## Title 3—The President

PROCLAMATION 4114

### Quantitative Limitation on the Importation of Certain Meats Into the United States

*By the President of the United States of America*

#### A Proclamation

WHEREAS section 2(a) of the Act of August 22, 1964 (78 Stat. 594, 19 U.S.C. 1202 note) (hereinafter referred to as "the Act"), declares that it is the policy of the Congress that the aggregate quantity of the articles specified in item 106.10 (relating to fresh, chilled, or frozen cattle meat) and item 106.20 (relating to fresh, chilled, or frozen meat of goats and sheep (except lambs)) of the Tariff Schedules of the United States (hereinafter referred to as "meat") which may be imported into the United States in any calendar year beginning after December 31, 1964, shall not exceed a quantity to be computed as prescribed in that section (hereafter referred to as "adjusted base quantity"); and

WHEREAS section 2(b) of the Act provides that the Secretary of Agriculture for each calendar year after 1964 shall estimate and publish the adjusted base quantity for such calendar year and shall estimate and publish quarterly the aggregate quantity of meat which in the absence of the limitations under the Act would be imported during such calendar year (hereafter referred to as "potential aggregate imports"); and

WHEREAS the Secretary of Agriculture, pursuant to sections 2(a) and (b) of the Act, estimated the adjusted base quantity of meat for the calendar year 1972 to be 1,042.4 million pounds and estimated the potential aggregate imports of meat for 1972 to be 1,240 million pounds; and

WHEREAS the potential aggregate imports of meat for the calendar year 1972, as estimated by the Secretary of Agriculture, exceeds 110 percent of the adjusted base quantity of meat for the calendar year 1972 estimated by the Secretary of Agriculture; and

WHEREAS no limitation under the Act is in effect with respect to the calendar year 1972; and

WHEREAS section 2(c)(1) of the Act requires the President in such circumstances to limit by proclamation the total quantity of meat which

may be entered, or withdrawn from warehouse, for consumption, during the calendar year, to the adjusted base quantity estimated for such calendar year by the Secretary of Agriculture pursuant to section 2(b)(1) of the Act; and

WHEREAS section 2(d) of the Act provides that the President may suspend the total quantity proclaimed pursuant to section 2(c) of the Act if he determines and proclaims that such action is required by overriding economic or national security interests of the United States, giving special weight to the importance to the Nation of the economic well-being of the domestic livestock industry; and

WHEREAS section 2(d) of the Act further provides that such suspension shall be for such period as the President determines and proclaims to be necessary to carry out the purposes of section 2(d);

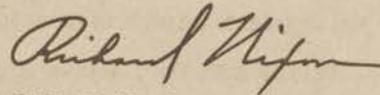

NOW, THEREFORE, I, RICHARD NIXON, President of the United States, acting under and by virtue of the authority vested in me as President and pursuant to section 2 of the Act, do hereby proclaim as follows:

(1) In conformity with and as required by section 2(c)(1) of the Act, the total quantity of the articles specified in item 106.10 (relating to fresh, chilled, or frozen cattle meat) and item 106.20 (relating to fresh, chilled, or frozen meat of goats and sheep (except lambs)) of part 2B, schedule 1 of the Tariff Schedules of the United States which may be entered, or withdrawn from warehouse, for consumption during the calendar year 1972, is limited to 1,042.4 million pounds.

(2) It is hereby determined pursuant to section 2(d) of the Act that the suspension of the limitation proclaimed in paragraph (1) is required by overriding economic interests of the United States, giving special weight to the importance to the Nation of the economic well-being of the domestic livestock industry.

(3) The limitation proclaimed in paragraph (1) is suspended during the calendar year 1972 unless because of changed circumstances it becomes necessary to take further action under the Act. It is hereby determined necessary that such suspension shall be for such period in order to carry out the purposes of section 2(d) of the Act.

IN WITNESS WHEREOF, I have hereunto set my hand this ninth day of March, in the year of our Lord nineteen hundred and seventy-two, and of the Independence of the United States of America, the one hundred and ninety-sixth.

## EXECUTIVE ORDER 11653

**Exemption of Jack T. Stuart from Compulsory Retirement for Age**

Jack T. Stuart, United States Marshal for the Southern District of Mississippi reached the age of 70 on February 22, 1972. Under section 8335 of title 5, United States Code, he would be subject to compulsory retirement for age, after 60 days advance notice, unless exempted therefrom by Executive order.

It is my judgment that the public interest would be well served if Mr. Stuart were to be exempted from such compulsory retirement:

NOW THEREFORE, by virtue of the authority vested in me by subsection (c) of section 8335 of title 5, United States Code, I hereby exempt Jack T. Stuart from compulsory retirement for age until May 19, 1975.

## Title 7—AGRICULTURE

### Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Amtd. 2]

#### PART 980—VEGETABLES: IMPORT REGULATIONS: ONIONS

##### Grade, Size, and Inspection Requirements

Notice of rule making regarding a proposed amendment to § 980.110, Onion import regulation (36 F.R. 13260, 14724), was published in the January 27, 1972, issue of the FEDERAL REGISTER (37 F.R. 1247). This regulation is effective under section 8e-1 of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 608e-1).

The notice afforded interested persons an opportunity to file data, views, or arguments in regard thereto not later than February 28, 1972. None was filed.

**Findings.** (a) After consideration of all relevant matters, including the proposal set forth in the aforesaid notice, and other available information, it is hereby found that the proposal as published in the notice should be issued as hereinafter set forth. This regulation is subject to further amendment as domestic regulations are changed.

(b) It is hereby further found that good cause exists for not postponing the effective date of this regulation beyond the time specified (5 U.S.C. 553) in that (1) the requirements established by this regulation are mandatory under section 8e-1 of the act; (2) all known onion importers were notified of the proposed regulation; and (3) notice hereof was published in the January 27, 1972, FEDERAL REGISTER (37 F.R. 1247), and such notice is determined to be reasonable.

**Regulation, as amended.** Section 980.110 Onion import regulation (36 F.R. 13260, 14724), is hereby amended to read as follows:

#### § 980.110 Onion import regulation.

Pursuant to section 608e-1 of the act (7 U.S.C. 608e-1) and except as otherwise provided herein, during the period beginning March 20, 1972, and continuing through May 15, 1972, the importation of onions is prohibited unless such onions are inspected and meet the requirements of this section.

(a) Minimum grade and size requirements: (1) *Grade.* Not to exceed 20 percent defects of U.S. No. 1 grade. In percentage grade lots, tolerances for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be permitted in individual packages in per-

centage grade lots. Applications of tolerances in U.S. Grade Standards shall apply to in-grade lots.

(2) *Size.* White onions—1 inch minimum diameter; all other varieties of onions—1¾ inches minimum diameter.

(b) *Condition:* Due consideration shall be given to the time required for transportation and entry of onions into the United States. Onions with transit time from country of origin to entry into the United States of 10 or more days may be entered if they meet an average tolerance for decay of not more than 5 percent, provided they meet the other requirements of this section.

(c) *Minimum quantity:* Any importation which in the aggregate does not exceed 100 pounds in any day, may be imported without regard to the provisions of this section.

(d) *Plant quarantine:* Provisions of this section shall not supersede the restrictions or prohibitions on onions under the Plant Quarantine Act of 1912.

(e) *Designation of governmental inspection service:* The Federal or the Federal-State Inspection Service, Fruit and Vegetable Division, Consumer and Marketing Service, U.S. Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are designated as governmental inspection services for certifying the grade, size, quality and maturity of onions that are imported into the United States under the provisions of section 8e-1 of the act.

(f) *Inspection and official inspection certificates:* (1) An official inspection certificate certifying the onions meet the U.S. import requirements for onions under section 8e-1 (7 U.S.C. 608e-1), issued by a designated governmental inspection service and applicable to a specific lot is required on all imports of onions.

(2) *Inspection and certification by the Federal or Federal-State Inspection Service* will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (Part 51 of this title). Each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(3) *Since inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers of onions should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give at least 1 day advance notice, except the requirement for "All California points" and "All other points" is at least 3 days advance notice, to the*

applicable office listed below prior to the time the onions will be imported.

#### All Texas points:

W. T. McNabb, Post Office Box 310, Austin, TX 78767 (Phone 512-385-5385).

#### All Arizona points:

B. O. Morgan, Post Office Box 1614, Nogales, AZ 85621 (Phone 602-287-2902).

#### All California points:

D. P. Thompson, 294 Wholesale Terminal Building, 784 South Central Avenue, Los Angeles, CA 90021 (Phone 213-622-8756).

#### All Hawaii points:

Stevenson Ching, 1428 South King Street, Honolulu, HI 96814 (Phone 808-941-3071).

#### New York City:

Edward J. Beller, Room 28A Hunts Point Market, Bronx, NY 10474 (Phone 212-991-7669).

#### New Orleans:

Pascal J. Lamarca, 5027 Federal Office Building, 701 Loyola Avenue, New Orleans, LA 70113 (Phone 504-527-8741).

#### All other points:

D. S. Matheson, Fruit and Vegetable Division, C&MS, USDA, Washington, D.C. 20250 (Phone 202-388-5870).

(4) *Inspection certificates shall cover only the quantity of onions that is being imported at a particular port of entry by a particular importer.*

(5) *Each inspection certificate issued with respect to any onions to be imported into the United States shall set forth, among other things:*

(i) The date and place of inspection;  
(ii) The name of the shipper, or applicant;

(iii) The commodity inspected;  
(iv) The quantity of the commodity covered by the certificate;

(v) The principal identifying marks on the containers;

(vi) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(vii) The following statement, if the facts warrant: Meets import requirements of 7 U.S.C. 608e-1.

(g) *Reconditioning prior to importation.* Nothing contained in this part shall be deemed to preclude any importer from reconditioning prior to importation any shipment of onions for the purpose of making it eligible for importation.

(h) *It is hereby determined that imports of onions, during the effective time of this section, are in most direct competition with onions grown in South Texas. The requirements set forth in this section are the same as those applicable to grade, size, quality and maturity being made effective for onions grown in South Texas.*

(i) *Definitions:* For the purpose of this section, "Onions" means all (except red) varieties of *Allium cepa* marketed dry, except dehydrated, canned and frozen onions, onion sets, green onions, and pickling onions. Onions commonly referred to as "braided," that is, with tops, may be imported if they

meet the grade and size requirements except for top length. The term "U.S. No. 1" shall have the same meaning as set forth in the U.S. Standards for Grades of Bermuda-Granex-Grano Type Onions (§§ 51.3195-51.3209 of this title), U.S. Standards for Grades of Creole onions (§§ 51.3955-51.3970 of this title), or in the U.S. Standards for Grades of Onions Other Than Bermuda-Granex-Grano and Creole Types (§§ 51.2830-51.2854 of this title), whichever is applicable to the particular variety. Tolerances for size shall be those in the applicable U.S. Standards. The requirements of Canada No. 1 grade are deemed comparable to the requirements of U.S. No. 1 grade. "Importation" means release from custody of the U.S. Bureau of Customs.

Dated: March 6, 1972.

PAUL A. NICHOLSON,  
Deputy Director, Fruit and  
Vegetable Division, Consumer  
and Marketing Service.

## Title 12—BANKS AND BANKING

### Chapter V—Federal Home Loan Bank Board

#### SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[72-261]

#### PART 541—DEFINITIONS

#### PART 545—OPERATIONS

##### Real Estate Loans

MARCH 1, 1972.

Resolved that, notice and public procedure having been duly afforded (36 F.R. 20311) and all relevant material presented or available having been considered by it, the Federal Home Loan Bank Board, upon the basis of such consideration, determines to amend Parts 541 and 545 of the rules and regulations for the Federal Savings and Loan System (12 CFR Parts 541, 545) for the following purposes:

1. To revise the definition of "installment loan" and to add a definition of "partially-amortized monthly installment loan"; and

2. To authorize loans by Federal savings and loan associations on the security of "other dwelling units" and "other improved real estate" to be made on the basis provided for in the definition of "partially-amortized monthly installment loan".

Accordingly, the Federal Home Loan Bank Board hereby amends said Parts 541 and 545 as follows, effective April 10, 1972:

1. Amend said Part 541 by revising § 541.14 to read as follows:

§ 541.14 Installment loan; partially-amortized monthly installment loan.

(a) *Installment loan.* The term "installment loan" means any loan repayable in regular periodic payments sufficient to retire the debt, interest and

principal, within the loan term. However, no required payment after the first payment shall be more, but may be less, than any preceding payment.

(b) *Partially-amortized monthly installment loan.* The term "partially-amortized monthly installment loan" means any loan which is repayable in full in a lump sum at the end of a loan term of not less than 10 years, but which requires partial amortization during the loan term by regular monthly payments which include both principal and interest, beginning within not more than 60 days after disbursement of the loan proceeds. Such monthly payments may not be fixed at less than the amount of the monthly payments which would be required to amortize an entire loan of the same amount, principal and interest, within a 30-year loan term.

2. Amend said Part 545 by revising subparagraph (2) of paragraph (b) of § 545.6-1, and by adding a new subparagraph (6) to paragraph (c) of § 545.6-1, to read as follows:

§ 545.6-1 Lending powers under sections 13 and 14 of Charter K.

(b) *Other dwelling units; combination of dwelling units, including homes, and business property involving only minor or incidental business use* \* \* \*

(2) *Other installment loans.* \* \* \*

(i) *Fully-amortized loans.* Loans that such an association may make on a monthly installment basis may also be made with interest payable at least semi-annually and with regular periodic principal installments payable at least annually in an amount sufficient to retire the debt, interest, and principal, within 15 years: *Provided*, That insured or guaranteed loans may be repayable upon such terms as are acceptable to the insuring or guaranteeing agency.

(ii) *Partially-amortized loans.* Partially-amortized monthly installment loans may be made in an amount not in excess of 80 percent of the value of the real estate.

(c) *Other improved real estate.* Subject to the limitations of § 545.6-7, a Federal association may, if permitted by the terms of its charter, make loans on other improved real estate, as defined in paragraph (a) of § 541.12 of this chapter, to the extent authorized by this paragraph (c):

(6) A partially-amortized monthly installment loan may be made in an amount not in excess of 75 percent of the value of the real estate.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-48 Comp., p. 1071)

Resolved further that the Board, in adopting the amendment which was adopted on January 18, 1972 (37 F.R. 1104) and the above amendment, which amendments represent only part of the published regulatory proposal (36 F.R. 20311), determined to defer final con-

sideration of that portion of said published proposal which related to the making of home loans on a variable-payment basis as described in such proposal.

By the Federal Home Loan Bank Board.

## Title 14—AERONAUTICS AND SPACE

### Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 11775, Amdt. 799]

#### PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

##### Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 F.R. 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20591, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of \$125 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

## Title 21—FOOD AND DRUGS

### Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

#### SUBCHAPTER A—GENERAL

### PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

#### Label Designation of Ingredients for Standardized Foods

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701 (a); 52 Stat. 1055; 21 U.S.C. 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), Part 3 is amended by adding the following:

#### § 3.88 Label designation of ingredients for standardized foods.

(a) There is significant consumer interest that the labels of standardized foods bear complete information of the ingredients contained in the food. In the absence of legal authority to require that the label bear such information, the Food and Drug Administration encourages all manufacturers, packers, and distributors to voluntarily make such disclosure.

(b) The Food and Drug Administration intends to amend the definitions and standards of identity of food by setting into motion as rapidly as possible the provisions of section 401 of the act to require label declaration of all optional ingredients with the exception of optional spices, flavorings, and colorings which may continue to be designated as such without specific ingredient declaration.

(c) Statutory authority does not exist to require the declaration of mandatory ingredients on the label of standardized foods.

(d) The requirement (set forth in some of the definitions and standards for food) that designated optional ingredients be declared in a specified manner on the label wherever the name of the standardized food appears on the label so conspicuously as to be easily seen under customary conditions of purchase shall not apply to any manufacturer, packer, or distributor of a standardized food who voluntarily labels such food in the manner indicated by section 403(i) of the act, 21 U.S.C. 343(i), and the regulations promulgated thereunder and who otherwise

complies with such definition and standard.

Dated: March 3, 1972.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

## Title 32—NATIONAL DEFENSE

### Chapter XVI—Selective Service System

### MISCELLANEOUS AMENDMENTS TO CHAPTER

Whereas, on January 12 and 29, 1972, the Director of Selective Service published a notice of proposed amendments to Selective Service Regulations, 37 F.R. 479 of January 12, 1972, and 37 F.R. 1494 of January 29, 1972; and

Whereas such publication complied with the publication requirement of section 13(b) of the Military Selective Service Act (50 U.S.C. sec. 451 et seq.) in that more than 30 days have elapsed subsequent to such publication during which period comments from the public have been received and considered; and I certify that I have requested the views of officials named in section 2(a) of Executive Order 11623 and none of them has timely requested that the matter be referred to the President for decision.

The proposed amendments to §§ 1611.1, 1621.11, 1622.27, 1623.9, and 1630.4 which were included in the notice in the FEDERAL REGISTER on January 12, 1972, will not be made effective. The provisions of these sections will be reexamined and proposed amendments thereto may be published later for public comment.

Now, therefore, by virtue of the authority vested in me by the Military Selective Service Act, as amended (50

App. U.S.C. sec. 451 et seq.) and Executive Order 11623 of October 12, 1971, the Selective Service Regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m., e.s.t., on March 11, 1972, as follows:

### PART 1604—SELECTIVE SERVICE OFFICERS

Paragraph (a) of § 1604.6 National Selective Service Appeal Board is amended to read as follows:

#### § 1604.6 National Selective Service Appeal Board.

(a) There is hereby created and established within the Selective Service System a civilian agency of appeal which shall be known as the National Selective Service Appeal Board, hereafter referred to as the National Board. The President shall appoint members of the National Board from among citizens of the United States who are not members of the Armed Forces, and he shall designate one member as Chairman of the National Board. The National Board may sit en banc or, upon the request of the Director of Selective Service or as determined by the Chairman of the National Board, in panels, each panel to consist of at least three members. The Chairman of the National Board shall designate the members of each panel, and he shall designate one member of each panel as chairman. A majority of the members of a panel shall constitute a quorum for the transaction of business, and a majority of the members present at any meeting at which a quorum is present shall decide any question. Each panel of the National Board shall have full authority to act on all cases assigned to it. The National Board, or a panel thereof, shall hold meetings in Washington, D.C., and, upon request of the Director of Selective Service or as determined by the Chairman of the National Board at any other place.

Section 1604.41 is revised to read as follows:

#### § 1604.41 Advisors to registrants.

Advisors to registrants may be appointed by the Director of Selective Service upon recommendation of the State Director of Selective Service to advise and assist registrants in the preparation of questionnaires and other selective service forms and to advise registrants on other matters relating to their rights and liabilities under the selective service law. The names and addresses of advisors to registrants within the local board area shall be conspicuously posted in the local board office.

### PART 1606—GENERAL ADMINISTRATION

#### § 1606.51 [Revoked]

Section 1606.51 Forms made part of regulations is revoked.

**PART 1609—EXPENDITURES OTHER THAN FOR PERSONAL SERVICES**

Paragraph (a) of § 1609.51 *Claims* is amended to read as follows:

**§ 1609.51 Claims.**

(a) Funds appropriated for the operation and maintenance of the Selective Service System shall be available for payment of actual and reasonable expenses of (1) emergency medical care, including hospitalization of registrants who suffer illness or injury, and (2) the transportation and burial of the remains of registrants who suffer death, while acting under travel orders issued by or under the authority of the Director of Selective Service. Burial expenses shall not exceed the maximum prescribed in section 11 of the Military Selective Service Act in any one case. No expenses arising from the illness, injury, or death of a registrant shall be payable under the provisions of this section when such illness, injury, or death occurs while the registrant is performing civilian work contributing to the maintenance of the national health, safety, or interest which he has been ordered to perform by the local board.

**PART 1611—DUTY AND RESPONSIBILITY TO REGISTER**

**§ 1611.5 [Revoked]**

Section 1611.5 *Registration of certain persons entering the United States* is revoked.

**PART 1621—PREPARATION FOR CLASSIFICATION**

Section 1621.9 is revised to read as follows:

**§ 1621.9 Furnishing Registration Questionnaire (SSS Form 100).**

(a) The local board shall furnish a Registration Questionnaire (SSS Form 100) to each registrant according to the rules prescribed by the Director of Selective Service.

(b) The date upon which the Registration Questionnaire (SS Form 100) is furnished shall be entered in the Classification Record (SSS Form 102).

Section 1621.10 is revised to read as follows:

**§ 1621.10 Time allowed to return questionnaire.**

(a) Unless the local board grants an extension of time as provided in paragraph (b) of this section, the registrant shall complete and return his Registration Questionnaire (SSS Form 100) within 10 days after the date on which it is mailed to him.

(b) If the registrant has a valid reason, the local board may grant him an extension of time for returning the Registration Questionnaire (SSS Form 100).

