CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 722—COTTON

Subpart—1973 Crop of Upland Cotton; Base Acreage Allotments

COUNTY RESERVES

Section 722.468 establishes the county reserves for 1973 crop of upland cotton.

Such determinations were made initially by the respective county committees and are hereby approved and made effective by the Administrator, ASCS, pursuant to delegated authority (35 FR 19798, 36 FR 6907, 37 FR 624, 3845, 28463).

Notice that the Department was preparing to make 1973-crop determinations including county reserve allocations was published in the FEDERAL REGISTER on September 16, 1972 (37 FR 18923), in accordance with 5 U.S.C. 553. The views and recommendations received in response to such notice have been duly considered.

Since the establishment of county reserves requires immediate action by the county committees, it is essential that this section be made effective as soon as possible. Accordingly, § 722.468 which is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.), shall be effective on February 9, 1973.

§ 722.468 County reserves for the 1973 crop of upland cotton.

(a) *County reserves.* The total county reserve for all uses established by the county committee shall not exceed 5 percent of the sum of the computed county allotment and allocations to the county from the State reserve for trends and abnormal conditions, unless the State committee approves a larger reserve not in excess of 10 percent of the sum of the computed county allotment and allocations to the county from the State reserve for trends and abnormal conditions. Such larger reserve has been approved by the North Carolina State ASC Committee for Montgomery County. The county committee may determine that no reserve for any one or more uses, or all uses, specified under section 350(e)(1) of the act, shall be established. In addition, no part of the county reserve shall be apportioned to a farm to reflect new cropland brought into production after November 30, 1970. The following table sets forth the county reserves:

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 572]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period February 11–17, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.872 Lemon Regulation 572.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons has increased on scarce sizes 165 and larger and is easing on more plentiful sizes 235 and smaller. Average f.o.b. price was $5.28 per carton the week ended February 3, 1973 compared to $5.24 per carton the previous week. Track and rolling supplies at 118 cars were down 12 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 6, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period February 11, through February 17, 1973, is hereby fixed at 205,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 7, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

[FHA Ins. 444.3]

PART 1822—RURAL HOUSING LOANS AND GRANTS

Subpart B—Section 504 Rural Housing Loans

LOANS TO LESSEES ON NONFARM TRACTS

Section 1822.27 of Subpart B of Part 1822, Title 7, Code of Federal Regulations (35 FR 14913), is amended by revoking paragraph (a)(1) of this section which prohibits section 504 loans to lessees on nonfarm tracts to comply with the Consolidated Farm and Rural Development Act, which permits such loans; and paragraph (a) (2), (3), and (4) is renumbered as (a) (1), (2), and (3).

(Sec. 510, 63 Stat. 437, 42 U.S.C. 1480; Orders of Acting Secretary of Agriculture, 36 FR 21529; 37 FR 22008; Order of Assistant Secretary of Agriculture for Rural Development and Conservation, 36 FR 21529)

PART 1822—RURAL HOUSING LOANS AND GRANTS

Subpart M—Sections 502 and 504 Rural Housing Loans on Leasehold Interests in Nonfarm Tracts

On page 22989 of the FEDERAL REGISTER of October 27, 1972 (37 FR 22989) was published a notice of proposed rule making to issue an amendment to Subchapter G: Miscellaneous Regulations, Chapter XVIII, Title 7, Code of Federal Regulations, by the addition of Part 1890u, Sections 502 and 504—Rural Housing Loans on Leasehold Interests in Nonfarm Tracts. Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding this proposed regulation. The said proposal to amend Subchapter G by the addition of Part 1890u is hereby transferred to Subchapter B, and redesignated as Subpart M of Part 1822.

Subchapter B—Loans and Grants Primarily for Real Estate Purposes—is amended by adding a new Subpart M to Part 1822: Sections 502 and 504 Rural Housing Loans on Leasehold Interests in Nonfarm Tracts. This new Subpart M is

a revision of the redesignated Part 1890u and with due consideration of all such relevant matter as was presented by interested persons, the amendment as so proposed and redesignated is hereby adopted effective on February 9, 1973.

The new Subpart M of Part 1822, Title 7, Code of Federal Regulations, will read as follows:

Sec.
1822.401 General.
1822.402 Definitions.
1822.403 Policy.
1822.404 Use of loan funds.
1822.405 Lease form.
1822.406 Maximum RH loan and rental charges.
1822.407 Title clearance and loan closing.
1822.408 Interest credits.

AUTHORITY: Sec. 510, 63 Stat. 437, 42 U.S.C. 1480; Orders of Act. Sec. of Agr., 36 FR 21529, 37 FR 22008; Orders of Asst. Sec. of Agr. for Rural Development and Conservation, 36 FR 21529.

§ 1822.401 General.

This subpart authorizes section 502 and 504 Rural Housing (RH) loans to applicants who hold or will hold leases on nonfarm tracts under conditions specified in Subpart A of this part. Section 502 loans will be made on nonfarm tracts in accordance with Subpart A of this part. Section 504 loans may be made to the holder of a lease on a nonfarm tract in accordance with Subpart B of this part.

§ 1822.402 Definitions.

As used in this subpart the following definitions will apply:

(a) *Applicant.* A person who applies for a Section 502 or Section 504 RH loan on a nonfarm tract on which he holds or will hold a lease.

(b) *Leasehold.* The rights and interests a person has in the nonfarm building site on which he has a lease.

(c) *Lessor.* The owner of the building site.

(d) *Acquisition Cost.* The cost of acquiring the leasehold interest exclusive of any monthly or annual rental charges.

(e) *Office of the General Counsel (OGC).* The Regional Attorney or Attorney in Charge whose service area includes the particular State.

§ 1822.403 Policy.

The following policies will apply to loans under this subpart:

(a) Loans may be made on leaseholds on land owned by a State, political subdivision, public body, or public agency, on Indian tribal lands which are not available for purchase, or on land where the State director determines that long-term leasing of homesites by nonpublic bodies is a well-established practice and such leaseholds are freely marketable in the area.

(b) A loan may be made on a leasehold only when the applicant is unable to obtain fee title to the property.

(c) The applicant should have the right to any extent feasible to acquire the fee title to the property sometime during the life of the loan.

(d) The lease must have an unexpired term, from the date of loan approval, of at least 50 years for section 502 loans and at least 15 years for section 504 loans except in cases where a lease is granted for the purpose of permitting a family to obtain an RH loan and the time required to process and approve the loan results in the unexpired term of the lease being a few months less than the period of time indicated above.

(e) The lease must meet the requirements of § 1822.7(j)(1).

(f) A recorded mortgage constituting a valid and enforceable lien on the applicant's leasehold will be required unless the loan is secured by other than real estate in accordance with subparts A and B of this Part.

§ 1822.404 Use of loan funds.

(a) Section 502 RH loans may include funds for:

(1) Reasonable acquisition cost of the leasehold interest at the time of making the initial RH loan in areas where acquisition charges are customary.

(2) The purchase of the fee title on which a leasehold exists, by means of a subsequent loan provided that all other requirements are met.

(3) Purposes authorized in § 1822.6 for nonfarm tracts except for the payment of real estate taxes.

(b) Section 504 RH loan funds will not be used to pay the lease acquisition cost of the leasehold interest in the property or for purposes other than those authorized in § 1822.25. The limitations described in § 1822.27 are applicable.

§ 1822.405 Lease form.

The lease forms used by the Federal Housing Administration and the Veterans Administration in the area, the Bureau of Indian Affairs lease form No 5–184, "Lease," and the lease forms used in cases of RH loans on farm leaseholds, should be used by the State director as guides in developing a lease form or forms for his State. The services of OGC are available for this purpose. In any case in which the lessor wants the option of paying the RH debt in case the borrower defaults, the lease may include such a provision.

§ 1822.406 Maximum RH loan and rental charges.

(a) When it appears that an RH loan can be made on a leasehold interest, an appraisal of the leasehold will be made in accordance with the procedure applicable to the type of loan being made. The amount of the RH loan plus any prior liens against the property will not exceed the maximum security value.

(b) The rental must not exceed the rate being paid for similar sites in the area under similar leases.

§ 1822.407 Title clearance and loan closing.

Title clearance and loan closings will be handled in accordance with applicable instructions in Part 1807 of this chapter.

§ 1822.408 Interest credits.

Interest credits to section 502 RH borrowers who hold leaseholds may be granted in accordance with applicable FHA regulations. If interest credits are granted, the amount will be determined on the same basis as though the borrower owned the property except that the anual rental charges will be included in the interest credit determination block which contains loan payment, taxes, and insurance costs on Form FHA 444–6, "Interest Credit Agreement (Section 502 RH Loans)." Insert the following in the blank space below the entry indicating Annual Real Estate Taxes: "Annual rental charges $_____."

SUBCHAPTER G—MISCELLANEOUS REGULATIONS

[AL–71(444)]

PART 1890s—SECTION 502 RURAL HOUSING LOANS ON LEASEHOLD INTERESTS IN NONFARM TRACTS

Deletion of Part

Part 1890s, section 502 Rural Housing Loans on Leasehold Interests in Nonfarm Tracts (36 FR 19670–19671, dated October 9, 1971) is deleted from Chapter XVIII of Title 7 of the Code of Federal Regulations, and the proposal for the deletion of § 1890s.3(c) (37 FR 12068 dated June 17, 1972) is hereby withdrawn. The procedure set out in Part 1890s that authorizes the making of section 502 loans to applicants who own or will own a leasehold interest in a nonfarm tract after the loan is closed has been incorporated in the new subpart M of Part 1822 of this chapter, which also permits section 504 loans to be made to applicants who are owner-occupants of a dwelling located on a site held through a leasehold interest. Part 1890s in its entirety is hereby deleted.

Title 10—Atomic Energy

Chapter I—Atomic Energy Commission

PART 50—LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

Information Requested by Attorney General for Antitrust Review of Facility License Applications

Pursuant to section 105c(4) of the Atomic Energy Act of 1954, as amended, the Attorney General has requested that applicants for certain facility licenses under the Act submit specified information for the purpose of the prelicensing

antitrust advice by the Attorney General pursuant to section 105c(1) of the Act.

On April 20, 1972, the Atomic Energy Commission published in the FEDERAL REGISTER proposed amendments to 10 CFR Part 50, Licensing of Production and Utilization Facilities, which would describe and provide appropriate references to the information requested by the Attorney General (37 FR 7810). Interested persons were invited to submit written comments or suggestions for consideration in connection with the proposed amendments within 30 days after publication of the notice of proposed rule making in the FEDERAL REGISTER.

The comments received were furnished to the Department of Justice for its views thereon since the infomation called for in the FEDERAL REGISTER was pursuant to the request of the Attorney General. By letter dated June 16, 1972, the Department of Justice advised the Commission that, after consideration of the comments, the Department still deems that information it had requested is appropriate for the prelicensing antitrust advice furnished by the Department pursuant to section 105c(1) of the Act. Accordingly, the Department of Justice requested the Atomic Energy Commission to obtain the information in the manner and form set out in the FEDERAL REGISTER.

By letter dated May 18, 1972, the Assistant Attorney General, antitrust, requested that item 12 of "II. Required information" of the proposed "Appendix L—Information requested by the Attorney General for antitrust review of facility license applications" be modified to include the following sentence, "Also state separately the most recently estimated cost of the subject unit(s)." The additional sentence does not constitute a substantial change and is consistent with the intent of the proposed amendments.

In light of all of the foregoing, the Commission has determined to adopt the amendments in the form set forth below.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to 10 CFR Part 50 are published as a document subject to codification, to be effective March 11, 1973.

§ 50.33 [Amended]

1. Paragraph (k) of § 50.33 is revoked.

2. A new § 50.33a is added to read as follows:

§ 50.33a Information requested by the Attorney General for antitrust review.

The applicant shall submit the information requested by the Attorney General, as described in Appendix L to this part, if the application is (a) for a class 103 permit or license, or (b) for a class 104 operating license as to which a person who intervened or sought by timely written notice to the Commission to intervene in the construction permit proceeding for the facility to obtain a determination of antitrust considerations or to advance a jurisdictional basis for such determination has requested an antitrust review under section 105 of the Act in accordance with the provisions of § 2.102 (b) of this chapter. This information shall be submitted as a separate document accompanying the license application.

3. Section 50.55b is amended to read as follows:

§ 50.55b Conditions of construction permits and operating licenses pertaining to antitrust matters.

The Commission may incorporate, in construction permits for production or utilization facilities of the type described in § 50.22 for which applications were on file on December 19, 1970, and in operating licenses for production or utilization facilities of a type described in §§ 50.22 and 50.21(b)(1), as to which a person who intervened or sought by timely written notice to the Commission to intervene in the construction permit proceeding for the facility to obtain a determination of antitrust considerations or to advance a jurisdictional basis for such determination within 25 days after the date of publication in the FEDERAL REGISTER of notice of filing of the application for an operating license or December 19, 1970, whichever is later, a condition to the effect that the license shall be subject to an antitrust review by the Attorney General pursuant to section 105c of the Atomic Energy Act of 1954, as amended; that the licensee shall furnish to the Commission the information requested by the Attorney General, as described in Appendix L to this part; that the Commission may hold a hearing on antitrust matters on the recommendation of the Attorney General or at the request of any person whose interest may be affected by the proceeding; that on the basis of its findings made after such hearing, the Commission will continue, rescind, or amend the license to include such conditions as the Commission deems appropriate; and that the licensee shall comply with any order or license condition made by the Commission pursuant to section 105c of the Atomic Energy Act of 1954, as amended, with respect to the licensed activities.

4. The first sentence of § 50.80(b) is amended to read as follows:

§ 50.80 Transfer of licenses.

* * * * *

(b) An application for transfer of a license shall include as much of the information described in §§ 50.33 and 50.34 with respect to the identity and technical and financial qualifications of the proposed transferee as would be required by those sections if the application were for an initial license, and, if the license to be issued is a class 103 license, the information required by § 50.33a. * * *

* * * * *

5. A new Appendix L is added to read as follows:

APPENDIX L—INFORMATION REQUESTED BY THE ATTORNEY GENERAL FOR ANTITRUST REVIEW FACILITY LICENSE APPLICATIONS

Introduction. The information in this appendix is that requested by the Attorney General pursuant to section 105c(4) of the Act in connection with his advice under section 105c(1) of the Act in regard to certain facility license applications. The applicant shall submit the information as a separate document titled, "Information Requested by the Attorney General for Antitrust Review." Twenty (20) copies shall be submitted with the facility license application and not less than twenty-five (25) additional copies shall be retained by the applicant to be available as needed during the antitrust review.

I. DEFINITIONS

1. "Applicant" means the entity applying for authority to construct or operate subject unit and each corporate parent, subsidiary and affiliate. Where application is made by two or more electric utilities not under common ownership or control, each utility should set forth separate responses to each item herein.

2. "Subject unit" means the nuclear generating unit or units for which application for construction or operation is being made.

3. "Electric utility" or "system" means any entity owning, controlling or operating facilities for the generation or transmission or distribution of electric power.

4. "Coordination" means any arrangement between two or more systems for generation and transmission planning, or operation of two or more interconnected electric utilities not under common ownership or control, including but not limited to arrangements for sharing operating and installed reserves, arrangements for joint or staggered construction of generating facilities, economy energy transactions, capacity transactions based on load diversities, thermal-hydro generation pooling, common maintenance arrangements, and joint use of transmission facilities or wheeling.

5. "Coordinating power and energy" means energy transmitted in accordance with an arrangement for coordination including but not limited to emergency power, economy energy, deficiency power and associated energy, and maintenance power and energy.

6. Except where specifically mentioned otherwise, the term "reserve generating capacity" or "reserves" shall refer to installed reserves in contrast to spinning or operating reserves.

II. REQUIRED INFORMATION

1. State separately for hydroelectric and thermal generating resources applicant's most recent peak load and dependable capacity for the same time period. State applicant's dependable capacity at time of system peak for each of the next 10 years for which information is available. Identify each new unit or resource. For hydroelectric generating capacity, indicate the number of kilowatt hours of use associated with each kilowatt of capacity during the "adverse water year" upon which dependable capacity is based. Indicate average annual kilowatt hour loads per kilowatt, associated with each system peak shown (exclusive of interchange arrangements).

2. State applicant's estimated annual load growth for each of the next 20 years or for the period applicant utilizes in system planning. Indicate growth both in kilowatt requirements and kilowatt hour requirements.

3. State estimated annual load growth in kilowatts and kilowatt hours of companies or pools upon which the economic justification of the subject unit is based for each of the next 20 years or for the period applicant utilized in system planning. Identify each company or pool member.

4. For the year the subject unit would first come on line, state estimated annual load growth in kilowatts and kilowatt hours of any coordinating group or pool of which

the applicant is a member (other than the coordinating group or pool referred to in the applicant's response to item 3) which has generating and/or transmission planning functions. Identify each company or pool member whose loads are indicated in the response thereto.

5. State applicant's minimum installed reserve criterion (as a percentage of load)[1] for the period when the subject unit will first come on line. If the applicant shares reserves with other systems, identify the other systems and provide minimum installed reserve criterion (as a percentage of loan)[1] by contracting parties or pool for the period when the proposed unit will first come on line.

6. Describe methods used as a basis to establish, or as a guide in establishing the criteria for applicant's and/or applicant's pool's minimum amount of installed reserves (e.g., (a) single largest unit down, (b) probability methods such as loss of load one day in 20 years, loss of capacity once in 5 years, (c) other methods and/or (d) judgment. List contingencies other than risk of forced outage that enter into the determination).

7. Indicate whether applicant's system interconnections are credited explicitly or implicitly in establishing applicant's installed reserves.

8. List rights to receive emergency power and obligations to deliver emergency power, rights or obligations to receive or deliver deficiency power or unit power, or other coordinating arrangements, by reference to applicant's Federal Power Commission (FPC) rate schedules (i.e., ABC Power & Light Co., FPC Rate Schedule No. 15 including supplements 1–5),[2] and also by reference to applicant's state commission filings. Where documents are not on file with the FPC, supply copies, or where not reduced to writing, describe arrangements. Identify for each such arrangement the participating parties other than applicant. Provide one line electrical and geographic diagrams of coordinating groups or power pools (with generation or transmission planning functions) of which applicant's generation and transmission facilities constitute a part.

9. List non-affiliated[3] electric utility systems with peak loads smaller than applicant's which serve either at wholesale or at retail adjacent to areas served by applicant. Provide a geographic one line diagram of applicant's generating and transmission facilities (including subtransmission) indicating the location of adjacent systems and as to such systems indicate (if available) their load, their annual load growth, their generating capacity, their largest thermal generating unit size, and their minimum reserve criteria.

10. List separately those systems in Item 9 which purchase from applicant (a) all bulk power supply and (b) systems which purchase partial bulk power supply requirements. Where information is available to applicant, identify those Item 9 systems purchasing part or all of their bulk power supply requirements from suppliers other than applicant.

11. State as to all power generated and sold by applicant the most recent average cost of bulk power supply experienced by applicant (a) at site of generating facilities, (b) at the delivery points from the primary transmission (backbone) system, (c) at delivery points from the secondary transmission system, and (d) at delivery points from the distribution system, in terms of dollars per kilowatt per year, in mills per kilowatt hour, and in both the kilowatt costs and kilowatt hour costs divided by the kilowatt hours. If wholesale sales are made at varying voltages, indicate average costs at each voltage.

12. State (a) for generating facilities and (b) for transmission sub-divided by voltage classes, the most recent estimated cost of applicant's bulk power supply expansion program of which the subject unit is a part, in terms of dollars per kilowatt per year, in mills per kilowatt hour and in both the kilowatt costs and kilowatt hour costs divided by the kilowatt hours. Also state separately the most recently estimated cost of the subject unit(s).

13. List and describe all requests for, or indications of interest in, interconnection and/or coordination and purchases or sales of coordinating power and energy from adjacent utilities listed in item 9 since 1960 and state applicant's response thereto. List and describe all requests for, or indications of interest in, supply of full or partial requirements of bulk power for the same period and state applicant's response thereto.

14. List (a) agreements to which applicant is a party (reproducing relevant paragraphs) and (b) State laws (supply citations only) which restrict or preclude coordination by, with, between, or among any electric utilities or systems identified in applicant's response to items 8 and 9. List (a) agreements to which the applicant is a party (reproducing relevant paragraphs) and (b) State laws (supply citations only) which restrict or preclude substitution of service or establishment of service of full or partial bulk power supply requirements by an electric utility other than applicant to systems identified in items 8 and 9. Where the contract provision appears in contracts or rate schedules on file with a Federal agency, identify each in the same form as in previous responses. Where the contract has not been filed with a Federal agency, a copy should be supplied unless it has been supplied pursuant to another item hereto. Where it is not in writing, it should be described.

15. State, at point of delivery, average future costs of power purchased from applicant to adjacent systems identified in applicant's response to item 9 in terms of dollars/month/kw for capacity, mills/kw for energy and mills/kwh for both power and energy at purchaser's present load factor (a) at present load, (b) at 50 percent increase over present load, (c) at 100 percent increase over present load, and (d) at 200 percent increase over present load. (All costs should be determined under present rate schedules.) Where sales are made under contracts or rate schedules on file with a Federal agency and not included in the response to item 9, identify each in the same form as in previous responses. Where the contract has not been filed with a Federal agency, a copy should be supplied.

16. State whether applicant has prepared, caused to be prepared, or received engineering studies for generation and transmission expansion programs which include loads of each system in item 9.

17. List adjacent systems to which applicant has offered to sponsor or to conduct system surveys in contemplation of an offer by applicant to purchase, merge or consolidate with said adjacent system, subsequent to January 1, 1960.

18. List applicant's offers or proposals to purchase, merge or consolidate with electric utilities, subsequent to January 1, 1960.

19. List all acquisitions of or mergers or consolidations with electric utilities by applicant, subsequent to January 1, 1960, including:

(a) The name and principal place of business of the system prior to the acquisition, merger or consolidation;

(b) The date the acquisition merger or consolidation was consummated;

(c) Gross annual revenue and most recent peak load, dependable capacity and the largest thermal generating unit of the system, prior to the dates of consummation.

20. State applicant's six (or fewer if there are not six) lowest industrial or large commercial rates for firm electric power supply in terms of cost for power and energy in mills per kilowatt hour (and separately, the demand and energy components) and indicate the portion of the charge attributed to bulk power supply. State the rates or rate blocks applicant utilizes for its six (or fewer if there are not six) promotional services such as electric space heating, electric hot water heating, and the like, in terms of mills per kilowatt hour for power and energy and indicate the portion of the rate or rate blocks attributed to bulk power supply.

(Secs. 105, 161, 68 Stat. 938, 948; 42 U.S.C. 3135, 2201)

Dated at Germantown, Md., this 5th day of February 1973.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2340]

PART 13—PROHIBITED TRADE PRACTICES

Moonglow Carpet Mills, Inc. and Jerry J. Gillean

Subpart—Importing, manufacturing, selling, or transporting flammable wear. Section 13.1060 *Importing, manufacturing, selling, or transporting flammable wear.*

(Sec. 6, 38 Stat. 721, 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191 (Cease and desist order, Moonglow Carpet Mills, Inc., et al., Dalton, Ga., Docket No. C-2340, Jan. 10, 1973))

In the Matter of Moonglow Carpet Mills, Inc. a Corporation, and Jerry J. Gillean, Individually and as an Officer of the Corporation

Consent order requiring a Dalton, Ga., manufacturer and seller of carpets and rugs, among other things to cease manufacturing for sale, selling, importing, or distributing any product, fabric, or related material which fails to conform to an applicable standard of flammability or regulation issued under the provisions of the Flammable Fabrics Act, as amended.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Moonglow Carpet Mills, Inc., a corporation, its successors and assigns, and its officers, and respondent Jerry J. Gillean, individually and as an officer of said corporation and respondents' agents, representatives and employees directly or through any

corporation, subsidiary, division, or other device, do forthwith cease and desist from manufacturing for sale, selling, offering for sale, in commerce, or importing into the United States, or introducing, delivering for introduction, transporting or causing to be transported in commerce, or selling or delivering after sale or shipment in commerce, any product, fabric, or related material; or manufacturing for sale, selling, or offering for sale, any product made of fabric or related material which has been shipped or received in commerce, as "commerce", "product", "fabric" and "related material" are defined in the Flammable Fabrics Act as amended, which product, fabric or related material fails to conform to an applicable standard or regulation continued in effect, issued or amended under the provisions of the aforesaid Act.

It is further ordered, That respondents notify all of their customers who have purchased or to whom have been delivered the products which gave rise to this complaint, of the flammable nature of said products and effect the recall of said products from such customers.

It is further ordered, That the respondents herein either process the products which gave rise to the complaint so as to bring them into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said products.

It is further ordered, That respondents herein shall, within ten (10) days after service upon them of this order, file with the Commission a special report in writing setting forth the respondents' intentions as to compliance with this order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the products which gave rise to the complaint, (2) the identity of the purchasers of said products, (3) the amount of said products on hand and in the channels of commerce, (4) any action taken and any further actions proposed to be taken to notify customers of the flammability of said products and effect the recall of said products from customers, and of the results thereof, (5) any disposition of said products since July 16, 1971, and (6) any action taken or proposed to be taken to bring said products into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or to destroy said products, and the results of such action. Respondents will submit with their report, a complete description of each style of carpet or rug currently in inventory or production. Upon request, respondents will forward to the Commission for testing a sample of any such carpet or rug.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

PART 13—PROHIBITED TRADE PRACTICES

Springs Mills, Inc.

Subpart—Importing, manufacturing, selling, or transporting flammable wear: § 13.1060 *Importing, manufacturing, selling or transporting flammable wear.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, Springs Mills, Inc., York, S.C., docket No. C-2338, Jan. 9, 1973]

In the Matter of Springs Mills, Inc., a Corporation

Consent order requiring a York, S.C., manufacturer and seller of carpets and rugs, among other things, to cease manufacturing for sale, selling, importing, or distributing any product, fabric, or related material which fails to conform to an applicable standard of flammability or regulation issued under the provisions of the Flammable Fabrics Act, as amended.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent Springs Mills, Inc., a corporation, its successors and assigns, and its officers, agents, representatives, and employees directly or through any corporation, subsidiary, division, or other device, do forthwith cease and desist from manufacturing for sale, selling, offering for sale, in commerce or importing into the United States, or introducing, delivering for introduction, transporting or causing to be transported in commerce, or selling or delivering after sale or shipment in commerce, any carpet or rug; or manufacturing for sale, selling, or offering for sale, any carpet or rug made of fabric or related material which has been shipped or received in commerce, as "carpet," "rug," "commerce," "fabric," and "related material" are defined in the Flammable Fabrics Act, as amended, or any applicable standard or regulation continued in effect, issued or amended under the provisions of the aforesaid Act, which carpet or rug fails to conform to an applicable standard or regulation continued in effect, issued or amended under the provisions of the aforesaid act.

It is further ordered, That respondent notify all of its customers who have purchased or to whom have been delivered the products which gave rise to this complaint, of the flammable nature of said products and effect the recall of said products from such customers.

It is further ordered, That the respondent herein either process the products which gave rise to the complaint so as to bring them into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destory said products.

It is further ordered, That the respondent herein shall, within ten (10) days after service upon them of this order, file with the Commission a special report in writing setting forth the respondent's intentions as to compliance with this order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the products which gave rise to the complaint, (2) the identity of purchasers of said products, (3) the amount of said products on hand and in the channels of commerce, (4) any action taken and any further actions proposed to be taken to notify customers of the flammability of said products and effect the recall of said products from customers, and of the results thereof, (5) any disposition of said products since February 2, 1972, and (6) any action taken or proposed to be taken to bring said products into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or to destroy said products. Respondent will submit with its report, a complete description of each style of carpet or rug currently in inventory or production. Upon request, respondent will forward to the Commission for testing a sample of any such carpet or rug.

It is further ordered, That respondent notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and

form in which it has complied with this order.

By the Commission.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

PART 200—ORGANIZATION; CONDUCT AND ETHNICS; AND INFORMATION AND REQUESTS

Delegation of Authority to Office of Registrations and Reports

On October 17, 1972, the Securities and Exchange Commission announced the creation of a new Office of Registrations and Reports and assigned to it the responsibility for the receipt and initial handling of all public documents filed at the Commission's headquarters office. Under the provisions of Public Law 87-592 (15 U.S.C. 78d-1, 78d-2) the Commission has delegated to the Director of the Office of Registrations and Reports certain duties, to be performed by him or under his direction by such person or persons as may be designated from time to time by the Chairman of the Commission.

Commission action. Pursuant to the authority set forth in Public Law 87-592, and 15 U.S.C. 78d-1, 78d-2, the Securities and Exchange Commission hereby adopts §§ 200.20c and 200.30-11 under Part 200 of Chapter II of Title 17 of the Code of Federal Regulations reading as follows:

§ 200.20c Office of Registrations and Reports.

The Office of Registrations and Reports is responsible for the receipt and initial handling of all public documents filed at the Commission's headquarters office. The initial handling includes, determining acceptability, extracting data for EDP input, calculating fees, conducting cursory and substantive examinations, assigning filings to branches and preparing deficiency correspondence. In addition, the office is the definitive source of statistics for a wide variety of reports and prepares various data based publications, such as the Corporation Index and delinquency listings.

§ 200.30-11 Delegation of Authority to Director, Office of Registrations and Reports.

Pursuant to the provisions of Public Law 87-592, 76 Stat. 394 (15 U.S.C. 78d-1, 78d-2), the Securities and Exchange Commission hereby delegates the following functions to the Director of the Office of Registrations and Reports to be performed by him or under his direction by such person or persons as may be designated from time to time by the chairman of the Commission:

(a) With respect to the Securities Exchange Act of 1934 (15 U.S.C. 78a, et seq.):

(1) Pursuant to section 15(b) of the Act (15 U.S.C. 78o(b)):

(i) To determine registration of brokers or dealers to be effective within any shorter period of time than 30 days after receipt of applications for registration;

(ii) To authorize the issuance of orders postponing the effective date of registration of brokers or dealers, provided that without the consent of the applicant for registration no order shall be entered postponing the effective date of any registration pending final determination by the Commission of whether such registration should be denied;

(iii) To authorize the issuance of orders canceling registrations of brokers or dealers or pending applications for registration, if such brokers or dealers or applicants for registration are no longer in existence or have ceased to do business as brokers or dealers;

(iv) To determine whether notices of withdrawal from registration on Form BDW shall become effective sooner than the normal 60-day waiting period.

(b) With respect to the Investment Advisers Act of 1940 (15 U.S.C. 80b-1, et seq.):

(1) Pursuant to section 203(c) of the Investment Advisers Act of 1940 (15 U.S.C. 80B-3(c)):

(i) To determine registration of investment advisers to be effective within shorter periods of time than 30 days after receipt by the Commission of applications for registrations;

(ii) To authorize the issuance of orders declaring amendments filed with the Commission after an application has become effective to be effective within shorter periods of time than 30 days after the filing of such amendments.

(2) Pursuant to section 203(i) of the Act (15 U.S.C. 80b-3(i)):

(i) To authorize the issuance of orders canceling registrations of investment advisers, or applications for registration, if such investment advisers or applicants for registration are no longer in existence or are not engaged in business as investment advisers.

(ii) To determine whether notices of withdrawal from registration on Form ADV-W shall become effective sooner than the normal 60-day waiting period.

(c) Notwithstanding anything in the foregoing, in any case in which the Director of the Office of Registrations and Reports believes it appropriate, he may submit the matter to the Commission.

(Sec. 4(b), 48 Stat. 885, sec. 1106(a), 63 Stat. 972, 15 U.S.C. 78d(b); secs. 1, 2, 76 Stat. 394, 395, 15 U.S.C. 78d-1, 78d-2; secs. 19, 209, 48 Stat. 85, 908, 15 U.S.C. 77s; sec. 23(a), 48 Stat. 901, sec. 8, 49, Stat. 1379, 15 U.S.C. 78w(a); sec. 20, 49 Stat. 833, 15 U.S.C. 79t; sec. 319, 53 Stat. 1173, 15 U.S.C. 77sss; sec. 38, 54 Stat. 841, 15 U.S.C. 80a-37; sec. 211, 54 Stat. 855, sec. 14, 74 Stat. 888, 15 U.S.C. 80b-11)

The Commission finds that the foregoing actions related solely to agency organization, procedure, or practice and, therefore, notice and procedures under 5 U.S.C. 553 are unnecessary. Accordingly, the foregoing action becomes effective on October 17, 1972.

By the Commission.

OCTOBER 17, 1972.

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 37—FISH

Canned Pacific Salmon: Standards of Identity and Fill of Container; Notice Amending Certain Parts of Identity Standards, and Establishing Effective Date for Order

In the matter of establishing standards of identity and fill of container for canned Pacific salmon:

A notice of proposed rule making in the above-identified matter was published in the FEDERAL REGISTER of February 24, 1971 (36 FR 3419), based on a proposal made by the Commissioner of Food and Drugs, on his own initiative. An order adopting the proposal, with changes, was published in the FEDERAL REGISTER of September 8, 1972 (37 FR 18193), to become effective 60 days after publication unless stayed by objections filed within 30 days.

Three letters have been received in response to the order published September 8, 1972. Two of the three responses contained objections to provisions of the order and requests for hearings. The third response contained an objection to a provision of the order, but not a request for a hearing. These objections and the Commissioner's conclusions based on his evaluation of the objections are as follows:

1. An objection under § 37.10(b)(1) involved the omission of the name "cohoe" from the list of common or usual names of the species *Oncorhynchus kisutch*. The Commissioner recognizes that the name "cohoe" is an alternative spelling of the name "coho" and that the two spellings of the name have been used interchangeably for many years in the labeling of that species of salmon. The Commissioner concludes that it is reasonable and in the interest of consumers to include the name "cohoe" as one of the common or usual names of the species *O. kisutch* and is providing for the use of the name "cohoe" by means of an editorial change.

2. An objection under § 37.10(b)(1) involved the omission of the species *Salmo gairdneri* (steelhead, steelhead trout) from the species of fish which may be used in the food, canned Pacific salmon. Comments urging the addition of the species *Salmo gairdneri* to the species of fish which may be used in this food were considered at the time the order was prepared, and the Commis-

sioner's reason for not including this species of fish was stated in the preamble to the order. The grounds received in support of the objection contained no additional information, and no data or information which, if presented at a hearing, would be sufficient to add this species to the standard. The objectors may present a petition to add this species if sufficient data are obtained at a later time. The Commissioner concludes that the objection presents insufficient grounds to justify a public hearing on this issue at the present time. Any such hearing would, moreover, not result in a stay of the rest of the standard; the objection relates only to the omission of a species, and the proper remedy is therefore a separate petition relating specifically to this species.

3. An objection to § 37.10(c) was based on the opinion of the respondent that the wording of this provision is unreasonably severe in that it requires "removing the head, gills, viscera, blood, fins, tail and d a m a g e d or discolored flesh * * *" without qualification or recognition of good manufacturing practices. The Commissioner recognizes that the industry strives to eliminate these unesthetic harmless materials and that it is unrealistic to expect under conditions of good manufacturing practice that these materials can be completely removed in every instance. He, therefore, concludes that it is reasonable and in the interest of consumers to accept the suggested changes to the wording of this provision and is providing for this wording by editorial change.

4. An objection to § 37.10(c)(1) was related to the present industry practice of removing a part of the large backbone and skin from large salmon so that the fish may be properly handled by the filling machinery in packing the regular form of canned salmon. Some canners have also developed methods of removing dark skin from the salmon. These practices result in an increased amount of edible fish in the product. The Commissioner concludes that the continuation of these practices is reasonable and in the interest of consumers and is providing for the continuation of these practices by means of an editorial change.

5. An objection involved the statement in § 37.10(c)(1) that "one or more pieces of salmon may be added if necessary to complete the fill of the container." The words "one or more pieces" in the above statement were the result of a comment on the proposal that stated that the word "portion" which appeared in the proposal should be deleted. The comment indicated a preference for the statement "Salmon may be added if necessary to fill the container." It was stated in support of the suggested statement that the short weight adjustment practice of industry was to adjust the weight by the addition of a piece, pieces, or ground salmon. The Commissioner, in the published order, stated that the suggested change was too broad and in its place used the words "one or more pieces" instead of the proposed word "portion". An industry association now has suggested that the words "small portion" would better reflect present industry practice. The Commissioner concludes that the suggested change in wording is reasonable and in the interest of consumers and is providing for this wording by means of an editorial change.

6. An objection to § 37.10(e)(1) dealt with the requirement that the common or usual name of the species in the name of the food "shall be printed in letters of the same style of type and not less in height than those used for the word 'salmon'. The standard provides that the species name, together with the word 'salmon'", shall form the name of the food. The Commissioner considers that it is in the interest of consumers that the words making up the name of the food be uniformly conspicuous. Various arguments against this requirement were considered at the time the order was prepared. The grounds received in support of the objection contained no additional information, and no data or information which, if presented at a hearing, would be sufficient to justify a different type size requirement. The Commissioner concludes that objections relating to type size requirements are not properly the subject of a public hearing.

7. An objection to § 37.10(e)(1) involves the long standing industry labeling practice of using the common names for a salmon species in combination as well as singly, for example, referring to the species *Oncorhynchus nerka* as "red", "sockeye", or "red sockeye." The industry association commenting is of the opinion that this provision is unclear as to whether such labeling is permitted and equally unclear as to whether the style and size of type requirement of such terms in relation to the word "salmon" is applicable to all such descriptive terms used. The Commissioner concludes that the use of common or usual species names in combination is reasonable and in the interest of consumers and that only one of the names in such a combination need be printed in letters of the same style of type and not less in height than those used for the word "salmon." The continued use of names in combination is being provided for by an editorial change.

8. Two objections were received regarding the effective date of the standards. The involved industry association has indicated that it will be necessary to extend the effective date of the standards to allow the use of extensive label inventories presently on hand. The industry has given the following reasons for the present very large label inventory: (a) The recent complete revision of labels required by the Fair Packaging and Labeling Act; and (b) an unpredicted shortage of salmon during the 1972 season which resulted in a very small canned salmon pack. The need for further label revision because of the move toward nutrition labeling is also cited as a reason for the extension of the effective date. The Commissioner recognizes that a number of forthcoming regulations will involve significant changes in label requirements. Because of the large number involved, particularly food standard revisions, they will be published at different times. The Commissioner is aware of the problem posed by a series of changes in labeling requirements appearing over a short period of time. Consequently, he considers it to be reasonable and in the interest of consumers to minimize the cost ultimately to the consumers of piecemeal revisions in labeling by providing a reasonable period of time for bringing all affected products into full compliance with these regulations.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055-1056, as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner (21 CFR 2.120): *It is ordered*, That Part 37 consisting at this time of § 37.10, revised as set forth below, and § 37.12, as published in the FEDERAL REGISTER of September 8, 1972 (37 FR 18193), shall become effective as set forth below.

Part 37 is amended in § 37.10 by revising paragraphs (b)(1) and (c), subparagraph (1) of paragraph (c), and paragraph (e)(1), to read as follows:

§ 37.10 Canned Pacific salmon; identity.

* * * * *

(b)(1) The species of fish which may be used in this food are:

Oncorhynchus tshawytscha.	Chinook, king, spring.
Oncorhynchus nerka.....	Blueback, red, sockeye.
Oncorhynchus kisutch ..	Coho, Cohoe, medium red, silver.
Oncorhynchus gorbuscha.	Pink.
Oncorhynchus keta.....	Chum, keta.
Oncorhynchus masou.....	Masou, cherry.

* * * * *

(c) The optional forms of canned Pacific salmon are processed from fish prepared by removing the head, gills, and tail, and the viscera, blood, fins, and damaged or discolored flesh to the greatest extent practicable in accordance with good manufacturing practice; and then washing. Canned Pacific salmon is prepared in one of the following forms of pack:

(1) "Regular" consists of sections or steaks which are cut transversely from the fish and filled vertically into the can. In preparation, segments of skin or large backbone may be removed. The sections or steaks are so packed that the cut surfaces approximately parallel the ends of the container. A small portion of salmon may be added if necessary to complete the fill of the container.

* * * * *

(e)(1) The name of the food is "salmon" together with the common or usual name or names of the species. At least one species name shall be printed in letters of the same style of type and not less in height than those used for the word "salmon."

* * * * *

Effective date. All labeling ordered after December 31, 1973, and all labeling

used for products shipped in interstate commerce after December 31, 1974, shall comply with these regulations.

(Secs. 401, 701, 52 Stat. 1046, 1055–1056, as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371)

CHAPTER I—NATIONAL LABOR RELATIONS BOARD

PART 102—RULES AND REGULATIONS SERIES 8, AS AMENDED

Subpart C—Procedures Under Section 9(c) of the Act for the Determination of Questions Concerning Representation of Employees and for Clarification of Bargaining Units and for Amendment of Certifications Under Section 9(b) of the Act

ELECTION

By virtue of the authority vested in it by the National Labor Relations Act, approved July 5, 1935,[1] the National Labor Relations Board hereby issues the following further amendments to its Rules and Regulations, Series 8, as amended, which it finds necessary to carry out the provisions of said Act, such amendments to be effective on February 9, 1973.

National Labor Relations Board Rules and Regulations, Series 8, as hereby further amended, shall be in force and effect until further amended or rescinded by the Board.

Dated, Washington, D.C., February 5, 1973.

By direction of the Board.

JOHN C. TRUESDALE,
Executive Secretary,
National Labor Relations Board.

Section 102.69 is amended to read as follows:

[1] 49 Stat. 449; 29 U.S.C. 151–166, as amended by act of June 23, 1947 (61 Stat. 136; 29 U.S.C. Sup. 151–167), act of October 22, 1951 (65 Stat. 601; 29 U.S.C. 158, 159, 168), and act of September 14, 1959 (73 Stat. 519; 29 U.S.C. 141–168).

§ 102.69 Election procedure; tally of ballots; objections; certification by regional director; report on challenged ballots; report on objections; exceptions; action of the Board; hearing.

(a) Unless otherwise directed by the Board, all elections shall be conducted under the supervision of the regional director in whose region the proceeding is pending. All elections shall be by secret ballot. Whenever two or more labor organizations are included as choices in an election, either participant may, upon its prompt request to and approval thereof by the regional director, whose decision shall be final, have its name removed from the ballot: *Provided, however*, That in a proceeding involving an employer-filed petition or a petition for decertification the labor organization certified, currently recognized, or found to be seeking recognition may not have its name removed from the ballot without giving timely notice in writing to all parties and the regional director, disclaiming any representation interest among the employees in the unit. Any party may be represented by observers of his own selection, subject to such limitations as the regional director may prescribe. Any party and Board agents may challenge, for good cause, the eligibility of any person to participate in the election. The ballots of such challenged persons shall be impounded. Upon the conclusion of the election, the regional director shall cause to be furnished to the parties a tally of ballots. Within 5 days after the tally of ballots has been furnished, any party may file with the regional director an original and three copies of objections to the conduct of the election or conduct affecting the results of the election, which shall contain a short statement of the reasons therefor. Such filing must be timely whether or not the challenged ballots are sufficient in number to affect the results of the election. Copies of such objections shall immediately be served on the other parties by the party filing them, and a statement of service shall be made. The party filing objections shall, upon request, promptly furnish to the regional director the evidence available to it to support the objections.

(b) If no objections are filed within the time set forth above, if the challenged ballots are insufficient in number to affect the results of the election, and if no runoff election is to be held pursuant to § 102.70, the regional director shall forthwith issue to the parties a certification of the results of the election, including certification of representative where appropriate, with the same force and effect as if issued by the Board, and the proceeding will thereupon be closed.

(c) If objections are filed to the conduct of the election or conduct affecting the results of the election, or if the challenged ballots are sufficient in number to affect the results of the election, the regional director shall, consistent with the provisions of § 102.69(d), investigate such objections or challenges, or both. If a consent election has been held pursuant to § 102.62(b), the regional director shall prepare and cause to be served on the parties a report on challenged ballots or objections, or both, including his recommendations, which report, together with the tally of ballots, he shall forward to the Board in Washington, D.C. Within 10 days from the date of issuance of the report on challenged ballots or objections, or both, or within such further period as the Board may allow upon written request to the Board for an extension received not later than 3 days before such exceptions are due in Washington, D.C., with copies of such request served on the other parties, any party may file with the Board in Washington, D.C., eight copies of exceptions to such report, with supporting brief if desired, which shall be printed or otherwise legibly duplicated, except that carbon copies of typwritten matter shall not be filed and if submitted will not be accepted. Immediately upon the filing of such exceptions, the party filing the same shall serve a copy thereof together with a copy of any brief filed on the other parties and shall file copies with the regional director. A statement of service shall be made to the Board simultaneously with the filing of exceptions. Within 7 days from the last date on which exceptions and any supporting brief may be filed, or such further period as the Board may allow, a party opposing the exceptions may file an answering brief with the Board in Washington, D.C.; except that if personal service of the exceptions and any supporting brief is made upon the Board, 10 days will be allowed. However, 3 days as provided in § 102.114 will not be added to the prescribed time for filing an answering brief. Such brief shall be submitted in eight copies, printed or otherwise legibly duplicated, except that carbon copies shall not be filed and if submitted will not be accepted. Immediately upon the filing of such brief, the party filing the same shall serve a copy thereof on the other parties and shall file a copy with the regional director. A statement of service shall be made to the Board simultaneously with the filing of the answering brief. If no exceptions are filed to such report, the Board, upon the expiration of the period for filing such exceptions, may decide the matter forthwith upon the record or may make other disposition of the case. The report on challenged ballots may be consolidated with the report on objections in appropriate cases. If the election has been conducted pursuant to a direction of election issued following any proceeding under § 102.67, the regional director may (1) issue a report on objections or challenged ballots, or both, as in the case of a consent election pursuant to § 102.62(b), or (2) exercise his authority to decide the case and issue a decision disposing of the issues and directing appropriate action or certifying the results of the election.

(d) The action of the regional director in issuing a report on objections or challenged ballots, or both, following proceedings under § 102.62(b) or § 102.67, or in issuing a decision on objections or challenged ballots, or both, following

proceedings under § 102.67, may be on the basis of an administrative investigation or, if it appears to the regional director that substantial and material factual issues exist which, in the exercise of his reasonable discretion, he determines may more appropriately be resolved after a hearing, he shall issue and cause to be served on the parties a notice of hearing on said issues before a hearing officer. If the regional director issues a report on objections and challenges, the parties shall have the rights set forth in paragraphs (c) and (f) of this section; if the regional director issues a decision, the parties shall have the rights set forth in § 102.67 to the extent consistent herewith.

(e) Any hearing pursuant to this section shall be conducted in accordance with the provisions of §§ 102.64, 102.65, and 102.66, insofar as applicable, except that upon the close of such hearing, the hearing officer shall, if directed by the regional director, prepare and cause to be served on the parties a report resolving questions of credibility and containing findings of fact and recommendations as to the disposition of the issues. In any case in which the regional director has directed that a report be prepared and served, any party may, within 10 days from the date of issuance of such report, file with the regional director the original and one copy, which may be a carbon copy, of exceptions to such report, with supporting brief, if desired. A copy of such exceptions, together with a copy of any brief filed, shall immediately be served on the other parties and a statement of service filed with the regional director. Within 7 days from the last date on which exceptions and any supporting brief may be filed, or such further time as the regional director may allow, a party opposing the exceptions may file an answering brief with the regional director; except that if personal service of the exceptions and any supporting brief is made upon the regional director, 10 days will be allowed. However, 3 days as provided in § 102.114 will not be added to the prescribed time for filing an answering brief. An original and one copy, which may be a carbon copy, shall be submitted. A copy of such answering brief shall immediately be served on the other parties and a statement of service filed with the regional director. If no exceptions are filed to such report, the regional director, upon the expiration of the period for filing such exceptions, may decide the matter forthwith upon the record or may make other disposition of the case.

(f) In a case involving a consent election held pursuant to § 102.62(b), if exceptions are filed, either to the report on challenged ballots or objections, or both if it be a consolidated report, and it appears to the Board that such exceptions do not raise substantial and material issues with respect to the conduct or results of the election, the Board may decide the matter forthwith upon the record, or may make other disposition of the case. If it appears to the Board that such exceptions raise substantial and material factual issues, the Board may direct the regional director or other agent of the Board to issue and cause to be served on the parties a notice of hearing on said exceptions before a hearing officer. The hearing shall be conducted in accordance with the provisions of §§ 102.64, 102.65, and 102.66, insofar as applicable. Upon the close of the hearing the agent conducting the hearing, if directed by the Board, shall prepare and cause to be served on the parties a report resolving questions of credibility and containing findings of fact and recommendations to the Board as to the disposition of the challenges or objections, or both if it be a consolidated report. In any case in which the Board has directed that a report be prepared and served, any party may within 10 days from the date of issuance of the report on challenged ballots or objections, or both, or within such further period as the Board may allow, upon written request to the Board for an extension received not later than 3 days before such exceptions are due in Washington, D.C., with copies of such request served on the other parties, file with the Board in Washington, D.C., eight copies of exceptions to such report, with supporting brief if desired, which shall be printed or otherwise legibly duplicated, except that carbon copies of typewritten matter shall not be filed and if submitted will not be accepted. Immediately upon the filing of such exceptions, the party filing the same shall serve a copy thereof, together with a copy of any brief filed, on the other parties and shall file copies with the regional director. A statement of service shall be made to the Board simultaneously with the filing of exceptions. Within 7 days from the last date on which exceptions and any supporting brief may be filed, or such further period as the Board may allow, a party opposing the exceptions may file an answering brief with the Board in Washington, D.C.; except that if personal service of the exceptions and any supporting brief is made upon the Board, 10 days will be allowed. However, 3 days as provided in § 102.114 will not be added to the prescribed time for filing an answering brief. Such brief shall be submitted in eight copies, printed or otherwise legibly duplicated, except that carbon copies shall not be filed and if submitted will not be accepted. Immediately upon the filing of such brief, the party filing the same shall serve a copy thereof on the other parties and shall file a copy with the regional director. A statement of service shall be made to the Board simultaneously with the filing of the answering brief. If no exceptions are filed to such report, the Board, upon the expiration of the period for filing such exceptions, may decide the matter forthwith upon the record or may make other disposition of the case. The Board shall thereupon proceed pursuant to § 102.67: *Provided, however,* That in any proceeding wherein a representation case has been consolidated with an unfair labor practice case for purposes of hearing, the provisions of § 102.46 shall govern with respect to the filing of exceptions or an answering brief to the exceptions to the trial examiner's decision.

(g) The notice of hearing, motions, rulings, orders, stenographic report of the hearing, stipulations, exceptions, documentary evidence, together with the objections to the conduct of the election or conduct affecting the results of the election, any report on such objections, any report on challenged ballots, exceptions to any such report, any briefs or other documents submitted by the parties, the decision of the regional director, if any, and the record previously made as described in § 102.68, shall constitute the record in the case. Immediately upon issuance of a report on objections or challenges, or both, upon issuance by the regional director of an order transferring the case to the Board, or upon issuance of an order granting a request for review by the Board, the regional director shall transmit the record to the Board.

(h) In any such case in which the regional director or the Board, upon a ruling on challenged ballots, has directed that such ballots be opened and counted and a revised tally of ballots issued, and no objection to such revised tally is filed by any party within 3 days after the revised tally of ballots has been furnished, the regional director shall forthwith issue to the parties certification of the results of the election, including certification of representative where appropriate, with the same force and effect as if issued by the Board. The proceeding shall thereupon be closed.

(i) (1) The action of the regional director in issuing a notice of hearing on objections or challenged ballots, or both, following proceedings under § 102.62(b) shall constitute a transfer of the case to the Board, and the provisions of § 102.65(c) shall apply with respect to special permission to appeal to the Board from any such direction of hearing.

(2) Exceptions, if any, to the hearing officer's report or to the trial examiner's decision, and any answering brief to such exceptions, shall be filed with the Board in Washington, D.C., in accordance with paragraph (f) of this section.

These amendments are effective on February 9, 1973.

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

SUBCHAPTER N—TERRITORIAL AND INSULAR POSSESSIONS

PART 940—PHOENIX ISLAND REGULATIONS

Subchapter N of Chapter VII of Title 32 of the Code of Federal Regulations is retitled as set forth above and amended by adding a new Part 940 to read as follows:

Sec.
940.1 Purpose.
940.2 Area.
940.3 Regulations.

AUTHORITY: 10 U.S.C. 8012; secs. 1-4 of the Act of July 19, 1918, chapter 143 (33

U.S.C. 3); sec. 21 of the Internal Security Act of 1950 (50 U.S.C. 797); Secretary of Defense transfer order No. 40 (App. A (55)), July 22, 1949; Department of Defense directive 5200.8, 19 FR 5446, August 26, 1954; and the delegation of authority, 37 FR 23196, October 18, 1972.

§ 940.1 **Purpose.**

The Commander, Space and Missile Test Center (SAMTEC), Air Force Systems Command, Vandenberg Air Force Base, Calif., prescribes restricted/security area regulations for certain of the Phoenix Islands and the surrounding waters.

§ 940.2 **Area.**

For purposes of this part, the area includes Canton, Enderbury, Birnie and Hull Islands and the adjacent territorial waters surrounding each of these islands.

§ 940.3 **Regulations.**

(a) The stopping or loitering of vessels in the area is prohibited without the prior approval of the Commander, SAMTEC, or his designee, but not the innocent passage of vessels through the territorial waters of the area (§ 940.2)

(b) Use by aircraft of the airstrip on Canton Island, or landing by seaplanes on the lagoons or other territorial waters of the area, is prohibited without the prior approval of the Commander, SAMTEC, or his designee, except as provided in the 1939 agreement between the United States and the United Kingdom on the joint administration of Canton and Enderbury Islands.

(c) Visits, other than official visits, to the area (§ 940.2) are prohibited except as authorized by the Commander, SAMTEC, or his designee; however, any such authorization for visits does not supersede or eliminate the need for other clearances or permits required by other laws or regulations.

Title 35—Panama Canal

CHAPTER I—CANAL ZONE REGULATIONS

Quarantine Procedures Prescribed for Vessels Arriving at Panama Canal

This document revises the quarantine procedures prescribed for vessels arriving at the Panama Canal. After January 31, 1973, approaching ships must send detailed information in advance by radio to Canal authorities so that they can be granted pratique by radio for entry to Canal Zone ports if they qualify for such clearance. This new procedure will make the quarantine practice at the Panama Canal substantially the same as that which prevails in continental United States ports.

This revision also will require an approaching vessel to radio her Panama Canal identification number. Such numbers are assigned by the Panama Canal Company for accounting and statistical purposes. In addition, a change is shown in the title of the Canal's office of preventive medicine.

PART 61—HEALTH, SANITATION, AND QUARANTINE

Subpart E—Maritime and Aircraft Quarantine

1. Section 61.121 is amended by deleting the definition after the word "pratique" and substituting the following:

§ 61.121 **Definitions.**

* * * * *

"Pratique" means authorization granted by a quarantine officer in writing or via radio releasing or provisionally releasing a vessel or aircraft from quarantine.

* * * * *

2. Paragraph (a) of § 61.171 is amended by adding a subparagraph (4) reading as follows:

§ 61.171 **General provisions.**

(a) * * *

(4) Pratique has been granted by a quarantine officer via radio prior to the arrival of the vessel at the Canal Zone.

* * * * *

3. Paragraph (a) of § 61.192 is revised to read as follows:

§ 61.192 **Vessels; awaiting inspection.**

(a) A vessel which must undergo quarantine inspection prior to entry shall fly a yellow flag and, except as provided in paragraph (b) of this section, shall anchor in the prescribed anchorage and await inspection.

* * * * *

4. Paragraph (a) of § 61.195 is revised to read as follows:

§ 61.195 **Maritime quarantine declaration.**

(a) Upon arrival of a vessel, her master shall complete and sign a maritime quarantine declaration on the Canal Zone Government Quarantine Declaration form. The declaration shall also be signed by the ship's surgeon if one is carried. The signed form shall be delivered to the boarding officer when he boards the vessel.

* * * * *

5. Paragraph (a) of § 61.197 is amended by revising the introductory clause to read as follows:

§ 61.197 **Quarantine inspection and controls.**

(a) Quarantine inspection of vessels and aircraft may include, but is not limited to, the following:

* * * * *

6. Section 61.198 is revised to read as follows:

§ 61.198 **Persons; examination.**

If a vessel or aircraft that is subject to quarantine inspection carries a ship or flight surgeon, the examination of persons on board may be limited to those designated by the Chief, Division of Preventive Medicine.

PART 101—ARRIVING AND DEPARTING VESSELS: VARIOUS QUARANTINE, CUSTOMS, IMMIGRATION, AND ADMEASUREMENT REQUIREMENTS

7. Section 101.2 is revised to read as follows:

§ 101.2 **Boarding of arriving vessels.**

(a) Arriving vessels that are subject to quarantine inspection and arriving vessels that are exempt from quarantine inspection due to compliance with § 61.171 of this chapter and intend to transit the Canal without first docking normally will be boarded upon arrival. The boarding will occur inside the breakwater at the Atlantic entrance to the Canal or off the seaward end of the dredged, marked channel at the Pacific entrance. It will be performed by a Panama Canal boarding officer in accordance with the procedures and during the boarding hours established for the respective ports by the Canal authorities. When such vessels are not boarded immediately upon arrival, they shall anchor in a designated anchorage area and await the boarding officer.

(b) Arriving vessels that are exempt from quarantine inspection due to compliance with § 61.171 of this chapter and intend to dock at their port of arrival may proceed to the dock without awaiting a boarding officer. Customs, immigration and admeasurement functions relating to such vessels will be performed by a boarding officer after the vessel docks.

§ 101.7 [Amended]

8. Section 101.7 is revised by deleting the first sentence.

PART 123—RADIO COMMUNICATION

9. Paragraph (a) of § 123.4 is revised to read as follows:

§ 123.4 **Same; information required.**

(a) All of the items of information listed below, unless previously communicated to the Canal authorities, shall be transmitted to the Port Captain as required by § 123.3. Symbols of the phonetic alphabet shall be used to identify each item and the word "NEGAT" shall be used after the items that can be answered "no", "none" or "not applicable". The following items of information shall be provided:

ALFA—The Panama Canal Identification Number of the vessel.

BRAVO—Estimated date and time of arrival, port of arrival and request for Canal transit if desired.

