(Part III begins on page 18105)

July 5, 1973—Pages 18005–18223

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

DIET DRUGS—Justice Department places certain anorectics on controlled substances list, effective 7–6–73 18013

INSECTICIDES—
EPA policy statement concerning residues in food establishments 18055
EPA renews temporary tolerances for toxaphene in or on sugar beets and sunflower seeds 18056

COMMUNITY MENTAL HEALTH CENTERS—HEW proposed requirements for drug rehabilitation grant applicants; comments by 8–6–73 18042

DRUG LABELING REQUIREMENTS—FDA proposes to allow partial delay in compliance; comments by 9–4–73 18041

POLYCHLORINATED BIPHENYLS—
FDA sets controls for PCB's in human and animal foods and packaging; effective 8–6–73 18095
FDA issues supplement to final environmental impact statement 18104

INDIAN EDUCATION—HEW rule on program development assistance; effective 7–6–73 18017

LIVESTOCK MARKETING—USDA terminates public stockyard inspections in favor of general monitoring system; effective 7–1–73 18011

PROCESSED TURKEY—USDA proposes new grade standard; comments by 8–6–73 18032

EMERGENCY FARM LOANS—USDA proposes new crop production loss formula and eligibility requirements; comments by 7–13–73 18040

SHIPPING—Commerce Department sets conservative dividend policy for operators receiving operating-differential subsidy; effective 7–6–73 18022

TOXIC POLLUTANTS—EPA proposed list; comments by 8–6–73 18044

ANTIDUMPING—Treasury Dept. notice of withholding of appraisement on acrylonitrile-butadiene-styrene type of plastic resin from Japan; comments by 8–6–73 18046

COMMODITY EXPORTS—Commerce Department requires validated licenses for shipment of ferrous scrap and certain agricultural products (2 documents) 18028, 18030

(Continued inside)

REMINDERS

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

COAST GUARD—Licensing of officers and motorboat operators and registration of staff officers; additional examination subjects 11463; 5–8–73

FAA—Airworthiness directives:

British Aircraft Corp. Viscount 810 Aircraft 14914; 6–7–73

Handley Page (Jetstream Aircraft Ltd.) Model HP–137 Mk I Airplanes. 14914; 6–7–73

—Loading and carrying dangerous articles and magnetized materials on aircraft; training and manual requirements 14914; 6–7–73

FCC—Television broadcast stations in Ithaca, NY 14376; 6–1–73

—Medical telemetry and other low-power uses of offset frequencies in business radio services 14685; 6–4–73

FMC—Collection and compromise of civil penalties under Shipping Act, 1916, and Intercoastal Shipping Act, 1933.. 14830; 6–6–73

federal register

Area Code 202 Phone 962–8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

MEETINGS—
Forest Service: Prescott National Forest Grazing Advisory Board, 7–11–73 18050
Oregon Dunes National Recreation Area Advisory Council, 7–28–73 18050
HEW: Physicians' Reimbursement Methods Study Committee of the Health Insurance Benefits Advisory Council, 7–12–73 18051
Health Insurance Benefits Advisory Council, 7–13–73 18051
NASA: Research and Technology Advisory Council Committees on Research and Aeronautics; 6–12, 6–13 and 6–25 to 6–27 ..... 18059, 18060
CLC: Food Industry Wage and Salary Committee; 7–11–73 18053

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PUBLIC STOCKYARDS; TERMINATION OF INSPECTION SERVICES

Miscellaneous Amendments

Statement of considerations. The Animal and Plant Health Inspection Service, USDA, currently maintains personnel at 42 "public stockyards" to conduct Federal inspection of livestock for communicable diseases. Such stockyards are defined in §§ 71.1(h) and 78.1(k) of this subchapter and are listed in § 78.14(a) of this subchapter. The purpose of such inspection is to detect animals affected with communicable diseases and remove such animals from the channels of trade and to administer Federal regulations governing the interstate movement of livestock.

In recent years great changes have occurred in the marketing of livestock. The number of animals handled through all marketing channels has increased, while the number handled by "public stockyards" has steadily diminished, thereby drastically reducing the number of animals subject to such inspection, possibly permitting diseased animals moving in other trade channels to go undetected, and resulting in complete enforcement of regulations at "public stockyards" while not doing so in a similar manner in other marketing channels.

In order to achieve a more comprehensive monitoring of the health of the Nation's livestock, to insure that diseased animals are properly handled, and to gain uniform enforcement of applicable regulations in all channels of interstate commerce, it has become necessary to redirect the efforts of personnel currently assigned to "public stockyards" inspection duties into a general monitoring program which will include surveillance, inspection, and enforcement activities throughout the livestock marketing system.

Such redeployment of personnel will necessitate the termination of Federal inspection services heretofore provided at stockyards known as "public stockyards," including the inspection and certification at such stockyards of livestock for interstate shipment.

Therefore, provisions for Federal inspection at "public stockyards," and other references to "public stockyards" are being deleted from this subchapter. Stockyards affected by these amendments may be qualified to handle interstate movements of livestock by applying for and meeting the requirements for specifically approved stockyards as contained in §§ 74.5a, 76.18 and 78.16 of this subchapter.

The facts with respect to the most effective utilization of manpower and other resources available to the Department for carrying out its responsibilities under the laws to prevent the spread of communicable diseases of livestock are peculiarly within the knowledge of this Department, and public participation in this rulemaking proceeding would not provide additional information to the Department. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

Pursuant to the provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114a–1, 115–117, 120–126, 134b, 134f), Parts 71, 72, 73, 74, 77, 78, and 80 of Subchapter C, Chapter I, Title 9, Code of Federal Regulations, are amended in the following respects:

PART 71—GENERAL PROVISIONS

§ 71.1 [Amended]

1. In § 71.1, paragraph (h) is deleted.

§ 71.18 [Amended]

2. In § 71.18 (a)(1)(i)(d), the phrase "public stockyard or" is deleted and in § 71.18 (a)(1)(ii), the phrase "or to a publib stockyard," is deleted.

PART 72—TEXAS (SPLENETIC) FEVER IN CATTLE

§ 72.6 [Amended]

In § 72.6, the phrase "public stockyard or" is deleted wherever it appears.

PART 73—SCABIES IN CATTLE

1. In the Table of sections of Part 73, the reference to § 73.9 is deleted.

§ 73.2 [Amended]

2. In § 73.2, paragraph (c)(2) is deleted.

§ 73.5 [Amended]

3. In § 73.5, after the word "certification" in the second sentence the phrase "directly to a public stockyard where Division inspection is maintained or" is deleted.

§ 73.9 [Deleted]

4. § 73.9 is deleted.

PART 74—SCABIES IN SHEEP

1. In the Table of Sections of Part 74, in the subpart heading preceding § 74.9, and in the subpart heading preceding § 74.22, the phrase "Public Stockyards or" is deleted wherever it appears; and in the heading of § 74.12 the phrase "public stockyard or" is deleted.

2. In the text of Part 74, in the subpart heading preceding § 74.9, the phrase "Public Stockyards or" is deleted.

§ 74.9 [Amended]

3. In § 74.9, in the introductory paragraph, the phrase "public stockyard or", and in paragraph (c), the phrase "a public stockyard or" are deleted.

§ 74.12 [Amended]

4. In the heading of § 74.12 and in paragraph § 74.12 (a), the phrase "public stockyard or" is deleted.

§ 74.13 [Amended]

5. In § 74.13, in the introductory paragraph, the phrase "public stockyard or", and in paragraph (b), the phrase "a public stockyard, or" are deleted.

§ 74.18 [Amended]

6. In § 74.18 paragraph (c), the phrase "to or from any public stockyard or" is deleted.

7. In the subpart heading preceding § 74.22, the phrase "Public Stockyards or" is deleted wherever it appears.

§ 74.22 [Amended]

8. In § 74.22 paragraphs (a), (b) and (c), the phrases "public stockyard or" and "public stockyard, or" are deleted wherever they appear; and in paragraph (d), the phrase "a public stockyard or" and the phrases "by a Division inspector with respect to movements from public stockyards and" and "with respect to movements from specifically approved stockyards" are deleted.

9. § 74.23 is amended to read:

§ 74.23 Interstate movement without dipping prohibited unless for slaughter.

No sheep shall be shipped, trailed, driven, or otherwise moved interstate for purposes other than slaughter from a specifically approved stockyard without being dipped under State or Federal supervision: *Provided*, That uninfected and unexposed sheep from an eradication or

infected or quarantined area may be shipped or moved interstate from a specifically approved stockyard upon compliance with the provisions of this part which would apply if the sheep had been originally consigned direct from point of origin to final destination.

PART 77—TUBERCULOSIS IN CATTLE

§ 77.2 [Amended]

1. In § 77.2, paragraph (c) is deleted.

§ 77.6 [Amended]

2. In § 77.6, the phrase "at a public stockyard or other regular Division station" is deleted; and in footnote *4*, that portion contained in the parenthesis is deleted.

§ 77.7 [Amended]

3. In § 77.7, paragraph (c) is deleted.

§ 77.8 [Amended]

4. In § 77.8, in the introductory paragraph, the phrase "or public stockyard" is deleted.

PART 78—BRUCELLOSIS

1. In the Table of Sections of Part 78, the term "Public Stockyards," is deleted from the heading of Subpart D; and in the heading of § 78.14 the term "Public stockyards and" is deleted.

§ 78.1 [Amended]

2. In § 78.1, paragraph (k) is deleted.

§ 78.5 [Amended]

3. In § 78.5, in the introductory paragraph, the phrase "public stockyard or" is deleted.

§ 78.12 [Amended]

4. In § 78.12, in paragraph (a), the phrase "public stockyard or"; in paragraph (b)(1) the phrase "a public stockyard or"; and in paragraph (d) the phrase "public stockyards or" are deleted.

5. In the heading of Subpart D, the term "Public Stockyards," is deleted.

6. § 78.14 is amended to read:

§ 78.14 Specifically approved stockyards.

Notices containing lists of stockyards specifically approved for the purposes of § 78.5 concerning brucellosis reactors and of paragraphs (b) and (c) of § 78.12 concerning cattle not known to be affected with brucellosis are published in the FEDERAL REGISTER. Information with respect to these stockyards may also be obtained from the Deputy Administrator, Veterinary Services, APHIS, Hyattsville, Maryland 20782 and from the Federal Inspectors and State Inspectors.

7. In § 78.16 paragraph (b), the first sentence is deleted and the second sentence is amended to read:

§ 78.16 Deputy Administrator, Veterinary Services may designate areas and approve stockyards and slaughtering establishments.

* * * * *

(b) The Deputy Administrator is hereby authorized to specifically approve stockyards for the purposes of the regulations in this Part and to promulgate notices listing such stockyards in accordance with § 78.14 when he determines that the inspection and handling of livestock at such stockyards are adequate to effectuate the purposes of the regulations and the State in which such stockyards are located has entered into a memorandum of understanding with Veterinary Services setting forth certain standards for such stockyards.

* * * * *

PART 80—PARATUBERCULOSIS IN DOMESTIC ANIMALS

§ 80.1 [Amended]

1. In § 80.1, paragraph (f) is deleted.

§ 80.4 [Amended]

2. In § 80.4, in the introductory paragraph, the phrase "a public stockyard or" is deleted.

(Secs. 4–7, 23 Stat. 31–32, as amended; 41 Stat. 699; sec. 2, 65 Stat. 693; secs. 1–3, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114a–1, 115–117, 120–126, 134b, 134f, 37 FR 28464, 28477)

Effective date. The foregoing amendments shall become effective July 1, 1973.

Done at Washington, D.C., this 29th day of June, 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-13687 Filed 7-5-73;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 12955, Amdt. 871]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rulemaking dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.21 is amended by originating, amending, or canceling the following L/MF SIAPs, effective August 16, 1973.

Gulkana, Alas.—Gulkana Arpt., LFR–A, Amdt. 12.

2. Section 97.23 is amended by originating, amending, or canceling the following VOR–VOR/DME SIAPs, effective August 16, 1973.

Title 21—Food and Drugs

CHAPTER II—BUREAU OF NARCOTICS AND DANGEROUS DRUGS, DEPARTMENT OF JUSTICE

PART 308—SCHEDULES OF CONTROLLED SUBSTANCES

Diethylpropion and Phentermine; Temporary Placement in Schedule IV; Interim Regulations

Notices were published in the FEDERAL REGISTER on May 9 and 10, 1973, proposing placement of benzphetamine (38 FR 19119), chlorphentermine (38 FR 12120), clortermine (38 FR 12121), diethylpropion (38 FR 12230), mazindol (38 FR 12124), phendimetrazine (38 FR 12126), and phentermine (38 FR 12127) in Schedule III of the Controlled Substances Act, and fenfluramine (38 FR 12123) in Schedule IV of the Controlled Substances Act. All interested persons were given until June 7, 1973, to file objections, comments or requests for a hearing. A notice was published in the FEDERAL REGISTER on May 31, 1973, extending the time for filing to June 11, 1973, (38 FR 14288).

On June 15, 1973, a final order was issued placing benzphetamine, chlorphentermine, clortermine, mazindol, and phendimetrazine in Schedule III of the Controlled Substances Act and fenfluramine in Schedule IV of the Controlled Substances Act (38 FR 15719).

Objections and a request for a hearing were filed on the proposal to control diethylpropion by Merrell National Laboratories, a division of Richardson Merrell, Inc., the manufacturer of that substance. Objections and a request for a hearing were filed on the proposal to control phentermine by Pennwalt Corporation, a manufacturer of that substance. The Bureau is currently seeking acceptable dates for hearings on these objections.

Until such hearings can be completed, however, the Bureau believes that interim control of diethylpropion and phentermine is desirable. These two substances are reported to be among the most widely prescribed of the nonamphetamine anorectic drugs in the United States. The Bureau's concern that such drugs are likely targets for future abuse applies with special force to diethylpropion and phentermine because of this wide availability. In addition, in controlling benzphetamine, clortermine, mazindol and phendimetrazine, the Bureau had indicated to manufacturers that their consenting to control would not be allowed to place them at a competitive disadvantage with other substances being proposed for Schedule III. In light of these considerations, the Director requested that Merrell National Laboratories and Pennwalt Corporation consent, respectively, to the placement of diethylpropion and phentermine in Schedule IV of the Controlled Substances Act in the interim before hearings can be held and a final order issued on the proposals to place each substance in Schedule III.

Merrell National Laboratories and Pennwalt Corporation have cooperated with the Director in this request in order to assure that any possibility of abuse of diethylpropion and phentermine during the next weeks is minimized. Both manufacturers have stated, and the Bureau has agreed, that this consent does not constitute an admission to any facts or findings regarding the abuse potential or dependence liability of the two substances, nor a waiver of the right to contest any assertion of fact or law involved in the hearings on placement in Schedule III, nor a withdrawal of the requests for such hearings, nor does it alter the burden of proof on any issue of fact in such hearings. In the same manner this interim action in no way affects the Bureau's proposal that diethylpropion and phentermine be placed in Schedule III. For all parties this interim order represents the most expedient course of action necessary to protect public health and safety, to preserve the rights of the manufacturers of diethylpropion and phentermine, and to observe the legitimate interests of the manufacturers of the other anorectic drugs now controlled.

The Bureau construes that the published proposals to place diethylpropion and phentermine in Schedule III comply with the procedures required by section 201 of the Controlled Substances Act for the placement of these substances in Schedule IV, in this situation. The pertinent regulatory controls on Schedules III and IV are substantially identical. There being no objections to the placement of these substances in Schedule III (other than those of the two manufacturers), it would appear unlikely that anyone would now object to their placement in Schedule IV, except possibly for manufacturers of other anorectic drugs in competition with diethylpropion and phentermine. The Bureau has consulted with these manufacturers and each agreed to this interim action. The USV Pharmaceutical Corporation so agreed on conditions which are acceptable to the Bureau and which will be set forth in a letter to be dated July 2, 1973 from counsel for the Corporation. Therefore, under these unusual circumstances the Director finds that section 201 has been complied with and no further proposal be made but an order issued to place diethylpropion and phentermine in Schedule IV at this time.

Diethylpropion

Based upon the investigations and review of the Bureau of Narcotics and Dangerous Drugs and upon the scientific and medical evaluation and recommendation of the Secretary of Health, Education and Welfare, received pursuant to sections 201(a) and (b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(a), (b)), the Director of the Bureau of Narcotics and Dangerous Drugs finds that:

1. Based on information now available, diethylpropion has a low potential for abuse relative to the drugs or other substances currently listed in Schedule III.

2. Diethylpropion has a currently accepted medical use in treatment in the United States.

3. Abuse of diethylpropion may lead to limited psychological dependence relative to the drugs or other substances in Schedule III.

The Director has concluded from his review of the current situation that control of all anorectic drugs, including diethylpropion, is desirable at this time to insure that they will not become widely abused. While instances of abuse with diethylpropion are irregular and infrequent, the Director believes that scheduling will prevent diethylpropion from becoming the subject of abuse as amphetamines become increasingly unavailable in the illicit market. In this regard the Bureau recognizes that the manufacturer has presented data indicating that in environments where amphetamines have been banned, diethylpropion has not become the subject of increased abuse. This scheduling will fulfill the congressional mandate to act before substantial problems have arisen. Merrell National Laboratories, a division of Richardson Merrell, Inc., the only manufacturer of diethylpropion in the United States, has participated in conferences with the Bureau and cooperated fully by making available to both the Bureau and the Department of Health, Education and Welfare an extensive analysis of published and unpublished reports of diethylpropion abuse. Upon the conditions set forth in a letter to the Bureau from counsel for Merrell National Laboratories, dated June 29, 1973, to which the Bureau agrees, the manufacturer has consented to the placement of diethylpropion in Schedule IV to insure that it does not become subject to abuse in the period prior to final action on the proposal to place diethylpropion in Schedule III.

Phentermine

Based upon the investigations and review of the Bureau of Narcotics and Dangerous Drugs and upon the scientific and medical evaluation and recommendation of the Secretary of Health, Education, and Welfare, received pursuant to sections 201(a) and (b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(a), (b)), the Director of the Bureau of Narcotics and Dangerous Drugs finds that:

1. Based on information now available, phentermine has a low potential for abuse relative to the drugs or other substances currently listed in Schedule III.

2. Phentermine has a currently accepted medical use in treatment in the United States.

3. Abuse of phentermine may lead to limited psychological dependence relative to the drugs or other substances in Schedule III.

The Director has concluded from his review of the current situation that control of all anorectic drugs, including phentermine, is desirable at this time to insure that they will not become widely abused. This scheduling will fulfill the congressional mandate to act before substantial problems have arisen. The Dorsey Laboratories, Division of Sandoz-Wander, Inc., one of the two manufacturers of phentermine in the United States, has fully cooperated with the Bureau and has consented to the placement of phentermine in Schedule III to insure that it does not become subject to abuse in the future. The Pennwalt Corporation, the other manufacturer of phentermine in the United States, has participated in conferences with the Bureau. Upon the conditions set forth in a letter to the Bureau from counsel for Pennwalt Corporation, dated June 26, 1973, to which the Bureau agrees, the manufacturer has consented to the placement of phentermine in Schedule IV to insure that it does not become subject to abuse in the period prior to final action on the proposal to place phentermine in Schedule III.

Conclusion

Therefore, under the authority vested in the Attorney General by section 201 (a) of the Comprehensive Drug Abuse

Prevention and Control Act of 1970 (21 U.S.C. 811(a)), and delegated to the Director of the Bureau of Narcotics and Dangerous Drugs by § 0.100 of Title 28 of the Code of Federal Regulations, the Director orders that § 308.14 of Title 21 of the Code of Federal Regulations be amended by the addition of a new paragraph to read:

§ 308.14 Schedule IV.

* * * * *

(d) *Stimulants.* Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system, including its salts, isomers (whether optical, position, or geometric), and salts of such isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Diethylpropion	1610
(2) Phentermine	1640

FUTURE ACTION REGARDING ANORECTICS

Because of the similarities among the substances controlled by this order, and between those substances and the stimulants currently listed in Schedules II and III, the Director is controlling these substances at this time in order to prevent their becoming the subject of abuse as amphetamines become less available in the illicit market through the operation of the Bureau's regulatory controls and criminal enforcement actions. The Director believes that evidence suggests these anorectics may be future targets of stimulant abusers.

The Bureau intends to proceed to hearings on the placement of diethylpropion and phentermine in Schedule III in the near future. The times and places of such hearings will be announced shortly.

The Bureau, over a longer period, will monitor the manufacture, distribution, and use in the United States of diethylpropion and phentermine, as well as those anorectic drugs controlled on June 15, 1973, paying special attention to indicators of diversion (such as shortages in accountability audits of distributors and dispensers, thefts from handlers, and availability on the illicit market) and to other indicators which indicate that any of these substances are actually being abused (such as excessive prescribing and dispensing, reports of adverse reactions and overdoses, and other medical experiences). The Bureau will also consider, if available, clinical and other research in abusability, dependence-creating, and dependence-sustaining characteristics of any of these substances. If, after 18 months during which these drugs are marketed, experience suggests that any of them have not been subject to significant diversion or abuse, the Director will review the necessity and desirability of maintaning it under control and will request from the Secretary of Health, Education, and Welfare a new scientific and medical evaluation, and his recommendation, as to whether that substance should be so controlled or removed as a controlled substance.

Any interested person may petition the Bureau to decontrol any of these substances at any time. If any petition is received to decontrol any one of these substances, or if the Director, based upon the review mentioned above, requests the evaluation and recommendation of the Secretary of Health, Education and Welfare on any of these substances, all of the remaining substances will also be reviewed and, where appropriate, evaluations and recommendations regarding them will also be requested of the Secretary.

Effective dates. The requirements imposed upon the anorectic substances controlled by this order shall become effective as follows:

1. *Registration.* Unless currently registered to conduct that activity with Schedule IV nonnarcotic substances, or unless exempted from registration by law or pursuant to §§ 301.24–301.28 or 311.24–311.28 of Title 21 of the Code of Federal Regulations, any person who manufactures, distributes, dispenses, imports or exports diethylpropion or phentermine or who proposes to engage in the manufacture, distribution, dispensing, importation, or exportation of either of those substances, shall obtain a registration to conduct that activity on or before August 1, 1973.

2. *Security.* Diethylpropion and phentermine must be manufactured, distributed and stored in accordance with §§ 301.71, 301.72(b), 301.73, 301.74, 301.75(b) and 301.76 of Title 21 of the Code of Federal Regulations on or before September 1, 1973. In the event that this poses special hardships, the Bureau will entertain any justified requests for extensions of time.

3. *Labeling and packaging.* All labels on commercial containers of, and all labeling of, diethylpropion and phentermine which are packaged after September 1, 1973, shall comply with the requirements of §§ 302.03–302.05 and 302.08 of Title 21 of the Code of Federal Regulations. In accordance with § 302.06(c) of Title 21 of the Code of Federal Regulations, the Director finds that early compliance with these requirements is necessitated by the fact that early control of these substances has been undertaken to prevent abuse before it becomes widespread; prompt and adequate notice of control is essential to carry out this purpose and thereby protect the public health and safety. In addition, the Director believes it would be unfair and discriminatory to allow any greater period of time between the effective dates of labeling for the anorectics newly approved for marketing and the effective dates for those anorectics which have been marketed for some period of time. In the event these effective dates pose special hardships on any manufacturer, the Bureau will entertain any justified requests for an extension of time.

4. *Inventory.* Every registrant required to keep records who possesses any quantity of diethylpropion or phentermine shall take an inventory of all stocks of those substances on hand on September 1, 1973.

5. *Records.* All registrants required to keep records pursuant to Part 304 of Title 21 of the Code of Federal Regulations shall maintain such records on diethylpropion and phentermine commencing on the date on which the inventory of those substances is taken.

6. *Prescriptions.* All prescriptions for products containing diethylpropion and phentermine shall comply with §§ 306.01–302.06 and 306.21–206.25 of Title 21 of the Code of Federal Regulations no later than September 1, 1973. Any prescription for any of the foregoing products which was issued before March 1, 1973, or which has been refilled more than five times, may not be refilled after September 1, 1973.

7. *Importation and exportation.* All importation and exportation of diethylpropion and phentermine on and after September 1, 1973, shall be in compliance with Part 312 of Title 21 of the Code of Federal Regulations.

8. *Criminal liability.* Any activity with diethylpropion or phentermine, not authorized by, or in violation of, the Controlled Substances Act or the Controlled Substances Import and Export Act, conducted after the date this order is published in the FEDERAL REGISTER shall be unlawful, except that any person who is not now registered to handle these substances but who is entitled to registration under those Acts may continue to conduct normal business or professional practice with those substances between the date on which this order is published and the date on which he obtains the proper registration.

9. *Other.* In all other respects, this order is effective on July 6, 1973.

Dated: June 29, 1973.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

[FR Doc.73-13691 Filed 7-5-73;8:45 am]

Title 22—Foreign Relations

CHAPTER II—AGENCY FOR INTERNATIONAL DEVELOPMENT, DEPARTMENT OF STATE

[A.I.D. Reg. 1]

PART 201—RULES AND PROCEDURES APPLICABLE TO COMMODITY TRANSACTIONS FINANCED BY A.I.D.

Modification of Provisions Concerning Supplier's Certificate

The amendment (1) extends from June 30, 1973 to August 30, 1973, the time during which the A.I.D. Supplier's Certificate, designated as AID 282 (1–1–67), may be submitted, to allow more time for the new Supplier's Certificate to be distributed throughout the business community and pending that distribution to permit the old Supplier's Certificate to continue in use; and (2) deletes Appendix C from the regulation because the certificate described by Appendix C is no longer required under the

operating provisions of AID Regulation 1.

Part 201 of Chapter II, Title 22 (A.I.D. Regulation 1) is amended as follows:

a. The second sentence of paragraph (s) of § 201.01 is amended to read as follows:

§ 201.01 Definitions.

* * * * *

(s) * * * The version of the Form 282 designated AID 282 (1-1-67) shall be considered as "Supplier's Certificate" for purposes of this Part 201 when submitted to A.I.D. or a bank holding an A.I.D. Letter of Commitment for payment on or before August 31, 1973.

* * * * *

APPENDIX C [DELETED]

b. Appendix C is deleted.

Effective date. This amendment shall become effective on July 6, 1973.

Dated June 25, 1973.

JOHN A. HANNAH,
Administrator.

[FR Doc.73-13693 Filed 7-5-73;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER B—ARCHIVES AND RECORDS

[FPMR Amdt. B-25]

PART 101-11—RECORDS MANAGEMENT

Interagency Reports Management

Part 101-11 is amended by adding new Subpart 101-11.11 to provide procedures to be followed by agencies in the management of interagency reporting requirements in accordance with Office of Management and Budget Circular No. A-40, Revised, including the designation of a coordinator and an alternate to serve as liaison with the National Archives and Records Service on interagency reporting matters. The interagency reports coordinator and an alternate shall be designated by each Federal agency within 30 calendar days after the effective date of this amendment, and the agency shall notify the Office of Records Management, NARS (mailing address: General Services Administration (NR), Washington, DC 20408), in writing of the name, title, location, and telephone number of each coordinator and alternate.

Part 101-11 is amended by the addition of Subpart 101-11.11 and § 101-11.4922, as follows:

Subpart 101-11.11—Interagency Reports Management

Sec.

101-11.1100 Scope.
101-11.1101 Authority.
101-11.1102 Definitions.
101-11.1102-1 Report.
101-11.1102-2 Interagency reporting requirement.
101-11.1102-3 Agency.
101-11.1102-4 Requiring agency.
101-11.1102-5 Responding agency.
101-11.1103 Clearance procedures for interagency reporting.
101-11.1103-1 Exemptions and waivers.
101-11.1103-2 GSA assistance.
101-11.1103-3 Agency sampling.
101-11.1103-4 Clearance form.
101-11.1103-5 Identification of reporting costs.
101-11.1103-6 Justification.
101-11.1103-7 Directives.
101-11.1103-8 Periodic review of interagency reporting requirements.
101-11.1103-9 Interagency public reports.
101-11.1103-10 Appeal procedure.
101-11.1103-11 Discontinuance.
101-11.1103-12 Interagency reports coordinators.

Subparts 101-11.12—101-11.48 [Reserved]

Subpart 101-11.49—Forms and Reports

101-11.4922 Request for Clearance of an Interagency Reporting Requirement

AUTHORITY: The provisions of this Subpart 101-11.11 are issued under sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

Subpart 101-11.11—Interagency Reports Management

§ 101-11.1100 Scope.

This subpart sets forth the procedures to be followed by agencies in the management of interagency reporting requirements in accordance with Office of Management and Budget Circular No. A-40, Revised, and provides definitions of terms applicable to interagency reports management.

§ 101-11.1101 Authority.

The provisions of this subpart are issued pursuant to the Federal Records Act (44 U.S.C. Chapters 29 and 31) and Office of Management and Budget Circular No. A-40, Revised, May 3, 1973.

§ 101-11.1102 Definitions.

For the purposes of this subpart, the following definitions shall apply.

§ 101-11.1102-1 Report.

(a) Data or information which is transmitted for use in determining policy; in planning, controlling, and evaluating operations and performance; in making administrative determinations; or in preparing other reports. The data or information may be in narrative, statistical, graphic, or other form.

(b) Certain types of data or information commonly identified as "reports" are excluded from this definition. They are: Inspection and audit reports; operating documents such as individual supply and procurements transactions; and research findings, technical summaries, and special management studies and surveys.

§ 101-11.1102-2 Interagency reporting requirement.

Any requirement that involves reports to a department or agency from one or more other departments and agencies which are subject to the provisions of the Federal Records Act.

§ 101-11.1102-3 Agency.

A department, independent agency, commission, or establishment of the executive branch.

§ 101-11.1102-4 Requiring agency.

An agency establishing an interagency reporting requirement.

§ 101-11.1102-5 Responding agency.

An agency required to respond to an interagency reporting requirement.

§ 101-11.1103 Clearance procedures for interagency reporting.

Requiring agencies shall use the documents and procedures prescribed below when originating, modifying, or discontinuing an interagency report.

§ 101-11.1103-1 Exemptions and waivers.

(a) *Exemptions.* The following interagency reporting requirements are exempted from the clearance provisions of this Subpart 101-11.11. However, interagency reporting requirements that may be developed by an agency to respond to an exempted requirement are subject to the clearance provisions of this subpart.

(1) Legislative branch requirements in statutes or Congressional committee requests;

(2) Judicial branch requirements in court orders or other judicial determinations;

(3) Presidential requirements in Presidential directives;

(4) OMB budgetary, program review and coordination, and legislative clearance requirements; and

(5) One-time nonrecurring requirements waived by GSA.

(b) *Waivers.* Submission of complete justification for cost effectiveness of reporting requirements may be waived when in the judgment of GSA it would be in the interest of the Government to do so. A letter providing the reason for the waiver request shall be submitted in lieu of the justification statement with Standard Form 360, Request for Clearance of an Interagency Reporting Requirement (excluding item 9, "Summary of Estimated Reporting Costs"). This request will normally be responded to within 5 workdays after its receipt. If a request for waiver is denied, the justification statement shall be prepared for regular clearance of the reporting requirement. Standard Form 360 is illustrated in § 101-11.4922.

§ 101-11.1103-2 GSA assistance.

Agencies initiating new programs and major policy changes shall request assistance from the Office of Records Management, National Archives and Records Service, NARS (mailing address: General Services Administration (NR), Washington, DC 20408), in defining and assessing related interagency reporting requirements. Such requests shall be made at the earliest practical opportunity in the planning for new programs and major policy changes, and should come from the interagency reports coordinator designated in accordance with § 101-11.1103-12 of this subpart.

§ 101-11.1103-3 Agency sampling.

Requiring agencies shall conduct a sampling of responding agencies in accordance with sampling guidelines issued

by the Office of Records Management, NARS. The samples provide a basis for estimating reporting costs and validating the method of data collection. Whenever the reporting requirement necessitates development of a major information system, the requiring agency shall also plan for pilot testing of the system before its final implementation.

§ 101–11.1103–4 Clearance form.

Requests for clearance of new or modified interagency reports shall be submitted on Standard Form 360, Request for Clearance of an Interagency Reporting Requirement. (See form illustrated in § 101–11.4922.)

§ 101–11.1103–5 Identification of reporting costs.

In accordance with costing guidelines issued by the Office of Records Management, NARS, each request for clearance of a new report or the major modification of an existing one shall contain an estimate of the reporting costs related to it, unless the requirement is waived in accordance with § 101–11.1103–1. The cost for establishing the new or modified reporting system (developmental costs), the annual cost for operating the reporting system (operational costs), and the annual cost of using the reporting system (user costs) shall be computed and totals entered in item 9 (Summary of Estimated Reporting Costs) of SF 360, Request for Clearance of an Interagency Reporting Requirement. Supporting documentation and worksheets shall be kept available for NARS. These three cost categories are described below. Costing guidelines will be issued to the interagency reports coordinator. (See § 101–11.1103–12.)

(a) Developmental costs result from those activities necessary for establishing a new reporting requirement or modifying an existing reporting requirement. Developmental costs include:

(1) Specification of reporting requirement.

(2) Analysis of reporting requirement.

(3) Design of reporting system.

(4) Installation of reporting system.

(b) Operational costs result from those continuing activities necessary to prepare and transmit a report. Operational costs include:

(1) Data collection.

(2) Data processing.

(3) Data transmission.

(c) User costs result from those normal activities performed by the requiring office on the transmitted information. User costs include:

(1) Refining, interpreting, and analyzing information received.

(2) Reading, reviewing, discussing, and documenting information presented (e.g., hard copy report, briefing session, remote terminal response).

NOTE: User costs will *not* be included in "Management of Federal Reports" data submitted under OMB Circular No. A–44, Revised.

§ 101–11.1103–6 Justification.

Each reporting requirement shall be justified in terms of its value to management. The developmental, operational, and user costs of a report should be evaluated in terms of (a) increased productivity, (b) more timely service, (c) better quality in output, or (d) reduced costs. This justification shall be an attachment to SF 360, Request for Clearance of an Interagency Reporting Requirement.

§ 101–11.1103–7 Directives.

The directive prescribing the interagency reporting requirement shall include the following information: Purpose of requirement, report title, NARS approval number, format, preparation instructions, responding agencies, frequency, number of copies, routing, due date, and whether negative reports are required.

§ 101–11.1103–8 Periodic review of interagency reporting requirements.

When a reporting requirement is cleared it shall be assigned an expiration date. The date is contingent upon the particular reporting requirement, but it will normally be 3 years from the origination of the reporting requirement. A request for an extension of approval beyond a scheduled expiration date shall be made to the Office of Records Management, NARS, on SF 360, Request for Clearance of an Interagency Reporting Requirement.

§ 101–11.1103–9 Interagency public reports.

An interagency reporting form and requirements which require Office of Management and Budget (OMB) approval under chapter 35 of title 44, U.S.C. (i.e., because the information to be collected is to be used for statistical compilations of general public interest or necessitates collection of information from the public by responding agencies) shall be submitted to the Office of Records Management, National Archives and Records Service (mailing address: General Services Administration (NR), Washington, DC 20408) with a copy of SF 360, Request for Clearance of an Interagency Reporting Requirement, for clearance. NARS will review the proposed form and will transmit a copy to OMB for its action.

§ 101–11.1103–10 Appeal procedure.

Either the requiring or responding agency may appeal an interagency clearance or waiver decision made by NARS. The reasons for the appeal shall be stated in writing and sent to the Office of Records Management, National Archives and Records Service (mailing address: General Services Administration (NR), Washington, DC 20408) for transmittal and GSA recommendation to OMB.

§ 101–11.1103–11 Discontinuance.

When an interagency report is no longer needed, the requiring agency shall issue to all responding agencies and to the Office of Records Management, NARS, a letter, directive, or other instruction to that effect.

§ 101–11.1103–12 Interagency reports coordinators.

Each Federal agency shall designate an official and an alternate who shall serve in a liaison capacity with NARS on interagency reporting matters. The agency shall notify the Office of Records Management, National Archives and Records Service (mailing address: General Services Administration (NR), Washington, DC 20408), in writing, of the name, title, location, and telephone number of each Interagency Reports Coordinator and within 30 calendar days after each change shall provide the same information for each replacement coordinator or alternate.

Subparts 101–11.12—101–11.48 [Reserved]

Subpart 101–11.49—Forms and Reports

Section 101–11.4922 is added as follows:

§ 101–11.4922 Standard Form 360, Request for Clearance of an Interagency Reporting Requirement.

NOTE: The form illustrated in § 101–11.4922 is filed as part of the original document.

Effective date. This regulation is effective July 1, 1973.

Dated: June 29, 1973.

DWIGHT A. INK,
Acting Administrator of General Services.

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 186—INDIAN ELEMENTARY AND SECONDARY SCHOOL ASSISTANCE ACT

Notice of proposed rulemaking was published in the FEDERAL REGISTER on May 1, 1973, at 38 FR 10738, setting forth requirements for the award of assistance to local and nonlocal educational agencies under the Indian Elementary and Secondary School Assistance Act (Part A of Title IV of the Education Amendments of 1972, 20 U.S.C. 241aa). Funds under this Act are to be used for the purpose of developing and carrying out elementary and secondary school programs specially designed to meet the

special educational needs of Indian students.

No comments of a substantive nature were received during the period established for receipt of comments in the proposed rulemaking. Some minor changes have been made, as indicated below, in order to clarify terminology used in the proposed rulemaking.

Summary of changes made. 1. Section 186.22(a) has been amended to reflect the statutory requirement that all schools assisted under section 303(b) of the Act must be located on or near a reservation.

2. A new § 186.16(b) has been added to make clear that the continued participation of the affected Indian community as a whole in the operation and evaluation of the local program is not limited by the fact that a parent committee has been selected pursuant to §§ 186.15 and 186.16.

3. Other minor changes have been made in order to correct clerical errors or to effect solely technical matters.

On May 21, 1973, after reviewing the proposed rulemaking, the National Advisory Council on Indian Education, meeting in Arlington, Virginia, approved the proposed rulemaking. The amendments described above reflect the comments of the National Advisory Council.

After consultation with the National Advisory Council as required by section 442(b) of the Indian Education Act (title IV of P.L. 92–318) Title 45 of the Code of Federal Regulations is amended by adding a new Part 186 as set forth below.

Federal financial assistance provided pursuant to the Indian Elementary and Secondary School Assistance Act is subject to the regulation in 45 CFR Part 80, issued by the Secretary of Health, Education, and Welfare and approved by the President, to effectuate the provision of section 601 of the Civil Rights Act of 1964 (42 U.S.C. 2000d). Such assistance is also subject to the provisions of title IX of Public Law 92–318 (20 U.S.C. 1681) relating to discrimination on the basis of sex.

Effective date. As appears from the above summary, the modifications herein do not involve any changes of a substantial nature from the provisions which were published in the FEDERAL REGISTER on May 1, 1973, as proposed rulemaking. Accordingly, this regulation shall be effective on July 6, 1973.

Dated: June 22, 1973.

JOHN OTTINA,
Acting U.S. Commissioner of Education.

Approved: July 2, 1973.

FRANK CARLUCCI,
Acting Secretary, Health, Education, and Welfare.

AUTHORITY.—Title IV of Public Law 92–318, 86 Stat. 334 (20 U.S.C. 241aa–241ff), unless otherwise noted.

Subpart A—Scope and Definitions

§ 186.1 Scope.

The regulations in this part govern the provision of financial assistance under the Indian Elementary and Secondary School Assistance Act, title III of Public Law 81–874, as added by part A of title IV of Public Law 92–318 (the Indian Education Act).

§ 186.2 Definitions.

As used in this part:

"The Act" means title III of Public Law 81–874, the Indian Elementary and Secondary School Assistance Act, as added by Public Law 92–318, part A, section 411(a).

(20 U.S.C. 241aa.)

"Child" means any child who is within the age limits for which the applicable State provides free public education.

(20 U.S.C. 244 (2).)

"Combined fiscal effort" means the expenditures per pupil by a local educational agency and the State with respect to the provision of free public education by that local educational agency other than expenditures from funds derived from Federal sources, such as funds under titles I, II, and III of the Elementary and Secondary Education Act, title III of the National Defense Education Act, title I of Public Law 81–874, and the Economic Opportunity Act.

(20 U.S.C. 241ee(b).)

"Commissioner" means the U.S. Commissioner of Education.

(20 U.S.C. 241aa.)

"Current expenditures" means expenditures for free public education, including expenditures for administration, instruction, attendance, and health services, pupil transportation services, operation and maintenance of plant, fixed charges, and net expenditures to cover deficits for food services and student body activities, but not including expenditures for community services, capital outlay, and debt service, or any expenditures made from funds granted under title II of Public Law 81–874, or title II or III of the Elementary and Secondary Education Act of 1965.

(20 U.S.C. 244(5).)

"Elementary or secondary school" means a day or residential school which provides elementary education or secondary education, as determined under State law, except that it does not include any education provided beyond grade 12.