Section 1621.12 is revised to read as follows:

**§ 1621.12 Claims for or information relating to deferment or exemption.**

The registrant shall be entitled to present all relevant written information which he believes to be necessary to assist the local board in determining his proper classification. Such information should be included in or attached to the Registration Questionnaire (SSS Form 100) or a Current Information Questionnaire (SSS Form 127) and may include any document, affidavits, or depositions. The affidavits and depositions shall be as concise and brief as possible.

**§ 1621.16 [Revoked]**

Section 1621.16 *Permit to depart from the United States* is revoked.

**PART 1622—CLASSIFICATION RULES AND PRINCIPLES**

Paragraph (a) of § 1622.1 *General principles of classification*, is amended to read as follows:

**§ 1622.1 General principles of classification.**

(a) It is the local board's responsibility to decide the classification in which each registrant shall be placed. Each registrant will be considered as available for military service until his eligibility for deferment or exemption from military service is clearly established to the satisfaction of the local board. The local board will receive and consider all information, pertinent to the classification of a registrant, timely presented to it. The mailing by the local board of a Current Information Questionnaire (SSS Form 127) to the latest address furnished by a registrant shall be notice to the registrant that unless information is presented to the local board, within the time specified for the return of the questionnaire, which will justify his deferment or exemption from military service the registrant will be classified in Class 1-A.

Section 1622.11 is amended to read as follows:

**§ 1622.11 Class 1-A-O: Conscientious objector available for noncombatant military service only.**

In Class 1-A-O shall be placed every registrant who would have been classified in Class 1-A but for the fact that he has been found, by reason of religious, ethical, or moral belief, to be conscientiously opposed to participation in combatant training and service in the Armed Forces.

Section 1622.14 is amended to read as follows:

**§ 1622.14 Class 1-O: Conscientious objector available for alternate service.**

In Class 1-O shall be placed every registrant who would have been classified in Class 1-A but for the fact that

he has been found, by reason of religious, ethical, or moral belief, to be conscientiously opposed to participation in war in any form and to be conscientiously opposed to participation in both combatant and noncombatant training and service in the Armed Forces.

Section 1622.18 is revised to read as follows:

**§ 1622.18 Class 1-H (holding classification): Registrant not subject to processing for induction.**

(a) In Class 1-H shall be placed any registrant (1) who is not currently subject to processing for induction according to these regulations and the rules prescribed by the Director of Selective Service, or (2) who is 26 years of age, whose liability for training and service has been extended to age 35, and who is not in a medical, dental, or allied specialist category.

Paragraph (a) (4) of § 1622.40 *Class 4-A: Registrant who has completed service* is amended to read as follows:

**§ 1622.40 Class 4-A: Registrant who has completed service.**

(a) \* \* \*

(4) A registrant who has served on active duty subsequent to June 24, 1948, for a period of not less than 12 months in the armed forces of a nation determined by the Department of State to be a nation with which the United States is associated in mutual defense activities and which grants exemption from training and service in its armed forces to citizens of the United States who have served on active duty in the Armed Forces of the United States subsequent to June 24, 1948, for a period of not less than 12 months: *Provided*, That in computing such 12-month period, there shall be credited any active duty performed by the registrant prior to June 24, 1948, in the armed forces of a country allied with the United States during World War II and with which the United States is associated in such mutual defense activities: *And provided further*, That all information which is submitted to the local board concerning the registrant's service in the armed forces of a foreign nation shall be written in the English language.

Paragraph (b) of § 1622.42 *Class IV-C: Aliens* is amended to read as follows:

**§ 1622.42 Class IV-C: Aliens.**

\* \* \*

(b) In Class 4-C shall be placed any registrant who is an alien who establishes that he is exempt from military service under the terms of a treaty or international agreement between the United States and the country of which he is a national, and who has made application to be exempted from liability for training and service in the Armed Forces of the United States.

### PART 1623—CLASSIFICATION PROCEDURE

Paragraph (c) of § 1623.4 *Action to be taken when classification determined*, is amended to read as follows:

§ 1623.4 *Action to be taken when classification determined.*

(c) In the event that the local board classifies the registrant in a class other than that which he requested it shall record its reasons therefor in his file. The local board shall inform the registrant of such reasons in writing at the time it mails to him a notice of his classification.

### PART 1624—PERSONAL APPEARANCE BEFORE LOCAL BOARD

Part 1624 is revised to read as follows:

- Sec.
- 1624.1 Opportunity for personal appearance.
- 1624.2 Request for personal appearance.
- 1624.3 Appointment for personal appearance.
- 1624.4 Procedure during personal appearance before local board.
- 1624.5 Procedure when registrant fails to appear.
- 1624.6 Procedure of local board following personal appearance.
- 1624.7 Appearance before local board stays induction or order to report for alternate service.

**AUTHORITY:** The provisions of this Part 1624 issued under the Military Selective Service Act, as amended; 50 App. U.S.C. sec. 451 et seq. and Executive Order 11623 of Oct. 12, 1971.

§ 1624.1 *Opportunity for personal appearance.*

(a) Every registrant after his classification is determined by the local board, except a classification which is determined upon an appearance before the local board under the provisions of this part, shall have an opportunity to appear in person before the local board.

(b) A registrant who has filed a claim for classification in Class 1-O, Class 1-A-O, or Class 3-A, upon his request, shall be afforded an opportunity to appear in person before the local board before his classification is determined by the local board. Should such registrant appear in person before the local board in advance of his classification being determined, the provisions of § 1624.4 shall apply and he shall not be afforded an opportunity to appear concerning such classification after such determination.

§ 1624.2 *Request for personal appearance.*

A registrant, other than one who has filed a request in accord with § 1624.1(b), who desires a personal appearance before his local board, must file a written request therefor within 15 days after the local board has mailed a Notice of Classification (SSS Form 110) to him. Such 15-day period may be extended by the local board when it is satisfied that the

registrant's failure to request a personal appearance within such period was due to some cause beyond his control.

§ 1624.3 *Appointment for personal appearance.*

The local board, not less than 15 days (unless the registrant requests an earlier appointment) in advance of the meeting at which he may appear, shall inform the registrant of the time and place of such meeting and that he may present evidence, including witnesses, bearing on his classification. Should the registrant fail to appear at such meeting, except for good cause that he establishes to the satisfaction of the local board, he shall not be afforded an opportunity to appear at a subsequent meeting. The registrant must file a written statement of the reasons for his failure to appear at his scheduled meeting within 5 days after such failure or the registrant will be deemed to have waived his right to an opportunity to appear at a subsequent meeting of the local board. Such period may be extended by the local board when it is satisfied that the registrant's failure to file a written statement of the reasons for his failure to appear at his scheduled meeting within 5 days was due to some cause beyond his control.

§ 1624.4 *Procedure during personal appearance before local board.*

(a) A quorum of the local board shall be present during all personal appearances.

(b) At any such appearance, the registrant may present evidence, including witnesses, may discuss his classification, may point out the class or classes in which he thinks he should have been placed, and may direct attention to any information in his file which he believes the local board has overlooked or to which he believes it has not given sufficient weight. The registrant may present such further information as he believes will assist the local board in determining his proper classification. Such information shall be in writing, or if oral, shall be summarized in writing by the registrant and, in either event, shall be placed in the registrant's file. The information furnished should be as concise as possible under the circumstances.

(c) A registrant is entitled to such time for his personal appearance as is reasonably necessary for the fair presentation of his claim. Normally 15 minutes shall be deemed adequate for this purpose, consistent with the informal and expeditious processing required in selective service cases. If it appears to the board that further time is reasonably necessary, the board shall extend the time. During the time available to a registrant, he may present the testimony of not more than three witnesses.

(d) If the registrant does not speak English adequately he may appear with a person to act as interpreter for him. Such interpreter will not be deemed to be a witness unless he testifies in behalf of the registrant.

(e) No registrant may be represented at his personal appearance before the

local board by anyone acting as attorney or legal counsel, but a registrant may invite an attorney to appear solely as a witness.

§ 1624.5 *Procedure when registrant fails to appear.*

(a) Whenever the registrant for whom a personal appearance has been scheduled fails to appear in accord with such schedule, the local board shall consider any explanation of such failure that has been filed within 5 days (or extension thereof granted by the local board) after such failure in accordance with § 1624.3. Should the local board determine that the registrant's failure to appear for his personal appearance was without good cause, or if within 5 days (or extension thereof granted by the local board) after such failure to appear the registrant offers no explanation of such failure, the registrant will be deemed to have had his personal appearance and the local board (1) will take such action with respect to the classification of a registrant who has requested a personal appearance following his classification as is appropriate in light of the provisions concerning reopening of classification in § 1625.2, or (2) of this chapter if such registrant requested a personal appearance in advance of his classification in accordance with § 1624.1(b), the local board shall classify the registrant. The local board will notify the registrant of the action taken by Notice of Classification (SSS Form 110) or letter, as appropriate.

(b) A notation that the registrant has failed to appear before his local board shall be entered on his Registration Questionnaire (SSS Form 100).

§ 1624.6 *Procedure of local board following personal appearance.*

(a) After the registrant has appeared before the local board, it shall again classify the registrant and, as soon as practicable thereafter, it shall mail notice thereof on Notice of Classification (SSS Form 110) to the registrant. In the event that the local board classifies the registrant in a class other than that which he requested, it shall record its reasons therefor in his file. The local board shall inform the registrant of such reasons in writing at the time it mails his Notice of Classification (SSS Form 110).

(b) A notation that the registrant has appeared before his local board shall be entered on his Registration Questionnaire (SSS Form 100).

§ 1624.7 *Appearance before local board stays induction or order to report for alternate service.*

The local board shall not issue an order for a registrant to report for induction or for alternate service in lieu of induction either during the period afforded the registrant to request a personal appearance before the local board or, if the registrant has requested such appearance, during the period such personal appearance is pending. Any order to report for induction or for alternate service which has been issued during either of such periods shall be ineffective and shall be canceled by the local board.

**PART 1625—REOPENING AND CONSIDERING ANEW REGISTRANT'S CLASSIFICATION**

Paragraph (c) of § 1625.1 *Classification not permanent* is amended to read as follows:

**§ 1625.1 Classification not permanent.**

(c) The local board shall keep informed of the status of classified registrants, except those classified in Class 1-H. Registrants may be questioned or physically or mentally reexamined, employers may be requested to furnish information, police officials or other agencies may be requested to make investigations, and other steps may be taken by the local board to keep currently informed concerning the status of classified registrants.

Section 1625.2 is revised to read as follows:

**§ 1625.2 Reopening of classification.**

(a) The local board will reopen and consider anew the classification of a registrant (1) upon the written request of the Director of Selective Service or the State Director of Selective Service and upon receipt of such request shall immediately cancel any order to report for induction or alternate service which may have been issued to the registrant; (2) who is in Class 1-H and becomes subject to processing for induction according to these regulations and the rules prescribed by the Director; (3) in any classification for the purpose of classifying him in Class 1-H according to these regulations and the rules prescribed by the Director; (4) upon the written request of the registrant that is accompanied by written information presenting facts not considered when the registrant was classified or which, in the opinion of the board, justify a change in the registrant's classification; or (5) upon its own motion if such action is based upon facts not considered when the registrant was classified which, in the opinion of the board, would justify a change in the registrant's classification: *Provided*, That in the event of subparagraphs (4) or (5) of this paragraph the classification of a registrant shall not be reopened after the local board has mailed to such registrant an order for induction or alternate service or, in the event the order to report for induction or alternate service was postponed and a subsequent letter from the local board establishes the date for induction or for reporting for alternate service, unless the local board first specifically finds there has been a change in the registrant's status resulting from circumstances over which the registrant had no control.

**§ 1625.3 [Revoked]**

Section 1625.3 *When registrant's classification shall be reopened and considered anew* is revoked.

**PART 1626—APPEAL TO APPEAL BOARD**

Part 1626 is revised to read as follows:

- |        |  |
|--------|--|
| Sec.   |  |
| 1626.1 | Who may appeal.  |
| 1626.2 | Time limit within which registrant may appeal.                     |
| 1626.3 | Procedure for taking an appeal.                                    |
| 1626.4 | Review by appeal board.  |
| 1626.5 | Procedure of local board when advised of decision of appeal board. |
| 1626.6 | Appeal stays induction or order to report for alternate service.   |

**AUTHORITY:** The provisions of this Part 1626 issued under the Military Selective Service Act, as amended; 50 App. U.S.C. sections 451 et seq. and Executive Order 11623 of October 12, 1971.

**§ 1626.1 Who may appeal.**

The Director of Selective Service and the State Director of Selective Service as to the local boards in his State may appeal from any determination of a local board at any time. The registrant may appeal to an appeal board from his classification by the local board except his initial administrative classification into Class 1-H.

**§ 1626.2 Time limit within which registrant may appeal.**

The registrant must file his appeal and his request for a personal appearance before the appeal board, if such personal appearance is desired, within 15 days after the date the local board mails to the registrant a Notice of Classification (SSS Form 110) or letter pursuant to § 1624.5 of this chapter. At any time prior to the date the local board mails to the registrant an Order to Report for Induction (SSS Form 252) or Order to Report for Alternate Service (SSS Form 153), the local board will permit him to appeal even though the period for taking an appeal has elapsed, if it is satisfied that his failure to appeal within such period was due to some cause beyond his control. If the local board grants an extension of time to appeal to the registrant, he may within such extended period also request a personal appearance before the appeal board.

**§ 1626.3 Procedure for taking an appeal.**

(a) Any person entitled to do so may appeal to the appeal board by filing with the local board a written notice of appeal. If the Director of Selective Service or the State Director of Selective Service appeals to the appeal board he shall place in the registrant's file a written statement of his reasons for taking such appeal.

(b) Whenever an appeal is taken from a local board's classification by the Director of Selective Service or the State Director of Selective Service, the local board shall notify the registrant in writing of the action, the reasons therefor, and inform him that (1) his appeal will be considered by the appeal board for the area in which his local board is located unless he files, within 15 days from the date on the letter of notification, a written request with the local board that

the appeal be considered by the appeal board having jurisdiction over the area in which is located his principal place of employment or residence and (2) he may request a personal appearance before the appeal board if he files with the local board within 15 days from the date on the letter of notification a written request for such personal appearance. The 15-day period may be extended by the local board when it is satisfied that the registrant's failure to file a written request within such period was due to some cause beyond his control.

(c) If the registrant is taking the appeal, he may also request an opportunity to appear in person before the appeal board and that the appeal be considered by the appeal board having jurisdiction over the area in which is located his principal place of employment or residence. The notice of appeal need not be in any particular form, but must include the name of the registrant and his request. Any notice shall be liberally construed so as to permit the appeal.

(d) The appeal board for the area in which the registrant's local board is located shall consider the appeal of the registrant's classification unless the registrant has timely filed with his local board a written request that the appeal be considered by the appeal board having jurisdiction over the area in which is located his principal place of employment or residence.

(e) The registrant may attach to his appeal a statement specifying the reasons he believes the classification inappropriate, directing attention to any information in his file which he believes received inadequate consideration, and setting out more fully any information which was submitted.

**§ 1626.4 Review by appeal board.**

(a) The appeal board shall consider appeals in the order of the relative imminence of induction of the registrant, the most imminent being considered first, unless otherwise directed by the Director of Selective Service, in which event, appeals shall be considered in such order as the Director of Selective Service shall prescribe.

(b) Upon receipt of the registrant's file, the appeal board shall ascertain whether the registrant has requested a personal appearance before the appeal board. If no such request had been made, the appeal board may classify the registrant not less than 15 days after the receipt of the registrant's file.

(c) Not less than 15 days (unless the registrant requests an earlier appointment) in advance of the meeting at which his classification will be considered, the appeal board shall inform any registrant who has requested a personal appearance that he may appear at such meeting and present evidence, other than witnesses, bearing on his classification. Should the registrant fail to appear at such meeting, except for good cause he establishes to the satisfaction of the appeal board, he shall not be afforded an opportunity to appear at a subsequent meeting. The registrant must

file a written statement of the reasons for his failure to appear at his scheduled meeting within 5 days after such failure or the registrant will be deemed to have waived his right to an opportunity to appear at a subsequent meeting. Such 5-day period may be extended by the appeal board when it is satisfied that the registrant's failure to file such written statement was due to some cause beyond his control.

(d) A registrant is entitled to such time for his personal appearance before an appeal board as the board determines is reasonably necessary for the fair presentation of his claim, consistent with the informal and expeditious processing required in selective service cases, but shall not be entitled to present witnesses. No registrant may be represented at his personal appearance before an appeal board by anyone acting as attorney or legal counsel.

(e) At any such personal appearance, there shall be present a quorum of the members of the board to which the registrant may present evidence, may discuss his classification, may point out the class or classes in which he thinks he should have been placed, and may direct attention to any information in his file which he believes the local board has overlooked or to which he believes it has not given sufficient weight. The registrant may present such further information as he believes will assist the board in determining his proper classification. Such statement shall be summarized in writing by the registrant and shall be placed in the registrant's file. The information furnished should be as concise as possible under the circumstances.

(f) The appeal board shall classify a registrant who has requested a personal appearance after (1) he has appeared before the board, (2) he withdrew his request to appear, (3) he waived his right to an opportunity to appear, or (4) he failed to appear without establishing to the satisfaction of the appeal board good cause therefor. When a registrant appears before the appeal board, only those members of the appeal board before whom the registrant appeared shall classify him.

(g) In reviewing the appeal and classifying the registrant, the appeal board shall not receive or consider any information other than the following:

(1) Information contained in the record received from the local board;

(2) General information concerning economic, industrial and social conditions; and

(3) Oral statements by the registrant and written evidence submitted by him to the appeal board during his personal appearance.

(h) The appeal board shall classify the registrant, giving consideration to the various classes in the same manner in which the local board gives consideration thereto when it classifies a registrant.

(i) In the event that the appeal board classifies the registrant in a class other than that he requested it shall record its reasons therefor in his file. The local board shall inform the registrant of such

reasons in writing at the time it mails his Notice of Classification (SSS Form 110).

**§ 1626.5 Procedure of local board when advised of decision of appeal board.**

When the local board receives notice of the decision of a case by the appeal board, it shall mail a Notice of Classification (SSS Form 110) to the registrant, and enter upon such form the record of the vote of the appeal board as follows: "Vote of appeal board—Yes—No—." At the time of mailing of the Notice of Classification (SSS Form 110), the local board, if the classification by the appeal board was not by unanimous vote, shall notify the registrant in the manner prescribed by the Director of Selective Service of his right to appeal to the National Selective Service Appeal Board.

**§ 1626.6 Appeal stays induction or order to report for alternate service.**

The local board shall not issue an order for a registrant to report for induction or for alternate service in lieu of induction either during the period afforded the registrant to take an appeal to the appeal board or during the period such an appeal is pending. Any order to report for induction, or for alternate service in lieu of induction, which has been issued during either of such periods shall be ineffective and shall be canceled by the local board. Whenever an appeal to the appeal board has been taken during the time allowed for taking appeals by a person entitled to do so, any order to report for induction or for alternate service which has been previously issued to the registrant shall be ineffective and shall be canceled by the local board.

**PART 1627—APPEAL TO THE PRESIDENT**

Paragraph (b) of § 1627.1 *Persons who may appeal to the President* is amended to read as follows:

**§ 1627.1 Persons who may appeal to the President.**

(b) When a registrant has been classified by the appeal board and one or more members of the appeal board dissented from that classification, he may appeal to the President within 15 days after the mailing by the local board of the Notice of Classification (SSS Form 110) notifying him of his classification by the appeal board. The local board may permit any registrant who is entitled to appeal to the President under this section to do so at any time prior to the date the local board issues to him an order to report for induction or for alternate service, even though the period of taking such an appeal has elapsed, if it is satisfied that his failure to appeal within such period was due to some cause beyond his control.

Paragraph (d) of § 1627.3 *Procedure on appeal to the President* is amended to read as follows:

**§ 1627.3 Procedure on appeal to the President.**

(d) Whenever the Director or State Director appeals to the President, the registrant shall be notified by his local board in writing of the action and informed that if he desires to appear before the National Board he must, within 15 days from the date on the letter of notification, request such an appearance in writing, addressed to his local board. Such 15-day period may be extended by the local board when it is satisfied that the registrant's failure to request an appearance within such period was due to some cause beyond his control. The local board shall forthwith notify the National Board of the registrant's request to appear before it.

Paragraphs (c), (d), and (g) of § 1627.4 *Procedures of the National Selective Service Appeal Board* are amended to read as follows:

**§ 1627.4 Procedures of the National Selective Service Appeal Board.**

(c) Not less than 15 days in advance of the meeting at which his classification will be considered, the National Board shall inform any registrant who has requested a personal appearance that he may appear at such meeting and present evidence, other than witnesses, bearing on his classification. Should the registrant fail to appear at such meeting, except for good cause he establishes to the satisfaction of the National Board, he shall not be afforded an opportunity to appear at a subsequent meeting. The registrant must file a written statement of the reasons for his failure to appear at his scheduled meeting within 5 days after such failure or the registrant will be deemed to have waived his right to an opportunity to appear at a subsequent meeting. Such 5-day period may be extended by the National Board when it is satisfied that the registrant's failure to file a written statement within such period was due to some cause beyond his control.

