PART I

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

EXECUTIVE ORDER—Designation of certain officers of the Department of Agriculture to act as Secretary 25631

NATURAL GAS—AEC announces new rates and dedications to interstate commerce; effective 6–21–74 25703

SCHOOL LUNCHES AND BREAKFASTS—USDA sets average payments (2 documents); effective 7–1–74 25675

SEX EDUCATION—HEW proposes separate sessions for boys and girls in elementary and secondary schools; comments by 10–15–74 25667

SUBSIDIES—USDA issues regulations for 1974–1977 feed grain allotment payments program; effective 7–12–74 25633

ALIENS—Justice Department regulates applications for temporary withholding of deportation; effective 8–12–74 .. 25642

AERONAUTICAL RADIO SERVICES—FCC allows transmitter adjustments and tests by radiotelegraph operators, and radio stations using radiotelegraphy, effective 8–16–74 25662

ANTIDUMPING—Treasury Department initiates investigation on chicken eggs in shell from Canada 25670

MEETINGS—

AEC: General Advisory Committee, 7–29 through 7–31–74 25681

Advisory Committee on Reactor Safeguards: Subcommittee on Crystal River Nuclear Generating Plant—Unit 3, 7–29–74 25679

Subcommittee on Nine Mile Point, Unit 1, 7–29–74 25680

Advisory Committee on Reactor Safeguards Subcommittee on Westinghouse Water Reactor, 7–30–74 25681

(Continued inside)

PART II:

WAGE DETERMINATIONS—Labor Department decisions and index for Federal and Federally assisted construction 25775

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

Title 3—The President

EXECUTIVE ORDER 11793

Designation of certain officers of the Department of Agriculture to act as Secretary of Agriculture

Under and by virtue of the authority vested in me by section 3347 of title 5 and section 301 of title 3 of the United States Code, and as President of the United States of America, it is hereby ordered as follows:

SECTION 1. In case of the absence, sickness, resignation, or death of the Secretary of Agriculture and the Under Secretary of Agriculture, an Assistant Secretary of Agriculture or the General Counsel of the Department of Agriculture, in such order as the Secretary of Agriculture may from time to time prescribe, shall act as Secretary of Agriculture. If no such order of succession is in effect at that time, they shall act as Secretary in the order in which they shall have taken office as Assistant Secretary or General Counsel.

SEC. 2. Executive Order No. 10481 of August 15, 1953, entitled "Designation of Certain Officers of the Department of Agriculture to Act as Secretary of Agriculture", is hereby revoked.

THE WHITE HOUSE,
July 10, 1974.

Richard Nixon

[FR Doc.74-16115 Filed 7-10-74;2:53 pm]

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—SPECIAL PROGRAMS

PART 775—FEED GRAINS

Subpart—Feed Grain Program for Crop Years 1974–1977

QUALIFICATION REQUIREMENTS

Part 775 of Chapter VII of Title 7 of the Code of Federal Regulations is amended by adding a new subpart "Feed Grains Program for Crop Years 1974–1977" as set forth below. This new subpart prescribes the terms and conditions under which producers on farms for which a feed grain allotment is established may qualify for payments under the program.

Sec.

775.1 General.
775.2 Definitions.
775.3 Administration.
775.4 1974 national feed grain allotment.
775.4a 1975 national feed grain allotment.
775.4b 1976 national feed grain allotment.
775.4c 1977 national feed grain allotment.
775.5 Establishment of the 1974 State feed grain allotments.
775.5a Establishment of the 1975–1977 State feed grain allotments.
775.6 Establishment of the 1974 county feed grain allotments.
775.6a Establishment of the 1975–1977 county feed grain allotments.
775.7 Farm feed grain allotment.
775.8 County program yields.
775.9 Farm yields.
775.10 Payment rates.
775.11 Notice of allotments and yields.
775.12 Reconstitution of farms.
775.13 Requirements for eligibility.
775.14 Intention to participate in the program.
775.15 Determination of compliance.
775.16 General payment provisions.
775.17 Deficiency payments.
775.18 Disaster payments.
775.19 Division of payments and additional provisions relating to tenants and sharecroppers.
775.20 Successors-in-interest.
775.21 Misrepresentation and scheme or device.
775.22 Setoffs and assignments.
775.23 Appeals.
775.24 Performance based upon advice or action of county or State committee.
775.25 Supervisory authority of State committee.
775.26 Delegation of authority.

AUTHORITY: The provisions of this subpart issued under sec. 105, 87 Stat. 230 (7 U.S.C. 1441 note).

§ 775.1 General.

(a) The regulations in this subpart provide terms and conditions for the feed grain program for the 1974 through 1977 crops of feed grains, respectively, under which producers on farms for which an allotment is established for corn, grain sorghum, or barley (herein called "feed grains") may qualify for payments authorized under the program.

(b) If the operator of the farm elects to participate in the program, he and other producers on such farm may qualify for payments only if an Intention to Participate and Report of Acreage (herein called "Form 580") is filed for the farm by the operator in accordance with § 775.14.

(c) In accordance with section 101 of the Agricultural Act of 1970, as amended, and the regulations in Part 795 of this chapter, as amended, the total amount of payments which a person shall be entitled to receive annually under the feed grain program, the wheat program, and the upland cotton program shall not exceed $20,000.

(d) In accordance with the regulations in Part 796 of this chapter, payments are prohibited to program participants who harvest or knowingly permit to be harvested for illegal use marihuana or other such prohibited drug-producing plants on any part of the lands owned or controlled by them.

(e) The program is applicable throughout the United States except Hawaii and Alaska.

§ 775.2 Definitions.

In the regulations in this subpart and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meaning assigned to them herein unless the content or subject matter otherwise requires.

(a) "Annual nonconserving crop" means any annual crop intended for harvest and produced for market or feed except for the following:

(1) Grasses, regardless of use.

(2) Legumes other than peas or beans produced for seed, grain, or processing.

(3) Corn, grain sorghums, barley, or wheat not defined as feed grain or wheat acreage.

(4) Small grains (other than barley or wheat) destroyed by any means or used for other than grain by the certification date.

(5) Other crops grazed to the extent they cannot be harvested.

(b) "Barley acreage" means:

(1) Any acreage planted to barley, and any acreage of volunteer barley which will be harvested as grain, excluding:

(i) Any acreage of barley approved as a conservation use in Part 792 of this chapter, as amended.

(ii) Any acreage of barley destroyed by any means or used for other than grain by the certification date, unless destruction is by natural causes and the operator requests in writing that it be included as barley acreage.

(2) Any acreage devoted to a mixture of crops if the county committee determines that the predominant crop is barley and such acreage meets the requirements of subparagraph (1) of this paragraph as being barley acreage.

(c) "Certification date" means the certification date as set forth in Part 718 of this chapter, as amended.

(d) "Corn acreage" means:

(1) Any acreage planted to field corn or sterile high-sugar corn, excluding:

(i) Any acreage of corn approved as a conservation use in Part 792 of this chapter, as amended;

(ii) Any acreage of corn destroyed by any means or used for other than grain or silage by the certification date, unless destruction is by natural causes and the operator requests in writing that it be included as corn acreage;

(2) Any acreage devoted to a mixture of crops if the county committee determines that the predominant crop is corn and such acreage meets the requirements of subparagraph (1) of this paragraph as being corn acreage.

(e) "Conservation Reserve Program" (herein called CRP) means the program authorized under the Soil Bank Act, as amended, Part 750 of this chapter, as amended.

(f) "Cropland Adjustment Program" (herein called CAP) means the program authorized under Title VI of the Food and Agriculture Act of 1965, as amended, Part 751 of this chapter, as amended.

(g) "Cropland Conversion Program" (herein called CCP) means the program authorized under section 16(e) of the Soil Conservation and Domestic Allotment Act, as amended, Part 751 of this chapter, as amended.

(h) "Current year" means the calendar year in which the feed grain crop with respect to which payment may be made under this subpart would normally be harvested.

(i) "Feed grain acreage" means the sum of the corn, grain sorghum, and barley acreages on the farm.

(j) "Feed grain planted and considered planted acreage" means the sum of the corn, grain sorghum, and barley acreages as defined in paragraphs (b), (d), and (k) of this section, and:

(1) Any acreage which the county committee determines was not planted

to feed grains or failed because of drought, flood, or other natural disaster or condition beyond the control of the operator;

(2) Any acreage credited as feed grain acreage (except for new farms) under the provisions of Part 719 of this chapter, as amended;

(3) Any acreage planted and considered planted to wheat under Part 728 of this chapter, as amended, in excess of the allotment which is not credited to cotton (except acreage which the county committee determines was not planted to wheat because of drought, flood, or other natural disaster or condition beyond the control of the operator): *Provided*, That wheat in excess of the allotment shall not be considered as planted to feed grains for purposes of § 775.7 (d) (4);

(4) Any acreage planted and considered planted to cotton under Part 722 of this chapter, as amended, in excess of the allotment which is not credited to wheat (except acreage which the county committee determines was not planted to cotton because of drought, flood, or other natural disaster or condition beyond the control of the operator): *Provided*, That cotton in excess of the allotment shall not be considered as planted to feed grains for purposes of § 775.7(d) (4); and

(5) Any other acreage planted to annual nonconserving crops, excluding acreage of allotment crops within the applicable allotment, which is not credited to cotton or wheat: *Provided*, That such nonconserving crops shall not be considered as planted to feed grains for purposes of § 775.7(d) (4).

(k) "Grain sorghum acreage" means:

(1) Any acreage planted to grain sorghums of a feed grain or dual purpose variety (including any cross which, at all stages of growth, has most of the characteristics of a feed grain or dual purposes variety) and any acreage of sweet sorghums used for silage (haylage is a form of silage), excluding:

(i) Any acreage of grain sorghums approved as a conservation use in Part 792 of this chapter, as amended;

(ii) Any acreage of grain sorghums destroyed by any means or used for other than grain or silage by the certification date, unless destruction is by natural causes and the operator requests in writing that it be included as grain sorghum acreage;

(2) Any acreage devoted to a mixture of crops if the county committee determines that the predominant crop is grain sorghums and such acreage meets the requirements of paragraph (k) (1) of this section as being grain sorghum acreage.

(l) "Great Plains Conservation Program" means the program authorized under section 16(b) of the Soil Conservation and Domestic Allotment Act, as amended, Part 601 of this title, as amended.

(m) "Total feed grain allotment" means the sum of the feed grain allotments established for corn, grain sorghums, and barley for the farm, except that each allotment shall be excluded that is partially or completely diverted under the CAP or CCP.

(n) "Upland Cotton Program" means the program authorized under Title VI of the Agricultural Act of 1970, Part 722 of this chapter, as amended.

(o) "Wheat Program" means the program authorized under Title IV of the Agricultural Act of 1970, Part 728 of this chapter, as amended.

(p) In the regulations in this subpart and in all instructions, forms, documents in connection therewith, all other words and phrases shall have the meanings assigned to them in the regulations governing reconstitution of farms and allotments, Part 719 of this chapter, as amended.

§ 775.3 Administration.

(a) The program will be administered under the general supervision of the Administrator, Agricultural Stabilization and Conservation Service (ASCS), and shall be carried out in the field by Agricultural Stabilization and Conservation State and county committees (herein called "State and county committees") and the ASCS Data Systems Field Office.

(b) State and county committees, the ASCS Data Systems Field Office, and representatives and employees thereof do not have authority to modify or waive any of the provisions of the regulations in this subpart, as amended or supplemented.

§ 775.4 1974 national feed grain allotment.

NOTE: For text of this section, see 38 FR 35294.

§ 775.4a 1975 national feed grain allotment.

To be issued as an amendment to this subpart.

§ 775.4b 1976 national feed grain allotment.

To be issued as an amendment to this subpart.

§ 775.4c 1977 national feed grain allotment.

To be issued as an amendment to this subpart.

§ 775.5 Establishment of the 1974 State feed grain allotments.

NOTE: For text of this section, see 39 FR 9446.

§ 775.5a Establishment of the 1975–1977 State feed grain allotments.

The 1975–1977 State feed grain allotments are established by apportioning the national feed grain allotment to the States on the basis of each State's feed grain allotment established for the preceding year, adjusted for (a) the administrative transfer of farms between States, (b) decreases resulting from farms no longer engaged in agricultural production, farms dropped from the eminent domain pool, farms losing allotment for failure to plant, and farms voluntarily relinquishing their allotment, and (c) increases resulting from acreage allocated to old feed grain farms from the national feed grain pool. State feed grain allotments are available for inspection in State and county ASCS offices.

§ 775.6 Establishment of the 1974 county feed grain allotments.

NOTE.—For text of this section, see 39 FR 9446.

§ 775.6a Establishment of the 1975–1977 county feed grain allotments.

The 1975–1977 county feed grain allotments are established by apportioning each State's feed grain allotments (less reserves of not to exceed 1 per centum of the State feed grain allotment for new farms and reserves for appeals and corrections) among the counties in the various States on the basis of each county's feed grain allotment established for the preceding year, adjusted for (a) the administrative transfer of farms between counties, (b) acreage allocated to new farms from the State reserve, (c) acreage removed from farms no longer engaged in agricultural production, farms dropped from the eminent domain pool, farms losing allotment for failure to plant, and farms voluntarily relinquishing their allotment, and (d) such other relevant factors as determined necessary by the State committee to establish a fair and equitable apportionment base for the county. County feed grain allotments are available for inspection in the county ASCS offices.

§ 775.7 Farm feed grain allotment.

(a) *How obtained.* Except as otherwise provided in this section, the allotment for each of the commodities—corn, grain sorghums, and barley—shall be the average of the 1959 and 1960 acreages of the commodity produced on the farm, based upon information available to the county committee, as adjusted by the county committee to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop-rotation practices, types of soil, soil and water conservation measures, and topography. On farms with recognized history of irrigated and nonirrigated feed grain acreage in the base period for establishing yields, the allotment for each applicable commodity shall be established separately for the irrigated acreage and for the nonirrigated acreage. Separate allotments for irrigated acreage and for nonirrigated acreage shall not be established for farms where irrigation is used only in drier years. Allotments determined as set forth in this paragraph shall be approved by a representative of the State committee.

(b) *Adjustment authorized by Administrator.* The Administrator, ASCS, may, upon request of the State committee, authorize the State committee to adjust any feed grain allotment for farms within the State to the extent necessary to establish fair and equitable feed grain allotments within such State.

(c) *Farms with no 1959 and 1960 history.* A farm shall not qualify for payments under the program if there was no feed grain acreage on the farm in

1959 and 1960 unless (1) cropland on the farm was in the conservation reserve program or the great plains conservation program during one or both of the years 1959 and 1960 and either the conservation reserve program contract or the great plains conservation program contract is no longer in effect for all or part of such land, (2) one or more feed grains were grown in 1957 or 1958 and a feed grain allotment was established in accordance with § 775.212(c)(2) of the 1963 feed grain program regulations, or (3) a new farm allotment is established in accordance with paragraph (d) of this section or in a previous year under a comparable provision of the feed grain program regulations.

(d) *New farm allotment.*—(1) *Written application.* The county committee, with the approval of the State committee, shall establish an allotment (herein called "new farm allotment") for each eligible farm for which an allotment is requested in writing by February 15 of the current year. Each request shall be made by the farm owner or operator on Form MQ–25, Application for New Farm or Producer Allotment, Base, or Quota, which shall contain statements as to location and identification of the farm, name and address of the farm operator, and other data necessary to enable the county committee to determine whether the conditions of eligibility prescribed in paragraph (d)(2) of this section have been met.

(2) *Eligibility requirements for owner or operator.* Eligibility for a new farm allotment shall be conditioned upon the following:

(i) *Allotment for farm.* The farm does not otherwise qualify for a feed grain allotment for any commodity.

(ii) *Interest in another farm.* Neither the farm owner nor the farm operator owns, has an ownership interest in, or operates any other farm in the United States for which a feed grain allotment is established for the current year.

(iii) *Availability of equipment and facilities.* The operator has adequate equipment and other facilities readily available for the successful production of the crop on the farm.

(iv) *Income requirement.* The operator expects to obtain during the current year more than 50 percent of his income from the production of agricultural commodities or products from farming.

(*a*) *Computing operator's income.* The following shall be considered in computing operator's income:

(*1*) *Income from farming.* Income from farming shall include the estimated return from the production of the requested allotment and from home gardens, livestock and livestock products, poultry, or other agricultural products produced for home consumption or other use on the farm(s), but shall exclude payments authorized under the feed grain program.

(*2*) *Income from nonfarming.* Nonfarming income shall include but shall not be limited to salaries, commissions, pensions, social security payments and unemployment compensation.

(*3*) *Spouse's income.* The spouse's farm and nonfarm income shall be used in the computation.

(*b*) *Operator a partnership.* If the operator is a partnership, each partner must expect to obtain more than 50 percent of his current year income from farming.

(*c*) *Operator a corporation.* If the operator is a corporation, it must have no major corporate purpose other than ownership or operation of the farm. Farming must provide its officers and general manager with more than 50 percent of their expected income. Salaries and dividends from the corporation shall be considered as income from farming.

(*d*) *Special provision for low-income farmers.* The county committee may waive the income provisions in this section provided the county committee determines that the farm operator's income, from both farm and nonfarm sources, will not provide a reasonable standard of living for the operator and his family, and a State committee representative approves such action. In waiving the income provisions the county committee must exercise good judgment to see that such determination is reasonable in the light of all pertinent factors, and that this special provision is made applicable only to those who qualify. In making such determination, the county committee shall consider such factors as size and type of farming operations, estimated net worth, estimated gross family farm income, estimated family off-farm income, number of dependents, and other factors affecting the individual's ability to provide a reasonable standard of living for himself and his family.

(3) *Eligibility requirements for the farm.* The eligibility requirements for the farm are as follows:

(i) *Available land, type of soil, and topography.* The available land, type of soil, and topography of the land on the farm must be suitable for the production of the commodity, and continuous production must not result in an undue erosion hazard.

(ii) *Allotment reduced to zero at the farm owner's request.* At least 3 years must have elapsed from the date the allotment is reduced to zero at the farm owner's request, as authorized in paragraph (f) of this section, to the date the request for a new farm allotment is considered.

(iii) *Eminent domain.* A farm which includes land acquired by an agency having the right of eminent domain for which the total feed grain allotment was pooled pursuant to Part 719 of this chapter, as amended, which is subsequently returned to agricultural production, shall not be eligible for a new farm allotment for a period of 3 years from the date the former owner was displaced.

(iv) *Entire allotment designated by owner for a reconstitution.* A farm which includes land which has no allotment because the owner did not designate an allotment for such land when the parent farm was reconstituted pursuant to Part 719 of this chapter, as amended, shall not be eligible for a new farm allotment for a period of 3 years beginning with the year in which the reconstitution became effective.

(4) *Limitations.*—(i) *Feed grain acreage planned.* The county committee shall limit the allotment to the smaller of the allotment requested or the feed grain acreage planned for the farm for the current year.

(ii) *Reserve.* The total new farm allotments approved in a State in the current year shall not exceed a reserve established by the State committee of not more than 1 percent of the total feed grain allotments for all farms in the State. No part of that 1 percent shall be allocated to a farm to reflect new cropland brought into production after November 30, 1970.

(iii) *Current year feed grain acreage.* Notwithstanding any other provision of this subpart, if the feed grain planted and considered planted acreage for the year a new farm allotment is established is less than 90 percent of the allotment, (*a*) the allotment for such year shall be reduced to the acreage planted and considered planted to feed grains and payments computed on the basis of such reduced allotment and (*b*) the total feed grain allotment for the succeeding year shall be limited to the acreage planted and considered planted to feed grains in the prior year. Allotments by commodities for the succeeding year shall be established in proportion to the acreage devoted to each feed grain in the prior year.

(5) *Cancellation of new farm allotment for misrepresentation.* If a new farm allotment is established and it is later determined by the county committee that the applicant unknowingly furnished incomplete or inaccurate information the allotment shall be canceled effective for the next crop year. If it is determined that the applicant knowingly furnished incomplete or inaccurate information and the State committee concurs in the county committee determination, the allotment shall be canceled as of the date issued.

(e) *Restrictive lease adjustment.* An allotment determined under the preceding provisions of this section shall, for the current year only, be adjusted downward to the acreage permitted under a restrictive lease on land owned by the Federal Government. An allotment as otherwise determined under the preceding provisions of this section shall remain subject to reduction as provided in paragraph (f) of this section.

(f) *Reduced allotments.* Notwithstanding any other provisions of this subpart, feed grain allotments shall be reduced as follows:

(1) *Permanent reductions.* (i) The allotment shall be reduced (*a*) to the extent requested in writing by the farm owner not later than the date established by the State committee and (*b*) to the extent acreage of cropland on the farm is permanently removed from agricultural production, as determined by the county committee.

(ii) If the current year's feed grain planted and considered planted acreage

is less than 90 percent of the total feed grain allotment, the feed grain allotment for the succeeding year shall be reduced by the percentage by which the planted and considered planted acreage is less than the total feed grain allotment for the current year, but such reduction shall not exceed 20 percent of the total feed grain allotment. In making any such reduction, commodity allotments shall be reduced proportionately. If the feed grain planted and considered planted acreage is zero for three consecutive years, the total feed grain allotment shall be reduced to zero. However, no feed grain allotment shall be reduced or lost through failure to plant if all producers elect by the certification date to limit the acres for deficiency payment to the feed grain planted and considered planted acreage as provided in § 775.16 (f).

(iii) The 1974 feed grain allotment shall be reduced to the extent the sum of allotments for all commodities exceeds the cropland for the farm, unless the operator requests in writing that the reduction be in the upland cotton allotment or wheat allotment.

(2) *Reductions for current year.* The following reductions shall be made by reducing the smallest allotment first and continuing in order of the size of the allotment, unless the operator requests in writing that the reduction be in a different order.

(i) Reduce feed grain, wheat, and upland cotton allotments each year, beginning in 1975, to the extent the sum of allotments for all commodities exceeds the cropland for the farm.

(ii) Reduce 1974 feed grain, wheat, and upland cotton allotments to the extent the sum of allotments for these commodities exceeds the cropland which, under normal conditions, could reasonably be expected to produce an allotment crop.

(iii) Reduce feed grain and wheat allotments each year, beginning in 1975, to the extent the sum of feed grain and wheat allotments exceeds the cropland which, under normal conditions, could reasonably be expected to produce an allotment crop.

(iv) Reduce feed grain, wheat, and upland cotton allotments that are not partially or completely diverted under the CAP or CCP, to the extent they total more than the number of acres of nonconserving crops permitted under the CAP or CCP.

(g) *National pool.* Allotments eliminated from farms under the provisions of paragraph (f) of this section and acreage removed from the eminent domain pool pursuant to Part 719 of this chapter, as amended, shall be placed in a national pool for distribution and adjustments in accordance with instructions issued by the Deputy Administrator.

§ 775.8 County program yields.

County program yields for the current year are determined for each feed grain producing county in the United States, except for counties in Alaska and Hawaii. They are determined on the basis of the yields established for the county for the preceding crop with such adjustments as are determined necessary to provide fair and equitable yields. The county program yields for the current year are available for inspection in the county ASCS office.

§ 775.9 Farm yields.

(a) *Determining yields.* The per acre farm yield for corn, grain sorghums, and barley shall be the county yield for the commodity, adjusted to reflect the farm productivity for the commodity and established in accordance with instructions issued by the Deputy Administrator.

(b) *Yield reduction.* For the purpose of determining eligibility for and amount of low yield payment as provided in § 775.18(b), the established yield shall be reduced in accordance with instructions issued by the Deputy Administrator to reflect any reduction in the current year yield which is due to causes other than a natural disaster or condition beyond the control of the producer, such as a change in farming practices.

§ 775.10 Payment rates.

Payment rates shall be established separately for deficiency payments and for disaster payments.

(a) *Deficiency payment rates.* The per bushel rate for corn shall be the amount by which the higher of (1) the national weighted average market price received by farmers during the first five months of the marketing year beginning October 1 or (2) the national average loan rate established for corn is less than the established price of $1.38 per bushel in the case of 1974 and 1975 crops, $1.38 per bushel adjusted to reflect any change during the calendar year 1975 in the index of prices paid by farmers for production items, interest, taxes, and wage rates in the case of the 1976 crop, and the established price for the 1976 crop adjusted to reflect any change during the calendar year 1976 in such index in the case of the 1977 crop: *Provided,* That any increase that would otherwise be made in the established price to reflect a change in the index of prices paid by farmers shall be adjusted to reflect any change in (i) the national average yield per acre of feed grains for the three calendar years preceding the year for which the determination is made, over (ii) the national average yield per acre of feed grains for the three calendar years preceding the year previous to the one for which the determination is made. Per bushel rates shall be established in like manner for grain sorghum and barley based on marketing years beginning October 1 for grain sorghum and July 1 for barley, and on prices established each program year. The established prices for the 1974 program year are $1.31 per bushel for grain sorghum and $1.13 per bushel for barley.

(b) *Disaster payment rates.* The per bushel rate for each feed grain shall be equal to the larger of the deficiency payment rate or one-third of the established price. Disaster payment rates for the 1974 program year are $.46 per bushel for corn, $.44 per bushel for grain sorghums, and $.38 per bushel for barley.

§ 775.11 Notice of allotments and yields.

Each operator interested in the feed grain crop on a farm for which a feed grain allotment is established shall be notified in writing of the allotment and established yield per acre for corn, grain sorghums, and barley, as applicable: *Provided,* That the notice shall not be mailed to any producer who has filed a written request that he not be furnished the notice but it shall be filed with the producer's request in the county office. The producer may withdraw his request at any time; however, during the period a request is in effect, the producer shall be considered as having been timely and correctly notified of the contents of this notice. Such notices will be on Form ASCS–476, Notice of Allotments and Yields, (herein called "Form 476").

§ 775.12 Reconstitution of farms.

Farms shall be reconstituted and feed grain allotments established therefor in accordance with Part 719 of this chapter, as amended. Yields for farms which are reconstituted after yields are originally established shall be determined as follows:

(a) *Combination.* Multiply the commodity allotment by the yield for each parent farm, and divide the sum of the results for all parent farms by the sum of allotments for the commodity on the parent farms.

(b) *Division.* Determine a yield in accordance with § 775.9. The weighted average yields for all the farms resulting from the division are limited to the yield for the parent farm, except for rounding.

§ 775.13 Requirements for eligibility.

(a) *General.* A person is eligible for the program if he is a producer on a farm which meets the requirements of paragraph (b) of this section and he fulfills the requirements of paragraph (c) of this section.

(b) *Farm requirements.* (1) A Form 580 must be filed for the farm by the operator in accordance with § 775.14.

(2) In the case of any farm participating in the CAP or CCP, the acreage of feed grains and other nonconserving crops shall not exceed the number of acres of nonconserving crops permitted under the CAP or CCP.

(3) Land owned by the Federal Government shall be ineligible for participation in the program if it is (i) leased subject to restrictions prohibiting the production of feed grains, or requiring the use of land for other purposes, or prohibiting the receipt of program payments, (ii) occupied without a lease, permit, or other right of possession, (iii) in a national wildlife refuge, or (iv) covered by a lease which was renewed or executed after March 22, 1973, unless the land was acquired by an agency having the right of eminent domain, and leased

back to the former owner with uninterrupted possession.

(4) Producers on a farm acquired for future development for purposes other than agricultural production shall not be eligible for participation in the program, unless the county committee determines that the farm is actively engaged in the production of crops for harvest other than hay, sod, ornamentals, or timber.

(c) *Producer eligibility requirements.* (1) The producer must be a person who as landowner, landlord, tenant, or sharecropper shares in the corn, grain sorghums, or barley produced in the current year (or the proceeds therefrom) on a farm meeting the requirements of paragraph (b) of this section or would have shared in one or more of these commodities if feed grains had been produced on such farm in the current year.

(2) A minor will be eligible to participate in the program only if (i) the right of majority has been conferred on him by court proceedings; or (ii) a guardian has been appointed to manage his property and the applicable documents are signed by the guardian; or (iii) a bond is furnished under which a surety guarantees to protect the Commodity Credit Corporation from any loss incurred for which the minor would be liable had he been an adult. Notwithstanding the foregoing, payment may be made to a minor after December 31 of the current year upon a determination by the county committee that the minor has met the requirements of the program.

§ 775.14 Intention to participate in the program.

(a) *Who may file.* A Form 580 must be filed by the operator of an eligible farm in order that he and other producers on the farm may participate in the program.

(b) *Where to file.* Form 580 shall be filed with the office of the county committee having jurisdiction over the county where the farm is located.

(c) *When to file.* Form 580 shall be filed within the period authorized by the Deputy Administrator. Harvesting a feed grain prior to filing Form 580 shall make producers on the farm ineligible for feed grain disaster payments but shall not disqualify them for deficiency payments.

(d) *Revision.* Any Form 580 filed for a farm before it is reconstituted shall be cancelled and the farm operator notified of the cancellation. He may file a new Form 580 by the latter of the closing date or 15 days after the mailing date of such notice of reconstitution.

§ 775.15 Determination of compliance.

(a) Determination of the acreage devoted to feed grains and other annual nonconserving crops shall be made in accordance with Part 718 of this chapter, as amended.

(b) A representative of the county committee or the State committee or any authorized representative of the Secretary shall have the right at any reasonable time to enter a farm, concerning which representations have been made on any forms filed under the program, in order to measure the acreage planted to feed grains and other annual nonconserving crops, to examine any records pertaining thereto, and otherwise to determine the accuracy of a producer's representation and the performance of his obligations under the program.

§ 775.16 General payment provisions.

(a) *Issuance.* Payments of any amounts due the producers on a farm shall be made only after they sign an Application for Payment (herein called "Form 580–2"), and the payments are approved by the county committee or by an authorized representative thereof. A Form 580–2 signed after May 1 of the year following the current year shall not be accepted by the county committee unless prior approval of the State committee is obtained.

(b) *Failure to fully comply.* Except as otherwise provided herein and in Part 791 of this chapter, as amended, payment shall not be made for a farm or to a producer when there is failure to comply fully with the regulations in this subpart.

(c) *Payment due producer.* Subject to the provisions of the payment limitation regulations in Part 795 of this chapter, as amended, the total earned payment due each eligible producer under the program shall be determined by multiplying the total earned payment for the farm by the producer's share of such payment.

(d) *Payment declined.* If a producer declines, for personal reasons, to accept all or any part of his share of the payment computed for a farm in accordance with the provisions of this section, such payment or portions thereof shall not become available for any other producer on the farm.

(e) *Idle farms.* Producers on a farm not used for the commercial production of crops or livestock on cropland, or from which only sod, ornamentals, or timber are harvested shall not be eligible for program payments when the feed grain allotment is preserved with vegetative cover as authorized by the regulations in Part 719 of this chapter, as amended.

(f) *Allotment protection.* Producers otherwise eligible for payment may elect by the certification date to limit the acres for deficiency payment to the feed grain planted and considered planted acreage in order to protect the feed grain allotment from reduction due to failure to plant. The acres for payment shall be proportionate to each commodity of the allotment.

(g) *Unearned payments.* Payments to any producer which exceed the total payment he earns under the program with respect to any farm shall be refunded to the Commodity Credit Corporation, and, if for any reason such earned payment is zero, he shall pay interest at the rate of 6 percent per annum on the amount of the refund from the issue dates of the sight drafts to the date the payments are refunded. The provisions of the foregoing sentence requiring the payment of interest when no payment is earned shall not apply if the producer earns any wheat or upland cotton payments for the farm.

§ 775.17 Deficiency payments.

(a) Deficiency payments shall be determined by multiplying the allotment for each commodity by the applicable farm yield established as provided in § 775.9 and by the applicable per bushel rate determined in accordance with § 775.10(a): *Provided*, That no deficiency payment shall be made for any part of the allotment times the yield for which a disaster payment is made.

(b) Deficiency payments will be made to producers as soon as practicable after March 1 following the current year.

§ 775.18 Disaster payments.

Producers may qualify for disaster payments only when the county committee determines that prevented planting or a low yield as hereinafter described in this section occurs because of drought, flood, or other natural disaster or when the Deputy Administrator determines that prevented planting or a low yield occurs because of a condition beyond the control of the producer. Disaster payments shall be made as soon as practicable after the disaster is reported, the extent of the crop loss is determined, and payment is approved.

(a) *Prevented planting.* (1) The acreage for prevented planting payments shall be determined by grouping the farm's feed grain and wheat allotments together and shall equal the smaller of:

(i) the acreage of annual nonconserving crops the producer is prevented from planting; or

(ii) the amount that the sum of feed grain and wheat allotments exceeds the total acreage devoted to annual nonconserving crops, excluding acreage within the applicable allotment of commodities other than feed grains and wheat.

(2) Prevented planting payments shall be determined by:

(i) Crediting the acreage for payment proportionately to each commodity of the total feed grain and wheat allotments.

(ii) Multiplying the acreage credited to each feed grain by the applicable yield established as provided in § 775.9 and by the applicable per bushel rate determined in accordance with § 775.10(b).

(iii) Multiplying the acreage credited to wheat by the yield and by the disaster payment rate established as provided in Part 728 of this chapter, as amended.

(b) *Low yields.* (1) Eligibility for low yield payments and the total acreage on which such payments are based shall be determined by grouping feed grain allotments together with other allotments of commodities involved in substitution. Substitution shall be applicable when the total feed grain allotment or wheat allotment is underplanted and the total feed grain allotment, wheat allotment, or cotton allotment is overplanted. Cotton acreage in excess of the cotton allotment shall be considered as substituted for feed grains only when the total feed grain allotment is underplanted more than the wheat allotment is overplanted.

Where substitution is applicable, any reference in this section to the allotment, planted acres, established yield, or county yield shall be deemed also to refer, where appropriate, to the applicable allotment, planted acres, established yield, or county yield for the commodities involved in substitution. Failed feed grain or wheat acreage which is replanted to another program crop (upland cotton, feed grain, or wheat), and any acreage from which the production is not appraised and an immature program crop is used for other than lint, grain, or corn or grain sorghum silage, shall be disregarded for the purpose of determining low yield payments.

(2) A farm shall not be deemed to have suffered a loss which qualifies it for a low yield payment unless the current year production is less than the smaller of the allotment or planted acres multiplied by the applicable yield established as provided in § 775.9 and by a factor determined by dividing two-thirds of the 10-year average county yield by the county yield referred to in § 775.8: *Provided*, That a farm may qualify for a low yield payment even though it does not qualify under the foregoing provision if (i) the provisions of § 775.9(b) do not result in a reduction in the established yield and (ii) the current year production is less than two-thirds of what the production would be computed by multiplying the smaller of the allotment or planted acres by one of the following:

(i) The smaller of the applicable yield established as provided in § 775.9 or the actual unadjusted average yield for the preceding five years.

(ii) The applicable yield established as provided in § 775.9 and:

(*a*) There is convincing proof that the loss due to a sudden and identifiable destruction of the crop,

(*b*) Acreage is actually harvested from which the per acre yield is at least two-thirds of the established yield, and the county committee determines that but for the disaster the per acre yield on the destroyed acreage would have been equal to that obtained on the acreage harvested, and

(*c*) Payment is approved in writing by a representative of the State committee.

(3) The production from program crop acreage not harvested shall be appraised and added to the actual production for the purpose of determining eligibility for and amount of low yield payments, in accordance with instructions issued by the Deputy Administrator.

(4) The total acreage on which low yield payments are based shall be determined by converting the deficiency in production below 100 percent of the smaller of the allotment or planted acres times the applicable yield established as provided in § 775.9 to an acre equivalent figure representing such deficiency.

(5) Low yield payments shall be determined by:

(i) Crediting the acreage for payment proportionately to each commodity of the total feed grain allotment (total of all allotments involved in substitution).

(ii) Multiplying the acreage credited to each feed grain by the applicable yield established as provided in § 775.9 and by the applicable per bushel rate determined in accordance with § 775.10(b).

(iii) Multiplying the acreage credited to wheat by the yield and by the disaster payment rate established as provided in Part 728 of this chapter, as amended.

(iv) Multiplying the acreage credited to cotton by the yield and by the disaster payment rate established as provided in Part 722 of this chapter, as amended.

(6) The total low yield payment for feed grains shall be reduced by an amount up to the net value of any annual nonconserving crop, other than feed grains, wheat, or upland cotton, planted on failed feed grain acreage within the applicable allotment(s). The reduction amount shall be computed in accordance with instructions issued by the Deputy Administrator.

§ 775.19 Division of payments and additional provisions relating to tenants and sharecroppers.

The regulations relating to the division of payments and additional provisions relating to tenants and sharecroppers are set forth in Part 794 of this chapter, as amended.

§ 775.20 Successors-in-interest.

(a) In the case of the death, incompetency, or disappearance of any producer whose name appears on Form 580, the payment due him shall be made to his successor as determined in accordance with the regulations in Part 707 of this chapter, as amended.

(b) When any person who had an interest as a producer of feed grains or would have had an interest as a producer if feed grains had been planted (herein called "predecessor") is succeeded on the farm by another producer (herein called "successor") after Form 580 has been filed, the payment to the predecessor and successor shall be divided between them on such basis as they agree is fair and equitable. If such persons are unable to agree to a division of the payment, the payment shall be issued to the producer who has the interest in the crop at the time of harvest. If the crop is completely destroyed prior to harvest, the payment shall be issued to the producer who had the interest at the time of destruction of the crop. In the event no crop is planted for harvest, a fair and equitable division of the payment shall be determined by the county committee.

(c) In any case where any payment due any successor producer has previously been paid to the producer who filed Form 580, such payment shall not be paid to the successor producer unless it is recovered from the producer to whom it has been paid or payment is authorized by the Deputy Administrator.

§ 775.21 Misrepresentation and scheme or device.

(a) A producer who is determined by the county committee or the State committee to have erroneously represented any fact affecting a program determination shall not be entitled to payments under the program for the farm with respect to which the representation was made and shall refund to the Commodity Credit Corporation the payments received by him with respect to such farm.

(b) A producer who is determined by the State committee, or the county committee with the approval of the State committee, to have knowingly (1) adopted any scheme or device which tends to defeat the purpose of the program, (2) made any fraudulent representation, or (3) misrepresented any fact affecting a program determination shall not be entitled to payments for any farm under the program and shall refund to the Commodity Credit Corporation all payments received by him with respect to the program.

(c) The provisions of this section shall be applicable in addition to any liability under criminal and civil fraud statutes.

§ 775.22 Setoffs and assignments.

(a) *Producer indebtedness.* The regulations issued by the Secretary governing setoffs and withholdings, Part 13 of this chapter, as amended, shall be applicable to this program.

(b) *Assignments.* Payments may be assigned only to the Farmers Home Administration in accordance with instructions issued by the Deputy Administrator.

§ 775.23 Appeals.

A producer may obtain reconsideration and review of determinations made under this subpart in accordance with the Appeal Regulations, Part 780 of this chapter, as amended.

§ 775.24 Performance based upon advice or action of county or State committee.

The provisions of Part 790 of this chapter, as amended, relating to performance based upon action or advice of an authorized representative of the Secretary shall be applicable to this subpart.

§ 775.25 Supervisory authority of State committee.

The State committee may take any action required by these regulations which has not been taken by the county committee. The State committee may also (a) correct, or require a county committee to correct, any action taken by such county committee which is not in accordance with the regulations of this subpart, or (b) require a county committee to withhold taking any action which is not in accordance with the regulations of this subpart.

§ 775.26 Delegation of authority.

No delegation herein to a State or county committee shall preclude the Administrator, ASCS, or his designee, from determining any question arising under the program or from reversing or modifying any determination made by a State or county committee.

Effective date: Since farmers are now completing their plans for the 1974 crop year, it is essential that the foregoing regulations governing the Feed Grain Program for Crop Years 1974–1977 be made effective as soon as possible. It is hereby found and determined that compliance with the notice and public procedure provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest. Accordingly, these regulations shall become effective July 12, 1974.

Signed at Washington, D.C. on June 26, 1974.

GLENN A. WEIR,
Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Regulation 473]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period July 12–18, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.773 Valencia Orange Regulation 473.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges is still considered weak. Prices f.o.b. averaged $3.22 per carton on a reported sales volume of 439 carlots last week, compared with an average f.o.b. price of $3.30 per carton and sales of 538 carlots a week earlier. Track and rolling supplies at 296 cars were down 24 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 9, 1974.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period July 12, 1974, through July 18, 1974, are hereby fixed as follows:

(i) District 1: 275,000 cartons;

(ii) District 2: 225,000 cartons;

(iii) District 3: Unlimited movement."

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated:

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74–16136 Filed 7–11–74;8:45 am]

[Lemon Reg. 647]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period July 14–20, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.947 Lemon Regulation 647.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is active on all sizes and grades. Several auction

markets are oversupplied at the present, but supplies generally are in line with demand. Average f.o.b. price was $6.03 per carton the week ended July 6, 1974, compared to $6.13 per carton the previous week. Track and rolling supplies at 207 cars were down 33 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 9, 1974.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period July 14, 1974, through July 20, 1974, is hereby fixed at 275,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 11, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74–16139 Filed 7–11–74;8:45 am]

[Lime Reg. 8]

PART 911—LIMES GROWN IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida limes that may be shipped to fresh market during the weekly regulation period July 14–July 20, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 911. The quantity of limes so fixed was arrived at after consideration of the total available supply of Florida limes, the quantity currently available for market, lime prices, and the relationship of season average returns to the parity price for Florida limes.

§ 911.408 Lime Regulation 8.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 37 FR 10497), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of limes that may be marketed during the ensuing week stems from the production and marketing situation confronting the Florida lime industry.

(i) The committee has submitted its recommendation with respect to the quantity of limes which it deems advisable to be handled during the succeeding week. Such recommendation results from the production and marketing situation confronting the Florida lime industry. The committee further reports the fresh market demand for limes is now improving after shipping point prices reached season low levels for the week ending July 6, 1974. Fresh shipments for the weeks ended July 6, 1974 and June 29, 1974, were 12,925 bushels and 27,138 bushels, respectively.

(ii) Having considered the recommendation and information submitted by the committee, and other available information the Secretary finds that the quantity of limes which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Florida limes, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such limes; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 9, 1974.

(b) *Order.* (1) The quantity of limes grown in Florida which may be handled during the period July 14, 1974 through July 20, 1974 is hereby fixed at 24,000 bushels.

(2) As used in this section, "handled" and "limes" have the same meaning as when used in said amended marketing agreement and order, and "bushel" means 55 pounds of limes.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 10, 1974.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Loan and Purchase Regulations, 1974-Crop Dry Edible Bean Supplement]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1974-Crop Dry Edible Bean Loan and Purchase Program

RATE MATTERS

On February 19, 1974, notice of proposed rulemaking regarding loan and purchase rates for 1974-crop dry edible beans and detailed operating provisions to carry out the 1974 dry edible bean program was published in the FEDERAL REGISTER (39 FR 6535). Forty-five responses were received from interested individual farmers, farm organizations, and other interested parties. These responses included requests ranging from an increase in price support to the elim-

ination of the price support program. After considerations of all responses, it has been determined that loan and purchase rates for the individual classes remain the same as in 1973. Other operating provisions for the 1974 crop remain the same as those for the 1973 crop.

The General Regulations Governing Price Support for the 1970 and Subsequent Crops (35 FR 7362, as amended) and the 1970 and Subsequent Crops Dry Edible Bean Loan and Purchase Program Regulations (35 FR 8537, 36 FR 8362 and 9001), which contain regulations of a general nature with respect to price support operations, are further supplemented for 1974-crop dry edible beans. The material previously appearing in this subpart in §§ 1421.140 through 1421.143 remains in full force and effect as to the crop to which it was applicable.

Sec.
1421.140 Purpose.
1421.141 Availability.
1421.142 Maturity of loans.
1421.143 Loan and purchase rates.

AUTHORITY: Sec. 4, 62 Stat. 1070, as amended; (15 U.S.C. 714b). Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053; (15 U.S.C. 714c, 7 U.S.C. 1421, 1441).

§ 1421.140 Purpose.

This supplement contains additional program provisions which, together with the provisions of the General Regulations Governing Price Support for the 1970 and Subsequent Crops and any amendments thereto, or revisions thereof, and the 1970 and Subsequent Crop Dry Edible Bean Loan and Purchase Program Regulations, and any amendments thereto, apply to loans and purchases for 1974-crop dry edible beans.

§ 1421.141 Availability.

(a) *Loans.* A producer desiring a CCC loan must request a loan on his eligible beans on or before March 31, 1975.

(b) *Purchases.* To sell dry edible beans to CCC through the purchase program, a producer must execute and deliver to the appropriate county ASCS office on or before April 30, 1975, a purchase agreement (Form CCC-614), indicating the approximate quantity of 1974-crop dry edible beans he will sell to CCC.

§ 1421.142 Maturity of loans.

Unless demand is made earlier, loans on dry edible beans will mature on April 30, 1975.

§ 1421.143 Loan and purchase rates.

The rate for beans placed under a loan other than a loan on beans stored commingled in an approved warehouse shall be the applicable basic rate specified in paragraph (a) of this section for the county in which the beans were produced, adjusted as provided in paragraph (d) of this section. The rate for loans on beans stored commingled in approved warehouse storage and for settlement of all loans and purchases shall be the applicable basic rate specified in paragraph (a) of this section for the county in which the beans were produced, adjusted in accordance with paragraphs (b), (c), and (d) of this section, and adjusted also, in the case of settlements, by such discounts as CCC may establish for class, grade, and quality factors not specified in this section which affect the value of the beans, such as (but not limited to) splits, damage, contrasting classes, and foreign material. The discounts established for the purpose of settlement will be based upon the market discounts for such factors at the time the beans are delivered to CCC, as determined by CCC. Producers may obtain schedules of such factors and discounts at county ASCS offices approximately 1 month prior to the loan maturity date. Except in the case of Large lima beans, if the beans have been moved by truck to approved storage or are on track in a higher loan and purchase rate county, or if the warehouse guarantees delivery by truck to approved storage or on track in a higher loan and purchase rate county, the loan and purchase rate shall be determined on the basis of the basic loan and purchase rate specified in paragraph (a) of this section for the county in which the beans are stored or to which delivery is guaranteed rather than the county in which the beans were produced. Settlement shall be made in accordance with the provisions of § 1421.23.

(a) *Basic county loan and purchase rates.* The basic county loan and purchase rates per 100 pounds net weight for beans of all classes grading Prime Handpicked or U.S. No. 1 are as follows:

Class and area:	*Rate per 100 lb prime handpicked or U.S. No. 1 in jute or polypropylene bags*
Pinto:	
Area I New Mexico, all counties	$6.57
Area II—Idaho, Kansas, Nebraska, Oklahoma, Texas, and Washington. In Colorado, the counties of Larimer, Boulder, Gilpin, Clear Creek, Jefferson, Teller, Fremont, Pueblo, Huerfano, and Las Animas and all counties east thereof in Colorado. In Wyoming the counties of Converse, Goshen, Laramie, and Platte	6.47
Area III—Arizona, California, Montana, South Dakota, and Utah. In Wyoming, all counties not in Area II. In Colorado, all counties not in Area II	6.27
Area IV—other States	6.07
Great Northern:	
Area I—Nebraska, Minnesota, and North Dakota. In Colorado, all counties east of 106° longitude. In Wyoming, the counties of Converse, Goshen, Laramie, and Platte	7.21
Area II—South Dakota, Montana, and Idaho. In Wyoming, all counties not in Area I and in Oregon, Malheur County	7.01
Area III—other States and counties	6.71
Pea (Navy), U.S. No. 1 and U.S. prime handpicked pea beans:	
Area I—Michigan, New York, Maine, Minnesota, and Wisconsin	6.70
Area II—Other States	6.20
Small White and Flat Small White	7.80
Dark Red Kidney	8.51
Light Red Kidney	8.70
Pink	7.32
Small Red:	
Area I—Idaho, Colorado, and Washington	7.47
Area II—Other States	7.42
Large lima	10.39
Baby lima	6.39

(b) *Premium.*

	Cents per 100 lb.
Grade U.S. CHP (Pea beans)	25
Grade U.S. CHP (all other beans)	10
Grade U.S. Extra No. 1	10

(c) Discount.

	Cents per 100 lb.
Grade U.S. No. 2	25
Paper package	09

(d) Deduction for processing charges. In the case of beans which have not been processed (i.e., commercially cleaned), the rate shall be reduced by the following amounts (except for beans stored commingled in an approved warehouse):

	Dollars per 100 lb. from U.S. No. 1 rate
All States except Michigan and New York	$1.00
Michigan, Pea beans only	1.00
Michigan, other classes	1.50
New York	2.00

Effective date: July 12, 1974.

Signed at Washington, D.C., on July 3, 1974.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—LOANS PRIMARILY FOR PRODUCTION PURPOSES

[FmHA Instruction 441.4]

PART 1832—EMERGENCY LOANS

Subpart B—Emergency Loan Processing

Section 1832.32(a) of Chapter XVIII of Title 7, Code of Federal Regulations (37 FR 7293), is amended to remove reference to § 1832.5(f) which has been deleted (39 FR 20677). Inasmuch as the amendment is an editorial change, it is unnecessary to publish notice of proposed rulemaking.

As amended, § 1832.32(a) reads as follows:

§ 1832.32 Loan forms and routines.

(a) *Applications.* Applications for loans will be taken as outlined in Part 1801 of this chapter. However, the first sentence in item 23 of Form FHA 410-1, "Application for FHA Services," will be deleted for use by applicants where ability to obtain credit elsewhere is not

disqualifying. This deletion will be initialed by the applicant.

PART 1832—EMERGENCY LOANS

Subpart D—Additional Benefits for Certain Indebted and Paid-up Emergency and Rural Housing Disaster Loan Borrowers

Subpart D of Part 1832, "Additional Benefits for Certain Indebted and Paid-up Emergency and Rural Housing Disaster Loan Borrowers," is deleted from Chapter XVIII, Title 7, Code of Federal Regulations (38 FR 14089, 38 FR 20246). Subpart D, which provided for additional benefits under Pub. L. 92-385, dated August 16, 1972, for certain indebted and paid-up Emergency and Rural Housing Disaster loan borrowers is no longer required by law. This deletion is, therefore, being published without notice of proposed rulemaking and is effective July 12, 1974.

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

[File No. CO845-P]

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES: APPREHENSION, CUSTODY, HEARING, AND APPEAL

Applications for Temporary Withholding of Deportation; Consideration of Nonrecord Information

JULY 8, 1974.

Reference is made to the notice of proposed rulemaking which was published in the FEDERAL REGISTER of June 4, 1974 (39 FR 19783) pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383) and in which there was set forth the proposed amendment of § 242.17(c) of Title 8 of the Code of Federal Regulations pertaining to the consideration of nonrecord information in the determination of an application for temporary withholding of deportation.

No representations were received concerning the proposed rules of June 4, 1974. No change has been made in the proposed rules. The proposed rules, as set forth below, are hereby adopted:

In § 242.17, the existing last sentence of paragraph (c) is revoked and four new sentences are added in lieu thereof. As amended, § 242.17(c) reads as follows:

§ 242.17 Ancillary matters, applications.

* * * * *

(c) *Temporary withholding of deportation.* The special inquiry officer shall notify the respondent that if he is finally ordered deported his deportation will in the first instance be directed pursuant to section 243(a) of the Act to the country designated by him and shall afford the respondent an opportunity then and there to make such designation. The special inquiry officer shall then specify and state for the record the country, or countries in the alternate, to which respondent's deportation will be directed pursuant to section 243(a) of the Act if the country of his designation will not accept him into its territory, or fails to furnish timely notice of acceptance, or the respondent declines to designate a country. The respondent shall be advised that pursuant to section 243(h) of the Act he may apply for temporary withholding of deporation to the country or countries specified by the special inquiry officer and may be granted not more than ten days in which to submit his application. The application shall consist of respondent's statement setting forth the reasons in support of his request. The respondent shall be examined under oath on his application and may present such pertinent evidence or information as he has readily available. The respondent has the burden of satisfying the special inquiry officer that he would be subpect to persecution on account of race, religion, or political opinion as claimed. The trial attorney may also present evidence or information for the record, and he may submit information not of record to be considered by the special inquiry officer provided that the special inquiry officer or the Board has determined that such information is relevant and is classified under Executive Order No. 11652 (37 FR 5209; March 10, 1972) as requiring protection from unauthorized disclosure in the interest of national security. When the special inquiry officer receives such non-record information he shall inform the respondent thereof and shall also inform him whether it concerns conditions generally in a specified country or the respondent himself. Whenever he believes he can do so consistently with safeguarding both the information and its source, the special inquiry officer should state more specifically the general nature of the information in order that the respondent may have an opportunity to offer opposing evidence. A decision based in whole or in part on such classified information shall state that such information is material to the decision.

(Sec. 103, 66 Stat. 173 (8 U.S.C. 1103))

The basis and purpose of the above-prescribed rules are to modify existing regulations to provide that the temporary withholding of deportation under section 243(h) of the Immigration and Nationality Act, as amended, may be based on nonrecord information only in cases involving national security.

Effective date. The amendments to the regulations contained in this order shall become effective August 12, 1974.

Dated: July 8, 1974.

L. F. CHAPMAN, JR.,
Commissioner of Immigration and Naturalization.

[FR Doc.74-15985 Filed 7-11-74;8:45 am]

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Allocation Fractions in Excess of One

A notice of proposed rulemaking concerning the disposition of surplus product when a supplier's allocation fraction is greater than one was issued June 14, 1974 (39 FR 21058). Comments were invited from interested persons by June 26, 1974. In response more than 30 comments were received by the Federal Energy Administration. The amendment of § 211.10(g) of Part 211 of the Mandatory Petroleum Allocation Regulations published herewith reflects FEA's consideration of those comments and other relevant information and incorporates substantial changes to the proposed rule.

Several comments noted that the same quantities of surplus product would be reported to the FEA many times during distribution, and that the post-delivery reports required in the proposal of refiners would be unduly burdensome. Accordingly, the amendment provides that only refiners, and for products subject to State set-aside, prime suppliers and firms which supply prime suppliers, such as brokers, need report surplus product. The report must specify the volume, location, price availability of transportation, and significant specifications of the surplus product available. No post-delivery reports are required, although all firms reporting surplus product must maintain internal records subject to audit. In addition, the amendment provides that FEA will have only ten days following FEA's receipt of notification in which to redirect product.

Several comments noted that while a supplier which is also a refiner was barred in the proposal from discriminating in favor of the purchasers it owns and operates, a non-refiner supplier was not so limited. The amendment, therefore, provides that both refiners and non-refiner suppliers must supply to purchasers which they do not own and operate a certain share of any surplus distributed within their distribution systems to the extent that those categories of purchasers are willing to accept it.

A new § 211.10(f)(2) is added, which states that suppliers whose allocation fraction is less than or equal to one (1.0) are permitted to report to FEA as surplus those quantities of product which they have been notified will not be pur-

chased during the period corresponding to a base period.

The proposed restriction on the distribution of surplus propane is extended to butane as well; all industrial uses and gas utility uses are added to those uses which may not be offered or accept quantities of propane or butane in excess of 100 percent of period use. Inventory build-up to achieve the levels specified in Subparts D and E is, however, permitted.

Conforming changes deleting modified allocation levels and references thereto from the appropriate subparts are made.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185)

In consideration of the foregoing, Chapter II of Title 10 of the Code of Federal Regulations is amended as set out herein, effective immediately.

Issued in Washington, D.C., on July 9, 1974.

ROBERT E. MONTGOMERY, JR.,
Acting General Counsel,
Federal Energy Administration.

1. Section 211.10 is amended in paragraph (f) by redesignating paragraph (f) as paragraph (f)(1) and adding a new subparagraph (2) and revising paragraph (g) to read as follows:

§ 211.10 Supplier's method of allocation.

* * * * *

(f) *Allocation fractions less than one.* (1) * * *

(2) Any supplier whose allocation fraction is equal to or less than one (1.0) and whose wholesale purchasers and end-users entitled to receive an allocation from that supplier either have not purchased or have notified the supplier of their intent not to purchase their complete allocation entitlement by the end of the period corresponding to a base period may report and dispose of such volumes in accordance with the provisions of paragraph (g) of this section.

(g) *Allocation fractions greater than one.* (1) *General.* In allocating allocable supplies of any allocated product among wholesale purchasers and end-users, no supplier may use an allocation fraction greater than one (1.0) except as provided herein.

(2) *Non-reporting suppliers.* Any wholesale purchaser-reseller which is a retail sales outlet or any other supplier not subject to subparagraph (3) below and which has an allocation fraction in excess of one (1.0) for a period corresponding to a base period shall make allocations based on an allocation fraction of one (1.0) and may distribute its surplus product at its discretion. There is no requirement that such a wholesale purchaser-reseller report its surplus product to FEA.

(3) *Surplus product reports.* A supplier of an allocated product which is either a refiner, a prime supplier in any state, or a supplier of a prime supplier (such as a broker) and which is not a retail sales outlet and which has an allocable supply of sufficient magnitude that its allocation fraction computed pursuant to paragraph (b) of this section will exceed one (1.0) for a period corresponding to a base period, shall make allocations based on an allocation fraction of one (1.0) and shall report the volume, location, price, availability of transportation and significant specifications of surplus product available. The surplus product report shall be submitted in writing to the National FEA office, with a copy to the appropriate regional FEA offices, within five (5) days of the supplier's determination that its allocation fraction will exceed one (1.0). The report must be clearly labeled "Surplus Product Report" both on the document and on the outside of the envelope in which the document is transmitted and shall be addressed to: Federal Energy Administration, Surplus Product Report, Post Office Box 19407, Washington, D.C. 20036. The FEA shall provide written notification to each supplier submitting a surplus product report of the exact time of receipt of the surplus product report.

(4) *Redirection.* The National or Regional FEA (whenever authorized by the National FEA) may within ten (10) days after actual receipt of notification made pursuant to subparagraph (3) above direct that the product so reported be distributed among other suppliers, sold to designated wholesale purchasers or end-users, be distributed to the reporting supplier's purchasers on a pro-rata basis, such as using an allocation fraction greater than one (1.0), or be accumulated in inventory.

