, the unignited second stage and missile warhead. A normal launch would result in the expended second stage and the warhead impacting in R–5107A, B, or C.

The proposed restricted area would overlie a portion of the existing R–6409. Consolidation of launch activities in the same general location provides a savings and improved support logistics. The Pershing ballistic missile firings to be conducted within the proposed restricted area cannot be accomplished within the existing R–6409. The Air Force has advised that firings will be individually scheduled and the proposed area and R–6409 and its associated fallout area R–6408 will not be activated at the same time. The proposed area would be activated for a period of approximately 90 days annually with the first period beginning April 1, 1971. Each successive period would be designated by a rule published in the FEDERAL REGISTER. Four 5-hour firing periods would be scheduled during the 90-day period. Thirteen missiles would be fired during each 5-hour period. For each missile firing the area would be utilized only long enough to clear the area of traffic and launch the missile. From launch to impact, the duration of the missile flight would be 8 minutes. During other times the area would be available for normal air traffic use.

The proposed jet routes would be used as alternate routes for J–60 and J–80 during the effective hours of the restricted area.

In view of the foregoing, the FAA proposes the following airspace actions:

1. R–6413, Green River, Utah, Restricted Area would be designated as follows:

Boundaries: Beginning at latitude 38°57'-00" N., longitude 110°09'40" W.; thence to latitude 38°46'03" N., longitude 110°06'00" W.; to latitude 38°31'30" N., longitude 109°57'00" W.; to latitude 38°31'30" N., longitude 109°51'00" W.; to latitude 38°33'-27" N., longitude 109°46'00" W.; to latitude 38°49'15" N., longitude 109°57'02" W.; to latitude 38°58'02" N., longitude 110°05'33" W.; thence to point of beginning.

Designated altitudes: Surface to unlimited.

Time of designation: From April 1, 1971, to June 30, 1971, unless canceled sooner by Notices to Airmen. All subsequent firing periods would be designated by a rule published in the FEDERAL REGISTER.

Controlling agency: Federal Aviation Administration, Denver ARTC Center.

Using agency: Air Force Special Weapons Center, Air Force Systems Command, Kirtland AFB, N. Mex.

2. A jet route would be designated from the Grand Junction, Colo., VOR TAC to the Wilson Creek, Nev., VOR TAC via the intersection of the Grand Junction 274° T (259° M) and Wilson Creek 067° T (052° M) radials.

3. A jet route would be designated from the Grand Junction, Colo., VOR TAV to the Bryce Canyon, Utah, VOR TAC via the intersection of the Grand Junction 232° T (217° M) and Bryce Canyon 090° T (075° M).

4. The Continental Control Area would be altered by adding the Green River Restricted Area, R–6413 and deleting R–6411 Hanksville, Utah.

5. The Hanksville, Utah, Restricted Area, R–6411, would be revoked.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on January 27, 1971.

T. MCCORMACK,
Acting Chief, Airspace and Air Traffic Rules Division.

AREA HIGH ROUTES

Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would designate 10 area high routes in the western United States.

Amendments to Parts 71 and 75 of the Federal Aviation Regulations were published in the FEDERAL REGISTER (35 F.R. 10653) which established regulatory bases for the designation of specific area high and low routes.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20590. All communications received within 60 days after publication of this notice in the FEDERAL REGISTER will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20590.

The FAA proposes to amend Part 75 of the Federal Aviation Regulations by designating area high routes as follows:

HYDRAULIC BRAKE SYSTEMS

Motor Vehicle Safety Standard; Extension of Time for Comments

A notice of proposed amendment to 49 CFR 571.21, Federal Motor Vehicle Safety Standard No. 105, Hydraulic Brake Systems, was published on November 11, 1970 (35 F.R. 17345), with a closing date for comments of February 4, 1971. Borg & Beck Division of Borg-Warner Corp. has petitioned for an extension of the closing date in order to allow time for compilation of data from tests conducted on antilock brake systems, and to allow completion and testing of a vehicle with a brake system that can meet the proposed stopping distance requirements. In response to this request, the closing date for comments is hereby extended to March 4, 1971.

This notice is issued under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392, 1407) and the delegations of authority at 49 CFR 1.51 (35 F.R. 4955) and 49 CFR 501.8 (35 F.R. 11126).

Issued on January 28, 1971.

LAMPS, REFLECTIVE DEVICES, AND ASSOCIATED EQUIPMENT

Motor Vehicle Safety Standard

Standard No. 108, establishing requirements for lighting equipment and reflective devices on motor vehicles, was amended in several respects on October 31, 1970 (35 F.R. 16840). One of these amendments deleted the provisions in SAE Standard J590b, "Automotive Turn Signal Flasher", and SAE Standard J945, "Vehicular Hazard Warning Signal Flasher," incorporated by reference in Standard No. 108, that specified a sample size and a permissible failure rate for the items tested. In response to an objection by an interested manufacturer that this particular amendment was not included in the prior notice of proposed rule making (35 F.R. 106, Jan. 3, 1970), this amendment has been revoked by notice issued today (36 F.R. 1896) and the amendment is hereby set forth as a proposal to allow interested parties opportunity to comment.

The SAE provisions in question specify that 50 items shall be "submitted for test", that 20 items shall be chosen from the 50, and that "at least 17 out of 20 samples" shall meet the requirements. These provisions are considered by this agency, both as policy and as a legal matter, to be inappropriate for a motor vehicle safety standard in light of the purposes and language of the National Traffic and Motor Vehicle Safety Act, which in section 108(a)(1) requires that no person shall manufacture any item or equipment that does not conform to applicable "standards", defined in part as "minimum standards for motor vehicle performance."

This agency does not, however, accept the proposition that every change in detail made from a notice of proposed rule making must be resubmitted as a proposal before a final rule may be issued. In this area of complex technical rule making, such a practice would greatly increase the number of notices that would have to be issued, without corresponding public benefit. It does not appear to be mandated by the Administrative Procedure Act's provision (5 U.S.C. 553) that notices of proposed rule making shall include "either the terms of substance of the proposed rule or a description of the subjects and issues involved."

In consideration of the foregoing, it is proposed that 49 CFR 571.21, Motor Vehicle Safety Standard No. 108, S4.4.2, Table I, and Table III thereof, be amended as follows:

1. S4.4.2 would be amended by adding the following sentence at the end thereof: "The sampling provisions in these standards shall be omitted".

2. Table I, Column 4, and Table III, Column 5 would be amended by changing "J590b, October 1965" to read "J590b, October 1965, omitting sampling provisions".

3. Table I, Column 4, and Table III, Column 5 would be amended by changing "J945, February 1966" to read "J945, February 1966, omitting sampling provisions".

Interested persons are invited to submit data, views, and arguments concerning the proposed amendments. Comments are particularly invited on the leadtime and costs directly related to compliance with the proposal. Comments should refer to the docket number, and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 4223, 400 Seventh Street SW., Washington, DC 20591. It is requested, but not required, that 10 copies be submitted. All comments received before the close of business on March 4, 1971, will be considered and will be available in the docket at the above address for examination both before and after the closing date. To the extent possible, comments filed after the above date will also be considered. However, the rule-making action may proceed at any time after the date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rule making. Relevant material will continue to be filed, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continuing to examine the docket for new materials.

Proposed effective date: January 1, 1972.

This notice of proposed rule making is issued under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392, 1407) and the delegations of authority at 49 CFR 1.51 (35 F.R. 4955) and 49 CFR 501.8 (35 F.R. 11126).

DOOR LOCKS AND DOOR RETENTION COMPONENTS

Motor Vehicle Safety Standard

This notice proposes to amend 49 CFR 571.21, Standard No. 206—Door Locks and Door Retention Components on Passenger Cars, Multipurpose Passenger Vehicles, and Trucks, so that its requirements would apply to any side door leading directly into a passenger compartment.

S4. of the Standard provides, in pertinent part, that "side door components referred to herein shall conform to this standard if any portion of a 90th-percentile two-dimensional manikin as described in SAE Practice J826, when positioned at any seating reference point, projects into the door opening area on the side elevation or profile view." Under this language, Standard No. 206 applies only to those side doors that are laterally opposite designated seating positions. The proposed amendment is intended to afford protection against ejection through side doors not only to those persons who, when seated, would project into the side door opening area, but also those persons who are either sitting farther from the door opening or standing anywhere in the compartment. As amended, the Standard would apply to all side doors leading into a passenger compartment containing one or more

seating accommodations. The Standard would apply to such doors regardless of the location of the seating accommodation within the compartment and regardless of whether the seating accommodation is a designated seating position.

In consideration of the above, it is proposed that S4. of Standard No. 206, in § 571.21 of Title 49, Code of Federal Regulations, be revised to read as follows:

§ 571.21 Federal Motor Vehicle Safety Standards.

The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new materials.

ATOMIC ENERGY COMMISSION

[10 CFR Part 73]

PHYSICAL PROTECTION OF SPECIAL NUCLEAR MATERIAL

Notice of Proposed Rule Making

The Atomic Energy Commission is considering the amendment of its regulations in 10 CFR Part 73, "Physical Protection of Special Nuclear Material," to prescribe new requirements, in the interest of national security, to strengthen existing requirements for physical protection of special nuclear material while in transit.

A licensee of special nuclear material subject to Part 73 requirements would be required:

1. To provide for monitoring by an "authorized individual" of all shipments when such material is scheduled to be handled and is transported in a package which weighs less than 500 pounds; this requirement would supplement the hand-to-hand receipt system of physical protection presently required;

2. To conduct an appropriate investigation of each individual to be designated by the licensee as an "authorized individual" to support the belief that the individual is trustworthy;

3. To assure that all such material, which the licensee delivers to a carrier for transport or which he transports, will be physically protected as specified in Part 73; and

4. If he is the shipper, to make arrangements with the consignee to be notified of the arrival of a protected shipment at its destination, and, if he is the consignee, to notify the shipper of the arrival of a protected shipment at its destination.

Pursuant to the Atomic Energy Act of 1954, as amended, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following amendments of 10 CFR Part 73 is contemplated. All interested persons who desire to submit written comments or suggestions should send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, within sixty (60) days after publication of this notice in the FEDERAL REGISTER. Comments received after that period will be considered if it is practicable to do so, but assurance of consideration cannot be given except as to comments filed within the period specified. Copies of comments on the proposed amendments may be examined at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C.

1. Section 73.1 is amended to read as follows:

§ 73.1 Purpose and scope.

This part prescribes requirements for the physical protection of special nuclear material by any person who is licensed pursuant to the regulations in Part 70 of this chapter and who exports, transports, or delivers to a carrier for transport in a single shipment, or possesses at any site or contiguous sites subject to control by the licensee, more than 5,000 grams of uranium 235 (contained in uranium enriched to 20 percent or more in the U235 isotope), uranium 233, or plutonium, or a combination thereof.

2. Section 73.3(b) is amended to read as follows:

§ 73.3 Definitions.

* * * * *

(b) "Authorized individual" means an individual, including an employee, a consultant, or an agent of a licensee, who after adequate background investigation, is reasonably believed by the licensee to be trustworthy and who has been designated in writing by the licensee to have responsibility for surveillance of special nuclear material.

* * * * *

3. Section 73.31 is amended to read as follows:

§ 73.31 Physical protection of special nuclear material in transit.

(a) Each licensee who transports or who delivers to a common or contract carrier for transport special nuclear material shall assure that such special nuclear material will be protected in transit as follows:

(1) Special nuclear material will be transported in the continuous personal custody of an authorized individual, or

(2) (i) Special nuclear material will be transported under the established procedures of a common or contract carrier which provide a system for the physical protection of valuable material in transit and require an exchange of hand-to-hand receipts at origin and destination and at all points en route where there is a transfer of custody.

(ii) A container the gross weight of which is less than 500 pounds shall be monitored by an authorized individual during a scheduled transfer from storage to a vehicle, from one vehicle to another, or from a vehicle to storage. The authorized individual shall be required to notify his employer and the carrier immediately of any deviation from, or attempted interference with, schedule or routing.

(b) Each licensee who delivers to a carrier for transport special nuclear material, shall immediately notify the consignee by telephone, telegram, or teletype, of the time of departure of the shipment, the method of transportation, including names of carriers, and the estimated time of arrival of the shipment at its destination. He shall also make arrangements with the consignee to be notified immediately by telephone, telegraph, or teletype, of the arrival of the shipment at its destination.

(c) In addition to the requirements specified in paragraphs (a), (b), and (e) of this section, each licensee who exports special nuclear material shall make arrangements with the consignee to be notified immediately by telephone, telegraph, or teletype, of the arrival of the shipment at its destination, or of any such shipment that is lost or unaccounted for after the estimated time of arrival at its destination.

(d) Each licensee who receives a shipment of special nuclear material shall immediately notify the person who delivered the material to a carrier for transport of the arrival of the shipment at its destination. In the event such a shipment fails to arrive at its destination at the estimated time, the consignee, if a licensee, or in the case of an export shipment, the licensee who exported the shipment, shall immediately notify by telephone, telegram, or teletype, the Director of the appropriate Atomic Energy Commission District Safeguards Office listed in Appendix A, and the licensee or other person who delivered the material to a carrier for transport.

(e) Each licensee who makes arrangements for physical protection of a shipment of special nuclear material as required by this section, shall immediately conduct a trace investigation of any shipment that is lost or unaccounted for after the estimated arrival time and file a report with the Commission as specified in § 73.42 and immediately report the results of his investigation by telephone, telegram, or teletype to the consignee.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Washington, D.C., this 21st day of January 1971.

[No. MC-C-4000 (Sub-No. 4)]

MOTOR TRANSPORTATION OF PASSENGERS INCIDENTAL TO TRANSPORTATION BY AIRCRAFT

Notice of Proposed Rule Making

JANUARY 29, 1971.

Redefinition of the limits of the zone within which motor transportation of passengers having an immediately prior or subsequent movement by air from or to Philadelphia International Airport, Philadelphia, Pa., is exempt from economic regulation pursuant to section 203 (b) (7a) of the Interstate Commerce Act, defined in MC-C-4000, 95 M.C.C. 526 at pages 538-539.

Petitioner: Airport Shuttle Service, Inc. Petitioner's representative: H. James Conway, Jr., 1401 Market Tower, Wilmington, DE 19801. By petition filed January 21, 1971, the above-named petitioner requests the Commission to reopen the above proceeding for the purpose of specifically defining the limits of the zone within which may be performed motor transportation of passengers having an immediately prior or subsequent movement by air, pursuant to section 203(b)(7a) of the Interstate Commerce Act, within the Philadelphia, Pa., air terminal area. The limits of terminal areas at airports within which such transportation may be performed under the section 203(b)(7a) exemption were defined on July 17, 1964, in Motor Transportation of Passengers Incidental to Transportation by Aircraft, 95 M.C.C. 526, at pages 538-539 (49 CFR 1047.45). Petitioner here seeks to remove the exemption, in part, with respect to Philadelphia International Airport.

As presently defined, the Philadelphia, Pa., "passenger exempt zone", within which motor transportation is incidental to transportation by aircraft (except as may be individually determined), does not exceed in size the area encompassed by a 25-mile radius of the boundary of the airport at which the passengers arrive or depart, and by the boundaries of the commercial zones (as defined by the Commission) of any municipalities any part of whose commercial zones lie within the 25-mile radius of the pertinent airport. Petitioner requests the Commission to remove the exemption as to all points beyond a 7-mile radius of Philadelphia International Airport.

No oral hearing is contemplated at this time, but anyone, including petitioner, wishing to make representations in favor of, or against, the above-proposed revision of the limits of the "passenger exempt zone" at Philadelphia, Pa., may do so by the submission of written data, views, or arguments. An original and 15 copies of such data, views, or arguments, the original of which must be verified with respect to matters of fact contained therein, shall be filed with the Commission on or before April 2, 1971. Each such statement should include a statement of position with respect to the proposed revision, and a copy thereof should be served upon petitioner's representative.

In addition, one copy of each representation, reply, or any other pleading must be filed with:

Secretary,
Civil Aeronautics Board, Washington, D.C. 20428.

Copies of all representations, replies, or other pleadings filed with the Commission must show that service has been made upon the persons named above, in conformity with the Rule 1.22 of the Commission's general rules of practice.

Notice to the general public of the matter herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission.

[SEAL] Robert L. Oswald,
Secretary.

Notice of Proposed Classification of Public Lands for Transfer Out of Federal Ownership

JANUARY 26, 1971.

1. F.R. Doc. 70-15821 appearing at page 18067 of the issue of Wednesday, November 25, 1970, identified 3,720 acres of public land proposed to be classified for transfer out of Federal ownership under authority of section 8 of the Taylor Grazing Act (43 U.S.C. 316g). That notice did not contain a statement of reasons supporting the proposed classification as required by 43 CFR 2450.3(a). That notice is hereby amended to include the following:

A. BACKGROUND AND GENERAL DATA

1. The subject is vacant, unappropriated public land. There are no rights-of-way of record that cross the subject land.

2. There are no current or previous land classifications affecting the land. The land was previously proposed for classification for exchange pursuant to section 8 of the Taylor Grazing Act. This proposed classification was held invalid by the Office of Hearings and Appeals, Department of the Interior because the range users were not appropriately notified of the action.

3. There are no known Federal, State, or local programs known to affect the subject land.

4. The land is zoned M-3 "open use." The southern one-third portion of Washoe County, which includes the subject, is being currently included in a county comprehensive master plan.

5. The lands to the north and west of the subject are solidly blocked, private lands owned by North American Rockwell Corp. Lands to the south and east are alternately owned by Depaoli Brothers (livestock operators) and the Federal Government.

6. The subject parcels occupy the remote higher elevations of the Pah Rah Range of the Virginia Mountains. They are accessible by foot or horseback only. They are bordered by private lands on three sides and checkerboard public land on one side. They therefore, are isolated tracts and legal access to them by the public is at the discretion of North American Rockwell Corp. and Depaoli Brothers, the adjoining private land owners. The principal use is considered to be for summer livestock grazing and some wildlife use.

7. The subject comprises seven alternate sections with four sections occupying a west-east direction and three sections occupying a south to north direction. This land pattern reflects a backward "L" shape.

These lands reach the crest of the Pah Rah Range of the Virginia Mountains. They are located approximately 20 miles northeast of Reno/Sparks, Nev., and 10 miles northwest of Wadsworth/Fernley, Nev.

480 acres of the land occupy the White Hills and Olinghouse grazing allotments. The crest of the mountain is the demarcation line for these allotments. The allotments occupy the east side of the slope and North American Rockwell Corp. (Cottonwood Allotment) occupies the west side of the slope.

8. There is no legal access to the land. The only physical access available is via foot or horseback. The land is too remote and rough for vehicle traffic.

9. Primary vegetation consists of big sagebrush, scattered Juniper trees, bitterbrush and a mixture of annuals and grasses.

10. There is one fresh water spring in sec. 36 (T. 22 N., R. 22 E.). This spring is situated in the E½ of the section and is not included with the subject lands.

Cottonwood Creek, a seasonal body of water, crosses the approximate centers of sec. 34 (T. 21 N., R 22 E.). The creek's direction of flow is from east to west, primarily crossing North American Rockwell Corp. land.

There has been reported a seasonal water catchments at a spring located in sec. 12 (T. 21 N., R. 22 E.). These improvements could not be located by the examiner, however, if they do exist, the amount of water collected for livestock use would be minimal.

11. There is a range fence (Project No. 5008) that traverses the south section line (east-west direction) of sec. 36 (T. 21 N., R. 21 E.), secs. 32 and 34 (T. 21 N., R. 22 E.), and the northwest portion of sec. 36 (T. 21 N., R. 22 E.).

B. LAND USE CAPABILITIES

1. *Historical uses.* The historical uses of the land are wildlife habitat and livestock grazing.

2. *Present uses.* Approximately 3,270 acres of the subject is situated within the Cottonwood Grazing Allotment leased by North American Rockwell Corp. Approximately 450 acres of the subject is situated within the White Hills and Olinghouse Canyon grazing allotments leased to Depaoli Brothers. The boundary line separating these allotments is the ridge or summit of the Pah Rah mountain range. This mountain ridge runs in a north-south direction.

The land has not been classified for multiple-use management. The subject lands are among the last of the public land parcels remaining in the Cottonwood Grazing Allotment and North American Rockwell's Nevada Rocket Test facility. The land is in a checkerboard land ownership pattern, and the lands are without legal access.

No mineral exploration work or mining claim monuments were noted on the subject. County records were not searched for evidence of mining claims.

3. *Potential uses—Domestic livestock grazing.* The approximate carrying capacity for cattle of the subject is 12-18 ac./AUM. Due to elevation and prevalent winter precipitation, this area is limited to seasonal warmer month use.

Wildlife habitat. The land contains adequate deer and chukar habitat and population.

Mineral production. There is no evidence of mineral potential on the lands. U.S.G.S. reports that the lands are not valuable for any known minerals or geothermal resources.

Outdoor recreation. The lands would be suited to open space recreation usage with legal access. The land is accessible by foot and horse back only.

Timber production. The land is nontimbered.

Watershed protection. The land is not essential to watershed protection.

Wilderness preservation. The land contains no wilderness value.

Public purposes. The land has public value for open space recreation, wildlife habitat, and livestock grazing. It has no known public purpose value for State or local government uses or non profit recreation groups.

Occupancy. The land has no known value for residential, commercial, or industrial uses.

Agricultural. The land is nonagricultural in character.

C. LAND USE ANALYSIS AND CONCLUSIONS

The land has some value for livestock grazing, wildlife habitat, and open space recreation. The forage carrying capacity for livestock is considered low. Wildlife habitat for deer and chukar is considered average. The open space recreation value is considered marginal because the land is without physical or legal access. Use of the land is limited to North American Rockwell, the Depaoli Brothers, and their guests. It would be in the public interest to exchange the subject parcels for private lands with superior public values.

D. CLASSIFICATION CRITERIA

1. *43 CFR 2410.1.* The lands are suitable or adaptable to the uses or purposes for which they are classified.

The land classification will attempt to achieve maximum future uses and minimum disturbance to or dislocation of existing users.

The land classification is consistent with State and local government programs, plans, zoning, and regulations applicable to the area.

The land classification is consistent with Federal programs and policies affecting disposal of public lands.

2. *43 CFR 2420.2.* The subject lands are not needed for the stabilization and development of the livestock industry dependent upon Federal lands.

The subject lands are not needed to provide adequate areas of public hunting and public access thereto.

The subject lands are not needed for public beneficial utilization through leases such as Recreation and Public Purposes Act.

The subject lands are not needed to provided needed recreation, conservation, scenic areas, and open space.

3. *43 CFR Part 2430.* The subject lands are not needed for urban, suburban, or public purposes.

The subject lands have special values, arising from the interest of exchange proponents, for exchange for other lands which are needed for the support of Federal programs.

4. It is concluded that the subject lands are not needed for retention for Multiple-Use Management but are suited to private exchange disposal and should be so classified.

2. For a period of 60 days from the date of publication of this notice in the FEDERAL REGISTER, all persons who wish to submit comments, objections, or suggestions in connection with the proposed classification may present their views in writing to the District Manager, Bureau of Land Management, Carson City District Office, 801 North Plaza Street, Carson City, NV 89701.

For the State Director.

ROLLA E. CHANDLER,
Manager, Nevada Land Office.

Notice of Termination of Proposed Withdrawal and Reservation of Lands

JANUARY 27, 1971.

Notice of a Bureau of Land Management application, Wyoming 17259, for withdrawal and reservation of lands for an administrative site, was published as F.R. Doc. 69-1507 on pages 1776 and 1777 of the issue for February 6, 1969, and amended by F.R. Doc. 70-3237, on page 4712 of the March 18, 1970 issue. The Bureau now cancels its application insofar as it affects the following described land:

SIXTH PRINCIPAL MERIDIAN

T. 19 N., R. 105 W.,
Lot 5, except that portion therein described as follows: Beginning at a point 816.55' N., 17°56'40" E. of the quarter corner common to secs. 14 and 15, T. 19 N., R. 105 W., of the 6th P.M.; thence N. 12°22' E. a distance of 513.7 feet, thence S. 89° 41' E. a distance of 902.92 feet, thence S. 2°16' E. a distance of 779.4 feet, thence N. 74°54'30" W. a distance of 1,080 feet to the point of beginning.

