(Part II begins on page 425)

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

ECONOMIC STABILIZATION —Price Comm. regulation on rate increases by insurers; effective 1-11-72	425
NONIMMIGRANT STUDENTS —Justice Dept. amendment on admission and school transfers; effective 1-15-72	328
FOOD ADDITIVES —FDA approval of sodium polyacrylate-acrylamide resin for use in certain sugar products; effective 1-11-72	329
ANTIBIOTICS — FDA confirmation of repeal of certification of combination drugs containing erythromycin and triple sulfonamides	330
FDA proposed statement of policy on potency of drugs at certification	336
OCCUPATIONAL SAFETY AND HEALTH —Labor Dept. standards for exposure to asbestos dust for maritime industry; effective 1-11-72	332
PESTICIDES — EPA establishment of tolerances for residues of certain insecticides (3 documents) and a herbicide (1 document)	332, 333, 334
EPA proposed tolerance for residues of the herbicide linuron; comments within 30 days	337
EPA notices of filing of petitions (2 documents)	411

30-year Reference Volumes

Consolidated Indexes and Tables

Presidential Proclamations and Executive Orders

Consolidated subject indexes and tabular finding aids to Presidential proclamations, Executive orders, and certain other Presidential documents promulgated during a 30-year period (1936-1965) are now available in two separately bound volumes, published under Title 3 of the Code of Federal Regulations, priced as follows:

Title 3, 1936-1965 Consolidated Indexes.....	\$3.50
Title 3, 1936-1965 Consolidated Tables.....	\$5.25

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office
Washington, D.C. 20402

(49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$2.50 per month or \$25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

SMALL BUSINESS—GSA determination allocating certain construction to smaller concerns; effective 1-3-72	334	NEW ANIMAL DRUGS—FDA notices of withdrawal of approval (3 documents)	409
STUDENT LOANS—HEW authorization for special allowance payment to lenders	335	TIRE CODES—DoT listings of code numbers for manufacturers of new and retreaded tires	342
CREDIT UNIONS—Nat'l Credit Union Admin. proposed incorporation by reference of agency publications; comments by 2-15-72	339	INCOME TAX—IRS extensions of comments date to 2-15-72 and 3-15-72 on certain proposals (2 documents)	336

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

PART 932—OLIVES GROWN IN CALIFORNIA

Increase in Assessment Rate for 1971-72 Fiscal Year

On December 23, 1971, notice of rule making was published in the FEDERAL REGISTER (36 F.R. 24820) regarding a proposed increase in the rate of assessment previously approved for the fiscal year ending August 31, 1972, pursuant to the marketing agreement, as amended, and Order No. 932, as amended (7 CFR Part 932; 36 F.R. 20355), regulating the handling of olives grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The notice afforded interested persons an opportunity to submit written data, views, or arguments in connection with the proposal. None were submitted within the prescribed time.

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Olive Administrative Committee (established pursuant to said amended marketing agreement and order): *It is hereby ordered*, That the provisions of paragraph (b) of § 932.208 *Expenses, rate of assessment, and carryover of unexpended funds* (36 F.R. 22223) be amended to read as follows:

§ 932.208 Expenses, rate of assessment, and carryover of unexpended funds.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each first handler in accordance with § 932.39, is fixed at \$13 per ton of olives.

It is hereby found that it is impracticable and contrary to the public interest to postpone the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) 1971-72 olive production is considerably less than committee's pre-season estimates, (2) the increased rate of assessment is necessary to maintain the approved level and duration of current production research and marketing research and development projects, (3) it is essential that the assessment rate specified herein be authorized immediately so that said committee can effect the timely performance of its duties and functions, within the fiscal year, in accordance with said amended marketing agreement and order, and (4) the relevant provisions of said marketing agreement and this part require that the amended rate of assessment herein fixed shall be applicable to all assessable olives handled during the 1971-72 fiscal year which began on September 1, 1971.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: January 6, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Chapter X—Consumer and Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Docket No. AO-336-A7; Milk Order 107]

PART 1007—MILK IN GEORGIA MARKETING AREA

Order Amending Order

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Georgia marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulating the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) or more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended;

(3) The issuance of the order, exclusive of the Class I base plan of payment to producers, is approved or favored by at least two-thirds of the producers who participated in a referendum and who during the determined representative period were engaged in the production of milk for sale in the marketing area; and

(4) The issuance of the Class I base plan of payment to producers, which is included in this order, is approved or favored by at least two-thirds of the producers who participated in a separate referendum in which each individual

producer had one vote and who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Georgia marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. In § 1007.10 the introductory text is revised and a new paragraph (c) is added to read as follows:

§ 1007.10 Pool plant.

"Pool plant" means a plant specified in paragraph (a), (b), or (c) of this section that is not an other order plant, a producer handler plant, or an exempt distributing plant.

(c) For the purpose of qualifying a supply plant under paragraph (b) of this section, a cooperative association supplying pool distributing plants during the month at least two-thirds of the producer milk of its members (including both milk delivered directly from their farms and that transferred from the supply plant(s) of the cooperative) may count (irrespective of other requirements of § 1007.13(d)) as shipments from the plant to pool distributing plants the milk delivered to pool distributing plants under § 1007.13(d); in the event the cooperative operates more than one supply plant, all such deliveries shall be assigned, for this purpose, to the supply plant nearest Atlanta, Ga.

2. In § 1007.14, a new paragraph (e) is added to read as follows:

§ 1007.14 Producer-handler.

(e) If such person had been a producer to whom a Class I base had been assigned pursuant to § 1007.114, has forfeited such Class I base in accordance with the requirement of § 1007.116(c).

§§ 1007.22, 1007.23 [Revoked]

2a. Revoke §§ 1007.22 and 1007.23.

3. Revise § 1007.61a to read as follows:

§ 1007.61a Computation of uniform prices for base milk and excess milk.

The market administrator shall compute uniform prices for base milk and excess milk each month as follows:

(a) Determine the aggregate amount of producer milk in each class included in the computation pursuant to § 1007.61 and the hundredweight of such milk that is base milk and that is excess milk;

(b) Determine the value of the total hundredweight of milk of producers specified in § 1007.114 (c) and (d) to whom no base milk has been assigned by multiplying such volume by the Class II price;

(c) Determine the total value of excess milk by assigning such milk in series

beginning with Class II to the hundredweight of milk in each class as determined pursuant to paragraph (a) of this section, multiplying the quantities so assigned by the respective class prices and adding together the resulting amounts;

(d) Divide the total value of excess milk in paragraph (c) of this section by the total hundredweight of such milk. The quotient, rounded to the nearest cent, shall be the uniform price for excess milk;

(e) Multiply the total hundredweight of excess milk by the uniform price for excess milk computed pursuant to paragraph (c) of this section;

(f) Multiply the hundredweight of milk specified in § 1007.61(e)(2) by the uniform price for the month;

(g) Subtract the total values arrived at in paragraphs (b), (e), and (f) of this section from the amount resulting from the computations pursuant to paragraphs (a) through (e) of § 1007.61; and

(h) Divide the amount obtained in paragraph (g) of this section by the total hundredweight of base milk determined in paragraph (a) of this section and subtract not less than 4 nor more than 5 cents per hundredweight. The resulting figure rounded to the nearest cent, shall be the uniform price for base milk.

4. In § 1007.70 paragraph (a)(2) is revised and a new paragraph (a)(3) is added to read as follows:

§ 1007.70 Time and method of payment.

(a) * * *

(2) On or before the 15th day of each month at not less than the applicable uniform prices for the quantities of base milk and excess milk received adjusted by the butterfat differential computed pursuant to § 1007.71, and in the case of base milk by the location differential computed pursuant to § 1007.72, subject to the following:

(i) Less payments made pursuant to subparagraph (1) of this paragraph;

(ii) Less proper deductions authorized by such producer; and

(iii) If by such date such handler has not received full payment from the market administrator pursuant to § 1007.75 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payment to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after receipt of the balance due from the market administrator; and

(3) On or before the 15th day of the month at not less than the Class II price adjusted by the butterfat differential computed pursuant to § 1007.71 for the quantity of milk received from producers described in § 1007.114 (c) and (d) for whom no base milk has been computed.

5. The centerhead immediately preceding § 1007.110 and §§ 1007.110, 1007.111, and 1007.112 are revoked and a new centerhead and new §§ 1007.110 through 1007.117 are substituted therefor.

CLASS I BASE PLAN

§ 1007.110 Definition of terms relating to the Class I base plan.

For purposes of determination and assignment of the Class I base of each producer the following terms are defined:

(a) "Production history" means the average daily marketings of a producer during the production history period used for the determination of bases or the future updating of bases.

(b) "Production history base" means a quantity of milk in pounds per day as computed pursuant to § 1007.111.

(c) "Production history period" means the days or months to be used for the computation of the production history base of a producer.

(d) "Average daily producer milk deliveries" of any producer in any specified period used for computing a production history base means the total pounds of producer milk delivered by the producer divided by the number of days' production represented by such deliveries: *Provided*, That for any September-January period, the divisor shall be the actual days of production, or 145 whichever is greater.

(e) "Class I base" means a quantity of milk in pounds per day computed pursuant to § 1007.114 for which a producer may receive the base milk price.

(f) "Base milk" means:

(1) Milk received from a producer which is not in excess of his Class I base multiplied by the number of days of production of producer milk delivered during the month; and

(2) Milk received from a producer to whom no Class I base has been issued in the amount determined for such producer pursuant to § 1007.114 (c) and (d).

(g) "Excess milk" means milk received in excess of base milk from a producer who is delivering base milk during such month.

§ 1007.111 Computation of production history base.

A "production history base" shall be determined by the market administrator for each producer eligible for such base on the effective date of this provision and on March 1 of each year thereafter. The computation of production history base shall be subject to adjustments due to acquisition or disposition by transfer of Class I base or other modifications of Class I base due to hardship or loss of Class I base because of underdelivery of base. For purposes of computation of his production history base, a producer shall be considered as having been on the market during any specified period if: As a producer he delivered milk of his own production during the designated period without interruption sufficient to cause forfeiture of base pursuant to § 1007.116(a); and during such period (after the effective date of this provision) did not dispose of all his Class I base by transfer. The production history base for each producer on the effective date of this provision shall be determined by the market administrator as follows:

(a) The market administrator shall determine a production history base for each producer who delivered at least 100 days' production during the immediately preceding period of September-January by computing his average daily producer milk deliveries as defined in § 1007.110 (d) during such period.

(b) For producers who delivered milk on less than 100 days during the immediately preceding period of September-January, but at least 90 days prior to March 1, the market administrator shall determine a production history base by multiplying such producer's average daily producer milk deliveries during the months in which milk was delivered prior to March 1, by .80 and adjusting by a ratio obtained by dividing the average daily deliveries per producer during the most recent September-January period by the average daily producer milk deliveries during the same months used for such producer.

(c) Producers who have delivered milk for less than 90 days prior to March 1 shall have no initial production history base but shall be assigned a history of production in accordance with the provisions applicable for new producers.

(d) For each producer not subject to § 1007.114(d) who became a producer for this market subsequent to September 1, 1971, because the plant to which he regularly delivered milk became a fully regulated plant pursuant to this order, a production history base shall be determined, if possible pursuant to paragraph (a) or (b) of this section based on his deliveries of milk as if the non-pool plant to which he delivered had been a pool plant during the representative period.

(e) A producer not described pursuant to paragraph (d) of this section who delivered milk to a nonpool plant(s) prior to becoming a producer and who is not subject to the provisions of § 1007.114(c), shall have a production history base effective on the first day of the second month following the month in which he began deliveries of producer milk to a pool plant if a production history base can be computed pursuant to paragraph (a) or (b) of this section based on deliveries of milk from the same farm on which he is now a producer as if the plant(s) to which he delivered had been a pool plant(s) during the preceding 12 months.

(f) For a producer who held producer-handler status at any time subsequent to September 1, 1971, a production history base shall be calculated as prescribed in paragraph (a) of this section as if the milk of his own production received at his producer-handler plant had been received at a pool plant.

(g) With respect to the computation of production history base pursuant to this section, the following rules shall apply:

(1) If a producer operated more than one farm at the same time, a separate computation shall be made with respect to the average daily producer milk deliveries from each farm except that only one computation shall be made with respect

to milk production resources and facilities of a producer-handler.

(2) Only one production history base shall be allowed with respect to milk produced by one or more persons where the land, buildings, and equipment are jointly used, owned or operated.

§ 1007.112 Updating of production history bases.

The production history base for each producer who has neither disposed of his entire base by transfer nor forfeited his base pursuant to § 1007.116(a) or after having disposed of his entire base by transfer or forfeiture, has met the delivery requirements prescribed in § 1007.113 shall be determined by the market administrator on March 1 of each year as follows:

(a) Effective March 1, 1973, the market administrator shall update the production history base for each producer as follows:

(1) Subject to the provisions of subdivisions (i) and (ii) of this subparagraph for a producer who is assigned an initial history of production pursuant to § 1007.111 (a) or (b) on the effective date of this order, add the average daily milk deliveries of such producer during the period September 1972 through January 1973 to the production history bases computed for such producer on the effective date of this order and divide the result by 2. (i) If during the immediately preceding September through January period a producer delivered not less than his daily Class I base multiplied by the number of days in such period, then his production history base shall not be reduced. (ii) If during the immediately preceding period of September through January the producer's average daily producer milk deliveries were less than his daily Class I base then such producer's production history base shall be reduced in an amount proportionate to the amount that his daily Class I base exceeds his average daily deliveries during the immediately preceding September through January period but in no event, shall such producer's production history base be reduced by more than 25 percent.

(2) For producers who had not previously been assigned a production history base, a history of production shall be determined by calculating such producer's average daily producer milk deliveries during the period September 1972 through January 1973 and multiplying the result by 0.80.

(b) Effective March 1, 1974, the market administrator shall update the production history base for each producer as follows:

(1) Subject to the provisions of subdivisions (i) and (ii) of this subparagraph for a producer who had a production history base for the 2 most recent years, determine the average daily producer milk deliveries during the immediately preceding period September through January. Add the resulting amount to the production history base determined for each of the 2 most recent years and divide the result by 3: (i) If during the immediately preceding Sep-

tember through January period a producer delivered not less than his daily Class I base multiplied by the number of days in such period, then his production history base shall not be reduced: (ii) If during the immediately preceding period of September through January the producer's average daily producer milk deliveries were less than his daily Class I base then such producer's production history base shall be reduced in an amount proportionate to the amount that his daily Class I base exceeds his daily deliveries during the immediately preceding September through January period, but in no event shall such producer's production history base be reduced by more than 25 percent.

(2) Subject to the provisions of subdivisions (i) and (ii) of this subparagraph for a producer who had a production history base for 1 year, the market administrator shall determine his average daily producer milk deliveries during the immediately preceding period of September through January and add such amount to the producer's previous production history base and divide the result by 2: (i) If during the immediately preceding period of September through January a producer delivered not less than his daily Class I base multiplied by the number of days in such period, then his production history base shall not be reduced: (ii) If during the immediately preceding period of September through January the producer's average daily producer milk deliveries were less than his daily Class I base, then such producer's production history base shall be reduced in an amount proportionate to the amount that his daily Class I base exceeds his average daily deliveries during the immediately preceding September through January period, but in no event shall such producer's production history base be reduced by more than 25 percent.

(3) For producers who have not previously been assigned a production history base, the market administrator shall assign a production history equal to such producer's average daily producer milk deliveries during the immediately preceding period of September through January and multiply the result by 0.80; and

(c) Effective March 1, 1975, and on March 1 of each year thereafter the market administrator shall update the history of production for each producer as follows:

(1) Subject to the provisions of subdivisions (i) and (ii) of this subparagraph for producers who have a production history base covering 3 or more years, the market administrator shall compute the average daily producer milk deliveries for such producer during the immediately preceding period of September through January and shall add such figure to the average daily producer milk deliveries of the preceding two years and divide the result by 3. (i) If during the immediately preceding September through January period a producer delivered not less than his daily Class I base multiplied by the number of days in such period, then his production

history base shall not be reduced. (ii) If during the immediately preceding September through January period the producer's average daily producer milk deliveries were less than his daily Class I base then such producer's production history base shall be reduced in an amount proportionate to the amount that his daily Class I base exceeds his average daily deliveries during the immediately preceding September through January period, but in no event shall such producer's production history base be reduced by more than 25 percent.

(2) Subject to the provisions of subdivisions (i) and (ii) of this subparagraph for a producer who had a production history base for the two most recent periods, determine the average producer milk deliveries during the immediately preceding period September through January. Add the resulting amount to the production history base determined for each of the two most recent periods and divide the result by 3. (i) If during the immediately preceding September through January period a producer delivered not less than his daily Class I base multiplied by the number of days in such period, then his production history base shall not be reduced. (ii) If during the immediately preceding period of September through January the producer's average daily producer milk deliveries were less than his daily Class I base then such producer's production history base shall be reduced in an amount proportionate to the amount that his daily Class I base exceeds his daily deliveries during the immediately preceding September through January period, but in no event shall such producer's production history base be reduced by more than 25 percent.

(3) Subject to the provisions of subdivisions (i) and (ii) of this subparagraph for a producer who had a production history base for 1 year, the market administrator shall determine his average daily producer milk deliveries during the immediately preceding period of September through January and add such amount to the producer's previous production history base and divide the result by 2. (i) If during the immediately preceding period of September through January a producer delivered not less than his daily Class I base multiplied by the number of days in such period, then his production history base shall not be reduced. (ii) If during the immediately preceding period of September through January the producer's average daily producer milk deliveries were less than his daily Class I base then such producer's production history base shall be reduced in an amount proportionate to the amount that his daily Class I base exceeds his average daily deliveries during the immediately preceding September through January period, but in no event shall such producer's production history base be reduced by more than 25 percent.

(4) For producers who have not previously been assigned a production history base, the market administrator shall assign a production history equal to such

producer's average daily producer milk deliveries during the immediately preceding period of September through January and multiply the result by 0.80; and

(5) On March 1 of each year of which this plan is in effect, the market administrator shall determine a production history base for producers who delivered milk for less than 100 days in the immediately preceding period of September through January but who delivered milk for at least 90 days prior to March 1 by determining such producers average daily producer milk deliveries during the first 3 months in which the producer delivered milk to the market, multiplying the result by 0.80 and adjusting by a ratio obtained by dividing the average daily deliveries per producer during the most recent September-January period by the average daily deliveries per producer during the same months used for such producer.

§ 1007.113 New producers.

The market administrator shall determine a history of production for each producer for whom a production history base was not determined pursuant to § 1007.111 as follows:

(a) Any producer who during the immediately preceding September through January period delivered his milk to a nonpool plant which became a pool plant shall be assigned a history of production on the same basis as other producers under the order as though the deliveries to the nonpool plant had been deliveries to a pool plant.

(b) Effective on the first day of the second month following the month in which he began deliveries of producer milk to a pool plant a producer who delivered milk to a nonpool plant prior to becoming a producer as defined in this order shall be assigned a production history base on the same basis as if he had been a producer under the order and his deliveries to the nonpool plant had been deliveries to a pool plant provided that in no event shall the production history base exceed the amount of milk actually delivered by such producer under this order.

(c) A producer who delivered no milk to a nonpool plant or who delivered milk to a pool plant for less than 90 days prior to March 1 of any year and who has not acquired a history of production by transfer shall be assigned Class I base milk pursuant to the provisions of § 1007.114(c).

§ 1007.114 Computation of Class I base or base milk for each producer.

On the effective date of this provision and on March 1 of each subsequent year the market administrator shall assign a Class I base to each producer who has a production history base. Class I bases shall be assigned to producers described in § 1007.113 when they are issued production history bases. Class I bases shall be computed as follows:

(a) Compute a "Class I base percentage" as follows:

(1) Determine the sum of Class I dispositions during the preceding period of September through January:

(i) Class I producer milk pursuant to § 1007.45(c),

(ii) The Class I disposition of plants during the period when they were non-pool plants, if such plants were pool plants in the preceding January, and

(iii) The Class I disposition of his own production of a person who was a producer-handler during a portion of the year and who held producer status in the preceding January.

Multiply the sum by 1.15 and divide the result by 153:

(2) Divide the quantity computed pursuant to subparagraph (1) of this paragraph by a quantity which is the total of production history bases computed pursuant to § 1007.111 or § 1007.112, whichever is applicable. The result shall be converted to a percentage by multiplying by 100 and rounding to the third decimal place. Such percentage shall be known as the "Class I base percentage."

(b) The Class I base of each producer with a production history base shall be determined by multiplying his production history base by the "Class I base percentage." For each of the months of June, July, and August the Class I base so computed shall be reduced by the percentage that the average daily pounds of producer milk classified as Class I in June, July, and August of the preceding year were less than the average daily pounds of producer milk classified as Class I in the preceding months of September through May.

(c) A producer, other than a producer pursuant to paragraph (d) of this section, who has no production history base shall be assigned base milk each month until the first March 1 on which he is eligible for a Class I base in an amount equal to 50 percent of his average daily deliveries of producer milk in such month multiplied by the number of days' production delivered by such producer during the month (1) effective with his first delivery of producer milk if he begins deliveries in the months of September through January, and (2) effective on the first day of the second month following the month in which he began delivery if he begins deliveries in the months of February through August. For each of the months of June, July, and August the base milk so computed shall be reduced by the percentage that the average daily pounds of producer milk classified as Class I in June, July, and August of the preceding year were less than the average daily pounds of producer milk classified as Class I in the immediately preceding months of September through May.