(5) *Reporting suppliers.* Any supplier which reports pursuant to subparagraph (3) above may distribute its surplus product at its discretion if it is not notified to the contrary within ten (10) days of receipt of FEA of the supplier's notification under subparagraph (3) above except that (i) the supplier shall supply, in the aggregate, to the category of wholesale purchaser-resellers which are branded independent marketers and, separately, to the category of wholesale purchaser-resellers which are nonbranded independent marketers, to the extent that such categories of purchasers are willing to accept it, at least the same proportion of the supplier's surplus product as the total allocation entitlements of such branded or nonbranded independent marketers bear to the total allocation entitlement of all purchasers which are entitled to receive an allocation from that supplier and (ii) retail sales outlets owned and operated by the supplier may not purchase or be supplied, in the aggregate, a greater proportion of the supplier's surplus product than the total allocation entitlements of all such retail sales outlets bear to the total allocation entitlements of all purchasers which are entitled to receive an allocation from that supplier unless the supplier first meets all requests for products from independent marketers to the extent required in subparagraph (i) above.

(6) *Records of disposition of surplus product.* Any supplier which reported surplus product for a period corresponding to a base period as required by subparagraph (3) above shall maintain adequate records to allow FEA, upon request, to ascertain the disposition of the surplus product.

(7) *Purchaser's rights.* Notwithstanding the provisions of § 211.12, any wholesale purchaser or end-user may purchase allocated product from any supplier which certifies that it has surplus product to distribute and that it has complied with the provisions of this paragraph.

(8) *Limitation on purchaser's rights.* No supplier shall supply and no end-user or wholesale purchaser-consumer shall accept quantities of an allocated product which exceed one hundred (100) percent of the end-user's or wholesale purchaser-consumer's current requirements, except pursuant to subparagraph (9) or as directed by FEA.

(9) *Special restriction on propane and butane.* No supplier shall supply and no end-user or wholesale purchaser-consumer shall accept quantities of propane or butane in excess of one hundred (100) percent of base period use for synthetic natural gas feedstock use, gas utility use, or any industrial use except for the purpose of increasing inventories to the levels allowed under § 211.86 (g) or § 211.96(e).

2. Section 211.107 is revised in paragraph (b) to read as follows:

§ 211.107 Method of allocation.

* * * * *

(b) Allocations of motor gasoline to retail sales outlets and other purchasers shall be made as specified in § 211.10. Suppliers which have an allocation fraction greater than one (1.0) shall distribute their surplus product in accordance with the provisions of § 211.10(g) notwithstanding the provisions of § 211.106 with respect to reassignments among retail sales outlets.

§§ 211.84, 211.104, 211.124, 211.144, 211.164 [Revoked]

3. Sections 211.84, 211.104, 211.124, 211.144 and 211.164 are revoked.

4. Section 211.86 is revised in paragraphs (e) and (g) to read as follows:

§ 211.86 Method of allocation.

* * * * *

(e) Operators of merchant storage facilities shall not release for shipment to gas utilities any quantity of propane which, when taken together with other amounts of propane supplied to that utility for the allocation quarter, exceeds the quantity of propane which may be supplied under the allocation level for gas utilities in § 211.83(c)(2)(v).

* * * * *

(g) Producers, suppliers and wholesale purchasers (except gas utilities and industrial users) shall be permitted to accumulate an inventory of propane during the summer in quantities which are normal and reasonable for seasonal usage in accordance with their normal business

practices. Inventories controlled by gas utilities and industrial users (including petrochemical producers) shall be limited to:

(1) One hundred twenty (120) percent of the allocation entitlement specified in § 211.83(c)(2)(v).

(2) One hundred twenty (120) percent of the volumes used for all industrial uses (including standby volumes) during the period April 1, 1972 through March 31, 1973, provided, however, that an industrial firm may not use such inventories to exceed its allocation entitlement as specified in § 211.83.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION

[Docket No. 74-GL-12; Amdt. 39-1896]

PART 39—AIRWORTHINESS DIRECTIVE

Hartzell Propellers

There have been failures of the blade pitch control knobs which have resulted in loss of propeller control in flight. The cause of these failures is believed to originate from excessive friction in the blade thrust bearing, usually due to lack of grease and subsequent bearing brinelling. Also, there is the fretting action between the blade pitch change block and the bushing on the blade pitch change knob. Since this condition is likely to exist or develop in other blades of the same design, an airworthiness directive is being issued to require replacement of the affected blades on certain Hartzell propellers.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

74-GL-12 Hartzell Propellers. Amendment 39-1896. Applies to the Hartzell HC-( )( )Y( )-1( ) constant speed compact series propellers with 8475( )-( ) and 8477( )-( ) type blades used on but not limited to Piper PA-32-260 and PA-32-300 type aircraft. Propellers with an "F" designation (e.g., HC-( )( )Y( )-( )F/F8475( )-( ), F8477( )-( )) are not affected by this Airworthiness Directive.

Compliance required as indicated, unless already accomplished. To prevent possible blade pitch control failures accomplish the following:

(a) Propellers with 1000 or more total hours in service, as of the effective date of this Airworthiness Directive, modify and replace with equivalent model blades having an "F" prefix in accordance with paragraph (d) within the next 200 hours in service after the effective date of this Airworthiness Directive.

(b) Propellers with less than 1000 hours in service, as of the effective date of this Airworthiness Directive, modify and replace with equivalent model blades having an "F" prefix in accordance with paragraph (d) prior to the accumulation of 1200 hours in service.

(c) Propellers whose total hours in service are unknown will be assumed to have 1000 hours minimum and thus fall within the requirements for modification and blade replacement in accordance with Paragraph (a).

(d) Remove propeller from aircraft and remove blades from the hub. Modify the pitch change system and replace blades with equivalent model blades prefixed with letter "F" in accordance with Hartzell Service Letter No. 69, revised November 30, 1971, and Bulletin No. 101B dated May 1, 1974, or later Federal Aviation Administration approved revisions, or an equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, Great Lakes Region.

(Hartzell Overhaul Instructions 113(B), or later Federal Aviation Administration approved revisions, also pertain to this subject)

This amendment becomes effective as of July 16, 1974.

(Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Des Plaines, Illinois on July 2, 1974.

JOHN M. CYROCKI,
Director, Great Lakes Region.

[FR Doc.74-15976 Filed 7-11-74;8:45 am]

[Docket No. 74-NE-9; Amdt. 39-1898]

PART 39—AIRWORTHINESS DIRECTIVE

Pratt & Whitney Model JT3D Engines

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive reducing the discs cyclic life on Pratt and Whitney JT3D aircraft engines containing 14th stage compressor disc, P/N 657814, was published in the FEDERAL REGISTER on April 23, 1974 (39 FR 14357).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of the Federal Aviation regulations is amended by adding the following new airworthiness directive:

PRATT & WHITNEY. Applies to all Pratt & Whitney Aircraft JT3D turbofan engines containing 14th stage compressor disc, P/N 657814.

Compliance required as indicated.

To ensure adequate life limit margin for 14th stage compressor discs, P/N 657814, the cyclic life limits on these discs have been reduced below the figures currently approved. Unless already accomplished, remove from service 14th stage compressor discs prior to exceeding the revised life limit listed below or within the next 25 cycles in service after the effective date of this airworthiness directive whichever comes later.

Engine model	Previous life limit (cycles)	Revised life limit (cycles)
JT3D-1	19,000	10,000
JT3D-3B	15,000	8,000
JT3D-7	15,000	3,000

If a disc has been used in more than one engine model, the disc is limited to the lowest cycle life permitted for the engine models in which it has been exposed.

This amendment becomes effective July 25, 1974.

(Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(c), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Burlington, Massachusetts, on July 3, 1974.

FERRIS J. HOWLAND,
Director, New England Region.

[FR Doc.74-15977 Filed 7-11-74;8:45 am]

[Docket No. 74-NE-26; Amdt. 39-1890]

PART 39—AIRWORTHINESS DIRECTIVE

Sikorsky Model S-58 Helicopters

There have been reports of cracks in the tail rotor gear box input and intermediate housings which have resulted in structural failures with loss of tail rotor control on Sikorsky S-58 helicopters. In addition, there have been reports of erroneous painting of mating surfaces between the input housing and the hot plate fitting of the pylon which could result in the loss of bolt torque. Since these conditions are likely to exist or develop in other helicopters of the same type design, an airworthiness directive is being issued to require both one time and repetitive inspections to detect cracks in the housings and also erroneous painting of mating surfaces.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SIKORSKY AIRCRAFT. Applies to all S-58 model series helicopters. Compliance required as indicated unless already accomplished.

To preclude possible failure of the input and/or intermediate housings of the tail rotor gear box assembly, P/N S1635-64000 series, accomplish the following:

1. Within the next 10 hours time in service after the effective date of this AD, inspect the nuts attaching the tail rotor gear box assembly to the pylon fitting and the input and intermediate housings of the gear box in accordance with the instructions set forth in section 2, paragraph A, of Sikorsky Service Bulletin No. 58535-17A dated June 4, 1974, or later FAA approved revision.

2. Within the next 25 hours time in service after the effective date of this AD, remove the tail rotor gear box assembly (P/N S1635-64000 series) from the aircraft and accomplish the one-time inspection set forth in section 2, paragraph B, of Sikorsky Service Bulletin No. 53B35-17A dated June 4, 1974, or later FAA approved revision.

3. If lightweight input housing, P/N S1635-64009, and/or light weight intermediate housing, P/N S1635-64010, is installed, accomplish the repetitive inspection set forth in Section 2, Paragraph C, of Sikorsky Serv-

ice Bulletin No. 58B35-17A dated June 4, 1974, or later FAA approved revision every 10 hours time in service after the inspections required in Paragraph 1 above.

4. Within 50 hours time in service after the inspections required in Paragraph 1 above and every 50 hours time in service thereafter, accomplish the following:

a. If lightweight input housing, P/N S1635-64009, and/or lightweight intermediate housing, P/N S1635-64010, is installed, inspect in accordance with Section 2, Paragraph D(1) of Sikorsky Service Bulletin No. 58B35-17A dated June 4, 1974, or later FAA approved revision.

b. If heavyweight input housing, P/N S1635-64009-3N, and heavyweight intermediate housing, P/N S1635-64074, are both installed, inspect in accordance with section 2, Paragraph D(2) of Sikorsky Service Bulletin No. 58B35-17A dated June 4, 1974, or later FAA approved revision.

c. Inspect the nuts attaching the tail gear box to the pylon fitting in accordance with Section 2, Paragraph D(3) of Sikorsky Service Bulletin No. 58B35-17A dated June 4, 1974, or later FAA approved revision.

5. Tail rotor gear box assembly (P/N S1635-64000 series) input and intermediate housings and pylon fittings (S1620-64129) found to have evidence of cracks shall be replaced with an acceptable assembly prior to further flight. All other defects found as a result of the inspections required by Paragraphs 1, 2, 3, and 4 shall be repaired in accordance with instructions contained in Sikorsky Service Bulletin No. 58B35-17A dated June 4, 1974, or later FAA approved revision prior to further flight.

6. Upon submittal of substantiating data through a Federal Aviation Administration inspector, the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, New England Region, may adjust the compliance time.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Sikorsky Aircraft, Division of United Aircraft Corporation, Stratford, Connecticut 06602. These documents may also be examined at the Office of the Regional Counsel, New England Region, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803 and at Federal Aviation Administration Headquarters, 800 Independence Avenue SW., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the Federal Aviation Administration at its headquarters in Washington, D.C., and at the New England Regional Office in Burlington, Massachusetts.

This amendment becomes effective July 27, 1974.

(Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Burlington, Massachusetts, on July 3, 1974.

FERRIS J. HOWLAND,
Director, New England Region.

The incorporation by reference provisions in this document was approved by the Director of the FEDERAL REGISTER on June 19, 1967.

[FR Doc.74-15980 Filed 7-11-74;8:45 am]

[Docket No. 74-NE-25, Amdt. 39-1899]

PART 39—AIRWORTHINESS DIRECTIVE

Sikorsky S-61L Helicopters

There have been reports of cracks on the pylon hinge attachment bolts, P/N S6120-65164-0, and in the upper fuselage pylon hinge fitting alignment pad and the lug bore which could result in a separation of the pylon on the Sikorsky S61L helicopters. Since this condition is likely to exist or develop in helicopters of the same type design, an airworthiness directive is being issued to require inspection of the affected parts for crack and rework or replacement of cracked parts as necessary.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

SIKORSKY AIRCRAFT. Applies to all Sikorsky S-61L Helicopters certificated in all categories.

Compliance required as indicated.

To prevent possible separation of the pylon on the Sikorsky S-61L Helicopter due to cracks in the pylon hinge fittings and attachment bolts, accomplish the following:

A. For the upper pylon hinge fittings, P/N S6120-66117-0 and -2, and the lower pylon hinge fittings, P/N S6120-77120-0 and -2:

1. Within the next 25 hours time in service after the effective date of this AD, unless already accomplished, inspect the upper and lower pylon hinge fittings in accordance with Paragraph 2A of Sikorsky Service Bulletin No. 61B20-13, dated June 13, 1974, or later revisions approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, New England Region. If the fittings are making contact, conduct a Fluorescent Penetrant Inspection (FPI) in accordance with Paragraph 2B of the above referenced Service Bulletin.

2. If crack is found on the flat surface of the alignment pad, perform the following prior to further flight:

a. Machine a maximum depth of .030 inches from the flat surface only. If a FPI indicates that a crack still exists, replace fitting prior to further flight.

b. If crack is eliminated by machining, rework in accordance with Paragraph 2C of the above referenced Service Bulletin.

3. If crack is found around the edge of the bushing in lug, replace fitting prior to further flight and rework in accordance with Paragraph 2C of the above referenced Service Bulletin.

4. For those fittings on which rework performed in accordance with Paragraph 2B above repeat the inspection set forth in Paragraph 2B of the above referenced Service Bulletin and rework in accordance with Paragraph 2C(5) through (7) of the above referenced Service Bulletin at each of the next three 150 hour intervals from the time of the initial rework.

B. Replace the four pylon attachment bolts, P/N S6120-65164-0, with four new bolts, P/N S6120-65164-4, within the next 25 hours of service after the effective date of this AD, in accordance with Service Bulletin No. 61B 20-14, dated June 13, 1974, or later revisions approved by the Chief, Engineering and Manufacturing Branch, FAA, New England Region.

C. The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 522(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Sikorsky Aircraft Division of United Aircraft, North Main Street, Stratford, Connecticut (06602). These documents may also be examined at the FAA, New England Region, 12 New England Executive Park, Burlington, Massachusetts (01803), and FAA Headquarters, 800 Independence Avenue, SW., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at the New England Region.

This amendment becomes effective July 24, 1974.

(Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Burlington, Massachusetts, on July 2, 1974.

FERRIS J. HOWLAND,
Director, New England Region.

JUNE 19, 1967.

The incorporation by reference provisions in this document was approved by the Director of the FEDERAL REGISTER on June 19, 1967.

[FR Doc.74-15981 Filed 7-11-74;8:45 am]

[Airspace Docket No. 74-SW-21]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Harlingen, Tex., transition area.

On May 13, 1974, a notice of proposed rule making was published in the FEDERAL REGISTER (39 FR 17108) stating the Federal Aviation Administration proposed to alter the transition area at Harlingen, Tex.

Interested persons were afforded an opportunity to participate in the rulers making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation regulations is amended, effective 0901 GMT, September 12, 1974, as hereinafter set forth.

In § 71.181 (39 FR 440), the Harlingen, Tex., transition area is amended to read:

HARLINGEN, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Harlingen Municipal Airport (latitude 26°13'36" N., longitude 97°39'12" W.); within

3.5 miles either side of the Harlingen ILS localizer north course extending from the 5-mile radius zone to 11.5 miles north of the outer marker (latitude 26°18'17.7" N., longitude 97°39'28.2" W.); within 1.5 miles each side of the localizer (latitude 26°12'48" N., longitude 97°39'31" W.) back course 181° T radial extending from the 5-mile radius zone to 5.5 miles south of the localizer and within 2 miles either side of the Harlingen VOR 118° radial extending from the 5-mile radius zone to the VOR.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on July 5, 1974.

ALBERT H. THURBURN,
Acting Director,
Southwest Region.

[FR Doc.74-15979 Filed 7-11-74;8:45 am]

[Airspace Docket No. 74-SO-48]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Amendment of Transition Area Alteration

On June 25, 1974, FR Doc. No. 74-14448 was published in the FEDERAL REGISTER (39 FR 22945), amending Part 71 of the Federal Aviation Regulations by altering the Tifton, Ga., transition area.

In the amendment, the longitudinal ordinate for the Henry Tift Myers Airport was published as 86°29'06" W. in lieu of 83°29'06" W. It is necessary to amend the FR Doc. to reflect this change.

In consideration of the foregoing, effective immediately, FR Doc. No. 74-14448 is amended as follows:

In lines one and two of the description "86°29'06" W. * * *" is deleted and "* * * 83°29'06" W. * * *" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 3, 1974.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.74-15978 Filed 7-11-74;8:45 am]

[Docket No. 13889; Amdt. No. 924]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue, S.W., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective August 22, 1974.

CHAPTER I—FEDERAL POWER COMMISSION

SUBCHAPTER A—GENERAL RULES

[Docket No. R-368; Order No. 388-A]

PART 1—RULES OF PRACTICE AND PROCEDURE

Termination of Reporting Requirement; Correction

JULY 2, 1974.

The following corrections are made to FR Doc. 74-11860 issued May 16, 1974, and published at 39 FR 18093, on May 23, 1974:

Ordering paragraph B (page 18093) is redesignated as ordering paragraph C and a new ordering paragraph B is added as follows:

(B) Effective upon issuance of this order, § 1.36(c)(1) is amended by deleting from Subdivision (ii) the parenthetical phrase "(except for the 'Curtailments of Main Line Industrial Customers' reports filed as a supplement to Form No. 2)". As amended that Subdivision reads as follows:

§ 1.36 Public information and requests.

(c) Public records.

* * * * *

(1) * * *

(ii) financial and statistical and other reports to the Commission, power system statements, * * *

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES

Subpart H—Delegations of Authority

Amendment of Delegations of Authority Relating to Certification of Insulin and Antibiotics

The Commissioner of Food and Drugs is amending "Part 2—Administrative Functions, Practices, and Procedures" (21 CFR Part 2) to provide for revised delegations relating to authority to certify insulin and antibiotics. The Certification Services Staff has been transferred to the Office of Compliance of the Bureau of Drugs. This amendment transfers the authority to that office.

Further redelegation of the authority redelegated hereby is not authorized. Authority redelegated hereby to a position by title may be exercised by a person officially designated to serve in such position in an acting capacity or on a temporary basis, unless prohibited by a restriction written into the document designating him as "acting" or unless not legally permissible.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 2 is amended in § 2.121 by revising paragraphs (h) and (i) to read as follows:

§ 2.121 Redelegations of authority from the Commissioner to other officers of the Administration.

* * * * *

(h) *Delegations regarding certification of insulin.* The Director and Deputy Director of the Bureau of Drugs, the Director and Deputy Director of the Office of Compliance of that Bureau, and the Chief and Assistant Chief of the Certification Services Staff of that Office and Bureau are authorized to certify or reject batches of drugs containing insulin, pursuant to section 506(a) of the Federal Food, Drug, and Cosmetic Act.

(i) *Delegations regarding certification of antibiotic drugs.* The Director and Deputy Director of the Bureau of Drugs, the Director and Deputy Director of the Office of Compliance of that Bureau, and the Chief and Assistant Chief of the Certification Services Staff of that Office and Bureau are authorized to certify or reject batches of antibiotic drugs, or any derivative of these drugs, pursuant to sections 507(a) and 512(n) of the Federal Food, Drug, and Cosmetic Act.

* * * * *

Effective date. This order shall be effective July 12, 1974.

(Sec. 701(a), 52 Stat. 1055; (21 U.S.C. 371(a)))

Dated: July 8, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-309]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

* * * * * * *

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map, repository	Local map repository

L. 91-152, Dec. 24, 1969), (42 USC 4001-4127); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969)

Issued: July 2, 1974.

GEORGE K. BERSTEIN,
Federal Insurance Administrator.

[FR Doc.74-15777 Filed 7-11-74;8:45 am]

[Docket No. FI-310]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding. Since this publication is merely for the purpose of informing the public of the location of areas of special flood hazard and has no binding effect on the sale of flood insurance or the commencement of construction, notice and public procedure are impracticable, unnecessary, and contrary to the public interest. Inasmuch as this publication is not a substantive rule, the identification of special hazard areas shall be effective on the date shown. Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

Title 36—Parks, Forests and Public Property

CHAPTER I—NATIONAL PARK SERVICE, DEPARTMENT OF THE INTERIOR

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SERVICE

Yellowstone National Park, Wyoming; Fishing

A proposal was published at page 9982 of the FEDERAL REGISTER of March 15, 1974, to amend paragraph (e) of § 7.13 of Title 36 of the "Code of Federal Regulations." The purpose of this amendment is to protect the fishery resource and, at the same time, provide a high-quality angling experience for park visitors.

Interested persons were given 30 days within which to submit written comments, suggestions, or objections with respect to the proposed amendment. No comments, suggestions or objections have been received and the proposed amendment is hereby adopted without change and is set forth below. This amendment shall take effect on August 12, 1974.

(5 U.S.C. 553; Stat. 535; (16 U.S.C. 3))

Paragraph (e) § 7.13 is amended to read as follows:

§ 7.13 Yellowstone National Park.

* * * * *

(e) Fishing

* * * * *

(3) Closed Waters

* * * * *

(ix) Other Park Waters * * * [Revoked]

* * * * *

(9) Research Areas and Spawning Protection

* * * * *

(i) On other park waters, not specifically identified here, or for certain fish species, the Superintendent may, during the regular fishing season, by the conspicuous posting of signs, shorten or close the season or change daily limits for spawning or research purposes.

* * * * *

JACK K. ANDERSON,
Superintendent,
Yellowstone National Park.

[FR Doc.74-16081 Filed 7-11-74;8:45 am]

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SERVICE

Yellowstone National Park, Wyoming; Camping

A proposal was published at page 13490 of the FEDERAL REGISTER of May 22, 1973, to amend paragraph (g)(3) of § 7.13 of Title 36 of the "Code of Federal Regulations."

The purpose of this amendment is to include minor work and format changes for clarification and consistency in specifying conditions and measures whereby persons must safeguard foodstuffs from wildlife while camping in the park's campgrounds.

Interested persons were given 15 days within which to submit written comments, suggestions, or objections with respect to the proposed amendments. No comments, suggestions or objections have been received and the proposed amendments are hereby adopted without change and as set forth below. These amendments shall take effect on August 12, 1974.

(5 U.S.C. 553; 39 Stat. 535 (16 U.S.C. 3))

Paragraph (g)(3) of § 7.13 is amended to read as follows:

§ 7.13 Yellowstone National Park.

* * * * *

(g) Camping

* * * * *

(3) All food and similar organic material as well as all ice chests, cooking utensils, and food containers must be kept in a closed vehicle that is constructed of solid, nonpliable material or must be suspended at least 10 feet above the ground and 4 feet horizontally from any post or tree; except when food is being eaten or prepared for eating, or when food and similar organic material is being transported.

* * * * *

JACK K. ANDERSON,
Superintendent,
Yellowstone National Park.

[FR Doc.74-16082 Filed 7-11-74;8:45 am]

CHAPTER II—FOREST SERVICE, DEPARTMENT OF AGRICULTURE

PART 231—GRAZING

Revocation and Suspension of Grazing Permits

On Friday, March 24, 1972, a notice of proposed rulemaking was published in the FEDERAL REGISTER (37 FR 6106). The proposal was in the form of an amendment to 36 CFR 231.6 Revocation and Suspension of Grazing Permits, adding a paragraph (c) to the existing regulation. This proposed to make the "violation" or "failure to comply" with certain environmental laws and regulations an optional cause for cancellation or suspension of National Forest System grazing permits. In addition to the FEDERAL REGISTER notice to the public at large, National Forest System grazing advisory boards were provided the specific opportunity to review the proposal as provided by the requirements of the Granger-Thye Act (Sec. 18, 64 Stat. 87, (16 U.S.C. 580k)) and 36 CFR 231.10. All comments from advisory boards and from the public at large were considered in preparation of the regulation published below.

Two primary concerns were voiced in the responses received. One was to the point that the regulation should specify a "conviction of violation" before the regulation was applicable. This suggestion has not been adopted. It would be incorrect to use this language since it suggests a violation of a criminal statute or regulation. Many Federal laws and regulations and State laws pertaining to environmental protection are not criminal in nature. However, it is implicit in the use of the phrases "violation" and "failure to comply" that some commission or omission has been established by an appropriate administrative process or judicial proceeding. The second concern was that the proposal was not clear enough as to what environmental laws or regulations were involved. This has been corrected by reference to air, water, soil and vegetation, fish and wildlife values.

Specific changes are:

1. The phrase "Federal or State laws or Federal Regulation" has been rearranged to "Federal laws or regulations or State laws."

2. The phrase "relating to protection of air, water, soil and vegetation, fish and wildlife, and other environmental values" has been substituted for the phrase "relating to environmental and natural resource conservation or protection."

As so revised, the proposal is hereby adopted to read as set forth below. It becomes effective on August 1, 1974.

§ 231.6 Revocation and suspension of grazing permits.

* * * * *

(c) For violation of, or failure to comply with, Federal laws or regulations or State laws relating to protection of air, water, soil and vegetation, fish and wildlife, and other environmental values when exercising the grazing use authorized by the permit.

(30 Stat. 35, as amended; (16 U.S.C. 551); 33 Stat. 628, (16 U.S.C. 472); 50 Stat. 525, as amended; (7 U.S.C. 1011))

Dated: July 8, 1974.

ROBERT W. LONG,
Assistant Secretary for Conservation, Research and Education.

[FR Doc.74-15991 Filed 7-11-74;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 80—REGULATIONS OF FUELS AND FUEL ADDITIVES

Lead and Phosphorus Test Procedures

Correction

In FR Doc. 74-15449 appearing at page 24890 in the issue of Monday, July 8, 1974, make the following changes:

1. On page 24891:

a. In the seventeenth line of the first paragraph in the first column, the word "result" should read "results".

b. In the first line of paragraph 4.7 in the third column, the figure "200" should read "220".

2. On page 24892:

a. In paragraph 6. in the first column, the word "solultion" in the last line should read "solution".

b. In the table in the second column, the second figure "2.70", under the heading "Sample size, milliliter", should read "2.00".

c. The formula under the heading *"Repeatability"* in the third column should be transferred to appear under the heading *"Reproducibility"*, which appeared in the first column on page 24893 and the formula which appeared under the heading *"Reproducibility"* should be transferred to appear under the heading *"Repeatability"*. The formulas should read as follows:

Repeatability

0.0002 g P/U.S. gal
(0.05 mg P/litre)
7% of the mean

Reproducibility

0.0005 g P/U.S. gal
(0.13 mg P/litre)
18% of the mean

3. In the second column on page 24893, delete the word "and" which appeared in the fifth line of paragraph 4.11.

Title 41—Public Contracts and Property Management

CHAPTER 60—OFFICE OF FEDERAL CONTRACT COMPLIANCE EQUAL EMPLOYMENT OPPORTUNITY, DEPARTMENT OF LABOR

PART 60–2—AFFIRMATIVE ACTION PLANS

Miscellaneous Amendments

The purpose of the following amendments is to clarify the intent of § 60–2.11 (a) and (b) of Part 60 of this chapter as amended in the FEDERAL REGISTER on February 14, 1974 (39 FR 5630). The phrase "job classification" was used in both sections but had different meanings in each. Additionally, the amendment's purpose is to conform similar language in subsequent sections of Revised Order No. 4 (41 CFR 60–2), specifically §§ 60–2.13(d), 60–2.23, 60–2.23(b)(1), 60–2.20 (a)(1) and 60–2.24(b).

The term "job title" will be substituted for the term "job classification" in § 60–2.11(a). Job title means a particular, narrowly defined position in the traditional sense of the meaning of the word job. Additionally, § 60–2.11(a) has been clarified to indicate that where there are no formal progression lines or usual promotional sequences, job titles should be listed by department, job families, or disciplines, in order of wage rates or salary ranges.

The term "job group" will be substituted for the term "job classification" in § 60–2.11(b). Job group means one or a group of jobs having similar content, wage rates and opportunities. The amendments set forth below shall become effective July 12, 1974.

1. Section 60–2.11 is amended to read as follows:

§ 60–2.11 Required utilization analysis.

* * * * *

(a) Workforce analysis which is defined as a listing of each job title as appears in applicable collective bargaining agreements or payroll records (not job group) ranked from the lowest paid to the highest paid within each department or other similar organizational unit including departmental or unit supervision. If there are separate work units or lines of progression within a department a separate list must be provided for each such work unit, or line, including unit supervisors. For lines of progression there must be indicated the order of jobs in the line through which an employee could move to the top of the line. Where there are no formal progression lines or usual promotional sequences, job titles should be listed by department, job families, or disciplines, in order of wage rates or salary ranges. For each job title, the total number of incumbents, the total number of male and female incumbents, and the total number of male and female incumbents in each of the following groups must be given: Blacks, Spanish-surnamed Americans, American Indians, and Orientals. The wage rate or salary range for each job title must be given. All job titles, including all managerial job titles, must be listed.

(b) An analysis of all major job groups at the facility, with explanation if minorities or women are currently being underutilized in any one or more job groups ("job groups" herein meaning one or a group of jobs having similar content, wage rates and opportunities). "Underutilization" is defined as having fewer minorities or women in a particular job group than would reasonably be expected by their availability. In making the utilization analysis, the contractor shall conduct such analysis separately for minorities and women.

(1) In determining whether minorities are being underutilized in any job group, the contractor will consider at least all of the following factors:

* * * * *

(2) In determining whether women are being underutilized in any job group, the contractor will consider at least all of the following factors:

* * * * *

2. Section 60–2.13 is amended to read as follows:

§ 60–2.13 Additional required ingredients of affirmative action programs.

* * * * *

(d) Identification of problem areas (deficiencies) by organizational units and job group.

(e) Establishment of goals and objectives by organizational units and job groups, including timetables for completion.

* * * * *

3. Section 60–2.20 is amended to read as follows:

§ 60–2.20 Development or reaffirmation of the equal employment opportunity policy.

(a) * * *

(1) Recruit, hire, train, and promote persons in all job titles, without regard to race, color, religion, sex, or national origin, except where sex is a bona fide occupational qualification. (The term "bona fide occupational qualification" has been construed very narrowly under the Civil Rights Act of 1964. Under Executive Order 11246 as amended and this part, this term will be construed in the same manner.)

* * * * *

4. Section 60–2.23 is amended to read as follows:

§ 60–2.23 Identification of problem areas by organizational units and job groups.

* * * * *

(b) * * *

(1) An "underultilization" of minorities or women in specific job groups.

* * * * *

5. Section 60–2.24 is amended to read as follows:

§ 60–2.24 Development and execution of programs.

* * * * *

(b) The contractor should validate worker specifications by division, department, location or other organizational unit and by job title using job performance criteria. Special attention should be given to academic, experience and skill requirements to insure that the requirements in themselves do not constitute inadvertent discrimination. Specifications should be consistent for the same job title in all locations and should be free from bias as regards to race, color, religion, sex or national origin, except where sex is a bona fide occupational qualification. Where requirements screen out a disproportionate number of minorities or women, such requirements should be professionally validated to job performance.

* * * * *

((5 U.S.C. 553(a)(3)(B)) 29 CFR 2.7 section 201, Executive Order 11246, 30 FR 12319, and Executive Order 11375, 32 FR 14303.)

Signed at Washington, D.C., on this 8th day of July 1974.

PETER J. BRENNAN,
Secretary of Labor.

BERNARD E. DELURY,
Assistant Secretary for Employment Standards.

PHILIP J. DAVIS,
Director, Office of Federal Contract Compliance.

PART 60–60—CONTRACTOR EVALUATION PROCEDURES FOR CONTRACTORS FOR SUPPLIES AND SERVICES

Miscellaneous Amendments

The purpose of the following amendments is to conform the definition of "workforce analysis" in § 60–60.3(a) to the clarification in the definition of that term concurrently made in § 60.2.11(a) and to add a supersedure section. The amendments set forth below shall become effective July 12, 1974.

1. Section 60–60.3(a) is amended to read as follows:

§ 60–60.3 Agency actions.

* * * * *

(a) * * * "Workforce analysis" is defined as a listing of each job title as appears in applicable collective bargaining agreements or payroll records (not job groups) ranked from the lowest paid to the highest paid within each department or other similar organizational unit including departmental or unit supervision. If there are separate work units or lines of progression within a department a separate list must be provided for each such work unit, or line, including unit supervisors. For lines of progression there must be indicated the order of jobs in the line through which an employee could move to the top of the line. Where there are no formal progression lines or usual promotional sequences, job titles should be listed by department, job families, or disciplines, in order of wage rates or salary ranges. For each job title, the

total number of incumbents, the total number of male and female incumbents, and the total number of male and female incumbents in each of the following groups must be given: Blacks, Spanish-surnamed Americans, American Indians, and Orientals. The wage rate or salary range for each job title must be given. All job titles, including all managerial job titles, must be listed.

* * * * *

2. A new § 60–60.8 is added to read as follows:

§ 60–60.8 Supersedure.

The requirements of this Part 60–60 supersede the prior version of Revised Order No. 14 published at 38 FR 13376, May 21, 1973.

((5 U.S.C. 553(a)(3)(b) 29 CFR 2.7 section 201, Executive Order 11246, 30 FR 12319, and Executive Order 11375, 32 FR 14303.)

Signed at Washington, D.C., on this 8th day of July 1974.

PETER J. BRENNAN,
Secretary of Labor.

BERNARD E. DELURY,
Assistant Secretary for Employment Standards.

PHILIP J. DAVIS,
Director, Office of Federal Contract Compliance.

[FR Doc.74–16043 Filed 7–11–74;8:45 am]

PART 60–60—CONTRACTOR EVALUATION PROCEDURES FOR CONTRACTORS FOR SUPPLIES AND SERVICES

Time Schedule for Completion

On February 14, 1974, Revised Order No. 14 was published in the FEDERAL REGISTER (39 FR 5630) as 41 CFR Part 60–60.

This part establishes standardized contractor evaluation procedures for the use of compliance agencies in their conduct of compliance reviews of contractors for supplies and services subject to the equal employment opportunity requirements of 41 CFR 60–1.40 and 41 CFR Part 60–2 (Revised Order No. 4) for the development of written affirmative action programs. Section 60–60.7 establishes a time schedule for completing the review process and providing the contractor with a notice of compliance or issuing a show cause notice. In order to indicate that this time schedule may be extended by the Director of the Office of Federal Contract Compliance for good cause shown and to specifically indicate that failure of the compliance agency to give the contractor a notice of compliance or issue a show cause notice within the required time period shall not be deemed a finding of compliance or acceptance of the contractor's affirmative action program by the compliance agency, 41 CFR 60–60.7 is hereby revised to read as set forth below.

§ 60–60.7 Time schedule for completion.

(a) With the exception of extensions of time granted by the Director of OFCC for good cause shown, within 60 days from the date the affirmative action program including the workforce analysis is received by the agency, the compliance agency must either have found the contractor in compliance and notified the contractor of that fact, or must have issued a 30-day show cause notice as required under the rules and regulations pursuant to the Executive Order.

(b) During this period the compliance agency shall:

(1) Complete the desk audit.
(2) Schedule the on-site review.
(3) Complete the on-site review.
(4) Complete the off-site analysis, if conducted.
(5) Give notice of compliance or issue show cause notice.
(6) Complete and forward the coding sheet to OFCC.

(c) A contractor's affirmative action plan may be accepted only after the coding sheet has been forwarded to OFCC. The coding sheet is the notification required by § 60–2.2(a)(2) of this chapter. Failure of the compliance agency to give the contractor a notice of compliance or issue a show cause notice within the time period set forth in paragraph (a) shall not be deemed a finding of compliance or acceptance of the contractor's affirmative action program by the compliance agency.

Effective date. This amendment shall become effective July 12, 1974.

((5 U.S.C. 553(a)(3)(B)) 29 CFR 2.7 section 201, Executive Order 11246, 30 FR 12319, and Executive Order 11375, 32 FR 14303.)

Signed at Washington, D.C., this 8th day of July, 1974.

PETER J. BRENNAN,
Secretary of Labor.

BERNARD E. DELURY,
Assistant Secretary for Employment Standards.

PHILIP J. DAVIS,
Director, Office of Federal Contract Compliance.

PART 60–60—CONTRACTOR EVALUATION PROCEDURES FOR CONTRACTORS FOR SUPPLIES AND SERVICES

Standard Compliance Review Report

41 CFR Part 60–60, known as Revised Order No. 14, establishes standardized contractor evaluation procedures for the use of compliance agencies in their conduct of compliance reviews of contractors for supplies and services subject to the equal employment opportunity requirements of 41 CFR 60–1.40 and 41 CFR Part 60–2 (Revised Order No. 4) for the development of written affirmative action programs. Revised Order No. 14 was published in the FEDERAL REGISTER as a final regulation on February 14, 1974 (39 FR 5630). That document refers to a Standard Compliance Review Report to be prepared by compliance officers as a necessary ingredient of the compliance review process. This Standard Compliance Review Report format is set forth below and shall become effective July 12, 1974. The OFCC will closely evaluate the experience of the compliance agencies and the results achieved under this format and encourages all interested persons to submit their comments, views, and suggestions to Mr. Philip J. Davis, Director, Office of Federal Contract Compliance, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20210, with regard to future modifications of this format and the contents thereof.

Part 60–60 of Title 41, Code of Federal Regulations is hereby amended by adding a new § 60–60.9, to read as follows:

§ 60–60.9 Attachments.

The following formats are set out in full as they give detailed information as to procedures and requirements of value to contractors:

STANDARD COMPLIANCE REVIEW REPORT

CONTRACT COMPLIANCE REVIEW PROCEDURE AND REPORT FORMAT

Purpose: The purpose of these guidelines is to provide compliance officers with a systematic standardized approach to the conducting of a compliance review and the preparation of a comprehensive report under Revised Order No. 14. It is not meant to be an all inclusive or an inflexible document to be used in sequence in the actual conducting of a compliance review, but it is an effort to point out the essential elements that should at least be addressed in all such efforts. An analysis of the affirmative action program and support data is required of each contractor facility targeted for review. The purpose of your analysis is to determine if the contractor is in compliance with the requirements of Executive Order 11246, as amended, and the implementing regulations. If your analysis identifies deficiencies, the reasons or possible reasons (including past or present personnel policies or practices) why certain deficiencies exist should be identified and evaluated as well as the appropriateness of the actions the contractor has taken or plans he intends to take. This will enable you to make a determination of whether or not the contractor is in compliance with the Executive Order.

In preparing the actual written report for official submission (which is subject to review by the Office of Federal Contract Compliance), the information must be presented in the prescribed format irrespective of the agency originating the review. The prescribed format is the various items listed below in the order in which they are listed. Instructions for the analysis for each heading are found in the Desk Audit Section, or in the On-Site Review Section of these guidelines.

Part A. Desk Audit Section

I. Identifying Information
II. Workforce Analysis
III. Recruitment, Hiring, Selection and Placement
IV. Promotion and Transfer
V. Terminations
VI. Analysis of Jobs with Substantial Concentrations of Minorities or Women

Part B. On-Site Review

I. Identifying Information
II. Community Survey
III. Initial Contact with Contractor
IV. EEO Policies and Procedures
V. Recruitment, Hiring, Selection and Placement
VI. Promotion and Transfer
VII. Terminations

VIII. Supervisory Positions
IX. Pay Practices
X. Analysis of Jobs with Substantial Concentrations of Minorities or Women
XI. Training and Educational Opportunities
XII. Goals and Timetables
XIII. Religious and National Origin Discrimination

In addition, no review is completed until the Coding Sheet is forwarded to OFCC. The Coding Sheet provides the necessary instructions for its completion.

Part A. Desk Audit Section

I. Identifying Information.

A. Indicate: the name and address of the contractor; the date the letter was sent requesting the affirmative action program and supporting documentation including the workforce analysis; the date the AAP was received; the type of review (i.e., pre-award, post-award, follow-up or other).

B. In beginning the desk audit, determine and so indicate whether or not there is a utilization analysis for minorities and women that considers the points itemized in 41 CFR 60–2.11. Discuss fully any deficiencies with the analysis. Has the contractor established goals and timetables for minorities and women to the extent required by 41 CFR 60–2.12? If the contractor has not established a goal, does his AAP analyze the factors in 41 CFR 60–2.11? Does the contractor's AAP include all the ingredients listed in 41 CFR 60–2.13? This discussion should be a brief introductory statement to the further analysis which will constitute the desk audit.

II. Workforce Analysis.

A. *Composition.* (1) An adequate compliance review must always be founded on a clear understanding of where minorities and women are *not* employed in the contractor's workforce. An overall view of the composition of the workforce should be obtained by reviewing the most recent copy of SF–100 (EEO–1) as well as copies of the official submission for the past year or more. This analysis should indicate such potential problem areas as whether or not minorities and women are employed in higher level job categories, under-utilization of women in nonclerical jobs, and concentrations of minorities and/or women in service worker or unskilled categories. The comparison made with past EEO–1 reports will give some insight into the kind of progress being made by the company in their overall employment pattern. Also review the rank and pertinent data on the establishment in Table C of the OFCC Target Selection and Evaluation System for the past year or more.

(2) Prepare your analysis of this summary information, recognizing that these comparisons are most fundamental in nature and only form the foundation from which to explore minority group and female utilization. Further exploration in the utilization of minorities and women must now be made.

(3) The composition of the workforce by minority group and sex must be understood well beyond EEO–1 job categories and must consider where such employees are working and not working in individual departments or other units. This is necessary in order to determine whether or not the company is underutilizing minorities or women in certain jobs, and whether or not minority groups or females are employed in specific jobs, and as a result might be identified as members of an "affected class".

B. *Examination of Work Force Analysis.* (1) Review the "Workforce analysis" required from the contractor. For the purpose of this report alphabetic or numeric coding or the use of an index of pay and pay ranges is acceptable and should be used when contractors are concerned about confidentiality of salary information.

(2) List the job titles by department in which the minority or female proportions either do *not* generally reflect the minority or female composition of the establishment's labor force or the labor force of the area within which it is reasonable to expect persons to commute. These titles are to be considered "focus job titles". Also list as "focus job titles" areas with substantial concentration of minorities or women and also job titles where minorities or women may be continuing to suffer the effects of past discrimination. These problem areas will now be the principle focus of the review. Present your analysis for each such "focus job title" listed, including at least all of the following areas:

(a) Is the job group to which this job title belongs addressed as an area of deficiency or source of promotable persons in the affirmative action program? Where certain job titles within a given job group show an inordinate and consistent absence of minorities or women in relation to their availability, the contractor may be required to establish and set forth specific goals and timetables for these job titles separately from the goals for the job group of which they are a part.

(b) Are any problems in the utilization of minority men or minority women or members of a particular minority group (Blacks, Spanish-surnamed Americans, Orientals or American Indians) addressed where necessary through the establishment of separate goals and timetables? See 41 CFR 60–2.12(k).

(c) In the job group to which this job title belongs, are goals and timetables significant and attainable such that underutilization will be eliminated in a reasonable period of time and that turnover and growth are considered in the establishment of numerical goals, including the use of percentages as backup goal estimates? See 41 CFR 60–2.12.

(d) Are other appropriate actions included in the affirmative action program to remedy current concentrations of minorities or women in certain jobs?

(3) *Evaluation of Contractors AAP and Focus Job Titles.* (a) If in your analysis, you conclude that the contractor's affirmative action program has satisfactorily addressed each of these areas, then add your analysis of the contractor's past achievements for the relevant focus job title and the current status of attainment in his affirmative action program. Has the contractor met his past goals and is he proceeding at a current rate of progress that implies he will meet current goals? If not, you must determine if the contractor has made a good faith effort to achieve these goals. Cite the specific efforts that you conclude demonstrate good faith. Include your analysis as called for in item XII of the on-site section of these guidelines as part of this desk audit.

(b) If in your analysis, you conclude that the contractor's affirmative action program has not satisfactorily addressed any of these areas, then you must identify the additional information needed. Include the following in your analysis of the contractor's AAP.

(1) Such material as organizational charts.

(2) Promotional sequences and line of progression charts (if established).

(c) In subsequent sections of the desk audit, specific analysis is required. If the information necessary for an adequate analysis is not available in the contractor's affirmative action program or if the focus job titles are not adequately included, a letter to the contractor should be sent prior to the on-site visit informing him of the information that must be available on site. Items for possible inclusion in the letter are: applications and information on applicants (see III B); rejections (see III E); promotions and transfers (see IV); terminations (see V); and job groups (see VI). These items are not intended to be used to impose additional standard reporting requirements on contractors. The regulations require an analysis of each of these areas and the contractor may prepare an analysis that meets the regulations and the contractor's own needs through the affirmative action program and support data. An adequate analysis by the contractor will enable you to prepare an analysis similar to that called for in each section of this report or to determine that the area is not causing an equal opportunity problem. If the contractor's analysis is inadequate under the regulations, or if the focus job titles cited by you in your review of the workforce analysis are not included, or if information is needed for the three categories cited in 41 CFR 60–60.3(b)(1), then the contractor should be informed of the additional information that must be made available on site. In addition, you must determine that such requests meet the requirements of 41 CFR 60–60.3(b)(1)(a) and (b).

III. Recruitment, Hiring, Selection and Placement.

III. Recruitment, Hiring, Selection and Placement.

A. OFCC regulations require contractors to conduct an analysis of applicant flow as part of their hiring practices. (41 CFR 60–1.40(b)(2), 60–2.12(1), 60–2.23(a) (2), (3), (4), and 60–2.24 (d) and (e)). Review the sections of the affirmative action program that contain this analysis.

B. Prepare as a part of this report, your analysis of the contractor's data on recruitment, hiring, selection and placement. Determine if the data supplied by the contractor is adequate under the regulations and analyze these data. Your analysis should reflect applicant activity for the last year. If the number of applicants in the last year was less than 100, your analysis should include all such applicants. If the number of applicants in the last year was more than 100, your analysis should include an appropriate sample of 10 percent of such applicants or 100, whichever is greater. Summarize total applicants by total, male, female, and male and female minority classifications. While in many cases applicants are not classified by particular job, it should be possible to provide some separation of the applicant flow count into at least broad occupation groups. Report the number of offers of employment for each category and by total, male, female, and male and female minority classifications. The acceptances should be related to the job groups outlined by you in your review of the workforce analysis.

C. If the data supplied by the contractor are inadequate under the regulations or if the data relevant to the focus job titles cited by you in your review of the workforce analysis are not indicated, further information will be necessary. In the letter prior to the on-site visit, advise the contractor to maintain such data in the future and that the following collection of data will be made during the on-site review to determine any problems that may exist in applicant flow and hiring rates. Because information is more readily accessible on site and to insure that the recruitment, hiring, selection and placement procedures are adequately analyzed, more information will be necessary.

During the on-site review, obtain applications of applicants for blue-collar employment and applicants for white-collar employment. You may use a random sample or an immediate past chronological period. You should be sure to include the job titles cited by you in your review of the workforce analysis. Now construct the report described

in the paragraph above showing applicants, offers and acceptances by total, male, female, and male and female minority classifications by as much organization job grouping detail as possible.

D. Based on the data collected under paragraph B or C above, indicate whether or not the proportion of offers or hires to minorities or women is less than the proportion of applicants who are minorities or women for the particular job groups. If so, the basis for this rejection rate must be investigated and discussed. Discuss the selection procedures used for these jobs. Explore whether or not the distribution of those minorities or women actually employed reflects a current or past lower rate of hire.

E. For any job group identified in paragraph D above as having a lower rate of offers or hires for minorities or women than indicated by the applicant flow, ask the contractor in the letter prior to the on-site visit (or during the on-site review if the information in paragraph B is collected on site), to have available for the on-site review, an analysis showing the reasons for the rejection of applicants for total and by appropriate race and sex groups for these job groups. Reasons include but are not necessarily limited to:

(1) Qualified for some jobs, but no vacancies at time of application.
(2) Failed to fill out application completely.
(3) Failed paper-and-pencil or performance tests.
(4) Failed educational requirements.
(5) Unsatisfactory work history.
(6) Unfavorable credit report.
(7) Unfavorable interview.
(8) Unfavorable reference check.
(9) Failed physical requirements.
(10) Transportation inadequate.
(11) Criminal convictions.
(12) Applicant rejected contractor's offer of employment.

IV. *Promotion and Transfer.*

Review the contractor's analysis of promotions and transfers in his affirmative action program. If such analysis is not available, or if the contractor's analysis is inadequate under the regulations, the investigator should ask the contractor in the letter prior to the on-site review to prepare for the on-site review a list of promotions. If the number of promotions in the last year was less than 100, your analysis should include all such promotions. If the number of promotions in the last year was more than 100 your analysis should include an appropriate sample of 10 percent of such promotions or 100, whichever is greater. A promotion is defined as any personnel action resulting in movement to a position of greater skill, effort or responsibility. Wage increases alone do not determine a promotion. The review should relate name or other identification to minority/majority group status, sex, previous job, department and pay, and new job and department and pay.

V. Termination.

Review the contractor's analysis of terminations in his affirmative action program. If such analysis is not available or if the contractor's analysis presented in the affirmative action program is inadequate under the regulations or if the focus job titles cited by you in your review of the workforce analysis are not included, advise the contractor in the letter prior to the on-site review, to prepare for the on-site review a list of terminations, by name or other identification, showing hire and termination date, job assignment, minority/majority group membership and sex. To determine if there is an unfair disparity of company policies, terminations should be reviewed. If the number of terminations in the last year was less than 100, your analysis should include all such terminations. If the number of terminations in the last year was more than 100 your analysis should include an appropriate sample of 10 percent of such terminations or 100, whichever is greater.

VI. Analysis of Jobs with Substantial Concentrations of Minorities or Women.

A. Now look again at each of the focus job titles with substantial concentrations of minorities or women as cited by you in your review of the workforce analysis. Based upon your analysis of the workforce composition and your analysis in previous sections, prepare an analysis which includes an identification of those specific jobs wherein the minority or female incumbents could have been denied placement, promotion or transfer due to discrimination.

B. In order to identify an affected class, it will be necessary to review detailed listings of employees in the jobs identified in A above. Inform the contractor in the letter prior to the on-site review that these listings will be required for the on-site review. For all the job groups cited, the contractor should be asked to prepare a list by department, line of progression or unit within which promotion normally occurs of all employees ranked by job in order of progression and indicating for each: name, job title, rate of pay, sex, minority group or nonminority identification, original hire date, and other appropriate seniority dates considered in promotion, transfer or layoffs. If department, job, company or plant seniority dates are utilized by the contractor such dates must be included. Usually, even if seniority is not a guiding factor in promotions, in all but managerial positions, total length of service will be correlated to job entitlement.

Part B. The On-Site Review

I. Identifying Information.

Give the dates of the on-site review indicating the date the review was initiated and completed. List the names and titles of contractor personnel contacted in the review.

II. Community Survey.

A. Community contacts should be made as appropriate and practical prior to the direct meeting with the contractor. Some later confirmations may be required. The number of these contacts depends on the nature of the information available prior to visiting the locale. If there is a regional OFCC office, they may be able to advise you on the effectiveness of some community resources as possible referral sources for minority and women job seekers. A contact with the local office of the State Employment Service is vital to ascertain the substance of the contractor's relationship with that agency. If there is a minority specialist in the office, he or she can be most helpful in orienting you towards other community resources.

B. The following is relevant information which much be reported in this section as determined through community contacts or otherwise:

(1) Report of population and workforce data as specified in Order No. 4.

(2) Indicate other key industries and companies with whom the contractor will be competing for minority and women workers.

(3) List the significant employment oriented organizations which could be referral sources for minorities and women.

(4) Identify the community leaders generally recognized as representing minorities and women.

(5) Comment on the community image of the contractor as an EEO employer and otherwise including the reputation of the contractor's facility as a desirable place to work.

III. Initial Contact with Contractor.

A. *Initial Contact.* (1) If this is the initial compliance review experience for the contractor, a brief discussion of the history of the compliance program is appropriate. Otherwise, the contractor need only be brought up-to-date regarding any new policies or changes in the rules and regulations occurring since the previous review. If not adequately determined in the previous review or, if significant changes have occurred, discuss the contractor's overall corporate organization in terms of corporate headquarters, subsidiaries, number of facilities and nature of the inter-facility relationships as it might affect this review.

(2) Discuss the nature and extent of the contractor's Government contract work. How does this relate to the contractor's business? Discuss the major non-exempt subcontractors and determine if the contractor has satisfied his EEO responsibilities in their regard. Have they been notified of their EEO obligations relative to filing the Standard Form 100 and preparing an affirmative action program? Review a sample contract and purchase order form for inclusion of an EEO clause. Does the contractor require a certification of nonsegregated facilities from each nonexempt subcontractor? Does the contractor assure appropriate physical facilities to both sexes?

(3) Any additional information needed for the conduct of this review should be requested during the initial contact to assure its availability while still on-site. A tour of the facility might be appropriate at this time or at least it can be tentatively scheduled for a later point in the review. To avoid unwarranted or unintended interferences with employer-employee relations, the number, content and scope of employee interviews should be discussed with the contractor at this time.

B. *Report of General Information.* Based on the information obtained from the contractor, or researched by you, report on the contractor's corporate organization as it might affect this review. If this material is adequately covered in a previous review, attach a copy of the relevant portion of that review. Attach copies of a sample contract or purchase agreement and a sample certification of non-segregated facilities as exhibits to this report. Describe the compliance history of the contractor leading up to the previous compliance review indicating the compliance agencies involved and any changes in the compliance posture. What actions has the contractor taken relative to commitments made subsequent to the last compliance review?

IV. EEO Policies and Procedures.

A. *External.* Describe how the contractor indicates he has attempted to establish an image of an EEO employer in his community and in his recruitment area. How does the contractor utilize and support organizations which would assist his efforts and implement his affirmative action program?

B. *Internal.* (1) Are EEO posters prominently displayed? Indicate the type of EEO policy statements that have been issued. By whom and addressed to whom? Are these statements posted? Are they included in employee handbooks or policy manuals? Is the policy statement up-dated periodically? Has management expressed any intention in writing or otherwise to take disciplinary action for failure to adhere to EEO policies and procedures? Does the contractor publicize an EEO achievement? Have out-dated posters mentioning restrictions on employment of females been removed?

(2) Describe the role of the EEO coordinator. What role does the coordinator play

in dissemination of policy? How much time does he or she spend in EEO work?

(3) Describe if supervisors are involved in goal setting. How have the lower level supervisors received and disseminated company EEO policy? Are supervisors held accountable for failure to meet EEO goals? Is EEO part of the orientation for new employees and are there periodic meetings with employees and/or supervisors on the subject?

V. Recruitment, Hiring, Selection and Placement.

A. *General Procedures.* (1) Review the material in the desk audit section of these guidelines to see that you have completed the required analysis to identify the job titles where fewer offers or acceptances are made to minorities and woman and have indicated information needed for on-site analysis.

(2) Provide an analysis based on the following issues with full explanation when necessary, from data gathered at the on-site review. Are different interviewers assigned to interview applicants because of their job interest, race or sex? Is job counseling offered? If not hired, is the applicant given a specific reason? Is it generally the real reason and is it so noted on the application form? If not hired, what happens to the application form? What are the possibilities of the application being retrieved at a later date? Based on the EEO specialist's analysis of records as well as the contractor's statements, has this happened very often? If the employment office does not make final decisions for hire, who does and on what basis? If additional interviews are conducted, is there feedback to the employment office and the EEO Coordinator? Does anyone monitor for disparate rejection ratios of minorities and women? Can and does anyone challenge decisions made by the selecting officials? Are those who make selections conscious of the contractor's goals and timetables? Describe what role if any the Coordinator has in the selection process.

(3) Does the contractor maintain applicant flow data which gives all the necessary information such as name, race, sex, job applied for, source of referral, date of application and disposition? Obtain copies of application forms. Do the forms request information which could be used in a discriminatory manner? Specify the questionable information and who might have access to it. If such information is allegedly asked for affirmative action purposes, could it be maintained on a separate record? Are any questions asked of applicants of one sex but not of applicants of the other sex (e.g., anticipated temporary disability, child care problems, and marital status)? From discussions with interviewers and supervisors as well as from comments appearing on the application forms, what appear to be some of the more subjective criteria considered? (i.e., socio-economic background, illegitimacy, appearance, dress, hair style, geographical, or non-job related school preferences.) Describe the filing system and check to see how long applications are retained. Is there an affirmative action file or other retrieval system to enable minorities and women to be reconsidered if no job can be offered at the time of their original application? Are there written job descriptions or job specifications? If not, what procedures are used instead? Are job requisitions submitted to the employment office in writing and how detailed are they? Are these forms or others used for external recruitment? Sample a representative number of job requisitions on a given date and determine if minorities and women were applying at the same time. The contractor's applicant flow data and application retrieval system should permit this kind of comparison with minimum effort. Obtain samples of any other relevant forms utilized by the personnel operation such as interview reports.

(4) Describe in detail, the job application process from the point where the applicant first makes contact with the contractor. Observe the physical layout of the contractor's employment office for any segregation by race of sex of applicants and whether it would be apparent to a job seeker that the contractor has an integrated workforce. What are the responsibilities of any receptionist on duty? Does the receptionist screen applicants or application forms in any way? Is everyone requested to complete an application form at all times?

(5) Does the contractor have a policy on nepotism? If so, is the policy written or applied to effect job opportunities adversely for women more than men? Does there appear to be any selection or placement pattern based on race or sex? Does the contractor claim any bona fide occupational qualifications to justify sex discrimination?