(d) The registrant is entitled to 15 minutes for his personal appearance. The National Board may, in its discretion extend the time of the registrant's personal appearance. No registrant may be represented at his personal appearance before the National Board by anyone acting as attorney or legal counsel. The registrant shall not be entitled to present witnesses.

(g) In reviewing the appeal and classifying the registrant, the National Board shall not receive or consider any information other than the following:

(1) Information contained in the registrant's record received from the local board;

(2) General information concerning economic, industrial, and social conditions; and

(3) Oral statements by the registrant and written evidence submitted by him to the National Board during his personal appearance.

**PART 1628—PHYSICAL EXAMINATION**

Paragraph (b) of § 1628.6 *Order to report for Armed Forces examination*, is amended to read as follows:

**§ 1628.6 Order to report for Armed Forces examination.**

(b) A local board member, or the Executive Secretary or clerk if so authorized, shall select and order for Armed Forces examination registrants in accordance with the instructions of the Director of Selective Service. The date specified for reporting for such examination shall be at least 15 days after the date on which the Order to Report for Armed Forces Examination (SSS Form 223) is mailed, except that a registrant who has volunteered for induction may be ordered to report for such examination on any date after he has so volunteered.

**PART 1631—QUOTAS AND CALLS**

Paragraph (c) (2) (i) of § 1631.6 *Action by local board upon receipt of allocation* is amended to read as follows:

**§ 1631.6 Action by local board upon receipt of allocation.**

(c) \* \* \*  
(2) \* \* \*

(i) 1970. In the calendar year 1970, nonvolunteers in Class 1-A, 1-A-O, or 1-O born on or after January 1, 1944, and on or before December 31, 1950, who have not attained the 26th anniversary of the dates of their birth.

**PART 1632—DELIVERY AND INDUCTION**

Section 1632.2 is revised to read as follows:

**§ 1632.2 Postponement of induction.**

(a) In case of death of a member of the registrant's immediate family, extreme emergency involving a member of the registrant's immediate family, serious illness of the registrant, or other emergency beyond the registrant's control, the local board may, after the Order to Report for Induction (SSS Form 252) has been issued, postpone until a date certain the time when such registrant shall report but such date shall not be later than 60 days from the date of such postponement. In case of imperative necessity, the local board may grant one further postponement to a date certain but such date shall not be later than 60 days from the date of such postponement.

(b) The Director of Selective Service or any State Director of Selective Service (as to registrants registered within his State) may, for a good cause, at any time prior to the issuance of an Order to Report for Induction (SSS Form 252), postpone the issuance of such order until such time as he may deem advisable, or

the Director of Selective Service or any State Director of Selective Service (as to registrants registered within his State) may, for good cause, at any time after the issuance of an Order to Report for Induction (SSS Form 252), postpone the induction of a registrant until such time as he may deem advisable.

(c) The local board shall postpone the induction of a registrant in accord with section 6(i) (1) or section 6(i) (2) of the Military Selective Service Act.

(d) The local board shall issue to each registrant whose induction is postponed a Postponement of Induction (SSS Form 264). A copy of such form shall be mailed to the State Director of Selective Service, and a copy filed in the registrant's Cover Sheet (SSS Form 101). The local board shall note the date of the granting of the postponement and the date of its expiration in the "Remarks" column of the Classification Record (SSS Form 102).

(e) A postponement authorized in paragraph (b) or (c) of this section in excess of 40 days or without limit may be terminated when the issuing authority so directs and upon not less than 30 days nor more than 40 days notice to the registrant. The registrant shall then report for induction at such time and place as may be fixed by the local board.

(f) No registrant whose induction has been postponed shall be inducted into the Armed Forces during the period of any such postponement. A postponement of induction shall not render invalid the Order to Report for Induction (SSS Form 252) which has been issued to the registrant but shall operate only to postpone the reporting date and the registrant shall report on the new date without having issued to him a new Order to Report for Induction (SSS Form 252).

**PART 1641—NOTICE**

Paragraph (a) of § 1641.7 *Reporting by registrants of their current status* is amended to read as follows:

**§ 1641.7 Reporting by registrants of their current status.**

(a) It shall be the duty of every classified registrant, until his liability for training and service has terminated, to keep his local board currently informed of his mailing address, and, in accord with instructions of the Director of Selective Service, facts concerning his status that the local board requests.

**PART 1643—PAROLE**

Paragraph (c) of § 1643.10 *Parole for assignment to civilian work contributing to the maintenance of the national health, safety, or interest* is amended to read as follows:

**§ 1643.10 Parole for assignment to civilian work contributing to the maintenance of the national health, safety, or interest.**

(c) Upon receipt of a certified copy of an order paroling a registrant for as-

ignment to civilian work contributing to the maintenance of the national health, safety, or interest, the State director shall direct the Executive Secretary or clerk, if so authorized, or a local board member of the registrant's local board to order him to a job which the State director selects as appropriate for him to perform.

**PART 1655—REGISTRATION OF U.S. CITIZENS OUTSIDE OF THE UNITED STATES AND CLASSIFICATION OF SUCH REGISTRANTS**

**§ 1655.4 [Revoked]**

Section 1655.4 *Completion and disposition of Registration Questionnaire—Foreign* (SSS Form No. 50), is revoked.

Paragraph (b) of § 1655.5 *District of Columbia Local Board No. 100 (Foreign)* is amended to read as follows:

**§ 1655.5 District of Columbia Local Board No. 100 (Foreign).**

(b) District of Columbia Local Board No. 100 (Foreign) shall have jurisdiction for all purposes under selective service law over any person who at the time of his registration under the provisions of the regulations in this part does not designate for entry on line 2 of his Registration Questionnaire (SSS Form 100) an address of a place within the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone.

**§§ 1655.10, 1655.11 and 1655.20 [Revoked]**

Section 1655.10 *Preparation for classification* is revoked.

Section 1655.11 *Classification* is revoked.

Section 1655.20 *Additional time for taking appeals* is revoked.

**PART 1609—EXPENDITURES OTHER THAN FOR PERSONAL SERVICES**

Section 1609.41 *Travel; authorization* is amended by adding paragraph (c) which shall read as follows:

- \* \* \* \* \*
- § 1609.41 Travel; authorization.
  - \* \* \* \* \*
  - (c) A local board or a person duly authorized by the Director of Selective Service or the State Director of Selective Service may authorize the transportation of registrants by commercial carrier or privately owned vehicle whichever would be in the better interest of the Government.

**PART 1613—REGISTRATION PROCEDURES**

Part 1613 is amended to read as follows:

- § 1613.1 Registration procedures.
  - Persons required by selective service law to register shall be registered in accordance with procedures prescribed by the Director of Selective Service.
- § 1613.2 Local board of jurisdiction.
  - The local board having jurisdiction over the place of residence entered in item 2 of the Registration Questionnaire (SSS Form 100) at the time of initial

registration shall always have jurisdiction over the registrant, unless otherwise directed by the Director of Selective Service.

CURTIS W. TARR,  
Director.

**PART 1660—ALTERNATE SERVICE**

**Administration and Assignment**

Whereas, on January 12, 1972, the Director of Selective Service published a notice of proposed amendments of Selective Service Regulations 37 F.R. 485 of January 12, 1972; and

Whereas more than 30 days have elapsed subsequent to such publication during which period comments from the public have been received and considered.

Now therefore by virtue of the authority vested in me by section 6(j) of the Military Selective Service Act, as amended (50 App. U.S.C. sections 451 et seq.), the Selective Service Regulations, constituting a portion of chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m., e.s.t., on March 11, 1972, as follows:

Paragraph (c) of § 1660.1 *Responsibility for Administration*, is amended to read as follows:

**§ 1660.1 Responsibility for administration.**

(c) Alternate service to be performed outside the geographical area under the jurisdiction of any State director will be administered by the Director of Selective Service after the assignment to such work has been made by the State director.

Section 1660.3 is amended to read as follows:

**§ 1660.3 Volunteer for alternate service.**

Only registrants classified in Class 1-O may volunteer for alternate service in lieu of induction. Any registrant in Class 1-O may submit Application of Volunteer for Alternate Service (SSS Form 151) to his local board. If the volunteer wishes to propose jobs which he feels would be approved for his alternate service he will submit each job on an Employer's Statement of Availability of a Job as Alternate Service (SSS Form 156) simultaneously with his completed Application of Volunteer for Alternate Service (SSS Form 151). The State director will approve or disapprove the proposed jobs. If the registrant fails to locate a suitable job or if the jobs submitted on the Employer's Statement of Availability of a Job as Alternate Service (SSS Form 156) are not approved, the State director will not request the issuance of the Order to Report for Alternate Service (SSS Form 153) until 60 days after the registrant would have begun processing in accordance with § 1660.4 had he not volunteered. After the 60-day period has ended, the State director may direct the local board to order the registrant to an available job.

Subparagraph (2) of paragraph (a) of § 1660.6 *Eligible jobs for registrants performing Alternate Service*, is amended to read as follows:

**§ 1660.6 Eligible jobs for registrant performing Alternate Service.**

(a) \* \* \*

(2) *Noninterference with the competitive labor market.* The registrant cannot be assigned to a job for which there are more numerous qualified applicants not in Class 1-O than spaces available. This restriction does not prohibit the approval of special programs such as Peace Corps or VISTA for alternate service by registrants in Class 1-O.

Section 1660.7 *Assigning alternate service* is amended by revising paragraph (b) and by adding a new paragraph (g) to read as follows:

**§ 1660.7 Assigning alternate service.**

(b) The registrant will submit Employer's Statement of Availability of a Job as Alternate Service (SSS Form 156) to the State director, who will determine whether the work is acceptable. A letter from an employer may, at any time, substitute for such SSS Form 156. When a job is approved, the State director will direct the Executive Secretary or clerk, if so authorized, or a local board member of a registrant's local board to issue an Order to Report for Alternate Service (SSS Form 153). Any time the State director disapproves a job proposed on Employer's Statement of Availability of a Job as Alternate Service (SSS Form 156) submitted by the registrant, he will inform the registrant of his decision within 10 days after the State director receives such form.

(g) A registrant in Class 1-W, working in an approved job, may request the supervising State director to transfer him to a new job. The request must be made while the registrant is working in an approved job, and the registrant must remain on the job until the transfer is accomplished. The registrant must at the time of the request, offer an alternative job to the State director for approval as alternate service. If the new job is approved, the State director may direct the registrant's local board to order him to the new job.

Paragraphs (c) and (d) of § 1660.9 *Administration of alternate service* are amended and a new paragraph (e) is added to read as follows:

**§ 1660.9 Administration of alternate service.**

(c) If, after completing the investigation in accord with paragraph (b) of this section, the State director finds no failure of the registrant to perform satisfactorily he will order the registrant to another job as quickly as possible. A local board member of the registrant's local board or the Executive Secretary or clerk if so authorized, at the direction of the State director, will issue a new

work order when any transfer or reorder is required. If the registrant complies with the order to report to the new job, the intervening time between jobs will not constitute a break in the required period of alternate service.

(d) The State director may direct the Executive Secretary or clerk, if so authorized, or a local board member of the registrant's local board to reassign and reorder a working registrant at any time that he determines the original job ceases to be acceptable as alternate service as defined in § 1660.6.

(e) The Director of Selective Service or the State Director of Selective Service will issue travel orders, tickets or transportation requests and meal and lodging requests to the registrant, upon his request, for his travel from the office of the local board or the place of his residence to the place of performance of the alternate service to which he is ordered within the United States, for his return travel from such place to the office of the local board upon his satisfactorily completing his period of work, and for his travel from one place of employment to another when his employment is transferred under the provisions of paragraph (c) or (d) of this section.

CURTIS W. TARR,  
Director.

**Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT**

**Chapter 4—Department of Agriculture**

**PART 4-4—SPECIAL TYPES AND METHODS OF PROCUREMENT**

**Personal Articles**

This amendment involves matters relating to agency management and to contracts and includes rules interpreting and implementing existing regulations of other Federal agencies which are not subject to the notice and public procedure requirements for rule making under 5 U.S.C. 553. It is in the public interest that these provisions be made effective immediately. Accordingly, in accordance with the Secretary's Statement of Policy (36 F.R. 13804) it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest.

1. Section 4-4.5066 is revised as follows:

**§ 4-4.5066 Personal articles.**

Expenditures from appropriations available for the procurement of supplies and materials or equipment may be made for the purchase and maintenance of protective equipment, including personal protective equipment for eyes, face, head, and extremities, protective clothing, respiratory devices, and protective shields and barriers. In accordance with

agency safety programs and agency procurement policies and procedures, this equipment shall be provided, used, and maintained in a sanitary and reliable condition wherever it is necessary by reason of hazards of processes or environment, chemical hazards, radiological hazards, or mechanical irritants encountered in a manner capable of causing injury or impairment in the function of any part of the body through absorption, inhalation, or physical contact. Articles of personal equipment other than for the protection of personnel shall not be purchased from an appropriation of the Department (a) without specific statutory authority, or (b) unless the object for which the appropriation was made cannot be accomplished as expeditiously and satisfactorily from the Government standpoint without such equipment, and the equipment is such that the employee could not reasonably be required to furnish it as a part of the personal equipment necessary to enable him to perform the regular duties of the position to which he was appointed or for which his service was engaged. Care should be exercised to avoid the purchase of special clothing or equipment to be fitted to an employee when it is known that the employee may soon be separated from the service or permanently assigned other duties. ## Chapter 5A—Federal Supply Service, General Services Administration

### MISCELLANEOUS AMENDMENTS TO CHAPTER

Part 5A-2 of Title 41 is amended as follows:

#### PART 5A-2—PROCUREMENT BY FORMAL ADVERTISING

The table of contents for Part 5A-2 is amended to delete § 5A-2.303-4 and to add the following new entry:

Sec.  
5A-2.303-8 Records.

#### Subpart 5A-2.3—Submission of Bids

##### § 5A-2.303-4 [Deleted]

1. Section 5A-2.303-4 is deleted.
2. Section 5A-2.303-8 is added as follows:

#### § 5A-2.303-8 Records.

Before returning a late bid to a bidder, the late-bid record to be made for the file in accordance with § 1-2.303-8 should be corroborated by a photostat, photograph, or photocopy of the envelope, package, or wrapper. Since, with some exceptions, reproductions of U.S. postage stamps are unlawful, care shall be taken to reproduce only the date (and time) of the Postal Services cancellation and to block or mark out all other portion(s) of the canceled postage stamps.

#### PART 5A-72—REGULAR PURCHASE PROGRAMS OTHER THAN FEDERAL SUPPLY SCHEDULE

##### Subpart 5A-72.1—Procurement of Stores Stock Items

1. Section 5A-72.105-28(b) is revised as follows:

##### § 5A-72.105-28 Warehouse addresses and consignment instructions.

(b) Where requirements are expected to result in deliveries to more than one region the procurement activity shall incorporate in the solicitation by reference the latest edition of GSA Form 1126, Consignment Information—GSA Supply Distribution Facilities.

2. Section 5A-72.106-7 (a) and (b) are revised as follows:

##### § 5A-72.106-7 Procurement of paints, dopes, varnishes, and related products (FSC Group 80).

(a) *General policies on paint contract period.* Contracts for paints may be made for either a 6-month or a 12-month period. The contract file must be documented to explain why the contract period which was selected was considered the one more advantageous to the Government, competition (including small business participation), fluctuations in the price of ingredients, cost of packaging, transportation, expected purchase volume, and other factors considered. Paint manufacturers are often subject to wide fluctuations in the cost of ingredients used in the production of paint. Because of this they tend to build in a price buffer as a safety device to absorb price increases when the contract period is long.

(b) *The minimum order limitation clause.* (See § 5A-72.105-21.)

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5-1.101(c))

*Effective date.* This regulation is effective on the date shown below.

Dated: February 28, 1972.

M. S. MEEKER,  
Commissioner,  
Federal Supply Service.

### Chapter X—Interstate Commerce Commission

#### SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1092]

#### PART 1033—CAR SERVICE

### Missouri Pacific Railroad Co. Author- ized To Operate Over Tracks of Illi- nois Central Railroad Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the third day of March 1972.

It appearing, that because of destruction by fire of a bridge, the Illinois Central Railroad Co. is unable to operate over its line serving Helena, Ark.; that shippers located on the Illinois Central Railroad Co. at Helena, Ark., are thereby deprived of railroad service; that the Missouri Pacific Railroad Co. is able to operate over tracks of the Illinois Central Railroad Co. at Helena, Ark.; that the Illinois Central Railroad Co. has agreed to permit the use of its tracks at Helena, Ark., by the Missouri Pacific Railroad Co. for the purpose of restoring railroad service to shippers located thereon; that the Commission is of the opinion that operation by the Missouri Pacific Railroad Co. over tracks of the Illinois Central Railroad Co. at Helena, Ark., is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impractical and contrary to the public interest; and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

#### § 1033.1092 Service Order No. 1092.

(a) *Missouri Pacific Railroad Co. authorized to operate over tracks of Illinois Central Railroad Co.* The Missouri Pacific Railroad Co. be, and it is hereby, authorized to operate over tracks of the Illinois Central Railroad Co. at Helena, Ark.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) *Rates applicable.* Inasmuch as this operation by the Missouri Pacific Railroad Co. over tracks of the Illinois Central Railroad Co. is deemed to be due to carrier's disability, the rates applicable to traffic moved by the Missouri Pacific Railroad Co. over these tracks of the Illinois Central Railroad Co. shall be the rates which were applicable on the shipments at the time of shipment as originally routed.

(d) *Effective date.* This order shall become effective at 11:59 p.m., March 6, 1972.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., May 31, 1972, unless otherwise modified,

changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, That copies of this order shall be served upon the As-

sociation of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of

the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,  
Secretary.

# Proposed Rule Making

## DEPARTMENT OF THE TREASURY

Bureau of Customs

[ 19 CFR Part 1 ]

### CUSTOMS FIELD ORGANIZATION

#### Notice of Proposed Changes in Customs Regions I and VI

A survey of the operations of Regions I and VI indicates that Customs activities in certain districts in these regions do not warrant their maintenance as separate Customs districts. The incorporation of the area of these districts as part of other districts in the region will result in a more efficient use of Customs personnel and facilities without impairing service to the public. The ports which are the focal points of Customs activities are not affected since they will remain ports in the district in which their area is incorporated. Thus the entry and movement of imported merchandise would not be disrupted by a consolidation of districts.

Therefore, by virtue of authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), which was delegated to the Secretary of the Treasury by the President by Executive Order 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 7 (34 F.R. 15846), it is proposed to make the following changes in the organization of Customs districts and ports:

1. The districts of Providence, R.I., and Bridgeport, Conn., in Region I are abolished.

2. The geographical area of the district of Boston, Mass., is extended to include the area of the abolished districts of Providence, R.I., and Bridgeport, Conn.

3. The ports of Providence, R.I., and Newport, R.I., in the abolished Providence, R.I., district are designated as ports in the Boston, Mass., district.

4. The ports of Bridgeport, Conn., Hartford, Conn., New Haven, Conn., and New London, Conn., in the abolished Bridgeport, Conn., district are redesignated as ports in the Boston, Mass., district.

5. The districts of Port Arthur, Tex., and Galveston, Tex., in Region VI are abolished.

6. The geographical area of the district of Houston, Tex., is extended to include the area of the abolished districts of Port Arthur, Tex., and Galveston, Tex.

7. The ports of Port Arthur, Tex., Beaumont, Tex., Lake Charles, La., Orange, Tex., and Sabine, Tex., in the abolished Port Arthur, Tex., district are designated as ports in the Houston, Tex., district.

8. The ports of Galveston, Tex., Corpus Christi, Tex., Freeport, Tex., and Port Lavaca-Point Comfort, Tex., in the

abolished Galveston, Tex., district are designated ports in the Houston, Tex., district.

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Washington, D.C. 20226. To insure consideration of such communications they must be received in the Bureau not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.3(b) of the Customs regulations (19 CFR 103.3(b)) at the Bureau of Customs, Washington, D.C., during regular business hours.

#### Use of Full Absorption or Modified Full Absorption Method of Inventory Valuation; Notice of Hearing and Extension of Time for Comments

Proposed amendments to the regulations under sections 61, 446, and 471 of the Internal Revenue Code of 1954, relating to gross income, methods of accounting and inventory valuation, appear in the FEDERAL REGISTER for December 15, 1971 (36 F.R. 23809).

Written comments or suggestions pertaining to such proposed regulations were originally required to be submitted by January 14, 1972. The time for submission of written comments or suggestions pertaining to such proposed regulations was extended to March 15, 1972 (37 F.R. 336). The time for submission of the comments or suggestions is hereby further extended to April 17, 1972.

A public hearing on the provisions of these proposed regulations will be held on Tuesday, May 2, 1972, at 10 a.m., e.d.s.t., in Room 3313, Internal Revenue Service Building, 1111 Constitution Avenue NW., Washington, DC 20224.