(d) (1) A producer who, after having forfeited or disposed of all of his Class I base, either continues as a producer on the market or discontinues deliveries to the market and returns to the market as a producer, shall be assigned base milk equal to 50 percent of his average daily deliveries of producer milk in such month multiplied by the number of days'

production delivered by such producer during the month, such assignment to be effective on the later of the following dates: the first day of the third month following the month in which he recommences deliveries of producer milk on the market, or the first day of the twelfth month following the month in which a producer who forfeits his base ceases deliveries or a producer disposes of his Class I base. For each of the months of June, July, and August the base milk so computed shall be reduced by the percentage that the average daily pounds of producer milk classified as Class I in June, July, and August of the preceding year were less than the average daily pounds of producer milk classified as Class I in the immediately preceding months of September through May. The production history period of such producer shall begin on the later of the following dates: The date on which he first received payment for base milk or the first day of the first month eligible for use in a production history period pursuant to § 1007.113.

(2) In the application of this provision, use of the same production facilities by another person (or the same person under a different name) to produce milk after the above described forfeiture or transfer of base shall be considered as a continuation of the operation by the previous operator if the new operator is a member of the immediate family of the previous operator. It shall be applied also to any production facility to which a Class I base has not been assigned, wherever located, operated by a person in which the producer who forfeited or transferred his base has a financial interest if such facility commences production on or after the effective date of the transfer or forfeiture, or such producer acquired his financial interest in such person later than 3 months prior to the effective date of the base transfer or forfeiture.

§ 1007.115 Transfer of bases.

Production history and Class I base may be transferred pursuant to the following rules and conditions:

(a) A transfer of base means the transfer of both the production history base and the Class I base associated with it at the time of transfer. The percentage of Class I base transferred shall be applied to the total production history base held at the time of transfer to determine the corresponding amount of production history transferred.

(b) The market administrator must be notified in writing by the holder of Class I base of the name of the person to whom the Class I base is to be transferred, the effective date of the transfer, and the amount of base to be transferred. Application for transfer must be made to the market administrator on forms approved by the market administrator and signed by the base holder(s), his heirs, executor, or trustee and by the person to whom such base is to be transferred.

(c) A transfer of an entire base may be made effective on any day of the month if application for such transfer is

filed with the market administrator within 5 days thereafter. Otherwise, such transfer shall be effective on the first day of the month following that in which application is made.

(d) A transfer of a portion of a base shall be effective the first day of the month following that in which application for which such transfer is made to the market administrator, except that a portion of a base may be transferred to be effective on March 1 of any year if application for such transfer is filed with the market administrator no later than March 15.

(e) A producer who has received base by transfer on or after March 1 of any year may not transfer any portion of the base for 3 full months following the effective date of such transfer.

(f) A producer who has transferred base on or after March 1 of any year may not receive additional base by transfer for 3 full months from the effective date of such transfer.

(g) A base which is jointly held or in a partnership may be transferred in part or in its entirety only upon application signed by each joint holder or partner, his heirs, executors, or trustee and by the person to whom such base is to be transferred.

(h) A base which has been established by two or more persons operating a dairy farm jointly or as a partnership may be divided among the joint holders or partners if written notification of the agreed division of base signed by each joint holder or partner, his heirs, executor, or trustee, is received by the market administrator prior to the first day of the month on which such division is to be effective.

(i) It must be established to the satisfaction of the market administrator that the conveyance of such base is bona fide and not for the purpose of evading any provision of this order, and comes within the remaining provisions of this section.

(j) A transfer may be made only to a producer (a person who is currently a producer on the market or who will become a producer under the terms of the order by the last day of the month of transfer).

(k) In the case of an intrafamily transfer (including transfers to an estate and from an estate to a member of the immediate family) all restrictions on transferring base applicable to the transferor producer shall also apply to the transferee.

(l) A producer who receives a base pursuant to § 1007.111 (c) or (d) may not transfer such base, other than pursuant to paragraph (k) of this section, for 1 year from the date of receipt.

(m) A producer-handler who becomes a producer and receives a base may not transfer that base for a period of 1 year from the date of receipt, except to a member of the immediate family pursuant to paragraph (k) of this section.

(n) A base which has been computed from less than a full production history period may not be transferred, except as an intrafamily transfer pursuant to paragraph (k) of this section.

(o) If a base is held by a corporation, a change in ownership of the stock which transfers control to a new person or persons other than a member of the immediate family of the person transferring such stock will require a transfer of bases and compliance with all base rules therein.

§ 1007.116 Miscellaneous base rules.

The following base rules shall be observed in the determination of bases:

(a) A person who discontinues delivery of producer milk for a period of 90 consecutive days after a Class I base is issued to him shall forfeit his production history, together with any Class I base and production history base held pursuant to the provisions of this order, except that a person entering the military service may retain them until 1 year after being released from active military service.

(b) As soon as production history bases and Class I bases are computed by the market administrator, notice of the amount of each producer's production history base and Class I base shall be given by the market administrator to the producer, to the handler receiving such producer's milk, and to the cooperative association of which the producer is a member. Each handler, following receipt of such notice, shall promptly post in a conspicuous place in his plant a list or lists showing the Class I base of each producer whose milk is received at such plant.

(c) As a condition for designation as a producer-handler pursuant to § 1007.14, any person (including any member of the immediate family of such a person, any affiliate of such a person, or any business of which such a person is a part) who has held Class I base any time during the 12-month period prior to such designation shall forfeit the maximum amount of Class I and production history base held at any time during such 12-month period.

§ 1007.117 Hardship provisions.

Requests of producers for relief from hardship or inequity arising under the provisions of §§ 1007.111 through 1007.116 will be subject to the following:

(a) After bases are first issued under this plan and after bases are issued on each succeeding March 1, a producer may request review of the following circumstances because of alleged hardship or inequity:

(1) He was not issued a Class I base;
 (2) His production history base is not appropriate because of unusual conditions during the base-earning period such as loss of buildings, herds, or other facilities by fire, flood or storms, official quarantine, disease, pesticide residue, condemnation of milk, or military service of the producer or his son;

(3) Loss or potential loss of Class I base pursuant to § 1007.116(a);

(4) Loss or potential loss of Class I base because of underdeliveries pursuant to § 1007.112; and

(5) Inability to transfer base due to the provisions of § 1007.115 (l), (m), and (n).

(b) The producer shall file with the market administrator a request in writing for review of hardship or inequity not later than 45 days after notice pursuant to § 1007.116 with respect to requests pursuant to paragraph (a) (1) or (2) of this section, or not later than 45 days after the occurrence with respect to requests pursuant to paragraph (a) (3), (4), or (5) of this section, setting forth:

(1) Conditions that caused the alleged hardship or inequity;

(2) The extent of the relief or adjustment requested;

(3) The basis upon which the amount of adjustment requested was determined; and

(4) Reasons why the relief or adjustment should be granted.

(c) One or more Producer Base Committees shall be established and function as follows:

(1) Each Producer Base Committee shall consist of five producers appointed by the market administrator.

(2) Each committee shall review the requests for relief from hardship or inequity referred to it by the market administrator at a meeting in which the market administrator or his representative serves as recording secretary and at which the applicant may appear in person if he so requests.

(3) Recommendations with respect to each such request shall be endorsed at the meeting by at least three committee members and shall:

(i) With respect to requests pursuant to paragraph (a) (1), (3), (4), or (5) of this section, grant or adjust production history bases and average daily producer milk deliveries for prior years where it appears appropriate, delay forfeiture of Class I base, restore forfeited base or reduced average daily producer milk deliveries where appropriate, and permit transfer of base not otherwise possible under the order provisions.

(ii) With respect to requests pursuant to paragraph (a) (2) of this section, either reject the request or provide adjustment in the form of additional production history base and average daily producer milk deliveries for prior years where it appears appropriate and the effective date thereof of such adjustment. In considering such requests the loss of milk production due to the following shall not be considered a basis for hardship adjustment:

(a) Loss of milk due to mechanical failure of farm tank or other farm equipment; and

(b) Inability to obtain adequate labor to maintain milk production, except that hardship adjustment may be granted in the case of a producer or the son of a producer who entered into military service directly from employment in milk production;

(4) Recommendation of the Producer Base Committee shall:

(i) If to deny the request, be final upon notification to the producer, subject only to appeal by the producer to the Director, Dairy Division, within 45 days after such notification; or

(ii) If to grant the request in whole or in part, be transmitted to the Director, Dairy Division, and shall become final unless vetoed by such Director within 15 days after transmitted.

(5) Committee members shall be reimbursed by the market administrator from the funds collected under § 1007.77 for their services at \$30 per day or portion thereof, plus necessary travel and subsistence expenses incurred in the performance of their duties as committee members.

(d) The market administrator shall maintain files of all requests for alleviation of hardship and the disposition of such requests. These files shall be open to the inspection of any interested person during the regular office hours of the market administrator.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C.

Effective date: March 1, 1972.

Signed at Washington, D.C., on January 5, 1972.

RICHARD E. LYNG,
Assistant Secretary.

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 214—NONIMMIGRANT CLASSES Students

Reference is made to the notice of proposed rule making which was published in the FEDERAL REGISTER on November 30, 1971 (36 F.R. 22753) pursuant to section 553 of title 5 of the United States Code (80 Stat. 383) and in which there were set forth the proposed amendments to § 214.2(f) pertaining to students, their admission, and transfer to another school. Many representations concerning the proposed rule making have been received and considered. The representations were overwhelmingly in support of the proposed amendments. The proposed rules have been amended in the following respect only: In the first sentence of § 214.2(f) (2) the date has been changed from "January 1, 1972" to "January 15, 1972". The proposed rules, as modified, are hereby adopted:

1. Subparagraph (1) of paragraph (f) of § 214.2 is amended, existing subparagraphs (2), (3), and (4) are redesignated subparagraphs (5), (6), and (7), respectively and new subparagraphs (2), (3), and (4) are added to read as follows:

§ 214.2 Special requirements for admission, extension, and maintenance of status.

(f) *Students*—(1) *General*. A student seeking admission to the United States under section 101(a) (15) (F) (i) of the Act and his accompanying spouse and

minor children shall not be eligible for admission unless he presents Form I-20 properly filled out by himself and the school to which he is destined. The student's spouse and minor children following to join him shall not be eligible for admission into the United States unless they present Form I-20 from the school in which the student is enrolled stating that he is taking a full course of study and noted by the school to indicate the date of expiration of his authorized stay in the United States as shown on the student's Form I-94.

(2) *Admission*. An applicant for his first admission with a nonimmigrant student visa issued on or after January 15, 1972, shall not be eligible for admission unless he establishes that he is destined to and intends to attend the school specified in his visa. Any other applicant for admission as a nonimmigrant student shall not be eligible for admission unless he establishes that he is destined to and intends to attend the school which issued the Form I-20 presented by him to the examining immigration officer at the port of arrival or the school specified on Form I-94 presented in accordance with subparagraph (3) of this paragraph. In all cases, the name of the school a student is authorized to attend shall be endorsed by the examining immigration officer on the student's Form I-94. The period of admission of a nonimmigrant student shall not exceed 1 year.

(3) *Temporary absence*. Form I-20 presented by a student returning from a temporary absence may be retained by him and used for any number of reentries within 1 year of the date of its issuance. However, a Canadian national or an alien landed immigrant of Canada who has a common nationality with Canadian nationals who has been temporarily absent in Canada, or any alien whose visa is considered to be automatically revalidated pursuant to 22 CFR 41.125(f) (2) or is within the purview of that regulation except that his nonimmigrant visa has not expired, returning to the United States as a nonimmigrant under section 101(a) (15) (F) of the Act, shall, if otherwise admissible, be readmitted, without presentation of Form I-20, for the remainder of his initial admission or current extension of stay as shown on his Form I-94.

(4) *School transfer*. A student shall not be eligible to transfer to another school unless he submits a valid Form I-20 completed by that school and the Service grants him permission to transfer. Application for transfer shall be made on Form I-538 and shall be filed in the Service office having jurisdiction over the school which he was last authorized by the Service to attend. Permission to transfer may be granted only if the applicant establishes that he is a bona fide nonimmigrant student, that he intends to take a full course of study at the school to which he wishes to transfer, and that he in fact was a full-time student at the school which he was last authorized by the Service to attend, unless failure to

commence or continue full-time attendance was due to circumstances beyond his control or was otherwise justified. The name of the school to which transfer is authorized shall be endorsed on the student's Form I-94.

(Sec. 103; 66 Stat. 173; 8 U.S.C. 1103)

The basis and purpose of the above prescribed regulations are to ensure that a nonimmigrant student applicant for admission is destined to and intends to attend the school particularly designated by him and specified in his visa or other valid entry document, and to provide that a transfer of school may be authorized only upon a showing that he is a bona fide student and, with certain exceptions, that he was, in fact, a full-time student at the school which he was last authorized by the Service to attend.

This order shall be effective on January 15, 1972. Compliance with the provisions of section 553 of title 5 of the United States Code (80 Stat. 383) as to delayed effective date is unnecessary in this instance and would serve no useful purpose because the persons affected thereby will not require additional time to prepare for the effective date of the regulations.

Dated: January 6, 1972.

RAYMOND F. FARRELL,
Commissioner of

Immigration and Naturalization.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

[Docket No. 72-501]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, in paragraph (e) (1) relating to the State of Texas, a new subdivision (iii) relating to Wilson County is added to read:

(1) Texas. . . .

(iii) That portion of Wilson County bounded by a line beginning at the junction of the Wilson-Bexar County line

and U.S. Highway 181; thence, following the Wilson-Bexar County line in a northeasterly direction to U.S. Highway 87; thence, following U.S. Highway 87 in an easterly, then southeasterly direction to State Highway 123; thence, following State Highway 123 in a southerly direction to the Wilson-Karnes County line; thence, following the Wilson-Karnes County line in a southwesterly direction to U.S. Highway 181; thence, following U.S. Highway 181 in a generally northwesterly direction to its junction with the Wilson-Bexar County line.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481, secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f; 29 F.R. 16210, as amended; 36 F.R. 20707)

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment quarantines a portion of Wilson County, Tex., because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined portion of such county.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of hog cholera and must be made effective immediately to accomplish its purpose in the public interest. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 6th day of January 1972.

G. H. WISE,
Acting Administrator,
Animal and Plant Health Service.

Title 12—BANKS AND BANKING

Chapter VII—National Credit Union Administration

PART 700—DEFINITIONS

Revision of Certain Definitions

On page 22776 of the FEDERAL REGISTER of November 30, 1971, there was published a proposed revision of certain definitions. Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed revision.

No comments have been received and the proposed revision is hereby adopted without change as set forth below.

Effective date. This revision shall be effective as of February 1, 1972.

HERMAN NICKERSON, Jr.,
Administrator.

JANUARY 5, 1972.

§ 700.1 Definitions.

As used in this chapter:

(a) "Act" means the Federal Credit Union Act (73 Stat. 628, 84 Stat. 944, 12 U.S.C. 1751-1790).

(b) "Administration" means the National Credit Union Administration.

(c) "Administrator" means the Administrator of the National Credit Union Administration.

(d) "Credit Union" means a credit union chartered under the Federal Credit Union Act or, as the context permits, under the laws of any State.

(e) "Regional Director" means the representative of the Administration in the designated geographical area in which the office of the Federal credit union is located.

(f) "Regional Office" means the office of the Administration located in the designated geographical area in which the office of the Federal credit union is located.

(g) "State" means a State of the United States, the District of Columbia, any of the several Territories and possessions of the United States, the Panama Canal Zone, and the Commonwealth of Puerto Rico.

(h) Pursuant to section 101(4) of the Federal Credit Union Act, the term "low income members" shall include (1) those members whose annual income falls at or below the lower level Standard of Living classification as established by the Bureau of Labor Statistics, U.S. Department of Labor, (2) those members who are residents of a public housing project who qualify for such residency because of low income, and (3) members who qualify as recipients in a community action program.

(i) As used in section 101(4) of the Federal Credit Union Act, the term "predominantly" is defined as a simple majority.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

ACRYLATE-ACRYLAMIDE RESINS

The Commissioner of Food and Drugs, having evaluated data in a petition (FAP 2B2717) filed by Buckman Laboratories, Inc., Memphis, Tenn. 38108, and other relevant material, concludes that the food additive regulations should be amended to provide for the safe use of

sodium polyacrylate-acrylamide resin for control of organic and mineral scale in beet sugar juice and liquor or cane sugar juice and liquor.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.1092 is revised to read as follows:

§ 121.1092 Acrylate-acrylamide resins.

Acrylate-Acrylamide resins may be safely used in food under the following prescribed conditions:

(a) The additive consists of one of the following:

(1) Acrylamide-acrylic acid resin (hydrolyzed polyacrylamide) is produced by the polymerization of acrylamide with partial hydrolysis, or by copolymerization of acrylamide and acrylic acid, with the greater part of the polymer being composed of acrylamide units.

(2) Sodium polyacrylate-acrylamide resin is produced by the polymerization and subsequent hydrolysis of acrylonitrile in a sodium silicate-sodium hydroxide aqueous solution, with the greater part of the polymer being composed of acrylate units.

(b) The additive contains not more than 0.05 percent of residual monomer calculated as acrylamide.

(c) The additive is used or intended for use as follows:

(1) The additive identified in paragraph (a)(1) of this section is used as a flocculent in the clarification of beet sugar juice or cane sugar juice in an amount not to exceed 5 parts per million by weight of the juice.

(2) The additive identified in paragraph (a)(2) of this section is used to control organic and mineral scale in beet sugar juice and liquor or cane sugar juice and liquor in an amount not to exceed 2.5 parts per million by weight of the juice or liquor.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (1-11-72).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: December 30, 1971.

R. E. DUGGAN,
Acting Associate Commissioner
for Compliance.

SUBCHAPTER C—DRUGS

PART 148e—ERYTHROMYCIN

Erythromycin—Sulfonamide Combination Products for Oral Administration; Final Order Ruling on Objections and Requests

An order was published in the FEDERAL REGISTER of September 27, 1969 (34 F.R. 14890) (DESI 8957), to become effective in 40 days, amending Part 148e of the antibiotic drug regulations by repealing provisions for certification of combination drugs containing erythromycin and triple sulfonamides for oral administration. Thirty days were allowed for filing proper objections to the order, and a showing of reasonable grounds for a hearing.

Objections and requests for a hearing were submitted by Eli Lilly and Company and Abbott Laboratories on October 27, 1969. Eli Lilly subsequently amended its request by letter dated December 2, 1969; Abbott Laboratories amended its request on June 5, 1970, in response to the order promulgated May 8, 1970 (35 F.R. 7250), which established the procedural and interpretive rules applicable to requests for hearing. The Upjohn Co., by letter dated November 25, 1969, adopted and incorporated by reference the objections filed by Eli Lilly and Abbott. Subsequently by notice published in the FEDERAL REGISTER on November 8, 1969 (34 F.R. 8087) and January 3, 1970 (35 F.R. 77) the effective date of the order was postponed pending a rule on the objections and requests for hearing filed.

The medical presentations of both firms have been considered, and the Commissioner of Food and Drugs concludes that there is no genuine and substantial issue of fact requiring a hearing and that the legal arguments offered are insubstantial, all as explained in more detail below.

I. The drugs. The drugs involved contain erythromycin and triple sulfonamides in the following combinations:

ABBOTT LABORATORIES

Erythrocin Ethyl Succinate-Sulfas Chewable Tablets and Granules. These contain erythromycin ethylsuccinate together with sulfadiazine, sulfamerazine and sulfamethazine in a 1:1:1 ratio.

Erythrocin Stearate-Sulfas Filmtabs. This contains erythromycin stearate, with sulfadiazine, sulfamerazine and sulfamethazine in a 1:1:1 ratio.

Each product contains, per unit dose (tablet or 5 cc. teaspoon), 125 mg. erythromycin and 500 mg. triple sulfas.

ELI LILLY AND CO.

Ilosone Sulfa, for oral suspension and tablets. These contain 200 mg. erythromycin estolate, with 500 mg. triple sulfas consisting of sulfadiazine, sulfamerazine, and sulfamethazine in a 1:1:1 ratio.

Ilotycin-Sulfa Tablets, which contains 79 mg. erythromycin with 333 mg. triple sulfas as sulfadiazine, sulfamerazine, and sulfamethazine in a 1:1:1 ratio.

UPJOHN CO.

Erythrosulfa Tablets, containing erythromycin, with sulfadiazine, sulfamerazine, and sulfamethazine in a 1:1:1 ratio. Each unit dose contains 100 mg. erythromycin and 250 mg. triple sulfas.

II. Recommended uses and rationale. These products are recommended for use in mixed infections, infections more susceptible to the combination than to either component alone, and for gram-negative and/or mixed infections of the urinary tract.