B. *Determination and Analysis of Adverse Effect.* (1) Adverse effect is a differential rate of selection which works to the disadvantage of a covered group. In order to determine whether adverse effect results from the use of "objective" selection requirements, review the data provided by the contractor on the reasons for rejection for the job titles cited by you in the desk audit analysis. Present the number and proportion of nonminority applicants or employees and the number and proportion of minority applicants or employees rejected for each of the cited reasons. Present the same statistics for women and men. Then determine the selection rate for each of these groups by subtracting the rejection rate from 100 percent. If the selection rate for minorities (or women) is less than 80 percent of the selection rate for the remaining applicants for any of the cited reasons, then there is an adverse effect and the selection method must be validated as required by the OFCC Testing and Selection Order. To make this computation, divide the selection rate for the covered group by the selection rate for the remaining applicants and compare the resulting figure with 80 percent. For example, if 30 percent of nonminorities are rejected (100 percent—30 percent=70 percent selected) on the basis of educational requirements and 53 percent of minorities are rejected (100 percent—53 percent=47 percent selected) on this basis, then there is an adverse effect (i.e., 47 percent divided by 70 percent equals 56 percent, which is less than 80 percent). If no individual reason is causing an adverse effect but the minorities (or women) selected for employment is less than 80 percent of the remaining applicants selected, then the entire selection process must be reviewed and validated as required by the OFCC Testing and Selection Order. Continue in this section with those job titles where you have determined that there is an adverse effect resulting from one or more "objective" selection) requirements. Continue with part (3) below for other job titles cited by you in the desk audit analysis, where there are not "objective" selection requirements causing an adverse effect.

(2) Refer to the Testing and Selection Order (41 CFR 60–3). To meet the requirements of that Order, all contractors must submit certain information. (41 CFR 60–3.4 (a), 60–3.6, 60–3.15, 41 CFR 60–2.23(a)(3), 60–2.23(b) (7), (8), (13), 60–2.24(b), (d)).

(a) To be meaningful, information submitted concerning use of tests should include:

1. Applicable job title or job group.

2. Identifying information on procedures used for selection or promotion of individuals, including the following for paper and pencil or performance tests: name of test, form, and publisher or author.

3. Criteria for acceptance or cut-off score, if applicable.

4. For total candidates tested in the past year, the number of men and women not acceptable. The same information for men and women should be provided for Negroes, Spanish-surnamed Americans, American Indians and Orientals when the group constitutes 2 percent or more of the labor force in the labor market or recruiting area and for nonminority men and women. If no definite criteria of acceptance are used (such as cut-off scores, the average (mean) test score for each group and the scores of the three lowest scoring candidates accepted should be presented.

(b) If the selection procedure for which there is an adverse effect is a paper and pencil or performance measure (see 41 CFR 60–3.2), inquire if this has been validated. If the test has not been validated then the contractor must take appropriate action (e.g., take necessary steps to validate the procedure—during which time cut-off scores may have to be changed or eliminated, or eliminate the adverse effect). The compliance office must determine whether the action taken by the contractor is in accord with 41 CFR 60–3 and testing and selection guidance memoranda issued by OFCC. If the selection procedure has been validated, the contractor must provide evidence to show that the procedure has been validated in accordance with the Order and the compliance officer must review this evidence. For guidelines on reporting validity, refer to 41 CFR 60–3.6 of the Revised Testing and Selection Order as amended in January 1974. You should inform contractors of noncompliance with the Order when validity or evidence supporting validity is absent or substantially deficient. However, since the issues involved in test validity are often quite technical and complex, the compliance officer should not try to identify or resolve these issues during the review. In cases where there are technical or complex issues or any case where the compliance officer cannot make a clear determination of compliance or noncompliance, the contractor's evidence of test validity is to be submitted for higher level review along with the compliance officer's analysis of the adverse effect.

(3) *Underutilization, Higher Rejection Rates and Other Selection Procedures.* For any job groups cited by you in the desk audit where there is underutilization or a higher rejection rate for minorities or women, are selection techniques other than tests used for employment decisions? Such techniques include but are not restricted to unscored or casual interviews, unscored application forms and unscored personal history and background requirements not used uniformly as a basis for qualifying or disqualifying applicants (see 41 CFR 60–3.13). If so, the contractor must either provide the same validation evidence as called for in B above or must adjust employment procedures so as to eliminate the higher rejection rate and underutilization.

(4) *Adequacy of Applicant Flow.* Are the contractor's applicant flow data adequate for the focus job titles cited by you as having underutilization in your review of the workforce analysis? If not, the following further investigation into recruitment methods and resources is necessary during the on-site review.

(a) What procedures are used for external recruitment? Summarize the contractor's explanation of the specific recruitment methods and resources utilized for each focus job title involved. Are minority and women-oriented press or broadcast media utilized? Do recruitment ads, either in words or location in the publication, suggest preference for one sex? Explain the impact of word-of-mouth or other employee referral systems. Explain if recruitment sources are contacted

in writing at the time of actual job openings and how much information is provided to them as to the qualifications necessary.

(b) Is the contractor actually aware of the results of the company's recruitment efforts? Has the contractor specifically requested to have minority and women candidates among these referrals? Has the contractor discontinued using any of these sources which have failed to make such referrals? Has the contractor instituted any transportation or housing programs to aid in minority recruitment? What is the contractor's explanation for any failure to attract a significant number of women and minority applicants? Are employment opportunities denied to women with young children but not to men with young children? Does the contractor deny employment opportunities to women or men based on a State "protective" law?

(c) Describe the college recruitment program only if college recruitment is involved for the focus job titles cited in your review of the workforce analysis. Are schools visited with predominantly minority or women enrollment? Is the contractor familiar with some of the lesser known schools? How is this program related to the company's national recruiting program? Describe the blue-collar recruitment program, if applicable.

(d) Identify the appropriate entry level positions and the promotional ladders as indicated by the contractor and by the EEO Specialist's confirmation through sample record analysis. Are these lines in any way oriented by race or sex? Differentiate between those promotions that are automatic and those that are competitive. What is the significance of interest, ability and seniority in promotion and transfer considerations? Are there any periodic written performance ratings which influence promotion or transfer? Explain whether or not minorities or women are concentrated in certain jobs outside any line of progression or which deadend before the employee can reach the pay grade to which their experience, training or seniority might entitle them. Is there a well structured transfer program? Discuss any lack of representation of minorities and women in this program. Review the file on transfer requests, if any. Have many minorities or women been overlooked or rejected disproportionately? What is the freqeuncy of inter- or intra-departmental transfer for better working conditions or to gain promotional opportunities? Is counseling offered to employees considering this move? How common is transfer from blue-collar to white-collar positions or from "traditionally female" to "traditionally male" jobs or vice versa? Who monitors promotion and transfer activity and through what means? How is job security affected by transfer or promotion and does this disproportionately affect minorities or women?

VI. Promotion and Transfer.

A. Based on the information outlined in the desk audit section on promotion and transfers, a determination should now be made if there is a disparity between promotion rate of minorities and women as related to the rate for non-minorities and/or males.

B. Any selection criteria for promotion that is causing a higher rejection rate of minorities or women must be reviewed using the procedure in VB (1) and (2), above.

VII. Terminations.

As a result of your analysis of data supplied during the desk audit or on-site, if there is a disproportionate number of terminations because of assignment of minority group members or women to specific kinds of jobs, the causal factor should be explored and discussed on-site. Present the results of that explanation here or state that no such disproportionate effect exists. Are employees of one sex in a certain job title terminated upon reaching a certain age without the same rule applying to the other sex? Are procedures affecting termination validated if there is a disproportionate effect? Refer practices or procedures that may indicate age discrimination to the Wage-Hour Administrator of the U.S. Department of Labor.

VIII. *Supervisory Positions.*

Review the workforce analysis and focus jobs cited by you in the desk audit with specific reference to supervisory positions. Comment on the representation of minorities and women among supervisors and where promotions during the previous year suggest any improvement. If appropriate, review selected personnel records to conduct the following analysis. Explain how supervisors are selected. Who monitors these actions? Explain how supervisory ability is measured. Are minorities and women supervising integrated groups? Are women supervisors generally at a lower plateau in the organization? Where there is low utilization of minorities or women in supervisory positions, can this be traced to specific past actions in recruitment or placement? Are there selection criteria for supervisory positions that are causing an adverse effect? If so, follow the procedures in VB(1) and VB(2)(b)(1) above. Where minorities and women have been newly installed as supervisors, has there been any negative reaction from the workforce and how has management dealt with it? Is there a supervisory development program? Does this start prior to entry into supervision or is it part of an on-the-job program? Does it include training on EEO matters and problems?

IX. Pay Practices.

Review and compare wages and salaries of a sampling of minorities and women within selected job titles. The following list of questions are necessary in making this investigation. Be sure and give a full explanation with each answer.

A. Are there positions with similar duties but with different rates of pay?

(1) Does the incumbent's sex or race have anything to do with these differences in rates of pay?

(2) What is the contractor's explanation for these discrepancies?

B. Are there general salary ranges for jobs or specific rates at which everyone begins?

C. Do minority and women workers appear to be paid lower beginning rates?

(1) What is the contractor's explanation?

(2) Who makes these determinations?

D. Are the rates negotiable?

E. Are minorities or women assigned to jobs where incentive earnings are more difficult?

F. Does review of any employee's records confirm or dispute the relationship of education, training, and experience to the wages being earned?

X. Analysis of Jobs with Substantial Concentrations of Minorities or Women.

A. Review the information prepared by the contractor and make a determination as to which, if any, departments or lines of progression within departments appear to have been utilized in the past for discriminatory placement of minorities or women.

B. Now compare the wage or job class range of each such unit with that of departments or lines of progression where whites (or males, if comparing female) are concentrated. Also compare working conditions, degree of skill acquisition, and rapidity of advancement in each unit. Then make a determination as to whether each of the units in which minorities or females are concentrated is less desirable. Take into consideration in this analysis whether progression to the top of one line may lead to advancement to management while the other may not. Additional detail data will probably be required for this analysis.

C. If discriminatory placement has occurred you must attempt to determine if and when the company has ceased discriminatory placement. Begin with a review of your analysis of new hire data, determining whether placement into departments and lines of progression has been oriented according to race or sex. If so, then all present minority and female incumbents of the units identified should be considered members of an affected class. If race or sex no longer appear to be factors in placement of new hires, further inquiry of the contractor must be made to determine when these factors ceased to be considerations in placement. Try to establish a definite date; all incumbents of the units identified hired prior to that date will be identifiable as members of the affected class.

D. Formulate a definition of the affected class as identified in this review, and identify each member of it. This may be done, for example, by reference to their locations in the seniority list. A typical definition would read as follows:

The affected class shall be considered to be all black employees presently assigned to Progression Lines 1, 2, 3, and 4 who were hired prior to December 31, 1970.

E. Now you must conduct an analysis to determine which business practices are resulting in the denial of equal employment opportunity to those discriminatorily placed in the past. Examine provisions of the collective bargaining agreement, or if no union, the company policy manual, and summarize in the compliance review those provisions having to do with transfer, promotion and layoff, as well as those dealing with the effect of seniority upon such personnel changes. The following must be determined:

(1) May any qualified employees transfer from one employment unit to another?

(2) What kind of seniority—plant, department, seniority unit, job—is the basis for transfer competition?

(3) If lines of progression or promotional sequences are utilized within departments, is seniority the principal determinant of promotion from one job level to the next highest job level. In other words, is progression through the line principally a function of seniority?

(4) What kind of seniority—plant, department, seniority unit, line of progression, or job—is the basis for competition for promotion within lines of progression or seniority units?

(5) What kind of seniority competition is there for reduction in force and layoff?

(6) Assuming that the affected class may transfer, if qualified, to other employment units, the heart of the matter is what losses, in terms of seniority, job retention rights, and wages, they will sustain if they seek to avail themselves of transfer opportunity?

F. Now make a determination as to whether members of the affected class are presently qualified, or can become qualified in the same manner as white or male employees in the past, for jobs in the employment units from which they have been excluded. The most productive technique here is probably comparing present qualifications of the affected class with qualifications of whites (or males) at the time the whites (or males) were hired. Make a determination of the qualifications of the least qualified white (or male) currently in the more desirable employment unit.

G. If you have identified an affected class, remedies must be developed for the con-

tractor to be in compliance. Refer to OFCC guidance memos on affected class in developing each step of the remedy. However, in arriving at the nature and extent of the remedy, some insight is needed into the extent that any remedy would be welcomed and utilized by such individuals even with job security assured. It is therefore advisable that selected members of the affected class be interviewed. Your written discussion of the remedy should include the following aspects. Referring to the lines of progression or promotional sequences, which jobs must dead-ended minorities and women move into in order to progress? Would the affected class employee require additional training to progress? Are the jobs in the promotional sequences functionally related? What changes in the bargaining agreements would be necessary in order to stimulate transfer of affected class members or perhaps make transfer unnecessary? Has the contractor already initiated some action in this regard? When? Could long-time affected class members possibly move up more than one job title immediately or with little extra training in order to obtain their rightful place in relationship to their company seniority? Note: since this is still a preliminary stage to final agreements, you should avoid unnecessary interference in employer-employee relationships by giving the contractor the opportunity to discuss remedies with affected class members. If the contractor fails to do this adequately, you should interview selected members of the affected class. Through interviews you should determine whether minorities or women feel the union, if any, is servicing them properly.

(1) *Bargaining Units.* (a) Identify the various unions in the contractor's establishment. Determine if there are any memoranda of understanding of addendums not included in the labor agreement. Obtain copies of all collective bargaining agreements. Do the labor agreements contain an EEO clause? Review these agreements (and attach them along with progression charts to this report) considering, as appropriate, the following:

(b) Are EEO grievances subject to the applicable grievance machinery, if any. If so, with what frequency have such EEO grievances been filed and what have been the results. Does the labor agreement spell out the rights of employees in terms of tenure, layoff, recall, transfer, promotions and the various fringe benefits? Is there a formal posting and bidding procedure for transfer or promotions? What are the criteria for determining the successful bidder? Are minorities and women encouraged to bid into jobs where they have been previously underutilized? How important is seniority? Can an employee hold more than one seniority date? If so, explain what each means and how it was acquired. Do the layoff and recall provisions have a disparate effect on minorities and women? How and why? Have there been any mergers of seniority units or lines of progression, and how has this affected minorities and women? Are there any "understood" or traditional practices which differ from those described in the contract itself? Are disciplinary actions spelled out clearly? (Explain this under Section 3 below.)

(2) *Non-Bargaining Unit Positions.* Determine if there are company policies or procedures in writing which deal with the situations as discussed in the previous paragraph for those positions not covered by any bargaining unit? Does longevity play any role in job security?

(3) *Benefits and Disciplinary Actions.* Review the contractor's personnel manual or its equivalent. Are there any disciplinary policies which would tend to discriminate against minorities or women? What is the policy on maternity leave and is it in accord with OFCC regulations? Does the policy result in rejection or suspension from employment or require involuntary leave solely on account of the condition of pregnancy? Are there any distinctions based upon sex in the granting of fringe benefits, including medical, hospital, accident, life insurance, pension and retirement benefits, profit sharing and bonus plans, credit union benefits, or leave which violate current OFCC regulations? Are the same benefits made available for the wives and families of male employees also made available for the husbands and families of female employees? Does the contractor specify any differences on the basis of sex in either mandatory or optional retirement age?

XI. Training and Educational Opportunities.

A. *Internal.* (1) Review the contractor's data on training that has occurred over the past year. Indicate the participation by total, male, female and male and female minority classifications and show the training participating rate for each group. If the number of applicants in the last year was less than 100, your analysis should include all such applicants. If the number of applicants in the last year was more than 100, your analysis should include a sample of 10 percent of such applicants or 100 whichever is greater. Include employees hired directly into such programs. Is participation strictly voluntary or are there selection procedures? Such procedures must be validated if there is an adverse effect.

(2) Inquire about what types of training new employees receive. Is there evidence of any disparate failure or dropout rate? If such disparities exist, what efforts has the contractor made to correct the situation? How is failure determined? Is it in accord with 41 CFR Part 60–3? Is formal training being required now for jobs not previously involved? If so, have you included this in the section on affected class? If there is a registered apprenticeship program, has the contractor developed an affirmative action program under 29 CFR Part 30 or a State plan for EEO in Apprenticeship? Has the contractor's Apprenticeship AAP been approved by the contractor's apprenticeship registration agency?

B. *External Programs.* Describe any programs offering tuition assistance and the extent of minority and women participation? What is the contractor's explanation for any disproportionate representation of women or minorities? Describe any school work or other cooperative type programs, the minority and female enrollment at these institutions, and the minority and female participation in such programs. Are there any summer school work programs or other Government or privately-funded training on a part time basis? Are there any selection or qualifying procedures that would tend to preclude the involvement of a representative number of minorities and women (e.g., expense, length of training, travel involved, no clear evidence of career advancement, etc.)? After completion of the program, is job replacement assured or assistance available?

XII. Goals and Timetables.

A. *Achievement of past and present goals and timetables.* Is the contractor meeting the current goals and timetables? Did he meet previous goals and timetables? If not, determine from the contractor his assessment of why the goals were not achieved. Pursue what you deem to be necessary changes for future success in meeting goals. If the contractor is not meeting the current goals and timetables or if the contractor did not meet the previous goals and timetables, a determination of good faith must be made and the determination will be based upon his efforts to broaden his recruitment and promotion base. See B(2) below.

B. *Establishment of present and future goals and timetables.* (1) Specific goals and timetables are to be established separately for minorities and women considering the factors cited in Order 4 and based on the contractor's analysis. In establishing timetables the contractor must consider the anticipated expansion, contraction and turnover of and in the workforce. This would include a review of anticipated vacancies in the major job groupings for the next year and any other pertinent period related to the affirmative action program.

(a) A goal must be established for each job group in which underutilization exists and must be designed to completely correct the underutilization. The goal must be stated as a percentage of the total employees in the job group and must be equal to the percentage of minorities or women available for work in the job group in accordance with the criteria set forth in 41 CFR 60–2.11.

A single goal for minorities is acceptable, unless through the company's evaluation it is determined that one minority is underutilized in a substantially disparate manner, in which case separate goals and time tables for such minority groups may be required individually, and it may further be required, where appropriate, that separate goals be established within the minority groups by sex. (See Order 4, § 60–2.12(k).)

(b) For each job group in which underutilization exists, a specific timetable must be established for reaching the ultimate goal in the minimum feasible time period.

(c) For each job group in which underutilization exists, the contractor must establish annual rates of hiring and/or promoting minorities and women until the ultimate goal is reached. These rates should be the maximum rates that can be achieved through putting forth every good faith effort, including the use of available recruitment and training facilities, and must not be lower than the percentage rate set in the ultimate goal. Numerical goals based on projected openings are required but cannot be used in place of percentage goals. Goals should be stated both as actual numbers and as percentages for backup goals. That is, a contractor may establish a goal of 10 women based on an expected 20 vacancies for hires or promotions. But his expected vacancies may vary. So he should also give a percentage goal (e.g., 50 percent of hires) which would apply if opportunities exceed his current estimates.

(d) Each program must contain specific and detailed action oriented programs, including recruitment and training programs, which comply with Revised Order 4. These programs must, among other required ingredients, commit the contractor to undertake every good faith effort to contact and make use of relevant recruitment and training resources available in the community and to use its own resources for recruiting and training minorities and women to fill positions in job groups where underutilization exists. Data regarding promotable employees, community training facilities and company training facilities must be prepared by the company itself, and related to the locality.

(2) How many of these jobs will be filled through upgrading? In considering the current workforce, turnover, and deficiencies identified, are the contractor's goals reasonable and will they achieve prompt and full utilization of minorities and women? Is there evidence that the contractor is considering minorities and women not in the workforce? Make specific suggestions for affirmative ac-

tion based on problem areas and on areas previously lacking in positive affirmative action, as pointed out by the review. The affirmative action program must appear as an exhibit to this report. Determination of good faith effort should be made which shall include but not be limited to the following:

(a) Notification to the community organizations that the contractor has employment opportunities available and maintenance of records regarding the organizations' response.

(b) Maintenance of a file of the names and addresses of each minority or female worker referred to the contractor and what action was taken with respect to each such referred worker.

(c) Participation in training programs in the area. Full consideration of the training which the contractor can reasonably undertake.

(d) Dissemination of the contractor's EEO policy, by including it in any policy manual; by publicizing it in company or union newspapers, annual report, etc.; by conducting meetings to explain and discuss the policy; by posting of the policy; and by specific review of the policy with minority and female employees.

(e) Dissemination of the EEO policy externally by informing and discussing it with all recruitment sources; by advertising in news media, specifically including minority news media; and by notifying and discussing it with all contractors and subcontractors.

(f) Specific and constant personal (both written and oral) recruitment efforts directed at all minority and female organizations, schools with minority and female students, minority and female recruitment organizations, and training organizations, within the contractor's recruitment area.

(g) Specific efforts to encourage present minority and female employees to make referrals in the recruitment effort.

(h) Validation of all worker specifications, selection requirements, tests, etc., as required by the Testing and Selection Order 41 CFR § 60–3.

(i) Making every effort to provide after-school, summer and vacation employment to minority youths.

(j) Where reasonable, the development of on-the-job training opportunities and participation and assistance in any association or group training programs relevant to the contractor's needs.

(k) Continuing inventory and evaluation of all minority and female personnel for promotion opportunities and encouragement of minority and female employees to seek such opportunities.

(l) Assuring that seniority practices, job classifications, etc., do not have a discriminatory effect.

(m) Assuring that all facilities and activities are nonsegregated.

(n) Continual monitoring of all personnel activities to insure that its EEO policy is being carried out.

(o) All other sections of Subpart C of Order 4 (41 CFR 60–2.20, 21, 22, 23, 24, and 25) and the OFCC Sex Discrimination Guidelines at 41 CFR Part 60–20.

XIII. Religious and National Origin Discrimination.

Refer to the regulations (41 CFR 60–50). Has the contractor reviewed his practices to determine whether members of religious and/or ethnic groups are receiving fair consideration for job opportunities? Describe the outreach and positive recruitment activities undertaken by the contractor to remedy problems identified. (See 41 CFR 60–50.2(b)). Describe any accommodation made by the contractor to the religious observances and practices of an employee or prospective employee. When such situations exist, if the contractor has not made such accommodation, describe the contractor's rationale including, at least: (a) business necessity, (b) financial costs and expenses, and (c) resulting personnel policies.

((5 U.S.C. 553(a)(3)(B)) 29 CFR 2.7 section 201, Executive Order 11246, 30 FR 12319, and Executive Order 11375, 32 FR 14303.)

Signed at Washington, D.C., this 8th day of July, 1974.

PETER J. BRENNAN,
Secretary of Labor.

BERNARD E. DELURY,
Assistant Secretary for Employment Standards.

PHILLIP J. DAVIS,
Director, Office of Federal Contract Compliance.

[FR Doc.74–16045 Filed 7–11–74;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19962; FCC 74–725]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations, Table of Assignments

In the matter of amendment of § 73.202(b), table of assignments, FM Broadcast stations. (Lehigh Acres, Fla.; Monticello, Fla.; Rockwell City, La.; Millinocket, Me.; Aguada, P.R.; and St. Helena, Calif.).

The Commission has under consideration its notice of proposed rulemaking adopted March 7, 1974, and published in the FEDERAL REGISTER March 15, 1974 (39 Fed. Reg. 9989), inviting comments on a number of changes in the FM Table of Assignments (§ 73.202(b) of the rules). With the exception of the proposal for Aguada, Puerto Rico, all proposals were unopposed. Except as noted, the population figures were taken from the 1970 U.S. Census. The communities, channel assignments proposed, and petitioning parties are as follows:

RM–2232	Channel 257A to Lehigh Acres, Fla. (Broadcast Management, Inc.).
RM–2293	Channel 296A to Lehigh Aches, Fla. (Hudson Communications Corp.).
RM–2240	Channel 292A to Monticello, Fla. (Dr. Claud Anderson).
RM–2241	Channel 288A to Rockwell City, Iowa (Francis N. Donnelly).
RM–2242	Channel 249A to Millinocket, Maine (Katahdin Radio, Inc.).
RM–2246	Channel 288A to Aguada, P.R. (Aurio Matos).
RM–2247	Channel 269A to St. Helena, Calif. (Young Radio, Inc.).

2. In each of the above cases, the petitioning party seeks the assignment of a first channel without requiring any other changes in the FM Table of Assignments. Each assignment can be made in conformance with the provisions of the Commission's minimum mileage separation rule. The Canadian Government has given its concurrence to the assignment of Channel 269A to Millinocket, Maine.

3. We have given careful consideration to all comments, supporting statements and other pleadings, and find it in the public interest to assign the proposed FM channels to the above-listed communities except for Lehigh Acres, Florida, to which only one channel instead of the proposed two will be assigned and Monticello, Florida, to which none will be assigned. (The proponent for the Monticello channel has indicated that he is no longer interested in establishing a radio station there and suggests termination of rule making for Monticello. Thus the petition filed by Dr. Claud Anderson will be dismissed.)

4. In the notice of proposed rulemaking herein we set out the economic and other information pertaining to the need for a first FM assignment in each of the communities. We shall, therefore, not repeat it here in this document. However, because of adverse comments, the proposals for Lehigh Acres, Florida, and Aguada, Puerto Rico, are discussed below.

5. *Lehigh Acres, Florida.* With reference to the two separate petitions filed, each proposing the assignment of a first FM channel to Lehigh Acres, Florida (population 11,250),[1] we stated in our Notice of Proposed Rule Making that it was not clear from the petitions whether, if two channels are assigned to Lehigh Acres, each petitioner would be willing to build a station there. We requested the petitioners to furnish information on this point as well as information as to whether Lehigh Acres could support two FM stations. In comments filed by Broadcast Management, Inc. (RM–2232) (petitioner proposing assignment of 257A) petitioner does not clearly address itself to our request but states that there is a great need for a local FM service in Lehigh Acres and that, if Channel 257A is assigned, it will immediately apply for a permit to construct and operate a station. In comments filed by Hudson Communications Corporation (Hudson) (RM–2293) (petitioner proposing assignment of Channel 296A), petitioner states that, although Lehigh Acres is a growing community, it does not believe that the public interest would be served by assigning two Class A FM channels there, at least for the foreseeable future. Hudson contends there is already a full-time AM station in the market and there are numerous AM and FM services available from stations located in outside communities. It notes that, if two channels are assigned, it will not become an applicant for one of these channels for it does not believe, at this stage of growth in the Lehigh Acres area, that three local services would be in the public interest. (Lehigh Acres presently has an unlimited time AM station licensed to Broadcast Management, Inc., the other petitioner for a first FM channel in this proceeding). Hudson further states that, if only one channel is assigned and if no other applicant files for the channel, it

[1] Population figure is from the publication, "Questions and Answers about Lehigh Acres," distributed by Lehigh Acres Development, Inc., Developers and Managers of Lehigh Acres, Florida. The 1970 U.S. Census figure was 4,394.

reaffirms that it will file for and build the station; however, if there are multiple applicants it will determine whether or not to file an application by assessing its likelihood of prevailing in a comparative hearing and the delays in initiating service that a comparative hearing would cause.

6. In view of the foregoing, it appears that it would not be in the public interest to assign two channels to Lehigh Acres at this time. Interested parties may petition for an additional assignment in the future if the need for another station should arise. We believe that Channel 296A should be assigned to Lehigh Acres. Channel 296A appears to be a better choice than Channel 257A because there would be a greater flexibility in the siting of the station.

7. *Aguada, Puerto Rico.* The Notice, on the basis of a petition filed by Aurio Matos, proposed the assignment of Channel 288A to Aguada, Puerto Rico. Mr. Matos notes that Aguada, with a population of 4,590, is located on the northwestern coast of Aguada Municipio (population 25,658). He filed comments in support of the proposed assignment and reiterated his intent to promptly apply for consent to construct a station if authorized by the Commission.

8. A timely opposition to the proposal was filed by Ricardo Vega, licensee of FM Station WTPM(FM), Aguadilla, Aguadilla Municipio, Puerto Rico, Aguadilla is located approximately 4½ miles northeast of Aguada. Mr. Vega states that Mr. Matos is in error when he states that Aguada is the site of numerous industries. Mr. Vega notes that the exact number is 5 small manufacturing plants. He contends that the major civic and religious organizations in Aguada are being satisfactorily served by WTPM; that this station is considered all over the area as the station of Aguada; that approximately 65% of the commercial firms of Aguada use WTPM as the principal media; that all the major civic, religious and official entities use WTPM for promotional needs; that it is generally accepted that WTPM is the station with the largest audience in Aguada; and that WTPM operates within the municipal limits of Aguada. Mr. Vega states that the assignment of a new channel in this area will severely damage the quality of the service being rendered by WTPM to the Aguada community and that the very existence of WTPM will be endangered.

9. In reply comments petitioner responds to the opposition filed by Ricardo Vega. Petitioner states that the basic issue from Mr. Vega's standpoint seems solely an economic one and notes that Mr. Vega has gone to great lengths to discredit the economic stability of the Municipio of Aguada. Petitioner contends that Mr. Vega's opposition is not for the betterment of the public interest, but is for the protection of his own financial interests and well being. Petitioner adds that, despite the inferences of Mr. Vega, the record in this proceeding shows that the community leaders of Aguada agree that a broadcast facility is urgently needed there.

10. Although the opponent alleges that there is no economic basis for establishing an FM station Aguada, it presents no data to support this allegation and does not detail what effect an operation of an FM station at Aguada would have on the operation and programming of existing stations in Aguadilla. In any event, we believe that such an economic issue would be more appropriately considered in connection with an application for a construction permit for use of the channel. We also believe that since Aguada and the Municipio of Aguada do not have a broadcast station, it would be in the public interest to provide for an FM station as an outlet for local expression. The requested channel assignment can be made without affecting any existing assignments and conforms with the Commission's minimum mileage separation rule.

11. Authority for the adoption of the amendments contained herein appears in Sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

12. In view of the foregoing, *It is ordered,* That effective August 16, 1974, § 73.202(b) of the Commission's rules, the FM Table of Assignments, is amended to read as follows:

City	*Channel No.*
St. Helena, Calif	269A
Lehigh Acres, Fla	296A
Rockwell City, Iowa	288A
Millinocket, Maine	249A
Aguada, P.R.	288A

13. *It is further ordered,* That the petition for rulemaking filed July 30, 1973, by Dr. Claud Anderson for FM Channel 292A is dismissed.

14. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083 (47 U.S.C. 154, 303, 307))

FEDERAL COMMUNICATIONS COMMISSION,

PART 87—AVIATION SERVICES

Aeronautical Radio Services; Use of Telegraphy

In the matter of amendment of Part 87 of the rules to provide that certain stations in the Aeronautical Radio Services using telegraphy only for automatically keyed station identification signals may be serviced and operated by a person holding a radiotelephone operator permit.

1. Sections 87.135 and 87.137(c) provide, essentially and in part, that radiotelegraph land stations in the aeronautical radio service transmitting Morse Code must be serviced or operated only by a person holding a radiotelegraph license or permit.

2. We are aware that some stations (e.g., beacon or radiotelephone) use Morse Code only for station identification by means of recorded signals that are automatically transmitted. Under those circumstances, we believe there is no need to require that the station be serviced or operated only by a person capable of and licensed to manually operate a telegraph key. Accordingly, we conclude our rules should be amended as indicated in the attached Appendix to permit a person with a first or second class radiotelephone operator permit to service these stations and to permit a person with any class of operator permit to operate the stations as provided for in § 87.133 of the rules.

3. The amendments adopted herein are noncontroversial and relieve a restriction. Consequently, prior notice to the public would serve no useful purpose and is unnecessary, hence, the prior notice, procedure and effective date provisions of 5 U.S.C. § 553 are not applicable.

4. Accordingly, *It is ordered,* That pursuant to authority contained in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, Part 87 of the Commission's rules is amended effective August 16, 1974, as set forth in the Appendix below.

Adopted: July 2, 1974.

Released: July 8, 1974.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082 (47 U.S.C. 154, 303))

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX

Part 87 of Chapter 1 of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 87.135 is amended as follows:

§ 87.135 Transmitter adjustments and tests by operator.

All transmitter adjustments or tests during or coincident with the installation, servicing, or maintenance of a radio station, which may affect the proper operation of such station, shall be made by or under the immediate supervision and responsibility of a person holding a radiotelephone or radiotelegraph first- or second-class operator license who shall be responsible for the proper functioning of the station equipment: *Provided however,* that only a person holding a radiotelegraph first- or second-class operator license shall perform such functions at radiotelegraph stations transmitting by any type of the Morse Code for purposes other than automatically keyed station identification.

* * * * *

2. Section 87.137(c) is amended to read as follows:

§ 87.137 Radio stations using radiotelegraphy.

* * * * *

(c) Except as provided in § 87.135 and § 87.139, a station other than an air-

craft station, when transmitting by any type of the Morse Code for purposes other than automatically keyed station identification, shall be operated by a person holding any class of radiotelegraph license or permit.

[FCC 74-705]

PART 93—LAND TRANSPORTATION RADIO SERVICES

Railroad Companies; Mobile Transmitters

In the matter of amendment of Part 93, § 93.156 of the rules and regulations to exempt railroad companies, engaged in "run-through" operations, from compliance with the requirement to affix transmitter identification cards to licensed mobile transmitters.

1. The Association of American Railroads (AAR) has petitioned the Commission, in effect, to exempt its members who are engaged in "run-through" train operations from having to comply with the provisions of § 93.156(a) of the rules.[1]

2. In support of its petition, the AAR notes that in the past, compliance with this rule requirement was not burdensome because each railway operated its trains on its own tracks and the radio equipment was licensed to and was operated by one company. A licensee railroad was, therefore, only required to affix to its transmitters a card containing its own names, address and call sign. The petitioner continues, however, that recent changes in railway operation and management techniques have made present compliance with this rule section unduly burdensome. Specifically, the petitioner points to the recently developed practice in railroad operations which permits a train to proceed from its point of origin over the tracks of several participating railway companies, and arrive at its final destination without changing either the locomotive or the caboose. This mode of operation (known as "run-through") eliminates delays and permits maximum use of mainlines, freight cars and manpower. However, it also requires participants to use multiply license transmitters capable of operating on a number of frequencies so that as a train passes from one track to another, the transmitter may be operated by the employees, and under the license of, the company owning that segment of track. Each transmitter, therefore, must bear an identification card listing the call signs, names, and addresses of all potential run-through participants. Since virtually every major railroad has become involved in run-through operations, compliance either requires a large card permanently affixed to each transmitter bearing the names, addresses and call signs of all potential licensees, or a plethora of individual cards which must be changed as different track segments are crossed.

3. The Commission has considered AAR's request and has concluded that it is in the public interest to exempt railway companies from the requirement of § 93.156(a) in so far as it applies to radio transmitters in railroad rolling stock. We have reached this conclusion primarily because, as a practical matter, field inspections of railroad mobile transmitters rarely, if ever, occur without some railroad representative being present. This representative is, therefore, able to provide the name, address and call signs of the licensee under whose authorization the transmitters are currently being operated, thereby satisfying the purpose of § 93.156(a). Since the usefulness of the identification card is marginal at best in these situations, and since the industry has demonstrated the burdensomeness of compliance, the Commission is of the opinion that the requirement should be eliminated. Furtheremore, we feel that adoption of this rule amendment is in keeping with the advances made in railroad operation and management methodology and will best serve the public interest.

4. The Commission is of the opinion that it may adopt the rule amendment without first following the prior notice and procedures prescribed by Section 4 (a) of the Administrative Procedure Act, 5 USC section 553. This amendment, which was requested by the railroad industry, will only affect railroad licensees, who are expected to support it, and, since no one else would have an interest in this matter, no useful purpose would be served by soliciting comments.

5. Accordingly, *it is ordered*, Pursuant to the authority contained in section 4(i) and 303 of the Communications Act of 1934, as amended, that effective July 16, 1974, Part 93 of the Commission's rules is amended as set forth in the Appendix below. *It is further ordered*, That RM-2022 is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082 (47 U.S.C. 154, 303)).

Adopted: July 2, 1974.

Released: July 8, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX

Part 93 of Chapter 1 of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 93.156(a) is amended by the addition of a sentence at the end of the paragraph to read as follows:

§ 93.156 Posting station licenses and transmitter identification cards or plates.

(a) The current authorization for each mobile station and each base or fixed station authorized to be operated at temporary locations shall be retained as a permanent part of the station records, but need not be posted. In addition, an executed Transmitter Identification Card (FCC Form 452-C) or a plate of metal or other durable substance, legibly indicating the call sign and the licensee's name and address, shall be affixed readily visible for inspection, to each of such transmitters: Provided, That, if the transmitter is not in view of the operating position or is not readily accessible for inspection, then such card or plate shall be affixed to the control equipment at the transmitter operating position or posted adjacent thereto. Provided further, that the posting of the Transmitter Identification Card is not required on radio transmitters operating on railroad rolling stock.

* * * * *

[FR Doc.74-16009 Filed 7-11-74;8:45 am]

[1] Among other things, § 93.156(a) of the Commission's rules requires a licensee who is operating a fixed, mobile or base station in any of the Land Transportation Radio Services to affix to their transmitters cards containing the licensee's name, address and call signs.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1187-A]

PART 1033—CAR SERVICE

Return of Trailers

JULY 5, 1974.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 2d day of July 1974.

Upon further consideration of Service Order No. 1187 (39 FR 22271), and good cause appearing therefor:

It is ordered, That § 1033.1187 *Service Order No. 1187-A*, Regulation for return of trailers be, and it is hereby, vacated and set aside.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10-17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), and 17(2)))

It is further ordered, That this order shall become effective at 11:59 p.m., July 2, 1974; that copies of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74-16032 Filed 7-11-74;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 216]

MARINE MAMMALS

Procedures for Hearings on Proposed Regulations

The Marine Mammal Protection Act authorizes the Secretary to prescribe regulations and to waive the moratorium on the taking and/or importation of marine mammals and marine mammal products and, for such prescription or waiver, refers the Secretary to § 103 of the Act (16 U.S.C. § 1373). Section 103(d) requires that regulations be made on the record after opportunity for an agency hearing on such regulations and, in the case of a waiver, on a determination by the Secretary to waive the moratorium.

The basic format for the proposed hearing procedures to govern the section 103 hearings consists of:

(1) Publication of notice in the FEDERAL REGISTER of (i) an intent to waive the moratorium and/or to prescribe regulations and (ii) issues which may be involved in the hearing;

(2) Submission in writing of all direct testimony to be introduced at the hearing. Such submission must be accomplished by a date specified in the notice;

(3) As soon as possible after the date specified in (2) above, the presiding officer shall consider all the direct testimony offered and make a preliminary determination of the issues presented;

(4) The presiding officer shall then conduct a prehearing conference and cause to be published in the FEDERAL REGISTER a final hearing agenda;

(5) If the presiding officer determines at the prehearing conference that no issues of fact are presented by the written direct testimony, the presiding officer shall publish in the FEDERAL REGISTER such determination and notice that no hearing will be held and that any person may submit written comments for the presiding officer's consideration prior to his rendering of a recommended decision;

(6) When a hearing is held, only direct testimony previously submitted may be introduced. Direct testimony not submitted as provided in these regulations and introduced at the hearing shall not be considered a part of the record;

(7) The hearing shall be limited to cross-examination of witnesses introducing direct testimony. Oral arguments may be allowed at the presiding officer's discretion;

(8) After the hearing, written comments may be submitted by any interested person;

(9) After the time provided for submission of written comments, the presiding officer shall make a recommended decision and transmit such decision with the transcript and comments to the Director for a final determination.

The following regulations are hereby proposed to govern hearings on the record required by § 103 of the Act (16 U.S.C. § 1373). Written comments, views and objections may be made with respect to these proposed regulations to the Director, National Marine Fisheries Service, Washington, D.C. 20235, until August 12, 1974.

Dated: July 2, 1974.

Dr. JOHN W. TOWNSEND, Jr.,
Acting Administrator.

AUTHORITY: Title I of the Marine Mammal Protection Act of 1972, 86 Stat. 1027 (16 U.S.C. 1361–1407), Pub. L. No. 92–522.

Subpart G—Notice and Hearing on § 103 Regulations

§ 216.70 Basis and purpose.

(a) Sections 101(a)(2), 101(a)(3)(A), and 101(b) (16 U.S.C. §§ 1371(a)(2), 1371(a)(3)(A), 1371(b) (1972)) of the Act and these regulations authorize the Director, National Marine Fisheries Service, to (1) impose regulations governing the taking of marine mammals incidental to commercial fishing operations; (2) waive the moratorium and to adopt regulations with respect to the taking and importing of animals from each species of marine mammals under his jurisdiction; (3) prescribe regulations governing the taking of depleted marine mammals by any Indian, Aleut or Eskimo, respectively. In prescribing regulations to carry out the provisions of said sections, the Act refers the Director to § 103 (16 U.S.C. § 1373 (1972)). In accordance with § 103(d), regulations must be made on the record after opportunity for an agency hearing on such regulations and, in the case of a waiver, on the determination by the Director to waive the moratorium pursuant to section 101(a)(3)(A) (16 U.S.C. 1371(a)(3)(A) (1972)).

(b) The purpose of this subpart is to establish rules of practice and procedure for all hearings conducted pursuant to § 103(d).

§ 216.71 Definitions.

Definitions shall be the same as in subpart A of this Part except as follows:

(a) "Party" means, for the purposes of this subpart:

(1) The Director or his representative;

(2) A person who has notified the Director by specified dates of his or her intent to participate in the hearing pursuant to §§ 216.74 and 216.83(b).

(b) "Witness" means, for the purposes of this subpart, any person who submits written direct testimony on the proposed regulations.

A person may be both a party and a witness.

§ 216.72 Scope of regulations.

The procedural regulations in this subpart govern the practice and procedure in hearings held under § 103(d) of the Act. These hearings will be governed by the provisions of 5 U.S.C. § 556 and § 557 of the Administrative Procedure Act. The regulations shall be construed to secure the just, speedy, and inexpensive determination of all issues raised with respect to any waiver or regulation proposed pursuant to § 103(d) of the Act with full protection for the rights of all persons affected thereby.

§ 216.73 Notice of hearing.

(a) A notice of hearing on any proposed regulations shall be published in the FEDERAL REGISTER, together with the Director's proposed determination to waive the moratorium pursuant to § 101(a)(3)(A) (16 U.S.C. § 1371(a)(3)(A)), where applicable.

(b) The notice shall state:

(1) The nature of the hearing;

(2) The place and date of the hearing. The date shall not be less than 60 days after publication of notice of the hearing;

(3) The legal authority under which the hearing is to be held;

(4) The proposed regulations and waiver, where applicable, and a summary of the statements required by § 103(d) of the Act (16 U.S.C. § 1373(d));

(5) Issues of fact which may be involved in the hearing;

(6) If a draft Environmental Impact Statement has been published, the date of publication and the place(s) where the draft may be viewed and copied;

(7) Any written advice received from the Marine Mammal Commission;

(8) The place(s) where records and submitted direct testimony will be kept for public inspection;

(9) The final date for filing with the Director a notice of intent to participate in the hearing pursuant to § 216.74;

(10) The final date for submission of direct testimony on the proposed regulations and waiver, if applicable, and the number of copies required;

(11) The docket number assigned to the case which shall be used in all subsequent proceedings; and

(12) The place and date of the prehearing conference.

§ 216.74 Notification by interested persons.

Any person desiring to participate as a party shall notify the Director, by certified mail, on or before the date specified in the notice.

§ 216.75 Presiding officer.

(a) Upon publication of the notice of hearing pursuant to § 216.73, the Director shall appoint a presiding officer pursuant to 5 U.S.C. § 3105. No individual who has any conflict of interest, financial or otherwise, shall serve as presiding officer in such proceeding.

(b) The presiding officer, in any proceeding under this subpart, shall have power to:

(1) Change the time and place of the hearing and adjourn the hearing;

(2) Evaluate direct testimony submitted pursuant to these regulations, make a preliminary determination of the issues, conduct a prehearing conference to determine the issues for the hearing agenda, and cause to be published in the FEDERAL REGISTER a final hearing agenda;

(3) Rule upon motions, requests and admissibility of direct testimony;

(4) Administer oaths and affirmations, question witnesses and direct witnesses to testify;

(5) Modify or waive any rule (after notice) when determining no party will be prejudiced;

(6) Receive written comments and hear oral arguments;

(7) Render a recommended decision; and

(8) Do all acts and take all measures, including regulation of media coverage, for the maintenance of order at and the efficient conduct of the proceeding.

(c) In case of the absence of the original presiding officer or his inability to act, the powers and duties to be performed by the original presiding officer under this part in connection with a proceeding may, without abatement of the proceeding, be assigned to any other presiding officer unless otherwise ordered by the Director.

(d) The presiding officer may upon his own motion withdraw as presiding officer in a proceeding if he deems himself to be disqualified.

(e) A presiding officer may be requested to withdraw at any time prior to the recommended decision. Upon the filing by an interested person in good faith of a timely and sufficient affidavit alleging the presiding officer's personal bias, malice, conflict of interest or other basis which might result in prejudice to a party, the hearing shall recess. The Director shall immediately determine the matter as a part of the record and decision in the proceeding, after making such investigation or holding such hearings, or both, as he may deem appropriate in the circumstances.

§ 216.76 Direct testimony submitted as written documents.

(a) Unless otherwise specified, all direct testimony, including accompanying exhibits, must be submitted to the presiding officer in writing no later than the dates specified in the notice of the hearing (§ 216.73), the final hearing agenda (§ 216.81), or within 15 days after the conclusion of the prehearing conference (§ 216.83) as the case may be. All direct testimony shall be in affidavit form and exhibits constituting part of such testimony, referred to in the affidavit and made a part thereof, must be attached to the affidavit. Direct testimony submitted with exhibits must state the issue to which the exhibit relates; if no such statement is made, the presiding officer shall determine the relevance of the exhibit to the issues published in the FEDERAL REGISTER.

(b) The direct testimony submitted shall contain:

(1) A concise statement of the witness' interest in the proceeding and his position regarding the issues presented. If the direct testimony is presented by a witness who is not a party, the witness shall state his relationship to the party; and

(2) Facts that are relevant and material.

(c) The direct testimony may propose issues of fact not defined in the notice of the hearing and the reason(s) why such issues should be considered at the hearing.

(d) Ten copies of all direct testimony must be submitted unless the notice of the hearing otherwise specifies.

(e) Upon receipt, direct testimony shall be assigned a number and stamped with that number and the docket number.

(f) Contemporaneous with the publication of the notice of hearing, the Director's direct testimony in support of the proposed regulations and waiver, where applicable, shall be available for public inspection as specified in the notice of hearing. The Director may submit additional direct testimony during the time periods allowed for submission of such testimony by witnesses.

§ 216.77 Mailing address.

Unless otherwise specified in the notice of hearing, all direct testimony shall be addressed to the Presiding Officer, c/o Director, National Marine Fisheries Service, Washington, D.C. 20235. All affidavits and exhibits shall be clearly marked with the docket number of the proceedings.

§ 216.78 Inspection and copying of documents.

Any document in a file pertaining to any hearing authorized by this subpart or any document forming part of the record of such a hearing may be inspected and/or copied in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235—unless the file is in the care and custody of the presiding officer, in which case he shall notify the parties as to where and when the record may be inspected.

§ 216.79 Ex parte communications.

(a) After notice of a hearing is published in the FEDERAL REGISTER, all communications, whether oral or written, involving any substantive or procedural issue and directed either to the presiding officer or to the Director, Deputy Director or Marine Mammal Coordinator, National Marine Fisheries Service, without reference to these rules of procedure, shall be deemed ex parte communications and are not to be considered part of the record for decision.

(b) A record of oral conversations shall be made by the above persons who are contacted. All communications shall be available for public viewing at the place(s) specified in the notice of hearing.

(c) The presiding officer shall not consult any person or party on any fact in issue or on the merits of the matter unless notice and opportunity is given for all parties to participate.

§ 216.80 Prehearing conference.

(a) After an examination of all the direct testimony submitted pursuant to § 216.76, the presiding officer shall make a preliminary determination of issues of fact which may be addressed at the hearing.

(b) The presiding officer's preliminary determination shall be made available at the place or places provided in the notice of the hearing (§ 216.73(b)(8)) at least five days before the prehearing conference is held.

(c) The purpose of the prehearing conference shall be to enable the presiding officer to determine, on the basis of the direct testimony submitted and prehearing discussions:

(1) Whether the presiding officer's preliminary determination of issues of fact for the hearing has omitted any significant issues;

(2) What facts are not in dispute;

(3) Which witnesses may appear at the hearing; and

(4) The nature of the interest of each party and which parties' interests are adverse.

(d) Only parties may participate in the prehearing conference and a party may appear in person or be represented by counsel.

(e) Parties who do not appear at the prehearing conference shall be bound by the conference's determinations.

§ 216.81 Final agenda of the hearing.

(a) After the prehearing conference, the presiding officer shall prepare a final agenda which shall be published in the FEDERAL REGISTER within ten days after

the conclusion of the conference. A copy of the final agenda shall be mailed to all parties.

(b) The final agenda shall list: (1) all the issues which the hearing shall address, the order in which those issues shall be presented, and the direct testimony submitted which bears on the issues; and (2) a final date for submission of direct testimony on issues of fact not included in the notice of hearing if such issues are presented. The final agenda may also specify a final date for submission of direct testimony to rebut testimony previously submitted during the time specified in the notice of the hearing.

(c) The presiding officer shall publish with the final agenda a list of witnesses who may appear at the hearing, a list of parties, the nature of the interest of each party, and which parties' interests are adverse on the issues presented.

§ 216.82 Determination to cancel the hearing.

(a) If the presiding officer concludes that no issues of fact are presented by the direct testimony submitted, the presiding officer shall publish such conclusion and notice in the FEDERAL REGISTER that a hearing shall not be held and shall also publish a date for filing written comments on the proposed regulations. Written comments may include proposed findings and conclusions, arguments or briefs.

(b) A person need not be a party to submit any written comments.

(c) Promptly after expiration of the period for receiving written comments, the presiding officer shall make a recommended decision based on the record, which in this case shall consist of the direct testimony and written comments submitted. He shall transfer to the Director his recommended decision, the record and a certificate stating that the record contains all the written direct testimony and comments submitted. The Director shall then make a final decision in accordance with these regulations (§ 216.90).

§ 216.83 Rebuttal testimony and new issues of fact in final agenda.

(a) Direct testimony to rebut testimony offered during the time period specified in the notice of hearing may be submitted pursuant to these regulations within fifteen days after the conclusion of the prehearing conference unless the presiding officer otherwise specifies in the final agenda.

(b) If the final agenda presents issues not included in the notice of the hearing published pursuant to § 216.73:

(1) Any person interested in participating at the hearing on such issues presented shall notify the Director by certified mail of an intent to participate not later than ten days after publication of the final agenda. Such person may present direct testimony or cross-examine witnesses only on such issues presented unless he previously notified the Director pursuant to § 216.74; and

(2) Additional written direct testimony concerning such issues may be submitted within the time provided in the final agenda. Such direct testimony will comply with the requirements of § 216.76.

§ 216.84 Waiver of right to participate.

Persons who fail to notify the Director pursuant to § 216.74 and § 216.83 shall be deemed to have waived their right to participate as parties in any part of the hearing.

§ 216.85 Conduct of the hearing.

(a) The hearing shall be held at the time and place fixed in the notice of hearing, unless the presiding officer changes the time or place. If a change occurs, the presiding officer shall publish the change in the FEDERAL REGISTER and shall expeditiously notify all parties by telephone or by mail: *Provided*, That if the change in time or place of hearing is made less than five days before the date previously fixed for the hearing, the presiding officer shall also announce, or cause to be announced, the change at the time and place previously fixed for the hearing.

(b) The presiding officer shall, at the commencement of the hearing, introduce into the record the notice of hearing as published in the FEDERAL REGISTER, all subsequent notices published in the FEDERAL REGISTER and a list of all parties. Direct testimony shall then be received with respect to the matters specified in the final agenda in such order as the presiding officer shall announce. With respect to direct testimony submitted as rebuttal testimony or in response to new issues presented by the prehearing conference, the presiding officer shall determine the relevancy of such testimony.

(c) The hearing shall be publicly conducted and reported verbatim by an official reporter.

(d) If a party objects to the admission or rejection of any direct testimony or to any other ruling of the presiding officer during the hearing, he shall state briefly the grounds of such objection, whereupon an automatic exception will follow if the objection is overruled by the presiding officer. The transcript shall not include argument or debate thereon except as ordered by the presiding officer. The ruling of the presiding officer on any objection shall be a part of the transcript and shall be subject to review at the same time and in the same manner as the Director's final decision. Only objections made before the presiding officer may subsequently be relied upon in the proceedings.

(e) All motions and requests shall be addressed to, and ruled on by, the presiding officer, if made prior to his certification of the transcript or by the Director if made thereafter.

§ 216.86 Direct testimony.

(a) Only direct testimony submitted by affidavit as provided in these regulations and introduced at the hearing by a witness shall be considered part of the record. Such direct testimony shall not be read into evidence but shall become a part of the record subject to exclusion of irrelevant and immaterial parts thereof;

(b) The witness introducing direct testimony shall:

(1) State his name, address and occupation;

(2) State qualifications for introducing the direct testimony. If an expert, the witness shall briefly state the scientific or technical training which qualifies him as an expert;

(3) Identify the direct testimony previously submitted in accordance with these regulations; and

(4) Submit to appropriate cross and direct examination. Cross-examination shall be by a party whose interests are adverse on the issue presented, to the witness', if the witness is a party, or to the interests of the party who presented the witness.

(c) A party shall be deemed to have waived the right to introduce direct testimony if such party fails to present a witness to introduce the direct testimony.

(d) Official notice may be taken of such matters as are judicially noticed by the courts of the United States: *Provided*, That parties shall be given adequate notice, by the presiding officer, at the hearing, of matters so noticed and shall be given adequate opportunity to show that such facts are inaccurate or are erroneously noticed.

§ 216.87 Cross examination.

(a) The presiding officer may:

(1) Require the cross-examiner to outline the intended scope of the cross-examination;

(2) Prohibit parties from cross-examining witnesses unless the presiding officer has determined that the cross-examiner has an adverse interest on the facts at issue to the party-witness or the party presenting the witness. For the purposes of this subsection, the Director's or his representative's interest shall be considered adverse to all parties;

(3) Limit the number of times any party or parties having a common interest may cross-examine an "adverse" witness on the same matter; and

(4) Exclude cross-examination questions that are immaterial, irrelevant or unduly repetitious.

(b) Any party shall be given an opportunity to appear, either in person or through an authorized counsel or representative, to cross-examine witnesses. Before cross-examining a witness, the party or counsel shall state his name, address and occupation. If counsel cross-examines the witness, counsel shall state for the record the authority to act as counsel. Cross-examiners shall be assumed to be familiar with the direct testimony.

(c) Any party or party's counsel who fails to appear at the hearing to cross-examine an "adverse" witness shall be deemed to have waived the right to cross-examine that witness.

(d) Scientific, technical or commercial publications may only be utilized for the limited purposes of impeaching witnesses under cross-examination unless previously submitted and introduced in accordance with these regulations.

§ 216.88 Oral and written arguments.

(a) The presiding officer may, in his discretion, provide for oral argument at

the end of the hearing. Such argument when permitted, may be limited by the presiding officer to the extent necessary for the expeditious disposition of the proceeding.

(b) The presiding officer shall announce at the hearing a reasonable period of time within which any interested person, party or witness may file with the presiding officer any written comments on the proposed regulations and waiver, including proposed findings and conclusions and written arguments or briefs, which are based upon the record and citing where practicable the relevant page or pages of the transcript. If a party filing a brief desires the presiding officer to reconsider any objection made by such party to a ruling of the presiding officer, he shall specifically identify such rulings by reference to the pertinent pages of the transcript and shall state his arguments thereon as a part of the brief.

(c) Oral or written arguments shall be limited to issues arising from direct testimony on the record.

§ 216.89 Recommended decision and certification of the transcript.

(a) Promptly after expiration of the period for receiving written briefs, the presiding officer shall make a recommended decision based on the record and transmit the decision to the Director. The recommended decision shall include:

(1) A statement containing a description of the history of the proceedings;

(2) Findings on the issues of fact with the reasons therefor; and

(3) Rulings on issues of law.

(b) The presiding officer shall also transmit to the Director the transcript of the hearing, the original and all copies of the direct testimony, and written comments. The presiding officer shall attach to the original transcript of the hearing a certificate stating that, to the best of his knowledge and belief, the transcript is a true transcript of the tesimony given at the hearing except in such particulars as are specified.

§ 216.90 Director's decision.

(a) Upon receipt of the recommended decision and transcript, the Director shall make a final decision on the proposed regulations and waiver, where applicable. The Director's decision may affirm, modify, or set aside, in whole or in part, the recommended findings, conclusions and decision of the presiding officer.

(b) The Director's decision shall include:

(1) A statement containing a description of the history of the proceeding;

(2) Findings on the issues of fact with the reasons therefor; and

(3) Rulings on issues of law.

(c) The Director's decision shall be published in the FEDERAL REGISTER. If the waiver is approved, the final adopted regulations shall be promulgated with the decision.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

[45 CFR Part 86]

EDUCATION PROGRAMS

Nondiscrimination on the Basis of Sex

The Department published on June 20, 1974, a notice of proposed rulemaking to add Part 86 to the Departmental regulation to effect Title IX of the Education Amendments of 1972 (20 U.S.C. § 1681 *et seq.*) with regard to Federal financial assistance administered by the Department. The purpose of the present notice is to invite public comment on proposed additional language to clarify § 86.34(a) of the proposed regulation relating to nondiscrimination in course offerings.

As proposed, section 86.34(a) reads as follows:

(a) *Course offerings.* A recipient shall not provide any course or otherwise carry out any of its education program or activity separately on the basis of sex, or require or refuse participation therein by any of its students on such basis, including health, physical education, industrial, business, vocational, technical, home economics, music, and adult education courses.

Immediately after the text of the proposed regulation was made public on June 18, 1974, the Department received numerous inquiries as to whether § 86.34(a) permitted elementary and secondary schools to present separately to boys and girls brief presentations in the area of sex education. Although the language of the proposed regulation precludes such separation, I have not intended it to do so in the area of sex education. Sex education is perhaps the only area of instruction in which the subject of instruction necessarily deals explicitly with the sexual functions. In view of personal and parental attitudes concerning the subject, and because rights of privacy on these matters, desired by both students and their parents may well be invaded by requiring mixed classes on sex education, school administrators, for reasons not applicable to other subjects, might properly decide that some of or all of such sessions be conducted separately for boys and girls. In order that the public may have an opportunity to comment on specific language in this connection, I hereby give notice that I propose to insert in the final regulation, when published, a proviso at the end of the present text of proposed § 86.34 to read as follows:

Provided, That elementary and secondary schools' sessions involving sex education may be conducted for boys and girls separately.