(20 U.S.C. 241aa.)

"Equipment" includes machinery and includes all other items of tangible personal property necessary for the functioning of a particular facility as a facility for the provision of educational and related services, including items such as instructional equipment and necessary furniture, printed, published, and audiovisual instructional materials, and books, periodicals, documents, and other related materials. Equipment does not include "supplies."

(20 U.S.C. 241cc(2).)

"Free public education" means education which is provided at public expense, under public supervision and direction, and without tuition charge, and which is provided as elementary or secondary school education in an applicable State. Free public education may, if in accordance with State law, include education below grade 1 meeting the above criteria.

(20 U.S.C. 244(4).)

"Indian" means any individual, living on or off a reservation, who: (a) Is a member of a tribe, band, or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those recognized now or in the future by the State in which they reside, or who is a descendant, in the first or second degree, of any such member; or (b) is considered by the Secretary of the Interior to be an Indian for any purpose; or (c) is an Eskimo or Aleut or other Alaska Native.

(20 U.S.C. 1221b.)

"Local educational agency" means a board of education or other legally constituted local school authority having administrative control and direction of free public education in a reservation, county, township, independent, or other school district located within a State. Such term includes any State agency which directly operates and maintains facilities for providing free public education.

(20 U.S.C. 241aa; 20 U.S.C. 244(6)(A), S. Rept. No. 92–384, 92d Cong., 1st Sess. 18 (1971).)

"Minor remodeling" means minor alterations, in a previously completed building, which are needed to make effective use of equipment or personnel in space used or to be used for programs or projects meeting the assessed needs of Indian children. The term may include the extension of utility lines, such as for water and electricity, for points beyond the confines of the space in which the minor remodeling is undertaken but within the confines of such previously completed building, to the extent needed to make effective use of the equipment. The term does not include structural alterations to buildings, building construction, maintenance, or repair.

(20 U.S.C. 241cc(2).)

"Nonlocal educational agency" means the governing body of a nonprofit institution or organization of an Indian tribe which operates for Indian children an elementary or secondary school or school system, located on or near a reservation, and which is not a local educational agency as defined herein.

(20 U.S.C. 241bb(b).)

"State aid" with respect to free public education means any contribution, no repayment for which is expected, made by a State to or on behalf of a local educational agency within the State for the support of free public elementary and secondary education.

(20 U.S.C. 241ee(b)(1).)

"State educational agency" means the officer or agency primarily responsible for the State supervision of public elementary and secondary schools.

(20 U.S.C. 244(7).)

§§ 186.3–186.10 [Reserved]

Subpart B—Applications

§ 186.11 Applications.

A grant under the act to a local educational agency may be made only upon application to the Commissioner, on such forms as may be prescribed by him, when such application meets the requirements of this subpart.

(20 U.S.C. 241dd(a).)

§ 186.12 Contents of applications.

An application, in accordance with section 305(a) of the act, shall:

(a) Provide that the activities and services for which assistance is sought will be administered by or under the supervision of the applicant;

(20 U.S.C. 241dd(a)(1).)

(b) Set forth an elementary or secondary school program specially designed to meet the special educational needs of Indian students and provide for such methods of administration (both fiscal and educational) as are necessary for the proper and efficient operation of the program;

(20 U.S.C. 241dd(a)(2).)

(c) Provide that effective procedures, including provisions for appropriate objective measurement of educational achievement, will be adopted for evaluating at least annually the effectiveness of the applicant's programs and projects in meeting the special educational needs of Indian students;

(20 U.S.C. 241dd(a)(4).)

(d) Set forth policies and procedures which assure that Federal funds made available under the act for any fiscal year will be so used to supplement and, to the extent practical, increase the level of funds that would, in the absence of such Federal funds, be made available by the applicant for the education of Indian children and in no case supplant such funds; and

(20 U.S.C. 241dd(a)(5).)

(e) Provide for such fiscal control and fund accounting procedures by the applicant as are necessary to assure proper disbursement of, and accounting for, Federal funds paid to the applicant under the act, and for such reports as the Commissioner may require to carry out his functions under the act.

(20 U.S.C. 241dd(a)(6) and (a)(7); 20 U.S.C. 1232c.)

(f) In the case of an application for payments for planning, provide satisfactory assurance that:

(1) The planning was or will be directly related to programs or projects to be carried out under this part and has resulted, or is reasonably likely to result, in a program or project which will be carried out under this part; and

(2) The planning funds are needed because of the innovative nature of the program or project or because the local educational agency lacks the resources necessary to plan adequately for programs and projects to be carried out under the act.

(20 U.S.C. 241dd(a)(3).)

§ 186.13 Approval of applications.

(a) *In general.*—An application may be approved only if it is consistent with the applicable provisions of the act and this part and meets the requirements set forth in § 186.12 and in this section.

(b) *Utilization of talents; increase of educational opportunities.*—An application shall provide satisfactory assurance that the program or project for which the application is made:

(1) Will utilize the best available talents and resources (including persons from the Indian community), and

(2) Will substantially increase educational opportunities of Indian children in the area to be served by the applicant.

The talents and resources utilized to substantially increase educational opportunities of Indian children may include any individuals or organizations which have a particular and uncommon skill, ability, or delivery system, based on knowledge, assets, or existing capacities, to increase educational opportunities of Indian children. Educational opportunities may include, but shall not be limited to, instructional and supportive activities, services or experiences designed to meet the assessed needs of Indian children to be served in the application.

(20 U.S.C. 241dd(b)(2)(A).)

(c) *Consultation and hearings.*—An application shall provide satisfactory assurance that the program or project for which application is made has been developed:

(1) In open consultation with parents of Indian children, teachers, and, where such program or project will serve secondary school students, Indian secondary school students, including not less than one public hearing at which such persons have been given a full opportunity to understand the program for which assistance is sought and to offer recommendations thereon; and

(2) With the participation and approval of a committee selected in accordance with §§ 186.15 and 186.16. Such assurance shall include at the minimum a description of the steps taken by the applicant to meet the requirements of this paragraph.

(20 U.S.C. 241dd(b)(2)(B).)

§ 186.14 Public hearings.

The public hearing required by § 186.13(c)(1) shall provide an opportunity for discussion of, among other appropriate subjects:

(1) The adequacy of current programs to meet the special educational needs of Indian children enrolled in the local educational agency; and

(2) The manner in which the program or project for which application is made will be coordinated with other programs to meet the special educational needs of such children.

(20 U.S.C. 241dd(b)(2)(B)(i).)

§ 186.15 Parent committee nominations.

The committee formed for the purposes of § 186.13(c)(2) shall be nominated and selected by procedures appropriate to the Indian community to be served, such as sanction by the tribal governor where necessary. This committee shall be known as the "parent committee."

(a) Identification of individuals for consideration for membership on the committee shall not be determined by the applicant alone, but, to the extent practicable, shall be determined by consultation with such groups as parents of Indian children to be served, Indian tribes, tribal councils, institutions, and organizations which are part of the affected Indian community.

(b) The recommendation of such individuals by such groups shall be designed to result in the identification of persons representative of the interests of the Indian children to be served by the grant for which application is made.

(c) Representative factors in the nomination and selection of members of the parent committee shall include, but not be limited to, the following:

(a) Geographical location;

(b) Previous or current membership in a parent advisory committee;

(c) Experience with target schools;
(d) Prior school or community activity;
(e) Willingness to participate actively and make recommendations concerning the special educational needs of the Indian children to be served; and
(f) Representation of reservation and off-reservation Indian children where necessary.

(20 U.S.C. 241dd(b)(2)(B).)

§ 186.16 Selection of parent committee.

(a) The parent committee shall be selected by parents of the Indian children to be served, teachers and, where the program or project will serve secondary school students, Indian secondary school students.

(b) Selection of the parent committee shall not limit the continuing participation of the Indian community in the operation and evaluation of the program pursuant to § 186.17.

(c) The applicant will arrange the mechanism for selection procedures after consultation with the groups listed in § 186.15(a), and shall provide prior notice and dissemination of information to the community concerning the selection procedures.

(d) Membership of a parent committee shall be in proportion to the total number of Indian children to be served, with a maximum membership of 40 persons. The committee shall include only parents of the Indian children to be served, teachers, and where the program or project will serve secondary school students, Indian secondary school students, with parents constituting at least half of the members. Each member shall be designated by name and address in the application.

(20 U.S.C. 241dd(b)(2)(B)(ii).)

§ 186.17 Procedures for community involvement.

An application shall set forth policies and procedures assuring that the program will be operated and evaluated in consultation with, and the involvement of, parents of the Indian children and representatives of the area to be served, including the committee established under § 186.16. Such policies and procedures shall at a minimum include the provision by the local educational agency of the following:

(a) A repository available to the community of documentation concerning parent committee functions such as records of meetings, minutes of meetings, committee selection procedures, and a roster of committee membership;

(b) Dissemination and interpretations of bilingual proceedings and materials where necessary;

(c) An established role for the committee to be played in needs assessments, and priority determinations for meeting such identified needs;

(d) Access by the committee to budget and financial reports and analyses to determine that grant funds are being used to supplement the level of funds available to the community for the education of Indian children;

(e) Planned activities to assure review of application implementation, ongoing review of program or project activities or services, and continuing analysis for evaluation and dissemination activities and other related programs and projects;

(f) Formal mechanism for written approval, by a majority of the committee voting in open session, of the application and of projects and activities to be implemented by the applicant which affect the community to be served.

(20 U.S.C. 241dd(b)(2)(B) and (c).)

§ 186.18 Needs assessment.

In designing a program which meets the special educational needs of the Indian children to be served, the local educational agency (after consultation with the parent committee and the Indian community) must consider the inclusion of activities which build upon and support the heritage, traditions, and lifestyle of the community being served. The determination of those needs shall include consideration of such instructional or supportive services, activities, and experiences as the following:

(a) *Instructional services, activities and experiences.*—(1) Arts (music, graphics, etc.);

(2) Language arts, including speech therapy, reading and language instruction such as bilingual or English as a second language programs;

(3) Vocational and industrial arts;
(4) Mathematics and natural science;
(5) Social sciences and humanities;
(6) Physical education; and
(7) Cultural enrichment.

(b) *Supportive activities, services or experiences.*—(1) Academic guidance, counseling and testing;

(2) Use of dormitory and recreation facilities;

(3) Food and clothing;
(4) Medical and dental care;

(5) Psychological or psychiatric testing and care;

(6) Social work services;
(7) Pupil transportation; and

(8) Special services for physically handicapped and mentally retarded children.

(20 U.S.C. 241cc.)

§ 186.19 Use of Federal funds.

(a) Grants under the Act may be used for

(1) The planning and development of programs specifically designed to meet the special educational needs of Indian children, including pilot projects designed to test the effectiveness of plans so developed; and

(2) The establishment, maintenance, and operation of programs specifically designed to meet the special educational needs of Indian children.

(b) Grants under the Act also may be used for the acquisition of necessary equipment, and for the minor remodeling of classroom or other space used for such programs currently meeting the special educational needs of Indian children.

(20 U.S.C. 241bb(a)(2)(B).)

Subpart C—Amount of Grant; Payments; Reallocations

§ 186.21 Formula for determination of amount of grants for local educational agencies.

(a) For the purpose of computing the amount to which a local educational agency is entitled under the Act for any fiscal year ending prior to July 1, 1975, the Commissioner shall determine, on the basis of the most satisfactory data available, the number of Indian children who were enrolled in the schools of such agency and for whom such agency provided free public education, during such fiscal year.

(20 U.S.C. 241bb(a)(1).)

(b) The amount of the grant to which a local educational agency is entitled under the Act for any fiscal year shall be an amount equal to

(1) The average per pupil expenditure for such agency, as determined in accordance with paragraph (c) of this section, multiplied by

(2) The sum of the number of Indian children determined under paragraph (a) of this section.

(20 U.S.C. 241bb(a)(2)(A).)

(c) The average per pupil expenditure for a local educational agency shall be the aggregate current expenditures during the second fiscal year preceding the fiscal year for which the computation is made, for all of the local educational agencies in the State in which such agency is located, plus any direct current expenditures by such State for the operation of such agencies (without regard to the sources of funds from which either of such expenditures are made), divided by the aggregate number of children who were in average daily membership in elementary and secondary schools for whom such agencies provided free public education during the second preceding fiscal year.

(20 U.S.C. 241bb(a)(2)(C).)

(d) Per pupil expenditure data for the purposes of this part shall be determined by the Commissioner on the basis of the best data available to him. Such data for the purposes of average per pupil expenditure determinations shall be in accordance with the provisions of section 303(a)(2)(C) of the act and of this subpart.

(20 U.S.C. 241bb(a)(2)(C).)

(e) A grant shall not be made to a local educational agency under the act unless the number of Indian children enrolled in the schools of that agency is at least 10 or constitutes at least 50 percent of that agency's total enrollment. This requirement shall not apply to local educational agencies serving Indian children in Alaska, California, and Oklahoma, or located on, or in proximity to, an Indian reservation. (For a local educational agency to be in proximity to an Indian reservation, the Indian child's attendance area must be within reasonable pupil transportation distance of the reservation lands, which determination

shall be based on criteria including length of schoolday, route traveltime, and population density factors.)

(20 U.S.C. 241bb(a)(2)(B).)

§ 186.22 Assistance to nonlocal educational agencies.

(a) The Commissioner may, in accordance with section 303(b) of the act, provide financial assistance to schools on or near reservations which are: (1) Nonlocal educational agencies or (2) local educational agencies (i) which have not been local educational agencies for more than 3 years and (ii) which enroll a substantial proportion of Indian children.

(b) Assistance may be made available under this section to meet the costs of programs and projects which meet the purposes of this part, including costs incurred in connection with the establishment of such agencies. Applications for assistance under this section shall meet the appropriate requirements of subpart B of this part.

(20 U.S.C. 241bb(b); S. Rept. 92-346, 92d Cong., 1st Sess. 1971, p. 99.)

§ 186.23 Limitation with regard to eligibility of local educational agencies for State aid.

No payment will be made under this part for any fiscal year to any local educational agency in a State which has taken into consideration payments under this part in determining the eligibility of such local educational agency in that State for State aid, or the amount of that aid, with respect to free public education of children during that year or the preceding fiscal year.

(20 U.S.C. 241ee(b)(1).)

§ 186.24 Limitation with regard to combined fiscal effort.

(a) No payments under the act to any local educational agency in any State for any fiscal year may be made by the Commissioner unless the State educational agency of the respective State finds that the combined fiscal effort of that local educational agency and the State with respect to the provision of free public education by that agency for the preceding fiscal year was not less than such combined fiscal effort for that purpose for the second preceding fiscal year.

(b) Expenditures by a State with respect to a local educational agency, rather than by such a local educational agency itself, shall be deemed to have been maintained at the same level in the preceding fiscal year as in the second preceding fiscal year, unless the basis for making such expenditures has been altered or unless such expenditures are assumed by such a local educational agency. In such an event, the actual expenditures of that nature shall be taken into account in both years in determining combined fiscal effort.

(c) A combined fiscal effort in the preceding fiscal year shall not be deemed to be a reduction from that in the second preceding fiscal year unless the per pupil expenditure in the preceding fiscal year is less than that in the second preceding fiscal year by more than 5 percent. Any such reduction in fiscal effort by a local educational agency for any fiscal year by more than 5 percent will disqualify a local educational agency unless such agency demonstrates to the satisfaction of the State educational agency that such a reduction was the result of an unusual event, such as an unanticipated increase in school enrollment, that was beyond the control of the local educational agency, and that the fiscal effort of such agency does not otherwise indicate a diminished fiscal effort.

(20 U.S.C. 241ee(b)(2).)

§ 186.25 Adjustments where necessitated by appropriations.

(a) *Ratable reductions.*—As prescribed by section 307(a) of the act, if the sums appropriated for a fiscal year for making payments under this part are not sufficient to pay in full the total amounts which all local educational agencies are eligible to receive under this part for such fiscal year (as determined in accordance with § 186.21), the Commissioner will ratably reduce the maximum amounts which all such agencies are eligible to receive under this part for such year.

(20 U.S.C. 241ff(a).)

(b) *Reallocation of funds.*—(1) In any fiscal year in which the maximum amounts for which local educational agencies are eligible under this part have been ratably reduced in accordance with paragraph (a) of this section (and in which additional funds have not been made available to pay in full such maximum amounts), the Commissioner shall fix a date or dates by appropriate notice for the reporting, by each local educational agency which is eligible for a grant under this part determined in accordance with § 186.21, of the amount of funds available to such agency under this part which it estimates it would expend under an approved application. If such agency is applying for a grant under this part, its estimate shall set forth a detailed projection of the amount it deems necessary for carrying out its proposed project relative to the amount available to it under this part. The Commissioner shall, in fixing such date or dates, notify local educational agencies which are eligible for assistance under this part that the failure to file an application pursuant to subpart B of this part, by such date or dates, will result in the reallocation of the ratably reduced maximum amounts which such agencies are eligible to receive under this part to other eligible local educational agencies pursuant to this section.

(2) Following the submission of such reports, the Commissioner will determine those local educational agencies which will need additional funds to carry out approved applications under this part. Such additional funds may be allocated to such agencies by the Commissioner (i) from amounts which he determines in accordance with subparagraph (1) of this paragraph, will not be used by local educational agencies during their period of availability and (ii) from amounts which he determines would have been available to local educational agencies that did not submit approvable applications and will not be used by such agencies.

(3) No amount may be reallocated to a local educational agency under subparagraph (2) of this paragraph, if such amount, when added to the amount available to such agency in accordance with paragraph (a) of this section, exceeds the maximum grant for which such agency is eligible in accordance with § 186.21.

(20 U.S.C. 241ff.)

§§ 186.27–186.30 [Reserved]

Subpart D—General Provisions

§ 186.31 Retention of records.

(a) *Records.*—Each recipient shall keep intact and accessible records relating to the receipt and expenditure of Federal funds (and to the expenditure of the recipient's contribution to the cost of the project, if any, in accordance with section 434(a) of the General Education Provisions Act), including all accounting records and related original and supporting documents that substantiate direct and indirect costs charged to the award.

(b) *Period of retention.*—(1) Except as provided in paragraphs (b)(2) and (d) of this section the records specified in paragraph (a) of this section shall be retained (a) for 3 years after the date of the submission of the final expenditure report, or (b) for grants and contracts which are renewed annually, for 3 years after the date of the submission of the annual expenditure report.

(2) Records for nonexpendable personal property which was acquired with Federal funds shall be retained for 3 years after its final disposition.

(c) *Microfilm copies.*—Recipients may substitute microfilm copies in lieu of original records in meeting the requirements of this section.

(d) *Audit questions.*—The records involved in any claim or expenditure which has been questioned by Federal audit shall be further retained until resolution of any such audit questions.

(e) *Audit and examination.*—The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to all such records and to any other pertinent books, documents, papers, and records of the recipient.

(OMB Circular No. A-73; OMB Circular No. A-102, attachment C; 20 U.S.C. 1232c(a).)

§ 186.32 Audits.

(a) All expenditures by recipients shall be audited by the recipient or at the recipient's direction to determine, at a minimum, the fiscal integrity of financial transactions and reports, and the compliance with laws and regulations.

(b) The recipient shall schedule such audits with reasonable frequency, usually annually, but not less frequently than once every 2 years, considering the nature, site, and complexity of the activity.

(c) Copies of audit reports shall be made available to the Commissioner to assure that proper use has been made of the funds expended. The results of such audits will be used to review the recipient's records and shall be made available to Federal auditors. Federal auditors shall be given access to such records or other documents as may be necessary to review the results of such audits.

(20 U.S.C. 1232c(b)(2); OMB Circular No. A-102, attachment G,2, attachment C,1.)

§ 186.33 Limitations on costs.

The amount of the award shall be set forth in the grant award document. The total cost to the Federal Government will not exceed the amount set forth in the grant award document or any modification thereof approved by the Commissioner which meets the requirements of applicable statutes and regulations. The Federal Government shall not be obligated to reimburse the recipient for costs incurred in excess of such amount unless and until the Commissioner has notified the recipient in writing that such amount has been increased and has specified such increased amount in a revised grant award document. Such revised amount shall thereupon constitute the revised total cost of the performance of the grant.

(20 U.S.C. 241aa.)

§ 186.34 Final accounting.

(a) In addition to such other accounting as the Commissioner may require the recipient shall render, with respect to the project, a full account of funds expended, obligated, and remaining.

(b) A report of such accounting shall be submitted to the Commissioner within 90 days of the expiration or termination of the grant or contract, and the recipient shall remit within 30 days of the receipt of a written request therefor any amounts found by the Commissioner to be due. Such period may be extended at the discretion of the Commissioner upon the written request of the recipient.

(20 U.S.C. 1232c(b)(3); 31 U.S.C. 628.)

Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER C—REGULATIONS AFFECTING SUBSIDIZED VESSELS AND OPERATORS

[General Order 114]

PART 283—CONSERVATIVE DIVIDEND POLICY

In FR Doc. 71-17546, appearing in the FEDERAL REGISTER issue of December 1, 1971 (36 FR 22839), notice was given and the Assistant Secretary of Commerce for Maritime Affairs (Assistant Secretary) invited comments with respect to a proposed rule establishing a conservative dividend policy to be followed by operators receiving operating-differential subsidy. Comments have been received and considered. Changes from the original proposed regulation are summarized in this statement and incorporated in the revised regulation.

An operator receiving operating-differential subsidy is required by the operating-differential subsidy agreement (ODSA) to follow a conservative dividend policy to insure adequate current and future liquidity to fulfill its contractual obligations with respect to construction and acquisition of vessels, retirement of indebtedness, and maintenance of adequate working capital. Cash dividends may be declared without prior approval of the Assistant Secretary only when the value of certain assets of the operator exceeds its financial requirements with respect to construction and acquisition of vessels, retirement of indebtedness and maintenance of adequate working capital.

If an operator is unable to satisfy the requirements of this regulation, the prior written approval of the Assistant Secretary is required before dividends may be declared. In all cases, written notice to the Assistant Secretary shall be given upon the declaration of a cash dividend.

The following changes from the previous proposed regulation are the result of evaluation of comments submitted to and further consideration by the Assistant Secretary:

(1) Operators are no longer subject to provisions for recapture of profit. Therefore, rules relating to recapture, § 283.3 of the previous proposed regulation, have been eliminated.

(2) Paragraph § 283.5(b) of the previous proposed regulation has been omitted and its "catch all" provision eliminated.

(3) Fulfilling the minimum deposit requirements of a capital construction fund will no longer satisfy any criterion of this regulation, since such deposits will not necessarily provide sufficient available funds to meet present and future obligations to construct and acquire vessels and retire debts.

(4) The amount of funds required for the construction and acquisition of vessels has been reduced by permitting an operator to estimate the cost of construction and acquisition of vessels in the year in which a cash dividend is to be declared.

(5) The amount of funds required for vessel construction and acquisition has been reduced by including only vessels required to be constructed and acquired under the provisions of the current ODSA or pursuant to any contract entered into with the Assistant Secretary or the Maritime Subsidy Board.

The operating-differential subsidy program is exempt from the requirement of 60 Stat. 238, section 4, as amended (5 U.S.C. § 553). This regulation is published in final form.

Notice is hereby given that the Assistant Secretary of Commerce for Maritime Affairs is adding a new Part 283 to Title 46, Chapter II Code of Federal Regulations to read as follows:

Sec.

283.1 Purpose.
283.2 In general.
283.3 Conservative dividend policy criteria.
283.4 Other limitations and restriction applicable to the payment of dividends.
283.5 Prior to approval for declaration and payment of dividends.
283.6 Notification and reporting requirements.

AUTHORITY: Sec. 204, 49 Stat. 1987, as amended; 46 U.S.C. 1114.

§ 283.1 Purpose.

The rules of this part establish a conservative dividend policy to be followed pursuant to the provisions of an operating-differential subsidy agreement (ODSA) and set forth the requirements relating to the declaration and payment of cash dividends.

§ 283.2 In general.

One of the purposes of the Merchant Marine Act, 1936, as amended (49 Stat. 1985, 46 U.S.C. 1101), (Act), is to foster the development and encourage the maintenance of the United States merchant marine. Operators receiving an operating-differential subsidy (subsidized operators) are required to maintain the financial ability to assure adequate and timely reinvestment in the merchant marine. The operator's dividend policy shall take into consideration its contractual obligations to construct and acquire vessels, retire ship mortgage indebtedness, and maintain adequate working capital.

§ 283.3 Conservative dividend policy criteria.

(a) *In general.* An operator shall not declare a cash dividend without the prior written approval of the Assistant Secretary of Commerce for Maritime Affairs (Assistant Secretary) unless it is able to satisfy the criteria of this Section.

(b) *Operator's obligation with respect to construction and acquisition of vessels and retirement of indebtedness.* An operator will be deemed to have given due regard to its contractual obligations to construct and acquire vessels and related barges and containers and to retire indebtedness on, or secured by, subsidized vessels and related barges and containers, or incurred in connection with the acquisition, construction or reconstruction of such vessels and related barges and containers if, after the payment of a proposed cash dividend, "funds available" equal or exceed "funds required" as both terms are defined in this paragraph.

(1) Funds available shall mean the sum of:

(i) Amounts on deposit in any fund established pursuant to the Act plus accrued deposits (including interest) to, less accrued withdrawals from any such fund;

(ii) Gross book value, as shown on the operators' books of account, of subsidized vessels and related barges and

containers less accumulated depreciation;

(iii) Progress payments made on subsidized vessels and related barges and containers undergoing construction, reconstruction, or reconditioning;

(iv) Progress payments made on additional vessels and related barges and containers, if any, which the operator has agreed to construct or acquire pursuant to any contract entered into with the Assistant Secretary or the Maritime Subsidy Board (Board);

(v) Balance of trade-in allowances pursuant to § 510 of the Act; and

(vi) Working capital in excess of the standard prescribed in paragraph (c)(2) of this section.

(2) Funds required shall mean the sum of:

(i) 25 percent of the total cost to the operator of (*a*) subsidized vessels under construction, reconstruction or reconditioning, (*b*) additional vessels under construction, reconstruction or reconditioning which the operator has agreed to construct, reconstruct or recondition pursuant to any contract entered into with the Assistant Secretary or the Board, and (*c*) barges and containers under construction or under contract to purchase and to be used as part of the complement of such vessels;

(ii) 25 percent of the total cost to the operator, estimated at the time a cash dividend is to be declared, of (*a*) replacement of subsidized vessels required to be replaced under the current ODSA, (*b*) additional vessels which the operator has agreed to construct or acquire pursuant to any contract entered into with the Assistant Secretary or the Board or (*c*) barges and containers required as part of the complement of such vessels; and

(iii) Outstanding indebtedness on, or secured by, subsidized vessels and related barges and containers, or incurred in connection with the acquisition, construction or reconstruction of such vessels and related barges and containers.

(c) *Operator's obligation to maintain adequate working capital.* An operator shall be deemed to have maintained adequate working capital if, after the declaration and payment of a proposed cash dividend, its working capital will equal or exceed the standard prescribed for working capital, defined in paragraph (c)(2) of this section.

(1) *Working capital defined.* Working capital shall consist of total current assets (accounts 100–199, as defined in Part 282 of this chapter) less accrued deposits to any fund established pursuant to the Act minus total current liabilities (accounts 400–495, as defined in Part 282 of this chapter).

(2) *Standard prescribed for working capital*—(i) *General standard.* Operators shall be required to maintain a level of working capital equal to one-half of "average voyage expenses", as defined in Part 286.3 of this chapter.

(ii) *Alternate standard.* When an operator can demonstrate to the satisfaction of the Assistant Secretary that the standard for working capital prescribed in paragraph (c)(2)(i) of this section is not an appropriate measure of necessary working capital, the standard for working capital will be determined by the Assistant Secretary taking into account pertinent factors and circumstances.

§ 283.4 Other limitations and restrictions applicable to the payment of dividends.

Nothing in this part shall alter restrictions on the payment of dividends which may affect the operator under any other agreements with the Assistant Secretary.

§ 283.5 Prior approval for declaration and payment of dividends.

The written approval of the Assistant Secretary shall be obtained prior to any declaration of dividends by the operator if the criteria of §§ 283.3 and 283.4 cannot be met after the declaration and payment of a proposed cash dividend.

§ 283.6 Notification and reporting requirements.

(a) *Notice.* Written notice of a dividend declaration shall be given by the operator to the Assistant Secretary immediately upon such declaration.

(b) *Annual reports.* The operator shall submit within ninety days of the end of its annual accounting period statements as of the last day of such period showing:

(i) Surplus available for distribution to stockholders, in the format set forth in Schedule A;

(ii) Funds available and funds required, in the format set forth in Schedule B;

(iii) Working capital of the operator, in the format set forth in Schedule C; and

(iv) Other applicable limitations prescribed in any agreements between the operator and the Assistant Secretary affecting the payment of dividends.

(c) *Officials to whom notices and reports are to be directed.* All notices, reports and requests prescribed in this part are to be submitted to the appropriate Maritime Administration Region Director, with 3 copies of such notices, reports or requests to the Secretary, Maritime Administration, Washington, D.C. 20235.

Effective date. This regulation shall be effective on July 6, 1973.

NOTE: The reporting requirements contained herein have been approved by the Office of Management and Budget in accordance with 44 U.S.C. 3501–3511.

Dated: July 2, 1973.

By order of the Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary,
Maritime Administration.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1104, Amdt. 5]

PART 1033—CAR SERVICE

Penn Central Transportation Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 28th day of June 1973.

Upon further consideration of Service Order No. 1104, (37 FR 15307, 22986; 38 FR 3512, 8445, and 14754), and good cause appearing therefor:

It is ordered, That § 1033.1104 *Service Order No. 1104* (Penn Central Transportation Company, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., trustees, authorized to operate over tracks of the Erie Lackawanna Railway Company) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., July 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m. June 30, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission, at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.73-13708 Filed 7-5-73;8:45 am]

[S.O. 1107, Amdt. 3]

PART 1033—CAR SERVICE

Lehigh Valley Railroad Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 28th day of June 1973.

Upon further consideration of Service Order No. 1107 (37 FR 16549, 25236; 38 FR 5876), and good cause appearing therefor:

It is ordered, That § 1033.1107 *Service Order No. 1107* (Lehigh Valley Railroad Company, John F. Nash and Richard C. Haldeman, Trustees, authorized to operate over tracks of Penn Central Transportation Company, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., August 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., June 30, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.73–13709 Filed 7–5–73;8:45 am]

[Rev. S.O. 1110, Amdt. 9]

PART 1033—CAR SERVICE

Penn Central Transportation Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 29th day of June 1973.

Upon further consideration of Revised Service Order No. 1110 (37 FR 19616, 22871, 23236; 38 FR 878, 3333, 5636, 8446, 10942, and 14755), and good cause appearing therefor:

It is ordered, That § 1033.1110 *Service Order No. 1110* (Penn Central Transportation Company, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., trustees, required to restore service at the Buttonwood (Wilkes-Barre), Pennsylvania, Gateway and to reroute traffic originally routed via that gateway) be, and it is hereby, amended by substituting the following paragraphs (a) and (e) for paragraphs (a) and (e) thereof:

(a) The Penn Central Transportation Company, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees, (Penn Central) be, and it is hereby, ordered to restore service via its Buttonwood (Wilkes-Barre), Pennsylvania, gateway on or before July 31, 1973.

(e) *It is further ordered*, That this order shall become effective at 11:59 p.m., September 15, 1972, and, as to paragraph (b) of this section, shall expire at 11:59 p.m., July 31, 1973, unless sooner vacated by order of this Commission upon restoration of service through the Buttonwood (Wilkes-Barre) gateway.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

PART 1033—CAR SERVICE

Delaware and Hudson Railway Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 29th day of June 1973.

Upon further consideration of Service Order No. 1111 (37 FR 19617, 22872, 25237; 38 FR 878, 3332, 5637, 8446, 10942, and 14755), and good cause appearing therefor:

It is ordered, That § 1033.1111 *Service Order No. 1111* (Delaware and Hudson Railway Company authorized to operate over tracks of Erie Lackawanna Railway Company, Thomas F. Patton and Ralph S. Tyler, Jr., Trustees) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., July 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m. June 30, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17 (2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[S. O. 1114, Amdt. 2]

PART 1033—CAR SERVICE

Norfolk and Western Railway Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 28th day of June 1973.

Upon further consideration of Service Order No. 1114 (37 FR 22872 and 38 FR 5877), and good cause appearing therefor:

It is ordered, That § 1033.1114 Service Order No. 1114 (Norfolk and Western Railway Company authorized to operate over tracks of Penn Central Transportation Company, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., August 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., June 30, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Rev. S.O. 1119, Amdt. 1]

PART 1033—CAR SERVICE

Demurrage on Freight Cars

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 28th day of June 1973.

Upon further consideration of Service Order No. 1119 (38 FR 6881), and good cause appearing therefor:

It is ordered, That § 1033.1119 *Service Order No. 1119* (Demurrage on freight cars).

Service Order No. 1119 be, and it is hereby, amended by substituting the following paragraph (i) for paragraph (i) thereof:

(i) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., October 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m. June 30, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[S.O. 1129, Amdt. 2]

PART 1033—CAR SERVICE

Chicago, Rock Island and Pacific Railroad Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 28th day of June 1973.

Upon further consideration of Service Order No. 1129 (38 FR 8062 and 9668), and good cause appearing therefor:

It is ordered, That § 1033.1129 *Service Order No. 1129* (Chicago, Rock Island and Pacific Railroad Company authorized to operate over tracks of Burlington Northern Inc.) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., November 30, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., June 30, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[S.O. 1135, Amdt. 1]

PART 1033—CAR SERVICE

Illinois Central Gulf Railroad Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 28th day of June 1973.

Upon further consideration of Service Order No. 1135 (38 FR 12808), and good cause appearing therefor:

It is ordered, That § 1033.1135 *Service Order No. 1135* (Illinois Central Gulf Railroad Company authorized to operate over tracks of Penn Central Transportation Company, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., trustees) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., August 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., June 30, 1973.

(Secs. 1, 12, 15, and 17(2) 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[FR Doc.73-13715 Filed 7-5-73;8:45 am]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Grapefruit Reg. 73, Amdt. 6]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Grade and Size Regulations

This amendment lowers the minimum grade and size requirements for grapefruit shipped from the production area in Florida. The specification of such lower minimum grades and smaller minimum sizes for Florida grapefruit is necessary to satisfy the demand for grapefruit during the period of seasonally reduced supply. The amended regulation recognizes the lesser quality and smaller size of much of the grapefruit remaining from the 1972–73 Florida grapefruit crop. The regulation will permit shipment of such lesser quality and smaller grapefruit and increase the supply to consumers.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) Less restrictive grade and size limitations on shipments of fresh grapefruit is consistent with the available supply of and current and prospective demand for such grapefruit by fresh market outlets. Fresh shipments of Florida grapefruit for the season through June 24, 1973, totaled 30,856 carlots, and there were an estimated 549 carlots remaining for shipment.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of grapefruit grown in Florida.

Order. 1. In § 905.546 (Grapefruit Regulation 73; 37 FR 21799, 24432, 27619; 38 FR 10151, 12201, 13547) the provisions of paragraph (a) are revised by amending subparagraphs (1) through (3) reading as follows:

§ 905.546 Grapefruit Regulation 73.

(a) * * *

(1) Any seeded grapefruit grown in the production area, which do not grade at least U.S. No. 2 Russet;

(2) Any seeded grapefruit, grown in the production area, which are smaller than $3\frac{15}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the United State Standards for Florida Grapefruit;

(3) Any seedless grapefruit, grown in Regulation Area I, which do not grade at least U.S. No. 2 Russet;

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated June 28, 1973, to become effective July 2, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–13719 Filed 7–5–73;8:45 am]

[Lemon Reg. 593]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period July 8–14, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.893 Lemon Regulation 593.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is down with sales volume expected to be off 21 percent. Demand for 165's and smaller continues to be strong while being steady on 140's. Eastern markets and auctions are heavily supplied with only 2 selling days at auction this week. Average f.o.b. price was $5.29 per carton the week ended June 30, 1973 compared to $5.58 per carton the previous week. Track and rolling supplies at 272 cars were down 42 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 2, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period July 8, 1973, through July 14, 1973, is hereby fixed at 300,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 5, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–13950 Filed 7–5–73;8:45 am]

[Lime Reg. 3]

PART 911—LIMES GROWN IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida limes that may be shipped to fresh market during the weekly regulation period July 8–July 14, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 911. The quantity of limes so fixed was arrived at after consideration of the total available supply of Florida limes, the quantity currently available for market, lime prices, and the relationship of season average returns to the parity price for Florida limes.

§ 911.403 Lime Regulation 3.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 37 FR 10497), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of limes that may be marketed during the ensuing week stems from the production and marketing situation confronting the Florida lime industry.

(i) The committee has submitted its recommendation with respect to the quantity of limes which it deems advisable to be handled during the succeeding week. Such recommendation results from consideration of the factors enumerated in the order. The committee further reports the fresh market demand for limes is slowly declining, with f.o.b. prices last week dropping about $.20 per (10 lb.) pony. The supply of fresh limes available is greater than the market due to heavy shipments made prior to the holiday. Fresh shipments for the weeks ended June 30, 1973, and June 23, 1973, were 35,113 bushels and 25,454 bushels, respectively.

(ii) Having considered the recommendation and information submitted by the committee, and other available information the Secretary finds that the quantity of limes which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date

of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Florida limes, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such limes; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 2, 1973.

(b) *Order.* (1) The quantity of limes grown in Florida which may be handled during the period July 8, 1973 through July 14, 1973, is hereby fixed at 22,500 bushels.

(2) As used in this section, "handled" and "limes" have the same meaning as when used in said amended marketing agreement and order, and "bushel" means 55 pounds of limes.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 5, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–13949 Filed 7–5–73;8:45 am]

[Grapefruit Reg. 13, Amdt. 3]

PART 944—FRUITS; IMPORT REGULATIONS

Grade and Size Requirements for Seeded Grapefruit

This amendment lowers the grade and size requirements for imports of seeded grapefruit, effective July 2, 1973, to coincide with such requirements being made effective on Florida grapefruit on the same date. Such action is required by section 8e of the Agricultural Marketing Agreement Act of 1937, as amended.

Pursuant to the provisions of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), the provisions of paragraph (a) of Grapefruit Regulation 13 (§ 944.109; 37 FR 21802; 38 FR 10152, 13650) are hereby amended to read as follows:

§ 944.109 Grapefruit Regulation 13.

(a) On and after July 2, 1973, the importation into the United States of any grapefruit is prohibited unless such grapefruit is inspected and meets the following requirements:

(1) Seeded grapefruit shall grade at least U.S. No. 2 Russet;

(2) Seeded grapefruit shall be not smaller than $3\frac{13}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the United States Standards for Florida Grapefruit;

(3) Seedless grapefruit shall grade at least U.S. No. 2 Russet; and

(4) Seedless grapefruit shall be not smaller than $3\frac{7}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted which tolerance shall be applied in accordance with the provisions for the application of tolerances as specified in the United States Standards for Florida Grapefruit.

* * * * *

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective time of this amendment beyond that hereinafter specified (5 U.S.C. 553) in that (a) the requirements of this amended import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), which makes such regulation mandatory; (b) such regulation imposes the same restrictions on imports of all grapefruit as the grade and size restrictions being made applicable to the shipment of all grapefruit grown in Florida under amended Grapefruit Regulation 73 (§ 905.546); (c) compliance with this amended import regulation will not require any special preparation which cannot be completed by the effective time hereof; and (d) this amendment relieves restrictions on the importation of grapefruit.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, June 28, 1973, to become effective July 2, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–13722 Filed 7–5–73;8:45 am]

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

[13th Gen. Rev., Export Regs., Amdt. 62]

PART 377—SHORT SUPPLY CONTROLS

Licenses for Exports of Certain Agricultural Commodities

Section 377.3 and Supplement No. 1 to Part 377 are amended to read as set forth below.

RAUER H. MEYER,
Director, Office of Export Control.

The FEDERAL REGISTER issuance of June 29, 1973 announced that, effective June 27, 1973, the requirement of validated licenses for exports of soybeans, cottonseed and certain products thereof. On July 3, 1973, the FEDERAL REGISTER announced, effective July 2, 1973 the removal of the validated license requirement for exports of soybeans and cottonseed oils. This latter announcement included a notice to exporters that in the event exports of these commodities reached unacceptable levels, restrictions would be imposed.

Today's FEDERAL REGISTER reimposes the validated license requirement for exports of soybean oil and cottonseed oil and imposes a validated license requirement on exports of the other commodities listed below. Applications against orders accepted on or before June 13, 1973, for export prior to October 1, 1973, will be licensed to the extent of 100 percent of the unfilled balance. Orders accepted after after June 13, 1973, for export prior to October 1, 1973 will not be licensed until further notice. A method of licensing such orders will be announced subsequently. Orders accepted for export on or after October 1, 1973, will not be licensed until further notice. The previously established reporting requirements remain in full force and effect.