The rules of § 601.601(a)(3) of the statement of procedural rules (26 CFR Part 601) shall apply with respect to such public hearing. Copies of these rules may be obtained by a request directed to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, or by telephoning (Washington, D.C.) 202-964-3935. Under such § 601.601(a)(3), persons who have submitted written comments or suggestions within the time prescribed in the notice of proposed rule making (including the extension of that time) and who desire to pre-

sent oral comments should by April 26, 1972, submit an outline of the topics and the time they wish to devote to each topic. Such outlines should be submitted to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Persons who desire a copy of such written comments or suggestions or outlines and who desire to be assured of their availability on or before the beginning of such hearing should notify the Commissioner, in writing, at the above address by April 28, 1972. In such a case, unless time and circumstances permit otherwise, the desired copies are deliverable only at the above address. ### LABEL DECLARATIONS ON STANDARDIZED AND NONSTANDARDIZED FOODS

#### Notice of Denial of Petition

A notice of proposed rule-making was published in the FEDERAL REGISTER of May 12, 1971 (36 F.R. 8738), in response to a petition filed by Label, Inc., concerning disclosure, on the label, of all ingredients contained in standardized and nonstandardized foods. By notice published in the FEDERAL REGISTER on July 14, 1971 (36 F.R. 13100), time for filing comments on the proposal was extended to August 10, 1971.

The Commissioner of Food and Drugs also invited comments on whether the Federal Food, Drug, and Cosmetic Act provided the legal authority to promulgate the proposed regulation, or whether new legislation must be enacted.

More than 4,000 comments were received from consumers, consumer groups, the medical and scientific community, State and local governments, the food industry, trade associations, and others. Most of them favored ingredient disclosure. Some comments included a discussion of the legal issues involved.

The Commissioner, having evaluated the comments and other relevant material, concludes that he does not have legal authority to promulgate the requested regulation and that the petition must therefore be denied, as follows:

1. The statutory language of sections 401 and 403 (g) and (i) of the act defines two categories of food: Standardized

and nonstandardized. Congress explicitly provided distinct labeling requirements for each category. It specifically and deliberately did not require that all foods be labeled with a list of all ingredients. For example, the statute requires that the label of a nonstandardized food that is fabricated from two or more ingredients must bear the common or usual name of each ingredient, except that spices, flavorings, and colorings do not have to be named on the label unless they are sold as such. For standardized food, the statute requires that the label must bear only the common name of each optional ingredient (other than spices, flavoring, and coloring) included in the definition and standard of identity and specifically designated in the standard to be named on the label. Failure to comply with these labeling requirements is a misbranding violation. There is no statutory authority to require that the label bear the name of each mandatory ingredient contained in a standardized food or the name of each spice, flavoring, or coloring contained in any food. If Congress had intended to require full disclosure of all ingredients contained in all food, instead of different labeling requirements for different foods, it would have so provided in the statute.

2. The lack of statutory authority to require complete ingredient disclosure is clearly indicated by the statute's legislative history and confirmed by the decision of the U.S. Supreme Court in *Federal Security Adm'r v. Quaker Oats Co.*, 318 U.S. 218 (1943).

Accordingly, for the foregoing reasons the petition of Label, Inc. is denied.

Although the Commissioner lacks legal authority to require complete ingredient disclosure, there is nothing in the act prohibiting manufacturers, packers, and distributors from voluntarily making such disclosure, and there is published elsewhere in this issue of the FEDERAL REGISTER, a notice to that effect.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 403, 701; 52 Stat. 1046, 1047, 1055, as amended; 21 U.S.C. 341, 343, 371) and under authority delegated to the Commissioner (21 CFR 2.120).

### TRANSITION AREA

#### Proposed Alteration and Revocation

The Federal Aviation Administration is considering an amendment to Part 71

of the Federal Aviation Regulations that would revoke the Bartow, Fla., transition area and alter the Lakeland, Fla., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, Post Office Box 20636, Atlanta, GA 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whipple Street, East Point, GA.

The Bartow transition area described in § 71.181 (37 F.R. 2143) would be revoked and incorporated into the Lakeland transition area.

The Lakeland transition area described in § 71.181 (37 F.R. 2143 and 3409) would be redesignated as:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Lakeland Municipal Airport (latitude 27°59'15" N., longitude 82°00'55" W.); within 5 miles each side of Lakeland VORTAC 235° radial, extending from the 8.5-mile radius area to 8.5 miles southwest of the VORTAC; within a 7-mile radius of Bartow Municipal Airport (latitude 27°57'00" N., longitude 81°47'00" W.); within a 5-mile radius of Plant City Municipal Airport (latitude 28°00'00" N., longitude 82°09'40" W.); within a 6.5-mile radius of Gilbert Field Municipal Airport, Winter Haven, Fla. (latitude 28°03'04" N., longitude 81°45'15" W.); within 2.5 miles each side of Lakeland VORTAC 074° radial, extending from the 6.5-mile radius area to the Lakeland Municipal Airport 8.5-mile radius area.

The proposed revocation of Bartow and alteration of Lakeland transition areas are for the purpose of incorporating Bartow into Lakeland to simplify the description and charting, and to provide controlled airspace protection for IFR operations at Gilbert Field Municipal Airport. A prescribed instrument approach procedure to this airport, utilizing Lakeland VORTAC, is proposed in conjunction with the alteration of this transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

## FEDERAL AIRWAYS AND JET ROUTES

### Proposed Designation

The Federal Aviation Administration (FAA) is considering amendments to Parts 71 and 75 of the Federal Aviation Regulations that would designate VOR Federal airway No. 481 from Johnstone Point, Alaska, via Gulkana, Alaska, to Big Delta, Alaska, and Jet Route No. 167 from Johnstone Point via Gulkana; Big Delta; intersection of Big Delta 356°T (327°M) and Fairbanks, Alaska, 122°T (094°M) radials; to Fairbanks, Alaska.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Alaskan Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK 99501. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The FAA proposes the following airspace actions:

1. Designate V-481 from Johnstone Point via Gulkana to Big Delta. The portion within R-2202 is excluded.
2. Designate J-167 from Johnstone Point via Gulkana; Big Delta; intersection Big Delta 356°T (327°M) and Fairbanks 122°T (094°M) radials; to Fairbanks.

These proposed designations would provide controlled airspace for the movement of instrument flight rule air traffic operating between these points.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on March 3, 1972.

## FREQUENCY AND REGULARITY OF OFF-ROUTE CHARTERS

## Proposed Liberalization of Restrictions

MARCH 7, 1972.

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment to Part 207 of the Economic Regulations (14 CFR Part 207) to liberalize the restrictions on frequency and regularity of off-route charter trips performed by scheduled air carriers. The principal features of the proposed rule are set forth in the attached explanatory statement. The amendment is proposed under the authority of sections 204(a), 401(e) (6), and 416(a) of the Federal Aviation Act of 1958, as amended (72 Stat. 743, 754 (as amended by 76 Stat. 143, 82 Stat. 867) and 771; 49 U.S.C. 1324, 1371, and 1386).

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material in communications received on or before April 10, 1972, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 712 Universal Building, 1825 Connecticut Avenue NW., Washington, DC, upon receipt thereof.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,  
Secretary.

## EXPLANATORY STATEMENT

Scheduled air carriers are authorized to perform "off-route" charters<sup>1</sup> of passengers and property subject to the restrictions on volume, frequency and regularity prescribed in Part 207 of the Board's regulations.<sup>2</sup> Whereas the volume restriction places an absolute limit on the number of off-route charters performable by a scheduled carrier during any 1 calendar year—specifically, 2 percent of its base revenue plane miles flown during the preceding calendar

<sup>1</sup> Basically, an "off-route" charter is a charter performed other than between points which a carrier is authorized to serve by certificate or exemption; however, with respect to all-cargo carriers, any passenger charter (with the exception of certain services performed for the Department of Defense) is considered to be "off-route" whether or not performed between certificated points.

<sup>2</sup> 14 CFR Part 207; §§ 207.5, 207.6 (volume limitations), 207.7a (restrictions on frequency and regularity). The volume, frequency and regularity restrictions are not applicable to off-route cargo charters performed by an all-cargo carrier within its "area of operations" as set forth in § 207.6.

year—the restrictions on frequency and regularity are designed to prevent any regular pattern or normal consistency of off-route charter operations.<sup>3</sup> These restrictions were originally intended, *inter alia*, (1) to discourage the route operators from placing undue emphasis on providing air transportation on routes other than those for which they have been certificated, (2) to prevent undue diversion from the on-route services of regular route operators, and (3) to contribute to the financial strength and integrity of the supplemental carriers in their role as character specialists.<sup>4</sup>

Our experience is that, where a small number of charter trips are involved, the Part 207 limitations on frequency and regularity unduly restrict the off-route charter operations of the scheduled carriers. Administratively, over the past several years we have been granting almost routinely a number of applications filed by scheduled carriers for relief from the Part 207 restrictions.<sup>5</sup> The scope of the transportation services covered by these applications has for the most part been limited, usually involving several back-to-back charter trips performed over a relatively short time span. Because of their limited scope these small-scale off-route operations by scheduled operators have neither distracted from their primary route obligations, threatened to impair the

<sup>3</sup> As set forth in § 207.7a, the restrictions on frequency and regularity of off-route charters are that:

"No air carrier shall perform off-route Hawaiian, transatlantic or transpacific charter trips, or any other off-route charter trips between any pair of points, or special services between any pair of points: (a) In excess of eight (8) flights in the same direction during any period of four successive calendar weeks, (b) In the same direction on the same day of two or more successive calendar weeks, (c) In excess of a total of three (3) flights in the same direction during any period of two successive calendar weeks, unless such period is followed by a break of at least one calendar week during which no flights are operated in such markets or between such points, (d) Which are so arranged as to result in the observance of breaks required by paragraph (c) of this section at regularly recurring intervals, or (e) Which are so arranged as to result in any uniform pattern or normal consistency of operations \* \* \*"

In the transatlantic, transpacific, and mainland-Hawaii markets, the restrictions on frequency and regularity are imposed on an "area" wide basis so that any flight between a point in the 48 contiguous states and a point in one of these "areas" is counted against the total number and frequency of flights authorized between a single pair of points; provided, however, that with respect to the transatlantic and transpacific markets, the "area" wide restrictions on frequency and regularity do not apply to off-route charter trips performed by a carrier between a point in the United States and a point in a country to which said carrier is certificated to serve.

<sup>4</sup> ER-419, Sept. 18, 1964, and ER-443, Oct. 10, 1965.

<sup>5</sup> See, e.g., Order 70-2-9, Feb. 4, 1970, Order 70-3-133, Mar. 26, 1970, Order 70-9-66, Sept. 14, 1970, Order 71-1-44, Jan. 8, 1971, and Order 71-11-24, Nov. 4, 1971.

financial integrity of the supplemental carriers, nor presented any significant danger of diverting traffic from other scheduled operators, and thus, in our judgment, are not contrary to the Part 207 objectives previously discussed. Moreover, since scheduled carriers are generally better able than supplementals to provide the aircraft capacity necessary to meet sporadic demands for a small number of back-to-back charter flights, the satisfaction of these infrequent demands by scheduled carriers operating off-route has resulted in improved service to the public.

Considering the foregoing matters, we are of the tentative view that, where only a relatively small number of proposed charter trips are involved, no genuine public need is served by requiring administrative ad hoc determinations to be made as to whether these Part 207 restrictions should be waived. Accordingly, we are proposing to liberalize the Part 207 frequency and regularity restrictions by excluding therefrom the first 10 off-route charter trips operated in a calendar year by a scheduled carrier, in each direction between any pair of points. We think the proposed rule will give scheduled carriers an additional measure of operational flexibility to perform off-route charters in circumstances where their application for special permission to do so would ordinarily be granted by the Board. On the other hand, this liberalization should not result in the unwarranted concentration by these carriers on off-route operations in derogation of their primary responsibility to concentrate on the services for which they have been certificated. The proposed rule will also enable the scheduled carriers to meet irregular demands for special charter services at times when regular traffic is light, and thus achieve better overall utilization of their equipment.

Finally, it should be noted that in view of the "area" wide restrictions on frequency and regularity of off-route charters in the Hawaiian, transatlantic and transpacific markets, under the proposed rule most scheduled carriers would be able to perform, in any calendar year, only the first 10 off-route charter flights in an entire "area" before triggering the Part 207 restrictions.<sup>6</sup> There thus appears to be no substantial likelihood that the proposed rule will permit a scheduled carrier, operating off-route, to make substantial inroads into charter markets which traditionally have been the lifeblood of the supplemental operators.

It is proposed to amend § 207.7a of the economic regulations (14 CFR § 207.7a) to read as follows:

<sup>6</sup> Even in the transatlantic and transpacific markets, where the "area" frequency and regularity restrictions do not apply to off-route charter trips performed by a carrier to points in countries to which the carrier holds route authority, it is expected that most of the charter services performed by these carriers to points in said countries will be operated on-route.

**§ 207.7a Restrictions on frequency and regularity of off-route charter trips and other special services.**

No air carrier shall perform off-route Hawaiian, transatlantic or transpacific charter trips, or any other off-route charter trips between any pair of points, or special services between any pair of points:

(a) In excess of a total of eight (8) flights in the same direction during any period of 4 successive calendar weeks,

(b) In the same direction on the same day of two or more successive calendar weeks,

(c) In excess of a total of three (3) flights in the same direction during any period of 2 successive calendar weeks unless such period is followed by a break of at least 1 calendar week during which no flights are operated in such market or between such points,

(d) Which are so arranged as to result in the observance of breaks required by paragraph (c) of this section at regularly recurring intervals, or

(e) Which are so arranged as to result in any uniform pattern or normal consistency of operations: *Provided*, That the restrictions imposed by this section shall not be applicable to off-route cargo charters performed by an all-cargo carrier within its area of operations as set forth in § 207.6: *And provided further*, That the restrictions imposed by this section shall not apply to the first ten (10) off-route charter trips which an air carrier performs, during any calendar year, in each direction between any pair of points.

These Regulations implement the Military Selective Service Act, as amended (50 U.S.C. App., sections 451 et seq.).

All persons who desire to submit views to the Director on the proposals should prepare them in writing and mail them to the General Counsel, National Headquarters, Selective Service System, 1724 F Street NW., Washington, DC 20435, within 30 days following the publication of this notice in the FEDERAL REGISTER.

The proposed amendments follow:

## PART 1606—GENERAL ADMINISTRATION

Section 1606.62 is revised to read as follows:

### § 1606.62 Request for names, addresses, and personal data concerning officials and employees.

(a) In accordance with Federal Personnel Manual Letter 294-1, March 17, 1966, issued by the Civil Service Commission, the names, position titles, grades, salaries, and duty stations of employees of the Selective Service System are public information.

(b) The names of board members and advisors to registrants will be posted in an area available to the public at each board office to which such personnel are assigned.

(c) In accordance with the reasoning of Federal Personnel Manual Letter 711-8, August 2, 1967, issued by the Civil Service Commission, the home addresses and other personal data concerning the officials designated in paragraph (b) of this section will not be released unless (1) the person to whom the data relates consents to such release or (2) the board chairman determines in writing, after consultation with the person to whom the data relates, that disclosure would not harm such person, and would not constitute a clearly unwarranted invasion of his personal privacy.

**ALTERNATE SERVICE**

**Proposed Selection and Administration**

Pursuant to sections 6(j) and 13(b) of the Military Selective Service Act, as amended (50 App. U.S.C., sections 451 et seq.), the Director of Selective Service hereby gives public notice that consideration is being given to the following proposed amendments to the Selective Service Regulations constituting a portion of Chapter XVI of the Code of Federal Regulations. These regulations implement section 6(j) of the Military Selective Service Act, as amended (50 App. U.S.C., 456(j)).

All persons who desire to submit views to the Director on the proposals should prepare them in writing and mail them to the General Counsel, National Headquarters, Selective Service System, 1724 F Street NW., Washington, DC 20435, within 30 days following the publication of this notice in the FEDERAL REGISTER.

The proposed amendments follow:

**PART 1660—ALTERNATE SERVICE**

Paragraphs (c) and (d) of § 1660.4 *Selection of Nonvolunteer for Alternate Service* are amended to read as follows:

**§ 1660.4 Selection of Nonvolunteer for Alternate Service.**

(c) When the RSN of a registrant classified in Class 1-0 is within the range of RSNs which are currently being reached for induction, the local board will send him Selection for Alternate Service (SSS Form 155), and retain a copy in the Registrant File Folder (SSS Form 101). Conscientious Objectors Skills Questionnaire (SSS Form 152) and three copies of Employer's Statement of Availability of a Job as Alternate Service (SSS Form 156) will also be sent to the registrant at this time.

(d) Mailing of the Selection for Alternate Service; Rights and Obligations of Conscientious Objectors in the Alternate Service Assignment Process (SSS Form 155) by the local board is the effective beginning of processing for alternate service in lieu of induction for the affected registrant. If the registrant has not been ordered to an alternate service job with a reporting date within 270 days after he has exhausted his 60-day job search, he will be placed in a lower priority selection group. Delays in processing due to litigation instituted by the registrant, litigation pending against the registrant, or a postponement of processing for alternate service granted

the registrant under § 1660.7 will not count toward the 270-day time period.

Paragraph (e) of § 1660.9 *Administration of Alternate Service*, is amended to read as follows:

**§ 1660.9 Administration of Alternate Service.**

(e) The Director of Selective Service or the State Director of Selective Service will issue travel orders, tickets or transportation requests and meal and lodging requests to the registrant, upon his request, for his travel (1) from the office of his local board or local board nearest the place of his residence at the time he is selected for alternate service to the place of performance of the alternate service to which he is ordered within the United States, (2) for his return travel from such place to the office of the local board from which he traveled to the place of performing alternate service upon his satisfactorily completing his period of work or his travel to any other place upon his satisfactorily completing his period of alternate service whenever the cost of such transportation would not exceed the cost of travel to the local board from which he traveled, and (3) for his travel from one place of employment to another when his employment is transferred under the provisions of paragraph (c) or (d) of this section.

[Aberdeen Area Office Redefinition Order 2, Amdt. 17]

#### SUPERINTENDENT, PINE RIDGE AGENCY

#### Delegation of Authority on Land Acquisitions, Partitions, Exchanges, and Sales

FEBRUARY 16, 1972.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 F.R. 13938).

This delegation is issued under the authority delegated to the Commissioner of Indian Affairs from the Secretary of the Interior in section 25 of Secretarial Order 2508 (10 BIAM 2.1) and redelegated by the Commissioner to the Area Directors in 10 BIAM 3.

The Aberdeen Area Office Redefinition Order 2 published on page 8756 of the December 21, 1954, issue of the FEDERAL REGISTER (19 F.R. 8756), as amended, is further amended by adding a new section 3.134 under the heading "Functions Relating to Lands and Minerals" in Part 3—Authority of Spe-

cifically Designated Employees. The new section gives the Superintendent of the Pine Ridge Agency authority to approve acquisitions, partitions, exchanges, and sales of trust or restricted lands between individual Indians, or between individual Indians and the Tribe.

Section 3.134 is added to read as follows:

SEC. 3.134 *Approval for land acquisitions, partitions, exchanges, and sales—Pine Ridge.* The Superintendent of the Pine Ridge Agency may exercise all of the authority of the Area Director relating to the approval of acquisitions, partitions, exchanges, and sales of trust or restricted lands between individual Indians, or between individual Indians and the Tribe: *Provided*, That, the title to the land remains in a trust or restricted status; that fair market value is received by the Indian landowner in any transaction approved under this authority; and that all approved title documents be submitted to the Aberdeen Area Office for recording in the Area Title Plant.

W. D. BABBY,  
Area Director.

Approved: February 28, 1972.

#### CALIFORNIA

#### Notice of Proposed Withdrawal and Reservation of Lands

FEBRUARY 28, 1972.

The Forest Service, U.S. Department of Agriculture, has filed application S 4827 for the withdrawal of the land described below, subject to valid existing rights, for addition to the Eldorado National Forest:

MOUNT DIABLO MERIDIAN, CALIFORNIA

T. 10 N., R. 13 E.,  
Sec. 26, Exchange Survey 338, within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ .

The area described aggregates 2.64 acres in El Dorado County, Calif.

The land is completely surrounded by National Forest lands and is determined to be chiefly valuable for national forest purposes. The applicant desires that the land be added to the National Forest in order to promote the efficient management of land and national resource conservation.

On or before April 7, 1972, all persons who wish to submit comments, sugges-

tions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, U.S. Department of the Interior, E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, CA 95825.

The Department's regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. Adjustments will be made as necessary to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior, who will determine whether or not the lands will be withdrawn as requested.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

JESSE H. JOHNSON,  
Acting Chief, Branch of  
Lands and Minerals Operations.

INTERNATIONAL AIR TRANSPORT  
ASSOCIATION

## Order Regarding Fare Matters

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of March 1972. Agreement adopted by Traffic Conference 1 of the International Air Transport Association relating to fare matters, Docket 23486, Agreement CAB 22663, R-248, and R-249.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA). The agreement, which has been assigned the above-designated CAB agreement number, was adopted for effectiveness on February 15, 1972, at meetings held in Geneva in January 1972.