The area described contains 27.40 acres.

Therefore, pursuant to the regulations contained in 43 CFR 2091.2-5, such lands, at 10 a.m. on February 26, 1971, will be relieved of the segregative effect of the above-mentioned application.

JOHN T. WASSERBURGER,
Acting State Director.

UNDERGROUND COAL MINES

Notice of Training Programs Required To Be Filed by Operators and Availability of Approved Training Programs

Part 75, Mandatory Safety Standards for Underground Coal Mines, published in the FEDERAL REGISTER for November 20, 1970 (35 F.R. 17890), provides as follows:

Section 75.160 *Training programs.* Every operator of a coal mine shall provide a program, approved by the Secretary, of training and retraining of both qualified and certified persons needed to carry out functions prescribed in the Act.

Section 75.160-1 *Plans for training programs.* On or before December 31, 1970, each operator shall submit to the District Manager a program or plan setting forth what, when, how, and where he will train and retrain persons whose work assignments require that they be certified or qualified. Such program shall provide: (a) For certified persons, annual training courses in methane measurement and oxygen deficiency testing, roof and rib control, ventilation, first aid, principles of mine rescue, and the provisions of this Part 75, and (b) for qualified persons, annual courses in performance of the tasks which they perform as qualified persons.

Section 75.1713-4 *First-aid training program; availability of instruction to all miners.* On or before June 30, 1971, each operator of an underground coal mine shall make available to all miners employed in the mine a course of instruction in first-aid conducted by the operator or under the auspices of the opertaor, and such a course of instruction shall be made available to newly employed miners within 6 months after the date of employment.

Section 75.1713-5 *First-aid training program; retraining of supervisory employees; availability to all miners.* Beginning January 1, 1971, each operator of an underground coal mine shall conduct refresher first-aid training courses each calendar year for all selected supervisory employees, and make available refresher first-aid training courses to all miners employed in the mine.

Section 75.1714 *Self-rescue device.* A self-rescue device approved by the Secretary shall be made available to each miner by the operator which shall be adequate to protect such miner for 1-hour or longer. Each operator shall train each miner in the use of such device.

Notice is hereby given, that each operator of an underground coal mine may, in carrying out the training requirements set forth above, submit proposed training programs in the following manner:

Training programs may be submitted directly to the Coal Mine Health and Safety District Manager for the District in which the mine is located.

Each proposed training program shall contain the following information:

Training staff. (1) Name and Bureau of Mines Identification No. of the mine.

(2) The name, occupation, and social security number of the person designated by the operator as responsible for health and safety training at the mine.

(3) The names, social security numbers, and titles (occupation), and training experience of each instructor who will participate in the training program.

(4) Specify the nature of the training to be provided, together with a training schedule and the proposed use of handout materials, such as pocket cards.

Certified persons. The proposed training and retraining programs for all certified persons shall specify the nature of the training to be provided and the time allocated to the following topics:

(1) First Aid;

(2) Methane Measurement and Oxygen Deficiency Testing;

(3) Roof and Rib Control;

(4) Ventilation;

(5) Principles of Mine Rescue; and,

(6) Provisions of the Coal Mine Health and Safety Act of 1969 and regulations pursuant thereto, where applicable.

Qualified persons. The proposed training programs for qualified persons shall specify:

(1) The training schedule and the training time allocated for annual training and retraining of all qualified persons in first aid; and,

(2) The proposed schedule and training time allocated for training qualified persons to perform the duties to which they are assigned.

The District offices of the Bureau of Mines have available for loan an approved first-aid course based on the most recent Revision of the Bureau of Mines First Aid Manual. A similar first aid instructional course is also available from the 3M Co. for $199, and will also be available after December 31, 1970, from the U.S. Government Printing Office for $5. All other training courses will be available from the Division of Education, Bureau of Mines, Pittsburgh, PA.

On and after February 1, 1971, courses for retraining certified persons, complete with illustrations and visuals will be available. Requests for these retraining programs should be addressed to:

Division of Education, Bureau of Mines, 4800 Forbes Avenue, Pittsburgh, PA 15213.

Upon request to the same address, the Bureau of Mines will mail to each mine operator instructions and pocket cards for use in training all underground personnel in the use of the self-rescuer.

On and after April 1, 1971, courses in ventilation, roof control, methane measurement, and oxygen deficiency testing will also be available upon written request from the Division of Education, Bureau of Mines.

Training programs may consist entirely of available Bureau of Mines programs, or entirely of company-developed programs, or a combination of both of these.

On and after April 1, 1971, where the operator chooses to employ training courses other than those available from the Division of Education, Bureau of Mines, such training courses must be submitted for approval to the Coal Mine Health and Safety District Manager for the District in which the mine is located prior to their installation and use.

The minimum requirements for training and retraining programs set forth above shall apply until further notice. Additional requirements for training and retraining programs will be published periodically by the Bureau to reflect improvements in training methods and techniques.

FRED J. RUSSELL,
Under Secretary of the Interior.

LICENSING DEPARTMENT INVENTIONS

Pursuant to authority delegated by the Secretary in 7 CFR 19.3 (35 F.R. 7493), the Administrator of the Agricultural Research Service has determined that certain Department inventions shall be made available for exclusive licensing under the provisions of Government Patent Policy (28 F.R. 10943) and 7 CFR 19.5 (35 F.R. 7493). Notice is hereby given that the following Department inventions are available for exclusive licensing:

1. Process for Making Powdered Fruit Juices, U.S. Patent 2,816,039, issued December 10, 1957, by Roderick K. Eskew.

Abstract. A process for making powdered fruit juice comprising evaporating a fruit juice concentrate of about 70 to 85 percent solids content to at least about 96 percent solids content by forming the concentrate into a film of the order of 1 mm. thickness, heating said film at a temperature of about from 240° to 250° F. for a time not exceeding about 1 minute while maintaining on it a vacuum of at least about 20 inches of mercury, cooling said film to a temperature at which it is a brittle solid and grinding it to a powder.

2. Process for Making Full-Flavored Powdered Fruit Juice, U.S. Patent 2,816,840, issued December 17, 1957, by Victor A. Turkot, Roderick K. Eskew, and Nicholas C. Aceto.

Abstract. A process for making powered, full-flavored fruit juice comprising stripping volatile flavoring materials from fruit juice; concentrating said flavoring materials to an essence of at least about 200-fold strength; separately concentrating the stripped juice to obtain a molten concentrated juice of at least 96 percent solids content, continuously adding said essence to said molten juice and thoroughly mixing therewith under superatmospheric pressure to prevent flashing of the essence; continuously discharging the molten, essence-containing concentrated juice in a thin layer onto a chilled surface to quickly cool and solidify the molten product to a brittle solid; and reducing said solid to a powder.

3. Process for Dehydrating Liquid Foodstuffs with Preservation of Volatile Flavors, U.S. Patent 2,906,630, issued September 29, 1959, by Victor A. Turkot, Roderick K. Eskew, and Nicholas C. Aceto.

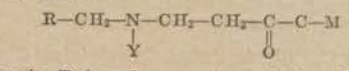

Abstract. A process for dehydrating a liquid foodstuff with preservation of its volatile flavor comprising stripping the volatile flavor from a liquid foodstuff from the group consisting of honey, coffee extract, and tea extract, dehydrating the stripped liquid foodstuff until it is obtained in a molten state of at least about 96 percent solids, separately concentrating the recovered volatile flavor to at least about 200-fold strength, mixing the molten dehydrated foodstuff and concentrated volatile flavor under superatmospheric pressure and quickly cooling the product thus obtained to a temperature at which it is a brittle solid.

4. Dried Fat-Containing Milk Products of Easy Dispersibility, U.S. Patent 2,964,407, issued December 13, 1960, by Howard I. Sinnamon, Nicholas C. Aceto, and Roderick K. Eskew.

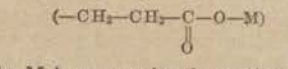

Abstract. A process for making a dried whole milk comprising incorporating an inert gas of low solubility into a concentrated, homogenized, fat-containing milk in which the fat particles do not exceed about 2 microns in size; subjecting said gas-containing milk concentrate to conditions of temperature and pressure to prevent substantial evolution of gas while causing the concentrate to foam; and then drying the foamed concentrate to produce a dry cellular product readily dispersible by hand stirring in cold water without fat separation.

5. Process for Treating Washable Leather, U.S. Patent 3,300,338, issued January 24, 1967, by Martin L. Fein, Samuel J. Viola, and Edward M. Filachione.

Abstract. The properties of softness, smoothness, and other closely associated physical characteristics are imparted to washable leather by impregnating the leather with an aqueous solution of a compound of the formula

wherein R is a long carbon chain aliphatic radical, M is selected from the group consisting of hydrogen and a water-soluble salt-forming cation, and Y is selected from the group consisting of hydrogen and

wherein M is as previously recited, separating the impregnated leather from the solution and drying the leather.

6. Degraded Starch Polyoxyalkylene Ether Compositions and Process for Producing the Same, U.S. Patent 3,165,508, issued January 12, 1965, by Felix H. Otey and Charles L. Mehltretter.

Abstract. Polyurethane foams resistant to yellowing are obtained by reacting an organic polyisocyanate and a degraded starch glycoside polyoxyalkylene ether containing from about 4 to about 75 mole equivalents of an alkylene oxide. The degraded starch glycoside polyether is prepared by heating an unmodified starch with at least 1 mole equivalent of a polyol at about 120° to 140° C. for about 30 to 60 minutes in the presence of a strong

mineral acid catalyst, continuing said heating for another 30 to 60 minutes at reduced pressure to completely remove water of reaction and at least partially remove any unreacted polyol, adding a catalytic excess of alkali, and introducing an alkylene oxide while maintaining the temperature of about 130° C. until the desired amount has reacted.

7. Saponified Starch Acrylate Grafts, U.S. Patent 3,377,302, issued April 9, 1968, by Lewis A. Gugliemelli, Mary Ollidene Weaver, and Charles R. Russell.

Abstract. The saponified salt or free acid derivatives of hydrophobic starch grafts containing from 1 to 2 parts by weight of polyacrylate or polymethylacrylate side chains have improved hydrophilic properties over commercially available polyacrylic acids. Dilute aqueous solutions or dispersions of the saponified starch ester grafts exhibit high viscosities even in the presence of shear. They have utility as industrial thickening agents for drilling muds, hydraulic fluids, and flocculents.

8. Graft Polymers of Polyalkylene Oxides on Starch and Dextrin, U.S. Patent 3,414,530, issued December 3, 1968, by Albert Zilkha, Menashe Tahan, and Gabrial Ezra.

Abstract. Graft copolymers of polyalkylene oxides on starch and dextrin polysaccharides having utility as adhesives, emulsifiers, and thickeners are prepared by reacting under aprotic conditions the alkali metal alkoxide derivative of the polysaccharide with one or more of the alkylene oxides.

9. Salt-Resistant Thickeners Comprising Base-Saponified Starch-Poly-Acrylonitrile Graft Copolymers, U.S. Patent 3,425,971, issued February 4, 1969, by Lewis A. Gugliemelli, Mary Ollidene Weaver, and Charles R. Russell.

Abstract. Two percent dispersions of saponified starch-polyacrylonitrile graft copolymers provide viscosities of about 6,000 c.p.s. even though dispersed in a 12 percent brine. The presence of only a limited sensitivity to high salt concentrations provides the saponified graft copolymers with great potential as a bodying agent for use in secondary oil recovery operations from off-shore wells.

10. Cellulosic Pulps Comprising Crosslinked Cereal Pulps and Products Made Therewith, U.S. Patent 3,160,552, issued December 8, 1964, by Charles R. Russell, Russell A. Buchanan, and Carl E. Rist.

Abstract. Paper and related cellulosic products including grease-proof paper and boxboard and consisting of from 4 to about 44 percent by weight (about 90 percent based on the cellulose fiber content) of a starch, flour, wheat bran, whole wheat, dextrin, or polysaccharide gum xanthate that has been crosslinked in situ on the cellulose fibers in a beater or other wet-end point by iodine, chlorine, zinc chloride, or ferric chloride to form the corresponding "cereal pulp" disulfurdithiocarbonates, or metal dithiocarbonates have greatly increased wet strengths and fold endurance over the corresponding all-cellulose products. Incorporating the cereal pulp disulfurdithiocarbonates or metal dithiocarbonates improves the drainage of water from a papermaker's pulp and improves the transparency of greaseproof-type papers therefrom, thus providing a method of improving the freeness of a cellulose furnish.

11. Process for Production of an Alkali Starch Xanthate Solution, U.S. Patent 3,385,719, issued May 28, 1968, by Earl B. Lancaster, Howard F. Conway, Lawrence A. Weinecke, and Edward L. Griffin, Jr.

Abstract. Very low viscosity aqueous 10 percent 0.07° of substitution starch xanthate solutions are directly produced without a final addition of water by stirring starch or pregelatinized starch in the form of an aqueous dispersion containing only 10 percent of starch based on the weight of the dispersion with up to 0.5 mole equivalents of NaOH and OS_2, preferably at or only slightly above room temperature in a closed mixer for up to 1 hour.

12. Cycloheximide as an Abscission Aid in Harvesting Citrus Fruit, Patent Application S.N. 865,199, filed October 8, 1969, by William C. Cooper.

Abstract. Aqueous solutions of cycloheximide, 3-[2-(3,5-dimethyl-2-oxocyclohexyl)-2-hydroxyethyl] glutarimide, promote fruit abscission when they are sprayed on orange trees. The pull force required to separate the fruit from the tree is greatly reduced 4–7 days following application of 15–25 p.p.m. cycloheximide. The mode of action is related to the increased natural production of ethylene. Effectiveness of cycloheximide sprays is influenced by the citrus variety, stage of growth, plant stress conditions, relative humidity and temperature at the time of application and by rate of application. Use of cycloheximide sprays will greatly improve the efficiency of the mechanical harvesting of citrus crops used for processing and will greatly enhance the full development of mechanical aids for the harvest of citrus crops.

13. Phosphoramides and Thiophosphoramides as Insect Chemosterilants, U.S. Patent 3,205,130, issued September 7, 1965, by Paul H. Terry and Alexej B. Borkovec.

Abstract. The patent describes the use of several of the title compounds as effective sterilizing agents of various kinds of insects. The advantages of the described phosphoramides as insect sterilant, are numerous—they have low toxicity towards the insect, high sterilizing activity, sufficient stability to allow formulation and application, and a high margin of safety to allow use in, without harmful effects on, the environment. They are also generally nontoxic to humans and other mammals. Thus these compounds can be used to replace the effective, but less desirable, types of compounds such as the aziridinyl compounds which are patented mutagens in warmblooded animals.

14. Nematocidal Haloalkyl Acid Ester, U.S. Patent 3,084,094, issued April 2, 1963, by Samuel I. Gertler.

Abstract. A number of haloalkyl acid esters are effective against some nematodes which attack the roots of citrus plants and certain tropical and subtropical ornamentals such as azalea, philodendron, hibiscus, midget palm, and the like. The nematicides include chloroacetates, 2-chloropropionates, and 3-chloropropionates of alkyl, haloalkyl, cycloaliphatic, alkylcycloaliphatic, aralkyl, and aroxyalkyl alcohols, and the method is given for their use.

15. Process for the Production of Confectionery Fats, U.S. Patent 3,431,116, issued March 4, 1969, by R. O. Feuge, N. V. Lovegren, and B. B. Gajee.

Abstract. This invention relates to a process for producing confectionery fats using as a starting material the stearine fraction obtained as a byproduct in the manufacture of cottonseed salad oil by solvent winterization. This stearine consists of about two-thirds 1,3-dipalmito-2-unsaturated triglycerides and one-third 1-palmito-2, 3-diunsaturated triglycerides of oleic and linoleic acids. The process of the invention comprises the following steps: (1) Bleaching of the stearine to remove gums and substances which might poison hydrogenation catalysts. (2) Selective hydrogenation to an iodine value of about 25 to 36, employing conditions of temperature, pressure, and catalyst adapted to accomplish the conversion of linoleic acid groups in the stearine to acid groups having a lower degree of unsaturation while maintaining the amount of iso-oleic acid groups, as measured by trans-bond content, below about 12 percent, calculated as trielaidin, while also producing a minimum amount of trisaturated triglycerides. (3) Dissolving the hydrogenated product in a hydrocarbon or acetone and selectively crystallizing the higher melting compounds. (4) Tempering the solids which are formed so as to convert them into their highest melting polymorphs. (5) Removing the solids from the mixture. (6) Recovering the cocoa butter-like fraction from the liquid fraction remaining after removal of the solids. Variations of the process also are covered by the patent.

Applicants for exclusive licenses will have a period of 60 days from date of this publication in which to file information as required by § 19.6 *Application for licenses,* of Title 7 CFR (35 F.R. 7493). Also, applicants should examine all other sections published under Part 19, Licensing Department Inventions. Applications should be mailed to the Administrator, Agricultural Research Service, U.S. Department of Agriculture, Washington, D.C. 20250.

Done at Washington, D.C., this 28th day of January 1971.

NATIONAL ACCELERATOR LABORATORY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The notice of decision published October 14, 1970 (35 F.R. 10696) and amended November 6, 1970 (35 F.R. 17134) pursuant to section 6(c) of the Education, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) is revised to read as follows:

Docket No. 70-00735-98-42900. Applicant: National Accelerator Laboratory, University Research Asso. Inc., 2100 Pennsylvania Avenue NW., Washington, DC 20006. Article: Magnetic coils for 200-BeV accelerator. Manufacturers: Alsthom Societe Generalde, Belfort, France (50 B-1 bending magnet coils and 480 B-2 bending magnet coils); Lintott Engineering Co., Ltd., Morsham, United Kingdom (300 B-1 bending magnet coils); English Electric Co., Yorkshire,

United Kingdom (154 4-inch and 400 7-inch quadrupole coils). Multiple shipments will be made by each manufacturer of the indicated quantities. Final shipment to be made on or about June 1, 1971.

Intended use of article: The article will be used at the 200-BeV accelerator for research in high energy physics to attempt to understand the structure of matter and the forces holding it together at exceedingly small distances. A large variety of scientific exploratory experiments will be performed with protons accelerated by the accelerator to 200-BeV energy by scientists from U.S. universities and also from foreign high energy physics laboratories.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which the article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to 692 pairs of magnet coils intended for use in 200-billion-electron-volt accelerator which is being constructed by the applicant institution for use in its laboratory as part of a research program in high energy physics. The construction schedule of the applicant requires the delivery of 850 pairs of bending magnet coils and 950 quadrupole magnets on or before April 10, 1971, to complete the accelerator in order to meet the scheduled program of experiments. The National Bureau of Standards (NBS) in its memorandum of August 17, 1970, advised that the applicant's construction schedule is technically proper. The applicant sent invitations to bid to 11 domestic manufacturers, six of which responded with bids. One of the six respondents was considered unqualified to manufacture either the bending magnet coils or the quadrupole magnets. (This manufacturer was, however, awarded a contract for a different type of coil.) Another domestic manufacturer was already under contract to the applicant for certain types of coils and magnets and, consequently, was unable to meet the delivery schedules required for the bending magnet coils and quadrupole magnets. The four remaining domestic companies were awarded contracts for 850 magnet coils. This exhausted the capacity of the domestic manufacturers to produce the magnet coils within the specified delivery time.

In order to preclude any delay in completing the accelerator, the applicant solicited bids from foreign manufacturers. We find that the delay which would be caused in awaiting the freeing of domestic capacity for the manufacture of scientifically equivalent magnet coils would seriously impair the achievement of the applicant's research program. Therefore, the excessive delivery time provisions of § 602.1(g) of the above-cited regulations have been satisfied with respect to the magnet coils to which this application relates.

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (34 F.R. 15787 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Scientific Instrument Evaluation Division, Department of Commerce, Washington, D.C.

Docket No. 70-00626-33-11000. Applicant: National Institutes of Health, National Institute of Mental Health, Building 10, Room 2D-46, 9000 Rockville Pike, Bethesda, MD 20014. Article: Gas chromatograph-mass spectrometer, Model LKB 9000. Manufacturer: LKB Produkter A.B., Sweden.

Intended use of article: The article will be used for studies of the identification and quantitative analysis of minute quantities of very wide range of metabolites, to examine their subtle differences and thus further the understanding of the biochemical factors involved in mental illness. Research concerns inborn errors of metabolism, such as phenylketonuria; cerebrospinal fluid; and how drugs differ in efficiency in different patients because they may be distributed or metabolized differently or affect metabolic systems to different extents.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is a single unit in which the functions of a gas chromatograph, molecular separator (or interface), and a mass spectrometer have been integrated. There are domestic manufacturers which are in a position to offer to supply some of these components to be combined with a component (or with components) produced by another domestic manufacturer. However, this is not considered to constitute a "reasonable combination of instruments" within the purview of § 602.1(e) of the regulations, unless (a) the domestic manufacturer offering to furnish the combination undertakes to functionally integrate the instruments as a single operating unit and, (b) establish through appropriate test procedures the performance specifications of the chromatographic and spectrometric functions as a single unit. (See decisions on Docket No. 67-00108-33-11000, 33 F.R. 597, January 17, 1968; Docket No. 68-00516-01-11000, 33 F.R. 11097, August 3, 1968, and Docket No. 69-00446-01-11000, 34 F.R. 13336 and 13337, August 16, 1969.) We note that three instruments meeting these criteria are being manufactured in the United States—the Model 1015 manufactured by Finnigan Instrument Corp. (Finnigan); the GC/MS-66 system manufactured by Varian Associates (Varian); and the Model 270 GC-DF manufactured by Perkin-Elmer Corp. (P-E). A comparison of the Finnigan Model 1015 with the foreign article shows that this domestic instrument has a specified sensitivity of 100 nanograms of cholesterol injected into the gas chromatograph column, whereas the foreign article has a specified sensitivity of 10 nanograms of cholesterol injected into the gas chromatograph column. This indicates that the foreign article can produce a meaningful spectrum with a sample of one-tenth of that required to produce a meaningful spectrum with the Finnigan Model 1015 and that the sensitivity of the foreign article exceeds that of this domestic instrument by a factor of 10. It is also noted that the foreign article can achieve this sensitivity with a corresponding resolution of 750 to a 10 percent valley definition, whereas the Finnigan Model 1015 has a maximum specified resolution that is equivalent to 500 at the 10 percent valley definition.

In regard to the Varian GC/MS-66 system, the specified sensitivity of the foreign article also exceeds the specified sensitivity of this domestic instrument by a factor of 10. The quoted specification for the sensitivity of the P-E Model 270 GC-DF is "less than 3×10^{-9} gram/second of methyl stearate will produce a spectrum with a signal-to-noise ratio substantially greater than 1 at parent mass peak, for 1 second/decade scan rate."

On the basis of these specifications, the sensitivity of the foreign article exceeds that of the P-E Model 270 GC-DF by a factor of 500. Since the applicant's research program involves the investigation of many compounds which are available only in minute quantities, the greater sensitivity of the foreign article is pertinent to the applicant's research studies.

For this reason, we find that none of the three domestic instruments cited above is of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other combination of instruments being manufactured in the United States and being offered as a functionally integrated single instrument, which is of equivalent scientific value to the foreign article for the purposes, for which this article is intended to be used.

Bureau of Domestic Commerce.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles

The following is a consolidated decision on applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (34 F.R. 15787 et seq.).

A copy of the record pertaining to this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Scientific Instrument Evaluation Division, Department of Commerce, Washington, DC 20230.

Decision: Applications denied. Applicants have failed to establish that instruments or apparatus of equivalent scientific value to the foreign articles, for such purposes as the foreign articles are intended to be used, are not being manufactured in the United States.

