Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 82—EXOTIC NEWCASTLE DISEASE; AND PSITTACOSIS OR ORNITHOSIS IN POULTRY

Areas Released From Quarantine

These amendments exclude portions of Los Angeles and San Bernardino Counties in California from the areas quarantined because of exotic Newcastle disease. Therefore, the restrictions pertaining to the interstate movement of poultry, mynah and psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles from quarantined areas, as contained in 9 CFR, part 82, as amended, will not apply to the excluded areas.

Pursuant to the provisions of sections 1, 2, 3, and 4 of the act of March 3, 1905, as amended, sections 1 and 2 of the act of February 2, 1903, as amended, sections 4, 5, 6, and 7 of the act of May 29, 1884, as amended, and sections 3 and 11 of the act of July 2, 1962 (21 U.S.C. 111, 112, 113, 115, 117, 120, 123, 124, 125, 126, 134b, 134f), part 82, title 9, Code of Federal Regulations is hereby amended in the following respects:

In § 82.3, in paragraph (a) (1) relating to the State of California, subdivision (v) relating to Los Angeles County is deleted and subdivision (iii) relating to San Bernardino and Riverside Counties is amended to read:

(a) * * *

(1) *California.* * * *

(iii) That portion of San Bernardino and Riverside Counties bounded by a line beginning at the junction of the eastern edge of U.S. Highway 395 and the northern border of Interstate Highway 10; thence, following the northern border of Interstate Highway 10 in an easterly direction to the western edge of Alabama Street; thence, following the western edge of Alabama Street in a northerly direction to the northern edge of California State Highway 30; thence, following the northern edge of California State Highway 30 in a generally northeasterly direction to the San Bernardino National Forest boundary line; thence, following the San Bernardino National Forest boundary line in an easterly, then southerly direction to the San Bernardino meridian; thence, following the San Bernardino meridian in a southerly direction to the dividing line between T. 3 S. and T. 4 S. of the San Bernardino baseline in

Riverside County; thence, following the dividing line between T. 3 S. and T. 4 S. in a westerly direction to the dividing line between R. 1 W. and R. 2 W. of the San Bernardino meridian; thence, following the dividing line between R. 1 W. and R. 2 W. in a northerly direction to the southern edge of the San Timoteo Canyon Road; thence, following the southern edge of the San Timoteo Canyon Road in a westerly, then northerly direction to the Riverside-San Bernardino County line; thence, following the Riverside-San Bernardino County line in a generally westerly direction to the eastern edge of U.S. Highway 395; thence, following the eastern edge of U.S. Highway 395 in a southwesterly, then southeasterly direction to the southern edge of Cajalco Road; thence, following the southern edge of the Cajalco Road in a westerly direction to the eastern edge of California State Highway 71; thence, following the eastern edge of California State Highway 71 in a northwesterly direction to the southern edge of California State Highway 91; thence, following the southern edge of California State Highway 91 in a southwesterly direction to the Riverside-San Bernardino County line; thence, following the Riverside-San Bernardino County line in a northerly, then easterly direction to the eastern edge of U.S. Highway 395; thence, following the eastern edge of U.S. Highway 395 in a northerly direction to its junction with the northern border of Interstate Highway 10.

(v) [Deleted]

* * * * *

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f; 37 FR 28464, 28477.)

Effective date.—The foregoing amendments shall become effective May 25, 1973.

The amendments relieve certain restrictions presently imposed but no longer deemed necessary to prevent the spread of exotic Newcastle disease, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 25th day of May 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

PART 317—LABELING, MARKING DEVICES, AND CONTAINERS

PART 318—ENTRY INTO OFFICIAL ESTABLISHMENTS; REINSPECTION AND PREPARATION OF PRODUCTS

Chitterling Product

Statement of considerations.—On January 18, 1973, there appeared in the FEDERAL REGISTER (38 FR 1746) a notice of proposed rulemaking under the Federal Meat Inspection Act, as amended (21 U.S.C. 601 et seq.) to amend the meat inspection regulations (9 CFR, pts. 317 and 318) to permit the use of chitterlings as ingredients of certain meat food products and to specify applicable labeling requirements. The proposal resulted from a petition submitted to the Department by several food preparation firms and from the interest indicated in behalf of the petition by other individuals.

A total of 20 written comments were submitted on the proposal as announced with the majority from consumers expressing personal views as to the suitability of chitterlings for human consumption and especially as ingredients of processed food. Some of the comments were obviously based on considerable knowledge about chitterlings and their history of usage in American diets.

While the comments generally contain very little new information related to the use of chitterlings as proposed, they did substantiate claims made to the Department of the importance of such products to the food supplies in several large areas of this country and to the particular consumers familiar with the various dishes that can be made with chitterlings as the principal ingredient.

Most of the comments in support of the proposal indicated implementation of its provisions would be the only way to provide purveyors with the opportunities to prepare the various types of chitterling products that are familiar to and desired by numerous consumers, while at the same time insuring that such foods are accurately identified. It was emphasized that from a practical standpoint the absence of such authority to prepare the commercial products would eliminate chitterlings from the meals of many consumers who enjoy the foods but have neither the knowledge nor means for their preparation.

A careful consideration of all comments and other available information indicates that it is in the public interest for the Department's regulations to contain provisions that provide for the production of wholesome and informatively labeled chitterling products.

Accordingly, the amendments of §§ 317.8(b) and 318.6(b)(8) are adopted as proposed (38 FR 1746, FR Doc. 73–1141), except that in § 318.6(b)(8) the words "the products are" are added after "unless" for clarification.

It does not appear that further public participation in rulemaking proceedings on the amendments would make additional information available to the Department. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that further notice and other public rulemaking procedures or amendments are impracticable and unnecessary.

The foregoing amendments shall become effective July 2, 1973.

Done at Washington, D.C., on May 25, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 12436; Amdt. 39-1654]

PART 39—AIRWORTHINESS DIRECTIVES

British Aircraft Corporation Viscount Model 810 Series Airplanes

A proposal to amend part 39 of the "Federal Aviation Regulations" to include an airworthiness directive (AD) requiring inspection of the rivets on the airsteps hinged fairing operating link for looseness and shearing, and replacement, if necessary, on BAC Viscount model 810 series airplanes, was published in the FEDERAL REGISTER on December 19, 1972, at 37 FR 27637.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No comments were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of part 39 of the "Federal Aviation Regulations" is amended by adding the following new airworthiness directive:

BRITISH AIRCRAFT CORP. Applies to Viscount model 810 series airplanes, which do not incorporate modification G.1843.

Compliance is required as indicated.

To detect loose or sheared rivets on the airsteps hinged fairing operating link, accomplish the following:

(a) Within the next 25 hours' time in service after the effective date of this AD, unless already accomplished within the last 475 hours' time in service prior to the effective date of this AD, and thereafter at intervals not to exceed 500 hours' time in service from the last inspection, inspect the ⅜-inch diameter rivets on the airsteps hinged fairing operating link for looseness and shearing.

(b) If sheared or loose rivets are found during an inspection required by paragraph (a), before further flight, either—

(1) Replace the sheared or loose rivets with serviceable rivets of the same type, that are approved for installation in the assembly, and continue to inspect in accordance with paragraph (a); or

(2) Incorporate modification G.1843, dated September 22, 1961, or an FAA-approved equivalent.

(c) The repetitive inspections required by this AD may be discontinued after modification G.1843 is incorporated.

This amendment becomes effective July 1, 1973.

Issued in Washington, D.C., on May 24, 1973.

PART 39—AIRWORTHINESS DIRECTIVES

Dowty Rotol Propellers

A proposal to amend part 39 of the "Federal Aviation Regulations" to include an airworthiness directive requiring modification to strengthen the propeller hub and hub driving center, on Dowty Rotol type (c) R186/4-30-4/16 propellers was published on December 7, 1972, in the FEDERAL REGISTER at 37 FR 26046.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No comments were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of part 39 of the "Federal Aviation Regulations" is amended by adding the following new airworthiness directive:

DOWTY ROTOL. Applies to Dowty Rotol Propellers, type (c) R186/4-30-4/16 which have not been modified in accordance with modification No. (c) VP. 2388 (rev. 3). These propellers are installed on, but not necessarily limited to, Armstrong Whitworth Argosy Type A.W. 650 Series 101 airplanes.

Compliance is required as indicated.

To prevent cracking of the propeller hub front wall, accomplish the following:

Within the next 200 hours' time in service after the effective date of this AD, or prior to the accumulation of 8,000 hours total time in service, whichever occurs later, strengthen the propeller hub and hub driving center by incorporating modification No. (c) VP.2388, revision 3, in accordance with Dowty Rotol Service Bulletin No. 61-604 (rev. 2) dated November 24, 1971, or an FAA-approved equivalent.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c).)

This amendment becomes effective July 1, 1973.

Issued in Washington, D.C., on May 24, 1973.

PART 39—AIRWORTHINESS DIRECTIVES

Rolls Royce Dart Model 542 Series Engines

A proposal to amend part 39 of the "Federal Aviation Regulations" to include an airworthiness directive requiring inspection of the engine mounting feet for cracks and loose nuts, and the engine mounting feet studs for fracture and looseness, and repair, if necessary, on Rolls Royce Dart Model 542 series engines was published on October 11, 1972, in the FEDERAL REGISTER at 37 FR 21444.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No comments were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of part 39 of the "Federal Aviation Regulations" is amended by adding the following new airworthiness directive:

ROLLS ROYCE (1971) LTD. Applies to Rolls Royce Dart Engine Models 542-4, 542-4K, 542-10, 542-10J and 542-10K. These engines are installed on, but not necessarily limited to, Convair model 340/440 (commonly known as Convair 600/640) which have the subject engines installed as a result of modification, and NAMC YS-11 airplanes.

Compliance is required as indicated.

To detect engine mounting foot cracks, and engine mounting foot stud fractures, looseness, and loose nuts, accomplish the following:

(a) Within the next 200 hours' time in service after the effective date of this AD, unless already accomplished within the last 200 hours' time in service prior to the effective date of this AD, and thereafter at intervals not to exceed 400 hours' time in service from the last inspection, inspect the engine mounting feet for cracks and the mounting feet studs for fracture, looseness, and loose nuts, in accordance with Rolls Royce Service Bulletin Da. 72-384 dated August 24, 1971, or an FAA-approved equivalent.

(b) If any engine mounting feet are found cracked or any engine mounting feet studs are found to have loose nuts, or to be loose or fractured during an inspection required by paragraph (a), before further flight, repair in accordance with Rolls Royce Service Bulletin Da. 72-384 dated August 24, 1971, or an FAA-approved equivalent.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c).)

This amendment becomes effective July 1, 1973.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 141a—PENICILLIN AND PENICILLIN-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

Procaine Penicillin-Novobiocin in Oil, Veterinary

The FEDERAL REGISTER of December 1, 1971 (36 FR 22827) included a final order based upon a proposal published in the FEDERAL REGISTER of June 18, 1971 (36 FR 11742) which provided for the revocation of provisions for certification of certain products intended for the intramammary treatment of bovine mastitis. Included in this revocation order were two combination drugs containing novobiocin. The proposal also provided that certain other products shall be permitted for 1 year within which sponsors of such products may submit new animal drug

applications and complete data to comply with the standards set by National Academy of Sciences-National Research Council as published in the FEDERAL REGISTER of April 24, 1970 (35 FR 6602).

In response to the order, the Upjohn Co., Kalamazoo, Mich. 49001., submitted a request for eligibility for certification of a drug containing procaine penicillin G and novobiocin under the interim provisions. The request was supported by adequate data to establish that milk from animals treated with the combination drug under the labeled conditions of use is safe for human consumption and that a pharmacological rationale exists for the product. In addition the firm has submitted evidence of current research underway directed toward the submission of data in compliance with NAS/NRC recommendations.

Based upon the foregoing, including a finding that when administered under its labeled conditions of use, the drug has been shown to be safe for animals and that milk taken from treated animals is safe for human consumption, the Commissioner of Food and Drugs concludes that eligibility for certification of a novobiocin-containing drug should be reinstated on the same basis as the other competing intramammary products pending completion of the studies needed to prove or disprove effectiveness. The Commissioner is publishing a notice elsewhere in this issue of the FEDERAL REGISTER, extending for 1 year the time within which to conclude the studies necessary to show the effectiveness of these intramammary infusion products.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(n), 82 Stat. 350–351; 21 U.S.C. 360b(n)) and under the authority delegated to the Commissioner (21 CFR 2.120), parts 141a and 146a are amended as follows:

1. Part 141a is amended in paragraphs (a) and (b) of § 141a.108 as follows:

§ 141a.108 Procaine penicillin-sodium novobiocin in oil, veterinary.

(a) *Potency.*—(1) *Penicillin content.*—Proceed as directed in § 141.110 using the novobiocin-resistant strain of *Staphylococcus aureus* (ATCC 12692), preparing the sample for assay as follows: Place the equivalent of one dose of the sample into a high-speed glass blender jar with 1 milliliter of polysorbate 80 and sufficient 1 percent potassium phosphate buffer, pH 6.0 (solution 1) to give a stock solution of convenient concentration. Blend 3 to 5 minutes. Further dilute an aliquot of the stock solution with solution 1 to the reference concentration of 1 unit of penicillin per milliliter (estimated).

(2) *Novobiocin content.*—Proceed as directed in § 141.110, preparing the sample for assay as follows: Place the equivalent of one dose of the sample into a high-speed glass blender jar with 1 ml of polysorbate 80 and sufficient 0.1*M* potassium phosphate buffer, pH 8.0 (solution 3) to give a stock solution of convenient concentration. Blend 3 to 5 minutes. To an aliquot of the stock solution, add 0.5 ml of penicillinase solution. Further dilute the aliquot of stock solution with 10 percent potassium phosphate buffer, pH 6.0 (solution 6) to the reference concentration of 0.5 microgram of novobiocin per milliliter (estimated). Allow to stand for one-half hour at 37° C. before filling the cylinders on the plates.

(b) *Moisture.*—Proceed as directed in § 141.502 of this chapter.

2. Part 146a is amended by adding the following new section:

§ 146a.128 Procaine penicillin G-sodium novobiocin in oil, veterinary.

(a) *Standards of identity, strength, quality, and purity.*—Procaine penicillin G-sodium novobiocin in oil, veterinary is a suspension of procaine pencillin G and sodium novobiocin in refined peanut oil, with or without one or more suitable and harmless dispersants, suspending agents and preservatives and with or without the addition of a gelling agent. It contains in each milliliter 10,000 units of procaine penicillin G and 10 mg of novobiocin. Its procaine penicillin G content is satisfactory if it contains not less than 90 percent and not more than 125 percent of the number of units of penicillin G it is represented to contain. Its novobiocin content is satisfactory if it is not less than 90 percent and not more than 125 percent of the number of milligrams of novobiocin it is represented to contain. The drug is intended for use by udder instillation and each single dose as recommended in its labeling contains not more than 100,000 units of penicillin G. Its moisture content is not more than 1 percent. The procaine penicillin G used conforms to the requirement of § 146a.44(a), except § 146a.44(a) (2), (3), and (4). The sodium novobiocin used conforms to the requirements of § 148j.1 except § 148j.1(a) (1) (ii).

(b) *Labeling.*—It shall be labeled in accordance with the requirements of § 148.3 of this chapter, except in lieu of the statement, "Caution: Federal law prohibits dispensing without prescription," each package shall include information containing directions and warnings adequate for the veterinary use of the drug by the laity.

(c) *Requests for certification; samples.*—In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(1) The results of tests and assays on:

(i) The procaine penicillin G used in making the batch for potency, moisture, pH, crystallinity, and procaine penicillin G content.

(ii) The sodium novobiocin used in making the batch for potency, loss on drying, pH, residue on ignition, specific rotation, identity, and crystallinity.

(iii) The batch for potency and moisture.

(2) Samples required:

(i) The procaine penicillin used in making the batch: 10 packages, each containing not less than 300 milligrams.

(ii) The sodium novobiocin used in making the batch, 6 packages, each containing approximately 600 ml.

(iii) The batch: A minimum of 8 immediate containers.

As this order amends the order published December 1, 1971 (36 FR 22827) by reinstating a drug combination revoked by that order, notice and public procedure and delayed effective date are not prerequisites to this promulgation.

Effective date.—This order shall become effective on June 1, 1973.

Dated May 25, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Powered Industrial Trucks, Cranes, Derricks, Portable Powered Tools, and Indoor General Storage

On September 14, 1972, a notice of proposed rulemaking was published in the FEDERAL REGISTER (37 FR 18623), inviting interested persons to submit written data, views, and arguments concerning a proposal dealing primarily with: (1) Powered industrial trucks; (2) overhead and gantry cranes; (3) portable powered tools; (4) and some less significant changes. Interested persons were also afforded an opportunity to file objections to any part of the proposal and to request a hearing on the objections.

The proposed amendments elicited numerous comments all of which have been carefully examined and considered. There were no requests for a hearing on any of the proposed amendments.

I. *Indoor general storage.*—The proposal was to revoke the standard for indoor general storage, contained in § 1910.177.

Numerous written comments were received in favor of the revocation. The comments state that the overall purpose of the standard is the protection of property and not the safety or health of employees. Some state that the amount of employee protection that would be received from compliance with the standard would only be indirect and minimal as compared with the cost of compliance.

Two objections to the proposal were received. Both objections state that some of the provisions of the standard protect the safety and health of employees as well as property.

We agree with the majority that the overall purpose of § 1910.177 is the protection of property. The source of § 1910.177 is NFPA 231-1970 (National Fire Protection Association), which is applicable to the protection of stored materials. Specifically, chapter 231.65, concerning emergency access, is addressed to the entry of the fire and police department personnel in case of fire or other emergency. This section does not consider the provision of exits for employees to leave the premises in case of fire. We believe the revocation will better effectuate the primary purpose of the Occupational Safety and Health Act by encouraging employers and employees to concentrate their efforts and resources on measures which have an immediate relationship to the safety of their workplace.

II. *Powered industrial trucks.*—A. *General requirements.*—The proposed § 1910.178(a)(1) would exempt vehicles intended primarily for over-the-road hauling.

One comment urges that the exemption be broadened to include all motor vehicles. As explained in the preamble, the proposal was to clarify the scope of paragraph (a)(1). The comment is not responsive to the proposal because it seeks, not a clarification, but the broadening of a present exemption. For this reason, it has not been accepted.

B. *Approved industrial trucks.*—The proposed § 1910.178(a)(7) defines "approved truck" or "approved industrial truck" to mean a truck that is listed for fire safety purposes for the intended use by a nationally recognized testing laboratory.

Some comments were received endorsing the proposed definition. One comment recommends adding language stating that an approved truck meets the requirements of ANSI B56.1-1969. The recommendations cannot be accepted because there is no necessary relation between approval for fire safety purposes and compliance with all the design and construction standards in ANSI B56.1-1969, which are concerned with other safety problems, such as the stability of a truck. The approval is given after testing a truck for fire safety purposes, not for compliance with all the design specifications of ANSI B56.1-1969.

C. *Truck operations.*—The proposed § 1910.178(m)(5) provides the criteria which determine when an industrial truck is unattended. It sets forth the requirements for the condition of the truck, such as requiring that the load engaging means be fully lowered. It was proposed to use a dividing distance of 50 ft for unattended and attended trucks.

The major issue concerns the distance provision. Some of the comments object to the provision on the ground that an operator would not be able to stop an

unauthorized person from operating his vehicle if he is at a distance of 50 ft from the truck. Those who allege that the 50-ft limitation is too severe, state that an operator could be at a greater distance from the vehicle and still maintain control of the truck.

After consideration of the comments, it is concluded that the proposed distance of 50 ft is too much to permit an operator of a truck to keep it under his control. Accordingly a powered industrial truck is deemed attended when the operator is off the truck if he is within 25 ft of the vehicle and this is still in his view.

III. *Overhead and gantry cranes.*—A. *Trained operators.*—The proposed §§ 1910.179(b)(8), 1910.180(b)(3), and 1910.181(b)(3) would require that only trained and authorized operators be permitted to operate a crane.

Some comments were received which support the requirement for trained and authorized operators. Numerous comments were received which object to the proposals. These state that the terms "trained" and "authorized" are ambiguous because they are not defined. Even comments that support the proposal recommend that the two terms be defined or that criteria be established for training and qualifying operators. The adopted standard has been clarified to meet the objections of vagueness.

B. *Bridge and trolley bumpers.*—The proposed §§ 1910.179(e)(2) and 1910.179(e)(3) would require a crane to have trolley and bridge bumpers or some other automatic means of equivalent effect capable of stopping the crane at specified rates of deceleration.

Several persons object to the proposal on the ground that bridge and trolley bumpers are not necessary for all cranes. It is contended that some cranes do not need to be equipped with bumpers due to their slow rate of travel. At least two comments point out that some cranes are seldom used near the ends of bridge and trolley travel, and therefore bumpers are unnecessary.

The contentions have merit and the adopted standard has been modified accordingly.

IV. *Guarding of portable powered tools.*—A. *Portable powered tools.*—The proposed § 1910.243(a)(1) would require that all portable power-driven circular saws, with a blade diameter greater than 2 inches, be equipped with guards above and below the base plate or shoe which meet the specified requirements.

Several persons, representing the meat industry, object that the guarding requirements should not be applicable to circular saws used in the meat industry. It is contended that meat saws are not adaptable to the retracting guarding devices because the meat has irregular surfaces of varying resistance which are often not positioned for activating such a guard. Several comments point out that the use of such a guard could cause contamination of the meat products because of the difficulties involved in cleaning the guard. It is contended that meat saws without guards are more easily sanitized.

Comments objecting to the proposal also argue that the meat saws are not actually portable because they are suspended by cables and counterbalanced from a fixed station. It is contended that an operator has to use both hands to operate most meat saws, and this reduces the possibility of injury. It is pointed out that the guard would interfere with the meat-cutting process since the operator must be able to see and guide the blade at all times because of the varying surfaces of the meat product. The comments state that guards for meat-cutting saws are being developed to meet the specific needs of the meat industry.

The contentions of the meat industry are accepted. The adopted standards exempts circular saws used for meat-cutting purposes.

B. *Switches.*—(1) *Constant pressure switch.*—The proposed § 1910.243(a)(2)(i) would require all hand-held powered circular saws with a blade diameter greater than 2 inches, chain saws, and percussion tools to be equipped with a constant pressure switch.

Objections point out that the requirement of a constant pressure switch is applicable to electric chain saws but is impractical for gasoline powered chain saws. It is stated that gasoline powered chain saws use a throttle control which performs the same function as a constant pressure switch on an electric chain saw. Thus, when the throttle is released the chain stops and the engine continues to idle. It is argued that, if a constant pressure switch is required on a gasoline powered chain saw, the gasoline engine would have to be restarted each time the pressure switch is released, and this could increase the possibility of injury to the operator.

It is concluded that the throttle on a gasoline chain saw is of constant pressure type which serves the same function as the constant pressure switch on an electric chain saw. The adopted standard has been modified in accordance with the comments.

(2) *Momentary contact "on-off" control and positive "on-off" control.*—Several comments were received with respect to the proposed switch requirements in § 1910.243(a)(2)(ii) and (iii). The comments point out that the proposed requirements for positive on-off controls is confusing in that it could be interpreted that these are the only kind of controls required for the specified class of tools. One comment states that the term "momentary contact 'on-off' switch" is misleading since it could be interpreted to imply that constant pressure control is not necessary. The comments indicate that there may be some confusion as to the intent and meaning of the proposal. Therefore, the adopted standards have been clarified in accordance with the comments. Several persons object to the proposal with respect to percussion tools on the ground that the proposal is more restrictive for general industry than the similar requirement for percussion tools used in the construction industry. It is pointed out that the use of a tool retainer on a percussion tool removes the hazard that would otherwise necessitate the use of a constant pressure switch. It is recommended that only percussion tools without positive accessory holding means be required to have constant pressure switches as is required for such tools in the construction standard in 29 CFR 1926.300.

The contentions have merit and the adopted standard has been conformed to § 1926.300.

3. *Operating control.*—The proposed § 1910.243(a)(2)(iv) would require that the operating control in hand-held power tools be located so as to minimize the possibility of its accidental operation.

Comments were received which contend that the proposal should apply only to those powered tools which present a hazard to employees from accidental turn on. At least one comment states that the hazards of accidental turn on exists only for certain types of tools. The contentions have merit and the adopted standards have been limited in accordance with the suggestions.

C. *Portable abrasive wheels.*—The proposed § 1910.243(c)(1)(i) specifies the classes of wheels and conditions of use that are excepted from the safety guard requirements of § 1910.243(c)(1). Several comments state that there is some confusion as to what tools are included in the definition of abrasive wheels. One comment contends that the surface being ground with a disc sander shields the operator from exposure to the abrasive surface. It is contended that there is no practical method for mounting a safety guard on a disc sander without rendering it useless for its intended purpose. It is recommended that an exception for disc sanders be added to the standard in order to clarify that the requirements do not apply to disc sanders.

One comment recommends that type 6, 11, 27, and 28 abrasive wheels, cutting off wheels and tuck pointing wheels be permitted to have the spindle end, nut and outer flange exposed. It is contended that requiring guarding of the type specified in the proposal would render machines designed for the use of these types of wheels unusable.

The recommendations with respect to disc sanders and abrasive wheels are accepted and the adopted standard on safety guarding does not apply to them.

The issues discussed above are believed to be the most significant issues raised in this rulemaking proceeding.

Accordingly, after consideration of all materials presented and pursuant to section 6(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593; 29 U.S.C. 655), Secretary of Labor's Order No. 12–71 (36 FR 8754), and 29 CFR part 1911, part 1910 of title 29 of the Code of Federal Regulations is amended as set forth below.

Effective date.—These amendments shall become effective July 31, 1973, except the revocation of § 1910.177, which shall be effective on June 1, 1973.

Signed at Washington, D.C. this 29th day of May, 1973.

JOHN STENDER,
Assistant Secretary of Labor.

§ 1910.177 [Revoked]

1. Section 1910.177 is revoked.

2. Section 1910.178 is amended by revising paragraphs (a)(1), (a)(7), and (m)(5), to read as follows, and by revoking paragraph (m)(13):

§ 1910.178 Powered industrial trucks.

(a) *General requirements.*—(1) This section contains safety requirements relating to fire protection, design, maintenance, and use of fork trucks, tractors, platform lift trucks, motorized hand trucks, and other specialized industrial trucks powered by electric motors or internal combustion engines. This section does not apply to compressed air or nonflammable compressed gas-operated industrial trucks, nor to farm vehicles, nor to vehicles intended primarily for earth moving or over-the-road hauling.

* * * * *

(7) As used in this section, the term, "approved truck" or "approved industrial truck" means a truck that is listed or approved for fire safety purposes for the intended use by a nationally recognized testing laboratory, e.g., Underwriters Laboratories, Inc.; Factory Mutual Engineering Corp., using nationally recognized testing standards.

* * * * *

(m) *Truck operations* * * *

(5)(i) When a powered industrial truck is left unattended, load engaging means shall be fully lowered, controls shall be neutralized, power shall be shut off, and brakes set. Wheels shall be blocked if the truck is parked on an incline.

(ii) A powered industrial truck is unattended when the operator is 25 ft or more away from the vehicle which remains in his view, or whenever the operator leaves the vehicle and it is not in his view.

(iii) When the operator of an industrial truck is dismounted and within 25 ft of the truck still in his view, the load engaging means shall be fully lowered, controls neutralized, and the brakes set to prevent movement.

* * * * *

(13) [Revoked]

* * * * *

3. Section 1910.179 is amended by adding a new paragraph (b)(8) and by revising paragraphs (e)(2) and (3), to read as follows:

§ 1910.179 Overhead and gantry cranes.

* * * * *

(b) *General requirements.* * * *

(8) *Designated personnel.*—Only designated personnel shall be permitted to operate a crane covered by this section.

* * * * *

(e) *Stops, bumpers, rail sweeps, and guards.* * * *

(2) *Bridge bumpers.*—(i) A crane shall be provided with bumpers or other automatic means providing equivalent effect, unless the crane travels at a slow rate of speed and has a faster deceleration rate due to the use of sleeve bearings, or is not operated near the ends of bridge and trolley travel, or is restricted to a limited distance by the nature of the crane operation and their is no hazard of striking any object in this limited distance, or is used in similar operating conditions. The bumpers shall be capable of stopping the crane (not including the lifted load) at an average rate of deceleration not to exceed 3 ft/s/s when traveling in either direction at 20 percent of the rated load speed.

(A) The bumpers shall have sufficient energy absorbing capacity to stop the crane when traveling at a speed of at least 40 percent of rated load speed.

(B) The bumper shall be so mounted that there is no direct shear on bolts.

(ii) Bumpers shall be so designed and installed as to minimize parts falling from the crane in case of breakage.

(3) *Trolley bumpers.*—(i) A trolley shall be provided with bumpers or other automatic means of equivalent effect, unless the trolley travels at a slow rate of speed, or is not operated near the ends of bridge and trolley travel, or is restricted to a limited distance of the runway and there is no hazard of striking any object in this limited distance, or is used in similar operating conditions. The bumpers shall be capable of stopping the trolley (not including the lifted load) at an average rate of deceleration not to exceed 4.7 ft/s/s when traveling in either direction at one-third of the rated load speed.

(ii) When more than one trolley is operated on the same bridge, each shall be equipped with bumpers or equivalent on their adjacent ends.

(iii) Bumpers or equivalent shall be designed and installed to minimize parts falling from the trolley in case of age.

* * * * *

4. Section 1910.180 is amended by adding a new subparagraph (3) to paragraph (b), reading as follows:

§ 1910.180 Crawler locomotive and truck cranes.

* * * * *

(b) *General requirements.* * * *

(3) *Designated personnel.*—Only designated personnel shall be permitted to operate a crane covered by this section.

* * * * *

5. Section 1910.181 is amended by adding a new subparagraph (3) to paragraph (b), reading as follows:

§ 1910.181 Derricks.

* * * * *

(b) *General requirements.* * * *

(3) *Designated personnel.*—Only designated personnel shall be permitted to operate a derrick covered by this section.

* * * * *

6. In § 1910.243, paragraph (a) is amended by revising subparagraphs (1), (2), and (5) to read as follows:

§ 1910.243 Guarding of portable powered tools.

(a) *Portable powered tools.*—(1) *Portable circular saws.*—(i) All portable, power-driven circular saws having a blade diameter greater than 2 in shall be equipped with guards above and below the base plate or shoe. The upper guard shall cover the saw to the depth of the teeth, except for the minimum arc required to permit the base to be tilted for bevel cuts. The lower guard shall cover the saw to the depth of the teeth, except for the minimum arc required to allow proper retraction and contact with the work. When the tool is withdrawn from the work, the lower guard shall automatically and instantly return to covering position.

(ii) Paragraph (a)(1)(i) of this section does not apply to circular saws used in the meat industry for meat cutting purposes.

(2) *Switches and controls.*—(i) All hand-held powered circular saws having a blade diameter greater than 2 inches, electric, hydraulic or pneumatic chain saws, and percussion tools without positive accessory holding means shall be equipped with a constant pressure switch or control that will shut off the power when the pressure is released. All hand-held gasoline powered chain saws shall be equipped with a constant pressure throttle control that will shut off the power to the saw chain when the pressure is released.

(ii) All hand-held powered drills, tappers, fastener drivers, horizontal, vertical, and angle grinders with wheels greater than 2 inches in diameter, disc sanders with discs greater than 2 inches in diameter, belt sanders, reciprocating saws, saber, scroll, and jig saws with blade shanks greater than a nominal one-fourth inch, and other similarly operating powered tools shall be equipped with a constant pressure switch or control, and may have a lock-on control provided that turnoff can be accomplished by a single motion of the same finger or fingers that turn it on.

(iii)(A) All other hand-held powered tools, such as, but not limited to, platen sanders, grinders with wheels 2 inches in diameter or less, disc sanders with discs 2 inches in diameter or less, routers, planers, laminate trimmers, nibblers, shears, saber, scroll, and jig saws with blade shanks a nominal one-fourth of an inch wide or less, may be equipped with either a positive "on-off" control, or other controls as described by paragraph (a)(2)(i) and (ii) of this section.

(B) Saber, scroll, and jig saws with nonstandard blade holders may use blades with shanks which are nonuniform in width, provided the narrowest portion of the blade shank is an integral part in mounting the blade.

(C) Blade shank width shall be measured at the narrowest portion of the blade shank when saber, scroll, and jig saws have nonstandard blade holders.

(D) "Nominal" in this subparagraph means ±0.05 inch.

(iv) The operating control on hand-held power tools shall be so located as to

minimize the possibility of its accidental operation, if such accidental operation would constitute a hazard to employees.

(v) This subparagraph does not apply to concrete vibrators, concrete breakers, powered tampers, jack hammers, rock drills, garden appliances, household and kitchen appliances, personal care appliances, medical or dental equipment, or to fixed machinery.

* * * * *

(5) *Grounding.*—Portable electric powered tools shall meet the electrical requirements of subpart S of this part.

* * * * *

7. Section 1910.243 is further amended by revising paragraphs (b)(1), (c)(1)(i), and (c)(1)(ii)(C), and adding a new paragraph (c)(6) reading as follows:

§ 1910.243 Guarding of portable powered tools.