CHARLIE—Estimated draft upon arrival, in feet and inches (fore and aft).

DELTA—Any changes in the vessel's name, country of registry, structure, or use of tanks that have occurred since the vessel last called in Canal Zone waters.

ECHO—Will the vessel dock at Balboa or Cristobal? What is the reason for docking? If it is for cargo operations, fuel or water, give the tonnage involved in each case. Is there any other reason the vessel will not be ready to transit upon arrival? What is the reason?

FOXTROT—The nature and tonnage of any deck cargo.

GOLF—If the vessel is a tanker, state names and grades of cargo carried. State names and grades of the cargo last carried in each empty tank which is not gas free.

HOTEL—If the vessel is carrying explosives as cargo, state the grade of each explosive and the amount, in tons, of each grade.

INDIA—Quarantine and immigration information:

(1) Is radio pratique desired?

(2) State the ports at which the vessel has called within 15 days preceding its arrival at the Canal Zone.

(3) State all cases of communicable disease aboard and the nature of the disease or diseases, if known.

(4) The number of deaths which have occurred since departure from the last port and the cause of each death, if known.

(5) The number of smallpox vaccinations required.

(6) The number of passengers disembarking and their port of disembarkation.

(7) The number and ports of origin of any stowaway and a brief description of the identity papers of each stowaway.

(8) The number, kind and country of origin of any animals aboard. Are any animals to be landed?

(9) The country of origin of all meat, whether carried as cargo or as ship's stores.

(10) Has the vessel called at a port in any country infected with foot-and-mouth disease or rinderpest during its present voyage? Countries considered to be infected are:

(a) All countries east of the 30th meridian west longitude and west of the international date line, except Australia, Channel Islands, Fiji, Greenland, Iceland, Japan, New Zealand, Northern Ireland, Norway, Republic of Ireland;

(b) All countries of South America;

(c) Curacao (the leeward islands of the Netherlands Antilles);

(d) Martinique;

(e) Cuba;

(f) Guadaloupe.

(11) Specify whether the vessel has a valid deratting certificate or a deratting exemption certificate issued 180 days prior to arrival.

* * * * *

Effective date. These amendments are effective February 1, 1973.

Title 41—Public Contracts and Property Management

CHAPTER 15—ENVIRONMENTAL PROTECTION AGENCY

PART 15-1—GENERAL

Subpart 15-1.51—Novation Agreements and Change of Name Agreements

Novation Agreements and Change of Name Agreements, Subpart 15-1.51, Chapter 15, Title 41, of the Code of Federal Regulations is hereby revised to require in § 15-1.5102 that a determination of responsibility be made concerning a successor contractor (in accordance with the standards of FPR 1-1.12) prior to approval of a Novation Agreement.

Effective date. This regulation will become effective on February 9, 1973.

Dated: February 6, 1973.

WILLIAM D. RUCKELSHAUS,
Administrator.

Subpart 15-1.51 is amended by revising § 15-1.5102 to read as follows:

§ 15-1.5102 Agreement to recognize a successor in interest.

(a) The transfer of a Government contract is prohibited by law (41 U.S.C. 15). However, the Government may recognize a third party as the successor in interest to a Government contract when the third party's interest is incidental to the transfer of all the assets of the contractor, or all of that part of the contractor's assets involved in the performance of the contract. Examples include, but are not limited to:

(1) Sale of such assets;

(2) Transfer of such assets pursuant to merger or consolidation of corporation; and

(3) Incorporation of a proprietorship or partnership;

(3) The principal party or parties to a contract transfer to another institution and the Government wishes to recognize the new institution as the successor in interest.

(b) When it is consistent with the Government's interest to recognize a successor in interest to a Government contract, the designated activity shall execute an agreement with the transferor and the transferee, which shall ordinarily provide in part that:

(1) The transferee assumes all the transferor's obligations under the contract;

(2) The transferor waives all rights under the contract as against the Government;

(3) The transferor guarantees performance of the contract by the transferee (a satisfactory performance bond from either the transferor or the transferee may be accepted in lieu of such guarantee); and

(4) Nothing in the agreement shall relieve the transferor or the transferee from compliance with any Federal law.

The Contracting Officer shall, in consultation with the Chief, Cost Policy and Review Branch, Contracts Management Division, make a determination of responsibility pertaining to the successor contractor in accordance with FPR 1-1.12. This determination shall include a business evaluation and, where appropriate, an audit and cost or price analysis. The determination shall be included with the novation agreement which shall be submitted to legal counsel through the Director, Contracts Management Division, for concurrence, prior to execution. A format for such an agreement for use when the transferor and transferee are corporations, and all the assets of the transferor are transferred, is set forth in § 15-1.5105. This format may be adapted to fit specific cases and may be used as a guide in preparing similar agreements for use in other situations.

(c) Prior to the execution of such agreement, one copy of each of the following, as applicable, shall be deposited by the contractor with the designated procuring activity:

(1) A properly authenticated copy of the instrument by which the transfer of assets was effected, as, for example, a bill of sale, certificate of merger, indenture of transfer, or decree of court;

(2) A list of all contracts which have not been finally settled between EPA and the transferor, showing for each contract the contract number, the name and address of the activity involved, the total dollar value of the contract as amended, the type of contract, and the balance remaining unpaid.

(3) A certified copy of the resolutions of the Boards of Directors of the corporate parties authorizing the transfer of assets;

(4) A certified copy of the minutes of any stockholders' meetings of the corporate parties necessary to approve the transfer of assets;

(5) A properly authenticated copy of the certificate and articles of incorporation of the transferee if such corporation was formed for the purpose of receiving the assets involved in the performance of the Government contracts;

(6) An opinion of counsel for the transferor and transferee that the transfer was properly effected in accordance with applicable law and the effective date of transfer;

(7) Evidence of the capability of the transferee to perform the contracts;

(8) Balance sheets of the transferor and the transferee as of the dates immediately prior to and after the transfer of assets; and

(9) Consent of sureties on all contracts listed under paragraph (c)(2) of this section on which bonds were required.

(40 U.S.C. 46(c), sec. 205(c) 63 Stat. 377, as amended)

SUBCHAPTER E—SUPPLY AND PROCUREMENT

PART 101-26—PROCUREMENT SOURCES AND PROGRAMS

Revision of GSA Form 1398; GSA Purchased Vehicle

This amendment illustrates the April 1972 edition of GSA Form 1398, GSA Purchased Vehicle, and provides instructions for placement of the form on newly purchased vehicles.

Subpart 101-26.5—GSA Procurement Programs

Section 101-26.501-6(b) is revised to read as follows:

§ 101-26.501-6 Forms used in connection with delivery of vehicles.

* * * * *

(b) *GSA Form 1398, GSA Purchased Vehicle.* This form is used by the contractor to indicate that preshipment in-

spection and servicing of each vehicle has been performed. The contractor is required to complete GSA Form 1398 (illustrated at § 101–26.4902–1398) and affix it to the lock face of the left front door after the final inspection has been made. The form should be left in place during the warranty period to permit prompt identification of vehicles requiring dealer repairs pursuant to the warranty.

CHAPTER 114—DEPARTMENT OF THE INTERIOR

PART 114–50—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES

On August 26, 1972, there was published in the FEDERAL REGISTER (37 FR 17396) a proposal to issue final regulations implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 84 Stat. 1894, 1900, 42 U.S.C. 4601, 4633.

Forty-five days were given within which any person wishing to do so could file written comments, suggestions, or objections pertaining to the proposed regulations with the Office of Management Operations, Office of the Secretary, 18th and C Streets NW., Washington, DC 20240.

Comments on the published proposal were received from seven organizations. The Department has considered all comments received and as a result 24 changes have been incorporated in the final regulations. The principal changes made follow:

(a) Section 114–50.311 relating to the notice to be furnished occupants upon initiation of negotiations has been changed to provide separate coverage for tenants of 90 days or more, and owners and tenants of less than 90 days;

(b) A new paragraph has been added to § 114–50.400 to require that relocation assistance advisory services include provision for assisting displaced persons in completing application forms for benefits under the Act;

(c) Section 114–50.402 has been revised to require that the relocation planning instructions issued by the Department of Housing and Urban Development in its Handbook 1371.1 shall be used as a guide in the development of relocation plans in any instance where a substantial number of persons are to be displaced in a metropolitan area; and

(d) Section 114–50.906 has been changed to provide that rental replacement housing payments in excess of $500 will be made in four equal installments on an annual basis and payment of less than $500 will be paid in one lump sum. Additional minor changes are listed below:

(e) The first sentence of § 114–50.103 is amended to read: "The provisions of the Act and regulations in this Part 114–50 apply to the acquisition of all real property for, and the relocation of all persons displaced by, Federal programs and projects and programs and projects undertaken by State agencies which receive Federal financial assistance for all or a part of the cost thereof."

(f) In § 114–50.105, paragraph (a) is revised and a new paragraph (c) is added.

(g) In § 114–50.106, paragraph (a) is revised.

(h) Section 114–50.109 is renumbered § 114–50.110 and a new § 114–50.109 [Reserved] is inserted.

(i) A new § 114–50.111 is added to Subpart 114–50.1.

(j) In § 114–50.201, paragraph (d)(4) is revised.

(k) A new paragraph is added to § 114–50.311.

(l) In § 114–50.400, paragraph (f) is relettered (g) and a new paragraph (f) is inserted.

(m) In § 114–50.500, paragraph (a)(2) is revised.

(n) Section 114–50.501 is revised.

(o) Section 114–50.502 is revised.

(p) In § 114–50.705, the words "one half of any" between the words "means" and "net" are changed to read "the average."

(q) In § 114–50.802–1, paragraph (d) and (d)(1) are revised.

(r) The caption in § 114–50.903, and paragraphs (a) and (b) of that section are revised.

(s) Section 114–50.904 is revised.

(t) In § 114–50.1001, paragraph (c) is revised.

(u) The last sentence in § 114–50.1003 is revised.

(v) In § 114–50.1005, paragraph (a)(1) is revised.

(w) In Appendix 2, Subpart 114–50.12, footnote 5 is revised.

The purpose of these regulations is to implement the effective administration of the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, to insure fair and equitable acquisition practices and uniform, fair, and equitable treatment of persons displaced by Federal and federally assisted programs and to safeguard against abuse of any of the underlying purposes, provisions, and policies of the Act.

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301, and section 213 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 84 Stat. 1894, 1900, 42 U.S.C. 4601, 4633, a new Part 114–50 is added to Chapter 114, Title 41 of the Code of Federal Regulations as set forth below.

This new part, which shall be effective on February 9, 1973, supersedes the interim regulations published in the FEDERAL REGISTER of April 16, 1971 (36 FR 7265), except paragraph 5, "Multiple occupancy," which is continued in effect until further notice. This part also supersedes the amendments to the interim regulations which were published in the FEDERAL REGISTER June 18, 1971 (36 FR 11753), August 5, 1971 (36 FR 11408), and September 8, 1971 (36 FR 18019).

AUTHORITY: 5 U.S.C. 301, and section 213 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 84 Stat. 1894, 1900, 42 U.S.C. 4601, 4633.

Subpart 114–50.1—General

§ 114–50.100 Purpose.

These regulations prescribe policies and procedures to insure that fair, equitable, and uniform treatment of persons displaced by Federal and federally assisted programs. They implement the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, hereinafter referred to as the Act, and Office of Management and Budget Circular No. A–103. All references in these regulations to sections or subsections are references to sections or subsections of the Act.

§ 114–50.101 Effective date.

(a) Except as provided in Subpart 114–50.10 of this part, the Act and the amendments made by the Act are effective January 2, 1971, the date of enactment.

(b) Any claims made under these regulations and the Act shall be adjudicated on the basis of the regulations in effect when the claim was filed.

§ 114–50.102 Scope.

The regulations in this Part 114–50 apply to the programs of all Bureaus and Offices of the Department of the Interior. The geographical coverage includes the fifty (50) States, the District of Columbia, the Commonwealth of Puerto Rico, the territories and possessions of the United States, and the Trust Territory of the Pacific Islands.

§ 114–50.103 Applicability.

The provisions of the Act and the regulations in this Part 114–50 apply to the acquisition of all real property for, and the relocation of all persons displaced by, Federal programs and projects and programs and projects undertaken by State agencies which receive Federal financial assistance for all or a part of the cost thereof. The Act and these regulations apply regardless of whether the real property is acquired by a Federal or State agency or whether Federal funds actually contributed to the cost of the real property acquired for a federally assisted project.

§ 114–50.104 Notice of displacement.

Department of the Interior officials responsible for the administration of programs affected by the Act must ensure that a written notice of displacement is given to each individual, family, business, or farm operation to be displaced at least 90 days in advance of the date by which a move is required. Such notice shall be served personally or by certified (or registered) first-class mail. In the case of a federally assisted program, the State agency is responsible for ensuring that such notice is given.

§ 114–50.105 Eligibility requirements.

To be eligible for benefits under title II of the Act as a displaced person, either of the following conditions must be fulfilled:

(a) The person must have moved (or moved his personal property) as a result of the receipt of a written notice to vacate which notice may have been given before or after initiation for acquisition of the property; or

(b) The subject real property must, in fact, have been acquired, and the person must have moved as a result of its acquisition (except in those instances covered by sections 217 and 219).

(c) All persons contacted by the negotiating Bureau or Office shall be advised that the benefits of the Act are not available to (1) persons who move prior to the initiation of negotiations if they have not received a notice to vacate the property, or (2) to persons who move subsequent to the initiation of negotiations when the Bureau or Office does not acquire the property or does not issue a notice to vacate the property.

§ 114–50.105–1 Extension of eligibility.

In addition to the basic eligibility requirements specified in IPMR § 114–50.105, certain of the benefits provided by Title II of the Act are available as follows:

(a) Whenever the acquisition of, or notice to move from, real property used for a business or farm operation causes any person to move from other real property used for his dwelling, or to move his

personal property from such other real property, such person is entitled to the benefits provided by sections 202(a), 202(b), and 205.

(b) When the head of the displacing agency determines that any person occupying property immediately adjacent to the real property acquired is caused substantial economic injury because of the acquisition, he may offer such person relocation advisory services pursuant to section 205(c).

§ 114–50.106 Relocation costs treated separately from purchase price of real property acquired under Federal law.

Contracts or options to purchase real property under Federal law shall not incorporate provisions for making payments for relocation costs and related items in title II of the Act.

(a) Appraisers shall not give consideration to or include in their real property appraisals any allowances for the benefits provided by title II and section 303 of the Act.

(b) In the event of condemnation with a declaration of taking, the estimated compensation shall be determined solely on the basis of the appraised value of the real property with no consideration being given to or reference contained therein to the payments to be made under title II of the Act.

§ 114–50.107 Filing applications for benefits.

All applications for benefits under the Act by a displaced person shall be submitted to the acquiring agency and be supported by such documentation as is required by the regulations in this Part 114–50. Bureaus and Offices shall make every effort to pay promptly any displaced person who makes application for authorized payments and may authorize advance payments in hardship cases. In the case of a project or program undertaken with Federal financial assistance, all applications shall be submitted to the State agency and be supported by such documentation as may be required by the State.

§ 114–50.107–1 Time limitation for filing applications for benefits.

Applications for benefits shall be made within eighteen (18) months from the date on which the displaced person moves from the real property acquired or to be acquired or the date on which the displacing agency makes final payment of all costs of that real property, whichever is the later date. The head of the Bureau or Office may extend this period upon a proper showing of good cause.

§ 114–50.107–2 Forms used for filing applications for benefits.

Uniform "Application for Relocation Assistance" Forms DI–380, and DI–381, and instructions for their preparation, Forms DI–380a, and DI–381a, are prescribed for use by all Bureaus and Offices.

§ 114–50.108 Payments not to be considered as income.

Bureaus and Offices shall advise all displaced persons that no payment received under title II of the Act shall be considered as income for the purposes of the Internal Revenue Code of 1954; or for the purposes of determining the eligibility or the extent of eligibility of any person for assistance under the Social Security Act or any other Federal law.

§ 114–50.109 [Reserved]

§ 114–50.110 Effects upon property acquisition.

(a) Nothing in the regulations in this Part 114–50 shall be construed as creating in any condemnation proceeding brought under the power of eminent domain, any element of value or of damage not in existence immediately prior to January 2, 1971.

(b) The provisions of section 301 of the Act create no rights or liabilities and shall not affect the validity of any property acquisitions by purchase or condemnation.

§ 114–50.111 Bureau and Office procedures.

The head of each Bureau and office shall issue such procedural instructions, not inconsistent with the provisions of this Part 114–50, as he deems necessary to assure proper implementation and administration of the Act and these regulations.

Subpart 114–50.2—Definitions

§ 114–50.200 Applicability.

The terms used in this Part 114–50 shall have the meanings set forth in this Subpart 114–50.2. Heads of Bureaus and Offices may expand these definitions to provide greater clarity and successful implementation of assigned programs. Any such expansion, however, shall not result in a deviation in concept from the definitions set forth herein.

§ 114–50.201 Definition of terms.

(a) *The Act.* "The Act" means the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1894), approved January 2, 1971.

(b) *Bureaus and Offices.* Means the following agencies of the Department of the Interior:

(1) Bureau of Sport Fisheries and Wildlife.
(2) Bureau of Mines.
(3) Bureau of Indian Affairs.
(4) Bureau of Land Management.
(5) Bureau of Outdoor Recreation.
(6) Bureau of Reclamation.
(7) National Park Service.
(8) Geological Survey.
(9) Bonneville Power Administration.
(10) Southeastern Power Administration.
(11) Southwestern Power Administration.
(12) Alaska Power Administration.
(13) Office of Saline Water.
(14) Office of Coal Research.
(15) Office of Water Resources Research.

(c) *Business.* Any lawful activity, excepting a farm operation, conducted primarily:

(1) For the purchase, sale, lease, and rental of personal and real property, and for the manufacture, processing, or marketing of products, commodities, or any other personal property;

(2) For the sale of services to the public;

(3) By a nonprofit organization; or

(4) Solely for the purposes of section 202(a) of the Act (see Subpart 114–50.6 of this part) for assisting in the purchase, sale, resale, manufacture, processing, or marketing of products, commodities, personal property, or services by the erection and maintenance of an outdoor advertising display or displays whether or not such display or displays are located on the premises on which any of the above activities are conducted.

(d) *Comparable replacement dwelling.* For the purposes of rendering relocation assistance by making referrals for replacement housing and for computation of the replacement housing payment, a comparable replacement dwelling is one which is decent, safe, and sanitary and:

(1) Functionally equivalent and substantially the same as the acquired dwelling, but not excluding newly constructed housing.

(2) Adequate in size to meet the needs of the displaced family or individual. However, at the option of the displaced person, a replacement dwelling may exceed his needs when the replacement dwelling has the same number of rooms or the equivalent square footage as the dwelling from which he was displaced.

(3) Open to all persons regardless of race, color, religion, or national origin, consistent with the requirement of the Civil Rights Act of 1964 and title VIII of the Civil Rights Act of 1968.

(4) Located within a 50-mile radius of the acquired dwelling and in an area not generally less desirable than the one in which the acquired dwelling is located, with respect to:

(i) Neighborhood conditions, including but not limited to municipal services and adverse environmental factors,

(ii) Public utilities, and

(iii) Public and commercial facilities.

(5) Reasonably accessible to the displaced person's place of employment or potential place of employment.

(6) Within the financial means of the displaced family or individual, and

(7) Available on the market to the displaced person.

NOTE: If housing meeting the requirements of the above definition is not available on the market, the head of a displacing agency may, upon a proper finding of the need therefor, consider available housing exceeding that basic criteria.

(e) *Decent, safe, and sanitary housing.* A decent, safe, and sanitary dwelling is one which is found to be in sound, clean, and weathertight condition, and which meets local housing codes. Bureaus or Offices shall be governed by the following criteria in determining if a dwelling unit is decent, safe, and sanitary. Adjustments may only be made in the case of unusual circumstances, or in unique geographical areas.

(1) *Housekeeping unit.* A housekeeping unit must include a kitchen with fully usable sink; a cooking stove, or

connections for same; a separate complete bathroom; hot and cold running water in both the bath and the kitchen; an adequate and safe wiring system for lighting and other electrical services; and heating as required by climatic conditions and local codes.

(2) *Nonhousekeeping unit.* A nonhousekeeping unit is one which meets local code standards for boarding houses, hotels, or other congregate living. If local codes do not include requirements relating to space and sanitary facilities, standards will be subject to the approval of the head of the Bureau or Office.

(3) *Water.* Has a continuing and adequate supply of potable safe water.

(4) *Egress.* Each building used for dwelling purposes shall have a safe means of egress leading to safe open space at ground level. Each dwelling unit in a multidwelling building must have access either directly or through a common corridor to a means of egress to open space at ground level. In multidwelling buildings of three stories or more, the common corridor on each story must have at least two means of egress.

(5) *Occupancy standards.* Occupancy standards for replacement housing shall comply with Bureau or Office approval occupancy requirements or comply with local codes.

(6) *Absence or inadequacy of local standards.* In those instances where there is no local housing code or a local housing code does not contain minimum standards or the standards are inadequate, the head of the Bureau or Office may establish the standards.

(f) *Displaced person.* Any person who, on or after the effective date of the Act, moves from real property, or moves his personal property from real property, as a result of the acquisition of such real property, in whole or in part, or as the result of the written order of the acquiring agency to vacate real property, for a program or project undertaken by any Bureau or Office of the Department of the Interior or with Federal financial assistance; and solely for the purposes of sections 202 (a) and (b) and 205 of the Act, as a result of the acquisition of or as the result of the written order of the acquiring Bureau or Office to vacate other real property, on which such person conducts a business or farm operation, for such program or project.

(g) *Displacing agency.* A Bureau or Office in the case of a direct Federal project or a State agency in the case of a project receiving Federal financial assistance.

(h) *Dwelling.* The place of permanent or customary and usual abode of a person. It includes a single family building; a one-family unit in a multifamily building; a unit of a condominium, or cooperative housing project; any other residential unit, including a mobile home which is either considered to be real property under State law, or cannot be moved without substantial damage or unreasonable cost.

(1) For the purpose of section 203 and 204 of the Act the term "dwelling" shall mean the place of permanent abode of a person and does not include seasonal or part-time dwelling units, such as beach houses, mountain, or other vacation cabins.

(i) *Economic rent.* The amount of rent a displaced tenant would have had to pay for a comparable dwelling unit in the area similar to the neighborhood in which the dwelling unit being acquired is located.

(j) *Family.* Two or more individuals who are related by blood, adoption, marriage, or legal guardianship who live together as a family unit. However, upon appropriate determination by the head of the Bureau or Office, others who live together as a family unit may be treated as if they were a family for the purpose of determining benefits under title II of the Act.

(k) *Farm operation.* Any activity conducted solely or primarily for the production of one or more agricultural products or commodities, including timber for sale or home use, and customarily producing such products or commodities in sufficient quantity to be capable of contributing materially to the operator's support.

(l) *Federal agency.* Any department, agency, or instrumentality in the executive branch of the Government (except the National Capital Housing Authority), any wholly owned Government corporation (except the District of Columbia Redevelopment Land Agency) and the Architect of the Capitol, the Federal Reserve banks and branches thereof.

(m) *Federal financial assistance.* A grant, loan, or contribution provided by the United States, except any Federal guarantee or insurance and any annual payment or capital loan to the District of Columbia.

(n) *Financial means.* For the purpose of determining "financial means" of families and individuals in accordance with section 205(c)(3), a determination should be made as to the displaced person's ability to afford the replacement dwelling. (See also paragraph (d)(6) of this section.) In making this determination, the average monthly rental or housing cost (e.g., monthly mortgage payments, insurance for the dwelling unit, property taxes and other reasonable recurring related expenses) which the displaced person will be required to pay, in general, should not exceed 25 percent of the monthly gross income or the present ratio of housing payment to the income of the displaced family or individual, including supplemental payments made by public agencies. Bureaus or Offices may issue regulations providing for determinations that 25 percent of monthly gross income for housing costs or the present ratio of housing payment to the individual income is or is not excessive to the other needs of the displaced family or individual, such as food, clothing, child care, medical expenses, etc. In these cases, the head of the Bureau or Office shall establish criteria for determining the financial means of the displaced family or individual.

(o) *Heads of Bureaus and Offices.* The head of each Bureau or Office listed in paragraph (b) of this section, or his designee.

(p) *Initiation of negotiations.* The date the Bureau or Office makes the first personal contact with the owner or his representative and furnishes him with a written offer to purchase real property. Registered mail may be used in lieu of personal contact only where justified by geographic location and/or scale of negotiations.

(q) *Mortgage.* Such classes of liens as are commonly given to secure advances on, or the unpaid purchase price of real property, under the laws of the State in which the real property is located, together with the credit instruments, if any, secured thereby.

(r) *Owner.* A person who holds fee title, a life estate, a 99-year lease; or an interest in a cooperative housing project which includes the right of occupancy of a dwelling unit, or is the contract purchaser of any such estates or interest, or who is possessed of such other proprietory interest in the property acquired as, in the judgment of the head of the Bureau or Office, warrants consideration as ownership. In the case of one who has succeeded to any of the foregoing interests by devise, bequest, inheritance or operation of law, the tenure of ownership, not occupancy, of the succeeding owner shall include the tenure of the preceding owner.

(s) *Person.* Any individual, partnership, corporation, or association.

(t) *State.* Any of the several states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, the Trust Territory of the Pacific Island, and any political subdivision thereof.

(u) *State agency.* The National Capital Housing Authority, the District of Columbia Redevelopment Land Agency, and any department, agency, or instrumentality of a State or of a political subdivision of a State, or any department, agency, or instrumentality of two or more States or of two or more political subdivisions of a State or States.

(v) *Available replacement housing.* The terms "available replacement housing" or "made available," shall mean that the displaced person has either, by himself obtained and has the right of possession of comparable replacement housing, or the Bureau or Office has offered him comparable replacement housing as defined in paragraph (d) of this section, which is available for immediate occupancy.

(w) *Nonprofit organization.* A corporation, partnership, individual, or other public or private entity, engaged in a business, professional or instructional activity on a nonprofit basis, necessitating fixtures, equipment, stock in trade, or other tangible property for the carrying on of the business, profession, or institutional activity on the premises.

Subpart 114–50.3—Uniform Real Property Acquisition Policy

§ 114–50.300 Applicability.

This subpart prescribes policies and procedures governing the acquisition of real property for Federal and federally assisted programs administered by the Department of the Interior.

§ 114–50.301 Objectives.

The objectives of the policies and procedures set forth in this subpart are to:

(a) Encourage and expedite the acquisition of real property by agreements with owners;

(b) Avoid litigation and relieve congestion in the courts;

(c) Assure consistent treatment for owners in the many Federal and federally assisted programs; and

(d) Promote public confidence in land acquisition practices.

§ 114–50.302 Acquisition policy.

To achieve the objectives set out in § 114-50.301, Bureaus and Offices shall, to the greatest extent practicable:

(a) Make every reasonable effort to acquire real property expeditiously by negotiation;

(b) Appraise real property prior to the initiation of negotiations;

(c) Give the owner or his designated representative an opportunity to accompany the appraiser during his inspection of the property; and

(d) Establish, prior to initiation of negotiations, an amount which is believed to be just compensation for the real property and make a prompt offer to acquire the property for the full amount so established.

(1) In no case will the amount established as just compensation be less than the approved appraisal of the estimated fair market value of the property.

(2) Any decrease or increase in the fair market value of real property prior to the date of valuation caused by the public improvement for which the property is acquired, or by the likelihood that the property would be acquired for such improvement, other than that due to physical deterioration within the reasonable control of the owner, will be disregarded in determining the compensation for the property.

§ 114–50.303 Statement of just compensation to owner.

Bureaus and Offices shall provide the owner of real property to be acquired with a written statement of, and a summary of the basis for, the amount established as just compensation. In the case of a partial taking, damages to the remaining real property, if any, shall be separately stated. The summary statement shall include the following:

(a) Identification of the real property and the estate or interest therein to be acquired;

(b) Identification of the buildings, structures, and other improvements considered to be part of the real property for which the offer of just compensation is made;

(c) A statement explaining the basis for the determination of just compensation and that such determination:

(1) Is based on the estimated fair market value of the property;

(2) Is not less than the approved appraisal of the property.

(d) A statement that any decrease or increase in the fair market value of the real property prior to the date of valuation caused by the public improvement or project for which the property is to be acquired, or by the likelihood that the property would be acquired for such improvement or project, other than that due to physical deterioration within the reasonable control of the owner, has been disregarded by the Bureau or Office in making its determination of just compensation for the property.

§ 114–50.304 Acquisition of improvements required to be removed from land acquired.

Whenever a Bureau of Office acquires any interest in real property it shall acquire at least an equal interest in all buildings, structures, or other improvements located thereon and which it requires to be removed from the real property or which it determines will be adversely affected by the use to which the real property will be put.

(a) If any buildings, structures, or other improvements, required to be acquired in accordance with this § 114–50.304, are the property of a tenant who has the right or obligation to remove them at the expiration of his term, the total just compensation for the real property, including the property of the tenant, shall be apportioned to the landowner and the tenant. The amount payable to the tenant for such improvements will be the greater of:

(1) The estimated fair market value of the property for offsite removal (salvage value), or

(2) The contributive value of the tenant's improvements to the value of the entirety.

(b) A payment may be made under paragraph (a) of this section, only in those cases where:

(1) The landowner disclaims all interests in the tenant's improvements, and

(2) The tenant, in consideration for such payment, assigns, transfers, and releases to the acquiring agency all his right, title, and interest in and to the improvements.

(c) A tenant may reject payment under paragraph (a) of this section and elect to obtain payment in accordance with other applicable laws.

(d) Payment under paragraph (a) of this section shall not duplicate any payment otherwise authorized by law.

§ 114–50.305 Appraisal.

As a general rule, only one appraisal will be obtained on each tract, unless the Bureau or Office determines that circumstances require an additional appraisal or appraisals.

(a) Real property acquisition records shall show that the owner or his designated representative has been given an opportunity to accompany the appraiser during his inspection of the property.

(b) The head of each Bureau or Office shall establish, for all Federal and federally assisted programs under his jurisdiction, criteria for determining the qualifications of appraisers, and a system of review by qualified appraisers.

(c) Standards for appraisals used in Federal and federally assisted programs shall be consistent with the current uniform appraisal standards for Federal land acquisition published by the Interagency Land Acquisition Conference.

§ 114–50.306 Condemnation.

Condemnation proceedings, where required, will be instituted by the Bureau or Office. Bureaus and Offices shall not intentionally make it necessary for an owner to institute legal proceedings to prove the fact of the taking of his property.

(a) Bureaus and Offices in project planning shall take into consideration the possible liability for the payment of litigation expenses of a condemnee provided in section 304 of the Act.

(b) In no case will a Bureau or Office, in order to compel an owner to agree to a price to be paid for his property:

(1) Advance the time of condmenation;

(2) Defer negotiations or condemnation or the deposit of funds in court for the use of the owner; or

(3) Take any other coercive actions to force a price agreement.

§ 114–50.307 Uneconomical remnant.

In any case where acquisition of only part of a property will leave the owner with an uneconomical remnant, the acquiring Bureau or Office shall offer to acquire the entire property.

§ 114–50.308 Notice to move.

No owner or tenant who will become a displaced person will be required to surrender possession of his property before payment is made to him or deposited in the registry of the court. In all cases the owner or tenant shall be given at least 90 days' written notice of the date by which he is required to move from the acquired property.

§ 114–50.309 Temporary occupancy of property after acquisition.

If an owner or tenant is permitted to remain in possession of property for a short period after acquisition, the rental charged for such occupancy shall not be more than the fair rental value of the property to a short-term occupier.

§ 114–50.310 Expenses incidental to transfer of title.

Bureaus and Offices shall take actions necessary to insure that owners are reimbursed for expenses incurred incidental to conveyance of real property by the earliest date practicable. All Bureau or Office land purchase contract forms shall be amended to provide reimbursement to the vendor in an amount deemed by the Bureau or Office to be fair and reasonable for the following:

(a) Recording fees, transfer taxes, and similar expenses incidental to conveying the real property;

(b) Penalty cost for prepayment of any preexisting recorded mortgage entered into in good faith encumbering said real property; and

(c) The pro rata portion of real property taxes paid which are allocable to a period subsequent to the date of vesting title in the acquiring agency, or the effective date of possession of such real property by the acquiring agency, whichever is the earlier.

§ 114–50.311 Notice to occupants upon initiation of negotiations.

The following information shall be furnished occupants of real property to be acquired at the time of initiation of negotiations, either in a brochure or such other medium as may be directed by the head of the Bureau or Office:

(a) *Owner-occupants of more than 180 days.* Simultaneous with the fair market value offer, an owner-occupant of more than 180 days shall be furnished:

(1) An explanation of his eligibility to receive a replacement housing payment not to exceed $15,000 and the manner in which the exact amount to which he will be entitled will be computed, and

(2) An explanation of the eligibility requirements to receive payments for replacement housing, increased interest costs, and incidental expenses, and of his option to rent replacement housing.

(b) *Owner-occupants of 90 days or more, but less than 180 days.* Simultaneous with the fair market value offer, an owner-occupant of 90 days or more, but less than 180 days shall be furnished:

(1) An explanation of his eligibility to receive a rental differential payment not to exceed $4,000 and the manner in which the exact amount to which he will be entitled will be computed, and

(2) An explanation of his option to receive a downpayment towards the purchase of replacement housing not to exceed $4,000, and incidental expenses to purchase replacement housing and the requirement therefor.

(c) *Tenants of 90 days or more.* Within purchase of real property, each tenant of 90 days or more shall be personally contacted and furnished in writing:

(1) The date of initiation of negotiations for purchase of the real property;

(2) An explanation of his eligibility to receive a rental differential payment not to exceed $4,000 and the manner in which the exact amount to which he will be entitled will be computed, and

(3) An explanation of his option to receive a down payment towards the purchase of replacement housing and incidental expenses, including the matching requirements therefor.

(d) *Owners and tenants of less than 90 days.* Within 15 days after the initiation of negotiations for acquisition of the property, each owner and tenant of less than 90 days shall be personally contacted and furnished in writing:

(1) The date of initiation of negotiations for purchase of the real property; and

(2) An explanation of his eligibility to receive a payment for moving expenses only.

§ 114–50.312 State acting as agent for Federal program.

In the event that real property is acquired by a State agency at the request of a Bureau or Office for a Federal program or project, such acquisition shall, for purposes of the Act, be deemed an acquisition by the Bureau or Office administering such program or project.

§ 114–50.313 Federally assisted programs.

The head of each Bureau or Office administering federally assisted programs carried out by State agencies which will result in the acquisition of real property shall require that State agencies:

(a) Reimburse owners for necessary expenses as specified in sections 303 and 304 of the Act, and

(b) Comply with the provisions of sections 301 and 302 of the Act if compliance is legally possible under State law.

Subpart 114–50.4—Relocation Assistance Advisory Services

§ 114–50.400 Relocation assistance advisory program.

Whenever the acquisition of real property for a program or project undertaken by a Bureau or Office will result in the displacement of any person, the Bureau or Office shall establish a relocation assistance advisory program for the displaced person or persons. If the head of the Bureau or Office determines that any person occupying property immediately adjacent to the real property acquired is caused substantial economic injury because of the acquisition he may offer such person relocation advisory services under this program. Where a federally assisted project is involved in the displacement, the State agency shall provide the advisory services. Each relocation assistance advisory program shall include such measures, facilities, or services as may be necessary or appropriate to:

(a) Determine the need, if any, of displaced persons, for relocation assistance;

(b) Provide current and continuing information on the availability, prices, and rentals, of comparable decent, safe, and sanitary sales and rental housing and of comparable commercial properties and locations for displaced businesses;

(c) Insure the availability of adequate replacement housing prior to displacement as prescribed in Subpart 114–50.5 of this part;

(d) Assist a person displaced from his business or farm operation in obtaining and becoming established in a suitable replacement location;

(e) Supply information concerning Federal and State housing programs, disaster loan programs, and other Federal or State programs offering assistance to displaced persons;

(f) Provide assistance to the displaced persons in completing application forms for benefits under the Act; and

(g) Provide other advisory services to displaced persons in order to minimize hardships to such persons in adjusting to relocation.

§ 114–50.401 Organizational requirements.

The head of each Bureau or Office engaged in programs which cause the displacement of persons shall insure that responsibility for administration of relocation assistance programs is properly assigned in accordance with the following:

(a) *Headquarters office.* An official at the Bureau or Office headquarters level shall be assigned responsibility for providing staff guidance and direction for administration of the Bureau's relocation programs.

(b) *Regional or comparable office level.* At least one official in each region, area, or State office where relocation occurs, shall be assigned the responsibility for providing relocation assistance. These officials may be responsible for one or more projects within the region or other geographical area where practicable and appropriate.

(c) *Local relocation office.* A local relocation office, properly staffed, should be established when it is determined that the volume of work or the needs of the displaced persons justify such an office. The determination to establish a local relocation office may be made only by the head of the Bureau or Office on an individual project basis. Local relocation offices, when established, should be reasonably accessible to public transportation or within walking distance of the project and should be open during hours convenient to the persons being displaced.

§ 114–50.402 Relocation plan.

A relocation plan shall be developed for all areas or projects where land acquisition activities will cause displacement of persons from their dwellings, businesses, or farm operations. The plan shall be developed in accordance with procedures outlined in § 114–50.500.

(a) The plan shall include the following information, as a minimum:

(1) The estimated number of individuals, families, businesses, farms, and nonprofit organizations which are to be relocated;

(2) The availability of decent, safe, and sanitary replacement housing within the financial means of the individuals and families being displaced;

(3) The estimated total cost of payments to displaced persons for all benefits under the Act for replacement housing; and

(4) The estimated cost of administering required relocation services to displaced persons.

(b) Each relocation plan shall be:

(1) Coordinated with other Federal and State agencies and private concerns having relocation programs within the project area, to ensure that the real estate market from which replacement housing will be obtained is capable of supplying the demands of all users of

housing. (See also §§ 114–50.403 and 114–50.404); and

(2) Updated periodically to reflect current real estate conditions. When funds have been appropriated for commencement of real property acquisition, the relocation plan will be continuously updated and serve as a basis for accomplishing required relocation activities.

(c) A more elaborate relocation plan may be required in instances where acquisition of real property for a program or project will result in the displacement of a substantial number of persons in a metropolitan area, particularly where low or moderate income persons are involved. In any such instances, Bureaus and Offices shall be guided by the relocation planning instructions promulgated by the Department of Housing and Urban Development in its Relocation Handbook 1371.1.

§ 114–50.403 Coordination of planned relocation activities.

Where two or more Bureaus of the Department of the Interior plan displacement activities in a given community or project area, they shall coordinate such plans to insure the adequacy of available replacement housing and that displaced persons receive the maximum assistance available to them. Similarly, Bureaus and Offices shall communicate with other Federal agencies, and State and local agencies, contemplating displacement activities in the community or area for the purpose of planning relocation activities and coordinating available housing resources.

(a) Bureaus and Offices causing displacement shall:

(1) Consult with the appropriate Regional/Area Office of the Department of Housing and Urban Development within the jurisdictional area concerning the availability of housing;

(2) Provide the Housing and Urban Development Regional/Area Office with information regarding the projects which will cause displacement; and

(3) Designate at least one representative who will meet periodically with representatives of other Interior Bureaus and other Federal agencies causing displacement in the community to review the impact of their respective programs on the community or area.

(b) A directory of the Department of Housing and Urban Development Regional/Area Offices is contained in Appendix I to this subpart. The Department of Housing and Urban Development will maintain this directory on a current basis and furnish updated copies upon request.

§ 114–50.404 Local coordination.

To further insure maximum coordination of relocation activities in a given community or area, the displacing agency shall consult appropriate local officials prior to approving any proposed project in the community, consistent with the requirements promulgated by Office of Management and Budget Circular No. A–95 (Revised). The circular provides a central point of identifying local officials.

§ 114–50.405 Coordination with project work.

Bureaus and Offices shall coordinate relocation activities with project work, and other planned or proposed governmental actions in the community or nearby areas which may affect the carrying out of relocation assistance programs.

§ 114–50.406 Public information.

The head of each Bureau and Office shall insure that the public receives adequate knowledge of the Bureau's relocation programs and that persons to be displaced are fully informed, at the earliest possible time, concerning relocation plans. In those areas where the number of persons to be displaced is such that it is not feasible to provide such information on a personal basis, the Bureau or Office shall afford all concerned persons an opportunity to discuss the relocation program at public meetings. Brochures describing the relocation program will be distributed at these meetings and to all other individuals and organizations, as appropriate.

(a) Discussions at public meetings shall include, as a minimum, the following:

(1) The availability of relocation assistance and services, eligibility requirements, and payment procedures;

(2) The estimated number of individuals, families, businesses, farm operations, and nonprofit organizations to be relocated;

(3) Specific plans for relocating all eligible displaced persons in suitable replacement housing; and

(4) The right of administrative review by the head of the Bureau or Office and to appeal to the Secretary of the Interior, as provided in Subpart 114–50.11 of this part.

(b) Where appropriate, Bureaus and Offices will, within 15 days after initiation of negotiations on a project, provide public announcements concerning:

(1) The relocation services to be provided;

(2) The payments which can be made; and

(3) The location where the Bureau or Office relocation brochures can be obtained.

(c) Public announcements may utilize any type of mass media which will provide full and adequate notice to the public.

§ 114–50.407 Contracting for relocation services.

Bureaus and Offices may enter into agreements with any Federal, State, or local agency, or contracts with private individuals or concerns for the purpose of carrying out relocation activities as provided in §§ 114–50.407–1 and 114–50.407–2. Each such agreement or contract shall require specific performance standards for the services to be provided. Any contract for such services must be executed and administered in conformance with Interior Procurement Regulations.

§ 114–50.407–1 Agreements with central relocation agency.

When a central relocation agency is available in the community or project area, the displacing agency shall consider entering into an agreement with such agency in an effort to reduce costs, prevent duplication, and promote uniform and effective administration of relocation assistance programs for displaced persons. The appropriate Regional/Area Office of the Department of Housing and Urban Development will provide information and assistance concerning these services, upon request.

§ 114–50.407–2 Contracting with private concerns.

Bureaus and Offices may provide relocation services through contracts with private individuals or concerns only when the following conditions exist:

(a) A central relocation agency is not available in the community or project area, or a central agency is available but does not have the capacity to provide the necessary services within the time required by the Bureau's program, and

(b) The Bureau or Office does not have the in-house capability to provide the services.

§ 114–50.407–3 Relocation services—Federally assisted programs.

Stage agencies receiving Federal financial assistance on a project may enter into agreements or contracts for the provision of relocation services in accordances with this Subpart 114–50.4. When a State agency elects to contract for these services, the Bureau or Office providing the Federal financial assistance shall take such action as is necessary to insure that the contract will facilitate a uniform and effective relocation program for the displaced persons. Any such contract shall include the following provisions, as a minimum:

(a) That payments or services shall be provided in accordance with the regulations in this Part 114–50;

(b) That records pertinent to the contract will be retained by the State agency for a period of a least 3 years and shall be available for examination by representatives of the Bureau or Office;

(c) Clauses required by regulations implementing title VI of the Civil Rights Act of 1964 (Public Law 88–353); and

(d) Any other provision as required by the Bureau or Office administering the federally assisted program or project.

§ 114–50.408 Displaced person declining to accept relocation services.

A displaced person is not required to accept the relocation services provided for his benefit. He may choose to relocate on his own and still be eligible for payments under the Act. However, the displaced person must meet the occupancy requirements for decent, safe, and sanitary housing and make application within the prescribed time limits to be eligible for a replacement housing payment.

Subpart 114–50.5—Assurance of Adequate Replacement Housing Prior to Displacement

§ 114–50.500 Determination of availability of replacement housing.

Bureaus and Offices shall not proceed with any phase of any project or authorize a State agency to proceed with any phase of a project which will cause the displacement of any person until it has determined, or received satisfactory assurances from the displacing State agency that, within a reasonable period of time prior to displacement, decent, safe, and sanitary housing as defined in § 114–50.201(e) will be available on a basis consistent with the requirements of title VIII of the Civil Rights Act of 1968 (Public Law 90–284), in areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families and individuals being displaced. Such dwellings are to be equal in number to the number of, and available to, persons being displaced who require dwellings and reasonably accessible to their places of employment.

(a) *Support.* Determinations or assurances shall be based on a current survey and analysis of available replacement housing by the Bureau or Office or displacing State agency and shall take into consideration the competing demands on available housing. (See Subpart 114–50.4 of this part). Information to develop and maintain the survey may be available from the Department of Housing and Urban Development, the Veterans Administration, and real estate associations. The survey should:

(1) Be undertaken during the planning phase for each project,

(2) Be developed sufficiently to provide a means for determining whether or not the project or area is feasible from the standpoint of assuring that suitable replacement housing will be available to displaced persons and to support assurances that replacement dwellings are available to meet the criteria specified in this § 114–50.500, and

(3) Include a listing of the housing currently available.

(b) *Waiver.* The head of the Bureau or Office may waive the requirements of this § 114–50.500 for assuring the availability of replacement housing only in the case of an emergency or other extraordinary situation where immediate possession of real property is of crucial importance. Each such waiver shall be supported by appropriate findings and a determination of the necessity for the waiver which shall be documented in writing and made a part of the record.

§ 114–50.501 Housing provided as last resort.

In any case where the survey analysis of available replacement housing required by § 114–50.500 discloses that adequate replacement housing is not available and cannot otherwise be made available, the head of the Bureau or Office may take action or approve action by a State agency to develop replacement housing as authorized by section 206(a) of the Act. Bureaus and Offices taking or approving such action for replacement housing will be guided by the criteria and procedures issued by the Secretary of Housing and Urban Development in 24 CFR Subtitle A, Part 43, Subpart A. A State agency taking such action should comply with the requirements and procedures of the Bureau or Office which provides the Federal financial assistance.

§ 114–50.502 Loans for planning and other preliminary expenses for additional housing.

To encourage and facilitate the construction or rehabilitation of housing to meet the needs of displaced persons, the head of the Bureau or Office may provide loans to eligible borrowers for planning and other preliminary expenses authorized by section 215 of the Act. In implementing this paragraph, Bureaus and Offices will be guided by the criteria and procedures issued by the Secretary of Housing and Urban Development in 24 CFR Subtitle A, Part 43, Subpart B. A State agency providing such loans should comply with the requirements and procedures of the Bureau or Office which provides the Federal financial assistance.

Subpart 114–50.6—Moving and Related Expenses

§ 114–50.600 Eligibility.

(a) Any displaced person, as defined in Subpart 114–50.2 of this part, including one who conducts a business or farm operation, is eligible to receive a payment for moving and related expenses.

(b) A person who lives on his business or farm property may be eligible for both:

(1) Moving and related expenses as a dwelling occupant, and

(2) Moving and related expenses with respect to displacement from a business or farm operation.

(c) A displaced owner-occupant of a multifamily rental dwelling may be eligible for both:

(1) Moving and related expenses as a dwelling occupant, and

(2) Moving and related expenses with respect to displacement from a business.

§ 114–50.601 Payment for moving expenses.

Whenever the acquisition of real property will result in the displacement of any person, business, or farm operation, the displacing agency shall make a payment to such displaced person upon proper application for the following, or the "in lieu" payments authorized in Subpart 114–50.7 of this part.

(a) Actual reasonable expenses in moving himself, his family, business, farm operation, or other personal property;

(b) Actual direct losses of tangible personal property as a result of moving or discontinuing a business or farm operation, but not to exceed an amount equal to the reasonable expenses that would have been required to relocate such property, as determined by the displacing agency; and

(c) Actual reasonable expenses in searching for a replacement business or farm operation.

§ 114–50.601–1 Allowable moving expenses.

(a) Actual reasonable expenses incurred by the displaced person in moving may be allowed as follows:

(1) Transportation of individuals, families, and personal property from the acquired site to the replacement site, not to exceed a distance of 50 miles, except where the displacing agency determines that relocation beyond the 50-mile area is justified.

(2) Packing and unpacking, crating and uncrating of personal property.

(3) Advertising for packing, crating, and transportation when the displacing agency determines that it is necessary.

(4) Storage of personal property for a period generally not to exceed 12 months when the displacing agency determines that storage is necessary in connection with relocation.

(5) Insurance premiums covering loss and damage of personal property while in storage or transit.

(6) Removal, reinstallation, reestablishment of machinery, equipment, appliances, and other items, including modifications as deemed necessary by the Bureau or Office and reconnection of utilities not acquired as real property.

(7) Property lost, stolen, or damaged (not caused by the fault or neglect of the displaced person, his agent or employees) in the process of moving, where insurance to cover such loss or damage is not available.

(8) Such other reasonable expenses as may be determined to be allowable by the Bureau or Office.

(b) Limitations:

(1) When the displaced person accomplishes the move himself, the amount of payment shall not exceed the estimated cost of moving commercially, unless the Bureau or Office determines a greater amount is justified.

(2) When an item of personal property which is used in connection with any business or farm operation is not moved but sold and promptly replaced with a comparable item, reimbursement shall not exceed the replacement cost minus the proceeds received from the sale, or the estimated cost of moving, whichever is less.

(3) When personal property which is used in connection with any business or farm operation to be moved is of low value and high bulk, and the cost of moving would be disproportionate in relation to the value, in the judgment of the Bureau or Office, the allowable reimbursement for the expense of moving the personal property shall not exceed the difference between the amount which would have been received for such item on liquidation and the cost of replacing the same with a comparable item available on the market. This provision will be applicable in the case of moving of junk yards, stockpiled sand, gravel, minerals, metals, and similar type items of personal property.

(4) If the cost of moving or relocating an outdoor advertising display or displays is determined to be equal to or in excess of the in place value of the display, consideration should be given to acquiring such display or displays as a part of the real property.

§ 114–50.601–2 Nonallowable moving expenses and losses.

The following expenses shall not be included in the moving expense payment required to be made by § 114–50.601:

(a) Additional expenses incurred because of living in a new location.

(b) Cost of moving structures or other improvements in which the displaced person reserved ownership, except as otherwise provided by law.

(c) Improvements to the replacement site, except when required by law.

(d) Interest on loans to cover moving expenses.

(e) Loss of goodwill.

(f) Loss of profits.

(g) Loss of trained employees.

(h) Personal injury.

(i) Cost of preparing the application for moving and related expenses.

(j) Payment for search cost in connection with locating a replacement dwelling.

(k) Such other items as the Bureau or Office determines should be excluded.

§ 114–50.602 Payment for expenses incurred in searching for replacement business or farm.

Actual reasonable expenses incurred by the displaced person in searching for a replacement business or farm may be allowed as follows:

(a) Actual travel costs.

(b) Extra costs for meals and lodging.

(c) Time spent in searching at the rate of the displaced person's salary or earnings, but not to exceed $10 per hour.

(d) In the discretion of the displacing agency, necessary broker, real estate, or other professional fees to locate a replacement business or farm operation under circumstances prescribed by the Bureau or Office.

§ 114–50.602–1 Limitation.

The total amount which a displaced person may be paid for searching expenses may not exceed $500, unless the Bureau or Office determines that a greater amount is justified based on the circumstances involved.

§ 114–50.603 Actual direct losses by business or farm operation.

Whenever the acquisition of or notice to move from, real property used for a business or farm operation causes any person to move from other real

property used for his dwelling, or to move his personal property from such other real property, such person may receive payments for moving and related expenses as provided in § 114–50.601.

(a) When the displaced person does not move personal property he should be required to make a bona fide effort to sell it and should be reimbursed for the reasonable costs incurred.

(b) When the business or farm operation is discontinued, the displaced person is entitled to the difference between the fair market value of the personal property for continued use at its location prior to displacement and the sale proceeds, or the estimated costs of moving 50 miles, whichever is less.

(c) When the personal property is abandoned, the displaced person is entitled to payment for the fair market value of the property for continued use at its location prior to displacement or the estimated cost of moving 50 miles whichever is less.

(d) When personal property is sold and the business or farm operation reestablished, the displaced person is entitled to payment provided in IPMR § 114–50.601–1(b)(2).

(e) The costs of removal of the personal property shall not be considered as an offsetting charge against other payments to the displaced person.

Subpart 114–50.7—Payments in Lieu of Moving and Related Expenses

§ 114–50.700 Eligibility.

Except as otherwise provided herein, a displaced person, including one who is displaced from a business or farm operation, who is eligible to receive payments for moving and related expenses under Subpart 114–50.6 of this part, may elect to receive payments in accordance with this Subpart 114–50.7 in lieu of payment for actual moving and related expenses.

§ 114–50.701 Displaced dwelling occupant.

A person displaced from a dwelling who elects to receive the payments authorized by this paragraph, in lieu of payment for actual moving expenses, may receive a moving expense allowance, determined in accordance with a schedule established by the Bureau or Office, not to exceed $300, plus a dislocation allowance of $200.

§ 114–50.701–1 Moving allowance schedules.

Moving allowance schedules maintained by the respective State highway departments should be used as the basis for the Bureau or Office schedules. These schedules should provide for adequacy of reimbursement in every locality.

(a) The Federal Highway Administration will make current schedules available to displacing agencies upon request.

(b) In areas where there are no highway department schedules, Bureaus and Offices undertaking or providing Federal financial assistance to a project causing displacement in such areas shall cooperate with other displacing agencies in the development of a single moving expense schedule for the use of all such agencies.

§ 114–50.702 Displaced farm operation.

A person displaced from his farm operation who elects to receive the payment authorized by this paragraph, in lieu of payment for actual moving and related expenses, may receive a fixed payment in an amount equal to the average annual net earnings (see § 114–50.705) of the farm operation, except that such payment shall be not less than $2,500 nor more than $10,000.

§ 114–50.702–1 Farms—Partial taking.

Where a displaced person is displaced from only a part of his farm operation, the fixed payment provided in § 114–50.702 shall be made only if the displacing agency determines that the farm met the definition of a farm operation prior to the acquisition and that the property remaining after the acquisition does not.

§ 114–50.703 Displaced business.

A person displaced from his business, as defined in § 114–50.201(c) (1), (2), and (3), who elects to receive the payment authorized by this paragraph, in lieu of payment for actual moving and related expenses, may receive a fixed payment in an amount equal to the average annual net earnings (see § 114–50.705) of the business, except that such payment shall be not less than $2,500 nor more than $10,000.

(a) Care must be exercised to insure that a fixed payment is made only in connection with a bona fide business.

(b) No payment shall be made pursuant to this paragraph until after the displacing agency determines:

(1) That the business is not part of a commercial enterprise having at least one other establishment not being acquired, which is engaged in the same or similar business, and

(2) That the business cannot be relocated without a substantial loss of existing patronage.

§ 114–50.703–1 Determination of loss of existing patronage to a business.

The determination of loss of existing patronage to a business shall be made by the displacing agency only after consideration of all pertinent circumstances, including but not limited to the following factors:

(a) The type of business conducted by the displaced concern.

(b) The nature of the clientele of the displaced concern.

(c) The relative importance of the present and proposed location to the displaced business and the availability of a suitable replacement location for the displaced person.

§ 114–50.703–2 Businesses not eligible to receive "in lieu" payment.

Those businesses described in § 114–50.201(c)(4) are not eligible to receive a fixed payment in lieu of payment for actual moving and related expenses.

§ 114–50.704 Displaced nonprofit organizations.

A displaced nonprofit organization may elect to receive a fixed payment, in lieu of payment for actual moving and related expenses, in an amount equal to the average annual net earnings of the nonprofit organization, except that such payment shall be not less than $2,500 nor more than $10,000. However, no payment shall be made pursuant to this paragraph until after the Bureau or Office determines that:

(a) The nonprofit organization cannot be relocated without a substantial loss of its existing patronage. The term "existing patronage" as used in connection with nonprofit organizations includes the persons, community, or clientele served or affected by the activities of the nonprofit organization.

(b) The nonprofit organization is not part of a commercial enterprise having at least one other establishment not being acquired which is engaged in the same or similar activity.

§ 114–50.705 Average annual net earnings.

The term "average annual net earnings" as used in this subpart means the average net earnings of the business or farm operation, before Federal, State, and local income taxes, during the 2 taxable years immediately preceding the taxable year in which such business or farm operation moves from the real property acquired, or during such other period as the displacing agency determines to be more equitable for establishing such earnings, and includes any compensation paid by the business or farm operation to the owner, his spouse or his dependents during such period.

Subpart 114–50.8—Replacement Housing Payment for Homeowners

§ 114–50.800 Eligibility.

A displaced owner-occupant is eligible for a replacement housing payment not in excess of $15,000: *Provided*, That he meets both of the following requirements:

(a) Actually owned and occupied the dwelling from which displaced for not less than 180 days immediately prior to the initiation of negotiations (see § 114–50.201(p)) for the acquisition of the property, and

(b) Purchases and occupies a replacement dwelling which is decent, safe, and sanitary not later than the end of the 1-year period beginning on the date on which he receives from the displacing agency final payment of all costs of the acquired dwelling, or on the date on which he moves from the acquired dwelling, whichever is the later date.

§ 114–50.800–1 Owner-occupant of less than 180 days.

A displaced owner-occupant of a dwelling who is determined to be ineligible for a replacement housing payment under this Subpart 114–50.8 may be eligible for a payment under Subpart 114–50.9 of this part.

§ 114–50.801 Elements included in replacement housing payment.

The replacement housing payment authorized by this subpart is in addition to payments otherwise authorized by title II of the Act. It includes the following elements:

(a) The amount, if any, which when added to the acquisition cost of the dwelling acquired by the displacing agency, is necessary to purchase a comparable replacement dwelling as defined in § 115–50.201(d).

(b) The amount, if any, necessary to compensate the displaced person for increased interest costs, including points, which he is required to pay for financing the purchase of a comparable replacement dwelling. This amount shall be paid only if the acquired dwelling was encumbered by a bona fide mortgage. A bona fide mortgage is one which was a valid lien on the acquired dwelling for not less than 180 days prior to initiation of negotiations.

(c) Reasonable expenses incurred by the displaced person for evidence of title, recording fees, and other closing costs incident to the purchase of the replacement dwelling, but not including prepaid expenses.

§ 114–50.802 Computation of replacement housing payment.

Bureaus and Offices shall determine the amounts necessary to compensate a displaced person for the replacement housing differential payment, increased interest costs, and incidental expenses in accordance with the following subparagraphs.