The rationale for use in "mixed infections" seems to be that the components complement each other in that the erythromycin acts against gram-positive and the triple sulfas against gram-negative organisms. With respect to "infections more susceptible to the combination than to either alone," the rationale apparently is supplementation of the effect of erythromycin with the effect of triple sulfas so that concentrations that are suboptimal for either agent are effective in combination.

The recommended treatment schedules for the various products vary from 948 mg. to 1.6 grams of erythromycin per day; all products recommend a total dosage of 4 grams of triple sulfas per day.

III. The data to support claims of effectiveness—(a) Unpublished studies. In response to the notice, Abbott submitted two volumes with eight appendices containing a summary of 226 patients treated with erythromycin-sulfonamide combination drugs as compared to 346 patients treated with erythromycin alone; in vitro studies on erythromycin-sulfonamide combinations; and, blood-level data.

The in vitro data does not rise to the level of adequate and well-controlled clinical investigations and cannot be extrapolated to human experience. The blood level data contained some data respecting a proposed sulfonamide formulation in a 1:1:4 ratio; this is irrelevant to the products' sulfonamide formulation in a 1:1:1 ratio. The data which relates to the 1:1:1 preparation involved a dose twice that recommended in the package insert; no comparison is made with the blood levels produced by erythromycin alone.

The clinical data shows a total cured and improved rate of 90.51 percent for those patients treated with the combination as compared with a total cured and improved rate of 95.07 percent for the patients treated with erythromycin alone. This does not establish the superiority of the combination, but of one of the components. In addition, the data are unreliable because of a wide variability in

clinical diagnosis; a lack of post-treatment bacteriologic work with the exception of one investigator working with a 1:1:4 ratio sulfonamide product, which is irrelevant here; the data is pooled data drawn from dissimilar studies in which clinical observations were not made consistently; so many cultures showed normal flora that it is evident that many of the infections must have been viral in etiology and therefore nonresponsive to either antibacterial therapy, and there is no way of knowing the distribution of viral infections in both groups; some of the patients received rectal or intramuscular erythromycin as well as oral erythromycin. No valid conclusions can be based on such uncontrolled data.

With respect to the claim that the erythromycin-sulfa combination is effective in urinary infections with gram-negative and gram-positive mixed infections, Abbott states that a study submitted to the FDA showed a significantly greater number of sterile post-therapy cultures when the isolates in pretherapy cultures were all gram-positive or mixed, when treated with a combination rather than with sulfa alone.

Although it is not further identified, the study referred to is believed to be a composite study submitted by Abbott in a 1968 Experience Report, in which four separate investigations were conducted. A detailed protocol of this study was not submitted. Therefore, FDA does not know the doses used in the study, nor the identity of the sulfa used.

In this study, a total of 63 patients with urinary tract infections were treated with erythrocin-sulfa; 67 were treated with sulfa alone. Adverse drug reactions were higher on the combination (7.6 percent), than on sulfa alone (3 percent). By the monitor's evaluation, the cure rate for the combination (28.6 percent) was much lower than for sulfa (40 percent). Over 80 percent of the organisms cultured before therapy were gram-negative, as would be expected. 77.4 percent of the gram-negative organisms were eradicated after therapy with sulfa, but only 63.2 percent after the combination. Only 3 percent of the infections treated (2 patients in each group) were due to "mixed" gram-negative and gram-positive organisms. The statement that "a significantly greater number of sterile posttherapy cultures when the isolates in pretherapy cultures were all gram-positive or mixed, when treated with a combination rather than with sulfa alone," is unsupported in that over 80 percent of the urinary infections were neither gram-positive nor mixed, and in this large percentage (as in the group as a whole), the combination was considerably less effective than sulfa alone.

(b) *Published studies.* Lilly specifically referred to two published studies which purport to establish that antibiotic sulfonamide combination products are effective. Neither study supports the claimed superiority of erythromycin-sulfonamide products, however, The Nilson, et al. study: "Acute Otitis Media;

"Treatment Results in Relation to Bacterial Etiology," *Pediatrics* 43(3):351-358 (Mar.), 1969, compared penicillin V, penicillin V plus triple sulfa in a 1:1:1 ratio, and Ampicillin in 306 children with otitis media. The authors concluded that either penicillin plus sulfonamide or ampicillin had a better therapeutic response than penicillin V alone. This study is not relevant here.

The second study, Howie and Plousard: The "In Vivo Sensitivity Test"—"Bacteriology of Middle Ear Exudate During Antimicrobial Therapy in Otitis Media," *Pediatrics* 44:940-944 (Dec.), 1969, compared penicillin with sulfonamides, penicillin, ampicillin, erythromycin, erythromycin plus sulfonamides, triple sulfas, sulfamethoxazole or sulfadimethoxine, and tetracycline in unequal groups of children. The authors concluded ampicillin, penicillin-sulfa, and erythromycin-sulfas to be the most bacteriocidal. The authors also state that the information "was not collected in a large double blind study with multiple safeguards against the opinions of the authors influencing the results." No conclusion can be drawn from his uncontrolled study.

Abbott referred to 24 references from the published literature. All but one of the references are not entitled to consideration for various reasons, including the lack of controls, employment of different doses, different drugs: One study is relevant. Lenoski, et al.: "Drug Trials in Acute Otitis Media," *Curr. Ther. Res.* 10:630, December 1968. In this study 293 children with acute otitis media were treated on a randomized basis with either erythromycin alone, Abbott's fixed combination of erythromycin succinate-triple sulfas, triple sulfas alone, ampicillin or placebo. Ninety-four percent of those on erythromycin alone were cured; 87.5 percent on erythromycin-sulfa combined were cured. The authors concluded that addition of triple sulfonamide to erythromycin did not improve the outcome of the acute purulent cases at 14 days regardless of the dose schedule used for the combination drug. Moreover, the combination drug was associated with 2.6 percent incidence of skin rashes which were typical allergic drug reactions. In this controlled study, erythromycin alone was shown to be more effective than the fixed combination.

A published controlled study which was not referred to by either Abbott or Lilly is Hughes and Collier: "Streptococcal Pharyngitis," *Am. J. Dis. Child.* 118:700-707, 1969. In this study, children with beta-hemolytic streptococcal pharyngitis were treated with Abbott's erythromycin-sulfas or with erythromycin alone. The cure rate for erythromycin alone was 84.2 percent; for the combination, 68.5 percent.

Thus, there is a lack of substantial evidence consisting of adequate and well-controlled clinical studies that the fixed combination products consisting of erythromycin plus sulfonamides will have the result claimed for them. On the contrary, the controlled studies establish

that the fixed combination products are less effective than either the erythromycin or sulfonamide components.

IV. *Legal objections.* The legal objections raised to the proposed order have been resolved in "Upjohn Co. v. Finch," 422 F. 2d 944 (C.A. 6, 1970); "Pfizer, Inc. v. Richardson," 434 F. 2d 536 (C.A. 2, 1970); and "Pharmaceutical Manufacturers Association v. Richardson," 318 F. Supp. 301 (D. Del., 1970). The contentions that Abbott's products are not subject to the efficacy review under the statute because they were not reviewed by the NAS-NRC and because the products were approved for marketing after the 1962 Drug Amendments are insubstantial. The NAS-NRC was advisory to the Food and Drug Administration and their review of a particular product's claims is not a condition precedent to the FDA's action in reviewing claims of drug effectiveness. In addition, the NAS-NRC did evaluate the other firms' products. All the triple sulfas are identical and all in a 1:1:1 ratio; the active forms of erythromycin are identical in all three firms' products although there are variations in the formulations. The NAS-NRC concluded that there is an "absence of clinical evidence supporting the use of erythromycin-sulfonamides in the therapy of any disease." The Food and Drug Administration agrees. In this connection, the fact that Abbott's products were approved for marketing in 1966 and 1967 does not compel the conclusion that these products should remain on the market while the competitive products reviewed by NAS-NRC are removed. The NAS-NRC review of erythromycin-sulfonamide products and the controlled studies establishing the combination to be less effective than its components are "new information" within the meaning of the statute.

V. *Findings.* The Commissioner, based on the review of the medical documentation offered to support the claims of efficacy for these fixed combination erythromycin-sulfonamide products, finds that Abbott, Lilly and Upjohn have failed to present substantial evidence of effectiveness for these products. In recognition of the known hazards associated with the use of each component, e.g. hypersensitivity reactions, gastrointestinal irritation, and overgrowth of non-susceptible bacteria or fungi from erythromycin, and sensitization reactions from sulfonamides including drug fever, serum sickness, hematologic reactions including aplastic anemia, and renal damage, the regulations for certification of antibiotic drugs should be amended to delete these fixed combination erythromycin-sulfonamide products from the list of drugs acceptable for certification. The Commissioner further finds that the certificates of safety and effectiveness heretofore issued for these fixed combination erythromycin-sulfonamide products should be revoked on the basis of a lack of substantial evidence of effectiveness and an unwarranted hazard from this fixed combination antibiotic therapy.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic

Act (secs. 502, 507, 701, 52 Stat. 1050-53, as amended, 59 Stat. 463, as amended, 76 Stats. 785-787; 21 U.S.C. 352, 357, 371), and under authority delegated to the Commissioner (21 CFR 2.120), notice is given that the order of September 27, 1969 (34 F.R. 14890), to the extent that the provisions contained therein conform to those of Part 148e as republished in the FEDERAL REGISTER of December 5, 1970 (35 F.R. 18513), will become effective 30 days after the date of publication hereof in the FEDERAL REGISTER to allow time for recall of outstanding stocks of effected drugs. Certificates of safety and effectiveness previously issued for such drugs for human use under these regulations will be revoked. No new certificates will be issued.

Dated: January 3, 1972.

SAM D. FINE,
Associate Commissioner
for Compliance.

[FR Doc. 72-350 Filed 1-10-72; 8:50 am]

Title 29—LABOR

Chapter XVII—Occupational Safety and Health Administration, Department of Labor

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Standard for Exposure to Asbestos Dust in Ship Repairing, Shipbuilding, Shipbreaking, and Longshoring

Pursuant to section 6(c) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and Secretary of Labor's Order No. 12-71 (36 F.R. 8754), 29 CFR 1910.13, 1910.14, 1910.15, and 1910.16 are hereby amended as set forth below, in order to prescribe an emergency temporary standard concerning the exposure of employees to asbestos dust.

Sections 1910.13, 1910.14, 1910.15, and 1910.16 adopt, and extend the applicability of, maritime safety and health standards originally published in 29 CFR Parts 1501, 1502, 1503, and 1504, now redesignated as 29 CFR Parts 1915, 1916, 1917, and 1918 (see 36 F.R. 25232). Those standards permit the exposure of employees to concentrations of asbestos dust so high as to constitute a great danger to the employees. The immediate adoption of the emergency temporary standard set forth below, which is the same as that promulgated for industries in general on December 7, 1971 (36 F.R. 23207) is necessary to protect employees from that danger.

In addition, 29 CFR 1910.93a (36 F.R. 23208) is amended by correcting a clerical error in paragraph (g) thereof.

Part 1910 of Title 29 of the Code of

Federal Regulations is amended as follows:

1. In § 1910.13, a new paragraph (c) is added, reading as follows:

§ 1910.13 Ship repairing.

(c) The standards prescribed in § 1910.93a shall apply in the case of exposure of any employee to asbestos dust, in lieu of any different standards otherwise required by Part 1915 of this chapter (formerly Part 1501 of this title).

2. In § 1910.14, a new paragraph (c) is added, reading as follows:

§ 1910.14 Shipbuilding.

(c) The standards prescribed in § 1910.93a shall apply in the case of the exposure of any employee to asbestos dust, in lieu of any different standards otherwise required by Part 1916 of this chapter (formerly Part 1502 of this title).

3. In § 1910.15, a new paragraph (c) is added, reading as follows:

§ 1910.15 Shipbreaking.

(c) The standards prescribed in § 1910.93a shall apply in the case of exposure of any employee to asbestos dust, in lieu of any different standards otherwise required by Part 1917 of this chapter (formerly Part 1503 of this title).

4. In § 1910.16, a new paragraph (c) is added, reading as follows:

§ 1910.16 Longshoring.

(c) The standards prescribed in § 1910.93a shall apply in the case of exposure of any employee to asbestos dust, in lieu of any different standards otherwise required by Part 1918 of this chapter (formerly Part 1504 of this title).

5. In § 1910.93a (36 F.R. 23208), paragraph (g) is revised to read as follows:

§ 1910.93a Asbestos dust.

(g) All cleanup of asbestos dust shall be performed by vacuum cleaners. No dry sweeping or blowing of dust shall be performed.

(Sec. 6(c), 84 Stat. 1596; 29 U.S.C. 655. Secretary's Order No. 12-71, 36 F.R. 8754)

Effective date. These amendments shall become effective immediately upon publication in the FEDERAL REGISTER (1-11-72).

Signed at Washington, D.C., this 6th day of January 1972.

G. C. GUENTHER,
Assistant Secretary of Labor.

[FR Doc. 72-401 Filed 1-10-72; 8:49 am]

Title 40—PROTECTION OF ENVIRONMENT

Chapter I—Environmental Protection Agency

SUBCHAPTER E—PESTICIDES PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Dimethoate

A petition (PP 0F0999) was filed by the American Cyanamid Co., Agricultural Division, Post Office Box 400, Princeton, NJ 08540, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances for residues of the insecticide dimethoate (*O,O*-dimethyl-*S*-(*N*-methylcarbamoylmethyl) phosphorodithioate) including its oxygen analog (*O,O*-dimethyl-*S*-(*N*-methylcarbamoylmethyl) phosphorothioate) in or on the raw agricultural commodities cucumbers at 2 parts per million, sorghum forage at 0.5 part per million, and sorghum grain at 0.1 part per million (negligible residue).

The petitioner subsequently amended the petition by withdrawing the request for a tolerance for residues in or on cucumbers and reducing the proposed tolerance for residues in or on sorghum forage to 0.2 part per million.

Prior to December 2, 1970, the Secretary of Agriculture certified that the pesticide is useful for the purpose for which tolerances are proposed, and the Fish and Wildlife Service, Department of the Interior, stated that it has no objection to the proposed tolerances.

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424). Subsequently, Part 420, Chapter III, Title 21 was redesignated Part 180 and transferred to Subchapter E, Chapter I, Title 40 (36 F.R. 22369).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. Establishes tolerances for residues of the pesticide in eggs, meat, milk, and poultry are adequate to cover combined residues from the proposed and established uses.

2. The proposed tolerance of 0.1 part per million on sorghum grain is not a negligible residue.

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.204 is amended by revising the paragraphs

"0.02 part per million * * *" and "0.1 part per million * * *", as follows:

§ 180.204 Dimethoate including its oxy-analog; tolerances for residues.

0.2 part per million in or on potatoes and sorghum forage.

0.1 part per million in or on cottonseed, pecans, safflower seed, and sorghum grain.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (1-11-72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: December 21, 1971.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator
for Pesticides Programs.

[FR Doc.72-341 Filed 1-10-72; 8:49 am]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Carbofuran

A petition (PP 1F1146) was filed by FMC Corp., 100 Niagara Street, Middleport, NY 14105, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act as amended (21 U.S.C. 346a), proposing that the established tolerance of 0.5 part per million for residues of the insecticide carbofuran and its metabolite 2,3-dihydro-2,2-dimethyl-3-hydroxy-7-benzofuranyl N-methylcarbamate in or on the raw agricultural commodities corn fodder and forage be increased to 5 parts per million.

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424). Subsequently, Part 420, Chapter III, Title 21 was redesignated Part 180 and transferred to Subchapter E, Chapter I, Title 40 (36 F.R. 22369).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The pesticide is useful for the purpose for which the increased tolerance is being established.

2. The proposed usage is not reasonably expected to result in residues of the pesticide in meat, poultry, and eggs. The usage is classified in the category specified in § 180.6(a)(3) for these commodities. The established tolerance for residues in milk is adequate to cover residues that could occur from feeding corn fodder and forage at the increased tolerance.

3. The tolerance established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.254 is amended by deleting the paragraph "0.5 part per million * * *" and by revising the paragraph "5 parts per million * * *", as follows:

§ 180.254 Carbofuran; tolerances for residues.

5 parts per million in or on alfalfa (fresh) and corn fodder and forage.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (1-11-72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: December 21, 1971.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator
for Pesticides Programs.

[FR Doc.72-340 Filed 1-10-72; 8:49 am]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Formetanate Hydrochloride

A petition (PP 1F1141) was filed by Nor-Am Agricultural Products, Inc., 11710 Lake Avenue, Woodstock, IL 60098, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances (21 CFR Part 420) for residues of the insecticide formetanate hydrochloride (m-[(dimethylamino)methylene]amino]phenyl methylcarbamate hydrochloride) in or on the raw agricultural commodities grapefruit and tangerines at 4 parts per million.

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424). Subsequently, Part 420, Chapter III, Title 21 was redesignated Part 180 and transferred to Subchapter E, Chapter I, Title 40 (36 F.R. 22369).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The pesticide is useful for the purpose for which the tolerances are being established.

2. The proposed usage is not reasonably expected to result in residues of the pesticide in eggs, meat, milk, and poultry. The usage is classified in the category specified in § 180.6(a)(3).

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.276 is amended by revising the paragraph "4 parts per million * * *" as follows:

§ 180.276 Formetanate hydrochloride; tolerances for residues.

Four parts per million in or on grapefruit, lemons, limes, oranges, and tangerines.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must

state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (1-11-72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: December 21, 1971.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator
for Pesticides Programs.

[FR Doc.72-342 Filed 1-10-72;8:49 am]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

3-(4-Bromo-3-Chlorophenyl)-1-Methoxy-1-Methylurea

A petition (PP 0F0993) was filed by Ciba Agrochemical Co., Division of Ciba-Geigy Corp., Post Office Box 1090, Vero Beach, FL 32960, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act as amended (21 U.S.C. 346a), proposing establishment of a tolerance for negligible residues of the herbicide 3-(4-bromo-3-chlorophenyl)-1-methoxy-1-methylurea in or on the raw agricultural commodities potatoes, soybeans, and soybean forage at 0.2 part per million.

Subsequently, the petitioner amended the petition by proposing establishment of tolerances for combined negligible residues of the herbicide 3-(4-bromo-3-chlorophenyl)-1-methoxy-1-methylurea and its metabolites containing the 4-bromo-3-chloroaniline moiety in or on the raw agricultural commodities potatoes, soybeans, and soybean forage at 0.2 part per million and in meat, fat, and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep at 0.1 part per million.

Prior to December 2, 1970, the Secretary of Agriculture certified that this pesticide chemical is useful for the purpose for which tolerances are being established, and the Fish and Wildlife Service of the Department of the Interior advised that it has no objection to these tolerances.

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424). Subsequently, Part 420, Chapter III, Title 21 was redesignated Part 180 and transferred to Subchapter E, Chapter I, Title 40 (36 F.R. 22369).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The proposed usage is not reasonably expected to result in the combined residues of the herbicide and its metabolites in eggs and milk. The usage is classified in the category specified in § 180.6(a)(3).

2. The proposed usage is not expected to result in the combined residues of the herbicide and its metabolites exceeding the tolerance which is being established for meat, fat, and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep.

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), Part 180 is amended by revising § 180.279 to read as follows:

§ 180.279 3-(4-Bromo-3-chlorophenyl)-1-methoxy-1-methylurea; tolerances for residues.

Tolerances are established for combined residues of the herbicide 3-(4-bromo-3-chlorophenyl)-1-methoxy-1-methylurea and its metabolites containing the 4-bromo-3-chloroaniline moiety in or on raw agricultural commodities as follows:

0.2 part per million (negligible residue) in or on corn in grain or ear form (including field corn, popcorn, and sweet corn), corn fodder and forage (including field corn, popcorn, and sweet corn), potatoes, soybeans, and soybean forage.

0.1 part per million (negligible residue) in meat, fat, and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (1-11-72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: December 12, 1971.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator
for Pesticides Programs.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 5B—Public Buildings Service, General Services Administration

PART 5B-1—GENERAL

Small Business Concerns

Pursuant to the procedures relating to the small business set-aside program in the procurement of construction, Part 5B-1 is amended by adding a new subpart as set forth below.

Part 5B-1 is amended to add new Subpart 5B-1.7, as follows:

Subpart 5B-1.7—Small Business Concerns

Sec.
5B-1.706 Procurement set-asides for small business.
5B-1.706-70 Unilateral class set-asides (construction).

AUTHORITY: The provisions of this Subpart 5B-1.7 issued under section 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

Subpart 5B-1.7—Small Business Concerns

§ 5B-1.706 Procurement set-asides for small business.

§ 5B-1.706-70 Unilateral class set-asides (construction).

(a) In addition to the set-aside program described in § 5-1.706-1(b), the following determination is made:

UNILATERAL SMALL BUSINESS CLASS SET-ASIDE DETERMINATION

In accordance with FPR 1-1.706 and GSPR 5-1.706 it is hereby determined that procurements by the Public Buildings Service for construction, including alteration, maintenance, and repairs, estimated to cost between \$500,000 and \$1 million, shall be set aside for small business concerns on a class basis. This determination shall be reviewed not later than 1 year after the date of publication. This determination does not apply to any individual procurement for which small purchase procedures are to be used or when repair work is required on installed mechanical systems, such as elevators, steam generators, airconditioners, or distributing systems.