* * * * *

(b) *Pneumatic powered tools and hose*—(1) *Tool retainer.*—A tool retainer shall be installed on each piece of utilization equipment which, without such a retainer, may eject the tool.

(2) *Airhose.*—Hose and hose connections used for conducting compressed air to utilization equipment shall be designed for the pressure and service to which they are subjected.

(c) *Portable abrasive wheels.*—(1) *General requirements.*—Abrasive wheels shall be used only on machine provided with safety guards as defined in paragraph (c) (1) through (4) of this section.

(i) *Exceptions.*—The requirements of this subparagraph (1) shall not apply to the following classes of wheels and conditions:

(A) Wheels used for internal work while within the work being ground;

(B) Mounted wheels used in portable operations 2 inches and smaller in diameter; (see definition § 1910.241(b)(1)); and

(C) Types 16, 17, 18, 18R, and 19 cones, and plugs, and threaded hole pot balls where the work offers protection.

(ii)(A) A safety guard shall cover the spindle end, nut and flange projections. The safety guard shall be mounted so as to maintain proper alignment with the wheel, and the strength of the fastenings shall exceed the strength of the guard.

(B) *Exception.*—Safety guards on all operations where the work provides a suitable measure of protection to the operator may be so constructed that the spindle end, nut and outer flange are exposed. Where the nature of the work is such as to entirely cover the side of the wheel, the side covers of the guard may be omitted.

(C) *Exception.*—The spindle end, nut, and outer flange may be exposed on portable machines designed for, and used with, type 6, 11, 27, and 28 abrasive wheels, cutting off wheels, and tuck pointing wheels.

* * * * *

(6) *Excluded machinery.*—Natural sandstone wheels and metal, wooden, cloth, or paper discs, having a layer of abrasive on the surface are not covered by this paragraph.

* * * * *

8. Section 1910.243 is further amended by revoking paragraph (e)(2)(vi), by adding a new paragraph (e)(3)(vii), and by revising paragraphs (e)(3)(iii) and (e)(4)(vi) to read as follows:

§ 1910.243 Guarding of portable powered tools.

* * * * *

(e) *Power lawnmowers.* * * *

(2) *Walk-behind and riding rotary mowers.* * * *

(vi) [Revoked]

* * * * *

(3) *Walk-behind rotary mowers.* * * *

(iii) The highest point(s) of the front of the blade enclosure, except discharge openings, shall be such that any line extending a maximum of 15° downward from the horizontal toward the blade shaft axis (axes) shall not intersect the horizontal plane within the blade tip circle. The highest point(s) on the blade enclosure front, except discharge-openings, shall not exceed 1¼ inches above the lowest cutting point of the blade in the lowest blade position. Mowers with a swingover handle are to be considered as having no front in the blade enclosure and therefore shall comply with subparagraph (2)(i) of this paragraph.

* * * * *

(vii) Wheel drive disengaging controls, except deadman controls, shall move opposite to the direction of the vehicle motion in order to disengage the drive. Deadman controls shall comply with § 1910.241(c)(11) and may operate in any direction to disengage the drive.

(4) *Riding rotary mowers.* * * *

(vi) Hand-operated wheel drive disengaging controls shall move opposite to the direction of vehicle motion in order to disengage the drive. Foot-operated wheel drive disengaging controls shall be depressed to disengage the drive. Deadman controls, both hand and foot operated, shall comply with § 1910.241(c)(11) and may operate in any direction to disengage the drive.

Title 32—National Defense

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

SUBCHAPTER B—SALES AND SERVICES

PART 812—USER CHARGES

Full Cost Recovery

This update clarifies the intent that fees prescribed by Air Force directives are designed to insure recovery of full costs and implements the requirement and the factors for acceleration of the standard rates for military pay and allowances for user charges transactions with non-Federal activities when full reimbursement is appropriate.

Part 812, subchapter B, chapter VII of title 32 of the Code of Federal Regulations is amended as follows:

1. Section 812.1 is revised to read as follows:

§ 812.1 Purpose.

(a) This part prescribes general policy for developing an equitable and uniform system of charges for rendering certain Government services and for selling or leasing property to persons or organizations outside the Federal Government.

(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

2. Section 812.3 is revised to read as follows:

§ 812.3 Establishing fees and determining costs for special services.

(a) *Establishing fees to recover costs.*—Fees prescribed by Air Force directives are designed to insure recovery of full costs, including those listed in paragraph (b) of this section. Unless otherwise prescribed by Air Force directives, establish fees in advance when feasible under the policies and procedures of this part. Establish the fee for a special service as the total cost or fair market value, whichever is higher. Review fees and rates at least once a year, or whenever significant changes in costs occur, and adjust the fees to insure recovery of full costs.

(b) *Determining costs.*—Determine or estimate costs from the best available records in the activity; do not establish cost accounting systems solely for this purpose. The cost computation covers the direct and indirect costs incurred by the activity performing the service. This includes but is not limited to:

(1) Gross civilian salaries (also include holiday, annual, and sick leave entitlements), and the Air Force share of retirement, medical expenses, insurance, etc.

(2) Military pay and allowances at accelerated-standard rates (see paragraph (c) of this section).

(3) Travel expense.

(4) Cost of fee collection and postage.

(5) Material and supplies used.

(6) Maintenance and operation of buildings and equipment (including depreciation).

(7) A pro rata share of the management and supervisory costs of the activity performing the service.

(8) The costs of research, establishing standards, enforcement, and regulation to the extent they are properly chargeable to the services performed.

(9) Cost of communications, utilities, equipment, and property rental.

(c) *Accelerated-standard military rates.*—Rates for military pay and allowances are prescribed in AFM 177–101, part 5, chapter 2. The standard rates apply for use within the Department of Defense and for reimbursements from other Federal agencies. In user charges transactions with non-Federal activities when full reimbursement is appropriate, the standard rates must be increased to recover a portion of the costs of military

personnel benefits which are not included in the standard rates. This is accomplished by applying acceleration factors or accrual rates to the composite standard rates. These rates and their applicability are as follows:

(1) *Retirement entitlement accrual rate.*—This rate is 17 percent for officers and enlisted personnel. It applies to all non-Federal reimbursable transactions.

(2) *Other personnel costs accrual rate.*—This rate is 7.5 percent for officers and 23 percent for enlisted personnel. It provides for a portion of the quarters, subsistence, medical, and other personnel costs. It applies to all non-Federal reimbursable transactions.

(3) *Leave and holiday accrual rate.*—This rate is 20 percent for officers and enlisted personnel. It applies only when reimbursements are based on time actually worked, which usually occurs when military personnel perform reimbursable services on a part-time basis.

(10 U.S.C. 8012.)

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

Postal Contracting Manual

Notice is hereby given that the Postal Contracting Manual, publication 41 (see 39 CFR part 601), has been amended by the issuance of transmittal letter 10, dated March 1, 1973.

This notice is given pursuant to §601.105 of title 39, Code of Federal Regulations, which provides that notice of changes made in the Postal Contracting Manual will be periodically published in the FEDERAL REGISTER; that the text of such changes will be filed with the Director, Office of the Federal Register; and that subscribers to the basic manual will receive amendments from the Government Printing Office. (For other availability of the Postal Contracting Manual, see 39 CFR 601.104.)

Amendments of the Postal Contracting Manual accompanying transmittal letter 10 were filed with the Director, Office of the Federal Register, simultaneously with the filing of this document.

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Ethephon

Two petitions (PP 3F1344 and 3F1353) were filed by Amchem Products, Inc., Ambler, Pa. 19002, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances for residues of the plant regulator ethephon ((2-chloroethyl)phosphonic acid) in or on cranberries at 6 parts per million (PP 3F1353) and filberts and walnuts at 0.5 part per million (PP 3F1344).

Subsequently, the petitioner amended PP 3F1353 by reducing the proposed tolerance for ethephon residues in or on cranberries to 5 parts per million.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The plant regulator is useful for the purpose for which the tolerances are being established.

2. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, and § 180.6(a)(3) applies.

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), § 180.300 is amended by adding two new paragraphs "5 parts per million * * *" and "0.5 part per million * * *", as follows:

§ 180.300 **Ethephon; tolerances for residues.**

* * * * *

Five parts per million in or on cranberries.

* * * * *

One-half part per million in or on filberts and walnuts.

* * * * *

Any person who will be adversely affected by the foregoing order may at any time on or before July 2, 1973, file with the Hearing Clerk, Environmental Protection Agency, room 3902A, Fourth and M Streets SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date.—This order shall become effective on June 1, 1973.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2).)

Dated May 24, 1973.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 221—SERVICE PROGRAMS FOR FAMILIES AND CHILDREN AND FOR AGED, BLIND, OR DISABLED INDIVIDUALS: TITLES I, IV (PARTS A AND B), X, XIV, AND XVI OF THE SOCIAL SECURITY ACT

Miscellaneous Amendments

Part 221 of chapter II of title 45 of the Code of Federal Regulations is amended for the purpose of clarifying that potential aged, blind, and disabled recipients are eligible for services relating to the goal of self-sufficiency: that a $30 income disregard applies to potential AFDC recipients; and that potential recipients in all categories are eligible for services if (in addition to meeting the income test), they have nonexempt resources which, if converted to cash, would not meet their needs beyond a 6-month period of time. Minor technical changes are also included.

Notice of proposed rulemaking has been dispensed with since these are minor changes aimed at clarifying and removing possible inconsistencies in the regulations as published.

1. Part 221 of chapter II, title 45 of the Code of Federal Regulations is amended by revising §§ 221.6(c)(3) (i) and (ii) and 221.8(a)(2) as set forth below:

§ 221.6 **Services to additional families and individuals.**

(a) If a State elects to provide services for additional groups of families or individuals, the State plan must identify

such groups and specify the services to be made available to each group.

(b) If a service is not included for recipients of financial assistance under the State plan, it may not be included for any other group.

(c) The State may elect to provide services to all or to reasonably classified subgroups of the following:

(1) Families and children who are current applicants for financial assistance under title IV–A.

(2) Families and individuals who have been applicants for or recipients of financial assistance under the State plan within the previous 3 months, but only to the extent necessary to complete provision of services initiated before withdrawal or denial of the application or termination of financial assistance.

(3) Families and individuals who are likely to become applicants for or recipients of financial assistance under the State plan within 6 months, i.e., those who:

(i) (A) with respect to title IV–A, have gross monthly income which, after deducting $30, (*1*) does not exceed 150 percent of the State's financial assistance payment standard; or (*2*) with respect to eligibility for day-care services, does not exceed the maximum allowable under the State's schedule of fees to be paid for such services by otherwise eligible families, as contained in the State's approved plan; or

(B) With respect to title I, X, XIV, or XVI, have gross monthly income which does not exceed 150 percent of the combined total of the supplementary security income benefit level provided for under title XVI of the act (as amended by Public Law 92–603) and the State supplementary benefit level (if any); and

(ii) Have nonexempt resources which in the reasonable judgment of the agency, when converted to cash, would not meet the needs of the families and individuals at the level of the State's financial assistance payment standard or under the amended title XVI, if applicable, beyond a 6-month period of time; and

* * * * *

§ 221.8 Program control and coordination.

The State agency must establish procedures and maintain documentation (including the aggregation and assimilation of data) to substantiate that Federal financial participation under the State's family services or adult services program is claimed only for services which:

(a) Support attainment of the following goals:

(1) *Self-support goal.*—To achieve and maintain the feasible level of employment and economic self-sufficiency. (Not applicable to the aged under the adult services program.)

(2) *Self-sufficiency goal.*—In the case of recipients of financial assistance under title IV–A and all eligible individuals under the adult services program, to achieve and maintain personal independence and self-determination.

(b) Are provided to recipients who have been determined and redetermined to be eligible in accordance with the applicable provisions.

(c) Are evaluated at least once every 6 months to assure their effectiveness in helping a family or individual to achieve the goal toward which services are directed.

(d) Are not available without cost to the State agency.

2. Section 221.5(b)(2) of such part 221 is revised by inserting a comma after "legal services".

3. Section 221.54(a) and (b)(1) of such part 221 is revised to read as set forth below:

§ 221.54 Rates and amounts of Federal financial participation.

(a) Federal financial participation for service costs identified in § 221.52 is available at the 75-percent rate, except that under title IV–A, the rate for family planning services is 90 percent and the rate for emergency assistance in the form of services is 50 percent: *Provided,* The State plan is approved as meeting the requirements of subpart A of this part under this provision:

(1) Federal financial participation at the specified rates includes:

(i) Salary, fringe benefits and travel costs of service workers and their supervisors giving full time to services and for staff entirely engaged (either at the State or local level) in developing, planning, and evaluating services;

(ii) Salary costs of service-related staff, such as supervisors, clerks, secretaries, and stenographers, which represent that portion of the time spent in supporting full-time service staff; and

(iii) All indirect costs which have been allocated in accordance with an approved cost allocation plan and with the requirements of OMB Circular A–87.

(2) Federal financial participation at the 50-percent rate is available for:

(i) Salary, fringe benefits, and travel cost of workers carrying responsibility for both services and assistance payments functions and supervisory costs related to such workers;

(ii) Salary costs of related staff, such as administrators, supervisors, clerks, secretaries, and stenographers, which represent that portion of the time spent in supporting staff carrying responsibility for both services and assistance payments functions; and

(iii) All indirect costs which have been allocated in accordance with an approved cost allocation plan and with the requirements of OMB Circular A–87.

(b) *Federal financial participation for purchased services.*—(1) Federal financial participation is available at the rates specified in paragraph (a) of this section in expenditures for purchase of service under the State plan to the extent that payment for purchased services is in accordance with rates of payment established by the State which do not exceed the amounts reasonable and necessary to assure quality of service and, in the case of services purchased from other public agencies, the cost reasonably assignable to such services, provided the services are purchased in accordance with the requirements of this part.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19666; FCC 73–559]

PART 73—RADIO BROADCAST SERVICES

Television Broadcast Stations in Ithaca, N.Y.

Report and order. In the matter of amendment of § 73.606(b), table of assignments, television broadcast stations. (Ithaca, N.Y.), docket No. 19666.

1. The Commission on its own motion issued a notice of proposed rulemaking in the above entitled matter, released January 8, 1973, FCC 73–21, 38 FR 1516, which proposed substituting channel *65 for channel *14 at Ithaca, N.Y., filing deadlines for comments and reply comments were February 20, 1973, and March 2, 1973, respectively.

2. Supporting comments were filed by the Land Mobile Communications Council and the American Automobile Association, Inc., in which both favor the Commission's proposal to provide the most efficient shared use of channel 14 in New York City by the land mobile service. Comments in opposition to the Commission's proposal were received from the Association of Maximum Service Telecasters, Inc., which avers that no adequate showing has been made for the substitution.

3. Channel 14 was selected for use by land mobile stations in the New York urbanized area when the Commission permitted sharing of the lower seven UHF television broadcast channels, channels 14–20, in the top 10 urbanized areas (docket No. 18261). The instant Commission proposal is not a new sharing proposal for New York City, instead it merely removes one of the limits imposed on sharing of channel 14 by the land mobile service. In selecting the 2 channels to be shared in each of the top 10 markets, the primary factor in the choice was that, under the interference standards adopted, the channels to be shared by the land mobile stations would be the least restricted. On this basis channels 14 and 15 were selected for the New York City urbanized area. However, because this area lies in a saturated zone of television broadcast assignments, even channels 14 and 15 were not without

restriction but were the best choices of the lower seven UHF television channels. The Commission's proposal to substitute channel *65 for channel *14 at Ithaca, N.Y., would remove one of the severe restrictions on the use of channel 14 by the land mobile services in the New York urbanized area.

4. Accordingly, in order to alleviate the problems of restricted use of channel 14 by land mobile stations in the New York urbanized area where available frequencies in the land mobile service are in critically short supply, the Commission believes it is in the public interest to adopt the proposal set forth in its notice of proposed rulemaking without modification which proposed substituting channel *65 for channel *14 at Ithaca, N.Y.

5. Accordingly, pursuant to authority contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended: *It is ordered*, That effective July 6, 1973, the table of assignments in § 73.606(b) of the Commission's rules and regulations is amended, insofar as the community listed below is concerned to read as follows:

City:	Channel No.
Ithaca, N.Y.	52, *65

6. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307.)

Adopted May 23, 1973.

Released May 25, 1973.

[SEAL] BEN F. WAPLE,
Secretary.

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Imperial National Wildlife Refuge, Ariz. and Calif.; Correction

In FR Doc. 73-2306, appearing on page 3515 of the issue for Wednesday, February 7, 1973, under special conditions, two others are added and should read as follows:

§ 28.28 **Special regulations; public access, use, and recreation; for individual wildlife areas.**

ARIZONA AND CALIFORNIA

* * * * *

IMPERIAL NATIONAL WILDLIFE REFUGE

(h) Water skiing is permitted only on certain sections of the main stream (channel) of the Colorado River where designated by signs. In general, these open areas are the main stream of the Colorado River in the Martinez and Ferguson Lakes area and adjacent to the Picacho State Recerational Area. Backwaters are closed to water skiing.

(i) Camping; i.e., overnight camping, is prohibited. It has been determined that camping is detrimental to the accomplishment of refuge wildlife ecological objectives.

PART 28—PUBLIC ACCESS, USE AND RECREATION

Rachel Carson National Wildlife Refuge, Maine

The following special regulation is issued and is effective June 1, 1973 through December 31, 1973.

§ 28.28 **Special regulations; recreation; for individual wildlife refuge areas.**

MAINE

RACHEL CARSON NATIONAL WILDLIFE REFUGE

Entry by foot is permitted only during daylight hours for the purpose of nature study, wildlife observation, photography, and clamming.

No motor vehicle of any kind is permitted on the refuge. Open fires are prohibited, however portable, back-packing type stoves may be used. Pets are permitted if on a leash not over 10 feet in length.

The possession of any drugs or substances, or immediate precursors, identified in schedules I, II, III, IV, or V of the Controlled Substances Act, 21 USC 812, or any drugs or substances added to these schedules pursuant to the terms of the act, is prohibited on the refuge, unless such drugs or substances were obtained in accordance with law. Presence in the refuge when under the influence of a controlled substance to a degree that may endanger oneself, or another person, or property, or may cause unreasonable interference with another person's enjoyment of the refuge, is prohibited.

Information about the refuge is available from the Refuge Manager, Parker River National Wildlife Refuge, Newburyport, Mass. 01950, or from the Regional Director, Bureau of Sport Fisheries and Wildlife, John W. McCormack Post Office and Courthouse, Boston, Mass. 02109.

The above regulations supplement those set forth in title 50, Code of Federal Regulations, § 28.28, and are effective through December 31, 1973.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 588]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period June 3-June 9, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.888 **Lemon Regulation 588.**

(a) *Findings.*—(1) Pursuant to the marketing agreement, as amended, and order No. 910, as amended (7 CFR, pt. 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available infomation, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons should be about normal, in spite of the loss of the Holiday sales day, if the weather is favorable. The demand pattern for sizes remains unchanged from last week. Supplies in auction markets are adequate for both this week and next. Average f.o.b. price was $4.90 per carton the week ended May 26, 1973, compared to $4.94 per carton the previous week. Track and rolling supplies at 173 cars were unchanged from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the

quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 29, 1973.

(b) *Order.*—(1) The quantity of lemons grown in California and Arizona which may be handled during the period June 3, 1973, through June 9, 1973, is hereby fixed at 300,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated May 31, 1973.

Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lime Reg. 1]

PART 911—LIMES GROWN IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida limes that may be shipped to fresh market during the weekly regulation period June 3–June 9, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 911. The quantity of limes so fixed was arrived at after consideration of the total available supply of Florida limes, the quantity currently available for market, lime prices, and the relationship of season average returns to the parity price for Florida limes.

§ 911.401 Lime Regulation 1.

(a) *Findings.*—(1) Pursuant to the marketing agreement, as amended, and order No. 911, as amended (7 CFR, pt. 911; 37 FR 10497), regulating the handling of limes grown in Florida; effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of limes that may be marketed during the ensuing week stems from the production and marketing situation confronting the Florida lime industry.

(i) The committee has submitted its recommendation with respect to the quantity of limes which it deems advisable to be handled during the succeeding week. Such recommendation results from consideration of the factors enumerated in the order. The committee further reports the fresh market demand for limes is fair, even though the weather has been cool and rainy. The supply of fresh limes available is greater than markets require next week because of rapidly increasing harvests. Fresh shipments for the weeks ended May 26, 1973, and May 19, 1973, were 22,487 and 17,587 bushels, respectively.

(ii) Having considered the recommendation and information submitted by the committee, and other available information the Secretary finds that the quantity of limes which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Florida limes, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such limes; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 29, 1973.

(b) *Order.*—(1) The quantity of limes grown in Florida which may be handled during the period June 3, 1973, through June 9, 1973, is hereby fixed at 22,000 bushels.

(2) As used in this section, "handled" and "limes" have the same meaning as when used in said amended marketing agreement and order, and "bushel" means 55 pounds of limes.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated May 31, 1973.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 72–170R]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

New River and South Fork of New River, Fla.

This amendment changes the regulations for the Davie Boulevard Bridge, mile 0.9, South Fork of the New River, Fort Lauderdale to lessen the periods during the morning and evening rush-hour vehicular traffic periods during which the draw may remain closed to the passage of vessels. It also extends the periods from November 15, through May 15, to a year-round coverage. This amendment was circulated as a public notice dated September 8, 1972, by the Commander, Seventh Coast Guard District, and was published in the FEDERAL REGISTER as a notice of proposed rulemaking (CGD 72–170P) on August 30, 1972 (37 FR 17561). Seven comments were received. Two supported the proposal. One asked that a public hearing be held. Four opposed the proposal. Three objected because they felt the present regulations are adequate. One objected to the proposal because he felt the present

regulations are adequate but stated that if a change was initiated, dolphins should be provided for waiting vessels to tie to. The Coast Guard concludes that this change serves the interest of navigation since it reduces the overall restriction governing closed periods for this bridge.

Accordingly, part 117 of title 33 of the Code of Federal Regulations is amended by revising paragraph (b) of § 117.446c to read as follows:

§ 117.446c New River and South Fork of New River, Fort Lauderdale, Fla.; bridges.

* * * * *

(b) *Southwest 12th Street Bridge across South Fork of New River, mile 0.9.*—(1) The draw shall open on signal except than from 7:30 a.m., to 8:30 a.m., and 4:30 p.m., to 5:30 p.m., Monday through Friday, the draw need not open for the passage of vessels.

(2) The draws shall open at any time for the passage of public vessels of the United States, tugs with tows, regularly scheduled cruise boats and vessels in distress. The opening signal from these vessels shall be 4 blasts of a whistle, horn, other sound producing device or by shouting.

PART 127—SECURITY ZONES

Hampton Roads, James River, Newport News, Virginia; establishment

This amendment to the Coast Guard's "Security Zone Regulations" establishes the waters of the James River in the area of the Newport News Shipbuilding and Drydock Co., Newport News, Va., as a security zone. This security zone is established to prevent interference with the launching of the submarine *L. Mendel Rivers* at the Newport News Shipbuilding and Drydock Co., Newport News, Va.

This amendment is issued without publication of a notice of proposed rulemaking; and this amendment is effective in less than 30 days from the date of publication, because this security zone involves a military function of the United States.

In consideration of the foregoing, part 127 of title 33 of the Code of Federal Regulations is amended by adding § 127.500 to read as follows:

§ 127.500 Hampton Roads—James River—Newport News, Va.

The waters within the following boundary is a security zone: A line beginning at position 36°58'48'' N., 76°26'26'' W. to James River Buoy at 36°57'53'' N., 76°26'42'' W., thence to a point at position 36°59'07'' N., 76°27'57'' W., thence to a point on shore at position 36°59'35'' N., 76°26'55'' W., thence to the beginning point.

(46 Stat. 220, as amended, [§ 1, 63 Stat. 503,] § 6(b), 80 Stat. 937; 50 U.S.C. § 191, [14 U.S.C. § 91,] 49 U.S.C. § 1655(b); E.O. 10173, E.O. 10277, E.O. 10352, E.O. 11249; 3 CFR, 1949-1953 Comp. 356, 778, 873, 3 CFR, 1964-1965 Comp. 349, 33 CFR Part 6, 49 CFR 1.46(b))

Effective date: This amendment is effective from 1030Q to 1245Q June 2, 1973.

Captain, U.S. Coast Guard, Acting Captain of the Port, Hampton Roads Area.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Soil Conservation Service

[7 CFR Part 636]

ENVIRONMENTAL QUALITY COST SHARING AND TECHNICAL ASSISTANCE PROGRAM

Proposed Guidelines and Regulations for Implementation

Notice is hereby given that the Soil Conservation Service, U.S. Department of Agriculture, has under consideration the promulgation of guidelines and regulations for implementation of an environmental quality program under the authority of section 201(c) of the Rural Development Act of 1972. The guidelines and regulations outline policies and procedures for extending technical and cost-sharing assistance through multiyear contractual agreements to landowners and others for installation of measures to control or abate critical erosion, sediment, and other environmental conditions that have adverse community effects.

The Soil Conservation Service invites those who desire to submit written comments or suggestions concerning the preparation of final guidelines and regulations to do so addressing them to the Administrator, Soil Conservation Service, U.S. Department of Agriculture, room 5105A—South Building, 14th and Independence Avenue SW., Washington, D.C. 20250.

Such submission should be received by June 18, 1973, to allow time for appropriate consideration and possible inclusion in the final regulations. Copies of such submissions will be available for examination by interested persons at the above address upon their receipt during regular business hours (8:15 a.m.–4:45 p.m.).

The proposed regulations follow:

Subpart—General Program Provisions

§ 636.1 Definitions.

The terms defined herein shall have the following meanings in this part and in all contracts, forms, documents, instructions, and procedures in connection therewith, unless the context or subject matter requires otherwise. Words in the singular form shall be deemed to impart the plural, and vice versa, as the case may demand.

(a) "Administrator" means the Administrator of the Soil Conservation Service, U.S. Department of Agriculture.

(b) "Agreement plan" means the written document which serves as the basis for entering into a contract. It is based on a conservation plan and incorporates a time schedule providing for changes in cropping systems and land uses and for the installation of soil and water conservation measures needed for erosion control, sediment abatement, control of agricultural-related pollutants, and for other critical environmental problems having adverse offsite effects. It identifies the land areas under contract, the kinds and location of conservation measures to be cost shared, the methods of cost sharing, and the related measures to be carried out without cost sharing.

(c) "Average cost" means the constructed cost approved by the State conservationist which is based on actual costs and cost estimates considered necessary to carry out an identifiable unit in the environmental quality area (EQA).

(d) "Certification of performance and compliance" means written statement by the district conservationist that an identifiable unit has been properly carried out and that the cooperator signatory to the contract is in compliance with the terms and conditions of the program.

(e) "Conservation plan" means a written plan developed in cooperation with and approved by the conservation district for the conservation of soil and water resources of a unit of land or group of units of land.

(f) "Conservation measure" or "conservation practice" means those elements of a resource management system that are used for erosion control, sediment abatement, control of agricultural-related wastes, or to solve other environmental conditions having adverse offsite effects.

(g) "Conservation treatment unit" means a field or fields identified in an agreement plan to be in a specific land use requiring a particular type of management and use of related conservation measures.

(h) "Contract" is a document setting forth the terms of agreement for cost sharing between the Secretary and a cooperator. It includes the agreement plan.

(i) "Contracting officer" means the employee of the Soil Conservation Service designated by the Administrator to enter into contracts on behalf of the Secretary.

(j) "Cooperator" means an individual, person, partnership, firm, joint-stock company, corporation, association, trust, estate, or other nonpublic legal entity identified as a cooperator on the roles of a conservation district and having entered into a contract under this program.

(k) "Cost" means: (1) The amount actually paid or engaged to be paid by the cooperator for equipment use, materials and services for carrying out an identifiable unit; or (2) if the cooperator uses his own forces in carrying out an identifiable unit, the constructed value of his own labor, his own equipment use and the materials he produced and used.

(l) "Cost-share payments" means payments to cooperators signatory to the contract as provided in the contract at established rates for the carrying out of identifiable units for which costs are shared and who have complied with the applicable provisions of the program.

(m) "District conservationist" means the person who directs Soil Conservation Service activities in a field office.

(n) "Environmental quality area" (EQA) means lands included in watersheds or subwatersheds authorized for operations. Lands outside the boundaries of an authorized watershed or subwatershed project but which are a part of a cooperator's conservation plan may be considered lands within the EQA for the purpose of this program if the measures are an integral part of the treatment system in a field or will conserve and develop lands within such watershed or subwatershed project.

(o) "Environmental quality program" (EQP) or "program" means the program based on the cited authority and as initiated by the appropriation act for the Department of Agriculture for fiscal year 1974. The cited authority provides for the Secretary to enter into agreements not to exceed 10 years with landowners, operators, and occupiers, collectively and individually, in watershed or subwatershed projects authorized under Public Law 83–566, as amended, and Public Law 78–534, as amended and supplemented.

(p) "Identifiable unit" means all or an essential part or subdivision of an eligible conservation measure that, when carried out, can be clearly identified as a segment of the steps or sequence in carrying out the conservation measure.

(q) "Landowners, operators, and occupiers" means any cooperator within the EQA having such control as determined by the Administrator to be needed and has a conservation plan developed in cooperation with and approved by the conservation district in which the land is situated.

(r) "Resource management systems" are combinations of measures applied in a controlled manner (techniques, timing, quality, quantity) to help meet specified quality standards for the environment.

(s) "Off-site benefits" mean benefits that accrue to two or more beneficiaries or the public in general.

(t) "SCD" means a subdivision of a State or territory organized pursuant to the State soil conservation district law. It may also be known as a conservation district, soil conservation district, soil and water conservation district, or natural resources district.

(u) "Secretary" means the Secretary of Agriculture of the United States or other representative of the U.S. Department of Agriculture acting in his stead pursuant to delegated authority.

(v) "Specified maximum cost" means the maximum amount determined by the State conservationist with respect to an identifiable unit to which cost sharing will apply.

(w) "State conservationist" means the person who is responsible for administering the Soil Conservation Service activities in a State.

(x) "Time schedule of land use and treatment" means a sequence of approved, and planned land use and treatments listed by fields and by years included in the agreement plan.

§ 636.2 Program objective.

The objective is to accelerate and intensify the use of needed resource management systems within the EQA by providing technical assistance and cost sharing with cooperators the installation of conservation measures for erosion control, sediment abatement, agricultural related waste pollutant control, and to solve other critical environmental conditions having adverse offsite effects.

§ 636.3 Administration.

(a) The Soil Conservation Service is responsible for administration and making cost-share payments under the program. The contracting officer is authorized to sign environmental quality program contracts on behalf of the Secretary subject to a certification of the availability of funds.

(b) The program shall be carried out in close cooperation with interested Federal, State, and local governmental units and organizations and other groups and individuals.

§ 636.4 Land eligible for the program.

The program shall be applicable to lands within an EQA which are (a) privately owned lands, (b) nonfederally owned public lands under cooperator's control for the contract period.

§ 636.5 Program applicability.

The program will be applicable to all States, Puerto Rico, and Virgin Islands. Prior to initiating the program in any EQA the environmental problems and conservation measures needed to overcome them will be reviewed with the areawide comprehensive planning agency to assure that the program is not inconsistent with the areawide comprehensive plan.

§ 636.6 Application for contract.

(a) Application for a contract shall be made in writing to the Soil Conservation Service. Such application will be referred to the SCD in which the cooperator's land is located for review with respect to the district program, the cooperator's district conservation plan, and the land treatment needs in the EQA.

(b) The SCD shall return the application to the district conservationist certifying that the cooperator has an approved conservation plan, or is currently developing such a plan, including any recommendations with respect to development of the agreement plan and contract.

§ 636.7 Agreement plan.

(a)(1) An agreement plan and contract shall be based upon a conservation plan developd in cooperation with the conservation district in which the lands are situated. Available technical assistance in preparing the agreement plan and contract will be provided through the district conservationist.

(2) The Administrator is authorized to prescribe the minimum requirements for the agreement plan. Each agreement plan must be approved by the district conservationist and the conservation district.

(b) The cooperator is responsible for carrying out his contract. He should use all available sources of assistance, including any phase of other U.S. Department of Agriculture programs that contribute to achieving the conservation aims. Available technical assistance will be provided to a cooperator in accomplishing the agreement plan through the district conservationist.

(c) The Soil Conservation Service may also utilize the services of private, State, and other Federal agencies in discharging its responsibility for technical assistance.

§ 636.8 Contracts.

(a)(1) In order for a cooperator to participate in the program, he must enter into a contract with the Secretary under which he agrees to accomplish his agreement plan. A cooperator must present satisfactory evidence to the SCS that he has control of the unit of land.

(2) The contract shall extend for a period that is at least 2 years beyond the date when the last scheduled measure to be cost shared is established. The period of any contract shall not be for less than 3 years (36 months) nor more than 10 years (120 months).

(3) The total Federal cost-share expenditure for any single contract shall not exceed $25,000.

(4) The contracting officer having determined that the agreement plan is adequate for a contract may execute the contract with the cooperator subject to certification in the SCS State office that funds are available. It is the responsibility of the cooperator who signs a contract to keep the contracting officer currently informed of his mailing address.