§ 114–50.802–1 Differential payment for replacement housing.

The replacement housing differential payment may be determined by either establishing a schedule or by using a comparative method.

(a) *Schedule method.* A schedule may be established reflecting reasonable acquisition costs for comparable replacement dwellings of the various types of dwellings to be acquired and available on the private market.

(1) The schedule shall be based on a current analysis of the market to determine an amount for each type of dwelling required.

(2) When more than one Bureau or Office of the Department of the Interior is causing displacement in a community or an area, they shall coordinate the establishment of a single schedule for replacement housing payments. Similarly, Bureaus and Offices shall cooperate with other Federal agencies causing displacement in the community or area, if any, in the development of such a schedule.

(b) *Comparative method.* The price of a comparable replacement dwelling may be determined by selecting one or more dwellings most representative of the dwelling unit acquired which are available to the displaced person on the private market and which meet the definition of comparable replacement dwelling. A single dwelling shall only be used when additional comparable dwellings are unavailable.

(c) *Alternate method.* In the event that neither the schedule or comparative methods is feasible, the displacing agency should develop criteria for computing replacement housing payments.

(d) *Limitations.* The amount established as the differential payment for the replacement housing, plus the costs referred to in §§ 114–50.801(b) and 114–50.801(c), sets the upper limit of this payment.

(1) If the displaced person voluntarily purchases and occupies a decent, safe, and sanitary dwelling at a price less than the amount established for comparable replacement housing, the differential payment will be reduced to that amount required to pay the difference between the acquisition price of the acquired dwelling and the actual purchase price of the replacement dwelling.

(2) If the displaced person voluntarily purchases and occupies a decent, safe, and sanitary dwelling at a price less than the acquisition price of the acquired dwelling, no differential payment shall be made.

§ 114–50.802–2 Interest payment.

The payment for any increased interest costs including points, incurred by the displaced person, shall be determined in consideration of the following:

(a) The payment shall be equal to the excess in the aggregate interest and other debt service costs of that amount of the principal of the mortgage on the replacement dwelling which is equal to the unpaid balance of the bona fide mortgage on the acquired dwelling, at the time of acquisition, over the remainder term of the mortgage on the acquired dwelling, reduced to discounted present value.

(b) The discount rate shall be the prevailing interest rate paid on savings deposits by commercial banks in the general area in which the replacement dwelling is located.

(c) The interest payment shall be based on the present value of the reasonable cost of the interest differential, including points paid by the purchaser, on the amount financed not to exceed the amount of the unpaid debt on the acquired dwelling for its remaining term.

§ 114–50.802–3 Incidental expenses.

(a) The payment for incidental expenses, i.e., the amount necessary to reimburse a displaced person for actual costs incurred by him incident to purchase of a replacement dwelling, shall be determined in consideration of such costs as:

(1) Legal, closing, and related costs including title search, preparing conveyance instruments, notary fees, surveys, preparing plats, and charges incident to recordation.

(2) Lenders, Federal Housing Administration, or Veterans' Administration appraisal fees.

(3) Federal Housing Administration application fee.

(4) Certification of structural soundness when required by lender, Federal Housing Administration, or Veterans' Administration.

(5) Credit report.

(6) Title policies or abstracts of title.

(7) Escrow agent's fee.

(8) State revenue stamps, or sale or transfer taxes.

(b) No fee, cost, charge, or expense is reimbursable which is determined to be a part of the finance charge under the Truth in Lending Act, title I, Public Law 90–321, and Regulation "Z" (12 CFR Part 226) issued pursuant thereto by the Board of Governors of the Federal Reserve System.

§ 114–50.803 Statement of eligibility pending purchase of replacement dwelling.

Upon request of a displaced owner-occupant who has not yet purchased and occupied a replacement dwelling, but who is otherwise eligible for a replacement housing payment under this subpart, Bureaus and Offices shall furnish a written statement to any interested person, financial institution, or lending agency as to the displaced person's eligibility for a payment and the requirements which must be satisfied before such payment can be made.

§ 114–50.804 Advance payment in condemnation cases.

An advance replacement housing payment may be made to a displaced person if determination of the acquisition price of the acquired dwelling will be delayed pending the outcome of condemnation proceedings. Inasmuch as the exact amount of the replacement housing payment cannot be ascertained until final adjudication of the condemnation suit, a provisional replacement housing payment may be determined based on the displacing agency's maximum offer for the property acquired. No such payment may be made, however, unless the homeowner agrees, in writing, that:

(a) Upon final determination of the condemnation proceeding, the replacement housing payment will be recomputed on the basis of the acquisition price determined by the court;

(b) If the acquisition price as determined by the court is greater than the displacing agency's maximum offer upon which the provisional replacement housing payment was based, the difference shall be refunded to the displacing agency; and

(c) If the acquisition price as determined by the court is less than the displacing agency's maximum offer upon which the provisional replacement housing payment was based, the difference shall be paid to the homeowner.

Subpart 114–50.9—Replacement Housing Payment for Tenants and Certain Others

§ 114–50.900 Eligibility requirements.

(a) *Displaced tenant or owner-occupant of less than 180 days.* A displaced tenant, or owner-occupant of a dwelling for less than 180 days, is eligible for a replacement housing payment if he

meets both of the following requirements:

(1) Actually occupied the dwelling for not less than 90 days immediately prior to the initiation of negotiations (see § 114–50.201(p)) for acquisition of the property, and

(2) Is not eligible to receive a payment under Subpart 114–50.8.

(b) *Owner-occupant of 180 days or more who rents instead of purchases.* A displaced owner-occupant of a dwelling for not less than 180 days immediately prior to initiation of negotiations is eligible for a replacement housing payment as a tenant, as authorized by section 204 of the Act: *Provided*, That, instead of purchasing and occupying a replacement dwelling in accordance with § 114–50.800(b), he rents a replacement dwelling which is decent, safe, and sanitary.

§ 114–50.901 Notification to tenants.

Bureaus and Offices shall notify the tenant or other occcupant, in writing, of the date of initiation of negotiations.

§ 114–50.902 Replacement housing payment.

(a) A displaced tenant or owner-occupant of less than 180 days who meets the eligibility requirements of § 114–50.900(a) is eligible for either:

(1) The differential payment necessary to enable him to lease or rent, for a period not to exceed 4 years, a decent, safe, and sanitary dwelling of standards adequate to accommodate such person in areas not generally less desirable in regard to public utilities and public and commercial facilities, and reasonably accessible to his place of employment, but not to exceed $4,000, or

(2) If he purchases replacement housing within 1 year from displacement, the amount necessary to enable him to make a downpayment, including incidental expenses, on the purchase of a decent, safe, and sanitary dwelling of standards adequate to accommodate such person in areas not generally less desirable in regard to public utilities and commercial and public facilities, but not to exceed $4,000, except that if such amount exceeds $2,000, such person must equally match any such amount in excess of $2,000, in making the downpayment.

(b) A displaced owner-occupant of 180 days or more who rents instead of purchases replacement housing is eligible for the rental differential payment prescribed in paragraph (a)(1) of this section. In no event, however, will the replacement rental payment exceed the amount he would have been entitled to receive under Subpart 114–50.8 of this part or $4,000, whichever is less.

§ 114–50.903 Computation of replacement housing rental differential payment for tenants.

Bureaus and Offices shall establish the amount necessary to rent a comparable replacement dwelling. The amount may be determined either by establishing a schedule or by a comparative method.

(a) *Schedule method.* A rental schedule may be established for renting comparable replacement dwellings of the various types required and which are available in the private market. The payment shall be computed by determining the amount necessary to rent a comparable replacement dwelling for 4 years (the average monthly cost from the schedule) and subtracting from such amount 48 times the average month's rent paid by the displaced person in the past 3 months prior to initiation of negotiations, if such rent was reasonable, or 48 times the monthly economic rent for the dwelling unit, as established by the Bureau or Office, if the actual rent paid was unreasonable.

(1) The schedule should be based on a current analysis of the market to determine an amount for each type of dwelling required.

(2) When more than one Bureau or Office of the Department of the Interior is causing displacement in the same community or area, they shall coordinate with each other in choosing the method for computing the replacement housing payment and shall use uniform schedules of average rental housing in the community or area. Similarly, Bureaus and Offices shall cooperate with other Federal agencies causing displacement in the community or areas, if any, in the establishment of the schedule.

(b) *Comparative method.* The average month's rent may be determined by selecting one or more dwellings most representative of the dwelling unit acquired, which is available to the displaced person and meets the definition of comparable replacement dwelling. The payment should be computed by determining the amount necessary to rent a comparable replacement dwelling for 4 years and subtracting from such amount 48 times the average month's rent paid by the displaced person in the last 3 months prior to initiation of negotiations, if such rent was reasonable, or 48 times the monthly economic rent for the dwelling unit, as established by the Bureau or Office, if the actual rent paid was unreasonable.

(c) *Exceptions.* The average month's rent paid by the displaced person may be established by using more than 3 months when deemed advisable. If rent is being paid to the displacing agency, economic rent shall be used in determining the amount of the payment to which the displaced person is entitled.

(d) *Alternate method of computing replacement housing rental differential payment.* When neither the schedule or the comparative method of computing the rental differential payment is feasible, the Bureau or Office shall develop criteria for computing the payment.

§ 114–50.904 Computation of replacement housing rental differential payment for displaced owner-occupant of 90 days or more.

The replacement housing rental differential payment for an owner-occupant of 90 days or more who rents instead of purchases shall be computed as prescribed in § 114–50.903, except that economic rent shall be regarded as the rental value of the dwelling acquired.

§ 114–50.905 Computation of replacement housing payment—purchases.

When a displaced tenant or owner-occupant of less than 180 days elects to purchase, rather than rent replacement housing, the payment shall be computed by determining the amount necessary to enable him to make a downpayment and to cover incidental expenses on the purchase of replacement housing, as follows:

(a) The downpayment shall be the amount necessary to make a downpayment on a comparable replacement dwelling. Determination of the amount necessary for such downpayment shall be based on the amount of downpayment that would be required for purchase of the dwelling using a conventional loan.

(b) Incidental expenses of closing the transaction are those as described in § 114–50.802–3.

(c) The maximum payment may not exceed $4,000, except that if more than $2,000 is required, the displaced person must match any amount in excess of $2,000 by an equal amount in making the downpayment.

(d) The full amount of the replacement housing payment must be applied to the purchase price and incidental costs shown on the closing statement.

§ 114–50.906 Disbursement of rental replacement housing differential payment.

(a) All rental replacement housing payments in excess of $500 will be made in four equal annual installments. Before making each annual installment payment, the displacing Bureau or Office must determine that the tenant is continuing to occupy decent, safe, and sanitary housing.

(b) Rental replacement housing payments of $500 or less shall be made in one lump sum at the beginning of occupancy of the replacement dwelling. Bureaus and Offices need not thereafter determine whether the displace continues to occupy decent, safe, and sanitary housing.

Subpart 114–50.10—Federally Assisted Programs

§ 114–50.1000 Acceptance of real property furnished by a State incident to Federal program.

Whenever real property is acquired by a State agency and furnished as a required contribution incident to a Federal program or project, the Bureau or Office administering the program or project may not accept such property unless the State agency has made all payments and provided all assistance and assurances as are required of a State agency by sections 210 and 305 of the Act. The State agency shall pay the cost of such requirements in the same manner and to the same extent as the real property acquired for such project, except that in the case of any real property acquisition or displacement occurring prior to July 1, 1972, the Bureau or Office shall pay the first $25,000 of the cost of pro-

viding the required payments and assistance.

§ 114–50.1001 Assurances—section 210.

Bureaus and Offices shall not approve any grant to, contract, or agreement with, a State agency, under which Federal financial assistance will be available to pay all or part of the cost of any program or project which will result in the displacement of any person on or after the effective date of the Act, unless satisfactory assurances are received from the State agency that:

(a) Fair and reasonable relocation payments and assistance shall be provided to or for displaced persons, as are required to be provided by Bureaus and Offices under this Part 114–50.

(b) Relocation assistance programs offering the services described in Subpart 114–50.4 of this part shall be provided to the displaced persons;

(c) A survey and analysis of the available replacement housing has been made in accordance with § 114–50.500 and that within a reasonable period of time prior to displacement, decent, safe, and sanitary replacement dwellings will be available to displaced persons in accordance with Subpart 114–50.5 of this part, and

(d) The affected persons will be adequately informed of the benefits available under title II of the Act, and the policies and procedures relating to the payment of such benefits.

§ 114–50.1002 Assurances—section 305.

Bureaus and Offices shall not approve any program or project or any grant to contract, or agreement with a State agency under which Federal financial assistance will be available to pay all or part of the cost of any program or project which will result in the acquisition of real property on or after the effective date of the Act, unless satisfactory assurances are received from the State agency that:

(a) In acquiring real property, the State agency will be guided, to the greatest extent practicable under State law, by the land acquisition policies set forth in Subpart 114–50.3 of this part.

(b) Property owners will be paid or reimbursed for necessary expenses as specified in sections 303 and 304 of the Act, and

(c) The affected persons will be adequately informed of the benefits available under title III of the Act and the policies and procedures relating to the payment of such benefits.

§ 114–50.1003 Compliance with sections 301 and 302.

A State agency's assurances shall be accompanied by a statement indicating the extent to which it can comply with the provisions of sections 301 and 302. In the event a State agency maintains that it is unable to comply fully with any of the prescribed policies, its statement shall be supported by an opinion of the chief legal officer of the State agency. State agencies shall comply with sections 301 and 302 if compliance is legally possible under State law.

§ 114–50.1004 Inability to provide assurances prior to July 1, 1972.

Bureaus and Offices shall not approve or authorize any action by a State agency which will result in the displacement of any person or the acquisition of any real property, except in accordance with the following requirements:

(a) The State agency has provided satisfactory assurances as required by sections 210 and 305 of the Act, or

(b) The State agency's assurances are accompanied by a statement in which it identifies any of the assurances required by sections 210 and 305 which it is unable to provide in whole or in part, under its laws. If a State agency maintains that it is legally unable to provide all or any part of the required assurances, its statement shall be supported by an opinion of the chief legal officer of the State agency.

§ 114–50.1005 Inability to provide assurances for programs or projects causing displacement on or after July 1, 1972.

(a) On and after July 1, 1972, Bureaus and Offices shall not approve any grant to, contract, or agreement with any State agency under which Federal financial assistance will be available to pay all or part of the cost of a program or project if:

(1) The State agency is unable to provide the assurances required by sections 210 and 305 of the Act and the regulations in this Part 114–50, and

(2) The program or project will result in the acquisition of any real property and/or the displacement of any person.

(b) Once the assurances applicable to all persons to be displaced and owners of real property to be acquired are provided by the State agency, such grants, contracts, or agreements may be executed in the usual manner.

(c) If the federally assisted program or project will not result in either the acquisition of real property or the displacement of persons, a grant, contract, or agreement may be executed with the State agency on or after July 1, 1972, without regard to such State agencies' ability or inability to provide the assurances required by sections 210 and 305.

§ 114–50.1006 Monitoring assurances.

Bureaus and Offices shall monitor the assurances provided by State agencies on a continuing basis to insure that federally assisted programs and projects are carried out in conformance with such assurances.

§ 114–50.1007 Grants, contracts, or agreements executed prior to July 1, 1972.

(a) *Amendment.* Each grant to, or contract or agreement with a State agency executed before July 1, 1972, under which Federal financial assistance is available to pay all or part of the costs of any program or project which will result in the displacement of any person or the acquisition of any real property on or after July 1, 1972, shall be amended to include the cost of providing payments and services under sections 210 and 305 of the Act.

(b) *Approval.* The head of a Bureau or Office shall not approve any grant to, contract, or agreement with, a State agency if such action will prevent any person displaced, or any owner of real property acquired, after July 1, 1972, from receiving the benefits for which they would otherwise be eligible.

§ 114–50.1008 Federal share of costs.

The cost to a State agency of providing the payments and assistance required by the regulations in this Part 114–50 shall be included as part of the cost of a program or project for which Federal financial assistance is available to the State agency.

(a) The State agency shall be eligible for Federal financial assistance with respect to such payments and assistance in the same manner and to the same extent as other project or program costs, except that, notwithstanding any other law, where the Federal financial assistance is by grant or contribution, the administering Bureau or Office shall pay the first $25,000 of the cost to the State agency of providing the payments and assistance required by the regulations in this Part 114–50 on account of any acquisition or displacement occurring prior to July 1, 1972.

(b) In any case where the Federal financial assistance is by loan, the Bureau or Office shall loan the State agency the full amount of the first $25,000 of such cost.

(c) No payment or assistance under section 210 or 305 shall be required or included as a program or project cost under this § 114–50.1008 if the displaced person receives a payment required by State law of eminent domain which is determined by the Bureau or Office to have substantially the same purpose and effect as would a payment under this paragraph, and to be part of the cost of the program or project for which Federal financial assistance is available.

(d) Bureaus and Offices may advance to a State agency the Federal share of the cost of any payments or assistance by the State agency pursuant to sections 206, 210, 215, and 305 of the Act, when they determine that such action is necessary for the expeditious completion of a program or project.

§ 114–50.1009 Relocation assistance programs.

State agencies receiving Federal financial assistance on a project which will result in the displacement of persons, shall provide relocation assistance advisory services to the displaced persons in accordance with the provisions of Subpart 114–50.4 of this part.

§ 114–50.1010 Effective date.

Except as provided in paragraphs (a) and (b) of this section, the Act and the amendments made by the Act are effective January 2, 1971, the date of enactment.

(a) Until July 1, 1972, sections 210 and 305 of the Act shall be applicable to a State only to the extent that such State is able under its laws to comply

with such sections. After July 1, 1972, such sections shall be completely applicable to all States.

(b) The repeals made by paragraphs (4), (5), (6), (8), (9), (10), (11), and (12) of sections 220(a) and 306 of the Act shall not apply to any State so long as sections 210 and 305 of the Act are not applicable in such State.

§ 114–50.1011 Appeal procedure.

Prior to approving any federally assisted project, heads of Bureaus and Offices administering federally assisted programs or projects which will result in the displacement of persons shall require the State agency to furnish a description of the appeal procedures that are available to such displaced persons, to assure that any person aggrieved by a determination as to eligibility for a payment authorized by the act or the amount of a payment, may have his application reviewed by the head of the State agency.

Subpart 114–50.11—Administrative Review and Appeals

§ 114–50.1100 Compliance reviews.

The head of each Bureau or Office engaged in Federal or federally assisted programs which involve the acquisition of real property and/or the displacement of persons shall provide for such periodic review of the operations at regional and other field office levels as he deems necessary to insure proper implementation of, and full compliance with, the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, and the regulations in this Part 114–50.

§ 114–50.1101 Appeals.

All eligible relocatees shall be furnished a written notice of their right to appeal. Such notification may be provided by brochure if the right to appeal is adequately described therein.

§ 114–50.1101–1 Appeal procedure.

In Federal acquisition programs any dispute concerning a question arising under the act which is not disposed of by agreement shall be decided by the head of the Bureau or Office who shall reduce his decision to writing and mail a copy thereof to the displaced person. This decision shall be final and conclusive unless, within 30 days from date of mailing of such copy, the displaced person mails a written appeal addressed to the Director, Office of Hearings and Appeals, Department of the Interior, Washington, D.C., in accordance with the regulations in 43 CFR Part 4, Subpart G. The decision of the Office of Hearings and Appeals, shall be final and conclusive. In connection with any appeal to the Office of Hearings and Appeals, the displaced person may be afforded an opportunity to be heard and to offer evidence in support of his appeal, as provided for in 43 CFR Part 4, Subpart G.

Subpart 114–50.12—Annual Report

§ 114–50.1200 General.

Each Bureau and Office having responsibilities for Federal or federally assisted programs that come within the purview of Public Law 91–646 shall prepare and submit an annual report to the Assistant Secretary-Management and Budget on its activities related to programs and policies established or authorized by the Act. This report, which is required by section 214 of the Act, shall consist of both a narrative and statistical report.

§ 114–50.1200–1 Narrative report.

The narrative portion of the report should be consolidated for the Bureau and submitted, in duplicate, in the form of an attachment to a transmittal memorandum. It shall respond to each of the items set out in the following subparagraphs as the item pertains to your Bureau. Narrative comments should be furnished for all items. If an item is not applicable to your Bureau, or if a negative response pertains to a particular item, your report should so indicate.

(a) *Assurance of required replacement housing.* (1) Each Bureau or Office should comment on the effectiveness of the provisions of the Act relating to assurances of the availability of comparable decent, safe, and sanitary replacement housing for displaced homeowners and tenants.

(2) Describe the actions taken by the Bureau or Office to assure compliance with the requirements of sections 205(c)(3), 206(b), and 210(3).

(3) Provide information on all court decisions affecting the Bureau or Office which concern the adequacy of replacement housing.

(b) *Bureau or Office actions to achieve objectives of the Act.* (1) Describe the actions taken by the Bureau or Office to achieve the objectives of the policies of the Congress to provide uniform and equal treatment, to the greatest extent practicable, for all persons displaced by or having real property taken for Federal or federally assisted programs.

(2) Describe the positive action plans undertaken by the Bureau or Office to achieve the objectives of the Act, such as the preparation and promulgation of implementing regulations, and the review of other agency regulations.

(3) Describe the staffing and training performed and projections of staffing requirements and training programs required for the continuous administration of required services under the Act at the Federal, State, city, and county levels, as appropriate.

(4) Describe the provisions adopted by the Bureau or Office for coordination with other Federal, State and local displacing agencies.

(c) *Progress in achieving objectives of the Act.* Report the progress of the Bureau or Office in the various programs conducted or administered, indicating:

(1) The success in coordinating Bureau or Office relocation activities with other Federal, State, and local agencies.

(2) Bureau or Office experience and the cost of utilization of section 206(a) authority to provide replacement housing, citing difficulties, if any, in obtaining funds for this purpose and the impact on specific projects.

(3) Bureau or Office experience and cost of implementing section 215, concerning loans for planning and obtaining federally insured mortgage financing for replacement housing.

(4) For federally assisted programs administered by your Bureau or Office, enumerate the States in compliance with the Act on the reporting date. If compliance by any State does not extend to any or all federally assisted programs conducted or administered by the Bureau or Office, the programs excepted should be indicated and an explanation furnished for the basis of the State's inability to comply. In all such instances, indicate the expected date for full compliance by the State.

(5) Describe adverse effects of the Act, if any, on programs conducted by the Bureau or Office.

(d) *Effect of Act on the public.* (1) Describe any indicated effects of the relocation program and policies on the public, reporting conclusions obtained from surveys, special studies, and other sources relating to the effects of implementation of the Act on a neighborhood or community.

(2) Include newspaper or other published articles dealing with the activities of your Bureau or Office in relocation programs and written and oral comments to the Bureau or Office by elected officials and public interest groups, which in the judgment of the Bureau or Office describe effects of the Act on the public.

(e) *Recommendations.* Furnish your recommendations for further improvement in relocation assistance and land acquisition programs, policies, and implementing laws and regulations. Include any proposals for amendments or revisions to:

(1) Office of Management and Budget Circular No. A–103.

(2) Regulations of agencies outside the Department of the Interior.

(3) Federal legislation.

(4) State legislation.

(f) *Bureau or Office regulations.* Report the date regulations were published in the FEDERAL REGISTER by the Bureau or Office.

(g) *Waiver of assurances of replacement housing.* Describe any situations or circumstances which required a waiver of assurance of replacement housing pursuant to subsection 205(c)(3). For any waivers reported, submit the Bureau or Office findings and the determination supporting waiver of the requirements of the subsection.

§ 114–50.1200–2 Statistical report.

The statistical portion of the report shall be submitted in the format of Exhibits 1 and 2 of this subpart. The exhibits should be consolidated for the Bureau and submitted in duplicate. Those Bureaus administering both Federal and federally assisted programs shall submit separate consolidated exhibits for such programs.

§ 114–50.1200–3 Submission.

The annual report shall be prepared on a fiscal year basis and submitted, in duplicate to reach the Assistant Secretary-Management and Budget by not later than September 1 of each year.

Title 45—Public Welfare

CHAPTER XI—NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

PART 1100—STATEMENT FOR THE GUIDANCE OF THE PUBLIC—ORGANIZATION, PROCEDURE AND AVAILABILITY OF INFORMATION

Procedure and Appeals

The National Foundation on the Arts and the Humanities announces the following amendments to Chapter XI of Title 45 of the Code of Federal Regulations. These amendments are effective on February 15, 1973, and will govern all requests for information received on or after the aforementioned effective date.

Section 1100.3 is amended as follows:

At the end of paragraph (d)(1) add: ", citing the specific subsection or subsections of the Freedom of Information Act, which are the basis for the denial, and informed of his rights of appeal as hereinafter described. Before making a determination to withhold any requested record, the Deputy Chairman shall consult with the Office of General Counsel and with the office in his Endowment in charge of Public Information."

In paragraph (d)(2) delete the second and third sentences and substitute therefor: "In the latter case, a charge of 5 cents per page may be made, but this charge will be deemed waived unless the requestor is notified of its imposition before the copies are furnished. If a charge is made, it is payable in advance of fulfilling the request."

At the end of paragraph (e) add: "If the Chairman has not ruled upon an appeal within 45 days of receipt of the appeal, the records requested in the appeal will be furnished upon payment of copying fees. If an appellant delays unreasonably in furnishing additional information requested by the Chairman, such delay will in itself constitute sufficient cause for the Chairman to deny the appeal."

Dated: February 2, 1973.

MICHAEL STRAIGHT,
Acting Chairman,
National Endowment for the Arts.

RONALD S. BERMAN,

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 72-171A]

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

Phosphorus Pentasulfide

This amendment regulates phosphorus pentasulfide as a flammable solid and prescribes packaging for this commodity.

In the September 6, 1972 issue of the FEDERAL REGISTER the Coast Guard published a notice of proposed rule making on this subject. A hearing was held on October 24, 1972.

One written comment was received and the Hazardous Materials Regulations Board deals with it in their document published at page 1507 of the January 15, 1973 issue of the FEDERAL REGISTER.

The notice proposed Metal Portable Tanks (DOT 53 and 56) as packaging for phosphorus pentasulfide. The Coast Guard is studying the use of these tanks for flammable liquids and solids and until a determination on this point is made they will be deleted from this amendment. We are extending the comment period for the purpose of receiving written data, views, or agreements on these tanks as authorized packaging. All comments received before March 8, 1973, will be evaluated prior to reaching a final decision. Comments are to be submitted to the U.S. Coast Guard (GCMC), 400 Seventh Street SW., Washington, DC 20590.

The Hazardous Materials Regulations Board also determined that the packaging permitted should be water tight. The Coast Guard is adopting this requirement.

In consideration of the foregoing the amendment as proposed is hereby adopted subject to the following changes:

1. Delete in § 146.22-100 in all four columns the words "Metal portable tank: (DOT 53, 56)".

2. Add in § 146.22-100 in column 2 the following: "Authorized Container must be so designed as to not permit water to come in contact with the lading."

Effective date. This amendment is effective May 11, 1973.

Dated: February 1, 1973.

C. R. BENDER,
Admiral,
U.S. Coast Guard Commandant.

CHAPTER IV—FEDERAL MARITIME COMMISSION

SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

[General Order 28; Amdt. 3]

PART 548—REGULATIONS TO IMPLEMENT THE ECONOMIC STABILIZATION ACT, 1970, AS AMENDED

Suspension of Requirements

On August 15, 1971, Executive Order 11615 established a freeze on prices, rents, wages, and salaries for a period of 90 days from the date of that order and established the Cost of Living Council as the agency with the primary responsibility for administration of the economic stabilization program.

Subsequently, Executive Order 11627 established a Pay Board and Price Commission to promulgate standards and carry out the goals of the Economic Stabilization Act.

On January 11, 1973, Executive Order 11695 abolished the Price Commission and Pay Board while continuing the Cost of Living Council.

The regulations issued by the Cost of Living Council in response to Executive Order 11695 have established a voluntary compliance program with existing Phase II requirements.

Accordingly, as Part 548 of 46 CFR (General Order 28) was issued pursuant to the pertinent executive orders to implement the Economic Stabilization Act and Phase II Price Commission directives, such part is hereby amended to comply with the most recent Cost of Living Council regulations by adding a new section reading as follows:

§ 548.8 Suspension of requirements.

The requirements of the rules of this part are hereby suspended in regard to any rate increases to be placed into effect after January 10, 1973. However, any such rate increases by a common carrier by water in the domestic offshore commerce of the United States or by a non-vessel operating common carrier operating in those trades should be consistent with the following criteria:

(a) The increase is cost justified and dose not reflect future inflationary expectations;

(b) The increase is the minimum required to assure continued adequate and safe service or to provide for necessary expansion to meet future requirements;

(c) The increase will achieve the minimum rate of return needed to attract capital at reasonable costs and will not impair the credit of the carrier; and

(d) The increase takes into account expected and obtainable productivity gains.

By the Commission.

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19494; FCC 73-114]

PART 1—PRACTICE AND PROCEDURE

Safety and Special Radio Services

Memorandum opinion and order. In the matter of amendment of Parts 0, 1, 81, 87, 89, 91, and 93 of the Commission's rules relating to the time in which applications, and amendments thereto, or petitions to deny applications, may be filed in the Safety and Special Radio Services, docket No. 19484.

1. We have under consideration a timely filed Petition for Reconsideration by Aeronautical Radio, Inc. (ARINC) of our Report and Order in this Docket released July 11, 1972. ARINC asserts that our processing and public notice procedures for Aviation Service applications requiring public notice pursuant to section 309(b) of the Communications Act do not meet those statutory requirements.

2. Specifically, ARINC's petition is directed to applications that are returned to an applicant for minor amendment and are then resubmitted. Under current rules, no further public notice would be required. It asserts that this procedure may in some instances, deprive a person of a reasonable opportunity to file a petition to deny an application. ARINC's position is that when an application is returned to an applicant, it is not "on file" during the period the application is not physically in the Commission's files and cannot be examined by a member of the public for purposes of determining whether to file a petition to deny. ARINC further argues that if the application is then resubmitted to the Commission shortly before the expiration of the 30 days public notice period, an interested party would not ordinarily know that it has been resubmitted and even if the resubmission is known, insufficient time may remain in the 30-day public notice period for the party to examine the application and file a timely petition to deny within 30 days after public notice specified in the new § 1.962(g) of the rules. ARINC asserts that the Common Carrier and Broadcast Bureaus place on public notice all applications that have been returned to an applicant, and also all applications resubmitted to the Commission regardless of the degree to which the applications have been modified; i.e., substantial or minor modification. ARINC's position is that the Safety and Special Radio Services Bureau could follow this procedure without any unreasonable administrative burden, and that the Bureau should do so.

3. We agree in substance with ARINC and we will grant it the requested relief by amending § 1.962(e) of the rules to provide that all applications subject to that section, that have been returned to an applicant and resubmitted to the Commission will be placed on public notice when returned to an applicant and on a new public notice upon being resubmitted to the Commission.

4. Accordingly, the Petition for Reconsideration of ARINC filed August 10, 1972, is granted to the extent indicated herein.

5. *It is ordered,* That pursuant to the authority contained in section 4(i), 303(r), and 309(d)(1) of the Communications Act of 1934, as amended, Part 1 of the Commission's rules is amended, effective March 16, 1973, as set forth below.

6. *It is further ordered,* That the proceeding in Docket 19484 is terminated.

(Secs. 4, 303, 309, 48 Stat., as amended, 1066, 1082, 1084; 47 U.S.C. 154, 303, 309)

Adopted: January 31, 1973.

Released: February 5, 1973.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE, *Secretary.*

Section 1.962(e) of the rules is amended as follows:

§ 1.962 **Public Notice of acceptance for filing; petitions to deny applications of specified categories.**

* * * * *

(e) The Commission will issue at regular intervals a "Public Notice" listing all applications subject to this section which have been accepted for filing, or have been returned to an applicant for correction, within the 30-day public notice period. Such "Public Notice" will relist any application which has been amended substantially since its previous listing, or which has been resubmitted to the Commission, after public notice of the return of the application to an applicant, pursuant to § 1.959. For the purposes of this section, "accepted for filing" means that an application has been received at the Commission with the required filing fee, if any. Such acceptance for filing shall not preclude the subsequent dismissal of an application, pursuant to the provisions of this chapter, as being defective.

Remote Indicating Phase Monitors and Remotely Controlled Directional Stations; Correction

In the matter of amendment of Part 73 of the Commission's rules and regulations with respect to the use of remote indicating phase monitors and the inspection requirements for remotely controlled directional stations, docket No. 18455.

The appendix to the report and order in the above-entitled matter (FCC 73-45), adopted January 10, 1973 (38 FR 2430), is corrected in the following respects:

The instruction for the amendment of § 73.114, Item 3 of the appendix, is changed to read as follows:

Section 73.114 is amended by adding new sub-subparagraphs (a)(1)(v)-(vi), (a)(2)(vii), deleting the present text of subparagraphs (6) and (7) and substituting new text, and adding new subparagraphs (8) and (9).

The reference in the new text of subparagraph (6) is amended from § 73.93(e)(5) to § 73.93(e)(4).

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Certain Cities in Georgia, Tennessee, and Illinois

Report and order. In the matter of amendment of § 73.202(b), *Table of assignments*, FM Broadcast Stations. (Chatsworth, Ga.; Union City, Tenn.; Camden, Tenn.; Eldorado, Ill.), Docket No. 19613, RM-1954, RM-2028, RM-2035, RM-2039.

1. The Commission has before it its notice of proposed rule making adopted October 12, 1972 (37 FR 22631), inviting comments on a number of changes in the FM Table of assignments (§ 73.202(b) of the rules). The communities, channel assignments proposed, and petitioning parties are as follows:

RM-1954 Assign Channel 257A to Chatsworth, Ga. (Earl L. Bradsher).
RM-2028 Assign Channel 285A to Union City, Tenn. (Ed Perkins).
RM-2035 Assign Channel 252A to Camden, Tenn. (Ray Smith).
RM-2039 Assign Channel 272A to Eldorado, Ill. (Elliott O. Partridge, M.D.).

2. In each of the above cases, the petitioning party seeks the assignment of a first channel without requiring any other changes in the FM Table of Assignments. With the exception of the Chatsworth proposal, each assignment can be made in conformance with the Commission's minimum mileage separation rule. For Chatsworth, the transmitter site would have to be located immediately southeast of the city in order to meet spacing requirements.

3. The petitioning party for each of the proposed assignments filed supporting statements or comments and reiterated his intent to apply for the channel, if assigned, and to build a station, if authorized. The statements or comments of the Chatsworth, Union City, and Camden petitioners incorporated by reference material in their petitions for rule making. No other parties filed comments. All proposals were unopposed except for that concerning Eldorado, which was opposed by Lawrence Elliott in reply comments. Dr. Partridge, the Eldorado petitioner, filed a "Motion to Strike" the Elliott reply comments.

4. In arriving at our decision herein, we have given consideration to all of the comments, supporting statements, and other pleadings. In the notice of proposed rule making, we set out economic and other information pertaining to the need for a first FM assignment in each of the communities. That information is accepted as being substantially correct and will not be repeated here, except to say that the communities range in size from 2,706 for Chatsworth to 11,925 for Union City (1970 census), that a daytime only AM station operates at Camden, a Class IV AM station operates at Union City, and that there are no local broadcast facilities at Chatsworth or Eldorado.

5. As stated above, Lawrence Elliott, in reply comments, filed an opposition to the Eldorado proposal. Mr. Elliott states that he and several other residents of the city of Nashville, Ill., have for some time been planning the preparation and filing of a petition for rule making to assign Channel 272A to Nashville, Ill. He further states that the proposed assignment of Channel 272A to Eldorado, Ill., would, by virtue of a 15-mile short spacing, prohibit the assignment of Channel 272A to Nashville. In our notice of proposed rule making we stated that counterproposals advanced in the proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. Since Mr. Elliott made his counterproposal in reply comments, we shall not give consideration to his proposal. Moreover, since he has failed to submit any technical supporting data that his proposal would be short spaced to the Eldorado proposal, we have no basis for giving consideration to his allegation.

6. Authority for the adoption of the amendment contained herein appears in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

7. In view of the foregoing: *It is ordered*, That effective March 16, 1973, § 73.202(b) of the Commission's rules, the FM Table of Assignments, is amended to read as follows:

City	*Channel No.*
Georgia:	
Chatsworth	[1] 257A
Illinois:	
Eldorado	272A
Tennessee:	
Camden	252A
Union City	285A

[1] A site located immediately southeast of Chatsworth would be required in order to meet the minimum spacing requirements of the rules for Channel 257A.

8. *It is further ordered*, That the "Motion to Strike," filed by Elliott O. Partridge, M.D., is granted.

9. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: January 31, 1973.

PART 73—RADIO BROADCAST SERVICES

TV Broadcast Stations in Houston, Miss.

Report and order. In the matter of amendment of § 73.606(b), *Television table of assignments*, TV Broadcast Stations. (Houston, Miss.), Docket No. 19638, RM-1986.

1. On November 15, 1972, the Commission adopted a notice of proposed rule making in the above-entitled matter, 37 FR 25177, pursuant to a petition filed by Dr. John D. Dyer who requested that Channel 45 be assigned to Houston, Miss. Interested parties were requested to file comments on or before December 28, 1972, and replies to comments on or before January 8, 1973.

2. No opposing comments were received. Petitioner filed a supporting comment stating his intention to rely on the facts and matters set forth in his petition for rule making in which he stated that he will apply for authority to

construct and operate a station on Channel 45, if assigned, with a view to providing a first local service to Houston and to a number of communities around it, to supply an additional local service to the northeastern section of Mississippi, and, if the station can become affiliated with the ABC Television Network, to provide this service to substantial areas and populations not now receiving this service.

3. Houston is located in an area where UHF channels available for assignment are considered ample to meet any foreseeable needs. Channel 45 can be assigned at the Houston reference point and used at the transmitter site contemplated by petitioner in compliance with the minimum mileage separation requirements of the Commission's Rules. No other changes in the Television Table of Assignments are necessary to accommodate the assignment of Channel 45 to Houston.

4. In these circumstances, we believe that the public interest would be served by assigning Channel 45 to Houston, Miss. Accordingly, pursuant to the authority contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended: *It is ordered*, That, effective March 16, 1973, the Table of Assignments in § 73.606(b) of the Commission's rules is amended insofar as the city listed below is concerned to read as follows:

City	*Channel No.*
Houston, Miss.	45

5. *It is further ordered*, That this proceeding is terminated.

SUBCHAPTER B—MOTOR CARRIER SAFETY REGULATIONS

[Docket No. MC-47; Notice 73-7]

PART 395—HOURS OF SERVICE OF DRIVERS

Experimental Use of 7-Day Driver's Log; Special Exemption

The Director of the Bureau of Motor Carrier Safety is issuing a special exemption from the rules in § 395.8 of the Motor Carrier Safety Regulations to permit certain motor carriers, and their drivers, to participate in an experimental program of using a new form of driver's daily log.

A description of that experiment is contained in a notice published this day (see page 4010 of this issue). In that notice, the Director sets forth the bases and purposes of the experimental program of permitting the use of a form of daily log, in which 7 days' activities are recorded on a single sheet of paper, as well as the terms, conditions, and limitations under which carriers and drivers will be allowed to use the 7-day log form.

The experimental program will be in effect for 1 year, beginning on April 1, 1973.

This document grants participants in the program a temporary, limited exemption from the provisions of § 395.8 of the Motor Carrier Safety Regulations, which requires motor carriers and drivers to make use of the current, 1-day form of daily log, so that they can lawfully use the 7-day form.

In consideration of the foregoing, § 395.8(t) of the Motor Carrier Safety Regulations (Subchapter B of Chapter III in Title 49, CFR) is amended by adding the following subparagraph at the end of that paragraph:

§ 395.8 Driver's daily log.

* * * * *

(t) *Exemptions.* * * *

(4) *7-day driver's log users.* On and after April 1, 1973 and before April 1, 1974, so much of this section as requires motor carriers and drivers to make, file, and retain daily logs on Form MCS-59 does not apply to a designated motor carrier or a driver for a designated motor carrier when that driver or carrier is participating in the experimental 7-day driver's log program pursuant to the notice issued by the Director of the Bureau of Motor Carrier Safety on January 31, 1973 (38 FR 4010) in accordance with the terms, conditions, and limitations set forth in that Notice.

This amendment is issued to permit participation in an experimental program by a limited number of persons and for a limited period of time. Furthermore, the suitability of the 7-day driver's log form cannot feasibly be evaluated unless the data resulted from use of that form on an experimental basis have been received, nor can useful comments on particular aspects of the form be made until the results of the experiment are known. For these reasons, the Director finds that notice and public procedure upon this amendment are impracticable and would be contrary to the public interest.

Effective date. This amendment is effective on April 1, 1973.

(Sec. 204, Interstate Commerce Act, as amended, 49 U.S.C. 304; sec. 6, Department of Transportation Act, 49 U.S.C. 1655; delegations of authority by the Secretary of Transportation and the Federal Highway Administrator, 49 CFR 1.48, 49 CFR 389.4, respectively)

Issued on January 31, 1973.

ROBERT A. KAYE,
Director, Bureau of Motor Carrier Safety.

[Docket No. AO 341-A3]

HANDLING OF CRANBERRIES GROWN IN CERTAIN STATES

Notice of Hearing Regarding Proposed Marketing Agreement and Order

This document gives notice of a public hearing to consider an amendment to the marketing order regulating the handling of cranberries. The hearing begins in Wareham, Mass., on February 14; is continued in Wisconsin Rapids, Wis., on February 22; and concluded in Long Beach, Wash., on February 27.

The amendment would change the beginning date for the 2-year term of office for members, and set forth a procedure for the industry to submit the names of nominees to the Secretary, provide for representation on the committee and participation in nomination meetings for growers in District 4 (Oregon and Washington) not affiliated with the large cooperative, clarify the withholding provisions, authorize the committee to levy a late payment charge and interest on handlers who do not pay the assessment within the prescribed time, liberalize the provisions dealing with interhandler transfer of cranberries, and eliminate the inspection requirement for withheld cranberries when such cranberries are to be released to the handler.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the town hall, Wareham, Mass., beginning at 9:30 a.m., local time, February 14, 1973; in the McMillan Memorial Library, Wisconsin Rapids, Wis., beginning at 9:30 a.m., local time, February 22, 1973; and in the Long Beach Grange Hall, Long Beach, Wash., beginning at 9:30 a.m., local time, February 27, 1973; with respect to proposed further amendment of the marketing agreement and Order No. 929 (7 CFR Part 929), regulating the handling of cranberries grown in the States of Massachusetts, Rhode Island, Connecticut, New Jersey, Wisconsin, Michigan, Minnesota, Oregon, Washington, and Long Island in the State of New York.

The proposed amendment has not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendment, hereinafter set forth, and to any appropriate modifications thereof.

The following amendment to the marketing agreement and order has been proposed by the Cranberry Marketing Committee, the administrative agency established pursuant to the order.

1. Amend § 929.21 to read as follows:

The term of office of each member and alternate member of the committee shall be for 2 years beginning August 1, and ending on the second succeeding July 31. Members and alternate members shall serve in such capacities for the portion of the term of office for which they are selected and have qualified and until their respective successors are selected and have qualified.

2. Amend subparagraphs (1) and (2) of paragraph (b) of § 929.22 Nominations to read as follows; and revise § 929.22 Nominations by adding a new subparagraph (5) reading as follows:

§ 929.22 Nominations.

* * * * *

(b) * * *

(1) Any cooperative marketing organization that handled more than two-thirds of the total volume of cranberries produced during the fiscal period during which nominations for membership on the committee are made, or the growers affiliated therewith, shall nominate four or more qualified persons for four members and four or more qualified persons for four alternate members of the committee. At least one such nominee for member and one such nominee for an alternate member shall represent growers in the State of Oregon and the State of Washington. The names and addresses of such nominees shall be submitted to the Secretary not later than July 1, of each even-numbered year.

(2) The committee shall hold or cause to be held, not later than July 1, of each even-numbered year, meetings of the growers in Districts 1, 2, and 3, other than those affiliated with the cooperative marketing organization designated in subparagraph (1) of this paragraph, to elect nominees for member and alternate member positions on the committee. The growers in each such district who are present at the meeting shall nominate one or more qualified persons for a member and one or more qualified persons for an alternate member of the committee. The names and addresses of such nominees shall be submitted to the Secretary not later than July 1, of each even-numbered year. The committee shall prescribe such procedure for the conduct of the nomination meetings as shall be fair to all persons concerned.

* * * * *

(5) Growers in District 4 who are not affiliated with the Cooperative Marketing Organization designated in paragraph (b)(1) of this section shall participate in the nomination for and be represented by the representative nominated pursuant to paragraph (b)(2) of this section and selected pursuant to § 929.23(b), from District 3.

Growers in District 4 who are not affiliated with the aforesaid cooperative shall be afforded an opportunity to attend and participate in the nomination meeting in District 3. If such growers do not attend such meetings, each such grower shall be afforded an opportunity to participate in the nomination of committee representation by mail. Each such grower shall be: (1) Provided with a ballot listing the name and address of each person nominated for each position from that District on the committee; (2) afforded an opportunity to nominate additional persons for each such position by listing the name and address of each nominee in the space provided on the ballot.

Each ballot should be accompanied by an addressed envelope and appropriate voting instructions, including any time limitation for voting and mailing the ballot.

3. Revise paragraph (b) of § 929.23 to read as follows:

§ 929.23 Selection.

* * * * *

(b) *Successor members.* From the nominations made pursuant to § 929.22 (b)(1), or from other qualified persons, the Secretary shall select four members of the committee and an alternate for each such member. From the nomination made pursuant to § 929.22(b)(2), or from other qualified persons, the Secretary shall select three members of the committee and an alternate for each such member.

4. Amend § 929.41 *Assessments* by adding thereto a new paragraph (c) reading as follows:

§ 929.41 Assessments.

* * * * *

(c) Any handler who does not pay his assessment within the period of time prescribed by the committee may be subject to a late payment charge and the unpaid assessment may be subject to an interest charge at a rate prescribed by the committee, with the approval of the Secretary.

5. Amend paragraph (b) of § 929.46 *Marketing policy* to read as follows:

§ 929.46 Marketing policy.

* * * * *

(b) As soon as practicable after August 1, of each crop year and prior to making any recommendations pursuant to paragraph (b) (7) and (8) of this section or § 929.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the crop year. Such marketing policy shall contain the basis therefor and information relating to:

(1) The estimated total production of cranberries;

(2) The expected general quality of such cranberry production;

(3) The estimated carryover, as of September 1, of frozen cranberries and other cranberry products;

(4) The expected demand conditions for cranberries in different market outlets;

(5) Supplies of competing commodities;

(6) Trend and level of consumer income;

(7) The recommended desirable total marketable quantity of cranberries including a recommended adequate carryover into the following crop year of frozen cranberries and other cranberry products;

(8) Regulation pursuant to § 929.52 expected to be recommended by the committee during the crop year together with its recommendation of the free and restricted percentages and beginning with 1974–75 crop year, the recommended allotment percentages, if any, for the crop year; and

(9) Other factors having a bearing on the marketing of cranberries.

6. Amend paragraph (a) of § 929.54 *Withholding* to read as follows:

§ 929.54 Withholding.

(a) Whenever the Secretary has fixed the free and restricted percentages for any fiscal period, as provided for in § 929.52(a), each handler shall withhold from handling a portion of the cranberries he acquires during such period: *Provided*, That such withholding requirement shall not apply to any lot of cranberries for which such withholding requirement previously has been met by another handler in accordance with § 929.55. The withheld portion shall be equal to the sum of the products obtained by multiplying each of the following quantities, as applicable, by the restricted percentage:

(1) The quantity of screened cranberries acquired:

(2) The quantity of screened cranberries obtained at the time unscreened lots of cranberries are screened: *Provided*, That the screening has been completed prior to February 1, of any year or by such other date as may be specified by the committee with the approval of the Secretary; and

(3) The quantity of screened cranberries contained in unscreened lots of cranberries acquired but which have not been screened prior to the date set forth in paragraph (a)(2) of this section. The committee, with the approval of the Secretary, shall prescribe uniform rules to be followed in determining the quantity of screened cranberries in each lot of unscreened cranberries.

7. Amend § 929.55 *Interhandler transfers* to read as follows:

§ 929.55 Interhandler transfers.

(a) Transfers of cranberries from one handler to another may be made without prior notice to the committee. If such transfer is made between handlers who have packing or processing facilities located within the production area, the assessment and withholding obligations provided under this part shall be assumed by the handler who agrees to meet such obligation. If such transfer is to a handler whose packing or processing facilities are outside the production area, such assessment and withholding obligations shall be met by the handler within the production area.

(b) All handlers shall report all such transfers to the committee, on a form provided by the committee, twice a year at a time specified by the Cranberry Marketing Committee.

8. Amend § 929.56 *Special provisions relating to withheld (restricted) cranberries* by adding new paragraphs (e), (f), and (g) reading as follows:

§ 929.56 Special provisions relating to withheld (restricted) cranberries.

* * * * *

(e) Cranberries purchased by the committee to replace released cranberries shall be inspected and shall meet standards as are prescribed for withheld cranberries.

(f) Inspection of withheld cranberries released to a handler is not required.

(g) In the event a handler fails to follow the procedure set forth in paragraph (b) of this paragraph with respect to depositing the required amount of money with the committee, any handler who does not deposit the full amount with the committee at the time specified in paragraph (b) of this section may be subject, in addition to the amount due and owing, and the penalties provided in the Act, to an interest charge on the unpaid amount due and owing to the committee. The rate of interest to be charged shall be prescribed by the committee with the approval of the Secretary.

The Fruit and Vegetable Division, Agricultural Marketing Service, has proposed that consideration be given to making such other changes in the amended marketing agreement and order as may be necessary to make the entire provisions thereof conform with any amendment thereto that may result from this hearing.

Copies of this notice of hearing may be obtained from the Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated: February 5, 1973.

MARKETING QUOTA REVIEW REGULATIONS

Certain Areas of Venue

The purpose of this amendment is to revise the marketing quota review committee areas of venue in several States. States in which there are farms producing certain crops subject to marketing quotas are divided into one or more areas of venue. An area of venue consists of one or more counties (parishes in Louisiana). A panel of six or more eligible farmers appointed by the Secretary serve as members of a review committee panel for each area of venue. The review committee which is composed of three members selected from the panel meets when necessary, to hear appeals of farmers who are dissatisfied with their farm quota for extra long staple cotton, peanuts, rice, and certain kinds of tobacco.

The present areas of venue in a number of States were established at a time when more crops and farms were subject to marketing quotas than are at present. Accordingly, fewer areas of venue and review committeemen are currently necessary.

Notice is hereby given that pursuant to authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1301, 1364, 1375), the Department proposes to amend Part 711—Marketing Quota Review Regulations (35 FR 15355, 16235, 36 FR 1463, 37 FR 10656, 11465, 38 FR 967), by revising the areas of venue for certain named States to read as follows:

VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

Notice of Proposed Rule Making

Notice is hereby given in accordance with the provisions contained in section 553(b) of Title 5, United States Code (1966), that it is proposed to amend certain of the regulations relating to viruses, serums, toxins, and analogous products in Part 113 of Title 9, Code of Federal Regulations, issued pursuant to the provisions of the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151–158).

Section 113.27 is amended by deleting "extraneous" from the heading, substituting "Deputy Administrator" for "Director" in the introductory paragraph and revising § 113.27(a) to make the sterility requirements applicable to noninjectable live viral vaccines to eliminate the potential danger of contaminates being in such vaccines.

The heading and introductory paragraph of § 113.27 and the introductory paragraph of § 113.27(a) is amended to read:

§ 113.27 Detection of viable bacteria and fungi in live vaccines.

Unless otherwise specified by the Deputy Administrator, live vaccines shall be tested for the presence of viable forms of bacteria and fungi as prescribed in this section.

(a) *Live viral vaccines.* Each serial and subserial of a biological product composed of live virus shall be tested for viable bacteria and fungi according to procedures prescribed in this paragraph. Tests for bacteria and fungi shall be conducted as follows:

* * * * *

Interested persons are invited to submit written data, views, or arguments regarding the proposed regulations to Deputy Administrator, Veterinary Services, USDA, Washington, D.C., on or before March 23, 1973.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27 (b)).

Done at Washington, D.C., this 2d day of February 1973.

OVERTIME OR HOLIDAY INSPECTION SERVICE

Proposed Schedules of Operations; Extension of Time for Comments

On December 12, 1972, a document was published in the FEDERAL REGISTER (37 FR 26429, 26430) proposing to amend the meat inspection regulations and the poultry products inspection regulations with respect to providing uniform requirements and procedures in establishments operating under Federal inspection relative to schedules of operations, overtime, or holiday inspection service, and a uniform basis of billing establishments when overtime or holiday work is incurred by the Department's employees. Interested persons were given 60 days to comment.

The Department has received requests for an extension of the period of time within which data, views, or arguments may be submitted. The contention is made that 60 days is not a sufficient period of time for the development of significant information and data to provide for substantive submissions on the proposed regulation.

These circumstances are considered as sufficient justification for an extension of the time originally allotted for filing comments. Accordingly, any person who wishes to submit written data, views, or arguments concerning the proposed amendments may do so by filing them, in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, before March 13, 1973.

Persons desiring opportunity for oral presentation of views should address such requests to the Issuance Coordination Staff, Scientific and Technical Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, before March 13, 1973. A transcript will be made of all views orally presented.

All written submissions and transcripts of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person making the submission requests that it be held confidential and a determination is made that a proper showing in support of the request has been made on the grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such a request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on February 6, 1973.

Household Eligibility

Pursuant to the authority contained in the Food Stamp Act of 1964, as amended (78 Stat. 703, as amended; 7 U.S.C. 2011-2025), notice is hereby given that the Food and Nutrition Service, Department of Agriculture, proposes to amend the regulations governing the operation of the Food Stamp Program to require that households containing a member who expects regularly to receive income in less than 12 months but more than 8 months of each calendar year shall have their income averaged over a 12-month period. The regulations now provide that, with some exceptions, household income may be determined by averaging income over the certification period which is, in most cases, 3 months.

Comments, suggestions, or objections are invited and may be delivered by March 12, 1973, to James H. Kocher, Director, Food Stamp Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250. All comments, suggestions, or objections received by March 12, 1973, will be considered.

Comments, suggestions, or objections will be open to public inspection pursuant to 7 CFR 1.27(b) at the Office of the Director, during regular business hours (8:30 a.m.-5 p.m.).

The proposed revision is as follows:

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Loan Procedures

Notice is hereby given that, pursuant to the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.), REA proposes to amend Chapter XVII, Part 1700 of the Code of Federal Regulations. The Rural Development Act of 1972 (Public Law 92-419), which, with earlier legislation, constitutes the Consolidated Farm and Rural Development Act (Development Act), provides broad authorities for making insured and guaranteed loans to finance many types of community development programs. Except for sale of insured notes, administration of the Development Act, with respect to rural electrification and telephone facilities and service, has been delegated to the Administrator of the Rural Electrification Administration. The purpose of the proposed amendment to Part 1700 is to provide a basis for implementing the Development Act with respect to such facilities and service.

Persons interested in the proposed amendment may submit written data, views, or comments to Administrator, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, not later than February 20, 1973. It is proposed to amend Part 1700 as follows:

1. Amend "Authority" to read as follows:

AUTHORITY: 7 U.S.C. 901–915, 921–924, 1921 et seq.

2. Add the following section:

§ 1700.3a. Loans pursuant to the Consolidated Farm and Rural Development Act.

(a) *General.* Loans may be made by REA on an insured basis pursuant to this Act (Development Act) to finance the construction and operation of generating plants, electric transmission and distribution lines or systems to provide initial and continued adequate electric service to persons in rural areas and to finance the improvement, expansion, construction, acquisition, and operation of telephone lines, facilities, or systems to furnish or improve telephone service in rural areas. Such loans when made to public bodies or nonprofit associations will bear interest at a rate of 5 percent per annum and when made to other organizations will bear interest at a rate prescribed by the Secretary of Agriculture not less than a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States comparable to the average maturities of such loans, adjusted in the judgment of the Secretary of the Treasury to provide for a rate comparable to the rates prevailing in the private market for similar loans and considering the government insurance, plus an additional charge for losses and cost of administration. Consideration may also be given to guaranteeing, under the Development Act, loans for these purposes made by other legally organized lending agencies.

(b) *Loan applications, construction and advance of loan funds.* To the extent permitted by the Development Act, (1) § 1700.1(b) will be applied with respect to applications for insured loans under the Development Act for rural electrification facilities, § 1700.1(c) will be applied with respect to the construction of such electrification facilities, § 1700.1(d) will be applied to the advance of funds on account of such insured electrification loans, and (2) § 1700.3(b) will be applied with respect to applications for insured loans under the Development Act for rural telephone facilities, § 1700.3(c) will be applied with respect to the construction of such telephone facilities, and § 1700.3(d) will be applied to the advance of funds on account of such insured telephone loans.

(c) *REA Bulletins.* To the extent permitted by the Development Act, REA Bulletins (see §§ 1700.6 and 1701.1) in effect on February 1, 1973, as from time to time amended or supplemented, will, be utilized in carrying out REA's loan program pursuant to the Development Act and this § 1700.3a.

(d) *Scope of term "Act".* As used in § 1700.4, Act refers to the Rural Electrification Act. As used in § 1700.5, Act refers to the Rural Electrification Act and the Development Act.

Dated: February 7, 1973.

E. C. WEITZELL,
Acting Administrator.

CERTAIN LIQUID PAINT SOLVENT PREPARATION CONTAINING PETROLEUM DISTILLATES, BENZENE, TOLUENE, XYLENE, OR COMBINATIONS THEREOF

Proposed Child Protection Packaging Standards

Through investigations by the Food and Drug Administration, and from other available information, the Commissioner of Food and Drugs has determined that the accidental ingestion of paint solvent preparations containing 10 percent or more by weight of petroleum distillates, benzene, toluene, xylene, or combinations thereof and having a viscosity of less than 100 Saybolt universal seconds at 100° F. has been a significant cause of fatalities and hospitalizations of children under 5 years of age. Such preparations include thinners, removers; and brush cleaners for paint, varnish, lacquer, and similar surface-coating materials.