Comments on the language here proposed will be considered along with other comments on the proposed regulations received before October 15, 1974. Comments received after that date will be considered until the regulation is prepared in final form. The proposal may be changed in light of comments received.

Part 86, together with this proposed change in language thereof, is proposed under the authority of section 902 of the Education Amendments of 1972 (20 U.S.C. 1682).

Dated: July 8, 1974.

CASPAR W. WEINBERGER,
Secretary.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[24 CFR Part 2200]

[Docket No. R-74-254]

FEDERAL DISASTER ASSISTANCE

Repair and Replacement of Facilities

The Water Resources Development Act of 1974, Pub. L. 93-251, amends the Disaster Relief Act of 1970, Pub. L. 91-606, by adding section 252(d). The amendment provides that the costs of restoration of certain public facilities shall include the cost of obtaining substitute services insofar as they exceed those costs which would have been incurred but for the disaster. An amendment to Part 2200 of Title 24 of the Code of Federal Regulations is required to implement Pub. L. 93-251. An amendment to 24 CFR Part 2200, as set forth below, is hereby proposed. Interested persons may submit written data, views, or arguments regarding the proposal by mailing them to the Rules Docket Clerk, Room 10245, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410. All such communications received on or before August 12, 1974, will be considered, and interested persons may inspect or copy submissions pursuant to this Notice at Room 10245. All relevant material will be considered by the Administrator before adopting this amendment.

The proposed amendment to Part 2200 would read as follows:

Title 24, CFR, Chapter XIII, Part 2200 is amended to incorporate certain applicable provisions of the Water Resources Development Act of 1974, Pub. L. 93-251, as follows:

1. Section 2200.11 is amended by adding the following:

§ 2200.11 Repair and replacement of facilities.

* * * * *

(d) Federal reimbursement of costs actually incurred in replacing a public utility's services, such as water and power, with services from other sources during the period of restoration of such facility may be made based on the following criteria:

(1) Such services must be essential to the health and well-being of the community.

(2) Federal reimbursement shall not exceed the amount of such costs in excess of those costs which would have been incurred in providing such services but for the major disaster.

(3) Such reimbursable services shall not exceed those services provided for a like period prior to the major disaster by the facility eligible for repair or replacement as a result of the major disaster.

(4) The applicant shall consider all alternate methods available for providing the interim services to select the most economical method. The applicant shall provide justification for such selection in submitting his project application for Federal assistance.

(5) As soon as possible the applicant shall submit a schedule for repair or replacement of the facility to the State Coordinating Officer with his project application for approval by the FDAA Regional Director. For all retroactive project applications, the applicant shall submit his project application and accompanying schedule within 120 days after official publication of these regulations in the FEDERAL REGISTER.

(6) Payment shall be based on auditable cost records and clear documentation and justification of each element of cost, provided by the applicant.

(7) If excess costs have been paid by the customers of the services based on regular billings for these services, no reimbursement of such costs shall be made by the Federal government until the applicant has reimbursed such costs to the customers involved.

Effective date. This amendment shall be effective for all major disasters declared under Pub. L. 91-606, as amended, subsequent to August 1, 1969.

(Catalog of Federal Domestic Assistance, No. 14.701, Disaster Assistance)

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74-SW-33]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to alter the Atlanta, Tex., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before August 12, 1974 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (39 FR 440), the Atlanta, Tex., transition area is amended to read:

ATLANTA, TEXAS

That airspace extending from 700 feet above the surface within a 5-mile radius of Atlanta Municipal Airport (latitude 33°06'-10" N., longitude 94°11'40" W.) and within 3 miles each side of the 237° bearing from the NDB (latitude 33°06'13" N., longitude 94°11'25" W.) extending from the 5-mile radius area to a point 8 miles southwest of the NDB.

Alteration of the transition area is necessary to provide controlled airspace for an amended instrument approach procedure predicted on the Atlanta, Tex., NDB.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in Fort Worth, TX, on July 5, 1974.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.74-15982 Filed 7-11-74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-SO-70]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation regulations that would alter the Knoxville, Tenn., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before August 12, 1974 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Knoxville transition area described in § 71.181 (39 FR 440 and 16439) would be amended as follows:

"* * * excluding the portion within Morristown, Tenn., transition area * * *" would be deleted and "* * * within a 6.5-mile radius of Monroe County Airport, Madisonville, Tenn. (latitude 35°32'45" N., longitude 84°22'47" W.); excluding the portion within the Athens and Morristown, Tenn., transition areas * * *" would be substituted therefor.

The proposed alteration is required to provide controlled airspace protection for IFR operations at Monroe County Airport. A prescribed instrument approach procedure to this airport, utilizing the Madisonville (private) Nondirectional Radio Beacon, is proposed in conjunction with the alteration of this transition area.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in East Point, Ga., on July 3, 1974.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.74-15983 Filed 7-11-74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-SO-69]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation regulations that would designate the Murray, Ky., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before August 12, 1974 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Murray transition area would be designated as:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Murray-Calloway County Airport (latitude 36°40'04" N., longitude 82°22'06" W.); within 3 miles each side of the 033° bearing from Calloway RBN (latitude 36°39'-49" N., longitude 88°22'03" W.), extending from the 6.5-mile radius area to 8.5 miles north of the RBN.

The proposed designation is required to provide controlled airspace protection for IFR operations at Murray-Calloway County Airport. A prescribed instrument approach procedure to this airport, utilizing the Calloway (private) nondirectional Radio Beacon, is proposed in conjunction with the designation of this transition area.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on July 1, 1974.

PHILLIP M. SWATEK,
Director, Southern Region.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR—Part 15]

[Docket 17364; FCC 74-703]

LOW POWER COMMUNICATION DEVICES

Proceedings Terminated

In the matter of amendment of rules Part 15, Subpart E—Low Power Communication Devices.

1. On April 12, 1967 the Commission adopted a notice of proposed rule making in the subject proceeding (32 F.R. 6145). This proceeding proposed to delete the band 26.97–27.27 MHz from Subpart E of Part 15 and to substitute therefor the band 49.9–50.0 MHz. Comments were received from a number of parties, nearly all of which objected to this proposed change. In view of these objections, and our inability to resolve these differences, the proceeding was held in abeyance.

2. The critical situation that has since developed in the Citizens Radio Service with respect to class D stations which use essentially the same frequencies used by the Part 15 low power communication devices (walkie talkies) may make it necessary to reactivate this proposal. However, the information in this proceeding is out of date both due to developments in technology as well as in operating practice.

3. It is accordingly ordered that this proceeding is terminated.

Adopted: July 2, 1974.

Released July 8, 1974.

CHICKEN EGGS IN THE SHELL FROM CANADA

Antidumping Proceeding Notice

On June 11, 1974, information was received in a proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), indicating a possibility that chicken eggs in the shell from Canada are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the prices for home consumption.

This notice is published pursuant to § 153.30 of the Customs regulations (19 CFR 153.30).

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[OR 12652]

OREGON

Proposed Withdrawal and Reservation of Lands

JULY 1, 1974.

The Department of Agriculture, on behalf of the Forest Service, has filed application, OR 12652, for withdrawal of the lands described below, from all forms of appropriation under the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws, subject to valid existing rights.

The applicant desires the lands for a general outdoor recreation area.

All persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing no later than August 6, 1974, to the undersigned officer of the Bureau of Land Management, Department of the Interior (729 NE. Oregon Street), P.O. Box 2965, Portland, Oregon 97208.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination by the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

WILLAMETTE MERIDIAN

OCHOCO NATIONAL FOREST

Ochoco Rockhound Recreation Area

Fish and Wildlife Service

ABC SCENIC AND WILDLIFE ATTRACTIONS

Endangered Species Permit; Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant:
ABC Scenic and Wildlife Attractions—operating the Wildlife Preserve, 13710 Central Avenue, Largo, Md. 20870.
Mr. John E. Campbell, President.
Mr. Andrew Koukoulis, Director of Operations.

Dear Mr. Bavin: I am applying for transportation and possession permits for endangered species listed on the enclosed documentation. These include:

3 Brazilian Tapir
20 North American Alligators
6 American Flamingo

At this time we have possession of these species at our Clermont and Silver Springs, Florida facilities—and in some cases have had possession for many years. For example, the North American Alligator was hatched and has been at our Ross Allen Reptile Institute in Silver Springs, Florida for many years. Also, the American Flamingo has been at the same location for 14 years. One of the tapir was born in 1971 in the United States at the Salt Lake City, Utah Zoo. The other two were born in South America in 1968 and 1970. Robert Baudy acquired the tapir and held them in the Robert Baudy Rare Feline Breeding Compound in Center Hill, Florida. The three tapir were purchased by Wild Kingdom, Inc. from 1970 to 1973 to present. We, in turn, purchased the tapir from January 1973 to present. It is our intention to bring all the animals from our holding compounds in Florida to Maryland for The Wildlife Preserve.

We would like to have the transportation and possession permits for these animals prior to our July 1, 1974 park opening date. Any consideration on your part in allowing us to obtain these permits, will be greatly appreciated.

All of the information needed for this application is enclosed herewith and includes scheme of park, dimensions of enclosures, and résumés of personnel that will be in charge of these animals.

If you have any questions, please don't hesitate to call on me.

Sincerely,

ANDREW KOUKOULIS,
Director of Operations.

MAY 28, 1974.

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13 of the Code of Federal Regulations and other applicable parts in Subchapter B of Chapter 1 of Title 50 and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may be subject to criminal penalties of 18 U.S.C. 1001.

Dated: June 4, 1974.

ANDREW KOUKOULIS,
Director of Operations, The Wildlife Preserve.

ENCLOSURE A

ABC Scenic and Wildlife Attractions, Inc., a subsidiary of the American Broadcasting Companies, Inc., operating The Wildlife Preserve, is applying for a transportation and possession permit for endangered species—namely:

(1) Brazilian Tapir (Tapirus Terrestris) Male, Born January 1971, Origin—Salt Lake City Zoo, United States

(2) Brazilian Tapir (Tapirus Terrestris) Female, Born 1970, Robert Baudy Center Rare Feline Breeding Compound, Center Hill, Florida—Origin—South America

(3) Brazilian Tapir (Tapirus Terrestris) Female, Born 1968, Robert Baudy Center Hill Feline Breeding Compound, Center Hill, Florida—Origin—South America

The endangered animals listed above will be transported for the purpose of propagation, educational exhibition, and scientific research. The tapir will be exhibited on 13 acres with vegetation and natural pond. Transportation of these animals listed above will have the benefit of large enclosed areas which will be located on a 400-acre tract called ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve at 13710 Central Avenue, Largo, Maryland 20870. Conservation is first priority—keeping in mind that the purpose is to propagate the species in captivity under the conditions at ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve. The display is of great value in education, as the public will view these animals in an environment similar to their natural habitat.

Since one of the tapirs was born at the Salt Lake City Zoo and the other tapirs were captive since 1970 at Center Hill, Florida, the Lacy Act for Lawful Capture does not apply.

The three tapir will be maintained in an enclosure encompassing 13 acres containing trees. Other vegetation with shade and shelter with water source such as a pond is also included. (See attached map). Shelters have indoor and outdoor sections. Sleeping areas are provided for each of the animals with easy feeding facilities. A veterinary clinic is located conveniently on the property for medical treatment due to injury or illness. This clinic will be used for surgery if necessary. The enclosure containing the three tapir consists of 11 gage 2" aluminum mesh. The height is 10' with a 2'6" overhang at a 30 degree angle with an 11 gage 2" aluminum coated wire. The bottom of the enclosure has an apron of 11 gage 2" mesh with one-half inch reinforcing bars driven approximately 3' into the ground. (See attached plan). This arrangement has proven successful at other safari parks.

Visitors drive through the enclosure on a winding road, observing the animals from the security of their cars. As the public drives through, they will receive information about the animals in the various paddocks on their car radio. Entry and exists are through double gates with a gate guard stationed at each gate affording full security.

We have as our consulting veterinarian, Dr. Mitchell Bush, Associate Veterinarian from the National Zoo. Dr. Bush will make frequent rounds at the Preserve. Assisting Dr. Bush will be Dr. Richard Montaly, Associate Veterinarian with Johns Hopkins Hospital, Baltimore, Maryland. These veterinarians will be assisted by our veterinary technician, Elizabeth Teeple, who will make daily rounds of the animals, facilities and Preserve areas.

The animal collection at ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve, will be managed by experienced personnel. Manager of Wildlife is Mr. Ronald Bugosh. He will be responsible for the feeding, housing and care of the collection. Mr. Bugosh is experienced in all matters of animal husbandry (See attached resume). We feel that Mr. Bugosh's experience will be beneficial for the continued welfare of the Brazilian Tapirs.

Working with Mr. Bugosh will be Mr. Frank Evans, who will be the lead man in the elephant, rhino and hooved stock area. (See attached resume). Also assisting Mr. Bugosh with our animals will be Mr. Ken Parker who will be the lead man with cats and primates (See attached resume). Elizabeth Teeple is the veterinary technician at the Preserve who will be assisting our veterinarians and other professionals in the care and health of our animals (See attached resume).

ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve, was established on the basis of the experience and knowledge of the ABC Scenic and Wildlife Attractions which owns and operates Silver Springs, Inc. and Weeki Wachee Springs—both attractions located in Florida. The Ross Allen Reptile Institute which is operated by the ABC Division is world renowned in venom research working closely with all government agencies as well as with hospitals and universities all over the world on biochemistry and the production of antivenom, which is produced by Wyeth Labs. We are among the first to propagate the species of the American Alligator. We were also instrumental in placing the alligator on the endangered list. The Institute has been instrumental in research on reptiles and mammals. We were also called upon by the State to help set up minimum cage requirements for mammals and we entirely set up the minimum cage requirements for reptiles in the State of Florida.

We have published over 800 research papers on reptiles in Florida and including South America.

ABC Scenic Attractions Division has employed as a consultant, Mr. Jim Fowler, a noted naturalist in the field of preservation of animals. He has worked for the renowned television series, "Wild Kingdom", a series that has contributed a wealth of knowledge in the preservation of animals. Mr. Fowler has also designed the animal facilities here at the Preserve (See attached résumé).

ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve, will be a major contributor to animal research programs and the general public by virtue of the size of the proposed animal collection and the gathering of data for the propagation. Since the animals are already in captivity no capture operation needs to be accomplished. The countries of origin are listed on page 1. The animals are owned by ABC Scenic and Wildlife Attractions, Inc. division and are presently located in Florida at our holding facilities in Clermont.

It is ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve, plan to transport the Brazilian tapirs from Clermont, Florida to Largo, Maryland. At present a formal stud book does not exist. The Preserve will be most willing to contribute to the same if one should be initiated. Proper records will be kept on all breeding programs related to a species. Proper records will be kept for identification of the animals and their offspring. Any useful

information that would be gained through experience in maintenance and breeding of this species will be made available to all interested parties through various publications or upon requested consultation. ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve, will be one of the few parks where space will be abundant to stimulate breeding activities. To insure against inbreeding, we will institute an exchange program with other zoos and organizations in establishing a natural environmental habitat for endangered species. ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve is a member in good standing of the AAZPA. Furthermore the Company is fully confident that with the help of organizations such as the AAZPA, there will be little difficulty in relocating the animals should it become necessary. This will be done in accordance with recommendations made by these organizations based upon the needs of its constituent members for the species.

The three Brazilian tapirs will be shipped by Mr. Earl Tatum, a person well qualified in the field of transportation of animals. The tapirs will be shipped in separate compartments on a ventilated truck. A 24-hour transportation period from Florida to Largo, Maryland is anticipated. Two animals attendants will accompany the animals making sure the tapirs are fed and watered on a regular basis throughout the trip.

ENCLOSURE B

ABC Scenic and Wildlife Attractions, Inc., a subsidiary of the American Broadcasting Companies, Inc., operating The Wildlife Preserve, is applying for a transportation and possession permit for endangered species—namely;

20 North American Alligators (Alligator Mississippiensis), 5 Males, date of hatching 1970—origin Ross Allen Reptile Institute, Silver Springs, Florida.
15 Females, date of hatching 1971—origin Ross Allen Reptile Institute, Silver Springs, Florida.

These alligators will be transported specially for education, exhibition and scientific research. The alligators will be exhibited in an enclosure 21' long by 10' wide with vegetation and a stream of running water with a complete change every two hours. The purpose is to enhance the educational value for the public about reptiles. This program is essential for the preservation of the species. The alligators will be exhibited at ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve, 13710 Central Avenue, Largo, Maryland 20870. These alligators were not taken from the wild but were hatched at our facilities at Silver Springs, Florida. In other words, conservation is the first priority. Management has developed methods to insure reproduction of the North American Alligator at our Reptile Institute at Silver Springs, Florida. Display of the alligators at the Preserve is a prime educational value. The public will view the animals in complete safety. They will be given a history about the alligator and why they should be protected and not killed. The alligators that we wish to transport from Florida to Maryland are captive hatched and therefore represent no damage to the wild stock.

In this regard the intent of the Lacy Act is fully upheld. Since all alligators were hatched in captivity, the Lacy Act provisions for lawful capture do not apply.

The alligators will be exhibited in an enclosure 21' long by 10' wide with vegetation and a stream of running water with a complete change every two hours. The alligators will have natural sunlight available to them and also part of the day they will have shade. The facilities where the alligators will be located will be classified as the pedestrian area where we will present five reptiles, on an educational basis, to the general public. This facility is located on the grounds of the Preserve.

We have as our consulting veterinarian, Dr. Mitchell Bush, Associate Veterinarian from the National Zoo. Dr. Bush will make frequent rounds at the Preserve. Assisting Dr. Bush will be Dr. Richard Montaly, Associate Veterinarian with Johns Hopkins Hospital, Baltimore, Maryland. These veterinarians will be assisted by our veterinary technician, Elizabeth Teeple, who will make daily rounds of the animals, facilities and Preserve areas.

The animal collection at ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve, will be managed by experienced personnel. Manager of Wildlife is Mr. Ronald Bugosh. He will be responsible for the feeding, housing and care of the collection. Mr. Bugosh is experienced in all matters of animal husbandry (See attached resume). We feel that Mr. Bugosh's experience will be beneficial for the continued welfare of the alligators.

Working with Mr. Bugosh will be Mr. Frank Evans, Mr. Ken Parker, Ms. Beth Teeple and Mr. Jim Fowler, a noted naturalist (See attached resumes).

ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve, was established on the basis of the experience and knowledge of the ABC Scenic and Wildlife Attractions which owns and operates Silver Springs, Inc. and Weeki Wachee Springs—both attractions located in Florida. The Ross Allen Reptile Institute which is operated by the ABC Scenic Division is world renown in venom research working closely with all governmental agencies as well as hospitals and universities around the world in biochemistry and the production of antivenom which is produced by Wyeth Labs. We were among the first to propagate the species of the American Alligator. We were also instrumental in placing the alligator on the endangered list. The Institute has been instrumental in research on reptiles and mammals. We also were instrumental in proposing minimum cage requirement for reptiles and mammals in Florida. We have published over 800 research papers on reptiles from Florida and South America.

The ABC Scenic Attractions Division has employed as a consultant, Mr. Jim Fowler, a noted naturalist in the field of preservation of animals. He has worked for the acclaimed television series "Wild Kingdom", a series that has contributed a wealth of knowledge toward the preservation of animal life. We have also gained experience and knowledge from world famous herpetologist, Mr. Ross Allen.

ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve, will be a major contributor by virtue of the size of the proposed animal population, the size of the park, and the gathering of data for propagation and educational exhibition. Since the animals are already in captivity no capture permits need be accomplished.

The alligators are owned, hatched and located at our ABC Scenic Attractions Division in Silver Springs, Florida. It is the Preserve's plan to transport the North American Alligator from Silver Springs, Florida to Largo, Maryland. All useful information gained through experience in the maintenance and breeding of the North American Alligator will be made available to all interested parties for various publications and upon requested consultation. The physiological data gained while working with these reptiles will be distributed to all interested parties through proper channels. To the best of my knowledge the Ross Allen Reptile Institute in association with ABC Scenic Attractions Division has been in the breeding program and initiated the endangered species on the North American Alligator. ABC Scenic and Wildlife Division is a member in good standing with the AAZPA. The objective of this organization is to follow the aims and objectives of other zoos and organizations in establishing natural environments for endangered species.

ABC Scenic and Wildlife Attractions, Inc., operating The Wildlife Preserve, has invested considerable funds in designing one of the outstanding wildlife parks in the world. It has drawn on its expertise from our other parks in Florida. As a successful Corporation with vast amounts of funds being invested in the establishment and development of The Wildlife Preserve as a near natural habitat for our animal collection, no talent or funds have been spared to engage top personnel, advisors or consultants in the management of this animal park. I am fully confident that with the help of organizations such as the AAZPA there will be little difficulty in relocating the animals or reptiles should it become necessary. This will be done in accordance with the recommendations made by these organizations based upon the needs of its constituent members for the species.

The shipping of the alligators from Silver Springs, Florida to Largo, Maryland will consist of placing alligators in strong wooden crates with ventilation holes. The alligators for a short period of time will not need water in transit, but will be kept damp with wet rags. The total trip hours will be 24 hours from Florida to Maryland at which time the alligators will be placed in their surroundings at the reptile area at the Preserve. Mr. Earl Tatum, a person well qualified in the field of transportation of animals, will bring these alligators to Maryland.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Bureau's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FSF/LE), Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240. All relevant comments received no later than August 12, 1974 will be considered.

Dated: June 28, 1974.

ARIZONA-SONORA DESERT MUSEUM

Endangered Species Permit; Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10

of the Endangered Species Act of 1973 (Pub. L. 93–205).

Applicant:
Arizona-Sonora Desert Museum
Tucson, Arizona 85703

DIRECTOR,
Bureau of Sport Fisheries and Wildlife,
Department of the Interior,
Washington, D.C. 20240.

JUNE 3, 1974.

DEAR SIR: We wish to apply for a permit to import one female margay (Felis wiedii glaucula). This animal is to be used for exhibition and breeding purposes at the Arizona-Sonora Desert Museum in Tucson, Arizona.

We have obtained from the Mexican government a permit to export four margays. A copy of this permit is enclosed. There is one female margay 1½ years old now in captivity in Alamos, Sonora, Mexico. If an import permit is issued for the animal, it will be flown from Alamos to Tucson by private plane. It will be in transit less than five hours.

We have recently completed an exhibit displaying the four species of small wild cats found within our region. Each species is displayed in a naturalistic canyon habitat. This exhibit is completely unique and is considered by professional zoo people to be the best small cat exhibit in the world.

The margay canyon is 45 feet long by 25 feet wide and varies greatly in relief and texture. There are two dens in the exhibit, one of which is on public display. There are ledges and logs throughout the exhibit which make excellent sunning and loafing spots.

Ocelots, bobcats and jaguarundis are housed in the adjacent exhibits. Breeding activity has been observed in all of these species in the new exhibits, and the bobcats have produced young here. We hope to be able to have equal breeding success with margays and, if so, we will be happy to cooperate with other zoos in exchanging breeding stock.

In addition, we have undertaken a margay research and breeding project housed in a fifteen-unit compound (see enclosures). We are running blood chemistries on all margays in residence in hopes of establishing norms for various blood parameters. This information will be invaluable in captive maintenance of margays.

We currently have ten margays, five males and five females. The success of this project depends on obtaining ultimately several dozen margays. If our breeding efforts are successful, we intend to establish a stud book for margays and to distribute at minimal cost breeding pairs of margays to other zoos.

The personnel at the Museum have many years of experience in caring for captive felines. Proof of our competence in raising felines lies in our longevity records: mountainlion, 16 years; jaguar, 19+ years; bobcat, 21 years; jaguarundi, 9 years; ocelot, 6 years; margay, 8 years. We practice a complete program of preventive immunization, and have a veterinarian on call at all times.

I hope this information is sufficient. Thank you for your assistance in this matter.

Sincerely,

MERVIN W. LARSON,
Director.

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

MERVIN W. LARSON,
Director,
Arizona-Sonora Desert Museum, Inc.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Bureau's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FSF/LE), Fish and Wildlife Service, Washington, D.C. 20240. All relevant comments received no later than August 12, 1974 will be considered.

Dated: July 9, 1974.

C. R. BAVIN,
Chief,
Division of Law Enforcement.

[FR Doc.74–16059 Filed 7–11–74;8:45 am]

GREAT ADVENTURE, INC.

Endangered Species Permit

On May 3, 1974, a notice was published in the FEDERAL REGISTER (39 FR 15512) that an application had been filed with the Fish and Wildlife Service by Great Adventure, Inc., for a permit to import eleven (11) Siberian tigers (Panthera tigris altaica), thirteen (13) Bengal tigers (Panthera tigris tigris), and ten (10) cheetah (A. jubatus).

Notice is hereby given that on June 19, 1974, as authorized by the provisions of the Endangered Species Act of 1973, 16 U.S.C. 1531–1543, the Fish and Wildlife Service issued a permit to Great Adventure, Inc., to import and to transport in interstate commerce, eleven (11) Siberian tigers, and thirteen (13) Bengal tigers, subject to certain conditions set forth therein. The application to import ten (10) cheetah was denied.

This permit was issued after it was determined that this permit was applied for in good faith; that by granting this permit it will not operate to the disadvantage of such endangered species and that it will be consistent with the purposes and policy set forth in the Endangered Species Act.

The permit is available for public inspection during normal business hours at the Fish and Wildlife Service's office in Suite 600, 1612 K Street, NW., Washington, D.C. 20240.

Dated: July 9, 1974.

C. R. BAVIN,
Chief,
Division of Law Enforcement.

[FR Doc.74–16063 Filed 7–11–74;8:45 am]

G. CARLETON RAY AND FRANCIS H. FAY

Marine Mammal Permit

On April 16, 1974, a notice was published in the FEDERAL REGISTER (39 FR 13692) that an application had been filed with the Fish and Wildlife Service by Dr. G. Carleton Ray, Department of Pathobiology, Johns Hopkins University, 615 North Wolfe Street, Baltimore, Maryland 21205, and Dr. Francis H. Fay, Department of Wildlife and Fisheries, University of Alaska, Fairbanks, Alaska 99701, for a permit to take Pacific Walrus (Odobenus rosmarus), on Round Island, Alaska.

Notice is hereby given that on July 3, 1974, as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the Fish and Wildlife Service issued a permit to Dr. G. Carleton Ray and Dr. Francis H. Fay, subject to certain conditions set forth therein. The permit is available for public inspection during normal business hours at the Fish and Wildlife Service's office in Suite 600, 1612 K Street, NW., Washington, D.C. 20240, and at the office of the Regional Director, Fish and Wildlife Service, U.S. Post Office and Courthouse, Boston, Massachusetts 02109, and the office of the Alaska Area Director, 813 D Street, Anchorage, Alaska 99501.

Dated: July 9, 1974.

C. R. BAVIN,
Chief,
Division of Law Enforcement.

[FR Doc.74–16062 Filed 7–11–74;8:45 am]

HENRY HAUG

Issuance of Permit for Marine Mammals

On April 16, 1974, a notice was published in the FEDERAL REGISTER (39 FR 13692) that an application had been filed with the Fish and Wildlife Service by Henry Haug, Bagley Wildlife Museum, Highway 2, West Bagley, Minnesota, for a permit to import one (1) polar bear skin for public display.

Notice is hereby given that on July 2, 1974, as authorized by the provision of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the Fish and Wildlife Service issued a permit to Henry Haug, subject to certain conditions set forth therein. The permit is available for public inspection during normal business hours at the Fish and Wildlife Service's office in Suite 600, 1612 K Street, NW., Washington, D.C. 20240, and at the Office of the Regional Director, Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.

Dated: July 9, 1974.

C. R. BAVIN,
Chief, Division of Law Enforcement.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Notice of Designation Number A054]

TEXAS

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural

credit exists in the following counties in Texas:

Coleman Stonewall

The Secretary has found that this need exists as a result of a natural disaster consisting of prolonged drought in Coleman County from October 12, 1973, through April 29, 1974, and in Stonewall County from September 7, 1973, through April 29, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Dolph Briscoe that such designation be made.

Applications for Emergency loans must be received by this Department no later than August 29, 1974, for physical losses and March 31, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 5th day of July, 1974.

F. W. NAYLOR, Jr.,
Acting Administrator,
Farmers Home Administration.

Food and Nutrition Service

NATIONAL SCHOOL LUNCH PROGRAM

National Average Payments

Pursuant to § 210.4 and § 210.11 of the regulations governing the National School Lunch Program (7 CFR 210), notice is hereby given of adjustments in the national average factors for payment for lunches and the maximum rates of reimbursement. The national average factors for payment for lunches served during the six-month period July 1-December 31, 1974, to children participating in the National School Lunch Program are as follows: (a) 11.00 cents from general cash-for-food assistance funds for each lunch; (b) an additional 39.50 cents from special cash assistance funds for each reduced price lunch; and (c) an additional 49.50 cents from special cash assistance funds for each free lunch.

The total amount of general cash-for-food assistance payments and special cash assistance payments to be made to each State agency from the sums appropriated therefor, shall be based upon such national average factors.

The above factors represent a 4.94 percent increase in the factors prescribed for the period January-June, 1974. This represents the percent of increase during the six-month period December-May, 1974 (from 149.7 in November, 1973 to 157.1 in May, 1974) in the series for food away from home of the Consumer Price Index, published by the Bureau of Labor Statistics of the Department of Labor.

For the six-month period July 1-December 31, 1974, (a) the maximum rate of reimbursement from general cash-for-food assistance funds shall be 17.00 cents per lunch served; (b) the maximum per lunch reimbursement (from a combination of general cash-for-food assistance and special cash assistance funds) shall be 75.5 cents for a free lunch and 65.5 cents for a reduced price lunch.

Definitions. The terms used in this notice shall have the meanings ascribed to them in the regulations governing the National School Lunch Program (7 CFR Part 210) and the regulations for Determining Eligibility for Free and Reduced Price Meals and Free Milk (7 CFR Part 245).

(Catalog of Federal Domestic Assistance Program No. 10.555, National Archives Reference Service.)

Effective date: This notice shall become effective July 1, 1974.

Dated: July 8, 1974.

RICHARD L. FELTNER,
Assistant Secretary.

[FR Doc.74-15997 Filed 7-11-74;8:45 am]

SCHOOL BREAKFAST PROGRAM

National Average Payments

Pursuant to §§ 220.4 and 220.9 of the regulations governing the School Breakfast Program (7 CFR 220), notice is hereby given that the national average breakfast factors for breakfasts served during the six-month period July 1-December 31, 1974, to children participating in the School Breakfast Program shall be: (a) 8.75 cents for all breakfasts; (b) an additional 16.50 cents for each reduced price breakfast; and (c) an additional 22.00 cents for each free breakfast. The total amount of breakfast assistance payments to be made to each State agency from the sum appropriated therefor, shall be based upon such national average factors: *Provided, however,* That additional payments shall be made in such amounts as are needed to finance reimbursement rates assigned in accordance with the provisions of § 220.9(b-1) of the regulations.

For nonespecially needy schools, the maximum rates of reimbursement for paid breakfasts, for reduced price breakfasts, and for free breakfasts shall be equal to the respective factors set out above.

For especially needy schools, the maximum rate of reimbursement for paid breakfasts shall be equal to the national average factor for all breakfasts; the maximum rate of reimbursement for reduced price and free breakfasts shall be 40 cents and 45 cents, respectively.

Definitions. The terms used in this notice shall have the meanings ascribed to them in the regulations governing the School Breakfast Program (7 CFR Part 220) and the regulations for Determining Eligibility for Free and Reduced Price Meals and Free Milk (7 CFR Part 245).

(Catalog of Federal Domestic Assistance Program No. 10.553, National Archives Reference Service.)

Effective date: This notice shall be effective July 1, 1974.

Dated: July 8, 1974.

RICHARD L. FELTNER,
Assistant Secretary.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

INDUSTRY ADVISORY COMMITTEE ON METAL SCRAP PROBLEMS

Notice of Meeting

A meeting of the Industry Advisory Committee on Metal Scrap Problems will be held starting at 9:30 a.m. on Tuesday, July 30, 1974, Room 6802, Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

The Committee gathers information and provides advice to Department officials in order to identify and overcome problems in metal scrap consumption. The Committee advises on such national issues as conservation of natural resources, solid waste management, and environmental quality.

The intended agenda is as follows:

James M. Owens, Director
Materials Division, OBRA
Chairman

1. Introduction	James M. Owens.
2. Short-term Supply Situation in Ferrous Scrap:	
a. Current Supply Situation and Impediments to Increasing Supply	Dr. Herschel Cutler, Institute of Scrap Iron and Steel.
b. Government Action to Increase Supply	James M. Owens.
(1) Increase Sale of Military Scrap	
(2) Increase Sale of Surplus Ships	
3. Short-term Demand Situation in Ferrous Scrap:	
a. Export Control Program	Jacob Levin, Materials Division.
b. Steel Demand	Edmund Pfeifer, Lukens Steel.
c. Foundry and Cast Iron Pipe Industry Requirements	Clyde Jenni, Steel Founders' Society of America.

4. Review of Long-term Ferrous Scrap Supply/Demand: a. 1975/1980 Forecast of Ferrous Scrap Supply/Demand, Including the Availability of Pre-reduced Iron	Harold B. Jensen, Lukens Steel.
5. Junk Car Disposal Site Project: a. Report on Responses from Governors	Diana B. Friedman, Materials Division.
6. Metal Scrap Research Projects	Dr. Robert S. Kaplan, Bureau of Mines, U.S. Department of the Interior.
7. Research and Development Working Group Report	Edmund Pfeifer.
8. Aluminum Scrap Supply/Demand	Marie Z. Harris, Materials Division.
9. Copper Scrap Supply/Demand	Rodney A. Joseph, Materials Division.

The membership of the Committee consists of 26 members, currently drawn from seven involved industries—iron and steel scrap processing, nonferrous scrap processing, automobile and truck wrecking, basic iron and steel producing, basic nonferrous metal producing, ferrous foundry and automobile manufacturing.

A limited number of seats—approximately 20—will be available to the public on a first-come basis, including three which will be reserved for the press.

Members of the public may present written statements to the Committee, and, in addition, oral statements to the extent time permits. Written statements must be submitted to the Committee Control Officer at least 3 days prior to the meeting.

Persons wishing to participate in the discussions or desiring additional information concerning this meeting should contact the Committee Control Officer, Mrs. Diana B. Friedman, Materials Division, Room 2007, U.S. Department of Commerce, Washington, D.C. 20230, Telephone: 202–967–5505. Presentation of views must be pertinent to the agenda items.

PAUL T. O'DAY,
Acting Deputy Assistant Secretary for Domestic Commerce.

JULY 9, 1974.

Maritime Administration

[Docket No. S–420]

ZAPATA PRODUCT TANKERS, INC.

Notice of Application

Notice is hereby given that on May 1, 1974, Zapata Bulk Transport, Inc., a subsidiary of Zapata Corporation, filed a letter application for approval under the Merchant Marine Act, 1936, as amended (the Act), of the acquisition by its subsidiary, Zapata Product Tankers, Inc., of the four (4) 35,000 DWT tankers under construction at Todd Shipyards to be operted by four subsidiaries of Sea Service Tankers, Inc. The application was amended by letter of July 8, 1974, from Sidley & Austin on behalf of Zapata Product Tankers, Inc. Zapata Product Tankers, Inc., will acquire all of the stock of Sea Service Tankers, Inc., and the vessel owners, and subsequently will liquidate Sea Service Tankers, Inc., its subsidiaries, and the vessel owners, and will become the owner and operator of the vessels.

The four subsidiaries of Sea Service Tankers, Inc., have entered into an operating-differential subsidy agreement, pursuant to Title VI of the Act, to aid in the operation of these vessels in the U.S. foreign trade. Additionally, they have received permission under section 805(a) of the Act for an affiliate, Falcon Tankers, Inc., to own, charter, and/or operate four (4) tanker vessels in domestic intercoastal or coastwise service. The four tanker vessels have been chartered to the military for service.

Upon the liquidation of Sea Service Tankers, Inc., and its subsidiaries, Zapata Product Tankers, Inc., will become the operator under the operating-differential subsidy agreement. Since Falcon Tankers, Inc., will also be an affiliate of Zapata Product Tankers, Inc., written permission of the Maritime Administration under section 805(a) of the Act will be required by Zapata Product Tankers, Inc., in order to permit the continued operation of the vessels, now chartered to the military, in domestic operation.

Also, Zapata Coastal Transport, Inc., an affiliate of Zapata Product Tankers, Inc., plans to operate crude oil carriers in domestic trade between Alaska and the continental United States. A request for permission under section 805(a) for Zapata Coastal Transport, Inc.'s proposed operations was published in the FEDERAL REGISTER on May 15, 1974 in connection with the application of Zapata Western Shipholding, Inc., an affiliate of Zapata Product Tankers, Inc. for operating-differential subsidy. Zapata Product Tankers, Inc., advises that at the present time its affiliate, Zapata Coastal Transport, does not own or charter any vessels, and, consequently, is not engaged in domestic trades. Although permission under section 805(a) for Zapata Coastal Transport's plans to operate is not necessary at the present time, Zapata Product Tankers, Inc., is applying on behalf of itself, Sea Service Tankers, Inc., and its four subsidiaries, for written permission of the Maritime Administration under section 805(a) of the Act for its affiliate, Zapata Coastal Transport, Inc., to operate up to four tankers of from 90,000 DWT to 150,000 DWT primarily in the transportation of crude oil from Alaska to the West, Gulf or East Coast of the United States.

In addition, Zapata Marine Services, Inc., an affiliate of Zapata Product Tankers, Inc., is constructing two U.S. flag, 185 foot offshore tug/supply vessels scheduled for completion on November 1, 1974 and January 15, 1975, respectively. These vessels may be used in connection with the operation of offshore drilling vessels in U.S. territorial waters or on the U.S. Continental Shelf. Although permission under section 805(a) is not necessary at the present time, Zapata Product Tankers, Inc., is applying on behalf of itself, Sea Service Tankers, Inc., and its four subsidiaries, for written permission of the Maritime Administration under section 805(a) of the Act for its affiliate, Zapata Marine Services, Inc., to operate two offshore tug/supply vessels to service offshore drilling vessels in U.S. territorial waters or on the U.S. Continental Shelf.

Any person, firm or corporation having any interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on July 22, 1974, file same with the Secretary, Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing will be held, the purpose of which will be to receive evidence under section 805(a) relative to the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal service, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS))

Dated: July 10, 1974.

By order of the Maritime Administration.

JAMES S. DAWSON, Jr.
Secretary.

National Bureau of Standards

FEDERAL INFORMATION PROCESSING STANDARDS COORDINATING AND ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (5 U.S.C. App. I (Supp.

II, 1972)), notice is hereby given that the Federal Information Processing Standards Coordinating and Advisory Committee (FIPSCAC) will hold a meeting from 9 a.m. to 12 noon on Wednesday, July 31, 1974, in Room B–255, Building 225, of the National Bureau of Standards in Gaithersburg, Maryland.

The purpose of the meeting is to review the actions of the Federal Information Processing Standards (FIPS) Task Groups and to consider other matters relating to Federal information processing standards.

The public will be permitted to attend, to file written statements, and, to the extent that time permits, to present oral statements. Persons planning to attend should notify the Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, (Phone 301–921–3551).

Dated: July 8, 1974.

National Oceanic and Atmospheric Administration

ATLANTIC BLUEFIN TUNA

Review of Status

The National Marine Fisheries Service is commencing a review of the status of the Atlantic bluefin tuna for the purpose of determining whether the species should be listed, pursuant to section 4 of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), as a threatened species.

This action is undertaken as a result of concern for the overall welfare of Atlantic bluefin tuna stocks arising from preliminary investigations by National Marine Fisheries Service scientists as well as from statements of concern by citizens and private organizations.

All interested parties are hereby invited to submit by August 15, 1974, any factual information which is relevant to this review of the status of the Atlantic bluefin tuna. The information should be sent to the Director, National Marine Fisheries Service, Washington, D.C. 20235.

Done at Washington, D.C., this 8th day of July, 1974.

JACK W. GEHRINGER,
Acting Director.

[FR Doc.74–16037 Filed 7–11–74;8:45 am]

YELLOWFIN TUNA FISHING

Incidental Catch Rate

Notice of reversion is hereby given pursuant to § 280.7(b)(3), Title 50, Code of Federal Regulations, as follows:

At 0001 hours, local time, at port of departure on July 12, 1974, the incidental catch rate of yellowfin tuna for bait and jig boats will revert to fifteen percent (15 percent). On the basis of the catch and present catch rate, as of that date, the amount of yellowfin tuna caught during the closed season by bait and jig boats will have reached 2800 short tons as provided in § 280.7(b)(3), Title 50, Code of Federal Regulations.

Issued at Washington, D.C., and dated July 10, 1974.

JACK W. GEHRINGER,
Acting Director.

Office of the Secretary

[Dept. Organization Order 25–3A]

OFFICE OF FOREIGN DIRECT INVESTMENTS

Delegation of Authority and Functions

This order effective June 30, 1974, supersedes the material appearing at 23 FR 54 of January 3, 1968; and 35 FR 19139 R of December 17, 1970.

SECTION 1. *Purpose.* The purpose of this order is to abolish the Office of Foreign Direct Investments; to revoke the Foreign Direct Investment Regulations contained in 15 Code of Federal Regulations, Chapter X, Part 1000;[1] to reserve to the Secretary of Commerce the authority vested in him by Executive Order 11387, except as provided herein; and to delegate certain responsibilities relating to or arising from the Foreign Direct Investment Regulations to the Administrator, Social and Economic Statistics Administration, and to the General Counsel.

SEC. 2. *General.* The Office of Foreign Direct Investments (the "Office"), established as a primary operating unit of the Department of Commerce by Department Organization Orders 25–3A and 25–3B, pursuant to the authority vested in the Secretary of Commerce (the "Secretary") by Executive Order 11387 dated January 1, 1968, and otherwise by law, is hereby abolished, effective June 30, 1974. All functions, authorities, and responsibilities contained in said orders are hereby revoked and reserved to the Secretary of Commerce.

SEC. 3. *Revocation and retention of regulations.* Pursuant to the authority vested in the Secretary by Executive Order 11387 and otherwise by law, the Foreign Direct Investment Regulations contained in Title 15, Code of Federal Regulations, Chapter X, Part 1000, are hereby revoked. Such revocation shall not, however, in any way affect the force or validity of the regulations while they were in effect, nor in any way affect the responsibilities or liabilities of any person under such regulations or any determination, settlement, or enforcement of any compliance actions or penalties arising under such regulations, which shall continue and may be enforced as if such revocation had not been made. The rules and procedures contained in Title 15, Code of Federal Regulations, Chapter X, Parts 1020–1050, shall remain in effect until further notice.

SEC. 4. *Delegation of authority.* .01 Pursuant to the authority vested in the Secretary by Executive Order 11387 and otherwise by law, and subject to such policies, limitations and directions as the Secretary may prescribe:

a. The Administrator, Social and Economic Statistics Administration ("SESA"), is hereby delegated the authority, in addition to the authorities otherwise delegated to him, to acquire from any person subject to the jurisdiction of the United States information relating to transactions involving direct or indirect transfers of capital to or from or outside of the United States, investments, earnings, foreign balances, and other business abroad, for statistical purposes, and to collate, arrange, and publish reports based upon such statistical information.

b. The Administrator, SESA, is further authorized to receive, have access to, and utilize for statistical purposes the information, records, and other materials previously furnished by any person to the Office in reports pursuant to 15 CFR 1000.602 or otherwise obtained by the Office.

c. The General Counsel of the Department (the "General Counsel") is hereby delegated the authority to take such actions as may be necessary or appropriate to obtain, asure, and continue effective compliance with the Foreign Direct Investment Regulations and the compliance actions previously initiated by the Office, including obtaining, receiving, and using reports, information and materials previously accumulated by the Office, conducting investigations, and otherwise utilizing the rules and procedures set forth in 15 CFR 1020–1050.

.02 The Administrator, SESA, and the General Counsel are further authorized to consult and collaborate with and utilize the facilities and services of other agencies and organizations and to take such other actions as may be necessary or appropriate to fulfill their responsibilities under this Order.

.03 The Administrator, SESA, and the General Counsel may each redelegate any authority and responsibilities conferred upon them by this Order.

SAVINGS PROVISION

Nothing in this Order shall be deemed inconsistent with Department Organiza-

[1] A document revoking 15 CFR Part 1000 will be published in the near future.

tion Orders 10–6 (formerly DO 104 (Revised)), Office of the General Counsel, or 35–4A, Social and Economic Statistics Administration, which are unchanged. To the extent that this order is inconsistent with any other rules, orders or other actions of the Department, the latter shall be deemed to be superseded.

Effective date: June 30, 1974.

HENRY B. TURNER,
Assistant Secretary for Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration

NATIONAL ADVISORY COUNCIL ON HEALTH PROFESSIONS EDUCATION

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), the Administrator, Health Resources Administration, announces the meeting date and other required information for the following Council scheduled to assemble during the month of July 1974:

Council name	Date, time, place	Type of meeting and/or contact persono
National Advisory Council on Health Professions Education.	July 22, 9 a.m., Conference Room No. 4, Bldg. 31–C, National Institutes of Health, Bethesda, Md.	Closed—Contact Ms. Lynn Stevens Bldg. 31–C, National Institutes a, Health, Room 4C–08, Bethesdf, Md. Code 301–496–3535.

Purpose: Advises the Secretary with respect to the administration of programs of financial assistance for the health professions, including construction of facilities, student loans and scholarships, capitation for the support of educational programs, special projects and other purposes to improve the quality of education and conducts the final review of grant applications in these areas.

Agenda: The Council will meet for the purpose of reconsidering actions or grant applications for Federal Assistance for hospital bed construction. In accordance with the determination by the Administrator, Health Resources Administration, pursuant to the provisions of Pub. L. 92–463, section 10(d), no portion of this meeting will be open to the public.

In view of unresolved issues with respect to recommendations made during the Council's last session, the Secretary requested a special meeting, and earlier notice of announcement was not feasible.

Agenda items are subject to change as priorities dictate.

Anyone wishing to obtain roster of members or other relevant information should contact the person listed above.

Dated: July 9, 1974.

DANIEL F. WHITESIDE,
Associate Administrator for Operations and Management, Health Resources Administration.

Social Security Administration

ADVISORY COUNCIL ON SOCIAL SECURITY

Meeting

Notice is hereby given, pursuant to Pub. L. 92–463, that the Advisory Council on Social Security, established pursuant to section 706(a) of the Social Security Act, as amended, will meet on Sunday, August 4, 1974, from 9 a.m. to 3 p.m. and from 7 p.m. to 10 p.m., and Monday, August 5, 1974, from 9 a.m. to 5 p.m. at O'Hare International Towers Hotel, O'Hare International Airport, Chicago, Illinois. Beginning at 3 p.m. on Sunday, August 4, two subcommittees of the Advisory Council will meet. One subcommittee deals with social security financing, the other with treatment of men and women under socal security with respect to sex and marital status. A task force on the purposes, objectives, and principles of the social security program will meet at 3 p.m. on Sunday, August 4. The meetings of the Advisory Council, its subcommittees, and the task force are open to the public.

Further information on the Council and the task force may be obtained from John Trout, Executive Secretary of the Council, Room 440 Altmeyer Building, Social Security Administration, 6401 Security Boulevard, Baltimore, Md. 21235, telephone (301) 594–2510. Further information on the Council's subcommittee on financing may be obtained from Mary Ross, Executive Secretary of the Subcommittee, Room 438 Altmeyer Building, telephone (301 594–2514. Further information on the Council's subcommittee on treatment of men and women under social security may be obtained from James Crum, Executive Secretary of the Subcommittee, Room 454 Altmeyer Building, telephone (301) 594–2834. Members of the public planning to attend should send written notice of intent to the Executive Secretary.

Dated: JULY 3, 1974.

Federal Insurance Administration

[Docket No. N–74–241]

FEDERAL CRIME INSURANCE PROGRAM

Notice of Public Meeting

The purpose of this notice is to announce that the Federal Insurance Administrator, U.S. Department of Housing and Urban Development, Washington, D.C. 20410, will hold a Public Meeting on the Federal Crime Insurance Program in the Departmental Conference Room of of the Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. on Wednesday, July 17, 1974, commencing at 10:00 a.m.

The Federal Crime Insurance Program, authorized by Title VI of the Housing and Urban Development Act of 1970 (Pub. L. 91–609, December 31, 1970), which commenced on August 1, 1971, authorizes the Secretary of Housing and Urban Development to make crime insurance available at affordable rates in any state in which a critical market unavailability exists that has not been met through appropriate state action. At the present time, the residents and businesses in the District of Columbia and the States of Connecticut, Delaware, Florida, Illinois, Kansas, Maryland, Masacshusetts, Missouri, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and Tennessee are eligible to participate in this program.

The Federal Insurance Administrator, to whom the Secretary of Housing and Urban Development delegated authority under Title VI of the Housing and Urban Development Act of 1970, is authorized to make use of the existing facilities and services of insurance companies, agents, and brokers as fiscal agents of the United States. Federal Crime Insurance is presently sold under the program through private insurance agents and brokers and serviced by private insurers acting as servicing companies.

The effectiveness of the Federal Crime Insurance Program in those states in which residents and businesses are currently eligible for insurance coverage under the program depends, in part, on the ability and willingness of private insurance carriers to act as servicing companies. In the most recent bidding process conducted to attract qualified servic-

ing companies, an insufficient number of servicing companies made bids.

Accordingly, the public meeting on July 17, 1974, will be held to gather information as to whether reconsideration should now be given to the governmental role in the program, including servicing alternatives.

Furthermore, information on all aspects of the program that would serve related governmental concerns, including the extent to which eligible residents and businesses have elected to be covered, and marketing alternatives, will be received during the meeting.

The meeting is open to the public. Public attendance may be limited depending on available space. Any member of the public may file a written statement before, during or after the meeting. To the extent that time permits, interested persons will be allowed public presentation of oral statements at the meeting.

All communications concerning this meeting should be addressed to Federal Insurance Administrator, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410.

Issued in Washington, D.C., on July 5, 1974.

(Sec. 7(d) Department of Housing and Urban Development Act, 42 U.S.C. 3535(d))

GEORGE K. BERNSTEIN,
Federal Insurance Administrator.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. 25; Notice 13]

UNIFORM TIRE QUALITY GRADING

Public Briefings

This notice schedules two public briefings regarding test facilities to be used by regulated persons and the NHTSA for the establishment and compliance testing of tire quality grades. A notice of proposed rulemaking for a Uniform Tire Quality Grading System was published on June 14, 1974 (39 FR 20808).

The proposed rule states that treadwear and traction test facilities will be established for both agency and industry testing in the vicinity of San Angelo, Texas. In the case of treadwear grading, the proposal specifies a test circuit of approximately 400 miles that is intended to produce specified wear rates on three standard or course-monitoring tires. In the case of traction grading, the test facility is specified as concrete and asphalt surfaces, also constructed in the San Angelo area.

The NHTSA is presently establishing these facilities and will hold two public briefings regarding them. The first will be held at 10 a.m., July 23, 1974, in Room 2230, Department of Transportation Headquarters, 400 Seventh Street, SW., Washington, D.C. 20590. Following the briefing an opportunity will be provided for questions. However, questions may concern only the nature and use of the test facility and not the substance of the proposed requirements or procedures. A transcript of the briefing will be made and will be placed as soon as possible thereafter in the public docket (No. 25) for the rulemaking action.

On July 29, 1974, the NHTSA will conduct the second briefing at the test facility. This briefing will be held at 10 a.m., at Goodfellow Air Force Base, San Angelo, Texas. Because the briefing involves the attendance of non-military persons on a military base, persons wishing to attend must notify NHTSA prior to the day of the briefing. Persons wishing to attend should contact Miss Judy Grabusnik, Safety Research Laboratory N43-20, Research and Development, National Highway Traffic Safety Administration, Washington, D.C. 20590, Telephone (301) 344-2682.

The NHTSA has decided as well to allow interested persons to use the test sites during the comment period of the proposed rule. The treadwear site is tentatively scheduled to be available for use by interested persons on or about August 5, 1974. The traction test site is tentatively scheduled to be available for use beginning September 1, 1974. The NHTSA will attempt to accommodate all requests to use the sites within the comment period. However, the NHTSA does not contemplate extending the comment period to allow interested persons to use the sites and any person's inability to test on the sites within the comment period will not constitute a justifiable basis for comment period extension.

Persons wishing to test on either test site should contact Miss Grabusnik at the above address. Each request should specify the amount of time necessary to complete the testing contemplated.

(Secs. 103, 112, 119, 201, 203, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1401, 1407, 1421, 1423); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on July 9, 1974.

FRANCIS ARMSTRONG,
Acting Associate Administrator, Motor Vehicle Programs.

[FR Doc.74-16003 Filed 7-9-74;3:39 pm]

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS' SUBCOMMITTEE ON CRYSTAL RIVER NUCLEAR GENERATING PLANT—UNIT 3

Notice of Meeting

JULY 8, 1974.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Crystal River Nuclear Generating Plant, Unit 3, will hold a meeting on July 29, 1974 in Room 1046 at 1717 H Street, NW., Washington, D.C. The purpose of this meeting will be to develop information for consideration by the ACRS in its review of the application of Florida Power Corporation for a license to operate this nuclear power plant. The facility is located on the Gulf of Mexico, approximately 7½ miles northwest of Crystal River, Florida.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

MONDAY, JULY 29, 1974, 9 A.M. UNTIL THE CONCLUSION OF BUSINESS

The Subcommittee will hear presentations by representatives of the Regulatory Staff and Florida Power Corporation and will hold discussions with these groups pertinent to its review of the application of Florida Power Corporation for a license to operate the Crystal River Nuclear Generating Plant, Unit 3.

In connection with the above agenda item, the Subcommittee will hold Executive Sessions, not open to the public, at 8:30 a.m. and at the end of the day to consider matters relating to the above application. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee Members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the Executive Sessions, the Subcommittee may hold a closed session with representatives of the Regulatory Staff and Applicant for the purpose of discussing privileged information concerning plant physical security and other matters related to plant design, construction and operation, if necessary.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Subcommittee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than July 22, 1974, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission,

Washington, D.C. 20545. Such comments shall be based upon the Preliminary Safety Analysis Report for this facility and related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 and at the Crystal River Public Library, Crystal River, Florida 32629.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of not more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3:30 p.m. on July 29, 1974.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time alloted, can be obtained by a prepaid telephone call on July 26, 1974, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5640) between 8:30 a.m. and 5:15 p.m., Eastern Daylight Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interefere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street, NW., Washington, D.C. 20545, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection on or after July 30, 1974 at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and within approximately nine days at the Crystal River Public Library, Crystal River, Florida 32629. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE., Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the Minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 after September 30, 1974. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

[FR Doc.74-15940 Filed 7-11-74;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON NINE MILE POINT, UNIT 1

Notice of Meeting

JULY 8, 1974.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Nine Mile Point, Unit 1 will hold a meeting on July 29, 1974 in Room 1062 at 1717 H Street, NW., Washington, D.C. The purpose of this meeting will be to develop information for consideration by the ACRS in its review of the conversion of the applicant's Provisional Operating License to a Full Term Operating License.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

MONDAY, JULY 29, 1974, 9:30 A.M. UNTIL THE CONCLUSION OF BUSINESS

The Subcommittee will hear presentations by representatives of the Regulatory Staff and Niagara Mohawk Power Corporation, Licensee, and will hold discussions with these groups pertinent to its review of matters related to conversion of the Provisional Operating License to a Full Term Operating License.

In connection with the above agenda item, the Subcommittee will hold Executive Sessions, not open to the public, at approximately 8:30 a.m. and at the end of the day to consider matters related to the above review. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee Members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the Executive Sessions, the Subcommittee may hold one or more closed sessions with representatives of the Regulatory Staff and Licensee for the purpose of discussing privileged information relating to the matters under review, if necessary.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that closed sessions may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Subcommittee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than July 22, 1974, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon the subject matter of the Licensee's letter of July 5, 1972 to the U.S. Atomic Energy Commission and related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 and at the Oswego City Library, 120 East Second Street, Oswego, New York 13126.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statement concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 11 a.m. and 12:30 p.m. on July 29, 1974.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on July 26, 1974, to the Office of the Executive Secretary of the Committee (telephone 301-973-5651) between 8:30 a.m. and 5:15 p.m., Eastern Daylight Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street, NW., Washington, D.C. 20545, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection on or after July 30, 1974 at the Atomic Energy Commission's Public Docu-

ment Room, 1717 H Street, NW., Washington, D.C. 20545, and within approximately nine days at the Oswego City Library, 120 East Second Street, Oswego, New York 13126. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE., Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the Minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 after September 30, 1974. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

[FR Doc.74-15941 Filed 7-11-74;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON WESTINGHOUSE WATER REACTORS

Notice of Meeting

JULY 10, 1974.

In accordance with the purposes of section 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Westinghouse Water Reactors will hold a meeting on July 30, 1974 in Room 1046, 1717 H Street NW., Washington, D.C. The purpose of this meeting will be to begin the Committee's formal review of a proposal to use the new Westinghouse 17 x 17 fuel design in Westinghouse commercial power reactors.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

Tuesday, July 30, 1974, 9 a.m.-4:30 p.m. The Subcommittee will hear presentations by Regulatory Staff and personnel of Westinghouse Electric Corporation and hold discussions with these groups.

In connection with the above agenda item, the Subcommittee will hold an executive session beginning at 8:30 a.m. which will involve a discussion of its preliminary views, and an executive session at the end of the day, consisting of an exchange of opinions of the Subcommittee members and any consultants present and internal deliberations for the purpose of formulation of recommendations to the ACRS. In addition, the Subcommittee may hold closed sessions with the Regulatory Staff and Applicants to discuss privileged information relating to fuel design and performance, if necessary.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the executive sessions at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that closed sessions may be held, if necessary, to discuss certain information relating to fuel design and performance which is privileged and falls within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than July 23, 1974, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon the Westinghouse 17 x 17 Reference Core Report, WCAP-8185, and related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, during the afternoon portion of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on July 29, 1974 to the Office of the Executive Secretary of the Committee (telephone 301-973-5651) between 8:30 a.m. and 5:15 p.m., e.d.t.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street NW., Washington, D.C. 20545, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street NE., Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the Minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545 after September 30, 1974. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

[FR Doc.74-16151 Filed 7-11-74;10:53 am]

GENERAL ADVISORY COMMITTEE

Meeting

JULY 9, 1974.