(5) If, during the contract period, all or part of the right and interest of any cooperator signatory to the contract in a unit of land is transferred by sale or otherwise, his successor, as transferee, during the contract period may upon his request be substituted under the contract for that transferred by executing a form prescribed by the Administrator for such purposes. Also see § 636.20.

(b) Contracts previously entered into with a cooperator may be terminated upon mutual agreement of the cooperator and the contracting officer, only if such termination is specifically approved by the Administrator or is authorized under general policies established by him. No contract may be so terminated unless the Administrator determines either specifically or in the general policies authorizing termination that such termination would be in the public interest.

(c) Requirements of contracts previously entered into with a cooperator may be waived or modified by the contracting officer only if such waiver or modification is specifically authorized in this subpart, or is specifically approved by the Administrator, or is authorized under general policies established by him. For waivers or modifications specifically approved by this subpart, the Administrator is authorized to establish general policies. Otherwise, no requirement of a contract may be so waived or modified unless the Administrator determines either specifically or in the general policies authorizing waivers or modifications that such waivers or modifications are desirable to carry out the program purposes or such as to facilitate the practical administration thereof.

(d) The contracting officer may find, in accordance with standards determined by the Administrator that an identifiable unit has been carried out in accordance with applicable program provisions but, due to conditions beyond the control of the cooperator signatory to the contract, has failed to achieve the desired results. In such cases, the contracting officer may

agree to modify the contract to authorize cost-share payments for again carrying out the identifiable unit: *Provided*, That the remaining period of the contract is of such length of time as to allow the carrying out and establishment of the identifiable unit. The cooperator may not be required to again carry out an identifiable unit that has failed due to conditions beyond his control.

(e) The contracting officer may find, in accordance with standards determined by the Administrator, that an identifiable unit has been carried out in accordance with applicable program provisions and has achieved the desired results but, due to conditions beyond the control of the cooperator signatory to the contract, subsequently deteriorated during the contract period to the point of need of repeat applications. In such cases, the contracting officer may agree to modify the contract to authorize cost-share payments for again carrying out the identifiable unit: *Provided*, That the remaining period of the contract is of such length of time as to allow the carrying out and establishment of the identifiable unit. The cooperator may not be required to again carry out an identifiable unit that has deteriorated due to circumstances beyond his control.

§ 636.9 Conservation measure maintenance.

Each cooperator signatory to the contract shall agree to maintain for the contract period or for the period of his control of the unit of land, if shorter than the contract period, resource management systems (§ 636.11) on the unit of land as specified in the contract. Failure to maintain for the required period the specified conservation measures shall be considered a contract violation.

§ 636.10 Selection of conservation measures.

(a) The cooperator shall determine how he will use his land and the combination of conservation measures he will use in the EQA to meet the program objectives subject to the provisions in § 636.7(2).

(b) The conservation measures agreed to be carried out shall be carried out in conformity with the agreement plan. They shall be in accord with the current specifications obtainable from the local office of the Soil Conservation Service.

§ 636.11 Eligible resource management systems.

(a) Resource management systems are combinations of measures applied in a controlled manner (techniques, timing, quality, quantity) to help meet specified quality standards for the environment. The systems are founded upon the principle of interdependency of land and water resources and the interaction of measures for conservation and development. Decisions about the use of resource management systems result from effective and realistic planning. Such planning considers alternative uses of resources (soil, water, and related plants and animals) and alternative resource management systems. Decisions which meet program objective as well as the objectives of cooperators are included in agreement plans.

(1) Resource management systems eligible under the program include the following:

(i) *EQ–1 Land management systems.*—Land management systems are for cropland, pastureland, rangeland, woodland, recreation and wildlife land, urbanizing land, environmental corridors, transportation and transmission corridors, and surface mine areas. The conservation measures to control or abate critical erosion and sediment problems include:

(*a*) Permanent vegetative cover.
(*b*) Water disposal measures.
(*c*) Stripcropping.
(*d*) Other associated conservation measures as necessary for the establishment and protection of the system.

(ii) *EQ–2 Waste management systems.*—Waste management systems provide for the utilization, recycling, or disposal of agricultural related wastes with minimum contamination to soil, air, water, and esthetic values. The conservation measures include:

(*a*) Disposal lagoons.
(*b*) Holding ponds and tanks.
(*c*) Waste conveyance systems.
(*d*) Irrigation tailwater recovery systems.
(*e*) Other associated conservation measures designed to control and abate pollution from agricultural wastes.

(iii) *EQ–3 Stream management systems.*—Stream management systems provide for improving and maintaining water quality. A stream is any natural watercourse in which water flows either continuously or intermittently. A stream system is the network of watercourses that delivers streamflow to any given point. The entire stream system and its relationship to other resource management systems in the watershed must be considered before any part of it can be significantly modified. The conservation measures include:

(*a*) Streambank protection and stabilization.
(*b*) Grade stabilization structures.
(*c*) Erosion control, detention, and sediment retention dams.
(*d*) Other associated conservation measures as necessary for the stabilization and protection of the system.

(iv) *Other associated conservation measures.*—Consistent with the program objective, any other associated conservation measure which is needed to meet particular problems in an EQA may be approved by the State conservationist within procedures established by the Administrator.

(b) The maximum Federal cost-share rate for any eligible conservation measure is 80 percent.

(c) A list of measures selected from the environmental quality program list (see paragraph (a) of this section) shall be developed for each EQA. This list shall include the national approved cost-share rate for each measure included in the list. This list shall also include an average cost or a specified maximum cost developed in accordance with paragraph (e) of this section for each measure or identifiable unit included in the list. This list must be approved by the State conservationist.

(d) Average costs and specified maximum costs shall be determined biennially from the cost data collected on a continuing basis as prescribed by the Administrator.

(e) Average costs and specified maximum costs that will apply to each EQA for a biennium period shall be approved by the State conservationist, not later than December 31, every other year.

(f) Changes in average costs and specified maximum costs approved in accordance with paragraph (e) of this section may be approved at any time by the State conservationist.

(g) Cost-share rates shall be reviewed and determined biennially by the Administrator, SCS. The Administrator at his discretion may make changes in cost-share rates at any time.

§ 636.12 Cost-share payments.

(a) Cost-share payments shall be made at cost-share rates specified in the contract, at the average cost, or the actual cost not to exceed the average cost, or the actual cost not to exceed the specified maximum cost as set forth in the contract: *Provided*, That if the average cost or the specified maximum cost applicable at the time of initial action to carry out the identifiable unit is less than the average cost or specified maximum cost set forth in the contract, payment shall be made on the basis of such lower average cost or lower specified maximum cost: *Provided, further*, That whenever the approved average cost or specified maximum cost in effect at the time of the initial action to carry out the identifiable unit is in excess of the average cost or specified maximum cost set out in the contract, such contract may be modified to reflect such increased average cost or specified maximum cost.

(b) (1) Cost-share payments are made for carrying out identifiable units and are conditioned upon approval of the certificate of performance and compliance by the district conservationist. The district conservationist shall submit to the Soil Conservation Service State office the application for payment with the certificate of performance and compliance. The district conservationist may also utilize the assistance of private, State and other Federal agencies in discharging his responsibility for certification of performance and compliance.

(2) A cooperator is not eligible to receive cost-share payments under the program for an identifiable unit which was not or is not to be carried out under this program.

(c) No funds appropriated after June 30, 1973, for cost sharing under the environmental quality program may be used to make production or other payments, to cooperators who after such date harvest, or knowingly permit to be harvested for illegal use, marihuana or

other such prohibited drug-producing plant on any part of lands owned or controlled by such cooperators. For the purpose of the regulations in this part, the following plants in addition to marihuana are prohibited: Opium poppies, coco bushes, and cactii of the genus lophophra.

§ 636.13 Conservation materials or services.

(a) Conservation materials or services needed by cooperators to carry out their contracts will be obtained or contracted for by cooperators. The contract between the cooperator and the United States may provide for part or all of the Federal cost share for an eligible conservation measure to be made directly to those who furnish conservation materials or services to the cooperator. The materials and services must be used in carrying out the eligible conservation measure. This method may not be used if the cooperator signatory to the contract is indebted to the United States. Exceptions are those cases where the agency to which the debt is owed waives its rights to set off in order to permit using this method of cost sharing.

(b) Federal cost shares will be made as provided in this section, under instructions issued by the Administrator, not in excess of the cost share attributable to the use of the material or services or not in excess of the cost share for all identifiable units as may be requested by the cooperator with the approval of the contracting officer in accordance with standards determined by the Administrator.

(c) The cooperator signatory to the contract who purchases a material or service as provided in this section will be relieved of responsibility for the material or service upon determination by the contracting officer that the material or service was used for the purpose for which it was purchased and that any other identifiable units, on which the amount of the Federal cost share toward the cost of the material or service was determined, have been carried out in accordance with applicable program provisions. If the cooperator uses any material or service obtained under this section for any purpose other than for which it was purchased under an authorization, he shall be indebted to the United States for that part of the cost of the material or service paid by the United States as provided in this section and shall pay such amount to the Soil Conservation Service or such amount shall be withheld from the cost-share payments otherwise due him under the program.

(d) The Administrator shall: (1) Prescribe the procedure for authorizing the procurement of conservation materials or services to be cost shared in accordance with paragraph (a) of this section, and (2) designate the individuals who may authorize the procurement of such materials or services.

§ 636.14 Materials and services; defective; inspection and analysis.

(a) As a condition to the Secretary making payments under authorizations, opportunity must be given to inspect materials or services and to take necessary samples in accordance with instructions issued by the Administrator: *Provided, however,* That the inspection and analysis controls exercised by State regulatory authorities may be deemed a sufficient protection to the United States as to the quality standard of any material over which authority is exercised: *Provided, further,* That this shall not deprive the United States of the opportunity of the taking of additional samples nor shall it deprive the United States of the opportunity for the making of separate inspections of materials in any case where such further action is necessary to adequately protect the interest of the United States.

(b) Conservation material or service, furnished to a cooperator to be cost shared in accordance with § 636.13(a) shall be deemed to be defective if such material or service does not meet the quality standard specified in the authorization issued in accordance with § 636.13(d).

(c) Conservation material or service deemed defective as provided herein may be accepted by the cooperator and the cost-share payment may be made for such defective material or service only if: (1) The material or service deemed defective will satisfactorily serve the purpose for which such material or service was procured, and (2) a deduction is made from the cost-share payment equal to the difference between the price of the conservation material or service of the quality specified and the value of the material or service furnished to the cooperator.

(d) The Administrator shall designate the individual who shall determine the value of material or service deemed defective which is to be accepted as provided in paragraph (c) of this section.

§ 636.15 Payments due persons who have died, disappeared, or have been declared incompetent.

(a) *Death.*—Where any person who is otherwise eligible to receive a cost-share payment dies before payment is received, payment may be made upon proper application therefor, without regard to claims of creditors other than the United States, in accordance with the following order of precedence:

(1) To the administrator or executor of the deceased person's estate.

(2) To the surviving spouse, if there is no administrator or executor and none is expected to be appointed, or if an administrator or executor was appointed but the administrator of the estate is closed (i) prior to application by the administrator or executor for such payment, or (ii) prior to the time when a check, draft or certificate issued for such payment to the administrator or executor is negotiated or used.

(3) If there is no surviving spouse, to the children of the deceased person in equal shares. Children of a deceased child of a deceased person shall be entitled to their parent's share of such payment, share and share alike. If there are no surviving children of a deceased child of such deceased person, the share of such payment which otherwise would have been made to such child of the deceased person shall be divided equally among the surviving children of the deceased person and the estates of any deceased child where there are surviving direct descendants.

(4) If there is no surviving spouse and no direct descendant, payment shall be made to the father and mother of the deceased person in equal shares, or the whole thereof to the surviving father or mother.

(5) If there is no surviving spouse, no direct descendant, and no surviving parent, payment shall be made to the brothers and sisters of the deceased person in equal shares. Children of a deceased brother or sister shall be entitled to their parent's share of the cost-share payment, share and share alike. If there are no surviving direct descendants of the deceased brother or sister of such deceased person, the share of the payment which otherwise would have been made to such brother or sister shall be divided equally among the surviving brothers and sisters of such deceased person and the estates of any deceased brothers or sisters where there are surviving direct descendants.

(6) If there is no surviving spouse, direct descendant, parent, or brothers or sisters or their descendants, the payment shall be made to the heirs-at-law in accordance with the law of the State of domicile of the deceased person.

If any person who is entitled to payment under the above order of precedence is a minor, payment of his share shall be made to his legal guardian, but if no legal guardian has been appointed, payment shall be made to his natural guardian or custodian for his benefit, unless the minor's share of the payment exceeds $1,000, in which event payment shall be made only to his legal guardian. Any cost-share payment which the deceased person could have received may be made jointly to the persons found to be entitled to such payment or shares thereof under this section. A separate check may be issued to each person entitled to share in such payment.

(b) *Disappearance.*—(1) In case any person otherwise eligible to receive a cost-share payment disappears before receiving payment, such payment may be made upon proper application therefor, without regard to claims of creditors other than the United States, to one of the following in the order mentioned:

(i) The conservator or liquidator of his estate, if one be duly appointed.

(ii) The spouse.

(iii) An adult son or daughter or grandchild for the benefit of his estate.

(iv) The mother or father for the benefit of his estate.

(v) An adult brother or sister for the benefit of his estate.

(vi) Such person as may be authorized under State law to receive payment for the benefit of his estate.

(2) A person shall be deemed to have disappeared if (i) he has been missing

for a period of more than 3 months, (ii) a diligent search has failed to reveal his whereabouts, and (iii) such person has not communicated during such period with other persons who would be expected to have heard from him. Evidence of such disappearance must be presented to the State conservationist in the form of a statement executed by the person making the application for payment, setting forth the above facts, and must be substantiated by a statement from a disinterested person who was well acquainted with the person who has disappeared.

(c) *Incompetency.*—Where any person who is otherwise eligible to receive a cost-share payment is adjudged incompetent by a court of competent jurisdiction before payment is received, payment may be made, upon proper application therefor, without regard to claims of creditors other than the United States, to the guardian or committee legally appointed; payment, if not more than $1,000, may be made without regard to claims of creditors other than the United States, to one of the following in the order mentioned for the benefit of the incompetent person:

(1) The spouse.

(2) An adult son, daughter, or grandchild.

(3) The father or mother.

(4) An adult brother or sister.

(5) Such person as may be authorized under State law to receive payment for the incompetent.

(d) In case any person entitled to apply for a cost-share payment pursuant to the provisions of this § 636.15, dies, disappears, or is adjudged incompetent, as the case may be, after he has applied for such payment but before payment is received, payment may be made upon proper application therefor, without regard to claims of creditors other than the United States, to the person next entitled thereto in accordance with the order of precedence set forth herein.

(e) *Definitions.*—As used in this subsection, the term "person" when relating to one who dies, disappears, or becomes incompetent, prior to receiving payment, means an individual cooperator who is due a cost-share payment pursuant to these regulations. "Children" shall include legally adopted children who shall be entitled to share in any cost-share payment in the same manner and to the same extent as legitimate children of natural parents. "Brother" or "sister" when relating to one who, pursuant to the regulations, is eligible to apply for a cost-share payment which is due a person who dies, disappears, or becomes incompetent prior to the receipt of such payment, shall include brothers and sisters of the half blood who shall be considered the same as brothers and sisters of the whole blood. "Payment" means issuance of a check by the Treasury Disbursing Officer pursuant to these regulations.

(7 U.S.C. 1385.)

§ 636.16 Manner and time of cost-share payments.

Cost-share payments shall be paid to the cooperator after he has carried out an identifiable unit of his agreement plan and arrangements therefor shall be made by the soil conservation service State office. Payments shall be made as soon as practicable after the identifiable unit is carried out and the extent of performance has been established. It shall be the responsibility of the cooperator eligible for cost-share payments to establish his claim to such payments. Cost-share payments for identifiable units carried out under the program will be made only upon application submitted on the form prescribed by the Administrator to the district conservationist. Such application shall be filed by June 30 of the year following the calendar year in which the identifiable unit was carried out except that with respect to any application filed after such date the Administrator may authorize cost-share payments to be made upon such application if in his judgment such action is warranted by the circumstances of the particular case. The authority for the Administrator to authorize such payments may be redelegated to State conservationists. The State conservationist, at his discretion, may redelegate this authority to the State administrative officer. Application for cost-share payments shall specify the proportions of each cooperator's contribution to the carrying out of each identifiable unit. Cost-share payments will be made for the identifiable units carried out in the year as shown on the time schedule of land use and treatment unless otherwise provided for by modification of the contract.

§ 636.17 Division of cost-share payments between cooperators, signatory to a contract.

The Federal cost share attributable to the use of conservation materials or services shall be credited to the cooperators to whom the authorization for purchase of materials or services is furnished. The remainder of the cost share shall be credited to the cooperator who carried out the identifiable unit by which such remainder of the cost share is earned. If more than one cooperator contributed to the carrying out of an identifiable unit, the cost-share payment shall be divided among the cooperators in proportion to the extent which they contributed to the carrying out of the identifiable unit as set forth in the approved application for cost-share payments. The furnishing of land or the right to use water will not be considered as a contribution for the carrying out of any identifiable unit.

§ 636.18 Transfer of units of land under agreement-existing contracts.

The Administrator shall prescribe the procedure for combining, dividing, or deleting lands in agreement plans.

§ 636.19 Identifiable units carried out with State or Federal aid.

The total extent of any identifiable unit carried out shall be reduced for the purpose of computing Federal cost shares by the percentage of the total cost of the items carried out on which costs are shared which the district conservationist determines was furnished by a State or Federal agency.

§ 636.20 Successors-in-interest.

(a) (1) If during the contract period all or a part of the right and interest of any cooperator signatory to the contract in the land under contract is transferred by sale or otherwise, the contract shall terminate as to such cooperator with respect to the acreage which has been transferred. In the event of such termination, the cooperator whose right and interest is transferred shall forfeit all rights to further cost-share payments or grants made to him under the contract with respect to the acreage which has been transferred and all cost-share payments or grants made to him under the contract shall be refunded with respect to such acreage unless the transferee who acquires his right and interest in such acreage is or becomes a party to a contract which will assume all obligations of the cooperator under the contract.

(2) The contract shall remain in full force and effect in accordance with the original terms and conditions of the contract with respect to the right and interest remaining in the cooperator, to be modified by the contracting officer and the cooperator signatory to the contract, however, to reflect the changes, if any, brought about by any transfer. In the event necessary modification cannot be agreed to with the contracting officer, the cooperator shall refund all cost-share payments or grants theretofore made to him with respect to his remaining right and interest in the land under contract and to the cooperator in the contract. If this refund occurs, the cooperator would have no further rights or obligations under the contract.

(3) Except as this subpart may require otherwise, the transfer of all or part of the land under contract by any cooperator signatory to the contract shall not affect the rights and obligations of all other cooperators signatory to the contract.

§ 636.21 Pooling arrangements.

Cooperators in any local area may, with the prior approval of the contracting officer, enter two or more units of land jointly in the program if agreement plans satisfactory to the district conservationist are developed that would result in a better land use and treatment program for the units of land through such joint participation than would be obtained through individual participation.

§ 636.22 Measures that tend to defeat the purposes of a contract.

(a) The following actions are specified as measures which tend to defeat the purposes of the contract: Knowingly or negligently destroying or breaking up a conservation measure in the agreement plan, irrespective of cost-share payments, unless prior approval in writing is given by the contracting officer to the destroying or breaking up under standards determined by the Administrator.

(b) Adoption of any such measures by a cooperator on a unit of land while he has control thereof during the life of the contract shall constitute a violation of the contract.

§ 636.23 Appeals.

(a)(1) Any cooperator may request the contracting officer or the district conservationist to reconsider, prior to the execution of the contract by the cooperator, any determination made by him affecting the contract except this may not include development of eligible conservation measures, cost-share rates and average costs. Such requests shall be in writing and shall be filed within 15 days after receiving notice of such determination. A cooperator shall be deemed to have received notice of the determination if a letter, form or other document has been mailed or delivered to him which discloses such determination. The contracting officer or the district conservationist shall notify the cooperator of his decision in writing (by mailing or by delivery of the decision) within 15 days after the filing of the written request for reconsideration.

(2) If the cooperator fails to request reconsideration of a determination by the contracting officer or district conservationist, or fails to appeal from a decision of the contracting officer or the district conservationist, within the 15-day period, the determination or decision of the contracting officer or the district conservationist shall be final. If the cooperator is dissatisfied with the decision of the contracting officer or the district conservationist, he may within 15 days after receiving written notice of the decision, file a written appeal with the State conservationist. The State conservationist shall notify the cooperator of his decision in writing (by mailing or by delivery of the decision) within 30 days after filing of the appeal.

(3) The contracting officer or district conservationist may submit statements or briefs, including a review of the case, to the State conservationist.

(b) Any dispute concerning a question of fact arising under the contract, except contract violations (which are governed by separate regulations in this subject), which is not disposed of by written agreement after a reasonable time shall be referred to the State conservationist for a decision. The State conservationist shall notify the cooperator in writing (by mailing or delivery of the notice) that the matter will be considered on a date specified in the notice, which date shall be not less than 30 days subsequent to receiving the notice. If the cooperator files a request for such an opportunity within 15 days from receiving such notice, the cooperator will be afforded an opportunity to appear and present his views orally and to offer relevant evidence in support of his position. If the cooperator does not request an opportunity to appear and to present relevant evidence, the State conservationist shall promptly proceed to consider the matter on the basis of such information as may be available to him, including statements or briefs of the authorized representatives of the Secretary whose actions are in dispute. The State conservationist shall notify the cooperator of his decision in writing by mailing or delivery of the decision.

(c) Any cooperator adversely affected may appeal to the Administrator from a decision of the State conservationist. A cooperator who wishes to take such action must file his appeal and any briefs or statements in the office of the Administrator within 30 days from receiving notice of the decision of the State conservationist. The State conservationist may file a brief or statement in the office of the Administrator within 15 days after the cooperator's brief or statement is received there. Such an appeal shall be limited to the issues or disputes and records before the State conservationist. The State conservationist shall submit the record before him, which will include his decision, to the Administrator. The Administrator upon receipt of the record, will make a decision from which there shall be no further appeal in the Department. The cooperator shall be notified of this decision in writing.

(d) Whenever the regulations in this section require the filing of a document it is deemed filed when received in the office of the individual concerned.

§ 636.24 Contract violations.

(a) The cooperator shall agree by signing a contract to forfeit all rights to further cost-share payments or grants under the contract and to refund all cost-share payments or grants received thereunder, if the Secretary determines that there has been a violation of the contract during the time the cooperator has control of the land under agreement plan and that such violation is of such a nature as to warrant termination of the contract. The cooperator who signs the contract will be obligated to refund all cost-share payments and all cost shares paid under authorizations.

(b) The cooperator shall agree by signing a contract to make refunds of cost-share payments or grants received under the contract or to accept payment adjustments in the contract, if the Secretary determines that there has been a violation of the contract during the time the cooperator has control of the land under agreement plan and that such violation is of such a nature as not to warrant termination of the contract. Payment adjustments may include decreasing the rate of a cost share or deleting from the contract a cost-share commitment or withholding cost-share payments earned but not paid. The cooperator who signs the contract will be obligated to refund cost-share payments and cost shares paid under authorizations.

§ 636.25 Contract violations procedure.

(a) This section prescribes the regulations for determining whether a violation of a contract has occurred and for the effect and result of such violation. The Secretary reserves the right upon notice to modify, amend, revise, or supplement any of the provisions of this section at any time: *Provided*, That such action shall not adevrsely affect any cooperator where determination or decision has been made and the cooperator has been officially notified thereof before such action is taken. No cost-share payment or cost share shall be made pending the determination or decision as to whether a contract violation has occurred.

(b) If the contracting officer receives information indicating that a violation of a contract may have occurred but determines, without the issuance of a notice as provided in this section, with the approval of the State conservationist, that no violation has occurred, or that the violation does not call for any forfeiture, refund, or payment adjustment, no further action shall be taken.

(c) If all of the coperators subject to a forfeiture, refund, payment adjustment, or termination agree in writing on a form prescribed by the Administrator to accept such forfeiture, refund, payment adjustment or termination, no further proceeding under this section shall be undertaken. The contracting officer and the State conservationist shall give approval to this agreement. The agreement shall specify what occurs to the contract.

(d)(1) If the State conservationist believes, on information submitted by the contracting officer or otherwise, that a violation of a contract has occurred which would call for a forfeiture, refund, payment adjustment, or termination under the provisions of this section, written notice thereof, on a form prescribed by the Administrator shall be given to each cooperator signatory to the contract.

(2) Notice to a cooperator under this section may be shown by: (i) A written statement by an authorized representative of the Secretary that the notice was personally delivered to the cooperator; (ii) a written statement by a cooperator acknowledging receipt of the notice; and (iii) a post office return receipt (registered or certified mail) showing that the notice was delivered at the last address of the cooperator or showing that the notice could not be delivered to the cooperator at his last address because he had moved without a forwarding address, or because the cooperator refused to accept delivery at his last address, or because the last address does not exist. A cooperator under this section will be considered to have received the notice at the time of personal receipt, at the time of the delivery of a registered or certified

letter, or at the time of the return of an undelivered registered or certified letter.

(3) The notice shall set forth the nature of the alleged violation and shall inform the cooperator that he will be given an opportunity to appear at a hearing before a person designated by the State conservationist to conduct a hearing if he files a written request for such hearing in the local Soil Conservation Service office not later than 30 days after the time he received the notice. The cooperator shall be notified in writing by the hearing officer of the time, date, and place, set for the hearing. When practicable, the hearing will be held in the county where the land under contract is regarded as being located. If the cooperator does not file written request for a hearing, or does not appear at the appointed time or is not represented at a hearing so requested, he shall have no further right to a hearing before a hearing officer. However, a hearing officer already appointed may, in his discretion, permit such cooperator to appear before him. A request filed by any cooperator with the local Soil Conservation Service office shall be deemed to be the request of all cooperators signatory to the contract.

(e) (1) The hearing before the hearing officer shall be held at the time and place and on the date set forth in the notice of the hearing to the cooperator.

(2) The hearing shall be conducted in the manner deemed most likely to obtain the facts relevant to the alleged violation. The hearing officer shall have full authority to confine the presentation of facts and evidence to pertinent matters and to exclude irrelevant, immaterial or unduly repetitious evidence, information or questions. In so doing, the hearing officer shall not be bound by the strict rules of evidence as required in courts of law. Witnesses may be sworn at the discretion of the hearing officer. The hearing shall be public.

(f) The cooperator, or his representative, at the hearing shall be given a full opportunity to present facts and information relevant to the alleged violation and may present oral or documentary evidence. Statements and evidence may be submitted at the hearing by the United States. Individuals not otherwise presented at the hearing to give information or evidence may, in the discretion of the hearing officer, be requested or permitted to give information or evidence. The hearing officer, in his discretion, may permit witnesses to be cross-examined, including those individuals called by him.

(g) The hearing officer shall provide for the making of a record at the hearing as will enable him to make a summary of the testimony received at the hearing if the cooperator and the State conservationist agree. If the State conservationist feels that the nature of the case is such as to make a transcript desirable or if the cooperator requests such a transcript a reasonable period prior to the time that the hearing begins, a transcript of the hearing shall be made. If a transcript is desired only by a cooperator, he will be required to provide for its preparation and for the payment of expense thereof. If a transcript is desired by both the State conservationist and the cooperator, the cooperator will be required to pay only the expense of a copy of the transcript. The remainder of the expense will be paid by the United States.

(h) If, at the time scheduled for the hearing, the cooperator is absent and no appearance is made on his behalf, the hearing officer shall, after a lapse of such a period of time as he may consider proper and reasonable, close the hearing, or may, in his discretion, accept information and evidence submitted by others present for the hearing.

(i) In every case where a cooperator is sent a notice of an alleged violation pursuant to paragraph (d) of this section, except where the cooperator agrees to the forfeiture, refund, payment adjustment or termination as provided in paragraph (c) of this section, the hearing officer shall furnish the State conservationist with a written report setting forth his findings, conclusions, and recommendations. The report shall include the summary of testimony or transcript made of any hearing before the hearing officer and all other information which would be of aid to the State conservationist in reaching his determination.

(j) The State conservationist shall make a determination on the basis of the hearing officer's report, recommendation of the SCD, if any, and any other information available to him as to whether a violation of the contract has occurred, and in accordance with the provisions of this section, the amount of the forfeiture, refund, or payment adjustment. The determination of the State conservationist shall specifically state whether the violation is of such a nature as to warrant termination of the contract or that the violation does not warrant termination of the contract. Each cooperator who signed the contract shall be notified in writing of the determination reached by the State conservationist.

(k) The State conservationist may authorize or require the reopening of any hearing before a hearing officer for any reason at any time prior to his determination.

(l) Any cooperator adversely affected by a determination of the State conservationist shall have the right of appeal to the Administrator. A cooperator who wishes to appeal to the Administrator must file in the office of the Administrator his appeal. This appeal and any briefs or statements must be received in such office within 30 days after the cooperator has received notice of the determination of the State conservationist. The State conservationist may file a brief or statement in the office of the Administrator within 15 days after cooperator's brief or statement is received there. Such an appeal shall be limited to the records and the issues made before the State conservationist which records shall be submited to the Administrator by the State conservationist. The Administrator will make his decision from which there shall be no further appeal in the Department. The decision will be based upon the record before him and the issues presented by the appeal and the cooperator shall be notified in writing.

(m) If the determination or decision is that the violation is of such a nature as to warrant termination of the contract, the determination or decision shall state that the contract is terminated and that all rights to further cost-share payments or grants under the contract are forfeited and that all cost-share payments or grants received under the contracts shall be refunded. The determination or decision will state the amount of the refund and how payment may be accomplished.

(n) If the determination or decision is that the violation is of such a nature as not to warrant termination of the contract, the cooperator may be required to make a refund of cost-share payments or grants or to accept payment adjustments. The determination or decision shall state the extent of refunds of cost-share payments or grants or payment adjustments. In arriving at the extent of a refund of cost-share payments or grants or payment adjustments under this section there will be considered (1) the extent of the violation; (2) whether the violation was deliberate or the result of negligence or was due to circumstances beyond the control of the cooperator; (3) the effect on the program if no refund or payment or adjustment is required; (4) the extent to which the cooperator benefitted by the violation; (5) the effect of the violation on the contract as a whole; and (6) other pertinent considerations including the appropriateness and reasonableness of the refund or payment adjustment.

§ 636.26 Assignments.

Assignments by any cooperator who may be entitled to any cost-share payment under the program are prohibited unless made in accordance with the provisions of section 203, title 31, United States Code, and any amendments thereto, and section 15, title 41, United States Code, and any amendments thereto.

§ 636.27 Cost-share payments not subject to claim.

Any cost-share payment, or portion thereof, due any cooperators hereunder shall be determined and allowed without deduction of claims for advances (except as provided in § 636.26 and except for indebtedness to the United States subject to setoff); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner of the land under agreement plan or any other creditor.

§ 636.28 Filing of false claims.

No cooperator shall file a claim for a cost-share payment to which he knows he is not entitled under the provisions of the program, including claim for a cost-share payment not carried out or for eligible conservation measures carried out in such a manner that they do not meet the required specifications

therefor, and the filing of any such claim shall constitute a violation of the contract.

§ 636.29 Setoffs.

If any cooperator to whom compensation is payable under the program is indebted to the U.S. Department of Agriculture, or any agency thereof, including the Commodity Credit Corporation and Federal Crop Insurance Corporation, or is indebted to any other agency of the United States, and such indebtedness to such other agency is listed on the county register of indebtedness maintained in the office of the county ASC committee, the compensation due such cooperator shall be set off against such indebtedness. Indebtedness owing to the U.S. Department of Agriculture, or any agency thereof, shall be given first consideration. Setoffs made pursuant to this section shall not deprive the cooperator of any right to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 636.30 Compliance with regulatory measures.

Cooperators who carry out conservation measures shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the carrying out and maintenance of the conservation measures in keeping with applicable laws and regulations. Cooperators shall save the United States harmless from any infringements upon the rights of others or from any failure to comply with applicable laws or regulations.

§ 636.31 Misuse of authorizations.

No cooperator shall knowingly use an authorization issued to him for obtaining conservation materials or services for a purpose other than for which it was issued and the misuse of the authorization shall constitute a contract violation.

§ 636.32 Access to land under agreement plans and program records.

Any authorized representative of the Secretary, for the purpose of ascertaining the accuracy of any of the representations made in or in connection with or leading up to any contract entered into hereunder and the entering into any contract or the performance of the terms and condition of such contract shall have the right to enter the land under agreement plan at any reasonable time in order to measure the acreage, to render technical assistance, to inspect the work undertaken under any contract and to examine any program records pertaining to the land under agreement plan and the cooperator shall furnish such information relating to the land under agreement plan as may be requested by authorized representatives of the Secretary.

§ 636.33 State conservationist approval of program determinations.

The State conservationist, upon his own initiative, may revise or require revision of any determination made by the contracting officer or the district conservationist in connection with the program except that the State conservationist may not make a revision of any executed contract other than as may specifically be authorized herein.