The substances in this category are common household products used in do-it-yourself-type projects. These items are generally composed, in whole or in part, of various volatile petroleum distillates; the aromatic hydrocarbons: benzene, toluene, xylene; or combinations of these substances, and present a serious hazard when ingested and aspirated by children. The fact that serious or fatal chemical pneumonitis can result from the aspiration of products containing petroleum distillates is well known and thoroughly documented in the medical literature. Upon accidental ingestion and aspiration into the lungs, such petroleum distillate products cause endothelial injury leading to the rapid development of pulmonary edema. The resulting chemical pneumonitis can be rapidly fatal to a young child. The aromatic hydrocarbons: benzene, toluene, and xylene, contained in certain of these products are also reported to produce pulmonary edema and chemical pneumonitis upon ingestion and aspiration by children. These substances may also produce systemic poisoning when accidentally ingested. Benzene, toluene, and xylene produce basically similar toxic reactions when ingested; namely, local irritation and central nervous system excitation and depression. Death may occur from respiratory failure or from ventricular fibrillation.

Data from the National Clearinghouse for Poison Control Centers on accidental ingestions of such paint solvent preparations by children under 5 years of age for the 3-year period 1968–70 show 1,565 ingestions and 196 hospitalizations. Incomplete data from death certificates for 1966–71 show four deaths of children under 5 years of age from ingestion of such products.

After review of the above information and upon consultation, pursuant to section 3, with the Technical Advisory Committee convened in accordance with Section 6 of the Poison Prevention Packaging Act of 1970, the Commissioner finds that the nature of the hazard to children posed by liquid paint solvent preparations containing 10 percent or more by weight of petroleum distillates, benzene, toluene, xylene, or combinations thereof, and having a viscosity of less than 100 S.U.S. at 100° F., by reason of their availability and packaging, is such that special packaging is necessary to protect children from serious injury or serious illness resulting from handling, using, or ingesting such substances.

On the basis of reports and data from industry and other relevant information, and pursuant to section 3(a)(2) of the act, the Commissioner finds that the special packaging proposed herein is:

1. Technically feasible because technology exists to produce special packaging conforming to these standards. At least 29 firms have submitted summaries of test data in accordance with § 295.10 Testing procedure for special packaging (21 CFR 295.10; 36 FR 22151, 37 FR 741) indicating that one or more package designs meet or exceed the effectiveness specifications of § 295.3(b).

2. Practicable in that it is susceptible to moderate mass production and assembly line techniques.

3. Appropriate since such special packaging is not detrimental to the integrity of the substance and will not interfere with its storage or use.

The amendment proposed below would add paragraph (a)(15) on solvents for paint and similar surface-coatings to § 295.2(a). To give full information on packaging requirements that would be applicable to paint and similar surface-coating solvents, pertinent portions of existing §§ 295.2 and 295.3 are included herein as follows:

§ 295.2 Substances requiring "special packaging."

* * * * *

(b) *Sample packages.* (1) The manufacturer or packer of any of the substances listed under paragraph (a) of this section as substances requiring special packaging shall provide the Commissioner with a sample of each type of special packaging, as well as the labeling for each size product that will be packaged in special packaging and the labeling for any noncomplying package. Sample packages and labeling should be sent to the Food and Drug Administration, Attention: Bureau of Product Safety, 5600 Fishers Lane, Rockville, MD 20852.

(2) Sample packages should be submitted without contents when such contents are unnecessary for demonstrating the effectiveness of the packaging.

§ 295.3 *Poison prevention packaging standards.*

* * * * *

To protect children from serious personal injury or serious illness resulting from handling, using, or ingesting household substances, the Commissioner has determined that packaging designed and constructed to meet the following standards shall be regarded as "special packaging" within the meaning of section 2(4) of the act. Specific application of these standards to substances requiring special packaging is in accordance with § 295.2.

(a) *General requirements.* The special packaging must continue to function with the effectiveness specifications set forth in paragraph (b) of this section when in actual contact with the substance contained therein. This requirement may be satisfied by appropriate scientific evaluation of the compatibility of the substance with the special packaging to determine that the chemical and physical characteristics of the substance will not compromise or interfere with the proper functioning of the special packaging. The special packaging must also continue to function with the effectiveness specifications set forth in paragraph (b) of this section for the number of openings and closings customary for its size and contents. This requirement may be satisfied by appropriate technical evaluation based on physical wear and stress factors, force required for activation, and other such relevant factors which establish that, for the duration of normal use, the effectiveness specifications of the packaging would not be expected to lessen.

(b) *Effectiveness specifications.* Special packaging which when tested by the method described in § 295.10, meets the following specifications:

(1) Child-resistant effectiveness of not less than 85 percent without a demonstration and not less than 80 percent after a demonstration of the proper means of opening such special packaging. In the case of unit packaging, child-resistant effectiveness of not less than 80 percent.

(2) Adult-use effectiveness not less than 90 percent.

* * * * *

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5, 84 Stat. 1670–1672; 15 U.S.C. 1471(4), 1472, 1474) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that a new paragraph (a)(15) be added to § 295.2(a) as follows:

§ 295.2 Substances requiring "special packaging."

(a) *Substances.* The Commissioner of Food and Drugs has determined that the degree or nature of the hazard to children in the availability of the following substances, by reason of their packaging, is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances, and that the special packaging herein required is technically feasible, practicable, and appropriate for these substances:

* * * * *

(15) *Solvents for paint or other similar surface-coating material.* Prepackaged paint or other similar surface-coating material solvents, such as thinners, removers, and brush cleaners, in liquid form which contain 10 percent or more by weight of petroleum distillates, benzene, toluene, xylene, or combinations thereof, and which have a viscosity of less than 100 S.U.S. at 100° F., shall be packaged in accordance with the provisions of § 295.3 (a) and (b).

* * * * *

Interested persons may, on or after April 10, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal.

Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: February 2, 1973.

Associate Commissioner for Compliance.

PROMOTIONALLY DISTRIBUTED SAMPLES OF HOUSEHOLD SUBSTANCES

Proposed Child Protection Packaging Standards

Through investigations by the Food and Drug Administration and from other available information, the Commissioner of Food and Drugs has determined that the promotional distribution of samples of household substances directly to the household presents a high risk of serious injury or illness to children under 5 years of age.

The Commissioner has no specific data on injuries to children under 5 years of age from promotionally distributed household substances. National Clearinghouse for Poison Control Center data are not reported in sufficient detail to determine whether the offending substance was a promotional sample or a commercial package. The hazardous nature o many of these substances and their unique availability to children, however, contribute to a high risk of injury. When such samples are not personally delivered to a responsible adult member of the household, small children may find them before the intended adult recipient. The adult then does not have the opportunity to exercise caution and keep such substances out of the hands of children. Such materials are often left on door steps, hung on door knobs, dropped through mail slots, or deposited in mail boxes, thus increasing the possibility of undetected access thereto by children under 5 years of age.

After review of available information and upon consultation, pursuant to section 3, with the Technical Advisory Committee convened in accordance with section 6 of the Poison Prevention Packaging Act of 1970, the Commissioner finds that the nature of the hazard to children posed by promotional samples of any "household substance" (as defined in section 2(2) of the act) distributed directly to the household but not to a responsible adult member thereof, and for which any cautionary labeling is either required or recommended under any of the acts referred to in section 2(2), by reason of their availability and packaging, is such that special packaging is necessary to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances. Not included in this finding are substances in pressurized spray containers where the only hazard is that the contents are under pressure since child-resistant packaging would in no way obviate or eliminate the potential hazard resulting from puncturing or overheating the pressurized container.

In the public interest, and in view of the congressional intent in passing the Poison Prevention Packaging Act of 1970, the Commissioner concludes that the subject substances may not be packaged in noncomplying packaging. This conclusion is based on the fact that distributors of promotional samples cannot adequately distinguish the elderly or handicapped from other recipients and cannot offer consumers the opportunity to select between child-resistant packaging and noncomplying packaging.

On the basis of reports and data from industry and other relevant information, and pursuant to section 3(a)(2) of the act, the Commissioner finds that the special packaging proposed herein is:

1. Technically feasible because technology exists to produce special packaging conforming to these standards. At least 32 firms have submitted data indicating that they have one or more special packages which have been tested in accordance with § 295.10 *Testing procedure for special packaging* (21 CFR 295.10; 36 FR 22151, 37 FR 741) that meet or exceed the effectiveness specifications of § 295.3 (b). This includes special packaging suitable for solids, liquids, and aerosols, products packaged in unit packaging and in glass, plastic, and metal containers.

2. Practicable in that it is susceptible to modern mass production and assembly line techniques.

3. Appropriate since such special packaging is not detrimental to the integrity of the substance and will not interfere with its storage or use.

The amendment proposed below would add a new subparagraph (13) to § 295.2 (a) on promotional samples. To give full information on packaging requirements that would be applicable to promotional samples, pertinent portions of existing §§ 295.2 and 295.3 are included herein as follows:

Section 295.2 *Substances requiring "special packaging."*

* * * * *

(b) *Sample packages.* (1) The manufacturer or packer of any of the substances listed under paragraph (a) of this section as substances requiring special packaging shall provide the Commissioner with a sample of each type of special packaging, as well as the labeling for each size product that will be packaged in special packaging and the labeling for any noncomplying package. Sample packages and labeling should be sent

to the Food and Drug Administration, Attention: Bureau of Product Safety, 5600 Fishers Lane, Rockville, MD 20852.

(2) Sample packages should be submitted without contents when such contents are unnecessary for demonstrating the effectiveness of the packaging.

(3) Any sample packages containing drugs listed under paragraph (a) of this section shall be sent by registered mail.

(4) As used in subparagraph (1) of this paragraph, the term "manufacturer or packer" does not include pharmacists and other individuals who dispense, at the retail or user level, drugs listed under paragraph (a) of this section as requiring special packaging.

* * * * *

Section 295.3 *Poison prevention packaging standards.* To protect children from serious personal injury or serious illness resulting from handling, using, or ingesting household substances, the Commissioner has determined that packaging designed and constructed to meet the following standards shall be regarded as "special packaging" within the meaning of section 2(4) of the act. Specific application of these standards to substances requiring special packaging is in accordance with § 295.2.

(a) *General requirements.* The special packaging must continue to function with the effectiveness specifications set forth in paragraph (b) of this section when in actual contact with the substance contained therein. The requirement may be satisfied by appropriate scientific evaluation of the compatibility of the substance with the special packaging to determine that the chemical and physical characteristics of the substance will not compromise or interfere with the proper functioning of the special packaging. The special packaging must also continue to function with the effectiveness specifications set forth in paragraph (b) of this section for the number of openings and closings customary for its size and contents. This requirement may be satisfied by appropriate technical evaluation based on physical wear and stress factors, force required for activation, and other such relevant factors which establish that, for the duration of normal use, the effectiveness specifications of the packaging would not be expected to lessen.

(b) *Effectiveness specifications.* Special packaging which when tested by the method described in § 295.10, meets the following specifications:

(1) Child-resistant effectiveness of not less than 85 percent without a demonstration and not less than 80 percent after a demonstration of the proper means of opening such special packaging. In the case of unit packaging, child-resistant effectiveness of not less than 80 percent.

(2) Adult-use effectiveness not less than 90 percent.

* * * * *

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5, 84 Stat. 1670–1672; 15 U.S.C. 1471(4), 1472, 1474) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that a new subparagraph (13) be added to § 295.2(a) as follows:

§ 295.2 Substances requiring "special packaging."

(a) *Substances.* The Commissioner of Food and Drugs has determined that the degree or nature of the hazard to children in the availability of the following substances, by reason of their packaging, is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances, and that the special packaging herein required is technically feasible, practicable, and appropriate for these substances:

* * * * *

(13) *Promotional samples.* Promotional samples of any "household substance" (as defined in section 2(2) of the Poison Prevention Packaging Act of 1970) distributed directly to the household but not presented in person to a responsible adult member thereof, and for which any cautionary labeling is either required or recommended under the Federal Hazardous Substances Act, the Federal Food, Drug, and Cosmetic Act, or the Federal Insecticide, Fungicide, and Rodenticide Act, shall, except for substances in pressurized spray containers where the only hazard is that the contents are under pressure, be packaged in accordance with the provisions of § 295.3 (a) and (b), and may not be packaged in a noncomplying package.

Interested persons may, on or before April 10, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. MATERNAL AND CHILD HEALTH AND CRIPPLED CHILDREN'S SERVICES

Notice of Proposed Revision and Redesignation of Regulations

Notice is hereby given that the Administrator, Health Services and Mental Health Administration, with the approval of the Secretary of Health, Education, and Welfare, proposes to revise Part 200 of Title 42, CFR, governing the maternal and child health and crippled children's services program under sections 501–507 of the Social Security Act (42 U.S.C. 701–707), and redesignate such part as Subpart A of Part 51a of 42 CFR, as set out below.

The principal purpose of the revision is to implement, with respect to this program, the Health Services and Mental Health Administration simplified State plan review system. Under that system, documents which are required to be included in State plans and which currently must be submitted to Health Services and Mental Health Administration for review will instead be incorporated by reference in the State plans, retained in the States, and there reviewed by staff of the Regional Offices.

The revision also reflects the transfer from the Social and Rehabilitation Services to the Health Services and Mental Health Administration of the functions under title V of the Social Security Act, 34 FR 14700, September 23, 1969, and technical and conforming changes.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed revision to the Maternal and Child Health Service, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20852, on or before March 12, 1973. Comments received will be available for public inspection at Room 12–05, Parklawn Building, between the hours of 8:30 a.m. and 5 p.m., Monday through Friday.

It is therefore proposed to amend Chapter I of Title 42 in the manner set forth below.

Dated: December 18, 1972.

FREDERICK L. STONE,
Acting Administrator, Health Services and Mental Health Administration.

Approved: February 6, 1973.

FRANK CARLUCCI,
Acting Secretary.

Part 51a is amended by adding a new Subpart A thereto, to read as follows:

Subpart A—Maternal and Child Health and Crippled Children's Services

Subpart A—Maternal and Child Health and Crippled Children's Services

§ 51a.101 Definitions.

Unless the context otherwise requires, the following terms as used in these regulations have the following meanings:

(a) "State" means the several States, the District of Columbia, Guam, Puerto Rico, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands;

(b) "State Agency" means the official agency of a State administering or supervising the administration of a State Plan for Maternal and Child Health or

(c) "Act" means the Social Security Act as amended (42 U.S.C. Chap. 7);

(d) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved may be delegated;

(e) "Official forms" means forms supplied by the Secretary to State agencies for requesting funds and for submitting State budgets or reports under Title V of the Act;

(f) "Crippled child" means an individual below the age of 21 who has an organic disease, defect, or condition which may hinder the achievement of normal growth and development;

(g) "Facilitating services" means transportation, subsistence away from home, drugs, biologicals, communications, supplies and equipment as may be necessary for the provision of maternal and child health or crippled children's services;

(h) "Health" means a state of physical and mental well-being, not merely the absence of disease or infirmity;

(i) "Medical care" means services, including services in hospitals, convalescent homes, and clinics, and home health services, by physicians and the allied services of dentists, nurses, medical social workers, nutritionists, dietitians, physical therapists, occupational therapists, speech and hearing specialists, optometrists, technicians and other personnel whose services are needed in the maternal and child health and crippled children's programs;

(j) "Maternal and child health services" means (1) the provision of educational, preventative, diagnostic and treatment services, including medical care, hospitalization and other institutional care and aftercare, appliances and facilitating services directed toward reducing infant mortality and improving the health of mothers and children; (2) the development, strengthening and improvement of standards and techniques relating to such services and care; (3) the training of personnel engaged in the provision, development, strengthening or improvement of such services and care; and (4) necessary administrative services in connection with the foregoing;

(k) "Crippled children's services" means (1) the early location of crippled children; (2) the provision for such children of preventive, diagnostic and treatment services, including medical care, hospitalization and other institutional care and aftercare, appliances and facilitating services directed toward the diagnosis of the condition of such children or toward the restoration of such children to maximum physical and mental health; (3) the development, strengthening and improvement of standards and techniques relating to the provision of such care and services; (4) the training of personnel engaged in the provision, development, strengthening or improvement of such care and services; and (5) necessary administrative services in connection with the foregoing;

(l) "Demonstration services" means either (1) the provision in a county, district, or community of more and better health services than are available in any comparable area in the State, utilizing facilities meeting acceptable standards and personnel who are especially well qualified, for the purpose of establishing standards of care and service that can be shown to be practical, effective and adequate to improve the health of mothers and children, or (2) the provision of a special type of health service for the purpose of proving its value in improving the health of mothers and children and in providing information on cost, methods of development, techniques of provision and the administration of a given type of health service not generally available to mothers and children;

§ 51a.102 Submission of State plans.

In order to receive funds from an allotment for maternal and child health and crippled children's services a State must submit to and have approved by the Secretary a State plan which contains or, as required by these regulations, incorporates by reference the information and meets the requirements specified in title V of the Act and these regulations. Such plan shall be submitted by the State agency officially designated and authorized to administer it, after reasonable opportunity has been provided to the Governor of the State for his review and comment. Documents incorporated by reference become a part of the State plan as though fully set forth therein. Such documents must be (a) clearly identified as to subject, date, and location, (b) officially adopted and disseminated in accordance with applicable procedures, and (c) made available to the Secretary and to the public for inspection.

§ 51a.103 Administration locally of State plans.

The State plan shall:

(a) Contain an asurance that the administration of the State plan in local communities will be performed

(1) Directly by the State agency; or

(2) By local public agencies which are, with respect to their administration locally of such plan, supervised by the State agency; or

(3) By a combination of the foregoing methods of administration; and

(b) Incorporate by reference documents showing the manner in which the State agency will exercise and make effective its supervision over the operations of the local public agencies with respect to their administration locally of such plan.

§ 51a.104 Program units.

(a) The State plan shall incorporate by reference documents showing:

(1) With respect to the maternal and child health services program the establishment in the State agency, under the direction of a program director, of a separate organizational unit charged primarily with responsibilities in the field of maternal and child health and including, at least, the planning, promoting and coordinating of maternal and child health services and the administration of the unit and its staff as provided under the State plan; and

(2) With respect to the crippled children's services program, the establishment, in the State agency, of a separate organizational unit charged primarily with responsibilities in the field of health services for crippled children and including, at least, the planning, promoting and coordinating of crippled children's services and the administration of the unit and its staff as provided under the State plan: *Provided*, That, where the major functions of the State agency relate to the provision of health services to children, as in the case of a crippled children's commission, such commission shall itself be considered the separate organizational unit required.

(b) The State plan may provide for combining the crippled children's program unit and the maternal and child health program unit into one organizational unit under the direction of a single program director.

§ 51a.105 Program directors.

The State plan must contain an assurance that the maternal and child health and crippled children's program unit or units will both or each be under the direction of a program director who will be (a) a physician; (b) a full-time employee of the State agency; (c) devoting his full time, during the hours of his employment by the State agency, to the work of the program unit of which he is the director: *Provided*, That, upon prior approval of the Secretary and where satisfactory evidence is incorporated by reference justifying such provision, the State plan may provide for the part-time employment of such physician.

§ 51a.106 Information on services available.

The State plan shall incorporate by reference documents showing how the public throughout the State will be fully informed as to the maternal and child health and crippled children's services available under the State plan.

§ 51a.107 Limitations on provision of services.

The State plan for maternal and child health and crippled children's services shall contain an assurance that hospital, rehabilitation, convalescent or foster home care, or appliances provided to individuals under the plan, will be made available only to individuals who are receiving medical services provided or arranged for by the State agency in accordance with the standards and policies of the plan.

§ 51a.108 Crippled Children's Program; required content.

With respect to services for crippled children, the State plan shall incorporate by reference documents showing that provision has been made for:

(a) Services for the early identification of children in need of health care and services;

(b) Diagnosis and evaluation of the condition of such children;

(c) Treatment services including at least appropriate services by physicians, applicances, hospital care, and aftercare as needed; and

(d) The development, strengthening, and improvement of standards and services for crippled children.

§ 51a.109 Crippled Children's Program; diagnostic services.

With respect to services for crippled children, the State plan shall contain an assurance that the diagnostic services under the plan will be made available within the area served by each diagnostic center to any child (a) without charge to the child or his family, except to the extent that payment will be made by a third party (including a governmental agency) which is authorized or under legal obligation to pay such charges; (b) without restriction or requirement as to the economic status of such child's family or relatives or their legal residence, and (c) without any requirement for the referral of such child by any individual or agency.

§ 51a.110 Standards relating to the provision of services.

The State plan shall incorporate by reference the standards required for personnel and facilities utilized in the provision of services under the plan. These standards for personnel and facilities must be those which (a) are found, upon investigation by the State agency, to be best adapted for the attainment of the specific purpose; (b) assure a reasonably high standard of care; (c) meet State and local licensing laws; and (d) are in substantial accordance with national standards as accepted by the Secretary or standards prescribed by the Secretary.

§ 51a.111 Authorization of service.

The State plan shall contain an assurance that all services purchased for individuals under the plan will be authorized by employees of the State agency, or by employees of the local public agency administering a part of the plan locally under the supervision of the State agency, and that records of such authorizations will be retained by the State or local public agency as part of the individual's case record.

§ 51a.112 Confidential information.

The State plan shall:

(a) Contain an assurance that all information as to personal facts and circumstances obtained by the State or local staff administering the program shall constitute privileged communications, shall be held confidential and shall not be divulged without the individual's consent except as may be necessary to provide services to individual mothers and children: *Provided*, That, information may be disclosed in summary, statistical or other form which does not identify particular individuals; and

(b) Incorporate by reference the suitable regulations and safeguards to carry out the provisions of paragraph (a) of this section.

§ 51a.113 Rates of payment for medical care, appliances, and convalescent and foster home care.

The State plan shall incorporate by reference the schedule of rates and the methods utilized by the State agency in establishing and substantiating that rates of payment for medical care, appliances, and convalescent and aftercare provided under such plan are reasonable and necessary to maintain the standards relating to the provision of services established pursuant to § 51a.110. Such rates may be based on reimbursement to providers of such services on a prepaid capitation basis.

§ 51a.114 Rates of remuneration for hospital care.

The State plan shall contain an assurance that payment for inpatient hospital care shall be the reasonable cost of such care established in accordance with standards approved by the Secretary.

§ 51a.115 Additional remuneration for services.

The State plan shall contain an assurance that professional personnel, hospitals, and other individuals, agencies or groups providing any services authorized by the State agency under a State plan, shall agree not to make any charge to or accept any payment from the patient or his family for such services unless the amount of such payment is determined and authorized for each patient by the State agency.

§ 51a.116 State reports and records.

The State plan shall contain an assurance that in addition to any other reports or records required by these regulations or which may reasonably be required by the Secretary under Title V of the Act:

(a) The State agency shall maintain adequate records to show the disposition of all funds (Federal and non-Federal) expended for activities under the approved State plan.

(b) The State agency shall make annual expenditure reports.

(c) All records required pursuant to title V of the Act and these regulations shall be retained for 3 years after the submission of the annual expenditure report required by paragraph (b). *Provided*, That, (1) all records pertaining to audit questions which have arisen before the end of such 3-year period shall be retained until the resolution of all such questions; and (2) records for nonexpendable property which was acquired under the State plan shall be retained for 3 years after the disposition of such property.

(d) All records required by the Act and the regulations of this subpart shall be available to the Comptroller General of the United States and the Secretary, or their authorized representatives, for purposes of making audits, examinations, excerpts, and transcriptions.

§ 51a.117 Demonstration services.

The State plan shall incorporate by reference documents providing for the development of demonstration services (with special attention to dental care for children and family planning services for mothers) in needy areas and among groups in special need and setting forth the policies, standards, and criteria applicable to the development and provision of such services, and to the selection of such areas and groups.

§ 51a.118 Use of subprofessional staff and volunteers.

The State plan shall incorporate by reference documents showing:

(a) Provision for the training and effective use of paid subprofessional staff in the administration of the plan. Particular emphasis shall be given to full-time or part-time employment of persons of low income as community services aides.

(b) Provision for the use of nonpaid or partially paid volunteers in providing services and in assisting any advisory committees established by the State agency.

(c) That the State plan meets the requirements established by the Secretary for training and effective use of subprofessional and volunteer staff contained in 45 CFR Part 225.

§ 51a.119 Use of optometrists.

The State plan shall contain an assurance that, where payment is authorized under the plan for services which an optometrist is licensed to perform, the individual for whom such payment is authorized may obtain such services from a licensed optometrist. This assurance does not apply, however, in cases where such services are rendered in a clinic or other appropriate institution which does not have an arrangement with optometrists licensed to perform such services.

§ 51a.120 Acceptance of family planning services.

The State plan shall contain an assurance that acceptance of family planning services offered under the plan shall be voluntary on the part of the individual to whom such services are offered. Acceptance of family planning services shall not be a prerequisite to eligibility

for or the receipt of any service under the plan.

§ 51a.121 Cooperation with other agencies and groups.

The State plan shall contain an assurance of cooperation with the State agency which administers the program of medical assistance established under title XIX of the Act and with other medical, health, nursing, educational, and welfare groups and organizations, and, with respect to the portion of the plan relating to services for crippled children, with any agency in such State charged with administering State laws providing for vocational rehabilitation of physically handicapped children.

§ 51a.122 Specialized and supporting expenditures.

(a) The State plan shall, with respect to the State agency's total annual expenditures of Federal and required matching funds for its crippled children's program, incorporate by reference documents identifying as "specialized" expenditures for such program an amount equal to 80 percent or more of the total annual expenditures of Federal and required matching funds for that program, provided the remaining 20 percent or less of such total expenditures were for purposes within the scope of the approved crippled children's services plan.

(b) The State plan shall, with respect to the State agency's total annual expenditures of Federal and required matching funds for its maternal and child health program, incorporate by reference documents providing for the allocation of such expenditures to such program in accordance with either of the following procedures:

(1) On the basis of objective criteria set forth in the State plan, allocate to such program a portion of "supporting expenditures" which, together with any "specialized expenditures" identified for such program will at least equal the total annual expenditures of Federal and required matching funds;

(2) Identify as "specialized expenditures" for such program an amount equal to 80 percent or more of the total annual expenditures of Federal and required matching funds for that program, provided the remaining 20 percent or less of such total expenditures were for purposes within the scope of the approved maternal and child health services plan.

§ 51a.123 Allotments.

(a) Prior to the beginning of each fiscal year the Secretary will prepare and make available to the several State agencies an estimated schedule of the amounts which it is expected will be allotted to each State during the fiscal year for each program.

(b) With respect to amounts determined to be available for any fiscal year for allotments for crippled children's services:

(1) One-half is allotted among the States in accordance with criteria specified in the Act. These funds are referred to as Fund A. Each State receives an allotment of $70,000 and such part of the amount remaining as the number of children under 21 in the State bears to the total number of such children in the United States. The number of children under 21 is used as the index of the number of crippled children, since adequate statistics on the number of crippled children are not available; and

(2) The other half is known as Fund B. From this fund, an amount determined by the Secretary is available to States and to nonprofit institutions of higher learnings for special projects for crippled children who are mentally retarded. From the remainder of Fund B, not less than 75 percent is apportioned among the States according to the need of each State for financial assistance in carrying out its State plan after taking into consideration the number of children under 21 years in each State and per capita income in each State. The apportionments vary directly with the number of children under 21 years of age in the State, and the number in rural areas of the State, with rural children given twice the weight of children in urban areas. The apportionments vary inversely with State per capita income. Depending upon the amount of funds available, a minimum amount is set by the Secretary below which a State's apportionment may not fall. Funds thus apportioned are allotted to States as needed. The remaining 25 percent or less of Fund B is reserved for grants to States and to nonprofit institutions of higher learning for special projects of regional or national significance which may contribute to the advancement of services for crippled children.

(c) With respect to amounts determined to be available for any fiscal year for allotments for maternal and child health services:

(1) One-half is allotted among the States by a formula specified in the law. These funds are referred to as Fund A. Each State receives an allotment of $70,000 and such part of the amount remaining as the number of live births in the State bears to the total number in the United States; and,

(2) The other half is known as Fund B. From this fund an amount determined by the Secretary is available to States and to nonprofit institutions of higher learning for special projects for mentally retarded children. From the remainder of Fund B, not less than 75 percent is apportioned among the States according to the need of each State for financial assistance in carrying out its State plan after taking into consideration the number of live births in each State and per capita income in each State. The apportionments vary directly with the number of live births in the State, and the number in rural areas of the State, with rural births given twice the weight of urban births. The apportionments vary inversely with State per capita income. Depending upon the amount of funds available, a minimum amount is set by the Secretary below which a State's apportionment may not fall. Funds thus apportioned are allotted to States as needed. The remaining 25 percent or less of Fund B is reserved for grants to States and to nonprofit institutions of higher learning for special projects of regional or national significance which may contribute to the advancement of maternal and child health.

§ 51a.124 Submission of budgets by State agencies.

Prior to the beginning of each fiscal year, the State agency shall submit, upon official forms and in accordance with procedures established by the Secretary, an annual budget, appropriately documented and supported, providing for financial participation by the State and indicating the availability and sources of all funds to be expended under the State plan during such fiscal year.

§ 51a.125 Payments to States; effect of certification.

Neither the approval of the State plan nor any certification of funds or payment to the State pursuant thereto shall be deemed to waive the responsibility of the State to observe before or after such administrative action any Federal requirements or the right or duty of the Secretary to withhold funds by reason thereof.

§ 51a.126 Private funds.

Funds obtained from private sources and made fully available for expenditure by the State agency under the approved State plan may be included in the computation of the amounts of public funds expended. Private funds shall be placed on deposit in accordance with the State law, but if there is no State law setting forth applicable procedures, the funds shall be deposited with the State Treasurer, the Treasurer of a political subdivision, or in a private depository, in a special account to the credit of the State agency. If the funds are placed in a private depository, the certificate of an officer of the privatae depository shall be furnished showing the deposit of such funds in a special account to the credit of the State agency.

§ 51a.127 Application of Federal funds; effect of State rules.

Except as specifically stated in the Act and in these regulations, State laws, rules, regulations, and standards governing the custody and disbursement of State funds shall govern the custody and disbursement of Federal funds paid to the State.

§ 51a.128 Custody of and accounting for Federal funds.

(a) The State Treasurer or official exercising similar functions for the State shall receive and provide for the custody of all funds paid to the State under the Act, subject to requisition or disbursement thereof by the State agency for State plan purposes.

(b) The State plan shall incorporate by reference such written fiscal control and fund accounting procedures as are necessary to assure the proper disbursement of and accounting for funds paid to the State under this subpart. Such

procedures shall provide for an accurate and timely recording of receipts of Federal funds paid to the State for expenditures incurred or to be incurred under the approved plan, of the amounts and purposes of expenditures made in carrying out such plan and of any unearned balances of Federal funds paid to the State. In addition, such procedures must:

(1) Provide for the determination of allowability and the allocation of costs in accordance with Chapter 5–60 of the Department of Health, Education, and Welfare Grants Administration Manual; [1]

(2) Provide adequate information to show exclusion from expenditures claimed for Federal participation of those costs for which payments have been received or are due under other Federal grants or contracts or which are required or used to match other Federal funds;

(3) Provide for making an adequate record of refunds, fees, and other similar adjustments received. These adjustments shall be deducted from total expenditures in order to arrive at the expenditures available for Federal participation under the State plan.

(4) Provide for the maintenance of payroll and inventory records in accordance with Chapter 1–71 of the Department of Health, Education, and Welfare Grants Administration Manual.[1]

§ 51a.129 Extension of services.

No payment will be made from the allotments for Maternal and Child Health or Services for Crippled Children to any State which fails to make a satisfactory showing in documents incorporated by reference in the State plan that it is extending the provision of services under its plan with a view to making such services available in all parts of the State by July 1, 1975. Services which must be extended are those to which the State plan applies, including services for dental care for children and family planning for mothers.

§ 51a.130 Maintenance of effort.

The amount payable to any State under the regulations in this part for any fiscal year ending after June 30, 1968, shall be reduced by the amount by which the sum expended (as determined by the Secretary) from non-Federal sources for maternal and child health services and services for crippled children for such year is less than the sum expended from such sources for such services for the fiscal year ending June 30, 1968. In case of any such reduction the Secretary shall determine the portion thereof which shall be applied, and the manner of applying such reduction, to the amounts otherwise payable to the State under these regulations.

§ 51a.131 Merit system.

The State plan shall provide for the establishment and maintenance of personnel standards on a merit basis for persons employed by the State agency and by official local agencies to provide or supervise the provision of maternal and child health and crippled children's services under the approved State plan, and of State agency supervision of compliance with such standards by official local agencies. Conformity with Standards for a Merit System of Personnel Administration, 45 CFR Part 70, issued by the Secretary of Health, Education, and Welfare, including any amendments thereto, and any standards prescribed by the United States Civil Service Commission pursuant to section 208 of the Intergovernmental Personnel Act of 1970 (Public Law 91–648; 84 Stat. 1915) modifying or superseding such Standards, will be deemed to meet this requirement as determined by said Commission. Laws, rules, regulations, and policy statements, and amendments thereto, effectuating such methods of personnel administration shall be incorporated by reference in the State plan.

§ 51a.132 Nondiscrimination.

Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d; 78 Stat. 252), which provides that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80). Such regulation is applicable to services and programs provided under section 501–507 of the Act, and requires receipt and acceptance by the Secretary of the applicable documentation set forth therein.

[Docket No. 25092; EDR–240A; SPDR–31A]

INCLUSIVE TOUR CHARTER BY TOUR OPERATORS AND FOREIGN TOUR OPERATORS

Authorization; Extension of Time for Filing Comments

FEBRUARY 6, 1973.

The Board, by circulation of notice of rule making EDR–240/SPDR–31, dated January 9, 1973, and published at 38 FR 1396, gave notice that it had under consideration proposed amendments to Parts 207 and 212 of its Economic Regulations (14 CFR Parts 207, 212) to authorize certificated route air carriers and, subject to certain conditions, foreign route air carriers to perform inclusive tour charters, and related amendments to Part 378 of the special regulations (14 CFR Part 378). Interested persons were invited to participate by submission of twelve (12) copies of written data, views, or arguments pertaining thereto to the docket section of the Board on or before February 12, 1973.

On January 29, 1973, counsel for the United States Tour Operators Association, Inc. (USTOA) requested a 30-day extension of time for filing comments. The request alleges that the instant proposal involves a number of complex issues with respect to the relationship between tour operators and direct air carriers, and that additional time is necessary to focus on these issues and prepare and file meaningful comments in the matter. It is further maintained that the present filing deadline will not allow USTOA sufficient time to develop and recommend to the Board detailed rules which, it asserts, will be necessary to preserve the independence of tour operators should the Board determine to grant the proposed authority to route air carriers. In addition, counsel for a number of trunkline carriers has submitted a letter requesting that the filing deadline be extended 14 days so as to permit such carriers to formulate and submit a joint comment on the subject proposals.

The undersigned finds that good cause has been shown for an extension of time for filing comments and that an additional 30-day period is warranted. Accordingly, pursuant to the authority delegated in § 385.20(d) of the Board's organization regulations, the undersigned hereby extends the time for submitting comments to March 14, 1973.

[Docket No. 19117; Files Nos. P–C–7825, P–C–7954; FCC 73–132]

COMMUNICATIONS ON INTERSTATE OR FOREIGN COMMON CARRIER FACILITIES

Authorization of New or Revised Classifications; Termination of Rulemaking Proceeding

In the matter of establishment of rules pertaining to the authorization of new or revised classifications of communications on interstate or foreign common carrier facilities and amendment of §§ 63.60–63.90 of the rules, Docket No. 19117.

In the matter of the application of American Telephone and Telegraph Co. et al., for authority under section 214(a) of the Communications Act of 1934, as amended, to supplement existing facilities between various locations throughout the continental United States and to Canada and Mexico to be undertaken during 1971 and 1972, File No. P–C–7825.

In the matter of the application of Pioneer-United Telephone Co., for certification, under section 214(a) of the Communications Act of 1934, as amended, of the construction and operation of pro-

posed wide-band telecommunications facilities in the community of Jonathan, near Chaska, Minn., File No. P–C–7954.

1. As set forth in the notice of proposed rulemaking released on January 14, 1971 (27 FCC 2d 36; 36 FR 1064), the rulemaking proceeding herein in Docket No. 19117 had its origin in certain conditions placed in the above captioned sections 214 P–C–7825 and P–C–7954 authorizations granted to American Telephone & Telegraph Co. (AT&T) and Pioneer-United Telephone Co. (Pioneer), respectively.

2. The first such condition was imposed on September 4, 1970, when the Commission issued an order and authorization (FCC 70–955) granting an application by AT&T (File No. P–C–7825) with the following proviso:

> That the facilities authorized herein shall be used only for the provision of existing services and no new classification or subclassification of service shall be instituted on these facilities or on any other interstate facilities of American Telephone & Telegraph Co. and the associated companies of the Bell System without prior authorization of the Commission; *And provided further*, That Series 11000 Service shall be offered only in accordance with the provisions of the tariff presently on file with this Commission.

Later, on October 6, 1970, the Chief, Common Carrier Bureau issued an Order and Certificate under delegated authority granting an application by Pioneer (File No. P–C–7954) for furnishing channel service to a CATV operator upon condition, inter alia, that service on the authorized facilities:

> * * * shall include only carriage of television and FM radio broadcast signals, that no other interstate voice, video and digital communications shall be furnished by applicant over the facilities authorized without prior authorization by the commission, and that service is provided only to Jonathan Development Corporation, or its successors or assignees * * *.

3. Both AT&T and Pioneer challenged the conditions on their respective authorizations; AT&T by a "Petition for Reconsideration" filed on October 5, 1970, and Pioneer by an "Application for Review" filed on November 5, 1970. Action on these pleadings was deferred by the Commission pending the outcome of the rulemaking proceeding in Docket No. 19117 which looked toward the adoption of substantive and procedural rules governing the establishment of new or revised classifications of communications and the discontinuance of classifications. (27 FCC 2d, at pages 37–38.) We shall address ourselves first to the rulemaking proposal herein.

4. Comments and/or reply comments on the proposed rulemaking were received from various interested persons.[1] Those filing consisted primarily of domestic landline carriers, international carriers, miscellaneous and specialized carriers and applicants, and communications customers or their associations. The parties are in disagreement as to the Commission's authority to adopt the proposed rules and whether they would be desirable as a matter of policy, either applied across the board or in the instance of a particular carrier.

5. Upon consideration of the record, we have decided to terminate this rulemaking without resolution of the issues except with respect to CATV channel service to the extent indicated in paragraphs 14–16 below. We find it unnecessary to reach the question of whether the Commission's authority extends to rule making of the precise nature proposed in the notice herein. For, in view of developments which have taken place since the commencement of this proceeding, we are of the view that the proposed rules are not desirable at this time in order to achieve the regulatory objectives to which such rules were directed.

6. Our principal objective in proposing the subject rules was to provide a reasonable opportunity for the competitive development of the market for specialized communications services. It was our concern that this objective could be thwarted by existing carriers who were in a position to institute new offerings for such services simply by filing tariffs, without any prior Commission approval, while at the same time impeding or delaying the entry of new carriers seeking to serve that market by raising various policy objections to the applications of the new entrants for authorization of facilities to provide service. This concern has been substantially mitigated by our First Report and Order in Docket No. 18920 (29 FCC 2d 870). By that decision, we resolved that basic policy isues presented by the proposed competitive entry of new carrier applicants into the specialized communications service market. As a consequence, new entry is no longer being delayed by the unresolved status of policy questions raised by existing carriers with respect to the service proposals of each new applicant. Moreover, our Second Report and Order, in Docket No. 16495, Domestic Satellites (June 16, 1972) 35 FCC 2d 844, as substantially reaffirmed on petition for reconsideration, FCC 72–1198 (Dec. 22, 1972), generally prohibits the Bell System companies, for a period of 3 years from the operational date of its proposed domestic satellite system, from providing specialized services over such system.[2]

7. Under the circumstances, we are of the opinion that we should not impose at this time any requirement for prior approval of new or revised service offerings by existing or new carriers. Moreover, continuation of such a requirement with respect to existing carriers alone might frustrate effective realization of our policy objectives of promoting full and fair competition in the specialized communications market. In this connection, we expressly concluded in Docket No. 18920 that the "public interest would be served by affording users flexibility and a wide range of choices as to how they may best satisfy their expanding and diverse specialized requirements," noting further that the new entrants were "seeking primarily to develop new services and markets, as well as to tap latent, but undeveloped submarkets for existing services" (29 FCC 2d at 906, 909–910, 923). We further stated that our policy objective is "to promote and maintain an environment within which existing and any new carriers shall have an opportunity to compete fairly and fully in the sale of specialized services"; that "our rate-making and regulatory policies and practices will be appropriately adapted to accomplish this objective"; that "we will not delay the institution of new specialized services by existing or new carriers pending the outcome of" proceedings in the Private Line Rate Case Docket 18128. Finally, we stated that "there is no reason to delay the public benefits that may derive from active and vigorous participation by the Bell System and Western Union in this market, so long as their participation is not a burden upon or significantly detrimental to their other services." (29 FCC 2d, at pages 915–917.)

8. The requirement of prior approval as contemplated by the proposed rule might well operate under current conditions to delay the establishment of service and, in fact, inhibit realization of our policy objectives in Docket 18920. Thus, for example, Microwave Communications, Inc. (MCI), a new carrier entrant, filed new tariffs that went into effect promptly, on 1 day's notice, effective January 1, 1972, inaugurating MCI's new specialized services between St. Louis and Chicago. Similarly, the Western Union Telegraph Co. was able to file and put into effect tariff revisions matching in part the service offerings of MCI, without such tariff offerings being suspended or rejected although we designated the Western Union tariffs for hearing as to the lawfulness thereof. (Western Union/MCI Tariffs; FCC 72–627, Docket No. 19546 released July 25, 1972.) Under the

rules originally proposed herein, neither MCI nor Western Union would have been able to file their tariffs without prior approval from the Commission. We believe that it would be desirable for the time being at least to avoid imposing these particular kinds of strictures on the carriers. If future experience indicates that carrier behavior is designed to defeat our policy objectives of full and fair competition, we will not hesitate to take appropriate corrective and punitive measures under the Communications Act and their applicable statutes.

9. The proposed rules were further designed to promote a situation whereby public interest questions concerning the provision of a new communications service to the public are resolved, to the extent practicable, before the service is commenced. We are not now in a position to determine whether the proposed rules are necessary to further this objective or would be preferable to other approaches. We believe that it would be helpful in this respect to continue to observe the effectiveness of substantial revisions in Part 61 of our rules, which were adopted on October 13, 1970, in Docket No. 18703, and which govern the filing of tariffs (25 FCC 2d 957). As to new service offerings, these revised tariff rules require carriers to submit, at the time of filing, detailed information showing inter alia the basis of rate making employed, cost projections and data as to the impact of the new offering on the carrier's traffic and revenue. The data required are the same as the data we had proposed to be submitted in our rule making herein. Thus, we have established procedures by which we already obtain the same kind of supporting data from the carriers that was contemplated by the proposed rules. Such data has been helpful to the Commission in determining the appropriate regulatory action to be taken on offerings of new classes of service (Western Union/MCI, supra). Accordingly, as further experience with these rules dictates, we will give consideration as to whether and to what extent our existing tariff rules are adequate to accomplish the original objectives of our proposal herein and, if not, whether further changes therein might be more appropriate or desirable than rules of the nature proposed herein.

10. In connection with possible revisions of our tariff rules, we recognize that the termination of the rule making proposed herein will make it possible for domestic carriers, as a general rule, to offer new classes or subclasses of communications service over duly authorized facilities merely by the filing of appropriate tariff revisions properly supported by the cost and other data required by Part 61 and otherwise in conformity with our rules. (Exceptions would apply, for example, where the Commission, by order, might require prior special permission before tariff revisions could be filed affecting tariffs in issue in a pending formal proceeding, such as in Docket 18128). Such tariff revisions would become effective automatically unless rejected or suspended by the Commission. Inasmuch as present rules permit tariff revisions that offer new services to be filed on only 1 day's notice in some cases and on only 30 days' notice in other cases (see 47 CFR 61.58; and 61.60–61.63), we are concerned that such short notice may be insufficient for Commission and interested parties to identify and evaluate the policy and other questions that may be raised by such tariff revisions. Accordingly, in considering further revisions in our tariff rules, we will give consideration to the question of whether or not the notice requirements for tariffs that offer new or revised classes of service should be revised. However, it does not appear necessary to defer termination of the rule-making proceeding herein pending revisions in our tariff rules.

11. Insofar as our original rule making proposal included a proposed rule requiring prior approval before a carrier may discontinue any new or revised classification of service, we have already adopted such a rule (§ 64.702(g)) in our Computer decision of March 18, 1971. (28 FCC 2d 267, 288). Thus, this aspect of our original proposal is no longer necessary.

12. Accordingly, in light of the foregoing, we conclude that termination of that portion of the rulemaking proposal set forth in paragraphs 7–12 of the notice of proposed rulemaking herein would best conduce to the proper dispatch of the Commission's business and to the ends of justice in the circumstances (section 4(j) of the Act).

13. With respect to A.T. & T.'s petition for reconsideration of the condition of the September 4, 1970, authorization granting File No. P–C–7825, it is our opinion that we should grant the petition for the reasons set forth above. We do not reach the question of whether and to what extent we have authority under the Act to condition grants under sections 214 and 309 of the precise manner employed in this case. For the reasons stated, the A.T. & T. condition and other substantially similar conditions placed on domestic authorizations issued since that time will be declared null and void.

14. Turning now to paragraph 14 of the notice of proposed rulemaking concerning the conditions placed by the Common Carrier Bureau on the grant of Pioneer's applications (File No. P–C–7964) for common carrier facilities to provide channel service to a CATV operator. Pioneer challenges the provision stating that service on the authorized facilities "shall include only carriage of television and FM radio broadcast signals, that no other interstate voice, video and digital communications shall be furnished by the applicant over the facilities authorized without prior authorization by the Commission, and that service is provided only to Jonathan Development Corporation, or its successors or assignees" (paragraph 2 above).[2] Upon examination of other authorizations of this nature issued over the past several years, we find that similar conditions have been imposed—though the limitation as to service is sometimes phrased in terms of "no service other than CATV channel service" or "no service other than wide spectrum service." We note in addition that some authorizations contain a condition that the "channel capacity of the coaxial cable facilities is not increased beyond the 12 video channels and 100 FM broadcast channels herein authorized."

15. Conditions of this nature served a useful purpose in the earlier stages of our evolving regulation of CATV. Thus, for example, these conditions facilitated the implementation of our rules and policies respecting limitations on the importation of distant signals by CATV operators. However, these conditions no longer appear necessary in light of our more recent policy determinations and rule changes in the CATV field, such as those encouraging CATV operators to provide services in addition to carriage of broadcast signals, requiring greater channel capacity for new construction in some areas, and requiring certificates of compliance. Moreover, we have recently ruled in the Specialized Carrier proceeding that local carriers and CATV operators are not precluded from making arrangements to provide local distribution facilities for the interstate services of specialized carriers (29 FCC 2d 870, 914, 940, fn. 66). In addition, it appears inequitable to continue to impose the kind of service limitations on the authorization of common carrier facilities that are contained in the Pioneer grant, particularly in light of our instant decision not to require prior authorization at this time for the institution of new or revised classifications of domestic services.

16. Accordingly, we will eliminate the challenged conditions in Pioneer's authorization, and declare null and void for other carriers authorized to provide channel service to CATV systems conditions of the nature described in paragraph 14 above. Such carriers will, of course, continue to be subject to sections 214 and 307–309 of the Communications Act and the Commission's rules implementing those provisions, which may require additional authority.

17. In light of all of the foregoing, *It is ordered*, That:

a. The petition for reconsideration filed by A.T. & T. on October 5, 1970 is granted for the reasons stated herein, and the challenged condition (the second proviso) in the Order and Authorization of September 4, 1970 (FCC 70–955) granting File No. P–C–7825 is deleted.

b. Similar conditions placed on authorizations for domestic facilities issued to A.T. & T., the Western Union Telegraph

[2] Pioneer also claims that a provision requiring it to "make pole attachment or conduit space rights available to any other CATV system in the same telephone service area, upon proper request, within the limitation of technical feasibility, at reasonable charges and without undue restriction as to use," is inappropriate because the instant facilities are to be placed in trenches. However, we think that this condition is proper and consistent with the policies underlying the Commission's Memorandum Opinion and Order in Docket No. 18509 (22 FCC 2d 746). The condition does not require Pioneer to provide trenches to any other CATV operator or impose any other unusual burden not contemplated by Commission in Docket No. 18509.

Co., and other carriers since September 4, 1970, are declared null and void.

c. The Application for Review filed by Pioneer-United Telephone Co., on November 5, 1970, is granted to the extent reflected herein and otherwise denied; and the condition in the second ordering clause of the Order and Certificate of the Chief, Common Carrier Bureau granting File No. P-C-7954 is deleted.

d. Conditions of the nature described in paragraph 14 herein on outstanding authorizations issued pursuant to section 214 of the Communications Act for the construction and operation of facilities to provide broadband channel service to CATV systems and others are declared null and void.

This proceeding is terminated.

Adopted: January 31, 1973.

Released: February 5, 1973.

FM BROADCAST STATIONS, COLORADO SPRINGS, COLO.

Table of Assignments; Order Extending Time for Filing Comments and Reply Comments

In the matter of Amendment of § 73.202(b), *Table of assignments*, FM Broadcast Station. (Colorado Springs, Colo., Docket No. 19644; RM-1886.

1. On December 6, 1972, the Commission adopted a Notice of Proposed Rule Making in the above-captioned proceeding. Publication in the FEDERAL REGISTER was given on December 15, 1972, 37 FR 26740. Comment and reply comment dates are presently designated as January 19, and January 29, 1973, respectively.

2. On January 17, 1973, Western Broadcasting Company, licensee of Station KPIK-FM, Colorado Springs, Colo., and proponent in this proceeding, filed a petition for extension of time in which to submit comments and reply comments to and including January 29, and February 12, 1973, respectively. Counsel states that consulting engineer for Western has been working on a preclusion study but will be unable to meet the present deadline date. Counsel for KYSN Broadcasting Co., the only other party herein, has advised Western's counsel that he has no objection to the grant of this requested extension.

3. We are of the view that the requested extension is warranted and would serve the public interest. *Accordingly, it is ordered*, That the time for filing comments and reply comments in Docket 19644 (RM-1886), is extended to and including January 29, and February 12, 1973.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules.

Adopted: January 19, 1973.

[Docket No. 19677; FCC 73-129]

FM BROADCAST STATIONS, RICHLANDS, VA., AND WELCH, W. VA.

Proposed Table of Assignments

In the matter of amendment of § 73.202(b), Table of assignments, FM Broadcast Stations, (Richlands, Va. and Welch, W. Va.), Docket No. 19677, RM-1949, RM-1911.

1. We have before us, for consideration, two petitions, each requesting the institution of rule making looking toward the assignment of a new FM channel. Although each deals with a different community, the proposals presented are mutually exclusive and therefore they are being considered together in this rule making proceeding.

RM-1949, RICHLANDS, VA.

2. On March 29, 1972, Clinch Valley Broadcasting Corp. (Clinch Valley) filed a petition with this Commission requesting the assignment of FM channel 288A to Richlands, Va. No other revisions in our FM Table of Assignments were proposed. No comments were filed in respect to the petition.

3. Richlands, Va. (population 4,843)[1] is located in Tazewell County (population 39,816). The only aural facility located in Richlands is a daytime-only standard broadcast station licensed to petitioner, WRIC. Our FM Table of Assignments, at the present time, does not contain an FM assignment for the community.

4. Petitioner advises us that Richlands is located in the mountainous southwestern part of the Commonwealth of Virginia. We are told that the primary industries located in the area are the coal industry and its related services. There are 2,940 people employed in the area's five largest mines and service industries. Significant numbers of people are also employed in manufacturing and agriculture. Principal manufactured products include mining machinery, bricks, caskets, and wearing apparel. It is Clinch Valley's belief that the mining industry generally will be gaining economic strength in future years and that the Richlands area will benefit both from such a general development and the substantial investment made in developing mining in the area of Richlands by major owners. In addition to being the prime medical center for the area with approximately 500 persons employed in Richlands' two hospitals the community has the only institution of higher education in the area, Southwest Virginia Community College (with an enrollment of over 1,000 students) which serves Richlands and the adjuacent area as a 2-year institution. Too, Richlands appears to be a hub for economic activity with over 60 retail stores serving the surrounding area within a 25-mile radius which is asserted to include a total population of more than 50,000 persons. In conclusion the petition states:

> Clinch Valley strongly urges and firmly believes that the people of this relatively remote and mountainous area of southwestern Virginia need a first local FM broadcast service. The existing station in the community, Station WRIC, does not have pre-sunrise operating authority, is daytime only, and is severely limited in its capacity to disseminate early morning weather reports and news of road conditions and school operations, particularly during the winter months. An unlimited FM broadcast operation in Richlands would make possible the first time local broadcast coverage [sic] of evening news, social and political events of interest to the people, and evening coverage of local high school sports events. An FM station would also be of value in filling a general void in recreational and entertainment facilities in the Richlands area by making possible the broadcast of educational, informational, and entertainment programs * * *.

RM-1911, WELCH, WEST VIRGINIA

5. Pocahontas Broadcasting Co. (Pocahontas) requested the assignment of Channel 288A to Welch, W. Va., in a filing made on January 19, 1972. The filing was exceedingly brief and composed in its entirety of an engineering statement and a simple request that the channel be assigned to Welch. No supporting material was later filed nor were there comments filed concerning the petition.

6. The only information we have before us concerning Pocahontas' request is, that Channel 288A can be assigned to Welch in compliance with our minimum mileage separation requirements, that McDowell County, West Virginia (population 50,666) contains the small community of Welch (population 4,149) and that the community has no FM assignment. Two standard broadcast stations are licensed in the community: WELC, a daytime-only operation, licensed to petitioner and WXEE, an unlimited-time service, licensed to Davis Major Communications Corp.

PRELIMINARY EVALUATION

7. An examination of the record indicates to us that Clinch Valley has made a showing which requires that its proposal to assign Channel 288A to Richlands, Va., be examined in a rule making proceeding. Although Pocahontas has not made such a showing, since its proposal to assign Channel 288A to Welch, W. Va., is mutually exclusive with Clinch Valley's proposal to assign Channel 288A

[4] Commissioners Johnson and Hooks dissenting; Commissioner Reid not participating.

[1] All population figures cited are from the 1970 U.S. Census unless otherwise specified.

to Richlands, Va.[2] we are setting out Pocahontas' proposal as a possible alternative to the proposal that Channel 288A be assigned to Richlands, Va. This is in order to provide all interested parties an opportunity to set out the public interest factors involved in the use of Channel 288A in either Richlands, Va., or Welch, W. Va.

8. Accordingly, we propose the following alternative revisions in our FM Table of Assignments (Section 73.202(b) of our Rules) with respect to the cities listed below:

City	Channel No.	
	Present	Proposed
ALTERNATIVE I		
Richlands, Va.		288A
ALTERNATIVE II		
Welch, W. Va.		288A

[2] Since Richlands, Va., is located approximately 26 miles southwest of Welch, W. Va., and the required separation between co-channels in this instance is 65 miles, Channel 288A can only be assigned to one of the two communities. There appear to be no other channels available for assignment to this area. If Channel 288A is assigned to Richlands the transmitter site will have to be located approximately 5 miles northeast of the community due to the existing assignments on Channel 288A at Prestonburg, Ky., and Channel 289 at Statesville, N.C.

9. Authority for the action proposed herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

10. *Showings required.* Proponents of either proposal are expected to file comments indicating the public interest factors involved in the proposal they advance. This can be done, in large part, by discussing the sociological, economic and governmental activities in the community of their preference. In the event a proponent is of the view that it has made a sufficient public interest showing, it should restate its intention to apply for the channel if it is assigned and, if authorized, to build the station promptly. Failure to file may lead to denial of a request.

11. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposals in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

12. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before March 16, 1973, and reply comments on or before March 26, 1973. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

13. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

14. All filings made in this proceeding will be available for examination for interested parties during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C. (1919 M Street NW.).

Adopted: January 31, 1973.

Released: February 5, 1973.

[Public Notice 379]

PROPOSED OCEAN DUMPING CONVENTION

Availability of Final Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 the Department of State has prepared a final Environmental Impact Statement which evaluates the effects of U.S. ratification of the Convention on teh Prevention of Marine Pollution by Dumping of Wastes and Other Matter.

The convention was negotiated at an Intergovernmental Conference which was held in London, from October 30 to November 13, 1972, and was signed by the United States and several other nations on December 29, 1972. The Senate's advice and consent to U.S. ratification will be sought in the near future.

The full text of the convention was made available by the Department of State to the public in a press release (No. 287) which was issued on November 20, 1972. The convention prohibits the deliberate disposal at sea from vessels and aircraft of certain dangerous substances and would require permits for the dumping of other substances in accordance with detailed criteria. The terms of the convention are compatible with the recently enacted Federal legislation governing ocean dumping (The Marine Protection Research and Sanctuaries Act of 1972, Public Law 92-532 enacted October 23, 1972) although some minor additional U.S. legislation is required for purposes of conformance.

A draft environmental impact statement dealing with this subject was circulated to the interested Federal and State agencies on October 2, 1972, and notice as to the public availability of the draft was printed in the FEDERAL REGISTER on October 11, 1972 (Public Notice 368, 37 FR 21449). A public hearing on the draft impact statement was held in Arlington, Va., on October 26, 1972.

Circulation of the draft impact statement predated the London conference and the statement focused its attention on the principal issues to be considered by the conference as specifically manifested by the draft convention which had been produced by the intergovernmental meeting on ocean dumping at Reykjavik Iceland from April 10-15, 1972, as amended at the intergovernmental meeting on ocean dumping at London on May 30 and 31, 1972. The final impact statement differs from the earlier draft in that it addresses itself to the final text of the convention as it was actually negotiated rather than the earlier Reykjavik and London texts.

Copies of the final environmental impact statement may be obtained by writing to the National Technical Information Service Department of Commerce, Springfield, Va. 22151.

The NTIS identifying number for the statement is S/EIS-AA-73-0001-Final.