I. *Requirement for validated license.* Effective 10:30 a.m., e.d.t., July 5, 1973, a validated license is required for export of the commodities listed below, to all destinations, including Canada.

The new validated export license requirement applies to all shipments of the following commodities, regardless of the value of the shipment unless modified by a footnote.

Schedule B No.	*Commodity*
081.2015	Corn gluten feed
081.3040	Linseed oil-cake and meal
081.3050	Sunflower and safflower oil-cake and meal
	Peanut meal
	Peanut oil-cake
081.4020	Meat meal and tankage
081.4040	Fish meal
081.9910	Feather meal
081.9920	Poultry feeds, prepared [1]
081.9930	Dairy cattle feeds, prepared [1]
081.9940	Livestock feeds (except dairy cattle) including supplements, prepared [1]
081.9960	Alfalfa meal, dehydrated [1]
081.9970	Alfalfa meal, sun-cured [1]
091.3010	Lard and other rendered pig fat, except grease [1]
091.3020	Choice white grease [1]
221.0510	Safflowerseed
221.0520	Sunflowerseed
221.1010	Peanuts (groundnuts), shelled, green
221.1020	Peanuts (groundnuts), unshelled, green
221.5000	Flaxseed (linseed)

[1] Single shipments of this particular commodity may be exported under the provisions of General License GLV set forth in § 371.5 of the Export Control Regulations if the value of the shipment does not exceed $250.00.

Schedule B No.	Commodity
291.0075	Bone meal
291.0090	Blood flour and blood meal
411.3210	Tallow, edible
411.3220	Tallow, inedible
421.2010	Soybean oil, crude, including degummed [1]
421.2020	Soybean oil, once-refined [1]
421.2040	Soybean salad oil, refined and further processed by bleaching, deodorizing, or winterizing (except hydrogenated), not donated for relief or charity by individuals or private agencies.[1]
421.3010	Cottonseed oil, crude [1]
421.3020	Cottonseed oil, once-refined [1]
421.3040	Cottonseed salad oil, refined and further processed by bleaching, deodorizing, or winterizing (except hydrogenated), not donated for relief or charity by individuals or private agencies
421.4010	Peanut oil, crude [1]
421.4020	Peanut oil, except crude or hydrogenated [1]
421.8010	Sunflowerseed oil, crude [1]
421.8020	Sunflowerseed oil, once-refined, (after alkali or caustic wash, but before bleaching, deodorization, or winterization) [1]
421.8040	Sunflowerseed oil, including all mixed or blended soft salad oils, bleached, deodorized, or winterized (except hydrogenated), not donated for relief or charity by individuals or private agencies [1]
422.1000	Linseed oil, raw [1]
431.1010	Linseed oil, boiled, oxidized, dehydrated, sulphurized, blown, or polymerized [1]
422.9020	Corn oil [1]
422.9030	Safflowerseed oil, fixed [1]
431.2010	Soybean oil, hydrogenated
431.2020	Cottonseed oil hydrogenated
431.2030	Cottonseed and soybean oil mixture, hydrogenated [1]
	Corn oil, hydrogenated [1]
	Fish oil, hydrogenated [1]
	Maize oil, hydrogenated [1]
	Peanut oil, hydrogenated [1]
512.0965	Soybean lecithin

II. *Saving clause.* Shipments of commodities removed from general license as a result of changes, set forth in Part I above, which, prior to 10:30 A.M. EDT, July 5, 1973, were on dock for lading, on lighter, laden aboard an exporting carrier, or in transit to a port of export pursuant to actual orders for export may be exported under the previous general license provisions up to and including July 19, 1973. Any such shipment not laden aboard the exporting carrier on or before July 19, 1973, requires a validated license for export.

III. *Imposition of licensing system for additional commodities.*—A. *Submission of application with supporting documentation.* All exporters who wish to be considered for the issuance of a validated license for any export of the commodities listed in paragraph I above, above must file with the Office of Export Control (Attention: 546), U.S. Department of Commerce, Washington, D.C. 20230, an application with the following supporting documentation: (1) Photocopy or certified copy of the contract of sale for export to a foreign buyer accepted by the applicant on or before June 13 for export prior to October 1 and (2) a sworn affidavit by the applicant as to the amount previously exported against such contract, if any. The application shall be submitted on forms FC–419 and FC–420.[1] The above mentioned documentation will serve in lieu of the form FC–842, Single Transaction Statement by Consignee and Purchaser, that would otherwise be required pursuant to § 375.2 of the Export Control Regulations.

B. *Issuance of licenses.* The Office of Export Control will verify the authenticity of each application and supporting documentation and will issue a validated export license for the unfilled balance against each verified contract submitted under the terms of Part A, above.

C. *Special terms.* Each license issued under these procedures will only be valid for shipment against the particular contract applicable. All licenses issued for export of these commodities shall expire on October 15, 1973. Any cancellation of a contract automatically revokes the license that was issued against it. In the event of the cancellation of a contract, the applicant is required to file a report of such cancellation with the Office of Export Control no later than five days from the date of cancellation. If a license has been issued against such contract, the license shall be returned to the Office of Export Control with the notice of cancellation.

D. *Reduction of shipping tolerance allowance.* Section 386.7(b)(1) of the Export Control Regulations states, in part, that a shipping tolerance of 10 percent is allowed on the unshipped balance specified on a validated license for shipments of any commodities licensed in units of pounds, bushels, or short tons. For licenses issued under the procedures set forth above, this shipping tolerance allowance is reduced to 5 percent.

Accordingly, § 377.3 and Supplement No. 1 to Part 377 are amended to read as set forth below.

PART 377—SHORT SUPPLY CONTROLS

§ 377.3 Agricultural commodities.

* * * * *

(c) *Licensing system for exports of additional agricultural commodities.* (1) *Submission of application with supporting documentation.* All exporters who wish to be considered for the issuance of a validated license for any export of the agricultural commodities listed in Supplement No. 1 to this Part 377 other than those identified in 377.3(b) must file with the Office of Export Control (Attention: 546), U.S. Department of Commerce, Washington, D.C. 20230, an application with the following supporting documentation: (1) Photocopy or certified copy of the contract of sale for export to a foreign buyer accepted by the applicant on or before June 13 for export prior to October 1 and (2) a sworn affidavit by the applicant as to the amount previously exported against such contract, if any. The application shall be submitted on forms FC–419 and FC–420.[1] The above mentioned documentation will serve in lieu of the form FC–842, Single Transaction Statement by Consignee and Purchaser, that would otherwise be required pursuant to 375.2 of the Export Control Regulations.

(2) *Issuance of licenses.* The Office of Export Control will verify the authenticity of each application and supporting documentation and will issue a validated export license for the unfilled balance against each verified contract submitted under the terms of § 377.3(c)(1).

(3) *Special terms.* Each license issued under these procedures will only be valid for shipment against the particular contract applicable. All licenses issued for export of these commodities shall expire on October 15, 1973. Any cancellation of a contract automatically revokes the license that was issued against it. In the event of the cancellation of a contract, the applicant is required to file a report of such cancellation with the Office of Export Control no later than five days from the date of cancellation. If a license has been issued against such contract, the license shall be returned to the Office of Export Control with the notice of cancellation.

(4) *Reduction of shipping tolerance allowance.* Section 386.7(b) (1) of the Export Control Regulations states in part, that commodities listed in Supplement No. 1 to Part 377 of this chapter, are subject to the tolerance set forth in Part 377. Shipping tolerances applicable to the commodities subject to the requirements of this § 377.3(c) are accordingly shown in Supplement No. 1 to Part 377.

* * * * *

Supplement No. 1 to Part 377 is amended to read as follows:

[1] Forms FC–419, and FC–420 are available from the Office of Export Control (Attention: 547), U.S. Department of Commerce, Washington, D.C. 20230, or the nearest Department of Commerce District Office.

COMMODITIES SUBJECT TO SHORT SUPPLY QUOTA CONTROLS

Schedule B Number	Commodity Description	Shipping Tolerance Allowance
	FERROUS SCRAP	
282.0010	No. 1 heavy-melting steel scrap, except stainless	2½%
282.0020	No. 2 heavy-melting steel scrap, except stainless	2½%

[FR Doc.73-13961 Filed 7-5-73;1:00 pm]

[13th Gen. Rev., Export Regs., Amdt. 60]

PART 377—SHORT SUPPLY CONTROLS

Licenses for Exports of Ferrous Scrap

The issue of Tuesday, July 3, 1973, at pages 17815–17817 states erroneously that validated licenses covering the export of ferrous scrap will be issued for exportation during the months of July and August 1973. In fact, licenses will only be issued to permit exportation during the month of July 1973, and the basis for licensing exports in subsequent months will be announced later. Accordingly, the announcement is corrected to read as set forth below.

Effective date: 3:30 p.m., e.d.t., July 2, 1973.

RAUER H. MEYER,
Director,
Office of Export Control.

A reporting requirement was previously established on exports and unfilled or partially filled accepted orders for export of 500 short tons or more of ferrous scrap. This requirement remains in full force and effect. The data submitted pursuant to this requirement have resulted in the following actions:

I. *Revision.* Effective 3:30 p.m., e.d.t., July 2, 1973, a validated license is required for export of ferrous scrap to all destinations, including Canada. Previously, a validated license was required only for shipment to Country Groups S and Z (Southern Rhodesia, Communist-controlled areas of Vietnam, Cuba, and North Korea).

The new validated export license requirement applies to all shipments of the commodities listed below, regardless of the value of the shipment and of whether the shipment is made against an order accepted on or before the effective date of this Bulletin. The commodities are the following:

Schedule B Number	*Commodity Description*
282.0010	No. 1 heavy-melting steel scrap, except stainless
282.0020	No. 2 heavy-melting steel scrap, except stainless
282.0030	No. 1 bundles steel scrap, except stainless
282.0040	No. 2 bundles steel scrap, except stainless
282.0050	Borings, shoveling and turnings, iron or steel, except stainless
282.0060	Stainless steel scrap
282.0065	Shredded steel scrap
282.0078	Other steel scrap, including tinplated and terne-plate
282.0080	Iron scrap, except borings, shoveling and turnings
282.0090	Rerolling material of iron or steel

II. *Saving clause.* Shipments of commodities removed from general license as a result of the revision in the Commodity Control List set forth in Part I above, which were on lighter destined for an exporting vessel or for which loading aboard an exporting vessel had actually commenced as of 3:30 p.m. e.d.t. July 2, 1973, may be exported under the previous general license provisions. Any other shipment of such commodities requires a validated license for export.

III. *General provisions.* Except as provided in Part V below, no licenses will be issued for exports of ferrous scrap against an order which was accepted after July 1, 1973, and no application for a validated license to export ferrous scrap will be considered until further notice, unless it is against an unfilled or partially filled order calling for exportation during the month of July 1973, which was accepted by the exporter on or before July 1, 1973, and reported by him pursuant to the reporting requirement established on May 22, 1973, under Export Control Bulletin No. 84. The licensing system for exports of ferrous scrap against reported orders of 500 short tons or more calling for exportation after July 31, 1973, which were accepted on or before July 1, 1973, will be announced in a subsequent Bulletin.

IV. *Licensing system against orders of 500 short tons or more for export in July—A. Submission of application with supporting documentation.* All exporters who reported unfilled or partially filled orders accepted on or before July 1, 1973, for exportation during the month of July 1973, of 500 short tons or more of the commodities listed in Part I above, and who wish to be considered for the issuance of validated licenses for export of such commodities, must file with the Office of Export Control (Attention: 546), U.S. Department of Commerce, Washington, D.C. 20230, an application with the following supporting documentation: (1) Photocopy or certified copy of each contract of sale for export to a foreign buyer, accepted by the applicant on or before July 1, 1973; and (2) a sworn affidavit by the applicant as to the amount previously exported against each such contract, if any. The application shall be submitted on forms FC–419 and FC–420.[1] The above mentioned documentation will serve in lieu of the form FC–842, Single Transaction Statement by Consignee and Purchaser, that would otherwise be required pursuant to § 375.2 of the Export Control Regulations.

B. *Issuance of licenses for exportation during July.* The Office of Export Control will verify the authenticity of the application and supporting documentation described in Part A above, and if it meets

[1] Forms FC–419 and FC–420 are available from the Office of Export Control (Attention: 547), U.S. Department of Commerce, Washington, D.C. 20230, or the nearest Department of Commerce District Office.

the requirements set out therein, will issue a validated license for the unfilled balance of the accepted order.

C. *Special terms.* Each license issued under this procedure will only be valid for shipment against the particular contract and during the particular month specified, allowing shipment during a period of seven days following the end of each month, to provide for unavoidable delays. Any cancellation of a contract automatically revokes the license that was issued against it. In the event of the cancellation of a contract, the applicant is required to file a report of such cancellation with the Office of Export Control no later than five days from the date of cancellation. If a license has been issued against such contract, the license shall be returned to the Office of Export Control with the notice of cancellation.

V. *Licensing system for exports of less than 500 short tons.* Until further notice, applications for licenses to export ferrous scrap against accepted orders for less than 500 short tons, which are submitted on Forms FC–419 and FC–420, will be considered by the Office of Export Control, irrespective of the date on which the order was accepted, if accompanied by a photocopy or certified copy of each contract of sale for export to a foreign buyer, together with a sworn affidavit by the applicant as to the amount previously exported against each such contract, if any. The copy of the contract will serve in lieu of the Form FC–842, Single Transaction Statement by Consignee and Purchaser, that would otherwise be required pursuant to § 375.2 of the Export Control Regulations. After verification of the authenticity of the documentation submitted by the applicant, licenses will be issued for exportation during the month specified in the contract for the total amount of the contract or the unfilled balance, whichever is the lesser amount. The period of validity of such licenses will be twenty-one days from the date of issuance.

Any cancellation of the contract automatically revokes the license that was issued against it. In the event of the cancellation of a contract, the applicant is required to file a report of such cancellation with the Office of Export Control no later than five days from the date of cancellation. If a license has been issued against such contract, the license shall be returned to the Office of Export Control with the notice of cancellation. Exporters are hereby placed on notice that in the event the volume of exports under this licensing procedure reaches an unacceptable level, further restriction may be imposed on exports against orders of less than 500 short tons.

VI. *Reduction of shipping tolerance allowance.* Section 386.7(b)(1) of the Export Control Regulations states, in part, that a shipping tolerance of 10 percent is allowed on the unshipped balance specified on a validated license for shipments of any commodities licensed in units of short tons. For licenses issued under the procedures set forth above, this shipping tolerance allowance is reduced to 2½ percent.

Accordingly, a new § 377.4 is established and Supplement No. 1 to Part 377 is amended to read as set forth below.

A new § 377.4 is established to read as follows:

§ 377.4 Ferrous scrap.

(a) *General.* Those ferrous scrap commodities listed in Supplement No. 1 to this Part 377 require a validated license for export to all foreign destinations, including Canada. Except as provided in paragraph (c) of this section, no licenses will be issued for exports of ferrous scrap during the remainder of the calendar year against an order which was accepted after July 1, 1973, and no application for a validated license to export ferrous scrap will be considered until further notice, unless it is against an unfilled or partially filled order calling for exportation during the month of July which was accepted by the exporter on or before July 1, 1973, and reported by him pursuant to the previously established reporting requirement. The licensing system for exports of ferrous scrap against reported orders of 500 short tons or more calling for exportation after July 31, 1973, which were accepted on or before July 1, 1973, will be announced later.

(b) *Licensing system against orders of 500 short tons or more for export in July.*—(1) *Submission of application with supporting documentation.* All exporters who reported unfilled or partially filled orders accepted on or before July 1, 1973, for exportation during the month of July 1973, of 500 short tons or more of the ferrous scrap commodities listed in Supplement No. 1 Part 377 and who wish to be considered for the issuance of validated licenses for export of such commodities, must file with the Office of Export Control (Attention: 546), U.S. Department of Commerce, Washington, D.C. 20230, an application with the following supporting documentation: (i) A photocopy or certified copy of each contract of sale for export to a foreign buyer, accepted by the applicant on or before July 1, 1973; and (ii) a sworn affidavit by the applicant as to the amount previously exported against each such contract, if any. The application shall be submitted on forms FC–419 and FC–420. The above mentioned documentation will serve in lieu of the form FC–842, Single Transaction Statement by Consignee and Purchaser, that would otherwise be required pursuant to § 375.2 of the Export Control Regulations.

(2) *Issuance of licenses for exportation during July.* The Office of Export Control will verify the authenticity of the application and supporting documentation described in paragraph (b)(1) of this section and if it meets the requirements set out therein, will issue a validated license for the unfilled balance of the accepted order.

(3) *Special terms.* Each license issued under this procedure will only be valid for shipment against the particular contract and during the particular month specified, allowing shipment during a period of seven days following the end of each month, to provide for unavoidable delays. Any cancellation of a contract automatically revokes the license that was issued against it. In the event of the cancellation of a contract, the applicant is required to file a report of such cancellation with the Office of Export Control no later than five days from the date of cancellation. If a license has been issued against such contract, the license shall be returned to the Office of Export Control with the notice of cancellation.

(c) *Licensing system against orders less than 500 short tons.*—(1) Applications for licenses to export ferrous scrap against accepted order for less than 500 short tons, which are submitted on Forms FC–419 and FC–420, will be considered by the Office of Export Control, irrespective of the date on which the order was accepted, if accompanied by a photo copy or certified copy of each contract of sale for export to a foreign buyer, together with a sworn affidavit by the applicant as to the amount previously exported against each such contract, if any. The copy of the contract will serve in lieu of the Form FC–842, Single Transaction Statement by Consignee and Purchaser that would be otherwise required pursuant to § 375.2 of the Export Control Regulations. After verification of the authenticity of the documentation submitted by the applicant, licenses will be issued for exportation during the month specified in the contract for the total amount of the contract or the unfilled balance, whichever is the lesser amount. The period of validity of such licenses will be twenty-one days from the date of issuance. Any cancellation of the contract automatically revokes the license that was issued against it. In the event of the cancellation of a contract, the applicant is required to file a report of such cancellation with the Office of Export Control no later than five days from the date of cancellation. If a license has been issued against such contract, the license shall be returned to the Office of Export Control with the notice of cancellation.

(2) Exporters are hereby placed on notice that in the event the volume of exports under this licensing procedure reaches an unacceptable level, further restriction may be imposed on exports against orders of less than 500 short tons.

(d) *Reduction of shipping tolerance allowance.* Section 386.7(b)(1) of the Export Control Regulations of this chapter states, in part, that a shipping tolerance of 10 percent is allowed on the unshipped balance specified on a validated license for shipments of any commodities licensed in units of short tons. For licenses issued under the procedures set forth above, this shipping tolerance allowance is reduced to 2½ percent.

Supplement No. 1 to Part 377 is amended by adding the following commodities:

Commodity and Schedule B Number
No. 1 heavy-melting steel scrap, except stainless (282.0010)
No. 2 heavy-melting steel scrap, except stainless (282.0020)
No. 1 bundles steel scrap, except stainless (282.0030)
No. 2 bundles steel scrap, except stainless (282.0040)
Borings, shoveling and turnings, iron or steel, except stainless (282.0050)
Stainless steel scrap (282.0060)
Shredded steel scrap (282.0065)
Other steel scrap, including tin plated and terne-plate (282.0078)
Iron scrap, except borings, shoveling and turnings (282.0080)
Rerolling material of iron and steel (282.0090)

[FR Doc.73–13962 Filed 7–5–73;1:00 pm]

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Bureau of Narcotics and Dangerous Drugs

[21 CFR Parts 301, 311]

MANUFACTURE AND IMPORT OF CONTROLLED SUBSTANCES

Application Procedures

The Bureau of Narcotics and Dangerous Drugs registers and reregisters applicants to manufacture in bulk and import controlled substances in Schedules I and II of the Controlled Substances Act pursuant to §§ 301.43 and 311.42 of Title 21 of the Code of Federal Regulations.

The regulations provide that, in the case of an application for registration or reregistration to manufacture in bulk or import a basic class of substance listed in Schedule I or II, the Director is required to publish a notice of application in the FEDERAL REGISTER and send a copy of the notice to each person who is registered or who has applied for registration as a bulk manufacturer or importer of that basic class. If a hearing is requested, notice of such hearing must be published in the FEDERAL REGISTER and a copy mailed to all parties to whom a Notice of Application was mailed. The Bureau has found that compliance with these regulations is extremely time-consuming while adding little to the effective administration of the Controlled Substances Act.

In order to alleviate these administrative burdens, the Bureau proposes that §§ 301.43 and 311.42 of Title 21 of the Code of Federal Regulations be amended, by deleting the phrases "A copy of said notice shall be mailed simultaneously to each person registered as a bulk manufacturer of that basic class and to any other applicant therefor" and "And shall be mailed simultaneously to the applicant and to all persons to whom notice of the application was mailed" amending the phrases, "Any such person may," to read as "Any person registered as a bulk manufacturer of that basic class or any applicant therefor may" and "Any person entitled to request a hearing."

As amended, 21 CFR 301.43 and 21 CFR 311.42 would require the Bureau to publish notices of application for registration or reregistration to manufacture in bulk or import basic class controlled substances listed in Schedule I or II. The Bureau would no longer be required to mail copies of the notice of application or notice of hearing to each person who is registered or has applied for registration to manufacture in bulk or import a basic class Schedule I or II controlled substance.

Therefore, under the authority vested in the Attorney General by sections 301, 302, 303, 501(b), and 1008 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 and delegated to the Director, Bureau of Narcotics and Dangerous Drugs, by § 0.100 of Title 28 of the Code of Federal Regulations, the Director hereby proposes that:

1. Part 301 of Title 21 of the Code of Federal Regulations be amended by amending section 301.43 by revising paragraph (a) to read as follows:

§ 301.43 Application for bulk manufacture of Schedule I and II substances.

(a) In the case of an application for registration or reregistration to manufacture in bulk a basic class of controlled substance listed in Schedule I or II, the Director shall, upon the filing of such application, publish in the FEDERAL REGISTER a notice naming the applicant and stating that such applicant has applied to be registered as a bulk manufacturer of a basic class of narcotic or nonnarcotic controlled substance, which class shall be identified. Any person registered as a bulk manufacturer of that basic class and any other applicant therefor may, wtihin 30 days from the date of publication of the notice in the FEDERAL REGISTER, file with the Director written comments on or objections to the issuance of the proposed registration, and may, at the same time, file a written request for a hearing on the application in accordance with § 301.54. If a hearing is requested, the Director shall hold a hearing on the application pursuant to § 301.51. Any person entitled to request a hearing may participate in the hearing by filing a notice of appearance in accordance with § 301.54. Notice of the hearing shall be published in the FEDERAL REGISTER. Notice of the hearing shall contain a summary of all comments and objections filed regarding the application and shall state the time and place for the hearing, which shall not be less than 30 days after the date of publication of such notice in the FEDERAL REGISTER. A hearing pursuant to this section may be consolidated with a hearing held pursuant to § 301.44 or § 301.45.

* * * * *

2. Part 311 of Title 21 of the Code of Federal Regulations be amended by amending § 311.42 by revising paragraph (a) to read as follows:

§ 311.42 Application for importation of Schedule I and II Substances.

(a) In the case of an application for registration or reregistration to import a basic class of any controlled substancy listed in Schedule I or II, under the authority of section 1002(a)(2)(B) of the Act (21 U.S.C. 952(a)(2)(B)), the Director shall, upon the filing of such application, publish in the FEDERAL REGISTER a notice naming the applicant and stating that such applicant has applied to be registered as an importer of a basic class of narcotic or nonnarcotic controlled substance, which class shall be identified. Any person registered as a bulk manufacturer of that basic class and any other applicant therefor may, within 30 days from the date of publication of the notice in the FEDERAL REGISTER, file written comments on or objections to the issuance of the proposed registration, and may, at the same time, file a written request for a hearing on the application in accordance with § 301.54 of this chapter. If a hearing is requested, the Director shall hold a hearing on the application pursuant to § 311.51. Notice of the hearing shall be published in the FEDERAL REGISTER. Any person entitled to request a hearing may participate in the hearing by filing a notice of appearance in accordance with § 301.54 of this chapter. Notice of the hearing shall contain a summary of all comments and objections filed regarding the application and shall state the time and place for the hearing, which shall not be less than 30 days after the date of publication of such notice in the FEDERAL REGISTER. A hearing pursuant to this section may be consolidated with a hearing held pursuant to § 311.43 or § 311.44.

* * * * *

All interested persons are invited to submit their comments and objections in writing regarding this proposal. Comments and objections should be submitted in quintuplicate to the Hearing Clerk, Office of Chief Counsel, Bureau of Narcotics and Dangerous Drugs, Department of Justice, Room 611, 1405 I Street, N.W., Washington, D.C. 20537, and must be received no later than July 30, 1973.

Dated: June 28, 1973.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 70]

POULTRY AND POULTRY PRODUCTS

Grading and Inspection

Notice is hereby given that the U.S. Department of Agriculture is considering

amendments to the Regulations Governing the Grading and Inspection of Poultry and Edible Products Thereof and United States Classes, Standards, and Grades With Respect Thereto (7 CFR Part 70) under authority contained in the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621–1627).

Statement of considerations. In the past few years the further processing of turkeys has greatly increased. Last year over half of the turkeys slaughtered were consumed in further processed form such as cooked or raw parts, rolls, roasts, filets, ground turkey, etc. There appears to be a need for a grade standard to accurately reflect the value of turkeys used in the fabrication of further processed items. Consumer grade standards for poultry reflect both meat yield and appearance. There are certain defects affecting appearance that would be undesirable in consumer grades but would have no effect on the utility of the bird for further processing. The yield of high quality meat is the important factor for further processing. The proposed grade standard would reflect the meat yield of poultry and would be limited to the product which is to be used in making further processed foods.

The proposed amendments would also permit ducks which otherwise are of A quality to be classified and labeled as U.S. Grade A although portions of both wings are removed at the second joint. This provision is already in effect for geese. In processing, these portions of the wings are subject to laceration and when so affected must be removed. Removal of the portion from one wing would detract from the appearance of the carcass. The meat yield would not be appreciably affected since there is very little meat on this portion of the wings of the waterfowl.

It is the Department's policy not to discriminate against anyone in the conduct of our services or the licensing of graders and inspectors because of race, color, creed, sex, or national origin. So that this may be clearly understood, a statement on nondiscrimination would be included in these regulations.

All persons who desire to submit written data, views, or comments in connection with this proposal shall file the same in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250 not later than August 6, 1973.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed amendments are as follows:

1. A new § 70.5 would be added to read:

§ 70.5 Nondiscrimination.

The conduct of all services and the licensing of graders and inspectors under these regulations shall be accomplished without discrimination as to race, color, creed, sex, or national origin.

2. In § 70.91, a new paragraph (d) would be added to read:

§ 70.91 Marking graded products.

* * * * *

(d) *Identification of U.S. Grade A—For Further Processing.* The grade mark indicated in Figure 3A, below, is restricted to turkeys meeting the requirements of § 70.364. The grade mark may be applied only to master shipping containers and not to individual birds. The block containing the words "For Further Processing" in Figure 3A shall be located as indicated and shall be at least as wide and at least ¼ as high as the height of the grade mark. The words "For Further Processing" shall be in the same boldness of type as the wording in the grade mark.

FOR FURTHER PROCESSING

§ 70.353 [Amended]

3. In paragraph (f) of § 70.353, the third sentence after the title would be amended to read: "The wing tips may be removed at the joint, and in the case of ducks and geese, the parts of the wing beyond the second joint may be removed if removed at the joint and both wings are so treated."

4. Immediately following § 70.363, a new center heading and a new § 70.364 would be added to read:

UNITED STATES READY-TO-COOK GRADE FOR FURTHER PROCESSING

§ 70.364 U.S. Grade A—For Further Processing.

Any lot of ready-to-cook poultry composed of one or more turkey carcasses may be designated as "U.S. Grade A—For Further Processing" when each carcass in the lot meets the requirements for U.S. A quality as described in this subpart with the following exceptions: (1) Exposed flesh and discolorations of the skin and flesh may be as described for U.S. B quality in this subpart, (2) Any number of disjointed bones are permitted, (3) Part or all of one or both wings may be missing when severed at a joint, and (4) The back may be trimmed in an area not wider than the base of the tail and extending from the tail to the area between the hip joints.

Done at Washington, D.C., this 29th day of June, 1973.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

[Docket No. AO-71-A65]

MILK IN NEW YORK-NEW JERSEY MARKETING AREA

Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and to Order

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the New York-New Jersey marketing area.

Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C., 20250, by July 23, 1973. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The above notice of filing of the decision and of opportunity to file exceptions thereto is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

PRELIMINARY STATEMENT

The hearing on the record of which the issues here before us were considered was conducted at New York City and Syracuse, New York, on November 16–17, and November 20–21, 1972, respectively, pursuant to the notice thereof which was issued on October 12, 1972, and November 14, 1972 (37 FR 22000, 37 FR 24357) and was reconvened in Syracuse, New York, on December 19, 1972, pursuant to the notice thereof which was issued on December 4, 1972 (37 FR 26116).

The material issue on the record relates to:

1. Whether increased hauling costs from farm to plant of first receipt justify an increased allowance to processors of Class II milk to cover such increased costs and, if so, how such increased allowances shall be implemented under the order.

Specifically, Northeast Dairy Cooperative Federation, Inc., and Dairylea Cooperative, Inc., proposed that to offset increased transportation costs: (1) the Class II transportation credit provided in § 1002.55 of the order be increased from "10 cents" to "15 cents," (2) the

provision in § 1002.80 allowing a negotiable tank truck service charge of up to 10 cents per hundredweight be deleted, and (3) provision be made whereby a farm stop-charge of not more than one dollar and fifty cents ($1.50) for each stop of a tank truck at a producer's farm could be assessed against the producer.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issue are based on evidence presented at the hearing and the record thereof.

No change should be made in the order on the basis of this record.

The order presently provides for a recovery of hauling costs up to 20 cents per hundredweight on Class II bulk milk and 10 cents per hundredweight on Class I bulk milk. This is accommodated through (1) a pool transportation credit to the responsible handler of 10 cents per hundredweight on bulk milk picked up at the farm and disposed of for Class II use, and (2) a permissive (when authorized) hauling deduction from producer payments not to exceed 10 cents per hundredweight.

In their hearing petition proponents alleged that farm-to-plant hauling costs had increased about 5 cents per hundredweight since the hearing of April 1970, the record of which showed such costs then to be about 20 cents per hundredweight. The proposed amendments, they indicated, are needed to "update the application of the order to the increased costs of providing bulk tank milk transportation service to producers and the impact of such costs on variable production and marketing characteristics."

A Professor of Marketing at Cornell University presented the results of a hauling cost survey he had conducted at the request of proponent cooperatives. He stated that the principal purpose of his testimony was "to provide current information on farm-to-plant hauling costs incurred by handlers for Class II milk under the New York-New Jersey milk marketing order." His survey covered hauling costs for the month of July 1972 for more than 322 million pounds of direct delivery bulk milk at 35 major manufacturing plants. This represented more than 90 percent of the total Class II direct delivery bulk milk received at such plants. In addition, hauling cost data were collected for direct delivery bulk milk for seven smaller manufacturing plants and for 18 transfer plants or fluid processing plants. In total, the data collected covered more than 397 million pounds of direct delivery bulk milk, equivalent to 78 percent of the total Class II milk volume in July and nearly 85 percent of the Class II volume receiving the transportation credit. The volumes of milk reported by handlers in the survey were verified by the market administrator.

The hauling costs for the seven smaller manufacturing plants and 18 transfer plants were not included in the summary data. However, the witness reported that the additional hauling cost data for the nearly 25 million pounds of direct delivery Class II milk to these plants would not have changed the average hauling cost figure in his survey by as much as 0.1 cent per hundredweight.

The hauling costs for direct delivered bulk milk at the 35 major plants varied from an average of 15.3 cents per hundredweight for the nine plants having the least hauling cost to an average of 27.3 cents per hundredweight for the nine plants having the highest hauling cost. The average cost for all 35 plants was 21.1 cents per hundredweight, an increase of 0.8 cents from the 20.3-cent average reported in 1970, on which data the existing 10-cent Class II transportation credit provision was adopted in conjunction with the already existing 10-cent permissive deduction from the individual producer.

Witnesses for the proponent cooperatives did not support the proposal for an allowable farm stop-charge of up to $1.50 per pickup as set forth in the hearing notice. Instead, they supported imposition of a mandatory $1.50 stop-charge for each pickup. They testified that their proposal to increase the transportation credit (applicable only on Class II milk) from 10 to 15 cents in conjunction with the application of a mandatory $1.50 farm stop-charge and deletion of the 10-cent permissive hauling deduction provisions, would provide a transportation cost recovery of 20.74 cents per hundredweight on Class II bulk milk. They held that such provisions would be effective in insuring recovery of average transportation costs on Class II milk and hence would better accommodate the market than the existing order provisions.

Competition in the market for milk supplies seemingly has limited the use of the 10-cent permissive hauling deduction provision by both cooperatives and proprietary handlers. Consequently, their cost for milk has been more than the minimum prices required by the order. However, use of the permissive hauling deduction provision has been increasing. In August 1969, only 357 producers had authorized a hauling deduction, whereas in January 1972, there were 920 active authorizations.

Since 1961, when the township pricing provisions were initially adopted, producers several times have asked reconsideration of the level of Class II milk pricing in the New York-New Jersey market. In his 1970 decision (35 FR 15927) on the matter of Class II price level in the then six northeastern markets, the Assistant Secretary reviewed and restated the Department's position with respect to the matter of hauling cost between farm and plant of first receipt, as expressed in previous decisions. His findings and conclusions in this regard as set forth in that decision are hereby reaffirmed and adopted as a part of this decision as if set forth in full herein.

The conditions of pickup of farm bulk tank milk vary greatly. Consequently, there must be means for adjusting handlers' obligations to compensate for these variations. The deduction of an authorized hauling charge, if used as now permitted, could provide the needed flexibility to this end and result in greater parity of costs for milk among New York-New Jersey order handlers. On the other hand, the modifications proposed would leave the order inflexible to accommodate the varying conditions and costs of bulk tank pickup.

While proponents' current position reflects an abandonment of their previously held "free hauling" concept in the handling of Class II milk, there has been no change in this concept with respect to Class I milk. They continue to maintain that producers should not bear any of the cost of transporting Class I milk from farm to plant, pointing out that handlers generally have borne such cost since adoption of the township pricing provisions. They suggest that Class I handlers generally compete in a local market unencombered by intermarket competition and, therefore, are not faced with the equity problem faced by Class II milk handlers who necessarily compete in a national market. For this reason, they believe that appropriately handlers can recover their hauling costs on Class I milk in the marketplace.

Proponents' proposals are directed toward amendment of the order in a manner that would assure for handlers of Class II milk a recovery of farm-to-plant hauling costs to essentially the same degree envisioned by the existing order (i.e., 20.74 vs. 20.0 cents) while, at the same time, reducing the degree of hauling cost recovery possible by handlers on Class I milk.

Notwithstanding proponents' position, there are today no clear-cut boundaries with respect to the marketing of milk. Modern transportation and processing facilities and applicable health regulations encourage milk movements whenever price differences exceed transportation costs. There is, therefore, an urgency for intermarket Class I price alignment in the interest of continuing orderly marketing. This has long been recognized in the pricing structure of the Federal orders.

The Order 2 Class I price has been established in accordance with the pricing standards of the Act and has been found by the Secretary to be appropriately aligned with prices in the adjacent New England markets with which Order 2 handlers compete in substantial measure for Class I sales. To the extent that handlers have not used the permissive hauling deduction provision, they have paid in excess of the amount required under the order minimum price provisions. It would be inappropriate to incorporate any of such amount in the Class I price, which would be the result of deletion of the permissive deduction provision and adoption of the proposed stop-charge.

The order modifications that proponents support would provide at best only "average equity" for Order 2 handlers in relation to other northeastern handlers in their costs for Class II milk, but no greater equity than that that results from

the existing provisions. Such modifications would not reduce the existing differences among Order 2 handlers in their relative costs of Class II milk under the order since some would recover full transportation costs while others would receive only partial compensation.

In any event, the prices prescribed by the order are minimum prices, and we may not appropriately require handlers to make deductions from producer pay prices. There is therefore no basis for invoking a mandatory stop-charge. As to the proposed increased pool credit, the record fails to demonstrate any significant increase in hauling cost since the 1970 hearing on the record of which the present 10-cent per hundredweight pool credit on Class II milk was adopted. Since proponents failed to substantiate the increase in hauling cost which was the basis for the hearing call, there is no justification for increasing the pool credit for Class II milk from 10 to 15 cents, and the proposal to do so also is denied.

RULINGS ON PROPOSED FINDINGS AND CONCLUSIONS

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

On the record of the hearing, an offer of proof was made with respect to a ruling of the presiding officer that the statements of individual producers had become unduly repetitious and he would receive no further statements therefrom except that, if those producers present who were unrepresented desired to select one spokesman, he would hear that spokesman.

Counsel for one proponent, as an offer of proof, read into the record the names of three dairy farmers supporting the proposal, which offer of proof the Administrative Law Judge ruled was redundant. The transcript of the hearing discloses that the offer of proof was included in the record notwithstanding.

We hold that the Administrative Law Judge's decision was correct. Section 900.8(d)(1) allows the presiding officer at a promulgation hearing to "exclude evidence which is * * * unduly repetitious * * *" The testimony which counsel presented as an offer of proof was simply a further listing of producers supporting proponents' position. As the Administrative Law Judge pointed out, the hearing was being conducted to receive evidence relevant to the economic and marketing conditions affecting the proposal and was not a forum for conducting a referendum. The notice of reconvened hearing stated that evidence already received in previous sessions of the hearing would not be repeated or duplicated.

DETERMINATION

The findings and conclusions of this decision do not require any change in the regulatory provisions of the order regulating the handling of milk in the New York-New Jersey marketing area.

Signed at Washington, D.C., on: July 2, 1973.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

[Docket No. AO 86-A29]

MILK IN THE NEBRASKA-WESTERN IOWA MARKETING AREA

Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and to Order

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the Nebraska-Western Iowa marketing area.

Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C., 20250, on or before July 23, 1973. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The above notice of filing of the decision and of opportunity to file exceptions thereto is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

PRELIMINARY STATEMENT

The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order as amended, were formulated, was conducted at Omaha, Nebraska, on April 17, 1973, pursuant to notice thereof issued on March 15, 1973 (38 FR 7339).

The material issues on the record of the hearing relate to:

1. Adoption of a Class I base plan.

2. Miscellaneous and conforming changes.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Adoption of a Class I base plan.* Producers supplying plants regulated by the Nebraska-Western Iowa Federal order should have the opportunity to decide whether the proceeds from the sale of their milk should be distributed among them by means of a Class I base plan issued in conformity with the Agricultural Act of 1970.

A Class I base plan for the Nebraska-Western Iowa marketing area, contained in an order issued December 15, 1972 (37 FR 28126), was scheduled to become effective February 1, 1973. The effective date was initially delayed until March 1, 1973 (38 FR 2960) because of difficulties in obtaining complete data for production history bases. Additional postponement to April 1, 1973, was made at the request of Mid-America Dairymen, Inc., one of the proponents of the Class I base plan in this hearing (38 FR 5255).

Associated Milk Producers, Inc., Central Region, another cooperative association in the market, requested a further postponement and a public hearing to consider revisions of the base plan that might be needed to avoid results inequitable to the association's producer members.

An order to defer until further notice the effective date of the Class I base plan provisions was issued March 15, 1973 (38 FR 7318) concurrently with the notice of this public hearing.

All provisions of the Class I base plan were open for review and possible amendment on the basis of this hearing.

On the record of the hearing the two cooperatives whose members comprise all but a small percentage of producers on the market proposed that the Class I base plan issued December 15, 1972, be adopted subject to certain revisions concerning transfer of Class I and production history bases, reassignment of Class I bases to producers who had disposed of their previous base, and limited changes in the calculation of production history bases for producers who began milk production in the last three months of the representative period.

A witness for a cooperative association that has producers in adjoining Federal order markets, Eastern South Dakota Order No. 76, Des Moines Order No. 79, and Greater Kansas City Order No. 64, opposed a Class I base plan for the Nebraska-Western Iowa market.

This cooperative association contended that adoption of the Class I base plan would disturb procurement arrangements among the several markets particularly in overlapping supply areas. It testified that the plan may be expected to have a varying impact on individual dairy farmers in such areas depending on whether their particular production histories make it either advantageous or disadvantageous to market their milk under the base plan. Some could be encouraged to change the marketing outlet for their milk.

The testimony of the latter witness does not support a conclusion that the Class I base plan would result in unusual conditions that would disrupt procurement in common supply areas of the several markets. Competition within such

common supply areas is affected by varying opportunities for dairy farmers in the several markets whether or not a base plan in one market is adopted.