§ 636.34 Effect on acreage allotment and marketing quota programs.

(a) The acreage on any unit of land which is diverted from the production of any commodity subject to acreage allotments or marketing quotas in order to carry out any contract entered into under this program is preserved for a period not to exceed the period covered by the contract and an equal period thereafter of the cropland, crop acreage and allotment history applicable to land covered by the contract, for the purpose of any Federal program under which such history is used as a basis for an allotment or other limitation on the production of any crop.

[Docket No. 25444; EDR-242A]

UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

Accounting for Vacation Liability; Extension of Time for Comments

The Board, by circulation of notice of rulemaking EDR-242, dated April 20, 1973, and published at 38 FR 10162 gave notice that it had under consideration a proposed amendment to part 241 of the Economic regulations (14 CFR pt. 241) which would require carriers to use the accrual method of accounting with respect to reporting liabilities for personnel vacations. Interested persons were invited to participate by subcommission of 12 copies of written data, views or arguments pertaining thereto to the docket section of the Board on or before May 25, 1973.

Braniff Airways, Inc. (Braniff) has requested an extension of time for filing comments to June 4, 1973, on the grounds that additional time is needed to make a full analysis of the proposal which would appear to have a substantial effect on that carrier. The undersigned finds that good cause has been shown to extend the filing deadline on this proposal.

Accordingly, pursuant to the authority delegated in § 385.20(d) of the "Board's Organization Regulations," the undersigned hereby extends the time for submitting comments to June 4, 1973.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

APPROVAL AND PROMULGATION OF STATE IMPLEMENTATION PLANS

Notice of Opportunity for Public Comment on Proposed Transportation and/or Land-Use Control Strategies

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved, with specific exceptions, State plans for implementation of the national ambient air quality standards. In the preamble to the May 31 approval/disapproval of implementation plans, the Administrator noted that where the adoption of transportation and/or land use control schemes were necessary to achieve the national standards for carbon monoxide and photochemical oxidants, submittal of those control strategies could be deferred until February 15, 1973. This was done because of the general lack of information and practical experience necessary to permit the development of meaningful transportation control schemes.

On January 31, 1973, the United States Court of Appeals for the District of Columbia Circuit decided the case of *Natural Resources Defense Council, Inc., et al.* v. *Environmental Protection Agency* (civil action No. 72-1522) and seven related cases. The court ordered the Administrator to cancel 2-year extensions which had been granted for the attainment of the carbon monoxide and photochemical oxidants standards where transportation controls would be necessary and to require States to submit transportation control plans on April 15, 1973. States were notified of this court decision by telegram from the Administrator and in the FEDERAL REGISTER of March 20, 1973 (38 FR 7323).

In its order, the court also stated that the Administrator shall permit the public to comment on the State transportation control strategies and on the request by the Governor of any State, pursuant to section 110(e) of the Clean Air

Act, for an extension of the date for attainment of a primary standard. This notice is issued to advise the public that the States listed below have submitted information to the Environmental Protection Agency which indicates that transportation controls are not needed for attainment and maintenance of the national standards. While proposed control strategies have not been submitted, these State plans were included within the court order and comments may be submitted regarding this information.

Only comments received on or before June 22, 1973, will be considered. Notice of opportunity to comment on 12 other State plans was published on April 24, 1973, April 27, 1973, and May 4, 1973.

The information from the States listed below is submitted to the EPA pursuant to section 110 of the Clean Air Act which requires States to have implementation plans to achieve the national ambient air quality standards. The Administrator's decision to approve or disapprove the plans is based on whether they meet the requirements of 110(a)(2) (A)–(H) and EPA regulations in 40 CFR Part 51. A more detailed description of the information received is set forth below.

KANSAS

On May 24, 1973, the State of Kansas submitted a plan revision to the Administrator which demonstrates that the national standards for carbon monoxide will be achieved in the Kansas portion of the Metropolitan Kansas City interstate region by May 31, 1975, without the application of transportation controls other than the Federal motor vehicle control program. The information includes a reanalysis of the data upon which the control strategy is based and indicates that restrictions on stationary sources will reduce ambient concentrations below the national standards, making controls on motor vehicles unnecessary. Copies of the information submitted by Kansas are available for public inspection during normal working hours at the Office of Public Affairs, EPA region VII, 1735 Baltimore Avenue, Kansas City, Mo. 64108, and at the State of Kansas State Department of Health, 535 Kansas Avenue, Topeka, Kans. A copy is also available for public inspection at the Freedom of Information Center, EPA, room 329, 401 M Street SW., Washington, D.C. 20460. Comments should be submitted to the Regional Administrator, EPA region VII, 1735 Baltimore Avenue, Kansas City, Mo. 64108.

MISSOURI

On May 21, 1973, the State of Missouri submitted a plan revision to the Administrator which demonstrates that the national standards for carbon monoxide will be achieved in the Missouri portion of the Metropolitan Kansas City interstate region by May 31, 1975 without the application of transportation controls other than the Federal motor vehicle control program. The information includes a reanalysis of data in the plan upon which the control strategy was based and indicates that restrictions on stationary sources will reduce ambient concentrations below the national standards, making controls on motor vehicles unnecessary. A joint hearing with the State of Kansas was held by the State of Missouri on April 12, 1972 in Kansas City regarding proposed transportation controls in the Metropolitan Kansas City region. Copies of the information submitted by Missouri are available for public inspection during normal working hours at the Office of Public Affairs, EPA region VII, 1735 Baltimore Avenue, Kansas City, Mo. 64108, and at the State of Missouri Air Conservation Commission, 117 Commerce Drive, Jefferson City, Mo. 65101. A copy is also available for public inspection at the Freedom of Information Center, EPA, room 329, 401 M Street SW., Washington, D.C. 20460. Comments should be submitted to the Regional Administrator, EPA region VII, 1735 Baltimore Avenue, Kansas City, Mo. 64108.

LOUISIANA

On March 30, 1973, the State of Louisiana submitted a plan revision to the Administrator which demonstrates that the national standard for photochemical oxidants (hydrocarbons) will be achieved in the southern Louisiana-southeast Texas interstate region by May 31, 1975 without the application of transportation controls other than the Federal motor vehicle control program. The information includes new air quality data and a revised emissions inventory which indicate that restrictions on stationary sources will reduce ambient concentrations below the national standards, making controls on motor vehicles unnecessary. Copies of the information submitted by Louisiana are available for public inspection during normal working hours at the Office of Public Affairs, EPA region VI, 1600 Patterson Street, Dallas, Tex., and at the State of Louisiana Air Control Commission, Louisiana State Office Building, New Orleans, La. 70160. A copy is also available for public inspection at the Freedom of Information Center, EPA, room 329, 401 M Street SW., Washington, D.C. 20460. Comments should be submitted to the Regional Administrator, EPA region VI, 1600 Patterson Street, Dallas, Tex. 75201.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1207]

[No. 32155 (Sub-No. 3)]

HOUSEHOLD GOODS MOVING AND STORAGE INDUSTRY

Revenue and Expense Accounts

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 9th day of May 1973.

This proceeding is being instituted on our own motion to consider a proposal, presented jointly by several industry associations,[1] to prescribe a uniform system of accounts for the household goods moving industry.

EVENTS LEADING TO THIS PROCEEDING

Notice of proposed rulemaking dated June 17, 1971, was published in the FEDERAL REGISTER (36 FR 12750) advising all interested parties that this Commission had under consideration the revision of the Uniform System of Accounts for Class I and Class II Common and Contract Motor Carriers of Property as proposed by the American Trucking Association, Inc. (ATA).

In response to that notice the household goods moving industry requested us to consider a separate system of accounts for their use. They stated that the industry could abide by the definitions, instructions, and balance sheet accounts of the proposed ATA system, but the revenue and expense accounts did not relate to their unique operations.

We have studied the operations of the household goods carriers to evaluate the need for a separate system, or classification, of accounts. Most motor carrier transactions are between the carrier and a commercial enterprise, and consist of picking up, hauling, and delivering various commodities for use in the industrial, commercial, and retail markets. In contrast, the transactions of a household goods carrier are consumer oriented and involve the personal possessions of individuals and families. Besides the hauling function, the household goods carrier offers personal services such as prepacking for shipment and warehousing of personal possessions in transit. These accessorial services constitute a very significant portion of the total charges and it is essential that the costs incurred by the carriers in providing these accessorial services be identified in their accounts so as to measure the reasonableness of the charges assessed.

In our report in No. 32155 (sub-No. 2) Uniform System of Accounts for Motor Carriers of Property, 343 ICC 122 (1973),[2] adopting the ATA proposal we stated that the implementation of the request for this special classification of accounts would be considered in a separate proceeding.

REVISIONS PROPOSED BY THE HOUSEHOLD GOODS MOVING INDUSTRY

1. Definition 2 "Activity" would be revised by making the listed activities and their definitions applicable to all carriers other than household goods carriers and adding a separate set of activities applicable to household goods movers. The proposed activities for the household goods movers are:

[1] The American Movers Conference, the Household Goods Carriers' Bureau, the Movers' and Warehousemen's Association of America, Inc., and the National Furniture Warehousemen's Association.

[2] Published at 38 FR 12335, May 11, 1973.

CARRIER ACTIVITIES

Intercity moving.
Intrastate moving.
Local moving.
Indirect operating, carrier only.
General and administrative, carrier only.

NONCARRIER ACTIVITIES

Packing and crating.
Warehousing.
Overseas import and export.
Indirect operating, noncarrier.

2. Instruction 1, "Classification of Carriers", would be revised by making the stated classifications applicable to all carriers other than household goods carriers and adding a separate instruction applicable to household goods movers. The proposed classification for purpose of accounting and reporting regulations is set forth below.

3. Instruction 28, "Distribution of Expenses to Activities; Other Than General Commodity Carriers" would be revised by making the stated text applicable to carriers other than household goods carriers and adding a separate instruction applicable to household goods carriers. The proposed instruction relates to the distribution of operating expenses to the specialized activities of the household goods movers, as listed above, in the same manner as current instructions 27 and 28 relate to the distribution of expenses for other types of carriers.

4. The chart of accounts for Operating Revenues, Matrix of Operating Expenses, and Other Income and Expenses, together with the explanations for these accounts, would be revised by making them applicable to carriers other than household goods carriers and adding a separate classification of revenues and expenses applicable to household goods carriers. The proposed chart of revenue and expense accounts and the explanatory texts of the proposed accounts are more closely related to those operations unique to the household goods moving industry. They will more readily meet the needs of the Commission in its regulatory responsibilities and will provide carrier management with more complete and useful information to enable them to manage their operations more effectively.

FINANCIAL CONDITION OF AGENTS

In our study of the household goods moving industry, we became cognizant of the fact that much of the actual hauling of household goods is performed by agents of the certificate holding principal carrier. In *Ex parte No. MC–19* (sub-No. 9), Practices of Motor Common Carriers of Household Goods (Agency Relationships), 115 M.C.C. 628 we stated that "* * * the principal carrier is the one holding the certificate and, accordingly, it is the one to which we look for the performance of adequate and continuous service. * * * The regulations formulated in this report are directed to the practices of the principal carriers * * *. In turn the principal carriers will be required to exercise their clear and unmistakable responsibility for the policing of their agents."

One of the regulations promulgated in that order now appears at 49 CFR 1056.19(b) and requires, in part, that all principal carriers, upon entering an agency agreement, file with this Commission a statement that includes evidence of the financial condition of each agent.

It is our belief that the financial condition of agents is not only important at the inception of an agency agreement, but remains an important factor in continuing the agreement. The principal carriers should be advised of each agent's financial condition periodically to insure themselves and the public that the agents are financially capable. So that this information is more easily interpreted, the financial statements submitted by the agents as evidence of their financial condition should be presented to the principal carriers in a standard format.

To provide for this periodic review of the agents' financial condition by the principal carriers, we are proposing an amendment to Instruction 2, "Records", that would:

(1) Require the authorized carriers to obtain from their agents, an income statement for the previous year and a balance sheet for the preceding year as of the time of filing of the authorized carrier's annual report.

(2) Require the agents' financial statements currently required in § 1056.19(b) and the proposed annual financial statements to be retained by the authorized carrier to be prepared in accordance with the prescribed schedules for the balance sheet and income statement in annual report forms filed by the authorized carriers.

(3) Require the authorized carriers to retain the agents' annual financial statements in a separate file for a period of 3 years as part of its required records.

The above revisions would be made effective January 1, 1974, to coincide with the effective date of the new system of accounts adopted by this Commission in No. 32155 (sub-No. 2) as noted above.

This proceeding is not expected to have any impact upon the quality of the environment. However, should any person desire to comment on the impact of this proceeding on the environment, this Commission will consider environmental matters in accordance with our decision in Implementation—National Environmental Policy Act, 1969, 340 I.C.C. 431 (1972).

Upon consideration of the above-described matters and good cause appearing therefore:

It is ordered, That a proceeding be, and it is hereby, instituted under the authority of section 220 of the Interstate Commerce Act and pursuant to section 553 of the Administrative Procedure Act with a view of adopting the proposed regulations set forth below, and for the purpose of taking such other and further action as the facts and circumstances may justify and require.

It is further ordered, That no oral hearing be scheduled for the receiving of testimony in this proceeding unless a need therefore should later appear, but that respondents or any other interested parties may participate in this proceeding by submitting for consideration written statements of fact, views and arguments on the subjects mentioned above, or any other subjects pertaining to this proceeding.

It is further ordered, That any interested person wishing to submit statement of fact, views, or arguments shall file 15 copies of such representations with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, on or before June 30, 1973.

It is further ordered, That written material or suggestions submitted will be available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C., during regular business hours.

And it is further ordered, That statutory notice of the institution of this proceeding be given motor carriers of property hereby affected and the general public by depositing a copy of this order in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy thereof to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

By the Commission, Division 2.

[SEAL] ROBERT L. OSWALD,
Secretary.

It is proposed that part 1207, "Class I and Class II Common and Contract Motor Carriers of Property," of 49 CFR chapter X, be amended as set forth below.

I. INDEX

Item No. 1.—The index following the part title is amended by listing a reference to "Classification of Revenues and Expenses for Carriers of Household Goods." Immediately after the conversion table item "II Class II motor carriers" add:

CLASSIFICATION OF REVENUES AND EXPENSES FOR CLASS I AND CLASS II CARRIERS OF HOUSEHOLD GOODS

Chart of revenue and expense accounts.
Revenue account explanations.
Operating expense account explanations.
Other income and expense account explanations.

II. DEFINITIONS

Item No. 1.—Definition "2 Activity" is revised as follows: (a) The text is amended to make it applicable to carriers other than household goods carriers by revising the introduction to read:

2. "Activity," applies to the cost groupings to which operating expense accounts shall be distributed. These activities are identified in the individual expense account numbers by the unit position of the account number. The activities are defined as follows:

SECTION A—*Activities applicable to other than household goods carriers.*—(0) * * *

(b) Immediately after the text of activity 9 "General and Administrative" add activities applicable to household goods carriers to read:

SEC. B—*Activities applicable to household goods carriers.*—(0) "Control": The

control accounts contain the explanation for the content of the group of detail accounts for each category of revenue or expenses. They may include the total of the revenue or expense items for each class which have been distributed to the various activities.

(1) "Interstate moving": This carrier activity refers to the loading, unloading, and physical transportation of household goods between intercity locations or areas en route. The hauling service and all related accessorial moving services are under the jurisdiction of and regulated by the Interstate Commerce Commission. This activity includes such items as:

(a) All transportation revenue earned by the carrier from the movement of property in interstate service, excluding such revenue earned from the movement of loaded overseas containers of household goods.

(b) All mileage or hourly costs incurred by drivers and helpers while engaged in interstate hauling services.

(c) Expenses incurred in the operation and maintenance of all vehicles classified as "interstate." (See instruction 28B.)

(d) Operating taxes and license expense, depreciation expense, equipment rents, and purchased transportation expense incurred in connection with vehicles or agents engaged in interstate moving services, excluding only purchased transportation costs incurred in the movement of overseas containers of household goods.

(2) "Intrastate moving": This carrier activity refers to the loading, unloading, and physical transportation of household goods between intercity locations or areas en route. The hauling service and all related accessorial moving services are under the jurisdiction of and regulated by an appropriate State regulatory agency. This activity includes such items as:

(a) All transportation revenue earned by the carrier from the movement of property in intrastate service.

(b) All mileage or hourly costs incurred by drivers and helpers while engaged in intrastate hauling services.

(c) Expenses incurred in the operation and maintenance of all vehicles classified as "intrastate." (See instruction 28B.)

(d) Operating taxes and license expense, depreciation expense, equipment rents, and purchased transportation expense incurred in connection with vehicles or agents engaged in intrastate moving services.

(3) "Local moving": This carrier activity refers to the loading, unloading, and physical transportation of household goods within the city or town including contiguous suburban areas. This activity includes such items as:

(a) All transportation revenue earned by the carrier from the movement of property within his local zone.

(b) All mileage or hourly costs incurred by drivers and helpers while engaged in local hauling services.

(c) Expenses incurred in the operation and maintenance of all vehicles classified as "local." (See instruction 28B.)

(d) Operating taxes and license expense, depreciation expense, equipment rents, and purchased transportation expense incurred in connection with vehicles engaged in local moving services.

(4) "Indirect operating—carrier only": This carrier activity refers to the general expenses incurred necessary for the repairing and servicing of vehicles and any other shop and garage equipment used in motor carrier operations; the promotion and solicitation of traffic; the administering of insurance (other than employee benefit programs); the approval and payment of claims; the conducting of driver safety programs; the cost of operating the carrier's legal and permits department; and all other indirect operating costs, such as the carrier's dispatch department, necessary for providing local and long distance carrier services, but which cannot be specifically identified with any one shipment or trip. This activity includes such items as:

(a) Salaries of company employees who are engaged in any of the above carrier support or transportation service functions either full or part time.

(b) Hourly wages paid to mechanics and other employees while engaged in repairing equipment which cannot be specifically identified with either the local or long distance moving activities, but necessary for the performance of such transportation activities.

(c) Hourly wages paid to janitors, guards, and watchmen whose services cannot be specifically identified, but represent a reasonable pro rata charge to all transportation service functions.

(d) Fuel, lubricants, repair parts, and supplies applicable to carrier equipment which cannot be specifically identified with either the local or long distance moving activities, but necessary for the performance of such transportation activities.

(e) Materials, parts, and supplies which are common to all carrier activities and cannot be directly identified with any one of those activities.

(f) Fuel used for heating and representing a reasonable pro rata charge to the above transportation service functions.

(g) Outside services for repairs and other services which cannot be identified with any one of the carrier activities but necessary for the performance of transportation service functions.

(h) Electric power, gas, and water consumed in operations of the company, representing a reasonable pro rata charge to the above transportation service functions.

(i) Depreciation of equipment which cannot be specifically identified with any one of the carrier activities, but necessary for the performance of the above transportation service functions.

(j) Amounts paid for the rent of buildings or equipment which cannot be identified with a particular carrier income producing department, and representing a reasonable pro rata charge to carrier support or transportation service functions.

(5) "General and administrative—carrier only": This carrier activity refers to the overall administrative functions performed which relate to the carrier's entire transportation system. It includes such items as:

(a) Salaries of general officers administering the overall operation of carrier activities.

(b) Salaries and wages paid for staffing carrier administrative departments such as rating, billing, manifesting, collecting, general accounting, and revenue accounting.

(c) Costs of renting equipment such as accounting machines used in billing, collecting, or accounting for the revenue earned.

(d) Costs of materials and supplies used by carrier administrative departments.

(e) All other costs, or portions of costs which are not directly chargeable to another carrier operating activity on a reasonable basis.

(6) "Packing and crating": This noncarrier operating activity refers to those vehicle and miscellaneous overhead costs directly associated with providing at the request of the carrier's customer preliminary packing, special crating, and unpacking services for domestic shipments of household goods. It includes such items as:

(a) Special packing and crating revenue earned, including all such revenue earned from the intercity shipment of household goods.

(b) Salaries of company employees engaged either full or part time in administering the above-described accessorial moving services.

(c) Expenses incurred in the operation and maintenance of all vehicles classified as "packing and crating." (See instruction 28B.)

(d) Insurance and license costs, depreciation expense, and equipment rents incurred in connection with vehicles engaged in preliminary packing services.

(e) Packing materials and crating supplies.

(f) Expenses paid while engaged in this activity and any other costs directly related to providing these accessorial services.

(7) "Warehousing": This noncarrier operating activity refers to warehouse handling and storage services provided by carriers and furniture warehousemen to commercial and permanent storage customers or intercity shippers of household goods. This activity includes such items as:

(a) All storage and warehouse handling revenue earned, including all such revenue earned from the intercity shipper of household goods.

(b) Salaries of company employees engaged either full or part time in administering the above warehousing services.

(c) All hourly costs incurred by warehousemen while engaged in warehouse

handling and storage services, including all such warehouse handling charges necessary for providing storage in transit transit service on intercity moves.

(d) Depreciation and rent charges for warehouse facilities and equipment.

(e) Costs of operating and maintaining service vehicles used in storage operations.

(f) Operating supplies.

(g) Insurances and real estate taxes covering warehouse facilities.

(h) All other costs or portions of costs necessary for providing storage services.

(8) "Overseas import and export": This noncarrier operating activity refers to providing all transportation and transportation related services necessary for the movement of household goods and personal property between points in the Continental United States (except Alaska and Hawaii), having a prior or subsequent movement from or to an overseas point (other than Canada or Mexico).

This activity includes such items as:

(a) All revenue earned by the carrier for packing and stowing of goods in specially built containers at the shipper's residence (or at the port), carriage by motor vehicle to or from the port of departure or entry, and any additional charges assessed the shipper for stevedoring, obtaining customs clearance, preparation of shipping documents, and other special services performed on behalf of the shipper.

(b) All hourly costs incurred for packing or unpacking overseas containers of household goods.

(c) Purchased transportation costs incurred in the movement of loaded overseas containers.

(d) Salaries of company employees engaged either full or part time in administering the above import and export services.

(e) Operating supplies and overseas containerization materials.

(f) Depreciation and rental charges for equipment used in overseas operations.

(g) All other costs, or portions of costs necessary for providing overseas import and export service.

(9) "Indirect operating, noncarrier": This noncarrier activity shall include the revenues earned and expenses incurred by the carrier as a result of business activities that are not connected with its motor carrier operations, the investment in which is carried in Account 1261—Property Used in Other Than Carrier Operations (classes I and II). It includes such items as:

(a) Salary and wage costs of administrative personnel responsible for various portions of noncarrier activities, and such costs are not directly chargeable to any other noncarrier operating activity.

(b) Sales costs applicable to all noncarrier operations.

(c) Cost of materials and supplies used by noncarrier sales and administrative departments.

(d) All other costs which cannot be specifically identified with any other noncarrier operating activity, but necessary for the performance of such noncarrier services.

III. Instructions Amended

Item No. 1—Instruction 1.—"Classification of carriers" is revised as follows: (a) The text is amended to make it applicable to carriers other than household goods carriers by revising paragraph (a) to read:

1 Classification of carriers.

(a) For purposes of the accounting and reporting regulations, common and contract carriers of property subject to the Interstate Commerce Act are grouped into the following three classes:

A. Classification of Carriers Other Than Household Goods Carriers

Class I.—Carriers having average annual gross operating revenues (including interstate and intrastate) of $3 million or more from property motor carrier operations.

Class II.—Carriers having average annual gross operating revenues (including interstate and intrastate) of $500,000 but less than $3 million from property motor carrier operations.

Class III.—Carriers having average annual gross operating revenues (including interstate and intrastate) of less than $500,000 from property motor carrier operations.

B. Classification of Household Goods Carriers

Class I.—Carriers having average annual gross operating revenues (including interstate and intrastate) of $1 million or more from household goods carrier operations.

Class II.—Carriers having average annual gross operating revenues (including interstate and intrastate) of $100,000 but less than $1 million from household goods carrier operations.

Class III.—Carriers having average annual gross operating revenues (including interstate and intrastate) of less than $100,000 from household goods carrier operations.

* * * * *

Item No. 2.—Instruction 2 "Records" is amended by adding as paragraph (f) an instruction requiring household goods carriers to obtain and retain certain records relating to agents. The new paragraph (f) reads:

2 Records.

* * * * *

(f) Carriers classified as household goods carriers shall also comply with the following requirements.

(i) As evidence of the financial condition of agents required in § 1056.19(b) of this chapter, Required Filings Relating to Agency Agreements, the authorized carrier shall acquire from each of its agents (1) an income statement, including a detailed schedule of operating revenues and expenses, for the calendar year preceding the effective date of the agency agreement and (2) a balance sheet as of the last day of said year. The required financial statements shall be prepared in accordance with the prescribed schedules for such statements in the annual report form filed with the Commission by the authorized carrier.

(ii) Annually thereafter, for each year an agency agreement is in effect, the authorized carrier shall acquire the required statements from each of its agents no later than the time for the filing of the authorized carrier's annual report with the Commission. The agents' annual financial statements shall be retained by the authorized carrier in a separate file as part of its required records for a period of 3 years.

Item No. 3.—Instruction 27 "Distribution of Expenses to Activities: Other Than General Commodity Carriers," is amended as follows: (a) The text is amended to make it applicable to carriers other than household goods carriers by revising the introduction and paragraph (a) to read as follows, and by adding the following section B immediately after note A.

27 Distribution of expenses to activities: other than general-commodity carriers.

Section A—*Carriers other than household goods carriers.*—(a) All instruction 28 carriers, other than carriers of household goods, shall distribute expenses to the following activities:

(1) Line-haul and pickup and delivery.
(5) Billing and collecting, platform and terminal.
(6) Maintenance.
(7) Traffic and sales.
(8) Insurance and safety.
(9) General and administrative.

* * * * *

Sec. B—*Carriers of household goods.*—(a) Class I and class II carriers of household goods shall distribute expenses to the following activities (see definition 2):

(1) Interstate moving.
(2) Intrastate moving.
(3) Local moving.
(4) Indirect operating—carrier only.
(5) General and administrative—carrier only.
(6) Packing and crating.
(7) Warehousing.
(8) Overseas import and export.
(9) Indirect operating—noncarrier.

(b) Assignment of vehicles for the purpose of classifying expenses.

(1) All 28B carriers shall classify vehicles owned or used by the carrier as either revenue or service vehicles.

(2) Revenue vehicles (truck, tractor, trailer, container) are those vehicles which are used to transport household goods from one location or residence to another, for the purpose of generating revenue. Service vehicles (car, packing truck, wrecker, forklift) are those vehicles used to support carrier operations, or are necessary to provide packing services.

(3) Revenue vehicles shall be further classified into the interstate, intrastate, or local moving activity according to the service in which they are predominantly employed.

(i) Include in the "interstate" classification all vehicles predominantly engaged in the transportation of household goods in interstate moving service. The occasional use in intrastate moving or local moving, of vehicles regularly employed in interstate service would not affect their classification as "interstate."

(ii) Include in the "intrastate" classification all vehicles predominantly engaged in the transportation of household goods in intrastate moving service. The occasional use in interstate moving or local moving of vehicles regularly employed in intrastate service would not affect their classification as "intrastate."

(iii) Include in the "local" classification all revenue vehicles predominantly employed in local transportation services. Local moves generally are performed within the city or town and contiguous suburban districts. The shipper is normally billed on an hourly rate basis. The incidental or occasional use in intercity service of vehicles regularly employed in local transportation service would not affect their classification as "local."

(4) Service vehicles shall be assigned to the activity according to the service in which it is predominantly employed. For example, automobiles used by salesmen for generating intercity traffic shall be assigned to "Indirect Operating—Carrier Only" whereas forklift trucks used to move storage containers shall be assigned to the "Warehousing" activity. Automobiles used by officers shall be assigned to the activity where the greatest proportion of time and salary of the officer is assigned. (See instruction 11.)

(c) Allocation of vehicle related expenses according to assignment of vehicles to the appropriate activity.

(1) All 28B carriers specified in paragraph (a) above shall allocate vehicle expenses to the appropriate activity where the vehicle has been assigned (as specified in paragraph (b) above).

(2) The vehicle related expense control accounts are as follows:

6110—Gasoline and Diesel Fuel.
6120—Motor Oil and Lubricants.
6200—Tires and Tubes.
6300—Other Vehicle Supplies.
6400—Vehicle Repair Parts.
7100—Outside Services—Vehicle Repairs and Maintenance.
7610—Equipment Rents Without Drivers.
7620—Tractor Rents With Driver From Agent.
7630—Tractor Rents With Driver From Owner Operators.
7640—Tractor-Trailer Rents With Driver From Agent.
7650—Tractor-Trailer Rents With Driver From Owner Operators.
7690—Equipment Rents—Credit.
8110—Depreciation—Revenue Equipment.
8420—Vehicle Licenses and Registration Fees—State and Local.
8430—Vehicle Licenses and Registration Fees—Federal.
8440—Gas, Diesel Fuel, and Oil Taxes—State and Local.
8450—Gas, Diesel Fuel, and Oil Taxes—Federal.
8620—Public Liability and Property Damage—Premiums Paid.
8630—Public Liability and Property Damage—Collections From Haulers (Credit).
8640—Fire, Theft, and Collison Insurance—Premiums Paid.
8650—Fire, Theft, and Collision—Collections From Haulers (Credit).
8720—Provision for Claims—Self-Insured Portion—Public Liability and Property Damage.
8740—Provision for Claims—Self-Insured Portion—Fire, Theft, and Collison.

The detail accounts to which the expenses shall be distributed are defined in the account explanation of each of the control accounts listed above.

(d) Distributions of vehicle expenses by 28B carriers.

(1) As stated in paragraph (b) above all vehicle equipment shall be assigned to the specific activity which they are designated to serve—either exclusively or primarily. In this manner, equipment costs are identified with a specific vehicle rather than with specific trips such a vehicle might make. On this basis, expense charges for each piece of equipment should be made to only one activity, as originally designated each year.

(2) Since it is desirable to match the cost of operating and maintaining a vehicle with the revenue generated from the use of that vehicle, it is proper to reflect the cost of any significant vehicle equipment usage variations between activities, such as between interstate moving and intrastate moving. The following types of vehicle related costs, if material, should be transferred between activities based upon miles of service in each activity:

Gasoline and diesel fuel and taxes thereon.
Motor oils and lubricants.
Other vehicle supplies.
Outside services—vehicle repairs and maintenance.
Tires and tubes.
Vehicle repair parts.

(3) The following vehicle ownership costs, if material, should be transferred between activities based upon a daily usage rate (such as costs per 8-hour day) for specific classes of equipment:

Depreciation—vehicles—revenue equipment.
Licenses and registration fees.
Insurance—fire, theft, and collision.
Vehicle insurance—public liability and property damage.

The cost per day of the above items could be obtained by dividing the annual ownership cost for each class of equipment by the number of working days (say 250 days).

(e) Distribution of building and structure related expenses to activities.

(1) Carriers shall assign each building or structure to one of the following activities, depending upon the primary purpose of that building or structure and the activity in which it is used.

(5) General and administrative—carrier only.
(7) Warehousing.
(8) Overseas import and export.
(9) Indirect operating—noncarrier.

(i) The general and administrative—carrier only activity shall include all buildings and structures owned, leased, or rented by the carrier which are used in conjunction with its line haul activities as a carrier of household goods. Include also buildings attached to the carrier operations facility which act as storage areas for tools and equipment used in carrier operations. Include in this activity all buildings and structures owned, leased, or rented by the carrier which are used to service and repair the carrier's vehicles.

(ii) The warehousing activity shall include all buildings and structures owned, leased, or rented by the carrier which are used in conjunction with its storage and warehouse handling services.

(iii) The overseas import and export activity shall include all buildings and structures necessary for the movement of household goods between points in the United States (except Alaska and Hawaii) and foreign points (except Canada and Mexico).

(iv) The indirect operating—noncarrier activity shall include all buildings and structures not included elsewhere.

(2) Class I and class II carriers shall distribute building and structure related expenses to the appropriate activity using one of the following methods (in order of preference):

(i) Carriers may assign the full expense of a particular building or structure to a particular activity based upon the primary purpose of the building or structure, and the activity in which it is used.

(ii) Carriers may assign a proportion of the expense of a building or structure to an activity based upon the square footage used by that particular activity.

(iii) Carriers may use any other reasonable and equitable method they can substantiate.

(iv) Furniture and fixture expenses shall be assigned to the building or structure in which it is located.

(3) The building and structure related expense accounts referred to above are as follows:

8140—Depreciation—Buildings and Structures.
8150—Depreciation—Furniture and Office Equipment.
8210—Amortization of Leasehold Improvements.
8310—Rent on Building Property.
8410—Real Estate and Personal Property Taxes.
8660—Insurance on Buildings and Structures.

(f) Distribution of wages of drivers and helpers.

(1) Instruction 28B carriers shall separate the wages of drivers and helpers performing interstate moving, intrastate moving, or local moving services and charge the appropriate moving activity according to the type of service performed by the employee.

(2) The wages of a driver making an interstate trip shall be charged to the interstate moving activity, irrespective of whether the vehicle used for the trip has been classified as interstate or intrastate. Similarly if a driver is engaged in the carrier's local moving service, his wages while so employed shall be charged to the local moving activity, irrespective of whether the vehicle used in performing the move has been classified as local moving or interstate or intrastate moving.