CAPE COD NATIONAL SEASHORE ADVISORY COMMISSION

Notice of Meeting

Notice is hereby given in accordance with Public Law 92-463 that a meeting of the Cape Cod National Seashore Advisory Commission will be held at 1:30 p.m. on Friday, February 23, 1973, at Headquarters Building, Cape Cod National Seashore, Marconi Station Area, South Wellfleet, Mass.

The Commission was established by Public Law 87-126 to meet and consult with the Secretary of the Interior on general policies and specific matters relating to the development of Cape Cod National Seashore.

The members of the Commission are as follows:

Mr. Joshua A. Nickerson (Chairman), Chatham, Mass.
Mr. Nathan Malchman (Vice Chairman), Provincetown, Mass.
Mr. Linnell E. Studley (Secretary), Orleans, Mass.
Mr. Arthur W. Brownell, Boston, Mass.
Mr. Ralph A. Chase, Eastham, Mass.
Dr. Norton H. Nickerson, Reading, Mass.
Stephen R. Perry, Truro, Mass.
Chester A. Robinson, Jr., Harwich, Mass.
David F. Ryder, Chatham, Mass.
Mrs. Esther Wiles, Wellfleet, Mass.

The matters to be discussed at this meeting include offroad vehicle use in the Province Lands and use of part of the former Mitre Site in Truro as a possible youth hostel.

Facilities and space for accommodating members of the public are limited.

Further information concerning this meeting may be obtained from Leslie P. Arnberger, Superintendent, Cape Cod National Seashore, South Wellfleet, Mass. 02663, at 617—349-3785. Minutes of the meeting will be available for public inspection 4 weeks after the meeting at the office of the Superintendent, Cape Cod National Seashore, South Wellfleet, Mass.

[Docket No. M 73-24]

ROCHESTER & PITTSBURGH COAL CO.

Notice of Modification of Safety Standard

Notice is hereby given that, pursuant to section 301(c) of the Federal Coal Mine Health and Safety Act (30 U.S.C. section 801 et seq.) (Act) Rochester &

Pittsburgh Coal Co., whose address is 655 Church Street, Indiana, PA 15701 (Petitioner) has filed a petition to modify the application to it of the safety standard set out in sections 305(n) of the Act and § 75.519 of the implementing standards (30 CFR 75.519).

Said section 305(n) sets forth the safety standard as follows:

> In all main power circuits, disconnecting switches shall be installed underground within 500 feet of the bottoms of shafts and boreholes through which main power circuits enter the underground area of the mine and within 500 feet of all other places where main power circuits enter the underground area of the mine.

Petitioner requests that the application of said section to its Jane Nos. 1 and 2 mine, located in Armstrong County, Pa., be modified to permit the location of disconnect switches at distances greater than 500 feet at three separate locations therein, as follows:

> Eight hundred twenty (820) feet from the bottom of Jane 1 shaft;
> One thousand eighty (1,080) feet from the bottom of Jane 2 shaft; and,
> Six hundred twenty (620) feet from bottom of Jane 3 shaft.

Petitioner avers that the alternate method will achieve the result of said standard and will at all times guarantee no less than the same protection afforded the miners because the proposed locations will be more accessible and in close proximity to normal travel areas; allowing more miners to have knowledge of their location; and, because the switches will be closer to the track system, the switches could be opened more quickly if the need arose. Petitioner further avers that since the shafts through which the power cables enter are air shafts and not portals through which men normally travel, the (standard) would result in (the switches) being in remote areas with which the men are unfamiliar, thereby resulting in a diminution of safety.

Any party interested in this petition shall file his answer or comments, with request for hearing if desired, within thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER, with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, VA 22203. Copies of the petition are available for inspection at that address.

Bureau of East-West Trade

[Case No. 440-B]

LING DYNAMIC SYSTEMS, LTD.

Order Denying Export Privileges

In the matter of Ling Dynamic Systems Limited, Baldock Road, Royston, Hertfordshire, England, Respondent, Case No. 440-B.

On June 14, 1972 the Director, Compliance Division, Office of Export Control, Bureau of East-West Trade,[1] issued a charging letter against the above respondent and Ling Electronics Division, Altec Corp., Anaheim, Calif.,[2] alleging violations of the Export Administration Act of 1969. The charging letter was duly served and the respondent (respondent as used in this order refers only to Ling Dynamic Systems Ltd.) appeared by counsel and filed an answer to the charges.

As to the above respondent the charging letter alleges in substance, that it received certain strategic commodities that were exported from the United States by Ling Electronics for demonstrating or testing in the United Kingdom and that respondent with knowledge of this restriction and without authorization from OEC reexported the commodities to a country that would not have been authorized by OEC.

Pursuant to § 388.10 of the Export Control Regulations, with agreement of the Director, Compliance Division, there was submitted to the Hearing Commissioner a consent proposal for an order imposing sanctions as hereinafter set forth. In said consent proposal the respondent for the purpose of this compliance proceeding only, admitted the charges set forth in the charging letter of June 14, 1972. The respondent waived all rights to an oral hearing before the Hearing Commissioner and also waived all rights of administrative appeal from and judicial review of such order as may be issued. The consent proposal was submitted with the understanding that certain exceptions from the denial order would be granted at the time the order was issued.

The Hearing Commissioner has considered the facts in the case, the respondent's proposal, and the exceptions from the denial order which the consent proposal contemplates. He has approved the consent proposal and recommended that it be accepted and he also recommended that certain exceptions be granted. The undersigned having considered the record in the case and the Hearing Commissioner's recommendations, hereby makes the following

FINDINGS OF FACT

1. The respondent Ling Dynamic Systems Ltd., is a British corporation located in Royston, Hertfordshire, England. Among other activities, it is engaged in the manufacture of test equipment and in the sale, distribution, and servicing of certain electronic devices, electrical sound and sound enforcing equipment.

2. On February 25, 1971, Ling Electronics, a division of LTV Ling Altec, Inc. (the name of the corporation has since been changed to Altec Corp.), Anaheim, Calif., submitted to the Office of Export Control an application for a license to export to the respondent in the United Kingdom certain vibration testing equipment, namely an automatic dynamic spectral density equalizer/analyzer valued at $40,800. It was represented that the commodities to be exported would be used for demonstration by the respondent at its premises in Royston, Hertfordshire, England, and would be returned to the United States at the conclusion of the demonstration. It was further represented that if the commodities were not returned to the United States at the end of the demonstration they would not otherwise be disposed of without prior authorization from OEC.

3. The application was approved and an export license was issued authorizing the exportation to respondent. The export license stated that the commodities were being "exported for demonstration or testing in the United Kingdom and may not be sold or transferred without prior authorization" from OEC.

4. On March 19, 1971, Ling Electronics exported the equipment to respondent. The commercial invoice covering the export stated "These commodities licensed by the United States for ultimate destination England. Diversion contrary to U.S. law prohibited".

5. At the time the equipment was exported from the United States the respondent had a firm purchase order for the equipment from a customer in another country and intended to reexport the equipment from the United Kingdom to said customer.

6. Neither the respondent nor Ling Electronics obtained authorization from OEC to reexport the equipment from the United Kingdom. The respondent knew or should have known that such authorization was required. On June 30, 1971, the respondent reexported the equipment from the United Kingdom to its customer in a country for which OEC would not have granted reexport authorization.

Based on the foregoing I have concluded that the respondent Ling Dynamic Systems Ltd. violated sections 387.2, 387.4, and 387.6 of the U.S. Export Control Regulations in that without specific authorization from the Office of Export Control it knowingly reexported and caused to be reexported U.S.-origin commodities from the United Kingdom to a country that was not authorized, contrary to section 374.1 of said regulations.

On consideration of the record in the case and the recommendation of the Hearing Commissioner, I accept the consent proposal and, *It is hereby ordered:*

I. All outstanding validated export licenses (except those that are covered by the exceptions referred to in Part II of this order) in which respondent appears or participates in any manner or capacity are hereby revoked and shall be returned forthwith to the Bureau of East-West Trade for cancellation.

II. Except as qualified in Part IV hereof the respondent for a period of 39 months from the effective date of this

[1] Under departmental orders effective Nov. 17, 1972, the Office of Export Control which was formerly in the Bureau of International Commerce, is now in the Bureau of East-West Trade. (37 FR 25555 and 25557).

[2] A separate order is being issued at this time against Ling Electronics Division.

order is hereby denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States, in whole or in part, or to be exported, or which are otherwise subject to the export regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control documents; (d) in the carrying on of negotiation with respect to, or in the receiving, buying, selling, delivering, storing, using, or disposing of any commodities or technical data; (e) in the financing forwarding, transporting or other servicing of such commodities or technical data.

Certain exceptions from the denial order have been granted in a letter to respondent issued concurrently with this order. The dealings of the respondent within the terms of said exceptions shall not be considered to be a violation of this denial order.

III. The denial of export privileges in this order shall extend not only to respondent but also to its successors, representatives, agents and employees and to any other person, firm, corporation or other business organization with which the respondent now or hereafter may be related by ownership, control, position of responsibility, affiliation or other connection in the conduct of trade or services connected therewith.

IV. Three months after the effective date of this order without further order of the Bureau of East-West Trade, the respondent shall have its export privileges restored conditionally and thereafter for the remainder of the denial period said respondent shall be on probation. The conditions of probation are that said respondent shall fully comply with all requirements of the Export Administration Act of 1969, as amended by the Equal Export Opportunity Act and all regulations, licenses, and orders issued thereunder and with the terms and conditions of the exceptions referred to in Part II above.

V. Upon a finding by the Director, Office of Export Control or such other official as may be exercising the duties now exercised by him, that the respondent has knowingly failed to comply with the requirements and conditions of this order or with any of the conditions of probation, said official without notice, when national security or foreign policy considerations are involved, or with notice if such considerations are not involved, by supplemental order may revoke the probation of said respondent, revoke all outstanding validated export licenses to which said respondent may be a party and deny to said respondent all export privileges for the period of the order. Such supplemental order shall not preclude the Bureau of East-West Trade from taking such further action for any violation as it shall deem warranted. On the entry of a supplemental order revoking respondent's probation without notice, it may file objections and request that such order be set aside and may request an oral hearing as provided in section 388.16 of the Export Control Regulations, but pending such further proceedings the order of revocation shall remain in effect.

VI. During the time when respondent or other persons within the scope of this order are prohibited from engaging in any activity within the scope of Part II hereof, no person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of East-West Trade, shall do any of the following acts, directly or indirectly, in any manner or capacity, on behalf of or in any association with the respondent or other persons denied export privileges within the scope of this order, or whereby said respondent or such other persons may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for the respondent or other persons denied export privileges within the scope of this order; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

The dealings of such parties with the respondent within the terms of the exceptions referred to in Part II hereof shall not be considered to be a violation of this denial order.

This order shall become effective on February 2, 1973.

Dated: February 2, 1973.

[Case No. 440-A(CP-24)]

LING ELECTRONICS DIVISION, ALTEC CORP.

Order Imposing Civil Penalties and Placing Respondent on Probation for Export Control Violations

In the matter of Ling Electronics Division, Altec Corp., 1515 South Manchester Avenue, Anaheim, Calif. 92803, Respondent, Case No. 440-A(CP-24).

On June 14, 1972, the Director, Compliance Division, Office of Export Control, Bureau of East-West Trade,[1] issued a charging letter against the above respondent[2] and Ling Dynamic Systems Ltd., Royston, Hertfordshire, England[3] alleging violations of the Export Administration Act of 1969. The charging letter was duly served and the respondent (respondent as used in this order refers only to Ling Electronics Division, Altec Corp., hereinafter Ling Electronics) appeared by counsel and filed an answer to the charges.

The charging letter alleges in substance as follows:

On two occasions in 1971 the respondent applied for validated licenses to export vibration testing instruments to Ling Dynamic in England for demonstration purposes; the licenses were issued and exportations of the instruments for demonstration purposes were authorized; the licenses stated that the instruments may not be sold or transferred without prior authorization from OEC; the respondent exported the instruments; the respondent knew or had reason to know that Ling Dynamic intended to sell the instruments and respondent failed to notify OEC of this change of intended use, as it was required to do; in one instance Ling Dynamic sold and reexported the instrument to its customer in another country and in the other instance Ling Dynamic sold the instrument to a customer in the United Kingdom.

Pursuant to § 388.10 of the export control regulations, with agreement of the Director, Compliance Division, there was submitted to the Hearing Commissioner a consent proposal for an order imposing sanctions as hereinafter set forth. In said consent proposal the respondent for the purpose of this compliance proceeding only, admitted the charges set forth in the charging letter of June 14, 1972. The respondent waived all rights to an oral hearing before the Hearing Commissioner and also waived all rights of administrative appeal from and judicial review of such order as may be issued.

The Hearing Commissioner has considered the facts in the case and the respondent's proposal. He has approved the consent proposal and recommended that it be accepted. The undersigned having considered the record in the case and the Hearing Commissioner's recommendations hereby makes the following.

FINDINGS OF FACT

1. The respondent Ling Electronics Division, Altec Corp., formerly Ling Electronics Division, LTV Ling Altec, Inc.

---

[1] Under departmental orders effective Nov. 17, 1972, the Office of Export Control which was formerly in the Bureau of International Commerce, is now in the Bureau of East-West Trade. (37 FR 25555 and 25557.)

[2] In the charging letter this respondent was named as Ling Electronics Division of LTV Ling Altec, Inc. The name of the corporation has been changed to Altec Corp.

[3] A separate order is being issued at this time against Ling Dynamic Systems.

(hereinafter Ling Electronics), located in Anaheim, Calif., is engaged in engineering and manufacturing vibration and electrical sound equipment.

2. On February 12, 1971, Ling Dynamic Systems Ltd., Royston, Hertfordshire, England (hereinafter Ling Dynamic) placed a consignment order with Ling Electronics for certain vibration testing equipment, namely, "an automatic dynamic spectral density equalizer/analyzer," valued at $40,800. Ling Dynamic represented to Ling Electronics that it needed the instrument for testing and demonstration and possible subsequent sale in the United Kingdom. Ling Electronics confirmed the order on February 19, 1971.

3. On February 25, 1971, Ling Electronics submitted to the Office of Export Control an application for a license to export the above instrument to Ling Dynamic. As part of the application Ling Electronics represented that the commodities to be exported would be used for demonstration by Ling Dynamic at its premises and would be returned to the United States at the conclusion of the demonstration. It was further represented that if the commodities were not returned to the United States at the end of the demonstration they would not be otherwise disposed of without prior written authorization from OEC.

4. The application was approved and an export license was issued authorizing the exportation to Ling Dynamic. The export license stated that the commodities were being exported for demonstration or testing in the United Kingdom and may not be sold or transferred without prior authorization from OEC.

5. On March 19, 1971, Ling Electronics exported the equipment to Ling Dynamic. The commercial invoice covering the export stated, "These commodities licensed by the United States for ultimate destination England. Diversion contrary to U.S. law prohibited."

6. On May 17, 1971, the respondent Ling Electronics knew that Ling Dynamic intended to sell the instrument to a customer and it also knew that the instrument would not be returned to the United States. Ling Electronics did not report this change of facts of the export transaction to the Department of Commerce as required.

7. Neither Ling Electronics nor Ling Dynamic obtained authorization to dispose of the instrument in a manner different from that represented in the application for the export license. On June 30, 1971, Ling Dynamic re-exported the instrument from the United Kingdom to its customer in another country.

8. On May 13, 1971, Ling Dynamic submitted to respondent, Ling Electronics, a second consignment order for an instrument of the type described in finding 2. On June 4, 1971, the respondent submitted to OEC an application for a license to export this instrument to Ling Dynamic. The representations in the application with regard to the commodities to be exported were the same as those described in finding 3.

9. The application was approved and an export license was issued on June 18, 1971, authorizing the exportation to Ling Dynamic. The export license bore the same statement as that which is quoted in finding 4.

10. On October 8, 1971, Ling Electronics exported the instrument to Ling Dynamic. At the time it made this exportation it knew or had reason to know that Ling Dynamic had a firm purchase order from a customer and intended to sell the instrument and that the instrument would not be returned to the United States. The respondent did not report this change of facts of the export transaction to the Department of Commerce as required.

11. Neither Ling Electronics nor Ling Dynamic obtained authorization to dispose of the instrument in a manner different from that represented in the application for the export license as set forth in the license. On December 16, 1971, Ling Dynamic sold the instrument to another company in the United Kingdom.

Based on the foregoing I have concluded that on two occasions the respondent Ling Electronics violated §§ 387.4 and 387.5 of the U.S. Export Control Regulations in that it concealed material facts from the Office of Export Control in that it knowingly failed to notify the Office of Export Control of changes in material facts and intentions from those previously represented and certified.

On consideration of the record in the case and the recommendation of the Hearing Commissioner, I accept the consent proposal and, *It is hereby ordered:*

I. Pursuant to § 388.1(a)(4) of the Export Control Regulations civil penalties totalling two thousand dollars ($2,000) are imposed on respondent, being a civil penalty of $1,000 for the violations set forth in charge I of the charging letter of June 14, 1972 and a civil penalty of $1,000 for the violations set forth in charge II of said charging letter.

II. In addition to the foregoing civil penalties the respondent is placed on probation for a period of 3 years from the date of this order. The conditions of probation are that respondent shall fully comply with all requirements of the Export Administration Act of 1969, as amended by the Equal Export Opportunity Act, and all regulations, licenses, and orders issued thereunder.

III. Upon a finding by the Director, Office of Export Control, or such other official as may be exercising the duties now exercised by him, that the respondent has knowingly failed to comply with the requirements and conditions of this order or with any of the conditions of probation said official, without notice when national security or foreign policy considerations are involved, or with notice if such considerations are not involved, by supplemental order may revoke all outstanding validated export licenses to which said respondent may be a party and deny to said respondent all export privileges for the period of the order. Such supplemental order shall not preclude the Bureau of East-West Trade from taking such further action for any violation as it shall deem warranted.

On the entry of a supplemental order revoking respondent's probation without notice, it may file objections and request an oral hearing as provided in § 388.16 of the Export Control Regulations, but pending such further proceedings the order of revocation shall remain in effect. This order shall become effective on February 2, 1973.

Dated: February 2, 1973.

RAUER H. MEYER,
Director, Office of Export Control, Bureau of East-West Trade.

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00105-33-78060. Applicant: Boston University, School of Medicine, 80 East Concord Street, Boston, MA 02118. Article: Microspectrophotometer, Model MMSP. Manufacturer: Olympus Optical Co., Ltd., Japan. Intended use of article: The article is intended to be used to analyze retinal photographs in evaluating a variety of treatments of presently incurable eye diseases in humans.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant intends to use the foreign article in the analysis of retinal photographs to evaluate oxygen concentration of the blood of the eye as a guide to methods of treating disease. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated December 8, 1972, that this highly specialized research requires the general suitability of the article, as well as its accuracy and the sensitivity of a filter dispersion unit. HEW advised these characteristics of the foreign article are pertinent to the intended research, and that it knows of no domestic instrument of equivalent scientific value for the purposes for which the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before March 1, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Research involves the following projects:

(1) Determination of the physical characteristics of such a high energy electron beam.
(2) Investigation of modifications of the beam caused by inhomogenity interfaces in the body.
(3) Development of computer programs for use in radiation dosimetry of electron beam.
(4) Studies into variations of relative biological effectiveness in depth in a high energy electron beam.
(5) Randomized clinical trials testing the effectiveness of electrons as compared with X-rays in the treatment of cancer patients.

The article will also be used for teaching the principles of electron beam therapy to both undergraduate and graduate students of Jefferson Medical College, Philadelphia, Pa. In addition the article will be used in treatment of some cancer patients. Application received by Commissioner of Customs: January 12, 1973.

CENSUS ADVISORY COMMITTEE ON PRIVACY AND CONFIDENTIALITY

Notice of Public Meeting

The Census Advisory Committee on Privacy and Confidentiality will convene on February 20, 1973 at 9:30 a.m. The Committee will meet in Room 2113, Federal Building 3, at the Bureau of the Census in Suitland, Md.

The Census Advisory Committee on Privacy and Confidentiality was established on October 7, 1971, to advise the Director, Bureau of the Census, on policy and procedure concerning the purpose and scope of census inquiries and on all aspects of privacy and confidentiality as they relate to the statistical work of the Bureau.

The Committee is composed of 15 members appointed by the Secretary of Commerce.

The agenda for the meeting includes: (1) Handling of complaints of invasion of privacy through the economic census reports, (2) discussion of the California Constitutional Amendment on the Right to Privacy, (3) National Archives and Records Service view of the confidentiality of census records, and (4) latest developments in the Industrial Directory.

A limited number of seats—approximately 15—will be available to the public. A brief period will be set aside for public comment. Questions or extended statements must be submitted in writing to the Committee guidance and control officer at least 3 days prior to the meeting.

Persons wishing additional information concerning this meeting should contact the Committee guidance and control officer, Mr. Mathew E. Erickson, legal advisor, Bureau of the Census, Room 3686, Federal Building 3, Suitland, Md. (Mail address: Washington, D.C. 20233), telephone 301—763-2818.

Food and Drug Administration

[DESI 8658; Docket No. FDC-D-542; NDAs 8-658, etc.]

CERTAIN ANALGESIC-ANTITUSSIVE AND/OR ANTIHISTAMINE COMBINATIONS

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs:

1. Novrad with A.S.A. Pulvules containing levopropoxyphene napsylate and aspirin; Eli Lilly & Co., Post Office Box 618, Indianapolis, IN 46206 (NDA 13-097).

2. Coricidin with Codeine Phosphate Tablets containing chlorpheniramine maleate, codeine phosphate, aspirin, phenacetin, and caffeine; Schering Corp., 1011 Morris Avenue, Union, NJ 07083 (NDA 8-658).

The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that there is a lack of substantial evidence, within the meaning of the Federal Food, Drug, and Cosmetic Act, that these fixed combinations drugs will have the effect that they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling or that each component of the combination contributes to the total effect claimed for the drug.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 (e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s) currently formulated, evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In lieu of a request for a hearing, any holder of a new drug application may file with the hearing clerk (address given below) on or before March 12, 1973, a notice of intent to reformulate and relabel the product. Prior to the submission of supplements providing for such reformulation and relabeling, such persons are invited to discuss the proposed changes with the Office of Scientific Evaluation (BD-100) of the Bureau of

Drugs. This notice will be rescinded with respect to any product(s) satisfactorily reformulated and relabeled.

All identical, related or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before March 12, 1973, the applicant(s) and any other interested person is required to file with the hearing clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing concerning the products as currently formulated. Failure of an applicant or any other interested person to file a written appearance of election on or before March 12, 1973, will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, or the opportunity to reformulate the product(s), the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before March 12, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) as currently formulated, for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of March 12, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the office of the hearing clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1050-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: February 5, 1973.

Acting Associate Commissioner for Compliance.

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs:

1. Phenergan Expectorant With Codeine containing codeine phosphate, promethazine hydrochloride, ipecac fluidextract, potassium guaiacolsulfonate, chloroform, citric acid, and sodium citrate; Wyeth Laboratories, Inc., Division of American Home Products Corp., Post Office Box 8299, Philadelphia, PA 19101 (NDA 8-306).

2. Phenergan Expectorant Plain containing promethazine hydrochloride, ipecac fluidextract, potassium guaiacolsulfonate, chloroform, citric acid, and sodium citrate; Wyeth Laboratories, Inc. (NDA 8-604).

3. Phenergan VC Expectorant Plain containing promethazine hydrochloride, phenylephrine hydrochloride, ipecac fluidextract, potassium guaiacolsulfonate, chloroform, citric acid, and sodium citrate; Wyeth Laboratories, Inc. (NDA 8-604).

4. Phenergan VC Expectorant With Codeine containing codeine phosphate, promethazine hydrochloride, phenylephrine hydrochloride, ipecac fluidextract, potassium guaiacolsulfonate, chloroform, citric acid, and sodium citrate; Wyeth Laboratories, Inc. (NDA 8-306).

5. Pediatric Phenergan Expectorant With Dextromethorphan containing dextromethorphan hydrobromide, promethazine hydrochloride, ipecac fluidextract, potassium guaiacolsulfonate, chloroform, citric acid, and sodium citrate: Wyeth Laboratories, Inc. (NDA 11-265).

6. Phenergan Expectorant Troches Plain containing promethazine hydrochloride, ipecac powdered extract, and potassium guaiacolsulfonate; Wyeth Laboratories, Inc. (NDA 8-893).

7. Phenergan Expectorant Troches With Codeine containing codeine phosphate, promethazine hydrochloride, ipecac powdered extract, and potassium guaiacolsulfonate; Wyeth Laboratories, Inc. (NDA 8-670).

8. Dimetane Expectorant containing brompheniramine maleate, phenylephrine hydrochloride, phenylpropanolamine hydrochloride, and glyceryl guaiacolate; A. H. Robins Co., 1407 Cummings Drive, Richmond, VA 23220 (NDA 11-694).

9. Dimetane Expectorant-DC containing codeine phosphate, brompheniramine maleate, phenylephrine hydrochloride, phenylpropanolamine hydrochloride, and glyceryl guaiacolate; A. H. Robins Co. (NDA 11-694).

10. Omni-Tuss Suspension containing codeine, phenyltoloxamine, chlorpheniramine, ephedrine (all as cation exchange resin complexes of sulfonated polystyrene), and guaiacol carbonate; Strasenburgh Laboratories, Division of Pennwalt Corp., 755 Jefferson Road, Rochester, NY 14623 (NDA 12-666).

11. Tussionex Tablets and Suspension each containing dihydrocodeinone and phenyltoloxamine (all as cation exchange resin complexes of sulfonated polystyrene); Strasenburgh Laboratories (NDAs 10-768 and 10-768A).

12. Ulogesic Tablets containing chlophedianol hydrochloride, diphenylpyraline hydrochloride, phenylephrine hydrochloride, glyceryl guaiacolate, and acetaminophen; Riker Laboratories, Division of Dart Industries, Inc., 19901 Nordhoff Street, Northridge, CA 91324 (NDA 12-910).

13. Ulominic Syrup containing chlophedianol hydrochloride, diphenylpyraline hydrochloride, phenylephrine hydrochloride, and glyceryl guaiacolate; Riker Laboratories (NDA 12-909).

14. Coditrate Syrup containing hydrocodone bitartrate, potassium guaiacolsulfonate, sodium citrate, citric acid,

chloroform, menthol, thymol, and tolu; The Central Pharmacal Co., 116–128 East Third Street, Seymour, IN 47274 (NDA 6–529).

15. Methajade Liquid containing methadone hydrochloride, phenylpropanolamine hydrochloride, potassium citrate, and phosphoric acid; Merck Sharp & Dohme, Division of Merck & Co., Inc., West Point, Pa. 19486 (NDA 6–584).

16. Thephorin Expectorant containing phenindamine tartrate, codeine phosphate, papaverine hydrochloride, ammonium chloride, and chloroform; Roche Laboratories, Division Hoffmann-La Roche, Inc., Roche Park, 340 Kingsland Street, Nutley, NJ 07110 (NDA 6–303).

17. Actifed-C Expectorant containing codeine phosphate, triprolidine hydrochloride, pseudoephedrine hydrochloride, and glyceryl guaiacolate; Burroughs Wellcome & Co., Inc., 3030 Cornwallis Road, Research Triangle Park, NC 27709 (NDA 12–575).

18. Clistin Expectorant containing carbinoxamine maleate, ammonium chloride, sodium citrate, potassium guaiacolsulfonate, chloroform, and benzyl alcohol; McNeil Laboratories, Inc., Camp Hill Road, Fort Washington, Pa. 19034 (NDA 9–248).

19. Tuss-Ornade Liquid containing caramiphen edisylate, chlorpheniramine maleate, phenylpropanolamine hydrochloride, and isopropamide iodide; Smith, Kline & French Laboratories, 1500 Spring Garden Street, Philadelphia, PA 19101 (NDA 13–068).

20. Tuss-Ornade Spansules containing caramiphen edisylate chlorpheniramine maleate, phenylpropanolamine hydrochloride, and isopropamide iodide; Smith, Kline & French Laboratories (NDA 12–903).

21. Benylin Expectorant containing diphenhydramine hydrochloride, ammonium chloride, sodium citrate, chloroform, and menthol; Parke, Davis & Co., Joseph Campau Avenue at the River, Detroit, Mich. 48232 (NDA 6–514).

22. Ambenyl Expectorant containing codeine sulfate, bromodiphenhydramine hydrochloride, diphenhydramine hydrochloride, ammonium chloride, potassium guaiacolsulfonate, and menthol; Parke, Davis & Co. (NDA 9–319).

23. Cothera Compound containing dimethoxanate hydrochloride, isothipendyl hydrochloride, phenylephrine hydrochloride, acetaminophen, ammonium chloride, sodium citrate, and chloroform; Ayerst Laboratories, 685 Third Avenue, New York, NY 10017 (NDA 11–706).

The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that there is a lack of substantial evidence, within the meaning of the Federal Food, Drug, and Cosmetic Act, that these fixed combination drugs will have the effect that they purport or are represented to have under the conditions of use, prescribed, recommended, or suggested in the labeling or that each component of the combination contributes to the total effect claimed for the drug.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 (e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s) currently formulated, evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In lieu of a request for a hearing, any holder of a new drug application may file with the hearing clerk (address given below) on or before March 12, 1973, a notice of intent to reformulate and relabel the product. Prior to the submission of supplements providing for such reformulation and relabeling, such persons are invited to discuss the proposed changes with the Office of Scientific Evaluation (BD–100) of the Bureau of Drugs. This notice will be rescinded with respect to any product(s) satisfactorily reformulated and relabeled.

All identical, related or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, MD 20852.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before March 12, 1973, the applicant(s) and any other interested person is required to file with the hearing clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing concerning the products as currently formulated. Failure of an applicant or any other interested person to file a written appearance of election on or before March 12, 1973, will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, or the opportunity to reformulate the product(s), the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before March 12, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) as currently formulated, for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the office of the hearing clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 355), and the Ad-

ministrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: February 5, 1973.

Acting Associate Commissioner for Compliance.

CERTAIN ANTIHYPERTENSIVE COMBINATIONS CONTAINING A VERATRUM ALKALOID

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences—National Research Council, Drug Efficacy Study Group on the following drugs for oral use:

1. Diutensen tablets containing cryptenamine (as tannate salts) and methyclothiazide, and

2. Dieutensen-R tablets containing cryptenamine (as tannate salts) methyclothiazide, and reserpine; both marketed by Mallinckrodt Chemical Works, Pharmaceutical Products Division, Post Office Box 5439, St. Louis, MO 63160 (NDA 12-708).

The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that there is a lack of substantial evidence, within the meaning of the Federal Food, Drug, and Cosmetic Act, that each component of the combination drugs contributes to the total effect claimed for the drug, and that these fixed combination drugs will have the effect that they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 (e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or after March 12, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within said 30 days will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or after March 12, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after March 12, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

CERTAIN PREPARATIONS CONTAINING EPHEDRINE SULFATE, TRIPELENNAMINE CITRATE, AND AMMONIUM CHLORIDE WITH OR WITHOUT CODEINE PHOSPHATE

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs for oral use marketed by Ciba Pharmaceutical Co., 556 Morris Avenue, Summit, NJ 07901:

1. Pyribenzamine expectorant with ephedrine, containing tripelennamine citrate, ephedrine sulfate, and ammonium chloride (NDA 5-914); and

2. Pyribenzamine expectorant with codeine and ephedrine, containing tripelennamine citrate, codeine phosphate, ephedrine sulfate, and ammonium chloride.

The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that there is a lack of substantial evidence, within the meaning of the Federal Food, Drug, and Cosmetic Act, that these fixed combination drugs will have the effects, i.e., relief of cough, that they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling and that each component of the combination con-

tributes to the total effects claimed for the drugs.

Pyribenzamine expectorant with codeine is not the subject of an approved new drug application. It is considered to be a related drug affected by this notice (21 CFR 130.40).

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of pertinent parts of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s) currently formulated, evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In lieu of a request for a hearing, any holder of a new drug application may file with the hearing clerk (address given below) on or before March 12, 1973, a notice of intent to reformulate and relabel the product. Prior to the submission of supplements providing for such reformulation and relabeling, such persons are invited to discuss the proposed changes with the Office of Scientific Evaluation (BD-100) of the Bureau of Drugs. This notice will be rescinded with respect to any product(s) satisfactorily reformulated and relabeled.

All identical, related or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355), and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before March 12, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, room 6-88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing concerning the products as currently formulated. Failure of an applicant or any other interested person to file a written appearance of election within said 30 days will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, or the opportunity to reformulate the product(s), the Commissioner without further notice will enter a final order withdrawing approval of pertinent parts of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before March 12, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) as currently formulated, for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after March 12, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1050-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: February 6, 1973.

DECONGESTANT NASAL SOLUTION CONTAINING CYCLOPENTAMINE HYDROCHLORIDE

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drug:

Clopane hydrochloride (nasal) solution containing 1 percent cyclopentamine hydrochloride; Eli Lilly & Co., Post Office Box 618, Indianapolis, IN 46206 (NDA 8-046).

Such drug is regarded as a new drug (21 U.S.C. 321(p)). The effectiveness classification and marketing status are described below.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that the preparation is less than effective (probably effective) for nasal congestion due to hay fever, vasomotor rhinitis, or the common cold; sinusitis; preoperative vasoconstriction of nasal and nasopharyngeal mucosa; and epistaxis due to nasal congestion.

Any data submitted in response to this notice to support indications for which the drug is classified as other than effective must be previously unsubmitted and include data from adequate and well-controlled clinical investigations (identified for ready review) as described in § 130.12(a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 FR 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for approval of claims of effectiveness, but such studies may be considered on their merits for corroborative support of efficacy and evidence of safety.

A copy of the Academy's report has been furnished to the firm referred to above. Communications forwarded in response to this announcement should be identified with the reference No. DESI 8046, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852:

Original new drug applications (identify as such): Office of Scientific Evaluation (BD-100), Bureau of Drugs.

Supplements (identify with NDA number): Office of Scientific Evaluation (BD-100), Bureau of Drugs.

Requests for the Academy's report: Drug Efficacy Study Information Control (BD-66), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD-60), Bureau of Drugs.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-53, as amended; 21 U.S.C. 352, 355) and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: February 6, 1973.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[Docket No. MC-47; Notice 73-8]

DRIVER'S DAILY LOGS

Experimental Use of New Log Forms

The Bureau of Motor Carrier Safety is permitting selected motor carriers and their drivers to use a new form of driver's daily log on an experimental basis for a period of not more than 1 year. The purpose of the experiment is to determine whether the driver's daily log form presently prescribed can be recast in a format which will simplify its use and lessen the amount of paperwork required of carriers and drivers, while at the same time retaining the utility of the daily log as a device for monitoring compliance with the hours-of-service rules in the Motor Carrier Safety Regulations.

The form of driver's daily log now in use is specified in § 395.8 of the Motor Carrier Safety Regulations (49 CFR 395.8). It consists of a sheet of paper for each day, on which the driver must make entries showing, on an hour-by-hour basis, the activities in which he is engaged during that day. After the form is filled in, the original is filed in the carrier's files and is retained for at least 1 year. In addition, the driver must keep a copy of the completed logs showing his last 30 days' activities in his possession at all times when he is on duty.

This system, which has been in effect for many years, generates many record retention and storage problems. A motor carrier who has a regularly employed driver on the payroll for a full year will collect 365 daily log sheets from that driver during the year, and each sheet must be kept on file for 12 months after the carrier receives it. A single carrier may have hundreds of drivers who make daily logs. Drivers, too, may find the retention of the single-day log causes problems, since many drivers retain their logs for periods in excess of those required by the regulations.

The American Trucking Associations, Inc., has filed a petition for rule making, asking the Director of the Bureau to initiate rule making proceedings directed to adoption of a new form of driver's daily log which would permit 7 days of driver activities to be entered on a single sheet of paper. The primary objective of the petition is to reduce the amount of paper required to be retained and still maintain surveillance over drivers' hours of service.

The petitioner included, as part of its petition, a proposed new format for the daily log and instructions for completing it. The Bureau staff has reviewed the suggested form and the instructions and has modified the instructions somewhat in preparation for use of the proposed form on an experimental basis. The result is a single form which contains space for a driver to record his activities for 7 days. The log form is compressed into a size smaller than the old form because it contains space for entering the duration of driving time and on-duty time. Off-duty time is shown by the absence of a specific entry plus a note in the "Remarks" space. Sleeper berth time is also indicated by a note. The new form also includes space in which the driver and carrier can keep a running account of the driver's available on-duty time. The new form omits some information which the current one contains. Unlike the log now in use, it contains no space for the entry of origin and destination of a run, nor does it contain space for entering the mileage driven on each day. It is believed that this information can be obtained from other data that will appear on the new form.

The overriding consideration, of course, is to have a form of drivers' daily log that will still facilitate monitoring of drivers' hours of service. Any log form must permit carriers and drivers to check on hours of service for the purpose of preventing violations of the hours-of-service rules. It must also permit the Bureau to detect violations of the hours-of-service rules. Ease of use and paperwork management considerations, while important, remain secondary objectives in comparison to the primary factors noted above. This is the reason why the Director has decided to permit use of the new form on an experimental basis by a limited number of carriers and drivers rather than initiating formal rule making proceedings looking towards its adoption in the near future. The results of the experiment should tell the Bureau whether the new form's unquestionable advantage from a recordkeeping storage standpoint will be offset by the possibility that it will facilitate hours-of-service violations and falsifications of drivers' hours of service.

Twenty-nine motor carriers have been selected to participate in the program. Each has indicated that he is willing to do so. The carriers chosen represent a broad cross section of the motor carrier industry. Each carrier selected has specified a number of drivers to use the new form in lieu of the one presently required. The drivers represented in the program fall into all of the driver categories. There are owner-operators, regularly employed drivers, drivers who make regular runs, and drivers who operate in trip lease and interchange service. Here again, the selection has been made with a view to ascertaining whether the new form presents special problems in certain segments of the motor carrier industry.

If, as a result of the experiment or otherwise, the Director concludes that the 7-day log form, or a variant upon it, may have merit as a replacement for the form currently in use, he will issue a Notice of Proposed Rule Making to give interested persons the opportunity to comment on adoption of a new driver's log form. However, any interested person may comment on the new form of daily log at any time. The Bureau would particularly welcome comments from carriers and drivers who are using it, detailing any problems they encounter from time to time. Comments should be sent to the Chief, Regulations Division, Bureau of Motor Carrier Safety, Washington, D.C. 20590.

The terms, conditions, and limitation upon use of the new form of drivers' daily log, and instructions for completing it, are set forth below. By a separate document, published this day, the Director is relieving motor carriers and drivers who participate in the program and who comply with those directives from the obligation to make, file, and maintain the form of drivers' daily log required by § 395.8 of the Motor Carrier Safety Regulations (see p. 3984 of this issue).

USE OF FORM TEST MCS-59 IN LIEU OF FORM MCS-59 FOR DRIVERS' DAILY LOG

A. On and after April 1, 1973, and before April 1, 1974, a motor carrier listed in paragraph J may elect to participate in the experimental 7-Day driver's log program. A carrier who elects to participate in the program shall, on or before the date his participation begins, give notice of his election to the Regional Motor Carrier Safety Director for the region in which the carrier has his principal place of business. The notice of election must include the date on which the

carrier's participation will begin, the number of drivers who will use the new form, and the location of the terminal or terminals at which those drivers are normally based.

B. Drivers designated by participating carriers must, beginning with the date of first dispatch after the date the carrier's participation begins, use the experimental 7-day log form (Form Test MCS–59) in lieu of the form specified in § 395.8 (Form MCS–59) to record their activities for as long as they continue to be employed by that carrier during the period that that carrier is participating in the program. However, a participating carrier may revoke the designation of a particular driver if another driver is substituted in place of the one whose designation is revoked. The driver whose designation is revoked must thereafter make a daily log on Form MCS–59 as specified in § 395.8 beginning on the date of his first dispatch following the revocation of his designation. A driver who is substituted as a designated driver must use the experimental 7-day log form (Form Test MCS–59) in lieu of the form specified in § 395.8 beginning with the date of his first dispatch following his designation.

C. A driver who is using Form Test MCS–59 must make true, accurate, and complete entries on the form in accordance with the following instructions:

GENERAL INSTRUCTIONS

1. *Entries current.* Entries must be current to the time the last change of duty status.

2. *Entries by driver only.* The driver must make all entries in his own handwriting. The only exception is that the carrier's name and address may be preprinted on the form.

3. *Filing logs.* After a log sheet is completed, the original must be filed with the carrier. If a driver reports for duty at his home terminal on the day after he has completed the sheet, he should file the sheet on the day he reports for duty. If a driver does not report for duty at his home terminal on the day after he has completed the sheet, he should mail the sheet to the carrier or, if he will return to his home terminal within 5 days after the sheet is completed, deliver it to his home terminal when he returns to it.

HOW TO COMPLETE THE LOG

1. *Name and address of carrier.* Show full name of carrier and city and State of carrier's principal place of business. Do not show a terminal or branch office address. When a driver works for more than one carrier on the same day, the name of the other carrier or carriers should be witten in the Remarks section at the appropriate starting and ending time. The driver of a leased vehicle must write the name of the carrier performing the transportation.

2. *Driver signature.* Write your first name, middle name or initial, and last name. Sign the log before making entries in it. Do not print.

3. *Date.* Fill in a log for each day, whether or not you perform work on that day. Use the space at the top of each log form to show the month, day, and year.

4. *Vehicle identification.* In the space provided, write the carrier's number(s) or license plate number and state of registration for each vehicle or unit of a combination you operated on the day.

5. *Shipping document.* Write the shipping document number(s) for shipments carried on the day in the space provided. If shipping documents are not numbered, write the name of the shipper and the commodity.

6. *Time base.* Use the time standard in effect at your home terminal to make and maintain your logs. Each log form is made on the basis of a 24-hour calendar day, beginning at midnight. However, if the carrier has given written notification to the Director of the Regional Motor Carrier Safety Office for the Federal Highway Administration region in which his principal place of business is located, drivers for that carrier who work from any named terminal or terminals may prepare their logs on the basis of a 24-hour day beginning at noon and ending at noon of the following calendar day. If a driver makes his logs on a noon-to-noon basis, his eligible on-duty hours within a period of 7 or 8 consecutive days are computed by taking a period of 7 or 8 consecutive days beginning at 12:01 p.m. on any day.

7. *Driving time.* Use the top line of the log form to show driving time for each day. When driving time ends, draw a horizontal line from the time marker at the beginning of the driving period to the time marker at the end of the driving period.

8. *On-duty time.* Use the bottom line of the log form to show on-duty—not-driving time. When on-duty—not-driving time ends, draw a horizontal line from the time marker at the beginning of the on-duty—not-driving time to the time marker at the end of the period of on-duty—not-driving time.

9. *Off-duty time.* When off-duty time begins, draw a short vertical line downward from the appropriate time marker into the remarks section and write the word "OFF". When off-duty time ends, draw a vertical line upward from the remarks section to the on-duty or driving line at the time marker corresponding to the time you went on driving status or on-duty—not-driving status.

10. *Sleeper berth time.* When sleeper berth time begins, draw a short vertical line downward from the appropriate time marker into the remarks section and write "S.B." in the remarks section.

11. *Remarks.* At each change of duty time, write the name of the city and State at or near which the change took place. Also state the reason for any driving or on-duty time in excess of the time permitted.

12. *Eligible hours.* At the end of a day's work, each driver must determine the number of on-duty hours he can work on the next day. He must complete the eligible hours block on the right-hand side of the log form as follows:

a. At the end of the day's work, compute the number of on-duty hours you worked that day. The number of on-duty hours is the total of your driving time and your on-duty—not-driving time. Subtract the number of on-duty hours from the eligible hours you had at the beginning of the day. Write the difference after the word "Subtotal".

b. Look back to the first day of your week to determine how many on-duty hours you worked on that day. Add the number of those hours to the subtotal you obtained by following the procedure in paragraph a, above. The total of those two figures is the number of eligible hours you have for the next day. Write that total after the words "Eligible Hrs Tomorrow".

NOTE: i. For drivers on a 70-hour—8-day week, the first day of the week is the same day 1 week ago. For example, if you are computing hours on a Tuesday to see how much eligible on-duty time you will have on Wednesday, you will add the on-duty hours you worked on the previous Tuesday.

ii. For driver on a 60-hour—7-day week, the first day of the week is the day, 1 week ago, that is the same as the day for which you are computing your eligible hours. For example, if you are computing hours on a Tuesday to see how much eligible on-duty time you will have on Wednesday, you will add the on-duty hours you worked on the previous Wednesday.

13. *Audit.* The audit space below the computation of eligible hours is for the use of the motor carrier, who may, if he desires, use the space for the name and initials of the carrier employee or officer who has audited the log form that day.

D. After a log sheet is completed, the original of the sheet must be filed at the home terminal of the driver or the carrier's principal place of business. If a driver reports for duty at his home terminal on the day following the date on which a log sheet is completed, he must file the sheet on that day. If a driver does not report for duty at his home terminal on the day following the date on which a log sheet is completed, he must mail the original log sheet to the carrier on that day. However, a driver who does not report for duty at his home terminal on the day following the date on which a log sheet is completed may, if he will report to that terminal within 5 days of the date the log sheet is completed, personally deliver the completed log sheet to his home terminal within that 5-day period.

E. When the services of a driver are used by more than one carrier during any calendar day, the driver shall furnish each such carrier a copy of either the log sheet on which the entries for that day are posted or so much of the sheet as pertains to the entries for that day. The entries for that day must include all duty time for the entire day, the name of each carrier that used the driver on that day, the time (a.m. or p.m.) the driver began working for each such carrier, and the time (a.m. or p.m.) his work for each such carrier was completed.

F. A motor carrier who uses a driver for the first time or intermittently shall obtain from that driver a signed statement giving the total time the driver was on duty during the immediately preceding 7 days and the time at which the driver was last relieved from duty before he began working for the carrier. A motor carrier who is not participating in the experimental 7-day drivers' log program and who uses, in trip lease or interchange service, a driver who is participating in the program is authorized to accept copies of logs on Form Test MCS–59 from that driver.

G. A motor carrier may retain the log sheet made by a driver during a calendar month at the driver's home terminal until the 20th day of the succeeding calendar month. The log sheet made by a driver shall be forwarded to the carrier's principal place of business immediately on receipt or after the 20th day of the calendar month following the date of receipt, where they shall be retained for 12 months following the date of receipt. However, upon a written request to, and with the approval of, the director, Regional Motor Carrier Safety Office, for the region in which a motor carrier has his principal place of business, a motor carrier may forward and retain logs at a regional or terminal office. The driver shall retain a copy of each log sheet for 30 days following completion of the last entry on the sheet, and log sheets showing his activities for the preceding 30 days shall be in his possession while he is on duty.

H. A driver who has been designated to use, and who is using, the 7-day log form (Form Test MCS–59) must have a copy of this notice in his possession whenever he is on duty. He must exhibit the copy to any special agent of the Federal Highway Administration upon request.

I. A motor carrier who has elected to participate in the experimental 7-day driver's log program may revoke that election upon 10 days' advance notice in writing to the Regional Motor Carrier safety director for the region in which the carrier has his principal place of business. Except as provided in paragraph F, all drivers used by that carrier must, on and after the effective date of the revocation, make daily logs in accordance with § 395.8 of the Motor Carrier Safety Reg-

ulations (49 CFR 395.8) on Form MCS–59. A carrier who has revoked his election to participate in the program may not thereafter participate in the program except upon prior written authorization from the director of the Bureau of Motor Carrier Safety.

J. Motor carriers authorized to participate in the experimental 7-day log program:

Hazardous Materials Regulations Board

TRANSPORTATION OF HAZARDOUS MATERIALS

Special Permits Issued

Pursuant to Docket No. HM–1, rule-making procedures of the Hazardous Materials Regulations Board, issued May 22, 1968 (33 FR 8277), 49 CFR 170, following is a list of new DOT Special Permits upon which Board action was completed during January 1973:

Special permit No.	Issued to—Subject	Mode or modes of transportation
6697	Shippers registered with this Board to ship large quantities of radioactive materials, n.o.s. in the General Electric Company Model N. 8500 package.	Highway, Rail, Passenger-carrying Aircraft, Cargo-only Aircraft & Cargo Vessel.
6702	Shippers registered with this Board to ship certain corrosive liquids packed with non-hazardous articles as "Chemical kit".	Highway, Rail, Cargo-only Aircraft.
6703	Shippers registered with this Board to ship large quantities of radioactive materials, n.o.s. in the Gulf General Atomic Thermoelectric Generator Model. No. RG-1.	Highway, Rail, Passenger-carrying Aircraft, Cargo-only Aircraft & Cargo Vessel.
6704	Dow Chemical Company, Midland, Michigan to ship certain corrosive liquids in a cargo tank fabricated from Monel 400.	Highway.
6706	Ireco Chemicals, Salt Lake City, Utah to ship smokeless powder in steel containers constructed in accordance with military specifications.	Highway.
6707	Eaton Corporation, Troy, Michigan to ship a non-flammable compressed gas mixture in welded, steel pressure vessels (toroidal shaped).	Highway, Cargo-only Aircraft.
6708	Shippers registered with this Board to ship Type A quantities of fissile radioactive materials in Specification 6B metal drum, 30 gallon capacity.	Highway, Rail.
6709	Crown Zellerbach Corporation, Camas, Washington to ship dimethyl disulfide in metal drums complying with DOT Specification 17E except for marking.	Highway, Cargo Vessel.
6710	E. I. Du Pont De Nemours & Co., Wilmington, Delaware to ship sulfur trioxide, stabilized in DOT-103A-W tank cars equipped with standpipe electrical heaters.	Rail.
6711	Sierra Chemical Company, Reno, Nevada to ship surplus smokeless powder in various military specification containers.	Highway.
6712	Air Products & Chemicals, Inc., Allentown, Pa., to ship compressed gases as prescribed in §173.34(e) (15) except cylinders may be older than 35 years.	Highway, Rail, Passenger-carrying Aircraft, Cargo-only Aircraft & Cargo Vessel.
6713	FMC Corporation, New York, N.Y. to ship an organic phosphate compound, liquid, n.o.s. in DOT Specification 17E metal drums one time after initial shipment.	Highway.
6714	E. I. Du Pont De Nemours & Co., Inc., Wilmington, Delaware to ship difluoroethane in DOT Specification 112A400W tank cars.	Rail.
6715	FMC Corporation, New York, N.Y., to ship an organic phosphate compound, liquid, n.o.s. in DOT-105A200AL-W or 105A300W tank cars.	Rail.
6718	Shippers registered with this Board to ship fissile & large quantities of radioactive materials, n.o.s. in packaging identified as PM-1 Spent Core Shipping Cask.	Highway, Cargo Vessel.
6719	Shippers registered with this Board to ship acetone, and amyl acetate in DOT Specification 17F metal drums.	Highway.
6721	Ireco Chemicals, Salt Lake City, Utah to ship surplus trinitrotoluene (TNT) in Military Specification metal boxes.	Highway.
6722	Shippers registered with this Board to ship Type B quantities of radioactive materials, n.o.s. in Atcor Cask Model No. BS-33-180.	Highway.
6723	Shippers registered with this Board to ship antimony pentachloride in DOT Specification 4BW240 steel cylinders not over 30 gallon capacity.	Highway.

Following is a list of requests for special permits which were denied during January 1973:

Denied—Subject

1. Request by Hooker Chemical Corp., Niagara Falls, N.Y., for a special permit to ship various hazardous materials in new tank cars that would exceed the 263,000 pounds maximum gross weight on rail.
2. Request by Cardinal Chemical, Inc., Odessa, Tex., to transport hydrochloric acid solutions in non-DOT specification mild steel or fiberglass cargo tanks.
3. Request by Virginia Chemicals, Inc., Portsmouth, Va., to ship sulfur dioxide in DOT 105A300W tank car having a gross weight of 315,000 pounds.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN MANMADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

Entry or Withdrawal From Warehouse for Consumption

FEBRUARY 7, 1973.

On October 4, 1972, there was published in the FEDERAL REGISTER (37 FR 20883) a letter of September 28, 1972, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs implementing those provisions of the bilateral Wool and Man-Made Fiber Textile Agreement of January 4, 1972, between the Governments of the United States and the Republic of Korea, which establish specific export limitations on wool and manmade fiber textile products in certain categories, produced or manufactured in the Republic of Korea, for the second-agreement year beginning October 1, 1972. The levels of restraint established for Categories 210, 224, and part 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165), and 240 had not been adjusted to reflect overshipments from the first-agreement year ending September 30, 1972, which were to be charged to the second-agreement year. (For a more detailed explanation, see 37 FR 19844). With the inclusion of these adjustments the levels of restraint for Categories 210 and 240 have been exhausted and the level for Category 224 and part of 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165) has been greatly reduced.

Accordingly, there is published below a letter of February 7, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, amending the levels of restraint applicable to manmade fiber textile products in Categories 210, 224, and part 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165) and 240 produced or manufactured in Korea, for the 12-month period ending September 30, 1973.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

FEBRUARY 7, 1973.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

DEAR MR. COMMISSIONER: This directive amends but does not cancel the directive issued to you on September 28, 1972, from the Chairman, Committee for the Implementation of Textile Agreements regarding imports into the United States of manmade fiber textile products in certain specified categories, produced or manufactured in the Republic of Korea.

Under the provisions of the bilateral Wool and Man-Made Fiber Textile Agreement of January 4, 1972, between the Governments of the United States and the Republic of Korea, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to amend, effective as soon as possible, the levels of restraint established in the directive of September 28, 1972, for manmade fiber textile products in Categories 210, 224, and part of 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165) and 240, produced or manufactured in the Republic of Korea, as follow:

Category	*Amended 12-month level of restraint*
210	0
224 and part of 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165) pounds[1]	362,573
240	0

[1] This level has been adjusted to reflect entries in this category through January 26, 1973.

Entries of manmade fiber textile products in the above categories produced or manufactured in the Republic of Korea, and which have been exported to the United States prior to October 1, 1972, shall not be subject to this directive.

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of manmade fiber textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

ENVIRONMENTAL PROTECTION AGENCY

BLUE RIDGE POWER PROJECT

Notice of Anticipated Determination

Notice is hereby given that the Environmental Protection Agency, an intervenor in the Blue Ridge Power Project licensing proceeding before the Federal Power Commission (Appalachian Power Company Project No. 2317), is required to make a determination as to whether or not storage for regulation of streamflow for purposes of water quality should be included in the Blue Ridge Power Project. The Agency is making this determination pursuant to section 102(b)(6) of the Federal Water Pollution Control Act, as amended, which provides that:

(6) No license granted by the Federal Power Commission for a hydroelectric power project shall include storage for regulation of streamflow for the purpose of water quality control unless the Administrator shall recommend its inclusion and such reservoir storage capacity shall not exceed such proportion of the total storage required for the water quality control plan as the drainage area of such reservoir bears to the drainage area of the river basin or basins involved in such water quality control plan.

The Environmental Protection Agency will be guided in its determination by the congressional policy on inclusion of storage for regulation of streamflow in reservoirs which is set forth in section 102(b)(1) of the Federal Water Pollution Control Act, as amended:

(b)(1) In the survey or planning of any reservoir by the Corps of Engineers, Bureau of Reclamation, or other Federal Agency, consideration shall be given to inclusion of storage for regulation of streamflow, except that any such storage and water releases shall not be provided as a substitute for adequate treatment or other methods of controlling waste at the source.

The document entitled "Guidelines of the Environmental Protection Agency Regarding Storage and Releases for Water Quality Control in Reservoirs Planned by Federal Agencies", signed by the Administrator January 16, 1973, is available upon request.

Prior to making a determination on this question, consideration will be given to any comments which are submitted in writing to the Office of Enforcement and General Counsel, Washington, D.C. 20460, on or before March 12, 1973. Comments submitted by the public will be made available for public inspection at Room 3211, Waterside Mall Building, 401 M Street SW., Washington, DC 20460.

WILLIAM D. RUCKELSHAUS,
Administrator.

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

FEBRUARY 5, 1973.

Pursuant to §§ 1.227(b)(3) and 21.30(b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list below, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed below in the appendix if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

2138–C1–ML–73—West Texas Microwave Co. (WQE32), Goldsmith, Tex. Latitude 31°59'17" N., longitude 102°51'59" W. Modification of license to provide, via audio subcarrier, the signal of KWXI–FM, Dallas-Fort Worth, Tex., to radio stations in Andrews, Kermit, and Monahans, Tex., for broadcast service.

Major Amendments

4509–C1–P–70—Southern Pacific Communications Co. (New), Mount Scott, 8 miles southeast of Portland, Oreg. Delete frequencies 6315.9V and 6197.2V toward Green Mountain. Delete Green Mountain as a point of communication. Delete frequency 6226.9V and correct transmit power to 3 watts on corrected azimuth 310°27' toward Portland. Delete frequency 6404.8V and change transmit power to 10 watts on corrected azimuth 214°08' toward Prospect Hill.

4510–C1–P–70—Same (New), Union Depot, Portland, Oreg. Delete frequency 5974.8V and correct transmit power to 3 watts on corrected azimuth 130°21' toward Mount Scott.

4511–C1–P–70—Same (New), Prospect Hill, 7 miles southwest of Salem, Oreg. Delete frequency 6093.5V and change transmit power to 10 watts on corrected azimuth 33°43' toward Mount Scott. Delete frequency 2117.2H, add frequency 10,815H and change transmit power to 1 watt on corrected azimuth 40°10' toward Salem. Delete frequencies 6004.5H and 5945.2H, add frequency 11,055V and change transmit power to 1 watt on corrected azimuth 176°33' toward Albany. Delete frequency 6152.8H toward Eugene as a point of communication. Add frequency 6152.8H with transmit power 10 watts on azimuth 156°11' toward new point of communication Walker Point.

4512–C1–P–70—Same (New), Southern Pacific Depot, Salem, Oreg. Delete frequency 2167.2H, add frequency 11,225H and change transmit power to 1 watt on corrected azimuth 220°14' toward Prospect Hill.

4513–C1–P–70—Same (New), Southern Pacific Depot, Albany, Oreg. Delete frequencies 6197.2H and 6315.9H, add frequency 11,465V and change transmit power to 1 watt on corrected azimuth 356°34' toward Prospect Hill.