(b) In the case of any individual procurement action where a set-aside is not considered feasible, the reasons for not making a set-aside shall be summarized in the procurement contract file.

(c) This determination shall not be construed as preventing PBS contracting officers from making unilateral small business set-asides on larger contracting actions which qualify therefor.

Effective date. This regulation is effective upon publication in the FEDERAL REGISTER (1-11-72).

Dated: January 3, 1972.

W. H. SANDERS,
Acting Commissioner,
Public Buildings Service.

Title 45—PUBLIC WELFARE

Chapter I—Office of Education, Department of Health, Education, and Welfare

PART 177—FEDERAL, STATE AND PRIVATE PROGRAMS OF LOW-INTEREST LOANS TO STUDENTS IN INSTITUTIONS OF HIGHER EDUCATION

Special Allowances

Subparagraph (3) of § 177.4(c), *Special allowances*, which deals with the payment to lenders of the allowances authorized by section 2 of the "Emergency Insured Student Loan Act of 1969" (Public Law 91-95) is amended to provide for the payment of such an allowance for the period of October 1, 1971, through December 31, 1971, inclusive.

As so amended § 177.4(c) (3) reads as follows:

§ 177.4 Payment of interest benefits, administrative cost allowances and special allowances.

(c) * * *

(3) Special allowances are authorized to be paid as follows:

* * *

(x) For the period October 1, 1971, through December 31, 1971, inclusive, a special allowance is authorized to be paid in an amount equal to the rate of three fourths of 1 percent per annum of the average unpaid balance of disbursed principal of eligible loans.

(Sec. 2, 83 Stat. 141)

Dated: January 4, 1972.

Title 49—TRANSPORTATION

Chapter X—Interstate Commerce Commission

SUBCHAPTER D—TARIFFS AND SCHEDULES

PART 1300—FREIGHT SCHEDULES; RAILROADS

Changes in Rates Within Alaska and the Hawaiian Islands

Revocation of 49 CFR 1300.62 (Rule 62 of Tariff Circular No. 20) (Notice for

changes in rates within Alaska and the Hawaiian Islands).

At a session of the Interstate Commerce Commission, Tariff Rules Board, held at its office in Washington, D.C., on the 29th day of December 1971.

It appearing, that on November 19, 1971, notice of proposed rule making was given to the public announcing the proposed cancellation of § 1300.62 of Title 49 of the Code of Federal Regulations (Rule 62 of Tariff Circular No. 20) which provides that rates on freight traffic from a point in the Territory of Alaska to another point in the Territory of Alaska and from a point in the Territory of Hawaii to another point in the Territory of Hawaii may be changed upon notice of ten days as to reductions in rates given to the Commission and to the public in a manner prescribed by law;

It further appearing, that such notice of proposed rule making was published in the FEDERAL REGISTER on November 23, 1971 (36 F.R. 22241).

And it further appearing, that such notice provided that written statements of facts, views, and arguments from interested persons had to be filed with the Commission on or before December 27, 1971, and none were received.

And for good cause appearing therefor:

It is ordered, That § 1300.62 of Title 49 of the Code of Federal Regulations (Rule 62 of Tariff Circular No. 20) be, and it is hereby, revoked.

It is further ordered, That this order shall become effective on January 1, 1972.

And it is further ordered, That a copy of this order be posted in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection and that another copy be delivered to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

By the Commission, Tariff Rules Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 145]

POTENCY OF ANTIBIOTIC-CONTAINING DRUGS AT TIME OF CERTIFICATION

Proposed Statement of Policy

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507,

701(a), 52 Stat. 1055, 59 Stat. 463 as amended; 21 U.S.C. 357, 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120) it is proposed that Subpart B of Part 145 be amended by adding a new section as follows:

§ 145.----- Potency of antibiotic-containing drugs at the time of certification; statement of policy.

(a) Antibiotic drug regulations (21 CFR Part 141 et al.) promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act provide for antibiotic drugs to be certified within certain limits of acceptance below which a drug will not be regarded as meeting its declared strength and potency. This range of limits is necessary because there may be some loss of strength or potency as a product is being stored, shipped, and marketed and because of the vagaries of the assay procedures. The limits set must be such that even at the lowest limit the drug will remain efficacious for the conditions for which it is represented.

(b) The rate of loss of strength or potency under normal storage and handling conditions must be determined on the basis of each finished product, and provision is made in the regulations for appropriate expiration dates based on stability studies submitted to the Commissioner. These stability studies, however, are based on drugs which contain at least 100 percent of the declared potency at the time the studies are started.

(c) The Commissioner concludes that while the lower limits prescribed by the regulations are suitable for use in assaying market samples, the application of such lower limits at the time of certification does not assure that the drug will have appropriate strength and potency when dispensed and administered to patients throughout the time period preceding the approved expiration date.

(d) In view of the foregoing, the Commissioner has determined that no preparation containing antibiotic drugs will be certified or released unless the batch complies with the regulations of this chapter; conforms to the applicable standards of identity, strength, quality, and purity prescribed by the regulations in this chapter; and contains not less than the declared amount of antibiotic drug(s). If a specific regulation requires a preparation to have an antibiotic content higher than 100 percent of the declared amount, no such preparation will be certified or released unless the batch contains not less than this higher amount.

(e) This does not preclude certification of a batch of antibiotic drugs which shows minor deviations from 100 percent of potency, if the Commissioner in the light of other factors deems such minor deviations acceptable.

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: January 3, 1972.

SAM D. FINE,
Associate Commissioner
for Compliance.

COMMITTEE FOR PURCHASE OF PRODUCTS AND SERVICES OF THE BLIND AND OTHER SEVERELY HANDICAPPED

[41 CFR Part 51-1]

CERTAIN SEVERELY HANDICAPPED INDIVIDUALS

Proposed Criteria

Pursuant to the provisions of section 5(2) of the Act to Create a Committee on Purchases of Blind-Made Products, as amended, 85 Stat. 81, the Committee, after consultation with appropriate entities of the Government, proposes to establish the following Criteria for "Other Severely Handicapped Individuals," together with some specific categories thereof:

1. Generally, a severely handicapped person (other than a blind person) is "any person who is so severely handicapped by any physical or mental disability that he cannot find a job in the Nation's normal work force."

Some specific categories of severely handicapped persons are those disabled by:

- (1) Paraplegia.
- (2) Total deafness.
- (3) Cerebral palsy.
- (4) Muscular dystrophy (Adults).
- (5) Multiple sclerosis.
- (6) Mental retardation, except for borderline cases.
- (7) Severe orthopedic handicaps.
- (8) Epilepsy in some cases.
- (9) Multiple disabilities.
- (10) Personality or behavioral disorders.

2. Unusual persons even though "severely handicapped" can, and often do, find it possible to engage, and sometimes with distinction, in normal competitive employment. These persons exclude themselves from any category of "other

severely handicapped." Excluded, also, are those persons who have had their conditions substantially corrected, such as a multiple amputee with artificial limbs which he has mastered sufficiently to function with a degree of normality that permits him to engage in normal competitive employment.

3. Capability for normal competitive employment shall be determined from information developed by an on-going placement program conducted by the Workshop. Such placement program shall include at least (1) a preadmission evaluation and annual review to determine each worker's capability for normal competitive employment, and (2) maintenance of liaison with appropriate community services for the placement in such employment of any of its workers who may qualify for such placement.

4. The staff of the Committee will establish a reporting system which will require each Workshop to certify, at appropriate intervals, that the criteria for severely handicapped are being met in each instance.

Nongovernment organizations or individuals representing the handicapped are invited to submit written comments on the proposed criteria and categories not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER. Communications should be addressed to the Executive Director, Committee for Purchase of Products and Services of the Blind and Other Severely Handicapped, 1511 K Street NW., Washington, DC 20005.

By the Committee.

L. F. DONAHUE,
Acting Executive Director.

[FR Doc.72-363 Filed 1-10-72;8:46 am]

Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), it is proposed that § 180.184 be amended by revising the paragraph "0.5 part per million * * *", as follows:

§ 180.184 Linuron; tolerances for residues.

0.5 part per million in or on celery; parsnips (with or without tops) and parsnip tops; and the forage, hay, and straw of barley, oats, rye, and wheat.

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, within 30 days after publication hereof in the FEDERAL REGISTER, that this proposal be referred to an advisory committee in accordance with section 408(e) of the act.

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: December 21, 1971.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator
for Pesticides Programs.

[FR Doc.72-343 Filed 1-10-72;8:49 am]

B. Certain instructions in the Uniform System of Accounts for Class C Natural Gas Companies, prescribed by Part 204, Chapter I, Title 18, CFR.

C. Certain instructions in the Uniform System of Accounts for Class D Natural Gas Companies, prescribed by Part 205, Chapter I, Title 18, CFR.

D. Certain schedules of FPC Form No. 2, Annual Report for Class A and Class B Natural Gas Companies, prescribed by § 260.1, Chapter I, Title 18, CFR.

In Commission Order No. 440, issued on November 5, 1971 (36 F.R. 21963, November 18, 1971) amended by Order 440A, issued January 5, 1972, we prescribed full-cost accounting in the Uniform Systems of Accounts for Natural Gas Companies for exploration and development costs on leases acquired after October 7, 1969. We directed our staff to prepare a notice of proposed rule making with proposals to modify the Commission's Uniform Systems of Accounts for Natural Gas Companies (Classes A, B, C, and D) which would consider the feasibility of requiring that the determination of recoverable reserves on leases acquired after October 7, 1969, be done by qualified independent consultants and with proposals to modify the Commission's Annual Report Form No. 2 for Natural Gas Companies (Classes A and B), which would consider, among other things, disclosure of the net realizable value of recoverable hydrocarbon reserves certified to periodically by independent consultants. The rule making was also to explore the propriety of including an allowance for funds used during construction on costs related to leases acquired after October 7, 1969.

In the modifications to the Uniform Systems of Accounts in Order 440, we provided that the costs recorded in the natural gas production accounts related to exploration and development on leases acquired after October 7, 1969, shall, in general, not exceed the net realizable value of recoverable hydrocarbon reserves. We believe that the determination of recoverable hydrocarbon reserves should be performed by appraisers not in the employ of the pipeline company. Accordingly, we are proposing modifications to our Uniform Systems of Accounts for Natural Gas Companies (Classes A, B, C, and D) which would require that the determination of recoverable hydrocarbon reserves be made and attested to each year by an independent appraiser. The proposed modification would amend the preface to the natural gas production accounts.

We are at the same time proposing modifications to two schedules in our FPC Form No. 2, Annual Report for Natural Gas Companies (Classes A and B), and the addition of four new schedules to FPC Form No. 2. The following schedules are proposed for modification:

1. Natural Gas Reserves and Land Acreage (Schedule pages 547 and 548).
2. Changes in Estimated Natural Gas Reserves (Schedule page 549).

The proposed modifications to schedule pages 547 and 548 would separate the natural gas reserves on acreage acquired

ENVIRONMENTAL PROTECTION
AGENCY

[40 CFR Part 180]

LINURON

Proposed Tolerance for Pesticide
Chemicals in or on Raw Agricultural
Commodities

Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, N.J. 08903, on behalf of the Agricultural Experiment Stations of California, Florida, and Michigan has requested a tolerance for residues of the herbicide linuron (3-(3,4-dichlorophenyl)-1-methoxy-1-methylurea) in or on celery at 0.5 part per million.

Based on consideration given the data submitted, and other relevant material, it is concluded that the pesticide is useful and the proposed tolerance will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the

FEDERAL POWER COMMISSION

[18 CFR Parts 201, 204, 205, 260]

NET REALIZABLE VALUE OF
HYDROCARBON RESERVES

Uniform System of Accounts

JANUARY 5, 1972.

Revisions in Uniform Systems of Accounts for Natural Gas Companies (Classes A, B, C, and D) and Annual Report Form No. 2 to provide that the determination of natural gas reserves on acreage acquired after October 7, 1969, shall be made and attested to by independent appraisers, to disclose the net realizable value and related costs of hydrocarbon reserves, and to eliminate an allowance for equity funds on exploration and development expenditures incurred on or related to acreage acquired after October 7, 1969, Docket No. R-435.

Pursuant to 5 U.S.C. 553, the Commission gives notice it proposes to amend, effective for the reporting year 1972:

A. Certain instructions in the Uniform System of Accounts for Class A and Class B Natural Gas Companies, prescribed by Part 201, Chapter I, Title 18, CFR.

before October 8, 1969, and acreage acquired after October 7, 1969, and require the reporting of proven and unproven natural gas reserves on acreage acquired after October 7, 1969. Reserves on acreage acquired after October 7, 1969, would be required to be attested to each year by an independent appraiser. Schedule page 549 would be modified to apply only to natural gas reserves on acreage acquired before October 8, 1969.

The four new schedules proposed to be added to FPC Form No. 2 would apply to hydrocarbon reserves on acreage acquired after October 7, 1969. These schedules as set out in detail in Attachment A are entitled and numbered as follows:

1. Changes in Estimated Natural Gas Reserves, Costs and Net Realizable Values (page 549A).
2. Changes in Estimated Crude Oil Reserves, Costs and Net Realizable Values (page 549B).
3. Changes in Estimated Natural Gas Liquid Reserves, Costs and Net Realizable Values (page 549C).
4. Explanation of Changes in Estimated Crude Oil, Natural Gas and Natural Gas Liquid Reserves and Net Realizable Values (page 549D).

New schedule pages 549A, 549B, and 549C, would require the reporting of natural gas, crude oil, and natural gas liquid proven and unproven reserves, the net realizable value of such reserves and the related costs. The reserves would be required to be attested to each year by an independent appraiser and the attestation filed with the Commission by the pipeline respondent. New schedule page 549D would be used to provide explanations of items on the new schedules, and an explanation of the criteria used to determine the net realizable value of reserves shown on the new schedules. The information reported on the new schedule pages 549A, 549B, and 549C and the criteria for determining net realizable values would also be required to be reported in the utility's annual report to stockholders.

Since exploration and development costs incurred on or related to leases acquired after October 7, 1969, will not be included in the cost of service for pipeline companies or be part of the rate base, we do not believe that an allowance for a pipeline's own funds used for exploration and development on such leases should be included in the gas plant accounts. We propose to amend the applicable gas plant instructions in our Uniform Systems of Accounts for Natural Gas Companies (Classes A, B, C, and D) to exclude an allowance on the pipeline's own funds used for exploration and development on leases acquired after October 7, 1969.

The proposed amendments to the Commission's Uniform Systems of Accounts under the Natural Gas Act and to FPC Form No. 2 would be issued under the authority granted the Federal Power Commission by the Natural Gas Act, particularly sections 8, 10 and 16 (52 Stat. 825, 826, 830 (1938); 15 U.S.C. 717g, 717h, 717i, 717o).

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than February 22, 1972, data, views, comments, or suggestions in writing concerning all or part of the amendments proposed herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before acting on the matters herein proposed. An original and 14 conformed copies should be filed with the Secretary of the Commission. In addition, interested persons wishing to have their comments considered in the clearance of the proposed revisions in the report forms pursuant to 44 U.S.C. 3501-3511 may, at the same time, submit a conformed copy of their comments directly to the Clearance Office, Office of Statistical Policy, Office of Management and Budget, Washington, D.C. 20503. Submittals to the Commission should indicate the name, title, mailing address and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing them requests a conference with the staff of the Federal Power Commission to discuss the proposed amendments. The staff, in its discretion, may grant or deny requests for conference.

A. The following are proposed amendments and revisions to the Uniform System of Accounts for Class A and Class B Natural Gas Companies, in Part 201, Chapter I, Title 18 of the Code of Federal Regulations:

1. Amend subparagraph "(17) Allowance for funds used during construction" of Gas Plant Instruction "3. Components of Construction Cost" by revising the first sentence. As amended, subparagraph (17) will read:

Gas Plant Instructions

3. Components of construction cost. * * *

(17) "Allowance for funds used during construction" includes the net cost for the period of construction of borrowed funds used for construction purposes and a reasonable rate on other funds when so used, except when such other funds are used for exploration and development on leases acquired after October 7, 1969, no allowance on such other funds shall be included in these accounts. No interest charges shall be included in these accounts upon expenditures for construction projects which have been abandoned.

NOTE: * * *

2. In the text of Gas Plant accounts, following the heading "B. Natural Gas Production Plant" and the subheading "B.1. Natural Gas Production and Gathering Plant", amend the text following the subheading entitled "Special Instructions—Costs Related to Leases Acquired

After October 7, 1969" by adding a new sentence immediately following the second sentence. As revised, the text will read:

Gas Plant Accounts

2. PRODUCTION PLANT

B. NATURAL GAS PRODUCTION PLANT

B.1 Natural Gas Production and Gathering Plant

Special Instructions—Costs Related to Leases Acquired After October 7, 1969. The net book value of amounts recorded in the natural gas production accounts incurred on or related to leases acquired after October 7, 1969, shall, in general, not exceed the net realizable value (estimated selling price less estimated costs of extraction, completion, and disposal) of recoverable hydrocarbon reserves discovered on such leases. After initiation of exploration and development on leases acquired after October 7, 1969, the utility must determine after a reasonable period of time, and annually thereafter, whether the net realizable value of recoverable reserves on such leases will be sufficient to absorb the net book value of the amounts recorded in the accounts. The recoverable hydrocarbon reserves shall be attested to each year by an independent appraiser. If the net realizable value of recoverable reserves are not sufficient to absorb the net book value of amounts in the production accounts, the utility shall reduce the net book value of the amounts in the accounts to net realizable value of recoverable reserves. The reduction shall be done by first reducing the unamortized amounts recorded in account 338, Unsuccessful Exploration and Development Costs, by debiting account 404.1, Amortization and Depletion of Producing Land and Land Rights. Next, if the net book value related to successful costs exceeds the net realizable value of the recoverable reserves, the production plant accounts shall be written down to such net realizable value by appropriate charges and credits to the expense and valuation accounts.

(B) The following are proposed amendments and revisions to the Uniform System of Accounts for Class C Natural Gas Companies, in Part 204, Chapter I, Title 18 of the Code of Federal Regulations:

1. Gas Plant Instruction "2. Components of Construction Cost." is amended by adding a new sentence thereto. As revised, Gas Plant Instruction 2 will read:

Gas Plant Instructions

2. Components of Construction Cost. The cost of construction of property chargeable to the gas plant accounts shall include, where applicable, fees for construction certificate applications paid after grant of certificate, the cost of labor, materials and supplies, transportation, work done by others for the utility, injuries and damages incurred in construction work, privileges and permits, special machine service, allowance for funds used during construction, and such portion of general engineering, administrative salaries and expenses, insurance, taxes and other analogous items as may be properly includible in construction

costs. When the utility employs its own funds in exploration and development on leases acquired after October 7, 1969, no interest on such funds shall be included in these accounts.

2. In the text of Gas Plant accounts, following the heading "B. Natural Gas Production Plant" and the subheading "B.1. Natural Gas Production and Gathering Plant", amend the text following the subheading entitled "Special Instructions—Costs Related to Leases Acquired After October 7, 1969" by adding a new sentence immediately following the second sentence. As revised, the text will read:

Gas Plant Accounts

2. PRODUCTION PLANT

B. NATURAL GAS PRODUCTION PLANT

B.1 Natural Gas Production and Gathering Plant

Special Instructions—Costs Related to Leases Acquired After October 7, 1969. The net book value of amounts recorded in the natural gas production accounts incurred on or related to leases acquired after October 7, 1969, shall, in general, not exceed the net realizable value (estimated selling price less estimated costs of extraction, completion and disposal) of recoverable hydrocarbon reserves discovered on such leases. After initiation of exploration and development on leases acquired after October 7, 1969, the utility must determine after a reasonable period of time, and annually thereafter, whether the net realizable value of recoverable reserves on such leases will be sufficient to absorb the net book value of the amounts recorded in the accounts. The recoverable hydrocarbon reserves shall be attested to each year by an independent appraiser. If the net realizable value of recoverable reserves are not sufficient to absorb the net book value of amounts in the production accounts, the utility shall reduce the net book value of the amounts in the accounts to net realizable value of recoverable reserves. The reduction shall be done by first reducing the unamortized amounts recorded in account 338, Unsuccessful Exploration and Development Costs, by debiting account 404.1, Amortization and Depletion of Producing Land and Land Rights. Next, if the net book value related to successful costs exceeds the net realizable value of the recoverable reserves, the production plant accounts shall be written down to such net realizable value by appropriate charges and credits to the expense and valuation accounts.

(C) The following are proposed amendments and revisions to the Uniform System of Accounts for Class D Natural Gas Companies, in Part 205, Chapter I, Title 18 of the Code of Federal Regulations:

1. Gas Plant Instruction "2. Components of Construction Cost." is amended by adding a new sentence thereto. As revised, Gas Plant Instruction 2 will read:

Gas Plant Instructions

2. Components of Construction Cost.

The cost of construction of property chargeable to the gas plant accounts

shall include where applicable, fees for construction certificate applications paid after grant of certificate, the cost of labor, materials and supplies, transportation, work done by others for the utility, injuries and damages incurred in construction work, privileges and permits, special machine service, allowance for funds used during construction, and such portion of general engineering, administrative salaries and expenses, insurance, taxes and other analogous items as may be properly includable in construction costs. When the utility employs its own funds in exploration and development on leases acquired after October 7, 1969, no allowance on such funds shall be included in these accounts.