(3) Where a driver spends part of the day in making a line-haul trip after which he is assigned to the carrier's storage service, his wages for the line-haul trip shall be charged to the appropriate moving activity, and his wages

for the warehouse handling work performed shall be charged to the warehousing activity.

(4) The distribution of wages of drivers and helpers as described above shall be subject to the provisions of instruction 11(b) regarding incidental services.

(g) Distribution of wages of vehicle repair and service labor. All instruction 28B carriers shall distribute the wages of vehicle repair and service labor to appropriate activities based on the activity to which the vehicle worked on is assigned as specified in paragraph (b) above. Vehicle repair and service labor which cannot be identified as to class of vehicle worked on shall be charged to the indirect operating—carrier only activity.

(h) All instruction 28B carriers shall be prepared to describe the basis of apportionment used to distribute expenses included in this instruction.

(i) Any carrier which finds it impracticable to distribute expenses as required by this instruction should furnish the Commission with full particulars of the conditions which prevent the proper distribution. Upon receipt of such information carriers will be advised of the procedure to be followed.

[1] NOTE.—For class II carriers, some revenue classifications have been combined in this matrix of revenues. These combinations are designated by arrows to the left of the revenue classifications.

[2] NOTE.—For class II carriers, several natural classifications have been combined in this matrix of operating expenses. These combinations are designated by arrows to the left of the natural classifications. For example, class II carriers shall report salaries of: supervisory and administrative personnel, clerical, sales salaries—employees, officers, department and division managers in one natural classification—4100.

An asterisk next to an account number indicates that only class II carriers are required to use this account.

CLASS I AND CLASS II CARRIERS OF HOUSEHOLD GOODS

REVENUE ACCOUNT EXPLANATIONS

3100—Moving Revenue—Intercity Common Carrier, Own Rights (classes I and II).

(a) This account may be used as a control account for all accounts in the 3100 series.

(b) This account series shall include all line-haul revenue earned by the carrier from the transportation of property in intercity service, while operating as a common carrier as defined in section 203(a)(14) of the Interstate Commerce Act. This includes:

(1) Revenue upon the basis of single-line freight rates, including arbitraries and zone rates.

(2) The carrier's proportion of revenue earned on interline shipments.

(3) Revenue from substitute intercity services performed for a carrier by railroad, air, or water.

(4) Revenue from the intercity transportation of property in intrastate commerce if the service is similar to that of a common carrier as defined in section 203(a)(14) of the Interstate Commerce Act.

(c) This account series shall be charged with:

(1) Refunds of overcharges resulting from the use of erroneous intercity rates, weights, classifications, or computations, or from other errors.

(2) The carrier's proportion of refunds of interline freight charges in settlement of cargo loss and damage claims.

(3) Uncollected earnings on intercity freight destroyed in transit, and on short and lost freight.

(4) The carrier's proportion of uncollected intercity tariff charges on damaged shipments for which charges neither shipper nor consignee is liable.

(5) Payouts of interline divisions.

NOTE A.—Divisions of interline tariff charges due other carriers shall be included in Account 2020—Payables to Affiliated Companies (class II); and 2023—Accounts Payable to Affiliated Companies (class I); or Account 2032—Accounts Payable; Interline (classes I and II).

NOTE B.—Revenue from the intercity transportation of property in intrastate commerce, if the service is similar to that of a contract carrier as defined in section 203(a)(15) of the Interstate Commerce Act, shall be included cluded in Account 3300—Moving Revenue—Intercity Contract Carrier, Own Rights.

NOTE C.—Revenue from local moving service performed for another carrier shall be included in Account Series 3300—Moving Revenue—Local.

NOTE D.—Revenue from the intercity transportation of loaded overseas containerized shipments between points in the Continental United States (except Alaska and Hawaii), having a prior or subsequent movement from or to an overseas point (other than Canada or Mexico) shall be credited to the following accounts:

3118—Moving Revenue—Intercity Common Carrier, Own Rights—Company Driver—Overseas Import and Export.
3128—Moving Revenue—Intercity Common Carrier, Own Rights—Owner Operator—Overseas Import and Export.
3138—Moving Revenue—Intercity Common Carrier, Own Rights—Agent—Overseas Import and Export.

NOTE E.—Intercity service for the purpose of accounting and compiling statistical data means transportation performed beyond the limits defined for local service (see note C to account 3300 for definition of local service).

NOTE F.—Revenue from drayage on storage in transit shipments outside the local zone shall be included in account series 3100.

3110—Moving Revenue—Intercity Common Carrier, Own Rights—Company Driver.

This account shall include all line-haul revenue earned by the carrier when the carrier employs its own vehicles and the services of its own company drivers for hauling loads over its routes in intercity service, and the expenses incurred are borne by the carrier. The total of such amounts shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3111—Moving Revenue—Intercity Common Carrier, Own Rights—Company Driver—Interstate Moving.
3112—Moving Revenue—Intercity Common Carrier, Own Rights—Company Driver—Intrastate Moving.
3118—Moving Revenue—Intercity Common Carrier, Own Rights—Company Driver—Overseas Import and Export.

3120—Moving Revenue—Intercity Common Carrier, Own Rights—Owner Operator.

This account shall include all line-haul revenue earned by the carrier when the carrier employs vehicles and services of owner operators (independent contractors, contract truckmen) for hauling loads over its routes in intercity service, and the expenses incurred in their operation are borne by the owners of the vehicles. The carrier shall record the freight revenue from such hauls in the same manner as if it owned the vehicles. The total of such amounts shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3121—Moving Revenue—Intercity Common Carrier, Own Rights—Owner Operator—Interstate Moving.
3122—Moving Revenue—Intercity Common Carrier, Own Rights—Owner Operator—Intrastate Moving.
3128—Moving Revenue—Intercity Common Carrier, Own Rights—Owner Operator—Overseas Import and Export.

NOTE A.—Amounts payable to the owners of the vehicles as compensation for the hauls shall be debited to Account 7630—Tractor Rents With Driver From Owner Operators, or Account 7650—Tractor-Trailer Rents With Driver From Owner Operators.

3130—Moving Revenue—Intercity Common Carrier, Own Rights—Agent.

This account shall include all line-haul revenue earned by the carrier when the carrier employs vehicles and services of agents for hauling loads over its routes in intercity service, and the expenses incurred in their operation are borne by the agent. The carrier shall record the freight revenue from such hauls in the same manner as if it owned the vehicles. The total of such amounts shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3131—Moving Revenue—Intercity Common Carrier, Own Rights—Agent—Interstate Moving.
3132—Moving Revenue—Intercity Common Carrier, Own Rights—Agent—Intrastate Moving.
3138—Moving Revenue—Intercity Common Carrier, Own Rights—Agent—Overseas Import and Export.

NOTE A.—Amounts payable to agents for performing line-haul services of the carrier's intercity freight under arrangements whereby the agreement for the amount payable is based on other than actual division of tariff rates by participation in the tariffs shall be debited to Account 7620—Tractor Rents With Driver From Agent, or Account 7640—Tractor-Trailer Rents With Driver From Agent.

3200—Moving Revenue—Intercity Contract Carrier, Own Rights (classes I and II).

(a) This account may be used as a control account for all accounts in the 3200 series. Such revenue shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3201—Moving Revenue—Intercity Contract Carrier, Own Rights—Interstate Moving.
3202—Moving Revenue—Intercity Contract Carrier, Own Rights—Intrastate Moving.
3208—Moving Revenue—Intercity Contract Carrier, Own Rights—Overseas Import and Export.

(b) This account series shall include all line-haul revenue earned by the carrier from the transportation of property in intercity service while operating as a contract carrier as defined in section 203(a)(15) of the Interstate Commerce Act. This includes:

(1) Revenue on the basis of contracts or agreements for the transportation of property in the intercity service.

(2) Revenue from the intercity transportation of property in intrastate commerce if the service is similar to that of a contract carrier as defined in section 203(a)(15) of the Interstate Commerce Act.

(c) This account series shall be charged with:

(1) Refunds of overcharges resulting from the use of erroneous intercity rates, weights, classifications, or computations, or from other errors.

(2) The carrier's proportion of refunds of freight charges in settlement of a cargo loss and damage claim. Do not include claim payment for loss or damage.

(3) Uncollected earnings on intercity freight destroyed in transit, and on short and lost freight.

(4) The carrier's proportion of uncollected intercity charges on damaged shipments for which charges neither shipper nor consignee is liable.

NOTE A.—When a carrier employs vehicles and services of others on a commission or other basis for hauling loads over its routes in intercity service, and the expenses incurred in their operation are borne by the owners of the vehicles, the carrier shall record the freight revenue from such hauls in this account in the same manner as if it owned the vehicles. Amounts paid to the owners of the vehicles as compensation for the hauls shall be debited to the appropriate account in the 7600 Series—Purchased Labor and Transportation.

NOTE B.—Revenue from the intercity transportation of property in intrastate commerce, if the service is similar to that of a common carrier as defined in section 203(a)(14) of the Interstate Commerce Act, shall be included in Account 3300—Moving Revenue—Intercity Common Carrier, Own Rights.

NOTE C.—Revenue from local moving service performed for another carrier shall be included in Account 3300—Moving Revenue—Local.

NOTE D.—Intercity service for the purpose of accounting and compiling statistical data means transportation performed beyond the limits defined for local service (see note C to account 3300 for definition of "local service").

3300—Moving Revenue—Local (classes I and II).

(a) This account may be used as a control account for all accounts in the 3300 series. Such revenue shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3303—Moving Revenue—Local—Local Moving.
3308—Moving Revenue—Local—Overseas Import and Export.

(b) This account series shall include revenue earned by common or contract carriers from the transportation of property in local moving service.

Transportation of loaded containers from warehouse to terminal within the local zone (see notes D and E).

(c) This account series shall be debited with overcharges resulting from the use of erroneous local rates, weights, classification, or computations, and uncollected earnings of freight damaged or destroyed in transit, or short and lost freight. Do not include claim payment for loss or damage.

NOTE A.—When a carrier employs vehicles and services of others on a commission or other basis for hauling loads in its local moving service and the expenses incurred in their operation are borne by the owners of the vehicles, the carrier shall record the freight revenue from such hauls in this account in the same manner as if it owned the vehicles. Amounts paid to the owners of the vehicles as compensation for the hauls shall be debited to Account 7630—Tractor Rents With Driver From Owner Operators or Account 7650—Tractor-Trailer Rents With Driver From Owner Operators.

NOTE B.—Revenue earned by the carrier from additional services incident to its transportation of property in intercity service shall be included in account series 3600.

NOTE C.—Local service, for the purpose of accounting and of compiling statistical data, means transportation performed within a city or town including the suburban area contiguous thereto. Local service does not include revenue from freight carried under tariffs, covering areas beyond the local area.

NOTE D.—Revenue earned by the carrier for the intercity transportation of loaded containerized shipments shall be credited to account series 3100 or account series 3200, whichever is appropriate. (See note D in account 3100.)

NOTE E.—Revenue earned by the carrier for the transportation of loaded overseas containers within his local zone shall be credited to account 3308.

NOTE F.—Revenue earned by an agent for making a pickup for his principal carrier's convenience shall be credited to account series 3600.

3400—Moving Revenue—Intercity Transportation for Other Motor Carriers (classes I and II).

(a) This account may be used as a control account for all accounts in the 3400 series.

(b) This account series shall include revenue earned from any other motor carriers under a purchased transportation arrangement, for performing any portion of their intercity haul, such as:

(1) Revenue from furnishing line-haul vehicles with drivers to any other carrier under lease or similar arrangement, when the drivers are paid by the reporting carrier (lessor). (See note A.)

(2) Revenue from transporting household goods for any other carrier when such transportation is purchased by the other carrier to complete any portion of its intercity haul.

(3) Revenue from the transportation in intercity service of loaded or empty trailers for any other carrier.

NOTE A.—Revenue received from the lease of revenue vehicles to other carriers without drivers or from the lease of revenue vehicles with drivers, when the drivers are paid directly by the lessee, shall be included in Account 7690—Equipment Rents—Credit (classes I and II).

3410—Moving Revenue—Intercity Transportation for Other Motor Carriers—Company Driver.

This account shall include all line-haul revenue earned by the carrier when the carrier employs its own vehicles and the services of its own company drivers for hauling loads under a purchased transportation arrangement. The total of such amounts shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3411—Moving Revenue—Intercity Transportation for Other Motor Carriers—Company Driver—Interstate Moving.
3412—Moving Revenue—Intercity Transportation for Other Motor Carriers—Company Driver—Intrastate Moving.
3418—Moving Revenue—Intercity Transportation for Other Motor Carriers—Company Driver—Overseas Import and Export.

3420—Moving Revenue—Intercity Transportation for Other Motor Carriers—Owner Operator.

This account shall include all line-haul revenue earned by the carrier when the carrier employs vehicles of owner operators for hauling loads under a purchased transportation arrangement. The total of such amounts shall be distributed to the following accounts whose

activities are explained and interpreted in definition 2:

3421—Moving Revenue—Intercity Transportation for Other Motor Carriers—Owner Operator—Interstate Moving.
3422—Moving Revenue—Intercity Transportation for Other Motor Carriers—Owner Operator—Intrastate Moving.
3428—Moving Revenue—Intercity Transportation for Other Motor Carriers—Owner Operator—Overseas Import and Export.

3500—Containers, Packing and Unpacking Services (Classes I and II).

(a) This account may be used as a control account for all accounts in the 3500 series.

(b) This account series shall include revenue earned from performing both interstate and intrastate packing and unpacking services. This account series shall also include revenue earned from providing through-container packing and loading services at domestic points for overseas containerized shipments. Revenue for providing these services shall be credited to this account whether specialized packing crews are used, or whether driver and/or helpers perform this service in connection with other transportation services.

NOTE A.—When any of the above services are actually performed by a class I or class II carrier's agent, amounts billed the shipper therefore shall be credited by the carrier to Account 2020—Payable to Affiliated Companies (class II); and Account 2023—Accounts Payable to Affiliated Companies (class I); or Account 2032—Accounts Payable; Interline (classes I and II).

3510—Packing Only—Interstate.

This account shall include all revenue earned from providing interstate preliminary packing services, as well as revenue earned from the packing and the construction of special crates and containers (specially designed for mirrors, paintings, glass or marble tops, and similar fragile articles) which remain the property of the interstate shipper. The amount in this account is credited to Account 3516—Packing Only—Interstate—Packing and Crating.

NOTE A.—Revenue from performing intrastate packing services shall be included in Account 3530—Packing and Unpacking—Intrastate.

NOTE B.—Revenue from performing packing services for overseas thru-container shipments shall be included in Account 3570—Thru-Container Packing and Loading.

3520—Unpacking Only—Interstate.

This account shall include all revenue earned from the unpacking, unwrapping, or uncrating of carrier packed containers, and the disposal of such containers and materials when requested by the interstate shipper. Such service is usually performed at the time of delivery at the destination point. The amount in this account is credited to Account 3526—Unpacking Only—Interstate—Packing and Crating.

NOTE A.—Revenue from performing intrastate unpacking services shall be included in Account 3530—Packing and Unpacking—Intrastate.

3530—Packing and Unpacking—Intrastate.

This account shall include all revenue earned from providing intrastate packing, crating, and unpacking services. The amount in this account is credited to Account 3536—Packing and Unpacking—Intrastate—Packing and Crating.

3570—Thru-Container Packing and Loading.

This account shall include all revenue earned from providing origin or destination services for overseas containerized shipments. Such services shall include but are not limited to: Preliminary packing, performance of a premove survey, supplying and stenciling or marking of the shipping container, stowage and unstowage of the contents of the container, and the loading or unloading of overseas shipping containers onto or off of the carrier's line-haul equipment. The amount in this account is credited to Account 3578—Thru-Container Packing and Loading—Overseas Import and Export.

NOTE A.—When the carrier is required to engage services of third persons to load or unload containers onto or from the carrier's vehicle, charges for these services shall be credited to Account 2034—Accounts Payable Other (classes I and II).

3580—Additional Charges—Overseas Shipments.

This account shall include all revenue earned from charges assessed the shipper for stevedoring, obtaining customs clearance, preparation of shipping documents, and similar special services provided. The amount in this account is credited to Account 3588—Additional Charges—Overseas Shipments—Overseas Import and Export.

NOTE A.—Class II carriers shall use account 3570 to record such additional charges.

NOTE B.—The portion of the through revenue payable to the steamship line for transporting the shipment across the ocean and the portion payable to the foreign carrier for delivery to final destination should be included in Account 2082—Accounts Payable, Interline (classes I and II).

3590—Other Packing and Crating Service Revenue.

This account shall include revenue earned from any packing, wrapping and/or crating services provided at the warehouse for permanent storage customers; from the sale of packing materials; from special military pack and crate contracts; from supplying extra packing labor requested by a shipper within the carriers local zone; and other packing and crating revenue not included elsewhere within account series 3500. The total of such amounts shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3596—Other Packing and Crating Service Revenue—Packing and Crating.
3598—Other Packing and Crating Service Revenue—Overseas Import and Export.

3600—Suplementary Transportation Services (classes I and II).

This account may be used as a control account for all accounts in the 3600 series. Class II carriers shall include in this account group the revenue includible in accounts 3610, 3620, 3630, and 3640 for additional transportation charge; extra stops, pickup, delivery; empty mileage; and miscellaneous supplementary services rendered in connection with intercity transportation of household goods. Such revenue shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3601—Supplementary Transportation Services—Interstate Moving.
3602—Supplementary Transportation Services—Intrastate Moving.

NOTE A.—If charges for any of the supplementary services assessed the shipper are payable in full to an agent performing the services, such amounts should be cleared through Account 2020—Payable to Affiliated Companies (class II); and Account 2023—Accounts Payable to Affiliated Companies (class I); or Account 2032—Accounts Payable, Interline (classes I and II). If, however, any portion is retainable by the carrier, the amount thereof should be credited to the appropriate operating revenue account within Account Series 3600.

3610—Additional Transportation Charge.

This account shall include revenue earned from shipments originating at or destined to certain metropolitan areas with high density population areas whereby an additional charge is made by the carrier as allowed by its tariff. The total of such amounts shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3611—Additional Transportation Charge—Interstate Moving.
3612—Additional Transportation Charge—Intrastate Moving.

NOTE A.—Class II carriers shall use Account 3600 to record these additional transportation charges assessed the shipper.

3620—Extra Stops, Pickup, Delivery.

This account shall include revenue earned as a service charge by the carrier for each stop or call at one or more places for making additional pickups after the first pickup, or additional deliveries after the first delivery. The total of such amounts shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3621—Extra Stops, Pickup, Delivery—Interstate Moving.
3622—Extra Stops, Pickup, Delivery—Intrastate Moving.

NOTE A.—Class II carriers shall use account 3600 to record revenue earned from extra stops, pickup, or delivery.

3630—Empty Mileage.

This account shall include revenue earned by the carrier for empty miles traveled at the request of the shipper. This service charge is made when a shipper, having one or more shipments and desiring to continue movement of all such shipments, requests the empty

movement of equipment from destination to point of origin of next shipment, for further loading subject to the availability of such carrier equipment. The total of such amounts shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3631—Empty Mileage—Interstate Moving.
3632—Empty Mileage—Intrastate Moving.

NOTE A.—Class II carriers shall use account 3600 to record revenue earned from empty mileage charges assessed the shipper.

3640—Miscellaneous Supplementary Transportation Services.

This account shall include other revenues derived from the transportation of property in connection with intercity service, when operating as a common carrier (or a contract carrier) as defined in section 203(a) (14) and (15) of the Interstate Commerce Act.

The total of such amounts shall be distributed to the following accounts whose activities are explained and interpreted in definition 2:

3641—Miscellaneous Supplementary Transportation Services—Interstate Moving.
3642—Miscellaneous Supplementary Transportation Services—Intraastate Moving.

NOTE A.—Class II carriers shall use account 3600 to record revenue earned from miscellaneous transportation services.

3700—Warehousing Revenue (classes I and II).

This account may be used as a control account for all accounts in the 3700 series.

3710—Storage Household Goods—SIT Interstate.

This account shall include storage revenue earned by a carrier for holding an interstate shipment in its warehouse pending further transportation instructions by the shipper. The amount in this account is credited to Account 3717—Storage Household Goods—SIT Interstate—Warehousing. Storage revenue earned after the storage-in-transit period has expired shall be credited to Account 3750—Storage—Other Than Carrier Shipments.

3720—Warehouse Handling, In/Out—SIT Interstate.

This account shall include revenue earned by a carrier for handling an interstate storage-in-transit shipment, whether received as loose stowage or containerized. The amount in this account is credited to Account 3727—Warehouse Handling. In/Out—SIT Interstate—Warehousing. Any warehouse handling revenue not related to the intercity movement of household goods shall be credited to Account 3760—Warehause Handling, In/Out—Other Than Carrier Shipments.

3730—Storage Household Goods—SIT Intrastate.

This account shall include storage revenue earned by a carrier for holding an intrastate shipment in its warehouse pending further transportation instructions by the shipper. The amount in this account is credited to Account 3737—Storage Household Goods—SIT Intrastate—Warehousing. Storage revenue earned after the storage-in-transit period has expired shall be credited to Account 3750—Storage—Other Than Carrier Shipments.

3740—Warehouse Handling, In/Out—SIT Intrastate.

This account shall include revenue earned by a carrier for handling an intrastate storage-in-transit shipment, whether received as loose stowage or containerized. The amount in this account is credited to Account 3747—Warehouse Handling, In/Out—SIT Intrastate—Warehousing. Any warehouse handling revenue not related to the intercity movement of household goods shall be credited to Account 3760—Warehouse Handling, In/Out—Other Than Carrier Shipments.

3750—Storage—Other Than Carrier Shipments.

This account shall include storage revenue earned from the permanent storage of civilian household goods, commercial goods, or records storage. Also included are the following storage revenue items not related to an intercity shipment as described in Accounts 3710 and 3730:

(1) Household goods storage revenue earned on Public Law 245 storage lots—non temp.

(2) Revenue received for accepting shipments set off enroute by a hauling carrier.

(3) Revenue received for the rental of distinct portions of warehouse property to others, usually on a short-term lease basis. (This excludes subleasing of warehouse space to others. See also, Account 8310—Rent on Building Property.)

The amount in this account is credited to account 3757—Storage—Other Than Carrier Shipments—Warehousing.

3760—Warehouse Handling, In/Out—Other Than Carrier Shipments.

This account shall include warehouse handling revenue earned by a carrier for handling services provided not related to an intercity shipment as described in accounts 3720 and 3740. This includes:

(1) Revenue received for handling goods into and out of the warehouse, whether such goods are regular or Government contract storage lots.

(2) Revenue received for providing labor to other carriers for loading and unloading vans.

(3) Revenue received for providing access labor into customers lots.

The amount in this account is credited to Account 3767—Warehouse Handling, In/Out—Other Than Carrier Shipments—Warehousing.

NOTE A.—Class II carriers shall use Account 8700 to record any self-insured provisions for fire, theft, and collision.

NOTE B.—Fire insurance on buildings and structures shall be charged to Account 8660—Insurance on Buildings and Structures.

8800—Uncollectible Revenue.

This account shall be charged, and Account 1131—Accounts Receivable—Customers and Interline (classes I and II) shall be credited, with receivables for carrier operating revenues, including interline proportions of revenue due from other carriers, which, after a reasonably diligent effort to collect, have proved impracticable of collection. If accounts which have been so written off are afterwards collected, the amount received shall be credited to this account: *Provided, however,* That such recoveries are from accounts charged off against this account. Debits to this account may be made monthly on the basis of the estimated average loss of revenue due to uncollectible accounts in which case the concurrent credit shall be to Account 1138—Allowance for Uncollectible Accounts (classes I and II). To the allowance thus established shall be charged such amounts as are determined to be uncollectible and amounts written off and subsequently collected shall be credited to the allowance. When charges to this account are made by estimate, the estimate shall be adjusted at the end of each calendar year to conform to the experience of the accounting carrier as determined by analysis of its accounts receivable. The total of such amounts in this account shall be distributed to the following accounts in accordance with instruction 28B:

8805—Uncollectible Revenue—General and Administrative—Carrier Only.
8809—Uncollectible Revenue—Indirect Operating—Noncarrier.

NOTE A.—Losses on receivables for carrier operating revenues, including such losses on notes or claims receivable, shall be charged to account 8805. Losses on receivables for noncarrier operating revenues, including such losses on notes or claims receivable, shall be charged to account 8809.

NOTE B.—Losses on receivables for nonoperating revenues, including such losses on notes or claims receivable, shall be charged to account 9500.

NOTE C.—Uncollected COD's (through bankruptcy of delivery carrier or agent, fault of driver, etc.) shall be charged to account 8805.

8900—Gain or Loss on Disposition of Operating Assets.

This account may be used as a control account for all accounts in the 8900 series.

8910—Gains on Disposition of Operating Assets.

(a) This account shall reflect the gains on each unit of retired, sold, or traded-in operating assets, including accounts 1221 through 1232 (class II) and accounts 1221 through 1252 (class I), depreciated under the unit plan. (See instruction 21(a)(1).) This account shall also reflect the gains on disposition of carrier intangible property having a fixed term. (See instruction 21(b)(1).) Such amounts shall be credited to account 8915.

(b) Gains on disposition of property used in other than carrier operations shall be credited to Account 8919.

NOTE A.—Gains on disposition of intangible property not having a fixed term shall be included in Account 9410—Nonoperating Gains on Disposition of Assets.

NOTE B.—Gains on disposition of land and structures shall be included in Account 9430—Gains or Losses on Disposition of Land and Structures.

8920—Losses on Disposition of Operating Assets.

(a) This account shall reflect the loss on each unit of retired, sold, or traded-in carrier operating property, depreciated under the unit plan. (See instruction 21(a)(1).) This account shall also reflect the losses on disposition of carrier intangible property having a fixed term. (See instruction 21(b)(1).) Such amounts shall be charged to Account 8925.

(b) Losses on disposition of property used in other than carrier operations shall be charged to Account 8929.

NOTE A.—Losses on disposition of intangible property not having a fixed term shall be included in Account 9420—Nonoperating Losses on Disposition of Assets.

NOTE B.—Losses on disposition of land and structures shall be included in Account 9430—Gains or Losses on Disposition of Land and Structures.

This account group includes all interest accrued on matured obligations issued or assumed by the carrier.

NOTE A.—This account shall not include interest on securities held by the carrier in its treasury, in sinking or other special funds, or pledged as collateral.

NOTE B.—See Note B, account 9210.

9270—Amortization of Debt Discount and Expense.

This account shall be charged each month with the applicable proportion of the unamortized discount and expense on outstanding long-term debt (see Note A). Nonmaterial costs of tax stamps (for long-term notes, mortgages, etc.) shall be charged directly to this account.

NOTE A.—The proportion to be charged to this account each month shall be determined according to a rule, the uniform application of which during the interval between the issuance and maturity of any debt will completely amortize the discount at which such debt was issued and the debt expense connected therewith. Amounts charged to this account shall be concurrently credited to Account 1510—Deferred and Miscellaneous Debits (class II) or Account 1511—Unamortized Debt Discount and Expense (class I) (see instruction 17).

9280—Amortization of Premium on Debt—Credit.

This account group shall be credited each month with the applicable proportion of the premium at which outstanding long-term debt was issued.

NOTE A.—The proportion to be credited to this account each month shall be determined according to a rule the uniform application of which during the interval between the issuance and the maturity of any debt will completely amortize the premium at which such debt was issued. Amounts credited to this account shall be concurrently debited to Account 2410—Deferred Credits (class II) or Account 2411—Unamortized Premium on Debt (class I).

9300—Interest and Dividend Income.

This account may be used as a control account for account series 9300.

9310—Interest Income.

(a) This account shall include interest accruing to the accounting carrier on securities of other companies and Federal, State, or municipal governments, on loans, notes, and advances; special deposits and all other interest-bearing assets. Interest accrued shall not be credited to this account unless its payment is reasonably assured. In other cases, credits to this account shall be based upon the interest actually collected. The periodic amortization of a discount on the purchase of an interest-bearing note shall be credited to this account. (See instruction 18(c).)

(b) This account shall be kept so as to show separately the interest income from each investment and from each affiliated company.

NOTE A.—Service charges assessed by the company in connection with advance of money shall be included in this account.

9320—Dividend Income.

(a) This account shall include income derived by the accounting carrier from the dividends on stock of other companies held by it. Accruals of guaranteed dividends may be included in this account if the payment is reasonably assured.

(b) This account shall be kept so as to show separately the dividend income from each investment and from each affiliated company.

9400—Nonoperating Gains and Losses.

This account may be used as a control account for account series 9400.

9410—Nonoperating Gains on Disposition of Assets.

This account shall be used to record any gains on retirement, sale, or trade-in of property acquired for use but sold without being placed in service and of intangible property which is not restricted to a fixed term. Accounting in this case shall be performed in accordance with instruction 21(b)(2).

9420—Nonoperating Losses on Disposition of Assets.

This account shall be used to record any losses on retirement, sale, or trade-in of property acquired for use but sold without being placed in service and of intangible property which is not restricted to a fixed term. Accounting in this case shall be performed in accordance with instruction 21(b)(2).

9430—Gains or Losses on Disposition of Land and Structures.

This account shall reflect the gain or loss on land and structures which are retired, sold, or traded-in. (See instruction 21(a)(4).)

9500—Other Nonoperating Income and Expenses.

This account shall include all income accrued to the company in accordance with the terms of any contract by which the company is entitled to participate in the profits from the operations of others, including subsidiaries (see note A); and all other nonoperating income not provided for in any of the foregoing accounts. This account shall also include all deductions from gross income, not provided for in any of the foregoing accounts, such as:

(1) Unsecured accruals on obligations arising under contracts whereby the reporting company has guaranteed the annual or more frequent periodic payment of money or performance or other obligation on the part of another corporation or person and because of the default

of such other corporation or person, the liability of the reporting company has become actual.

(2) Losses resulting from the operations of others, including subsidiaries whenever, in accordance with the terms of any contract, the reporting company is bound to contribute toward reimbursement of such losses.

(3) Penalties and fines for violations of law except for violations of traffic regulations which are provided for in Account 7990—Miscellaneous Corporate Expenses.

(4) Contributions for charitable, social, or community welfare purposes that do not have a direct or intimate relationship to the protection of the property, development of the business, or welfare of the carrier's employees. (See instruction 29, and Account 7990—Miscellaneous Corporate Expenses.)

(5) Bad debts or losses on receivables, notes or claims that are not includible in Account 8800—Uncollectible Revenue.

(6) Other deductions from gross income.

NOTE A.—"Profits from the operations of others" does not include any dividends on stock. Income from dividends shall be credited to Account 9320—Dividend Income.

NOTE B.—Items described in this account shall be included in Account 9820—Extraordinary Items (net) when qualifying as extraordinary pursuant to instruction 8.

9700—Taxes on Ordinary Income.

This account may be used as a control account for account series 9700.

9710—Provision for Federal Income Taxes.

This account shall be debited with the monthly accruals for Federal income taxes which are estimated to be payable and which are applicable to ordinary income. See texts of accounts 9810, 9820, and 9830; accounts 2921 and 2961 for recording other income tax consequences.

NOTE A.—Details pertaining to the tax consequences of other unusual and significant items and also cases where the tax consequences are disproportionate to the related amounts included in income accounts, shall be submitted to the Commission for consideration and decision as to proper accounting. Income taxes which are refundable or reduced as the result of carryback or carryforward of operating loss shall be credited to this account, if a carryback, in the year in which the loss occurs or, if a carryforward, in the year in which such loss is applied to reduce taxes. However, when the amount constitutes an extraordinary item pursuant to instruction 8(a), it shall be included in accounts 9810, 9820, and 9830.

NOTE B.—Personal income taxes of sole proprietors and members of partnerships shall not be charged to this account: If paid from funds of the business, the amount thereof shall be charged to Account 2721—Drawings. (classes I and II) (Sole Proprietorship Equity), or 2821—Drawings. (classes I and II). (Partnership Equity), as appropriate.

NOTE C.—In special income tax situations not described herein, the carrier should be guided by generally accepted accounting principles. (See instruction 31.)

NOTE D.—Income taxes withheld at the source on dividends received shall be charged to this account.

9720—Provision for State Income Taxes.

This account shall be debited with monthly accruals for State income taxes, applicable to ordinary income.

NOTE A.—See Note A, account 9710.
NOTE B.—See Note B, account 9710.
NOTE C.—See Note C, account 9710.
NOTE D.—See Note D, account 9710.

9730—Provision for Other Income Taxes.

This account shall be debited with the monthly accruals for all other income taxes, applicable to ordinary income.

NOTE A.—See Note A, account 9710.
NOTE B.—See Note B, account 9710.
NOTE C.—See Note C, account 9710.
NOTE D.—See Note D, account 9710.

9800—Extraordinary and Prior Period Items.

This account may be used as a control account for account series 9800.

9810—Prior Period Items (Net).

(a) This account shall include unusual delayed items accounted for during the current accounting year in accordance with the text of instruction 8(a), upon approval of the Commission. Among the items which shall be included in this account are: Unusual adjustments, refunds, or assessments of income taxes of prior years. Also, similar items representing transactions of prior years which are not identifiable with or do not result from business operations of the current year.