In the Nebraska-Western Iowa market, cooperative associations whose members comprise most of the producers favor a Class I base plan. It is concluded therefore that a revised Class I base plan should be offered to producers in this market in a referendum. The revisions are described in the following findings and conclusions.

Production history base. The order Class I base plan as adopted in the December 15, 1972, order provides for the assignment of a production history base to each eligible producer calculated from his milk deliveries during the representative period, 1971 and 1972.

For initial production history bases, the average of the daily milk deliveries by a producer on the market throughout the two-year period is defined as his "production history base." A producer who began milk production during the representative period but not later than July 1, 1972, would have a production history base equal to his average daily deliveries beginning with his first delivery until the end of 1972.

In the case of producers whose marketings began after July 1, 1972, but before October 1, 1972, the production history base is computed as the producer's average daily deliveries from the first delivery through the end of 1972, multiplied by 0.80. For the remaining producers, those who began milk deliveries on or after October 1, 1972, production history bases assigned would be 50 percent of the producer's average daily deliveries in the two months preceding base assignment.

The production history bases of producers as described would have been effective for such producers throughout 1973 until updated on February 1, 1974, unless modified by transfer of base or other specified adjustment.

Modification of the production history bases for certain producers was proposed at this hearing by the cooperative that proposed the Class I base plan in the earlier hearing. The modification would provide each producer who began milk deliveries in the period July 1 through December 31, 1972, with a production history base equal to 80 percent of his average daily deliveries. This change would increase the production history bases of producers who began milk deliveries in the last three months of the representative period.

For producers who began milk deliveries after the representative period, production history bases equal to 50 percent of their average daily deliveries in the two months preceding base assignment would apply.

The proposed modification is adopted. The somewhat larger production history bases for dairy farmers who began milk production before the end of the representative period is reasonable because such producers will have a substantial period of milk deliveries, perhaps approaching 12 months, by time the plan could be made effective. No change should be made, however, with respect to production history bases of dairy farmers who began production after December 31, 1972, which is the end of the representative period. The essential intent of the base plan is to apportion market returns among producers on the basis of their deliveries in the representative period. The lesser allocation of production history bases to producers who began production more recently is therefore appropriate. Such producers have not demonstrated their ability to supply the market to the same extent as producers who were delivering during the representative period.

Provision is made for assigning production history bases to producers who came on the Nebraska-Western Iowa market during the representative period of 1971 and 1972 after previously delivering their milk to nonpool plants. The order specifies that milk deliveries by the producer prior to entering the market will be taken into account in arriving at the production history bases of such producers. Separate provisions apply to dairy farmers who become producers because they deliver milk to a plant that becomes a pool plant, dairy farmers who as individuals change their deliveries from another market to this market, and dairy farmers beginning milk production.

Provision is also made for producers who enter the market after the effective date. A modification of these provisions should be made with respect to dairy farmers who become producers by changing their deliveries from a nonpool plant to a pool plant. The change is to make clear that the production history base is calculated from milk deliveries from the same farm on which he is a producer at the time of base assignment. This provision will then conform with the corresponding provision for a dairy farmer who entered the market in the same manner before the effective date. The Act provides that such dairy farmers upon becoming producers under the order shall be provided "allocations based on their past deliveries of milk during the representative period from the production facilities from which they are delivering milk under the order."

For such a new producer, his initial production history base is limited to not more than his average daily deliveries on the market during the first two months, the effective date of base assignment being after the end of such two months.

Computation of Class I Bases

The Class I base of each producer is computed by multiplying his production history base by the Class I base percentage, except for certain new producers whose Class I base is subject to a 20 percent reduction as explained elsewhere in this decision.

The Class I base percentage is derived as the relationship between (1) daily average total Class I disposition of handlers in the market during the preceding year plus 20 percent reserve, and (2) the total of production history bases of producers. For this purpose the relevant Class I disposition includes the disposition of plants while they were nonpool plants if they were pool plants in December of the preceding year, and Class I disposition of producer-handlers who were producers in December.

The Class I base percentage computed on February 1, 1973, as if the plan were then effective, was 70.720 percent. This percentage, cited in testimony of an employee of the market administrator, would have determined the relationship between producers' production history bases and Class I bases throughout 1973 and until such bases would be updated on February 1, 1974.

It is appropriate that this percentage should apply in calculation of Class I bases for the period from the effective date through January 1974. The alternative, to calculate a new percentage involving a slightly altered total of production history bases would serve no useful purpose and would require recalculation of all Class I bases without significant change in the distribution of returns among producers. The Class I base percentage 70.720 percent is therefore inserted in the order to be effective until a new percentage is computed on February 1, 1974.

Transfer of Bases

The rules for transfer of Class I and production history bases should be revised. Transfer of whole and partial bases should be permitted, subject to one-third lapse of base in specified transactions and limitations applicable to producers who have entered the market in relatively recent periods. Revision of the transfer provisions in this manner is necessary to avoid inequity among baseholders and to accommodate normal movements of milk supplies between markets.

As set forth in the previously issued order, the transfer of Class I base (disposition by transferor and acquisition by transferee) is accompanied by a simultaneous transfer of a related quantity of production history base. The term "transfer of base" therefore involves all these considerations, including both Class I and production history bases.

The transfer provisions of the order previously issued established certain limitations on the transfer of base. A primary limitation was the one-third lapse in transfer of Class I base, except in the case of intrafamily and certain other specified transfers. Another provision prohibited transfer of base within one year after base assignment by those producers who enter the market after having delivered their milk to nonpool plants or are dairy farmers beginning milk production. Subject to the preceding conditions, transfer of an entire base was limited to conditions of death of baseholder, intrafamily transfers, termination of dairy enterprise, entering military service, combining of bases in partnership, and hardship. A further provision permitted baseholders (other than new producers) to dispose of a partial Class I base in amount up to 30 percent of the base held by the producer

at the beginning of the 12-month period February 1 to February 1 following.

Testimony for the two cooperatives that represent most producers in the market supported transfer of Class I bases and production history bases as a necessary part of the base plan. It was claimed, however, that certain restrictions on transfers are needed.

The cooperatives proposed that a producer leaving the market to deliver milk to another market should not be permitted to dispose of his Class I base. They also proposed that a producer quitting the dairy business be enabled to dispose of his entire Class I base after a two-month waiting period within which the market administrator could determine whether the producer had actually terminated his dairy enterprise.

The cooperatives held that their proposals were necessary to prevent practices that could undermine the effectiveness of the base plan and possibly create disorderly marketing conditions within the Nebraska-Western Iowa market. In particular, they contended that permitting a producer to sell his base when leaving the market could be, in some circumstances, an incentive not only to change markets, but also to change his cooperative affiliation. It was testified that intense competition exists among cooperatives in the region for milk supplies both for sale in other fluid markets and for manufacturing.

The proposals to prevent transfer of base by a producer shifting to another market and to delay transfer in the case of a producer quitting the dairy business are both denied.

An undesirable result of the cooperatives' proposal to deny transfer of base by a producer shifting to another market is that it would interfere with normal intermarket adjustments of milk supplies in the region in response to variations in supply and demand. Such supply adjustments may occur when a cooperative shifts the milk deliveries of some producer members to another market, as in the case of the 70 or more dairy farmers previously supplying the Nebraska-Western Iowa market whom the cooperative shifted to supply a fluid milk processor in the Eastern Colorado Federal order marketing area. The purpose of this shift was to improve returns both for these members and for members remaining on the Nebraska-Western Iowa market. Supply adjustments also occur, of course, when individual dairy farmers seek the market that offers the best return. The proposal to deny sale of base by an individual producer leaving this market would inhibit unduly such intermarket supply shifts, however, because such producer would be reluctant to lose the value of his base.

The value of a base involved in transfer is an important consideration in this matter. That producers will regard their bases as valuable assets convertible into cash on transfer to other producers is clear. Such value will reflect the judgments of individual buyers and sellers bargaining for the share of market returns represented by the Class I base as compared to a return at the excess price.

It is not appropriate, in this respect, to distinguish between a producer quitting the dairy business and one leaving the market to deliver milk to another market with the effect of allowing one producer to obtain whatever money value the base is worth in the market while denying such value to the other producer. The base of the producer leaving the market to deliver to another market must be presumed to have as much value per pound to the market (and to the holder) as the base of a producer quitting the business. Both sellers received the same price for base milk during the period they held their bases. For the purchasers of such bases, also, the quantity of base acquired would in each case allow the buyer to receive the same base price on such quantity of his milk deliveries. Thus, there are no grounds for discriminating between the value of such bases in transfer, or for depriving the producer shifting markets of this value while the other producer is allowed to obtain it.

Some of the preceding considerations were reflected in the projected arrangement described by one cooperative under which it would operate its own base plan outside the order and thereby guarantee for members that they would not suffer financial loss if the cooperative delivers their milk to another market. In particular, when delivery by an individual producer off the market results in forfeiture of base under the order, the cooperative's plan nevertheless would maintain such base quantity for the member producer and he would receive payment for his milk at the cooperative's base milk price. Thus, the cooperative's plan would give recognition to the value of a producer's base when he leaves the market (in this case leaving because the cooperative controls his deliveries).

On the other hand, operation of the cooperative's base plan in conjunction with their proposal to deny transfer of base under the order by a producer leaving the market would result in a disparity between its members and other baseholders on the market.

The cooperatives' contention that transfer of base by producers changing to another market would undermine the operation of the base plan for producers remaining on the market is not substantiated.

One consideration in this connection is that the transfer of base by a producer leaving the market usually decreases the quantity of Class I base on the market due to the one-third lapse applicable in most transactions. This circumstance is the same whether the producer leaves by retiring from the dairy business or by changing his deliveries to another market. Since a reduced amount of Class I base on the market means increased returns per hundredweight of base milk for producers remaining on the market, such producers are not disadvantaged by the sale of base by a producer leaving the market.

Another consideration is that operation of the base plan is protected by the provisions for reentry on the market of producers who previously disposed of their base. Such provisions will discourage dairy farmers from selling base with the intention of later returning to the market.

In this connection, the two cooperatives proposed that a producer who had previously disposed of his entire Class I base not be eligible for new base until the 27th month after disposal of the previously held base, instead of the 15th month as provided in the previously issued order. The cooperatives feared that instability in milk supplies, and in operation of the base plan, might occur if a producer could readily return to this market after selling his base and delivering his milk for a period in another market.

The conditions the cooperative fears with respect to reentry of producers could occur only if a dairy farmer might obtain new base under relatively easy conditions. Under the plan as previously issued, however, the several conditions applicable to a producer who reenters the market tend to discourage him from selling his entire base in contemplation of returning to the market and earning a new base. Specifically, his milk deliveries during the 12 months following disposal of base do not count toward future production history base. Also, new base cannot be assigned to the producer until the later of (a) the first day of the 15th month after he disposed of his base, or (b) the first day of the second month after that in which he recommences deliveries on the market. He then is assigned a production history base equal to 50 percent of his average daily deliveries in the preceding two months. Further, the Class I base computed from the production history base is reduced 20 percent for a period of 36 months.

For example, if the Class I base percentage is 70 percent, the determination of Class I base for such producer requires that his average daily deliveries be multiplied by 50 percent, then by 70 percent (resulting in 35 percent of his average daily deliveries) and then reduced 20 percent, resulting finally in a Class I base that is 28 percent of his average production. The remaining 72 percent of his milk would be excess in the first year. In the next year, following updating, if he continued the same level of production, his production history base would be the average of the initial production history base (50 percent of production) weighted by two and the previous year's average production weighted by one, or 66.7 percent of his production. This, times a 70 percent Class I base percentage, with the result reduced by 20 percent, determines a Class I base equal to 37.3 percent of his production. Accordingly, in the second year 62.7 percent of his deliveries would be valued at the excess price.

The producer reentering the market has the alternative to elect to purchase base. This option, however, would offer no net gain for the producer reentering the market since the expense for purchase of base would offset the money he had obtained if he sold base when leaving the market.

An additional safeguard protecting the operation of the base plan is that a dairy farmer reentering the market is subject to the rule that bases of new producers are not transferable within one year from time of base assignment. Thus, besides the time required for reassignment of base when a producer reenters the market, there is an additional 12-month waiting period before he can dispose of base.

The existing order provisions, therefore, are sufficient deterrent to discourage producers from leaving and reentering the market for sake of obtaining cash income from sale of base.

In view of the preceding conclusion that producers leaving the market or ceasing production may dispose of their entire base, the previously adopted limitation to transfer 30 percent of base within a 12-month period is without merit and would be discriminatory to producers remaining on the market. Such a limitation could have little practical effect among producers continuing on the market since these producers ordinarily would not wish to dispose of a large proportion of their base while staying in production on the market.

Similarly, it is not reasonable to distinguish from other producers any producer leaving the market because he continues to deliver to a plant that has lost pool status. Loss of producer status quite likely may be involuntary, because of inability to find another outlet on the market, or because the cooperative of which he is a member continues delivery of his milk to such plant after it becomes a nonpool plant. To provide uniform treatment of producers, the order should not prevent disposal of base by such a producer. An exception to this general conclusion would apply, however, if the producer had recently come on the market with the plant. In this latter case, the order should continue to provide, as previously adopted, that a new producer may not dispose of base within one year of assignment.

Cooperative witnesses contended that if the order is revised to permit base transfers in the case of producers changing their deliveries to other markets, this would conflict with the Department's decision made on the previous record. In this decision, however, the effect of transfer rules is reevaluated and appropriate conclusions made in the light of the new record.

All Class I base transfers should be subject to prior approval by the market administrator. This is necessary because certain types of bases are not transferable, and because some types of base transfers are subject to one-third lapse while others are not. The order therefore should allow the market administrator opportunity to investigate the circumstances applicable to the base about to be transferred and the nature of the transfer involved.

The market administrator, of course, would permit any transfer allowable under the order. Under the provision adopted herein, the parties to the transaction could agree on an effective date for the transfer after his approval of the transfer.

Whatever money consideration is paid for base by the transferee is not a matter governed by the order. The market administrator therefore would not be responsible for any loss resulting from payment for a base not properly transferable.

The provision with respect to transfer of base by a new producer should be modified to make clear that the producer is not permitted to transfer his base during the 12 months following initial assignment of base although the initial base may have been modified by updating. However, as stated in the provision previously adopted, intrafamily transfers and transfer of purchased Class I base will not be subject to the waiting period.

2. *Miscellaneous and conforming changes.* (a) Base transfer rules for bases held jointly or in partnership are consolidated in more concise language. Similar revision is made of provisions requiring information to be furnished by transferors and transferees in application to the market administrator for base transfers.

(b) In the testimony on the two cooperatives' proposal to prevent transfer of base by producers shifting their deliveries to another market it was brought out that intermittent shifting of a producer's deliveries could occur to take advantage of higher returns obtainable in other markets while yet avoiding forfeiture of base. This is possible because off-market status for a baseholder does not cause forfeiture if such condition exists for less than 90 days.

One effect of such off-market delivery is that under the definition of "producer" the baseholder is not a producer for the entire month if any of his milk is delivered during the month to a nonpool plant with Class I utilization. The baseholder accordingly is underdelivering his base during such month.

In the decision of October 30, 1972, recognition was given to the proponent cooperative's exception requesting that a producer's Class I base not be reduced for underdelivery unless the market's total producer milk supply in the year is 135 percent or more of Class I disposition. Such a provision thus would not result in reduction of a producer's base at the levels of utilization in the market in recent periods.

It is concluded that testimony in the current record does not represent any change in the position of the proponent cooperative with respect to reduction of Class I base for underdelivery. No proposal was made to modify order provisions with respect to baseholders whose deliveries to this market are intermittent but not interrupted sufficiently to cause base forfeiture. Accordingly, no basis is found for modifying the provision respecting underdelivery of Class I base.

(c) Payments to producers include partial payments, to be made on or before the 27th day of the month for milk delivered in the first 15 days of the month. In § 1065.80(b) the terminology should be corrected by deleting the words "an advance payment" and substituting the words "a partial payment." Findings and conclusions in this respect contained in the decision issued November 3, 1972 (37 FR 23438) were implemented in the appropriate provision of § 1065.80a and such change should be made in § 1065.80(b).

Rulings on objections. At the hearing a witness for a cooperative association handler that does not have any member producers on the Nebraska-Western Iowa market opposed the adoption of the Class I base plan. Counsel for the proponent cooperatives moved to strike the testimony of this witness from the record. In a post-hearing brief filed by one of these cooperatives it was requested that such testimony not be considered in arriving at a decision based on this hearing. The Administrative Law Judge ruled at the hearing that the testimony of the witness to amend the order by deleting the Class I base plan is pertinent to the scope of the hearing. We affirm the ruling of the Administrative Law Judge.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended Marketing Agreement and Order Amending the Order

The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended. The following order amending the order, as amended, regulating the handling of milk in the Nebraska-Western Iowa marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

§ 1065.80 [Amended]

1. In § 1065.80 *Time and method of payment*, the words "an advance payment" where they appear in paragraph (b)(2) are changed to read "a partial payment".

2. In § 1065.92, *Computation of production history base for each producer*, the first reference citation in paragraph (f) that reads "* * * pursuant to paragraph (e) of this paragraph * * *" is corrected to read "* * * pursuant to paragraph (e) of this section * * *"; and paragraphs (c) and (d) are revised as follows:

§ 1065.92 Computation of production history base for each producer.

* * * * *

(c) The production history base for each producer who began milk deliveries after July 1, 1972, but not later than December 31, 1972, shall be the average daily milk deliveries during the period beginning with the first delivery and through the end of the period multiplied by 0.80.

(d) The production history base for each producer who began milk deliveries after December 31, 1972, shall be computed pursuant to § 1065.93(c).

* * * * *

3. Section 1065.93 is revised as follows:

§ 1065.93 New producers.

The market administrator shall determine a production history base for each producer for whom a production history base was not determined pursuant to § 1065.92 as follows:

(a) A dairy farmer who becomes a producer by reason of the plant to which he is making deliveries of milk becoming a pool plant shall be assigned a production history base on the same basis as other producers under the order as though deliveries to the nonpool plant had been deliveries to a pool plant, such assignment of base to apply notwithstanding previous forfeiture of base by such producer by reason of continued delivery to the same plant while in nonpool status after previously being pooled.

(b) A producer other than a producer pursuant to paragraph (a) of this section who delivered milk to a nonpool plant prior to becoming a producer as defined in this order and who has at least a one-year production history period shall be assigned a production history base, effective on the first day of the second month following the month in which he began deliveries of producer milk to a pool plant, computed from milk deliveries from the same farm on which he is a producer at time of base assignment as if his milk deliveries to the nonpool plant had been deliveries to a pool plant: *Provided*, That the production history base effective for such producer pursuant to this paragraph in any month before updating shall not exceed the average daily milk deliveries of such producer during the first two months of his producer milk deliveries.

(c) A producer that has less than a 1-year production history period and has not been assigned a production history base pursuant to § 1065.92(c), shall be assigned a production history base on the later of the effective date of this provision, the first day of the second month following the month in which as a producer he began milk deliveries, or the first day on which he is eligible for production history base pursuant to paragraph (d) of this section. Such production history base shall be in an amount equal to 50 percent of his average daily milk deliveries during the immediately preceding two-month period. In the event a production history base is acquired by transfer, the effective production history base shall be either that determined pursuant to this paragraph or acquired by transfer, whichever is greater.

(d) A producer who forfeited or disposed of all his Class I base, except a producer who forfeited and qualifies for reassignment of base in the manner described in paragraph (a) of this section, shall be assigned a production history base in the manner provided in paragraph (c) of this section, such assignment to be effective not earlier than the first day of the 15th month after the month in which the producer who forfeits his base ceases deliveries or a producer who disposed of all his Class I base makes such disposition. In the application of this provision, use of the same production facilities by a new operator who is a member of the immediate family of the previous operator (or the same person under a different name) to produce milk after the above described forfeiture or transfer of base shall be considered as a continuation of the same operation and subject to the same restrictions. This provision shall apply also to the operator of any production facility that is operated by a person in which the producer who forfeited or transferred his base has a financial interest if such facility commences production on or after the effective date of the transfer or forfeiture, or such producer acquired his financial interest in such person later than three months prior to the effective date of the base transfer or forfeiture.

4. In § 1065.94, the introductory text preceding paragraph (a) is revised as follows:

§ 1065.94 Updating of production history bases.

The production history base for each producer who has neither disposed of his entire base by transfer nor forfeited his base pursuant to § 1065.97(a), or after having disposed of his entire base by transfer or forfeiture has met the requirements prescribed in §1065.93(a) or (d) for production history base, shall be determined by the market administrator on February 1, 1974, and each February 1 thereafter as follows:

* * * * *

5. In § 1065.95, the text preceding paragraph (a)(1) is revised as follows:

§ 1065.95 Computation of Class I base for each producer.

On the effective date of this provision and on February 1, 1974, and February 1 of each subsequent year the market administrator shall assign a Class I base to each producer who has a production history base. Class I bases shall be assigned to producers described in § 1065.93 when they are issued production history bases. On the effective date and on February 1 of each year, Class I bases shall be computed as follows:

(a) Compute a "Class I base percentage" pursuant to subparagraphs (1) through (3) of this paragraph: *Provided*, That the Class I bases percentage on the effective date of this provision shall be 70.720 percent.

(1) * * *

* * * * *

6. Section 1065.96 is revised as follows:

§ 1065.96 Transfer of bases.

Production history base and Class I base may be transferred pursuant to the following rules and conditions:

(a) A transfer of base means the disposal of Class I base and production history base by a transferor and the associated acquisition of Class I base and production history base by transferee. Disposal of base means disposal of Class I base and disposal of a proportionate amount of the production history base held by the transferor. Acquisition of base means the acquisition of Class I base and an amount of production history base that is the quantity of Class I base acquired multiplied by the reciprocal of the Class I base percentage. A transfer may be made only to a person who is a dairy farmer.

(b) The amount of Class I base credited to the transferee shall be two-thirds of the Class I base disposed of by the transferor: *Provided*, That such one-third reduction shall not apply to:

(1) An intrafamily transfer (including transfer to an estate and from an estate to a member of the immediate family);

(2) The division of base held jointly or in partnership except insofar as a one-third lapse is provided in paragraph (f) of this section; and

(3) The combining of bases of two or more producers for purpose of joint enterprise operated by such producers.

(c) The quantity of Class I base disposed of by transferor shall be either the entire Class I base or a portion thereof in multiples of 150 pounds.

(d) It must be established to the satisfaction of the market administrator that the transfer of base is bona fide, in compliance with all provisions of this order and is not for the purpose of evading any provision of this order. Application for transfer must be made to, and on forms approved by, the market administrator and signed by the transferor, (in the case of an estate, his heirs, executor or trustee) and by the person to whom such base is to be transferred. Transfer of base shall be effective on any day of the current month agreed upon by the transferor and transferee after approval of the transfer by the market administrator or otherwise shall be effective on the first day of the month following such approval.

(e) The application for transfer of a base that is jointly held or in a partnership shall be assigned by each joint holder or partner, (in the case of an estate, his heirs, executors, or trustee) and by the person to whom such base is to be transferred;

(f) A base that is held jointly or in partnership may be divided among the joint holders or partners if written notification of the agreed division of base signed by each joint holder (in the case of an estate, his heirs, executor, or trustee), is filed with the market administrator prior to the first day of the month for which such division is to be effective: *Provided however*, That in the case of an individual leaving a joint enterprise that he joined not more than 12 months previously and who after leaving holds less base than he contributed to such joint enterprise when joining, such decrease, if held by the remaining party(s) of the joint enterprise, shall be considered to be transferred and subject to a one-third lapse.

(g) A producer who receives a production history base pursuant to § 1065.92(c), (d), (e), (f), or (g) or § 1065.93 (a), (b), or (c) may not transfer base for one year from the date of base assignment pursuant to such provisions, provided, however, that such limitation shall not apply to:

(1) Intrafamily transfers; or

(2) The quantity of Class I base such producer acquires by transfer.

(h) In the case of an intrafamily transfer (including transfers to an estate and from an estate to a member of the immediate family), or any transfer not subject to the one-third lapse, all resrictions on transferring base applicable to the transferor producer shall also apply to the transferee;

(i) If a base is held by a corporation, a change in ownership of the stock which transfers control to a new person or persons other than a member of the immediate family of the person transferring such stock will be considered to result in a transfer of base and in this case compliance with all base rules affecting transfers will be required: *Provided*, That if the transferor(s) is the sole holder of the stock and transfers such stock to a member or members of the immediate family, there will be no lapse of base.

§ 1065.97 [Amended]

7. In § 1065.97 *Miscellaneous base rules*, paragraph (d) is revoked, and at the end of paragraph (c) the semicolon and the word "and" are deleted and a period is substituted thereat.

Signed at Washington, D.C., on July 2, 1973.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

[FR Doc.73-13638 Filed 7-5-73;8:45 am]

Farmers Home Administration

[7 CFR Part 1832]

[FHA Instruction 441.2]

EMERGENCY LOANS

Eligibility and Loan Approval Requirements

Notice is hereby given that the Farmers Home Administration has under consideration proposed amendments to Subpart A of Part 1832, Title 7, Code of Federal Regulations (37 FR 7293). The major proposed changes in § 1832.5 will establish a new crop production loss formula and establish the requirement that to be eligible for an emergency loan an applicant must be unable to provide the necessary funds from his own resources or to obtain sufficient operating credit from local conventional sources. New § 1832.12(d) will require that recipients of Emergency loans will be required to carry Federal Crop Insurance during the repayment period of the emergency loan made for crop production if it is available in the county.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amendment by close of business July 13, 1973, to the Deputy Administrator Comptroller, Farmers Home Administration, United States Department of Agriculture, Room 5007, South Building, Washington, D.C. 20250.

All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Deputy Administrator Comptroller during regular business hours. (8:15 a.m. to 4:45 p.m.)

As proposed, § 1832.5 and § 1832.12 will read as follows:

§ 1832.5 Eligibility requirements.

To be eligible for an EM loan, an applicant must:

(a) Be a citizen of the United States, if an individual. If a partnership, the individual partners must be citizens of the United States. If a corporation, the corporation must be incorporated under the laws of the United States or any State thereof and the principal stockholders must be citizens of the United States. Any stockholder owning as much as 20 percent of the stock or a smaller percentage if owned in equal amounts, will be considered as a principal stockholder.

(b) Be an established farmer or rancher with a reasonably good past record of operations, whether owner-operator or tenant, who manages his farming or ranching operations. An applicant who does not devote full time to his farming or ranching operations may be considered as the manager of his farming or ranching operations if he visits his farm or ranch at frequent intervals often enough to exercise control and see that the operations are being carried on properly.

(c) Have suffered production losses or property damage directly related to the unusual and adverse weather conditions which resulted in the major disaster(s) designation by the President, or the natural disaster(s) designation by the Secretary, or the authorization of the State Director because of an isolated production loss, as defined in § 1832.3 (a), (b), or (c) of this chapter. Also, it must be established that all losses or damages upon which eligibility for the loan is based were caused during the time period established for the occurrence of the disaster.

(1) Production losses must have been substantially greater than would be expected from normal fluctuations in yields. In making this required determination about production losses, consideration will be given to the applicant's total farming operations. He will be required to furnish information on Form FHA 441-22, "Statement of Production Losses and Certification," showing the production in each of his crop and livestock enterprises during the year of the disaster and the two preceding crop years and an explanation about how and when the natural disaster caused his production losses. If the production was not normal for any of the three years, then the applicant must also furnish such information for his most recent normal year. An applicant meets this eligibility requirement only if his production losses which are not compensated for by insurance or otherwise are the equivalent of 10 percent or more of the dollar value of normal production for his total farming or ranching enterprises. Eligibility established under this paragraph (c)(1) would only entitle an applicant to an EM loan sufficient to produce a new crop.

(i) To establish eligibility, County Supervisors must convert the applicant's total production after the disaster to gross income, adding thereto any insurance or other compensation which may be claimed for these losses, and also calculate his gross income from total production for his most recent normal year. The disaster year figure must be subtracted from the normal year figure to calculate the "loss value" in dollars. The "loss value" will then be calculated as a percentage of the total normal produc-

tion gross income. This percentage must equal or exceed 10 percent for eligibility. The calculations will be recorded in the loan docket. The gross incomes will be calculated by using the prevailing market price in effect at the time of the disaster for each particular commodity as evidenced by the State crop reporting service reports. Lists of prices will be prepared by the State Director and distributed to affected County Supervisors.

(ii) When the applicant has a livestock operation and his losses are to feed-crops, pasture, or grazing, his eligibility will be established by the cost of feed necessarily purchased or grazing rented to replace that which was lost due to the disaster. The cost of the additional feed purchased or grazing rented must be 10 percent or more of his normal production year gross income from his total operation.

(iii) Where an applicant was unable to plant a substantial portion of his normal crops because of a "qualifying disaster," his production for that portion of his unplanted crops will be shown as zero on Form FHA 441-22 providing that a substitute or different crop could not be planted.

(2) Production losses which have occurred to crops or grazing before actual production for the year can be determined will be estimated and shown on Form FHA 441-22 as follows:

(i) For grazing, the number of acres and the estimated percentage of loss will be shown in the appropriate spaces.

(ii) Estimates of damage to other feed crops and cash crops will be shown in units of production.

(3) The County Supervisor will make such efforts as are reasonably necessary to check the accuracy of such estimates.

(4) Damages or losses not compensated for by insurance or otherwise to farm or ranch dwellings and service buildings, land and water resources, farming or ranching supplies or equipment, or livestock essential to normal farm or ranch operations would qualify an applicant for a loan sufficient only to repair, replace, or restore such property. These damages or losses would not qualify the applicant for an EM loan to be used for crop production.

(5) Where an applicant has had disaster damage to feed crops and elects to sell his livestock rather than purchase feed to replace that which he would have produced except for the natural disaster, he cannot claim as loss the difference between the sale price and an estimate of what the sale price would have been if the livestock had been fed for the normal period. This is because the earlier sale was based on a judgment decision and differs from an applicant who could not plant crops because of the natural disaster. The latter had no opportunity for a judgment decision about planting.

(d) Possess legal capacity to contract for the loan. State requirements will be issued with the advice of the Office of the General Counsel (OGC) with respect to this requirement.

(e) Be of good character and possess the ability, industry, and experience necessary to carry out the proposed farming or ranching operations and to assure a reasonable prospect for success with the assistance of the loan, and will honestly endeavor to carry out the undertakings and obligations required of him in connection with the loan.

(f) Be unable to provide the necessary funds from his own resources or to obtain sufficient operating credit from local commercial sources to finance his actual needs at reasonable rates and terms available to other farmers in the area, taking into consideration prevailing private and cooperative rates and terms for loans for similar purposes and periods of time in the community in or near which he resides. The applicant's equity in real estate, chattels, and other assets should be considered in determining his ability to obtain credit from private and cooperative sources. This must be documented in the County Office case file.

(1) In no case will an EM loan be made to an applicant who is able to obtain the credit he needs elsewhere on terms he can reasonably be expected to pay. The following will be observed in determining whether individual applicants meet this eligibility requirement:

(i) When an applicant's financial statement or other information in the loan docket indicates that he might be able to obtain the credit he needs elsewhere at reasonable rates and terms, the County Supervisor will require him to make a diligent effort to obtain a loan from other sources. This effort will consist of applying to lenders engaged in extending short-term or intermediate-term credit in the area, depending on his needs, and requesting each lender to furnish a letter showing whether it will make a loan and if so, the amount it is willing to advance. Such letters from lenders and any other evidence concerning an applicant's ability to obtain credit elsewhere will be included in the loan docket. When appropriate, the County Supervisor will check on evidence concerning inability to obtain credit submitted by an applicant.

(ii) When an applicant's financial statement or other information in the loan docket indicates beyond doubt that he is not able to obtain the credit he needs from other sources at reasonable rates and terms, he will not be required to furnish evidence that he has made an effort to obtain such credit from other sources. The County Supervisor will record his conclusion and the basis for it in the loan docket.

(2) For partnerships or corporations, the principal partners or principal stockholders, either individually or collectively must be unable to finance the farming or ranching operations either with their own resources or with credit obtained by them from other sources. Any partner or stockholder owning as much as 20 percent interest in a partnership or a corporation's stock, or a smaller percentage if owned in equal amounts, will be considered as a principal partner or stockholder.

(3) EM loans are not to be made to applicants having large net worths or large equities in real estate, chattels, or other property, in relation to the amounts they need to borrow, regardless of their ability to obtain credit from other sources. Such applicants are considered to have options in the use of their resources that would enable them to operate without Government assistance. However, it is not intended to advise them what adjustments they might consider in the use or handling of their assets.

(g) An applicant who meets all of the above criteria should still be denied an EM loan if, in the judgment of the loan approval official, he cannot be expected to recover from his losses as a result of the disaster and return to his normal sources of credit within a reasonable period except as provided in § 1832.2(b) of this chapter.

* * * * *

§ 1832.12 Loan approval.

* * * * *

(d) Recipients of Emergency loans will be required to carry Federal Crop Insurance during the repayment period of their Emergency loans made for crop production purposes if such insurance is available in the county.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 132]

REGISTRATION OF PRODUCERS OF DRUGS AND LISTING OF DRUGS IN COMMERCIAL DISTRIBUTION

Proposal for Partial Delay of Effective Date of Labeling Requirements

Section 132.8(b)(3) (21 CFR 132.8) of this chapter provides for the voluntary placing of the National Drug Code (NDC) number on drug labels and specifies how the number must be placed if it is to appear on drug labels. Section 132.8(b)(3)(iv) requires that all 10 characters appear and the leading zeros in any segment of the NDC number shall be shown when the NDC number appears on drug labels. This is one of several points that was discussed with industry representatives, as well as with insurance and government reimbursement agencies, prior to finalization of the regulations. The final regulations allow the affected industry to redesign labels and labeling, as necessary, at the time of the first printing of labels and labeling on or after July 1, 1973.

The Pharmaceutical Manufacturers Association (PMA) has informed the Commissioner of Food and Drugs that the regulation as published will create undue hardships on affected parties since all label printing plates which now contain the NDC numbers but do not provide for leading zeros, or do not comply with the other requirements of § 132.8 (b)(3), will be outdated as of July 1, 1973. They estimate as many as 20 to 30 thousand such plates at a cost of $200 to $300 each may be affected. The PMA requests that the regulation be revised to delay the requirements of § 132.8(b)(3) until printing plates are revised in the normal course of business or until July 1, 1975, whichever occurs first. They state that such a revision will prevent a substantial and needless expense.

The Commissioner has no objection to such a delay. However, since other interested parties have previously expressed a different viewpoint on this subject, all interested parties will be given an opportunity to comment on this proposal before any decision is reached.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 510, 701(a), 52 Stat. 1053 as amended, 1055 as amended; 21 U.S.C. 360, 371(a)), and the Drug Listing Act of 1972 (Public Law 92-387; 865 Stat. 559-562) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), it is proposed that the effective date of Part 132 (appearing at 38 FR 6263, Mar. 7, 1973) be revised as follows:

Effective date. This order shall be effective on March 7, 1973, except that § 132.8(b)(3) shall not be effective until printing plates are revised in the normal course of business or until July 1, 1975, whichever occurs first.

Interested persons may, on or before September 4, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments, (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: June 28, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Public Health Service

[42 CFR Part 54]

DRUG ABUSE

Programs for Treatment and Rehabilitation Services

Notice is hereby given that the Administrator, Health Services and Mental Health Administration, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Subpart D, Part 54, Title 42 CFR, entitled "Grants for Initial Cost of Professional and Technical Personnel of Community Mental Health Centers, by adding a new § 54.305a."

The purpose of this proposed amendment is to implement subsection (c) of section 221 of the Community Mental Health Centers Act (42 U.S.C. 2688a) which was added by section 401 of Public Law 92-255, the Drug Abuse Office and Treatment Act of 1972 (86 Stat. 76).

The statutory provision imposes additional conditions for the approval of applications seeking grants for the initial cost of professional and technical personnel of community mental health centers (commonly referred to as "staffing grants") for fiscal years beginning after June 30, 1972. These conditions are: (1) If the Secretary determines that it is feasible for the applicant community mental health center to provide a treatment and rehabilitation program for drug addicts and other persons with drug abuse and other drug dependence problems residing in the area served by the center and that the need for such a program in that area is of such magnitude as to warrant the provision of such a program by the center, the application may not be approved unless it contains or is supported by assurances satisfactory to the Secretary that the center will provide such a program in the fiscal year for which staffing grant support is requested; and (2) If the Secretary determines that it is feasible for the applicant community mental health center to assist the Federal Government in treatment and rehabilitation programs for drug addicts and other persons with drug abuse and drug dependence problems who are in the area served by the center, such an application may not be approved unless it contains or is supported by assurances satisfactory to the Secretary that the center will enter into agreements with departments or agencies of the Federal Government under which the center may be used (to the maximum extent practicable) in the treatment and rehabilitation programs (if any) provided by such departments and agencies.

In order for the Secretary to implement this statutory provision, it is necessary that he obtain information sufficient to enable him to make the determinations which are a prerequisite to the obtaining of the respective assurances. Thus, paragraph (a) of the proposed § 54.305a provides that each application for staffing grant support for fiscal years beginning after June 30, 1972, must contain certain specific information relating to the need for drug abuse treatment and rehabilitation services in the catchment area served by the applicant and the ability of the applicant to provide such services, including a plan for the provision of such services.

The proposed new section further provides that each award of a staffing grant for a fiscal year beginning after June 30, 1972, is conditional in that if after the grant is awarded the Secretary makes the necessary determinations, the applicant must then make the required assurances. This procedure avoids delaying the award of staffing grants during the period in which the information necessary for a determination by the Secretary is obtained and evaluated.

This proposed amendment has been developed in consultation with the Director of the Special Action Office for Drug Abuse Prevention.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amendment of Subpart D, 42 CFR Part 54 to the National Institute of Mental Health, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland, 20852, on or before August 6, 1973.

Comments received will be available for public inspection at Room 17-99, Parklawn Building during regular business hours.

Dated: March 14, 1973.

FREDERICK L. STONE,
Acting Administrator, Health Services and Mental Health Administration.

Approved: June 13, 1973.

CASPER W. WEINBERGER,
Secretary.

It is proposed to amend Subpart D of Part 54 by adding after § 54.305 thereof a new § 54.305a, to read as follows:

§ 54.305a Content of application—programs for the provision of drug abuse treatment and rehabilitation services.

(a) *Information.* Each application for a grant under section 220(a) of the Act (including applications for continuation support) for any fiscal year beginning after June 30, 1972, shall contain:

(1) Information sufficient to enable the Secretary to determine whether the need for a program of treatment and rehabilitation services for drug addicts and other persons with drug abuse and other drug dependence problems residing in the catchment area served by the applicant is of such magnitude, in the fiscal year for which grant support is requested, as to warrant the provision of such a program of services by the applicant for such fiscal year. Such information shall include:

(i) An estimate of the total population of the catchment area served by the applicant and an estimate of the number of drug addicts and drug abusers (classified by type of drug abused) in such catchment area, which shall be supported by relevant information obtained from local hospitals, medical personnel, law enforcement agencies, educational institutions, and citizen groups concerned with drug abuse problems;

(ii) Identification of existing Federal, State and local programs for the provisions of drug abuse treatment and rehabilitation services to residents of the catchment area served by the applicant and an estimate of whether such programs are sufficient to meet the need for

such services within the catchment area; and

(iii) Such information as may be available to the applicant with respect to planned Federal, State, and local programs for the provision of drug abuse treatment and rehabilitation services to residents of the catchment area, including a statement with respect to the developmental stage of any such plans, and a brief description of the nature and scope of each such program.

(2) Information sufficient to enable the Secretary to determine whether it is feasible, in the fiscal year for which grant support is requested, for the applicant to establish a program for the provision of drug abuse treatment and rehabilitation services to drug addicts and other persons with drug abuse and other drug dependence problems residing in the catchment area served by the applicant and whether it is feasible for the applicant to assist departments and agencies of the Federal Government in conducting treatment and rehabilitation programs for drug addicts and other persons with drug abuse and other drug dependence problems who are in the catchment area served by the applicant. Such information shall include:

(i) A description of the applicant's existing staff, equipment, facilities, and other resources and a plan for utilizing such existing resources for the provision of drug abuse treatment and rehabilitation services which shall take into account the continuing commitment of the applicant to provide comprehensive mental health services to all residents of the catchment area, the available resources of other agencies with which it has established, or could establish, agreements of affiliation, and the availability of other State and local resources;

(ii) An estimate of additional resources needed to bridge the gap, if any, between available existing resources and the need for drug abuse treatment and rehabilitation services in the catchment area and, if existing resources are inadequate, a plan for obtaining additional resources including proposed or pending applications for Federal support, efforts to obtain additional State and local funding, efforts to secure third party reimbursement for services, and specific staff recruiting efforts; and

(iii) A description of any local conditions or other factors such as State and local laws or lack of resources which would affect the applicant's ability to establish or operate new programs, or expand existing programs, for the provision of drug abuse treatment and rehabilitation services.