Reasons: Section 602.5(e) of the regulations provides in pertinent part:

> The applicant shall on or before the 20th day following the date of such notice [of denial without prejudice to resubmission], inform the Administrator whether it intends to resubmit another application for the same article to which the denied application relates. The applicant shall then resubmit the new application on or before the 90th day following the date of the notice of denial without prejudice to resubmission, unless an extension of time is granted by the Administrator in writing prior to the expiration of the 90-day period. * * * If the applicant fails within the applicable time periods specified above, to either (1) inform the Administrator whether it intends to resubmit another application for the same article to which the denial without prejudice to resubmission relates, or (2) resubmit the new application, the prior denial without prejudice to resubmission shall have the effect of a final decision by the Administrator on the application within the context of the paragraph (d) of this section.

The meaning of the section is that should an applicant either fail to notify the Administrator of its intent to resubmit another application for the same article to which the denial without prejudice relates within the 20-day period, or fails to resubmit a new application within the 90-day period, the prior denial without prejudice to resubmission will have the effect of a final denial of the application.

None of the applicants to which this consolidated decision relates has satisfied the requirements set forth above, therefore, the prior denials without prejudice have the effect of a final decision denying their respective applications.

Section 602.5(e) further provides:

> * * * the Administrator shall submit a summary of the prior denial without prejudice to resubmission to the FEDERAL REGISTER for publication, to the Commissioner of Customs, and to the applicant.

Each of the prior denials without prejudice to resubmission to which this consolidated decision relates was based on the failure of the respective applicants to submit the required documentation, including a completely executed application form, in sufficient detail to allow the issue of "scientific equivalency" to be determined by the Administrator.

[Docket No. A-563]

MICHAEL L. ROSE

Notice of Loan Application

JANUARY 28, 1971.

Michael L. Rose, Post Office Box 126, Sitka, AK 99835, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used 36.5-foot registered length wood vessel to engage in the fishery for salmon, halibut, and sablefish.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Interior Building, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

FEDERAL POWER COMMISSION

[Docket No. E-7595]

NEW ENGLAND POWER CO.

Notice of Proposed Rate Schedule Changes

JANUARY 27, 1971.

Take notice that on January 15, 1971, New England Power Service Co. (NEPSCO), filed on behalf of New England Power Co. (NEPCO), rate schedule changes constituting amendments to the contracts for primary service for resale between NEPCO and its 33 wholesale customers. The proposed changes are to become effective March 15, 1971.

According to the applicant the effect of the proposed changes are to increase the demand charge per month for each kilowatt of demand from $2.76 to $2.96 and the energy charge from 5.6 mills per kilowatt hour to 6.1 mills per kilowatt hour. In addition changes are also effected in supply line voltage metering adjustments and credits for supply line voltage deliveries. Based on the calendar year 1969 as a test period, the effect of these rate changes will be to increase the applicants annual revenues by approximately $13,459,000.

Copies of the filing have been served on customers and interested state regulatory agencies.

Any person desiring to be heard or make protest with reference to said application should on or before February 17, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein, must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. RP71-88]

NORTH PENN GAS CO.

Order Permitting Rate Increase Filing To Become Effective Without Suspension

JANUARY 27, 1971.

On December 31, 1970, North Penn Gas Co. (North Penn) filed a proposed change to its FPC Gas Tariff, First Revised Volume No. 1,[1] and requested that the filing be permitted to become effective as of January 31, 1971, without suspension. North Penn proposes to increase the price in its Rate Schedules G-1 and P-1 by 0.556 cents to 49.590 cents per Mcf. The proposed change would increase jurisdictional revenues by approximately $83,750 per annum based on sales for the 12-month period ended October 31, 1970. The company concurrently filed a proposal that it be permitted to track supplier rate changes and to flow through refunds which it may receive from its suppliers subsequent to January 31, 1971.

In support of its filing, North Penn submitted a cost of service for the abovementioned 12-month period and stated that the increase in rates is filed to track the rate increases of its suppliers (Consolidated Gas Supply Corp. and Transcontinental Gas Pipe Line Corp.) and to reflect increases in wages, etc.

Notice of the proposed change was issued by the Commission on January 7, 1971, and no protests or petitions to intervene have been received.

Analysis of the cost of service and revenue data submitted with the filing indicates that after giving effect to the proposed increased rate, the overall earned rate of return would approximate 7.7 percent; the return on common equity under the company's present capital structure would approximate 10.17 percent. We find that the proposed increased rate has been supported and should be permitted to become effective as requested.

The Commission orders:

(A) The increased rates contained in Sixteenth Revised Sheets Nos. 4 and 5, as filed by North Penn on December 31, 1970, are hereby permitted to be effective as of January 31, 1971.

(B) During the period that the rates hereby made effective shall remain in full force and effect, North Penn may file rate increases and shall file rate decreases tracking changes in the effective rates of its suppliers as of January 31, 1971, and shall flow-through to its jurisdictional customers refunds received from its suppliers all as set forth in the "Agreement as to Rates" concurrently filed on December 31, 1971.

(C) This order is without prejudice to any findings or orders which have been or may hereafter be made by this Commission in any proceeding now pending or hereafter instituted by or against North Penn or any other persons affected by the rates hereby permitted to be effective.

By the Commission.

Secretary.

[Docket No. CP71-188]

NORTHERN NATURAL GAS CO.

Notice of Application

JANUARY 27, 1971.

Take notice that on January 19, 1971, Northern Natural Gas Co. (applicant), 2223 Dodge Street, Omaha, NE 68102, filed in Docket No. CP71-188 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas to Pioneer Natural Gas Co. (Pioneer) and to Southern Union Gas Co. (Southern Union), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, applicant seeks authorization to continue the sale and delivery of natural gas from its Texas transmission system in Pecos and Winkler Counties, Tex., to Pioneer and Southern Union for resale to right-of-way grantors and others for use in irrigation and other farm uses.

[1] Sixteenth Revised Sheets Nos. 4 and 5.

At the time these facilities were installed, it was thought that no Commission authorization was required. Applicant states that it now appears that a certificate of public convenience and necessity must be obtained.

Applicant states that no new facilities are proposed herein and that the operation of these existant facilities will not affect its ability to render service to existing customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 18, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP71-186]

PANHANDLE EASTERN PIPE LINE CO.

Notice of Application

JANUARY 27, 1971.

Take notice that on January 18, 1971, Panhandle Eastern Pipe Line Company (applicant), Post Office Box 1642, Houston, TX 77001, filed in Docket No. CP71-186 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain looping and compressor facilities appurtenant to its Western Oklahoma Supply Line (Elk City Line), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, applicant requests authorization to construct and operate approximately 19.4 miles of 30-inch pipeline looping a portion of its Elk City Line and a 5,000 horsepower compressor unit at its existing Alva, Okla., compressor station. Applicant also requests authorization to upgrade a 6,500 horsepower compressor unit at its Seiling, Okla., compressor station to permit operation of this unit at levels up to 11,250 horsepower.

The Elk City Line was initially placed in service in 1962 and, applicant states since that time large volumes of reserves have been discovered and developed in the area transversed by this line. Applicant also states that it is presently operating this system at full capacity and that the facilities herein proposed are necessary for the further development of sources of supply presently connected to the Elk City Line.

The total cost of the aforementioned facilities is estimated to be $6,084,000, which cost is to be financed initially from available funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 16, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

[Docket No. CP71-187]

PANHANDLE EASTERN PIPE LINE CO.

Notice of Application

JANUARY 27, 1971.

Take notice that on January 18, 1970, Panhandle Eastern Pipe Line Co. (applicant), Post Office Box 1642, Houston, TX 77001, filed in Docket No. CP71-187 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon by sale to Central Illinois Light Co. (Central) that portion of its Peoria, Ill., lateral pipeline system extending downstream from the proposed Central-Peoria measuring station, and pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a meter station and 0.7 mile of 8-inch pipeline, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, applicant seeks permission and approval to abandon by sale to Central the portion of its Peoria, Ill., lateral pipeline system which extends downstream from Central's proposed measuring station to be located in the vicinity of Illinois State Highway Number 9. Accordingly to the application, this includes 37,355 feet of 16-inch pipeline, 36,760 feet of 16-inch loop line, all subsidiary laterals, appurtenances and property rights.

Applicant also seeks authorization to construct and operate a gas measuring station at the new terminus of its Peoria, Ill., lateral pipeline system, its proposed delivery point to Central. To facilitate the delivery of natural gas, Applicant states that it will construct approximately 0.7 mile of 8-inch pipeline to connect the existing Morton measuring and regulating station to its 22-inch Peoria Lateral.

The abandonment, construction and operation of facilities proposed herein, according to applicant, would relieve it of the obligation of operating and maintaining several stations and other facilities in areas which are becoming densely populated. Applicant also believes that the acquisition of the aforementioned facilities would enable Central to operate its Glasford underground storage facility in a more effective manner.

Applicant estimates the cost of the proposed facilities to be $469,000, which cost would be financed from available funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 16, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be

taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

TEXAS EASTERN TRANSMISSION CORP.

Notice of Motion Filed for Approval of Stipulation and Agreement

JANUARY 27, 1971.

Take notice that on January 21, 1971, Texas Eastern Transmission Corp. (Texas Eastern) filed with the Commission a motion for approval of a Stipulation and Agreement in Dockets Nos. RP70-29, RP71-12, and RP71-49.

The Stipulation and Agreement, inter alia, provides:

(1) For a reduction in rates below those which are presently in effect subject to refund in the above-captioned proceedings and sets forth rates for specified periods of time.

(2) For refunds by Texas Eastern for the excess which has been collected above the rates set forth in the Stipulation and Agreement.

(3) That Texas Eastern may increase its rates from time to time until July 1, 1972, to reflect rate increases of its suppliers and is required to decrease its rates to reflect supplier rate reductions.

(4) That Texas Eastern shall flow-through to its customers the appropriate portion of all refunds, together with interest, received from its suppliers which are applicable to purchases by Texas Eastern from such suppliers during the term of the Stipulation and Agreement.

(5) For rate adjustments based upon changes in the applicable total Federal Income tax rate.

(6) That Texas Eastern may file for an increase in rates to reflect advance payments for gas made during the term of the Stipulation and Agreement, subject to possible 1-day suspension and hearing.

(7) For the reservation for Commission hearing and decision the issue of the use of liberalized depreciation with normalization for accounting and rate purposes.

(8) That the rate differential between zones C and D be maintained during the term of the Stipulation and the differential which may be proposed in any rate filing prior to November 1, 1973.

(9) For a moratorium on any increases in jurisdictional rates until July 1, 1972, except such increases made pursuant to the provisions of this Stipulation and Agreement.

(10) That Texas Eastern reaffirms its refund obligations regarding supplier refunds for prior periods as set forth in previous settlement agreements.

Copies of the Stipulation and Agreement, together with a motion of Texas Eastern for approval of this Agreement were served upon all parties to the above-captioned proceedings, all of Texas Eastern's jurisdictional customers and all interested State commissions.

Answers or comments relating to the Stipulation and Agreement may be filed with the Federal Power Commission, Washington, D.C. 20426, on or before February 16, 1971.

WASHINGTON NATURAL GAS CO.

Notice of Petition To Amend

JANUARY 27, 1971.

Take notice that on January 19, 1971, Washington Natural Gas Company (petitioner), 815 Mercer Street, Seattle, WA 98111, filed in Docket No. CP71-7 a petition to amend the order dated October 30, 1970, issuing a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act in said docket by authorizing the construction and operation of certain additional facilities at the Jackson Prairie Storage Project, Lewis County, Wash., all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

In order to maintain the Storage Project's operational capacity and to effect proper distribution withdrawal from the various segments of the reservoirs, petitioner states that it will be necessary to drill additional observation, water production and gas injection wells, rework certain existing wells, and provide additional gas and water field lines and water disposal facilities. Petitioner states that the exact location of the new wells and the selection of the existing wells to be reworked has not been determined because sufficient production data from the reservoir operation for the current cycle are not available.

Applicant states that the cost of the facilities proposed herein will not exceed $500,000, which cost is to be shared equally by El Paso Natural Gas Co., Washington Water Power Co. and petitioner as joint owners of the Storage Project.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before February 16, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

FEDERAL RESERVE SYSTEM

C. B. INVESTMENT CORP.

Order Approving Acquisition of Bank Stock by Bank Holding Company

In the matter of the application of C. B. Investment Corp., Houston, Tex., for approval of acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the sucessor by merger to First City National Bank of Houston, Houston, Tex.

There has come before the Board of Governors, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)) and § 222.3 (a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), the application of C. B. Investment Corp., Houston, Tex. (Applicant), a registered bank holding company, for the Board's prior approval of the acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to First City National Bank of Houston, Houston, Tex. (Bank). The successor bank only has significance as a means to facilitate the acquisition of all the voting shares of Bank, and the proposed acquisition of shares of the successor bank is treated as the proposed acquisition of shares of Bank.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Comptroller of the Currency, and requested his views and recommendation. The Comptroller responded that he had no objection to approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on December 1, 1970 (35 F.R. 18304), providing an opportunity for interested persons to submit comments and views with

respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered by the Board.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the Applicant and the banks concerned, and the convenience and needs of the communities to be served. Upon such consideration, the Board finds that:

Applicant, with control of four banks in the suburban Houston area with deposits of $48 million representing 0.2 percent of the bank deposits in Texas, is the smallest registered bank holding company in the State and is not among the ten largest banking organizations. (Banking data are as of June 30, 1970, and represent holding company formations and acquisitions approved to date.) Additionally, Applicant owns less than 5 percent of the stock of 12 banks, and between 5 percent and 25 percent of the shares of four banks in that area. Although Applicant presently owns less than 1 percent of the shares of Bank (deposits of $930 million), the largest of 127 banks in Houston, a close relationship has existed between the two since Applicant's formation. Applicant was organized by shareholders of Bank in 1950 to hold shares of surburban Houston banks, and it has been staffed by Bank-related personnel since that time. At the present time, persons owning 24 percent of Bank's shares control 100 percent of Applicant's stock. An additional indication of the close relationship existing between Applicant and Bank is the fact that four of the banks in which Applicant has an ownership interest of 5 percent or more are majority controlled by stockholders who own more than 50 percent of the stock of the Bank. The present proposal would result in a strengthening of the existing relationship, but would appear to have no significant effect on existing or potential competition. On consummation of the acquisition, Applicant, rather than Bank, would be the third largest banking organization in Texas and would control 4.3 percent of deposits in the State.

Based upon the foregoing, the Board concludes that consummation of the proposal would not have an adverse effect on competition in any relevant area. The banking factors are regarded as consistent with approval. Considerations relating to the convenience and needs of the communities to be served are also consistent with approval of the application. It is the Board's judgment that the proposed transaction would be in the public interest, and that the application should be approved.

It is hereby ordered, For the reasons set forth in the findings summarized above, that said application be and hereby is approved; *Provided*, That the action so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such time be extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[1] January 28, 1971.

CHEMICAL BANK AND TRUST CO.

Order Approving Application for Consolidation of Banks Under Bank Merger Act

JANUARY 28, 1971.

In the matter of the application of Chemical Bank and Trust Co., Midland, Mich., for approval of consolidation with The Commercial Savings Bank of Saint Louis, St. Louis, Mich.

There has come before the Board of Governors, pursuant to the Bank Merger Act (12 U.S.C. 1828(c)), an application by Chemical Bank and Trust Company, Midland, Mich., a member State bank of the Federal Reserve System, for the Board's prior approval of the consolidation of that bank with The Commercial Savings Bank of Saint Louis, St. Louis, Mich., under the charter and the name of the former institution. As an incident to the proposed consolidation, the sole office of The Commercial Savings Bank of Saint Louis would become a branch office of the resulting bank. Notice of the proposed consolidation, in form approved by the Board, has been published pursuant to said Act.

In accordance with the Act, the Board requested reports on the competitive factors involved from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Board has considered all relevant material contained in the record in the light of the factors set forth in the Act, including the effect of the proposal on competition, the financial and managerial resources and prospects of the banks concerned, and the the convenience and needs of the communities to be served, and upon such consideration,

It is hereby ordered, For the reasons set forth in the Board's Statement[1a] of this date, said application be and hereby is approved, provided that the action so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[2] January 28, 1971.

MERCANTILE BANCORPORATION, INC.

Order Approving Action To Become Bank Holding Company

In the matter of the application of Mercantile Bancorporation, Inc., St. Louis, Mo., for approval of action to become a bank holding company.

There has come before the Board of Governors, pursuant to section 3(a)(1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(1)), and § 222.3(a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by Mercantile Bancorporation, Inc., St. Louis, Mo., for the Board's prior approval of action whereby applicant would become a bank holding company through the merger of Mercantile Trust Co. National Association, St. Louis, Mo., into a nonoperating bank of which applicant plans to own all but directors' qualifying shares and, as an incident to the merger, acquisition of indirect ownership of 100 percent of the voting shares (less directors' qualifying shares) of Mercantile-Commerce Trust Co., St. Louis, Mo.; and through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of The Southern Missouri Trust Co., Springfield, Mo.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Comptroller of the Currency and the Commissioner of Finance of the State of Missouri, and requested their views and recommendations. The Deputy Comptroller recommended approval of the application, and the Commissioner offered no objection to approval.

Notice of receipt of the application was published in the FEDERAL REGISTER on November 7, 1970 (35 F.R. 17224), providing an opportunity for interested persons to submit comments and views with respect to the proposed transaction. SECURITIES AND EXCHANGE COMMISSION

[File No. 24NY-6960]

AT-YOUR-SERVICE LEASING CORP.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

JANUARY 28, 1971.

I. At-Your-Service Leasing Corp. (AYSL), is a New Jersey corporation located at 449 60th Street, West New York, NJ. On October 23, 1969, it filed a notification in the New York Regional Office pursuant to Regulation A in connection with a proposed offering of 100,000 shares of its $0.01 par value common stock at $3 per share. The offering was to be conducted by TDA Securities, Inc. on a best efforts "one half (50,000 shares) or none" basis. The notification became effective on April 8, 1970. According to the offering circular AYSL is "engaged in the auto leasing business, specifically in long term auto leasing of predominately higher priced automobiles."

II. The Commission, on the basis of information reported to it by its staff, has reasonable cause to believe that:

A. The notification and offering circular contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, with respect to the following:

1. The offering circular is materially false and misleading in that the issuer failed to conduct the offering in accordance with the terms set forth therein. More particularly the minimum number of shares required to be sold within a 90-day designated period was never reached yet the offering was continued and no funds were ever returned to subscribers as conditioned in the offering circular. In addition funds received from the public during the 90-day period of the offering were never deposited in the "special account" described in the offering circular in violation of Rule 15c2-4 of the general rules and regulations under the Securities Exchange Act of 1934.

2. The notification and offering circular fail to state that one Michael Hellerman would participate as an underwriter in the offering as that term is defined in section 2(11) of the Securities Act of 1933.

3. The offering circular omits to state material facts concerning an injunction filed November 24, 1969, in the U.S. District Court for the Southern District of New York restraining Michael Hellerman from further violation of sections 5(a) and 5(c) of the Securities Act of 1933 in connection with the sale of Trimatrix, Inc., stock.

4. The offering circular contains untrue statements concerning the sale of shares to the public, in particular, that 100,000 shares of AYSL would be issued to the public only if payment in the amount of $300,000 (less commissions and expenses of the underwriter) was received by AYSL. In fact only $127,500 was received by AYSL despite the issuance of 100,000 shares of stock to the public.

5. The offering circular omits to state material facts concerning a contractual agreement between AYSL and Tech-Ec Systems, Inc. whereby the latter company, for a fee of $20,000, would act as management consultants to AYSL in their public offering under Regulation A. The "Use of Proceeds" section of the offering circular omits any allocation for payment of the fee to Tech-Ec, notwithstanding the fact that pursuant to the agreement, one-half the fee was to be paid from the proceeds of the offering.

6. The offering circular contains untrue statements of material facts concerning the proposed transfer agent for the issuer, in particular, that Community National Bank and Trust Company of New York would perform all the requisite duties of transfer agent for AYSL. In fact, RLM Services, Ltd., pursuant to an agreement dated June 15, 1970, acted as transfer agent for AYSL.

B. Michael Hellerman, an undisclosed underwriter, and the subject of an injunction restraining him from further violation of sections 5(a) and 5(c) of the Securities Act of 1933, commenced participation in the offering after the filing of the notification and such participation is therefore deemed an event which would have rendered the exemption unavailable if it had occurred prior to such filing.

C. The use of the offering circular by the issuer operated as a fraud and deceit upon purchasers of the securities in violation of section 17(a) of the Securities Act of 1933, as amended.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the Issuer under Regulation A be temporarily suspended:

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption of the Issuer under Regulation A be, and it hereby is, temporarily suspended.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the Issuer file an answer to the allegations contained in this order within 30 days of the entry thereof.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within 30 days after the entry of this order; that within 20 days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, the order shall become permanent on the 30th day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

Secretary.

JOHN HANCOCK MUTUAL LIFE INSURANCE CO. AND JOHN HANCOCK VARIABLE ACCOUNT A

Notice of Application for Exemptions

JANUARY 28, 1971.

Notice is hereby given that John Hancock Variable Account A (Account A) a registered, open-end, diversified, management investment company and John Hancock Mutual Life Insurance Co. (Hancock) Hancock Place, Boston, MA 02117 (herein collectively called Applicants) have filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (Act) for an order exempting Applicants from sections 17(f), 22(d), and 27(c)(2) of the Act and Rule 17f-2 thereunder. Hancock established Account A, a separate account as defined by Rule 0-1(e) under the Act, in connection with the proposed offering of individual variable annuity contracts (Contracts) for use with pension, profit-sharing, or annuity plans meeting the requirements for qualification under sections 401, 403(a), 403(b), or 404(a) of the Internal Revenue Code. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Hancock is the sole owner of Account A's assets under Massachusetts Law and administers Account A. Hancock may be deemed to be Account A's investment adviser and principal underwriter as defined in the Act. Each Contract will represent Hancock's obligation to make annuity payments, commencing immediately under Single Payment Immediate Contracts or at a later date under Single Payment Deferred Contracts and Periodic Payment Deferred Contracts, to the

Annuitant on whose life the Contract is issued or to other persons specified in such contract, and to provide certain other benefits.

Applicants request exemption from the following provisions of the Act to the extent stated below:

Section 17(f) provides, in pertinent part, that a registered management investment company may maintain its securities and similar investments in its own custody in accordance with such rules, regulations and orders as may be adopted by the Commission for the protection of investors. Rule 17f–2 requires, among other things, that such assets be deposited with a bank or other company whose functions and facilities are supervised by Federal or State authority and limits the persons who shall have access to certain specified individuals. Applicants request an exemption from the provisions of section 17(f) and Rule 17f–2 thereunder to the extent necessary to permit Hancock to act as safekeeping agent for Account A in the manner and on the terms described in the application and also to permit a maximum of 10 duly authorized officers or employees of Hancock as well as the insurance authorities of the jurisdictions in which it does business (or their duly authorized representatives) to have access to the Account's securities and similar investments.

Section 22(d) provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any persons except at a current offering price described in the prospectus.

Beneficiaries designated under deferred Contracts may elect under certain circumstances to receive any minimum death benefit under terms of an Annuity Option described in the Contract in lieu of a single sum payment without imposition of any charge. If the beneficiary elects an option not based on life contingencies, it might be contended that such election constitutes sale of a redeemable security proscribed by section 22(d) of the Act.

Applicants state that as purchase payments are received, deductions are made for sales and administrative expenses, and, in the case of deferred Contracts, for Hancock's undertaking to pay a minimum death benefit. Applicants state that when beneficiaries elect to receive the minimum death benefit under an Annuity Option, Hancock incurs no significant selling expense and no significant administrative expenses over those incurred by a single sum payment. Applicants submit that imposition of a charge upon a beneficiary electing the Annuity Option would compound charges. They further state that all beneficiaries will be treated uniformly and no discrimination will result.