(b) Income tax consequences of charges and credits to this account shall be included in Account 9830—Income Taxes on Extraordinary and Prior Period Items.

(c) This account shall be maintained in a manner sufficient to identify the nature and gross amount of each debit and credit.

9820—Extraordinary Items (Net).

(a) This account shall include extraordinary items accounted for during the current accounting year in accordance with instruction 8(a), upon approval of the Commission. Among the items which shall be included in this account are:

(1) Net gain or loss on sale of land used for transportation purposes.

(2) Net gain or loss on sale of securities acquired for long-term investment purposes.

(3) Net gain or loss on reacquisition of company bonds.

(4) Loss on retirement or transportation property because of abandonment or other cause for which depreciation reserve has not been provided.

(5) Changes in application of accounting principles.

(b) Income tax consequences of charges and credits to this account shall be included in Account 9830—Income Taxes on Extraordinary and Prior Period Items.

(c) This account shall be maintained in a manner sufficient to identify the nature and gross amount of each debit and credit.

9830—Income Taxes on Extraordinary and Prior Period Items.

This account shall include the estimated income tax consequences (debit or credit) assignable to the aggregate of items of both taxable income and deductions from taxable income which, for accounting purposes, are classified as unusual and extraordinary and are includible in Account 9820—Extraordinary Items (Net) or 9810—Prior Period Items (Net), as appropriate.

Withdrawal of Rulemaking Proposal

MAY 23, 1973.

On May 17, 1972, corrected notice of proposed rulemaking and order was published in the FEDERAL REGISTER (37 FR 9785) advising all interested parties that the Commission had under consideration a proposal to amend its reporting requirements for class I rail carriers (49 CFR 1241.10), to provide that each carrier participating in the National Railroad Passenger Corporation Agreement file a supplement to its annual report form A for 1971, containing information concerning passenger service performed during the period May 1 to December 31, 1971. The proposal also provided accounting instructions for the various transactions between the carriers and the National Railroad Passenger Corporation (NRPC).

After due consideration of the representations received, the Commission by order of January 30, 1973, required that the carriers should comply with accounting instructions for the transactions with NRPC, as modified, file a summary of remunerations from NRPC for the period May 1 to December 31, 1971 and for the year 1972; and begining in 1973, furnish a summary of remunerations from NRPC in annual report form A.

The cited decision of the Commission superseded the corrected notice of proposed rulemaking and order published as above. Such notice and order is hereby withdrawn.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

CONDOR ADVISORY COMMITTEE

Notice of Renewal

The Condor Advisory Committee of the California Region of the Forest Service is hereby renewed for an additional 2-year period ending May 19, 1975. The Office of Management and Budget has concurred in this action in compliance with Public Law 92–463.

The purpose of this committee is to protect the habitat of the California condor. This bird is classed as one of the most endangered species on the North American continent. This fact focuses national and worldwide attention on Forest Service efforts to preserve the condor as part of the native avifauna. The committee includes members eminent in the wildlife management field who provide invaluable advice for coordinating condor habitat needs with National Forest programs.

Continuation of the committee is in the public interest.

Bureau of East-West Trade

[Case 449(CP–27)]

BROOKS DELEKTRO INC., AND FRANCINE A. BROOKS

Order Denying Export Privileges and Imposing Civil Penalties

In the matter of Brooks Delektro Inc., and Francine A. Brooks, 41 East 42d Street, New York, N.Y. 10017, respondents. Case No. 449 (CP–27).

By charging letter of November 30, 1972, the above respondents were charged by the Director, Compliance Division, Office of Export Control, Bureau of East-West Trade, with violations of the Export Administration Act of 1969.[1] It is alleged in substance that respondents knowingly exported commodities from the United States to France without having obtained the requisite validated export licenses and that they made false and misleading representations and concealed material facts from the U.S. Government in connection with exportations from the United States.

The respondents appeared by counsel. Pursuant to § 388.10 of the Export Control regulations, with the agreement of the Director, Compliance Division, there was submitted to the Hearing Commissioner a consent proposal for an order imposing sanctions as hereinafter set forth. In said consent proposal the respondents for the purpose of this proceeding only, did not contest or deny the violations alleged in the charging letter of November 30, 1972. They waived: (1) All rights to an oral hearing before the Hearing Commissioner; (2) all rights of administrative appeal from and judicial review of said order, and; (3) all rights to request refund of any civil penalty imposed pursuant to the consent order.

The Hearing Commissioner has considered the facts in the case and the consent proposal. He has approved the consent proposal and recommended that it be accepted. The undersigned having considered the facts in the case and the Hearing Commissioner's recommendation, hereby makes the following:

Findings of fact.—1. The respondent Brooks Delektro Inc., is a corporation with a place of business in New York City. The respondent Francine A. Brooks is president of the corporation. The company is a wholesaler of electronic and computer equipment and is engaged in domestic and export trade.

2. On February 26, 1970, the respondent Brooks Delektro Inc., delivered certain strategic electronic equipment valued at $17,930 to a freight forwarder in New York for export to France. Said equipment required a validated export license for export from the United States to France and said respondent knew or had reason to know of such requirement.

3. On the shipper's export declaration under which the above exportation was cleared through the Bureau of Customs the said respondent certified and represented that the shipment was properly exportable from the United States to France under general license "G-Dest". The said respondent knew or had reason to know that the commodities could not properly be exported to France under general license "G-Dest". The commodities were exported to France by air

[1] This act has been amended by the Equal Export Opportunity Act, Public Law 92-412, 86 Stat. 644, approved Aug. 29, 1972.

freight on March 6, 1970. Said respondent did not apply for or obtain the requisite validated export license.

4. On February 26, 1971, the respondent Francine A. Brooks, acting individually and for the respondent Brooks Delektro Inc., exported or caused to be exported from the United States to France certain strategic electronic measuring equipment valued at $860. Said equipment required a validated export license for exportation from the United States to France and the respondents Brooks Delektro Inc., and Francine A. Brooks, in her capacity as president of said firm, knew or had reason to know of such requirement. The respondents did not apply for or obtain the requisite validated export license for said exportation.

5. On the shipper's export declaration under which the commodities described in finding 4 were cleared through the Bureau of Customs the respondents, Francine A. Brooks and Brooks Delektro Inc., certified and represented that the shipment was properly exportable from the United States to France under general license "G-Dest". The said respondents knew or had reason to know that the commodities could not properly be exported to France under general license "G-Dest".

6. On April 20, 1971, the respondent Brooks Delektro Inc., exported or caused to be exported from the United States to France certain laser equipment valued at approximately $1,600. The said equipment required a validated export license for such exportation and said respondent knew or had reason to know of such requirement. The said respondent without applying for or obtaining the requisite validated export license exported said commodities under general license "G-Dest". In the commercial invoice the value was shown as $156, whereas said respondent knew or should have known that the true value was approximately $1,600.

7. On May 19, 1971, the respondent Brooks Delektro Inc., exported or caused to be exported from the United States to France certain laser equipment valued at $1,500. The said equipment required a validated export license for such exportation and said respondent knew or had reason to know of such requirement. The said respondent without applying for or obtaining the requisite validated export license exported said commodities under general license "G-Dest". In the commercial invoice the value was shown as $156, whereas respondent knew or should have known that the true value was in excess of $156.

8. By exporting or causing the exportations of the aforementioned commodities (referred to in findings 2, 4, 6, and 7), from the United States without applying for or obtaining in each instance the requisite validated export license the respondents Francine A. Brooks and Brooks Delektro precluded the Office of Export Control from determining whether the ultimate consignee should be approved for receipt of these commodities. There is reason to believe that some of the commodities were ultimately shipped to an unauthorized destination.

Based on the foregoing I have concluded: (1) That the respondent Francine A. Brooks, on one occasion, and Brooks Delektro Inc., on four occasions, violated §§ 387.2 and 387.6 of the U.S. Export Control regulations in that they knowingly exported or caused certain commodities to be exported from the United States to France without having obtained the requisite validated export licenses; and (2) that the respondent Francine A. Brooks on one occasion and the respondent Brooks Delektro Inc., on two occasions violated § 387.5 of said regulations in that they made or caused to be made false and misleading representations and certifications by using the general license symbol "G-Dest" on Shipper's Export Declarations when they knew or had reason to know that the commodities being exported could not be lawfully exported under general license "G-Dest".

On consideration of the record in the case and the recommendation of the Hearing Commissioner, I accept the consent proposal and *It is hereby ordered:*

I. All outstanding validated export licenses in which respondents appear or participate in any manner or capacity are hereby revoked and shall be returned forthwith to the Bureau of East-West Trade for cancellation.

II. Except as qualified in part IV hereof the respondents for a period of 36 months from the effective date of this order are hereby denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States, in whole or in part, or to be exported, or which are otherwise subject to the export regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control documents; (d) in the carrying on of negotiation with respect to, or in the receiving, buying, selling, delivering, storing, using, or disposing of any commodities or technical data; (e) in the financing, forwarding, transporting or other servicing of such commodities or technical data.

III. The denial of export privileges in this order shall extend not only to respondents but also to their successors, representatives, agents, and employees and to any other person, firm, corporation, or other business organization with which the respondents now or hereafter may be related by ownership, control, position of responsibility, affiliation or other connection in the conduct of trade or services connected therewith.

IV. One month after the effective date of this order without further order of the Bureau of East-West Trade, the respondents shall have their export privileges restored conditionally and thereafter for the remainder of the denial period said respondents shall be on probation. The conditions of probation are that said respondents shall fully comply with all requirements of the Export Administration Act of 1969, as amended by the Equal Export Opportunity Act and all regulations, licenses, and orders issued thereunder.

V. Upon a finding by the Director, Office of Export Control or such other official as may be exercising the duties now exercised by him, that the respondents have knowingly failed to comply with the requirements and conditions of this order or with any of the conditions of probation, said official without notice, when national security or foreign policy considerations are involved, or with notice if such considerations are not involved, by supplemental order may revoke the probation of said respondents, revoke all outstanding validated export licenses to which said respondents may be parties and deny to said respondents all export privileges for the period of the order. Such supplemental order shall not preclude the Bureau of East-West Trade from taking such further action for any violation as it shall deem warranted. On the entry of a supplemental order revoking respondents' probation without notice, they may file objections and request that such order be set aside and may request an oral hearing as provided in § 388.16 of the Export Control regulations, but pending such further proceedings the order of revocation shall remain in effect.

VI. During the time when respondents or other persons within the scope of this order are prohibited from engaging in any activity within the scope of part II hereof, no person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of East-West Trade, shall do any of the following acts, directly or indirectly, in any manner or capacity, on behalf of or in any association with the respondents or other persons denied export privileges within the scope of this order, or whereby said respondents or such other persons may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for the respondents or other persons denied export privileges within the scope of this order; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or

technical data exported or to be exported from the United States.

VII. In addition to the foregoing denial of export privileges, civil penalties totaling $4,000, are hereby imposed on respondents pursuant to § 388.1(a)(4) of the Export Control regulations. One-half of said penalty, $2,000, is payable to the Treasurer of the United States upon issuance of this order. Payment of the balance is held in abeyance as hereinafter set forth.

VIII. Not later than 6 months after the date of said order, the Compliance Division, Office of Export Control, will transmit a report to the Hearing Commissioner containing: (a) A description of the procedures adopted by the respondents to prevent recurrence of violations of the Export Administration Act of 1969, as amended and regulations issued thereunder, and (b) any violations which may have been committed during the aforesaid period. Thereafter, within a reasonable time the Hearing Commissioner, based upon said report, will make a finding as to whether the respondents are in substantial compliance with the Export Administration Act as amended, and regulations thereunder, and report to the Director, Office of Export Control. If it is found that the firm is in substantial compliance, payment of the balance of the penalty ($2,000) will be suspended and the respondents notified accordingly.

IX. If it is found that the respondents are not in substantial compliance, the respondents will be notified that the balance of the civil penalty ($2,000) is due and payable to the Treasurer of the United States. If the balance of said penalty is not paid within 5 days of said notification, a supplemental order denying all export privileges to the respondents may be issued for a period not to exceed 1 year from the date of initial order.

X. If, in the discretion of the Compliance Division, Office of Export Control and the Office of General Counsel, such action is warranted, new proceedings may be initiated against the respondents pursuant to 15 CFR 388.3 based upon any violations described in the aforesaid report by the Hearing Commissioner or upon any other violations committed by the respondents subsequent to the date of, but not contained in, the charging letter by which this proceeding was initiated.

This order shall become effective on June 1, 1973.

Dated May 16, 1973.

Director, Office of Export Control, Bureau of East-West Trade.

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket No. 73-00386-33-40700. Applicant: Georgia Institute of Technology, School of Biology, 225 North Avenue NW., Atlanta, Ga. 30332. Article: Research irradiator, model gammabeam 100C and accessories. Manufacturer: Atomic Energy of Canada Ltd., Canada. Intended use of article: The article is intended to be used to facilitate investigation of the mutagenic effects of low level radiation on mammalian systems as well as varied studies of the effects of low to moderate radiation doses on the genetic and physiological systems of living organism, or of nonliving materials. The article will also be used in biology courses in attempts to develop an understanding of radiation, particularly ionizing radiation, and its effect upon biological systems. Application received by commissioner of customs February 21, 1973.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a capability for low to medium radiation exposure of animals to a 450 curie cobalt 60 source. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated May 10, 1973, that the capability described above is pertinent to the applicant's use in mutagenic studies. HEW also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for the purposes for which the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Docket No. 73-00384-33-43400. Applicant: Harvard University, Purchasing Department, 75 Mount Auburn Street, Cambridge, Mass. 02138. Article: Automatic stepping micromanipulator with electronic control unit. Manufacturer: AB Transvertex, Sweden. Intended use of article: The article is intended to be used to hold the microelectrode and advance it into the brain during experiments on the central nervous system of the cat. The aim of these experiments is to investigate the anatomical and physiological properties of single nerve cells in the visual cortex. Application received by Commissioner of Customs February 12, 1973.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides precise penetration of cell membranes through electrode advance in a stepping manner. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated May 10, 1973, that the capability described above is pertinent to the purposes for which the article is intended to be used. HEW also advised that it knows of no domestic instrument of equivalent scientific value to the article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 73-00492-75-27000. Applicant: University of California, Los Alamos Scientific Laboratory, P.O. Box 990, Los Alamos, N. Mex. 87544. Article: Camera, image converter and accessories. Manufacturer: John Hadland Ltd., United Kingdom. Intended use of article: The article is intended to be used to study the interaction of ultrashort laser pulses with materials. Both the light output from the laser and the plasma resulting from interaction will be investigated. Such properties as spatial distribution and symmetry, velocity and direction of motion, and intensity of output will be measured. Application received by Commissioner of Customs April 25, 1973.

Docket No. 73-00499-00-27000. Applicant: University of California, Los Alamos Scientific Laboratory, P.O. Box 990, Los Alamos, N. Mex. 87544. Article: Image converter tube with 9x8 mm S-20 extended red photocathode. Manufacturer: John Hadland Ltd., United Kingdom. Intended use of article: The article is intended for replacement use in an Ima-Con Model 700 image converter camera to aid in the operation of the camera in accomplishing studies of radiation emitted by high energy neon plasma and by highly dosed air. The article aids the image converter camera in obtaining as many as 15 or 20 pictures of the plasma in various wave lengths of light with time resolution in the range of 50 nanoseconds to a few microseconds. Application received by Commissioner of Customs May 4, 1973.

Docket No. 73-00508-01-07500. Applicant: University of California, Department of Food Science and Technology, Davis, Calif. 95616. Article: Microcalorimeter, LKB 10700-2. Manufacturer: LKB Produkter AB, Sweden.

Intended use of article: The article is intended to be used to study the energy changes associated with the conformational transitions of biological macromolecules in a number of projects involving enzyme-substrate binding, protein hydrolysis, protein denaturation, protein-metal ion interactions, and thermodynamics of nucleic acid reactions. The article will also be used in a graduate program to demonstrate the principles of calorimetry to the variety of changes in biological materials that involve emission or absorption of heat. Application received by Commissioner of Customs: May 4, 1973.

Docket No. 73-00509-55-17500. Applicant: University of Miami, Box 8184, Coral Gables, Fla. 33124. Article: Recording Current Meter, Model 4. Manufacturer: Ivar Aanderaa, Norway. Intended use of article: The article is intended to be used in an experiment to distinguish between motions of the density surface due to internal waves and apparent motions of a temperature surface. This study has a significant bearing on the usual method of measuring internal waves by measuring the temperature field. Application received by Commissioner of Customs: May 7, 1973.

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket No. 73-00010-93-70000. Applicant: University of Colorado, Purchasing Services Department, Regent Hall, Box 8, Boulder, Colo. 80302. Article: Nett radiometer, SRI 4. Manufacturer: Solar Radiation Instruments, Australia. Intended use of article: The article is intended to be used in investigations to determine the energy balance of the alpine and arctic tundra surfaces and arctic sea ice and snowfields. The experiments to be conducted will consist of measuring energy exchange between the alpine tundra and arctic tundra surfaces at latitude 40°03'34'' N. by 105°37'02'' W., and latitude 67°33' N. by 64°03' W. respectively in the 0.25 to 50 micron band as well as measuring energy exchange of the arctic sea ice and snowfields. The article will also be used to conduct research of the following projects:

(1) "Summer Institute in mountain ecology for college teachers."
(2) "Student science training project, precollege."
(3) "Undergraduate research participation program," and
(4) "Tundra biome."

In addition, the article is required for master's thesis project "Energy Balance of the Alpine Tundra" and Ph. D. project "Energy Balance in the Eastern Arctic." Application received by Commissioner of Customs: July 5, 1972.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the capability for operation in conditions of high winds and dew or rime ice formation. The National Bureau of Standards (NBS) advised in its memorandum dated May 11, 1973, that the capability described above is pertinent to the purposes for which the article is intended to be used. NBS also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended uses.

Docket No. 73-00171-33-08900. Applicant: University of Connecticut, Department of Biobehavioral Science, U-154, Storrs, Conn. 06268. Article: Magnetic diver apparatus. Manufacturer: Karolinska Institute, Sweden. Intended use of article: The equipment is intended to be used for biochemical experiments and assays on very small parts of animal tissues. In addition the equipment will be used for the recording of electrical signals from isolated brain preparations or from single cells from the central nervous system of animals. Application received by Commissioner of Customs June 12, 1972.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The article is a complex set of instruments which were designed and/or assembled specifically for the applicant's basic biochemical research on gas exchange in biological tissue and the assay of enzyme activity in single isolated nerve cells. This equipment is therefore, pertinent to the applicant's intended purposes. We are advised by the Department of Health, Education, and Welfare in its memorandum dated May 10, 1973, that it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

Docket No. 73-00363-33-90000. Applicant: University of North Carolina, School of Medicine, Chapel Hill, N.C. 27514. Article: Rotating-Anode X-ray generator, GX6. Manufacturer: Elliott Automation Radar Systems, Ltd., United Kingdom. Intended use of article: The article is intended to be used for investigations of the molecular structure of the myelin sheaths of nerves. In addition the article is intended to be used for demonstration or training of students in connection with courses in "Resolution of Biological Structure" and in "Structural Molecular Biology," as well as for the dissertation or thesis research of graduate students. Application received by Commissioner of Customs: February 1, 1973.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a focused spot of minimal size and a rotating target for maximum X-ray brilliance. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated May 10, 1973, that both of the capabilities described above are pertinent to the applicant's research purposes. HEW also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

INTRAMAMMARY INFUSION PRODUCTS FOR TREATING MASTITIS

Extension of Interim Period for Submission of Data

An order published in the FEDERAL REGISTER of December 1, 1971 (36 FR 22827), provided an interim basis for the continued certification of certain intramammary infusion products containing a combination of antimicrobial ingredients for a period of 1 year following the effective date of the order. This action was based upon commitments received to conduct controlled studies to establish that such drugs are in accord with the findings and recommendations of the National Academy of Sciences—National Research Council, Drug Efficacy Study Group. The Academy stated among other things that in vivo clinical trials were necessary to show that each antimicrobial ingredient contained in these products contributed to the claimed effects for the product, i.e., to establish that the addition of one antimicrobial agent to another will not result in a less than additive action with regard to inhibition of bacterial multiplication or with regard to the fraction of a bacterial population killed.

During the past year the Food and Drug Administration and the industry have collaborated on preparing protocols for the necessary studies. The industry has now initiated these studies and some progress reports have been submitted.

On December 5, 1972, a group of experts on mastitis, assembled by the Food and Drug Administration, met to consider questions concerning the status of intramammary infusion products. Included in this group were experts representing milk producers, researchers, university, and agricultural extension personnel, practicing veterinarians and the Food and Drug Administration. It was concluded that the initial interim period of 1 year did not allow sufficient time for completion of meaningful studies since (1) infections of the types required for conducting controlled studies with the multiple ingredient drugs are difficult to obtain or induce in sufficient numbers to provide statistical significance, and (2) the studies necessary to demonstrate efficacy for the multiple active ingredient products under controlled field conditions are considerably more difficult to accomplish. The committee thought that data from studies underway will likely provide a basis for determining the effectiveness of multiple ingredient products as compared to single ingredient products. In the interim, they recommended that combination ingredient mastitis products be permitted to remain on the market under the interim certification, because of their belief that multiple active ingredient products may be more effective than single active ingredient products in the treatment of mastitis. It was recommended that the interim period be extended, and that certain minor interpretative and clarifying revisions be made in the guidelines for establishing the effectiveness of mastitis preparations.

The Commissioner of Food and Drugs has considered the difficulties involved in obtaining definitive data; the recommendations of the experts cited; the demonstrated safety of these drugs to animals as well as the absence of drug residues in milk from animals to which they are administered; and the fact that the removal of these products from the market at this time may adversely affect the dairy industry in that these drugs are extensively used in the management of mastitis in dairy herds.

Therefore, an extension of the interim period to January 10, 1974, is granted for those firms which on or before July 2, 1973, submit a report demonstrating substantial evidence of meaningful investigations to obtain the necessary data. This report must show that such studies were initiated before December 1, 1971, or within 3 months following that date. The report must describe complete and ongoing studies.

Failure of a sponsor to submit a satisfactory report will be adequate grounds for proceeding to withdraw the certification privileges for the sponsor's interim intramammary infusion product subject to the notice published December 1, 1971 (36 FR 22827).

Reports should be submitted to the Bureau of Veterinary Medicine, Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852.

No further extensions of time will be granted on this matter for any reason. The failure to submit adequate data to show the effectiveness of each ingredient in a combination by the end of this time period will be adequate grounds for proceeding to withdraw the certification privileges and to revoke the corresponding regulations.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated May 25, 1973.

Associate Commissioner
for Compliance.

SCHERING CORP.

Ethisterone for Oral Use; Withdrawal of Approval of New Drug Application

A notice was published in the FEDERAL REGISTER of March 30, 1972 (37 FR 6510), extending to Schering Corp., 1011 Morris Avenue, Union, N.J. 07083, and to any interested person, an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of NDA 1-593 for Pranone Tablets (ethisterone). The basis of the proposed action was the lack of substantial evidence that the drug is effective for its labeled indications.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Md. 20852.

Neither the holder of the application nor any other person filed a written appearance of election within the 30 days provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of an opportunity for hearing.

The Commissioner of Food and Drugs pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with regard to the drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing finding, approval of new drug application No. 1-593 and all amendments and supplements thereto is withdrawn effective on June 1, 1973.

Shipment in interstate commerce of the above-listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

Dated May 24, 1973.

Associate Commissioner for Compliance.

TOPICAL CORTICOSTEROIDS

Drugs for Human Use; Drug Efficacy Study Implementation; Amendment

In a notice published in the FEDERAL REGISTER of April 28, 1971 (36 FR 7982), the Commissioner of Food and Drugs announced his conclusions regarding the efficacy of corticosteroid drugs for topical use. Determining that the "Indications" section of the labeling for this class of products was unnecessarily complex, the Commissioner finds it appropriate to revise it to read:

For relief of the inflammatory manifestations of corticosteroid-responsive dermatoses.

Holders of applications approved for topical corticosteroids are requested to submit, on or before July 31, 1973, amendments for revised labeling in accord with the labeling section above.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-53, as amended; 21 U.S.C. 352, 355) and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Safety Valves (Power Boilers)

Approval No. 162.001/255/0, style HCB–MS–57 drum pilot actuated safety valve, nozzle type, alloy steel body, exposed spring fitted with spring cover, 1,200 lb/in² primary service pressure rating, 900° F maximum temperature with standard inlet flange; 1,050 lb/in² primary service pressure rating, 900° F maximum temperature with optional inlet flange, approved for sizes 1½, 2, 2½, and 3 in, manufactured by Crosby Valve & Gage Co., Wrentham, Mass. 02093, effective March 16, 1973. (It supersedes approval No. 162.001/255/0 dated Feb. 27, 1968.)

Approval No. 162.001/256/0, style HCB–MS–58 drum pilot actuated safety valve, nozzle type, alloy steel body, exposed spring fitted with spring cover, 995 lb/in² primary service pressure rating, 1,050° F maximum temperature with standard inlet flange; 595 lb/in² primary service pressure rating, 1,050° F maximum temperature with optional inlet flange, approved for sizes 1½, 2, 2½, and 3 in, manufactured by Crosby Valve & Gage Co., Wrentham, Mass. 02093, effective March 16, 1973. (It supersedes approval No. 162.001/256/0 dated Feb. 27, 1968.)

Pressure Vacuum Relief Valves and Spill Valves for Tank Vessels

Approval No. 162.017/113/3, Midland pressure vacuum relief and spill valves Nos. A–825, A–830, A–840, A–850, A–860, and A–880, brass (ASTM B62) or stainless (CF–8, CF–8M) body, atmospheric pattern with flame screen outlet may have cast flange (A–825F, etc.), approval includes sizes 2½, 3, 4, 5, 6, and 8 in, approval extended to cover threaded and flanger inlets on 3 and 4 in sizes, manufactured by Midland Manufacturing Corp., 7733 Gross Point Road, Skokie, Ill. 60076, effective April 5, 1973. (It supersedes approval No. 162.017/113/2 dated Feb. 9, 1973.)

Safety Relief Valves, Liquefied Compressed Gas

Approval No. 162.018/33/3, style JO–35 safety relief valve for liquefied petroleum gas and anhydrous ammonia service, full nozzle type metal to metal seat, 300 lb/in² primary service pressure rating, approved for inlet diameters of 1 inch through 6 inches for a maximum set pressure of 300 lb/in²a manufactured by Crosby Valve & Gage Co., Wrentham, Mass. 02093, effective March 16, 1973. (It supersedes approval No. 162.018/33/3 dated May 16, 1968.)

Approval No. 162.018/65/0, type 1705 safety relief valve for liquefied compressed gas service, stainless steel body and pressure parts, stainless steel trim, metal to metal seat with Buna-N "O" discharge capacities listed below.

Set pressure (pounds per square inch):	*Discharge capacity, s.c.f.m. (air)*
100	1,277
150	1,840
200	2,403
250	2,967
300	3,536

manufactured with both 150 and 300 (pounds USASI flanges, manufactured by Midland Manufacturing Corp., 7733 Gross Point Road, Skokie, Ill. 60076, effective April 11, 1973. (It supersedes approval No. 162.018/65/0 dated June 14, 1968.)

Approval No. 162.018/66/0, type 1706 safety relief valve for liquefied compressed gas service, stainless steel construction metal to metal seat with Buna-N "O" ring seal, approved for maximum set pressure of 300 lb/in², for 2½ inch size, and for discharge capacities listed below.

Set pressure (pounds per square inch):	*Discharge capacity, s.c.f.m. (air)*
100	1,277
150	1,840
200	2,403
250	2,967
300	3,536

manufactured with both 150 and 300 pounds USASI flanges, manufactured by Midland Manufacturing Corp., 7733 Gross Point Road, Skokie, Ill. 60076, effective April 11, 1973. (It supersedes approval No. 162.018/66/0 dated June 14, 1968.)

Approval No. 162.018/67/0, type 1006 safety relief valve for liquefied compressed gas service, stainless steel construction, metal to metal seat with Buna-N "O" ring seal, approved for a maximum set pressure of 300 lb/in² for 3-in size, and for the discharge capacities listed below.

Set pressure (pounds per square inch):	*Discharge capacity, s.c.f.m. (air)*
100	1,291
150	1,816
200	2,428
250	2,998
300	3,567

Manufactured with both 150 and 300 lb USASI flanges, manufactured by Midland Manufacturing Corp., 7733 Gross Point Road, Skokie, Ill. 60076, effective April 11, 1973. (It supersedes approval No. 162.018/67/0 dated June 14, 1968.)

Approval No. 162.018/68/0, type 3106 safety relief valve for liquefied compressed gas service, stainless steel pressure parts, steel trim, metal to metal seat with Buna-N "O" ring seal, approved for a maximum set pressure of 250 lb/in² for 5-in sizes, and for discharge capacities listed below.

Set pressure (pounds per square inch):	*Discharge capacity, s.c.f.m. (air)*
90	13,000
100	14,440
150	21,970
200	27,815
250	33,553

Manufactured with both 150 and 300 lb USASI flanges, manufactured by Midland Manufacturing Corp., 7733 Gross Point Road, Skokie, Ill. 60076, effective April 11, 1973. (It supersedes approval No. 162.018/68/0 dated June 18, 1968.)

Approval No. 162.018/69/0, type 1005 safety relief valve for liquefied compressed gas service, stainless steel body and pressure parts, steel trim, metal-to-metal seat with Buna-N "O" ring seal, approved for maximum set pressure of 250 lb/in² for 3-in size, and for discharge capacities listed below.

Set pressure (pounds per square inch):	*Discharge capacity, s.c.f.m. (air)*
100	1,318
150	1,899
200	2,480
250	3,062

Manufactured with both 150 and 300 lb USASI flanges, manufactured by Midland Manufacturing Corp., 7733 Gross Point Road, Skokie, Ill., 60076, effective April 11, 1973. (It supersedes approval No. 162.018/69/0 dated June 18, 1968.)

Indicators, Boiler Water Level, Secondary Type

Approval No. 162.025/92/1, secondary-type boiler water level indicator, remote reading, 15,000 lb/in² maximum pressure, comprised of force balance BK type level transmitter and PC 100 type indicator, previously listed as type LK level transmitter, drawing D451990AC replaced by D451990BK and drawing H683072A replaced by D683250L, manufactured by Bailey Meter Co. 29801 Euclid Avenue, Wickliffe, Ohio 44092, effective April 11, 1973. (It supersedes approval No. 162.025/92/0 dated Feb. 1, 1968.)

Deck Coverings for Merchant Vessels

Approval No. 164.006/49/0, Magnalith magnesite-type deck covering, identical

to that described in Chartres Co., Inc., letters dated April 1, 1963, and May 20, 1963, approved for use without other insulating material as meeting class A-60 requirements in a 1½-in thickness, manufactured by Chartres Co., Inc., 2121 Chartres Street, New Orleans, La. 70116, effective April 2, 1973. (It is an extension of approval No. 164.006/49/0 dated June 17, 1968.)

STRUCTURAL INSULATIONS FOR MERCHANT VESSELS

Approval No. 164.007/40/0, Thermafiber Felt mineral wool-type structural insulation identical to that described in National Bureau of Standards test report FR 3812 dated July 12, 1972, approved without any other insulating material to meet class A-60 requirements in a 3-in thickness with a density of 7 lb/ft³, manufactured by United States Gypsum Co., 1000 East Northwest Highway, Des Plaines, Ill. 60016, plant locations: Corsicana, Tex.; South Plainfield, N.J.; Torrance, Calif.; Wabash, Ind., effective March 22, 1973.

Approval No. 164.007/46/0, Thermafiber Felt mineral wool-type structural insulation identical to that described in National Bureau of Standards test report 3812, dated July 12, 1972, approved without any other insulating material to meet class A-30 requirements in a 2-in thickness with a density of 6 lb/ft³, this material may not be used as a component of class A-60 construction, manufactured by United States Gypsum Co., 1000 East Northwest Highway, Des Plaines, Ill. 60016, plant locations: Corsicana, Tex.; South Plainfield, N.J.; Torrance, Calif.; Wabash, Ind., effective March 22, 1973.

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

Approval No. 164.009/51/0, Glasweld and Qasal cement-asbestos board-type incombustible materials as described in National Bureau of Standards, report No. TG10210-2023:FP3450, dated May 20, 1958, and U.S. Plywoods letter of January 22, 1973, formerly known as Glasal, manufactured by Champion International, United States Plywood Division, 777 Third Avenue, New York, N.Y. 10017, formerly United States Plywood Corp., effective April 12, 1973. (It supersedes approval No. 164.009/51/0, dated Feb. 12, 1973, to show change of name of manufacturer.)

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Termination of Approval Notice

1. Certain laws and regulations (46 CFR ch. I) require that various items of lifesaving, firefighting, and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the Outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been terminated as herein described during the period from March 12, 1973, to April 3, 1973 (List No. 9-73). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of title 46, United States Code, section 1333 of title 43, United States Code, and section 198 of title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard, with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard, for certain types of equipment, construction, and materials are set forth in 46 CFR parts 160 to 164.