2. In the text of Gas Plant accounts, following the heading "3. Natural Gas Production and Gathering" amend the text following the subheading "Special Instructions—Costs Related to Leases Acquired After October 7, 1969" by adding a new sentence immediately following the second sentence. As revised, the text will read:

Gas Plant Accounts

3. NATURAL GAS PRODUCTION AND GATHERING PLANT

Special Instructions—Costs Related to Leases Acquired After October 7, 1969. The net book value of amounts recorded in the natural gas production accounts incurred on or related to leases acquired after October 7, 1969, shall, in general, not exceed the net realizable value (estimated selling price less estimated costs of extraction, completion and disposal) of recoverable hydrocarbon reserves discovered on such leases. After initiation of exploration and development on leases acquired after October 7, 1969, the utility must determine after a reasonable period of time, and annually thereafter, whether the net realizable value of recoverable reserves on such leases will be sufficient to absorb the net book value of the amounts recorded in the accounts. The recoverable hydrocarbon reserves shall be attested to each year by an independent appraiser. If the net realizable value of recoverable reserves are not sufficient to absorb the net book value of amounts in the production accounts, the utility shall reduce the net book value of the amounts in the accounts to net realizable value of recoverable reserves. The reduction shall be done by first reducing the unamortized amounts recorded in account 338, Unsuccessful Exploration and Development Costs, by debiting account 404.1, Amortization and Depletion of Producing Land and Land Rights. Next, if the net book value related to successful costs exceeds the net realizable value of the recoverable reserves, the production plant accounts shall be written down to such net realizable value by appropriate charges and credits to the expense and valuation accounts.

(D) Effective for the reporting year 1972, it is proposed to revise certain pages of FPC Form No. 2, Annual Report for Natural Gas Companies (Class A and Class B) prescribed by § 260.1, Chapter I, Title 18 of the Code of Federal Regulations, all as set out in Attachment A hereto.¹

¹ Attachment A filed as part of the original.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

**NATIONAL CREDIT UNION
ADMINISTRATION**

[12 CFR Part 701]

PUBLICATIONS

Proposed Incorporation by Reference

Notice is hereby given that the Administrator of the National Credit Union Administration, pursuant to the authority conferred by section 120, 73 Stat. 635, 12 U.S.C. 1766, proposes to revise the introductory paragraphs of §§ 701.14 and 701.15 (12 CFR 701.14, 701.15), and to add § 701.2 to Part 701, as set forth below.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed revision to the Administrator, National Credit Union Administration, 1325 K Street, NW., Washington, DC 20456, to be received not later than February 15, 1972.

HERMAN NICKERSON, Jr.,
Administrator.

JANUARY 5, 1972.

§ 701.2 Incorporation by reference.

(a) The publications used by Federal credit unions, which are identified and described in this chapter, are hereby incorporated by reference pursuant to 5 U.S.C. 552(a) (1) and the regulations issued thereunder.

(b) Copies of the publications prescribed in this chapter may be obtained on request addressed to National Credit Union Administration, 1325 K Street NW., Washington, DC 20456.

(c) Revisions or amendments of the publications may be issued from time to time by the National Credit Union Administration. An historic file of such amendments or revisions is maintained and made available for inspection at the National Credit Union Administration, 1325 K Street NW., Washington, DC 20456.

(d) The publications listed below, and more fully described in §§ 701.14 and 701.15, are hereby incorporated by reference:

- (1) Handbook for Federal Credit Unions,
- (2) Accounting Manual for Federal Credit Unions,
- (3) Supervisory Committee Manual for Federal Credit Unions,
- (4) Credit Manual for Federal Credit Unions,

PROPOSED RULE MAKING

- (5) Federal Credit Union Bylaws,
- (6) Guide to Standard Amendments to the Federal Credit Union Charter and Bylaws,
- (7) Organizing a Federal Credit Union,
- (8) Data Processing guidelines for Federal Credit Unions,
- (9) Sale and Redemption of U.S. Savings Bonds by Federal Credit Unions,
- (10) NCUA Bulletin,
- (11) Annual Report of Operations,
- (12) Selected Operating Statistics for Federal Credit Unions,
- (13) State Chartered Credit Unions,
- (14) Effective Collection Procedures for Federal Credit Unions, and

(15) Accounting Machine Handbook for Federal Credit Unions.

(e) Copies of these publications are on file with the Director, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408. The text of any changes in said publications will be filed with the Director, Office of the Federal Register, and a notice thereof will be periodically published in the FEDERAL REGISTER.

§ 701.14 Instructions for officials.

The National Credit Union Administration has published a number of manu-

als and booklets for use by officials of Federal credit unions in carrying out their duties. These publications, as listed and described below, are hereby incorporated by reference.

* * * * *

§ 701.15 Other publications.

In addition to the publications listed in § 701.14 the National Credit Union Administration publishes the following materials which are hereby incorporated by reference.

Notices

DEPARTMENT OF THE TREASURY

Fiscal Service

[Dept. Circ. 570, 1971 Rev., Supp. No. 8]

PARLIAMENT INSURANCE COMPANY

Surety Company Acceptable on Federal Bonds

A Certificate of Authority as an acceptable surety on Federal bonds has been issued by the Secretary of the Treasury to the following company under sections 6 to 13 of title 6 of the United States Code. An underwriting limitation of \$235,000.00 has been established for the company.

Name of company, location of principal executive office, and State in which incorporated:

Parliament Insurance Company
Chicago, Illinois
Illinois

Certificates of Authority expire on June 30 each year, unless sooner revoked, and new Certificates are issued on July 1 so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact fidelity and surety business and other information. Copies of the Circular, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Audit Staff, Washington, D.C. 20226.

Dated: January 4, 1972.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

[FR Doc.72-368 Filed 1-10-72; 8:46 am]

[Dept. Circ. 570, 1971 Rev., Supp. No. 9]

EQUITABLE FIRE AND MARINE INSURANCE COMPANY CHANGE OF NAME TO THE TRAVELERS INDEMNITY COMPANY OF RHODE ISLAND

Surety Companies Acceptable on Federal Bonds

The Equitable Fire and Marine Insurance Company, a Rhode Island corporation, has formally changed its name to The Travelers Indemnity Company of Rhode Island. A copy of the Act of the

General Assembly of the State of Rhode Island, approved by the Governor of Rhode Island June 25, 1971 changing the name of the Equitable Fire and Marine Insurance Company to The Travelers Indemnity Company of Rhode Island has been received and filed in the Treasury.

A new Certificate of Authority as an acceptable surety on Federal bonds has been issued to The Travelers Indemnity Company of Rhode Island under sections 6 to 13 of title 6 of the United States Code, to replace the Certificate issued July 1, 1971 to the Company under its former name Equitable Fire and Marine Insurance Company. The underwriting limitation of \$2,300,000 previously established for the Company remains unchanged.

The change in name of the Equitable Fire and Marine Insurance Company does not affect its status or liability with respect to any obligations in favor of the United States or in which the United States has an interest, which it may have undertaken pursuant to the Certificate issued by the Secretary of the Treasury.

Certificates of Authority expire on June 30 each year, unless sooner revoked, and new Certificates are issued on July 1 so long as the companies remain qualified (31 CFR Part 223). A listing of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact fidelity and surety business and other information. Copies of the Circular, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Audit Staff, Washington, D.C. 20226.

Dated: January 4, 1972.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CHIEF, DIVISION OF MANAGEMENT SERVICES, ALASKA STATE OFFICE, ET AL.

Delegation of Authority Regarding Contracts and Leases

A. Pursuant to delegation of authority contained in Bureau Manual 1510-03B2, the

Chief, Division of Management Services, State Office.
Chief, Branch of Administrative Management, State Office.
Chief, Procurement and Property Section, State Office.
District Managers.
District Chiefs, Division of Administration.

are authorized:

1. To enter into contracts with established sources for supplies and services, excluding capitalized equipment, regardless of amount, and

2. To enter into contracts on the open market for supplies and materials, excluding capitalized equipment, not to exceed \$2,500 per transaction (\$2,000 for construction), provided that the requirement is not available from established sources. (Section 302(c) (3) of the FPAS Act)

3. To enter into contracts in an unlimited amount for necessary procurements in the case of emergency fire suppression work for the rental of equipment and aircraft and for supplies and materials, excluding capitalized equipment, required in such operations. (Section 302(c) (2) of the FPAS Act)

B. The Chief, Division of Management Services, and Chief, Branch of Administrative Services, are delegated authority to negotiate contracts in excess of \$2,500, under section 302(c) (10) of the FPAS Act of 1949, for air transportation services not related to emergency fire suppression or suppression, in accordance with the following:

1. *Limitations.* This authority may be used only:

(a) To hire aircraft with crew for transportation of persons or cargo, not for project work.

(b) To hire such aircraft for unforeseeable short term needs, where lead time is not available to permit Portland Service Center to handle the contract.

(c) After it has been determined that Bureau-owned aircraft, or aircraft available under existing contracts or offers (when appropriate) cannot satisfy the need.

C. District Managers may redelegate the authority granted in A. above.

D. All previous delegations of procurement authority are hereby canceled.

CURTIS V. McVEE,
State Director.

Approved:

CURTIS V. McVEE,
State Director.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

TIRE CODE MARKS ASSIGNED NEW TIRE MANUFACTURERS AND RETREADED TIRE MANUFACTURERS

The purpose of this notice is to publish the code numbers assigned to manufacturers of retreaded tires under the Tire Identification and Record Keeping Regulation, 49 CFR Part 574 (36 F.R. 1196), and to update the list of codes assigned new tire manufacturers published in the FEDERAL REGISTER of April 21, 1971 (36 F.R. 7539).

The Tire Identification and Record-keeping Regulation (hereafter Part 574) requires that new tires manufactured after May 22, 1971, be marked with a two-symbol code and retreaded tires manufactured after May 22, 1971, be marked with a three-symbol manufacturer's code. The manufacturer's code is the first grouping within the tire identification number after the symbol "DOT" in the case of new tires and after the symbol "R" in the case of retread tires.

Under Part 574 a separate code mark is assigned to each manufacturer's plant. Table 1 of this notice lists the code assigned new tire manufacturers and the manufacturer that received each code. Table 2 lists new tire manufacturers alphabetically and the code assigned each manufacturer. Table 3 lists the code numbers assigned retreaded tire manufacturers and 4 lists the retreaders and the number each retreader received. The manufacturer's plant and its location (city and State) are included in the tables. Additional information such as street address, ZIP code and address of the parent company (if any) is available for inspection or purchase (computer printout or tape) in the Docket Section, Room No. 5221, 400 Seventh Street SW., Washington, DC 20590.

Where one or more retread plants with different plant names are affiliated with a parent company, these plants are listed under their own name as well as under the name of the parent company.

This notice is issued under the authority of sections 103, 113, 119, 201, and 206 of the National Traffic Safety Act of 1966 as amended (15 U.S.C. 1392, 1402, 1407, 1421, 1426); and the delegation of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on December 15, 1971.

ROBERT L. CARTER,
Acting Associate Administrator,
Motor Vehicle Programs.

[FR Doc.72-2 Filed 1-10-72; 8:45 am]

DEPARTMENT OF AGRICULTURE

Office of the Secretary
ASSISTANT SECRETARY FOR
ADMINISTRATION

Delegation of Authority

There is hereby delegated to the Assistant Secretary for Administration,

with the authority to redelegate, the authority to take the following actions under title VI of the Civil Rights Act of 1964, and 7 CFR, Part 15, subparts A and C:

1. Issue orders to give a notice of hearing or opportunity to request a hearing;
2. Arrange for the designation of a hearing examiner to preside over proceedings;

3. Determine whether the hearing examiner so designated will make an initial decision or certify the record to the Secretary of Agriculture with his recommended findings and proposed decision;

4. Make determinations required by 7 CFR 15.8(d) that compliance cannot be secured by voluntary means;

5. Authorize the taking of action pursuant to 7 CFR 15.8(a) relating to compliance by "other means authorized by law";

6. Taking of action pursuant to 7 CFR 15.8(d) relating to compliance by "other means authorized by law";

7. Order proceedings and hearings in the Department of Agriculture consolidated for hearing with proceedings of other Federal departments and agencies, by agreement with such other departments and agencies pursuant to 7 CFR 15.9(e) and 15.86.

Nothing herein shall preclude the Secretary of Agriculture from himself exercising the authority so delegated.

Previous delegations at 32 F.R. 690 (January 20, 1967), 32 F.R. 11711 (August 12, 1967), and 32 F.R. 11895 (August 17, 1967) are hereby superseded.

Done at Washington, D.C. this 6th day of January 1972.

(42 U.S.C. 2000(d); 7 CFR 15.2(c))

EARL L. BUTZ,
Secretary of Agriculture.

[FR Doc.72-413 Filed 1-10-72; 8:48 am]

DIRECTOR, OFFICE OF EQUAL OPPORTUNITY

Delegation of Authority

Authorities delegated to me to take action under title VI of the Civil Rights Act of 1964 and 7 CFR, Part 15, subparts A and C are hereby redelegated to the Director of the Office of Equal Opportunity. This redelegation shall not preclude my exercise of these authorities.

Done at Washington, D.C., this 6th day of January 1972.

FRANK ELLIOTT,
Assistant Secretary
for Administration.

[FR Doc.72-412 Filed 1-10-72; 8:48 am]

WINEMA AND FREMONT NATIONAL FORESTS; OREG.

Modification of Boundaries

On April 13, 1961 (26 F.R. 3251) the Secretary of Agriculture, as authorized and directed by the Act of August 13, 1954 (68 Stat. 718), as amended (72 Stat. 816), issued a proclamation taking title in the name of the United States to all the lands in the unsold units of the Klammath Indian Forest, as described in the

proclamation. To correct erroneous land descriptions and to modify the boundaries of the affected national forests, the following supplemental proclamation is issued:

By virtue of the authority vested in me by subsection 28(b) of the Act of August 13, 1954 (68 Stat. 718), as amended, title is taken in the name of the United States to the following land in the forest units offered for sale in accordance with subsection 28(b) of that Act and not sold before April 1, 1961, as hereinafter described, which lands pursuant to the provisions of that Act hereafter are national forest lands subject to the laws that are applicable to lands acquired pursuant to the Act of March 1, 1911 (36 Stat. 961), as amended, and shall be administered as a part of the Fremont National Forest:

WILLAMETTE MERIDIAN
FREMONT NATIONAL FOREST

T. 36 S., R. 13 E.,
Sec. 19, NW 1/4 SE 1/4.

The following described lands which were erroneously included in the Proclamation of Taking are hereby excluded:

WILLAMETTE MERIDIAN
WINEMA NATIONAL FOREST

T. 35 S., R. 9 E.,
Sec. 18, NW 1/4 NE 1/4.

FREMONT NATIONAL FOREST

T. 36 S., R. 13 E.,
Sec. 19, NE 1/4 SE 1/4.

This supplemental proclamation shall take effect on the date of its publication in the FEDERAL REGISTER (1-11-72).

EARL L. BUTZ,
Secretary of Agriculture.

JANUARY 6, 1972.

DEPARTMENT OF COMMERCE

Bureau of International Commerce

[Case No. 424-B]

THOMAS H. GIFT AND
T. H. GIFT CO.

Order Denying Export Privileges

In the matter of Thomas H. Gift, T. H. Gift Co., 1141 Fountain Way, Anaheim, CA 92806, respondents.

By charging letter dated April 20, 1971, the above respondents¹ were charged with violations of the regulations issued under the Export Control Act of 1949.²

¹ Charges against other parties who were also named as respondents in same letter are being handled separately.

² This act has been succeeded by the Export Administration Act of 1969, Public Law 91-184, approved Dec. 30, 1969, 50 U.S.C. App. sec. 2401-2413. Section 13(b) of the new Act provides, "All outstanding delegations, rules, regulations, orders, licenses, or other forms of administrative action under the Export Control Act of 1949 * * * shall, until amended or revoked remain in full force and effect, the same as if promulgated under this Act".

The charging letter was duly served on respondents and they failed to answer the charges. Pursuant to § 388.4 of the Export Control Regulations they were held in default. There was an informal presentation of documentary evidence in support of the charges on behalf of the Investigations Division (now called Compliance Division) before the Compliance Commissioner. He considered the evidence and submitted to the undersigned a report which summarizes the essential evidence, considers the charges, and which includes findings of fact and conclusions. The Compliance Commissioner recommended the sanction that should be imposed.

After considering the evidence in the case I adopt the findings of fact made by the Compliance Commissioner as follows:

FINDINGS OF FACT

1. The respondent Thomas H. Giff is college trained as a physicist. He was the owner of T. H. Giff Co., Anaheim, Calif. This company engaged in research and manufacturing electronic equipment, including sonar and oceanographic equipment. Subsequent to the events described in the following findings, Giff reorganized his business as a corporation, T. H. Giff Co., Inc. He is president of the corporation.

2. The firm Geoconsult, located in Lausanne, Switzerland, operating as consulting geologists, participated in the transaction herein described. Rene Treyvaud was one of the principals of Geoconsult and he acted on behalf of his firm.

3. In June 1968 Geoconsult ordered from Giff a depth recorder to be used in underwater exploration for measuring and registering seismic waves. This recorder was to be used in conjunction with certain underwater seismic equipment that Geoconsult at about the same time ordered from Geodyne Division, EG&G International, Waltham, Mass.

4. On July 15, 1968 Geodyne wrote to Geoconsult acknowledging the order for the equipment which was to be interfaced with the Giff recorder. Certain technical specifications for the recorder were given to permit interfacing. This letter advised Geoconsult that this equipment could not be exported from the United States without a proper export license from the Department of Commerce and that it would probably take 2 weeks to process the application. A copy of this letter was sent by Geodyne to Giff. This equipment did, in fact, require a validated export license for exportation from the United States to all destinations except Canada. No such license was ever applied for or obtained.

5. Pursuant to a request from Geoconsult, Geodyne arranged to have the integrated system tested in Boston Harbor on July 30, 1968. In accordance with arrangements, acceptance tests were carried out on July 30, 1968 with Treyvaud, Giff, and an engineer from Geodyne being present. Treyvaud was satisfied with the tests.

6. On completion of the tests the equipment was turned over to Treyvaud. He said that he would make the necessary arrangements for exportation to Switzerland. Treyvaud stated that he desired to take the equipment with him to Switzerland that evening. He was informed by a representative of Geodyne that a validated license was necessary for the exportation. Giff was present when this information was given to Treyvaud.

7. Treyvaud, accompanied by Giff, transported the equipment from Geodyne's plant to the office of an airfreight carrier at the Logan Airport, Boston. A Shipper's Export Declaration was prepared for the equipment in question in which T. H. Giff Co. was shown as exporter. An incorrect Schedule B Commodity number was given in the SED for the commodities. The following statement appeared on the SED "Commodity not under validated license control to Switzerland" and the destination "G-Dest" also appeared, which indicated that the commodities were exportable to Switzerland under general license. The SED, executed on July 30, 1968, was signed by the respondent Thomas H. Giff on behalf of T. H. Giff Co.

8. The quoted phrase in the preceding finding was false and the designation "G-Dest" was misleading in that the commodities in question required a validated export license for exportation to Switzerland. Giff knew that the equipment in question could not be lawfully exported from the United States to Switzerland without a validated license for the exportation having been obtained for the exportation in question.

9. The commodities were exported from the United States on July 30 or 31, 1968, and were entered through Swiss Customs on August 2, 1968.

Based on the foregoing, I have concluded that the respondents: (1) Violated §§ 387.2 and 387.6 of the Export Control Regulations in that they knowingly exported and caused to be exported commodities from the United States to Switzerland without the requisite validated export license as required by § 372.1(b) of said regulations; (2) violated § 387.5 of said regulations in that they made false and misleading statements and representations on a Shipper's Export Declaration to the Office of Export Control and Bureau of Customs.

The Compliance Commissioner recommended that the respondents be denied export privileges for one month commencing on January 10, 1972, or in lieu thereof that they be permitted to pay a civil penalty. The respondents elected not to pay the civil penalty. Having considered the record in the case and the report and recommendation of the Compliance Commissioner, and being of the opinion that his recommendation as to the sanction that should be imposed is fair and just, and calculated to achieve effective enforcement of the law: *It is hereby ordered,*

I. All outstanding validated export licenses in which respondents appear or participate in any manner or capacity, are hereby revoked and shall be returned

forthwith to the Bureau of International Commerce for cancellation.

II. The respondents for a period of 1 month, commencing on January 10, 1972, are hereby denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States, in whole or in part, or to be exported, or which are otherwise subject to the Export Control Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation, directly or indirectly, in any manner or capacity: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or any document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control document; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data in whole or in part exported or to be exported from the United States; and (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondents, but also to their agents, employees, representatives, and to any other person, firm, corporation, or business organization with which the respondents may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith. The firm T. H. Giff Co., Inc., of which the respondent Thomas H. Giff is president is included herein.