Exemption is requested from the requirements of section 22(d) of the Act to permit Hancock, without imposition of a sales load or other charge, to accord beneficiaries designated under deferred Contracts the right to elect an Annuity Option in lieu of receiving a single sum with respect to minimum death benefits.

Section 27(c)(2) prohibits a registered investment company or a depositor or underwriter for such company from selling periodic payment plan certificates unless the proceeds of all payments, other than the sales load, are deposited with a bank as trustee or custodian and held under an indenture or agreement containing, in substance, the provisions required by sections 26(a)(2) and 26(a)(3) of the Act for a unit investment trust. Section 26(a)(2) requires that the trustee or custodian segregate and hold in trust all securities and cash of the trust, and places certain restrictions on charges which may be made against the trust income and corpus, and excludes from expenses which the trustee or custodian may charge against the trust any payments to the depositor or principal underwriter, other than a fee not exceeding such reasonable amount as the Commission may prescribe, for performing bookkeeping and other administrative services delegated to them by the trustee or custodian. Section 26(a)(3) governs the circumstances under which the trustee or custodian may resign.

Applicants state that the Contracts may be deemed to be periodic payment plan certificates as defined in section 2(a)(26) of the Act. All purchase payments received will be applied (or held for later application) after deductions to Account A investments, of which Hancock will have custody as owner, not trustee, and may be deposited in accounts maintained by Hancock in banks having qualifications prescribed in section 26(a)(1) of the Act for the trustees of unit investment trusts. These bank accounts are to be regular bank accounts. The bank used, however, will not act as trustee or custodian for Account A, and the banks will not act under an indenture or agreement containing the provisions required by sections 26(a)(2) and 26(a)(3) of the Act for trust indentures of unit investment trusts.

Exemption is requested from the requirements of section 27(c)(2) of the Act to permit all purchase payments received under the Contracts by Hancock to be allocated to Account A for investment.

Applicants state that Hancock conducts a conventional life insurance business, and has total assets of nearly $10 billion and unassigned surplus exceeding $500 million. It is subject to supervision, regulation, and inspection by the Massachusetts Commissioner of Insurance, and applicable insurance laws in all jurisdictions where it does an insurance business. Applicants state that Hancock operates under circumstances contemplated by proposed Rule 27c–2 described in Investment Company Act Release No. 6039. Hancock is registered with the Commission as a broker-dealer under the Securities Exchange Act of 1934, and is a member of the National Association of Securities Dealers, Inc.

Applicants assert that Hancock's vault is similar or superior to vaults of most banks, and that Hancock keeps therein securities and other investments having a value in excess of $4 billion. It has elaborate rules governing access to its vaults and observes a high order of security for protection against loss and theft.

Applicants state that their Management Agreement incorporates most of the precautions of Rule 17f–2. All Hancock employees having access to the vault are covered by fidelity bonds. Also, Hancock maintains a fidelity bond which meets the requirements of section 17(g) of the Act covering all employees having access to Account A's securities and funds.

The Contracts represent legal obligations of Hancock which cannot be abandoned under the Massachusetts law until fully discharged. Fees and charges payable to Hancock with respect to Account A are specified in the Contracts and cannot be increased. Applicants state that Account A's assets equal to the reserves and other contractural obligations under the Contracts are not chargeable with liabilities arising out of any other business which Hancock may conduct.

Applicants contend that the assets of the Account and the interests of participants under the Contracts are safeguarded in a manner equal to or better than those specified in sections 17(f) and 27(c)(2) of the Act.

Applicants submit that the requested exemptions are necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants have consented that the requested exemption may be made subject to the conditions that (1) the deductions under the contracts for administrative expenses and bookkeeping shall not exceed such reasonable amounts as the Commission shall prescribe, jurisdiction being reserved for such purpose, and (2) that the payment of sums and charges out of the assets of the Account A shall not be deemed to be exempted from regulation but the Applicants' consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payment of sums and charges out of such assets other than charges for administrative services and bookkeeping.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any persons or transactions from any provision or provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 19, 1971, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a

hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service by affidavit (or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in the matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

Secretary.

PITTSBURGH COKE & CHEMICAL CO.

Notice of Filing of Application for Order Exempting Proposed Transaction

JANUARY 28, 1971.

Notice is hereby given that Pittsburgh Coke & Chemical Co. (Applicant), Grant Building, Pittsburgh, PA 15219, a Delaware corporation and a closed-end, nondiversified investment company, registered under the Investment Company Act of 1940 (Act), has filed an application, as amended, pursuant to section 17(b) of the Act. Applicant seeks an order exempting from the provisions of section 17(a) of the Act the proposed purchase by Coons Pacific Co. (Coons) from First Grant Corp. (First Grant), a majority-owned subsidiary of Applicant, of all of First Grant's holdings of stock of Pittsburgh Pacific Co. (Pacific) for a price of $2,750,000 plus a contingent additional payment as set forth below. All interested persons are referred to the application, as amended, for a complete statement of Applicant's representations which are summarized below.

Applicant owns 90.6 percent of the capital stock of First Grant. Accordingly, First Grant is controlled by a registered investment company. First Grant owns 60 percent of the stock of Pacific. Accordingly, Pacific is indirectly controlled by Applicant and is an affiliate of Applicant and of First Grant. The capital stock of Pacific consists entirely of common stock, of which 600 shares are outstanding (excluding 400 shares in the treasury). First Grant owns 360 shares (60 percent) of Pacific's common stock; Coons owns the remaining 240 shares (40 percent).

Coons' ownership of 40 percent of the stock of Pacific makes it an affiliate of an affiliate of Applicant. Since the purchase of shares of common stock of Pacific by Coons from First Grant would constitute the purchase of property by an affiliate of an affiliate of an investment company from a company controlled by such registered investment company, the purchase is subject to section 17(a) of the Act and the purchase of Pacific common stock by Coons is accordingly conditioned on obtaining an order of the Commission under section 17(b) of the Act exempting the transaction.

Pacific, a Minnesota corporation, produces iron and manganiferous ores in the Lake Superior district, leases and operates mines substantially worked out by others, and specializes in the production and the sale of smaller quantities of natural iron ore products to fill individual customer requirements. The company also operates concentrating plants and does contract concentrating of ore.

Pacific's business is essentially a salvage operation involving the mining in Minnesota of iron ore properties which have already been mined and substantially exhausted by previous operators. Applicant represents that the Minnesota natural iron ore industry is rapidly declining and has a very limited number of years of existence remaining and that it is anticipated that Pacific itself will within a few years discontinue its mining operations. Applicant represents that mining experts have concluded that the Minnesota natural iron ore industry can maintain itself for no more than 5 or 6 years.

Mr. E. T. Binger, who owns 40 percent of Coons and is chairman of the board of directors of Pacific and Coons, was prior to December 1968, president, a director and treasurer of First Grant. In early October of 1968, Mr. Binger informed First Grant that he was resigning as an officer and director of First Grant. Mr. Binger agreed to remain available as an employee of First Grant through January 1969, to the extent necessary to assist the new management of First Grant. Mr. Binger's resignation was formally accepted by the First Grant board of directors at a meeting held on December 2, 1968.

At the time of his resignation, Binger concluded that the interests in Pacific should be consolidated and he entered into discussions with Applicant's officers concerning the consolidation of 100 percent of the interest of Pacific in either First Grant or Coons. Mr. Binger informed Applicant's management that Coons would be willing either to sell its 40 percent interest in Pacific to First Grant or to purchase First Grant's 60 percent interest in Pacific.

The application states that First Grant's management considered whether it wished to acquire 100 percent of the interest in Pacific but decided against it. First Grant had previously been engaged principally in the transportation of iron ore on a contract basis for steel companies. The company had developed certain knowledge of the steel business and consistent therewith it had acquired its interest in Pacific. First Grant's interests in iron ore transportation have, however, all been sold. Other than its Pacific interest, First Grant has no mineral related business except a minority interest in a joint venture in a South American mine in the exploratory stage. First Grant has concentrated its investments in airline related businesses and with this change of emphasis from mining to transportation, management and employees with expertise in mining activities have found employment with other companies. Applicant represents that Binger was the person most familiar with Pacific's mining business and without him First Grant had no one else who was familiar with Pacific's operation and it was unlikely First Grant could obtain anyone. The change in the nature of First Grant's business together with a lack of personnel familiar with Pacific's unique mining business, prompted First Grant to decide to sell its interest in Pacific to Coons.

First Grant discussed with Coons a basis for evaluation of the Pacific stock. There was no market for Pacific stock; the earnings of Pacific were regarded as too variable to be the basis upon which a price could be determined. Because of the bleak nature of the natural iron ore industry, the purchase of the Pacific stock was to be essentially in contemplation of the discontinuance of the iron ore business of Pacific within several years of the sale. There were no long-term sales contracts held by Pacific which would make it likely that Pacific would remain in the natural iron ore business beyond 1973. It appeared to the parties that the method of evaluation to be used for Pacific stock should be based on the value of the assets of Pacific or, in other words, a modified book value.

On January 24, 1969, an agreement of sale (attached as an exhibit to the application) between First Grant and Coons was entered into providing for the purchase by Coons of all of First Grant's shares (360 shares) of Pacific stock. The parties agreed that the selling price for First Grant's 60 percent interest in Pacific would be $2,750,000, which is based upon the adjusted book value of Pacific's assets for purposes of the sale. In addition to the adjusted book value, a contingency payment would be due to First Grant if certain future conditions occurred, as more fully described in the application. The parties negotiated the adjusted book value as follows: As of November 30, 1968, Pacific's total assets were $6,857,014 from which total liabilities of $1,959,069 were subtracted. Also, a deduction of $288,500 was made for assets of questionable value (representing 50 percent of total assets of questionable value at $577,000) and a deduction of $50,000 was made for a contingent liability not a part of total liabilities (representing 50 percent of the contingent liability taken to be $100,000). The resulting adjusted net worth, or book value,

was $4,559,445. Since First Grant owned 60 percent of the Pacific common stock, 60 percent of the adjusted book equity was approximately $2,750,000, the agreed upon selling price. Applicant asserts that the 1967 and 1968 earnings after taxes for Pacific averaged $370,000 a year and that the sales price per share was approximately 12 times earnings per share. Applicant has submitted as part of the application detailed information describing the assets in question.

In the course of the negotiations, Applicant's officers inquired of Mr. Binger whether Coons had any commitments or intention to resell the stock of Pacific or substantially all of the assets of Pacific. Although assured by Mr. Binger that no such commitments or intention existed, Applicant's officers desired to provide for First Grant's participation in any profit which might be obtained by Coons in the event of any such resale. The parties agreed that a contingent payment would be made if more than 50 percent of the shares of Coons or substantially all of the assets of Coons should be disposed of prior to December 31, 1971. Coons has stated that it has no present intention to make a sale which would give rise to any such contingent payment.

The parties decided that First Grant would share in any sum over and above the difference between the combined value of Pacific and Coons and the price which First Grant received for its 60 percent interest in Pacific. The combined value of Pacific and Coons was determined to be $5,520,000. (Pacific adjusted shareholder equity of $4,560,000, rounded to $4,600,000 plus the adjusted shareholder equity of Coons $920,000.) Pacific's adjusted shareholder equity ($4,600,000) was 83.3 percent of the combined agreed total value of Coons and Pacific. First Grant was selling 60 percent of the Pacific stock hence 50 percent of the combined value of Pacific and Coons was attributed to it (60 percent of 83.3 percent). The parties decided to adopt a sliding scale depending on the year in which a sale giving rise to a contingent payment might be made. They agreed on a scale of 50 percent and 25 percent for 1970 and 1971 respectively. Hence, if more than 50 percent of the shares of Coons are sold in 1971, it was agreed that First Grant would receive, as to all amounts received above $2,770,000, 25 percent of the 50 percent it contributed to the combined company; thus, First Grant would get 12.5 percent of such excess for a sale in 1971.

Applicant asserts that Mr. Binger's only interest in the contract is this ownership of approximately 40 percent of Coons, and that Mr. Binger received no compensation other than his regular salary in connection with the contract of sale.

Based on the foregoing information, which is elaborated upon in the application, Applicant and First Grant have determined that it would be to the advantage of their respective stockholders for First Grant to dispose of its interest in Pacific. Coons is interested in acquiring such interest which would give it 100 percent of the stock of Pacific.

Applicant asserts that the terms of the transaction are reasonable and fair and do not involve overreaching on the part of any person concerned. Applicant also asserts that the proposed transaction does not change the nature of applicant's business in any material respects, is consistent with its policy as recited in instruments filed under the Act and is also consistent with the general purposes of the Act.

Section 17(a) of the Act, as here pertinent, makes it unlawful for any affiliated person of a registered investment company, or any affiliated person of such a person, to purchase from a company controlled by such registered investment company any security or other property, unless the Commission upon application grants an exemption from such prohibitions pursuant to section 17(b) of the Act after finding that the terms of the proposed transaction are reasonable and fair and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of the registered investment company and with the general purposes of the Act.

Notice is further given that any interested person may, not later than February 16, 1971 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in the case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

SPECTRUM EQUITIES FUND, INC.

Notice of Filing of Application for Order Declaring That Company Has Ceased To Be an Investment Company

JANUARY 28, 1971.

Notice is hereby given that Spectrum Equities Fund, Inc. (Applicant), 555 Madison Avenue, New York, NY 10022, a management open-end diversified investment company registered under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of Applicant's representations, which are summarized below.

Applicant represents that subsequent to registering under the Act on December 19, 1968, it has issued no securities; it has no assets at the present time; a proposed public offering of Applicant's securities has now been abandoned; and it does not intend to proceed with the completion of a registration statement under the Securities Act of 1933 because of market conditions in general. Pursuant to Applicant's request, the registration statement was withdrawn on January 22, 1971. Applicant also requests an order of the Commission declaring that it has ceased to be an investment company as defined in the Act.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 19, 1971, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application may be issued by the Commission upon the basis of the information stated in said application, unless an order for

hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission (pursuant to delegated authority).

[File No. 24NY-6823]

TECH-EC SYSTEMS, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

JANUARY 28, 1971.

I. Tech-Ec Systems, Inc. (TES) is a New York corporation located at 124 East 40th Street, New York, NY. On June 17, 1969, it filed a notification in the New York Regional Office pursuant to Regulation A in connection with a proposed offering of 60,000 shares of its $0.01 par value common stock at $5 per share. The offering was to be conducted by the company through its officers and directors without the use of an underwriter. The offering commenced on September 21, 1969.

On October 28, 1969, a posteffective amendment was filed adding TDA Securities, Inc. (TDA), as an underwriter of the offering.

The offering recommenced on May 22, 1970. The amended offering circular provided that TES would offer 100,000 shares of its $0.01 par value common stock at $3 per share on a best efforts "one-fifth (20,000) shares or none" basis. If the minimum number of shares was not sold within 90 days of the amended effective date, all funds were to be returned to subscribers.

According to the offering circular TES was organized "for the purpose of offering a broad range of management, consulting, investment, and financial services * * *".

II. The Commission, on the basis of information reported to it by its staff, has reasonable cause to believe that:

A. The notification and offering circular contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, with respect to the following:

1. The offering circular is materially false and misleading in that the issuer failed to conduct the offering in accordance with the terms set forth therein. More particularly the minimum number of shares required to be sold within a 90-day designated period was never reached yet the offering was continued and no funds were ever returned to subscribers as conditioned in the offering circular. In addition, funds received from the public were deposited in the "special account" described in the offering circular, after the 90-day period had expired.

2. The notification and offering circular fail to state that one Michael Hellerman would participate as an underwriter in the offering as that term is defined in section 2(11) of the Securities Act of 1933.

3. The offering circular omits to state material facts concerning an injunction filed November 24, 1969 in the U.S. District Court for the Southern District of New York restraining Michael Hellerman from further violations of section 5 (a) and (c) of the Securities Act of 1933 in connection with the sale of Trimatrix, Inc., stock.

4. The offering circular contains untrue statements concerning the sale of shares to the public, in particular, that 100,000 shares of TES would be issued to the public only if payment in the amount of $300,000 (less commissions and expenses of the underwriter) was received by TES. In fact only a small fraction of that amount was received by TES despite the issuance of 100,000 shares of stock to the public.

B. Michael Hellerman, an undisclosed underwriter, and the subject of an injunction restraining him from further violation of section 5 (a) and (c) of the Securities Act of 1933, commenced participation in the offering after the filing of the notification and such participation is therefore deemed an event which would have rendered the exemption unavailable if it had occurred prior to such filing.

C. The use of the offering circular by the issuer operated as a fraud and deceit upon purchasers of the securities in violation of section 17(a) of the Securities Act of 1933, as amended.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the Issuer under Regulation A be temporarily suspended:

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption of the Issuer under Regulation A be, and it hereby is, temporarily suspended.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the Issuer file an answer to the allegations contained in this order within 30 days of the entry thereof.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within 30 days after the entry of this order; that within 30 days after the receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration the presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, the order shall become permanent on the 30th day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

ORVAL L. DUBOIS,
Secretary.

TARIFF COMMISSION

[AA1921-65]

FERRITE CORES FROM JAPAN

Determination of Injury

The Assistant Secretary of the Treasury advised the Tariff Commission on October 28, 1970, that ferrite cores (of the type used in consumer electronic products) from Japan are being, and are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160 (a)), the Tariff Commission instituted Investigation No. AA1921-65 to determine whether an industry in the United States is being, or is likely to be, injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

A public hearing was held on December 8, 1970. Notice of the investigation and hearing was published in the FEDERAL REGISTER of November 4, 1970 (35 F.R. 17012).

In arriving at a determination in this case, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of the investigation, the Commission determined by a vote of 3 to 2[1] that an industry in the United States is being injured by reason of the importation of ferrite cores (of the type used in consumer electronic products) from Japan sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS FOR AFFIRMATIVE DETERMINATION BY COMMISSIONERS SUTTON, CLUBB, AND MOORE

In our opinion an industry in the United States is being injured by reason of the importation of ferrite cores of the type used in consumer electronic products from Japan, which are being sold at less than fair value (LTFV) within the meaning of the Antidumping Act, 1921, as amended. Moreover, there is a likelihood of greater injury to the industry should the amounts of price discrimination not be offset by special dumping duties.

The industry. In making this determination under section 201(a) of the Antidumping Act, we have considered the injured industry to consist of the operations of all U.S. facilities producing ferrite cores of the type covered by Treasury's determination of sales at LTFV.

Imported product. The ferrite cores from Japan, determined by Treasury to be sold at LTFV, consist of cores of a type commonly used as components in consumer electronic products such as household television receivers, radios, stereo and high fidelity radio systems, and automobile radios. Of all the LTFV imported cores, deflection yoke cores and flyback cores which are used in television receivers reflected the major volume (about 80 percent) of the imports; other significant LTFV imports (about 20 percent) consisted of I-shaped cores, threaded cores, insert cores, antenna rod cores, and drum cores. Hereinafter, the use of "ferrite cores" has reference to cores of the type covered by Treasury's determination of sales at LTFV unless the context indicates otherwise.

During the investigation an issue arose as to whether certain imports of "pot cores" from Japan were within the scope of Treasury's determination of sales at LTFV (i.e., were they ferrite cores of a type used in consumer electronic products). We were unable to identify any imports of pot cores of a type commonly used in consumer electronic products. Accordingly, the known imports of pot cores did not enter into our considerations in this investigation.

Claims of interested parties. Representatives of the industry claim that they are suffering serious injury from the imports of ferrite cores from Japan which were sold at LTFV and that they are likely to be further injured if such imports continue. However, they deny that the totality of injury suffered from such imports must be attributable solely or primarily to sales at LTFV if an injury determination is to be made in this case. Rather, they claim that if the degree of injury caused solely by the dumping practice is more than de minimis the Commission must determine there is injury. We agree with this premise.

Representatives of the importers claim that injury to the domestic industry is attributable primarily, if not solely, to factors other than sales at LTFV and, therefore, a negative determination must be made. We agree that if injury is attributable solely to factors other than sales at LTFV, and affirmative finding should not be made in this case. However, if injury is attributable in part to the LTFV sales of the ferrite cores and such injury is more than de minimis, we must make an affirmative determination. The relative importance of such injury to injuries caused by other factors is irrelevant.

The industry claims that the sales at LTFV have caused market disruptions and a serious depression in the U.S. prices for the ferrite cores with resulting loss of profits as its injury. The importers of LTFV ferrite cores claim essentially that the depressed prices are a result of factors other than sales at LTFV, the major causal factor seemingly being a diminishing market for the cores.

Size of the U.S. Market. The U.S. market for ferrite cores has had a general growth for over two decades. Sales of such cores in 1965, the year prior to the start of substantial sales and offers of sales of LTFV Japanese cores, were about at their highest level to date. It is therefore considered conservative to use the quantity of sales of such cores in that year as a "norm" year. In 1966, the quantity of sales of ferrite cores in the United States reached its highest peak, a phenomenon caused by a rapid surge in the production and sale of color TV sets. Thereafter, the quantities of sales continued at a high plateau for 3 years (1967 through 1969) with an average volume 31 percent higher than in the "norm" year. Estimated sales of ferrite cores in 1970 indicate diminishing sales during that year; however, as most prices were appreciably depressed during the high plateau years 1967 through 1969, the size of the market in 1970 has little bearing on our consideration of the effect of LTFV imports since the major surge of sales, and offers of sales, of the LTFV imports of cores in the domestic market occurred in the high plateau period.

Price levels in the market. As previously stated, the quantity of sales of ferrite cores in the U.S. market increased in 1966 when sales of TV sets surged higher. In that year the unit values of ferrite cores rose somewhat. However, in the high plateau period when the quantity of sales continued at an average level much higher than the "norm" year, the dollar value of sales and average unit prices had a continuous drop with unit values falling far

[1] Commissioners Sutton, Clubb, and Moore determined in the affirmative. Commissioners Leonard and Young determined in the negative. Their statement of reasons follow. Chairman Mize did not participate in the investigation.

below the unit values existing in the "norm" year.

Comparisons of delivered prices. About 80 percent of the value of all LTFV imports consisted of deflection yoke cores and flyback cores. Sales of such cores in the domestic market during the high plateau period were found to be always at delivered prices (or their equivalents) far below the delivered prices for the comparable domestic cores. Domestic prices of such ferrite cores were incrementally lowered during the price-war period with aggregate price reductions ranging from 16 to 44 percent of the former domestic prices. During the plateau period, prices of the Japanese cores had incremental drops ranging in the aggregate from 22 to 29 percent of their original low prices in the United States. Prices for such LTFV cores were virtually, if not always, below the prices of their domestic counterparts. In the early stages of competition between the LTFV cores and domestic cores, the price differentials were somewhat greater than the margins of dumping (amounts of price discrimination): However, such price differentials were narrowed to such a point that they could be equated generally with the dumping margins in mid-1969 when the continued downward pricing of Japanese cores slowed, a time in which imports had diminished to a minor level in apparent concern over this dumping investigation.

About 20 percent of the value of all LTFV imports of ferrite cores consisted of cores having similar unit values than those for the cores discussed immediately above. Available price data indicates that the LTFV cores in this category were generally sold at delivered prices (or their equivalents) that were considerably lower than the delivered prices for their domestic counterparts. Moreover, the margins of underselling appeared to be dependent in large part, if not solely, upon the large margins of dumping found by Treasury to be prevalent among such imports.

Price depression. It is clear that 80 percent of the imports at LTFV have been sold at quite low price levels which have caused serious depressions in domestic market prices. The injury ensuing from such price depressions is not all attributable to the margins of dumping; however, such injury is attributable in substantial part to such margins and constitutes a substantial injury in itself which is more than de minimis. As to the remaining 20 percent of the LTFV imports, this portion of the industry's sales has suffered serious price depressions attributable largely to the dumping margins which are appreciable in size.