3. Notwithstanding the termination of approval listed in this document, the equipment affected may be used as long as it remains in good and serviceable condition.

BUOYANT APPARATUS FOR MERCHANT VESSELS

SHIP STRUCTURE COMMITTEE

Notice of Open Meeting

This is to give notice pursuant to Public Law 92-463, section 10(a), approved October 6, 1972, that the Ship Structure Committee will conduct an open meeting on Tuesday, June 12, 1973, Department of Transportation Headquarters, 400 Seventh Street SW., Washington, D.C., beginning at 9:30 a.m.

This meeting is being held to discuss the research program of the Ship Structure Committee. This committee's objective is to conduct an aggressive research program which will, in the light of changing technology in marine transportation, improve the design, materials, and construction of the hull structure of ships by an extension of knowledge in these fields, for the ultimate purpose of increasing the safe operation of ships.

Public attendance at the meeting will be limited to space available. Interested persons may file statements with the committee or request more information by writing the U.S. Coast Guard (GMMT/82), 400 Seventh Street SW., Washington, D.C. 20590.

Dated May 24, 1973.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Working Group on Peaking Factors; Notice of Meeting

MAY 30, 1973

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards' Working Group on Peaking Factors will hold a meeting on June 15, 1973, in room 1062, 1717 H Street NW., Washington, D.C. The subjects scheduled for discussion are calculational techniques and plant operating conditions related to peaking factors.

The Subcommittee is meeting to formulate recommendations to the full ACRS regarding the above subject.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b), and in addition, the discussion will involve information from certain documents which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). It is essential to close the meeting to protect the free interchange of internal views and such privileged information and to avoid undue interference with agency or Committee operation.

Order Canceling Final Prehearing Conference

As a result of an informal understanding reached by the parties, the Atomic Safety and Licensing Board (Board) has approved the cancellation of the final prehearing conference scheduled for June 11, 1973, in Washington, D.C.

Pursuant to the informal understanding, all discovery shall be completed by the close of business August 30, 1973. In addition, the evidentiary hearing in this proceeding shall commence on September 24, 1973, instead of June 25, 1973, and shall extend without interruption through October 12, 1973. The exact time and place will be set forth by separate order of the Board. If additional hearing sessions are needed, those also will be determined by separate order.

As part of the informal agreement, the parties will advise the Board within 2 weeks of the date of this order as to their consensus of an appropriate date for the final prehearing conference in which to pursue the matters included in the prior notice and order for final prehearing conference, dated May 8, 1973.

We conclude that the adoption of the approach recommended by the parties will serve the public interest. Accordingly, the above-stated schedule is approved by the Board, and the parties are on notice that said schedule is a firm one.

It is so ordered.

Issued at Washington, D.C., this 29th day of May 1973.

Order Scheduling a Prehearing Conference

Take notice, the Board's order of May 11, 1973, stated that an amended petition had not been received from the State of California. The Board later learned that a timely amended petition had been filed and that it had inadvertently not been served on the Board.

A second prehearing conference will be held on June 7, 1973, at 10 a.m. (local time), in the right wing meeting room, Veterans' Memorial Building, 801 Grand Avenue, San Luis Obispo, Calif.

The public is welcome to attend. Limited appearance statements will not be received until the evidentiary hearing—to be scheduled at a later date.

It is so ordered.

POWER REACTOR GUIDES

Notice of Issuance and Availability

The Atomic Energy Commission has issued a guide in its Regulatory Guide series. This series has been developed to describe and make available to the public methods acceptable to the AEC Regulatory staff of implementing specific parts of the "Commission's Regulations" and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The new guide is in Division 1, "Power Reactor Guides." Regulatory Guide 1.49, "Power Levels of Water-Cooled Nuclear Power Plants," describes acceptable maximum power levels for water-cooled nuclear power plants.

Comments and suggestions in connection with improvements in Regulatory Guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 205 , attention: Chief, Public Proceedings Staff. Requests for single copies of issued guides or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

CIVIL AERONAUTICS BOARD

PAN AMERICAN WORLD AIRWAYS, INC.

[Docket No. 25573; Order 73-5-128]

Order of Investigation and Suspension Regarding Peak-Period Reservation Rule

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 29th day of May 1973.

By tariff revisions[1] marked to become effective June 1, 1973, Pan American World Airways, Inc. (Pan American) proposes to establish a rule requiring that reservations for travel during the 1973/1974 Christmas/New Year, and 1974 Washington's Birthday and July Fourth holiday periods in the mainland U.S.-San Juan/Virgin Islands markets be accompanied by full payment of the applicable fare. In addition, the carrier proposes a penalty equal to 25 percent of the price of the ticket for failure to cancel a reservation at least 72 hours prior to scheduled departure.

In support of its proposal, Pan American states that the no-show problem is a very troublesome one, particularly during holiday travel periods in the mainland U.S.-San Juan/Virgin Islands market. In addition to the direct revenue loss to the carrier, Pan American asserts that no-shows result in loss of commissions and a substantial burden and inconvenience to travel agents, as well as economic loss to hotels and to the entire tourist industry in the Caribbean. The carrier believes that its proposal will greatly ameliorate losses from no-shows; eliminate the inconvenience to passengers genuinely intending to travel; and result in better control of the problem by limiting bookings during the peak travel periods.

No complaints have been filed.

Upon consideration of the tariff filing and other relevant matters the Board concludes that the proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. We further conclude that the proposal should be suspended pending investigation.

We do not question the seriousness of the no-show problem in the Puerto Rico/Virgin Islands market, and are not prepared to conclude that the proposed 25-percent penalty for late cancellation would be unduly severe. However, in the Board's opinion, a requirement for full payment at the time reservations are made appears to place an unreasonable burden on the passenger.

By order 72-4-67 dated April 14, 1972, the Board suspended a proposal to reestablish advance ticketing requirements in the northeast U.S.-Florida market during the 1972-73 Christmas-New Year holiday season. That proposal would have required tickets to be purchased at varying times up to 12 weeks in advance of departure, depending on how far in advance reservations were made. In suspending the proposal, the Board indicated that it would have had less trouble with a rule which limited the advance-payment requirement to 4 weeks, or which obligated the carriers to pay interest on payments required to be made more than 4 weeks in advance.

The required 100-percent prepayment here proposed, on the other hand, would apply irrespective of when a reservation is made and could involve substantial periods of time. It is also far more stringent than the practice. In effect with respect to certain international fares which requires that a 25-percent deposit accompany a reservation. In short, we are not convinced that alleviation of the no-show problem makes it necessary to tie up so much of the passenger's money for what could be appreciable periods of time, particularly since Pan American does not contemplate interest payments on the funds it could be holding.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204, 403, 404, and 1002 thereof:

It is ordered, That:

1. An investigation is instituted to determine whether the provisions in rule 7(D) on 37th revised page 15 and 41st revised page 16 of "International Air Traffic Tariffs Corp., Agents Tariff C.A.B. No. 191," and rules, regulations, or practices affecting such provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions, and rules, regulations, and practices affecting such provisions;

2. Pending hearing and decision by the Board, the provisions in rule 7(D) on 37th revised page 15 and 41st revised page 16 of "International Air Traffic Tariffs Corp., Agents Tariff C.A.B. No. 191," are suspended and their use deferred to and including August 29, 1973, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The investigation ordered herein be assigned before an administrative law judge of the Board at a time and place hereafter to be designated; and

4. Copies of this order be filed with the aforesaid tariff and be served upon Pan American World Airways, Inc., which is hereby made a party to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Secretary.

[Docket No. 25514; Order 73-5-123]

UNITED AIR LINES, INC.

Order Authorizng Discussions Regarding Authority To Discuss Aircraft Fuel Conservation Measures

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 25th day of May 1973.

United Air Lines, Inc. (United) requests an order authorizing it to discuss with other scheduled air carriers the possibility of agreements whereby the carriers would establish standard flight times or cruise speeds, or other operating procedures which would result in fuel conservation.

Concerned with the potential scarcity of aviation fuel, United points out that any overall fuel shortage will have particularly serious effects on the airline industry for two basic reasons. First, unlike other industries, the air carriers have no freedom of choice of energy source since commercial jet aircraft are limited to the use of kerosene-type fuels. Second, these fuels must compete in the refining process with other products which in the consumer market tend to offer oil refiners greater volume and profit than does fuel for jet engines. In periods of short fuel supply, the airline industry thus will be in a particularly vulnerable position.

United maintains that flight schedules can be developed for optimum fuel economy based on operational techniques designed for conservation of fuel,[1] and that agreed-on flight times would lead to carrier observance of conservation procedures because no competitive advantage would be gained by beating such flight times.

United suggests that the appropriate air carrier group for the fuel consumption discussions would be the scheduled domestic trunkline and local service carriers, with discussion groups composed of different carriers serving various segments under discussion.

Comments have been filed in support of the request by American Airlines, Inc.

[1] For example, United points out that a DC-8 fan-jet flight from Chicago (ORD) to Los Angeles (LAX) operated at a speed of mach 0.80 would consume 1,100 lb less fuel than one operated at mach 0.82. Yet the mach 0.80 flight would be only 4 minutes slower than the mach 0.82 operation.

(American), Pan American World Airways, Inc. (Pan American), Trans World Airlines, Inc., and Southern Airways, Inc. No other comments have been filed.

Pan American states that the group authorized to hold discussions should be "all scheduled air carriers," since United's suggestion of "domestic trunkline and local service carriers" inadvertently excludes Pan American, which serves domestic markets likely to be considered in fuel conservation matters (i.e., the U.S. Mainland-Puerto Rico/Virgin Islands and U.S. Mainland-Hawaii segments). Pan American also suggests that the conservation of fuel can be accomplished without any lessening of competition or adverse effect on services, and that it is therefore not necessary that discussions be held in formal, public sessions.

Upon consideration of the foregoing, we will approve United's request to hold discussions. As pointed out by United, it is clear that the Nation faces a major problem concerning the future supply of fuel. We recently recognized this problem in approving discussions for capacity reductions in order 73-4-98, April 24, 1973. Moreover, the airlines have been requested to undertake plans to assure the continuation of an adequate level of air service if a fuel shortage develops, particularly with respect to the Nation's largest domestic airport hubs. Restricted to relatively noncompetitive, technical matters, we believe that these discussions would afford an appropriate forum for consideration of the fuel shortage problem. We also conclude that, to the extent fuel conservation measures ultimately involve minor differences in scheduled block-to-block time, such as might result from imposition of standard flight times, the traveling public would not be impaired by the program.

We will adopt Pan American's suggestion that formal requirements usually imposed with respect to carrier discussions (see United Airlines, Inc., Order 73-4-98, April 24, 1973), be dispensed with.[2] Constraints appropriate with respect to capacity discussions appear unnecessarily burdensome with respect to discussions of the type here proposed, where there will be no substantial impact upon service to the public. Therefore, we will permit discussions to be held at a place and time to be chosen by the interested air carriers. We will require only that discussions be open to all scheduled air carriers. The filing and approval requirements of section 412 should adequately serve to inform, and insure participation of, nondiscussion parties. The only other procedural requirements shall be that the carriers restrict discussions authorized by this order to appropriate subject matter, as described below, and that minutes be taken and submitted to the Board of every meeting held pursuant to this order.[3]

It appears that discussions respecting cruise speeds or standard flight times can be conducted within the relaxed discussion guidelines herein imposed with no impairment of the public interest. Also, technical matters relating solely to other physical aspects of aircraft operation would appear to pose no difficulty. However, to the extent that the discussions might involve additional matters affecting apportionment of departure or arrival times, use of alternate airports or other matters affecting fares, scheduling, or significant competitive factors, discussions could not be conducted in the informal structure herein allowed, and additional authority would be required.[4] Authority herein granted extends only to matters having the most minimal impact on competition or on public service.

Accordingly, it is ordered, That:

1. The application of United Air Lines, Inc., for approval of discussions regarding fuel conservation measures, insofar as such discussions would be restricted solely to physical aspects of aircraft operation, be and it hereby is approved: *Provided, however,* That minutes shall be taken, and filed with the Board within 10 days thereafter, with respect to each meeting held under authority of this order;

2. Notice of the discussions will be made to the Director of the Board's Bureau of Operating Rights not later than 7 days prior thereto; and the discussions shall be open to attendance by a Board observer;

3. The discussions shall be open to all certificated scheduled air carriers, and appropriate notice of the meetings shall be furnished to each such air carrier;

4. United shall, as a condition to approval of its application, arrange to provide a copy of any resulting agreement to any person requesting one, and such agreement shall be filed with the Board for approval under section 412 of the Federal Aviation Act;

5. The relief granted herein shall expire within 180 days of the date of this order and may be revoked or amended at any time in the discretion of the Board; and

6. This authorization does not extend to discussions of rates, fares, charges, inflight services, scheduling, or other services pertaining to air transportation.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Acting Secretary.

[2] Of course, resulting agreements will be subject to the filing requirements of 14 CFR part 261, with the additional requirement that such filings be made in this docket.

[3] The minutes should make reference to each matter considered, whether or not acted on or brought to a conclusion, and should be filed with the Board within 10 days after the close of each meeting.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19746; FCC 73-553]

AMERICAN TRUCKING ASSOCIATION, INC. AND AMERICAN TELEPHONE & TELEGRAPH CO.

Memorandum Opinion and Order Instituting Investigation

1. The Commission has before it an amended formal complaint filed by the American Trucking Association, Inc. (ATA) on September 1, 1972, questioning the lawfulness of provisions in American Telephone & Telegraph Co.'s (A.T. & T.) private line service tariff (tariff F.C.C. No. 260) which allows a particular customer—Aeronautical Radio, Inc. (Arinc)[1]—to order private line service on behalf of itself and air transport carriers. The National Association of Motor Bus Owners (NAMBO) filed a statement in support of ATA's complaint on September 16, 1972 and A.T. & T. answered the amended complaint on October 16, 1972.

2. Section 2.2.1 of A.T. & T.'s 260 generally requires that the interstate private line services provided by the telephone companies to persons ordering such services shall be used "for the transmission of communications to or from the *customer* and relating directly to the *customer's business*" [italic supplied] and section 2.2.3 of the same tariff prohibit the "resale" of such services or the use thereof to handle communications "for others." However, certain exceptions to these particular requirements are spelled out in the tariff. One of these exceptions is expressed in subsection (G) of section 2.2.1 which specifically permits private line services to be used:

> For the transmission of communications to, from, within and between air carriers, where the customer is an aeronautical communications company licensed under the Aviation Services rules of the Commission to operate stations in the aeronautical mobile and fixed services.

It is this particular subsection (and related tariff provisions) to which the complaint is addressed because Arinc is the only entity that fits this exemption and complainant contends that the results are that air carriers are given certain preferences and privileges that are denied to motor truck and other carriers of passengers and property (i.e. buses and railroads) that compete with the air carriers.

3. It is true that subsection (G) of section 2.2.1 of A.T. & T.'s private line service tariffs has the effect of extending to Arinc and the airlines favorable treatment that is denied to other transportation carriers. There are at least six manifestations of such preferential treatment. First, subsection (G) permits Arinc to obtain private line services from the telephone companies for use by itself or by the individual airlines or groups of airlines without complying with the usual tariff requirement (2.2.1(A)) that all such services must be used to transmit communications *to or from Arinc itself*. [Italic supplied]. For example, Arinc, under this exemption, may order private line services between points on a single airline or between points on different airlines or between points on different airlines or between points on any airline and points off of any airline (e.g., government agencies, airframe manufacturers, etc.), without such private line facilities being used to handle communications to or from Arinc.

4. Second, subsection (G) permits Arinc to obtain private line services for itself or the airlines, without complying with the usual tariff requirement (see 2.2.1(A)) that all communications over such services must relate directly to Arinc's business. Thus, communications handled over any private line facilities that may be ordered by Arinc, no matter where such facilities may be located, may be used to handle communications that relate to any business, without any tariff limitation whatsoever on the nature of the business so handled over such facilities.

5. Third, subsection (G), in conjunction with language in section 2.2.3 of the tariff, permits Arinc to obtain private line services for itself and the airlines without complying with a general prohibition in the tariff that such services shall not be used for any purpose for which a payment or other compensation shall be received by either the customer or any authorized or joint user. Thus, either Arinc or the airlines may, as far as A.T. & T. tariff is concerned, receive payment or other compensation in any amounts whatsoever from any entity with respect to any use of such private line facilities.

6. Fourth, subsection (G), in conjunction with language in section 2.2.3, permits Arinc to avoid compliance with another usual tariff requirement that private line services may not be used in the collection, transmission or delivery of any communications for others. Thus, so far as the tariff is concerned, Arinc and the airlines are free to use these private line services to handle communications of any persons without limitation and, as heretofore indicated, to receive any compensation or payment therefor.

7. Fifth, subsection (G), in conjunction with a proviso in section 2.5, permits Arinc to be a customer of the telephone company for private line facilities used by Arinc for itself or for the airlines without complying with another usual tariff requirement that no one may be a customer for a private line service who does not have a communications requirement of his own for its use. Under this exemption, Arinc may be a customer of A.T. & T. to order any and all private line facilities for the airlines irrespective of whether Arinc itself has any need or use for such facilities.

8. Sixth, on the basis of the foregoing favorable tariff exemptions A.T. & T. has followed the practice of permitting Arinc to order large volumes of private line service channels throughout the United States for itself and for the air carriers and thereby obtain the substantial Telpak rate discount on such services for the benefit of the air carriers.

9. As heretofore stated, complainant alleges, and A.T. & T. concedes, that the motor truck carriers have been denied, in all respects, the same favorable treatment that has been extended by the telephone companies to the air transport industry. Moreover, it appears clear that all other surface transportation carriers, such as railroads and buses, have also been denied such treatment. ATA emphasizes that it does not question the validity of the exceptions extended to Arinc and the airlines and ATA alleges that it does not want to do anything to deprive the airline industry of this favorable pattern of treatment. However, ATA contends that it is a violation of section 202(a) of the act for A.T. & T. to deny the same treatment to surface carriers that compete with the airlines and ATA requests that we direct A.T. & T. to revise its tariffs to permit such treatment for all surface carriers and that A.T. & T. be required to pay forfeitures provided for under section 202(c) of the act for violations of section 202(a).

10. In its December 1971 reply to ATA's earlier informal complaint,[2] A.T. & T. explained its rationale for not extending to ATA and its members the same tariff and rate treatment accorded to Arinc and the airlines. A.T. & T. stated that:

[1] Arinc is a Delaware stock corporation operated to provide communications facilities for the conduct of air carrier and other aircraft operations under bylaws that provide for operation on a nonprofit basis.

[2] After ATA received no satisfaction on its informal complaint, it filed the instant formal complaint.

the reasonableness of the tariff provision in question rests upon a judgment that Arinc has unique operational characteristics and responsibilities which can be met most efficiently by permitting it, as a customer, to order and administer the communications requirements of the carriers which it serves.

A.T. & T. added that these preferential tariff provisions were "not filed for the purpose of conferring any special rate advantage on the airline industry." In reaching its conclusion, A.T. & T. placed substantial reliance on an early Commission decision which stated that:

> * * * safety of life and property in the air is the principal purpose for which (Arinc) was organized and is operating under its existing declaration of policy * * *. Coordination (of radio and wire facilities) through a single agency will tend to promote the safety life and property in the air.[3]

In its responsive pleadings to ATA's amended formal complaint, A.T. & T. defends its tariff and rate treatment of Arinc and the airlines for the same reasons set forth above in responding to ATA's informal complaint.

11. We are of the opinion that the ATA complaint raises substantial questions as to whether there is adequate justification under the Communications Act for the aforementioned tariff regulations insofar as they permit A.T. & T. to extend the aforementioned tariff and rate treatment to Arinc and the airlines and deny the same treatment (a) to ATA and motor truck carriers, (b) to other transportation carriers in competition with the airlines, and (c) to most other private line users (e.g. members of the National Retail Merchants Association) who might wish to group their service requirements to obtain the benefits accorded to the airline industry. In addition to these tariff provisions challenged by complainant, there are other provisions wherein the telephone company undertakes to provide all or some of the same privileges to other entities, such as corporate conglomerates (2.2.1(c)) stock exchanges and members (2.2.1(e)), electric power pools (2.2.1(f)) and State and local governments (2.2.1(g)). Since these privileges appear to be denied, in whole or in part, to other users generally, including complainant's members, we believe that the same questions of lawfulness are raised as to such provisions.

12. With respect to the airlines, a question is raised as to whether the different tariff treatment is warranted on the basis of A.T. & T.'s contention that we decided in 1937 that there were unique operational characteristics and responsibilities attributable to Arinc warranting such disparate treatment. 4 FCC 155 (1937). The issue before us in 1937 was whether Arinc was entitled to obtain private line teletypewriter service from A.T. & T. as a customer of A.T. & T. and to use such services for Arinc's own use and benefit and for the transmission of messages by Arinc in which Arinc had a direct interest. 4 FCC 155; 164–165 (1937). We expressly held that:

> We desire to make it clear that, so far as this decision is concerned, we are merely passing upon complainant's right under defendants' existing tariff to a private line teletypewriter service for its own use in handling such communications as the record disclosed it proposes to handle and which relate to the safety of life and property in the air. 4 FCC 155; 166 (1937)

Accordingly, our actual holding in 1937 was that Arinc could obtain private line services from A.T. & T. for Arinc itself to transmit messages relating to safety of life and property in which Arinc had a direct interest even though such transmissions were to be for the benefit of the airlines. However, the issue raised by the ATA complaint is whether Arinc may obtain private line services not only for its own use but also for the use of the airlines themselves and obtain for itself and the airlines all of the privileges allowed by the tariff exceptions referred to above, which privileges are denied to the competitors of the airlines who claim that they also have a need to transmit communications which relate to safety of life and property. Furthermore, the changes that have occurred in Arinc's operations since 1937 raise questions as to whether and to what extent our decision in 1937 has applicability to present day facts and circumstances.

13. In view of the foregoing, we conclude that the lawfulness issues presented by ATA's complaint should be resolved on the basis of an evidentiary hearing record. Moreover, since the same kind of tariff exemptions apply, in whole or in part, to corporate conglomerates, stock exchanges and members, electric power pools and State and local governments, we believe that the lawfulness of those provisions should also be investigated at the same time, on our own motion.

14. We should make clear that the scope of the issues to be investigated in this proceeding will be limited. We are concerned in this proceeding with resolving the basic question of whether or not the tariff provisions referred to above constitute unlawful discrimination or preferences within the meaning of section 202(a) of the act. Therefore, we are not concerned in this proceeding with questions as to the justness or reasonableness of Telpak rates or of any of the aforementioned general tariff provisions prohibiting "resale," third party traffic or receipt of compensation, except insofar as consideration of the justness and reasonableness of such general prohibitions may be relevant to a resolution of the foregoing basic issue. The lawfulness of these tariff restrictions, per se, is a matter that we are considering taking up in separate proceedings and the lawfulness of the Telpak rates is being considered in a separate docket (No. 18128). In summary, the hearing we are ordering herein is to determine whether the above-described differences in rate and tariff treatment that are extended to the airlines, corporate conglomerates, stock exchange members, and State and local governments, constitute unlawful discrimination or preferences within the meaning of section 202(a) of the act and, if so, what remedial action we should take to remove such unlawfulness, including among other possible actions, whether we should prescribe new or revised tariff provisions that would be just, fair and reasonable, as provided in section 205 of the act.

15. *Accordingly, it is ordered*, That, pursuant to sections 4(i), 201, 202, 205, 208, and 403 of the Communications Act, an investigation is hereby instituted into the lawfulness of the aforementioned provisions of sections 2.2.1, 2.2.3, and 2.5 of A.T. & T.'s Tariff F.C.C. No. 260, insofar as these provisions accord rate or tariff treatment to the airlines, corporate conglomerates, stock exchanges and their members, electric power pools, local and State governments, or others, that is denied in whole or in part to complainant or to any other person or persons;

16. *It is further ordered*, That the proceeding shall include inquiry into the following issues:

(1) Whether such tariff provisions, insofar as they provide for the aforementioned different rate or tariff treatment, constitute, in whole or in part, unjust or unreasonable discrimination, or subject any person or class of persons to undue or unreasonable prejudice or disadvantage, or give any undue or unreasonable preference or advantage to any person or class of persons, within the meaning of section 202(a) of the Communications Act; and

(2) If the Commission should find that any of these provisions is in contravention of section 202(a), what action the Commission should take to remove any such unlawfulness found to exist, including the question of whether the Commission, pursuant to section 205 of the act, should prescribe new or revised tariff changes that would be just, fair, and reasonable.

17. *It is further ordered*, That defendant's motion to dismiss is denied.[4]

18. *It is further ordered*, That, the hearing in this proceeding shall commence at the Commission offices in Washington, D.C., at a time to be specified by the presiding administrative law judge; and that such administrative law judge shall, upon the closing of the record, prepare an initial decision which shall be subject to the submittal of exceptions and requests for oral argument as provided in 47 CFR 1.276 and 1.277 after which the Commission shall issue its decision as provided in 47 CFR 1.282 and that the trial staff of the Common Carrier Bureau shall be separated both from the Commission and from the administrative law judge;

ITT WORLD COMMUNICATIONS INC.

Memorandum Opinon and Order Regarding Changing of Issues

In the matter of ITT World Communications Inc., petition under section 201(a) of the Communications Act of 1934 for connection with RCA Global Communications, Inc. to enable ITT to provide telex and message telegraph services with Guam.

1. The Commission has before it:

(a) A motion to change the issues herein, filed by Western Union International, Inc. on March 12, 1973; [1]

(b) A motion for clarification and enlargement of issues filed by RCA Global Communications, Inc. (RCAGC) on March 19, 1973; and

(c) An opposition to this motion filed by ITT World Communications Inc. (ITTWC) on April 4, 1973.

BACKGROUND

2. On March 29, 1972, a petition was filed by ITTWC (which operates on Guam only for leased telegraph and leased voice/record services), requesting that the Commission, pursuant to section 201(a) of the Communications Act of 1934, direct RCAGC to cooperate with ITTWC in establishing an electrical interconnection between RCAGC's telegraph message and telex systems at other U.S. locations, establishing through routes and charges applicable thereto and the division of such charges; and establishing, and providing facilities, and regulations for operating such through routes.

RCAGC filed a petition to dismiss or deny ITTWC's petition on May 10, 1972, and ITTWC replied on May 31, 1972. By memorandum opinion and order of February 20, 1973 (FCC 73-144) (38 FR 5678), the Commission instituted an investigation into the matter and directed that a hearing be held on the following issues:

(1) Whether it is necessary or desirable in the public interest to require RCAGC to interconnect its telegraph message and telex facilities with facilities of ITTWC for the provision of service to and from Guam.

(a) The effect, financial, and other, on ITTWC and RCAGC telex and message services, and the public, were no interconnection to be established; and

(b) The manner in which ITTWC customers are able to send or receive messages to and from Guam in the absence of interconnection.

(2) The points at which interconnection, if any, should be established and the financial and other effects on the ITTWC and RCAGC telex, and message services, and the public.

(a) The through routes and charges to be established; and

(b) The facilities and regulations appropriate to the operation of such routes.

(c) The charges and the classifications, regulations, and practices affecting such charges; and

(d) The appropriate division of such charges.

DISCUSSION

3. WUI, in its motion to amend the issues, seeks to be included in each matter at issue in the Commission's February 20, 1973 order wherein mention is made of ITTWC. WUI represents that it is in a position identical to that of ITTWC with respect to the provision of services on Guam: That is, it is authorized to provide leased telegraph channel service and leased voice/data service; it is a joint owner of the satellite earth station on Guam; it holds both indefeasible right-of-user and lease interests in submarine cable circuits radiating from Guam; and it has not been authorized to provide telex and public message telegraph services between the United States and Guam. According to WUI, therefore, it has in common with ITTWC an interest in removing its competitive disadvantage vis-a-vis RCAGC by permitting telex and public message users served by both WUI and ITTWC to communicate directly with Guam through the interconnected facilities of RCAGC. WUI points out that, as ITTWC has done, it has requested interconnection with the facilities of RCAGC and has been refused. From the foregoing it appears that the issues set for hearing by the Commission in its February 20, 1973 order are applicable to WUI and that it would be in the public interest to hear and determine the claims of both ITTWC and WUI concurrently.

4. RCAGC, in its motion, requests the Commission to clarify and enlarge the issues set forth in the Commission's February 20, 1973, order, to specifically include consideration of the rights of RCAGC and ITTWC under the formula prescribed by the Commission pursuant to section 222 of the Communications Act of 1934 [2] with respect to unrouted Guam-bound message telegraph traffic originating in the Western Union Telegraph Co. (WU) domestic network. To this end, RCAGC requests a modification of the Commission's second issue as follows:

(2) The point at which interconnection, if any, should be established and the financial and other effects, including the redistribution of traffic, if any, pursuant to the International Formula, on the ITTWC and RCAGC telex and message services and the public * * *

RCAGC also seeks to add the following issues:

(3) The rights of RCAGC and ITTWC to the outbound unrouted message telegram traffic to Guam under the International Formula; and

(4) Whether the public interest requires the amendment of the International Formula if an interconnection is ordered with ITT at a point outside of the United States.

5. RCAGC alleges that, though it has been the sole carrier maintaining telex and message telegraph operations on Guam, it has been suffering losses in the provision of these services—losses that would be aggravated if it were ordered to interconnect with ITTWC (and WUI) at the theoretical midpoint, on a full correspondent basis. According to RCAGC, a factor contributing to this potential increase in losses is the possibility that upon interconnection there would be a redistribution among the carriers of unrouted Guam-bound message telegraph traffic pursuant to the International Formula.

6. RCAGC represents that it received no quota under the Formula with respect to Guam-bound traffic since it did not operate facilities to that subarea until 1952,[3] and that the only companies operating on Guam during the base period were Commercial Pacific Cable Co., now defunct, and Globe Wireless, now absorbed into ITTWC.[4] According to RCAGC, it could theoretically be argued that ITTWC has succeeded to the quota of Globe Wireless even though in the 32 years since the base period it has never applied for it. If this argument were successfully made by ITTWC and if interconnection were ordered at a point outside of the U.S. mainland, RCAGC expects that ITTWC would receive the total unrouted message telegraph traffic presently handled by RCAGC.

7. In its opposition to RCAGC's motion for enlargement ITTWC asserts that distribution of message traffic pursuant to the Formula should have no effect on the amount of revenue derived by RCAGC from its operations on Guam. According to ITTWC, RCAGC has been and will

[5] Commissioners Johnson and Reid concurring in the result.

[1] By order of Chief Administrative Law Judge, Arthur A. Gladstone, issued March 22, 1973, WUI was granted leave to intervene in the above-referenced proceeding.

[2] The International Formula, required by section 222(e)(1) of the Communications Act of 1934 as an incident to the merger of Western Union Telegraph Co. (WU) and Postal Telegraph Co., was prescribed by Commission Order, 10 FCC 184 (1943). It sets out a quota system for the distribution to the international carriers of unrouted outbound messages which, added to messages specifically routed via such carrier, gives it such amount of gross international tolls to a geographical subarea as is proportionate to its share of total industry tolls to such areas in 1942.

[3] All unrouted Guam-bound message telegraph traffic has nevertheless been distributed to RCAGC because it alone has been authorized to serve Guam.

[4] Globe Wireless was acquired in 1960 by AC&R, a subsidiary of International Telephone and Telegraph Corp.

continue to be, even if interconnection is ordered, the only carrier on Guam available to provide service and derive tolls from messages incoming from the United States. ITTWC argues that the Formula dictates only WU's choice of international carrier that is to transmit a given message from the U.S. mainland to an overseas point, thus affecting a carrier's outbound operations but not its operations at overseas points. Finally, ITTWC argues that consideration of a revision of the Formula in this proceeding would be inappropriate in light of the pending inquiry, in the matter of International Record Carriers' scope of operations in the continental United States, including possible revisions of the Formula prescribed under section 222 of the Communications Act (Docket 19660).

CONCLUSIONS

8. It appears from the pleadings of ITTWC and WUI that their interest in obtaining interconnection is directed solely at gaining direct access to Guam for their respective exclusive telex subscribers and control over telegraph messages specifically routed via their respective facilities (which now must be turned over to RCAGC at the gateway). There is nothing in the pleadings to indicate that either ITTWC or WUI believes it has or intends to claim rights to unrouted Guam-bound message traffic pursuant to the International Formula, or that either desires an amendment to the Formula should interconnection be ordered at a point outside of the U.S. mainland.

Accordingly, we see no reason to include in the instant proceeding any issue addressing the necessity or desirability of effecting a change in the current distribution of Guam-bound message telegraph traffic pursuant to the International Formula as an incident to interconnection.

9. It is conceivable that, if the proposed interconnection is ordered, ITTWC and/or WUI will subsequently raise the issue of whether there should be a redistribution of unrouted Guam-bound message telegraph traffic pursuant to the International Formula. If either informs the Commission within 15 days of the release of this order of an intention to do so, we will take appropriate steps to consider the distribution issue in conjunction with our pending inquiry, in the matter of International Record Carriers' scope of operations in the continental United States, including possible revisions to the Formula prescribed under section 222 of the Communications Act (Docket 19660).