In accordance with the purposes of section 26 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2036), the General Advisory Committee will hold a meeting at the Los Alamos Scientific Laboratory in Los Alamos, New Mexico, on July 29, 30, and 31, 1974.

The following constitutes those portions of the Committee's agenda for the above meeting which will be open to the public.

JULY 29 (MONDAY)

8:15-10 a.m., full GAC, Physics Building Auditorium, Laboratory Overview by Harold M. Agnew, Director, LASL.

10:30-12:30 p.m., GAC Research Subcommittee, Los Alamos Meson, Physics Facility Administration Building, Briefing on LAMPF, Overview, Operation of Facility, LASL Research at Facility, Practical Applications, Users Group.

10:30-12:30 p.m., GAC Reactors Subcommittee, Controlled Thermonuclear Research Conference Room, Briefing on CTR Facilities.

1:30–5 p.m., Reactors Subcommittee, Nuclear Safeguards Building, CTR Program, continued, Nuclear Facilities Briefing, Waste Management, Reactor Safety Studies, Advanced Fuels.

JULY 30 (TUESDAY)

1:30–4 p.m., full GAC, Red Room attached to Administration Bldg., Problems in Basic Research Management, Energy Programs, Biomedical Programs.

In addition to the above agenda items, the Committee will meet with AEC commissioners and staff and LASL personnel, and hold executive sessions not open to the public under the authority of section 10(d) of Pub. L. 92–463 (Federal Advisory Committee Act) to exchange opinions and formulate recommendations on the above topics and other agenda matters (LASL weapons program, general research program, laser research program, programs generally, and review of Fermi Award nominations). I have determined that it is necessary to close these portions of the meeting to discuss certain information that is classified and falls within exemptions (1) and (3) of 5 U.S.C. 552(b); is privileged and falls within exemption (4) of 5 U.S.C. 552(b); and to exchange opinions and formulate recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). Further, any nonexempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect such classified or privileged information and to protect the free interchange of internal views and avoid undue interference with Commission and Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in the above agenda items, the following requirements shall apply:

(a) Persons wishing to submit written statements on the agenda items noted above may do so by mailing 12 copies thereof, postmarked no later than July 22, 1974, to the Secretary, General Advisory Committee, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon the above agenda items.

(b) Information as to whether the meeting has been rescheduled or relocated can be obtained by a prepaid telephone call on July 26 to the Office of the Secretary of the Committee (telephone: 301–973–5637) between 8:30 a.m. and 5 p.m. Moreover, additional details concerning the scheduling of topics in the open sessions will be available from the same office in mid-July.

(c) Questions may be propounded only by members of the Committee.

(d) Seating for the public will be available on a first-come, first-served basis.

(e) Minutes of the public sessions will be made available for copying, in accordance with the Federal Advisory Committee Act, on or after August 30, 1974, at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C., upon payment of all charges required by law.

JOHN C. RYAN,
Advisory Committee Management Office.

CIVIL AERONAUTICS BOARD

[Docket No. 26821]

ALLEGHENY AIRLINES, INC., GROUP 4–9 DISCOUNT FARES

Prehearing Conference

Notice is hereby given that a prehearing conference in this proceeding is assigned to be held on August 12, 1974, at 10 a.m. (local time), in Room 503, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., before Administrative Law Judge Henry Whitehouse.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and four copies to the Judge of (1) proposed statements of issues; (2) proposed stipulations; (3) requests for information; (4) statement of positions of parties; and (5) proposed procedural dates. The Bureau of Economics will circulate its material on or before July 29, 1974, and the other parties on or before August 5, 1974. The submissions of the other parties shall be limited to points on which they differ with the Bureau of Economics, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., July 9, 1974.

[SEAL] ROBERT L. PARK,
Chief Administrative Law Judge.

[FR Doc.74–16034 Filed 7–11–74;8:45 am]

[Docket 26728; Order 74–7–34]

NORTHWEST AIRLINES, INC.

Order To Show Cause

JULY 8, 1974.

On May 22, 1974, Northwest Airlines filed an application for amendment of its certificates of public convenience and necessity or for a new certificate of public convenience and necessity so as to authorize it to serve Winnipeg, Canada, as an intermediate point between Minneapolis/St. Paul and Edmonton, Canada, on route 140 and to extend route 3F from the terminal point Winnipeg to the new terminal point Edmonton. Thus, Northwest would be able to serve Winnipeg and Edmonton on all flights over routes 3/3F or 140 and proposes to consolidate service to the two cities on the same flights.[1] Northwest has also filed a motion requesting the issuance of an order to show cause why its request should not be granted.

No answers in opposition have been filed in response to Northwest's application and motion.

Upon consideration of Northwest's request and all relevant facts, we have decided to issue an order to show cause which proposes to grant the requested amendments of routes 3F and 140. We tentatively find and conclude that the public convenience and necessity require the amendment of Northwest's certificate so as to authorize the addition of Winnipeg, Canada, as an intermediate point between Minneapolis/St. Paul, Minnesota, and Edmonton, Canada, on route 140 and to extend route 3F from the present terminal point Winnipeg, Canada, to the new terminal point Edmonton, Canada.

In support of our ultimate conclusion, we make the following tentative findings and conclusions. In the airline route agreement entered into between the United States and Canada and signed on May 8, 1974, route C.2 provides for a Chicago/Minneapolis/St. Paul-Winnipeg/Edmonton-Anchorage route. Northwest is already certificated at all of these points on routes 3/3F and 140, but is unable to serve Winnipeg and Edmonton on the same flight due to the fact that they appear on separate routes. By permitting the carrier to serve both Canadian points on all flights over routes 3/3F and 140 Northwest will be better able to meet its service obligations to both cities at less cost, and with less flight mileage and aircraft hours.[2] Further, Northwest's application and petition are unopposed and, since no U.S. air carrier provides service between Winnipeg and Edmonton, no U.S. carrier will be adversely affected by the relief granted herein.[3]

Interested persons will be given 20 days following service of this order to

---

[1] Routes 3/3F permits Northwest to operate between Chicago and Winnipeg via various intermediate points or nonstop. Segment 2 of route 140 permits the carrier to operate between New York and Anchorage via Chicago, Minneapolis-St. Paul and Edmonton. Although nonstop Chicago-Winnipeg service is provided for in the certificate for route 3F, it was made permissible for the first time by the new (May 8, 1974) bilateral aviation agreement between the United States and Canada and has now been inaugurated by Northwest.

[2] The consolidation of flights will result in substantial expense savings. Northwest estimates the savings at $596,000, which may be somewhat high based in part of the fact that the Minneapolis-Edmonton service is initially scheduled for five days a week. We anticipate no increase in revenues, however.

[3] We further tentatively find that Northwest is a citizen of the United States within the meaning of the Act and is fit, willing and able properly to perform the transportation pursuant to the amended certificate proposed and to conform to the provisions of the Act and the Board's rules, regulations and requirements thereunder.

show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If any evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered That: 1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and amending Northwest Airlines' certificate of public convenience and necessity for route 3F to provide for the air transportation of persons, property and mail as follows:

Between the intermediate points Grand Forks, North Dakota, and Winnepeg, Canada, and the terminal point Edmonton, Canada.

and Northwest Airlines' certificate of public convenience and necessity for route 140 so as to provide for the following air transportation of persons, property, and mail over segment 2 thereof:

2. Between the coterminal points New York, N.Y., and Chicago, Ill., the intermediate points Minneapolis-St. Paul, Minn.; Winnipeg, Manitoba; and Edmonton, Alberta, Canada; and the terminal point Anchorage, Alaska.

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 20 days after service of a copy of this order, file with the Board and serve upon all persons listed in paragraph 5 a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections; [4]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order shall be served on Northwest Airlines; North Central Airlines; the Mayors of Chicago, Illinois, Minneapolis and St. Paul, Minnesota, Anchorage, Alaska; and the Governors of the States of Illinois, Minnesota and Alaska.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-16036 Filed 7-11-74;8:45 am]

[4] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further such motions, request or petitions for reconsideration of this order will be entertained.

[Dockets 26057, 26075; Order 74-7-33]

PAN AMERICAN WORLD AIRWAYS, INC.

Order Authorizing Discussions

JULY 8, 1974.

By orders 73-11-34, November 8, 1973 and 74-4-29, April 4, 1974, the Board authorized, subject to various conditions, Pan American World Airways, Inc. (Pan American) to hold inter-carrier discussions looking toward agreements on capacity limitations and related matters as necessary to meet the precarious international fuel situation. The present authorization expires on July 8, 1974.

Trans World Airlines, Inc. (TWA) has filed an application in the same dockets requesting that the Board broaden the authorizations granted in orders 73-11-34 and 74-4-29 to include the discussion of capacity limitations in international air transportation predicated on the radical price increases of international aviation fuel.[1] TWA further requests that the broadened authorization be effective for a period of 120 days from the date of the Board's order of authorization.

In support of its request, TWA states that, notwithstanding possible relief in 1975 from the fuel shortage problem, there will continue to be a crisis resulting from the precipitous rise in international fuel prices, which threatens the viability of U.S.-flag international service; [2] that the international capacity limitation agreements heretofore approved by the Board have had favorable results including annual cost savings of approximately $15 million; and that approval of the request herein will enable the carriers to reduce costs, regardless of fuel availability, by holding capacity in line with traffic demand and eliminating the wasteful over-consumption of fuel.

Answers in support of TWA's application have been filed by Pan American, the Department of Transportation (DOT), and the National Air Carrier Association (NACA).[3] Pan American acknowledges the increased availability of fuel but stresses that the exorbitant prices of fuel have rendered the performance of international air transportation uneconomic. Moreover, Pan American asserts that, absent capacity limitation agreements, there would be no assurances that foreign air carriers would unilaterally reduce capacity sufficient to permit achievement of higher load factors and more economic operations.

DOT's answer in support recognizes the financial distress confronting the carriers and believes that this distress justifies the grant of the requested authorization in the absence of less anticompetitive alternatives.

NACA also recognizes the financial problems of providing international air transportation, and supports the request of TWA, subject to the imposition of a condition to any Board approval which would prevent the use of any freed capacity in transaltantic charter service. Specifically, NACA suggests a condition which would require that, during any year in which an international capacity agreement is in effect, each agreement carrier limit the number of seats it operates in transatlantic charter services to the number of seats operated during the 12-month period preceeding the first international capacity agreement entered into in this proceeding. NACA also suggests that, in order to permit flexibility, a provision be inserted which would allow an agreement carrier which increases its revenue passenger miles in transatlantic scheduled service during an agreement period, over the corresponding pre-agreement period, to proportionately increase its charter capacity.

A reply to NACA's answer has been filed by Pan American.[4] It is Pan American's contention that the imposition of the NACA condition would completely foreclose the route carriers from any participation in the rapidly growing transatlantic charter market, and would unfairly prejudice the route carriers in their attempt to reduce the economic impact of excessive capacity occasioned in part by the diversion of traffic to the supplemental carriers.

The international air transportation industry continues to be confronted with tight fuel supplies in at least some markets. Moreover, the continuous increase in the price of fuel [5] has placed an additional burden on the U.S.-flag carriers in their attempt to maintain an international route structure which is economically sound and intensely competitive.

[1] A similar request was made by TWA in its response to the application of Pan American approved in order 74-4-29. The request therein was denied without prejudice to a showing by the carriers that fuel costs are a proper basis for authorizing further discussions on capacity limitations.

[2] TWA asserts that its average price of fuel in international operations has increased from 12.7¢ per gallon in October 1973 to 43.52¢ per gallon in April 1974.

[3] NACA represents the following supplemental air carriers: Capitol International Airways, Inc., Overseas National Airways, Inc., Saturn Airways, Inc., Trans International Airlines, Inc., and World Airways, Inc. As discussed infra, NACA's support is based on the imposition of a charter capacity condition.

[4] This reply was accompanied by a motion for leave to file an otherwise unauthorized document, which will be granted.

It is the view of the Board that this continued shortfall of fuel supplies combined with the pricing constraints being placed on the carriers justify an extension of the discussion authorization granted in order 74–4–29. Thus, to the extent that our basis for granting this extension comports with TWA's request, the request shall be granted.

We find it unnecessary to reiterate here the reasons fully set forth in our prior orders that have led the Board to conclude that capacity limitation agreements should not be considered adverse to the public interest as a means of alleviating fuel shortages. See orders 73–11–34 and 73–10–110. With respect to TWA's request to broaden the discussion authorization to consider problems arising from the precipitous increase in the price of fuel, the Board recognizes that this is indeed a serious problem which has contributed to the serious negative financial operating results of the U.S. transatlantic flag carriers. While the Board is not prepared to reach any determination at this time as to whether capacity reduction agreements directed toward resolution of this problem would be consistent with the public interest, we take note of the fact that TWA's proposal has been supported by the Department of Transportation, and is basically unopposed. In our view, the carriers should be given the opportunity to discuss this matter in order to determine for themselves, and to present to the Board, their position as to whether a genuine contribution in this respect can be rendered by capacity limitation agreements. We will expect that any agreement submitted to the Board as a result of the discussions will be fully justified, in terms of the necessity therefor, by detailed evidentiary material.[6]

Finally, the conditions, limitations, and admonitions set forth in Order 73–11–34 are equally applicable to the extended authorization granted herein.

Accordingly, it is ordered That: 1. To the extent discussed herein, TWA's request for continuance and broadening of the discussions authorized by order 74–4–29, April 4, 1974, looking toward agreements on capacity limitations as necessary to meet the current fuel situation, be and it hereby is granted;

2. Except as herein modified, the conditions set forth in ordering paragraph 1 of order 73–11–34, November 8, 1973, shall remain in full force and effect with respect to the authorization granted herein;

3. The authorization granted herein shall expire 120 days from the date of this order, and may be revoked or amended at any time in the discretion of the Board;

4. Except to the extent granted herein, all other requests be and they hereby are denied; and

5. Copies of this order shall be served on the Departments of Defense, Justice, Transportation and State; the U.S. Postal Service; NACA; and all air carriers authorized by certificate or permit to engage in foreign air transportation in scheduled service to and from the United States.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74–16035 Filed 7–11–74;8:45 am]

[6] For the nine-month period from July 1, 1973 to March 31, 1974, in which the precipitous fuel cost increases were experienced, Pan American's fuel costs rose 115 percent (from 14.3¢ to 30.8¢ per gallon) and TWA's fuel costs rose 221 percent (from 13.2¢ to 42.3¢ per gallon), an average percentage increase for the two carriers of 166 percent. As a result of these increases, the percentage of total operating costs represented by fuel expenses rose from 5 percent to 16 percent for Pan American, and from 11 percent to 26 percent for TWA. While fuel prices for international operations appear to have leveled off recently, there is little likelihood that fuel prices will decline to anything like pre-fuel crisis levels.

[6] With respect to the freed capacity condition proposed by NACA, it is the Board's judgment that a condition of this nature can best be considered if and when an agreement is filed for prior Board approval.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Availability

Environmental impact statements received by the Council on Environmental Quality from July 1 through July 5, 1974. The date of receipt for each statement is noted in the summary. Under Council Guidelines, the *minimum* period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability (August 26, 1974).

Copies of individual statements are available for review from the originating agency. Back copies will also be available from a commercial source, the Environmental Law Institute, of Washington, D.C.

DEPARTMENT OF AGRICULTURE

Contact: Dr. Fred H. Tschirley, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331–E, Administration Building, Washington, D.C. 20250, 202–447–3965.

FOREST SERVICE

Draft

Timber Management Plan, Clearwater National Forest, Idaho, July 2: Proposed is a timber management plan for road construction and timber harvest on the Clearwater Working Circle, Clearwater National Forest. The proposed allowable harvest from all commercial forest lands is 248.1 MM board feet per year. There will be adverse impact related to road construction and changes in vegetative cover. (ELR Order No. 41090.) (NTIS Order No. (none).)

Callahan Planning Unit, Kootenai National Forest, Mont. and Idaho, July 3: Proposed is the implementation of a revised multiple use plan for the 54,391 acre Callahan Planning Unit of the Kootenai National Forest. The Unit has been stratified into 8 sub-units which will be managed for such values as timber resources, dispersed recreation, and big game habitat. Adverse impact will include continued soil and vegetation disturbance, as well as those conditions normally associated with the development of unroaded areas (139 pages). (ELR Order No. 41101.)

Wyoming, July 1: Proposed is the construction of 12 miles of access road and the cutting of 15,740,000 board feet of timber. The timber is to be harvested from 47 irregularly shaped clear-cut units totalling 670 acres on the Bridger-Teton and Shoshone National Forests. There will be adverse impact to soil and water qualities. The impact of the proposal on elk is considered controversial, due to the increased area access which the new roads will allow (57 pages). (ELR Order No. 41084.) (NTIS Order No. (none).)

Final

Hoosier National Forest, Off-Road Vehicle Policy, several counties, July 3: The proposal is for a policy to permit and regulate the use of off-road motor vehicles on the Hoosier National Forest. The Forest would be divided into two different type zones, one part being zoned for the use of ORV's on designated trails, the other part excluding the use of ORV's. Counties affected are: Monroe, Brown, Jackson, Lawrence, Martin, Dubois, Orange, Crawford, and Perry (181 pages). Comments made by: COE, TVA, EPA, USDA, DOI, state and local agencies, and concerned citizens. (ELR Order No. 41104.) (NTIS Order No. (none).)

Big Levels Unit, George Washington National Forest, Nelson and August Counties, Va., July 1: The statement refers to a proposed 10 Year Management Plan for the Big Levels Unit, Pedlar Ranger District, George Washington National Forest. The Unit contains 40,693 acres of National Forest lands and 48,507 acres of private lands. Adverse impacts will include that resulting from timber harvest activities and wildlife habitat developments (104 pages). Comments made by: USDA, EPA, state and local agencies, and concerned citizens. (ELR Order No. 41080.) (NTIS Order No. (none).)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN–PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202–693–7168.

Draft

Wood River, Nebr., July 2: The statement refers to the proposed snagging and clearing of 27 river miles of Wood River. Adverse impacts include the loss of some aquatic and riparian habitat, acceleration of bank erosion which would increase silt pollution (Omaha District). (ELR Order No. 41095.) (NTIS Order No. (none).)

Eagle Bay Highway Bridge, N. Dak., July 3: The project involves the construction of the Eagle Bay Highway Bridge, 4,500 feet in length across the Little Missouri River Arm of Lake Sakakawea, and construction of 20.7 miles of 2 lane roadway to connect the proposed bridge with SR 22 near Mandaree, and SR 8 near Twin Buttes. Adverse impacts are the commitment of 490 acres for project purposes, increased noise levels, water turbidity, soil erosion, and emissions during construction. COE is the lead agency with the entire project coordinated with the FHWA and the State Highway Department (56 pages). (ELR Order No. 41103.) (NTIS Order No. (none).)

Pennsylvania, July 5: The project involves the construction of a wall and earth levee system along the West Branch of the Susquehanna River and Bald Eagle Creek to protect the City of Lock Haven, Pennsyl-

vania. Adverse impacts include the loss of an unrestricted view of the river, visual change to the setting of the historic Water Street district, loss of some trees and the resultant reservations of the citizens concerning the project (Baltimore District). (ELR Order No. 41109.) (NTIS Order No. (none).)

Matagorda Ship Channel, Matagorda and Calhoun Counties, Tex., July 3: The statement refers to the maintenance of the existing navigation project in Calhoun and Matagorda Counties. The authorized project includes a 3.2 mile long entrance channel, a 22 mile long channel through Matagorda and Lavaca Bays, a turning basin at Point Comfort, two shallow-draft branch channels, and a 20.2 mile long shallow-draft channel. Adverse impacts are the loss of vegetation, destruction of benthic organisms and oysters, temporary turbidity, and objectionable odors may result from deposition of dredged materials on land areas (Galveston District). (ELR Order No. 41100.) (NTIS Order No. (none).)

Final

Red River Lake, Ky., July 3: The statement refers to a proposed multi-purpose project for flood control, water supply, and recreation at mile 42.3 of the Red River. Total project land requirement is 5,775 acres, one fourth of which will be from the Daniel Boone National Forest. Inundation will include 1,546 acres of land and 15 miles of free-flowing stream (Louisville District) (419 pages). Comments made by: DOI, EPA, DOC, HEW, DOT, USDA, state and local agencies, and concerned citizens. (ELR Order No. 41108.) (NTIS Order No. (none).)

Draft

Blackwater River, Maintenance Dredging, Escambia County, Fla., July 2: The project involves the continued operation and maintenance of an existing navigation channel from the north of Blackwater Bay for about 12 miles through the Bay and the Blackwater River to the US 90 bridge at Milton. Dredged spoil will be disposed of in open water adjacent to the channel. Adverse impacts include decreased water quality, destruction of benthic communities and oyster larvae, and temporarily increased noise levels (Mobile District) (29 pages). (ELR Order No. 41092.)

Virginia Beach Control Project, Virginia, July 2: The statement refers to the continued nourishment of 3.3 miles of Virginia Beach shoreline by hydraulic dredge. Adverse impacts include turbidity increases during dredging, loss of terrestrial habitat, loss of sandy beach habitat, noise, and loss of benthnic and suspended life in dredges areas (Norfolk District) (41 pages). (ELR Order No. 41091.)

DELAWARE RIVER BASIN COMMISSION

Final

Interstate Energy Company Pipeline, Pennsylvania and New Jersey, July 1: Proposed is the construction and operation of a buried, insulated, fuel-oil pipeline by the Interstate Energy Company. The pipeline would originate at a marine docking facility in Marcus Hook, Pennsylvania, and terminate at Pennsylvania Power and Light Company's Martins Creek Generating Station. A lateral pipeline will also be constructed, from a breakout terminal in Northhampton County, Pennsylvania, across the Delaware River to a terminal at the Jersey Central Power and Light Company's Gilbert Generating Station. The project will introduce an industrial facility into a rural area. Comments made by: USDA, DOC, HUD, DOI, EPA, GSA, state and local agencies, and concerned citizens. (ELR Order No. 41083.) (NTIS Order No. (none).)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630 Waterside Mall, Washington, D.C. 20460, 202–755–0940.

Draft

Palmer Lake Sanitation District, Colorado, July 3: Proposed is the construction of an interceptor sewer and a wastewater treatment plant (0.84 mgd capacity) to serve the Palmer Lake and Monument Sanitation Districts and the Woodmor Water and Sanitation District. A total of 21,000 feet of interceptor has already been constructed. The facility would consist of two aerated lagoons, a polishing pond, and a chlorination system; effluent would be discharged to Monument Creek. The new facility would assure adequate sewage treatment for future area population growth. (ELR Order No. 41106.) (NTIS Order No. (none).)

FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Advisor on Environmental Quality, 441 G Street NW., Washington, D.C. 20426, 202–386–6084.

Final

Eascogas, Distrigas, LNG Permits, Rhode Island, July 3: The statement refers to the proposed authorization of LNG importation from Algeria by Eascogas, LNG, Inc.; and the construction of receiving, storing, revaporizing, and distributing facilities in Providence. Impact would result from construction activity. Comments made by: AHP, AEC, CEQ, COE, USDA, DOC, HUD, DOI, USCG, EPA, state and local agencies, and concerned citizens. (ELR Order No. 41107.) (NTIS Order No. (none).)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202—343–3891.

Final

Chemehuevi Shoreline, San Bernardino County, Calif., July 2: The statement refers to a determination by the Secretary of the Interior which would recognize the equitable title of the Chemehuevi Tribe of Indians to certain riparian rights to Lake Havasu. The lands are currently under the jurisdiction of BLM and BSFW. Use and occupation by the Tribe would allow development of reservation lands for recreational residential, and community purposes (270 pages). Comments made by: DOI, USDA, HEW, EPA, state and local agencies, and concerned citizens. (ELR Order No. 41099.) (NTIS Order No. (none).)

NATIONAL PARK SERVICE

Draft

Proposed Wilderness, Capitol Reef National Park, Utah, July 1: Proposed is the legislative designation of 181,230 acres of the Capitol Reef National Park as wilderness; another 1,810 acres are proposed for potential wilderness addition. The action would result in the preservation of major portions of the Park in an undeveloped manner with continuance of famous geologic formations in a natural state. There could be short term impact with respect to such non-renewable resources as gas, oil, coal, and uranium (two volumes). (ELR Order No. 41082.) (NTIS Order No. (none).)

TENNESSEE VALLEY AUTHORITY

Contact: Dr. Francis Gartrell, Director of Environmental Research and Development, 720 Edney Building, Chattanooga, Tennessee 37401, 615–755–2002.

Draft

Transmission Line, Northeast Alabama, several counties, July 2: Proposed is the construction and operation of a 500 kV transmission line interconnecting the TVA and Alabama Power Co.'s systems in portions of Jackson, Marshall, Blount, Cullman, and Jefferson counties. Environmental impacts involve limitations on land use, temporary construction effects, and possible aesthetic effects. (ELR Order No. 41096.) (NTIS Order No. (none).)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 7th Street SW., Washington, D.C. 20590, 202–426–4357.

FEDERAL AVIATION ADMINISTRATION

Draft

Cedar Rapids Municipal Airport, Linn County, Iowa, July 2: The statement discusses the Airport Master Plan and Airport Layout Plan for the Cedar Rapids Municipal Airport in Linn County, Iowa. The project involves extension of runways; construction of new runways; extension of a service road; construction of a freight/cargo road; construction of six new aircraft parking positions; construction of a new terminal complex; erection of tee type aircraft hangars; and, acquisition of new land. Development of the airport will be over a 15 year period. Adverse impacts are increases in noise levels, and displacement of 9 residences (28 pages). (ELR Order No. 41094.) (NTIS Order No. (none).)

Jimmy Stewart Airport, Indiana County, Pa., July 3: The project involves the development of the Jimmy Stewart Airport in the City of Indiana, Indiana County. Project measures consist of extension of runway 28, land acquisition for extension and approach zones, and stabilization of a crosswind turf landing strip. Adverse impacts are increased noise levels and the disruption of 3 farms (53 pages). (ELR Order No. 41102.) (NTIS Order No. (none).)

FEDERAL HIGHWAY ADMINISTRATION

Draft

Route 412, Rockford to Rochelle, Lee, Ogle, and Winnebago Counties, Ill., July 1: The project consists of the construction of 24 miles of FA Route 412, a four lane north-south freeway together with the reconstruction of U.S. 20 Alpine Road Interchange and the upgrading of a portion of Illinois Route 38 to complement the freeway. Adverse impacts vary by alternative. There will be a maximum of 1,462 acres needed for right-of-way, displacements of businesses and families, and increased noise, air and water pollution during construction (202 pages). (ELR Order No. 41081.) (NTIS Order No. (none).)

Minnesota Rte. 41, Carver and Scott Counties, Minn., July 2: The improvement calls for the relocation and upgrading of an 8 mile section of M.R. 41 in Carver and Scott Counties in the SW quadrant of the Twin Cities Metropolitan Area. The improved highway would be a 4 lane, controlled-access facility constructed to typical freeway standards. Included in the improvement is a 1.25 mile, high-level bridge spanning the Minnesota River Valley. Adverse impacts are the displacement of some wildlife, the use of 25 acres of land for right-of-way, and the displacement of 40 homes, 4 farms, and 7 businesses. A 4(f) determination must be made

concerning Minnesota Valley Trial. (ELR Order No. 41097.) (NTIS Order No. (none).)

Final

Illinois Route 23, La Salle County, Ill., July 1: The statement refers to the proposed construction of a new bridge on 4 lane I.R. 23, over the Illinois River. Total length of the project is 0.61 miles. Three single-family residences, two multiple-family residences, one private non-profit organization and a municipal building will be displaced (86 pages). Comments made by: AHP, USDA, COE, HEW, HUD, DOI, USCG, AEC, FPC, EPA, and state and local agencies. (ELR Order No. 41087.) (NTIS Order No. (none).)

I–70 (Capitol Avenue), Indianapolis, Marion County, Ind., July 1: The proposed project is the improvement of three sections of I–70 (Capitol Avenue). The facility will displace one family and one business. An increase in noise pollution levels will occur (54 pages). Comments made by: DOT, DOI, USDA, HUD, EPA, and state agencies. (ELR Order No. 41077.) (NTIS Order No. (none).)

Interstate 15–3, Jefferson and Silver Bow Counties, Mont., July 2: The proposed action is the construction of approximately 26 miles of 4 lane highway between Butte and Boulder. Of concern is the impact of exposed terrain cuts and the channelization of portions of Bison Creek and Boulder River. An unspecified amount of acreage will be required for right-of-way (591 pages). Comments made by: USDA, EPA, DOI, state and local agencies, and concerned citizens. (ELR Order No. 41088.) (NTIS Order No. (none).)

U.S. 95, Nevada, Esmeralda and Nye Counties, Nev., July 3: Proposed is the construction and partial relocation of a 24-mile section of U.S. 95 between the Cities of Goldfield and Tonopah. The existing two-lane facility will be reconstructed for the southbound lanes of the ultimate four-lane rural freeway. Adverse impacts include the removal of approximately 100 acres of land from the tax rolls; scarring of the desert landscape; creation of dust during construction; loss of vegetation and minor disturbance of underground water flows (122 pages). Comments made by: EPA, USDA, DOI, and state and local agencies. (ELR Order No. 41105.) (NTIS Order No. (none).)

Gibson Boulevard, Albuquerque, Bernalillo County, N. Mex., July 1: The project involves the improvement of one mile of Gibson Boulevard between Yale Boulevard and Carlisle Boulevard in Albuquerque. The facility will be a six lane divided arterial street. For safety purposes, six interchanges will be closed and right-of-way will be expanded for the length of the project. Major adverse impact includes the relocation of residents from twenty apartment units, and the loss of four potential business sites to right-of-way (51 pages). Comments made by: DOI, HEW, EPA, COE, DOT, state and local agencies, and concerned citizens. (ELR Order No. 41085.) (NTIS Order No. (none).)

Legislative Routes 1053 and 313, Centre and Clearfield Counties, Pa., July 1: The statement is a corridor study for providing a traffic system around Philipsburg, a connection between Philipsburg and I–80 at Kylertown and a connection between Osceala Mills and Philipsburg. Project length is approximately 24 miles. Eight businesses and 62 families will be displaced (186 pages). Comments made by: USDA, HEW, EPA, DOI, state and local agencies, and concerned citizens. (ELR Order No. 41086.) (NTIS Order No. (none).)

Main Street Bridge, Chippewa Falls, Wis., July 1: The project involves the construction of a bridge that will span the Chippewa River from Main Street north to Pine Street, in the city of Chippewa Falls. The 900 foot span will replace an older structure which has been closed. Adverse impact of the action will include the removal of fifty trees, and increases in traffic which will bring concomitant increases in noise and air pollution (48 pages). Comments made by: EPA, DOI, and state agencies. (ELR Order No. 41078.) (NTIS Order No. (none).)

U.S. COAST GUARD

Final

VHF–FM Communications, Alaska, July 2: The statement refers to the proposed development of a VHF–FM communications system which would serve the coastal areas of Alaska. The improved communications will increase the availability of medical help, transportation, search and rescue efforts, and other safety items. There will be some construction disruption. Comments made by: EPA, DOT, DOI, state agencies, and concerned citizens. (ELR Order No. 41089.) (NTIS Order No. (none).)

FHWA

Draft

Jesus T. Pinero Avenue, July 1: The project involves the construction of an urban highway, Jesus T. Pinero Avenue, to be located in Rio Piedras, San Juan, Puerto Rico. Total length of the proposed right-of-way is 1.70 miles. Six alternatives design profiles are proposed. Adverse impacts include possible water pollution, loss of 46 acres, increased noise levels, and the displacement of 145 families and 12 businesses. (137 pages). (ELR Order No. 41076.)

VETERANS ADMINISTRATION

Contact: Mr. Arthur W. Farmer, Assistant Chief, Medical Director for Administration and Facilities, Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420.

Final

VA Replacement Hospital, Bronx, N.Y., July 2: Proposed is the construction of a 702-bed hospital to replace the existing 1150-bed facility which comprises the Bronx Veterans Administration Hospital. Three existing buildings will be retained and the rest demolished after construction of the new building. Adverse impacts stemming from the project are: inconvenience to hospital operation during the four-year construction period; disposal of demolition debris; and degradation of aesthetics along Segdwick Avenue. (60 pages). Comments made by: DOD, HEW, EPA, and state agencies. (ELR Order No. 41098.) (NTIS Order No. (none).)

U.S. WATER RESOURCES COUNCIL

Contact: Mr. Don Maughan, Director, 2120 L Street NW., 8th Floor, Washington, D.C. 20037, 202–254–6303.

Draft

Willamette River Basin, Oreg., July 1: The statement refers to a study by the Pacific Northwest Rivers Basins Commission on the Willamette River Basin. The report is considered to be a broad guide for the preservation, development, and conservation of the water and related land resources of the Willamette Basin.

GARY L. WIDMAN,
General Counsel.

SALES STORE CHECKERS—DENVER, COLORADO

Establishment of Minimum Rates and Rate Ranges

Under the authority of 5 U.S.C. 5303 and Executive Order 11721, the Civil Service Commission has established special minimum salary rates and rate ranges as follows:

Occupational Coverage: GS-2091 Sales Store Checker Series.
Geographic Coverage: Denver, Colorado.
Effective Date: First day of first pay period on or after.

PER ANNUM RATES

Grade	1	2	3	4	5	6	7	8	9	10
GS-3	$7,478	$7,692	$7,906	$8,120	$8,334	$8,548	$8,762	$8,976	$9,190	$9,404
GS-4	7,918	8,158	8,398	8,638	8,878	9,118	9,358	9,598	9,838	10,078

All new employees in the specified occupational levels will be hired at the new minimum rates.

As of the effective date, all agencies will process a pay adjustment to increase the pay of employees on the rolls in the affected occupational levels. An employee who immediately prior to the effective date was receiving basic pay at one of the statutory rates shall receive basic compensation at the corresponding numbered rate authorized by this notice on or after such date. The pay adjustment will not be considered an equivalent increase within the meaning of 5 U.S.C. 5335.

Under the provisions of section 3-2b, Chapter 571, FPM, agencies may pay the travel and transportation expenses to first post of duty under 5 U.S.C. 5723, of new appointees to positions cited.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-32000/82]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-37, East Tower, 401 M Street, SW., Washington, D.C. 20460.

On or before September 10, 1974, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under Section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after September 10, 1974.

APPLICATIONS RECEIVED

EPA Reg. No. 264-47. Amchem Products, Inc., Brookside Ave., Ambler PA 19002. WEEDAR MCPA CONCENTRATE BROADLEAF POSTEMERGENCY HERBICIDE. Active Ingredients: Dimethylamine Salt of 2-methyl-4-chlorophenoxyacetic acid 52.1%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5481-RTE. Amvac Chemical Corp., 4100 E. Washington Blvd., Los Angeles CA 90023. ALCO TRIFLURALIN EMULSIFIABLE CONCENTRATE A HERBICIDE FOR PROFESSIONAL USE IN ORNAMENTALS. Active Ingredients: Trifluralin (a,a,a-trifluoro-2, 6-dinitro-N, N-dipropyl-p-toluidine) 44.5%. Method of Support: Application proceeds under 2(c) of interim policy.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20099; FCC 74-690]

AMERICAN TELEPHONE AND TELEGRAPH CO., ET AL.

Offer of Facilities for Use by Other Common Carriers; Memorandum Opinion and Order Instituting Investigation

1. By Memorandum Opinion, Order and Authorization released September 12, 1973 (42 F.C.C. 2d 654), we granted the application of American Telephone and Telegraph Company (AT&T) to construct and operate a domestic satellite communications system. However, the effectiveness of this Order was conditioned upon AT&T's written acceptance of certain "conditions and understandings" with respect to the provision of interconnection facilities. One of the primary conditions was that AT&T and associated Bell System companies file tariff schedules related to interconnection facilities in accordance with section 203 of the Act [1] and Part 61 of the Rules.

2. On October 4, 1973, we adopted an order in letter form in which we rejected AT&T's contention that the Bell System companies were in compliance with the Communications Act and our decisions by filing tariffs with the state regulatory agencies for interconnection facilities furnished to specialized communications carriers licensed by us for interstate services. We further stated our view that our policy objectives and the Communications Act require that Bell file its tariff schedules with this Commission.

3. In purported compliance with these Orders of September 12, 1973 and October 4, 1973, the Bell System companies, on November 12, 1973, filed tariffs with us offering two types of access facilities to Domestic Satellite carriers: entrance facilities to be furnished under AT&T Tariff F.C.C. No. 265 and Pacific Telephone and Telegraph Company (PT&T) Tariff F.C.C. No. 123 and intercity interexchange channel facilities to be furnished under AT&T Tariff No. 266 and PT&T Tariff F.C.C. No. 124; and 14 Associated Bell System companies filed separate tariffs with us offering to provide local distribution facilities not only to Domestic Satellite carriers but to other carriers as well. All of the aforementioned tariffs were identified in our Public Notice of November 19, 1973. These tariffs were filed under protest and were accompanied by claims of the Bell System that we have no jurisdiction over the subject matter of the tariffs.

4. On or before December 19, 1973 petitions to suspend and investigate the tariffs were submitted by: MCI Telecommunications Corporation, Microwave Communications, Inc., MCI New York West, Inc., Interdata Communications, Inc., and MCI St. Louis-Texas, Inc. (collectively MCI); The Western Union Telegraph Company (WU); the American Satellite Corporation (ASC); Data Transmission Company (Datran) and Southern Pacific Communications Company (SPCC). RCA Global Communications filed a letter of concern as to several tariff provisions on December 18, 1973. The petitions asked us to suspend the effectiveness of these tariffs and to set them for hearing on the questions of lawfulness raised by the petitioners. In separate pleadings, MCI, WU, ASC, and CML Satellite Corporation asked us to reject the tariffs in question without further proceedings. The Bell System submitted its reply pleadings on January 3, 1974 in which it opposed all petitions to suspend or to reject.

5. By Memorandum Opinion and Order,[2] we denied the petitions to the extent that they requested suspension or rejection at that time. Thus our action allowed all of the tariffs to become effective, as published, on January 11, 1974, except for the New York Telephone Company tariff (F.C.C. No. 37) which was published to become effective February 24, 1974. Subsequent to our January 11, 1974 Order, we received further petitions to suspend and reject New York Telephone Company's Tariff F.C.C. No. 37, filed by ITT World Communications Inc. and Western Union International, Inc. By Memorandum Opinion and Order [3] we denied these new petitions to the extent that they again requested suspension or rejection at that time. In both of these orders, we stated that we would defer further action on the tariff filings until further proceedings in Docket No. 19896, and that to the extent the questions raised by the petitions are not encompassed in the issues to be resolved in Docket No. 19896, a separate investi-

[1] The Communications Act of 1934, as amended, 47 U.S.C. § 203.

[2] Bell System Tariffs re Entrance, Intercity and Local Distribution Facilities, FCC 74-36 (released January 11, 1974), appeal docketed sub nom., The Western Union Telegraph Company v. FCC, No. 74-1317 D.C. Cir.

[3] New York Telephone Company Tariff F.C.C. No. 37, 45 F.C.C. 2d 365 (1974), recon. denied 46 F.C.C. 2d 132 (1974), appeal docketed sub nom., ITT World Communications, Inc. v. FCC, No. 74-1721 2nd Cir.

gation and hearing would be instituted in due course.

6. On April 23, 1974, we released our Decision in Docket No. 19896.[4] We there concluded that:

> Bell engaged in conduct which has resulted in the denial of, or unreasonable delay in establishing, physical connections with MCI and other specialized common carriers which are parties to this proceeding; that it pursued policies and practices which foreclosed the establishment of through routes, and the charges, facilities and regulations applicable thereto in connection with authorized interstate services of MCI and other specialized carriers; that Bell is unlawfully applying and proposes to continue to apply the tariff schedules of charges and regulations filed with state regulatory commissions for services and facilities provided to MCI and other specialized common carriers and used by the specialized carriers in the transmission of interstate and foreign communications; and that Bell has discriminated against MCI and other specialized carriers in favor of its own Long Lines Department by denying to MCI and other specialized carriers the interconnection privileges presently provided to the said Long Lines Department in connection with authorized interstate services. We further conclude that the aforementioned conduct and practices are in violation of the Act, and the declared policy of the Commission; and that the public interest requires the issuance of orders requiring Bell to cease and desist from further violations.[5]

We ordered AT&T and the Bell System companies to:

> Furnish to MCI Telecommunications Corporation, MCI New York West, Inc. and other specialized common carriers the interconnection facilities essential to the rendition of all of their presently or hereafter authorized interstate and foreign communications services and to enable the said specialized common carriers to terminate their authorized interstate and foreign communications services, including interconnection by the specialized carriers into a telephone company's local exchange facilities for the purpose of furnishing Foreign Exchange (FX) service or for insertion into telephone company Common Control Switching Arrangements (CCSA); and file with the Commission pursuant to Section 203 of the Act and Part 61 of the Commission's Rules, tariff schedules to cover interconnection facilities for all of the authorized interstate and foreign communications services of the specialized common carriers.[6]

In purported compliance with the Decision, Bell filed, on May 3, 1974, two new tariffs—Bell Operating Companies F.C.C. Tariffs No. 1 and No. 2—and supplements and revisions to all its earlier filed tariffs offering facilities to other common carriers.

7. We are now prepared to institute a formal investigation and hearing on the substantive provisions of all the Bell System's tariffs offering entrance, intercity and local distribution facilities for other carriers, as well as the Bell-Western Union exchange of facilities contracts. In this proceeding, we are most concerned with those tariff provisions which impose restrictions on the use of the facilities. We also wish to examine, among other things, the different rate levels and rate structures found in the various local distribution tariffs and contracts. In our investigation of all of the Bell entrance, intercity and local distribution tariff,[7] we will be particularly concerned with any charges, practices, classifications and regulations which may operate to deny to non-Bell carriers the interconnection privileges presently provided to AT&T's Long Lines Department. We will also inquire into whether Bell's May 3, 1974 filings are in accordance with the terms and conditions of our April 23, 1974 Decision, and the Commission's rule.

8. In our January 11, 1974 Memorandum Opinion and Order,[8] we pointed out that § 61.38 of our Rules was waived insofar as that section required the filing of supporting data at the time of filing the tariffs, and that the grant was without prejudice to the Commission's requiring such data and information to be submitted in the future in connection with any investigation of such tariffs. Because the instant Order designates these tariffs for investigation, we will order Bell to supply the § 61.38 supporting data within 30 days. This should not be an unduly short period of time, since absent our waiver, this information would have been required to be filed along with the tariffs on November 12, 1973. Furthermore, Bell has been on notice since our January 11, 1974 Order that we would be requiring the submission of this material in connection with any investigation of the tariffs.

9. We take note of a Petition filed on October 15, 1970 by James M. and Mariam G. Carpenter d/b/a Carpenter Radio, pursuant to Sections 201(a), 201(b), and 202(a) of the Communications Act of 1934, as amended, alleging that the United Telephone Company of Ohio (United) and the Ohio Bell Telephone Company (Ohio Bell) have refused lines to Carpenter Radio as a common carrier at contract prices lower than the tariff rate and at a level applied to other similarly situated carriers. The nature of Carpenter's Petition is such that we will consider it a petition for interconnection filed pursuant to Section 201(a) of the Communications Act of 1934, as amended. United and Ohio Bell have filed answers to the Petition and Motions to Dismiss, and various other pleadings have been filed by both the telephone companies and Carpenter. Basically Carpenter is requesting wires to interconnect a satellite receiver to its control point at Lima, Ohio. The requested interconnection would utilize the facilities of both United and Ohio Bell. It appears that the interconnection Carpenter requests may be included or should be included within the provisions of Ohio Bell's Local Distribution tariff. Accordingly, the Motions to Dismiss will be denied and Carpenter's Petition and the matters raised therein as to the question of the reasonableness and lawfulness of Defendent's action concerning the provision of the necessary facilities for operation of Carpenter's satellite receiver shall be explored in this proceeding. United will also be named a party in this proceeding since it may be required to provide a portion of the facilities to accomplish an appropriate interconnection.

10. The Commission also has before it a Petition for Reconsideration of its April 2, 1974 Memorandum Opinion and Order in New York Telephone Company Tariff F.C.C. No. 37, 46 F.C.C. 2d 132, filed by RCA Global Communications, Inc. (RCA Globcom) on May 2, 1974. RCA Globcom submits that in view of the Commission's Decision in Docket No. 19896,[9] the Commission must rule that the contracts between the international carriers and New York Telephone Company are still effective and have not been superseded by its Tariff F.C.C. No. 37. The Commission has twice before considered and rejected RCA Globcom's arguments[10] and as we have stated before, Globcom has not provided any additional information which would assist the Commission in resolving this question, and its petition will therefore be denied. However, we will consider herein the question of whether New York Telephone Company should provide facilities to the international record carriers pursuant to contract or pursuant to tariff (see issue number six, infra).

11. In view of the nature of the issues to be decided in this proceeding, we are adopting procedures designed to elicit the information we require in an efficient and expeditious manner. Rather than an oral trial-type hearing, we will provide for three rounds of submissions—comments, responses, and replies—which will form the record. Our decision will take into account, and be limited to, materials submitted herein for the record or incorporated into the record of this proceeding by the Commission.[12] Since the issues are very narrowly drawn, if the parties thoroughly address each issue in their written comments, the Commission expects to be able to reach a determination on most if not all of the specified issues. We will consider requests for further pro-

---

[4] Bell System Tariff Offerings of Local Distribution Facilities, FCC 74-457 (released April 23, 1974), appeal docketed sub nom., Bell Telephone Company of Pennsylvania v. FCC, No. 74-1386 3rd Cir.

[5] *Ibid.* at para. 45.

[6] *Ibid.* at para. 53.

[7] Since the initial tariff filings, five more local distribution tariffs were filed on March 15, 1974 and became effective April 15, 1974. These tariffs, covering the states of Michigan, Georgia, Texas, Oklahoma and Kansas, are listed, along with the earlier filed tariffs, in the Appendix hereto.

"we would need additional information as to these arrangements before undertaking to take remedial action." [11] RCA

[11] Bell System Tariff Offerings, supra, note 4, at para. 51.

[12] In the event materials not submitted by participants are incorporated into the record, notice and opportunity to comment will be provided.

ceedings should interested persons believe they are being prejudiced by the procedures established.

12. Accordingly, *It is ordered,* That, pursuant to the provisions of sections 4(i), 201–205, 211, and 403 of the Communications Act, as amended, an investigation and hearing is hereby instituted into the lawfulness of the above-mentioned AT&T-Western Union exchange of facilities contracts and the tariffs listed in the Appendix attached hereto, as well as any revisions thereto.

13. *It is further ordered,* That, the specific issues to be considered in this proceeding shall include, but not be limited to: [13]

Tariff Construction and Application

1. Whether there is any justification for filing two entrance facilities tariffs rather than one;

2. Whether there is any justification for filing three intercity facilities tariffs rather than one;

3. Whether there is any justification for filing twenty-five separate local distribution facilities tariffs rather than one;

4. Whether the entrance, intercity and local distribution facilities tariffs should be combined into one tariff of general application offering communications facilities to other common carriers;

5.a. Whether Ohio Bell's Local Distribution tariff applies to the service Carpenter requests, and if not, whether Ohio Bell should be required to file revised tariffs with this Commission for the provision of such service;

b. Whether United should be required to file tariffs with this Commission for provision of the service Carpenter requests;

6. Whether, in view of the terms of any contracts (oral or otherwise) which may be found to exist concerning the provision of facilities to the international record carriers by New York Telephone Company, the Commission should require that such facilities be furnished pursuant to such informal contracts rather than pursuant to filed tariffs;

7. Whether the tariffs and tariff revisions filed by Bell on May 3, 1974 comply with Part 61 of the Commission's rules and with the terms and conditions of the Commission's April 23, 1974 Decision in Bell System Tariff Offerings of Local Distribution Facilities (FCC 74–457); [14]

Rates and Charges

8. Whether there is any justification for different rate levels and pricing structures in different states;

9. Whether there is any justification for any limitation of liability due to Bell's negligence;

10. Whether there is any justification for facilities being allowed only if the interruption lasts two hours or more;

11. Whether there is any justification for credits for interruption of local distribution service being allowed only if the interruption lasts at least 24 hours;

12. Whether there is any justification for placing either a dollar or percentage limit on the amount of facilities that can be cancelled in any one month;

13. Whether there is any justification for establishing a tariff rate different from that in the Western Union contracts;

14. Whether there is any justification for charging twice as much for an effective four-wire facility as for a two-wire facility;

Restrictions on Use of Facilities

15. Whether there is any justification for providing that facilities may be denied upon objection "made by or on behalf of any governmental authority";

16. Whether there is any justification for prohibiting the use of facilities for administrative purposes;

17. Whether there is any justification for not providing facilities into abutting and nearby exchange areas as a general proposition;

18. Whether there is any justification for requiring Bell's carrier customers to file tariff provisions setting forth Bell's minimum protective criteria;

19. Whether there is any justification for restricting to one the number of cities, or local distribution areas, which can be served by means of a single earth station;

20. Whether there is any justification for restricting the terminal locations which will be served;

21. Whether there is any justification for prohibiting the use of local distribution facilities for transiting a local distribution area;

22. Whether there is any justification for providing only voice-grade facilities;

23. Whether there is any justification for prohibiting transmission in the digital mode above 75 baud;

24. Whether there is any justification for the prohibition against using ground as a return path for a digital signal;

25. Whether there is any justification for providing intercity facilities to a domestic satellite common carrier only if that carrier maintains a "central office" in the city to be served;

26. Whether there is any justification for limiting the provision of entrance facilities to supergroup bandwidth and above; and

27. Whether there is any justification for providing that facilities may be refused merely by reasons of any indebtedness to Bell.

14. *It Is Further Ordered,* That, without any way limiting the scope of the proceeding, it shall include consideration of the following legal issues:

1. Whether any of the charges, classifications, regulations, and practices contained in the tariffs or contracts are or will be unjust or unreasonable within the meaning of section 201(b) of the Communications Act;

2. Whether such tariffs or contracts will make an unjust or unreasonable discrimination or will subject any person or class of persons to undue or unreasonable prejudice or disadvantage, or will give any undue or unreasonable preference or advantage to any person or class of persons, within the meaning of Section 202(a) of the Communications Act;

3. Whether the Commission should prescribe just and reasonable charges, classifications, regulations, and practices to be hereafter followed with respect to the service governed by such tariffs and contracts and, if so, the charges, classifications, regulations, and practices that should be prescribed.

15. *It is further ordered,* That AT&T and the Bell System Companies are hereby named Parties Respondent herein; and the United Telephone Company of Ohio is hereby named Party Respondent herein for the limited purpose and to the extent necessary to respond to issue 5.b. above.

16. *It is further ordered,* That a trial staff of the Common Carrier Bureau shall participate and be separated both from the Commission and from the Administrative Law Judge. (See In re AT&T, Docket 18128, 32 FCC 2d 89, 90 (1971))

17. *It is further ordered,* That any interested persons intending to participate herein shall, within 10 days of the release of this order, file a notice of intention to participate. The Commission will then issue a Public Notice, stating the names of parties intending to participate herein. All comments, responses, replies, pleadings and other submissions shall be served on the parties listed in the Public Notice.

18. *It is further ordered,* That any interested persons may participate herein by filing comments, responses, and replies in accordance with the following schedule. Comments are to be filed within 30 days of the release of this order; responses are to be filed within 30 days of the filing of comments; and replies are to be filed within 15 days of the filing of responses. Should participants believe that further proceedings, including oral hearings are needed to develop a sufficient record for the resolution of particular issues, they should make appropriate requests as part of their final filing allowed by this paragraph. Such requests should be specific as to the issues to be considered, the nature of the proceedings required and the reasons why prejudice will result if such further proceedings are not held.

19. *It is further ordered,* That the Commission will issue a First Report and Order and will designate therein issues to be investigated in oral hearings, if and to the extent such procedures appear necessary or appropriate. This is a restricted rulemaking proceeding and any action taken by the Commission will be based on matters submitted for or incorporated into the record in this Docket.

20. *It is further ordered,* That an original and 14 copies of all comments, responses, replies, pleadings and other documents filed herein shall be furnished the Commission.

21. *It is further ordered,* That the Petition filed by Carpenter is granted to the extent indicated above and is otherwise denied; and that the motions to dismiss filed by Ohio Bell and United are denied.

---

[13] The Commission is in receipt of a letter dated June 25, 1974 from AT&T, in which AT&T states its intention to restructure the facility tariffs of AT&T and the Bell System Operating Companies and to make numerous substantive changes, on August 1, 1974 to become effective on August 2, 1974. This letter, which describes in detail all the changes contemplated, will be served by the Commission on all persons filing a notice of intention to participate pursuant to paragraph 17. All participants are requested to address their comments, not only to the listed issues, but also to the AT&T proposals, as well as any other relevant matters.

[14] Inclusion of this issue is without prejudice to the Commission's right to reject, in whole or in part, any of the tariffs under investigation herein, prior to the issuance of the First Report and Order.

22. *It is further ordered,* That the petition for reconsideration filed May 2, 1974 by RCA Globcom is denied.

Adopted: June 26, 1974.

Released July 5, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FCC 74-718]

STATE EDUCATIONAL TELEVISION AUTHORITIES

List for Purposes of Cable Television Rules

JULY 8, 1974.

Section 76.13 (a)(6), (b)(6), and (c)(4) of the Commission's cable television rules require that specified information in all applications for certificates of compliance be served on "any local or state educational television authorities."

In the absence of a recognized list of state educational television authorities, there has been much uncertainty concerning which states have such authorities and where they are located.

The Commission has established a list of such state educational agencies, compiled from information supplied by the Department of Health, Education, and Welfare, the National Association of Educational Broadcasters, and the state agencies themselves. This list does not include any local or county educational authorities. The Commission hereby adopts this list, a copy of which is attached, and any revisions thereof, as its official list of state educational television authorities for purposes of the cable television rules, in order to eliminate the uncertainties described above.

In order to allow time for this list to be publicized, and to avoid confusion in the processing of pending applications for certificates of compliance, the list will become effective on August 1, 1974.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] VINCENT J. MULLINS,
Secretary.

SEATRAIN LINES, INC., AND JOHNSON LINE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before August 1, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Howard A. Levy, Esquire
Suite 631
17 Battery Place
New York, New York 10004

Agreement No. 10136 between the above named carriers provides that (1) Johnson Line shall on a space available basis slot-charter to Seatrain on each of its sailings such container carrying capacity as the latter may request and the former may confirm in terms of twenty-foot equivalent units and (2) the parties may interchange their empty containers and/or related equipment as circumstances and conditions may require in the trade from the U.S. Pacific Coast to North Europe.

By Order of the Federal Maritime Commission.

Dated: July 9, 1974.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-4904, *et al.*]

AMOCO PRODUCTION CO. ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

JULY 1, 1974.

Take notice that each of the applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before July 26, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI74–177]

ESTATE OF A. O. PHILLIPS

Order Setting Date for Prehearing Conference

JULY 3, 1974.

On March 15, 1974, Estate of A. O. Phillips (Phillips) filed an application pursuant to section 4 of the Natural Gas Act[1] and Section 2.76 of the Commission's General Policy Interpretations[2] requesting relief from its contract rate of 17.6 cents per Mcf with Texas Eastern Transmission Corporation (Texas Eastern) pursuant to the February 6, 1974, amendment to the base April 18, 1955, contract.

The currently effective rate of 17.6 cents per Mcf is authorized under the small producer certificate issued to Phillips on November 29, 1971, in Docket No. CS71–1052. Phillips proposes to rework two wells in the Englehart Field, Colorado County, Texas in order to produce an additional estimated 1.2 Bcf of gas and 9000 barrels of liquids. The requested rate is 45 cents per Mcf. The 1955 contract expires of its own terms in March of 1975.

Notice of the application was issued on March 26, 1974 and appeared in the FEDERAL REGISTER on April 2, 1974 at 39 FR 12065. No petition to intervene or protest has been filed in this proceeding.

An examination of the petition and the data in support thereof raises a question of whether there is sufficient basis for us to find that the proposed rate is just and reasonable. Therefore, we deem it necessary that a hearing be held in this matter to determine what relief, if any, should be granted under § 2.76.

Upon consideration of the record, when completed, the Administrative Law Judge should enter findings as to the just and reasonable rate level to be applied to Phillip's sales to Texas Eastern from the subject wells, if he determines that the existing area rate does not permit development of the available reserves. We so require because we do not perceive that Phillips petition should be viewed as proposing a choice between a 45.0 cents per Mcf rate and the current contract rate; rather we view the petition as one seeking the determination of that rate, up to and including the proposed contractual maximum, which is just and reasonable under the circumstances.

The Commission finds:

It is necessary and in the public interest that the above-docketed proceeding be set for hearing.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, a public hearing shall be held concerning the issues presented herein.

(B) On or before July 16, 1974, Phillip shall file its direct testimony and evidence in support of its petition. All testimony and evidence filed herein shall be served upon the Presiding Administrative Law Judge, Commission Staff, and all other parties to the proceeding.

(C) On July 24, 1974, a prehearing conference shall be held in accordance with § 1.18 of the rules of practice and procedure to resolve the issues herein in a hearing room of the Federal Power Commission, Washington, D.C. at 10 a.m.

(D) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose shall convene the prehearing conference in the proceeding.

(E) The Administrative Law Judge may in his discretion grant recesses from time to time if he deems a settlement or submission of the issues upon stipulated facts to be possible. If no stipulation or settlement can be reached by the parties hereto after reasonable time and provisions has been made for the same, the Presiding Administrative Law Judge shall establish the time for the commencement of hearing and shall prescribe relevant procedural matters not herein provided.

By the Commission.[3]

[SEAL] KENNETH F. PLUMB,
Secretary.