Conclusion. The disruptions in the U.S. market prices for ferrite cores of a type used in consumer electronic products are quite large and of a serious nature. They are attributable in large measure to the margins of dumping which undergird the low prices of such cores in the United States. Such disruptions, to the extent they are attributable to the dumping margins, are substantial; they cannot be viewed as de minimis because other factors may also be contributing in large part to the price disruptions. Accordingly, we conclude that LTFV imports from Japan are injuring an industry in the United States. Moreover, if such imports are permitted to continue at their last known price levels without the assessment of special dumping duties to offset the margins of dumping, it can be anticipated that domestic prices will take a further downward trend because the domestic industry has not yet met the lowest prices of the Japanese LTFV ferrite cores. Thus, an even greater injury can be anticipated, we conclude that the likelihood of injury to the domestic industry by reason of such imports at LTFV is even greater than the present injury.

STATEMENT OF REASONS FOR NEGATIVE DETERMINATION OF COMMISSIONERS LEONARD AND YOUNG

The Antidumping Act, 1921, as amended, requires that three conditions be satisfied before an affirmative determination can be made.

First, there must be dumping. Unless the Secretary of the Treasury has determined "that a class or kind of foreign merchandise is being, or is likely to be, sold in the United States or elsewhere at less than its fair value," the Tariff Commission has no basis upon which to institute an investigation.

Second, there must be injury, or likelihood of injury, to an industry in the United States, or an industry in the United States must be prevented from being established. The quantum or description of injury is not disclosed in the statute.

And third, there must be a connection between the first two conditions, that is, the injury (or likelihood of injury or prevention of establishment) must be "by reason of" the importation into the United States of the class or kind of foreign merchandise the Secretary of the Treasury determines is being or is likely to be sold at less than fair value. Although few determinations in the past have dealt explicitly with this third condition, it is an integral part of the law which must be fulfilled before an affirmative determination can be made.

The first condition, a determination by the Secretary of the Treasury of sales and the likelihood of sales at less than fair value of ferrite cores from Japan of the type used in consumer electronic products (CEP), was met, and the Commission instituted the instant investigation.

The second condition has been satisfied. There is injury and likelihood of injury to the domestic industry composed of ferrite core producers in the United States. The injury is a depression in the prices at which the domestic ferrite core producers sold their products and offered them for sale.

However, we make a negative determination because we do not find satisfied in the instant case the third condition of the statute, that injury (or likelihood of injury or prevention of establishment) is "by reason of" the importation of merchandise sold or likely to be sold at less than fair value. The facts uncovered in this investigation do not show cause and effect relationship between the importation of Japanese ferrite cores sold or likely to be sold in the United States at less than fair value and injury or likelihood of injury, i.e., price depression, to the domestic ferrite core industry.[1] What the facts do show follows.

Market conditions. The domestic CEP ferrite core industry in recent years has encountered steadily increasing competition from imports of consumer electronic products (television sets and radios) containing CEP ferrite cores. There is only nominal production and trade in CEP ferrite cores other than those used in television sets and radios. In these circumstances the domestic production and consumption of radios and television sets are a most important consideration in assessing market demand for CEP ferrite cores.

From 1964 when imports of television sets were 7.7 percent of domestic consumption, the share of the domestic market enjoyed by imports rose to 31.5 percent in 1969. For radios, during this period the increase was from 44.3 to 70.9 percent. Aside from the increased share of the market for television sets taken by imports, apparent consumption declined from a high of 12.2 million sets in 1966 to 10.9 million in 1969. Accordingly, the number of television sets produced in the United States dropped from a high of 11.7 million sets in 1966 to 8.9 million in 1969. U.S. radio production fell from 23 million units to 15.8 million units during this period. Since CEP ferrite cores are produced almost exclusively for use in television sets and radios, a sharp decline in demand for cores accompanied the lower domestic production of television sets and radios after 1966. The natural consequence has been a depression in ferrite core prices as domestic core producers vigorously competed for the dwindling domestic market.

Subassembly. The domestic market for CEP ferrite cores has been further diminished by increased entry into the United States of ferrite cores as parts of subassemblies. Imports of subassemblies for consumer products rose sharply in the last 6 years from 2.6 percent of apparent consumption in 1965 to 28 percent in 1970. The entry of subassemblies has caused decreased domestic demand for CEP ferrite cores, and again the natural concomitant is a price depression.

---

[1] There is no evidence that the importation of Japanese ferrite cores sold or likely to be sold in the United States at less than fair value prevented an industry in the United States from being established; therefore, we shall not treat further with this consequence of dumping which is a statutory alternative to injury or likelihood of injury.

Import penetration. In 1965, imports of ferrite cores were insignificant, accounting for a mere 0.7 percent of domestic consumption. Although there was a one-time temporary bulge in 1967, when imports obtained 4 percent of domestic consumption, the import level collapsed immediately to 1.3 percent of domestic consumption in 1968. In 1969 and 1970, imports at 0.4 percent of consumption were even below their insignificant level of 0.7 percent registered in 1965. Thus, the evidence does not point to any real market penetration, and without any real market penetration it is difficult to aline price depression of domestic ferrite cores with imports. The minimal market penetration is further highlighted when it is noted that the above import figures are for all ferrite core imports from Japan, not only those sold or likely to be sold at less than fair value. For an affirmative determination to be made in the light of such a minimal market penetration, there would have to be other evidence present, generally indicating a probability on the part of the dumping party to penetrate the market sufficiently in the future. Such evidence has not been discovered in this investigation.

Price suppression or depression. During the 5-year period 1965–70, CEP ferrite core prices declined at a time when other prices in the U.S. economy showed a steady increase. This downward trend in ferrite core prices, which was counter to the general price level, appears to have no relationship to the level of core imports as might be assumed from the 1967 import increase. Following the rapid decrease in ferrite core imports after 1967, domestic prices of cores continued their steady decline.

Conclusion. To sum up then, the facts produced in this investigation seem to indicate that any injury or likelihood of injury to the U.S. ferrite core industry measured by depressed prices is by reason of a continued worsening of competitive market conditions and not by reason of imports sold or likely to be sold at less than fair value. Therefore, a negative determination is required.

By order of the Commission.

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JANUARY 29, 1971.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC–1515 (Deviation No. 576) (Cancels Deviation No. 350), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third Street, Cleveland, OH 44113, filed January 19, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over a deviation route as follows: From Clifton Forge, Va., over Interstate Highway 64 to junction West Virginia Highway 12, thence over West Virginia Highway 12 to junction U.S. Highway 60; with the following access roads: (1) from Covington, Va., over U.S. Highway 60 to Interchange Interstate Highway 64 southeast of Covington, Va.; (2) from Covington, Va., over U.S. Highway 60 to Interchange Interstate Highway 64 near Callaghan, Va.; (3) from White Sulphur Springs, W. Va., over U.S. Highway 60 to junction Interstate Highway 64; (4) from junction Harts Run Road and U.S. Highway 60 west of White Sulphur Springs, W. Va., over Harts Run Road to junction Interstate Highway 64; and (5) from Lewisburg, W. Va., over U.S. Highway 219 to junction Interstate Highway 64, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Lexington, Va., over U.S. Highway 60 via Clifton Forge and Callaghan, Va., to junction unnumbered highway near Montgomery, W. Va., and return over the same route.

No. MC–1940 (Deviation No. 20), TRAILWAYS OF NEW ENGLAND, INC., 1200 Eye Street NW., Washington, DC 20005, filed January 15, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over a deviation route as follows: From Hartford, Conn., over Interstate Highway 84 to junction Interstate Highway 684 near Brewster, N.Y., thence over Interstate Highway 684 to junction Interstate Highway 287, thence over Interstate Highway 287 to junction Interstate Highway 87, thence over Interstate Highway 87 to New York, N.Y., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From New York, N.Y., over U.S. Highway 1 to New Haven, Conn., thence over U.S. Highway 5 via Hamden, North Haven and Wallingford, Conn., to junction Alternate U.S. Highway 5 approximately 3 miles south of Meriden, Conn., thence over Alternate U.S. Highway 5 via Meriden to junction U.S. Highway 5 approximately 3 miles north of Meriden, thence over U.S. Highway 5 via Newington and Wethersfield, Conn., to Hartford, Conn. (also from New Haven over U.S. Highway 5 to Hartford; also from New Haven over U.S. Highway 15 to Middletown, Conn., thence over U.S. Highway 9 to Hartford), and return over the same routes.

No. MC–50026 (Deviation No. 16) (Cancels Deviation Nos. 10 and 12), ARKANSAS MOTOR COACHES LIMITED, INC., 100 Main Street, Little Rock, AR 72201, filed January 18, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over a deviation route as follows: From Hope, Ark., over Arkansas Highway 4 to junction Interstate Highway 30, thence over Interstate Highway 30 to junction U.S. Highways 59–71, thence over U.S. Highways 59–71 to Texarkana, Tex., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Memphis, Tenn., over U.S. Highway 70 to Hot Springs National Park, Ark., thence over U.S. Highway 67 to Texarkana, Tex., and return over the same route.

No. MC–50026 (Deviation No. 17) (Cancels Deviation No. 14), ARKANSAS

MOTOR COACHES LIMITED, INC., 100 Main Street, Little Rock, AR 72201, filed January 18, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over a deviation route as follows: From junction U.S. Highway 67 and Interstate Highway 30, 2 miles south of Benton, Ark., over Interstate Highway 30 and U.S. Highway 270 over U.S. Highway 270 to Malvern, Ark. (a distance of 3.2 miles); (2) from junction Interstate Highway 30 and Arkansas Highway 8 over Arkansas Highway 8 to Arkadelphia, Ark. (a distance of 2.4 miles); (3) from junction Interstate Highway 30 and Arkansas Highway 26 over Arkansas Highway 26 to Gum Springs Junction, Ark. (a distance of 1.6 miles); (4) from junction Interstate Highway 30 and Arkansas Highway 53 over Arkansas Highway 53 to Gurdon, Ark. (a distance of 5.6 miles); and (5) from junction Interstate Highway 30 and Arkansas Highway 51 over Arkansas Highway 51 to junction U.S. Highway 67 (a distance of 2 miles); and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over pertinent service routes as follows: (1) From Memphis, Tenn., over U.S. Highway 70 to Hot Springs Park, Ark., thence over U.S. Highway 67 to Texarkana, Tex.; and (2) from Benton, Ark., over U.S. Highway 67 to junction Arkansas Highway 7 (5 miles north of Arkadelphia, Ark.), and return over the same routes.

No. MC–61616 (Deviation No. 37) (Cancels Deviation Nos. 22 and 27), MIDWEST BUSLINES, INC., 433 West Washington Avenue, North Little Rock, AR 72114. MOTOR CARRIERS OF PROPERTY

No. MC–22301 (Deviation No. 4), SIOUX TRANSPORTATION COMPANY, INC., Post Office Box 3088, Sioux City, IA 51102, filed December 1, 1970. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Omaha, Nebr., over city streets to junction U.S. Highway 73, thence over U.S. Highway 73 via Blair, Winnebago and South Sioux City, Nebr., to Sioux City, Iowa, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Omaha, Nebr., over U.S. Highway 75 to Missouri Valley, Iowa, thence over U.S. Highway 30 to junction Alternate U.S. Highway 30, thence over Alternate U.S. Highway 30 to Chicago, Ill.; and (2) from Sioux City, Iowa, over U.S. Highway 75 to Missouri Valley, Iowa, and return over the same routes.

No. MC–35334 (Deviation No. 18), COOPER-JARRETT, INC., 23 South Essex Avenue, Orange, NJ 07051, filed December 7, 1970, amended January 21, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From the northeast extension of the Pennsylvania Turnpike at Exit 33 at the junction of Interstate Highway 78, over Interstate Highway 78 to junction Pennsylvania Highway 309, thence over Pennsylvania Highway 309 to junction Pennsylvania Highway 93, thence over Pennsylvania Highway 93 to junction Interstate Highway 81, thence over Interstate Highway 81 to junction Interstate Highway 80, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Wallingford, Conn., over Connecticut Highway 70 to junction Interstate Highway 84, thence over Interstate Highway 84 to junction Interstate Highway 81E, thence over Interstate Highway 81E to junction Interstate Highway 80, thence

over Interstate Highway 80 to junction Interstate Highway 79 at or near Mercer, Pa.; and (2) from Philadelphia, Pa., over the Northeast Extension of the Pennsylvania Turnpike to junction Interstate Highway 80, and return over the same routes.

No. MC-48958 (Deviation No. 26), ILLINOIS-CALIFORNIA EXPRESS, INC., 510 East 51st Avenue, Denver, CO 80216, filed January 19, 1971. Carrier's representative: Morris G. Cobb, Post Office Box 9050, Amarillo, TX 79105. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Dallas, Tex., over Interstate Highway 35E to junction Texas Highway 24, thence over Texas Highway 24 to junction U.S. Highway 287, thence over U.S. Highway 287 to junction U.S. Highway 66 (Interstate Highway 40), thence over U.S. Highway 66 (Interstate Highway 40) to junction U.S. Highway 666 (near Gallup, N. Mex.), thence over U.S. Highway 666 to junction U.S. Highway 160 (near Cortez, Colo.), thence over U.S. Highway 160 to junction U.S. Highway 50 (near Crescent Junction, Utah), thence over U.S. Highway 50 to junction Alternate U.S. Highway 50 (near Spanish Fork, Utah), thence over Alternate U.S. Highway 50 to Salt Lake City, Utah, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Amarillo, Tex., over U.S. Highway 287 via Wichita Falls, Tex., to Rhome, Tex., thence over Texas Highway 114 to Dallas, Tex.; (2) from Amarillo, Tex., over U.S. Highway 66 to San Jon, N. Mex.;

(3) From Tucumcari, N. Mex., over U.S. Highway 66 to San Jon, N. Mex.; (4) from Moriarty, N. Mex., over U.S. Highway 66 to Tucumcari, N. Mex.; (5) from Albuquerque, N. Mex., thence Highway 66 to Moriarty, N. Mex., thence over New Mexico Highway 41 to junction U.S. Highway 60, thence over U.S. Highway 60 to Vaughn, N. Mex., thence over U.S. Highway 285 to Carlsbad, N. Mex., thence over U.S. Highway 62 to El Paso, Tex.; (6) from Los Angeles, Calif., over U.S. Highway 66 via San Bernardino, Calif., to Albuquerque, N. Mex., and (7) from Salt Lake City, Utah, over U.S. Highway 91 to Levan, Utah, thence over Utah Highway 28 to Gunnison, Utah (also from Salt Lake City over U.S. Highway 89 to Gunnison), thence over U.S. Highway 89 to junction Alternate U.S. Highway 89 at or near Kanab, Utah, thence over Alternate U.S. Highway 89 to junction U.S. Highway 89, thence over U.S. Highway 89 to Flagstaff, Ariz., thence over Interstate Highway 17 to Phoenix, Ariz., and return over the same routes.

No. MC 59680 (Deviation No. 85), STRICKLAND TRANSPORTATION CO., INC., Post Office Box 5689, Dallas, TX 75222, filed January 18, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: Between Lehi, Ark., and Stuttgart, Ark., over U.S. Highway 79, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: from Memphis, Tenn., over U.S. Highway 70 to junction Arkansas Highway 11 (near Hazen), thence over Arkansas Highway 11 to Stuttgart, Ark., thence over U.S. Highway 79 to Fordyce, Ark., and return over the same route.

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JANUARY 29, 1971.

The following publications are governed by the new Special Rule 247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 76032 (Sub-No. 255) (Republication), filed March 23, 1970, published in the FEDERAL REGISTER issue of June 11, 1970, and republished this issue. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, CO 80223. Applicant's representative: Arnold L. Burke, 69 West Washington Street, Chicago, IL 60602. The modified procedure has been followed in this proceeding and the above-described application has been handled as a petition to modify applicants presently held alternate route authority in its certificate No. MC 76032 (Sub-No. 206), issued February 2, 1967. An order of the Commission, Operating Rights Board, dated December 28, 1970, and served January 18, 1971, finds; that in No. MC 76032 (Sub-No. 6), the future public convenience and necessity require operation by petitioner, in interstate or foreign commerce, as a common carrier by motor vehicle, over regular routes, of the commodities, and between the points, as described as follows (which constitutes a modification of the presently held certificate in No. MC 76032) (Sub-No. 206): Authority authorized in certificate No. MC 76032 (Sub-No. 206), as modified herein: Alternate routes for operating convenience only: General commodities, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those requiring special equipment, livestock, coal, ore, fresh fish, sand, gravel, heavy machinery, and commodities injurious or contaminating to other lading.

(1) Between Oakland, Calif., and Denver, Colo., in connection with carrier's presently authorized regular-route operations, serving Salt Lake City, Utah, for the purpose of interchange with rail carriers in the performance of substituted rail-for-motor carrier service only: From Oakland over Interstate Highway 80 (U.S. Highway 40) to junction U.S. Highway 30S near Echo, Utah, thence over U.S. Highway 40 to junction U.S. Highway 189 near Kimball, Utah, thence over U.S. Highway 189 (Interstate Highway 80) to junction U.S. Highway 30S near Echo, Utah, thence over U.S. Highway 30S (Interstate Highway 80) to junction U.S. Highway 30 at Little America, Wyo., thence over Interstate Highway 80 (U.S. Highway 30) to junction U.S. Highway 30 at or near Walcott, Wyo., thence over U.S. Highway 30 to Laramie, Wyo., thence over Interstate Highway 80 (U.S. Highway 30) to junction Interstate Highway 25 near Cheyenne, Wyo., thence over Interstate Highway 25 (U.S. Highway 87) to Denver, and return over the same route. (2) Between Manteca, Calif., and junction Interstate Highway 80 and U.S. Highway 99, in connection with carrier's presently authorized regular-route operations, serving no intermediate points, and serving junction U.S. Highway 99 and Interstate Highway 80 for purposes of joinder only: From Manteca over U.S. Highway 99 to junction Interstate Highway 80, and return over the same route.

(3) Between junction Interstate Highways 80 and 25 near Cheyenne, Wyo., and junction U.S. Highways 30 and 138 (junction Interstate Highways 80 and 80S) near Big Springs, Nebr., in connection with carrier's presently authorized regular-route operations, serving no intermediate points, and serving the termini for purposes of joinder only: From junction Interstate Highways 80 and 25 over Interstate Highway 80 (U.S. Highway 30) to junction U.S. Highway 138, and return over the same route. Restriction: The operations authorized hereinabove are restricted to the transportation of traffic moving from, to, or through Omaha, Nebr. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate protest or other pleading.

No. MC 108068 (Sub-No. 73) (Republication), filed December 20, 1968, published in the FEDERAL REGISTER issue of January 16, 1969, and republished this issue. Applicant: U.S.A.C. TRANSPORT, INC., Post Office Box G, Joplin, MO 64801. Applicant's representative: A. N. Jacobs (same address as above). An order of the Interstate Commerce Commission, at a General Session held at its office in Washington, D.C., on January 8, 1971, was served January 20, 1971, and upon consideration of the above-entitled proceeding, finds: TRI-STATE MOTOR TRANSIT CO. (Joplin, Mo.), (substituted as applicant in the proceeding) that the present and future public convenience and necessity require operation by TRI-STATE MOTOR TRANSIT CO., as substituted applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of aircraft ground support equipment (except automobiles, trucks, and buses as defined in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766) between points in the United States (except Alaska, Hawaii, California, Washington, Oregon, Nevada, Utah, and Arizona); subject to the condition that the authority to so operate shall not be joined or combined directly or indirectly with any other authority presently held by applicant for the purpose of providing a service from or to any points other than those specified above; subject further to the condition that to the extent the authority granted herein duplicates the authority presently held by applicant, it shall not be construed as conferring more than a single operating right. Because it is possible that other persons who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order a notice of authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interstate may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 125479 (Sub-No. 11) (republication), filed May 28, 1969, published in the FEDERAL REGISTER issue of June 26, 1969, and republished this issue. Applicant: JOSEPH A. KORNACKER, doing business as KORNACKER TRUCKING CO., 3050 West 10th Street, Waukegan, IL. Applicant's representative: Robert H. Levy, 29 South La Salle Street, Chicago, IL 60603. A report and order of the Commission, Division 1, Acting as Appellate Division, decided December 8, 1970, and served December 18, 1970, finds: that operation by *P-N-J Kornacker, Inc.*, substituted applicant, in this proceeding in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of malt beverages and related advertising materials (1) from the facilities of Anheuser-Busch, Inc., at Columbus, Ohio, to Addison, Ill., under a continuing contract or contracts with Western Beverage Service, Inc., of Addison, Ill., (2) from the facilities of Anheuser-Busch, Inc., at Columbus, Ohio, to Arlington Heights, Ill., under a continuing contract or contracts with Joe Huebner Distributing Co., of Arlington Heights, Ill., (3) from the facilities of Anheuser-Busch, Inc., at Columbus, Ohio, to Montgomery, Ill., under a continuing contract or contracts with Magill Beverage Co., Inc., of Montgomery, Ill., (4) from the facilities of Anheuser-Busch, Inc., at Columbus, Ohio, to Waukegan, Ill., under a continuing contract or contracts with Jack Neids, Inc., of Waukegan, Ill., and (5) from the facilities of Anheuser-Busch, Inc., at Columbus, Ohio, and St. Louis, Mo., to Chicago, Ill., under a continuing contract or contracts with Marg-Ann, Inc., of Chicago, Ill., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other persons, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice that the authority granted in this proceeding can be tacked with applicant's outstanding authority, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit will be withheld for a period of 30 days from the date of such publication, during which period any person with a proper interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which he has been so prejudiced.

No. MC 126528 (Sub-No. 2) (Republication), filed July 17, 1970, published in the FEDERAL REGISTER issue of August 13, 1970, and republished this issue. Applicant: BULK HAULERS, INC., Airport Road, Nashua, N.H. 03060. Applicant's representaive: T. J. O'Loughlin, Jr., 18 Baker Street, Hudson, NH 03051. The modified procedure has been followed in this proceeding and an order of the Commission, Operating Rights Board, dated December 31, 1970, and served January 20, 1971, finds: That operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, of alcoholic beverages and equipment, materials and supplies used in connection therewith, except in bulk, between points in California, Connecticut, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Missouri, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and ports of entry on the international boundary line between the United States and Canada, on the one hand, and, on the other, points in New Hampshire, under a continuing contract with New Hampshire State Liquor Commission will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to confrom to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; than an appropriate permit should be issued, subject (1) to the written receipt from *Law Motor Freight, Inc.*, of a request for modification of its existing certificate in No. MC-36144 of the Commodities involved herein to or from the facilities of the New Hampshire State Liquor Commission, and (2) to prior publication in the FEDERAL REGISTER of a notice of the authority actually granted by the Order. Because it is possible that other parties who have relied upon the notice in the FEDERAL REGISTER of the application as originally published may have an interest in and would be prejudiced by the lack of proper notice of the grant of authority without the requested limitation in the findings herein, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of the permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in the proceeding setting forth in detail the precise manner in which it has been so prejudiced.