The subject agreement emanates from a special conference called at the request of CIA Mexicana de Aviacion S.A. (Mexicana) to discuss ways in which fares can be adjusted between certain cities in the United States and Mexico served by wide-bodied aircraft, the effect of such service being, in the opinion of Mexicana, a competitive disadvantage resulting in a substantial diminishment of Mexicana's market position.

Although the carriers were unable to reach agreement on fare adjustments in the affected markets, agreement was reached which would amend the existing IATA resolution pertaining to economy conditions of service which would permit Mexicana on its routes between the United States, Mexico, and Kingston to operate with its Boeing 727 aircraft at a maximum of 38 inches. The resolution contains a proviso that if American Airlines operates all of its low-fare services within the United States with a seat pitch of 34 inches or less,<sup>1</sup> Mexicana shall be permitted a maximum seat pitch of not more than 34 inches on its Boeing 727 aircraft.

<sup>1</sup> American now operates its DC-10 aircraft in domestic service at 36-inch pitch in coach.

The foregoing resolution becomes effective only upon the effect of a contingent resolution which would rescind the agreement establishing fares (including fares not yet in effect but agreed upon) between Chicago and Mexico City and between Chicago and Acapulco, thus creating an open-rate situation in these two markets. The agreement provides that under the open-rate conditions, any carrier operating between the United States and Mexico adversely affected by the open fares and/or traffic practices on the two routes described above or any member operating between Chicago and Jamaica<sup>2</sup> adversely affected by changes in fares shall be entitled to adjust its fares and/or traffic practices by filing notice with IATA for circulation to all conference members not less than 30 days prior to the effectiveness of such adjustment.

We will approve the two above-described resolutions.<sup>3</sup> Without reaching a policy decision as to the appropriate or permissible pitch for economy service, we have considered the seating agreement here before us in the context of a carrier solution to a situation in a limited geographical area applicable only to the particular carriers and circumstances here involved.<sup>4</sup>

In these circumstances, the Board, acting pursuant to the Federal Aviation Act of 1958, and particularly sections 102, 204(a), and 412 thereof, does not find the subject agreement to be adverse to the public interest or in violation of the Act.

Accordingly, it is ordered, That:

Agreement CAB 22663, R-248 and R-249, is approved.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,  
Secretary.

## ATOMIC ENERGY COMMISSION

[Docket No. 50-255]

### CONSUMERS POWER CO.

#### Notice of Availability of Applicant's Environmental Report and AEC Draft Detailed Statement on Environmental Considerations for the Palisades Plant

Pursuant to the National Environmental Policy Act of 1969 and the Atomic

<sup>2</sup> If as a result of the open-rate situation the traffic between Chicago and Kingston is affected, the carrier serving Chicago-Kingston would have the opportunity to adjust fares to protect itself accordingly.

<sup>3</sup> In effect R-248 amends the existing agreement covering fares for TC-1 approved in Order 71-2-88. Accordingly, our action herein has the effect of approving the existing agreement as amended.

<sup>4</sup> This action is not to be construed as indicating what our policies would be in domestic operations.

Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that reports entitled "Environmental Report, Operating License Stage—Palisades Plant," "Supplemental Information on Environmental Impact of Palisades Plant," "Requests for Additional Information on Environmental Considerations—Palisades Plant—Docket No. 50-255," "Additional Information on Environmental Considerations—Palisades Plant, December 29, 1971," and an Addendum to the Environmental Report—Operating License Stage (collectively "the report") submitted by the Consumers Power Co. are available for public inspection in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and in the Kalamazoo City Hall, 241 West South Street, Kalamazoo, MI 49006. The report is also available at the Office of Planning Coordination, Executive Office of the Governor, Lewis Cass Building, Lansing, Mich. 48913.

This report discusses environmental considerations related to the proposed issuance of an operating license for the Palisades Plant located in Covert Township, Van Buren County, Mich.

The report has been analyzed by the Commission's Division of Radiological and Environmental Protection, and a draft detailed statement, dated February 29, 1972, on the environmental considerations related to the proposed operation of the Palisades Plant, has been prepared and is available at the locations designated above. Copies of the Commission's February 29, 1972, draft detailed statement on environmental considerations may be obtained upon request addressed to the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection. This statement supersedes the April 7, 1971, detailed statement for which a notice of availability was published in the FEDERAL REGISTER on May 13, 1971 (36 F.R. 8821).

Interested persons may, within thirty (30) days from date of publication of this notice in the FEDERAL REGISTER, submit comments on the proposed action, the report, and the draft detailed statement for the Commission's considerations. Federal and State agencies are being provided with copies of the report and the draft detailed statement (local agencies may obtain these documents on request), and when comments thereon of the Federal, State, and local officials are received, they will be made available for public inspection at the above-designated locations. Comments on the draft detailed statement on environmental considerations from interested members of the public should be addressed to the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection.

Dated at Bethesda, Md., this 3d day of March 1972.

For the Atomic Energy Commission.

## FEDERAL COMMUNICATIONS COMMISSION

[Report 588]

### COMMON CARRIER SERVICES INFORMATION<sup>1</sup>

#### Domestic Public Radio Services Applications Accepted for Filing<sup>2</sup>

MARCH 6, 1972.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

<sup>1</sup> All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations and other requirements.

<sup>2</sup> The above alternative cutoff rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, and Local Television Transmission Services (Part 21 of the rules).

### COLUMBIA GAS TRANSMISSION CORP.

#### Notice of Proposed Changes in Rates and Charges

MARCH 3, 1972.

Take notice that Columbia Gas Transmission Corp. (Columbia) on February 18, 1972, tendered for filing proposed changes in its rates and charges applicable to Zone 4 sales for resale in the State of Ohio, as contained in its FPC Gas Tariff, Original Volume No. 1. The proposed rates would become effective on April 1, 1972, or on such other date as the Commission may authorize Texas Gas Transmission Corp. (Texas Gas) to increase its rates and charges in Docket No. RP72-45.

The proposed rates and charges would increase revenues in Zone 4 by approximately \$5,772,607, or 2 percent, annually, based upon sales for the 12-month period ended December 31, 1971, over and above the rates currently in effect subject to refund in Docket No. RP71-133. Columbia states that the rate increase is intended solely to recover the increase in cost of gas purchased from Texas Gas as proposed by the latter in Docket No. RP72-45, and that the increased rates would be subject to any reduction or refund requirement in Docket No. RP71-18 et al., now pending before the Commission.

Copies of the proposed tariff changes were served on all of Columbia's customers and interested State commissions. Any person who desires to be heard or to make any protest with reference to said application, should on or before March 17, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but

## PACIFIC POWER & LIGHT CO.

### Notice of Application

MARCH 3, 1972.

Take notice that on February 22, 1972, Pacific Power & Light Co. (applicant), a Maine corporation, qualified to transact business in the States of Oregon, Wyoming, Washington, California, Montana, and Idaho, with its principal business office at Portland, Oreg., filed an application with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, seeking an order authorizing the issuance of not to exceed 1,729,212 shares of its authorized but unissued common stock of the par value of \$3.25 per share (additional common stock).

The additional common stock is proposed to be issued pursuant to an underwritten rights offering to the common stockholders of applicant and it is proposed that such holders will be issued rights to subscribe for the additional common stock in the ratio of one share of additional common stock for each 10 shares of applicant's common stock held of record on the rights offering record date, together with a supplementary subscription right in cases where the number of shares held of record is not evenly divisible by 10 or is less than 10. It is presently expected that the record date will be the close of business on April 27, 1972. The price at which shares of the additional common stock will be offered to stockholders for subscription will be determined by applicant's board of directors shortly before the commencement of the proposed subscription offer, and will be fixed in relation to and at an appropriate discount from the then market value of applicant's presently issued and outstanding common stock.

In making the subscription offer, applicant proposes to mail to each common stockholder of record on the record date for the determination of stockholders entitled to participate in the offer, a transferable subscription warrant expressed in terms of rights, the number of rights to be evidenced by each such warrant to be equivalent to the number of shares of applicant's common stock held of record by the stockholder on such record date. The warrants will have a life of not less than 20 days.

Those shares of the additional common stock not subscribed for pursuant to the subscription offer will be offered for sale to underwriters at a price per share equivalent to the price at which said

shares are offered for subscription pursuant to the subscription offer and the underwriters' compensation for commitments to purchase unsubscribed shares will be fixed by competitive bidding.

The proceeds (estimated at \$38 million) from the issuance and sale of shares of the additional common stock will be used to retire short-term notes issued to finance applicant's 1972 construction program, presently estimated at \$100,845,000.

Any person desiring to be heard or to make any protest with reference to said application should, on or before March 24, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

## JOHN H. HILL ET AL.

### Findings and Order

FEBRUARY 29, 1972.

Findings and order after statutory hearing issuing small producer certificates of public convenience and necessity, terminating certificates, canceling FPC gas rate schedules, terminating rate proceedings, amending order issuing certificate, making successor co-respondent, dismissing applications and canceling docket number.

Each applicant herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for small producer certificates of public convenience and necessity authorizing sales of natural gas in interstate commerce, all as more fully set forth in the applications and the Appendix A below.

Certain applicants are presently authorized to sell natural gas pursuant to FPC gas rate schedules on file with the Commission. The temporary and permanent certificates authorizing said sales will be terminated and the related rate schedules will be canceled. Some sales made pursuant to the certificates terminated herein and the canceled FPC gas rate schedules were made at rates in effect subject to refund. There are other rate increases which are suspended or have been collected subject to refund by any of these applicants and were equal to or below area ceiling rates will be terminated.

John H. Hill et al., listed herein in Appendix B, has been granted a small producer certificate of public convenience and necessity in Docket No. CS71-68 authorizing sales of natural gas in interstate commerce. John H. Hill proposes to cover the interests of his partners in Hill Oil and Gas Co. and Hill-Tex. Co. He also proposes to continue in part the sale of natural gas heretofore authorized in Docket No. CI62-603 to be made pursuant to Mobil Oil Corp. FPC Gas Rate Schedule No. 274. The rates at the time of the assignment were effective subject to refund in Docket No. RI70-463. Therefore, applicant will be made a co-respondent in said proceeding; the proceeding will be redesignated accordingly; and the order issuing the small producer certificate in Docket No. CS71-68 will be amended to include the interests of John H. Hill's partners, J. W. Bullion, Trustee, and Texas Broadcasting Corp. The temporary and permanent certificates authorizing the former sales, which are now made under the small producer certificate in Docket No. CS71-68, will be terminated and the related FPC gas rate schedules will be canceled.

After due notice by publication in the FEDERAL REGISTER, no petition to intervene or notice of intervention has been filed. On July 9, 1971, James M. Forgeson, Sr., filed a protest to the granting of the authorization sought by all applicants listed in our notice of small producer applications issued on June 29, 1971, in Docket No. CS69-19 et al., one of whom, applicant in Docket No. CS71-1081, is included in the instant order.

The Commission's staff has reviewed the applications and having considered the protest, recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

At a hearing held on February 24, 1972, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications submitted in support of the authorizations sought herein, and upon consideration of the record,

The Commission finds:

(1) Each applicant is or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption subject to the jurisdiction of the Commission and is, therefore, a "natural-gas company" or will be when the initial delivery is made, within the meaning of the Natural Gas Act.

(2) The sales of natural gas hereinbefore described, as more fully described in the applications herein, will be made in interstate commerce subject to the jurisdiction of the Commission, and such sales by applicants are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) Each applicant is an independent producer of natural gas which is not affiliated with a natural gas pipeline company and whose total jurisdictional sales on a nationwide basis, together with sales of affiliated producers, were not in excess of 10,000,000 Mcf at 14.65 p.s.i.a. during the preceding calendar year.

(5) The sales of natural gas by applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity, and small producer certificates of public convenience and necessity therefore should be issued as hereinafter ordered and conditioned.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the certificates of public convenience and necessity heretofore issued to applicants should be terminated and that the related FPC gas rate schedules should be canceled.

(7) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the order issuing a certificate of public convenience and necessity in Docket No. CS71-68 should be amended as hereinafter ordered.

(8) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that John H. Hill et al., should be made co-respondents in the proceeding pending in Docket No. RI70-463 and that said proceeding should be redesignated accordingly.

(9) The applications pending in Dockets Nos. CI70-831, CI71-56, CI71-370, CI71-563, and CI71-768 are moot.

The Commission orders:

(A) Small producer certificates of public convenience and necessity are issued upon the terms and conditions of this order authorizing the sale for resale and delivery of natural gas in interstate commerce by applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the applications in this proceeding.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission and particularly:

(1) The subject certificates shall be applicable only to all small producer sales as defined in § 157.40(a)(3) of the regulations under the Natural Gas Act; and

(2) Applicants shall file annual statements pursuant to § 154.104 of the regulations under the Natural Gas Act.

(C) The certificates granted in paragraph (A) above shall remain in effect for small producer sales until the Commission on its own motion or on application terminates said certificates because applicants no longer qualify as

small producers or fail to comply with the requirements of the Natural Gas Act, the regulations thereunder, or the terms of the certificates. Upon such termination, applicants will be required to file separate certificate applications and individual rate schedules for future sales. To the extent compliance with the terms of this order is observed, the small producer certificates will still be effective as to sales already included thereunder.

(D) With respect to any small producer sales made pursuant to the authorization herein, the small producer shall not be relieved from compliance with section 7(b) of the Natural Gas Act.

(E) The certificates heretofore issued to applicants for sales proposed to be continued under small producer certificates are terminated and the related FPC gas rate schedules are canceled as indicated below.

(F) The proceedings in which applicants' increased rates have not been made effective and certain proceedings in which increased rates have been made effective subject to refund and are equal to or below the applicable area base rate are terminated as indicated below.

(G) The temporary and permanent certificates of public convenience and

necessity heretofore issued to small producer certificate holder John H. Hill et al., for sales continued under their small producer certificates are terminated and the related FPC gas rate schedules are canceled as indicated in Appendix B hereto.

(H) The certificate of public convenience and necessity heretofore issued to John H. Hill et al. in Docket No. CS71-68 is amended to include the interests of J. W. Bullion, Trustee and Texas Broadcasting Corp.

(I) John H. Hill et al. are made co-respondents in the proceeding pending in Docket No. RI70-463 and said proceeding is redesignated accordingly. John H. Hill et al. are not relieved of any refund obligations for sales from April 16, 1970, under the contract on file as Mobil Oil Corp. FPC Gas Rate Schedule No. 274, to October 1, 1970.

(J) The applications pending in Dockets Nos. CI70-831, CI71-56, CI71-370, CI71-563, and CI71-768 are dismissed.

(K) Docket No. CS71-297 is canceled.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

**HUMBLE OIL & REFINING CO.**

**Order Providing for Hearing and Suspension of Proposed Change in Rate, and Allowing Rate Change to Become Effective Subject to Refund**

MARCH 2, 1972.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in appendix A below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date suspended until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission,

[SEAL] KENNETH F. PLUMB,  
Secretary.

It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date suspended until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the respondent or by the Commission. Each respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission,

[SEAL] KENNETH F. PLUMB,  
Secretary.

\* Unless otherwise stated, the pressure base is 15.025 p.s.i.a.

<sup>1</sup> Includes 1.04 Mcf minimum guarantee for liquids.

<sup>2</sup> Union Oil agrees to a 1-year waiver on filing increases above 21.33 cents subject to being granted a 1 day suspension period as accorded Amoco in Docket No. RI72-70.

<sup>3</sup> Applies to sales from Florence No. 11 Unit and Elliott No. 1-H Unit.

<sup>4</sup> Applies to sales from Munoz and Lindsey A Units.

The proposed increases involved here for sales to El Paso in San Juan Basin, except for Union's increase to 14 cents, are based on a favored-nation clause which was allegedly activated by Aztec Oil & Gas Co.'s unilateral rate increase to 29.23 cents which became effective subject to refund in Docket No. RI71-744 on August 1, 1971. El Paso Natural Gas Co. is expected to protest these favored-nation increases, as they have previous filings, on the basis that they are not contractually authorized. In view of the contractual problem presented, the hearing herein shall concern itself with the contractual basis for these favored-nation filings as well as the justness and reasonableness of the proposed increased rates. Koch's proposed increase exceeds the corresponding rate filing limitations imposed in Southern Louisiana of 21.33 cents per Mcf and is suspended for 5 months. The proposed increases to 21.33 cents per Mcf do not exceed the corresponding rate filing limitations imposed in Southern Louisiana and are suspended for 1 day since Union Oil Co. of California has waived its right to file for additional increases for a period of 1 year from the date such increases were filed except in the event that the Commission determines higher rates to be acceptable or that the buyer and seller agree by negotiation to higher rates. Union's increase to 14 cents is also below the ceiling for a 1-day suspension and is therefore suspended for 1 day.

All of the producers' proposed rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

#### CERTIFICATION OF ABBREVIATED SUSPENSION

Pursuant to § 300.16(1)(3) of the Price Commission rules and regulation, 6 CFR 300 (1972), the Federal Power Commission certifies the abbreviated suspension period in this case as follows:

(1) This proceeding involves producer rates which are established on an area rather than company basis. This practice was established by Area Rate Proceeding, Docket No. AR61-1, et al., Opinion No. 468, 34 FPC 159 (1965), and affirmed by the Supreme Court in "Permian Basin Area Rate Case," 390 U.S. 747 (1968). In such cases as this, producer rates are approved by this

Commission if such rates are contractually authorized and are at or below the area ceiling.

(2) In the instant case, the requested increases do not exceed the rate limit for a 1-day suspension.

(3) By Order No. 423 (36 F.R. 3464) issued February 18, 1971, this Commission determined as a matter of general policy that it would suspend for only 1 day a change in rate filed by an independent producer under section 4(d) of the Natural Gas Act (15 U.S.C. 717c(d)) in a situation where the Commission decides to suspend such rate change under section 4(e) of the Act (15 U.S.C. 717c(e)).

(4) In the discharge of our responsibilities under the Natural Gas Act, this Commission has been confronted with conclusive evidence demonstrating a natural gas shortage. (See Opinions Nos. 595, 598, and 607, and Order No. 435). The Commission is of the opinion in this case that the abbreviated suspension authorized herein will be consistent with the letter and intent of the Economic Stabilization Act of 1970, as amended, as well as the rules and regulations of the Price Commission, 6 CFR 300 (1972). Specifically, this Commission is of the opinion that the authorized suspension is required to assure continued, adequate and safe service and will assist in providing for necessary expansion to meet present and future requirements of natural gas.

#### LVO CORP.

#### Notice of Application

MARCH 2, 1972.

Take notice that on January 19, 1972, LVO Corp. (applicant), Post Office Box 2848, Tulsa, OK, 74101, filed in Docket No. CI72-450 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continuation without change of certain sales of natural gas in interstate commerce heretofore made by Kingwood Oil Co., small

producer certificate holder in Docket No. CS71-41, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 29, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

## FOREIGN-TRADE ZONES BOARD

[Sub-Zone 7-A; Order 88]

### SUB-ZONE 7-A, PENUELAS, PUERTO RICO

#### Voluntary Relinquishment of Grant

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), and the Foreign-Trade Zones Board regulations (15 CFR Part 400), the Foreign-Trade Zones Board has adopted the following order:

Whereas, on February 14, 1962, the Foreign-Trade Zones Board, by Order No. 53 (27 F.R. 1585), issued a grant to the Puerto Rico Industrial Development Co., an instrumentality of the Commonwealth of Puerto Rico, authorizing foreign-trade subzone status for an olefins plant operated by Union Carbide Caribe, Inc., which was designated Foreign-Trade Sub-Zone No. 7-A;

Whereas, the Puerto Rico Industrial Development Co. petitioned the Foreign-Trade Zones Board on October 26, 1971, requesting its approval of the voluntary relinquishment of the subzone grant for the reason that foreign-trade zone status is no longer needed at this facility, because the subzone user, Union Carbide Caribe, Inc., has obtained a long term oil import allocation from the Interior Department under the Mandatory Oil Import Program for its petrochemical feedstocks; and,

Whereas, the District Director of Customs, San Juan, P.R., has stated that all accounts and administrative matters

concerning U.S. Customs have been closed, and that all operations conducted at the plant utilizing the foreign-trade zone privilege were terminated prior to September 28, 1971;

Now, therefore, the Foreign-Trade Zones Board, after full consideration and a finding that approval of the grantee's petition for voluntary relinquishment of the grant is in the public interest, hereby revokes the grant for Sub-Zone No. 7-A, effective September 28, 1971, and rescinds order No. 53 under which the grant was issued.

Signed at Washington, D.C., this 2d day of March 1972.

PETER G. PETERSON,  
Secretary of Commerce, Chairman  
and Executive Officer,  
Foreign-Trade Zones Board.

## GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.;  
Temporary Reg. E-22]

### SECRETARY OF THE AIR FORCE

#### Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of the Air Force to operate a Federal Data Processing Center for ADP Simulation.