10. *Accordingly, it is ordered*, That:

(A) The motion to change the issues, filed by WUI on March 12, 1973, is granted;

(B) The motion for clarification and enlargement of the issues filed by RCAGC on March 19, 1973, is denied.

(C) If either ITTWC or WUI informs the Commission within 15 days of the release of this order that it intends to seek a redistribution of unrouted Guam-bound message telegraph traffic originating in the WU domestic network, pursuant to the International Formula, as an incident to interconnection with RCAGC's telex and message telegraph operations on Guam, the Commission will take appropriate steps to consider the issue in conjunction with its pending inquiry, in the matter of International Record Carriers' scope of operations in the continental United States, including possible revisions to the Formula prescribed under section 222 of the Communications Act (Docket 19660).

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN EL SALVADOR

Entry or Withdrawal From Warehouse for Consumption

MAY 29, 1973.

On April 10 and May 16, 1973, the Governments of the United States and El Salvador exchanged notes amending the comprehensive bilateral cotton textile agreement of April 19, 1972, concerning exports of cotton textiles and cotton textile products from El Salvador to the United States. Among the provisions of the agreement, as amended, are those establishing specific limits on categories 1, 2, 3, 4, 9, 15, and 31 for the second agreement year which began on April 1, 1973.

Accordingly, there is published below a letter of May 29, 1973, from the chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textile products in the above categories produced or manufactured in El Salvador which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning April 1, 1973, and extending through March 31, 1974, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, as amended, but are designed to assist only in the implementation of certain of its provisions.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[*] Commissioner Johnson concurring in the result.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C.

MAY 29, 1973.

DEAR MR. COMMISSIONER: This directive amends but does not cancel the directive issued to you on March 29, 1973, by the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain cotton textiles and cotton textile products produced or manufactured in El Salvador.

The first paragraph of the directive of March 29, 1973 is amended, effective as soon as possible, to read as follows:

"Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of April 19, 1972, between the Governments of the United States and El Salvador, and in accordance with procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective April 1, 1973 and for the 12-month period extending through March 31, 1974, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in categories 1/2/3/4, 9, 15, and 31, produced or manufactured in El Salvador in excess of the following levels of restraint:

"Category:	*12-month level of restraint*	
1/2/3/4	pounds	369,565
9	square yards	1,500,000
15	do	1,000,000
31	units	1,436,781"

The actions taken with respect to the Government of El Salvador and with respect to imports of cotton textiles and cotton textile products from El Salvador, have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs being necessary to the implementation of such actions, fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

FEDERAL POWER COMMISSION

[Docket No. CI73-781]

NORTH CENTRAL OIL CORP.

Notice of Application

MAY 23, 1973.

Take notice that on May 14, 1973, North Central Oil Corp. (Applicant), 4545 Post Oak Place Drive, Houston, Tex. 77027, filed in docket No. CI73-781 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. from the Seven Oaks Field, Polk County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on April 30, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for 1 year from the end of the 60-day-emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell approximately 60,000 M ft³ of gas per month at 45c/M ft³ at 14.65 lb/in²a, subject to upward and downward British thermal unit adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Acting Secretary.

FEDERAL RESERVE SYSTEM

MARK TWAIN BANCSHARES, INC.

Order Approving Acquisition of Bank

Mark Twain Bancshares, Inc., Clayton, Mo., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the act (12 U.S.C. 1842(a)(3)) to acquire not less than a majority and as much as all of the voting shares (less directors' qualifying shares of Parkway Bank and Trust Company, Chesterfield, Mo. (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the act (12 U.S.C. 1842(c)).

Applicant, the 12th largest multibank holding company in Missouri, controls three banks with aggregate deposits of about $123 million, representing approximately 1 percent of the total commercial bank deposits in the State. (All banking data are as of June 30, 1972, and reflect holding company formations and acquisitions approved by the Board through Mar. 31, 1973.) Consummation of the proposed acquisition of Bank, with deposits of $7.5 million, would neither significantly increase applicant's share of commercial bank deposits in the State nor result in a significant increase in the concentration of banking resources in Missouri.

Bank, located in the western portion of the St. Louis banking market,[1] is the second smallest of eight banks in its primary service area, holding about 5 percent of the combined total deposits within this submarket. The largest bank therein is a subsidiary of a one-bank holding company, the third and fifth largest are affiliated with multibank holding companies, and the sixth largest is a proposed subsidiary of the third largest multibank holding company in the State. Applicant's three subsidiary banks are also located in the St. Louis market and their combined deposits, together with those of Bank, represent 2 percent of the total commercial deposits in the market area. The record reveals that there is no significant existing competition between Bank and applicant. Although there is a slight overlap of the primary service areas of Bank and one of applicant's subsidiaries, the degree of competition is not strong in view of the existence of several intervening banks and numerous banking alternatives. On the basis of the record before it, the Board concludes that consummation of the proposal would not have an adverse effect on competition in any relevant area.[2]

The financial and managerial resources of applicant, its subsidiaries, and Bank are generally satisfactory; future prospects for applicant and its subsidiaries are favorable while those of Bank are considered excellent due to the rapid residential, commercial and industrial development taking place in Bank's service area. Affiliation would provide Bank with additional lending capability and would thereby satisfy the growing demands for commercial and mortgage loans. In addition, consummation herein

[1] The St. Louis banking market includes the city and county of St. Louis, portions of St. Charles and Jefferson Counties in Missouri, and portions of Madison and St. Clair Counties in Illinois.

[2] Certain competing banks have objected to this application on the ground that as a result of Missouri's recently liberalized facility law, applicant, with three subsidiary banks in St. Louis County, could operate facilities at nine locations in the county. However, the Board foresees little possibility that approval herein will give applicant an unfair competitive advantage in a market in which it has only a 2 percent share.

would enable Bank to broaden the range of services it presently offers, including computerized payroll and trust services. Considerations relating to the convenience and needs of the community to be served are consistent with approval. It is the Board's judgment that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before June 25, 1973, or (b) later than August 24, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of St. Louis pursuant to delegated authority.

By order of the Board of Governors,[2] effective May 24, 1973.

[SEAL] ELIZABETH L. CARMICHAEL,
Assistant Secretary of the Board.

NEW ENGLAND MERCHANTS CO., INC.

Order Denying Acquisition of Bank

New England Merchants Co., Inc., Boston, Mass., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of Hancock Bank & Trust Co., Quincy, Mass. (Hancock Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the act (12 U.S.C. 1842(c)).

Applicant controls one bank[1] with deposits of approximately $844 million, representing 7.2 percent of the total deposits in commercial banks in Massachusetts, and is the fifth largest banking organization in the State.[2] The acquisition of Hancock Bank ($66.7 million in deposits) would increase applicant's control of statewide deposits by .6 percentage points, and its ranking among Massachusetts banking organizations would not change.

Applicant's existing subsidiary bank, New England Merchants National Bank (Merchants Bank), has its home office in Suffolk County and is the fourth largest commercial bank in the Boston banking market,[3] controlling approximately 10 percent of market deposits. Hancock Bank is the largest independent bank with its home office in Norfolk County, and is the 13th largest commercial bank in the Boston banking market, controlling .8 percent of market deposits. Although Applicant's acquisition of Hancock Bank would increase its share of market deposits by only .8 percentage points, it would aggravate the high level of deposit concentration in the market (the five largest banking organizations presently control in excess of 80 percent of market deposits). Merchants Bank and Hancock Bank are restricted by Massachusetts banking law from branching outside of their home office counties; however, the main offices of each bank are located only 8 miles apart and they have several branches in close proximity to one another. It appears that Merchants Bank derives a significant dollar volume of loans and deposits from Hancock Bank's primary service area. One branch of Merchants Bank derives more than 35 percent of its Individual Partnership and Corporations (IPC) demand deposits and more than 26 percent of its loans from Hancock Bank's primary service area, and another branch of Merchants Bank derives more than 26 percent of its IPC demand deposits and more than 44 percent of its loans from Hancock Bank's primary service area. Although loans and deposits derived from Hancock Bank's primary service area represent a relatively small percentage of Merchants Bank's total loans and deposits, they represent, respectively, approximately 73 and 58 percent of the total loans and deposit dollar volume that Hancock Bank derives from its own primary service area. Further, Hancock Bank derives approximately 5 percent of its total loans and deposits from Merchants Bank's home office county. On the basis of these and other facts of record, the Board concludes that significant existing competition would be eliminated upon consummation of this proposal.

Hancock Bank is the third largest remaining independent bank in the Boston banking market and the largest remaining independent bank having its home office in Norfolk County. Applicant's acquisition of Hancock Bank would eliminate one of the more desirable remaining independent banks located in the Boston banking market, with the ability to branch throughout Norfolk County, as a possible means of entry for a banking organization not presently represented in the Boston banking market. Applicant's acquisition of Hancock Bank would also aggravate the high level of deposit concentration presently existing in the Boston banking market. It appears that applicant could enter Norfolk County either by acquiring one of the smaller remaining independent banks located therein or by establishing a de novo bank. It is the Board's judgment that consummation of the proposal would have a significantly adverse effect on existing and potential competition.

The financial and managerial resources of applicant, Barnstable Bank, and Merchants Bank are satisfactory, particularly in view of applicant's plans to increase Merchants Bank's capital in the near future. The financial and managerial resources and future prospects of Hancock Bank are generally satisfactory and consistent with approval of the application. Since applicant proposed to increase Hancock Bank's capital upon approval of this application, banking factors lend some weight toward approval of the application; however, such factors do not outweigh the aforementioned adverse effects on competition. In this regard, it is noted that although an increase in Hancock Bank's capital would be desirable, its managerial and financial resources are sound and its future prospects as a viable competitor in Norfolk County and the Boston market, either as an independent bank or as a member of a holding company system, are good.

Applicant proposes to offer, through Hancock Bank, new and improved services, including trust, international banking, equipment leasing, and specialized credit advisory services. However, it appears that such services are presently conveniently available to the public in the area served by Hancock Bank. Therefore, considerations relating to the convenience and needs of the communities to be served do not outweigh the adverse effects this proposal would have on competition in the Boston banking market. It is the Board's judgment that consummation of the proposed acquisition would not be in the public interest and this application should be denied.

On the basis of the record, the application is denied for the reasons summarized above.

By order of the Board of Governors,[4] effective May 22, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

THIRD NATIONAL CORP.

Order Approving Acquisition of John W. Murphree Co.

Third National Corp., Nashville, Tenn., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 4(c)(8) of the act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of the successor by merger to John W.

[2] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, and Bucher. Absent and not voting: Governors Mitchell and Daane.

[1] By order of May 3, 1973 (38 FR 12259), the Board approved applicant's acquisition of the successor by merger to the Barnstable County National Bank of Hyannis, Hyannis, Mass. (Barnstable Bank).

[2] Unless otherwise noted, banking data are as of June 30, 1972, adjusted to reflect holding company formations and acquisitions through Mar. 31, 1973.

[3] The Boston banking market is approximated by the Boston Standard Metropolitan Statistical Area which encompasses all of Suffolk County and portions of Essex, Middlesex, Norfolk, and Plymouth Counties.

[4] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, and Bucher. Absent and not voting: Governors Mitchell and Daane.

Murphree Co., Nashville, Tenn. (Company), a company that proposes to engage in the activities of: (1) Making or acquiring for its own account or for the account of others real estate mortgage loans and servicing such loans; and (2) acting as an insurance agent or broker with respect to insurance that is directly related to an extension of credit or provision of other financial services by Company. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4 (a)(1) (3) and (9)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 8695). A comment with respect to the request for approval of the sale of homeowners insurance was received from the Tennessee State Commissioner of Insurance. Subsequently, applicant withdrew that portion of its request for prior approval relating to the sale of homeowners insurance and has assured the Board that Company's sale of insurance will be confined solely to that which is related to extensions of credit. The time for filing comments and views has expired, and the Board has considered all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)).

Applicant controls four banks with aggregate deposits approximating $712 million, representing 7.8 percent of commercial bank deposits in Tennessee. (All banking data are as of June 30, 1972.) Through its nonbanking subsidiaries, applicant is engaged in consumer finance lending, leasing of personal property and equipment, the operation of a small business investment corporation, and the operation of a mobile home servicing company. In addition, each of applicant's banking subsidiaries in Nashville, Lawrenceville, Cleveland, and Knoxville, originate loans secured by real property.

Company was incorporated in 1965 as the Murphree Real Estate Co., to engage in the activity of real estate development. Its present assets approximate $573,000, and substantially all of its revenue is derived from the construction and sale of houses.[1] However, Company is now in the process of liquidating all of its interests in the real estate development field and has assured the Board that, upon consummation of the proposed acquisition, its activity will be confined exclusively to mortgage banking and related insurance agency activities. Company does not now engage in mortgage banking, although its president organized a mortgage company in 1945 and operated it until the time of its sale in 1966. Thus applicant proposes, in effect, to acquire a de novo mortgage company operation with management of proven competence.

Since Company does not presently engage in the activites of a mortgage company, it does not compete with any of applicant's banking subsidiaries, and no existing competition would be eliminated upon consummation of the proposal. Moreover, the facts of record indicate there is little likelihood that a significant degree of competition between Company and applicant's banking subsidiaries would develop in the future. The Board concludes that the competitive considerations are consistent with approval of the application.

It is anticipated that Company's affiliation with applicant, by providing access to the greater financial resources of applicant, will enable Company to offer effective competition to the other mortgage lenders in the area in which it proposes to operate. There is no evidence in the record indicating that consummation of the proposed acquisition would result in undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

By order of the Board of Governors,[2] effective May 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

WORCESTER BANCORP INC.

Order Approving Acquisition of Empire Mortgage Corp. of Connecticut, Empire Mortgage Corp. of Massachusetts, Empire Finance Corp. of Rhode Island, and Empire Mortgage Corp. of New Hampshire

Worcester Bancorp Inc., Worcester, Mass., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the act and § 225.4(b)(2) of the Board's regulation Y, to acquire all of the voting shares of Empire Mortgage Corp. of Connecticut, Hartford, Conn.; Empire Mortgage Corp. of Massachusetts, Natick, Mass.; Empire Finance Corp. of Rhode Island, Providence, R.I.; and Empire Mortgage Corp. of New Hampshire, Concord, N.H. (Empire Group), companies that engage primarily in the activity of making loans to individuals secured by second mortgages on nonincome producing real estate. Such activity has been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(1)). All four companies are wholly owned subsidiaries of Empire Group Inc., Natick, Mass.

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 8696). The time for filing comments and views has expired, and none has been timely received.

Applicant controls two banks with aggregate deposits of $392 million, representing 3.4 percent of the total deposits of commercial banks in Massachusetts. Applicant's lead bank, Worcester County National Bank, Worcester, Mass., has deposits of $367.8 million. (All banking data are as of June 30, 1972.) Applicant also has nonbanking subsidiaries engaged principally in providing realty trust, data processing, equipment leasing, and small business investment financing services. None of applicant's banking or nonbanking subsidiaries are engaged in making consumer loans of the type made by Empire Group.[1] Although applicant's real estate financing subsidiary does make second mortgage loans, these loans are restricted to commercial and industrial loans in excess of $100,000, on income producing property.

Empire Group (assets of $1.3 million) engages in or is chartered to be engaged in making consumer loans secured by second mortgages on residential real estate in Massachusetts, Connecticut, Rhode Island, and New Hampshire.[2] Empire Group began operations in 1967 and has operated at a loss for the last 2 years. Empire Group's current second mortgage loan portfolio in Massachusetts represents no more than 1 percent of the second mortgage loan market in that State. Because applicant does not make second mortgage loans of the kind made by Empire Group, no existing competition would be eliminated upon consummation of the proposal herein.

In view of Empire Group's small size and poor financial condition, and the relative ease of entry into the second mortgage market, it appears that consummation of the subject proposal will have no adverse effects on future or potential competition in any relevant area. Moreover, acquisition by applicant should provide Empire Group with a needed source of capital and experienced managerial resources that should enhance significantly Empire Group's ability to operate successfully, and thereby, preserve those companies as competitors in the market for second mortgage funds secured by residential real estate.

Applicant's financial condition and managerial resources are satisfactory, and it is believed that the proposed acquisition would lead to improvement of the financial condition and managerial

[1] As national banks, applicant's bank subsidiaries are prohibited from making loans secured by second mortgages.

[2] Empire Group's Rhode Island subsidiary is presently inactive. During 1972, Empire Group's Rhode Island and New Hampshire subsidiaries were inactive.

resources of Empire Group. There is no evidence in the record indicating that consummation of the proposed acquisition would result in any undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices or other adverse effects.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[1] effective May 24, 1973.

Assistant Secretary of the Board.

IMPORTS OF EXTRA HIGH VOLTAGE EQUIPMENT

Report of Effects on National Security

Report of the effects on the national security of imports of extra high voltage power circuit breakers and extra high voltage power transformers and reactors.

The Director of the Office of Emergency Preparedness made public on May 25, 1973, his report in the above matter. The report concludes an investigation which was requested in an application filed on August 7, 1972, with the Office of Emergency Preparedness by the General Electric Co. The investigation was conducted under the authority of section 232 of the Trade Expansion Act of 1962.

The Director found, as a result of the investigation, that the extra high voltage power circuit breakers and extra high voltage power transformers and reactors are not being imported into the United States in such quantities or under such circumstances as to threaten to impair the national security.

Dated May 25, 1973.

ROHN MANUFACTURING ET AL.

Applications for Variances and Grant of Interim Order

I. *Rohn Manufacturing—Notice of application.*—Notice is hereby given that Rohn Manufacturing, division of Unarco, 6718 West Plank Road, P.O. Box 2000, Peoria, Ill. 61601 has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a permanent variance from the requirements of 29 CFR 1910.23(c)(3), concerning protection of open-sided floors.

The address of the place of employment affected by the application is Rohn Manufacturing, division of Unarco, 6718 West Plank Road, P.O. Box 2000, Peoria, Ill. 61601.

The applicant certifies that the employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at places where notices to employees are normally placed. Employees have also been notified of their right to petition for a hearing.

Section 1910.23(c)(3), from which a permanent variance is sought, requires that pickling and galvanizing tanks be guarded with a standard railing and toeboard. The applicant states that its pickling tanks are built below floor level, of brick construction, with sides that rise to a height of 40 inches above the floor. In addition, the ledges of the tank sides are 24 inches wide. The applicant contends that if it were required to place a standard railing on top of the sides, its employees would not be able to perform their work. Applicant's galvanizing tanks are also built below floor level, with sides rising 26 inches above the floor and ledges 31 inches wide. The applicant again contends that the presence of a standard railing would obstruct the movement of its employees and do little to keep them from falling into the tanks. At both types of tanks, the applicant states, employees wear personal protective equipment consisting of gloves and hardhats with plastic face shields. The applicant also states that its employees are thoroughly trained in their jobs and that precautions are taken to avoid accidents. The applicant contends, therefore, that the construction of its tanks, the personal protective equipment its employees wear, and the training they receive provide a place of employment as safe as that required by 29 CFR 1910.23(c)(3).

For further information, interested persons are referred to a copy of the application which will be made available for inspection and copying, upon request, at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Washington, D.C. 20210, and at the regional and area offices, rooms 1201 and 1200, respectively, at the U.S. Department of Labor, Occupational Safety and Health Administration, 300 South Wacker Drive, Chicago, Ill. 60606.

II. *Celotex Corp.—Notice of application.*—Notice is hereby given that the Celotex Corp., Deposit Plant, Route 17, P.O. Box 67, Deposit, N.Y. 13754, has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) for a permanent variance from the requirements of 29 CFR 1910.37(q)(6), concerning exit signs.

The address of the place of employment affected by the application is the Celotex Corp., Laurel Bank Avenue, Deposit, N.Y. 13754.

The applicant certifies that the employees who would be affected by the variance have been notified of the application by giving a copy of the application to their authorized employee representative, and by posting a copy of the application on the employees' bulletin board. Employees have also been informed of their right to petition for a hearing.

The applicable requirement in § 1910.37(q)(6), from which a variance is sought, states that exit signs must "be suitably illuminated by a reliable light source giving a value of not less than 5 foot candles on the illuminated surface." The applicant contends that the phosphorescent exit signs presently in use at its deposit plant give off light under normal conditions as well as in emergency situations when electrical power may not be available. It is contended, therefore, that the phosphorescent exit signs are a reliable light source and provide a place of employment as safe as that required by 29 CFR 1910.37(q)(6).

For further information, interested persons are referred to a copy of the application which will be made available for inspection and copying, upon request, at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Washington, D.C. 20210, and at the following regional and area offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 1515 Broadway (1 Astor Plaza), room 3445, New York, N.Y. 10036.

U.S. Department of Labor, Occupational Safety and Health Administration, room 203, Midtown Plaza, 700 East Water Street, Syracuse, N.Y. 13210.

III. *Bethlehem Steel Corp.—Notice of application.*—Notice is hereby given that Bethlehem Steel Corp., Bethlehem Plant, 278 West Office Building, East Third Street, Bethlehem, Pa. 18016, has made application pursuant to section 6(d) of the Williams-Steiger Occupational

Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a permanent variance from the requirements of 29 CFR 1910.157(d)(2)(i) concerning the inspection of fire extinguishers.

The address of the place of employment affected by this application is Bethlehem Steel Corp., Bethlehem Plant, 278 West Office Building, East Third Street, Bethlehem, Pa. 18016.

The applicant certifies that the employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representatives, and by posting a copy at places where notices to employees are normally placed. Employees have also been notified of their right to petition for a hearing.

Section 1910.157(d)(2)(i), from which a permanent variance is sought, requires that fire extinguishers be inspected monthly, or more frequently when circumstances require, in order to detect any obvious physical damage, corrosion or other impairments, to insure that they have not been actuated or tampered with and that they are in their designated places. The applicant contends that the three or four inspections conducted each year by its plant fire department of all fire extinguishers provide a place of employment as safe as that required by 29 CFR 1910.157(d)(2)(i). The applicant states that each of its 7,800 portable fire extinguishers are thoroughly examined each year for defects. A compulsory directive requires a report be made to the plant fire department whenever an extinguisher has been used. The discharged extinguisher is then quickly replaced by a fully charged, operable extinguisher. Finally, the applicant points out that each day an inspector from its fire department covers all the extinguishers within a certain area of the plant.

For further information, interested persons are referred to a copy of the application which will be made available for inspection and copying, upon request, at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Washington, D.C. 20210, and at the U.S. Department of Labor, Occupational Safety and Health Administration, 1317 Filbert Street, suite 1010, Philadelphia, Pa. 19107, and U.S. Department of Labor, Occupational Safety and Health Administration, Gateway Building, 3535 Market Street, room 15220, Philadelphia, Pa. 19104.

IV. *Bethlehem Steel Corp.—Notice of Application.*—Notice is hereby given that Bethlehem Steel Corp., Johnstown Plant, 119 Walnut Street, Johnstown, Pa. 15907, has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a permanent variance, and for an interim order pending a decision on the application for a permanent variance, from the requirements of 29 CFR 1910.179(e)(4), concerning rail sweeps on overhead cranes.

The applicant certifies that the employees who would be affected by the variance have been notified of the application by sending a copy of the application to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition for a hearing.

Regarding the merits of the application, the applicant states that the temporary rail stops it presently employs on the runway rails of its overhead cranes are incompatible with the requirements of § 1910.179(e)(4). That section states: "Bridge trucks shall be equipped with sweeps which extend below the top of the rail and project in front of the truck wheels."

The applicant states that it uses temporary rail stops to prevent one crane from rolling into and striking another which is out of operation and under repair. In order for the maintenance work to begin, the applicant states, rail sweeps would have to be removed from other cranes on the runway rails so that the rail sweeps do not strike the rail stops. The applicant believes that rail sweeps expose repair crews to extra hazards in removing and replacing them, that they inhibit inspection of trackwheels as required in § 1910.179(j), and that they are simply another item that could work loose and fall, possibly on an employee.

The applicant feels the practices, methods, and operations presently in use are as safe as those required by the standard, for several reasons. Safety rules, presently in effect, prohibit anyone on the crane runway when he could be struck by a moving crane. Since the purpose behind the rail sweeps is to protect employees from being hit by a moving crane, the above safety rule would, it is contended, accomplish the same purpose. The applicant finally contends that the likelihood of accidents, such as falling from the overhead cranes, would be lessened by the permanent removal of the rail sweeps.

For further information, interested persons are referred to a copy of the application which will be made available for inspection and copying, upon request, at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Washington, D.C. 20210, and at the following regional and area offices:

Interim Order. It appears from the application for a permanent variance and interim order, filed by Bethlehem Steel Corp., that the means and practices described in the application provide employment and places of employment as safe as those which would prevail if the applicant were to comply with the requirements of 29 CFR 1910.179(e)(4). It further appears that an interim order is necessary for the continuance of the present means and practices, pending a decision on the merits of the application, in order to prevent undue hardships. Therefore, it is ordered, pursuant to the authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, and § 1905.11(c), that the Bethlehem Steel Corp. be, and it is hereby, authorized to continue using the means and practices set forth in the application, in lieu of complying with 29 CFR 1910.179(e)(4), at all the workplaces whose addresses are given above.

The applicant shall give notice to all affected employees of the terms of this interim order by the same means required to inform them of its application for a permanent variance.

Effective date.—This interim order shall be effective as of June 1, 1973, and shall remain in effect until a decision is rendered on the application for a variance.

V. All interested persons, including employers and employees who believe they would be affected by the grant or denial of any of the above applications for variances, are invited to submit written data, views, and arguments regarding the applications no later than July 2, 1973. In addition, employers and employees who believe they would be affected by a grant or denial of any of the variances may request a hearing on the relative application no later than July 2, 1973, in conformity with 29 CFR 1905.15. Submissions of written comments and requests for a hearing should be in quadruplicate and must be addressed to the Office of Standards, U.S. Department of Labor, Railway Labor Building, room 500, 400 First Street NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 29th day of May 1973.

JOHN STENDER,
Assistant Secretary of Labor.

FOURTH SECTION APPLICATIONS FOR RELIEF

MAY 29, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before June 18, 1973.

FSA No. 42689.—Class and commodity rates between points in Texas. Filed by Texas-Louisiana Freight Bureau, agent (No. 666), for interested rail carriers. Rates on various commodities, in carloads and tank-car loads, as described in the application, from, to, and between points in Texas, over interstate routes through adjoining States.

Grounds for relief.—Intrastate rates and maintenance of rates from and to points in other States not subject to the same competition.

Tariff.—Supplement 22 to Texas-Louisiana Freight Bureau, agent, tariff 87-J, ICC No. 1159. Rates are published to become effective on June 26, 1973.

FSA No. 42691.—Sulfur from Kirvin and Streetman, Tex.—Filed by Southwestern Freight Bureau, agent (No. B-412), for interested rail carriers. Rates on sulfur (brimstone), crude, unground and unrefined, in carloads, as described in the application, from Kirvin and Streetman, Tex., to specified points in southern territory.

Grounds for relief.—Market competition.

Tariff.—Supplement 6 to Southwestern Freight Bureau, agent, tariff 102-A, ICC No. 5077. Rates are published to become effective on July 1, 1973.

FSA No. 42692.—Grain and grain products from and to points in southwestern, WTL and southern territories.—Filed by Southwestern Freight Bureau, agent (No. B-414), for interested rail carriers. Rates on screenings from barley, corn (not popcorn), and grain sorghums, unground, in carloads, as described in the application, from and to points in southwestern, western trunkline, and southern territories.

Grounds for relief.—Motor-truck competition and rate relationship.

Tariffs.—Supplement 115 to Southwestern Freight Bureau, agent, tariff 180-L, ICC No. 4901, and nine other schedules named in the application. Rates are published to become effective on July 3, 1973.

AGGREGATION OF INTERMEDIATES

FSA No. 42690.—Class and commodity rates between points in Texas. Filed by Texas-Louisiana Freight Bureau, agent (No. 667), for interested rail carriers. Rates on various commodities, in carloads and tank-car loads, as described in the application, from, to, and between points in Texas, over interstate routes through adjoining States.

Grounds for relief.—Maintenance of depressed rates published to meet intrastate competition without use of such rates as factors in constructing combination rates.

Tariff—Supplement 22 to Texas-Louisiana Freight Bureau, agent, tariff 87-J, ICC No. 1159. Rates are published to become effective on June 26, 1973.

INCENTIVE PER DIEM CHARGES—1968

Waiver of Intervention Rules

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 25th day of May 1973.

Upon consideration of the record in this proceeding, of the order of April 24, 1973 (served on April 25, 1973) reopening the proceeding for reconsideration of the matters specified therein, namely, (1) determining whether the funds now earmarked for boxcars should be permitted to be drawn down for the acquisition of other types of cars in demand, like covered hoppers, and whether such modification would increase the number of boxcars available for general use, (2) determining whether the existing test period average should be modified in any respect, (3) determining whether a specified period should be prescribed within which incentive funds must be expended or committed to the acquisition of general service boxcars, (4) determining whether carriers which fail to acquire their normal complement of such cars and, consequently, are unable to draw down the incentive funds within a specified period, should be required to return the funds collected to the debtor carriers, and (5) determining other methods to facilitate the use of the accrued incentive per diem funds for the purchase, building, or rebuilding of general service, unequipped boxcars, and (6) determining whether any group of carriers should be exempt from the payment of incentive per diem; and of the order served on May 5, 1973, setting the reopened proceeding for prehearing conference in Washington, D.C., on June 5, 1973; and,

It appearing, that, to assure participation in the reopened proceeding of any interested persons who have not previously appeared as parties herein, notice of the reopening should be published in the FEDERAL REGISTER, and that the rules regarding formal intervention should be waived; therefore,

It is ordered, That a copy of this order shall be delivered to the Director of the Federal Register for publication therein.

It is further ordered, That rules 72 and 73 of the Commission's general rules of practice providing for intervention in proceedings before the Commission be, and they are hereby, waived, and that any person not presently a party hereto may become a party by entering an appearance at the prehearing conference.

By the Commission.

[Ex parte No. MC-19 (Sub-No. 18); Ex parte No. MC-61; Released Rates Order MC-505[1]]

COMMON CARRIERS OF HOUSEHOLD GOODS

Released Rates

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 23d day of May 1973.

It appearing, that by report and order of March 29, 1973, in *Ex parte No. MC-19 (sub-No. 18)*, reported at 118 M.C.C. 35, this Commission revised 49 CFR 1307.201 (c) by adding to the end thereof language as set forth in the second ordering paragraph below;

It further appearing, that the new provision is just and reasonable for both shippers and carriers, and that, accordingly, the proceeding in *Ex parte No. MC-61* should be reopened on our own motion for the purpose of modifying released rates order No. MC-505 (102 M.C.C. 277), to conform to the provisions now contained in 49 CFR 1307.201(c), which were adopted in *Ex parte No. MC-19 (sub-No. 18)*; and good cause appearing therefor:

It is ordered, That *Ex parte No. MC-61*, "Released Rates of Motor Common Carriers of Household Goods" be, and it is hereby, reopened on our own motion for the purpose of modifying released rates order No. MC-505.

It is further ordered, That released rates order No. MC-505, "Released Rates of Motor Common Carriers of Household Goods," be, and it is hereby modified by adding thereto at the end of part (c) thereof the following language which also now appears at 49 CFR 1307.201(c):

Provided, That where the shipper is the employer of the actual owner of the household goods being transported and is responsible for all transportation charges in connection with such a move, the shipper may instruct the motor carrier to release the

shipment to a value of 60¢/lb per article (a) by specification made on a purchase order, or (b) by issuing, in advance of the shipping date, appropriate letters of instruction to the carrier. In such instances, the motor carrier must incorporate the instructions by reference to the document in (a) or (b) above in the bill of lading in lieu of the personal signature and handwritten statement relating to released rates.

It is further ordered, That the proceeding in *Ex parte No. MC–61* be, and it is hereby, discontinued.

And it is further ordered, That this order shall become effective on June 1, 1973, and shall remain in effect until modified or revoked in whole or in part by further order of the Commission.

[Notice No. 42]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

MAY 25, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application) are governed by § 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and on or before July 31, 1973, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Minimum Wages for Federal and Federally Assisted Construction

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions; Index

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSSISTED CONSTRUCTION

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions

Area wage determination decisions.—Area wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area wage determination decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to area wage determination decisions.—Modifications and supersedeas decisions to area wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original area wage determination decision.

Set forth below in this document are the following:

INDEX TO AREA WAGE DETERMINATION DECISIONS AND MODIFICATIONS AS OF APRIL 27, 1973

There is set forth below an index to area wage determination decisions and modifications as published in the FEDERAL REGISTER pursuant to the Davis-Bacon and related Acts. The index lists area wage determination decisions and modifications by State and county. An updated index is published on the first Friday of each month.

The index is published for the convenience of the public and the Department of Labor will endeavor to keep it accurate and up to date. In the event the data in the index and published area decisions do not coincide, the published area decisions shall control.

Abbreviations:

(B)—Building Construction.
(D)—Dredging Construction.
(F)—Flood Control Construction.
(H)—Heavy Construction.
(Hw)—Highway Construction.
(R)—Residential Construction.
Mod.—Modification.

Signed at Washington, D.C., this 25th day of May 1973.

BEN P. ROBERTSON,
Acting Administrator,
Wage and Hour Division.