BROKERS

No. MC 130120 (Republication), filed July 2, 1970, published in the FEDERAL REGISTER issue of July 23, 1970, and republished this issue. Applicant: HAGERSTOWN TRAVEL MOTOR COACH TOURS, 1317 Dual Highway, Hagerstown, MD 21740. The modified procedure has been followed in this proceeding, and an order of the Commission, Operating Rights Board, dated December 30, 1970, and served January 21, 1971, finds: That operation by applicant as a broker, at Hagerstown, Md., in arranging for transportation in interstate or foreign commerce, of passengers and their baggage, in all-expense round-trip tours, in special and charter operations beginning and ending at Hagerstown, Cumberland, and Frederick, Md., Winchester, Va., and Martinsburg, W. Va., and extending to points in the United States (including Alaska and Hawaii), will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The order also cautions applicant that arrangements for charter parties or groups should be made in conformity with the requirements set forth in *Tauck Tours, Inc. Extension—New York, N.Y.*, 54 M.C.C. 291. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a license in this proceeding will be withheld

for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 130122 (Republication), filed July 13, 1970, published in the FEDERAL REGISTER issue of August 6, 1970, and republished this issue. Applicant: TRAVEL SERVICES, INC., 416 West Walnut Street, Louisville, KY 40202. Applicant's representative: Robert W. Loser II, 1001 Chamber of Commerce Building, Indianapolis, IN 46204. The modified procedure has been followed in this proceeding and an order of the Commission, Operating Rights Board, dated December 30, 1970, and served January 21, 1971, finds; that operation by applicant at Louisville, Ky., as a broker in arranging for transportation by motor vehicle, in interstate or foreign commerce, of passengers and their baggage, in round-trip tours, in special and charter operations, beginning and ending at Louisville, Ky., and extending to points in the United States (including Alaska and Hawaii) will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The order also cautions applicant that arrangements for charter parties or groups should be made in conformity with the requirements set forth in *Tauck Tours, Inc.—Extension—New York, N.Y.*, 54 M.C.C. 291. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a license in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding.

WATER CARRIER

No. W-1247 (Sub-No. 1) (Republication) (CANYON TOURS, INC. COMMON CARRIER APPLICATION), filed June 17, 1970, published in the FEDERAL REGISTER issue of July 2, 1970, and republished this issue. Applicant: CANYON TOURS, INC., Post Office Box 1597, Page, AZ 86040. Applicant's representative: George F. Senner, Jr., 609 Luhrs Building, Phoenix, AZ 85003. The modified procedure has been followed in this proceeding and a supplemental order of the Commission, dated January 18, 1971, and served January 20, 1971, finds: that the present and future public convenience and necessity require operation by applicant in interstate or foreign commerce, as a common carrier by water, by self-propelled vessels, in the transportation of passengers between Wahweap Marinas, Lake Powell, Ariz., on the one hand, and, on the other, points in Utah and Arizona on Lake Powell, subject to the condition that applicant shall maintain separate books and accounts for its water transportation service and its other services; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice in the FEDERAL REGISTER of the application as originally published may have an interest in and would be prejudiced by the lack of proper notice of the grant of authority in our findings herein, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of the certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC-3468, filed December 2, 1970 (Notice of Filing of Petition for Modification and Correction of Certificate). Petitioner: F. J. BOUTELL DRIVE-AWAY CO., INC., Flint, Mich. Petitioner's representative: Harry C. Ames, Jr., 666 11th Street NW., Washington, DC 20001. Petitioner presently holds a certificate in No. MC-3468, issued April 10, 1970, which, as pertinent herein, authorizes operation as a common carrier by motor vehicle, over irregular routes, of automobiles, trucks, bodies, cabs, and chassis, new, used, or unfinished, in secondary movements, in truckaway service, between places of manufacture and assembly in Detroit, Mich., and those in that part of Macomb County, Mich., south of 14 Mile Road and west of Gratiot Avenue (except Fraser, East Detroit, and Roseville, Mich.), and Omaha, Nebr., Joliet, Ill., and points in Iowa and Michigan, restricted against the joinder, directly or indirectly, with any authority otherwise held by carrier for the purpose of performing through transportation of traffic under such combination. Petitioner obtained this authority as the result of the purchase from Treloar Trucking of all its interstate operating authorities, which purchase was approved by the Commission in No. MC-F-7455. These authorities originally were issued to petitioner in its certificate No. MC-3468 (Sub-No. 145), dated December 5, 1961. The authority originally granted authorized the transportation (1) of new automobiles, new trucks, new bodies, new cabs, and new chassis, in initial movements, in truckaway service, from places of manufacture and assembly in Detroit, Mich., and Warren Township, Macomb County, Mich., to Omaha, Nebr., Joliet, Ill., and points in Iowa and Michigan, and (2) of automobiles, trucks, bodies, cabs, and chassis, new, used, or unfinished, in secondary movements, in truckaway service, between all points described in (1) above. Petitioner states that the authority described in the April 10, 1970, certificate is more limited than originally granted, extent prays that its authority be modified and corrected. Any persons desiring to participate in this proceeding may file an original and six copies of his written representatives, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

No. MC 134460 (Sub-No. 5 TA), filed January 25, 1971. Applicant: AMERICAN TRANSPORT SYSTEM, INC., 871 Charter Street, Redwood City, CA 94036. Applicant's representative: Daniel W. Baker, 405 Montgomery Street, San Francisco, CA 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meat*, in vehicles equipped with mechanical refrigeration, from San Francisco and Oakland, Calif., to points in California north of San Luis Obispo, Kern, and San Bernardino Counties, for 180 days. Supporting shippers: Secrest Watson International, Post Office Box 1066 Station A, 1288 Bayshore Highway, Burlingame, CA 94010; Hoyt, Shepston & Sciaroni, Inc., 30 Hotaling Place, San Francisco, CA 94111. Send protests to: Claud W. Reeves, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 450 Golden Gate Avenue, Box 36004, San Francisco, CA 94102.

No. MC 135250 TA, filed January 26, 1971. Applicant: EMRICK'S VAN & STORAGE CO., INC., 202 East Pine, Enid, OK 73701. Applicant's representative: Dean Williamson, 600 Leininger Building, Oklahoma City, OK 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in Garfield County, Okla., on the one hand, and, on the other, points in Grant, Alfalfa, Kay, Garfield, Noble, Major, Pawnee, Woodward, Harper, Osage, Woods, and Washington Counties, Okla., restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized and further

restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating and decontainerization of such traffic, for 180 days. NOTE: Applicant will interline with other carriers in Garfield County, Okla. Supporting shippers: HC & D Moving & Storage Co., Inc., 321 Valencia Street, San Francisco, CA 94103; Asiatic Forwarders, Inc., 335 Valencia Street, San Francisco, CA 94103. Send protests to: Clifford L. Phillips, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 240 Old Post Office Building, 215 Northwest Third, Oklahoma City, OK 73102.

MOTOR CARRIER TRANSFER PROCEEDINGS

JANUARY 29, 1971.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-72483. By order of January 22, 1971, the Motor Carrier Board approved the transfer to Ranch and Farm, M & M Trucking, Inc., Williston, N. Dak., of the operating rights in permit No. MC-128116 issued August 9, 1967, to Guy McDonald, Williston, N. Dak., authorizing the transportation of malt beverages and soft drinks, from Milwaukee, Wis., and Minneapolis, Minn., to Williston, N. Dak. Ray H. Walton, Box 726, Williston, ND 58801, attorney for applicants.

No. MC-FC-72585. By order of January 27, 1971, the Motor Carrier Board approved the transfer to Mid-Ohio Valley Leasing, Inc., doing business as Domestic and International Airfreight Lines, Parkersburg, W. Va., of the operating rights in certificate No. MC-129601 issued July 8, 1968, to The Weser Cab Co., a corporation, Parkersburg, W. Va., authorizing the transportation of general commodities, with usual exceptions, (1) between the airport at Parkersburg, W. Va., on the one hand, and, on the other, points in Athens, Meigs, Monroe, and Washington Counties, Ohio, and Calhoun, Jackson, Pleasants, Ritchie, Roane, Tyler, Wirt, and Wood Counties, W. Va., and (2) between points in Athens, Meigs, Monroe, and Washington Counties, Ohio, and points in Calhoun, Jackson, Pleasants, Ritchie, Roane, Tyler, Wirt, and Wood Counties, W. Va., on the one hand, and, on the other, the Greater Pittsburgh Airport in Moon Township, Allegheny County, Pa., Washington National Airport, Arlington County, Va., Dulles International Airport, in Fairfax and Loudoun Counties, Va., Frienship International Airport, in Anne Arundel County, Md., Cincinnati Municipal Airport at Lunken Field, in Hamilton County, Ohio, Greater Cincinnati Airport, in Boone County, Ky., Columbus Municipal Airport, in Franklin County, Ohio, and Kanawha County Airport, in Charleston, W. Va., restricted to the transportation of traffic having an immediately prior or subsequent movement by air. Charles H. Rudolph, Jr., Post Office Box 646, Parkersburg, WV, attorney for applicants.

No. MC-FC-72586. By order of January 22, 1971, the Motor Carrier Board approved the transfer to Eugene L. Weber, Menomonic, Wis., of the operating rights in certificate No. MC-20298 issued February 6, 1963, to George Trainor, Eau Galle, Wis., authorizing the transportation of dry animal and poultry feed and dry feed ingredients from Savage, Minn., to specified points in Wisconsin. A. R. Fowler, 2288 University Avenue, St. Paul, MN 55114, representative for applicants.

No. MC-FC-72596. By order of January 22, 1971, the Motor Carrier Board approved the transfer to Irvington Transfer & Storage Co., a corporation, Portland, Oreg., of the operating rights in permit No. MC-127609 (Sub-No. 1) issued September 28, 1966, to Bert L. and Bruce L. Bowlsby, a partnership, doing business as Irvington Transfer and Storage Co., Portland, Oreg., authorizing the transportation of such merchandise as is dealt in by retail department stores between points in Multnomah County, Oreg., and points in Clark County, Wash. Earle V. White, White & Southwell, 2400 Southwest Fourth Avenue, Portland, OR 97201, attorney for applicants.

NO. MC-FC-72606. By order of January 22, 1971, the Motor Carrier Board, approved the transfer to Olpag Inc., North Bellmore, N.Y., of the operating rights in permit No. MC-128524, issued September 21, 1967, to Max Hess, New York, N.Y., authorizing the transportation of such commodities as are dealt in or distributed by a manufacturer or distributor of toilet preparations and materials and supplies used in the manufacture of such commodities between specified points in New York and New Jersey, Martin Werner, 2 West 45th Street, New York, NY 10036, attorney for transferor. Herbert Lifschitz, 29 Park Avenue, Manhassett, NY 11030, attorney for transferee.

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Compilation of Regulations

The purpose of this compilation is to combine all amendments and pending amendments to Parts 71, 73 and 75 of the Federal Aviation regulations which have been published by the Administrator of the Federal Aviation Administration in the FEDERAL REGISTER prior to January 7, 1971. Pending amendments are listed below the appropriate sections and include the effective dates and FEDERAL REGISTER citations.

Minor editorial corrections have been included to clarify existing airspace descriptions; however, no substantive changes or revision of airspace designations have been effected thereby. Therefore, compliance with the notice and public procedure requirements of 5 U.S.C. 533 is unnecessary and for that reason this docket may be made effective immediately.

In consideration thereof, this action is effective, 0901 G.m.t., January 7, 1971.

71.401 Designation.

SUBPART A - GENERAL

§ 71.1 Applicability.

(a) The airspace assignments described in Subparts B and C are designated as Federal airways.

(b) The airspace assignments described in Subparts B through I are designated as control areas, the continental control area, control zones, transition areas, positive control areas, and reporting points, as described in the appropriate subpart.

(c) The airspace assignments described in Subpart K of this part are designated as terminal control areas.

(d) The airspace assignments described in Subpart J are designated as area low routes.

§ 71.3 Classification of Federal Airways.

Federal airways are classified as follows:

(a) Colored Federal airways:

(1) Green Federal airways.

(2) Amber Federal airways.

(3) Red Federal airways.

(4) Blue Federal airways.

(b) VOR Federal airways.

§ 71.5 Extent of Federal airways.

(a) Each Federal airway is based on a centerline that extends from one navigational aid or intersection to another navigational aid (or through several navigational aids or intersections) specified for that airway.

(b) Unless otherwise specified in Subpart B or C -

(1) Each Federal airway includes the airspace within parallel boundary lines 4 miles each side of the centerline. Where an airway changes direction, it includes that airspace enclosed by extending the boundary lines of the airway segments until they meet.

(2) Where the changeover point for an airway segment is more than 51 miles from either of the navigational aids defining that segment, and -

(i) The changeover point is midway between the navigational aids, the airway includes the airspace between lines diverging at angles of 4.5° from the centerline at each navigational aid and extending until they intersect opposite the changeover point; or

(ii) The changeover point is not midway between the navigational aids, the airway includes the airspace between lines diverging at angles of 4.5° from the centerline at the navigational aid more distant from the changeover point, and extending until they intersect with the bisector of the angle of the centerlines at the changeover point; and between lines connecting these points of intersection and the navigational aid nearer to the changeover point.

(3) Where an airway terminates at a point or intersection more than 51 miles from the closest associated navigational aid it includes the additional airspace within lines diverging at angles of 4.5° from the centerline extending from the associated navigational aid to a line perpendicular to the centerline at the termination point.

(4) Where an airway terminates, it includes the airspace within a circle centered at the specified navigational aid or intersection having a diameter equal to the airway width at that point. However, an airway does not extend beyond the domestic/oceanic control area boundary.

(c) Unless otherwise specified in Subpart B or C -

(1) Each Federal airway includes that airspace extending upward from 1,200 feet above the surface of the earth to, but not including, 18,000 feet MSL, except that Federal airways for Hawaii have no upper limits. Variations of the lower limits of an airway are expressed in digits representing hundreds of feet above the surface (AGL) or mean sea level (MSL) and, unless otherwise specified, apply to the segment of an airway between adjoining navigational aids or intersections; and

(2) The airspace of a Federal airway within the lateral limits of a transition area has a floor coincident with the floor of the transition area.

(d) One or more alternate airways may be designated between specified navigational aids or intersections along each VOR Federal airway described in Subpart C. Unless otherwise specified, the centerline of an alternate VOR Federal airway and the centerline of the corresponding segment of the main VOR Federal airway are separated by 15°.

(e) A Federal airway does not include the airspace of a prohibited area.

§ 71.6 Extent of area low routes.

(a) Each area low route is based on a centerline that extends from one waypoint to another waypoint (or through several waypoints) specified for that area low route. An area low route does not include the airspace of a prohibited area. All mileages specified in connection with area low routes are nautical miles.

(b) Unless otherwise specified in Subpart J, the following apply:

(1) Except as provided in subparagraph (2) of this paragraph, each area low route includes, and is limited to, that airspace within parallel boundary lines 4 or more miles on each side of the route centerline as described in the middle column of the following table, plus that additional airspace outside of those parallel lines and within lines drawn outward from those parallel lines at angles of 3.25°, beginning at the distance from the tangent point specified in the right-hand column of the following table:

135 to, but not including 145	5.00	0 (i.e., at tangent point).
145 to, but not including 150	5.25	0 (i.e., at tangent point).

(2) Each area low route, whose centerline is at least 2 miles, and not more than 3 miles from the reference facility, includes, in addition to the airspace specified in subparagraph (1) of this paragraph, that airspace on the reference facility side of the centerline that is within lines connecting the point that is 4.9 miles from the tangent point on a perpendicular line from the centerline through the reference facility, thence to the edges of the boundary lines described in subparagraph (1) of this paragraph, intersecting those boundary lines at angles of 5.15°.

(3) Where an area low route changes direction, it includes that airspace enclosed by extending the boundary lines of the route segments until they meet.

(4) Where the widths of adjoining route segments are unequal, the following apply:

(i) If the tangent point of the narrower segment is on the route centerline, the width of the narrower segment includes that additional airspace within lines from the lateral extremity of the wider segment where the route segments join, thence toward the tangent point of the narrower route segment, until intersecting the boundary of the narrower segment.

(ii) If the tangent point of the narrower segment is on the route centerline extended, the width of the narrower segment includes that additional airspace within lines from the lateral extremity of the wider segment where the route segments join, thence toward the tangent point until reaching the point where the narrower segment terminates or changes direction, or until intersecting the boundary of the narrower segment.

(5) Where an area low route terminates, it includes that airspace within a circle whose center is the terminating waypoint, and whose diameter is equal to the route segment width at that waypoint, except that an area low route does not extend beyond the domestic/oceanic control area boundary.

(6) Each area low route includes that airspace extending upward from 1,200 feet above the surface of the earth to, but not including, 18,000 feet MSL, except that area low routes for Hawaii have no upper limits. Variations of the lower limits of an area low route are expressed in digits representing hundreds of feet above the surface (AGL) or mean sea level (MSL) and, unless otherwise specified, apply to the route segment between adjoining waypoints used in the description of the route.

(7) The airspace of an area low route within the lateral limits of a transition area has a floor coincident with the floor of the transition area.

AMENDMENTS 7/22/70 35 F. R. 10653 (Added)

§ 71.7 Control areas.

Control areas consist of the airspace designated in Subparts B, C, E, and J, but do not include the continental control area. Unless otherwise designated, control areas include the airspace between a segment of a main VOR Federal Airway and its associated alternate segments with the vertical extent of the area corresponding to the vertical extent of the related segment of the main airway.

§ 71.9 Continental Control Area

The Continental Control Area consists of the airspace of the 48 contiguous States, the District of Columbia and Alaska, excluding the Alaska peninsula west of longitude 160°00'00" W., at and above 14,500 feet M.S.L., but does not include -

(a) The airspace less than 1,500 feet above the surface of the earth; or

(b) Prohibited and restricted areas, other than restricted area military climb corridors and the restricted areas listed in Subpart D of this part.

AMENDMENTS 4/2/70 35 F. R. 622 (Rewritten); Eff. date changed 4/30/70 35 F. R. 5465

§71.11 Control Zones

The control zones listed in Subpart F of this part consist of controlled airspace which extends upward from the surface of the earth and terminates at the base of the continental control area. Control zones that do not underlie the continental control area have no upper limit. A control zone may include one or more airports and is normally a circular area with a radius of 5 miles and any extensions necessary to include instrument approach and departure paths.

§71.12 Terminal Control Areas

The terminal control areas listed in Subpart K of this part consist of controlled airspace extending upward from the surface or higher to specified altitudes, within which all aircraft are subject to operating rules and pilot and equipment requirements specified in Part 91 of this chapter. Each such location is designated as a Group I or Group II Terminal Control Area, and includes at least one primary airport around which the terminal control area is located.

§ 71.13 Transition Areas.

The transition areas listed in Subpart G consist of controlled airspace extending upward from 700 feet or more above the surface of the earth when designated in conjunction with an airport for which an approved instrument approach procedure has been prescribed; or from 1,200 feet or more above the surface of the earth when designated in conjunction with airway route structures or segments. Unless otherwise specified, transition areas terminate at the base of the overlying controlled airspace.

§ 71.15 Positive Control Areas.

The positive control areas listed in Subpart H consist of controlled airspace within which there is positive control of aircraft.

§ 71.17 Reporting Points.

(a) The reporting points listed in Subpart I consist of geographic locations, in relation to which the position of an aircraft must be reported in accordance with §91.125.

(b) Unless otherwise designated, each reporting point applies to all directions of flight. In any case where a geographic location is designated as a reporting point for less than all airways passing through that point, or for a particular direction of flight along an airway only, it is so indicated by including the airways or direction of flight in the designation of geographical location.

(c) Unless otherwise specified, place names appearing in the reporting point descriptions indicate VOR or VORTAC facilities identified by those names.

§ 71.19 Bearings: Radials: Miles.

(a) All bearings and radials in this Part are true, and are applied from point of origin.

(b) Except as otherwise specified and except that mileages for Federal airways are stated as nautical miles, all mileages in this Part are stated as statute miles.

SUBPART B - COLORED FEDERAL AIRWAYS

§ 71.101 **Designation.**

The airspace assignments described in this subpart are designated as Colored Federal Airways.

SUBPART E - CONTROL AREAS AND CONTROL AREA EXTENSIONS

§ 71.161 Designation of control areas associated with jet routes outside the continental control area.

Unless otherwise specified, the airspace centered on each of the following jet route segments has a vertical extent identical to that of a Jet Route and a lateral extent identical to that of a Federal airway and is designated as a control area. Unless otherwise specified, the place names appearing in the descriptions indicate VOR or VORTAC facilities identified by those names.

J-41 From Key West, Fla., to Tallahassee, Fla.

Jet Route No. 42 Robbinsville, N. J., to Hampton, N. Y.
AMENDMENTS 4/2/70 35 F. R. 6 (Added); Eff. date changed 4/30/70 35 F. R. 5465
Eff. date changed to: Upon further notice 35 F. R. 6274; Eff. date changed to: 6/25/70 35 F. R. 7051

J-43 From St. Petersburg, Fla., to Tallahassee, Fla.

Jet Route No. 53 from Key West, Fla., to Miami, Fla.

Jet Route No. 55 from Sea Isle, N. J., to Putnam, Conn.

Jet Route No. 58 from New Orleans, La., to Sarasota, Fla. 2/5/70 34 F. R. 19749 (Added)

Jet Route No. 63 From Kennedy, N. Y., to Tuna INT.

Jet Route No. 77 from Biscayne Bay, Fla., to Vero Beach, Fla.; from Jacksonville, Fla., to Charleston, S. C.
AMENDMENTS 4/2/70 35 F. R. 1221 (Rewritten); Eff. date changed 4/30/70 35 F. R. 5465

Jet Route No. 79 from Daytona Beach, Fla., to Charleston, S. C.

Jet Route No. 86 from Houston, Tex., to Sarasota, Fla.

Jet Route No. 103 from Daytona Beach, Fla., to Savannah, Ga.

Jet Route No. 111, from Nome, Alaska, to McGrath, Alaska.

Jet Route No. 120, from Fort Yukon, Alaska, to Barter Island, Alaska, RBN.

Jet Route No. 121: Norfolk, Va., to Hampton, N. Y.; Providence, R. I., to INT of Providence 045° and Boston, Mass., 067° radials.

Jet Route No. 122, from Galena, Alaska, to Nome, Alaska.

Jet Route No. 123, From INT of Kodiak, Alaska, 107° radial and the NW boundary Anchorage Oceanic Control Area at latitude 57°28' N., longitude 150°32' W., via Kodiak to King Salmon, Alaska.

Jet Route No. 125, From Kodiak, Alaska, to Anchorage, Alaska.

Jet Route No. 133, From Annette Island, Alaska, to Anchorage, Alaska.

Jet Route No. 150, from Hampton, N. Y., via Hyannis, Mass., to Striper INT.

Jet Route No. 153 From Sea Isle, N. J., to Shad INT.

Jet Route No. 174, from Hampton, N. Y., via Hyannis, Mass., to Herring INT.

Jet Route No. 501, from the United Staes/Canadian border, via Yakutat, Alaska, to Anchorage, Alaska.

Jet Route No. 502 from Tofino, British Columbia, Canada, RBN via Neah Bay, Wash., RBN; Hoquiam, Wash.; to Medford, Oreg.; from Ukiah, Calif., to Oakland, Calif. excluding the portion within Canada.

§ 71.163 Designation of additional control areas.

Unless otherwise specified, each control area designated below has a lateral extent identical to that of a Federal airway and extends upward from 700 feet (until designated from 1,200 feet or more) above the surface of the earth, except that the airspace of a control area within the lateral limits of a transition area has a floor coincident with the floor of the transition area.

Control 1141

That airspace within tangent lines from the circumference of a 5-mile radius circle centered at latitude 42°23'23" N., longitude 70°59'10" W., to a 15 mile radius circle centered on the midway point of a direct line between latitude 42°23'23" N., longitude 70°59'10" W., and the Yarmouth, Nova Scotia, Canada, RBN to a 5-mile radius circle centered on the Yarmouth RBN and that airspace from 18,000 feet MSL to flight level 260 bounded by a line from: Latitude 42°43'20" N., longitude 70°22'00" W.; thence to latitude 42°52'00" N., longitude 70°16'00" W.; thence to latitude 43°01'30" N., longitude 69°52'00" W.; thence to latitude 43°01'30" N., longitude 69°36'00" W.; thence to the point of beginning; and that airspace from 18,000 feet MSL to flight level 260 inclusive bounded by a line from: Latitude 42°33'35" N., longitude 70°03'45" W.; thence to latitude 42°42'30" N., longitude 69°30'00" W.; thence to latitude 42°39'00" N., longitude 69°30'00" W.; thence to latitude 42°28'00" N., longitude 70°03'45" W.; thence to point of beginning; and that airspace extending upward from 2,000 feet MSL bounded by a line from; Latitude 42°33'35" N., longitude 70°03'45" W.; thence to latitude 42°23'45" N., longitude 70°03'45" W.; latitude 42°25'15" N., longitude 70°30'00" W.; latitude 42°26'15" N., longitude 70°30'00" W.; thence to the point of beginning; excluding the portion under the jurisdiction of Canada, the portion within the confines of Federal airways and the Boston, Mass., transition area, the portion below 2,000 feet MSL W of the 69°30'00" W meridian of longitude and the portion below 5,500 feet MSL E of the 69°30'00" W meridian of longitude.