MOBIL OIL CORP. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

JUNE 28, 1974.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the Regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

* Unless otherwise stated, the pressure base is 15.025 lb/in²a.
1 Subject to Btu adjustment up and down from 1,000 Btu per cubic foot.
2 Not used.
3 Reflects contractual reimbursement for the increase in the New Mexico Gas Severance Tax from 2.5 percent to 3.75 percent.
4 For wells completed prior to June 1, 1970.
5 Includes 0.5 cent periodic increase plus contractual reimbursement for the increased New Mexico severance tax.

The proposed increases which reflect only contractual tax reimbursement for the 1.25 percent increase in the New Mexico Gas Severance Tax (which goes into effect on July 1, 1974) are suspended for one day from the proposed July 1, 1974, effective date in the existing suspension proceedings involving underlying rates which are being collected subject to refund.

The proposed increase of Mobil under its FPC Gas Rate Schedule No. 360 reflects a 0.5¢ periodic increase plus contractual tax reimbursement. Since the proposed increase exceeds the applicable area ceiling rate in Order No. 435, it is suspended for one day from the expiration of the 60 day notice period.

[Docket No. RP72-110]

ALGONQUIN GAS TRANSMISSION CO.

Rate Change Pursuant to Purchased Gas Cost Adjustment Provision

JULY 3, 1974.

Take notice that Algonquin Gas Transmission Company (Algonquin Gas), on June 24, 1974, tendered for filing eleventh revised sheet No. 3-A to its FPC Gas tariff original volume No. 1.

This sheet is being filed pursuant to Algonquin Gas' purchased gas cost adjustment provision set forth in section 22 of the general terms and conditions of its FPC gas tariff, original volume No. 1. The rate change is being filed to reflect an increase in purchased gas costs above the presently effective rates to be paid by Algonquin Gas to its supplier, Texas Eastern Transmission Corporation (Texas Eastern), schedules to be effective July 1, 1974.

The proposed effective date of the revised tariff sheet is August 1, 1974, the proposed effective date of Texas Eastern's rate increase.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8, 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 15, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-15947 Filed 7-11-74;8:45 am]

[Docket No. CP74-326]

ARKANSAS LOUISIANA GAS CO.

Application

JULY 8, 1974.

Take notice that on June 21, 1974, Arkansas Louisiana Gas Company (Applicant), P.O. Box 1734, Shreveport, Louisiana 71151, filed in Docket No. CP74-326 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain natural gas transmission facilities located in Sebastian County, Arkansas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon its line OT-22 located in Massard Field, Sebastian County, Arkansas, consisting of 22,618 feet of pipeline and appurtenant facilities. Applicant states that the line was used solely to receive from Stephens Production Company (Stephens) a maximum of 25,000 Mcf of natural gas per day. Applicant further states that by Commission order issued January 20, 1972, in Docket No. CI72-261, as amended by order of January 28, 1974, Stephens was granted a limited-term certificate authorizing the sale of said gas to applicant. Applicant states that because the

term of said sale has expired and because applicant was unable to negotiate the continued purchase of this gas, applicant no longer needs the facilities connected with this purchase.

Applicant states that the facilities proposed to be abandoned will be sold to Stephens for a price equal to the depreciated value thereof, which is $101,409.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 29, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10. All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-15948 Filed 7-11-74;8:45 am]

[Docket No. E-7743]

CONNECTICUT LIGHT & POWER CO.

Order Denying Petition for Emergency Relief

JULY 3, 1974.

In its petition filed on June 4, 1974, the town of Wallingford, Connecticut ("Wallingford") has requested that the issue of the propriety of the "Buyer's system Demand" provision contained in the resale service rate schedule No. 1 proposed by Connecticut Light & Power ("CL&P") be severed from the present proceeding and that a final Commission decision be entered on that issue within 30 days.

Wallingford represents that the requested expedition is necessary because, within the next 60 days, it must execute a contract for fuel manufactured from refuse and/or steam produced by a plant using such fuel. Wallingford states that the proposed agreement would be ecologically desirable, but the "Buyer System Demand" provision makes it uneconomical. Wallingford believes that the provision unfairly requires demand for CL&P billing purposes to be based on Wallingford's demand on all power sources, including self-generation, rather than just its demand on CL&P. It is alleged that the provision, therefore, imposes a penalty for self-generation because Wallingford will experience increasing cost per kilowatt hour of purchased power as it increases its own generation using additional fuel or steam purchased under the contemplated contract.

CL&P has filed an answer recommending rejection of Wallingford's petition for four reasons. First, the issue of the propriety of the provision in question will become moot for purposes of prospective rates because in the near future CL&P will be filing a new rate schedule which will not contain the present "Buyer's System Demand" provision. Second, no authority exists for granting the requested relief. Third, no adequate showing for immediate Commission action has been made. Fourth, the issue of the use of the provision is central to the proposed rate design in the present proceeding, a proceeding of two years duration presently awaiting the Presiding Administrative Law Judge's initial decision, and the Commission should have the benefit of an initial decision on this matter. CL&P also states in rebuttal that its proposed overall rate design provides for greater payment reductions when Wallingford supplies a portion of its base load needs than the alternative rate design presented by Wallingford in this proceeding.

We find it necessary to agree with CL&P on two determinative points and to refuse to grant the petition. The "Buyer's System Demand" provision is a very integral part of the rate design in the pending proceeding where it is a major issue. We question whether the proposed rate schedule would be viable if the provision were removed without our simultaneously introducing a replacement. Wallingford would presumably prefer introduction of a new definition of "Buyer System Demand" which would exclude self-generation from the demand calculation. Wallingford, however, has made no showing of the effect of the operation of proposed rates with such a modification, and the Commission could not on its own investigate and ascertain such effect within the requested 30 day time period. We believe that it would not be in the public interest to make an expedited decision on such a significant issue without a thorough review of the possible effects of petitioner's proposal.

We also find that Wallingford has made an inadequate showing of its need for unusual expedition. The only support we find for the allegation that Wallingford must execute a contract within the next 60 days is a conclusory statement to this effect by the general manager of Wallingford's Electric Division in a letter to Wallingford's counsel which is attached as an exhibit to the petition. The letter of intent to sell steam signed by the potential fuel/steam vendor on February 26, 1974, also attached as an exhibit, reveals no such time limit.

In addition, we note that the potential fuel/steam vendor is only one of several companies bidding to build regional refuse recovery plants. The contemplated contract would therefore depend upon this potential vendor being a successful bidder and upon the terms of its contract with the authority of the region served by the plant capable of producing fuel for Wallingford's benefit. These contingencies raise a question as to the ability of Wallingford and the potential vendor to execute a final, complete contract at this time.

The Commission finds and orders: (1) Good cause has not been shown for granting Wallingford's petition for emergency relief, and the petition is denied.

(2) The Commission Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket No. RP74-32]

CONSOLIDATED GAS SUPPLY CORP.

Further Postponement of Hearing

JULY 5, 1974.

On July 3, 1974, Commission Staff Counsel filed a motion for a further postponement of the hearing in the above-designated matter, from July 9, 1974, to August 13, 1974. Staff Counsel states that all interested parties have been contacted and that there is no opposition to the motion.

Upon consideration, notice is hereby given that the hearing in the above-designated matter is postponed to August 13, 1974, at 10 a.m. (e.d.t.), in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8744]

DELMARVA POWER AND LIGHT CO.

Order Permitting Late Intervention

JULY 5, 1974.

On June 11, 1974, Department of Justice, State of Delaware filed an untimely notice of intervention in the above-captioned proceeding. State of Delaware alleges that it has a substantial interest in this proceeding since the application and petition to intervene of the City of

Dover (1) concerns and questions the constitutionality of a statute of the State of Delaware and (2) seeks the injunctive relief against the officers of the State of Delaware.

Because of the potential effect this proceeding may have on the State of Delaware, we shall allow it to intervene out of time.

The Commission finds: The participation of the State of Delaware, Department of Justice may be in the public interest.

The Commission orders: (A) State of Delaware, Department of Justice is permitted to intervene in this proceeding subject to the rules and regulations of the Commission and the procedures set forth in the Commission order of May 28, 1974; *Provided, however,* That participation of said intervenor shall be limited to matters affecting asserted rights and interests specifically set forth in their petition to intervene, and *Provided, further,* The admission of such intervenor shall not be construed as recognition by the Commission that they might be aggrieved by any order or orders entered in this proceeding.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[Docket No. E-8789]

DETROIT EDISON CO.

Filing

JULY 5, 1974.

Take notice that on June 24, 1974 the Detroit Edison Company (DEC) filed with the Federal Power Commission certain materials supplementing the electric coordination agreement dated May 1, 1973 between Consumers Power Company (CPC) and the Detroit Edison Company (designated Consumers Power Company rate schedule FPC No. 33 and Detroit Edison Company rate schedule FPC No. 17). The filing of June 24, 1974 revises a statement filed with the Federal Power Commission September 13, 1973, which set forth lists of facilities, investment costs, fixed and annual charges, and certain operating criteria (designated supplement no. 1 to Consumers Power Company rate schedule FPC No. 33 and supplement no. 1 to Detroit Edison Company rate schedule No. 17).

The materials filed with the Commission on June 24, 1974 include the following:

(1) Revisions reflecting changes in fixed charge factors consistent with the cost of money determination by the Michigan Public Service Commission in its most recent rate orders to CPC and DEC;

(2) A certificate of concurrence with the filing of amendment No. 1 to the aforementioned electric coordination agreement; This amendment changes, as of May 1, 1974, the number used to divide the rate short-term capacity from four to six in the determination of the capacity charge for daily exchanges.

(3) Revisions to exhibits filed with the Federal Power Commission on May 20, 1974 (Docket No. E-8612) (designated supplement no. 1 to DEC rate schedule FPC No. 17); These revisions reflect changes in the underlying data and incorporate the changes referred to in (2) above respecting amendment no. 1 to the electric coordination agreement.

Applicant further requests that the Federal Power Commission permit the enclosed revisions to become effective on February 1, 1974, and to permit amendment no. 1 to the electric coordination agreement and the exhibit revisions referred to in (3) above to become effective on May 1, 1974.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 19, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. E-8600, E-8601]

GULF STATES UTILITIES CO.

Order Requiring Filing of Comments

JULY 5, 1974.

On January 21, 1974, Gulf States Utilities Company (GSU) filed two separate power interconnection agreements for service to the cities of Lafayette and Plaquemine, Louisiana (cities), providing for transmission service; for sale and exchange of emergency, replacement, economy, and surplus energy; and the purchase by Gulf States of excess seasonal capacity from the cities. On April 12, 1974, Gulf States filed a modification to the agreement with the city of Plaquemine altering the schedule for purchase of power by Gulf States. GSU request for waiver of notice be granted and the submittals be accepted for filing, to become effective as of May 1, 1975.

Included in the submitted filings are: (a) "Release and convenant not to sue" between GSU and the city of Lafayette; and (b) an agreement relating to the resolution of interventions and other legal matters between GSU and the city of Plaquemine. The aforementioned documents appear to be a settlement between GSU and the cities with regard to certain interventions previously filed by the cities in other dockets.[1]

In previously filed petitions to intervene in other mentioned dockets, the cities, Dow Chemical Company (Dow), Cajun Electric Cooperative (formerly Louisiana Electric Cooperative) filed anticompetitive allegations against GSU and others.

In general, the previously filed petitions to intervene alleged that the companies engaged in a conspiracy to suppress and defeat the interconnection and pooling agreement between the cities, Dow, and Cajun Electric Cooperative.

More specifically the allegations stated that in September of 1964, the REA made a 56.5 million dollar loan to Cajun for construction of a 200 MW generating station with 1,600 miles of transmission lines through which Cajun could serve eight of its twelve member cooperatives. Prior to this time, three companies have been selling power to these cooperatives. The petitions alleged that the companies succeeded in delaying the actual use of the funds thus provided for more than five years, through a series of law suits filed by the companies themselves and by the companies' attorneys on behalf of other putative plaintiffs.

Further allegations state that in August 1968, the cities, Dow, and Cajun executed an interconnection and pooling agreement providing for the interconnection of their coordination agreement, with a minimum term of ten years. The agreement approved by the REA Administration on November 19, 1968, provided for combined planning of load requirements for the cities, Cajun members and Dow, according to the allegations this meant insurance of the market for all surplus capacity and secondary energy, as well as coordination, and substantial savings in the construction of new generators and some economies of scale, plus

[1] Docket No. E-7567 by the U.S. Supreme Court to the U.S. Federal Power Commission Docket No. E-7676 and consolidations therewith (Docket Nos. E-7682, E-7696, E-7805, E-8003, E-8282, and E-8416).

benefits in the form of backup for each system and energy interchanges.

Petitioners further alleged that by engaging in spurious and repetitive litigation, and by mounting a public relations guide and lobbying effort against Cajun, the three companies were able to hold up disbursement of loan money until January, 1969, when a new REA Administrator was sworn into office. This prevented the members of the new pool from going ahead with their agreement. Furthermore, rising costs during the five years delayed raised a serious question whether the original loan would be sufficient to finance all of Cajun's generation and transmission needs. Therefore, the new administrator advanced funds only for the generating station, but not for transmission lines, and Cajun was left to negotiate with three companies for use of their transmission lines.

The allegations contended that these actions constituted the conspiracy which continued during the negotiations for the use of transmission lines. The petitioners' allegations further contend that the Companies, while willing to supply transmission of power to some of Cajun's members, refused to supply transmission service between pool members. It further stated that the Companies demanded that Cajun limited power capacity to the 200 MW already planned, and that the Companies supply all further power needs of the twelve cooperatives, thus precluding further Cajun expansion to serve its members expanding load.

The Commission in response to intervenors allegations instituted a complaint action in Docket No. E–7676 for the purpose of determining the merits of Petitioners' allegation and the Commission's authority to grant relief.

While it appears that the instant submittals may settle issues between GSU and the cities, the record is not sufficient to relieve this Commission of its responsibility to determine whether this settlement is in the public interest. Issues were raised in the original petitions to intervene which may not be resolved by the submitted filings. The public interest may not be served by parties entering into agreements that merely foreboar the resolution of issues for thorough purposes and not the public interest.

The Commission is unable to determine what antitrust issues have been disposed of by the instant submittals nor can the Commission determine the basis upon which issues were settled.

The Commission therefore finds it appropriate to order GSU and the cities of Lafayette and Plaquemine to file comments setting forth among other things:

(1) The antitrust issues originally set forth in all petitions to intervene filed by the intervening parties, and the basis upon which those issues are settled by the filings in this docket.

(2) The parties will set forth the alleged anticompetitive issues which are not proposed to be settled.

(3) The proposed effect the settlement of the issues in the instant submittals will have upon other intervenors in the previously cited dockets who are not parties to the instant submittals.

Dow Chemical Company and Cajun Electric Cooperative, Inc., intervenors in previous dockets involving GSU, are invited to comment on the proposed submittal in this docket.

Louisiana Power and Light and Central Louisiana Electric Company, parties in other dockets in which alleged anticompetitive allegations were made are also invited to comment regarding the proposed settlement of issues in this docket.

It is further ordered that all comments will be filed within 30 days from the date of this order.

By the Commission.

Acting Secretary.

[FR Doc.74–15954 Filed 7–11–74;8:45 am]

[Dockets Nos. CP71–142 and RP73–66]

INTER-CITY MINNESOTA PIPELINES, LTD., INC.

Order Accepting for Filing F.P.C. Gas Tariff and Statement of Compliance

JULY 5, 1974.

On April 26, 1974, Inter-City Minnesota Pipelines Ltd., Inc. (Inter-City Minnesota) filed in the above dockets a proposed FPC Gas Tariff, original volume nos. 1 and 2, together with a gas purchase contract with its supplier, ICG Transmission, Ltd. (ICG), and related service agreements. Inter-City requests the tariff be made effective as of the date approved. In addition to the tariff filing, Inter-City submitted a compliance statement pursuant to the order of the Commission issued in Docket No. CP71–142 on December 21, 1970.

At the present time, Inter-City Minnesota purchases gas destined for U.S. consumption from ICG at Sprague, Manitoba and International Falls, Minnesota, and resells that gas to Inter-City Gas Limited, an affiliated distributor, for resale in International Falls, Roseau, and Baudette, Minnesota. Inter-City Minnesota also sells gas to the village of Warroad, Minnesota, for distribution in that community. Inter-City Minnesota purchases up to 2,000 Mcf per day at Sprague and approximately 25,000 Mcf per day at International Falls. Gas purchased at Sprague is resold for distribution in Roseau, Baudette, and Warroad. The supply at International Falls is sold to Inter-City Gas Limited for resale, primarily to Boise Cascade Corporation. In addition to the purchase volumes, Inter-City Minnesota also transports gas for ICG from Sprague to Baudette. Total purchases amount to about 8 million Mcf per year, while transportation volumes are approximately 12 million Mcf per year.

In Docket No. CP71–142, Inter-City Minnesota requested a certificate to construct and operate its transmission facilities under section 7(c) of the Natural Gas Act. The Commission issued a certificate of public convenience and necessity to Inter-City Minnesota by order issued on December 21, 1970, subject to the following two conditions (44 FPC 1613):

(D) Any future supplies of gas above those authorized in the Commission's order issued August 10, 1970, in Docket Nos. CP70–288 and CP70–289, to be transported through applicant's facilities in the United States and consumed in the United States will be owed by the applicant, and further, within six months of the date of this order applicant shall conclude a new contract with ICG Transmission Limited or any appropriate party under which all gas carried in its facilities in the United States for ultimate consumption in the United States will be owned by applicant.

(E) At the time of compliance with paragraph (D) above, applicant shall make appropriate application pursuant to section 7(c) of the Natural Gas Act and regulations thereunder for authorization to continue any sales of gas initiated under the prior arrangements.

On June 21, 1971, in purported compliance with the above order, Inter-City Minnesota submitted revised contracts providing for the purchase of all gas sold in the U.S. Thereafter on November 22, 1972, Inter-City Minnesota submitted in Docket No. RP73–66 a proposed tariff, with further amendments thereto filed on January 24 and October 1, 1973. The above filings did not comply with the Commission's order and applicable regulations, and no action was taken with respect to them. Inter-City Minnesota's present filing is submitted in substitution for all such filings previously made and not acted upon.

Notice of Inter-City Minnesota's present filing was issued on June 10, 1974, providing for protests or petitions to intervene to be filed on or before June 28. No comments have been received in response to the notice.

Based on our review of the record in this proceeding, including the proposed tariff, related service agreements, gas purchase contract and compliance statement, we find that Inter-City Minnesota has complied with the requirements of ordering paragraphs D and E of the order of December 21, 1970, in Docket No. CP71–142, and that its proposed tariff should be accepted for filing.

The Commission orders: (A) Inter-City Minnesota's FPC Gas Tariff, original volume nos. 1 and 2 is hereby accepted for filing effective upon the date of this order.

(B) The gas purchase contract between Inter-City Minnesota and ICG Transmission Limited, dated April 8, 1974, is accepted for filing in compliance with ordering paragraph D of the Commission's order of December 21, 1970, in Docket No. CP71–142.

(C) Inter-City Minnesota is hereby declared to be in compliance with ordering paragraph E of the order of December 21, 1970, in Docket No. CP71–142, and the authorizations therein provided for are granted.

(D) Previous filing by Inter-City Minnesota inconsistent with the filing of April 26, 1971, are deemed withdrawn.

(E) Within 30 days from the date of this order, Inter-City Minnesota shall submit a new service agreement covering service to the Village of Warroad, Minnesota.

(F) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.74-15955 Filed 7-11-74;8:45 am]

[Docket No. CP74-319]

MICHIGAN CONSOLIDATED GAS CO.

Application

JULY 3, 1974.

Take notice that on May 28, 1974, Michigan Consolidated Gas Company (applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP74-319 an application pursuant to section 1(c) of the Natural Gas Act for a continuing exemption from the provisions of the Natural Gas Act and the regulations of the Commission pertaining thereto, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

By Commission order issued February 3, 1955, in Docket No. G-6507 (14 FPC 535), applicant was declared exempt from the provisions of the Natural Gas Act pursuant to section 1(c) of said Act. Applicant states that it and Panhandle Eastern Pipe Line Company (Panhandle) have entered into a gas storage agreement dated May 22, 1974, providing that during the months June through October 1974, Panhandle will deliver to applicant at applicant's River Rouge Station, Melvindale, Michigan, for storage approximately two million Mcf of natural gas and that during the months of November and December 1974 and January, February and April 1975 applicant will redeliver an equivalent amount of natural gas through displacement, by making deliveries to Southeastern Michigan Gas Company at an existing interconnection at Adair, Michigan, for the account of Panhandle.

Applicant states that the gas storage agreement between Applicant and Panhandle is for a short term and is intended only as a temporary arrangement to enable some of Panhandle's resale and direct sale customers to meet their anticipated market or processing requirements during the 1974-75 heating season. Applicant further states that all of the natural gas delivered to or by it under said storage agreement will be received or delivered and ultimately consumed within the State of Michigan.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 22, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-15956 Filed 7-11-74;8:45 am]

[Docket No. E-8494]

MINNESOTA POWER AND LIGHT CO.

Postponing Prehearing Conference

JULY 5, 1974.

On June 26, 1974, a notice was issued setting revised procedural dates in the above-designated matter. The notice postponed the hearing to September 30, 1974, but did not postpone the prehearing conference which had been set for July 9, 1974, by the order issued February 15, 1974.

Upon consideration, notice is hereby given that the prehearing conference scheduled to commence on July 9, 1974, is postponed to September 30, 1974, at 10 a.m. (EDT). The hearing will commence upon conclusion of the prehearing conference.

Acting Secretary.

[FR Doc.74-15944 Filed 7-11-74;8:45 am]

[Docket No. RM75-1]

NATURAL GAS FROM CANADA

Order Denying Petitions

JULY 8, 1974.

On May 10, 1974, Northwest Pipeline Corporation (Northwest) submitted a petition that this Commission issue a notice of proposed rulemaking on proposed standards to be applied in cases involving the price of natural gas imported into the United States from the Dominion of Canada. Northwest in the alternative petitioned for the issuance of a Declaratory Order to remove uncertainty in the area of this Commission's regulation of prices in cases involving the importation of Gas from Canada.

A public conference concerning this matter was held at the Commission on May 10, 1974. At this conference Northwest, Midwestern Gas Transmission Company, Great Lakes Transmission Company, and Pacific Gas Transmission Company presented their views for the record.

Northwest proposes a standard of the "cheapest alternate supply which is currently available" as an appropriate test for this Commission in measuring price increases for existing or new imports of gas. Northwest submits that such a standard would obviate the requirement for advance Commission approval of proposed prices under section 3 or 4(e) of the Act prior to flow-through of such prices to the importing pipeline's customers. Furthermore, Northwest states that under this standard and proposed scheme of regulation, the Commission can adequately protect the United States consumers under Section 5 of the Act.

Our review of Northwest's petition does not convince us that their recommended action is the proper response to the situation involving imports of natural gas from Canada. We have in cases involving El Paso Natural Gas Company and Northwest in Docket Nos. RP72-154 and RP74-43, Pacific Gas Transmission Company in Docket No. RP73-111 and Great Lakes Transmission Company and Midwestern Gas Transmission Company in Docket Nos. G-18314, et al., undertaken to review and examine pipeline import price proposals on an individual company basis. We believe that in this way, we can continue to assure the United States consumers that the prices they pay for natural gas are just and reasonable, as required by the Natural Gas Act. We do not believe that Northwest's proposal of the "cheapest alternate supply which is currently available" as a standard and the application of this standard would provide the protection of the just and reasonable standard. Accordingly, we shall continue to examine each case on its own merits judging the rates in each instance against the statutorily mandated standard of justness and reasonableness. We shall therefore deny Northwest's petition for proposed rulemaking and for issuance of a declaratory order.

The Commission finds:

(1) Continued regulation of pipeline rates under the just and reasonable standard is required to continue to provide protection to the United States consumers.

(2) The standard proposed by Northwest is not appropriate to assure the justness and reasonableness of rates charged to United States consumers.

The Commission orders: (A) Northwest Pipeline Corporation's petition for notice of proposed rulemaking and its

petition for issuance of a declaratory order are hereby denied.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.74-15945 Filed 7-11-74;8:45 am]

[Docket No. RP74-96]

NATURAL GAS PIPELINE CO. OF AMERICA

Order Granting Interventions

JULY 8, 1974.

On May 31, 1974, Natural Gas Pipeline Company of America (Natural) tendered for filing proposed changes in its FPC Gas Tariff [1] to provide for a $58.3 million annual increase in jurisdicitional revenues above the revenues collected under the rates presently in effect subject to refund at Docket No. RP73-110.

Letters of protest and petitions to intervene were due on or before June 24, 1974. The following parties filed timely petitions to intervene or notices of intervention:

Associated Natural Gas Company
Mississippi River Transmission Corporation
Central Illinois Light Company
Peoples Gas Light and Coke Company
North Shore Gas Company
Central Illinois Public Service Company
Iowa Power and Light Company
City of Chicago
Iowa-Illinois Gas and Electric Company
Iowa Southern Utilities Company
Interstate Power Company
United Cities Gas Company
Illinois Power Company
Northern Illinois Gas Company
North Central Public Service Company
Northern Indiana Public Service Company
Corning Natural Gas Corporation
Columbia Gas Transmission Corporation
Public Service Commission of Wisconsin

The participation of the above named companies and state commission may be in the public interest and therefore their timely intervention shall be granted.

The Commission finds: The participation of the above named parties may be in the public interest.

The Commission orders: (A) The above named parties are permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission and the procedures set forth in the Commission Order of June 12, 1974; *Provided, however,* That participation of said intervenor shall be limited to matters affecting asserted rights and interests specifically set forth in their petition to intervene, and *Provided, further,* The admission of such intervenor shall not be construed as recognition by the Commission that they might be aggrieved by any order or orders entered in this proceeding.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket No. RP74-88]

NORTH PENN GAS CO.

Order Permitting Late Intervention

JULY 8, 1974.

On June 12, 1974 New York State Electric & Gas Corporation (New York) filed an untimely petition to intervene in the above-captioned proceeding. New York alleges that it has a substantial interest in this proceeding since Corning Natural Gas Corporation (Corning) one of its suppliers of natural gas will be effected by North Penn Gas Company's (North Penn) increased rates. Petitioner states that most of the proposed charges to be imposed by North Penn on its sales to Corning would be borne by petitioner through the operation of Corning's PGA Clause, applicable to its sales to petitioner, as contained in Corning's gas tariff filed with the Public Service Commission of the State of New York.

Because of the potential effect this proceeding may have on New York, we shall allow it to intervene out of time.

The Commission finds: The participation of New York State Electric and Gas Corporation may be in the public interest.

The Commission orders: (A) New York is permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission and the procedures set forth in the Commission Order of *Provided, however,* That participation of said intervenor shall be limited to matters affecting asserted rights and interests specifically set forth in their petition to intervene, and *Provided, further,* the admission of such intervenor shall not be construed as recognition by the Commission that they might be aggrieved by any order or orders entered in this proceeding.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[Docket Nos. E-7777 (Phase II) and E-7796]

PACIFIC GAS AND ELECTRIC CO., PACIFIC POWER & LIGHT CO.

Order Granting Motion To Sever Issues and To Consolidate Severed Issues With Alternate Proceeding

JULY 8, 1974.

On July 3, 1972, Pacific Power & Light Company tendered for filing in Docket No. E-7796 on behalf of itself and six other public utilities [1] an initial rate schedule for the sale of surplus energy entitled "The Seven Party Agreement" and, by order issued November 20, 1972, we instituted an investigation under section 206 of the Federal Power Act into the justness and reasonableness of that contract. The staff advises us in a motion which it filed on June 5, 1974, infra, that the investigation has proceeded to the point that approximately 150,000 pages of documents have been produced pursuant to discovery requests.

By order issued March 14, 1974, in Pacific Gas and Electric Company, Docket No. E-7777, we instituted (and designated as Phase II) an investigation under section 206 of the Federal Power Act into the justness and reasonableness of four contracts, including the seven party agreement. The staff advises us in the motion which it filed on June 5, 1974, infra, that discovery is now getting under way with a request for much of the material which has been produced in Docket No. E-7796, and that the discovery requests in Docket No. E-7777 (Phase II) can be expected to be at least as extensive as those in Docket No. E-7796.

On June 5, 1974, the staff filed a motion to sever the issues of law and fact relating to the seven party agreement from Docket No. E-7777 (Phase II) and to consolidate such severed issues with those in Docket No. E-7796, asserting

Seventh Revised Sheet No. 220.
First Revised Sheet No. 270.

[1] Of the seven public utility companies, Pacific Power & Light Company, Portland General Electric Company, Puget Sound Power & Light Company and The Washington Water Power Company are known as the "Pacific Northwest Companies"; and Pacific Gas and Electric Company, San Diego Gas & Electric Company and Southern California Edison Company are known as the "California Edison Company are known as the "California Companies".

that the issues of law and fact relating to The Seven Party Agreement are substantially the same in both dockets, that such action would avoid a duplication of discovery and that such action would result in an earlier decision on the common issues. While the scope of the staff's motion is not as clear as it might have been, we are construing and treating it as one to sever, and then to consolidate, the issues of law and fact relating to the justness and reasonableness of The Seven Party Agreement.

San Diego Gas & Electric Company, in an answer filed on June 19, 1974, and the Pacific Northwest Companies and Pacific Gas and Electric Company, in separate answers filed on June 24, 1974, support the staff's motion. The Pacific Northwest Companies urge, in this connection, that severance and consolidation would not prejudice the parties to either docket, and Pacific Gas and Electric Company urges that severance and consolidation is preferable to simple consolidation of the two dockets because many of the parties to The Seven Party Agreement are not involved in the other contracts being investigated in Docket No. E–7777 (Phase II).

On June 19, 1974, the cities of Alameda, Healdsburg, Lodi, Lompoc, Santa Clara and Ukiah, California (northern cities) filed an answer in which they express their belief that the seven party agreement is part of a plan and pattern of anticompetitive conduct of Pacific Gas and Electric Company. They state, in this connection, that they do not object to the severance if the issues are limited to whether the seven party agreement should be modified and, if so, the nature of any modification.[2] But they do oppose any severance which would have "the effect of precluding from consideration in Docket No. E–7777 (Phase II) any anticompetitive acts by Pacific Gas and Electric Company in connection with the 'Seven Party Agreement' and related transactions or the anticompetitive effect of that agreement." Similarly, they urge that evidence of anticompetitive activity of Pacific Gas and Electric Company "with respect to the other three contracts under investigation, to the extent relevant to the 'Seven Party Agreement', not be precluded from consideration in Docket No. E–7796."

It appears, therefore, that the northern cities' objections are premised in the lack of clarity which we have noted in the scope of the staff's motion. By severing and consolidating the issues of law and fact relating to the justness and reasonableness of the seven party agreement, we intend to make no changes in the scope of Docket No. E–7796. We are merely removing from Docket No. E–7777 (Phase II) those issues relating to the justness and reasonableness of the seven party agreement which are common to the two dockets, and consolidating those issues with Docket No. E–7796. As the northern cities point out, some of the issues in Docket No. E–7777 (Phase II), after severance, may continue to overlap issues in Docket No. E–7796, after consolidation. For example, the seven party agreement would seem to be relevant in Docket No. E–7777 (Phase II) to the question of whether the four contracts under investigation therein are part of a plan or pattern of anticompetitive conduct of Pacific Gas and Electric Company, as the northern cities claim; and, similarly, the other three contracts under investigation in Docket No. E–7777 (Phase II), or some of them, could conceivably be relevant in Docket No. E–7796 to the justness and reasonableness of the seven party agreement. Accordingly, while it appears from the information which is before us that it is in the public interest to sever and consolidate the common issues of law and fact relating to the seven party agreement, we are not precluding further realignment of these proceedings if it should develop that the alignment ordered herein is prejudicing any party in developing and presenting its case.

The Commission finds: There are common questions of law and fact in Docket Nos. E–7796 and E–7777 (Phase II) relating to the justness and reasonableness of the seven party agreement.

The Commission orders: The motion of the Commission staff to sever from Docket No. E–7777 (Phase II) the issues of law and fact relating to the justness and reasonableness of the seven party agreement and to consolidate those issues for the purposes of hearing and decision with Docket No. E–7796, is granted.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Docket No. R–389–B]

SALES OF NATURAL GAS

Rate Matters

JULY 5, 1974.

In Opinion No. 699, issued June 21, 1974, in Docket No. R–389–B, the Commission prescribed a single uniform national base rate for jurisdictional sales of natural gas made: (1) from wells commenced on or after January 1, 1973; (2) pursuant to contracts executed on or after January 1, 1973, for gas not previously sold in interstate commerce (except pursuant to the provisions of 18 CFR §§ 2.86, 2.70, 157.22 or 157.29), or (3) pursuant to contracts executed on or after January 1, 1973, where the sales previously had been made under an unlimited term certificate pursuant to a gas sales contract which had expired by its own terms. When a seller files a proposed increased rate under the provisions of Opinion No. 699, it shall not be entitled to charge and collect any part of the proposed increased rate in excess of the prior applicable ceiling rate until it satisfactorily demonstrates in writing that Opinion No. 699 is applicable to its filing, in whole or in part. Additionally, if the increased rate filing is for gas produced in the Southern Louisiana area, Texas Gulf Coast area, Other Southwest area or the Permian Basin area, a waiver must be filed accompanying the proposed increased rate filing, or be filed in support thereof, in accordance with § 2.56(h) (11) as promulgated in Ordering Paragraph (A) of Opinion No. 699.

The proposed increased rate for which such support shall have been satisfactorily demonstrated prior to September 23, 1974, will be made effective as of June 21, 1974.

When application is made for certificate authority to initiate a sale of natural gas at a rate under the provisions of Opinion No. 699, the applicant-seller shall include, as a part of its application, a statement in writing demonstrating the applicability of the terms and conditions of Opinion No. 699 to the sale and rate proposed to be charged and collected.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–15946 Filed 7–11–74;8:45 am]

[Dockets Nos. RP73–64, RP72–91 (Phase II)]

SOUTHERN NATURAL GAS CO.

Order Denying Rehearing

JULY 5, 1974.

On May 10, 1974, this Commission issued an order permitting PGAC increase to become effective, granting waiver, and granting petition to intervene. On June 5, 1974, Alabama Gas Corporation (Alabama Gas) filed an application for rehearing of this order. Alabama Gas' application is substantially similar to its comments and protest to Southern Natural Gas Company's (Southern) filing of April 4, 1974, to reflect increased costs of gas purchased by Southern from United Gas Pipe Line Company (United). United's increase was permitted to become effective as of April 6, 1974, by Order issued May 6, 1974.[1] Alabama Gas correctly states that the placing into effect of the tariff sheets was not a matter of right, but required waiver of the Commission's regulations. Alabama Gas also asserts that good cause was not shown to grant Southern's request for waiver of the 45-day notice period prior to the effectiveness of any PGA rate increase.

Alabama Gas states that the purpose of the 45-day notice period is, inter alia, to allow time for the pipeline companies'

[2] It is not clear whether the northern cities are saying that they have no objection if the issues are limited to the justness and reasonableness of The Seven Party Agreement, or whether they are suggesting that the scope of the investigation in Docket No. E–7796 should now be limited to the specific questions of whether that contract should be modified and, if so, the nature of any modifications. Assuming the latter, we do not have before us sufficient information concerning the course of the investigation to make such a determination.

[1] United Gas Pipeline Corporation, Docket No. RP74–20, issued May 6, 1974.

customers to adjust their rates. It is also to permit the Commission to verify the rate change and to permit the pipeline companies to cure deficiencies without delay of the rate change.[2] In our order of May 10, we were aware of Alabama Gas' problem in recovering any increase for the period from April 6 to the date of the Commission order approving Southern's increase.[3] However, such problems relate to matters which are not within our jurisdiction. We cannot defer our determination of good cause for waiver of our regulations to the difficulties a distributor-customer of a jurisdictional pipeline has in dealing with its state regulatory commission relating to rate increases granted by this Commission. As we stated in our order of May 10, "Section 154.38(d)(4)(iv) of the regulations provides that PGA rate changes shall be filed to coincide with the effective date of pipeline supplier rate changes. Southern, as a customer of United, may properly track these increased rates as of April 6, 1974." (mimeo at 2).

We note that Alabama Gas stated in its original protest in this matter that it believed that this problem was generally common to all gas distribution customers of Southern. However, no other protest or application for rehearing has been filed in this proceeding. While not conclusive, this failure of other distribution customers to protest or seek rehearing leads us to believe that this problem is not common, but of particular applicability to Alabama Gas.

We note also that by order issued March 29, 1974, we rejected a filing by Southern which sought to include increased producer costs reflecting Louisiana severance taxes earlier than they would otherwise be included under Southern's approved PGA clause.[4] The order rejecting Southern's increase was without prejudice to Southern's filing of new tariff sheets reflecting purchased gas cost adjustments properly includable under its PGA clause. The March 29, 1974, order also rejected a proposed rate increase by Southern's supplier, United without prejudice to "United refiling to reflect other adjustments, such as those which might be indicated by Commission Opinion No. 671." (mimeo at 3). We believe that the March 23, 1974 order provided distributor customers of Southern with sufficient notice of a possible change in United's and Southern's rates which might be permitted to become effective as of the original proposed effective dates.

In view of the above, Alabama Gas' application for rehearing should be denied.

The Commission finds: Alabama Gas' application for rehearing raises no facts or points of law which would provide an adequate basis for modification of our prior order permitting the PGA increase to become effective.

The Commission orders: (A) Alabama Gas' application for rehearing, filed on June 5, 1974, is denied.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Docket No. E-8514]

SOUTHERN SERVICES, INC.

Order Granting Application for Rehearing, Denying Motion, Granting Late Petition to Intervene, and Amending Prior Order

JULY 5, 1974.

On June 7, 1974, Alabama Power Company, Georgia Power Company, Mississippi Power Company, and Gulf Power Company (Companies) [1] tendered for filing a Joint Application for Rehearing of the Commission's Suspension Order issued May 8, 1974, in the above referenced docket, and a Petition to Intervene. The Companies also tendered for filing a Joint Motion to Postpone the Hearing pending final resolution of a settlement proposal in Docket Nos. E-7548 and E-8170.

Our order of May 8, 1974, concluded that the proposed amendment to the interchange agreement, which would revise the costs of pool related transactions, may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful and therefore, we suspended the proposed amendment for one day until May 10, 1974, and set the matter for hearing.

The Companies make the following assertions: (1) since they are the real parties in interest in this proceeding, the Companies request that they be permitted to intervene; (2) the present controversy would be rendered moot by the proposed settlement agreement in Docket Nos. E-7548 and E-8170, and accordingly, the Companies request that the procedural dates in this proceeding be postponed until after Commission review of the aforementioned settlement proposal; and (3) the present effective date of May 10, 1974, is unreasonable because the parties to the interchange agreement have been operating pursuant to the amended agreement from January 1, 1974, and the application of the 1973 amendment to the first four months of 1974 would result in the inequitable allocation of costs among the Companies. The Companies state that, should the Commission determine that the agreement is unlawful, they will make appropriate refunds from January 1, 1974.

With regard to the Companies' application for rehearing to revise the effective date, we note that normally such a retroactive change would jeopardize our ability to protect the consumer against unlawful rates.[5] However, since the Companies have agreed to make refunds, if necessary, from January 1, 1974, we will grant the application.

We shall deny the Companies' motion for postponement of the procedural dates because even our final approval of the proposed settlement, if granted, would not determine the lawfulness of the proposed changes in the interchange agreement nor the appropriateness of the agreement as a cost allocation tool. We believe, however, that good cause exists to permit the Companies to intervene in this proceeding.

The Commission finds:

(1) Good cause exists to grant the Companies' application for rehearing for the purpose of revising the effective date set forth in the Commission's order of May 8, 1974.

(2) The motion to postpone should be denied.

(3) Participation by the Companies in this proceeding may be in the public interest and good cause exists to grant the Companies' late petition to intervene.

The Commission orders: (A) The application for rehearing of the Companies, filed on June 7, 1974, is hereby granted to permit an effective date of January 1, 1974, for the Companies' filing of April 8, 1974, subject to refund pursuant to the Companies' agreement.

(B) The Companies' motion to postpone the procedural dates is hereby denied.

(C) The above-named petitioners are hereby granted permission to intervene in these proceedings, subject to the Rules and Regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the petition to intervene; and *Provided, further,* That the admission of such intervenors shall not be considered as recognition by the Commission that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[3] Mimeo at 2.

[4] United Gas Pipe Line Company, et al., Docket Nos. RP72-75, et al., issued March 29, 1974.

[1] These Companies are parties to an interconnection agreement which authorizes Southern Services, Inc., to act as their agent in effecting agreements with outside utility systems and among affiliated Companies for pool related transactions.

[2] The proposed settlement would be between Georgia Power Company and its wholesale customers, some of whom have intervened in this proceeding.

[5] Northeast Utilities Company, —— FPC ——, Docket Nos. E-8756 et al. (issued May 31, 1974); and Boston Edison Company, —— FPC——, Docket No. E-8810 (issued June 21, 1974).

[Docket No. CP74-328]

SOUTHWEST GAS CORP.

Notice of Application

JULY 8, 1974.

Take notice that on June 24, 1974, Southwest Gas Corporation (Applicant), P.O. Box 1450, Las Vegas, Nevada 89101, filed in Docket No. CP74-328 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a tap facility at Kingsbury Grade on the South Tahoe Lateral of Applicant's Northern Nevada Transmission System, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant proposes to construct and operate a tap and appurtenant facilities to enable Applicant to deliver volumes of gas to Priority 1 residential users in the 162-unit Tahoe Village condominium development. Applicant states that the volumes to be delivered will be approximately 94 Mcf on an average day with peak day requirements of 250 Mcf, equalling about 34,344 Mcf annually. Applicant states that its pipeline facilities presently have adequate capacity to make the contemplated deliveries.

Applicant asserts that grant of the requested authorization will increase high priority utilization of Applicant's existing gas supply and will make natural gas service available to isolated, small usage, residential customers, all of whom have no available source of alternate fuel.

Applicant states that total cost of the proposed facility is estimated to be approximately $8,530 which will be financed through an advance made by the developer of the Tahoe Village development.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 29, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commision by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commisison on this application if no petition to intervene is filed within the time required herein, if the Commision on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-15764 Filed 7-11-74;8:45 am]

[Docket No. E-8215]

UNION ELECTRIC CO.

Filing of Interim Rates

JULY 5, 1974.

Take notice that on June 24, 1974, Union Electric Company (Union) tendered for filing Interim Rates to be charged Missouri Power & Light Company (MP&L) under the terms of an Electric Service Agreement between Union and MP&L, which agreement is FPC Electric Tariff No. 49. Union states that the proposed interim rates are being filed to become effective on bills rendered on and after June 1, 1974, and will decrease the rate increase presently being collected by Union subject to refund from MP&L from approximately 31.6 percent to 16.7 percent.

Union states that these interim rates are those contained in a settlement proposal which is presently pending before the Commission. Union further states that it will make these changes effective in bills rendered in June, 1974, and thereafter in order to coincide with an increase in retail electric rates which is being put into effect by MP&L, with the approval of the Missouri Public Service Commission. According to Union the reduction of the rates to the level contained in the settlement will minimize the amount of refund payable by Union to MP&L.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 15, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but it will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Persons presently parties to this proceeding need not file additional petitions to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-15965 Filed 7-11-74;8:45 am]

[Docket No. E-8867]

WISCONSIN PUBLIC SERVICE CORP.

Tariff Change

JULY 5, 1974.

Take notice that Wisconsin Public Service Corporation, on June 24, 1974 tendered for filing proposed changes in its FPC Electric Service Tariff No. 3, No. 6, No. 7, No. 9, No. 13, No. 24, No. 25, and No. 27. The proposed changes would increase revenues from jurisdictional sales and service by $1,116,306 based on the 12-month period ending July 31, 1975.

Wisconsin Public Service Corporation states that the proposed rate increase is necessary to meet rising financial and operating costs. The proposed effective date of the rates contained in the filing is August 26, 1974.

Copies of the filing were served upon the public utility's jurisdictional customers, the Public Service Commission of Wisconsin, and the Public Service Commission of Michigan.

Any person desiring to be heard or to protest said application should file a Petition to Intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 19, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any persons wishing to become a party must file a Petition to Intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8798]

WESTERN MASSACHUSETTS ELECTRIC COMPANY

Supplemental Filing

JULY 5, 1974.

Take notice that on June 21, 1974 Western Massachusetts Electric Company (Western Massachusetts) tendered for filing supplemental information in addition to and in partial replacement of materials in this docket on May 16, 1974 filed with the Commission.

Western Massachusetts supplements prior materials with a 12-month comparative sales and revenues statement; computations showing 1973 and 1974 energy responsibility allocation factors; computations showing 1973 and 1974 demand allocation factors; estimated 1973 energy losses and 1974 sales under the proposed rates; a comparative statement of service costs and proposed revenues for 1973; and 1974 supporting workpapers. Western Massachusetts requests that its rate filing be made effective on June 15, 1974.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 19, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any persons wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8867]

WISCONSIN PUBLIC SERVICE CORP.

Tariff Change

JULY 5, 1974.

Take notice that Wisconsin Public Service Corporation, on June 24, 1974 tendered for filing proposed changes in its FPC Electric Service Tariff No. 3, No. 6, No. 7, No. 9, No. 13, No. 24, No. 25, and No. 27. The proposed changes would increase revenues from jurisdictional sales and service by $1,116,306 based on the 12-month period ending July 31, 1975.

Wisconsin Public Service Corporation states that the proposed rate increase is necessary to meet rising financial and operating costs. The proposed effective date of the rates contained in the filing is August 26, 1974.

Copies of the filing were served upon the public utility's jurisdictional customers, the Public Service Commission of Wisconsin, and the Public Service Commission of Michigan.

Any person desiring to be heard or to protest said application should file a Petition to Intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 19, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any persons wishing to become a party must file a Petition to Intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket Nos. RI74-115, *et al.*]

MESA PETROLEUM CO. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

JULY 3, 1974.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

RI74-100	do			do							

*Unless otherwise stated, the pressure base is 15.025 lb/in²a.
[1] Excludes acreage added by Supplement No. 32.
[2] Applicable to production from wells completed prior to June 1, 1970.
[3] Reflects contractual tax reimbursement for the 1.25 percent increase in the New Mexico gas severance tax.
[4] Applies to acreage added by Supplement No. 22.
[5] Subject to Btu adjustment downward from 1,000 Btu and upward from 1,050 Btu.
[6] Applicable to production from wells completed on and after June 1, 1970.
[7] Exclusive of Btu adjustment.
[8] Considered "new gas" pursuant to Opinion No. 639.
[9] The pressure base is 14.73 lb/in²a.
[10] Subject to Btu adjustment up from 1,050 and down from 1,000 Btu.
[11] Subject to Btu adjustment up and down from 1,000 Btu.
[12] No deliveries of gas at present time.

The proposed periodic increase of H. L. Hunt exceeds the applicable area ceiling under Order No. 453, and it is suspended for one day.

The other proposed increases reflect only contractual tax reimbursement for the 1.25 percent increase in the New Mexico Gas Severance Tax (which goes into effect on July 1, 1974), but the underlying rates are being collected subject to refund. These tax increases are suspended for one day from the proposed July 1, 1974, in the existing suspension proceedings.

In regard to any sale of natural gas for which the proposed increased rate is filed under the provisions of Opinion No. 669, issued June 21, 1974, in Docket No. R-389-B, no part of the proposed rate increase above the prior applicable area ceiling rate may be made effective until the seller submits a statement in writing demonstrating that Opinion No. 699 is applicable to the particular increased rate filing, in whole or in part. The proposed increased rates for which such support shall have been satisfactorily demonstrated prior to September 23, 1974, will be made effective as of June 21, 1974.

[Docket Nos. RI74-99, etc.]

PWG PARTNERSHIP ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

JULY 3, 1974.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly Sections 4 and 15, the Regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

*Unless otherwise stated, the pressure base is 15.025 psia.
[1] As amended June 19, 1974.
[2] Plus applicable taxes and subject to Btu adjustment per opinion No. 658.
[3] Reflects contractual reimbursement for the 1.25 percent increase in the New Mexico severance tax.
[4] Increase to 28.5 cents contract rate plus contractual reimbursement for the 1.25 percent increase in the New Mexico severance tax.
[5] For gas from wells completed prior to June 1, 1970.
[6] For gas from wells completed subsequent to June 1, 1970.
[7] Sales under basic contract and supplement No. 1 are covered by opinion No. 658.
[8] Sales under supplements Nos. 3 and 4 are covered by order No. 435.
[9] As amended June 10, 1974.
[10] Not stated.
[11] The proposed rate increase is suspended until Dec. 4, 1974, insofar as the sales are covered by opinion No. 658 and until Aug. 4, 1974, insofar as the sales are covered by order No. 435.
[12] Not used.
[13] Considered "new gas", pursuant to opinion No. 639.
[14] The pressure base is 14.73 psia.

Some of the proposed increases reflect only contractual tax reimbursement for the 1.25 percent increase in the New Mexico Gas Severance Tax (which goes into effect on July 1, 1974), but the underlying rates are being collected subject to refund. These tax increases are suspended for one day from the proposed July 1, 1974, effective date in the existing suspension proceedings.

The other increases reflect an increase in the contract rate, in addition to the tax increase due to the increase in the New Mexico tax. These increases are suspended for five months where the sales are covered by Opinion No. 658 and for one day from the expiration of the 60 day notice period where the sales are covered by Order No. 435.

In regard to any sale of natural gas for which the proposed increased rate is filed under the provisions of Opinon No. 699, issued June 21, 1974, in Docket No. R-389-B, no part of the proposed rate increase above the prior applicable area ceiling rate may be made effective until the seller submits a statement in writing demonstrating that Opinion No. 699 is applicable to the particular increased rate filing, in whole or in part. The proposed increased rates for which such support shall have been satisfactorily demonstrated prior to September 23, 1974, will be made effective as of June 21, 1974.

SKELLY OIL CO. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective to Refund [1]

JULY 3, 1974.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

* Unless otherwise stated, the pressure base is 14.65 psia.
[1] Contract amendment providing for the drilling of additional wells on previously dedicated acreage and prescribes a new pricing schedule for production from such wells.
[2] Subject to quality adjustments pursuant to opinion No. 662.
[3] Applicable only to production from wells drilled on Virgil J. Powell Tract "A" and Virgil J. Powell "B" lands pursuant to supplement No. 11.
[4] The portion of the rate not exceeding the ceiling rate in opinion No. 662 is accepted as of Aug. 1, 1974, the contractually due date, and the portion exceeding such ceiling rate is suspended for 5 mos until Jan. 1, 1975.
[5] Effective date of the 1.25 percent increase in the New Mexico severance tax levied on gas producers.
[6] Suspended in docket No. RI74-175.
[7] Pursuant to opinion No. 699.
[8] Converted from 23.0 cents at 15.025 psia.
[9] Converted from 23.2156 cents at 15.025 psia.
[10] Converted from 24.2250 cents at 15.025 psia.
[11] The proposed rate is accepted as of July 1, 1974, insofar as it relates to sales from the Canyon Formation and is suspended in docket No. RI74-70 until July 2, 1974, insofar as it relates to sales from the Atoka and Morrow formations.
[12] Not used.
[13] Not used.
[14] Amends prior rate increase to 30.5642¢/Mcf and 42.1575¢/Mcf currently suspended in docket No. RI73-269 to show that the 42.15.75-cent rate applies only to the Devonian and Wolfcamp Formation production and the 42.1575-cent rate applies to all other production under the contract.
[15] Applicable to all production under the related contract except from the Wolfcamp and Devonian Formations.
[16] Applicable to production from the Wolfcamp and Devonian Formations.
[17] Agreement defining a "new reservoir" and providing that all such "new reservoirs" will be subject to an agreement dated May 1, 1973.
[18] No current production.
[19] Or the date of initial delivery whichever is later pursuant to opinion No. 699.
[20] Applicable to production pursuant to supplement No. 15.
[21] Accepted to become effective as of the date set forth in the "Effective date unless suspended" column.

The proposed rates of Atlantic, Continental and Sun do not exceed the national rate, as adjusted, prescribed in Opinion No. 699, and they are accepted.

With respect to Skelly's proposed increases under its FPC Gas Rate Schedule No. 48, one is accepted because it does not exceed the applicable ceiling established in Opinion No. 662 and the other is suspended for five months because it does exceed such ceiling. Skelly's tax increase under its FPC Gas Rate Schedule No. 265 is suspended for one day inasmuch as the underlying rate, which exceeds the ceiling in Opinion No. 662, is in effect subject to refund.

Union's increases are accepted insofar as they do not exceed the Opinion No. 662 ceiling and suspended for five months insofar as they exceed such ceiling.

Phillips' tax increase is accepted insofar as it relates to sales from the Canyon Formation because the rate does not exceed the ceiling in Opinion No. 662 and is suspended until July 2, 1974 insofar as it relates to sales from the Morrow and Atoka Formations because it exceeds the applicable ceiling under Opinion No. 662.

Texaco has filed a corrective increase to reflect that the 42.1575¢ per Mcf rate currently under suspension until August 14, 1974, in Docket No. RI73-269 applies only to certain production and that the remaining production should receive a lesser rate of 30.5642¢ rate. Texaco's corrective increase will be suspended until August 14, 1974, in the existing suspension proceeding.

In regard to any sale of natural gas for which the proposed increased rate is filed under the provisions of Opinion No. 699, issued June 21, 1974, in Docket No. R-389-B, no part of the proposed rate increase above the prior applicable area ceiling rate may be made effective until the seller submits a statement in writing demonstrating that Opinion No. 699 is applicable to the particular increased rate filing, in whole or in part. The proposed increased rates for which such support shall have been satisfactorily demonstrated prior to September 23, 1974, will be made effective as of June 21, 1974.

TARIFF COMMISSION

[AA1921-105A]

NORTHERN BLEACHED KRAFT PULP HARDWOOD FROM CANADA

Investigation and Hearing

Having received on June 26, 1974, advice from the Treasury Department that it affirms its determination that prime-grade and off-grade northern bleached hardwood kraft pulp from Canada is being and is likely to be sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended, published in the FEDERAL REGISTER of June 28, 1974 (39 FR 24032), the United States Tariff Commission has instituted an investigation to determine whether, if the finding of dumping were revoked, an industry in the United States would be or would likely be injured by reason of the importation of such pulp into the United States.

Hearing. A public hearing in connection with the investigation will be held in the Tariff Commission's Hearing Room, Tariff Commission Building, 8th and E Streets, NW., Washington, D.C., beginning at 10 a.m., E.D.T. on August 6, 1974. All parties will be given an opportunity to be present, to produce evidence, and to be heard at such hearing. Requests to appear at the public hearing should be received by the Secretary of the Tariff Commission, in writing, at its offices in Washington, D.C., not later than noon, August 1, 1974.

By order of the Commission.

Issued: July 9, 1974.

G. PATRICK HENRY,
Acting Secretary.

VETERANS ADMINISTRATION

STATION COMMITTEE ON EDUCATIONAL ALLOWANCES

Notice of Meeting

Notice is hereby given pursuant to section V, Review Procedure and Hearing Rules, Station Committee on Educational Allowances that on July 31, 1974, at 10 a.m., the Indianapolis Regional Office Station Committee on Educational Allowances shall at 36 South Pennsylvania Street, Indianapolis, Indiana, conduct a hearing to determine whether Veterans Administration benefits to all eligible persons enrolled in United Systems, Inc., 1600 West Oliver Avenue, Indianapolis, Indiana, should be discontinued, as provided in 38 CFR 21.4134, because a requirement of law is not being met or a provision of the law has been violated. All interested persons shall be permitted to attend, appear before, or file statements with the committee at that time and place.

Dated: July 1, 1974.

JAMES D. CROWE,
Director, Veterans Administration Regional Office, 36 South Pennsylvania Street, Indianapolis, IN 46204.

DEPARTMENT OF LABOR

Office of Federal Contract Compliance

PORT OF OAKLAND

Approval of Affirmative Action Plan and Opportunity for Appeal Regarding Public Work Projects

1. *Background.* 41 CFR 60-1.4(b)(2) (39 FR 2365, January 21, 1974) prescribes procedures whereby State and local governments intending to impose affirmative action hiring and/or training requirements on federally assisted construction already subject to federal minority hiring and/or training plans established pursuant to Executive Order 11246, as amended, shall submit such requirements to the Director of the Office of Federal Contract Compliance. Such State and local requirements will be deemed applicable to federally assisted construction contracts unless the OFCC Director, or in the case of an appeal of the Director's determination, the Assistant Secretary for Employment Standards, determines that such requirements are inconsistent with the order or incompatible with the effective implementation of the federal minority hiring and/or training plan (either voluntary or imposed) in the area.

Pursuant to 41 CFR 60-1.4(b)(2), on April 26, 1974, the Port of Oakland submitted its Affirmative Action Provisions for Public Works Projects to the OFCC Director. The Port of Oakland Affirmative Action Provisions for Public Works Projects are applicable to all construction work performed under contracts with the Port of Oakland. These Affirmative Action Provisions were adopted by the Board of Port Commissioners on February 14, 1973. In relevant part, the Port of Oakland Affirmative Action Provisions for Public Works Projects require 46 percent minority participation on all construction contracts awarded by the Port until June 30, 1974. After that date minority utilization must be at least 50 percent. The Affirmative Action Provisions require contractors and subcontractors to submit weekly payroll records for all crafts covered by the Provisions and a monthly cumulative summary of project manhours on a craft-by-craft basis, which identifies the percentage of manhours worked by minorities and nonminorities. Penalty for failing to submit these reports is the withholding

of partial or monthly progress payments until such reports are received.

The Affirmative Action Provisions provide for a review of contractors' and subcontractors' employment practices during the performance of their contracts. If a contractor or subcontractor meets his goals he is presumed to be in compliance with the Affirmative Action Provisions. Where the Port of Oakland finds that a contractor or subcontractor has failed to comply with the requirements of the Affirmative Action Provisions, the Port will take such action and impose such sanctions as may be appropriate. When the Port proceeds with formal action, it has the burden of proving that the contractor has not met the minority hiring goals of the Affirmative Action Provisions, but the contractor's or subcontractor's failure to meet his goals shall shift to him the requirement to come forward with evidence to show that he has met the good faith requirements of the Affirmative Action Provisions by instituting at least the Specific Affirmative Action Steps listed in the Provisions. If the contractor or subcontractor can, however, demonstrate a good faith attempt to meet the requirements of the Affirmative Action Provisions, he will be relieved of his default even though he did not meet such requirements.