2. *Effective date.* This delegation of authority is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly section 111 thereof, authority is hereby delegated to the Secretary of the Air Force to operate a Federal Data Processing Center in the Washington, D.C., area, under the command of the Air Force Data Automation Agency, in accordance with the provisions of the inter-agency agreement between the General Services Administration and the Department of the Air Force for the operation of a Federal Data Processing Center for ADP Simulation.

b. The Secretary of the Air Force may redelegate this authority to any officer, official, or employee of the Department of the Air Force.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ROD KREGER,  
Acting Administrator  
of General Services.

MARCH 3, 1972.

INTERAGENCY AGREEMENT BETWEEN THE  
GENERAL SERVICES ADMINISTRATION AND  
THE DEPARTMENT OF THE AIR FORCE

OPERATION OF A FEDERAL DATA PROCESSING  
CENTER FOR ADP SIMULATION

MARCH 3, 1972.

*Authority.* This interagency agreement is made pursuant to the provisions of section 111 of the Federal Property and Administrative Services Act of 1949, 79 Stat. 1127, as amended (40 U.S.C. 759), and a delegation of authority from the Administrator of General Services to the Secretary of the Air Force.

*Purpose.* This agreement sets forth the provisions governing the operation of a Federal Data Processing Center (FDPC) for general purpose ADP Simulation in the Washington, D.C., area to meet the automatic data processing (ADP) simulation requirements of Federal agencies as a least cost alternative.

*Scope.* The FDPC will process ADP simulation requirements on a Government-wide basis in accordance with the Air Force regulation concerning the "Federal Automatic Data Processing Simulation Center." The FDPC will accept work assignments directly from Federal agencies and other authorized users of Government sources of supply or through referrals from the General Services Administration. For those requirements which cannot be satisfied internally, the FDPC will obtain the required ADP simulation services, including software and maintenance pertaining directly thereto, from commercial sources through the appropriate Air Force procurement support activity and in accordance with a GSA delegation of procurement authority.

*General.* 1. *Effective date.* This agreement becomes operative on the effective date of the aforementioned delegation of authority for operation of the FDPC from the Administrator of General Services to the Secretary of the Air Force.

2. *Policy direction.* A Joint Policy Committee will provide overall policy for management of the Center through the Air Force Director of Data Automation. Members of

this committee include the Assistant Commissioner, Office of Automated Data Management Services, Federal Supply Service, GSA; the Deputy Comptroller for Data Automation, Office of Assistant Secretary of Defense (Comptroller), Department of Defense; the Deputy Director of Data Automation, Comptroller of the Air Force, Department of the Air Force; and the Director, Center for Computer Sciences and Technology, National Bureau of Standards, Department of Commerce. The Air Force representative is designated chairman and will provide the secretariat.

3. *Accounting and billing.* a. Air Force will finance the total cost of operating the FDPC, with the exception of ADP Fund capital investments, from their Operation and Maintenance Appropriation, 57\*3400, and Military Personnel Appropriation, 57\*3500. GSA will reimburse Air Force for these operating costs from the GSA Automatic Data Processing Fund 47x4541. Air Force will submit Standard Form 1080, Voucher for Transfers between Appropriations and/or Funds, to GSA each month for reimbursement of operating costs incurred by the use of Air Force appropriations. With each SF 1080 submitted, Air Force will provide necessary backup data used to determine the amount to be reimbursed.

b. The Air Force will provide appropriate utilization data to GSA each month in accordance with GSA "Data Processing Utilization and Job Cost System Operations Manual," DPM 2.3 and the Air Force Manual for the "Accounting and Financial System for the Federal ADP Simulation Center." GSA will bill and collect from users of FDPC services as documented by this data. Air Force users of the FDPC services will be billed in the same manner as all other users.

c. Rates charged for FDPC services will be developed to recover all costs incurred in the operation of the FDPC including costs to the Air Force and GSA for ADP equipment, supplies, site, personnel, and other administrative costs. Rates charged will be the same for all users for the same type and priority of service and will be projected to attain no gain or loss in the operation of the FDPC. Rates will be reviewed periodically and adjusted as necessary. Rates will be approved by the Joint Policy Committee. They will be established and published in GSA Order OAD 2105.2, "Pricing ADP Services Performed at Federal Data Processing Centers."

4. *Financial plan.* Air Force will provide GSA by not later than August 15 with annual budget estimates for operation of the FDPC for the following budget year. In addition, a quarterly financial plan will be submitted to GSA for approval 45 days prior to the beginning of each fiscal quarter. The FDPC will be staffed by Air Force personnel. GSA will furnish personnel ceilings for civilian employees to the Air Force, as appropriate. Personnel Compensation Limitation, if imposed by Office of Management and Budget, will not be transferred from GSA to Air Force.

5. *Priority of service.* The FDPC will endeavor to meet the scheduled completion dates for all assignments accepted. In the event of a temporary inability to satisfy all essential deadlines, the user requirement with the greatest overall need, as determined by the Commander of the "Federal ADP Simulation Center," will be given the highest priority. Disputes with users concerning priority of assignments will be referred to the Joint Policy Committee.

6. *Operations.* a. Operational control of the FDPC is the sole responsibility of the

Air Force "Federal ADP Simulation Center." Services will be provided in accordance with standards and procedures established by the Air Force.

b. ADP equipment, software, and services other than general purpose simulation services required by the FDPC will be acquired in accordance with FPMR 101-32.4. Any equipment augmentation or related services obtained during the life of this agreement will be mutually agreed upon by both Air Force and GSA, and approved by the Joint Policy Committee. Any ADP equipment or software acquired for use of the FDPC will be financed through and capitalized in the GSA ADP Fund.

c. Arrangements for space, billets, equipment, and supporting services utilized by the FDPC will be determined by mutual agreement between the Air Force and GSA.

7. *Termination.* If the Air Force desires to discontinue its operation of the FDPC or if the General Services Administration elects to withdraw its delegation of authority to Air Force to operate the FDPC, this agreement may be terminated. The Commissioner, Federal Supply Service, GSA or the Comptroller of the Air Force may terminate the agreement with 6 months written notice to the other agency and notification to the Joint Policy Committee that the operation of the FDPC will be discontinued. All capital investments made by the GSA ADP Fund for the use of the FDPC will remain the property of the ADP Fund.

8. *Contacts—GSA.* Office of Automated Data Management Services, Director, ADP Resource Management Division.

*Air Force.* Deputy Director, Director of Data Automation.

## INTERAGENCY TEXTILE ADMINISTRATIVE COMMITTEE

### CERTAIN WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS PRO- DUCED OR MANUFACTURED IN THE REPUBLIC OF CHINA

#### Entry or Withdrawal From Warehouse for Consumption

MARCH 6, 1972.

On December 30, 1971, the U.S. Government concluded a comprehensive bi-

lateral wool and man-made fiber textile agreement with the Government of the Republic of China concerning exports of wool and man-made fiber textiles from the Republic of China to the United States over a 5-year period beginning October 1, 1971, and extending through September 30, 1976. Among the provisions of the agreement are those establishing specific export limitations on Categories 116, 117, 211, 213, 216, 219, 221, 222, 228, 232, 234, and 235 for the agreement year beginning October 1, 1971. The agreement also contains provisions for the establishing of consultation levels for those categories not having specific export limitations for the agreement year beginning October 1, 1971. These levels, which are initially to be controlled by the Government of the Republic of China, could at a later date be controlled by the U.S. Government like those categories having specific export limitations.

Accordingly, there is published below a letter of March 6, 1972, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of wool and man-made fiber textile products in the above categories produced or manufactured in the Republic of China which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning October 1, 1971, and extending through September 30, 1972, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

STANLEY NEHMER,  
Chairman, Committee for the  
Implementation of Textile  
Agreements, and Deputy As-  
sistant Secretary for Re-  
sources.

ASSISTANT SECRETARY OF COMMERCE

COMMITTEE FOR THE IMPLEMENTATION OF  
TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,  
Department of the Treasury,  
Washington, D.C. 20226.

MARCH 6, 1972.

DEAR MR. COMMISSIONER: Under the provisions of the bilateral Wool and Man-Made Fiber Textile Agreement of December 30, 1971, between the Governments of the United States and the Republic of China and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective as soon as possible, and for the 12-month period beginning October 1, 1971, and extending through September 30, 1972, entry into the United States for consumption and withdrawal from warehouse for consumption of wool textile products in Categories 116 and 117 and man-made fiber textile products in Categories 211, 213, 216, 219, 221, 222, 228, 232, 234, and 235, produced or manufactured in the Republic of China, in excess of the following 12-month levels of restraint:

Category		12-month levels of restraint <sup>1</sup>
116	-----pounds--	820,513
117	-----do-----	512,821
211	-----do-----	641,026

219	-----do-----	4,248,366
221	-----do-----	2,989,130
222	-----do-----	2,808,989
228	-----do-----	344,116
232	-----do-----	481,139
234	-----do-----	901,307
235	-----do-----	1,308,258

<sup>1</sup> These levels have not been adjusted to reflect entries made on or after Oct. 1, 1971.

Entries of wool and man-made fiber textile products in the above categories produced or manufactured in the Republic of China and which have been exported to the United States prior to October 1, 1971, shall not be subject to this directive.

Wool and man-made fiber textile products which have been released from the custody of the Bureau of Customs under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of December 30, 1971, between the Governments of the United States and the Republic of China which provide in part that within the aggregate and applicable group limits, limits on specific categories may be exceeded by not more than 5 percent; for the limited carry-over of shortfalls in certain categories to the next agreement year; for limited inter-fiber flexibility between cotton textiles and man-made fiber textile products of the comparable category; and for administrative arrangements.

A detailed description of the wool and man-made fiber textile categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on October 9, 1971 (36 F.R. 19722).

In carrying out this directive, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of China and with respect to imports of wool and man-made fiber textile products from the Republic of China have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

STANLEY NEHMER,  
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

## CERTAIN WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

### Entry or Withdrawal From Warehouse for Consumption

MARCH 6, 1972.

On January 4, 1972, the U.S. Government concluded a comprehensive bilateral wool and man-made fiber textile agreement with the Government of the Republic of Korea concerning exports of wool and man-made fiber textiles from the Republic of Korea to the United States over a 5-year period beginning October 1, 1971, and extending through September 30, 1976. Among the provisions of the agreement are those establishing specific export limitations on Categories 104, 120, 211, 216, 219, 221, 222, 228, 229, 234, 235, and 238 for the agreement year beginning October 1, 1971. The agreement also contains provisions for the establishing of consultation levels for those categories not having specific export limitations to the agreement year beginning October 1, 1971. These levels, which are initially to be controlled by the Government of the Republic of Korea, could at a later date be controlled by the U.S. Government like those categories having specific export limitations.

Accordingly, there is published below a letter of March 6, 1972, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of wool and man-made fiber textile products in the above categories produced or manufactured in the Republic of Korea which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning October 1, 1971, and extending through September 30, 1972, be limited to the designated levels. <sup>1</sup> These levels have not been adjusted to reflect entries made on or after Oct. 1, 1971.

Entries of wool and man-made fiber textile products in the above categories produced or manufactured in the Republic of Korea and which have been exported to the United States prior to October 1, 1971, shall not be subject to this directive.

Wool and man-made fiber textile products which have been released from the custody of the Bureau of Customs under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of January 4, 1972, between the Governments of the United States and the Republic of Korea which provide in part that within the aggregate and applicable group limits, limits on specific categories may be exceeded by not more than 5 percent; for the limited carry-over of shortfalls in certain categories to the next agreement year; for limited inter-fiber flexibility between cotton textiles and man-made fiber textile products of the comparable category; and for administrative arrangements.

A detailed description of the wool and man-made fiber textile categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on October 9, 1971 (36 F.R. 19722).

In carrying out this directive, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of wool and man-made fiber textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of 5 U.S.C.

553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

STANLEY NEHMER,  
Chairman, Committee for the Im-  
plementation of Textile Agree-  
ments, and Deputy Assistant Sec-  
retary for Resources.

## FEDERAL MARITIME COMMISSION

### BOARD OF COMMISSIONERS FOR PORT OF NEW ORLEANS AND PUB- LIC GRAIN ELEVATOR OF NEW OR- LEANS, INC.

#### Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of dis-

crimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. Cyrus C. Guidry, Port Counsel, Board of Commissioners of the Port of New Orleans, Post Office Box 60046, New Orleans, LA 70160.

Agreement No. T-590-5, between the Board of Commissioners of the Port of New Orleans and the Public Grain Elevator of New Orleans, Inc., modifies the basic agreement which provides for the lease of the Public Grain Elevator at New Orleans. The purpose of the modification is to delete a sacking plant from the leased premises and reduce the annual rent by \$30,000.

Dated: March 7, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,  
Secretary.

## OFFICE OF EMERGENCY PREPAREDNESS

### MASSACHUSETTS

#### Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in me by the President under Executive Order 11575 of December 31, 1970; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92-209 (85 Stat. 742); notice is hereby given that on March 6, 1972, the President declared a major disaster as follows:

I have determined that the damages in certain areas of the State of Massachusetts from severe storms and flooding, beginning about February 18, 1972, are of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of Massachusetts. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in me by the President under Executive Order 11575 to administer the Disaster Relief Act of 1970 (Public Law 91-606, as amended), I

hereby appoint Mr. Albert D. O'Connor, Regional Director, OEP Region 1, to act as the Federal Coordinating Officer to perform the duties specified by section 201 of that act for this disaster.

I do hereby determine the following areas in the State of Massachusetts to have been adversely affected by this declared major disaster:

The counties of:

Essex	Plymouth
Norfolk	Suffolk

Dated: March 7, 1972.

G. A. LINCOLN,  
Director,

Office of Emergency Preparedness.

are hereby modified and/or superseded as set forth below. Supersedeas decision numbers are in parenthesis following the number of the decision being superseded.

These modification and/or supersedeas decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since these determinations were issued.

The determinations of prevailing rates and fringe benefits made in these modifications and/or supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, and of Secretary of Labor's Orders 13-71 and 15-71 (36 F.R. 8755, 8756). The prevailing rates and fringe

benefits determined in the foregoing area wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

The modification and/or supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER until the end of the period for which the determinations being modified and/or superseded were issued and are to be used in accordance with the provisions of 29 CFR Part 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. sec. 553 is set forth in the document being modified.

The modification and/or supersedeas decisions to the area wage determination decisions listed above are set forth below.

Signed at Washington, D.C., this 3d day of March 1972.

In making its application, applicant states that all employees who will be affected by the variance have been notified of the application by the publication of an article on page 3 of the November issue of PPG News which gave employees notice of the filing of the application. Applicant states it has 37,000 employees located throughout the United States and that a copy of the issue containing the notification of the application was mailed to each employee. A copy is also attached to the application, as appendix B. As an additional means of giving notice of the application, a copy of the article in PPG News has been posted on the bulletin boards at each of the factory and research locations at the addresses stated above. The bulletin board posting of the article informs employees that a copy of the application is available for examination in the office of the Employee Relations Director. Further the Employee Relations Director at each location has been furnished with a copy of the application and its attachments which will be available upon request for examination by any interested employee.

The applicant states that in 1968, upon change of the corporate name from Pittsburgh Plate Glass Co. to PPG Industries, Inc., a professionally developed accident prevention sign program for use primarily in the Company's manufacturing and research facilities was initiated. Although the accident prevention sign program was based substantially on the

specifications in ANSI Z35.1-1969, specifications for accident prevention signs (substantially the source of §§ 1910.145 (a) through (e)) the applicant determined that in some categories they could be improved. Applicant states that in developing its accident prevention sign program it corrected alleged deficiencies in ANSI Z35.1-1969 and 29 CFR 1910.145 (a) through (e).

Regarding the merits of the application, applicant states that its accident prevention signs would be as effective and in many areas more effective for the purpose of accomplishing the desired results than either the ANSI Z35.1-1969 standard or the specifications set forth in 29 CFR 1910.145 (a) through (e). Applicant states the differences which it seeks in the variance application are related principally to the format of the signs. Applicant proposes to use the accident prevention sign program specifications set forth in its Corporate Sign Manual Bulletin No. 25, attached to the application as appendix A, which presents a detailed description of the sign program.

Applicant proposes to determine both the size of the signs and of its letters by a formula calculation based on the viewing distance from which the sign is to be read. The rule which would be followed in calculating the correct letter height is: 1 inch of letter height equals 50 feet of viewing distance for normal, walkup signs; and 35 feet for every inch of letter for signs that must be viewed from moving vehicles. The applicant's proposed sign program uses five different letter sizes: seventh-eighths inch; 1 1/8 inch; 2 3/4 inch; 3 1/2 inch; and 4 7/8 inch. Applicant contends that the specifications in 29 CFR 1910.145 (a) through (e) make no reference to the most important consideration of viewing distance, nor do they limit the size of the message to be printed on a particular size sign, making it possible to clutter the sign with too many words for its size.

Applicant states that although its program uses the same primary colors specified in 29 CFR 1910.145 (a) through (e), it uses a 100 percent color surface which renders the sign less cluttered than those specified in the federal standard, where only 35 percent of the sign surface is color coated. Applicant contends that the complicated format and lack of color saturation in the federal standard signs can easily result in confusion. The sign program controls the typography used by specifying the use of a professionally developed sign alphabet which the applicant contends materially improves the readability and effectiveness of the sign.

The applicant's sign program provides for the use of reflective signs, both interior and exterior, when clear legibility is needed at night. Applicant states that the Federal standard does not specify that reflective material should be used on the face of the sign when night viewing is required. Lastly, applicant proposes to make signs of aluminum with

rounded corners to prevent the signs themselves from being a hazard.

In summary, the applicant, PPG Industries, Inc., contends that its Accident Prevention Sign Program, in many respects, goes beyond the specifications in 29 CFR 1910.145 (a) through (e) and would result in more effective accident prevention than will the signs based on the Federal standard.

A copy of the application will be made available for inspection and copying upon request at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Washington, DC 20210, and at the following regional and area offices:

Interested persons, including affected employers and employees, are invited to submit written data, views, and arguments regarding the application for a variance within 30 days following the publication of this notice in the FEDERAL REGISTER. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application for a variance within 30 days after the publication of this notice in the FEDERAL REGISTER, in conformity with the requirements of 29 CFR 1905.15. Submissions of written comments and requests for a hearing shall be in quadruplicate, and shall be addressed to the Office of Safety and Health Standards at the above address.

II. *Interim order.* It appears from the application for a variance and interim order, and supporting data, filed by PPG Industries, Inc. that the methods of design, format, construction and use of the accident prevention signs according to the specifications in its Corporate Sign Manual Bulletin No. 25 would provide employments and places of employment as safe and healthful as those which would prevail if the applicants were to comply with the requirements of 29 CFR 1910.145 (a) through (e). It further appears from the application that an interim order is necessary to prevent undue delay in the placement of signs by the employer to provide protection for the safety and health of the employees: *Therefore it is ordered.* Pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 and 29 CFR 1905.11(c) that PPG Industries, Inc. be, and it is hereby, authorized to use the methods of design, construction and format for accident prevention signs in accordance with the specifications set forth in its PPG Corporate Sign Manual Bulletin No. 25, attached to the application as appendix A, in lieu of the requirements in the last sentence of 29 CFR 1910.145(d)(1), 29 CFR 1910.145(d)(2), in the last sentence of 29 CFR 1910.145(d)(3)(i), in 29 CFR 1910.145(d)(3)(iii), 29 CFR 1910.145(d)(4)(i), 29 CFR 1910.145(d)(4)(ii), 29 CFR 1910.145(d)(6), 29 CFR 1910.145(d)(7), 29 CFR 1910.145(d)(9), and of the "strokes" requirement in 29 CFR 1910.37(q)(8), and in accordance with the following additional conditions:

(1) All accident and prevention signs shall be designed, constructed, and utilized in accordance with the specifications described in the PPG Corporate Sign Manual Bulletin No. 25 as submitted with the application.

(2) All standard symbols including the radiation, slow-moving vehicle em-

blem, and biohazard symbol prescribed in 29 CFR 1910.145 shall be used where required.

(3) The applicant, PPG Industries, Inc., shall give notice to affected employees of the terms of this interim order by the same means required to be used to inform them of the application for the variance.

*Effective date.* This interim order shall be effective as of March 10, 1972, and shall remain in effect until a decision is rendered on the application for variance by PPG Industries, Inc.

Signed at Washington, D.C., this 6th day of March 1972.

Assistant Secretary of Labor.

## SECURITIES AND EXCHANGE COMMISSION

[70-5161]

### DELMARVA POWER & LIGHT CO.

#### Notice of Proposed Underwritten Common Stock Offering to Stockholders and Offering of Unsubscribed Shares to Employees

MARCH 6, 1972.