4514–C1–P–70—Same (New), Southern Pacific Yard Office, Eugene, Oreg. Delete frequency 6345.5H toward Prospect Hill. Delete Prospect Hill as a point of communication. Delete frequency 6286.2H toward Wolf Mountain. Delete Wolf Mountain as a point of communication. Add frequency 5974.8V with transmit power 3 watts on azimuth 91°51' toward new point of communication Walker Point.

4515–C1–P–70—Same (New), Wolf Mountain, 15 miles southeast of Oakridge, Oreg. Delete frequency 6063.8V toward Eugene. Delete Eugene as a point of communication. Add frequency 6093.5H with transmit power 10 watts on azimuth 326°35' toward new point of communication Walker Point. Delete frequencies 5945.2H and 6004.5H, add frequency 5945.2V and change transmit power to 10 watts on corrected azimuth 118°40' toward Odell Butte.

4516–C1–P–70—Same (New), Odell Butte, 6 miles southeast of Crescent Lake, Oreg. Delete frequency 6256.5H and change transmit power to 10 watts on corrected azimuth 298°55' toward Wolf Mountain. Delete frequency 6375.2V and change transmit power to 10 watts on corrected azimuth 171°58' toward Applegate Butte.

4517–C1–P–70—Southern Pacific Communications Co. (New), Applegate Butte, 6 miles southeast of Kirk, Oreg. Delete frequency 6123.1V and change transmit power to 10 watts on corrected azimuth 352°04' toward Odell Butte. Delete frequencies 6093.5H and 5974.8H toward Chiloquin. Delete Chiloquin as a point of communication. Add frequency 5974.8H with transmit power 10 watts on azimuth 228°16' toward new point of communication Steiger Butte.

4519–C1–P–70—Same (New), Chase Mountain, 14 miles southwest of Klamath Falls, Oreg. Delete frequencies 6034.2H and 6152.8H toward Chiloquin. Delete Chiloquin as a point of Communication. Add frequency 6034.2H with transmit power 10 watts on azimuth 8°07' toward new point of comunication Steiger Butte. Delete frequency 6063.8H and correct transmit power to 3 watts on corrected azimuth 54°44' toward Klamath Falls. Delete frequency 5974.8H and change transmit power to 10 watts on corrected azimuth 236°43' toward Humbug Mountain.

4520–C1–P–70—Same (New), Southern Pacific Yard Office, Klamath Falls, Oreg. Delete frequency 6345.5V and correct transmit power to 3 watts on corrected azimuth 234°53' toward Chase Mountain.

4521-C1-P-70—Same (New), Humbug Mountain, 3.5 miles west of Yreka, Calif. Delete frequencies 6226.9H and 6404.8H, add frequency 6345.5H and change transmit power to 10 watts on corrected azimuth 56°14' toward Chase Mountain. Delete frequencies 6286.2V and 6345.5V toward Dunsmuir. Delete Dunsmuir as a point of communication. Add frequency 6286.2V with transmit power 10 watts on azimuth 147°02' toward new point of communication Soda Ridge.

4523-C1-P-73—Same (New), Sugar Loaf Mountain, 3 miles west of Lakehead, Calif. Delete frequencies 6197.2V and 6375.2V toward Dunsmuir. Delete Dunsmuir as a point of communication. Add frequency 6197.2V with transmit power 10 watts on azimuth 26°16' toward new point of communication Soda Ridge. Delete frequency 6286.2V and change transmit power to 10 watts on corrected azimuth 154°59' toward Inks Ridge.

4524-C1-P-70—Same (New), Inks Ridge, 10 miles southeast of Anderson, Calif. Delete frequency 5974.8V and change transmit power to 10 watts on corrected azimuth 335°12' toward Sugar Loaf Mountain. Delete frequency 6123.1V and correct transmit power to 3 watts on corrected azimuth 315°10' toward Redding. Delete frequencies 5945.2H and 6063.8H, add frequency 6034.2H and change transmit power to 10 watts on corrected azimuth 184°18' toward Gerber.

4525-C1-P-70—Same (New), Southern Pacific Yard, Redding, Calif. Delete frequency 6375.2V and correct transmit power to 3 watts on corrected azimuth 135°00' toward Inks Ridge.

4526-C1-P-70—Same (New), Southern Pacific Yard, Gerber, Calif. Delete frequencies 6404.8V and 6286.2V, add frequency 6404.8H and change transmit power to 10 watts on corrected azimuth 4°17' toward Inks Ridge. Delete frequency 6301.0V and add frequency 6330.7H and change transmit power to 10 watts on corrected azimuth 144°12' toward Chico.

4527-C1-P-70—Southern Pacific Communications Co. (New), Southern Pacific Yard, Chico, Calif. Change transmit power to 10 watts on corrected azimuth 324°24' toward Gerber. Change transmit power to 10 watts on corrected azimuth 162°32' toward Gridley.

4528-C1-P-70—Same (New), Southern Pacific Yard, Gridley, Calif. Change transmit power to 10 watts on corrected azimuth 342°37' toward Chico. Change transmit power to 10 watts on corrected azimuth 151°29' toward Erie.

4529-C1-P-70—Same (New), Southern Pacific Yard, Erie, Calif. Change transmit power to 10 watts on corrected azimuth 331°37' toward Gridley, change transmit power to 10 watts on corrected azimuth 156°53' toward Roseville.

4530-C1-P-70—Same (New), Southern Pacific Yard, Roseville, Calif. Change transmit power to 10 watts on corrected azimuth 336°59' toward Erie. Delete frequencies 11,015V and 11,175V, add frequency 6286.2V and change transmit power to 10 watts on corrected azimuth 225°20' toward Sacramento.

4531-C1-P-70—Same (New), Southern Pacific Yard, Sacramento, Calif. Delete frequencies 11,625V and 11,305V, add frequency 6034.2V and change transmit power to 10 watts on corrected azimuth 45°13' toward Roseville. Delete frequencies 6078.6H and 6137.9H, add frequency 6078.6V and change transmit power to 10 watts on corrected azimuth 249°24' toward Mount Vaca.

5271-C1-P-72—Same (New), Mount Vaca, 7 miles northwest of Vacaville, Calif. Delete frequency 6212.1H, add frequency 6197.2V and change transmit power to 10 watts on corrected azimuth 69°01' toward Sacramento. Add frequency 6226.9H with transmit power 10 watts on azimuth 200°29' toward new point of communication San Francisco.

1883-C1-P-72—United Video, Inc. (New), 3 miles north of Bruce, Ark. Latitude 34°17'54" N., longitude 92°11'08" W. Application amended to add Benton, Ark. as a point of communication on frequencies 6226.9V and 6286.2V MHz on azimuth 308°41' (Informative).

1139-C1-P-73—Same (New), 2.5 miles northwest of England, Ark. Latitude 34°34'30" N., longitude 91°59'27" W. Application amended to add Jacksonville, Ark. as a point of communication on frequencies 6004.5V and 6063.8V MHz on azimuth 337°31' (Informative).

Informative: Applicant proposes to deliver the signals of KTVT and KDTV (Dallas/Fort Worth) to CATV systems at Benton and Jacksonville, Ark. Waiver of 21.701(l) is requested.

7692-C1-P-72—United Video, Inc. (New), 3 miles east of Miami, Okla. Latitude 36°52'58" N., longitude 94°47'46" W. Application amended to show frequency 6063.8H MHz toward Centralia, Okla., on new azimuth 252°47'.

7693-C1-P-72—Same (New), 4 miles south of Centralia, Okla. Latitude 36°44'28" N., longitude 95°21'32" W. Application amended to relocate station to foregoing coordinates—frequency 6226.9H MHz toward Bartlesville, Okla., on new azimuth 272°40'.

2382-C1-P-73—The Pacific Telephone & Telegraph Co. (KKU53), C.P. to add frequency 11,175V MHz toward San Jose, Calif.

2383-C1-P-73—Same (KMN91), C.P. to add frequency 11,465H MHz toward Redwood, Calif. (All other particulars the same as reported in Public Notice, Report No. 618, dated October 16, 1972.)

4092-C1-P-73—Western States Telephone Co., Inc. c/o Continental Telephone Company of California (New), C.P. to add frequency 11,625V MHz toward Showlow, Ariz. (KRP52). (All other particulars the same as reported in Public Notice, Report No. 627, dated December 18, 1972.)

4119-C1-P-73—Southeastern Telephone Co. (KYC79), C.P. to change polarization from V to H on frequencies 6256.5 and 6375.2 MHz toward Crestview, Fla.; frequencies 6226.9 and 6345.5 MHz toward Defuniak Springs, Fla. (All other particulars the same as reported in Public Notice, Report No. 627, dated December 18, 1972.)

4414-C1-P-73—La Fourche Telephone Co. (KKM32), Grand Isle, La. Latitude 29°13'59" N., longitude 89°59'53" W. C.P. to change frequency from 2112.4V to 2117.2V MHz toward Grand Terre.

4415-C1-P-73—Same (New), C.P. to change frequency from 2162.4V to 2167.2V MHz toward Grand Isle, La. (All other particulars the same as reported in Public Notice, Report No. 628, dated December 26, 1972.)

Informative: Western Tele-Communications, Inc., has amended 10 of 22 applications which when connected to previously filed WTCI proposals, would provide specialized common carrier services between Salt Lake City, Utah, Spokane, Wash., and Portland, Oreg. The applications were filed June 25, 1971, and appeared on Public Notice, July 6, 1971.

7508-C1-P-71—Western Tele-Communications, Inc. (New), 6 miles north of Wells, Nev. Change frequency 5945.2H to 3890H toward White Peaks, Nev.

7509-C1-P-71—Western Tele-Communications, Inc. (New), White Peaks, 2.5 miles east of Henry, Nev. Change frequency 4150V to 5945.2V toward Meteor, Idaho.

7512-C1-P-71—Same (New), Bennett Mountain, 4.5 miles south of Dixie, Idaho. Change frequency 6315.9V to 6226.9H toward Deer Point, Idaho.

7519-C1-P-71—Same (New), Jump-Off-Joe Butte, 6 miles south of Kennewick, Wash. Replace frequencies 3870H and 4110H with 10,735H toward Rattlesnake Hills, Wash.; frequency 3790H to 11,585H MHz toward Walla Walla, Wash.

7520-C1-P-71—Same (New), Main Street at South Second Avenue, Walla Walla, Wash. Change frequency 3910V to 11,095V toward Jump-Off-Joe Butte, Wash.

7521-C1-P-71—Same (New), 5 miles east of Dayton, Wash. Change frequency 6139.7H to 6137.9H MHz toward Jump-Off-Joe Butte, Wash.; change point of communication of frequency 6078.6H from Rosalia, Wash., to Steptoe Butte, Wash., azimuth 27°54'.

7522-C1-P-71—Same (New), relocate station to Steptoe Butte, 3.2 miles northeast of Steptoe, Wash. Latitude 47°01'59" N., longitude 117°18'12" W. Change azimuth of 6330.7V toward Browne Mountain, Wash., to 358°18' and 6390.0H MHz toward Dayton, Wash., to 208°18'.

7523-C1-P-71—Same (New), Browne Mountain, 1.5 miles southeast of Spokane, Wash. Change point of communication of frequency 6137.9H from Rosalia, Wash., to Steptoe Butte, Wash., on azimuth 178°17'.

7525-C1-P-71—Same (New), Rattlesnake Hills, 11 miles north of Sunnyside, Wash. Change frequency 6108.3H to 11,665V toward Yakima, Wash.; replace frequencies 3830V and 4150V with 11,425H toward Jump-Off-Joe Butte, Wash.

7526-C1-P-71—Same (New), Yakima Avenue and Second Street north of Yakima, Wash. Change frequency 6271.4V to 10,975V MHz toward Rattlesnake Hills, Wash.

8317-C1-P-70—Same (New), Lincoln Repeater, 4 miles east of Lincoln, Nebr. Change frequency 4150H to 3770V MHz toward Lincoln, Nebr., and polarization of frequency 4150 to horizontal toward Beaver Crossing, Nebr.

8319-C1-P-70—Same (New), 9 miles northeast of Wahoo, Nebr. Change frequency 3710H to 4110V MHz toward Lincoln Repeater, Nebr.

POINT-TO-POINT MIROWAVE RADIO SERVICE—continued

(Informative: Applications were originally filed June 12, 1970, and appeared on Public Notice, June 22, 1970. Subsequent amendments appeared on Public Notice, October 2, 1972.)

8355-C1-P-70—Same (New), change location to Railroad and North Jackson, Topeka, Kans. Latitude 39°04'00" N., longitude 95°40'13" W. Transmitting 3730H MHz toward Wamego on azimuth 248°08' and 3790H MHz toward Lawrence on azimuth 84°33'.

8356-C1-P-70—Western Tele-Communications, Inc. (New), change location to 8.9 miles north of Lawrence, Kans. Latitude 39°05'57" N., longitude 95°13'15" W. Change frequency to 3830H MHz toward new point of communication at Topeka on azimuth 264°50' and to 3750H MHz toward new point of communication at Olathe on azimuth 121°57'.

SOUTHERN BROADCASTING CO. AND FURNITURE CITY TELEVISION CO.

Memorandum Opinion and Order Modifying Issues

In re applications of Southern Broadcasting Co. (WGHP-TV), High Point, N.C., for renewal of broadcast license. Docket No. 18906, File No. BRCT-574; and Furniture City Television Co., Inc., High Point, N.C., for construction permit for new television broadcast station. Docket No. 18907, File No. BPCT-4302.

1. After Southern Broadcasting Co. (Southern) filed a petition for leave to amend its application, Furniture City Television Co., Inc. (Furniture City) filed a petition for enlargement of the issues which is now before the Board.[1]

[1] The petition for leave to amend was filed Oct. 11, 1972; it has not been disposed of. The petition to enlarge was filed Oct. 19, 1972; the Broadcast Bureau's comments, on Oct. 30, 1972; Southern's opposition, on Nov. 8, 1972; Furniture City's reply to the Bureau, on Nov. 9, 1972; and Furniture City's reply to the opposition, on Nov. 20, 1972.

Furniture City seeks 1.65 and basic qualifications issues based on information concerning changes in broadcast and other business interests revealed in the requested amendment.

2. There is no disagreement that the changes relative to Messrs. Slick and Butler and the Slick Corp. in which they have interests were reported more than 30 days after they took place. Moreover, it is not possible to ascertain when some of the other changes in business and broadcast interests took place, and this failure strongly suggests that these, too, were not brought to the Commission's attention within the required time period. In view of the foregoing and the other data revealed in the pleadings, modification of existing 1.65 issue is warranted. However, since there is some question whether the derelictions are of sufficient significance to bear adversely on the basic qualifications of Southern, the issue will permit a determination of the effect the reporting failures have on the comparative and/or basic qualifications of that applicant.

3. *Accordingly, it is ordered*, That the Furniture City Television Co., Inc. petition to enlarge issues, filed October 19, 1972, is granted in the respects hereinafter indicated and otherwise is denied;

4. *It is further ordered*, That the Rule 1.65 issue against Southern Broadcasting Co. (WGHP-TV) added by the Review Board by Memorandum Opinion and Order (__ FCC 2d ____, 25 RR 2d 1138, released December 8, 1972), is modified to include the matters as indicated herein; and

5. *It is further ordered*, That the burden of proceeding with the introduction of evidence under the issue added herein shall be on Furniture City Television Co., Inc., and the burden of proof shall be on Southern Broadcasting Co.

Adopted: February 2, 1973.

Released: February 6, 1973.

Notice of Availability of Draft Environmental Impact Statement and Order Regarding Environmental Issues

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, Public Law 91-190, the Federal Maritime Commission has prepared a draft environmental impact statement in the above-cited Commission proceeding. The Commission invites all interested persons to submit comments in this proceeding in accordance with the procedures set forth in the following paragraphs:

It is ordered, That the draft environmental impact statement be made available for inspection at, and single copies may be obtained from, the Office of International Affairs and Relations, Room 1226, 1405 I Street NW., Washington, DC 20573;

It is ordered, That a copy of the draft environmental impact statement be served upon all parties of record in this proceeding;

It is ordered, That comments submitted by parties of record and other interested persons be in the form of written testimony for consideration as probative evidence by the presiding Administrative Law Judge;

It is ordered, That an original and four copies of comments be submitted to the Commission, 10 copies be submitted to the Council on Environmental Quality, and one copy be served upon each party of record in this proceeding by the commentator;

It is ordered, That commentators make themselves available, if required, for cross examination in accordance with the Commission's rules of practice and procedure (46 CFR 502, et seq.) as directed by the presiding Administrative Law Judge;

It is ordered, That the parties of record direct themselves to the issues raised in the draft environmental impact statement;

It is ordered, That the presiding Administrative Law Judge include, as a separate and distinct portion of his Initial Decision, necessary findings of fact and conclusions of law relative to the issues raised in the draft environmental impact statement; and

It is ordered, That any person submitting comments to the draft environmental impact statement who desires to become a party to this proceeding may do so only upon filing and approval by the Presiding Judge of a Petition for Leave to Intervene, in accordance with § 502.72 of the Commission's rules of practice and procedure (46 CFR 502.72).

Comments in the form herein prescribed must be submitted by March 5, 1973.

[Docket No. RP73-77]

ALABAMA-TENNESSEE NATURAL GAS CO.

Proposed Tariff Changes

FEBRUARY 2, 1973.

Take notice that on January 19, 1973, Alabama-Tennessee Natural Gas Co. (Alabama Tennessee), tendered for filing a new tariff designated as FPC Gas Tariff, third revised Volume No. 1, which it proposes to make effective as of March 1, 1973. Alabama-Tennessee states that the tender is made to comply with Commission Opinion No. 632, and accompanying order issued October 11, 1972, in Docket No. RP71-7.

Alabama-Tennessee further states that the rates therein contained are designed to reflect the several tracking filings made by its sole supplier, Tennessee Gas Pipeline Co., since June 13, 1972, including Tennessee's most recent filing of December 29, 1972, which is likewise proposed to be effective as of March 1, 1973.

Alabama-Tennessee states that the purchased gas adjustment clause contained in its tariff has been conformed to the provisions of Commission Order Nos. 452 and 452-A. The company says that there are included certain language modifications to conform the tariff language to the requirements of Opinion No. 632. Further, the pressure base throughout the tariff has been changed from 14.735 p.s.i.a. to 14.73 to conform it with Tennessee's pressure base and the requirements of Annual Report Form 2. Alabama-Tennessee acknowledges that the filed rates are subject to the refund obligations of paragraph (C) of Opinion No. 632 and subject to final determination of certain cases which are currently under court review.

A copy of the filing has been served upon all jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and available for public inspection.

ARKANSAS POWER AND LIGHT CO.

Issuance of Annual License

FEBRUARY 2, 1973.

On February 4, 1970, and supplemented on October 8, 1970, Arkansas Power and Light Co., Licensee for Carpenter and Remmel Developments Project No. 271, located on Quachita River in Hot Spring and Garland and Montgomery Counties, Ark., filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1-16.6).

The present license for Project No. 271 was issued effective February 7, 1923, for a period ending February 6, 1973. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of Licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to Arkansas Power and Light Co. for the continued operation and maintenance of Project No. 271.

Take notice that an annual license is issued to Arkansas Power and Light Co. (Licensee), under section 15 of the Federal Power Act for the period February 7, 1973, to February 6, 1974, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Carpenter and Remmel Developments Project No. 271, subject to the terms and conditions of its license.

[Docket No. RP73-65]

COLUMBIA GAS TRANSMISSION CORP.

Purchased Gas Cost Adjustments to Rates and Charges

FEBRUARY 2, 1973.

Take notice that Columbia Gas Transmission Corp. (Columbia) on January 12, 1973, tendered for filing certain revised tariff sheets to its FPC Gas Tariff, original Volume No. 1, to become effective March 1, 1973. The proposed tariff sheets are submitted pursuant to the purchased gas adjustment clause of Columbia's tariff and contain both a current purchased gas adjustment and a surcharge adjustment. The current purchased gas cost adjustment provides for recovery of increased cost of gas purchased of $10,274,334 annually, based upon volumes for the 12-month period ended October 31, 1972. The surcharge is estimated to recover $4,651,149 of deferred purchased gas costs over the 6-month period ending August 31, 1973, based upon unrecovered purchase gas costs for the 7-month period ending February 28, 1973.

Columbia observes that the Commission has not yet acted upon its rate filing of November 30, 1972, Docket No. RP73-65 in which it tendered its purchased gas adjustment clause and requests that the Commission waive such of its rules and regulations under the Natural Gas Act as may be appropriate, in order to permit the revised tariff sheets tendered on January 12 to become effective on March 1, 1973.

Thereafter, on January 23, 1973, Columbia tendered for filing a set of similarly numbered tariff sheets in substitution for those tendered for filing on January 12, described above. The substitute tariff sheets contain increased rates and charges pursuant to Columbia's PGA clause, providing for the recovery of increased purchased gas cost of $10,274,334, as in the January 12 filing, but providing for the recovery of deferred purchased gas cost of $2,373,594, or $2,277,555 less than the January 12 filing. The lesser surcharge amount is based upon actual book deferred cost as of November 30, 1972, rather than the estimated deferred cost of gas purchased as of February 28, 1973, which was reflected in the January 12 filing. Columbia renews its requests for waiver of the Commission's regulations and requests that the substitute filing be permitted to become effective on March 1, 1973, subject to refund in Docket No. RP73-65.

Copies of the filings have been mailed to each of Columbia's jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Columbia's proposed tariff sheets and rate filing are on file with the Commission and are available for public inspection.

[Docket No. CI73-504]

JAMES M. FORGOTSON, SR.

Notice of Application

FEBRUARY 5, 1973.

Take notice that on January 22, 1973, James M. Forgotson, Sr. (Applicant), 409 Beck Building, Shreveport, La. 71101, filed in docket No. CI73-504 an application pursuant to section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. from the South Hallsville/Hosston-Cotton Valley Field, Harrison County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that he commenced the sale of natural gas on January 18, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act, and that he proposes to continue said sale for 1 year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 5,000 Mcf of gas per day at 40 cents per Mcf at 14.65 p.s.i.a., subject to upward and downward B.t.u. adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 16, 1973, file with the Federal Power Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8003]

GULF STATES UTILITIES CO.

Notice of Application

FEBRUARY 5, 1973.

Take notice that on January 26, 1973, an application was filed pursuant to Part 35 of Commission regulations for approval of rate schedules under an agreement dated December 12, 1972, between Gulf States Utilities Co. (Gulf States) and Cajun Electric Power Cooperative, Inc. (CEPCO) (formerly Louisiana Electric Cooperative).

The agreement has the following basic functions:

(1) Gulf States will transmit the power from the CEPCO power station to points of delivery of CEPCO member cooperatives on the Gulf States system. CEPCO will pay Gulf States for transmission service as set forth in the agreement.

(2) If CEPCO requires emergency energy due to an emergency outage of the CEPCO power station, Gulf States shall furnish such energy at the rate stated in the agreement.

(3) If CEPCO requires energy because of outage of its power station for maintenance and other reasons as listed in the agreement, Gulf States will furnish such energy at the rate stated in the agreement.

(4) During the period 1973-75 the CEPCO power station will have rated capability above that needed to serve the CEPCO points of delivery served by Gulf States. Gulf States has agreed to purchase such excess power at the rates set forth in the agreement.

(5) When the total electrical requirement capability of CEPCO points of delivery served by Gulf States exceed the CEPCO power station capability (less reserve capability), future CEPCO growth may be served under a full requirements rate schedule.

(6) Gulf States will pay CEPCO for energy received by Gulf States from the CEPCO power station, in excess of the energy needed for transmission by Gulf States to CEPCO points of delivery, at the CEPCO fuel cost plus 0.5 mill per kw.-hr., as set forth in the agreement.

The agreement will supersede the following Federal Power Commission rate schedules, and Gulf States has requested that they be terminated concurrently with the initiation of service under the agreement.

(1) FPC Schedule 70—Jefferson Davis Electric Cooperative, Inc.

(2) FPC Schedule 73—Beauregard Electric Cooperative, Inc.

(3) FPC Schedule 74—Dixie Electric Membership Corp.

(4) FPC Schedule 75—Pointe Coupee Electric Membership Corp.

(5) Agreement dated August 3, 1971, between Louisiana Electric Cooperative, Inc., Central Louisiana Electric Co. Inc., Louisiana Power & Light Co., and Gulf States Utilities Co., which was accepted for filing by FPC by correspondence issued August 7, 1972.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

INDIANA & MICHIGAN ELECTRIC CO

Application for Issuance of Subpoena Duces Tecum and Production of Documentary Evidence.

FEBRUARY 2, 1973.

Take notice that the Intervenor City of Fort Wayne, Ind., (Fort Wayne) on January 26, 1973, filed with the Commission an application for issuance of a Subpoena Duces Tecum to Mr. Donald C. Cook, president of Indiana & Michigan Electric Co. (I&M) for production of documentary evidence. In support of its application, Fort Wayne states that the documents are vital in order for Fort Wayne to adequately prepare and prove its case in the above captioned proceeding and that I&M has refused to voluntarily provide data requested on December 6, 1972.

Any party to this proceeding desiring to be heard or to protest said application should file comments with the Federal Power Commission, 441 G Street NW., Washington, DC 20426. All such comments or responses should be filed on or before February 14, 1973. Copies of this

application are on file with the Commission and are available for public inspection.

INTERSTATE POWER CO.

Proposed Changes in Rates and Charges

FEBRUARY 2, 1973.

Take notice that Interstate Power Co. (Interstate) on January 18, 1973, tendered for filing a proposed new Electric Service Agreement between Interstate and the City of Bellevue, Iowa which supersedes and cancels the previous Electric Service Agreement, dated May 13, 1966, which had been designated Interstate Power Company Rate Schedule F.P.C. No. 84. Interstate requests waiver of the notice requirements pursuant to Section 35.11 of the Commission's Regulations under the Federal Power Act to permit an effective date of January 26, 1973.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

FEBRUARY 2, 1973.

Take notice that on January 26, 1973, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, IL 60603, filed in Docket No. CP73-194 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to continue the sale of natural gas in interstate commerce to H. L. Hunt, et al., from the North Lansing Field, Harrison County, Tex., at the rate of 16.23075 cents per Mcf at 14.65 p.s.i.a. heretofore authorized in Docket No. G-20358 to be made pursuant to Atlantic Richfield Co. FPC Gas Rate Schedule No. 433, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. RP71-107]

NORTHERN NATURAL GAS CO.

Application for Extraordinary Relief

FEBRUARY 5, 1973.

Take notice that on January 29, 1973, Producers Gas Equities, Inc. (Producers) filed an application for extraordinary relief, requesting that the Commission exempt it from the curtailment provisions of paragraph 9 of the general terms and conditions of Northern Natural Gas Co.'s (Northern) FPC Gas Tariff, Third Revised Volume No. 1, as contained in Northern's settlement agreement approved subject to conditions by the Commission's order issued October 2, 1972.

Applicant states that it transports and sells natural gas to a small number of industrial and residential customers, serving the oil and gas industry and rural households in Central Kansas. Applicant further states that approximately 98.5 precent of its sales are made to oil field customers for oil well pumping fuel and the remaining 1.5 percent of its sales, to farm industrial and residential users. Total gas purchases of Producers for the 12 months ending August 31, 1972, amounted to 8,057,999 Mcf, of which 465,271 Mcf was purchased from Northern.

Applicant claims that until late October 1972, Northern had not restricted its gas deliveries and consequently many of its rural domestic and small industrial customers have been served in reliance on a dependable supply of gas from Northern. For the period October 19 to October 28, 1972, and December 6, 1972, to the present time, Northern has curtailed Producers down to a contractual demand of 10 Mcf per day for a total of 60 days. Producers states that because of an alternate supply from an intrastate supplier it has not yet been necessary for it to curtail service to its customers normally supplied by Northern. Producers asserts that although the cost of gas purchased from Northern is substantially higher than that purchased from its intrastate supplier, it is imperative that Producers be exempted from the curtailment provisions in Northern's tariff because of the delivery capacity of Producers' system and its desire to provide adequate service to its customers.

Applicant states that its request for exemption from curtailment involves a relatively small number of customers and relatively small amount of gas, and that no customer receiving gas from the Northern supply purchases more than 200 Mcf per day. Applicant claims that if sales of gas to the small oil field customers are curtailed, it would cause not only economic hardship and inconvenience to oil lease operators but also would reduce oil production. Therefore, Applicant contends that curtailment of gas sales to it, which in turn curtails gas sales to oil field and farm industrial customers, is not in the public interest.

Producers states that it was not aware of the Commission's intent to interpret the curtailment issue in a manner to include Producers under the curtailment provisions of paragraph 9 of the general terms and conditions of Northern's FPC Gas Tariff as contained in the settlement agreement approved (subject to conditions) by the Commission's order issued October 2, 1972.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

NORTHWESTERN PUBLIC SERVICE CO.

Cancellation of Rate Schedule

FEBRUARY 2, 1973.

Take notice that on January 13, 1973, Northwestern Public Service Co. (Northwestern), filed a notice of cancellation of its FPC Rate Schedule No. 13 and certificate of concurrence from the town of Langford, S. Dak.

The company states no power or energy has been delivered under this rate for several years. The company also states that the notice states that effective the 12th day of January 1973, Northwestern FPC Rate Schedule No. 13, with an effective date of July 6, 1959, is to be canceled.

The company states that copies of the cancellation agreement were served on the mayor of the town of Langford, S. Dak.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Project 184]

PACIFIC GAS AND ELECTRIC CO.

Issuance of Annual License

FEBRUARY 2, 1973.

On February 27, 1970, Pacific Gas and Electric Co., licensee for El Dorado Project No. 184 located in El Dorado, Alpine, and Amador Counties, Calif., on the South Fork of the American River partially within the boundaries of El Dorado National Forest, filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6). Licensee also made supplemental filings on June 22, 1970, and January 22, 1971.

The license for Project No. 184 was issued effective February 23, 1922, for a period ending February 22, 1972. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to Pacific Gas and Electric Co. for continued operation and maintenance of Project No. 184.

Take notice that an annual license is issued to Pacific Gas and Electric Co. (licensee) under section 15 of the Federal Power Act for the period February 23, 1973, to February 22, 1974, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the El Dorado Project No. 184, subject to the terms and conditions of its license.

PANHANDLE EASTERN PIPELINE CO.

Availability of Staff Draft Environmental Impact Statement for Weld-Seward Project

FEBRUARY 5, 1973.

Notice is hereby given in the captioned docket that on February 5, 1973, as required by § 2.82(b) of Commission Order No. 415–C, a draft environmental statement prepared by the staff of the Federal Power Commission, was made available for comments. This statement deals with the environmental impact in the proceeding under Docket No. CP72-181, Panhandle Eastern Pipeline Co., for certificate of public convenience and necessity under section 7(c) of the Natural Gas Act for construction of 89 miles of 20-inch gas transmission line, approximately 300 miles of small diameter gathering pipeline, 25,800 compressor-h.p. and other appurtenant facilities. These facilities would be located in Weld, Adams, and Arapahoe counties in Colorado, and Seward, Haskell, Grant, and Kearney counties in Kansas.

This statement has been circulated for comments to the persons shown on the attached list, has been placed in the public files of the Commission's Office

of Public Information, room 2523, General Accounting Office Building 441 G Street NW., Washington, D.C., and at its regional office located at 819 Taylor Street, Fort Worth, TX. Copies may be ordered from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The Commission has found that it is necessary and appropriate in the public interest to dispense with the 45-day time period for review and comment and herewith shortens the period to 30 days from the above date to afford the Commission the opportunity to decide within the gas contract deadline period if the merits of this application serve the public convenience and necessity.

Any person who wishes to do so may file comments on the staff draft statement for the Commission's consideration. All comments must be filed on or before March 7, 1973.

Any person who wishes to present evidence regarding environmental matters in this proceeding must file with the Commission a petition to intervene pursuant to § 1.8 of the Commission rules of practice and procedure. Petitioners must also file timely comments on the draft statement in accordance with § 2.82(c) of Order No. 415–C.

All petitions to intervene must be filed on or before March 7, 1973.

By direction of the Commission.

MARY B. KIDD,
Acting Secretary.

NOTE: An attachment listing recipients of the draft environmental statement is filed as part of the original document.

SOUTHERN CALIFORNIA EDISON CO.

Filing of Settlement Agreements

FEBRUARY 2, 1973.

Take notice that on January 29, 1973, Southern California Edison Co. filed with the Commission in the above-entitled proceeding, settlement agreements with, and revised rate schedules relating to electric service to, the following customers:

Arizona Public Service Co. (Cibola and Ehrenberg), Sierra Pacific Power Co. (Mineral County Power System), Southern California Water Co. (Harnish Substation Delivery Point), and U.S. Naval Ammunition Depot—all R–1 customers.

City of Azusa, city of Colton, city of Vernon, and Southern California Water Co. (Gold Hill Substation Delivery Point)—all R–2 customers.

The proposed R–1 and R–2 rates under the settlement agreements are to be made effective as of November 14, 1971.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 441 G Street NW., Washington, DC 20426. All such comments should be filed on or before February 20, 1973. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this settlement agreement are on file with the Commission and are available for public inspection.

SOUTHWEST GAS CORP. AND EL PASO NATURAL GAS CO.

Notice of Complaint

FEBRUARY 5,1973.

Take notice that Southwest Gas Corp. (Southwest), on January 15, 1973, filed a complaint against El Paso Natural Gas Co. (El Paso), in which it requests the Commission to allow Southwest to receive gas under Rate Schedule G of El Paso's FPC Gas Tariff, Original Volume No. 1.

Southwest, which purchases gas under Rate Schedule A–1–X, alleges that it meets all the qualifications of a G and G–X customer. Southwest contends that El Paso discriminates against it for the reason that El Paso's other customers under the G and G–X schedules receive a similar type service as Southwest and receive gas at a similar geographic point. The company attaches correspondence showing that it requested service from El Paso under the G and G–X rate schedules and El Paso refused such service.

Southwest says that El Paso is presently before the Commission in Docket No. RP72–150, and it requests that its complaint be consolidated for hearing as an issue of rate design in that proceeding.

A copy of the complaint was served on El Paso.

Any person desiring to be heard with regard to this complaint (other than El Paso which filed a letter on January 24, 1973, indicating its agreement with Southwest's request for consolidation) should file a petition to intervene with the Federal Power Commission, 441 G Street NW., Washington, DC 20426 in accordance with § 1.8 of the Commission's rules of practice and procedure (18 CFR 1.8). All such petitions should be filed on or before February 16, 1973. Copies of the complaint are on file with the Commission and are available for public inspection.

[Docket No. CI73-516]

JAMES W. STAPLES

Notice of Application

FEBRUARY 5, 1973.

Take notice that on January 31, 1973, James W. Staples (Applicant), Post Office Box 76, Tuleta, TX 78162, filed in Docket No. CI73–516 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co., from the Tuleta Field, Bee County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell 1,000 Mcf of gas per day at 35 cents per Mcf at 14.65 p.s.i.a. for 1 year within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70) commencing at the end of a 60-day emergency sale made within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 20, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commissions' rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP70-185]

TENNESSEE GAS PIPELINE CO.

Petition to Amend

FEBRUARY 2, 1973.

Take notice that on January 17, 1973, Tennessee Gas Pipeline Co., a Division of Tenneco Inc. (Petitioner), Post Office Box 2511, Houston, TX 77001, filed in Docket No. CP70–185 a petition to amend the order of the Commission issuing a certificate of public convenience and necessity in said docket pursuant to section

7(c) of the Natural Gas Act on June 22, 1970 (43 FPC 937), as amended on December 15, 1972 (48 FPC ——), by authorizing Petitioner to sell natural gas to United Gas, Inc. (UGI) in lieu of United Gas Pipe Line Co. (United) and to reallocate the natural gas to UGI, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the order of June 22, 1970, in the subject docket Petitioner was authorized, inter alia, to sell up to 16,035 Mcf of gas per day to United for United's Shaw and Sardis Service area, among others, under Petitioner's GS–1 rate schedule, and to sell up to 8,705 Mcf of gas per day to United for United's Oxford, Miss., Service area under Petitioner's G–1 rate schedule. On December 15, 1972, the Commission authorized Petitioner in the subject docket to substitute the city of Senatobia, Miss., in lieu of United, as buyer for the Sardis, Miss., service area and to sell up to 4,410 Mcf of gas per day to the city under Petitioner's GS–1 rate schedule.

United was authorized by the Commission in Docket No. CP71–123 on August 26, 1971, to abandon and sell its Sardis Service Area facilities, used to serve Sardis, Como, and Senatobia, Miss., and on August 25, 1972, United was authorized in Docket No. CP72–272 to abandon and sell its remaining facilities in northwestern Mississippi to UGI. It is stated that pursuant to an agreement between United and UGI, United assigned its remaining contracts with Petitioner to UGI.

Petitioner states that on November 1, 1972, it entered into contracts with UGI for the service areas of Coffeeville, Crowder, Drew, Lambert, Ruleville, Shaw, Sumner, and Oxford, Miss., reflecting the assignment of heretofore mentioned contracts to UGI, and that said contracts between Petitioner and UGI also reallocated the maximum daily quantities of natural gas available to UGI as a result of the above mentioned contracts assigned by United to UGI.

It is stated that authorization for Petitioner to sell gas to UGI will better enable UGI to meet the requirements of its customers. It is further stated that the requested reallocation will not result in an increase in the total maximum daily contract quantity available to UGI from Petitioner, nor will it result in any additional costs to Petitioner.

Petitioner states that the proposed reallocation can be accomplished by utilizing the facilities and capacity previously used to serve United without entailing any operating problems and without affecting Petitioner's ability to render authorized natural gas service to any other customer.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before February 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

TENNESSEE GAS PIPELINE CO.

Proposed Tariff Changes

FEBRUARY 5, 1973.

Take notice that Tennessee Gas Pipeline Co., a Division of Tenneco Inc., on December 29, 1972, tendered for filing proposed changes in its FPC gas tariff, ninth revised volume No. 1 and sixth revised volume No. 2, to be effective March 1, 1973. The proposed changes would increase revenues from jurisdictional sales and service by approximately $1,400,000 annually based on the 12-month period ending November 30, 1972.

Tennessee states that the instant filing is to track increases for advance payments pursuant to its Settlement Agreement dated August 16, 1971, as approved and made effective by the Commission's opinion No. 619 issued May 19, 1972.

Copies of the filing were served upon the company's jurisdictional customers and affected stated regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice Extending Time, Fixing Prehearing Conference and Changing Hearing Date

FEBRUARY 6, 1973.

On January 15, 1973, the president of the department of public utilities of the State of New Jersey filed a letter in the above-designated matter. The letter was treated as a motion to advance the hearing and was served on all parties, providing for answers thereto to be filed on or before February 2, 1973.

On February 2, 1973, answers were filed by Transcontinental Gas Pipe Line Corp., Elizabethtown Gas Co., and Central Illinois Light Co.

On January 30, 1973, Transcontinental Gas Pipe Line Corp., filed a motion for an extension of time within which to file testimony as required by the order issued January 9, 1973.

Upon consideration, notice is hereby given that the time is extended to and including February 9, 1973, within which Transcontinental Gas Pipe Line Corp., may submit its prepared direct presentation, including prepared testimony of witnesses and exhibits.

A prehearing conference shall be held on February 14, 1973, at 10 a.m. (e.s.t.), respecting the matters involved and issues presented in this proceeding. The hearing is advanced, to commence on February 21, 1973, at 10 a.m. (e.s.t.).

UNITED ILLUMINATING CO.

Notice of Termination

FEBRUARY 2, 1973.

Take notice that on November 15, 1972, United Illuminating Co. (United) filed notice that its rate schedules FPC Nos. 21 and 22 and supplement No. 1 to each such rate schedule, consisting of purchased agreements between United and Bangor Hydro-Electric Co. (No. 21) and Vermont Electric Power Co. (No. 22) effective May 1, 1972. The above-described tariff sheets are to be terminated effective November 1, 1972. The company states that the reason for the termination is that the agreements involved by section 1 of each such agreement provided for its termination and 2,400 hours on October 31, 1972.

The company states that notice of such termination has been served upon Bangor Hydro-Electric Co., and Vermont Electric Power Co.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 16, 1973. Protests will be considered by the Commission in determining the appropriate action to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

UPPER PENINSULA POWER CO.

Proposed Changes in Rates and Charges

FEBRUARY 2, 1973.

Take notice that Upper Peninsula Power Co. (Upper Peninsula) on July 14, 1972, as supplemented on October 30, 1972, tendered for filing an agreement executed on May 30, 1972, between Upper Peninsula, Cliffs Electric Service Co. (Service Company), and Upper Peninsula Generating Co. (Generating Company), to become effective on August 14, 1972. The filing is described in the company's transmittal letter as follows:

The agreement being filed is essentially a coordination, pooling, and transmission arrangement pursuant to which power company has agreed to deliver power produced at plants of both Generating Company and Service Company to the iron mines operated by the parent company of Service Company, the Cleveland-Cliffs Iron Co. (Cleveland-Cliffs).

An agreement providing for these services was executed on May 1, 1968 by power company, Generating Company and the predecessor to Service Company, Cleveland-Cliffs. That agreement was modified by the parties by letter agreement of January 15, 1971. The 1972 basic agreement which is here submitted for filing will supersede and replace those agreements.

Copies of the filing were mailed to Service Company, Generating Company, and the Michigan Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

VIRGINIA ELECTRIC & POWER CO.

Proposed Changes in Rates and Charges

FEBRUARY 2, 1973.

Take notice that Virginia Electric & Power Co. (VEPCO) on January 18, 1973, tendered for filing a proposed supplement to its Rate Schedule FPC No. 67.

The Virginia Electric Cooperative requested a new delivery point in Caroline County, Va., which has been designated Woodpecker Delivery Point. Projected connection date for this delivery point was November 1973; however, the Cooperative requested construction to commence early and service to the delivery point was completed and connected December 18, 1972.

VEPCO has requested waiver of the Commission's prior notice requirements to permit the supplement to be effective as of December 18, 1972.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Take notice that on December 18, 1972, Washington Water Power Co. (Washington) filed an agreement designated NW-1 dated November 21, 1972, between Washington and the Montana Power Co. (Montana). The agreement provides for the sale of firm peaking power to Washington during the period January 1, 1973 through February 28, 1973. Montana requests waiver of the notice requirement of the Commission's Regulations in order to make the filing effective January 1, 1973.

make the filing effective January 1, 1973.

Attached to the agreement is a certificate of concurrence from Washington.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 16, 1973. LOEB, RHOADES & CO. ET AL.

Notice of Filing of Application for Exemption

Notice is hereby given that Loeb, Rhoades & Co., 42 Wall Street, New York, NY 10005; Bache & Co. Incorporated, 100 Gold Street, New York, NY 10038; Dupont Glore Forgan Incorporated, 1 Wall Street, New York, NY 10005, and Harris, Upham & Co. Inc., 120 Broadway, New York, NY 10005 ("Applicants"), registered broker-dealers and the prospective representatives of a group of underwriters to be formed in connection with a proposed public offering of shares of capital stock of John Hancock Income Securities Corp. ("Company"), a diversified, closed-end management investment company registered under the Investment Company Act of 1940 ("Act"), have filed an application pursuant to section 6(c) of the Act for an order exempting transactions by Applicants and their co-underwriters, incidental to the distribution of Company shares, from section 30(f) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representation contained therein, which are summarized below.

Shares of the Company (the "Registered Shares") are to be purchased by underwriters pursuant to an underwriting agreement to be entered into between the Company and the underwriters represented by the representatives. It is intended that the several underwriters will make a public offering of the Registered Shares of the Company to be purchased by them under the underwriting agreement as soon as practicable after the effective date of the Company's Form S-4 registration statement filed under the Securities Act of 1933.

In addition to purchases from the Company and sales to customers, there may be the usual transactions of purchases or sales incident to a distribution such as stabilizing purchases, purchases to cover over-allotments or other short positions created in connection with such distribution, and sales of shares purchased in stabilization.

It is quite possible that one or more of the Applicants and other members of the underwriting group may each acquire, in accordance with the provisions of the underwriting agreement, more than 10 percent of the Company's capital stock which will be outstanding at the time of the closing of the initial public offering of the Registered Shares.

Section 30(f) of the Act subjects every person who is directly or indirectly the beneficial owner of more than 10 percent of any class of outstanding securities of the Company to the same duties and liabilities as those imposed by section 16 of the Securities Exchange Act of 1934 ("Exchange Act").

Section 16(a) of the Exchange Act requires insiders to file reports of their holdings and changes in their holdings and section 16(b) makes such insiders liable for short-term trading profits.

Rule 16b-2 under the Exchange Act exempts certain transactions in connection with a distribution of securities from the operation of section 16(b) of the Exchange Act. Applicants state that the purpose of the purchase by Applicants and the other underwriters is for resale in connection with the initial distribution of Registered Shares of the Company. The purchases and sales will thus be transactions effected in connection with a distribution of a substantial block of securities within the purpose and spirit of Rule 16b-2.

It is possible, however, that certain of the Applicants and underwriters will not be exempted from section 16(b) by the operation of Rule 16b-2, as they may fail to meet the requirements stated in paragraph (a)(3) of Rule 16b-2 that the aggregate participation of persons not within the purview of section 16(b) of the Exchange Act be at least equal to the

participation of persons receiving the exemption under Rule 16b–2. It is possible that one or more of the underwriters who, pursuant to the underwriting agreement, will purchase more than 10 percent of the shares of the Company, may be obligated to purchase more than 50 percent of such shares being offered pursuant to the underwriting agreement. Moreover, Rule 16b–2 will not exempt the underwriters subject to section 30(f) from the provisions of section 16(a).

Applicants state that the underwriters, including the Applicants, intend to make a public offering of the shares of the Company to be purchased by them as soon as practicable after the effective date of the Company's registration statement and that there is no "inside information" in existence since the Company, prior to distribution of the Registered Shares, will have no assets (other than cash) or business of any sort, and detailed information with respect to the Company will be set forth in the prospectus incorporated in the registration statement. No partner, director or officer of any of the Representatives is a director or officer of the Company or the adviser to the Company, and it is not anticipated that any partner, director or officer of any other underwriter will be a director or officer of the Company or the adviser.

Applicants submit that the requested exemption from the provisions of section 30(f) of the Act is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. It is further submitted that the transactions sought to be exempted cannot lend themselves to the practices section 16 of the Exchange Act and section 30(f) of the Act were enacted to prevent.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities, or transactions from any provision of the Act and Rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 20, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

The notice period provided for herein is deemed reasonable in view of the nature of the application and the necessity for action prior to February 22, 1973, when Applicants propose to close the underwriting agreement with the Company.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

Secretary.

NEW ENGLAND ELECTRIC SYSTEM AND MASSACHUSETTS GAS SYSTEM

Notice of Filing of Plan to Effectuate Disposition of Utility Assets

FEBRUARY 5, 1973.

Notice is hereby given that New England Electric System, 20 Turnpike Road, Westborough, MA 01581 (NEES), a registered holding company, and its subsidiary holding company, Massachusetts Gas System (Mass Gas), have filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act) and a plan pursuant to section 11(e) of the Act (plan) for the purpose of effectuating compliance with the Commission's Order under section 11(b)(1) of the Act, requiring NEES to divest itself of its gas utility subsidiaries. NEES and Mass Gas have designated sections 9, 10, 11, and 12 of the Act and Rules 43, 44, and 46 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the amended application-declaration and to the plan, which are summarized below, for a complete statement of the proposed transactions.

In 1964, the Commission issued an order under section 11(b)(1) of the Act requiring NEES to dispose of all its interests, direct or indirect, in its eight gas utility subsidiary companies (Holding Company Act Release No. 15035, Mar. 19, 1964). The Supreme Court on March 5, 1968, directed the Court of Appeals for the First Circuit to enter an order affirming the Commission's original divestment order. By orders of the Commission dated July 11, 1969 (Holding Company Act Release No. 16424), and February 24, 1970 (Holding Company Act Release No. 16618), NEES was granted extensions to comply with the Commission's divestment order.

As a step in the divestment of its eight gas utility subsidiary companies, NEES formed a new holding company, Mass Gas, which issued and sold its common shares to NEES in exchange for the securities held by NEES in these subsidiary companies (Holding Company Act Release No. 16583, Jan. 19, 1970).

On December 30, 1971, the Commission approved a plan filed by NEES and Mass

Gas providing for the divestment by sale of the capital stock of the four smaller subsidiary companies (Holding Company Act Release No. 17419), which were disposed of under an exception from the competitive bidding requirements of Rule 50 (Holding Company Act Release No. 17066, Mar. 25, 1971). A similar exception from competitive bidding was granted for the disposition of the remaining subsidiary companies. (Holding Company Act Release No. 17371, Nov. 23, 1971).

The plan filed by NEES and Mass Gas deals with three gas utility subsidiary companies and one subsidiary Massachusetts business corporation. The three subsidiary gas utility companies are Lynn Gas Co. (Lynn), Mystic Valley Gas Co. (Mystic Valley) and North Shore Gas Co. (North Shore). The subsidiary business corporation, Massachusetts LNG, Inc. (Mass LNG), was created by Mass Gas as a wholly owned subsidiary company for the purpose of financing the construction of two gas storage facilities (Holding Company Act Release No. 17168, June 21, 1971). Mass Gas presently holds 93.77 percent of the outstanding capital stock of Lynn, 99.43 percent of Mystic Valley, 97.83 percent of North Shore and 100 percent of Mass LNG.

The plan provides for:

1. The dissolution of Mass Gas and the acquisition of all of its assets and assumption of all of its liabilities by NEES;

2. The immediate sale of the stock of the four subsidiary companies for cash to Eastern Gas and Fuel Associates (Eastern), an exempt holding company; and

3. The retirement of the shares of Lynn, Mystic Valley, and North Shore held by persons other than NEES by cash payment.

It is contemplated that immediately on acquisition of the stock to be sold by NEES, Eastern will cause Lynn, Mystic Valley, and North Shore to sell all their assets to Boston Gas Co. (Boston), a subsidiary of Eastern, for cash and assumption by Boston of all their liabilities. Lynn, Mystic Valley, and North Shore will then liquidate, distributing the net cash proceeds of the sales to their respective shareholders, including the minority shareholders. Eastern intends to purchase new stock of Boston for cash to finance this phase of the transaction, and to retain Mass LNG as a Boston subsidiary.

The price agreed on for the NEES owned shares in the four companies being sold to Eastern is $26,881,352, as of December 31, 1971. This price is to be adjusted by the amount of any increase or decrease in the underlying book value of the shares to be sold between December 31, 1971, and the end of the calendar month immediately preceeding the closing date. At December 31, 1971, the underlying book values of the shares to be sold were:

	Percent	
Lynn	93.77	$4,009,177
Mystic Valley	99.43	12,333,274
North Shore	97.83	4,858,601
Mass LNG	100.00	1,000
Total		22,192,052

Eastern has also agreed that, on the date of closing, it will have arranged for refinancing of the short-term bank loans then outstanding of the companies to be sold and Eastern will also pay NEES the principal amount of any short-term notes payable by Lynn to Mass Gas which may then be outstanding. NEES will use the proceeds of the sale for investment in one or more of its electric utility subsidiary companies, or to pay its own short-term bank loans.

The contract price of $26,881,352 is 121 percent of the $22,192,052 underlying book value of the shares to be sold by NEES. The same 121 percent factor has been applied by the parties to the December 31, 1971, book value of the equity of each of the three gas utility companies being sold to fix the price for each, and to allocate the proposed cash distribution to the minority shareholders of each.

The cash distribution to be made to minority shareholders of the companies to be sold would have been, if the sales had been effected December 31, 1971, the following amounts per share:

	December 31, 1971	
	Pro forma price	Underlying book value
Lynn	$52.57	$43.40
Mystic Valley	39.60	32.69
North Shore	25.19	20.80

This amount is also subject to the adjustment for changes in underlying book values subsequent to December 31, 1971.

The application-declaration represents that no fees or commissions will be paid by NEES or Mass Gas in connection with the proposed transactions. Any finder's fee or commission incidental to the sale of the four subsidiary companies from NEES to Eastern will be paid by the purchaser. Estimated expenses in connection with this proposed transaction and a concurrent divestiture are $12,000 for NEES and $4,000 for Mass Gas. It is further represented that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed sale to Eastern. However, the Massachusetts Department of Public Utilities has jurisdiction over the acquisitions by Boston of the assets of Lynn, Mystic Valley, and North Shore.

Notice is further given that any interested person may, not later than March 8, 1973, request in writing that a hearing be held in respect of such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the plan which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon NEES at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the plan, as amended or as it may be further amended, may be approved as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof, or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

It is ordered, That NEES mail a copy of this notice to all holders of record of the common stock of Lynn, Mystic Valley, and North Shore at least 20 days prior to the date herein fixed as the final date on which a hearing may be requested in this matter.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

NUVEEN TAX-EXEMPT BOND FUND (SERIES 1 AND SUBSEQUENT SERIES)

Notice of Filing of Application for an Order Granting Exemption

FEBRUARY 5, 1973.

Notice is hereby given that Nuveen Tax-Exempt Bond Fund, c/o John Nuveen & Co., Inc., 209 South La Salle Street, Chicago, IL 60604 (Applicant), a unit investment trust registered under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 6(c) of the Act for an order for exemption from the provisions of Rule 19b-1 under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

The Applicant at present consists of a series of 47, similar but separate, investment companies sponsored by John Nuveen & Co., Inc., or its predecessor, John Nuveen & Co., as sponsor-depositor (Sponsor). Each of the existing 47 series of Applicant is registered under the Act as a unit investment trust, and a Notification of Registration on Form N-8A and a Registration Statement on Form N-8B-2 have been filed with the Commission as to each. Fractional undivided interests in the first 46 series of Applicant have been sold to the public after having been effectively registered under the provisions of the Securities Act of 1933. A Registration Statement relating to Series 47 and the units of beneficial interest therein is currently on file with the Commission under the Securities Act of 1933, although it has not yet been declared effective. Applicant represents that the objective of each of its series is to seek income exempt from Federal income taxes through an investment in tax-exempt bonds.

Each existing series of Applicant is governed by the provisions of a trust indenture and agreement (Indenture) entered into in respect thereof by the Sponsor and U.S. Trust Company of New York as Trustee (Trustee) and consists of a diversified portfolio of interest-bearing obligations (Bonds) issued by or on behalf of States, counties, municipalities, and territories of the United States and authorities and political subdivisions thereof, the interest from which, in the opinion of counsel, under existing law, is exempt from all Federal income taxes. Each Indenture was entered into when the related series of Applicant was activated and the Bonds comprising its portfolio were deposited with the Trustee, and each is substantially identical in all mechanical respects except as to size, number of units, and the specific Bonds in its portfolio. The proposed form of indenture for Series 47 will be substantially identical with the earlier Indentures except possibly as to the size of the fund, the number of units, and the identity of portfolio Bonds. It is expected that substantially the same procedure will be followed in the creation of Applicant's future series.

Rule 19b–1 provides, in part, that no registered investment company which is not a "regulated investment company" as defined in section 851 of the Internal Revenue Code of 1954 shall make more than one distribution of long-term capital gains in any 1-taxable year of such investment company. One purpose of the rule is to relieve investment company managers from pressure to realize such gains on a frequent and regular basis.

Each series of Applicant is or will be a registered investment company which is not a "regulated investment company." From time to time Bonds in a portfolio of a series of Applicant may be redeemed by the issuer thereof or may be sold by the Trustee for the purpose of providing either investment stability or funds for the redemption of units. These transactions may give rise to a problem under Rule 19b–1 when the funds distributed from Applicant's principal account involve a long-term capital gain.

The Indenture establishes record and distribution dates for the distribution to certificate holders of their pro rata share of the cash balance of the interest and principal accounts computed as of the record date. Since the Trustee has no authority to reinvest funds received upon the disposition of Bonds, it is not permitted to accumulate cash and must distribute such funds promptly. With regard to Series 1 through 39, distributions from the interest and principal accounts are made semiannually, and for Series 40 through 46 such distributions are made each month. For subsequent series it is contemplated that such distributions also will be made each month; however, the Trustee would be subjected to the same problem in subsequent series if the distributions were made semiannually or quarterly.

Applicant states that distributions of principal constituting capital gains to certificate holders may arise in the following circumstances: (1) If an issuer calls or redeems an issue held in the portfolio; and (2) if Bonds are liquidated in order to provide funds necessary to meet redemptions by certificate holders. Applicant states that capital gains are not anticipated to arise from sales of Bonds made by the Trustee at the request of the Sponsor to provide investment stability, i.e., after default in payments of principal or interest on such bonds or the occurrence of other market or credit factors which, in the opinion of the Sponsor, would make retention of such Bonds in Applicant detrimental to the interests of the certificate holders.

Applicant states that the dangers which Rule 19b–1 is intended to guard against will not exist in connection with Applicant, since the events which are likely to give rise to a net long-term capital gain are independent of the Sponsor and the Trustee. Accordingly, Applicant requests that the Commission grant an exemption from the provisions of Rule 19b–1 to permit distributions to be made as contemplated by the related Indenture, irrespective of whether any such distribution from the principal account may include amounts deemed to represent long-term capital gains.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provisions of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than March 1, 1973, at 5:30 p.m., submit to the Commission in writing a request for hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

WHITE, WELD AND CO. INC.

Notice of Filing of Application for an Order of Exemption

FEBRUARY 5, 1973.

In the matter of White, Weld & Co., Inc., 91 Liberty Street, New York, NY 10006; W. E. Hutton & Co., 14 Wall Street, New York, NY 10005; G. H. Walker & Co., Inc., 45 Wall Street, New York, NY 10005; Shearson, Hammill & Co., Inc., 14 Wall Street, New York, NY 10005; Shields Securities Corp., 44 Wall Street, New York, NY 10005; Edwards & Hanley, 1 Whitehall Street, New York, NY 10005.