(b) *Direct provision of services*—(1) *Conditional grant awards.* A grant award under section 220(a) of the Act (including awards of continuation grant support) for any fiscal year beginning after June 30, 1972, shall be subject to the condition that upon a determination by the Secretary, with respect to the fiscal year for which grant support is requested, (i) that the need for a treatment and rehabilitation program for drug addicts and other persons with drug abuse and other drug dependence problems residing in the catchment area served by the applicant is of such magnitude as to warrant the provision of such a program by the applicant and (ii) that it is feasible for the applicant to provide such a program, the applicant shall submit an assurance satisfactory to the Secretary that the applicant will provide such a program for the provision of drug abuse treatment and rehabilitation services during such fiscal year.

(2) *Determination of need.* The Secretary may determine that the need for a program of drug abuse treatment and rehabilitation services in the catchment area served by the applicant is of such magnitude as to warrant the provision of such a program by the applicant if he finds, on the basis of the information submitted pursuant to paragraph (a)(1) of this section and such other pertinent information as may be available, that:

(i) The number of drug abusers in the catchment area served by the applicant is sufficiently large as to warrant the provision of a drug abuse treatment and rehabilitation program in such area;

(ii) Existing Federal, State, and local drug abuse treatment and rehabilitation programs do not adequately serve the population of drug abusers in the catchment area served by the applicant; and

(iii) There are no immediate prospects, within the fiscal year for which staffing grant support is sought, for the implementation of new drug abuse treatment and rehabilitation programs through resources other than those available to the applicant.

(3) *Determination of feasibility.* The Secretary may determine that it is feasible for the applicant to provide a treatment and rehabilitation program for drug addicts and other persons with drug abuse and other drug dependence problems residing in the catchment area served by the applicant if he finds, on the basis of the information submitted pursuant to paragraph (a)(2) of this section and such other pertinent information as may be available, that:

(i) Existing facilities, qualified staff, and other resources available to the applicant during the fiscal year in question, either directly or through affiliation agreements and contractual arrangements, are adequate and appropriate for the provision of drug abuse treatment and rehabilitation services, or that the applicant has reasonable prospects for obtaining, during the fiscal year in question, such additional resources as may be necessary for the provision of such services.

(ii) The applicant's plan for a program for the provision of drug abuse treatment and rehabilitation services, submitted pursuant to paragraph (a)(2) of this section, does not jeopardize the applicant's continuing commitment to provide other mental health services to all residents of the catchment area; and

(iii) There are no local conditions which would have a significant adverse affect on implementation of the applicant's plan to provide drug abuse treatment and rehabilitation services.

(4) *Assurance.* Upon a determination of need and feasibility in accordance with paragraph (b)(2) and (3) of this section, the Secretary shall provide a written notification to the applicant which shall briefly state the bases for the Secretary's determinations of need and feasibility. The notification will be accompanied by a form for providing the required assurance. The applicant shall promptly execute the assurance and return it to the Secretary. An applicant shall be deemed to be in compliance with its assurance if it provides, in the fiscal year to which the assurance is applicable, those drug abuse treatment and rehabilitation services which the Secretary has determined to be feasible for such fiscal year.

(5) *Continuation of obligation.* A determination of need and feasibility by the Secretary with respect to the provision of drug abuse treatment and rehabilitation services for any fiscal year shall be presumed to continue to apply to an applicant's requests for support in subsequent fiscal years unless, on the basis of the information submitted by the applicant in its continuation grant application, the Secretary finds that:

(i) It is no longer necessary or feasible for the center to provide the program of drug abuse treatment and rehabilitation services which the Secretary determined to be needed and feasible in the preceding fiscal year; or

(ii) An expanded program of drug abuse treatment and rehabilitation services is needed in the catchment area served by the applicant and it is feasible for the applicant to expand its existing program.

(c) *Assistance to Federal programs*—(1) *Conditional grant awards.* A grant award under section 220(a) of the Act (including awards of continuation grant support) for any fiscal year beginning after June 30, 1972, shall be subject to the condition that upon a determination by the Secretary that it is feasible for the applicant to assist the Federal Government in drug abuse treatment and rehabilitation programs for drug addicts and other persons with drug abuse and other drug dependence problems who are in the catchment area served by the applicant, the applicant shall submit an assurance satisfactory to the Secretary that the applicant will, if requested, enter into agreements with departments or agencies of the Federal Government pursuant to which the applicant's facilities may be used, to the maximum extent practicable, in drug abuse treatment and rehabilitation programs, if any, provided by such departments or agencies.

(2) *Determination of feasibility.* The Secretary may determine that it is feasible for the applicant to assist the Federal Government in treatment and rehabilitation programs for drug addicts and other persons with drug abuse and other drug dependence problems who are in the catchment area served by the applicant if he finds, on the basis of the information submitted pursuant to para-

graph (a)(2) of this section and such other pertinent information as may be available, that:

(i) Existing facilities, qualified staff, and other resources available to the applicant during the fiscal year in question, either directly or through affiliation agreements and contractual arrangements, are adequate and appropriate for assisting the Federal Government in such drug abuse treatment and rehabilitation programs as may be available for persons who are in the catchment area, or that the applicant has reasonable prospects for obtaining, during the fiscal year in question, such additional resources as may be necessary for the provision of such assistance; and

(ii) Utilization of the applicant's existing or anticipated resources for assisting the Federal Government in such drug abuse treatment and rehabilitation programs as may be available for residents of the area would not necessitate curtailment of drug abuse treatment and rehabilitation services provided or to be provided directly by the applicant or curtailment of other mental health services provided or to be provided by the applicant.

(3) *Assurance.* Upon a determination that it is feasible for the applicant to assist the Federal Government in treatment and rehabilitation programs for drug addicts and other persons with drug abuse and other drug dependence problems in accordance with paragraph (c)(2) of this section the Secretary shall provide a written notification to the applicant which shall briefly state the bases for the Secretary's determination. The notification will be accompanied by a form for providing the required assurance. The applicant shall promptly execute the assurance and return it to the Secretary. The assurance imposes a continuing obligation upon the applicant not to refuse a request from an agency or department of the Federal Government to enter into an agreement under which the applicant's facilities may be used, to the maximum extent practicable, in drug abuse treatment and rehabilitation programs provided by such departments or agencies for persons who are in the catchment area served by the applicant: *Provided, however,* That the Secretary may, upon a written request from the applicant which shall be supported by pertinent information, determine that it is not feasible for the applicant to comply with its assurance in a particular fiscal year or that it is not practicable for the applicant to enter into a specific agreement which has been proposed by a department or agency of the Federal Government.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 129]

WATER POLLUTION PREVENTION AND CONTROL

Proposed List of Toxic Pollutants

Notice is hereby given that the Acting Administrator, Environmental Protection Agency, proposes to establish a list of toxic pollutants in accordance with section 307(a)(1) of the Federal Water Pollution Control Act, as amended, (33 U.S.C.A. section 1317(a)) (Supp. 1973), (the Act) which provides in part:

> The Administrator shall, within ninety days after the date of enactment of this title, publish (and from time to time thereafter revise) a list which includes any toxic pollutant or combination of such pollutants for which an effluent standard (which may include prohibition of the discharge of such pollutants or combination of such pollutants) will be established under this section.

The proposed list consists of the following pollutants:

LIST OF TOXIC POLLUTANTS

1. Aldrin (1,2,3,4,10,10-hexachloro-1,4,4a,5,8,8a-hexahydro-1,4,5,8 - endo-exodimethanonaphthalene) Dieldrin (1,2,3,4,10,10-hexachloro-6,7-epoxy-1,4,4a,5,6,7,8,8a-octahydro-1,4-endo, exo-5,8-dimethanonaphthalene)
2. Benzidine and its salts (para-para'-diaminobiphenyl)
3. Cadmium and all cadmium compounds
4. Cyanide and all cyanide compounds
5. DDD(TDE) 1,1 - dichloro - 2,2 - bis(para-chlorophenyl)-ethane DDE (dichlorodiphenyldichloroethylene) 1,1 - dichloro-2,2-bis (para-chlorophenyl)-ethylene DDT (dichlorodiphenyltrichloroethane) 1,1,1 - trichloro-2,2-bis(para-chlorophenyl)-ethane
6. Endrin (1,2,3,4,10,10 - hexachloro-6,7-epoxy-1,4,4a,5,6,7,8,8a - octahydro-1,4-endo-endo-5,8-dimethanonaphthalene)
7. Mercury and all mercury compounds
8. Polychlorinated biphenyls (PCB's)
9. Toxaphene (chlorinated camphene)

Evaluation of other water pollutants is continuing and the list will be revised from time to time as data become available and as the Administrator deems appropriate. The pollutants included on this initial list are toxic in very low concentrations. The single exception is the industrial chemical, benzidine, which was included because of its ubiquity and known carcinogenic properties.

The term "toxic pollutant" is defined in section 502(13) of the Act as "those pollutants or combinations of pollutants, including disease causing agents, which after discharge and upon exposure, ingestion, inhalation or assimilation into any organism, either directly from the environment or indirectly by ingestion through food chains will, on the basis of information available to the Administrator, cause death, disease, behavioral abnormalities, cancer, genetic mutations, physiological malfunctions (including malfunctions in reproduction) or physical deformations in such organisms or their offspring." Thus; the definition is broad and potentially applicable to a large number of substances.

From other provisions of the Act, however, it is clear that the Congress intended that the Administrator be selective in determining which of the potentially large number of candidate substances actually should be listed at various times.

These other provisions include section 101(a)(3), which declares that "it is the national policy that the discharge of toxic pollutants in toxic amounts be prohibited" and section 307(a)(1), which states, in part, that the Administrator, in publishing the required list of toxic pollutants, "shall take into account the toxicity of the pollutant, its persistence, degradability, the usual or potential presence of the affected organisms in any waters, the importance of the affected organisms and the nature and extent of the effect of the toxic pollutaift on such organisms." In addition, as indicated above, section 307(a)(1) provides that the Administrator shall revise the list from time to time.

Furthermore, when section 307(a) is viewed in the context of the Act as a whole, which includes a number of other provisions for preventing and controlling water pollution, it seems apparent that the Administrator's mandate under section 307(a) is to focus on those water pollutants which pose the most serious hazards to man and other organisms inhabiting or consuming water. It is also apparent that the Administrator has a mandate to establish priorities for dealing with such pollutants, i.e., to take action initially with respect to those pollutants which, based on available evidence, appear to pose immediate problems and therefore require abatement more rapidly than can be achieved under other provisions of the Act.

In accordance with this mandate, pollutants chosen for inclusion on the initial list meet the following criteria:

1. There is evidence that, either directly or through transformation or bioaccumulation, they are toxic, as defined by section 502(13), at extremely low concentrations in water, and
2. They are discharged in significant amounts from point sources, and
3. Point source discharges are known to have resulted in incidents involving the types of adverse effects cited in section 502(13), and/or
4. There is a significant potential for the occurrence or recurrence of such incidents as a result of point source discharges, and
5. Standard setting under section 307(a) is necessary because the prospective timing and effectiveness of abatement action under other provisions of the Act are not commensurate with the nature and seriousness of the problems identified by the above criteria, and
6. Adequate data are available to establish an effluent standard meeting the requirements of the Act.

The Environmental Protection Agency invites all interested parties to submit comments on this proposal. Comments shall be submitted in writing, preferably in triplicate, to Dr. C. H. Thompson, Office of Air and Water Programs, Environmental Protection Agency, Washington, D.C. 20460. All relevant comments received on or before August 6, 1973 will be considered. Comments received by the Agency will be available for inspection during normal business hours at the Office of Public Affairs, 401 M Street, S.W., Washington, D.C. 20460. Following consideration of comments, the list will be republished, with any modifications which the Administrator deems appropriate, and will then constitute the list required by section 307(a).

Dated: July 3, 1973.

ROBERT W. FRI,
Acting Administrator.

DEPARTMENT OF THE TREASURY

Office of the Secretary

ACRYLONITRILE - BUTADIENE - STYRENE TYPE OF PLASTIC RESIN (IN PELLET AND POWDER FORMS) FROM JAPAN

Antidumping; Withholding of Appraisement Notice

JULY 2, 1973.

Information was received on January 2, 1973, that acrylonitrile-butadiene-styrene type of plastic resin in pellet form from Japan was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an Antidumping Proceeding Notice which was published in the FEDERAL REGISTER of February 7, 1973, on page 3529. The Antidumping Proceeding Notice indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

An amendment to this notice was published in the FEDERAL REGISTER of May 2, 1973, on page 10824, for the purpose of expanding the scope of the investigation to include acrylonitrile-butadiene-styrene type of plastic resin in powder form from Japan.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price (section 203 of the Act; 19 U.S.C. 162) of acrylonitrile-butadiene-styrene type of plastic resin (in pellet and powder forms) from Japan is less, or likely to be less, than the foreign market value (section 205 of the Act; 19 U.S.C. 164).

Statement of reasons. The information before the Bureau of Customs tends to indicate that the probable basis of comparison for fair value purposes will be between purchase price and the adjusted home market price of such or similar merchandise.

Purchase price will probably be calculated on the f.o.b. (Japan) price with deductions for shipping charges, freight, and Customs clearance charges, as appropriate.

Home market price will probably be based on the distributor's designated place of delivery price with a deduction for inland freight. Adjustments will probably be made for credit terms, advertising, technical assistance, differences in packing, and a rebate, as appropriate.

Using the above criteria, there are reasonable grounds to believe or suspect that purchase price will be lower than the adjusted home market price.

Customs officers are being directed to withhold appraisement of acrylonitrile-butadiene-styrene type of plastic resin (in pellet and powder forms) from Japan in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), and 153.37), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street, NW., Washington, D.C. 20229, in time to be received by his office not later than July 16, 1973. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office on or before August 6, 1973.

This notice, which is published pursuant to § 153.34(b), Customs Regulations (19 CFR 153.34(b)), shall become effective July 6, 1973. It shall cease to be effective January 7, 1974, unless previously revoked.

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

DEPARTMENT OF JUSTICE

Bureau of Narcotics and Dangerous Drugs

MANUFACTURE OF ACETYLMETHADOL

Notice of Application

Pursuant to § 301.43 of Title 21 of the Code of Federal Regulations, notice is hereby given that on May 11, 1973, Monsanto Research Corporation, 1515 Nicholas Road, Dayton, Ohio, 45418, made application to the Bureau of Narcotics and Dangerous Drugs to be registered as a bulk manufacturer of Acetylmethadol a basic class controlled substance listed in schedule I.

Section 303(a)(1) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 823(a)(1)) states:

The Attorney General shall register an applicant to manufacture controlled substances in schedule I or II if he determines that such registration is consistent with the public interest and with United States obligations under international treaties, conventions, or protocols in effect on the effective date of this part. In determining the public interest, the following factors shall be considered:

(1) Maintenance of effective controls against diversion of particular controlled substances and any controlled substances in schedule I or II compounded therefrom into other than legitimate medical, scientific, research, or industrial channels, by limiting the importation and bulk manufacture of such controlled substance to a number of establishments which can produce an adequate uninterrupted supply of these competitive conditions for legitimate medical, scientific, research and industrial purposes;

Any person registered to manufacture Acetylmethadol in bulk may, on or before August 15, 1973, file written comments on or objections to the issuance of the proposed registration, and may, at the same time, file written request for a hearing on the application (stating with particularity the objections or issues, if any, concerning which the person desires to be heard and a brief summary of his position on those objections or issues).

Comments and objections may be addressed to the Hearing Clerk, Office of Chief Counsel, Bureau of Narcotics and

Dangerous Drugs, Room 611, 1405 Eye Street, N.W., Washington, D.C. 20537.

Dated: June 29, 1973.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

MANUFACTURE OF ALPHACETYLMETHADOL

Notice of Application

Pursuant to § 301.43 of Title 21 of the Code of Federal Regulations, notice is hereby given that on May 11, 1973, Monsanto Research Corporation, 1515 Nicholas Road, Dayton, Ohio, 45418, made application to the Bureau of Narcotics and Dangerous Drugs to be registered as a bulk manufacturer of Alphacetylmethadol a basic class controlled substance listed in Schedule I.

Section 303(a)(1) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 823(a)(1) states:

The Attorney General shall register an applicant to manufacture controlled substances in schedule I or II if he determines that such registration is consistent with the public interest and with United States obligations under international treaties, conventions, or protocols in effect on the effective date of this part. In determining the public interest, the following factors shall be considered:

(1) Maintenance of effective controls against diversion of particular controlled substances and any controlled substances in schedule I or II compounded therefrom into other than legitimate medical, scientific, research, or industrial channels, by limiting the importation and bulk manufacture of such controlled substance to a number of establishments which can produce an adequate uninterrupted supply of these competitive conditions for legitimate medical, scientific, research and industrial purposes;

Any person registered to manufacture Alphacetylmethadol in bulk may, on or before August 15, 1973, file written comments on or objections to issuance of the proposed registration, and may, at the same time, file written request for a hearing on the application (stating with particularity the objections or issues, if any, concerning which the person desires to be heard and a brief summary of his position on those objections or issues).

Comments and objections may be addressed to the Hearing Clerk, Office of Chief Counsel, Bureau of Narcotics and Dangerous Drugs, Room 611, 1405 Eye Street, NW., Washington, D.C. 20537.

Dated: June 29, 1973.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

MANUFACTURE OF BETAMETHADOL

Notice of Application

Pursuant § 301.43 of Title 21 of the Code of Federal Regulations, notice is hereby given that on May 11, 1973, Monsanto Research Corporation, 1515 Nicholas Road, Dayton, Ohio, 45418, made application to the Bureau of Narcotics and Dangerous Drugs to be registered as a bulk manufacturer of Betamethadol a basic class controlled substance listed in schedule I.

Section 303(a)(1) of the Comprehensive Drug Abuse Prevention and Control Act of 1970(21 U.S.C. 823(a)(1) states:

The Attorney General shall register an applicant to manufacture controlled substances in schedule I or II if he determines that such registration is consistent with the public interest and with United States obligations under international treaties, conventions, or protocols in effect on the effective date of this part. In determining the public interest, the following factors shall be considered:

(1) Maintenance of effective controls against diversion of particular controlled substances and any controlled substances in schedule I or II compounded therefrom into other than legitimate medical, scientific, research, or industrial channels, by limiting the importation and bulk manufacture of such controlled substance to a number of establishments which can produce an adequate uninterrupted supply of these competitive conditions for legitimate medical, scientific, research and industrial purposes;

Any person registered to manufacture Betamethadol in bulk may, on or before August 15, 1973, file written comments on or objections to the issuance of the proposed registration, and may, at the same time, file written request for a hearing on the application (stating with particularity the objections or issues, if any, concerning which the person desires to be heard and a brief summary of his position on those objections or issues).

Comments and objections may be addressed to the Hearing Clerk, Office of Chief Counsel, Bureau of Narcotics and Dangerous Drugs, Room 611, 1405 Eye Street, NW., Washington, D.C., 10537.

Dated: June 29, 1973.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

Notice of Termination of Proposed Withdrawal and Reservation of Lands

Notice of an Alaska Railroad, Department of Transportation application,

serial No. F-13200, for withdrawal and reservation of lands for use as a terminal area and gravel source, was published as F.R. Doc. No. 71-6776 on page 8965 of the issue for May 15, 1971. The applicant agency has canceled its application involving the lands described in the FEDERAL REGISTER publication referred to above. Therefore, pursuant to the regulations contained in 43 CFR Part 2351.1, such lands, at 10 a.m., July 20, 1973, will be relieved of the segregative effect of the above-mentioned application.

The lands involved in this notice of termination are:

FAIRBANKS MERIDIAN

T. 1 S., R. 1 W.,
sec. 30: NE¼NE¼ and lot 4.

Containing 90.97 acres.

CURTIS V. MCVEE,
State Director.

JUNE 26, 1973.

[FR Doc.73-13695 Filed 7-5-73;8:45 am]

[Serial No. I-6775]

IDAHO

Notice of Proposed Withdrawal and Reservation of Lands

JUNE 27, 1973.

The Department of Agriculture has filed an application Serial Number I-6775, for the withdrawal of lands described below from all location and entry under the mining laws but not the mineral leasing laws, subject to valid existing rights.

The applicant desires the land for public purposes as a right-of-way for Smith Creek Road No. 281. The road is part of the Forest Development System within the Kaniksu National Forest.

On or before August 6, 1973, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Room 398 Federal Building, 550 W. Fort Street, P.O. Box 042, Boise, Idaho 83724.

The authorized officer of the Bureau of Land Management, will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the Department of Agriculture. The determination of the secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record. If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The lands involved in the application are:

KANIKSU NATIONAL FOREST

BOISE MERIDIAN

T. 65 N., R. 2 W.,
Sec. 23, Lot 4. (A strip of land 100 feet in width, being 50 feet in width on both sides of the centerline of Smith Creek Road No. 281, as shown in right-of-way map dated July 13, 1972, over and across the named subdivision.)

The area described aggregates 3.24 acres, more or less, in Boundary County, Idaho.

VINCENT S. STROBEL,
Chief, Branch of L&M Operations.

Agricultural Marketing Service

ELIZABETH CITY, N.C., GRAIN INSPECTION POINT

Proposed Revocation

Statement of considerations. Elizabeth City, North Carolina, is assigned to the North Carolina Department of Agriculture, Raleigh, North Carolina, as a designated inspection point, in accordance with the provisions of § 26.99 of the regulations (7 CFR 26.99) issued under the U.S. Grain Standards Act (sec. 8, 39 Stat. 485, as amended 82 Stat. 768; 7 U.S.C. 87e). By definition, a designated inspection point is a city, town, or other location assigned under the regulations to an official inspection agency for the conduct of official inspections, and within which the official inspection agency or one or more of its licensed inspectors is located (7 CFR 26.1(b)(13)). Because of the low volume of grain inspection work at Elizabeth City, the North Carolina Department of Agriculture has requested that the assignment of Elizabeth City as a designated inspection point be revoked.

It appears that through no fault of the North Carolina Department, the volume of grain inspection work no longer warrants stationing a licensed inspector at Elizabeth City. Accordingly, the Agricultural Marketing Service proposes to revoke the assignment of Elizabeth City as a designated inspection point without prejudice to the North Carolina Department of Agriculture. Interested organizations and persons are hereby given opportunity to submit comments in writing with respect to the proposed revocation.

Opportunity is hereby afforded all interested persons to submit written data, views, or arguments with respect to this matter to the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250. All written submission shall be in duplicate and shall be mailed to the Hearing Clerk not later than August 6, 1973. All submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). Consideration will be given to the written data, views, or arguments so filed with the Hearing Clerk and to other information available to the U.S. Department of Agriculture before final determination is made with respect to this matter.

Done in Washington, D.C., on: July 2, 1973.

E. L. PETERSON,
Administrator, Agricultural Marketing Service.

BOARD OF TRADE OF KANSAS CITY, MISSOURI, INC.

Designation as Contract Market for Grain, Millfeeds, Soybeans, and Live Beef Feeder Cattle

Pursuant to the authorization and direction contained in the Commodity Exchange Act as amended (7 U.S.C. 1 et seq.), I hereby designate The Board of Trade of Kansas City, Missouri, Inc. as a contract market for grain, millfeeds, soybeans, and live beef feeder cattle, effective July 1, 1973. The said exchange has applied for, and has otherwise complied with the requirements imposed by the said Act as a condition precedent to, such designation.

This designation is subject to suspension or revocation in accordance with the provisions of the said Act. For the purpose of any such suspension or revocation, this order may constitute either a single designation or four designations.

Issued: July 1, 1973.

CLAYTON YEUTTER,
Assistant Secretary.

Soil Conservation Service

WATERSHED PLANNING

Notice of Authorization

This provides notice of authorization dated June 29, 1973, to the concerned state conservationist of the Soil Conservation Service to provide planning assistance to specified local organizations for the indicated watersheds. The state conservationist may now proceed with investigations and surveys as necessary to develop watershed work plans under authority of the Watershed Protection and Flood Prevention Act (Public Law 83-566).

Environmental statements will be prepared concurrently with the preparation of the watershed work plans. These statements will be made available to the general public, filed with the Council on Environmental Quality, and the notice of availability published in the FEDERAL REGISTER.

Persons interested in any of these projects may contact the local organizations or the concerned state conservationist as indicated below:

Texas: Elm Creek Watershed; 245,991 acres; Runnels and Taylor Counties. Sponsors—Elm Creek Water Control District, Runnels Soil and Water Conservation District, Middle Clear Fork Soil and Water Conservation District, Runnels County Commissioners Court, Taylor County Commissioners Court, City of Ballinger, City of Winters, and the Runnels County Water Authority.

Hamilton Creek Watershed; 48,640 acres; Burnet County. Sponsors—Hill County Soil and Water Conservation District, Burnet County Commissioners Court, and the City of Burnet.

Los Olmos Creek Watershed; 174,351 acres; Jim Hogg and Starr Counties. Sponsors—Monte Mucho Soil and Water Conservation District, Starr County Soil and Water Conservation District, Starr County Commissioners Court, and the Jim Hogg County Commissioners Court.

Sandia Creek Watershed; 124,549 acres; Jim Hogg and Starr Counties. Sponsors—Monte Mucho Soil and Water Conservation District, Starr County Soil and Water Conservation District, Starr County Commissioners Court, and the Jim Hogg County Commissioners Court.

State Conservationist—Mr. Edward E. Thomas, Soil Conservation Service, 16-20 South Main Street, P.O. Box 648, Temple, Texas 76501.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: June 29, 1973.

METHAPYRILENE CREAM AND VARIOUS OPHTHALMIC PREPARATIONS CONTAINING AN ANTIHISTAMINE

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications

Correction

In FR Doc. 73-12423 appearing at page 16257 of the issue for Thursday, June 21, 1973, on page 16258 make the following changes: In the paragraph beginning "NDA-6-340", "histadyl ophthalmic ointment and histadyl cream" should read, "Histadyl Ophthalmic Ointment and Histadyl Cream"; in the paragraph beginning "NDA 6-456", "Antistine phosphate ophthalmic solution" should read "Antistine Phosphate Ophthalmic Solution"; and in the paragraph beginning "NDA 7-953", "Prefrin-A ophthalmic solution" should read "Prefrin-A Ophthalmic Solution".

Social Security Administration

HEALTH INSURANCE BENEFITS ADVISORY COUNCIL

Notice of Meeting

Notice is hereby given, pursuant to Public Law 92-463, that the Health Insurance Benefits Advisory Council, established pursuant to section 1867 of the Social Security Act, as amended, which advises the Secretary of Health, Education, and Welfare on Medicare and Medicaid matters, will meet on Friday, July 13, 1973, at 9 a.m., in Room 5169 of the Department of Health, Education, and Welfare's North Building, Third and C Streets, SW., Washington, D.C. The meeting is open to the public. The Council will consider matters relating to the Medicare and Medicaid programs.

Further information on the Council may be obtained from Mr. Max Perlman, Executive Secretary, Health Insurance Benefits Advisory Council, Room 585, East Building, Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone 301-594-9134. Members of the public planning to attend should send written notice of intent to the Executive Secretary.

(Catalog of Federal Domestic Assistance Program Nos. 13.800, Health Insurance for the Aged—Hospital Insurance; 13.801, Health Insurance for the Aged—Supplementary Medical Insurance; and 13.714, Medical Assistance Program)

Dated: June 28, 1973.

MAX PERLMAN,
Executive Secretary, Health Insurance Benefits Advisory Council.

PHYSICIANS' REIMBURSEMENT METHODS STUDY COMMITTEE OF THE HEALTH INSURANCE BENEFITS ADVISORY COUNCIL

Notice of Public Meeting

Notice is hereby given, pursuant to Public Law 92-463, that the Physicians' Reimbursement Methods Study Committee of the Health Insurance Benefits Advisory Council, which is studying the methods of reimbursement for physicians' services under the Medicare program, will meet on Thursday, July 12, 1973, at 9 a.m., in Room 221 of the Executive House Hotel, 1515 Rhode Island Avenue, NW. at Scott Circle, Washington, D.C. The meeting is open to the public. The Committee will consider matters relating to the study.

Further information on the Council may be obtained from Mr. Max Perlman,

Executive Secretary, Health Insurance Benefits Advisory Council, Room 585, East Building, Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone 301–594–9134. Members of the public planning to attend should send written notice of intent to the Executive Secretary.

SAN FRANCISCO, LOS ANGELES, AND ATLANTA AREA OFFICES AND PHOENIX AND MEMPHIS INSURING OFFICES

Notice of Extension of Experimental Change in Procedures for Application for Approval of Projects for Mortgage Insurance and Reduction of Required Fees

Notice is hereby given of extended continuation of the experimental change in procedures and reduction of fees made applicable to letters of feasibility/conditional commitments in the area offices in San Francisco, California on August 9, 1971 (36 FR 15678, August 17, 1971), Los Angeles, California on March 1, 1972 (37 FR 6417, March 29, 1972), and Atlanta, Georgia, on March 6, 1972, and the insuring offices in Phoenix, Arizona, on February 14, 1972, and Memphis, Tennessee, on March 13, 1972, and continued in effect in such offices through June 30, 1973 (38 FR 4529, February 15, 1973). Accordingly, such changes in procedures and fees will continue in effect through and including October 31, 1973. Comment and public procedure with respect to this temporary change have been determined to be impracticable.

Issued at Washington, D.C., June 25, 1973.

WOODWARD KINGMAN,
Acting Assistant Secretary for Housing Production and Mortgage Credit.

Federal Highway Administration

CALIFORNIA'S PROPOSED ACTION PLAN

Availability for Review

The California Department of Transportation has submitted to the Federal Highway Administration of the U.S. Department of Transportation a proposed Action Plan as required by Policy and Procedure Memorandum 90–4 issued on September 21, 1972. The Action Plan outlines the organizational relationships, the assignments of responsibility, and the procedures to be used by the State to assure that economic, social and environmental effects are fully considered in developing highway projects and that final decisions on highway projects are made in the best overall public interest, taking into consideration: (1) needs for fast, safe and efficient transportation; (2) public services; and (3) costs of eliminating or minimizing adverse effects.

The proposed Action Plan is available for public review at the following locations:

1. California Department of Transportation
   Room 1218
   1120 N Street
   Sacramento, California 95814
2. California Division Office
   Federal Highway Administration
   Second Floor, Federal Building
   801 I Street
   Sacramento, California 95814
3. FHWA Regional Office
   Room 7740, Federal Building
   450 Golden Gate Avenue
   Box 36096, Region 9
   San Francisco, California 94102
4. U.S. Department of Transportation
   Federal Highway Administration
   Environmental Development Division
   Nassif Building, Room 3246
   400 7th Street SW.
   Washington, D.C. 20590

Comments from interested groups and the public on the proposed Action Plan are invited. Comments should be sent to the FHWA Regional Office shown above before July 30, 1973.

Issued on June 29, 1973.

NORBERT T. TIEMANN,
Federal Highway Administrator.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50–440, 50–441]

DUQUESNE LIGHT CO. ET AL.

Notice of Receipt of Application for Construction Permits and Facility Licenses and Applicants' Environmental Report; Time for Submission of Views on Antitrust Matter

Duquesne Light Company, 435 Sixth Avenue, Pittsburgh, Pennsylvania 15219, Ohio Edison Company, 47 North Main Street, Akron, Ohio 44308, Pennsylvania Power Company, One East Washington Street, New Castle, Pennsylvania 16103, The Cleveland Electric Illuminating Company, P.O. Box 5000, Cleveland, Ohio 44101, and Toledo Edison Company, 300 Madison Avenue, Toledo, Ohio 43652 (the applicants), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, have filed an application which was docketed on June 25, 1973, for authorization to construct and operate two single-cycle, forced circulation, boiling water nuclear reactors. The application was tendered on March 28, 1973. Following a preliminary review for completeness, it was rejected on May 2, 1973, for lack of sufficient information. The applicants submitted additional information on June 6, 1973 and the application was accepted for docketing.

The proposed nuclear facility, designated by the applicants as the Perry Nuclear Power Plant, Units 1 & 2 is located near Lake Erie in Lake County, Ohio, approximately 35 miles northeast of Cleveland, Ohio and is designated for initial operation at approximately 3579 megawatts (thermal) with a net electrical output of approximately 1205 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before September 7, 1973. The request should be filed in connection with Docket 50–440A & 50–441A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and at the Perry Public Library, 3753 Main Street, Perry Township, Ohio 44081.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, an environmental report dated March 28, 1973. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed construction of the Perry Nuclear Power Plant, Units 1 & 2 is also being made available at the Office of the Governor, State Clearinghouse, 62 East Broad Street—2nd Floor, Columbus, Ohio 43215 and at the Northeast Ohio Areawide Coordinating Agency, 439 The Arcade, Cleveland, Ohio 44114.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Md., this 28th day of June 1973.

For the Atomic Energy Commission.

WALTER R. BUTLER,
Chief, Boiling Water Reactors, Branch 1, Directorate of Licensing.

[Docket No. 50-346]

TOLEDO EDISON CO. AND CLEVELAND ELECTRIC ILLUMINATING CO.

Notice of Evidentiary Hearing

In the matter of Toledo Edison Company and the Cleveland Electric Illuminating Company, (Davis-Besse Nuclear Power Station), Docket No. 50-346.

TAKE NOTICE, pursuant to the Atomic Energy Act and to the rules of practice of the Atomic Energy Commission, the Evidentiary Hearing in the above-captioned proceeding will commence at 1:30 pm. local time, on July 23, 1973, in the Fellowship Hall, Trinity United Methodist Church, Adams and Second Streets, Port Clinton, Ohio 43452. The Hearing will continue at 10:00 am, local time, on July 24, 1973, at the Anthony J. Celebrezze Building, 1240 East Ninth Street, Cleveland, Ohio 44199, in Room B-1.

All persons having requested opportunity to make an oral or written statement of their position on the issues involved may do so by way of limited appearance on July 23, 1973, at Port Clinton, Ohio, or on the morning of July 24, 1973, in Cleveland, Ohio.

Issued at Washington, D.C., this 29th day of June 1973.

It is so ordered.

ATOMIC SAFETY AND LICENSING BOARD,

JOHN B. FARMAKIDES,
Chairman.

CONSUMER PRODUCT SAFETY COMMISSION

FLAMMABILITY STANDARD FOR MATTRESSES

Notice of Approval of Alternate Sampling Plan for Mattress Ticking

Correction

In FR Doc. 73-12097 appearing at page 15990 of the issue for Tuesday, June 19, 1973 the diagrams on page 15994, labeled "Figure 1" and "Figure 2", should be labeled "Figure A" and "Figure B" respectively.

COST OF LIVING COUNCIL

FOOD INDUSTRY WAGE AND SALARY COMMITTEE

Notice of Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Food Industry Wage and Salary Committee, established under the authority of section 212(f) of the Economic Stabilization Act, as amended, section 4(a) (iv) of Executive Order 11695, and Cost of Living Council Order No. 14, will meet at 10:00 a.m., Wednesday, July 11, 1973, at 2025 M Street, N.W., Washington, D.C.

The agenda will be a consideration of discussions of future food wage policy and Phase II and III cases for decision.

Since the above stated meeting will consist of discussions of future food wage policy and Phase II and III cases for decision, pursuant to authority granted me by Cost of Living Council Order 25, I have determined that the meeting would fall within exemption (5) of 5 U.S.C. 552 (b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with the operation of the Committee.

Issued in Washington, D.C. on July 3, 1973.

HENRY H. PERRITT, Jr.,
Executive Secretary,
Cost of Living Council.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Availability

Environmental impact statements received by the Council from June 18 through June 22, 1973.

NOTE.—At the head of the listing of statements received from each agency is the name of an individual who can answer questions regarding those statements.

DEPARTMENT OF AGRICULTURE

Contact: Dr. T. C. Byerly, Office of the Secretary, Washington, D.C. 20250, 202-447-7803.

FOREST SERVICE

Draft

Fishways in Roadless Areas, Alaska, June 15: Proposed in the statement is the construction of fishways in streams in roadless areas of National Forest lands in Alaska. The fishways would enable salmonid species to overcome upstream barriers. Methods considered include fall modification, the Alaska aluminum steep pass, and pool-weir construction. Adverse impact could result from construction activities (including trails and helicopter landing sites for access) and esthetic impairment (30 pages). (ELR Order No. 31013.) (NTIS Order No. EIS 73 1013-D.)

Communication Sites, Chugach and Tongass National Forests, Alaska, June 19: Proposed is the construction of radio communication sites on 22 mountain top locations on National Forest lands in the Southeast, Prince William Sound, and Kenai Peninsula areas of Alaska. There will be adverse visual impacts, and noise from servicing helicopters, which may frighten wildlife (29 pages). (ELR Order No. 31027.) (NTIS Order No. EIS 73 1027-D.)

Timber Sale, Gallatin National Forest, Gallatin County, Mont., June 20: The proposed project is a 3-million-board-feet timber sale in the Portal Creek Drainage Basin of the forest. Included will be road construction. Part of the sale is in an area that is inventoried as roadless. There will be soil disturbance, air, water, and visual impact. The improved road will increase recreational use of Golden Trout and Hidden Lakes (21 pages). (ELR Order No. 31033.) (NTIS Order No. EIS 73 1033-D.)

Vegetation Control, New Mexico, several counties, New Mexico, June 15: Proposed is the use of mechanical equipment and fire to control spreading pinyon-juniper and sagebrush on lands of Apac Gila, and Santa Fe National Forests, in Catron, Grant, Sandoval Rio Arriba, and San Miguel Counties. There will be temporary adverse impact to air, soil water, esthetic qualities, and to wildlife (66 pages). (ELR Order No. 31015.) (NTIS Order No. EIS 73 1015-D.)

Timber Management Program, Carson National Forest, several counties, New Mexico, June 18: The statement refers to the proposed 10-year timber management plan for the forest. The proposed annual harvest of sawtimber is 26,577 M bm. There will be some road construction. Adverse impact will be upon air, wildlife, grazing, fire control, and scenic beauty (110 pages). (ELR Order No. 31021.) (NTIS Order No. EIS 73 1021-D.)

RURAL ELECTRIFICATION ADMINISTRATION

Draft

Steamboat Substation, Routt County, Colo., June 20: Proposed is the granting of a $1,290,000 loan to the Colorado-Ute Electric Association, Inc., for construction of 6.5 miles of 230 kV transmission line from the Hayden-Archer line to Steamboat Springs. Also to be constructed is a 23/69 kV 30/40/50 MVA substation. There will be construction disruption and visual impact. (ELR Order No. 31038.) (NTIS Order No. EIS 73 1038-D.)

ATOMIC ENERGY COMMISSION

Contact: For nonregulatory matters: Mr. Robert J. Catlin, Director, Division of Environmental Affairs, Washington, D.C. 20545, 202-973-5391. For regulatory matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, 202-973-7373, Washington, D.C. 20545.

Addendum

Oconee Nuclear Station, Addendum, June 19: The document, an addendum to the final statement which was filed on March 27, 1972 (ELR Order No. 4045, NTIS Order No. PB-204 910-F), provides information on the station's monitoring program, and the need for power (22 pages). (ELR Order No. 31026.) (NTIS Order No. EIS 73 1026-D.)

Draft

Brunswick Steam Electric Plant, Brunswick County, N.C., June 18: Proposed are the continuation of construction permits and the issuance of operating licenses to the Carolina Power & Light Co. for the start-up and operation of the two-unit plant. Two boiling water reactors will ultimately produce a total of 5,100 MWt. Electrical power generated by the plant will be 1,694 MWe (1,642 MWe net). Cooling will be by a once-through flow of brackish water drawn through a 3-mile canal from Cape Fear Estuary, and discharged through a 6-mile canal to the Atlantic. One hundred and seventeen acres of marshland will be lost to canal construction; between 1,000 and 4,000 additional acres of marshland will be modified (approximately 260 pages). (ELR Order No. 31019.) (NTIS Order No. EIS 73 1019-D.)

Final

St. Lucie Plant, Unit 1, St. Lucie County, Fla., June 21: The statement refers to the proposed continuation of a construction permit and the issuance of an operating license to the Florida Power & Light Co. for the startup and operation of the 2,444 MWt, 850 MWe pressurized reactor unit. Cooling water will be drawn from the Atlantic, where fish and planktonic organisms will be entrained in the intake system, and discharged at 6° above ambient. Hutchinson Island, site of the plant, is an important sea turtle nesting area and concern is expressed over possible adverse effects to the turtle population from lighting, thermal discharge, etc. (The former title of the plant, at the time of the draft statement, was Hutchinson Island Plant.) Comments made by: AHP, USDA, COE, DOC, HEW, HUD, DOT, EPA, and FPC. (ELR Order No. 31043.) (NTIS Order No. EIS 73 1043-F.)