Sanctions for noncompliance with the requirements of the Affirmative Action Provisions include cancellation or suspension of the contract in whole or in part with continuance thereof conditioned upon a satisfactory showing to the Port of Oakland of the contractor's or subcontractor's ability to comply. Another sanction for noncompliance is the imposition of a monetary penalty not to exceed $1,000 or 1 percent of the amount of the contract, whichever is less, for each working day of noncompliance. In addition, the contractor or subcontractor may be declared ineligible for further Port contracts. Finally, the Port may impose any other sanction which it has under the Port's Affirmative Action Provisions or by operation of law.

Copies of the Port of Oakland Affirmative Action Provisions for Public Works Projects may be obtained from the Port of Oakland, 66 Jack London Square, P.O. Box 2064, Oakland, California 94607, or Philip J. Davis, Director, Office of Federal Contract Compliance, U.S. Department of Labor, 14th & Constitution Avenue NW., Washington, D.C. 20210.

2. *Decision.* After careful review of the Port of Oakland Affirmative Action Provisions for Public Works Projects, in accordance with the provisions of 41 CFR 60–1.4(b)(2), I have determined that the Port's Affirmative Action Provisions are not inconsistent with Executive Order 11246, as amended, and not incompatible with the implementation of the federal Alameda Plan. Accordingly, I have approved the Port of Oakland Affirmative Action Provisions for Public Works Projects and the Port may include such requirements in federally assisted construction contracts.

3. *Rights of Appeal.* On Monday, June 24, 1974, in accordance with 41 CFR 60–1.4(b)(2), I communicated my determination to Mr. Ben E. Nutter, Executive Director of the Board of Port Commissioners, Port of Oakland by registered mail return receipt requested.

Pursuant to 41 CFR 60–1.4(b)(2), any persons or groups affected by my determination, including construction contractors, labor organizations, associations or other organizations of construction trades contractors and/or labor organizations, and minority community groups, may appeal this determination to Mr. Bernard E. DeLury, Assistant Secretary for Employment Standards, 14th Street and Constitution Avenue NW., Washington, D.C. 20210, by requesting a hearing within 21 days of the publication of this FEDERAL REGISTER notice. Following this appeal period, if any requests for a hearing have been filed with the Assistant Secretary, the Department of Labor shall then designate an administrative law judge who shall conduct a hearing to make proposed findings and a recommended decision to the Assistance Secretary upon the basis of the record before him. The administrative law judge shall give reasonable notice of the opportunity to participate in such hearing by registered mail, return receipt requested, to those requesting the hearing and shall also give reasonable notice of such hearing in the FEDERAL REGISTER to inform all other persons, organizations and other entities affected by my determination of their opportunity to participate in the hearing. Each participant shall have the right to counsel and a fair opportunity to present his case, including such cross-examination as the administrative law judge may deem appropriate in the circumstances. Within 80 days of the close of the appeal period for requesting a hearing, the Assistant Secretary shall make a final decision on the basis of the record before him, which shall consist of the record for recommended decision, the rulings and recommended decision of the administrative law judge, and the exceptions and briefs filed subsequent to the administrative law judge's decision.

Signed at Washington, D.C. this 8th day of July 1974.

PHILIP J. DAVIS,
Director, Office of Federal Contract Compliance.

CITY OF OAKLAND

Approval of Affirmative Action Plan and Opportunity for Appeal Regarding Public Work Contracts

1. *Background.* 41 CFR 60–1.4(b)(2) (39 FR 2365, January 21, 1974) prescribes procedures whereby State and local governments intending to impose affirmative action hiring and/or training requirements on federally assisted construction already subject to federal minority hiring and/or training plans established pursuant to Executive Order 11246, as amended, shall submit such requirements to the Director of the Office of Federal Contract Compliance. Such State and local requirements will be deemed applicable to federally assisted construction contracts unless the OFCC Director, or in the case of an appeal of the Director's determination, the Assistant Secretary for Employment Standards, determines that such requirements are inconsistent with the Order or incompatible with the effective implementation of the federal minority hiring and/or training plan (either voluntarily or imposed) in the area.

Pursuant to 41 CFR 60–1.4(b)(2), on May 6, 1974, the City of Oakland submitted its Affirmative Action Provisions for Public Works Contracts to the OFCC Director. The City of Oakland Affirmative Action Provisions for Public Works Contracts are applicable to all construction work performed under contracts with the City of Oakland. These Affirmative Action Provisions were adopted by the Council of the City of Oakland on July 11, 1972. In relevant part, the City of Oakland Affirmative Action Provisions for Public Contracts require 46 percent minority participation on all construction contracts awarded by the City until June 30, 1974. After that date minority utilization must be at least 50 percent. The Affirmative Action Provisions require contractors and subcontractors to submit weekly payroll records for all crafts covered by the Provisions and a monthly cumulative summary of project manhours on a craft-by-craft basis, which identifies the percentage of manhours worked by minorities and nonminorities.

The Affirmative Action Provisions provide for a review of contractors' and subcontractors' employment practices during the performance of their contracts. If a contractor or subcontractor meets his goals he is presumed to be in compliance with the Affirmative Action Provisions. Where the City of Oakland finds that a contractor or subcontractor has failed to comply with the requirements of the Affirmative Action Provisions, the City will take such action and impose such sanctions as may be appropriate. When the City proceeds with formal action, it has the burden of proving that the contractor has not met the minority hiring goals of the Affirmative Action Provisions, but the contractor's or subcontractor's failure to meet his goals shall shift to him the requirement to come forward with evidence to show that he has met the good faith requirements of the Affirmative Action Provisions by instituting at least the Specific Affirmative Action Steps listed in the Provisions. If the contractor or subcontractor can, however, demonstrate a good faith attempt to meet the requirements of the Affirmative Action Provisions, he will be relieved of his default even though he did not meet such requirements.

Sanctions for noncompliance with the requirements of the Affirmative Action Provisions include cancellation or suspension of the contract in whole or in part with continuance thereof conditioned upon a satisfactory showing to the City of Oakland of the contractor's or subcontractor's ability to comply. Another sanction for noncompliance is the

imposition of a monetary penalty not to exceed $1,000 or 1 percent of the amount of the contract, whichever is less, for each working day of noncompliance. In addition, the contractor or subcontractor may be declared ineligible for further City contracts. Finally, the City may impose any other sanction which it has under the City's Affirmative Action Provisions or by operation of law.

Copies of the City of Oakland Affirmative Action Provisions for Public Works Contracts may be obtained from the City of Oakland, 14th and Washington Streets, Oakland, California 94612, or Philip J. Davis, Director, Office of Federal Contract Compliance, U.S. Department of Labor, 14th & Constitution Avenue NW., Washington, D.C. 20210.

2. *Decision.* After careful review of the City of Oakland Affirmative Action Provisions for Public Works Contracts, in accordance with the provisions of 41 CFR 60–1.4(b)(2), I have determined that the City's Affirmative Action Provisions are not inconsistent with Executive Order 11246, as amended, and not incompatible with the implementation of the Federal Alameda Plan. Accordingly, I have approved the City of Oakland Affirmation Action Provisions for Public Works Contracts and the City may include such requirements in federally assisted construction contracts.

3. *Rights of Appeal.* On Friday, July 5, 1974, in accordance with 41 CFR 60–1.4(b)(2), I communicated my determination to Mr. Cecil S. Riley, City Manager, City of Oakland by registered mail return receipt requested.

Pursuant to 41 CFR 60–1.4(b)(2), any persons or groups affected by my determination, including construction contractors, labor organizations, associations or other organizations of construction trades contractors and/or labor organizations, and minority community groups, may appeal this determination to Mr. Bernard E. DeLury, Assistant Secretary for Employment Standards, 14th Street and Constitution Avenue NW., Washington, D.C. 20210, by requesting a hearing within 21 days of the publication of this FEDERAL REGISTER notice. Following this appeal period, if any requests for a hearing have been filed with the Assistant Secretary, the Department of Labor shall then designate an administrative law judge who shall conduct a hearing to make proposed findings and a recommended decision to the Assistant Secretary upon the basis of the record before him. The administrative law judge shall give reasonable notice of the opportunity to participate in such hearing by registered mail, return receipt requested, to those requesting the hearing and shall also give reasonable notice of such hearing in the FEDERAL REGISTER to inform all other persons, organizations and other entities affected by my determination of their opportunity to participate in the hearing. Each participant shall have the right to counsel and a fair opportunity to present his case, including such cross-examination as the administrative law judge may deem appropriate in the circumstances. Within 80 days of the close of the appeal period for requesting a hearing, the Assistant Secretary shall make a final decision on the basis of the record before him, which shall consist of the record for recommended decision, the rulings and recommended decision of the administrative law judge, and the exceptions and briefs filed subsequent to the administrative law judge's decision.

Signed at Washington, D.C., this 8th day of July 1974.

PHILIP J. DAVIS,
Director, Office of Federal Contract Compliance.

Occupational Safety and Health Administration

TEXAS DEVELOPMENTAL PLAN

Informal Hearing

On March 27, 1973 (38 FR 9024), notice was published of the submission, pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) and 29 CFR 1902.11, and availability for public comment of the Occupational Safety and Health Plan for the State of Texas. Several changes were made in the plan subsequent to this notice and a notice of modifications was published in the FEDERAL REGISTER on March 6, 1974 (39 FR 8688). Substantive public comments were received pursuant to this notice, and a hearing was requested by numerous organizations.

In view of the necessity for the widest information on the various aspects of the Texas State Plan, the Assistant Secretary for Occupational Safety and Health hereby gives notice under 29 CFR 1902.11(e) that an informal hearing will be held on the plan on August 7, 1974, commencing at 9:30 AM (CDT). Interested persons are invited to present orally data, views, or arguments concerning the plan and the issues presented thereby at the informal hearing. The informal hearing will be held in the Joe C. Thompson Conference Center, University of Texas at Austin, Room 2–102, Austin, Texas 78712.

Beginning at 9:30 AM on August 7, 1974, the administrative law judge will hold a brief prehearing conference in order to establish the order and time for the presentation of statements and settle any other matters which may be relevant to the disposition of the hearing. The informal hearing will begin at the close of the prehearing conference.

Interested persons desiring to appear at the informal hearing shall file in writing a notice of intention to appear with the Associate Assistant Secretary for Regional Programs, Room 850, 1726 M Street NW., Washington, D.C. 20210. The notice of intention to appear (original and two copies) must be filed no later than July 26, 1974. The notice must state the name and address of the person to appear, and the approximate amount of time required for his presentation. The notice must also include, or be accompanied by, a statement of the position to be taken with regard to the plan and of the evidence to be adduced in support of the position. The use of prepared statements by witnesses is encouraged. All documents intended to be submitted for the record at the hearing should be submitted in duplicate.

The informal hearing will be conducted in accordance with 5 U.S.C. 556 and 557 by an administrative law judge to be appointed pursuant to 5 U.S.C. 3105. The presiding administrative law judge is empowered to:

(1) Rule upon procedural requests, objections, and other procedural matters;

(2) Regulate the course of the hearing and the presentation of oral data, views, or arguments concerning the plan.

The hearing will be reported verbatim, and transcripts will be available for inspection to any interested person on such conditions as the presiding administrative law judge may prescribe. The judge will have discretion to keep the record of the hearing open for a reasonable stated time to receive written recommendations, and additional data, views, and arguments from any person who has participated in the oral proceeding. Within a reasonable time following the close of the record the administrative law judge shall certify the complete record, including the transcript of the hearing, all exhibits filed during the hearing, all written submissions on the proposed rules, and any posthearing presentations to the Assistant Secretary of Labor for Occupational Safety and Health for his decision.

The Assistant Secretary of Labor for Occupational Safety and Health shall thereafter consider all relevant comments and arguments presented in his decision on the Plan.

Signed at Washington, D.C., this 8th day of July, 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74–16047 Filed 7–11–74;8:45 am]

Office of the Secretary

NEW YORK STATE DEPARTMENT OF LABOR

Notice of Hearing

Whereas, Pub. L. 91–373, 84 Stat. 695, an Act cited as the "Employment Security Amendments of 1970" and approved August 10, 1970, amended the Federal Unemployment Tax Act in the Internal Revenue Code of 1954; and

Whereas, section 3304(a)(6)(A) of the Internal Revenue Code of 1954 was amended by section 104(a) of the "Employment Security Amendments of 1970" by redesignating paragraph (6) thereof as paragraph (13) and by inserting after paragraph (5) thereof a new paragraph (6)(A) reading as follows:

SEC. 3304. *Approval of State Laws*—(a) *Requirements.* The Secretary of Labor shall approve any State law submitted to him,

within 30 days of such submission, which he finds provides that—

* * * * *

(6)(A) Compensation is payable on the basis of service to which section 3309(a)(1) applies, in the same amount, on the same terms, and subject to the same conditions as compensation payable on the basis of other service subject to such law; except that, with respect to service in an instructional, research, or principal administrative capacity for an institution of higher education to which section 3309(a)(1) applies, compensation shall not be payable based on such service for any week commencing during the period between two successive academic years (or, when the contract provides instead for a similar period between two regular but not successive terms, during such period) to any individual who has a contract to perform services in any such capacity for any institution or institutions of higher education for both of such academic years or both of such terms; and

Whereas, section 104(d) of the "Employment Security Amendments of 1970" provides that the amendment made by subsection (a) of section 104, adding paragraph (6)(A) to section 3304(a) of the Internal Revenue Code of 1954, shall apply with respect to certifications of State laws for 1972 and subsequent years, but only with respect to service performed after December 31, 1971; except that such section 3304(a)(6)(A) shall not be a requirement for the State law of any State prior to July 1, 1972, if the legislature of the State does not meet in a regular session which closes during the calendar year 1971; and

Whereas, section 3304(a) of the Internal Revenue Code of 1954 was amended by section 108(a) of the "Employment Security Amendments of 1970" by adding after paragraph (11) thereof a new paragraph (12) reading as follows:

SEC. 3304. *Approval of State Laws*—(a) *Requirements.* The Secretary of Labor shall approve any State law submitted to him, within 30 days of such submission, which he finds provides that—

* * * * *

(12) each political subdivision of the State shall have the right to elect to have compensation payable to employees thereof (whose services are not otherwise subject to such law) based on service performed by such employees in the hospitals and institutions of higher education (as defined in section 3309(d)) operated by such political subdivision; and, if any such political subdivision does elect to have compensation payable to such employees thereof (A) the political subdivision shall pay into the State unemployment fund, with respect to the service of such employees, payments (in lieu of contributions), and (B) such employees will be entitled to receive, on the basis of such service, compensation payable on the same basis, in the same amount, on the same terms, and subject to the same conditions as compensation which is payable on the basis of similar service for the State which is subject to such law; and

Whereas, section 108(b) of the "Employment Security Amendments of 1970" provides that the amendment made by subsection (a) of section 108, adding paragraph (12) to section 3304(a) of the Internal Revenue Code of 1954, shall apply with respect to certifications of State laws for 1972 and subsequent years, except that such section 3304(a)(12) shall not be a requirement for the State law of any State prior to July 1, 1972, if the legislature of the State does not meet in a regular session which closes during the calendar year 1971, or prior to January 1, 1975, if compliance with the requirement would necessitate a change in the constitution of the State; and

Whereas, section 3304(c) of the Internal Revenue Code of 1954, as amended by sections 131(b)(2) and 142(f) of the "Employment Security Amendments of 1970", provides:

(c) *Certification.* On October 31 of each taxable year the Secretary of Labor shall certify to the Secretary each State whose law he has previously approved, except that he shall not certify any State which, after reasonable notice and opportunity for hearing to the State agency, the Secretary of Labor finds has amended its law so that it no longer contains the provisions specified in subsection (a) or has with respect to the 12-month period ending on such October 31 failed to comply substantially with any such provision in such subsection. No finding of a failure to comply substantially with any provision in paragraph (5) of section (a) shall be based on an application or interpretation of State law (1) until all administrative review provided for under the laws of the State has been exhausted, or (2) with respect to which the time for judicial review provided by the laws of the State has not expired, or (3) with respect to which any judicial review is pending. On October 31 of any taxable year after 1971, the Secretary shall not certify any State which, after reasonable notice and opportunity for hearing to the State agency, the Secretary of Labor finds has failed to amend its law so that it contains each of the provisions required by reason of the enactment of the Employment Security Amendments of 1970 to be included therein, or has with respect to the 12-month period (10-month period in the case of October 31, 1972) ending on such October 31, failed to comply substantially with any such provision; and

Whereas, section 142(i) of the "Employment Security Amendments of 1970" provides that the amendments made by section 142 shall apply to the taxable year 1972 and taxable years thereafter; and

Whereas, section 104(b)(1) of the "Employment Security Amendments of 1970" amended Chapter 23 of the Internal Revenue Code of 1954 by redesignating section 3309 as section 3311 and inserting after section 3308 a new section 3309 reading as follows:

SEC. 3309. *State Law Coverage of Certain Services Performed for Nonprofit Organizations and for State Hospitals and Institutions of Higher Education*—(a) *State Law Requirements.* For purposes of section 3304(A)(6)—

(1) Except as otherwise provided in subsections (b) and (c), the services to which this paragraph applies are—

(A) Service excluded from the term "employment" solely by reason of paragraph (8) of section 3306(c), and

(B) Service performed in the employ of the State, or any instrumentality of the State or of the State and one or more other States, for a hospital or institution of higher education located in the State, if such service is excluded from the term "employment" solely by reason of paragraph (7) of section 3306(c); and

(2) The State law shall provide that an organization (or group of organizations) which, but for the requirements of this paragraph, would be liable for contributions with respect to service to which paragraph (1)(A) applies may elect, for such minimum period and at such time as may be provided by State law, to pay (in lieu of such contributions) into the State unemployment fund amounts equal to the amounts of compensation attributable under the State law to such service. The State law may provide safeguards to ensure that organizations so electing will make the payments required under such elections.

(b) *Section Not To Apply To Certain Service.*—This section shall not apply to service performed—

(1) In the employ of (A) a church or convention or association of churches, or (B) an organization which is operated primarily for religious purposes and which is operated, supervised, controlled, or principally supported by a church or convention or association of churches;

(2) By a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry or by a member of a religious order in the exercise of duties required by such order;

(3) In the employ of a school which is not an institution of higher education;

(4) In a facility conducted for the purpose of carrying out a program of—

(A) Rehabilitation for individuals whose earning capacity is impaired by age or physical or mental deficiency or injury, or

(B) Providing remunerative work for individuals who because of their impaired physical or mental capacity cannot be readily absorbed in the competitive labor market,

by an individual receiving such rehabilitation or remunerative work;

(5) As part of an unemployment work-relief or work-training program assisted or financed in whole or in part by any Federal agency or an agency of a State or political subdivision thereof, by an individual receiving such work relief or work training; and

(6) For a hospital in a State prison or other State correctional institution by an inmate of the prison or State correctional institution.

(c) *Nonprofit Organizations Must Employ 4 or More.* This section shall not apply to service performed during any calendar year in the employ of any organization unless on each of some 20 days during such calendar year or the preceding calendar year, each day being in a different calendar week, the total number of individuals who were employed by such organization in employment (determined without regard to section 3306(c)(8) and by excluding service to which this section does not apply by reason of subsection (b)) for some portion of the day (whether or not at the same moment of time) was 4 or more.

(d) *Definition of Institution of Higher Education.* For purposes of this section, the term "institution of higher education" means an educational institution in any State which—

(1) Admits as regular students only individuals having a certificate of graduation from a high school, or the recognized equivalent of such a certificate;

(2) Is legally authorized within such State to provide a program of education beyond high school;

(3) Provides an educational program for which it awards a bachelor's or higher degree, or provides a program which is acceptable for full credit toward such a degree, or offers a program of training to prepare stu-

dents for gainful employment in a recognized occupation; and

(4) Is a public or other nonprofit institution; and

Whereas, section 3306(c) of the Internal Revenue Code of 1954, provides:

SEC. 3306. *Definitions.* (c) *Employment.* For purposes of this chapter, the term "employment" means any service performed prior to 1955, which was employment for purposes of subchapter C of chapter 9 of the Internal Revenue Code of 1939 under the law applicable to the period in which such service was performed, and (A) any service, of whatever nature, performed after 1954 by an employee for the person employing him, irrespective of the citizenship or residence of either, (i) within the United States, or (ii) on or in connection with an American vessel or American aircraft under a contract of service which is entered into within the United States or during the performance of which and while the employee is employed on the vessel or aircraft it touches at a port in the United States, if the employee is employed on and in connection with such vessel or aircraft when outside the United States, and (B) any service, of whatever nature, performed after 1971 outside the United States (except in a contiguous country with which the United States has an agreement relating to unemployment compensation or in the Virgin Islands) by a citizen of the United States as an employee of an American employer (as defined in subsection (j)(3)), except—

(1) Agricultural labor (as defined in subsection (k));

(2) Domestic service in a private home, local college club, or local chapter of a college fraternity or sorority;

(3) Service not in the course of the employer's trade or business performed in any calendar quarter by an employee, unless the cash remuneration paid for such service is $50 or more and such service is performed by an individual who is regularly employed by such employer to perform such service. For purposes of this paragraph, an individual shall be deemed to be regularly employed by an employer during a calendar quarter only if—

(A) On each of some 24 days during such quarter such individual performs for such employer for some portion of the day service not in the course of the employer's trade or business, or

(B) Such individual was regularly employed (as determined under subparagraph (A)) by such employer in the performance of such service during the preceding calendar quarter;

(4) Service performed on or in connection with a vessel or aircraft not an American vessel or American aircraft, if the employee is employed on and in connection with such vessel or aircraft when outside the United States;

(5) Service performed by an individual in the employ of his son, daughter, or spouse, and service performed by a child under the age of 21 in the employ of his father or mother;

(6) Service performed in the employ of the United States Government or of an instrumentality of the United States which is—

(A) Wholly or partially owned by the United States, or

(B) Exempt from the tax imposed by section 3301 by virtue of any provision of law which specifically refers to such section (or the corresponding section of prior law) in granting such exemption;

(7) Service performed in the employ of a State, or any political subdivision thereof, or any instrumentality of any one or more of the foregoing which is wholly owned by one or more States or political subdivisions; and any service performed in the employ of any instrumentality of one or more States or political subdivisions to the extent that the instrumentality is, with respect to such service, immune under the Constitution of the United States from the tax imposed by section 3301;

(8) Service performed in the employ of a religious, charitable, educational, or other organization described in section 501(c)(3) which is exempt from income tax under section 501(a);

(9) Service performed by an individual as an employee or employee representative as defined in section 1 of the Railroad Unemployment Insurance Act (52 Stat. 1094, 1095 (45 U.S.C. 351));

(10)(A) Service performed in any calendar quarter in the employ of any organization exempt from income tax under section 501(a) (other than an organization described in section 401(a)) or under section 521, if the remuneration for such service is less than $50, or

(B) Service performed in the employ of a school, college, or university, if such service is performed (i) by a student who is enrolled and is regularly attending classes at such school, college, or university, or (ii) by the spouse of such a student, if such spouse is advised, at the time such spouse commences to perform such service, that (I) the employment of such spouse to perform such service is provided under a program to provide financial assistance to such student by such school, college, or university, and (II) such employment will not be covered by any program of unemployment insurance, or

(C) Service performed by an individual under the age of 22 who is enrolled at a nonprofit or public educational institution which normally maintains a regular faculty and curriculum and normally has a regularly organized body of students in attendance at the place where its educational activities are carried on as a student in a full-time program, taken for credit at such institution, which combines academic instruction with work experience, if such service is an integral part of such program, and such institution has so certified to the employer, except that this subparagraph shall not apply to service performed in a program established for or on behalf of an employer or group of employers, or

(D) Service performed in the employ of a hospital, if such service is performed by a patient of such hospital;

(11) Service performed in the employ of a foreign government (including service as a consular or other officer or employee or a nondiplomatic representative);

(12) Service performed in the employ of an instrumentality wholly owned by a foreign government—

(A) If the service is of a character similar to that performed in foreign countries by employees of the United States Government or of an instrumentality thereof; and

(B) If the Secretary of State shall certify to the Secretary that the foreign government, with respect to whose instrumentality exemption is claimed, grants an equivalent exemption with respect to similar service performed in the foreign country by employees of the United States Government and of instrumentalities thereof;

(13) Service performed as a student nurse in the employ of a hospital or a nurses' training school by an individual who is enrolled and is regularly attending classes in a nurses' training school chartered or approved pursuant to State law; and service performed as an intern in the employ of a hospital by an individual who has completed a 4 years' course in a medical school chartered or approved pursuant to State law;

(14) Service performed by an individual for a person as an insurance agent or as an insurance solicitor, if all such service performed by such individual for such person is performed for remuneration solely by way of commission;

(15)(A) Service performed by an individual under the age of 18 in the delivery or distribution of newspapers or shopping news, not including delivery or distribution to any point for subsequent delivery or distribution;

(B) Service performed by an individual in, and at the time of, the sale of newspapers or magazines to ultimate consumers, under an arrangement under which the newspapers or magazines are to be sold by him at a fixed price, his compensation being based on the retention of the excess of such price over the amount at which the newspapers or magazines are charged to him, whether or not he is guaranteed a minimum amount of compensation for such service, or is entitled to be credited with the unsold newspapers or magazines turned back;

(16) Service performed in the employ of an international organization;

(17) Service performed by an individual in (or as an officer or member of the crew of a vessel while it is engaged in) the catching, taking, harvesting, cultivating, or farming of any kind of fish, shellfish, crustacea, sponges, seaweeds, or other aquatic forms of animal and vegetable life (including service performed by any such individual as an ordinary incident to any such activity), except—

(A) Service performed in connection with the catching or taking of salmon or halibut, for commercial purposes, and

(B) Service performed on or in connection with a vessel of more than 10 net tons (determined in the manner provided for determining the register tonnage of merchant vessels under the laws of the United States); or

(18) Service which is performed by a nonresident alien individual for the period he is temporarily present in the United States as a nonimmigrant under subparagraph (F) or (J) of section 101(a)(15) of the Immigration and Nationality Act, as amended, and which is performed to carry out the purpose specified in subparagraph (F) or (J), as the case may be; and

Whereas, paragraph (a) of subdivision 1 of section 511 of the New York Unemployment Insurance Law provides that "Employment" means (a) any service under any contract of employment for hire, express or implied, written, or oral; and

Whereas, section 512 of the New York Unemployment Insurance Law provides:

SEC. 512. "Employer" includes the State of New York and any person, partnership, firm, association, public or private, domestic or foreign corporation, the legal representatives of a deceased person, or the receiver, trustee, or successor of a person, partnership, firm, association, public or private, domestic or foreign corporation; and

Whereas, subdivision 4 of section 561 of the New York Unemployment Insurance Law, added by Ch. 1027, L. 1971, effective January 1, 1972, provides:

4. Any municipal corporation or other governmental subdivision may, with respect to persons employed in hospitals and institutions of education operated by it and with exclusions from the term "employment" as they apply to services for State hospitals and

State educational institutions, elect to become liable for payments in lieu of contributions, either as provided in subdivision five of section five hundred sixty-three or by payments equivalent to contributions required of other employers liable therefor, as of the first day of any calendar quarter by filing with the commissioner an application to such effect, provided the application is filed before the first day of the calendar quarter to which the election is to apply. The election may exclude persons employed in institutions which are not institutions of higher education or persons engaged in a teaching or other professional capacity at an educational institution which is not an institution of higher education; and

Whereas, subdivisions 1, 2 and 3 of section 563 of the New York Unemployment Insurance Law, as amended by Ch. 1027, L. 1971, effective January 1, 1972, provide:

SEC. 563. 1. A "non-profit organization" shall mean any corporation, unincorporated association, comunity chest, fund, or foundation organized and operated exclusively for religious, charitable, scientific, literary or educational purposes, no part of the net earnings of which inures to the benefit of any private shareholder or individual.

2. In addition to services not included pursuant to the provisions of section five hundred eleven, the term "employment" does not include services rendered for a non-profit organization by

(a) A duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry, or by a member of a religious order in the exercise of duties required by such order,

(b) A lay member elected or appointed to an office within the discipline of a bona fide church and engaged in religious functions;

(c) A person employed at a place of religious worship as a caretaker or for the performance of duties of a religious nature, or both;

(d) A person who

(1) Receives rehabilitative services in a facility conducted for the purpose of carrying out a program or rehabilitation for individuals whose earning capacity is impaired by age or physical or mental deficiency or injury or

(2) Is given remunerative work in a facility conducted for the purpose of providing such work for persons who cannot be readily absorbed in the competitive labor market because of their impaired physical or mental capacity;

(e) A person engaged in a teaching or other professional capacity at an educational institution which is not an institution of higher education.

3. Notwithstanding the provisions of sections five hundred sixty and five hundred sixty-two, a non-profit organization

(a) Shall become liable for contributions under this article

(1) If it has paid cash remuneration of one thousand dollars or more in any calendar quarter and such liability shall commence on the first day of such quarter or

(2) If it has employed four or more persons on each of twenty days during a calendar year or the preceding calendar year, each day being in a different calendar week, and the liability shall in this event commence on the first day of the calendar year, and

(b) Shall cease to be liable for contributions as of the first day of a calendar quarter next following the filing of a written application to this effect provided the Commissioner finds that

(1) It has not paid cash remuneration of sons on each of twenty days during the four calendar quarters preceding such day and

(2) Has not employed four or more persons on each of twenty days during their current or the preceding calendar year, each day being a different week; and

Whereas, subdivisions 8, 9, 13, and 14 of section 511 of the New York Unemployment Insurance Law provide:

8. The term "employment" does not include service as a golf caddy.

9. The term "employment" does not include service during all or any part of the school year or regular vacation periods as a part-time worker of any person actually in regular attendance during the day time as a student in an elementary or secondary school.

13. The term "employment" does not include services of a minor engaged in casual labor consisting of yard work and household chores in and about a residence or the premises of a non-profit, non-commercial organization, not involving the use of power-driven machinery.

14. The term "employment" does not include service by a child under the age of fourteen years; and

Whereas, subdivision 16 of section 511 of the New York Unemployment Insurance Law, added by Ch. 1027, L. 1971, effective January 1, 1972, provides:

16. The exclusions described in subdivisions eight, nine, twelve, thirteen and fourteen shall apply to services performed for a nonprofit organization as defined in section five hundred sixty-three or for a State educational institution or State hospital, but if the Secretary of Labor of the United States finds that such exclusions do not meet the requirements of the federal unemployment tax act, such exclusions shall not thereafter apply to such services performed for such organization, institution, or hospital, unless and until such finding has been set aside pursuant to a final decision issued in accordance with such judicial review proceedings as may be instituted and completed under the provisions of section thirty-three hundred ten of the federal unemployment tax act; and

Whereas, in the light of the exclusions from employment of the services described in subdivisions 8, 9, 13, and 14 of section 511 of the New York Unemployment Insurance Law, a question is presented whether the State of New York has failed to amend its unemployment insurance law so that it contains each of the provisions required by reason of the enactment of the "Employment Security Amendments of 1970" to be included therein, or has with respect to the 12-month period ending on October 31, 1974, failed to comply substantially with any such provision; and

Whereas, pursuant to section 3304(d) of the Internal Revenue Code of 1954, as amended by section 142(g) of the "Employment Security Amendments of 1970", the Governor of the State of New York was notified by letter May 16, 1974, that the Unemployment Insurance Law of New York may not be certified under subsection (c) of section 3304 of the Internal Revenue Code of 1954 on October 31, 1974; and

Whereas, pursuant to section 3304(c) of the Internal Revenue Code of 1954, as amended by sections 131(b)(2) and 142(f) of the "Employment Security Amendment of 1970", the Industrial Commissioner of the New York State Department of Labor was notified by letter dated May 16, 1974, that the Secretary of Labor will proceed to make a finding as to whether the State of New York has failed to amend its Unemployment insurance law so that it contains each of the provisions required by reason of the enactment of the "Employment Security Amendments of 1970" to be included therein, or has with respect to the 12-month period ending on October 31, 1974, failed to comply substantially with such provisions; and

Whereas, pursuant to section 3304(c) of the Internal Revenue Code of 1954, the Industrial Commissioner of the New York State Department of Labor was informed by said letter dated May 16, 1974, that on request made within 2 weeks of the date of said letter the New York State Department of Labor will be given an opportunity for a hearing on the issue stated in said letter; and

Whereas, the New York State Department of Labor, by letter from the Industrial Commissioner dated May 28, 1974, has requested a hearing;

Now, therefore, pursuant to the third sentence of section 3304(c) of the Internal Revenue Code of 1954, notice is hereby given that a hearing will be held beginning at 10 o'clock in the morning on July 30, 1974, in the courtroom in Suite 720, Vanguard Building, 1111 20th Street, NW., Washington, D.C., on the question of whether the State of New York has failed to amend its unemployment insurance law so that it contains each of the provisions required by reason of the enactment of the "Employment Security Amendments of 1970" to be included therein, specifically sections 3304 (a)(6)(A) and 3304 (a)(12) of the Internal Revenue Code of 1954, as added by the amendments made by section 104 (a) and section 108(a) of the "Employment Security Amendments of 1970", or has with respect to the 12-month period ending on October 31, 1974, failed to comply substantially with such provisions. Upon the basis of the evidence and legal arguments adduced at such hearing it will be determined whether or not the State of New York may be certified to the Secretary of the Treasury on October 31, 1974, in accordance with section 3304(c) of the Internal Revenue Code of 1954.

The proceedings in this matter will be conducted in accordance with the following rules:

(1) An Administrative Law Judge will be designated by the Chief Administrative Law Judge, United States Department of Labor, to preside over the hearing and perform the functions required by these rules.

(2) The parties of record shall be the New York State Department of Labor and the United States Department of Labor.

(3) Any individual worker or employer and any organization or association of workers, employers, or the public having an interest in these proceedings may be permitted by the presiding Administrative Law Judge to participate in these proceedings. Participation by any such interested person shall be

limited to the presentation of oral argument as provided in paragraph (10) below and to the submittal of a brief as provided in paragraph (11) below. Any person may apply for permission to participate in these proceedings as an interested person by filing in the office of the Chief Administrative Law Judge, United States Department of Labor, Room 720, Vanguard Building, 1111 20th Street, NW., Washington, D.C. 20036, a written or telegraphic request setting forth his name and address and the name and address of any person or group whom he represents.

(4) The hearing will be conducted in an informal but orderly and expeditious manner. The presiding Administrative Law Judge will regulate all matters pertaining to the course and conduct of the proceedings.

(5) The representative of the United States Department of Labor will make an opening statement as to the nature of the hearing and the matters in issue. The representative of the New York State Department of Labor then will be offered an opportunity to make an opening statement.

(6) The parties of record shall have the opportunity to present oral and documentary evidence, and cross-examine witnesses, with the United States Department of Labor proceeding first. Technical rules of evidence shall not apply. The presiding Administrative Law Judge will rule upon offers of proof and the admissibility of evidence, and receive all relevant evidence. He may exclude irrelevant, immaterial, or unduly repetitious evidence, and may examine witnesses. All written statements, charts, tabulations, and similar data offered in evidence at the hearing shall, upon a showing satisfactory to the presiding Administrative Law Judge of their authenticity, relevancy, and materiality, be received in evidence.

(7) During the hearing the presiding Administrative Law Judge may require the production and introduction of further evidence upon any matter. After the hearing is closed no further evidence shall be taken except at the direction of the Secretary of Labor, unless provision has been made at the hearing for the later receipt of such evidence for the record. If the Secretary of Labor directs that further evidence be taken, due and reasonable notice of the time and place of the reopened hearing shall be given to the parties of record and any interested person permitted to participate in the proceedings.

(8) The proceedings at the hearing shall be recorded verbatim. Copies of the transcript of the record of hearing may be obtained by the parties of record and any interested person permitted to participate in the proceedings at cost.

(9) When any document is received in evidence, one additional copy thereof shall be submitted to the presiding Administrative Law Judge.

(10) At the conclusion of the receipt of evidence the presiding Administrative Law Judge shall hear oral argument presented by the parties of record and interested persons permitted to participate in the proceedings. Oral arguments shall be in the following order: Opening argument for the United States Department of Labor, unless waived; opening argument for the New York State Department of Labor, unless waived; argument of each of the interested persons who wish to present oral argument, in such order as the presiding Administrative Law Judge shall determine; closing argument for the New York State Department of Labor, unless waived; and closing argument for the United States Department of Labor, unless waived. Oral argument by an interested person shall not be longer than 30 minutes. All oral arguments shall be transcribed and made a part of the record.

(11) The parties of record and any interested person permitted to participate in these proceedings shall be permitted to file a brief on the matters in issue. The presiding Administrative Law Judge will forward to each party of record a copy of any brief filed by the other party of record, and a copy of any brief filed by an interested person. The briefs referred to above shall be filed with the presiding Administrative Law Judge (at the address stated in paragraph (3) above) not later than 21 days after the transcript of the hearing is available. Reply briefs shall be filed in the same place by the parties of record not later than 40 days after the transcript of the hearing is available, if the filing of reply briefs is requested or approved by the presiding Administrative Law Judge. Parties of record shall submit two copies with the original of any brief filed. Interested persons shall submit three copies with the original of any brief filed.

(12) Proposed findings of fact and conclusions of law, together with supporting reasons therefor, may be submitted to the presiding Administrative Law Judge by any party of record, within 21 days after the transcript of the hearing is available, or within 40 days after the transcript of the hearing is available if reply briefs have been requested or approved by the presiding Administrative Law Judge. An original and two copies of proposed findings of fact and conclusions of law shall be filed, one copy of which will be forwarded by the presiding Administrative Law Judge to the other party of record.

(13) After the time has expired for the filing of briefs and proposed findings of fact and conclusions of law the presiding Administrative Law Judge shall prepare a proposed recommended decision containing his findings of fact and conclusions of law. Copies of the presiding Administrative Law Judge's proposed recommended decision shall be mailed to the parties of record who may, within 20 days after such decision was mailed to them, file with the presiding Administrative Law Judge in an original and two copies, a statement in writing setting forth any exceptions they may have to the proposed recommended decision. The presiding Administrative Law Judge will forward to each party of record a copy of any statement filed by the other party of record, and any party to whom such a copy is furnished may file with the presiding Administrative Law Judge a response to such statement not later than 13 days after the copy was mailed to the party. Three copies shall be submitted with the original of any response filed, one copy of which will be forwarded by the presiding Administrative Law Judge to the other party of record.

(14) The presiding Administrative Law Judge, with due consideration of the exceptions and responses filed by the parties of record in accordance with paragraph (13) above, shall prepare a recommended decision containing his findings of fact and conclusions of law. He shall promptly certify to the Secretary of Labor his recommended decision and the entire record of the proceedings, and forward copies of his recommended decision to the parties of record.

(15) Following the certification to him in accordance with paragraph (14) above the Secretary of Labor shall render his decision in the matter, in writing, and shall cause the parties of record and the interested parties permitted to participate in the proceedings to be notified thereof.

(16) Briefs and other papers required to be filed by the parties of record with the presiding Administrative Law Judge by paragraphs (11), (12), and (13) above, shall be deemed to be filed on the date they are postmarked if they are transmitted by the United States Postal Service, and shall be deemed to be filed on the date they are received in the office of the presiding Administrative Law Judge if they are transmitted by other means. If the last day of a time prescribed in paragraph (11), (12), or (13) falls on a Saturday, Sunday, or a Federal legal holiday, the time limit shall be extended to the next official business day.

Signed at Washington, D.C., this 8th day of July 1974.

PETER J. BRENNAN,
Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

Office of Hearings

[Notice No. 549]

ASSIGNMENT OF HEARINGS

JULY 9, 1974.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previouly assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are noti-

fied of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after July 12, 1974.

MC 2229 Sub-180, Red Ball Motor Freight, Inc., is continued to September 10, 1974 (2 weeks), at the Delta Towers Hotel, 1732 Canal Street, New Orleans, La.; and then continued to September 23, 1974 (1 week), at the Rodeway Inn, 1500 Government Street, Mobile, Alabama.

MC-C-8255, Kroblin Refrigerated Xpress, Inc.—Investigation and Revocation of Certificate—now assigned October 31, 1974, at Omaha, Nebraska, is cancelled.

I&S-M-27312, Restructured Rates and Charges, Central States Territory, and I&S-M-27312 Sub 2, Restructured Rates and Charges Indiana Motor Rate and Tariff Bureau, now assigned July 9, 1974, at Washington, D.C., is postponed to August 13, 1974, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-C-8314, F. Randolph Jones, James H. Reese, and Virginia Homes Manufacturing Corporation—Investigation of Operations and Practices—now assigned July 17, 1974, at Washington, D.C., postponed to September 17, 1974, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-4963 Sub 45, Alleghany Corp., d.b.a. Jones Motor, application is dismissed.

MC-C-7901, North American Van Lines, Inc.—Investigation and Revocation of Certificates, now assigned prehearing conference July 23, 1974, at Washington, D.C., is postponed indefinitely.

MC-128215 Sub 15, Martin Trailer Toters, Inc., now being assigned hearing September 4, 1974 (3 days), at Baton Rouge, La., in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD, *Secretary.*

FOURTH SECTION APPLICATION FOR RELIEF

JULY 9, 1974.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before July 29, 1974.

FSA No. 42845—*Chemicals between points in Texas, Louisiana, and Michigan; also Louisiana and Texas to Sarnia, Ontario, Canada.* Filed by Southwestern Freight Bureau, Agent (No. B-471), for interested rail carriers. Rates on chemicals, in tank-car loads, as described in the application, between points in Louisiana and Texas, on the one hand, and Bay City and Midland, Michigan, on the other; also from points in Louisiana and Texas, to Sarnia, Ontario, Canada.

Grounds for relief—Market competition.

Tariff—Supplement 12 to Southwestern Freight Bureau, Agent, tariff 12-I, I.C.C. No. 5132. Rates are published to become effective on August 4, 1974.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

IRREGULAR-ROUTE PROPERTY CARRIERS

Elimination of Gateway Letter Notices

JULY 8, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before July 22, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC-2860 (Sub-No. E62), filed May 17, 1974. Applicant: NATIONAL FREIGHT, INC., 57 Westpark Avenue, Vineland, N.J. 08360. Applicant's representative: Jacob P. Billig, 1126 16th Street NW., Suite 300, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities, in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in that part of New York on and north of a line beginning at New York-Pennsylvania State line, thence along New York Highway 34 to junction New York Highway 224, thence along New York Highway 224 to junction New York Highway 54, thence along New York Highway 54 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction New York Highway 63, thence along New York Highway 63 to junction New York Highway 36, thence along New York Highway 36 to junction U.S. Alternate Highway 20, thence along U.S. Alternate Highway 20 to junction New York Highway 16, thence along New York Highway 16 to Lake Erie, on the one hand, and, on the other, points in Delaware and that part of Maryland east of U.S. Highway 1, north of a line beginning at the District of Columbia-Maryland State line, thence along U.S. Highway 50 to junction Maryland Highway 450, thence along Maryland Highway 450 to the Chesapeake Bay, and west of the Chesapeake Bay. The purpose of this filing is to eliminate the gateway of Wilmington, Del.

No. MC-2860 (Sub-No. E64), filed May 17, 1974. Applicant: NATIONAL FREIGHT, INC., 57 Westpark Avenue, Vineland, N.J. 08360. Applicant's representative: Jacob P. Billig, 1126 16th Street NW., Suite 300, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Pennsylvania, on the one hand, and, on the other, points in that part of Delaware on and south of Delaware Highway 273. The purpose of this filing is to eliminate the gateway of Wilmington, Del.

No. MC-2860 (Sub-No. E65), filed May 17, 1974. Applicant: NATIONAL FREIGHT, INC., 57 Westpark Avenue, Vineland, N.J. 08360. Applicant's representative: Jacob B. Billig, 1126 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in that part of Pennsylvania on and north of a line beginning at the Pennsylvania-New Jersey State line, thence along U.S. Highway 442, to junction Pennsylvania Highway 100, thence along Pennsylvania Highway 100 to junction Pennsylvania Highway 309, thence along Pennsylvania Highway 309 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Pennsylvania-New York State line, on the one hand, and, on the other, points in that part of Maryland east of U.S. Highway 1, north of a line beginning at the District of Columbia-Maryland State line, thence along U.S. Highway 50 to junction Maryland Highway 450, thence along Maryland Highway 450 to the Chesapeake Bay, and west of the Chesapeake Bay. The purpose of this filing is to eliminate the gateway of Wilmington, Del.

No. MC-11207 (Sub-No. E7), filed May 20, 1974. Applicant: DEATON, INC., P.O. Box 938, Birmingham, Ala. 35201. Applicant's representative: C. N. Knox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel, and iron and steel articles* (except commodities because of size and weight require the use of special equipment), from New Orleans, La., to points in Kentucky, North Carolina, and South Carolina. The purpose of this fil-

ing is to eliminate the gateway of Birmingham, Ala.

No. MC–15641 (Sub-No. E1), filed May 21, 1974. Applicant: DEMARIO MOVING & STORAGE, INC., 144 Raff Road SW., Canton, Ohio 44710. Applicant's representative: James R. Stiverson, 50 West Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Stark County, Ohio, on the one hand, and, on the other, (1) points in Connecticut, Georgia, Iowa, Kansas, Kentucky, Maryland, Minnesota, North Carolina, South Carolina, Tennessee, Virginia, and Wisconsin [points in Cuyahoga County, Ohio],* and (2) points in New Jersey [points in Lorain County, Ohio].* The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC–16831 (Sub-No. E2), filed April 15, 1974. Applicant: MID SEVEN TRANSPORTATION COMPANY, 2323 Delaware Avenue, Des Moines, Iowa. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Structural steel, steel forgings, steel sheets, strips, and plates, steel lathing and grounds, wrought pipe, iron and steel bolts, and nuts, steel washers, steel forms* used and unused for concrete construction, *steel tubing, steel rings*, rough, *reinforced bars, steel stampings, steel bars*, round and flat, *steel wire, steel rivets, steel welding rods, and steel screws* (except those which by reason of their size or weight require the use of special equipment or special handling), from the plant sites and warehouses of the Kankakee Electric Steel Company, Swanson Manufacturing Company, and Jones and McKnight, Inc., in Kankakee County, Ill., to points in South Dakota, Kansas (except Cherokee County), and those in Minnesota in and west of the following counties: Lake of the Woods, Beltrami, Cass, Crow Wing, Mille Lacs, Sherburne, Wright, Carver, Scott, Rice, Steele, and Freeborn; restricted to traffic originating at the plant sites and warehouses specified. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC–16831 (Sub-No. E3), filed April 15, 1974. Applicant: MID SEVEN TRANSPORTATION COMPANY, 2323 Delaware Avenue, Des Moines, Iowa. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Structural steel, steel forgings, steel sheet, strips, and plates, steel lathing and grounds, wrought pipe, iron and steel bolts, and nuts, steel washers, steel forms* used and unused for concrete construction, *steel tubing, steel rings*, rough, *reinformed bars, steel stampings, steel bars*, round and flat, *steel wire, steel rivets, steel welding rods, and steel screws* (except in bulk), from the plant site of Jones & Laughlin Steel Corporation, located in Putnam County, Ill., to points in Kansas, Nebraska, and South Dakota, and points in Minnesota in and west of Lake of the Woods, Beltrami, Cass, Crow Wing, Mille Lacs, Sherburne, Wright, Carver, Scott, Le Sueur, Waseca, and Faribault Counties, restricted to the transportation of traffic originating at the named origins and destinations. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC–59934 (Sub-No. E1), filed May 28, 1974. Applicant: MAIN TRUCKING & RIGGING CO., INC., P.O. Box 236, Elmwood Park, N.J. 07407. Applicant's representative: William D. Traub, 10 East 40th Street, New York, N.Y. 10016. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel, structural steel, building materials, exhibits, displays, and advertising matter, machinery, and electrical appliances*, the transportation of which, because of size or weight, requires the use of special equipment, (1) between points in Pennsylvania within 75 miles of Trenton, N.J., on the one hand, and, on the other, points in Rhode Island; (2) between points in Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., on the one hand, and, on the other, points in that part of New York on and east of U.S. Highway 81; (3) between points in Lehigh County, Pa., on the one hand, and, on the other, New York, N.Y., and points in Nassau, Suffolk, and Westchester Counties, N.Y.; (4) between points in Monroe County, Pa., within 75 miles of Trenton, N.J., on the one hand, and, on the other, points in Atlantic, Cape May, Cumberland, and Salem Counties, N.J.; and (5) between points in Berks, Lancaster, and Lebanon Counties, Pa., within 75 miles of Trenton, N.J., on the one hand, and, on the other, points in Bergen, Essex, Hudson, Middlesex, Monmouth, Morris, Passaic, Somerset, and Union Counties, N.J., and points in that part of New York on and east of U.S. Highway 87. The purpose of this filing is to eliminate the gateway of Trenton, N.J.

No. MC–60186 (Sub-No. E1), filed May 14, 1974. Applicant: NELSON FREIGHTWAYS, INC., P.O. Box 356, Rockville, Conn. 06066. Applicant's representative: Edward G. Villalon, Suite 1032, Pennsylvania Building, Pennsylvania Avenue and 13th Street NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading);

Proposal 1: (a) Between points in Aroostook and Washington Counties, Maine, on the one hand, and, on the other, points in Delaware, Maryland, Pennsylvania, and Allegany, Broome, Cattaraugus, Cayuga, Chautauqua, Chemung, Chenango, Columbia, Cortland, Delaware, Dutchess, Erie, Genesee, Greene, Livingston, Madison, Monroe, Niagara, Oneida, Onondaga, Ontario, Orange, Orleans, Oswego, Otsego, Putnam, Rockland, Schuyler, Seneca, Steuben, Sullivan, Tioga, Tompkins, Ulster, Wayne, Wyoming, and Yates Counties, N.Y., and the District of Columbia; (b) between points in Maine (except points in Aroostook and Washington Counties), on the one hand, and, on the other, points in Delaware, Maryland, and Allegany, Broome, Cattaraugus, Chautauqua, Chemug, Dutchess, Erie, Niagara, Orange, Putnam, Rockland, Schuyler, Steuben, Sullivan, Tioga, Tompkins, and Ulster Counties, N.Y., and the District of Columbia. The purpose of the filing of this proposal is to eliminate the gateways of Billerica, Mass., and points in Fairfield County, Conn.

Proposal 2: Between points in Connecticut, on the one hand, and, on the other, points in Maine and Belknap, Carroll, Coos, Rockingham, and Stratford Counties, N.H. The purpose of the filing of this proposal is to eliminate the gateway of Billerica, Mass.

Proposal 3: Between points in Ayer, Billerica, Fall River, Fitchburg, Gardner, Greenfield, Lawrence, Lowell, Lunenburg, Monroe, North Adams, Pittsfield, Sherwsbury, and Worcester County, Mass., on the one hand, and, on the other, points in Delaware, Maryland, Pennsylvania (except points in Bradford, Crawford, Erie, McKean, Potter, Susquenhanna, Tioga, Warren, and Wayne Counties), and the District of Columbia. The purpose of the filing of this proposal is to eliminate the gateway points in Fairfield County, Conn.

Proposal 4: Between points on and west of New York Highway 112 in Nassau and Suffolk Counties, N.Y., on the one hand, and, on the other, points in Allegany, Anne Arundel, Baltimore, Calvert, Caroline, Carroll, Charles, Dorchester, Frederick, Garrett, Howard, Montgomery, Prince Georges, St. Marys, Somerset, Talbot, Washington, Wicomico, and Worcester Counties, Md., Adams, Allegheny, Armstrong, Beaver, Bedford, Blair, Bradford, Butler, Cambria, Cameron, Centre, Clarion, Clearfield, Clinton, Columbia, Crawford, Cumberland, Elk, Erie, Fayette, Forest, Franklin, Fulton, Greene, Huntingdon, Indiana, Jefferson, Juniata, Lawrence, Lycoming, McKean, Mercer, Mifflin, Montour, Northumberland, Perry, Potter, Snyder, Somerset, Sullivan, Susquehanna, Tioga, Union, Venango, Warren, Washington, Westmoreland, and Wyoming Counties, Pa., and Kent and Sussex Counties, Del., and the District of Columbia.

Proposal 5: Between points in Westchester County, N.Y., on the one hand, and, on the other, points in Delaware, Maryland, and Adams, Allegheny, Armstrong, Beaver, Bedford, Berks, Blair, Bucks, Butler, Cambria, Cameron, Centre, Chester, Clarion, Clearfield, Clinton, Crawford, Cumberland, Dauphin, Dela-

ware, Elk, Erie, Fayette, Forest, Franklin, Fulton, Greene, Huntingdon, Indiana, Jefferson, Juniata, Lancaster, Lawrence, Lebanon, Lehigh, McKean, Mercer, Mifflin, Montgomery, Northumberland, Perry, Philadelphia, Potter, Schuylkill, Somerset, Snyder, Union, Venango, Warren, Washington, Westmoreland, and York Counties, Pa., and the District of Columbia. The purpose of the filing of proposals 4 and 5 is to eliminate the gateway points in Fairfield County, Conn.

Proposal 6: Between points in Belknap, Carroll, Coos, Hillsborough, Merrimack, Rockingham, and Strafford Counties, N.H., on the one hand, and, on the other, points in Delaware, Maryland, and Pennsylvania (except Adams, Allegheny, Armstrong, Beaver, Bedford, Berks, Blair, Bucks, Butler, Cambria, Cameron, Carbon, Centre, Chester, Clarion, Clearfield, Clinton, Columbia, Cumberland, Dauphin, Delaware, Elk, Fayette, Forest, Franklin, Fulton, Greene, Huntingdon, Indiana, Jefferson, Juniata, Lancaster, Lawrence, Lebanon, Lehigh, Luzerne, Lycoming, Mercer, Mifflin, Montgomery, Montour, Northampton, Northumberland, Perry, Philadelphia, Schuylkill, Snyder, Somerset, Sullivan, Union, Venango, Washington, Westmoreland, and York Counties) and the District of Columbia. The purpose of the filing of this proposal is to eliminate the gateways of Billerica, Mass., and points in Fairfield County, Conn.

Proposal 7: Between points in Belknap, Hillsborough, Merrimack, Rockingham, and Strafford Counties, N.H., on the one hand, and, on the other, points in Allegany, Broome, Cattaraugus, Chautauqua, Chemung, Dutchess, Orange, Putnam, Rockland, Steuben, Sullivan and Tioga Counties, N.Y. The purpose of the filing of this proposal is to eliminate the gateways of Billerica, Mass., and points in Fairfield, Conn.

No. MC–65941 (Sub-No. E5), filed April 10, 1974. Applicant: TOWER LINES, INC., P.O. Box 6010, Wheeling, W. Va. 26003. Applicant's representative: George V. Thieroff (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Oil, grease, paper, roofing, metal and clay products, and supplies used or useful in the production and packing of metal and clay products;* and (2) *building stone, structural steel, heavy machinery and equipment*, between points in that part of West Virginia bounded by a line beginning at Kenova, W. Va., and extending along U.S. Highway 60 to Charleston, thence along U.S. Highway 119 to the West Virginia-Pennsylvania State line, thence along the West Virginia-Pennsylvania State line to U.S. Highway 30, thence along U.S. Highway 30 to West Virginia Highway 2 to West Virginia Secondary Highway 3, thence along West Virginia Secondary Highway 3 to West Virginia Highway 66, thence along West Virginia Highway 66 to U.S. Highway 30, thence along U.S. Highway 30 to the West Virginia-Ohio State line, thence along the West Virginia-Ohio State line to point of beginning, including points on the indicated portions of U.S. Highways 60 and 119, but not on the indicated portions of the other highways specified on the one hand, and, on the other, points in Ohio, those in West Virginia, north of U.S. Highway 60, and those in Pennsylvania west of U.S. Highway 219, including points on the indicated portions of the highways specified (except points in (1) Lawrence County, Pa., Ashtabula, Trumbull, Mahoning, Summit, Portage, Medina, Lorain, Cuyahoga, Lake, Geauga, Columbiana, Stark, Wayne, Huron, and Erie Counties, Ohio; (2) between Butler County, Pa., and Ashtabula, Trumbull, Mahoning, Portage, Lake, and Geauga Counties, Ohio; (3) points in Pennsylvania and Jefferson, Morgan, and Berkeley Counties, W. Va.; (4) Allegheny, Armstrong, Fayette, Greene, Washington, Westmoreland, Butler, and Beaver Counties, Pa., and Preston County, W. Va.; (5) Allegheny, Armstrong, Fayette, Greene, Washington, Westmoreland, and Butler Counties, Pa., and Hardy, Grant, Tucker, Randolph, Barbour, and Taylor Counties, W. Va.; (6) Allegheny, Armstrong, Fayette, Greene, Washington, Westmoreland Counties, Pa., and Hampshire, Upshur, and Mineral Counties, W. Va.; (7) Allegheny, Fayette, Greene, Washington, and Westmoreland Counties, Pa., and Lewis County, W. Va.; (8) Fayette, Greene, Armstrong, and Westmoreland Counties, Pa., and Pendleton and Pocahontas Counties, W. Va.; (9) Fayette, Westmoreland, and Greene Counties, Pa., and Webster, Greenbrier, Braxton, and Gilmer Counties, W. Va.; (10) Fayette and Greene Counties, Pa., and Nicholas and Calhoun Counties, W. Va.; (11) Fayette County, Pa., and Roane and Clay Counties, W. Va.; (12) Beaver County, Pa., and Mahoning County, Ohio; and (13). Armstrong County, Pa., and Ashtabula, Mahoning, and Trumbull Counties, Ohio). The purpose of this filing is to eliminate the gateways of points in Belmont, Jefferson, and Columbiana Counties, Ohio, within 15 miles of the Ohio River, and those in Hancock, Brooke, Ohio, and Marshall Counties, W. Va.

No. MC–73165 (Sub-No. E37), filed May 28, 1974. Applicant: EAGLE MOTOR LINES, INCORPORATED, P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* (except those which because of size or weight require the use of special equipment), from points in Arkansas on and south of Interstate Highway 40 to points in Virginia. The purpose of this filing is to eliminate the gateways of Florence and Birmingham, Ala.