Notice is hereby given that Delmarva Power & Light Co. (Delmarva), 600 Market Street, Wilmington, DE 19899, a registered holding company and also a public-utility company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6, 7, and 12(c) of the Act and Rules 42 and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Delmarva proposes to issue and sell 1,118,041 shares of its authorized but unissued common stock, par value \$3.375 per share, at an offering price, to be determined by Delmarva's Board of Directors no later than 12 noon on April 25, 1972, which will not exceed, nor be less than 85 percent of, the last reported sale price on the New York Stock Exchange prior to the determination of the offering price.

In accordance with the present requirements of Delmarva's Certificate of Incorporation, its common stockholders of record on April 27, 1972, will have the right (evidenced by transferable warrants) to subscribe to the new stock on the basis of one share of new stock for each 10 shares of common stock held of record on such date. No fractional shares are to be issued; a warrant or combination of warrants evidencing a total number of shares not evenly divisible by 10 will entitle the holder thereof to subscribe for one additional full share. Subject to the rights of warrant holders, the

stock will also be offered at the same offering price to employees of Delmarva and its subsidiary companies in an amount not exceeding 300 shares per employee. The unsubscribed balance, if any, of the common stock will be sold at the offering price to underwriters subject to the competitive bidding requirements of Rule 50. The competitive bidding will also specify the compensation to be paid to the underwriters.

Delmarva also proposes, for the purpose of stabilizing the price of its common stock, to purchase in the open market not more than 55,902 shares of its common stock. Such stabilization, if commenced, will be terminated not later than the time fixed for the opening of bids for the purchase of the unsubscribed stock. Shares acquired by Delmarva as a result of such stabilization will be included as a part of the unsubscribed stock which will be sold to the underwriters.

The net proceeds received from the proposed issue and sale of common stock will be applied toward the cost of the 1972 construction program of Delmarva and its subsidiary companies, including the retirement of all or a portion of unsecured short-term notes issued prior to such sale. On February 28, 1972, such unsecured short-term notes outstanding amounted to \$6,500,000. Construction expenditures for 1972 are estimated at \$120,591,851 including an allowance for funds used during construction of \$9,418,960. It is stated that Delmarva contemplates the sale of additional securities during 1972 to finance, in part, its said construction program.

A statement of the fees and expenses to be incurred in connection with the proposed transactions will be filed by amendment. The filing indicates that the Public Service Commission of Delaware has jurisdiction over the proposed issue and sale of common stock by Delmarva and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 12, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rules 20(a) and 100 thereof or the Commission may take such other action as it may deem appropriate. Persons who request a hearing or advice as to

whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

RONALD F. HUNT,  
Secretary.

### GULF POWER CO.

#### Notice of Proposed Issue of First Mortgage Bonds for Sinking Fund Purposes

MARCH 6, 1972.

Notice is hereby given that Gulf Power Co. (Gulf), Post Office Box 1151, Pensacola, FL 32502, a public-utility subsidiary company of The Southern Co., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a) and 7 thereof as applicable to the proposed transaction. All interested persons are referred to said declaration, which is summarized below, for a complete statement of the proposed transaction.

Gulf proposes, on or prior to June 1, 1972, to issue \$1,329,000 principal amount of its First Mortgage Bonds, 3 1/4 percent Series due 1984, under the provisions of its Indenture dated as of September 1, 1941, between Gulf and The Chase Manhattan Bank (N.A.) and The Citizens & Peoples National Bank of Pensacola, as Trustees, as amended and supplemented, and to surrender such bonds to the Trustees in accordance with the sinking fund provisions. The bonds are to be identical with those authorized by the Commission on June 14, 1954 (Holding Company Act Release No. 12543) and are to be issued on the basis of unfunded net property additions, thus making available for construction and other purposes cash which would otherwise be required to satisfy the sinking fund requirement or to purchase bonds for such purpose.

It is stated that the issuance of the bonds will be expressly authorized by the Florida Public Service Commission and that no other State commission, and no Federal commission other than this Commission, has jurisdiction over the proposed transaction. The fees and expenses to be paid in connection with the proposed transaction are estimated at \$1,150, including \$650 for charges of the Trustee and counsel fee of \$250.

Notice is further given that any interested person may, not later than March 31, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary,

Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

### KEYSTONE CAPITAL CORP.

#### Notice of Filing of Application for Order Declaring Company Has Ceased To Be an Investment Company

MARCH 3, 1972.

Notice is hereby given that Keystone Capital Corp. (Applicant), 99 High Street, Boston, Massachusetts 02210, a Massachusetts corporation registered as a closed-end management investment company under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The application states, that on February 16, 1972, Applicant's board of directors determined that Applicant should be dissolved, that Keystone Custodian Funds, Inc., which act as investment advisor of the company has determined to abandon the venture, and that Applicant has never sold shares nor does it propose to do so in the future.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than March 24, 1972, at 5:30 p.m., submit to the

Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in such application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

### MISSISSIPPI POWER CO.

#### Notice of Proposed Issue of First Mortgage Bonds for Sinking Fund Purposes

MARCH 6, 1972.

Notice is hereby given that Mississippi Power Co. (Mississippi), 2992 West Beach, Gulfport, Mississippi 39501, an electric utility subsidiary company of the Southern Co., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a) and 7 of the Act as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Mississippi proposes, on or prior to June 1, 1972, to issue \$1,307,000 principal amount of its first-mortgage bonds, 2 3/4 percent series due 1980, under the provisions of its indenture dated as of September 1, 1941, between Mississippi and Morgan Guaranty Trust Co. of New York, as trustee, as amended and supplemented, and to surrender such bonds to the trustee in accordance with the sinking fund provisions. The bonds are to be identical with those which were the subject of the Commission's order of May 7, 1971 (Holding Company Act Re-

lease No. 17125) and are to be issued on the basis of unfunded net property additions, thus making available for construction and other purposes cash which would otherwise be required to satisfy the sinking fund requirement or to purchase bonds for such purpose.

The fees and expenses to be paid by Mississippi in connection with the issuance of the bonds are estimated at \$1,150, including \$650 for charges of the trustee and counsel fee of \$250. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than March 31, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

### AIR FREIGHT MOTOR CARRIERS

#### Application for Approval of Agreement

FEBRUARY 11, 1972.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of section 5a of the Interstate Commerce Act.

Filed November 26, 1971, by: Richard A. Harbourt, President, Air Freight Motor Carriers Conference, Post Office Box 3215, Trenton, NJ 08619, (Attorney-in-fact); Thomas M. Knebel, Rea, Cross & Knebel, 917 Munsey Building, 1329 E Street NW., Washington, DC 20004 (Counsel).

Agreement involves: Organization and procedures between and among common carriers by motor vehicle, members of the Air Freight Motor Carriers Conference relative to the joint consideration, initiation, establishment, and change of rates, rules, regulations, classifications, and practices applicable to the motor transportation in interstate and foreign commerce of shipments having a prior or a subsequent movement by air.

The complete application may be inspected at the Office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 20 days from the date of publication of this notice in the FEDERAL REGISTER. As provided by the general rules of practice of the Commission, persons other than applicants should fully disclose their interest, and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved without public hearing.

### STEEL CARRIERS' TARIFF ASSOCIATION, INC.

#### Application for Approval of Amendments to Agreement

FEBRUARY 11, 1972.

The Commission is in receipt of an application in the above-entitled proceeding for approval of amendments to the agreement therein approved.

Filed November 24, 1971, by: Warren A. Rawson, Managing Director, Steel Carriers' Tariff Association, Inc., 6410 Kenilworth Avenue, East Riverdale, MD 20840; Bryce Rea, Jr., 917 Munsey Building, 1329 E Street NW., Washington, DC 20004 (of counsel).

The amendments involve: (1) Revision of article 1, section II, to clarify carrier admission to membership; (2) increase the membership on the board of trustees from 9 to 13 members by special election, correspondingly change the quorum requirements thereto from 5 to 7 members, and extend the term for trustees from 3 to 4 years (article III); and (3) expand the territorial scope of the agreement to embrace some 13 additional States (article VI, section I).

The complete amended application may be inspected at the office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 20 days from the date of publication of this notice in the FEDERAL REGISTER. As provided by the general rules of practice of the Commission, persons other than applicants should fully disclose their interest, and the position they intend to

take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved without public hearing.

### INCREASED CHARGES FOR PERISHABLE PROTECTIVE SERVICES, 1971

FEBRUARY 18, 1972.

In accordance with the Commission's prior notice published in the May 28, 1971, issue of the FEDERAL REGISTER (36 F.R. 9807), all interested parties were requested to file replies within 20 days to the petitions filed April 1, 1971, by numerous rail carriers seeking modification of outstanding orders of the Commission so as to permit filing of increased charges for the use of perishable protective services. The outstanding orders sought to be modified were issued in the following proceedings:

Docket No. 17936, Refrigeration Charges on Fruits, etc., from the South, 151 I.C.C. 649, 172 I.C.C. 3.

Docket No. 28994, Half Stage Refrigeration Service, 256 I.C.C. 213.

Docket No. 20769, Charges for Protective Service to Perishable Freight, 215 I.C.C. 684, 241 I.C.C. 503, 253 I.C.C. 351, 262 I.C.C. 243, 274 I.C.C. 751, 277 I.C.C. 347, and 332 I.C.C. 136.

Ex Parte No. 162, Increased Railway Rates, Fares and Charges, 1946, 266 I.C.C. 537, 615.

Ex Parte No. 166, Increased Freight Rates, 1947, 270 I.C.C. 403, 461.

Docket No. 31342, Proposed Increased Refrigeration Charges, 297 I.C.C. 505.

Investigation and Suspension Docket No. 7778, Refrigeration and Packinghouse Products—Midwest, 319 I.C.C. 113, 120.

The Commission has received a petition filed by the rail carriers on January 5, 1972, to amend their petition filed April 1, 1971. The petitioners state that the requested amendment to their petition for increased charges for perishable protective service is necessary in order to further increase those charges in an attempt to bring them more nearly into line with the present costs of providing such service. According to petitioners, there has been no increase in these charges in over 15 years. Petitioners assert that there is no attempt to increase the charges over the level of the cost to the railroads and that in most instances the proposed increased charges do not equal the cost of providing the service. The amended petition was served on the Price Commission pursuant to the regulations in effect at that time.

A copy of this notice will be served upon the petitioner, and notice of the filing of the petition will be given to the general public by depositing a copy of this notice in the office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, for publication therein. Copies of any future

notices, orders, etc., herein will be served only on petitioners and those responding to this and the prior notice.

Any persons, other than those who have already notified the Commission, interested in the matter which is the subject of the petition, and desiring to participate in any subsequent proceedings may, on or before 30 days from the publication of this notice in the FEDERAL REGISTER, file a statement indicating merely whether they support or oppose the determination sought. An original and two copies of such replies must be filed with the Office of Proceedings of this Commission (Room 5334), and must show service of two copies thereof upon H. R. Brandl, Chairman, National Perishable Freight Committee, Room 1176, 222 South Riverside Plaza, Chicago, IL 60606. Thereafter, the nature of further proceedings herein, if any, will be designated.

Written material or suggestions submitted will be available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, DC, during regular business hours.

### INCREASED FREIGHT RATES AND CHARGES, 1972

Present: George M. Stafford, Chairman, to whom the above matter, which is the subject of this order, has been assigned for action thereon.

Upon consideration of the record in the above-entitled proceeding; and good cause appearing therefor:

It is ordered, That the attached draft environmental impact statement be served on all parties to this proceeding;

It is further ordered, That this order and the attached draft environmental impact statement be served on Honorable Russell E. Train, Chairman, Council on Environmental Quality, 722 Jackson Place NW., Washington, DC 20006 (10 copies); Mr. Charles Fabrikant, Director of Impact Statement Office, Environmental Protection Agency, 1626 K Street NW., Washington, DC 20460; Honorable Herbert F. DeSimone, Assistant Secretary for Environmental and Urban Systems, Department of Transportation, Washington, D.C. 20590; Mr. Jack O. Horton, Deputy Assistant Secretary for Programs, Department of the Interior, Washington, D.C. 20240; Dr. Sydney R. Galler, Deputy Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230; and Honorable Roger O. Egeberg, Assistant Secretary for Health and Science Affairs, Department of Health, Education, and Welfare, Washington, D.C. 20202;

It is further ordered, That the foregoing persons and all other interested persons shall be afforded the opportunity to offer comments on the attached draft environmental impact statement.

Dated at Washington, D.C., this 1st day of March 1972.

By the Commission, Chairman Stafford.

ROBERT L. OSWALD,  
Secretary.

DRAFT ENVIRONMENTAL IMPACT STATEMENT

1. The above-entitled proceeding involves an administrative action.

2. For purposes of this draft environmental impact statement, the proposed action is the possible approval or disapproval by the Interstate Commerce Commission of selected increase proposals for commodity groupings to replace the 2½ percent surcharge recently allowed to become effective on a temporary basis, to be applied by the railroads in rendering service throughout the United States.

3. As an emergency interim measure to meet a critical need for additional revenue that the railroads have demonstrated, the imposition of the surcharge published to become effective on February 5, 1972, and to expire not later than June 5, 1972, as required by the order of the Interstate Commerce Commission, approved February 1, 1972, will have no significant adverse effect on the quality of the human environment within the meaning of the Environmental Policy Act of 1969.

However, by its order the Commission directed the railroads to update their tariffs to reflect rate increases previously approved not later than June 5, 1972. The railroads, on February 28, 1972, filed a proposal to increase their freight charges on a selective basis. While the Commission has made it quite clear that the surcharge now in effect will expire by operation of law no later than June 5, 1972, and thus cannot actually become a permanent part of the railroads' rate structure, nevertheless, for the purpose of analyzing its impact upon environment, and for that purpose only, we shall treat it arguendo as though it were not an interim, but a permanent increase. Under the assumed condition, if the Commission were to approve the railroads' actions by report and order entered at the conclusion of an investigation herein, such action would have only limited, if any, impact upon the environment, as more fully set forth in the accompanying draft environmental impact statement.

4. The alternatives to the incorporation of the surcharge as a permanent part of the railroads' rate structure include the selective application of authorized increases, to individual rates, the imposition of so-called holddowns or the disallowance altogether of any rate increase not previously approved by the Commission.

5. This draft environmental impact statement will be served upon all parties of record herein and upon those additional persons identified in the order of Chairman Stafford approving its service, all of whom are requested to offer comments.

6. This draft environmental impact statement will be served on March 6, 1972.

The Interstate Commerce Commission has permitted the Nation's railroads, effective February 5, 1972, to impose a 2½ percent surcharge on existing rates (with specified exceptions and conditions) for an interim period no longer than four months, ending June 5, 1972. On February 28, 1972, the railroads submitted a proposal to increase their rates selectively, and sought permission to file updated tariffs seeking a "general increase in freight charges on a selective basis". The active investigation was held in abeyance until receipt of a request by the carrier respondents for permission to file the revised

tariffs indicated above. Upon consideration of the evidence and statements presented to date in Ex Parte No. 281, Increased Freight Rates and Charges, 1972, the following proposed draft environmental impact statement is made, in compliance with section 102(2)(C) of the National Environmental Policy Act (NEPA), concerning the possible impact on the environment of the Commission's approval by report and order at the conclusion of its investigation of the incorporation of the surcharge (or the rail substitute therefor) into the schedules of freight rates and charges expected to be filed by the railroads on or before June 5, 1972. This statement is made primarily to point out the issues, and to assist the parties, as well as governmental agencies concerned to present evidence and arguments in the on-going investigation proceeding and otherwise to elicit their comments.

The service of this statement in no way concedes the applicability of NEPA requirements at the suspension stage, that is, when the Commission decides whether to suspend and/or investigate a rate filing (which is all so far done in Ex Parte No. 281), or when rate changes occur by operation of law without suspension or investigation. Port of New York Authority v. United States, ----- F. 2d -----, Dockets 71-1769 and 71-1770 (2d Cir. Nov. 9, 1971).

1. The environmental impact of the proposed action. The imposition of, or failure to impose, a surcharge of 2.5 percent as a permanent part of the railroad rates applicable on freight services might have some impact on the environment; however, based on the varying predictions of the parties in their statements filed to date, it is unclear what the effect would be. Thus, Chairman Russell E. Train of the Council on Environmental Quality (CEQ) has stated to the Chairman of this Commission that across-the-board percentage increases widen alleged price biases against secondary materials and that they raise the costs of doing business which allegedly can hinder the salvage and reclamation industry. In their joint protest to the proposed surcharge the Students Challenging Regulatory Agency Procedures (SCRAP), The Environmental Defense Fund, the National Parks and Conservation Association, and The Izaak Walton League of America contended that any across-the-board increase in freight rates of recyclable materials would have adverse effects on the movement of such environmentally desirable traffic.

On the other hand, an environmental statement (V.S. No. 37) submitted by the railroad respondents as a result of the Commission's requirement (340 I.C.C. at 362) maintains that the surcharge can have no adverse effect upon the environment, and that any environmental impact will come only as the result of deterioration in railroad service due to lack of funds if the surcharge had not been permitted to go into effect.

It is impossible at this point in the investigation to assess with any certainty the environmental impact of assessment of, or failure to assess, a surcharge on various recyclable materials. The parties are called upon to submit additional factual data with regard to this issue.

2. Any adverse environmental effects which cannot be avoided should the proposal be implemented. Since the surcharge, if a part of the permanent rate structure, might have some adverse effect on the movement of the recyclable materials, the effect of implementing the surcharge could possibly be to discourage the movement of such traffic. For example, the statement of the National Association of Secondary Material Industries, Inc. (V.S. No. 98) states that the price of mixed paper stock was \$11

per ton in 1966 but declined to \$7.50 per ton in 1971, and that, except in the Southern territory, rail rates for movements of 150 miles or more were 37-plus cents per hundred pounds of waste paper (\$7.40 per short ton).

To look at another commodity as an example, based on the available information, the value of the scrap iron and steel increased by about 60 percent between 1967-70, and the price fluctuation for that commodity in a single month was more than \$4 per ton. It would seem that the profits of scrap iron dealers are much more influenced by prospective price changes than the incremental freight rate of 2.5 percent which averages out at an increase of about 12 cents per ton.

We note that none of the parties undertook the task, in statements filed thus far, of estimating comparatively the specific effect of the surcharge on the demands for recyclable materials and the commodities with which they compete. The parties should address themselves to the question of whether the demand for scrap iron or waste paper and textiles would be substantially affected by an increase in price of about 12 cents per ton, taking into consideration the percentage increases that would be applied to competitive commodities.

3. Alternatives to the proposed action. The railroad industry's need for additional revenues is well known. The alternatives to the proposed action thus appear to lie in a subsidy for the salvage and reclamation industry or a holddown on rate increases for recyclable materials. The other alternative, denial of any increases, could lead to a disruption in rail service, especially in connection with those carriers which are in financial difficulties. A subsidy, to be paid by interested communities or perhaps collected from the primary materials producers in the form of a tax, is beyond the jurisdiction of this Commission. Accordingly, only a partial or full holddown in the rate increase for recyclable materials can be considered in this or any similar proceeding, unless firm commitment for such subsidy is made part of the record. It should also be pointed out that we do not know whether the railroads intend to permanently increase the charges on secondary materials.

A "holddown" is the granting of something less than the proposed rate increase. This Commission in the past has used the device of a holddown to achieve a desirable result. See, e.g., Ex Parte Nos. 265 and 267, Increased Freight Rates, 1970 and 1971, 339 I.C.C. 125, 209 (1971). The use of such a device, however, is not free from objections.

First, the primary mandate of this Commission is the maintaining of an efficient and economical transportation system for the commerce of the Nation. The railroads have argued that the NEPA does not require the carriers to subsidize the recycling of secondary materials, and that markedly depressed rates on some commodities thrust a subsidy burden on other traffic. Yet it seems that NEPA constitutes sufficient authority for particular inquiry into the transportation of waste materials for recycling or reuse. See, Ex Parte No. MC-85, Transportation of "Waste" Products for Reuse and Recycling (General Motor Carrier Licensing), 114 M.C.C. 92, 93 (1971), wherein the Commission declared its intention to take positive and concrete action to support and encourage antipollution programs. Nevertheless, the low rate of return and working capital level of the railroads are well known and, in order to warrant special treatment for a recyclable material, the Commission must be given facts showing substantially the entire economic picture of the salvage and reclamation industry concerned. Unduly depressed rates might well be counterproductive by burdening existing traffic, including certain volume

traffic, in recyclable materials now moving with relative ease under established commercial relations.

Secondly, the dichotomy between rates based on cost of service and those based on other considerations has been well recognized. A "holddown" is not ordinarily justifiable under cost-of-service theory of ratemaking and so must be classed under a different approach. The Commission has been severely criticized in the past by many for using rate bases other than cost of service, as being discriminatory. Although it will continue to grant holddowns where justified by the facts, and where costs of the movement are met, it is up to the parties to submit concrete data to show that such treatment is warranted. The showing may include, for example, the costs of various grades of recyclable materials to dealers; their transportation costs to points of consumption; the market value of such materials at points of consumption; the rate of return for the reclaiming and salvage industries seeking holddowns; and information concerning the relationship of volume movement of such recyclable materials to the total volume of all freight moved by rail and comparison of rail revenues (both before and after imposition of the surcharge) from recyclable materials to total rail revenues, etc.