Susquehanna Steam Electric Station, Luzerne County, Pa., June 21: The statement refers to the issuance of a construction permit to the Pennsylvania Power & Light Co. The two units of the plant will each employ a boiling water reactor to produce 3,293 MWt and 1,100 MWe (net); ultimate outputs of 3,440 MWt and 1,140 MWe are anticipated. The cooling system will employ two hyperbolic natural-draft towers, with water being drawn from the Susquehanna River. The site occupies 955 acres of formerly agricultural land; an additional 1,800 acres will be required for transmission line right-of-way (approximately 300 pages). Comments made by: AHP, USDA, COE, DOC, HEW, HUD, DOT, EPA, and FPC. (ELR Order No. 31044.) (NTIS Order No. EIS 73 1044–F.)

DEPARTMENT OF COMMERCE

Contact: Dr. Sidney R. Galler, Deputy Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230, 202–967–4335.

ECONOMIC DEVELOPMENT ADMINISTRATION

Final

Rathbun Regional Water System, several counties, Iowa, June 20: The proposed project is the initial phase of construction of the four-county Rathbun regional water system, which will ultimately service Monroe, Appanoose, Wayne, and Lucas Counties. The project provides for the construction of a 6 million gallon per day water treatment plant at Lake Rathbun, two 1 million gallon per day storage tanks and approximately 119 miles of water transmission lines. The project will stimulate economic activity by providing a dependable water supply to the Rathbun region (65 pages). Comments made by: EPA. (ELR Order No. 31032.) (NTIS Order No. EIS 73 1032–F.)

MARITIME ADMINISTRATION

Draft

Shore Facility for Oily Waste Treatment, York County, Va., June 15: Proposed is the leasing to the Virginia Port Authority of a surplus U.S. Navy complex, Cheatham Annex, for use as a facility for processing oily waste from ship's tanks, bilges, and ballast operations. The proposed project will increase traffic on the York River (60 pages). (ELR Order No. 30949.) (NTIS Order No. EIS 73 0949–D.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, attention: DAEN–PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202–693–7168.

Draft

Greens Ferry Lake, Ark., June 22: The statement refers to the continued operation and maintenance of the lake, for flood control, water resources, and hydroelectric power. Operational lake fluctuations have adverse effect upon shoreline vegetation and lake fishes (Little Rock District) (43 pages). (ELR Order No. 30104.) (NTIS Order No. EIS 73 1048–D.)

Alameda Creek flood control project, California, June 15: The statement refers to a proposed flood control project on Alameda Creek. Included is the construction of levees and channel works. Construction of the project will eliminate 250 acres of salt pond habitat; marshland habitat will be increased by 50 acres (80 pages). (ELR Order No. 31012.) (NTIS Order No. EIS 73 1012–D.)

Eagle Creek Lake, Grant County, Ky., June 20: Proposed is a multipurpose reservoir project, for flood control, recreation, and water supply, with a dam on mile 43.6 of Eagle Creek. A total of 10,785 acres will be converted to public use for the project; of that total 2,736 acres will be inundated by the summer pool. The water ecosystem will be converted from free-flowing stream to slack water lake. Total wildlife populations will probably decrease due to changes in habitat (65 pages). (ELR Order No. 31035.) (NTIS Order No. EIS 73 1035–D.)

Meramec Park Lake, Crawford, Washington, and Franklin Counties, Mo., June 14: The statement, a revised draft, refers to the construction of a dam and multipurpose reservoir project on the Meramec River. Approximately 12,400 acres which are currently devoted to agricultural production will be committed to the project. Of this, 9,300 acres will be permanently inundated along with 50 miles of clear, attractive streams with high quality canoeing characteristics. Eighty-six archeological sites will be inundated by the normal pool of the reservoir (two volumes). (ELR Order No. 30996.) (NTIS Order No. EIS 73 0996–D.)

Virginia Beach, Va., June 18: Proposed is the continued nourishment of 3.3 miles of Virginia Beach shoreline by hydraulic dredge and truck haul. Approximately 2 acres of marsh will be lost to the project; there is potential loss of several acres of beach habitat at Lynnhaven (Norfolk District) (20 pages). (ELR Order No. 31024.) (NTIS Order No. EIS 73 1024–D.)

Final

Sacramento River bank protection project, Calif., June 22: The statement refers to the construction of levees and erosion control works along 184 miles of the Sacramento River. The action would result in the loss of wildlife and natural riparian habitat of an unspecified amount (110 pages). Comments made by: EPA, DOI, USDA, HEW, OEO, DOC, and DOT. (ELR Order No. 31046.) (NTIS Order No. EIS 73 1046–F.)

Waikiki Beach, Supplement, Hawaii, June 21: The document supplements the final environmental impact statement filed May 10, 1973 (ELR Order No. 00792; NTIS Order No. EIS 73 0792F) for Beach Erosion Control Improvement on Waikiki Beach. Further consideration concerning the need to preserve the Waikiki Natatocium as a historic site is provided (16 pages). (ELR Order No. 31041.) (NTIS Order No. EIS 73 1041–F.)

Bulk Mail Center, Springfield, Hampden County, Mass., June 4: Proposed is the construction of a 345,000 ft² building for the processing of bulk mail. A total of 76 acres, 30 of it woodland, will be committed to the project. Traffic volume on adjoining streets will increase by 500 trucks and 1,700 cars per day (99 pages). Comments made by: DOI, EPA, HUD, HEW, OEO, DOT, and State and local agencies. (ELR Order No. 30947.) (NTIS Order No. EIS 73 0947–F.)

NAVY

Contact: Mr. Joseph A. Grimes, Jr., Special Civilian Assistant to the Secretary of the Navy, Washington, D.C. 20350, 202–697–0892.

Draft

Air Combat Maneuvering Range (ACMR), North Carolina, June 14: Proposed is the establishment of an ACMR, 25 miles square, between the altitudes 4,000 and 50,000 ft, over Pamlico Sound. Within the ACMR aircrews will engage each other in simulated combat. There will be adverse impact from noise and occasional sonic boom (52 pages). (ELR Order No. 30994.) (NTIS Order No. EIS 73 0994–D.)

Norfolk Naval Station, Va., June 15: Proposed is the improvement and addition of naval ship berthing spaces at the station. Approximately 1,850,000 yd³ of spoil will be dredged; several additional piers will be constructed. There will be adverse impact from dredging (17 pages). (ELR Order No. 30998.) (NTIS Order No. EIS 73 0998–D.)

Final

Pinecastle Electronic Warfare Complex, Marion, Lake, and Volusia Counties, Fla., June 20: The statement refers to the continued use of the 5,825-acre complex, which includes target facilities for air-to-ground warfare. A portion of the complex is located in the Ocala National Forest. Adverse environmental impact includes damage to timber and ground surfaces, noise and air pollution, fires, and limitations on nearby recreational development (144 pages). Comments made by: USDA, EPA, DOI, AHP, and COE. (ELR Order No. 31036.) (NTIS Order No. EIS 73 1036–F.)

FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Advisor on Environmental Quality, 441 G Street NW., Washington, D.C. 20426, 202–386–6084.

Final

Blue Ridge Project No. 2317, Virginia and North Carolina, June 20: The statement considers an application filed by the Appalachian Power Co., for a license to construct a combined conventional and pumped storage hydroelectric generating project in southwestern Virginia and northwestern North Carolina. The project would lie in Ashe and Alleghany Counties, N.C., and Grayson, Carroll, and Wythe Counties, Va. Power produced by it would be used by Appalachian, and other subsidiaries of the American Electric Power Co., to serve customers in Virginia, Indiana, Kentucky, Tennessee, Michigan, Ohio, and West Virginia (520 pages). Comments made by: AHP, USDA, USA, HEW, HUD, DOI, DOT, EPA, and ARC. (ELR Order No. 31037.) (NTIS Order No. EIS 73 1037–F.)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Rod Kreger, Acting Administrator, GSA–AD, Washington, D.C. 20405, 202–343–6077.

Draft

U.S. Courthouse, Orlando, Orange County, Fla., June 20: Proposed is the construction of a U.S. courthouse and Federal building, containing 182,492 gr.ft². The 6-floor building will house 26 agencies, the U.S. courts, and parking for 140 vehicles. There will be local construction disruption (23 pages). (ELR Order No. 31034.) (NTIS Order No. EIS 73 1034–D.)

Federal Building, Post Office, and Courthouse, Elkins, Randolph County, W. Va., June 21: Proposed is the construction of a 3-story Federal building, Post Office, and Courthouse having 51,816 gr. ft² and providing 87 parking spaces. Inconvenience associated with construction will occur during demolition of existing structures on the site and construction of the new facility (29 pages). (ELR Order No. 31042.) (NTIS Order No. EIS 73 1042–D.)

DEPARTMENT OF THE INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, room 7260, Department of the Interior, Washington, D.C. 20240, 202–343–3891.

BUREAU OF OUTDOOR RECREATION

Draft

Mann Road and White River, Marion County, Ind., June 22: The proposed action is the acquisition of 166.9 acres by the city of Indianapolis, with BOR assistance under the Land and Water Conservation Fund. The project land will be divided into three parcels, and developed as a motorcycle park, a community park, and a golf course. Development and use of the park will generate

traffic and may impact unfavorably upon nearby residents (58 pages). (ELR Order No. 31047.) (NTIS Order No. EIS 73 1047–D.)

Final

Little Blue River, Jackson County, Mo., June 22: The statement refers to the proposed acquisition by the Jackson County Park Department of 1,384 acres of land along a 25-mile segment of the Little Blue River, for public outdoor recreation purposes. The land will provide over 50 miles of trails and establish a Greenbelt area for the Kansas City Metropolitan area (106 pages). Comments made by: EPA, FPC, COE, DOT, and DOI. (ELR Order No. 31045.) (NTIS Order No. EIS 73 1045–F.)

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Final

National Fishery Research Center, La Crosse County, Wis., June 22: The statement refers to the relocation and expansion of the center on a 61-acre site on French Island. The center will do research, in laboratories and ponds, on chemical, biological, physical, and integrated controls for fish and sea lamprey. No significant and adverse effects are anticipated (approximately 150 pages). Comments made by: COE, EPA, HEW, HUD, and DOT. (ELR Order No. 31049.) (NTIS Order No. EIS 73 1049–F.)

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Contact: Mr. Ralph E. Cushman, Special Assistant, Office of Administration, NASA, Washington, D.C. 20546, 202–962–8107.

Draft

Mariner Jupiter/Saturn program, June 15: The statement refers to the continuation of a series of planetary and interplanetary space exploration missions using unmanned spacecraft. Launching will be by a Titan/Centaur rocket from Cape Kennedy, in 1977. Environmental effects may result from products of the launch rocket, and radioisotope generators on the spacecraft (22 pages). (ELR Order No. 30997.) (NTIS Order No. EIS 73 0997–D.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 Seventh Street SW., Washington, D.C. 20590, 202–426–4357.

Final

Pikeville open-cut project, Pike County, Ky., June 18: The proposed project is the relocation of Levisa Fork of the Big Sandy River at Pikeville, thereby rerouting the river and, concomitantly, the Chesapeake & Ohio Railroad and U.S. 23. The action is intended to preclude flooding of the city of Pikeville by the river, and to allow for the improvement of economic, social, civic, and environmental conditions. The project will be constructed with the cooperation of the U.S. Army Corps of Engineers, the Department of Housing and Urban Development, and the Appalachian Regional Commission. There will be construction disruption (124 pages). Comments made by: USDA, COE, EPA, DOI, and DOT. (ELR Order No. 31025.) (NTIS Order No. EIS 73 1025–F.)

FEDERAL HIGHWAY ADMINISTRATION

Draft

State Road 10A, Columbia County, Fla., June 18: Proposed is the upgrading of State Road 10A (Park Street and Baya Avenue) in Lake City, from a two-lane facility to a four-lane facility. Project length is 3.7 miles. Adverse effects of the action are increased noise levels; displacement of families and businesses; loss of street frontage for adjacent businesses due to right-of-way acquisition; and temporary reduction in water quality in adjacent lakes during construction (47 pages). (ELR Order No. 31020.) (NTIS Order No. EIS 73 1020–D.)

Clinton Parkway, Douglas County, Kans., June 18: The statement refers to the improvement of 4.1 miles of Clinton Parkway from Lake Clinton to Highway K–10 in the city of Lawrence. The proposed improvements will include grading, culverts, surfacing, storm sewers, seeding, and bridges to provide a four-lane divided facility. Adverse impacts are acquisition of additional right of way; loss of agricultural land; alteration of existing terrain; and increased noise levels and exhaust emissions due to increased traffic volumes (30 pages). (ELR Order No. 31023.) (NTIS Order No. EIS 73 1023–D.)

U.S. 119–Appalachian Corridor G 06/20, Kentucky and West Virginia: The statement refers to the proposed improvement of a segment of U.S. 119 in Pike County, Ky., and Mingo County, W. Va., within Appalachian Corridor G. The project will extend from the Harney Street bridge in South Williamson, Ky., to Route 14 near Goatman, W. Va., a distance of approximately 2.45 miles. Nine businesses, 83 families, and 1 nonprofit organization will be displaced. Coal seams of marketable value may be opened due to construction cuts (6 pages). (ELR Order No. 03103.) (NTIS Order No. EIS 73 1031–D.)

U.S. Highway No. 6, Douglas County, Nebr., June 5: The proposed project is the reconstruction of 4.1 miles of West Dodge Road (U.S. Highway No. 6) in Omaha. An unspecified amount of additional right-of-way will be required to incorporate a four-lane facility into the existing alignment. Two houses, two service stations, three motels, six mobile homes, two cafes, and a mobile home dealership will be displaced (23 pages). (ELR Order No. 30954.) (NTIS Order No. EIS 73 0954–D.)

Major Deegan Expressway, Bronx County, N.Y., June 14: Proposed is the reconstruction of the existing interchange between the Major Deegan Expressway, I–87, and Macombs Dam bridge. One or two of the existing ramps will be relocated, depending on the alternate selected. Length of the project is 0.9 mile (134 pages). (ELR Order No. 30995.) (NTIS Order No. EIS 73 0995–D.)

Final

Tutuila Perimeter Road, Vaifanua and Lealataua Counties, American Samoa, June 1: The four draft environmental impact statements (ELR Orders Nos. 5505–5508; NTIS Orders Nos. EIS 73 5505D–5508–D) filed October 20, 1972, for the Aoa-Onenoa-Tula corridor and the Poloa-Fagamalo-Aoloaufou corridor are combined into a single final impact statement because of the similarity of the affected villages and their surrounding terrain. The project proposes construction of a two-lane paved road to provide access to the isolated villages; no road presently exists. Introduction of vehicular traffic, alternation of the tranquility of the villages and modifications to local customs will occur (111 pages). Comments made by: COE, DOI, DOT, and one agency of the Government of Samoa. (ELR Order No. 30942.) (NTIS Order No. EIS 73 0942–F.)

Oregon Forest Highway 7 (SR. No. 36), Lane County, Oreg., June 21: The statement refers to the proposed reconstruction of 4.8 miles of Oregon Forest Highway 7, State Highway 36, including a new bridge crossing of the Siuslaw River. Adverse impacts of the project include increased water pollution to the Siuslaw River due to increased runoff; increased noise and air pollution; loss of 35 acres of land; displacement of several families and loss of wildlife habitat (58 pages). Comments made by: State agencies. (ELR Order No. 31040.) (NTIS Order No. EIS 73 1040–F.)

TIMOTHY ATKESON,
General Counsel.

ENVIRONMENTAL PROTECTION AGENCY

U.S. BORAX RESEARCH CORP.

Filing of Petition Regarding Pesticide Chemical

Correction

In FR Doc. 73–12839 appearing on page 16797 of the issue for Tuesday, June 26, 1973, in the title of the method cited in the second paragraph, "Dinitremine Residues" should read "Dinitramine Residues".

RESIDUAL INSECTICIDES IN FOOD ESTABLISHMENTS

Statement of Policy

Registrations are currently in effect for certain residual insecticides for use in food processing plants, restaurants, and other areas where food is commercially prepared, processed, or served. Considerable confusion has developed recently over the Agency's current policy relative to the permissible use of such products. The purpose of this notice is to clarify the existing policy and inform interested parties of our contemplated actions.

In February of 1972, the Hazardous Materials Advisory Committee of this Agency made the following recommendation:

Representative residue data should be obtained for food exposed in areas treated with insecticides, either in response to food additive petitions or upon the initiative of the Pesticides Regulation Division. Food additive regulations (Food, Drug, and Cosmetic Act, section 409) are needed in order to prescribe the safe conditions of use of pesticides in food handling establishments. Such residue data are needed to meet legal requirements and to ensure that dietary intake does not exceed that stipulated by existing food additive tolerances.

This Agency intends to follow this recommendation by requiring food additive petitions with appropriate residue studies. In the short term, the Agency intends to continue to explore with trade associations, other governmental agencies and interested parties, ways of coordinating the development of required studies. Pending the completion of such studies to support food additive regulations, presently registered products may legally be used in accordance with directions and cautions appearing on their labels.

We will also at an early date publish a notice defining certain terms used in connection with precautions and sites of use in food handling establishments. It is our intention that these specific definitions of sites of applications currently being developed will permit expanded use of these pest control tools

while at the same time providing maximum protection against contamination of food.

Dated: June 28, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

TOXAPHENE

Notice of Renewal of Temporary Tolerances

In response to a request from North Dakota State University, Fargo, ND 58102, temporary tolerances of 7 parts per million were established June 21, 1972 for residues of the insecticide toxaphene (chlorinated camphene containing 67–69 percent chlorine) in or on sugar beets and sunflower seeds (notice was published in the FEDERAL REGISTER of July 18, 1972 (37 FR 14253)). The tolerances expired December 31, 1972. North Dakota State University, South Dakota State University, Brookings, SD 57006 and the Minnesota Department of Agriculture, St. Paul, MN 55101 have requested renewal of these temporary tolerances.

It has been determined that temporary tolerances of 7 parts per million for residues of the insecticide in or on sugar beets and sunflower seeds will protect the public health. These temporary tolerances are renewed on condition that the insecticide will be used in accordance with the temporary permits which are being issued concurrently.

These temporary tolerances expire October 31, 1973.

This action is being taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038).

Dated June 29, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

FEDERAL POWER COMMISSION

[Docket No. G-12101, etc.]

NATURAL GAS SALES

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

JUNE 25, 1973.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before July 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

PUBLIC UTILITIES; MULTIPLE DIRECTORSHIPS

Applications

JUNE 27, 1973.

Take notice that the following applications were filed on the stated dates, pursuant to section 305(b) of the Federal Power Act, for authority to hold the position of officer or director of more than one public utility, or the position of officer or director of a public utility and officer or director of a firm authorized to market utility securities, or the position of officer or director of a public utility and officer or director of a company supplying electric equipment to such public utility.

Any person desiring to be heard or to make any protest with reference to said applications should on or before July 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. RI73-311]

CONTINENTAL OIL CO.

Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject to Refund

JUNE 27, 1973.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders. (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

APPENDIX A

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf*		Rate in effect subject to refund in docket No.
									Rate in effect	Proposed increased rate	
RI73-311	Continental Oil Co.	335	1	Pacific Lighting Service Co. (Federal Lease No. OCS-P-0166, Offshore Santa Barbara County, California).	$2,000	5-29-73		6-30-73	[1] 27.0	27.5	

*Unless otherwise stated, the pressure base is 14.73 p.s.i.a.

[1] Initial service rate which is subject to refund, without a refund floor, pursuant to conditioned temporary certificate issued Apr. 22, 1968 in Docket No. CI68-951.

Continental Oil Company proposes a periodic increase from 27.0¢ to 27.5¢ @ 14.73 psia for a sale of casinghead gas to Pacific Lighting Service Company from Offshore Santa Barbara County, California. The current 27.0¢ initial rate is subject to refund, without a refund floor, pursuant to a conditioned temporary certificate issued April 22, 1968, in Docket No. CI68-951.

Since the just and reasonable rate has not been determined nor a guideline ceiling established for the subject area, we believe it appropriate to suspend the instant filings for one day from the contractual effective date.

The rate increase granted in this case has been reviewed in the light of and is consistent with the Economic Stabilization Act of 1970, as amended, Executive Order No. 11695, and the rules and regulations issued thereunder.

[FR Doc.73-13583 Filed 7-5-73;8:45 am]

[Docket No. CI73-877]

BLAINE DUNBAR

Notice of Application

JUNE 27, 1973.

Take notice that on June 11, 1973, Blaine Dunbar (Applicant), 212 Longview National Bank Building, Longview, Texas 75601, filed in Docket No. CI73-877 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Company from the Willow Springs Field, Gregg County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that he has commenced the sale of natural gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell up to 1,000 Mcf of gas per day at 35.0 cents per Mcf at 14.65 psia. Applicant estimates the monthly sales volume of gas will total 10,000 Mcf.

It appears reasonable and consistent with the public interest in this case to

prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13757 Filed 7-5-73;8:45 am]

[Docket No. CP73-310]

TEXAS EASTERN TRANSMISSION CORP.

Petition To Amend Petition for Emergency Relief

JUNE 28, 1973.

Public notice is hereby given that a petition to amend a "Petition For Emergency Relief" was filed on June 13, 1973, by the Town of Smyrna, Tennessee (Smyrna) pursuant to § 1.7 of the Commission's rules of practice and procedure.

On April 27, 1973, Smyrna filed with the Commission a Petition for Emergency Relief requesting that its annual allotment of gas from its sole supplier, Texas Eastern Transmission Corporation (TETCO) be increased by at least 20,307 Mcf to 177,135 Mcf for the 12 month period ending August 31, 1973. Smyrna states that since May 19, 1973, it has been purchasing gas in excess of its annual allotment by paying a penalty charge of $3.00/Mcf.

Smyrna now claims that it needs more than the additional 20,307 Mcf it requested on April 27, 1973. Basing its latest estimate on actual use figures for March, April and May of this year, Smyrna now requests the Commission to grant it an increase of 35,000 Mcf above its present annual allotment.

Any person desiring to be heard or to make protest with reference to said petition should on or before July 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The petition is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 73-52]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL COMMITTEE ON AERONAUTICS

Notice of Meeting

The NASA Research and Technology Advisory Council, Committee on Aeronautics will meet on July 25, 26, and 27, 1973 at the NASA Langley Research Center, Hampton, Virginia, 23665. The meeting will be held in Conference Room 225 of Building 1219. Members of the public will be admitted to the meeting beginning at 9:00 a.m. on the agenda below, except for the closed sessions as described herein, on a first come, first served basis up to the seating capacity of the room which is about 40 persons. All visitors must report to the Langley Research Center Receptionist in Building 1219.

The NASA Research and Technology Advisory Council, Committee on Aeronautics serves in an advisory capacity only. In this capacity, the Committee is concerned with aerodynamics and aircraft vehicle systems. The current Chairman is Mr. E. S. Carter. There are 12 members. The following list sets forth the approved agenda and schedule for the July 25, 26, and 27, 1973 meeting of the Committee on Aeronautics. For further information, please contact Mr. J. Lloyd Jones, Area Code 202, 755-2397.

JULY 25, 1973

Time	*Topic*
9:00 a.m.----	Report of the Chairman (Purpose: To discuss action taken at the March 22-23, 1973 meeting of the Council.)

JULY 25, 1973—Continued

Time	*Topic*
9:30 a.m.----	Report of the Executive Secretary (Purpose: To review NASA reaction to Committee recommendations made at the previous, March 14-16, 1973 meeting.)
10:00 a.m.---	NASA Aeronautics Program Overview (Purpose: To provide the members with a better understanding of the complete NASA aeronautics research program, including areas for which the Committee on Aeronautics is not directly responsible.)
11:30 a.m.---	Review of NASA Active Controls Technology Program (Purpose: To familiarize the Committee with the Active Controls Program initiated in FY 1972 and obtain Committee comments on the program.)
12:00 p.m.---	Review of Activities of the RTAC Joint Ad Hoc Panel on Aerospace Vehicle Dynamics and Control (Purpose: To provide the Panel with Committee comments on the draft of the Panel's final report.)
12:30 p.m.---	Lunch
1:30 p.m.----	Tour of Differential Maneuvering Simulator Facility (Purpose: To familiarize the Committee with the operation of the DMS, currently being used in the vectoring-in-forward flight for improved maneuverability program.)
2:00 p.m.----	NASA comments on Tunnel-Wall Interference Effects (Purpose: To respond to previously expressed concern regarding wall effects on the reliability of two-dimensional airfoil data, and to describe results on wall effects on three-dimensional flutter boundary measurements.)
2:30 p.m.----	NASA Long-Range Plan for Flight Simulation Technology Development (Purpose: To obtain Committee comments on tentative NASA plans to develop an aircraft simulation technology program.)
3:30 p.m.----	Executive Session (Closed to the Public) (Purpose: To develop Committee comments and recommendations on the subjects discussed at the first day's session. Classified information related to military applications and requirements for aircraft motion simulator is included in the subject material. Preliminary projected future year distribtion of effort and related budget limitations will be presented.)

JULY 26, 1973

8:30 a.m.----	Summary of Liquid-Hydrogen-Fuel Aircraft Symposium (Purpose: To inform the Committee of the primary content of the symposium held at the Langley Research Center on May 15-16, 1973.)

JULY 26, 1973—Continued

Time	Topic
9:30 a.m.	NASA Airframe/Propulsion System Integration Program (Purpose: To obtain Committee comments on present plans to expand the program, aiding in the formulation of it.)
10:30 a.m.	Summary of NASA Basic Aerodynamic Research Program (Purpose: To provide an overview of the complete basic aerodynamics program, augmenting previous more-detailed descriptions of some of the elements, as a basis for Committee recommendations.)
12:30 p.m.	Lunch
1:30 p.m.	Tour of Two-Dimensional Test Facilities (Purpose: To acquaint the Committee with the operation of new two-dimensional wind tunnels at Langley, requested at previous meetings.)
2:30 p.m.	High-Performance Military V/STOL Aircraft Studies (Purpose: To inform the Committee of NASA research programs related to development of high performance military V/STOL aircraft, augmenting previous presentations on STOL and VTOL transport and rotorcraft research activity.)
3:30 p.m.	Executive Session (Closed to the Public) (Purpose: To develop final Committee comments and recommendations pertaining to the scope and focus of the technical programs reviewed earlier as well as the importance of the results. Classified information related to military airframe/propulsion system integration problems and Navy V/STOL aircraft requirements is involved as well as information of a proprietary nature offered in confidence. Preliminary projected future year distribution of effort and related budget limitations will be presented.)

JULY 27, 1973

Time	Topic
8:30 a.m.	Continuation of Executive Session (Closed to the Public) (Purpose: To complete the discussion initiated the previous day involving classified information and future funding level considerations.)
12:00 p.m.	Adjournment.

HOMER E. NEWELL,
Associate Administrator, National Aeronautics and Space Administration.

JUNE 28, 1973.

[FR Doc.73-13702 Filed 7-5-73;8:45 am]

[Notice 73-53]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL, COMMITTEE ON RESEARCH

Notice of Meeting

The Committee on Research of the NASA Research and Technology Advisory Council will meet on July 12 and 13, 1973, at the Headquarters of the National Aeronautics and Space Administration, Washington, DC, 20546. The meeting will be held in Room 625 in Federal Office Building 10B, 600 Independence Avenue, SW, Washington, DC, 20546. Members of the public will be admitted to the meeting on July 12, 1973, beginning at 8:30 A.M. on a first-come first-served basis up to the seating of the room which is approximately 40 persons. The portion of the meeting on July 13, 1973, from 8:30 A.M.–12:00 Noon is closed to the public due to the discussion of classified information.

The NASA Research and Technology Advisory Council, Committee on Research serves in an advisory capacity only. In this capacity, the Committee is concerned with program goals, trends, content, scope and technical balance for basic research in the physical, mathematical and life sciences as related to aeronautics and space missions. The current Chairman is Professor Abraham Hertzberg. There are 13 members. The following list sets forth the approved agenda and schedule for the July 12 and 13, 1973, meeting of the Research Committee. For further information, please contact Mr. F. C. Schwenk: Area code 202, 755-2488.

JULY 12, 1973

Time	Topic
8:30 a.m.–5:15 p.m.	Technical Presentations and Discussion "NASA Research and Technology Program on High Power Lasers" (Purpose: To assess the quality and adequacy of the current research and technology programs in NASA relative to the potential utility of high power lasers in future space missions.) The following presentations will be made by speakers from NASA's Ames, Langley and Lewis Research Centers, and from the Jet Propulsion Laboratory: 1. Program Overview—Goals, Contents, and Plans 2. Laser System Technology a. Studies and Requirements b. Pilot Laser Power System 3. Laser Device Research a. Metal-Vapor Lasers b. Electrogasdynamic Lasers c. Charge-Exchange Lasers d. Advanced Laser Concepts 4. Laser Energy Conversion a. General Concepts b. Point-Contact Diodes c. Photovoltaic d. Laser-plasma-dynamic 5. Laser Atmospheric Propagation a. Detailed Spectrometry b. Linear Propagation

JULY 13, 1973

Time	Topic
8:30 a.m.–12:00 Noon.	*Member Reports and Discussion* (Purpose: To review and discuss information provided by industry and university members as it pertains to an evaluation of current and future NASA programs.) (Closed session to discuss funding, industry proprietary information, and classified data. Classified and proprietary information on lasers must be considered in the evaluation of NASA programs in the interest of avoiding unnecessary duplication and assuring that NASA's laser research and technology programs properly take into account the needs of classified military applications of high power lasers.)

June 28, 1973.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

BBI, INC.

Order Suspending Trading

JUNE 29, 1973.

The common stock, $0.10 par value, of BBI, Inc. being traded on the American Stock Exchange and the PBW Stock Exchange, pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of BBI, Inc. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to sections 19(a)(4) and 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchanges and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from July 3, 1973, through July 12, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

[812-3470]

BLC GROWTH FUND, INC. ET AL.

Notice of Application for Exemption

Notice is hereby given that BLC Growth Fund, Inc., BLC Income Fund, Inc. and BLC Fund, Inc. ("Funds"), 711 High Street, Des Moines, Iowa 50307, diversified open-end management investment companies registered under the Investment Company Act of 1940 ("Act"), and BLC Equity Services Corporation ("BLESCO"), the principal underwriter for two of the Funds (collectively referred to herein as "Applicants"), have filed an application for an order of the Commission pursuant to section 6(c) of the Act declaring that Herschel G. Langdon, a director of each of the Funds, shall not be deemed an "interested person" of the Funds or of BLESCO within the meaning of section 2(a)(19) of the Act solely by reason of his status as a director of AID Insurance Company (Mutual) ("AID Insurance") and of Allied Life Insurance Company ("Allied"). All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

The Funds are Delaware corporations organized in 1969 under the sponsorship of Bankers Life Company ("Bankers"), an Iowa mutual life insurance company. BLESCO, a wholly-owned subsidiary of Bankers, is the principal underwriter for BLC Growth Fund, Inc. and BLC Income Fund, Inc. BLESCO is a broker-dealer registered under the Securities Exchange Act of 1934 ("1934 Act") and is a member of the National Association of Securities Dealers, Inc. ("NASD"). BLESCO also acts as principal underwriter of certain variable annuity contracts issued by Bankers and as a retail distributor of other investment company securities. BLC Equity Management Company ("BLEMCO"), a wholly-owned subsidiary of BLESCO, is the investment adviser of each of the Funds.

Herschel G. Langdon is a director of each of the Funds. Since the applicable effective date of the Investment Company Amendments Act of 1970, he has not been viewed as an interested person of the Funds or of BLESCO or BLEMCO. Mr. Langdon is also a director of AID Insurance and of its wholly-owned subsidiary Allied. AID Insurance, formerly Allied Mutual Insurance Company, is an Iowa corporation engaged in the business of selling property and casualty insurance. AID Insurance owns all of the outstanding stock of AID Investment Services Company ("AID Investment"), a broker-dealer registered under the 1934 Act and a member of the NASD. AID Insurance also owns all of the outstanding stock of Allied, an Iowa life insurance company, which in turn owns indirectly all of the outstanding stock of United Financial Corporation ("United"), also a registered broker-dealer and member of the NASD. In addition, Allied owns all of the outstanding stock of a company which acts as the investment adviser to AID Investment Fund, Inc., a no-load open-end management investment company registered under the Act. Allied owns as of March 1, 1973 approximately 58 percent of that fund's outstanding shares, and for purposes of the application, such fund is considered to be an indirect subsidiary of AID Insurance.

Shares in BLC Growth Fund, Inc. and BLC Income Fund, Inc. are offered for sale pursuant to principal underwriting contracts with BLESCO, while BLC Fund Inc., a no-load fund whose shares may be sold only to a limited class of persons, has no principal underwriter. Pursuant to section 10(b) of the Act, as here pertinent, BLC Growth Fund, Inc. and BLC Income Fund, Inc. may not use BLESCO as a principal underwriter unless a majority of the Funds' directors are persons who are not "interested persons" of BLESCO, within the meaning of section 2(a)(19) of the Act. The board of directors of each of the Funds currently consists of seven persons, three of whom are presently considered to be interested persons of BLESCO, BLEMCO, or both, and, therefore, of the Funds. Consequently, if Mr. Langdon were adjudged to be an interested person of BLESCO, changes in the boards of BLC Growth Fund, Inc., and BLC Income Fund, Inc., would be required in order for BLESCO to continue to serve as the principal underwriter for the two Funds.

Section 2(a)(19)(B)(v), with respect to an interested person of a principal underwriter to an investment company, and section 2(a)(19)(A)(iii), with respect to an interested person of an investment company, define an "interested person" to include "any broker or dealer registered under the Securities Exchange Act of 1934 or any affiliated person of such a broker or dealer."

Although Mr. Langdon is not a registered broker-dealer or a direct affiliate of a registered broker-dealer, he is a director and an affiliated person of AID Insurance and of its wholly-owned subsidiary Allied, each of which companys is an affiliated person of two broker-dealers registered under the 1934 Act, i.e., AID Investment and United Financial Corporation.

The application states that since affiliation with the parent company of another entity is viewed as affiliation with such other entity, Langdon would be considered an affiliated person of AID Investment and United and consequently an "interested person" of BLESCO, BLEMCO and the Funds within the meaning of section 2(a)(19) of the Act.

Applicants state that Mr. Langdon is one of fifteen members of the board of directors of AID Insurance and one of fifteen members of the board of Allied and that as a member of the board of each of these companies, he shares in the general responsibility of the directors for the management of such companies, but in no way participates in the day-to-day operations of either company. Mr. Langdon serves as a member of the separate investment committee of each company and he is a director and stockholder of AID Investment Fund, Inc. Applicants represent that Mr. Langdon is not a director or officer of AID Investment or United and that he in no way participates in the day-to-day operations of United. Applicants represent further that AID Investment has never engaged in any business and is inactive, and that since July 1, 1971, the date of its affiliation with Allied, United has had no business activity other than serving without compensation as principal underwriter for AID Investment Fund, Inc.

The application alleges that Mr. Langdon's principal occupation has been as a practising attorney with the law firm of Herrick, Langdon, Belin & Harris in Des Moines, Iowa, of which he is a partner. Applicants state that Mr. Langdon has no relationship with any of the Funds other than through his position as director of each and as a shareholder of BLC Growth Fund, Inc. and BLC Income Fund, Inc. and that neither AID Insurance, Allied nor any of their subsidiaries has ever engaged in any securities transactions with or on behalf of the Funds. In order to ensure that the Funds will not knowingly engage in securities transactions with AID Insurance, Allied or any of their subsidiaries, each Fund represents and warrants to the Commission that, so long as Mr. Langdon remains one of its directors, it will not knowingly purchase any securities from or through, or sell any securities to or through, AID Insurance, Allied or any of their subsidiaries.

Applicants also state that Mr. Langdon has no material relationship with BLESCO or with BLEMCO or Bankers through his position as a director of AID Insurance or of Allied, that neither AID Insurance, Allied nor any of their subsidiaries has ever engaged in any securities transactions with or on behalf of BLESCO, BLEMCO or Bankers, and that BLESCO has never engaged in any transactions with AID Insurance, Allied or their subsidiaries. Furthermore, BLESCO represents and warrants that so long as Mr. Langdon remains a director of any of the Funds, it will not knowingly purchase any securities from, for or through, or sell any securities to, for or through, AID Insurance, Allied, or any of their subsidiaries.

Applicants believe that Mr. Langdon has been and is in fact an independent director of the Funds and that his relationship with the Funds is in no way altered by his being a director of AID Insurance or Allied. Applicants state that they have no doubt that Mr. Langdon will be able to discharge his duties as director of each of the Funds free from any conflicts of interest and that he will exercise the impartial judgment on behalf of each of the Funds and their shareholders which is expected of an independent director.

Section 6(c) of the Act provides that the Commission may, by order upon application, conditionally or unconditionally exempt any person from any provision or provisions of the Act or of any rule or regulation thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than July 26, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.73-13674 Filed 7-5-73;8:45 am]

[812-3465]

NEW AMERICA FUND, INC.

Notice of Filing of Application for an Order Exempting Proposed Transaction

Notice is hereby given that New America Fund, Inc. ("Applicant"), 1900 Avenue of the Stars, Los Angeles, California 90067, a close-end diversified management investment company registered under the Investment Company Act of 1940 (the "Act"), has filed an application pursuant to section 17(b) of the Act for an order of the Commission exempting from section 17(a) the sale of 152,548 shares of Common Stock of American Protection Industries, Inc. ("API"), a Delaware corporation, to Stewart A. Resnick ("Resnick") pursuant to an Agreement between API and Applicant dated March 6, 1973. All interested persons are referred to the Application on file with the Commission for a statement of the representations contained therein which are summarized below.

Applicant owns 10.5 percent or 152,548 shares of the Common Stock of API (the "Shares") and Resnick owns 42.7 percent or 623,235 Shares. Under section 2(a)(3) of the Act, Applicant and Resnick are affiliated persons of API. Therefore, Resnick is an affiliated person of an affiliated person of Applicant. Section 17(a) of the Act provides in pertinent part that it is unlawful for any affiliated person of a registered investment company, or an affiliated person of such person, knowingly to purchase from or sell to such investment company any securities unless an exemption be granted pursuant to section 17(b) of the Act. Section 17(b) of the Act provides that the Commission may grant an exemption from section 17(a) if (1) the terms of the proposed transaction, including the consideration to be paid or received are reasonable and fair and do not involve overreaching on the part of any person concerned; (2) the proposed transaction is consistent with the policy of the registered investment company as recited in its registration statement and reports filed under the Act; and (3) the proposed transaction is consistent with the general purpose of the Act.

Applicant represents that it purchased the Shares on April 26, 1971, from Haven Industries, Inc. ("Haven") in a transaction which did not involve an issuer, underwriter or dealer and was therefore exempt under Section 4 of the Securities Act of 1933, as amended. In connection with the purchase of the stock, an Agreement was executed pursuant to which Applicant was given certain registration rights. Applicant's Board of Directors concluded that it was in its best interest to dispose of the Shares through a private placement to Resnick at a price of $1.40 per share rather than exercise its registration rights and dispose of the Shares in a public offering on the open market. Several factors were considered by Applicant's Board of Directors in making this decision including the fact that the market value of API stock had declined steadily since January, 1973, and it was felt that a disposition of Applicant's block on the open market might cause a further decline in price. Another factor also considered was the fact that it would take several months before a registration statement would be declared effective and that during such period the market price of API stock might decline further.

At the Applicant's annual meeting of stockholders held December 16, 1971, the stockholders of Applicant voted to change Applicant's principal investment objective and policy from that of investing in restricted securities to investing in marketable securities. Applicant is now authorized to invest up to 100 percent of its total assets in marketable securities, and Applicant is currently in the process of disposing of its investments in restricted securities including the Shares.

In accordance with the March 6, 1973 Agreement between Applicant and Resnick, Resnick has agreed to purchase the Shares from Applicant at a price of $1.40 per share or a total of $213,567.20. The bid and asked price of the Shares on that date was $1⅝–$2.00 per share. Applicant expects to receive an aggregate of $213,567.20 from Resnick for the Shares.

The application states that based upon the material furnished Applicant prior to March 6, 1973, and the 10–K Report and its independent knowledge of API, it determined to be in its best interest to sell the API stock. The price of $1.40 per share was approximately $.25 to $.60 below the bid and asked price for the stock on the date of the Agreement, such difference in price being deemed reasonable in view of the fact that the securities being sold were restricted. The Board of Directors of Applicant considered such price to be fair and reasonable.