No. MC–74321 (Sub-No. E9), filed May 31, 1974. Applicant: B. F. WALKER, INC., P.O. Box 17–B, Denver, Colo. 80217. Applicant's representative: Richard P. Kissinger (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery and equipment* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, and *materials and supplies* (except sulphur) used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, between points in Wyoming on the one hand, and, on the other, points in Louisiana and Oklahoma, restricted to the transportation of shipments of materials and supplies moving to or from exploration, drilling, production, job, construction, and plant sites, including refining, manufacturing, and processing plant or storage sites. The purpose of this filing is to eliminate the gateway of points in Texas.

No. MC–74321 (Sub-No. E10), filed May 23, 1974. Applicant: B. F. WALKER, INC., P.O. Box 17B, Denver, Colorado 80217. Applicant's representative: Richard P. Kissinger (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, equipment, materials, and supplies* used in, or in connection with the construction, operating, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof (except the stringing and picking up of pipe in connection with main pipe lines), between points in Louisiana, on the one hand, and, on the other, points in Utah, Wyoming, and Montana. The purpose of this filing is to eliminate the gateway of points in Texas.

No. MC–76177 (Sub-No. E42), filed April 15, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32d Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives, and blasting supplies*, from points in Ohio and West Virginia to points in Missouri both south of U.S. Highway 36 and north of Interstate Highway 44. The purpose of this filing is to eliminate the gateway of Grafton, Ill.

No. MC–76177 (Sub-No. E43), filed April 15, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32d Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, between points in Delaware north of Delaware Highway 16, on the one hand, and, on the other,

points in Florida. The purpose of this filing is to eliminate the gateway of points within 15 miles of both Allentown and Reynolds, Pa.

No. MC-76177 (Sub-No. E44), filed April 15, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32d Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Kansas to points in New York east of Interstate Highway 81. The purpose of this filing is to eliminate the gateways of Wolf Lake, Ill., and between the storage magazines of the Trojan-U.S. Powder, Division of Commercial Solvents Corp., located at the itnersection of West Virginia Highway 62 and White Church Road near Point Pleasant (Mason County), W. Va.

No. MC-76177 (Sub-No. E45), filed April 15, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32d Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Montana to points in West Virginia. The purpose of this filing is to eliminate the gateway of Wolf Lake, Ill.

No. MC-88368 (Sub-No. E15), filed May 15, 1974. Applicant: CARTWRIGHT VAN LINES, INC., 1109 Cartwright Avenue, Grandview, Mo. 64030. Applicant's representative: Theodore Polydoroff, Suite 600, 1250 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, from points in Kentucky to Harlan, Iowa, and points in Iowa within 15 miles thereof (Bloomington, Ill., and points within 25 miles thereof) *, points in Montana (Bloomington, Ill., Newton, Kans., and points within 15 miles thereof, points in Kimball, Banner, and Cheyenne Counties, Nebr., and points in Wyoming) *, points in Oregon (Bloomington, Ill., and points within 25 miles thereof, Newton, Kans., and points within 15 miles thereof, points in Colorado, and points in Washington east of the Cascade Mountains) *, and points in Washington (Bloomington, Ill., points in Indiana and Wyoming, Harlan, Iowa, and points within 15 miles thereof, and points in Kimball, Banner, and Cheyenne Counties, Nebr.) *, from points in Harlan County, Ky., to points in Arkansas (Florence, Sheffield, and Tuscumbia, Ala.) *, points in Connecticut (points in Jefferson County, Ohio, and Philadelphia, Pa.) *, points in Florida (points in Georgia bounded by a line beginning at the Georgia-Florida State line, and extending along U.S. Highway 1 to Waycross, Ga., thence along U.S. Highway 82 to Albany, Ga., thence along U.S. Highway 3 through Banconton, Camilla, and Pelham, to Thomasville, Ga., thence along U.S. Highway 19 to the Georgia-Florida State line and thence along the Georgia-Florida State line to junction U.S. Highway 1, the point of beginning) *, points in Illinois within 100 miles of Danville, Ill., including Danville (Bloomington, Ill., and points within 25 miles thereof) *, points in Iowa (Bloomington, Ill., and points within 25 miles thereof) *, points in Louisiana (Birmingham, Ala., and points within 100 miles of Birmingham except Montgomery, Ala.) *, points in Maine (points in Jefferson County, Ohio, Philadelphia, Pa., and Boston, Mass., and points within 25 miles thereof) *, points in Massachusetts (points in Jefferson County, Ohio, and Philadelphia, Pa.) *, points in Mississippi (Birmingham, Ala., and points in Alabama within 100 miles of Birmingham except Montgomery, Ala.) *, points in New Jersey (points in Jefferson County, Ohio, and Philadelphia, Pa.) *, points in Pennsylvania (points in Jefferson County, Ohio) *, points in Rhode Island (points in Jefferson County, Ohio, Philadelphia, Pa., and Boston, Mass., and points within 25 miles thereof) *, points in South Dakota (Bloomington, Ill., and points within 25 miles thereof and Harlan, Iowa, and points within 15 miles thereof) *, points in Vermont (points in Jefferson County, Ohio, Philadelphia, Pa., and Boston, Mass., and points within 25 miles thereof) *, and points in Wisconsin (points in Indiana within 100 miles of Danville, Ill., and Bloomington, Ill., and points within 25 miles thereof) *. The purpose of this filing is to eliminate the gateways marked with asterisks above.

No. MC-95540 (Sub-No. E207), filed April 28, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Road, NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen citrus products*, from points in Florida on and south of a line beginning at Daytona Beach, and extending along Interstate 4 to Tampa, thence along Florida Highway 60 to Clearwater, to points in Maryland on and north of a line beginning at the Maryland-Pennsylvania State line and extending along Maryland Highway 194 to its junction with Maryland Highway 26, thence along Maryland Highway 26 to Baltimore, thence along Maryland Highway 2 to its junction with U.S. Highway 301, thence along U.S. Highway 301 to the Maryland-Delaware State line. The purpose of this filing is to eliminate the gateway of Bridgeton, N.J.

No. MC-95540 (Sub-No. E619), filed May 6, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Road, NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen edible packinghouse and dairy products, eggs, and poultry*, from Moultrie, Ga., to points in Pennsylvania. The purpose of this filing is to eliminate the gateway of Rocky Mount, N.C.

No. MC-95540 (Sub-No. E622), filed May 6, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Road, NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from Lexington, Nebr., to points in Mississippi. The purpose of this filing is to eliminate the gateway of Humboldt or Union City, Tenn.

No. MC-95540 (Sub-No. E625), filed May 6, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Road, NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen edible packinghouse and dairy products, eggs, and poultry*, from Moultrie, Ga., to points in New York. The purpose of this filing is to eliminate the gateway of Rocky Mount, N.C.

No. MC-95540 (Sub-No. E640), filed May 8, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, 5299 Roswell Rd. NE., Suite 212, Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and dairy products* as described in Sections A and B of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Denver, Colo., to points in Georgia. The purpose of this filing is to eliminate the gateway of points in Iowa in the Omaha, Nebr., commercial zone.

No. MC-95540 (Sub-No. E641), filed May 8, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, 5299 Roswell Rd. NE., Suite 212, Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and dairy products* as described in Sections A and B of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Denver, Colo., to points in South Carolina. The purpose of this fil-

ing is to eliminate the gateway of points in Iowa in the Omaha, Nebr., commercial zone.

No. MC–95540 (Sub-No. E642), filed May 13, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, 5299 Roswell Rd. NE., Suite 212, Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from the plantsites and storage facilities utilized by Oscar Mayer & Company, Inc., at Madison, Wis., to points in Louisiana, restricted the transportation of traffic originating at the above-named plantsites and storage facilities. The purpose of this filing is to eliminate the gateway of Humboldt or Union City, Tenn.

No. MC–95540 (Sub-No. E643), filed May 13, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Gainesville, Ga., to points in Colorado, Montana, Nevada, Idaho, North Dakota, Wyoming, Washington, Oregon, South Dakota, and Utah. The purpose of this filing is to eliminate the gateway of points in Tennessee (except Memphis and points in its commercial zone).

No. MC–95540 (Sub-No. E645), filed May 13, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box, 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, 5299 Roswell Rd., NE., Suite 212, Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from Gulfport, Miss., to points in Pennsylvania, New York, New Jersey, Maryland, and the District of Columbia. The purpose of this filing is to eliminate the gateway of points in Florida (except Pensacola).

No. MC–107496 (Sub-No. E1), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oil*, in bulk, in tank vehicles, from Sidney, Nebr., to points in Kentucky. The purpose of this filing is to eliminate the gateway of the plantsite of Ashland Chemical Co., at Valley Park, Mo.

No. MC–107496 (Sub-No. E127), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Phosphoric acid*, in bulk, in tank vehicles, from Lawrence, Kans., to points in South Dakota. The purpose of this filing is to eliminate the gateway of Fremont, Nebr.

No. MC–107496 (Sub-No. E128), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemical coal tar products*, in bulk, from St. Paul, Minn., to points in Indiana. The purpose of this filing is to eliminate the gateway of the plantsite of Hawkeye Chemical Co., at or near Clinton, Iowa.

No. MC–107496 (Sub-No. E129), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils*, in bulk, in tank vehicles, from points in Minnesota on and north of Minnesota Highway 14 to all points in Nebraska (except those north of U.S. Highway 26 and west of Nebraska Highway 61). The purpose of this filing is to eliminate the gateway of Mankato, Minn.

No. MC–107496 (Sub-No. E130), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer*, in bulk, in tank vehicles, from Milton Junction, Wisc., to points in Missouri. The purpose of this filing is to eliminate the gateway of the plantsite of Apple River Chemical Co., at E. Dubuque, Ill.

No. MC–107496 (Sub-No. E 131), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as described in Appendix XIII to the report in Ex Parte No. MC 45, *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 706, in bulk, in tank vehicles, from Madison, Wisc., and points within 15 miles thereof to points in Scott, Clinton, Louisa, and Muscantine Counties, Iowa. The purpose of this filing is to eliminate the gateway of Rochelle, Ill., and points within 10 miles thereof.

No. MC–107496 (Sub-No. E 132), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer*, in bulk, in tank vehicles, from Milton Junction, Wisc., to points in Kansas. The purpose of this filing is to eliminate the gateway of the plantsite of Apple River Chemical Co., at or near East Dubuque, Ill.

No. MC–107496 (Sub-No. E133), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk, from Madison, Wis., to points in Kentucky. The purpose of this filing is to eliminate the gateway of the plant or distribution terminal sites of Dundee Cement Company, at or near Rock Island, Ill.

No. MC–107496 (Sub-No. E134), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk, from Madison, Wis., to points in Oklahoma. The purpose of this filing is to eliminate the gateway of the plant or distribution terminal sites of Dundee Cement Company, located at or near Rock Island, Ill.

No. MC–95540 (Sub-No. E645), filed May 13, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, 5299 Roswell Rd., NE., Suite 212, Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from Gulfport, Miss., to points in Pennsylvania, New York, New Jersey, Maryland, and the District of Columbia. The purpose of this filing is to eliminate the gateway of points in Florida (except Pensacola).

No. MC–107496 (Sub-No. E137), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petrochemicals*, in bulk, in tank vehicles, from Fulton, Ill., and points within five miles of Fulton to points in Ohio. The purpose of this filing is to eliminate the gateway of the plantsite of the Hawkeye Chemical Company at or near Clinton, Iowa.

No. MC–107496 (Sub-No. E138), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid animal feed supplements*, in bulk, in tank vehicles, from Morrill, Nebr., to points in Lea, Roosevelt, and Curry Counties, N. Mex.

The purpose of this filing is to eliminate the gateway of Leoti, Kans.

No. MC–107496 (Sub-No. E139), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid fertilizer in bulk, in tank vehicles, from Milton Junction, Wis., to points in Nebraska. The purpose of this filing is to eliminate the gateway of the plantsite of Apple River Chemical Company at or near East Dubuque, Ill.

No. MC–107496 (Sub-No. E140), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Tulsa, Okla., to points in South Dakota. The purpose of this filing is to eliminate the gateway of the Kaneb Pipeline terminal near Geneva, Nebr.

No. MC–107496 (Sub-No. E141), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petrochemicals*, in bulk, in tank vehicles, from Tulsa, Okla., to points in North Dakota. The purpose of this filing is to eliminate the gateway of Fremont, Nebr.

No. MC–107496 (Sub-No. E142), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous products*, in bulk, in tank vehicles, from Tulsa, Okla., to points in Minnesota. The purpose of this filing is to eliminate the gateway of the terminal of Kaneb Pipeline Company at or near Milford, Iowa.

No. MC–107496 (Sub-No. E143), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia, nitrogen fertilizer solution, and aqua ammonia*, in bulk, in tank vehicles, from Tonkawa, Okla., to points in North Dakota (except points south of North Dakota Highway 23 and west of North Dakota Highway 8). The purpose of this filing is to eliminate the gateway of Military, Kans.

No. MC–107496 (Sub-No. E 144), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Tulsa, Okla., to points in Wyoming. The purpose of this filing is to eliminate the gateway of points in Nebraska west of U.S. Highway 83.

No. MC–107496 (Sub-No. E 145), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia and fertilizer solutions*, in bulk, in tank vehicles, and *dry fertilizer*, from the plant and warehouse sites of Nitrin, Inc., at or near Cordova, Ill., to points in Colorado. The purpose of this filing is to eliminate the gateway of the plantsite of Cominco Products, Inc., about 6 miles northwest of Beatrice, Nebr.

No. MC–107496 (Sub-No. E146), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Phosphatic fertilizer solutions*, in bulk, in tank vehicles, from Marseilles, Ill., to points in North Dakota. The purpose of this filing is to eliminate the gateway of Savage, Minn.

No. MC–107496 (Sub-No. E 148), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Anhydrous ammonia*, in bulk, from Seneca, Ill., to points in North Dakota, and (b) *nitrogen fertilizer solution, liquid fertilizer, and liquid fertilizer materials*, in bulk, from the plantsite of F. S. Royster Guano Company at or near Seneca, Ill., to points in North Dakota. The purpose of this filing is to eliminate the gateway of Ft. Madison, Iowa.

No. MC–107496 (Sub-No. E 147), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nitrogen fertilizer solutions*, in bulk, in tank vehicles, from Marsailles, Ill., to points in North Dakota. The purpose of this filing is to eliminate the gateway of the storage facilities of the Royster Company at or near St. Paul, Minn.

No. MC–107496 (Sub-No. E149), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles from Tulsa, Okla., to points in Montana. The purpose of this filing is to eliminate the gateways of Sidney, Nebr. and Rapid City, S. Dak.

No. MC–107496 (Sub-No. E150), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils*, in bulk, in tank vehicles, from points in Minnesota on and north of Minnesota Highway 14 to points in Oklahoma. The purpose of this filing is to eliminate the gateways of Mankato, Minn. and the plantsite of Archee-Daniels-Midland Company at or near Lincoln, Nebr.

No. MC–107496 (Sub-No. E 156), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Nitrogen fertilizer solutions*, in bulk, in tank vehicles, from the plantsite of Amoco Chemicals Corporation located approximately six miles southwest of Joliet, Ill., to points in North Dakota. The purpose of this filing is to eliminate the gateway of the storage facilities of the Royster Company at or near St. Paul, Minn.

No. MC–107496 (Sub-No. E 157), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, in tank vehicles, from the plantsite and storage facilities of the Armour Agricultural Chemical Company, located at or near Selma, Mo., to points in Michigan. The purpose of this filing is to eliminate the gateway of Meredosia, Ill.

No. MC–107496 (Sub-No. E158), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from points in Iowa east of U.S. Highway 65 to points in Schuyler, Scotland, Clark, Adair, Knox, Lewis, Marion, Shelby,

Macon, Ralls, and Monroe Counties, Mo. The purpose of this filing is to eliminate the gateway of Ft. Madison, Iowa.

No. MC–107496 (Sub-No. E159), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Clear Lake, Iowa, and points within 10 miles thereof to points in South Dakota on and north of U.S. Highway 16. The purpose of this filing is to eliminate the gateway of Marshall, Minn.

No. MC–107496 (Sub-No. E161), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as desribed in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Clear Lake, Iowa, and points within 10 miles thereof, to points in North Dakota. The purpose of this filing is to eliminate the gateway of the terminal of Kaneb Pipeline Co., at or near Le Mars, Iowa.

No. MC–107496 (Sub-No. E162), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hydrazine mix*, in bulk, in tank vehicles, from White Sands Missile Range, N. Mex., to points in South Dakota. The purpose of this filing is to eliminate the gateway of the Rocky Mountain Arsenal at Denver, Colo.

No. MC–107496 (Sub-No. E164), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's Representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* (except those derived from petroleum and except liquid oxygen, liquid hydrogen, and liquid nitrogen), from Port Neal Industrial Complex, and Big Soo Terminal, and the plantsite of, and warehouses and storage facilities utilized by Terra Chemicals International, Inc., American Cyanamid Company, and Monsanto Company located in Woodbury County, Iowa and Dakota County, Nebr., to points in Utah. The purpose of this filing is to eliminate the gateway of Denver, Colo.

No. MC–107496 (Sub-No. E165), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients*, from Des Moines, Iowa to points in North Dakota. The purpose of this filing is to eliminate the gateway of Welcome, Minn.

No. MC–107496 (Sub-No. E 166), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid animal food and liquid animal food supplements*, in bulk, in tank vehicles from the plants and storage facilities of Allied Chemical Corporation at or near La Platte and Omaha, Nebr., to points in New Mexico. The purpose of this filing is to eliminate the gateway of Leoti, Kans.

No. MC–107496 (Sub-No. E 167), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid animal feed supplements*, in bulk, in tank vehicles, from Morrill, Nebr., to points in Texas. The purpose of this filing is to eliminate the gateway of Leoti, Kans.

No. MC–107496 (Sub-No. E 168), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer*, in bulk, in tank vehicles, from Nebraska City, Nebr., to points in Kentucky. The purpose of this filing is to eliminate the gateway of Ft. Madison, Iowa.

No. MC–107496 (Sub-No. E170), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous hydrazine*, in bulk, in tank vehicles, from Saltville, Va. to points in Utah. The purpose of this filing is to eliminate the gateway of the site of the Rocky Mountain Arsenal at Denver, Colo.

No. MC–107496 (Sub-No. E171), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous hydrazine*, in bulk, in tank vehicles, from Saltville, Va. to points in Wyoming. The purpose of this filing is to eliminate the gateway of the site of the Rocky Mountain Arsenal at Denver, Colo.

No. MC–107496 (Sub-No. E172), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum fertilizer* from Burlington, Iowa to points in Minnesota. The purpose of this filing is to eliminate the gateways of Mason City, Webster City, and Clinton, Iowa.

No. MC–107496 (Sub-No. E173), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Burlington, Iowa to points in Missouri north of U.S. Highway 40 and west of U.S. Highway 65. The purpose of this filing is to eliminate the gateway of Ottumwa, Iowa and points within a 15 mile radius thereof.

No. MC–107496 (Sub-No. E175), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Wausau, Wisc., to points in Iowa on and west of U.S. Highway 218. The purpose of this filing is to eliminate the gateway of the site of the Pipeline Terminal of Williams Brothers at or near Rochester, Minn.

No. MC–107496 (Sub-No. E292), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check, Attorney (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hydrofluosilicic acid*, in bulk, from Denver, Colo., to points in Indiana. The purpose of this filing is to eliminate the gateway of the plantsite of Des Plaines Chemical Co., at Morris, Ill.

No. MC–107496 (Sub-No. E293), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check, Attorney (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except those derived from petroleum), in bulk, from Denver, Colo., to points in Ohio. The purpose of this filing is to eliminate the gateway of the plantsite of Cowles Chemical Co., at Joliet, Ill.

No. MC–107496 (Sub-No. E294), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over ir-

regular routes, transporting: *Dry chemicals* (except those derived from petroleum), in bulk, from Denver, Colo., to points in Indiana. The purpose of this filing is to eliminate the gateway of the plantsite of Cowles Chemical Co., at Joliet, Ill.

No. MC–107496 (Sub-No. E295), filed June 4, 1974. Applicant: RUAN TRANSPORT CORPORATION, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check, Attorney (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except those derived from petroleum), in bulk, from Denver, Colo., to points in the Lower Peninsula of Michigan (except Grand Rapids and Kalamazoo, Mich., and their Commercial Zones as defined by the Commission). The purpose of this filing is to eliminate the gateway of plantsite of Cowles Chemical Co. at Joliet, Ill.

No. MC–113267 (Sub-No. E7), filed May 13, 1974. Applicant: CENTRAL AND TRUCK LINES, INC., 3385 Airways Blvd., Memphis, Tenn. 38116. Applicant's representative: Lawrence A. Fischer (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Section A and C of Appendix I, to the report in *Descriptions in Motor Carrier Certificates* 61 M.C.C. 209 and 766 (except in bulk in tank vehicles), in vehicles equipped with mechanical refrigeration, from the plantsite of Iowa Beef Packers, Inc., located at or near Emporia, Kans., to points in Texas east and south of the eastern and southern boundaries of Harrison, Rusk, Cherokee, Houston, Madison, Grimes, Waller, Fort Bend, and Brazoria Counties. [Notice No. 119]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

JULY 11, 1974.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before July 31, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75018. By order of July 5, 1974, the Motor Carrier Board approved the transfer to Gale Webb, doing business as Viking Line, Joplin, Mo., of Certificate No. MC-54589 Sub 6 issued June 18, 1947, to Duane Goodhope, doing business as Kansas Coach Line, Joplin, Mo., authorizing the transportation of passengers and their baggage, and express, mail, and newspapers in the same vehicle, between Joplin, Mo., and Galena, Kans. Richard M. Webster, Esq., Myers, Webster and Perry, attorney for transferee, 112 North Webb Street, Webb City, Mo. 64870.

No. MC-FC-75164. By order of July 3, 1974, the Motor Carrier Board approved the transfer to Joseph Riccardi, Staten Island, N.Y., of Permit No. MC-136863 Sub 1 issued July 16, 1973, to J. C. P. Enterprises, Inc., Staten Island, N.Y., authorizing the transportation of door frames, doors, and elevator cabs, from Brooklyn, N.Y., to points in Pennsylvania, New Jersey, Maryland, New York, Virginia, Delaware, Connecticut, Massachusetts, Rhode Island, Ohio, and the District of Columbia. Morton E. Kiel, practitioner, Suite 6193, 5 World Trade Center, New York, N.Y. 10048.

No. MC-FC-75179. By order of July 3, 1974, the Motor Carrier Board approved the transfer to Comet Moving and Storage, Inc., Topeka, Kans., of Certificate No. MC-40555 issued December 3, 1971, to Merchants Moving and Storage, Inc.,

Topeka, Kans., authorizing the transportation of household goods between Topeka, Kans., on the one hand, and on the other, points in Missouri. Arthur A. Glassman, Esq., 714 Capitol Federal Building, 7th and Kansas Avenue, Topeka, Kans. 66603.

[Notice 120]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

JULY 12, 1974.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 1, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75049. By order of July 8, 1974 the Motor Carrier Board approved the transfer to Frank Malatesta, doing business as Frank Malatesta Moving & Storage Co., Paterson, N.J., of Certificates Nos. MC-128213 and MC-128213 Sub 3 issued April 17, 1967, and April 20, 1970, respectively, to T. Lindsay Moving & Storage, Inc., Paterson, N.J., authorizing the transportation of bicycles, trunks, and duffle bags between Milford, Pa., on the one hand, and, on the other, points in New Jersey; and bicycles, trunks, and duffle bags between Milford and Lake Como, Pa. Robert J. Gallagher, Esq., Brodsky, Linett & Altman, 1776 Broadway, New York, N.Y. 10019.

No. MC-FC-75064. By supplemental order entered July 8, 1974 the Motor Carrier Board approved the transfer to William A. Long, Inc., Bealeton, Va., of the operating rights set forth in Permit No. MC-134129 (Sub-No. 6), issued May 24, 1974, to William A. Long, Inc., Bealeton, Va., authorizing the transportation of plastic articles, from Remington, Va., to points in that part of the United States (except Virginia), in and east of Louisiana, Arkansas, Missouri, Iowa, and Minnesota; and materials, supplies, and equipment, used in the manufacture of plastic articles, from points in the destination territory above to Remington, Va., restricted to transportation to be performed under a continuing contract, or contracts, with Remington Plastics, Inc., of Remington, Va. Daniel B. Johnson, 1123 Munsey Building, 1329 E Street, NW., Washington, D.C. 20004, attorney for applicants.

No. MC-FC-75218. By order of July 8, 1974 the Motor Carrier Board approved the transfer to Bernard J. Wilson and Sandra M. Wilson, a partnership, doing business as Ponek Movers, Bellows Falls, Vt., of Certificate No. MC-81957 issued October 17, 1967, to Stefan P. Ponek and Elizabeth M. Ponek, a partnership, doing business as Ponek Movers, Bellows Falls, Vt., authorizing the transportation of household goods between points in specified parts of Vermont and New Hampshire on the one hand, and, on the other, points in New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, and the District of Columbia; and between Keene, N.H., on the one hand, and, on the other, points in Vermont, Massachusetts, Rhode Island, Connecticut, New York, and New Jersey. Edward M. Goutas, Esq., P.O. Box 170, Bellows Falls, VT 05101.

No. MC-FC-75252. By order entered July 8, 1974 the Motor Carrier Board approved the transfer to D.C. Transport, Inc., Fort Worth, Tex., of the operating rights set forth in Certificate of Registration No. MC-120750 (Sub-No. 1), issued May 12, 1970, to Toddman Transport Co., Fort Worth, Tex., evidencing a right to engage in operations in the transportation of articles of iron, steel and other metals or materials, and concrete products, prestressed or reinforced, with certain restrictions, between points in Texas. Clayte Binion, 1108 Continental Life Bldg., Fort Worth, Tex. 76102, attorney for applicants.

[Notice No. 96]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 5, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 504 (Sub-No. 100 TA), filed June 27, 1974. Applicant: HARPER MOTOR LINES, INC., 125 Milton Avenue SE., Atlanta, Ga. 30315. Applicant's representative: John P. Carlton, 903 Frank Nelson Building, Brimingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (with usual exceptions), between Elberton, Ga., and Calhoun Falls, S.C.: From Elberton, Ga., over Georgia Highway 72 to the Georgia-South Carolina State line, thence over South Carolina Highway 72 to Calhoun Falls, S.C., serving all intermediate points, for 180 days.

NOTE.—Applicant proposes to join the authority sought above with its present authority held in Docket MC 504 and effective subs thereto in order to provide through-service to, from, and between termini of the irregular route sought in this proceeding on the one hand, and, on the other, all of applican't presently authorized service points. SUPPORTING SHIPPER: Harper Motor Lines, Inc., 125 Milton Avenue SE., Atlanta, Ga. 30316. SEND PROTESTS TO: William L. Scroggs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1252 West Peachtree St. NW., Room 309, Atlanta, Ga. 30309.

No. MC 139873 (Sub-No. 1 TA), filed June 25, 1974. Applicant: JAMES PATERSON, doing business as PATERSON TRUCKING CO., 11099 Lyon Road, Delta, B.C. V4E 1J4, Canada. Applicant's representative: George Kargianis, 2120 Pacific Building, Seattle, Wash. 98104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, (A) from the United States-Canada International Boundary line located at or near Blaine, Wash., to points in Washington and Oregon, and (B) from points in Washington and Oregon, to points in the United States-Canada International Boundary line at or near Blaine, Wash., and restricted to export shipments, for 180 days. SUPPORTING SHIPPERS: There are approximately 8 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. SEND PROTESTS TO: L. D. Boone, Transportation Specialist, Interstate Commerce Commission, Bu-

reau of Operations, 6049 Federal Office Building, Seattle, Wash. 98104.

No. MC 139935 (Sub-No. 1 TA), filed June 25, 1974. Applicant: WOLF TRUCKING, INC., Ault, Colo. 80610. Applicant's representative: Robert C. Burroughs, 115 First Street, Ault, Colo. 80610. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Hides, green and salted; sheep and cattle skins only*, (1) from Eaton, Colo., to Solomon, Kans.; Laredo, Dallas, Amarillo, and Houston, Tex.; Portland, Oreg.; Oakland, Calif.; Boise, Idaho; and Phoenix, Ariz., and (2) from Solomon, Kans., to Eaton, Colo.; Dallas, Laredo, Amarillo, and Houston, Tex.; Portland, Oreg.; Oakland, Calif.; Boise, Idaho; and Phoenix, Ariz., for 180 days. SUPPORTING SHIPPER: John Rueb Associates, Inc., Box 301, Solomon, Kans. 67480, and BIPRO Co., Box 337, Eaton, Colo. 80615. SEND PROTESTS TO: Roger L. Buchanan, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2022 Federal Bldg., Denver, Colo. 80202.

No. MC 139937 TA, filed June 26, 1974. Applicant: JOHNNY D. COBURN AND BILLY BROWN, doing business as COBURN CONSTRUCTION COMPANY, Box 76, Robinson Creek, Ky. 41560. Applicant's representative: Johnny D. Coburn (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Steel pipe*, between Ambridge and Aliquippa, Pa., on the one hand, and, on the other, Nora, Va., for 180 days. SUPPORTING SHIPPER: David Fox, Jr., President, Branchland Pipe & Supply Company, Box 486, Huntington, W. Va. 25709. SEND PROTESTS TO: R. W. Schneiter, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 222 Bakhaus Building, 1500 West Main Street, Lexington, Ky. 40505.

No. MC 139938 TA, filed June 27, 1974. Applicant: GLENN R. DUSENBERRY, 2907 Fair Haven Avenue, Muscatine, Iowa 52761. Applicant's representative: Kenneth F. Dudley, P.O. Box 279, Ottumwa, Iowa 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Columbus Junction and Waterloo, Iowa, to points in the Chicago, Ill., commercial zone, for 180 days. SUPPORTING SHIPPER: The Rath Packing Company, Sycamore & Elm Streets, Waterloo, Iowa 50703. SEND PROTESTS TO: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 139940 TA, filed June 28, 1974. Applicant: RAY POLLOCK AND ROBERT POLLOCK, doing business as POLLOCK EQUIPMENT CO., Vail, Iowa 51465. Applicant's representative: Robert Pollock (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Crushed automobile bodies, junk motors and other scrap metals, ferrous and non-ferrous scrap metals*, from points in Iowa and points in Nebraska on and east of U.S. Highway 81, east in Illinois to Chicago, north in Minnesota to St. Paul and Minneapolis, south in Kansas and Missouri, to Kansas City, and southeast to St. Louis, for 180 days. SUPPORTING SHIPPER: Pollock Equipment Co., Vail, Iowa 51465. SEND PROTESTS TO: District Supervisor Carroll Russell, Interstate Commerce Commission, Bureau of Operations, Suite 620, Union Pacific Plaza, 110 North 14th Street, Omaha, Nebr. 68102.

MOTOR CARRIERS OF PASSENGERS

No. MC 139936 TA, filed June 25, 1974. Applicant: FLEETLINE CABS, LTD., 100 View Street, Nelson, British Columbia, Canada. Applicant's representative: George Kargianis, 2120 Pacific Building, Seattle, Wash. 98104. Authority sought to operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: *Passengers and their baggage* (with no intermediate stops), including round trip charter parties, between points in Spokane County, Wash. and the International Gateway at Metaline Falls, Wash., for 180 days. SUPPORTING SHIPPERS: (1) Kokanee Travel Agency, Ward Street, Nelson, British Columbia, Canada; (2) The Senior Citizens, 812 Hendrick Street, Nelson, British Columbia, Canada; (3) Nelson Chamber of Commerce, 501 Front Street, Nelson, British Columbia, Canada; (4) School District No. 7, Nelson, British Columbia, Canada; and (5) City of Nelson, British Columbia, Canada. SEND PROTESTS TO: L. D. Boone, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 6049 Federal Office Building, Seattle, Wash. 98104.

No. MC 139939 TA, filed June 26, 1974. Applicant: CROWN TRANSIT COMPANY, INC., 44 Essex Avenue, Bellmawr, N.J. 08030. Applicant's representative: Herbert R. Rambo (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, between Bellmawr and Deptford, N.J., and Philadelphia, Pa.: From North-South Freeway (Deptford) at Route 41, to Good Intent Road, to Westville-Almonesson Road, to Clements Bridge Road, to the N–S Freeway to the Creek Road exit in Bellmawr, thence to Broad and Patterson Streets and the Navy Yard (both in S. Philadelphia), over the Walt Whitman Bridge, and return over the same route, for 180 days. SUPPORTING SHIPPERS: There are various individual statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. SEND PROTESTS TO: Richard M. Regan, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 428 East State Street, Room 204, Trenton, N.J. 08608.

By the Commission.

LIST OF INTERMEDIARIES

JULY 10, 1974.

The provision of the Canons of Conduct of the Interstate Commerce Commission relating to Intermediaries (49 CFR 1000.735-23) reads as follows:

Intermediaries. Members and employees of the Commission shall not recommend or suggest the use of any nongovernmental intermediary (individual, firm, corporation, or other entity) offering any service as consultant, agent representative, attorney, expeditor, or specialist for the purpose of assisting in any negotiations, transactions, or other business with or before this Commission: *Provided, however,* That making available general reference lists of such nongovernmental intermediaries, the use of which is authorized by the Secretary of the Commission shall not be deemed to be in violation of this Canon.

The following is a general reference list of non-governmental intermediaries in the Washington area who regularly utilize the Commission's records in the Public Tariff File Room of its Bureau of Traffic and who engage in rate work, the preparation of tariff material, etc.

The list has been prepared solely for the information and convenience of the public. It does not constitute an endorsement by the Commission, nor is any responsibility for the services rendered assumed by the Bureau, its officers, supervisors or employees. Without designating any intermediary listed of the specialized qualifications of any, the entire list must be made available.

[Rule 19; Ex Parte No. 241; Exemption No. 80]

EXEMPTION UNDER PROVISION OF MANDATORY CAR SERVICE RULES

It appearing, That there is an emergency movement of military impedimenta from Kendaia, New York, to Leland, North Carolina; that the originating carrier has insufficient system cars of suitable dimensions immediately available for loading with this traffic; that sufficient cars of other ownerships having suitable dimensions are available on the lines of the originating carrier and on its connections; and that compliance with Car Service Rules 1 and 2 would prevent the timely assembly and use of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the Car Service Division of the Association of American Railroads is authorized to direct the movement to the Lehigh Valley Railroad Company, John F. Nash and Robert C. Haldeman, Trustees, the railroads designated by the Car Service Division are authorized to move to, and the Lehigh Valley Railroad Company, John F. Nash and Robert C. Haldeman, Trustees, is authorized to accept, assemble, and load not to exceed sixty (60) empty cars with military impedimenta from Kendaia, New York, to Leland, North Carolina, regardless of the provisions of Car Service Rules 1 (b), 2(c), 2(d), or 2(e).

Effective: June 27, 1974.

Expires: July 21, 1974.

Issued at Washington, D.C., June 27, 1974.

[Rule 19; Ex Parte No. 241; Fifth Rev. Exemption No. 22]

EXEMPTION UNDER PROVISION OF MANDATORY CAR SERVICE RULES

It appearing, That there are substantial movements of grain and grain products moving in plain, forty-foot narrow-door boxcars between points on the following railroads:

The Atchison, Topeka and Santa Fe Railway Company [1]
Chicago, Rock Island and Pacific Railroad Company
Missouri Pacific Railroad Company
St. Louis-San Francisco Railway Company

and that unlimited exchange of such cars among these railroads will increase car utilization by reductions in switching and other movements of empty cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, plain boxcars described in the Official Railway Equipment Register,

[1] Burlington Northern Inc., eliminated.

I.C.C. R.E.R. No. 391, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation XM, with inside length 44 ft. 6 in. or less and equipped with doors less than 9 feet wide owned by any of the aforementioned railroads and located empty on such lines, may be loaded with grain or grain products, as defined herein, to stations located on any of the aforementioned railroads. When so loaded, such cars shall be exempt from the provisions of Car Service Rules 1 and 2.

The term *grain and grain products* shall comprise the commodities specifically named in Lists 1, 2, 5, 6, 7, and 8 published in Western Trunk Lines Freight Tariff 330–U, ICC A–4797, issued by Fred Ofcky, supplements thereto, or consecutive issues thereof.

Effective: July 1, 1974.

Expires: July 31, 1974.

Issued at Washington, D.C., June 24, 1974.

EXEMPTION UNDER PROVISION OF MANDATORY CAR SERVICE RULES

To: The Atchison, Topeka and Santa Fe Railway Company, Chicago, Rock Island and Pacific Railroad Company, Fort Worth and Denver Railway Company, Missouri Pacific Railroad Company, and St. Louis-San Francisco Railway Company.

It appearing, That there is a massive harvest of wheat in progress in the states of Kansas,[1] Missouri,[1] Oklahoma and Texas; that present supplies of plain boxcars owned by the railroads serving these states are inadequate to move the newly harvested grain to terminal elevators for safe storage; that use of available plain boxcars owned by other carriers for movements of this grain will substantially augment the car supplies of the railroads named herein.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the railroads named herein, and their short line connections, are hereby authorized to use and to accept from shippers shipments of grain originating at stations located in Kansas,[1] Missouri,[1] Oklahoma or Texas when loaded into plain 40-ft. narrow-door boxcars of various ownerships without regard to the requirements of Car Service Rule 2.

Exception. This exemption shall not apply to plain boxcars owned by railroads named above nor to cars subject to an order of this Commission requiring return to car owner.

Effective: June 17, 1974.

Expires: 11:59, June 30, 1974.

Issued at Washington, D.C., June 17, 1974.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[FR Doc.74–16028 Filed 7–11–74;8:45 am]

[Rule 19; EX PARTE No. 241; Fifth Revised Exemption No. 10]

EXEMPTION UNDER PROVISION OF MANDATORY CAR SERVICE RULES

JULY 10, 1974.

It appearing, That the railroads named herein own numerous 40-ft plain boxcars; that under present conditions, there is virtually no demand for these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain boxcars owned by the railroads listed herein, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, plain boxcars described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 391, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation XM, with inside length 44 ft. 6 in. or less, and bearing reporting marks assigned to the railroads named below, shall be exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b).

The Central Railroad Company of New Jersey, Robert D. Timpany, Trustee, Reporting Marks: CNJ.
Chicago,[1] West Pullman & Southern Railroad Company Reporting Marks: CWP (Cars 14050–14100 only).

Effective June 27, 1974, and continuing in effect until further order of this Commission.

Issued at Washington, D.C., June 27, 1974.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[FR Doc.74–16022 Filed 7–11–74;8:45 am]

[1] Addition.

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions, Modifications, and Supersedeas Decisions

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions, Modifications and Supersedeas Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to general wage determination decisions. Modifications and Supersedeas prevailing hourly wage rates and fringe tion Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931 as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

NEW DECISION

STATE: Louisiana

PARISHES: Jefferson, Orleans, Plaquemines & St. Bernard

DECISION NO.: AR-3

DATE: Date of Publication

DESCRIPTION OF WORK: Residential construction consisting of single family homes and garden type apartments up to and including 4 stories.

	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
AIR CONDITIONING MECHANICS	$4.58				
BRICKLAYERS	6.00				
CARPENTERS	5.00				
CEMENT MASONS	3.50				
ELECTRICIANS	5.01				
INSULATORS	4.00				
IRONWORKERS	4.17				
LABORERS:					
Laborers	3.04				
Mason tenders	4.00				
Mortar mixers	3.25				
PAINTERS	4.50				
PLUMBERS	5.50				
ROOFERS	4.45				
SHEET METAL WORKERS	4.55				
SHEETROCK HANGERS	6.50				
SHEETROCK FINISHERS	5.50				
SOFT FLOOR LAYERS	5.15				
TILE SETTERS	5.00				
TRUCK DRIVERS	3.50				
POWER EQUIPMENT OPERATORS:					
Blade graders	4.50				
Backhoes	6.15				
Bulldozers	5.00				
Fork lifts	4.50				
Piledrivers	4.50				
Rollers	4.625				
Tractors	4.00				
Trenching machines	5.75				

NEW DECISION

STATE: South Carolina COUNTIES: See below*

AREA COVERED BY VARIOUS ZONES

1 CARPENTERS AND PILEDRIVERMEN

ZONE 1 - Counties of Anoka, Carver, Chisago, Dakota, Hennepin, Isanti, Ramsey, Scott, and Washington, Sherburne County (north of thenorthern boundry of T-34-N or west of the western boundry of R-27-W), and Wright County east of and including Minnesota Highway 25.

ZONE 2 - Counties of Aitkin, Cook, Itaska, Kanabec, Lake, Mille Lacs, and St. Louis, and Pine County south of Hinkley, Barry, Arlone, and Clover Townships.

ZONE 3 - Carlton County and the remainder of Pine County.

ZONE 4 - Benton County, the remainder of Sherburne and Wright Counties, and Stearns County east of a north-south line drawn from the intersection of Stearns, Todd and Morrison Counties.

ZONE 5 - Blue earth County (entire countyexcept N.W. corner including Cities of Butternut, Judson, and Cambria), Le Sueur County (west 2/3 of county including Cities of Cleveland, Kasota, Le Sueur, and Ottawa), Nicollet County (east 1/2 of county including Cities of New Sweden, Nicollet, Norseland, North Mankato, and St. Peter), Waseca County (N.W. corner including City of Smith Mill), and Sibley County (S.E. corner including Cities of Henderson and Rush River).

ZONE 6 - Rice County, Dodge County (N.W. portion including Cities of Clermont and West Concord), Goodhue County (along west boarder including Cities of Keyon, Dennison, Skyburg, Sogn, Stanton, and Wangs), Steele County (entire county except along south boarder including Cities of Blooming Prairie and Ellendale), Waseca County (entire county except Smith Mill in N.W. corner and along the south boarder including the Cities of Matawan and New Richland), and the remainder of Le Sueur Co.

ZONE 7 - Olmsted County, Fillmore County (the vacinity of the Cities of Chatfield, Cherrygrove, Etna, Fillmore, Fountain, Granger, Greenleafton, Harmony, Preston, Spring Valley, and Wykoff), Goodhue County (S.W. corner including Cities of Roscoe and Pine Island), Dodge County (in the vacinity of the Cities of Borne, Concord, Dodge Center, Kasson, Danesville, Eden, Manterville, and Wasioja), Mower County (N.W. corner including the City of Racine), and Wabasha County (in the vacinity of the Cities of Elgin, Hammond, Millville, Plainview, Conseption, Dunfries, Jarret, South Troy, and Theilman).

ZONE 8 - Counties of Fairbault, Freeborn, Houston, and Winona, and the remainder of Dodge, Fillmore, Goodhue, Mower, Steele, Wabasha, and Waseca Counties.

ZONE 9 - Koochiching County.

ZONE 10 - Meeker County and McLeod County (N.W. corner including the Cities of Biscay, Heatwole, and Hutchinson).

ZONE 11 - Counties of Crow Wing, Jackson, Martin, Morrison, Nobles, and Rock, and the remainder of McLeod, Sibley, and Stearns County.

2 CEMENT MASONS

ZONE 1 - Counties of Anoka, Carver, Chisago, Dakota, Hennepin, Isanti, Kanabec, McLeod, Mille Lacs, Ramsey, Scott, Sherburne, Sibley, Washington, and Wright, and Pine County south of T-43-N.

ZONE 2 - Counties of Aitkin, Carlton, Cook, and Lake, Pine County north of T-42-N, and St. Louis County south of T-55-N.

ZONE 3 - Itaska County and St. Louis County north of T-54-N.

ZONE 4 - Counties of Crow Wing and Koochiching.

ZONE 5 - Morrison County.

ZONE 6 - Counties of Benton and Stearns.

ZONE 7 - Meeker County.

ZONE 8 - Counties of Blue Earth and Nicollet, Le Sueur County (east 1/2 including the Cities of Cleveland, Elysian, Kasato, Le Center, Le Sueur, Lexington, Ottawa, and St. Thomas), Waseca County, (east 1/2 including the Cities of Alma City, Janesville, Smith Mill, and Waldorf).

ZONE 9 - Counties of Jackson, Martin, Nobles, and Rock.

ZONE 10- Fairbault County and Freeborn County (west of a line running north and south from Genevia to Gordansville

CEMENT MASONS CONTINUED

ZONE 11 - Counties of Rice and Steele, the remainder of Le Sueur and Waseca Counties, and Dodge County west of Highway 56

ZONE 12 - Olmsted County, Dodge County east of Highway 56, and Fillmore County east of a line drawn north and south established east of the City of Dodge Center.

ZONE 13 - Counties of Houston and Winona, and the remainder of Fillmore County.

ZONE 14 - Counties of Goodhue and Wabasha.

ZONE 15 - Mower County and the remainder of Freeborn County

[3] IRONWORKERS

ZONE 1 - Counties of Anoka, Benton, Blue Earth, Carver, Chisago, Dakota, Dodge, Fairbault, Fillmore, Freeborn, Goodhue, Hennepin, Houston, Isanti, Le Sueur, McLeod, Martin, Meeker, Morrison, Mower, Nicollet, Olmsted, Ramsey, Rice, Scott, Sherburne, Sibley, Stearns, Steele, Wabasha, Waseca, Washington, Winona and Wright, Crow Wing County (the S.W. corner including the Cities of Crow Wing, Fort Ripley, and Shephard), Kanabec County (excluding north 1/3 of county including Cities of Warman, Kruschel, and Woodland), Mille Lacs County (excluding N.E. corner including the Cities of Bayview, Opstead, Isle, Wahkun, Cove, and Vineland), and Pine County (the S.W. corner including the Cities of Pine City, Henriette, Greely, Rock Creek, and West Rock).

ZONE 2 - Counties of Aitkin, Carlton, Cook, Itaska, Koochiching, Lake, and St. Louis, and the remainder of Crow Wing, Kanebec, Mille Lacs, and Pine Counties.

ZONE 3 - Counties of Jackson, Nobles, and Rock.

[4] LINEMEN

ZONE 1 - Counties of Aitkin, Carlton, Cook, Crow Wing, Lake, and Morrison; Itaska County, that portion south of T-55 R-27, Bass Rock, Grand Rapids, Trout Lake, T-55 R-23 and that portion of Goodland Township south of a line west from the S.W. corner of T-55 R-23; St. Louis County, that portion south of Ault, Ellsburg, Lavell, T-55 R-14, T-55 R-15, T-55 R-18 and T-55 R-21 Townships; Kenebec County north of Ann Lake, Knife Lake, and Whited Townships; Mille Lacs County north of Daily and Mudgett Townships; and Pine County north of Brook Park, Crosby, Mission Creek, and Munch Townships.

ZONE 2 - Koochiching County and the remainder of Itaska and St. Louis Counties.

ZONE 3 - Counties of Chisago, Dakota, Isanti, Ramsey, Rice, and Washington; the remainder of Kanabec, Mille Lacs, and Pine Counties; Anoka County, the entire county except Anoka, Fridley, Grow and Ramsey Townships; Goodhue County, entire county except Pine Island, Minneola, Roscoe, and Zumbrota Townships; Le Sueur County, that portion east of Cleveland, Sharon, Tyrone, and Washongton Townships; Sherburne County, that portion east of Becker and Santiago Townships; and Wabasha County, entire county except Elgin and Plainview Townships.

ZONE 4 - Counties of Benton, Blue Earth, Carver, Fairbault, Hennepin, Jackson, McLeod, Martin, Meeker, Nicollet, Scott, Sibley, Stearns, Waseca, and Wright and the remainder of Anoka, Le Sueur, and Sherburne Counties

ZONE 5 - Counties of Dodge, Fillmore, Freeborn, Mower, Olmsted, and Steele, and the remainder of Goodhue and Wabasha Counties.

ZONE 6 - Counties of Houston and Winona.

ZONE 7 - Counties of Nobles and Rock.

[5] PAINTERS

ZONE 1 - Counties of Carlton, Cook, and Lake, Pine County north of State Route 48, Koochiching County (N.E. corner including towns of International Falls, South International Falls, Pelland, Ray, and Island View), and St. Louis County (Excluding the area north of the town of Meadowlands, south of the town of Cook, and west from these towns to the Itasca County line).

ZONE 2 - Itasca County and the remainder of Koochiching and St. Louis Counties.

ZONE 3 - Counties of Chisago, Dakota, Ramsey, and Washington, and Pine County south of State Route 48

ZONE 4 - Counties of Anoka, Carver, Hennepin, Isanti, Kanabec, McLeod, and Scott, and the eastern 2/3 of Sherburne and Wright Counties.

PAINTERS CONTINUED

ZONE 5 - Counties of Benton, Mille Lacs, Meeker, and Stearns, the western 1/3 of Sherburne and Wright Counties, and the southern 1/2 of Morrison County.

ZONE 6 - Counties of Aitkin, Crow Wing, and the northern 1/2 of Morrison County.

ZONE 7 - Counties of Dodge, Fairbault, Fillmore, Freeborn, Goodhue, Houston, Mower, Olmsted, Wabasha, and Winona.

ZONE 8 - Counties of Blue Earth, Jackson, Martin, Nicollet, Nobles, Rock, and Sibley.

ZONE 9 - Counties of Le Sueur, Rice, Steele, and Waseca.

[6] LABORERS

ZONE 1 - Counties of Anoka, Carver, Chisago, Dakota, Hennepin, Isanti, Pine, Ramsey, Scott, Sherburne, Washington, and Wright

ZONE 2 - Counties of Carlton, Cook, and Lake, and St. Louis County south of T-55

ZONE 3 - Itaska County and St. Louis County north of T-55

ZONE 4 - Counties of Benton, Kanabec, Mille Lacs, and Stearns

ZONE 5 - Counties of Blue Earth, Dodge, Fairbault, Fillmore, Freeborn, Goodhue, Houston, Le Sueur, Mower, Nicollet, Olmsted, Rice, Steele, Wabasha, Waseca, and Winona.

ZONE 6 - Counties of Aitkin, Crown Wing, Jackson, Koochiching, Mc Leod, Martin, Meeker, Morrison, Nobles, Rock, and Sibley.

[7] POWER EQUIPMENT OPERATORS

ZONE 1 - Counties of Anoka, Carver, Cook, Dakota, Hennepin, Lake, Ramsey, St. Louis, Scott, and Washington, Sherbourne County south of the northern boundry of T-33-N and east of the western boundry of R-27-W, Wright County east of and including Highway 25, Chisago County south of the northern boundry of T-34-N and that part consisting substantially of the Cities of Thompson, Colquet, Scanlon, and Carlton.

ZONE 2 - Counties of Aitkin, Blue Earth, Carlton, Dodge, Fairbault, Fillmore, Freeborn, Goodhue, Houston, Isanti, Kanabec, Le Sueur, Mille Lacs, Mower, Olmsted, Pine, Rice, Steele, Wabasha, Waseca, Winona, and Washington; the remainder of Chisago, Sherburne, and Wright Counties; Koochiching County east of a north-south line from the Canadian boarder to Pelland - the western right-of-way of U. S. Hwy. 71 from Pelland to Big Falls and Minn. Hwy. 6; Itaska County east of the western right-of-way of Minn. Hwy. 6; Crow Wing County east of the Western right-of-way of U.S. Hwy. 371; Morrison County east of the western right-of-way of U.S. Hwy. 371 and U.S. Hwy. 10 from Little Falls to the Morrison-Benton County lines; Benton County east of the western right-of-way of U.S. Hwy. 10; and in McLeod, Martin, Meeker, Nicollet, Sibley, and Stearns Counties, east of the western right-of-way of Minn. Hwy. 15. In every case the entire corporate limits of cities, towns and villages located on the boundries described as highways shall be included in ZONE 2.

ZONE 3 - Counties of Jackson, Nobles, and Rock, and the remainder of Benton, Crow Wing, Itaska, Koochiching, McLeod, Martin, Meeker, Morrison, Nicollet, Sibley, and Stearns Counties.

[8] TRUCK DRIVERS

ZONE 1 - Counties of Anoka, Carlton, Carver, Cook, Dakota, Dodge, Fillmore, Freeborn, Goodhue, Hennepin, Houston, Lake, Mower, Olmsted, Ramsey, Rice, St. Louis, Scott, Steele, Wabasha, Washington, Winona, and Wright, and Chisago County south of T-34-N.

ZONE 2 - Counties of Aitkin, Benton, Blue Earth, Crow Wing, Fairbault, Isanti, Itaska, Jackson, Kanabec, Koochoching, Le Sueur, McLeod, Martin, Meeker, Mille Lacs, Morrison, Nicollet, Nobles, Pine, Rock, Sibley, Sherburne, Stearns, and Waseca, and Chisago County north of T-34-N.

SUPERSEDEAS DECISION

STATE: New Mexico
DECISION NO.: AR-6
COUNTY: Statewide
DATE: Date of Publication
Supersedes Decision No. AQ-82 dated March 8, 1974 in 39 FR 9398
DESCRIPTION OF WORK: General Building (including Residential in McKinley, Santa Fe, San Juan and Bernalillo Counties) and Heavy Engineering Construction.

GENERAL BUILDING AND HEAVY ENGINEERING CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Others
Asbestos workers (Statewide, except Union, Harding, Lea, Roosevelt, Curry, and Quay Counties)	$7.95	.50	72a		.03	
Asbestos workers (Union, Harding, Lea, Roosevelt, Curry and Quay Counties)	7.50	.30	.25		.02	
Boilermakers	7.00	.60	.75		.02	
Bricklayers (Union, Harding, Santa Fe, Valencia, Torrence, Taos, Socorro, Sierra, Mora, McKinley, Colfax, Catron, San Miguel, San Juan, Sandoval, Rio Arriba, Bernalillo and Los Alamos Counties:						
From basing point of Albuquerque Main Post Office:						
Zone (1) - 0 to 25 road miles	7.52	.38	.40		.02	
Zone (2) - 25 to 50 raod miles	8.02	.38	.40		.02	
Zone (3) - Over 50 road miles	8.52	.38	.40		.02	
Bricklayers - Stonemasons:						
Chaves County	7.84	.38				
Lincoln County	8.34	.38				
Bricklayers - Stonemasons:						
Curry and Roosevelt Counties	7.84	.38				
DeBaca, Guadalupe and Quay Counties	7.84	.38				
Bricklayers - Stonemasons:						
Lea and Eddy Counties	7.84	.38				
Bricklayers - Stonemasons (Otero County)	7.84	.38				
Bricklayers - Stonemasons:						
Dona Ana, Luna, Grant, Hidalgo, and Sierra Counties	6.59	.38

CEMENT MASONS:						
Dwelling houses and apartments not to exceed two stories in height:						
Cement Mason	$5.62	.38	.20			
Dwelling houses and apartments over two stories in height:						
Cement Mason	5.82	.38	.20			
Composition or Mastic	6.07	.38	.20			
Electricians:						
Bernalillo, Santa Fe, Torrance, Debaca, Guadalupe, Quay, San Miguel, Mora, Harding, Union, Colfax, Taos, Rio Arriba, Sandoval, Valencia, Socorro, Catron, Sierra and Grant Counties and all San Juan County excluding the Navajo Indian Reservation.						
From nearest basing point cities or towns and mileage from main post office in the following towns:						
Albuquerque - 15 miles						
Santa Fe - 10 miles						
Las Vegas - 8 miles						
Farmington - 8 miles						
Raton - 6 miles						
Socorro - 6 miles						
Zone (1) Shall be established at each of these locations which shall comprise an area as designated from the main post office in the town:						
Electricians	8.20	.25	1% + .30		1/7%	
Cable splicers	9.02	.25	1% + .30		1/7%	
Zone (2) Shall extend up to 20 miles beyond Zone 1						
Electricians	8.77	.25	1% + .30		1/7%	
Cable splicers	9.59	.25	1% + .30		1/7%	
Zone (3) Shall extend up to 30 miles beyond Zone 1:						
Electricians	9.27	.25	1% + .30		1/7%	
Cable splicers	10.09	.25	1% + .30		1/7%	
Zone (4) Any area beyond 30 miles from Zone 1:						
Electricians	9.84	.25	1% + .30		1/7%	
Cable splicers	10.66	.25	1% + .30		1/7%	
Electricians (Los Alamos County):						
Electricians	9.27	.25	1% + .30		1/7%	
Cable Splicers	10.09	.25	1% + .30		1/7%	

GENERAL BUILDING AND HEAVY ENGINEERING CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Others
ELECTRICIANS (Single or multiple, family dwelling or apartments up to and including 26 units under one roof not exceeding two stories in height):						
Bernalillo, Santa Fe, Counties, and all of San Juan County excluding the Navajo Indian Reservation	$5.40	.25	1%		1/7%	
Electricians (Chaves, Curry, Lincoln and Roosevelt Counties):						
The following zones shall be designated from the main post office of Roswell, Ruidoso, Portales and Carrizozo:						
Zone (a) 0 to 12 miles from main PO:						
Electricians	6.90		1%		1/10%	
Cable splicers	7.25		1%		1/10%	
Zone (b) 12 to 22 miles from main PO:						
Electricians	7.15		1%		1/10%	
Cable splicers	7.50		1%		1/10%	
Zone (c) Anything beyone 22 miles from main post office:						
Electricians	7.30		1%		1/10%	
Cable splicers	7.65		1%		1/10%	
Electricians:						
Zone I - Within 5 mile radius from the Post Office in Las Cruces and Alamogordo:						
Electricians	7.05	.25	1%		1/2%	
Cable splicers	8.05	.25	1%		1/2%	
Zone II - Dona Ana, Otero, Luna and Hidalgo Counties (Except that area specified in Zone I)						
Electricians	7.80	.25	1%		1/2%	
Cable splicers	8.05	.25	1%		1/2%	
Electricians (McKinley County and that Part of San Juan County, New Mexico which comprises part of the Navajo Indian Reservation.						
Zone (a) Includes that City of Gallup and extending 10 road miles from Main Post Office:						
Electricians	7.95	.25	1%		1/2%	
Cable splicers	8.75	.25	1%		1/2%	
Zone (b) extending up to 20 road miles beyond Zone (a):						
Electricians	8.51	.25	1%		1/2%	
Cable splicers	9.31	.25	1%		1/2%	
Zone (c) extending up to 30 road miles beyond Zone (a):						
Electricians	8.98	.25	1%		1/2%	
Cable splicers	9.78	.25	1%		1/2%