The Commission will take the initiative in giving consideration to environmental values in the proceeding but it must base its decision on facts. The evidence of record at the present time is wholly insufficient to support a holddown for scrap iron and steel. As mentioned above, it taxes credulity to believe that the movement of an item may be greatly impeded by an increase in freight rate of 12 cents per ton when the speculative price rise of that item may be as much as \$4.25 per ton in a single month, and over a 3-year period the value of that item has risen about \$16 per ton. Perhaps the parties can suggest a proper perspective for viewing the need for a holddown concerning the scrap iron and steel industry. It does not appear to be too much to ask in a proceeding of this magnitude that such be done.

4. *The relationship between local short-term use of man's environment and enhancement of long-term productivity.* The short-term use of man's environment involved in this proceeding appears twofold. First, to the extent waste materials are recycled, they take the place of primary raw materials in satisfying consumer demand. For example, 1 ton of reprocessed waste paper conserves 17 trees. Ex Parte Nos. 265 and 267, supra, 339 I.C.C. at 204. Secondly, the consumption of the waste materials is a means of disposal and prevents littering and pollution. The long-term productivity of our land and other natural resources would be clearly enhanced by recycling and reusing such waste materials.

5. *Any irreversible and irretrievable commitments of resources which would be involved in the proposed action should be implemented.* At this point, no irreversible and irretrievable commitments of resource here appear to be involved.

#### SUMMARY

The surcharge, if it were designed to be incorporated into the permanent rate structure of the railroad respondents, might then have an impact on the environment because it could be a deterrent to the transportation of certain waste materials for recycling and reuse. However, present evidence of record is completely inadequate for the Commission

to make a determination as to what commodities, if any, warrant special treatment. The Commission requests the parties and other interested persons to assist it in properly discharging its duties under the NEPA by furnishing useful economic data on which the environmental decision in this proceeding must be based and otherwise to comment on this statement.

The opinions and conclusions set forth in this impact statement are tentative and based only on that evidence already available. It is recognized that more evidence is needed before the environmental impact can be definitively measured.

This impact statement will accompany the case through the administrative process, including the processing of the selective increase proposal filed February 28, 1972, and is subject to total or partial revision depending on the conclusions ultimately reached by the Commission.

## Title 3—The President

### EXECUTIVE ORDER 11652

#### Classification and Declassification of National Security Information and Material

The interests of the United States and its citizens are best served by making information regarding the affairs of Government readily available to the public. This concept of an informed citizenry is reflected in the Freedom of Information Act and in the current public information policies of the executive branch.

Within the Federal Government there is some official information and material which, because it bears directly on the effectiveness of our national defense and the conduct of our foreign relations, must be subject to some constraints for the security of our Nation and the safety of our people and our allies. To protect against actions hostile to the United States, of both an overt and covert nature, it is essential that such official information and material be given only limited dissemination.

This official information or material, referred to as classified information or material in this order, is expressly exempted from public disclosure by Section 552(b)(1) of Title 5, United States Code. Wrongful disclosure of such information or material is recognized in the Federal Criminal Code as providing a basis for prosecution.

To ensure that such information and material is protected, but only to the extent and for such period as is necessary, this order identifies the information to be protected, prescribes classification, downgrading, declassification and safeguarding procedures to be followed, and establishes a monitoring system to ensure its effectiveness.

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes of the United States, it is hereby ordered:

**SECTION 1. Security Classification Categories.** Official information or material which requires protection against unauthorized disclosure in the interest of the national defense or foreign relations of the United States (hereinafter collectively termed "national security") shall be classified in one of three categories, namely "Top Secret," "Secret," or "Confidential," depending upon the degree of its significance to national security. No other categories shall be used to identify official information or material as requiring protection in the interest of national security, except as otherwise expressly provided by statute. These classification categories are defined as follows:

(A) "*Top Secret.*" "Top Secret" refers to that national security information or material which requires the highest degree of protection. The test for assigning "Top Secret" classification shall be whether its unauthorized disclosure could reasonably be expected to cause exceptionally grave damage to the national security. Examples of "exceptionally grave damage" include armed hostilities against the United States or its allies; disruption of foreign relations vitally affecting the

national security; the compromise of vital national defense plans or complex cryptologic and communications intelligence systems; the revelation of sensitive intelligence operations; and the disclosure of scientific or technological developments vital to national security. This classification shall be used with the utmost restraint.

(B) "*Secret.*" "Secret" refers to that national security information or material which requires a substantial degree of protection. The test for assigning "Secret" classification shall be whether its unauthorized disclosure could reasonably be expected to cause serious damage to the national security. Examples of "serious damage" include disruption of foreign relations significantly affecting the national security; significant impairment of a program or policy directly related to the national security; revelation of significant military plans or intelligence operations; and compromise of significant scientific or technological developments relating to national security. The classification "Secret" shall be sparingly used.

(C) "*Confidential.*" "Confidential" refers to that national security information or material which requires protection. The test for assigning "Confidential" classification shall be whether its unauthorized disclosure could reasonably be expected to cause damage to the national security.

SEC. 2. *Authority to Classify.* The authority to originally classify information or material under this order shall be restricted solely to those offices within the executive branch which are concerned with matters of national security, and shall be limited to the minimum number absolutely required for efficient administration. Except as the context may otherwise indicate, the term "Department" as used in this order shall include agency or other governmental unit.

(A) The authority to originally classify information or material under this order as "Top Secret" shall be exercised only by such officials as the President may designate in writing and by:

- (1) The heads of the Departments listed below;
- (2) Such of their senior principal deputies and assistants as the heads of such Departments may designate in writing; and
- (3) Such heads and senior principal deputies and assistants of major elements of such Departments, as the heads of such Departments may designate in writing.

Such offices in the Executive Office of the President as the President may designate in writing

Central Intelligence Agency  
Atomic Energy Commission  
Department of State  
Department of the Treasury  
Department of Defense  
Department of the Army  
Department of the Navy  
Department of the Air Force  
United States Arms Control and Disarmament Agency

Department of Justice  
 National Aeronautics and Space Administration  
 Agency for International Development

(B) The authority to originally classify information or material under this order as "Secret" shall be exercised only by:

- (1) Officials who have "Top Secret" classification authority;
- (2) Such subordinates as officials with "Top Secret" classification authority under (A) (1) and (2) above may designate in writing; and
- (3) The heads of the following named Departments and such senior principal deputies or assistants as they may designate in writing.

Department of Transportation  
 Federal Communications Commission  
 Export-Import Bank of the United States  
 Department of Commerce  
 United States Civil Service Commission  
 United States Information Agency  
 General Services Administration  
 Department of Health, Education, and Welfare  
 Civil Aeronautics Board  
 Federal Maritime Commission  
 Federal Power Commission  
 National Science Foundation  
 Overseas Private Investment Corporation

(C) The authority to originally classify information or material under this order as "Confidential" may be exercised by officials who have "Top Secret" or "Secret" classification authority and such officials as they may designate in writing.

(D) Any Department not referred to herein and any Department or unit established hereafter shall not have authority to originally classify information or material under this order, unless specifically authorized hereafter by an Executive order.

*Sec. 3. Authority to Downgrade and Declassify.* The authority to downgrade and declassify national security information or material shall be exercised as follows:

(A) Information or material may be downgraded or declassified by the official authorizing the original classification, by a successor in capacity or by a supervisory official of either.

(B) Downgrading and declassification authority may also be exercised by an official specifically authorized under regulations issued by the head of the Department listed in Sections 2(A) or (B) hereof.

(C) In the case of classified information or material officially transferred by or pursuant to statute or Executive order in conjunction with a transfer of function and not merely for storage purposes, the receiving Department shall be deemed to be the originating Department for all purposes under this order including downgrading and declassification.

(D) In the case of classified information or material not officially transferred within (C) above, but originated in a Department which has since ceased to exist, each Department in possession shall be deemed to be the originating Department for all purposes under this order. Such information or material may be downgraded and declassified by the Department in possession after consulting with any other Departments having an interest in the subject matter.

(E) Classified information or material transferred to the General Services Administration for accession into the Archives of the United States shall be downgraded and declassified by the Archivist of the United States in accordance with this order, directives of the President issued through the National Security Council and pertinent regulations of the Departments.

(F) Classified information or material with special markings, as described in Section 8, shall be downgraded and declassified as required by law and governing regulations.

SEC. 4. *Classification.* Each person possessing classifying authority shall be held accountable for the propriety of the classifications attributed to him. Both unnecessary classification and over-classification shall be avoided. Classification shall be solely on the basis of national security considerations. In no case shall information be classified in order to conceal inefficiency or administrative error, to prevent embarrassment to a person or Department, to restrain competition or independent initiative, or to prevent for any other reason the release of information which does not require protection in the interest of national security. The following rules shall apply to classification of information under this order:

(A) *Documents in General.* Each classified document shall show on its face its classification and whether it is subject to or exempt from the General Declassification Schedule. It shall also show the office of origin, the date of preparation and classification and, to the extent practicable, be so marked as to indicate which portions are classified, at what level, and which portions are not classified in order to facilitate excerpting and other use. Material containing references to classified materials, which references do not reveal classified information, shall not be classified.

(B) *Identification of Classifying Authority.* Unless the Department involved shall have provided some other method of identifying the individual at the highest level that authorized classification in each case, material classified under this order shall indicate on its face the identity of the highest authority authorizing the classification. Where the individual who signs or otherwise authenticates a document or item has also authorized the classification, no further annotation as to his identity is required.

(C) *Information or Material Furnished by a Foreign Government or International Organization.* Classified information or material furnished to the United States by a foreign government or international organization shall either retain its original classification or be assigned a United States classification. In either case, the classification shall assure a degree of protection equivalent to that required by the government or international organization which furnished the information or material.

(D) *Classification Responsibilities.* A holder of classified information or material shall observe and respect the classification assigned by the originator. If a holder believes that there is unnecessary classification, that the assigned classification is improper, or that the document is subject to declassification under this order, he shall so inform the originator who shall thereupon re-examine the classification.

SEC. 5. *Declassification and Downgrading.* Classified information and material, unless declassified earlier by the original classifying authority, shall be declassified and downgraded in accordance with the following rules:

(A) *General Declassification Schedule.* (1) "Top Secret." Information or material originally classified "Top Secret" shall become automatically downgraded to "Secret" at the end of the second full calendar year following the year in which it was originated, downgraded to "Confidential" at the end of the fourth full calendar year following the year in which it was originated, and declassified at the end of the tenth full calendar year following the year in which it was originated.

(2) "Secret." Information and material originally classified "Secret" shall become automatically downgraded to "Confidential" at the end of the second full calendar year following the year in which it was originated, and declassified at the end of the eighth full calendar year following the year in which it was originated.

(3) "Confidential." Information and material originally classified "Confidential" shall become automatically declassified at the end of the sixth full calendar year following the year in which it was originated.

(B) *Exemptions from General Declassification Schedule.* Certain classified information or material may warrant some degree of protection for a period exceeding that provided in the General Declassification Schedule. An official authorized to originally classify information or material "Top Secret" may exempt from the General Declassification Schedule any level of classified information or material originated by him or under his supervision if it falls within one of the categories described below. In each case such official shall specify in writing on the material the exemption category being claimed and, unless impossible, a date or event for automatic declassification. The use of the exemption authority shall be kept to the absolute minimum consistent with national security requirements and shall be restricted to the following categories:

(1) Classified information or material furnished by foreign governments or international organizations and held by the United States on the understanding that it be kept in confidence.

(2) Classified information or material specifically covered by statute, or pertaining to cryptography, or disclosing intelligence sources or methods.

(3) Classified information or material disclosing a system, plan, installation, project or specific foreign relations matter the continuing protection of which is essential to the national security.

(4) Classified information or material the disclosure of which would place a person in immediate jeopardy.

(C) *Mandatory Review of Exempted Material.* All classified information and material originated after the effective date of this order which is exempted under (B) above from the General Declassification Schedule shall be subject to a classification review by the originating Department at any time after the expiration of ten years from the date of origin provided:

- (1) A Department or member of the public requests a review;
- (2) The request describes the record with sufficient particularity to enable the Department to identify it; and
- (3) The record can be obtained with only a reasonable amount of effort.

Information or material which no longer qualifies for exemption under (B) above shall be declassified. Information or material continuing to qualify under (B) shall be so marked and, unless impossible, a date for automatic declassification shall be set.

(D) *Applicability of the General Declassification Schedule to Previously Classified Material.* Information or material classified before the effective date of this order and which is assigned to Group 4 under Executive Order No. 10501, as amended by Executive Order No. 10964, shall be subject to the General Declassification Schedule. All other information or material classified before the effective date of this order, whether or not assigned to Groups 1, 2, or 3 of Executive Order No. 10501, as amended, shall be excluded from the General Declassification Schedule. However, at any time after the expiration of ten years from the date of origin it shall be subject to a mandatory classification review and disposition under the same conditions and criteria that apply to classified information and material created after the effective date of this order as set forth in (B) and (C) above.

(E) *Declassification of Classified Information or Material After Thirty Years.* All classified information or material which is thirty years old or more, whether originating before or after the effective date of this order, shall be declassified under the following conditions:

(1) All information and material classified after the effective date of this order shall, whether or not declassification has been requested, become automatically declassified at the end of thirty full calendar years after the date of its original classification except for such specifically identified information or material which the head of the originating Department personally determines in writing at that time to require continued protection because such continued protection is essential to the national security or disclosure would place a person in immediate jeopardy. In such case, the head of the Department shall also specify the period of continued classification.

(2) All information and material classified before the effective date of this order and more than thirty years old shall be systematically reviewed for declassification by the Archivist of the United States by the end of the thirtieth full calendar year following the year in which it was

originated. In his review, the Archivist will separate and keep protected only such information or material as is specifically identified by the head of the Department in accordance with (E)(1) above. In such case, the head of the Department shall also specify the period of continued classification.

(F) *Departments Which Do Not Have Authority For Original Classification.* The provisions of this section relating to the declassification of national security information or material shall apply to Departments which, under the terms of this order, do not have current authority to originally classify information or material, but which formerly had such authority under previous Executive orders.

SEC. 6. *Policy Directives on Access, Marking, Safekeeping, Accountability, Transmission, Disposition and Destruction of Classified Information and Material.* The President acting through the National Security Council shall issue directives which shall be binding on all Departments to protect classified information from loss or compromise. Such directives shall conform to the following policies:

(A) No person shall be given access to classified information or material unless such person has been determined to be trustworthy and unless access to such information is necessary for the performance of his duties.

(B) All classified information and material shall be appropriately and conspicuously marked to put all persons on clear notice of its classified contents.

(C) Classified information and material shall be used, possessed, and stored only under conditions which will prevent access by unauthorized persons or dissemination to unauthorized persons.

(D) All classified information and material disseminated outside the executive branch under Executive Order No. 10865 or otherwise shall be properly protected.

(E) Appropriate accountability records for classified information shall be established and maintained and such information and material shall be protected adequately during all transmissions.

(F) Classified information and material no longer needed in current working files or for reference or record purposes shall be destroyed or disposed of in accordance with the records disposal provisions contained in Chapter 33 of Title 44 of the United States Code and other applicable statutes.

(G) Classified information or material shall be reviewed on a systematic basis for the purpose of accomplishing downgrading, declassification, transfer, retirement and destruction at the earliest practicable date.

SEC. 7. *Implementation and Review Responsibilities.* (A) The National Security Council shall monitor the implementation of this order. To assist the National Security Council, an Interagency Classification Review Committee shall be established, composed of representatives of the Departments of State, Defense and Justice, the Atomic Energy Commission, the Central Intelligence Agency and the National

Security Council Staff and a Chairman designated by the President. Representatives of other Departments in the executive branch may be invited to meet with the Committee on matters of particular interest to those Departments. This Committee shall meet regularly and on a continuing basis shall review and take action to ensure compliance with this order, and in particular:

(1) The Committee shall oversee Department actions to ensure compliance with the provisions of this order and implementing directives issued by the President through the National Security Council.

(2) The Committee shall, subject to procedures to be established by it, receive, consider and take action on suggestions and complaints from persons within or without the government with respect to the administration of this order, and in consultation with the affected Department or Departments assure that appropriate action is taken on such suggestions and complaints.

(3) Upon request of the Committee Chairman, any Department shall furnish to the Committee any particular information or material needed by the Committee in carrying out its functions.

(B) To promote the basic purposes of this order, the head of each Department originating or handling classified information or material shall:

(1) Prior to the effective date of this order submit to the Interagency Classification Review Committee for approval a copy of the regulations it proposes to adopt pursuant to this order.

(2) Designate a senior member of his staff who shall ensure effective compliance with and implementation of this order and shall also chair a Departmental committee which shall have authority to act on all suggestions and complaints with respect to the Department's administration of this order.

(3) Undertake an initial program to familiarize the employees of his Department with the provisions of this order. He shall also establish and maintain active training and orientation programs for employees concerned with classified information or material. Such programs shall include, as a minimum, the briefing of new employees and periodic reorientation during employment to impress upon each individual his responsibility for exercising vigilance and care in complying with the provisions of this order. Additionally, upon termination of employment or contemplated temporary separation for a sixty-day period or more, employees shall be debriefed and each reminded of the provisions of the Criminal Code and other applicable provisions of law relating to penalties for unauthorized disclosure.

(C) The Attorney General, upon request of the head of a Department, his duly designated representative, or the Chairman of the above described Committee, shall personally or through authorized representatives of the Department of Justice render an interpretation of this order with respect to any question arising in the course of its administration.

SEC. 8. *Material Covered by the Atomic Energy Act.* Nothing in this order shall supersede any requirements made by or under the Atomic Energy Act of August 30, 1954, as amended. "Restricted Data," and material designated as "Formerly Restricted Data," shall be handled, protected, classified, downgraded and declassified in conformity with the provisions of the Atomic Energy Act of 1954, as amended, and the regulations of the Atomic Energy Commission.

SEC. 9. *Special Departmental Arrangements.* The originating Department or other appropriate authority may impose, in conformity with the provisions of this order, special requirements with respect to access, distribution and protection of classified information and material, including those which presently relate to communications intelligence, intelligence sources and methods and cryptography.

SEC. 10. *Exceptional Cases.* In an exceptional case when a person or Department not authorized to classify information originates information which is believed to require classification, such person or Department shall protect that information in the manner prescribed by this order. Such persons or Department shall transmit the information forthwith, under appropriate safeguards, to the Department having primary interest in the subject matter with a request that a determination be made as to classification.

SEC. 11. *Declassification of Presidential Papers.* The Archivist of the United States shall have authority to review and declassify information and material which has been classified by a President, his White House Staff or special committee or commission appointed by him and which the Archivist has in his custody at any archival depository, including a Presidential Library. Such declassification shall only be undertaken in accord with: (i) the terms of the donor's deed of gift, (ii) consultations with the Departments having a primary subject-matter interest, and (iii) the provisions of Section 5.

SEC. 12. *Historical Research and Access by Former Government Officials.* The requirement in Section 6(A) that access to classified information or material be granted only as is necessary for the performance of one's duties shall not apply to persons outside the executive branch who are engaged in historical research projects or who have previously occupied policy-making positions to which they were appointed by the President; *Provided*, however, that in each case the head of the originating Department shall:

(i) determine that access is clearly consistent with the interests of national security; and

(ii) take appropriate steps to assure that classified information or material is not published or otherwise compromised.

Access granted a person by reason of his having previously occupied a policy-making position shall be limited to those papers which the former official originated, reviewed, signed or received while in public office.

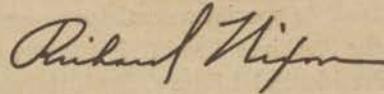

SEC. 13. *Administrative and Judicial Action.* (A) Any officer or employee of the United States who unnecessarily classifies or over-

classifies information or material shall be notified that his actions are in violation of the terms of this order or of a directive of the President issued through the National Security Council. Repeated abuse of the classification process shall be grounds for an administrative reprimand. In any case where the Departmental committee or the Interagency Classification Review Committee finds that unnecessary classification or overclassification has occurred, it shall make a report to the head of the Department concerned in order that corrective steps may be taken.

(B) The head of each Department is directed to take prompt and stringent administrative action against any officer or employee of the United States, at any level of employment, determined to have been responsible for any release or disclosure of national security information or material in a manner not authorized by or under this order or a directive of the President issued through the National Security Council. Where a violation of criminal statutes may be involved, Departments will refer any such case promptly to the Department of Justice.

SEC. 14. *Revocation of Executive Order No. 10501.* Executive Order No. 10501 of November 5, 1953, as amended by Executive Orders No. 10816 of May 8, 1959, No. 10901 of January 11, 1961, No. 10964 of September 20, 1961, No. 10985 of January 15, 1962, No. 11097 of March 6, 1963 and by Section 1(a) of No. 11382 of November 28, 1967, is superseded as of the effective date of this order.

SEC. 15. *Effective date.* This order shall become effective on June 1, 1972.