IV. While this denial order is in effect no person, firm, corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with the respondents or any related party, or whereby the respondents or related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion, of any commodity or technical data exported or to be exported from the United States, by, to, or for such respondents or related party denied export privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate

in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

Dated: January 3, 1972.

RAUER H. MEYER,
Director,
Office of Export Control.

Food and Drug Administration

[Docket No. FDC-D-395; NADA 5-733V]

HESS & CLARK

Sulfathiazole-Kaolin-Pectin for Calf Scours; Notice of Withdrawal of Approval of New Animal Drug Application

A notice of opportunity for a hearing proposing to withdraw approval of NADA (new animal drug application) No. 5-733V for the drug SKP for Calf Scours was published in the FEDERAL REGISTER of November 4, 1971 (36 F.R. 21220). Hess & Clark, Division of Rhodia Inc. (formerly a Division of Richardson-Merrell, Inc.), Ashland, Ohio 44805, holder of said NADA did not file a written appearance of election regarding whether or not they wished to avail themselves of the opportunity for a hearing within the 30-day period provided for such filing in said notice. This is construed as an election by said firm not to avail themselves of the opportunity for a hearing.

Based on the grounds set forth in said notice and the response to said notice, the Commissioner of Food and Drugs concludes that approval of said NADA should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under the authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 5-733V, including all amendments and supplements thereto, is hereby withdrawn effective on the date of publication of this document.

Dated: December 30, 1971.

R. E. DUGGAN,
Acting Associate Commissioner
for Compliance.

[Docket No. FDC-D-377; NADA 6-358V, etc.]

HILLTOP LABORATORIES, INC., ET AL. Certain Sodium Arsanilate Preparations; Notice of Withdrawal of Approval of New Animal Drug Applications

A notice of opportunity for a hearing proposing to withdraw approval of the following new animal drug applications covering drugs containing sodium arsanilate was published in the FEDERAL

REGISTER of September 29, 1971 (36 F.R. 19130):

1. Mor-O; NADA (new animal drug application) No. 6-358V; Hilltop Laboratories, Inc., 718 Washington Avenue North, Minneapolis, Minn. 55109;
2. Dr. Mayfield Turkey Tablets; NADA No. 7-903V; Dr. Mayfield Laboratories, 1209 South Main Street, Charles City, Iowa 50616;
3. Dr. Mayfield Turkey Arsonic Powder; NADA No. 6-844V; Dr. Mayfield Laboratories;
4. Dr. Mayfield CEC Powder; NADA No. 6-844V; Dr. Mayfield Laboratories;
5. Dr. Mayfield Arsonic Powder; NADA No. 6-844V; Dr. Mayfield Laboratories;
6. Dr. Mayfield Arsonic Powder Water Soluble; NADA No. 6-844V; Dr. Mayfield Laboratories;
7. Arsanilate Compound; NADA No. 8-994V; Vita Vet Laboratories, Post Office Box 108, Marion, Ind. 46952;
8. Ar-Sol-Vite; NADA No. 8-995V; Vita Vet Laboratories;
9. Corn King CEC Powder; NADA No. 9-046V; King Castle, Inc., (Formerly The Corn King Co.) Post Office Box 189, Marion, Iowa 52302; and
10. Russell's Korum; NADA No. 6-861V; I. D. Russell Co., Laboratories, 2463 Harrison Street, Kansas City, Mo. 64108.

The sponsors of the above listed new animal drug applications did not file a written appearance of election regarding whether or not they wished to avail themselves of the opportunity for a hearing within the 30-day period provided for such filing in said notice. This is construed as an election by said firms not to avail themselves of the opportunity for a hearing.

Based on the grounds set forth in said notice and the response to said notice, the Commissioner of Food and Drugs concludes that approval of the above listed NADA's should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of new animal drug applications No. 7-903V, 6-844V, 6-358V, 8-994V, 8-995V, 9-046V, and 6-861V, including all amendments and supplements thereto, is hereby withdrawn effective upon date of publication of this document.

Dated: December 30, 1971.

R. E. DUGGAN,
Acting Associate Commissioner
for Compliance.

[Docket No. FDC-D-418]

KASCO-EFCO LABORATORIES, INC. AND HAVER-LOCKHART LABORATORIES, INC.

Neomycin-Sulfacetamide Ophthalmic Ointment With or Without Tetracaine, Phenacaine, or Hydrocortisone; Notice of Drugs Deemed Adulterated

An announcement concerning the following veterinary ophthalmic prepara-

tions was published in the FEDERAL REGISTER of August 12, 1970 (35 F.R. 12792, DESI 12-4NV):

1. DV-102 Ophthalmic Ointment Veterinary; by KASCO-EFCO Laboratories, Inc., Post Office Box 73, Hicksville, N.Y. 11802.
2. DV-101 Ophthalmic Ointment Veterinary; by KASCO-EFCO Laboratories, Inc., and
3. Neohydracaine Ophthalmic Ointment Veterinary; by Haver-Lockhart Laboratories, Inc., Post Office Box 676, Kansas City, Mo. 64141.

The announcement set forth the findings of the Food and Drug Administration following review of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group that these eye preparations are probably not effective for veterinary use. Said announcement provided the manufacturers and all interested persons a 6-month period in which to submit new animal drug applications.

The above listed manufacturers did not submit new animal drug applications for the above named products within the six-month period provided. The manufacturers submitted new animal drug applications for reformulated products.

Based on the foregoing and the information before him, the Commissioner of Food and Drugs concludes that the above named drugs are adulterated within the meaning of section 501(a)(5) of the Federal Food, Drug, and Cosmetic Act in that they are not the subject of approved new animal drug applications pursuant to section 512 of the act. Therefore, notice is given to KASCO-EFCO Laboratories, Inc., and Haver-Lockhart Laboratories, Inc., and all interested persons that all stocks of said drugs within the jurisdiction of the act are deemed adulterated within the meaning of the Act and are subject to appropriate regulatory action.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 501(a)(5), 512, 52 Stat. 1049, as amended, 82 Stat. 343-351, 21 U.S.C. 351(a)(5) 360b) and under the authority delegated to the Commissioner (21 CFR 2.120).

Dated: December 30, 1971.

R. E. DUGGAN,
Acting Associate Commissioner
for Compliance.

ATOMIC ENERGY COMMISSION

[Dockets Nos. 50-321, 50-366]

GEORGIA POWER CO.

Notice of Availability of Environmental Report and Supplement

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's Regulations, notice is hereby given that a report entitled "Applicant's Environmental Report, Construction Permit Stage, Edwin I. Hatch Nuclear Plant, Unit No. 1 and No. 2" and supplement thereto are being placed in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and in the Appling County Public Library, Parker Street, Baxley, Ga. 31513. The reports are also being made available to the public at the Bureau of State Planning and Community Affairs, Room 611, 270 Washington Street SW., Atlanta, GA 30303 and at the Altamaha Area Planning and Development Commission (APDC), Post Office Box 328, Baxley, GA 31513.

These reports discuss environmental considerations related to the construction of the Edwin I. Hatch Nuclear Plant, Unit No. 1 and Unit No. 2, located on the south side of the Altamaha River in northwestern Appling County, about 11 miles north of Baxley, Ga.

After the reports have been analyzed by the Commission's Director of Regulation or his designee, a draft detailed statement of environmental considerations related to the proposed action will be prepared. Upon preparation of the draft detailed statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of the availability of the Applicant's Environmental Reports and the draft detailed statement. The summary notice will request comments from

interested persons on the proposed action and on the draft detailed statement. The summary notice will also contain a statement to the effect that the comments of Federal agencies and State and local officials thereon will be available when received.

Dated at Bethesda, Md., this 30th day of December 1971.

For the Atomic Energy Commission.

DONALD F. KNUTH,
Acting Assistant Director for
Boiling Water Reactors, Division
of Reactor Licensing.

[Docket No. 50-331]

IOWA ELECTRIC LIGHT AND POWER CO.

Notice of Availability of Applicant's Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a report dated November 1971, entitled "Environmental Report by the Iowa Electric Light and Power Co." is being placed in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and in the Cedar Rapids Public Library, 428 Third Avenue SE., Cedar Rapids, IA 52401. The report is also being made available to the public at the Office of Planning and Programming, State Capitol, Des Moines, Iowa 50319, and the Linn County Regional Planning Commission, Courthouse, Cedar Rapids, Iowa 52401. The report revises in its entirety the environmental report, dated April 1971.

This report discusses environmental considerations related to the construction and operation of the Duane Arnold Energy Center located in Linn County, Iowa. After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft detailed statement of environmental considerations related to the proposed action will be prepared. Upon preparation of the draft detailed statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the Applicant's Environmental Report and the draft detailed statement. The summary notice will request comments from Federal agencies, State and local officials, and interested persons on the Applicant's Environmental Report and the draft statement. The summary notice will also contain a statement to the effect that the comments of Federal agencies and State and local officials thereon will be available when received.

Dated at Bethesda, Md., this 4th day of January 1972.

For the Atomic Energy Commission.

ROGER S. BOYD,
Assistant Director for Boiling
Water Reactors, Division of
Reactor Licensing.

[Docket No. 50-356]

UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN

Notice of Issuance of Facility License

No request for a hearing or petition for leave to intervene having been filed following publication of the notice of proposed action in the FEDERAL REGISTER on October 13, 1970 (35 F.R. 16061), the Atomic Energy Commission (the Commission) has issued Facility License No. R-117 to the University of Illinois at Urbana-Champaign, Ill. The license authorizes the University of Illinois to possess, use and operate the low power reactor assembly (LOPRA) at steady state power levels up to 10 kilowatts (thermal).

The Commission has found that the application complies with the requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations published in 10 CFR Chapter I. The Commission has made the findings required by the Act and the Commission's regulations which are set forth in the license, and has concluded that the issuance of the license will not be inimical to the common defense and security or to the health and safety of the public.

A copy of the license and the application for the license are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, DC. A copy of the license may be obtained upon request sent to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 27th day of December 1971.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director, for Reactor
Operations, Division of Reactor
Licensing.

[Dockets Nos. 50-329, 50-330]

CONSUMERS POWER CO.

Notice of Availability of Applicant's Environmental Report and AEC Draft Detailed Statement on Environmental Considerations

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that reports entitled "Applicant's Environmental Report—Construction Permit Stage, July 24, 1970," "Applicant's Supplemental Environmental Report on the Midland Plant, Units 1 and 2, October 19, 1971," "Amendment No. 1 to Applicant's Supplemental Environmental Report, December 10, 1971," and "Amendment No. 2 to Applicant's Supplemental Environmental Report, December 24, 1971," (collectively "the report") submitted by Consumers Power Co. are available for public inspection in the Commission's

Public Document Room at 1717 H Street NW., Washington, DC, and in the Grace Dow Memorial Library, 1710 West St. Andrews Road, Midland, MI 48640. The report is also being made available to the public at the Office of Planning Coordination, Executive Office of the Governor, Lewis Cass Building, Lansing, Mich. 48913.

This report discusses environmental considerations related to the proposed issuance of a construction permit for the Midland Plant, Units 1 and 2, located in Midland County, Mich.

The report has been analyzed by the Commission's Division of Radiological and Environmental Protection and a draft detailed statement on the environmental considerations related to the proposed issuance of a construction permit for the Midland Plant, Units 1 and 2, dated January 7, 1972, has been prepared and has been made available for public inspection at the locations designated above. Copies of the Commission's January 7, 1972, draft detailed statement on the environmental considerations may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection. This statement supercedes the February 5, 1971, draft detailed statement for which a notice of availability was published in the FEDERAL REGISTER on February 17, 1971 (36 F.R. 3080).

Pursuant to sections A.7 and D.1 of Appendix D to 10 CFR Part 50, interested persons may, within thirty (30) days from date of publication of this notice in the FEDERAL REGISTER, submit comments on the proposed action, the report and the draft detailed statement for the Commission's consideration. Federal and State agencies are being provided with copies of the report and the draft detailed statement (local agencies may obtain these documents on request), and when comments thereon of the Federal, State and local officials are received, they will be made available for public inspection at the above-designated locations. Comments on the draft detailed statement on environmental considerations from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection.

Dated at Bethesda, Md., this 7th day of January 1972.

For the Atomic Energy Commission.

DANIEL R. MULLER,
Acting Assistant Director for
Pressurized Water Reactors,
Division of Reactor Licensing.

ENVIRONMENTAL PROTECTION AGENCY

AMCHEM PRODUCTS, INC.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U.S.C. 346a(d) (1)), notice is given that a petition (PP 2F1213) has been filed by Amchem Products, Inc., Ambler, Pa. 19002, proposing establishment of a tolerance (40 CFR Part 180) of 1 part per million for residues of the herbicide 2,3,6-trichlorophenylacetic acid in fish and water, such residues resulting from application of its sodium salt for aquatic weed control.

The analytical method proposed in the petition for determining residues of the herbicide is a procedure in which the residues are extracted, methylated, and then determined by a gas chromatographic technique using a microcoulometric detection system.

Dated: December 21, 1971.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator
for Pesticides Programs.

FEDERAL COMMUNICATIONS COMMISSION

[Report 577]

COMMON CARRIER SERVICES INFORMATION¹

Domestic Public Radio Services Applications Accepted for Filing²

JANUARY 3, 1972.

Pursuant to §§ 1.227(b) (3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed below if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] BEN F. WAPLE,
Secretary.

¹ All applications listed below are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

² The above alternative cutoff rules apply to those applications listed below as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the rules).

POINT-TO-POINT MICROWAVE RADIO SERVICE

Applicant, Microwave Relay Services, Inc., proposes a video common carrier system between Charlotte, Columbia, Charlestown, Augusta, and Savannah. The proposed system will interconnect with Applicant's previously filed Florida system (FCC File Nos. 401 through 435-C1-P-72) at Orange Park, Fla.

3764-C1-P-72—Microwave Relay Services, Inc. (New), a new station in Charlotte, N.C. located at southeast corner of South Tryon and Stonewall Street at latitude 35°13'24" N., longitude 80°50'53" W. Frequencies 3730H, 3310H, 3890H, 3750V, and 3830V MHz to Rock Hill, S.C., on an azimuth of 212°40'. Frequency 11325H MHz to WBTV-TV studio on an azimuth of 277°13'. Frequency 11665V MHz to WCCB-TV studio on an azimuth of 115°15'. And frequency 11405V MHz to WSOC-TV studio on an azimuth of 45°50'.

3765-C1-P-72—Microwave Relay Services, Inc. (New), a new station 1.2 miles west of Rock Hill, S.C. at latitude 34°56'06" N., longitude 81°04'24" W. Frequencies 3770H, 3850H, 3710V, 3790V, and 3870V MHz to Cornwell, S.C., on an azimuth of 192°07'. Frequencies 4170H and 4110V MHz to Charlotte, N.C., on an azimuth of 32°32'.

3766-C1-P-72—Microwave Relay Services, Inc. (New), a new station 0.7 mile south of Cornwell, S.C., at latitude 34°38'05" N., longitude 81°09'37" W. Frequencies 3730H, 3810H, 3890H, 3750V, and 3830V MHz to Simpson, S.C., on an azimuth of 161°48'. Frequencies 4130H and 4150V MHz to Rock Hill, S.C., on an azimuth of 12°04'.

3767-C1-P-72—Microwave Relay Services, Inc. (New), a new station 0.2 mile east of Simpson, S.C., at latitude 34°18'14" N., longitude 81°02'31" W. Frequencies 3770H, 3850H, 3710V, 3790V, and 3870V MHz to Gilbert, S.C., on an azimuth of 208°54'. Frequencies 4170V and 4110V MHz to Cornwell, S.C., on an azimuth of 341°52'.

3768-C1-P-72—Microwave Relay Services, Inc. (New), a new station 4 miles southeast of Gilbert, S.C., at latitude 33°53'26" N., longitude 81°19'00" W. Frequencies 3730H, 3810H, 3890H, 3750V, and 3830V MHz to Kitchings Mill, S.C., on an azimuth of 205°37'. Frequencies 4130V and 4150H MHz to Simpson, S.C., on an azimuth of 28°45'. Frequency 3770H MHz to WIS-TV studio on an azimuth of 64°58'. Frequency 3930H MHz to WNOK-TV studio on an azimuth of 72°14'. Frequency 4190H MHz to WOLO-TV studio on an azimuth of 59°11'.

3769-C1-P-72—Microwave Relay Services, Inc. (New), a new station 1.85 miles north of Kitchings Mill, S.C., at latitude 33°36'21" N., longitude 81°28'50" W. Frequencies 3770V, 3850V, 3710H, 3790H, and 3870H MHz to Bath, S.C., on an azimuth of 247°14'. Frequencies 3710V, 3790V, 3870V, and 3770H MHz to Norway, S.C., on an azimuth of 117°0'. Frequencies 4170V and 4110H MHz to Gilbert, S.C., on an azimuth of 26°32'.

3770-C1-P-72—Microwave Relay Services, Inc. (New), a new station 2.9 miles southeast of Norway, S.C., at latitude 33°25'50" N., longitude 81°04'12" W. Frequencies 3730V, 3810V, 3890V, and 3750H MHz to Bowman, S.C., on an azimuth of 106°59'.

3771-C1-P-72—Microwave Relay Services, Inc. (New), a new station 1.7 miles southeast of Bowman, S.C., at latitude 33°19'30" N., longitude 80°39'33" W. Frequencies 3710V, 3790V, 3870V, and 3950V MHz to Dorchester, S.C., on an azimuth of 136°26'.

3772-C1-P-72—Microwave Relay Services, Inc. (New), a new station 2.2 miles south of Dorchester, S.C., at latitude 33°06'20" N., longitude 80°24'37" W. Frequencies 3770H, 3850H, and 3750V, and 3830V MHz to Ladson, S.C., on an azimuth of 126°55'.

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

3786-C2-P-72—Messages By Radio, Inc. (KEA200) For additional facilities to operate on 152.18 MHz at location No. 2: 49 South Main Street, Spring Valley, N.Y.

3824-C2-P-72—Loflin's Transfer & Storage Co., Inc. doing business as Mobilphone Systems (New) For a new 1-way station to be located at 4081 Ross Clark Circle NW., Dothan, AL, to operate on 152.24 MHz.

3832-C2-MP-72—Mountain States Telephone and Telegraph Co. (KSV917) Replace the base transmitter operating on 454.700 MHz, located 6 miles south-southwest of Casper, Wyo. (Air-Ground).

3836-C2-P-72—Westool Radio Dispatch. (KAD511) Replace repeater transmitter operating on 459.20 MHz at location No. 4: 7 miles south-southwest of White Water, Colo.

3838-C2-P-72—Hopkinton Telephone Co. (KCB302) Change the antenna system and add a transmitter on 152.72 MHz located at Gould Hill, approximately 1 mile east of Contook, N.H.

3890-C2-P-72—Office Communications Co. (New) For a new 2-way station to be located at 310 West Fourth Street, Winston-Salem, NC, base frequency 454.025 MHz.

3891-C2-P-72—General Telephone Co. of The Northwest, Inc. (New) For a new 2-way station to be located at 13013 Northeast 65 Street, Kirkland, WA, to operate on base frequency 454.550 MHz.

Major amendment

5809-C2-P-68—The Ohio Bell Telephone Co. (New) Amended to read: C.P. for a new 1-way signaling station. Frequency 152.83 MHz.

Locations

Location No. 1: 739 South Broadway Avenue, Bedford, OH.
 Location No. 2: 7411 Chippewa Road, Brecksville, OH.
 Location No. 3: 16351 Brookpark Road, Brookpark, OH.
 Location No. 4: 100 Erieview Plaza, Cleveland, OH.
 Location No. 5: 1424 Angonne Road, South Euclid, OH.
 Location No. 6: 7225 Broadway Avenue, Cleveland, OH.
 Location No. 7: 10922 State Road, Cleveland, OH.
 Location No. 8: 25900 Lakeland Boulevard, Euclid, OH.
 Location No. 9: 24150 Lorain Road, North Olmsted, OH.
 See Public Notice dated August 28, 1968, Report No. 402-1.

Informative: It appears that the following applications may be mutually exclusive and subject to the Commission's rules regarding ex parte presentations, by reasons of potential electrical interference.

Missouri

6112-C2-P-71—Business Communications, Inc., KAA888.

Illinois

305-C2-P-71—Tel-Illinois, Inc., New.

RURAL RADIO SERVICE

3759-C1-P-72—Western States Telephone Co., Inc. (New) For a new rural subscriber station to be located at I. D. Ranch, approximately 13 miles southeast of Fort Apache, Ariz., to operate on 157.83 MHz communicating with station KOP805 McNary, Ariz.

3759-C1-P-72—RCA Alaska Communications, Inc. (New) For a new rural subscriber station to be located at Bia School, Eek, Alaska, to operate on 157.77, 157.86, 157.95, and 158.04 MHz communicating with station at Bethel, Alaska.

3760-C1-P-72—RCA Alaska Communications, Inc. (New) For a new rural subscriber station to be located at James Charley's residence, approximately 44 miles south-southwest from Bethel, at Tunrutliak, Alaska, communicating with station at Bethel, Alaska.