Control 1142

That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered at latitude 42°21'30" N., longitude 70°41'25" W., to a 15-mile radius circle centered at latitude 42°02'00" N., longitude 68°00'00" W., and that airspace within lines drawn from latitude 42°16'00" N., longitude 68°00'00" W., thence to latitude 42°14'00" N., longitude 67°00'00" W., thence to latitude 41°52'00" N., longitude 67°00'00" W., thence to latitude 41°46'00" N., longitude 68°00'00" W., thence to latitude 42°16'00" N., longitude 68°00'00" W., excluding the portion within the Boston Transition area, the airspace below 5,500 feet MSL E of longitude 68°00'00" W., and the airspace below 2,000 feet MSL W of longitude 68°00'00" W., except that airspace within the confines of Federal airways.

Control 1143

That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Nantucket, Mass., Consolan station (monitor site at Lat. 41°15'35" N, Long. 70°09'19" W) to a 15-mile radius circle centered at the midway point on a direct line between the Nantucket Consolan station (monitor site at Lat. 41°15'35" N, Long. 70°09'19" W) and the Yarmouth, Nova Scotia, Canada, RBN to a 5-mile radius circle centered on the Yarmouth RBN excluding that portion below 2,000 feet except that airspace within the confines of Federal airways.

Control 1144

That airspace in the vicinity of Nantucket, Mass., within an area bounded by a line beginning at latitude 41°06'00" N., longitude 70°09'10" W., to latitude 41°25'35" N., longitude 70°09'35" W., to latitude 41°26'00" N., longitude 69°15'00" W., to latitude 41°46'00" N., longitude 68°00'00" W., to latitude 41°06'00" N., longitude 68°00'00" W., to the point of beginning, excluding the portion below 2,000 feet MSL except that airspace which lies within the confines of Federal airways.

Control 1145

That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Nantucket, Mass., Consolan station (monitor site at Lat. 41°15'35" N, Long. 70°09'19" W) to a 15-mile radius circle centered on the INT of a rhumb line between the Nantucket Consolan station (monitor site at Lat. 41°15'35" N, Long. 70°09'19" W) and the Kindley AFB, Bermuda RBN and the W boundary of the New York Oceanic Control Area, excluding the portion below 2,000 feet except that airspace within the confines of Federal airway.

Control 1146

That airspace within a 5 NM radius circle centered on the Nantucket, Mass., Consolan and that airspace bounded by a line drawn from the tangent of the 5 NM radius circle centered on Nantucket Consolan to latitude 42°05'20" N., longitude 68°00'00" W., thence to latitude 42°19'00" N., longitude 68°00'00" W., thence to latitude 43°00'00" N., longitude 67°00'00" W., thence to latitude 41°52'00" N., longitude 67°00'00" W., thence to latitude 41°46'00" N., longitude 68°00'00" W., thence to the tangent of the 5 NM radius circle centered on the Nantucket Consolan, excluding that airspace outside the United States below 2,000 feet MSL W of longitude 68°00'00" W., and below 5,500 feet MSL E of longitude 68°00'00" W.

Control 1147

That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered at Lat. 40°18'30" N, Long. 73°45'00" W, to the circumference of a 15-mile radius circle centered at the INT of the 137° bearing from the Newark, N. J., RBN and the W boundary of the New York Oceanic Control Area, and that airspace bounded by a line beginning at latitude 40°02'15" N., longitude 73°13'45" W.; to latitude 40°05'45" N., longitude 73°09'15" W.; to latitude 39°26'35" N., longitude 72°24'25" W.; to the point of beginning. That airspace below 2,000 feet outside the confines of Federal airways is excluded.

Control 1148

That airspace within tangent lines drawn from the circumference of 5-mile radius circles centered on the Millville, N. J., RBN and at the INT of Millville RBN 135° bearing and the Atlantic Ocean-U.S. Coastline to a 15-mile radius circle centered on the INT of Millville RBN 135° bearing and the west boundary of the New York Oceanic Control area at latitude 37°43'00" N., longitude 73°00'00" W., and that airspace which is within 5 miles southwest of and parallel to the Sea Isle, N. J., VORTAC 134° radial, extending from Sea Isle to a point 40 miles southeast of Sea Isle. That airspace below 2,000 feet outside the United States is excluded.

Control 1149

That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Norfolk, Va., VORTAC 088° radial at Long. 75° 32' 00" W. to the circumference of a 15-mile radius circle centered on the Norfolk, Va., VORTAC 088° radial on the west boundary of the New York Oceanic Control Area at Lat. 36° 57' 30" N., Long. 73° 00' 00" W., excluding the portion below 2,000 feet MSL outside the United States.

Control 1150

That airspace within a 5-nmi radius of the Carolina Beach, N. C., RBN (Lat. 34°06'22" N, Long. 77°57'42" W), within a 5-nmi radius of the Bimini, Bahamas, RBN (Lat. 25°42'32" N, Long. 79°16'33" W), within a 23-nmi radius of Lat. 29°53'15" N, Long. 78°39'15" W, within tangent lines drawn from the E and W sides of the Carolina Beach and Bimini 5-nmi radius area to the E and W sides of the 23-nmi radius area centered at Lat. 29°53'15" N, Long. 78°39'15" W. excluding that portion below 2,000 feet MSL outside the United States and that portion below 7,000 feet MSL within the Nassau, Bahamas, control area. The airspace above FL 430 south of latitude 30°36'50" N., and north of a line from latitude 29°06'30" N., longitude 79°09'10" W.; to latitude 29°20'00" N., longitude 78°20'20" W. is excluded.

Control 1151

That airspace N of Lat. 27°00'00" N. within tangent lines drawn from the circumference of a 25-mile radius circle centered at a point midway on a direct line between the Carolina Beach, N. C., RBN and the Nassau, British West Indies, RBN and circles 5 miles in radius centered on the Carolina Beach RBN and the Nassau RBN, excluding the airspace below 2,000 feet MSL outside the United States.

Control 1152

That airspace east of Charleston, S. C., bounded by a line beginning at:
Latitude 33°02'00" N., longitude 80°03'35" W., thence to latitude 32°54'35" N., longitude 79°40'00" W., thence to latitude 32°50'35" N., longitude 79°23'00" W., thence to latitude 32°36'15" N., longitude 78°26'35" W., thence to latitude 32°13'25" N., longitude 77°00'00" W., thence to latitude 31°43'15" N., longitude 77°00'00" W., thence to latitude 32°35'55" N., longitude 79°16'45" W., thence to latitude 32°49'40" N., longitude 80°03'50" W., thence to latitude 32°52'25" N., longitude 80°03'45" W., thence to latitude 32°53'45" N., longitude 80°07'15" W., thence to the point of beginning, excluding the portion below 2,000 feet MSL outside the United States.

Control 1153

That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Jacksonville, Fla., RBN to an 18-mile radius circle centered at the INT of the 090° bearing from the Jacksonville RBN and the W boundary of the New York Oceanic Control Area, excluding the portion below 2,000 feet MSL outside the United States.

PENDING AMENDMENT

Control 1153

That airspace extending upward from 1,200 feet above the surface within 5 miles each side of the Jacksonville, Fla., radio beacon (lat. 30°27'53" N., long. 81°48'06" W.) 090° bearing, including the additional airspace within lines diverging at angles of 5° from the centerline extending from the radio beacon to the western boundary of the New York Oceanic CTA/FIR boundary, excluding the portion below 2,000 feet MSL outside the United States.

AMENDMENTS 12/10/70 35 F. R. 13363 (Rewritten) Corr: 35 F. R. 18039 (Effective date changed to 3/4/71)

Control 1154

That airspace extending upward from 5,000' MSL bounded on the east by VOR Federal airway No. 199; on the south by a line extending from latitude 38°03'25" N., longitude 123°11'45" W.; to latitude 38°00'00" N., longitude 123°23'00" W.; to latitude 37°50'00" N., longitude 124°24'30" W.; to latitude 37°40'00" N., longitude 125°23'30" W.; on the west by the Oakland Oceanic Control Area; and on the north by a line extending from latitude 38°50'00" N., longitude 126°11'05" W.; to latitude 38°52'00" N., longitude 125°52'30" W.; to latitude 39°00'00" N., longitude 123°56'30" W.; to latitude 39°02'55" N., longitude 123°22'00" W.

Control 1155
That airspace extending upward from 5,000 feet MSL within 5 miles each side of the San Luis Obispo, Calif., VORTAC 242° radial, including the additional airspace within lines diverging at angles of 5° from the centerline at the VORTAC, extending from the U. S. coastline to the Oakland Oceanic CTA/FIR boundary.

AMENDMENTS 2/5/70 34 F. R. 19464 (Added)

Control 1156
That airspace extending upward from 5,000 feet MSL within 5 miles each side of the San Diego, Calif., VORTAC 262° radial, including the additional airspace within lines diverging at angles of 5° from the centerline at the VORTAC, extending from the VORTAC to its intersection with Control 1177.

AMENDMENTS 11/12/70 35 F. R. 14692 (Added)

Control 1169
That airspace within 5 miles either side of a line extending from the Kennedy, N. Y., VORTAC via the INT of the Kennedy VORTAC 080° and the Nantucket, Mass., VORTAC 255° radials, to the Nantucket VORTAC and within lines diverging from the Kennedy VORTAC to points of tangency to a 9.5-mile radius circle centered at the INT of the Kennedy VORTAC 080° and the Nantucket VORTAC 255° radials; within the circumference of the circle and within lines tangent to that circle converging to the Nantucket VORTAC, excluding the airspace below 2,000 feet MSL outside the United States.

Control 1173
That airspace W of San Francisco, Calif., bounded by a line extending from latitude 37°40'00" N., longitude 125°23'30" W., to latitude 37°50'00" N., longitude 124°24'30" W., to latitude 38°00'00" N., longitude 123°23'00" W., to latitude 38°03'25" N., longitude 123°11'45" W., thence via the W edge of V-199 and V-27 to latitude 37°09'20" N., longitude 122°34'50" W., to latitude 36°16'00" N., longitude 124°26'00" W., to the point of beginning, excluding the portion below 2,500 feet MSL. The portion within W-513 is excluded between the hours of 0800 and 2000 p.s.t., Monday through Friday, and below 3,000 feet MSL within W-513 between the hours of 2000 and 0800 p.s.t., Monday through Friday.

Control 1176
That airspace extending upward from 2,000 feet MSL, within lines 5 miles each side of the Santa Barbara, Calif., VORTAC 247° radial, including the additional airspace between lines beginning adjacent to the VORTAC and diverging at angles of 5° from the parallel lines, extending from the VORTAC to the east boundary of the Oakland Oceanic Control Area, excluding the portion east of longitude 120°30'00" W.

Control 1177
That airspace SW of Los Angeles, Calif., bounded by a line beginning at Lat. 33°25'50" N, Long. 118°28'50" W. thence to Lat. 33°19'00" N. Long. 118°21'45" W. thence to Lat. 32°44'30" N. Long. 119°07'00" W. thence to Lat. 31°41'00" N. Long. 120°15'00" W. thence to Lat. 31°18'40" N. Long. 121°11'30" W. thence to Lat. 31°54'00" N. Long. 121°34'30" W. thence to Lat. 32°10'45" N. Long. 120°16'15" W. thence to Lat. 32°52'15" N. Long. 119°12'30" W. thence to point of beginning excluding the airspace below 5,000 feet MSL.

Control 1181
That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Weeksville, N.C., RBN to a 10-mile radius circle centered on the INT of the 133° bearing from the Weeksville RBN and the W boundary of the New York Oceanic Control Area, excluding the portion below 2,000 feet which extends outside the United States.

Control 1215
That airspace SE of Galveston, Tex., bounded by a line beginning at latitude 29° 02' 10" N., longitude 95° 05' 00" W., extending NE 3 nmi from and parallel to the United States coastline to latitude 29° 19' 00" N., longitude 94° 40' 30" W., to latitude 28° 15' 00" N., longitude 92° 07' 00" W., to latitude 28° 15' 00" N., longitude 94° 00' 00" W., to latitude 28° 07' 45" N., longitude 94° 12' 00" W., to latitude 28° 10' 00" N., longitude 94° 14' 00" W., to latitude 28° 10' 00" N., longitude 94° 58' 00" W., to latitude 27° 37' 45" N., longitude 94° 59' 45" W., to latitude 27° 32' 00" N., longitude 95° 09' 00" W., to latitude 26° 50' 20" N., longitude 95° 30' 00" W., to latitude 27° 00' 00" N., longitude 95° 30' 00" W., to point of beginning; excluding the portion below 2,500 feet MSL.

Control 1216
That airspace extending upward from 2,000 feet MSL bounded on the N by a direct line from the Navy New Orleans, La., RBN to Lat. 29°25'00" N, Long. 87°00'00" W, on the SE by a line extending from Lat. 29°25'00" N, Long. 87°00'00" W to Lat. 28°50'00" N, Long. 88°00'00" W, thence S along Long. 88°00'00" N to the N boundary of the Houston Oceanic Control Area, on the S by the Houston Oceanic Control Area, on the W by Long. 90°15'00" W., and on the NW by the New Orleans transition area.

Control 1217

That airspace within tangent lines drawn from the circumference of a 5 mile-radius circle centered on the Kodiak, Alaska, RR to the circumference of a 10-mile radius circle centered at the INT of the 107° bearing from the Kodiak RR with the NW boundary of the Anchorage Oceanic Control Area. The airspace below 2,000 feet MSL outside the United States is excluded.

Control 1218

That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Homer, Alaska, RR to the circumference of a 10-mile radius circle centered at the INT of the 118° bearing from the Homer RR with the NW boundary of the Anchorage Oceanic Control Area.

Control 1226

That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Galveston, Tex., RBN extending to the circumference of a 15-mile radius circle centered at a point midway on a rhumb line between the Galveston RBN and the Grand Isle, La., RBN, thence to the circumference of a 5-mile radius circle centered on the Grand Isle RBN, thence to the circumference of a 15-mile radius circle centered at a point midway on a rhumb line between the Grand Isle RBN and the Egmont Key, Fla., RBN, thence to the circumference of a 5-mile radius circle centered on the Egmont Key RBN, excluding the portion below 5,000 feet MSL from the Galveston RBN to the Grand Isle RBN, and the portion below 2,000 feet MSL from the Grand Isle RBN to the Egmont Key RBN.

Control 1230

That airspace extending from the Portland, Fla., RBN to the INT of the Portland RBN 275° bearing and the eastern

boundary of the Miami Oceanic control area, excluding the airspace below 2,000 feet MSL outside the United States, and the airspace within W-168.

Control 1232

That airspace bounded on the north by a line 5 miles south and parallel to the Orlando, Fla., VOR 071° radial; on the east by a line extending from latitude 29°08'35" N., longitude 79°00'00" W. via latitude 24°40'00" N., longitude 79°00'00" W. to latitude 24°00'00" N., longitude 78°00'00" W.; on the south by latitude 24°00'00" N.; on the west by longitude 80°25'00" W. and V-3; excluding the airspace below 1,000 feet MSL within 5 miles each side of the Palm Beach, Fla., RBN, 090° bearing, outside the United States, and the airspace below 2,000 feet MSL elsewhere outside the United States. The airspace within the Nassau control area is excluded.

Control 1233

That airspace extending upward from 2,000 feet MSL bounded on the north by V-35; on the east by a line 5 miles east of and parallel to the 187° bearing from the Marathon, Fla., RBN; on the south by latitude 24°00'00" N.; on the west by a line extending from the intersection of latitude 24°00'00" N., and a line 5 miles west of and parallel to the 187° bearing from the Marathon RBN, thence via this parallel line to its intersection with latitude 24°25'00" N., thence west via latitude 24°25'00" N., to the arc of a 35-mile radius circle centered at the Key West, Fla., VORTAC, thence northward via this arc to V-35, excluding the portion within W-465.

Control 1234

That airspace extending upward from 2,000 feet above the surface within an area bounded by a line beginning at: latitude 58°07'00" N., longitude 160°00'00" W.; to latitude 53°30'00" N., longitude 160°00'00" W.; to latitude 51°24'00" N., longitude 167°49'00" W.; to latitude 50°08'00" N., longitude 176°34'00" W.; to latitude 51°05'00" N., longitude 173°44'00" E.; to latitude 51°30'00" N., longitude 170°00'00" E.; to latitude 54°40'40" N., longitude 170°00'00" E.; to latitude 54°49'00" N., longitude 170°12'30" E.; to latitude 54°23'00" N., longitude 174°30'00" E.; to latitude 53°36'00" N., longitude 176°47'00" W.; to latitude 54°33'00" N., longitude 169°58'00" W.; to latitude 56°39'00" N., longitude 164°25'00" W.; to latitude 57°46'00" N., longitude 161°46'00" W.; thence to point of beginning. The portion within R-2204 is excluded.

Control 1235

That airspace extending upward from 14,500 feet MSL to FL 450 within the area bounded by a line beginning at latitude 53°30'00" N., longitude 160°00'00" W.; to latitude 56°00'00" N., longitude 153°00'00" W.; to latitude 59°09'00" N., longitude 147°18'00" W.; thence clockwise via the arc of a 172-mile radius circle centered on the Anchorage, Alaska, VORTAC to latitude 58°50'00" N., longitude 151°58'00" W.; thence clockwise via the arc of a 172-mile radius circle centered on the King Salmon, Alaska, VORTAC to longitude 160°00'00" W.; thence to point of beginning, excluding the portion that lies within the Continental Control Area, Control 1217, Control 1218, Federal airways and the Kodiak, Alaska, transition area.

Control 1236

That airspace extending upward from 14,500 feet MSL to FL 450 within the area bounded by a line beginning at: latitude 60°00'00" N., longitude 170°00'00" W.; to latitude 61°00'00" N., longitude 165°00'00" W.; to latitude 60°00'00" N., longitude 164°00'00" W.; to latitude 60°00'00" N., longitude 160°00'00" W.; to latitude 57°00'00" N., longitude 160°00'00" W.; to latitude 60°00'00" N., longitude 168°00'00" W.; thence to the point of beginning, excluding the portion that lies within the Continental Control Area, Control 1234, Control 1483 and Control 1400.

Control 1310
That airspace within 4 nautical miles each side of a direct line extending from the Anchorage, Alaska, VORTAC to the Middleton Island, Alaska, VOR, including the additional airspace between lines diverging at 4.5° angles from the centerline, extending SE from the Anchorage VORTAC and NW from the Middleton Island VOR and which terminate at the intersecting points midway between Anchorage and Middleton Island; thence within 16 miles each each side of a line extending from the Middleton Island RBN to the Sandspit, British Columbia, Canada, RR; including that airspace between lines diverging at 5° angles from the centerline, extending southeast from the Middleton Island RBN and northwest from the Sandspit RR, and which terminate at the intersecting points midway between Middleton Island and Sandspit, excluding the portion within Canada, and the airspace below 2,000 feet MSL outside the United States.

Control 1316
That airspace within 5 miles each side of the Los Angeles, Calif., VOR 264° radial extending from the VOR to the Oakland Oceanic Control Area boundary and between lines diverging at an angle of 5° from the 264° radial extending from the Los Angeles VOR to the Oakland Oceanic Control Area boundary, excluding the airspace below 5,000 feet MSL within W-289.

AMENDMENTS 1/7/71 35 F. R. 17031 (Changed)

Control 1386
That airspace within 5 miles either side of the Orlando, Fla., VOR 071° radial, extending from the VOR to Control 1150 and between lines diverging at an angle of 4.5° from the centerline at the Orlando VOR excluding the airspace below 14,000 feet MSL and above FL 430 between the E boundary of R-2902B and the W boundary of control 1150.

Control 1400
That airspace within 5 miles either side of the 263° bearing from the King Salmon, Alaska, RR extending from the RR to the Anchorage Oceanic Control Area, and between lines diverging at an angle of 5° from the King Salmon RR to the E boundary of the Anchorage Oceanic Control Area, excluding the airspace below 2,000 feet MSL outside the United States.

Control 1401
That airspace within 5 miles either side of the 248° bearing from the King Salmon, Alaska, RR extending from the RR to longitude 160°00'00" W, and between lines diverging at an angle of 5° from the King Salmon 248° bearing extending from the RR to longitude 160°00'00" W, excluding the airspace below 2,000 feet MSL outside the United States.

Control 1415
That airspace within parallel boundary lines 4 nmi each side of the Fortuna, Calif., VOR 270° radial including the additional airspace within lines diverging at angles of 4.5° from the centerline extending to the E boundary of the Oakland Oceanic Control Area, excluding the portion below 5,000 feet MSL W of longitude 124°30'00" W.

Control 1418
That airspace extending upward from 2,000 feet MSL centered on the Hoquiam, Wash., VORTAC 232° radial, 10 nmi in width at the VORTAC with each edge diverging at an angle of 5° with the centerline, extending from the VORTAC to the E boundary of the Oakland Oceanic Control Area and excluding the portion within W-460.

Control 1419
That airspace extending upward from 2,000 feet MSL within lines 5 miles each side of the Newport, Oreg., VORTAC 237° radial, including the additional airspace between lines beginning adjacent to the VORTAC and diverging at angles of 5° from the parallel lines, extending from the VORTAC to the E boundary of the Oakland Oceanic control area, excluding the portion within the Newport, Oreg., transition area.

Control 1445
That airspace S of the United States-Canadian border and the Vancouver Flight Information Region within lines tangent to the circumference of a 5-mile radius circle centered on the Neah Bay, Wash., RBN and the circumference of a 15-mile radius circle centered at Lat. 48°40'00" N, Long. 125°17'30" W, excluding the portion below 5,000 feet MSL. The portion within W-601 is excluded.

Control 1447
That airspace southwest of New Orleans, La., bounded by a line beginning at latitude 29° 22' 30" N., longitude 91° 05' 00" W., to latitude 29° 15' 00" N., longitude 91° 05' 00" W., to latitude 29° 15' 00" N., longitude 90° 15' 00" W., to latitude 28° 15' 00" N., longitude 90° 15' 00" W., to latitude 28° 15' 00" N., longitude 92° 21' 45" W., to point of beginning, excluding the portion below 2,500 feet MSL.

Control 1483
That airspace within 5 miles each side of the 237° bearing from the Bethel, Alaska, RBN, extending from the RBN to the E boundary of the Anchorage Oceanic Control Area, and between lines diverging at a 5° angle from the 237° bearing extending from the Bethel RBN to the E boundary of the Anchorage Oceanic Control area and excluding the airspace below 2.000 feet MSL outside the United States.

Control 1485
That airspace extending upward from FL-230 bounded by a line beginning at latitude 68°00'00" N., longitude 168°58'23" W.; to latitude 72°00'00" N., longitude 158°00'00" W.; to latitude 72°00'00" N., longitude 141°00'00" W.; to latitude 68°00'00" N., longitude 141°00'00" W.; to the point of beginning.

AMENDMENTS 6/4/70 35 F. R. 8656 (Changed)

Control 1486
That airspace within 5 miles each side of the Ukiah, Calif., VOR 300° radial and the additional area between lines diverging at angles of 5° either side of the 300° radial extending from the VOR to the eastern boundary of the Seattle Oceanic Control Area; excluding the airspace below 5,000 feet MSL which lies outside the continental limits of the United States.