Notice is further given that any interested person may, not later than July 26, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter, accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address set forth above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act an order disposing of the Application herein may be issued by the Commission upon the basis of the information stated in said Application, unless an order for hearing upon said Application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division

of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.73-13673 Filed 7-5-73;8:45 am]

[Release No. 34-10245]

NEW YORK STOCK EXCHANGE

Notice of Change in Date of Commission Rate Hearing, and Other Matters

The Securities and Exchange Commission announced on June 27, 1973, that it has postponed from July 9 until July 16, 1973 its public investigatory hearing, ordered pursuant to section 21(a) of the Securities Exchange Act of 1934. The hearing is to consider whether any changes should be made in the rules, policies, practices and procedures of one or more registered national securities exchanges respecting commission rate schedules. (See 38 FR 16115, June 20, 1973). The hearing will convene at 10 a.m. Monday, July 16, 1973 at the Commission's headquarters, 500 North Capitol Street, NW., Washington, D.C.

The Commission also announced that on June 22, 1973 it received a letter from the New York Stock Exchange, Inc. withdrawing that part of the Exchange's May 25, 1973 commission rate increase proposal which would have permitted member firms to negotiate separate charges for other services rendered, such as custodial fees. Therefore, this proposal will not be considered during the public hearing.

Subsequent to the Commission's June 6, 1973 release announcing the hearing, the NYSE Board of Directors considered a proposal to re-establish fixed commission rates on orders above $300,000. In a letter received June 22, 1973, the Exchange advised the Commission that it has determined not to submit that proposal to the Commission. This proposal will not, therefore, be considered during the public hearing.

On June 4, 1973, the Commission received from the PBW Stock Exchange, Inc. a proposal to provide, on the execution within 14 days of both a purchase and a sale (or a sale and a purchase) for one account in the same security, a 50 percent reduction in the non-member and intra-member commissions on the subsequent transaction. A copy of the rule proposal is attached. The Commission believes that since the proposal would be a significant change in the commission rate structure of any exchange adopting it, consideration of this proposal during the public hearing on commission rates would be in the public interest. Therefore, the Commission has invited representatives of the PBW Stock Exchange, Inc. to appear and present testimony and relevant data regarding their proposal and invites all other interested persons to submit their views.

Persons who wish to appear and present factual material at the hearing are invited to notify the hearing officer (William E. Toomey, Room 632, Securities and Exchange Commission, 500 North Capitol Street, NW., Washington, D.C., 20549, whose telephone number is (202) 755-1240) of that desire as soon as possible and not later than July 16, 1973.

Witnesses will be expected to file with the hearing officer 25 copies of their prepared statements 48 hours prior to their appearance and are invited to make available additional copies at the time of their appearance for the benefit of the press and other interested persons. Other interested persons may wish to transmit written submissions for inclusion in the record in lieu of personally appearing. They should file 25 copies thereof to facilitate examination of the record by all interested persons. Such material should be submitted not later than July 30, 1973. All other communications should be filed in triplicate.

(Sec. 21(a); 48 Stat. 899; 15 U.S.C. 78u(a))

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

Under Article XX, Section 2(a), a new number (5) is added to the Constitution.

On the execution, within 14 calendar days, or a time period which may be established from time to time by the Board, of both a purchase and a sale or a sale and purchase for one account in the same security, the minimum commission for the subsequent transaction shall be 50%, or another percentage which may be established from time to time by the Board, of the commission set forth in the above paragraphs (1)(2)(3) & (4) provided that the customer identifies the subsequent transaction.

Under Article XX, Section 2(c), a new number (4) is added to the Constitution.

In utilizing a floor broker, for subsequent transactions as described in Article XX, Section 2(a)(5), the floor brokerage charged for that specific transaction shall not be less than 50% of the regular intra-member rate.

INTERSTATE COMMERCE COMMISSION

[Special Permission 73-4700, Amdt. 2]

INCREASED RATES AND CHARGES

Exemption From Filing Requirement

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 29th day of June, 1973.

Depart from tariff filing requirements to amend tariff of increased rates and charges X-295.

By special permission application No. 220, filed by Western Trunk Line Committee, Agent, for and on behalf of carriers parties to tariff X-295, authority is sought to amend said tariff effective July 29, 1973, on statutory notice, transmitting copies of the amendment via first class mail to parties of record simultaneously with official filing with the Interstate Commerce Commission, in lieu of transmitting copies to such parties seven days in advance of official filing, or in the alternative, effective July 29, 1973, upon 20 days' notice on condition that copies of the amendment will be transmitted to parties of record via first class

mail seven days prior to official filing with the Commission, by changing paragraph (j) under "General Exceptions" on Page 6 to read "Rates applicable from, to or via points on the Long Island Rail Road," instead of wording now shown, as set forth in the application. A full investigation of the matters and things involved in the application having been made, which application is hereby referred to and made a part hereof:

It appearing, that, the proposed change in wording would result in the application of increases between stations on the Long Island Rail Road, as intended by that carrier, and which the Commission authorized the filing thereof in Ex Parte 295, by order dated June 11, 1973;

And it further appearing, that good cause has been shown for permitting amendment of the tariff as proposed, conditioned, however, upon notification to the parties as hereinafter provided;

It is ordered, That, special permission No. 73-4700, be, and it is hereby, further amended, to permit publication of the proposed change upon not less than 30 days' notice, effective July 29, 1973, subject to the condition that a copy of the tariff amendment filed hereunder shall be mailed to each of the parties of record by first class mail not later than the date filed with the Commission, and upon further condition that each of the parties of record shall also be notified of the details of the change by telegram not later than the date the amendment is filed with the Commission.

And it is further ordered, That, notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C. and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 2.

[SEAL] ROBERT L. OSWALD, *Secretary.*

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before July 26, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73896. By order of June 26, 1973, the Motor Carrier Board approved the transfer to Vermont Commercial Warehousing, Inc., Essex Junction, Vt., of the operating rights in Permit No. MC-124686 (Sub-No. 1) issued March 3, 1971, to Harold Miller, doing business as Miller's Trucking, Burlington, Vt., authorizing the transportation of such commodities as are dealt in by wholesale hardware stores, from Burlington, Vt., to points in Clinton, Essex, Franklin, and St. Lawrence Counties, N.Y., and Grafton and Sullivan Counties, N.H. The operations authorized herein are limited to a transportation service to be performed under a contract with Vermont Hardware Co., Inc. Edwain H. Amidon, Jr., 253 South Union Street, Burlington, Vt. 05401. Attorney for applicants.

No. MC-FC-74465. By order of June 26, 1973, the Motor Carrier Board approved the transfer to Vann Transfer & Storage Co., Inc., Orlando, Fla., of the operating rights in Certificate No. MC-129284 issued April 16, 1970, to Orange Transfer & Storage, Inc., Orlando, Fla., authorizing the transportation of used household goods, between points in Citrus, Hernando, Lake, Orange, Sumter, Alachua Bradford, Clay, Dixie, Flagler, Gilchrist, Levy, Marion, Putnam, Seminole, St. Johns, and Volusia Counties, Fla. Subject to restrictions. Gregory A. Presnell, P.O. Box 231, 17th Floor, CNA Building, Orlando, Fla. 32802. Attorney for applicants.

No. MC-FC-74525. By order entered June 26, 1973, the Motor Carrier Board approved the transfer to Thompson Trucking Service, Inc., Pennsauken, N.J., of the operating rights set forth in Permit No. MC-134010, issued August 7, 1970, to Benjamin J. Thompson, Jr. and Marlyn M. Thompson, doing business as Thompson Trucking Service, Pennsauken, N.J., authorizing the transportation of iron and steel articles, between Philadelphia, Pa. and Camden, N.J., on the one hand and, on the other, specified points and places in New York and Pennsylvania; and from Philadelphia, Pa., and Camden, N.J., to points in Delaware and points in a specified area in Maryland, restricted to a transportation service to be performed under a continuing contract, or contracts with Concrete Steel Co., of New York, N.Y., and Thomas Howard Doolan, Inc., of Philadelphia, Pa. Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, Pa. 19102, attorney for applicants.

[Notice 52]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

JUNE 29, 1973.

The following applications (except as otherwise specifically noted, each applicant, (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington D.C. 20423.

No. MC 5470 (Sub-No. 74) filed May 23, 1973 Applicant: TAJON, INC. R.D. #5, Box 146 Mercer, Pa. 16137 Applicant's representative: Donald E. Cross 918 16th St., N.W., Suite 700 Washington, D.C. 20006 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Alloys and ores*, in dump vehicles, from Beverly, Ohio, to points in Indiana, Illinois, Delaware, New Jersey, New York, Pennsylvania, and West Virginia; and (2) *materials and supplies* used in the manufacture of alloys and ores, in dump vehicles, from points in the above-named states to Beverly, Ohio. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no *present* intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa., or Washington, D.C.

No. MC 5470 (Sub-No. 76) filed May 25, 1973. Applicant: TAJON, INC. R.D. #5 Mercer, Pa. 16137 Applicant's representative: Donald E. Cross 918—16th St., N.W., Suite 700 Washington, D.C. 20006 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Carbon scrap*, from Niagara Falls, N.Y., to points in Illinois, Indiana and Michigan. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa., or Washington, D.C.

No. MC 8973 (Sub-No. 31) (CORRECTION) filed May 7, 1973, published in FR issue of June 21, 1973, and republished as corrected this issue. Applicant: METROPOLITAN TRUCKING, INC. 2424 95th Street North Bergen, N.J. 07047. Applicant's representative: George A. Olsen 69 Tonnele Avenue Jersey City, N.J. 07036 Note: The purpose of this republication is to show the correct docket number as shown above, in lieu of No. MC 8943 (Sub-No. 31) which was in error. The rest of the notice remains as previously published.

No. MC 22732 (Sub-No. 9) filed May 21, 1973. Applicant: MILBURN, INC. 1803 7th Avenue North Escanaba, Mich. 49829. Applicant's representative: Carl L. Steiner 39 South La Salle Street Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of French & Hecht at Walcott, Iowa as an off-route point in connection with applicant's regular-route operations to and from Davenport, Iowa. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa.

No. MC 30160 (Sub-No. 5) filed May 11, 1973. Applicant: CARL W. PEER AND THEODORE E. PEER, doing business as: PEER BROS. TRUCKING CO., 253 Union Street, Westfield, Mass. 01085. Applicant's representative: David M. Marshall, 135 State Street, Suite 200, Springfield, Mass. 01103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corundum and emery ore*, in bulk, from Providence, R.I., and Bridgeport, Conn., to Westfield and Chester, Mass. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Hartford, Conn., Boston, Mass., or Providence, Rhode Island.

No. MC 30513 (Sub-No. 14) filed April 26, 1973. Applicant: NORTH STATE MOTOR LINES, INC., U.S. 301 By-Pass South Rocky Mount, N.C. 27801. Applicant's representative: J. Ruffin Bailey P.O. Box 2246 Raleigh, N.C. 27602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies, and equipment*, used in the handling, marketing, packaging, prizing, redrying, shipping, or storing tobacco leaf or stems, loose or in packages, (except in bulk requiring tank vehicles), between points in North Carolina, South Carolina, Georgia, Florida, Virginia, Maryland, Tennessee and Kentucky. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Raleigh, N. C.

No. MC 43867 (Sub-No. 25) filed May 10, 1973. Applicant: ALTON LEANDER McALISTER (The First-Wichita National Bank of Wichita Falls, Texas, Independent Executor) P.O. Box 2214 Wichita Falls, Tex. 76307. Applicant's representative: Bernard H. English, 6270 Firth Road, Fort Worth, Tex. 76116. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Anti-pollution systems, equipment, and parts, liquid cooling and vapor condensing systems, equipment and parts, environmental control and protective systems, equipment, and parts*, the transportation of which, because of size or weight, requires the use of special equipment, and (2) *equipment, materials, and supplies* used in the construction or installation of anti-pollution and environmental control and protective systems, and liquid cooling and vapor condensing systems, when moving in mixed loads with the articles described in (1) above, between Cisco, and Wichita Falls, Tex., on the one hand, and, on the other, points in the United States, (except Alaska and Hawaii). Note: Applicant states it has Mercer and earth drilling commodities, which could be joined with the requested authority at Wichita Falls, and Cisco, Tex., in the event such commodities qualified under intended use determination. If a hearing is deemed necessary, applicant requests it be held at Dallas, or Fort Worth, Tex.

No. MC 56553 (Sub-No. 25) filed May 29, 1973 Applicant: PULASKI HIGHWAY EXPRESS, INC. 640 Hamilton Avenue Nashville, Tenn. 37203 Applicant's representative: A. O. Buck 500 Court Square Building Nashville, Tenn. 37201 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plant site and facilities of The Southwestern Company located at or near Brentwood, Tenn., as an off-route point in connection with applicant's regular route operations. Note: If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

No. MC 59640 (Sub-No. 35) filed May 11, 1973 Applicant: PAULS TRUCKING CORPORATION Three Commerce Drive Cranford, N.J. 07016 Applicant's representative: Charles J. Williams 47 Lincoln Park Newark, N.J. 07102 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, catalogue showroom stores, and home center stores, and in connection therewith *equipment, materials, and supplies* used in the conduct of such businesses, (except commodities in bulk), between Woodbridge Township, N.J., on the one hand, and, on the other, points in New Haven County, Conn., restricted to a transportation service to be performed under a continuing contract, or contracts, with Supermarkets General Corporation. Note: If a hearing is deemed necessary, applicant requests it be held at Newark, N.J. or New York, N.Y.

No. MC 61592 (Sub-No. 307) filed May 17, 1973. Applicant: JENKINS TRUCK LINE, INC. 3708 Elm Street Bettendorf, Iowa 52722. Applicant's representative: E. A. DeVine (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers and trailer chassis* (except those designed to be drawn by passenger automobiles), in initial movements, in truck-away and drive-away service and *trailer converter dollies, containers* and *bodies*, and *truck tractors* in secondary movements, in driveaway service only when drawing trailers or trailer chassis, in initial movements, in driveaway service, from the plantsite and warehouse facilities of Transcraft at or near Anna, Ill., to points in the United States (except Alaska and Hawaii); (2) *returned shipments* of the above described commodities, from points in the United States (including Alaska, but excluding Hawaii), to the plantsite and warehouse facilities of Transcraft at or near Anna, Ill., and (3) *materials and supplies* used in the manufacture of, and parts of the herein above-described commodities (except such commodities which because of size or weight, require the use

of special equipment) from points in the United States (including Alaska, but excluding Hawaii), to the plantsite and warehouse facilities of Transcraft at or near Anna, Ill., Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 74321 (Sub-No. 82) filed May 24, 1973 Applicant: B. F. WALKER, INC. 650–17th Street Denver, Colo. 80202 Applicant's representative: Richard P. Kissinger (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiberboard, particleboard and plywood*, from points in Angelina and Sabine Counties, Tex., to points in Alabama, Arkansas, Colorado, Florida, Georgia, Illinois, Indiana, Kansas, Louisiana, Mississippi, Missouri, Oklahoma and Tennessee. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 74321 (Sub-No. 83) filed May 25, 1973 Applicant: B. F. WALKER, INC. 650–17th Street Denver, Colo. 80202 Applicant's representative: Richard P. Kissinger (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electrical substations and related parts and accessories*, from Springdale, Ark., to points in the United States (except Alaska, Hawaii, Idaho, Nevada, Montana, Utah, and Wyoming), and *parts and accessories* used in the assembly and construction of electrical sub-stations, circuit breakers, and switches, from points in the United States (except Alaska, Hawaii, Idaho, Nevada, Montana, Utah, and Wyoming), to Springdale, Ark. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 78400 (Sub-No. 32) (AMENDMENT) filed April 2, 1973, published in the FR issue of May 3, 1973, and republished in part, as amended, this issue. Applicant: BEAUFORT TRANSFER COMPANY, a Corporation Post Office Box 102 Gerald, Mo. 63037 Applicant's representative: Thomas F. Kilroy Post Office Box 624 Springfield, Va. 22150 Note: Zero Manufacturing Company has purchased the Hermann Industrial Site near Hermann, Mo. The sole purpose of this partial republication is to amend the notice to read serving the facilities of the Zero Manufacturing Company near Hermann, Mo., in lieu of the Hermann Industrial Site near Hermann, Mo. The rest of the application remains as previously published.

No. MC 78400 (Sub-No. 34) filed May 21, 1973 Applicant: BEAUFORT TRANSFER COMPANY, a Corporation P.O. Box 102 Gerald, Mo. 63037 Applicant's representative: Thomas F. Kilroy P.O. Box 624 Springfield, Va. 22150 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe and tubing, couplings and accessories* necessary for the installation thereof, from Rolla, Mo., to points in Illinois, Arkansas, Kentucky, Oklahoma, Kansas, Nebraska, Iowa, Indiana, Tennessee, Mississippi, and Texas; (2) *materials supplies, and equipment* used in the manufacture and distribution of the above-named commodities, (except in bulk), from points in Illinois, Arkansas, Kentucky, Oklahoma, Kansas, Nebraska, Iowa, Indiana, Tennessee, Mississippi, and Texas, to Rolla, Mo. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no *present* intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 82492 (Sub-No. 82) filed May 21, 1973 Applicant: MICHIGAN & NEBRASKA TRANSIT CO., INC. P.O. Box 2853 2109 Olmstead Road Kalamazoo, Mich. 49003 Applicant's representative: William C. Harris (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, frozen meats, and nonedible foods*, when moving in vehicles equipped with mechanical refrigeration, from Bettendorf, Iowa to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin, those in New York in and west of Allegheny, Livingston, and Monroe Counties, and those in Pennsylvania on and west of U.S. Highway 219, restricted to shipments originating at Terminal Ice & Cold Storage facilities at or near Bettendorf, Iowa. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 82841 (Sub-No. 120) filed May 21, 1973 Applicant: HUNT TRANSPORTATION, INC. 10770 "I" Street Omaha, Nebr. 68127 Applicant's representative: Donald L. Stern 530 Univac Building 7100 West Center Road Omaha, Nebr. 68106 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, lumber products, plywood, and particleboard*, from points in Idaho, Oregon, and Washington, to points in Colorado, Iowa, Illinois, Indiana, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Utah, and Wisconsin. POLYCHLORINATED BIPHENYLS

Contamination of Animal Feeds, Foods, and Food Packaging Materials and Availability of Supplement to Environmental Statement on Rulemaking

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

POLYCHLORINATED BIPHENYLS (PCB's)

Contamination of Animal Feeds, Foods, and Food-Packaging Materials

In the FEDERAL REGISTER of March 18, 1972 (37 FR 5705) a notice of proposed rule making was published limiting the sources by which polychlorinated biphenyls (PCB's) may contaminate animal feed, food, and food-packaging materials during manufacturing, handling, and storage, and limiting the levels of PCB's that may be present in animal feed, food, and food-packaging materials as a result of unavoidable, environmental contamination. The notice provided for the filing of comments within 60 days after the date of publication and this was extended to July 16, 1972 by a notice published May 18, 1972 (37 FR 10003).

In response to the notice, ninety-three comments were received from members of industry, trade associations, consumer groups and individual consumers.

The following is a summary of the provisions contained in the notice and the comments on these provisions received by the Food and Drug Administration:

1. *Sections 3.93, 128.4, and 135.113.* The notice included provisions which would prohibit the use of PCB-containing materials and equipment in animal feed, in food, and in food-packaging material manufacturing, handling and storage establishments, in order to preclude direct, accidental PCB contamination of animal feed, food, and food-packaging materials.

a. One comment suggests that since most industrial chemicals can be interpreted to be "harmful or deleterious", the phrase should be deleted as a criterion for PCB replacement. The Commissioner concurs with deleting the phrase "harmful or deleterious". The toxicity and other characteristics of fluids selected as PCB replacements must be adequately determined so that the least potentially hazardous replacement is used. In making this determination with respect to a given fluid, consideration should be given to (1) its toxicity; (2) the maximum quantity that could be spilled onto a given quantity of food before it would be noticed, taking into account its color and odor; (3) possible signaling devices in the equipment to indicate a loss of fluid, etc.; and (4) its environmental stability and tendency to survive and be concentrated through the food chain. The judgment as to whether a replacement fluid is sufficiently nonhazardous is to be made on an individual installation and operation basis. Accordingly, the appropriate amendments have been made in § 135.113(b)(3) (21 CFR 135.113(b)(3)), § 3.93(b)(2) (21 CFR 3.93(b)(2)), and § 128.4(b)(2) (21 CFR 128.4(b)(2)).

b. One comment argues that electrical capacitors and transformers should be exempt from the requirement that new equipment and existing equipment in establishments engaged in the processing of animal feed, human food, or packaging materials shall not contain PCB's, since no known substitute is available which offers the proper balance of characteristics (e.g., fire safety and design efficiency). In support of the comment, it is stated that both capacitors and transformers are constructed in sealed metal cases and are not normally installed in equipment or located in such a manner as to be in direct contact with the material being processed. The Commissioner of Food and Drugs agrees that there should be an exemption for the safe use of PCB's in electrical capacitors and transformers. The final order has been amended in § 135.113(c), § 3.93(c) and § 128.4(b)(3), to provide an exemption for electrical capacitors and transformers.

c. One comment contends that an effective date of 90 days following publication of the final order should be established since this time period would be required for the modification of existing plant equipment to accommodate PCB replacements. The Commissioner concludes that there is no justification for extending the effective date and the final order establishes an effective date of 30 days from the date of publication in the FEDERAL REGISTER.

d. One comment contends that with the replacement of PCB formulated heat exchange fluids with non-PCB fluids, some level of PCB residue is likely to remain in certain equipment. Therefore, the comment continues, the Food and Drug Administration should initiate studies for the purpose of establishing a finite allowable residual level. While it is true that some residue of PCB may remain in certain equipment, if the change is made in a reasonable manner and in good faith there should not be significant concentrations of PCB remaining. Without additional data it is not possible to set any specific limit for PCB concentration in the equipment fluids. Furthermore, the Commissioner has determined that no reasons exists for FDA to initiate studies to determine the extent of residual levels of PCB's in heat exchangers or to specify by regulations finite tolerances for such residual material at this time.

2. *Section 121.2546.* The notice included an amendment to the existing food additive regulations (21 CFR 121.2546) so as to exclude from use in food-packaging materials pulp from reclaimed fibers containing poisonous and deleterious substances which may migrate to the packaged food.

a. One comment contends that the language of the amendment is incomplete since it does not establish a limit or tolerance for poisonous or deleterious substances, such as PCB's, which may ultimately be found in the packaged food product. The Commissioner disagrees because the purpose of § 121.2546 is to regulate the use of reclaimed fibers containing poisonous or deleterious substances for use in the manufacture of food-packaging materials and, to the extent necessary, to prevent contamination of the packaged food product with these substances. Therefore, the regulation precludes the necessity of establishing tolerances for the packaged food product. The Commissioner agrees, however, the clarification of the amendment is needed in order to be consistent with regulations which permit the presence of what could otherwise be regarded as poisonous or deleterious substances at levels that have been proved to be safe in food-packaging materials. Therefore, the order is amended in § 121.2546 by adding the phrase "except as provided in regulations promulgated under Sections 406 and 409 of the Federal Food, Drug, and Cosmetic Act."

3. *Part 122.* The notice included the proposal to establish temporary tolerances under Section 406 of the Federal Food, Drug, and Cosmetic Act for unavoidable PCB residues in animal feed, certain foods and food-packaging materials as a result of environmental contamination.

a. One comment recommends that a zero tolerance for PCB's in foods and feeds should be established. The Commissioner rejects this recommendation. Animal feeds, certain foods, and paper food-packaging materials contain PCB's which, under present conditions of environmental contamination, are unavoidable. Current toxicological information does not support the necessity of establishing zero tolerances for these articles in order to protect public health since human exposure to dietary sources of PCB's is usually sporadic, non-systematic, and occasional. The "finite" temporary tolerances being established will provide the assurance that significant PCB levels are not contained in food and that human exposure to PCB's from dietary sources will be maintained at safe and minimal levels. Zero tolerances, therefore, are unwarranted and would unnecessarily deprive the consumer of a portion of his food supply and disrupt the Nation's food distribution system because a portion of fish, poultry, eggs, and milk and packaging used for food would be violative.

b. A consumer group's comment recommended lowering the PCB tolerances for human foods by a factor 5–10; while another comment recommended that the temporary tolerances should be based on toxicological data which would allow a level that is deemed safe rather than allow a level that can be reasonably achieved. The Commissioner disagrees with both recommendations. Section 406 of the act, which is the authority for establishing the temporary tolerances for PCB's, states that where the addition of a poisonous or deleterious substance to food cannot be avoided the Secretary shall promulgate regulations "limiting the quantity therein or thereon to such extent as he finds necessary for the protection of the public health", and also specifically states that the Secretary in setting such a tolerance shall take into account the extent to which use of the substance "cannot be avoided". The fact

that the tolerances are termed "temporary" is recognition that, in the future, there should be less PCB contamination which "cannot be avoided" and the Commissioner is authorized to reduce the tolerance levels accordingly. The temporary tolerance levels are based on an analysis of animal and human toxicological data and data on the occurrence of PCB's in the food supply as follows:

(1) *Animal toxicological data.* Data from long-term animal studies are available to show that the no-effect level in rats and dogs (for PCB's with 42, 54, and 60 percent chlorination) is 10 parts per million (ppm). Employing a 100 to 1 safety factor, the "no-effect" level for man would be 2.5 microgram (mcg)/kilogram (kg) body weight/day based on data drived from dogs, or 3 mcg/kg bodyweight/day from rats. Therefore, based on long-term animal studies, the allowable level of PCB ingestion in man would be approximately 175 mcg/day for a 70 kg individual.

(2) *Human toxicological data.* Human intoxication with Kanachlor 400, a PCB manufactured in Japan with 48 percent chlorine was noted when a heat exchanger leaked fluid into rice oil and was consumed by Japanese families in 1968. About 1,000 people were eventually affected. Typical clinical findings included chloracne and increased pigmentation, visual impairment due to hypersecretion of the Meibomian glands, and systemic gastrointestinal symptoms that included abdominal pain and disturbances in liver function. A few babies were born with decreased birth weights and skin discoloration which slowly regressed as the children grew in size, although the growth rate of males appeared to be somewhat slower than normal. Adult patients had protracted clinical disease with very slow regression of symptoms and signs, suggesting slow metabolism and excretion of this PCB in humans, probably involving a long biological half-life. Exposure levels to the oil were calculated to approximate, on the average, 15,000 mg per day. The oil itself was reportedly contaminated at a level of about 2,000 ppm. This level was derived from the known organic chlorine content of rice oil related to the known organic chlorine content of Kanachlor 400. The average total dose of PCB's causing an effect in the Japanese was reported to be 2,000 mg. The human data published by Karatsune, et al., Fukuoka Acta. Med. 23:117 (1971) established that the lowest level of PCB that produced an effect in man (using a 50 kg man) was 500 mg consumed over a period of 50 days at a rate of approximately 200 mcg/kg body weight/day. The effect level was based on overt symptoms rather than sensitive biochemical tests that might have demonstrated some effects at even lower levels. Employing a safety factor of 10 to 1 to go from an effect level in man to a permissible no-effect level in man allows for an ingestion of 20 mcg/kg body weight/day; or 1.4 mg/day for a 70 kg man based on a total period of exposure of 50 days (equivalent to the Japanese incident). Since PCB's probably have a long biological half-life in man, an alternative toxicological analysis of the human data may be based on the assumption that ingested PCB's would continue to accumulate in tissues for a long period of time. Since 2,000 mg was reported to be the average total dose causing an effect in the Japanese, it is possible that 200 mg total dosage PCB's (applying a safety factor of 10 to 1 as above) may be tolerated over a much more protracted period of time without overt adverse effect if daily exposure is held to minimal levels. It would take 22 months of daily ingestion of 300 mcg of PCB's to arrive at a total ingestion of 200 mg. This would permit ingestion of 4 mcg/kg/day as derived from a 70 kg man. Since the lowest total dose producing an effect in man was 500 mg, a similar analysis leads to an allowable protracted ingestion of 1 mcg/kg/day as derived from a 70 kg man.

(3) *Dietary sources of PCB's.* The results of FDA total diet studies for fiscal years 1970–1972 show that quantitatively measurable residues of PCB's are equivalent to an intake of approximately 0.06 mcg/kg/body weight/day (or 4.2 mcg/day for a 70 kg man). Because of the sensitivity of the analytical methods used, PCB's may be present at levels too low to be detected. If lower levels could be measured, the dietary intake of PCB's from the total diet studies would probably show an increase. It should be recognized, however, that in rare instances some people could have more systematic exposures to PCB's in foods than those expected by eating a moderately well balanced diet such as represented by the total diet samples. Hence, there is a need for minimizing potential human exposures. The total diet studies indicate that PCB's most frequently occur in the food composite consisting of meat, fish and poultry (experience has shown that most of the PCB residues in this composite are in fish and, to a lesser extent, poultry) and in the food composite consisting of grain and cereal products (experience has shown most of the PCB residues in this composite are derived from paper packaging materials). FDA's food surveillance activities have shown that PCB's also occur in dairy products, eggs, and packaged foods, in addition to packaged cereal products.

(4) *Temporary tolerances for PCB's.* Using the human toxicological data described above, FDA concludes that for the short term, based on the lowest total dose producing an effect and estimated biological half-life of PCB's, current levels of PCB's in the diet represent no immediate hazard. This is also true for the average total dose causing an effect in the Japanese for long-term exposure. However, based on the most sensitive "Japanese patient" (i.e., lowest total dose producing an effect), the possibility of potential long-term hazards necessitates reduction of the levels of PCB's in food as soon as possible. In the interim, temporary tolerances are necessary to limit human exposure to those foods that may contain PCB's resulting from environmental contamination, which as a practical matter are presently unavoidable. Those foods, for which temporary tolerances are being established, include milk and dairy products, poultry, eggs, fish, and infant and junior food. Infants and young children consume a greater amount of food per kilogram of body weight and thereby have a proportionately greater exposure than do adults. A separate temporary tolerance for infant and junior food, therefore, reflects the possibility that undesirable exposures could result if combinations of certain PCB-contaminated foods comprise a major portion of this age group's diet. In order to minimize the overall dietary intake of PCB's, individual sources of PCB contamination must also be appropriately minimized. PCB's have been shown to occur in packaged food as a result of the PCB contamination of paper food-packaging materials. Limitations on the levels of PCB's in paper food-packaging materials are, therefore, necessary to minimize the amount of PCB's which may migrate to the packaged food. Since PCB's can be transmitted to and concentrated in edible portions of food-producing animals ingesting PCB-contaminated feed, animal feed represents another source of PCB's in the food supply. Limitations on the levels of PCB's in animal feeds and animal feed components are necessary, therefore, to minimize the frequency and magnitude of PCB residues in foods of animal origin.

The Commissioner concludes that the temporary tolerances being established will protect the public health from PCB's in food, but cautions that the temporary tolerances are not to be construed as "guidelines" permitting the consumption of foods containing these amounts of PCB's on a regular and consistent basis. Further, the temporary tolerances will be lowered as experience indicates that lower levels can be attained.

c. One comment recommends that FDA issue warnings to pregnant women who breast feed their babies to restrict their intake of fish to species that have been thoroughly monitored by FDA and found to be uniformly within the temporary tolerance. The basis for this recommendation is that consumption of PCB-containing fish and, for that matter other foods, may result in transfer and storage of PCB residues in human milk which in turn, the comment contends, would present a hazard to breast fed babies. The Commissioner concludes that such a warning is not warranted. On the basis of available, but limited monitoring data, most of which is unpublished, it appears that PCB levels in human milk would generally be less than approximately 0.05 ppm (whole product basis). Analysis of available toxicological data involving multigeneration reproduction studies in rat indicates that this level presents no immediate hazard to infants. Furthermore, this level is substantially less than the level of PCB's FDA will permit in the milk of dairy cows. The temporary tolerance being established for milk is 2.5 ppm (fat basis), which is

equivalent to 0.1 ppm (whole product basis). Therefore, a public warning as recommended is not supported by the scientific facts available at this time.

d. One comment recommends clarification of the term "PCB's" so as to distinguish between PCB-compounds of different chemical composition. The basis for this comment is the fact that PCB's are mixtures of chlorinated biphenql compounds. Each component of the PCB mixture is a specific chemical compound having the basic biphenyl moiety and one to ten chlorine atoms. There are 209 different chlorinated biphenyl compounds. Each component of manufactured and sold in the United States under the registered trade name of Aroclor, followed by a four digit number (i.e., 1242; 1248; 1254; etc.). The term Aroclor signifies that the product consists of chlorinated biphenyls, chlorinated terphenyls, or a mixture of these compounds. The first two digits of the numerical part of the trade name indicate the molecular type (1200 signifies chlorinated biphenyl), while the last two digits give the weight percent of chlorine (42 signifies 42 percent chlorine). Since the physical and chemical properties of each Aroclor vary, the analytical behavior of each Aroclor will also vary. For PCB residue analysis, it is customary to determine the amount of PCB residue found by comparing the residue to a known quantity of the Aroclor it most nearly matches when separated into multicomponents on a gas chromatograph. Therefore, the Commissioner agrees that clarification of the term "PCB" is necessary for the analysis of food, animal feed and paper food-packaging materials for PCB residues. The compilation of FDA analytical methods to be used for enforcing the PCB tolerance that is available upon request contains instructions regarding this aspect of the recommendation. The Commissioner does not agree, however, that the tolerances for PCB's should distinguish between PCB-compounds of different chemical composition because toxicological data do not support the need to establish separate tolerances for each Aroclor. Therefore, the temporary tolerances will apply to the term "PCB" irrespective of which Aroclor or mixture of Aroclor is present as the contaminant.

4. *Section 122.10(a)(1) and (2).* The notice included the proposal to establish a temporary tolerance for PCB's in milk and dairy products at 2.5 ppm (fat basis).

a. One comment recommends that since FDA's previous action level for PCB's in milk and dairy products, which was set at 55 ppm (fat basis), was stated as adequate for protecting public health, the temporary tolerance for milk and dairy products should be kept at the same level. The Commissioner concludes that there is no justification for raising the proposed tolerance from 2.5 ppm to 5 ppm in the fat of milk and dairy products. The 2.5 ppm temporary tolerance takes into account current toxicological data and the level of PCB residues that is presently considered unavoidable. A recent FDA survey revealed that only one sample of milk in 520 tested contained more than 2.5 ppm PCB in the fat, i.e., 0.2 percent of the total samples. Evidence also indicates that higher levels may be generally attributed to avoidable sources of contamination, such as the use of PCB coatings in diary farm silos which caused PCB contamination of silage for diary cows with subsequent transmission of PCB's to the milk of these cows.

b. One comment recommends the PCB tolerance be expressed on an "as is" basis because the fat content of dairy products varies and these foods are consumed "as is". The Commissioner rejects this recommendation. The butterfat is generally considered the most valuable constituent of milk. PCB's are fat soluble, and in the manufacture of various dairy products from milk, remain at a nearly constant concentration in the fat. The fat basis tolerance is therefore necessary to govern the level of PCB's in such products in preparing some other type of food. For example, butter (about 80 percent fat) made from milk containing levels of PCB's below tolerance would also be acceptable since the PCB concentration in the fat would be unchanged.

5. *Section 122.10(a)(3).* The notice included a proposal to establish a temporary tolerance for PCB's in poultry at 5.0 ppm (fat basis).

a. One comment recommends that since FDA's previous action level for PCB's in poultry, which was set at 5 ppm on the edible tissue, was stated as adequate for protecting public health, the temporary tolerance should be kept at that same level. The Commissioner rejects this recommendation. PCB contamination of poultry at levels in excess of the temporary tolerance being established has been attributed to the use of animal feed contaminated with PCB's as a result of industrial accidents, e.g., leakage of PCB's onto feed components. The Commissioner concludes that there is no justification for establishing a tolerance level that accounts for avoidable sources of contamination. The temporary tolerance of 5 ppm (fat basis) takes into account that this level of PCB is generally unavoidable because some poultry feeds contain unavoidable PCB residues that will transfer to and concentrate in the fat of poultry. Furthermore, current toxicological data supports this tolerance level.

b. One comment recommends that the tolerance for poultry be expressed on an "as is basis" since this would more closely relate to the total PCB intake from this food than would a tolerance established for poultry on a "fat basis". In response, the Commissioner finds that although the dietary intake of PCB's resulting from contaminated poultry was considered on an "as is" basis (whole tissue) in the development of the temporary tolerance level, expressing the temporary tolerance on a fat basis is preferred since PCB's are fat soluble and fat derived from poultry can be used as a separate food (e.g., soups, gravies, etc.). The fat basis tolerance, therefore, provides the assurance that poultry contains acceptable levels of PCB's, irrespective of whether the whole tissue is consumed or the fat is consumed as a separate food.

6. *Section 122.10(a)(5) and (6).* The notice included the proposal to establish temporary tolerances for PCB's in finished animal feeds at 0.5 ppm and animal feed components (including fishmeal) at 5 ppm.

a. One comment recommends that the term "finished animal feed" be changed to "complete animal feed" since some finished feeds are further mixed with grains, by-products of grains, and other feed ingredients of plant origin before feeding. The Commissioner agrees that certain finished animal feeds such as feed concentrates, premixes, and supplements, often contain high levels of PCB's because they consist of a high percentage of animal-derived ingredients. At time of use, however, these articles are mixed with plant-derived ingredients which are not expected to contain PCB's. Thus, the final ration for the animal would not contain excessive levels of PCB's. The Commissioner concludes that for purposes of the PCB tolerance for animal feeds, clarification of the term "finished animal feed" is needed rather than a change in terminology. Therefore, the order is amended in § 122.10(a)(5) (21 CFR 122.10) so that the temporary tolerance for PCB's is applicable to finished animal feeds, except feed concentrates, supplements, and premixes.

b. One comment recommends a PCB tolerance of 1.0 ppm be established for animal feed components which are not of animal or marine origin. Since there has been no reported finding of PCB's (other than that which may be due to avoidable contamination during processing, handling, or storage) in animal feed components such as grains and by-products of grains, the Commissioner concludes there is no need at this time to establish a separate tolerance for PCB's in this category of animal feed component.

c. One comment recommends that the term "animal feed components" be qualified by the expression "including fishmeal and concentrates, premixes, and supplements". The Commissioner agrees with this recommendation and the order is amended in § 122.10(a)(6) so that the temporary tolerance for PCB's is applicable to animal feed components of animal origin (including fishmeal and other marine by-products) and animal feed concentrates, premixes and supplements.

d. The Commissioner finds that although there was no comment to change the proposed tolerance levels of 0.5 ppm for finished animal feeds and 5 ppm for animal feed components, current information indicates a lowering of these tolerance levels is warranted for the following reasons:

(1) Data from FDA conducted feeding studies show that the proposed temporary tolerance 0.5 ppm for finished animal feeds is incompatible with the temporary tolerances for poultry. White leghorn hens exposed to a diet containing 0.5 ppm PCB's (Aroclor 1254) for 8 weeks

contained residues in excess of 5 ppm (fat basis) in the muscle (breast and thigh), dissectable fat, and liver of these animals. At a 0.2 ppm feeding level, the concentration of the PCB tissue residues in poultry was less than 5 ppm (fat basis). Data further indicate that continuous feeding of Aroclor 1254 at 0.5 ppm from day three to day forty-three post initial egg production can result in PCB residues only slightly less than 0.5 ppm in the eggs.

(2) Data from FDA surveillance programs and from industry reports indicate that PCB levels in finished animal feeds and in animal feed components are generally substantially less than the proposed tolerance limits. (a) Last year FDA conducted a survey of finished animal feeds for PCB's. The survey consisted of 1274 sample examinations representing various categories of animal feeds. The results show that 4.4 percent of the samples contained PCB residues. The highest reported level was 0.6 ppm PCB in feed intended for beef cattle. The average level for all samples tested was less than 0.1 ppm and the average level of the 56 samples that contained reportable levels of PCB's was less than 0.2 ppm. About 1 percent of the samples exceeded 0.2 ppm. (b) Animal feed components of animal and marine origin are expected to contain PCB's as a result of environmental contamination. During the past year, 32 samples of imported fishmeal were examined by FDA for PCB's. The results show that about 37 percent of the samples contained PCB residues. The highest level reported was 0.47 ppm. In addition, 153 fishmeal samples of domestic origin were examined during this period. The results show that about 48 percent of the samples contained PCB residues. The highest level reported was 2.1 ppm and the average was less than 1 ppm. (c) In the fall of 1971, industry conducted a survey of the PCB levels in rendered animal by-products used for feed ingredients such as hydrolyzed feather meal; meat and bone meal; fats and greases; and poultry by-product meal. The results of this survey which were published in "Feedstuffs," issue of July 3, 1972, show that of the 438 samples tested, the highest level of PCB found was 1.6 ppm in fat and greases. The average PCB level for the samples tested was less than 1 ppm. Other data that the FDA has received on the levels of PCB's in rendered animal by-products essentially confirms the results of this industry survey. Therefore, on the basis of the above, the Commissioner concludes that available evidence requires and justifies a reduction in the PCB tolerances for animal feeds and animal feed components. The order is thus amended in § 122.10(a)(5) and (6) to establish temporary tolerances for PCB's in finished feeds at 0.2 ppm and in animal feed components at 2 ppm.

e. One comment recommends that a tolerance of 5 ppm be established for PCB's in pet food. The Commissioner agrees in part with the comment. The proposal to establish a tolerance for animal feed was directed toward food-producing animals because the transmission of PCB's to the edible portion of animals ingesting PCB contaminated feed constitutes a potential hazard to human health. Further, the comment makes a reasonable recommendation since some pets may be able to safely consume levels of PCB's higher than 0.5 ppm. However, on the basis of available toxicological information, there is insufficient data for FDA to establish a tolerance for PCB's in feed for all types of pets and for other non-food producing animals. For this reason, studies will be initiated to obtain this information and, if warranted, FDA will issue a proposal to limit the level of PCB's in this category of finished animal feed. In the interim, the order is amended so that the temporary tolerance in § 122.10(a)(5) is applicable to only food-producing animals.