3837-C1-P-72—RCA Communications, Inc. (New) For a new rural subscriber station to be located at BIA Power Generator Building, Sheldon Point, Alaska, to operate on 158.80, 157.89, and 157.98 MHz communicating with station at Cape Romanzof, Alaska.

Informative: Beginning with this Public Notice the publication of common carrier microwave applications and amendments accepted for filing will specify the polarization of each frequency to be transmitted. All amendments to pending applications which change polarizations will be considered as major amendments.

- 3776-C1-P-72—Microwave Relay Services, Inc. (New), a new station 4.6 miles east-northeast of Millen, Ga., at latitude 32°49'53" N., longitude 81°51'43" W. Frequencies 3730V, 3810V, 3890V, 3760H, and 3830H MHz to Statesboro, Ga., on an azimuth of 184°28'. Frequencies 4130V and 4160H MHz to Greens Cut, Ga., on an azimuth of 345°37'.
- 3777-C1-P-72—Microwave Relay Services, Inc. (New), a new station 5.7 miles west of Statesboro, Ga., at latitude 32°28'09" N., longitude 81°53'42" W. Frequencies 3770H, 3850H, 3750V, 3830V, and 3910V to Groveland, Ga., on an azimuth of 158°30'. Frequencies 4170H and 4110V MHz to Millen, Ga., on an azimuth of 4°23'.
- 3778-C1-P-72—Microwave Relay Services, Inc. (New), a new station 0.15 mile north of Groveland, Ga., at latitude 32°08'50" N., longitude 81°44'43" W. Frequencies 3730V, 3810V, 3710H, 3790H, and 3870H MHz to Tison, Ga., on an azimuth of 228°01'. Frequencies 3730V, 3810V, 3710H, and 3790H MHz to Bloomingdale, Ga., on an azimuth of 90°7'. Frequencies 4130V and 4110H MHz to Statesboro, Ga., on an azimuth of 338°35'.
- 3779-C1-P-72—Microwave Relay Services, Inc. (New), a new station 2.2 miles west-northwest of Bloomingdale, Ga., at latitude 32°08'45" N., longitude 81°20'05" W. Frequency 3750V MHz to WJCL-TV studio on an azimuth of 131°41'. Frequency 3850H MHz to WSAV-TV studio on an azimuth of 114°28'. Frequency 4170H MHz to WTOG-TV studio on an azimuth of 110°36'.
- 3780-C1-P-72—Microwave Relay Services, Inc. (New), a new station 0.3 miles southeast of Tison, Ga., at latitude 31°55'43" N., longitude 82°01'52" W. Frequencies 3770H, 3850H, 3750V, 3830V, and 3910V MHz to Jesup, Ga., on an azimuth of 167°18'. Frequencies 4170H and 4150V MHz to Groveland, Ga., on an azimuth of 47°52'.
- 3781-C1-P-72—Microwave Relay Services, Inc. (New), a new station 5.2 miles east-southeast of Owen, Ga., at latitude 31°19'11" N., longitude 82°07'13" W. Frequencies 3770H, 3930H, 3750V, 3830V, and 3910V MHz to Racepoint, Ga., on an azimuth of 181°09'. Frequencies 4170V and 4150H MHz to Jesup, Ga., on an azimuth of 27°25'.
- 3782-C1-P-72—Microwave Relay Services, Inc. (New), a new station 0.2 mile south of Racepoint, Ga., at latitude 30°59'50" N., longitude 82°07'40" W. Frequencies 3730H, 3810H, 3710V, 3790V, and 3870V MHz to Toledo, Ga., on an azimuth of 169°51'. Frequencies 4130H and 4110V MHz to Owen, Ga., on an azimuth of 1°8'.
- 3783-C1-P-72—Microwave Relay Services, Inc. (New), a new station 4.9 miles north of Toledo, Ga., at latitude 30°42'23" N., longitude 82°04'09" W. Frequencies 3770V, 3850V, 3750H, 3830H, and 3910H MHz to Verdrie, Florida, on an azimuth of 154°40'. Frequencies 4170H and 4150V MHz to Racepoint, Ga., on an azimuth of 349°53'.
- 3784-C1-P-72—Microwave Relay Services, Inc. (New), a new station 0.3 mile north of Verdrie, Fla., at latitude 30°26'21" N., longitude 81°55'14" W. Frequencies 3730V, 3810V, 3710H, 3790H, and 3870H MHz to Orange Park, Fla., on an azimuth of 149°53'. Frequencies 4130H and 4110V MHz to Toledo, Ga., on an azimuth of 334°45'.
- 3785-C1-P-72—Microwave Relay Services, Inc. (New), a new station 2.3 miles west of Jesup, Ga., at latitude 31°36'22" N., longitude 81°56'45" W. Frequencies 3730H, 3810H, 3710V, 3790V, and 3870V MHz to Owen, Ga., on an azimuth of 207°30'. Frequencies 4130V and 4110H MHz to Tison, Ga., on an azimuth of 347°21'.
- 3827-C1-P-72—The Mountain States Telephone & Telegraph Co. (KXQ86), location: 809 Pleasant Street, Miles City, MT. Latitude 46°24'59" N., longitude 105°50'58" W. To add frequency 2178.0V MHz toward Volborg, Mont.
- 3828-C1-P-72—The Mountain States Telephone & Telegraph Co. (New), a new station located 300 Block Wilber Avenue, Broadus, Mont. Latitude 45°26'38" N., longitude 105°24'27" W. Frequency: 2112.0V MHz toward Home Creek, Mont., via passive reflector.
- 3829-C1-P-72—The Mountain States Telephone & Telegraph Co. (New), a new station located 14 miles north of Volborg, Mont., latitude 46°02'55" N., longitude 105°38'51" W. Frequencies: 2120.0H MHz toward Home Creek, Mont., and 2128.0V MHz toward Miles City, Mont.
- 3830-C1-P-72—The Mountain States Telephone & Telegraph Co. (New), a new station located 16 miles east of Ashland, Mont., latitude 45°36'16" N., longitude 105°56'13" W. Frequencies: 2170.0H MHz toward Volborg, Mont., via passive reflector.
- 3839-C1-P-72—American Telephone & Telegraph Co. (KOB26), location: 3100 Kennedy Drive, Salt Lake City Junction, UT. Latitude 40°45'06" N., longitude 111°48'03" W. To add frequency 3810H MHz toward Bountiful, Utah.
- 3840-C1-P-72—American Telephone & Telegraph Co. (KPB83), location: 1.7 miles north of Sale Lake City, Utah (Bountiful), latitude 40°48'18" N., longitude 111°53'48" W. To add frequency 4090H MHz toward North Ogden, Utah.

- 3841-C1-P-72—American Telephone & Telegraph Co. (KPB84), location: 9 miles north-northwest of Ogden, Utah (North Ogden), latitude 41°20'52" N., longitude 112°00'31" W. To add frequency 4050H MHz toward Riverside, Utah.
- 3842-C1-P-72—American Telephone & Telegraph Co. (KPB85), location: 2 miles southwest of Riverside, Utah. Latitude 41°46'46" N., longitude 112°11'08" W. To add frequency 4090V MHz toward Malad City, Idaho.
- 3843-C1-P-72—American Telephone & Telegraph Co. (KPB86), location: 8 miles north of Malad City, Idaho. Latitude 42°18'23" N., longitude 112°14'11" W. To add frequency 4050H toward Inkom, Idaho.
- 3844-C1-P-72—American Telephone & Telegraph Co. (KPB87), location: 5 miles east-southeast of Inkom, Idaho. Latitude 42°46'48" N., longitude 112°09'18" W. To add frequency 4090H MHz toward Pocatello Junction, Idaho.
- 3845-C1-P-72—American Telephone & Telegraph Co. (KPB88), location: 3 miles west-southwest of Pocatello, Idaho. Latitude 42°50'55" N., longitude 112°30'58" W. To add frequency 4030H MHz toward American Falls, Idaho.
- 3846-C1-P-72—American Telephone & Telegraph Co. (KPF24), location: 6.5 miles west of American Falls, Idaho. Latitude 42°47'19" N., longitude 113°00'06" W. To add frequency 4070H MHz toward Rupert, Idaho.
- 3847-C1-P-72—American Telephone & Telegraph Co. (KPF23), location: 10.5 miles east of Rupert, Idaho. Latitude 42°37'00" N., longitude 113°25'23" W. To add frequency 4030H MHz toward Burley, Idaho.
- 3848-C1-P-72—American Telephone & Telegraph Co. (KPF22), location: 5.8 miles west-southwest of Burley, Idaho. Latitude 42°30'46" N., longitude 113°55'05" W. To add frequency 4070H MHz toward Jerome, Idaho.
- 3849-C1-P-72—American Telephone & Telegraph Co. (KPF21), location: 4.5 miles east of Jerome, Idaho. Latitude 42°44'02" N., longitude 114°25'05" W. To add frequency 4030H MHz toward Indian Butte, Idaho.
- 3850-C1-P-72—American Telephone & Telegraph Co. (KPF20), location: 8 miles southwest of Hagerman, Idaho (Indian Butte, Idaho). Latitude 42°45'13" N., longitude 115°02'43" W. To add frequency 4070H MHz toward Mountain Home, Idaho.
- 3851-C1-P-72—American Telephone & Telegraph Co. (KPE99), location: 7.5 miles northeast of Mountain Home, Idaho. Latitude 43°12'19" N., longitude 115°33'52" W. To add Boise Junction, Idaho, Frequency 4030H.
- 3852-C1-P-72—American Telephone & Telegraph Co. (KPE98), location: 9 miles southeast of Boise, Idaho (Boise Junction). Latitude 43°29'20" N., longitude 116°01'36" W. To add frequency 4010V MHz toward Boise, Idaho, and 3850H MHz toward Napa, Idaho.
- 3853-C1-P-72—American Telephone & Telegraph Co. (KPY95), location: 5.8 miles south of Napa, Idaho. Latitude 43°29'34" N., longitude 116°33'12" W. To add frequency 3810H MHz toward Parma, Idaho.
- 3854-C1-P-72—American Telephone & Telegraph Co. (KPY96), location: 3.5 miles north-northeast of Parma, Idaho. Latitude 43°50'09" N., longitude 116°54'38" W. To add frequency 3850H MHz toward Vale, Ore.
- 3855-C1-P-72—American Telephone & Telegraph Co. (WAD47), location: 7.6 miles north-northeast of Vale, Ore. Latitude 44°04'59" N., longitude 117°10'21" W. To add frequency 3810H MHz toward Brogan, Ore.
- 3856-C1-P-72—American Telephone & Telegraph Co. (WAD48), location: 6.7 miles west of Brogan, Ore. Latitude 44°16'05" N., longitude 117°38'58" W. To add frequency 3850H MHz toward Elkhorn, Ore.
- 3857-C1-P-72—American Telephone & Telegraph Co. (WAD49), location: 11.1 miles south-southeast of Bates, Ore. (Elkhorn). Latitude 44°26'33" N., longitude 118°25'15" W. To add frequency 3810H MHz toward John Day, Ore.
- 3858-C1-P-72—American Telephone & Telegraph Co. (WAD50), location: 4.3 miles southwest of John Day, Ore. Latitude 44°22'24" N., longitude 119°00'13" W. To add frequency 3850H MHz toward Dayville, Ore.
- 3859-C1-P-72—American Telephone & Telegraph Co. (WAD51), location: 3.7 miles east of Dayville, Ore. Latitude 44°27'30" N., longitude 119°27'32" W. To add frequency 3810H MHz toward Mitchell, Ore.
- 3860-C1-P-72—American Telephone & Telegraph Co. (WAD52), location: 6.8 miles east-northeast of Mitchell, Ore. Latitude 44°36'06" N., longitude 120°01'22" W. To add frequency 3850H MHz toward Antelope, Ore.

POINT-TO-POINT MICROWAVE RADIO SYSTEM—continued

3861-C1-P-72—American Telephone & Telegraph Co. (WAD58) location: 7.4 miles southeast of Antelope, Ore. Latitude 44°49'14" N., longitude 120°38'54" W. To add frequency 381.00 MHz toward Maupin, Ore.
 3862-C1-P-72—American Telephone & Telegraph Co. (WAD54) location: 9.7 miles southeast of Maupin, Ore. Latitude 45°02'54" N., longitude 121°00'22" W. To add frequency 415.00 MHz toward Pine Grove, Ore.
 3863-C1-P-72—American Telephone & Telegraph Co. (WAD56) location: 7 miles west-southwest of Wapinitia, Ore. Latitude 45°05'14" N., longitude 121°23'57" W. To add frequency 411.00 MHz toward Mount Hood, Ore.
 3864-C1-P-72—American Telephone & Telegraph Co. (WAD57) location: 3 miles northeast of Government Camp, Ore. (Mount Hood). Latitude 45°19'59" N., longitude 121°42'44" W. To add frequency 415.00 MHz toward Boring, Ore.
 3865-C1-P-72—American Telephone & Telegraph Co. (WAD58), location: 1.6 miles northwest of Boring, Ore. Latitude 45°27'01" N., longitude 122°23'39" W. To add frequency 411.00 MHz toward Portland, Ore.
 3866-C1-P-72—American Telephone & Telegraph Co. (KSP32), location: 4.9 miles east of Oakdale, Ill. Latitude 38°14'40" N., longitude 89°24'58" W. To add frequency 399.00 MHz toward Valer, Ill.
 3867-C1-P-72—American Telephone & Telegraph Co. (KSP77), location: 0.7 mile southeast of Fort Branch, Ind. Latitude 38°14'18" N., longitude 87°33'52" W. To add frequency 399.00 MHz toward Crossville, Ill.
 3868-C1-P-72—American Telephone & Telegraph Co. (KSP79), location: 2.8 miles east of Crossville, Ill. Latitude 38°10'04" N., longitude 88°01'46" W. To add frequency 395.00 MHz toward McLeansboro, Ill., and 395.00 MHz toward Fort Branch, Ind.
 3869-C1-P-72—American Telephone & Telegraph Co. (KSP80), location: 4 miles southwest of McLeansboro, Ill. Latitude 38°01'56" N., longitude 88°34'05" W. To add frequency 399.00 MHz toward Valer and Crossville, Ill.
 3870-C1-P-72—American Telephone & Telegraph Co. (KSP68), location: 3.3 miles northwest of Lawrenceburg, Ind. Latitude 39°08'01" N., longitude 84°53'02" W. To add frequency 408.00 MHz toward Shandon, Ohio.
 3871-C1-P-72—American Telephone & Telegraph Co. (KQO84), location: 2.7 miles northeast of Shandon, Ohio. Latitude 39°21'36" N., longitude 84°41'32" W. To add frequency 407.00 MHz toward Lawrenceburg, Ind., and 407.00 MHz toward Blue Ball, Ohio.
 3872-C1-P-72—American Telephone & Telegraph Co. (KQO82), location: 1.2 miles southeast of Blue Ball, Ohio. Latitude 39°28'50" N., longitude 84°19'05" W. To add frequency 403.00 MHz toward Shandon and 403.00 MHz toward Wilmington, Ohio.
 3873-C1-P-72—American Telephone & Telegraph Co. (KQO73), location: 4 miles north of Wilmington, Ohio. Latitude 39°30'08" N., longitude 83°50'32" W. To add frequency 407.00 MHz toward Blue Ball and Washington Court House, Ohio.
 3874-C1-P-72—American Telephone & Telegraph Co. (KQO72), location: 3.2 miles northeast of Washington Court House, Ohio. Latitude 39°34'39" N., longitude 83°23'56" W. To add frequency 403.00 MHz toward Wilmington and Frankford, Ohio.
 3875-C1-P-72—American Telephone & Telegraph Co. (KQO83), location: 4.4 miles east of Frankford, Ohio. Latitude 39°24'54" N., longitude 83°05'49" W. To add frequency 407.00 MHz toward Washington Court House and Amanda, Ohio.
 3876-C1-P-72—American Telephone & Telegraph Co. (KQO68), location: 3 miles northeast of Amanda, Ohio. Latitude 39°41'17" N., longitude 82°43'22" W. To add frequency 403.00 MHz toward Frankfort, Ohio, and 395.00 MHz toward New Lexington, Ohio.
 3877-C1-P-72—American Telephone & Telegraph Co. (KQO67), location: 3.5 miles southwest of New Lexington, Ohio. Latitude 39°40'13" N., longitude 82°14'20" W. To add frequencies 399.00 MHz toward Amanda and McConnelsville, Ohio.
 3878-C1-P-72—American Telephone & Telegraph Co. (KQO66), location: 2.7 miles east of McConnelsville, Ohio. Latitude 39°38'24" N., longitude 81°48'09" W. To add frequency 395.00 MHz toward New Lexington, and Pleasant City, Ohio.
 3879-C1-P-72—American Telephone & Telegraph Co. (KQO65), location: 3.2 miles south of Pleasant City, Ohio. Latitude 39°51'30" N., longitude 81°33'28" W. To add frequency 399.00 MHz toward McConnelsville, and Malaga, Ohio.
 3880-C1-P-72—American Telephone & Telegraph Co. (KQO64), location: 1.6 miles northwest of Malaga, Ohio. Latitude 39°51'51" N., longitude 81°10'33" W. To add frequency 395.00 MHz toward Pleasant City and Bridgeport, Ohio.

POINT-TO-POINT MICROWAVE RADIO SYSTEM—continued

3881-C1-P-72—American Telephone & Telegraph Co. (KQE49), location: 1.3 miles south of Bridgeport, Ohio. Latitude 40°03'42" N., longitude 80°45'30" W. To add frequency 389.00 MHz toward Malaga, Ohio, and 375.00 MHz toward Sycamore, Pa.
 3882-C1-P-72—American Telephone & Telegraph Co. (KGO68), location: 3.6 miles north of Sycamore, Pa. Latitude 39°59'18" N., longitude 80°14'08" W. To add frequency 371.00 MHz toward Bridgeport, Ohio.
 3883-C1-P-72—American Telephone & Telegraph Co. (KSP81), location: 2.3 miles northeast of Valer, Ill. Latitude 38°02'14" N., longitude 89°00'49" W. To add frequency 395.00 MHz toward Oakdale and McLeansboro, Ill.
 3884-C1-P-72—American Telephone & Telegraph Co. (KAS85), location: 8.9 miles northeast of Cedarwood, Colo. Latitude 38°01'30" N., longitude 104°29'38" W. To add frequency 377.00 MHz toward Pueblo, Colo.
 3885-C1-P-72—Southwestern Bell Telephone Co. (KYJ47), location: 715 Louisiana, Little Rock, AR. Latitude 34°44'31" N., longitude 92°16'18" W. To add frequency 6197.2 MHz toward High Point, Ark.
 3886-C1-P-72—Southwestern Bell Telephone Co. (WHB32), location: High Point Mountain, 2.4 miles northwest of Roland, Ark. Latitude 34°55'54" N., longitude 92°31'15" W. To add frequency 5945.2 MHz toward Little Rock and Morrilton, Ark.
 3887-C1-P-72—Southwestern Bell Telephone Co. (New), a new station 609 South Moose, Morrilton, AR. Latitude 35°08'42" N., longitude 92°44'28" W. To add frequency 6197.2 MHz toward High Point, Ark.
 3892-C1-P-72—Mountain Microwave Corp. (KB122), location: 8 miles west of Broadmore, Colo. Latitude 38°46'25" N., longitude 104°59'30" W. To change frequency 6137.9 MHz to 1135 MHz (via power split) toward Monarch Pass and Methodist Mountain, Colo.
 3893-C1-P-72—Mountain Microwave Corp. (KBT67), location: 17 miles west of Salida, Colo. Latitude 38°29'46" N., longitude 106°19'01" W. To change frequency 6390.0 MHz to 11445 MHz toward Waterdog Peak, Colo.
 3894-C1-P-72—Mountain Microwave Corp. (KBT68), location: 13 miles southeast of Montrose, Colo. Latitude 38°23'15" N., longitude 107°40'26" W. To change frequency 6049.0 MHz to 11115 MHz toward Grand Junction, Colo.
 3895-C1-P-72—Telecommunications, Inc. (WIV69), to change location to Yakima, Wash. Latitude 46°34'35" N., longitude 120°32'31" W. Frequency 6212.00 MHz toward Rattlesnake Hills, Wash., via passive reflector at latitude 46°34'36.4" N., longitude 120°32'31" W.
 The following applicants propose to establish omnidirectional facilities for the provision of common carrier "Subscriber-Programmed" television service.
 3826-C1-P-72—Microwave Relay Services, Inc. (New), a new station located at 2 Peachtree Street NE, Atlanta, GA. Latitude 33°45'28" N., longitude 84°23'50" W. Frequencies: 2152.325V MHz (Visual) and 2150.20V MHz (Aural) directed toward various receiving points of system and 2158.50V MHz (Visual) and 2154.00V MHz (Aural) toward various receiving points of system.
 3831-C1-P-72—Alfred E. Anscombe (New), a new station located at United Office Building, Niagara Falls, N.Y. Latitude 43°05'07" N., longitude 79°03'43" W. FEDERAL POWER COMMISSION

[Docket No. RP72-93]

ALGONQUIN GAS TRANSMISSION CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 5, 1972.