Control 1487
That airspace extending upward from 14,500 feet MSL; to FL 450, within the area bounded by a line beginning at latitude 59°08'30" N., longitude 147°16'00" W., counterclockwise via the arc of a 172-mile radius centered on the Anchorage VORTAC to latitude 60°14'10" N., longitude 145°29'30" W., thence southeastward 3 nmi from and parallel to the U. S. coastline to latitude 54°40'00" N., longitude 132°56'00" W., thence to latitude 54°14'00" N., longitude 134°57'00" W., thence along the eastern boundary of the Anchorage Oceanic control area to the point of beginning. The portion within Control 1310 and the portion within Canada is excluded.

Control 1488
That airspace extending upward from 5,500 feet MSL to flight level 410 within 4 nautical miles each side of the Key West, Fla., VOR 244° radial and within 5 statute miles each side of the Key West radio beacon 245° bearing including the additional airspace between lines diverging at 4.5° from the centerline at the VOR and 5° at the RBN, extending from the VOR/RBN to the Miami Oceanic Area boundary and latitude 24°00'00" N.

Bettles/Umiat, Alaska
From the Bettles, Alaska, RBN, 66 miles, 24 miles 95 MSL, Umiat, Alaska, RBN (lat. 69°23'15" N., long. 152°11'10" W.).

Bozeman, Mont.
From Bozeman, Mont., VOR, 10,700 MSL Livingston, Mont., VORTAC.

Fort Yukon, Alaska
From the Fort Yukon, Alaska, VOR 12 AGL to Flaxman Island, Alaska, RBN.

Kirksville, Mo.
From Kirksville, Mo., VORTAC 12 AGL to Moline, Ill., VORTAC, and from Kirksville VORTAC 45 MSL to St. Louis, Mo., VORTAC.

Menominee, Mich.
From the Menominee, Mich., VORTAC, 12 AGL Marquette, Mich., VORTAC.

Omak, Wash.
That airspace extending upward from 5,500 feet MSL within 5 miles each side of a line extending from the Omak RBN to the Ephrata, Wash., VOR.

Ottumwa, Iowa
From the Ottumwa, Iowa, VORTAC 12 AGL 26 miles, 50 MSL to Kansas City, Mo., VORTAC.

Point Barrow/Barter Island, Alaska
From the Point Barrow, Alaska, RBN, 12 AGL Lonely, Alaska, RBN; 12 AGL Oliktok, Alaska, RBN; 12 AGL Flaxman Island, Alaska, RBN; 12 AGL Barter Island, Alaska, RBN.

Rattlesnake, Wyo.
That airspace extending upward from 8,500 feet MSL bounded on the north by V-298S, on the east by Casper, Wyo., 1,200-foot transition area, on the south and southwest by a line 4 NM south and southwest and parallel to the Casper ILS west course and Riverton, Wyo., VOR 099° radial and on the west by the Riverton, Wyo., 1,200-foot transition area.

Sault Ste. Marie, Mich.
That airspace extending upward from 1,200 feet AGL within 4 nautical miles each side of a direct line extending from the Lakehead, Ontario, Canada, RBN to the Sault Ste. Marie, Mich., RBN, including the additional airspace between lines diverging at 4.5° from the centerline at the Lakehead and Sault Ste. Marie RBNs and extending until the meet. The airspace within Canada is excluded.

Sidney, Mont.
That airspace extending upward from 1,200 feet AGL within 4 nautical miles each side of a direct line extending from latitude 47°41'00" N., longitude 104°06'15" W., to latitude 48°06'45" N., longitude 105°36'00" W.

Umiat/Point Barrow, Alaska
From the Umiat, Alaska, RBN (latitude 69°23'15" N., long. 152°11'10" W.) 21 nautical miles 12 AGL, 112 nautical miles 25 MSL, 12 AGL Point Barrow, Alaska, RBN.

SUBPART K - TERMINAL CONTROL AREAS

§71.401 **Designation.**

The parts of the airspace described below are designated as terminal control areas. The primary airport or airports for each terminal control area are also designated. Except as otherwise specified, all mileages are nautical miles.

(a) Group I, Terminal Control Areas:

Atlanta, Ga., **Terminal Control Area**

Primary Airport.
1. Atlanta Airport (latitude 33°38'42" N., longitude 84°25'37" W.).

Boundaries. That airspace up to and including 8,000 feet MSL -

1. Area A. That airspace extending upward from the surface within a 7-mile radius of Atlanta Airport, and within 2 statute miles each side of the 268° radial of Rex VOR extending from the 7-mile radius to Rex VOR; excluding the Fulton County control zone and the airspace from 4,200 feet MSL to 6,000 feet MSL between the 179° radial of Fulton County VOR and a line 3 miles east of and parallel to the centerline of V-97;

2. Area B. That airspace extending upward from 2,500 feet MSL within the area on the east bounded by Area A, a line 4 miles north of and parallel to the extended centerline of runway 27R, a 12-mile arc of Atlanta Airport, and a line 3 miles east of and parallel to the centerline of V-97; and within the area on the west bounded by Area A, a line 4 miles south of and parallel to the extended centerline of Runway 9R, a 12-mile arc of Atlanta Airport, and a line 4 miles north of and parallel to the extended centerline of Runway 9L; excluding the Fulton County Control Zone;

3. Area C. That airspace extending upward from 3,500 feet MSL within the area on the east bounded by Area A, Area B, a line 1 mile south of and parallel to the 091° radial of Fulton County VOR, a 20-mile arc of Atlanta Airport, and a line 3 miles east of and parallel to the centerline of V-97; and within the area on the west bounded by Area A, Area B, a line 1 mile south of and parallel to the 271° and 091° radials of Fulton County VOR, a 20-mile arc of Atlanta Airport, a line 2 miles north of and parallel to the centerline of V-20 north, and the 179° radial of Fulton County VOR;

4. Area D. That airspace extending upward from 6,000 feet MSL within the area on the south bounded by Area A, Area B, and Area C and a 20-mile arc of Atlanta Airport; and the area on the north bounded by Area A, Area C, and a 20-mile arc of Atlanta Airport, excluding that area described as the Dobbins AFB control zone and the area north of the 260° radial of Norcross VOR east of the Dobbins AFB control zone.

NG AMENDMENT

Atlanta, Ga., **Terminal Control Area**

Primary Airport
Atlanta Airport (lat. 33°38'42" N., long. 84°25'37" W.)

Area A. That airspace extending upward from the surface to 8,000 feet MSL within a 7-mile radius of the Atlanta Airport including that area within lines drawn 2 statute miles each side of the 268° radial of the Rex VOR extending from the 7-mile radius circle to the Rex VOR, excluding the Fulton County control zone and excluding the airspace north of a line 4 miles north of and parallel to the extended centerline of Runways 9L/27R.

Area B. That airspace extending upward from 2,500 feet MSL to 8,000 feet MSL within a 12-mile radius of the Atlanta Airport, excluding Area A, the Fulton County control zone, and the airspace north of a line 4 miles north of and parallel to the extended centerline of Runways 9L/27R.

Area C. That airspace extending upward from 3,500 feet MSL to 8,000 feet MSL within a 20-mile radius of the Atlanta Airport, excluding Area A, Area B and the airspace north of a line 1 mile south of and parallel to the 271° and 091° radials of the Fulton County VOR.

Area D. That airspace extending upward from 6,000 feet MSL to 8,000 feet MSL north of the Atlanta Airport bounded on the east by a 20-mile radius arc from the Atlanta Airport, on the south by a line 1 mile south of and parallel to the 271° and 091° radials of Fulton County VOR, on the west by a 20-mile radius arc from the Atlanta Airport, and on the north by the southern boundary of the area described as the Dobbins AFB control zone and the 260° radial of Norcross VOR east of the Dobbins AFB control zone.

AMENDMENTS 2/4/71 35 F. R. 19103 (Rewritten)

Chicago, Ill., Terminal Control Area

Primary Airport
1. Chicago-O'Hare International Airport (latitude 41°59'10" N., longitude 87°54'28" W.)
Boundaries. That airspace up to and including 7,000 feet MSL -

1. Area A. That airspace extending upward from the surface within the Chicago, Ill. (O'Hare International Airport), control zone, including that airspace within 2 miles northwest of the centerline of Runway 4 extended and 2 miles southeast of the centerline of the proposed Runway 4R extended, extending from the 5-mile radius control zone to 2 miles southwest of the Pine Outer Marker.

2. Area B. That airspace extending upward from 1,900 feet MSL within a 10.5-mile radius arc of Chicago O'Hare International Airport, excluding Area A and that area bounded on the southeast by a line 2 miles northwest of and parallel to the centerline extended of Runway 22, on the south and southwest by the southwest boundary of Glenview, Ill., control zone, on the north by a 10.5-mile radius arc of the Chicago-O'Hare International Airport, and
excluding Area E described hereinafter.

3. Area C. That airspace extending upward from 3,000 feet MSL within a 20-mile radius arc of Chicago-O'Hare International Airport, excluding Areas A and B, previously described, Areas D and E, described hereinafter, and that airspace within a 1.5-mile radius of Clow Airport (latitude 41°41'40" N., longitude 88°07'38" W.).

4. Area D. That airspace extending upward from 4,000 feet MSL north of Chicago bounded on the south by the 093° and 274° radials of the Northbrook VOR, on the west by a line 3 miles northeast of and parallel to the centerline extended of Runway 14L, and on the north by the 20-mile radius arc of the Chicago-O'Hare International Airport. That area southeast of Chicago between the 10.5-mile and 20-mile radius arcs of the Chicago-O'Hare International Airport and bounded
on the north by a line 3 miles south of and parallel to the extended centerline of Runway 27R, and on the southwest by a line 3 miles northeast of and parallel to the extended centerline of Runway 32R.

5. Area E. That airspace northeast of Chicago extending upward from 2,500 feet MSL bounded on the northeast by a 10.5-mile radius arc of Chicago-O'Hare International Airport, on the south by the extended-center-line of Runway 9/27 at NAS Glenview and on the northwest by a line 2 miles northwest of and parallel to the extended centerline of Runway 22 at Chicago-O'Hare International Airport.

Washington, D. C., Terminal Control Area

Primary Airports
1. Washington National Airport (latitude 38°51'05" N., longitude 77°02'20" W.).
2. Andrews AFB (latitude 38°48'40" N., longitude 76°52'05" W.).
Boundaries: That airspace up to and including 8,000 feet MSL -

1. Area A. That airspace extending upward from the surface to and including 3,000 feet MSL and that airspace extending upward from 5,000 feet MSL within a 5-mile radius of the Washington, D. C., VOR and within a 5-mile radius of the Andrews, Md., VORTAC, including that airspace within 2 miles each side of the Washington National Airport ILS localizer south course extending from the 5-mile radius circle of the Washington VORTAC to the Washington National ILS outer marker, and including the additional airspace within a 7-mile radius of the Washington VOR bounded on the north by a line running through the point of intersection of a 7-mile radius arc from the Washington VOR and the Herndon VOR 126° radial and lat. 38°51'00" N., long. 77°06'10" W., and on the south by the Washington VOR 203° radial; and including the additional airspace within a 7-mile radius of the Andrews VORTAC, bounded on the north by the Andrews VORTAC 060° radial and on the southwest by a line 3 miles east of and parallel to the Andrews VORTAC 180° radial, excluding the airspace bounded on the north by latitude 38°45'50" N., on the east by longitude 76°54'25" W. and on the southwest by an arc 5 miles in radius from the Andrews VORTAC; and excluding that airspace below 1,500 feet MSL between arcs 5 miles and 7 miles in radius from the Andrews VORTAC bounded on the north by the Andrews VORTAC 060° radial and on the southwest by a line 3 miles east of and parallel to the Andrews VORTAC 180° radial; and that airspace bounded by a line beginning at latitude 38°50'20" N., longitude 77°05'40" W.; to latitude 38°47'26" N., longitude 77°09'15" W.; thence along an arc 7 miles in radius from the Washington VOR to the Herndon VOR 126° radial, thence to lat. 38°51'00" N., long. 77°06'10" W.; thence to the point of beginning; and excluding Prohibited Area P-56.

2. Area B. That airspace extending upward from 1,500 feet MSL north of Andrews AFB bounded on the southeast by the Andrews VORTAC 060° radial, on the south by Area "A", on the west by the Washington VOR 043° radial and a line 2 miles west of and parallel to the Andrews VORTAC 360° radial, and on the north by a 10-mile radius arc from the Andrews VORTAC. That area south of Washington bounded on the north by Area A, on the east by a line 3 miles east of and parallel to the Andrews VORTAC 180° radial, on the south by a line passing through geographic points latitude 38°39'10" N., longitude 76°47'45" W.; and latitude 38°41'25" N., longitude 77°07'20" W.; and on the west by the Washington VOR 203° radial. That area northwest of Washington bounded on the east by the Washington VOR 351° radial, on the southeast by Area "A", on the southwest by the Herndon VORTAC 126° radial, and on the northwest by a 10-mile radius arc from the Washington VOR.

3. Area C. That airspace extending upward from 2,500 feet MSL south of Washington bounded on the north by Area B, on the east by a line 3 miles east of and parallel to the Andrews VORTAC 180° radial, on the south by a line passing through geographic points latitude 38°33'50" N., longitude 76°47'30" W.; and latitude 38°36'30" N., longitude 77°09'45" W.; and on the west by the Washington VOR 203° radial. That area northwest of Washington bounded on the east by the Washington VOR 351° radial, on the southeast by a 10-mile radius arc from the Washington VOR, on the southwest by the Herndon VORTAC 126° radial and on the northwest by a 15-mile radius arc from the Washington VOR. That area north of Andrews AFB bounded on the southeast by the Andrews VORTAC 060° radial, on the south by a 10-mile radius arc from the Andrews VORTAC, and on the west by a line extending 2 miles west of and parallel to the Andrews VORTAC 360° radial, and on the northeast by a 15-mile radius arc from the Andrews VORTAC.

4. Area D. That airspace extending upward from 4,000 feet MSL south of Washington bounded on the north by Area C, on the east by a line 3 miles east of and parallel to the Andrews VORTAC 180° radial, on the south by a 20-mile radius arc from the Andrews VORTAC and a 20-mile radius arc from the Washington VOR, and on the west by the Washington VOR 203° radial. That area northwest of Washington bounded on the east by the Washington VOR 351° radial, on the southeast by a 15-mile radius arc from the Washington VOR, on the southwest by the Herndon VORTAC 126° radial, and on the northwest by a 20-mile radius arc from Washington VOR. That area north of Andrews AFB bounded on the southeast by the Andrews VORTAC 060° radial, on the southwest by a 15-mile radius arc from Andrews VORTAC, on the west by a line 2 miles west of and parallel to the Andrews VORTAC 360° radial, and on the northeast by a 20-mile radius arc from the Washington VOR and a 20-mile radius arc from the Andrews VORTAC.

5. Area E. That airspace extending upward from 5,000 feet MSL southeast of Andrews AFB bounded on the southeast by a 20-mile radius arc from the Andrews VORTAC, on the west by a line 3 miles E of and parallel to the Andrews VORTAC 180° radial, and a 7-mile radius arc from the Andrews VORTAC, and on the northwest by the Andrews VORTAC 060° radial. That area southwest of Washington bounded on the southeast by the Washington VOR 203° radial, on the southwest by a 20-mile radius arc from the Washington VOR, on the northeast by the Herndon VORTAC 126° radial and a 7-mile radius arc from the Washington VOR. That area north of Washington bounded on the east by a line 2 miles west of and parallel to the Andrews VORTAC 360° radial and the Washington VOR 043° radial, on the south by a 5-mile radius arc from the Washington VOR, on the west by the Washington VOR 351° radial, and on the north by a 20-mile radius arc from the Washington VOR.

DESCRIPTIONS OF DESIGNATED PROHIBITED AREAS
73.87 P-56, District of Columbia.

Subpart A -- General

§ 73.1 Applicability.

The airspace that is described in Subpart B and Subpart C of this part is designated as special use airspace. These parts prescribe the requirements for the use of that airspace.

§ 73.3 Special use airspace.

(a) Special use airspace consists of airspace of defined dimensions identified by an area on the surface of the earth wherein activities must be confined because of their nature, or wherein limitations are imposed upon aircraft operations that are not a part of those activities, or both.
(b) The vertical limits of special use airspace are measured by designated altitude floors and ceilings expressed as flight levels or as feet above mean sea level.
(c) The horizontal limits of special use airspace are measured by boundaries described by geographic coordinates or other appropriate references that clearly define their perimeter.
(d) The period of time during which a designation of special use airspace is in effect is stated in the designation.

§ 73.5 Bearings; radials; miles.

(a) All bearings and radials in this part are true from point of origin.
(b) Unless otherwise specified, all mileages in this part are stated as statute miles.

Subpart B -- Restricted Areas

§ 73.11 Applicability.

This subpart designates restricted areas and prescribes limitations on the operation of aircraft within them.

§ 73.13 Restrictions.

No person may operate an aircraft within a restricted area between the designated altitudes and during the time of designation, unless he has the advance permission of
(a) The using agency described in § 73.15; or
(b) The controlling agency described in § 73.17.

§ 73.15 Using agency.

(a) For the purposes of this subpart, the following are using agencies:
(1) The agency, organization, or military command whose activity within a restricted area necessitated the area being so designated.
(2) In the case of a Restricted Area/Military Climb Corridor that does not have a designated controlling agency, the Military Air Traffic Control facility that may be contacted for permission for transit through the climb corridor.
(b) Upon the request of the FAA, the using agency shall execute a letter establishing procedures for joint use of a restricted area by the using agency and the controlling agency, under which the using agency would notify the controlling agency whenever the controlling agency may grant permission for transit through the restricted area in accordance with the terms of the letter.
(c) The using agency shall --
(1) Schedule activities within the restricted area;
(2) Authorize transit through, or flight within, the restricted area as feasible; and
(3) Contain within the restricted area all activities conducted therein in accordance with the purpose for which it was designated.

§ 73.17 Controlling agency.

For the purposes of this part, the controlling agency is the FAA facility that may authorize transit through or flight within a restricted area in accordance with a joint-use letter issued under § 73.15.

§ 73.19 Reports by using agency.

(a) Each suing agency shall report once a year, in duplicate, to the Director, Air Traffic Service, Federal Aviation Agency, Washington 25, D. C., on each restricted area for which it is the using agency. The report must reach the Director not later than January 31 and shall cover the 12-month period ending with the preceding September 30.

(b) In its report under this section the using agency shall --

(1) State the name and number of the restricted area as published in this part;

(2) State the period covered by the report;

(3) List in detail the activities carried on in the area by all organizations using it for the restricted area purposes;

(4) State the time that daily operations are normally scheduled to begin and end;

(5) State the average number of hours the area is actually used each day, and in addition, for a restricted area used for aircraft operations the total number of aircraft hours of actual use during the reporting period;

(6) State the number of days each week, weeks each month, and months each year (as appropriate) that the area is used for actual operations;

(7) State whether or not radar is used during operations;

(8) State the number and type of aircraft, if any, normally involved in the activities for which the area was restricted;

(9) List the altitudes used in daily operations of aircraft, including for each activity the altitudes used and the number of hours at each of those altitudes;

(10) Include a chart of the area (of optional scale and design) showing --

(i) The approximate location, and the representative pattern (if any), for firing runs (if any), for bombing runs (if any), the place where runs begin, where firing (if any), begins and ends, and the release point pullup point; and

(ii) The location of impact areas, if any;

(11) State the maximum ordinate of surface firing (expressed in feet, mean sea level altitude) used for required operations;

(12) State the daily number of hours or nimutes, or both, that the maximum ordinate altitudes are normally used in surface to surface firing operations;

(13) List the altitudes normally used for daily surface to surface firing operations;

(14) Include a chart of the area (of optional scale and design) showing --

(i) The location of firing points and impact areas, if any; and

(ii) The perimeter of the firing fan for each weapon used, if any; and

(15) Include a brief statement of any other pertinent facts concerning the current use of the restricted area and requirements for future use of the area or part of it.

(c) This section does not apply to restricted areas established for climb corridors.

Subpart C -- Prohibited Areas

§ 73.81 Applicability.

This subpart designates prohibited areas and prescribes limitations on the operation of aircraft therein.

§ 73.83 Restrictions.

No person may operate an aircraft within a prohibited area unless authorization has been granted by the using agency.

§ 73.85 Using agency.

For the purpose of this subpart, the using agency is the agency, organization or military command that established the requirements for the prohibited area.

Note: Sections 73.87 through 73.99 are reserved for descriptions of designated prohibited areas.

PART 75-ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

SUBPART A -- GENERAL

Sec.
75.1 Applicability.
75.11 Jet routes
75.13 Area high routes; control area designation.
75.15 Jet advisory areas
75.17 Bearings; Radials; Miles

SUBPART B -- JET ROUTES

Sec.
75.100 Jet routes

SUBPART C -- JET ADVISORY AREAS

Sec.
75.200 En route jet advisory areas
75.300 Terminal jet advisory areas

SUBPART D -- AREA HIGH ROUTES

75.400 Area high routes.

SUBPART A -- GENERAL

§75.1 Applicability.

The routes described in Subpart B, between high altitude navigational aids or intersections of their signals, are designated as jet routes along which aircraft may be operated between 18,000 feet MSL and flight level 450. The areas described in Subpart C are designated as jet advisory areas along specified jet route segments, VOR/VORTAC radials, bearings from L/MF navigational facilities, direct courses between high altitude navigational facilities, centerlines of control areas, or in the vicinity of specific geographic locations. The routes described in Subpart D of this Part are designated as area high routes.

§75.11 Jet Routes

Each jet route designated in Subpart B consists of a direct course for navigating aircraft between 18,000 feet MSL and flight level 450, inclusive, between the navigational aids and intersections specified for that route.

§75.13 Area high routes; control area designation.

(a) Each area high route designated in Subpart D of this Part consists of a direct course for navigating aircraft at altitudes between 18,000 feet MSL and flight level 450, inclusive, between the waypoints specified for that route.

(b) Unless otherwise specified, that airspace, on each side of an area high route, that has a lateral extent specified in §71.6 and that extends outside the continental control areas, is designated as a control area.

§75.15 Jet Advisory Areas

(a) Jet advisory areas consist of airspace within the continental control area, as designated in Subpart C.

(b) En route radar jet advisory areas consist of areas within which jet advisory service is provided with radar surveillance. Unless otherwise designated, each of them includes the area within 14 miles on each side of the jet route segment from flight level 240 through flight level 410, inclusive.

(c) Terminal radar jet advisory areas consist of areas in which jet advisory service is provided with radar surveillance. Unless otherwise designated, each of them includes the area within 14 miles on each side of the VOR/VORTAC radials, bearings from L/MF navigational facilities, direct courses between navigational facilities, or centerlines of control areas from flight level 240 through flight level 410, inclusive.

(d) Nonradar jet advisory areas consist of areas within which jet advisory service is provided on a procedural basis without radar surveillance. Unless otherwise designated, each of them includes the area within 14 miles on each side of the jet route segment from flight level 270 through flight level 310, inclusive, and from flight level 370 through flight level 410, inclusive.

(e) Jet advisory areas do not include the airspace within positive control areas, prohibited areas, or restricted areas except restricted area military climb corridors and those restricted areas specified in Subpart D of Part 71.

(f) En route jet advisory areas are based on jet routes and are identified by the associated jet route number. Terminal jet advisory areas are based on VOR/VORTAC radials, bearings from L/MF navigational facilities, direct courses between navigational facilities, or centerlines of control areas and those in the vicinity of geographical locations, and are identified by geographical names.

§75.17 Bearings; Radials; Miles

(a) All bearings and radials in this Part are true and are applied from point of origin.

(b) Unless otherwise specified, all mileages in this Part are stated as nautical miles.

SUBPART B -- JET ROUTES

§75.100 Jet Routes.

SUBPART C -- JET ADVISORY AREAS

§ 75.200 En route Jet Advisory Areas.

§ 75.300 Terminal Jet Advisory Areas.

SUBPART D -- AREA HIGH ROUTES