Notice is hereby given that White, Weld & Co., Inc., Shearson, Hammill & Co., Inc., W. E. Hutton & Co., Shields Securities Corp., G. H. Walker & Co., Inc., and Edwards & Hanly, registered broker-dealers and the prospective representatives of a group of underwriters to be formed in connection with a proposed public offering of shares of common stock of Advance Investors Corp. (Company), a diversified, closed-end management investment company registered under the Investment Company Act of 1940 (Act), have filed an application pursuant to sec-

tion 6(c) of the Act for an order exempting transactions by Applicants and their counderwriters, incidental to the distribution of the Company's shares (Registered Shares), from section 30(f) of the Act to the extent that such section adopts section 16(b) of the Securities Exchange Act of 1934 (Exchange Act). All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Registered Shares are to be purchased by underwriters pursuant to an underwriting agreement to be entered into between the Company and the underwriters represented by the representatives. It is intended that the several underwriters will make a public offering of the Registered Shares of the Company which such underwriters are to purchase under the underwriting agreement as soon as practicable after the effective date of the Company's Form S–4 Registration Statement filed under the Securities Act of 1933.

The proposed method of distribution of the Registered Shares is described in the prospectus incorporated in the Company's Registration Statement. Although 5 million shares are the subject of that registration statement, the actual number of shares which may be the subject of the proposed public offering may be greater or less than 5 million depending upon market conditions and other factors.

The representatives will purchase an aggregate of 7,000 shares of common stock of the Company (the Investment Shares), for an approximate price of $105,000 to provide the initial capital required by section 14 of the Act. Since the purchase of these shares will make each representative a beneficial owner of more than 10 percent of the outstanding equity securities of the Company prior to the public offering, the representatives will each file, prior to the effective date of the Registration Statement, initial statements of beneficial ownership of equity securities (Form 3) as required by section 16(a) of the Exchange Act.

In addition to purchases from the Company and sales to customers, there may be the usual transactions of purchases or sales incident to a distribution, such as stabilizing purchases, purchases to cover over-allotments or other short positions created in connection with such distribution, and sales of shares purchased in stabilization.

It is quite possible that one or more of the Applicants and other members of the underwriting group may each acquire, in accordance with the provisions of the underwriting agreement, more than 10 percent of the Company's common stock which will be outstanding at the time of the closing of the initial public offering of the shares.

Section 30(f) of the Act subjects every person who is directly or indirectly the beneficial owner of more than 10 percent of any class of outstanding securities of the Company to the same duties and liabilities as those imposed by section 16 of the Exchange Act.

Section 16(a) of the Exchange Act requires insiders to file reports of their holdings and changes in their holdings, and section 16(b) makes such insiders liable for short-term trading profits.

Rule 16b–2 under the Exchange Act exempts certain transactions in connection with a distribution of securities from the operation of section 16(b) of the Exchange Act. Applicants state that the purpose of the purchase by Applicants and the other underwriters is for resale in connection with the initial distribution of shares of the Company. The purchases and sales will thus be transactions effected in connection with a distribution of a substantial block of securities within the purpose and spirit of Rule 16b–2.

Although it is anticipated that the requirements of Rules 16b–2(a) (1) and (2) will be met, it is possible, however, that Applicants and certain of the underwriters will not be exempted from section 16(b) by the operation of Rule 16b–2, as they may fail to meet the requirement stated in paragraph (a)(3) of Rule 16b–2 that the aggregate participation of persons not within the purview of section 16(b) of the Exchange Act be at least equal to the participation of persons receiving the exemption under Rule 16b–2. It is possible that one or more of the underwriters who, pursuant to the underwriting agreement, will purchase more than 10 percent of the shares of the Company, may be obligated to purchase more than 50 percent of such shares being offered pursuant to the underwriting agreement.

Applicants state that there is no "inside information" in existence since the Company, prior to distribution of the Registered Shares, will have no assets (other than cash) or business of any sort, and detailed information with respect to the Company will be set forth in the prospectus incorporated in the Registration Statement. No partner, director or officer of the representatives is a director or officer of the Company or the Adviser to the Company, and it is not anticipated that any partner, director or officer of any other underwriter will be a director or officer of the Company or the Adviser.

Applicants submit that the requested exemption from the provisions of section 30(f) of the Act is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. It is further submitted that the transactions sought to be exempted cannot lend themselves to the practices section 16(b) of the Exchange Act and section 30(f) of the Act were enacted to prevent.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities, or transactions from any provision of the Act and rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 20, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

The notice period provided for herein is deemed reasonable in view of the nature of the application and the necessity for action before February 22, 1973, when Applicants propose to begin the public offering of the Company's shares.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

SMALL BUSINESS ADMINISTRATION

[Application No. 05/05–5092]

DAYTON MESBIC, INC.

Notice of Application for a License as a Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 461 et seq.), has been filed by Dayton MESBIC, Inc. (applicant) with the Small Business Administration (SBA) pursuant to section 107.102 of the SBA rules and regulations governing Small Business Investment Companies (13 CFR 107.102 (1972)).

The officers and directors of the applicant are as follows:

Robert L. Davis, 4569 Lansmore Drive, Dayton, OH 45406, chairman of the board, president.

Carl J. Davis, Jr., 3521 Hillmont, Dayton, OH 45414, vice president, director.
Charles A. Jones, 4672 Owens Drive, Dayton, OH 45406, secretary/treasurer, director.

The applicant, an Ohio corporation with its principal place of business located at 18 North Ludlow Street, Dayton, Ohio 45402, will begin operations with $500,000 of paid-in capital, consisting of 500 shares of common stock (issued at $1,000 a share). All of the stock will be owned by the City-Wide Development Corp., a nonprofit corporation, located at the same address as that of the applicant and engaged in implementing the Dayton Model Cities program under a grant received by the city of Dayton from the Department of Housing and Urban Development, under title I of the Demonstration Cities and Metropolitan Development Act of 1966.

Applicant will not concentrate its investments in any particular industry. According to the company's stated investment policy, its investments will be made solely in small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owner and management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act, and the SBA rules and regulations.

Any person may, not later than 15 days from the date of publication of this notice, submit to SBA written comments on the proposed applicant. Any such communication should be addressed to the Associate Administrator for Operations and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

A copy of this notice shall be published in a newspaper of general circulation in Dayton, Ohio.

Dated: January 31, 1973.

DEPARTMENT OF LABOR

Office of the Secretary

CARTHAGE MARBLE CORP.

Notice of Certification of Eligibility of Workers To Apply for Adjustment Assistance

Under date of December 11, 1972, a petition requesting certification of eligibility to apply for adjustment assistance was filed with the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs by the Oil, Chemical and Atomic Workers International Union on behalf of workers of Carthage Marble Corp., Carthage, Mo. This request for certification was made under the President's decision of January 28, 1972. That decision provides pursuant to section 302(a)(3), with respect to the domestic marble and travertine industry, that its workers may request the Secretary of Labor for certifications of eligibility to apply for adjustment assistance under Chapter 3, Title III, of the Trade Expansion Act of 1962. (Weekly Compilation of Presidential Documents, January 31, 1972, p. 148; Congressional Record, issue January 31, 1972, S. 724, H. 447.)

The Act, section 302(b)(2), provides that the Secretary of Labor shall certify as eligible to apply for adjustment assistance under Chapter 3 any group of workers in an industry with respect to which the President has acted under section 302(a)(3), upon a showing by such group of workers to the satisfaction of the Secretary of Labor that the increased imports (which the Tariff Commission has determined to result from concessions granted under trade agreements) have caused or threaten to cause unemployment or underemployment of a significant number or proportion of workers of such workers' firm or subdivision thereof. The same degree of causal connection is applicable here as under the tariff adjustment and other adjustment assistance provisions; that is, the increased imports have been the major factor.

The Director, Office of Foreign Economic Policy, upon receipt of the petition, instituted an investigation following which she made a recommendation to me relating to the matter of certification (Notice of Delegation of Authority and Notice of Investigation, 34 FR 18342 and 37 FR 2472, 28096, 29 CFR 90.11). In the recommendation, she noted that imports of products like or directly competitive with structural marble and travertine of the type produced by Carthage Marble Corp. had increased substantially over the past 5 years. U.S. Tariffs on these products were reduced by 50 percent over the period 1968 to 1972 as a result of concessions granted in the Kennedy round of trade negotiations. Competitive pressures placed the firm under a severe financial strain over the past 5 years, resulting in substantial losses over the period. As a result of growing import competition, employment levels at the firm have declined significantly from 1969 to the present. Labor force reductions due to increased imports began in September 1969 at the Carthage quarry, January 1971 at the Carthage finishing plants and July 1971 at the Phenix quarry near Walnut Grove, Mo., and continues. After due consideration I make the following certifications:

"All hourly workers of Carthage Marble Corp., Carthage quarry in Carthage, Mo., employed in the quarrying of marble, who became or will become unemployed or underemployed after September 6, 1969, are eligible to apply for adjustment assistance under Title III, Chapter 3, of the Trade Expansion Act of 1962.

All hourly workers of Carthage Marble Corp., Finishing Sheds No. 1 and No. 8 in Carthage, Mo., employed in the finishing of structural marble and travertine, who became or will become unemployed or underemployed after January 2, 1971, are eligible to apply for adjustment assistance under Title III, Chapter 3, of the Trade Expansion Act of 1962.

All hourly workers of Carthage Marble Corp., Phenix quarry near Walnut Grove, Mo., employed in the quarrying of marble, who became or will become unemployed or underemployed after July 24, 1971, are eligible to apply for adjustment assistance under Title III, Chapter 3, of the Trade Expansion Act of 1962."

Signed at Washington, D.C. this 5th day of February 1973.

JOEL SEGALL,
Deputy Under Secretary for International Labor Affairs.

Occupational Safety and Health Administration

NOTICE OF RECEIPT OF PETITION FOR ISSUANCE OF EMERGENCY TEMPORARY STANDARD

Request for Information

I. *Notice of Petition.* Notice is hereby given that Health Research Group and Oil, Chemical, and Atomic Workers International Union have filed a petition pursuant to section 6(c) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596), and § 1911.3

of Title 29, Code of Federal Regulations, for an emergency standard.

The standard as proposed by the petitioners concerns 10 substances alleged to be carcinogens.

The grounds for the petitioners' request are that (1) employee exposure to any of the listed carcinogens presents a grave danger to the health of the employee, and (2) the requested emergency temporary standard is necessary to protect these employees from this danger.

The text of the regulation suggested by the petitioners is attached as an appendix in this document.

Copies of the full petition will be made available for inspection and copying, upon request at the U.S. Department of Labor, Office of Standards, Railway Labor Building, Room 500, 400 First Street NW., Washington, DC 20210, and at the following regional offices:

John F. Kennedy Federal Building, Government Center—Room No. E308, Boston, MA 02203; 1515 Broadway, New York, NY 10036; Penn Square Building, Room 623, 1317 Filbert Street, Philadelphia, PA 19107; 1375 Peachtree Street NE., Suite 587, Atlanta, GA 30309; 300 South Wacker Drive, Room 1201, Chicago, IL 60606; Seventh Floor, Texaco Building, 1512 Commerce Street, Dallas, TX 75201; 823 Walnut Street, Waltower Building, Room 300, Kansas City, MO 64104; Federal Building, Room 15010, Post Office Box 3588, 1961 Stout Street, Denver, CO 80202; 9470 Federal Building, 450 Golden Gate Avenue, Box 36017, San Francisco, CA 94102; 506 Second Avenue, 1808 Smith Tower Building Seattle, WA 98104.

All interested persons are invited to submit, prior to March 11, 1973, written data, views, and arguments regarding the petition, and in particular: (1) What level of exposure to any of the substances named in the petition poses a grave danger to employees; (2) the necessity of an emergency standard to protect employees against any such danger; (3) the quantity of each substance that is produced or used in the United States and the number of employees exposed; (4) the type and nature of the uses of the substances and of the processes in which any of the substances is formed or released as an end product, intermediary or byproduct; (5) the extent to which substitutes which are economically and technologically acceptable, may be used in lieu of any of the substances; and (6) the feasibility of the standard suggested by the petitioners and the impact of its adoption on the manufacture or use of any of the substances, and of any other substance or process in which any of the named substances is found in any way. Comments concerning the feasibility of the standard suggested by the petitioner should include views on the technical and economic feasibility of processes, methods, and procedures whereby employees may avoid exposure or contact with the substances involved. The comments should be addressed to the Department of Labor, Office of Standards, Room 504, 400 First Street NW., Washington, DC 20210.

II. *Environmental impact.* Finally, interested persons are also invited to submit prior to March 11, 1973, written comments and data on any possible environmental impact of the standard suggested by the petitioners, if adopted, and in particular on: (1) Any adverse environmental effects which cannot be avoided should the standard be adopted; (2) alternatives to the proposed action; (3) the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity; and (4) any irreversible commitments of resources which would be involved in the proposed action, should it be implemented. The comments should be addressed to the Department of Labor, Office of Standards.

After consideration of the comments received in response to the notice, the petition shall be promptly granted or denied. In any event high priority for setting standards for the substances involved is hereby established under section 6(g) of the Act. Consequently, the available options are the alternatives of publication of an emergency temporary standard or otherwise commencing as soon as practicable a rulemaking proceeding under section 6(b) of the Act.

Signed at Washington, D.C. this 6th day of February 1973.

CHAIN ROBBINS,
Acting Assistant Secretary of Labor.

APPENDIX

SUGGESTED CARCINOGEN REGULATIONS

1. *Exposure.* No exposure or contact by any route, respiratory, oral or skin shall be permitted for the following substances or other substances containing them; 2-acetylaminofluorene, 4-aminodiphenyl, benzidine and its salts, 4-dimethylaminoazobenzene, beta-naphthylamine, 4-nitrodiphenyl, N-nitrosodimethylamine, beta-propiolactone and 3,3'-dichlorobenzidine, bis(chloromethyl)-ether.

2. *Use permits.* (a) An employer must secure a use permit from the Assistant Secretary to (1) manufacture, distribute, repackage, store, transport, or use the listed chemicals, or (2) operate a process in which these chemicals are formed as a result of the chemical reaction. (b) Use permits shall be granted only when the following conditions have been proven by clear and convincing evidence:

(i) The use of the chemical is necessitated because no efficacious substitute exists, or the formation of the chemical as an intermediate in a chemical reaction is unavoidable,

(ii) Environmental safeguards have been instituted including monitoring and surveillance equipment and instrumentation capable of detecting the chemical at and above prescribed concentrations,

(iii) Acute exposure facilities for accidental exposures have been installed.

(iv) A preapproval inspection has been conducted by the Department of Labor pursuant to section 4 and the environmental and engineering data from that inspection demonstrate that no human exposure will result from the operation of the system, and

(v) The employer has established hygiene and medical programs in accordance with sections 5, 8 to 13, infra:

(c) The employer shall make available for employees and bargaining unit representative copies of the use permit, the accompanying material required by this section and all substantiating data submitted under sections 3 to 5.

3. *Use permit application.* (a) The Secretary shall approve or disapprove an employer's use permit application within 60 days after its receipt.

(b) Employees and their bargaining unit representative shall be given notice within 7 days in the following manner:

(i) The employer shall post the use permit application in unedited form, in a prominent place or places where it will be readily observed by all employees, and

(ii) If the employees are represented by a bargaining unit representative, the employer shall also serve the required documents unedited by postage prepaid first class mail or by personal delivery.

(c) The notice shall consist of (i) a copy of the use permit application, any preapproval inspection data, and other supporting data, (ii) the address where written objections may be sent, and (iii) the address where written request for a hearing may be sent.

4. *Inspections.* (a) *Requirements.* (i) The employer shall provide the Department of Labor inspection officers access to the process involving the carcinogen in order to permit installation of the necessary personal monitoring, environmental sampling instruments and equipment testing devices.

(ii) Under the supervision of the Department of Labor inspection officers the employer shall operate the entire carcinogen process under the operating conditions described in the use permit.

(iii) The inspection shall be conducted during a regular workday and for a time period of at least 8 hours.

(b) Inspections shall be conducted before the use permit application is considered by the Assistant Secretary and every 6 months after the approval.

(c) Additional inspections may be required at the request of the Assistant Secretary.

5. *Employer Inspections.* (a) *Equipment Inspections.* A weekly engineering inspection shall be made of the area where the process is located, all equipment where the carcinogen is produced, distributed, stored, transported or used, and all support or interconnected equipment, e.g., air and water supplies, and ventilation and exhaust systems.

(b) *Personal Monitoring.* Samples shall be collected from the breathing zone of each employee and from the work environment.

(c) *Sampling Frequency and Patterns.* After the initial determinations required by section 2, samples shall be made continuously.

(d) *Employee Observation of Monitoring.* Affected employees, or their representatives, shall be given an opportunity to observe any monitoring or inspections conducted pursuant to this or any other section.

(e) *Records.* The employer shall retain a complete and accurate record of all monitoring and inspections for at least 20 years.

(f) A record shall be made of all emergency monitoring of all accidental exposures and spills. Copies of this record shall be transmitted within 48 hours to the Assistant Secretary for Occupational Safety and Health, the Director of the National Institute for Occupational Safety and Health, and the employee representatives according to section 3(b).

6. *Mandatory Substantiation.* (a) Five months after the approval of the use permit application, the employer shall submit to the Assistant Secretary the following data for that period;

(i) All accidental exposures, including the date, place, individuals exposed, part of the process involved, medical examinations of all employees working in the area and an explanation of the cause of the accident;

(ii) Compilations for 24-hour periods of all personal, equipment and environ-

mental data, on 1 day each month chosen by the Assistant Secretary and communicated to the employer only on the day on which compilations are to be made;

(iii) Weekly equipment checks and environment samples; and

(iv) Accounting entries for the purchase, use and distribution of all carcinogens, as required by section 13.

(b) Reports shall be submitted every 6 months after the initial report.

(c) The Assistant Secretary may demand more frequent reports.

7. *Administrative Review.* (a) Every 6 months after the approval of a use permit, the Assistant Secretary shall review the results of the 6-month inspections and the employer's substantiating report. The conclusions of this review will be published in the FEDERAL REGISTER and a copy served on the employer and notice given to the employees and their bargaining unit representative according to section 3(c).

(b) At any time a use permit shall be immediately withdrawn by the Assistant Secretary if the results of the 6-month inspection, the substantiating data, or independent evidence show that the employers have failed to comply with the provisions of this subpart or the conditions of the use permit, or if the employer is no longer capable of complying with those provisions.

8. *Industrial Hygiene.* (a) *Housekeeping.* All surfaces in any place of employment shall be maintained free of accumulations of the carcinogens.

(b) *Waste Disposal.* (i) Carcinogen containers and waste, and carcinogen contaminated clothing and other material shall be collected by a technique which results in no human exposure. Sealed impermeable bags, or other closed, impermeable containers shall be used for disposal and appropriately labeled.

(ii) After consulting with the Administrator of the Environmental Protection Agency, the Assistant Secretary shall promulgate additional regulations specifying the methods of destroying collected, carcinogen-contaminated materials, and quantities of the carcinogen in the possession of employers who do not hold use permits.

(c) *Personal Protective Equipment.* Compliance with the exposure limit prescribed by section 1 may not be achieved by the use of respirators or shift rotation of employees.

(d) *Special Clothing.* The employer shal provide special clothing such as coveralls, head coverings, gloves, and foot coverings for any employee.

(e) *Change Rooms and Shower Facilities.* The employer shall provide change rooms and shower facilities for all employees.

(f) *Clothes Lockers.* The employer shall provide two separate lockers or containers for each employee, so separated or isolated as to prevent contamination of the employee's street clothes from his work clothes.

(g) *Laundering.* Laundering of carcinogen-contaminated clothing shall be done so as to prevent any human exposure to the carcinogens.

(h) *Clothing Distribution.* No employer shall give carcinogen-contaminated clothing to another person for laundering without informing that person that the clothing is carcinogen-contaminated.

(i) *Transportation.* Contaminated clothing shall be collected in accordance with this section, and transported in sealed impermeable bags or other closed, impermeable containers, and labelled in accordance with section 12.

(j) *Food Storage and Eating Facilities.* The employer shall provide a method for employee food storage so that the employee does not have to bring his food into the carcinogen area. Eating facilities shall be provided whereby an employee may not enter the eating area without a shower and a change to street clothes.

9. *Recordkeeping.* (a) *Exposure Records.* Every employer shall maintain records of any personal or environmental monitoring required by section 5 or individual exposures. Records shall be maintained for a period of at least 40 years and shall be made available on request to the Assistant Secretary of Labor for Occupational Safety and Health, the Director of the National Institute of Occupational Safety and Health, to the authorized representatives of either, to employees, and to their collective bargaining unit representatives.

(b) *Employee Notification.* Any employee found to have been exposed at any time to the carcinogens shall be notified in writing of the exposure as soon as practicable but not later than 5 days after the finding. The employee shall also be promptly notified of the corrective action being taken.

10. *Medical Examinations.* (a) *General.* The employer shall provide or make available at his cost, medical examinations relative to exposure to carcinogens.

(b) *Annual Examinations.* On or before April 31, 1973, and at least annually thereafter, every employer shall provide or make available, comprehensive medical examinations to his employees and former employees engaged in occupations potentially exposed to carcinogens. This annual examination shall consist of (1) a history to elicit symptomatology of urinary tract and/or pulmonary disease, (2) a general physical examination including but not limited to weight, blood pressure, pulse, examination of skin, auscultation and percussion of chest and heart, examination for presence of enlarged lymph nodes, (3) and exfoliative cytological test of urine and/or sputum, and (4) complete blood count, liver chemistries.

(c) *Periodic Examinations.* Every 4 months exfoliative urine cytology and/or sputum will be performed on each employee.

(d) *Exposure Examinations.* Within 5 days after the exposure of employee to a carcinogen, the employee shall be given an exfoliative cytological test of the urine.

(e) *Extensive Testing.* On the first occurrence of the urinary tract signs or symptoms of urgency, frequency, dysuria, pyuria, hematuria, or bacteriurea, a total urological evaluation shall be conducted including an intravenous pyelogram and cystoscopy. If there are no abnormal results, cytology shall be conducted every 4 months and an intravenous pyelogram and cystoscopy at least every year.

(f) Employees who show the signs or symptoms listed in subsection (e) shall be transferred from any contact with the carcinogen process or that area at equal pay and seniority.

11. *Medical Records.* (a) *Maintenance.* The records of all medical examinations conducted under section 10 shall be maintained complete and accurate for at least 40 years.

(b) *Access.* The contents of the records of the medical examinations required by section 10 shall be made available for copying, to the Assistant Secretary of Labor for Occupational Safety and Health, the Director of NIOSH, to the employer, to authorized physicians and medical consultants of any of them, and, upon the individual or collective request of employees or former employees, to their physicians.

(c) A physician who conducts a medical examination required by section 10 may furnish to the employer of the examined employee all information specifically required and any other medical information relevant to occupational exposure to carcinogens only by the specific release of the employee.

12. *Caution Signs and Labels.* (a) *Caution Signs.* (1) *Posting.* Caution signs shall be provided and displayed at each location where a carcinogen is manufactured, distributed, stored, transported, used or may be formed as a part of a chemical reaction. Signs shall be posted at such a distance from these locations that an employee may read the signs and take the necessary protective steps before entering the area marked by the signs. Signs shall be posted at all approaches to these carcinogen areas.

(ii) *Sign specifications.* The warning signs required by subdivision (i) shall conform to the requirements of 20" x 14" vertical format specified in § 1910.145(d)(4), and to this subdivision. The signs shall display the following legend in the upper panel; with letter sizes and styles of a visibility at least equal to that specified here:

Carcinogen (specific name).	1" Sans Serif, Gothic or Block.
Do Not Breathe Dust or Vapors, Do Not Come Into Any Contact.	¾" Sans Serif, Gothic or Block.
Danger May Cause Delayed Cancer.	¾" Sans Serif, Gothic or Block.
All use of this chemical must conform to your employer's use permit which is available for your inspection.	½" Gothic.

Spacing between lines shall be at least equal to the height of the upper of any two lines.

(b) *Caution labels.* (i) *Labels.* Caution labels shall be affixed to all raw materials, mixtures, scraps, waste, debris, and other products containing a carcinogen, or to their containers.

(ii) *Label specifications.* The caution label shall be printed in letters of sufficient size and contrast as to be readily legible and visible. The label shall state:

DANGER
NAME OF CARCINOGEN [1]
DO NOT BREATHE DUST OR VAPORS
DO NOT COME INTO ANY CONTACT
THIS CHEMICAL CAN CAUSE CANCER

All use of this chemical must conform to your employer's use permit which is available for your inspection.

13. *Accounting.* The employer shall maintain a record of the movement of all carcinogens through the establishment. Entries shall be classified as follows:

(a) Receipts—identified by sources,

(b) Distribution and receipts within the place of employment,

(c) Consumption and production—identified by plant and equipment,

(d) Storage—identified by location,

(e) Shipping or transportation—identified by carrier,

(f) Purchasers or transferees—identified by name and address,

[1] Or contains + Name of Carcinogen.

(g) Losses—stating cause, and
(h) All other actions, and shall also include the date and quantity of the transaction.

14. *Information.* (a) *Compilation of data.* The Assistant Secretary shall establish a center for the compilation of the following information;
(a) Companies which manufacture, distribute, store, transport or use any of the carcinogens,
(ii) Medical records,
(iii) Environmental and personal monitoring data,
(iv) Environmental control techniques,
(v) Monitoring techniques, and
(vi) Labelling procedures.
(b) *Access.* All compiled data which is not legally privileged shall be made readily available to all interested members of the public.

STANDARDS ADVISORY COMMITTEE ON AGRICULTURE: SUBCOMMITTEE ON PESTICIDES

Notice of Meeting

Notice is hereby given that the Subcommittee on Pesticides of the Standards Advisory Committee on Agriculture established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656) will meet on Tuesday, February 27, 1973, starting at 9:30 a.m., in Conference Room 107 A and B of the Main Labor Building, 14th and Constitution Avenue NW., Washington, D.C.

The agenda provides for a continuation of the subcommittee's development of recommendations for field reentry standards. The standards to be considered will concern warning signs and protective clothing for employees entering the fields. Consideration will also be given to limited field reentry and any other subjects which the subcommittee finds important and relevant to the safety and health of employees in fields treated with organophosphatic pesticides.

The meeting shall be open to the public. Any interested person wishing to submit written presentations to the subcommittee may do so by filing such statements with the Executive Secretary, Office of Standards, Occupational Safety and Health Administration, Room 509, 400 First Street NW., Washington, DC 20210, not later than February 22, 1973, or by filing them with the Executive Secretary at the beginning of the meeting.

Signed at Washington, D.C., this 6th day of February 1973.

CHAIN ROBBINS,
Acting Assistant Secretary for Labor.

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before March 1, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74066. By order of January 18, 1973, the Motor Carrier Board approved the transfer to Marquette Motor Systems, Inc., Chicago, Ill., of certificate of registration No. MC-121302 (Sub-No. 1) issued December 27, 1963, to John Gritzman, doing business as John Gritzman Cartage, Chicago, Ill., evidencing a right to engage in transportation in interstate commerce as de-

scribed in certificate No. 7272MC dated July 20, 1954, issued by the Illinois Commerce Commission. Themis N. Anastos, 120 West Madison Street, Chicago, IL 60602, attorney for applicants.

No. MC-FC-74093. By order of January 22, 1973, the Motor Carrier Board approved the transfer to Gary Motor Freight, Inc., an Indiana corporation, East Chicago, Ind., of the operating rights in certificate No. MC-59413 issued May 11, 1956 to Gary Motor Freight, Inc., an Illinois corporation, East Chicago, Ind., authorizing the transportation of general commodities, with exceptions, between points in Lake, Cook, and Du Page Counties, Ill., and that part of Lake County, Ind., located in the Chicago, Ill. commercial zone.

No. MC-FC-74109. By order of January 17, 1973, the Motor Carrier Board approved the transfer to Marvin E. Yates, doing business as Yates Trucking Co., Klamath Falls, Oreg., of that portion of the operating rights in certificate No. MC-129449 (Sub-No. 7) issued December 21, 1972, to Lumber Transport, Inc., John Day, Oreg., authorizing the transportation of sawdust, wood chips, and wood shavings, from points in Grant County, Oreg., to points in Idaho and Washington. Lawrence V. Smart, Jr., 419 Northwest 23d Avenue, Portland, OR 97210, attorney for applicants.

No. MC-FC-73128. By order of January 12, 1973, the Motor Carrier Board on reconsideration approved the transfer to Somers Transport, Inc., Winamac, Ind., of that portion of the operating rights in certificate No. MC-87861 (Sub-No. 6) issued March 22, 1966, to Bell Diamond Express, Inc., Indianapolis, Ind., remaining after consummation of No. MC-F-11037, authorizing the transportation of (1) iron and steel articles, from the plantsite of Bethlehem Steel Corp., located at Burns Harbor, Porter County, Ind., to points in Illinois and Ohio and Louisville, Ky., and (2) materials, equipment, and supplies used in the manufacture and processing of iron and steel articles from points in Illinois and Ohio and Louisville, Ky., to the plantsite of Bethlehem Steel Corp., located at Burns Harbor, Porter County, Ind., restricted to the transportation of shipments originating at, or destined to, said plantsite. Harold J. Bell, 6901 North Michigan Road, Indianapolis, IN 46268, attorney for applicants.

No. MC-FC-74184. By order entered January 17, 1973, the Motor Carrier Board approved the transfer to Jamerson Brothers Trucking Co., Inc., Appomattox, Va., of the operating rights set forth in Permit No. MC-129972, issued July 14, 1971, to George H. Jamerson and Thomas J. Jamerson, doing business as Jamerson Brothers Trucking Co., Appomattox, Va., authorizing the transportation of lumber (except plywood and veneer), from points in Louisa County, Va., to points in Connecticut, Delaware, Illinois, Indiana, Maryland, Massachusetts Michigan, and New York, under a continuing contract or contracts with Walton Lumber Co., Inc., of Pendleton, Va.; and from points in Louisa County, Va., to points in Maryland, under a continuing contract, or contracts with R. H. Spicer Lumber Corp., of Mineral, Va. Russell R. Sage, Suite 301, Tavern Square, 421 King Street, Alexandria, VA 22314, attorney for applicants.

[Sec. 5a Application 2, Amdt. 20]

WESTERN RAILROAD TRAFFIC ASSOCIATION—AGREEMENT

Application for Approval of Amendments

JANUARY 26, 1973.

The Commission is in receipt of an application in the above-entitled proceeding for approval of amendments to the agreement therein approved.

Filed January 18, 1973, by J. M. Souby, Jr., 222 South Riverside Plaza, Suite 1200, Chicago, IL 60606 (attorney-in-fact). Ed White, attorney for applicants, 222 South Riverside Plaza, Suite 1200, Chicago, IL 60606.

The amendment involves: Revising the articles of organization and procedure so as to effect consolidation of the Southwestern Freight Bureau and Texas-Louisiana Freight Bureau, and make collateral changes made necessary by the foregoing consolidation.

The complete amended application may be inspected at the Office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 20 days from the date of publication of this notice in the FEDERAL REGISTER. As provided by the general rules of practice of the Commission, persons other than applicants should fully disclose their interest, and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved without public hearing.

By the Commission.

PILOT SCHOOLS

Notice of Proposed Rule Making

Federal Aviation Administration

[14 CFR Part 141]

[Docket No. 12547; Notice 73-5]

PILOT SCHOOLS

Notice of Proposed Rule Making

The Federal Aviation Administration is considering the revision of the standards for the certification of Pilot Schools prescribed in Part 141 of the Federal Aviation Regulations.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, GC-24, 800 Independence Avenue SW., Washington, DC 20591. All communications received on or before May 10, 1973, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

In an effort to improve the safety record of general aviation, the Secretary of Transportation, on March 5, 1971, directed the Assistant Secretary of Transportation for Safety and Consumer Affairs to prepare a study and analysis of the factors affecting safety in general aviation. A group comprised of six members representing government and industry was assembled by the Assistant Secretary to conduct the study. The group interviewed many individuals in government and the general aviation community, including fixed base operators and pilots, to obtain their views on those factors that influenced the safety of general aviation. Based upon an analysis of the interviews and data compiled by the study group, the Assistant Secretary for Safety and Consumer Affairs, in his report to the Secretary of Transportation, dated September 15, 1971, recommended that Parts 61 and 141 of the Federal Aviation Regulations be reviewed and upgraded to reflect the increasing complexity of the modern aircraft and its operating environment. (Recommendation No. 4.) This was a timely recommendation since the FAA had already established a regulatory project to review Part 141.

In regard to Part 141 the report contained the following comments:

> There is ample evidence that certificated pilot training schools do not enjoy the benefits, in terms of either prestige or increased patronage, that we believe certification by the Federal Aviation Administration should convey. All persons contacted, who are associated with flight training were in favor of rewriting FAR Part 141 to make the Federal Aviation Administration approved flight school a recognized and established institution. Numerous complaints were registered from fixed base operators indicating that flight course curriculum acceptable in one district or region were unacceptable in others. These operators requested the inclusion of a standardized curriculum for each flight course in an appendix to Part 141 to eliminate variance between districts and regions.
>
> To accomplish these recommendations and revitalize the approved school program, the extensive changes developed during the series of joint Federal Aviation Administration-industry meetings on certification problems should be promulgated as regulations as soon as possible. Students developed under controlled, approved flight schools should be safer and better prepared pilots.

The changes recommended for Part 61 in the report of the Assistant Secretary have been incorporated in a proposed revision of Part 61 that was issued by the FAA as NPRM 72-9, on March 16, 1972 (37 FR 6012). The changes recommended for Part 141, together with other changes described under the various subparts in which they appear, have been incorporated in this proposed revision of that part.

As stated in the preamble to the proposed revision of Part 61 (NPRM 72-9), the basic requirements for the certification of pilots have changed very little since their initial introduction in the regulations in 1938. Since those airman certification requirements are no longer adequate, a new total operational training concept, having the instructor as the keystone of that concept, was introduced in that revision. It now appears that a totally revamped concept of pilot training by a certificated school is also necessary to implement the recommendations of the Assistant Secretary and the joint FAA-industry groups on airman certification problems. Under the proposed concept full recognition would be given to the ability of a certificated school to develop its own course of training, and to recommend graduates of its course of training for appropriate airman certificates without being tested by FAA inspectors or designated examiners. This concept, we believe, can be accomplished by making the prescribed curriculum for a training course more flexible, and by adopting procedures to assure that a training course provided by a pilot school is adequate for a graduate of the course to safely exercise the privileges of the pilot certificate or rating appropriate to that course.

To implement the foregoing concept, a complete revision of the form and substance of Part 141 is proposed herein. The revision would include the following major substantive changes:

1. The appendixes to the proposed Part 141 would contain a curriculum for each course of approved training conducted by a pilot school. This feature of the proposal conforms with Recommendation No. 4 of the Report on General Aviation, prepared by the Assistant Secretary of Transportation for Safety and Consumer Affairs.

2. Each applicant for a pilot school certificate and rating would be required to submit for the Administrator's approval a detailed course outline for each course of training. The course outline must meet the minimums prescribed in the appropriate appendix and other requirements of Part 141.

3. As distinguished from the present Part 141, two kinds of pilot school certificates would be issued under this proposal. A provisional pilot school certificate would be issued to an applicant who meets the requirements of Part 141, except that it has not, within the 24 months preceding application, trained a specified number of students who passed interim or final tests given to them by an FAA inspector or designated examiner. The other pilot school certificate would not be a provisional certificate. This certificate would be issued to an applicant who meets the requirements of Part 141 as proposed, but who has also trained a specified number of students who passed interim or final tests.

4. If a school holds a pilot school certificate that is not designated as a provisional certificate, it may be eligible for an examining authority and with that authority could recommend graduates of its approved courses for an appropriate pilot certificate or rating without the necessity of passing a flight or written test given by an FAA inspector or designated examiner. This important change is intended to give full recognition to the ability of a certificated school to properly train its students.

A detailed explanation of the individual changes included in this revised part is included under the subparts in which the changes appear. In addition, for the convenience of those persons who do not have a copy of Part 1 of the Federal Aviation Regulations readily available, a glossary of the words and phrases defined in that part and used in this proposed revision has been inserted immediately before the table of contents. The glossary will not be incorporated into the revised Part 141.

SUBPART A—GENERAL

1. As previously stated, proposed §§ 141.5 and 141.7 provide for the issuance of two kinds of pilot school certificates, a provisional pilot school certificate and a pilot school certificate. In order to be eligible for a pilot school certificate (not designated as provisional), the applicant would be required to show that, within the 24 months preceding application, it has trained at least 20 students. Of these students, eight of the 10 most recent graduates who were given a final or intermediate test by an FAA inspector or designated examiner must have passed those tests the first time. If the applicant does not meet this recent training requirement, it is eligible for a provisional pilot school certificate upon a showing that it meets all other requirements of Part 141.

2. Proposed § 141.11 contains a list of the courses for which pilot school ratings are issued to the holder of a pilot school or provisional pilot school certificate. The list of proposed ratings would include those ratings issued for special pilot training courses authorized under the present provisions of Subpart D of Part 141. For convenience, those certification courses the graduates of which may be recommended for FAA certification by

a certificated pilot school holding examining authority are listed in paragraph (a) of that section.

3. Proposed § 141.15 would preclude the issuance of a certificate to a person outside the United States unless the Administrator finds that there is a need for the training of students who are citizens of the United States at the proposed location. This need would include training of military personnel stationed overseas.

The foregoing limitation is needed to avoid the expense and time consumed in providing inspections and surveillance of pilot schools that are not established for the primary purpose of training U.S. airmen in connection with the operation of U.S.-registered aircraft in air commerce.

4. Part 141 currently limits the duration of pilot school certificates to a 2-year period. Proposed § 141.17 would also place a 2-year limit on the duration of a provisional pilot school certificate. The latter certificates are issued to those applicants that have no previous operating history as a certificated or noncertificated pilot school. A provisional pilot school should be able during the 2-year period to acquire the necessary student training record to make it eligible for a pilot school certificate (not designated as provisional). If the school fails to meet the student training requirements it may not apply for a renewal of its provisional certificate for a period of at least 1 year from the expiration date on the certificate.

5. If a school's certificate is surrendered, suspended, terminated, or revoked, proposed § 141.23 would require the removal of any indication (including signs) that the school is certificated by the FAA.

6. Proposed § 141.25 would expressly prohibit the use of communal business offices by a certificated school. Although that practice may have been economical, it is also misleading to the public. In some instances, records are misfiled and it is difficult to determine the school or personnel responsible for alleged violations.

7. Proposed § 141.27 provides for the renewal of a pilot school certificate every 24 months, if the holder meets the minimum training activity and quality of instruction of Part 141. A provisional pilot school certificate and any ratings on that certificate are not renewable. However, the school may be issued a pilot school certificate if it meets the appropriate requirements for that certificate.

Paragraph (b) of proposed § 141.27 provides for the renewal of a pilot school rating on a pilot school certificate for a period of 24 months if the holder has graduated or enrolled at least one student in each course of the rating being renewed.

8. Proposed § 141.29 provides for the phasing out of existing certificates. However, it would permit renewal of those certificates for a period long enough to complete the training of the students enrolled in the school before the effective date of this revision. The students would also be permitted to continue the course of training approved for the school in which they are enrolled before the effective date of this revision. A pilot school certificate issued before the effective date of this revision would not be allowed to remain in effect more than 24 months after the effective date of the revised part.

Subpart B—Personnel and Facilities Requirements

1. Proposed Subpart B prescribes the instructor and other personnel requirements and the aircraft requirements for a pilot school or provisional pilot school. It also prescribes the facilities, including airports, that each school must have available on a "continuous use basis." As defined in proposed § 141.31 a school would have a facility on a continuous use basis if it owned the facility, or had the use of the facility when needed for at least 1 year.

2. Proposed § 141.33 introduces a requirement that all instructors must hold an appropriate ground or flight instructor certificate. In addition, paragraph (d) of that section would require each school to designate a chief instructor for each approved course of training. Where necessary, the school would also designate an instructor to assist the designated chief instructor and serve as chief instructor in his absence.

3. In addition to the general instructor experience, proposed § 141.35 would require each chief instructor or his designated assistant to have trained and recommended for graduation at least three students in each certification and rating course for which he is designated as chief instructor or assistant chief instructor.

4. Proposed § 141.37 sets forth the minimum standards for airports that are to be used by a certificated pilot school in its approved courses. These standards are similar to those recommended in FAA Advisory Circulars 150/5300-4A, Utility Airports and 150/5390-1A, Heliport Design Guide and incorporated by reference in regulations governing the Airport Aid Program.

5. Proposed § 141.39 would prescribe the general requirements for aircraft used by a certificated school. In order to provide flexibility, the number and types of aircraft and the equipment on each aircraft used by the school would be specified by the school in its course outline submitted for approval by the Administrator.

6. Proposed §§ 141.43 and 141.45 prescribe the standards for pilot readyrooms and classrooms. Those standards applicable to toilet facilities and other items normally covered by local sanitary and building codes have been excluded from these proposed requirements.

Subpart C—Training Course Outline and Curriculum

Under the provisions of the proposed Subpart C each applicant for a pilot school or provisional pilot school certificate would be required to prepare a detailed outline for each course of training for which approval is sought. Among other things, § 141.55 would require the training course outline to meet the minimum curriculum for that course prescribed in the appropriate appendix to this part. In accordance with the recommendation made by the Assistant Secretary for Safety and Consumer Affairs, the appendixes would include a uniform curriculum for all approved courses of training, but would not include maneuvers and other details included in the curriculums contained in the present appendixes to Part 141. To provide flexibility such details, including the equipment facilities and qualification of instructors to be used, would be set forth in the course outline approved by the Administrator.

Proposed § 141.57 also provides for special courses of training for which no curriculum is prescribed in the appendixes. Such courses are approved upon a showing that the course as outlined will achieve a level of training equivalent to those for which the Administrator has prescribed a curriculum.

Subpart D—Examining Authority

1. This subpart contains the requirements for the issuance of an examining authority. This authority would permit a school to recommend graduates of its certification and rating courses for FAA certification without a written or flight test given by an FAA inspector or designated examiner. This authority would only be issued to those schools that meet the eligibility requirements of proposed § 141.63. Under that section the applicant school must show, among other things, that within the 24 months before the date of its application at least nine of the most recent 10 students or graduates of the particular certification course for which the authorization is requested, passed an interim or final test given to them by an FAA inspector or designated flight examiner. This authorization would not be issued to a provisional pilot school.

2. Proposed § 141.67 would require that each student recommended for certification be enrolled in the school making the recommendation and require the school to submit the student's training record to the Administrator.

Subpart E—Operating Rules

1. This subpart would establish operating rules for certificated schools. These rules describe the privileges and limitations of the school and its instructors. Proposed § 141.79 sets forth the operating rules governing flight instruction and, among other things, would require each chief flight instructor with a pilot school to complete a flight instructor refresher course annually. In the proposed revision of Part 61 (Notice 72-9) the FAA stated, in response to a recommendation in the report on General Aviation Safety by the Assistant Secretary for Safety and Consumer Affairs, OST, that it strongly supported a periodic refresher course for flight instructors. However, it appeared that existing facilities may not be able to accommodate all of the approximately

34,000 certificated flight instructors for an annual or biennial clinic and further rule making on this matter for Part 61 was deferred. This problem does not exist with respect to the chief flight instructors in certificated pilot schools. There are approximately 81 flight instructor refresher courses involving FAA Academy participation being offered annually throughout the United States. There would appear to be no difficulty in accommodating the approximately 2,000 chief flight instructors in these recognized courses or clinics on an annual basis. Proposed § 141.89 would also prohibit instruction or training by a school at any time unless the instructors, airports, and equipment used for the instruction or training meet the appropriate standards prescribed in Part 141. In effect, this operating rule would require each school to maintain at all times the standards under which it was certificated.

2. Proposed § 141.83 would provide that failure to maintain a required quality of instruction (at least eight out of the 10 most recent students listed or checked must pass the test or check on the first attempt) would be the basis for suspension or revocation of any school's certificate. This action is necessary to maintain the required standards of a pilot school or provisional pilot school subsequent to its certification.

3. In the event of a change in designation of a chief instructor, proposed § 141.87 would allow the school to conduct training and instruction until it has an opportunity to designate a new chief instructor for the particular course of training. However, pending the designation of another chief instructor, the school's examining authority would not be effective and each stage or final test of a student in the school must be given by an FAA inspector, or a designated pilot examiner. Notice to the FAA of the change of the chief instructor would be required and there would be a 30-day limitation on the authority to conduct instruction and training in a particular course of training without a chief instructor for that course.

4. The provision in proposed § 141.91 to allow the use of a satellite base is new. Many schools now use bases other than their main base for training activities. In some cases the FAA District Office is unaware of the use of those bases. The proposed section would allow the use of those bases that are located not more than 25 miles from the main operations base. However, the section would provide, among other things, for the control of the training by requiring it to be conducted under the supervision of the chief instructor, or assistant chief instructor for the training course concerned, who is present and readily available for consultation.

5. Proposed § 141.93 would require the school to give each student, at the time of his enrollment, a copy of the approved training course outline in which he is enrolled. This would allow a student to determine the course requirements and assess his own progress. In addition, it is to be noted that a certificate of enrollment must be given to the student and a copy thereof furnished to the FAA District Office.

This requirement is needed to enable the FAA to identify bona fide approved course students and enforce the maximum period for completion of the training course specified in proposed § 141.95. Many students have received flight and ground training spread over a number of years. We believe such training lacks the continuity and retention of learning which is achieved by regular instruction and practice. Students receiving training in that manner should not be recommended for certification without a written and flight test.

Finally, the section would require a school to furnish each student, at the time of enrollment, with a copy of those safety procedures and practices which the school has developed to govern the use of its facilities and the operation of its aircraft. This would include such safety instructions as those applicable to the starting and taxiing of aircraft on the ramp, the weather minimums applicable to dual and solo flights at the school and the use of assigned practice areas.

Subpart F—Records

Subpart F would require each school to maintain specified student training records for a period of at least 1 year after the student graduates or otherwise terminates his training at the school. These records are needed by the FAA for a realistic evaluation of the school. They are also needed as documentary evidence to support transcripts and other documents needed by the students in the event of a transfer to another school.

Appendixes

1. As previously stated, this revision includes in an appropriate appendix the curriculum for each approved course of training. This should accomplish the desired degree of uniformity in all regions. However, it should be noted that the curriculums are prescribed for the use of the pilot school in preparing the detailed course outline. If an applicant wishes to obtain approval of a special course which is not contained in the proposed curriculums, proposed § 141.57 provides for such approval on an individual basis.

2. The curriculum prescribed in Appendix A for a private pilot certification course (airplanes) retains the present 35 hours total minimum of flight training prescribed in the present provisions of Part 141. It is retained for the purpose of conforming with the private pilot licensing standards of Annex 1 to the Convention on International Civil Aviation. Otherwise, as stated in the preamble to the recent proposed revision of Part 61, experience indicates that most students require more flight time to qualify for a private pilot certificate.

The comments and suggestions of flight instructors, pilots, and other interested persons regarding the desirability of changing the total flight time minimum for private pilots, including credit therefor for pilot ground trainer time, have been requested under the proposal to revise Part 61. The FAA has also decided not to propose any change in the 35 hours required for private pilots receiving training at certificated schools until it has had an opportunity to evaluate those comments and complete its study. If any regulatory change is found desirable, it will be accomplished in a separate rule making action with an opportunity for all interested persons to express their views and comments on the specific proposal.

In consideration of the foregoing, it is proposed to amend Part 141 of the Federal Aviation Regulations to read as set forth herein.

This revision is proposed under the authority of sections 313(a), 314, 601, 602, and 607 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1355, 1421, 1422, and 1427), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on February 2, 1973.

NOTE: The reporting and recordkeeping requirement contained herein have been submitted for approval by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

JAMES F. RUDOLPH,
Director,
Flight Standards Service.

Glossary

As used in this proposed revision and as defined in the Federal Aviation Regulations—

"Administrator" means the Federal Aviation Administrator or any person to whom he has delegated his authority in the matter concerned.

"Agricultural aircraft operation" means the operation of an aircraft for the purpose of (1) dispensing any economic poison, (2) dispensing any other substance intended for plant nourishment, soil treatment, propagation of plant life, or pest control, or (3) engaging in dispensing activities directly affecting agriculture, horticulture, or forest preservation, but not including the dispensing of live insects.

"Aircraft" means a device that is used or intended to be used for flight in the air.

"Aircraft engine" means an engine that is used or intended to be used in propelling aircraft. It includes engine appurtenances and accessories necessary for its functioning, but does not include propellers.

"Airframe" means the fuselage, booms, nacelles, cowlings, fairings, airfoil surfaces (including rotors but excluding propellers and rotating airfoils of engines), and landing gear of an aircraft and their accessories and controls.

"Airplane" means an engine-driven fixed-wing aircraft heavier than air, that is supported in flight by the dynamic reaction of the air against its wings.

"Airport" means an area of land or water that is used or intended to be used for the landing and takeoff of aircraft, and includes its buildings and facilities, if any.

"Airship" means an engine-driven lighter-than-air aircraft that can be steered.

"Air traffic" means aircraft operating in the air or on an airport surface, exclusive of loading ramps and parking areas.

"Air traffic clearance" means an authorization by air traffic control, for the purpose of preventing collision between known aircraft, for an aircraft to proceed under specified traffic conditions within controlled airspace.

"Air traffic control" means a service operated by appropriate authority to promote the safe, orderly, and expeditious flow of air traffic.

"Appliance" means any instrument, mechanism, equipment, part, apparatus, appurtenance, or accessory, including communications equipment, that is used or intended to be used in operating or controlling an aircraft in flight, is installed in or attached to the aircraft, and is not part of an airframe, engine, or propeller.

"Approved", unless used with reference to another person, means approved by the Administrator.

"Balloon" means a lighter-than-air aircraft that is not engine driven.

"Category"—

(1) As used with respect to the certification, ratings, privileges, and limitations of airmen, means a broad classification of aircraft. Examples include: airplane, rotorcraft, glider, and lighter-than-air; and

(2) As used with respect to the certification of aircraft, means a grouping of aircraft based upon intended use or operating limitations. Examples include: transport, normal, utility, acrobatic, limited, restricted, and provisional.

"Ceiling" means the height above the earth's surface of the lowest layer of clouds or obscuring phenomena that is reported as "broken", "overcast", or "obscuration", and not classified as "thin" or "partial".

"Citizen of the United States" (as defined in the Federal Aviation Act of 1958) means (a) an individual who is a citizen of the United States or of one of its possessions, or (b) a partnership of which each member is such an individual, or (c) a corporation or association created or organized under the laws of the United States or of any State, Territory, or possession of the United States, of which the president and two-thirds or more of the board of directors and other managing officers thereof are such individuals and in which at least 75 per centum of the voting interest is owned or controlled by persons who are citizens of the United States or of one of its possessions.

"Civil aircraft" means aircraft other than public aircraft.

"Civil aircraft of the United States" (as defined in the Federal Aviation Act of 1958) means any aircraft registered as provided in this act.

"Class"—

(1) As used with respect to the certification, ratings, privileges, and limitations of airmen, means a classification of aircraft within a category having similar operating characteristics. Examples include: Single engine; multiengine; land; water; gyroplane; helicopter; airship; and free balloon; and

(2) As used with respect to the certification of aircraft, means a broad grouping of aircraft having similar characteristics of propulsion, flight, or landing. Examples include: Airplane; rotorcraft; glider; balloon; landplane; and seaplane.

"External load" means a load that is carried or extends, outside of the aircraft fuselage.

"Flight crewmember" means a pilot, flight engineer, or flight navigator assigned to duty in an aircraft during flight time.

"Flight time" means the time from the moment the aircraft first moves under its own power for the purpose of flight until the moment it comes to rest at the next point of landing. ("Block-to-block" time.)

"Glider" means a heavier-than-air aircraft, that is supported in flight by the dynamic reaction of the air against its lifting surfaces and whose free flight does not depend principally on an engine.

"Gyroplane" means a rotorcraft whose rotors are not engine-driven except for initial starting, but are made to rotate by action of the air when the rotorcraft is moving; and whose means of propulsion, consisting usually of conventional propellers, is independent of the rotor system.

"Helicopter" means a rotorcraft that, for its horizontal motion, depends principally on its engine-driven rotors.

"Heliport" means an area of land, water, or structure used or intended to be used for the landing and takeoff of helicopters.

"Instrument" means a device using an internal mechanism to show visually or aurally the attitude, altitude, or operation of an aircraft or aircraft part. It includes electronic devices for automatically controlling an aircraft in flight.

"Lighter-than-air aircraft" means aircraft that can rise and remain suspended by using contained gas weighing less than the air that is displaced by the gas.

"Night" means the time between the end of evening civil twilight and the beginning of morning civil twilight, as published in the American Air Almanac, converted to local time.

"Operate", with respect to aircraft, means use, cause to use or authorize to use aircraft, for the purpose (except as provided in § 91.10 of this chapter) of air navigation including the piloting of aircraft, with or without the right of legal control (as owner, lessee, or otherwise).

"Person" means an individual, firm, partnership, corporation, company, association, jointstock association, or governmental entity. It includes a trustee, receiver, assignee, or similar representative of any of them.

"Pilot in command" means the pilot responsible for the operation and safety of an aircraft during flight time.

"Rotorcraft" means a heavier-than-air aircraft that depends principally for its support in flight on the lift generated by one or more rotors.

"Second in command" means a pilot who is designated to be second in command of an aircraft during flight time.

"Show", unless the context otherwise requires, means to show to the satisfaction of the Administrator.

"Type"—

(1) As used with respect to the certification, ratings, privileges, and limitations of airmen, means a specific make and basic model of aircraft, including modifications thereto that do not change its handling or flight characteristics. Examples include: DC–7, 1049, and F–27; and

(2) As used with respect to the certification of aircraft, means those aircraft which are similar in design. Examples include: DC–7 and DC–7C; 1049G and 1049H; and F–27 and F–27F.

"United States", in a geographical sense, means (1) the States, the District of Columbia, Puerto Rico, and the possessions, including the territorial waters, and (2) the airspace of those areas.

AUTHORITY: Secs. 313(a), 314, 601, 602, and 607, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1355, 1421, 1422, 1427; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c).

Subpart A—General

§ 141.1 Applicability.

This part prescribes the requirements for issuing pilot school certificates, provisional pilot school certificates, and associated ratings and the general operating rules for the holders of those certificates and ratings.

§ 141.3 Certificate required.

No person may operate as a certificated pilot school without, or in violation of, a pilot school certificate or provisional pilot school certificate issued under this part.

§ 141.5 Pilot school certificate.

An applicant is issued a pilot school certificate with associated ratings for that certificate if—

(a) It meets the pertinent requirements of Subparts A through C of this part; and

(b) Within the 24 months before the date of application, it has trained at its present base of operations and recommended for pilot certification and rating tests, at least 20 applicants for pilot certificates and ratings and at least eight of the 10 most recent graduates tested by an FAA inspector or designated flight examiner, passed that test the first time.

§ 141.7 Provisional pilot school certificate.

An applicant is issued a provisional pilot school certificate with associated ratings if it meets the pertinent requirements of Subparts A through C of this part, but does not meet the recent training activity requirement specified in § 141.5(b) of this part.

§ 141.9 Examining authority.

An applicant is issued an examining authority for its pilot school certificate if it meets the requirements of Subpart D of this part.

§ 141.11 Pilot school ratings.

Associated ratings are issued with a pilot school certificate or a provisional pilot school certificate, specifying each of the following courses that the school is authorized to conduct:

(a) Certification courses:
(1) Private pilot.
(2) Private test course.
(3) Instrument rating.
(4) Commercial pilot.
(5) Commercial test course.
(6) Additional aircraft rating.
(b) Pilot ground school course:
(1) Pilot ground school.
(c) Test preparation courses:
(1) Flight instructor certification.
(2) Additional flight instructor rating.
(3) Additional instrument rating.
(4) Airline transport pilot certification.
(5) Pilot refresher course.
(6) Agricultural aircraft operations course.
(7) Rotorcraft external load operations course.

§ 141.13 Application for issuance, amendment, or renewal.

(a) Application for an original certificate and rating, for an additional rating, or for the renewal of a certificate under this part is made on a form and in a manner prescribed by the Administrator.

(b) An application for the issuance or amendment of a certificate or rating must be accompanied by three copies of the proposed training course outline for each course for which approval is sought.

§ 141.15 Location of facilities.

Neither a pilot school certificate nor a provisional pilot school certificate is issued for a school having a base or other facilities located outside the United States unless the Administrator finds that the location of the base or facilities at that place is needed for the training of students who are citizens of the United States.

§ 141.17 Duration of certificates.

(a) Unless sooner surrendered, suspended, or revoked, a pilot school certificate or a provisional pilot school certificate expires—

(1) At the end of the 24th month after the month in which it was issued or renewed; or

(2) Except as provided in paragraph (b) of this section, on the date that any change in ownership of the school or the facilities upon which its certification is based occurs; or

(3) Upon notice by the Administrator that the school has failed for more than 60 days to maintain the facilities, aircraft, and personnel required for at least one of its approved courses.

(b) A change in the ownership of a certificated pilot school or provisional pilot school does not terminate that certificate if within 15 days after the date that any change in ownership of the school occurs, application is made for an appropriate amendment to the certificate and no change in the facilities, instructor personnel, or training course is involved.

(c) An examining authority issued to the holder of a pilot school certificate expires on the date that the pilot school certificate expires, or is surrendered, suspended, or revoked.

§ 141.19 Display of certificate.

(a) Each holder of a pilot school certificate or a provisional pilot school certificate shall display that certificate at a place in the school that is normally accessible to the public and is not obscured.

(b) A certificate shall be made available for inspection upon request by the Administrator, or an authorized representative of the National Transportation Safety Board, or of any Federal, State, or local law enforcement officer.

§ 141.21 Inspections.

Each holder of a certificate issued under this part shall allow the Administrator to inspect its personnel, facilities, equipment, and records to determine its compliance with the Federal Aviation Act of 1958, and the Federal Aviation Regulations, and its eligibility to hold its certificate.

§ 141.23 Advertising limitations.

(a) The holder of a pilot school certificate or a provisional pilot school certificate may not make any statement relating to its certification and ratings which is false or designed to mislead any person contemplating enrollment in that school.

(b) The holder of a pilot school certificate or a provisional pilot school certificate may not advertise that the school is certificated unless it clearly differentiates between courses that have been approved and those that have not.

(c) The holder of a pilot school certificate or a provisional pilot school certificate that has expired, or has been surrendered, suspended, or revoked shall promptly remove from its premises all indications that the school is certificated by the Administrator.