Take notice that Algonquin Gas Transmission Co. (Algonquin) on December 23, 1971, tendered for filing proposed changes in its FPC Gas Tariff, Original Volumes Nos. 1 and 2.¹ The proposed rate changes would increase Algonquin's revenues from jurisdictional sales and services by \$115,242 annually. Algonquin requests the Commission to waive compliance with those parts of its rules and regulations necessary to place the proposed increased rates in effect.

Algonquin in its filing states that the proposed changes in its rates are designed to recoup only the effect of an increase in the cost of gas purchased from Texas Eastern Transmission Corp. (Texas Eastern) resulting from the latter's rate increase filed on or about December 23, 1971. Algonquin requests that the proposed rate changes become effective on January 22, 1972, or on such other date as the proposed increased rates of Texas Eastern are permitted to become effective.

Any order issued in this proceeding is subject to our Statement of Policy Implementing the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38) and Executive Order No. 11615, including such amendments as the Commission may require.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 15, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must

file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-83]

ALGONQUIN GAS TRANSMISSION CO.

Order Permitting Tracking of Purchased Gas Cost Increase

DECEMBER 30, 1971.

On December 3, 1971, Algonquin Gas Transmission Co. (Algonquin) filed an increase in its charges for jurisdictional sales and services of \$393,724 annually. The filing tracks the increase filed by Texas Eastern Transmission Corp. in Docket No. RP72-81, which tracks the effect of Commission Opinion No. 607 issued on October 29, 1971, in Docket No. AR67-1, et al. Algonquin requests waiver of the 30 day notice provisions of the Commission's regulations to permit the revised tariff sheets¹ to become effective on January 1, 1972, the same date as its supplier's proposed increase.

On December 16, 1971, Boston Gas et al., filed a joint petition to intervene in opposition to the proposed increase.

As stated in our orders approving Algonquin's previous tracking increases in Dockets Nos. RP72-44 and RP72-70, issued on December 16, 1971, the Commission has consistently followed a policy allowing natural gas pipeline companies to recoup increases in the cost of purchased gas. For the reasons there stated, the Commission finds the subject filing which is designed solely to recover the increase in cost of purchased gas to be reasonable.

The Commission finds:

(1) It is appropriate and in the public interest for the proceedings in Dockets Nos. RP70-30 et al. and RP72-83 to be consolidated for decision.

(2) It is necessary and proper in the public interest to permit Algonquin to track the filed increase in cost of purchased gas.

(3) Good cause exists to waive the notice provisions of § 154.22 of the Commission's regulations under the Natural Gas Act.

¹Original Volume No. 1: Twenty-Third Revised Sheet No. 5, 23d Revised Sheet No. 10, 24th Revised Sheet No. 11-A, 24th Revised Sheet No. 12, 23d Revised Sheet No. 14 and 20th Revised Sheet No. 15-J. Original Volume No. 2: Twenty-Fourth Revised Sheet No. 4 and 21st Revised Sheet No. 57.

The Commission orders:

(A) The proceedings in Dockets Nos. RP70-30 et al. and RP72-83 are consolidated for decision.

(B) Algonquin is permitted to place into effect the revised tariff sheets above on January 1, 1972, subject to flow-through of its supplier's refunds and rate reductions.

(C) Good cause exists to waive the notice requirements of § 154.22 of the Commission's regulations under the Natural Gas Act to permit the tendered tariff sheets to become effective January 1, 1972.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.72-391 Filed 1-10-72;8:47 am]

[Dockets Nos. RI71-501, RI70-190]

AMOCO PRODUCTION CO.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change to Become Effective Subject to Refund

JANUARY 5, 1972.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below:

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Ch. I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf*		Rate in effect subject to refund in docket No.
									Rate in effect	Proposed increased rate	
RI71-501..	Amoco Production Co.....	415	1-5	Mountain Fuel Supply Co. (West Side Canal Unit, Carbon County, Wyo.).	\$(800)	12- 6-71	-----	Accepted ² ..	16.16	16.08	RI71-501.
RI70-190.....	do.....	507	3-1		(1,257)	12- 6-71	-----	Accepted ² ..	15.15	15.075	RI70-190.

* Unless otherwise stated, the pressure base is 15.025 p.s.i.a.

¹ Tax decrease to reflect reimbursement on future production only.

² Accepted for filing to be effective as of the date of filing, as requested, subject to the existing rate proceedings in Dockets Nos. RI70-190 and RI71-501.

Amoco Production Co. has been collecting a double amount of the contractually due reimbursement for taxes applicable to future production as well as back to January 1, 1968. Since tax reimbursement applicable to past production has been recovered, respondent has filed rate decreases reducing its rates so as to provide for tax reimbursement for future production only. Consistent with Commission action on similar filings, the proposed decreases are accepted for filing subject to refund in existing suspension proceedings to be effective as of the date of filing, as requested.

In view of all the facts and circumstances in this case, the Commission's action herein of permitting the subject rate increases to become effective, subject to refund, at the expiration of the respective suspension periods ordered herein pending Commission determination of the justness and reasonableness of such increased rates is consistent with the Economic Stabilization Act of 1970, as amended, and regulations existing thereunder.

[Docket No. CP72-166]

LONE STAR GAS CO. Notice of Application

JANUARY 6, 1972.

Take notice that on December 22, 1971, Lone Star Gas Co. (applicant), 301 South Harwood Street, Dallas, TX 75201, filed in Docket No. CP72-166 an application pursuant to section 7(b) of the Natural Gas Act for permission for and approval of the abandonment of certain natural gas facilities located in Dallas and Tarrant Counties, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that a portion of its transmission line which serves the city of Grapevine, Tarrant County, Tex., underlies part of the new Dallas-Fort Worth Regional Airport, which is now being constructed, and that the development and construction of the airport necessitates major replacement and relocation of this transmission line in order to avoid interference with construction, disruption of airport operations and to assure the safety of future operations in the airport area. Applicant proposes to abandon approximately 4.89 miles of 4-inch pipeline extending southwesterly from Dallas County, Tex., to the Grapevine City Gate Measuring Station in Tarrant County, Tex., which also is to be abandoned. Applicant plans to abandon

in place an approximate 2.62-mile segment of the transmission line and to transfer temporarily the remaining 2.27-mile segment and the Grapevine City Gate Measuring Station to intrastate operations. Applicant further states that by making these operational changes it will be able to serve the city of Grapevine and the new Dallas-Fort Worth airport from adjacent intrastate natural gas supplies. Applicant plans no reduction of natural gas service to any community or customer as a result of the proposed abandonment.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 31, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-392 Filed 1-10-72;8:47 am]

[Docket No. RP71-125]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Filing of Stipulation and Agreement

JANUARY 4, 1972.

Take notice that on December 20, 1971, Natural Gas Pipeline Company of America (Natural) filed a motion requesting approval of a proposed Stipulation and Agreement to terminate the proceedings in Docket No. RP71-125. Natural states the submitted agreement is the result of discussions among Natural, the Commission Staff, and interested parties in the above entitled proceedings.

The Stipulation and Agreement, among other things as more fully set forth therein, provides for a reduction in rates below those which are presently in effect subject to refund in the above-captioned proceedings, and sets forth refunds by Natural for the excess which has been collected above rates set forth in the Stipulation and Agreement; provides for changes in the settlement rates to track the cost of service effect of certain specified expenses and capital expenditures incurred by Natural; and includes a moratorium until December 1, 1972, on all increases not specified by the agreement. The settlement also includes certain revisions of Natural's tariff.

Copies of the Stipulation and Agreement were served on all parties to the proceedings in Docket No. RP71-125. Comments with respect to the proposed Stipulation and Agreement may be filed with the Commission on or before January 17, 1972.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-394 Filed 1-10-72;8:47 am]

[Docket No. CP72-164]

UNITED GAS PIPE LINE CO. Notice of Application

JANUARY 6, 1972.

Take notice that on December 21, 1971, United Gas Pipe Line Co. (applicant), 1500 Southwest Tower, Houston, Tex. 77002, filed in Docket No. CP72-164 an application pursuant to section 7(b) of the Natural Gas Act for permission for an approval of the abandonment of service to Texas Gas Transmission Corp.

(Texas Gas) and the facilities used therefor in the Monroe Field, Ouachita Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant seeks permission and approval to abandon the sale of natural gas to Texas Gas and to abandon the field facilities which have been used for said sale in the Monroe Field, Ouachita Parish, La. Applicant states that the gas reserves, operating pressure and deliverability of the wells in the Monroe Field have declined to the point that applicant cannot justify the cost of installing and operating compressor stations to increase the gas pressure to the level required by pipeline flow conditions. Applicant further states that no deliveries have been made since 1967 and the abandonment of these facilities will have no effect on other deliveries applicant is making to Texas Gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 31, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Notice 2]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 4, 1972.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 31564 (Sub-No. 7 TA), filed December 27, 1971. Applicant: FRANK CORSO, INC., 270 Woodin Street, Hamden, CT 06514. Applicant's representative: William J. Meuser, 117 River Street, Milford, CT 06460. PART II

PRICE COMMISSION

■

Rate Increase Provisions
Relating to Insurers

Title 6—ECONOMIC STABILIZATION

Chapter III—Price Commission

PART 300—PRICE STABILIZATION

Rate Increase Provisions Relating to Insurers

The purpose of this amendment is to add a new § 300.20 to set forth the rules applicable to rate increases by insurers. In general, it is provided that insurers may charge a price for insurance, in excess of the base price, only in accordance with rate-making practices, rating plans, or formulas developed by using six factors set forth in paragraph (b) of the new section.

Each insurer that had revenues of \$250 million or more during the calendar year preceding the effective date of any rate increase it is proposing is designated at a "prenotifier" and must notify the Price Commission and the State regulatory agency at least 30 days before any proposed increase which affects \$1 million or more in aggregate annualized premiums under the existing rate, and would be required to certify that the proposed increase conforms to the requirements of the section. Such a proposed increase would be reviewed by the appropriate State regulatory agency (acting under agreement with the Price Commission) and acted upon, within 20 days, by certification that the increase does or does not comply with the section. The certification would be prima facie evidence of that compliance or noncompliance. The Price Commission would act on all such certifications and would also act on all filings that have not been acted upon by a State agency, by the 30th day after the filing. The Price Commission could delay the effective date, request further information, suspend all or part of the increase, or limit, refuse, rescind, reduce, or modify the increase. If the Price Commission does not act within 30 days after the date of the filing, the increase could go into effect without its approval.

Each insurer with annual revenues of \$50 million or more during the calendar year preceding any rate increased proposed by it will be required to file quarterly reports with the Price Commission.

The Price Commission is designating the United States Civil Service Commission as the certifying agent for contracts under the Federal Employees Health Benefits Law.

Because the purpose of this amendment is to provide immediate guidance and information as to the price stabilization rules in effect, it is hereby found that notice and public procedure thereon is impracticable and that good cause exists for making it effective less than 30 days after publication.

(Economic Stabilization Act of 1970, as amended, Public Law 91-379, 84 Stat. 799; Public Law 91-558, 84 Stat. 1468; Public Law 92-8, 85 Stat. 13; Public Law 92-15,

85 Stat. 38; Economic Stabilization Act Amendments of 1971, Public Law 92-210; Executive Order No. 11627, 36 F.R. 20139, Oct. 16, 1971; Cost of Living Council Order No. 4, 36 F.R. 20202, Oct. 16, 1971)

In consideration of the foregoing, Part 300 of Title 6 of the Code of Federal Regulations, is amended as follows, effective January 11, 1972.

Issued in Washington, D.C., on January 7, 1972.

C. JACKSON GRAYSON, Jr.,
Chairman, Price Commission.

1. The table of contents is amended by amending the entry for § 300.14 and inserting a new § 300.20 to read as follows:

Sec.
300.14 Service organizations, other than providers of health services and insurers.
300.20 Insurers.

2. Section 300.14 is amended to read as follows:

§ 300.14 Service organizations, other than providers of health services and insurers.

(a) A service organization may charge a price in excess of the base price with respect to the furnishing of services or the leasing of personal property only to reflect allowable costs in effect on November 13, 1971, and cost increases being incurred after November 13, 1971, reduced to reflect productivity gains, and only to the extent that the increased price does not result in an increase in that organization's profit margin over that which prevailed during the base period.

(b) This section does not apply to providers of health services covered by §§ 300.18 and 300.19 or to insurers covered by § 300.20.

3. The following new section is added after § 300.19:

§ 300.20 Insurers.

(a) Definitions: The following definitions apply in this section: "Insurer" means any person who—

(1) By contract for a stipulated consideration undertakes to compensate another for loss on a specified subject; and

(2) Either—

(i) Is subject to the regulatory jurisdiction of a State or the District of Columbia (including a person engaged in providing nonprofit medical or hospital services under such a regulatory jurisdiction); or

(ii) Is undertaking to provide medical or hospital services for a capitation fee.

"Prenotifier" means an insurer that had revenues of \$250 million or more during the calendar year preceding the effective date of a rate increase it is proposing.

"Rate" means any amount paid for insurance, calculated in accordance with a rate-making practice or formula, or developed under a classification system.

"State regulatory agency" means any commission, board, or other legal body that has jurisdiction over rates or practices of insurers in a State or the District of Columbia.

(b) General. An insurer may charge a price for insurance in excess of the base price only in accordance with rate-making practices, rating plans, or formulas developed by using the following:

(1) Factors that reflect experience incurred on all actual costs, including commissions payable to licensed agents and brokers on other than a percentage of premium basis, to the extent those commissions are not inconsistent with the rulings of the Pay Board and Price Commission, may be used in the customary manner in rate-making process.

(2) Factors that reflect changed conditions of risk may be used in accordance with customary practice in the normal rate-making process.

(3) Factors in rate-making processes or formulas anticipating cost or price increases for any period after November 13, 1971, may not exceed five-eighths of the rate of inflation, otherwise justified on the basis of the line of insurance involved in the proposed increase at the time of determining the rate increase, that would otherwise be used; however, assumptions of any rate of inflation during the period beginning on August 16, 1971 and ending on November 13, 1971, may not be used.

(4) Claim settlement expenses or loss adjustment expenses may continue to be loaded into premiums on a percentage basis related to the loss portion developed under subparagraph (1), (2), or (3) of this paragraph, or on any other customary basis.

(5) Any expense, profit, or retention portion of premiums (other than contingencies, claim settlement expenses or loss adjustment expense, State taxes and fees, and commissions payable to licensed agents and brokers based on a percentage of premium) when loaded on a percentage of premium basis may not be used to produce an actual dollar amount when applied to the average premium per unit of exposure under the proposed rate in excess of 2½ percent more than the actual dollar amount represented by those loadings applied to the average premium per unit of exposure under the rates that are to be increased.

(6) Contingencies, taxes and fees payable to a State, and commissions payable to licensed agents and brokers, to the extent otherwise consistent with the rulings of the Pay Board and Price Commission, based upon a percentage of premium, may continue to be loaded on the same percentage of premium basis in accordance with customary practice in the normal rate-making process.

(c) Prohibited changes: Except as otherwise provided by the Price Commission, for the purposes of this section, no insurer may change a rating formula, formula use or application, data base, rate-making procedure or technique, or other element in the rate-making process, or increase a rate as a result of such a prohibited change.

(d) **Prenotification:** Each pronotifier shall file a written notice with the Price Commission and the appropriate State regulatory agency of each State to which the rate increase is applicable (or the State of domicile or delivery of the master policy for experience rated or group contracts applicable to a multi-state risk) of each proposed rate increase which affects \$1 million or more in aggregate annualized premiums under the existing rate. Each insurer submitting a notice under this section shall certify to the Price Commission and the State regulatory authority that the proposed increase conforms to paragraphs (b) and (c) of this section.

(e) **Certification by State regulatory agency:** A State regulatory agency may agree, in writing, with the Price Commission to certify the rate increases of which it has received prenotification under paragraph (d) of this section are or are not in compliance with paragraphs (b) and (c) of this section, if that agency includes in the agreement a statement that—

- (1) It has the authority and ability to make those certifications; and
- (2) All information obtained by it in the certification procedure will be kept in a confidential status.

Each agency entering into such an agreement with the Price Commission shall furnish its certification to the Commission (with a copy to the insurer) within 20 days after the date it receives the prenotification. A certification by an agency under this paragraph is prima facie evidence that the proposed rate increase is or is not in compliance with paragraphs (b) and (c) of this section.

(f) **Self certification:** Whenever a pronotifier cannot obtain a certification of a rate increase from a State regulatory agency in accordance with paragraph (e) of this section because—

- (1) The State concerned has not agreed to furnish certifications under that paragraph; or
- (2) The State regulatory agency did not act upon the filing within the period required under that paragraph;

The pronotifier shall immediately notify the Price Commission that he cannot obtain the certification and may request the Commission to act upon the certification filed with it under paragraph (d) of this section.

(g) With respect to any rate increase certified by a State regulatory agency under paragraph (e) of this section or self-certified by a pronotifier under paragraph (f) of this section, the Price Commission may take any of the following actions during the period after receiving the certification or self-certification and before the end of the thirtieth day after the date the pronotifier filed under paragraph (d) of this section.

(1) Require the insurer to furnish additional information regarding the increase;

(2) Delay the effective date of the increase pending further Commission action;

(3) Suspend all or part of the effect of the increase, pending further action by the Price Commission or by the regulatory agency;

(4) Limit, refuse, rescind, reduce, or modify the increase.

If the Price Commission does not act upon a request under this paragraph before the end of the period prescribed in this paragraph, the increase may go into effect without Commission action. However, in any case in which that period would otherwise end on a Saturday, Sunday, or Federal holiday, it will end at the close of the next succeeding workday.

(h) **Reporting:** Each insurer that had annual revenues of \$50 million or more during the calendar year preceding any rate increase proposed by it shall file a quarterly report with the Price Commission, at the time it normally releases its quarterly reports but in any event not more than 45 days after the end of the quarter, of each rate increase by it during that quarter. The report shall be made on a form prescribed by the Commission and shall contain the information required by that form.

(i) **Federal Employees Health Benefit Law:** The Price Commission designates the U.S. Civil Service Commission to act as certifying agent for contracts of insurers under the Federal Employees Health Benefits Law. Each pronotifier that proposes to increase a rate under such a contract shall file notice thereof with the Price Commission and the Civil Service Commission. Each other insurer that proposes to increase a rate under such a contract shall file notice thereof with the Civil Service Commission. The Civil Service Commission shall, with respect to each proposed increase, certify to the Price Commission that the increase is or is not in compliance with paragraph (b) of this section, and that certification is prima facie evidence of compliance or noncompliance. A rate certified by the Civil Service Commission as being in compliance may go into effect on any date, specified by that Commission, that is at least 10 days after the date of the certification, and at least 30 days after the date of the prenotification.

(j) **Data requirements:** Each prenotification filed under paragraph (d) of this section and each report made under paragraph (h) of this section shall include—

- (1) Specification of the coverages to which the rate increase is applicable and of the person or persons by which the rate is to be used;
- (2) The average percentage increase by line of coverage and by State;
- (3) The annualized inflationary trend factor or factors used with specification of the applicability of the factors if more than one are involved, including pre-

freeze, freeze and postfreeze applicability separately; and

(4) The percentage increase in the actual dollar amount produced by application of loadings on a percentage of premium basis for expense, profit, or retention (other than contingencies, loss adjustment expenses or claim settlement expenses, State taxes and fees, and commissions payable to licensed agents and brokers based on a percentage of premium) to the average premium per unit of exposure under the proposed or increased rate as compared with the actual dollar amount so produced under the existing or previous rate.

(k) **Rates for replacement or revised insurance coverages:** The rate for a form of insurance coverage replacing or revising another form of insurance coverage previously written by the same insurer is subject to the same requirements as an increase in the rate for the previous insurance coverage would have been subject.

(l) **Insurance rates subject to State laws:** Approval of an insurance rate increase under this section does not authorize the use of an insurance rate in contravention of any applicable State law that is not inconsistent with this section.

(m) **Monitoring by health insurers.** Each health insurer is authorized and encouraged to monitor and report to health care providers (both institutional and noninstitutional) any price increases by those providers that involved significant deviation from the provisions of this part that apply to those providers and any increases in use of services or benefits that significantly exceeds its experience with that provider. Upon the receipt of such a report, the provider and the insurer shall make a good faith effort to determine whether any violation of this part has occurred and to take any steps to remedy such violation.

4. Paragraph (j) of § 300.51 is amended to read as follows:

§ 300.57 Prenotification firms.

* * * * *

(j) *Persons to whom section does not apply.* This section does not apply to providers of health services covered by § 300.18 or 300.19 or to insurers covered by § 300.20.

5. Section 300.52 is amended by adding the following new paragraph at the end thereof:

§ 300.52 Reporting firms.

* * * * *

(c) *Persons to whom section does not apply.* This section does not apply to insurers covered by § 300.20.

Know your Government...

The Manual describes the creation and authority, organization, and functions of the agencies in the legislative, judicial, and executive branches.

Most agency statements include new "Sources of Information" listings which tell you what offices to contact for information on such matters as:

- Consumer activities
- Environmental programs
- Government contracts
- Employment
- Services to small businesses
- Availability of speakers and films for educational and civic groups

This handbook is an indispensable reference tool for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.