7. *Section 122.10(a)(7)*. The notice included the proposal to establish a temporary tolerance for PCB's in fish (edible portion) at 5 ppm.

a. One comment recommends that a temporary tolerance be established for shellfish. The Commissioner agrees with this recommendation because shellfish also have been found to contain PCB's as a result of unavoidable, environmental contamination and it is also in the interest of public health to limit the level of PCB's in this food. Therefore, § 122.10(a)(7) is amended to include shellfish under the temporary tolerance of 5 ppm.

8. *Section 122.10(a)(8)*. The notice included the proposal to establish a temporary tolerance for PCB's in infant and junior foods at 0.1 ppm.

a. One comment states that the level proposed cannot be achieved because of trace quantities of PCB's in certain foods and in paper food-packaging materials. The Commissioner concurs with this statement because information indicates that this level of PCB's cannot be avoided and that current analytical methodology is insufficient to enforce a tolerance of 0.1 ppm. Therefore, the final order is amended by revising the temporary tolerance for PCB's in infant and junior foods to 0.2 ppm.

9. *Section 122.10(a)(9)*. The notice included the proposal to establish a temporary tolerance for PCB's in food-packaging materials at 5 ppm.

a. One comment recommends that plastic and other non-paper food-packaging material be exempt from the temporary tolerance. The Commissioner agrees with this recommendation because there is no evidence to indicate that PCB's occur in plastic or other non-paper food-packaging materials as a result of unavoidable contamination. For this reason, no basis exists for establishing a tolerance under Section 406 of the Federal Food, Drug, and Cosmetic Act for these articles. Therefore, the wording of § 122.10(a)(9) is revised to apply only to paper food-packaging materials. This exemption means that no PCB's whatever may be present, either as a result of purposeful addition or industrial accidents, in plastic and other non-paper food-packaging materials. The provisions in the Statement of General Policy or Interpretation under Part 3, which prohibits the use of PCB-containing equipment and materials, are applicable to those establishments engaged in the manufacture, handling, and storage of plastic and other non-paper food-packaging materials.

b. One comment contends that no authority exists under Section 406 of the Federal Food, Drug, and Cosmetic Act for the establishment of temporary tolerances for PCB's in food-packaging materials. The Commissioner concludes that the establishment of temporary tolerances for PCB's in food-packaging material is consistent with the language and purpose of Sections 402(a)(2)(A) and 406 of the Federal Food, Drug, and Cosmetic Act.

c. One comment recommends the temporary tolerance be applied to the packaged food, rather than the food-packaging material. The Commissioner rejects this recommendation for the following reasons:

(1) Since the transfer of PCB's from packaging material to the food is dependent on time and conditions of exposure, tolerances based solely on the food would not provide adequate protection to the consumer. A packaged food analyzed at the time of packaging may be entirely free of PCB's, but by the time it reaches the consumer and is finally consumed it may have accumulated considerable quantities of PCB's if the packaging material is contaminated. A tolerance system in which analytical findings are so dependent on many variables such as time of sampling would not be reasonable or adequate. (2) In order to achieve compliance with a tolerance for packaged food, the level of PCB in the packaging has to be taken into account and limited to preclude the potential transfer of quantities of PCB's to the food that would cause the food to exceed its tolerance level. The fact that the level of PCB in packaged food is related to the level of PCB in its packaging, in effect, necessitate tolerance for both the food and its packaging. This would represent an obvious redundancy. (3) Establishing a tolerance for packaged food would be inconsistent with the intent and meaning of section 406 of the Federal Food, Drug, and Cosmetic Act. The packaged food does not contain unavoidable PCB residues. The principal source of the PCB contamination of packaged food is the paper food-packaging material, which contain the unavoidable contamination. As such, the tolerance should deal with this article. Therefore, this source of food contamination should be limited so as to minimize the levels of PCB's that may migrate to the packaged food. (4) Failure to limit the level of PCB's in food-packaging materials would perpetuate the use of a known, avoidable source of PCB contamination of food.

d. One comment received from industry and related trade associations argues that the temporary tolerance for PCB's in food-packaging materials should be deleted or postponed until: (1) quality control test procedures and adequate analytical methods are developed to regulate production and insure compliance,

and (2) migration rates are established to take into account barrier effects, type of food, and package weight to food weight ratio. In response, the Commissioner finds that: (1) Although a trade association submitted data which they claimed indicates a lack of reliability in analyses of paperboard material, the data failed to show that uniform test methods were employed by the participating laboratories or that these tests were performed by laboratories with demonstrated capabilities in trace residue analysis. Further, an interlaboratory study conducted under the auspices of another trade association using FDA analytical methodology, supports the conclusion that current methodology is adequately sensitive and reproducible from laboratory to laboratory in order to insure compliance with the tolerance. (2) It is recognized that migration rates (actual level of PCB in food resulting from the use of contaminated packaging) are affected by factors such as barriers, type of food, package weight to food weight ratio, and time and conditions of exposure. Since FDA's primary concern is not the fact that paper food-packaging materials contain PCB's, but the fact that PCB's can migrate to the food from the packaging, the use of barriers which prevent migration is an acceptable alternative to limiting the PCB content of paper food-packaging material. For this reason, the final order is amended in § 122.10(a)(9) to exempt paper food-packaging materials from compliance with the temporary tolerance if the paper food-packaging material is separated from the food by a functional barrier impermeable to PCB migration. Metal cans and glass bottles are obvious examples of what constitutes a functional barrier impermeable to PCB migration. Data from industry sponsored studies have shown that materials such as polyvinylidene coated paper and glassine can, to varying degrees, prevent or reduce PCB migration under test conditions which would favor migration. FDA would not object to the use of flexible materials and other materials as barriers provided there is no evidence of migration of PCB's to the food. At this time, however, there is insufficient information for FDA to list as part of the regulation those materials that are considered functional barriers. The other factors mentioned above which affect migration rates may also be important considerations and should be thoroughly studied. In the interim, the temporary tolerance for paper food-packaging materials and the exemption to this temporary tolerance are considered necessary to assure the consumer that packaged food is not being contaminated with PCB's to an avoidable degree.

e. One comment states that the establishment of temporary tolerance for PCB in paper food-packaging materials is unwarranted for public health reasons because available scientific evidence shows that Aroclor 1242 (predominant PCB found in paper) is not persistent and cumulative, and thus will not present a chronic toxicity problem. Although data indicates that some components of Aroclor 1242 are metabolized in biological systems more rapidly than the higher chlorinated Aroclors, there is no information available which describes the composition, toxicity, and fate of the metabolic products. The absence of Aroclor 1242 residues in human and other animal tissue and in the environment is not a sound basis from which to argue that no hazard exists from the ingestion of Aroclor 1242. The possibility exists that Aroclor 1242 is converted to alteration products which may be more toxic than the original compounds, but which are not detectable by current analytical methods. Further, available data from chronic feeding studies with rats and dogs fail to substantiate claims that Aroclor 1242 does not represent a toxic substance or that it differs in toxicity from the higher Aroclors. The Commissioner concludes that the temporary tolerance for paper food-packaging materials will apply to the tem "PCB" irrespective of which Aroclor is present as the contaminant.

f. Several manufacturers and trade associations recommended that the temporary tolerance for PCB's in food-packaging materials be modified so that the tolerance is expressed as "0.265 mcg/square centimeter in that portion of the package from which migration to the food can reasonably be expected", rather than using "parts per million" terminology. The Commissioner believes that this would not be a practical alternative because: (1) Expressing the tolerance for the weight of PCB residues in terms of unit area of packaging material rather than unit weight of packaging material assumes that PCB's are uniformly distributed throughout the food package and that any area of the packaging material selected for PCB analysis would be representative of the entire package. It is generally recognized that this assumption is not valid. (2) The migration of PCB from package material to food is considered to be chiefly a vapor phase phenomenon which is related to the concentration of PCB's in the packaging material. It is therefore not possible to ascertain which portion of the package would be expected to contribute to the PCB contamination of the packaged food. For these reasons, it is necessary to take into account the paper food-packaging material in its entirety as a potential source for the PCB contamination of the packaged food. Therefore, expressing the tolerance in terms of weight of PCB's per weight of packaging material as "parts per million" is a practical means to measure the "average" PCB level in the packaging.

g. One comment recommends that FDA include in the final regulation PCB analytical procedures employed by FDA in determining the extent of compliance with the established temporary tolerance for paper food-packaging materials. The Commissioner concurs in part with this recommendation and FDA will provide upon request the analytical methods to be used for enforcing the temporary tolerances for PCB's in paper food-packaging materials and the other articles for which tolerances are established in § 122.10(a). Omitting the methodology from the regulation will permit easier adoption of improved procedures as they are developed while having the analytical methods readily available to all interested parties.

h. One comment states that the temporary tolerance for PCB's for paper food-packaging materials will be detrimental to solid waste disposal programs, increase food packaging costs and result in an insufficient supply of packaging materials due to limitations of raw materials, and thus will significantly affect the quality of the human environment. The underlying basis for this statement is the fact that PCB's may occur in recycled paper because of the inclusion of some types of carbonless copy paper containing 3–5 percent PCB's into wastepaper stocks used in the manufacture of recycled paper. The comment contends that the temporary tolerance will have an adverse effect on the recycled paper industry and thus will cause the above environmental consequences. In response, FDA prepared in accordance with the National Environmental Policy Act of 1969 an environmental impact statement on the proposed rule making. FDA issued a Draft Environmental Impact Statement on May 11, 1972, a Final Environmental Impact Statement on December 21, 1972, and a Supplement to the Final Environmental Impact Statement (published concurrently with this order). In these statements, FDA asserted that information on the toxicity of PCB's necessitates limiting the levels of PCB's currently present in certain foods as a result of environmental contamination, as well as levels of PCB's in certain unavoidable sources of food contamination, i.e., PCB contaminated paper foodpackaging materials. FDA also asserted that the public health benefits derived from the rule making would outweigh any benefits that might be derived from industry-recommended alternative courses of action. These alternatives, which were considered and rejected by FDA as ineffective consumer protection measures, included: (1) The alternative of not regulating the PCB content of food-packaging materials; (2) The alternative of exempting Aroclor 1242 from the regulation; and (3) The alternative of regulating the packaged food rather than the packaging. FDA concluded in the statements that the rule making would have a significant, beneficial effect on the quality of the human environment. FDA did, however, re-evaluate the proposed level of 5 ppm as the temporary tolerance for PCB's in paper food-packaging materials. Data from the FDA survey of PCB's in foods and food packaging showed that the food portion of the samples with 5–10 ppm in paper food packaging contained the same range of PCB levels (0.1–0.6 ppm) as the food portion of the samples with 0–5 ppm in paper packaging. Samples with more than 10 ppm in the packaging contained higher levels in the food, ranging up to 3.7 ppm. The Commissioner concluded that this was the only acceptable alternative available and stated in the Final Environmental Impact Statement that the temporary tolerance for PCB's in paper

food-packaging materials would be changed to 10 ppm. (This order amends § 122.10(a)(9) to reflect this change.) Data provided by industry shows that levels of PCB's in paper food-packaging materials have diminished during the past year to the point that 93 percent or more of this material will contain 10 ppm or less PCB's. Therefore, FDA concluded that the temporary tolerance of 10 ppm and the exemption to this tolerance for paper food-packaging materials separated from the packaged food by a functional barrier will protect the public, while minimizing or negating the impact of the rule making on recycling programs. Furthermore, FDA indicated in the Supplement to the Final Environmental Impact Statement that it will explore with other federal agencies measures for eliminating PCB-containing carbonless copy paper from existing inventories. If feasible, this action would reduce the primary source of PCB's found in paper food-packaging materials permitting FDA to reduce the temporary tolerance, and eventually to eliminate the need for regulating this unavoidable source of PCB's in food.

Accordingly, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 402(a), 406, 409, 701, 52 Stat. 1046 as amended, 1049, 1055–1056 as amended by 70 Stat. 919 and 72 Stat. 948, 72 Stat. 1784–1788 as amended; 21 U.S.C. 342(a), 346, 348, 371) and under authority delegated to the Commissioner (21 CFR 2.120) Parts 3, 121, 128, and 135 are amended and a new Part 122 is added, as follows:

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

1. The following new section is added to Part 3:

§ 3.93 Use of polychlorinated biphenyls (PCB's) in establishments manufacturing food-packaging materials.

(a) Polychlorinated biphenyls (PCB's) represent a class of toxic industrial chemicals manufactured and sold under a variety of trade names, including: Aroclor (United States); Phenoclor (France); Colphen (Germany); and Kanaclor (Japan). PCB's are highly stable, heat resistant, and non-flammable chemicals. Industrial uses of PCB's include, or did include in the past, their use as electrical transformer and capacitor fluids, heat transfer fluids, hydraulic fluids, and plasticizers, and in formulations of lubricants, coatings, and inks. Their unique physical and chemical properties and widespread, uncontrolled industrial applications have caused PCB's to be a persistent and ubiquitous contaminant in the environment, causing the contamination of certain foods. In addition, incidents have occurred in which PCB's have directly contaminated animal feeds as a result of industrial accidents (leakage or spillage of PCB fluids from plant equipment). These accidents in turn caused the contamination of food products intended for human consumption (meat, milk and eggs). Investigations by the Food and Drug Administration have revealed that a significant percentage of paper food-packaging material contains PCB's which can migrate to the packaged food. The origin of PCB's in such material is not fully understood. Reclaimed fibers containing carbonless copy paper (contains 3 to 5 percent PCB's) have been identified as a primary source of PCB's in paper products. Some virgin paper products have also been found to contain PCB's, the source of which is generally attributed to direct contamination from industrial accidents from the use of PCB-containing equipment and machinery in food packaging manufacturing establishments. Since PCB's are toxic chemicals, the PCB contamination of food-packaging materials as a result of industrial accidents, which can cause the PCB contamination of food, represents a hazard to public health. It is therefore necessary to place certain restrictions on the industrial uses of PCB's in establishments manufacturing food-packaging materials.

(b) The following special provisions are necessary to preclude the accidental PCB contamination of food-packaging materials:

(1) New equipment or machinery for manufacturing food-packaging materials shall not contain or use PCB's.

(2) On or before August 6, 1973, the management of establishments manufacturing food-packaging materials shall:

(i) Have the heat exchange fluid used in existing equipment for manufacturing food-packaging materials sampled and tested to determine whether it contains PCB's or verify the absence of PCB's in such formulations by other appropriate means. On or before Sept. 4, 1973, any such fluid formulated with PCB's must to the fullest extent possible commensurate with current good manufacturing practices be replaced with a heat exchange fluid that does not contain PCB's.

(ii) Eliminate to the fullest extent possible commensurate with current good manufacturing practices from the establishment any other PCB-containing equipment, machinery and materials wherever there is a reasonable expectation that such articles could cause food-packaging materials to become contaminated with PCB's either as a result of normal use or as a result of accident, breakage, or other mishap.

(iii) The toxicity and other characteristics of fluids selected as PCB replacements must be adequately determined so that the least potentially hazardous replacement is used. In making this determination with respect to a given fluid, consideration should be given to (*a*) its toxicity; (*b*) the maximum quantity that could be spilled onto a given quantity of food before it would be noticed, taking into account its color and odor; (*c*) possible signaling devices in the equipment to indicate a loss of fluid, etc.; and (*d*) its environmental stability and tendency to survive and be concentrated through the food chain. The judgment as to whether a replacement fluid is sufficiently non-hazardous is to be made on an individual installation and operation basis.

(c) The provisions of this section do not apply to electrical transformers and condensers containing PCB's in sealed containers.

PART 121—FOOD ADDITIVES

2. In Part 121, § 121.2546(b) is amended by revising subparagraphs (1) and (2), as follows:

§ 121.2546 Pulp from reclaimed fiber.

* * * * *

(b) * * *

(1) Industrial waste from the manufacture of paper and paperboard products excluding that which bears or contains any poisonous or deleterious substance which is retained in the recovered pulp and that migrates to the food, except as provided in regulations promulgated under sections 406 and 409 of the Federal Food, Drug, and Cosmetic Act.

(2) Salvage from used paper and paperboard excluding that which (i) bears or contains any poisonous or deleterious substance which is retained in the recovered pulp and that migrates to the food, except as provided in regulations promulgated under sections 406 and 409 of the act or (ii) has been used for shipping or handling any such substance.

* * * * *

PART 122—UNAVOIDABLE CONTAMINANTS IN FOOD AND FOOD-PACKAGING MATERIAL

3. A new Part 122 is added as follows:

Subpart A—Definitions and Procedural and Interpretive Regulations

Sec.
122.1 Definitions and interpretations.
122.2—122.9 [Reserved]

Subpart B—Industrial Contaminants in Food and Food-Packaging Material

122.10 Temporary tolerances for polychlorinated biphenyls (PCB's).

AUTHORITY: Secs. 402(a), 406, 409, 701, 52 Stat. 1046 as amended, 1049, 1055–1056 as amended by 70 Stat. 919 and 72 Stat. 948, 72 Stat. 1785–1788 as amended; 21 U.S.C. 342(a), 346, 348, 371.

Subpart A—Definitions and Procedural and Interpretive Regulations

§ 122.1 Definitions and interpretations.

(a) The definitions and interpretations of terms contained in section 201 of the Federal Food, Drug, and Cosmetic Act shall be applicable to such terms when used in this part.

(b) Unavoidable natural, environmental, or industrial contaminants include any poisonous or deleterious substance added to any food where such substance cannot be avoided by good manufacturing practice.

Subpart B—Industrial Contaminants in Food and Food-Packaging Material

§ 122.10 Temporary tolerances for polychlorinated biphenyls (PCB's).

(a) Polychlorinated biphenyls (PCB's) are toxic, industrial chemicals. Because of their widespread, uncontrolled industrial applications, PCB's have become a persistent and ubiquitous contaminant in

the environment. As a result, certain foods and animal feeds, principally those of animal and marine origin, contain PCB's as unavoidable, environmental contaminants. PCB's are transmitted to the food portion (meat, milk, and eggs) of food producing animals ingesting PCB contaminated animal feed. In addition, a significant percentage of paper food-packaging materials contain PCB's which may migrate to the packaged food. The source of PCB's in paper food-packaging materials is primarily of certain types of carbonless copy paper (containing 3 to 5 percent PCB's) in waste paper stocks used for manufacturing recycled paper. Therefore, temporary tolerances for residues of PCB's as unavoidable environmental or industrial contaminants are established for a sufficient period of time following the effective date of this paragraph to permit the elimination of such contaminants at the earliest practicable time. For the purposes of this paragraph, the term "polychlorinated biphenyls (PCB's)" is applicable to mixtures of chlorinated biphenyl compounds, irrespective of which mixture of PCB's is present as the residue. The temporary tolerances for residues of PCB's are as follows:

(1) 2.5 parts per million in milk (fat basis).

(2) 2.5 parts per million in manufactured dairy products (fat basis).

(3) 5 parts per million in poultry (fat basis).

(4) 0.5 parts per million in eggs.

(5) 0.2 parts per million in finished animal feed for food-producing animals (except the following finished animal feeds: feed concentrates, feed supplements, and feed premixes).

(6) 2 parts per million in animal feed components of animal origin, including fishmeal and other by-products of marine origin and in finished animal feed concentrates, supplements, and premixes intended for food producing animals.

(7) 5 parts per million in fish and shellfish (edible portion). The edible portion of fish excludes head, scales, viscera, and inedible bones.

(8) 0.2 parts per million in infant and junior foods.

(9) 10 parts per million in paper food-packaging material intended for or used with human food, finished animal feed and any components intended for animal feeds. The tolerance shall not apply to paper food-packaging material separated from the food therein by a functional barrier which is impermeable to migration of PCB's.

(b) A compilation entitled "Analytical Methodology for Polychlorinated Biphenyls, February 1973" for determining compliance with the tolerances established in this section is available from the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852.

PART 128—HUMAN FOODS; CURRENT GOOD MANUFACTURING PRACTICE (SANITATION) IN MANUFACTURE, PROCESSING, PACKING OR HOLDING

4. In Part 128 by revising § 128.4 to read as follows:

§ 128.4 Equipment and utensils.

(a) *General.* All plant equipment and utensils should be (1) suitable for their intended use, (2) so designed and of such material and workmanship as to be adequately cleanable, and (3) properly maintained. The design, construction, and use of such equipment and utensils shall preclude the adulteration of food with lubricants, fuel, metal fragments, contaminated water, or any other contaminants. All equipment should be so installed and maintained as to facilitate the cleaning of the equipment and of all adjacent spaces.

(b) *Use of polychlorinated biphenyls in food plants.* Polychlorinated biphenyls (PCB's) represent a class of toxic industrial chemicals manufactured and sold under a variety of trade names, including: Aroclor (United States); Phenoclor (France); Colphen (Germany); and Kanaclor (Japan). PCB's are highly stable, heat resistant, and non-flammable chemicals. Industrial uses of PCB's include, or did include in the past, their use as electrical transformer and capacitor fluids, heat transfer fluids, hydraulic fluids, and plasticizers, and in formulations of lubricants, coatings, and inks. Their unique physical and chemical properties and widespread, uncontrolled industrial applications have caused PCB's to be a persistent and ubiquitous contaminant in the environment and causing the contamination of certain foods. In addition, incidents have occurred in which PCB's have directly contaminated animal feeds as a result of industrial accidents (leakage or spillage of PCB fluids from plant equipment). These accidents in turn cause the contamination of food intended for human consumption (meat, milk, and eggs). Since PCB's are toxic chemicals, the PCB contamination of food as a result of these accidents represents a hazard to human health. It is therefore necessary to place certain restrictions on the industrial uses of PCB's in the production, handling, and storage of food. The following special provisions are necessary to preclude accidental PCB contamination of food:

(1) New equipment, utensils, and machinery for handling or processing food in or around a food plant shall not contain PCB's.

(2) On or before September 4, 1973, the management of food plants shall:

(i) Have the heat exchange fluid used in existing equipment or machinery for handling or processing food sampled and tested to determine whether it contains PCB's, or verify the absence of PCB's in such formulations by other appropriate means. On or before Sept. 4, 1973, any such fluid formulated with PCB's must be replaced with a heat exchange fluid that does not contain PCB's.

(ii) Eliminate from the food plant any PCB-containing food-contact surfaces of equipment or utensils and any PCB-containing lubricants for equipment or machinery that is used for handling or processing food.

(iii) Eliminate from the food plant any other PCB-containing materials wherever there is a reasonable expectation that such materials could cause food to become contaminated with PCB's either as a result of normal use or as a result of accident, breakage, or other mishap.

(iv) The toxicity and other characteristics of fluids selected as PCB replacements must be adequately determined so that the least potentially hazardous replacement is used. In making this determination with respect to a given fluid, consideration should be given to (*a*) its toxicity; (*b*) the maximum quantity that could be spilled onto a given quantity of food before it would be noticed, taking into account its color and odor; (*c*) possible signaling devices in the equipment to indicate a loss of fluid, etc.; and (*d*) its environmental stability and tendency to survive and be concentrated through the food chain. The judgment as to whether a replacement fluid is sufficiently non-hazardous is to be made on an individual installation and operation basis.

(3) For the purposes of this section, the provisions do not apply to electrical transformers and condensers containing PCB's in sealed containers.

PART 135—NEW ANIMAL DRUGS

5. The following new section is added to Part 135, Subpart B:

§ 135.113 Use of polychlorinated biphenyls (PCB's) in the production, handling, and storage, of animal feed.

(a) Polychlorinated biphenyls (PCB's) represent a class of toxic industrial chemicals manufactured and sold under a variety of trade names, including: Aroclor (United States); Phenoclor (France); Colphen (Germany); and Kanaclor (Japan). PCB's are highly stable, heat resistant, and nonflammable chemicals. Industrial uses of PCB's include, or did include in the past, their use as electrical transformer and capacitor fluids, heat transfer fluids, hydraulic fluids, plasticizers, and in formulations of lubricants, coatings, and inks. Their unique physical and chemical properties and widespread, uncontrolled industrial applications have caused PCB's to be a persistant and ubiquitous contaminant in the environment, causing the contamination of certain foods. In addition, incidents have occurred in which PCB's have directly contaminated animal feeds as a result of industrial accidents (leakage or spillage of PCB fluids from plant equipment). These accidents in turn cause the contamination of food intended for human consumption, (meat, milk, and eggs). Investigations by the Food and Drug Administration have revealed that heat exchange fluids for certain pasteurization equipment used in processing animal feed contain PCB's. Although heat exchange fluids in such equipment are considered to be in "closed systems", leakage has occurred that resulted in direct contamination of animal feed with PCB's and subsequently resulted in the transfer of PCB's to human food produced by animals consuming the contaminated feed. The use of PCB-containing coatings on the inner walls of silos has resulted in the contamination of silage which has in turn caused PCB

residues in the milk of dairy cows consuming the contaminated silage. Since PCB's are toxic chemicals, the PCB contamination of food as a result of these and other incidents represent a hazard to public health. It is therefore necessary to place certain restrictions on the industrial uses of PCB's in the production, handling, and storage of animal feed.

(b) The following special provisions are necessary to preclude accidental PCB contamination of animal feed:

(1) Coatings or paints for use on the contact surfaces of feed storage areas may not contain PCB's or any other harmful or deleterious substances likely to contaminate feed.

(2) New equipment or machinery for handling or processing feed in or around an establishment producing animal feed shall not contain PCB's.

(3) On or before Sept. 4, 1973, the management of establishments producing animal feed shall:

(i) Have the heat exchange fluid used in existing equipment or machinery for handling and processing feed sampled and tested to determine whether it contains PCB's, or verify the absence of PCB's in such formulations by other appropriate means. On or before Sept. 4, 1973, any such fluid formulated with PCB's must to the fullest extent possible commensurate with current good manufacturing practices, be replaced with a heat exchange fluid that does not contain PCB's.

(ii) Eliminate to the fullest extent possible commensurate with current good manufacturing practices from the animal feed producing establishment any PCB-containing lubricants for equipment or machinery used for handling or processing animal feed.

(iii) Eliminate to the fullest extent possible commensurate with current good manufacturing practices from the animal feed producing establishment any other PCB-containing materials, whenever there is a reasonable expectation that such materials could cause animal feed to become contaminated with PCB's either as a result of normal use or as a result of accident, breakage, or other mishap.

(iv) The toxicity and other characteristics of fluids selected as PCB replacements must be adequately determined so that the least potentially hazardous replacement should be used. In making this determination with respect to a given fluid, consideration should be given to (*a*) its toxicity; (*b*) the maximum quantity that could be spilled onto a given quantity of food before it would be noticed, taking into account its color and odor; (*c*) possible signaling devices in the equipment to indicate a loss of fluid, etc.; (*d*) and its environmental stability and tendency to survive and be concentrated through the food chain. The judgment as to whether a replacement fluid is sufficiently non-hazardous is to be made on an individual installation and operation basis.

(c) For the purpose of this section, the provisions do not apply to electrical transformers and condensers containing PCB's in sealed containers.

(d) For the purpose of this section, the term "animal feed" includes all articles used for food or drink for animals other than man.

Any person who will be adversely affected by the provisions of §§ 121.254b and 122.10 of the foregoing order may at any time on or before August 6, 1973 file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall states the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order will become effective for foods, feeds, and paper food-packaging materials initially shipped in commerce after Sept. 4 1973 except as to any provisions of §§ 121.2546 and 122.10 that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced in the FEDERAL REGISTER. In the event § 122.10 is stayed by valid objections, pending a final regulation the Food and Drug Administration will enforce the levels stated in § 122.10 by seizing pursuant to sections 301 and 304 of the Act any food, feed, or paper food-packaging material shipped in commerce containing higher than the specified level of PCB's as adulterated in violation of section 402 of the Act.

(Secs. 402(a), 406, 409, 701, 52 Stat. 1046 as amended, 1049, 1055–1056 as amended by 70 Stat. 919 and 72 Stat. 948, 72 Stat. 1785–1788 as amended; 21 U.S.C. 342(a), 346, 348, 371)

Dated: June 21, 1973.

SHERWIN GARDNER,
Acting Commissioner of Food and Drugs.

Food and Drug Administration

POLYCHLORINATED BIPHENYLS

Availability of Supplement To Final Environmental Impact Statement

The Commissioner of Food and Drugs published a notice in the FEDERAL REGISTER of December 21, 1972 (37 FR 28201) announcing that a statement entitled "Final Environmental Impact Statement—Rule Making on Polychlorinated Biphenyls" had been issued by the Food and Drug Administration.

Notice is hereby given that a statement entitled "Supplement to the Final Environmental Impact Statement—Rule Making on Polychlorinated Biphenyls" has been issued by the Food and Drug Administration. Copies of the supplement are available from the Office of the Assistant Commissioner for Public Affairs, Room 15B–42, or the Office of the Hearing Clerk, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852.

This notice is issued pursuant to provisions of the National Environmental Policy Act of 1969, Public Law 91–190 (sec. 102(2)(c), 83 Stat. 853; 42 U.S.C. 4332), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: June 21, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

PART III

DEPARTMENT OF LABOR

Employment Standards Administration

■

Minimum Wages for Federal and Federally Assisted Construction

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions; Index

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decision, Modifications and Supersedeas Decisions

Area wage determination decisions. Area wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24 70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area wage determination decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to area wage determination decisions. Modifications and supersedeas decisions to area wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U. S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D. C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original area wage determination decision.

Set forth in this document are the following:

Modifications to area wage determination decisions. Modifications to Area Wage Determination Decisions for the following States (the numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State):

FOOTNOTES:

a. Employer contributes $2.24 per day to Health & Welfare.

b. Employer contributes $2.80 per day to Pension.

c. $4.00 per week when employee has worked 90 days; and works three days in any work week.

d. Employer contributes .40 per day to Apprentice Training.

SUPERSEDEAS DECISION

STATE: Colorado
COUNTY: El Paso
DECISION NUMBER: AP-918
DATE: Date of Publication
Supersedes Decision No. AP-233 dated September 15, 1972, in 37 FR 18861
DESCTIPTION OF WORK: Building Construction, (excluding single family homes and garden type apartments up to and including 4 stories), heavy and highway construction.

FOOTNOTE:
a. Employer contributes 4% basic hourly rate for over 5 years' service 2% basic hourly rate for 6 months to 5 years' service as Vacation Pay Credit. Six Paid Holidays: A through F.

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

LABORERS: (cont'd)

	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
GROUP V Any laborers performing bridge work over 40' above the ground or above a floor and working from a bos'n chair, swinging stage, life belt or block and tackle	$4.72	.37	.40		.05
GROUP VI Gunniting and shotcrete helpers; Caissons over 12'; Cofferdams; Timbermen; Underpinning and shoring; Formsetters and/or stringman on roads, highways, streets and airport runways; Distributor; Placing and hooking of landing mats; Bull float (hand operated)and center expansion machines; Sandblasters; Grade checkers if required by employer	4.83	.37	.40		.05
GROUP VII Powdermen and blasters; Gunnite nozzlemen; Shotcrete operator	4.93	.37	.40		.05
GROUP VIII Pipelayer on truck pipe lines in connection with highway work	5.00	.37	.40		.05
GROUP IX Wagon drills and air tracks; Jackhammer operators in caissons over 12'; Bellers and steemen; Licented powdermen; Diamond and core drills powered by air	5.13	.37	.40		.05
GROUP X Any work, other than on bridges, performed by laborers working from a bos'n chair, swinging stage, life belt or block and tackle as a safety requirement	5.18	.37	.40		.05

LABORERS (cont'd)	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App. Tr.
(PIPELINES)					
All mainline sewers; Water mains; Gas, oil or any product pipelines; Penstocks; Siphons or drainage lines; Pipe plants and yards not in connection with highway construction.					
GROUP I Pipe plants and yards; Stringing of pipe or skids; Handling and signaling on line work	$4.55	.37	.40		.05
GROUP II Fotman (not mechanical); Pipewrapper, Dopers, Jeep Holiday Detector Men, Bandage makers, Powdermen helpers	4.60	.37	.40		.05
GROUP III Laborers working in trenches on all pipelines; Sewer, water, gas, oil, telephone conduit, pen stock, siphons, drainage lines, caulkers, yarners, fine graders, air, gas, electric and hydraulic tools, boring machines, hydraulic jacks, drills, tampers, etc.	4.77	.37	.40		.05
GROUP IV Sandblasters, powdermen and blasters, wiping of joint concrete pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out	4.79	.37	.40		.05
GROUP V (Relining Pipe) Relining pipe	4.88	.37	.40		.05
Mixer man	4.93	.37	.40		.05
GROUP VI Pipelayer	5.00	.37	.40		.05

LABORERS (TUNNELS):	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App. Tr.
Outside laborers	$4.55	.37	.40		.05
GROUP I Minimum tunnel labor, dry house man	5.15	.37	.40		.05
GROUP II Cable or hose tenders, chuck tenders, concrete laborers, dumpman, whirley pumps operators	5.25	.37	.40		.05
GROUP III Helpers on shotcrete, gunniting and sandblasting; Helpers, core and diamond drills; Pot tender	5.33	.37	.40		.05
GROUP IV Cement finisher helper, applying of concrete processing materials	5.40	.37	.40		.05
GROUP V Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required) and all cutting and welding that is incidental to the miner's work; Tunnel liner plate setters; Vibrator men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and core drills; Cement finisher (underground); Shotcrete operator; Gunnite nozzlemen; Sandblaster; pump concrete placement men	5.55	.37	.40		.05
(SHAFTS, RAISES, MISSILE SILOS AND ALL UNDERGROUND WORK OTHER THAN TUNNELS)					
GROUP I Laborers, Topmen, Bottommen, and Cagers	5.25	.37	.40		.05
GROUP II Chuckteenders, Concrete laborers, Whirley pumps operators	5.40	.37	.40		.05

DESCRIPTION OF WORK: Heavy and Highway Construction

HEAVY & HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Others
CARPENTERS & PILEDRIVERMEN	$5.66	.21				
CEMENT MASONS	5.40					
LABORERS:						
Sandblasters; Powderman and blaster; Pipelayer, sewer, water, telephone conduits, etc.; Sewer utility man; Gunnite nozzleman; Diamond and core drills, powered by air, all work performed by Laborers working from a bos'n chair, swinging stage, life belt, tag line, or block and tackle; Drill operators of air tracs, wagon drills and similar drills	5.25	.30	.10			
Tree climber; Form setters; Rakers; Boxtenders; Asphalt curb machines; Potmen, not mechanical; Bull float, hand operated; Scalers; Timbermen; Underpinning and shoring; Caissons over 12'; Grade checker and cutting torches on demolition work	5.00	.30	.10			
Power buggyman; Concrete and paving sawman; Form liner, expansion joint assembler; Bottom man; Caulker and jointer and painter; Timber and chain saw man; Mechanical grouters; Boring machines; Automatic concrete power curbing machines; Stresser or stretcherman on post-tension or pre-stressed concrete on or off the job; Powderman helpers	4.75	.30	.10			
Form tamper; Air, gas and electric tool operators, vibrators, barco hammer, paving breakers, spaders, tampers, electric drills, hammers and jack hammers; Tree groundmen; Chuck tenders; Drill helpers, tool room men and checkers; Sand blaster helper; Concrete processing material and monitors; Cement finishers helpers	4.60	.30	.10			

HEAVY & HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Other
LABORERS (CONT'D):						
Fence erectors; Handling and placing of metal mesh, dowel bars, reinforcing bars and chairs; Dumpmen and spotters; Carrying reinforcing rods; Corrugated culvert pipe; Concrete drainage pipe; Stake chaser, seeding, mulching and planting of trees, shrubs and flowers; Water boy; Common labor; Rodmen; Tending to carpenters; Hot asphalt labor; Stringman on paving work	$4.50	.30	.10			
POWER EQUIPMENT OPERATORS:						
Power shovel and crane type equipment (1/2 cu. yd. and over); Central mix plant operator, concrete 5 cu. yd. and over; Dredge engineer; Dredge leverman; Concrete mixer, paver operator; Hoisting engineer, steel erection; Tractor operating scrapers in tandem; Motor patrol operator on finishing work; Master mechanic, when four or more mechanics are employed; Two or push boat operator; Piledriver machine operator	$6.15	.30	.30		.01	
Asphalt plant operator; Asphalt pugmill operator; Power shovel, crane type equipment (under 1/2 cu. yd.); Front end loader operator, all types 40 HP or over; Mechanics and welders; Tournapull operators, DW 10 and all similar equipment, over 10 cu. yd. struck capacity; All self-loading scrapers; Tractor operator, bulldozer, push cat or pulling scraper or rooter; Sideboom tractor; Churn or rotary drill operators; Trenching machine operator, Cleveland 80 or similar capacity; Self-propelled sheepsfoot roller, 100,000 pounds and over; Central mix plant operator, concrete, under 5 cu. yd.; Asphalt spreader operator; Group equipment greaser; Automatic subgrade machine, slip form paving operator	6.00	.30	.30		.01	

AP-536 P. 3

HEAVY & HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Other
POWER EQUIPMENT OPERATORS (CONT'D):						
Motor patrol operator, other than finish; Asphalt roller operator, high type surfacing; Concrete curb breaking machine operator; Concrete widening machine operator; Elevating grader and Athey loader operator; Tournapull operator, DW 10 and all similar equipment, under 10 cu. yd. struck capacity; Paving breaker operator, drop or pneumatic; Spreader box operator, self-propelled or tractor-pushed; Subgrade stab. (P&H and similar sizes); Boiler operator, two or one boiler and dryer; Subgrading machine operator; Asphalt paver, backhoe under 3/8 cu. yd.	$5.75	.30	.30		.01	
Self-propelled roller operator, other than high type asphalt; Distributor operator; Screening and washing plant operator; Spreader operator, concrete; Tank car heater, combination boiler and booster; Self-propelled vibrating compactor; Trenching machine operator; (Other) pumps on well points and deep wells for dewatering; Mechanical broom operator; Steel placing machine operator; Boat operator; Compressor operator; Concrete mixer operator, side loader; Conveyor operator; Crusher feeder operator; Finishing machine operator on concrete; Flexplane operator; Bull float operator; Form grade operator; Motor crane combination driver and oiler; Concrete curing machine operator	5.55	.30	.30		.01	
Boiler operator, single; Apprentice engineer or oil or mechanics' helper or group greaser helper; Self-propelled tractor (pulling disc harrow or sheepsfoot roller); Welding machine operator; Pump operator, other than dredge; Boom and winch truck	5.35	.30	.30		.01	

AP-536 P. 4

HEAVY & HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Others
POWER EQUIPMENT OPERATORS (CONT'D):						
Batching plant operator, dry; Front end loader operator, rubber tired, with backhoe attachment, under 3/8 cu. yd.; Farm tractor pulling pneumatic roller	$5.05	.30	.30		.01	
TRUCK DRIVERS:						
Truck drivers, not otherwise specified; Warehousemen; Drivers on: four-wheel service trucks, bus hauling men, carry all and winch trucks, dump cretes and scoopmobiles	4.25	.25				
Truck drivers for semi and tandem; Ready mix; Dumpster; Drivers on: tandem axle service trucks, Korking and similar dumpsters, track trucks, euclids, hug bottom drums, tournapulls or similar equipment used for transportation, pavement breakers, pole trailers; Drivers on air compressors and welding machines, including those pulled by separate units	4.35	.25

INDEX TO AREA WAGE DETERMINATION DECISIONS AND MODIFICATIONS AS OF JUNE 29, 1973

There is set forth below an index to area wage determination decisions and modifications as published in the FEDERAL REGISTER pursuant to the Davis-Bacon and related Acts. The index lists area wage determination decisions and modifications by State and county. An updated index is published on the first Friday of each month.

The index is published for the convenience of the public and the Department of Labor will endeavor to keep it accurate and up to date. In the event the data in the index and published area decisions do not coincide, the published area decisions shall control.

Abbreviations:

(B)—Building Construction
(D)—Dredging Construction
(F)—Flood Control Construction
(H)—Heavy Construction
(Hw)—Highway Construction
(R)—Residential Construction
Mod.—Modification

Signed at Washington, D.C. this 29th day of June 1973.

BEN P. ROBERTSON,
Acting Administrator,
Wage and Hour Division.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

$3.00 per copy.
Paperbound, with charts