§ 141.25 Business office and operations base.

(a) Each holder of a pilot school or a provisional pilot school certificate shall maintain a principal business office with a mailing address in the name shown on its certificate. The business office shall have facilities and equipment that are adequate to maintain the required school files and records and to operate the business of the school. The office may not be shared with, or used by, another pilot school.

(b) Each certificate holder shall, before changing the location of its business office or base of operations, notify the FAA District Office having jurisdiction over the area of the new location. The notice shall be submitted in writing at least 30 days before the change. For a change in the holder's base of operations, the notice shall be accompanied by any amendments needed for the holder's approved training course outline.

(c) No certificate holder may conduct training at an operations base other than the one specified in its certificate, until—

(1) The base has been inspected and approved by the FAA District Office hav-

ing jurisdiction over the school for use by the certificate holder; and

(2) The course of training and any needed amendments thereto have been approved for training at that base.

§ 141.27 Renewal of certificates and ratings.

(a) *Pilot school certificates.* The holder of a pilot school certificate may apply for a renewal of the certificate not less than 30 days before the certificate expires. If the school meets the requirements of this part for the issuance of the certificate, its certificate is renewed for 24 months.

(b) *Pilot school ratings.* Each pilot school rating on a pilot school certificate may be renewed with that certificate for another 24 months if—

(1) The Administrator finds that the school meets the requirements prescribed in this part for the issuance of the rating; and

(2) The holder of the certificate shows that he has graduated or enrolled at least one student in the course authorized by the rating within the 24 months before the date of application for renewal.

(c) *Provisional pilot school certificates.* (1) A provisional pilot school certificate and any ratings on that certificate may not be renewed. However, the holder of that certificate may apply for a pilot school certificate with appropriate ratings not less than 30 days before the provisional certificate expires. The school is issued a pilot school certificate with appropriate ratings, if it meets the appropriate requirements of this part.

(2) The holder of a provisional pilot school certificate may not reapply for a provisional pilot school certificate for at least 1 year after the date of its expiration.

§ 141.29 Existing pilot school certificates; validity.

(a) A pilot school certificate issued before (the effective date of this revision) remains in effect until the expiration date on that certificate, unless it is sooner surrendered, suspended, revoked, or replaced by a certificate issued under the provisions of this part.

(b) A pilot school certificate issued before (the effective date of this revision) may be renewed under the requirements of this Part 141 in effect before (the effective date of this revision) to allow those students enrolled in a school's approved course of training to complete that training. The renewal is issued for a period long enough for the students to complete their training in the enrolled course, but not for more than 24 months.

Subpart B—Personnel, Aircraft, and Facilities Requirements

§ 141.31 Applicability.

This subpart prescribes the personnel and aircraft requirements for a pilot school or a provisional pilot school certificate. It also prescribes the facilities an applicant must have available to him on a continuous use basis to hold a pilot school or provisional pilot school certificate. As used in this subpart, a person has the continuous use of a facility, including an airport, if it has the use of the facility when needed as the owner, or under a written agreement giving it that use for at least 1 year from the date of the application for the initial certificate or a renewal of that certificate.

§ 141.33 Personnel.

(a) An applicant for a pilot school or provisional pilot school certificate must show that—

(1) It has adequate operations personnel and authorized instructors, including a chief instructor for each course of training, who are qualified and competent to perform the duties to which they are assigned;

(2) Each dispatcher, aircraft handler, line crewman, and serviceman to be used has been instructed in the procedures and responsibilities of his employment; qualified operations personnel may serve in more than one capacity with a pilot school or provisional pilot school; and

(3) Each instructor to be used for ground or flight instruction holds a flight or ground instructor certificate, as appropriate, with ratings for the course of instruction and any aircraft used in that course.

(b) An applicant for a pilot school or a provisional pilot school certificate shall designate a chief instructor for each course of training who meets the requirements of § 141.35. Where necessary, the applicant shall also designate an instructor to assist a chief instructor and serve for the chief instructor in his absence. A chief instructor or his assistant may be designated to serve in that capacity for more than one approved course but not for more than one school.

§ 141.35 Chief instructor qualifications.

To be eligible for a designation as a chief instructor or assistant to a chief instructor for a course of training, a person must m eet the following requirements:

(a) Within the 3 years preceding the date of this designation he must have had at least—

(1) For a certification course or test preparation course—

(i) One year of experience as a flight instructor in an approved pilot training course of a certificated pilot school; or

(ii) 1,000 hours as a certificated flight instructor in airplanes or 400 hours as certificated flight instructor in helicopters, gliders, or as an instrument instructor, as appropriate.

(2) For a ground school course—

(i) One year of experience as a ground school instructor in an approved pilot training course of a certificated pilot school; or

(ii) 500 hours as a certificated classroom instructor.

(b) He must have trained and recommended for graduation at least three students in each kind of certification course for which he is designated.

(c) He must pass—

(1) An oral test on Part 61 of this chapter, this Part 141, and Part 91 of this chapter, and on the training standards and objectives of the course for which he is designated; and

(2) A flight test on the flight procedures and maneuvers appropriate to that course.

§ 141.37 Airports.

(a) An applicant for a pilot school certificate or a provisional pilot school certificate must show that it has continuous use of each airport at which training flights originate.

(b) Each airport used for airplanes and gliders must meet at least the following requirements:

(1) *Runway length.* (i) Each runway used for training in landplanes and in gliders using aero tows must be at least 2,500 feet long at sea level. The runway length must be increased by 12 percent for each additional 1,000 feet of elevation.

(ii) Each runway used for training in seaplanes must be at least 5,000 feet long at sea level. The runway length must be increased by 12 percent for each additional 1,000 feet of elevation.

(iii) Each runway used for training in gliders using an auto or winch tow, must be at least 4,000 feet long.

(2) *Runway width.* (i) Each runway used for training in airplanes and in gliders using aero tows, must have a usable surface at least 50 feet wide under normal weather conditions.

(ii) Each runway used for training in gliders using auto or winch tow must have a usable surface at least 100 feet wide under normal weather conditions.

(3) *Taxiway.* Each runway that is less than 100 feet wide must have a taxiway and the taxiway must be at least 100 feet from the edge of the runway.

(4) *Runway and taxiway surfaces.* Each runway and taxiway must be free of ruts, depressions, bumps, vegetation, or other surface variations that could cause damage to airplanes. The surface of each taxiway and runway must be firm and remain firm under normal weather conditions. Each runway and taxiway must have a surface that when wet, will not adhere to tires in sufficient amounts to cause damage to propellers and airplane surfaces.

(5) *Parking areas.* Each parking area must be clear of the runways and taxiways and must have a ramp for the servicing of aircraft and for the arrival and departure of training flights.

(6) *Obstructions.* (i) Each runway must be clear of obstructions for at least 125 feet on either side of the centerline of the runway.

(ii) The approach and departure paths for each runway must be clear of all obstructions above a slope of 20 to 1 for 1 mile from the end of the runway.

(7) *Wind indicator.* Each airport must have a wind direction indicator that is visible from the ends of each runway at ground level.

(8) *Traffic direction indicator.* Each airport must have a traffic direction indicator when the airport has no operat-

ing control tower and UNICOM advisories are not available.

(9) *Lighting.* Each airport used for night training flights must have permanent runway lights.

(c) Each heliport must meet at least the following requirements:

(1) *Landing areas.* Except as provided in subparagraph (5) of this paragraph, each landing area must—

(i) Have a length and a width that is not less than 1½ the length of the largest helicopter used in the landing area;

(ii) Be marked with a maltese cross unless it is located on an established airport; and

(iii) Be surfaced with a hard material or with well developed sod.

(2) *Obstructions.* The approach and departure paths must be clear of all obstructions above a slope of 8 to 1 extending upward and outward from the edge of the landing area to a width of 300 feet at a height of 300 feet above the surface of the heliport. Suitable areas which allow an emergency landing to be made without undue hazard to passengers or to persons or property on the surface must be available throughout the descent from, or climb to en route altitudes over congested areas. At least two approach and departure paths must be provided which are 90° or more apart.

(3) *Public protection.* Each heliport must have appropriate safeguards against inadvertent entry of persons or large domestic animals onto the landing area.

(4) *Parking.* Parking areas for helicopters must provide clearance between helicopter rotor tips in the rotating configuration of at least one half the rotor diameter of the larger helicopter. When rotary and fixed wing aircraft are parked in adjacent areas, a minimum wing tip to rotor clearance of not less than one half the rotor diameter must be provided.

(5) *Elevated landing areas.* Elevated landing areas must be at least 40 feet long and 40 feet wide. The usable approach slope gradient to the landing area must not exceed 20°. Elevated landing areas must be constructed to withstand a minimum impact load per square foot at the point of landing that is not less than 50 percent of the gross weight of the largest helicopter to be used in that landing area.

§ 141.39 Aircraft.

An applicant for a pilot school or provisional pilot school certificate must show that each aircraft used by that school for flight instruction and solo flights meets the following requirements:

(a) It must be registered as a civil aircraft of the United States.

(b) Except for aircraft used for flight instruction and solo flights in a course of training for agricultural aircraft operations, external load operations and similar aerial work operations, it must be certificated in the standard airworthiness category.

(c) It must be maintained and inspected in accordance with the requirements of Part 91 of this chapter that apply to aircraft used to give flight instruction for hire.

(d) For use in flight instruction, it must be at least a two-place aircraft having engine power controls and flight controls that are easily reached and that operate in a normal manner from either of two pilot stations.

(e) For use in IFR en route operations and instrument approaches, it must be equipped and maintained for IFR operations, and have an operable transponder. However, for instruction in the control and precision maneuvering of an airplane by reference to instruments, the airplane may be equipped as provided in the approved course of training.

§ 141.41 Ground trainers and training aids.

An applicant for a pilot school or a provisional pilot school certificate must show that its pilot ground trainers, training aids and equipment meet the following requirements:

(a) *Pilot ground trainers.* Each pilot ground trainer used in an approved pilot training course must have—

(1) An enclosed pilot's station or cockpit, which accommodates one or more flight crewmembers;

(2) Controls to simulate the rotation of the trainer about three axes;

(3) The minimum instrumentation and equipment required for powered aircraft in § 91.33 of this chapter, for the type of flight operations simultated;

(4) For VFR instruction, a means for simulating visual flight conditions, including motion of the trainer, or projections, or models operated by the flight controls; and

(5) For IFR instruction, a means for recording the flight path simulated by the trainer.

(b) *Training aids and equipment.* Each training aid, including any audio-visuals, mockup, chart, or aircraft component listed in the approved training course outline must be accurate, appropriate to the course for which it is used, and adequate in size for the class and classroom for which it is used.

§ 141.43 Pilot readyrooms.

(a) An applicant for a pilot school or provisional pilot school certificate must show that it has the continuous use of a readyroom located at each airport at which training flights originate, that is—

(1) Adequate to shelter students waiting to engage in their training flights;

(2) Arranged and equipped for the conduct of pilot briefings;

(3) Located near the ramp at which the training flights originate, and accessible from the school's flight dispatch office; and

(4) For a school with an instrument or commercial pilot course rating, equipped with private landline or telephone communication to the nearest FAA flight service station, except that this communication equipment is not required if the readyroom and the flight service station are located on the same airport and are readily accessible to each other.

(b) A readyroom required by paragraph (a) of this section may not be used by the applicant if it is available for use by any other school or business during the period it is required for use by the applicant.

§ 141.45 Classrooms.

An applicant for a pilot school or provisional pilot school certificate must show that each room used for instruction in an approved training course is adequately heated, lighted, and ventilated for use as a classroom. In addition, the room must be so located that the students in that classroom are not distracted by the instruction conducted in other classrooms, or by flight and maintenance operations on the airport.

Subpart C—Training Course Outline and Curriculum

§ 141.51 Applicability.

This subpart prescribes the curriculum and course outline requirements for the issuance of a pilot school or provisional pilot school certificate and ratings.

§ 141.53 Training course outline: General.

(a) *General.* An applicant for a pilot school or provisional pilot school certificate must obtain the Administrator's approval of the outline of each training course for which certification and rating is sought.

(b) *Application.* An application for the approval of an initial or amended training course outline is made in triplicate to the FAA district office having jurisdiction over the area in which the operations base of the applicant is located. It must be made at least 30 days before any training under that course, or any amendment thereto, is scheduled to begin. An application for an amendment to an approved training course must specify the pages in the course outline for which an amendment is requested.

§ 141.55 Training course outline: Contents.

(a) *General.* The outline for each course of training for which approval is requested must meet the minimum curriculum for that course prescribed in the appropriate appendix of this part, and contain the following information:

(1) A description of each room used for classroom instruction, including its size and the maximum number of students that may be instructed in the room at one time.

(2) A description of each audio-visual aid, projector, tape recorder, mockup, aircraft component, and other special training aid used for classroom and other ground instruction.

(3) A description of each pilot ground trainer used for instruction.

(4) A description of the airports at which training flights originate and the facilities, including pilot readyrooms that are available for use by the students and

operating personnel at each of those airports.

(5) A description of the type of aircraft including any special equipment, used for each phase of instruction.

(6) The minimum qualifications and ratings for each instructor used for ground or flight training.

(b) *Training syllabus.* In addition to the items specified in paragraph (a) of this section, the course outline must include a training syllabus for each course of training that includes at least the following information:

(1) The pilot certificate and ratings, if any, medical certificate, if necessary, and the training, pilot experience and knowledge required for enrollment in the course.

(2) A description of each lesson, including its objectives and standards and the measurable unit of student accomplishment or learning to be derived from the lesson.

(3) The stage of training (including the standards therefor) normally accomplished within each training period of not more than 90 days.

(4) The tests and checks used to measure a student's accomplishment for each stage of training.

§ 141.57 Special curricula.

An applicant for a pilot school or provisional pilot school certificate may apply for approval to conduct a special course of training for which a curriculum is not prescribed in the appendixes to this part, if he shows that the special course of pilot training contains features which can be expected to achieve a level of pilot competency equivalent to that achieved by the curriculum prescribed in the appendixes to this part or the requirements of Part 61 of this chapter.

Subpart D—Examining Authority

§ 141.61 Applicability.

This subpart prescribes the requirements for the issuance of an examining authority to the holder of a pilot school certificate and the privileges and limitations of that authority.

§ 141.63 Application and qualification.

(a) Application for an examining authority is made on a form and in a manner prescribed by the Administrator.

(b) To be eligible for an examining authority an applicant must hold a pilot school certificate. In addition, the applicant must show that—

(1) It has actively conducted a certificated pilot school at its present base of operations for at least 24 months before the date of application;

(2) Within the 24 months before the date of application for the examining authority, at least 20 students were graduated from the course for which the authority is requested, and at least nine of the most recent 10 graduates of that course, who were given an interim or final test by an FAA inspector or a designated flight examiner, passed that test the first time; and

(3) It has had no violations involving its pilot training within the 3 years before the date of application.

§ 141.65 Privileges.

The holder of an examining authority may recommend graduates of the school's approved certification courses for pilot certificates and ratings without taking an FAA flight test, or written test, or both, in accordance with the provisions of this subpart.

§ 141.67 Limitations and reports.

(a) The holder of an examining authority may not recommend any person for the issuance of a pilot certificate or rating without taking a written or flight test unless that person has—

(1) Been enrolled by the holder of the examining authority in its approved course of training for the particular pilot certificate or rating recommended; and

(2) Completed all of that course of training at its school.

(b) Each final written or flight test given by the holder of an examining authority to a person enrolled in its approved course of training must be at least equal in scope, depth, and difficulty to the comparable written or flight test prescribed by the Administrator under Part 61 of this chapter and the FAA written or flight test guide.

(c) A final ground school written test may not be given by the holder of an examining authority to a student enrolled in its approved course of training, unless the test has been approved by the FAA District Office having jurisdiction over the area in which the holder of the examining authority is located. A test may not be used more than once unless it contains appropriate changes in substance to preclude a compromise of the test by the students.

(d) The holder of an examining authority shall submit to the FAA District Office a copy of the appropriate training record for each person recommended by it for a pilot certificate or rating.

Subpart E—Operating Rules

§ 141.71 Applicability.

This subpart prescribes the operating rules that are applicable to a pilot school or provisional pilot school certificated under the provisions of this part.

§ 141.73 Privileges.

(a) The holder of a pilot school or a provisional pilot school certificate may exercise the following privileges:

(1) Advertise and conduct approved pilot training courses in accordance with the certificate and ratings that it holds.

(2) Issue a graduation certificate to each student who successfully completes its approved course of training.

(b) A certificated pilot school holding an examining authority for a certification course may recommend each graduate of that course for the issuance of a pilot certificate and rating appropriate to that course without the necessity of taking a written or flight test from an FAA inspector or designated examiner.

§ 141.75 Aircraft requirements.

(a) A pretakeoff and prelanding checklist and the operator's handbook for the aircraft (if one is furnished by the manufacturer) must be carried on each aircraft used for flight instruction and solo flights, or copies thereof shall be furnished to each student using the aircraft.

(b) Each aircraft used for flight instruction and solo flight must have a standard airworthiness certificate, except that an aircraft certificated in the restricted category may be used for flight training and solo flights conducted under special courses for agricultural aircraft operation, external load operations, and similar aerial work operations if its use for training is not prohibited by the operating limitations for the aircraft.

§ 141.77 Limitations.

(a) The holder of a pilot school or a provisional pilot school certificate may not issue a graduation certificate to a student, nor may a certificated pilot school recommend a student for a pilot certificate or rating, unless the student has completed the training therefor specified in the school's course of training and passed the required final tests.

(b) The holder of a pilot school or a provisional pilot school certificate may not credit a student with instruction or training received in another school for more than one-half of the lessons in the crediting school's approved training course. In addition, credit for training and instruction received in another school may not be given unless—

(1) The other school holds a certificate issued under this part and certifies to the kind and amount of training and to the result of each stage and final test given to that student;

(2) The training and instruction was conducted by the other school in accordance with that school's approved training course; and

(3) The student was enrolled in the other school's approved training course before he received the instruction and training.

§ 141.79 Flight instruction.

(a) No person other than a flight instructor who has the ratings and the minimum qualifications specified in the approved training course outline may give a student flight instruction under an approved course of training.

(b) No student may be authorized to start a solo practice flight from an airport until the flight has been approved by an authorized flight instructor who is present at that airport.

(c) Each chief flight instructor must complete, at least once each 12 months, a flight instructor refresher course consisting of not less than 24 hours of ground or flight instruction, or both.

(d) Each instructor for an approved course of training must satisfactorily accomplish a flight check given to him by the designated chief flight instructor for the school by whom he is employed. He must also satisfactorily accomplish this flight check each 12 months from the month in which the initial check is given. In addition, he must satisfactorily accomplish a flight check in each type of aircraft in which he gives instruction.

(e) An instructor may not be used in an approved course of training until he has been briefed in regard to the objectives and standards of the course by the designated chief instructor or his assistant.

§ 141.81 Classroom instruction.

(a) Except as provided in paragraph (b) of this section, each instructor used for classroom instruction in an approved course of training must hold a flight or ground instructor certificate with an appropriate rating for the course of training.

(b) A person who does not meet the requirements of paragraph (a) of this section may be used for classroom instruction in an approved course of training if—

(1) The chief instructor for that course of training finds him qualified to give that instruction; and

(2) The instruction is given under the direct supervision of the chief instructor who is present and readily available at the base when the instruction is given.

(c) An instructor may not be used in an approved course of training until he has been briefed in regard to the objectives and standards of that course by the designated chief instructor or his assistant.

§ 141.83 Quality of instruction.

(a) Each holder of a pilot school or provisional pilot school certificate must provide training and instruction of such quality that at least eight out of the 10 students or graduates of that school most recently tested by an FAA inspector, passed on their first attempt either of the following tests:

1. A test for a pilot certificate or rating, or for an operating privilege appropriate to the course from which the student graduated; or

2. A test given to a student to determine his competence and knowledge of a completed stage of the training course in which he is enrolled.

(b) The failure of a certificated pilot school or provisional pilot school to maintain the quality of instruction specified in paragraph (a) of this section is considered to be the basis for the suspension or revocation of the certificate held by that school.

(c) The holder of a pilot school or provisional pilot school certificate shall allow the Administrator to make any test, flight check, or examination of its students to determine compliance with its approved course of training and the quality of its instruction and training. A flight check conducted under the provisions of this paragraph is based upon the standards prescribed in the school's approved course of training. However, if the student has completed a course of training for a pilot certificate or rating, the flight test is based upon the standards prescribed in Part 61 of this chapter.

§ 141.85 Chief instructor responsibilities.

(a) Each person designated as a chief instructor for a certificated pilot school or provisional pilot school shall be responsible for—

1. Certifying training records, graduation certificates, stage and final test reports, and student recommendations;

2. Conducting an initial proficiency check of each instructor before he is used in an approved course of instruction and, thereafter, at least once each 12 months from the month in which the initial check was conducted;

3. Conducting each stage or final test given to a student enrolled in an approved course of instruction; and

4. Maintaining training techniques, procedures, and standards for the school that are acceptable to the Administrator.

(b) The chief instructor or his designated assistant shall be present and available at the school's base of operations during the time that instruction is given for an approved course of training.

§ 141.87 Change of chief instructor.

(a) The holder of a pilot school or provisional pilot school certificate shall immediately notify in writing the FAA District Office having jurisdiction over the area in which the school is located, of any change in its designation of a chief instructor of an approved training course.

(b) The holder of a pilot school or provisional pilot school certificate may, after providing the notification required in paragraph (a) of this section and pending the designation and approval of another chief instructor, conduct training or instruction without a chief instructor for that course of training for a period of not more than 30 days. However, during that time each stage or final test of a student enrolled in that approved course of training must be given by an FAA inspector, or a designated pilot examiner.

§ 141.89 Maintenance of personnel, facilities, and equipment.

The holder of a pilot school or provisional pilot school certificate may not give instruction or training to a student who is enrolled in an approved course of training unless—

(a) Each airport, aircraft, and facility necessary for that instruction or training meets the standards specified in the holder's approved training course outline and the appropriate requirements of this part; and

(b) Except as provided in § 141.87 each instructor or chief instructor meets the qualifications specified in the holder's approved course of training and the appropriate requirements of this part.

§ 141.91 Satellite bases.

The holder of a pilot school or provisional pilot school certificate may conduct ground or flight training and instruction in an approved course of training at a base other than its main operations base if—

(a) The satellite base is located not more than 25 miles from its main operations base;

(b) The airport, facilities, and personnel used at the satellite base meet the appropriate requirements of Subpart B of this part and its approved training course outline;

(c) The instructors are under the direct supervision of the chief instructor for the appropriate training course, who is readily available for consultation; and

(d) The FAA District Office having jurisdiction over the area in which the school is located is notified in writing if training or instruction is conducted there for more than 7 days.

§ 141.93 Enrollment.

(a) The holder of a pilot school or a provisional pilot school certificate shall furnish each student, at the time he is enrolled in an approved training course, with the following:

1. A certificate of enrollment containing—

(i) The name of the course in which he is enrolled;

(ii) The date of that enrollment; and

(iii) The date on which he is required to complete that course in accordance with § 141.95.

2. A copy of the approved training course outline.

3. A copy of the safety procedures and practices developed by the school covering the use of its facilities and the operation of its aircraft, including instructions on the following:

(i) The weather minimums required by the school for dual and solo flights.

(ii) The procedures for starting and taxiing aircraft on the ramp.

(iii) Fire precautions and procedures.

(iv) Redispatch procedures after unprogrammed landings, on and off airports.

(v) Aircraft squawks and write offs.

(vi) Securing of aircraft when not in use.

(vii) Fuel reserves necessary for local and cross-country flights.

(viii) Avoiding other aircraft in flight and on the ground.

(ix) Minimum altitude limitations and stimulated emergency landing instructions.

(x) Use of assigned practice areas.

(b) The holder of a pilot school or provisional pilot school certificate shall, within 5 days after the date of enrollment, forward a copy of each certificate of enrollment required by paragraph (a)(1) of this section to the FAA District Office having jurisdiction over the area in which the school is located.

§ 141.95 Graduation certificate.

(a) The holder of a pilot school or provisional pilot school certificate shall issue a graduation certificate to each student who completes its approved course of training within the times specified in paragraph (c) of this section.

(b) The certificate shall be issued to the student upon his completion of the course of training and contain at least the following information:

1. The name of the school and the number of the certificate.

2. The name of the graduate to whom it was issued.

3. The course of training for which it was issued.

4. The date of graduation.

5. A statement that the student has satisfactorily completed each required stage of the approved course of training including the tests for those stages.

6. A certification of the information contained in the certificate by the chief instructor for that course of training.

(c) The holder of a pilot school or a provisional pilot school certificate may not issue a graduation certificate to a student for one of its approved courses of training for a pilot certificate or rating unless that student has completed that course within the following time from the date of his enrollment in that course:

1. For a pilot ground school course—9 months.

2. For a private pilot course—12 months.

3. For an instrument rating course—6 months.

4. For a commercial pilot course—24 months.

5. For a test preparation course—the time prescribed for that course in the appropriate appendix to this part.

Subpart F—Records

§ 141.101 Training records.

(a) Each holder of a pilot school or provisional pilot school certificate shall establish and maintain a current and accurate record of the participation and accomplishment of each student enrolled in an approved course of training conducted by the school (the student's logbook is not acceptable for this record). The record shall include—

1. The date the student was enrolled;

2. A chronological log of the student's attendance, subjects, and flight operations covered in his training and instruction, and the names and grades of any tests taken by the student; and

3. The date the student graduated, terminated his training, or transferred to another school.

(b) Whenever a student graduates, terminates his training, or transfers to another school, his record shall be certified to that effect by the chief instructor.

(c) The holder of a certificate for a pilot school or a provisional pilot school shall retain each student record required by this section for at least 1 year from the date that the student graduates from the course to which the record pertains, terminates his enrollment in that course, or transfers to another school.

(d) The holder of a certificate for a pilot school or a provisional pilot school shall, upon request of a student, make a copy of his record available to him.

Appendix A—Private Pilot Certification Course (Airplanes)

1. *Applicability.* This appendix prescribes the minimum curriculum for a private pilot certification course (airplanes) required by § 141.55.

2. *Classroom instruction.* The course must consist of at least 35 hours of classroom instruction in the following subjects:

(a) The Federal Aviation Regulations applicable to private pilot privileges, limitations, and flight operations, the rules of the National Transportation Safety Board pertaining to accident reporting, the use of the Airman's Information Manual, and the FAA Advisory Circular System.

(b) VFR navigation using pilotage, dead reckoning, and radio aids.

(c) The recognition of critical weather situations from the ground and in flight and the procurement and use of aeronautical weather reports and forecasts.

(d) The safe and efficient operation of airplanes, including high density airport operations, collision avoidance precautions, and radio communication procedures.

3. *Flight training.* (a) The course must consist of at least 35 hours of the flight training listed in this section and section 4 of this appendix. Instruction in a pilot ground trainer that meets the requirements of § 141.41 may be credited for not more than 5 of the required 35 hours of flight time.

(b) Each training flight must include a preflight briefing and a postflight critique of the student by the instructor assigned to that flight.

(c) Flight training must consist of at least 20 hours of instruction in the following subjects:

(1) Preflight operations, including weight and balance determination, line inspection, starting and runups, and airplane servicing.

(2) Airport and traffic pattern operations, including operations at controlled airports, radio communications, and collision avoidance precautions.

(3) Flight maneuvering by reference to ground objects.

(4) Flight at critically slow airspeeds, recognition of imminent stalls, and recovery from imminent and full stalls.

(5) Normal and crosswind takeoffs and landings.

(6) Control and maneuvering an airplane solely by reference to instruments, including emergency descents and climbs using radio aids or radar directives.

(7) Cross-country flying using pilotage, dead reckoning, and radio aids, including a 2-hour dual flight at least part of which must be on Federal airways.

(8) Maximum performance takeoffs and landings.

(9) Night flying, including five takeoffs and landings as sole manipulator of the controls, and VFR navigation.

(10) Emergency operations, including simulated aircraft and equipment malfunctions, lost procedures, and emergency go-arounds.

(4) *Solo flights.* The course must provide at least 15 hours of solo flights, including—

(a) Directed solo practice on all VFR flight operations for which flight instruction is required (except simulated emergencies) to develop proficiency, resourcefulness, and self-reliance; and

(b) Ten hours of cross-country flights, each flight with a landing at a point more than 50 nautical miles from the point of departure, and one flight with landings at not less than three points, each of which is more than 100 nautical miles from the other points.

5. *Stage and final tests.* (a) Each student enrolled in a private pilot certification course must satisfactorily accomplish the stage and final tests prescribed in this section. The written tests may not be credited for more than 3 hours of the 35 hours of required classroom instruction, and the flight tests may not be credited for more than 4 hours of the 35 hours of required flight training.

(b) Each student must satisfactorily accomplish a written examination at the completion of each group of classroom subjects listed in paragraphs (a), (b), (c), and (d) of section 2 of this appendix and a final test at the conclusion of that course.

(c) Each student must satisfactorily accomplish a flight test at the completion of the first solo flight and at the completion of the first solo cross-country flight and at the conclusion of that course.

6. *Previous training and experience.* Pilot training, experience, or tests that were not received by a student in an approved private pilot certification course may not be credited toward his graduation.

Appendix B—Private Test Course (Airplanes)

1. *Applicability.* This appendix prescribes the minimum curriculum for a private test course (airplanes) required by § 141.55.

2. *Experience.* For enrollment as a student in a private test course (airplanes) an applicant must have logged at least 30 hours of flight time as a pilot. The type and amount of flight time must be such that the student, upon completion of the approved private test course (airplanes), will meet the experience requirements for a private pilot certificate prescribed in Part 61 of this chapter.

3. *Classroom instruction.* The course must consist of at least 35 hours of classroom instruction in the subjects listed in section 2 of Appendix A of this part.

4. *Flight training.* (a) The course must consist of a total of at least 12 hours of flight training, which must include at least 10 hours of flight instruction in the subjects listed in section 3(c) of Appendix A of this part.

(b) Each training flight must include a preflight briefing and a postflight critique of the student by the instructor assigned to that flight.

5. *Stage and final tests.* Each student enrolled in the course must satisfactorily accomplish the final tests prescribed in section 5 of Appendix A of this part. Written tests may not be credited for more than 3 hours of the required 35 hours of classroom instruction, and the flight tests may not be credited for more than 2 hours of the required 10 hours of flight training.

6. *Credit for previous training or tests.* A student's pilot training or tests may not be credited toward his completion of the course unless accomplished as a part of an approved private test course. If a student has obtained a passing grade on an FAA private pilot written test before enrollment in the course, evidence of that accomplishment may be accepted for the appropriate classroom instruction and written tests required under this course.

Appendix C—Instrument Rating Course (Airplanes)

1. *Applicability.* This appendix prescribes the minimum curriculum for a training course for an Instrument Rating Course (airplanes) required by § 141.55.

2. *Classroom instruction.* The course must consist of at least 30 hours of classroom instruction in the following subjects:

(a) The Federal Aviation Regulations that apply to flight under IFR conditions, the IFR air traffic system and procedures, and the provisions of the Airman's Information Manual pertinent to IFR flights.

(b) Dead reckoning appropriate to IFR navigation, IFR navigation by radio aids using the VOR, ADF, and ILS systems, and the use of IFR charts and instrument approach plates.

(c) The procurement and use of aviation weather reports and forecasts, and the elements of forecasting weather trends on the basis of that information and personal observation of weather conditions.

(d) The function, use, and limitations of flight instruments required for IFR flight, including transponders, radar, and radio aids to navigation.

3. *Flight training.* The course must consist of at least 35 hours of instrument flight instruction given by an appropriately rated

flight instructor, covering the operations listed in paragraphs (a) through (d) of this section. Instruction given by an authorized instructor in a pilot ground trainer which meets the requirements of § 141.41 may be credited for not more than 15 hours of the required flight instruction.

(a) Control and accurate maneuvering of an airplane solely by reference to flight instruments.

(b) IFR navigation by the use of VOR and ADF systems, including time, speed, and distance computations and compliance with air traffic control instructions and procedures.

(c) Instrument approaches to published minimums using the VOR, ADF, and ILS systems (instruction in the use of the ILS glide slope may be given in an instrument ground trainer or with an airborne ILS simulator).

(d) Emergency procedures appropriate to the maneuvering of an airplane solely by reference to flight instruments.

4. *Stage and final tests.* (a) Each student must satisfactorily accomplish a written test at the completion of each group of classroom subjects listed in paragraphs (a), (b), (c), and (d) of section 2 of this appendix. In addition, he must satisfactorily accomplish a final written test at the completion of all the subjects listed in those paragraphs. The written tests may not be credited for more than 5 hours of the 30 hours of required classroom instruction.

(b) Each student must satisfactorily accomplish a flight stage test at the completion of each operation listed in paragraphs (a), (b), and (c) of section 3 of this appendix. In addition, he must satisfactorily accomplish a final flight test at the completion of the course. The stage and final tests may be credited for not more than 5 hours of the required 35 hours of flight training.

APPENDIX D—COMMERCIAL PILOT CERTIFICATION COURSE (AIRPLANES)

1. *Applicability.* This appendix prescribes the minimum curriculum for a commercial pilot certification course (airplanes) required by § 141.55.

2. *Classroom instruction.* The course must consist of at least 100 hours of classroom instruction in the following subjects:

(a) The classroom subjects prescribed in section 2 of Appendix A of this part for a private pilot certification course, except the private pilot privileges and limitations of paragraph (a) of that section.

(b) The classroom subjects prescribed in section 2 of Appendix C of this part for an instrument rating course.

(c) The Federal Aviation Regulations covering the privileges, limitations, and operations of a commercial pilot, and the operations for which an air taxi/commercial operator, agricultural aircraft operator, and external load operator certificate, waiver, or exemption is required.

(d) Basic aerodynamics, and the principles of flight which apply to airplanes.

(e) The safe and efficient operation of airplanes, including inspection and certification requirements, operating limitations, high altitude operations and physiological considerations, loading computations, the significance of the use of airplane performance speeds, the computations involved in runway and obstacle clearance and crosswind component considerations, and cruise control.

3. *Flight training.*—(a) *General.* The course must consist of at least 190 hours of the flight training and instruction prescribed in this section. Instruction in a pilot ground trainer that meets the requirements of § 141.41 may be credited for not more than 40 hours of the required 190 hours of flight time. Each instructional and solo practice flight must include a preflight briefing and a postflight critique of the student by the assigned flight instructor.

(b) *Flight instruction.* The course must consist of at least 75 hours of instruction in the operations listed in subparagraphs (1) through (6) of this paragraph. Instruction in a pilot ground trainer that meets the requirements of § 141.41 may be credited for not more than 20 hours of the required 75 hours.

(1) The pilot operations for the private pilot course prescribed in section 3 of Appendix A of this part.

(2) The IFR operations for the instrument rating course prescribed in section 3 of Appendix C of this part.

(3) Ten hours of flight instruction and a solo checkout in an airplane with retractable gear, flaps, a controllable propeller, and a true airspeed of more than 165 knots at critical altitude with 75 percent power (high performance airplanes).

(4) Night flying, including a cross-country night flight with a landing at a point more than 100 miles from the point of departure.

(5) Normal and maximum performance takeoffs and landings using precision approaches and prescribed airplane performance speeds, including operations at maximum authorized takeoff weight.

(6) Emergency procedures appropriate to VFR and IFR flight and to the operation of complex airplane systems.

(c) *Solo practice.* The course must consist of at least 100 hours of the solo flights listed in subparagraphs (1) through (4) of this paragraph. Flight time as pilot in command of an airplane with not more than two other pilots assigned by the school to specific flight crew duties on the flight may be credited for not more than 50 hours of that requirement.

(1) Directed solo practice on each VFR operation for which flight instruction is required (except simulated emergencies).

(2) At least 40 hours of solo cross-country flights, including one flight with landings at three points, each of which is more than 200 nautical miles from the other points, except that those flights conducted in the State of Hawaii may be made with landings at points which are 100 nautical miles apart.

(3) At least 5 hours of solo flight time in an airplane described in paragraph (a)(3) of this section, including not less than 10 takeoffs and 10 landings to a full stop.

(4) At least 5 hours of night flight, including at least 10 takeoffs and 10 landings to a full stop.

4. *Stage and final tests.*—(a) *Written examinations.* Each student enrolled in the course must satisfactorily accomplish a written test upon the completion of each group of subjects listed in paragraphs (1), (2), (3), (4), (5), and (6) of section 3(b) of this appendix. In addition, he must satisfactorily accomplish a final stage test at the completion of all of the subject listed in those paragraphs. The stage and final tests may be credited for not more than 6 hours of the required 100 hours of classroom instruction.

(b) *Flight tests.* Each student enrolled in a commercial pilot certification course (airplanes) must satisfactorily accomplish a stage flight test at the completion of each of the stages listed in subparagraphs (1), (2), (3), (4), and (5) of this paragraph. In addition, he must satisfactorily accomplish a final test at the completion of all of those stages. The stage and final tests may not be credited for more than 10 hours of the required 190 hours of flight training.

(1) Solo.

(2) Cross-country.

(3) High performance airplane operations.

(4) IFR operations.

(5) Commercial pilot course test, VFR and IFR.

5. *Previous training and experience.*—(a) *Private pilot certificate.* A student who holds a private pilot certificate with an airplane category rating, issued to him within 12 months before the date of his enrollment in a commercial pilot course (airplanes), may be credited with not more than 35 hours of classroom instruction and 35 hours of flight training, if he passes the written and flight tests required for graduation from the approved private pilot certification course of the school in which he is enrolled.

(b) *Instrument rating.* A student who holds an instrument rating (airplane), issued to him within 12 months before his enrollment in a commercial pilot course (airplanes), may be credited for not more than 35 hours of classroom instruction and 30 hours of instrument pilot training, if he passes the written and flight tests required for graduation from the approved instrument rating course of the school in which he is enrolled.

APPENDIX E—COMMERCIAL TEST COURSE (AIRPLANES)

1. *Applicability.* This appendix prescribes the minimum curriculum for a commercial test course (airplanes) required by § 141.55 of this Part.

2. *Experience.* (a) For enrollment as a student in a commercial test course (airplanes) an applicant must—

(1) Hold a valid private pilot certificate;

(2) Hold a valid instrument rating, or be enrolled in an approved instrument rating course; and

(3) Have such experience and flight training that upon completion of his approved commercial test course he will meet the aeronautical experience requirements prescribed in Part 61 of this chapter for a commercial pilot certificate.

(b) A student's previous pilot training or flight tests may not be credited toward completion of the course unless accomplished as a part of an approved commercial test course. If a student received a passing grade on an FAA commercial pilot written test, prior to enrollment, evidence of that accomplishment may be accepted for the appropriate classroom instruction and written tests required under this course.

3. *Classroom instruction.* The course must consist of at least 50 hours of classroom instruction in the following subjects:

(a) A review of the classroom subjects prescribed in section 2 of Appendix A of this part for a private pilot certification.

(b) A review of the classroom subjects prescribed in section 2 of Appendix C of this part for an instrument rating course.

(c) The Federal Aviation Regulations covering the privileges, limitations, and operations of a commercial pilot, and the operations for which air taxi/commercial operator, agricultural aircraft operator, and external load operator certificate, waiver, or exemption is required.

(d) Basic aerodynamics, and the principles of flight that apply to airplanes.

(e) The safe and efficient operation of airplanes, including inspection and certification requirements, operating limitations, high altitude operations and physiological considerations, loading computations, the significance and use of airplane performance speeds, and computations involved in runway and obstacle clearance and crosswind component considerations.

4. *Flight training*—(a) *General.* The course must consist of at least 25 hours of flight training prescribed in this section. Instruction in a pilot ground trainer that meets the requirements of § 141.41 may be credited for not more than 20 percent of the total number of hours of flight time. Each instructional and solo practice flight must include a preflight briefing and a postflight critique of

the student's performance by the assigned flight instructor.

(b) *Flight instruction.* The course must consist of at least 20 hours of flight instruction in the subjects listed in subparagraphs (1) through (4) of this paragraph. Instruction in a ground trainer may be credited for not more than 4 hours of the required 20 hours.

(1) A review of the VFR operations prescribed in section 3 of Appendix A of this part for a private course.

(2) A review of the IFR operations prescribed in section 3 of Appendix C of this part for an instrument rating course.

(3) A review of the VFR operations prescribed in section 3(b) (3) through (6) of Appendix D of this part for a commercial pilot certification course.

(c) *Directed solo practice.* If the course includes directed solo practice necessary to develop the flight proficiency of each student, the practice may not exceed a ratio of 3 hours of directed solo practice for each hour of the flight instruction required by the school's approved course outline.

5. *Stage and final tests.*—(a) *Written tests.* Each student enrolled in the course must satisfactorily accomplish a stage test upon the completion of each group of subjects listed in paragraphs (a), (b), (c), (d), and (e), of section 3 of this appendix. In addition, he must satisfactorily accomplish a final test at the completion of all of those subjects. The stage and final tests may not be credited for more than 4 hours of the required 50 hours of classroom instruction.

(b) *Flight tests.* Each student enrolled in the course must satisfactorily accomplish a final test at the completion of the course. However, if the approved course of training exceeds 35 hours he must be given a test at an appropriate stage prior to completion of 35 hours of flight training. The flight tests may not be credited for more than 3 of the required hours of flight training.

(c) *Total flight experience.* The approved training course outline must specify the minimum number of hours of flight instruction and directed solo practice (if any) that is provided for each student under the requirements of paragraphs (b) and (c) of section 4 of this appendix. The total number of hours of all flight training given to a student under this section and the minimum experience required for enrollment under section 2 of this appendix must meet the minimum aeronautical experience requirements of § 61.115 of this chapter for the issuance of a commercial pilot certificate.

APPENDIX F—ROTORCRAFT, GLIDERS, LIGHTER-THAN-AIR AIRCRAFT AND AIRCRAFT RATING COURSES

A. *Applicability.* This appendix prescribes the minimum curriculum for a pilot certification course for a rotorcraft, glider, lighter-than-air aircraft, or aircraft rating, required by § 141.55.

B. *General requirements.* The course must be comparable in scope, depth, and detail with the curriculum prescribed in Appendixes A through D of this part for a pilot certification course (airplanes) with the same rating. Each course must provide ground and flight training covering the aeronautical and skill items required by Part 61 of this chapter for the certificate or rating concerned. In addition, each course must meet the appropriate requirements of this appendix.

C. *Rotorcraft.*—I. *Kinds of rotorcraft pilot certification courses.* An approved rotorcraft pilot certification course includes—

(a) A helicopter or gyroplane course—private pilots;

(b) A helicopter or gyroplane course—commercial pilots; and

(c) An instrument rating—helicopter.

II. *Helicopter or gyroplane course: private pilots.* (a) A private pilot certification course for helicopters or gyroplanes must consist of at least the following:

(1) Classroom instruction—35 hours.

(2) Flight training—35 hours, including the following:

(i) Flight instruction—20 hours.

(ii) Solo practice—10 hours, including a flight with landings at three points, each of which is more than 25 nautical miles from the other two points.

(b) Stage and final tests may be credited for not more than 3 hours of the 35 hours of classroom instruction, and for not more than 4 hours of the 35 hours of flight training required by paragraphs (a)(1) and (a)(2) of this section.

(c) A student's pilot training or experience may not be credited toward completion of the course, unless it was accomplished in an approved rotorcraft certification course.

III. *Helicopter or gyroplane course—commercial pilots.* (a) A commercial pilot certification course of training for helicopters or gyroplanes must consist of at least the following:

(1) Classroom instruction—65 hours.

(2) Flight training—150 hours of flight training at least 50 hours of which must be in helicopters or gyroplanes. The flight training must include the following:

(i) Flight instruction—50 hours.

(ii) Directed solo—100 hours (including a cross-country flight with landings at three points, each of which is more than 50 nautical miles from the other two points).

(b) Stage and final tests may be credited for not more than 5 hours of the required 65 hours of classroom instruction, and for not more than 7 hours of the required 150 hours of flight training prescribed in paragraphs (a)(1) and (a)(2) of this section.

(c) The holder of a private pilot certificate with a helicopter or gyroplane rating, as appropriate, issued within the 12 months before the date of his enrollment in the course, may be credited with not more than 35 hours of classroom instruction, and not more than 35 hours of flight training. However, to be eligible to receive the credit he must pass the written and flight tests required for graduation from the appropriate private pilot course approved for the school at which he applies for enrollment.

IV. *Instrument Rating—Helicopter Course.* (a) An instrument rating—helicopter course of training must consist of at least the following:

(1) Classroom instruction—35 hours.

(2) Instrument flight training—35 hours. Instrument instruction in a pilot ground trainer that meets the requirements of § 141.41 may be credited as not more than 10 hours of the required 35 hours of flight training. The instrument flight instruction must include a 100-mile simulated or actual IFR cross-country flight, and 25 hours of flight instruction.

(3) Stage and final tests may be credited for not more than 5 hours of the 35 hours of required classroom instruction, and not more than 5 hours of the 35 hours of instrument training.

(4) *Credit for previous pilot training or experience.*—No previous pilot training or experience of a student may be credited toward completion of the course.

D. *Gliders.*—I. *Kinds of glider pilot certification courses.* An approved glider certification course includes—

(a) A glider course—private pilots; and

(b) A glider course—commercial pilots.

II. *Glider course: Private pilot.* A private pilot certification course for gliders must consist of at least the following:

(a) Classroom instruction—15 hours.

(b) Flight training—8 hours (including 35 flights if ground tows are used, or 20 flights if aero tows are used). The flight training must include the following:

(1) Flight instruction—2 hours (including 20 flights if ground tows are used or 15 flights if aero tows are used).

(2) Directed solo—5 hours (including at least 15 flights if ground tows are used or 5 flights if aero tows are used).

(c) Stage and flight tests may be credited for not more than 1 hour of the 15 hours of classroom instruction, and for not more than one-half hour of the 2 hours of flight instruction required by paragraphs (a)(1) and (a)(2) of this section.

(d) A student's pilot training or experience may not be credited toward completion of the course, unless it was accomplished in an approved glider pilot certification course.

III. *Glider course; commercial pilot.* (a) An approved commercial pilot certification course for gliders must consist of at least the following:

(1) Classroom instruction—25 hours.

(2) Flight training—20 hours of flight time in gliders (consisting of at least 50 flights), including the following:

(i) Flight instruction—8 hours.

(ii) Directed solo—10 hours.

(b) Stage and final tests may be credited for not more than 2 hours of the 25 hours of classroom instruction, and for not more than 2 hours of the 20 hours of flight training required by paragraphs (a)(1) and (a)(2) of this section.

(c) The holder of a private pilot certificate with a glider rating, issued within the 12 months before his enrollment, may be credited with not more than 15 hours of classroom instruction and 8 hours of flight training. However, to be eligible to receive that credit, he must pass the tests required for graduation from the appropriate private pilot-glider course approved for the school at which he applies for enrollment.

E. *Lighter-than-air aircraft.*—I. *Kinds of lighter-than-air pilot certification courses.* An approved lighter-than-air pilot certification course includes—

(a) An airship course—private pilot;

(b) A free balloon course—private pilot;

(c) An airship course—commercial pilot; and

(d) A free balloon course—commercial pilot.

II. *Airship—private pilot.* (a) A private pilot certification course for an airship must consist of at least the following:

(1) Classroom instruction—35 hours.

(2) Flight training—50 hours (45 hours must be in airships), including the following:

(i) Flight instruction—20 hours in airships.

(ii) Directed solo, or performing the functions of a pilot in command of an airship for which more than one pilot is required—10 hours.

(b) Stage and final tests may be credited for not more than 5 hours of the 35 hours of classroom instruction, and not more than 5 hours of the 50 hours of flight training required by paragraphs (a)(1) and (a)(2) of this section.

(c) A student's pilot training and experience may not be credited toward completion of the course, unless it was accomplished in an approved private pilot lighter-than-air certification course.

III. *Free balloon course; private pilot.* (a) A private pilot course for a free balloon must consist of at least the following:

(1) Classroom instruction—10 hours.

(2) Flight training—6 free flights, including—

(i) Two flights of 1-hour duration each if a gas balloon is used, or of 30 minutes duration if a hot air balloon is used;

(ii) At least one solo flight; and

(iii) One ascent under control to 5,000 feet above the point of takeoff if a gas balloon is used, or 3,000 feet above the point of takeoff if a hot air balloon is used.

(b) The written and stage checks may be credited for not more than 1 hour of the classroom instruction, and not more than one of the six flights required by paragraph (a) (1) and (a) (2) of this section.

(c) No previous pilot training or experience of a student may be credited toward completion of the course.

IV. *Airship course—commercial pilot.* (a) A commercial pilot course for an airship must consist of at least the following:

(1) Classroom instruction—100 hours.

(2) Flight training—190 hours in airships as follows:

(i) Flight instruction—80 hours, including 30 hours instrument time.

(ii) 100 hours of solo time, or flight time performing the functions or a pilot in command in an airship that requires more than one pilot, including 10 hours of cross-country flying and 10 hours of night flying.

(b) Stage and final tests may be credited for not more than 6 hours of the 100 hours of classroom instructions, and not more than 10 hours of the 190 hours of flight training required by paragraphs (a) (1) and (a) (2), respectively, of this section.

(c) The holder of a private pilot certificate with an airship rating issued within the 12 months before his enrollment may be credited with not more than 35 hours of classroom instruction, and not more than 60 hours of flight training. However, to be eligible to receive that credit he must pass the tests required for graduation from the private pilot airship course approved for the school at which he applies for enrollment.

V. *Free balloon course; commercial pilot.* (a) A commercial pilot certification course for free balloons must consist of at least the following:

(1) Classroom instruction—20 hours.

(2) Flight training—8 free flights, including—

(i) 2 flights of more than 2 hours duration if a gas balloon is used, or 2 flights of more than 1-hour duration if a hot air balloon is used;

(ii) 1 ascent under control to more than 10,000 feet above the takeoff point if a gas balloon is used, or to more than 5,000 feet above the takeoff point if a hot air balloon is used; and

(iii) 2 solo flights.

(b) Stage and final tests may be credited for not more than 2 hours of the 20 hours of classroom instruction, and not more than one of the flights required by paragraphs (a) (1) and (a) (2), respectively, of this section.

(c) No previous pilot training or experience of a student may be credited toward completion of the course.

F. *Aircraft rating course.* I. *Kinds of aircraft rating courses.* An approved aircraft rating course includes—

(a) An aircraft category rating;

(b) An aircraft class rating; and

(c) An aircraft type rating.

II. *Aircraft category rating.* An aircraft category rating course must include at least the classroom and flight instruction required by Part 61 of this chapter for the issuance of a pilot certificate with a category rating appropriate to the course. However, the Administrator may approve a lesser number of hours of classroom instruction, or flight instruction, or both, if the course provides for the use of special training aids, such as ground procedures, trainers, systems mock-ups, and audio-visual training materials, or requires appropriate aeronautical experience of the students as a prerequisite for enrollment in the course.

III. *Aircraft class rating.* An aircraft class rating course must include at least the flight instruction required by Part 61 of this chapter for the issuance of a pilot certificate with a class rating appropriate to the course.

IV. *Aircraft type rating.* An aircraft type rating course must include at least 10 hours of classroom instruction on the aircraft systems, performance, operation, and loading. In addition, it must include at least 20 hours of flight instruction, of which not more than 10 hours may be in a pilot ground trainer that meets the requirements of § 141.41.

APPENDIX G—PILOT GROUND SCHOOL COURSE

1. *Applicability.* This Appendix prescribes a minimum curriculum for a pilot ground school course.

2. *General requirements.* An approved course of training for a pilot ground school course must contain instruction to provide each student with adequate knowledge of those subjects needed to safely exercise the privileges of a private pilot.

3. *Classroom instruction.* A pilot ground school course must include at least 50 hours of classroom instruction in the following subjects:

(a) All subjects in which instruction is required for a private pilot certificate.

(b) All subjects in which instruction is required for a commercial pilot certificate, except IFR procedures.

4. *Stage and final tests.* A stage test shall be passed at the completion of each major subject, and a comprehensive final test must be passed at the completion of the course. The stage and final test may not be credited for more than 6 hours of the 50 hours of required instruction prescribed in section 3 of this appendix.

5. *Credit for previous training and experience.* No credit may be given for a student's training or experience acquired before his enrollment in the course.

APPENDIX H—TEST PREPARATION COURSES

1. *Applicability.* This appendix prescribes the minimum curriculum required under § 141.55 for each test preparation course listed in § 141.11.

2. *General requirements.*

(a) A test preparation course is eligible for approval if the Administrator determines that it is adequate for a student enrolled in that course, upon graduation, to safely exercise the privileges of the certificate, rating, or authority for which the course is conducted.

(b) Each course for a test preparation must be equivalent in scope, depth, and detail with the curriculum for the corresponding test course prescribed in Appendixes A, B, C, and D of this part. However, the number of hours of classroom instruction and flight training included in the course must meet the curriculum prescribed in this appendix. (The minimums prescribed in this appendix for each test preparation course are based upon the amount of training that is required for students who meet the total flight experience requirements prescribed in Part 61 of this chapter at the time of enrollment.)

(c) Minimum experience, knowledge, or skill requirements necessary as a prerequisite for enrollment are prescribed in the appropriate test preparation courses contained in this appendix.

3. *Flight instructor certification course.* (a) An approved course of training for a flight instructor certification course must contain at least the following:

(1) *Classroom instruction*—40 hours.

(2) *Instructor training (with instructor)*—25 hours, including—

(i) 10 hours of analysis and performance of flight training maneuvers;

(ii) 5 hours of practice ground instruction; and

(iii) 10 hours of practice flight instruction.

(b) *Credit for previous training or experience.* A student may be credited with the following training and experience acquired before his enrollment in the course.

(1) Satisfactory completion of 2 years of study on the principles of education in a college or university may be credited for 20 hours of the required 40 hours of classroom instruction prescribed in paragraph (a) (1) of this section.

(2) One year of experience as a full-time instructor in an institution of secondary or advanced education may be credited for 5 hours of the required practice ground instruction prescribed in paragraph (a) (2) of this section.

(c) *Prerequisite for enrollment.* To be eligible for enrollment each student must hold—

(1) A commercial pilot certificate;

(2) A rating for the aircraft used in the course; and

(3) An instrument rating for enrollment in an airplane instructor rating course.

4. *Additional flight instructor rating courses.* (a) An approved course of training for an additional flight instructor rating course must consist of at least the following:

(1) *Classroom instruction.* 20 hours.

(2) *Instructor training (with instructor).* 20 hours, including—

(i) 10 hours of analysis of flight training maneuvers, or, in the case of a glider instructor rating course, 10 flights in a glider; and

(ii) 10 hours of practice flight instruction, or, in the case of glider instructor rating course, 10 flights in a glider.

5. *Additional instrument rating course (airplane or helicopter).* (a) An approved training course for an additional instrument rating course must include at least the following:

(1) *Classroom instruction*—15 hours.

(2) *Flight instruction*—15 hours.

(b) *Prerequisites for enrollment.* To be eligible for enrollment each student must hold a valid pilot certificate with an instrument rating, and an aircraft rating for the aircraft used in the course.

6. *Airline transport pilot test course.*

(a) An approved training course for an airline transport pilot test course must include at least the following:

(1) *Classroom instruction*—40 hours.

(2) *Flight instruction*—25 hours, including at least 15 hours of instrument flight instruction.

(b) *Prerequisites for enrollment.* To be eligible for enrollment each student must—

(1) Hold a commercial pilot certificate with an instrument rating and a rating for the aircraft used in the course; and

(2) Meet the experience requirements of Part 61 of this chapter for the issuance of an airline transport pilot certificate.

7. *Pilot certificate, aircraft or instrument rating refresher course.* (a) An approved refresher training course for a pilot certificate, aircraft rating, or an instrument rating must contain at least the following:

(1) *Classroom instruction*—4 hours.

(2) *Flight instruction*—6 hours, which may include not more than 2 hours of directed solo or pilot in command practice.

(b) *Prerequisites for enrollment.* To be eligible for enrollment each student must hold a valid pilot certificate with ratings appropriate to the refresher course.

8. *Agricultural aircraft operations course.* (a) An approved training course for pilots

of agricultural aircraft must include at least the following:

(1) *Classroom instruction*—25 hours, including at least 15 hours on the handling of agricultural and industrial chemicals.

(2) *Flight instruction*—15 hours, which may include not more than 5 hours of directed solo practice.

(b) *Prerequisite for enrollment.* To be eligible for enrollment each student must hold a valid commercial pilot certificate with a rating for the aircraft used in the course.

9. *Rotorcraft external-load operations course.* (a) An approved training course for pilots of a rotorcraft with an external load must contain at least the following:

(1) *Classroom instruction*—10 hours.

(2) *Flight instruction*—15 hours.

(b) *Prerequisite for enrollment.* To be eligible for enrollment each student must hold a valid commercial pilot certificate with a rating for the rotorcraft used in the course.

Minimum Wages for Federal and Federally Assisted Construction

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions; Index

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decisions, Modifications and Supersedeas Decisions

Area wage determination decisions. Area Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70), containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of the Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to area wage determination decisions. Modifications and Supersedeas Decisions to Area Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original Area Wage Determination Decision.

INDEX TO AREA WAGE DETERMINATION DECISIONS AND MODIFICATIONS AS OF DECEMBER 15, 1972

There is set forth below an Index to Area Wage Determination Decisions and Modifications as published in the FEDERAL REGISTER pursuant to the Davis-Bacon and related Acts. This is the first edition of this Index and it is current through December 15, 1972. The Index lists Area Wage Determination Decisions and Modifications by State and County. An updated Index will be published on March 2, 1973, and on the first Friday of each month thereafter.

This Index is published for the convenience of the public and the Department of Labor will endeavor to keep it accurate and up-to-date. The Index is not a part of Area Wage Determination Decisions issued by the Department of Labor and in the event of conflict between the Index and published Area Decisions the published Area Decisions shall control.

ABBREVIATIONS:
(B)—Building Construction.
(D)—Dredging Construction.
(F)—Flood Control Construction.
(H)—Heavy Construction.
(Hw)—Highway Construction.
(R)—Residential Construction.
Mod.—Modification.

Signed at Washington, D.C., this 2d day of February 1973.

BEN P. ROBERTSON,
Acting Administrator,
Wage and Hour Division.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.
